10710	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Consideration needs to be given to shared work between education and social care to avoid duplication.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services. In addition to investigating partnership working, the council will continue to remove internal duplication and consolidate teams where appropriate.
10711	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared service is good where it is practical with the particular scope of work undertaken. Obviously there will be particular services suitable for this and others that would compromise service users	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10712	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	More cross-council and multi-partner working should be encouraged.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10713	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Working with other councils may be tricky as some others may not have the same objectives.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10714	An individual	1h. General Balance of Savings to be Identified	Shared services ! You can't even manage to cut the grass in west Lothian.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The council has approved service standards in relation to grounds maintenance.
10715	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	has consideration with collaboration / sharing of 'internal functions' with other local authorities been considered.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10716	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Sharing services with other councils I think is the way forward and could be a sign of going back to regional areas.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services. The structure of local government is determined at a national level.
10717	An individual	1h. General Balance of Savings to be Identified	So in this proposed saving, shared and centralised services are cheaper. So why are school budgets devolved and responsibility for nurseries localised? Surely the Principal should be the same across the board? It is concerning that the largest amount of savings are still to be identified.	Shared Services	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Funding to schools must be delivered through devolved school management schemes as required by the Scottish Government. The level of devolved responsibility will likely increase as a result of Scottish Government proposed changes to school governance.
10718	An individual	1h. General Balance of Savings to be Identified	Please don't share any services with Edinburgh Council, I have previously lived in Edinburgh and still work and in the city. Our services in West Lothian are so much better!	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10719	No Response	1h. General Balance of Savings to be Identified	Shared services sound great but only saving would be on equipment as still need staff to cover larger areas.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10720	An individual	1h. General Balance of Savings to be Identified	It would make economic and financial sense for neighbouring council with a vested interest to pool resources and work in partnership where saving can be achieved	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10721	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Trying to deliver shared services has been tried before unsuccessfully, hopefully it works better this time.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10722	No Response	1h. General Balance of Savings to be Identified	Shared services where possible is a good idea.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10723	No Response	1h. General Balance of Savings to be Identified	developing working relationships with other councils could be beneficial.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10724	No Response	1h. General Balance of Savings to be Identified	Work with other councils / authorities to positively deliver shared services.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10725	An individual	1h. General Balance of Savings to be Identified	If there is a political drive to do this but experience from fire and police services sharing resources has culminated in a more national debate rather than improving local service provision	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10726	An individual	1h. General Balance of Savings to be Identified	The gap has to be closed. That is a given. Shared services and 3rd party involvement would be an avenue to explore. However it should be noted that in frontline services it is the feet on the ground that do the work, so reducing staffing costs in areas such as social work and environmental services will result in significant reductions in standards.	Shared Services	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
10727	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	If authorities decide to share services I would hope that it is not to the detriment of West Lothian as we can already see that shortage of staff is already visible in some Council services.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10728	An individual	1h. General Balance of Savings to be Identified	sharing is a good thing but not to the detriment of service	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10729	An individual	1h. General Balance of Savings to be Identified	Shared services must be considered, why does the council and other councils all collect council tax separately, surely a single collection agency across Scotland must be explored. There will be other internal and external services that are provided that could be provided more efficiently under shared services	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10730	No Response	1h. General Balance of Savings to be Identified	Combining activities with other councils must be a top priority - with Lanarkshire for Addiewell Prison - with Edinburgh for mental health. Those services run more cheaply at a regional level should be regionalised as soon as possible	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10731	An individual	1h. General Balance of Savings to be Identified	This sounds like a lot of extra work to build up trust and confidence with other councils. As council tax payers we expect council departments to run efficiently.	Shared Services	4. The council is already doing this.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10732	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared service delivery can result in a reduced level of service so this would need to be looked at in detail if it was to be a viable option. Level of service has to be protected when identifying savings.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10733	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I agree partly with this - shared services are good in many instances, but should be very selective.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10734	An individual	1h. General Balance of Savings to be Identified	I think that more shared services should be considered.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10735	An individual	1h. General Balance of Savings to be Identified	Collaborate with other councils for services	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10736	An individual	1h. General Balance of Savings to be Identified	I have heard shared services being talked about for a decade with precious little evidence of change taking place. Please bring forward specific proposals for implementation, before the Scottish Government takes the choice out of your hands by reforming local government and merging councils.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10737	An individual	1h. General Balance of Savings to be Identified	Review services or facilities which are under utilised and amalgamate with other nearby council facilities.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
10738	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Council's rarely work well together and this would only cause more issues and costs.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Consideration would be given to the level of savings that could be generated from any shared services arrangement before implementation.
10739	An individual	1h. General Balance of Savings to be Identified	Sharing facilities/staff with other local authorities or government agencies would be worthwhile.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10740	An individual	1h. General Balance of Savings to be Identified	It seems that the time has arrived to share services with neighbouring councils and run services jointly. I would encourage you to progress discussions with any neighbouring councils open to sharing and to do so before the Budget is implemented or by its earliest revision.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10741	An individual	1h. General Balance of Savings to be Identified	Whilst shared services may have financial benefits there is a danger that such local accountability may be lost. There could also be scenarios where services are being provided by outside bodies who do not have such local knowledge and may therefore not make decisions in the best interests of local residents.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10742	An individual	1h. General Balance of Savings to be Identified	Provide services for other councils and charge them? share resources which are rarely used.	Shared Services	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
10743	An individual	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other authorities who may have different terms and conditions of employment to us.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10744	An individual	1h. General Balance of Savings to be Identified	Working with other councils and public bodies to consolidate certain functions to minimise the costs for all concerned would make sense. The fewer councils and public bodies with duplicate or overlapping functions the better for all of us, as long as the remaining consolidated functions are adequately staffed.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10745	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other communities who may have different terms and conditions of employment to us. I'd like to be more informed as to which services were to be streamlined before making any decisions about it.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10746	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other authorities who may have different terms and conditions of employment to us.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10747	An individual	1h. General Balance of Savings to be Identified	Hasn't shared services been discussed for years and never progressed out of first base? I seem to recall conversations with Falkirk Council taking place in the past and coming to no agreement- will it really be any different this time?	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10748	An individual	1h. General Balance of Savings to be Identified	This was always likely to be proposed. Staff won't be happy, but duplication of services in local areas is madness	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10749	An individual	1h. General Balance of Savings to be Identified	I think working with other councils and authorities to deliver shared services is a good idea. Sharing current successes in service delivery will be a way forward.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10750	An individual	1h. General Balance of Savings to be Identified	Agree the Council should work with other councils in Scotland to ensure WL is not providing services which other authorities are not and vice versa.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10751	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared services tend to only work if councils of a similar standing and standards join forces.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10752	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared services are great in principal however as the councils all work differently it would be hard to imagine how you can reconcile the two	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10753	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared services bring a range of additional difficulties and challenges. They have not resulted in successful outcomes in any other local authority area.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10754	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Can we work with other local authorities to deliver services - can we bench mark against these local authorities also ie cleansing	Shared Services	1. The respondent advised that they agree with the proposal.	The council currently benchmarks with both public and private sector service providers. This helps the council to incorporate best practice and ensure that resources are used to deliver best value. The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10755	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	If it does not go the way of City of Edinburgh council then alright...e.g. Building warrants taking months to process with the council farming out to other councils their services because, I can only assume, forgive the pun...bad planning.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10756	An individual	1h. General Balance of Savings to be Identified	I have no problem with shared services however the reality is the cost to implement it will result in short term costs not savings - 5 years isn't long enough to see real savings coming from this as it will take years to implement.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10757	An individual	1h. General Balance of Savings to be Identified	I fully support collaborative approach. The council need to consider being in the controlling seat with this in supporting the other councils and generating income from them to help rationalise their budgets.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10758	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	can only be good to share some services	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10759	An individual	1h. General Balance of Savings to be Identified	Sharing certain activities with other councils make sense provided the quality of delivery is not impaired. Use of technology and centralisation of some activities is handled and resourced properly could yield Significant financial savings.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10760	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	makes sense to look at partnership working with other councils and providers.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10761	An individual	1h. General Balance of Savings to be Identified	Working with other councils and sharing of resources and services may be the way forward in medium to long term. I would encourage Council to explore partnership and sharing with nearby councils.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10762	An individual	1h. General Balance of Savings to be Identified	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs. other public services have been overhauled to make savings so should the council's	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
10763	An individual	1h. General Balance of Savings to be Identified	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
10764	An individual	1h. General Balance of Savings to be Identified	Providing shared working is efficient and shared equally	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10765	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	1h Shared services sound like a good idea, Scotland is not huge and yet we have 32 different local authorities all doing the same thing. However it may mean a loss of local control.	Shared Services	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The structure of local government is determined at a national level. The council would be looking for opportunities to work closer with partners and other local authorities to deliver some services.
10766	An individual	1h. General Balance of Savings to be Identified	Councils could work together more and integrate services that are appropriate. What these services are and how much could be saved is for you to tell us. If the effect is a reduction in staff this should be done through voluntary redundancies or natural wastage.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10767	An individual	1h. General Balance of Savings to be Identified	Shared services should definitely be investigated, particularly on the city-region scale, using resources of the City Deal.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10768	An individual	1h. General Balance of Savings to be Identified	West Lothian Council shall have to work hard with the trade unions to deliver this. I am a supporter of "No compulsory redundancies" although i am realistic enough to accept that this position shall be very difficult to maintain. I agree that partnership working across local authorities is essential, road maintenance, waste collection and IT services are some areas where this could be done. However i would be opposed to the outsourcing of services to commercial companies where you end up paying share holders dividends as commercial companies answer to the share holders.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services. There are currently no proposals on the widespread outsourcing of council services to external providers.
10769	No Response	1h. General Balance of Savings to be Identified	Good idea to work with other councillors to deliver shared services. Ergo, somewhat surprised that we have fixated on changing the council brand. Not best use of public money.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10770	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Will we be going back to Lothian Region? This will take time to implement.	Shared Services	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The structure of local government is determined at a national level. The council would be looking for opportunities to work closer with partners and other local authorities to deliver some services.
10771	An individual	1h. General Balance of Savings to be Identified	I am always surprised that there does not seem to be much sharing of services between authorities, which should be considered.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10772	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Although the theory of shared services is always good, local knowledge can be compromised and this should then be done with care. It would be prudent to undertake research to see where other councils have done this & with which services & then whether it is a success in reality (i.e. not just the figures in terms of costs but whether it has had an impact positive/ negative on the ground. The potential pitfall is it just leading to rework.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10773	An individual	1h. General Balance of Savings to be Identified	That often means that Local Council and Community facilities (sharing with other areas) might be closed certain days of the week thus limiting people access.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is likely to be changes to opening hours. When determining opening hours consideration will be given to the most convenient times for the majority of users.
10774	No Response	1h. General Balance of Savings to be Identified	This will be difficult and my actually incur more hidden costs by sharing series across authorities. Front line services will be diluted and standards will be affected.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10775	An individual	1h. General Balance of Savings to be Identified	Hard to offer specific comment. On shared services the Council should promote and support common business support systems for all Scottish local authorities, starting with the general ledger.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

10776	An individual	1h. General Balance of Savings to be Identified	Council need to make the public more aware of exactly how money is divided up and spent over different range of services as without this it is not really possible for members of the public to make comments on how shared delivery of shared services would work, what it would or would not save.	Shared Services	4. The council is already doing this.	Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
10777	An individual	1h. General Balance of Savings to be Identified	Sharing with other councils is a ridiculous proposition. Police services and social services are already on their knees.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10778	An individual	1h. General Balance of Savings to be Identified	When sharing services with other councils, there will be a risk of having to vie for services. Could result in losing out as was the case with Lothian Region where most of the money and services went to Edinburgh at the cost of West Lothian services. Presumably there will be policies and procedures in place to ensure equity and good practices.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.

General Balance of Savings to be Identified	Agreeing as communication between other governing bodies and organisations will help strategically by sharing out the responsibilities.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10780	An individual	1h. General Balance of Savings to be Identified	In Social Policy, I would suggest consideration is given to the redesign of the Social Care and Emergency Team. Could this service be integrated with other emergency services either with other councils and service within health?	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10781	No Response	1h. General Balance of Savings to be Identified	As above. The council council should consider sharing services with neighbouring councils to meet efficiency savings	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10782	No Response	1h. General Balance of Savings to be Identified	Sounds like an unfortunate necessity. Working with other councils seems logical.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. 10783	No Response	1h. General Balance of Savings to be Identified	The move to shared services has been on the scottish government and local authority agendas for several years and yet nothing significant has been delivered. "Looking at the scope to work with other....." still doesn't sound like a real commitment to deliver. This has to be driven forward as an obvious means of delivering services at an acceptable cost to tax payers - council tax or income tax !!!! It will never be achieved by those who have a vested interest in the status quo. External input is the only way to achieve significant success in a timely manner. There are many successful commercial models for shared support services and no reason why this can't be achieved. In addition, to deliver successfully a mature partnership will have to be developed with staff unions. How do you propose to achieve that?	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. 10784	An individual	1h. General Balance of Savings to be Identified	Working with other councils to share services is certainly something worth exploring further, particularly in terms of CPD delivery.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10785	An individual	1h. General Balance of Savings to be Identified	By reducing the workforce the service delivery will be affected - no matter how much work is shared with other council resources you will be covering a much larger area with less staff.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
10786	An individual	1h. General Balance of Savings to be Identified	Clearly the long / medium term financial planning hasn't been done effectively in the past or the council wouldn't be in this position now. Every business has difficulty planning, welcome to the real world. You should be continuously monitoring whether you're achieving good value for money, (and not against some airy fairy set of outcomes either) and indeed whether something is really necessary or not. Of course you should be sharing resources with other councils to get increased efficiency all round.	Shared Services	4. The council is already doing this.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
10787	An individual	1h. General Balance of Savings to be Identified	If done properly, shared services can be productive.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10788	An individual	1h. General Balance of Savings to be Identified	I would suggest looking at the failure of other authorities to establish shared services and the massive inefficiency caused by the attempts to implement this before then rejecting it. The difficulties in agreeing things within an authority are difficult enough, trying to do this across authorities is near impossible particularly as this is at the mercy of the prevailing political structure of these authorities	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. 10789	An individual	1h. General Balance of Savings to be Identified	Shared services sounds great in practise (especially for consultants who get paid a lot of money to data analyse and come up with the solution of shared service) however is there any real concrete evidence that it saves money over time?	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10790	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	As in point 1A - some services require to remain together and if some are combined there can be conflicts of interest between advice and decision makers.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
10791	An individual	1h. General Balance of Savings to be Identified	Delivery of shared services has been something the council has considered over a number of years. West Lothian Council in relation to most councils and colleges is the best council at providing a range of services therefore any shared service must be something which must benefit the council and the residents and, must not dilute the standard of any service which is being considered as a share services.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10792	An individual	1h. General Balance of Savings to be Identified	Would comment that other councils are probably not better placed or organised to run west Lothian services though.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.

As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.
10795	An individual	1h. General Balance of Savings to be Identified	Shared services are a good idea	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10796	An individual	1h. General Balance of Savings to be Identified	I think working with other councils to share resources is a good idea.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10797	An individual	1h. General Balance of Savings to be Identified	Whilst sharing with other councils is in theory plausible West Lothian is a mixed demographic and are needs are of such, these may differ from adjacent councils, however it may be of benefit to share contracts of services or for goods and get a better deal with a larger order	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10798	An individual	1h. General Balance of Savings to be Identified	Agreed. However, other council's such as Midlothian are looking at exactly the same thing, and so everyone is trying in some ways to get a greater share of an ever diminishing cake. On this basis, how realistic are aspirations of joint working. You only have to look at the Clackmannanshire and Stirling experience to see the difficulties.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10799	An individual	1h. General Balance of Savings to be Identified	I am not in favour, local services should be provided by local staff. The money paid to West Lothian Council staff is generally spent in West Lothian, if we pay people in other authorities to carry out the work local businesses will suffer as a result so it will be a double blow.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10800	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Agree that there may be opportunities to share some services with adjoining small authorities eg Falkirk ie not as large as the former Lothian Regional Council but large enough to allow for a good level of broad professional expertise be developed and to allow for new entrants to learn from more experienced staff which is difficult in small departments.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10801	An individual	1h. General Balance of Savings to be Identified	Shared services seems sensible - there must be some commonality between LA's - however the recent failures associated with the consolidation of our Police and Fire Service at the cost of local action / local knowledge / local care - should serve as a salutary warning.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10802	An individual	1h. General Balance of Savings to be Identified	Shared services and developing IT and digital solutions jointly with other Local Authorities are strongly supported.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10803	An individual	1h. General Balance of Savings to be Identified	If savings can be made here by working alongside other councils and sharing some services where available then this should be done.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10804	An individual	1h. General Balance of Savings to be Identified	There are a limited number of services which can be shared because they are focussed on local provision	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10805	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Consideration needs to be given to greater collaboration with other councils, public sector bodies and other relevant organisations. Shared services would be a logical consequence of this exercise.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10806	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Shared services with other councils and public sector bodies should be considered, potentially through establishing Arms Length Organisations or similar.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10807	An individual	1h. General Balance of Savings to be Identified	Collaborative working is a great idea, sharing of services and ability access specialist services from one authority when West Lothian does have that is a great idea. Cross-authority working strengthens all local authority services across Scotland. I am in full support of this.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10808	On behalf of a Group/Organisation	1h. General Balance of Savings to be Identified	Shared services are in some aspects a good idea however, in other aspects ineffective. This should be closely analysed prior to any changes.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.

Transforming Your Council Consultation 2017

10809	An individual	1h. General Balance of Savings to be Identified	Yes delivering shared services makes sense	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10810	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	How much consultation goes on though with neighbouring authorities with regard to sharing services?	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10811	An individual	1h. General Balance of Savings to be Identified	Shared services makes sense where this offers efficiencies and also widens the expertise available.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10812	On behalf of a Group/Organisation	1h. General Balance of Savings to be Identified	I understand the need for this and support the shared services approach but do not have information to make comment	Shared Services	3. The respondent advised that they had no comment to make.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10813	An individual	1h. General Balance of Savings to be Identified	Changes to service delivery will only be acceptable if there is evidence of increased efficiency and effectiveness.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10814	An individual	1h. General Balance of Savings to be Identified	Shared services strategies should have been reviewed, costed and implemented some 10+ years ago. However, many local councils maintain the 'our way is the only way' approach (possibly job protection for the senior management). Your review and decision making cycle on such issues is far too long and complex (therefore costly) and should be the first area of improvement.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10815	An individual	1h. General Balance of Savings to be Identified	Does this mean that jobs currently done by West Lothian staff will be done by staff outwith the Council? Don't like the sound of this.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.
10816	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Huge amount of savings to be made. Possibility of shared services where there is limited need for local issues, knowledge and experience.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.

10817	An individual	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other authorities who may have different terms and conditions of employment to us. I'd like to be more informed as to which services were to be streamlined before making any decisions about it.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.
10818	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other authorities who may have different terms and conditions of employment to us. I'd like to be more informed as to which services were to be streamlined before making any decisions about it.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.
10819	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I believe that there are significant opportunities for working along side other LA's and third sector services and that we need a thoughtful approach across different service areas to consider this. I believe there are more certain specialised services within social policy that need to branch out much more into partnership working.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10820	An individual	1h. General Balance of Savings to be Identified	In that respect, I welcome the suggestion made here that shared services will be investigated. This is also not without its problems but my experience in my professional life is that sharing resources and expertise is both effective and invigorating. The potential savings outlined in 1a - redesign, integration and further use of technology to increase efficiency and effectiveness - should make this more possible.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10821	An individual	1h. General Balance of Savings to be Identified	Departments that do overlap - these could be amalgamated. Vehicles bought and only used a few times, can we not use other councils. Councils club together to share vehicles. E.g. HR for all LAs being clubbed together.	Shared Services	1. The respondent advised that they agree with the proposal.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
10822	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I'm not at all in favour of working with other councils and public authorities to deliver shared services as this would be to the detriment of the current staff that are already employed within West Lothian Council as it would mean reducing our staff numbers to work with members from other authorities who may have different terms and conditions of employment to us. I'd like to be more informed as to which services were to be streamlined before making any decisions about it. EYO Don't think is necessary.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.
10823	An individual	1h. General Balance of Savings to be Identified	I find this quite laughable that the thought of working with and sharing services with neighboring authorities will remedy budget gaps and reduced staffing levels. Neighboring anchorites are going through almost identical cost cutting processes and will be no better placed than WLC to enter into partnership service delivery with their reduced staffing models and services. This will not represent a good level of service for West Lothian residents or that of any other local authority.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.

10824	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I agree we should be looking to share certain functions with other Authorities to diminish staffing structures collaboratively. Functional areas to include directorate level management and functions like finance, call centres, Admin support HR, Facilities Management and PPI schools and ICT. We should also review trust status for functions like Leisure.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10825	An individual	1h. General Balance of Savings to be Identified	Sharing of resources seems sensible	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10826	An individual	1h. General Balance of Savings to be Identified	Some overhead costs e.g.payroll could be shared but this was tried with the Regions and priorities were focussed on the larger ares e.g. Edinburgh. West Lothian has been more efficient and delivered better services on its own.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10827	An individual	1h. General Balance of Savings to be Identified	Look to share services with the busy councils such as Edinburgh.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10828	An individual	1h. General Balance of Savings to be Identified	Integration of services to enable the required savings is a sensible approach, however this will inevitably lead to a reduction in the available resources, so any discussions regarding co-location should involve consultation with the specific communities.	Shared Services	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels.
10829	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	"Shared Services" with other authorities have been talked about for years but nothing seems to happen. I'm sure after the last 10 years of cuts and restructuring there is no further change that can be engendered that can save these projected major costs.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10830	An individual	1h. General Balance of Savings to be Identified	More serious commitment should be made to shared resources and services amongst public sector organisations. It seems to be a very 'bitty' approach.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10831	An individual	1h. General Balance of Savings to be Identified	I don't agree with this proposal. Staff in other local authorities do not know West Lothian and visa versa. I think strong consideration should be given to this proposal before any commitment is undertaken. What shared services? Will staff be made redundant or will they have to travel to other local authorities to work? Although this is identified as a huge saving is it not just going back to the days of Lothian Region which was, for those of us who remember it, not ideal at all.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Any partnership arrangement would need to contribute to the council's agreed priorities and outline service delivery levels. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered.

10832	On behalf of a Group/Organisation	1h. General Balance of Savings to be Identified	The collaborative efforts between councils have been well reported. It seems that collaborative effort between Falkirk, North Lanarkshire, etc could yield more efficiency. Alternatively, West Lothian Council could become the centre of excellence for human resources, information technology, finance, facilities, and property management and sell these services to other councils thereby retaining staff for a greater quantity of work carried out more efficiently.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10833	An individual	1h. General Balance of Savings to be Identified	The Council should require its service divisions to publish five year savings plans/commitments as part of the Delivering Better Outcomes process and publish the service baseline as part of community consultation. Comments on budget proposals (as vague as they are) are provided. Any such savings should not be detrimental to one community versus another. There is plenty of money in the Council budgets and if senior officers sat in the middle of full Council meetings say it's not possible to deliver 5% then perhaps the Council needs fewer senior officers. Why are services not shared with other Councils or partners such as NHSNS which is the delivery body for Integrated Services under the Public Service Reform legislation? This would surely realise much greater savings across Scotland as well as West Lothian.	Shared Services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has established a priority based approach to budgeting which was approved by councillors. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Consideration is given to whether services should continue and what efficiency savings could be generated whilst meeting statutory requirements. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. West Lothian Council has a relatively lean senior management structure compared to many local authorities of similar size. The council has developed a number of shared services and will continue to identify opportunities for further shared service delivery.
10834	An individual	1h. General Balance of Savings to be Identified	Why are services not shared with other Councils or partners such as NHSNS which is the delivery body for Integrated Services under the Public Service Reform legislation? This would surely realise much greater savings across Scotland as well as West Lothian. Workforce and management barriers to such change must be swept away as a priority.	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10835	An individual	1h. General Balance of Savings to be Identified	Shared Services - national level	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10836	An individual	1h. General Balance of Savings to be Identified	Sharing best practice with other UK & international councils..	Shared Services	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
10837	An individual	1h. General Balance of Savings to be Identified	Again, biggest challenge will be to get work force on board.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
10838	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staffing levels need to be looked at in conjunction with customer needs and council processes. very often the processes are effort heavy therefore causing simple task to take much longer than necessary. by simply reducing staff level this will not improve the process.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10839	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Please remember that Council staff pay taxes, have families, outgoings and lives to lead just like everyone else in society. Reducing staff numbers will lead to unemployment and problems that will spiral out from this.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
10840	An individual	1h. General Balance of Savings to be Identified	Accept cuts have to be made but keeping efficient and hard working staff should be a priority.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Employees are the council's most important asset and the council will continue to invest in training and development of employees.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10841	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Comments are as above re staff being the best council resource and care must be taken that staff are not then too stretched to maintain the standard of professional delivery currently being offered.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Employees are the council's most important asset and the council will continue to invest in training and development of employees.
10842	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Only concern would be if staffing numbers drop and staff members take on more responsibilities that this may create a double negative. More stress/more sickness related issues with staff which leads to more sick days/decrease in performance due to over working. The right structure needs to be in place with technology etc. and a support system needs to be in place before staffing is reduced.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10843	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	In some services there are more managers than officers so agree this needs to be addressed. Hopefully the Council can hold on to it's no redundancy policy.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10844	An individual	1h. General Balance of Savings to be Identified	There you go. If you are sharing staff then you need high quality staff, this is not what you'll get if the remittance is lower than average.	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions.
10845	An individual	1h. General Balance of Savings to be Identified	as long as no compulsory redundancies are needed fine.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
10846	No Response	1h. General Balance of Savings to be Identified	How many levels of management?	Staffing Levels	3. The respondent advised that they had no comment to make.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10847	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	so what- reduce the workforce and then be unable to provide the service at all?? This seems a bit shortsighted and will increase pressure on remaining staff	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10848	An individual	1h. General Balance of Savings to be Identified	A more streamlined service will benefit all, however the council should also ensure that essential services are not cut to the bone and putting additional stress on the employees.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10849	An individual	1h. General Balance of Savings to be Identified	S already noted, why not offer early retirement packages to reduce staff numbers?	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10850	An individual	1h. General Balance of Savings to be Identified	Just cut the jobs, better to provide no service at all than the poor one currently delivered! The grass on the main Livingston road central reservation is cut twice a year if weâ€™re lucky! Focus on doing less but better! The jobs have to go eventually so letâ€™s just get the pain over and done with!	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10851	An individual	1h. General Balance of Savings to be Identified	would just add that reduction in council jobs at current generous terms will increase demand for remaining jobs and make problems in 1g a bit worse.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10852	An individual	1h. General Balance of Savings to be Identified	When staff numbers are reduced the service delivery will also be reduced.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10853	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Pay attention to unintended consequences of reducing staffing!	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes
10854	An individual	1h. General Balance of Savings to be Identified	Does this mean there will be more internal issues? Having been faced with issues when dealing with the council already due to staff uncertainty and work overload, making teams smaller does not seem to be ideal unless other measures are put in place.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10855	An individual	1h. General Balance of Savings to be Identified	The council is a provider of public services. The public who receive services should be able to speak with council staff on a face to face basis and have access to council staff to discuss their issues, not just answer systems. Reductions in staffing will lead to a less person centred response to individual customers needs and the perception of customers will be that they are getting a poor service. The council exists to provide a service to the public- not to be a faceless bureaucratic inflexible organisation	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10856	An individual	1h. General Balance of Savings to be Identified	A lot of money to save and looks again like simply job cuts. When you reduce the number of council staff posts on the basis of short-term savings/cuts this reduces the number of future opportunities in the labour market for young people. Council simply now part of the system driving down pay, terms and conditions associated with labour market changes sought by UK Conservative Govt.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10857	No Response	1h. General Balance of Savings to be Identified	I feel strongly that staff shouldn't loose jobs to make cuts this country is in enough of a terrible state without more people facing unemployment. This will only add to the growing unemployed, the benefits cost (reduced council tax claiming unemployment benefits etc) , the education costs (people have to re train). I think where possible to loose valued staff should be avoided it's a sad time when people have there life's stripped when there is money spent on things like designer roundabouts, flowers at the road sides, Christmas lighting, architecture, fancy court houses, expensive viehcles, brand new schools, latest technology, and when thousands is outstanding in council tax!!	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10858	No Response	1h. General Balance of Savings to be Identified	If/while changing services and reducing staffing levels, again the need to look at potential longer term impact of that reduction on people and their community.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10859	An individual	1h. General Balance of Savings to be Identified	reduction in staffing levels is palitable but only if necessary resources are maintained	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10860	An individual	1h. General Balance of Savings to be Identified	i believe savings on staffing would be made with the proposals above - eg streamlining management, reduction of management, and more use of technology. I do think its important though that the staff who remain, particularly staff doing very difficult work, often out of hours (eg social work support services) should not have any more stripped away from then than there already has been. Some roles are crucial to the wellbeing of children, vulnerable adults, and the general public as a whole, and the staff deserve to be paid accordingly.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10861	An individual	1h. General Balance of Savings to be Identified	whilst it is always good to continue to look for sensible savings wherever possible, it is also important to protect jobs for people in our local area, and to make sure that local knowledge and experience is not lost to the council through excessive outsourcing.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.

10862	No Response	1h. General Balance of Savings to be Identified	Staff are already stretched with workload. Further cuts to staffing levels will not help this in the long terms as value for money is not obtained.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10863	No Response	1h. General Balance of Savings to be Identified	Hopefully staffing cuts to frontline workers will be kept to a minimum, and cuts should be made to Higher Management. West Lothian Council currently employs far too many managers within specific services.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level. The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10864	An individual	1h. General Balance of Savings to be Identified	So at the end of the day it is your approach to make people unemployed to balance the budget. Let's hope you start at the top. One senior managers cost is likely to be equal to 3 or 4 front line staff. Protect front line service staff in your sword weilding	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level. The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10865	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Protect our jobs at all costs, invest in the economy is a priority!	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10866	No Response	1h. General Balance of Savings to be Identified	It would be hoped the West Lothian Council remain with a No redundancy Policy.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10867	An individual	1h. General Balance of Savings to be Identified	As people retire/leave review work flow and assess whether job is still required or could be reassigned	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10868	An individual	1h. General Balance of Savings to be Identified	I would question why at this critical point the council isn't spending to save by offering voluntary redundancy. The council has already restructured department I would question why is there still people on the redeployment list on the same high graded salary after 2 years!! Redeployment is a short term period to allow a staff member to apply for other positions however we now have these employees on the redeployment list on the same salary that for 2 years haven't actually had a job role.	Staffing Levels	4. The council is already doing this.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.

Transforming Your Council Consultation 2017

10869	An individual	1h. General Balance of Savings to be Identified	As above, in relation to the Council's no redundancy policy, I feel that offering voluntary redundancy or severance across the council may address a workforce reduction better than enforcing cuts - allowing room for movement across services if co-ordinated properly.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10870	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	How many jobs would be gone by applying this measure? What services would be more affected?	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level. Proposals have not been fully developed and therefore no figures can yet be provided in relation to proposed staffing reductions
10871	An individual	1h. General Balance of Savings to be Identified	Would this mean compulsory redundancies?	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10872	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	That is a considerable amount to be saved ! Sounds like more job cuts. D	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10873	No Response	1h. General Balance of Savings to be Identified	will this mean a change to the no compulsory redundancy policy	Staffing Levels	3. The respondent advised that they had no comment to make.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10874	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Jobs must be protected and a review of contractual terms and conditions has to be undertaken. As a council, we continually encourage our staff to promote fair pay and good working environments, yet we can only offer the majority of staff fixed term contracts. These contracts are not any more dependable than zero hour contracts which does not allow staff to prepare and plan for the future with things such as mortgages and further education/training. Staffing levels are already low in certain areas of the council due to the last cuts made to council services. This has demoralised the remaining staff who are in constant fear about the status of their fixed term contracts. This has encouraged very experienced staff to move to other local authorities and private sector organisations in order to find stability. With cuts announced to council services at the beginning of 2017, the council were still able to advertise permanent contracts for new roles rather than working to protect those already working for the council on fixed term contracts. The use of fixed term contracts has deterred strong candidates from applying for council jobs as the instability is more often than not, not worth the gamble. I understand that some projects are only short term visions, but there are staff members who have been part of projects and on fixed term contracts for over 5 years with no support for applying for permanency.	Staffing Levels	4. The council is already doing this.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. Where appropriate the council will offer permanent contracts to employees.
10875	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Reduce middle managers by combining teams together.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10876	An individual	1h. General Balance of Savings to be Identified	Less management more binmen etc	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.

10877	An individual	1h. General Balance of Savings to be Identified	De layer management structures 20% cuts should require a lot less heads/managers/supervisors	Staffing Levels	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10878	No Response	1h. General Balance of Savings to be Identified	Too many tiers of management currently in the Council, that are not actually productive and serving the public. There should be more emphasis on Council staff that actually are productive and are doing the work and less management rolls.	Staffing Levels	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10879	No Response	1h. General Balance of Savings to be Identified	Comments as per q.v. above. - A difficult area. The most important resources a Council has is its staff. Changes to working conditions can cause uncertainty, reduce morale and increase resentment. It is absolutely crucial that the Council ensures that staff are fully kept informed and on board with what's happening. I would not support any measure that unfairly disadvantages staff and expects them to undertake unreasonable additional duties to keep services running. The Council need to avoid such a situation arising.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is proposing to achieve efficiency savings through modernisation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes. Employees are the council's most important asset and the council will continue to invest in training and development of employees.
10880	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Hopefully most of the job losses will be through natural wastage and will not have a knock on effect to the economy of West Lothian as a whole.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
10881	An individual	1h. General Balance of Savings to be Identified	reduce full time employees from 36 to 35 hours per week, this would save so much more than anything else.	Staffing Levels	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this can be developed.
10882	No Response	1h. General Balance of Savings to be Identified	Could save money by not increasing wages	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions.
10883	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staffing levels will no doubt reduce, this is clear with the enormity of savings still outstanding.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
10884	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staff are integral to the way the Council functions and the public appear to value these services- especially face-to-face.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver a more effective and cost effective service through the centralisation of generic tasks and use of technology with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10885	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	My above point also applies here - this timescale allows a planned approach to establish levels of work that is essential, matched with the number and level of staff required. I have recently worked in a major Whitehall Civil Service Dept where austerity dictated they needed to lose approx. 60 staff - they conducted an exercise where everyone had to apply for a post based on competencies to achieve their outcome.	Staffing Levels	4. The council is already doing this.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10886	No Response	1h. General Balance of Savings to be Identified	A reduction in staffing to some services would be of great concern.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
10887	An individual	1h. General Balance of Savings to be Identified	This seems inevitable, however consistency should be maintained in the council's approach to staff and staff need to be provided with the options that are available to them e.g. voluntary redundancy. Is there a package available to staff, no one seems to know this, and certainly not what that package would be? Also if someone is given a package, they should not then be re-employed on a consultancy or some other sort of basis as has happened many times in the past.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10888	An individual	1h. General Balance of Savings to be Identified	Staffing is quite dire at the moment, all staff have a wealth of knowledge and experience But are stressed due to staff shortages cutting staff would just cause more problems.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10889	An individual	1h. General Balance of Savings to be Identified	However staffing levels should be kept and only reduced through leavers and retirement.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10890	An individual	1h. General Balance of Savings to be Identified	we should recognise the contribution of Council employees through what have been challenging times and ensure that staff are treated with dignity and respect In a time of uncertainty and change. There should be an undertaking that staff will not be impacted by compulsory redundancy - they deserve at least that given their contribution to their community and to local services.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10891	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	still say you have far to many top management sitting in offices twiddling there thumbs you need to get them out there working with the workforce to see what they are doing and at our salary they would soon find out how the other half live	Staffing Levels	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10892	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I would personally be affected by cuts. Should my job go or salary be cut then I would struggle to support my family.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10893	An individual	1h. General Balance of Savings to be Identified	I would worry that a reduction in staffing measures at 'the coal face' would impact on the service delivery and more vitally, knowledge attained by experienced staff.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10894	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Given that there will likely be a need to go back to statutory delivery of services, it is very likely to be the case that litigation will be more busy as a support department as a result, more resources should be put into this area to allow us to support the other departments in having as strong cases as we can. We need to be tooled up with the right equipment to ensure that we can support the departments which will be under a lot of pressure as services are squeezed.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The Council shall consider the resources required to support the delivery of council services.

10895	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Does this mean that people's jobs within the council are at risk when you have clearly stated that employment is a council wide priority?	Staffing Levels	3. The respondent advised that they had no comment to make.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10896	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	This is a completely unacceptable unaccounted-for sum of money. The sentence: "Given that the majority of the council's budget is staffing costs, it is highly likely that the balance will be met by changes to service delivery and staffing levels across the council's workforce." is a scare tactic and is so vague as to be almost worthless.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10897	An individual	1h. General Balance of Savings to be Identified	Putting people out of a job is only going to make things worse and probably cost more somewhere else in the budget meaning is won't save anything...	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10898	An individual	1h. General Balance of Savings to be Identified	Reduce staffing by firing poor performers.	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council actively manages staff performance and takes steps to ensure that poor performance is addressed. The council has a number of systems and processes in place which support managers to monitor service performance and efficiency.
10899	An individual	1h. General Balance of Savings to be Identified	As long as the staff that are let go are helped to find other positions	Staffing Levels	4. The council is already doing this.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
10900	No Response	1h. General Balance of Savings to be Identified	Introducing a redundancy policy again will allow people to leave and thus free up significant sums. There will be large numbers of staff who will willingly take redundancy if the package is good.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10901	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Again, we have too many levels of middle management, jobs that seem to have been created and permanent, where front line staff are on temporary contracts, huge savings could be made by weeding out these positions.	Staffing Levels	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10902	An individual	1h. General Balance of Savings to be Identified	Unsure how services can be maintained if staff levels drop. Surely, this will place additional pressure on the staff that remain?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks and use of technology with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10903	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Yes ii feel that the council have too many temporary contacts which need reviewd.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council regularly reviews the fixed term staff to identify any posts which should be made permanent. Fixed term contracts will continue to be used where this is appropriate to manage temporary, fixed term service requirement

10904	An individual	1h. General Balance of Savings to be Identified	The council should also consider the nature/type of staff employed rather than simply reducing the numbers or the benefits/terms and conditions of staff. This does not help motivation and engagement. Has the Council identified clearly the activities which are best done in house by permanent staff and which are best outsourced or via contract resource?	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10905	No Response	1h. General Balance of Savings to be Identified	The collaborative efforts between Councils have been well reported. It seems that collaborative effort between Falkirk, North Lanarkshire, etc could yield more efficiency. Alternatively, West Lothian Council could become the centre of excellence for human resources, information technology, finance, facilities and property management and sell these services to other councils thereby retaining staff for a greater quantity of work carried out more efficiently. It seems this item is a contingency and as such apart from the above contains no ideas so cannot be commented upon.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has an existing shared service agreement with South Lanarkshire Council for a shared IT data centre and will continue to develop opportunities for further shared service arrangements with other public bodies. The council is also progressing with West Lothian College the provision of shared services opportunities across a range of service areas.
10906	No Response	1h. General Balance of Savings to be Identified	Less staff surely must equal a lesser service or are you banking on volunteers to pick up the slack again?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks and use of technology with the retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10907	An individual	1h. General Balance of Savings to be Identified	So you want to pay off local council workers and punt our services to other councils and charge them for doing it to save some cash. But people out of work will inevitably have to claim support. This could drive up the costs of other councils who in a few years would look to attempt similar measures. False economy maybe? Is there a proposal I could examine which would explain how 10.4 million pounds can be saved by this action?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an existing shared service agreement with South Lanarkshire Council for a shared IT data centre and will continue to develop opportunities for further shared service arrangements with other public bodies. The council is also progressing with West Lothian College the provision of shared services opportunities across a range of service areas. The Council will continue to look for options to deliver shared services to reduce costs.
10908	An individual	1h. General Balance of Savings to be Identified	Streamlining services and staffing can be a way forward however it usually results in fewer staff on frontline services thus making it difficult to provide a good quality service to those people who are the most vulnerable in our society.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10909	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Reducing staff puts more pressure on staff who are already struggling to provide a decent service to clients.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10910	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	It is a certainty that there will be staff losses. I am sure that this can be done without a reduction in the service that we offered. I think the council may be better looking at the number of manager/leader positions within the organisation. The managers earn more but in some cases have less knowledge. If you lose too many staff from the lower part of the structure then performance will be affected. Merging departments where possible/feasible and reducing the number of managers first off is where i think the staff reductions should be looked at first.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure. The council will continue to review opportunities to integrate and modernise council services.

10911	No Response	1h. General Balance of Savings to be Identified	Yet again this is very vague. Will staffing be cut? Is it natural wastage?	Staffing Levels	3. The respondent advised that they had no comment to make.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10912	An individual	1h. General Balance of Savings to be Identified	So really what you are saying is you will cut staff which in turn will cut services	Staffing Levels	3. The respondent advised that they had no comment to make.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10913	An individual	1h. General Balance of Savings to be Identified	Even more redundancies, which I do not agree with	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10914	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Is there not a danger that with all these cuts private companies are going to become more attractive and people will either leave to get jobs with them or we end up privatising all services? (something I wouldn't like to see happen).	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10915	An individual	1h. General Balance of Savings to be Identified	Staffing levels in education already seem to be at rock bottom, with imminent crisis looming. Social services are struggling to meet demand already. Cut with due caution - the impacts will be with us for at least the next 50 years.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10916	An individual	1h. General Balance of Savings to be Identified	As long as no compulsory redundancy .	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10917	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I don't feel it correct to reduce staff purely to make a saving as the service they provide may need to be maintained. If a well thought through porposal were put forward i would agree but in the above paragraph there is not. To be clear i do not disagree but it is hard to agree to the above as all it says is something needs to be done, not what is going to be done.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.

10918	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	voluntary redundancies?	Staffing Levels	3. The respondent advised that they had no comment to make.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10919	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	The Council should take into account sickness and absence when reducing staff numbers. There are some members of staff who are always absent from work and have had long term absence. Whereas other members of staff are never absent and provide continuity of service.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council actively manages all absences in terms of its sickness absence policy, which is subject to constant review, in consultation with the recognised trade unions, to ensure that it is fit for purpose
10920	No Response	1h. General Balance of Savings to be Identified	Again, less people delivering more is just never going to deliver the same level of service for the region. There will be more instances of staff stress due to pressure and workload.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10921	No Response	1h. General Balance of Savings to be Identified	I disagree with cutting staff purely just to bring costs down. If you cut staff are are needed this may not be a saving in the long run. However if FTE can be identified in which a reduction makes sense it would be hard to disagree with. Working with other local authorities can be a good thing but it depends which councils as some are not run brilliantly.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10922	An individual	1h. General Balance of Savings to be Identified	Staffing cuts should only be done if it has been proven that the post unnecessary , you shouldn't not expect remaining staff to do two people's jobs.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10923	No Response	1h. General Balance of Savings to be Identified	I think the council staff are already severely pushed to their limits and their workloads are very heavy (specifically social work staff which my mother is part of). Removing staff from these types of roles or putting more on their workload will mean failings for vulnerable people of all ages	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10924	An individual	1h. General Balance of Savings to be Identified	Are you effectively led, well managed? Is and Local Authority? How many levels of management can you remove? And can you let people go without filling their mouths with the taxpayers gold? If you were a new company set up to deliver statutory services, how would you be set up? Not as you are, that is a given, and should be the template you pursue to become unidentifiable in a few years.	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10925	No Response	1h. General Balance of Savings to be Identified	Inevitable but don't start at the bottom of the chain looking for savings. Start at the top and work down	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.

10926	No Response	1h. General Balance of Savings to be Identified	The staff on the ground are working very hard - in Customer Services for example - do we need Service Development Officers?? Going back to previous comment - management does have to be looked into - middle and senior management especially. Can we share services with our neighbouring local authorities. The middle management needs to be looked at - there are far too many middle managers - too many layers in WLC. The whole structure needs to be looked at. Front line services should not be reduced or cut back any further. Are there jobs that are overlapping each other.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10927	An individual	1h. General Balance of Savings to be Identified	I would imagine natural wastage will be sufficient to cover the gap, especially if packages are offered for those wishing to leave the council. This also has to be balanced with service delivery though.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need. The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10928	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Any changes should be fair and proportionate. It should also be noted that where there is a reduction in staff in some areas, this may simply mean a higher workload for the remaining individuals. The potential impact on health would need considered particularly if the roles are of a more stressful nature.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10929	No Response	1h. General Balance of Savings to be Identified	The council must make sure that any top-heavy management structures are revised to make greater savings on larger salaries and pension contributions, rather than focusing on ordinary service and support staff	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10930	No Response	1h. General Balance of Savings to be Identified	Reduce staffing on non compulsory services or support to third party networks. Reduce number if councils officials and adopt a flatter management structure	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10931	An individual	1h. General Balance of Savings to be Identified	If costs have to go down then so does headcount. I personally would be comfortable with a slight increase in council tax to offset the reductions though. I also don't know to what extent 'golden handshakes' or 'gilded pensions' still exist but these should be not just looked at but done away with.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements. Pension costs have been rebalanced through an increase in employee contributions, and further national cost management changes to the Local Government Pension Scheme.
10932	An individual	1h. General Balance of Savings to be Identified	Consider compulsory redundancy	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

10933	An individual	1h. General Balance of Savings to be Identified	Don't get rid of the frontline staff, they all do a great job under difficult circumstances.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10934	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Agree although no compulsory redundancies.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10935	No Response	1h. General Balance of Savings to be Identified	Looks like a coherent approach will be required to downsize the workforce. Staff are already thinking this is the case so it would be better to get some kind of plan out there for staff to digest. Possibly would sit well with over 55s.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10936	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staffing cuts may be required but this should not be to the detriment of future generations. There is no point cutting staff so that some council operations are not adequately performed, or not performed at all, only to be playing catch up in years to come. This should be considered very seriously before any decisions are made.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10937	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	I would review staffing levels as a last resort. Would need to ensure that the work can still be carried out successfully by staff in place.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10938	No Response	1h. General Balance of Savings to be Identified	Cut the executives and managers first far too many that just aren't required	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10939	An individual	1h. General Balance of Savings to be Identified	Given staffing costs a major factor the measures outlined clearly essential.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
10940	An individual	1h. General Balance of Savings to be Identified	Again this seems to be aimed at cutting staff. Do we want to end up the same as Police Scotland who do not seem to have enough officers on the ground	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.

10941	An individual	1h. General Balance of Savings to be Identified	My husband works in s school, my best friend works for the social work and I have a friend in housing, they are all understaffed. I don't understand where the reduction would come from	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10942	No Response	1h. General Balance of Savings to be Identified	I don't think there can be any more cuts with regard to service delivery	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10943	An individual	1h. General Balance of Savings to be Identified	I think instead of saving money by reducing jobs from the bottom, I think the high earners in the council should take a pay freeze, and merge work loads and pay off or make redundant the higher earners. This will save £1000s. Instead of having 10 high earners at the top reduce this to 5. Less crazy wages to pay and more savings. It seems to be cleaners, PSW and kitchen staff who earn the LEAST in the council that suffer due to these savings.	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions.
10944	No Response	1h. General Balance of Savings to be Identified	Reduce staffing levels by offering a voluntary redundancy scheme to over 55's.	Staffing Levels	4. The council is already doing this.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10945	No Response	1h. General Balance of Savings to be Identified	Instead of pay rises, keep the staff the same and keep more of the staff. forcing already pushed resources to shrink more would have a very negative effect on the council. Along with stop doing silly things like having two managers in planning regardless or not fi they are part time. it offers more positions lower down that don't really have to be there.	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions. The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10946	An individual	1h. General Balance of Savings to be Identified	Services should be staffed to the highest standard and ensure the staff for each job are able to perform adequately and efficiently.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10947	An individual	1h. General Balance of Savings to be Identified	The staff are what makes the Council the quality it is, although lower staffing levels are an obvious saving, losing dedicated, experience and knowledgeable staff is detrimental to the council's quality of services.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver a more effective and cost effective service through the centralisation of generic tasks, use of technology and the retention of specialist provision within services.
10948	An individual	1h. General Balance of Savings to be Identified	As above make sure staff really can be saved and that the saving in one service does not knock onto another	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10949	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Voluntary redundancies would result in a smaller workforce and would probably be welcomed by many.	Staffing Levels	4. The council is already doing this.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.

Transforming Your Council Consultation 2017

10950	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Voluntary redundancies would be welcomed by many council employees within a certain age range.	Staffing Levels	4. The council is already doing this.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10951	An individual	1h. General Balance of Savings to be Identified	See my above comments in 1.a . As long as the management of Council staff is so poor there is no hope for staff costs reduction. The taxpayer should not be having to take reductions in important services while the staff management in the Council is so poor. Start first with management efficiency.	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements. The council has a number of systems and processes in place which are essential to enable the council to monitor and report service performance and efficiency.
10952	An individual	1h. General Balance of Savings to be Identified	I'd suggest meaningfully offering term time working and reduced hours to staff for a genuine discussion about how this could work for the Service and save substantial salary costs year on year. Put it out there as a genuine option.	Staffing Levels	4. The council is already doing this.	The council has a flexible working policy and staff can request to work reduced hours, where this meets the needs of the service.
10953	An individual	1h. General Balance of Savings to be Identified	Collaboration will save money however can/will result in unemployment when posts merge how will the council address that?	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10954	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	The Council, particularly in Social Policy, are already short staffed and under budgeted so to further cut the workforce would have a huge impact on each department.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10955	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	West Lothian Council are one of if not the biggest employer in the county. If staffing levels are to be cut, surely this will increase unemployment in the region that you want to avoid?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
10956	An individual	1h. General Balance of Savings to be Identified	I'm not keen on anyone losing their jobs, but duplication between adjacent councils seems inefficient.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an existing shared service agreement with South Lanarkshire Council for a shared IT data centre and will continue to develop opportunities for further shared service arrangements with other public bodies. The council is also progressing with West Lothian College the provision of shared services opportunities across a range of service areas.
10957	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Again cutting staff does not work. All the departments have been cut to the most they can be. If however, staff decide to leave the best way forward would be to freeze staffing levels and not take on more staff. This way staff who want to leave can and you are not forcing staff to leave and pretty much bankrupting them and affecting their families.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council will continue to review all posts which become vacant to identify those which require to be recruited to meet the needs of the customer or to take advantage of opportunities to redesign service delivery to achieve efficiencies.
10958	An individual	1h. General Balance of Savings to be Identified	As staff costs are the main items in any balance sheet there's always scope for savings here	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

10959	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	If there is a staff cut , service and delivery will obviously be affected and this will have an impact of the recipients. New service standards will have to be drawn to show the changes and make people aware of the inferior service.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council will continue to consult with service users on any proposed changes to service standards.
10960	An individual	1h. General Balance of Savings to be Identified	It is imperative that to maintain service delivery that specialise knowledge & skills are not lost in budget cutting.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Experience has demonstrated that the council can deliver a more effective and cost effective service through the centralisation of generic tasks, use of technology and the retention of specialist provision within services.
10961	An individual	1h. General Balance of Savings to be Identified	The theme of continuously threatening the jobs of WLC workers in this consultation is thoroughly depressing.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
10962	An individual	1h. General Balance of Savings to be Identified	Most of the savings will come from staff reduction. This can be achieved by stopping doing things, simplifying how they are done, or enabling them e.g. through technology. First two can be achieved by asking "do we need to do all of these processes?"; the last will need a robust business case for any investment	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver an more effective and cost effective service through the centralisation of generic tasks, use of technology and retention of specialist provision within service. This model still allows the opportunity for staff to engage with council officers on a face to face basis at the most effective and convenient level.
10963	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staffing levels within the department i work are already at the minimum and further staff reductions would mean the service that is provided will not be appropriate. Each department should be carefully assessed to ensure that reduction in staff levels will not be detrimental to the service we should provide.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10964	No Response	1h. General Balance of Savings to be Identified	Again the Council stand to loose specialised knowledge, skills and expertise. For example the Council is struggling to attract teachers into posts how do the Council propose to function without adequate staff to carry out the work.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10965	No Response	1h. General Balance of Savings to be Identified	Why is â€œrationalising staffâ€™ always the solution, why do staff suffer when the highest earners of the councils prevail. This is where the savings are needed- wasteful high earners protecting their own interests not in medium and low paid jobs. Those making these decisions should look at their jobs and push this attitude further up to government where waste and unjust wages are prevalent.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure. The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions.
10966	An individual	1h. General Balance of Savings to be Identified	I personally am sick of seeing council workers standing in groups of 3 or 4 watching 1 worker do the job, while the others 'supervise'.	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
10967	An individual	1h. General Balance of Savings to be Identified	Do changes to staffing levels mean redundancy? I would be keen for this to be avoided as we aim to increase employment across the authority, not add to unemployment figures.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

Transforming Your Council Consultation 2017

10976	No Response	1h. General Balance of Savings to be Identified	How can you deliver essential services with fewer staff?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10977	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	again be aware of the teacher strikes...	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is subject to national pay bargaining and the salary scales for officers are determined nationally. The council is subject to national pay bargaining, and terms and conditions.
10978	An individual	1h. General Balance of Savings to be Identified	Staffing levels should only be reduced if the consultation shows that that services CAN be efficiently streamlined without loss of quality to the public.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10979	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	This will be an extremely difficult objective to deliver and will ultimately involve a council wide reduction in workforce. This will have massive legal implications and potentially opens WLC up to contentious claims against us if not managed properly. This could involve Employment Tribunal cases or even civil actions. For this reason, it is crucial that Legal Services have the correct tools and resources to provide the correct advice along the way in this process, to avoid such complications. I do not believe that this will have an impact purely on those involved in HR and Employment Law but also this will impact on the capacity of the whole service. Legal Services is currently short staffed. There will be further necessity to replenish this staff shortfall to ensure legal compliance in attaining this objective. There will require to be a complement of suitably trained/qualified legal/HR staff to implement this objective and mitigate potential risks.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council recognises the importance of an efficient and effective legal services in supporting and enabling the delivery of transformed council services.
10980	An individual	1h. General Balance of Savings to be Identified	Look at those at the top	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10981	An individual	1h. General Balance of Savings to be Identified	If staff and services are reduced it is important that customer expectations about the level of service that they can expect are properly managed and advertised.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council will consult with and communicate to customers in relation to any changes to service delivery and
10982	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Again less staff employed with bigger workloads	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10983	An individual	1h. General Balance of Savings to be Identified	Agreed - enough admin staff should be retained to process tasks. Rationalisation should be in reduction in management	Staffing Levels	1. The respondent advised that they agree with the proposal.	Experience has demonstrated that the council can deliver a more effective and cost effective service through the centralisation of generic tasks, use of technology and the retention of specialist provision within services.

10984	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Good - but consider those in senior management first! The biggest savings will be met here. Also a number of staff were due to have been lost following the last round of cuts, but they're still here! Equity of pay - more females are paid less/ in lower paid jobs in the first place!! Will there be redundancy packages available, and if so how will staff access this information to make the 'best' decision?	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure. The council is an equal opportunity employer and grades for jobs have been evaluated to ensure that they do not introduce inequity. The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
10985	An individual	1h. General Balance of Savings to be Identified	less management would be better	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
10986	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Staff are already at capacity, many having already absorbed the affect of reduced staffing levels. We can't keep asking people to do more and more without this affecting health and wellbeing.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10987	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Early retirement and natural wastage through staff leaving will surely take up a large amount of this estimate Over 5 years , again Sounds good in theory but no practical evidence is given to support this action.	Staffing Levels	1. The respondent advised that they agree with the proposal.	At this stage, detailed budget reduction measures have not been developed, therefore there is no specific information on how the savings will be achieved and the timescales for delivery. This will become clearer as the measures progress following the consultation process and approval of the council's budget strategy.
10988	An individual	1h. General Balance of Savings to be Identified	More support is required for managers to deal with incompetent, not able or not willing staff members to raise expectations.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has a number of policies and procedures in place which support managers to monitor and manage employee performance .
10989	No Response	1h. General Balance of Savings to be Identified	One of the councils priorities is improving employment and yet the solution to the budget problems is to create less jobs. People work for the council because it is considered a good place to work, this will change if staff are being paid off and not being given permanent contracts.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
10990	No Response	1h. General Balance of Savings to be Identified	Ok, again, as long as workload is not increased and staff are not made redundant. Something may have "to give" as staff in schools in particular cannot take on any more.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10991	No Response	1h. General Balance of Savings to be Identified	I am assuming that the above statement does in fact mean staff cuts. I am totally against the reduction of the council's workforce. Savings have already been made in the last few years - staff who have left post or who have retired - have not been replaced. In effect this means that fewer staff are now doing the jobs of two or more people. This increases the stress on the remaining workforce, which impacts on their ability to work productively.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10992	An individual	1h. General Balance of Savings to be Identified	Reduce the workforce at all levels.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

10993	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	It will only be a better West Lothian if there are still people employed and delivering services to enhance the lives of others rather than everyone being out of work due to Council cuts!!!!	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
10994	An individual	1h. General Balance of Savings to be Identified	As long as staffing cuts don't mean drastic reduction in services	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10995	An individual	1h. General Balance of Savings to be Identified	I don't believe that staffing levels have been particularly affected so far in the previous cuts. By all means reduce staffing if possible in admin roles, but protect and possibly increase those posts working with children and in roles supporting families living with particular difficulties e.g. Disabled children.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10996	No Response	1h. General Balance of Savings to be Identified	Every effort should be main to achieve staffing cuts by natural departures, avoiding compulsory redundancies.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
10997	No Response	1h. General Balance of Savings to be Identified	As stated previously, staff levels are reduced already due to service demand, so cutting back more would be detrimental for patients, carers and families.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10998	An individual	1h. General Balance of Savings to be Identified	Staffing levels shouldn't be changed. We know what this means and it could mean shutting somewhere down just so the council dont need the employees there any more, using machines so employees aren't needed ect. but these people would be at the bottom of the chain, people higher up in the council are safe and probably wont feel any damage done to them. It's an endless cycle, reduce staff in the council creates more unemployed people of all ages and therefore will need the scheme that the council plan to reduce also so will they be given the help they need?	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
10999	An individual	1h. General Balance of Savings to be Identified	This item dwarfs all other proposals above and it is very vague - albeit it implicitly means making very widespread redundancies. Does the council currently employ lots of people who don't contribute anything? If not then services will necessarily suffer.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

11000	An individual	1h. General Balance of Savings to be Identified	Staff cuts will inevitably lead to a poorer service.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
11001	An individual	1h. General Balance of Savings to be Identified	Again vague, but I would not support widespread job cuts across services if this is likely to have a detrimental effect on service provision.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
11002	An individual	1h. General Balance of Savings to be Identified	I do not want people to lose their jobs and as we know the demand is still high from the people of West Lothian who have become used to the council providing high levels and quality of services. Not sure how we can maintain the workforce but creating unemployment in times of uncertainty is not an option I could agree with. Reducing staff and increasing workloads for remaining staff may result in burn out stress and increasing absences from work. Perhaps looking at a voluntary redundancy policy may allow for natural wastage.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a Early Retirement/Voluntary Severance scheme which is available to all employees subject to a suitable business case being submitted within the set affordability criteria.
11003	An individual	1h. General Balance of Savings to be Identified	Again, The council needs to ensure that the staffing are in place to provide the quality of service that these service users, families and communities require to ensure positive outcomes for all concerned. This will cause additional stress to families and the council has a duty needs of care . They also. Need to take into consideration that council employees are not having to take on unrealistic workloads. Also this will be interesting to see how this is provided against a background of proposed cuts to adult services, including the specialised Elburn Centre and Ability Centre, Carmondean . Unrealistic	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
11004	An individual	1h. General Balance of Savings to be Identified	I am concerned however about the proposed reduction in staff level. Turning taxpayers who provide a community service into people on benefit does not seem like a saving to me. I don't believe social services staff level should be reduced for example.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.
11005	No Response	1h. General Balance of Savings to be Identified	The council needs to ensure that the staffing are in place to provide the quality public services which residents in West Lothian want and depend on without council employees having to take on unrealistic workloads,	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements.

11006	No Response	1h. General Balance of Savings to be Identified	Staff reduction lower pay and higher living costs leaves little incentive	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements. The proposed review of terms and conditions would seek to review the use of overtime, allowances and enhancements, whilst at the same time consider the rates payable when used.
11007	An individual	1h. General Balance of Savings to be Identified	The range of activity the council undertakes is vast and needs reviewed in light of the resources available. This does not necessarily mean that there should be staff cuts. Staff could be redeployed to carry out priority activity where possible	Staffing Levels	4. The council is already doing this.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
11008	An individual	1h. General Balance of Savings to be Identified	Job share, reduced hours, upskilling to facilitate opportunities to fulfil several roles if required	Staffing Levels	3. The respondent advised that they had no comment to make.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
11009	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	A gradual change in Staffing levels is very important.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11010	An individual	1h. General Balance of Savings to be Identified	Changes in staffing levels need to be handled with care and negotiated fully with trade unions. My suggestion would be that rather than compulsory redundancies the council should consider a not replacing some category of staff when they leave, offering voluntary exit packages to staff.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
11011	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	This could provide even less of a service to the public and make the onus on staff to take on more responsibility to the detriment of their health and the good job they try to do.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11012	An individual	1h. General Balance of Savings to be Identified	Staffing may be the Council's biggest cost, however the staff are also the organisation's biggest assets. A balance has to be struck between making savings and ensuring services are adequately resourced. Decide what the priority services are and resource them properly. Make the tough choice to dispense with non-priority services. Services that support and enable the delivery of Council priorities, either directly or via income / capital generation, should be protected.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11013	An individual	1h. General Balance of Savings to be Identified	Makes sense from a cost saving perspective. I'd like to think that any staff affected by changes will be supported	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11014	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	If the council is able to streamline money spent on overblown management structures in any way these savings could be achieved easily. The issue is protection of grassroots employees who have, for too long, had their income squeezed and workplace development eroded. In my other experience, some services can't work effectively with other areas of our own council let alone with those outside the region.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
11015	An individual	1h. General Balance of Savings to be Identified	Staffing levels cannot be reduced, staff are already stressed and their morale is low. There will be a knock on effect of staff illness and in sick time, thereby putting even greater pressure on those left to shoulder the increased work load.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11016	On behalf of a Group/Organisation	1h. General Balance of Savings to be Identified	Staffing levels need to reflect the Council's provision of services in order to ensure a high standard of service delivery.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11017	An individual	1h. General Balance of Savings to be Identified	no compulsory redundancies must be maintained	Staffing Levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
11018	An individual	1h. General Balance of Savings to be Identified	While acknowledging that this is a difficult process there are computer models to help. Also, does the council still operate a 'No redundancy policy'? If so perhaps this should be looked at.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
11019	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	we have to protect jobs if the council is to deliver the high standards expected and that is delivered to the customers	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
11020	No Response	1h. General Balance of Savings to be Identified	Yeah, because that's the way forward isn't it? Cutting staff even more than we already have been which will lead to more stress and sickness and also piss the customers off making them even more aggressive than they already are :) great plan guys.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements

11021	An individual	1h. General Balance of Savings to be Identified	As outlined in 1g, I question the likelihood that further savings can be made through changes to staffing levels without it also having an adverse impact on service delivery and quality of life in West Lothian.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11022	An individual	1h. General Balance of Savings to be Identified	By simply reducing staff numbers in order to make financial savings to already depleted areas of the Council, this does not improve efficiency but more than likely reduces efficiency and increases stress levels in staff that are asked to do more, reducing staff moral. It is a downward spiral!	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11023	An individual	1h. General Balance of Savings to be Identified	Redundancies will not necessarily improve things, unless they are voluntary or positions that become vacant are not refilled (obviously depending on the position).	Staffing Levels	4. The council is already doing this.	The council has introduced improved workforce planning and greater coordination of vacant posts, fixed term appointments and employees who have been displaced through organisational change. The council is also reviewing the terms of the Redeployment Policy to offer greater opportunities for the redeployment of employees subject to suitable business need.
11024	An individual	1h. General Balance of Savings to be Identified	5 year programme is doable - agree Save money - sack some of the Councilors too many of them	Staffing Levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11025	An individual	1h. General Balance of Savings to be Identified	No you can't lose any more staff there aren't enough at the moment	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11026	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Seems a downsize is inevitable. Its how this is done that will matter. It needs to be open and transparent, fair and equal as well as thought through not to just let a skills drain happen then pick up the pieces.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11027	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	Can't see how "Shared Services" will work if other neighbouring central Scotland councils are in the same, or even worse off, position than WLC. Succession Planning is talked about but nothing is ever done. Most Services are far too top heavy with 45- 60 age bracket. With departure and non-replacement of staff over the last 10 years there is a "ticking time bomb" with the current / projected staff age structure and there seems to be very little younger staff coming through (on Management courses - what happened to the Mangers Passport scheme ?), and those at the bottom of the ladder are all on 1 -2 year contracts! I really fear for the future operation of the council in 20 years time.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an existing shared service agreement with South Lanarkshire Council for a shared IT data centre and will continue to develop opportunities for further shared service arrangements with other public bodies. The council is also progressing with West Lothian College the provision of shared services opportunities across a range of service areas. Employees are the council's most important asset and the council will continue to invest in training and development of employees and managers .

11028	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	We cannot afford to lose any more staff in our department due to the massive workload we have at the moment. Reviewing staffing levels in poor performance departments is a must.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11029	An employee of West Lothian Council	1h. General Balance of Savings to be Identified	This will probably mean more work being added to the people left after the job cuts. Putting too much pressure on staff which will then lead to an increase in sick absence. Staff should be looked after and appreciated.	Staffing Levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11030	An individual	1h. General Balance of Savings to be Identified	Waffle! Yes, you need to reduce staffing levels, particularly at a senior level, where the cost is highest. Yes you need to see what other councils are doing and copy best practice. But keep it simple. Don't require lots of staff that do nothing but look at the council's operations.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
11031	An individual	1h. General Balance of Savings to be Identified	work smarter - increase staff productivity/outputs - slash tasks which are not priorities	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11032	An individual	1h. General Balance of Savings to be Identified	I would hope that WLC continue to have a no compulsory redundancy policy	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council has been able to delivery significant budget reductions in the last 10 years without the requirement for compulsory redundancies. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
11033	An individual	1h. General Balance of Savings to be Identified	Unfortunate, but necessary to make the savings. There are concerns about skilled and experienced staff going and leaving a void that could prove to be more costly in the longer term.	Staffing Levels	1. The respondent advised that they agree with the proposal.	Any service restructure will be undertaken in accordance with the council organisational change policy and in consultation with the recognised trade unions. The Council has developed a Corporate Workforce Plan and Service specific workforce plans which monitor staffing requirements and ensure as far as possible that staffing complements and staff skills meet the service requirements
11034	An individual	1h. General Balance of Savings to be Identified	Management levels should be reviewed. Staff have left/retired & not been replaced, reducing the staff levels, but the amount of managers remains the same. There are more savings to me made at managers salary level.	Staffing Levels	1. The respondent advised that they agree with the proposal.	The council continually reviews the tiers of management and span of control across all service levels against a target 5 x 5 structure. This ensures that the council continues to operate with an effective and efficient managerial structure.
11035	An individual	1h. General Balance of Savings to be Identified	Should be fewer Councilors.	Staffing Levels	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The make up of Council Wards is a matter for the Boundary Commission and not West Lothian Council

11126	An employee of West Lothian Council	2a. Care for Children	Agree that the focus should be on the high risk cases as we wouldn't want any child being hurt or killed. There has to be savings in this area otherwise we are saying it is fully efficient which I'm sure it is not.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11127	An employee of West Lothian Council	2a. Care for Children	This will be excellent and provide consistency for children with disabilities without uprooting them out with council.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11128	An individual	2a. Care for Children	Agree that council should look to focus resources on those most at risk.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11129	An individual	2a. Care for Children	This sounds and looks to be understandable.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11130	An employee of West Lothian Council	2a. Care for Children	This sounds good, I think early intervention and prevention are key, especially working with families (something that educational psychologists could take more of a role in perhaps?).	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11217	An employee of West Lothian Council	2a. Care for Children	Social care is a hugely important area for the community but is contributing to a large amount of the budget pressure over the five years. It is necessary to look for savings in social care, but there should be an ongoing service for the most vulnerable people. I support this measure as it looks to focus services on the most vulnerable and retain as much as possible within West Lothian.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11251	An individual	2a. Care for Children	Look okay as it is possible to evaluate given the vague descriptions given in the 'Transforming Your Council'	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11252	An individual	2a. Care for Children	I agree with the proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11253	An individual	2a. Care for Children	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11254	An individual	2a. Care for Children	Early intervention practices with prevention and outreach support being available sounds like this would deliver a better service for our vulnerable young people and families.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11255	An employee of West Lothian Council	2a. Care for Children	Young people with disabilities should be included in the local community however this may not always be possible and should be minimised where possible.	Care for children - early intervention and prevention	4. The council is already doing this.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11256	An employee of West Lothian Council	2a. Care for Children	Integration in local schools should not be seen as the best option as although it sounds great it is neither good for the family or the young person as the local school will not have the skilled workforce to aid the young person reach their full potential.	Care for children - early intervention and prevention	4. The council is already doing this.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11257	An individual	2a. Care for Children	early intervention is the way to go but don't tamper with this to much they also need familiar routine.	Care for children - early intervention and prevention	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11258	An employee of West Lothian Council	2a. Care for Children	my concern would be that there would be a "gap" between early intervention and prevention and children not assessed as being at highest risk thus they / their family not receiving a service until the risk escalates - I would also have concerns that this would impact on how children's services are seen (particularly social work services) as only involved in child protection	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11259	An employee of West Lothian Council	2a. Care for Children	We need to focus interventions on highest need, and have a clear focus to why we are working with a family.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11260	An individual	2a. Care for Children	Personally, I feel there is not enough support for vulnerable and disadvantaged children and families in the area. Whilst I understand budget restrictions will restrict the number of families being supported, what about those that slip through the net, surely early intervention should be a priority and therefore this should be protected	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11261	An individual	2a. Care for Children	My issue is that clearly this proposal will give less time to preventative measure and will therefore overload	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
11262	An employee of West Lothian Council	2a. Care for Children	I feel keeping children with disabilities in their local community is a great idea. Social groups that are close and local will be of a huge help, particularly for those who are about to leave school.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11263	No Response	2a. Care for Children	Each family/case should be taken on its own merit. It is not good to put keeping disabled children in West Lothian as the priority, if the service that meets their needs best is in another area. This proposal suggests a one size fits all approach, and when you are dealing with very complex needs, this cannot and should not be applied.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11264	An individual	2a. Care for Children	This sounds a sensible approach. Particular focus on allowing children with disabilities to remain in their local community is a worthwhile thing.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11265	An individual	2a. Care for Children	Is there a risk that focusing on high risk cases misses the opportunity to help other cases which then become high risk?	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11266	An individual	2a. Care for Children	It is increasingly important that the council continue to take intervention and safeguarding seriously with this support being available to children and other professionals involved in safeguarding at all times.!	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11267	An employee of West Lothian Council	2a. Care for Children	if changes improve the services then I would be in favour of them.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11268	An individual	2a. Care for Children	Early intervention is key and NOT firefighting at a later stage. Horrible though it is, it would be more cost effective to withdraw support for those entering the sector after a certain age and concentrating the money on the first years of life.	Care for children - early intervention and prevention	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11269	An individual	2a. Care for Children	Agree that focus should be on highest risk cases	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11270	An individual	2a. Care for Children	Think it is a false statement to say that focusing on HIGH risk cases this is to ambiguous. Early intervention and prevention should be the higher priority trying to prevent HIGH risk cases. Once you are onto HIGH risk you are going through a case management process.	Care for children - early intervention and prevention	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11271	An individual	2a. Care for Children	Depends on how the risk evaluation is implemented	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11272	An employee of West Lothian Council	2a. Care for Children	The reshaping of services for children and families needs to take account of the skill base required for the staff. many of the staff currently developing skills and expertise in this area are on fixed term contracts. a period of training and development would be needed to enable workers to meet the new expectations on them. this needs to be included in cost calculations.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Any changes to structures will require to fully consider the impact on staff
11273	On behalf of a Group/Organisation	2a. Care for Children	With young people and children needing strong and stable adult influences - youth workers can fill this gap if their there.	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11274	An individual	2a. Care for Children	Outreach can only be successful if A. There is enough staff B. Enough support for those staff and C. Decent pay to retain these staff	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11275	An employee of West Lothian Council	2a. Care for Children	ok as long as checks and fail safes in place to ensure 'high risk' cases are not missed due to additional pressure on less staff.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11276	An individual	2a. Care for Children	delivering real early intervention and prevention should NOT be about focusing only on highest risk cases. there will be families who are just getting by that without an early intervention can escalate into higher risk categories very quickly without some small support introduced at an earlier stage. You proposals are not consistent with West Lothian CPP's Lifestages model.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11277	No Response	2a. Care for Children	Surely the focus should already be on highest risk cases with regards to children. this should not be a new idea in terms of reshaping a service.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11278	An individual	2a. Care for Children	Parents need to take more responsibility in caring for their children and their disabilities as they rely on services more and more.	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11279	An individual	2a. Care for Children	Rationalisation is perfectly Ok as long as it is not done in an ad hoc fashion and the quality of service provision is improved by the rationalisation. This sector is important in light of the increasing birth rate in the council area.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11280	An individual	2a. Care for Children	Agree with the focus on early intervention and prevention.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11281	An employee of West Lothian Council	2a. Care for Children	Madness! See previous comments and consider international and national research that contradicts this false assertion by WLC. What metrics are being used other than cost? Seems local govt is happy to contribute to the dismantling of the welfare state/safety nets as much as the UK govt is. The best way to reduce the costs of care for children is to remove the cause - early intervention is critical here - yet the lack of joined up service delivery/public sector reform (DESPITE GIRFEC) is embarrassing. With a broad spectrum of needs across ANY population there will always be part of that population that will require very specialist (read expensive) care or support. A sign of compassion and humanity NOT ill informed 'management by numbers'	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11282	An individual	2a. Care for Children	Care for children is a high priority especially with the amount of poverty within West Lothian.	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11283	No Response	2a. Care for Children	Services need to make better use of support plans to engage with families on outcome focused work and engage families in identifying and making changes	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
11284	An individual	2a. Care for Children	Young people need support no matter what. Yes early intervention and prevention will help but focusing on highest risk cases isn't the way. Everyone should be supported no matter how big the risk. A young persons care is always a high risk.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11285	An individual	2a. Care for Children	The Health, Safety and wellbeing of the youngest members of society and those who are less able should remain a priority as they do not have a voice unless we talk and act for them	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

11286	An individual	2a. Care for Children	This is how abused and neglected young people slip through the cracks. With early intervention and prevention will the young people and their parents have all the chances to be rehabilitated or will the process be made to a tighter time frame?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11287	An individual	2a. Care for Children	This is an area that will need careful consideration as families who need the help through intervention and support are already under great strain and they depend on the support that they receive. Would like to think that the council will have an alternative space or team that families could access.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11288	No Response	2a. Care for Children	A focus on higher risk cases often means missing the opportunity to support families before they reach crisis or a requirement for multi services. There is still often a middle ground of families who require minimum support to work through situations but these supports are not available because they are not high risk enough.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11289	No Response	2a. Care for Children	If it is found that parents cannot effectively cope with their children, then the children should be taken into care much sooner rather than wasting time and money on social workers etc trying to help tge parndnts when ig is obviously a waste of time and money	Care for children - early intervention and prevention	5a. 11290	An individual	2a. Care for Children	Early intervention is worth the investment. What resources will no longer get funding that used to get funding.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11291	An individual	2a. Care for Children	it is my opinion that the eatlier there is positive intervention in a child's life then there is a positive benefit for the child in terms of attainment and for the family.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11292	An individual	2a. Care for Children	As there appears to be more and more children who require these services but fewer resources to meet the demands of these children and their families, it concerns me that there will be reductions to these services. In my view reducing these services could put children at risk as there are fewer foster carers an residential accommodation. Keeping children with disabilities in their own community is admirable but shouldnt be at the expense of specialised care that can only be found outwith the authority.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11293	No Response	2a. Care for Children	Supporting a wider range of families and children before they become the highest risk cases is surely a better long term strategy rather than trying to patch things up when it's reached crisis point.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11294	An individual	2a. Care for Children	Parents wishes must be met but what is best for the welfare and security and well being of the child is vital. You can't have one system fits all. So you can't predict what finances are required.	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11295	No Response	2a. Care for Children	Although it may be preferable to keep people in their local community it may not always be the most cost effective answer. For instance a child who is extremely disruptive and requires 1 to 1 classroom supervision may in fact be better off in a closed specialised unit. It is unfair on the teacher and other pupils to be continually disrupted when the behaviour is probably not even in the control of the individual. At the same time children with physical difficulties should be able to integrate with their peers in mainstream schools.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11296	An individual	2a. Care for Children	Defineltly look to support disabled and high risk children but also look to cut back on the parents who dont support their own children and expect others to take that responsibility .	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11297	An individual	2a. Care for Children	not enough social workers or key workers to work with vunreable families and children	Care for children - early intervention and prevention	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11298	An individual	2a. Care for Children	Judging by current media information etc, it is clear that early intervention and prevention from social work doesn't work. Has this area of work been evaluated and fully evidenced in terms of better outcomes for children? I have heard cases where children are going to formal meetings where they have numerous different workers all vying to make their point/assessment which I would imagine is difficult for children. I though social workers involved with children, worked with children but from what I have heard, it is a myriad of support workers!	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign

11299	An individual	2a. Care for Children	Yes to early intervention - requires a lot of resources in the short term, but impact is profound.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11300	An employee of West Lothian Council	2a. Care for Children	Early intervention is to be welcomed and prioritised. Money spent at this stage saves far more money further down the line and of course importantly provides better outcomes, lives for those people. Spending money on early intervention especially with youth offenders, education for health and more is proven with research based evidence to be a good choice for later outcomes and expenditure.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11301	An employee of West Lothian Council	2a. Care for Children	Focusing purely on high risk cases is a poor approach that does not take into account the large body of evidence that supports early intervention. It is poor practice to provide only a service to those in crisis as helping those in need but not at the highest risk de escalates problems before it becomes detrimental to a child's welfare. The maintenance of outreach family support is of the utmost importance. Families caring for disabled children are some of the most vulnerable in West Lothian. Cutting services and support to them will place pressure of families and potentially cause family breakdown, costing the Council more. Any changes to services should be carefully considered.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11302	An employee of West Lothian Council	2a. Care for Children	Early intervention before problems occur is essential and means issues will hopefully not develop into something far greater which requires far more funding. It's better to spend now and save later in these cases. Children remaining in the community is a good thing provided they still have adequate support.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11303	An employee of West Lothian Council	2a. Care for Children	The Scottish Government is clear that one of its four national priorities focuses on ensuring the best health and wellbeing for young people. As part of this, I am deeply passionate about the protection of outreach support provision for mental health for young people. This must remain a priority if we are to ensure success for our young people in WL - building on the work currently done with social policy and groups such as CYPT. Vital and too often stretched services.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11304	An individual	2a. Care for Children	There should still be support for parents with handicapped children with excellent facilities such as Beatlie school and respite centres such as Sundach in Livington which provide an outstanding level of care.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11305	An individual	2a. Care for Children	I am concerned by the phrase 'focus on highest risk cases' if that means that 'medium risk cases' have to be ignored until they become highest risk. Waiting until families and children are at serious risk is inhumane and I suspect will not save money in the long run. I do not approve of this money saving strategy.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11306	An individual	2a. Care for Children	Focussing on the highest risk doesn't see needs met. It just means less children's needs being met.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11307	An individual	2a. Care for Children	"Focus on highest risk cases" will result in children suffering and in danger of slipping through the net! This must not be allowed to happen.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11308	No Response	2a. Care for Children	Helping young children at an early stage is the key to a better future for all of us. It is, however, important that efficient and committed staff are available	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11309	An employee of West Lothian Council	2a. Care for Children	Agree Need to invest in preventative interventions and avoid very high cost and inefficient options like placements outwith West Lothian	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11310	An individual	2a. Care for Children	I agree that a focus should be on the families most in need. However, I would also argue that many families could be supported to make changes and thereby prevent them from becoming a "high risk" case with early intervention. This would be money well spent in the longer term and also more beneficial for the families. Residential placements out of the LA should always be rare. This has always been the case in previous LA's I have worked in as they are very costly. Training and supporting our in house foster carers to be able to care for more challenging young people should be a focus.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign

11311	An employee of West Lothian Council	2a. Care for Children	Child Protection, and improving mental health services, especially in children/young people, should be protected.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11312	An employee of West Lothian Council	2a. Care for Children	While I agree that families should be supported but surely there has to come a time when the child is better out of a toxic environment and the Social Work department directs its resources for a better outcome for the child and not just the family unit.	Care for children - early intervention and prevention	4. The council is already doing this.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11313	An individual	2a. Care for Children	This is a massive "savings" projection - as the experience in Rotherham demonstrates - if there are not rigorous intervention in problem areas for young people - or the lack of support (feet on the ground). I suspect this rationalisation carries with it a massive risk to the safety of the young people who are in these difficult situations	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11314	No Response	2a. Care for Children	In an age where we are continually hearing about children who have been failed by the system, is this the right time to try to make such a huge saving?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11315	An individual	2a. Care for Children	Still need to ensure that the right decisions are made with out any heavy impact to the children etc.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11316	An individual	2a. Care for Children	All young people deserve the best start possible.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11317	An individual	2a. Care for Children	If you can reshape care for families and still allow more effective use of resources while creating better outcomes - and still make savings - go for it !	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11318	An individual	2a. Care for Children	Keeping children within the local community is important. Focusing on high risk inevitably means that some will be overlooked; that is a bit worrying. It also puts professionals under pressure when assessment of risks/needs is undertaken.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11319	An individual	2a. Care for Children	The council provision need to be available and increased to allow children with disabilities to remain in their local community.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11320	An employee of West Lothian Council	2a. Care for Children	Outreach with families is the way forward. Working with families in their own home or in the children's nursery/school works perfect. Staff would need a base office in order to do paperwork etc. The use of community centres and rooms within schools for parenting group work is ideal. Taking the care into the community is what we should be doing. The use of family centres are no longer needed, its a false environment for families and therefore problem issues are not being faced. Working in the families own environment is where best outcomes happen.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11321	An individual	2a. Care for Children	Keeping people in their own communities makes sense - what will be done to ensure that the services they need are actually provided in West Lothian? Is there expenditure required to ensure that necessary trained staff and facilities will be available in West Lothian? Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11322	No Response	2a. Care for Children	This has to be an area where services must remain strong	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11323	No Response	2a. Care for Children	Helping families with a child of any level of disability is most important for all- it is very easy to be overwhelmed and lose sight of everything that's good.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11324	An individual	2a. Care for Children	Concern that a focus on highest risk cases, early intervention and prevention will lead to a stark lack of services for those cases in the middle who may be living on an ongoing basis with significant deprivation, neglect, abuse, ill health etc but don't meet criteria for early or 'high' risk intervention.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11325	An individual	2a. Care for Children	As long as the outcomes for our young people are better then I would be in agreement. I am keen to see early intervention and prevention in our services, which would lead to reduced cases. Outreach is not always the best possible support mechanism of support as again, this service is already tightly run with resourcing.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11326	An employee of West Lothian Council	2a. Care for Children	Early intervention is key if we are looking at saving money going forward as an authority. It is only if we aim to change the behaviours and support children, young people and their families early in their life, ie, pre 16 years, that we can ensure we are doing as much as we can as an authority to give them the best starts in life. Every Â£1 spent in this area now, can save Â£10 in the future, according to research.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11327	An individual	2a. Care for Children	Again, there are general points with little detail of how this would work in practice and positive language to hide what I see as negative and worrying outcomes. Focus on high risk cases within CAMHS and social care now seems to be moving to highest risk cases which is very concerning and will push services and staff beyond tipping point. Having worked in Psychiatry when there were many cuts and closures in long stay wards and a push to community without adequate resources, I am very concerned that this may now be happening in this arena. It can ONLY be sold as a good thing likely to succeed if there is adequate and proper staffing resources and expert provision. Please review with government ways to generate revenue rather than pushing resources and staff to breaking point.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11328	An employee of West Lothian Council	2a. Care for Children	that is fine if allowing children with disabilities to stay in WL but where will they go??? special schools in WL are full and there is not enough room ...schools having to use annexes as not enough room	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11329	No Response	2a. Care for Children	You need to get early intervention to help youngsters stay on the right path hence reducing crime. My own son has been on the slippery slope for some time. I am desperate for help. You couldnt give 2 hoots about early intervention and you really need to get your act together. As it stands he has been failed by the system.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11330	An employee of West Lothian Council	2a. Care for Children	Agree that early intervention, and focussed family support, should be a priority to ensure less demand on services in the future and allow children to stay at home where possible.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Focusing on highest risk cases is advisable, and I would think that's what should be happening now - but as long as that does not mean that other cases slip through the net - then they become high priority later.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11332	An individual	2a. Care for Children	I think kids care should be a high priority	Care for children - early intervention and prevention	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11333	An individual	2a. Care for Children	Fine with 'high risk' but concerned that others may be overlooked and it does put a large onus on those categorising and prioritising the risks and allocation of resources. Watch that none fall through the net. Keeping children with disabilities in local community is vital.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11334	An individual	2a. Care for Children	There will be cost saving procedures however, I don't see how services for the most vulnerable can be provided to a sufficient and safe level if there are major cuts to this budget. There will be a big strain on the provision which could lead to families being in crisis but with nowhere to go for the required support.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11335	An individual	2a. Care for Children	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs. Greater use of council provision is a plus, not a lot of people out there are aware of what the council have to offer in this area	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11336	An individual	2a. Care for Children	These changes sound good. However children with disabilities grow up. If you reduce the support for adults with disabilities, as you intend to, then there will be limited support when they reach adulthood. Support is inadequate when it involves pushing all disabled people into one building, or supporting them out in the community (to the very few places available) by contracting charities. These Charities which are just about managing the situation. The standard they provide falls far short of those centres which come under Council and NHS control. Are you really looking into the future?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11337	An individual	2a. Care for Children	I agree with this proposal. However, I would be concerned about the level of risk to children who need alternative level of support out with the family home. The estimated cut of Â£5.2 million on top of all the cuts already made seems to be disproportionate.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11338	An individual	2a. Care for Children	I agree that we should be more aware of the children who are within our area who require help with their disabilities and if we could set up more schools here to help with this it would save a fortune rather than having to send the children to schools outwith the West Lothian Area, where not only are you paying for the care in another area, but the transport these children require to get to and from school.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11339	An employee of West Lothian Council	2a. Care for Children	So long as all young people who need this support are able to access it.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11340	No Response	2a. Care for Children	Anything that improves local provision of services for children with disabilities should be welcomed.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11341	An individual	2a. Care for Children	Every child's case should be focused on. I agree about higher risk cases and there should be a team for that so other families also are seen too. Children with disabilities will be able to stay in the community but planning on closing down ability centers for example could drive families away, quite rightly.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11342	An individual	2a. Care for Children	Modernise teams to focus on highest risk cases this suggest highest risk cases are not given a priority at present...is this really the case ? Or is this just a way to word â€˜cleverlyâ€™ that the amount of time and money and effort on all but the high risk cases will be reduced, and the highest risk â€˜focusâ€™ will therefore increase relatively to lower risk cases, but will not actually increase?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11343	An individual	2a. Care for Children	Only focusing on high risk cases means that lower risk families become more vulnerable and require more care in the future. Already, vulnerable children are slipping through the net.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11344	An individual	2a. Care for Children	If a child is at risk, I still expect social services to do their best for the child even if it is not the highest risk! Support in these areas should not be reduced! Early intervention and prevention is best but if missed at an early stage, intervention should still be available. More to the point, care and support for children, disabled children and to an extent parents and carers is always a good investment. Turning them into well adjusted and educated young people that can hold jobs, pay taxes and require less support in the future is the best financial decision. A pound spent on children support and education now is several pounds saved later. This goes for disabled children as well.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11345	An individual	2a. Care for Children	The focus on early intervention always comes at the risk of neglecting those who are already affected by adversity but not quite at high risk.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11346	An individual	2a. Care for Children	My concern is that a focus only on the highest risk cases leaves the rest vulnerable. Local services will require investment in order to be able to manage those most challenging young people who are placed out of the council	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11347	An individual	2a. Care for Children	I do not understand how you can possibly save money here. More money should be spent on this area giving these vulnerable people opportunities to live their lives to their full ability. What kind of society do we want to be?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11348	An individual	2a. Care for Children	More children will 'slip under the radar' & be more at risk.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11349	An individual	2a. Care for Children	There is already too much pressure put on the resources for this area	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

11350	An individual	2a. Care for Children	Agree with proposal of west Lothian based care provided it is at the same or better standards parents would accepted for children with disabilities.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11351	An individual	2a. Care for Children	Council provisions are usually up and running regardless of capaxtherefore it would make economic sense to utilise these before others.	Care for children - early intervention and prevention	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11352	An individual	2a. Care for Children	I agree there should be better outcomes for young people. They are the future after all.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11353	An employee of West Lothian Council	2a. Care for Children	Negative impact of lack of this resource being reduced would result in greater pressure and higher expectations on schools to deliver and fill the gap however with their reducing budgets will not be able to meet demands.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11354	An individual	2a. Care for Children	I don't understand how this could be a success when outreach services are not specified	Care for children - early intervention and prevention	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11355	An individual	2a. Care for Children	Agreed. If more is done by outreach, then does this mean fewer buildings are necessary?	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11356	On behalf of a Group/Organisation	2a. Care for Children	We have also witnessed a reduction in funding for prevention and early intervention work happening within the area of substance misuse over the last year.	Care for children - early intervention and prevention	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11357	An employee of West Lothian Council	2a. Care for Children	Outreach is not always a Suitable option for those with disabilities however during these proposals they are mentioned frequently it's like whoever made up these proposals is clueless on disabilities	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11358	An individual	2a. Care for Children	High risk cases should be the priority.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11359	An employee of West Lothian Council	2a. Care for Children	Outreach services are a good idea, as long as appropriate security measures for lone working staff are put in place and adhered to.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11360	An individual	2a. Care for Children	This care provision should be retained. Services should not be withdrawn from these vulnerable families	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11361	An individual	2a. Care for Children	early intervention is they key	Care for children - early intervention and prevention	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11362	On behalf of a Group/Organisation	2a. Care for Children	Greater emphasis on Early Intervention such as that operated by the EEI and Early Intervention and Prevention working group should support this work. Intervention early does prevent crisis and costly services. There again appears to be a lot of High level Strategic costly meetings in this area of work, consolidating services and potential out sourcing service provision through the third sector should be considered, however, clear and transparent systems need to be in place and realistic timeframes for Commissioning and tendering processes need to be in place. We support the outreach approach, such as that provided through the Whole family Support Service, but at present West Lothian struggles to provided the right environment and accommodation for high risk Looked After young people. I am aware that reviews are currently taking place to assess Children and Young People's Services, there are opportunities to work together to reduce expenditure in this area.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11363	No Response	2a. Care for Children	there is a lack of provisions for early intervention. An introduction of early intervention would reduce the costs of services and staffing when the cases reach crisis which is were support is currently being filtered and provided.	Care for children - early intervention and prevention	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11364	An individual	2a. Care for Children	Focusing on only the highest risk cases and early intervention and prevention will leave those who are stable but struggling in a poor situation. They will quickly become high risk without adequate support.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11365	An individual	2a. Care for Children	A focus on early intervention and prevention is essential to avoid peoplesâ€™ issues escalating and becoming crises. To be effective this strategy must be multi-layered and ensure appropriate interventions and supports along a continuum. This ensures that people get the help that they need, when they need it, to prevent escalation and crisis. We are, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11366	An employee of West Lothian Council	2a. Care for Children	Not all family support can be safely offered within the family home on an outreach basis. Early intervention to high risk cases can often mean children coming into an environment such as family centres where they are free to develop and learn in a safe nurturing environment. Likewise parents, in particular mums, feel they have space to develop their own skills in a place where they are given time without the daily distraction/ chaos of a home environment. Whilst there is a place for outreach family support, this should not be at the cost of an intensive early intervention care plan designed around promoting an holistic approach, in a play enriched environment, where children will be offered experiences and learning opportunities otherwise not possible in the family home.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11367	On behalf of a Group/Organisation	2a. Care for Children	A focus on early intervention and prevention is essential to avoid peoplesâ€™ issues escalating and becoming crises. To be effective this strategy must be multi-layered and ensure appropriate interventions and supports along a continuum. This ensures that people get the help that they need, when they need it, to prevent escalation and crisis. We are, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets?	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11368	An employee of West Lothian Council	2a. Care for Children	These proposals should already be happening before now. we should already be using our resources to their full potential and where we are already then there is nowhere to go. Working on the basis that highest risk cases is always going to be the priority but if the groundwork is not done at an early stage then more cases will reach a critical level and be high risk. Children with disabilities should remain in their local community and if the local authority does not have the resources to be able to do this then they should be invested in. Local authorities spend millions educating children with additional and complex needs out of area because we do not have our own resources. These individual packages of care can be of significant value and we could provide them in our own resources for a reduced cost and keeping them in their local community.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11369	An employee of West Lothian Council	2a. Care for Children	Prevention is the key here. You could generate a lot of resources and the places will get filled unless there is an emphasis on preventing children and young people being removed from their families. This needs a significant culture shift and improvement in care planning and exit strategies.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11370	An individual	2a. Care for Children	Cutting the support to the most vulnerable children in West Lothian sounds like a recipe for increased costs going forward. If these children and families are neglected now (ie they need to be in crisis or in need of statutory support before they get help) then they are a lot more likely to have negative life chances and need an ongoing increase level of council support throughout their lives.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11371	An individual	2a. Care for Children	Yes focus on the highest risk children is good but I worry does that mean you plan to ignore other children that are at risk? Protecting children from harm is very important	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11372	No Response	2a. Care for Children	Agree but service re design in one area needs not to be at extreme expense of just transferring pressure to another area in council. All our children matter except that money to be saved but need to ensure that most vulnerable are not placed in more vulnerable position.	Care for children - early intervention and prevention	4. The council is already doing this.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11373	An individual	2a. Care for Children	Why was these 'more effective use of resources' not instigated years ago? 'Outreach' to me sounds like an increased cost to the Council over carrying it out in-house. The Council's increase in this year's Council Tax would have helped this situation.	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11374	An individual	2a. Care for Children	If the council plan to focus on 'high risk' children and adults & older people have to be in 'critical' need of support, what happens to the thousands who will no doubt fall through the net? We can't allow the focus to be on supporting the most vulnerable and dismiss the needs of other vulnerable families, children & adults. There is a lot of mention of expanding the use of technology in each section and I worry.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11375	An individual	2a. Care for Children	The focus should be on the individuals needs being met, not on location	Care for children - early intervention and prevention	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11376	An individual	2a. Care for Children	Whilst outreach services have a place there are also benefits to children socialising with their peers and parents benefit from support and sharing their experiences with other parents in a group setting. Vulnerable parents will not have the confidence to join community groups.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
11377	No Response	2a. Care for Children	It seems like teams which seem to have been targeted for review/consolidation are all teams which are about early intervention. This may help reduce costs in the short term but in the long term the people who are not receiving help at the early stages are more likely to go on to have problems later which will then need to be addressed which will be more costly in the long term.	Care for children - early intervention and prevention	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11378	No Response	2a. Care for Children	I can support the priority areas point however it should be noted that even where we have another provider there is not enough capacity by these providers to meet the demand. In my area of early and effective intervention for youth offending there are not enough services without are third sector partners to carry out the work and when it is carried out it is very effective	Care for children - early intervention and prevention	2. The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
11379	An individual	2a. Care for Children	Joined up working between services relating to child protection would be very beneficial.	Care for children - early intervention and prevention	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11380	An individual	2a. Care for Children	In order for this to happen West Lothian needs to invest in the provision available in the area. There is a reason why services are used outside West Lothian - it's because that is where the quality provision exists.	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Any redesign will require to ensure that there is adequate provision available locally and where this is not possible then external placements will still be commissioned.
11381	An individual	2a. Care for Children	Local authorities paying outside the area for services is crazy. This does not keep anyone in West Lothian, neither does it keep the funds in West Lothian. Creation of better services for tackling problem areas would be more cost effective.	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign

Care for Children	this is a positive approach - but at present some services outsource to other local authorities due to service cuts - particularly with regards to disabilities / service providers are not at present consistent enough - reduction of existing would make this worse	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11383	An individual	2a. Care for Children	I would like to know more about exactly what the 'family support being undertaken on an outreach basis' means in practicality	Care for children - external providers	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11384	An individual	2a. Care for Children	Could this be something that could be shared with neighbouring councils?	Care for children - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11385	An individual	2a. Care for Children	Better working with private sector providers will assist with making these savings	Care for children - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this.
11386	An employee of West Lothian Council	2a. Care for Children	. As I previously said I worry that the increasing cuts to a range of partner agencies means that schools will be expected to provide more of the interventions and supports for children and young people without any additional staffing, resources time or finance to do this.	Care for children - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11387	An employee of West Lothian Council	2a. Care for Children	More support and links between education and outside agencies (eg more social work to ensure things aren't at crisis point before intervention is given)	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11388	An individual	2a. Care for Children	If part of this provision is now being handled on an outreach basis, how is employing an external provider going to cost less money? Bring in outside companies similar to care assistants already costs a lot of money and I can't see that this proposal will be any more cost effective.	Care for children - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11389	No Response	2a. Care for Children	Modern practices are key. The council has lots to learn from other organisations.	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11390	On behalf of a Group/Organisation	2a. Care for Children	This again could be done in schools, West Lothian Leisure facilities and other council buildings rather than outsourcing. We already have amazing facilities, lets use them effectively and get out money's worth.	Care for children - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11391	An individual	2a. Care for Children	Shocked that we spend more on additional support needs than roads! Someone must be making a killing out of this. Bring more services in-house rather than outsourcing.	Care for children - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11392	An employee of West Lothian Council	2a. Care for Children	Any changes that can streamline processes and make savings for the council must and should be pursued.	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on more streamlining of services
11393	An individual	2a. Care for Children	I could not disagree with this more. Money needs to be spent on more than just "higher risk" cases.	Care for children - internal teams and process	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11394	No Response	2a. Care for Children	Services need to be appropriately evaluated and be outcome focussed. All teams should be using the same measures. For example engagement in community programmes, nursery attendance, reduction in speech and language referrals.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
11395	An employee of West Lothian Council	2a. Care for Children	Internal teams and processes should be working more closely together to ensure that no child falls through the net.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
11396	An individual	2a. Care for Children	What does "modernise internal teams" even mean?! Again get rid of your glut of management	Care for children - internal teams and process	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
11397	No Response	2a. Care for Children	Beds should not be cut and a more joined up approach to service delivery is required.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this.
11398	An individual	2a. Care for Children	Sounds good but will training in new processes negate the benefits	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11399	An individual	2a. Care for Children	This is an already stretched service and I cannot see how any cuts will work. Modernisation is fine as long as the staffing levels are not reduced and the staff left are not under any further pressure.	Care for children - internal teams and process	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11400	An individual	2a. Care for Children	Time for these all to be modernised, some very high level and tragic cases as we all know that indicate the need for joined up thinking	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11401	An employee of West Lothian Council	2a. Care for Children	I would review staffing levels as a last resort. Would need to ensure that the work can still be carried out successfully by staff in place.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11402	An individual	2a. Care for Children	Should be streamlined where possible where maintaining choices and standards.	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11403	An individual	2a. Care for Children	I would also look at some of your current direct teams and consider their effectiveness.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11404	An individual	2a. Care for Children	Joining up of all services is essential and will reduce costs. Too many services are operating independantly from each other and if joined up would save money and speed up services. Eg schools, police, social services, health, childrens panel etc All children who need support should have access to diagnosis and services immediately as this will improve care and reduce costs in the longer term	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this.
11405	An individual	2a. Care for Children	Staff in shared buildings, e.g. Integrated Early Years Centres / Family Centres should work more effectively together to ensure best use is made of resources to meet needs of most vulnerable children and families.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11406	An individual	2a. Care for Children	Modernisation of teams and processes should be done without any loss of prvision or care for young people.	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11407	An individual	2a. Care for Children	Modernising internal teams' sounds like a euphemism for diminishing essential services. Perhaps if the teams were not run by employees promoted beyond their skills base they would be more efficient. Resources are being haemorrhaged because of poorly run units which are having nil effect on clientele.	Care for children - internal teams and process	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.

11408	An individual	2a. Care for Children	Modernisation of internal teams is supported .	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11409	An employee of West Lothian Council	2a. Care for Children	Against anything which will put our youngsters. If admin savings can be achieved great but no front line cuts please.	Care for children - internal teams and process	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11410	An individual	2a. Care for Children	This is a big saving. However, the words 'modernise internal teams' and 'support on an outreach basis' are a concern. Does this mean reducing the number of workers who deal with these families and if so how will that impact on the welfare of the families and children in care. I agree it is important to keep our young people in West Lothian but to do that staff need to be well supported by having a staffing level top match the workload.	Care for children - internal teams and process	1. The respondent advised that they agree with the proposal.	Any changes to structures will require to fully consider the impact on staff
11411	An individual	2a. Care for Children	Less placements outside local authority area. No private foster placements should be used. Less transporting children by taxi.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11412	No Response	2a. Care for Children	young people are people not outcomes.... yes we strive to get them to where they want to be, but that should not always be the main focus, saving money on sending young people outwith west lothian is a good thing though, more provisions in west lothian for housing young people.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11413	An individual	2a. Care for Children	I would agree that council provision should be used and that young people, where possible, should remain in their own community and in West Lothian.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11414	An individual	2a. Care for Children	Stop sending children outside the county to expensive providers	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11415	An individual	2a. Care for Children	You donâ€™t look after children with disabilities at the moment so how on earth will streamlining a non existent service help?	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11416	An individual	2a. Care for Children	Itâ€™s ok saying let children with disabilities remain in there local community yes itâ€™s a good idea but it all depends on what the disability is and the help they would have around them in that area	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11417	An individual	2a. Care for Children	Utilising early years centres in regards to hours and availability, running more groups in afternoons and during holidays, along with group workers delivering groups during holiday periods or supporting social workers and outreach in facilitating contacts and activities in accordance with interventions and care plans.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11418	An individual	2a. Care for Children	Residential placements may be the only respite parents of children with disabilities get so this should be managed carefully.	Care for children - residential placements	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11419	An individual	2a. Care for Children	"...allow children with disabilities to remain in their local community". This would be an astonishing turn-around in West Lothian social work thinking where the past was littered with disastrous outcomes for families with mature handicapped offspring. Happy to provide input on this subject as I have decades of experience fighting off West Lothian's social work team attempting to split, for their own managerial convenience, not only my family but many others.	Care for children - residential placements	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	West Lothian cannot comment on individual circumstances.
11420	An individual	2a. Care for Children	I completely disagree with this decision, the disabled child is rarely â€œpart of its communityâ€œ! They need to be with other children with similar needs and taught in an environment where the teachers have experience and knowledge on how to educate them best. Local mainstream schools cannot provide this, the teachers donâ€™t have the time or expertise. As the level of delivery increases so too does the gap between the able and less able. In a nutshell you are trying to crowbar a child out of its wheelchair and expect it to run! When are you going to create policies which take cognisance of the fact that the wheelchair is part of the child? Itâ€™s not about building a ramp and forcing the child into a building which is otherwise completely unsuitable.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11421	An employee of West Lothian Council	2a. Care for Children	Fully agree that allowing children with disability to remain in their local community and supporting them and their families to create better outcomes for them in the long term has to be a positive step.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11422	An employee of West Lothian Council	2a. Care for Children	the costs of sending children to residential units outwith WL is staggering. However you will need to improve and increase staff levels to manage the more at risk young people.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign

11423	An individual	2a. Care for Children	Many young people in residential units have parents continuing to fraudulently claim tax credits and child benefit. Once a child is accommodated SW should share this information with the Benefits Agency. In some cases this could lead to parents upping their parenting because they want their benefits back. The tax payer is paying for these children twice - by contributing towards their benefits and the high cost of residential care.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11424	No Response	2a. Care for Children	More residential units could be build for young people with better support & integration	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11425	An employee of West Lothian Council	2a. Care for Children	The schools are going to be hit once again as children previously being placed in special facilities will more often than not now be placed in local schools	Care for children - residential placements	3. The respondent advised that they had no comment to make.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11426	An individual	2a. Care for Children	The service should be maintained and improved. If suitable residential placements cannot be found within West Lothian then placements must be out with West Lothian. I therefore cannot support this strategy as it is a cut in the standard of service.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11427	An employee of West Lothian Council	2a. Care for Children	I'm unfamiliar with the current process but keeping children in West Lothian appears to be a positive direction if their needs can be met here.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11428	An individual	2a. Care for Children	As someone who both lives and works in West Lothian, my job being in residential care. I am fully aware of the costs involved. I am also fully aware of the vital work/services within early intervention/prevention and am concerned that these areas suffer more cuts and impact upon the young people and families that are in need of the services. It is essential we aim to provide services that enable them to remain within their local community but sadly sometimes this is not available.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11429	An employee of West Lothian Council	2a. Care for Children	Inclusion is great in theory but due to the cuts being made to social services we are putting more pressure on families and charitable groups. Schools are bursting at the seams and more pupils with disabilities, mental health issues and behaviour issues are making the work of teachers and school staff more challenging.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11430	An individual	2a. Care for Children	Disabled children should be able to stay in mainstream schools if they are able to work and learn this way.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11431	An employee of West Lothian Council	2a. Care for Children	Not clear what the changes re-residential placement is? Cannot comment	Care for children - residential placements	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11432	No Response	2a. Care for Children	Many parents rely on services for their disabled children, so any reduction in these would be unacceptable.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11433	An individual	2a. Care for Children	wow - £5.2 million of a saving. Again makes you question how effective the current use of resources is ? It will be interesting to see how family support can be undertaken on an outreach basis. I think it can only be a good thing to change the residential placements to ensure they meets the needs f the children using them.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11434	No Response	2a. Care for Children	Consideration given to closing family centre as not good value for money. Outreach and delivering services in the community would be better value for money.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11435	No Response	2a. Care for Children	If you lose specialised care for the disabled you are failing the most vulnerable people in the community. Keeping them in West Lothian does not make sense if you don't have the skills to cope with the issue.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11436	An individual	2a. Care for Children	with regards to children with disabilities, thought should be given to the ability of families being able to access respite - days, overnights or short breaks - which is sadly lacking in this authority	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11437	No Response	2a. Care for Children	If you close care centres how can those most dependent on these services remain in their local communities?	Care for children - residential placements	3. The respondent advised that they had no comment to make.	The proposal aims to provide support in people's communities rather than in centralised buildings
11438	An individual	2a. Care for Children	Residential placements are fine as long as there is support in schools and not just lip service.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs

11439	An individual	2a. Care for Children	I THINK THIS IS AN IMPORTANT SERVICE AND WE SHOULD RETAIN THE CENTRES DOING THIS EXCELLENT SPECIAL AREAS OF CARE	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11440	An individual	2a. Care for Children	Residential services need to become more efficient, and more able to help the young person to achieve the best outcome. They should not just be places to put people. Children with disabilities should ONLY remain in West Lothian if West Lothian has the specialist knowledge and services they need. If this is not the case, and another Authority can fully meet their needs, they should continue to be able to use the services in the other Authority.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11441	An individual	2a. Care for Children	Keeping children with disabilities in their own community is admirable but shouldnt be at the expense of specialised care that can only be found outwith the authority.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11442	An individual	2a. Care for Children	This sounds dreadful. Fewer residential places - unless this is countered with an increase in 24 hour care provided at home then this can only mean horrendous additional strain on families. Should not happen.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11443	An employee of West Lothian Council	2a. Care for Children	I strongly believe children with disabilities should remain in their local community, for many reasons. Most importantly this would mean they would not be separated from their families.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11444	An employee of West Lothian Council	2a. Care for Children	This raises questions regarding the provision of respite / residential care for children with disability, that gives the child opportunity for a break, and more realistically, families and carers much needed respite from the caring task they undertake. Given that external third sector providers are either closing or restructuring provision, therefore limiting the available specialist care places. That health have revised criteria for children using their respite provision and that WLC do not have its own provision. There will be potential for families / carers to be placed under more pressure, with the chances of 'break down' in care being increased.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this.
11445	An employee of West Lothian Council	2a. Care for Children	I would agree with the above , providing that the resources are available to provide the support within a child's local community. My doubts are that the resources in the local community, may either not be there or not be able to cope with the potential increased demand on their services.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11446	No Response	2a. Care for Children	The residential support provides respite to people who are saving the state hundreds of thousands by looking after their relatives at home. What kind of society are we going to be living in?	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

11453	An employee of West Lothian Council	2a. Care for Children	Children with disabilities should have placements in their local community and local school. There should be more placements for high risk children who cannot cope in their local schools/communities.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11454	An individual	2a. Care for Children	Important that disabled children remain in their communities with enough staff to support	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11455	An individual	2a. Care for Children	Agree focus should be on keeping young people in West Lothian.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11456	No Response	2a. Care for Children	This can only be undertaken if the Council can ensure that the individuals/families concerned still get the same level of care whether in the community or residential placement.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11457	An individual	2a. Care for Children	Residential and respite care is essential for the care of children and young people. Safety of children is paramount and cannot be compromised	Care for children - residential placements	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
11458	No Response	2a. Care for Children	I think the changes to residential placements should not be made at the expense of the children who need these residential placement, forcing them back into the community.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11459	An individual	2a. Care for Children	What does 'changes to residential placements' mean? That they will be cut? No I do not support that.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11460	An employee of West Lothian Council	2a. Care for Children	At present, compared to other local authorities, young people are accommodated as a first resort as opposed to a placement based on need. Placing Social Workers really need to avoid the practice of accommodating 15 and 16 year olds into their first residential placement, especially on voluntary orders. Currently, the majority of residential beds are being used for this criteria of young people. All three residential houses are now looking after 15 and 16 years old who do have other options. Many incidents leading to young people being accommodated happen at weekends where there is no full time social work cover, staffing during these critical periods could not only support families but prevent young people entering the care system.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11461	An employee of West Lothian Council	2a. Care for Children	Children placed within residential homes are often forgotten about by the placement Social Workers and family work/support if never completed. Children are placed within the home as a first resort without proper exit strategies with the placing Social worker and ultimately get forgotten about until a further breakdown happens. I feel residential workers should be case managers and family work should be provided by residential staff as well as aftercare for young people who have moved on. There are too many teams trying to work with residential young people without having build a working relationship with them. Residential staff are best placed to meet the needs of children in residential care and also continuing this into early adulthood. The thresholds for accommodation of young people should be adapted to support those most in need. Social work assessment often	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11462	An individual	2a. Care for Children	This just sounds very much like cuts to the weakest and most vulnerable young people in society! As a father to a child currently in residential placement this is extremely concerning and frightening. Given the risks involved when councils fail to provide the correct support and services, this is absolutely not an area where the council can look for savings.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11463	An individual	2a. Care for Children	This must take into account the need for family respite. Many families rely on residential placements for this. also it is not always in the interest of the disabled person to be in the local community. Make sure you don't place vulnerable people at risk to save a few quid.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11464	An employee of West Lothian Council	2a. Care for Children	I know the huge bill is costs to place vulnerable children outwith West Lothian in residential or secure units and agree that this needs to be reduced. Would a suitable unit be built here to accommodate these children? How do you propose to "modernise" internal teams and processes? Just now there seems to be alot of duplication of referrals to various teams/services in a "scatter gun approach" by schools,GPs, parents and even within social work teams. It would be more effective if there was one central point for a referral and then the best support was decided, be it SW, Health or elsewhere.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11465	An individual	2a. Care for Children	I agree that children with disabilities should be kept in their community	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11466	An individual	2a. Care for Children	Allowing children with disabilities to remain in their local area is good but only if this is of genuine benefit to the child and not just the cheapest option.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11467	An individual	2a. Care for Children	Residential care has a purpose and unless equivalent opportunities can be provided within the community this is in danger of disadvantaging the most vulnerable.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11468	An individual	2a. Care for Children	Perhaps more use for assisted home care as opposed to residential care	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11469	An individual	2a. Care for Children	Iâ€™d be concerned for the welfare of children and families requiring this service. Outreach doesnâ€™t effectively replace residential support. Residential support is a huge support for families with children with disabilities.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11470	An individual	2a. Care for Children	Children with disabilities should absolutely be able to stay in their local communities the costs of external placements is ridiculous so I agree with this proposal. I also agree with outreach work 24/7 as opposed to accommodating young people but at an earlier stage.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11471	An employee of West Lothian Council	2a. Care for Children	children need to be kept as close to home as possible	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11472	An employee of West Lothian Council	2a. Care for Children	This may be difficult as there is already a shortage in non residential care provision. Residential placements are often not the most nurturing or personal environments for young people. This would be a welcome change.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11473	An individual	2a. Care for Children	Serious thought must be given to children with learning and physical disabilities - allowing care within their family area.	Care for children - residential placements	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
11474	An individual	2a. Care for Children	Having myself been sent to Edinburgh to be educated due to my disability I feel it is important to keep children with disabilities within their local community. I feel this way as I am not as familiar with my own community as I am in Edinburgh, and I felt isolated	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for letting us know about your specific experience, and for your support for our proposal. Working together with Education the aim is to ensure that children's needs are met in the most suitable setting.
11475	An individual	2a. Care for Children	Agree with keeping young people irrespective of whether they have a disability or not in their local community.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11476	An individual	2a. Care for Children	It would benefit families if the focus would be on keeping young people in West Lothian but, does West Lothian have the resources, skills and employees to meet the level of need?	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11477	An individual	2a. Care for Children	I agree that council provision should be expanded in order to reduce residential placements outwith West Lothian, but this needs to be high quality provision and should be funded accordingly	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11478	An employee of West Lothian Council	2a. Care for Children	I agree that we should be doing our best as a council to provide a safe space for these children. Providing residential care for children is not necessarily a bad thing however children in that environment learn from each other creating more of a toxic environment for them and making it more difficult to return to society	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11479	An employee of West Lothian Council	2a. Care for Children	as a parent of a child with [REDACTED] issues we have just been introduced to the Family Group Conferencing team, it seems a good thing but our family who are able to help with my child are limited. We were recently knocked back for respite from WL services as we have family that could help. Family include parents who are recovering from cancer. And a brother and his young family who both work full time and have no spare room for my child. We were told by social worker that there is no placement for [REDACTED] that would take on her problems. That [REDACTED] would end up in one of the six bedroom units in West Lothian that would be detrimental to her. So what faith is there in the system there?	Care for children - residential placements	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11480	An individual	2a. Care for Children	I'm aware West Lothian Council is one of the most generous councils in Scotland in terms of the care and support provided. that is great for the children in West Lothian but isn't sustainable if Â£73 million of savings need to be made. I know some residential placements cost Â£250,000. Surely the council can come up with more innovative ways of looking after a child that would save money and maybe provide better care than some of these establishments! Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11481	On behalf of a Group/Organisation	2a. Care for Children	What about the current respite provision 'is it likely to change? There is currently no respite provision for children under 16 as this was withdrawn in a previous round of cuts. Is there any change to the current lack of service?	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11482	An individual	2a. Care for Children	The council needs to ensure that the staffing are in place to provide the quality of service that these young people, families and communities require to ensure positive outcomes for all concerned. Often, young people and adults who have residential placements outwith the authority have specialised support needs and the council needs to ensure they can still provide an equal level of care without council employees having to take on unrealistic workloads. Also this will be interesting to see how this is provided against a background of proposed cuts to adult services, including the specialised Eliburn Centre and Ability Centre, Carmondean and less support to schools.	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11483	An individual	2a. Care for Children	Keep the provision of care local - this includes the paediatric service at St John's Hospital.	Care for children - residential placements	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
11484	An individual	2a. Care for Children	2 a Agree that social care should be put back into West Lothian and less young people sent to residential schools and secure units. Council officers and elected members disregarded clear evidence of positive engagement and reduction in cost sending children to external secure and residential providers. The increased provision of good quality support services will have a cost but it will be much less than accommodation young people out with West Lothian.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
11485	An employee of West Lothian Council	2a. Care for Children	I agree with keeping children with disabilities a part of the local community.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11486	An individual	2a. Care for Children	Consider introducing a financial limit per child for residential placements to ensure an excessive amount is not being spent on any one child. Review of use of agencies for foster carers and whether it would be more cost effective if the council direct employed / engaged with foster carers.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11487	An individual	2a. Care for Children	Children with disabilities may be in their local community but this can be at the expense of receiving the proper type of care they should be getting. Which can "have a detrimental impact on lives" especially "at an early stage".	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11488	An employee of West Lothian Council	2a. Care for Children	This seems like a paradox to me. How are we going to allow children with disabilities to remain in their local community, focusing on keeping young people in West Lothian whilst closing down facilities like the one in Deans?	Care for children - residential placements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11489	On behalf of a Group/Organisation	2a. Care for Children	I understand the need to reduce the high cost incurred by residential external provision for high risk young people and we need to work in partnership to maximise local service provision in West Lothian.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11490	An individual	2a. Care for Children	This should be implemented as quickly as possible to keep youngsters at home/in the community.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11491	An individual	2a. Care for Children	Essential keeping young people locally	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11492	No Response	2a. Care for Children	in order to do this need to be focus on recruiting more foster carers particularly for teenagers and offering more of an outreach service over weekends	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11493	An individual	2a. Care for Children	The focus should not be on keeping young people in West Lothian but providing the best location that meets the needs of the young people (person centred planning and delivery). There should be a commitment to providing respite services for families with children with special needs.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11494	An employee of West Lothian Council	2a. Care for Children	Education and support to families , not just children should help sustain community placements Drop in centres could help?	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11495	An individual	2a. Care for Children	I believe that placements need to be effectively monitored so no blank cheques are written, money is continually wasted on this service	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11496	An individual	2a. Care for Children	I agree that children should be able to keep living in WL where the appropriate resources are available.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11497	An individual	2a. Care for Children	Support has to be given for people to remain in their local community.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11498	No Response	2a. Care for Children	Would agree that keeping children with disabilities in their own community, where possible, is best for the young person.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11499	An individual	2a. Care for Children	Keeping children in foster care in their own environment ie. not moving them out into Edinburgh and send them back and forth to schools in taxis at an enormous cost.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11500	An employee of West Lothian Council	2a. Care for Children	Staffing levels in some children's units are too high and others do not have enough to meet the needs for the service. Full time cooks, cleaners and admin workers are not needed and is unnatural and this is not homely. The more adults around can make the young people more unsettled.	Care for children - residential placements	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11501	An employee of West Lothian Council	2a. Care for Children	2a I agree that we should try to keep children with disabilities in their local community where possible, if the facilities available are suitable.	Care for children - residential placements	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11502	An individual	2a. Care for Children	This is extremely tough as it affects children. Any 'gaps' here can be, as we know, catastrophic. Is there any way to reduce these savings?	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11503	An employee of West Lothian Council	2a. Care for Children	Social care services have to become much leaner and cost effective	Care for children (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.
11504	An individual	2a. Care for Children	WLC fail in providing Social Support and this will make the issue greater	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11505	An employee of West Lothian Council	2a. Care for Children	Again, it is difficult to see how cutting £5m off of a budget can result in improved services. Not enough detail is provided on what is actually being cut here.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11506	An employee of West Lothian Council	2a. Care for Children	Sounds positive - but what services are going to be cut?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11507	An individual	2a. Care for Children	This is a MUST	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11508	An individual	2a. Care for Children	Unless you are doing something very wrong at the moment I cannot see how you can create 'better outcomes' while saving £5.2 million in this area. With the workload on social workers, social work nursery/family centres and social care in general, I cannot see how cuts in this area can ever be effective or desirable.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs with delivery models changing to be delivered through community outreach rather than in specific buildings. Work will be progressed to establish if more local services can be created to keep our children and young people in West Lothian.
11509	No Response	2a. Care for Children	The council should build up its own fostering and adoption service in order to minimise the amount of children it places with outside agencies' foster carers. The cost of £16.2m to the council of placing children with fostering agencies between 2017 and 2019 could surely be cut drastically if the council employed more foster carers itself.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11510	An employee of West Lothian Council	2a. Care for Children	In agreement with the above.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11511	An employee of West Lothian Council	2a. Care for Children	concerned that disabled children will no longer have access to residential care, day care centres resulting in poor quality of life. if their disability is already disadvantaging them we should not be adding to that	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11512	An individual	2a. Care for Children	I would be interested to see how this can be made possible, as there are children that are living at risk that slip through the net or there isn't enough support provided due to micro managing and cut backs	Care for children (general)	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
11513	An individual	2a. Care for Children	Yes but will it ever be enough given the ailing society and lack of personal responsibility for life choices and health issues.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11514	An individual	2a. Care for Children	Again impenetrable language to understand what this means. Calls into question whether this 'consultation' is meaningful in any sense. What does 'modernise internal teams' mean in practice?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11515	No Response	2a. Care for Children	It must be awful to have a disabled child but to have cuts in this area would be disastrous so any cuts that can be made that doesn't result in children leaving the area should be made. We should be supporting these areas more than cutting. But where possible cuts have to be made at a minimum disruption to people	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11516	An individual	2a. Care for Children	How will you assess what the highest risk cases are?	Care for children (general)	3. The respondent advised that they had no comment to make.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11517	An employee of West Lothian Council	2a. Care for Children	I feel to cover " children with learning disabilities " all under one title is unrealistic, learning disabilities is a huge spectrum and has a very wide base of needs so for some, outreach will be a fantastic opportunity for others it will have a very negative impact of the quality of life and of care, I feel higher members of management within the council need to spend time on the floor of services to have realistic views on how services actually run.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
11518	An individual	2a. Care for Children	Again, as with families and young children, what happens when someone slips through the net?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11519	An employee of West Lothian Council	2a. Care for Children	What about those considered not highest risk? Are they not important.	Care for children (general)	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
11520	No Response	2a. Care for Children	Parents should shoulder more responsibilities.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11521	An individual	2a. Care for Children	The care of young people is an essential role. parents should be made aware of their responsibilities towards their young. Councils are not their to replace parents.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11522	An employee of West Lothian Council	2a. Care for Children	There has to be provision for reactive use of resources for children/families/older people falling into crisis unexpectedly.	Care for children (general)	4. The council is already doing this.	Thank you for your comment which will be considered as part of any service redesign
11523	No Response	2a. Care for Children	Worrying that some vulnerable young people could slip through the net	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11524	An individual	2a. Care for Children	As for the ceasing of out of area placements. This approach was previously taken some years back by the council, and was subsequently reversed due to the failure of the policy. There are, and always will be some children in education that West Lothian is not equipped or able to provide an appropriate education or to keep them safe. On these occasions, due to the non-provision of this type of service in the local area, it will ALWAYS be NECESSARY for the council to look to place some vulnerable children/adults to an area that CAN meet their needs and human rights.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11525	An individual	2a. Care for Children	This doesn't even begin to tell me how this will be saved. More information is required.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

11526	An employee of West Lothian Council	2a. Care for Children	Equalities and diversity policy applies.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your comment. An equalities assessment will be undertaken once proposals are defined.
11527	An employee of West Lothian Council	2a. Care for Children	Sounds sensible as long as the support is still available	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11528	An employee of West Lothian Council	2a. Care for Children	Any changes must make sure that frontline service provision is not diluted. Again in this area there seems to be too many chiefs and not enough Indians. This not only reduces provision for those that need it the most, but can have a profound and life changing effect on individuals and their families. Any proposals in this area must be investigated thoroughly prior to any changes as the risks are too great to make a mess of this proposal.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11529	An individual	2a. Care for Children	Why are you not already doing this ?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11530	An individual	2a. Care for Children	This can only be done if relevant resources are available in the community which will incur capital expenditure.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11531	An individual	2a. Care for Children	I think you have no option but to focus on the most difficult or worst situations. I think the "safety net" will be eroded further but you have no choice is costs are to be reduced. Hopefully, the strategy remains coherent and effective.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11532	An individual	2a. Care for Children	make sure those children and families who need support get it - transport was a nightmare this year and you can see where cutbacks have been made	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11533	An employee of West Lothian Council	2a. Care for Children	Our young people are our future and deserve the best investment we can give them.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11534	An employee of West Lothian Council	2a. Care for Children	Again a huge amount of money is spent of taxis for LAC - can this not be looked at? It is my opinion that local taxi companies put up prices when they know it is a council contract.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11535	An individual	2a. Care for Children	Sounds ok but have to make sure children protected	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11536	An individual	2a. Care for Children	Take our Young Peoples Residential Units - [REDACTED] is employed in both [REDACTED] [REDACTED]. The [REDACTED] leaves before 4 every day so is not around when the younge people come in from school. [REDACTED] and every day takes something out the freezer for dinner. There is a staff of 3 on every shift. The cooks are not employed at the weekends so the staff cook for the young people. The staff are more than capable of cooking through the week too. There is no value of a cook. Put staff through basic food hygiene - if they are able to cook at weekends they are able to cook through the week too. Staff in the units are fed breakfast lunch and dinner whilst on duty. Staff should either bring in their own food or contribute towards the cost of the food they eat whilst on duty.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11537	An individual	2a. Care for Children	Foster Carers have the role of parental responsibility and should transport children to contact and not expect SW to facilitate transport which would be less use of pool cars and non productive use of SW time.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11538	An employee of West Lothian Council	2a. Care for Children	Caring for children is the most important service that a council can offer. If they have a poor start it will shape their entire life and impact on society in the long term via crime, joblessness, health, lack of education, drug use etc	Care for children (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11539	An employee of West Lothian Council	2a. Care for Children	Sounds like you are planning to reduce provision for some of the most needy in our community. Dreadful.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11540	An employee of West Lothian Council	2a. Care for Children	Agree that the opportunity should be taken to streamlining support services. Agree that funding should be focused on priority services.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11541	No Response	2a. Care for Children	will this reduce the level of care for the most vulnerable and put more stress onto family members	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11542	An individual	2a. Care for Children	Agree that outreach support has been most beneficial to children and their parents	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11543	An individual	2a. Care for Children	Terrible service at the moment will get worse with these cuts. People needing help not receiving it.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11544	An individual	2a. Care for Children	Restructuring and still supporting the vulnerable for less has to be good for everyone.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11545	An individual	2a. Care for Children	Respite services are already under pressure and cuts to services would only make things worse	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11546	No Response	2a. Care for Children	Yes how about the social policy AIMS team which tackles attendance being absorbed by education clusters and managed within High Schools The Mental Health of children should remain a priority	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11547	An individual	2a. Care for Children	Seems reasonable, but it is not always in the child's best interest to remain in their local community if there are better options elsewhere.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11548	An individual	2a. Care for Children	Makes sense on the surface, as last Ng as the restructure doesn't end up with top heavy management meaning little can be provided for those that need this support.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11549	No Response	2a. Care for Children	Be very careful.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11550	An individual	2a. Care for Children	It is essential that any cuts do not impact on the suitability and quality of any care provision.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11551	An individual	2a. Care for Children	This requires very careful consideration. Will a reduced workforce be equipped to effectively make decisions on the best interest of those involved?	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11552	An individual	2a. Care for Children	Reducing costs may be possible, but it would be easy for it to be detrimental if not given sufficient resources during implementation	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11553	An employee of West Lothian Council	2a. Care for Children	If this can be achieved safely and without detriment to children and families this will be quite an achievement.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11554	An individual	2a. Care for Children	We need to invest in our future and certainly this is an area that will dictate our future. We need to ensure we spend effectively and continue to invest	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11555	No Response	2a. Care for Children	Support given to universal services for children should be withdrawn and the focus be on high risk families.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11556	No Response	2a. Care for Children	Mini buses are an expensive use for transporting families out with their community to centre based interventions. Money would be better spend working with families in their own homes.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11557	An individual	2a. Care for Children	we need to keep this service	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11558	No Response	2a. Care for Children	Resources in this area appear to be overstretched as they are. Concerned over the impact this will have on our families and young people.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11559	An individual	2a. Care for Children	As long as family centers remain open as they were a great help for me during difficult times.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11560	An individual	2a. Care for Children	I feel that there should be changes to social care in regards to the problems already in social care/work with lack of intervention when needed and children end up seriously hurt and families who are not at risk are being over watched	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11561	An employee of West Lothian Council	2a. Care for Children	More family work should be done to prevent some young people entering care especially at an older age. A lot of referrals and placements have been unnecessary and these young people could remain at home with work being carried out with them and the family. There is an increased number of young people seeking to be placed in care due to the money they receive and get spent on them that they would not get at home. This is unmanageable for families and although the children and young people should have the same as every other young person, sometimes it exceeds this and they are still receiving money when it is known it is being spent on inappropriate things.	Care for children (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11562	An employee of West Lothian Council	2a. Care for Children	Children with disabilities when they reach 18 years of age should be allowed to remain in the community housed and looked after. Children educated at an early age will prevent intervention in later life - reducing costs in the long run.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11563	An individual	2a. Care for Children	I would consider child protection a priority with harsher and more immediate benefit penalties required for carers and parents of neglected children. All cash incentives for the parents and carers of neglected children should be removed and a voucher system employed. Likewise accommodation should be conditional for such adults. The council also needs to de-incentivise single parenthood by means of replacing cash payments	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign. We have a statutory duty to provide financial support when needed but we can consider the most suitable way of providing that support
11564	An employee of West Lothian Council	2a. Care for Children	Cutting services for children is dangerous given how stretched they are already. This is presumably a proportionate cut as has been done elsewhere to meet the funding gap. I understand the need to work with the available funding though.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11565	An individual	2a. Care for Children	As long as the council can guarantee that the support will be there for all and not this "waiting list" that seems to appear.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11566	No Response	2a. Care for Children	This saving strikes me as crazy. Far too many children are being neglected and are already falling through the cracks. Cut to this service would mean that you will be putting vulnerable young children at risk.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11567	An employee of West Lothian Council	2a. Care for Children	Children who require care are some of the most vulnerable people within the council area. Removing or cutting services can only have a negative impact, leaving the families of these children with a yet greater burden.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11568	No Response	2a. Care for Children	Sometimes getting away from your home environment is a good thing and helps not only the person with the disability but the family as a whole. A day, a few hours with different people can be the highlight of a disabled person's week, for some it is their only break.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11569	An individual	2a. Care for Children	This is great in principle as long as the majority of children and young people in West Lothian are not disadvantaged by the costs involved.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11570	An employee of West Lothian Council	2a. Care for Children	"Allow children with disabilities to remain in their own environment" - this should only be the case when this is best for the child and their family.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11571	An individual	2a. Care for Children	HHHmmm yes the priority needs to be "highest risk" cases, but that doesn't give the council the right to ignore other cases either. All are important and provision needs to be made to help all who might be in need of the service.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence-based practice shows that a positive impact can be made
11572	No Response	2a. Care for Children	I find this area focuses on younger people with needs. The amount of young people with a disability leaving school are ignored. It is the hard work of social work that have to take the decision to tell parents and carers we can't afford it. More needs to be done in this area.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Work will continue to focus on those who are most vulnerable and have additional needs including young people with a disability.
11573	No Response	2a. Care for Children	Maintain staff numbers.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11574	An individual	2a. Care for Children	I don't think this is an area that can afford a cut back as many people rely on this for support. And this can have a huge impact on the lives of young people.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11575	An individual	2a. Care for Children	If this is appropriately addressing needs then it should have been happening already surely? If not why not? Poor council management? Over commitment or poor monitoring?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. The consultation is seeking to gather views on how to best target reducing resources in the future, not about the current systems.
11576	An individual	2a. Care for Children	I feel unless under threat or the family has a huge issue/ stress looking after someone who is disabled children should get to stay with their family and have support provided to them instead of people being placed away and into new homes. I like the idea of children staying in their local community.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11577	An individual	2a. Care for Children	By only focusing on acute issues how can this achieve the aim of better outcomes for young people? Further consultation required regarding detailed proposals	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence-based practice shows that a positive impact can be made

11578	An individual	2a. Care for Children	If the best outcome for the young person is outside West Lothian surely that is the right thing to do?	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11579	An individual	2a. Care for Children	As long as better outcomes are actually created and it's not purely a cost cutting exercise.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11580	An employee of West Lothian Council	2a. Care for Children	Need to consider Scottish Government funding for childcare and consider how Education and Social Policy can work more closely together. While planning is strong at a management level, does this filter down to direct service provision - it should not matter which service an individual is employed when providing support and care.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11581	An individual	2a. Care for Children	This service should not be cut while other discretionary activities continue in the Council.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11582	An individual	2a. Care for Children	. How would you modernise it? Is this something that could be shared with your DWP colleagues?	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this.
11583	On behalf of a Group/Organisation	2a. Care for Children	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving. Are the changes to be made to residential places that will make greater use of council provision - does this mean that this is already there but under utilised? What is the criteria for highest risk cases? who decides who fits into this category? and who is entitled to early intervention? Family support - is this service currently being done by the council and will be externalised to an outside agency to save money or is it an existing under utilised service. Other local authorities have adopted and open and transparent public consultation exercise for example Midlothian Council which details the service the saving relates to, the people the saving will affect and how and the cost of that saving. Why has WLC continued to adopt this approach which raises more questions than it answers, full of misdirection, its unclear, its full of jargon and also not in a format that's accessible to all.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. This consultation is a set of proposals to enable officers to prepare for budget setting. More detailed work will be undertaken as the processes progress from this initial formative stage
11584	An employee of West Lothian Council	2a. Care for Children	Yes I feel this could be a saving and more outreach work could be done.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11585	An employee of West Lothian Council	2a. Care for Children	Again words have been chosen here to mislead people into thinking services will improve with the cuts. However these changes will have a detrimental affect on our vulnerable families and kids leaving them in further poverty risk creating more social problems	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11586	An employee of West Lothian Council	2a. Care for Children	There are families who are not being supported by WLC social work. I teach a family in my school who should have been taken off their Mum a long time ago. More money needs to go into social and looking after young people in care. Invest now for a more positive future for these children.	Care for children (general)	2. 11587	An individual	2a. Care for Children	This is just words like all the other statements you do not give any details on how the savings will actually be achieved. This is a very big saving for this area where you are dealing with young and vulnerable children. I am sure that many who have looked at this consultation document are having many sleepless nights - this needs more detail, before making any changes.	Care for children (general)	2. 11588	No Response	2a. Care for Children	As a general comment on this section I am opposed to any cuts in social care. This is a primary responsibility of the Council and an exemplary service should be provided and expected. I just do not believe that £5.2million can be saved without significantly reducing the care. I do not understand the terms "modernizing internal teams" and "family support on an outreach basis" so cannot comment..	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11589	An individual	2a. Care for Children	Work in care technology is not that great fails lots of times staff have saved life's not the technology	Care for children (general)	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
11590	An individual	2a. Care for Children	adults need protected not cut look at all your unit managers first and your manger to over see the manager	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
11591	An individual	2a. Care for Children	children should remain in their local community	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

11592	An individual	2a. Care for Children	As long as the support takes account of the individual needs of each person, and does not expect one mould to fit all needs	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11593	An employee of West Lothian Council	2a. Care for Children	I'm glad to hear that children with disabilities have not been forgotten about as they have more challenges in life.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11594	On behalf of a Group/Organisation	2a. Care for Children	more support required for families with children who have a disability.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11595	No Response	2a. Care for Children	Ensure that the non-statutory services supporting families who are going through a period of difficulty are appropriately funded, to prevent these families reaching a crisis situation where council services including social work become involved.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11596	An individual	2a. Care for Children	Must provide services to allow families to stay together or within easy visiting distance. Not sure if this covers mental health but I know from personal experience many young people requiring assistance in West Lothian are to old for the service before they are offered any assistance.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11597	An individual	2a. Care for Children	Assessed contributions to care.	Care for children (general)	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
11598	An individual	2a. Care for Children	Social care should be managed by nhs. Or is the council hoping a private company will do a better job. Funding for nhs, not fts	Care for children (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
11599	An individual	2a. Care for Children	it is our duty to look after and give children the best start in life. this is needed.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11600	An employee of West Lothian Council	2a. Care for Children	Sadly I think this will create a greater division between those that have and those that don't	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11601	An employee of West Lothian Council	2a. Care for Children	The council spends a great deal of money purchasing services from the likes of the National Fostering Agency, a UK wide body that is 'not for profit' in Scotland but not in England. This means its Scottish profits are sent to England. The council would save money by increasing the number of Social Workers employed in the fostering and adoption service, with a view to keeping the service in house as much as possible.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11602	An employee of West Lothian Council	2a. Care for Children	This is only feasible if the community can support them and in some case they need special care and professional help.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11603	An individual	2a. Care for Children	Using council provision within the local community and limiting the need to consider out of area placements will reduce costs and work better for children and their families.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11604	An individual	2a. Care for Children	the more local facilities provided the more duplication is required. centralise services for larger groups	Care for children (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The aim is to provide support in settings as close to home as possible, that best meet the needs of children but that are not large institutions.
11605	An individual	2a. Care for Children	There is no universe under which taking away 5.2 million pounds of funding will make things BETTER for children. Focusing on the highest risk cases translates to letting other cases slip through the cracks because 5.2 million POUNDS of their funding was taken away. If you want West Lothian to grow and continue to get better, children need to be a priority, always.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11606	An individual	2a. Care for Children	Young people leave West Lothian as they get trapped in the benefits system as we dont provide jobs other than low pay retail. I support further cuts to this service as it is already underfunded and unable to deliver what it needs to	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11607	An individual	2a. Care for Children	It is important that these services are not reduced	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

11608	An employee of West Lothian Council	2a. Care for Children	If your saving money people will loose out. We need to look at places where care for children really works and ask what can we be doing sooner. It probably means spending more on care for children but it will save money in the long run. Unfortunately Westminster won't let us do that.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11609	An employee of West Lothian Council	2a. Care for Children	If you focus on early years it is likely to have the biggest long term impact on most of the rest.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11610	An employee of West Lothian Council	2a. Care for Children	This will need to be supported by targeted publicity to support communities to take responsibility for their own where possible. It will also require some work with Police Scotland to ensure a focus on appropriate referral.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11611	An individual	2a. Care for Children	I feel more investigation needs to take place when dealing with children with learning disabilities.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11612	An employee of West Lothian Council	2a. Care for Children	As long as the provision meets the demand of the customer.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11613	An individual	2a. Care for Children	Looking after young people, people with difficulties and the elderly is paramount. This answer seems to be the answer to all of your questions. I can't understand why everyone is poorer now than in the 80s, when unemployment was rife. Somebody's got all the money, and it isn't me that's for sure	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11614	An individual	2a. Care for Children	"...allow children with disabilities to remain in their local community." Children become adults yet you are closing the Adult Ability Centre in Carmondean and Eliburn to save 2.5 million. Why not use half your 5.2 million saving and keep the centres?	Care for children (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
11615	An individual	2a. Care for Children	Does this mean the abolition of the proposed Scottish Government's proposed policy of one minder for each child? Savings of £5.2 million; what is the current budget before cutting?	Care for children (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
11616	An employee of West Lothian Council	2a. Care for Children	It is a concern that reduced support for our most vulnerable children and families will lead to increased pressures in schools to support children with additional support needs as a result of family issues e.g. attachment disorders/trauma experiences with decreases in budgets to support children. The demands of the GIRFEC agenda have already led to increased workload for school staff and less support from other services made lead to a further increase in workload and our most vulnerable children not being given support to ensure they reach their full potential and develop skills for learning, life and work. Will this lead to increased pressures on mental health, policing, addiction services in future years when our children become members of the adult population?	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11617	An individual	2a. Care for Children	Seems like a lot more cuts for vulnerable children, those least able to pay.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11618	An individual	2a. Care for Children	Cut benefits	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11619	An employee of West Lothian Council	2a. Care for Children	Better training, delegation, trust and empowerment is required at all levels.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11620	No Response	2a. Care for Children	Prevention, on-going support and making it possible for people to remain in their natural environment should offer a more cost effective options.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11621	An individual	2a. Care for Children	If you are going to focus only on high risk cases what will happen to the medium or low risk cases??	Care for children (general)	3. The respondent advised that they had no comment to make.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

11622	An individual	2a. Care for Children	Does not really explain where the £5.2 million will be saved, what I suspect is that more cut backs are in the offing	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11623	An individual	2a. Care for Children	The way that social work assesses and manages risk also has to change. I engage professionally with social work services in another local authority area and much of what I see that is supposedly risk assessment owes far more to covering the local authority's back than to genuine assessment of risk to a child.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11624	An employee of West Lothian Council	2a. Care for Children	Using voluntary sector for support in relation to children with disabilities. There is a lot of charity funding out there can this be used instead of council funded.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11625	An employee of West Lothian Council	2a. Care for Children	With an ever growing LAC, young carer etc population the council has a duty to maintain these structures. These young people deserve the same start in life as everyone and should not suffer as a result of budget cuts.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Work will continue to focus on those who are most vulnerable and have additional needs.
11626	An employee of West Lothian Council	2a. Care for Children	Resources needed to be considered for children in care. Not enough is done to meet their needs when leaving care.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11627	An employee of West Lothian Council	2a. Care for Children	Work needs to be done in family homes and more use made of telephone support and support plans. Often work is done on a crisis basis and the quickly withdrawn. Consideration given to working with family longer and gradually reducing support however clear and concise support plans need to be utilised involving all agencies. To prevent duplication of work but also to prevent re-referrals for families.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11628	An employee of West Lothian Council	2a. Care for Children	I would also suggest closing the family centres or if keeping them open making greater use of them. Only a very small number of families benefit from them and they operate on a very limited time. They could be used in the evening and at weekends by other teams. Too much focus in given to families attending in the mornings and transport provided taking families out of their communities.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11629	An employee of West Lothian Council	2a. Care for Children	Ultimately I feel its really important to provide the best level of care	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11630	An employee of West Lothian Council	2a. Care for Children	Rationalising the role of workers to provide a holistic approach to meeting the childs needs.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11631	An employee of West Lothian Council	2a. Care for Children	A lot of money is spent on secure accommodation for young people - this needs to change. A lot of money is spent on the same families time and time again - they need to take more responsibility for their own lives and nor expect councils to do everything for them.	Care for children (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment which will be considered as part of any service redesign
11632	An employee of West Lothian Council	2a. Care for Children	I think this is important however it should be on an individual case basis. Greater investment is required in our residential homes for children and how children with very complex and varying needs are being kept safe as well as work with them on an individual basis. In working in this sector I acknowledge that a large amount of money is spent on residential placements however in some cases this is due to the us not having the resources in West Lothian to support these vulnerable children. I also think consideration needs to be given to our fostering service whereby I am aware that we spend large amount of money paying for taxis to take and return children from school - there should be greater emphasis on the carers doing this. Or could consideration be given to volunteer drivers being used to support children to continue to engage in education.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11633	An individual	2a. Care for Children	Sounds good. Worth remembering that breastfeeding support services should not be cut considering the very low breastfeeding rates. These low rates have a long term impact on outcomes (see WHO and UNICEF). Health visiting services should not be cut as health visitors are vital for identifying early issues before they become high risk.	Care for children (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
11634	No Response	2a. Care for Children	There should be care for children	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11635	An individual	2a. Care for Children	This will be very challenging for many families	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

11636	An individual	2a. Care for Children	Admirable aspiration, but more detail needed.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11637	No Response	2a. Care for Children	As long as the child and families are seen as customers and the service they receive is not compromised, and ideally improved, proposal seems reasonable.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11638	An individual	2a. Care for Children	Inclusion and cost saving should not be detrimental to current facilities.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11639	An individual	2a. Care for Children	Must say your terse description is worrying. What does modernising mean? The above reads like more targeted approach. Worrying. The above is not a confidence inspiring statement.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11640	An employee of West Lothian Council	2a. Care for Children	I don't understand how some of this can be controlled. It would seem that costs will occur due to the nature of the issues these services will deal with and the council must bear it to make sure children are protected.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11641	No Response	2a. Care for Children	That sounds fine but will still need staff to provide care and support.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11642	An individual	2a. Care for Children	Can details of this plan be published for interested parties to view electronically and/or hardcopy? As a mother with personal experience of a family member with learning difficulties these statements are very worrying, without the detail of the plans. What does 'highest risk' mean - that is the criteria? If you do not meet that criteria are you signposted to other third party organisations or left to your own devices? Will children accessing services outside the local authority be able to stay where they are, as they are there before WLC did not have a provision for them, or will they be moved? If they are moved how will that benefit the child? Will psychologist and specialists be involved with considering any such moves and also new placements? If WLC are planning to expand specialist provision that it great news.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11643	No Response	2a. Care for Children	Yes, fine, we should concentrate on those in greatest need - services for children with disabilities / educational needs should be means tested	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11644	An individual	2a. Care for Children	Social work have huge amounts of modernisation to be completed as they are quite a way behind other services. I believe that these changes will give opportunities as long as it is lead but the correct people and significant changes and improvements can only be a good thing in this area.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11645	An individual	2a. Care for Children	In theory this all seems positive however in these instances Council must be guided by the professionals at the "coalface".	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11646	An employee of West Lothian Council	2a. Care for Children	Sounds sensible. No mention of cooperation and joint working with health board.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11647	An employee of West Lothian Council	2a. Care for Children	ASN provision is important but should be consolidated on fewer sites.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11648	No Response	2a. Care for Children	I think that the more money spent on early intervention and prevention the better as this saves far more money further down the line and of course most importantly changes the outcomes for those involved.	Care for children (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11649	An individual	2a. Care for Children	Concerned if the focus is on high risk cases how many less high risk cases might fall through the cracks.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11650	An individual	2a. Care for Children	There must be day-care provision for children with acute special needs who are making the transition from school to adulthood.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11651	An individual	2a. Care for Children	I would hope that support for disabled children or other conditions families had no say in (e.g. Type 1 diabetes) is absolutely prioritised. It must be so hard to keep things on track with extra challenges such as these and I'd like to think society can absorb any extra costs in order to assist wherever possible as a priority.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11652	No Response	2a. Care for Children	I think more money should be being put into anything to do with the youth of today	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11653	An individual	2a. Care for Children	Care of our children should be top of our priority list. Facilities like the children's panel and help for children with disabilities are vital and unfortunately already seem to be struggling. I think this is an area which should be looked at very carefully.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11654	An individual	2a. Care for Children	No new supported housing provision for disabled young people. Young children with disabilities badly let down by workers with limited knowledge and resources to make changes	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11655	No Response	2a. Care for Children	Whilst the council work hard to achieve its goals in this area, there is only so much you can achieve, ask the Scottish Government for more money to achieve its goals.	Care for children (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
11656	An employee of West Lothian Council	2a. Care for Children	Agree although as long as service standards don't slip and risk is managed	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11657	No Response	2a. Care for Children	Care must be taken to make sure no young person will be put into a vulnerable position just to make savings. We should be making sure our vulnerable youngsters are catered for fully.	Care for children (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11658	An individual	2a. Care for Children	The service currently provided by the Child Disability team is, in my experience, poor: my daughter is one of the most severely disabled children in the county and we have had no contact from them for TEN YEARS. Luckily for my daughter my husband and I are professionals, in work, and are articulate and savvy enough to access the care she needs without third party support - but not every child has the family support my daughter has. I am concerned that cuts to an already poor service will place more disabled children at further disadvantage. I should also say that I do not and never have had any approach from Social Work either.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11659	No Response	2a. Care for Children	Why do you need to reshape to provide more efficient working why is this not done as good practice?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11660	An individual	2a. Care for Children	Please remember that outreach programmes need to be accessible and the general public should be made aware of their existence. Better communication strategies is needed in this area.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11661	An individual	2a. Care for Children	Surely everyone who needs the service is at risk,	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11662	No Response	2a. Care for Children	Cut the number of senior managers	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
11663	An individual	2a. Care for Children	There is a fine line with this some families genuinely need help, the rest play the system. I think we need to get wise and stop being a bunch of softies. Social policy can be taken for a ride, tougher choices on this are required.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11664	An individual	2a. Care for Children	More information is needed on this subject. When you say a modernise team does this mean reduce staff in this area? If so this will have a tremendous negative impact on families who so badly need support but are unable to access services because of waiting lists, staffing issues etc.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11665	An individual	2a. Care for Children	There should be greater support in special schools to identify issues within families earlier and support offered to assist.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11666	An individual	2a. Care for Children	This sounds as though the focus will be to provide more care at home. That is sensible but depends fully on the nature of the disability, the ability of the family / home life and the level of care at home being sufficient so it is not a one size fits all process.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11667	An employee of West Lothian Council	2a. Care for Children	If more emphasis is to be placed on supporting vulnerable families, how can this be implemented if the social policy budget is to be cut by up to 50%?	Care for children (general)	3. The respondent advised that they had no comment to make.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11668	An employee of West Lothian Council	2a. Care for Children	Agree - could money be spent on preventative care ? Would an investment at this stage be more cost effective long term	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11669	An individual	2a. Care for Children	Lots of good buzzwords, again if support is withdrawn in mainstream school more children will require support in special schools/arrangements some of which will have to be outside west lothian.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11670	An individual	2a. Care for Children	Yes, fine, we should concentrate on those in greatest need - services for children with disabilities / educational needs should be means tested	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11671	An individual	2a. Care for Children	I think people with disabilities should be kept in their local community.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11672	On behalf of a Group/Organisation	2a. Care for Children	this is going to impact on all services	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11673	No Response	2a. Care for Children	Care must be taken not to reduce support for families and young people to a level that families in need find it difficult to access. West Lothian has a high percentage of families in dire need of support, and this must remain a priority.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11674	An individual	2a. Care for Children	I hope the council will ensure that vulnerable children's safety will remain a high priority if there are to be major changes to staffing levels. I fully support the integration of disabled children within the community.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11675	An individual	2a. Care for Children	I agree that children with disabilities should be included more within their local community, however in school, there needs to be additional Pupil Support Staff to help this inclusion.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11676	An individual	2a. Care for Children	It should not just be highest risk cases being focused on, it is important to be able to support all children in need.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11677	An individual	2a. Care for Children	Who identifies 'highest risk' and what happens to the remaining families who require support? That does not sound like a very inclusive proposal	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11678	An individual	2a. Care for Children	There does not appear to be sufficient facilities throughout West Lothian for looked after children. The impact these children have on communities is frustrating. They do not appear to have the support they require.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11679	No Response	2a. Care for Children	There will always be young people who will require specialised services not available in West Lothian and concern is the level of support provided to families.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11680	An individual	2a. Care for Children	Worried that these cuts will impact on children who are at risk as the teams who deal with it will be stretched further that they already are.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11681	An individual	2a. Care for Children	It's always cuts to services for young vulnerable people or children because they don't have a voice or anyone to listen to concerns. As much support as possible should be given to young people.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11682	An individual	2a. Care for Children	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11683	An individual	2a. Care for Children	Don't let standards slip	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Work will continue to focus on those who are most vulnerable and have additional needs.
11684	An individual	2a. Care for Children	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11685	An individual	2a. Care for Children	Waiting for help from support services as outlined above takes long enough without cut backs affecting this too!	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11686	No Response	2a. Care for Children	This system may need modernising however these groups require assistance. Focus should include the school and asking them if the current situation is appropriate.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11687	An individual	2a. Care for Children	As social workers remain responsible for children placed outwith their original authority, this can mean days and days lost in travel to far away locations, rather than an agreement to 'buy in' a local worker with a good handover and liaison via phone/email to ensure ongoing service but a good use of time/travel.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11688	An individual	2a. Care for Children	I believe this is unrealistic. Specific children and staff who are caring for them will suffer, creating additional pressure to already stretched services.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11689	No Response	2a. Care for Children	Social services need to actually take action into protecting kids BEFORE they are hurt and look for obvious signs, not blind sided by what parents are saying. They are wasting time coming out to households every week but not actually doing anything.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11690	An individual	2a. Care for Children	Is there adequate support in local communities	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11691	An individual	2a. Care for Children	I don't believe any cuts should be made that reduce care for children and concentrating on highest risk removes care unfairly from a large number of children. This will ultimately translate long term to higher council costs through crime, unemployment and benefit costs.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11692	An individual	2a. Care for Children	OK sounds like a really big saving - I can only assume more children will be at risk as a result of what can only amount to cut backs.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11693	An individual	2a. Care for Children	Will undoubtedly save money, and provide streamlined service. Parents need to take more responsibility for access services themselves.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11694	An employee of West Lothian Council	2a. Care for Children	This will put pressure on already stretched resources and is not always in the interest of the children with the disabilities	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs

Transforming Your Council Consultation 2017

11695	An employee of West Lothian Council	2a. Care for Children	I think focusing on those most at risk and in need of support is always the best case scenario in an unpleasant situation of cutting vital service.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11696	An individual	2a. Care for Children	Provide adequate care.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11697	An employee of West Lothian Council	2a. Care for Children	has this not got the potential to miss vulnerable groups by only focusing on high risk cases?	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11698	An individual	2a. Care for Children	Important to ensure that vulnerable children and those with disabilities are looked after and not seen as a soft target for cuts	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11699	No Response	2a. Care for Children	Very important that children with disabilities are considered and again not seen as an easy target for cuts.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11700	An employee of West Lothian Council	2a. Care for Children	These changes need to be made in close collaboration with education services to ensure that the savings are maximised. Education and care are inextricably linked and require to be considered together in order to create services which will meet the needs of our most vulnerable children and young people. There is currently a gap in services (both education and care) for our most challenging young people. This means a number of them require to be supported outwith the authority. The development of internal resources to support this is required. This would require possible external training and development work initially (commissioned from an external partner) with a view to us then becoming self-sufficient in this area in the future and reducing the number of young people requiring external resources.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11701	An individual	2a. Care for Children	Support for families and carers is essential. Cuts to these services can cost more in the long term as carers under stress become unable to support their family members. Evidence elsewhere in England is that number of children in care is increasing, due to cuts in support available in the community. Community support costs less than care - this is where emphasis should be	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11702	An employee of West Lothian Council	2a. Care for Children	Seems reasonable however suspect low morale will make this hard and it will be fewer staff doing more with less. = Burnout!	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
11703	An individual	2a. Care for Children	Again this sounds good as long as adequate staffing is available and workloads not impossible.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11704	An employee of West Lothian Council	2a. Care for Children	This seems like a sensible approach and as long as core services are maintained there shouldn't be a big effect on provision and staffing.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11705	An individual	2a. Care for Children	Development of well structured family will require less effort to manage. Help the family by educating them.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11706	An individual	2a. Care for Children	Nothing should be done which will disadvantage disabled children who already face huge challenges, particularly in the current climate of austerity and the introduction of the universal credit.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11707	No Response	2a. Care for Children	Care should be taken to ensure that resources are invested in to allow this to happen. Social work are already under resourced at present and if the changes suggest further cuts then staff are going to struggle with their workloads and be unable to achieve better outcomes for young people. Focus should be made on allowing young children with disabilities to remain in their local community and keeping young people in West Lothian, but only where that is in their best interests. Decisions regarding the care of children and young people should not be made on a cost analysis or resource basis, but on a best interests and a needs basis, otherwise we will be unable to achieve better outcomes.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11708	An employee of West Lothian Council	2a. Care for Children	What is the current "shape" of care for families and young people? What are the proposed changes? How will these allow more effective use of resources? How will this lead to better outcomes for young people? How will teams be modernised? What are the costs of these changes and modernisations? Why only "highest risk" cases? How will "highest risk" be assessed? How will we monitor other cases where the risk increases over time? How will we monitor cases which are not immediately obvious? Do we need already have a focus on "keeping young people in West Lothian"? How many children with disabilities have we been moving out of their local community? How exactly can we make a £5m saving if we have a policy in which disabled children in need of support are moved out of their community/West Lothian (presumably to save costs or because we do not have the resource) but are now deciding we have to actually care for these children in their community/West Lothian? Will we not have to fund this/provide considerable additional resource? I cannot possibly provide useful comment on this proposal because I do not know what is proposed.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11709	An employee of West Lothian Council	2a. Care for Children	There needs to be clear supervision procedures in place for overseeing young people being brought back into the community (from Residential Schools for example). Some of these young people are capable of having a disproportionately negative impact on their local communities, and this needs to be recognised, and addressed.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11710	An individual	2a. Care for Children	I am happy with this although I accept that the are always going to be special cases where care can not be delivered within West Lothian and that it then becomes extremely expensive to supply the required level of care.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11711	No Response	2a. Care for Children	bring back more staff and more support	Care for children (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
11712	No Response	2a. Care for Children	always needed too make sure children are safe	Care for children (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
11713	An individual	2a. Care for Children	Desirable to keep children with disabilities in their own area provided their particular needs can be properly met.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11714	An individual	2a. Care for Children	As a frequent visitor to the CAMHS Dept at St Johns Hospital, I am all to aware how stretched this facility is. Does reshaping care also mean loss of staff? Not a good idea to a team already struggling to cope with demand.	Care for children (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
11715	An individual	2a. Care for Children	Agree that families that are deemed high risk should have most focus. Having had a child in the last 2 years, I felt many of my health visitor appointment's were unnecessary and took up time that would have been better spent with other members of the community.	Care for children (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
11716	An individual	2a. Care for Children	Out reach is not always the best option this cost more and not suitable for a lot of people	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11717	An employee of West Lothian Council	2a. Care for Children	There are many vulnerable young children/young adults who through no fault of their own need help and with less resources and manpower will be lost in the system and leading to more problems in the future	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11718	An employee of West Lothian Council	2a. Care for Children	Allowing young people to stay in their local community can only be a good thing, and making savings through allowing them to do this is the right move to make. Cuts to social policy for young people needs to be thought through carefully so as it does not impact on our most vulnerable children and their families.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11719	An individual	2a. Care for Children	This is a worrying situation. There are so many vulnerable families in our area and it is concerning if cutbacks will mean some families who need help are not given it.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11720	An individual	2a. Care for Children	Greater deal would be required before commenting on these proposals. The needs of vulnerable children should be at the centre of planning in this area. The importance of effective early intervention cannot be understated.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11721	An employee of West Lothian Council	2a. Care for Children	INTENSIVE FAMILY SUPPORT(THE WHOLE FAMILY SUPPORT TEAM MUST BE RETAINED AND IF POSSIBLE EXPANDED. IT WORKS WITH THE MOST VULNERABLE FAMILIES IN WEST LOTHIAN AND TRIES TO SUPPORT FAMILIES SO THAT CHILDREN AND YOUNG PEOPLE ARE NOT ACCOMMODATED WHICH SAVES THE COUNCIL A LOT OF MONEY.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11722	No Response	2a. Care for Children	I have a child with a severe disability and it always seems to be their services which are cut first. I can't fault his school but at the moment we have no idea what will be happening for secondary school. I have tried to find clubs for him to attend outside school and there is nothing suitable. As for when he's an adult I have no idea what is going to happen to him. This is a constant worry for parents like myself. What will happen to him when I am too old to look after him and am no longer earning?	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11723	An individual	2a. Care for Children	More classes for young mums and babys that are not very expensive.	Care for children (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
11724	An individual	2a. Care for Children	It seems highly unlikely that you can improve care while saving £5.2 million.	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11725	An individual	2a. Care for Children	What ever happens, staff working directly with children need proper support and training. We have all seen the headlines	Care for children (general)	4. The council is already doing this.	Thank you for your comment which will be considered as part of any service redesign
11726	An individual	2a. Care for Children	More social workers are needed, not fewer. They cannot meet the current needs.	Care for children (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
11727	An individual	2a. Care for Children	Positive outcomes must be at the heart of Care for Children	Care for children (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
11728	An employee of West Lothian Council	2a. Care for Children	good BUT if you only focus on the 'highest risk' groups, you're in danger of missing out groups who will (through not having support) then become highest/higher risk. This is the group that (with a bit more support) can have their lives transformed permanently. Great about keeping/moving provision into West Lothian for children with disabilities - keep the children in the area, and keeping the money spent on this provision in the area (not sending children/adults to other areas - such as very expensive BUPA care homes in Edinburgh!!!)	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11729	An individual	2a. Care for Children	outreach basis: family work is not able to always be carried out with in the family home there needs to be family centres so families can have the service with in the centre where it is a safe secure environment.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11730	On behalf of a Group/Organisation	2a. Care for Children	Concerned about the impact this will have on parent carers.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11731	An employee of West Lothian Council	2a. Care for Children	Care for children who are in the most vulnerable circumstances should be a priority to reduce the inequalities gap.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11732	An employee of West Lothian Council	2a. Care for Children	The children will become the future workforce, this is shortsighted. Bearing in mind the percentage of West Lothian tenants on Housing benefit is in the high 40% bracket This provision may need increased if employment is affected by the forthcoming Brexit issues.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11733	An employee of West Lothian Council	2a. Care for Children	I do believe that there are a number of Children's Teams that carry out some duplication of service provision. As a result of this there remains criticisms that children have a plethora of workers all vying for their role with the child. This is disempowering for the children and their parents.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
11734	An individual	2a. Care for Children	Must be an emphasis on continuity and not leave people fall through the cracks.	Care for children (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11735	An individual	2a. Care for Children	good to focus just on the high risk cases, and prioritising children with disabilities.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

11736	An individual	2a. Care for Children	Mental health has to be top priority for the area to flourish and tax revenue will increase in turn.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11737	An individual	2a. Care for Children	I saw on the news last night one of the councils (maybe Clousers) I think this should not happen ... These people are ill and need all the support they can get	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11738	An employee of West Lothian Council	2a. Care for Children	Support is essential to ensure all children are safe and secure limiting budgets is not beneficial to helping individuals	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11739	An individual	2a. Care for Children	As long as this doesn't affect their care	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11740	On behalf of a Group/Organisation	2a. Care for Children	Sounds like the use of council resources is at present shambolic	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	All stakeholders are being asked to participate in the consultation
11741	An individual	2a. Care for Children	This all sounds very positive for families. I hope not to hear reports of people like these losing appropriate support over the next five years.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11742	An individual	2a. Care for Children	Don't see how this statement can be easily substantiated - what does modernise a team mean - mobile technology or reeducation?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11743	An employee of West Lothian Council	2a. Care for Children	Care at home and the family is a great thing. I don't want my child going to strangers or a home. But my child is at critical risk for her own health and self care and now she will be 16 in February we are being told there is nothing social work can do. We can't even get respite via social work services, so no wonder I have no faith in social work. No slight on our social worker. Her hands are tied due to resources. It's disgusting to be honest.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11744	No Response	2a. Care for Children	The child / young person (and their families when applicable) should be at the centre of decision making processes and consulted about how they are feeling. The children / young people should also be pivotal speaking to link workers etc with regard to the external care they are receiving. Children should be kept in West Lothian, ideally with parents / relatives with support but residential care West Lothian should not be an option. Reduction of services for young people to engage and express themselves would increase spending as opposed to contribute towards savings.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11745	An individual	2a. Care for Children	Keeping children in the community is an admirable proposal, however this only works if families and carers are supported adequately and communication channels are kept open.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11746	An individual	2a. Care for Children	All residents should remain in the community if that is possible.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11747	An employee of West Lothian Council	2a. Care for Children	I agree with the proposal subject to it being undertaken on a risk based approach and families having adequate capacity to cope with full time care of a dependant.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11748	An individual	2a. Care for Children	We need to ensure that there are services for our young adults to ensure they are adequately supported in their transition to independent living and not just young adults currently coming through TCAC and looked after services. I agree highest risk cases should be one of our main focuses however we can not lose sight of others who are vulnerable .	Care for children (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11749	An individual	2a. Care for Children	It is imperative that families with children who have disabilities are fully supported and current services are not impacted upon. A clear explanation of what is being considered here should be fully set out. A separate public consultation should be arranged, so that families can be properly represented.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11750	An individual	2a. Care for Children	The services for children and adults with disabilities should not be impacted. These include Eliburn Day Care Centre.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11751	An individual	2a. Care for Children	Our vulnerable children need 100% support from our services. Please retain the services for our children with additional support needs, our disabled children, our children who are homeless, our children with mental health issues. and our Looked After Children.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11752	An individual	2a. Care for Children	The council should try more to get volunteers from communities in this type of work. There are plenty of caring and knowledgeable people around, perhaps recent retirees who would be happy to give up some time to assist and help young people, working under the supervision of someone more qualified.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11753	An individual	2a. Care for Children	Support in the community sounds more inclusive but services need to be available to support this strategy.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11754	An individual	2a. Care for Children	There seem to be some serious contradiction in the above statement. Focus on keeping young people (disabled or not) in their local community is not necessarily the same as creating a better outcome. If it is better for a young person to move to a more suited area, it should be allowed. More importantly the above statement seems to indicate that you will focus on the highest risk cases but not other.	Care for children (general)	4. The council is already doing this.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11755	An employee of West Lothian Council	2a. Care for Children	It is good to focus on the highest risk cases but there also needs to be focus on those children and families who do not yet meet this threshold but who, without support, will fall into crisis. We need to provide the right support at the right time to avoid this.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11756	An employee of West Lothian Council	2a. Care for Children	Support for families is the only way to ensure positive impact on children. Services for the supporting of the care of children should be protected. These children our the future workforce of Scotland and need to be supported to develop in the best possible way.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11757	No Response	2a. Care for Children	Services could be transformed to provide more care in one area instead of duplicate services spread over Lothian and requiring old buildings to be maintained at high cost change the Environment not the care delivery	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11758	An individual	2a. Care for Children	Helping children with disabilities to remain in their local communities must be actively followed.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11759	An individual	2a. Care for Children	If family support is undertaken on an outreach basis on your own heads be it when incidents occur due to inefficiencies with outreach services	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11760	An employee of West Lothian Council	2a. Care for Children	Again, the needs of individual children must be fully explored.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11761	An individual	2a. Care for Children	Kids need to be looked after. Someone needs to look out for them.	Care for children (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11762	An individual	2a. Care for Children	Please ensure that all vulnerable parents and young people have access to the support they need and that any issues raised are successfully followed up.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11763	An individual	2a. Care for Children	Prevention is better than cure! Should we expect to see more news items where overworked social workers be accused of not doing their job properly when another child or elderly person dies from neglect or abuse?	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11764	An individual	2a. Care for Children	object to social worker staff having increased case loads as a consequence of efficiency measures as many struggle to cope with their current levels.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to structures will require to fully consider the impact on staff
11765	An individual	2a. Care for Children	Why have you been wasting so much of our money up to this point?	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

11766	An employee of West Lothian Council	2a. Care for Children	What are the proposed changes? How will services be modernised? Do you mean staffing levels will be reduced? How will outreach support work? What changes will be made to ensure that greater use can be made of council provision?	Care for children (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11767	An individual	2a. Care for Children	Unless there is excessive 'fat' in the system at present, it would seem unlikely that by reducing the budget, this would improve services.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11768	An individual	2a. Care for Children	There are lots of great staff on the ground but the organisation and management in care needs a complete review/ restructure and bring in some business minds. It would be good to have a full breakdown of how the money is spent in care.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11769	An individual	2a. Care for Children	Equality Impact Assessment	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11770	An individual	2a. Care for Children	Don't know much about this area...but if you can still provide a good service saving Â£5.2 million you must be doing something really wrong just now!	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11771	An individual	2a. Care for Children	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11772	An individual	2a. Care for Children	What about those who are not highest risk but are still cause for some concern?	Care for children (general)	4. The council is already doing this.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11773	No Response	2a. Care for Children	What is required is a balance of jobs for those who are unable to cope with modern methods. There are more in local authority jobs than outside and care has to be taken that graduates are not emptying bins.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11774	An employee of West Lothian Council	2a. Care for Children	Whilst a presumption of mainstream education for children with additional support needs is beneficial to many children for a number of reasons, this is only the case if the schools have the appropriate supports in place to support these pupils (e.g. support for learning staff, pupil support workers, educational psychologists, family support workers, children and young people team etc.). Keeping pupils within West Lothian wherever possible is a great idea and is likely to save the council a significant amount of money as it can be very costly to place children within outwith residential provisions, however I would argue that at least some of these savings would need to be redeployed to the schools where the pupils will be educated to ensure that the appropriate supports are put in place for these pupils.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11775	On behalf of a Group/Organisation	2a. Care for Children	This means it will be resources led and not needs led. Children with the most challenging needs that need a specialist resource will not have their needs met. This will cause distress to both the individual and their families. I have experience of working in this area and these children often display violent behaviour due to autism and severe learning disabilities. Families will just suffer, they are already it will just become more intense. People at the decision making level have no idea how hard it is for this group of families.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11776	An individual	2a. Care for Children	sounds dangerous taking a million pounds out a year is a lot of people no longer providing services to very vulnerable kids are you sure	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11777	An individual	2a. Care for Children	All very credible and worthy of support but again no detail is provided on the 'how', how confident you are of success, who is responsible and 'carries the can', and of the impact on the young people you profess to support.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11778	An individual	2a. Care for Children	Again I hope that the most vulnerable will receive the support they require. If they don't it will impact on other aspects of the Council's resources eg schools to work with the challenges they present.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11779	On behalf of a Group/Organisation	2a. Care for Children	The focus here needs to be the outcomes and not the economics.	Care for children (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
11780	An individual	2a. Care for Children	how does it save money to train staff and provide specialist equipment if this is not currently being done? (this appears to be the inference from "allow children with disabilities to remain in their local community" that they are not at present?)	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11781	An employee of West Lothian Council	2a. Care for Children	Criteria for identifying high risk cases will need to be thorough.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11782	An individual	2a. Care for Children	Family support needs to be targeted and effective. There needs to be a mechanism for taking further measures where families either do not engage or do not take responsibility for making required changes.	Care for children (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
11783	An individual	2a. Care for Children	I am in favour of keeping young people in West Lothian, but if they require a service this may not save money? I have serious concerns about only providing services to people at highest risk and then no detail of how much early intervention and prevention services will be provided. If we do not provide services to children and families in the middle area who are in need it will mean that more will end up in crisis and having the need for more expensive interventions.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11784	No Response	2a. Care for Children	This is a critical area that requires the council to work collaboratively with other statutory and crucially voluntary services to ensure children receive the best care and that they do not become victims of their childhood. If redesigning brings better outcomes then I support this, however focus must remain on all levels of risk.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11785	An employee of West Lothian Council	2a. Care for Children	I agree with this 100% but service and resources need to work alongside each other with a much fuller understanding of the remit and responsibility of each service area. Processes need to be clear and structured and roles and responsibilities need to be clearly identified. The approach to fragmented and random at the moment and there is no overview or wider perspective on things, it is almost every team for themselves. Priorities need to be clearly defined in terms of service delivery to children and families and appropriate resources need to be invested into these services. A culture change is required and has to be embraced by everyone. Legislation and the make up of society has shifted significantly and we have to deliver a service that reflects this. I am concerned that there is an emphasis on "highest risk" that does not include "most vulnerable" as well as these are not always the same in my view. I still feel that even with GIRFEC, Children & Young People's Bill, etc. we are still failing looked after children in not delivering services that are needs led, but that are finance and resource led. We need to find a much better balance between these as it can't be an either or situation.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11786	An individual	2a. Care for Children	How can a saving of £5.2M be made at the same time as achieving better outcomes for young people? If you use this logic then why spend anything!!!	Care for children (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Work will continue to focus on those who are most vulnerable and have additional needs.
11787	An individual	2a. Care for Children	As long as the children remain the priority.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
11788	An individual	2a. Care for Children	The young people must not be left worse off	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11789	On behalf of a Group/Organisation	2a. Care for Children	We are concerned that some of the changes proposed will adversely affect many of the most vulnerable people in our communities, e.g., the raising of thresholds for support or the amalgamation of facilities and reductions in capacity. How will Council ensure that it protects our most vulnerable people and how can we assist with this? We are also concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets?	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11790	An individual	2a. Care for Children	Has £5 mill been wasted previously? Why have they wasted it?	Care for children (general)	7. 11791	An individual	2a. Care for Children	Excellent idea but some with disabilities would need more help in classes = more resources needed.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11792	An individual	2a. Care for Children	As long as legal requirements are met this could be beneficial	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11793	On behalf of a Group/Organisation	2a. Care for Children	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Care for children (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11794	An individual	2a. Care for Children	Lets hope the Quality of care is still provided.	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
11795	An individual	2a. Care for Children	While I think it is essential for children with disabilities to be kept in their own local communities I am aware that this is always practical. I am greatly concerned that this will echo the madness we had when West Lothian Council voted to close all of the SEN units that were attached to mainstream schools and 'dump' all of the children from the units into mainstream settings, often with little or no support causing chaos for the SEN children and those in the mainstream. A great disservice was done to everyone affected by those closures, both adult and child. I would like to think that lessons had been learned from that but I fear they haven't. While focusing on the 'highest risk cases' is essential many of those not deemed as the highest risks may still need that crucial support to prevent them becoming one of the highest risk cases. I can only hope that common sense prevails and this doesn't become simply a cost cutting exercise that ends up doing more harm than good!	Care for children (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11796	An employee of West Lothian Council	2a. Care for Children	There are significant challenges to reforming services to children, particularly looked after children, to deliver savings. Looked after children, locally and nationally continue to experience very poor outcomes compared to children who are not looked after. Responding to the significant needs of looked after children and young people should be a key priority for the Council as a whole. At the same time, a reduction in commitment to effective early intervention will have medium to long terms fiscal and outcome costs.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11797	An employee of West Lothian Council	2a. Care for Children	There appears to be a lack of understanding or lack of value given to how digital services can assist social care. Social Policy as a service area lack badly behind the rest of the council in terms of online service provision and use of digital technology to allow customers to "self serve" where possible. The tools are available but no proper resources are given within this area to allow this to progress.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11798	An individual	2a. Care for Children	What council provision is there? The private sector seems to provide much of this service very well. Don't push them out!	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11799	An employee of West Lothian Council	2a. Care for Children	What "changes will be made" to generate this saving - how will this be delivered?	Care for children (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

11800	An individual	2a. Care for Children	Will these changes be piloted? Change affecting the most in need of support may work on paper but will it be road tested in reality to ensure changes are actually beneficial for the recipients?	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11801	An employee of West Lothian Council	2a. Care for Children	Support should be given to all families including those even on medium or lower risk - I think that this will be hard to achieve as there would need to be monitoring of these families and there is an assumption that there circumstances would not change and that people may not quickly move into a higher risk category.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11802	An employee of West Lothian Council	2a. Care for Children	Care for children is already stretched and putting an unfair onus on schools.	Care for children (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11803	An individual	2a. Care for Children	Good idea if there is the infrastructure, knowledge, expertise and capacity locally, as well as effective high quality support to families. Each request should be considered based on the most appropriate support for the individual/family - not simply a cost saving exercise	Care for children (general)	1. The respondent advised that they agree with the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11804	An individual	2a. Care for Children	Care provision will reduce	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11805	An individual	2a. Care for Children	Early intervention is important. So my understanding here is to help the most vulnerable however what about the mid-range of families struggling - these need help as well so as not to fall further.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11806	On behalf of a Group/Organisation	2a. Care for Children	Education and social care are the two primary local authority functions. We are therefore apprehensive of such huge cuts to social care without understanding what is involved and are unable to effectively comment. Without more information we oppose any cuts in this areas. Our comments are based on individual's concerns.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Working together with Education the aim is to ensure that children's needs are met in the most suitable setting, recognising that the most vulnerable may have additional specialist needs
11807	An individual	2a. Care for Children	All the proposals in this section are vague and unspecified. Social Care is inadequately integrated with the devolved Health and Social Care services managed by the joint board. If Edinburgh thinks that its head of social work can run the integrated board without a conflict of interest, then West Lothian should adopt that too and save some senior management costs on top of those proposed in 2F. Savings on elderly assessment and care should be minimised to avoid a cost shift to the NHS acute sector. That doesn't look the way it's currently structured in the proposals.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
11808	An individual	2a. Care for Children	It is very important to keep facilities/centres and care for children and young people in local communities.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11809	An employee of West Lothian Council	2a. Care for Children	Ned to ensure service is as close to community as possible. Integrate Health & Care services.	Care for children (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11810	An employee of West Lothian Council	2a. Care for Children	If Surestart classes are to be reduced or removed, instead of this a contribution could be asked for from people attending.	Care for children (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
11811	An employee of West Lothian Council	2a. Care for Children	Surestart have been invaluable to me during my maternity leave and supported me through post natal illness. The classes that I attended were excellent with mums travelling across the council to attend them. This is a real positive, successful group which I hope are kept in place. Having these classes and a support network available, I believe helps reduce and support mums who experience post natal illness.	Care for children (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11812	An individual	2a. Care for Children	None.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11813	An individual	2a. Care for Children	No reduction in this as child care is essential	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11814	An individual	2a. Care for Children	I do not agree with reducing the funding for the above	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

11872	An employee of West Lothian Council	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11873	An individual	2a. Care for Children	Sounds good, but what will the impact be? Again, without detail of what is proposed, how can one offer any valid comment? And what use is a consultation when one doesn't know the substance of what one is being asked to comment upon?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11874	An individual	2a. Care for Children	No particular comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11875	An employee of West Lothian Council	2a. Care for Children	This sounds ok but I wonder what it will mean in practice.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11876	An individual	2a. Care for Children	I do not have adequate knowledge to comment on this. Does the council have adequate facilities to allow children with disabilities to remain in their local community?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11877	No Response	2a. Care for Children	hfdhd	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11878	An individual	2a. Care for Children	Words like "re-shaping" and "modernising" need to be properly explained otherwise it is just meaningless twaddle.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11879	An individual	2a. Care for Children	nil	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11880	An individual	2a. Care for Children	No Comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11881	An employee of West Lothian Council	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11882	An individual	2a. Care for Children	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11883	An employee of West Lothian Council	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11884	An individual	2a. Care for Children	Cannot comment do not use these services	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11885	No Response	2a. Care for Children	Can	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11886	An employee of West Lothian Council	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11887	An individual	2a. Care for Children	Social care is a primary local authority function. I am unable to comment on such huge cuts to social care without understanding what is involved.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11888	An individual	2a. Care for Children	The wording of the proposal is logical. How that equates to a saving of £5.2 million is not clear or explained in a manner that allows a cogent response.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11889	An individual	2a. Care for Children	Suspect that these people will feel the pinch	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11890	An individual	2a. Care for Children	Not knowing what the social care budget is, a £5.2 million saving is meaningless. I would like to hope that the council supports disabled children and their families on a case by case basis. If support is not available within the local council area I would hope families could access it nearby rather than not have it at all.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11891	An individual	2a. Care for Children	no comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11892	An individual	2a. Care for Children	Unable to comment as little experience of this area.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11893	An individual	2a. Care for Children	No comments as I am not familiar with this subject.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11894	No Response	2a. Care for Children	system at present is a shambles	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11895	An individual	2a. Care for Children	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11896	An individual	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

11904	An employee of West Lothian Council	2a. Care for Children	NO COMMENT	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11905	An individual	2a. Care for Children	Insufficient information to provide informed comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11906	No Response	2a. Care for Children	.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11907	An individual	2a. Care for Children	The text does not make clear what will be given up. If this achieves better outcomes as suggested, there would seem to be nothing to object to. But then why consult?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11908	An individual	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11909	An individual	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11910	An individual	2a. Care for Children	This must be treated carefully.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11911	An individual	2a. Care for Children	Social care is a primary local authority function. I am unable to comment on such huge cuts to social care without understanding what is involved. Also how do you "modernise" a team? Without more information I would oppose any cuts in this area	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11912	An individual	2a. Care for Children	Proposal is too unspecific to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11913	An individual	2a. Care for Children	Children are the future and we all should endeavour to give them the best start to their lives	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11914	An individual	2a. Care for Children	Stop keeping children with inadequate parents where very costly support is required on an ongoing basis. Adopt not foster give those poor children a chance, their parents need to accept the consequences of the poor life choices they have made not the children and certainly not the wider community or local authority budget.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11915	No Response	2a. Care for Children	Where are you going to get that jobs for the young folk who have low intelligence?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11916	An individual	2a. Care for Children	Strange question and oddly worded. Who would say no to this? If it was so easy to save £5.2 million why hasn't it been done yet? Or should I be cynical? Is this cuts dressed up as savings? Please don't insult my intelligence.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11917	An individual	2a. Care for Children	There seems room for conflict here, and the possibility of negative press reaction.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11918	An employee of West Lothian Council	2a. Care for Children	This is a very vague statement and very hard to process how a 'saving' of 5.2 million could "create better outcomes for young people". This does not send a message that the council values the already vulnerable children within this system who have the right to be cared for with the support from the local authority.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11919	An individual	2a. Care for Children	As you can't provide the services at the moment how can you do it in the future with less money.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11920	An individual	2a. Care for Children	Don't have sufficient information to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11921	An individual	2a. Care for Children	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

11941	An individual	2a. Care for Children	Early year intervention set the standard for life	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
11942	An employee of West Lothian Council	2b. Adult and Older People Assessment	I suspect a look at the need and the personal circumstances of the customer in a more rounded fashion could be a way forward to target those that would benefit in the longer term and relieve some of the pressure on the service	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11943	An employee of West Lothian Council	2b. Adult and Older People Assessment	Need to ensure that an equality assessment does not reveal the poor and older people being disadvantaged	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11944	An employee of West Lothian Council	2b. Adult and Older People Assessment	It is my opinion the council also requires an eligibility criteria for services and make better use of local resources. Social inclusion within older people is often given out with no real reason as to what for. The use of local resources and voluntary services should be able to support this better and be more cost effective. I have personally seen this time used for care staff to sit and drink tea with an older person to no ones benefit. I feel this should be looked and redesigned or have a criteria. I also feel there should be a clearer criteria for day centre. I have been people be referred who are driving and able to access community services without statutory support but they get accepted.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11945	An employee of West Lothian Council	2b. Adult and Older People Assessment	Again my concern would be that the circumstances of those with moderate needs who would no longer receive a service would deteriorate / the level of need would then increase resulting in them having critical / substantial needs - this would also impact on carers if low / moderate needs were not met (for example weekly socialisation may mean that the carer has a period of time - possibly even a couple of hours) to allow them time for themselves but this may be crucial in them being able to continue to provide care	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11946	An individual	2b. Adult and Older People Assessment	Regular assessment is needed for those in this category. Far too many have benefited and not been reassessed when things improved	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11947	An employee of West Lothian Council	2b. Adult and Older People Assessment	I do not agree entirely with the needs based approach being a [REDACTED] I feel that some people may not get proper support that require it..	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11948	No Response	2b. Adult and Older People Assessment	If the threshold levels are to be set at critical/substantial for our Housing with Care service - we would definitely require more staff on the ground to deal with the levels or agreed third party care/support input to cover this increased threshold level.	Adult & older people - assessment criteria	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal relates to non residential care
11949	An individual	2b. Adult and Older People Assessment	Carers on outreach are already struggling to see each old person for long enough to make an impact. Someone could be 1 mark away from the threshold and be stuck on their own all day except that one hour(if that long) when someone comes to wash them.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11950	An individual	2b. Adult and Older People Assessment	You need to be considerate of adult and older people who are at risk and vulnerable to ensure that they don't fall through any nets.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11951	An individual	2b. Adult and Older People Assessment	Sounds as though Council will now only deal with most urgent cases. If you have no resources or focus on prevention or early action then you will simply face a situation where everyone becomes critical or 'substantial' case. Flippant references to what other Councils have done with no hard evidence to back this up doesn't help.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
11952	No Response	2b. Adult and Older People Assessment	Criteria shouldn't change it should be based on people's need and risk.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11953	An individual	2b. Adult and Older People Assessment	Protect free personal care for the elderly. Most canâ€™t fill in forms to be assessed on income and may delay getting care they need	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11954	An employee of West Lothian Council	2b. Adult and Older People Assessment	Would there be some sort of advisory hub for those not classified as critical/substantial who need immediate help and support?	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11955	An individual	2b. Adult and Older People Assessment	Many adults are sustained in the community with relatively small packages of care. Without this care some of these people will not cope in the community, become critical and then require larger packages of care. This will cost more in the long run.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11956	An employee of West Lothian Council	2b. Adult and Older People Assessment	As has been previously stated, whilst means tested payments for elderly care services would appear to be good, by moving forward with these proposals the Council will be actively discriminating against those people, and their families, that have, on the whole, paid all their lives, worked hard and managed their money wisely	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11957	No Response	2b. Adult and Older People Assessment	Substantial/ critical seems to me to be subjective, and could be left to one person's interpretation of a situation. This would have to be overseen by management, and allow a right to appeal in the case of a poor decision by an individual worker. Otherwise, mistakes will be made.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11958	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agree with the eligibility changes. However, there is a danger that this will lead to more crisis intervention as we do not manage any preventative work.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11959	An individual	2b. Adult and Older People Assessment	The current approach is poor and any change to "raise the bar" which may exclude those who are not deemed "critical/substantial" is short sighted and may result in those not currently in this bracket quickly reaching it because of the lack of early intervention to maintain their mental and physical wellbeing and independence.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

11960	No Response	2b. Adult and Older People Assessment	Staffing level reduction meant my mother who has mixed dementia waiting 9 months for a occ health assessment thus causing harm to health. Your new model does not reflect the Scottish Governments stance on care for the elderly	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11961	An individual	2b. Adult and Older People Assessment	Itâ€™s usually those who are more in the know of what they can get, who get what they want. Those who make the most noise and are more able to demand help than those who actually need it. Again I think there should be a layered rather than tiered system of support. Where priority is given to those most in need in EACH layer. Rather than only the top layerâ€™s needs met and leaving the majority to suffer in silence.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11962	An employee of West Lothian Council	2b. Adult and Older People Assessment	I understand that savings need to be made but for many elderly people these services are vital both for them and their carers this needs to be taken in to account before the bar to access these services is raised to high and people start to slip through the net.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
11963	An individual	2b. Adult and Older People Assessment	old people that have worked all their lives deserve to be looked after ,not a ten minute visit	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
11964	No Response	2b. Adult and Older People Assessment	Does the assessment criteria take into account adults supporting those in need of care services?	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11965	An individual	2b. Adult and Older People Assessment	Like the supporting at home when able, but have to balance with those who canâ€™t cope at home, will they be supported or strong armed to keep at home	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11966	No Response	2b. Adult and Older People Assessment	Most vulnerable section of society, having contributed to society all of their working lives to be denied appropriate care when they are not in a position to defend their rights for this is against all natural justice.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11967	An individual	2b. Adult and Older People Assessment	Care should reflect the input of the individual as well as their needs. If a local resident who has contributed to the community for decades needs help, they should be at the front of any queue. End of. Lifestyle should be the next factor - those who chose a life of obesity, alcohol, tobacco or other drug dependency's (despite decades of being bombarded with information about the long term effects to their wellbeing) should be at the back of the queue. Reap what you sow - don't expect others to pick up the pieces.	Adult & older people - assessment criteria	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
11968	An individual	2b. Adult and Older People Assessment	Care should reflect the input of the individual as well as their needs. If a local resident who has contributed to the community for decades needs help, they should be at the front of any queue. End of. Lifestyle should be the next factor - those who chose a life of obesity, alcohol, tobacco or other drug dependency's (despite decades of being bombarded with information about the long term effects to their wellbeing) should be at the back of the queue. Reap what you sow - don't expect others to pick up the pieces.	Adult & older people - assessment criteria	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
11969	No Response	2b. Adult and Older People Assessment	I believe that some services should be means tested. There are many elderly people who are more that able to afford to pay for aids and adaptations to their homes. I know this from my own experience of caring for three disabled adults for 15 years in total. My parents were in a position to pay for adaptations (wet room, stair lift.etc) to their home and did so privately.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
11970	No Response	2b. Adult and Older People Assessment	It is absolutely abhorrent to even think of reducing these already over stretched, under funded services. These people have put a lot into our society. They deserve care and dignity at the very least. They should not need to wait until their situation hits a critical level of stress and strain. I am totally disgusted at the proposals of these cuts and to children's services!	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11971	An employee of West Lothian Council	2b. Adult and Older People Assessment	However we must not lose sight of the need to apply preventative practise. Low/medium priority can escalate to critical/substantial if left unmet. Self management should be promoted wherever possible.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11972	No Response	2b. Adult and Older People Assessment	If this relates to developing new then I would suggest that changing the goal posts to 're-categorise' people is not in their best interest to support needs of individuals. I feel quite strongly that we can save money in other areas than to reduce care provided, through changing the assessment criteria. It costs more in the long term when reducing preventative and supportive care than to, for example, support the provision of care in care homes. We have many opportunities to provide preventative care that will essentially reduce the long term costs associated with assessing people out of criteria.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign

11973	An employee of West Lothian Council	2b. Adult and Older People Assessment	Looking at the size of the saving to be made from this one particular proposal is extremely worrying... How can we be sure that vulnerable people won't be slipping through the net by changing the assessment criteria so drastically?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11974	No Response	2b. Adult and Older People Assessment	Critical is to far, support should be made available at an early stage to help prevent problems from increasing. Perhaps saving can be achieved via the assessment process.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
11975	An individual	2b. Adult and Older People Assessment	Same answer as above. Yes the priority needs to be based on peoples needs, but that doesn't give the council the right to ignore other cases either. All are important and provision needs to be made to help all who might be in need of the service.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11976	An individual	2b. Adult and Older People Assessment	If thresholds for access to care are set at critical/substantial, potential clients who need some care may reach critical levels sooner than they would otherwise have done. E.g. informal carers of elderly persons denied access to respite may reach breaking point sooner rather than later resulting in a need for residential care. There needs to be some flexibility here.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11977	No Response	2b. Adult and Older People Assessment	Council must provide staff for early intervention to avoid clients moving to Critical/Substantial level.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11978	An individual	2b. Adult and Older People Assessment	I understand the need to ensure money is saved in this area but increasing the level to critial for new care is a very poor way of doing this. Having seen members of my own family go through the "assessment" process I believe that it is not well tested as it is. Having an assessor spend part of a day with a family then grading them just does not work & raising the level when people would recieve support would place a huge burden on families and the older generation.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
11979	An individual	2b. Adult and Older People Assessment	People should not have to be classed as being in a critical/substantial state to get support. Everyone should get the support they need when they say they need it. If someone feels they need a certain type of support, it should not be an assessment criteria that determines if they get it.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11980	An individual	2b. Adult and Older People Assessment	I fundamentally disagree with this approach, early low cost interventions save money and reduce the risk of significant issues becoming more accrue. Given the integrated care models being developed this seems very short sited, i am concerned short term savings in this area will lead to high medium term costs.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11982	An individual	2b. Adult and Older People Assessment	Which representative of the council will be assessing how much care is necessary for someone?	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Assessments are undertaken by social work professional staff.
11983	An individual	2b. Adult and Older People Assessment	I agree that assessment criteria may need to be reviewed in order to identify the most needy cases. It is important however to ensure that the process for requesting assistance remains straightforward and takes into account that the elderly in particular may not have the access to technology that most people now have.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
11984	An individual	2b. Adult and Older People Assessment	2b I support the general idea of a clearer eligibility criteria stance -it's more honest . S12 of the Social Work (Scotland) Act 1968 still contains a duty to provide advice and assistance so how are you going to provide preventative advice and guidance for adults? Some of the oldest and most disabled are not IT savvy or even physically or mentally able to choose digital route. In terms of IJB working effectively- how might health centres be used to run advice and guidance clinics? Can the front-line practitioner and manager relationships across NHS and WLC local areas be improved by regular face to face contact that can often be used to flag up people who are vulnerable and at risk at harm but not engaged with social care services? I am slightly concerned that social work is only mentioned in relation to children. Adult social care can be just as complex. Adult with incapacity, mental health, adult support and protection legislation all need skilled and suitable qualified workers if powers and duties are to met well. SDS is also complex- please don't underestimate the skill and creativeness this might at times require.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
11985	An individual	2b. Adult and Older People Assessment	This must be made as individual as possible. Do not blanket conditions and tar all those with that with the one brush. Each person must be assessed and seen as an individual case.	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
11986	An individual	2b. Adult and Older People Assessment	I think this is a very dangerous proposal that could potentially create more critical/substantial cases rather than having the opportunities for early intervention and pro-active social work for individuals. I would be concerned that the council is stripping funds from the most vulnerable individuals in society and that these measures would place people at a greater risk of harm under adult support and protections.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11987	An employee of West Lothian Council	2b. Adult and Older People Assessment	Support should be fair for all criteria regardless of the needs assessed. A small change/adaptation for someone can make a big impact on their wellbeing and it would be concerning not to provide equivalent actions for all.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11988	An individual	2b. Adult and Older People Assessment	This seems fraught with risk, even without detail of what the end result might look like. This sounds like simply tightening the screws and limiting support to vulnerable people.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
11989	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agree. Clients should also be charged for care if they are under 65 as in most other councils.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11990	An individual	2b. Adult and Older People Assessment	Why is it only set for new recipients of care and not everyone this seems slightly unfair. Generally I am very concerned by an eligibility move to critical. It is shameful that someone would have to get to the point of being in critical need before they can access the support they require. I think it is unsafe.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
11991	An individual	2b. Adult and Older People Assessment	Means test everyone	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
11992	No Response	2b. Adult and Older People Assessment	Again, this reads like the council is proposing to react to crisis points rather than supporting people at an earlier stage of need..short term gain in cutting money spent, but long term pain in cutting support.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11993	An individual	2b. Adult and Older People Assessment	Savings of £8.8 million; what is the current budget before cutting? 'criteria with access to care based on people's needs and risks to independence'; is this not done already?	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. The proposal is to set the level where care is provided to only the most vulnerable.
11994	An individual	2b. Adult and Older People Assessment	Based on my experience (not with WLC) these services are very difficult to access already; reducing their scope is likely to leave vulnerable people in distress, and possibly in hospital, thereby simply shifting the care burden.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
11995	An individual	2b. Adult and Older People Assessment	As long as there no risk to the people requiring to be cared for.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
11996	An individual	2b. Adult and Older People Assessment	So is this a case of lets shaft the weak and vulnerable in our society,who would care for the people not on your critical/substantial list ??	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11997	An employee of West Lothian Council	2b. Adult and Older People Assessment	All should be assessed and treated fairly.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
11998	An individual	2b. Adult and Older People Assessment	This will not be a very caring council if this proceeds, people that are not critical may not be able to afford any assistance as the assessment is not financial, although they have contributed all there working life's.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
11999	An employee of West Lothian Council	2b. Adult and Older People Assessment	This makes sense as the budget provided to WLC only really allows for help to those in critical/substantial threshold levels. This however will probably put a greater strain on the NHS but i do not have a solution to this.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12000	An employee of West Lothian Council	2b. Adult and Older People Assessment	Not unexpected, however this has the potential increase stress for ground level staff who will be advising members of the public that services/adaptations will not be provided where the person has not been assessed as in critical /substantial need and such clients are 'very unhappy' with the decision made.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Any changes to services will require to fully consider the impact on staff
12001	An employee of West Lothian Council	2b. Adult and Older People Assessment	Consider means testing access to care.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12002	An individual	2b. Adult and Older People Assessment	i don't fully agree but it could work if pulled off correctly in which you could provide short but regular care visits and not have to rely on tech to check if someone with needs is okay and i wouldn't judge the importance of them getting help on wither or not they are in really bad condition they may be not as bad as other seeking care but maybe less independent	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12003	An individual	2b. Adult and Older People Assessment	These are People with needs and should not have to be at critical level to be supported.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12004	An employee of West Lothian Council	2b. Adult and Older People Assessment	concerned over what would be classed as 'critical' and who decides who meets the criteria?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12005	An individual	2b. Adult and Older People Assessment	Great care would need to be taken not to reduce the standard of care at home with with reduction in those deemed eligible for support.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12006	An individual	2b. Adult and Older People Assessment	Again if the most needy are targeted I think there will be a lot who still have needs who might be over looked.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12007	An individual	2b. Adult and Older People Assessment	In assessing older people I am very concerned at the proposal to reset the threshold level at critical before intervention is entertained.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12008	An individual	2b. Adult and Older People Assessment	The council should consider means testing the provision of these services.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12009	An employee of West Lothian Council	2b. Adult and Older People Assessment	This should be measured on an ongoing basis - risk that elderly population could suffer significantly	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12010	No Response	2b. Adult and Older People Assessment	Do not like this form of means testing for our older people in West Lothian to receive care.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12011	An employee of West Lothian Council	2b. Adult and Older People Assessment	It would be awful for people who were struggling to have little or no care just because they weren't 'struggling enough'.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12012	An employee of West Lothian Council	2b. Adult and Older People Assessment	I think that the threshold should be more than critical as needs may not always been noticed/picked up on first visit and money should be invested in the care of those in need.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12013	An employee of West Lothian Council	2b. Adult and Older People Assessment	Who decides who is 'most in need'? Some people may not seem as critical however, having a visit may be the only person they see all week.	Adult & older people - assessment criteria	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12014	An individual	2b. Adult and Older People Assessment	I feel this is the wrong approach, I speak with experience in this area. We should be doing more to help families before the situation becomes 'critical' as this results in mental health issues for carers and the people needing support. This then puts pressure on the NHS and will result in more costs in the long run.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12015	An individual	2b. Adult and Older People Assessment	Care of elderly is critical with an ageing population. Their health and mental wellbeing must not be compromised.	Adult & older people - assessment criteria	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12016	An individual	2b. Adult and Older People Assessment	This is ludicrous. You are proposing making elderly people wait till they reach a crisis, fall or put themselves at risk with dementia, for input that given earlier would keep people independent, and reduce demand on GPs and hospital services. Ultimately you will be increasing carer stress and health costs - Â£12000 for each hip fracture you allow to happen by not intervening sooner. This is saving your budget at the expense of our elderly people their unpaid family carers and the health service. Think again!!!	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12017	No Response	2b. Adult and Older People Assessment	I think reducing the threshold levels to critical/substantial could result on vulnerable people not receiving the care and assistance that they require. I believe we have a duty to provide services for these people who may not be able to find the help elsewhere.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12018	An employee of West Lothian Council	2b. Adult and Older People Assessment	Investigation needs to be carried out to 'weed out' people who are falsely using these council services when they may not actually require it. Altering the initial assessment criteria should prevent timewasters or 'people who are at it' taking resources from people who actually need it.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12019	An individual	2b. Adult and Older People Assessment	Provision of equipment and care services must be means tested.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12020	An employee of West Lothian Council	2b. Adult and Older People Assessment	more means tested assistance would not be bad as some pensioners are better off than working aged residents	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12021	An individual	2b. Adult and Older People Assessment	This proposal does not make any sense - it reads to me that our elderly and some of the most vulnerable members of society will have an added stress of meeting a criteria based on finances! Who decided what substantiates 'critical/substantial' and what happens to those not deemed within the criteria - does this add a further pressure on them or their families. An absolutely abhorrent consideration.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12022	An individual	2b. Adult and Older People Assessment	Again pressure is on staff with regard to assessments and allocating need.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
12023	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Focus should be on prevention and early intervention alongside partners. Leaving things to the critical stage results in much higher costs for interventions.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12024	No Response	2b. Adult and Older People Assessment	Those below this level will be left alone and vulnerable- is that how you would like to feel?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12025	An employee of West Lothian Council	2b. Adult and Older People Assessment	If a person does not have critical or substantial needs why are they even receiving care? The criteria would need to be clear.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12026	An individual	2b. Adult and Older People Assessment	I am concerned that lack of provision of social care for those falling below the 'critical' level will result in greater pressures on health care.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12027	An individual	2b. Adult and Older People Assessment	Need to be very careful this does not mean more people developing more complex needs, which cost more, as not addressed early	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12028	An individual	2b. Adult and Older People Assessment	Feel unfair if thresholds for all are not reset. Agree with proposal.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

12029	An employee of West Lothian Council	2b. Adult and Older People Assessment	I think that needs based care is only good sense in order to direct resources effectively.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12030	An individual	2b. Adult and Older People Assessment	That is fine but will the Adults who are not willing to work get everything for free as they do now and the people who are willing to work and need help be penalised ?	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12031	An employee of West Lothian Council	2b. Adult and Older People Assessment	This proposal could impact quite severley as this area is growing rapidly & people not meeting the new threshold levels could feel very vungerable & isolated	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12032	An individual	2b. Adult and Older People Assessment	Independent living should be supported. Happy to support most needy at all times	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12033	An employee of West Lothian Council	2b. Adult and Older People Assessment	Will the Council monitor whether a person turned down for support as their needs are not classed as critical/substantial, later ends up needing this support as they did not receive less expensive support at a lower level? (prevention rather than cure).	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12034	An individual	2b. Adult and Older People Assessment	Can care packages more closely reflect need, my experience with elderly parents is that care needs can fluctuate and they go through periods of ill health when more care is needed, then a period where they can live independently. Fixed care packages are expensive, can they be reviewed on a fortnightly basis? Or can care be provided on alternate days for showering etc?	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12035	An individual	2b. Adult and Older People Assessment	As the population ages this will become even more important. Early intervention and health support should in theory help allow people to life longer in their own homes before the need for expensive residential care is required .	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12036	An individual	2b. Adult and Older People Assessment	I agree that savings need to be made, but find it awful that people who have paid into the system all their lives may find their care requirements falling short of what they were led to expect. The impact on working families is also huge, where people have to juggle work and looking after an ageing relative	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12037	An employee of West Lothian Council	2b. Adult and Older People Assessment	If care in the home is the way forward, education for the carer/family should be given as to how to support their elderly family member.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12038	An individual	2b. Adult and Older People Assessment	Again it will put pressure on the assessment process and might lead to people being overlooked.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12039	An employee of West Lothian Council	2b. Adult and Older People Assessment	HAVE HAD PERSONAL EXPERIENCE OF THIS - AND BASICALLY WHEN AN ELDERLY RELATIVE IS DISCHARGED FROM HOSPITAL THE AUTHORITIES PROMISE YOU THE MOON - THEN WITHIN SIX WEEKS - THE FAMILY ARE LEFT TO THEIR OWN DEVICES	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
12040	An employee of West Lothian Council	2b. Adult and Older People Assessment	Adult and social care are important areas in social care providing care for the elderly, who cannot be supported at home, as there are more elderly who are now frail and needing 24 hour care, and who are deemed vulnerable in there own environment, and at high risk without the care home package	Adult & older people - assessment criteria	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12041	An individual	2b. Adult and Older People Assessment	Agreed - however as this is an area of vital importance to the actual people involved, there must be clear path of appeal rather than just a refusal to consider anyone deemed not to have critical/substantial needs.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12042	An employee of West Lothian Council	2b. Adult and Older People Assessment	I think a creative look at provision and services for older people needs to be adopted. Can services like free bus passes/rail travel be means tested? There are a large number of retired people who do not need to have this as they can afford to fund this themselves.	Adult & older people - assessment criteria	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12043	An employee of West Lothian Council	2b. Adult and Older People Assessment	I DO NOT AGREE WITH CHANGING THE ASSESMENT CRITERIA.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

12044	An employee of West Lothian Council	2b. Adult and Older People Assessment	I DO NOT agree with setting the assessment criteria threshold levels to CRITICAL - this is madness!!!! Why wait until things become critical before the support is offered? Unless you're looking to reduce the population in West Lothian through death....	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12045	An individual	2b. Adult and Older People Assessment	I believe it would be false economy to only consider adults for assistance when the critical threshold is reached. It has been shown that economic savings can be gained from early intervention. There is also the personal cost to an individual on a physical and psychological level should they sustain an injury or come to harm with resultant knock on effects to health care costs and bed blocking situations. Further, I do not believe that it would be morally right to change the guidelines for intervention and would also be in direct conflict with many health and social care professionals' code of conduct.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12046	An individual	2b. Adult and Older People Assessment	There should be early interventions to prevent people from reaching critical/substantial levels. I believe that the focus should be at this stage, not when it has reached critical level and is too late.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12047	An individual	2b. Adult and Older People Assessment	This needs to be considered very carefully, and still treated as priority as needs of elderly people are increasing and need proper access to care.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12048	An individual	2b. Adult and Older People Assessment	If pay enhancements and allowances are cut and the level changes to critical for the elderly care then we will have fewer staff willing to stay in the care sector and less people wanting to work in the care sector, which will cause a lot of problems in the long term.	Adult & older people - assessment criteria	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12049	An individual	2b. Adult and Older People Assessment	I feel as though this is an important part of the community however it may mean vulnerable people could fall through the gaps and not the the right amount of help they need	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12050	An individual	2b. Adult and Older People Assessment	Are people who do not meet these criteria to be left with no help or support? Surely more people will end up in a crisis without support, particularly if staff are cut.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12051	An individual	2b. Adult and Older People Assessment	Assessment criteria should be comparable to other local authorities and be clear to people requiring to access them.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12052	An individual	2b. Adult and Older People Assessment	Some assessment criteria's can be unfair and dependant on how good your council representative is. If you have a diagnosis or a doctor letter stating that people need this service then it should be given. That's what we all pay our taxes for.	Adult & older people - assessment criteria	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12053	An individual	2b. Adult and Older People Assessment	More elderly will be neglected & they too will 'slip under the radar'.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12054	No Response	2b. Adult and Older People Assessment	This might work if the assessments are done within a week of referral and staff visiting homes are allowed time to travel between clients.	Adult & older people - assessment criteria	4. The council is already doing this.	Thank you for your response. Your comment has been noted
12055	An individual	2b. Adult and Older People Assessment	Those with greatest need need to receive more intense support, also what supplant family do to lessen the financial burden to budget as this care offered can be declined by some despite it being paid for	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12056	An individual	2b. Adult and Older People Assessment	Independence in older people is paramount and I believe more emphasis should be placed on this area. Assessing the level of care required is as much social as physical	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12057	An individual	2b. Adult and Older People Assessment	There is already a huge pressure on the system. Estimated savings versus risk of serious harm due to lack of support must be considered. I recently experienced a delay in an assessment for a relative, and this has caused serious angst for lots of people within her housing development.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12058	An individual	2b. Adult and Older People Assessment	This sounds like that there would only be provision at a crisis level, when it is probably too late, don't agree with that.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12059	An employee of West Lothian Council	2b. Adult and Older People Assessment	This will mean carers and families will be under even more pressure and services will be more difficult to access. As a child with ASN, older parents and an aunt with dementia it causes severe and unnecessary difficulties waiting on assessments, decisions.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

12060	An employee of West Lothian Council	2b. Adult and Older People Assessment	Crisis intervention instead of early intervention and prevention has been proven over and over again to be far more expensive. The IJB should start to come up with some proposals for delivering more effective and streamlined services	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12061	An employee of West Lothian Council	2b. Adult and Older People Assessment	Because of the huge rise in demand it is essential to review the assessment criteria and I support the proposed move to critical / substantial.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12062	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	We would however like to raise our concerns that the criteria for the involvement of Councils teams is proposed to be increased from its current level. We are concerned that increasing the criteria for service access has a negative effect on long term outcomes. We would request that any changes to the criteria for service provision, or service redesign is subject to an Equality Impact Assessment and a review considering the GIRFEC principles and that these are published.	Adult & older people - assessment criteria	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12063	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	We would however like to raise our concerns that the criteria for receiving services is increased from its current levels to "critical/substantial". We believe that this will not make budget savings, but will move the costs to other service providers, families and the NHS. Health and welfare care recognises the need for early intervention to prevent problems escalating and the pain these cause individuals and families, and the pressures they put on services. We would like to see Equality Impact Assessments being integrated to system and service changes which may impact directly with the groups that these cover.	Adult & older people - assessment criteria	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12064	An individual	2b. Adult and Older People Assessment	My son has a service provided by the Inclusion Team based at Lister Road, Livingston which he attends five days a week. He depends on this Team for both his physical and mental wellbeing. He goes swimming, takes part in gym activities such as weight lifting, running machine, cycling machine etc. Because of his disability which affects balance and co-ordination, there is no way he could do any of these things otherwise. He is taken out into the community and is taught the skills needed to cross the road, to buy items in a shop, handle money, self-travel, use a bank etc. None of these taught skills however can be regarded as secure in his case because his retention even at the simplest level cannot be relied on. He has severe cognitive and physical deficits; and he will never improve, but only deteriorate progressively. Even so, because he needs these skills they have to be continually stressed and re-taught. The teaching is ongoing. In this light, it should be noted that nevertheless he has been assessed many times over the years; which is both very stressful for me and at the same time a completely pointless and no doubt expensive exercise. Any change in the service criteria, now or in the future, is not going to diminish any of my son's needs.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12065	An employee of West Lothian Council	2b. Adult and Older People Assessment	Why should the thresholds only be on new clients? Surely if a threshold is introduced to assist people it should be across the board regardless or at least those already receiving care should be asked to contribute a percentage if they fall within the new categories.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12066	An individual	2b. Adult and Older People Assessment	Agree with focusing on those with the greatest need. We cannot afford universal care.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12067	An individual	2b. Adult and Older People Assessment	If the threshold levels are reset at critical / substantial, then more and more people will require to access services at this level as this is fire fighting. People require support early on in order to prevent them becoming critical. Early intervention will prove much more cost effective, with more people being cared for in their own homes.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12068	An individual	2b. Adult and Older People Assessment	This should be implemented but must be handled sensitively. Take on board that people with life long disabilities or illness need not be constantly reassessed - they will not ever get better.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12069	An individual	2b. Adult and Older People Assessment	This area should be protected. Older people who require assistance and services should not have to worry that they will not be available to them.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

12070	An individual	2b. Adult and Older People Assessment	I am very concerned about the proposed threshold levels on both people requiring support and unpaid Carers who provide that support. It is very disappointing to see the reasoning that other councils have already done this so we will too. I have witnessed this in other areas through my work capacity and it has a very negative impact on people's lives and puts huge strain on unpaid Carers. I think it is important to note that in terms of their human rights it is quite shocking to say that people in need, but not in most Need will not get any service. It is also very poor to consult using these vague terms without detail of what that actually means. Reading the limited amount of information provided in this consultation I am deeply concerned that for families like mine. In our family both parents currently work 28 and 30 hours per week, one parent has a high level of disability, the other provides 35++ hours per week of care with no Carers allowance and no council support. We have had to fight for pieces of equipment in the past and have to pay large amounts to maintain them now (such as ceiling hoist). It is likely that the parent with a disability will not be working in the next 3-5 years and I believe by this consultation would not get services to meet their needs at home during the day, so we are likely as a family to be pushed into poverty and lose our home. The effects of the future already have a negative effect on our health and well-being but this is exacerbated by the cuts proposed to Council services which should be there to support families like ours now, but it looks increasingly unlikely they will be there in the future even when our needs increase.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12071	An individual	2b. Adult and Older People Assessment	How does critical / substantial relate to other local authorities. If people are left getting a service they don't need, stop it.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12072	An employee of West Lothian Council	2b. Adult and Older People Assessment	It would be a better to have all local authorities were using the same assessment criteria. If older people have any relatives, friends etc. more emphasis could be placed here to help assist, rather than all services being placed on the Council.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12073	An individual	2b. Adult and Older People Assessment	It very much sounds like the assessment criteria has been modified (made more stringent) in order to suit and estimated saving in budget required.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12074	An employee of West Lothian Council	2b. Adult and Older People Assessment	From a hospital discharge point of view, not funding moderate or low risk eligibility criteria clients may move further away from objective of early and minimal intervention and could result in increase to hospital admissions. Still more work required to promote the default position that an outcome can only be met by a paid service.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12075	An individual	2b. Adult and Older People Assessment	I understand the need to focus on critical and substantial need, however a focus on early intervention would enable many of these needs to be addressed and alleviated for a larger number of people with the same resource, reducing the requirement for more acute services for a smaller number of people in the future.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12076	An employee of West Lothian Council	2b. Adult and Older People Assessment	I do agree with this, we should be assessing them and only dealing with the highly vulnerable. Other clients that do not fall under the category should potentially be looking into private care.	Adult & older people - assessment criteria	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12077	An individual	2b. Adult and Older People Assessment	This sounds quite contradictory - to me the more we do to address the moderate needs may prevent more of the critical needs emerging. A lot of people can stay in their own home with a little support - with no or very limited support things escalate to critical quite quickly for more people. It could be a false saving.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12078	An individual	2b. Adult and Older People Assessment	I agree that for some people 4 visits a day is ridiculous and if it's cheaper to put them in a care home they should be regardless of if they want to stay at home	Adult & older people - assessment criteria	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
12079	An employee of West Lothian Council	2b. Adult and Older People Assessment	The proposal to set eligibility criteria at critical/substantial and, therefore, to cease formal support to people with moderate needs is in direct conflict with the Council's / JJB's stated aim of focusing on early intervention and prevention in order to defer or reduce greater expenditure - how will this be managed and how will strategic plans be amended to reflect this change of approach? Research shows that technology can effectively support the delivery of care at home but cannot routinely replace or provide an alternative to it - what is the basis for estimated savings linked to technology and how is it proposed to use technology in this area?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

12080	An individual	2b. Adult and Older People Assessment	I agree there are more elderly people needing care. However, from my own experience setting the threshold level at critical/substantial is too high. Many of the carers looking after elderly, what ever their needs, need respite in order to carry on the unpaid work that they do for the council. When careres reach pension age their care allowance is stopped. There is no other support financially for them, they are unpaid workers saving the council millions in care costs. There is very little respite care in west lothian at present and it has to be booked so far in advance. Could this be reviewed in their favour. Carers need to have breaks from their 24/7 days. It will be interesting know technology will support care at home.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12081	An individual	2b. Adult and Older People Assessment	Setting the levels of care at critical/substantial for all new clients, is a disgrace. I am sure there will be many people who need your help left in despair. A rise in this year's Council Tax would have helped this situation.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12082	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	We are very concerned at the proposal to reset the threshold level at critical before intervention is entertained. This appears a cruel cut.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12083	An individual	2b. Adult and Older People Assessment	Close scrutiny needs to be made as to the criteria to be used. What do "critical" or "substantial" actually mean? Who undertakes the assessment? How involved is the family/person being assessed?	Adult & older people - assessment criteria	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly - family can be involved in the assessment if the person allows this
12084	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	We are also concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention being required. How does Council plan to assess the potential impact of this on people and budgets?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12085	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the Improving the Quality of Life for Older People priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12086	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the Improving the Quality of Life for Older People priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12087	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the Improving the Quality of Life for Older People priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12088	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the Improving the Quality of Life for Older People priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12089	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the Improving the Quality of Life for Older People priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12090	An individual	2b. Adult and Older People Assessment	How does introducing an eligibility criteria for Social Care meet the improving the quality of life for older people priority?	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12091	An individual	2b. Adult and Older People Assessment	Unsure how this would work in practice. We need more staff to help those most in need often and individual requires more care initially then reduced as time goes on. Unsure changing the assessment criteria would resolve and ever increasing elderly population who unfortunately are not elderly and will but elderly and ill. I would suggest this elderly and well but elderly and ill. I would suggest this need more consideration.	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

12092	An individual	2b. Adult and Older People Assessment	I think that improved partnership working and communication, could reduce any duplication of works in order to make savings.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
12093	No Response	2b. Adult and Older People Assessment	Better partnership working with third sector organisations and community groups to provide services.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12094	An individual	2b. Adult and Older People Assessment	How you go about setting the criteria will need to be carefully considered as putting more financial strain on people and their families may have a serious knock on effect with people becoming more critically unwell and then needing permanent and long term care. It would be sensible to apply some of these approaches to health care provision as well i.e. where able (not on benefits/pension or with a long term condition etc.) people paying a nominal amount for their prescriptions.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12095	An individual	2b. Adult and Older People Assessment	Whilst I agree in principal that there needs to be more done to address people getting free services/adaptions etc and taking this provision for granted.	Adult & older people - assessment criteria	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12096	An individual	2b. Adult and Older People Assessment	Financial assessments increase bureaucracy and cost. It would be preferable to leave non-residential care services universally free,	Adult & older people - assessment criteria	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12097	No Response	2b. Adult and Older People Assessment	I support the use of technology to support care at home provision e.g. reminders for medication rather than a staff member having to visit for this purpose.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12098	An employee of West Lothian Council	2b. Adult and Older People Assessment	needs to be better integration with technology and insurance that the service its replaces is robust enough to serve those most in need. Also training of the elderly to use more technology needs to happen before the switch in service?	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12099	No Response	2b. Adult and Older People Assessment	Technology works when the client is able to understand it's reason for being there and when they should use it. Expanding technology in an environment e.g. someone living with dementia - they may have all the technology but a) not understand it's reason for being there or b) may have difficulty in allocating someone to respond to it's activation.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12100	No Response	2b. Adult and Older People Assessment	I have doubts about the use of technology so I would suggest careful consideration of this would be required	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate
12101	An individual	2b. Adult and Older People Assessment	Technology, seriously? Start by improving facilities and quality of Social Workers	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
12102	An individual	2b. Adult and Older People Assessment	It is disgusting that our most vulnerable are targeted most. Many elderly people have paid their taxes all their life but can't get the support when they need it now. Many elderly and vulnerable adults are unable to access technology to support their care at home. Shocking!	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12103	An individual	2b. Adult and Older People Assessment	great idea but technology cant be used as man power but we use it in housing with care and its a big part of that function	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12104	An individual	2b. Adult and Older People Assessment	The current process of assessment at the council needs a complete overhaul - huge savings could be made if better use of technology and sharing of information became more uniform.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12105	An individual	2b. Adult and Older People Assessment	Technology is great but I still would say that people would prefer to see a person face to face.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12106	An individual	2b. Adult and Older People Assessment	Technology is no use to many elderly as they can't use it, e.g. dementia sufferers	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12107	An individual	2b. Adult and Older People Assessment	Technology to support home care is a good asset however can not replace the face to face contact many older people need.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12108	An individual	2b. Adult and Older People Assessment	I receive care at home through carers. If I am interrupting this correctly I for one would not welcome more technology to support care at home	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12109	An individual	2b. Adult and Older People Assessment	There needs to be better links within WLC due to the fact that if there are going to be budget cuts for aids and adaptations for older people and people with disabilities then a referral should be made to assist with applying for disability benefits to allow the person to purchase their aids to allow them to remain independent at home.	Adult & older people - new technology	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. People are always encouraged to get a benefits check undertaken where applicable.
12110	No Response	2b. Adult and Older People Assessment	I don't support the use of technology at home if it means reducing personal human contact for the individual as this will increase the already gargantuan problem of loneliness and depression in the elderly and disabled, particularly those who are unable to access external companionship services.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. 12111	No Response	2b. Adult and Older People Assessment	Social services are evidently struggling to meet all needs just now, additional technology is not going to replace this vital service.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12112	An individual	2b. Adult and Older People Assessment	It needs more hands on support rather than technology	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12113	An employee of West Lothian Council	2b. Adult and Older People Assessment	Secondly, the use of technology across the council comes as a natural progression however I'm concerned that this will not support older people as effectively - some may even be put off asking for help if it seems overly complicated or difficult to understand.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12114	An individual	2b. Adult and Older People Assessment	Technology is only good if there is a robust and reliable maintenance/monitoring process put in place - my experience with my father was that this was poor.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12115	An individual	2b. Adult and Older People Assessment	Agree - need to see where technology can help both control cost and improve peoples lives (especially independence)	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12116	An employee of West Lothian Council	2b. Adult and Older People Assessment	Love the idea of use of technology. I feel social housing for older people will be the best way to ensure support and care.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12117	An individual	2b. Adult and Older People Assessment	But why not provide families that do look after elderly parents with a tax respite or something to ease the burden so that less outside care is needed. Personal experience. One of my employees visits her mum before and after work to check all ok. Cameras to monitor support worker effectiveness would be ideal if it didn't infringe human rights...as the majority of lone workers will get lazy. It's a fact if no one is monitoring performance then it drops.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12118	An individual	2b. Adult and Older People Assessment	using technology is the future but not for critical clients who need to see a person.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12119	An individual	2b. Adult and Older People Assessment	If technology is going to be used to supplement this then it needs to be well maintained, up-to-date, fit for purpose and secure. Many of the older generation are not comfortable with technology and require a different approach	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12120	An individual	2b. Adult and Older People Assessment	If technology is going to be used to supplement this then it needs to be well maintained, up-to-date, fit for purpose and secure. Many of the older generation are not comfortable with technology and require a different approach	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12121	No Response	2b. Adult and Older People Assessment	Again technology needs to be fit for purpose and many of the elderly population are not comfortable with its use. This encourages older people to spend their income to ensure they are not eligible for the costs.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12122	An individual	2b. Adult and Older People Assessment	Concerns around the use of technology to support home care. This usually applies to the elderly and care has to be taken to ensure effectiveness.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12123	An individual	2b. Adult and Older People Assessment	How many older people have access to technology? Sounds like many more older people will not be receiving the vital care they need when many already don't.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12124	An individual	2b. Adult and Older People Assessment	I feel a assessed contributions to care system should be introduced. The Government need to scrap free prescriptions for all an return to the previous system where those entitled to some assistance for prescriptions received this. A family member I knew paid a one off payment of around £70 at the time as they required a lot of medication and this was acceptable to them. The money lost in people ordering prescriptions that are never used or cheaper to purchase in the shop than through free prescriptions could be put to better use to support older people.	Adult & older people - new technology	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12125	An individual	2b. Adult and Older People Assessment	Interesting that you have grouped "Adults" and "Older people" together, without saying that the Adults will be adults with disabilities, and that the proposal is to make the largest savings at the expense of disabled people. Is this a way of trying to disguise that the largest single saving you hope to make is by cutting services to the most vulnerable? I don't like the sound of "...expand on the successful use of technology to support care at home provision" If by this you mean replacing human contact and human decision making with machinery and technology, this should NOT be done in a caring society. People need to interact with other people regularly.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12126	An individual	2b. Adult and Older People Assessment	Technology is only a tool that can help care for elderly at home. More support, people and services are needed in order to reduce numbers needing to go into care. Also, more information on how to access support is needed as at present I'm not sure how readily this is known.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
12127	An employee of West Lothian Council	2b. Adult and Older People Assessment	Older people struggle with technology! This would mean families would need to care more for their elderly members.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12128	An employee of West Lothian Council	2b. Adult and Older People Assessment	I don't know what technology could replace a home visit to an elderly resident. Often a home visit by Council care staff is the only contact an elderly person will have; it would be a mistake to reduce this service.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12129	No Response	2b. Adult and Older People Assessment	Use of technology is a good idea however many older people are scared of technology and this may be a false economy.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12130	No Response	2b. Adult and Older People Assessment	Technology is great but human contact is essential.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12131	An employee of West Lothian Council	2b. Adult and Older People Assessment	Technology that allows simple face to face contact remotely would be advantageous. We need to use for a variety of services.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

12132	An individual	2b. Adult and Older People Assessment	If technology is to be used to replace staff I hope it is far better than what is currently in place and that there is a quality workforce behind it or people's lives will be at risk. No doubts about it. Instead of reducing primary care givers and low level management why not review the higher management down? Most organisations prove to be top heavy. It's not just council workmen who have a lack lustre approach at times, long term management should be reviewed to see how well they are performing. In some aspects less would most certainly seem to be more.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
12133	An individual	2b. Adult and Older People Assessment	The council would also expand on the successful use of technology to support care at home provision: How?	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12134	An individual	2b. Adult and Older People Assessment	Improving care at home via technology seems to me likely to remain unachievable until the present elderly population, unfamiliar with technology, dies.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12135	No Response	2b. Adult and Older People Assessment	Technology is vital, however it cannot replace people when dealing with vulnerable persons. Technology breaks, what happens then.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12136	An individual	2b. Adult and Older People Assessment	And how can technology care and support someone at home, how can a machine dispense tablets to someone suffering dementia or get them ready for whether they are getting ready for a day centre (which the council will probably close) or getting ready for bed.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12137	An employee of West Lothian Council	2b. Adult and Older People Assessment	Many are not IT literate and only with hands-on care can survive day-to-day.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12138	An individual	2b. Adult and Older People Assessment	The expansion of technology to support care at home, is a welcomed proposal. The service currently provided is excellent allowing people greater independence whilst also being an effective use of resources.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12139	An employee of West Lothian Council	2b. Adult and Older People Assessment	Technology in this area can be expensive.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12140	An individual	2b. Adult and Older People Assessment	Technology and old people usually doesn't mix .	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12141	An employee of West Lothian Council	2b. Adult and Older People Assessment	The technology to support care at home should be more accessible for Deaf Service users, more of visual communication.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12142	An individual	2b. Adult and Older People Assessment	Technology is all very well but nothing compares with human intervention.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12143	An individual	2b. Adult and Older People Assessment	Technology aid would help but social services seem to already be struggling so cuts here would be bad.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12144	An employee of West Lothian Council	2b. Adult and Older People Assessment	I agree they should expand on the successful use of technology.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12145	No Response	2b. Adult and Older People Assessment	While savings need to be achieved and this is accepted, a plea to remember that older people are not as IT savi as others	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12146	An employee of West Lothian Council	2b. Adult and Older People Assessment	Technology will hopefully help a lot here. Perhaps there are innovations further afield (America etc) that could be applied to the home care system here.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12147	An individual	2b. Adult and Older People Assessment	I agree - especially more use of technology to support care at home provision	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12148	No Response	2b. Adult and Older People Assessment	Introduction of new technologies would be of benefit.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12149	An employee of West Lothian Council	2b. Adult and Older People Assessment	By using technology to support care at home takes away the human element and there is simply no substitute for human interaction with the most vulnerable in our society.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12150	An individual	2b. Adult and Older People Assessment	Its all very well saying use technology but loneliness is a huge issue and surely the adults need some human contact. I wouldn't like this for my parents.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12151	An individual	2b. Adult and Older People Assessment	This will put additional burden on carers. Technology is no substitute for proper care. Again, raise council tax.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12152	An individual	2b. Adult and Older People Assessment	Agree with better use of technology, not sure about rest. e.g. does a bit of supprt at a lower level prevent someone rising to critical/substantial at a higher cost?	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12153	An individual	2b. Adult and Older People Assessment	Technology is a useful tool but face to face is often also important to keep it personal and human.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12154	An individual	2b. Adult and Older People Assessment	A lot of elderly people are frightened of technology, would someone be going to show people how to use this and what about people with Dementia or memory impairments. I feel that an elderly person could be forgotten about if nobody sees them.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12155	An individual	2b. Adult and Older People Assessment	Please publish the "expand on the successful use of technology"	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12156	An individual	2b. Adult and Older People Assessment	Where technology can help this would be positive but care must be taken to ensure those unable to use technology are not disadvantaged.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12157	An individual	2b. Adult and Older People Assessment	Consideration of certain assistive technology devices within the community (especially for older adults) should be considered. These do not have to be expensive - some are basic and help people carry out every day tasks. I think that the implementation of more falls devices (alarms) would be an effective way to ensure that our elderly community are able to obtain health and social care when required	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12158	An employee of West Lothian Council	2b. Adult and Older People Assessment	Enabling older people to live in their own homes for longer through technology makes perfect sense and benefits communities.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

12159	An employee of West Lothian Council	2b. Adult and Older People Assessment	Technology isn't always the answer, these people need regular care and support	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12160	An individual	2b. Adult and Older People Assessment	Expanding use of technology is in my opinion a good proposal - I have significant concern about only looking at critical/substantial for new clients and would instead suggest that other services remain but with a contribution paid by the person wishing to use the service.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12161	An individual	2b. Adult and Older People Assessment	Use of technology to support independent and safe living at home particularly for the elderly must be Utilised in a manner where it improves life for the person and not isolate the individual from physical human contact which will have a detrimental effect on their mental health, or where the individual is frightened of the technology. It needs to be well supported with person contact as well. This will improve as the generations who have become more used to technology in their day to day life start to become more in need of assistance, they will expect technology to support their independence.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12162	An individual	2b. Adult and Older People Assessment	Technology can clearly help with this.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12163	An employee of West Lothian Council	2b. Adult and Older People Assessment	Adaptions to the family home may be more cost effective than residential care.	Adult & older people - new technology	4. The council is already doing this.	Thank you for your response. Your comment has been noted
12164	An individual	2b. Adult and Older People Assessment	Technology is good and useful but face to face contact is also vital for connectivity, sense of community and well being.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12165	An individual	2b. Adult and Older People Assessment	The introduction of more technology support in people's homes will only work well with good back up support by actual people. How would better technology help older people in their homes who have increasingly heightened anxiety about how they might cope manage?	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12166	An individual	2b. Adult and Older People Assessment	Increasing the use of technology can be beneficial in promoting home safety, but many elderly people are socially isolated and human contact to provide some services is essential.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12167	An individual	2b. Adult and Older People Assessment	More use of technology to support care at home is a very good idea.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12168	No Response	2b. Adult and Older People Assessment	Not sure about the use of technology. Most elderly people need to see an actual person.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12169	An employee of West Lothian Council	2b. Adult and Older People Assessment	Technology to support people at home - where is the humanity in that? Older people - carers may be the only people they ever see! Wrong. Wrong. Wrong.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12170	An individual	2b. Adult and Older People Assessment	The use of technology, I understand, can give big savings in this area.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12171	An individual	2b. Adult and Older People Assessment	not sure technology is the way to go for home visits	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12172	An employee of West Lothian Council	2b. Adult and Older People Assessment	However, the introduction of new technology also has the potential to increase loneliness.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

12173	An individual	2b. Adult and Older People Assessment	As an individual with 2 disabilities who is unable to live on their own it is important that I have onsite 24hr support, I feel technology is not able to provide the support/personal/medical care that someone like myself needs.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12174	An individual	2b. Adult and Older People Assessment	Advances in technology sound good for sharing and communicating but are wasted if the hands-on provision is not in place.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12175	No Response	2b. Adult and Older People Assessment	OK, as long as there is a safety net for people in need of assistance should technology be faulty or unreliable.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12176	An employee of West Lothian Council	2b. Adult and Older People Assessment	How can technology support care at home?	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12177	An individual	2b. Adult and Older People Assessment	Don't see how the council can save anything on this other than sustain the level of service. Innovative use of Skype like services might help support care at home provision.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12178	An employee of West Lothian Council	2b. Adult and Older People Assessment	Smart technology should be introduced.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12179	An individual	2b. Adult and Older People Assessment	Technology has limited use in this area and it would be a travesty if services became 'remote' in nature.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12180	An individual	2b. Adult and Older People Assessment	Agree that use of technology needs to be looked at as much as possible but not sure if that will ever be the same as personal contact from a carer.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12181	An individual	2b. Adult and Older People Assessment	Agree that modern technology to support care on demand for the elderly should be promoted, so as to try to maintain as much independence as possible but with the direct access to support if required, e.g. the red button for emergency assistance.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12182	An individual	2b. Adult and Older People Assessment	I agree with expanding the use of technology as that assist in keeping the elderly in their own homes.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12183	No Response	2b. Adult and Older People Assessment	If we need more technology we need enough IT staff to introduce it and enough lawyers to ensure the contracts are robust. Look at the Trams contract and learn from Edinburgh Councils mistakes.	Adult & older people - new technology	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12184	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agree with the increased use of technology	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12185	An individual	2b. Adult and Older People Assessment	It's people who provide successful support care at home and technology is no substitute for that.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12186	An individual	2b. Adult and Older People Assessment	Care for our vulnerable and elderly must not be compromised by a cost cutting exercise - that is not to say that re-organisation and use of technology cannot deliver both cost reduction and better care	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12187	An individual	2b. Adult and Older People Assessment	It has been identified by research that we live in a society where there are a lot of lonely people. Substituting technology for short care visits will only increase people's isolation and loneliness further, and causing more mental health issues for the vulnerable people of our society. I do not think your proposal will be effective in the long term, it will only increase problems further.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12188	An individual	2b. Adult and Older People Assessment	Agree with expansion of technology	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12189	An individual	2b. Adult and Older People Assessment	if the use of technology in this situation means less human contact, it would have far reaching and damaging consequences	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12190	An individual	2b. Adult and Older People Assessment	Expansion on the successful use of technology may have some benefits. However, the technology applied needs to be properly costed.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12191	An employee of West Lothian Council	2b. Adult and Older People Assessment	Greater use of technology could be very helpful.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12192	An employee of West Lothian Council	2b. Adult and Older People Assessment	Short care visits are not working - having a Home Carer visit elderly residents for a medication check seems inefficient, as the Carer is being paid mileage to get there, and barely has any time whatsoever to spend with the elderly person. Perhaps technology could be utilised to act as a reminder.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12193	An individual	2b. Adult and Older People Assessment	I do not see how Technology can support care at home. Elderly people very often depend on carers attending so this is not an area I think should be suffering cuts.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12194	An individual	2b. Adult and Older People Assessment	care at home technology! sometimes just seeing someone face to face makes a huge difference.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12195	An individual	2b. Adult and Older People Assessment	As 1b. Technology cannot help the elderly in the home when in crisis or simple needs help in everyday tasks i.e. personal hygiene.	Adult & older people - new technology	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12196	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Again the most vulnerable in our society will suffer. Each case has to be individually assessed often technology cannot replace a human. I have seen this tried and there is a delay before a personal can respond to the alert of technology leaving people vulnerable. There cannot be one size fits all approach	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12197	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Use of technology will help but there is a cost to purchase, development and support.	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12198	An individual	2b. Adult and Older People Assessment	Technology (Skype?) or befrienders should be used to ensure their circumstances do not change for the worse when they might need an increase in help.	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12199	An employee of West Lothian Council	2b. Adult and Older People Assessment	Use of technology in residential services to assess more accurately/less judgementally what people may/may not need in the community. Clarity from practice teams to care providers about what they need assessed in their clients and in what timescale. This would allow care providers to give the requested report/feedback more clearly	Adult & older people - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12200	No Response	2b. Adult and Older People Assessment	Some care provided to prompt people with medications, some only take paracetamol but surely they can be prompted through technology rather than visit	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12201	An individual	2b. Adult and Older People Assessment	Increase of technology is a good idea but remember carers have very little life if they are caring for an elderly person with dementia etc - do not cut support for the carers as it would be short-sighted.	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12202	An individual	2b. Adult and Older People Assessment	This could have a detrimental impact on some very vulnerable people who don't have the ability to make use of technology nor able to make contact with services to determine what provisions are available to them. This could result in older people in a unsafe and/or unhealthy environment with no way to access provisions available to them or even provisions being withdrawn altogether due to these cuts .	Adult & older people - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12203	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Agreed, where 1:1 support is also available for those with our access / unable to use the required technology	Adult & older people - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12204	An individual	2b. Adult and Older People Assessment	Yes, technology. No, pulling the plug on support to old people, who deserve to be treated with dignity and respect whatever their circumstances.	Adult & older people - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12205	An individual	2b. Adult and Older People Assessment	consultation with senior people's forum would have been helpful. What technology? How would elderly cope with this?	Adult & older people - new technology	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
12206	An individual	2b. Adult and Older People Assessment	Other council's charge for adaptations. This should be put in place in West Lothian on an income scale. More money invested in day services which is preventative and saves money as it reduces need for residential care placements and home care packages.	Adult & older people - private adaptation grants	4. The council is already doing this.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12207	An individual	2b. Adult and Older People Assessment	Far too many are given cars to so called carers who don't actually use them for the purpose they where given. Why is the allowance for disability car such a high amount? I have yet to see a disability car which is not a high priced vehicle, this funding would be much more useful elsewhere such as more home care visits.	Adult & older people - private adaptation grants	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12208	An individual	2b. Adult and Older People Assessment	Keeping people in their own home can be more beneficial than putting them in accommodation, however constantly adapting homes and then stripping them out is futile and money wasting.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12209	An employee of West Lothian Council	2b. Adult and Older People Assessment	know several people reliant on social care for adaptations and respite services, they all had to wait lengthy periods to be linked to a social worker to be referred to occupational health. It does not seem fare or civilised to leave an individual in a situation where they can not bathe properly for a year due to waiting for a referral for a simple adaptation to allow a normal day to day activity	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12210	No Response	2b. Adult and Older People Assessment	I have known cases where the individuals concerned had to stay in hospital for extended periods until public money was found to adapt their homes.	Adult & older people - private adaptation grants	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12211	An employee of West Lothian Council	2b. Adult and Older People Assessment	I feel people with private adaptation grants should not be penalised because they own their home. I feel there should be one money pot for all housing tenures and all should be considered for paying 20% the grant.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12212	An individual	2b. Adult and Older People Assessment	Surely improving the grant for adaptations st home and supporting the elderly at home will decrease the number of people requiring specialist homes or respite care. To cut the funding across the board does not make sense.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12213	No Response	2b. Adult and Older People Assessment	Agree with the revision of private adaption grants	Adult & older people - private adaptation grants	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12214	An individual	2b. Adult and Older People Assessment	I don't see how you can reduce this budget when people affected are increasing in number. If new services / technologies / products are being introduced could they be made available for a charge? This is not a tax on the old, it would be paying for product / service just like you would buy eg an iPad to enable you to Skype with your family.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12215	An individual	2b. Adult and Older People Assessment	If there is already care at home in place I don't think we need to spend money on things like wet room showers.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12216	An employee of West Lothian Council	2b. Adult and Older People Assessment	provision for care at home in my opinion needs to be done timeously and with equipment of high standard and not lower costing as this is false economy in the long run.... I have known people who have had equipment for one or other partner who has since passed away but they have been left with the equipment left lying redundant in that house when someone else in need could have used it.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12217	An employee of West Lothian Council	2b. Adult and Older People Assessment	Why is the Council providing care services for those with disabilities for free. If they require ongoing care they receive an allowance (Personal Independence Payment) from the Government to help pay for these services.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

12218	An employee of West Lothian Council	2b. Adult and Older People Assessment	will this not drive up costs elsewhere with adaptations being required to provide support at home?	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12219	An individual	2b. Adult and Older People Assessment	People shouldn't have to wait months for adaptations to their homes or accessing the services they need.	Adult & older people - private adaptation grants	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12220	An individual	2b. Adult and Older People Assessment	When adaptations are made to a home that is privately owned, are these costs recouped if the house, where the adaptations are put in place, is then sold on?	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12221	No Response	2b. Adult and Older People Assessment	reviewing the allocation process, only providing Adaptation grants and Occupation Health grants to those who are under the poverty level. Those who can afford should be made to pay. We shouldn't be funding for people who have money to pay for their needs and adaptations.	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12222	An individual	2b. Adult and Older People Assessment	Many older people living at home can afford to pay for items such as wheeled walkers, handrails etc. Can people be means tested so money can be given to those in greatest need and financial hardship?	Adult & older people - private adaptation grants	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12223	An individual	2b. Adult and Older People Assessment	Respite provision for families with no support, some are carers with disabilities themselves is a lifeline. If you take that away from people, or fail to provide it, many will not cope and crisis points will be much faster and with a worse long term outcome for families and their long term health and wellbeing.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Work will continue to focus on those who are most vulnerable and have additional needs.
12224	An individual	2b. Adult and Older People Assessment	This will result in older people being stuck in hospital unnecessarily	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12225	No Response	2b. Adult and Older People Assessment	Respite in the council is a joke when it comes to complex needs of individual. Waiting 3 years for respite is unacceptable.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12226	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Need to protect respite services for people with disabilities.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12227	An individual	2b. Adult and Older People Assessment	Supporting people to stay in their own communities could be good but how? Quality service providers are withdrawing from this area.	Adult & older people - respite provision	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this.
12228	No Response	2b. Adult and Older People Assessment	Money should be spent to try and keep the older generation at home for as long as possible, but shorter visits could mean cutting the only lifeline and human contact that many older people have.	Adult & older people - respite provision	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12229	No Response	2b. Adult and Older People Assessment	We need to provide more than 15 minute slots for people who need care. Allow them the dignity to remain in their own homes as long as they can.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12230	An employee of West Lothian Council	2b. Adult and Older People Assessment	In terms of care, other local authorities charge for things such as respite, care for under 65s. The only free provision is personal care for over 65 year olds.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12231	An employee of West Lothian Council	2b. Adult and Older People Assessment	As highlighted in sect 2a, respite care provision for children and families effected by disability are reliant on external partners. WLC have no in house provision to fill this need. Should investment in this provision be considered in house, rather than continuing reliance external partners, who potentially have a monopoly.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12232	An individual	2b. Adult and Older People Assessment	I am concerned about reducing respite care to already stretched carers and disagree with this.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12233	An individual	2b. Adult and Older People Assessment	Need for appropriate respite units with trained staff.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

12234	An individual	2b. Adult and Older People Assessment	Respite care is currently being abused by some so any threshold review is welcome so that those who really require the service can do so.	Adult & older people - respite provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12235	An individual	2b. Adult and Older People Assessment	From personal experience I know the Council has an excellent record in provision of these services. Hopefully it will be possible to make necessary adjustments without seriously reducing standards for priority groups.	Adult & older people - respite provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12236	An individual	2b. Adult and Older People Assessment	Older people staying in their own homes seem to have little enough time spent on them Staying in home accommodation is cheaper than care homes	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12237	An individual	2b. Adult and Older People Assessment	Supporting people in their own home is fine when suitable for the individual, but I feel this results in many people becoming more and more isolated and impacts on quality of life, then results in poor health and puts further strain on NHS.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12238	An individual	2b. Adult and Older People Assessment	With an ageing population, the priority should be to provide support to allow people to cope in their own home for as long as possible. More needs to be spent on home carers and services for the elderly	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12239	An individual	2b. Adult and Older People Assessment	This sounds as though the focus will be to provide more care at home. That is sensible but depends fully on the nature of the disability, the ability of the family / home life and the level of care at home being sufficient so it is not a one size fits all process.	Adult & older people - respite provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12240	An individual	2b. Adult and Older People Assessment	I am only too aware of the support care at home provision and in my mind, a carer in for about 10 minutes, four times a day (if the person is lucky) is not "care". From what I have seen of neighbours having care at home who do not have the luxury of family to help support, this system in my mind does not work.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12241	An employee of West Lothian Council	2b. Adult and Older People Assessment	Would this not put more pressure on carers and expectation that families have to provide even more care for elderly family members?	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12242	An individual	2b. Adult and Older People Assessment	These services are crucial. Without respite provision many of our families with vulnerable adults would not be able to cope.	Adult & older people - respite provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12243	An individual	2b. Adult and Older People Assessment	Care for older people is very good. One area which needs to be protected from my own experience is respite care for carers. Huge numbers of these are family members who are not paid but full time care is exhausting and to preserve their health (so they can go on caring!) respite is essential.	Adult & older people - respite provision	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12244	No Response	2b. Adult and Older People Assessment	Flexible respite accounts need to be stricter as some people have been known to use this for going to a hotel for a night at the cost of £700	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12245	No Response	2b. Adult and Older People Assessment	Flexible respite needs to be relooked at as there are some people misuse this service which costs a lot of money. Some carers attend people in the community with a medication prompt, sometimes paracetamol the only medication identified. Surely this could be more cost effective in the way a prompt is carried out.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12246	An employee of West Lothian Council	2b. Adult and Older People Assessment	To look at the provision of flexible respite usage and maybe have set providers\ organisations to utilise this rather than people misusing it. to maximise use of current services in place to look at the current in house services that are provided to ensure best use of resources. Possibly to stop in house carers going out in 2's as this is not always necessary.	Adult & older people - respite provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12247	An employee of West Lothian Council	2b. Adult and Older People Assessment	What constitute critical/substantial threshold levels? Maybe some customers can afford to pay for services in this bracket but less financially fluid customers may not be at a critical/substantial level but may benefit from short term help to cope.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
12248	An employee of West Lothian Council	2b. Adult and Older People Assessment	WOULD SYUGEST A CHARGING POLICY FOR THE SERVICES WE PROVIDE HERE. .	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
12249	An employee of West Lothian Council	2b. Adult and Older People Assessment	ALSO CESSATION OF FLEXIBLE RESPITE WHICH BENEFITS THE FEW NOT THE MANY	Adult & older people - threshold levels	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

12250	An employee of West Lothian Council	2b. Adult and Older People Assessment	If threshold means how much physical support they 'need' then that makes sense so long as good welfare visits are in place for those falling below that threshold.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12251	An individual	2b. Adult and Older People Assessment	The majority of older people pay Council Tax, therefore, I fail to see why they should be penalised. The statements reads that 'resources would be focussed on supporting those most in need' How will the Council identify this group?	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
12252	An employee of West Lothian Council	2b. Adult and Older People Assessment	And if they're not critical but need help?? What happens then. My mum has dementia and currently lives with me but this cannot continue forever as the impact on my children has been huge. They are scared and unhappy. My mum has worked all her life paying taxes and national insurance, you tell me why she should not get care?	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12253	An individual	2b. Adult and Older People Assessment	I think you have no option but to shift costs to the individual in what ever fair way you can by re-setting the threshold levels. There aren't enough wage earners (and taxes leading to your funding) to support the huge increase in people in this category.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12254	An employee of West Lothian Council	2b. Adult and Older People Assessment	I consider reviewing all the low cost POC, and yes, I agree setting thresholds higher, will help reduce costs.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12255	An employee of West Lothian Council	2b. Adult and Older People Assessment	I support Changes to thresholds	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12256	No Response	2b. Adult and Older People Assessment	People who receive High rate premium benefits should pay more towards their own care.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12257	An individual	2b. Adult and Older People Assessment	What happens to those who have long term illness whether that is physical or mental? Sometimes all that prevents them from being critical or substantial is the level of care they currently receive.? Greater clarity needs to made on what exactly respiratory is.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12258	An individual	2b. Adult and Older People Assessment	I can see the point of keeping older people at home if it's safe to do so but feel there are not enough care homes for the elderly	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12259	An employee of West Lothian Council	2b. Adult and Older People Assessment	Personalisation and the shift to Self Directed Support along with tightened threshold levels don't sit well together.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12260	An individual	2b. Adult and Older People Assessment	I am happy with the proposed changes to the threshold levels however would be keen to ensure that individual cases would be considered on their own merit and not simply threshold levels.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12261	No Response	2b. Adult and Older People Assessment	Concerned about those that may no longer be supported	Adult & older people - threshold levels	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12262	An individual	2b. Adult and Older People Assessment	I think the buzzer/bracelet system in use with 24/7 contact is excellent as is the response times to call outs. Having witnessed this several times for my elderly in laws I Have no criticism to make. That said, threshold levels are emotive as some people worked hard, bought their houses and when in need, suddenly have to use their homes to pay for care.meanwhile, those who didn't bother or with no thought of the future will have the same service free of charge. I don't deny these basic rights but how they are paid for or subsidised is a matter for greater debate. Free travel - if working, should you qualify? I'm part time working and I find it a great benefit but should I qualify. Another debating issue	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12263	An individual	2b. Adult and Older People Assessment	Care should be provided to those who need it. Means testing is all very well but will it affect the level of care a person gets?	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12264	No Response	2b. Adult and Older People Assessment	I would be very concerned about raising the threshold levels before the Council act. So often acting too late costs so much more than acting appropriately.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12265	No Response	2b. Adult and Older People Assessment	A threshold of Critical / Substantial has been in place in a number of local authorities for some time. I understand why this is being considered, but would suggest that support at an earlier stage could prevent some individuals from reaching this stage. therefore allowing WLC to support more people with the same resource.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12266	An individual	2b. Adult and Older People Assessment	The number of elderly and people who need support is increasing and this should be invested in more. You can't assess people based on the same criteria as people have different needs and preventing it from them based on 'less critical' will only cause more frustration and you'll have people who'll be unable to be part of the community.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12267	No Response	2b. Adult and Older People Assessment	I understand the requirement to focus provision to those who need it most, however there is greater propensity for those requiring assistance to go unnoticed or not receive the actual level of support they need as resources are based on budget constraints, not customer needs.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12268	An individual	2b. Adult and Older People Assessment	Older adults who are already vulnerable need access to care whether that be at home or in a care facility. It seems that more and more families are expected to pick up the care of family members, this can cause stress and financial burdens, often the family find that to look after their elderly parent it requires them to reduce or give up their work, which to me then places bigger burden financial on local government.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12269	An employee of West Lothian Council	2b. Adult and Older People Assessment	It is sad that we have to increase our thresholds but I understand that we need to do something to constrain demand. As everyone else is doing it, we need to do it too.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12270	An employee of West Lothian Council	2b. Adult and Older People Assessment	agree with threshold levels being raised in the main, however there is definitely a role for early intervention, low level care services, which can avoid a crisis and a more substantial service being required more technology is definitely a good thing	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12271	An employee of West Lothian Council	2b. Adult and Older People Assessment	The aging population is a concern for council and health services everywhere. We must do more to support older people to live longer in their own homes. I think people will be able to pay small amounts to contribute to the cost of care of technology in their homes. Though it should be reasonable and not impoverish the vulnerable older people who are already struggling to make ends meet.	Adult & older people - threshold levels	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12272	An individual	2b. Adult and Older People Assessment	I am concerned by the phrase 'threshold levels would be set at critical/substantial' if that means that 'not yet critical cases' have to be ignored until they become critical. Waiting until someone's need for care is critical risks moving the responsibility for caring for that person to others - NHS or overstretched families. This does not seem like money saving so much as passing the buck. I do not approve of this money saving strategy.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12273	An individual	2b. Adult and Older People Assessment	Supporting those most in need is absolutely important and although the threshold seems high, it should be flexible in that it can be reviewed where it could have a detrimental impact on a person's wellbeing.	Adult & older people - threshold levels	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12274	An individual	2b. Adult and Older People Assessment	Provision of equipment and care services must be means tested. Why can the new thresholds not be extended to those already in receipt of provision? I would support such a move. 12275	An individual	2b. Adult and Older People Assessment	I think this is unfair for threshold levels. Please look at this proposal again. It is very unsettling for older citizens when they begin to lose their independence.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12276	An individual	2b. Adult and Older People Assessment	Ridiculous - this will just add to bed-blocking in the NHS and more complaints and incidents being reported. Setting the threshold at critical/substantial simply adds insult to injury by heaping these cuts on top of the Tories' austerity cuts and the reductions in benefits to the disabled and elderly	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12277	An individual	2b. Adult and Older People Assessment	I would worry for those people who do not meet the raised threshold and who are in need of support. Raising the threshold for support does not help meet needs, nor do they go away. This would be very concerning to me, given the increased number of people living longer. Rushed visits already result in errors and lack of humanity in the support given to people in need.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

12278	An individual	2b. Adult and Older People Assessment	I find it very disturbing that an elderly person who has worked their whole life, supported their family unaided by the state should find themselves in the position of having to sell their home to pay for care at the end of their life whilst someone who has done the opposite receives the same care for free. I speak from the experience of my own mother. People who have saved/own their house should be able to leave this to their family if they wish. I appreciate the difficulties facing WLC as we do have an increasing elderly population but a more equitable system of assessment and payment must be found.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12279	An individual	2b. Adult and Older People Assessment	I am very concerned by the proposal to alter the level of need to critical/substantial for home care provision. This is likely to result in many elderly people not receiving services, thus increasing the likelihood of unmet need resulting in hospital admissions and high career stress.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12280	An individual	2b. Adult and Older People Assessment	Totally oppose increasing threshold levels.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12281	An individual	2b. Adult and Older People Assessment	Setting a higher threshold before help is given is a cruel move.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12282	An individual	2b. Adult and Older People Assessment	I don't agree with setting as threshold as I don't feel that people who have worked hard and saved for their old age should be penalised. They have paid their NHS through their wages and therefore should not be penalised with the service they receive just because they have funds.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12283	An individual	2b. Adult and Older People Assessment	Hard for me to comment on this. I firmly believe that, wherever possible, care of older family members should be returned to families. Often our old people require greater levels of care when their children are retired themselves, and often it is a short term requirement as I have experienced in my family. Why should, if we can, we not be willing to give our parents some of our time back. I did fir my Mum, at a time when we could ill afford not having me working. Perhaps something very radical. A council payment to cares which allows a member of the family not to work for a while if they are still of working age and grants to help with provision within these fami,y homes. Would surely be a saving on the expensive costs of providing residential care...and, I for one, from personal experience, know that our older people would be SO much happier in the arms of their own family.	Adult & older people - threshold levels	6. This is a positive suggestion. Officers will consider how this could be developed.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12284	An individual	2b. Adult and Older People Assessment	In assessing older people I am very concerned at the proposal to reset the threshold level at critical / substantial before intervention is entertained. This would not only exacerbate the budget for medical care but also create a multilayered application of care throughout our community.In addition, without explaining properly and substantively how successful the use of technology has been in home care provision, and considering I have a very elderly relative living locally, how and I able to make an assessment of your proposal/claim?	Adult & older people - threshold levels	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12285	An individual	2b. Adult and Older People Assessment	This is a very underfunded area. The increase in threshold levels for all access to care is very worrying. An earlier intervention in many cases will alleviate stress and concern and often save money in the longer term. The most vulnerable members of our society are being neglected in the most shameful way.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12286	An individual	2b. Adult and Older People Assessment	Not providing care to lower risk older people means that they are more likely to end up in hospital requiring more care. The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12287	An individual	2b. Adult and Older People Assessment	Need to ensure that the change to threshold level does not mean that people then end up in hospital for example because they cannot care for themselves without care. Not acceptable to make WL budget saving but increase costs in another body's budget - and how does this sit with 'Improving the quality of life of older people' and delivering positive outcomes on health.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12288	An individual	2b. Adult and Older People Assessment	.Vulnerable people will fall through the net. You are waiting until people become "critical" then you will step in. People remain independent longer if a proactive regime is in place instead of a fire-fighting process.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12289	An individual	2b. Adult and Older People Assessment	This proposal would be dependent on a robust assessment and review process to ensure that those who do need care are in receipt of it. Does this mean therefore that people who are currently receiving assistance will potentially lose their current services? What happens to those who fall just below the threshold how will support be provided to them? How will council services ensure that these people are reviewed appropriately. The threshold is already set to high with many older people receiving care visits which are as short as 15mins in length which makes good quality care provision impossible. I do not support cuts which may be detrimental and harmful to vulnerable members of our society.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12290	An individual	2b. Adult and Older People Assessment	However I'm strongly against the threshold alterations. I've had experience recently of the short interventions and they are dire! Private companies such as mears paid Â£19 an hour for care in 15 minute chunks. As a result they wont change soiled sheets as it takes too long! The more you focus on the bottom line rather than the care itself the worse it gets. We need to stop the rot bring care in house to the council and pay a living wage to ensure staff can care! It's a national disgrace. Again I'd rather pay more in my council tax!!!!	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Care and support plans are specific to each person and a review of agreed care and support can be requested if circumstances have changed. All care at home providers in West Lothian are paid an hourly rate based on the UKHCA model and the Scottish Living Wage
12291	An individual	2b. Adult and Older People Assessment	This could lead to greater expenditure in the longer term as it is likely that if adaptations at the right time, people may require more expensive adaptations. There is a big issue with social isolation. Independent living may not be the only solution, there should be a range of housing options in place for older people including care homes as required. More liaison with the NHS is required as adaptations and social care prevent hospital admissions and there should be budgetary adjustment to the council to reflect this.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12292	An employee of West Lothian Council	2b. Adult and Older People Assessment	Changing threshold levels to critical or substantial increases risk to life. Is the Council prepared to defend themselves in court should a vulnerable person die due to lack of support?	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12293	An individual	2b. 12294	An individual	2b. Adult and Older People Assessment	If the threshold for residential care is being raised then there needs to be greater support in the community services. The elderly and infirm are vulnerable people and need to be supported	Adult & older people - threshold levels	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
12295	An individual	2b. Adult and Older People Assessment	By changing the thresholds you will just end up with more critical/substantial and costly issues. Earlier interventions and lowering thresholds might be more effective.	Adult & older people - threshold levels	2. The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12296	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	We are concerned that some of the changes proposed will adversely affect many of the most vulnerable people in our communities, e.g., the raising of thresholds for support or the amalgamation of facilities and reductions in capacity. How will Council ensure that it protects our most vulnerable people? We are also concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets?	Adult & older people - threshold levels	2. 12297	An employee of West Lothian Council	2b. Adult and Older People Assessment	If threshold levels are set at critical/substantial then there need to be a robust early intervention process in place. If we only deal with cases when they are at critical we are simply "fire fighting" the emergencies and allowing non emergent cases to be overlooked until such point as they become an emergency. This is no way to manage already stretched resources and means that all work is reactive and unplanned and thus difficult to estimate and plan for.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12298	An individual	2b. Adult and Older People Assessment	Increasing the thresholds for these interventions surely risks people requiring more support when the help does come, it will also increase the possible isolation felt by older people, the group that has contributed a lot to society and who often feel like they are at the end of the queue. I recognise the demands for services by the group increases every year but sever cuts to services to this group probably have and exponentially negative effect on them.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12299	An individual	2b. Adult and Older People Assessment	Short care visits should be reviewed as not effective and too much time wasted travelling between clients. Adult older people assessment threshold levels increased to CRITICAL I do not approve of private companies making profit for shareholders removing resources from the council/community ownership. Increasing threshold levels subjects many people to distress.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12300	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	This will cause more expense if services only focus on critical/substantial difficulties. We don't know how you will judge what is critical. We need to be funding preventative services otherwise the need for critical situations will increase - false economy. The proposed savings seem to be massive - hitting the most vulnerable in our community. Increased needs with more older people and the increase of people affected by mental health problems - a budget saving of 8.8 million seems excessive, damaging and very concerning for us - targeting those must in need.	Adult & older people - threshold levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12301	An individual	2b. Adult and Older People Assessment	Growing numbers of people and you are proposing to cut services - doesn't make sense.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12302	An individual	2b. Adult and Older People Assessment	As above, as we are talking about the most vulnerable people.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12303	An employee of West Lothian Council	2b. Adult and Older People Assessment	RECOMMEND A MOVE TO COMMUNITY CARE WITHIN THE TWO SECTORS OF IJB. WOULD OPTIMISE STAFF OPPORTUNITIES. MINIMISE COSTS OF DUPLICATION AND TRAVEL, AND ENHANCE STAFF RETENTION.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
12304	An employee of West Lothian Council	2b. Adult and Older People Assessment	Loneliness kills older people at home, address this and I would be in support of older people remaining in their own homes	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12305	An individual	2b. Adult and Older People Assessment	I think that older people social care should be protected	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12306	No Response	2b. Adult and Older People Assessment	Having worked previously as a home-care assistant in the community, I understand the stresses these staff are put under - the time between visits is not enough, and the time spent with clients is often unbalanced; some people do not have anywhere near enough, other people only require a few minutes. I support the use of technology to support care at home provision e.g. reminders for medication rather than a staff member having to visit for this purpose.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12307	An individual	2b. Adult and Older People Assessment	I think the service we provide at the moment is excellent but again the waiting lists are high. We have the staff but the resources are not being managed or looked at properly.	Adult & older people (general)	4. The council is already doing this.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
12308	An employee of West Lothian Council	2b. Adult and Older People Assessment	I'm not sure what this proposal means. Does threshold mean how much money they have? Many elderly people have worked all their lives and deserve to receive assistance at this stage in their lives regardless of money and this is an area that I feel should have as much of the limited resource as possible. Less care means these very vulnerable members of our communities are at a greater risk of harm and exploitation as well as possibly being 'missed' and left lonely and unassisted when they need it most because they may have some savings.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12309	An employee of West Lothian Council	2b. Adult and Older People Assessment	please see previous comments. I feel strongly that WLC should have a charging policy and also not provide free services unless this is required.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
12310	An employee of West Lothian Council	2b. Adult and Older People Assessment	Growing concern regarding support provided for older people in order to help them remain in their own homes. Constantly reading about hospital bed blocking as patients can not get a package of care put in place.	Adult & older people (general)	4. The council is already doing this.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12311	An employee of West Lothian Council	2b. Adult and Older People Assessment	Some times ignoring the lower priority results in an increase of high dependency requirements in the long term. My mother lives in South Lanarkshire and my father-in-law in North Lanarkshire and the service West Lothian provides is far superior in many ways.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12312	An employee of West Lothian Council	2b. Adult and Older People Assessment	Social care services have to become much leaner and cost effective	Adult & older people (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12313	An individual	2b. Adult and Older People Assessment	don't cut care visits for a lot of older people this may be the only contact they have	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12314	An employee of West Lothian Council	2b. Adult and Older People Assessment	Any changes that can streamline processes and make savings for the council must and should be pursued.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
12315	An individual	2b. Adult and Older People Assessment	Consultation with charities is required in this area	Adult & older people (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
12316	An individual	2b. Adult and Older People Assessment	This needs more investment not cuts...means testing and non profit provision of services to those that can afford it	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12317	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agree with the use of technology in care and support providing the proper training and introduction methods are used with the service user at the heart of the choice and their views and Choices considered. I also understand how important a 10min care visit can be to a person receiving it is.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12318	An individual	2b. Adult and Older People Assessment	Always look after the old	Adult & older people (general)	4. The council is already doing this.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12319	An individual	2b. Adult and Older People Assessment	Greater use of care at home services and a more reliable private carers scheme	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12320	An individual	2b. Adult and Older People Assessment	This is an area, that needs extra provision as more vulnerable people enter the group. Consequently, this would have a double down impact on these services.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12321	An individual	2b. Adult and Older People Assessment	Again this suggests reducing support for the most vulnerable and those lease able to care for themselves. I don't agree that this will save money - it will result in more crisis support and demands at A&E departments.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs
12322	No Response	2b. Adult and Older People Assessment	Introduce a charging service at real cost for non personal care services such as day care, flexi respite/ sitter service . Have strict guidelines for what constitutes a carer.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
12323	An individual	2b. Adult and Older People Assessment	I don't know much about this area but this service sounds like a waste of money to me.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12324	An employee of West Lothian Council	2b. Adult and Older People Assessment	There should be more trust between council and carer when it comes to care packages and allowances. If the carer is able to organise more things themselves for the person in need then there is less pressure on social work staff e.g. releasing funds to the carer for the person in need rather than the carer having to go through a long drawn out process for things to be approved.	Adult & older people (general)	4. The council is already doing this.	This provision is already in place.
12325	No Response	2b. Adult and Older People Assessment	By doing this, then the older generation should not suffer through these cutbacks.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12326	An individual	2b. Adult and Older People Assessment	I agree that self directed support should provide individuals more autonomy over their care and it would be good to see more people living in their own community rather than in residential accommodation.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12327	An individual	2b. Adult and Older People Assessment	A caring society would not do this.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12328	An individual	2b. Adult and Older People Assessment	This is a disgraceful way to treat anyone and is an attack on the most vulnerable and needy.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12329	An employee of West Lothian Council	2b. Adult and Older People Assessment	Again, there needs to be a clear focus on what is the job of a social worker, as often this can be muddy. 12330	An individual	2b. Adult and Older People Assessment	Reduce external provision and stop supporting external charities who do not deliver real benefits.	Adult & older people (general)	1. 12331	An individual	2b. Adult and Older People Assessment	This would affect me personally. My choice would always be to remain in my current council house which has already had adaptations carried out as opposed to going into any form of care.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12332	An individual	2b. Adult and Older People Assessment	Simply sounds like centralising a service in Livingston to achieve savings. Self-directed support has to date had a fairly minimal impact in terms of take-up numbers so unclear what the Council's references to changing demand and analysis behind it are?	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The existing building based day centres for adults are already all in Livingston. Our aim is to shift towards an outreach model to allow for further personalisation.
12333	An employee of West Lothian Council	2b. Adult and Older People Assessment	I'm aware of some benefits of care at home but a huge part of accessing services is to include social interaction which is important part of life which could have an impact on mental health of those who miss out/ loss out to these cuts	Adult & older people (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Work will continue to focus on those who are most vulnerable and have additional needs.
12334	An individual	2b. Adult and Older People Assessment	The elderly are already experiencing a limited level of support as is. Health and wellbeing should not be jeopardised by money. Reducing these services or raising the level at which intervention is acceptable is likely to lead to an increased demand on GP and NHS resources, which are also under great strain. Sometimes it is better to retain spending on areas to ease a burden on others.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12335	An individual	2b. Adult and Older People Assessment	Sounds like there is a great danger of the services to vulnerable folk being cut too much.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12336	An individual	2b. Adult and Older People Assessment	Care services currently provided by external care providers is patchy and varies in quality. It could do with being checked as I'm conscious that where the council might be paying for 30 minutes the cared for person might only receive 10-15 minutes care. The balance can't be accounted for as travel time.	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners and that we receive the service we have paid for.
12337	An individual	2b. Adult and Older People Assessment	that's all fine and well but in care of the elderly when cover is required at minimum notice how does one meet individuals daily care needs	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12338	An individual	2b. Adult and Older People Assessment	If more emphasis is to be placed on caring for people in their own homes rather than in established care homes it is important that the staff who are visiting and caring should have enough time to do a proper "caring job". A fleeting visit may be all that is needed but where the need is for longer time to be spent then that should be allowed for.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners and that we receive the service we have paid for.
12339	An individual	2b. Adult and Older People Assessment	it should be encouraged to self support at home if applicable but sometimes this is not possible so social care should be a way forward	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12340	An individual	2b. Adult and Older People Assessment	This is an essential service due to the number of elderly residents in West Lothian. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12341	An employee of West Lothian Council	2b. Adult and Older People Assessment	Whilst it sounds great, if you can afford to pay for elderly care home environment you should, and if not the local authority should foot the bill. However, what also needs to be taken into consideration is the amount paid into the system by those involved. Generally those that have money in the bank when they are in the situation of requiring assistance have worked very hard, paid into the system and also been carefully with their money. Why should they be penalised? Why should their families be penalised?	Adult & older people (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted..

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12343	An employee of West Lothian Council	2b. Adult and Older People Assessment	Any changes must make sure that frontline service provision is not diluted. Again in this area there seems to be too many chiefs and not enough Indians. This not only reduces provision for those that need it the most, but can have a profound and life changing effect on individuals and their families. Any proposals in this area must be investigated thoroughly prior to any changes as the risks are too great to make a mess of this proposal.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12344	No Response	2b. Adult and Older People Assessment	Staff will have to be highly trained and experienced to make these kinds of important decisions. I fear that money will be an overriding factor here, above actual need.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12345	An employee of West Lothian Council	2b. Adult and Older People Assessment	Not enough detail to comment. where are they set just now? how many people affected? would some people not be eligible for any care or assistance? etc	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12346	An individual	2b. Adult and Older People Assessment	None of this demand is in your control. Where is the positive earlier medical intervention for the 50-60 year age group to influence lifestyle and health choices that would reduce the later life care needs.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12347	An individual	2b. Adult and Older People Assessment	The council already fails to pay sufficient funds for people in care homes.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12348	An individual	2b. Adult and Older People Assessment	It is hard to see where the stated level of saving can be made in a demand led service.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12349	An individual	2b. Adult and Older People Assessment	Need client contribution to costs. Problem with only high priority support is that the preventative work that avoids the crisis situations don't get support resulting in more expensive crisis management.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12350	An individual	2b. Adult and Older People Assessment	As it should be, support those most in need.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12351	An individual	2b. Adult and Older People Assessment	This should not be allowed to happen. Think about all the people who need help and won't be able to get it? This is a barbaric idea	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12352	An employee of West Lothian Council	2b. Adult and Older People Assessment	Would be a longer term saving overall to invest in Local Area Coordination to work with low level (diversionary) needs and prevent service users from requiring statutory intervention at all.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed. 12353	An individual	2b. Adult and Older People Assessment	There is a need to accept that the current social work staffing is woefully inadequate or perhaps there is an imbalance in the skill set.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12354	An individual	2b. Adult and Older People Assessment	There is also an absolute need to have better funding decisions and actions taken where individuals are giving personal funding to source respite. The community cannot provide such respite and therefore false expectations on respite provision is provided. I do not agree nor support this approach.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
12355	An individual	2b. Adult and Older People Assessment	People contact is vital for people living on their own. Old folks need access to face to face care for more than just a half hour visit, give them some quality time with carers not just focusing on basic needs.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12356	An individual	2b. Adult and Older People Assessment	As with 2a focus on greatest need my miss the chance to help those needing less help immediately which then deteriorate.	Adult & older people (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12357	An individual	2b. Adult and Older People Assessment	this should have been done years ago when cutbacks were talked about (about 2010?)	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12358	An individual	2b. Adult and Older People Assessment	I have greatly appreciated this service with family members and appreciate the pressure on council staff. Not sure how cutting this too drastically would be of benefit to the community as a whole.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12359	No Response	2b. Adult and Older People Assessment	As a member of staff in this area I feel the resources ,wailing times , funding etc are at a maximum strain as it is good luck on service delivery here ,I wish I had the answer , cutting staff in this area would help but then ,who will suffer	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12360	An employee of West Lothian Council	2b. Adult and Older People Assessment	Older people are what this country is built on and we owe them a debt of gratitude for what they have done.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12361	An individual	2b. Adult and Older People Assessment	Agreed that resources should be focused on highest need	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12362	An individual	2b. Adult and Older People Assessment	Councils need to review the care provision and really force back costs to the NHS for some of the provision of care. Appreciate they are also on a reduced budget but that should not be the driver for how we change a service. There are a number of hospital discharges that the Council pick up the costs for which should be NHS service budget.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12363	An individual	2b. Adult and Older People Assessment	the council should also consider funding projects which can deliver ad hoc support / short term support to individuals which could prevent the need for further services.	Adult & older people (general)	4. The council is already doing this.	The council already provides a reablement service which supports people to regain / retain their independence over a short period of time.
12364	An individual	2b. Adult and Older People Assessment	Older People who claim attendance allowance or DLA should contribute to the cost of their care. Family members claiming carers allowance qualify for this benefit by claiming they care 35 hours per week. We need to start really looking at what they can do to reduce the need for POC. If an older person needs assistance with washing and meal prep but no other care requirements that can easily be met within 35 hours a week. Either the person claiming the carers allowance carries out the duties within the 35 hours a week or if they still want a poc they have to pay for it in full if it is under 35 hours a week of care. Some older people are claiming for services because it is free and don't utilise them and care providers don't let on that the 40 minute call in the morning isn't really required because the older person who claims that cant wash or dress themselves actually manages fine but if they were to pay for the service they would soon cancel or reduce the service.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12365	An individual	2b. Adult and Older People Assessment	Older people care within their communities should not be reduced	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12366	An employee of West Lothian Council	2b. Adult and Older People Assessment	We need to ensure that elderly people are not neglected. We will all reach this stage in our life and want to be cared for and treated with dignity.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12367	An employee of West Lothian Council	2b. Adult and Older People Assessment	Sounds like you are planning to reduce provision for some of the most needy in our community. Dreadful.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
12368	An individual	2b. Adult and Older People Assessment	Get other organisations involved to assist	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12369	An individual	2b. Adult and Older People Assessment	This is an area of activity that demands more, not less expenditure.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12370	No Response	2b. Adult and Older People Assessment	Having had personal experience of this, the service needs to be modernised, to be focused on need and responsive to changes. There needs to be a greater emphasis on ensuring families feel supported and valued and there also needs to be greater feedback of the quality of services provided.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12371	An employee of West Lothian Council	2b. Adult and Older People Assessment	The concern here is that other services may inherit problems/issues which they would not usually be involved with if the level of care is inappropriate. When a customer is unable to get help from one service they will use other services to try to access the help they need. This can be time consuming and without appropriate agencies to refer people onto can be detrimental to the services and the customer. Large amount of resources are focused on vulnerable individuals who if they had the appropriate care services in place would reduce the need for such resources. Examples of this would be customers who phone services repeatedly because they are lonely, scared or confused. The appropriate services need to be the ones who step in. There needs to be a clear line of responsibility.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12372	An individual	2b. Adult and Older People Assessment	Dreadful targeting the most vulnerable	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12373	An individual	2b. Adult and Older People Assessment	Should we be funding people going on holiday through sds payments?	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self-directed supports enables people to choose how their care is met, and by who, as long as it meets their assessed eligible needs

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12374	An individual	2b. Adult and Older People Assessment	Adopt the same as others.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12375	No Response	2b. Adult and Older People Assessment	IT is not the fault of our elderly population that we find ourselves in this predicament and they have payed taxes and contributed to society for many years then they surely deserve some looking after irrespective of their situation	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12376	An individual	2b. Adult and Older People Assessment	I am a disabled older person. I attend the Ability Centre in Carmondean in Livingston twice a week for computing skills (last year I achieved the PC Passport through the Ability Centre) and yoga. Both these activities and help from the support staff have contributed to my continued rehabilitation since I became disabled. Also I have an outreach placement (provided by the Ability Centre in the Lanthorn Community Centre) once a week. This affords me the opportunity to converse with other adults and to do activities and outings , all of which helps with my social skills and mental health. I feel that were you to close the Ability Centre this would be a great loss to individuals (some for whom this is the only day they see and talk to people in a week) and to the community.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The aim is to encourage community capacity building and informal networks to ensure people remain connected with their local area rather than through centre based activities alone
12377	No Response	2b. Adult and Older People Assessment	This does seem a hefty saving in this particular area. Not sure how you would define "more appropriate interventions".	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12378	An employee of West Lothian Council	2b. Adult and Older People Assessment	Reduce and remove anything which is not statutory.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12379	An employee of West Lothian Council	2b. Adult and Older People Assessment	It is my experience that a very small level of support can and does often sustain people in their own homes and support the needs of their carers for many years. Without this, many people and their carers can become stressed and less able to deal with their own health needs and tenancies. I would therefore suggest that it may be a false economy to adopt a system that no longer provides a service to those who need only a little support as their needs and circumstances are much more likely to develop to the critical stage.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12380	An employee of West Lothian Council	2b. Adult and Older People Assessment	I feel a charging policy would be a much fairer way of meeting peoples needs, despite the identified risk threshold levels.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12381	An employee of West Lothian Council	2b. Adult and Older People Assessment	Many people with very high needs have several informal supports in place while those who require minimal support can be very isolated within there community and could be argued as being some of the most vulnerable.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12382	An individual	2b. Adult and Older People Assessment	I do not support the above proposal - I know we need to find the funding but not from the individuals who are the most vulnerable	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Adult and Older People Assessment	This area has been prominent in media reports in recent years therefore minimum loss to services in this area would be beneficial	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12384	An individual	2b. Adult and Older People Assessment	This approach is not consistent with current thinking on early intervention and prevention.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12385	An employee of West Lothian Council	2b. Adult and Older People Assessment	A re-enablement approach should be taken with regard to hospital discharges and crisis interventions and commissioning the independent sector to provide part of this.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12386	An employee of West Lothian Council	2b. Adult and Older People Assessment	Also care agencies should be commissioned to achieve set outcomes with service users rather than just deliver services.	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12387	An employee of West Lothian Council	2b. Adult and Older People Assessment	People need people, humans need human contact.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12388	No Response	2b. Adult and Older People Assessment	As above - Surely the focus should already be on highest risk cases with regards to children. this should not be a new idea in terms of reshaping a service.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12389	An individual	2b. Adult and Older People Assessment	As for people affected with dementia there should be special units across West Lothian to allow these people to get the correct care and not integrated into homes without trained staff.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12390	An individual	2b. Adult and Older People Assessment	This seems an impossibly high target given that the elderly are living longer and that the care from families will decrease due to work related factors. Some of the provision could be taken by communities but that would need to be funded adequately.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12391	An individual	2b. Adult and Older People Assessment	There is a need to protect vulnerable people.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12392	An individual	2b. Adult and Older People Assessment	Agree that threshold levels for elderly care should be at critical/substantial.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12393	No Response	2b. Adult and Older People Assessment	Elderly care is provided by private companies who do not always provide what they have been contracted to provide. Fines for companies or reduction to payments where service not provided	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12394	An individual	2b. Adult and Older People Assessment	Need is increasing not declining More complex needs require longer care visits and more considered care Cannot imagine savings can be made without people falling through the net or being put at risk	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12395	An employee of West Lothian Council	2b. Adult and Older People Assessment	This would be a sensible approach though there are more (unpaid) carers now than before, hopefully the new changes would support them too.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12396	An employee of West Lothian Council	2b. Adult and Older People Assessment	This is no surprise given the history of West Lothian/Livingston. High young population will grow older => increasing older population. This has been projected since the 70's - so could be argued that there was a huge lack of foresight/planning on the part of WLC/CPP. WLC is overstating older people time bomb. Are needs solely those set out in legislation? Who is the arbiter of need? Clinicians? Family? Social workers? Accountants? Flabberghasted that "Social Work resources would be focused on supporting those most in need and short care visits would be reviewed to identify if more appropriate interventions are required. The council would also expand on the successful use of technology to support care at home provision." isn't already the norm.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian has modelled the demographic growth into its budgets and it is this rising cost against insufficient funding that has created the budget gap. Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

12400	An individual	2b. Adult and Older People Assessment	This is an area of concern and worry to most old people. There are constraints on budgets and in the twilight of one's years no one wants to feel a burden. However, no one should have to be without the services they require and assessments need to be carried out fully to meet the needs and take into account budget constraints/service constraints.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12401	An individual	2b. Adult and Older People Assessment	Support these findings if they are based on benchmarking on what other local authorities are already providing.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12402	An individual	2b. Adult and Older People Assessment	Needs to make sure each individual is given enough care time not a two minute visit	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly

12403	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agencies have to be linked. Information shared on the same system. One agency. Care at home is good but it has to be care not just people ticking boxes. If a person has a 30minute visit they get 30 minutes not just 5 min because they are fine. The person may be very lonely and just needing a blether.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12404	An individual	2b. Adult and Older People Assessment	I think great care needs to be taken to ensure those not 'critical/substantial' do not fall through the gap!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12405	An individual	2b. Adult and Older People Assessment	It is difficult enough to access this service currently without making it near impossible. Leave it alone!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12406	No Response	2b. Adult and Older People Assessment	Invest in carers to look after our elderly and infirm in the home.	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
12407	An individual	2b. Adult and Older People Assessment	Care for older people should not suffer.. I agree with streamlining but not to the expense of good care for all older people.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12408	An individual	2b. Adult and Older People Assessment	The elderly population is growing and therefore interventions will be required, it is also clear that assessment criteria might change. Essentially it is better to support people in their own homes as long as the support provided is tailored to need and the whole support mechanism is holistic in its approach, not just 10-15 mins visits that sees cup of tea and medication placed on a table.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12409	An individual	2b. Adult and Older People Assessment	. Quality is important and maybe there is a need to look creatively at how services are provided - lunch clubs, etc that can be accessed and sometimes provided by different agencies, e.g., community centres, churches etc.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12410	An individual	2b. Adult and Older People Assessment	We need to care for our old people. With the retirement pension age increasing all the time people will be working longer and paying more tax etc.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12411	An employee of West Lothian Council	2b. Adult and Older People Assessment	Disagree - My understanding was that we were already only considering those most at need...	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12412	No Response	2b. Adult and Older People Assessment	Many homecare visits are too short to provide an adequate level of care. Most elderly people have paid in for 40 or 50 years. They are entitled to be cared for.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12413	An individual	2b. Adult and Older People Assessment	Our older generation have lots of pride in accepting help whether it be financial/health or services.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12414	An individual	2b. Adult and Older People Assessment	It is a shame that older people services appears to be one of the most heavily hit, but completely understand the need for it given the constantly growing numbers of older people.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12415	An individual	2b. Adult and Older People Assessment	Agree with this. Families should be reminded that it is not societies duty to look after elderly parents. Sons and daughters need to be encouraged to take responsibility.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12416	An employee of West Lothian Council	2b. Adult and Older People Assessment	this would allow those most in need to still access help which is good, however many people can benefit from small levels of help which would allow many to successfully live in their own homes longer. This frees up care homes / hospitals for those most in need.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12417	No Response	2b. Adult and Older People Assessment	no alternative - but should set up / support volunteering / befriending schemes and enable high schools to get involved. Voluntary opps seem fragmented and unfocussed	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12418	An individual	2b. Adult and Older People Assessment	We need these services	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12419	An individual	2b. Adult and Older People Assessment	More help with elderly people.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12420	An individual	2b. Adult and Older People Assessment	I disagree with this approach I'm concerned about level of home provision and support provide	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

12421	An individual	2b. Adult and Older People Assessment	Having watched my mum experience the care system for a number of years there seem to be areas that could be run more efficiently. Short care visits are not popular and the carers seem to rush between clients spending more time travelling than with the old people who usually look forward to the visits. This area should be much more streamlined. One of the biggest areas for concern that we experienced was hospitals discharging before the person was fit to be discharged. So out one day and back in the next. All the work involved in getting the care organised for it to be shelved for a number of days or weeks. This happened several times. This really needs addressing and could save money if done properly.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12422	An employee of West Lothian Council	2b. Adult and Older People Assessment	High levels of saving. Need to ensure the policy can work. Health should contribute more as pressures are provided by them.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12423	An individual	2b. Adult and Older People Assessment	The elderly have worked for many years paying taxes etc and then when they need the support it has and is continually being reduced.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12424	An individual	2b. Adult and Older People Assessment	This sounds like a retrograde step. West Lothian and NHS Lothian have set up some very effective services for identifying individuals at risk and rehabilitating them in the community. When combined with the next measure described in "care for Adults" this seems contradictory.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12425	An employee of West Lothian Council	2b. Adult and Older People Assessment	I believe that care of the elderly should not be scrimped upon.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12426	An employee of West Lothian Council	2b. Adult and Older People Assessment	The way to deal with increased budget pressure is not to abandon those who need services.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12427	No Response	2b. Adult and Older People Assessment	Providing care or assistance at home is a lifeline to some and needs to be maintained. I would say however that things like the homecare system could be charged for, even a nominal amount would be revenue in.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12428	An individual	2b. Adult and Older People Assessment	You cannot cut the human element of elderly care. You risk isolating people in their homes.	Adult & older people (general)	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12429	An individual	2b. Adult and Older People Assessment	I have no issue with this as long as long as the gap between visits on the most needy do not leave them in danger.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12430	No Response	2b. Adult and Older People Assessment	Agreed. Care packages at home need to be supported as well as health recommendations need to be supported to support people at home.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12431	An individual	2b. Adult and Older People Assessment	Also need to find ways of encouraging the local community and family to assist	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12432	An individual	2b. Adult and Older People Assessment	This represents a huge risk-and reducing the input to people will effectively have a knock on effect on hospital admissions and delays. Need to work closely with health to anticipate the impact these changes would make.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12433	An employee of West Lothian Council	2b. Adult and Older People Assessment	We will ALL hopefully become old some day we should take great care to ensure the people who actually pay into the services get their just reward when they/we need it most	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12434	An employee of West Lothian Council	2b. Adult and Older People Assessment	This is our most vulnerable group in society. As people age, they increasingly have more complex health and consequently care issues - protect our elderly, they are the group least able to defend themselves! In other authorities, daily care is not always offered - perhaps every other day - and packages are reviewed regularly. We need to react to changing needs and health requirements - does a person need a full package of support all the time, be more flexible to spread resources!	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12435	An individual	2b. Adult and Older People Assessment	The integration of social care provision for the elderly in concert with the hospital services should help to provide a more balanced care package for the most vulnerable people in society. Again this will need to be a long-term strategy to take account of the increase in the numbers of elderly people.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services

12436	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving. What is the criteria, what method will be followed, what is the assessment process? The threshold levels will only exacerbate the situation as more people needing help will reach critical/substantial as they will not get the support they need at an early stage, the same applies for respite as they need the support before they get to a critical stage. Existing clients who need re-assessed because their needs have changed - how do they fit into this new model? Higher chance of the breakdown of families because they won't get early intervention as they need to reach the new threshold of critical/substantial. Where are our rights to citizenship if our life choices and chances are being reduced, as the consultation and these savings will only lead to further isolation and less or no involvement in our communities.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. This consultation is a set of proposals to enable officers to prepare for budget setting. More detailed work will be undertaken as the processes progress from this initial formative stage
12437	An individual	2b. Adult and Older People Assessment	there is a great need for proper care for the elderly. A lot of elderly people do not have family to care for them.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12438	An individual	2b. Adult and Older People Assessment	It is very disappointing that the Council are considering makes cuts like this. I appreciate it is a costly service but you are cutting services from people that have no other options yet you are investing in child care etc which is also very expensive. The reason I say this is that people choose to have children and whilst it may cause great upheaval for families if they cannot access childcare it is not the same as disabled and elderly people who have no other choice in life and didn't necessarily do anything to end up ill. Too many now are obsessed with living in better housing etc and are asking for state support to attain this while disabled and elderly are being denied basic adequate housing and support services resulting in complete isolation and no quality of life. This would be acceptable if they had resources and health to change things but they are backed into a corner.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12439	An individual	2b. Adult and Older People Assessment	Constant reviewing of cases sounds good but how will it impact social work staff workload?	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
12440	An employee of West Lothian Council	2b. Adult and Older People Assessment	On the one hand the council are proud to say they have improved the quality of life for older people. Cutting in this service area is only going to leave increased problems for older adults depression loneliness health problems for vulnerable people. Its very frustrating that by law these services are not important	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
12441	An individual	2b. Adult and Older People Assessment	Again huge savings being proposed. As having experience in this service already, you can't deal properly with the critical/substantial needs at the moment - this is only going to make matter worse.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12442	An individual	2b. Adult and Older People Assessment	I like the idea of nursery kids visiting old people's homes etc as this seemed to have benefits for both.. mentally and physically	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12443	An individual	2b. Adult and Older People Assessment	This sounds quite vague to me. I am a nurse and feel strongly that the most vulnerable elderly people should have priority.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12444	An individual	2b. Adult and Older People Assessment	Sounds like a road to disaster for our elderly. I see no positive actions to encourage families to look after their elders. We need to shift the culture in this country and the councils that head in this direction. Won't need to provide as much care services. Move in the opposite direction. Rethink your strategy, or a growing ageing population will continue to be a drain on your resources etc.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12445	An individual	2b. Adult and Older People Assessment	Care at Home is fundamental and if increased technology can allow this for more people I think it is a good thing, remembering not to make them isolated.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12446	An employee of West Lothian Council	2b. Adult and Older People Assessment	I am not in a position to comment, however, the council need to be very careful that reorganising such services does not cause people 'on the edge' of vulnerability to suddenly lose any support network they may have	Adult & older people (general)	3. The respondent advised that they had no comment to make.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

12447	An individual	2b. Adult and Older People Assessment	It is imperative for older people and adults who need care to be treated with the utmost respect and nurturing. Often these people are vulnerable with no family to help out. From personal experience I have been on the receiving end of a parent who needed care. Our family endured care companies who did what they liked, we had social workers who made us feel guilty for asking for more care and having to wait an unacceptable amount of time for equipment which was urgently needed. When my dad did eventually go into full time care it was as an emergency when our family were unable to care for him at home. My worry is that other people will be treated like this with more cuts. It's essential to treat the client but just as essential to help families as without them you lose your frontline carers.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12448	An individual	2b. Adult and Older People Assessment	It is imperative for older people and adults who need care to be treated with the utmost respect and nurturing. Often these people are vulnerable with no family to help out. From personal experience I have been on the receiving end of a parent who needed care. Our family endured care companies who did what they liked, we had social workers who made us feel guilty for asking for more care and having to wait an unacceptable amount of time for equipment which was urgently needed. When my dad did eventually go into full time care it was as an emergency when our family were unable to care for him at home. My worry is that other people will be treated like this with more cuts. It's essential to treat the client but just as essential to help families as without them you lose your frontline carers.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12449	An individual	2b. Adult and Older People Assessment	Grants to owner/occupiers should be removed.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12450	No Response	2b. Adult and Older People Assessment	The service provided to elderly at the moment is stretched. Carers are having to cover massive areas which leave little time to actually care for the elderly and are having to put the adults to bed at 7.30pm at night which is no quality of life whatsoever.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12451	No Response	2b. Adult and Older People Assessment	The service provided to elderly at the moment is stretched. Carers are having to cover massive areas which leave little time to actually care for the elderly and are having to put the adults to bed at 7.30pm at night which is no quality of life whatsoever.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12452	No Response	2b. Adult and Older People Assessment	Some sense here, as long as it is sufficiently resourced and technology is fit for purpose then this is achievable.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12453	An employee of West Lothian Council	2b. Adult and Older People Assessment	Support for this proposal would be dependent on some hard evidence that removal of early intervention, when needs are lower, would not result in more rapid requirement for more expensive critical services.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12454	An individual	2b. Adult and Older People Assessment	The elderly have often worked and paid into the governmental system through tax and then when they require the help find it is not accessible to them. From personal experience if not for the carers who helped with or family needs we would have required my mother to have accessed care home which would have been a more expensive for the council than the care package that we had.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12455	An individual	2b. Adult and Older People Assessment	The elderly require the care. If you cut the costs this means less care will be given, less time will be spent with these individuals. This is not a person centered care approach.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12456	An individual	2b. Adult and Older People Assessment	There is no easy answer to how communities who have become disengaged and dependant on the state become more involved again. It shouldn't be up to just the council to look after people with lower level needs.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12457	An individual	2b. Adult and Older People Assessment	Perhaps the Council could cut back the use of agencies for providing care at home. If the carers were directly employed by the Council who already have admin and HR functions, surely this would be more cost effective than paying agencies who have staff on zero hours contracts and are paid the minimum wage. They provide a most valuable service. Having had this service for my mother before she was placed in a care home, we couldn't have coped without it.	Adult & older people (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council commissioned care from the private sector can be provided at a lower cost that the council can provide. We work in partnership with our commissioned services and will continue to do so.
12458	An individual	2b. Adult and Older People Assessment	Closing of the day centres for the elderly is not a good idea.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

12459	An individual	2b. Adult and Older People Assessment	I think there is a need to consider some changes to the way services are delivered to older people with low level need. Short care visits are provided for low level need and at the same time people are in receipt of attendance allowance, perhaps part of the assessment is looking at how this is being utilised to meet the outcomes. Organisations currently providing assistance with shopping eg food train, perhaps could expand to offer assistance with meal preparation cutting down on short visits where assistance with meals is the only task. Staff completing assessments could be more aware of voluntary organisations and local resources to be able to signpost services users and families where their need is low/moderate.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign

12463	An individual	2b. Adult and Older People Assessment	Furthermore, the impact of this reduction in the employment opportunities for individuals who work in the care sector is a likely consequence of a reduction in funds for social care.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12464	An individual	2b. Adult and Older People Assessment	Care should be required for vulnerable elderly tenants who need it. More and more younger people who have led abusive lifestyles and continue to do so are accessing services primarily designed for the elderly. These cases should be reviewed and more appropriate care settings provided. Those who can still work should not be in a care setting. If there is harassment issues local council housing officers should deal with it using an integrated approach with police and neighbourhood response.	Adult & older people (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	We are required by law to cover work which some people may not agree with. In relation to integrated working West Lothian has a proven track record of partnership working and will continue to build on this.
12465	No Response	2b. Adult and Older People Assessment	with the constant bed state in NHS lothian at crisis level main due to patients waiting for packages of care blocking beds for anywhere from 2weeks to 8 months how will this help reduce the stress on the NHS	Adult & older people (general)	2. The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12466	An individual	2b. Adult and Older People Assessment	This is huge but as before one prescription can't fit all. Some great incentives are in place here but more investigation of needs must be done. Again the idea of Free has taken over and the county is bearing the brunt. However elderly people need support, stimulating environments and places to live in.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12467	No Response	2b. Adult and Older People Assessment	As the population gets older there will be an understandable increase in the number of people requiring social services. Training needs to be identified to ensure that Social workers are able to identify when individuals are claiming for services they do not require.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12469	An employee of West Lothian Council	2b. Adult and Older People Assessment	There is a lacking already in support for the elderly. This should be improved drastically and more funding to it and not cut from it. We are all going to grow old, living longer and with more each year needing care. this needs tackled now before it gets any worse.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

12472	An employee of West Lothian Council	2b. Adult and Older People Assessment	I think this is a good proposal. Although most older people are vulnerable, there are some that just take advantage of the system and think they should be entitled to it. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12473	An individual	2b. Adult and Older People Assessment	Most of these older people have worked and lived in West Lothian all of their working lives, and have paid their taxes etc, now when they need a little help and assistance, the same Council who have taken their council tax over the years are now turning their backs on them.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12474	An employee of West Lothian Council	2b. Adult and Older People Assessment	Better training, delegation, trust and empowerment is required at all levels.	Adult & older people (general)	6. 12475	An individual	2b. Adult and Older People Assessment	I think more could be done to meet people's needs in the community. My mother benefits from attending social events with friends and acquaintances and I would imagine that having a paid carer to sit at home with her (as some of her friends have) to stop loneliness/isolation would not be good for her wellbeing. However, the council needs to ensure sufficient community resources to fill some of older peoples needs that will no longer be met	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12476	An employee of West Lothian Council	2b. Adult and Older People Assessment	Occupational therapy can be used as a preventative measure and used towards keeping people at home in the community for as long as possible.	Adult & older people (general)	4. The council is already doing this.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12477	An employee of West Lothian Council	2b. Adult and Older People Assessment	Again vulnerable and elderly people deserve the same care as the majority of the population.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12478	An individual	2b. Adult and Older People Assessment	If people need the care services they need them and I strongly believe cuts should not be made in this area. If older peoples needs are not met by the local authority it's going to be left up to their relatives to look after them which seems very unfair to me. What will happen to people that don't have anyone to support them? I think changing the threshold levels is a mistake. If they are not receiving low / medium level care and the support they need this will lead to client needs increasing more rapidly.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12479	An employee of West Lothian Council	2b. Adult and Older People Assessment	Personally I don't think there is enough funding to support the elderly in need of care and I hope this is not the same old story - means testing and the individuals who have worked to save for their old age end up paying for care and the individuals who have spend all their money get everything paid for them or for nothing.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12480	An employee of West Lothian Council	2b. Adult and Older People Assessment	While I agree with some of this it is very important that isolation is addressed in this category. This is an intervention/prevention that can provide much better outcomes and less expenditure. Of course the most critical must get the care they need but isolation and a holistic approach is vital here	Adult & older people (general)	1. The respondent advised that they agree with the proposal. 12481	An employee of West Lothian Council	2b. Adult and Older People Assessment	I am strongly against any changes to elderly care - its a very poor society if we cant care for our elderly	Adult & older people (general)	2. 12482	An individual	2b. Adult and Older People Assessment	Disgraceful that you feel that you can still provide a service to look after the most vulnerable citizens and save nearly £9 million . If this was possible why have you been wasting money for years . Surely that would explain the shortfall .	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides care for people at all levels - the proposal seeks to raise the threshold for services to target the most vulnerable in our communities.
12483	An employee of West Lothian Council	2b. Adult and Older People Assessment	Don't cut the elderly care needs.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12484	An employee of West Lothian Council	2b. Adult and Older People Assessment	This proposal places the responsibility back on families which means people will have to leave employment to care for elderly relatives affecting the economic prosperity of the local authority. The Council needs to start planning now and thinking creatively about a solution to a problem that they have known is coming.	Adult & older people (general)	4. The council is already doing this.	West Lothian has modelled the demographic growth into its budgets and it is this rising cost against insufficient funding that has created the budget gap.
12485	An individual	2b. Adult and Older People Assessment	Please dont leave older people without services until crisis point. This could be ineffective saving in the long term. Have other councils worked out the long terms costs of waiting until these people are requiring critical care?	Adult & older people (general)	4. The council is already doing this.	West Lothian has modelled the demographic growth into its budgets and it is this rising cost against insufficient funding that has created the budget gap.

12486	An employee of West Lothian Council	2b. Adult and Older People Assessment	Older people deserve better care none of these services should be cut	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12487	No Response	2b. Adult and Older People Assessment	Again, this will put more pressure on families who are trying to work hard and pay all of the tax required. If there is less support for older people then families will have to do more. What about the elderly who don't have family to step in?	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12488	An individual	2b. Adult and Older People Assessment	This is seriously worrying. The implications appear to be that means testing is to be employed to ration services. It looks like becoming a service of last resort with only the most in need being provided for. Once again, in almost every sector, the "just about managing" group are worst affected.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12489	An individual	2b. Adult and Older People Assessment	there isn't enough being spent on this provision as it is, as you say there are more elderly people now , so get a more hands on workforce and cut down on some of the technological provision we need more time on home visits, give the elderly a better quality of life , it is 2017 after all!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
12490	An individual	2b. Adult and Older People Assessment	ensure pensioners are not readily dismissed for essential needs and care , needs more thought though .	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12491	An individual	2b. Adult and Older People Assessment	This is a difficult area because people are living longer and with more complex multimorbidity and this is only going to escalate.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12492	No Response	2b. Adult and Older People Assessment	I thank mabey a little less for this	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12493	An individual	2b. Adult and Older People Assessment	Why is this a change, surely it should have been current good practice.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	The council currently provides care for people at all levels - the proposal seeks to raise the threshold for services to target the most vulnerable in our communities.
12494	No Response	2b. Adult and Older People Assessment	Funding must be preserved to ensure our elderly are not lonely, their dignity and health are preserved and that they receive the care they need when they need it. You only need to think how you would feel if this proposal was applicable to you and yours to know it needs further thought and consideration.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12495	An individual	2b. Adult and Older People Assessment	Care for the elderly and vulnerable people in our community should be one of the councils top priorities and any cuts should be kept to a minimum.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12496	An individual	2b. Adult and Older People Assessment	Having supported my mother-in-law as she suffered from dementia I appreciate how the council services are vital in this regard. I wouldn't want any cuts made to this particular area. It's frightening to think what the future holds for other people needing social care.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12497	An employee of West Lothian Council	2b. Adult and Older People Assessment	This is a farce , the care system for the elderly is poor and social services and occupational therapy is already struggling on poor budgets ,and the payments from the government mean lots of old people have to pay for sparse services	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12498	An individual	2b. Adult and Older People Assessment	OK, so you, again want to concentrate your reduced budget on the most needy. I wonder how this service users and those with unmet needs. Have you, or will you look at other models of the provision of social care being developed in Continental Europe/ Is a local Authority with its very high overhead the best placed organisation to deliver social care?	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12499	No Response	2b. Adult and Older People Assessment	The older generation are not going to get any smaller and more care will be needed as home ownership dwindles and therefore unable to pay for care	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12500	An individual	2b. Adult and Older People Assessment	Careline is a great service and so reassuring to many elderly and disabled people in our community - including their families.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12501	An individual	2b. Adult and Older People Assessment	Care packages in place at the moment are an excellent support - enabling people to stay in their own homes.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12502	No Response	2b. Adult and Older People Assessment	For some housebound clients the only human contact that they have is their care visits. The 15 minute visit does not even meet their personal needs.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12503	An individual	2b. Adult and Older People Assessment	Can details of this plan be published for interested parties to view electronically and/or hardcopy? What is the criteria of a "critical/substantial" need? If you do not meet that criteria are you signposted to other third party organisations or left to your own devices? Far more details is needed to understand what the statement above means and WLC intentions. Short care visits being reviewed sounds like existing people as well as new people? Technology is a huge help and safety net for those who can access it and know how to work it. For those who have learning difficulties, dementia etc technology must be used to enhance someones life. Not be used to replace personal contact. Quality of life is vital. Being scared in your own home, or whilst on your own is unnecessary in our lives today. We need to identify new ways of caring for people.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12504	An individual	2b. Adult and Older People Assessment	Give help to people who really need it. I know of folk who needed help for a few weeks and still get carers a year later. Which they do not want or need!	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12505	An individual	2b. Adult and Older People Assessment	The difficulty we have with care is that there is a huge initial cost to be able to provide all current services through council but due to the ever growing old and young population within West Lothian. Funding third parties it is going to work out most expensive long term. This will become a monopoly for the few companies which could realistically provide care.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
12506	An individual	2b. Adult and Older People Assessment	In theory this all seems positive however in these instances Council must be guided by the professionals at the "coalface".	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12507	No Response	2b. Adult and Older People Assessment	More appropriate interventions is the key part here. The input should be tailored to the specific needs of the older person and more emphasis should be placed on the quality of care and to prevent isolation rather than just focussing on physical needs-which are not often even met.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12508	An individual	2b. Adult and Older People Assessment	You have stated a growing need as our elderly population grows but want to cut this service. How is that going to improve the lives of our elderly people?	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12509	An individual	2b. Adult and Older People Assessment	This is obviously a big issue at a national level. Radical change is required but may be for UK / Scottish government to take lead. No easy answers.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12510	No Response	2b. Adult and Older People Assessment	Care at home packages are atrocious and I can't see how these would improve.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12511	An individual	2b. Adult and Older People Assessment	This is a growing problem and having worked in the health care system for many years I can see that this is spiralling out of control. This is a major government issue and all stems back to our model of healthcare. More emphasis should be given to prevention, education on healthy lifestyle and large amount of responsibility must be placed on individuals themselves. We are just allowing ourselves to crumble into old age and expect endless services to be provided. I am unsure how individual local councils can deal with this without a nationwide initiative.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12512	An individual	2b. Adult and Older People Assessment	Unacceptable to make savings here. These old people have paid into the system and don't deserve to have corners cut.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12513	No Response	2b. Adult and Older People Assessment	Hopefully the Council will balance the relatively low cost of early intervention with the higher cost of late intervention which may be incurred if support is not provided at early stages meaning people's conditions get worse, costing more to support them in the long run.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12514	An individual	2b. Adult and Older People Assessment	Supporting local charitable organisations like West Lothian 50+ is a cost-effective way of providing support to the elderly which might make the difference between people remaining independent and in good mental health and being reduced to needing greater direct support from the Council services.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12515	No Response	2b. Adult and Older People Assessment	Go for it and if it's not achievable flag it to the Scottish Government, they are the organisation demanding these cost reductions	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12516	An individual	2b. Adult and Older People Assessment	I think improving quality of life for old people should be first priority because i think they need more support towards their independence to get out there care homes and live a life as some old people are isolated	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12517	An individual	2b. Adult and Older People Assessment	This is an important area as we are all living longer. I am not experienced in this field but I trust you will be looking at areas of best practice both nationally and internationally. I believe Italy has some innovative ideas in adult and older people assessment.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12518	An individual	2b. Adult and Older People Assessment	Most of the older people have contributed all their lives to WLC it is now that they are given priority	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12519	An individual	2b. Adult and Older People Assessment	I think the proactive approaches in place could be aligned better to ensure people are using to best advantage all the approaches that exist. I believe this will have longer term savings on needs. What approaches need re-disinged to make people take responsibility for their own long term health?	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12520	An individual	2b. Adult and Older People Assessment	It would be good to know what contingency plans the council have when care homes close without warning, such as has happened in the case of the Bield homes.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	West Lothian has a proven track record of partnership working and would wish to build on this. The Council works closely with all providers to monitor all aspects of their business models and in the case of Bield this was a national decision to change their model, not something linked just to West Lothian Council's commissioned services
12521	An employee of West Lothian Council	2b. Adult and Older People Assessment	Hopefully great care is taken when implementing these measures as these adults are at their most vulnerable and the community should be helping. Our elderly have been paying into a system all their working lives and should not be worrying about where they can get help. It should be there.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12522	No Response	2b. Adult and Older People Assessment	More support for adults and the community. These services appear to have been getting cut over past few years	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12523	No Response	2b. Adult and Older People Assessment	Cut the number of senior managers and speed interventions for the provision of support packages and transfers between LA areas	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
12524	An individual	2b. Adult and Older People Assessment	As above, when the elderly given all these gadgets and door railing etc why are they left behind? Why are these not recycled?	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12525	An individual	2b. Adult and Older People Assessment	Very important. Should be streamlined where possible where maintaining choices and standards.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12526	An individual	2b. Adult and Older People Assessment	Old folk just want to live their twilight years in dignity. Make this possible!	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12527	An individual	2b. Adult and Older People Assessment	I think much better shared working between health and social care is essential. Understanding eg which residents require support on discharge from hospital, putting the support including technology in place to allow them to remain at home safely for longer is part of this. Likewise better working with third sector and families to fully assess requirements and how they can be provided is essential.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12528	An employee of West Lothian Council	2b. Adult and Older People Assessment	All good Again there is also a need to focus on preventative measures - eg promote active aging and tackle the causes that could lead to age related conditions that require care provision. 12529	An individual	2b. Adult and Older People Assessment	There is currently not enough resources to meet the care for clients. People who need the service most are priority, however everyone needs the assistance available and not forgotten about.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12530	An individual	2b. Adult and Older People Assessment	Yes, I agree. Currently older and disabled people are receiving services when many could pay more for their care. For example a wealthy disabled person may secure equipment to help them live at home if an Occupational Therapist agrees - I do not support this sort of spending.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12531	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	This is going to impact on care for a large percentage of our Learning Disability clients. Many people with small packages of care are safely sustained in the community and without that this will have an adverse effect on the mental health of our vulnerable patients and increase hospital admissions and use of community services. If small packages of care are removed then it is likely that their needs will become critical and substantial therefore costing more money. As an alternative a way to save more money would be means tested contributions to the client's own service.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12532	An individual	2b. Adult and Older People Assessment	It's all good and well caring for older people within their own homes but careers are afforded so little time that a comprehensive service cannot be fulfilled.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12533	An individual	2b. Adult and Older People Assessment	If people are to be kept at home you need to provide adequate care. Not only physical but for mental health as well which needs an active social life, they can not do this them selves as physical age is a travel constraint and many older people do not have family.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12534	An individual	2b. Adult and Older People Assessment	Feel older people who only need help after being in hospital or cant cope in their home will be most affected.	Adult & older people (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12535	An employee of West Lothian Council	2b. Adult and Older People Assessment	Agree that this needs to change but disagree if it's the usual "people on benefits don't need to pay anything whilst working people pay in full". This is unfair on working people. It's all very well on paper saying you can support people at home by technology but some people just want to see a friendly face and enjoy some "real" company.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12536	An individual	2b. Adult and Older People Assessment	West Lothian Council and NHS Lothian failed my mother-in-law during the last weeks of her life. Her discharge from hospital to spend her last weeks in her own home were delayed by the inability of the Council and the NHS to put in place a care package. We received a letter to confirm the care package the day after she died. I have very limited confidence in West Lothian Council to deliver care services.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The respondent's experience is noted with regret. The Council and NHS Lothian have embarked on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services with our care providers.
12537	An individual	2b. Adult and Older People Assessment	Some of those affected have worked all their days And in their later days some are forgotten so keep the Social Work	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12538	An individual	2b. Adult and Older People Assessment	Surely the most vulnerable group of citizens in our society are persons who through no fault of their own are born with severe and complex special needs, who are unable to fully express opinions and who will rely on 24/7 care throughout their lives. Our [REDACTED] is one such citizen and [REDACTED] we have been very appreciative of the care provided by WLC through school years and onto residential placement. It would be our wish that this care is not compromised as financial pressures become increasingly challenging. It is therefore our hope that the Council will give us the comfort we seek as ageing parents in knowing our daughter is given every opportunity to live in a safe, comfortable and happy environment with the right level of support to allow her to flourish and develop her full potential. We're sure you will understand that this element of Social Care provision is very very close to our hearts and we will be watching developments closely on behalf of our special daughter.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12539	An employee of West Lothian Council	2b. Adult and Older People Assessment	Not as much cuts to services for the elderly	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12540	An individual	2b. Adult and Older People Assessment	This will be good, but better value needs to be driven from all of your suppliers to ensure the best possible value and use of public money.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12541	An individual	2b. Adult and Older People Assessment	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve. How will residents know when this is achieved?	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12542	An individual	2b. Adult and Older People Assessment	The people who need these services must be provided for.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12543	An individual	2b. Adult and Older People Assessment	The majority of these people will have paid there council tax / rates for years helping to fund local authorities for years it's not their fault for the cuts just bad management /political choices etc. The best care should be provided.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12544	An individual	2b. Adult and Older People Assessment	Free care for the elderly? More support from central government seems necessary?	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12545	An individual	2b. Adult and Older People Assessment	I thought with the massive pressures on the NHS, there were to be increased resources directed towards home care services - basically to free up the the very expensive hospital beds. This proposal seems to be diametrically opposed to this concept. What are Scottish Local Governments and Scottish Health Services views on a "combined NHS Social Care Service" - maybe Local Governments need to be relieved of the social care responsibility and have this combined within the regional Health Boards. Hopefully this isn't just shuffling the deck chairs on the Titanic!	Adult & older people (general)	4. The council is already doing this.	The West Lothian Integrated Joint Board (IJB) directs the council and health agencies to deliver local services. The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12546	An individual	2b. Adult and Older People Assessment	they need social care for people who are most in need	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12547	An individual	2b. Adult and Older People Assessment	My family are relying on care for the council.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12548	An employee of West Lothian Council	2b. Adult and Older People Assessment	This will affect people that have very little communication with the outside world. I wouldn't like to imagine a world where I was stuck in a house with no visitors.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12549	An individual	2b. Adult and Older People Assessment	Need to make decisions that support the elderly fairly as a number of these people fall through the net. Need to close any gaps and make sure care does not fall down in anyway due to their vulnerability	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12550	An individual	2b. Adult and Older People Assessment	This is not sustainable with a growing elderly population in West Lothian, puts older members of our community at risk, and will increase pressure on the health service.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12551	An individual	2b. Adult and Older People Assessment	Would need strong support from the Scottish Government to ensure public recognition of this serious problem of the increase in the elderly population.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12552	An individual	2b. Adult and Older People Assessment	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12553	No Response	2b. Adult and Older People Assessment	inevitable but home care is still cheaper and better than hospital care	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12554	No Response	2b. Adult and Older People Assessment	Maybe offer families the option to be the carer for families to keep them together by offering the same money social work get and people won't feel like they are a burden or the fact strangers will be coming to their house every week, a lot of older people are embarrassed or reluctant to ask for help.	Adult & older people (general)	4. The council is already doing this.	Where appropriate, people who provide care for a family member can ask for a carer's assessment
12555	An individual	2b. Adult and Older People Assessment	If you want to secure more money for elderly care, you need to seriously look at people who deliberately deprive themselves of property by transferring ownership to their children and then claim they have no money and get care for free. You need to put more money into closing this loophole. I know very well off older people who are legally claiming they have no property, but aren't paying any rent and are then eligible for free care.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12556	An individual	2b. Adult and Older People Assessment	Here we go the old pensioners again, just a thought the majority of pensioners are still paying tax unlike all the can work choose not too generation	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12557	An individual	2b. Adult and Older People Assessment	If this means the elderly are able to live safely in their own homes , then this is a good idea. Problems arise with a lack of coordination of provision of appropriate services for individuals.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12558	An employee of West Lothian Council	2b. Adult and Older People Assessment	Council departments need to be more joined up for this to happen effectively. Older people's support should not be cut.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12559	An individual	2b. Adult and Older People Assessment	I believe the Scottish Government only funds free personal care for elderly. Lots of other authorities charge under 65s. WL Council should look at doing this.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12560	No Response	2b. Adult and Older People Assessment	The recent exposure by the press, and speaking with some friends and family. The support for older people is a concern, in my opinion either the whole service is not managed properly or needs a review. As I think some people who need support fall through the net, as they do not know what they are entitled to and do not have enough information to hand. Along with the fact there needs to be some respect given to them on a whole. Perhaps it is internal council staff training that is required. As their customer service leaves a lot to be desired	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12561	An individual	2b. Adult and Older People Assessment	Perhaps we should look at additional care homes and day centres	Adult & older people (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
12562	An individual	2b. Adult and Older People Assessment	More training to provide better care in the community.	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12563	An individual	2b. Adult and Older People Assessment	My daughter currently receives care at home services, social support and respite all of which are essential to her health and wellbeing and also in promoting my own ability to continue as her carer. I am very concerned about any cuts that there might be to the level of service that she receives.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12564	An employee of West Lothian Council	2b. Adult and Older People Assessment	Not sure what a short care visit is but if the planning is done without seeing and sepaking to real people it will be flawed.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12565	An individual	2b. Adult and Older People Assessment	Would adult fostering type payments work even for day care - where an older person joins a family for the day once a week and participates in family life. Could respite fostering for older people in local communities with fostering allowances and fees be trialled as opposed to expensive residential respite - I would be willing to offer this type of service. Relationships would then be built up older people would become part of the local community and people would do much more for them. younger generations would benefit to.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12566	An individual	2b. Adult and Older People Assessment	The cuts will affect very vulnerable people. Many old people have few family supports and rely on help from the Council. Any way of preserving services is vital.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12567	An individual	2b. Adult and Older People Assessment	this wouldn't be so great because anything can happen during the time you wouldn't be there	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12568	An employee of West Lothian Council	2b. Adult and Older People Assessment	care at home only works if it is properly funded and managed	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12569	An individual	2b. Adult and Older People Assessment	Please more joined up thinking and better communication and shared care with NHS. This doesn't seem an area where more cuts are possible given already reported poor care for some of our elderly and stretched and worn out carers, not to mention overstretched social work staff.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12570	An individual	2b. Adult and Older People Assessment	I think the people most at need should receive this.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12571	An employee of West Lothian Council	2b. Adult and Older People Assessment	Families should be encouraged to care for their own families wherever possible. Although this is not always an option due to complex care needs, families need to be actively encouraged to care for their own elderly family members.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12572	An individual	2b. Adult and Older People Assessment	Agreed. More care should be taken in supporting those most in need instead of those who know how to play the system	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12573	An employee of West Lothian Council	2b. Adult and Older People Assessment	Caring for the elderly is vital and if there can be efficiencies made without a big impact on the service it should be made. .	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12574	An individual	2b. Adult and Older People Assessment	The most at need group should be focused on. Other factors which should be taken into account is family members who care for the elderly, volunteers who may be interested in helping at certain times and the persons pension/savings which they could be paying a small fraction towards the services they may be in need of.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12575	An individual	2b. Adult and Older People Assessment	The council should encourage Family members to participate in their care. Regular visits at Care Homes. More older people should be cared in their homes. Home shared house helps should be a new standard.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12576	An employee of West Lothian Council	2b. Adult and Older People Assessment	2b I understand that there is a need to prioritise the most urgent cases, however it is unclear to me what this would mean for current service users. Hopefully this will not lead to the neglect and further isolation of elderly people.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12577	No Response	2b. Adult and Older People Assessment	This may work short term, however, those who initially present as not "critical/substantial" will likely become so over time. This is a "fire fighting" method dealing only with the emergencies when they arise, when further resources and money could be saved with earlier interventions rather than awaiting the point of critical need.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12578	An individual	2b. Adult and Older People Assessment	Given the financial crisis it is difficult not to agree with this measure, although it may not always result in a net saving, especially where preventative services are stopped, which could result in more 'substantial/critical' intervention.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12579	An employee of West Lothian Council	2b. Adult and Older People Assessment	Why only new clients ? That is fundamentally unfair. All Clients should be reviewed, and re-assessed accordingly, otherwise you are providing a two tier system.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12580	An employee of West Lothian Council	2b. Adult and Older People Assessment	Care at home is essential for elderly people .	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12581	An individual	2b. Adult and Older People Assessment	I don't agree with the plan for all who are in need of care. Think about this very carefully as most families will be visited by a need for care at some point and it is extremely important the council maintains its commitments. I cannot imagine a more miserable place to find yourself as a carer with no support looking after a sick relative / spouse / adult child. What does "... that the threshold levels would be set at critical/substantial for all new clients for care, respite provision and private adaptation grants." mean specifically? Perhaps the council does not value those who have contributed their council tax for years then find themselves, or their nearest, sick and in need of care. If you are alluding to means testing then this is wrong. This is surely why we pay our council tax.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12582	An individual	2b. Adult and Older People Assessment	Not sure what the above means - what are appropriate interventions? Cheaper ones or quality? With people living longer our old people need 1-1 support and care	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12583	An individual	2b. Adult and Older People Assessment	Just because people are slightly more able does not mean they should not be provided the same level of care this is discrimination	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12584	An employee of West Lothian Council	2b. Adult and Older People Assessment	It needs to be fair and help the really vulnerable ppl in West Lothian. Unfortunately money means these ppl loose out	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12585	An individual	2b. Adult and Older People Assessment	Again it is worrying that older people may not get the help they require. However there are definitely efficiencies that could be made in this area. Making sure that everyone involved communicates effectively would probably save a lot of time and money	Adult & older people (general)	6. This is a positive suggestion. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12586	An individual	2b. Adult and Older People Assessment	This is an area that must cost much and, as such, must always be on the receiving end of frequent efficiency review.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12587	An individual	2b. Adult and Older People Assessment	What ever happens, staff working directly with children need proper support and training. We have all seen the headlines	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Any changes to management structures will require to fully consider the impact on staff
12588	An individual	2b. Adult and Older People Assessment	Carers are not recognised enough for the job they do. Their budget is low enough and the service cannot afford cuts. If people receive efficient care at home they do not need residential care. This saves "the public purse" in the long run. It would not be financially prudent to cut levels of care.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12589	An individual	2b. Adult and Older People Assessment	Will this model save money, or leave folk in peril for longer before they reach your proposed critical/substantial level? 12590	An employee of West Lothian Council	2b. Adult and Older People Assessment	Great about keeping/moving provision into West Lothian for adults with disabilities - keep these individuals in the area, and keeping the money spent on this provision in the area (not sending them to other areas - such as very expensive BUPA care homes in Edinburgh!!!)	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12591	An employee of West Lothian Council	2b. Adult and Older People Assessment	Many of the cuts in welfare have not affected pensioners and whilst there are many in poverty, there are many others who are receiving free services who are better able to afford them than those in low paid work but still in poverty, or indeed for kids e.g. free travel, swimming etc.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12592	An individual	2b. Adult and Older People Assessment	Older people must be as much a priority as young people. All too often the elderly are 'sidelined'.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12593	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Concerned about the impact on carers. It would appear that as the Carers (Scotland) Act is being introduced to provide enhanced support for carers that services are being withdrawn placing a greater burden on carers.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12594	An employee of West Lothian Council	2b. Adult and Older People Assessment	Undoubtedly care at home for as long as possible achieves the best outcome.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12596	An employee of West Lothian Council	2b. 12599	An individual	2b. Adult and Older People Assessment	The resources that are going in to young adults being accommodated are eye-watering and open to complete abuse by a number of individuals who feel entitled and who really need to be given the message that they are responsible for their own lives and the burden of their care is not the responsibility of other tax payers. Granted there might be extenuating circumstances in some case but frankly the system is being exploited to the detriment of other services.	Adult & older people (general)	5a. 12600	An individual	2b. Adult and Older People Assessment	Difficult to meet the needs of every individual and it is an area of continued increase. It is the quality of intervention that is important though and hopefully this will not be missing with these proposed changes.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12601	An employee of West Lothian Council	2b. Adult and Older People Assessment	So punish the people who have worked and saved money all their lives by making them pay to support the ones that have played and lived of the system for years!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12602	An individual	2b. Adult and Older People Assessment	suggest that for some services that may be modern such as Day Care, these are charged or contribution is made that takes into account Attendance Allowance. This may off set the estimated cost of savings.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12603	An individual	2b. Adult and Older People Assessment	This should be part of the NHS.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12604	An employee of West Lothian Council	2b. Adult and Older People Assessment	Must provide dignity and respect for older people.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12605	An individual	2b. Adult and Older People Assessment	People shouldn't be put into a category on whether they need care or not. They should always be looked at on an individual bases. Most caring industries now or one which I know well, don't focus on the word 'care' it is a quick in and out visit and running to the next person in need. This is coming from an ex carer and knows what it feels like to not be able to give my time to someone who I know needs it.	Adult & older people (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12606	No Response	2b. Adult and Older People Assessment	This is an area that, as you state, is one of increasing demand/need. It seems odd that you are proposing to cut services. Adjusting thresholds just means less services to fewer people.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12607	No Response	2b. Adult and Older People Assessment	I am aware that these costs are rising - the best of luck with that	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12608	No Response	2b. Adult and Older People Assessment	The figure of £8.8 million scares me - currently some adults & older people do not receive the care that they should be getting therefore this can only get worse. Short visits are an absolute joke - they are no viable and in around 97% of cases they are to the detriment of the adult / older person - staff here are under so much pressure that 'clients' are afraid to ask anything additional to their work load as they are away of how stretched they are and that they have numerous clients that all need help and support. By expanding on the successful (according to who???)n technology to support care at home contributes to the Council rapidly becoming a faceless service especially for the more vulnerable members of society - i think people to remember and react according at the valuable contributions our older member of the county have contributed in the past.	Adult & older people (general)	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
12609	An employee of West Lothian Council	2b. Adult and Older People Assessment	I agree with the proposal subject to it being undertaken on a risk based approach and families having adequate capacity to cope with full time care of a dependant.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12610	An individual	2b. Adult and Older People Assessment	As above. A public consultation should be arranged so that families can be fully represented. It is alarming that cuts are being proposed to services for those who are the most vulnerable in society, and who form a minority. Families with children/adults with disabilities need to be adequately supported. It would be disgraceful to reduce services in this area.	Adult & older people (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
12611	No Response	2b. Adult and Older People Assessment	With elderly parents now needing care I feel the whole system is in need of review. Helping families to understand what services and options are available. Providing more sheltered housing and looking at cost effective models of helping old people used elsewhere would hopefully save money in the long term.	Adult & older people (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12612	An individual	2b. Adult and Older People Assessment	The focus should be totally on providing support to allow older people to maintain their independence and not having to go into care homes unless unavoidable.	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
12613	An individual	2b. Adult and Older People Assessment	I think we should introduce a charging policy as people are being given benefits to support their care needs. However we need quality services to be offered to people. The criteria I think will discriminate against those with mental health problems as they may present with a lower criteria. However without support individuals with mental health problems may be more likely to present to health services and crisis may be more likely to occur, I am not sure that we can have a blanket criteria for all service users and think that those with mental health issues should be considered carefully in this process.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12614	An individual	2b. Adult and Older People Assessment	I do believe care at home is best if it is possible and suited to the individual cases. Social care and support at home and the local community can save and free resources for hospitals.	Adult & older people (general)	4. The council is already doing this.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12615	An employee of West Lothian Council	2b. Adult and Older People Assessment	there also needs to be more partnership working to identify those older people not quite meeting the critical threshold who require support to ensure they don't fall into crisis	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12616	No Response	2b. Adult and Older People Assessment	The older population is increasing mental health issues increasing resources require to be focused on vulnerable adults not removing services .vital to wellbeing	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12617	An individual	2b. Adult and Older People Assessment	The priority must be to look after the most serious cases.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12618	An individual	2b. Adult and Older People Assessment	Pay carers more money for the difficult emotional and physical work they do.	Adult & older people (general)	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
12619	An individual	2b. Adult and Older People Assessment	There is already too much pressure put on the resources for this area	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12620	An individual	2b. Adult and Older People Assessment	wholeheartedly disagree with savings proposed here. Care homes, especially private sector, are already struggling and that impacts on quality of care for our parents and grandparents.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
12621	An employee of West Lothian Council	2b. Adult and Older People Assessment	Most councils have withdrawn from the Care Home market because of the cost of council staff. Is the council's care home provision providing the best value for money? There needs to be a balance between bed blocking in hospitals and ensuring people go home that is fit for purpose.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
12622	An individual	2b. Adult and Older People Assessment	try to get families to do more not just put their parents into care homes	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12623	An individual	2b. Adult and Older People Assessment	I would not like to be an old person in this local authority. Old people receive minimal support and what is being proposed is verging on increased risk to health and well being of elderly people. this is a local authority with an increasing population, young and old. their is a greater need for services not a reduction. This council should be demanding greater financial budget from Scottish Office as it it one of two local authorities in scotland where population is growing due to government policy for economic and housing development to cater for Edinburgh needs and development along the M8 corridor	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12624	An individual	2b. Adult and Older People Assessment	Why have you been wasting so much of our money up to this point?	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12625	An individual	2b. Adult and Older People Assessment	As this group is one of the most vulnerable, and also growing in size, it seems unfair that they should be hit by such a large cut.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12626	An individual	2b. Adult and Older People Assessment	I am unsure what the alternative interventions are - I certainly haven't been able to access any interventions for my relative.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12627	An employee of West Lothian Council	2b. Adult and Older People Assessment	Need to have better links between health care and social care and wherever possible pursue assistance which enables older / sick people to do more for themselves eg home adaption, classes for those with COPD	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
12628	An individual	2b. Adult and Older People Assessment	Housing with care complexes manager could be in charge of more than one unit. This could save money.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
12629	An individual	2b. Adult and Older People Assessment	Cut back on care workers in these places personally they sit around quite a lot.	Adult & older people (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The ratio of care workers in registered care facilities is determined by the Care Inspectorate

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12630	An employee of West Lothian Council	2b. Adult and Older People Assessment	Care at home is not a cheaper option and does not promote integration in the community, it segregates people in their own homes sometimes the access to centres is the only socialisation people have. Care at home is often rushed and not up to high standards because of the amount of people requiring care at the same time and doesn't usually include staffs traveling like causing the time to be even shorter	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Care and support plans are specific to each person and a review of agreed care and support can be requested if circumstances have changed. All care at home providers in West Lothian are paid an hourly rate based on the UKHCA model and the Scottish Living Wage
12631	An individual	2b. Adult and Older People Assessment	There are lots of great staff on the ground but the organisation and management in care needs a complete review/ restructure and bring in some business minds. It would be good to have a full breakdown of how the money is spent in care.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12632	An individual	2b. Adult and Older People Assessment	placement of older people in care settings is already not an effective service, how can any reduction here be a good thing? I see no benefit other than the council saving some money!	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12633	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	A number of our members have experience of caring for elderly parents and do not all have the most positive stories to tell. Some of these are around outsourced care provisions, private care homes, housing association sheltered and assisted housing which would be more effective being in house and easier to control standards rather than the council paying for outsourcing.	Adult & older people (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12634	An individual	2b. Adult and Older People Assessment	Equality Impact Assessment	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12635	An individual	2b. Adult and Older People Assessment	Again don't pay private companies to look after the elderly pay your own staff to do it, do it not for profit, that has to be cheaper.	Adult & older people (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
12636	An individual	2b. Adult and Older People Assessment	This must remain a priority as the population is aging and their welfare must be met.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12637	An individual	2b. Adult and Older People Assessment	As above adults and older people who need care may be in their local community but this can be at the expense of receiving the proper type of care they should be getting. Which can "have a detrimental impact on lives".	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12638	An individual	2b. Adult and Older People Assessment	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12639	An individual	2b. Adult and Older People Assessment	Makes sense. Would also help if any financial support offered for older people eg heating allowances is means tested	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12640	No Response	2b. Adult and Older People Assessment	It reads well, but I am sceptical of the outcome.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12641	An employee of West Lothian Council	2b. Adult and Older People Assessment	This seems, on the surface, like a sensible proposal. The council should lobby the Government to take more responsibility for our older people.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12642	An employee of West Lothian Council	2b. Adult and Older People Assessment	The care service for the elderly already appears to be at a critical level and i feel cutting it back further could have a significant impact on the wellbeing of older people. Having waited over four weeks for social work to put a care package in place for my mother who had been released from hospital with a terminal cancer diagnosis, the bulk of the care at home fell upon myself and my husband (who were both working full time and have two children at home). We were unable to put my mum up in our house for the long term due to the layout of our house, and so she returned home with myself and my husband visiting her everyday. By the time social work had a package to offer, my mum had sadly passed away. I feel this is unacceptable. The alternative was my mum stay in hospital until the care package was organised, but this would have meant her using up a bed place in the hospital ward instead, which are also in short supply. I feel more care staff should be getting trained up to support elderly people in their home instead of the responsibility falling on families.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services and this is one of our top priorities
12643	An individual	2b. Adult and Older People Assessment	OK if closely monitored.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12644	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	This is not my area of expertise, however, with a growing elderly population, I understand the constant financial pressure. Transparent and fair needs assessments should be carried out if clients are to incur increased personal care charges, as the elderly are often the sections of society who do not ask for help.	Adult & older people (general)	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12645	No Response	2b. Adult and Older People Assessment	The implementation of people using their care and mobility components of finances instead of the council double funding. Transport cost under SDS are very high (taxis) and often use the most of an individuals budget. Increasing the transport fleet and removing the need for private taxis for all services including children's and adult services Not enough respite or appropriate accommodations for service users, resulting in placements out with local authority. Lack of resource for young adults up to 65+ requiring full support and accommodation, older residential services not appropriate for either age group.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12646	An individual	2b. Adult and Older People Assessment	This will result in a reduction in care for the elderly and you need to rethink how you can involve the community in assisting the service meet the needs. You need to devise a strategy to mobilize large amounts of community volunteers from the retiring baby boomers to help provide support to the inter war generation ... community councils could assist with a little training and modest financial support.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12647	An individual	2b. Adult and Older People Assessment	Care for the elderly is key!	Adult & older people (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12648	An individual	2b. Adult and Older People Assessment	I believe you are incorrect in estimating any savings in this area. This will become increasingly critical in service provision, and said receivers of service provision needs will apply careful thought to their voting choices in future local, council, and general elections.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12649	An individual	2b. Adult and Older People Assessment	After seeing the care provided at some care homes in West Lothian I am shocked that some of our most vulnerable residents have such a poor service with such high costs. Particularly those with dementia which is an illness not covered by the NHS for long term care. Councils give support to drug addicts but demands that dementia patients pay for their care. Over £1000 per week is crippling.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12650	An individual	2b. Adult and Older People Assessment	This is a big cost area we must get value for our council tax pounds	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12651	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	This is a growing requirement which needs greater national funding. It is unlikely that budget cuts can be made while maintaining and improving provision.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12652	No Response	2b. Adult and Older People Assessment	As long as these measures help to reduce social isolation as well, as this is a growing issue for our older population.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
12653	An employee of West Lothian Council	2b. Adult and Older People Assessment	I feel the longer people can cope at home the better for them as long as there is some sort of support for them	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12654	An individual	2b. Adult and Older People Assessment	Care at home is better & what most people want but this seems a huge saving with so many more older people to be cared for.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12655	An individual	2b. Adult and Older People Assessment	Flexible respite should not be allowed to used for persons to go on holidays abroad or in the UK, but be used as it was initially designed as a sitter service to enable more flexibility for carers/cared for person in place of Crossroads care. Holidays are NOT required as critical or substantial.	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12656	An individual	2b. Adult and Older People Assessment	Individual needs must always be taken into consideration .	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12657	An employee of West Lothian Council	2b. Adult and Older People Assessment	I agree and feel we need to explore more creative options and involve families and communities in these provisions more.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12658	An individual	2b. Adult and Older People Assessment	The proposal mentions that there are growing numbers of people needing care services. I recognise that there must be a response to this pressure in setting the Council's budgets but is there also work being undertaken on the causes of this increase? It seems futile for West Lothian Council and other local authorities to tackle this issue at the end point where issues become apparent if there is nothing being done to address the source of the problem.	Adult & older people (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
12659	An individual	2b. Adult and Older People Assessment	Again people's support must not be reduced	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12660	An individual	2b. Adult and Older People Assessment	Decided not to support these people anymore!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12661	An individual	2b. Adult and Older People Assessment	Social work important, should be reviewed, this is a good idea. What about the old clients? Should review all not just new clients.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12662	An individual	2b. Adult and Older People Assessment	Council needs to focus on helping to help old folk keep healthy. I know you already do this through Xcite and hope there will not be cut as it will be detrimental in the long run.	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
12663	An employee of West Lothian Council	2b. Adult and Older People Assessment	The voluntary sector and current natural/community supports couldn't not sustain a swift move toward snot funding moderate and low level clients.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12664	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	A focus on early intervention and prevention is essential to avoid peoples' issues escalating and becoming crises. To be effective this strategy must be multi-layered and ensure appropriate interventions and supports along a continuum. This ensures that people get the help that they need, when they need it, to prevent escalation and crisis. We are, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets? We are also concerned that some of the changes proposed will adversely affect many of the most vulnerable people in our communities, e.g., the raising of thresholds for support or the amalgamation of facilities and reductions in capacity. How will Council ensure that it protects our most vulnerable people and how can we assist with this?	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12665	An individual	2b. Adult and Older People Assessment	Any budget cuts made in the area of support for older people, would need to ensure that older people still receive the level of care that they require, as they become more vulnerable, and that the quality of care received is not decreased/reduced.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12666	An individual	2b. Adult and Older People Assessment	This is a very difficult area as homes are closing down due to the overhead costs being greater than income and Councils are having to pick up the bits. There may be areas for savings but i have no knowledge or experience of this	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12667	An individual	2b. Adult and Older People Assessment	Fine with this, but need to protect the most vulnerable people	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
12668	On behalf of a Group/Organisation	2b. Adult and Older People Assessment	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
12669	An employee of West Lothian Council	2b. Adult and Older People Assessment	personal care is imperative. Grave concern for those who are vulnerable.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12670	An individual	2b. Adult and Older People Assessment	Care in the community Has failed a number of older people over the years.. These services should be striving for providing quality care at a good price from providers	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

12671	An individual	2b. Adult and Older People Assessment	Lets hope the Quality of care is still provided.	Adult & older people (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
12672	An employee of West Lothian Council	2b. Adult and Older People Assessment	a plea to always look after our elderly as they looked after us.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12673	An employee of West Lothian Council	2b. Adult and Older People Assessment	How will those not in most need be supported?	Adult & older people (general)	3. The respondent advised that they had no comment to make.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
12674	An individual	2b. Adult and Older People Assessment	Needs must. It seems like there could be more co-ordinated volunteering opportunities and high school involvement with e.g. befriending, tea & cakes, shopping, pension collections etc	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12675	An individual	2b. Adult and Older People Assessment	More family responsibility required in this area Can be a money pit we cannot live forever	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12676	An individual	2b. Adult and Older People Assessment	I believe that the council should do more to help elderly people as the current system puts the elderly at risk because they are only getting a couple of minutes of help a couple of times a day for example my elderly aunty is prone to falls and when she falls she can't get up by herself I have walked in multiple times find her stuck on the floor where has been stuck for hours.	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly - please contact your social worker if a re-assessment is required
12677	An individual	2b. Adult and Older People Assessment	This takes me back to a previous point on the CLD approach - inter-generational work will not continue! Older citizens will suffer - not correct in my opinion.This section, if acted upon, will be neglect on WLC's behalf - shame on you!	Adult & older people (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12678	An individual	2b. Adult and Older People Assessment	This sounds like cutbacks, reducing services and centralising facilities - or farming them out to other agencies. Not sure that this has been shown to work.	Adult & older people (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12679	An individual	2b. Adult and Older People Assessment	Agree to cuts for elderly because they get too much from Government.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12680	An individual	2b. Adult and Older People Assessment	I've been lucky to get support from social work but its a shame that more people don't have support to get it. Sometimes people like me feel they shouldn't ask fore more in case its seen as greedy.	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
12681	An individual	2b. Adult and Older People Assessment	Provide for elderly, ill, vulnerable and poor. Create a caring society.	Adult & older people (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
12682	An individual	2b. Adult and Older People Assessment	If you are no more focusing on providing care for the elderly and vulnerable adults do we hear that there are proposals to cut down on the groups at present to them through volunteer-led groups?	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
12683	An individual	2b. Adult and Older People Assessment	Concerned that people in residential care may not get it.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
12684	An employee of West Lothian Council	2b. Adult and Older People Assessment	Alternative to cutting money: 1. Service users pay for day care 2. pay full amount for activities 3. look at transport cost to and from facilities	Adult & older people (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
12685	An individual	2b. Adult and Older People Assessment	Outside agencies that are providing care are not robust enough think this needs to be monitored as often the care is not provided or the care for individuals is to walk around Livingston shopping centre.	Adult & older people (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12686	An individual	2b. Adult and Older People Assessment	You'll be lucky to achieve that. The NHS is now able to keep premature and handicapped babies alive into adulthood that would once have died very young. The numbers are growing, as are the numbers of elderly needing care. Dependency will grow and if the budget doesn't, at the very least remain with inflation then suffering will ensue on an exponential basis.	Adult & older people (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
12687	An individual	2b. Adult and Older People Assessment	Once again this seems fine in principle but will there be the resources to oversee this and effectively deliver it? Is the Council staffed and equipped to make such a change or are the resources already unsustainable in terms of the ability to manage change?	Adult & older people (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
12688	An employee of West Lothian Council	2b. Adult and Older People Assessment	If this can deliver savings required and provide care to those most in need then it should be pursued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12689	No Response	2b. Adult and Older People Assessment	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

12795	An individual	2b. Adult and Older People Assessment	I agree with the proposal that threshold levels should be set at critical/substantial	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12796	An employee of West Lothian Council	2b. Adult and Older People Assessment	This proposal also seems fair	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12797	An employee of West Lothian Council	2b. Adult and Older People Assessment	vital that this is reviewed so the council is efficient as the costs are so high	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12798	An employee of West Lothian Council	2b. Adult and Older People Assessment	Home technology with care home lines etc are certainly a great benefit. For many this may be adequate without a care package.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12799	An individual	2b. Adult and Older People Assessment	Makes perfect sense. Focus on genuine need where Council involvement is essential. Assessment criteria need to reflect reality of the situation. The Council is not there to provide a comfort blanket.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12800	An individual	2b. Adult and Older People Assessment	Agree there is too much demand for service provision. I think this would ensure that the most vulnerable in our society are supported Appropriately.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12801	An individual	2b. Adult and Older People Assessment	good.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12802	An individual	2b. Adult and Older People Assessment	Care for our most vulnerable elderly is a basic human right but I know West Lothian is one of the few councils who still provide care for low and moderate needs so if Â£73 million of savings need to be made I would agree that money needs to be prioritised to those who most need care.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
12803	An individual	2b. Adult and Older People Assessment	This seems excellent	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12830	No Response	2b. Adult and Older People Assessment	Social cre funding for the elderly should be increased not cut. Increase call times for care calls, stop allowing 15 mins calls. Our elderly deserve better	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12831	An individual	2b. Adult and Older People Assessment	This is a risky proposal and likely to result in real issues for those requiring support. How does this relate to the Carers Act and requirements placed on the council to deliver. It doesn't seem to work with the creation of a Fairer Scotland. I understand that West Lothian is different in that it's growing at both ends of the age spectrum and that this provides a unique challenge. To slash support at either end would be very shortsighted and dangerous. With the announcement by Bield that they are closing care home, if support to live at home is reduced then how/where are people supposed to live?	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12832	An individual	2b. Adult and Older People Assessment	That seems a huge cut for such a needed area	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12833	An individual	2b. Adult and Older People Assessment	None.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12834	An individual	2b. Adult and Older People Assessment	This is also essential and should be retained.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12835	An individual	2b. Adult and Older People Assessment	This sounds worrying	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12836	No Response	2b. Adult and Older People Assessment	Hmmm sounds like a disaster	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12837	An individual	2b. Adult and Older People Assessment	The service should be maintained and improved. I do not support this strategy.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12838	An individual	2b. Adult and Older People Assessment	Older people should not be penalised in favour of spending money elsewhere. I disagree with this saving.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12839	An individual	2b. Adult and Older People Assessment	People not technology please!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12840	An individual	2b. Adult and Older People Assessment	No !!!!! These are the most needy in society that have no one to stand up for them in society.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12841	An individual	2b. Adult and Older People Assessment	Sounds as if only the most vulnerable will get any help whatsoever. Already there is insufficient funding in this area. Think again!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12842	An individual	2b. Adult and Older People Assessment	the elderly have worked all their lives and paid into the country. we deserve to be looked after and supported. no cuts	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12843	An individual	2b. Adult and Older People Assessment	this is vital for me and my peers. with more people living longer lives we need help and support to be social. this is needed.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12844	An individual	2b. Adult and Older People Assessment	As an oap. this is an important area for me. this is needed funding. do not cut this area.	Does not agree with proposal	2. 12861	An individual	2b. Adult and Older People Assessment	There should not be cuts in this kind of key area.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12862	An individual	2b. Adult and Older People Assessment	I completely agree with this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12863	An individual	2b. Adult and Older People Assessment	Disagree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12864	An individual	2b. Adult and Older People Assessment	I am shocked at the proposal for savings in this area - 2nd only to 1H. I am really concerned about cuts to the most vulnerable in our community. I am caring for my parent who is in their 90's and it would not be possible for them to remain at home without a substantial package. I would be very concerned if there was any cut to the care package in place at present. has the Council considered the knock on effects of reduced community care on the health service, hospital beds etc? - GP's, district nursing. I beg you to please reconsider!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12865	An individual	2b. Adult and Older People Assessment	Thresholds are too high	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
12866	An employee of West Lothian Council	2b. Adult and Older People Assessment	How many people would this impact?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12867	An employee of West Lothian Council	2b. Adult and Older People Assessment	No comment - I do not have enough information regarding this.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12868	An employee of West Lothian Council	2b. Adult and Older People Assessment	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12869	An individual	2b. Adult and Older People Assessment	No opinion	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12870	An individual	2b. Adult and Older People Assessment	I don't know enough about this area.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

12872	An individual	2b. Adult and Older People Assessment	Inevitable.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12873	An individual	2b. Adult and Older People Assessment	Why is this a separate topic from the following one?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12874	No Response	2b. Adult and Older People Assessment	L	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12875	An employee of West Lothian Council	2b. Adult and Older People Assessment	Personally speaking, my mother-in-law recently applied for sheltered housing and was refused. Amongst many other conditions she has degeneration of vision which will only get worse. She has a 3 bedroom house which I'm sure would be desirable, especially to families with children. I found this decision to be rather shocking so I'm not quite sure about the above proposals.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12876	An individual	2b. Adult and Older People Assessment	someone needs to explain this in simple terms	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12877	An employee of West Lothian Council	2b. Adult and Older People Assessment	no comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

12881	An employee of West Lothian Council	2b. Adult and Older People Assessment	There's nothing I can say about this. Our care system a mess and its about to get worse.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12882	No Response	2b. Adult and Older People Assessment	This could be a recipe for disaster	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12883	An employee of West Lothian Council	2b. Adult and Older People Assessment	A huge area and I do wonder / worry about the impact of this level of saving !	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12884	No Response	2b. Adult and Older People Assessment	I would hope that the focus would currently be on the most in need at present. If this is not the case then I would question who is getting the support.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12885	An individual	2b. Adult and Older People Assessment	I don't understand budgeting advantages and restraints enough to comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12886	An employee of West Lothian Council	2b. Adult and Older People Assessment	i dont not know wat this means	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12887	An individual	2b. Adult and Older People Assessment	Worded well to simply say that older people with health and care issues won't be treated in the same way from now on as government has wasted the money which the same people have paid into the system throughout their working lives. No surprise there - happens with pensions too. All the money paid into public pensions has vanished. Not to worry, the banks are still doing well.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12888	An individual	2b. Adult and Older People Assessment	This obviously depends on national policy...	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12889	An individual	2b. Adult and Older People Assessment	The older generation destroyed the housing market for the rest of us. Why shouldn't they now have to take their share of the consequences?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12890	An employee of West Lothian Council	2b. Adult and Older People Assessment	Don't know enough about this service area to comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
12901	An individual	2b. Adult and Older People Assessment	Care for Adults Estimated Saving: £2.5 million The introduction of self-directed support, where individuals can make choices regarding their care packages, has seen a change in the nature of services requested. Incorporating the change in demand, there is a greater need for outreach interventions therefore it is proposed that day care facilities currently provided at three different locations are combined into one at Pathways, in Livingston.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12902	An employee of West Lothian Council	2b. Adult and Older People Assessment	Looking at the estimated savings this proposal makes me very nervous, however, I am not informed enough to comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12903	No Response	2b. Adult and Older People Assessment	hdhd	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12904	An individual	2b. Adult and Older People Assessment	nil	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

12906	An employee of West Lothian Council	2b. Adult and Older People Assessment	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12907	An individual	2b. Adult and Older People Assessment	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12908	An individual	2b. Adult and Older People Assessment	Cannot comment do not use this service	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12909	An employee of West Lothian Council	2b. Adult and Older People Assessment	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12910	An individual	2b. Adult and Older People Assessment	Again tosh.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12911	An individual	2b. Adult and Older People Assessment	The wording of the proposal is logical. How that equates to a saving of £8.8 million is not clear or explained in a manner that allows a cogent response.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12912	An individual	2b. Adult and Older People Assessment	Again a lot of savings and some people will suffer that's for sure	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12913	An individual	2b. Adult and Older People Assessment	If older adults would stop with the stiff upper lip of the British culture, and seek out the support they are entitled to. We would all benefit.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12914	No Response	2b. Adult and Older People Assessment	Don't have a view.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12915	An individual	2b. Adult and Older People Assessment	No comments as I am not familiar with this subject.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12916	An employee of West Lothian Council	2b. Adult and Older People Assessment	no comments	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12917	An individual	2b. Adult and Older People Assessment	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12918	No Response	2b. Adult and Older People Assessment	.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12919	An individual	2b. Adult and Older People Assessment	Seems a high level of saving but you do not say what the current spend is.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12920	An individual	2b. Adult and Older People Assessment	In general this must be right, but again it is unclear what existing benefits will be lost, so it is hard to comment meaningfully.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12921	An individual	2b. Adult and Older People Assessment	no comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12922	An individual	2b. Adult and Older People Assessment	While increasingly interested in this area from a personal point of view, I do not have enough information or knowledge to comment in detail.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12923	An individual	2b. Adult and Older People Assessment	is too unspecific to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12924	An individual	2b. Adult and Older People Assessment	Likely to be an outcry on this one.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
12925	An employee of West Lothian Council	2b. Adult and Older People Assessment	Our older population are not being treated as well as they should. I cannot see how anymore cuts/ changes to this will help in any way.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

13108	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

13113	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13174	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 13204	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13235	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13265	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13326	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 13356	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13387	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13417	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13478	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 13508	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

13569	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13630	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 13660	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13691	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13721	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13782	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2.
