

THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

CONSULTATION RESPONSE PORTAL

Have Your Say on the Proposed Plan

Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at <u>wlldp@westlothian.gov.uk</u> We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered.

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

Comment

RFA is acting on behalf of Davidson and Robertson Rural who represent landowners at Hartwood Road, West Calder who maintain their objection to the Proposed West Lothian LDP. Despite previous representation in respect of this land the site is not included in the LDP as a housing allocation. Earlier submissions provided a written rationale for the inclusion of this site and we do not agree with the Councils reasons for rejecting the proposals made. These arguments are made again in this representation. The site contributes to the aims and objectives of the Proposed LDP in that it will help to: • direct growth to places where it will support sustainable development goals, community regeneration, and maintain and enhance the character and identity of towns and villages; • ensure that necessary social and physical infrastructure accompanies growth; • allow for a range of house types and sizes across all sectors; • achieve and maintain a minimum of 5 years effective housing land supply in each of the sectors identified in the current Housing Needs and Demand Assessment; • have regard to significantly increased demand for rented housing; and • deliver affordable housing, particularly in the areas of highest demand. Allocation of the land at Hartwood Road would be in accordance with the LDP spatial strategy and the overall aims and objectives of the Plan in terms of promoting sustainable economic growth. In addition we consider the allocation to be in accordance with: • National Planning Framework 3; • Scottish Planning Policy (2014); and • The South East Scotland Strategic Development Plan (Strategic Development Plan). SPP requires that development plans ensure a generous supply of land allocated for housing, including affordable housing to maintain an effective five year housing land supply. Furthermore, a generosity margin of circa 10% needs to be applied. Hartwood Road is a sustainable development site which makes provision for good placemaking and optimises the use of land and available infrastructure. It complies with the tests of sustainability within the SPP (para 29) and the tests of effectiveness within PAN 2/2010. There is a critical need to respond to address housing needs and demand within West Lothian, as identified within the Proposed LDP and related Housing Strategy, particularly in relation to Affordable Housing Policy within West Lothian. We consider that Hartwood Road can make a significant contribution to market and affordable housing within the West Lothian SDA. SESplan's Strategic Development Plan has set the housing requirement for West Lothian at 18,010 in the period up to 2024. A generosity allowance of 10% has been added as required by SPP giving an overall requirement of 19,811 up to 2024. This is broken down into 12,562 up to 2019 and 7,249 up to 2024 as indicated in Table 5 of the Proposed LDP; The West Lothian Housing Land Supply Target. The subsequent calculation is largely derived from figures relating to the Housing Land Audit 2014. We are not in agreement with the figures quoted in Figure 5 given that: • the 2015 HLA should be utilised; • the effective supply of 8,701 is not agreed; • Constrained sites programmed for implementation of 4,358 is an over estimate. Programming mentioned in Paragraph 5.48 referring to the period beyond the LDP does not assist in meeting immediate and 'effective' land requirements. In the interim it is not clear how output on currently identified sites can or has been increased. Despite an increasing rate of house building in recent years (paragraph 5.49) infrastructure and educational capacity continues to pose a serious constraint to house building, particularly within marketable CDAs such as West Livingston/Mossend. In summary, all of the CDAs are underperforming in terms of output and this is having serious repercussions in attaining SESplan targets. Hartwood Road is a sustainable development which makes provision for good placemaking and optimises the use of land and available infrastructure. The LDP needs to identify a range of opportunities to supplement mainstream housing growth within the area. Hartwood Road is ideally placed in transport terms as an accessible location. The land is currently designated as Countryside Belt and we do not consider that the LDP has seriously reviewed this boundary as part of a marketable housing proposition. Previous representations regarding this site have demonstrated how the land can be developed within robust and defensible long term boundaries. In finalising the LDP the policies must promote economic and rural diversification within locations such as West Calder. Hartwood Road is an effective and deliverable site which is strategically located to take advantage of existing development and available infrastructure within a growth corridor identified by SESPlan. It is considered that the allocation of this land would not adversely impact on the landscape and integrate development on the urban fringe. Any adverse environmental impact is capable of being mitigated. It is anticipated that, subject to an agreed layout and design, the site could accommodate a sustainable housing layout. Alternatively, community facilities and uses could be developed on the site. The land is well contained by physical boundaries and the landform has the capacity to accommodate built development. In addition it has been demonstrated that the site is a sustainable location in that it: • Can be satisfactorily accessed via A71 in accordance with normal highway standards and it is accessible to public transport and rail services. • Environmental considerations indicate that the landscape and visual impact of development would not be significant and can be satisfactorily mitigated. • There are no environmental and landscape designation affected and bio- diversity would be improved. • There is no risk of flooding and the development would be subject to a SUDs Management Scheme; • Drainage infrastructure and utilities exist locally for cost effective connections subject to a satisfactory Drainage Impact Assessment by Scottish Water. • Urban design would consolidate the village structure enhancing the urban edge to the south through infill development. In maintaining our objection we would wish to be represented at the LDP Examination Hearing in order to present our case in favour of this development.
