

West Lothian Council

THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

CONSULTATION RESPONSE PORTAL

Have Your Say on the Proposed Plan

Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at wlldp@westlothian.gov.uk We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered.

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

Sustainable
Housing Locations
(page 9)

Our client supports the Vision Statement to provide a generous supply of housing land and an effective five year housing land supply at all times. Our client acknowledges that the Council's aim is to continue to promote and support major development within the previously identified CDA's. Whilst our client is supportive of this in principle, this should not preclude other effective sites from coming forward, especially if there are delays over the CDA developments coming forward.

7. THE SPATIAL STRATEGY (INCLUDING POLICY FRAMEWORK) (page 10, paragraphs 5.1-5.10)

In the context of the Strategic Development Plan (SDP), the LDP identifies West Lothian as being one of thirteen Strategic Development Areas where development will be focused in sustainable locations where infrastructure is either available or can be provided and in locations where there are no environmental constraints.

Strategic
Allocations
(including
previously
identified
Core
Development
Area
Allocations)
(page 25,
paragraphs
5.57-5.61)

It is noted in paragraph 5.4 that the LDP's spatial strategy seeks to deliver sustainable development by continuing to support the previously established CDA allocations at Armadale, East Broxburn / Winchburgh and Livingston and the Almond Valley (Calderwood, East Calder and Gavieside, West Livingston), together with strategic allocations at Heartlands, Whitburn. The LDP also notes that further land allocations for development are required in order to meet the SESplan requirements in full. Our client supports the requirement for further land to be allocated in order to meet the much needed housing demand. However, there are concerns regarding the reliance upon the existing CDA's coming forward within the timescales and it is submitted that the established CDA's should not preclude new sites from coming forward and being developed, especially if they are effective sites (such as Preston Farm, H-LL-12), that are able to contribute towards the housing land supply.

Linlithgow and
Linlithgow
Bridge (page
26-27)

The LDP notes that Linlithgow is within the West Lothian Strategic Development Area as identified by SESplan. It is stated within the LDP that the area of restraint designation, previously applied to Linlithgow has now been removed. Our client supports this. Paragraph 5.65 of the LDP supports a sequential approach to new development being supported in Linlithgow / Linlithgow Bridge giving priority to brownfield sites within the current settlement boundary, secondly appropriate and suitable greenfield sites within the current settlement boundary and, thereafter, greenfield release outside the current settlement boundary. Any release of land would also follow a sequential approach with preference given to those sites which are closest to the town centre, including the railway station, are within walking distance of catchment schools and other services acceptable in landscape and townscape terms and avoid impacting on water quality of Linlithgow Loch. Our client opposes this strategy of a sequential approach. All allocated sites will contribute towards the housing land supply and the role of the LDP is to direct growth in sustainable locations within a key period. The sequential approach, when used for retail development, assesses sites against each other in order of preference of location. This would seem to be unnecessary for the housing allocations given that West Lothian Council have already allocated the sites for development within the LDP. There should be no need for any preferential assessment of the location of the housing allocation, as they are all promoted for development. The LDP has in effect already completed the sequential decision making, by deeming that greenfield land is required to be released across Linlithgow to meet the strategic requirements. Both Scottish Planning Policy (SPP) and Scotland's Third National Planning Framework (IIPF3) reflect the Scottish Government's commitment to sustainable development. The SPP introduces a presumption in favour of development that contributes to sustainable development. IIPF3 embraces the Scottish Government's vision for Scotland which is to create a successful, sustainable place; a low carbon place; a natural resilient place and a connected place. The proposed new housing site at Preston Farm, Linlithgow has been carefully considered in order to protect the setting of Preston House, which is Category A Listed. This is described in greater detail within the accompanying Design Statement. The site is also very accessible, linking into existing local footway and cycle paths. There is a good choice of public transport nearby, with additional services being available within the town centre, including direct access to the Edinburgh - Glasgow rail line, via Linlithgow railway station. It is submitted that this site should continue to be supported for housing release as allocated within the Proposed Plan. It is also submitted that if the proposed sequential approach taken by West Lothian Council is considered to be acceptable, that this approach does not preclude or delay development from starting on effective sites such as Preston Farm, in preference of a brownfield site which may not be forthcoming. Overall though, our client opposes the proposed approach for a sequential analysis.

Comment

Linlithgow & Linlithgow Bridge (page 89)

Page 200 of the LDP refers specifically to the proposed housing allocation at Preston Farm H-LL 12. It allows for 60 residential units on a site of 10ha. Our client supports this housing allocation. It is noted in the Education section that the catchment area for the schools are as follows: St Joseph's Primary, St Kentigern's Primary, Linlithgow Bridge Primary, Linlithgow Academy. The text mentions that Low Port Primary School has capacity issues that need to be addressed. It is submitted that this should be removed from the Preston Farm Site Reference as Low Port Primary School is not within the catchment for Preston Farm. The text also refers to surface water management and that developers will be expected to invest to take account of this to better the situation and such investment might include off site activities. It is submitted that the developer should only be expected to mitigate the impact of the proposed development. Given that adopted surface water exists within the site, the developer should only require to demonstrate that greenfield run off is not exceeded. Our client is happy to help and facilitate any measures to redirect surface water into the Union Canal, provided this is at nil cost to the developer / landowner, beyond which is attributable to the development of the site itself.
