I do not support the proposed plan for the development for Linlithgow - particularly H14,H17 and H110. Some of the land is in a Conservation Area and the remaining land is high quality agricultural land which we cannot afford to build on. Furthermore I feel that the disturbance of the soil will result in the flooding which will lead to the Canal being overloaded with water. There are plenty gap sites available and the majority of the housing plan would be better served on the Edinburgh Road thus avoiding the chaos that already exists on Manse Road which is full of parked commuters cars . To add to this the bridge over the canal is single track and traffic queues at peak times stretch down Back Station Road and on to Edinburgh Road. I have in fact witnessed on more than one occasion male drivers getting out of their cars shouting at one another because they do not want to give way to the other driver!A new road from the Edinburgh Road (where I proposed the new large housing development be sited)to the South of the town would be advantageous thus avoiding going through the High Street with it's poor air quality.

4. CONTEXT (page 7, paragraphs 2.1-2.2)

Provides wider context for the LDP in geographic terms and explains how the LDP fits with the Strategic Development Plan (SDP1).

5. ROLE AND PURPOSE OF PLAN (page 7, paragraphs 3.1-3.5)

Establishes the role and purpose of the LDP in terms of its being a material consideration in the determination of any planning applications for development in West Lothian and, when adopted by the Council, will replace the West Lothian Local Plan. It also sets out what documents the plan must comply with i.e. the Planning etc (Scotland) Act 2006 and what documents will accompany the plan i.e. the Action Programme etc.

Infrastructure Requirements and Delivery (page 9)	The plans for proposed developments seem to change periodically. One cannot keep up with the changes. Is that perhaps the plan? If the newest proposed plans are put into action we would need a great deal more educational facilities, health facilities, car parking facilities etc. Also it would add to the number of commuter travelling by train and we have been told the railway station cannot take any more carriages.
Town Centres and Retailing (page 9)	It is almost impossible at certain times to park in the town. Totally inadequate parking and more housing can only add to that. The town centres obviously lose out if parking is not available. Tourist buses were parked up both sides of the Cross this week and cars had great difficulty accessing the only town centre car park.
The Natural and Historic Environment (page 9)	The proposed development HLL4, HILL7 and HLL10 is on prime agricultural land. We as a nation appear to be reliant on other countries providing our food. Why cannot we use our own prime agricultural land for production of food. Housing is not suitable on this quality of land. There are plenty brownfield sites available. Wildlife will be affected - Mainly foxes, badgers, bats, hedgehogs, geese, pheasants etc. Mature trees and hedgerows would not doubt be cut down denying wildlife of their habitat.

7. THE SPATIAL STRATEGY (INCLUDING POLICY FRAMEWORK) (page 10, paragraphs 5.1-5.10)

In the context of the Strategic Development Plan (SDP), the LDP identifies West Lothian as being one of thirteen Strategic Development Areas where development will be focused in sustainable locations where infrastructure is either available or can be provided and in locations where there are no environmental constraints.
