---

Dear Sir

I wish to record my objections with regard to the proposed zoning for residential development, H-LL4 (45 houses) on the greenfield site just to the south of the settlement boundary and east of Manse Road which is proposed in the Local Development Plan by West Lothian Council.

I feel that there are a number of issues related to this site which would make it unsuitable for housing development, particularly the lack of suitable road access given the current congestion at peak times on Manse Road especially at the bridge crossing of the canal and the junction at the bottom of Back Station Road, plus the lack of available primary schooling.

Kind regards  
Nick Goldfinch
