Countryside Belts  
(page 42,  
paragraph 5.144)

The objector considers the purpose and function of the Countryside Belt in the area west of Uphall north of the A89 can be sensitively released from the Countryside Belt as development would still maintain separation between Uphall and Dechmont/Livingston at this location. The proposed commercial development will help promote public access (enhancing an existing core path within the site and new connections created) as well as improvement to the road infrastructure at the A89. There is a similar land use / Policy conflict for the cottage industries on the south side of the A89 here where the Policy is also challenged

Development in  
the Countryside  
(page 42,  
paragraphs 5.145-  
5.147)

Objector supports the principle of Policy EIV3 in the context of offering flexibility for countryside development which offers diversity. However the objector is seeking identification of the land at Houston Mains Holdings for development, and removal of it from the Countryside Belt.

WEST LOTHIAN LOCAL DEVELOPMENT PLAN: PROPOSED PLAN  
REPRESENTATION ON BEHALF OF [REDACTED]

Previous Representation references: LATE-0011 (Call for Sites), M R-Q0058 (Main Issues Report)

We are instructed by Simpson Highview Ltd, to make representations to the Local Development Plan Proposed Plan consultation with respect to property they own, at [REDACTED]

A written representation prepared by Rapleys LLP has been electronically uploaded to the Online Consultation Response portal at [https://www.esurveycreator.co.uk/s/WLC\\_PROPOSEDPLAN](https://www.esurveycreator.co.uk/s/WLC_PROPOSEDPLAN)

The representation objects to the proposed plan non-allocation of the land for residential use. Previous representations at the Call for Sites (LATE-0011) and Main Issues Report (MIR-Q0058) sought the removal of the land from the countryside belt and re-designation for residential use.

In response to the Expression of Interest (LATE 0011), West Lothian Council replied:

"Development of the site is not in accordance with the council's preferred development strategy which supports development within the core development areas and other strategic locations. There are other more suitable sites available for development. Priority is given to brownfield land being developed in the Strategic Development Plan and this is a greenfield site.

The site is currently part of a countryside belt, preventing settlement coalescence. Development at this location would constitute a physical and intrusive expansion of the existing settlement.

The site is visually intrusive when viewed from the A89. Development would result in settlement coalescence."

In response to the Main Issues Report (M R Q-0058), the contributor argued that the land at Houston Mains, promoted for the future development of a horticultural business, is a compatible and effective use of the land and the LDP policies relating to protection of the countryside resource around this location can continue to work alongside carefully managed development. The development management process would clearly offer that protection, supported by an up to date LDP policy framework going forward.

The Council acknowledged the representation comments in response confirmed they would change the Proposed Plan stating: "The preferred approach has been refined and is to be taken forward to the Proposed Plan. Development within the Houston Mains Holdings area would be determined under the terms of policies relating to development in the countryside."

Whilst we are content with the policies relating to development in the countryside, the Proposed Plan does not go far enough in terms of the objector's request that the land be allocated for residential development.

In summary, our client's are actively seeking the redevelopment of the site to housing.
