Community
Regeneration (page
8)

Objection - plan states Promote community regeneration through the development of brownfield sites, create local employment opportunities and help to address inequalities. No brownfield sites in Linlithgow up for development all greenfield

Infrastructure
Requirements and
Delivery (page 9)

Objection - plan states: Ensure that all essential infrastructure and facilities are provided to support population and economic growth and where appropriate, secure proportional developer contributions to facilitate the delivery of such provision. It is important to note that without the necessary infrastructure requirements having been satisfactorily addressed the council will be unable to support development proposals. Infrastructure in Linlithgow is not there to cope with additional cars developments would bring. Especially as most of the proposed developments would have their access over the canal and a series of unsuitable junctions that are historic, can't be amended and are unsafe for pedestrians. `air quality is also nearing critical limits on the high street.

7. THE SPATIAL STRATEGY (INCLUDING POLICY FRAMEWORK) (page 10, paragraphs 5.1-5.10)

In the context of the Strategic Development Plan (SDP), the LDP identifies West Lothian as being one of thirteen Strategic Development Areas where development will be focused in sustainable locations where infrastructure is either available or can be provided and in locations where there are no environmental constraints.

Comment

Linlithgow & Linlithgow Bridge (page 89)

Objection to Clarendon Farm development. Reason site not suitable for 120 houses with preferred access route proposed by developers to be over canal bridge at Manse road and into Clarendon Road. Canal bridge is not a safe route for pedestrians - see recent incident police number PS20151030-539 where buggy was struck by van travelling over the bridge. This route cannot take anymore cars as would be generated by the development. Also Lowport school is at capacity and would need to be extended before more family homes were built in the catchment

Objection: This plan on the web is very difficult to fill in - no key for the maps and very complicated to find particular section need to comment on. PDF needs a jump to page function. Plan information is also inaccurate i.e.. school catchments are wrong so should be amended and additional time given to object.
