---

I write regarding my strong objection to the above planned housing development for the public space to the east of [REDACTED].  
As a resident who lives at [REDACTED] I am concerned there may be an access road through to this development leading to increased traffic, congestion, water run off and road damage (the manholes outside number 8 have had to be repaired twice during the past few years) also the loss of green space.

Yours sincerely  
Joyce Mowbray
