---

Dear Sir / Madam

My name is Katrina Ovenden and I live at [REDACTED]  
[REDACTED] I am making this submission as an individual representing my own views. This is my first representation on the proposed plan.

I have real concerns about the current plan to build houses on the above referenced land. Primarily they include:

- We have recently moved here - and this is a piece of land that we oversee as we come up our drive - this would impact our view.
- This would significantly increase the traffic up and down Preston Road with considerably higher risk to our families safety
- This is a beautiful area with protected species - that we would like our children to enjoy
- 60 houses is a very small part of the overall requirement for new houses - will 60 houses really make that much difference, considering the above impacts?
- Understand that this is due too be primarily accessed via Deanburn avenue - however can that really cope with the additional capacity? If not my driveway would be the only way to provide the additional capacity which is not possible

Regards

Katrina Ovenden
