Subject: Objection to LINLITHGOW HLL-12 PRESTON FARM FIELD change to Local Plan
Date: 19 November 2015 08:17:20

As residents of [REDACTED] we are making a submission as individuals representing our own views. This is our first representation on the proposed plan.

There would be a loss of habitat for badgers and bats. There would be the loss of the view to and from Preston House, and the historic canal site would be further urbanised.

The majority of new residents would have to travel to work outside Linlithgow. It would make far more sense and reduce traffic if these new homes were located in somewhere like Livingston, where there are far more job opportunities. Even within Linlithgow, there are several other places in the area better suited to housing developments.

Arthur & Beryl Homan-Elsy
