

Dear Ms McBrierty

**Proposed Development – H-BU 11 Church Street Depot, 10 Residential Properties.**

We would like to register our **OBJECTION** to this proposal.

Having lived next to the Church st depot since 1991 we feel all ages have used the facility ie Changing rooms for all ages of football and the porto cabins to keep goals and other sports equipement in.

Having trees between our houses and the depot hold an abundance of wild life which includes hedgehogs which are protected.

The carpark in the area which you intend to build on is never big enough to substain houses and people going to the playing area, dog walkers, and all kinds of sports, there would be a number of cars parked which would congest all around [REDACTED] Church Street area.

Kind Regards  
Mr & Mrs B J Moore
