Hi my name is Jason Wright and I live at [REDACTED].

I am making this submissions an individual representing my own views and this is my first representation on the proposed plan to develop the site Linlithgow HLL-12 Preston Farm Field.

I object to the proposed development as we would be losing part of the longstanding green belt which gives a fantastic setting to the south of the town. In addition to this the additional traffic on Preston Road would make a very bad / heavily congested road significantly worse particularly of concern given the school there.

There will also be additional pressure on doctors dentists and schools etc which are already overstretched

Kind Regards

Jason Wright
