Subject: H-AM3Nelson Park/Mallace Avenue

[redacted]

We object to the development plan of H-AM3 on the following grounds:

1. The proposed site is to be elevated to ensure drainage is sufficient. This means our property will be below the level of the site and therefore intake additional water due to the site elevation causing potential significant property damage.

2. The site proposed is a public park which has already been allowed to become in a state of disrepair. The amount of housing being built in the area necessitates more public park areas not less. This is a disgrace for local children.

3. There is a road which was built on the new estate at the side of the park which gives access to the park although there has always been a fence at the end. This makes no sense unless there have been plans to build on the park for some time????

4. There are many other development opportunities in the local area which do not involve the destruction of a childrens play area.
