

# THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

#### **CONSULTATION RESPONSE PORTAL**

Have Your Say on the Proposed Plan

#### Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at <a href="wellop@westlothian.gov.uk">wellop@westlothian.gov.uk</a> We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

## 7. THE SPATIAL STRATEGY (INCLUDING POLICY FRAMEWORK) (page 10, paragraphs 5.1-5.10)

In the context of the Strategic Development Plan (SDP), the LDP identifies West Lothian as being one of thirteen Strategic Development Areas where development will be focused in sustainable locations where infrastructure is either available or can be provided and in locations where there are no environmental constraints.

Comment

RFA is acting on behalf of Davidson and Robertson Rural representing solutions in respect of their land at Wilcoxholm, Linlithgow. The site is now referred to as Wilcoxholm / Pilgrims Hill within the Proposed Local Development Plan. This is now a proposed New Allocation RFA is acting on behalf of Davidson and Robertson Rural representing comprising of 22-25ha of land with a notional capacity of 500 houses. Whilst our clients generally endorse the approach being taken by the Council in respect to their land and welcome the allocation of the site within the LDP we wish to make further representations on aspects of the LDP. We therefore conditionally endorse the proposed development further to more detailed consideration with WLC on capacity and phasing. We refer to our previous representation in respect within earlier submissions which provided a Development Framework and written rationale for the inclusion of this site. Reference is also made to the submission on this site at the Main Issues Report stage which covered the development context and site characteristics as well as identifying development potential. Allocation of the land at Wilcoxholm is fully in accordance with the LDP spatial strategy and the overall aims and objectives of the Plan. The site contributes to the aims and in that it allows the plan to: • direct growth to places where it will support sustainable development goals, community regeneration, and maintain and enhance the character and identity of towns and villages; • ensure that necessary social and physical infrastructure accompanies growth; • allow for a range of house types and sizes across all sectors; • achieve and maintain a minimum of 5 years effective housing land supply in each of the sectors identified in the current Housing Needs and Demand Assessment; • have regard to significantly increased demand for rented housing; and • deliver affordable housing, particularly in the areas of highest demand. In addition we consider the proposed allocation at Wilcoxholm to be fully in accordance with: • National Planning Framework 3 objectives: • Scottish Planning Policy (2014) guidance: • The South East Scotland Strategic Development Plan (Strategic Development Plan); - Relevant WLC Supplementary Planning Guidance on Housing and Affordable Housing, SPP (2014) requires that development plans ensure a generous supply of land allocated for housing, including affordable housing to maintain an effective five year housing land supply. Furthermore a generosity margin of 10-20% needs to be applied. Wilcoxholm is a sustainable development which makes provision for good placemaking and optimises the use of land and available infrastructure. It complies with the tests of sustainability within the SPP (para 29) and the tests of effectiveness within Planning Advice Note 2 /2010. There is a critical need to respond to address housing needs and demand within West Lothian as identified within the Proposed LDP and related Housing Strategy particularly in relation to Affordable Housing Policy within West Lothian. We consider that Wilcoxholm can make a significant contribution to market and affordable housing within the West Lothian SDA. SESplan's Strategic Development Plan has set the housing requirement for West Lothian at 18,010 in the period up to 2024. A generosity allowance of 10% has been added as required by SPP giving an overall requirement of 19,811 up to 2024. This is broken down into 12,562 up to 2019 and 7,249 up to 2024 as indicated in Table 5 of the Proposed LDP; The West Lothian Housing Land Supply Target. The subsequent calculation is largely derived from figures relating to the Housing Land Audit 2014. We are not in agreement with the figures quoted in Figure 5 given that: • the 2015 HLA should be utilised; • the effective supply of 8,701 is not agreed; • Constrained sites programmed for implementation of 4,358 is an over estimate. Programming mentioned in Paragraph 5.48 referring to the period beyond the LDP does not assist in meeting immediate and 'effective' land requirements. In the interim it is not clear how output on currently identified sites can or has been increased. Despite an increasing rate of house building in recent years (paragraph 5.49) infrastructure and educational capacity continues to pose a serious constraint to house building, particularly within marketable West Lothian Strategic Development Area's (SDA) such as Linlithgow. As mentioned above, Linlithgow is part of the West Lothian Strategic Development Area. It complies with Policy 1a and 1b of SESplan and responds to the requirements of HOU5-7. We therefore welcome the Council's reasons for lifting the area of restraint and identifying scope for development within the town. This needs to be considered against the overall targets for growth and the likely shortfall in land supply within West Lothian due to programming and infrastructure constraints. In this light the notional allocation of 500 units is not agreed and does not accord with realistic densities nor the principles of good place making. The site would be used predominantly for residential purposes and a mix of housing and open space. It is difficult to see how the existing business could operate in conjunction with housing development and this is likely to be relocated. The potential for leisure and associated uses adjoining the Union Canal remain to be fully explored with Scottish Canals/British Waterways. As previously noted the site would involve the extension of the settlement boundary to the 89080 and the re-use of agricultural land. A masterplan would address issues of integration and landscape fit. It is well contained and effective long term boundaries exist allowing a new entrance to Linlithgow. Due regard will need to be given to infrastructure and service capacity within Linlithgow. Paragraph 5.64 states that 'Housing Development can only proceed once that secondary school capacity is available and is therefore unlikely that land will be released before 2019 given current educational constraints'. Furthermore the Proposed Plan suggests that There are capacity Issues relative to Low Port Primary School and Linlithgow Academy which require to be addressed'. Our clients do not necessarily agree with this statement and wish to engage with the Council on detailed educational matters. We believe that in the light of recent appeal decisions that there may be scope for earlier development within Linlithgow. Access into the development site would be from the B9080 to Wilcoxholm Farm. There is an existing access and scope for additional routes into the area from the main road. It is accepted that the road capacity will require more detailed consideration through a Traffic Assessment covering: • Junction improvements; • Road capacity; • Canal Bridge Crossing; • Pedestrian Access to the Railway Station. It is acknowledged that a Flood risk Assessment is required in conjunction with SEPA. Early engagement with Scottish Canals regarding the Union Canal is also proposed. A number of other issues are raised, each of which will be addressed through a masterplanning approach taken to any subsequent planning application. This will include: - Site Investigation and consultation with the Coal Authority; - Restrictions required by Safeguarding Edinburgh Airport; - Geo -Environmental / Contamination; • Archaeological Assessment; • Union Canal Scheduled Ancient Monument; • Drainage and related infrastructure related to water quality. Circular 3/2012 on Planning Obligations and Good Heighbour Agreements provides a means for effectively delivering infrastructure to support development. Our clients would like to engage with WLC on this together with forthcoming Supplementary Planning Guidance in respect of Wilcoxholm. In relation to other matters raised we do not envisage any overriding physical or environmental constraints that would necessarily preclude development over any of the site. We note that the Action Programme in relation to Linlithgow there is number of key infrastructure proposals that are required to support the development of allocations, land safeguards and

proposals set out in the LDP.
