FINANCIAL REGULATIONS

1. INTRODUCTION

- 1.1 West Lothian Council is committed to delivering high quality, integrated services in conjunction with Community Planning partners. The council has adopted modern business processes, enabled by technology, so that services are organised around the needs of citizens.
- 1.2 In order to conduct its business efficiently, the council must have sound financial management policies that are strictly adhered to. The requirement for sound financial management is further reinforced by the Local Government (Scotland) Act 1973 that stipulates that every local authority must make arrangements for the proper administration of its financial affairs and by the CIPFA Prudential Code for Capital Finance in Local Authorities (the 'Prudential Code') which stipulates that councils must be able to demonstrate, on an on-going basis, that capital spending and associated borrowing is affordable, prudent and sustainable. In addition, the CIPFA Financial Management Code builds on the established CIPFA Prudential and Treasury Management Codes and requires the council to demonstrate how its processes comply with the principles of good financial management. This approach will assist in determining whether, in applying the standards of financial management, the council is financially sustainable. Principles of good financial management should be proportionate to the risks faced to financial sustainability given the pressures of reducing financial resources and rising demand for services. The council also has a duty to make arrangements which secure best value. The best value obligation applies both to elected members and officers. For these reasons it is essential for the council to establish financial regulations and supporting procedures.
- 1.3 The 1973 Act also requires that each authority appoints a proper officer to take responsibility for the administration of its financial affairs. The council has resolved that the proper officer is the Head of Finance and Property Services.
- 1.4 The Accounts Commission has stated that a regime of good governance for a local authority includes the creation and implementation of procedures for the effective discharge of the statutory responsibilities of the proper officer in relation to the overall financial management of the council. In addition to setting out these responsibilities, the financial regulations and associated procedures also provide clarity about the financial accountabilities of other officers within the council.
- 1.5 Members and officers have a responsibility for fostering the culture and attitudes that are necessary for good governance. Full details of the relevant roles and responsibilities are set out in the council's Code of Corporate Governance.
- 1.6 The financial regulations operate in parallel with the framework set out in the council's Scheme of Delegation. This includes the delegated authority of the Chief Executive and Depute Chief Executives to authorise other senior officers in their service who are appropriately qualified to use their delegated powers under these regulations, unless they cannot do so by law or because of specific provisions of the Scheme of Delegation.

1.7 Reference in the regulations to 'Depute Chief Executives' means:

- Depute Chief Executive – Education and Planning Services
- Depute Chief Executive – Corporate, Operational and Housing Services
- Depute Chief Executive – Health and Social Care Partnership

1.8 Reference in the regulations to 'Heads of Service' means:

- Head of Finance and Property Services
- Head of Education (Learning, Policy and Resources)
- Head of Education (Curriculum, Quality Improvement and Performance)
- Head of Planning, Economic Development and Regeneration
- Head of Housing, Customer and Building Services
- Head of Corporate Services
- Head of Operational Services
- Head of Social Policy

2. STATUS OF FINANCIAL REGULATIONS

- 2.1 The financial regulations provide the framework for managing the council's financial affairs. They apply to every member and officer of the council and everyone acting on its behalf. Additionally, all members and officers have a general responsibility for ensuring that the use of the council's resources is legal, properly authorised and provides value for money.
- 2.2 The Head of Finance and Property Services is responsible for maintaining a continuous review of the financial regulations, including the financial limits contained in the regulations and submitting any changes, other than of a minor nature, to the Council Executive for approval. The council's Code of Corporate Governance requires the financial regulations to be reviewed at least once every Administrative term.
- 2.3 The Head of Finance and Property Services is also responsible for issuing procedures, guidance and advice to underpin the financial regulations, and for investigating any breach of the regulations.
- 2.4 Depute Chief Executives are responsible for ensuring that Heads of Service are aware of and put in place arrangements for their services to comply with the financial regulations.

FINANCIAL REGULATION A – FINANCIAL MANAGEMENT AND PLANNING

A.1 INTRODUCTION

1.1 Financial Management and Planning incorporates the various elements associated with the development, maintenance and monitoring of the council's financial strategy and financial position. These are:

- General Accounting Framework
- Revenue Budgets
- Capital Budgets
- Final Accounts

A.2 GENERAL ACCOUNTING FRAMEWORK

2.1 The Local Government (Scotland) Act 1973 (section 93) requires a local authority to have a General Fund and the Housing (Scotland) Act 1987 (section 203) makes specific provision for the local authority to keep a separate Housing Revenue Account (HRA). Section 95 of the 1973 Act states that every local authority shall make arrangements for the proper administration of its financial affairs and the proper officer is responsible for determining the form of, and maintaining, the council's accounting control systems and accounting records. The proper officer in West Lothian is the Head of Finance and Property Services.

2.2 The Head of Finance and Property Services must ensure that adequate systems of accounting control are maintained throughout the council and that services conform with council policy, legislation and codes of practice on these matters.

2.3 The Head of Finance and Property Services is responsible for coordinating the preparation of the revenue and capital budgets on an annual basis as part of the council's approach to revenue and capital financial planning. The CIPFA Financial Management Code stipulates that to be able to demonstrate financial sustainability, a long-term perspective is essential. The greater the uncertainty over central government policy, the greater the need to demonstrate long-term financial resilience. Financial planning activity is undertaken within the parameters of the council's financial planning principles approved by Council Executive. These principles are:

- The council should develop a high-level ten-year revenue and capital financial strategy
- the council should have a medium-term five-year financial plan, aligned with political administrations, and three-year detailed revenue budgets
- estimated budget gaps for at least three future years should be reported to elected members before local elections
- the Corporate Plan and revenue, capital and treasury plans should continue to be considered and agreed at the same Council meeting
- future financial plans should be subject to public consultation
- public consultations should cover priorities, taxation and saving measures

2.4 The Local Government in Scotland Act 2003 sets out that it is the duty of a local authority to determine the maximum amount it can afford to allocate to capital expenditure and that, in discharging this duty, the authority must comply

with capital expenditure regulations. The capital expenditure regulations state that councils must comply with the provisions of the Prudential Code.

- 2.5 The Prudential Code stipulates that councils must be able to demonstrate, on an on-going basis, that capital spending and associated borrowing is affordable, prudent and sustainable and complies with Best Value requirements. The council's role, in this regard, is fulfilled by approving, annually, a series of prudential indicators for West Lothian and ensuring that there are suitable arrangements for monitoring the indicators on an on-going basis. In addition, when considering, agreeing and implementing a capital investment strategy, the Prudential Code requires councils to take account of a variety of factors such as value for money, asset management planning, practicality and achievability. The Head of Finance and Property Services is responsible for reporting to the council on all relevant matters that are required to be taken into account by the council when setting prudential indicators. The Head of Finance and Property Services is also responsible for establishing procedures for monitoring prudential indicators.
- 2.6 It is the responsibility of the Head of Finance and Property Services to ensure appropriate procedures and instructions are issued for:
- developing, maintaining and reviewing the overall budget strategy
 - producing the annual medium- and long-term revenue and capital budgets, in compliance with the Provisions of the Prudential Code and the CIPFA Financial Management Code
 - producing annual activity budgets
 - budgetary control of revenue and capital expenditure
 - budget monitoring of prudential indicators
 - storage and disposal of financial records
 - producing financial management information
 - submission of statistical returns
 - completion of the Statutory Abstract of Accounts
- 2.7 Effective budgetary control arrangements are essential to ensure the council meets its objectives and outcomes within available resources. The council's budgetary control for revenue and capital budgets is focused on a risk-based approach that ensures time is prioritised to high risk areas of the council's budget. A key element in this approach to budget monitoring is that a comprehensive zero-based budgeting exercise is undertaken each year for all staffing and non-staffing budgets. In addition, Heads of Service are responsible for identifying and agreeing material budget risk areas with the Head of Finance and Property Services, which are monitored on a monthly basis.
- 2.8 The Head of Finance and Property Services is responsible for the verification of completed external funding grant claims. Heads of Service are responsible for timeously providing information required by the Head of Finance and Property Services for this purpose.
- 2.9 Committee reports must contain a statement of financial implications, and confirmation that the Head of Finance and Property Services has verified the financial content of the report.

A.3 REVENUE BUDGETS

3.1 General Fund Revenue Budget Planning Process

The council is required to approve a balanced revenue budget for each financial year. Over the medium-term the council will face a range of expenditure pressures and continuing funding constraints and therefore effective prioritisation of resources will be essential to achieving balanced budgets. The Accounts Commission, Audit Scotland and the Chartered Institute of Public Finance and Accountancy (CIPFA) have identified that public bodies must focus on their medium- to long-term financial sustainability to ensure effective public services in the future, and they have advised that this is best achieved through having a financial strategy covering a minimum of five years, supported by detailed plans covering a minimum of three years. It is therefore very important that the councils' financial strategies are based on defined and agreed priorities and there is clarity as to how budgets will be managed. In compliance with the CIPFA Financial Management code the council has agreed to develop a high-level ten-year revenue and capital financial strategy, with a five-year financial plan and detailed budgets for three years.

Delivering council priorities should underpin the medium- to long-term financial strategy and help ensure that constrained resources are allocated to achieve desired outcomes and value for money.

The medium-term financial plan and detailed three-year revenue budgets are integrated with the council's Corporate Plan. The Corporate Plan provides the corporate and strategic framework for delivering agreed priorities. The medium-term financial strategy fully incorporates the resources needed to deliver the councils priorities, and includes plans for savings and efficiencies to ensure that the council can continue to deliver essential services to communities whilst resources are constrained.

To ensure appropriate scrutiny of budget saving measures, saving proposals required to address any remaining or increased budget gap during the five-year period 2018/19 to 2022/23 will be considered by the relevant Policy Development and Scrutiny Panel (PDSP) before approval by Council or Council Executive. Where timescales permit, all additional future saving measures will be considered by PDSP before approval by Council or Council Executive, with the only exceptions relating to factors out with the council's control such as late amendments to the local government finance settlement.

For all revenue budget reduction measures which are agreed by the full council, further decisions by members which substantially change or delete these measures must also be made at the full council.

3.2 General Fund Revenue Budget

Preparation

The Head of Finance and Property Services is responsible for co-ordinating the preparation of the revenue budget on an annual basis as part of a medium-term revenue financial plan. The Head of Finance and Property Services is also responsible for preparing prudential indicators in line with the provisions of the Prudential Code. The prudential indicators cover both the General Fund and the Housing Revenue Account (HRA). The revenue budget is integrated with

the capital budget, the Treasury Management Plan, and the Corporate Plan. Heads of Service are responsible for preparing their service budgets and activity budgets in accordance with approved budget control totals.

The Head of Finance and Property Services is responsible for submitting the revenue budget and prudential indicators to the Corporate Management Team for consideration prior to presentation to the council.

Approval

The Head of Finance and Property Services is responsible for presenting, annually, a revenue budget and prudential indicators to the full council. The council shall consider and approve a revenue budget, approve prudential indicators and set a council tax level for the following year. The council tax setting must, by law, take place before 11 March in any year.

Budgetary Control

The council is responsible for establishing a monitoring and control framework that complies with the requirements of the Prudential Code. Budgetary control frameworks and procedures are in place for General Services and HRA revenue budgets.

The council's budgetary control framework and procedures set out a risk-based approach to budget monitoring. A full zero-based budgeting exercise for all spend and income is undertaken annually to ensure a robust base budget is in place as a realistic guide to actual spend and income for the year.

As part of the risk-based approach to budget monitoring, Heads of Service are responsible for identifying and agreeing material budget risk areas with the Head of Finance and Property Services. Risk schedules will be prepared for these areas and relevant budgets monitored on a monthly basis.

The budgetary control frameworks confirm the budgetary control responsibilities of council officers and elected members. In terms of budgetary control, elected members have overall responsibility for proper governance and monitoring of public funds and for ensuring effective services are provided within the constraints of agreed budgets.

The Head of Finance and Property Services is responsible for ensuring that appropriate procedures and instructions are issued for budgetary control. The Head of Finance and Property Services is also responsible for providing appropriate financial information to enable budgets to be monitored effectively.

Heads of Service are responsible for the implementation of budgetary control procedures within their services and for ensuring the budgetary control process is carried out.

Heads of Service have primary responsibility for the budgetary control process within their service and are responsible for confirming budget projections, updating Risk Schedules and submitting these to the Head of Finance and Property Services. The Head of Finance and Property Services is responsible for monitoring the overall budget and reporting on the financial position to the Corporate Management Team, and to the Council Executive for periods 4, 6 and 9 each year. The reports to the Council Executive should include monitoring of prudential indicators.

Outwith periods 4, 6 and 9, the focus of budget monitoring will be on risk areas identified and monitored through the monthly update of Risk Schedules.

The Head of Finance and Property Services is responsible for ensuring monthly budgetary control reports are available to budget holders.

At the financial year end, the Head of Finance and Property Services is responsible for reporting the final outturn report to the Corporate Management Team and the Council Executive.

In addition to the reports to Council Executive, the Head of Finance and Property Services reports the financial performance to Policy Development and Scrutiny Panels for period 6 and the final outturn for the year.

In the event of inter-service virements, authorisation for the virements should be confirmed by the relevant Depute Chief Executives and/or Heads of Services, where appropriate. All virements between Devolved School Management (DSM) budget headings are subject to the DSM Scheme of Delegation.

Approval

The Depute Chief Executive – Corporate, Operational and Housing Services is responsible for presenting a HRA revenue budget to a meeting of the full council. The council shall consider and approve a budget, and set rent levels for all council housing stock and service charges at this meeting. Under section 25 of the Housing (Scotland) Act 2001, this must be done in sufficient time as to give tenants at least four weeks notice of any increased rent due to be paid. The legislation also provides for social landlords to consult tenants and take account of their views prior to making decisions on rent increases.

Budgetary control frameworks and procedures are in place for General Services and HRA revenue budgets. The reports to the Council Executive are presented for periods 4, 6 and 9 each year. A risk-based approach to monitoring focusing on the use of Risk Schedules is undertaken for the HRA revenue budget. The Depute Chief Executive – Corporate, Operational and Housing Services is also responsible

for reporting a final outturn report to the Corporate Management Team and the Council Executive.

Budget Virements

Budget virements are processed in agreement with the Depute Chief Executive – Corporate, Operational and Housing Services and Head of Finance and Property Services. The virement must be within the parameters of the approved HRA budget.

The Head of Finance and Property Services is responsible for preparing and maintaining a ten-year asset management plan and General Services capital investment programme and presenting this to the Corporate Management Team for approval prior to its consideration by Council. The capital planning strategy is integrated with asset management planning, strategic planning and option appraisal and takes account of the council's duty to comply with the Prudential Code. Capital investment decisions are based on Strategic Outline Business Cases and prioritise investment based on council priorities, asset management principles, legal requirements and financial and non-financial benefits. The capital plan is fully integrated with the council's medium-term revenue budget plan, the Treasury Management Plan, and Corporate Plan. Investment within the capital plan is split between four asset category types, each of which has a specific Asset Lead Officer. Depute Chief Executives are responsible for designating Asset Lead Officers to fulfil all aspects of work for the specified asset categories.

4.3 General Services Annual Capital Budget

Preparation

The Head of Finance and Property Services is responsible for ensuring that a detailed General Services capital budget is prepared annually taking account of the detailed allocation of block budgets. The reports should include the information required to comply with the provisions of the Prudential Code.

Outwith periods 4, 6 and 9, the focus of budget monitoring will be on investment risk areas identified and monitored through the monthly update of Risk Schedules.

At the financial year end, the Head of Finance and Property Services is responsible for reporting the final outturn and budget roll forward report, taking into account slippage or accelerated spend within the capital programme, to the Council Executive.

In addition to the reports to Council Executive, the Head of Finance and Property Services reports the financial performance to Policy Development and Scrutiny Panels for period 6 and the final outturn for the year.

The Head of Finance and Property Services is responsible for ensuring monthly budgetary control reports are available to Asset Lead Officers.

However, if it is proposed to add a new capital project, delete an approved capital project from the programme, or materially change a capital project from the scope set out in the Strategic Outline Business Case then Asset Lead Officers must notify the Head of Finance and Property Services who must report for approval to the Council Executive.

The term fraud for this purpose includes, but is not restricted to, criminal offences such as theft, corruption, bribery, and embezzlement.
