

West Lothian Council

THE WEST LOTHIAN LOCAL DEVELOPMENT PLAN (LDP)

CONSULTATION RESPONSE PORTAL

Have Your Say on the Proposed Plan

Introduction

West Lothian Council has published its Proposed Plan together with supporting documents including an Environmental Report (SEA), Habitats Regulation Appraisal, Strategic Flood Risk Assessment and Equalities & Human Rights Impact Assessment. These can be viewed on the West Lothian Council website at www.westlothian.gov.uk/proposedplan.

If you wish to make representations on the Proposed Plan or associated documents you are encouraged to use this online consultation portal. It's quick and easy and will help us to process representations more efficiently, reducing the overall cost and environmental impact of the exercise.

You do not need to complete this questionnaire in a single visit. Just simply put your Survey Reference Number (CODE) in the top right corner of the screen to allow you to continue with your submission at a later date.

If you need assistance with completing or submitting your representation online please call the Customer Service Centre (CSC) on 01506 280000. Please advise the Customer Service Centre that your enquiry relates specifically to the Local Development Plan and ask for it to be logged and directed to the Development Plan and Environment Team. Someone will contact you. Alternatively you can email us at wlldp@westlothian.gov.uk We will endeavour to respond as quickly as possible but in any event within 3 working days of receiving your enquiry.

It is important that all representations are submitted no later than midnight on Sunday 22 November 2015. Representations received after that time will not be considered.

Your comments should be concise, having regard to paragraph 84 of Scottish Government Circular 6/2013: Development Planning which states that representations should be no more than 2,000 words plus any limited supporting productions.

Data Protection Statement

Please be aware that when you make representations on the Proposed Plan through the consultation portal (and/or in a conventional written format) personal information provided as part of a representation cannot be treated as confidential. Representations require to be made available online and for public inspection at the council's office (this would include your name but would exclude any information which would be subject to the Data Protection Act 1998 i.e. signature, postal address, telephone number, email).

We are also required to pass these details to the Scottish Government's Directorate of Planning and Environmental Appeals (DPEA). This is because they may at a later date wish to invite you to an Examination in Public of the Proposed Plan to discuss your representation.

Before using the consultation portal you should also note that any information posted may be subject to disclosure under the Freedom of Information (Scotland) Act 2002. West Lothian Council will not be liable for any loss or damage arising from or in connection with the disclosure of any information including the disclosure of user generated content.

Comment

Bridgend
(page 83)

We support the identification of H-BD 1 & H-BD 2 for housing development, subject to the changes sought by Lochay Homes Ltd.

Livingston
(page 90)

Proposal Ref: P-104 (page 88, and Proposals Map 3: Livingston) We support the proposal for an Almond & Breich Valley Walkway. This could be assisted in planning and delivery (in part as part of the development), by the changes sought to E-LV 47. Allocation Ref: E-LV 47 (Pages 92, 117 and Proposals Map 3: Livingston) We support the identification of this land for development in this LDP, subject to the changes sought here. We note that the annotation in the table on Page 92 indicates a site area of 31ha. At MIR stage, we had sought the extension of the previously identified Almond North allocated area to the south down to the River Almond to enable a comprehensive Masterplan to be prepared. The original area identified in the WLLP measured some 16.8ha, and the additional land we had sought to be included measured 14.4ha resulting in a total area of 31.2ha. However, having measured the proposed area for development in the LDP, this would more accurately be stated at 23ha not 31ha as shown on the table. It may be that the Council intended to make changes to the plan in line with our M R response, or that this is a typographical error, but it should be corrected. It may be that, depending on the response to our representations below, this is changed to 38ha. We note that the entry under "Area" in the table on Page 117 similarly indicates a site area of 31ha which, as stated above, is incorrect and should be updated. We note that the entry under "Ownership" states that the land is in private ownership, however, there is land within Council ownership on the eastern edge of the proposed development area, and this should probably be reflected on the table. We note that the entry under "Infrastructure & other Requirements" indicates a requirement for a Flood Risk Assessment. The allocation, as currently shown, is well outside the SEPA 1 in 200 year flood area (some 15-20mtrs above it), and on that basis we would be surprised if a Flood Risk Assessment was necessary or justified for the allocation. It may be that, as a result of the changes we seek below, this entry remains. We note that the entry under "Planning Status" indicates that this allocation is carried forward from the current Local Plan. Whilst this is technically correct, the allocation from the Local Plan has in fact been extended to the south on the Council ownership (but not as requested on our client's ownership) and now extends down to the River Almond. We would, subject to the other changes sought below, seek a change to this entry to read "part carried forward from WLLP, part allocation in LDP". We note the identification of the site area on the Proposals Map, however would question the logic in extending the allocation on the Councils ownership to the River and not on the adjacent land as requested in our representations to the Main Issues Report. The Councils ownership is most affected by the Pipeline safeguarding (which would rule out many uses on large parts of the site, particularly the extended area), and as currently shown would be a difficult area to appropriately masterplan or develop. We would therefore request that the whole E-LV 47 allocation be extended to the River Almond, as shown on the enclosed plan. The benefits of this are as follows; • it would enable a masterplan for the comprehensive development of the whole area to be prepared, taking in to account placemaking objectives; • the impact of the Pipeline safeguarding could be considered and mitigated on the wider ownership; • the impact that flooding from the river may have on the development could be taken in to account; • it would allow existing boundaries to be enhanced rather than creating new boundaries; • an appropriate, flood free, route could be identified for the Almond & Breich Valley walkway and potentially delivered (in part) as part of the development; • the most appropriate area for SUDs and drainage solutions could be identified for the whole development; • a landscape strategy could be prepared for the whole site forming a robust outer boundary, whilst identifying appropriate internal landscaping; and • avoid leaving a difficult area to farm. Whilst these changes would result in an area being identified for development of some 38ha, we do not envisage the whole area being subject to physical development. The allocation, as currently drawn does not achieve the efficient use of land, unnecessarily restricts the masterplan process, and potentially prejudices the delivery of P-104. Allocation Ref E-LV 49 (Pages 92, 117 and Proposals Map 3: Livingston) We support the identification of this land for development in this LDP. Countryside Belt south of E-LV 47 (Proposals Map 3: Livingston) We object to the identification of the area to the south of E-LV47 as Countryside Belt. This prejudices the ability to appropriately masterplan the development and to achieve satisfactory drainage solutions which are most appropriately located at the lowest point of the site. We would request that this be redrawn as shown on the enclosed plan. We do not anticipate physical development on the whole area, but the opportunity should be provided for the masterplan to be prepared identifying the most appropriate areas for development.

9. APPENDICES (page 99)
