30310	An individual	7b. Revised Facilities Management in Schools	Unable to comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30311	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30312	No Response	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30313	No Response	7b. Revised Facilities Management in Schools	Not a great amount of money to be saved here. If anything the council should consider extending building opening hours to 7.30 am through to 6.30 pm.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30314	No Response	7b. Revised Facilities Management in Schools	This should include rationalisation of building lets to ensure resources are being used most efficiently.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30315	An individual	7b. Revised Facilities Management in Schools	In my experience, as a teacher and parent, "janitors" have the easiest job in the school. More control required....under the direct supervision of headteachers NOT council officials if that is not the case already?	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30316	No Response	7b. Revised Facilities Management in Schools	Would welcome longer opening hours, or a facility to go and work in longer hours i.e. hot desking if required	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30317	An individual	7b. Revised Facilities Management in Schools	Ok but after school cover can be a lifesaver for working parents. Early morning breakfast club as well. Removing these early/late session can put parent in difficult situation. Creating unemployed people on benefit is never a saving. Support service that allow parents to get to and from work at suitable hours is better.	Revised Facilities Management in Schools (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
30318	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Very concerning regarding opening hours of schools. Teaching staff need access to schools as it is where all the equipment and materials are kept. A reduction in opening hours would block teachers ability to plan appropriately. This could result in a drop in standards and attainment.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30319	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Many of our clubs use West Lothian Schools for their activities. Most of our swimming clubs use the school pools in to provide affordable swimming development and performance development to a large number of children within West Lothian. What impact will revised scheduling of activities, cover arrangements and opening hours have on community clubs?	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30320	An individual	7b. Revised Facilities Management in Schools	Perhaps consideration should be given to providing a reduction in the number of facilities that need to be kept open e.g. are the number of schools open at night still required or could the services provided be amalgamated with another school.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30321	An individual	7b. Revised Facilities Management in Schools	In addition facilities management staff should be given contracts of employment that allow them to be transferred to any building in West Lothian at no extra cost to the council.	Revised Facilities Management in Schools (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
30322	An individual	7b. Revised Facilities Management in Schools	I'm not convinced the education and awareness for bullying users would deliver cash savings. Also the council should protect the services of those lowest paid as all too often these posts take a disproportionate level of savings compared to higher paid staff. Building cleaning standards should not be reduced.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30323	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	7B) The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30324	No Response	7b. Revised Facilities Management in Schools	Please watch you do not prevent organisations using schools etc in the evenings and at weekends by reducing janitorial cover. For example, where can we hold church Sunday Clubs when we have no halls locally ?	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30325	No Response	7b. Revised Facilities Management in Schools	If you are to derive income from your school hall and pool lets etc janitor cover/access must be maintained.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30326	No Response	7b. Revised Facilities Management in Schools	7B) The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	FMA's cannot work normal school hours as part of their duties are to open and close the school and accommodate lets which happen in the evenings

30327	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Further reduction in FMA will pass on workload to senior management teams and other staff in schools .	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30328	An individual	7b. Revised Facilities Management in Schools	Why have you been wasting so much of our money up to this point?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30329	An individual	7b. Revised Facilities Management in Schools	Why have you been wasting so much of our money up to this point?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30330	An individual	7b. Revised Facilities Management in Schools	Will Head Teachers have involvement in the review?	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30331	An individual	7b. Revised Facilities Management in Schools	Agree. Again, these could all be put out to tender with the contractor appointed taking on all staff and HR issues.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30332	An individual	7b. Revised Facilities Management in Schools	Noted - however school halls can be a valuable resource for the community and community engagement generally - this should not be forgotten in the attempt to save costs.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30333	An individual	7b. Revised Facilities Management in Schools	Facilities management in schools already too light	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30334	An individual	7b. Revised Facilities Management in Schools	Schools should be able to be accessed by communities, this is not the case for all schools in West Lothian. Facilities management services are often keen to see groups using them out of the buildings before their time slot is up. Review is necessary here.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30335	An individual	7b. Revised Facilities Management in Schools	If School janitorial support time is to be it, then access to schools from f immunity and voluntary groups will need a rethink/ application of new technology.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30336	An individual	7b. Revised Facilities Management in Schools	Need to make sure this does not impact on the organisations using ancillary school properties I.e. community wings/ rooms, etc. Many groups depend on access to community facilities to survive as there are few or no alternative facilities. Many groups run on very low incomes so cost is also a significant issue. It would be very easy to push many groups out of existence based on access and cost policies. We should be looking at greater flexibility to increase use and therefore income rather than leaving space empty.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30337	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	It would be another tragedy that after school activities and community activities would be cut when we have excellent facilities and building to support them. We have an aging and increasingly obese population who need support and company and this could be provided in school buildings rather than spreading around all over.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30338	An individual	7b. Revised Facilities Management in Schools	If this means no after school activities I disagree. As stated re community centres close community centres and create community schools.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30339	An individual	7b. Revised Facilities Management in Schools	OK if does not result in a fall in quality of service.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30340	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	If you can see where you are going or find a parking space then bash on with that review. The car parking spaces in most schools are over populated both by the number of staff who could car-share but don't or just by the sheer size of the cars. The spaces are mostly sized to the spec of 1980's cars. The lighting around some school facilities is atrocious. Bathgate Academy is one in particular. I badly kerbed my car there last week because I couldn't see the damn surroundings. I think I counted at least 5 non-functioning lamp posts just in the front car park of the building.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30341	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Agreed if closures do not occur	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30342	An individual	7b. Revised Facilities Management in Schools	As long as this doesn't interfere with out of hours use of the facilities.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30343	An individual	7b. Revised Facilities Management in Schools	What is the proposal regarding opening hours and what services to the public will be reduced? More detail required.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30344	An individual	7b. Revised Facilities Management in Schools	Perhaps the role of school janitor should be reintroduced this would negate the need to engage in communication with third party providers for very small jobs eg changing light bulbs. It would also cut down on travel and pollution, time lost while travelling and would allow the head to have direct control of maintenance needs.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30345	An individual	7b. Revised Facilities Management in Schools	Implement with care about how this impacts with customers.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30346	An individual	7b. Revised Facilities Management in Schools	Current facilities management is poor in some schools. Better value for value is required. Leaking roofs/windows on buildings that council has relinquished responsibility for is not good enough.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30347	An individual	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30348	An individual	7b. Revised Facilities Management in Schools	The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30349	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30350	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30351	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	More information required on this proposal before we can make any comment. With all 9 high schools now under the direction of West Lothian Leisure and the service level agreements stating that all high school will be open at the weekends if id difficult to see where they potential savings are to be made.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30352	An individual	7b. Revised Facilities Management in Schools	Why are there crossing patrol persons based outwith schools i.e Bathgate academy when there is a pedestrian crossing right at the school gates? Surely high school children between the ages of 12 - 18 can use a pedestrian crossing, leaving the crossing patrol staff to be relocated to primary schools or special needs schools.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30353	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30354	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours. also why have FMS got Co-ordinators when FMS has Supervisors more money not spent well.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30355	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Mirror other best practice and proposals for cross authority working currently underway. Remove non statutory services such as School Crossing Patrols. Ensure costing on any support to schools on summer programmes is fully funded by Education to avoid other services taking the costs in within their own budget often at expense- i.e activity meal provision where numbers do not equal commissioned service leading to food waste and surplus staff unnecessarily. Reduce number of schools open for lets to only be larger schools. Ensure schools co-ordinate programmes of night activity to avoid excess overtime on multiple FM staff needed. Use technology to reduce keys for access over electronic access systems negating requirement for physical staff to open and close. All FM services (Leisure, community, Corporate, Operational etc to come under one service)	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30356	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Centralise FM services under one service relating to the facilities management of all buildings and streamline management structure. Be efficient in move/relocation management and space planning across Education and corporate buildings and run this via FM avoiding teacher resources being used to plan school moves etc when there are teacher shortages and to ensure consistent and quality approach to this requirement.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30357	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Dovetail this in with professional FM service aligned under one service only and not pockets in several services. This will enable streamlining of management structure and consistent approach across the council. Look to using the professional skills of your FM team as a potential for income generation - space planning, relocation work, building factoring etc.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30358	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	It is vital to support this initiative that you remove the 'responsible person' approach to building management and align it under one FM management structure tying in with corporate Landlord model. Dovetail this in with professional FM service aligned under one service only and not pockets in several services. This will enable streamlining of management structure and consistent approach across the council.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30359	An individual	7b. Revised Facilities Management in Schools	OK, you could also help schools deliver education and awareness of building users whilst meeting statutory cleaning requirements	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30360	An individual	7b. Revised Facilities Management in Schools	Some more sharing of services and cut in opening hours will make a small saving but this is a drop in the ocean in Education budget.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30361	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	It does seem fair enough that school users out with school hours should leave the property as they found it. However there are concerns that undoubtedly this will not always happen and the responsibility will again fall to overstretched school staff. This could easily result in health and safety issues to children, such as broken glass or hygiene uses, which would surely come to council. The cost of cleaning could surely be incorporated into the price of the let.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30362	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	This is fine as long as the staff have the time and resources to safely do their job. Lets to school provide income but require janitor cover to be undertaken safely.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30363	An individual	7b. Revised Facilities Management in Schools	Review of the roles of FMA in school would be a good idea	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30364	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Revised Facilities Management in Schools (general)	3. The respondent advised that they had no comment to make.	The council will carry out the appropriate equality impact assessment in relation to all proposals
30365	An individual	7b. Revised Facilities Management in Schools	Contract this element out to local community trusts	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30366	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	The council has over the last few years made a lot of jobs up in the FMA Services over the last two years. cleaning/kitchen coordinators - on call team the old way was better as the people on the patch knew the buildings.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30367	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	As we all know the schools are also community used buildings. there for FMA'S are going between schools a lot of times at night. covering issues where where not a problem when it was a 4 school patch as long as it only had one community school on the patch. so when you had one person off it was covered by the fma on the middle shift	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30368	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Consider building closures were possible between Christmas and new year to save on heating costs.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30369	An individual	7b. Revised Facilities Management in Schools	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30370	An individual	7b. Revised Facilities Management in Schools	I don't know how this will work as many facility managers cover more than one building at present. If this is reduced the support needs at the facility and its security could be compromised	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30371	An individual	7b. Revised Facilities Management in Schools	Seems good, but why was this service not carried out on an ongoing basis?	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30373	An individual	7b. Revised Facilities Management in Schools	No change to opening hours for schools.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30374	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Have a third party facility management for schools. Staff need more support from councillors when tenants aren't complying with their lease and staff are trying to enforce lease terms.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30375	An individual	7b. Revised Facilities Management in Schools	Many of our clubs use West Lothian Schools for their activities. Most of our swimming clubs use the school pools in to provide affordable swimming development and performance development to a large number of children within West Lothian. What impact will revised scheduling of activities, cover arrangements and opening hours have on community clubs?	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30376	An individual	7b. Revised Facilities Management in Schools	Janitors work shifts, and receive shift allowance. They work through the summer holidays???? WHY I think janitor should work the same as teachers and other staff in the school. Or 7am till 5. This would save Â£1000s of money. Summer holidays they should be off too. Have 1 janitor on for there area on a rota to open and close schools etc. If any work is book then the janitor will know and make sure they are there to let work work men in. All school should close at the same time and this will reduce hours worked and save big money.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30377	An individual	7b. Revised Facilities Management in Schools	The council keep making changes they made changes a year past . Schools they have the FMA's which do a great job they have a Locality co ordinator then a team manager then another manager I am sure they do not need all these Managers this would be a huge saving over the 5 years also.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30378	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Some events and activities have to be in evenings to allow working parents to attend.	Revised Facilities Management in Schools (general)	4. The council is already doing this.	Proven will exist to support events that take place in the evenings.
30379	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	In other words less after school activities.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30380	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Agree, but will need to be accompanied by contracts for staff that fit the requirement and not the other way around.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. This will form part of service review.
30381	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Any savings that can be made through a review of these services it to be welcomed.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30382	An individual	7b. Revised Facilities Management in Schools	Put out to tender	Revised Facilities Management in Schools (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Delivering services using an external provider would not prove to be cost effective
30383	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I am not able to comment on this	Revised Facilities Management in Schools (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30384	An individual	7b. Revised Facilities Management in Schools	As long as no jobs lost	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of the proposal would include revised service headcount.
30385	No Response	7b. Revised Facilities Management in Schools	A saving could be made with lollipop men/women who are covering pelican crossings & zebra crossings. There are several of these in Addiewell/Blackburn/Whitburn etc. If the children cross at a crossing, where is the need for a lollipop man/woman?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	School Crossing Patrol Guide review is not included as part of the proposal

30403	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I feel that we should stop letting out primary schools to outside organisations, as the money brought in will likely not cover heating and lighting costs. There are plenty community centres, village halls, churches etc... out there who would appreciate the business. Opening a school for one organisation is just not cost effective.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30404	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Stop external lets in primary schools, that will save cleaning costs.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30405	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Stop letting out primary schools to external organisations, this will help to revise cover arrangements.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30406	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Many schools are very busy outwith school hours and there may be scope to bring in more income this way.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30407	An individual	7b. Revised Facilities Management in Schools	In theory this sounds good but I think this may not be achievable	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30408	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I believe staff are already struggling with cover and scheduling so I think this would only bring on greater stress to the remaining staff.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30409	An individual	7b. Revised Facilities Management in Schools	Get the private sector to deliver, cheaper and better.	Revised Facilities Management in Schools (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
30410	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Stop allowing school buildings to be used in the evenings by external groups. This will reduce running costs and overtime payments to janitors.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30411	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Schools don't need a janitor at each school. 1 between 2 is more than sufficient. The one on duty is never around when work to be done. Can often be found relaxing in his room playing cards on his PC for hours on end. It's bad when the janitor from down the road can pop in for a 2 hour chat with our janitor!	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30412	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Janitors get money for nothing.... yet to see one break into a sweat! There's not enough work for one to be based at a school. Once he's opened up the building in the morning all he does is play cards on his PC and chat until home time. Easiest shift within WLC	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30413	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Agree. Perhaps reduced lets access would help.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30414	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Security in schools needs to remain a priority.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30415	An individual	7b. Revised Facilities Management in Schools	No comment - opening hours do not affect me	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30416	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	If management committees are charging for community centre lets then why cant they provide cover for events in the community buildings or pay towards the cost of staffing events, opening and closing buildings.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30417	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	This could be counter-productive insofar as many activities pay to hire space in a building. If these activities are removed, then the council is depriving itself of income.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30418	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	this will put more pressure on school staff e.g.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

30419	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Extend key holders to user lets	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30420	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	WLC failed to 'sweat the assets' under the PFI/PPP schools and screwed up big style in passing these sports areas to WLL (rates relief for ALEO's about to be roved from March 2018). Maybe you can make this part of the revised DSM model for schools and have head teachers open /close/maintain facilities and teachers clean the classrooms, halls and toilets	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30421	An individual	7b. Revised Facilities Management in Schools	I would not support this as schools are filthy currently. I cannot imagine how unhygienic they would be with even less cleaning.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30422	An individual	7b. Revised Facilities Management in Schools	As long as it doesn't interfere with youth work	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30423	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Facility managers are already over stretched with what they are expected to do	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30424	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I would propose all primary schools are closed in the evenings allowing the FMA's shift to be reduced. A couple of days per term for parents evenings could be facilitated. Public can use community centres and community high school or private venues for activities. The saving on FMA time would be considerable	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30425	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Reduce the time primary schools can remain open they should all be close in the evening which mean FMA's finish with the cleaners at 6 and this will save money.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30426	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Disagree: Would opening hours not increase if asset transfer is not an option for some communities and the buildings can no longer be supported by council - the groups engaging in activities at those centres would be looking for alternative accommodation and schools would be high on the list (if affordable)	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30427	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I would support this. There should be no provision of janitors when schools are closed unless by specific arrangement, such as building works etc. which cannot be carried out in term time. I believe that schools should not be opened outwith term time for lets etc.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30428	An individual	7b. Revised Facilities Management in Schools	Facilities are needed more than being cut	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30429	An individual	7b. Revised Facilities Management in Schools	Already some schools don't have caretaker on site, what happens in an emergency situation.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30430	An individual	7b. Revised Facilities Management in Schools	This is definitely needed to make efficiencies here. The way West Lothian Council is treated as a 'client' is shocking in terms of quality of work carried out and speed of it being carried out.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30431	An individual	7b. Revised Facilities Management in Schools	Opening hours? Does that mean schools will no longer be available for youth groups?	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30432	An individual	7b. Revised Facilities Management in Schools	From what I have observed as a parent of young children, I think there is scope to reduce the number of janitorial staff in schools i.e. they do not seem over-worked!	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30433	An individual	7b. Revised Facilities Management in Schools	Hmmm. Again sounds like another way of cutting available activities within the buildings.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30434	An individual	7b. Revised Facilities Management in Schools	well I really don't know where that will come about as janitorial and caretaking is now at a depleted stage where more cuts would be impossible	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

30435	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Agreed. FMA teams are too variable and there is a lack of transparency and accountability in the team.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30436	An individual	7b. Revised Facilities Management in Schools	Cover arrangements ? How is the cleaning of school premises charged as part of letting arrangements ?	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30437	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I believe that FM services requires a complete overhaul and brought into this century as far as technology goes. Our kitchen staff spent half their time using paper forms that by now should have been phased out ten years ago.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30438	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Facilities Management Assistants should be put through minor maintenance course (s) to allow them to minimise the need for external contractors to, put light bulbs in, put shelving up, simple plumbing courses could mean that schools are equipped to be self maintained to an extent, in turn saving thousands...example: Head Teacher pays £4000 to have an area of the school painted, FMA is on site during school holidays watching the painter because his duties are all up to date? this is a no brainer there is £4000 saved to go towards education. Facilities Management use paper to sign in/out every day, to add jobs to a janitors to do list, diaries to fill out lets when everything you need for this is already in place, recourses are there, outlook for calendar and tasks, i personally trialed this for over five years! i told people this is how we should be doing it, and over these years it has not let me down once. Im not saying the savings would be astronomical but a saving none the less.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30439	An individual	7b. Revised Facilities Management in Schools	Fine - can better use be made of the facilities to ear income?	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30440	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Charge communities if they want to use local facilities outwith hours.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30441	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Will this impact on community groups/clubs who use schools early mornings and at nights.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30442	An individual	7b. Revised Facilities Management in Schools	FMA's who are based in schools should work term time and along with other school staff have their holidays during school holiday periods. This would not only save on human resources it would have a great impact heating and electricity costs.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30443	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	In agreement hours need to be less.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30444	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Many schools are open over holidays that do not need to be opened. Janitors should start at a reasonable time and school buildings should open at a reasonable time.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30445	An individual	7b. Revised Facilities Management in Schools	If it worth it considering the small savings being proposed	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30446	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	This could work, but I think a better way of managing it would be to eliminate the need for central services to intervene with every job. Why not allow FacMan staff (those who are qualified of course) to fix electrical issues, heating issues, put up shelves/noticeboards etc. without having to 'phone home' to get someone else to do it. If you want your specialists to be central, then why bother having any provision in schools at all? Simply manning the building when school is out of session can be done by anyone.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30447	An individual	7b. Revised Facilities Management in Schools	Utilize the serices maybe with longer opening to maximise the use ,, more community involvement,, use services not close services,,,	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30448	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Again it seems that more expensive resource may be diverted to carrying out tasks which may be removed from service provision	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

30449	An individual	7b. Revised Facilities Management in Schools	Think that school staffing arrangements are already stretched to the max.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30450	An individual	7b. Revised Facilities Management in Schools	Let all school buildings be rented out to outside companies for use	Revised Facilities Management in Schools (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
30451	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	More work should be done to recruit the right people and remove the "dead wood" that is present in schools. Some staff too comfortable and do less than the minimum. These people are giving the committed staff a bad name and it is totally unfair.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30452	An individual	7b. Revised Facilities Management in Schools	One janitor working all day would allow many groups to use a local school facility for example	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30453	An individual	7b. Revised Facilities Management in Schools	As long as activities do not have to be cancelled	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30454	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Certainly think that the long opening hours at schools and community centres can be looked at. Each community serves a different audience and requires varied services, this should be considered.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30455	An individual	7b. Revised Facilities Management in Schools	FMA service needs a complete overhaul, most janitorial staff sit on their mobile phones all day and doing the bare minimum of work- this service could be halved ! Change the line management of FMAs to headteacher or business managers!	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30456	An individual	7b. Revised Facilities Management in Schools	As long as it doesn't affect the children's education and well being and they're not losing out on anything	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30457	An individual	7b. Revised Facilities Management in Schools	better scheduling of activities and revised cover arrangements and opening hours': these should suit the pupils rather than to meet some remote management criteria. Â£300,000 is trivial in the total savings sought	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30458	An individual	7b. Revised Facilities Management in Schools	Even fewer jannies, in other words? Quite apart from the effect this will have on the schools as schools, might this not reduce income from rental of school halls? It is already difficult to use schools without a janitor present (eg getting locked out).	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30459	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Opportunity for sharing of resources.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30460	An individual	7b. Revised Facilities Management in Schools	After school activities can be a lifeline for children and families.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30461	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Agree with this particularly Facilities management arrangements during the summer months. Could the Facilities management of schools not be combined with facilities management at community buildings / Councils building?	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30462	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	This seems sensible if access for all different working hours of parents etc	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30463	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Education Transport savings:- Change to the school week - Full term or part (August - October & Easter to end of education year (June) Extend school days Monday to Thursday - to take up the 1/2 day Friday teaching time. - this would then allow schools to be closed on a Friday. Savings - Transport cost reduced by one 5th - Saving on energy (Heating & Lighting Bills) plus saving of cleaning & catering costs. Cleaning programme could be set up to carry out a deep clean of a property each Friday (protect cleaners hours) - same could happen with catering staff. Pupils could still attend some designated schools - Open for extra curriculum activities - but this would need to be at a small covering cost (Â£10 per pupil) with parents provide transport. (Income to the council).	Revised Facilities Management in Schools (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted

30464	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	I know that shift allowances is a touchy subject but this must be a potential saving and schools should be deemed closed non - term time and if a maintenance has to be carried out during holiday periods they should be factored in to costs for an open/close cost and possibly have the maintenance team taking charge of buildings during any work time and then returning keys etc when works are complete.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30465	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	what about out of hours.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30466	An individual	7b. Revised Facilities Management in Schools	The implications of this need to be spelled out. What it appears to be saying is that opening hours may need to be curtailed and this will mean that many activities will cease.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30467	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Facilities management and cleaning have already been cut to the bone, why don't you start at the top of Facilities management, when i started in janitorial 29 years ago i had one boss now i have 4.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30468	An individual	7b. Revised Facilities Management in Schools	why not utilise the schools more	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30469	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Could do all groups and activities on one week night keeping building open for one night and closing other nights	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30470	An individual	7b. Revised Facilities Management in Schools	Does this mean cutting janitors?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The service would be delivered via a different model which would mean a reduction to the number of janitors.
30471	No Response	7b. Revised Facilities Management in Schools	Agree this needs revised and think savings are here if done properly.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30472	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	As long as facilities are still accessible to groups that are putting something positive into the community. It would be a shame for beneficial groups to stop simply due to a lack of venue within schools.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30473	An individual	7b. Revised Facilities Management in Schools	Provided the cleaning standards are to a level that is hygienic and suitable for the use provided then there is a logic to this saving. The council must ensure that users of the services are responsible for appropriate behaviour in these spaces to minimise the cleaning required outside of fair use.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30474	An individual	7b. Revised Facilities Management in Schools	Disagree. Schools are a vibrant part of the community and should be open for as long as possible to accommodate community events and groups. Especially, if you are considering closing other council properties or day care services in small villages and towns. Status Quo please!	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30475	An individual	7b. Revised Facilities Management in Schools	Please ensure that the needs of the school are met. School staff require access to school facilities way beyond pupil contact hours.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30476	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	All FM's in schools should be conducting their work through some kind of technology where all of their duties are sent to them electronically and they know straight away which school needs them. That way efficiency in all of their schools would be increased and all schools get their fair share. That way schools would not have to try and continually phone them to carry out their duties.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30477	An individual	7b. Revised Facilities Management in Schools	If there is wasted hours and equipment in this department, yes it should be condensed.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30478	An individual	7b. Revised Facilities Management in Schools	I do not approve of this measure if it means that structural / maintenance work to school buildings has to take place during the school day.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30479	An individual	7b. Revised Facilities Management in Schools	This needs to take into account working parents - and the importance of allowing parents to continue to work normal hours.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

30480	An individual	7b. Revised Facilities Management in Schools	Schools must be heated and cleaned and maintained (timing important too if heating breaks down during winter!) - not supportive of changes that would compromise that. Are supportive of sensible changes but surely whoever manages that area already does so.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30481	An individual	7b. Revised Facilities Management in Schools	Bring back the school janitor! There is far too much outsourcing. Trucks and vans pitching up and charging a fortune for changing a lightbulb. Needs a more common sense approach with a smaller group of individuals who take ownership and have pride in their work. Lots of charged travel time, carbon emissions and involved in current model.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30482	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Linlithgow Academy Parent Council would urge WL Council to ensure that the FM provision is sufficient to ensure the Health and Safety of all those who use our school and to provide rapid response to essential repair requirements to ensure that the education of our young people is not negatively affected by defects in our building or facilities.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30483	An individual	7b. Revised Facilities Management in Schools	Once again I feel it would be unfair to propose cuts on our children's education.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30484	An individual	7b. Revised Facilities Management in Schools	Provision of school facilities to the community outwith school times is key to building communities. where schools and other facilities are located in the same area why not centralise all facilities in the school	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30485	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	The caretakers already supervise 2/3/4 schools at night - I cannot see how they can further expand this safely.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30486	An individual	7b. Revised Facilities Management in Schools	This seems a modest estimated saving - why?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30487	An individual	7b. Revised Facilities Management in Schools	Agreed. Could FM staff not take on more tasks - eg basic maintenance tasks?	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30488	An individual	7b. Revised Facilities Management in Schools	Again, could any services be centralised. Start charging more for use of school facilities out with class time. The council should always have all cost covered by groups and organisations using school premises and facilities.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30489	An individual	7b. Revised Facilities Management in Schools	As 1A no actual measurement or definitive target against existing. How will residents know when this is achieved?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30490	An individual	7b. Revised Facilities Management in Schools	Have you considered the increase in Nursery Hours depending on how you execute them.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30491	An individual	7b. Revised Facilities Management in Schools	Impact assessment required before changes are made.	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30492	An individual	7b. Revised Facilities Management in Schools	Agree as long as no dramatic impact on provision of activities	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30493	An individual	7b. Revised Facilities Management in Schools	I'm sceptical about councils getting involved in revising Facilities Management in Schools	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30494	An individual	7b. Revised Facilities Management in Schools	With regard to cleaning buildings etc - how much further can they cut services. Hygiene in the workplace & schools etc must be a priority or sickness levels will increase.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30495	An individual	7b. Revised Facilities Management in Schools	In consultation with the staff that provide these services.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30496	An individual	7b. Revised Facilities Management in Schools	If Facilities Management team did the job they were paid for but most janitors when you ask them to do something say "that's no ma job!", so in effect they get paid for not doing very much.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

30497	An individual	7b. Revised Facilities Management in Schools	providing changes still ensure cleanliness is maintained	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30498	An individual	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30499	An individual	7b. Revised Facilities Management in Schools	The FM service is definitely needing reviewed as there are janitors who are not in the school half the time and support staff are left to cover the workload. They are also able to take holidays outwith the school term. This is ludicrous. If work is going on in schools during holiday time then bank staff should be used to cover this and your permanent FM personnel should work normal school hours.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30500	An individual	7b. Revised Facilities Management in Schools	Reduce these costs as much as possible	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30501	An individual	7b. Revised Facilities Management in Schools	Okay where these have not been earmarked as community spaces as well allowing for removal of other buildings and facilities previously.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30502	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	School Crossing Patrols covering lunchtimes should also be an area for investigation as children who have the opportunity to go home for lunch are obviously going home to parents who are not at work, therefore it should be parent's responsibility to collect their child at this time, take them home, and bring them back again.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30503	An employee of West Lothian Council	7b. 30513	An individual	7b. Revised Facilities Management in Schools	Yes I see these services important as dealing with the public, clubs and children. If schools and council buildings can provide a good service a small increase in letting prices could be put in place.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30514	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Yes, this seems to be a bit of a problem. We need to rationalise the number of buildings that are open.	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30515	An individual	7b. Revised Facilities Management in Schools	This should not impact on extra-curricular and community activities.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30516	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Are we basically wanting to cut cleaning staff and find the cheapest school meals possible. For school meals, the council has to remember its priorities are to deliver positive outcomes and early intervention for early ears and to improve the attainment and positive destinations for school children. The provision of good quality school meals is essential to both of these. This might be the only hot meal for some children in a day and care should be taken before reducing its quality to the minimum possible standard.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30517	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	How on earth will this save £300,000? How is this figure calculated? We are simply talking about reviewing the service. If we haven't reviewed it, how do we know what can be saved?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30518	An individual	7b. Revised Facilities Management in Schools	Bring these services back in house!	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	With the exception of PPP schools this service is delivered in-house
30519	On behalf of a Group/Organisation	7b. Revised Facilities Management in Schools	Schools must have sufficient cover to meet H&S based on the size of the school	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30520	An individual	7b. Revised Facilities Management in Schools	Agreed - however, if hours are to be reduced, there still needs to be sufficient cover for activities	Revised Facilities Management in Schools (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30521	An individual	7b. Revised Facilities Management in Schools	With regards to secondary schools, how will this be achieved with proposed increased usage through transfer of facilities to West Lothian Leisure if management fee support to West Lothian Lesiure is also proposed for reduction? As FM staff provide out of hours access to school estate, this would appear to be fundamentally incompatible.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal will not impact on opening hours of High Schools
30522	An individual	7b. Revised Facilities Management in Schools	Its already very poor	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30523	An individual	7b. Revised Facilities Management in Schools	Janitorial services should be increased not decreased. In schools, there should be a janitor on hand ALL day.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30524	An individual	7b. Revised Facilities Management in Schools	again sounds like cutting staff	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30525	An individual	7b. Revised Facilities Management in Schools	More weasel words, Everything turns on what is lost. Who will lose out from reduced opening hours?	Revised Facilities Management in Schools (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal will not impact on opening hours of High Schools
30526	An individual	7b. Revised Facilities Management in Schools	Again any proposals should be put to the public before any decisions are made	Revised Facilities Management in Schools (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
30527	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	FMA's are an essential part of schools....will place too much of a burden in already stretched staff in schools. who would do repairs , deliveries etc....children or teachers ??? time taken away from teaching and preparation.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30528	An individual	7b. Revised Facilities Management in Schools	I would wish to be clear that this change would not inhibit the activities of community groups by reducing access to facilities.	Revised Facilities Management in Schools (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal will not impact on opening hours of High Schools
30529	An individual	7b. Revised Facilities Management in Schools	Again, I am concerned about the impact this is having, as facilities managers have already had to take on more responsibilities and the way in which buildings are managed leaves little room more changes.	Revised Facilities Management in Schools (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

30601	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This makes sense	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30602	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree this is essential.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30603	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30604	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30605	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Seems fair. A charge would also be fair for bulk uplift - not offering this service could lead to fly tipping.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30606	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Yes I agree with the bulky uplift charge	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30607	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplift charges should be brought in.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30608	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Think people should be paying for their waste collection if they can afford it so agree with this especially if Â£73 million of cuts are needed.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30609	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly agree with all of the plans above	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30610	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree, but no doubt there will be an increase in fly tipping as a result.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30611	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly support charging for bulky uplifts. It is not right that people can put in expensive new kitchens and bathrooms and have the old items taken away at the public's expense.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30612	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly support charging for brown bins.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

30628	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30629	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts and use of brown bins is a fundamental service that WLC provides and should not be charged.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30630	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree. The current waste collection service is good.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30631	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No I don't agree with closing recycling centres as it will create more fly tipping.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30632	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Absolutely not. Is this not what I am paying my council tax for.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30633	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You have to be kidding? watch as fly tipping continues to increase.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30634	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with Brown bin charges	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30635	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree with all that is proposed.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30636	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As a single person living in a small village with little facilities, the only things I receive from my council tax are bin collections, street lighting etc, I would oppose a charge for brown bins.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30637	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As a single person living in a small village with little facilities, the only things I receive from my council tax are bin collections, street lighting etc, I would oppose a charge for bulky uplifts.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30638	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bad outcome, do not agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30639	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree. Removal of waste service and costs for bulky uplifts will mean fly tipping and mess even in beautiful areas which then brings everyone down. Having to travel further to recycling centre is not good for the environment.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30640	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There should be no changes to the existing!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30641	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree. This is an important service. We are already suffering from a retraction of services in these areas from previous years. If you are going to make changes then: 1 no closure of sites 2 no additional charges for bulky uplifts or brown bins.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30642	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree. The three community recycling centre should/must remain. This would allow members of the public to personally dispose of their recyclable waste particularly if refuse collections are to be reviewed and likely revised. Charging for bulky uplifts will only lead to an increase in fly tipping which is already a problem across West Lothian. I think the bulky uplift is a good service, if it is to be charged it should be a minimal amount say Â£5 or Â£10 tops for a three item uplift, for example. Making this too expensive would be a bad idea. Charging for the use of brown bins would make the council look foolish and irresponsible with regard to recycling and recycling targets. It would also lead to a problem with people using other methods of uplift such as door to door travelling people removing peoples waste and then just dumping it wherever they want.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30643	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for brown bin collection, bulky uplifts and the closure of 3 recycling sites will result in fly tipping	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30644	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30645	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree, this will increase illegal dumping	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30646	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30647	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	This is outrageous. You will probably find that people will dump in non-appropriate places	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30648	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree with this - this is why we pay council tax !	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30649	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not support. Already charged for bulky uplifts and had enough of bin collection and bin changes. If this goes ahead fly tipping will likely increase.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30650	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is such a bad idea - you;'ll have a bigger problem with fly tipping and end up costing more money in the long run. I think you should maintain as it is.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

30694	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The council have not provided enough indepth information for me to make an informed comment on this, as all information about this whole consultation is more secret that area 51.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30695	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	unable to comment as not in plain english	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30696	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin charges is not needed. Give brown bins to people who need one, if they cant afford to pay for it then they will just get charged for leaving there garden waste but what are they meant to do.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30697	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The brown bin charge should be in council tax for approximate properties, with an opt out facility.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30698	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Small charge or brown bins is justified as service is not provided to everyone. How about increasing uplifts to fortnightly over summer period.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30699	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Could brown bin collections not be made into compost and sold?if you close three community recycling sites I can envisage people "fly Tipping" which would cost the council to clear up.	Waste Services - charges	4. The council is already doing this.	Thank you for your comments. The council already does this and the proposals would be designed to minimise the desire for residents to illegally fly tip.
30700	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	My council already charge £25 for bulky uplifts, this is an excellent idea.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30701	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for Bulky uplifts will result in fly tipping coating the council money better to reduce the amount of free uplifts provided over the year and making small charge for additional uplifts.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30702	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree with charges to brown bin charges as during winter months bins are emptied once a month, and there will be little garden waste during the winter months. And even during the summer it is once a fortnight.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30703	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would quite happily pay for any bulky uplifts as would be cheaper than paying companies say like Currys to remove a washing machine, cooker etc.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30704	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The charges need to be kept to reasonable level to minimise the costs of dealing with the fly tipping issue that will result from this change	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30705	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky waste and brown bins will mean that people will take more of this waste to recycling centres	Waste Services - charges	3. The respondent advised that they had no comment to make.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30706	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whereas I am not opposed to charges for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30707	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collection needs considerable thought. Better to charge everyone and avoid piles of grass cuttings accumulating in hedgerows and on verges. In addition if a neighbour uses someone else bin without permission this could lead to disputes if charges are levied.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30708	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing of local recycling centres will lead to more fly tipping. Recycling should be positively encouraged but if the facilities don't exist locally people will not do this.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30709	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for garden rubbish will also encourage tipping and or bonfires.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30710	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	to charge for brown bins is total madness.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30711	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Happy with charges,	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30712	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	1. Charging for brown bins will probably mean that most people will revert to local dumping. Surely this is another example of the Council failing to make use of a business model and making money out of this. How many bags of compost are bought in the UK every year and are you telling us that they don't make a profit?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30713	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	2. I don't have an issue with charging for bulky uplifts, I think sometimes people are being lazy when perhaps they could dismantle something to make it transportable to a civic waste site. Just make sure the charge is small enough to still be affordable, otherwise you will find fly-tipping or street dumping increases.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30714	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the use of brown buckets, coupled with the reduction of recycling sites, is likely to increase fly tipping therefore increasing the council's costs to remove such mess from public, or private, ground. If a household cannot afford to pay the charge for a brown bucket there is no other alternative but to drive one's own waste to the next closest site, thus causing more motor pollution in the area. What is the alternative for those unable to transport this themselves? Won't the council lose out on the compost produced by the brown bins and the resultant revenue? How will the council determine the cost of using a brown bin and will the uplifts still be at the same intervals as now? Does the council know which three sites it is closing?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30715	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts is overdue as most councils already do so.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30716	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with bulky uplifts charge	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30717	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	not with charging for the brown bin uplift.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30718	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rather than charge for all brown bins, I suggest the Council considers charging only for those households with a second (or greater number) of brown bins. The brown bin service is very well used and much needed. I do not agree that there should be a charge where a single brown bin is used in a household.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30719	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bad idea! Charging for bulk uplifts from residential properties will only leave to fly tipping, which will have a large impact on our local environment. Similarly with brown bin collection charging we will see green tipping increased	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30721	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think we should be charged for brown bins this is a valuable service but if people do not want to pay they have the opportunity to take this to recycling sites themselves.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30722	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This will end up increasing the amount of fly-tipping and waste problems. While three free bulky uplift a year might be much I don't think the free uplift should be cut altogether. Reduce it to 2. Brown bins uplift should be available for free. Could you look at reducing the size of the bin instead like it was done with the black bin?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30723	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree that provision of bulky uplifts should progress however with a nominal charge continues, is important. the fee however needs to be carefully considered as to ensure uptake and fly tipping is not and adverse effect of the new charges.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30724	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Consider the above also applies to the proposal for brown bins and accept that a potential minimal fee could be applied, however the management of the small fee collection could be made more simply by across the board council tax fee selection option, so registered houses pay the fee for regular collections. Again this can not be too high, otherwise fly tipping will become an inevitable problem that the council then has to spend money and resources on dealing with.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30725	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also they dump stuff in their gardens and the only thing which convinces them to get it removed is that the uplift is free. As a keen gardener who makes full use of my brown bin I fail to see how you can suggest charging for it. Folks just won't bother cutting the grass etc.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30726	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with most of this. Worried charges will simply lead to more fly tipping & anti social choices to dispose of personal waste. I DO NOT feel a charge on brown bin collection is appropriate. Not all people have transportation to take garden waste to a central area hence feel it may be dumped on council land near to their homes. I also feel this goes against encouraging recycling as some would just put it in grey bin. As someone who pays a lot of council tax I value the bin service as do not personally use many of the other services that my tax is going towards.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30727	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Opposed to closure of community recycling sites and any change in brown bin provision/ charging.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30728	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	To encourage recycling, it needs to be free. Charging for brown bins is backwards step. More money should be invested in recycling, such as glass and textile collections.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30729	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The brown bins were forced upon residents, at the same time making money for the council. It is ridiculous to expect residents to pay for the uplift of the bins that they didn't ask for in the first place. The only people that will end up paying for this are those with a strong moral fibre. Those that are unemployed/don't care, will not. Stop squeezing money out of the same people. Charging for bulky uplifts will result in fly tipping, as you well know.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30730	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I know that Borders Council have recently implemented charging for uplift of brown bins and this has resulted in an effective tax on elderly people and those without use of a car who have no option but to pay to get rid of their garden rubbish. I do not support this proposal.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30731	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is one of the services we use in West Lothian which seems to work satisfactorily. Every house should be entitled to at least one bulky uplift a year and charges for any more. No charge for the brown bin as if the recycling centre shuts you will find a lot of black bags littering the countryside.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

Revised Service Standards & Delivery Models - Waste Services	Strongly disagree with most of this - No problem with charging for bulky uplift or brown bins, as long as the charges are reasonable	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30733	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the rumours are to be believed, Linlithgow recycling centre is one of three centres set for closure - again hitting the perceived more affluent end of the county Even if this is not true, it seems crazy to close recycling centres when climate change currently has such a high profile - no one is going to drive a round trip of 16 + miles to a centre to get rid of rubbish - it will mean far more fly tipping, with the resultant mess this brings to our neighbourhood - absolute madness	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
30734	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We only get 3 free bulky uplifts a year and again this just puts the problems elsewhere like fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30735	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing charges for bulky uplifts will inevitably encourage fly tipping, damaging the environment and creating extra clean up costs.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30736	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Section 7C Waste. The Community Council is resolutely opposed to proposals to charge for bulky uplifts. Consequences will be increased fly-tipping and an impact on public health.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30737	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Section 7C Waste. The Community Council is resolutely opposed to proposals to charge for brown bins. Consequences will be increased fly-tipping and an impact on public health.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30738	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown Bins should not be a chargeable service, people will fly tip and it will cost the council more.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30739	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is ridiculous you are putting our council tax up and charging for bulky uplift and brown bins. This will encourage people to dump larger items anywhere. So what is our council tax exactly paying for is it not services to West Lothian residents including brown bins and bulky uplifts?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30745	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I am concerned that the council will charge for brown bin collection - this will lead to more contamination of other bins. I believe this is the wrong move.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30746	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling shouldn't cost or people won't do it. Charging for brown bins would be a backwards step, so should not happen.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30747	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have no issue with charging for bulky uplifts. However, the charge per uplift could be reduced a little to make it more worthwhile to take time to use recycling centres. If the cost is perceived to be too high, the incidents of fly tipping could increase.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30748	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think that if there was a charge for using brown bins, they simply wouldn't be used and garden waste would be put in grey bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30749	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Watch you don't facilitate fly tipping. How about one free bulky uplift per year instead of 3? People will just put their grass cuttings in their black bins or dump them.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30750	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	7C) Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more fly tipping and the community will be overrun with vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30751	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30752	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with charging for brown bins. The council use these to make and sell compost.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30753	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think this is a bad idea, this will see an increase in the use of grey bins for the disposal of garden waste with the bins already reduced in size this will mean more people not having capacity. Perhaps the compost that is created from Garden waste could be sold to agriculture instead of being given away for free to help subsidise costs.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30754	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts screams out an increase in fly tipping. Charge for bulky uplifts is reasonable as is a specific journey to an individual property	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30755	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for garden waste disposal screams out an increase in fly tipping. It make encourage inappropriate use of other bins which are collected "free".	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30756	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Is it cost effective to charge for brown bins??	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30757	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I can hardly believe that this may be cut back yet again. Not only have we been provided with smaller bins and less regular uplifts over the years you are now considering charging for uplifts. On the one hand we are being encouraged to recycle our waste and on the other you are cutting services - this makes no sense at all. All this will result in is an epidemic of fly tipping as experienced in other authorities.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30758	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	as mentioned this will encourage alternative ways of dealing with waste. As will the introduction of charges for bulky uplifts - free uplifts are something that this council should be proud to offer.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30759	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree that there should be charges for brown bins. This will lead to increased fly-tipping.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30760	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	7c . I object to any cutbacks within this service area. I will oppose any charge on bulky uplifts especially when I am paying more council tax.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30761	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I will oppose any charge on use of brown bins especially when I am paying more council tax.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30762	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A recipe for disaster! Despite the push for recycling and green agenda the option being proposed is to charge for brown bins usage! This can only lead to people developing their own solutions to waste disposal and who can blame them. Mixed messages indeed.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30763	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A recipe for disaster! Despite the push for providing smaller black bins! This can only lead to people developing their own solutions to waste disposal and who can blame them. Mixed messages indeed.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30764	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't think there should be a charge for brown bin uplift.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30765	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If you start to charge for bulky uplifts, there will be more illegal dumping. Which will end up costing more to deal with than the savings with bulky uplifts.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30766	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What a cheek, you want us to recycle, but we may not have access to recycling site, unless you drive half way across the county. That surely cannot be environmentally desirable. The Linlithgow site is well used. I often use it. A monthly brown bin collection is not sufficient at certain times if the year, is I take bags and bags of garden refuse to the tip. How am I supposed to get rid of it if the tip is closed. I would object to Linlithgow recycling site being closed. How about reducing the opening hours or days? I realise you would probably like the site closed, so you could make a killing on selling the land for property development. There aren't the facilities (schools, doctors, parking etc) to support more housing, so let's not go there. If you close the site it will encourage fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30767	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Similarly charging for brown bin collection is also a backward step as you previously introduced these bins to stop garden waste being put on in grey bins .The collection of waste is a service that affects all your council tax payers and therefore you should be concentrating on ensuring everyone in the council area can easily get rid of your waste.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30768	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The proposal to introduce a charge for using brown bins is ridiculous . You have encouraged recycling of garden waste therefore this charge should be included in the normal council tax bill.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30769	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Should never have wasted money changing grey bins! Paying for bulky uplifts is probably fair enough but hopefully won't result in people fly-tipping if they can't afford it as this clean up will probably cost the council more in long run.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30770	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin recycling should not be charged for - gardens are reflected in the higher council tax assessment therefore people with gardens already effectively pay more.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30771	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	People should not be charged for brown bin council makes money from what they collect	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30772	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky items again would lead to people fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30773	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bins again would lead to people fly tipping. I was under the impression that brown bin garden waste was recycled and made into fertilisers !	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30774	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin emptying will mean this waste is hidden in the black bins, so more waste produced here instead.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30775	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do not charge for brown bin use.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	If the proposal is developed, charges would be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges would be for those who wish to use the services.
30776	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The council should be encouraging recycling in its contribution to zero waste. The council should not charge for Brown bin collection. This does not drive the desired behaviours	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30777	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whilst bulky uplifts may increase fly tipping, hopefully the gains would outweigh the extra resources for cleanup.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30778	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Don't think we should implement this for brown bins as we want people to look after their gardens an this would dis-incentivise tenants and those on low incomes from doing so.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30779	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	people will not pay for a bulky uplift so the stuff will be dumped.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30780	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Highly suspect that use of brown bins will reduce and the waste will be put in grey bins to be collected free of charge. Or dumped. This plan needs to be thought through very carefully!!	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30781	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be unhappy at the proposal to introduce a charge for the use of the brown bin. I can see people just not using it. On the one hand people are supposed to recycle and dispose of waste appropriately so charging people is noot going to improve things.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30782	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agreed bulky uplifts and brown bins should be chargeable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30783	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift and brown collection needs to be balanced against the risk of fly tipping and abandonment.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30784	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	With a housing development adjacent to my property I have lost a woodland area where I disposed of leaves in th autumn where they decomposed naturally. Being responsible for an avenue which is 150metres long lined mostly with sycamore trees I am very dependent on the brown bins and recycle depot at Linlithgow . The avenue produces on average 90 builders bags full each season. Being charged for bins (the quantity that would be required) and the loss of the depot would leave me with no way of getting rid of them. Being on a tight budget it would be difficult to employ someone to dispose of the leaves as the work is spread over 3 months.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30785	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with these proposals. Charges for bulky uplifts will undoubtedly lead to an increase in fly tipping. One free bulky uplift a year would minimise this risk as people could plan , without being out of pocket or consider destroying the environment by fly tipping. There is already a litter problem as people drop too readily, these people are without conscience and will fly tip. You will have to then clean up the mess as vermin will be attracted. This will portray a very unattractive face of Scotland to the visitor and would affect tourism adversely. No one wants to visit a smelly rubbish tip full of vermin, which would also lead to possible health hazards. Brown bins also produce compost and stop people using their other bins, causing them to smell. People could of course burn their plants as they used to do adding to greenhouse gases! So much for a green and pleasant land ! What century are we living in?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30786	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly disagree with the proposed charging for Brown bins. People will simply put this green waste in the grey bin, thereby increasing the council's landfill waste disposal costs. Making recycling more difficult will just encourage fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30787	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I do not mind paying for a bulky up-lift. Surely brown bins contents are used for plants within the council gardening maintenance? People will probably dump garden rubbish in their neighbourhood?	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30788	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If a person cannot afford the brown bin fees where will they dump the garden waste? Not in my back yard!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30789	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts are fine, but don't introduce charges for brown bins this will result in more fly tipping. Use a sliding scale for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30790	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I can afford to pay for bulky and brown bin uplifts but not everyone can or can transport these themselves to arc sites and fear it would lead to increase in fly tipping and additional cost to the council and farming community.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30791	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	You should only charge to houses that can afford it. I would be happy to pay a small amount for a bulk uplift and would consider a small charge for the brown bin. Many families just couldn't afford this though.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30792	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts is a 'no brainer'.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30793	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is mostly all right, except that I would not support charging for brown bin uplift. This service is much valued and necessary. All people do not have their own transport in order to take garden rubbish to the recycling centre, so what happens here?	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30794	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I support charging for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30795	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the waste service is good so do not mess it up but improving efficiency and effectiveness is good charging for bulky uplifts .. no problem keep it affordable and cash free online and next day service guaranteed	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30796	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	happy to pay £40 a year for brown bin	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30797	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Opposed to pay for brown bin uplift.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30798	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing bulky uplift charges and charges for brown bin use will lead to an increase in fly tipping so these should not be chargeable.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30799	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What about fly tipping this would increase if no free bulky uplifts consider carefully	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30800	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	There should be 1 fee bulky uplift a year, then charge. There should be no charge for use of brown bins; to do so, would be counter-productive.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30801	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The introduction of charges for bulky uplifts and emptying of brown bins are going to result in increased fly-tipping, which degrades the environment. There is also a risk of people putting garden waste into their grey bins to avoid the brown bin charge. This will increase the landfill tax for the council.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30802	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts charge okay. Brown bin charge not acceptable or wise.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30803	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with charge for bulky uplifts. Up till now recycling through the blue and brown bins has been encouraged with more than one bin being allowed. I have two compost bins within my garden but can still produce enough waste to fill the brown bin. If need be I can dispose of waste at recycling centres as I have access to a car but where does that leave the elderly and those with no car.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30804	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts and brown bins would be likely to lead to people dumping their garden waste and bulky items. This would lead to costs to the council for the clean up of the fly tipping. This needs to be analysed to see if it would actually lead to the proposed savings.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30805	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more fly tipping and the community will be overrun with vermin	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30806	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be disappointed to see Blackburn recycling centre close and also would struggle to pay for my brown bin and to get garden waste to a centre especially as my partner is disabled.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30807	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more fly tipping and the community will be overrun with vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30808	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As a keen gardener I do use my brown bin a lot, however, wouldn't mind paying a small fee to have this emptied. Agree that there should be a charge for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30809	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	The proposal to charge for bulkies and brown waste will also impact on the CRS also. All these potential savings/proposals come at a cost to jobs and once more information is required the GMB would welcome working with the waste management team to look at alternative proposals. The introduction on shift working within waste being one key area to explore.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services. We are committed to looking at viable alternative suggestions and delivering the best approach to savings possible.
30810	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Personally don't have a problem with any of this but will people not just dump even more in the byways. Maybe 2 bulky uplift per year & no charge for the Brown bin.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30811	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Taking away the 3 bulky uplifts allowed each year could lead to dumping of large household items in the community, which would eventually lead to the council picking them up anyway once a complaint has gone to a local councillor. Free of charge bulky uplifts could be reduced to twice yearly.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30812	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins must be collected, collection dates for these are already at a minimum, and household grey bins are too small. Elderly people or people without transport could lose interest in keeping their gardens in good order, as they would not be able to dispose of gardening waste.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30813	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is a very risky proposal which could well backfire and result in increased costs cleaning up the inevitable amount of dumping and fly tipping of rubbish and waste that will follow on. A modest charge for bulky uplifts would be acceptable, but the closure of three community recycling sites is totally inappropriate at this time.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30814	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for brown bins I think a lot of people will not recycle their waste and put in black bin	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30815	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree as this is preferable to staff losses in vital service areas.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30816	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the use of brown bins would also see a drop in the sustainable management of gardens.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30817	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts will result in fly tipping or people leaving items in their gardens. This may lead to neighbour disputes depending on living arrangements.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30818	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts are operated by other Councils and therefore would likely be accepted by residents within West Lothian, depending upon the level of charge. However, charging for brown bin (garden waste) uplift would be totally unacceptable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30819	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why brown bin charge and not grey and blue bin charge too?? It doesn't appear to make sense. If brown bins were charged then what would likely happen would be people dumping garden waste in various places throughout West Lothian which would receive complaints from the public and action would need to be taken buy Council to clean possibly costing them more money than they thought they might save.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services. Blue and grey collections are statutory.
30820	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	By all means reduce the number of free bulky uplifts to one a year.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30821	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	However charging for brown bins and closing community recycling sites would lead to more fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30822	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not happy about charging for brown bins as rubbish will just be dumped in the woods.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30823	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Should the council consider charging for currently free services? e.g. bulky uplifts reduce from 3 to 2 per year and charge a realistic but non commercial rate that is palatable to customers. We don't want more fly tipping.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30824	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	domestic bins: the current collection of grey bins must remain a minimum. You are proposing punishing householders for having lawns in these days of concrete housing estates. This is antisocial. I strongly disagree with this. Our council tax must cover grey, blue and brown bins. I do envisage fly tipping if you don't offer some sort of bulky uplift service. This is a retrograde idea.e.g 2 free a year not 3.... the more you close the likelihood of illegal dumping will increase.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30825	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts - charging for ALL bulky uplifts results in items being dumped. These items still need to be picked up which must cost much more. Surely it would make more sense economically to allow 1 uplift per year. Families with no car are unable to take items to recycling centres themselves.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30826	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more fly tipping and the community will be overrun with vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30827	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Shouldn't have to pay for brown bin usage as this waste gets recycled it is also encouraging people to recycle which is better for the environment.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30828	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for non-statutory services could work. Bulky uplifts and brown bins charging makes sense as other LAs have adopted this approach with some success and savings. An easy-to-use and intuitive IT system would be required to encourage uptake for charging.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30829	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Be wary of tipping as a result of removal/charging for services.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30830	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Supportive in principle albeit based on limited information. I would disagree with the logic of proposed introduction of charging for brown bins, which would be viewed as a step back in terms of waste targets, recycling etc and has potential to impact on every household across West Lothian.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30831	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts is fine. The	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30832	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for The Brown bin charge could be detrimental.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30833	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Analyst should be taken to ensure that the income raised for bulky uplifts etc is not out weighed by the cost of cleaning up fly tipping etc	Waste Services - charges	3. The respondent advised that they had no comment to make.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30834	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with the charges for bulkies, we do not need this service. Understandably there will be a few people trying to fly tip but in the long run not all households use this service. It may be worth while closing amenity sites however these are widely used and i feel it would be of great loss to lose these sites.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30835	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I completely disagree with any measure that removes the options for people without private transport to be able to recycle easily - you can't really get on a bus with your recycling?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30836	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bins sounds good Charges for bulky uplifts will lead to increased fly tipping	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30837	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Ensure you keep to that first sentence promise. Charges for brown bins. More dumping or no recycling ahead. Think.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30838	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People should not be charged for brown bins or bulk up lifts reduce the number of free uplifts . The brown bins was a council delivery forced on people, why should they be asked to pay for something they didn't ask for !. The only effect that the brownbin charge would be is more going in grey bins. No doubt this idea came from the same person who put in the bin size reduction. if that's the case then perhaps there should be a reduction in peoples council tax for the removal of the service .	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30839	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Only if the charges are reasonable would this be a sensible approach e.g. In areas where Council Trees are not maintained and leaves are not uplifted - this is a burden on the householder to endeavour to keep their property clean and tidy which should not be their problem at all !!! Closure of recycling sites is definitely a ridiculous proposal. This would only give rise to more Fly Tipping and would cost the Council more money to scour the county clearing the mess up.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30840	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Give people a free compost bin if they want one instead of charging for using brown bins. Charging for bulky uplifts will only lead to fly tipping and untidy gardens.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30841	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	they any proposed charging of collecting rubbish, including the brown bins would send the wrong message to people.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30842	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Everything in brown bins is biodegradable so a charge for collecting the brown bins is simply absurd. It will only encourage people to dump their waste instead. Recycling and helping the environment should not be punished by a charge to pick up people's brown bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30843	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree on charges- and many other councils are looking to introduce these charges; but closure of 3 community recycling sites would be a backwards step and will just lead to more fly tipping > complaints > the council will be forced to react and clear up and it'll cost us more in the long term.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30844	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The council has spent a long time trying to encourage residents to recycle therefore charging for brown bins will deter this and may lead to fly tipping. I do agree with charging for bulky uplifts.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30845	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Waste services à€ charges for brown bin collection, bulky uplifts and the closure of 3 recycling sites will result in fly tipping. This links back to section 6, more work with less staff to do it in Revenues.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30846	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for these things will just result in fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30847	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Waste services should remain free for bins. Any charges will make fly tipping the norm. Bulky uplifts maybe 1-2 per year free.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30848	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins? I thought you used the compost generated and sold on any excess? For some people with larger gardens - or small gardens but large hedges - it would be difficult to dispose of garden waste	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services. The council do not make a profit on the sale of compost which is handled by a JV.
30849	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Increased risk of fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30850	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30851	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	What analysis has been done to determine the impact of the introduction of charges for bulky uplifts on projected levels of / increase in fly tipping and the subsequent cost to the council in dealing with this?	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30852	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	brown bin waste creates compost which in turn helps the council maintain landscaping so should not be charged for usage of bins	Waste Services - charges	4. The council is already doing this.	Thank you for your comment. Your response has been noted. The council already do this.
30853	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think that the free bulky uplifts should be reduced from 3 to 2 or perhaps even 1. On the other side there might be increased fly tipping with this option, which would be at the detriment to the countryside.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30854	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for brown bin collection, bulky uplifts and the closure of 3 recycling sites will result in fly tipping. this will more costly to the council.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30855	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts will only result in fly tipping on a large scale which will cost council money so false economy the free uplift could be reduce to 2 a year with charges thereafter.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30856	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges to rubbish uplifts will result in fly-tipping which will probably cost more in the long run to tidy.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30857	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	West Lothian is one of the cleanest council areas in Scotland. I would not be happy with charges being made for bulky uplifts and brown bins uplifts. Where these charges have been made in other council areas this has resulted in fly tipping on a grand scale with more cost to the council for clearing the mess up. I would also question that the cost of managing this new scheme would far outweigh the continuance of the present programme.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30858	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the Council charges for bulky uplifts, that will only increase the amount of fly-tipping that takes place? I cannot see the logic behind introducing charges for brown bins. The Council asked the residents to be more user-friendly. Now, the Council wants to charge us for that. No!!!!	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.

30859	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	3 free bulky uplifts at the moment â€” reduce these to 1 free uplift and residents pay for any additional uplifts. What percentage of residents use all 3 uplifts each year? Still having a free uplift would help prevent fly tipping which WLC would have to clean up anyway. There should be no charge for normal scheduled brown bin collections, council introduced this scheme and uses this material as compost. WLC should remove the brown bins if free uplift is not possible, WLC introduced the scheme they should remove it.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges will be set to ensure that access to services are maintained and these non statutory services can continue to be offered. The charges are only for those who wish to use the services.
30860	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree with charges for bulky uplifts, brown bins as this would increase fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30861	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Whereas we are not opposed to charges for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30862	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collections needs considerable thought. What is the current cost of the brown bin collection service and what does it add to the Council Tax of properties in say Band D and above? Better to charge everyone and avoid piles of grass cutting accumulating in hedgerows and on verges.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30863	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Don't think charges should be made for brown bins collections - we all know what would happen if you did- especially if you are closing the dump at Linlithgow.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30864	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I oppose the proposed charge for use of a brown bin	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30865	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Environment - think plan to charge for brown bins and uplifts is a good idea.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30866	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It would be regrettable to have to pay for brown bins emptying especially as my council tax may increase.. I would however pay a reasonable charge for brown Bins emptying.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30867	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts and brown bin collections will only result in fly tipping, which is already an issue.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30868	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is entirely appropriate to charge for bulky uplifts however how would this be applied eg. one charge per item or one charge per visit etc? Also, it might be practical to charge after the first request.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30869	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with charging for bulky uplifts. This will cost more due to fly tipping/	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30870	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for bulky uplifts & deal with a massive fly-tipping problem.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.

30871	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts - should be means-tested. You are distinguishing between who can and who cannot pay - putting lower incomes at a disadvantage and encouraging fly tipping. Brown bin charge - again this should be means-tested. On a personal level, I live in a corner property which is next door to a private tenant. This property has a number of large, wild trees which are not maintained in any way. Every year these trees shed leaves which have to be lifted from my garden and placed in my brown bin along with weed etc. all year round. If this is not done they can become a hazard. Therefore, I would be paying to dispose of garden refuse caused by a private landlord (unfair). This would also encourage tenants not to keep gardens maintained and considering you employ estate officers or quality assurance officers to inspect council tenants' gardens to make sure these are kept to a certain standard - surely this doesn't make sense.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30872	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There should be no charge for any services involving recycling where the work of the community is saving the Council landfill disposal charges.	Waste Services - charges	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30873	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introduction of costs for bulky uplifts will increase fly tipping. Charging for brown bins will reduce your recycling targets.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30874	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The brown bin charge is a backwards step - the majority of people will be unwilling to pay - landfill will increase; fly-tipping will increase; there will be more highly pollutant bonfires throughout the winter. If it is the only way to save money please admit that it is a defeat, that it goes against previous aspirations and could infringe Government and EU guidelines. I fear that all you mention in 7C could have a similar effect. Come clean. It's not your fault but it's very, very bad.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30875	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts and brown bins will increase rubbish dumping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30876	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introduction of these charges and proposed retrograde action may deter some individuals from accepting and may also become a catalyst for responsible individuals to dump bulky items, normal brown bin waste plus items that would normally be accepted at the recycling centre now being dumped in other public spaces - ie. "fly tipping". This fly tipping will become a scar on the WL landscape and at the roadside etc. In these circumstances WLC will inevitably incur more cost to remove & legally dispose and/or recycle.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30877	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin waste can be recycled and given to Burgh Beautiful or sold to garden centres.	Waste Services - charges	4. The council is already doing this.	Thank you for your response. Your comment has been noted
30878	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Numbers for bulky uplifts for sites should be homecare who help folk who have nothing. Volunteer schemes should be used to help with uplifts and delivery.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30879	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for brown bin use is unacceptable. Charging will just cause more fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30880	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We are opposed to the proposals to charge for use of brown bins. It can be difficult as individuals to handle the disposal of a large volume of garden refuse without adequate brown bin provision .	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30881	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I have huge concern about the proposal to charge for brown bins. I have 4 brown bins and a fairly large garden. If I were to pay for brown bins I will start to put garden waste in her grey and blue bin instead. waste services are the only thing i receive from the Council and already pay my Council tax so should not have to pay anything else.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.

Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30898	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	In light of recent success in terms of increases in recycling landfill how does the proposal to charge for bulky uplifts and brown bin uplifts meet any environmental priorities? How much will my brown bin cost and how often will it be collected?	Waste Services - charges	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30899	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for use of brown bins seems unfair and an imposition on residents who tend their garden.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30900	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Also, by introducing charges for uplifts and not uplifting brown bins, this will give rise to an explosion of fly tipping. Not a good option.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
30901	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for brown bin uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30902	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for more services such as waste uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30903	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	but introduce a flat fee on other service, for example, on brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30904	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	start charging for bulky uplifts - this is abused by customers as they are free.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30905	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for uplift on additional black bins	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30906	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why are you not charging the public for replacement bins in line with other councils across Scotland.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
30907	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think that some free bulky uplifts should be allowed - I know it is currently 3 per year and maybe this could be reduced rather than stopped altogether. .	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review. The council will review options for introducing new charges such as Bulky uplifts

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30908	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts would result in increased fly tipping and environmental local degradation so disagree.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30909	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts and brown bin recycling are a necessary service otherwise black bins will contain garden waste and fly tipping will increase.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review. The council will review options for introducing new charges such as Bulky uplifts
30910	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I was made aware the Highland council are now charging residents for the use of the brown bin uplift. Â£30 per year (I think). Although people would not like it, if the decision was made then they would accept it.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will be benchmarking against other authorities regarding the impact of changes such as this and the lessons learnt from their introduction.
30911	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree, but changes to waste services, particularly charging does have knock on effects. Agree that bulky uplifts should be chargeable, but maybe scales to the quantity being lifted or after possibly one free.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
30912	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collection will result in people putting their garden rubbish into the general rubbish bin. Maybe have 1 free bulky uplift within a 12 month cycle then charge for extra, otherwise this encourages fly tipping and will cost the council to remove anyway. We are asked to recycle as much as we can so how can closing 3 recycling sites help with this?	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Propose not to take forward Garden Waste charge but agree with the move to look at the number of free bulky uplifts. Total disagreement with the closure of recycling centres as against council values.
30913	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for uplift of brown bin given efforts to promote recycling appears counterproductive.	Waste Services - charges	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will be benchmarking against other authorities regarding the impact of changes such as this and the lessons learnt from their introduction.
30914	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	you can not cut waste removal charging for bulky uplifts will only cause more fly tipping they do it now and its free.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30915	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Waste collection service- reduce number of free bulky uplifts per year. Have first bulky uplift free and then charge for any additional uplifts. Charges should not be too high as this will lead to increased fly-tipping.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30916	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would agree in principle with this proposal however I am aware of circumstances where items have been "dumped" as the person has not been willing to pay the cost of a bulky uplift resulting in greater problems - I am also aware in Edinburgh when a reduction in the waste collection was undertaken this had to be revised due to wheelie bins not being emptied frequently enough and being left overflowing with rubbish / with black bags left beside them etc	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30917	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with the charging of brown bin uplift. Agree with removal of commercial waste however require to be mindful of dumping of waste and the potential of moving the problem to other council services.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30918	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts = increased fly tipping. There is already an issue with dumping of waste, including garden waste, in local woodland areas.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30919	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Also if you charge for a brown bin people will fly tip their green waste.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Councils who currently charge for Garden Waste collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.

30920	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplift charges are a must, most other Councils already charge.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
30921	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for the use of brown bins seem unfair and could result in many residents not up-keeping their gardens , which would have a detrimental effect on the aesthetics of the housing estates and the environment in general. There would also be the danger that many people would simply put their garden waste in their grey bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30922	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Previous attempts at charging for bulky uplifts increased fly tipping. Charging for brown bins will increase fly tipping and end up with grass going uncut.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30923	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts would need to be carefully balanced to ensure continuity of use and prevent increase in costs associated with fly tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30924	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	so you want to encourage recycling and then charge for the brown bin!!!! Apart from anything else this is a part year service so your saving would be minimal- a moderate charge for bulky uplifts would be acceptable but overdoing it will just lead to fly-tipping as will closure of recycling sites	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Disagree with the charging for Garden Waste but agree with the moderate charging for bulky uplifts.
30925	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree in principle on introducing a charge for bulky uplift as currently West Lothian residents can have 3 a year. I would propose to give 1 free and then additional charges thereafter. I do believe that West Lothian may become a fly tipping area due to all of the above proposals so this should be given careful consideration.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30926	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	if a bulky uplift fee is applied everyone will start fly tipping and dumping stuff everywhere that you will need to pay to get removed anyway.....stupid idea.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30927	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is awful people will not pay for brown bin collections no way you will end up with horrid overflow bins or ppl will use the blue/black bins instead ppl will end up with overgrown gardens that are unsafe.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30928	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	The proposals above will probably mean that West Lothian will look like Naples in no time(filthy) due to the excess rubbish getting dumped on the streets and in the countryside.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30929	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	worry about fly tipping if charging for bulky uplifts - surely these are more expensive to clear than providing one free uplift per year! On top of this you are then encouraging us to recycle our bulky uplifts at your amenity centres only to shut some. You have not given any indication which ones!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Bulky Uplift collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices.
30930	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A charge for bulky uplifts seems reasonable but expect more fly tipping. Charges for regular uplifts such as brown bins will just irritate people (like me) who already pay their council tax and expect their waste to be uplifted as part of the deal.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.

30931	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You cannot ask people to recycle and separate waste and then charge them for doing so! Brown bins serve a purpose and ultimately save WLC money as they generate good compost for WLC to use. Bulky uplift charges will simply increase fly tipping...why not reduce 3 free to 1 free per year with charges for extras?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30932	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think small fees for bulky uplifts would be acceptable, if this ensures good service. I disagree with charges for use of brown bins as this would mean more pressure on use of small black bins to dispose of garden waste, and people potentially dumping garden waste elsewhere that the council would then incur costs clearing up.	Waste Services - charges	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Disagree with the charging for Garden Waste but agree with the moderate charging for bulky uplifts.
30933	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No charges should be made for the charging of brown bin collection. I agree with the removal of commercial waste.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
30934	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Already pay considerable tax and one of the few returns that I actually receive is a bin collection. If charges are levied for brown bins the community will suffer as gardens would not be maintained.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Recycling Centres will still be available for the deposit of Garden Waste and home composting will continue to be supported as an alternative means of processing Garden Waste.
30935	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We already pay our community tax for the services mentioned. The brown bin collection service needs to be retained because removal would encourage people to fly tip their garden waste. This would also be the case for bulky uplifts. Fly tipping would become a huge burden on council resources.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30936	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for bulky uplifts as the charge is reasonable now.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
30937	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins is self defeating as this will increase fly tipping and also I will just put my garden waste in the black bin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30938	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is already a shambles, you gave us smaller black bins where the money could of been spent elsewhere and now you want to charge us for brown bins???	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30939	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	"NO" charges should be introduced for uplifts or brown bin collection. This proposal would just lead to more fly tipping...this would be a daft decision.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30940	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for brown bins then the black bins will be used or fly tipping will increase - not cost effective.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30941	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts should be done on a case by case basis and charged on a scale accordingly. I personally have access to vehicles therefore can go to the recycling sites myself, however many people in my area are elderly and don't have access to vehicles, should they be penalised?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30942	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I dont agree with your points on charging for bulky uplifts and use of brown bins??	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30943	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why charge for brown bins?? This seems unfair as it provides you with all your compost anyway!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30944	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	So basically you give everyone a skinny grey bin then discourage recycling? Everyone will just throw their rubbish on the streets, including items for bulky up lift... Are you going to pay for every property to have a paved garden since you'll be charging for use of the bin required for cutting grass?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will be access for free at recycling centres and for home composting if residents do not wish to pay for a brown bin service.
30945	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand the charge for bulky uplifts but this could cause a lot of fly tipping as people cannot afford to pay for bulky uplifts at the moment the cost we pay is high and charging for the use of Brown bins is going too far you were the ones who introduced the brown bins they were not asked for by the public again charging for this will cause problems people will start using other bins for the waste	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30946	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am happy to pay for all bulky uplifts. Not sure what you mean by brown bin charges. Wouldn't it be better to empty brow bins for free and sell the compost they generate rather than give it away? Is there no other income that can be generated from waste management? One concern would be the danger of an increase in fly tipping.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30947	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charges for brown bin/ bulky uplift will simply result in additional costs on clearing up after those who will fly tip which will increase as a result of the charges. Housing estates in west Lothian will look worse as people will stop doing basic garden maintenance to avoid having to pay to have garden waste removed.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30948	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	agree with charges for bulky uplifts but not brown bins. The brown bins could be collected every four to six weeks to make a saving.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30949	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	would think that charging for brown bin collection would only result in fly-tipping & more expensive in the long run to clean & clear up & if charging for bulky uplifts would think that if a reasonable charge e.g £5.00 then people wouldn't mind so much & perhaps even use more readily than if say £20- £25 was charged which would I would increase fly tipping	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30950	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky items and brown bins will lead to more fly tipping. If community recycling sites are closed people will be less likely to be willing to recycle which will be damaging to the environment.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30951	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I feel to charge for use of the brown bin is madness the council make money off the content by selling compost. I also feel if this is not available people will put it in the bottom of other bins and cover it over. I believe to close the recycling centres will also take away people only other way of getting rid of rubbish and will cause people to dump rubbish all over the countryside	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30952	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts and restricting recycling/dump sites will only lead to an increase in fly tipping, which the council will have to pay for. Either/or is the circumstance here	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30953	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Unfair to charge for use of brown bins after introducing such small black bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30954	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Suspect that this will result in increased fly tipping which might cost more to sort than the proposed savings.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
30955	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also don't agree with charging for brown bins. Money can be made from the compost. Thank you for your response. Your comment has been noted
30956	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins are environmentally friendly, are they no-?	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
30957	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It has sometimes been the case that where a council has made the charge too high for collecting bulky uplifts or other waste removals, there has been an increase in fly tipping with its own cost for removal. The council should be aware of this possible result.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30958	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for use of brown bins means no one will use them as they already pay for waste collection any leass collection will result in no service	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Collection number decreases will be modelled in line with the results from other Authorities.
30959	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why charge for brown bins? I thought the council was supporting composting? I am concerned that these measures may lead to greater incidences of fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30960	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulkys - yes as long as this doesn't lead to fly tipping as that would be a false economy	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30961	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think that residents could be entitled to one free bulky uplift a year, and then charged thereafter.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The potential options will be considered following the consultation process.
30962	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think the emptying of the brown bin is something included in the council tax we pay, and should continue to be that way.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30966	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for brown bins?! What are people supposed to do with their garden waste? Use the - new - smaller grey bin? Is there not the possibility of people just using the blue bin and/or the possibility of increased fly-tipping? Which, presumably, the council will then need to clean up - incurring cost.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30967	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you are going to charge for brown bins are you going to reduce the council tax? Are you going to provide larger grey bins? Surely this also goes against WLC policy in trying to be 'greener'?	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Brown Bins are not a statutory service.
30968	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Concerned at proposal to charge for brown bin usage. Many properties have gardens in West Lothian - would this result in tipping of green waste?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges

30969	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree with a charge for the brown bin service. In the autumn and winter my bin is full of leaves falling from a tree on council land which fall into my garden.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown Bins are not a statutory service.
30970	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I personally would pay for a bulky uplift but many people would not and this would increase fly tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30971	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not support proposal as the brown bins are necessary to keep gardens maintained danger in introducing a charge is gardens becoming overgrown making the communities look untidy. People enjoy maintaining their gardens it is not a good idea in penalising them - could be regarded as a "garden tax" which is as bad as the bedroom tax!! Why should families with more than 1 grey bin not be charged for their extra refuge being picked up	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown Bins are not a statutory service, however grey bins are.
30972	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	May result in an increase in fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30973	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You already charge for bulky uplifts.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There are 3 free uplifts per year at present.
30974	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you are going to charge for bulky uplifts, you need to keep local facilities for people to get rid of items more locally.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30975	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reduce free bulky uplift thing to one or two per year instead of three.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30976	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts could lead to more fly-tipping which ultimately means some is adversely affected and the council might have to pull in specialist services.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30977	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the brown bin - sounds daft. Most people will start dumping and assuming that the brown bin output is actually worthwhile, why would you want to threaten this?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30978	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	ping. As for charging for emptying brown bins, the council introduced these to prevent garden waste being taken to landfill sites... why should we now have to pay extra when we are already paying a hefty community charge. Those who have gardens should not be penalised! This is a slippery slope for WLC to even be considering.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30979	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts may be something to consider but again, cost benefit analysis may not deliver as you will end up paying to clear up fly tipping, recent increase in England a point in fact when Â£58m bill footed by taxpayers for clearing up fly tipping..... NO	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30980	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I hope you're keeping the recycling centre in linlithgow I use this all the time for bottles. Don't agree with charging for brown bin uplifts. Bulky yes.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	No decision has been made as to which site will be closed if the proposals are accepted. Brown bins are not a statutory service and thank you for your comments on bulky collections.
30981	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If these savings are so easily made why have they not already been done. Would stop using brown bin if there was a charge and would cram my garden waste into the grey bin.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There is not sufficient capacity within the grey bin for garden waste however recycling centres and home composting remain options for those who will not pay.
30982	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It appears tough on the local resident that they will be charged for use of the brown bin. The only alternative to the brown bin would be composting the waste by the resident. However, this is not practical for the vast majority of people due to space availability. It appears the council is proposing to charge people who have trees and lawns etc. which enhance the natural look of West Lothian greatly. If charges are introduced then a resident may remove their lawn / trees etc. which would substantially increase the water run-off from the urban environment and place a great volume / load on the surface water run-off network which may be comprised and result in more and greater (in size) local flooding events.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The suggested impacts of charging or brown bins have not been noted in any other authority who has introduced such a charge.

30983	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't think there should be a charge for using a brown bin. The brown bin is for garden waste and this may deter people from maintaining their gardens.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response has been noted. Brown Bins are not a statutory service.
30984	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	However, a bulky uplift could be changed at a reasonable rate. Free for one item - a cost for several?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
30985	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for using the brown bin seems to risk the waste going in the black bin or, worse, the blue bin and with fewer recycling sites, it becomes harder to take garden waste to a dump.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The correct use of containers will continue to be monitored by collection staff to ensure compliance.
30986	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins is also a no go area. You have shrunk the size of the black bin and therefore where do you put your garden waste. In the past where I lived before brown bins people dumped this in the nearby woods and made a right mess! You will end up with people burning their rubbish in their back gardens as their will be no Community Police Officers going forward to stop it.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30987	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with charging for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30988	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with charging for the use of brown bins. There will be a tendency then that people will look to dump garden refuse elsewhere.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30989	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree however can there be a community charge if people don't maintain their property and gardens?	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30990	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you start charging for the use of brown bins then people will start to use the grey bins more or worse start to dump or leave garden rubbish all over the place.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There has been no evidence of a significant increase in fly tipping noted in authorities who have introduced such changes.
30991	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	other options should be looked into such as reselling items from recycling centres or making money from scrap metal if this is not done already	Waste Services - charges	4. The council is already doing this.	The council already do this.
30992	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	disagree with charging for brown bin collections. scotland does well with its recycling rates and i suspect if charges were brought in for brown bins then people wont use them and just put it in their grey bins. a reduced collecton frequency should take place with it stopping in november and restarting march. think it was changed to be collected every month now. dissagree with the closure of community recycling centres. oakbank is always really busy every time i use it and suspect others are too. a review of busy periods should be carried out with reduced opening hours	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The collection services offered will still provide outlets for garden waste. Reviews of working practices to ensure efficiency will be carried out across the service.
30993	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins will impact signifincantly the WLC recycling rate as other concils such as Angus has already implemented similar measure with a significat dip in their recycling rate. This measure would mean that more waste would be sent to landfill which will mean that the council would pay higher disposal cost. A more reasonable option would be to add food waste into the brown bin, this would say the need of few food waste vehicles.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30994	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift seems reasonable although it can make fly tipping a problem.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
30995	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts, use of brown bins and closing recycling centres will encourage fly tipping which no doubt will cost more money that you save. Perhaps limiting it to 1 bulky uplift a year will help prevent this, however brown bins shouldn't be chargeable after all it saves the council from buying as much compost.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30996	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The cost of bulky uplifts needs reducing - as it is, dumping of waste is being encouraged.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30997	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	would not pay a charge for the use of brown bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30998	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing charges for uplift of brown bins may lead to fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
30999	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	- No problem for the charge for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31000	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift is reasonable but may increase fly tipping	Waste Services - charges	1. The respondent advised that they agree with the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31001	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	One of the services that could be withdrawn is the free bulky uplifts I would rather pay for this type of service than have my rates increased	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31002	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Definitely charge for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31003	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	but don't charge for brown bins we have a great recycling target I would have to put all my leaves that fall from the councils trees into my garden into my waste bin as I wouldn't be prepared to pay for brown bin don't close down recycling make money from other people's rubbish	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31004	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	false economy people will just fly tip and you will have to clean up ,brown bi charge? will people just put garden waist in grey bin?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31005	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree. Not worth the saving. Charge for the grey bin, not the recycle bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response has been noted. Grey bins are statutory and cannot be charged for.
31006	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Start charging for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31007	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky is ok, prefer one free a year though, may save fly tipping. Do not agree with brown bin charge. Folk just dump cuttings etc.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will take these suggestions forward.
31008	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for bulky uplifts in line with other authorities.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31009	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	but stopping brown bin collection is not a good idea.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31010	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Revised recycling models ? What is this exactly ? Charging for bulky waste uplifts - sensible although could lead to more fly-tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31011	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins - will lead to garden waste going in to the landfill bin and an increase in landfilled material received leading to higher costs.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The management of residual waste capacity should limit this.
31012	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I totally disagree with charging for bulky uplifts, people will dump their rubbish anywhere. Can you not get one uplift per household free per year but charge for any further ones. People who don't car will chuck their rubbish in any corner they can find or leave it in their garden making west Lothian a very untidy place. The charging for brown bins use is a joke, I will just pave my garden and west Lothian will become a concrete jungle	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31013	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Could the free bulky uplifts be reduced to one instead of charging for them all?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will take these suggestions forward.
31014	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Stopping brown bin collection will encourage bonfires, and you will have no environmental health resource to tackle 'nuisance' fires.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This has not been an impact noted by other local authorities.

31015	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for uplifts would be understandable but closing recycling sites would only encourage fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31016	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	As long as charges were reasonable, have no objection	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges that are considered will be reasonable.
31017	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	. For example raising a recharge for a tenant who will not make any payments would not reduce such behaviour - need to think about enforcement.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31018	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	West Lothian council has already tried to introduce a cost for bulky uplifts and it did not work, the only thing this succeeded in doing was to create a need for more people to fly tip, and ended up costing the council even more money to clean it up.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31019	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I don't understand why new bins were needed. I know it was to ensure more waste is recycled but the cost of replacing every tenants bins would have cost money. Instead, labels or something similar could have been placed on bins and tenants advised that if waste in the bins exceeded this line then the bin would not be emptied. Surely that would have cost less?	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	This is in relation to a previous savings measure that delivered the diversion desired.
31020	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Why charge for the use of brown bins?	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Brown Bins are not a statutory service.
31021	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts I agree with though.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31022	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	If you plan to charge for bulky uplifts people who cant afford to pay will then fly tip and then the council will have to go and clear it up. If the council plan to charge for the brown bin people will not use them and put the green rubbish in another one of the bins or get rid of it in another way (Fly Tipping)	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In other authorities there have not been any noted significant increases in fly tipping as a result of the implementation of reasonable charges
31023	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am all for charging for bulky uplifts but predict chaos if blue bins aren't kept free.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31024	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would suggest that bulky uplifts are reduced from the current 3 free per year to 1 free per year. A charge from the outset WILL lead to an increase in fly tipping. However I think 1 free bulky uplift would appease the majority of residents whilst those who require extra are charged for the service.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31025	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	BROWN BINS CANNOT BE CHARGED FOR...We have been asked to separate our waste, all that will happen is garden waste will contaminate either grey, food or blue bins leading to greater costs of sending lorry loads of recycling to landfill. Keep brown bin collections as is!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31026	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with this proposal. It is about time the council introduced bulky uplift charges in line with all other Scottish councils.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31027	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	if you charge for bulky uplifts and close recycling centres there will be an increase in fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31028	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	brown bins, i thought you wanted people to recycle	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

31029	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What is the reasoning behind charging for use of brown bins, as opposed to any other bin. This will result in either more fly tipping or people leaving gardens and ground overgrown and unsightly and I do not agree with it. Bulky uplifts I could see the point of but perhaps allowing 1 free one per year per household. Waste services are important to the cleanliness and general look of the area and West Lothian is going to look pretty shabby soon by this account.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown Bin collections are not a statutory service and can be charged for where as other containers cannot be. The suggestion regarding a reduction in the number of free uplifts and its impact will be considered.
31030	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	There is a concern that the introduction of such charges and the closure of community recycling sites will give rise to an increase in fly tipping etc.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31031	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts and brown bins will increase fly tipping but should not present a massive issue for most people.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31032	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts and brown bin collections will reduce in greater contamination of blue and grey bin waste streams and much more fly tipping. It may therefore be a false economy.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31033	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I also oppose any reduction in the brown bin service as this could cause difficulties for older or disabled people and people without access to a car.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31034	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I feel this would encourage more fly tipping and would cost the council more in the long run having to clear waste from the sides of the road.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31035	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This will lead to dumping rubbish around our communities. I will not be happy to be charged for brown bins I would rather drive and take to recycling centre.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31036	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for bulky uplifts this means our streets are going to be cluttered with unwanted items.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31037	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not think that the brown bin service should be removed - however it could be less frequent.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31038	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A charge for Bulkies or fewer free Bulkies would be acceptable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31039	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	there will be more fly-tipping if garden waste service is removed.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31040	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Many council's charge for bulky uplifts and this is something the council should pursue.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31041	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Don't charge for Brown bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31042	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing charges for brown bin collection is likely to mean misuse of the other bins - reduced collection frequency for brown bins would be better.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31043	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not support this, as it will result in a huge increase in fly-tipping, which is already a problem. I have two brown bins which are full for most collections - where would I put all the grass clippings, branches, shrub pruning, etc., as they wouldn't all fit in the grey bin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31044	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts - induces law breaking fly tipping. Brown bins - no but introduce sharing.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31045	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky item uplifts will increase fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31046	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins will not be used and garden waste either dumped or placed in other bins	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31047	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you wish to meet recycling targets then a charge for brown bins is not worth especially if you are closing down amenity sites. Charges for bulky were introduced in the past and this resulted in more fly tipping and then the cost was removed.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31048	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Paying again for a statutory service - legal challenges a plenty coming your way. Middle class or affluent households may be able to afford these charges - as for poorer income households and those suffering 'in-work poverty' who picks up the tab for street/illegal dumping?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The services that charges are proposed for are not statutory services.
31049	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin uplifts should continue to be free. The council uses the waste a compost making cost savings. One grass cutting would easily fill the small black bins and people generally have small gardens with no space for a compost heap.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31050	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for waste collection will result in more fly tipping , infestations etc. and could potentially cost more to clean up , also health implications	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31051	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bills will encourage fly tipping. I agree bulk uplifts should be charged for but charging for brown bins isn't a good idea. Citizens already feel they are paying too much council tax	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31052	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The charge for brown bins is a no go, I would like to ask why the council do not collect glass bottles/jars as in recycling them they may accrue some money back. Not everyone has a car to take them to the bottle banks. Charging for bulky uplifts will no doubt result in more fly tipping as would changes to collections.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The collection of mixed glass at kerbside was considered when the increase in the number of bottle banks was put into place. At the time it was not advantageous to put out an additional container and route to achieve the level of diversion that was anticipated. The increase in bottle banks numbers was considered to be the most efficient method of collection. fly tipping increases when introducing such charges have not been noted to be significant by other authorities, however your concerns have been noted.
31053	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree to the introduction of charges for bulky uplift and brown bins. Fly tipping would increase. And if there was a charge for brown bin collection I think people would either try put this waste in one of their other bins or fly tip it	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31054	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	There has already been changes which seem to work well, I would not be happy to be charged for use of Brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31055	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Nope there should be no charge for recycling the brown bin	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31056	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Considering the number of missed pickups I don't see how you can justify charging for brown bin pick up and charging for bulky items will just increase fly tipping.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31057	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The changes proposed in previous reviews are only now being implemented, with major issues not being resolved. Why review again?	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31058	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure this is sensible as fly tipping is already on the rise	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31059	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with charging for use of brown bins. Agree with other elements.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31060	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

31061	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charge people who have more than one brown bin and there is a cost attached for the disposal of the material it contains irrespective if it is recycling or not	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
31062	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Doing this I would think that you will end up getting more fly tipping all over West Lothian seems that we are going back to the dark ages	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31063	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Also, Fine people who contaminate their Blue recycling bin, Because to be honest, for every 1 person in a street who does the correct recycling thing, there are at least 40 others in the same street who absolutely DO NOT RECYCLE CORRECTLY. This needs enforced properly. Fine of £60, non payment, non emptied bins. Get tough on these idiots.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
31064	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This would not help situation of fly tipping if you charge for uplifts and close local recycling centres. And again would this only be charged up working people	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31065	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	At this moment in time I pay a mortgage amount to the council in council tax. For this the council uplift my grey, blue and brown buckets and provide lighting in our street. The council do not provide grit bins or grit in the winter, do not grit the streets or pavements in severe weather. There is no dog or litter bins in our area and the grass, paths and undergrowth are constantly covered in litter. The council do very little for me for this mortgage council tax and I strongly disagree with the introduction of a charge to empty our brown buckets. The council don't even cut the grass in our area as we have to pay a fee to a private company to do this.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31066	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Partially agree Agree - Bulky uplifts etc. .	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31067	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing charges for bulky uplifts may increase fly tipping, if a charging system is put in place why not make it that once 2 bulky uplifts are paid the third can be free.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31068	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If charges are made for brown bin uplifts surely more people will empty garden refuse in the grey bin meaning this would go to landfill.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31069	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	bulky uplifts were charged previously - maybe offer one free uplift a year instead of 2 ?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31070	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bin collection would be counter productive, as households would just start including garden waste into the grey bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

31071	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	object to paying again to have our brown bin emptied. We already pay for this uplift.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31072	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree with the charges I feel that this will encourage people to dump waste and therefore actually make the work more difficult and potentially not actually make a saving.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31073	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Will there be an opt in/ opt out option for the fees for brown bins?	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If charging is introduced you will only receive the service if you pay for it. You can opt out, by not paying but your brown bin will not be uplifted.
31074	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Careful consideration would need to be given when thinking about how much to charge for bulky uplifts. It's obvious that 'fly-tipping' would increase with an introduction of charges for bulky uplifts and brown bin collection, therefore keeping charges low would hopefully ensure that any increase in fly-tipping would be kept to a minimum.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31075	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Lastly there is an element of unfairness in the proposal to charge for brown bin collection. A This afternoon I have filled a brown bin with leaves that have blown into my garden from my neighbours' trees (I do not have any deciduous trees). This is something that I do several times each autumn. Is the council saying that it is fair that I should have to pay for the disposal of leaves as a result of my neighbours' decision to have trees in their gardens? Perhaps the council is suggesting that I should instead deposit the collected leaves back into my neighbours' gardens for them to dispose of? For the above reasons I believe that these cost-saving proposals are ill-conceived and should be rejected.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31076	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Council should look at charging for currently free services, bulky uplifts?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31077	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Between this section and section 7, there are proposals to charge for brown bin collection, bulky uplifts and blue badges. Questions arose as to how this would be collected i.e. one off payment versus instalments. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31078	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for brown bin collection & bulky uplifts will result in fly tipping. This links back to section 6, more work with less staff to do it	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31079	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why give us brown bins that we didn't ask for and then charge to use to damn things. Ridiculous! Big fat no to that one - that's why we pay council tax surely. Bulky uplift charges may cause more fly tipping!!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31080	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	people shouldn't get charged for uplifts of brown bins! Hats just ridiculous! the rest sounds good.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31081	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	People who require bulky uplifts should pay for this service.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31082	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As already commented to charge for brown bins is ridiculous and is going to result in a backlash from residents. We have not long removed the bulky uplift charge and now put it back on. I am all for recycling but you have to provide the means to do this and charging for brown bins IS NOT THE WAY TO DO IT. I trust this is going to be visible to all residents that are affected. Stop wasting money with road speed bumps everywhere you can put them and leave out bin charges this is covered in our rates which are high enough.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31083	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have grave concerns over these proposals. A good environment helps lift peoples spirits and all the add ons that this brings. 1. If you start charging for the use of brown bins then more of this waste will go in the black bins and then to landfill. This then will cost the council more in landfill charges. False economy. It will also result in more fly tipping along the canal bank, (some already), over walls and at the side of paths. How are you going to identify those who have paid for the uplifts and those who have not? More administration and costs? Or does everyone pay regardless. 2. One bulk uplift per year could be free and pay for the rest.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31084	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also, Burgh Beautiful works very hard to make Linlithgow a jewel in the crown of West Lothian. They have had to take a lot on in the face of cuts made by the council. Looking after the flower beds and shrubs means a lot of garden waste. Would the council provide bins for their use?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31085	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No cuts or closures- charges will lead to more fly-tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31086	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts are fair as long as they're not extortionate. Same goes for brown bin charges - I wouldn't mind paying a small fee for this service.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31087	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As a council you took decision to use brown bins no consultation as far as i can recall. Black bin size reduced again no consultation as far as i can recall. Now looking at asking community to pay for uplift - afraid that all will happen is you increase the level of fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31088	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	When you start charging for uplifts, people either just abandon their waste in town or fly-tip it in the countryside. Don't make it difficult of expensive for people to keep their localities clean.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31089	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recent media attention on fly tipping and the subsequent cost to councils and landowners seems to suggest that charging for bulky uplift and garden waste bin uplift could be a costly mistake.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31090	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you levy a charge for brown bins people will stop using them.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31091	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What do I pay my council tax for? You will encourage more fly tipping	Waste Services - charges	3. The respondent advised that they had no comment to make.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31092	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with the proposal to charge for brown bin collection. This will result in more fly-tipping (which the council will have to pay to clear-up) and harm Linlithgow as a desirable tourist location.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31093	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with the proposal to charge for bulky uplifts. This will result in more fly-tipping (which the council will have to pay to clear-up) and harm Linlithgow as a desirable tourist location.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

31094	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is just a stupid proposal. Its hard enough getting some people to use the free bulky uplift service without starting to charge all for it. Fly tipping will rise as a result of this idiocy.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31095	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Same goes with charging for brown bin services. Waste will be dumped or put in with other coloured bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31096	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	this is one of the best services in the council I agreed with a charge for bulky uplifts but not the rest as sure we are entitled to something from the council now we are paying to keep the county clean	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31097	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It seems reasonable to charge for bulky uplifts, although I have no doubt that an increase in fly tipping may occur.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31098	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It does not seem reasonable to charge for the use of brown bins. I have a large garden and have no option but to use these. I see them as an essential service for which I have already paid via my council tax.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31099	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Anything that reduces the likelihood of people recycling or disposing of garden waste is to be carefully considered as we don't want to go back in time to throwing everything away! That being said, if a small charge were to be introduced for brown bin collection, it probably wouldn't discourage too many people	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31100	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for use of brown bins - will incur fly tipping and garden waste being put in grey bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31101	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree with charges for bulky uplifts and brown bin collections. We could afford this, however strongly think this would lead to excessive fly tipping, which would be costly and time consuming for the council to deal with. Any closure of community recycling sites (e.g. Linlithgow) would not be a viable option as again this would lead to excessive fly tipping. The site in Linlithgow is well used and there are often queues of traffic to get in. Where would we take all this rubbish? Much of this recycling would be just put into the black bins instead. People would not travel far distances just to recycle waste. This would also have a knock on effect on the good percentage of recyclable waste that West Lothian Council has at the moment.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31102	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	understand the logic with the introduction of charging for use if brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31103	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree. I live alone and put my bins out once a month so paying more than should for a service.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31104	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin use should not be charged as this is helping more waste to be recycled.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31105	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People will not pay but dump illegally. Then you have to pay something to collect the illegal material. I don't see that as a saving.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

31133	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for large uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31134	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I completely disagree with charging for Brown bin pickups.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31135	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for the brown bin uplifts then people will simply put that waste in their grey bin. In an era when it is vital that we increase our recycling then I think this is an astounding suggestion.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31136	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree in part. Only charge brown if collected. Small gardens don't use as much or if no grass etc..some use more but we should encourage green areas for local wildlife so those bigger estates should be revised for contribution to wildlife also etc.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31137	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	paying for a brown bin and bulky uplifts.Look around you there are fly tipping rubbish everywhere this will only make the situation worse.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31138	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I'll detail why I am against certain sections below, anything which goes unmentioned seems ok to me! I do not believe that there should be a charge for brown bin collection. Garden waste is so easy to recycle on a large scale, but most households will not have the space to do so themselves. If the council continue to collect garden waste and take it to some kind of composting facility, they could earn a little extra money by selling that compost.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31139	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People will not pay for brown bin use will only increase fly tipping causing more costs not less.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31140	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree with charges for brown bins - encourage fly tipping Introduce charges for replacement bins. Make customers pay for the bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31141	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Small charges to be applied,, eg,, bulkies or brown bins food waste I would welcome,, maximise the man power and vehicles to be used with shifts,, charge for commercial waste in to recycling centres.. dont close recycling centres, cost more to collect fly tipping, encourage reduce reuse recycle, , smaller grey bin means we need these places more and more , maximise their usage get the kids to come along,, educate pupic and kids	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31142	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't get the brown bin charges you want to introduce. Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31144	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There will be a lot more fly tipping, brown bins wont be worth the cost and a lot more people who will leave their old furniture etc in their gardens until the council are forced to pick them up by environmental health.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31145	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts should have a fee attached.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31146	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for bulkies - great as long as it doesn't end up creating fly tipping problems and associated cost.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31147	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for brown bins - seriously?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31148	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	. Brown bin collections should not be chargeable, and bulky uplifts should not be charged unreasonably (possible option for 1 free uplift per year).	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31149	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky uplifts I would agree.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31150	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	However brown bins I wouldn't agree with as people who take care of their gardens will be penalised where others will either fly tip or put garden refuse in other bins and create issues.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31151	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for uplifts and brown bins will only cause more rubbish in the streets.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31152	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think this is an area where great care needs to be taken. Charging private households for certain (currently free) services and closure of recycling sites substantially increases the risk of fly tipping - which may cost substantial amounts to clear. It is also unclear to me how charging for brown bin collection would work. Presumably only those opting in will be charged, but how will the correct households be identified at collection time. And how will it be ensured that non-payers do not make use of other people's bins. Would not administration be very costly? Perhaps a small charge could be made for any compost that residents currently pick up free of charge. At the very least, only those opting in to a chargeable brown bin service should be eligible.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. 31153	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Don't agree with brown bin charges.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31154	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts make sense.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31155	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	After all the advertising the council has committed to changing the way residents recycle I think it would be disappointing to charge for brown bins. I believe people would just add to their grey bins or fly tip. I have only requested a bulky uplift once in my 20 years of being a property owner, as we have a car and can usually dispose of items at the recycling centre ourselves but how would low income families with no car dispose. This again will lead to fly tipping which with the end result a greater cost to the Council and business owners.	Waste Services - charges	2. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31156	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Smaller bins is a retrograde step for efficiency as is additional cost of collecting food waste. We are already paying for brown bin collections in the Council Tax Bill and it is wholly unacceptable to charge twice for this service.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31157	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	WELCOME TO SLUM WEST LOTHIAN. 'Environmental' responsibilities and goals have been well used throughout this exercise however the hypocrisy of introducing charges or limiting access to waste disposal will undoubtedly lead to waste storage and fly tipping in our communities and countryside. Agree that the current service provision is highly inefficient and some staff attitudes in recycling centres are atrocious towards Council Tax customers. Falkirk Council offer a service in their Bo'ness centre where staff are customer friendly , helpful and where small trades/traders can recycle.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31158	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges to waste collection and bulky uplift - fine	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31159	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would not support a charge for collecting brown bins; this will result in householders dumping garden waste themselves on any spare piece of ground, which the landowner will then have to clear up. Often the spare ground is owned by the council; clearing fly-tipping is likely to cost more than collecting brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31160	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	A modest service for bulky uplift would be appropriate, but if it's seen as being expensive we will see an increase in fly-tipping of bulkier material, such as furniture, which will take the involvement of other council services to deal with.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31161	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	while I agree with this in principal I would be concerned about the possibility of bulky uplift material being 'dumped' in streets and communal areas.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

31163	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Smaller bins have already resulted in more fly tipping Charging for uplifts will only make this worse. I myself have bin bags of rubbish and nowhere to put them I dont drive and cannot get to dump	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31164	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	So where will garden waste go.? Having had the grey bins reduced in size there will not be room there. Charging for bulky uplifts will result in more fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31165	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think you should not charge for Brown Bin collections and bulk uplifts...people will probably start illegally disposing of their waste which is more costly to remedy in the long run. This should all form part of the council tax charge in my opinion. I already have to undertake trips to the local recycling centre due to the fortnightly collection which is a great burden on my household due to having a child with a medical issue which results in a greater number of nappies being disposed of than perhaps a child of his age.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. 31166	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for Brown bin- West Lothian is a rural community where the vast majority have garden waste. Charging for a core service is not your best idea	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31167	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	So changing for brown bins? That is pointless as you have already made the black bin smaller and anyone with a garden gets hit so the garden tax!!! You are in danger of increasing fly tipping meaning more money will have to be spent cleaning this up. Bulky uplifts I support but I can't support shutting down waste disposal areas.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31168	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with the bulky uplift however whilst I have no issue paying for this or taking it to a recycling centre myself it may increase fly tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31169	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No bloody way will you be charging me for the use of brown bins ! If you do this, then I'll black bag all my garden waste and put it in whichever bin I have space in	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31170	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Finally, charging for bulkies, I have suggested this for a long time.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31171	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This definitely won't go down well with council tax payers. We've already had to downsize on wheelie bins (waste of money). And now a lot of people have to travel to recycling centres to get rid of their general waste that doesn't fit in the bin (or dump it). If you charge for the use of brown bins- either people are going to let their gardens become a mess, or they're going to dump it elsewhere.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31172	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This should not affect domestic users. It is already very limited cover.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31173	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I believe the introduction of charges for the use of brown bins would lead to an upsurge of fly-tipping.	Waste Services - charges	2. Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. 31174	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is unacceptable. Its a basic human expectation that the council removes waste in a timely manner. We have all seen the failures in Edinburgh where black bags full of waste are left on the streets for weeks on end. Its the councils responsibility to provide adequate staff and vehicles to collect waste, you cannot expect customer to fill their cars with waste and take it to the recycling centres (less when you close 3)	Waste Services - charges	2. 31177	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging to use the garden waste brown bins is a terrible idea this may lead to people neglecting the area which in turn will have an adverse effect on various things like the look of the area which will drive people away or people not wishing to visit	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31178	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	given that we already pay council tax for the use of brown bins is this not a "double tax". This will ultimately fail to work as said "brown bin" rubbish will simply be put into the black bins or taken to the dump, thereby missing out on those charges. instead why not remove the "food caddies" that are even more infrequently used by many households	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31179	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree with charges for brown bins since you make this into compost and sell it .Meaning we are paying for you to make money. Seems unfair to me. I think it would be more reasonable to decrease blue bin collections and give everyone larger bins.	Waste Services - charges	2. 31180	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	West Lothian council has done a lot to promote recycling. 31181	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	reckon if you remove these services it will be false economy as fly tipping would increase , also people would have less greenspace (gardens) due to brown bin removal . rectification to Fly tipping increase alone would probably cost more.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31182	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If I am paying my community charge I do expect a level of support - charging for brown bins would only encourage tenants to leave their gardens untidy.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31183	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	give people much bigger bins and then have monthly or quarterly collections	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.
31184	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not support a levy or charge for brown bin collection. If you are serious about protecting the environment you have to provide facilities for recycling garden waste. If you don't people will just put it in a grey bin instead.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31185	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you want to see an increase in Fly-tipping and rubbish burning then go right ahead. And you can't complain about overgrown gardens in council estates either. Just another tax on the needy.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31186	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	And you can't complain about overgrown gardens in council estates either. Just another tax on the needy. 31187	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is FOLLY. Charges for bulky uplifts will result in Fly-tipping, pure and simple	Waste Services - charges	2. Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31188	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins Garden waste will end up dumped on roadsides or get put in black bins and go unrecycled. I would particularly, and very strongly, resent garden waste being singled out for charging. There are far too few brown bin collections as it is. Efficiencies could be made by having fewer black bin collections. We fill ours roughly 3-weekly.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. The potential to extend landfill collections further is something that could be developed
31189	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Similarly, closing recycling sites will simply result in more pollution. I barely use local authority services. I do use recycling services, and I regard them as very important and necessary. I do actually think recycling should be increased and encouraged, to protect our environment and stop waste.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31190	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	introducing charges for brown bins etc may result in an increase of Fly tipping and more waste being sent to landfill. Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31191	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	These services are vital. Start charging people for bulky uplifts and there will be an increase in people just Fly tipping all over the region. Perhaps high earning households should pay towards uplifts.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31192	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree we need to make savings in this area but appreciate that it will be hard to get buy in from the public, although people have become used to the skinny bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The buy in is more of a compliance requirement moving forward to ensure that money is not needlessly wasted by landfilling recyclable materials.

Transforming Your Council Consultation 2017

31193	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree to the charging for bulky uplifts and would have no issue with this.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31194	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	However to be charged for brown bin waste as a resident who already pays council tax I disagree with. this is essentially charging further for having a garden.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown bins are not a statutory service so the proposal to charge enables this service to continue.
31195	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Surely this would result in increased Fly tipping. Green bins do not require West Lothian council logos - savings could have been made providing plain green bins without logos. Black bins should have been replaced to the smaller bins, only when broken - thousands of money spent changing the size of a bin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. The cost of logooing bins is negligible. The council don't issue black bins which are larger than 140l anymore.
31196	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I thought the use of brown bins was all part of recycling waste so charging will end up discouraging people from recycling their waste!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown bins are not a statutory service so the proposal to charge enables this service to continue.
31197	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Ido not think it justifiable to charge for brown bin collection	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown bins are not a statutory service so the proposal to charge enables this service to continue.
31198	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Leave the sites open, charge £25 a year for the brown bins if you have to	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31199	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for using brown bins is crazy as it would result in people dumping it illegally.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31200	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown Bins & bulky uplift - but means tested if poss	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31201	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with charging for brown bin collections. Other than the effect on the wider community this will greatly increase the level of work for staff to collect and recover these payments. As we know that staff levels will be declining it's not then suitable to greatly increase the work load in certain areas.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31202	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This will result in Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31203	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think you should charge for bulky uplifts though.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31204	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky lifts I could see increased amounts of Fly tipping which the amount of litter floating around my street has increased with the smaller black bins id hate to see more.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31205	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky uplifts could easily result in an increase in Fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31206	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for brown bin collection would have a terrible effect on residents. I believe it is important the council looks at the obvious negative environmental impact that these changes would cause in Fly tipping in the local area	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31207	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also heard we may be charged to have our brown bins emptied which don't agree with. The council made us use these bins and have reduced the size of our grey bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of brown bin collections and bulky uplifts are non-statutory service as such the council fund used to provide this service may be deemed as being needed in other services with higher priorities for our community.
31208	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As to the charge for emptying the Brown bins it was the council's idea to introduce these bins now you want to get people to pay for them. The contents are turned into fertilizer why not sell this to raise revenue	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31209	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for brown bins will not save money. It is well known that many tenants will not do their garden and WLC recharge them after carrying out the work. This rechargeable work is never recovered. This is not cost effective. More admin for offices/tenants will remove brown bins to not have the charge.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31210	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with the bulky uplift charge	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31211	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	think the brown bin charge is unfair, especially if you are going to close community recycling centers.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31212	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for the use of brown bins is likely to result in the increase of Fly-tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31213	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for the use of bulky uplifts is likely to result in the increase of Fly-tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31214	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins will probably ly result in increased Fly tipping, so may be a false economy. Also, how much will it cost to admit is yer a charge for brown bins?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31215	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is very feasible to expect all bulky uplifts to be paid for by person or persons requiring it to be carried out on their behalf. The charging being proposed for the uplift of brown bins is very abhorrent in its nature. There must be community recycling sites within a reasonable driving distance of all communities and areas of West Lothian, or there will be fly tipping to greater extent than what is possibly being carried out at present.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31216	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	As only council left not charging for bulky uplifts this should be introduced. Not so sure about some of the other proposals from a fairness and impact on behaviour point of view.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31217	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If charges are introduced, the costs must cover the administration of the system. More local self help provisions should be provided, e.g. a free use skip located within housing estate on a rolling monthly basis. Otherwise fly tipping will increase along with detriment to visual environment and costs of removal (or enforcement)	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	This would not be a viable option and would lead to significant issues within local communities.
31218	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure charging for brown bins is sensible - suspect it will lead to Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31219	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think charging for the use of brown bins would not be a good way forward. This will increase people dumping garden waste and result less aesthetically pleasing environments.	Waste Services - charges	2. Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31220	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am fundamentally opposed to charges for bulky uplift and use of brown bins. Such charges are a recipe for Fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31221	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for the use of brown bins!!!! If our recycling centre in Linlithgow closes and we have to pay for brown bins, we pensioners will have to say goodbye to our gardens, cut down our bushes and hedges, lift our lawns and get it all chipped or concreted. A horrible idea.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31222	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts is a false economy. It was tried before and led to an increase in Fly tipping. What is the justification for charging for use of brown bins? Brown bins introduced by council to put garden waste in and if going to charge for this will people not just use the grey and blue bins instead?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31223	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Brown Bin charging would possibly increase contamination of other bins. Encourage home owners to compost their brown bin waste instead. Maybe try and agree special rates with external suppliers for the purchase of compost bins through council website.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31224	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges for uplifts is reasonable-obviously the Fly-tipping may increase however I notice this happens already even when no charge is incurred	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31225	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	we have already paid for Brown bins through local tax and should not be charged again	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of brown bin collections is a non-statutory service as such the council fund used to provide this service may be deemed as being needed in other services with higher priorities for our community.
31226	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree as Edinburgh charge for bulky uplifts. My concern would be that more items will be left outside properties or at the roadside resulting in additional cost to the council to have them uplifted anyway - something that needs to be considered.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31227	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for brown bins seems arbitrary.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
31228	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I do not think that we should have to pay to have our brown bins emptied as the Council wants us to recycle garden waste and have already reduced the size of the grey bin. I think it is fair enough to request a charge for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31229	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This is ludicrous.A charge for brown bin use? This will see a rise in Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31230	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I am not against a fee for bulky uplifts for those who can afford it. It is a specific service that costs the council money to administer.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31231	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely the council tax is increased to cover brown bins etc?	Waste Services - charges	3. The respondent advised that they had no comment to make.	The provision of brown bin collections is a non-statutory service as such the council fund used to provide this service may be deemed as being needed in other services with higher priorities for our community.
31232	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Why don't you charge for bulky uplifts?	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The proposal is to charge for bulky uplifts.
31233	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Additional charges could well be counter productive as it may result in illegal dumping and there will be additional costs to the Council to remedy this. From an environmental point of view, anything that makes responsible waste disposal more difficult is unacceptable.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31234	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky uplifts , yes a charge should be made as for charging for the brown bin uplift and the closure of community recycling sites this will just lead to more fly tipping and cost more in the long run	Waste Services - charges	3. The respondent advised that they had no comment to make.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31235	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	as long as charges are affordable or fly tipping will be endemic leading to more costs .	Waste Services - charges	3. The respondent advised that they had no comment to make.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31236	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely this pushes people towards Fly-tipping & not recycling brown bin materials? How are you going to meet zero-waste targets?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31237	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Perhaps offer 1 free bulk uplift a year and charge for others but don't close recycling then charge us for picking up our rubbish! Brown bin charges Lose the food caddies instead!	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31238	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with charge for bulky uplifts, but not brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31239	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely charging for bulky uplifts (unless very reasonable charge) would just increase the volume of Fly tipping? And how would you enforce a charge on brown bins? We only put ours out to be emptied about 4/5 times a year, would the charge take the frequency of use into account?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.

31240	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I hope that such charges would be means based as I know my elderly parents are already worrying about having to pay for brown bin collections	Waste Services - charges	3. The respondent advised that they had no comment to make.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31241	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bin uplifts should remain free in order to promote recycling.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31242	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for brown bin uplift will only encourage Fly tipping and misuse of the grey and blue bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31243	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts would have to be affordable for all.	Waste Services - charges	3. The respondent advised that they had no comment to make.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31244	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be happy to pay for a bulky uplift, I would not be willing to pay to use my brown bin.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31245	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I worry about the environment we will live in if the public are charged for basic waste removal	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31246	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts will only result in Fly tipping or stuff getting left on pavements as we all pay council tax , cut the three free uplifts to one electrical and one household then charge after that	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31247	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Don't agree with charges for brown bins. This will result in additional waste going to landfill.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Benchmarking with other authorities has shown that the capture rate of this material remains high.
31248	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also charging for bulky uplifts could increase Fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31249	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If bulky uplift is charged for, many people will just dump stuff which will end up costing the council more to clear up. Same applies to closing recycling sites.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31250	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The brown bin should suffice. People will dump rubbish is charged are made.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31251	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins will reduce use and increase dumping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31252	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with this proposal. The council should have been charging for bulky uplifts years ago. It should also be charging for extra blue and brown bins like they do in other areas. Many families now have an extra grey bin due to the age of their children, is there a plan in place to remove these bins once the children are old enough? Otherwise you are just building more costs into the system for years to come with people not recycling and just using their extra grey bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The review of service standards will cover areas such as the monitoring of extra capacity and removal.
31253	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The danger with this is that it could increase fly tipping. Bins should continue to be emptied free of charge for householders. Could give one free bulky uplift not three in the year.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31254	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Any savings in charging for bulky uplifts and garden waste would soon be cancelled out by the increase in Fly tipping around the West Lothian area. If you have to pay for garden waste you would encourage people to put in the grey bin or contaminate the blue bin. With no enforcement against offenders this cross contamination would increase	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31255	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Providing bulky uplifts free is a bit daft. Anyone serious about recycling could survive a wee trip to do so.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31256	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	There should remain at least 2 free uplifts for householders. If not, there is a strong likelihood that fly tipping will take place, impacting on the environment and costing the council additional funds to clear up.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31257	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Similarly, if the brown bin is a paid for service then there will be an increase in the number of residents using tree belts and open areas to dump garden waste. This happens at the moment but an increase would again impact on the environment to the detriment of all.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31258	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This will just increase Fly tipping, people leaving their rubbish in gardens, west Lothian therefor just looking untidy and riddled with rats.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31259	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree to paying for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31260	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A charge for a brown bin will lead to more Fly tipping, not a good idea.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31261	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Though disagree with charging for brown bin collection.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31262	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be happy to pay for brown bin uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31263	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am not opposed to charges for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31264	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collection needs considerable thought. Better to charge everyone and avoid piles of grass cuttings accumulating in hedgerows and on verges.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.
31265	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be OK with paying for bulky uplifts but less so brown bin collections. People take amazing care of their gardens here, the council should support that with brown bin collections.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31266	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Many people cannot afford/will not pay for brown bins which will cause a bigger problem to littering and waste.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. Charges will be set to be a reasonable level to enable the service to be maintained.
31267	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Refuse to pay for recycling	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31268	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with charges for use of brown bin... people will simply stop gardening or dump rubbish elsewhere... becomes more problematic in the long run...	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31269	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins are paid for using the council tax ? so keep them	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council tax covers many areas. Brown bins are a non-statutory service and as such charging for them may help to maintain levels of other services delivered by the council.
31270	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not a good idea to charge for brown bin collection!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31271	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	dont agree with charges for brown bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31272	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why the charge for brown bin collection? We already pay for this in council tax!	Waste Services - charges	3. The respondent advised that they had no comment to make.	Brown bin collections are a non-statutory service.

31273	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	How would charging for brown bins work? Would people then use grey bin instead and be counter-productive to recycling?	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
31274	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree to introducing charges for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31275	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would be interested to find out how the charge for use of the brown bins would be managed and invoiced. This type of charge may just encourage some to use their grey bin for this type of waste which would then have to go to landfill at a cost to the council.	Waste Services - charges	3. The respondent advised that they had no comment to make.	The details of how the system would work need to be fully developed but would likely mirror those successfully used by other authorities.
31276	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for the use of brown bins there could be an issue of people not looking after gardens	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31277	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think if you charge for brown bins, people will just put garden waste in their ordinary bins and charging for uplifts may result in Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31278	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift may cause litter to be deposited on street corners etc. This will make the area appear very untidy and should be considered closely.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31279	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for bulky uplifts. It is ridiculous that our council is one of the only councils who don't charge, when the alternative is for further cuts to council jobs.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31280	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bulky Uplift Charges - totally agree, this level of service provision is not provided anywhere else in the country.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31281	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for Brown Bins - not popular but as a non-statutory service this has been introduced elsewhere and worked. Agree.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31282	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collection will encourage even more Fly tipping and is a dreadful idea. I would like to see glass recycling bins given to households and the small green food waste bins are a waste of money and should be scrapped.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31283	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree that there should be a charge for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31284	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown (garden waste) bins however are a necessity but I would support a small increase in the Council Tax to cover this.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31285	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am amazed the bulky uplift service is free! It should be free only to those who on specified benefits who can not for cost or ability reasons dispose of bulky items.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31286	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You must remember that the removal of a charge for bulky uplifts was a successful decision resulting in a reduction in Fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31287	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	To charge for the brown bin is just asking for more trouble you would be as well as doing away with the brown bin and save money on waste pick up.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31288	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Is it necessary to charge for all bulky uplifts? You just have to view some of the rubbish dumped in the countryside at present wher 3 uplifts are free Suggest each household has option for one free uplift	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31289	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We have an area of concern in relation to this proposal that cuts to bulky uplifts will increase the risk of Fly tipping.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31290	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't agree with charging for the brown bin. All this would do is encourage people to dump the garden waste in the woods	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31291	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	NO. I do not agree with any of these proposals. Bulky uplift charges will increase Fly tipping (you used to charge for bulky uplift, did the Fly tipping figures reduce when you abolished the charge?)	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31292	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins - NO - you cannot charge for this - people will start burning their rubbish in their garden or put it in the grey landfill bin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. Neither has burning. The landfill bin only has capacity for landfill material so garden waste would not be accommodated in any significant volume.
31293	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Although a charge for a bulky uplift I feel is appropriate it could result in more fly tipping. This could have a negative impact on our community. Closing some sites could be cost affective as I am sure people would not mind traveling a little further to get rid of rubbish at no cost to them. Iâ€™m not sure how the brown bill charges would work so more info is needed in this area.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 31294	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Iâ€™m not sure how the brown bill charges would work so more info is needed in this area.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Lack of information in the TYC cited as inability to appropriately respond.
31295	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If charges are made for emptying brown bins there will be an increase in Fly tipping the cost of which is likely to reduce the potential savings. Also, if people are charged for their brown bins it is likely that they will divert garden waste into their other bins thus reducing the efficiency of the waste management service. I do not approve of this measure.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31296	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If charges are made for uplifting bulky items there will be an increase in Fly tipping the cost of which is likely to reduce the potential savings.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31297	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whilst I am not inherently opposed to a sensible charge for bulky uplifts, I an see that being an issue for those that simply cannot afford even Â£10 or Â£20 out of a very tight budget they live to for, for example, removal of a washing machine so the reality is that you may end up with more items left strewn in gardens or dumped locally.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31298	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is ridiculous to suggest there should be a charge for emptying brown bins. What are we already being an extraordinary level of council tax for?? Our council tax was raised by Â£400 or so this year alone, which is shocking and not affordable. Is this now some kind of additional garden tax? Why assume you can pay more because you have a garden? Should people not look after their gardens? Ridiculous.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council tax was not increased last year, it was the water and sewage rates. Garden waste collections are a non-statutory service.
31299	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Absolutely not. We are already right here, bins overflowing. We will end up with rats and infestations. Fly tipping and dumping anywhere and everywhere will be the norm!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31300	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You gave us these bins and now you want to charge us..... disgusting.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31301	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with charge for bulky uplifts. Allow one free per household per year then implement a charge.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31302	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling rates will reduce if charges are introduced. Thank you for your response. Your comment has been noted
31303	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree that there should be a nominal fee for bulky uplift collection but not for brown bin collection.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31304	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not charge for brown bin collection.This proposal would lead to more Fly tipping and contamination of blue bins.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. Contamination would be monitored through the collection process.
31305	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for uplifts and brown bins is reasonable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31306	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I think paying for brown bin and bulky lifts is a good idea	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31307	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts that benefit individuals makes perfect sense.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31308	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think is it reasonable to consider applying a charge for bulky uplifts but also encourage neighbours to work in partnership e.g. neighbours to join together with their bulky requests and amalgamate this as 1 request but split the cost. This proposal could get tenants on side for charges being applied. I am not keen on charging for use of brown bins when WLC implemented this and encourage their tenants to use these but are now considering applying a charge.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31309	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Think charging to certain bins to be collected could result in less recycling. Need to make it easier for people to recycle more.	Waste Services - charges	4. The council is already doing this.	The recycling message is a fairly straightforward and simple one that many choose to ignore and cost the council tax payer more than £2M per year in doing so. This is why proposals need to be considered to deliver significant behaviour change.
31310	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Cost of collecting brown bin charge will be more than the saving.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
31311	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree bulky uplifts should incur a charge but how to prevent fly tipping could be an issue - I support this providing there are strong enforcement measures employed to address fly tipping as a result.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31312	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I support charging for brown bins but not if certain people such as elderly, disabled and benefit claimants are exempt - I support this as long as EVERYONE pays	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31313	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with charges for bulky uplifts. Charging for brown bin might be effective if you encourage people to compost as much as possible at home. Otherwise green waste will end up in landfill.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31314	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Other councils already charge for bulk uplifts so I don't see this being an issue although the charge would need to be reasonable so as not to encourage fly-tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31315	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I don't agree with charging for brown bins since the council/government are focused on encouraging us to recycle! I wouldn't have an issue with the grey and blue bins being collected less frequently but I do not have a family and I know this would be an issue for a number of households.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31316	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for 'Brown Bin' uplifting is an absolute nonsense. How long before we are then charged for the other bins one by one. This is just a "backdoor increase in Council Tax". Waste collection is a fundamental responsibility of the Council and should be paid for out of Council Taxation.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Brown bins are not a statutory service so the proposal to charge enables this service to continue.
31317	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't think we should be charged for bulky uplifts - but you could reduce to 2 times a year.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31318	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If we introduce charges for bulky uplifts will this not just increase Fly tipping?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31319	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree on the statement above at all, are we to charged for uplifting brown bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31320	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	have you heard of Fly tipping?? a reasonable charge seems like a good idea but above a certain level folk simply won't pay	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31321	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't agree with the charge to use the brown bins, but do agree to other proposals above.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charging a reasonable amount for the provision of these non-statutory services is one way to ensure they continue to be offered.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31322	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree on bulky uplifts although if impact on fly tipping will have to be reviewed. Yes on brown bin charge.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The charge would enable this non-statutory service to continue to be delivered.
31323	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Again, there are likely to be unhelpful consequences of charges for bulky uplifts and use of brown bins e.g. Fly-tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed at a level to minimise the likelihood of Fly tipping.
31324	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	it is inevitable should a cost be introduced for uplifts and specifically brown bins then unscrupulous tenancies will become more evident and I have no doubt tenants may well not be recycling in the current manner.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31325	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree with charging for the brown bin use. Why not sell the compost that is produced for a small fee, rather than giving it away. Charging for bulky uplifts will lead to things being dumped	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed. Thank you for your wider comments, these have been noted.
31326	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing additional charges for collections to householders is a ridiculous idea. Why not just increase the tax we already pay for this service. Paying outwith the council tax will lead to increased fly tipping, unsightly gathering of waste in domestic areas and possible attraction of vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The impacts of fly tipping and vermin have not been noted in other authorities where such changes have been implemented.
31327	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No charges for brown bins. Some of us are unlucky to have trees round us and we put the leaves in the brown bin. Many of these are Council trees so this is unfair. This waste is recycled and generates income. Any charging should be for the grey bin to encourage recycling.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The waste generated does not create an income for the council. It is a cost on a non-statutory service. Grey bins however are statutory so a charge cannot be levied.
31328	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree. A fee of Â£20 minimum is reasonable for bulky uplifts and it should be a per item charge for large items like fridges and cookers, etc.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31329	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges would result in more fly tipping,if charges are moderate for bulky uplift it might work but brown bin charges are a mistake.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31330	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think charging people for uplifting their brown bins is ridiculous. Is this not included in Council tax charges which may be increased by 3%. Not a good people pleaser.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council tax increase is not linked to the provision of the services noted for charging but in maintaining the remaining services.
31331	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Proposing to charge a fee for people who maintain their gardens to dispose of the garden waste? Surely this will result in a significant increase in fly tipping or gardens growing out of control?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31332	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts are likely to encourage more fly tipping and WLC will need to uplift anyway.. I assume that's why it was discontinued previously. Perhaps allow one free uplift & see how this works.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31333	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for Brown bin garden waste is effectively ceasing to recycle garden waste.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The service would continue to be offered for a reasonable charge to maintain this non-statutory collection.
31334	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charges for bulky uplifts, however I disagree with it for brown bins. The Council have given everyone much smaller grey bins and have been focusing more on recycling. The Council also sell on compost made from the collection of brown bins. I don't think its acceptable to charge people to collect this and then make further profit. If this is charged for it will cause more people to hide it in the blue bin or to dump it in the countryside or on streets. Meaning the Council will have to spend more money cleaning it up.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31335	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with proposal for charging use of Brown bins, this would push people to do more Fly tipping which is a major problem throughout West Lothian as present	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31336	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If we are to charge for bulky uplifts and brown bins we need to give people the opportunity to take their waste to a recycling sites. Otherwise we will be entering a fly tipping culture which will costs WLC more money.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31337	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Again something I can comment on as affects me as I live in West Lothian. You haven't stated how much the uplifts and brown bins would be charged at. Also I pay all my bills on time council tax NI whatever is expected of me. This covers the cost of social policy and schools. I don't have children in schools or elderly relatives in this area but I do have a garden so I will pay towards things I don't use and then be charged for my brown bins cos I have a garden. Seems a tad unfair to be honest.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax is a universal tax to provide universal services.
31338	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	. With regard to the brown bin, as a resident, I would not be happy to pay for this. Having invested money to provide the service to meet environmental standards then ask resident to pay for it is ridiculous. I would rather have a compost bin than pay. As an employee unless you charge upfront the this then as always the payers will pay and the non-payers won't. Yet again the same people are carrying the costs.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31339	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think a minimal UPFRONT charge for a bulky uplift is acceptable as long as the	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31340	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for use of brown bins should be avoided. We all benefit from well cared for green spaces, and this shouldn't be reliant on the owner of the property's ability to pay.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charge would enable this non-statutory service to continue to be delivered.
31341	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The commencement of charging for bulky uplifts could result in fly tipping which increase costs to the council in other areas. Consideration of income levels or DWP benefit entitlements before charging could be made e.g. resident on disability awards entitled to free uplift.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31342	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Again if the recycling sites are reduced there will be more Fly tipping as some residents will be reluctant to travel any distance to dispose of their recycling.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31343	An employee of West Lothian Council	7c. Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31344	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	By charging for brown bin uplifts and closing recycling centres all that will happen is that garden refuse will be put in the grey bins or dumped somewhere else. Items that would be taken to recycling centres would be dumped in the countryside.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31345	An individual	7c. Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31346	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also a charge for brown bins will again just increase dumping and more gardens will be unkempt. It's only a monthly collection anyway	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31347	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We can't do without our waste being collected.	Waste Services - charges	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
31348	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts will just result in more Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31349	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with bulky uplift charges where people can afford to pay.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31350	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do NOT agree that we should pay for servicing brown bins - these bins were thrust upon the population by the council and introducing a charge will mean people will NOT use them. False economy.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31351	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Would resist charging for brown bin - mine goes out every time and is always full. You could put a check on recycling by charging. Some years ago North Lanarkshire provided bins for home composting in order to off set brown bin uplifts. Consider that.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31352	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If there is a charge for use of Brown Bins residents will just stop using them.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Uptake has been noted by other authorities as positive and still captured the majority of garden waste produced.

31353	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts will result in an increase in Fly tipping. This will go against one of the council priorities of protecting the built and natural environment.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31354	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bin uplifts will result in an increase in Fly tipping plus more waste being put in the grey bin and therefore ending up in landfill. This will go against one of the council priorities of protecting the built and natural environment.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31355	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If charging comes in for brown bins, people will add to black bin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31356	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	ok to charge for bulky uplifts, but why not promote Zero Waste Scotland's free service?	Waste Services - charges	4. The council is already doing this.	The council already promotes 3rd sector recovery.
31357	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins - why charge?	Waste Services - charges	3. The respondent advised that they had no comment to make.	Brown bins are not a statutory service so the proposal to charge enables this service to continue.
31358	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	So, at present we use brown bins for garden refuse - it looks like we are going to pay for this. If this is the case, give us back our larger grey bins instead of these skinny bins we have where lots of people are needing two instead of the one larger one we had. How are we supposed to get rid of garden waste bearing in mind that us on pensions only income have to account for every penny we have. Don't say take it to the nearest re-cycling depot and I think the bus companies would object to us all trailing bags of garden waste on to the bus. The Councils are the ones who decided we had to use brown bins and the Councils are the ones gaining from it as they are using the garden material for compost - which they then sell,	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council does not receive an income from the sale of compost. It is provided free to householders through the recycling centres. The material itself costs the council to collect and process.
31359	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the use of brown bins would discourage people from keeping gardens neat and tidy. Once again punishing people for trying to improve their surroundings.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charge would enable this non-statutory service to continue to be delivered.
31360	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Need to consider if charges for brown bin collection will result in fly tipping. This links back to section 6, more work with less staff to do it. Any charges should be up front.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31361	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Need to consider if charges for bulky uplifts will result in fly tipping. This links back to section 6, more work with less staff to do it. Any charges should be up front.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31362	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Consider implementing the deposit return scheme. Garden and food waste should be combined like other local authorities. Also the introduction of the reusable nappy cleaning service.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	DRS is a national scheme. Combining garden and food waste is not as financially beneficial as charging for collections and is lower in the waste hierarchy than separate food collections.
31363	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	At the moment West Lothian Council do not charge for the first 3 bulky uplifts. I think the first one should be free but all other uplifts should be charged for. Although there is a concern there might be more fly tipping. Encourage more people to recycle having more easily accessible places where they can leave white goods/furniture and other household items that are in reasonably good condition for other people to use. Charging a smaller cost for removing them if the items are to be recycled rather than the cost of a bulky uplift.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31364	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more fly tipping and the community will be overrun with vermin.	Waste Services - charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Material is separately collected and processed to meet legal requirements and ensure minimal impact on the environment.
31365	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for brown bin uplifts is NOT a good idea and should be avoided if possible.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31366	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts could work with maybe one free uplift per 12 month rolling period per household.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Charges levied would be reasonable to enable this non-statutory service to be continued.

31367	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bins should only be placed where users have alternatives, drivers for example.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31368	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more Fly tipping and the community will be overrun with vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31369	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging people for using brown bins! Seriously! It was the Council who spent millions of pounds on distributing all these bins to tenants and now you want to charge us for using them. What on earth is our Council Tax paying for? Especially since everything that is separated for recycling all ends up in the same place anyway! This is hypocrisy. There will be more Fly tipping and the community will be overrun with vermin.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31370	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charges for brown bin collection will result in Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31371	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charges for bulky uplifts and the closure of 3 recycling sites will result in Fly tipping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31372	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift will lead to more rubbish being dumped and therefore more cost on clear ups and damage to the environment	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31373	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing charges for bulky uplifts and use of brown bins is reasonable , as West Lothian is one of the few councils in the country that doesn't charge for these.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31374	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I have no problem with introducing charges for bulky uplifts (which are one off levies)	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31375	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I would urge you not to charge for the use of brown bins.	Waste Services - charges	2. 31376	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You cannot minimise bin collection without major consequences for residents. Fly tipping would become a significant problem and surely we need to seek to improve recycling not reduce it. Customers would request more street bins and stop recycling many items. The costs of such action could be high in real terms and environmental terms.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31377	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	2. Agree with charging for bulky uplifts but if possible it would be good for the first to remain free of charge since you are proposing to close 3 recycling sites; I might live next to a key site!	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31378	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I don't think the proposal of charging on utilising brown bins is a good idea. As this will encourage more Fly tipping which is bad enough throughout West Lothian at the present	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31379	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Could also charge for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31380	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I cannot believe how much pandering this council does to residents about waste. If you want to clear a house then you should expect to pay an uplift charge if you can't or won't take it to the tip. It is not a right to get several bulkies per year, and I resent my council tax paying for this when I take my rubbish to the tip myself. This should be a payment up front.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31381	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	As for brown bins, not everyone uses them so I have issue with a charge.	Waste Services - charges	3. The respondent advised that they had no comment to make.	It is difficult to tell if the response is positive or negative from the comments provided.
31382	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for collections will lead to Fly tipping which in the long run will adversely affect the community and will result in additional costs to tackle the problem. I oppose these changes	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.

31383	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with charging for bulky uplifts .	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31384	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling models should only be made easier for households. Reducing the number of free bulky uplifts per household per year and charging for subsequent uplifts would be more appropriate.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
31385	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bins would affect the contents of grey bins	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The landfill bin has been sized to minimise any of the impact suggested.
31386	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would support a charge for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31387	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think charging for the use of brown bins could mean more fly-tipping or burning of fresh cut vegetation causing a smoke nuisance. Would however support paying a small monthly charge if I used a brown bin regularly, i.e., your brown bin would be removed unless you paid this.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31388	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not want to pay extra for the use of my brown bin that the council provided.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31389	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplift and use of brown bins....ok if the charges are affordable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
31390	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I do not want to be charged for the use of the brown bin that the council provided. I do not support this change.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31391	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Seems counter productive to charge for brown bin when encouraging environmental policies..	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31392	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Ridiculous - absolutely ridiculous - it will Fly tipping and people not getting rid of food responsibly which will cost more in the long run - worst suggestion ever! I wont use my brown bin if I have to pay for it so be prepared for worse recycling and Fly tipping as that is what will happen.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
31393	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be happy to pay for brown bin uplifts and for bulky uplifts. I fine line must be drawn as the cuts could encourage fly tipping.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible.
31394	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would be quite happy to pay for bulky uplifts but if I did then I would expect my nearest recycling centre to be kept open, its either one or the other, expecting to close recycling centres and charge for uplifts if poor customer service	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31395	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Well how many bins does one house need to have. Four it seems. Bulky uplifts can be reviewed reduced number of free uplifts?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31396	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins - if these are removed black bins won't cope.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31397	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't disagree with the charging re bulky uplifts or use of brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.

31398	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Will the Council monitor the effects on fly tipping when charges are introduced.	Waste Services - charges	4. The council is already doing this.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31399	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Unclear why charges would be made for use of brown bins. If residents do not have these they will end up using their black bins for the rubbish. Seems complete madness to not encourage the recycling of natural products that the brown bins currently take.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31400	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Introducing payment for brown bins would simply mean that people would stop using them and the council would not meet its recycling targets. An increase in fly tipping would ensue which would end up costing the council more money.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31401	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	if you charge for brown bins people will fly tip their waste people already dump rubbish in the countryside when there is no excuse with recycling sites being readily available	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31402	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges are fair enough.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31403	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	When as a a nation there is a push to reuse, recycle, asking for payments of bulky uplift will have a detrimental effect on the community as there will be more incidences of fly- tipping. Older people and those on low incomes will not be in a position to pay for the bulky uplift or for brown bin collection.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31404	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you charge for the uplift of brown bins and close recycling centres there will be more people dumping garden waste on unapproved areas	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31405	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charges may mean more fly tipping...	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31406	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Again who is going to collect charges for brown bin collection, with more work but less staff.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31407	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Fully support charging for bulky uplifts.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31408	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There should be more regular bulky uplifts.	Waste Services - charges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
31409	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree - would bring in line with Edinburgh.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31410	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin collection would see people dumping it themselves and that would result in them putting it anywhere.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.

31411	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Chargeable commercial waste disposal is a good idea.	Waste Services - charges	4. The council is already doing this.	Thank you for your comments. The council already do this.
31412	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Fairly OK with charges to collection. is.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31413	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Would not be happy with brown bin charge - I fill mine every time there is a collection! in the 90's North Lanarkshire provided home composting bins to every home to reduce collection and need for recycling. Encourage this.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31414	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for brown bin emptying gives a negative message to the public and counters to the principle of total recycling.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31415	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Most people wont mind driving a bit extra to get to a recyling site, and most people wont mind paying for a bulky uplift if you make the uplift more simple however dont be surprised if the amount of fly tipping increases as a result. Only about half of the people in my street use brown bins. Do away with them	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31416	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Yes I would say for council uplifts but not brown bins? This is an essential service in order for people to keep their homes and community tidy. If not required some sites could be closed.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31417	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There should remain a couple of free bulky uplifts to prevent fly tipping which will cost the council in the long run and impacts on the environment. If brown bin charges are brought in then you better replace all the small grey bins with the largest ones as people will not pay for a brown bin uplift and garden waste will get dumped over fences and in tree belts more than is done now. Bad idea.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31418	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think the charge for a bulky uplift seems reasonable, but could lead to stuff just being dumped if people don't want to or cannot pay. Not everyone needs a brown bin anyway. I am curious to know how much it would cost the customer to retain the service. If the recycling sites are closed, where will people go to get rid of bulky things?	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31419	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No problem with paying for bulky up lift, we used to have to do that. It was the council who gave us the brown bin so it seems daft to ask us to pay for it. Why not go back to not picking it up every so often in the colder months?	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31420	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This proposal to introduce charges for bulky uplifts and use of brown bins. In addition, the review would include removal of the commercial waste service and closure of three community recycling sites to focus on key sites in West Lothian. May result in an increase in fly tipping, degradation of housing estates and associated health issues. The existing policy of a number of free bulky uplifts per year and additional brown bin on request is sensible and was designed to prevent an increase in fly tipping, degradation of housing estates and associated health issues. I think that this would be a backwards step.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31421	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts - This will lead to people dumping - costing the council to clear up. Charging for brown bins - This will lead to people burning their own garden rubbish (fires getting out of hand - More pressure on the Fire Brigade) and also people dumping garden rubbish.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31422	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the use of brown bins would encourage people to burn their garden waste or dump it, costing the council and fire brigade more in the long run.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31423	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	CHARGING FOR BULKY UPLIFTS WILL ENCOURAGE PEOPLE TO LEAVE STUFF LYING IN THE STREET - ESPECIALLY WITH THE POORER CITIZENS WITHIN THE AREA	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31424	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not charge for brown bibs and bulk uplifts. Completely stupid idea!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31425	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A small charge for bulky uplift, or x free per year does not seem unreasonable. Most retailers charge to remove old appliances. I do not support the proposal to charge for brown bins.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31426	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whilst I would be happy to pay for a bulky uplift, I am concerned other people wouldn't and this would lead to an increase in fly-tipping	Waste Services - charges	1. The respondent advised that they agree with the proposal. 31427	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No charge to brown bins,	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31428	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	yes perhaps a charge for bulky goods should be made but not for brown bins as this would mean householders with garden will be punished it is good for peoples wellbeing to be able to work and enjoy their garden with out feeling they are being charged for the pleasure	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31429	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I can understand a charge for bulky uplift. However brown bin is a bad idea. People will dump garden waste in local woods, this already happens. Any new recycling measures should be clear and easy to follow or people will not adhere and fly tipping will increase. Not all families have access to local recycling centres for disposal of waste so reduction in the centres could see an increase in rubbish dumping.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31430	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree that a small charge should be made for bulky uplifts. The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31431	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People already pay for use of brown bin in way of council tax! People should have to pay for bulky uplifts	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31432	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be concerned about charging for brown bin collection and also charges for bulky uplifts as suspect this will just lead to increase of dumping which will have its own costs. In Austria, where we have family, there are uplifts of certain things once or twice a year - for whole village/town - so people have got used to storing things in garage and putting it out on particular dates (bit like the current xmas tree collection here). There is also a central drop off point once or twice a year for new/used items that could still have a value for eg charities thus reducing what is potentially thrown away as rubbish.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31433	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown bins could be increased to 6-8weeks before collection one every 2 months in winter period. Noticed brown bins not all out in street.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31434	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	at the same time we will now charge to empty brown bins no logic in that. We are asked to recycle but nowhere to take it	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.

31435	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would prefer one free bulky uplift a year rather than charge for all. Brown bin collections should remain free to encourage recycling.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31436	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Absolutely disagree with this proposal regarding brown bins. You should be encouraging the recycling of garden waste. Everyone will resort to burning garden waste in their own gardens which will be detrimental to the environment.	Waste Services - charges	2. The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31437	An employee of West Lothian Council	7c. The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31440	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the council reduce bulky uplift services/ funding or introduce charges, the inevitable result is increased fly tipping. Charging for using a brown bin is the least sensible proposal in the whole of this consultation exercise.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31441	An employee of West Lothian Council	7c. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31442	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No problem with charges for bulky uplifts if this will mean that ALL requests are met without the present "look for a specialist provider who will charge a fortune". In recent years I have noticed increasing resistance to collecting items I no longer require. Everything from requiring a complete list of even the smallest items, to refusal to uplift just multiple bin bags, or a 3 week wait to collect an old fridge freezer, or a refusal to even attend to look at the contents of a shed that needs to be emptied. As for brown bins, WL council insisted on introducing brown bins for garden waste. There would be massive complaints if residents just put garden rubbish back into grey bins, or sprinkled it in blue bins. These suggestions here at 7c are just not feasible or acceptable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31443	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts etc should be means tested. The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31444	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is important that any new charges e.g. bulky uplifts, are paid for upfront before delivering the service, otherwise the costs of recovery, could negate the benefits or impact on other areas, e.g. performance of council tax. payment up front for services should be considered more widely.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31445	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for the use of brown bins would only mean a huge resource to administer collection for this service, unless paid upfront. Fly tipping is likely for those who cannot pay & a disincentive for looking after gardens.	Waste Services - charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31446	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Disagree totally with charging for brown bin uplifts - really!!!!!! You want us all to recycle then you are going to charge us for separating this from our waste?? If that happens then this will just be put into grey bins as nobody would want to pay to get grass cuttings uplifted!! Also I can just imagine all the fly tipping if you charge for bulky uplifts which is not what anybody wants. Can't see how this costs £2.6m?	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 31447	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I believe introduction of one free bulky uplift with subsequent provision charged at a nominal fee of around Â£20 would be reasonable. I also believe that introducing a one off charge of around Â£20 for collection of garden waste would be financially achievable for the majority of households within the West Lothian area.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31448	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts has the potential to increase fly tipping. The number of free uplift of bulky items could be reduced. Use of brown bins should not be charged as this will decrease their usage and increase the contribution to landfill.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31449	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think the introduction of charging for brown bins may mean people going back to using their grey bins for garden waste or alternatively, tipping this on open sites	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31450	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bins are acceptable.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31451	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	would agree to bulky uplift charges.	Waste Services - charges	1. 31452	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Agree there should be a cost for bulky uplifts. Disagree on charges for brown bins, which will likely lead to excess waste going to landfill and sends out the wrong message about encouraging all forms of recycling.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31453	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Never wanted a brown bin in the first place but the council insisted we have one. Can't believe the council now proposes to charge for this. I would be happy to give back the brown bin and not to have a pick up at all and at no charge for this. Same with the green food bin. I should be given a choice as to whether or not I want a brown bin and be charged for pick up.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping. If you do not want the service you would not have to pay for it.
31454	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	no charge for every pick up....perhaps first pick up free then charge for the rest...like S.Lanarkshire . If no free then there may be more dumping at the side of roads.	Waste Services - charges	6. This is a positive suggestion. Officers will consider how this could be developed. 31455	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The charging for use of bulky uplifts and brown bins will only result in more unscrupulous people 'fly tipping' which in turn would cost the Council more money tidying mess up. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31459	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If this is done get ready for a substantial increase in fly tipping and dumping!	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31460	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am concerned about the impact on changing the waste collection to the public and a resident in West Lothian, I would not want to see what is happening in other councils that charge for uplifts, etc, waste being dumped and creating a public risk to health.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31461	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't see why you would charge for the removal of rubbish as this again would cause people to dump on road side and lastly how can you take it away when you are increasing the council tax by 3%. These buckets only get removed once a month as it is and usually you have to take the waste to the recycling plant anyway as the buckets are full.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31462	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky uplifts will lead to more junk in gardens in some areas. this should be properly thought through as look what has happened in other areas.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31463	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	More changes for the bin men .. If they are putting up our council tax don't you think we should be getting more than our bins emptied once a month .. The streets will have rubbish everywhere if they close the recycling ..	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31464	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	we get one brown bucket lift a week don't see why we should pay for this	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31465	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts would be ok. As a employed person I'd be happy to pay for any bulky uploads.	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31466	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As for brown bins, how are people being encouraged to recycle garden waste if a fee is required? This one, I don't agree with.	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31467	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky uplifts seems reasonable	Waste Services - charges	1. The respondent advised that they agree with the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31468	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	An introduction of charges for bulky uplifts and brown bin collection will result in more fly tipping	Waste Services - charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will look to implement a charging structure that ensures these non statutory services can still be delivered and are suitably accessible and minimise the temptation to engage in illegal fly tipping.
31469	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If commercial waste service is removed.It is absolute this will increase fly tipping which will incur greater cost to rectify A business opportunity is being lost as private companied will step and take income form commercial waste. This clearly shows how this local authority can not operate efficient business oportunities.	Waste Services - commercial waste	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There are many commercial waste collection companies throughout the central belt who would enable businesses to dispose of their waste appropriately.
31470	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Consideration should be given to expanding commercial waste uplift if the model is viable and the council is able to offer a competitive price.	Waste Services - commercial waste	6. This is a positive suggestion. Officers will consider how this could be developed.	There are many commercial waste collection companies throughout the central belt who would enable businesses to dispose of their waste appropriately. The council operates at a cost recovery basis and cannot seek to make a profit from this operation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
31471	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	there are inefficiencies in the services we get from within WLC e.g. place calls for repairs and staff turn out with wrong locations, lack of detail, etc. Failure to fulfil the service being paid for e.g. commercial bin emptying contract. Any customer, whether within the Council or outwith, want to get the service they pay for and if they don't they should be compensated so clearly WLC need to provide the service they say they are.	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Not relevant as comment on current process.
31472	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely commercial service pays for itself / ?/ if not let workers run it as a mutual with council taking 10% share and leasing vehicles to workers Plus you need a much bigger increase in recycling to save landfill costs have you got ideas	Waste Services - commercial waste	6. This is a positive suggestion. Officers will consider how this could be developed.	Whilst this is a positive suggestion the legality of operating a mutual organisation or ALEO would be complex and require significant investment to operate.
31473	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the Commercial Waste service does not generate any money for the council then it should be scrapped.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	The council is currently reviewing its income generation, charging and concessions policy and this will be considered as part of the next review.
31474	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	At the moment charities receive "a la carte" collections and use of recycling centre for free. I think the council should only offer a limited collection and use of recycling centres and charge any service beyond that limited free services. To illustrate this, if we would make a reasonable charge for every instance that a charity has dispose of waste in the recylign centre we could make over Â£100,000 per year.	Waste Services - commercial waste	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	There is no requirement for a subsidised collection service for charitable organisation, nor a specific definition of what type of charitable organisations should be permitted to deposit material free of charge.
31475	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	. Also, many neighbouring councils no longer provide commercial waste uplifts, so this is something the council should look at. Is there any provision, for example, for the council to charge for commercial waste uplift thus maximising income?	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31476	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The commercial Waste contracts should be stopped. Edinburgh Council did the same.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31477	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Does the commercial waste service not bring in revenue - if not it should. Does that leave small businesses in the region and issue?	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The commercial waste service is at best a break even service. It is not set up to generate a profit. Local businesses could use any number of the private waste companies that operate within the central belt area.
31478	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Commercial waste services should be operated as an additional charged service on a cost neutral, or minimal profit basis to provide competition to private waste providers.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31479	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Erm? Commercial waste? You donâ€™t currently provide this service it is provide by the private sector	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31480	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Shopkeepers should responsible for cleaning out side their premises.	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
31481	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Could commercial waste uplift potentially be profitable for you? There is a competitive market in this area. Is there an underlying question here about strategic leadership?	Waste Services - commercial waste	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is not meant to make a profit, merely recover reasonable costs.
31482	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree with cut-backs in recycling services for commercial waste.	Waste Services - commercial waste	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
31483	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Commercial waste services are vital given that the size of the bins are no longer adequate.	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There was no reduction in the sizes offered to commercial waste customers who pay for their collections.
31484	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Removal of the Commercial Waste Service- Councils should not be working in this field if they are not allowed to make a profit. There are plenty of other providers in the market place.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	The council is not meant to make a profit, merely recover reasonable costs.
31485	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Removal of the commercial waste service will see fly tipping of horrendous proportions All this to save landfill charges but we are leaving the EU so no need to and keep the penalties for West Lothian 7c Not a good idea	Waste Services - commercial waste	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is not meant to make a profit, merely recover reasonable costs. There are many private waste contractors in the central belt who will collect from businesses.
31486	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	do agree to other proposals above.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

31487	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges should only be levied on commercial companies or accept this outcome.	Waste Services - commercial waste	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
31488	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There is a charge for removal of commercial waste so why remove this service.	Waste Services - commercial waste	3. The respondent advised that they had no comment to make.	The council currently do not achieve full cost recovery and subsidise charitable organisations.
31489	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Removal of the Commercial Waste Service would be a mistake...you do that then there will be an increase in Fly tipping probably....and the associated cost to clean that up.	Waste Services - commercial waste	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping will not increase as there are many private waste contractors throughout the central belt who will collect from businesses.
31490	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	In Edinburgh businesses have had to pay for commercial waste collection and so I am in favour of this being introduced in West Lothian.	Waste Services - commercial waste	4. The council is already doing this.	Thank you for your response. Your comment has been noted
31491	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The removal of the commercial waste service could increase fly-tipping. I assume this has been factored in.	Waste Services - commercial waste	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council does not have to provide a commercial collection service and there are many private contractors operating within the central belt who will be available to businesses.
31492	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling areas must be free to all - including commercial vehicles to stop FLY TIPPING.	Waste Services - commercial waste	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council does not have to provide a commercial collection service and there are many private contractors operating within the central belt who will be available to businesses.
31493	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow Community Recycling Centre on Braehead Road: Please save it from being closed!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. WL is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal flytipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective
31494	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow Community Recycling Centre on Braehead Road: Please save it from being closed! 32244	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree that some partnerships ought to be explored in order to maximise benefits for the community. One possibility may be to utilise the recycling resource in Bo'ness rather than suggesting that citizens travel 16 miles to Whitburn to recycle.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian residents are able to use any public recycling facility whether it is in West Lothian or not.
32245	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Very dangerous idea and will lead to a vast increase in the level of fly tipping in the area. May actually increase costs, rather than save money. Perhaps a small charge for people entering recycling centres could be considered.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32246	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please keep Linlithgow recycling site.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32247	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rationalisation of recycling sites a good idea. Most people would be willing to drive to a centralised site. But do not jeopardise increased levels of recycling.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32248	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	How will you deal with the increased fly tipping and dumping that will be generated as a result of this action?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32249	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What is point of closing recycling depots when it will increase use of greybins, increase landfill and fly tipping. There is no sense in generating additional CO2 by requiring drivers to travel the length of the county to recycle. Why not just widen the range of materials eligible for blue bins e.g. glass.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32250	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely the closing of three community recycling centre will encourage more fly tipping and less recycling if people have to transport the rubbish further they will be unwilling to do so.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32251	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	With regards to closing the recycling sites, we use Broxburn a lot for black bags and the blue bin there. Once a fortnight is not enough for blue bins to get emptied with a child with mental health issues who will only drink from cans or bottles.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32252	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We are most concerned about the proposal to close the recycling facility in Linlithgow. This is a very well used site and provides excellent opportunities for maximising waste recycling. Without this local site the collection and recycling of glass, redundant electrical products, light bulbs and garden waste (when the brown bin is full) would be difficult and the waste is likely to be put in the black (landfill) bin	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32253	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	as a consequence, so the council should reconsider the total closure of the 3 recycling centres until it is clear what the consequence is. The sites are also used by council services, so the loss of the sites will also mean increased transportation costs. The sites are busiest at weekends, sometimes with queues, so the quietest sites could open only then and one weekday, probably Monday, to accommodate bank holidays. The closure of the other sites will make already busy sites busier at the weekend. This could result in the need for more staff to keep the site safe and flowing well to cope with the additional waste, which will diminish the saving.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32254	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I believe it would be wrong to close community recycling sites as this would only encourage people to dispose of rubbish by fly tipping and dumping on road sides, creating more costs to the council than benefits.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32255	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am absolutely opposed to the closure of the recycling centre in Linlithgow. To require a town of 13,500 people to drive 16 miles to their nearest recycling centre is environmentally unsound, both from the perspective of fuel consumption and the inevitable fly tipping. Has the cost of fly tipping been factored in to this saving? As I mentioned before approaching Falkirk council to share facilities may be a viable alternative.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32256	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of the recycling site is total madness.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32257	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	not happy with closing of community recycling services, this will encourage fly tipping, and discourage recycling.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32258	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	2. Closure of some of the Community Recycling sites will inevitably cause a significant increase in fly-tipping, reversing the trend over the last few years as these sites have become busier, fly-tipping has reduced. Although we have already seen an increase in occurrences after the site hours reduction which was imposed recently (a couple of years ago?). Surely the process of collection and acting on reports of fly tipping are high? Surely West Lothian should encourage more people to live here and visit here in a litter free environment.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32259	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow recycling centre is heavily used and should be encouraged - not cut. fly tipping will increase.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32260	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling sites should be kept open. There is a high risk of fly tipping, which might	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32261	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	By closing community recycling sites you are condemning West Lothian to become one giant fly tipping site. This is a ridiculous proposition. This is not eco-friendly as many miles will be travelled to remote locations to fly tip or to a recycling centre far from home. Not acceptable.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32262	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Linlithgow community recycling site is well used. Given that it is the only such site north of the Bathgate hills, its closure would be damaging and counterproductive. It would likely see an increase in fly-tipping with offsetting costs to the Council. I would urge the Council to retain the Linlithgow site. However, I recognise that the Council might gain significant income from the sale of the Linlithgow site. In that case, might a more cost effective option for the Council be to relocate the site to somewhere on the outskirts of Linlithgow where perhaps a larger site could also be provided.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32263	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If this means closure of Linlithgow recycling site ,which is well used and provides a fantastic facility, then I absolutely don't agree(although could definitely reduce the number of council bods sitting around on their asses all day long) So are we now going to have fly tipping all over the countryside - great move that is!!!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32264	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Again fly tipping will become a problem, should local waste/recycling depots be closed down completely. However, with Winchburogh population increasing Linlithgow needs to have a common site that cover these areas. As member of Burgh Beautiful and carry out litter picking, we see fly tipping and general littering as a growing problem, which if not managed can quickly damage the community's attitude to looking after their towns with a devastating downward spiral effect.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32265	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Where will the key sites be? I'm never out of the Blackburn site. Folk will end up dumping off site. Please don't cut these essential services it will lead to a breakdown in standards in society. Clean environment makes people take a sense of pride.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32266	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	STRONGLY disagree with the proposal to close three recycling centres, particularly the very heavily used one in Linlithgow. I understand the nearest one will be Whitburn - where does that leave those of unable to drive or without access to a vehicle? This must be the most destructive proposal in the whole exercise and a recipe for increased fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32267	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If community recycling sites are closed and people are expected to travel much further to dispose of their rubbish, they will add more to their grey bins or fly tip. To encourage recycling all these sites should be kept open but not necessarily for 5 days a week and not even all day. Well advertised most folk would use them this way.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32268	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It all depends on whether re-cycling is considered important, as I thought it was. Your explanation does not detail which recycling sites are being considered for closure. As far as I am aware, the site at Linlithgow is well used and should be maintained. If it is closed, where is the nearest one? It would be bad for the environment for waste to be taken in vehicles to remote recycling sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32269	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites causing many users to have to travel further & creating additional emissions is surely not environmentally friendly nor does it encourage recycling. This seems self-defeating. Please think again about this one.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32270	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand the review but the action of removing 3 of the recycling centres must take into account the level of use by the local community and take into account how far away the nearest alternative site is. Failure to do this will inevitably lead to a big increase in FLY--TIPPING .	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32271	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand that the Linlithgow Community Recycling Centre on Braehead Road is one of the ones under threat. The next nearest facility is Whitburn. The closure of this facility, combined with a charge for bulky uplifts and brown bin collections will undoubtedly lead to an increase in fly tipping. For many people there will be no way of getting their rubbish to Whitburn. Surely this cannot be an environmentally sound proposal either in view of the mileage involved in everyone in Linlithgow driving to Whitburn and back to recycle?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32272	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As for closing the Linlithgow Recycling centre this will only encourage fly-tipping across West Lothian.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32273	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This already happens and if you close local recycling sites there is a limit to how far people will travel. Which sites are you talking about. Rumour has it that Linlithgow is one of them so you can build houses on the site. How can we respond properly with only the rumour mill to go on?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32274	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of civic amenity sites will discourage sensible recycling and could increase the risk of fly-tipping. Reduction of staff numbers at current sites, rather than closing some sites, makes more sense.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32275	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People will just dump illegally	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32276	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The impact on recycling again could have longer term costs with landfill impacts	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32277	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of Linlithgow recycling facility would be a unfair (why should the people of Linlithgow have to travel 25 miles spending their time and money to be green). Again there will be more fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32278	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Additionally you surely cannot both introduce charges and close recycling centres. These are bad ideas.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32279	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Some of these sound counter-intuitive. The Scottish government are raising the recycling targets to local authorities in the next few years, but the closure of 50% of CRCs, along with reduced kerbside collections and introduction of charges will have a negative effect on community involvement, and see a reduction in recycling and an increase in fly tipping. With the current rate of approx £90 per tonne of landfill only set to increase I struggle to see how these measures make any form of sense.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32280	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Instead of the removal of the commercial waste service why not stop commercial waste being accepted at the recycling sites and open one specifically for commercial waste and charge for the service.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32281	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am concerned about closure of local recycling sites which will result in reduced levels of recycling, fly tipping and increased carbon emissions driving to more distant facilities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32282	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Depending on the sites that the council will be closing this could backfire and lead to more fly tipping across the county which will cause more problems for the council in terms of clearing up.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32283	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Which community recycling sites? Again not enough information.	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32284	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It would be good to have communications released at the introduction of any charges highlighting location of recycling centres and what can be taken there.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32285	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closing of recycling sites will result in people dumping their rubbish in the environment because they cannot be bothered to drive or take their rubbish to the next recycling site.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32286	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think closing recycling sites is counter productive as it will increase fly tipping. I agree that charges for bulky uplifts and brown bins are fair.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32287	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	To then reduce the community recycling centres this will most likely result in an increase in Fly tipping which will increase costs to the council in clean up operations.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32288	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of 3 local waste service sites screams out an increase in fly tipping. Reduce staffing at each site but not reduce number of sites as makes it incredibly difficult for individuals to dispose appropriately.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32289	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	recycling has been a huge success in making people environmentally aware. Considering closing the Linlithgow plant would be a disaster. People are not going to make the effort to trail over to Broxburn with car loads of all the various rubbish that they collect. Our recycling plant is fantastic, can you imagine the fly tipping that would result if it was closed. It is an extremely busy place perhaps you could reduce staff levels there to help the situation. Everyone I speak to is adamant that we really need this facility to keep our town and general environment to the standard we have at the moment.....and we are a tourist town !	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32290	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have already commented on the recycling site in Linlithgow. It would be an absolute disaster if this was closed. It would have a huge impact on the environment.....people are just not going to drive to Broxburn with car loads of rubbish.....fly tipping will result and the huge success that this facility has achieved will have been wasted. We are proud of our town and many organisations with volunteers like Burgh Beautiful keep high standards to win awards and encourage the tourist industry. Please re-think this one !!! Maybe you could charge an entry fee to the site.....it is a very busy place .	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32291	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing re-cycling sites will cause endless problems with fly tipping and general littering and waste. Could the sites be organised to each operate on a part time basis instead? It is not good for the environment to drive 25 miles to recycle rubbish.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32292	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am dismayed to hear that closing the recycling site in Linlithgow is under consideration - we use this facility at least once a fortnight for general waste as our black/grey bin is insufficient for our needs. We then use the site regularly for our garden waste as again the frequency of uplift is insufficient for the size of our garden - really the brown bin only copes with our grass cuttings. I will not be prepared to drive to another town in West Lothian to dispose of waste as I have neither the time nor the money to budget for this additional activity - as mentioned this will encourage alternative ways of dealing with waste.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32293	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree that there should be a closure of 3 community recycling sites. I live in Linlithgow and strongly oppose any closure of the local recycling amenity.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32294	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am opposed to the closure of any municipal waste sites. this would more than double the working capacity of remaining sites that can not cope with current capacity, never mind extra the 250,000 car customers from three closed sites. Possible closure of Linlithgow site would mean a round trip of 22 miles for car owners. This will increase carbon footprint of vehicle fuel use, increase fly tipping, put massive traffic pressure and huge demand on three sites that can barely cope with current usage. Linlithgow has largest amount of recycling in West Lothian and driving to sites further away will reduced recycling by a large degree, increasing landfill costs.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32295	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	A recipe for disaster! Despite the push for recycling and green agenda the option being proposed is to close down 3 recycling sites (including the obligatory punishment of Linlithgow residents by closing the town's recycling centre) ! This can only lead to people developing their own solutions to waste disposal and who can blame them. Mixed messages indeed.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32296	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with plans to close the Linlithgow recycling site. This is a well used facility and its closure would likely result in more fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32297	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Additionally the closure of recycling sites would result in resident having to travel further thus increasing carbon emissions & promoting an increase in the general litter deposits	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32298	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do not shut down the recycling site in Linlithgow. Linlithgow receives very little in the way of council services - but this is one thing that is required. No one will travel to Livingston or Bathgate with their rubbish so fly tipping will be on the increase.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32299	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As long as this does not contradict targets already set for waste recycling. Closure of Linlithgow recycling centre strongly opposed as always a queue when going. Also the cost and time would result in an increase in fly tipping.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32300	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	One of your priorities has been re-cycling waste, therefore closure of a local re-cycling waste facility would be hugely detrimental especially to persons without access to a car, particularly as very recently the size of the grey bins for general waste has been reduced	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32301	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of any community recycling sites would have a detrimental effect locally, especially on anyone who does not have access to a car. You should be increasing these sites to encourage more recycling not closing them. Also there should no question of reducing facilities in areas whose residents already pay more than the average council tax as they would be paying more than average and yet getting a worse re-cycling facilities than other areas. Also there should be no closure of community recycling sites based on the the value of the site as the suspicion is that the main reason for this is not to improve services but to instead sell off sites for development.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32302	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is hard to see how closing recycling sites is a sensible idea	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32303	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing community recycling sites will only result in increased fly tipping whereby the Council ultimately has to pick up the bill to clean up the area.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32304	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow recycling site should not close as it is distant from other options.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32305	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites is a no go area - it is a complete nonsense to have achieved huge success in recycling then to throw it away. The Linlithgow facility is heavily used. If it is closed people will simply stop recycling. Those who don't care about it will fly tip. Those who do care will certainly not travel to, say, Broxburn - they will find ways of sending it to landfill instead of recycling. A complete disaster, both for the environment and for the Council which is running out of holes in the ground. These sites must be kept, perhaps reducing hours and staffing. As an aside the Linlithgow site seems to be overstaffed at every visit.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32306	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am against any closure of community recycling sites, people would just start dumping all recyclables into a general waste bin or start fly tipping which would cost money to be cleared up.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32307	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Very concerned about the proposals to get rid of local recycling facilities, especially in Linlithgow. Need to be made as easy as possible for people to recycle and council hit its targets on this. Closure is likely to lead to even more dumping of waste - a common occurrence already on the road over the Riccarton Hills between Linlithgow and Dechmont. Council needs to work with the community to enhance their localities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32308	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly object to the closure of local community recycling sites which are already well used. There is regularly a queue to get into the Linlithgow one. Its closure would mean even more fly tipping on the edge of the town and on the Linlithgow-Dechmont road. It would also work against the council meeting its recycling targets.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32309	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres will cause more fly tipping, which will need to be removed by council staff, hence negating any savings.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32310	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do not close recycling sites	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32311	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The council should be encouraging recycling in its contribution to zero waste. The council should not close local recycling facilities. This does not drive the desired behaviours	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32312	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am very much opposed to closure of Linlithgow recycling site. It is very well used. It would probably result in more fly-tipping and certainly higher landfill costs. It is unlikely that Linlithgow people would travel eg to Broxburn, especially with smaller loads for re-cycling and will therefore put more in their grey bins. Why don't you keep all the sites going but reduce each to 5 days a week eg Friday to Tuesday inclusive or Wed to Sun inclusive?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32313	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Highly likely that these changes will introduce other issues that will cost the council money in other areas, how will this be assessed? Fly tipping and dumping will increase as people will not drive longer distances to get to civic amenity sites	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32314	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This flies in the face of the Council's stated aims for recycling. Householders and tradespeople are already doing much of the sorting before it is collected, and the community recycling sites are always popular - I had to queue for 5 minutes to get in to Linlithgow's site the other day. If these sites are closed, will people drive halfway across the county to dispose of their old oil, car batteries, white goods or rubble? I fear the county's hedgerows will become the new dumping grounds, which if the Council decides to collect, will greatly outweigh the savings effected by the closure of the recycling centres.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32315	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you close Recycling Centres you will cause many extra miles of car and van journeys travelling to other centers thereby Increasing carbon emissions.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32316	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is crazy! It shows the council does not truly care for the environment. You have a legal responsibility to increase recycling which this goes against. All you are going to do is to increase fly tipping and carbon emissions from people driving to recycling centers. I go to Linlithgow recycling center every week except for the winter - sometimes two or three trips in a week. If I have to drive to Whitburn that will be many journeys which is very bad for me and for environment. Of all the things you propose I disagree with this one most.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32317	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Having used the recycling centre at the beginning of November I was in a queue for 20 minutes as it was so busy which it should make you realise how important this facility is in the 24north of the county.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32318	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We already are the only area I know not to have a glass collection, if we lose our recycling centres more people will put items in bins that can be recycled. People will not drive miles! Environmentally unfriendly due to increased car journeys, and less recycling of recyclables. Our tip is well used and essential to us! Everyone I know is furious by this proposal. What are we paying increased council tax for?	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32319	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reduction in recycling centres is likely to result in increased fly tipping which is already a problem in West Lothian.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32320	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It's already been realised that the closure of local waste centres leads to a corresponding increase in fly tipping, costing considerably more to clean up.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32321	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly disagree with the proposed closure of community recycling sites. E.g. the linlithgow site. People would reduce recycling and put more recyclable waste in the grey bin, thereby increasing the council's landfill waste disposal costs. Also people would make otherwise unnecessary journeys to distant sites e.g. broxburn.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32322	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Review opening hours of community facilities rather than close. If they were to be open at peak times and when citizens use them they old be closed at quitter times - ie when most people are at work.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32323	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow needs to retain its waste and refuse facility. 16,000 people deserve this facility. The consequences would be bad for a town that already suffers from a litter issue and a problem with fly tipping around its boundaries.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32324	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree with the charges for recycling as over the past years we have had nothing but encouragement to recycle. Putting obstacles in the way , ESPECIALLY if you close the recycling sites, will result in increased expenditure by the council to remove the fly tipping that will follow this action. If you are considering reorganising the recycling sites then why not close each one either one or two days a week and this will effectively reduce costs without closure. In other parts of Britian this has been very well received.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32325	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	That's reasonable as long as the distance to travel is not to great. This is only going to encourage fly tipping. Which will incur a constant cost to remove the tipped stuff. It's bad enough already in some areas.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32326	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Closing three community recycling sites does not fall in line with national priorities on the environment.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32327	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly disagree in closing any arc sites, will lead to increase in fly tipping and dumping waste in the grey and blue bins, detrimental to recycling and increase disposal costs.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32328	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Which recycling sites will be closed?	Waste Services - Community recycling centres	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32329	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would absolutely oppose closing three community recycling centres. Our centre here in Linlithgow is extremely busy and if removed people would fly tip. We most definitely don't want an increase in fly tipping. Our recycling centres MUST stay. If we have to employ a private firm then we would expect a reduction in our community charge.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32330	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly object to the proposed closure of the recycling facility in Linlithgow. This is heavily used. If closed I do not intend travelling the required distance to the next nearest facility (possibly West LothianC HQ in Livingston!).	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32331	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree as too many workers on bins and site and special time opening of recycle sites.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32332	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of recycling centres are all going to result in increased fly-tipping, which degrades the environment.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32333	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	DO NOT CLOSE RECYCLING SITES!! THIS WILL RESULT IN FLY TIPPING WHICH IS HAZARDOUS TO HEALTH, UNSIGHTLY AND COST MORE IN LONG RUN. This must NOT be done! Perhaps a reduction in opening hours but remember not all customers can recycle during the week. I believe the Linlithgow site is earmarked this is a very busy site and it is a long car journey to Winchburgh. How many will do this? What impact will closure of any sites have on meeting recycle targets?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32334	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling site at Braehead, Linlithgow should be retained.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32335	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This proposal will impact greatly on 'fly tipping' which is still a problem in certain areas. I agree that bulky uplifts should carry a nominal charge the removal of too many recycling centres will have a detrimental impact on the environment, leading to people moving out of West Lothian.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32336	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If you close recycling sites and put in charges for uplifts and brown bins you may get an increase of fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32337	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	The scheduling of routes has already taken place on the current beats therefore we require more detail on this model. Any further changes on revised recycling models has the potential to impact on the community recycling centres and with a reduction of three will be unable to cope with the potential removal/closure of 3 sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32338	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not support any measure that would make it more difficult or less desirable to recycle. Closure of community recycling sites will not support the required levels of recycling that is set out in Scottish Government's Circular Economy Strategy.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32339	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling site are being considered for closure? Again closure of well used sites would encourage illegal dumping which would in turn cost the Council to clean up and greatly reduce any anticipated saving as well as making our natural environment a rather unpleasant place to be.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32340	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for brown bins and closure of recycling centres will just increase fly tipping and are not acceptable. Personally, these are one of the few beneficial services I have for my council tax. Contrary to stated priority 8: protecting the built and natural environment.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32341	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Again I mentioned this earlier> It would lead to fly tipping and encourage rats and disease. I strongly object if the commercial waste service in Linlithgow is removed. It is well used and not everyone is able to drive to other facilities. As you mentioned you have an ageing population and many are not comfortable driving a long distance, if at all. While a neighbour is happy to go a short distance to help them out driving to another facility in another area is another matter.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32342	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Key sites should still be easily accessible to local communities	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32343	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites would almost certainly increase the amount of 'fly tipping'. These sites are heavily used and any reduction would probably increase costs rather than making savings.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32344	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	perhaps focusing on busier CRC sites as some are clearly underused and no longer fit for purpose. This however would lead to additional demand on the remaining sites. Some additional resourcing for high demand periods would be required. A complete review of site management and conditions of site use could perhaps restrict frequent users of the remaining sites. Suggest you consider a change in the frontline working conditions - longer shift patterns might work ok (4 on - 3 off ?). You need to be using your fleet more efficiently! Start a road-end collection policy in rural areas. Stop collecting contaminated bins or at least penalise frequent offenders. Engage with your problem areas.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32345	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do not close our local community recycling site in Linlithgow - people are needing to be encouraged to recycle, to help improve the environment, and closing this facility would be a backward step, and have negative results. (I don't think forcing people to travel much further, to visit centralised recycling sites, would work, and people would be likely to revert back to just throwing things in the grey, non-recycling bins, unless "garbage police" were in force to ensure this didn't happen.) If our local recycling centre were to be closed, I think we would see an increase in fly-tipping, and we would see only the more civic-minded or law-abiding people using the centralised recycling centres, and other folk wouldn't bother. ** I pay council tax, and I do NOT want my local recycling centre closed. **	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32346	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I think if these changes were to be made it would cause more problems than solve. You would end up having people dumping rubbish anywhere - which in the end will cost more money to then clean up. Closing Recycling sites I think would also encourage people to not care where they dump their rubbish or how they recycle goods.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32347	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No recycling sites should not be closed People should not be charged to use brown bin	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32348	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of community recycling sites will increase carbon footprint as people travel further to sites (to cease to recycle)	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32349	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Important to people of West Lothian and further a field. The service centres are already very busy. I would not want to travel too far to help with recycling. People already need to be encouraged. Fly tipping will obviously increase.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32350	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Insufficient detail - which re-cycling sites are to be closed? My local re-cycling centre (Linlithgow) is extremely well used - closure is certain to reduce levels of re-cycling and increase fly-tipping. Charging for brown bin collection is likely to lead to inappropriate use of grey bins and increased fly-tipping.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32351	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think this it is a very foolish move to close recycling sites. The site in Linlithgow is very busy and people are conscientious where recycling is concerned. If these sites were not available fly tipping would then be an issue which would incur more costs to the council.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32352	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of the community recycling centres would be good, there isnt to far between them. Based on the fact that the government want recycling to be done	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32353	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is one area where the Council must make no change. We have an excellent and very well used recycling site in Linlithgow. Residents will not make the trip to somewhere like Broxburn. Those who don't care will fly tip and those who do will simply find ways of sending more to landfill. The volume of stuff recycled in Linlithgow is huge. Don't risk losing all the gains made over many years.	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32354	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	cost of fly tipping will make for more cost to council than recycling centre,,,, eg rodents, dumping, mess, more cost involved in clean up	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32355	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The local sites are needed otherwise this would surely lead to unauthorized dumping as people will not wish to travel long distances to get rid of unwanted items.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32356	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We all need to recycle more effectively. The Linlithgow community recycling site is well used and its closure would be a grave mistake. The result of this would be increased fly tipping and an increase in bulky uplift requests. Making a charge for bulky uplifts would result in increased fly tipping and reduced recycling. A charge for brown bins might be effective, if it is not too high. Removing the food caddy service would save money. Why can't food waste simply go in the brown bins?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32357	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand the recycling facility in linlithgow is under threat. This is ridiculous. It is extremely well used and will only increase fly tipping in the area. It will increase carbon emissions if we have to travel to Whitburn.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32360	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am completely against the closure of the community recycling sites. This will increase fly tipping and increase carbon emissions as people have to travel quite a distance to other sites. I understand the charge for bulky uplifts but not sure how charge for brown bins would work in practice.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32361	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Waste services € charges for brown bin collection, bulky uplifts and the closure of 3 recycling sites will result in fly tipping again as per section 6 there will be more to recover with less staff?	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32362	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites will I feel also impact on the message we have heard from the council over the last few years about being more sensible with our waste and to recycle when ever possible. As far as I'm aware all the recycling sites are well used and again this saves our local areas being spoiled by fly tipping. Please give consideration to any closures by looking at where these will impact on a community	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32363	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing the recycling sites will encourage fly tipping. Why not let SEPA take over these sites as in my experience they are more efficient and user friendly than our local council site.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. SEPA do not operate sites directly they regulate them.
32364	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	We are absolutely opposed to the closure of the recycling centre in Linlithgow. To require a town of 13,500 people to drive 16 miles to their nearest recycling centre is environmentally unsound, both from the perspective of fuel consumption and the inevitable fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32365	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure about closing CRC site, most useful.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32366	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be totally opposed to the closure of the Linlithgow CRC. It is well used, always busy and has a team of helpful staff. The unintended consequences of this would be more fly tipping and more rubbish being put in the grey bin which the council has put a lot of investment into reducing this type of waste - the replacement of larger bins with smaller bins.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32367	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why put obstacles in the way of recycling? Take a look at the photos of the fly tipping that were highlighted on the national news of the Essex example. Do we really want to encourage this in West Lothian? If changes are to be made to the local recycling sites look at the opening hours. Closing each site 1 or 2 days a week would have the same saving as closing sites. A 25 mile return journey for a Linlithgow resident is NOT an encouraging option to recycle.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32368	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Are we not supposed to be encouraged to recycle yet there is a proposal to close recycling sites - why bother recycling?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32369	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Which 3 sites would close? The two in Livingston are always extremely busy. Maybe a change of opening hours should also be considered.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32370	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am a frequent user of the civic amenity site in Linlithgow and I am absolutely horrified at the thought that this facility might close. I use all of the recycling areas which are available there and, when I am there, I am not on my own. This amenity site is well used. However, even though this site is here, some people would rather dump all sorts of rubbish in the lay-by or gateways beside the minor roads in the Bathgate Hills area. This unsightly blight on our countryside will undoubtedly increase in the event of the proposed waste services charges becoming a reality. What kind of impression will visitors to West Lothian have of this county when confronted by household items and bags of rubbish just dumped here, there and everywhere. Please think again.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32371	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally against the proposal to close community recycling sites. This would lead to more rubbish being dumped in the countryside and more vehicle pollution with household driving across the council area to access recycling facilities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32372	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	There should be no charge for any services involving recycling where the work of the community is saving the Council landfill disposal charges.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32373	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing recycling centres will increase rubbish dumping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32374	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	With specific regard to the community recycling centre at Braehead, Linlithgow - I understand that this site is the most successful recycling centre in West Lothian ie. highest % recycling. Why would West LothianC wish to lose this opportunity for recycling?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32375	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	please do not close Linlithgow recycling cycling centre as I am sure fly tipping would increase.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32376	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing recycling plants would be detrimental to the area, it would increase fly tipping causing more work on services.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32377	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Encourage more recycling, have schemes to re-use things, fix things where people can go and learn skills, more recycling, allow folk to take things from dumps save them going to landfill. Edinburgh has a remakery shop, we should have one in every big town. Community involvement in schemes like this would be great.	Waste Services - Community recycling centres	4. The council is already doing this.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32378	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Is a backward move, recycling should be encouraged but also in other ways, schemes re use, fix, sell should go hand in hand with these centres. I visit my recycling centre and I am dismayed by the amount of good things that are thrown out. Working with charities to sort out things must be a better way of working. If this model has not been used elsewhere start it. I would like to say that the staff at recycle centre in Linlithgow are often sitting and are not that helpful, don't know if they are just uninterested or are classic council workers who seem to think they don't need to impress. They need training or replaced by folk who are keen to help. I worked briefly in the council and I was surprised by the amount of staff off with sick. I have never witnessed such sick leave in any other post I have held. Conditions of employment are great but I have to say they are taken advantage of and this would not be tolerated in the private sector so why does it happen? People need to realise their job is not for life and we can't afford them if they are not contributing.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32379	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing other services re recycling plants will increase fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32380	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	no recycling centres should close. If you want us to recycle, you need to help.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32381	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We are opposed to the proposals to close community recycling sites. Focusing on key sites would result in longer journeys for many to recycling sites and is not environmentally friendly in terms of additional emissions and fuel consumption. This does nothing to encourage recycling of a variety of materials. It can be difficult as individuals to handle the disposal of a large volume of garden refuse without access to a local community recycling site.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32382	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do NOT close Linlithgow's Braehead recycling depot. It is well used and rare to be the only vehicle there. It may not be the state of the art but it is always orderly and efficient. Removal would lead to either increased costs to individuals driving to more distant locations or worse still increased fly-tipping. Arguments in support of the environment are strong. West Lothian has a good reputation and Scotland has sets high standards on achieving carbon savings. It will be a back-ward step to close this site. Recycling should be a priority and the Council making every effort to maintain such sites and enable the public to do more. On a personal level, how would we manage to dispose of, on average, a ton bag of garden waste each week from our large garden. As a volunteer with Burgh Beautiful which has taken on a considerable number of former West LothianC tasks, there should be some support through effective waste management within the town. Braehead is also vital for our activities. We use few of West LothianC services BUT we do use the recycling like many, many others in Linlithgow. Please find alternative means to off set the cuts threatened.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32383	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow CRC - I would be grateful if you would stop the closure of this facility which is not only well used but is available to people who will not travel to Broxburn which is a 24 mile round trip several times a month since the brown bin or even two would never cope especially with a 4 week cycle. How green is that?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32384	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling centres also encourage people to be responsible and are well used.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32385	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree to closing recycling depots- It would lead to fly tipping, littering, big mess, keeping open areas country area, country park green belts for our health. Safe place to go, litter cost to families is a lot of thigs going to be run by the community it they still want that facility to remain. Very hard to accept cuts, reductions, closures budgets.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32386	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling centres are you closing? how much will a bulky uplift cost? Will this be paid upfront or will you need extra debt recovery staff? How many weeks will it be between bin collections?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32387	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling centres are you closing?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32388	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling centres are you closing?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32389	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling centres are you closing?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32390	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three recycling centres are you closing?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32391	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I write to protest against the proposed closure of the public amenity site at Braehead in Linlithgow. At a time when we are increasingly aware of the need to protect our environment, how can you justify sending hundreds of residents on lengthy car journeys using extra petrol and further polluting our air. Of course what will actually happen is that incidences of fly tipping will increase and grey bins will be used more than before. Your landfill charges will therefore increase and you will need extra squads of waste removers to clean up. There are many sites around the town which already are only kept clean by volunteers such as members of the Burgh Beautiful, but they can hardly be expected to cope with the removal of old fridges. is the idea of closing the Braehead site, that the council will be able to sell a valuable piece of land of housing developers, thus making a short term gain and leaving the town with no place where this facility could be reinstated in the future. Please do not vote to close this environmentally important facility	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32392	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What three Recycling Centres are you closing? How much will a bulky uplift cost? Will this be paid upfront or will you need extra debt recovery staff? How many weeks will it be between bin collections?	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
32393	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I support charges for bulky uplifts but not for the use of brown bins. As keen gardeners the brown bin is filled after a week. We already have to make several trips to the dump during the year. I think this should be part of the waste service provided.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
32394	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	We have heard that it is a possibility that local recycling amenities may face closure. We feel it is a retrograde step and would increase fly tipping by at least 200%. This raises huge environmental issues for people who live close to popular fly tipping areas.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32395	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do NOT close Linlithgow's Braehead recycling depot. It is well used and rare to be the only vehicle there. It may not be the state of the art but it is always orderly and efficient. Removal would lead to either increased costs to individuals driving to more distant locations or worse still increased fly-tipping. Arguments in support of the environment are strong. West Lothian has a good reputation and Scotland has sets high standards on achieving carbon savings. It will be a back-ward step to close this site. Recycling should be a priority and the Council making every effort to maintain such sites and enable the public to do more. On a personal level, how would we manage to dispose of, on average, a ton bag of garden waste each week from our large garden. As a volunteer with Burgh Beautiful which has taken on a considerable number of former West LothianC tasks, there should be some support through effective waste management within the town. Braehead is also vital for our activities. Why will West Lothian Council not raise our Council Tax. It is so imbalanced with those on lower incomes in modest properties paying a higher percentage of their income on Council Tax while those more affluent with larger homes pay little. We use few of West LothianC services BUT we do use the recycling like many, many others in Linlithgow. Please find alternative means to off set the cuts threatened.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32396	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am writing to express my opposition to the proposed closure of the Braehead recycling centre for the following reasons: 1.Closure would be a huge loss to the environmental welfare of the town, encouraging fly-tipping and necessitating considerable journeys to an alternative centre. 2.The lack of a local recycling centre together with the possibility of a charge for emptying brown bins would create a risk of people putting recyclable waste into their grey bins. This would cost the Council more in landfill tax. 3.It is a busy site, well used by the community. 4.I am a Burgh Beautiful volunteer. Burgh Beautiful has taken on a considerable number of tasks previously performed by West LothianC and requires support from West LothianC in the form of effective waste management in the town. I hope you will consider these points in your review of the Council spending plans.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32397	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Could also see an increase in fly tipping. Which could be exacerbated by closure of recycling sites. As for re-scheduling of uplifts our experience has been that when this happens it causes missed collections and general confusion, on one occasion having no uplift for 4 weeks.	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32398	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	By removing waste services and recycling centres, this will surely damage your green recycling efforts.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32399	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The council needs to think of the longer term impact. E.g. it appears to be proposed to close the recycling centre in Linlithgow. This will increase fly tipping in the area - does the council have budget to clean that up? Also look at bin collections... there are street where refuse is collected twice in one week for different side of the street - it cannot be efficient.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32400	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	With smaller bins and some people not being able to get to local recycling centres it will impact on our poorer communities and residents.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32401	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling sites not such a good idea as it is a good way to encourage residents to take responsibility for disposing of rubbish - consider if there may be an increase in fly tipping ?	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32402	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	examination of accessibility to key recycling sites should be conducted, any change in behaviour to recycling needs to be administered correctly so as not to discourage recycling. Often it works best when the service is more convenient, especially where recycling is only accessible by walking.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32403	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	We are asked to recycle as much as we can so how can closing 3 recycling sites help with this?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32404	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	. Closure of recycling sites will reduce people's incentive to recycle, creating increased landfill costs.	Waste Services - Community recycling centres	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32405	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Congestion at certain recycling sites at the weekend is already evident if you shut three, congestion will be worse as will fly tipping which will include commercial fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32406	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	close them all plenty room to dump it in howden park.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32407	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People need to get easy access to community recycling sites or there will be an increase in fly tipping and this will be more costly to clean up.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32408	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The community recycling centres encourage considerate waste disposal and reduce fly tipping. People who fill their cars with mixed garbage may be reluctant to travel further to centres if some are closed.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32409	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Council area doesn't need so many community recycling sites. Reduce to say 2 or 3 (Livingston, Bathgate and Whitburn)	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32410	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Nor do I think its a good idea to close 3 recycling sites. All of these measures will lead to more fly tipping I am sure.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32411	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Having cut the bin collections, made the bins smaller and expecting everyone to recycle everything possible where are they going to do this if you close recycling centres? No one wants to drive miles using more fuel causing mor emissions with rubbish in their cars	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32412	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with the closure of recycling sites in West Lothian. These sites are well used by members of the public and any closures will only increase the amount of fly tipping in the area	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32413	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of three community sites I am not sure who thought this idea up obviously someone living in a large house. so you want to charge then for the brown bin what happens then people start putting it in their grey bin as they won't want to pay for the brown bin and they can't take it to the recycling centre as you will have closed it. You want people to think about the environment and recycle but you are stopping them doing this. This must be one of the most stupid ideas so far	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32414	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	All recycling sites are well used maybe changing opening hours and having staff moved to other sites etc opening at busy times etc	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32415	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling site in Linlithgow is well run and considered locally as extremely useful to the residents.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32416	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Most of this is good but closing community recycling sites is counter-productive. People will only re-cycle if it is reasonably convenient to do so. Within the central corridor of the county, there may be possibilities for rationalisation as the communities are fairly close together. As a frequent user of the recycling facilities in Linlithgow, I cannot imagine having to drive to the central part of the county regularly for recycling purposes. The cost in terms of carbon consumption traveling would be ridiculous.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32417	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	if 3 community recycling sites were closed it may encourage more fly tipping, and then cost the council more to clean up. consider a nominal Â£3 fee to visit the centres	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32418	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think this will lead to more fly tipping and issues throughout the area, the waste which goes to be recycled now will end up in the other bins or dumped in communal areas	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32419	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We already recycle and make good use of the recycling facilities. If there are fewer facilities this would lead to people using their cars more creating greater carbon emissions.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The geographical extent of West Lothian means that alternative site will always be relatively accessible.
32420	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	suprised at the idea of closing recycling sites after the councils drive to encourage it!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32421	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The commercial waste service generates income and you want to do away with it? How many jobs will be lost? If commercial waste services are to go, where are people to take their waste if community recycling centres are to close? Council's "Green" policy?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Commercial Waste Collections are delivered on a cost recovery basis, not an income generator. There are many private contractors throughout the Central Belt who accept commercial waste.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32422	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	With the smaller bins being introduced I have visited the community recycling sites often and they are always busy. If they were removed then where would people put there items?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will still be recycling centres available for use and capacity within the containers provided if the public recycle correctly.
32423	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites also poses the very real risk of increased fly tipping. Again, council required to clean up?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32424	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of community recycling sites is also a concern. I regularly use the one in Broxburn. Perhaps monitoring the usage and adjusting the opening hours to suit people better rather than closure.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32425	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of recycling centres or reduced collection facilities will result in fly tipping which will cost the council more money.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32426	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling centres are well used and fly tipping is the inevitable result of charges for garden waste.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32427	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Mmmm... not sure about closing 3 recycling sites unless they are clearly not contributing to the Government recycling aims. that is, for example, they are already hardly used.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32428	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is difficult already to recycle with the service as it stands - the bins are not big enough and people have to resort to taking their own refuse to the recycling sites - not easy if 3 will be shut down.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32429	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No absolutory not. Currently the recycling facility at A71 road is an absolute boon for recycling and is always busy. Residents do not want to travel miles to dump their recycling so it is likely that centralising such facilities would result in a sharp increase in fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32430	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	All the Community Recycling Centres that I use seem really well used so this is a surprising suggestion. What will the long term cost i.e. fly tipping. I would be happy to pay for a bulky uplift after say the 1st one was free.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32431	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	"...closure of three community recycling sites..." Madness. Do you really want West Lothian to resemble Naples? This will simply lead to the 'recycling' taking place in the countryside - as it already does with commercial waste and some domestic waste. The cost of collecting fly-tipping filth from the countryside will be greater than the cost of the provision of these recycling sites and if you rely on the community to tidy up, where are they to put it?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32432	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not fully agree with the proposal. I am happy to pay for a bulky uplift but to me this is counter intuitive if you are then proposing to close three recycling centres. If people do not wish to pay for an uplift I would have hoped that they could have at least been able to have easy access to the recycling service. This could increase fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32433	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think that closing three recycling sites is excessive as most of the recycling centres perform well in terms of number of visits, total waste disposed and also recycling rate. Most of them have seen a marked increase in visits and waste arising in the last few years, especially after the introduction of 140L bins. If closing sites is required for budget cut Broxburn and Linlithgow are the quietest. All the other sites are busy.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32434	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	WLC should put in place a recycling centre policy that minimise the commercial use of the recycling centres. At the moment bussiness are pretending to be households and are disposing of waste for free when they should paying to dispose of this waste.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Management of illegal commercial tipping will be a main focus for officer before and after any changes are agreed.
32435	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think the community recycling sites are a good idea. The closure of these could result in increased fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32436	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	s Closing the recycling sites will definitely increase fly tipping - so will not be cost effective as less people will be willing to pay for uplifts and fewer recycling sites will increase fly tipping and waste operative to clean the affected areas	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

Transforming Your Council Consultation 2017

32437	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure how getting rid of local community facility ties in with a green initiative. Residents will have further to travel with carbon emissions increasing. Fly tipping already on the increase.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32438	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	To close recycling sites would be a great loss as this is a facility that when I visit them is well used. Especially if the bin provision is going to decrease/	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32439	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky is ok, prefer one free a year though, may save fly tipping. Do not agree with brown bin charge. Folk just dump cuttings etc. Closing recycling centres seems against what government trying to do to encourage recycling and recycling targets. Does key sites mean Livingston as it usually is the case.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	There will still be recycling centres available for use and capacity within the containers provided if the public recycle correctly which would reduce the risk of potential fly tipping.
32440	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I can't see how closing some recycling sites and also then charging for bulky uplifts can work as it would encourage more fly tipping.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32441	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	. Closing three community recycling sites seems quite extreme. Which sites would you close ?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32442	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	You want to encourage people to recycle where possible so reducing the amount of recycling centre may increase the chance of fly tipping, which defeats the purpose.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32443	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Close some of the waste sites.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32444	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites will simply lead to increased fly tipping and, coupled with charging for bulky uplift, will be seen as a cash-cow. Finally, ensure recycling sites can deal with engine oil. Currently Deans is the only site but as this closes soon no other site can handle engine oil!!	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32445	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Finally, ensure recycling sites can deal with engine oil. Currently Deans is the only site but as this closes soon no other site can handle engine oil!!	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32446	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not support the closure of community recycling site as this will reduce the amount of recycling of waste and will increase the likelihood of fly-tipping. I	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32447	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This would need to be done with a lot of thought to limit additional fly tipping in the Council area.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32448	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please don't close any recycling centres - a large amount of people use these, even more so now that the size of the grey bins has been reduced.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32449	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of community sites - if sensibly done in terms of location possibly ok .	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32450	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing 3 community sites will increase fly tipping	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32451	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would support this apart from the closure of 3 community recycling sites as it would encourage even more fly tipping and there's enough litter lying around West Lothian already.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32452	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Very inefficient these 'recycling' sites - there is no doubt that productivity and headcount at these sites needs a review! Having heard first hand about how it is 'easy-street'!	Waste Services - Community recycling centres	4. The council is already doing this.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32453	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I feel there should be greater focus on promoting recycling therefore I do not agree with closing community sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

32454	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure how closing recycling centres is a good idea?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32455	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing community recycling sites - would people travel further afield to use the key sites, where would they be located? are the 3 sites being closed not used frequently? members of the public would be interested to find out the reason for these decisions or is this mainly to decrease the workforce costs?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32456	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling sites should be considered very carefully, as people will only travel so far to dispose of waste themselves, and this paired with the proposal to charge for uplift of bulky items may increase fly tipping (which could overall cause an increase to council costs)	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32457	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The same can be said for closing recycling centres. This will only encourage people to dump in the countryside rather than take it to their nearest centre.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32458	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I believe that the proposals are unfair, short-sighted and will be harmful to Linlithgow's environment in the long term. Firstly, they are likely to result in an increase in fly-tipping which will have to be cleared-up at the council's expense and which will harm Linlithgow as a tourist attraction (as well as damaging the environment for residents, wildlife, etc.). Secondly if there is nowhere convenient to recycle materials such as metal and wood, then many of these items will just end up in residents' land-fill bins (which presumably will be a further cost to the council). I also suspect that some people will put these items into their blue-bins which will cause downtime costs at the waste-sorting centres.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32459	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of 3 recycling sites will result in fly tipping. This links back to section 6, more work with less staff to do it	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32460	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is rumoured that you plan to close the Linlithgow Recycling Plant and residents have to use Whitburn. The Linlithgow site is extremely busy and could be unmanned saving funds. We are bright enough to read the skips which are clearly labelled to use appropriately. Closing this will result in fly tipping etc., which will then incur an increased cost in clearing these areas. You cannot ask residents to recycle and not give them the local service to do this. This is not an area where shared services will work. I would not and believe a lot of local residents would travel to Whitburn. Shocking.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32461	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As already commented to close recycling sites, i.e Linlithgow which is a very busy and well used site is going to result in a backlash from residents. I am all for recycling but you have to provide the means to do this and closing our local recycling site IS NOT THE WAY TO DO IT. I trust this is going to be visible to all residents that are affected.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32462	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	3. It is understood that the Linlithgow recycling site is under threat of closure. This site is heavily used. The consequences of closing this site are considerable. Bottle banks. Where else would the town take its bottles to recycle? Sainsbury's car park? This site is permanently in a mess. There are bottles, boxes, fly tipping strewn about and it is often disgusting. It puts people off using it. So these bottles will go into the black bin and sent to landfill again. More landfill needed. The manned recycling centre ensures that people can always recycle and in a good environment.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32463	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Similarly for electrical and electronic equipment, wood, cardboard. If the recycling centre is closed, people are not going to travel over to Broxburn with these items. These will go in the black bins again. And then to landfill. Or just dumped and so the special team needs to come out and clean up. Not cost efficient nor good for the environment. Landfill waste which is taken to the recycle centre would be squashed into black bins. and there will always be the fly tippers. Garden waste which cannot be put into the brown bin can be disposed of usefully at the site, rather than in black bin. I remember a time when garden waste was dumped over the hedges at the canal bank because there was no facility to take it too. We cannot go back to that.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32464	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing the recycling centre will encourage fly tipping, reduce recycling and increase the waste going to landfill in a time when councils are being charged increasingly more for using landfill site. Has this increase been factored in in the costs and savings? A long term approach would show that keeping open recycling centre is the sensible option.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32465	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	As for the closure of the recycling centres, I would support this as long as the remaining centres were in appropriate locations so as to best serve the council area. Further to this, access would need to be improved to accommodate an increase in visitors - for example, my closest tip is Oakbank which has single lane access and is accessed via a very busy roundabout on the A71.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32466	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly object to the closure of Community Recycling Sites in West Lothian. I far as I can see West Lothian is doing a good job of recycling and a committed approach to waste management. To closed these useful and necessary sites will set back this improvement in recycling in West Lothian. It will encourage flying tipping and hence cause another problem and expense for West Lothian to deal with. West Lothian is a big county and therefore closure of some of these sites will involve increased travel and inconvenience for people now further away.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32467	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the council is considered closing the site in Linlithgow for example then all people on this norther edge of West Lothian will have to travel around 20 to 25 mins to get to a suitable recycle site. With a reasonable sized garden and it ongoing maintenance I make considerable use of the Linlithgow site and do not want to travel excessive distances just to deposit my garden and other waste for recycling. I support recycling and will always try to recycle and deposit materials in the right places closing sites will make this harder for me and others in certain areas of West Lothian and therefore recycling will deteriorate. If anything West Lothian should be improving recycling facilities and providing more opportunities and facilities to make it easier for all to recycle.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32468	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand that the Council are planning to shut the Linlithgow Revycling site. This facility is very well used by the community and closing it will be a stupid and short sighted act that will only increase levels of fly tipping, which already blight the area	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32469	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with the proposal to close recycling sites. This will result in more fly-tipping (which the council will have to pay to clear-up) and harm Linlithgow as a desirable tourist location.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32470	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing some recycling sites will just add to more environmental damage as people will dump stuff rather than travel to the sites, never mind increased emissions from vehicles.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32471	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	For West Lothian to hit their recycling and CO2 targets it is essential that the public has easy access to local recycling sites. The public will not travel to sites which are too far away and will naturally default on being good environmental citizens. This closure of sites will not only encourage fly tipping which is a heath issue, but also the addition carbon fuel consumed and the CO2 emissions generated will be a major environmental concern. The only alternative would be to have larger bins and more collections which in turn leads to more CO2 emissions. As it stands today the smaller black bins has resulted in a greater demand for going to the tip for many households - indeed many now do this weekly and to be forced to travel miles will be detrimental to the environment. Instead they will just put excess rubbish into whichever spare bin they can find. In this age of consumerism, rubbish and recycling is an environmental issue which needs to be tackled head on and the answer is more recycling centres, not less. By investing in more automated processes and smart tips, the problem can be solved showing our commitment to the Paris Agreement on global warming. The Council must lead the way by encouraging the public to recycle and reduce carbon consumption and CO2 emissions by making it easy and accessible to access recycling sites, not putting barriers in the way.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32472	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keep Linlithgow recycling centre open, you have already reduced the size of our grey bins making it essential that the local recycling centre remains open !! The closure of centres and imposing charges for brown bin collection and/or charging for bulky uplifts will lead to illegal fly tipping !!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32473	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	local recycling centers must be maintained..	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32474	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	please don't close the local 'tips' and make us drive 20 mins+ to recycle items.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32475	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling centres and charging for bulky uplifts will incur a growth in fly tipping. Self defeating proposal.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

32476	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have been disappointed by the recycling site in Linlithgow. My experience has been that there is far less recycled there than at sites that I have been to in several other local authorities. Personally, in an area such as Linlithgow I would have thought it would be more effective to increase the community recycling site facilities and cut the collection of waste, rather than cut the recycling site. I am not sure the staffing levels are right as there always seems to be two (or more) people sitting in the bothy doing nothing when I visit. In similar facilities in other council areas, there seems to be more proactive help from the staff to assist those using the facility.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32477	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Also, local recycling sites are crucial to avoiding fly tipping. These should not be closed down, but could be perhaps reduced in opening hours to avoid wasted staffing hours.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32478	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think closing locally accessible recycling centres including Linlithgow is possibly the worst move WLC could make. This would prove detrimental to the environment and lead to fly tipping with increased associated costs in dealing with its removal. A lot of people would not have the ability to travel to a central location to dispose of items and the inconvenience would lead to a reduction in recycling. This is contrary to other WLC priorities to improve the environment.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32479	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing community recycling sites will exacerbate these effects	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32480	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	think that the three community recycling sites should be repurposed as re-use and repair hubs, receiving a small range of items such as furniture, bikes, kids plastic toys, small electrical goods which can be repurposed under social enterprise arrangements creating a revenue and valuable skilled jobs within the target areas. The actual repair centres could be on site or nearby Council vacant premises, again providing a revenue stream. I would be interested in supporting this further.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32481	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not close community recycling sites - will lead to increased fly tipping and more expense for the council. the collection rotas could definitely be more efficient (our street has a truck coming twice a week!).	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32482	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You've already shrunk our bins to the point we're cramming rubbish in. You already have a huge problem with fly tipping on some of the estates. We are reliant on our local tip because our black bin is too small for a family.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32483	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Removal of recycling centres needs to be sensible or fly tipping will increase	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32484	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Again closure of community recycling sites may cause tipping issues. Personally the one in Broxburn always seems busy whenever I visit. Perhaps monitoring when they are most used and just altering the opening hours	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32485	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling centres are busy anyway so I dont think west lothian could cope with less recycling centres	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32486	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling sites are well run and always seem to be used to capacity. Will a central site be able to manage the capacity and at what cost?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32487	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I believe the closing of the community recycling sites would be a false economy as it will probably result in the increase of fly tipping which will impact on an already stretched council service	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32488	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whereas I am not opposed to charges for bulky uplifts I am absolutely opposed to the closure of the recycling centre in Linlithgow. To require a town of 13,500 people to drive 16 miles to their nearest recycling centre is environmentally unsound, both from the perspective of fuel consumption and the inevitable fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32489	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What three recycling sites will close, will this increase fly tipping which in turn will cost the council more money?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32490	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Recycle centres are essential to the local authority if we're trying to recycle and encourage householders to use them.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32491	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling sites are popular and well used	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32492	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	As these services have already been reduced and as a house owner i use the recycling centre once a week as i have always too much waste so would not like to see recycling sites closed as they are well used.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32493	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is a mistake to close community recycling sites. People will not travel and this will only increase fly tipping and cause problems to the rural communities. Remember the rural communities do not require or get the same services as the bigger towns so not fair to hit them again.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32494	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	SAVE MONEY BY: Less recycling centers	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32495	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think the recycling sites should remain open	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32496	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keep the Linlithgow recycling centre open and allow community ownership with recycling credits and revenue retained by the community.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32497	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Furthermore, how exactly does closing a recycling centre which results in people having to travel far further, encourage recycling? Actually it will either increase emissions and car journeys, or, more likely, it will simply go on the grey bin. This has not been thought through in the slightest. I encourage all councils to look at the waste model in Cardiff which now has a very high percentage of recycling compared with other areas of the country.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32498	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No way should you close Linlithgow CRC. Utter madness. The carbon emissions from people driving to sump household items will go up as a result. Instead work with local community groups to optimise and enhance the value of the waste being collected. You see waste as a problem rather than an opportunity.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32499	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I am against the closure of any recycling facilities. It is already comparatively difficult to recycle materials in this authority compared to anywhere else I have lived and this step would make it even harder still	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32500	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the removal of recycling centres will only increase fly tipping causing more costs not less.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32501	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The council should also have a recycling point where people can take their glass and other large house items to so there's no 'big uplifts' left in the streets. Recycling and clean environment should be the council responsibility if we want to maintain a clean and pretty environment.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32502	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is unfortunate. West Lothian has a model to be proud of. This will result in dumping and far less recycling putting our environmental successes back by 10 years. Rethink this.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32503	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling sites - anytime I go the skips / containers are always so full we are told to chuck it in the one for landfill (which really annoys me) and if you rationalise further then better processes for keeping the containers emptied will need to be found. I wonder if more recycling and even upcycling or managing 're-use' areas for people to 'swap' items etc. could be undertaken by staff at the sites rather than them standing chatting and smoking.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.

32504	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Don't close recycling centres but consider reducing the hours that they are open. People will litter and illegally dump things which will incur council costs.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32505	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	consideration of the impact to local provision and increase in travel if CRC's are closed more pollution on roads as users travel further to dispose of waste.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32506	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing the recycling sites would add to the carbon footprint since more people would have to drive further. Reducing these sites, waste collections and charging for bulk uplift will either see private firms lifting the waste cheaper costing the council income and/or more fly tipping costing the council more in Man hours to remove	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32507	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you didn't waste so much money on fragmented refuse collections that would be a good starting point. The infrastructure to put recycling in place is massive and there seems to be any real improvement in recycling rates +1% a year is pathetic progress.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32508	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres is going to mean people have to travel further to dispose of waste that you're refusing to pick up. The whole point of making the bins smaller was apparently to encourage people to recycle. Driving longer distances isn't very good for the planet either, is it?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32509	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keeping recycling local encourages useful they are closed people are less likely to use them.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32510	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres is not an option I use the Broxburn one regularly and it is always extremely busy. These services being reduced or being made more costly will only cause more issues for the council.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32511	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Leave the sites open	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32512	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Reduction of key recycling sites will surely result in more fly tipping around the area.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32513	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing the number community recycling sites will just move the cost to the good Community members who are prepared to take recyclable material to the next nearest site which could be 15 miles away; or worse still fly dumping the waste.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32514	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not close recycling centres. We will be inladed with fly tipping which would result in more cost to the council.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32515	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Would the closure of recycling centres lead to an increase in 'fly tipping'?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32516	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	West Lothian has really good civic amenity centres - would be a shame	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32517	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is very short sighted. It flies in the face of current environmental thinking to have people driving (not environmentally effective) to recycle stuff; they may well put in in the grey bin, thereby making waste collection less effective and less efficient in environmental terms.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32518	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Also how can we encourage recycling if we shut local units down?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32519	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing the number of recycling centres could easily result in an increase in fly tipping. Also, if you are serious about your commitment to reducing your carbon footprint you should be taking into account the distance people have to drive to get to their nearest centre.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32520	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing the local recycling centre in linlithgow would have a terrible effect on residents, meaning people are expected to drive quite far to dispose of any larger items that would normally be taken to the recycling centre. I believe it is important the council looks at the obvious negative environmental impact that these changes would cause, due to the considerably higher amount of emissions due to people making the longer journey to the nearest recycling centre, as well as the likely increase in fly tipping in the local area due to people not being bothered to travel the extra distance to the nearest recycling centre	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32521	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Have heard some worrying news that Broxburn recycling depot may be closed. Due to the size of the area this supports this would be a bad decision and encourage people to flip.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32522	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing Broxburn recycling centre would cause people to flip.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32523	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If you are encouraging people to remove their own garden waste etc then do not be closing down amenity sites which will just lead to more fly tipping and more cost to the council. You make a saving for waste management but incur costs in housing services.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32524	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If closing the centers goes ahead, then the opening hours will need to be looked at as no matter what time of the day or day of the week, there is always a queue at the centre i use. The opening hours should be extended to accommodate more people using the centers that are remaining open. This will also have an impact on fly-tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32525	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing the local recycling centres will probably result in increased fly tipping, so may be a false economy.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32526	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing community recycling sites could result in increased fly tipping, which could be more costly in the long run. It also would result in longer journeys to other recycling centres, making the roads busier and increasing pollution from cars, not a good outcome for residents of West Lothian.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32527	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am equally opposed to closure of any civic amenity sites. Responsible citizens in the areas of any closed recycling centres will drive to another further away thereby increasing pollution and greenhouse gases.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32528	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Reducing the amount of recycle centres would be fine. Most people have to drive to get to one anyway.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32529	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Concerned about the closure of community recycling centres, these are fantastic facilities that significantly decrease the amount of fly tipping. Could the closure of them a few days a week be an alternative rather than a complete closure?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32530	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of the community recycling sites may have unintended consequences in terms of increased fly-tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32531	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I am strongly against the closure of Linlithgow recycling centre. It is a well used facility by the community and will lead to an increase in fly tipping. It will cause considerable upheaval for local people who will be forced to drive miles to the nearest recycling centre. Those without transport will be unable to recycle. People pay their council tax to be provided with services such as a recycling centre and with the move towards more recycling to improve the environment over the next few years this feels like a backwards step	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32532	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I worry that closure of community recycling sites would mean an increase of Fly tipping, maybe not so cost efficient.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32533	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	charging for bulky uplifts , yes a charge should be made as for charging for the brown bin uplift	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32534	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not agree with cut-backs in recycling services for consumer	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32535	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling sites vital to reducing waste and impact on environment- fly tipping bound to increase without these	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32536	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Losing recycling centres will only encourage more fly tipping especially since reducing black bin size. Not everyone has ability to travel to further afield recycling centres - think elderly etc.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32537	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling sites is a BAD idea. Linlithgow recycling centre has a constant queue of people using it and it would be very bad for the environment if all the cars going there had to travel a round trip of 15 / 16 miles to the next nearest site.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32538	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I use oak bank recycling centre a lot and it's always busy. If you close these centres, you'll then have the same problem in England with fly tipping. Surely this would cost the council more to then clean up the mess. These centres are a god send and should not be closed	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32539	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The tip in linlithgow should remain open. It is used frequently, and removing it increases the risk of fly tipping in the area.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32540	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres will only encourage fly tipping and misuse of the grey and blue bins.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32541	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of a community recycling centre could possibly increase council spending with more incidences of fly tipping and general mess that would require a specific collection to rectify. Instead of closure, opening hours could be reviewed and a reduction in the number of staff at these facilities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32542	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres seems like a bad idea as my recycling centre is always busy, I have to go there weekly as the new black bins you provided are far too small for a family. Closing these centres will cause much more fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32543	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I worry about the environment we will live in if the civic dump is closed at Linlithgow.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32544	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is a ridiculous idea. Closing local recycling centres, particularly the one in Linlithgow which is very well used and always busy, will only end up in people dumping rubbish elsewhere. You have the potential for absolute chaos with rubbish everywhere. In a world where we are being encouraged constantly to recycle, how is this going to be made any easier by closing recycling centres??	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32545	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think itâ€™s a huge mistake to close three community re cycling sites.....IF people have cars this is more use of fuel and more therefore more carbon emissions...fly tipping will increase...itâ€™s bad already and charges for bulky uplifts will also impact on this	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32546	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Again closing recycling centres could lead to more fly tipping. Could just reduce opening hours	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32547	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I recently used the facility at Oakbank as my local site at Deans is to close but feel there is not adequate space for vehicles and it was obvious why there are the tailbacks onto the main road back towards Lizzie Bryces roundabout that I have heard about. I am concerned that these measures would lead to an increase in â€™fly tipping â€™. The amount of litter in many places is already a disgrace.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32548	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling depots will add to people fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32549	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	agreed. It is not that far to travel to these and also bulky uplifts are available.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32550	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This will result in an exponential increase in fly tipping. This has been proven in many areas of the uk already. Who will pay for having all of the dumped junk taken to the tip?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32551	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I strongly disagree with the closure of recycling centre in Linlithgow. This will result in fly tipping and more waste.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32552	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I live in Broxburn, and recycle a lot. I've just heard that you might be closing this depot. This service is a must for the local and surrounding areas. Every time that I attend this depot it's very busy and would be a great loss to the people that live in this area if closed. There is a lot of bottle banks in the area maybe some of them can be done away with, and concentrate in keeping the depot at Greendykes which caters for all of the items that can be recycled.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32553	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reduce the opening hours of identified civic amenity sites to weekends, for example, but the facility must stay open.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32554	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am absolutely opposed to the closure of the recycling centre in Linlithgow. To require a town of 13,500 people to drive 16 miles to their nearest recycling centre is environmentally unsound, both from the perspective of fuel consumption and the inevitable fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32555	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be very sad if the local recycling centre in Linlithgow was to close, especially if it's just seen as a quick buck to build flats. It is always busy when I am there and do wonder how many people would realistically use the next closest centre, or end up just dumping their stuff at road sides etc.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32556	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	West LothianC need to be mindful of what people will do, many people have no access to the community recycling centres and reducing them only makes them even more unattainable. Thus fly tipping will go up and therefore West LothianC will pay in the end. Recycling must be encouraged!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32557	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keep the recycling sites. Removing these will lead to fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32558	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the recycling facilities should remain... I understand the need to save money but saving the planet is much more important...	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32559	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the community recycling centers are important and well used, theyKeep the are also important to encourage recycling so do not close them. Encouraging fly tipping is not the way to go ?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32560	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The community recycling site in Linlithgow is essential. It is very well used and ensures that getting rid of bulky items does not pose a big problem. An essential job of local government is to keep the place clean. People might take this for granted but it is the basis of a public health policy.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32561	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The reduction of Community Recycling site is short sighted - this will lead to a vast increase in fly tipping West LothianC has worked hard at keeping the county presentable & it would lead to an increase in cost of cleaning up the fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32562	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please do not close the local recycling centre in Linlithgow.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32563	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	dont agree with the closure of the waste sites	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32564	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rather than closing the very successful community recycling sites the council could levy a nominal charge for the use of the sites.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. This will be considered for viability.
32565	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling centres should be reconsidered.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32566	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do NOT agree with closure of community recycling sites. specifically the one at LINLITHGOW	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32567	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would strongly object to any closure of the community recycling site in Linlithgow - however to enable it to remain open I would suggest a change to opening hours ie focus on the weekends - when most working people are not at work and therefore likely to use it, reduce hours through the week. I should note that any time I visit it is always busy. To be honest I do not see why there is no kerbside GLASS recycling - that would certainly eliminate many trips to community recycling sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32568	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree that recycling facilities need to be rationalised or have their opening hours cut.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32569	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling models - makes sense to take on board the benefits of the services offered by other Authorities to find a best fit for West Lothian.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32570	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of Recycling Centres- if you value public interaction and buy in to recycling and environmental services this should not be touched at all, regardless of the level of provision in comparison to other authorities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32571	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of the recycling sites will encourage even more fly tipping and is a dreadful idea. I would like to see glass recycling bins given to households and the small green food waste bins are a waste of money and should be scrapped.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32572	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	All areas should have easy access to community recycling sites otherwise illegal dumping will certainly follow. The community recycling site in Linlithgow is extremely busy and very well kept. I myself use it on a weekly basis (and sometimes more often) during the summer as I have a large garden. Instead of closing three community recycling sites perhaps you could look into reducing the number of days each site is open thereby allowing all sites to be open for 2 - 3 days a week. This would allow access for everyone across the County with a reduction in the number of staff required to man the sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32573	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not close the recycling centres, This will lead to fly tipping, and more rubbish being put into the grey bins. This in turn, will lead to the council having to pay more landfill. Closing the recycling centre is very short sighted.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32574	An individual	7c. 32575	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The community recycling sites are a huge success, always busy and very useful for safe disposal of many items not suitable for wheelie bins. Fly-tipping will certainly increase if these proposals go ahead, and costs will ensue. Or the environment will suffer.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32576	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the Linlithgow recycling centre is closed, where are we supposed to take garden waste and other bulky items? They will end up being dumped thereby causing great environmental damage and further cost to the Council in clearing fly-tipping. Again this seems incredibly short-sighted and not a viable long-term waste solution.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32577	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	In the past your model for scheduled pick ups has been reviewed/ revised and there were continual problems. You have now actively encouraged people to go to their local recycling so to close some of them is now going to discourage them and will only increase fly tipping which is costing the Council a fortune and is a continual problem in certain areas.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32578	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The Council has made assumptions that everyone can go to their local recycling depot. Not everyone has transport so again this leads to fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32579	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We have an area of concern in relation to this proposal that cuts to local community recycling sites will increase the risk of fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32580	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is rumored that the refuse center at Linlithgow will close. This depot is well used and if closed people would have to do a round trip in a car of 25 miles. How green is that? There will be even more fly tipping and clean up costs. I regularly visit the site and it is always busy. Over the past week I visited the site 3 times each with 7 large bags of garden waste which the brown bin would never cope with. Are you hoping to sell the site to a builder?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32581	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree, but rather than close are there options to vary opening hours at times during the year	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32582	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling facility - NO - you can't close these. They are used by everyone in the community and are a part of everyone's lives. We actually like going there and get a sense of doing something good - we're recycling some of our rubbish. Work out peak user times, shorten opening hours accordingly, review staffing levels - anything - but don't close them. Please!!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32583	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing some sites could be cost affective as I am sure people would not mind traveling a little further to get rid of rubbish at no cost to them.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32584	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would not like to see the recycling centre in Linlithgow closed. The next nearest site appears to be in Whitburn which is a long drive from Linlithgow especially for elderly residents. When cutting hedges, pruning trees etc the amount of garden waste involves numerous trips to the site even after the brown bin is filled. Closures of this site must surely result in a great increase in fly tipping with the council having to foot the bill of clearing this up. A possible better solution could be to restrict opening hours - each of the 3 sites could be open on only 2 days per week with the staff moving between sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32585	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling is an environmental priority and to encourage people to do this, local sites should be maintained where possible.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32586	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow Recycling centre is hugely important to the town and should be maintained. Recycling levels will be impacted if it is closed.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32587	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow Recycling centre is hugely important to the town and should be maintained. Recycling levels will be impacted if it is closed.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32588	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling plant in the centre of Linlithgow is essential, well used and its closure would be devastating for the community. It has to be retained. It's closure would inevitably have an adverse knock on effect.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32589	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not close the recycling area in linlithgow it is well used. I cannot drive ! I couldn't go anywhere else.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32590	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Very generalised wording here and I am concerned about what facilities might be wrapped up in this statement. If this includes the proposals to close 3 recycling centres I strongly object to this.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32591	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly object to this short sighted approach. Money should be invested here rather than cut. This is one of the key things we pay our taxes for. I understand from your recent "Bulletin" publication that West LothianC proposes to close three of the six recycling centres in the county, including the Braehead Centre in Linlithgow. Closure of this busy facility would be a huge loss to the environmental welfare of the town, encouraging fly-tipping and necessitating considerable journeys to an alternative centre. Please could you provide further, detailed rational behind this proposal.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32592	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing community sites will result in more fly tipping. Consider how well used sites are before making decisions.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32593	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	this needs to be carefully reviewed - i live in Linlithgow and will not travel to other parts of west Lothian to deposit recycling, I already have only reduced bin collections	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32594	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	local refuse centres are an essential service that must not be removed.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32595	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Linlithgow recycle centre is heavily used. Closing it will lead to increased fly tipping and less recycling. This is a very poor suggestion.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32596	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Removal of community recycling facilities will result in more fly tipping which will ultimately cost the council more to clear up.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32597	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not close the recycling centre in Linlithgow, it's well used and essential for the town. This proposal would lead to more fly tipping and contamination of blue bins.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32598	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of recycling facilities is another totally short sighted move. Like a significant number of people I do not drive. Nor do I have kerbside recycling. If I do not have access to a local recycling centre I will not recycle. If you do this you will have an increase in recyclables in domestic waste. You will have an increase in fly tipping and Greer all dumping anywhere. How does that fit with you other focus on environment etc? Do not close recycling facilities.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32599	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	closing recycling sites will simply cause fly tipping. Reduce hours but do not close.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32600	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I am not keen on the idea to shut re-cycle sites as this may increase fly tipping which could end up being a higher cost for West LothianC and affect public health and safety.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. 32601	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Think closing community recycling sites could result in less recycling. Need to make it easier for people to recycle more.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32602	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Similarly if you close 3 facilities, I would be concerned at increasing fly tipping. I support charging for brown bins but not if certain people such as elderly, disabled and benefit claimants are exempt - I support this as long as EVERYONE pays	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32603	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If there is over provision of recycling sites in the area compared to other local authorities, these should be closed.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32604	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites which are not used that often would make sense however the other sites would need to provide a good service with decent opening hours to allow those who work during the day to use them when convenient.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32605	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling centres would be a huge mistake. The Linlithgow centre is heavily used and therefore making a huge contribution to the environmental policies. If we are forced to travel with recycled waste to an alternative centre, we will further pollute the environment and create more traffic on the roads and large queues at the remaining recycling centres. Also, there is no doubt that the problem of "fly tipping" will escalate dramatically meaning health risks and increased council costs in attempting to deal with all that goes with "fly tipping".	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32606	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't agree with the recycling anyway - we are doing the bin man job anyway.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32607	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't agree that recycling sites should close. It is essential that there are local provision to recycle otherwise I don't believe people will recycle as much as they would have.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32608	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	if there are fewer recycling centres then rubbish will simply be dumped	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32609	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Linlithgow site should remain open. The Whitburn, Blackburn, Deans and Broxburn sites are relatively close together whereas the Linlithgow site is relatively distant from all of them. Closure of the Linlithgow site will inevitably lead to increased fly tipping and additional costs to the council to clear up the mess.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32610	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	do agree to other proposals above.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32611	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Depends on where the sites are to be closed. The most used sites should be kept open over the lower utilised sites. Recycling bins are getting smaller so most household are making trips to the recycling centres for there additional items.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32612	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing recycling centres is plain stupid. The council will have to spend the savings on cleaning up after fly tipping Linlithgow site constantly has queues but people will not be willing to Whitburn or other. Please think again	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32613	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why are we paying Council Tax? Surely the recycling service should be a statutory provision required by law	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This is a statutory requirement but the number only has to be a minimum of one.
32614	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	if there isn't a recycling centre nearby, increasing the need for staff to go and clean up the dump sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32615	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling sites are key to ensuring fly tipping does not increase. In my last local authority these sites included charitable set ups who revitalised and recycled for cash payments other people's waste	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32616	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	absolutely stupid thinking. You will only have to spend the savings on clearing up after fly tipping. Recycling centres are well used and do you not sell compost made from contents of brown bins? This really annoys me. I have lived here since 1970 and enjoyed the benefits of a recycling centre in Linlithgow	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32617	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Some people will not be prepared to travel further to sites and will start fly-tipping - this is what happened in England.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32618	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	What about people who don't drive and can't get to the recycling centre?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32619	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is rumoured that one of the sites earmarked for closure is Linlithgow. Could it not remain open with reduced hours - eg weekend.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32620	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Another area that has been miss managed for years. The council needs to look at the increase in fly tipping and try to encourage the public to use the relevant depots	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32621	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand that, as part of the process of local budget reductions, there is a proposal to consider closing the Blackburn site. As a local resident for some 18 years now I have used this facility extensively and not only is this site probably the best there is in West Lothian there is no doubt the team there are the most helpful and friendly I have ever encountered. The site itself is always immaculate and well laid out. Traffic access is good and the ability to dispose of waste is easy with plenty of parking and bins well signed. No parking issues here or areas blocked when traffic gets heavy. The other waste sites in West Lothian have much more restrictive access. Bins not easy to use and traffic build up is always likely given the limited access for vehicles and the position of the bins. Closing Blackburn would be a huge error and almost certainly lead to a€œfly tippinga€so any cost saving in closing this unit would be met with increased cost of removing rubbish dumped elsewhere. You can understand I am concerned about saving costs in this manner for these reasons.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32622	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	You could increase the incidents of fly tipping by reducing the amount of recycling sites as people are not always willing to go substantially out of their way to dispose of rubbish.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32623	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I'm not happy about closure of community recycling sites, it will lead to even more 'fly tipping' - with a resultant cost and loss of amenity.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32624	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of Recycling sites - seems to be a backward step - with landfill Tax continuing to increase - improving the percentage of recycling is a key priority. If the distance to travel to recycling points increases - then fly tipping incidents will also increase. Finally if you close the Linlithgow Recycling plant - where will the employees get to set up their deckchairs????	Waste Services - Community recycling centres	2. Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32627	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling is one of the things that should be preserved and encouraged, closure of recycling sites may only encourage people to do more illegal dumping and so require extra picks up from council services anyway. Perhaps reduce hours or opening days for each recycling venue rather than closing any.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32628	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	So our black bin size was reduced in order to encourage people to focus on recycling however you are going to close 3 recycling centres?????? My black bin is overflowing by the time it comes round to collection day, often I have to keep rubbish back & then put it in the bin when its been emptied, which then means the bin is almost full right away . Vicious circle.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32629	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Also closing 3 sites how many sites are there again this is a concern as deals with staffing and anyone would be worried about their jobs and also fly tipping. Cos I would be fine paying to get a bulky uplift as long as a fair price but would everyone.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32630	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	not everyone has their own transport to visit recycling centre.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Waste Services - Community recycling centres	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Not enough detail in the TYC process.
32632	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If you reduce possibilities of recycling you may increase fly tipping or find that reduced recycling works against recycling and green awareness and leads to a greater problem down the line.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32633	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be concerned that introducing some charges or closing recycling sites would lead to more fly tipping which the council would have to pay to clean up. This could significantly negate any savings made. Could the recycling centres be kept open but operating on reduced hours.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32634	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of 3 community recycling sites will result in an increase in fly tipping. Revised Service Standards & Delivery Models - Waste Services	PLEASE DO NOT CLOSE LINLITHGOW'S RECYCLING CENTRE - THIS WOULD BE A VERY BACKWARD STEP RESULTING IN LOWER LEVELS OF RECYCLING, GREATER LANDFILL USE AND GREATER POLLUTION, LITTERING, FLY TIPPING ETC. THE CURRENT REDUCED HOURS ARE ALREADY INCONVENIENT AND DIFFICULT FOR ORDINARY WORKING PEOPLE TO FIT INTO THEIR WORKING LIVES.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32639	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of recycling sites could lead to people dumping rubbish. Be careful.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32640	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the closure of 3 recycling sites will result in fly tipping.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32641	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Which sites?	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal has to be fully developed if progressed.
32642	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	However , closing community recycling sites will result in increased fly-tipping , resulting in further damage to the environment. These facilities are well-used, staff are very helpful ensuring appropriate recycling, and will also mean constituents will need to travel longer distances to recycle, further damaging the environment. Also if these close , will the staff be re-absorbed into the team or sacked.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32643	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	I would urge you not to close recycling sites. As a country we are being actively encouraged to recycle waste as far as possible and this must be encouraged, not made difficult and penalised. Closing recycling sites risks the onset of fly tipping resulting in the ruination of our towns & cities and tourist trade and risking high levels of pollution and the spread of disease.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32644	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You cannot close community recycling sites without major consequences for residents. The recycling centre in Linlithgow is always busy and an efficiently run community resource. It would be lunacy to close this.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32645	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	3. Agree with the closing of CRC only if there can be shown to the public that there has been relevant research to which sites these are. Ensure that the amount of recycling is due to non-use rather than the occasions when you go to recycle and they are full and you have to put waste in the land-fill bin! This is a great facility which I use a lot and would highly miss. What with only have a small black bin, on most months these centres are a necessity!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32646	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of Community recycling sites should be avoided. This is potentially quite damaging. The Linlithgow site for example is very well used and much recycling takes place. Closure would reduce recycling dramatically and would lead to an increase in fly tipping. Additional car journeys to remote waste sites would have a negative environmental impact (as well as hugely inconvenient for residents). Costs of rubbish collection would also increase as residents request additional kerbside bins to cope.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32647	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Surely closing recycling sites is a negative response. As the council should be encouraging people to use these facilities to reduce uplifts	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32648	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	i thought the council was trying to encourage more recycling so removal of community sites would only put further barriers. i would suspect this would lead to more fly tipping	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. 32649	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Given the focus on recycling, removing facilities which encourage this sends out the wrong signal. Removing recycling sites will lead to fly tipping which in the long run will adversely affect the community and will result in additional costs to tackle the problem. Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32650	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Would support anything that encourages more recycling. The proposed closure of three community recycling sites cause me the most concern; these centres are extremely well used and promote good behaviours for taking responsibility of your own waste and recycling. You cannot promote more responsibility for these behaviours at home and then take away the facilities that support this. It is hypocritical to propose charging for brown bins and bulky uplifts and encouraging recycling in general and at the same time shut recycling centres. Whilst I understand the need to make substantial savings, the consequences must be better thought through. How much more will be spent on clearing fly-tipping and how much more difficult will it be to encourage behaviour change at home? I use the Broxburn CRC on a regular basis and there is always queues to get in at the weekend. Citizens value this service! Even restricting to a weekend service would be better than closing completely.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32651	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think it a mistake to close recycling sites. The opening hours could be cut, but the unit I use is constantly busy. Where would all of that rubbish go?	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32652	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think we have great recycling centres it would be a pity to see these go.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32653	An individual	7c. 32654	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closer of recycling sites, including Linlithgow which is very well used, seems crazy and will surely just increase waste going to landfill or dumped.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32655	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling centres are great however use could be made of unemployed by litter picking.	Waste Services - Community recycling centres	3. The respondent advised that they had no comment to make.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32656	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of 3 recycling sites could result in more fly tipping and spreading of diseases.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32657	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do this and people will dump rubbish all over the place. How long till some kid gets trapped in an abandoned fridge and dies. I regularly use the Linlithgow recycling site. Happy to pay for a bulky uplift but not prepared to travel excessive distances > 5 miles to recycle other materials. This proposal risks the countryside turning into a rubbish tip. Farmers cannot be expected to clear up the result mess.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. 32660	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I use the re-cycling centre in Linlithgow frequently. I call in on my way elsewhere so not wasting fuel. I cannot foresee anyone going to some other centre within the county. The proposals will cause rubbish to be just dumped in the countryside. Perhaps the staffing could be reduced to one person, or even unsupervised at times.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32661	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	West Lothian Council has a clear Mission Statement on recycling and waste management and published on the website. The Bulletin published by West Lothian Council, proudly publishes the success of this service. Reducing recycling facilities in the Council area is counter to that Mission Statement. The damage to the environment is obvious. The ethos of recycling is embedded in many people. The local recycling sites are busy sites offering the public disposal facilities for all types of items. These items may end up fly tipped or where possible, put into the black bins which will increase the cost to the Council in landfill tax.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32662	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be very unhappy if the Linlithgow recycling depot closed. I do not have a car, but can walk there. I frequently do so to: 1) Dispose of glass bottles and jars which are not allowed in any of your bins. 2) Dispose of waste after I have missed a collection, for example after going on holiday. Closure of the Linlithgow depot would make life very difficult. Not everybody has a car.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32663	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I live in Linlithgow and the closure of the community recycling site in this location would be a disaster. It would be a 15 mile round trip to the closest facility for vehicles carrying bulky goods, possibly in vans and on trailers, on roads that may be proposed for "quiet road" status for walkers, horse riders and cyclists, along with rural users such as tractors. This would lead to a great increase in fly-tipping and removal costs as the public will perceive that the removal of this facility for cost reasons would be accompanied by a downgrading in environmental enforcement measures. This may also breach the Landfill Waste Directive by leading to an increase in unsorted landfill waste and incur significant legal costs and financial penalties.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32664	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	What are community recycling sites? Which ones are to be closed? Do individuals use these? If so, have they been asked whether they would use the "key sites"? Where will the main savings be made here? Will there not be increased costs for dealing with the increased use of the key sites and the increases in dealing with other waste sites?	Waste Services - Community recycling centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32665	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I find the recycling sites most useful and consider this would be a huge miss for the community. Therefore, I would not support the closure of these sites.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32666	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of community recycling sites should not be an option - recycling is difficult enough and sometimes confusing. In order for recycling to take place it must be accessible.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32667	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I believe it would be a mistake to reduce the recycling sites. It would encourage "fly tipping" and dumping of rubbish in unsuitable areas. At present, I believe each household are allowed three bulky uplifts per year. This could be reduced to one free bulky uplift with any additional at a charge.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32668	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think you are asking for trouble in closing any community recycling sites. Every country lane in West Lothian will be lined on both sides with old televisions, bed mattresses and other large junk items. Police that! Our lanes, country roads and field entrances already regularly become littered with these items and this will be worse if you close down your recycling centres	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32669	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You can't remove recycling tips as people now use these more with the downsizing of bins. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32670	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Oakbank facility is well used by people from the east and south side of Livingston and IMO would be a mistake to close facility.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32671	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This could result in more fly tipping and thus be counter productive. If people have to travel further to recycling sites this results in greater fuel use and air pollution.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

32672	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	particularly if Linlithgow's community recycling centre is closed.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32673	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I am not in favour of the community recycling centre being closed - people will not want to drive to Whitburn (which I have been told would be our nearest centre). In the ethos of wanting to recycle, many people are wanting to reduce their carbon footprint so to make people get in their car to drive to a recycling centre and thus burn petrol won't be popular. Other people may simply lose the motivation to recycle and thus more will go in the grey bins/fly tipping. On this "Transforming your council" document you boast "The council has significantly increased recycling rates and reduced West Lothian's carbon footprint" so I believe that introducing charges for collections for house owners and closing recycling centres will be detrimental to West LothianC.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32674	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	object to closure of recycling centres maybe look at opening hours and staffing to reduce cost	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32675	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	i think the idea of closing the recycling yard in linlithgow is crazy have you looked how busy it is. perhaps it could be run more efficiently.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32676	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	i believe that Linlithgow is one of the recycling sites to be closed and, although this would be a great shame, it is probably for the best as the site just isnt large enough to cater for all the different sorting that is required nowadays. Just need to ensure that people know how to get to the remaining ones and that once there it is made as easy as possible for them to drop off and go	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32678	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree with shutting all but one of the recycling centres. Ppl in Linlithgow will not travel all the way to Whitburn to use one there. You will increase fly tipping leading to having to employ staff and equipment to deal with this problem. We had to deal with grey bins being replace with smaller bins now we are being told that it's effective to shut sites	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32679	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling sites should remain open to encourage recycling.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. 32680	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Happy to reduce the number of community recycling sites but you should extend the capacity and opening hours of the remaining sites.	Waste Services - Community recycling centres	1. The respondent advised that they agree with the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32681	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The closure of 3 recycling centres could increase fly-tipping. I assume this has been factored in. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32682	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	closing down recycling centres seems a bit backwards	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32683	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Collection of waste is a basic service for the sake of cleanliness and health. The proposed closure of recycling centres is very short term. It would add to fly-tipping and people's increased use of their grey bins with the ensuing higher costs of landfill.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32684	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Council spent a massive amount of money replacing all householders bins to increase the amount householders recycled and reduce the amount going to landfill. You are now proposing closure of 3 community recycling sites and charging to uplift brown bins!!! This will lead to fly tipping and to increase costs for NETS teams, etc.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32685	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	At a time when you're trying to encourage more recycling its wrong to close 3 sites!	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32686	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	With regard to your statement about commitment to the environment, the closure of the waste recycling centres seems very short sighted. From personal experience, the centre in Linlithgow is very well used and aclosure would mean more fly-tipping, increased emmissions from cars due to residents having to travel to Whitburn, and a general decrease in recycling. I should imagine this applies to all the sites earmarked for closure. If drastic measures need to be taken then a reduction in opening hours could be considered.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32687	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	since the introduction of the small grey bins I now use the local recycling site at least 3 times per week	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32688	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keep the sites open but get more value out of the staff at the sites. Shutting sites will increase land fill. Keep the Linlithgow community recycling site & develop it to be an exemplar on how well recycling can work.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32689	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Council should think again on the recycling site closures in busy communities as this will undoubtedly lead to more fly tipping and will certainly not save any money.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32690	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing sites is WRONG	Waste Services - Community recycling centres	2. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32691	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As I am disabled I am unable to benefit from the provision of the 6 recycling sites within West Lothian. However I do view these as a valuable resource to the community, not least to that in Linlithgow as Burgh Beautiful have taken over care of many areas previously the responsibility of West Lothian Council and they require reasonable, local access to services. I believe a more sensible approach to closing 3 of the current recycling centres would be to open access to these on a 1:6 basis for one late evening per week and one weekend on such a rota basis.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32692	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Alteration to opening hours and re-allocation of waste costs to SEPA might make more savings but cost less long term. Employment should not suffer from this action.	Waste Services - Community recycling centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32693	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closing local recycling centres is not acceptable. We need to make recycling easier, not harder. We also need to prevent fly-tipping. Use of staff time at recycling centres needs review, as the staffing looks pretty inefficient for the work done.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32694	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	CRC sites should be kept open, but there opening hours/days could be looked at. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32695	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Closure of sites is a bad idea if they are the only sites within a 5 mile radius of a significant community.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32696	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	As for closing recycling sites - sites are already used more as people have smaller bins and take their waste to the sites thus helping keep their areas tidy. If they had further to travel to such sites they may not consider helping in this way.	Waste Services - Community recycling centres	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32697	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No I don't agree to this a lot of people take things to the recycling sites and if you closed these we would be back to people dumping them at the side of the road.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32698	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	please don't close broxburn recycling centre you will end up with more fly tipping than it was long ago and have to spend more money cleaning up	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32699	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If not all sites are being used there is no need for them all to be open. 32701	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Have heard that this includes closing the Linlithgow waste centre which is outrageous- people from this area would have miles to travel. The council has already forced the people of Linlithgow to travel to reach most other council services by closing many council buildings and moving them to Livingston in recent years, This proposal is unacceptable.	Waste Services - Community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping.
32702	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	removal of 3 recycling sites unreasonable removing accessible option for residents who actively recycle	Waste Services - Community recycling centres	2. 32703	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The reduced size black bins are horrible but we are making do and I do not feel there could be any further in recycling. I am NOT in favour of any reduction/changes further to the bin collection timetables.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The containers supplied are suitable for the use of the majority of householders who actively participate in recycling services. Thank you for your comments.
32704	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	So many houses seem to have the second black bin that I wonder if this was really a saving or way to reduce waste?	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	The council is continuing to monitor and remove rogue additional bins.
32705	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The recycling centre at Addiewell requires enough material to be viable and compost is one thing that can be cheaply recycled and sold. Most other recycling is costing the Council. I do not know how well used the other recycling centres are but Linlithgow is always busy. It encourages us to comply with the law on disposal of lamps and batteries and significantly reduces fly tipping. If it closed you would be getting complaints from Faljirk for us using Boness. A trip to Broxburn is not on. A small charge would be acceptable for brown bins.	Waste Services - Household waste collections	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32706	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reduce frequency of uplift of recyclable waste? Bulky uplifts have been charged in neighbouring authorities for years.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments they have been noted.
32707	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bin collection services and operation of recycle services seem appropriate however the food bin collection could possibly be reduced in the winter months to save money	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	The food waste collection service is a statutory undertaking and the process at present is for a weekly collection.
32708	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bin collections are already a nightmare without further changes being introduced. Thank you for your comments they have been noted.
32709	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I heard you plan to empty our bins less often? A lot of people are struggling as it is.	Waste Services - Household waste collections	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments they have been noted.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32710	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Don't agree closing any recycling depots . Will lead to increased fly tipping. Are there to be compulsory redundancies/ where from/ which areas. Is the council looking to privatise as many aspects/ service as possible? Will staff be given ultimatum - take it or leave it. Are we downsizing to statue services only. Savings need to be made on delivering on all the elections - democracy. Saving- payments to officers on the days worked - should be part of the officers involved duties/ roles.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. West Lothian is well provisioned with recycling centres in comparison with other Local Authorities and will maintain a reasonable level of provision to minimise the impacts of illegal fly tipping. The council will consider the impacts of potential closures across all of the CRC site to determine the best option from a sustainability perspective.
32711	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How many weeks will it be between bin collections?	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	This is not detailed at this stage.
32712	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How many weeks will it be between bin collections?	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	This is not detailed at this stage.
32713	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How many weeks will it be between bin collections?	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	This is not detailed at this stage.
32714	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How many weeks will it be between bin collections?	Waste Services - Household waste collections	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
32715	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How many weeks will it be between bin collections?	Waste Services - Household waste collections	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating.
32716	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Risky charging for brown bins as the contents may end up in landfill which costs more and affects recycling and diversion rates. Provision of bins should be chargeable to customers (housing and housing associations where they are tenants and owner occupiers in not council houses).	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Councils who currently charge for Garden Waste collections or who have introduced charges have not reported significant increases in illegal fly tipping as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices. Charging for containers will be considered along with the protocols and impacts of any potential options considered.
32717	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is difficult enough with a family of five adults to ensure all the rubbish is recycled (two large blue bins), the introduction of the small black bins was a joke and I have to make a trip to the recycling site at Oakbank (or others) at least once a week. Any changes NEED to ensure that families are not inconvenienced more.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will consider the needs of families where, despite fully participating in recycling services, additional capacity is required. It is felt that the current capacity and any further proposals are achievable if residents participate fully in the services provided, in line with those undertaken in other Scottish Local Authorities.
32718	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think the current recycling system in WL is excellent and it would be a shame to change this. 32722	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have only praise for our 'bin men'. In @ 2 decades here I can count on the fingers of one hand the instances when they have deviated by any significant amount from the published plan.....usually due to horrendous challenges with the worst winter weather, or grid-lock caused by the worst traffic jam I've ever known in the district. Again beware what you look for in savings here - if it ain't broken, don't fix it!	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32723	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Households with young children should be considered for larger bins.	Waste Services - Household waste collections	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32724	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I personally believe that the Weekly food waste collections should be scrapped completely, as this service is NOT widely used by West Lothian Residents, & Also, Charge people a fee for Brown Bin Uplifts, as again, these are NOT used by all residents of West Lothian. Fine people who contaminate Blue bins with items that should not be in them I.E Black bags of Refuse, Or food waste, dirty Nappies etc. This Happens Very Frequently, Yet when this is reported to management, nothing happens about it & the council just send another bin lorry to go empty the contaminated bin. What is the point of not enforcing the correct use of the bins? The above measures would certainly save money & also make some money for the council.	Waste Services - Household waste collections	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
32725	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The weekly food waste service is NOT working or Efficient. Hardly anyone in any given street does the food waste bins, I mean, in contrast to Grey & Blue Bins, The food waste really does not do that much. Personally, I would bin this service. Save quite a bit of money. You tried, It did not work out...That is the way it goes sometimes. Sack it off.	Waste Services - Household waste collections	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
32726	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Do not decrease the frequency of grey bin collection - it would be a health hazard	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32727	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The saving I would like to see is the stopping of the food waste collection service. This service is the lowest of my priorities. It is not used by a significant number of residents.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32728	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	but would like to see kerbside glass recycling.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32729	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This hints at reduced collection schedules and if that is the case then it should say so. The public and councillors have a right to know if this is what is envisaged.	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32730	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Lose the food caddies! They are underused and require specialist pick up lorries.	Waste Services - Household waste collections	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response has been noted. This is a statutory requirement.
32731	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is a struggle as it is to manage with the bins only being picked up once a fortnight.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32732	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Perhaps to make brown bin collection quicker (and, therefore, cheaper) residents could be asked to place bins at one collection spot in a street or streets to remove need to pass each resident's house.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your suggestion this will be considered.
32733	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I would not like to see the recycling options available to us reduced. Indeed I would welcome a glass recycling bin, even if this was only collected on a monthly basis. I welcomed the introduction of the food waste recycling bins.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your suggestion this will be considered.
32734	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	A reduction in waste collection will lead to rubbish piling up with risk of contamination - other areas have already experienced this. People will stop using the brown bin and put this waste into the black bin.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32735	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I agree with brown bins but others no go as others have no cars or transport	Waste Services - Household waste collections	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32736	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If people live in country lanes - they should have to leave their bin at the end of the lane like I see in other authorities.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your suggestion this will be considered.
32737	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I do not believe making further reductions in waste services will be well received by anyone in the community.	Waste Services - Household waste collections	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The council does not take these decisions lightly which is why we are seeking the publics view on these matters.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32738	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling definitely needs to be reviewed; too many of our neighbours are putting the wrong things into the different bins. Local school is no better which is worrying; primary children are our future and if they dont get it now they wont get it as adults!! this must add considerably to the costs of collection/recycling.	Waste Services - Household waste collections	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look to improving the service standards to ensure compliance with collections and continue to work with schools to promote environmental matters.
32739	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Make the bins lighter to make it easier for the elderly and disabled to move	Waste Services - Household waste collections	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. We are unsure as to how the containers could be made lighter beyond separating out further materials as the container is a given weight to meet strength requirements.
32740	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I'm all for efficiency however some of this won't work. If you mean a further reduced number of eg black bin collections then please no. Smaller bins then less collection is a recipe for disaster. Some of my neighbours are already stock piling bags.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The containers supplied are suitable for the use of the majority of householders who actively participate in recycling services. Thank you for your comments.
32741	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I'm happy for more efficient arrangements to be made for collections	Waste Services - Refuse collections frequency	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32742	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't think the residential refuse collection could be any tighter. As a resident, I already struggle with it.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32743	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is hard to see how reducing waste collections is a sensible idea	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32744	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If we had larger grey and blue bins the frequency could be reduced to 3 weekly but this will not suit everybody.	Waste Services - Refuse collections frequency	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	3 weekly collections of 240l containers were ruled out when the service moved to 140l containers.
32745	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	3 weekly bin collections - ok. I fear that fly tipping will become a big issue! Costing WLC.	Waste Services - Refuse collections frequency	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. The proposals put forward are designed to minimise the potential for illegal fly tipping.
32746	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Brown Bins collections should be made very 5 weeks instead of 4 and why not suspend them from end of November to beginning of March? I am proud of the initiatives for recycling in West Lothian don't destroy it please.	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments they have been noted.
32747	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Reduce black bin uplifts to be monthly	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments they have been noted.
32748	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Improve the efficient use of expensive refuse collection vehicles by using them for 14hrs per day instead of the current 6hrs per day.	Waste Services - Refuse collections frequency	1. The respondent advised that they agree with the proposal.	Proposals will be considered that ensure the vehicle assets are utilised for a larger percentage of the time available during the day.
32749	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Review waste management - other LA have 4 weekly bin collections	Waste Services - Refuse collections frequency	4. The council is already doing this.	The service has already reviewed this when introducing the 140l service.
32750	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	If we had less pick up times then this would cause issues with rotting food etc.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32751	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As long as the general waste collection doesn't become less frequent than every 2 weeks & the bins don't get even smaller! Occasionally collections are missed so running an even more reduced service would be a mistake.	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32752	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	reducing bin emptying in my opinion would result in fly tipping and people simply not maintaining their properties etc with a resultant affect on amenity	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32753	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rubbish will be tipped in the countryside. Waste collection is one of the obvious services of the Council. Reducing this will be highly visible with obvious political effects.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32754	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	No further reductions in bin collections please. Poor enough already and variable if they even turn up.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32755	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Less frequent uplifts may mean an increased need for community recycling sites	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The service will work to ensure that there is suitable provision of these facilities across West Lothian.
32756	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It would be more appropriate to reduce the frequency of black bin removals to once a month, with an option to pay for fortnightly uplifts, or to charge for uplift on additional black bins.	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	The service would need to look into the legal implications of the suggestion for what is a statutory service.
32757	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bins should be collected as normal.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32758	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would suggest three weekly collections of bins, and leaving the recycling centres open. No-one in Linlithgow is going to travel over the hills with their rubbish	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	The service will work to improve efficiency and effectiveness of collection services where possible.
32759	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rubbish needs collected.	Waste Services - Refuse collections frequency	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32760	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Waste collection is a joke. Tiny bins and we have to use out petrol to go to the dump. Cut the cost here. Can't be much worse	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32761	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Keep the current pickups of waste (I've already got bags lying potentially attracting rats as I can't fit them in the new grey bins). Scheduling of routes may be possible.	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	The service will work to improve efficiency and effectiveness of collection services where possible.
32762	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I understand reason for smaller grey bins was to encourage recycling which is very worthwhile but if the larger grey bins were to be reintroduced could collection be extended to every 3 weeks instead of 2. Also larger blue bin could perhaps mean a 4 weekly collection?	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	The service will work to improve efficiency and effectiveness of collection services where possible.
32763	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	the said council cannot empty communal bins as it is the now which we have to look at totally disgusting	Waste Services - Refuse collections frequency	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32764	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	However I would object if the regularity of uplifts was changed, eg increased to three weekly instead of fortnightly.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments, the council will ensure that appropriate measures are taken to deliver the savings required and maintain suitable collections
32765	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Review of refuse collections should take into consideration of the times of day earlier morning and later evenings might reduce congestion around towns at prime times.	Waste Services - Refuse collections frequency	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. The efficiency of routing is an area that will be considered.
32766	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please no more cuts of bin pickups.	Waste Services - Refuse collections frequency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32767	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Consideration should be given to collecting bins at entrance to long roads to prevent bin lorries travelling long distances to collect a small amount of bins	Waste Services - resources (routes, vehicles and staff)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments the service will be considering the impacts and saving that could be generated from road end collections.
32768	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Happy with route rescheduling etc	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32769	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Agree with rescheduling of routes	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32770	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Bucket men reduced and paid less.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32771	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Stop OT to workers no one else gets it!	Waste Services - resources (routes, vehicles and staff)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32772	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Look at the bin collection services. Lorries always seem to be stopped and personnel having a "break"	Waste Services - resources (routes, vehicles and staff)	4. The council is already doing this.	Thank you for your comments they have been noted. The service will continue to seek to improve efficiency where possible.
32773	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Waste collection services have already been revised as have routes, is there really more to be gained other than inconvenience to customers and a reduction in a necessary service	Waste Services - resources (routes, vehicles and staff)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Proposals will be considered that ensure the vehicle assets are utilised for a larger percentage of the time available during the day.
32774	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Lots of inefficiency in this area. Binmen parked up all over and poorly managed.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32775	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	A new Shift patterns could be a good saving options, by having two shift per day or longer shift WLC could save some vehicles. A shift per day could be commercial waste, but this should be charge accordingly to ensure that WLC achieve a small reasonable profit.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32776	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	New service standards should give powers to Waste Services for not going back for contaminated bins and remove recycling bins when these are contaminated more than 3 or 4 times. Contamination is costing this council few 100K per year in disposal cost plus the extra collection cost of sending a lorry at the end of the day to empty contaminated blue bins. Council should have a strong policy on contamination and should invest of staff to spot checking and visiting offenders.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32777	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The waste services have been doing a particularly good job recently. Is there scope for not collecting household waste over statutory holidays?	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	The service is designed to minimise any instance of this but in some cases it is required to meet current service standard but these will be reviewed
32778	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Falkirk Council now collect normal waste 4 weekly and it has been fine, it encourages people to better recycle.	Waste Services - resources (routes, vehicles and staff)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	We already offer 70l per week capacity, the 4 weekly service is comparable at 60l per week.
32779	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Make the collectors work to their finish time. An hour a day at Deans for all of them would mean no less missed bins - send them back out! Nobody now has a job n finish	Waste Services - resources (routes, vehicles and staff)	4. The council is already doing this.	Any proposed changes will carefully consider potential impact prior to implementation
32780	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Partially agree - Not enough info on schedule of routes/working arrangements - if this means that periods between bin collections are increased then I disagree.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32781	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Look at the level of SICKNESS bin lorries lined up by mid-day.	Waste Services - resources (routes, vehicles and staff)	4. The council is already doing this.	Any proposed changes will carefully consider potential impact prior to implementation
32782	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Environmental wardens do no represent good value for money as fines do not cover they wage they earn. Maybe they should focus more on educating the public	Waste Services - resources (routes, vehicles and staff)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32783	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	More is needed to promote recycling.	Waste Services - resources (routes, vehicles and staff)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32784	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Employ staff on a 7 day working week to reduce overtime costs and increase utilisation of bin lorries.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	The council and the service will continue to seek ways to improve the efficiency and effectiveness of collection crews, their vehicles and routes.
32785	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Scheduling of routes - the council already optimise routes, what further savings are proposed.	Waste Services - resources (routes, vehicles and staff)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32786	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Route efficiency considerations are logical, including the review of any weekend working. Charges for bulky uplifts that benefit individuals makes perfect sense.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	The council and the service will continue to seek ways to improve the efficiency and effectiveness of collection crews, their vehicles and routes.
32787	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	do agree to other proposals above.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32788	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	1. Agree with revising models, routes and working arrangements.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32789	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think they need to look at waste department the amount of bin men is unreal and not doing very much they park up in area when they are finished so people can't see them. This is the areas Managers should be looking at	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	The council and the service will continue to seek ways to improve the efficiency and effectiveness of collection crews, their vehicles and routes.
32790	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think they need to look at the amount of staff on the waste department . I also think they need to take away the vehicles that they bring home what do they need this ? on call I don't think so they can pick up the van in the morning to go from site to site especially with the amount of money they have spend on the new offices at Blackburn	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	The council and the service will continue to seek ways to improve the efficiency and effectiveness of collection crews, their vehicles and routes.
32791	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Overtime and paid weekend work at a supplementary rate could be reduced.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your comments, the council will ensure that appropriate measures are taken to deliver the savings required and maintain suitable collections
32792	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Routes and working arrangements - agree However the other changes would discourage responsible waste disposal and lead to increased fly tipping etc.	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The efficiency of routing is an area that will be considered.
32793	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Rescheduling of routes should definitely happen. The bin lorries are in the same town on at least 3 separate days!!!!	Waste Services - resources (routes, vehicles and staff)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The efficiency of routing is an area that will be considered.
32794	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would make savings by investing in a waste incinerator as in Netherlands this provides domestic heating for almost all of Amsterdam. Requires importing of waste from other areas generating income. West Lothian has lots of land suitable for a similar project. It would reduce waste management costs and generate income!	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council are committed to providing recycling solutions to achieve the government's zero waste targets. A new facility is due to open at Whitehill Service Centre in 2018.
32795	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Care should be taken to ensure that proposals do not increase fly-tipping and the cost implications of increased enforcement necessary should be considered as part of the proposals. Has consideration been given to selling garden waste as a fuel source for energy use through anaerobic digestion rather than charging tenants?	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32796	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It is also important to clear rubbish from roadside verges. Local community clear up initiatives can be carried out but not on small rural roads where traffic makes this too dangerous. Examples are roads leading out of Linlithgow from manage road and Preston road. These roads are constantly plagued by rubbish and fly tipping. Rubbish encourages more to rubbish to be dumped.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32797	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I will seriously consider having my grey and brown bins collected by a private waste disposal company and will expect a reduction in my Community Council Charge.	Waste Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32798	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Presumably the savings suggested takes into consideration the additional amount needed for clearing up from fly tipping? These side effects have already been seen in English councils. Has the environmental impact been calculated on the additional transport?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32799	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Action needs to be taken against fly tipping.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32800	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Could lead to a lot of fly tipping	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32801	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why does this local authority not sell recycled material to commercial companies. it appears we have to pay for timber, cardboard, electricals and green waste to be collected, but these companies generate income from what is sold to them. How much do we pay for companies take this material away and make a profit from?	Waste Services (general)	4. The council is already doing this.	We already sell commodities on the market where possible.
32802	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why have you been wasting so much of our money up to this point?	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Not relevant as just a wide question.
32803	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Any reduction in waste services would encourage fly tipping etc etc together with inappropriate material being placed in landfill bins thus increasing the Council's landfill tax.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The options being looked at are designed to minimise the potential impact of illegal fly tipping where possible.
32804	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This will also have a negative impact on other parts of the council i.e. it will result in further complaints to housing offices and this will mean that housing will have to pick up the costs	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32805	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not acceptable, this will just promote fly tipping across West Lothian. This is a very bad idea.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32806	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I thought we were trying to do our bit for the environment, not encourage fly tipping?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32807	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charge for overuse of black bins.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	The collection of landfill waste is a statutory requirement with no redress for charging at this stage.
32808	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with changes in waste services, this will increase fly tipping and illegal dumping. This is a backwards step	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32809	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	By introducing charges or fewer collections will increase fly tipping and more rubbish/vermin in the streets - cleanliness is not something that can be scrimped on.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32810	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Closing recycling sites and reducing waste collection uplifts would cause fly tipping and would make West Lothian a messy and dirty place to live.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32811	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It needs to be easy or the knock on effect with be fly tipping!	Waste Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32812	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	You will end up spending more picking up items that have been fly tipped!	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32813	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Waste Services (general)	4. The council is already doing this.	The council is undertaking this as a part of the TYC process.
32814	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Whilst this would be an inconvenience this is preferable to md than making cuts that may have a higher direct negative impact on people's well-being eg education, health, and care	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32815	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Not ideal but better than other proposals	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32816	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Depending on savings. there does need to be provision for the public to dispose of anything they have even if there is a cost. need to keep cost reasonable or it could lead to more fly tipping which would cost the Council more to lift. Look at enforcement for waste people put out and leave next to the bin. Record side waste and then visit resident as it may be an educational issue with waste needing to check bins to ensure residents are recycling correctly. If individuals continue and warnings issued then fixed penalty notices may be required. Would need legal input as well as fiscals office as no point in issuing penalty notices if support not in place.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision. The legal side of issuing fixed penalty notices is being addressed nationally as a part of the review of environmental legislation.
32817	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Need to look at providing minimum statutory requirements and look at how the community could provide some of these services as it will have an impact on individuals.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32818	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Fly tipping could become a problem if you do this.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32819	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Waste collection cannot be compromised by the changes, as dumping in public places may increase.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32820	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I disagree with all of the above. There will be a dramatic increase in fly-tipping, which in turn will simply cost WLC more in resolution of the resultant issues. Recycling targets will not be met. River courses will again become the dumping ground for many. Out the window goes all the work you have done to date on Flood Planning!	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32821	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not agree with this. These are services that must be provided to Council Tax payers. I do not consider that I receive value for my Council Tax, without making matters worse. Council management must bring about year-on-year productivity improvements, as any other large organisation must do. There is great scope for this.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32822	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I know that it is a bit radical but this works in other countries: Remove wheelie bins completely from households. Instead have large, communal bins/skips in every street where local householders can deposit their refuse. This can also aid recycling, as these communal collection points could have bins for each category/item. Old or disabled people can be helped out by their neighbours to carry their refuse the few yards to these collection points. Simple and efficient but can you imagine the outcry from our lazy, pampered citizens?!	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments, they have been noted and put to the service for consideration.
32823	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Work collaboratively with other councils to streamline management/staffing structures	Waste Services (general)	4. The council is already doing this.	Thank you for your comments, they have been noted and put to the service for consideration.
32824	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is the most important issue for me. Any reduction in service would be a disaster. We have a clean place to live. This is important for health, well-being and pride in the community. I have lived in several other authorities and everything is dirtier and rubbish and fly tipping is a problem. Reducing this aspect of the council service is the worst thing you can do because people are not able to do it for you - if there is fly tipping because the tips are closed people will fly tip more and then people lose heart and give up and moan and get depressed. This is a key difference between us and developing countries ... rubbish do not reduce this service it will affect the poorest in society and all levels of society from small children to old people. Bin men and women - tips etc are key council services and make the difference between a healthy environment and a poor quality environment and it shows people that the council cares.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. The proposals put forward will be worked on to ensure minimal impact to other services and the public whilst maintaining statutory provision.
32825	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Waste Services (general)	4. The council is already doing this.	An full EQiA, where required, will be carried out for any proposal put forward prior to acceptance and implementation.
32826	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The waste management in west Lothian has been for a number of years farcical. The over pricing of this service and miss management to meet recycling targets. Perhaps if the council had a more effective strategy then it would not so over budget. Like the stupid bin reduction in size who ever thought that one up should be sacked for incompetence.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32827	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	All no 7 section will result in poorer services for everyone. It is a pity you weren't as drastic with the cuts in other services as you propose in this one. It is a high profile service which everyone has been encouraged to use	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32828	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Some smaller bins doesn't help although it does encourage more recycling which is a good thing, Now we are here there will be a charge for the brown bins bulky uplifts and closure of the recycling centre. these were essential for the smaller ins to work where we recycle now?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges will be set to ensure that access to services are maintained and these non-statutory services can continue to be offered. The charges are only for those who wish to use the services.
32829	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Remove automatic toilets as they do not reflect value for money.	Waste Services (general)	4. The council is already doing this.	The council cannot do this until the current contract ends.
32830	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	In addition it is proposed that the food waste is included with green waste. Hygienic?	Waste Services (general)	3. The respondent advised that they had no comment to make.	This is not part of the proposals.
32831	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I have fairly large and well stocked garden whose plants and trees help to clean our already polluted air. I have several compost heaps but I still need to visit the amenity site with uncompostable items. I also make good use of the brown bin scheme and have recently acquired a second but to my dismay I hear I may be charged for use of these. Why and How? Will I be charged for having 2 despite the fact I already pay a higher local taxes for having a slightly larger home. Will I receive a rebate for the help my garden gives in cleaning Linlithgows air or would you like me to concrete over my own garden, as many people might do, cutting down the need for recycling of waste but filling our sewers with extra run off water when it rains?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The charges proposed will be set to be proportional to the service delivered and at a level that is affordable and prevents the desire to illegally fly tip material. The proposed charges will enable these non-statutory services to continue operating. There is no method of redress for the matters which you have raised.

Transforming Your Council Consultation 2017

32832	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Some employees still refuse to recycle at work. Why? Its not hard. Nede to do more	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments, the service will continue to work on behaviour change activities.
32833	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I wouldn't of changed the grey bins to the small ones I would have changed it to once a month collection.	Waste Services (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted
32834	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Could the Council not engage more with the beneficiaries of Council services. One trivial example- why does the Council have to provide staff to put out the wheelie bins of perfectly able-bodied Council tenants (the elderly and disabled are a different story). Could tenants not be asked to do this themselves?	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments, the service will continue to work on reviewing efficiencies.
32835	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This would be in line with other councils who have already implemented these strategies.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	The council has benchmarked and worked with other Local Authorities to ensure that proposals are operationally viable.
32836	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	More changes to the bins. Why done't they focus on collecting bins when they are meant to be collected. IETM've had my bin missed along with the rest of the street 4 times in the last 3 months. Shambles! Pay for getting your bin missed, I think not!	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council has benchmarked and worked with other Local Authorities to ensure that proposals are operationally viable and that can be performance managed within new Service Standards.
32837	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is not clear enough what is being proposed here to comment. Concerns over rubbish lying too long and for fly tipping to increase.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Further detail will be forthcoming when formal proposals are put forward by members in setting the council budget. Where compliance with recycling services is adhered to there will be no need for rubbish to lie too long or for fly tipping to increase.
32838	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It is good to see the current improvements over the last two years.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments, we will continue to seek to improve our services regardless of the proposals selected.
32839	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Any savings that can be made through a review of these services it to be welcomed. Thank you for your comments, we will continue to seek to improve our services regardless of the proposals selected.
32840	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The bin service in WLC is run by a bunch of workshy lazy sods. If you don't believe that see how long they spend in Greggs in Ladywell. Put this out to tender	Waste Services (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comments, we will continue to seek to improve our services regardless of the proposals selected.
32841	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Focus needs to be put onto fly tippers and households who do not deal with their own waste at the moment. The area is already suffering , this proposal will cause even more chaos	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

32843	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Waste services do a fine job and I would not welcome a reduction in standards or provision.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments, we will continue to seek to improve our services regardless of the proposals selected.
32844	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would consider that there might be an increase in fly tipping with a detrimental impact on the environment.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Councils who currently charge for Garden Waste & Bulky collections or who have introduced charges have not reported significant increases in illegal fly tipping or transfer to the landfill bin as a result. Any changes that do occur will be monitored closely and action taken as appropriate against illegal practices or material finding its way to landfill.

32845	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	heavy fines or prison , to all those caught damaging , graffiti,,, dumping or fly tipping,, name and shame in the community	Waste Services (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council works within Scottish Government legislation with regard to issue of fines and penalties.
32846	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	waste has already changed with the introduction of smaller grey bins,,, too encourage more recycling i think,,, to take away the free brown bin uplift and the community recycling centres would be a step in the wrong direction,,, dumping fly tipping would increase ,, environmental issues here!!	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32847	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Please leave waste management alone, the small black bins are a disaster for anyone with more than four people in their household. Even though we recycle and use our food bins, we still need to make a trip to the local dump at least once a fortnight	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32848	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Have communal brown bins for streets instead of one per house	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32849	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It would be unfair to charge for a brown bin, people will just dump their garden waste.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32850	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Increase in fly tipping	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32851	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Any reductions in bin collections or increased costs of collections will only result in increased dumping. This is not helpful to a community where tourists provide a large revenue stream for the town. Also it is essential that collections be maintained for reasons of health and welfare. The quality of the environment cannot be maintained if charges are introduced for brown bin collections.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32852	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Why is a consultation needed for you to be given permission be more efficient?	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32853	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	These suggestions may lead to a greater amount of fly tipping.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32854	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The proposal to charge for bulky uplifts and closure of 3 recycling sites will mean a higher instance of fly tipping and dumping of rubbish than we already see. I already have issues in this area in my neighbourhood	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32855	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for Bulky Uplifts and Brown Bins along with the closure of community recycling sites is an utterly ridiculous concept, and one that if introduced would see me stop paying my council tax as it is services like these that my money is supposed to pay for each month A combination of these three things is without question going to lead to an increase in fly tipping, and garden waste being disposed within the Blue and Black bins	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation

The direction towards reuse and reduction will be promoted both internally and externally.
32857	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Offer to deliver households compost bins instead of brown bins/green buckets. I'd like one. No idea where I'd buy it.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The direction towards reuse and reduction will be promoted both internally and externally.
32858	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	People should be instructed not to put there bin out if they anticipate it will not fill up prior to next collection. The idea that we empty the bin off a single person every two weeks even if its just some whiskas tins and a half pint of milk seems inefficient. Potential savings, even with the inevitable complaints. Also, bins should not be replaced multiple times to same people without charge or at least some questions asked.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

32860	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The suggestion I have to help save the Council Money is. I found something advertised on TV, which could be handy for the Council, the Item is called a Zera Food Recycler from Whirlpool which requires a Coconut Husk Based Accelerator, which could be put into each of the Kitchens within the building in the Civic Centre, which turns discarded food waste into Fertilizer within 24 hours. This Fertilizer could be collected on a Daily Basis, when the cleaning staff change the bin bags. Then the Fertilizer could be bagged and sold off to, surrounding Community Farmers or Garden Companies by pallet loads. If successful this could also be brought into the Council Waste Management Depot and Schools and an industrial version could be installed, to help reduce the £73 Million worth of cuts, that are to be implemented over the next 5 years or beyond.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Your response has been noted. This technology is in its infancy in the USA and we will watch developments as they progress.
32861	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The suggestion I have to help save the Council Money is. I found something advertised on TV, which could be handy for the Council, the Item is called a Zera Food Recycler from Whirlpool which requires a Coconut Husk Based Accelerator, which could be put into each of the Kitchens within the building in the Civic Centre, which turns discarded food waste into Fertilizer within 24 hours. This Fertilizer could be collected on a Daily Basis, when the cleaning staff change the bin bags. Then the Fertilizer could be bagged and sold off to, surrounding Community Farmers or Garden Companies by pallet loads. If successful this could also be brought into the Council Waste Management Depot and Schools and an industrial version could be installed, to help reduce the £73 Million worth of cuts, that are to be implemented over the next 5 years or beyond.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Your response has been noted. This technology is in its infancy in the USA and we will watch developments as they progress.
32862	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Any changes in this area increase the chances of fly tipping, dumping, overflowing bins, and potentially less recycling to the detriment of the environment. The reduction in community recycling sites seems surprising as they seem well used, and to digress, have very helpful and approachable staff. If residents have to travel further to a centre they may simply dump elsewhere.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32863	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	happy with this although may increase fly tipping	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32864	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Strongly disagree, this would lead to fly tipping.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32865	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Risk of fly tipping. Will it outweigh the savings.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32866	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is an essential service and as a family of 4 we already struggle to fit are waste into the bins allocated! The question to raise council tax and charge for bulk waste uplifts would not be taken well by family household. I would question why a household of two people require the same size of bins as a family of four. Maybe this should be looked at rather than discriminating against families.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	A varied size of bins would make collection and issue difficulty to manage. The bin sizes issues at present should suffice for a family of 4.
32867	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Offering residents free compost bins to make their own compost in their gardens would reduce the demand for brown bin emptying and reduce the amount going into green food recycling bins. Furthermore, some colleagues in the Civic Centre can't even get their recyclables in the correct bins! Very annoying - if council staff aren't on board with recycling - how can we expect residents to be?	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The direction towards reuse and reduction will be promoted both internally and externally.
32868	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	We should look at ways to punish people who do not present recycling bins, but stopping brown bin collection is not a good idea.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32869	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Further reduction in cleansing risks more dumping/tipping may ultimately be more expensive.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32870	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Waste collection is already in a worrying situation and I think changes to this would only sour the council's name with locals.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32871	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The council would need to manage customers expectations and spend time educating the customers. Concern re fly tipping / build up of rubbish/ vermin - needs to be clear plan in place to tackle such issues	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32872	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	All that will happen is that people start using their grey/black bins for this waste instead. What's the point in that? These bins were introduced for a reason, and not too many people appreciated the change but have now become accustomed to it so don't start penalising people for actually using them!	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32873	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I do not support this proposal this could encourage fly tipping etc	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32874	On behalf of a Group/Organisation	7c. Revised Service Standards & Delivery Models - Waste Services	Would need some supportive statistics to make an informed judgement. But people should be more responsible for their own waste products. The same few people cause most of the problems	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32875	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This will mean more fly tipping	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32876	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Get the supermarkets to host recycling bins - everyone goes - take your rubbish - buy some more??	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32877	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Terrible thought. Fly tipping will be worse. More germs.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32878	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Cut the number of managers in the service and get more workers	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32879	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Totally disagree with this section. This is a recipe for widespread fly-tipping.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32880	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	My concern would be that imposing charges, increasing charges etc. would result in damage to the environment with an increase in fly tipping etc. However, looking at the potential estimated saving, I support this proposal.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32881	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be happy to see recycling encouraged and improved. Prisoners should be used to ensure that all waste that goes into landfill is actually landfill.	Waste Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Any proposed changes will carefully consider potential impact prior to implementation
32882	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling has never been implemented in schools properly. Lots of money wasted on different bins but all the waste going in one bin at the end of the day. We can look forward to even more fly tipping.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32883	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We currently have great arrangements for uplift of recycling (blue bins), brown bins (garden waste) AND we have local recycling centres in many West Lothian towns. As a result we put less material into landfill!	Waste Services (general)	3. The respondent advised that they had no comment to make.	Any proposed changes will carefully consider potential impact prior to implementation
32884	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would love a bin for glass as this would reduce landfill even more ... Glasgow council have purple bins for glass collection	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32885	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	This would be challenging and may lead to more fly tipping.. I have 3 brown bins due to my large outdoor space therefore wouldn't be happy to pay more for waste collection.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32886	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the black bins had not been reduced to improve recycling then collections could have been spaced further apart but with a small bin it is unreasonable to expect this to work. There will be an increase in fly tipping if brown bins are charged for	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32887	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	The whole point of these waste ideas are for better recycling and friendlier to the environment is it not. If waste is effected. Would that not make over filling of bins a problem in such small bins.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32888	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	THIS IS AN AREA THAT NEEDS REGULAR REVIEW	Waste Services (general)	4. The council is already doing this.	Any proposed changes will carefully consider potential impact prior to implementation

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32889	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	It seems that councils introduce schemes and then find that they have underestimated costs and the public are then held responsible for the upkeep.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32890	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Outdoor recycling bins should be provided in School playgrounds.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32891	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	More recycling points for glass should be created.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32892	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This is the worst idea since you thought thinner bins were a good idea. If we have small bins and people are encouraged to recycle but the bin is full and the local recycling centre is not local then where do you think the rubbish will end up? Dumped somewhere then who cleans this up? the council this will not save you money just move where it is spent. It is already stupid that the recycling centre is only open till 5pm from September onwards	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32893	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	How would brown bin charging work? Does this penalise those of use who rely on it and don't have space to compost? Can we still take green stuff to recycling site? Do you wish to increase the carbon footprint by making people travel to recycling points? To me this sections seems to be undoing all the good progress we have made in this area. I can see that you could site paper, glass and plastic locally but what about the other options that are currently available. Again will bulky uplifts increase fly tipping what about charging for the second request and there after? Should people be asked to contribute rather than have to pay?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider potential impact prior to implementation
32894	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Recycling is good must encourage. Fine people if they don't use it properly	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32895	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Council should overview their waste strategy to make it sustainable and reduce unnecessary costs to the tax payers	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any proposed changes will carefully consider potential impact prior to implementation
32896	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This must not change. It is excellent. Cuts in services would mean more Fly tipping. More money no change. West Lothian is excellent here.s	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32897	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The streets are filthy at times- chewing gum carry out bottles etc. More action is needed here to make the community responsible and accountable. It's not the schools responsibilities	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32898	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Not sure about this - i think this will increase Fly tipping at an additional cost	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32899	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	I think it's good to encourage less waste, but something needs to be done higher up to change the amounts of packaging we have in the first place. That way people wouldn't need to throw away so much.	Waste Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This is a national issue that the council is supportive of and actively works to encourage the Scottish Government to adopt the Polluter Pays Principle.
32900	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bulky uplifts and brown bins is really annoying. As a West Lothian resident who pays over £200 per month council tax I don't agree. I get little enough	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of brown bin collections and bulky uplifts are non-statutory services as such the council fund used to provide this service may be deemed as being needed in other services with higher priorities for our community.
32901	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Remove non charging for charities for trade waste.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32902	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	These proposed changes could potentially increase the instances of Fly tipping. Customers may be less willing to drive further to use recycling sites. This may also increase the risk of pests such as rats.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32903	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charging for bin collections will increase the demand for recycling sites therefore care needs to be taken as to the closing of sites so that fly tipping does not become an issue. I don't feel that fly tipping is an issue in West Lothian currently but need to make sure it doesn't become one.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	The charge levied for collections would be reasonable to ensure the impact of fly tipping would be minimal.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32904	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Charges for bulky uplifts and closure of recycling sites will likely increase difficulties for the public to actively use the recycling sites left available or use the bulky uplift service and could increase potential for unofficial 'dumping' and increase council costs to clean up. Been here before.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32905	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The Council seems intent upon withdrawing (or charging for) essential services. Isn't West Lothian filthy enough already without the need to encourage further Fly tipping? Look around the town and villages of the county and there are already plenty of examples of unkempt gardens; now you appear keen to discourage as many citizens as possible from keeping their gardens tidy. This will have a detrimental effect on the local environment, residents' living conditions and health. Gardening is an excellent form of exercise which you seem keen to discourage.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32906	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Folk managed without brown bins before the Council introduced them.... Use the money saved to provide better recycling facilities for people who only have grey bins.	Waste Services (general)	5b. Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32909	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I think there has been an increase in the amount that can be recycled now but there is still so much more that could be if we had the facilities to do so. I think this is very important for the environment.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32910	An employee of West Lothian Council	7c. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32911	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The food caddy collection is a ridiculous waste of money!	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response has been noted. This is a statutory requirement.
32912	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I'm opposed to any cuts which would further reduce the collection waste. I'm a responsible homeowner, other are less considerate and have been known to simply dump their waste (resulting in an additional cost to WLC when uplifting it).	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32913	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Huge mistake. Consider unintended effects that could be more costly - dumping, incorrect use of bins etc	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32914	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Really! Do we really want to see more waste dumped round our countryside? Having just issued everyone with smaller bins(which I could not understand, what was wrong with the ones we had! Surely a waste of resources), you now want to reduce facilities to recycle a dispose of waste further? I think this would be very detrimental to our environment.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32915	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Perhaps not replacing every bin in West Lothian when the older versions were perfectly serviceable would have been a more sensible option?	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32916	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Perhaps the council shouldn't have spent millions of pounds putting dozens of unnecessary recycling cardboard boxes/bins into every corner of every school. Most of them are not required or used. Also the amount of bin bags these need and waste is ridiculous. Cleaning time wasted emptying 50+ bin boxes a day, when they could be cleaning tabletops.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Schools have an important role to play in encouraging good recycling practices. The comment raised suggests that schools need to increase these efforts.
32917	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	These proposals are likely to increase Fly-tipping. The council should consider how it manages this.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32918	No Response	7c. Revised Service Standards & Delivery Models - Waste Services	Again agree this is an area where significant savings can be made with a shared impact across all in the community.	Waste Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
32919	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Sounds like a good idea BUT please make sure you will still encourage people to recycle.	Waste Services (general)	4. The council is already doing this.	The council will always continue to promote recycling and the drive to become a zero waste society.
32920	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	Community recycling is very important as is recycling from home. Reduction/charges to waste will cause more Fly tipping which will cost council more money to clear up and reduce quality of open spaces.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32921	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Remove brown bins altogether or charge for the compost generated from them. Encourage customers to set up their own compost heaps.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32922	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The current service represents a high and it must be said generous standard. This is presumably reflected in a relatively low level of fly tipping in the area. It is to be hoped that any reduction in the service standard does not result in a major increase.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32923	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't believe any of these changes will result in anything but an increase in Fly-tipping.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32924	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	The size of brown bins at present is a joke In the gardening season they are totally inadequate Again I can see staff being cut	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32925	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Yes don't have a problem with this they guys kick our food bins up and down the road out of their way, might make them value their jobs more.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32926	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Need to consider that Fly tipping may increase.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32927	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Major savings in waste collection would be achieved through time and motion studies.	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
32928	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	be careful not to allow cash reduction to leave a gap that causes rubbish to be left for rats and pests to increase.	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32929	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As 1A. Will WLC be providing an operative to clean their leaves from my garden or should I sweep them onto the street since I use three buckets constantly over the winter to clear them?	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32930	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	This has never happened . I shall be interested to see this one as it has been miss managed for years	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32931	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Implications could be very serious ; litter in the countryside, less recycling	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32932	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If the brown bins are to be removed then local recycling sites are essential	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32933	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Cost reductions and maintenance of current levels of waste services should be undertaken	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32934	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Not encouraging recycling anymore then. An increase in Fly tipping would surely follow if this proposal went ahead.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
32935	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Resultant Fly tipping may cost more to cover then is saved.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32936	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	That proposal will just mean more Fly tipping	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32937	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Our residential waste collection service is already woefully inadequate! If the service is reduced any furthe we will return to the dark ages with rubbish on the streets, rotting veg attracting vermin, Fly tipping (cos you cant police it) and a rise in rats and disease. Did we learn nothing from the years of plague clearly documented in history books? This is a dangerous route to take and should be gravely re considered.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32938	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	As long as this doesn't lead to 'fly tipping' then I'd be in agreement.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	Charges levied would be reasonable to enable this non-statutory service to be continued.
32939	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	We are already paying for waste services in our Community Charge. Do not charge more or you will get more Fly tipping, this will also be caused by the closure of recycling centres.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping has not be noted as a significant impact following the implementation of the changes proposed.
32940	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	If there is to be a charge for bulky uplifts and closing of 3 community recycling sites - this may potentially lead to an increase in fly tipping	Waste Services (general)	2. 32941	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I would be concerned that this would lead to more fly tipping and less recycling	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32942	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Increase the Council tax to better support recycling & the circular economy & cost of brown bins.	Waste Services (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council tax increase is required beyond the savings measures proposed.
32943	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Realise cut backs must be made but giving us smaller bins and charging for uplifts will only cause rubbish and household items to be dumped wherever possible. Not everyone has a car to convey certain items to the appointed places.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
32944	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	totally disagree. Such changes will affect the community, result in more fly tipping and many people can't afford to pay for services which are included in the Council Tax payments.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposals are put forward in line with those implemented by other authorities who have not noted a significant increase in illegal fly tipping.
32945	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	I don't mind paying for an efficient service but bin collection cannot be diminished any further. What I would like to know is whether recycling is actually being done efficiently to support renewable resources? I fear not as I know that the mixed collection boxes are just being tipped in to a common bin.	Waste Services (general)	1. The respondent advised that they agree with the proposal.	The collections are collected separately and recycled in compliance with the Waste (Scotland) Regulations 2012.
32946	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Consider the costs of tidying up after those who will fly tip. Could free skips not be distributed in key areas/ car parks throughout the authority that people could use .	Waste Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This would not be possible given the potential impact caused by uncontrolled tipping at such locations.
32947	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	disagree, we pay council tax to take waste away, so you would be charging people twice, money is already tight for working families, this would just encourage fly tipping, putting more stress on the budget with clean up crews.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council tax pays for all council services in conjunction with the block grant from central government. The proposals put forward will minimise the impact of illegal fly tipping by managing the collection process and potential charges.
32948	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Waste issues cause public health issues. Currently our bin men are inflexible and the service isnâ€™t one I would rate highly	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
32949	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Fine those who do not recycle in the correct bins. Direct from benefits.	Waste Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Currently this is not possible under Scots Law, however it is being reviewed at a national level.

32950	An individual	7c. Revised Service Standards & Delivery Models - Waste Services	Seems likely to lead to unintended consequences. What is core service? Waste Collection is core and done well. Charge for bulky uplifts (an exception) brown bins and community sites are core service and monthly seems a minimum viable service. Charge for commercial waste - and ruthlessly pursue those who break the rules.	Waste Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments and suggestions. The council will work to ensure that those who do not comply with requirements are encouraged to do so.
32951	An employee of West Lothian Council	7c. Revised Service Standards & Delivery Models - Waste Services	It was a crazy idea to change the grey bins to the slim bin. This was a waste of money when everyone had a grey bin in the first place!	Waste Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
32952	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	If this can provide the necessary savings then this should be pursued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32953	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Again, this seems like common sense	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
32954	An individual	7d. Reprioritised Passenger Transport Strategy	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
33170	An individual	7d. Reprioritised Passenger Transport Strategy	Insufficient detail - which services and routes will be affected?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
33171	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Supportive of many of proposals noted above but not of concessionary bus for pensioners.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33172	An individual	7d. Reprioritised Passenger Transport Strategy	School transport should incur small charge.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33173	An individual	7d. Reprioritised Passenger Transport Strategy	One item which could provide a cost saving is to scrap the Taxi Card scheme. This scheme is not fit for purpose and is widely abused, yet WLC have previously refused to provide a whistleblower line/form to identify suspected fraud. Questions about the taxi card scheme would be 1. as the scheme is for people on higher rate invalidity benefit, why does WLC feel the need to subsidise people who already get a benefit from the government? 2. Why does WLC allow taxi card use for journeys outside West Lothian, when these become unregulated fares? 3. A taxi card is also for people who cannot use public transport. When then does WLC not remove bus passes from taxi card users? and why are taxi cards allowed to be used between 10pm and 6am when busses are not operational. SAVE MONEY AND SCRAP TAXI CARDS!	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	West Lothian Council is currently reviewing its transport concessions schemes and this comment will be included in the review.
33174	An individual	7d. Reprioritised Passenger Transport Strategy	By introducing transport charges, I will be unable to afford journeys with my carer and as a result, I will become a prisoner in my own home. I can only speak of my own experiences. Keeping mobile is an essential part of my rehabilitation to prevent further deterioration of my health, both physically and emotionally. Being unable to leave home often will undoubtedly increase levels of anxiety and depression. That my lead to an increase on support needs in other aspects. In short, reducing transport support may ultimately lead to an increased dependency on other council budgets.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33175	An individual	7d. Reprioritised Passenger Transport Strategy	Affordable transport ensures people can access work and other services. Reducing mobility opportunities is a bad idea and will lead to reduced quality of life for those who don't have access to cars.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33176	An individual	7d. Reprioritised Passenger Transport Strategy	I think concessionary bus travel, handicabs and dial-a-ride schemes are all worthwhile.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The bus pass concessions scheme is a national scheme provided by the Scottish Government. West Lothian Council is currently reviewing its transport concessions schemes and this comment will be included in the review.
33177	An individual	7d. Reprioritised Passenger Transport Strategy	those who are poor already face difficulties in travelling across the county. Will there still be concessions to help them?	Passenger Transport Strategy - concessionary travel	4. The council is already doing this.	National concessionary entitlements for public transport will continue.
33178	An individual	7d. Reprioritised Passenger Transport Strategy	Those in the more rural areas would be most affected by the removal of subsidies.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33179	An individual	7d. Reprioritised Passenger Transport Strategy	I do not believe that public funds should be used to subsidise private bus companies. If the route is not financially viable it should not exist.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33180	An individual	7d. Reprioritised Passenger Transport Strategy	A review of the free transport provision age concession with the implementation of a small fee could be useful	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33181	An individual	7d. Reprioritised Passenger Transport Strategy	charge pensioners full cost for travel fares...	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33182	An individual	7d. Reprioritised Passenger Transport Strategy	I also think the bus pass should be increased to pension age as people who are entitled to them are still earning a good wage and no need for them to use them as they are in position to pay for services	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. The Scottish Government has responsibility for the Concessionary Travel Scheme.

33183	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	why don't they introduce a nominal charge for all pensioners who travel free on all bus routes. I would expect that the majority of pensioners would accept a nominal charge of e.g. Â£0.50 per journey	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33184	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services are a vital key in day to day living of many people. Removal of any service should be avoided at all costs. Concessionary fares are a boon to elderly people who can avoid loneliness by simply getting on a bus which could ease the workload of Social Services.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33185	An individual	7d. Reprioritised Passenger Transport Strategy	I am sure there are ways to reduce cost, but there are social implications as well as financial ones. It seems to me that the people we most want to help would be the most affected.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33186	An individual	7d. Reprioritised Passenger Transport Strategy	I do not agree to a change in this service	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33187	An individual	7d. Reprioritised Passenger Transport Strategy	Consider that such a broad brush approach would disproportionately affect the most vulnerable in West Lothian. I agree the concessionary transport is probably abused by those who have cars and use public transport because it is cheaper so not good value. Perhaps changing the rules here might be more productive. Handicabs and Dial-a-ride should be subsidised and isolating those in remote areas by removing routes not commercially viable would not be a supported view.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33188	An individual	7d. Reprioritised Passenger Transport Strategy	It would be totally unfair and isolating to withdraw the concessionary bus pass from the elderly who can not afford to travel otherwise. Means testing the travel concession card should be explored for all new claimants.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33189	An individual	7d. Reprioritised Passenger Transport Strategy	Good effort! Zero subsidy for transport and also remove free bus passes for anybody still in work. It is common to board a bus and see nobody under the age of 60 on it. Who pays for that?	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33190	An individual	7d. Reprioritised Passenger Transport Strategy	Agree with reviewing strategy for bus routes and concessionary transport schemes.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33191	An individual	7d. Reprioritised Passenger Transport Strategy	Review whether those working over 60â€™s should get discounted travel	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33192	An individual	7d. Reprioritised Passenger Transport Strategy	Maybe the concession rate could be for children and people on low incomes. These people are being asked to pay more council tax and pay more to get to work, the government initiative of giving all pensioners free travel needs to be addressed as not all pensioners need their income supplemented	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33193	No Response	7d. Reprioritised Passenger Transport Strategy	Remove or reduce Taxicard scheme. Remove all rail travel subsidies for over sixties.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33194	An individual	7d. Reprioritised Passenger Transport Strategy	you already put up concession travel on the train by 100%	Passenger Transport Strategy - concessionary travel	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
33195	An individual	7d. Reprioritised Passenger Transport Strategy	Everyone should pay the same fare for travel. Similar to Edinburgh. One flat rate for one journey. Would improve the use of public transport. Should charge parents a drop of charge around schools, encourage the walking buses.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33196	An individual	7d. Reprioritised Passenger Transport Strategy	Agree this proposal - it is a subsidy to the private sector.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33197	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	this could mean loss of essential bus services for vulnerable people	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33198	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services are often the only means of transport people have. It often defines whether an individual can live where they live or not. These services must be maintained and at a frequency that make them a viable form of transport for the user. I would suggest that the concessionary rail fares for the over 60s should be reduced or withdrawn to finance the bus network as over 60s (and I am one of them) can currently do the same journey by bus for free.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33199	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This will isolate more rural communities.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33200	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary transport schemes should be means-tested. Most of the people who have free bus travel can afford to pay for it.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33201	An individual	7d. Reprioritised Passenger Transport Strategy	Those that cannot afford to pay more, should pay more.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33202	An individual	7d. Reprioritised Passenger Transport Strategy	As long as it is kept to a small amount lots of pensioners only go out of house as they have their bus passes.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33203	An individual	7d. Reprioritised Passenger Transport Strategy	Do the elderly need free bus passes? Is it a statutory requirement?	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33204	An individual	7d. Reprioritised Passenger Transport Strategy	We need to make sure that those with less get concessionary travel than those who can afford to pay. We do need to have earlier intervention with disability benefits whether from GP/nurses or Social Work dept.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33205	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	More support for the pensioners	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33206	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Agree with above however Handicabs and Dial a Ride reduction would be disappointing for those who use these services.	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33207	An individual	7d. Reprioritised Passenger Transport Strategy	Wider need to consider impact upon disabled or ill members of the community. I would like to see an impact assessment published and further consultation ahead of any change	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33208	An individual	7d. Reprioritised Passenger Transport Strategy	Agree in fact as a working parent I will always drop my kids at school. If school started earlier it would be great. As for other transport I am unaware if it gets abused.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33209	An individual	7d. Reprioritised Passenger Transport Strategy	This will be painful for many. Why not scrap the unnecessary over 60s rail concession? It is over-generous and most other local authorities don't provide the same concession.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33210	An individual	7d. Reprioritised Passenger Transport Strategy	Please be mindful that community outreach and community base resources may still require some travel. I would state emphatically that taxi cards should remain for older people.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33211	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Yes concessionary bus travel could be limited to maybe 40 miles and not the whole of Scotland. Dial a bus and handicabs are for disabled so maybe just a small fee, as they need transport that's not necessarily public	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. The Concessionary Travel Scheme is provided by Scottish Government and is outwith the control of West Lothian Council.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
33212	An individual	7d. Reprioritised Passenger Transport Strategy	Many wealthy pensioners get free bus passes which cost the council too much money.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33213	An individual	7d. Reprioritised Passenger Transport Strategy	Discontinue elderly rail concession where there is an adequate bus service. This is money that could be directed as a contribution to subsidising bus services.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33214	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionaire bus passes are essential for the disabled and carer to get to resources	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33215	No Response	7d. Reprioritised Passenger Transport Strategy	You should also review your policy of an additional council subsidy towards train travel over and above concessionary travel card, why should they pay nothing to travel on the train? As you say those that can afford to pay should do so.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33216	An individual	7d. Reprioritised Passenger Transport Strategy	Keep the travel concession	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33217	An individual	7d. Reprioritised Passenger Transport Strategy	I feel that free concessionary travel should be removed	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comments have been noted. The Concessionary Travel Scheme is provided by Scottish Government and is outwith the control of West Lothian Council.
33218	No Response	7d. Reprioritised Passenger Transport Strategy	Subsidies for train travel should either be discontinued or only available for journeys starting and ending in West Lothian.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33219	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary travel should be kept as the benefits outweigh and revenue generated	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme
33220	An individual	7d. Reprioritised Passenger Transport Strategy	I would not like to see the bus pass disappear as this helps many elderly people get out & about & help keep active rather than spend too long at home alone.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33221	An individual	7d. Reprioritised Passenger Transport Strategy	The contribution towards rail fares into Edinburgh/Glasgow could be stopped as it is possible to get to these destinations by bus.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33222	An individual	7d. Reprioritised Passenger Transport Strategy	I think free bus passes from 60 is ludicrous. Again customer contribution to costs is surely better than cutting services.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33223	No Response	7d. Reprioritised Passenger Transport Strategy	I think West Lothian should increase the age for bus and train travel to 70 as many people now work until that age	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33224	An individual	7d. Reprioritised Passenger Transport Strategy	The council needs to prioritise linking communities and providing local bus services over and above a concessionary rail scheme. The rail scheme is a generous benefit to residents within West Lothian and encourages non essential travel outwith the council area. If removing subsidies for local bus providers, the council should lobby the Scottish Government to bring in regulation of bus transport which would mean better provision of transport across West Lothian and Scotland. This would mean commercial operators couldn't cherry pick the most lucrative routes.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33225	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary bus travel should continue to be provided which will provide a lifeline for some members of the public.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.

33226	An individual	7d. Reprioritised Passenger Transport Strategy	How are vulnerable and older people supposed to go anywhere if there is no bus service. Some of these people live in rural areas where they rely on the bus.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33227	An individual	7d. Reprioritised Passenger Transport Strategy	i think bad idea if they do away with conessionary it no fair on old people.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33228	An individual	7d. Reprioritised Passenger Transport Strategy	I'm not in favour of reducing concessionary travel, unless by means testing?	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33229	An individual	7d. Reprioritised Passenger Transport Strategy	We need to get rid of concessionary rail - this is widely used by the rich to go outwith West Lothian. This harms our local economy and is of no benefit.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33230	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary bus travel is a Scottish & UK Government initiative and there is a current consultation on this.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33231	An individual	7d. Reprioritised Passenger Transport Strategy	Changes to travel concessions can have a detrimental impact on health & wellbeing.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33232	An individual	7d. Reprioritised Passenger Transport Strategy	Many services , (Free bus pass, subsidies on rail travel) are used by individuals who could easily afford to pay.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33233	An individual	7d. Reprioritised Passenger Transport Strategy	Keep concessionary bus passes	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33234	An individual	7d. Reprioritised Passenger Transport Strategy	L1 bus and 31 bus are essential for Linlithgow and must not be stopped	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33235	An individual	7d. Reprioritised Passenger Transport Strategy	As someone who has a "free" bus pass, I and lots of my friends believe that it is totally unnecessary to be able to travel the full length of Scotland free. When I got my bus pass first, we got free travel in our area, but paid a token amount elsewhere and this should be done depending on how far you are travelling.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33236	No Response	7d. Reprioritised Passenger Transport Strategy	With regards to bus passes being issued to all at age 60 why not have people apply when they retire. Many people work beyond the age of 60 and still have cars etc and are able to pay for such costs.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33237	An individual	7d. Reprioritised Passenger Transport Strategy	Cut travel concessions to bus only rather than the present when there are concessions for bus and trains. Falkirk council are doing this. Also raise the current age of 60 to 65 for concessionary travel. Most people are working well over the age of 60.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33238	An individual	7d. Reprioritised Passenger Transport Strategy	Can savings be made by removing bus/train subsidy for over 60s. This needs to be means tested or restricted to over 70s.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33239	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	old people are not necessarily always the less well off. There could be a charge levied for the concessionary travel pass .	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.

33240	An individual	7d. Reprioritised Passenger Transport Strategy	The concessionary bus pass should only be available to people in receipt of their old age pension! Why are we paying the transport fares for people who have six more years to work? I know there are many executives over 60 who use their concessionary pass on the train to Edinburgh to go to work, whilst a minimum wage worker has to pay the full fare. Where is the fairness in that. The concessionary pass is used more in this category than by pensioners filling their day as there are no sufficient bus routes to get them to the centre or the train stations.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33241	An individual	7d. Reprioritised Passenger Transport Strategy	The age when concessions are given must be raised. Most people now work until 65 and should not be receiving free fares to take them to work.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33242	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian is well-served by rail. The concession for older people on the train is much appreciated and probably makes a lot of better off people happier about paying substantial council tax.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33243	An individual	7d. Reprioritised Passenger Transport Strategy	It is maybe the time to introduce a minimum basic bus fare for those people that use a travel card when travelling in West Lothian by bus. A minimal charge of 20p possibly? This might make a difference to the Council continuing to subsidise bus services that would otherwise have a much reduced or no bus service in the future. Access to facilities including attending doctor, dental and other appointments would be affected.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comments have been noted. The concessionary fare scheme is a Scottish Government scheme - they would need to make this change and the increased revenue would go to the bus operator for 80% of the journeys in west Lothian.
33244	An individual	7d. Reprioritised Passenger Transport Strategy	A flat rate of £1 per person for concessionary bus passes would be affordable for everyone	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comments have been noted. The concessionary fare scheme is a Scottish Government scheme - they would need to make this change and the increased revenue would go to the bus operator for 80% of the journeys in west Lothian.
33245	An individual	7d. Reprioritised Passenger Transport Strategy	I use the number 31 bus from Linlithgow to get to work every day in Bathgate. If this was to cease I would not be able to get to work as there is no other public transport from Linlithgow to Bathgate. This bus is also the only public transport from Linlithgow to Livingston and without this getting to St Johns would be nearly impossible. This is also the only bus service for a couple of villages also Torphichen and Phillipstoun	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33246	An individual	7d. Reprioritised Passenger Transport Strategy	How much does free travel cost for the elderly? How many can actually afford to pay at least half the normal fare. Seems fair.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comments have been noted. The concessionary fare scheme is a Scottish Government scheme - they would need to make this change and the increased revenue would go to the bus operator for 80% of the journeys in west Lothian.
33247	An individual	7d. Reprioritised Passenger Transport Strategy	See above for ideas on bus passes (-When accessing visitor attractions disabled people are often charged but their carer goes free; perhaps this could also apply to bus passes). What ever happens the vulnerable will be affected the most.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
33248	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This seems reasonable although there is a danger of isolating those who will not be able to afford increased fares etc.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33249	An individual	7d. Reprioritised Passenger Transport Strategy	I do believe that concessionary rail travel could be reviewed / removed without great controversy.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33250	An individual	7d. Reprioritised Passenger Transport Strategy	Many of the bus routes that are not commercially available or viable are used by the less able and elderly, and perhaps on low income. That doesn't quite equate with a couple of the 8 Priorities given on the first page.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33251	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian at present does not have good public transport and is expensive.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. 80% of the public bus journey's in west Lothian are carried out on commercial routes which the council has no responsibility for. Charges are set by the operator.
33252	No Response	7d. Reprioritised Passenger Transport Strategy	West Lothian Council - Public Transport is not great at the present time and is expensive.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. 80% of the public bus journey's in west Lothian are carried out on commercial routes which the council has no responsibility for. Charges are set by the operator.

33258	An individual	7d. Reprioritised Passenger Transport Strategy	I feel concessionary bus travel should be means tested. Handicaps and Dial-a-ride are essential and need more money and vehicles to meet growing demand.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33259	An individual	7d. Reprioritised Passenger Transport Strategy	The only part of this proposal I agree with is the changes to the use of concessionary bus. I would be concerned about the impact of the rest to the public.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33260	No Response	7d. Reprioritised Passenger Transport Strategy	I have a bus concession but it used to be 50p per journey. I feel sad at young one parent families with price of bus fares. I think there should be a fixed price fare anywhere in livingston. My granddaughter lives in north end of town and I'm in the sth end. If she visits me it is cheaper for her to get a taxi than go by bus (£5). I think 50p is reasonable but some people have cars and use the buss pass to save money when they are quite well off. Same with family allowances should be means tested. NEED MORE HELP for homeless people should not be living on street.	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33261	An individual	7d. Reprioritised Passenger Transport Strategy	If people can be identified as being able to pay or at least contribute to council transport costs, they should, but do not make life harder for people truly in need.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33262	No Response	7d. Reprioritised Passenger Transport Strategy	A nominal fee for the use concessionary transport could help	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33263	An individual	7d. Reprioritised Passenger Transport Strategy	keep the bus service.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33264	An individual	7d. Reprioritised Passenger Transport Strategy	why not put pensioners in a Gulag and ship them around in cattle trucks as required.	Passenger Transport Strategy - concessionary travel	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
33265	An individual	7d. Reprioritised Passenger Transport Strategy	I will not support the cessatration of the concessionary transport scheme over 60's bus pass but however support raising the age to 65.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33266	An individual	7d. Reprioritised Passenger Transport Strategy	She also suggested that it was crazy giving 60 year olds free bus passes when the retirement age keeps going up and people are being forced to keep working for longer - many will have a free bus pass prior to retirement!	Passenger Transport Strategy - concessionary travel	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
33267	An individual	7d. Reprioritised Passenger Transport Strategy	Absolutely disgusting disabled people will lose there independence to balance your books hang your heads in shame	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33268	An individual	7d. Reprioritised Passenger Transport Strategy	Please do not transport concessions as this is a lifeline for many elderly people who lead independent lives, going to shops, attending clubs (what is left after council cuts) doctors etc.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33269	An individual	7d. Reprioritised Passenger Transport Strategy	Please do not cut concessions as this is a lifeline for the elderly, ie shops, drs, hospital appointments, socially.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33270	An individual	7d. Reprioritised Passenger Transport Strategy	Re concessionary bus travel if this is the card persons get at age 60 I would suggest that this is changed so that those still working do not get this card until they stop working or alternatively link the card to when persons get their government pension.	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33271	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary bus passes for over 60's should be reviewed. An annual charge for the pass should be considered	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33272	An individual	7d. Reprioritised Passenger Transport Strategy	A highly emotive area and should be very well considered and thought through. There are a number of outlying communities where elderly residents depend entirely on bus services for their day to day life.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33273	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Free bus passes should be issued when people have retired, not at 60. It is ludicrous to provide those in employment with free travel	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33274	An individual	7d. Reprioritised Passenger Transport Strategy	Savings on public transport could possibly be made by making a minimum charge for all users of say £1 for pensioners included (who on some routes are the only users).	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33275	An individual	7d. Reprioritised Passenger Transport Strategy	Willing to pay a bit more for concessionary travel on trains but need to continue to fund transport to less accessible parts of Linlithgow - to the south of the Union Canal as well as Springfield.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33276	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Contributions towards concessionary bus passed may help slightly. As a bus user, I appreciate the bus service and use it frequently. Prices are higher here than in Edinburgh.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33277	An individual	7d. Reprioritised Passenger Transport Strategy	There should be a charge for the elderly on buses at an appropriate level. No communities should become unsupported by public transport as a result of the changes	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33278	An individual	7d. Reprioritised Passenger Transport Strategy	Agreed. Remove concessionary travel from pensioners who are well off, similarly swimming and other free activities.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33279	An individual	7d. Reprioritised Passenger Transport Strategy	Charge all those with entitlement cards a small sum for bus travel eg 50p per journey.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
33280	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Taxi card - This is an area that is in need of either scrapping or drastically upgrading. There is a need for a replacement cost for lost cards, currently zero. There is also a need to reduce the antiquated paper based method of sup	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33281	An individual	7d. Reprioritised Passenger Transport Strategy	Leave the concessionary pass scheme alone	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33282	An individual	7d. Reprioritised Passenger Transport Strategy	Concessions often are the only way some residents can afford to get out and about.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33283	An individual	7d. Reprioritised Passenger Transport Strategy	WL rail concession could be increased by a small percentage each year.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33284	An individual	7d. Reprioritised Passenger Transport Strategy	The use of Dial-a-bus and Handicabs should be rationalised.	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33285	An individual	7d. Reprioritised Passenger Transport Strategy	The concessionary bus scheme for over 60s is a lifeline to those who would not otherwise be able to travel when required. It is important for the mental and social wellbeing that people can get out and about without worries about costs when they are retired and money is tight.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33286	An individual	7d. Reprioritised Passenger Transport Strategy	General I appreciate greatly my bus pass but feel the railway concession is unnecessary. Return X14 bus to Glasgow and remove train travel concession.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33287	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary bus passes could be used only out with busy times & a nominal sum charged as it used to be. With senior citizens having to work till 67 it would prevent passed being used to get to work.	Passenger Transport Strategy - concessionary travel	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
33288	An individual	7d. Reprioritised Passenger Transport Strategy	Sounds fine, with means testing increases could be made.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33289	An individual	7d. Reprioritised Passenger Transport Strategy	Many old people rely on the bus and train concessions. Again it aids them get out and about instead of stuck at home becoming depressed. mental health is as important as physical and causes as many if not more problems.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33290	An individual	7d. Reprioritised Passenger Transport Strategy	. I would be unhappy if the council stopped travel for the over 60s - I've only just started to use the system.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33291	An individual	7d. Reprioritised Passenger Transport Strategy	It would be a backward step to reduce bus routes. However I feel the majority of people with bus passes would be happy to pay a minimum amount - say 50p per journey. Card holders already pay a reduced fare on trains so why not on buses.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33292	An individual	7d. Reprioritised Passenger Transport Strategy	No do not remove bus routes You should means test elderly concessions	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33293	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	How are vulnerable disabled people expected to get about their community and have a good quality of life with the proposals to changes of the concessionary bus, handicabs and Dial-a-ride schemes. Does this mean there will be charges when using the scotland wide bus pass that disabled people and people over 60 use? It is a bit vague here what you mean to do exactly.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33294	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	While should be charges for school travel and removal of concessionary travel, the council subsidy should go into rural bus services e.g.; the Breich Valley communities routes as they are already isolated from work / leisure options and more service reductions will have a major effect on these already often deprived communities.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33295	An individual	7d. Reprioritised Passenger Transport Strategy	Small charge on bus concessions would make contribution. Investigate charging for school bus runs or journeys.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33296	An individual	7d. Reprioritised Passenger Transport Strategy	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Passenger Transport Strategy - concessionary travel	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33297	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Perhaps this could be means tested, however, once again it is affecting those vulnerable in society.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33298	An individual	7d. Reprioritised Passenger Transport Strategy	I agree that routes that are not commercially viable need to be looked at , however some of these routes do cover areas outwith our main towns and are the sole means of transport for some outlying villages to get to main towns for their groceries, banking etc. The concessionary transport could become a small charge for pensioners.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33299	An individual	7d. Reprioritised Passenger Transport Strategy	Handicabs and Dial-a Ride are essential services to the most vulnerable and should not be changed.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33300	An individual	7d. Reprioritised Passenger Transport Strategy	Concessions (bus pass) needs addressed. For those who can, a yearly pass costing Â£25-Â£30 could be bought similar to a senior railcard. I think the Â£4 train could be Â£5.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council.
33301	An individual	7d. Reprioritised Passenger Transport Strategy	The travel concession for travel on the trains should be increased to Â£3 each way.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33302	An individual	7d. Reprioritised Passenger Transport Strategy	concessionary travel is a god send to all pensioners in outlying villages. Please keep it free	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council.
33303	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The concessionary bus pass for some people is a life-line to get them to centres or libraries or council tax offices. Hopefully this will not be supported.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council.
33304	An individual	7d. Reprioritised Passenger Transport Strategy	Concessionary travel should be for the elderly - not others and carers. Reduction of bus fares would possibly increase the use of public transport.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council. In addition, West Lothian Council only subsidises 20% of the local bus network, the remaining 80% is provided on a commercial basis of which the council has no authority over, including the fares set.
33305	An individual	7d. Reprioritised Passenger Transport Strategy	Maybe extra pensioner concessions such as a cheap rail fares could be abolished or begin at state pension age. Any concession for old age at council properties could begin at that age.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33306	An individual	7d. Reprioritised Passenger Transport Strategy	We suggest increasing the initial age for a concessionary bus pass / national entitlement card in line with state pension provision (i.e. to 65 years old) and an initial charge of £10- 20 would be acceptable for an excellent benefit.	Passenger Transport Strategy - concessionary travel	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council.
33307	An individual	7d. Reprioritised Passenger Transport Strategy	I feel the only good thing we have left is the bus passes for free travel and the taxi cards for getting around.	Passenger Transport Strategy - concessionary travel	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33308	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Should reduce use of taxis for school / disable transport.	Passenger Transport Strategy - concessionary travel	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33309	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School transport could be reviewed. I know pupils get free buses when they live slightly further from schools however if there are safe walking routes, pupils should be considered to walk rather than take a bus. I believe these services could be reduced which will help to reduce our carbon footprint. .	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33310	An individual	7d. Reprioritised Passenger Transport Strategy	Sorry, the Council have created a concept, especially with Catholic High Schools, of bussing pupils, the current standards should be maintained. The council should look at why it should be subsidising First Bus.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33311	An individual	7d. Reprioritised Passenger Transport Strategy	If school transport is used this should be paid for by parents. In my experience this is primarily provided to students who attend schools outside of walking distance i.e. religious school. This is the parents choice and they should find their children's travel. Travel should still be available for students who need to attend special needs institutions.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33312	An individual	7d. Reprioritised Passenger Transport Strategy	School buses are essential for kids without safe walking route.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33313	An individual	7d. Reprioritised Passenger Transport Strategy	My child has to pay to use public transport to get to school so if parents chose to send their children to a school out with their catchment area, then I see no problem with charges being made. The same goes for denominational schools where children may have to travel further to attend.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.

33314	An individual	7d. Reprioritised Passenger Transport Strategy	I believe the council spend a fortune on taxis for schools. Surely this could be better managed.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33315	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	A significant review is needed in relation to school transport, especially in the area of taxi contracts	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33316	An individual	7d. Reprioritised Passenger Transport Strategy	You are tinkering with the biggest part of your budget when you should be bold and realise bigger savings. Cancel additional support waste such as taxi's taking kids to school	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33317	An individual	7d. Reprioritised Passenger Transport Strategy	No choice. As long as the lowest income families are protected, I see no reason that parents shouldn't contribute to school transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33318	An individual	7d. Reprioritised Passenger Transport Strategy	Also charge for school buses.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33319	An individual	7d. Reprioritised Passenger Transport Strategy	Children need to get to school safely and buses are the most sensible option given that many households have working parents and schools are not usually within walking distance the Council should maintain their subsidy.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33320	An individual	7d. Reprioritised Passenger Transport Strategy	As I don't use public transport I can't comment on these proposals. However when my son was at school he did benefit from free transport as he was over 2 miles from Secondary School and this was very much appreciated.	Passenger Transport Strategy - school transport	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
33321	An individual	7d. Reprioritised Passenger Transport Strategy	Do not agree with school transport review. Agree that some pupils could walk more but introduction of a statutory minimum mileage for them should be introduced as a blanket proposal. You should look at the journey to some schools. Some routes could be really remote and unsafe to ask a kid to walk compared to those in town.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33322	An individual	7d. Reprioritised Passenger Transport Strategy	The review of school transport is long overdue. There is a statutory requirement and the council exceed this by one half again!	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33323	An individual	7d. Reprioritised Passenger Transport Strategy	Again paying for taxis for children to get to school we should be looking at the costs and possibly getting benefits that they are given to cover these	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33324	An individual	7d. Reprioritised Passenger Transport Strategy	Parents should pay a flat bus pass rate for pupils for school bus.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.

Transforming Your Council Consultation 2017

33325	An individual	7d. Reprioritised Passenger Transport Strategy	Children going to taxi's in schools. Parents should be walking them to school. In my street there are 6 children going to school in Taxi;s to schools within walking distance. Give parents a choice either pay or contribute towards taxi's or walk. We as a council give far too much away for free to users.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33326	An individual	7d. Reprioritised Passenger Transport Strategy	School transport is badly managed, my street alone has 6 different taxis.(2 taxis for one family as the brothers argue in a taxi) Parents receive mobility elements/mobility cards in their DLA claims, these are to transport their children. Children who live around the corner from the autism and special needs units get transport too. Why can a physical healthy child not walk to school with its parents like any other children? (my child also gets a taxi and we stay a 10 minute walk from school/autism unit and part of the education plan is for him to self travel but I could do this easily myself)	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Children receiving school transport can have different additional support needs and therefore transport requirements can vary. The council continually reviews transport arrangements with a view to minimising cost whilst meeting the needs of the children requiring transport..
33327	An individual	7d. Reprioritised Passenger Transport Strategy	Do not provide school transport over the minimum required by law. Walking or cycling a short distance to school is much more healthy, sustainable, and removes opportunities for bullying on the busses.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33328	An individual	7d. Reprioritised Passenger Transport Strategy	Why are there so many taxis taking kids to school, this is the parents responsibility.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33329	An individual	7d. Reprioritised Passenger Transport Strategy	As previously noted why are there so many taxis for school kids.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33330	An individual	7d. Reprioritised Passenger Transport Strategy	Decisions should not be based on false economies - forcing a large number of parents into driving and dropping off children where one bus currently manages the traffic would not be a desirable outcome.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33331	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School transport should be brought in-house so as to stop paying companies like Prentice Westwood a fortune in bus costs.	Passenger Transport Strategy - school transport	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
33332	An individual	7d. Reprioritised Passenger Transport Strategy	In addition, the council need to bring its school transport provision into line with most other councils and revert to the statutory minimum mileages for school transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33333	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School transport should be a key focus for savings.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33334	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	For the most part getting children to school should be the parent's responsibility and fall to the child when they are old enough. The use of bicycles may increase in the absence of a school bus to everyone's advantage. The use of taxis to provide some children with transport to and from school appears to have proliferated and should be reviewed.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33335	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I would not mind paying for school transport for my child to get to school. It could be means tested.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

33336	An individual	7d. Reprioritised Passenger Transport Strategy	There are too many historic arrangements in place for school transport services that contravene the current policies. This does not represent a balanced playing field for all service users.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33337	An individual	7d. Reprioritised Passenger Transport Strategy	Agree with this i.e. mileage minimum for schools	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33338	An individual	7d. Reprioritised Passenger Transport Strategy	Make sure child is at the school cab companies must be told when not needed no taxi no bill.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33339	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Agreed with school transport review. People should pay.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33340	An individual	7d. Reprioritised Passenger Transport Strategy	The council's policy of using taxi's for school children needs to be seriously reviewed and at the very least should be means tested. This must be costing the council a fortune! Surely where possible, the parents should transport their own child to school.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33341	An individual	7d. Reprioritised Passenger Transport Strategy	this should also include the taxi's that are used for transporting school children to and from their homes, there must be huge cost savings to be made here. I know of several cases where taxis have only one passenger on board. This should at the very least be means tested, with parents being encouraged to transport their own child to school where possible.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33342	An individual	7d. Reprioritised Passenger Transport Strategy	The council pay a lot of money for school transport and the private firms send buses that are not fit for purpose. Arriving late continually and a bad state of repair	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33343	An individual	7d. Reprioritised Passenger Transport Strategy	as long as that doesn't affect children access to school	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33344	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The amount of pupils at school requiring taxis, often to the same place at the same time, is quite surprising. There must be a better way around this.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33345	An individual	7d. Reprioritised Passenger Transport Strategy	My son gets on a school bus everyday, but is never asked to show his pre-paid ticket to the driver. Before consideration is given to stopping school bus services, an effort should be made to collect revenue from those children who are meant to pay.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33346	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Support statutory school mileage implementation.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33347	An individual	7d. Reprioritised Passenger Transport Strategy	I think providing a service for the elderly or disabled should be a priority over school transport. Some school children wait longer at the bus stop waiting for the bus than it takes them just to walk to the school.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33348	An individual	7d. Reprioritised Passenger Transport Strategy	Individual taxis for pupils is a waste of resources. I know of one child who is well within walking distance of the Oglivie Campus who is picked up by taxi each day to go to school. This is a waste of resources and his mother was confused as to why it is necessary	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Children receiving school transport can have different additional support needs and therefore transport requirements can vary. The council continually reviews transport arrangements with a view to minimising cost whilst meeting the needs of the children requiring transport.
33349	An individual	7d. Reprioritised Passenger Transport Strategy	Statutory minimum for school transport - yes as long as transport for additional needs pupils is maintained bus routes that are not viable should be stopped	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Children receiving school transport can have different additional support needs and therefore transport requirements can vary. The council continually reviews transport arrangements with a view to minimising cost whilst meeting the needs of the children requiring transport.
33350	An individual	7d. Reprioritised Passenger Transport Strategy	Why not remove school specific buses all together and provide students with Bus passes for regular scheduled buses?	Passenger Transport Strategy - school transport	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council has a legal obligation to provide free transport out with certain distances to school.
33351	An individual	7d. Reprioritised Passenger Transport Strategy	Again this seems to be a necessary evil. But would it be preferable to charge for school transport in certain cases rather than withdraw it.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33352	An individual	7d. Reprioritised Passenger Transport Strategy	I do believe changes should be made to the taxi services provided for school children. The amount of taxis I see dropping children off at my sons school in a morning is ridiculous. Must be cost savings available there.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33353	An individual	7d. Reprioritised Passenger Transport Strategy	We should only support transport and bus routes for the vulnerable.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33354	An individual	7d. Reprioritised Passenger Transport Strategy	School buses should remain to children from one town to another what needs to stop is the use of a bus to transport high school children for example from one end of armadale to another, its an outrageous waste of money no primary school children are bused around armadale, Also taxis being used when parents have means of transport available perhaps widening the boundaries would be prudent	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33355	An individual	7d. Reprioritised Passenger Transport Strategy	I think school transport is too important to reduce the services.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33356	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Public transport should be used for transport for schools and changing routes/charges to suit should be feasible - could even have volunteer bus monitoring!!! Should not be subsidising transport for pupils outwith public transport routes.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33357	An individual	7d. Reprioritised Passenger Transport Strategy	Stop providing school transport, pupils should attend their local catchment school	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33358	An individual	7d. Reprioritised Passenger Transport Strategy	The school bus service is a shambles, with the council sending out letters to parents to contact private hire operators with no numbers, private hire operators taking additional kids on additional routes that the council hadn't authorised but are no doubt paying for. If the school bus service was run more efficiently no doubt there would be savings.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33359	An individual	7d. Reprioritised Passenger Transport Strategy	All school transport must be maintained where school pupils have an unreasonable distance to walk or where family transport is not available.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33360	An individual	7d. Reprioritised Passenger Transport Strategy	Some school pupils can easily walk (and live less that 2miles!)	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33361	An individual	7d. Reprioritised Passenger Transport Strategy	What is needed is consideration of where people wish to travel to / from and at what times not further cuts. For example, children from the west end of Linlithgow are having to travel to Springfield Primary as that is the school with available places. Instead of multiple cars transporting children, consider the timing of buses to fit with school opening and closing times. Buses to other parts of West Lothian are likewise ill-timed - anyone called for jury duty from Linlithgow has great difficulty getting to Livingston at the right time.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33362	An individual	7d. Reprioritised Passenger Transport Strategy	I agree that savings could be made here, especially children being taxed to and from school.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33363	An individual	7d. Reprioritised Passenger Transport Strategy	Suggestion: Can tendering for School Transport be changed so contracts are for 2 x 2 years and then three years, as many pupils remain static. If the tendering process is run from April and contracts awarded at the end of May it will allow transport companies to employ staff and vehicles in a timely fashion. Special School Pupils will be able to meet their drivers and escorts before the summer holidays and children can be ready of the new school year. This will remove anxiety and children, parents and all involved with transport. This will help from a commercial perspective and also mental health of children, staff managing the tender and contracts and also drivers/escorts knowing they have a job or not so they can plan accordingly.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review..
33364	An individual	7d. Reprioritised Passenger Transport Strategy	I'm alarmed by the number of pupils entitled to free taxis to and from school - or rather, the current operating model. Surely it would be cheaper and more efficient to have minibuses collecting several children rather than them each having a private cab..?	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33365	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School transport should not be provided to those within the statutory minimum distances.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33366	An individual	7d. Reprioritised Passenger Transport Strategy	Keep the L1 and 31 service they are needed for the elderly.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33367	An individual	7d. Reprioritised Passenger Transport Strategy	increase the walking distance to 3.5 miles for children need transport for school. I am sure that its actually up to the parents to ensure safe travel for their children to and from school.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33368	An individual	7d. Reprioritised Passenger Transport Strategy	I would suggest some level of school bus travel charges .	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33369	An individual	7d. Reprioritised Passenger Transport Strategy	School bus provision must not be decided solely on distance, but also on safe routes.	Passenger Transport Strategy - school transport	3. The respondent advised that they had no comment to make.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33370	An individual	7d. Reprioritised Passenger Transport Strategy	Why are so many kids in taxis all the time too, surely it's the parents choice to live where they live they have a responsibility to get their kids to school. I see the need for a schools bus full of kids, but really taxis, how much does that cost? I think they parents should be asked to pay, or bring them to school like everyone one else!	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33371	An individual	7d. Reprioritised Passenger Transport Strategy	Working with schools and parents to share a lift to school policy - trying to get kids walking to school hasn't worked, so get on board with what people actually do, i.e. drop and pick the kids up by car, so actively encourage neighbours / friends etc to carpool.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33372	An individual	7d. Reprioritised Passenger Transport Strategy	This is an area where services could be reviewed. Could school transport be means tested?	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

33373	An individual	7d. Reprioritised Passenger Transport Strategy	I also generally support cuts to school buses. Most teenagers are within easy walking distance to their local school. Cutting the bus service would save money, reduce carbon emissions and encourage healthier choices / ecersise.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33374	An individual	7d. Reprioritised Passenger Transport Strategy	I also object to the current taxi service many well off families enjoy. For example if a parent in an outlying region opts to send their child to school in linlithgow rather than tAking a place at their local school, they should not qualify for a state funded taxi there and back daily.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33375	An individual	7d. Reprioritised Passenger Transport Strategy	this should be left as it is. Children that travel in taxis need to be in them as they can't cope with traveling with other children. And if you change it from 2 miles to 3 miles them kids won't go to other schools and the school in their community will be overcrowded and some kids won't go to school as they can't get a place then the attainment gap will be worse than it has ever been. The council have work men van cut the number of them and save on changes for our kids.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33376	An individual	7d. Reprioritised Passenger Transport Strategy	With regards to school transport.for children with SEN to and from. School. The cheapest option isn't.always the best option. A revamp of routes may be a better option .	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33377	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School transport is already capped at 2 miles - would this be made even futher? With our wet weather kids would be soaked and need to sit in wet clothes all day if this was further reduced. This would also lead to more kids being taken to school by car and cause even more congestion making it dangerous for pupils walking to school too. Not fair for people in rural areas to be penalised for transport.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33378	An individual	7d. Reprioritised Passenger Transport Strategy	The school bus service is an invaluable service for children living out with the 2 mile catchment, especially younger children who would be unable to walk the distance to school daily. Free school bus services to denominational schools should not be provided. These should be treated the same as a non catchment school.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33379	An individual	7d. Reprioritised Passenger Transport Strategy	I think that all school kids who require a bus service should get it free and if you make those 60 and over apply for a bus pass when/if they require it, given that many are still working and can afford to pay for their own transportation.	Passenger Transport Strategy - school transport	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government has responsibility for the Concessionary Travel Scheme
33380	An individual	7d. Reprioritised Passenger Transport Strategy	Encourage walking to school. Increase distance that secondary school pupils are expected to walk rather than get school bus provided.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33381	An individual	7d. Reprioritised Passenger Transport Strategy	Agreed. Transporting some individual pupils to school by taxi seems ludicrous and wasteful.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33382	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33383	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Agree for school transport - kids should be encouraged to walk/cycle to school.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33384	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	As for minimum mileage limits for school transport - some schools have a problem with parent car usage and the effects of this on local residents; reducing the limits could lead to more parents using cars!	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

33385	An individual	7d. Reprioritised Passenger Transport Strategy	Fully agree that we should , impose statutory transport distances for school transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33386	An individual	7d. Reprioritised Passenger Transport Strategy	The school free bus pass if living over two miles away from catchment school should not be changed. There are closer schools my son could attend, but I am told that WCHS is the school he should attend - it is over 2 miles away.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33387	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	As commented above. I would understand if we had to contribute towards our sons school transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33388	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	In contrast too much is spent on educational support such as taxi's to alternate educational establishments where there is not availability in preferred school. Costs of transport for additional support pupils is excessive. For example a pupil with mild Asbergers having with two cars in the family, being collected daily by taxi and support worker to and from school. This is an unnecessary expense. It is happening all too often.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33389	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Activities in this department should meet and not surpass the statutory requirements in terms of transport to school. 3.2 KM under age 8 4.8 Km age 8 and upwards These are the distances from home to school where if exceeded we have a duty to provide transport. An excessive amount is being spent on transport for children to school where it is not a statutory requirement. Parents should be accompanying their children to school or the child should be walking. Families with cars in particular should be ensuring the child is taken to school, this does not require the local authority's input. This is a luxury that can no longer be afforded. Parents should be looking after their own children where they can.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33390	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	An updated transport strategy which focuses on statutory minimum mileage limits for school transport is a good idea. People should be ensuring their children attend school. This includes ensuring they travel to school safely or where possible are accompanied by their parents. Transport costs to schools are excessive. Additional support transport costs are excessive in many cases. A higher test should be applied.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33391	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian is well-served by rail. Schools should be encouraged to get the children to walk to a station and travel on a group ticket rather than hiring a bus, wherever possible.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33392	An individual	7d. Reprioritised Passenger Transport Strategy	See above. West Lothian is well-served by rail. Schools should be encouraged to get the children to walk to a station and travel on a group ticket rather than hiring a bus, wherever possible.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33393	An individual	7d. Reprioritised Passenger Transport Strategy	parents who's children use school buses down south are charged. Why can't a means tested charging system be implemented for pupils who want to use school buses.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a statutory duty to provide free school transport however its current boundaries are less than those covered by the statutory requirement so there is scope to move the boundaries our to reduce cost.
33394	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The dial a ride scheme is good. The implementation of statutory minimum mileage limits for school transport will be unpopular as they are quite high, but they are already implemented by other Local Authorities.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

33395	An individual	7d. Reprioritised Passenger Transport Strategy	Exploring alternative transport models is welcomed. I know that West Lothian Council provides greater than the statutory minimum mileage limits for school transport, changes to that at this time could place a greater burden on financially challenged families and as such would be a very controversial decisions.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33396	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	Time would be needed to allow families to make alternative provisions. This could impact on school attendance if journeys become more problematic for people.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33397	An individual	7d. Reprioritised Passenger Transport Strategy	Agree that reduction in use of school taxis paid for by the council, where customers could afford to pay for these, is appropriate.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33398	An individual	7d. Reprioritised Passenger Transport Strategy	How will the people who rely on these services be provided for? However I am in favour of reducing school bus provision within reason. There is no reason why secondary school children cannot walk or cycle a couple of miles to school	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33399	An individual	7d. Reprioritised Passenger Transport Strategy	Reducing the distance for free school transport is unfair on those on low incomes and living in areas where it is not easy to walk to schools. Kids attending Catholic schools nearly all live a fair distance from school. It would be unfair to make it difficult for them to attend their nearest denominational school.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33400	An individual	7d. Reprioritised Passenger Transport Strategy	If you change school transportation, then change school hours so that children can travel safely in daylight!!!	Passenger Transport Strategy - school transport	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33401	An individual	7d. Reprioritised Passenger Transport Strategy	Some areas of school transport do not come into the statutory minimum distance, i.e. Craigshill to Inverlaimond, but for safety reasons must be continued.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33402	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The council should consider taking school transport in house employing drivers and escorts. Many semi-retired people would be interested in this and the vehicle could be used for other purposes outside the key drop-off times. Surely there would be savings to be made because taxi and mini-bus firms are making profits out of this.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33403	An individual	7d. Reprioritised Passenger Transport Strategy	Why don't they just get the kids' parents to pay a small fee for their bus passes? For one, I wouldn't mind it... Those that can walk would walk... I also wouldn't mind paying a yearly fee for my bus pass	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33404	An individual	7d. Reprioritised Passenger Transport Strategy	Leave the buses alone we have hardly any as it is and kids need to get to school	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

33405	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Taxis to and from schools for pupils should be paid from parents... I am unsure as to why some pupils get taxis paid for	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33406	An individual	7d. Reprioritised Passenger Transport Strategy	why it is the councils job to get their kids to school. They should be able to get them to the nearest school bus stop. What is core service? Push a few boundaries on charges.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33407	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	It is a parental responsibility to make sure pupils go to school. If parents choose to live out in the countryside then they have to accept that the school is not on their doorstep and that they need to arrange transport for their children. Their responsibility... not the council's! I do not see why the Council needs to pay 20% of this. Also, I do not agree with pupils being sent a taxi to collect them every morning if they choose to attend a school out of their catchment.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33408	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Providing taxis to and from school for children is a waste of money considering there are schools more local to their home addresses. There is no need for children to be travelling up to half an hour each way in a taxi.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
33409	An individual	7d. Reprioritised Passenger Transport Strategy	If the school mileage limits were raised, more children would walk to school which would save money and also reduce obesity.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33410	An individual	7d. Reprioritised Passenger Transport Strategy	I know lots of councils operate to statutory requirements for school transport so even as a parent I would agree that this is needed if it means money can be prioritised to school education and cuts aren't made to schools.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33411	An individual	7d. Reprioritised Passenger Transport Strategy	I will be very aggrieved if this proposal affects Home to school transport for disabled children. We didn't ask for our child to be disabled or to travel out with our local area to attend a special school. Any cuts to this for disabled, vulnerable or elderly people is blatant discrimination.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33412	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	7D) Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33413	An individual	7d. Reprioritised Passenger Transport Strategy	I trust that transport to schools such as Pinewood and Cederbank would continue to be provided to all.	Passenger Transport Strategy - school transport	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
33414	No Response	7d. Reprioritised Passenger Transport Strategy	7D) Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33415	An individual	7d. Reprioritised Passenger Transport Strategy	School transport MUST be reviewed. I think a child travelling to school in a taxi should be an absolute last resort. I know first hand of children who are transported to Windyknowe Primary school/nursery in a taxi when their mother is at home with a car. I think the council must be tougher on parents to get their children to school and to get them to their catchment school. School buses are necessary. Especially for schools like St. Kentigern's Academy and West Calder High where the catchment areas are wide. I also think that a family who chooses to live in a rural location should have the onus placed on them to get their children to a school bus pick-up point and not expect a taxi. People who choose to live in West Lothian must understand the geographical spread of the area. I am an incomer to West Lothian and chose to live here. I completely understand that some areas are rural and semi rural. This is part of life here and people should not expect the council to subsidise their transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33416	An individual	7d. Reprioritised Passenger Transport Strategy	School transport???? Have you seen the number of taxi's at school finishing time, with only 1 child on board? It's a disgrace.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33417	An individual	7d. Reprioritised Passenger Transport Strategy	School transport should not be cut as we need to make it as easy as profit children to gain an education.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33418	An individual	7d. Reprioritised Passenger Transport Strategy	Not really sure why free transport is ever provided to school.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33419	An individual	7d. Reprioritised Passenger Transport Strategy	Stop subsidising school buses and taxis. If people require these and choose to live out in country or send kids to a school out of catchment then they should pay costs themselves. Tax payers cannot afford such frivolous luxury.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33420	An individual	7d. Reprioritised Passenger Transport Strategy	Please review use of taxis for children whose parents have chosen to move them out of catchment. The council should absolutely NOT subsidise the travel for people who have moved to the other end of town or to a different town. I am aware of a child who was transported from one end of Linlithgow to another for a full 7 years, simply because a sibling was already in school when they moved. Taxis should only be used for children who need to attend special schools or where the council cannot provide a place in the catchment school - and there should be a cap on the latter (e.g. for 6 months only). Parent should then either pay a fee or be encouraged to make private arrangements. IN many cases it would be possible for children to walk or be driven to out of catchment schools.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33421	An individual	7d. Reprioritised Passenger Transport Strategy	The school bus mileage should be based on the distance deemed to be an appropriate distance for children to walk there and back on a daily basis. he changes	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33422	An individual	7d. Reprioritised Passenger Transport Strategy	School transport should be reviewed. There seems to be a disproportionate use of taxis to ferry school children about apparently paid for by the schools.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33423	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33424	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	If changes are to be made to school transport then there may have to be consultation regarding this and assessments made of walking routes to ensure that we are meeting all of our statutory duties.	Passenger Transport Strategy - school transport	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33425	An individual	7d. Reprioritised Passenger Transport Strategy	I support a review of current policy of providing free/subsidised taxi and bus services to school pupils outwith a certain distance from schools. I am aware of quite a few families currently living outside of town, due to their own personal choice, who can well afford to pay full fares, or catch a school bus, rather than having a subsidised/free taxi to collect their children from their house. (I think this is a waste of scarce funding resources.)	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33426	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	Safe school travel is important, please be mindful of busy routes, lack of lighting or pavement and not compromising child safety when revising school transport.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33427	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The council needs to look at the transporting of children in special education by taxi and with an escort. Most parents would be happy enough to take children to school themselves. The current systems do not make sense and do not even give parents / carers the option to refuse it.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33428	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Again, looking into the school transport side this should be means tested even further and only for the children unable to get to school. prioritizing the routes would be beneficial.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33429	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I do not agree with these proposals. School transport is important for children who live a distance from school. Local bus services are important for the elderly and people on low income as they depend on public transport.	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33430	An individual	7d. Reprioritised Passenger Transport Strategy	Use statutory minimum mileage limits for school transport.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33431	An individual	7d. Reprioritised Passenger Transport Strategy	Re-assess those who get taxi services	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33432	An individual	7d. Reprioritised Passenger Transport Strategy	Suggestion: reduce taxis taking children to school when both parents & grandparents have a car each!!!	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33433	An individual	7d. Reprioritised Passenger Transport Strategy	I think you should think about encouraging the parents of special needs children to be responsible for getting their kids to school and home where possible. Another option would be buses instead of taxis - save millions! There are too many education cuts already in place - try to think of other areas to target.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33434	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I think bosses at top or play ground assistants in mainstream schools, people that got cars could take their kids for school instead of taxis.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33435	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Look at school transport. Are all bus routes run by sufficiently small vehicles ? 25 seater buses transporting 10 pupils ?	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33436	An individual	7d. Reprioritised Passenger Transport Strategy	you target children by removing transport for attending school activities which involve e.g. taking a whole school walking a long distance to churches etc., and putting extra pressure on teachers to make sure of their safety. This is not a caring council. It would be good to know exactly what you spend your budget on and then perhaps we can make a more informed decision on how to bridge the gap. I am sure there are many areas within the council that can be targetted but unless we know what these are we cannot assist in helping	Passenger Transport Strategy - school transport	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33437	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Change the transport for children within special schools. More minibus contracts rather than several taxis sometimes only transporting one child.	Passenger Transport Strategy - school transport	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33672	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Yes. Plus the services that buses supported by council funding need to make sense. I worked in Kirkton Campus and there were buses that left 5 mins before or exactly on the end of a shift change and by the time you got out of the building you either had to walk or wait while the bus you missed drove off empty!	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33673	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I would suggest also investigating if subsidies being properly used by bus companies. I have heard reports of someone with a concession card asking to go one stop in Livingston but the ticket issued is for all the way to Edinburgh or Bathgate. Does this mean the council is charged more for longer journeys?	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus pass scheme is a national scheme that is provided by the Scottish Government. West Lothian Council is not charged for this scheme.
33674	An individual	7d. Reprioritised Passenger Transport Strategy	yes get rid of bus routes that are not viable	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33675	An individual	7d. Reprioritised Passenger Transport Strategy	Some bus routes should be subsidised as people rely on them for employment.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33676	An individual	7d. Reprioritised Passenger Transport Strategy	Bus Route subsidies should be stopped.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33677	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I am unclear in relation to the removal of subsidies for bus routes that are not commercially available or viable whether this means that some communities would no longer have bus services - this would affect older people and those on benefits disproportionately as they are least likely to afford / have access to private transport	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33678	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Any specific proposals should be fully consulted on with the affected communities. Some of our more rural communities already feel cut off and struggle to access services, jobs etc due to the lack of public transport available.	Passenger Transport Strategy - subsidised routes	4. The council is already doing this.	The council is seeking the views of residents on the budget proposals. These views will help the council to make informed decisions on the issues which reflect local priorities, identified by communities.
33679	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Subsidies of bus routes cause problems on other routes. If drivers are off sick or absent the subsidised routes get the drivers and they are pulled off other routes to cover. If for example Rangers are playing on a Sunday and you are not on a subsidised route then you can spend hours trying to get a bus. Any complaints to the bus company are ignored.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33680	An individual	7d. Reprioritised Passenger Transport Strategy	Any reduction in the transport or winter maintenance services for the village of Kirknewton would affect the already poor service.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33681	An individual	7d. Reprioritised Passenger Transport Strategy	Some buses have a poor take up and other more cost effective other transport could be used	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33682	An individual	7d. Reprioritised Passenger Transport Strategy	Most busses I see in WL are almost empty. It is appreciated that some people rely on these services, however the efficiency could be improved.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33683	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Bus services that connect towns within WL should not be withdrawn or tampered with in any way. I work/travel from Bathgate to Linlithgow every day by local bus. How else would I get there ? - I have no car.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33684	An individual	7d. Reprioritised Passenger Transport Strategy	Remove this...every time I see one of the Horsburgh mini busses, it's empty...	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33685	An individual	7d. Reprioritised Passenger Transport Strategy	A large number of buses run empty or with very few people on them. The strategy is obviously not working. The bus companies will continue to take money as long as it is offered.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33686	An individual	7d. Reprioritised Passenger Transport Strategy	Get rid of the Murieston bus run by Horseburgh. This must run at a loss as I have never seen more than 2 folk on it and it is not even timed to pick up rail passengers as it arrives and leaves before the train has stopped!	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33687	An individual	7d. Reprioritised Passenger Transport Strategy	Make first provide decent busses at a reasonable price.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely works with private sector service providers to provide the best possible services across West Lothian

33688	An individual	7d. Reprioritised Passenger Transport Strategy	I don't agree with you paying subsidies to private companies like first bus as their services are atrocious and I totally agree at looking into alternative transport and look into other companies	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33689	An individual	7d. Reprioritised Passenger Transport Strategy	agreed. The council should develop model templates for community provided transport	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33690	An individual	7d. Reprioritised Passenger Transport Strategy	Fab now you want to touch the buses our bus service tab the moment is rubbish and now it seems you want to make it worse . If I stayed in Edinburgh i would be able to go all the way to wallyford for £1.60	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33691	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This service is invaluable to us please do not change this	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33692	An individual	7d. Reprioritised Passenger Transport Strategy	As long as people living in isolated places are catered for, it makes sense to cease subsidy on some transport services.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33693	An individual	7d. Reprioritised Passenger Transport Strategy	We already have a very limited bus service route- I hope that this would not change.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33694	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport/bus services are vital to many in West Lothian allowing people to get about their lives. These should be all be maintained at current levels. Surely, by their very nature, the reason a bus route will receive a subsidy is because they are not commercially available or viable?!? They are needed. This is a silly proposal.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33695	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This could be difficult for isolated communities where older people would struggle to get elsewhere without subsidised transport. Would need extremely careful consideration so as not to isolate the elderly even further than they may already be.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider impact on vulnerable groups
33696	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	May lead to further isolation for rural communities.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33697	An individual	7d. Reprioritised Passenger Transport Strategy	Kill off the subsidies completely. Market forces will set the provision and cost.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33698	An individual	7d. Reprioritised Passenger Transport Strategy	Remove all subsidies.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33699	An individual	7d. Reprioritised Passenger Transport Strategy	Stop funding public transport. Council shouldn't be paying for buses unless they are popular	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33700	An individual	7d. Reprioritised Passenger Transport Strategy	Sensible. Ideally some systematic trigger to allow bus routes to be dropped so the process is not interfered with by couple local complaints or a vocal Cllr.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33701	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Before reducing any bus route need to consider impact on social policy users as this may result in increased costs if we are required to provide alternative transport	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33702	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Can't just focus on viable bus routes as the council has a responsibility to provide transport to residents in small rural communities who don't drive	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33703	An individual	7d. Reprioritised Passenger Transport Strategy	Instead of cutting life line services for the old, infirm and disabled, instead charge a nominal charge.	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comments. Your response has been noted. The Scottish Government has responsibility for the Concessionary Travel Scheme.
33704	An individual	7d. Reprioritised Passenger Transport Strategy	customers who use this service should be studied if it's found that the majority of device users are of low income then this again would be seen as discriminating against people on a low income.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33705	An individual	7d. Reprioritised Passenger Transport Strategy	This is a race to the bottom, if you remove subsidies you might as well say that you don't care about some areas. Look at Edinburgh that have a great transport strategy with a single price ticket for most journeys, which means that more people use the buses. If West Lothian did that, then they may find that local transports would start to be used again. Have you been on the so called local buses.....	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33706	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Make sure that older people are not trapped in their homes.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33707	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport terrible, scrap subsidies, get rid of first bus contract and outsource it all to Lothian buses who are looking to come through this way anyway.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33708	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Sadly this reduction in bus routes will most likely hit those that are poorest and depend on these services the most.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33709	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Look at bus passenger numbers, if buses are not full they should be cut.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33710	An individual	7d. Reprioritised Passenger Transport Strategy	Why subsidise, if folk don't use them stop paying. Money only goes to Horsburghs and their buses are terrible.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33711	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Stop subsidising private companies. If a route meets its costs then the service will run, if it doesn't then I don't see why I, as a tax payer, should contribute to the profits of private firms to run empty buses....	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33712	An individual	7d. Reprioritised Passenger Transport Strategy	Fares on subsidised services are too cheap! They do not represent the commercial market and fail to generate an income to the council that is worthwhile. As the services themselves are subsidised, why is it necessary to also subsidise the fare? Remove Christmas service provision. No other councils provide such a thing.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33713	An individual	7d. Reprioritised Passenger Transport Strategy	Scottish Government should provide subsidy for rural transport.	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
33714	An individual	7d. Reprioritised Passenger Transport Strategy	Subsidies for non-statutory bus routes should cease.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33715	An individual	7d. Reprioritised Passenger Transport Strategy	Please do not cut the no. 28 bus service.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33716	No Response	7d. Reprioritised Passenger Transport Strategy	Agreed but keep main hub routes subsidised.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33717	An individual	7d. Reprioritised Passenger Transport Strategy	Vulnerable communities need a reliable bus service. Dial a bus and handicaps are a lifeline for some people	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33718	An individual	7d. Reprioritised Passenger Transport Strategy	Wholeheartedly agree - too often see empty buses and council vehicles. Set reasonable routes/schedules and if folk don't want to utilise the option available (as it might mean a bit of a wait / an extension of their appointment) then that's up to them to pay for their own transport. Subsidising peoples lifestyle because they are not willing to be flexible is unacceptable. No reimbursement should EVER be made when a free or subsidised option has been ignored.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33719	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Use smaller busses, larger bussed regularly seen almost empty.	Passenger Transport Strategy - subsidised routes	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.

33720	An individual	7d. Reprioritised Passenger Transport Strategy	As someone who travels by bus, I have first hand experience of the cuts suffered by subsidiary bus routes. I infact have had to get taxis to my workplace because the bus routes has suffered a slow steady withdrawal of services. And also my local route around my home where there are many old people, young mums who have suffered from the withdrawal of bus services which no doubt has impacted upon the shops/venues they used to be able to get to on a regular basis.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33721	An individual	7d. Reprioritised Passenger Transport Strategy	Perhaps more joined up thinking on bus routes would be helpful. Many of the villages don't have a decent service in peak hours let alone evenings and weekends when it's non existent. A "village hopper" shuttle service looping through the villages to join up with Livingston bus Station and Ingliston Park and ride or Edinburgh gateway would go a long way towards assisting those in the villages to get about for work and to access and support local businesses which in turn would help the local economy	Passenger Transport Strategy - subsidised routes	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33722	An individual	7d. Reprioritised Passenger Transport Strategy	Outlying areas rely on bus services. Those are likely to be the non viable routes, and these should be kept.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33723	An individual	7d. Reprioritised Passenger Transport Strategy	The use of smaller buses / minibuses on less viable routes rather than double decker buses. The reintroduction of a circular bus to villages e.g. Stoneyburn to Whitburn means 2 buses. Stoneyburn to Bathgate hourly bus then withdrawn at times. A smaller vehicle could be the answer.	Passenger Transport Strategy - subsidised routes	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33724	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Remove all subsidised services - this is not something the Council should support.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33725	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I agree that routes that are not been supported should be cut but we do not want to hit the Elderly and Disabled and bus trips that are supported	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33726	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This is a very good plan, There will always be someone not happy about a bus service getting stopped, but if only x1 person uses it over a 6 month period say, then it should indeed be scrapped as it is not viable commercially. Bus operators are NOT as hard up as they make out.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33727	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Disagree - this would force people to use own vehicles more often - defeating the carbon emission ethos described previously.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33728	An individual	7d. Reprioritised Passenger Transport Strategy	Someone I know uses the dial a ride scheme it may be that these should be promoted even more as I am sure a lot of the public do not know they exist.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33729	An individual	7d. Reprioritised Passenger Transport Strategy	Agree that some bus routes should be withdrawn and a focus for more buses on the more popular routes that are used at present. You see a lot of buses running empty.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33730	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian bus services are already poor. However, any subsidies to First Bus should be cut, as they are not providing an adequate or cost effective service	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33731	An individual	7d. Reprioritised Passenger Transport Strategy	We hope it won't be necessary to cut the local bus service in Bathgate. There are a lot of very elderly people who rely on the bus. Without it they could not carry shopping up the hills. A taxi costs at least Â£4 each time. Should the bus be taken away it would fall upon local social services to do shopping, etc. for many who are independent at the moment. It is also important for lonely people to get out and socialise. We understand a lot of these policies are SNP sound bites to attract votes but it is the local council who foot the bill but we have you still have a say in what is best for your town.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

33732	An individual	7d. Reprioritised Passenger Transport Strategy	Same as the way First Bus is allowed to cut services. I know the Scottish Parliament gives out the contracts but surely West Lothian is allowed to monitor First Bus services? No wonder there are so many cars on the road. Many people do not want to drive, can't drive or can't afford the upkeep of a car. More service cuts will aggravate loneliness because people cannot travel from rural areas then return home. Discrimination. Only the few use the buses because they have no choice - if the buses are there (late arrival, cancelled) deregulation of the buses allowed the bus companies to cut services and so they have continued over the years forcing working people to buy a car to get to and from work because there was no suitable bus. First Bus stopped the Glasgow to Livingston bus - the last bus from Glasgow was 4.30. Who finishes work at 4pm or rather how many people finish at 4pm?	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Council currently only subsidises 20% of the overall local bus network. The remaining 80% is provided on a commercial basis and the council has no authority over its operation. Re-regulating the bus industry is a decision taken at National level and is not within the remit of a local authority.
33733	An individual	7d. Reprioritised Passenger Transport Strategy	as long as that doesn't affect elderly access to places.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33734	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	they bus sevies is a joke	Passenger Transport Strategy - subsidised routes	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
33735	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The subsidised routes should continue however the Horsburgh etc should be encouraged to use smaller vehicles as the current buses are too big and never come close to being full. A full, detailed public consultation would need to take place if any routes were proposed to be cut or altered significantly. Perhaps the frequency of the services could be reduced before routes are axed.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33736	An individual	7d. Reprioritised Passenger Transport Strategy	What about people who have no personal means of transport, i have already heard people complain about lack of bus services.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33737	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	You run the risk of cutting communities off if you withdraw funding from some routes. Perhaps a blending of some routes might be possible? You should publish the routes you subsidise, and ask for creative suggestions.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33738	An individual	7d. Reprioritised Passenger Transport Strategy	More buses!!	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33739	An individual	7d. Reprioritised Passenger Transport Strategy	good luck bus services are bad enough although I do use them you would have to be really good if you cut coat and provide any kind of servicw	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33740	An individual	7d. Reprioritised Passenger Transport Strategy	As Linlithgow has one of the most polluted High Streets in the U.K. , it is vital that the local bus service L1 and 31 continues to receive funding from the Council. We need a decent reliable public transport net work to help reduce traffic congestion and pollution in our High Street.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33741	An individual	7d. Reprioritised Passenger Transport Strategy	Please consult the affected communities fully before removing/radically altering bus services as some people reply on them.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33742	An individual	7d. Reprioritised Passenger Transport Strategy	The current main bus provider (first bus) is already extortionately priced so I would hate to see how much it would cost without being subsidised. Please look at Edinburgh's transportation model - it is so much better. You can get from one side of Edinburgh to the other for £1.60. That is 80p cheaper than it is for me to get from my village to Bathgate which is a 15 minute bus journey.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fare setting on commercial routes is matter for the bus operator.
33743	An individual	7d. Reprioritised Passenger Transport Strategy	The last clause makes no sense. If a bus service is commercially viable it should not need a subsidy	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33744	An individual	7d. Reprioritised Passenger Transport Strategy	Local bus services are a lifeline for many community members which won't be identified through a minimum mileage limit. Current demand also needs to be taken into account.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33745	An individual	7d. Reprioritised Passenger Transport Strategy	OK but need to ensure people do not become isolated (elderly in particular)	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
33746	An individual	7d. Reprioritised Passenger Transport Strategy	The number 40 bus route is badly needed, it's the only access to the Royal from Livingston. This will not help the transport deprived.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33747	An individual	7d. Reprioritised Passenger Transport Strategy	Will this disadvantage residents in more remote areas on lower incomes or the elderly who may rely on buses?	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33748	An individual	7d. Reprioritised Passenger Transport Strategy	No cuts to bus subsidies. Those that use the L1 and the 31 do so because they have no choice. Without these services how could those people who don't drive get to the doctor's surgery, to the library, to the shops, to St John's hospital? It is vital that these services are maintained. Further no buses means more cars and we have the worse polluted High St in Scotland at present.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33749	An individual	7d. Reprioritised Passenger Transport Strategy	some communities have very limited transport as it is preventing residents getting to work etc.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33750	An individual	7d. Reprioritised Passenger Transport Strategy	No one should have subsidized bus routes unless they are children or have an OAP bus pass.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33751	An individual	7d. Reprioritised Passenger Transport Strategy	Bus service is a joke u can't get a bus at weekends can't get home safe from a train station this is the worst council a have seen for public transport why people won't use it and if you get a job in the hours before 7 am and after 7 pm not a chance in hell to get there or get home hours later	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33752	An individual	7d. Reprioritised Passenger Transport Strategy	As long as this does not cause people to feel isolated by lack of transport	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33753	An individual	7d. Reprioritised Passenger Transport Strategy	How does ceasing services connect communities exactly? As it is, the services from more rural areas are so irregular and unreliable that people feel discouraged from using them - but again you are proposing taking away a vital lifeline for many people who have no alternative.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33754	An individual	7d. Reprioritised Passenger Transport Strategy	I'm Winchburgh we only have 38&38A bus service which is not the best. For kids going to school bus services sometime don't even come or are late...	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33755	An individual	7d. Reprioritised Passenger Transport Strategy	Very rarely use these services but when I have generally poor service with local bus service very unreliable and expensive.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33756	An individual	7d. Reprioritised Passenger Transport Strategy	Once more what about the elderly and disabled who cannot access or have means to travel without using public transport that is already on a reduced service within some of the rural areas.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33757	An individual	7d. Reprioritised Passenger Transport Strategy	remove subsidy for "normal" bus routes, e.g. first bus services.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33758	An individual	7d. Reprioritised Passenger Transport Strategy	I would be careful about the commercial viability being the only option. Some people and communities could become more socially excluded than ever.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33759	An individual	7d. Reprioritised Passenger Transport Strategy	No first bus in my area. Other operators bus unreliable Meaning i have to walk to work in the dark and walk home	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33760	An individual	7d. Reprioritised Passenger Transport Strategy	Support! It's already a poor service currently provided waste of money. Look to the Edinburgh model as it works and provides a far better service.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33761	An individual	7d. Reprioritised Passenger Transport Strategy	I agree in regards to bus routes. This should be cut.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
33762	An individual	7d. Reprioritised Passenger Transport Strategy	This could isolate more rural communities and the more vulnerable.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33763	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	We need to do this - we should not be paying for bus services where there is insufficient demand to pay for it. If we can use alternative models to get people in rural communities moving about surely that is a better service than running buses at huge costs for one or two people a day.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33764	An individual	7d. Reprioritised Passenger Transport Strategy	Stop those hardly used	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33765	An individual	7d. Reprioritised Passenger Transport Strategy	of subsidies for bus routes that are not commercially available or viable: I suspect that few bus routes are commercially viable. Their removal again impacts those that can't afford a car and there by increases the inequality across the Region	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33766	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I had to buy a car to get to work as the buses weren't reliable. I don't see how cutting them more would help anyone	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33767	An individual	7d. Reprioritised Passenger Transport Strategy	Provision of public transport routes is one of the most vital functions of a council. It allows people, especially the old and poor, to stay connected. Without a decent bus route people living in poverty are often at the mercy of overpriced food stores, and also cannot access social activities. Doing anything which increases people's sense of loneliness and isolation should not be considered.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33768	An individual	7d. Reprioritised Passenger Transport Strategy	I feel it is important that the council seriously considers the impact on local, primarily elderly, residents in removing subsidies for local bus routes which would lead to closure or reduced services. Many people rely on the local bus routes on a daily basis and if these weren't there or the prices were increased etc., this could have a massive impact on people who really have no viable alternative than to taking the bus.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33769	An individual	7d. Reprioritised Passenger Transport Strategy	Buses aren't used enough because they run at the wrong time. The council needs to make buses connect to rail for commuters, and encourage bus use to reduce car use. This, combined with charging for parking and keeping buses cheap and reliable, would help the council meet its green targets. Joined up thinking!	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33770	An individual	7d. Reprioritised Passenger Transport Strategy	There is a case for subsidies to be removed in certain areas where it appears to be duplication of services that is not required.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33771	An individual	7d. Reprioritised Passenger Transport Strategy	Unless buses are improved, no one will use them. Catch 22 situation.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33772	An individual	7d. Reprioritised Passenger Transport Strategy	As a bus user, the loss of any bus routes would be very difficult for anyone dependent on buses who does not live on a major route.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33773	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I don't agree with this. There is the wider implication of poor families not having access to banks or cheap healthy food if they cannot travel from smaller villages. Given the geographic layout of west Lothian transport around the county is very important. It could create pockets of serious deprivation.	Passenger Transport Strategy - subsidised routes	2. 33777	An individual	7d. Reprioritised Passenger Transport Strategy	In an ideal world the Council should not be in the business of subsidising public transport. However we do not live in an ideal world and these services are an important lifeline for many communities. As a consequence they should be exempted from any cuts.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33778	An individual	7d. Reprioritised Passenger Transport Strategy	rural people will be hit and hurt the most	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33779	An individual	7d. Reprioritised Passenger Transport Strategy	There is a social impact related to building and supporting healthy communities missing in this statement.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33780	An individual	7d. Reprioritised Passenger Transport Strategy	This will isolate those in the more remote areas of the county.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33781	An individual	7d. Reprioritised Passenger Transport Strategy	Many bus routes are the only method non drivers have to access facilities therefore I disagree with this.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33782	An individual	7d. Reprioritised Passenger Transport Strategy	Cuts off those in more rural areas. Not good.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33783	An individual	7d. Reprioritised Passenger Transport Strategy	OK but also penalise the providers who don't deliver the service they are supposed to provide.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33784	An individual	7d. Reprioritised Passenger Transport Strategy	No cuts to bus subsidies. Those that use the L1 and the 31 do so because they have no choice. Without these services how could those people who don't drive get to the doctor's surgery, to the library, to the shops, to St John's hospital? It is vital that these services are maintained. Further no buses means more cars and we have the worse polluted High St in Scotland at present.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33785	An individual	7d. Reprioritised Passenger Transport Strategy	This is a huge issue for us. My wife is epileptic so is prevented from driving. She desperately needs the Linlithgow L1 bus to take our 3 kids around town, and get to appointments herself, particularly as we live at the top of the big hill towards Beebraigs. It would be devastating if the L1 bus service ended and I expect there would be many in a similar position, particularly given the older age profile here and steep hills.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33786	An individual	7d. Reprioritised Passenger Transport Strategy	RIP of bus prices make it cheaper for me to drive to park and ride and use an LRT pass . Would much prefer to use First Bus but too expensive and would think if they where forced into a price reduction then it would take a lot of cars off the road . We must be getting charged twice the cost as someone using them from Midlothian	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Council only subsidises 20% of the local bus network. The remaining 80% is provided commercially and West Lothian Council has no authority over its operation, including the fares set.
33787	No Response	7d. Reprioritised Passenger Transport Strategy	A good opportunity to work with and for the private sector to deliver these services.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33788	An individual	7d. Reprioritised Passenger Transport Strategy	Agree with all of the public transport proposals. It should not be the council's responsibility to subsidise well off bus or rail operators.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33789	An individual	7d. Reprioritised Passenger Transport Strategy	The local bus route is important to the elderly. Reduce its number, say every two hours, this will let older people to remain independent for visiting friends and going to the doctors, etc,	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33790	An individual	7d. Reprioritised Passenger Transport Strategy	Cutting back on existing bus services would mean hardship for those reliant on them for work.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33791	An individual	7d. Reprioritised Passenger Transport Strategy	What is an alternative transport model?! People rely on the bus service to get them into town and to work. These routes are vital and must be protected.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.

33792	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Surely the Scottish Government should be assisting with the subsidising of the bus routes. They are trying to encourage the use of public transport.	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
33793	An individual	7d. Reprioritised Passenger Transport Strategy	I used public transport but the service was so unreliable I had to use my car once again Buses connections other parts of West Lothian are good but try getting to other villages in West Lothian and the service is totally inadequate	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33794	An individual	7d. Reprioritised Passenger Transport Strategy	Those without cars will suffer. Hospital bus services need to be in place	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33795	An individual	7d. Reprioritised Passenger Transport Strategy	Transport is terrible anyway, why not pull out of this service all together.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33796	An individual	7d. Reprioritised Passenger Transport Strategy	We live in a rural community and transport links have already been cut. More info is needed.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33797	An individual	7d. Reprioritised Passenger Transport Strategy	Support strategic cuts / reductions to services where take up is low. Many buses appear to be running with only a few passengers. Either incentivise use of these services over cars or reduce the timetable.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33798	An individual	7d. Reprioritised Passenger Transport Strategy	Local bus routes are essential lifelines for many people with mobility issues or without access to cars. This must be maintained.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33799	An individual	7d. Reprioritised Passenger Transport Strategy	Town service buses are invaluable for residents who have no other way of getting around. That includes families with no car, the elderly and those who don't hold a driving license.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33800	An individual	7d. Reprioritised Passenger Transport Strategy	The L1 and 31 bus services are vital for the community and must continue to receive adequate funding.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33801	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Commercially unviable services can play a role in providing access for those in more rural areas and improving the ability for older people to live independently. A comprehensive review would be appropriate to determine where subsidised services can be altered or scrapped.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33802	An individual	7d. Reprioritised Passenger Transport Strategy	I support this - I have many, many times, seen underused buses and support withdrawing subsidies in those circumstances.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33803	An individual	7d. Reprioritised Passenger Transport Strategy	Cease all none commercially viable route subsidies. Also retender all school bus contract sand review use of taxis. Charge more for taxi licences also?	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33804	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	By removing the subsidy for bus routes that are not commercially viable you could end up cutting off the most vulnerable of the community.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33805	An individual	7d. Reprioritised Passenger Transport Strategy	We also can't afford to subsidise bus routes - everyone needs to remember that it is subsidised because not enough people use it. We shouldn't be running buses that have only a handful of people each day - we would be cheaper sending them a taxi!	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33806	An individual	7d. Reprioritised Passenger Transport Strategy	Again contracts should be monitored. I don't know if there is a 'citizen led' monitoring operation within WLC for travel but this could be a way to monitor various contracts as, from experience, I have found the drivers on some of these services appear to follow their own rules/routes.	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Council only subsidises 20% of the local bus network. The remaining 80% is provided commercially and West Lothian Council has no authority over its operation.
33807	An individual	7d. Reprioritised Passenger Transport Strategy	Bus routes need to be looked into very carefully. For some people this is the only way to get out and about which is essential for their mental health and wellbeing. Looking after this reduces the impact on other services.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33808	An individual	7d. Reprioritised Passenger Transport Strategy	Doesn't the Central Government provide some finance for Transport facilities ? Obviously there is no need to finance, by subsidy, any transport service that is not commercially available or viable. Are 20% of bus routes in need of subsidy. If so, it would seem that we are paying for services that are not required	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33809	An individual	7d. Reprioritised Passenger Transport Strategy	Since the council readjusted the Armadale town service it is hardly used as the route and times are not much good to any of the people who used the previous system. Try getting a bus from Armadale or Bathgate to Edinburgh to get in before 8.30 in the morning - not practical. College students and workers are suffering because of this and have to use the very expensive train service.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33810	An individual	7d. Reprioritised Passenger Transport Strategy	As a resident of Bridgend we only have the 38 bus service currently, as 31 was withdrawn without consultation and rerouted, journey time is now longer and includes an additional journey to Linlithgow to link up with 31. 31 was invaluable for trips to St Johns perhaps those that decided it was not needed should do the round trip from Bridgend and see how many hours it now takes.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33811	An individual	7d. Reprioritised Passenger Transport Strategy	Bus routes that are not deemed commercially viable may still be vital to a community. I accept that savings have to be made but tread warily and consider isolation that may arise.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33812	An individual	7d. Reprioritised Passenger Transport Strategy	Removal of non profit making bus routes could have a devastating effect on the elderly	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33813	An individual	7d. Reprioritised Passenger Transport Strategy	There should be minimal council spending in this area and bus routes should be carefully chosen to cover as many people as possible and should be self sustaining.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33814	An individual	7d. Reprioritised Passenger Transport Strategy	Bus routes can be a lifeline to some rural COMMUNITIES	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33815	An individual	7d. Reprioritised Passenger Transport Strategy	Agree - albeit this will be a great loss to the few pensioners who use this to get up hills etc from the main street. Could lead to isolation of a small proportion of the population.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33816	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Seems sensible. Hopefully where buses provide links to isolated communities there will be some level of provision. Particularly in the age of benefit sanctions.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33817	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport. In rural West Lothian not been a priority we use cars. Happy for this to be reviewed. Perhaps dial a cab run by the council would be the way to go or in partnership with other partners might provide transport.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33818	An individual	7d. Reprioritised Passenger Transport Strategy	Fully agree that we should remove bus subsidies,	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33819	An individual	7d. Reprioritised Passenger Transport Strategy	Fine provided no one and no area is left isolated because of a lack of public transport. Commerce and viability are not only criteria - social inclusion is important too.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33820	An individual	7d. Reprioritised Passenger Transport Strategy	There was a recent review of public transport that was poorly-communicated and unpopular in communities. In my case, the subsidised 31 bus provides the only public transport link from Linlithgow to Livingston via St Johns Hospital. The service is well-used including by those accessing essential medical appointments as well as travelling to work. This link cannot be removed without unacceptable adverse impact across a number of policy areas, not just transportation.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33821	An individual	7d. Reprioritised Passenger Transport Strategy	Do not cut back on us subsidies.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33822	An individual	7d. Reprioritised Passenger Transport Strategy	This discriminates against those living in more rural areas who already have poorer public transport. It will contribute to social isolation and to increased car use.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33823	An individual	7d. Reprioritised Passenger Transport Strategy	Many older people rely on local bus services and would be hit by cuts to services. Therefore, rather than completely cutting services, perhaps fewer buses or one bus covering routes that would normally be covered by 2 or 3 buses might be more feasible.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.

33824	An individual	7d. Reprioritised Passenger Transport Strategy	Should not put money to buses, these companies are in it to make profit they councils should not be subsidising them	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33825	An individual	7d. Reprioritised Passenger Transport Strategy	Agree that reduction in subsidies paid for by the council , where customers could afford to pay for these , is appropriate.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33826	An individual	7d. Reprioritised Passenger Transport Strategy	Bus routes that are not commercially viable are the most needed by residents who do not have access to a car.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33827	An individual	7d. Reprioritised Passenger Transport Strategy	I would stop any contracts with Horsburgh as there service is appalling and the buses they provide for our schools should not be on the road	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
33828	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services connecting isolated areas must be pursued and kept open or put in place. Some routes make profits and should subsidise areas that do not. Otherwise more and more cars will fill the roads.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33829	An individual	7d. Reprioritised Passenger Transport Strategy	I would strongly object to any alteration to the current L1 Linlithgow Town Service as well as the No31 Bathgate-Livingston service. In Linlithgow these services provide the only means for the vast majority of elderly and disabled people as well as many children and adults to local essential services such as doctors and hospital appointments as well as to local businesses and the main shopping hub in Livingston. With the continued drive to centralise services in Livingston, residents of the West Lothian area need a realistic accessible travel option to access them which is primarily via public transport bus travel. In addition, both these bus services have recently been looked at for alterations and the optimal model implemented. Further both these bus services provide vital links to other public transport links in Linlithgow. West Lothian Council are aware that Linlithgow High Street has one of the worst levels of pollution in Scotland. Cutting public transport would be further detrimental to this. I would also highlight that the L1 and No31 bus services service as a means of providing social support to individuals who would otherwise be completely socially isolated and serves as a model of tackling loneliness in those elderly and disabled people, such as myself, who are regular users of these buses. Many Councils along with health care providers are currently investing in projects to tackle the detrimental effect of loneliness and isolation. Suggesting further cuts, or removal completely, to such town bus services shows a lack of insight into the many practical ways provision of these services provides and highlights those making the current suggestions for changes are not suitably qualified to do so. However, one subsidised bus service I would suggest is stopped is the service 16 between Livingston and the Western General Hospital because there are other means for users to travel to and from the hospital which are already accessible to the majority and currently subsidised either by the Scottish Government and/or West Lothian Council and also there is not fair and equal access to such a service as that provided by the No16 throughout the entire West Lothian area.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33830	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I am cautious about reducing subsidies for bus routes as public transport provides access to employment and education for those most in need.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33831	An individual	7d. Reprioritised Passenger Transport Strategy	Smaller communities such as Blackridge are at a disadvantage as it is for transport, I would disagree with further reduction to services.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33832	An individual	7d. Reprioritised Passenger Transport Strategy	I am concerned about the impact of subsidy removal for bus routes on that substantial part of West Lothian's population that does not have regular access to a car. There should be detailed consultation on this. Where a bus service has to be withdrawn, there should be recasting of timetables to ensure that journey times are not ridiculously extended. No community should be left without any bus link.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33833	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Bus route subsidies should be carefully reviewed. some people in wee villages rely on public transport to get to work	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33834	An individual	7d. Reprioritised Passenger Transport Strategy	No money should be spent on public buses. Agree	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.

33835	An individual	7d. Reprioritised Passenger Transport Strategy	Disagree. Transport is important to maintain communities . Without subsidies some routes will close and vulnerable folk cut off	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33836	An individual	7d. Reprioritised Passenger Transport Strategy	Not good for villages with a limited transport service	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
33837	No Response	7d. Reprioritised Passenger Transport Strategy	Reducing the level of subsidy and increasing fares is the best option.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33838	An individual	7d. Reprioritised Passenger Transport Strategy	All transportation subsidies should be stopped for what are deemed uneconomical routes.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33839	An individual	7d. Reprioritised Passenger Transport Strategy	No point in subsidising empty buses. Bus routes that trail all round the country side and dont go direct between population centres discourage travel.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33840	An individual	7d. Reprioritised Passenger Transport Strategy	Please, no cuts to bus subsidies. Those that use the L1 and the 31 so because they have no choice. Without these services how could those people who don't drive get to the doctor's surgery, to the library, to the shops, to St John's hospital? It is vital that these services are maintained. Not only is it a vital service but should be promoted more to prevent unnecessary car journeys that increase pollution in the community. The council should also be actively moving towards an electric bus fleet in the community that would help reduce pollution and move Linlithgow out of the current air quality management category.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33841	An individual	7d. Reprioritised Passenger Transport Strategy	I think the Bus routes available have already been cut to the bone and had a negative impact on those who need public transport. As an example, if someone in Threemiletown or Ecclesmachan needs to go to Strathbrock Health Centre for a Doctors appointment, or to Broxburn for the nearest Bank, there is no direct bus and the connections between services are poorly timed. Where I think there is an issue that needs addressed lies with the bus companies themselves (but could be addressed from the Council). The size of the buses in use on some routes is completely out of scale to the service required. Again as an example the town service in Broxburn, why is it a full sized bus? It's a waste of fuel and surely the return on the capital cost of the bus must have a relevance on the cost of running a service. So make the bus companies run appropriately sized buses thus reducing the amount of subsidy required.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33842	An individual	7d. Reprioritised Passenger Transport Strategy	All I ever see is empty buses so agree with this - the council must be wasting millions on empty buses.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33843	An individual	7d. Reprioritised Passenger Transport Strategy	I am a resident of Springfield Linlithgow. Who lives alone and does not drive. When I first moved to Linlithgow I used the X30 and X38 to travel to work in Edinburgh. These services were subsequently cancelled. I now use the 31 and or L1 everyday to travel to and from the High Street to get to the train Station or the doctors and dentist. I also rely on these services when I have hospital appointments and also to do my shopping. These services are essential to me and I require these services for daily living as I suffer from arthritis I cannot walk up and down to the High Street. Please take into consideration the needs of the people of Linlithgow not everyone has a car or has access to one.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33844	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	this is a complex area as the remaining 80% of bus services are provided on a commercial bases by operators motivated by profit and they will not fill the gap left by the council reducing services. I agree that the range of publicly funded options needs to be reviewed to provide a single sustainable option. The review should include encouraging a community led service provision similar that run in the Lake District	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33845	An individual	7d. Reprioritised Passenger Transport Strategy	I would urge the Council to ensure that the 31 service is retained and does not lose its subsidy. It is, amongst other things, the only public transport route from Linlithgow to St Johns Hospital and also from Linlithgow to the Civic Centre in Livingston. Losing this service would make it very difficult for many people to get to either the hospital or the Civic Centre (e.g. for jury service) from Linlithgow.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33846	An individual	7d. Reprioritised Passenger Transport Strategy	Again for some these are life line services. Not everyone has access to a car. Charge a small amount instead.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33847	An individual	7d. Reprioritised Passenger Transport Strategy	Given that Linlithgow has very poor public transport links to the south of the county I trust those few that currently exist will not be reduced further. Such links are essential, particularly when so much is centralised in Livingston.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33848	An individual	7d. Reprioritised Passenger Transport Strategy	This could affect people in outlying areas who cannot afford alternative transport.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33849	An individual	7d. Reprioritised Passenger Transport Strategy	I understand that the L1 and 31 bus routes are under threat with this proposal. My elderly mother in law relies on these services to get around town and to get to and from St John's Hospital. It is vital for the elderly that these services are maintained! They are a lifeline for combating the isolation and loneliness felt by many in their old age and taxis are just not financially viable for pensioners trying to get to St John's Hospital from Linlithgow. She has told me (she doesn't cope well with technology and has therefore asked me to submit this comment on her behalf) that she would be happy to pay a nominal fee towards these services rather than receive this completely free with her bus pass if it helped to retain the service.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33850	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	West Lothian is spread far and wide and there are numerous rural communities whose members are at risk of being excluded from sport and other leisure activities if affordable public transport is not available.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33851	An individual	7d. Reprioritised Passenger Transport Strategy	Not affected by this, but some of the less viable routes will be in the more remote areas, where people without their own transport, rely heavily on public transport	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33852	An individual	7d. Reprioritised Passenger Transport Strategy	Ask independent bus companies to quote for contracts rather than First Bus to cut journeys and increase fares. I don't like travelling A to B, but go via C And D and paying extortionate prices.	Passenger Transport Strategy - subsidised routes	4. The council is already doing this.	Thank you for your response. Your comment has been noted
33853	An individual	7d. Reprioritised Passenger Transport Strategy	As there are a number of bus providers in West Lothian why not commission a report on the use of the various journeys provided and their use and cut those which aren't viable.	Passenger Transport Strategy - subsidised routes	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33854	An individual	7d. Reprioritised Passenger Transport Strategy	Removal of subsidies for certain bus routes aids eliminating inequality	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33855	An individual	7d. Reprioritised Passenger Transport Strategy	The two local bus services (31 and town service) are invaluable services. The 31 is great for getting to St John's hospital and should be kept. The Linlithgow town service is very useful for getting people across town.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33856	An individual	7d. Reprioritised Passenger Transport Strategy	Removal of subsidies for bus services would again be a backward step . For example any changes to Service 31 would have a disastrous effect for anyone trying to travel from Linlithgow to St John's hospital by public transport & would also particularly effect residents in the Springfield area and any elderly persons along this route relying on public transport.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33857	An individual	7d. Reprioritised Passenger Transport Strategy	There should be no question of reducing bus services which are necessary to allow local residents to get access by public transport to local hospitals. One example of this is the service 31 between Linlithgow and Livingston via Springfield area of Linlithgow which provides a bus service to St John's hospital which is particularly useful for elderly people and anyone else who does not have access to a car.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33858	An individual	7d. Reprioritised Passenger Transport Strategy	Is a community model for bus routes not commercially viable a potential solution? With an ageing population, bus routes should be increased not decreased.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33859	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Dial a Ride is better than running empty buses in more rural areas but people need to know about them,	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33860	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Should not pay towards bus companies	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33861	An individual	7d. Reprioritised Passenger Transport Strategy	I am not for the down grading of any rural bus routes or cancellation of bus routes which I feel are already cut to the bone.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33862	An individual	7d. Reprioritised Passenger Transport Strategy	More, modern smaller and economical buses should be used. Not very economical having a few non paying passengers on a gas guzzling 20 year old bus capable of carrying 35 passengers. Better to have pensioners paying a flat fare on a bus than to have no bus at all !!	Passenger Transport Strategy - subsidised routes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
33863	An individual	7d. Reprioritised Passenger Transport Strategy	Concerned about possible removal of bus routes likes the town service in Linlithgow - it provides a lifeline for those without their own transport and those living in outlying areas of the town - including the area to the south of the Union Canal - it needs to serve the Preston Road and Manse Road area, as it is difficult for those with limited mobility and will lead to social isolation	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33864	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services are already bad in some parts on the area, removal of subsidies will cut off some communities. Vulnerable people need to have access to transport. People need to get to work. I do not agree with this proposal	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33865	An individual	7d. Reprioritised Passenger Transport Strategy	A well structured public transport system is essential, including routes to hospitals in particular. Parking is difficult at hospitals, some people can't drive and so we need to maintain routes to hospitals. The present service is only hourly but provides a lifeline to many people. This proposal would add to more environmental harm and cost to the individual. Environmental damage would be increased. Parking problems at hospitals which are already bad would get worse!	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33866	An individual	7d. Reprioritised Passenger Transport Strategy	Bus companies should be obliged to subsidise unprofitable routes if they also have profitable ones.	Passenger Transport Strategy - subsidised routes	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33867	An individual	7d. Reprioritised Passenger Transport Strategy	Disagree with reducing bus service subsidies. Car use, congestion and pollution is increasing across West Lothian Bus services should be cheaper and free to young people A small charge should be made for older people The council should be strongly encouraging car sharing with prioritised car sharing car park spaces	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33868	An individual	7d. Reprioritised Passenger Transport Strategy	Please DO NOT remove the subsidy on the Linlithgow town bus or the Number 31 bus Livingston to Bathgate via Linlithgow as we have only recently successfully managed to get these services. Without these you cannot get from one end of town to the other. Many older people and families depend on these routes to be able to get to work and to socialise. An introduction of a MINIMUM contribution to the fares by concessionary holders could be a way forward. Possible 50p per local journey?	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33869	An individual	7d. Reprioritised Passenger Transport Strategy	Non of the subsidised local bus services are commercially viable, if they were, they would be taken on by the private operators.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33870	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	While the bus routes provided around the County are reasonable the cost of even small journeys is way over-priced. I was going to be charged Â£15.50 to make a small 5/6 mile return journey for myself and 3 children. That's about the overall petrol i use in a week's work travelling to every corner of the county. Introduce more special fares for families and children and the footfall could increase. The lack of links and synchronicity with rail services is also appallingly out-dated.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33871	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Local Bus - Currently the Local Bus network, whether subsidised or not, cannot legally compete with commercial providers. However, the fares charged are extremely low in relation to commercial fares and should be raised to come more into line. The could follow a formula which is linked to commercial fare rises and maintain at least a consistent level when compared to the commercial providers. An ideal way to connect communities may be to create local enterprise transport networks which link into transport hubs. This could mean for example an area like Bridgend, Threemiletown, Phillipstoun creating a local community transport initiative to run a small bus through the area to link into Linlithgow for onward travel by bus and rail. They could, in time, expand to offer services to Livingston. The use of Demand responsive transport has been shown in other authorities to be effective but perhaps costly. It might make some sense to remove subsidies completely and put some of the money into community based schemes. An example may be found in Boness. with the Boness and area Community Bus Association.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33872	An individual	7d. Reprioritised Passenger Transport Strategy	I feel it is important to keep funding local busses.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33873	An individual	7d. Reprioritised Passenger Transport Strategy	Subsidised bus routes should be cut except in the most needy areas where it may be better to reduce these rather than cancel if it would result in no service at all.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33874	An individual	7d. Reprioritised Passenger Transport Strategy	Local bus services are vital for the community. Older people would be isolated if unable to get about by bus. The L1 in Linlithgow is vital as is 31 for getting to the shops and the hospital.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33875	An individual	7d. Reprioritised Passenger Transport Strategy	There has already been consultation on the bus routes in Linlithgow and they were reinstated due to public demand. Do we really have to go through this again in Linlithgow? It will waste time and money and get us back to the same result.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33876	An individual	7d. Reprioritised Passenger Transport Strategy	The L1 and 31 services provide essential transport links for people unable to drive. Removing either of these services would severely affect the most vulnerable in society.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33877	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Many, many people rely on bus services providing vital links from more rural areas, once again our older and vulnerable will suffer.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33878	An individual	7d. Reprioritised Passenger Transport Strategy	I disagree - public transport is vital to connect older people in WLS small villages to your increasingly centralised service provision. They used to have much of what they needed where they live as well as good transport. Now they have very little locally and if buses stop they will be isolated leading to depression and even poorer health. My mum lives in absolute fear of you cutting her bus service - her only way to get to bank, shop, library, doctors, hospital (never mind friends).	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33879	An individual	7d. Reprioritised Passenger Transport Strategy	No. Subsidising transport is a more effective way to promote participation in The workforce than sat Bids. Don't cut.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33880	An individual	7d. Reprioritised Passenger Transport Strategy	Provision of public transport to and from hospitals should be protected.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33881	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	No subsidies for private enterprise please.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33882	An individual	7d. Reprioritised Passenger Transport Strategy	If there is no break even then it should be reviewed and possibly stopped.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33883	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	In order to improve employment opportunities in poorer areas it is essential to have regular bus services to enable lower paid and young people to achieve employment. In addition older people rely on these services as they allow them to continue to be active in the community, to be independent and maintain a positive mental attitude.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33884	An individual	7d. Reprioritised Passenger Transport Strategy	There is an element of people who cannot drive owing to medical conditions, these bus routes are a vital lifeline to enabling independence.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33885	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	With few wage rises and increases in costs i.e council tax and car parking charges the people of West Lothian may have to rely on public transport to attend work when a car may not be affordable so again removal of subsidies will penalise the public again.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33886	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	No cuts to bus subsidies. Those that use the L1 and the 31 do so because they have no choice. Without these services how could those people who don't drive get to the doctor's surgery, to the library, to the shops, to St John's hospital? It is vital that these services are maintained. Further no buses means more cars and we have the worse polluted High Street in Scotland at present.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33887	An individual	7d. Reprioritised Passenger Transport Strategy	Stop giving money to buses	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

33888	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	As [redacted] We feel quite neglected as far as public transport is concerned. Thanks to First Bus and [redacted] we were able to maintain the 21A service. Deer park is situated at the junction of the M8 Glasgow to Edinburgh motorway, but we could be on an island as far as public transport is concerned! We do not have access to the 900 motorway coach services, nor do we have access to any other bus services that pass the roundabout at the B.P service station, including the council subsidised service by Horsburgh! There are 146 appartments, the golf country club (quite a lot of disabled people use the 21A service to access this): The business park which has a lot of empty properties - probably due to lack of transport links - the Beefeator restaraunt and Premier Inn - All based here and all more or less dependant on car ownership. I thought we were being encouraged to use public transport. What is the point of a bus pass? Thankfully first buss provide 1 bus an hour but we still have to take 2 buses to get to Edinburgh and 2 buses back. We can't even walk to Dobbies Garden Centre without using the M8 underpass to Dechmont. Would you allow your family members to walk this path in all weathers and winter, especially when numerous buses fly past the roundabout yards from our bus stop but none exceptthe 21A come in.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33889	An individual	7d. Reprioritised Passenger Transport Strategy	Subsidized transport can make the difference between never going out and socialising with other people and allowing disabled and elderly to be included in society.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33890	An individual	7d. Reprioritised Passenger Transport Strategy	I read in our local newspaper that this proposal included the removal of subsidies from the 31 and L1 bus services. If the 31 service stops, there will be no public transport going from Linlithgow to St John's Hospital. People who have hospital appointments are urged to use public transport, as the public transport situation at St John's is horrendous! Not everyone in Linlithgow drives a car. Not everyone in Linlithgow can afford the large taxi fare (Â£15-Â£20 depending on the time of day). Changing or stopping this service will only add to the stress of a hospital visit. One of your priorities (No.4) is about giving older people greater support, choice and independence. The L1 bus service does exactly that. Without it, older and disabled people (particularly those who live in the outskirts of the town) would not have that freedom and independence to get to the health centre, shops & other facilities. Please, once again, I would ask you to think again.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33891	An individual	7d. Reprioritised Passenger Transport Strategy	Make sure that villages outwith Livingston/Bathgate areas can still access public transport. Also as I don't have access to decent selection of shops e.g. butchers, greengrocers, DIY, clothes shops etc.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33892	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian is spread far and wide and there are numerous rural communities whose members are at risk of being excluded from sport and other leisure activities if affordable public transport is not available.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33893	An individual	7d. Reprioritised Passenger Transport Strategy	Subsidised bus routes - as a disabled person the removal of our local bus service to town centre/Bathgate would be devastating. Personally, I would be confined to my house. Disabled and elderly rely on these services for day to day living. These again should be means-tested. If they can afford to pay they should. Perhaps this would make these services more viable - this should be considered as part of a care component.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33894	An individual	7d. Reprioritised Passenger Transport Strategy	Bus routes not commercially viable are the ones that older people depend on, removing subsidies increases social isolation.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33895	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	Cut bus routes - more isolation - more problems - more need for critical help - false economy.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33896	An individual	7d. Reprioritised Passenger Transport Strategy	Greater investment needed in public transport in particular bus services. Service already cut to the bone and local small communities increasingly isolated.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33897	An individual	7d. Reprioritised Passenger Transport Strategy	I am concerned that ceasing some bus services will leave the vulnerable in our communities feeling isolated. More investment should be put in to encourage people to use buses more to prevent money being spent on road repairs, impact on the environment, etc.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33898	An individual	7d. Reprioritised Passenger Transport Strategy	Removal of subsidies for bus routes that are not commercially available or viable. Again understand this but there is no point allowing houses to be built if there is no public transport available. Not everyone has or can afford a car. Perhaps services could be reduced in an area - removed at the weekend but councils need to bear in mind that people need to get to work.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33899	An individual	7d. Reprioritised Passenger Transport Strategy	The subsidies for bus routes should not be cut or removed. These services are vital especially to remote areas. West Lothian already suffers from a poor bus service from first bus. Further cuts would worsen the service. Concessionary travel should not be changed. You will recall that concessionary travel increased by 100% recently. Although many people agreed with the increase a further increase would be unfair and would stop people from enjoying this benefit.	Passenger Transport Strategy - subsidised routes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33900	An individual	7d. Reprioritised Passenger Transport Strategy	Agreed this needs to be happening and concessionary passes should not be given to people under the age of 65 for a number of reasons health being one. Overall there is no real understanding how each of these proposed cuts affects early learning how this will impact on care for children. Another example is 4d how will this impact on commissioned services. The council needs to look at a better integration plan for all departments and for work in the voluntary sector.	Passenger Transport Strategy - subsidised routes	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33901	An individual	7d. Reprioritised Passenger Transport Strategy	It is concerning to read that public transport may be affected. It is already expensive and the services have been reduced greatly over the last few years. This will impact on our poorer communities and residents meaning their cost of living will increase.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33902	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Handicabs are required as this can be a life line to families living with disability.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33903	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	SUPPORT UNLESS ISOLATED COMMUNITY	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33904	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Right to the jugular of the vulnerable again!	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33905	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Most of the outlying villages and areas are not well served as it is and reductions here will negatively impact on communities. However this area has to be looked at.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33906	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Any savings that can be made through a review of these services it to be welcomed.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33907	An individual	7d. Reprioritised Passenger Transport Strategy	Scrap the taxi card scheme	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	West Lothian Council is currently reviewing its transport concessions schemes and this comment will be included in the review.
33908	An individual	7d. Reprioritised Passenger Transport Strategy	Taxi Card scheme abolished	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	West Lothian Council is currently reviewing its transport concessions schemes and this comment will be included in the review.
33909	An individual	7d. Reprioritised Passenger Transport Strategy	It is difficult to understand why Lothian Buses could not be extended into at least some areas of West Lothian with resultant cost savings. Lothian Buses operate in Edinburgh, Midlothian and East Lothian. It does not really make sense that West Lothian is excluded.	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Local Authorities are not permitted to influence the commercial market and therefore cannot dictate which companies operate within the area. Supported bus routes are subject to competition and competitive tender and the council needs to adhere to a fair and transparent process.
33910	An individual	7d. Reprioritised Passenger Transport Strategy	what would the council know about bus travelling except after a heavy corporate lunch.	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Not relevant or appropriate.
33911	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services are continually changing a reliable regular service keeps communities connected and encourages the use of public transport	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian

33912	No Response	7d. Reprioritised Passenger Transport Strategy	Try doing away with some of the taxis taking children to school.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33913	No Response	7d. Reprioritised Passenger Transport Strategy	Try do Provide better transport facilities so it is accessible for everyone. That way people might get to work on time, especially those of us who have to pay on public transport.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33914	An individual	7d. Reprioritised Passenger Transport Strategy	It is time minimum mileages should be reviewed for schools. I object to the council providing buses and taxis to help kids/parents avoid a 30min walk. Encourage more walking and cycling and make parents responsible for getting their own kids to school.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport outwith certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
33915	An individual	7d. Reprioritised Passenger Transport Strategy	keeping early morning and late night buses can keep people in jobs!!! trim daytime funded bus runs to cover early and late runs....this directly affects me as they stopped the '20' bus at 5.19am to broxburn, which meant using the train. however, the very first train only gets me to uphall station at 5.54am, meaning I have SIX MINUTES to get to broxburn for my shift start at 6am. not everyone can drive or own a car (never mind try to keep one going financially) I just have to hope that my boss doesn't sack me for being late due to public transport constraints.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33916	An individual	7d. Reprioritised Passenger Transport Strategy	Transport bad enough so more cuts will improve this I'm sure!!!	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33917	An individual	7d. Reprioritised Passenger Transport Strategy	Handicabs and Dial-a-ride are especially important to those who are not as mobile - removing them would make more people be unable to leave the house.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33918	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I don't think the council should be putting money into bus companies	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33919	An individual	7d. Reprioritised Passenger Transport Strategy	Fairer Scotland impact?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33920	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Fully support charges.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33921	An individual	7d. Reprioritised Passenger Transport Strategy	as long as accessibility for vulnerable and disability groups is not prevented or hindered	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Any proposed changes will carefully consider impact on vulnerable groups
33922	An individual	7d. Reprioritised Passenger Transport Strategy	As long as vulnerable people do not become more isolated as a result	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Any proposed changes will carefully consider impact on vulnerable groups
33923	An individual	7d. Reprioritised Passenger Transport Strategy	handicabs and dial a ride schemes are a part of what is needed in the community, especially as the services to disabled people and older people have been and it looks like will continue to be hit. They will be trapped in their homes like the victoran era. Even bus pass support would be hit, and with a Â£20 charge on your blue badge, and no day centre to go to with no respite, the ability centre closure, bleak times ahead for the disabled community.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any proposed changes will carefully consider impact on vulnerable groups
33924	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	None of these services are commercially viable. Use of outside companies is never going to be commercially viable either so why change	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33925	An individual	7d. Reprioritised Passenger Transport Strategy	Total review required with First Bus as their service is unreliable and expensive. A 8 mile journey into Edinburgh is Â£3.50 whilst Lothian Region travel from Balerno to Haddington is only Â£1.60 and they have more and eco friendly fleet buses.	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	First bus operate on a commercial basis the council isn't responsible for the services provided by them however your comments will be passed onto them.
33926	An individual	7d. Reprioritised Passenger Transport Strategy	The transport in certain areas needs revised, but there needs to be promotion of a house or lose services.â€¦if you cut things to the core, staff are una	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.

33927	An individual	7d. Reprioritised Passenger Transport Strategy	In some places there are multiple buses which go to the same areas, while there are some areas with more poor means of accessing public transport. I would like to see a more evenly spread distribution of access to public transport.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33928	An individual	7d. Reprioritised Passenger Transport Strategy	too many empty buses	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33929	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport is non existing in some areas of west Lothian and looking at this it is not going to improve by reducing funding.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33930	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I agree that a coherent public transport strategy is required. I see many buses running empty or near empty.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33931	An individual	7d. Reprioritised Passenger Transport Strategy	I agree, you could use Work buses 3-4 time a day to towns. Town buses every hour	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33932	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Much like the waste collection in West Lothian, the transport services are already limited after previous changes. Transport links to rural areas are not well planned and are very limited. Changes to these services would only discourage people from considering employment out with their community, which is already a problem in some of the rural communities.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33933	No Response	7d. Reprioritised Passenger Transport Strategy	Handy cabs & dial a ride, and dial a bus are useful, but the busses are never full, so it is a waste of council funding.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33934	No Response	7d. Reprioritised Passenger Transport Strategy	Maybe if the concessions for bus travel like the free bus pass should be means tested. I think in theory the idea is good. I think it encourages older people to remain independent so has many benefits to maintaining their mental and physical health which in turn, would reduce the chances or length of time needed in care homes or for nurses/carers. I do appreciate that its extra money though but the last thing you want to do is discourage people to leave their houses, so maybe the bus pass entitles holders to a 50% reduction in bus fares? or they get two free trips a week? a bit like how the taxi card works, although i'm not sure how easy that would be to implement. I think taking it away completely though would be a shock to the people who use it, so if its absolutely necessary, then phase it out, try and reduce it, like by giving them 50% discount on travel instead and maybe for those on really low incomes/pensions, they get the free travel? Just an idea as I don't personally use it but I do have family members who do and I know this is vital for them and ensures they still have some normality in their lives and enables them to attend appointments, get groceries etc. Just a thought.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
