---

To whom it may concern,

I strongly object to any building on land mentioned above. Previous objections still stand, so why are we going through this again?

Building on this specific part of land will spoil the area, the trees have a preservation order on them and are beautiful. The wooded area contains wildlife and has various flowers such as snowdrops and bluebells to name two.

I hope for a positive outcome.

Kind regards,  
Lesley Borthwick.
