Subject: H-Bu 12

Hi iam writing to object to the plans going ahead for building houses. This was tested a few years ago and could not go ahead as the ground is not suitable to build on. As it consumes all the rain. Also is this not part of a green belt inviorment. And it is used daily by people walking their dogs and kids playing I have also not recieved any letter I have been shown by one of my neighbours we are going to be objecting this matter as it is part of a public park and has been for many years.
