Dear Tony,

Having been a resident of [REDACTED] for thirty three years, I am totally opposed to the councils proposal to the development of housing in the Hillview and Stewartfield green belt. Over the years our children were able to play safely in this area, and now our grandchildren can too. We've watched the saplings grow into mature trees which has encouraged wildlife to the area. People other than the residents of Hillview use this area for recreational purposes i.e. walking, cycling and dog walking.

I would be grateful if you will take this into consideration of the residents and oppose any plans to develop this lovely piece of land into a concrete jungle.

Bridie Doherty.
