Comment

Breich
(page
83)

We as a business support the proposals made in the West Lothian Council Local Plan. We wish to extend our support to additional land behind blinkbonny gardens which is suitable for housing and will also support the nearby train station. When investigating the usage of the local train station it is clear that passengers numbers are extremely low and will require a significant increase in residents to attract a better service for current and future residents of Breich village. In terms of infrastructure, the village is suitable for expansion as there is capacity and services in place. The local primary school is one of the smallest schools in West Lothian and would thrive if more homes were built in the area bringing attracting new families. We are encouraged by the investment that West Lothian Council have put into the new School and highlight that similar investment in new homes is required for the village. The village itself is supported with great commuter links including the A71 which passes through the side of the village. The village is often referred to as the Gateway to West Lothian and is the first village seen from Lanarkshire and the south. We are very supporting of the views to improve the look of the village and create a friendly neighbourhood for all the residents to enjoy. We believe that substantial housing is required west of Breich taking up the land to the Breich Railway station. This provide a sizeable development that would bring jobs and investment to the area. This investment is key to attract local services such as newsagents, shops and other amenities. We would also support proposals to discuss land east of Woodmuir Primary School as this area of Land supports good access to the A71 and fits in well with the surrounding area. These additional areas of land are in keeping with the key requirements of the housing policy and also limits the amount of disruption to current residents. We are confident that these proposals will be welcomed by the majority of the villagers and will encourage enhanced services to all the current and future residents of Breich.

Appendix 2 - Schedule
of Housing Sites / Site
Delivery Requirements
(page 119)

We are supportive of the current plans but wish to extend proposals for employment considerations including potential commercial units for shops and services. This could be running parallel with the A71 opposite Breich railway station or at the east side of breich. This would support local residents but also allow road users to stop and bring business to the local area. We identify the village as a key area in need of expansion to improve the local services.
