

West Lothian Council

THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

CONSULTATION RESPONSE PORTAL

Have Your Say on the Proposed Plan

Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at wlldp@westlothian.gov.uk We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered.

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

Livingston
(page 90)

Introduction - Alternative Housing Site: RFA wishes to make a representation to the West Lothian Proposed Local Development Plan (LDP) on behalf of DRR Rural in respect of land at Balgreen Farm, Livingston, West Lothian, EH54 9AH, owned by [REDACTED]. Despite previous representation being made, the subject site is not identified within the Proposed LDP as a preferred site for housing purposes. Formal submissions have previously been submitted through the LDP process fully identifying planning reasons for inclusion of the land as a housing site. Our client does not accept the Council's reasons for the non-inclusion of this land and wishes to challenge the decision through a formal objection to the Proposed LDP. MIR site EOA-0111, Balgreen Farm, Livingston is effective, capable of being delivered in the short to medium term, and will help to meet housing need in West Lothian. We believe that it should be allocated for housing development in the Local Development Plan. Non-Effective Sites: SESplan's Strategic Development Plan has set the housing requirement for West Lothian at 18,010 in the period up to 2024. A generosity allowance of 10% has been added as required by SPP giving an overall requirement of 19,811 up to 2024. This is broken down into 12,562 up to 2019 and 7,249 up to 2024 as indicated in Table 5 of the Proposed LDP; The West Lothian Housing Land Supply Target. The subsequent calculation is largely derived from figures relating to the Housing Land Audit 2014. We are not in agreement with the figures quoted in Figure 5 given that: • the 2015 HLA should be utilised; • the effective supply of 8,701 is not agreed; • Constrained sites programmed for implementation of 4,358 is an over estimate. Programming mentioned in Paragraph 5.48 referring to the period beyond the LDP does not assist in meeting immediate and 'effective' land requirements. In the interim it is not clear how output on currently identified sites can or has been increased. Despite an increasing rate of house building in recent years (paragraph 5.49) infrastructure and educational capacity continues to pose a serious constraint to house building, particularly within marketable CDAs such as East Calder. West Lothian Council needs to provide an effective and generous housing land supply at all times. The preferred strategy appears to focus on increasing numbers within the Core Development Areas, but much of this is earmarked for phased development beyond 2019 and indeed beyond 2024. Indeed, even in early phases of development within the CDAs progress is appearing significantly restricted due to infrastructure provision issues. This approach is over reliant on large constrained sites, which will not deliver effective sites and which is constraining the level of house building throughout West Lothian. WLC must allocate sites that are effective and deliverable within the next 5 years, and site EOA-0111 is just such a site. It seems unreasonable and unclear why constrained and non-effective sites are preferred over instantly deliverable sites. Land at Balgreen does not have any overarching infrastructure constraints and can be serviced to allow development. It is well located for local services. The Subject Site: EOI-0111 - The land at Balgreen Farm can assist the Council in meeting the strategic housing land requirements within the Housing Market Area (HMA), and provide an enhanced range and mix of housing including affordable housing for Livingston in accordance with SESplan's SDP and Scottish Planning Policy objectives. Balgreen Farm is located immediately south of Murieston, approximately 6 miles south of Livingston town centre. It is immediately adjacent to the settlement envelope and would allow a logical expansion to the urban area over the plan period. WLC acknowledges that the site possesses clear and defensible boundaries (see SEA, August 2014) and is not prime agricultural land. In relation to EOI-0111 WLC previously ruled out the Balgreen Farm site for the following reasons: • Development of the site is not in accordance with the Council's preferred development strategy which supports development within the core development areas and other strategic locations and the release of brown-field land in the first instance for development. There are other more suitable sites available for development. • The physical development of this site would constitute an intrusive physical expansion into the Countryside Belt and that more acceptable sites are proposed to be brought forward to support development requirements. • Those education capacity constraints within the area which prevent development of this site in the short term. The Council's preferred strategy for West Lothian is largely dependent on the performance of Core Development Areas and key strategic locations which includes Livingston. It is clear that the performance of these, and in other strategic locations, has been variable and not in accordance with strategic targets. There is an over reliance on these areas at the expense of equally sustainable and more marketable locations such as Livingston which should be a major focus for housing and economic development. The EOI-0111 site can assist the Council in meeting the strategic housing land requirements within the Housing Market Area (HMA), and provide an enhanced range and mix of housing including affordable housing for Kirknewton in accordance with SESplan's SDP and Scottish Planning Policy. WLC indicated that development in this location would be 'a significant intrusion into the Livingston Countryside Belt'. This is of course the case, given the site is currently undeveloped, and such a statement can be attributed to any CDA or greenfield development. Any environmental impact of such an expansion would be carefully assessed through appropriate development management and EIA procedures, however, planning and environmental specialists are of the opinion that there would be no significant environmental impacts associated with a housing development in this location. The issue of railway noise identified by WLC is also accepted, but this is not an issue for justifying its elimination as a housing site. The railway acts as a sensible and defensible boundary to the wider countryside and site planning and design would fully mitigate against impacts from railway noise. Again, the landowner accepts the site is elevated in nature (which makes it a more attractive site from a housebuilder's perspective), but that this is not a reason for its elimination. Robust structural planting will mitigate and impacts to an acceptable level, adding to a defined urban edge and increasing the biodiversity opportunities of the area. Education capacity constraints are cited as issues in the short term. Educational constraints are of course a matter for the Local Authority to overcome and the landowner is more than aware certain contributions will be required from development of the site to support such infrastructure provision. Again, this is not a reason for excluding this, or any other site, from inclusion in the LDP. The objective in proposing this allocation is to promote a sustainable and high quality development which responds to strategic housing requirements. The site is well located and can be fully integrated into the urban structure. It is free from significant constraints and is capable of being effectively developed. Balgreen Farm provides an outstanding development opportunity that should be promoted through the LDP. In particular a housing land allocation of Balgreen Farm would: • Be very attractive to house builders; • Assist in addressing the supply of land within an established growth corridor in order to meet established demand within the housing market area; • Address issues regarding land supply, choice and range of housing tenures and type and affordable provision to be addressed; • Allow a high growth market recovery strategy to be pursued in conjunction with other key allocations and infrastructure decisions; • Address development pressures within the SESplan region by allocating an effective, sustainable housing use; • Use available infrastructure and allow development in close proximity to the transport network, jobs services and commercial facilities. It is approximately 29.5 ha and has the capacity for a significant release with a critical mass of housing. It is particularly well contained and has excellent accessibility, Castleview Lane feeds into the M8 and the A71, connecting the site with Livingston, Edinburgh and Glasgow. Conclusions: Paragraph 110 of SPP stated that 'The planning system should: identify a generous supply of land for each housing market area within the plan area to support the achievement of the housing land requirement across all tenures, maintaining at least a 5-year supply of effective housing land at all times'. We do not believe WLC is achieving this through the Proposed LDP and we offer the subject site to assist in this. SPP also recognises, acknowledges and accepts that some development will need to take place on green field land adjacent to existing settlements. The land being promoted is currently outwith, but adjacent to, the settlement envelope and on currently land designated as "Countryside". However, for the reasons identified it is respectfully requested that this land is reallocated from a Countryside designation to a housing allocation (as supported by SPP in order to maintain an effective and generous housing land supply at all times). In terms of PAII 2/2010 we are not aware of any ownership, physical, financial or marketing constraints that would preclude this site from coming forward in the short-medium term and form part of the 5 year land supply. Infrastructure and services are available to support the development of this land during the plan period. Land at Balgreen Farm, Kirknewton (LATE-0002) provides a feasible and effective proposition which is an excellent development opportunity that should be promoted through the LDP. It forms a logical and natural extension to the area and can be justified in housing supply, environmental, urban design and infrastructure terms in promoting economic recovery and investment. The Council should recognise the significant benefits of a potential allocation and encourage deliverable development in this most sustainable of locations. It is therefore respectfully requested that West Lothian Council fully re-considers the potential of this land against the revised requirements of the SDP and makes an allocation in the Local Development Plan that can be taken forward in the short-medium term.

9. APPENDICES (page 99)

A number of appendices are included at the end of the LDP which provides additional detail on specific elements of the Proposed Plan.
