

West Lothian Council

THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

CONSULTATION RESPONSE PORTAL

Have Your Say on the Proposed Plan

Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at wlldp@westlothian.gov.uk We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered.

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

Map 3 -
Livingston
Area

I feel that planning should not be granted for proposed development of the H-LV3 site, and it should be de-allocated as an area suitable for development. I object to planning being granted on the following basis: By its own admission, West Lothian Council states "the site is embraced by and adjacent to land affected by contamination" which should it be disturbed may pose some potentially serious health concerns for local residents, wildlife, and vegetation. Transporting this waste would put all residents at risk, due to the fact the area is in a no through road. Planning permission has been refused on previous occasions on this basis. In 2009 a tree preservation order was made by West Lothian Council, therefore this proposed development would be in direct contravention of this order, and completely negates the reason it was implemented. I believe that by removing the trees, it would ruin the setting and aesthetics of the area, which infringes into the Murieston trail, which is enjoyed by residents and visitors alike. Development would remove habitat for native wildlife, whilst also having a detrimental effect on the visual impact of the area for local residents. The character of the neighbourhood would also be irrevocably impacted in a negative way by removing trees and further building development. The building of new homes in this area would also have a noise impact to this quiet neighbourhood, which would disrupt sleeping patterns for residents such as myself who work shift patterns. This noise pollution would likely be over a long period which is known to have detrimental effects on health. The impact on the road network around the area would also be detrimental. The road network is currently busy, but this would further increase traffic, and make it more hazardous for residents, especially children. There are currently residents and visitors who park on the Murieston Valley road which is at present compromising road safety (parking on corners, and at junctions), and this would likely increase with the building of new homes. This road is also a no through road which further increases the effect of volume of traffic for all residents within the immediate vicinity of the road. I believe the local infrastructure is insufficient to support this proposed development, including the following; the fact that the Valley road is a no through road, the local doctor's surgery, dentist and schools would also be burdened with an increase in residents. Currently broadband is under 2 MBPS in my area, which may be adversely affected by further development, and is also a necessity of my business, which would cause me a direct negative impact. The proposal also states that there is "Limited capacity at East Calder waste water treatment works" further evidence that the current infrastructure is not conducive to increased development. It has been noted that there has been erosion to Murieston water, with remedial works having been carried out in 2012, and with further construction this may have an impact on the amount of water which may flow into Murieston water, further increasing erosion, increasing the potential for flooding, and costing the council in maintenance.

12. ACCOMPANYING DOCUMENTS

Alongside the LDP is a suite of documents which are required by statute as part of the preparation and supporting evidence for the LDP.

I hereby wish to object to the proposed development of site H-LV3.

I feel that planning should not be granted for proposed development of the H-LV3 site, and it should be de-allocated as an area suitable for development. I object to planning being granted on the following basis:

By its own admission, West Lothian Council states "the site is embraced by and adjacent to land affected by contamination" which should it be disturbed may pose some potentially serious health concerns for local residents, wildlife, and vegetation. Transporting this waste would put all residents at risk, due to the fact the area is in a no through road. Planning permission has been refused on previous occasions on this basis.

In 2009 a tree preservation order was made by West Lothian Council, therefore this proposed development would be in direct contravention of this order, and completely negates the reason it was implemented. I believe that by removing the trees, it would ruin the setting and aesthetics of the area, which infringes into the Murieston trail, which is enjoyed by residents and visitors alike. Development would remove habitat for native wildlife, whilst also having a detrimental effect on the visual impact of the area for local residents. The character of the neighbourhood would also be irrevocably impacted in a negative way by removing trees and further building development.

The building of new homes in this area would also have a noise impact to this quiet neighbourhood, which would disrupt sleeping patterns for residents such as myself who work shift patterns. This noise pollution would likely be over a long period which is known to have detrimental effects on health.

The impact on the road network around the area would also be detrimental. The road network is currently busy, but this would further increase traffic, and make it more hazardous for residents, especially children. There are currently residents and visitors who park on the Murieston Valley road which is at present compromising road safety (parking on corners, and at junctions), and this would likely increase with the building of new homes. This road is also a no through road which further increases the effect of volume of traffic for all residents within the immediate vicinity of the road.

I believe the local infrastructure is insufficient to support this proposed development, including the following; the fact that the Valley road is a no through road, the local doctor's surgery, dentist and schools would also be burdened with an increase in residents. Currently broadband is under 2 MBPS in my area, which may be adversely affected by further development, and is also a necessity of my business, which would cause me a direct negative impact.

The proposal also states that there is "Limited capacity at East Calder waste water treatment works" further evidence that the current infrastructure is not conducive to increased development. It has been noted that there has been erosion to Murieston water, with remedial works having been carried out in 2012, and with further construction this may have an impact on the amount of water which may flow into Murieston water, further increasing erosion, increasing the potential for flooding, and costing the council in maintenance.

Please consider this whilst reviewing suitability for further development in this area.
