Importance: High

Dear Sir / Madam,

I believe that planning consultation has re-commenced regards the above mentioned site.

As a local resident I wish to register my strong objection & concern to this application.

This is on the basis that not only is the land contaminated but more importantly I believe it to be a valuable piece of natural waste land which should be left for the enjoyment of our local wildlife, fauna & flora. The wild snowdrops, daffodils & bluebells are an absolute joy in the spring, the wild flowers essential for our ever decreasing & under threat bees & other insects.

Application has already been granted to hugely increase the housing in & around the Murieston area with developments by both Carla Homes & David Wilson Homes. Enough is enough & we should be more than mindful of the role played by the wildlife & the precious natural balance which is under threat which if left unchecked cause devastating effects on our planet.

PLEASE SAY NO

Yours

Jackie Hutchins
