As you see from my address I am very concerned re proposed development of H-II Welcorholm Farm.

- 1/ The loss of green field sites surrounding our lovely historical town of Linlithgow is tragic. The loss of
- 2/ peaceful walks so easily available to all, with walls in the country side, along the canal is, frightening.
- 3/ How will parking in town cope with many more cars?
- 4/ Can the academy cope with many more families?
- 5/ How can existing roads with low and narrow bridges cope with more heavy traffic?
- 6/ Where is access to said sites between canal "railway"?
- 7/ Will there be pollution into canal from buildings nearby?

I am sure there will be many more complications, but please consider the loss to our town should such a development occur.

Yours sincerely
