Subject: Murieston Trail Development Proposals

As a resident of Murieston for the past 34 years and an ex Livingston village inhabitant 54 years ago I wish to object to ANY development of this land which involves disturbing the soil. The elderly residents of Livingston village in my youth knew of the dangers involved in this ex industrial and other waste dump.

Uncontrolled dumping for many years took place on this site and the only way of discovering the true nature of the contamination is to disturb the ground with all the attendant dangers that this would entail.

Yours faithfully thomas patton
