13797	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13828	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13858	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13919	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 13949	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
13980	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14010	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14071	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 14101	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14132	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14162	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

14223	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 14253	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14284	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14314	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14375	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 14405	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14436	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14466	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14527	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. 14557	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation
14588	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. 14618	An individual	2c. Care for Adults	We the undersigned ask that the Council reconsider the proposal in 2c Care for Adults to close the existing facilities and concentrate them in one building as a move away from the original model of bringing together people with needs. We feel that this move affecting the ACSS building, which was purpose built to replace Winchburgh Day Centre is short-sighted, as a strong rapport has been built up between staff and clients both past and present and to remove this facility will destroy this trust. The ACSS Centre is the only facility used by many clients and others from the community as a point of contact and as a social gathering place, helping to remove the isolation often felt by both disabled and able-bodied in a caring and friendly atmosphere with all members of the community in West Lothian coming together	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation

14629	An individual	2c. Care for Adults	again don't leave them with no where to go day centres are a vital resource.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14630	An individual	2c. Care for Adults	More money invested in day services which is preventative and saves money as it reduces need for residential care placements and home care packages.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14631	An employee of West Lothian Council	2c. Care for Adults	I am unclear when "day care facilities" are referred to whether this refers to all client groups and if so does this mean that Pathways would be looking to provide a service across client groups for example learning disability, physical disability, mental health, older people etc - I am unclear what is meant by local solutions though would agree with the principle of allowing people to stay in supported accommodation and as I understand it currently there is a waiting list for all supported accommodation	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The proposal is for all client groups day care to be provided in one location.
14632	An individual	2c. Care for Adults	People cannot travel so having one centre is ridiculous	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
14633	An individual	2c. Care for Adults	Why move the centre of excellence Elburn when the last consultation provided this service to the individual's. Has thought been put in to physical disabilities individuals/service users mixing with learning disability service users? what will the impact be to each and every one service user. Will teams be redeployed, having spent 3.5 million building pathways. how will all three centres be able to combine when pathways are full most days as per the care inspectorate!	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign

14634	An individual	2c. Care for Adults	That's fine combining it into one building good idea but you also need to make sure there is transport available for people to get to it	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
14635	No Response	2c. Care for Adults	This is a good idea but will travel expenses not overcome the saving costs and will there be enough additional support available for future growth in the demand for this service.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
14636	An employee of West Lothian Council	2c. Care for Adults	I think out of all the cuts this is the most unrealistic cut. These three services are completely different. With 3 very different client groups. The pathways building is not suitable for a large percentage of service users accessing the bathroom never mind the loss of therapeutic activities like jacuzzi or multi sensory room. The staff the work in the 3 units all have unique qualities and skills to enable them to specialise in the client group they choose to work with. Years ago the client groups were segregated as it was seen as being the best option, however now a few years down the line those same clients are going to be sacrificed to save some money. This will cause of the clients serious stress and anxiety because change is very difficult and find it hard to adjust to change and could set them back many years! There are others means that budget could be cut in these services without closing/merging them. For example, make clients pay for transportation. Stop council contribution to outings. Increase food costs! Look at hours of staff not undertaking paperwork duties. These services don't expect not to have impacts of the cuts but these are essential services in this community and without the or with them being provided in buildings not fit for purpose is not going to save money but will have devastating impact on the life's of those using these services. Most of these service users don't have a voice to oppose these changes so sadly this decision will be taken out of their hands and a independent advocate has not been in place to provide information to the service users in a manner they understand which is a form of discrimination against the people who need these services the most. I would rather pay more council tax than see this proposal go ahead	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your comment which will be considered as part of any service redesign
14637	An employee of West Lothian Council	2c. Care for Adults	Again I only agree for certain buildings for example I don't agree with day centres for adults with learning disabilities loosing a very well designed used building to move to buildings not suitable to save the council money !	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
14638	An individual	2c. Care for Adults	This looks like that councils are stepping back into institutionalisation, in other words stick everyone under the same roof that have learning/physical disabilities. You say it will save 2.5 million, but where and how? Will pathways meet the needs of the individuals that use adult day services in West Lothian, has contributions towards services such as transport and day services been looked at. These services that you propose to possibly close are fundamental to the communities that they support. How much will it cost to adapt pathways to meet the needs of individuals and provide a safe and caring environment. Has group advocacy been sourced for individuals that have difficulty with communication due to disability. How can technology replace a human being as well, technology breaks and takes away security for the individual, they may feel safe knowing someone is in the house. Costs could be saved elsewhere and this should have been consulted before becoming a proposal. Look at the new care principles brought out by the Scottish Government, how many principles have been ignored in the making of this proposal. So all of this meaning that my son has to either lose a service that he gets so much from or use a building not fit for purpose therefore compromising the quality of care he receives, possibly with less staff and less resources to meet my sons needs. Benefits are paid for a reason and contribution to care should be looked at and I certainly wouldn't mind paying more for my sons care as long as he got the same level of care that he receives now, in order to keep the service running.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
14639	An individual	2c. Care for Adults	What will this mean for the provision of respite? This is critical for many families and provides key respite for carers. Not clear how greater use of technology will help with this. Might help behind the scenes, but how will it help the person for whom the service is being provided?	Care for adults - day care provision	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14640	An individual	2c. Care for Adults	The opinions of old folk should be consulted whenever possible. In may not be possible to share facilities with other providers if these are also hard Councils. Sharing with private providers may prove too expensive on hard pressed budgets.	Care for adults - day care provision	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14641	No Response	2c. Care for Adults	I don't believe that you should close services that are very important to people. Moving all the care services provided into the one centre is not a good idea. How much space is there for 3 centres including 3 lots of service users 3 lots of staff 3 lots of key workers 3 lots of team leaders and 3 lots of managers. The managers are all good and good and what they must provide for each service. How much space will there be in one centre for the care needed for some service users. Just because the council sees the big number of how much the will save does not mean that they will save while making the centre apatable for each and everyone	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign

14642	An individual	2c. Care for Adults	I am completely against, and very worried and concerned to hear the council are even considering consolidating 3 day centre provisions into only one at Pathways. I am fully aware that even currently the provision for vulnerable adults is sparse, and usually only on a part time basis, so I am certain that this change would further decrease the council's responsibility to provide support to the most vulnerable in our society. It would be against human decency, morality, and would be a further return to the Victorian era, whereby disabled were locked away and unseen/unsupported. It would also put further untold burdens on families - we need support, and the fallout of this decision would be immense.	Care for adults - day care provision	2. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
14644	An employee of West Lothian Council	2c. Care for Adults	Combining services may mean that some cannot access this. Transport for these people should be considered.	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
14645	An individual	2c. Care for Adults	It is , absolutely , imperative , that the Ability Centre , in Carmondean , be kept open ! Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14646	No Response	2c. Care for Adults	It will not be possible to maintain these important services by amalgamating them. Everything will become diluted and the quality of life of the disabled service user will suffer as a result	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
14647	An employee of West Lothian Council	2c. Care for Adults	Proposed closures of day services for older people will have a huge impact on daily lives. These people have contributed to the local community for a lifetime and deserve something back. Isolating the vulnerable in our community needs to be avoided.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14648	An employee of West Lothian Council	2c. Care for Adults	Changing model of day support from building based to outreach models requires community facilities and resources to be available. I have a concern that this is not factored in to other saving measures proposed such as rationalising community centres and halls etc.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
14649	An employee of West Lothian Council	2c. Care for Adults	The Pathways building is ABSOLUTELY NOT SUITABLE for the service users that attend Eliburn Support Services day Centre. Pathways building would require MASSIVE renovation and extension at HUGE costs which seems to be defeating the purpose of this which is SAVING MONEY. Eliburn is already fully equipped for the service users needs providing a large dining area as a lot of space is needed to accommodate service users in wheelchairs being aided by staff, rooms fit for wheelchairs, each with dual bathroom/changing room facilities. A fully kitted out physiotherapy room, a jacuzzi, a sensory room and medical department with treatment room. If day care facilities have to be combined it would be LESS DISRUPTIVE, COST LESS and TIMESCALE would be much quicker to transfer TO Eliburn given the service users at the other two locations would not require there to be any alterations to accommodate their inclusion.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
14650	No Response	2c. Care for Adults	I think it would be a disgrace to close day centres too as elderly people with all different illnesses require this they need support friends meals this could be the only stimulation they could have? Instead of couped up in their house with nobody else in their lives? It is shocking anyone would want to take that away from them?.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian already commissions day care services from a range of external partners and this will continue for those assessed as eligible who chose to attend day care
14651	An individual	2c. Care for Adults	is there enough space there?	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
14652	No Response	2c. Care for Adults	Supported accommodation in the community & tenancy support workers supporting people within their own tenancies is a better solution.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14653	An individual	2c. Care for Adults	Individual needs should continue to be met by a human and staff ratios should be adhered to to keep morale and quality of care high.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
14654	An employee of West Lothian Council	2c. Care for Adults	the day care service is some people only access to the community as long as they still get day care that's all that should matter	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
14655	An individual	2c. Care for Adults	Devolving the money to the client is cost effective as the client can fine tune what it is used for rather than having a paternalistic social work department "dictating" to those who are not aware of the option what will be provided. Is there not a statutory duty to inform clients of these rights?	Care for adults - day care provision	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All clients in adults and older people service and children with a disability service are offered SDS options as part of their care planning
14656	An individual	2c. Care for Adults	Would like to see more grouped community housing provision for adults. This allows a more reactive support provision incorporating a green transport policy . We need to focus on hours of positive contact and not just points of contact. If we consider that having one Pathways facility for West Lothian is okay it contradicts the focus on supported accommodation in their communities. If we don't want adults to travel for accommodation why do we want them to travel for Pathways access.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
14657	An employee of West Lothian Council	2c. Care for Adults	This makes some sense, though not sure how you support clients that attend Elburn day service on a outreach basis, unless those clients move to Pathways and the more able, get outreach support.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
14658	An individual	2c. Care for Adults	I receive care at home and would not welcome self - directed support , as a method of getting my care.	Care for adults - day care provision	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Self-directed support is the way of offering people more choice over how they receive any assessed eligible care and people can remain with the council arranging their care if they choose that option.
14659	An employee of West Lothian Council	2c. Care for Adults	assume savings in reducing to one day care facility take in to account additional travel costs - will this seem to be a barrier to some people needing these services? Good if people requiring care can stay local.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Detailed proposal will be worked up following the outcome of this consultation and this will include consideration of transport
14660	An individual	2c. Care for Adults	I didn't think pathways was big enough to do what it needs to at the moment, the car park is not, but if all the centres were together it could save money in community transport, in that you could have one bus going to one town rather than several going to several towns, you could also stagger the times so the buses could do more than one run, again saving money on drivers & buses.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
14661	An employee of West Lothian Council	2c. Care for Adults	Any merging of services would require sensitivity in relation to clients with diverse needs being supported within the same building. Currently many adults who have received a diagnosis which results in a decline in physical function can often experience a decline in mood, reduced confidence and self esteem. They are already very aware that they are now perceived as being very different within their community and at times by family and friends. A safe environment within a development service could be preserved as a "day centre" and ultimately impact negatively on their receptiveness to a much needed placement.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comments. The proposal would still see day care delivered for people who have an assessed eligible need. The aim is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14662	An employee of West Lothian Council	2c. Care for Adults	My concern here is people using the other two are taken away from people and facilities they have been relying on, I do not know if the other two are close by.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The three day care centres are currently all in Livingston.
14663	An individual	2c. Care for Adults	Absolutely not!!!! Providing "choice" in one facility instead of three is NOT choice! People of many different abilities use these services, and to put them all in ONE place would cause chaos. These people and their families rely on these services to provide respite, support, friendships, a 'normality' that everyone else takes for granted and they SHOULD NOT be tampered with.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	People who are assessed as eligible for day care can choose to use their agreed budget in a variety of ways, with council run day care being only one option.
14664	An individual	2c. Care for Adults	As a mum of a disabled son who uses [REDACTED] five days a week. The proposed closing of two centres and the incorporation of these centres into one is ludicrous. The adult's who attend this centre have varied, complex and challenging needs. Pathway's only caters to adults with moderate difficulties, whereas, the [REDACTED] is designed for adults with profound difficulties. Cutback's and saving money should not impact on the people who need help the most. The merging of three centres suited for varying levels of difficulties, does not make sense and is effecting the most vulnerable in society. My son has been going to [REDACTED], the shut down of this centre would have a massive impact on his health and well being. The outcome of this closure would more than likely mean he needs more help and assistance. His life would be completely disrupted, as an adult with profound difficulties, this disruption is not necessary and would be detrimental to my son, to me and to his father.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14665	An individual	2c. Care for Adults	The ability centre in deans is a big part of my life its the only time i get to socialise and meet other people with disabilities. Its a life line to all the clients it gives them purpose in life we are not staring at four walls in the house. If take this service away you will cause people to take thier life. The ability centre saved my life with the service it provides. Disabilities can happen at any point in your life so you will be depriving people in west Lothian ave made such great friends at the centre seems ending up with a nuroloical condition. Thats why i started the petition and got in touch with the courier. If this service goes you will be taken lifes away. This centre is the heart of West lothian. I wouldn't like your self and family members get a disability if your from Westlothian because they wouldnt have any help.This service has brought my confidence back due to the great staff.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14666	No Response	2c. Care for Adults	The facilities you propose to close are a lifeline for some of these people. They should remain open & savings be made elsewhere. Supported accommodation in the community is just a euphemism for placing additional burden on families.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14667	No Response	2c. Care for Adults	I think it is a disgrace your planing on closing the Ability centre in deans disabilities can hapen at any time in life how would you fell if it happen to you or your loved ones. Its been my life line the [redacted] as i got a disability and had to give up my job so you can image what a impact that was now the Ability Centre is my only socialising and we get to help each other its a place to go to. The service provides loads of help to its clients. It has saved my life or i would have took my own life. Its a place we can meet up have lunch and chat its used by other people who come in to the restaurant bit for the same thing	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14668	No Response	2c. Care for Adults	If you take this service away i can see you having blood on your hands its people's life line gives the carers and the person a break to have conversations with other individuals. The person's attending these services learn new skills and it helps them build there confidence back up. Disabiilities can happen at any stage in life there is only one Ability Centre going about my friends from fife and Glasgow are jelous that they dont have this so West lothian should be proud to say we have this service in west Lothian. How would the council feel if it happen to them self or a loved one there would be no place to go. I have been a service user [redacted] before i took un well at the [redacted] so i thought my life was over the Ability centre brought back the best in me with all the great service's they provide would be a huge loss if people in west lothian loss the service	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14669	An employee of West Lothian Council	2c. Care for Adults	Sadly this was the inevitable outcome of SDS. In theory the service user having choice of how they want their needs met. In reality the choice becomes restricted as it is not financially viable to offer all options. Bearing in mind choice does not always mean the client will opt for an outreach option. The traditional day care facility is out of favour at the moment but there will always be an important place for this. Individualised budgets will be more expensive than spot purchased/centralised services. It's concerning as the most vulnerable client groups will lose out in the long run with additional expectations put back on stressed informal carers. The area of assistive technology is interesting, ever advancing and should definitely be explored.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	People who are assessed as eligible for day care can choose to use their agreed budget in a variety of ways, with council run day care being only one option. Individual budgets are the same regardless of which self-directed support options is selected. The area of technology is already being used where appropriate and we will continue to advance this.
14670	An individual	2c. Care for Adults	We have [redacted] He has been at the [redacted] for the last [redacted] He does [redacted] He is incontinent and needs 24 hour care because he is totally dependent on others at Eliburn Day Service. He has people that have always taken good care of him and to suddenly be stopped from going to this service would completely upset his whole world. He is not very good around strangers and can get very upset. At the Eliburn service he gets the best for his social life. I am a woman of [redacted] and I have health issues of my own. I can not retire from a cleaning job until Sep 2020 after the Gov. put the retirement age up and I am struggling to keep a job, look after a disabled person. My husband will be [redacted] He has his own health issues and he and I really have no life at all. We have one daughter who has a family of her own and is in full-time work so we get no help from her. If the council needs to make cuts disabled people should be the last thing that needs there funding cut.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

14671	An individual	2c. Care for Adults	I attend the Ability Centre in Livingston. I have a disease which will deteriorate, use a wheelchair, unable to go out unless accompanied and the weather is dry/warm. Have been attending the Ability Centre which i enjoy very much, activities, learning skills, being able to talk to others which helps a great deal with everyday problems. All the staff are brilliant, have a lot of patience always there to listen. With the group being about 15 at the centre it is not too large or noisy, as this affects my ability to concentrate and increase my fatigue. I have attended the in the summer only when weather is dry and warm (managed 1 day this year). I have to rely on my father who resides in the house to go walk along with me and then return in the afternoon. Due to eyesight problems if the weather is cold and damp this causes extreme pain both legs, feet making me feel totally exhausted (oxygen levels unable to pump hard enough). Going to the Ability Centre there is more activities to keep me independent in the home i.e. cooking. Do not think it would work putting those with learning difficulties and those who attend the centre together. Too noisy, different environment, large group. People with neurological conditions cannot deal with a lot of noise. I realise that the Council has to make savings but this solution would not work. I would be willing to pay an amount each week toward the cost of transport. without the ability centre i am unable to go out and would be totally housebound which would have a huge impact on my health and wellbeing.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14672	No Response	2c. Care for Adults	Consolidating physical locations into one will come at a cost to the individuals involved. Has this been assessed?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This is still a proposal at this stage
14673	An individual	2c. Care for Adults	How do people get there? Is there transport provided?	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	This is still a proposal at this stage
14674	An individual	2c. Care for Adults	you want to try the bring the changes and savings in relation to most vulnerable people??thats ridiculous. Day care facilities are needed in different locations.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14675	An employee of West Lothian Council	2c. Care for Adults	As long as service users still have facilities where they can interact with others and still have services they can access then the changes proposed could work.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
14676	An individual	2c. Care for Adults	If day care is centralised, will any savings be reducted due to transport and care costs. This should not be looked at in isolation but in conjunction with transport and increased care costs if people are kept at home instead.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
14677	An individual	2c. Care for Adults	How are people going to get there? It will mean less places in day care facilities. And again you're isolating these people.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14678	An individual	2c. Care for Adults	All very well but lonely people look to getting out of the house for a time will this leave them housebound awaiting a visit ..I worry about this one	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14679	An individual	2c. Care for Adults	Livingston may seem like 'the centre' of West Lothian to the council but there will be some people who cannot get to Livingston and people should not be missing out on a service just because they cannot get to it.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14680	An individual	2c. Care for Adults	Although not ideal to relocate vulnerable people- a consolidated service would enable a better service to be delivered.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14681	An individual	2c. Care for Adults	How can you offer real "self directed support" in such a diverse area from just one day care centre?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Self directed support allows people to select the way they want their assessed needs to be met, with council run day care being only one option.
14682	An individual	2c. Care for Adults	As long as all user can still reach the new facility and the same level of care is on offer	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14683	An individual	2c. Care for Adults	I support that local provision should help people to stay in their own local areas other than residential care outwith the area that they are familiar. This would also help families support them better.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

14684	An individual	2c. Care for Adults	One location sounds logical assuming it can cope with the numbers?	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14685	An employee of West Lothian Council	2c. Care for Adults	This isn't very clear either on how detrimental the impact will be on this client group. Sds has not changed many clients support needs to outreach and day care is still in high demand for respite for many clients. To allow parents to go out and contribute and work while their older child with special needs is cared for in a place where their needs are met and they have the opportunity to gain skills academically and socially . Pathways is not big enough to house all these clients therefore many will be asked to leave , peoples lives being devastated as they have no where to go, left isolated at home . People classed as less vulnerable than others left to burden other services as they have no support to keep them safe and feel valued and live a meaningful life? Other ways to save money can be looked at transport for example? Pay full cost for activities no stationary everything online No lunches provided or provided at a higher cost	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14686	An individual	2c. Care for Adults	when Clarendon and Blackburn were closed and Pathways was built the council decided to have only mainstream special needs in the building and those with more complex special needs were accommodated at Elburn Many of the parents and carers disagreed with this idea but the council decided this was the best way forward .Over the years the parent/carers and friends group at Elburn have raised thousands of pounds which have been spent on the garden, a multi sensory room and a small hydro pool these are all things that are needed and well used by the clients. Money has also been spent recently by the council to make an office and treatment room for the nurses.The building also has an excellent physio room well equipped and a tracking hoist .So now the clients one of which is my daughter are to be move away from this building and all the thousands of pounds that have been put to good use to another building that was never intended to have clients with such complex and profound needs.This is what I call sheer extravagance and a shocking waste of money.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation. □
14687	An individual	2c. Care for Adults	My tenants struggle with a journey to hospital they go to day centres cause its local they couldn't cope on buses any length time	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The three day centres are all based in Livingston
14688	An individual	2c. Care for Adults	Everything is becoming so diluted! Self directed support was always intended to shift the responsibility from the local authority, and it appears to have succeeded in that. Supported accommodation can work very well, as long as the right resources and monitoring is in place, but in order to save so much money, I fear the emphasis on quality will reduce..	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
14689	An individual	2c. Care for Adults	Under no circumstances should two disability centres be closed and everyone pushed into the remaining one, on a reduced service. This should not be deemed acceptable, as it will have a devastatingly negative impact on the lives of the vulnerable. A definite NO!! This is targeting the least able in our society, and you should find other ways to save money that don't target the disabled and frail. Using technology instead of human contact in sleepovers etc. should not be an option.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14690	An individual	2c. Care for Adults	Do you propose to sell off the disability service buildings when you cut the provision? I find this unacceptable.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14691	An individual	2c. Care for Adults	Physical care is not the only need of the vulnerable and the council will be in dereliction of its duty of care if the psychological and social needs are not catered for.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
14692	An individual	2c. Care for Adults	I'm also appalled at the plans to shut down the Elburn centre and the ability centre and merging them with a different service. I believe these are the most important priorities.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
14693	An individual	2c. Care for Adults	I'm very disappointed in the council's decision to attack these care services to save money and I know there are a growing number of people becoming aware of this and I can assure you they are disgusted by it. I think it's important to understand why these Centres are so important as individual Centres specifically looking after the people they look after. The ability centre helps to rehabilitate people with brain injuries, strokes, degenerative illnesses like MS, Parkinson's and Huntington's. The list goes on. They have specialized equipment and have added over the years to the centre to provide the best care they possibly can. The other centre looking after adults with severe learning disabilities takes the strain off families looking after someone with learning disabilities. The clients have a much greater quality of life due to the activities and equipment available. This centre has been open for a number of years and I'm aware of fundraising taking place over the years to provide better facilities including a jacuzzi and sensory room. I note they also have a memorial garden for the many people who have passed away far too young. All the hard work put into building these Centres up will be lost and it will be a case of starting over. This affects everyone in the Centres care and the staff also. It is not acceptable to cram everyone in one building and for them to lose services so the council can save money as well as losing access to the equipment that improves their quality of life as well as therapeutic benefits. Not only will this affect the clients and families, but it will affect the staff. This no doubt will mean a cut in staff levels. Each centre is very specialized in the care they provide and if the staff has to cover vastly different areas of care this will affect the clients. In order to save the council money they are willing to ruin the lives of the clients, families and even the staff. I admit I don't believe this will be intentional, but I do not believe enough research and investigation has gone into the planning. Especially, when I constantly see the council advertising spending millions on other areas. Maybe the council should consider cutting the levels they are spending on other areas and spend some of this area. I pray my family and no one else's families have to use these Centres in the future as it's every parent and families worst nightmare for something to happen to their loved ones. But, if these Centres exist it makes a huge difference if the unthinkable does happen.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14694	An individual	2c. Care for Adults	I think this is a very dangerous proposal that could potentially create more critical/substantial cases rather than having the opportunities for early intervention and pro-active social work for individuals. I would be concerned that the council is stripping funds from the most vulnerable individuals in society and that these measures would place people at a greater risk of harm under adult support and protections.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
14695	An employee of West Lothian Council	2c. Care for Adults	I wouldn't like to see vulnerable individuals confined to their own homes where a sociable environment would benefit them.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14696	An employee of West Lothian Council	2c. Care for Adults	All adults should have to pay a contribution to their self directed support budget as in other councils.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
14697	An individual	2c. Care for Adults	Use the Adult Ability Centre in Carmondean and Eliburn as day care centres for the elderly. Built more care homes for the elderly that are nice places to live. Old folk receiving care at home are more isolated and struggle with heating/food bills. Bring more older people together in exciting and comfortable places to live with professional care on hand 24/7.	Care for adults - day care provision	4. The council is already doing this.	Self directed support allows people to select the way they want their assessed needs to be met, with council run day care being only one option.
14698	An individual	2c. Care for Adults	As before - improve residential facilities. Make it everyone's ultimate objective to end up in care locally because it is an improvement and benefit to them and their families whilst creating employment.	Care for adults - day care provision	4. The council is already doing this.	Thank you for your response. Your comment has been noted
14699	An employee of West Lothian Council	2c. Care for Adults	I agree that we should consolidate buildings where they are not used to full capacity. People are too tied to buildings rather than the service they receive. Given most people are transported to these centres I don't see the problem with moving from Deans to Craigshill. I know it will be a period of change but we cannot afford to keep running buildings at low capacity. I have found the recent press on this sensational and does not reflect the reality of what this proposal means.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14700	An individual	2c. Care for Adults	Why Livingston? Is this the centre of the universe? Transport costs? Friendships, security, knowledge of the local community are so important. Don't see people as one remedy fits all. I object to the west moving to Livingston.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The existing building based day centres for adults are already all in Livingston. Our aim is to shift towards an outreach model to allow for further personalisation.
14701	An individual	2c. Care for Adults	day care facilities currently provided at three different locations are combined into one at Pathways in Livingston. This may be a saving to the Council but adds transport costs to individuals using the service.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

14702	No Response	2c. Care for Adults	While merging facilities will cut staffing costs , care needs to be taken that the service users are not spending all day being transferred to and from these facilities. Not everyone lives in Livingston.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The existing building based day centres for adults are already all in Livingston. Our aim is to shift towards an outreach model to allow for further personalisation.
14703	An individual	2c. Care for Adults	How will people in other communities get to Livingston? Might it not be better to say straightforwardly that you propose to cut it altogether?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The existing building based day centres for adults are already all in Livingston. Our aim is to shift towards an outreach model to allow for further personalisation.
14704	An employee of West Lothian Council	2c. Care for Adults	if the ability centre closes it will be a huge loss to those who use it regularly. Unclear how Pathways can sustain the numbers of people currently at 3 centres	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14705	An individual	2c. Care for Adults	Although the closure of the two centres will be difficult for all involved, it seems to be a positive move to update the model of care and deliver a non centre based service for those who would prefer it.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14706	An individual	2c. Care for Adults	so who do these people turn to when benefits are cut day centres are closed ??????????	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
14707	An employee of West Lothian Council	2c. Care for Adults	Will consideration be given on transportation for the people who previously attended local day care centres.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14708	An individual	2c. Care for Adults	Would it not be better for older people to stay in the communities they know and are familiar with?	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14709	An individual	2c. Care for Adults	I think that this is a good approach. However, I would urge the council to ensure that community groups using the ability centre are able to transfer to different premises to ensure that these vital support clubs continue to exist particularly in relation to the changes being made in relation to care thresholds	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14710	An employee of West Lothian Council	2c. Care for Adults	The removal of three location does cause concern but if this is elevated but changing and modernising Pathways to support those most in need this becomes less of a concern. There must also not be a reduction of the level of amount of care provided particularly to those most in need. Career need to be consulted and reassured properly doing any changes as this could be very stressful for them. Social isolation is a big concern for those who are maybe not as in need. Support will be needed to ensure communities provision is sufficient and compares to what they have been used to receiving.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14711	An employee of West Lothian Council	2c. Care for Adults	I am strongly against any changes - SDS is being used as a smoke screen. The provision at each of these 3 centres is different and putting people together with different needs has been shown NOT to work in other local authority areas	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14712	An employee of West Lothian Council	2c. Care for Adults	Can the people that use the service at the other 2 locations get to pathways. If they can then it appears to be a good idea.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14713	An employee of West Lothian Council	2c. Care for Adults	Supporting older people is very important. Day centres are vital. Joined up working is very important with the NHS.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services

14714	An individual	2c. Care for Adults	I moved here from Edinburgh 13 years ago after I had a stroke. I decided to move to West Lothian as I had heard that the social care services provided were really good, and I felt the move would benefit me. I have attended the Ability Centre in Carmondean, and its outreach service at the Lanthorn, every Wednesday and Friday for the [REDACTED]. I tragically lost my son to a Brain [REDACTED] my other son lives in Edinburgh and works full time, so I do not get to see him very often. My niece used to come out from Edinburgh to visit and help me with things, but tragically she died quite recently. I have no other family, so I rely on the Ability centre to provide me with support and the opportunity to socialise. Without the Ability centre I would be in the house all the time and completely isolated.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14715	An individual	2c. Care for Adults	I have made many friends at the ability centre, many of whom are wheelchair users. My home has steps leading into the property so many of my friends are unable to visit me there, and we rely on the Ability Centre which is fully accessible to meet up. since my stroke I find it difficult to walk long distances, I feel vulnerable due to my disability, and unsure of the local area. I do not feel safe walking under the underpasses and rely on taxis to get around. Due to the expense of taxis if the Ability centre were to close I would be unable to visit friends. Not only do I rely on the Ability centre for allowing me to meet with friends for social support, but I also meet with my support worker [REDACTED] every Friday where I can get support with any issues or worries I have. At the Ability Centres Lanthorn outreach I attend groups such as crafts and go on outings, I would be unable to access this service from home. After my stroke I would not speak, I used one word, or pointed to communicate, I felt too embarrassed to try to speak. People at the ability centre helped me to find my voice, they encouraged me to talk, they made me feel safe. Being around others with a disability and the staff at the Ability centre have made me feel at ease and comfortable, this has helped me with my recovery. At the ability centre everybody knows my name and understands me as a person I feel I belong, cared for and supported. If the Ability centre were to close I would be completely isolated and my mental health would deteriorate. I rely on this service to close it would be devastating.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14716	An employee of West Lothian Council	2c. Care for Adults	Already aware that the move to Pathways in Livingston is not a move that is being positively viewed by some clients due to increased travelling distance.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14717	An individual	2c. Care for Adults	I am the father of a child with profound difficulties who attends the Eilburn centre five days a week. I find the proposed closing of this centre and its incorporation into the Pathway's centre deeply concerning. The adult's who attend the Eilburn centre have varied, complex and challenging needs. They are not suitable for home care or any other type of facility that is not as well equipped as the Eilburn centre. The Adult Learning centre is unique - it has trained medical staff, sensory equipment, physio services, a remembrance garden and the ability to care for seizures. The Eilburn centre is fit for purpose when it comes to dealing with profound difficulties, the Pathway's centre is not. On a personal note, my son has been going to the [REDACTED] the shutdown of this centre and the adjustment to a new centre would have a massive impact on his health and well being. His life would be completely disrupted, and as an adult with profound difficulties, this disruption is not necessary and would be detrimental to my son, to me and to his mother. My son is [REDACTED] and the Learning Centre has made special adaptations in order to meet his needs. The Learning centre has the ability to provide one on one care, and when my son was very ill they provided two on one care. This level of care cannot be maintained with three centres merging into one. I understand that cutback's need to be made but these cutback's should not impact the most vulnerable people in society. The merging of three centers suited for varying levels of difficulties into one, does not make sense and will be hurting those who need help the most.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14718	An individual	2c. Care for Adults	Combined care facilities are a poor idea and would lead to less effective rehab. Getting self directed support/budget for individuals is useless if there are no suitable facilities to use. For example, care at The Ability Centre is excellent but other than that there is no facility for rehab for those brain injured who live in West Lothian. Braid House is not suitable for specialist rehab.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14720	No Response	2c. Care for Adults	These centres provide a safe place where people with complex needs can safely socialise. As Pathways is well used then closure of other units would mean a cut to the service provided.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14721	An individual	2c. Care for Adults	If you do not meet that criteria are you signposted to other third party organisations or left to your own devices? It seems on some occasions there has been a "chicken and egg" scenario. Places were not available for certain services, as referral were closed and therefore people have had to look for alternatives. Also some services are only available through Social Work referrals, therefore if people are not signposted to them there is no way to access that service. Supported accommodation is ideal for those who want it and being part of the community is incredibly valuable for all involved. To ensure physical and mental well being, where ever someone choses to live can only be done with the correct level of support. The level of support to ensure people get out and about and see friends and family as well as take part in meaningful activities and live a full life. Not merely exist, with 4 x 15 minute visits a day and microwave meals day in and day out.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
14722	An individual	2c. Care for Adults	The ability centre is a crucial lifeline to many people with disabilities. It provides a much needed social link to many organisations and individuals, without which their mental health could suffer due to isolation.	Care for adults - day care provision	2. 14729	No Response	2c. Care for Adults	For those who can afford it, a cost that equates to the actual cost of food provided, should be levied for day care,	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
14730	No Response	2c. Care for Adults	day care provision should be prioritised for service users with a diagnosis of dementia, Alzheimer's, to act as a respite day for spouses/carers. Once service users move into residential care, their day care place should be relinquished	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
14731	An employee of West Lothian Council	2c. Care for Adults	what about the impact of transportation and associated costs	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14732	An individual	2c. Care for Adults	I strongly agree with this proposal. A move to outreach support is far more effective than the current centre based day care model which is outdated and inflexible	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14733	An individual	2c. Care for Adults	The move to Pathways should be coupled with flexible transport arrangements for those that wish to attend day sessions.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14734	An individual	2c. Care for Adults	If all day care facilities are to be provided at one location, there must be assurances that transport will be provided and that there is enough space to accommodate everyone.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14735	No Response	2c. Care for Adults	There should be flexibility to attend day care in other LA areas if you live on the border	Care for adults - day care provision	4. The council is already doing this.	People with assessed eligible needs who elect to arrange their care through self-directed support options may be able to elect to attend day care in another authority area if this meets their needs
14736	An individual	2c. Care for Adults	This is getting a bit depressing filling this in as it's all about cutting costs by cutting services. If there are currently 3 day care units that can be incorporated into one on paper it sounds like a no brainer. But if you have 60 people using each of the 3 units on a daily basis - does the 3rd have capacity for 180? I can only comment on the information you give.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14737	No Response	2c. Care for Adults	I think this is fine provided you are able to provide door-to-door transport for Livingston for the people who need it as and when they need it.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14738	An individual	2c. Care for Adults	suggestion to cut back on daycare for the elderly is absolutely a false economy. Quite apart from the misery for carers not getting a break and for elderly people stuck at home - depression support and possible need for care home care would be a lot more expensive.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14739	An individual	2c. Care for Adults	As above day care should not be changed - many elderly people cannot easily travel far.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14740	An individual	2c. Care for Adults	the local day care facilities are really enjoyed those who attend. small groups get to know each other. This would not happen with a large group. The group in Linlithgow is about to move to new accommodation in the old county buildings. Surely this is not being put on hold. As a carer I certainly hope not	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14741	An individual	2c. Care for Adults	Day centres being closed is not good at all. They are a valuable part of the community, many people who use these centres depend on them, as it is the only time they get out of their houses. It also gives their spouse/family or carer some respite while they are at the centre. Older people who have paid their taxes all their lives deserve to be looked after and treated well. Cuts should be made to management wages and bonuses as a first step, rather than taking from the people who really need the services provided by the Council.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14742	An individual	2c. Care for Adults	the day centre in Linlithgow is a very necessary and successful asset to the clients and also a great help to their carers. To close it would be an insult to all the people who depend on it. The old county buildings is about to open with accommodation for day care. very shortsighted if this does not happen. Going to Livingston should not be considered an option. I	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal for older people's centres is about the council owned centres
14743	An individual	2c. Care for Adults	Day care facilities need to be local to be effective. centralising them excludes those who need them through a lack of ability to travel safely from home.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
14744	An individual	2c. Care for Adults	some people are disabled and rely on the centers for , company get a hot meal getting out & about meeting people and independence	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14745	An individual	2c. Care for Adults	As Welfare and Financial Guardians of our son/brother , who resides in [REDACTED] and attends [REDACTED] it has been brought to our attention that Elilburn may be proposed for closure. With services being provided at Pathways Adult Support Sevices in Craigshill Livingston. As you can imagine this is of great concern to us all as a family, as we feel that Pathways won't provide the same excellent support and care being provided at Elilburn, assisting him in his day to day activities and giving him a good quality of life. To give you some information about him and his disabilities, he has [REDACTED] . Given his disabilities you can appreciate the complex care that he requires on a day to day basis. He requires and has 24 hour care within the community, which is provided by Ark Housing Association. he has been attending Elilburn since [REDACTED] and we feel this would be a terrible loss of services to the area, and for all those individuals who attend Elilburn on a daily basis. We would be obliged if you could enlighten us as to whether or not Elilburn is actually one of those shortlisted for closure and combined into Pathways Adult Support Services	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14746	An individual	2c. Care for Adults	I think this proposed decision to close the Ability Center is wrong . I personally use this facility every week places like this are getting fewer and making it harder for Disabled people to have places to socialise. I hope you will press the council to reconsider this decision	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14747	An individual	2c. Care for Adults	<p>I am emailing as I not sure if you will be aware that West Lothian council are proposing to merge three different adult day services into Pathways in Craighill. The council are proposing that this is the best and efficient way to save money, however, they seem to be targeting the most vulnerable within society. The three services that they are looking to merge are three completely different client groups, Elburn Support Services, The Ability Centre and Pathways. Elburn Support Services - Supports individuals with a learning and physical disability, the individuals also have complex levels of needs including healthcare. the service is available to individuals aged between 16 and 65 meeting the criteria. Elburn also provides day respite for carers and family members. The Ability Centre - this area provides a service for adults aged between 16 and 65 with a physical disability, within this service they provide a variety of educational, occupational, therapeutic opportunities and work experience. Pathways - Supports adults with a learning and physical disability, to access activities within the unit and within the community, this service also helps support individuals to develop their independent living skills. These three services provide three different types of support for the individuals attending them, the council would like all three to merge together into pathways to save money, however, they have not looked at the bigger picture. The building they propose to move into is not big enough, it does not have all the facilities to support the service users who would be moving there. So, they would then have to spend MORE money on building an extension and getting all the correct facilities, it requires to support the individuals. I understand that cuts have to be made but I feel there could be other ways this could be done rather than impacting on vulnerable service users whom the majority cannot read or write so who will advocate on their behalf? I was wondering if there was anything you as a councillor could do to support these services and stop these changes from happening? would you or a member of your party be visiting these services prior to the end of the consultation period? So, you will be able to see how different these services are from each other.</p>	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	<p>Thank you for your response. Your comment has been noted.</p> <p>This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.</p>
14748	An individual	2c. Care for Adults	<p>I am writing to express my upmost concerns about the proposal to shut two of the Adult Learning Centre's in Livingston and incorporate these two facilities into the Pathway's centre. As a parent, who's son uses the Adult Learning Centre in Elburn five days a week, this proposal will seriously disrupt my son's life. The adults who attend the Elburn centre have varied, complex and challenging needs. For my son to attend this centre, the Council had to pay for new tables and chairs, had to retrain the staff and had to get anti-glare tiles put on the walls to cater to my son's needs because he is registered blind. A Sense Scotland had to come through to the centre in Elburn to teach the staff how to deal with my son and advise of adaptations that would be needed in order for my son to be in a safe and secure environment. The Pathway centre has none of the above, and only has one adapted toilet that my son can use. The Pathway centre is designed to deal with adults with moderate difficulties, my son and the many others who attend the Elburn centre have profound difficulties. My son has been going to the Elburn Adult Learning centre for the he is comfortable and happy where he is. The shutdown of this centre and the movement of the service to Pathway's will have a massive impact on his health and well being. The outcome of this centre closing would more than likely result in my son needing more help and assistance to deal with this major change in his life. The disruption that this would cause for all the adults who attend this centre, and the families of these adults, would have a devastating effect. I understand the Council has to make cutbacks but these cutbacks should not impact the people who need help the most. The merging of three centres that are suited for varying levels of difficulties, does not make sense and is effecting the most vulnerable in society. As my elected representative I would like you to take my views on board and help my son - and the many others - who will be affected by this proposed closure. Ultimately, I want the Elburn centre to remain open and this proposal never to be implemented.</p>	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	<p>Thank you for your response. Your comment has been noted.</p> <p>This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.</p>

14749	An individual	2c. Care for Adults	The Ability Centre: Please can you support keeping this unit open. I'm not sure if most people are even aware of The Ability Centre and the fantastic work and support it gives to people suffering neurological conditions. I am now unable to work and the Ability Centre is a haven, a place where people with neurological problems can be ourselves and not have to put on "a face" for others. We all look after each other in our own ways and have built bonds of trust that continue to grow. To give you an example an ex teacher I've met who has the last stage of MS wouldn't eat anything but paninis at lunch because pride wouldn't allow her to ask or accept help. We were introduced on my first day and became firm friends [REDACTED]. Over that time I have her eating a proper meal at lunch and able to tell me when she can no longer manage and allow me to feed her. This couldn't have happened without the Ability Centre. The support of the staff is second to none they are constantly on the go but yet so attentive. I know I and my fellow users will be at a loss without the Ability Centre as it's a lifeline to a social life which many of us loose as par of the course of having these illnesses as well as allowing service users to do things that they can't at home e.g cook , make things with wood using tools with the support of the staff and volunteers. This service is one of a kind as many of my MS friends have nothing like this in their community and are seriously jealous. This also gives my partner/carer a break for a few hours to do his own thing without worrying about me. I am sure it's the same for all the other users and their families/carers. To go back to no social life will be devastating for so many users and outreach only allows a few from a select area to get together, not always the people you enjoy spending those few hours with. West Lothian Council should be so proud of this service instead of closing it's doors.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14750	An individual	2c. Care for Adults	Does this mean the closure of the St Michael's Hospital Linlithgow? Or just the Day Care Centre? I'm not sure I fully understand the implications - but is the Livingston Pathways facility capable of handling the whole Counties Day Care needs? Again, will these reductions just create greater footfall at St John's A&E - so more pressure on the NHS	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14751	An individual	2c. Care for Adults	it would maybe be a good idea to put different services into one building as long as the level of help does not get worse.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14752	An individual	2c. Care for Adults	If there is only 1 daycare facility then that will involve the cost of transporting elderly people further so that will be an increased cost.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14753	An individual	2c. Care for Adults	Will existing users be able to easily access Pathways? Self-directed is potentially a useful way forward provided there is oversight and monitoring that it is achieving outcomes for the person.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14754	An individual	2c. Care for Adults	This will cause stress and anxiety on the people who need to attend these outreach programmes as they may be travelling for some distance now throughout West Lothian. If they require transport to this one location this will increase to incorporate greater distances.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14755	An individual	2c. Care for Adults	The centre provides: Fully purpose built building. Bathrooms that house hoists, tracking, changing beds for personal changing use. Larger doors for wheelchair access. Physiotherapy Room with adapted Walkers/Physio tables etc. Medical And Nursing care on site. Staff are uniquely trained and qualified. Sensory Rooms with variety of sensory equipment catering for all spectrums. Jacuzzi for additional therapy. Fully qualified kitchen staff preparing all formats of foods/shakes/drinks etc. Remembrance Garden and Friendship Tree. Health screening and Clinic appointments take place within centre too. All of the above are so valuable and needed to the clients attending, it would be devastating to loose such a unique service.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14757	No Response	2c. Care for Adults	group living is often a good solution where done with imagination - being in one's own flat is not always best.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14758	No Response	2c. Care for Adults	One centre in Livingston- what about all the other towns adults?	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The three centres are all currently located in Livingston
14759	An individual	2c. Care for Adults	I would like to voice my huge concern and panic of the above. My own loved one attends Eliburn Day Centre which is a unique service with an award winning staff team who are uniquely trained and qualified, within a fully adapted building. This building houses personal care bathrooms fitted with hoists and tracking, as she like all clients there, total dependant on others with her personal care. It has wider doors for access in wheelchairs, physio room with therapy being available within May-walkers etc and trained staff to give on-going physio therapy. In house trained nurses that caters to the clients medical needs, administering medication throughout the day and catering for her daily epileptic seizures, closely and constantly monitoring her and keeping in touch with us when required. This itself overall with all 40 clients takes a huge pressure off the NHS with having trained nurses and staff caring for our adults. All health screening takes place within this centre too and clinics such as Neurology/Epilepsy clinics where as parents/carers we can attend and remove the stress from our adult by keeping them within the same environment to be able to attend this appointment.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14760	An individual	2c. Care for Adults	Clients at the Eliburn centre have complex medical needs and the majority have individual care plans which the fully trained and qualified nurses keep up to date and communicate direct with the clients GP to ensure all information is correct and up to date. The clients require 1:1 care throughout their time at the centre and to cater for all these clients different feeding regimes with the kitchen preparing all sorts of lunch from integral feeding regime, to puréed foods, lumpy foods, and certain shakes etc for all clients with different swallowing difficulties. These foods are not available within the community to be able to stop and have lunch when out and about. To provide additional therapy within the jacuzzi to clients which the staff themselves fund raised for this facility and have a fully trained and qualified operator of the jacuzzi to ensure its maintained at all times. The clients are able to spend time within the specialist sensory areas with a variety of sensory equipment available for all spectrums to have time out and de-stress from the daily routines. They have a large hall where the clients come to socialise at different events such as wheelchair dancing, certain adapted sports, therapies such as lying stretching out on large bean bags alongside peer groups to avoid isolation and to encourage stimulation and companionship. All clients come together in this room for lunch which has adapted tables for all different heights and widths of wheelchairs, special adapted seating and safety straps for certain clients and full use of adapted crockery and cutlery for those clients who are slightly more able to feed themselves. The room itself is perfect for the clients using their May Walkers and being able to have room to move about in these with support and guidance from the trained and fully qualified staff. It lends itself too housing the clients families to attend certain celebrations throughout the year where we can come along and watch our loved ones take part in shows, adapted sports and seasonal events. We are also able to celebrate a clients life or attend memorial services to those who have sadly lost their life's to life limiting conditions which a huge percentage of the clients have who attend Eliburn. To those clients families there is a Remembrance Garden and Friendship Tree to be able to come along and remember our loved ones. Eliburn Day Centre is a very valuable source for all clients attending, some of which have attended since the building opened and it has become their life line on a Monday to Friday basis.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14761	An individual	2c. Care for Adults	It is not a possibility or feasible for the clients to be fully catered for and cared for in the appropriate manner should the Eliburn facility change and Pathways is their only option. By doing this, it will completely isolate the clients, changing their life's to the detriment of each of them, causing huge risks to their health. Medical conditions and livelihood and change is such a huge hurdle where in many cases another transition is not possible. I do sincerely hope I have voiced my family's concern about this proposal as our own loved one like all clients who attend Eliburn are not able to verbally communicate, therefore are not able to advocate this themselves. We are their voice and advocates and I can only pray that you not only listen but hear why Eliburn is such a specialist and unique service, and will reconsider this proposal and let the clients remain attending the centre for what remains of their life's there and to be happy and content. Thank you.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14762	An individual	2c. Care for Adults	Adequate transport and support must be included. Also ensure consolidated service provide a equal service to that removed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14763	An employee of West Lothian Council	2c. Care for Adults	It's all very well combining the three provisions into one as long as this accommodates everyone already using the service.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14764	An individual	2c. Care for Adults	The problem with centralisation of day care facilities in Livingston is that it will require provision of transport for users throughout the area, and this will also result in a reduction of spaces for users.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14765	No Response	2c. Care for Adults	Only concern here is how do the people get to the new venue, when they are used to going to one they have gone to for a long time. Vulnerable people as you know do not like changes in their routine/life. Has the impact on undertaking this proposal being fully investigated?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14766	An employee of West Lothian Council	2c. Care for Adults	I actually think this is an instance where centralisation might lead to improved consistency of provision and would support this. Concentrating the specialist resources in one building will benefit those who work there and those who access the service if it is done well.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14767	An employee of West Lothian Council	2c. Care for Adults	how accessible is this for service users?	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14768	An individual	2c. Care for Adults	My daughter currently attends Eliburn Support Services so I am concerned that a move to Pathways would remove access to the Multi sensory room and jacuzzi available at Eliburn. Also, I do not want her to lose her provision [REDACTED] or have any significant changes to transport or hours of service provided each day. I am concerned that an increase of service users at one base will decrease the staffing ratio and limit opportunities for meaningful activity within the service base and in the community. This can already be a challenge at Eliburn because of the high support needs of a large group of service users all at the same support service.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14769	An individual	2c. Care for Adults	Closing Eliburn would be an act of callous social vandalism similar to the imposition of the Poll Tax. Here is how to save the money required to keep Eliburn going. Cut the Chief Executive's pay to Â£100k a year. All other pay to be reduced by the appropriate fraction such that current percentage differentials are maintained. Those earning Â£30k a year to be unaffected. Cut remuneration of Councillors to Â£30k a year with a purge on expenses.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14770	An employee of West Lothian Council	2c. Care for Adults	As an employee of WLC, working as the [REDACTED] at the Ability Centre, I fully support the views expressed by the Ability Centre against the proposed changes/cuts to the service and the detrimental impact that this will definitely have on the clients who currently are supported by this service. In addition to this great concern I would also like to put forward my feeling with regards to the valuable art therapy service that is offered as part of the wider programme at the centre. Art Therapy has been a permanent part of our service for about 8 years now, helping clients experiencing emotional distress to continue to attend and engage with (therefore benefit fully from) the Ability Centre service. For the clients living with health difficulties, loss and huge uncertainty, if this role were to change/disappear then this entire part of our support service would be lost and clients would suffer. Already, though this information is new, clients are already expressing their feelings about it in their sessions. Over the years having art therapy offered within the centre has enabled there to be a quick response to identified and emerging need with little or no waiting time so heading off a potential crisis before it develops, thus saving money/resources in the longer run. This may involve working in a joined up way and, for example, supporting the individual to make contact with their doctor, CPN or social worker. Indeed referrals for the service have come from the individual, keyworkers, social workers, doctors, a community nurse and CPNs. We have been able to tailor the art therapy service to fit our clients' needs, e.g. enabling a person to tap back into the service if life events deteriorate and the individual feels that their mood is dipping. Again, this rapid response allows a quick turn-around rather than letting the emotional stress mount up and require longer term treatment/ support to get the person back on track.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14771	An employee of West Lothian Council	2c. Care for Adults	Some comments from client Evaluations of art therapy are below: "I've felt my life has changed from being down in the dumps. I feel I can now move on. I have more confidence and am more optimistic." "Yes, (it was helpful), having someone that's not involved with my family. You're not judging me. You just listened. You've helped me to look towards positives. I've been used to feeling useless. I've found my personality again instead of sitting in my house bottling things up." "Yes (it was helpful) because it has helped me to understand about things going on in my life. Being able to get my feelings out and what's going on in my head. I just think it has been good for me." "If changes to existing services result in the resources being directed towards those in the higher needs category then I envisage the demand on the service to maintain or increase. Continuing to work in a joined up way, clients from the Supported Employment Service at the AC have had additional art therapy support and also an individual with a dual diagnosis of LD with a physical difficulty referred by the LD nurse. The Supported Employment Service also works with adults who have Autism/Asperger's, Mental Health Problems, and Learning/physical Disabilities so the benefits reach out to a larger client group who use the Art Therapy sessions regularly.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14772	An employee of West Lothian Council	2c. Care for Adults	A lot of service users attend their art therapy sessions and self travel to the Ability Centre independently, which is made easier due to the good central location, good public transport links and accessible parking on site. As an aside, the art therapy service has supported WLC's commitment to work with education with many student art therapy placements being successfully offered at the AC over the years. So, what savings could be made from the art therapy service? Certainly, the service could be mobile and use a small room in another local authority building, session numbers could be reduced or perhaps a small payment could be requested. What is important is that the clients continue to be supported in this way. In such stressful times of potential further change and loss, these individuals deserve to be as fully supported by their council which, let us not forget, was funded by them through tax for many working years, and this potential change/loss of the AC, a place of safety, support and friends, is unthinkable. It is because of this that I am protesting the proposed cuts/changes to the AC services.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14773	An employee of West Lothian Council	2c. Care for Adults	This only works if proper accessible transport provided. Day care can be a lifeline for families and individuals.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14774	An individual	2c. Care for Adults	Proposed Closure of Ability Centre in Deans Livingston With regards to the Council proposal to merge 3 special needs centres - Eliburn and the Ability Centre with the Pathways Centre in Livingston " I would like to raise some grave concerns. At present my daughter, ██████████ attends the Ability Centre every Wednesday, where she has built up a network of friendships, enjoying lunch, and participating in a wide variety of programmes such as woodwork, cookery and yoga. In particular, by taking part in the benefits of yoga classes, she has been able to walk 17 metres for the first time ██████████ Her fellow clients also have complex physical needs which are catered for by specialist staff in tailored facilities, developing confidence, socialising, and greatly enhancing their mental and emotional wellbeing. I am very concerned that if these 3 facilities are merged, in what is a cost cutting exercise, that the large number of diverse needs of these very different groups of extremely vulnerable adults will no longer be catered for, but will be lumped together in a "one size fits all" facility. The services, care and facilities at the Ability Centre are a lifeline to these vulnerable adults who already have to endure a limited social life. In the proposal it suggests services will be provided on an assessment of needs basis and I am very worried that my daughter will no longer be able to attend a centre on a once weekly basis, but will either have these opportunities decreased or curtailed altogether due to the inevitable increased pressure of numbers of clients on a single centre. The Council states it must prioritise services that matter most to our communities, one of which is vulnerable people. How can the closure of two day centres in the one area be regarded as a positive way to focus resources for those in the community who are most in need? How can you put a monetary value on a service which provides confidence and raises self- esteem? These clients are already facing a very challenging life for a diverse and complex set of circumstances, surely they deserve to have facilities such as the Ability Centre which allow them to lead as full and rewarding lives as possible? I would ask that the 3 centres are kept open and to encourag you to further develop services for some of our most vulnerable young people.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14775	An employee of West Lothian Council	2c. Care for Adults	I would think people would rather have day care provided locally rather than central	Care for adults - day care provision	2. 14777	An employee of West Lothian Council	2c. Care for Adults	I feel this may have a negative impact on users of centres that will close.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14778	An individual	2c. Care for Adults	Pathways into one building seems like a radical cut back.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14779	An individual	2c. Care for Adults	Adults with learning disabilities, by definition, are unlikely to have the capacity to either complain about service levels or the capability to campaign for themselves. Socialising is an important part of anyone's life including for adults with a learning disability. As individuals their physical and mental health will be enhanced by involvement in good structured activities. Putting all adults in one place such as Pathways will put immense strain on the facility. Greater outreach will work for some people but it requires sufficient investment of money and other resources e.g. Support staff. Those people at the most reduced end of the economic spectrum are the ones having to shoulder some of the greatest cuts.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14780	An employee of West Lothian Council	2c. Care for Adults	2c If appropriate transport is available to people living elsewhere, then combining the day care provisions seems sensible. Otherwise with cuts to public transport too, it could be very difficult for people to access the service.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14781	An individual	2c. Care for Adults	How do you honestly think that Pathways could ever provide the services of Eiburn and the Ability Centre? Where are all the disabled people going? Into the community? That'll be the shopping centre then. If the persons who have suggested this have any experience in the disabled community, then shame on you. This is cruel. The experience of dedicated staff in three different and complex areas in the disabled community should be something West Lothian Council should be proud of. Apparently you are not. I do not believe that self directed support is the preferred choice by families. If more people were offered placements at Pathways, which is almost at capacity, they would use it as part of their support choices. The council should perhaps put a monetary value on the carers who look after someone in their home. What would happen if we all just said no? I'm not doing it anymore. I'm too tired, my back aches and now my son has to stay at home all day until I try to sort out his self directed support. Who cares? Not the council, oh no, your not interested in what happens to him. No, you are too busy playing politics with vulnerable disabled people.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14782	An individual	2c. Care for Adults	What are you going to do to Pathways? Because it is going to be so over crowded that maintenance costs will increase. Oh yes, you will make adaptations, that will be costly. Considering the increase in wheelchair users and others for whom Pathways is currently unsuitable. Of course the car park is not big enough. Not to mention the traffic jam on Fridays. Will you have to build an extension? Oh, no! and you thought you were saving money. Perhaps the Council could build a new, eco-friendly centre to replace the others - but that would be too expensive, too efficient and too effective.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14783	An employee of West Lothian Council	2c. Care for Adults	What has been the change in the nature of services requested by Adults? Why is this relevant to a change in demand? What has there been an increase in demand for? What has there been a decrease in demand for? This is the second time "outreach intervention" has been mentioned. What is it? What are the three current locations of day care centres? How much will rent costs be reduced by dropping two of those locations? What local solutions will be provided to support those who can no longer attend the new centre? What opportunities for group socialising will be provided for those that cannot attend the centre? Is the supported accommodation an alternative to day care centres? What will be the increase in cost of having staff attend supported accommodation? What technology will be used to support care for adults? Who are the other providers we will share resources with? Is this an outsourcing of the provision of these services? Who pays for the external providers? Will there be a cost to the adult? How else will this be funded?	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14784	An individual	2c. Care for Adults	This would be a very controversial if the day care facilities currently provided at three different locations were combined into one at Pathways in Livingston. The users of these services may be suffering from different levels of mental health issues and could be adversely affected by this change to service delivery. This would also incur additional travel time and cost. It would my fear that users of the existing from outlying areas service may not wish to travel to Livingston and would therefore be cut off from the service. West Lothian residents rightly complain about the centralisation of some service provision from St John's Hospital to Edinburgh, although what is being proposed is equivalent to that at a different level.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14785	An individual	2c. Care for Adults	Closure of the Ability centre will directly impact on me. I get one day's respite a week and without this my stress levels will continue to rise. My daughters needs are such that she will not settle in another environment easily particularly with a different mix of service users.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14786	An individual	2c. Care for Adults	Giving enough time for carers to visit people in their homes, so that needs are properly met and giving greater access to day care centres and social activities is important for older people and their carers to maintain their independence.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area

14817	An individual	2c. Care for Adults	Interesting but enormous facilities can be intimidating and less intimate.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14818	An employee of West Lothian Council	2c. Care for Adults	This is a bad idea, These specialist centres have been providing an excellent service for a number of years, pathways is not suitable, or big enough to take care of the services provided at Elburn support service for instance. Get the NHS to take more of the Burden for these centres, again no practical evidence is given to support this action.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14819	An individual	2c. Care for Adults	So 2 centres will close, so everything depends on "local solutions" that have not yet been developed. So it is hard to offer meaningful comment. These could be fantastic or diabolical.	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14820	An individual	2c. Care for Adults	As a disabled individual I rely on the Ability centre, which is one of the proposed closures. I have volunteered at the Ability centre since its opening in November 2001. My mum, who is in her mid seventies, is my full time un-paid carer, and if were not for the ability centre I would be at home all day, every day relying on my mum to do everything for me. I would be completely isolated. My mental health would completely deteriorate, and would become an issue if the centre were to close. I have provided many years service volunteering to help others with disabilities, at total of service with Disability West Lothian, and the last with This service has given me a reason to get up in the morning, and made me feel needed and wanted. During my years at the ability centre I have lost 9 of my nearest and dearest, and if was not for the support of the ability centre I would have found this even more devastating than it has already been, especially when I lost my Dad earlier this year. Working within the Ability centre I know first hand the impact and effect its closure would have on the disabled community and their families within West Lothian.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14821	An individual	2c. Care for Adults	The potential decision to move the clients from the Ability centre to Quigley House will not work as they struggle to cope with the numbers they already have, and they do not have the facilities to cater to the needs of the physically disabled. I feel that WLC is trying to put an umbrella over all disabilities, and provide only one accommodation, when every disability has its own requirements. Someone with a learning disability has completely different needs to those with a physical disability. The council is trying to categorise all disabilities as the same. I feel it is West Lothian Council moral obligation to do impact assessments on the ability centres closure, so they themselves can see the detrimental affect the closure would have upon the community. Not only will the closure affect my personal position, but in a professional capacity as well. I feel valued in my volunteer position, I have given my time for 26 years in total to help others. Capability Scotland works in partnership with West Lothian Council to provide an information and advice service for those with disabilities, if the ability centre were to close I would feel worthless, and the disabled community would lose out on a great service. The Ability centre is not just a support service, it is one big family, that is to be cherished and celebrated, not closed!!!	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14822	An individual	2c. Care for Adults	Again, not enough information - what is currently happening. Is Pathways big enough to combine three facilities into one? I wouldn't think 3 into 1 would be achievable.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14823	An individual	2c. Care for Adults	Not the best approach. People who have a physical disability have worked hard not to be tagged alongside people who have a learning disability. Equally, is Pathways a suitable building for everyone? Will the cost of adapting Pathways to meet the needs of people who have learning disabilities, associated physical disabilities and high health care needs be outweighed by the savings? Are the areas big enough to accommodate equipment required by people?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14824	No Response	2c. Care for Adults	disagree with this as I feel it should stay within WLC ownership, leading it out to private organisations would most likely cost more money to run. Possibly running this from the Carmondean Centre instead is also more central and would benefit more people.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14825	An individual	2c. Care for Adults	I don't think closing adult day centres is a good idea especially eliburn day centre as these people are profoundly handicapped and need specialised care which this service provides the staff are well trained and building is equip with special equipment required for their needs.they medical staff on hand as these people have severe medical problems .the parents and carers also raised thousands of pounds for a jacuzzi, sensory room, remembrance garden. These people are more vulnerable than anyone else and need a safe and secure environment which eliburn provides.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14826	No Response	2c. Care for Adults	All for integration of services, however looking at closing the Ability centre, Eliburn and integrating into Pathways has not been thought about. You have physical disabilities where cognitive function is of normal range, mixing with adults with Learning disabilities with mild to moderate Learning Disabilities, then adding in Profound Multiple Learning Disabilities where all personal care is required. Talking of using Pathways as a hub encouraging the use of Community resources, however then in another paragraph talking of closing Community resources so contradicting what suggestions have been made. I believe this thought or proposal should be reconsidered. The buildings these service users attend at present, are purpose built specific to their individual needs.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14827	An individual	2c. Care for Adults	Same as above really. People shouldn't be put into a category on whether they need care or not. They should always be looked at on an individual bases. Most caring industries now or one which I know well, don't focus on the word 'care' it is a quick in and out visit and running to the next person in need. This is coming from an ex carer and knows what it feels like to not be able to give my time to someone who I know needs it.	Care for adults - day care provision	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
14828	An individual	2c. Care for Adults	Difficult to see the sense in this No community centers in West Lothian have the adaptations that the Ability \Centre has as it was purpose built ,feel that people with disabilities are being unfairly targeted and will be isolated in the local community and this will be detrimental to many individuals well being. Eliburn day center similarly so has special adaptations that Pathways does not Have funds been identified to provide the necessary adaptations to Pathways and at what cost? Pathways although a large building does not have capacity in my opinion and is a very busy environment .	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14829	An individual	2c. Care for Adults	As a relative of someone who attends Eliburn day centre, I am most concerned with the council's plan to change the provision of the service. I believe it is absolutely disgraceful to strip the Service the centre provides especially for my relative who has complex needs and the proposed change in the service would be most unsuitable. It's awful to think that these cuts must be taken from truly the most vulnerable members of our society who cannot fight back themselves. I have another relative with dementia who attends a day centre. The respite that these centres provide is absolutely essential to the families who rely so much on respite. No respite care will place so much stress and strain on their mental health.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14830	An individual	2c. Care for Adults	I do not know how three services would fit into Quigley house. Outreach model is the way forward but it needs to be appropriate for service users involved.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14831	An employee of West Lothian Council	2c. Care for Adults	<p>Pathways currently provides a service for 95 people with 58 of these having a mild to moderate learning disabilities and associated mental health issues and 37 people who have a moderate to significant learning disability with additional support requirements which can include mobility, behavioural and health issues, the Unit is working on approx 90 % capacity each day. Moving 3 services into this Unit will require a drastic reduction in provision of service to those Pathways currently supports. I think this underestimates the value of a service that currently scores 6 for care and support grade from the Care Inspectorate and the respite element provided to parents and carers. Reducing this service may put pressure on parents and carers and in turn may result in increased costs as people are not able to be supported long term by carers. If the proposal does go ahead then there needs to be a balanced eligibility criteria applied to ensure that there is equity of service and that individuals are supported to have access not only to meaningful activities but also peer and social support. Consideration could also be given to economy of scale that is provided by Pathways at present working with groups of people min 1 to 6 max 1 to 12. Anecdotal evidence from carers is that other providers do not provide the same quality of service nor provide the continuity, robustness and reliability. In addition the staff professional and as part of the service they support service users to access other services such as health & advocacy as well as act in a monitoring role for people's health. The Unit currently acts as a hub for other professionals such as Health and Advocacy services fitting in other Units will compromise the ability to do this due to limitations of space. Trying to provide the 3 different services in the same Unit could lead to competing demands which in turn compromise the quality for care provided and dilute specialism that ensure that individual support requirements are appropriately met. In terms of the physical space I would advocate that the feasibility study needs to be carried out as I would doubt the suitability of the building in terms of supporting a number of people who require specialist mobility equipment in particular to the current size of and number of bathrooms. It may also be worth considering the equality impact for individuals and the reassessment requirements. It may also be worth looking at what other Councils are finding and they are needing to look at reopening services in order to meet demands.</p>	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	<p>Thank you for your response. It may also be worth looking at what other Councils are finding and they are needing to look at reopening services in order to meet demands.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14834	An individual	2c. Care for Adults	If day care facilities are consolidated into 1 site how will people access these facilities if they live outside Livingston?	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The three day care centres are all currently in Livingston
14835	An employee of West Lothian Council	2c. Care for Adults	Quigley house is not designed to have a large number of wheelchair users within the building. There are not enough suitable bathroom facilities. There are no tracking hoist to help with safe moving of those clients in wheelchairs. All doors apart from the front door do not allow for independent wheelchair user access. Who decides what Pathways clients have a Service and what happens to the clients who don't. If all clients to be reassessed this will put extra pressure on Social workers who are already stretched with their workload. The seemingly more able clients may lose their place and this will impact not only on the clients but their relatives/carers some of whom are elderly and some who work. There will be a risk of becoming isolated and more vulnerable. The pathways clients who do not get a service will miss out on social opportunities and positive interaction, inclusion within the community, opportunities to develop their skills/learning, access to and effective use of healthcare services such as Physio, speech and language therapist and other professionals.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14836	An individual	2c. Care for Adults	The reduction in daycare facilities at a local level will deny individual support to those in most need. The army of carers providing the elderly with support need more help not less. Supported accommodation in the community needs to be just that if residential facilities are no longer available then the best possible care at home should be available. The use of technology is not appropriate for this client group and no individual should be made vulnerable by these proposed changes.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14837	An individual	2c. Care for Adults	Those needing help who live further away from Livingston will not get the help they need. care is required close to where people live.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The three day care centres are all currently in Livingston

14838	On behalf of a Group/Organisation	2c. Care for Adults	<p>There are huge concerns for the closing of Eliburn Day Centre and the Ability Centre and moving these two day care facilities to Pathways which is causing many of the service users at Pathways a huge amount of stress and anxiety. The building at Quigley House does not have the capacity to house all three services. Service Users feel that an extension would have to be built on to the existing building to accommodate everyone. Comments were made such as "It would be nice for everybody to come together but there's not enough space" "If the folk come from the Ability Centre & Eliburn it's leaving a mess. There is not enough space for everyone to eat lunch together, what would happen? [We would be] jam packed. Not enough room for everybody's stuff. People would trip over if stuff ends up lying about. Not enough lockers for everybody. Not enough fridge space. Need more cupboard space. In regard to the accessibility of the building comments were: The building is not designed for people with a physical disability. How will the building be made wheelchair accessible? There is a need for push buttons at doors which we don't have just now. You cannot get into the garden area with a wheelchair because of the design of the doorways. It is a real problem getting wheelchair users out there. There are not enough toilets and changing areas. There were questions and concerns around staffing levels: There would need to be extra staff to look after extra people there is not enough staff as it is. What if there is a shortage of staff? What will happen? There would be nobody to cover groups could this lead to less groups running? Less choice? [If that were the case] I would stay in my bed. [If this happens] we would all want to go on strike. There are also concerns about not having enough spaces for activities and the impact of this. Will there be more activities happening? Will there be fewer opportunities to go out on the bus? Will we need to take turns? How will the amalgamation of the services work on a daily basis? Transport was also questioned: The need for more buses. Where would they all go in the car park? One person said "I want to take it to my councillor" - Would the Local Councillors be willing to come along and listen to the group speak about their concerns?</p>	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14839	An individual	2c. Care for Adults	<p>I have no intention of going to Livingston for my "Daycare" which is exactly what you want! Technology appears to be your answer but where is the human contact?</p>	Care for adults - day care provision	4. The council is already doing this.	The three day care centres are all currently in Livingston
14840	On behalf of a Group/Organisation	2c. Care for Adults	<p>Below are a range of comments expressed by Parents/Carers in their dismay of the prospect of Eliburn Resource Centre closing and the day care facility moving to Pathways (Quigley House). In favour of keeping the current status quo: 1.Purpose built building and facility built initially by European Funding this building has the space needed for moving and accommodation of service users. 2.Parent & carers fundraised to provide: a)Multi-Sensory Room b)Memorial Garden which surround the building c)Provision of a Jacuzzi d)To provide more specialised IT equipment for service users. 3.There's a well used physio room in building 4.All staff are given training in all areas of special needs and go on appropriate courses for this. 5.Staff have professional qualifications appropriate to working with these service users. 6.New Nursing Station provides within the building has been a great help in management of service users medical conditions. 7.Plenty of adequate toileting facilities that is necessary when dealing with service users particular medical conditions. 8.Kitchen facility and Staff in the building - this is necessary because they provide for the variety of diets for service users. 9.Many clinic and specialist meetings held on site, which helps parents & carers attending. Service users in wheelchairs and purpose build wheelchairs (most of the service users at Eliburn are wheelchair users) and importantly has a large hall centrally in building which is needed for accommodating all service users for lunch (a most important social time for all to get-together.) and also for other social activities that all can participate in. 10.Parents and carers are very interested in Eliburn and provision of service and are quite active in fundraising to help with provision of equipment to help their sons/daughters/relatives get the best experiences while attending Eliburn Day service. Over the year's this has been a significant financial contribution. 11.Many service users have attended Eliburn for many years and because of particular aspects of their disability would find moving to another place a tremendous upheaval and be extremely upset. Impact on [redacted] would cause great upset to him, as he has attended [redacted]. The facilities at Eliburn are unique [redacted] uses the sensory room, Jacuzzi, which gives him stimulation, which would not be provided at Pathways. These are important facilities to help [redacted] maintain a good happy healthy well-being. Eliburn provides particularly unique support care with on-site nurses and trained staff, who provide care to all with different individual health issues. The building alone has special build rooms and plenty bathroom facilities which again are not available at Pathways. As a family, we</p>	Care for adults - day care provision	2. 14841	On behalf of a Group/Organisation	2c. Care for Adults	If the council is going to move all the service users who use the disability support services where is people's choice in choosing the support they want. There won't be any choice. This goes against government strategies and legislation such as the Social Care (SDS) Act where people are supposed to have a say and a choice of the support they receive. This proposal will leave them with no choice. What about if the service users that currently attend the Ability Centre and Elburn Resource Centre choose not to move to Pathways. What happens then? PATHWAYS IS NOT BIG ENOUGH. WHY WOULD YOU WANT TO PUT ALL THOSE PEOPLE IN SUCH A SMALL SPACE. ARE THEY GOING TO MAKE THE BUILDING BIGGER? Where will all the equipment that the clients at Elburn need be stored? Don't think it is fair or right that people are being moved from centres that have been built for their needs to get moved into a building that falls short of the accessible standards required for that client group.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. 14843	An individual	2c. Care for Adults	I particularly feel very strongly about the day care facilities that provide respite care including Elburn Day Care Centre. These provide a life line to families.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14844	An employee of West Lothian Council	2c. Care for Adults	It is important that the combining of facilities does not affect older people's access to day care facilities as older people may become very socially isolated without this support.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14845	An individual	2c. Care for Adults	Day services are important for carers and now that there is going to be carers legislation coming into service provision this service is likely to be more requested. Day service are important to service users and carers. Is it not more cost effective to have one centre rather than an outreach service that provides isolated support. We need to ensure that we do not create social isolation and therefore a greater demand on care services and the need for residential care as carers may withdraw support and care.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14846	An individual	2c. Care for Adults	Unrealistic. This will again cause distress to service users, families and communities. The effect that they would have on the community would be catastrophic. These services, Elburn Adult Service and the Ability Centre in Livingston are vital services which are lifelines for people in the local community. It is unrealistic to think they could all come under the umbrella of Pathways. There are a significant number of individuals who receive very little support at present and families have to deal often on their own. It flies in the face of "care in the community" which was fought hard. For when large institutions closed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14847	An individual	2c. Care for Adults	Is the council going to provide all the extra transport required due to the move to a single day care facility?	Care for adults - day care provision	2. 14850	An individual	2c. Care for Adults	Little detail in terms of how 3 services will utilise and share one building and its resources. Are present service users to be offered the service at Pathways automatically or will they be reassessed. In terms of outreach provision is there sufficient resources suitable and adapted for specific use. The information provided above is not sufficient to determine if this is an appropriate response to budget issues. Will the council look at charging for services / transport/ activities as other council as a means of generating income and protecting jobs/services. Has the council decided to make staff redundant in its plans to reduce/relocate the service	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14851	An individual	2c. Care for Adults	Again very difficult but having had some experience of Pathways, it provides a very worthwhile facility.	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
14852	An individual	2c. Care for Adults	If facilities are to be rationalised, provision should be made to ensure that people can access the facility easily and with minimum cost.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14853	An individual	2c. Care for Adults	Total lack of understanding shown regarding different levels of disabilities these different services provide. This is a backward move and places the most vulnerable people at risk of harm and isolation. Pathways may be a newer building but is not suitable for those with higher personal care needs. It would cost as much to extend or refurbish so this negates your proposed savings	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14854	An individual	2c. Care for Adults	Surely if pathways was suitable to accommodate the number of people that access these services you are about to close down, then it should have been done when it opened. These people rely on these services currently provided! Shame on you for abusing the vulnerable people that require these services by closing them down. Money should be found from elsewhere. Your proposal for outreach interventions would probably cost more in staffing, in order for these vulnerable adults needs to be met! Or are they not important enough for the council to worry about.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14855	An individual	2c. Care for Adults	These three centres cater for disabled people with different needs. Pathways was not designed for people with a physical disability and is not accessible to their needs nor is it for people with complex needs that attend Eilburn Resource Centre. There would have to be a substantial amount of money spent to make Quigley House large enough to accommodate all the service users who attend the three support services. The proposal does not take into account the specialities current provided at all three centres, nor the unique facilities offered at each of the centres that the people who use they require on a daily basis. Considering the statistics that have been produced by organisations such as SCLD on the uptake of SDS (which is very low) the reason for amalgamating the centres is very poor and shows a lack of transparency by the council.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14856	On behalf of a Group/Organisation	2c. Care for Adults	Section 2C Care for Adults. The Community Council is concerned about the proposal to combine the Ability Centre, Eilburn and Quigley House into one unit at Pathways. These seem to us to be 3 distinct groups of people with differing needs and, indeed, it may be the relevant staff may not have the skills needed for an integrated set-up. On the basis of what we do know, the Community Council cannot support this.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14857	An individual	2c. Care for Adults	Day centres are a haven for old folk & should be given more funding not less. Braid house is a brilliant place & I wouldn't be here if it wasn't for the brilliant people who take care of me when I'm there. They need more money not less.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14858	An individual	2c. Care for Adults	Eh? Leave Braid house alone, it's the best.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14859	No Response	2c. Care for Adults	Laudable if clients are supported timeously.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

14860	No Response	2c. Care for Adults	The ability centre is necessary, it cannot be closed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14861	An individual	2c. Care for Adults	Location of day care service may not be an issue for those who are transported to and from home by mini bus. It is much nicer for individuals to remain at home as opposed to in residential facilities	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14862	An individual	2c. Care for Adults	Disagree . These services are vital for supporting people with complex health care needs to reduce health inequalities.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14863	An individual	2c. Care for Adults	I oppose to the closure of any day care facilities. what is being proposed is vulnerable people will become more socially isolated and it will be come more difficult to access the new model of a reduced care service / facilities.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14864	An individual	2c. Care for Adults	It is hard to see how this could save money, given the extra transport costs and the disruption to the lives of vulnerable residents	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14865	An individual	2c. Care for Adults	So which day care facilities will go? Will there not be problems and costs in transporting people or are there just going to be less places available?	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	The proposal is to close the council owned day centres and to continue to purchase day care from the independent sector for people who are eligible
14866	An employee of West Lothian Council	2c. Care for Adults	What about the adults who are totally unable to live on their own - the council is having a laugh!!!!!! They are really needing to live in the real world!! More and adequate facilities need to be considered not a reduction and putting adults under greater stress and families/carers struggling.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
14867	An individual	2c. Care for Adults	This is not acceptable. These centres currently cater for a wide range of service users needs. Merging them will create distress for the users, negatively impacting their lives as well as leave staff members currently working in these centres without jobs as they all can't fit into one building. I understand that savings need to be made but not to such crucial services, quality of life is much more important.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14868	An individual	2c. Care for Adults	The merging of three units into one unit could also result in unnecessary travelling and upheaval for those concerned.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14869	An employee of West Lothian Council	2c. Care for Adults	To protect services, I support the day care services being provided at Pathways, whilst recognising that this will be a worrying proposal for current service users. It would be helpful to have further consultation with service users and to set out how the provision at Pathways will work.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14870	An individual	2c. Care for Adults	This area is greatly needed.	Care for adults - day care provision	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
14871	An employee of West Lothian Council	2c. Care for Adults	This is not a suitable proposal these 3 centres are 3 very different services which would not merge well it would put services users at risk who are not able to protect themselves and some of these have already tired services at pathways and it caused them extreme distress. It appears the council is discriminating against this client group as most of the clients are unable to stand up for themselves, it's taken as the easy option I'm also aware that no one has been provided to discuss these proposals to those clients in Elburn to explain to the clients in a manner they will understand, what is in this proposal and what it could mean for them, I also feel this is discriminatory practices, if someone wanted these proposals in another language it would be provided however its seems this hasn't been taken into account for those with limited understanding, but don't get me wrong with some help and assistance some of these client could have understood to a degree some of these details, however this has not been provided there for vital opinions on this matter will be missed out. I'm aware staff are unable to influence and decisions on these proposals so it should have been from an outside personal wither that's be within the council or an independent advocate provided by the council. This in my opinion is a massive for of discrimination. This merger could cause extreme distress on clients and could even affect there conditions. Never mind the fact that the pathways building is not fit for purpose, it doesn't have enough personal care rooms to attend to a few of the clients that attend Elburn never mind them all, they don't have a multi sensory room which is widely used at Elburn and is a huge benefit to clients and can even help reduce the stress levels of clients as well as provide another location to be positioned out with there wheelchairs which is a massive importance to these clients who cannot be stuck in there wheelchairs 24/7. They don't have a jacuzzi which has massive therapeutic benefits to clients and can ease pain of people with severe cerebral palsy or scoliosis of the spine. I'm very doubtful that if the move goes ahead these things will be provided as they were fundraised by staff and parents and carers for both of these things and are extremely well used. I don't believe the council will fund these activities never mind the lack of space to facilitate these. I don't believe that merging these services would save money when there is so much required to make the building anywhere near suitable for these clients.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14872	An individual	2c. Care for Adults	Local day care provision should be retained. The elderly have more in common with ither lical people. Greater travel requirements will be a barrier to the elderly wanting to attend. Increased travel will also have an associated cost	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14873	An individual	2c. Care for Adults	I am most strongly against cuts being made that affect services to adults with disabilities. They have already been dealt a poor hand and deserve the best help possible. I have a disabled son [redacted] and he has in the past enjoyed great service from the Council. When I speak to people from other areas they are impressed with the variety of help available here. I think it would be a mistake to lump every person with a disability together in one centre, as if they were all the same. This is very much a retrograde proposal. Everyone has individual needs and abilities and likes different activities. I believe if the Inclusion Team Services were to be reduced or removed then my son and others would suffer both physical and mental set-backs if left to sit at home "because that is where he would be, confined and unable to have his most basic needs met, without his support service. Most parents have to work to support their families and would not be in a position to provide support during the day, or like myself [redacted] TM's and not able to be so active. Lack of physical activity and mental stimulation would inevitably lead to ill health and added stress on the NHS.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14874	An individual	2c. Care for Adults	Centralisation is only acceptable if transport is available for this. If people are being picked up over a wide area is this really cost effective? How long are frail people supposed to sit on a bus and not receive positive input from day care centres as they spend longer travelling?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14875	An employee of West Lothian Council	2c. Care for Adults	I feel it is important that day care facilities still play an important role in supporting the frail and infirm. My mother benefited greatly from attending the day centre at Carmondean, Livingston after her stroke. It provided her with the opportunity to meet others in a similar situation, building peer support and increasing her confidence, something she wouldn't have been able to do if she had been supported at home. It is not always possible for elderly and infirm adults to travel great distances however sand so the provision of outreach services locally would be a benefit and would allow people the opportunity to meet with peers in their local community.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
14876	On behalf of a Group/Organisation	2c. Care for Adults	The diversity of needs for those attending the 3 different resources does not allow this group to easily be met in one place. The current set up works because each group are having their needs met by a resource and people who know how to meet their needs. Mixing all groups together is unfair on everyone. This will have a huge negative impact affecting their mental health. This will increase crisis management, carer burnout, placement breakdown. Again people making these decisions have little knowledge on the impact of changes will have on this group of individuals. These are one of the most vulnerable group, finding adjusting to change difficult. They have already had huge losses due to cut backs, there were more social opportunities within day care before, already the good stuff has been shaved away, talking away the services they know and meet their needs will lead to a deterioration in both physical and mental health. They already have poorer health than the general population. In the long term I feel this will be unsuccessful and not lead to savings because placement will breakdown. The long term cost of this will probably increase due to crisis management and having to go back to meeting their needs. Same as the answer for children violent behaviour may be evident. Already cut backs have left to issues such as low self worth and esteem costing more in the management of this. Working with this group of people SDS often means families are left with the individual wandering around west Lothian with a carer with few places to go either because there is not enough time allocated to go any distance or the person has little interest in what is available locally. There is not enough variety locally to meet someone's needs over an extensive period if time. They end up spending time in the shopping centre eating cakes / biscuits and drinking tea. This is from regular feedback from carers using SDS. The general public will become less tolerant as there are risks to the public at times when someone with this level of disabilities are not given the correct support. Due to lack of understanding people present with difficult and at times violent behaviour. The result often can be carers keep them at home going back to the olden days. How a society looks after their most vulnerable is a measure of where they are at as a society. West Lothian had always had a positive way of managing this group of people but if this proposal goes ahead thus will not be the case.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14877	No Response	2c. Care for Adults	A number of families and service users are looking for day service models has this provides a hub and an alternative to 1:1 which can be very isolating for the service users and provides a lack of development. Eliburn and Pathway also provide long term staff which benefits the service users rather than the quick turn over of many of the external providers. Providing a mixed package of care for day services and 1:1 provides more opportunities and explore options. A day care services for instance Pathways or Eliburn costs less per service user and staffing levels than purchasing in 1:1 providers, the SDS budgets become more cost effective and personal development of service users are increased. Alternatively we a sending people in individuals taxis to services in Edinburgh and the transport costs are more than the service provisions. The initially outlay for more appropriate services would be high but in the long term would they not be a lot cheaper that what is currently in place.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14878	An individual	2c. Care for Adults	Local solutions are good, but I am not in favour of day care facilities being located in one location. People need day care in their own locality where they are more likely to have common shared interests. This type of supported peer support goes a long way in combating loneliness.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14879	An individual	2c. Care for Adults	Activities for elderly adults are essential leaving them in their house will increase depression and loneliness Are the centres fit for purpose should other buildings be adapted for use in communities Again stand up to these cruel cuts	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14880	On behalf of a Group/Organisation	2c. Care for Adults	Concern was raised about the capacity of Pathways to accommodate additional people with learning disabilities and health conditions if Eliburn and the Ability Centre were closed. How can you add people to an already full existing building? Questions arose in relation to Equality Impact Assessments (EIA) as under the Council's Equality Duty they must when changing any policy undertake an EIA.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
14881	On behalf of a Group/Organisation	2c. Care for Adults	We strongly urge the Council when undertaking the EIA's to consider the impact of the closure of the Ability Centre and Elburn Day Centre and amalgamating them with Pathways Support Service at Quigley House separately. Hence there should be three EIA's carried out to give the in-depth impacts to the individual services of the proposals you are making. Questions arose regarding the councils claim that Self-Directed Support is the reason for the proposed changes to Disability support services. However, there is evidence to prove that there has been a low uptake of Option 1 in the Social Care (SDS) Act 2013, which conflicts with the stated reasons for the proposal to close both the Ability Centre and Elburn Resource Centre and move both services to Pathways Support Service at Quigley House. Stating that SDS is the reason for change is misleading as the most popular options are 2, 3 & 4 which involves social work in arranging support for an individual and retaining an individual's indicative budget. This budget can also include respite which is crucial for families to maintain high level of support to the vulnerable person. Changes and reductions should not mean the least able in our society should be discriminated by inferior levels of support and one suggestion is to recognise the partnership working with local and national organisations with the Council and in fact expanding this so that the % of money provided by WLC is in addition to other monies raised by these organisations, therefore more can be achieved by the partnership. Also, WLC have staff with certain skill sets and these could be shared, e.g. financial staff supporting fundraising for organisations, admin staff supporting organisations etc. We hope that all possibilities are taken into account and explored before rash cuts are implemented. We would be more than happy to discuss any potential ideas with the Forum and reach out to the vulnerable groups in West Lothian to ensure all views are being sought and human rights valued and upheld. We ask that WLC look to continue to support vulnerable groups and protect them and that services continue to ensure vulnerable people live a good life and families can continue to have support which enables them to continue in their carer role and thus further savings made to the Council revenue. We anticipate Council's response to the consultation will be available online in step with transparency, which we would hope to be normal practice.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14882	On behalf of a Group/Organisation	2c. Care for Adults	Separate day care facilities are preferable but understand the need to consolidate.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14883	An individual	2c. Care for Adults	The central day care facility will require an efficient transport provided to ensure those who require the care can access it.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14884	An individual	2c. Care for Adults	People are very concerned about this change to cut day centre facilities and should be listened to. For our family SDS would be a preferred option but I am unsure and worried we would not get this under the proposed changes to adult services as noted under 2b above.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self directed support gives people choice in how they wish their eligible assessed needs to be met and does not relate to any one specific service
14885	An employee of West Lothian Council	2c. Care for Adults	one building reduces costs on the building and travel costs. as long as jobs are there for the staff of the closing buildings	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14886	An individual	2c. Care for Adults	Would this not mean a lot of transport & would the same level of care be available using only one centre	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14887	An employee of West Lothian Council	2c. Care for Adults	I do not agree with the centralisation of day care services as this is a life line for a lot of people in their community. Is there no community development work that could support and facilitate arrangements within the local to accept responsibility and run this themselves. Why are we not considering investment in some community based organisations?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14888	An individual	2c. Care for Adults	Rationalising day care into one location makes sense for the Council but how do care recipients get to Pathways in Livingston? Requirement for support is also associated with other disadvantages such as lack of access to transport. Given the issues surrounding reliable bus services in West Lothian will there be provision to support adults needing care to get to the single day care centre? This should not be left to the individual to resolve.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14889	An individual	2c. Care for Adults	Keep the Carmondean Ability Centre	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14890	An individual	2c. Care for Adults	As a service user, the closure of centres and amalgamation of centres (only recently developed and previously optimised, with the closure of other centres) is not acceptable or practicable given the pressure on these centres currently. It is clear from local petitions and protest that this proposal is not acceptable to the service users and the community as a whole. Protection of services for vulnerable children and adults should be a council priority.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14891	An individual	2c. Care for Adults	Good bit, only problem transport. E.g. doing away with 3 premises to 1.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14892	An employee of West Lothian Council	2c. Care for Adults	If individuals can choose resources in their locality, they could walk/use taxis/share lifts which could save money spent on WLC transport. If they use council transport, they could pay towards it - many clients will have mobility allowances they could use to allow them to continue attending services of their choice/need	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14893	An individual	2c. Care for Adults	May not be ideal for those living away from Livi - less easy access.	Care for adults - day care provision	4. The council is already doing this.	The three day care centres are all currently in Livingston
14894	No Response	2c. Care for Adults	Has the environmental impact of closing local services been calculated?	Care for adults - day care provision	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14895	An employee of West Lothian Council	2c. Care for Adults	Remember these centres are a lifeline for lots of these people. Care must be taken not to isolate vulnerable citizens in West Lothian.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14896	On behalf of a Group/Organisation	2c. Care for Adults	Not pleased at proposals. NO RIGHT TO CLOSE ELIBURN â€” DONâ€™T LIKE THAT THEYâ€™RE MOVING TO PATHWAYS. THEY SHOULDNâ€™T MOVE. ELIBURN HAS BEEN DESIGNED FOR PEOPLE WITH COMPLEX DISABILITIES. THE ABILITY CENTRE SHOULD STAY THE SAME â€” THEY SHOULDNâ€™T MOVE. I LIKE THE ABILITY CENTRE â€” THE PEOPLE THERE NEED SUPPORT IN A PLACE THAT MEETS THEIR NEEDS. TOO MANY PEOPLE WOULD BE AT PATHWAYS. MOVING PEOPLE TO ONE PLACE WILL BE A HUGE IMPACT ON PEOPLE. IT WILL MAKE THEM UPSET AND APPREHENSIVE ABOUT THEIR SUPPORT. WILL IT BE THE SAME? ITâ€™S NOT GOING TO WORK. QUIGLEY HOUSE NEEDS TO BE A LOT BIGGER TO ACCOMMODATE EVERYONE.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14897	An individual	2c. Care for Adults	Sorry to see more centralisation to Livingston. Need to improve transport links to Livingston if this is to work.	Care for adults - day care provision	4. The council is already doing this.	The three day care centres are all currently in Livingston

14898	On behalf of a Group/Organisation	2c. Care for Adults	Some of the people who attend Eliburn have been going there for a long time & they will be upset to move to a new building and anxious about moving to an unfamiliar environment. This proposal will also cause a lot of stress to the client's parents and carers as well. The rights of people at Eliburn Resource Centre need to be respected. They are a very vulnerable group without a strong voice to express themselves. It is unfair to close the centre that has been made for people with complex needs. Eliburn Resource Centre suits their needs for more than Pathways Support Service at Quigley House. It has far more space to enable people to move around as their needs require it. People from Eliburn shouldn't get pushed into Pathways just because they can't read and write and speak up for themselves. They have Human Rights just like everyone else. The council ideas are not going to work - they need to think again about how they can save money apart from closing these specialist services that are invaluable to the people who use them.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14899	An employee of West Lothian Council	2c. Care for Adults	Self directed support has long been discussed through use of online services but to date no progress has been made as no resources have been allocated in the service to allow this to progress properly.	Care for adults - day care provision	4. The council is already doing this.	Self-directed support options are offered to all adults with assessed eligible needs
14900	An employee of West Lothian Council	2c. Care for Adults	If shorter care visits are to be instigated then care needs to be targeted appropriately. How can an elderly patient be bathed in such a short time period without distress.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Work will continue to focus on those who are most vulnerable and have additional needs.
14901	An individual	2c. Care for Adults	I favour early support to continue independent living - its cheaper but recognise that those with need for care should have priority.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14902	An individual	2c. Care for Adults	This is not acceptable as vulnerable people will have to travel further for facilities.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14903	An individual	2c. Care for Adults	Respite is for carers every bit as important it is for the person who needs care! Who would take on a job involving 18 hours of work per day, 7 days per week, 52 weeks per year? That is what some unpaid carers do! They need time off, days off and a decent holiday period.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14904	An individual	2c. Care for Adults	I believe that the three existing facilities each provide very different types of support. Pathways is already well used and has little free space. How can you combine these facilities without greatly reducing the service that you provide to the users of these services.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14905	An employee of West Lothian Council	2c. Care for Adults	Reducing the number of day care facilities from three to one based at Pathways undermines the long fought campaign of people with physical disabilities / ABI / long term conditions to have access to services and support suitable to their specific needs rather than being added into services for people with learning disability - this is a retrograde step.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14906	An employee of West Lothian Council	2c. Care for Adults	council should look more closely at the benefits of moving people from their own home as it is not always the best solution	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14907	An employee of West Lothian Council	2c. Care for Adults	Moving care into 1 facility may exacerbate the services on other already stretched council services. It may be hard for vulnerable groups to travel to one location.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14908	An individual	2c. Care for Adults	Think this is a crazy proposal as individuals who use these services value them highly and Elburn in particular is purpose built and accommodates specific needs. Pathways is bursting at the seams and is entirely unsuitable for anyone with additional physical support needs and even with adaptations would still be unsuitable as it is already lacks space. Again the Ability Centre accommodates a number of specific groups who are able to get together in a purpose built building that is adapted for specific disabilities no community centre in West Lothian has these adaptations. Where are they supposed to go. Are WLC going to embark on making community centres more accessible and provide funding for adaptations. It is a false economy to even consider this and is very discriminatory in my opinion and many others also.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14909	An individual	2c. Care for Adults	Care at home provision is not suitable for everyone. Each request should be considered based on the most appropriate support for the individual/family - not simply a cost saving exercise.	Care for adults - day care provision	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
14910	An individual	2c. Care for Adults	Careline is an excellent service, helps people continue to live in their own homes and should continue to be supported.	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14911	An individual	2c. Care for Adults	Agree along way to travel for some	Care for adults - day care provision	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
14912	An individual	2c. Care for Adults	I am totally against the section 2C proposal to close/merge 2 of the vital adult services in Livingston the 3 services included in this proposal. I believe that moving these services into one building will have a massive effect on the service users; not only is consistency and routine very important to these people but the buildings are fit for purpose. I am also aware that fundraising took place to provide some of these vital activities for example jacuzzi and sensory room. I attended some of these fundraising events as I felt they were very important as this is nothing more than a money saving exercise I very much doubt these will be replaced. I took the time to talk to staff & service users & their parents. I discovered that it can be extremely difficult to access some activities in the community due to time constraints and a lack of changing places in the community. So to take away these essential things would have a huge impact on their quality of life. I am most concerned about the closure of Elburn support services as I believe it will have the biggest impact on service users, and cause a huge effect a devastating effect on the service users. Will anyone take the time to communicate with the service users about this proposal in a way they understand or are West Lothian Council removing vital services of those with no voice in a mass of discrimination.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14913	An individual	2c. Care for Adults	I think it is shocking that you are proposing closing the Elburn Centre. This is a specialised unit with highly trained staff. I think it is a disgrace that other service users are being penalised because of a few who wish to have SDS. Pathways is far more main stream service users. This centre is unique to West Lothian in that it has a jacuzzi (which allows movement which service users would not have as they are wheelchair bound), physio table, sensory room, remembrance gardens (which can be accessed by families at weekends), great medical facilities, emergency trays which takes the strain off local GPs and St. John's. Specialised IT equipment was purchased through fund raising. This is a European Funding Building with purpose built rooms with disabled toilets etc. The kitchen staff have to deal with many different diets.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14914	An individual	2c. Care for Adults	Please save the ability centre- it's the building that's most central	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14915	An individual	2c. Care for Adults	I am opposed to the proposal of section 2C. I know one of the clients that attend Eliburn and know how important this is to their life this person cannot cope with change, and the loss of attending this building and fantastic service would impact their life routine. I believe the staff working in this unit have specific skills, to enable them to assist clients with complex needs. I am aware of therapeutic activities that take place in this building that will not be transferable to the Pathways building. I can't understand why Eliburn would close despite the fact that service users spend most of their time here whilst community activities are included, they are much harder to achieve so are less frequent within this service. The other 2 services are about social inclusion and spending time in the community so why close a building that is most in use? I am aware that Pathways is a newer building but this building is not fit for purpose. The toilet facilities will not meet the needs of a high percentage of Eliburn clients, and I guess this might be the case with service users of the Ability Centre. So changes to Pathways building would also be required not to mention the amount of clients being proposed fit in one building. This would surely require building an extension/ new building on the Pathways site. Surely this will not save money. Once again the Council are proposing spending money on more able people whilst those most at need are shipped from pillar to post and discriminated against. Spend money on saving Eliburns building and raise council tax. Give these people a break!!	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14916	An individual	2c. Care for Adults	The proposed closure of 3 locations What this means to me: As a disabled person I was extremely disappointed at the news of the proposal to close the Ability centre in Carmendean which I have attended for quite a few years now, whilst I take part in activities with my peers, supported by well qualified staff. This gives me the opportunity to feel 'normal' in the judgemental society in which we live. Being house bound the ability centre gives me something to look forward to knowing that one day a week I get to leave the house. I urge West Lothian to reconsider the proposed closure of the Ability Centre. The loss of this centre will have a detrimental effect on the health and well being of many people including myself. There are many things when reading all of the councils proposals which come to mind, the first being 'don't fix what isn't broken' another being wasting money to implement the proposed changes. It sounds like a false economy. In addition perhaps somebody with better organisational skills wouldn't go a miss, because even the average person can see there is a big problem. This means listening to the constituents who are going to be affected by these changes. For example: A person in a wheelchair living in an unadapted 2 bed property is have care calls 4 times daily. If they had a one bed adapted property money would be saved, these stories are right across the disabled community. It might sound very small but I grew up being told if you look after the pennies the pounds will look after themselves, therefore I feel its an economical waste to close a building which is fit for purpose.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14917	An individual	2c. Care for Adults	I strongly disagree that condensing day care facilities from three to one would be a good thing for vulnerable people who rely on the current provision. These are services that should be ring fenced in an already challenging world for mentally and physically disabled people. My husband relies on the ability centre for keeping in social contact in a safe and secure environment.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14918	An individual	2c. Care for Adults	I attend the Whitdale older people day centre and I have for 4 years. The staff and drivers are so helpful. If they shut the day centre I would never get out or see my friends. The staff all fundraise to get us entertainment and parties and make our day special.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14919	An individual	2c. Care for Adults	I feel like the decision to close the day centre is scandalous. I attend the older people's day centre in Whitburn and I need it. I have depression and agoraphobia - the Whitdale day centre and staff help me with this. Its my day out and see friends.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
14920	An individual	2c. Care for Adults	How are you going to focus on the "vulnerable" by closing the ability centre in Livingston?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14921	An individual	2c. Care for Adults	I really love coming to Whitdale. I depend on it now. It would be terrible if it closed. I look forward to seeing my friends I would never be able to see them otherwise. I don't know what I would do if I didn't see everyone here.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

14922	An individual	2c. Care for Adults	I am appalled and worried about the proposed intentions to close the Carmondean Ability Centre. This unit is well used by all sorts of people from all walks of life. I myself attend the yoga session every Wednesday. This centre I believe is only 15 years old. Its a disgrace and unbelievable. Please do not do this. The Ability Centre is badly needed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14923	An individual	2c. Care for Adults	As a mother of an adult disabled son I do not feel that integrating all the day care services into are based at Pathways is a good idea. I feel this will only result in a dilution of current services to service users and is very much against the spirit of SDS which seems to offer individual and tailored support. West Lothian's implementation of SDS has been wonderful and afforded service users a better quality of support based on their individual needs, as opposed to a 'one size fits all' approach which, in reality, suits no one.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14924	An individual	2c. Care for Adults	Really not a good thing - going to be difficult for people to go to one site/base: lack of relationships/social interactions	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14925	An individual	2c. Care for Adults	I think SDS is a good idea if the assessment is done properly and fairly. I've heard of some people getting what they've asked for and others in similar situations don't.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self-directed support gives people the choice in how to direct their assessed eligible care and support - it is not about any specific service provision
14926	An individual	2c. Care for Adults	Your proposals seem to miss out mental health. You spend money on things that are a waste, and cut things that are needed. You need to invest in things that keep people well and out of hospital. Day services keep people active and keeps people well and active, social isolation is not good for people with poor mental health.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal related specifically to the centres in Livingston which are for people with learning and physical disabilities
14927	An individual	2c. Care for Adults	I see a lot of services being taken away from the people that need it most. I use the ability centre and now the group I go to has to move to Whitburn which probably means I can't go.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14928	An individual	2c. Care for Adults	In particular Ability Centre and Eliburn Centre - these are much required services for the most vulnerable and saving must be made elsewhere.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14929	An individual	2c. Care for Adults	Do not close centres such as Eliburn and Abilities Centre - SDS is not the same. We need specialised help that the centre can provide.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14930	An individual	2c. Care for Adults	Do not close Eliburn Day Centre - my daughter attends and facilities such as these in a custom-built facility could not be offered elsewhere. She would be devastated not going to Eliburn and it would have a massive effect on my family - I could not cope probably. Please make savings elsewhere.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14931	An individual	2c. Care for Adults	No - closures of much needed centres that would have a massive effect on the vulnerable.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14932	An individual	2c. Care for Adults	I am shocked, totally shocked, to read of the council's proposal to close Eliburn Day Services which is a purpose built resource providing excellent facilities for vulnerable adults with severe and complicated needs. And it is indeed all the more shocking after reading on another point that the council "will continue to focus resources on those in our community who are most in need, such as children, older and VULNERABLE people". This is in fact what caring, civilised societies do, they take care of those who are least able to look after themselves, that is, the young, the old and the vulnerable. These are also key guiding principles of the Labour Party - and we are a Labour Party led Council - so why is closure of this building even being considered. Eliburn is a large building, built back in 1983 with the help of European Funding as at ATC and since then it has been extended and developed when the council planned several years ago to provide services for vulnerable adults in central locations in West Lothian and Eliburn was identified as the MOST SUITABLE for adults with severe and complex needs and with the council declaring it would become a "centre for excellence" and it has! Allow me to explain since not many councillors or council officials have visited this resource, Eliburn has large rooms, wide doors, and a very large central hall, all very necessary when most of the client group are in wheelchairs (some specially adapted and engineered for individual adults) and which need plenty of space to allow for safe moving and turning. Each room base had 2 large toileting rooms properly equipped with a changing bench, hoists and a shower area - these are very necessary when accommodating the needs and medical conditions of the service users. The large central hall is also an important facility - not only used for the adults to enjoy lunch together but for other social activities such as wheelchair dancing, skittles, kurling etc. Eliburn has many other excellent facilities - a physiotherapy room. Where the exercises can take place in privacy whether in a group or individually. Nurses who are on site providing medical and nursing care on a daily basis. Recently funding from the council has provided a fully equipped nurses station and examinations/treatment room which is also used for clinics with specialist doctors. Other facilities are a jacuzzi, sensory rooms, remembrance gardens - each room base has a door giving immediate access to the gardens so that they can be used in the good weather. These facilities have been provided with help from fundraising by parents/carers. And the staff at Eliburn are excellent, have professional qualifications and are trained in many skills necessary when working with adults particular medical	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14933	An individual	2c. Care for Adults	There is little or no consideration for disabled people with mental health or carers. It is a human rights issue the Council should be ashamed of the way it is proposing to treat disabled people. It is victimising the voiceless. The proposal to close Eliburn ability centre is ridiculous. The Council has invested greatly in developing these centres and skilling up the staff to provide excellent care for severely disabled people. To close these services should be unforgivable and hopefully will be challenged legally if proposals are not turned around. To move severely disabled people to a unit with autistic people. Offenders and people with challenging behaviour would put them at great risk. In recent years service users were moved from An - Carina as they were at risk of violence. WLC has always provided exceptional care. This will now be shelved. You have chosen to pick on the most vulnerable groups as many cannot speak for themselves. Eliburn clients certainly can't. Eliburn staff, service users and parents and carers have invested over £30,000 of their fundraising cash to provide exceptional facilities. What will happen to this? There is a remembrance garden used by the public at weekends and evenings to remember the young people they have lost. Parents and carers are getting older and if they don't have day care they will need long term residential care which will cost much more. Lots of health matters are dealt within Eliburn with support of nursing staff. There are clinics held on site making it much easier for parents/carers and service users to attend. These services will require to be provided elsewhere and ill health or deaths could occur due to lack of support or monitoring. As there has been no easy read info and people are not consulted it seems no-one cares about their human rights. In years to come there is going to be a huge influx of profoundly disabled young adults who are currently in education. If services are closed now they will have to be reinvested in future. There are many other things that could be cut and not day services. This situation is crucial.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14934	An individual	2c. Care for Adults	Does anyone making these decisions actually look at the centre they are proposing to merge and look at what services they deliver as they are 3 widely different services and merging these could pose issues to the most vulnerable of our society who require consistency; continuity and even small changes to routine can cause life changing issues for sure who is advocating for the service users who cannot advocate for themselves surely the most vulnerable amongst us need somewhere safe and secure where they are happy and not all put together under one roof going back to the days of institutional care that we so desperately wanted to get away from.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. 14935	An individual	2c. Care for Adults	I feel it would be a drawback to many disabled people's lives if the ability centre in Carmondean, Livingston closed. For many people, including myself, it is our only form of socialisation. We are all at ease with like-minded and similar people. We do activities there that we wouldn't be able to do anywhere else and we also get lots of different therapies. The staff are so friendly and encourage you to open up and help you with any problems you may have be it medical, financial or personal. Any new comers are made to feel very welcome and soon become part of our little family. I feel it would be detrimental to our well being to mix us with other people who have severe disabilities or unable to communicate with us. We all look forward to going to the ability centre and seeing our friends and the staff. For most of us, without the ability centre a lot of people wouldn't get out of bed. The ability centre is one of the most important parts of my life as I really enjoy IT, cooking, painting, etc. I sincerely hope this letter and along with many others have an impact big enough to keep the centre open.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14936	An individual	2c. Care for Adults	My daughter has severe complex special needs and attends Eliburn say centre. In my opinion, to close Eliburn and combine with Pathways would be a disaster. As Pathways is not suitably equipped for wheelchairs clients and hoisting. Eliburn was purpose-built for our young adults. They receive best care. Staff are fully trained, on-site nurses, kitchen where meals are prepared for every kind of diet. They have an on-site physio room, sensory room, jacuzzi, memorial garden. Parents have done a lot of fundraising for many things at Eliburn. Our young adults have many problems to overcome during their lives. Why take something away that they are so familiar with and upset a routine that has taken them so long to achieve? Pathways would not be able to accommodate. Eliburn young adults for 5 days per week, so time would be reduced. They are limited enough with things to do. Why discriminate and take away what they enjoy? What else are they to do? They do not ask to be disabled. You are taking away their rights. People with disabilities need some structure in their lives. You are taking this away from them.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14937	An individual	2c. Care for Adults	I am deeply concerned to learn that in order to save money West Lothian Council are proposing to close the Ability Centre and Eliburn Support Service in Livingston. If, as a spokesperson states "there is an increasing number of adults with complex needs" (West Lothian Courier 2 November 2017), then the proposal does not make sense. My grand daughter, currently a pupil at pinewood school in Blackburn, is severely autistic and she and her family would benefit greatly from the services provided at present. I appreciate the councils dilemma in trying to save money due to cuts by the Scottish government, but strongly feel that the council needs to think against so that the most disadvantaged and needy people in West Lothian are catered for- as they should be - if we believe that every person in our community has a right to be valued and treated equally.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14938	An individual	2c. Care for Adults	At A&E there is a need for specialist help for mental issues. Often there are no beds on the wards (I experienced this recently). There is a lack of specialist accommodation upon discharge from hospital - often people end up back in hospital. Funding for Day Services needs to be increased as it gives people the chance to recover and live a productive life in their own communities.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14939	An individual	2c. Care for Adults	I emphasise all that I have said about the elderly be given especially day centres etc. He attends Holmes Gardens at Goschen.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14940	An individual	2c. Care for Adults	I am not keen on the reduction in day care provision. Having worked in care I've found many enjoy meeting their peer group rather than being stuck with one carer or at home. There is less social interaction during a day out with 1 to 1 support. Like day care, I feel residential accommodation is more sociable and suitable for those with certain care needs.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14941	On behalf of a Group/Organisation	2c. Care for Adults	Day care offers opportunities for people to reduce effects of social isolation - social opportunities and their value is consistently underestimated by those who do not understand disability. Again savings here are likely to increase cost in other areas as we will see more critical need emerging.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14942	An individual	2c. Care for Adults	I believe it is being considered to close the Ability Centre and Eliburn ATC. I totally disagree with this. The Ability Centre is used by many groups and individuals with complex needs. Where would these people go? This will have a knock on affect on family carers. These are the most vulnerable people. Self Directed Support has allowed people to have support to access community activities etc. This is okay in some cases. But what about the people who need to meet with their peeps? There are times S.U.s are lonely. Could ATCs not be used for SUs to meet and provide activities with support workers? I'm sure Eliburn ATC could be better used.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14943	An individual	2c. Care for Adults	Should not be closed due to vulnerable people getting services such as therapy service or capability service. As my mother uses both services are useful with people anxiety and disability and there are people who leaving for work who need support with special needs. Cutting these services are going to render people with no help!	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14944	An individual	2c. Care for Adults	I personally would miss the Ability Centre along with other disabled people. It also save me cooking which is hard for me.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14945	An individual	2c. Care for Adults	I, as a parent of an adult who uses the service provided at Eliburn day centre am appealing to you to reconsider your proposal to close this facility. Eliburn is a unique centre, as are the clients who use it. The building has been designed to facilitate the use of the special equipment required by many of the clients ie. wheelchairs, large walkers, hoists, specially adapted chairs, frames and stands. There is a large communal area which is used for lunch, social gatherings and in the case of my daughter, it enables her to walk safely in her may walker. This space allows her the freedom to take some exercise and to socialise. Within the building there are many wonderful facilities: the jacuzzi, which was purchased through many fundraising events and is used daily, the physiotherapy room which is used daily by the clients keeping many mobile and preventing chest infections, the sensory room which has everything it could possibly have to help the clients unwind and overcome the stresses of everyday life. Outside there is a remembrance garden and a friendship tree. The parents and carers are given the freedom to come, sit and remember their loved ones who spent time in this wonderful centre. Eliburn isn't just a building to which the severely disabled people of our district attend. It is a happy, lively place where the staff are uniquely trained and qualified to bring joy and stability to the lives of the clients. The medical staff onsite are highly trained and give medical attention to clients with many complex needs on a daily basis. Their care and indeed devotion to the clients in some cases prevent hospital admissions. They communicate directly with the parents and carers if they have any concerns regarding their loved ones. They are also able to advise and direct them towards the services available, who may be able to resolve their problems. There are also clinics held at Eliburn by the doctors involved with the clients. This service prevents the clients having to attend hospital which can cause distress to many disabled patients. On a more personal note, I would like to describe to you the effect that the closure of Eliburn would have on us as a family. Our daughter is [REDACTED] small in stature, unable to speak and walks very short distances either holding a hand or using a may walker. Her health issues require medication, which is administered daily at the centre by the nurse. She, like many disabled people, needs routine. On the days she attends the Eliburn centre she knows this means: up, bathed, dressed, breakfast, hair dried, boots and splints on. Then she will sit on the chair, rattle in hand and watch out the window for her driver to collect her. When the driver arrives our daughter gives us a huge smile	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14946	An individual	2c. Care for Adults	We write to protest most vigorously against the proposed closure of the Livingston Ability Centre. We know how valuable this resource has been during these many years amongst West Lothian Residents. The alternative proposed combined facility for several different types of disabled people seems very unlikely in quantity or quality to meet the needs of individual clients. If, as we understand it, the proposed closure and/or curtailment of provision is part of necessary economy measures, it is surely shocking and reprehensible that vulnerable people should be made to suffer this loss on these grounds when they already have burdens to bear through ill health or disability which we other healthy individuals can barely imagine. A caring council, as West Lothian has always appeared to be must surely be able to find other less vital areas where savings could be made. We also understand that the proposed closure is partly due to a shift by clients towards self directed support, meaning that fewer clients now use their funding for this facility. This is a matter of choice. But the existence of such a centre such as the Ability Centre offers something quite different - not least socialisation for isolated vulnerable people which everyone knows is beneficial for health, well being, and morale. in many cases it is literally a lifeline - a way out of house bound isolation offering activities and therapies in group settings. Our friend as been distraught and in tears since she learned of these proposed changes. We have learned that the ability centre is at present under used (128 places out of 156 per week being taken and that equals 83% capacity). This is still high usage with spare places for new or emergency applicants - surely a good thing - a certainly not sufficient grounds for closure of what is by all accounts a centre of excellence. We therefore urge you to do everything in your power to make sure that this proposed closure does not go ahead.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. 14947	An individual	2c. Care for Adults	I am concerned when I heard about the proposed closure of the ability centre at Carmondean. I am a disabled wheelchair bound person who does not get out that often and I look forward to my time at the centre where I can do a varied programme of activities with other people I meet at the centre. The dedicated staff are always available to assist where necessary which allows me to do more than I can do myself. For a large number of disabled people I meet at the centre, this is their only contact with other people and the only outing they get. If the centre were to close then they would lose their only outing of the week and their social interaction. It would be a pity if a way could not be found to keep the Carmondean centre open.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. 14949	On behalf of a Group/Organisation	2c. Care for Adults	At an [redacted] at Pathways/Quigley House, 8th November 2017, it was unanimously decided, by those attending, that a statement be made vigorously opposing proposed changes as described in 2c: Care of Adults, particularly the potential amalgamation of three facilities (Pathways, Eliburn and Ability Centre) into Pathways. It is known from the experience of the attendees that these 3 centres are the result of previous optimisation/amalgamation/cost-cutting exercises by WLC, with the likes of Clarendon and Blackburn closed and disposed of. It is to the dismay of the group that the most vulnerable adults be targeted once again, and so soon, with the resultant anxiety and uncertainty for service users, parent-carers and, not least, the hard-working, caring and dedicated council employees, and associates, the Pathways community rely on. The group were staggered to learn that no attempt appears to have been made by WLC, in preparing these proposals, to engage with the expertise of the Pathways community and stakeholders. It is not apparent, from the inadequate detail and form of the consultation, if there has been any expert rationale or input to, what the attendees considered to be, this totally unacceptable and unworkable proposal. Or, indeed, who in the council is responsible for it. So, it is suggested that the whole process be withdrawn or, at least, halted until the council fully explain their reasoning to the whole Pathways community with their support professionals. Finally, this 'Pathways' group statement should be considered along with any submissions and petitions from the other centres' service users and communities, who, due to the imposed and	Care for adults - day care provision	2. 14952	No Response	2c. Care for Adults	I notice that the Council plans to close the Ability Centre in Livingston. Is this a good idea? Will it be replaced with a similar facility, or integrated into a nearby Partnership Centre? It's a "soft target", really; people in the community will miss it and will lose out and surely the end result could be more costly? It will certainly be more costly for poorer clients and families who currently benefit from it. I would like you to use all your powers of persuasion to keep the place open, or at least give the public an assurance that most, if not all, of its resources and expertise will be transferred elsewhere. There must be some tie-in here with Special Needs education.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. 14953	No Response	2c. Care for Adults	The council are proposing that this is the best and efficient way to save money, however, they seem to be targeting the most vulnerable within society. The three services that they are looking to merge are three completely different client groups, Eliburn Support Services, The Ability Centre and Pathways. Eliburn Support Services - Supports individuals with a learning and physical disability, the individuals also have complex levels of needs including healthcare. the service is available to individuals aged between 16 and 65 meeting the criteria. Eliburn also provides day respite for carers and family members. The Ability Centre - this area provides a service for adults aged between 16 and 65 with a physical disability, within this service they provide a variety of educational, occupational, therapeutic opportunities and work experience. Pathways â€ Supports adults with a learning and physical disability, to access activities within the unit and within the community, this service also helps support individuals to develop their independent living skills. These three services provide three different types of support for the individuals attending them, the council would like all three to merge together into pathways to save money, however, they have not looked at the bigger picture. The building they propose to move into is not big enough, it does not have all the facilities to support the service users who would be moving there. So, they would then have to spend MORE money on building an extension and getting all the correct facilities, it requires to support the individuals. I understand that cuts have to be made but I feel there could be other ways this could be done rather than impacting on vulnerable service users whom the majority cannot read or write so who will advocate on their behalf? I was wondering if there was anything you as a councillor could do to support these services and stop these changes from happening? would you or a member of your party be visiting these services prior to the end of the consultation period? So, you will be able to see how different these services are from each other.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14954	No Response	2c. Care for Adults	the reasons that the Ability Centre should not be closed. 1 The Ability Centre provides excellent integrated support for people with both physical & learning disabilities and also provides tailor made programmes of occupational/educational and therapeutic opportunities which have helped so many people to rebuild their lives. The new initiative of a Council Supported Employment Team on site has helped provide additional planning & training which will, hopefully, for those who are able, improve their chance of seeking access to employment opportunities in the area. 2 The drop in caf� helps all those using the centre to take advantage of the help and advice offered by trained staff to meet the challenges faced by all disabled and vulnerable people to enable them to feel part of the community of West Lothian. 3 The Centre�s eleven supported Outreach facilities in the county run by the centre�s team assist a wide group of those in specific need of the help available. All those who attend are part of well run and successful programmes which improve many aspects of their lives. Many examples of this can be seen in the newspaper articles and on the petition. A phrase that is commonly used is â€���� It is her/ his lifeline.�� 4 The Centre is a focal point for many local groups :- Card Making- Disabled Group M.S. Support Group Breast Cancer Support Group Livingston Disabled Club Mood Art Group-Mental Health M.E. Self Help Group Vision Support Yoga-Disabled persons Cyrenians Group Step Out Mental Health Group Prostate Cancer Support Group NHS- Anti Natal Classes These groups provide vital awareness links within W. L. which ensures that all services on offer are fully utilised. I am sure, if asked, of these groups they would make a donation towards their use of the Centre which would help with day to day running costs as W. L. Prostate Cancer Group already does. 5 The Centre is ideally centrally situated in Livingston with excellent transport links to meet the best needs in the community. 6 Plans to try to move the services on offer at the Ability Centre along with those from the Eliburn Centre to the Pathway Centre at Craigshill could very well result in all the present effective services being dispersed and we will end up with a disjointed and restricted service that does not meet the needs of the wide range of W. L. people who currently benefit. I do not envy the Council it�s task of finding savings of �73M over the next 5 years and realise that these closures are certainly not the actions that either you or your colleagues relish I also agree with your comment that this dilemma has been caused by the Scottish Government�s grant funding which does not cover	Care for adults - day care provision	2. 14956	No Response	2c. Care for Adults	I am writing to you today with some serious concerns I have over the proposed changes to services within West Lothian council. The changes stated in the West Lothian bulletin sent out this week. I am specifically concerned about section 2C. The proposed closure of 2 very different and much needed services in West Lothian to merge with another service. The 3 units, The ability Centre, Elburn support Services and pathways. These services are all very different, the ability centre is for adults 16--65 who have a physical disability who may require support both within the centre and within out reach groups. Elburn support service is a service for those with learning disabilities, associated physical disability and complex level of need, who need assistance with a huge part of there daily living requirements and well , service users are based within the unit but access trips out in the community but require full support from staff, some of these service users have high medical needs. Pathways supports people with a learning disability who access activities in the community and the unit, to help develop independent living skills. My concern is that service users will have a reduced level of service which I believe is very important I'm aware that the two buildings proposed to close are suitable for the service the support, they have been designed to be fit for purpose. The building these service are being proposed to merge to is not suitable for purposes and will need renovation and possibly a extension to cater for 3 full services. How can this be more cost effective.. It is proposed that service users access more outreach services but is there enough service for them to access and I'm sure these services are not suitable for the very wide spectrum of need and different levels of ability. Has anyone. Taken the time to consult in a manor that the service users understand to explain this proposal to the service users and there carers or are they expected to read about there service in the local bulletin, which I'm aware a lot of people don't read. I'm sure if these service users have learning difficulties there will be a lot of them cannot read or write, so how do they have a say ? Will the new building be supplied with all the facilities the the current building have or as well as service users loosing the familiar surroundings, the possibility of having completely new staff supporting them with, different skilled workers rather than people who know them and there needs, and have specifically chosen there specific field of employment, also be loosing access to therapeutic activities that can make a huge difference to there quality of life? How do the council propose that all these service users can be located in one building or are people also going to loose there service despite there being	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. 14958	An individual	2c. Care for Adults	I am filling this form as a mother with various concerns. Firstly, while I was watching the news I heard that Elburn was closing as was Pathways - I may have heard wrong. But my concerns are for my daughter and all her peers. When Pathways opened my severely brain damaged daughter was transferred to Pathways which is an excellent facility and purpose built for most of the very deserving people who attend, and caters for most of their needs. It's like walking into a college for young people... But it's made suitable for my daughter and other young people with her special needs, so she went back to [REDACTED] where she had the space to push herself round in her wheelchair and I am sure she felt more at home back there. So I need to know that Elburn will still remain a safe haven not only for my daughter but all the clients who have this very excellent facility with its very excellent and caring staff who look after their very special needs. This also applies to the ability centre who help other people with complexities.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. 14959	An employee of West Lothian Council	2c. Care for Adults	As an employee of WLC and an individual living in West Lothian I disagree with the proposal of amalgamating the 3 services into one at Pathways. I work with adults who have learning & physical disabilities and also many with higher health care needs. I feel that these individuals have not been taken into account when considering this proposal. I agree many adults have the capacity to make choices regarding their care packages albeit with the support of family, carers, advocates, etc however within my service area this cannot be achieved. This proposal of amalgamation is preposterous; Pathways is not purpose built for the inclusion of other service users and even if an extension were to be built where would it be put due to the fact that there are buildings either side and more importantly, what would the cost of this be? Would it include the services we already provide eg. personal care rooms, physiotherapy rooms, sensory rooms? There would also be the issue of parking if there were staff relocated and what would this impact have on transportation never mind health and safety of staff and service users trying to utilise the parking areas getting both in and out of the building. As I stated before, the service users I work alongside with cannot voice their opinion on this matter therefore I see it as my role to advocate for them to scrap this proposal. Previously, Elburn has been given the accolade as the centre of excellence, praised by council staff in the higher echelons; I would like to extend an invitation to these staff personnel to come to Elburn and see for yourselves the amazing work the staff here do!	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14960	An individual	2c. Care for Adults	As an employee of WLC and an individual living in West Lothian I disagree with the proposal of amalgamating the 3 services into one at Pathways. I work with adults who have learning & physical disabilities and also many with higher health care needs. I feel that these individuals have not been taken into account when considering this proposal. I agree many adults have the capacity to make choices regarding their care packages albeit with the support of family, carers, advocates, etc however within my service area this cannot be achieved. This proposal of amalgamation is preposterous; Pathways is not purpose built for the inclusion of other service users and even if an extension were to be built where would it be put due to the fact that there are buildings on either side and more importantly what would the cost of this be? Would it include the services we already provide eg. personal care rooms, physiotherapy room, sensory room, etc? There would also be the issue of parking if there were staff relocated and what would this impact have on transportation, never mind health and safety of staff and service users trying to utilise the parking areas getting both in and out of the building. As I stated before, the service users I work alongside of cannot voice their opinion on this matter therefore I see it as my role to advocate for them to scrap this proposal. Previously, Elburn has been given the accolade as the centre of excellence, praised by council staff in the higher echelons; I would extend an invitation to these staff personnel to come to Elburn and see for yourselves the amazing work the staff here do! Detailed proposals will be worked up following the outcome of this consultation.
14961	An employee of West Lothian Council	2c. Care for Adults	As a WLC employee, working with adults who have learning difficulties and very high care needs I feel it is not suitable for Elburn centre to close and then join with Pathways. Elburn was purposely built for our service users. Pathways would require an extension built on to it, costing the council more money!! Does this make sense?? I live in Livingston and know the area well, I don't see how there would be space to extend Pathways, there are buildings to either side and the car park isn't big enough - no space to extend. The service users at Elburn cannot voice their opinions and feelings or make a choice, it is my job to support them and their families with this.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14962	On behalf of a Group/Organisation	2c. Care for Adults	Closing day centre premises is a complete no-no. These places are a lifeline for many elderly, disabled physically and mentally impaired adults. This would cause untold misery and harm to the people who use these premises and the help provided. This would also lead to more expense on budgets as the people who use them deteriorate and require different types of care. It is not the same to have a health visitor popping in now and again as it is to meet friends in a familiar place. I refuse to believe that by amalgamating premises and making them overcrowded and unfamiliar is the answer to savings. Other areas are surely available for savings eg. heating in commercial premises. I was recently in Arrochar House and could not believe the heat in the premises. Please think again as these day centres have been the most successful thing the councils have ever done. I am on a very low income but would happily pay more council tax rather than see these centres closed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. 14963	An individual	2c. Care for Adults	Do not combine day centres into Pathways	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14964	An individual	2c. Care for Adults	Due to cost cutting exercises WLC are proposing to close several facilities for the disabled and centralise them into one. The ACSS Centre at Carmondean is to be closed and moved to the Pathways premises, which we are made to understand is smaller and not able to accommodate the clients at ACCS, we feel that this is retrograde step in disabled care as the Centre has become a hub of companionship for both old and new clients helping to remove isolation that is felt by many disabled people in that they can come in to a team of caring staff and volunteers for a few hours, and in many cases, this may be the only time that they may be able to socialise with others. The staff and volunteers are always willing to give a sympathetic ear and a helping hand to anyone who may require it. The ACSS Centre is a purpose built building to replace the Centre at Winchburgh and has over the years proved to be a jewel in the crown of what was once a caring Council for disabled and able bodied alike.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14965	On behalf of a Group/Organisation	2c. Care for Adults	There are genuine concerns that this service will be significantly diluted and reduced if the delivery proposals are introduced and, as a result, will impact detrimentally on the opportunities available to many young people in our schools. The consultation in its present format and with the current level of detail is not fit for purpose. It prevents individuals from making informed choices as the relevant information is not available for them to do so. I believe that the Council should engage in active and genuine consultation with the community and to do so it needs to rethink its proposals, provide the information that backs up those proposals, and present it in a less divisive format. I am seriously concerned that some service users, especially those of the Ability Centre, have been informed that their service is to be changed when, in fact, the proposal that covers it is part of the consultation which at this point in time has not been closed.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14966	An individual	2c. Care for Adults	Concerned that people in residential care may not get it.	Care for adults - day care provision	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
14967	An individual	2c. Care for Adults	I cannot believe that WLC is proposing to close Eliburn ATC. This facility is a purpose built facility providing first class care to the service users attending Eliburn ATC. It is unique in that it has staff dedicated and trained to provide that care for adults with various levels of physical and mental disabilities. The facilities at Eliburn ATC are second to none. They have jacuzzi for hydrotherapy, two sensory rooms, well equipped physio room. Much of the equipment in use funded by the generosity of parents, carers and local people's fundraising. They have a sensory garden, Remembrance Garden (for those service users no longer with us) and a friendship tree. All this would be lost if WLC were to close Eliburn ATC for 34 years (since it opened) I'm sure he would be completely lost if the centre were to be closed. The service users we are talking about have the right to stability in their lives and that comes with attending a day centre that has been shown to give consistent, compassionate levels of care for many years. Their lives would be thrown into turmoil by being moved out of their bespoke ATC into something NOT FIT FOR PURPOSE! Eliburn ATC has all the welfare and safety facilities required to fulfill the needs of the service users attending. Eliburn ATC have fully trained nurses providing medical care and health preserving to the service users. They are highly trained professionals with qualifications. Eliburn ATC has a fully equipped and staffed kitchen supporting the varied dietary needs of the service users. To make the move from Eliburn ATC to a day centre NOT equipped to do the job would be totally insensitive to the needs of a very vulnerable section of society, and very reckless in not being able to provide the levels of care, security and welfare being provided at the moment.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. 14968	An individual	2c. Care for Adults	I have a daughter aged [redacted] who has been attending support services for [redacted] Pinewood Blackburn adult training centre and Pathways. My daughter has learning and physical disabilities. Many of the clients who attend pathways are her friends, she grew up with them. My daughter is also prone to panic attacks. WLC have already had an impact on her as she is worried and stressed on the recent WLC proposal to close down 2 support services and combine all into Pathways. There will be approx 280 adults with different needs, Pathways was not purpose built for many of these adults needs, where do WLC propose to do with them. My daughter is very happy, comfortable and safe at Pathways that is part of her life. The management and staff have known her for many years and are excellent at looking after her. I am disgusted that I have to write down my views. This proposal should never been brought to the table. WLC are attacking the vulnerable and weak it is a disgrace. Instead of cost cutting these support services WLC should be doing more, there is not enough support as it is. These adults through no fault of their own have rights to live a happy life the are human beings. Is it because they cannot bring money into the community WLC has targeted them. There is a lot more out there who have no disabilities, bring no income to the community, are they being targeted? I do not think so. I myself work and have done for 45 years, I pay into the community. Where is WLC care in the community there blog on disabled stands for nothing, when they have put out this proposal. Why does WLC have to dig up the Bathgate precinct so many times, I believe so far it has cost us £350k, what a waste of money. Where is the money coming from for the new build for services at Whitehill ind. estate, cost millions probably. I am very angry, very saddened at the impact WLC has made, which also affects parents/carers family and management and staff of the 3 support services. One day you never know WLC executive committee may need one of these support services, either or themselves or family. WLC executives should feel ashamed and have no compassion for the disabled, they are making number crunching. These adults have rights. It is sometimes very hard for the parents/ carers who look after their loved ones 24/7. We need support too. Keep these support services open for all concerned and stop further worry and stress.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14969	An individual	2c. Care for Adults	Pathways cannot accommodate all from Eliburn (wheelchair users). Eliburn was purpose built. Eliburn has on-site physio room, Jacuzzi, sensory room, nurses, large toilets in each room for PC, hoists, kitchen catering for every dietary need. Many clinics held at Eliburn. Eliburn has a memorial garden (what would happen to this if Eliburn closed?) You taking away everything the clients at Eliburn know, all their routine, which these disabled like and need. Would not all be able to get 5 days per week. There is little enough in W Lothian for disabled adults with complex special needs.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14970	An employee of West Lothian Council	2c. Care for Adults	I feel these proposed cuts are being cut in the wrong area. It is short sighted of the council as these services are a life line to many people and keep people in good mental health and enable families to stay together and fee part of the community. Without these places people feel isolated and can become depressed and would end up seeking help of other professionals, which in turn would be a financial cost to the council in other areas. It cannot only be about money, I feel we have a duty to look after our vulnerable people in our society who need help.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14971	An individual	2c. Care for Adults	It has been a life line for me to come to the Ability Centre, and also the outreach group I go to helps me make new friends. I feel safe when I am at the centre and look forward to it each week. I would be lost without it as I am blind and have a heart condition and live alone. I need someone with me at all times so my family get a break when I am here. My confidence has grown since I have been here. The staff assist me to go to the library which is the only thing I have at home to listen to the talking books. This is a special built centre for people with physical disabilities and I think it would be madness to close it. I would be prepared to pay something towards transport or other costs to keep centre open.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14972	An individual	2c. Care for Adults	Eliburn is best service for Adults with special needs. It has all the require facilities these people require. Special bathrooms large with hoist etc. for changing. Eliburn was purposely built. It has in house nurses, physio room, large dining room for lunches, games, activities, meetings, parties, etc. Parents have fund raised for numerous equipment e.g. sensory room, memorial gardens. There is many clinic held at Eliburn. Staff fully trained for all aspects of care, staff are dedicated. They go for beyond what they need to do. Respect at all times for clients. Why close Eliburn day care there nomenclation of closing any schools or nurseries. There is a demand in W. Lothian for a place like Eliburn. So why remove it?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14973	An individual	2c. Care for Adults	the option to close both the ability centre and the adult training centre would be very counter productive and short term. The AC is widely used by many groups and both service users and carers would suffer greatly by closing this excellent facility. The ATC also offers very vulnerable people the chance to meet and learn with others in the same situations. Overall this decision, if implemented would understandably cause anger and upset.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14974	An individual	2c. Care for Adults	E - is for each person who has Eliburn at heart L - is for the love and laughter each of us plays a part I - is for individuals each has their own life to live B - is for brilliant staff who are always there to give U - is for uniqueness. No place is quite like here R - is for the rewards for all of us to share N - is for the new days ahead that will touch everyone but the joy and fun and friendship will still go on in ELIBURN The above says it all. We do not want change above all we do not need change. The facilities at Eliburn is more than adequate for our clients needs. We have the nurses and experience staff already in place for all individual special needs. I.e. Highly trained nurses who know their clients abilities and disabilities of which takes years of experience not to mention the trust that these vulnerable clients need. Kitchen staff who cater for all their dietary requirements and most of all the personal assistants who work with the clients on a daily basis. As for the facilities at Eliburn these are already in place due to the great effort from parents and staff over the years. From umpteen sponsorship, charity nights and various fundraising monies spent on i.e. Jacuzzi - sensor room - memory garden. Toilet facilities in every room, hoists, trolleys, etc. I am a very concerned parent who is getting up in years could do without the concern and grief. My daughter who is now [REDACTED] of age has been going to Eliburn since she was [REDACTED] But she gets very upset when put in an environment she is not familiar with and can get very anxious to change. I have visited Pathways and no way is it adequate to accommodate these clients. The infrastructure is all wrong and would cost a large amount of money to bring it up to the standard of Eliburn which is already in place.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14975	An individual	2c. Care for Adults	As an [REDACTED] who has attended Eliburn AJC for the last [REDACTED]. He has many disabilities namely [REDACTED]. I am distraught at the thought of him going to another centre that hasn't got anything like the therapies that they have at Eliburn. The very thought that to save Â£2.5 million you are going to destroy one of the best centres for adults with differing disabilities in this country and to even think of putting them into a centre which has nothing suitable for them. In Eliburn as it seems there are a lot of Councillors who haven't been to Eliburn. There is a hydro therapy , sensory therapy rooms (2) Sensory garden, a remembrance garden to remember the adults who have passed away and whose families visit regularly with flowers and even a memory tree. The parent and staff have put a huge amount of work into improving things over the years. I would imagine to make Pathways anything like Eliburn will cost at least 5 times the 2.5. million you hope to save. I suggest you have another look at the options and leave the most vulnerable people in society to get on with their lives as best they can with the carers who know how to look after them.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14976	An individual	2c. Care for Adults	Would not think this would go down well with the residents of west Lothian but as these areas only service a small proportion of the population then a better solution needs to be found to prevent social isolation. Although not a popular proposal it is an area the council needs to consider.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
14977	An individual	2c. Care for Adults	The proposal to close Eliburn support service and any other centre of this nature is appalling. Eliburn provides first class support and care to very vulnerable adults who we should be protecting and NOT taking away their day to day happy, secure and care. The adults who attend are given specialised care from very well trained staff and nurses. Eliburn is the purpose built centre with facilities which are not in place anywhere else. they have snuggle rooms, Jacuzzis and many more activities which those who attend need for therapy and to help them have a happy well being. I cannot see how WLC can see closing Eliburn is cost cutting as they would need to spend a lot more to adapt other premises to accommodate adults from Eliburn. My brother has attended Eliburn since it opened 33 years ago, he receives the best care and support we could ever wish for and it worries us as a family for his future. If this proposal is accepted, shame on WLC as this would show them as being inhuman and insensitive and going back to the dark ages treating these vulnerable adults insensitively. WENEED TO PROTECT THEM ,not hide them away from society. My brother and all his friends at Eliburn should be protected and cared for by the people who have worked hard to bring them all to these stages and happy levels of their lives. If you have a heart DO NOT CLOSE ELIBURN	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

14978	An employee of West Lothian Council	2c. Care for Adults	I am responding in regards to 2c (care for adults). Pathways has no room for 3 day services to be put into one building. The building is not big enough there is no facilities for storage of specialist equipment and the layout of the building is not fitted out properly for individual with a physical disability i.e. large wheelchairs couldn't get through the doorways. Bathrooms are not big enough for equipment. I believe it would be pathways service users that would miss out and have their day services cut. Criteria for places will be critical/ substantial where would the balance be. Pathways supports individual s who stay in there own house who would otherwise struggle i.e. contacting emergency services. They would end up isolated and homecare is not always reliable and falls through. We flag this up, people will end up more at risk pathways provides consistency, stability, support structure. Pathways provides education, new skills activities which stimulate clients purpose to there day. It gives people self worth, value, friendship is services not provide people will become isolated and more vulnerable. There will be an impact on young parents who work and elderly parents provides respite in these cases. Pathways provides keys to life - accessing community facilities, promoting health- healthy eating etc. Healthcare - physio- dentist optician and other health care professionals. You are totally undervaluing this service and underestimating all the staff working with this client group. Pathways has a waiting list and there is a need for this service and putting more centres together will put more pressure on facilitating the excellent standard of care being provided by the 3 centres at present and you are putting staff under pressure. I do not want this proposal to go ahead.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14979	An individual	2c. Care for Adults	Perhaps greater use of volunteers is possible to reduce the impact. Livingston, while geographically central is not well connected to everywhere in the county.	Care for adults - day care provision	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
14980	An individual	2c. Care for Adults	West Lothian is the only council region in the whole of Scotland to have the ability to help people come to terms with living and managing life with disabilities. Which is a difficult thing to try and manage upon yourself. So without this centre a lot of helpless people will be left without any support! Which physically cannot happen if this wishes to be a great council. Now you wish to close this centre down? Why? Don't you give a shread of empathy to the disabled people that rely on the centre. Along with having the help and support to manage them through their drastically changed life! The service should be available all over Scotland! Not just West Lothian, to where it's under threat of being closed down! I physically will not see this service being closed down! You need to look at other avenues rather than targeting disabled people. Which is sickening. Is this the austerity from the Tories starting to happen and the ones to be affected are the ones who need help the most? It's sickening to see ideas put forward to close a much needed centre for disabled people! Please reverse this idea and safeguard the centre for years to come?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14981	No Response	2c. Care for Adults	These choices can only be made on the basis of the packages available and it's impossible to comment without knowing what will be available. I do not support the integration of day care facilities into one location as it will inevitably result in a reduced uptake of the service. This may, in some cases, result in the person spending more time travelling to and from the transport than actually at the day centre.	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14982	An employee of West Lothian Council	2c. Care for Adults	Further information is required with regards to the day care facilities - would transport be available for all current users to access the new, consolidated centre and how would we ensure that increased transport costs wouldn't outweigh the savings made by closing the other existing centres? Also, would Pathways be able to cope with the increase in numbers?	Care for adults - day care provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
14983	An employee of West Lothian Council	2c. Care for Adults	Greater use of technology? What does this mean in this context? Are we going to have robot carers?	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14984	An individual	2c. Care for Adults	Technology again, more hollow words.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

14985	No Response	2c. Care for Adults	The Council should be very wary of replacing people with technology to care for disabled people in overnight stays etc. I can see this being the start of a very unwelcome slope, where the people who do not have a voice have other people's ideas forced upon them.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14986	An individual	2c. Care for Adults	As with a few budget proposals, greater use of technology need not be seen as a start and stop project. It should be an integral part of our ongoing IT service to be aware of new technology as and when it's published and determining if the cost of installation, training and licenses etc will deliver savings.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14987	An individual	2c. Care for Adults	You can't monitor supported accommodation in their communities by technology. The vulnerable person needs human contact. Even more so as they might suffer from exploration and bullying in their community.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14988	An individual	2c. Care for Adults	The targetting of technology needs to be carefully assessed if difficulties that will cost more in the longer term are to be avoided.	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14989	An employee of West Lothian Council	2c. Care for Adults	The use of technology is to be praised but is no substitute for the personal touch.	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14990	An individual	2c. Care for Adults	Agreed - technology should be used to reduce the requirement for human interaction but still ensuring that adults receive appropriate care	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14991	An individual	2c. Care for Adults	. The use of technology could suffice in many services.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14992	An employee of West Lothian Council	2c. Care for Adults	Technology to help someone stay at home is fantastic but can equally be frightening too if it's not used properly.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14993	No Response	2c. Care for Adults	I can't see how technology can help as it is not described here and certainly, as with most of this consultation, there is not enough information to make an informed comment.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14994	An individual	2c. Care for Adults	Technology is not the answer to everything and is also quite expensive as if you are going to replace people with tech, you need to make sure that you keep that technology up to date.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14995	No Response	2c. Care for Adults	There are significant health inequalities for this demographic population therefore some may not be able to use technology...	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14996	An individual	2c. Care for Adults	Technology is not always the answer. Too often Occupational Therapists are told about technology ideas and that the council is promoting them and they come and conduct assessments where they force these technologies upon people where they are clearly inappropriate but will not relent. It's as if they fear their jobs so will just shoehorn people into situations not appropriate for them. I have had numerous experiences of this.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council deploys technology as part of care and support packages where this is appropriate.
14997	An individual	2c. Care for Adults	The technology being proposed is not adequate for this purpose and you are taking big risks with peoples lives	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

14998	An individual	2c. Care for Adults	Older people need contact not necessarily technology as they hate it	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
14999	An individual	2c. Care for Adults	Possibly agree depends on users ability to use technology.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15000	An employee of West Lothian Council	2c. Care for Adults	No place should close unless the replacement has everything to meet the persons needs. Places like the Ability Centre for example has what it was designed and built for to meet every ones needs and services.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15001	An individual	2c. Care for Adults	Good ideas, technology must be used. Video, cctv, sensors adapted living	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15002	An individual	2c. Care for Adults	I am concerned that technology is seen as the way to save money.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15003	No Response	2c. Care for Adults	Technology?/ How can this help in a situation where a person is needed - I really hope something disastrous doesn't happen to someone because of your cuts.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15004	An individual	2c. Care for Adults	God this tecyhnology is a wonderful thing the proposal the coucil is putting forward there will be no need for humans machines will do it all reminds me of the In the year 2525, maybe it's happened sooner	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15005	An employee of West Lothian Council	2c. Care for Adults	Technology is to be welcomed in this digital age but older clients can have difficulty with dexterity required for technology even if they are computer literate etc	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15006	An employee of West Lothian Council	2c. Care for Adults	Would agree, however, technology is an assistive system, should not be used to replace staff, but used as an enhancement.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15007	An individual	2c. Care for Adults	technology does not compensate for social and hands on interaction and for instant help	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15008	An individual	2c. Care for Adults	New ways of working are vital, due to demograph changes. I have some ideas I am willing to share if you would like to hear about them. What are your plans for new sleepover models? Technology MUST be to the benefit of the individual being supported. Will actual human support be removed from people who are entitled to it now? No one should be frightened in their own home at night, due to support been withdrawn. I think that is cruel.	Care for adults - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15009	No Response	2c. Care for Adults	Agreed for some. Isolation is still a key problem and prevention would be better and this is not solved by technology. While technology is to be welcomed, sometimes older people are expected to access technology for many things where they can't do it and their dexterity is poor/ there seems to be little understanding of this. Obviously subsequent generations will be more technology able but they often can't see, hear or physically engage with these things.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15010	An individual	2c. Care for Adults	Greater use of technology will not help people if they are ill or have a fall during the night. Real people are needed to support this.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

15011	An employee of West Lothian Council	2c. Care for Adults	Again technology is mentioned - what does this actually mean?	Care for adults - new technology	3. The respondent advised that they had no comment to make.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15012	An individual	2c. Care for Adults	For greater use of technology, have you considered using mobile technology for keeping in touch with adults and older people. The use of tablets and laptop is very easy to operate and increases accessibility. Eg, using SKYPE to communicate remotely and in a regular basis allows everyone to be in frequent contact and promotes mental awareness. It is also free of charge for SKYPE.	Care for adults - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15013	An individual	2c. Care for Adults	Reading between the lines I see a greater use of technology in most of the thing said, will this not increase utilities too? I.e. Electricity	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15014	An individual	2c. Care for Adults	Technology wont provide respite for exhausted carers.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15015	An individual	2c. Care for Adults	Greater technology can help a bit.	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15016	An individual	2c. Care for Adults	Use of technology is a good idea, however	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15017	An individual	2c. Care for Adults	I am unsure of the statement 'greater use of technology'. I don't think technology can replace a face to face with someone within the service. if we want to offer support and empathy to our adults requiring care, then we must do so appropriately in a way that does not leave them vulnerable.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15018	An individual	2c. Care for Adults	Technology needs to be introduced slowly to ensure clients who are vulnerable to feel confident the technology is as responsive as a person. It does lack the human touch which some of these client groups need. A blended approach should be considered.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15019	An employee of West Lothian Council	2c. Care for Adults	Presumably there is a concern that cutting resources to those not assessed as critical/substantial will simply result in such a lack of support to those people that they will very quickly fall into a critical/substantial need? This feels like it will boomerang straight back at the council. What improved technology are we talking about? Skype? Technology is not a substitute for actual human interaction. There must surely be great concern at increasing isolation in adults in need of support leading to more adults reaching the "critical/substantial" threshold. This seems to go against the council's aims of promoting equality and improving the lives of adults.	Care for adults - new technology	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15020	An individual	2c. Care for Adults	Technology isnt what these people need they go for someone to chat to and get out	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15021	An individual	2c. Care for Adults	again not sure technology is the way to go	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15022	An employee of West Lothian Council	2c. Care for Adults	Again how can technology replace human attention and care?	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15023	An employee of West Lothian Council	2c. Care for Adults	Agree with use of technology and sharing resources.	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

15024	An individual	2c. Care for Adults	Very sad to think that our vulnerable and our elderly are going to be cared for by technology. People need contact.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15025	An individual	2c. Care for Adults	It's people who provide successful support care at home and technology is no substitute for that.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15026	An individual	2c. Care for Adults	I'm hesitant with increase in use of technology and how this would look if elderly were expected to use more techno as they have least experience with it in society and is harder for them to learn a new skill, also those with memory difficulties.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15027	On behalf of a Group/Organisation	2c. Care for Adults	When implementing the use of technology careful attention of the ability of vulnerable and equality groups in particular to engage effectively. We would like to see Equality Impact Assessments being integrated to system and service changes which may impact directly with the groups that this covers. We do not believe we have the evidence, knowledge or experience of this area to be able to make a more informed comment on this proposal.	Care for adults - new technology	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15028	An employee of West Lothian Council	2c. Care for Adults	I believe that greater use of technology is a good idea.	Care for adults - new technology	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15029	An individual	2c. Care for Adults	I do not see how increased use of technology will help caring of vulnerable, frail adults or those living alone.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15030	An employee of West Lothian Council	2c. Care for Adults	As part of the digital age I do not see any issue with this as long as older people are able to access services/technologies as many older people are savvy with internet/online nowadays anyway	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15031	An employee of West Lothian Council	2c. Care for Adults	How is technology going to replace care for vulnerable individuals in community? I suggest those who created these proposals spend a day working with employees from these services to see the impact your proposals will have.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15032	An individual	2c. Care for Adults	As 2 b. - Technology cannot help the elderly in the home when in crisis or simple needs help in everyday tasks i.e. personal hygiene.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15033	An individual	2c. Care for Adults	Invest in front end services such as reablement services and technology which would hopefully reduce needs for longer term care at home services. For reablement to be effective service needs to be provided in the short window of time a hospital d/c patient or person starting to decline physically, rather than having waiting times of considerable weeks when rehabilitation is then unable to return person back to baseline but they then become reliant on long term care at home services at considerable expense.	Care for adults - new technology	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
15034	An individual	2c. Care for Adults	Need to be increased not decreased / again what technology?	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15035	An individual	2c. Care for Adults	Try to care for those in need at home or in proper care homes. Technology cannot ever replace carers.	Care for adults - new technology	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.

15036	An employee of West Lothian Council	2c. Care for Adults	Sharing resources with other providers is in theory a great idea as long as all organisations involved to do not prune services to a level where they can not cope with the total customers group	Care for adults - sharing resources and other providers	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15037	An individual	2c. Care for Adults	i don't agree with the downsizing to one location as the resources at each location vary / no one location could with even all resources available do everything / possibility of mobile resource centres	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
15038	An individual	2c. Care for Adults	I am completely against, and extremely concerned to hear the council are even considering consolidating 3 day centre provisions into only one at Pathways. I am fully aware that even currently the provision for vulnerable adults is sparse, and usually only on a part time basis, so I am certain that this change would further decrease the councils responsibility to provide support to the most vulnerable in our society. It would be against human decency, morality, and would be a further return to the victorian era, whereby disabled were locked away and unseen/unsupported. It would also but further untold burdens on families - we need support, and the fallout of this decision would be immense.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
15039	An employee of West Lothian Council	2c. Care for Adults	Will this be physically possible? Is Pathways large enough to accommodate everyone?	Care for adults - sharing resources and other providers	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15040	An individual	2c. Care for Adults	Paying into private sector again which takes profit from wages actually paid to the people doing the work. Saving money by effectively undercutting wages of council employees.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15041	An individual	2c. Care for Adults	Would consider that these services are already being stretched. Better working with the private sector again would assist here e.g. finding a way for Bield Housing to maintain a working business model	Care for adults - sharing resources and other providers	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15042	An employee of West Lothian Council	2c. Care for Adults	The proposed merger of three care facilities to one at pathways does not seem viable. Even as a new building, Pathways is not fit for purpose for the care given by Eliburn Support Services. Eliburn requires 7, possibly 8, large(min 47 sq mts) base rooms. Each base room needs 2 PC rooms, (each min 9 sq mts). Eliburn also has a large (322 sq mts) hall for communal meals and for activities. In addition it also has large Jacuzzi in it's own room (32 sq mts). The physio room (38 sq mts) houses Tilt Tables, Standing frames and Maywalkers. The Sensory Room, which was financed by fund raising activities, is extremely popular, as is the Jacuzzi. As it stands, Pathways cannot provide any of these necessities. A large extension or massive internal reconstruction would be needed at Pathways to provide the needs of Eliburn. The biggest setback of the proposed merger would be to the Service User. Their care and enjoyment should not be diminished at any cost.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

15043	An individual	2c. Care for Adults	<p>I'm very disappointed in the council's decision to attack these care services to save money and I know there are a growing number of people becoming aware of this and I can assure you they are disgusted by it. I think it's important to understand why these Centres are so important as individual Centres specifically looking after the people they look after. The ability centre helps to rehabilitate people with brain injuries, strokes, degenerative illnesses like MS, Parkinson's and Huntington's. The list goes on. They have specialized equipment and have added over the years to the centre to provide the best care they possibly can. The other centre looking after adults with severe learning disabilities takes the strain off families looking after someone with learning disabilities. The clients have a much greater quality of life due to the activities and equipment available. This centre has been open for a number of years and I'm aware of fundraising taking place over the years to provide better facilities including a jacuzzi and sensory room. I note they also have a memorial garden for the many people who have passed away far too young. All the hard work put into building these Centres up will be lost and it will be a case of starting over. This affects everyone in the Centres care and the staff also. It is not acceptable to cram everyone in one building and for them to lose services so the council can save money as well as losing access to the equipment that improves their quality of life as well as therapeutic benefits. Not only will this affect the clients and families, but it will affect the staff. This no doubt will mean a cut in staff levels. Each centre is very specialized in the care they provide and if the staff has to cover vastly different areas of care this will affect the clients. In order to save the council money they are willing to ruin the lives of the clients, families and even the staff. I don't believe this will be intentional, but I do not believe enough research and investigation has gone into the planning. Especially, when I constantly see the council advertising spending millions on other areas. Maybe the council should consider cutting the levels they are spending on other areas and spend some of this area. I pray my family and no one else's families have to use these Centres in the future as it's every parent and families worst nightmare for something to happen to their loved ones. But, if these Centres exist it makes a huge difference if the unthinkable does happen.</p>	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	<p>Thank you for your response. 15045	No Response	2c. Care for Adults	I think due to this being the set up in the past elburn day centre and pathways joined together this was not feasible as there is a large difference in the needs between these day centres, one being complex health care needs and the other being more mainstream- lower needs. Also all the service users who have attended elburn day centre and the ability centre for years this will have a negative impact on their lives and their routines.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15046	An individual	2c. Care for Adults	Combining the day care facilities is a BAD idea! What about travel time and costs.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15047	An individual	2c. Care for Adults	Carers appointed from different care companies are already struggling to give their clients the support/time they require. Carers should be monitored - Ensuring they are meeting their clients needs and ongoing training is essential. I am speaking from my own experience - I have witnessed many unacceptable working/training practices.	Care for adults - sharing resources and other providers	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15048	An individual	2c. Care for Adults	Funding third parties it is going to work out most expensive long term. This will become a monopoly for the few companies which could realistically provide care.	Care for adults - sharing resources and other providers	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	West Lothian has a proven track record of partnership working and would wish to build on this.
15049	No Response	2c. Care for Adults	Again this requires very carefull roll out. Seems the Council may loose some control and would require very stringent checks etc on the external partners used. As has been seen in the past, some of these services can become very poor when outsourced and vulnerable to further cuts in future.	Care for adults - sharing resources and other providers	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15050	An employee of West Lothian Council	2c. Care for Adults	Working with other organisations is very important, as it talking to care workers as they may have ideas as to where time/money can be saved. Their should be a bottom up approach to problem solving.	Care for adults - sharing resources and other providers	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
15051	An individual	2c. Care for Adults	I think much better shared working between health and social care is essential. Understanding eg which residents require support on discharge from hospital, putting the support including technology in place to allow them to remain at home safely for longer is part of this. Likewise better working with third sector and families to fully assess requirements and how they can be provided is essential.	Care for adults - sharing resources and other providers	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
15052	An individual	2c. Care for Adults	If you reduce support for the most vulnerable in the community then you will just have to spend more money somewhere done the line. Mental health issues are more likely to affect the disabled community and can be prevent by providing good support. Isolation and loneliness too can trigger health issues. People with complex disabilities can lead good lives with the right support. Contracting out to the voluntary sector needs an overhaul or something serious will happen. Again volunteers, real volunteers who want to give something back, should be organised and their skills used. Pathways, Eiburn and the Ability should not be closed. It would be the council just bunging all the disabled away in a building that's too small.	Care for adults - sharing resources and other providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15053	An individual	2c. Care for Adults	Self-directed support is good in principle. However, for people with the most complex/highest care needs it may be impossible to find any agency willing/able to provide a suitable service. Agencies cherry pick the "easier" cases, leaving the most vulnerable to find their own independent solutions. This is extremely stressful for families and could result in less robust arrangements. I am very concerned about the proposal to centralise adult day care services. This will mean losing specific services which have developed to meet the needs of clients and presumably will result in fewer days of provision for all users. The needs of the groups of service users at the 3 facilities are very different and these cannot all be met at Pathways. Highly trained and skilled staff care for adults with severe disabilities at Eliburn and this expertise will be lost with inevitable redundancies if services are centralised on one site. In some situations, these trained staff can prevent the need for hospital admissions, eg for people experiencing seizures. Eliburn employs specialist nursing and physiotherapy staff and hosts medical outpatient clinics. The on site catering staff can meet requirements for a range of personalised dietary needs. Some essential facilities there would be expensive to replicate in a new setting eg the multi sensory room and jacuzzi.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

15054	An individual	2c. Care for Adults	Losing places like Eliburn to merge with pathways is a disgrace obviously the council don't realise these are 3 completely different services which don't work well together never mind the building not being fit for purpose what re you thinking? These are vital services that Connor be cut !	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15055	An individual	2c. Care for Adults	The worst proposal I've ever heard, Eliburn is a specialist service it is not suitable to be merged and it more certainly is not suitable to be merged with pathways. Where clients can be aggressive forceful and abusive, this would be a unsafe environment for people with complex needs who cannot protect themselves and cannot even say if they are afraid or feel they are endangered. It has a specialised staff team who know each client extremely well and provide a consistent approach which would not happen if a merge went ahead. It would also be extremely distressing to clients and would be a step back for them and the service. This is the council picking on the weakest in society	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15056	An employee of West Lothian Council	2c. Care for Adults	These sites are here so ppl can get easy access to them. Moving them too one location doesn't seem fair as it will mean having to journey to new location don't understand sense in that	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15057	An individual	2c. Care for Adults	Agreed - however, consideration should be given to centralising in other locations rather than always Livingston- eg Bathgate	Care for adults - sharing resources and other providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15058	An individual	2c. Care for Adults	Would a free bus be provided? Many of the people requiring these services do not have a car and cannot afford a taxi	Care for adults - sharing resources and other providers	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15059	No Response	2c. Care for Adults	How are facilities from three different locations meant to fit into the one place? Apart from the difficulties getting from one town to another on West Lothian atrocious bus service. Also its not always suitable to lump all disabilities into the one place as they all have various different care needs. What are these "local solutions" mentioned? Are these the same local services that are getting cut? I seriously hope you are not suggesting that technology is used to look after disabled people in overnight respite instead of a human being.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15060	An individual	2c. Care for Adults	This move will disadvantage many users who are not able to get to Pathways, thus having a detrimental effect on their wellbeing.	Care for adults - sharing resources and other providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15061	An individual	2c. Care for Adults	More private providers required into the framework to allow critical/substantial packages of care to be commissioned to allow people to be cared for at home rather than admit into permanent care or hospital at considerable extra costs.	Care for adults - sharing resources and other providers	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15062	An individual	2c. Care for Adults	Its a pity the council have to rely on so many outside providers of care and no longer invest in council staff to provide a lot of the care at home required.	Care for adults - sharing resources and other providers	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15063	An individual	2c. Care for Adults	More attention needs to be paid to the care firms providing care in the home to many with clients don't always get the time for their care plan. Care commission needs to support care companies more generously.	Care for adults - sharing resources and other providers	2. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15064	No Response	2c. Care for Adults	My comment would be instead of using agency staff get more permanent staff at no extra cost agency staff budget must be phenomenal and if they had permanent staff residents at home's would recognise and trust the same people who care for them instead of all different people who they don't see from day to day ? .	Care for adults - sharing resources and other providers	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15065	No Response	2c. Care for Adults	I feel that any changes to sleepover care can only be a good thing, especially if many places are beginning to move away from a set payment to an hourly rate - which will reduce how many support hours people get.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15066	No Response	2c. Care for Adults	Remove "sleepover" shifts currently being worked under a fixed nightly payment and redesign service to utilise Re-ablement or Crisis Care intervention over night.	Care for adults - sleepover model	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15067	An individual	2c. Care for Adults	Sleepover need to be changed where and when possible, also paying for two night shifts and a sleep over and additional staff in a unit need to be looked at how long this has been sustained for already.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

What would be the actual difference as to what the provision looks like now? All very vague..More detail would mean more clarity and therefore better feedback on these proposals as a whole.	Care for adults - sleepover model	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15069	No Response	2c. Care for Adults	respite carers are few and far between in west Lothian but are a lot cheaper than council establishments, and a better service from experience, I feel the respite care package given to adults and their carers should either be increased and promoted or discontinued, again speaking from experience I have knowledge of this	Care for adults - sleepover model	6. This is a positive suggestion. Officers will consider how this could be developed.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
15070	An individual	2c. Care for Adults	Sleepover model is not always necessary.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15071	An individual	2c. Care for Adults	Risky. Who monitors provision and what happens to vulnerable individuals who currently survive with the safety of a sleepover which prevents the requirement for residential care?	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is about introducing alternative models to provide sleepovers that could reduce cost whilst still making the service available to people who have been assessed as needing it
15072	An individual	2c. Care for Adults	Proposals to change the sleepover model is good.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15073	An individual	2c. Care for Adults	What if the adults need someone to help them during the night?	Care for adults - sleepover model	3. The respondent advised that they had no comment to make.	The proposal is about introducing alternative models to provide sleepovers that could reduce cost whilst still making the service available to people who have been assessed as needing it
15074	No Response	2c. Care for Adults	Yes, agree and as I mentioned, sleepover models etc should be means tested.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15075	An individual	2c. Care for Adults	Sleepover model? Reduced staff? Centralisation is not always a good idea	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15076	An individual	2c. Care for Adults	This is so wrong, a person who requires a sleepover person, in case they become unwell in their sleep. eg. If they have a heart attack, or stroke. They will not be capable or in a position to surf the internet or telephone to locate the help and assistance required. This is required urgently at the time, as this time factor could be the difference between life, disability and death.	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15077	An individual	2c. Care for Adults	Yes, agree and as I mentioned, sleepover models etc should be means tested.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
15078	An employee of West Lothian Council	2c. Care for Adults	People come into care setting where there are sleepover staff available to give them a sense of security, taking away that service will ultimately increase costs through hospital admissions and increase the list for nursing home places, this approach has already been tried by other care providers in other local authorities and it doesn't work, leave sleepovers in place	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign

Care for Adults	It is not clear what "changes to the sleepover model" means but it doesn't sound like something that would be welcome by those people who currently rely on it and therefore I would not support this.	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15080	An individual	2c. Care for Adults	I agree with supporting home care but have major concerns if this will result in a reduction in respite sleepovers to allow carers some time off, or council support for care homes. Once care/respite facilities are closed it is unlikely that they will be reopened. Also with many care homes closing the demands on home care will increase significantly. In addition, what day care facilities will close? Has a population dispersal analysis been performed that identifies the elderly in each of the geographic areas of the council?	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15081	An individual	2c. Care for Adults	I'm also totally against the removal of sleepovers by care staff to be replaced with alarm systems. This does not help in emergencies when only someone in the building at the time could make the difference between life and death. Having a parent who works in this field has given an insight into this way of work.	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15082	An employee of West Lothian Council	2c. Care for Adults	What changes to the sleepover model are proposed?	Care for adults - sleepover model	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15083	An employee of West Lothian Council	2c. Care for Adults	Changes to sleepover changes will increase costs, if they are all to be paid hourly.	Care for adults - sleepover model	4. The council is already doing this.	Sleepovers are already paid at an hourly rate in line with employment legislation and the working time directives and the living wage
15084	An individual	2c. Care for Adults	Changes to the sleepover model are fraught with problems, one of them being the lack of human contact.	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15085	An individual	2c. Care for Adults	losing sleepovers would be a terrifying concept for some service users and their families. changing the model of this how?	Care for adults - sleepover model	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15086	An employee of West Lothian Council	2c. Care for Adults	Overnight supports around supported accommodation is important. In Older Adults Social Work Team we have many examples of clients who had to move into residential care with weekly costs upwards of Â£600 per week due to overnight support needs, whereby some would have managed in supported accommodation should they have had minimal overnight support needs.	Care for adults - sleepover model	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15087	An individual	2c. Care for Adults	Doing away with the sleepover model would be a big mistake. You need staff on site if there's any emergencies.	Care for adults - sleepover model	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
15088	An individual	2c. Care for Adults	Build more care homes and they can all be put in one place, don't reduce the amount of care given, older people don't generally ask for help if they don't need it.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15089	An individual	2c. Care for Adults	where is the supported accommodation that is suitable for a wide varied of individual needs?	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15090	An employee of West Lothian Council	2c. Care for Adults	Investment in local supported accommodation.	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	We are working closely with Housing on new models of accommodation
15091	An employee of West Lothian Council	2c. Care for Adults	Supported accommodation is greatly needed for low level care and can be successfully used with technology. However support is still needed for dementia sufferers who cannot always safely use technology to access help.	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15092	An employee of West Lothian Council	2c. Care for Adults	I support the proposal to allow people to retain independence and remain in supported accommodation (as opposed to a care home) and would like to think this was already being done.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15093	No Response	2c. Care for Adults	I personally prefer caring for someone in their own community instead of residential care, getting neighbours, family and friends involved is a good community exercise.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15094	An individual	2c. Care for Adults	specialist supported accommodation for adults is needed. Care in the community is ok up to a point but surely it is more expensive on resources in the long run when some adults require heavy support.	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15095	No Response	2c. Care for Adults	I understand that Self-Directed Support is a term that describes the ways in which individuals and families can have an informed choice about the way support is provided to them. It is understood that this is going to be largely in their own homes. However my sister having looked after my elderly mother, with some support from me I recognise the importance of residential respite care to allow carers some time off. Once care facilities are closed it is unlikely that they will be reopened. Again the cost of care failure because the family just cannot go on will cost more in the long run.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Self directed support allows people to select the way they want their assessed needs to be met, with council run day care being only one option.

15096	An individual	2c. Care for Adults	I agree with supporting "coat home care" but have major concerns if this will result in a reduction in respite sleepovers to allow carers some time off.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15097	An individual	2c. Care for Adults	You h'Ve been building houses to rent but no supported accommodation for the disabled young adults	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	Working in partnership with Housing Services new models of accommodation for disabled young adults have started to be developed in our communities
15098	An individual	2c. Care for Adults	The removal of residential facilities could prove to be a false economy as providing the required level of care for some individuals will be very expensive.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15099	An employee of West Lothian Council	2c. Care for Adults	It is an excellent idea allowing people to stay in their own communities providing they are properly supported in doing so. Regular visits are a must.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15100	An individual	2c. Care for Adults	I first came to the ability centre, for an appointment with [REDACTED] before and on to work, team member. I never realised what an asset the centre is to the community. The light purpose built building with disabled access everywhere, but not in your face ment I quickly felt really secure there.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15101	An individual	2c. Care for Adults	I do not support the closure of 2 services to merge with Pathways, The Ability centre is a valuable resource and closure would see vulnerable people isolated and homebound by no choice of their own, the council must celebrate the facility not close it.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15102	On behalf of a Group/Organisation	2c. Care for Adults	As a specialist team we would question the validity of the estimated saving. We believe that the Pathways building will not be fit for purpose for the provision of care for wheelchair bound patients with complex special needs. On a practical level there is only one disabled toilet at Pathways while there are 14 disabled toilets at Eliburn. The rooms at Pathways are certainly not big enough for wheelchair users and specialist equipment which they use on a daily basis. This also involves the use of hoists which do not exist at Pathways. The building at Pathways can only legally accommodate 85 service users which will be half of the current number. We would also question the morality of closing a building where there is a garden of remembrance which parents and friends of deceased service users visit on a regular basis. We would therefore suggest that is service users are going to be combined into one building that Eliburn is a more suitable building with facilities tailor made for wheelchair patients and additional special needs.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15103	No Response	2c. Care for Adults	The Ability Centre and Eliburn offer such a high quality and specialist service that it is vital they are kept in place. All that these services offer could not be replicated in the community. The closure would have an impact on families and the vulnerable adults themselves.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15104	An individual	2c. Care for Adults	Supported accommodation in community and not residential is to be encouraged as far as you are able to support and resource.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15105	An individual	2c. Care for Adults	Self-directed support will only work if the social work works in conjunction with families and makes the care package easy to work. Too much time and money is wasted on social workers who don't do their jobs properly	Care for adults - supported accommodation	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15106	An individual	2c. Care for Adults	Council should focus on provision of support within the home.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

15107	An individual	2c. Care for Adults	Again if this is so fantastic why hasn't it been done before? Supported accommodation? What does that mean? If it is anything like the house which appeared overnight next door to me I'd strongly argue against it. The gent "placed" there was effectively left to get on with it, with the "support" only appearing when things went wrong. Police in the street constantly. I don't blame him I blame this sort of cost saving initiative. All it does is pass the cost to others e.g. Police and nhs, and the neighbours. I'm cutting grass sorting out bins etc as the guy hasn't any idea how to do that for himself. He has been dumped! Shocking social policy in action. Please don't do more if that and dress it up with words like those in your proposal.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15108	An individual	2c. Care for Adults	Self directed support can be stressful and time consuming to organise and not everyone wants it. Supported accommodation sounds great in theory but itâ€™s not suitable for everyone and I would be surprised if it doesnâ€™t cost more money over a longer time period	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15109	An employee of West Lothian Council	2c. Care for Adults	What local solutions will be developed? How will this be more cost effective?	Care for adults - supported accommodation	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15110	On behalf of a Group/Organisation	2c. Care for Adults	This is a concern as some members of our council have personal experience of the early days of "care in the community" when mental health patients were moved from residential to supported and again not all of these are positive.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15111	An individual	2c. Care for Adults	What is "supported accommodation" If homes with Warden certainly, but not the odd 10 minute visit from a care visitor.	Care for adults - supported accommodation	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15112	An individual	2c. Care for Adults	The removal of support to adults already vulnerable and needing support should be carefully considered. Removing elements of this support could ultimately end up with these individuals needing to access care through more expensive setting ie. Hospitals or residential care.	Care for adults - supported accommodation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15113	An individual	2c. Care for Adults	I think that assessment thresholds need to be reviewed regularly to ensure that services are accessible particularly to vulnerable adults.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly
15114	An individual	2c. Care for Adults	I hope this does not adversely affect adults needing care too much.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
15115	An employee of West Lothian Council	2c. Care for Adults	RECOMMEND A MOVE TO GENERIC COMMUNITY CARE SERVICES PROVISION. TO TRY AND ENSURE THAT UNDER IJB THE OPTIMAL SAVINGS IS MADE ON TRAVEL, DUPLICATION AND INTER AGENCY WORKING.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
15116	An employee of West Lothian Council	2c. Care for Adults	as above, older people can go days with any interaction with another human being. we are social animals and need interaction with others	Care for adults (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15117	An individual	2c. Care for Adults	process takes too long.	Care for adults (general)	4. The council is already doing this.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
15118	An employee of West Lothian Council	2c. Care for Adults	Do not put the vulnerable at risk to save money.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

15119	An employee of West Lothian Council	2c. Care for Adults	Social care services have to become much leaner and cost effective	Care for adults (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
15120	An employee of West Lothian Council	2c. Care for Adults	Any changes that can streamline processes and make savings for the council must and should be pursued.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
15121	An individual	2c. Care for Adults	Consultation with charities is required in this area	Care for adults (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
15122	An individual	2c. Care for Adults	Excellent, keep older people in their own homes for as long as they are able to look after themselves with day centres to allow them not to feel isolated in the community	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15123	An employee of West Lothian Council	2c. Care for Adults	I feel this needs proper assessment and discussion with service users and family's. I do not agree	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All stakeholders are being asked to participate in the consultation
15124	An individual	2c. Care for Adults	No people have different needs and need there own centres	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any redesign of day care services
15125	An individual	2c. Care for Adults	closing down again	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15126	An employee of West Lothian Council	2c. Care for Adults	The Linlithgow Partnership Centre has just been refurbished at substantial cost, partly to accommodate the Linlithgow & District Community Day Centre. Do these proposals affect this?	Care for adults (general)	3. The respondent advised that they had no comment to make.	Community Day Centres are not currently included in the proposal
15127	An individual	2c. Care for Adults	If you are talking about disabled adults you should say so this is misleading. How many people know what 'Pathways in Livingston' is?? I don't.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15128	An individual	2c. Care for Adults	Fab idea	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15129	An individual	2c. Care for Adults	I don't know much about this area but it does not sound like an area where cuts should be made.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15130	An individual	2c. Care for Adults	Another attack on those most disadvantaged. These facilities were set up to provide direct support to not only those affected but their families too. The families depend on this support to continue.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any decision to rationalise day centres will be taken with usage and alternative options in mind.
15131	An individual	2c. Care for Adults	Sds does not work for everyone and this is not always a robust system and need a lot of commitment from parents and carers to support this.	Care for adults (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15132	An individual	2c. Care for Adults	If more emphasis is to be placed on caring for people in their own homes rather than in established care homes it is important that the staff who are visiting and caring should have enough time to do a proper "caring job". A fleeting visit may be all that is needed but where the need is for longer time to be spent then that should be allowed for.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15133	An individual	2c. Care for Adults	day care facilities to close.... means a drop in evincesomeone will lose out	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15134	An individual	2c. Care for Adults	This is an essential service due to the number of elderly residents in West Lothian. Supporting independent living is critical for the wellbeing of the individual. I fully support care at home provision.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15135	An individual	2c. Care for Adults	I believe that families who can afford it should be asked to financially contribute to care provided.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
15136	An individual	2c. Care for Adults	I am unsure how this will save money as all these people still require care, wherever that care is provided.. Sale of land in Livingston is unlikely to raise 2.5 million pounds.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

15137	An employee of West Lothian Council	2c. Care for Adults	The elderly and infirm must not be discriminated against and their care put in jeopardy.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15138	An employee of West Lothian Council	2c. Care for Adults	Any changes must make sure that frontline service provision is not diluted. Again in this area there seems to be too many chiefs and not enough Indians. This not only reduces provision for those that need it the most, but can have a profound and life changing effect on individuals and their families. Any proposals in this area must be investigated thoroughly prior to any changes as the risks are too great to make a mess of this proposal.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
15139	An individual	2c. Care for Adults	As , I said , before , it is imperative that the Ability Centre , in Carmondean , be kept open . It is not possible to combine people with physical disabilities with people with learning disabilities ! Myself , ██████████ have had some experience in this field !	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15140	No Response	2c. Care for Adults	I feel strongly that our disabled citizens should be the most protected when it comes to cuts.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15141	An individual	2c. Care for Adults	Lumping people with a learning disability and a physical disability together in one resource is not acceptable to most people.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15142	An individual	2c. Care for Adults	There are serious issues with transport for people with physical disabilities preventing access to community involvement.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15143	An individual	2c. Care for Adults	See above. This is difficult, but the elderly needs to be the area where we look to save and invest this money into the younger people for the future.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15144	An individual	2c. Care for Adults	Some people in receipt of services and care will struggle with this concept and are afraid that it will make them more vulnerable.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
15145	An individual	2c. Care for Adults	"...in their communities" Be careful you don't enter Mrs Thatcher's 'care in the community' model which was, in effect, meant 'abandoned in the community'.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15146	An employee of West Lothian Council	2c. Care for Adults	Sounds like excellent changes to benefit adults who require care but can live independently with varying levels of support.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15147	An employee of West Lothian Council	2c. Care for Adults	In relation to SDS, a huge amount of money is spent on transport. If the council put on transport, and even introduced subsidised charges, this would save a fortune.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
15148	An individual	2c. Care for Adults	Love self directed support, as long as it is properly introduced	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15149	An employee of West Lothian Council	2c. Care for Adults	Again need to ensure the correct resources and services are in place to prevent further pressures on other service areas.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15150	No Response	2c. Care for Adults	People who receive High rate premium benefits should pay more towards their own care.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
15151	An individual	2c. Care for Adults	Poor service currently and now poor changes proposed.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15152	An individual	2c. Care for Adults	Where does mental health care fit into this?	Care for adults (general)	3. The respondent advised that they had no comment to make.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place. This applies to mental health services as part of adults services.

15153	An individual	2c. Care for Adults	What about services for individuals with mental health needs? Where are they to go? There is an extreme lack of provision for them currently and does not look like it is going to improve	Care for adults (general)	3. The respondent advised that they had no comment to make.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place. This applies to mental health services as part of adults services.
15154	An individual	2c. Care for Adults	Centralised into a single location rather than losing the service is better.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15155	No Response	2c. Care for Adults	I know about SDS but not sure how effective this has been . All for people having more control over their care but is this efficient and would there be fewer spaces for them in need .	Care for adults (general)	3. The respondent advised that they had no comment to make.	The proposal aims to provide support in people's communities rather than in centralised buildings
15156	An employee of West Lothian Council	2c. Care for Adults	Reduce and remove anything which is not statutory.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15157	An individual	2c. Care for Adults	As a user of the Ability Centre I absolutely do not agree with this saving proposal.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15158	An individual	2c. Care for Adults	The service should be maintained and improved. I do not support this strategy.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15159	An employee of West Lothian Council	2c. Care for Adults	Agree -and low and moderate should be provided with support to engage with more mainstream services taking a local area co-ordination approach-possibly re-provisioning day services to do this.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
15160	An employee of West Lothian Council	2c. Care for Adults	Anything that makes life more community based must be better than institutionalised services.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15161	No Response	2c. Care for Adults	can only be a good idea to look at a case by case basis rather than a blanket approach to all people in need of care.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15162	An individual	2c. Care for Adults	Again rationalisation is OK but the question "why hasn't this already been done if it improves service delivery?" is valid. The Council should not be doing this purely to save money.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15163	An individual	2c. Care for Adults	Again carers must be given enough care time for each individual.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15164	An employee of West Lothian Council	2c. Care for Adults	Self directed support is good if people know what they need not just what they want.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
15165	No Response	2c. Care for Adults	Maintain a good care system.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15166	An individual	2c. Care for Adults	This would be ok as long as caring staff have been trained properly	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15167	An individual	2c. Care for Adults	Requires careful consideration regarding impact on people's lives.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15168	No Response	2c. Care for Adults	You are not giving thought to the fact that you are putting learning disabled, special needs and adults with physical disabilities into the one building.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
15169	An individual	2c. Care for Adults	this is an much use service	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15170	An individual	2c. Care for Adults	Some adults may not be able to self directed care so the whole care packages needs looked at	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15171	An employee of West Lothian Council	2c. Care for Adults	SDS seems very positive as it is clearly re-introducing an element of control which may have long since been missing from these people's lives. However, I wonder how closely is this monitored to ensure that what people 'want' is also what they 'need'.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15172	An individual	2c. Care for Adults	There seems t be an onus on families taking more responsibility of the care of their elderly parents- now some can and do do this but other families need to work just to just make ends meet financially for themselves. Perhaps the short view taken previously to close the smaller community hospitals wasn't best thing to do.	Care for adults (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15173	An employee of West Lothian Council	2c. Care for Adults	Not supporting those who need it the most is a despicable way to save money.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15174	An employee of West Lothian Council	2c. Care for Adults	Change is something which vulnerable people find challenging at best and extremely distressing at worse.I have grave concerns about the potential health ramifications both physically and mentally on changes to this area of provision	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15175	An individual	2c. Care for Adults	Sounds reasonable as long as no reduction in the numbers of people that can access the service is the result.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15176	An individual	2c. Care for Adults	Self directed support - local government unable to do what they promised and offloading the problem onto others and reducing the funds available to do so. Quote ' Changes to the sleepover model, including greater use of technology and sharing resources with other providers, are also proposed.' Cutting back of what was already a cutback from people actually on waking duty night shift.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Self directed support allows people to select the way they want their assessed needs to be met, with council run day care being only one option. There has been no cutback to people on waking night shifts to date.
15177	No Response	2c. Care for Adults	Disagree. This population have a high ratio of non engagement with services due to barriers to access services as reasonable adjustments are not made to support people accessing services. I do not agree with this proposal and have signed a petition to object to these changes.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15178	An individual	2c. Care for Adults	Fails to address the failings in the existing national care Home contract, which unless funded to a higher level could see greater pressure on local services.	Care for adults (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15179	An individual	2c. Care for Adults	Provided this will not affect those using the services either in how they get there or disorientating them too much with the change, it sounds sensible	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15180	An individual	2c. Care for Adults	This service should not be cut while other discretionary activities continue in the Council.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15181	An individual	2c. Care for Adults	Care should be provided to those who need it. Means testing is all very well but will it affect the level of care a person gets?	Care for adults (general)	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly

Transforming Your Council Consultation 2017

15182	On behalf of a Group/Organisation	2c. Care for Adults	Pathways facility is designed for those with learning disabilities, but does this facility meet the needs of those with other disabilities i.e. physical disabilities. Is there capacity at the Pathway building to accommodate all the groups who currently use the existing three facilities who currently deliver bespoke services. What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? I currently volunteer at The Ability Centre and this allows me to contribute to the community and reduce my feelings of isolation. Have the users of each of the facilities been consulted so that you are aware of the benefits that these current services provide, equally are you aware of the negative impacts these closures could have on the groups and communities who currently use them. The Ability Centre has been under utilised in recent years due to the withdrawal of key services. When the facility first opened it was seen as a flagship facility and the council was praised for its forward thinking in terms of providing many bespoke services and general council services that catered for many groups within the same facility and also focused particularly on those with physical disabilities. Other local authorities visited the facility as an example of best practice and a model to follow. What are the local solutions you are considering and what consultation have you done to in relation to this. Young people transitioning into Adult Services - The manipulation of Self Directed Support is preventing people from accessing services that are in the community, but equally prevents me/us from accessing the particular care we need due to costs, we don't have a true choice in terms of the care I/we need. How are these savings going to help and support those transitioning into Adulthood considering the rise in people with additional support needs. If you decide to close the ability centre in its current form, would you consider using it as the community centre and close the current Carmondean community centre which is inaccessible.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15183	An individual	2c. Care for Adults	adults need protected not cut look at all your unit managers first and your manger to over see the manager	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
15184	An individual	2c. Care for Adults	That said any opportunities to make savings by sharing services with other Councils or 3rd parties should be explored, but the front-line services should not be reduced or diluted.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15185	An individual	2c. Care for Adults	Self directed council assessed support. It might work.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15186	An individual	2c. Care for Adults	Will transport to day care facilities be provided if this is only going to be offered in Livingston? As one of the busiest towns in West Lothian, already hosting the local hospital, main council building and shopping areas, perhaps it would be wise to base this somewhere else if only to ease on traffic congestion and time.	Care for adults (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15187	An individual	2c. Care for Adults	SDS option 1 is being used across Scotland where council struggle to meet local need as well as by people who actively desire option (this is based on feedback from personal as well as professional networks) . Also SDS is about more than day care. I support more local options but what are these- are you looking at shared lives options whether that be about respite, practical and befriending help? How are you supporting the development of option 1 and 2 in a time of a home care recruitment crisis? Are you paying of an hourly rate that will attract people have worked in supermarkets . How might hours and staff be pooled in localities and shared with NHS community nurse ' teams to provide more seamless and less service siloed care? There is a Dutch model that seems quite successful and about to be piloted by the IJB in Aberdeen -this Guardian article gives good overview(https://www.theguardian.com/social-care-network/2017/may/09/buurtzorg-dutch-model-neighborhood-care).	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15188	An individual	2c. Care for Adults	This must be made as individual as possible. Do not blanket conditions and tar all those with that with the one brush. Each person must be assessed and seen as an individual case.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
15189	An individual	2c. Care for Adults	Our elderly have paid for and deserve the best of care from the local authority	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15190	An individual	2c. Care for Adults	Ensuring care providers have enough staff to cover the need of the adults i.e. staff only having a short time to put someone to bed or give them medication. In my view this can lead to older people being treated as a commodity and not as a human being and in some cases leading to medication not being administered or a person's personal care needs not being fully met.	Care for adults (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15191	An individual	2c. Care for Adults	Be very wary of reducing direct care providers. Care is a basic need and efficiencies should be looked at in the higher echelons of management and worked from top to bottom as opposed from bottom to top. More boots on the ground are required, not less.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
15192	An individual	2c. Care for Adults	Care should be required for vulnerable elderly tenants who need it. More and more younger people who have led abusive lifestyles and continue to do so are accessing services primarily designed for the elderly. These cases should be reviewed and more appropriate care settings provided. Those who can still work should not be in a care setting. If there is harassment issues local council housing officers should deal with it using an integrated approach with police and neighbourhood response.. Care cannot effectively be replaced by technology...or sub- standard care agencies.	Care for adults (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	We are required by law to cover work which some people may not agree with. In relation to integrated working West Lothian has a proven track record of partnership working and will continue to build on this.
15193	An employee of West Lothian Council	2c. Care for Adults	I don't think that a lot of these clients are capable of self directing their support.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Self directed support enables people to direct their assessed eligible care from four options and people can elect for the council to arrange it on their behalf as one of the self-directed support options
15194	An employee of West Lothian Council	2c. Care for Adults	This all sounds so plausible, but in most cases the elderly enter full time care because part time care & family care has become impossible to meet their needs. What then??	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15195	An individual	2c. Care for Adults	Care for Adults Estimated Saving: Â£2.5 million The introduction of self-directed support, where individuals can make choices regarding their care packages, has seen a change in the nature of services requested. Incorporating the change in demand, there is a greater need for outreach interventions therefore it is proposed that day care facilities currently provided at three different locations are combined into one at Pathways, in Livingston. I do not understand why the vulnerable members of our society are left to try and cope on their own with NO help and NO support.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15196	An individual	2c. Care for Adults	Adults should be given the Care THEY ask for, however that can be achieved	Care for adults (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
15197	An employee of West Lothian Council	2c. Care for Adults	More pro-active push of self-directed support should be facilitated. For the most part, it has been a positive policy development and can save the council money while provide higher levels of care and engagement for clients.	Care for adults (general)	4. The council is already doing this.	All clients who are assessed through community care services are offered options in how they wish any assessed eligible need met via the four self-directed support options

15199	An employee of West Lothian Council	2c. Care for Adults	SDS allows for more flexibility. There is a need for private agencies who work to a high standard and if this was to be used more flexibly they would need to be sought out.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15200	An employee of West Lothian Council	2c. Care for Adults	Not a great saving and I expect the cost will be passed on once again to the residents who can afford to pay. As noted before.... Personally I don't think there is enough funding to support the elderly in need of care and I hope this is not the same old story - means testing and the individuals who have worked to save for their old age end up paying for care and the individuals who have spend all their money get everything paid for them or for nothing.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15201	An employee of West Lothian Council	2c. Care for Adults	Again I would emphasise the element of loneliness in this group and welcome these changes with the caveat that the holistic approach should be undertaken and ensure quality of usable service provision. The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15202	An employee of West Lothian Council	2c. Care for Adults	Providing social and emotional support through day care facilities is vital to the mental health well being of the elderly population.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15203	An individual	2c. Care for Adults	It would have been helpful to have been presented with any evidence for these changes. As things stand it just looks like change for the sake of cost cutting.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

15204	An individual	2c. Care for Adults	makes good sense as long as support network is not diminished altogether	Care for adults (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15205	An individual	2c. Care for Adults	As long as the service provided is not compromise and technology is not used to cut staff then I have no objections to this.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15206	An individual	2c. Care for Adults	Having supported my mother-in-law as she suffered from dementia I appreciate how the council services are vital in this regard. I wouldn't want any cuts made to this particular area. It's frightening to think what the future holds for other people needing social care.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15207	An individual	2c. Care for Adults	I would have thought that Self Directed Support was in its infancy. The above feels wishful. Local solutions will be developed means you don't know how you will meet the savings targeted.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15208	An employee of West Lothian Council	2c. Care for Adults	Agree with this proposal though it would seem cruel that those that are most in need of support are having much valued services removed. I would rather see reductions in other areas.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15209	An individual	2c. Care for Adults	The difficulty we have with care is that there is a huge initial cost to be able to provide all current services through council but due to the ever growing old and young population within West Lothian.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15210	An individual	2c. Care for Adults	In theory this all seems positive however in these instances Council must be guided by the professionals at the "coalface".	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15211	An individual	2c. Care for Adults	Once care/respite facilities are closed it is unlikely that they will be reopened.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15212	No Response	2c. Care for Adults	Another service being reduced?? Have the number of people that require this service reduced this dramatically? Or will people now be forgotten?	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15213	An individual	2c. Care for Adults	Does this mean disabled adults left to cope with increasingly short visits to ensure safety.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15214	No Response	2c. Care for Adults	Choice obviously means additional cost, ask the Scottish government for more money!!	Care for adults (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15215	An individual	2c. Care for Adults	As a parent of a child with severe disabilities I have always been saddened by the fact that ADULT provision of care has not kept pace with medical advances that allow children with severe and complex disabilities to live longer. For example my daughter currently attends Beattie School full time and receives [REDACTED] through NHS Lothian. When she reaches 18yo her full time educational placement will stop to be replaced by what we don't yet know. Also her paediatric residential respite place will be withdrawn. This will not only disadvantage my daughter socially - she is a very outgoing child who loves spending time with peers - but also in terms of the care that my husband and I, currently in our early forties, can provide at home. Adults with complex care needs need MORE not LESS social care provision: also their MEDICAL care needs will increase. Also I currently work part-time for WEST Lothian COUNCIL as a Pupil Support Worker, working largely one to one with a child with Attention Deficit Disorder. It is likely that I will have to leave my job when my daughter leaves full time education, taking my skills and experience with me, to the disadvantage of other children.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

15216	An individual	2c. Care for Adults	People still need support and I know people who have lost their jobs as a result!	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15217	An individual	2c. Care for Adults	Care in own home is best	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15218	An individual	2c. Care for Adults	My daughter is [REDACTED], she is [REDACTED] and has a learning disability. She uses local services such as New Visions 2 days per week and a support worker from here also supports her to attend college. If this service was cut and she could no longer be supported then I would no longer be able to work to support my family. So any cuts in this area would have a significant negative impact to us.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15219	An individual	2c. Care for Adults	As we are currently struggling to support people in their own home just now I cannot see this as being a good strategy. The current service provider supporting my daughter regularly struggles with staffing issues. The quality of staff provided is poor and the management of the organisation is very inexperienced. We are currently waiting on another organisation to support her on a Sunday and have been since June without success. So I am astonished you think this is the answer. Self directed support may work for some but not all.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15220	An individual	2c. Care for Adults	If the individual understands where to get and what appropriate care is available. People need staff who are properly trained to help and advise them.	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15221	An individual	2c. Care for Adults	Should be streamlined where possible while maintaining standards.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15222	An employee of West Lothian Council	2c. Care for Adults	Again there is also a need to focus on preventative measures - eg promote active aging and tackle the causes that could lead to age related conditions that require care provision.	Care for adults (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15223	An individual	2c. Care for Adults	As above, Care Homes in West Lothian are closing down, they should be kept open and supported financially. Not everybody can stay in their own home and be supported. Many elderly need 24 hour care for the bathroom, washing and cleaning. Support in the home is usually a 15 minute visit, it's usually not enough. This Care for Adults has really got to be looked at in greater detail. Self directed support does not work all the time.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15224	An individual	2c. Care for Adults	Yet again a rethink is required when looking to the care services provided the required cuts. The impact of failures in the care provided to people with special needs is devastating.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15225	An individual	2c. Care for Adults	It's all good and well caring for older people within their own homes but carers are afforded so little time that a comprehensive service cannot be fulfilled.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
15226	An employee of West Lothian Council	2c. Care for Adults	protecting vulnerable adults should be protected.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15227	An employee of West Lothian Council	2c. Care for Adults	The companies who provide carers need to improve their services if this is to expand. Just now there is not enough carers, they get very poorly paid and can be working up to 90+ hours per week. For this to work care providers need to increase their wages to attract good reliable workers.	Care for adults (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15228	An individual	2c. Care for Adults	West Lothian Council and NHS Lothian failed my mother-in-law during the last weeks of her life. Her discharge from hospital to spend her last weeks in her own home were delayed by the inability of the Council and the NHS to put in place a care package. We received a letter to confirm the care package the day after she died. I have very limited confidence in West Lothian Council to deliver care services.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The respondent's experience is noted with regret. Ensuring that the right provision is available at the right time is a major priority for us. The Council and NHS Lothian have embarked on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services with our care providers.

15229	No Response	2c. Care for Adults	I am against cuts being made that affect adults with disabilities. They have already been dealt a poor hand and deserve the best help possible. I have a disabled son who is [REDACTED] and he has in the past enjoyed great service from the Council. When I speak to people from other areas they are impressed with the variety of help available. I think it would be a mistake to lump every person with a disability together in one centre, as if they were all the same. Everyone has individual needs and abilities and like different activities. My son has a service provided by the Inclusion Team based at Lister Road, Livingston which he attends 5 days a week. He depends on this Team for both his physical and mental wellbeing. He goes swimming, takes part in gym activities such as weight lifting, running machine, cycling machine etc. Because of his disability (balance, co-ordination) there is no way he could cycle or run on the open road. He goes out into the community and is taught the skills needed to cross the road, to buy items in a shop, handle money, self-travel, use a bank etc. Because of the client needs these skills have to be continually stressed and re-taught. The teaching is ongoing. I believe if the Inclusion Team Services were to be removed then my son and others would suffer both physical and mental set-backs if left to sit at home. Most parents have to work to support their families and would not be in a position to provide support during the day, or like myself are in their 70s and not able to be so active. Lack of physical activity and mental stimulation would lead to ill health and added stress on the NHS. On a personal note my son I believe deserves help from the community. In the past he was a member of the WRVS, and helped to deliver Meals on Wheels when they were delivered daily by car. He also pushed a WRVS trolley round St John's Hospital selling products to patients. He was not able to handle money, and only gave up this activity when the man he assisted had to give up due to ill health. He has been awarded his WRVS 10 year service medal. I believe people like my son deserve the appropriate help in the community and they are an easy target when looking for ways to save money. I would be pleased if you could look favourably on this appeal to save services to vulnerable people.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15230	An individual	2c. Care for Adults	Surely the most vulnerable group of citizens in our society are persons who through no fault of their own are born with severe and complex special needs, who are unable to fully express opinions and who will rely on 24/7 care throughout their lives. Our [REDACTED] daughter is one such citizen and since birth we have been very appreciative of the care provided by WLC through school years and onto residential placement. It would be our wish that this care is not compromised as financial pressures become increasingly challenging. It is therefore our hope that the Council will give us the comfort we seek as ageing parents in knowing our daughter is given every opportunity to live in a safe, comfortable and happy environment with the right level of support to allow her to flourish and develop her full potential. We're sure you will understand that this element of Social Care provision is very very close to our hearts and we will be watching developments closely on behalf of our special daughter.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15231	An individual	2c. Care for Adults	As 1A no actual measurement or definitive target. How will residents know when this is achieved? As 1A no actual measurement or definitive target. How will residents know when this is achieved?	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15232	An employee of West Lothian Council	2c. Care for Adults	surely this will increase the need for vehicles for safe transport, maintenance, fuel, insurance and drivers so costs will change not decrease as these are ongoing and degenerative costs on the council likely to go up and now down	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15233	An employee of West Lothian Council	2c. Care for Adults	Not sure that this is the best idea. To centralize a service can mean that those who do not have easy access to it (due to the location and their disabilities) can feel marginalised.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

15234	An employee of West Lothian Council	2c. Care for Adults	This will no doubt reduce the amount of clients getting support and cut staffing levels. There is not enough information provided on this statement, but further investigation and research should take place to see what each centre provides and the affects of moving them into one building. I don't believe this is the answer and people will lose facilities that make a huge difference to their lives. Care is important and if Council tax needs to be raised to help the funds for this then it should be. It would not need to be raised very much to cover 2.5 million given the amount of properties in West Lothian.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15235	An individual	2c. Care for Adults	Again need to ensure any decisions made does not impact om the elderly/care packages	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15236	An individual	2c. Care for Adults	This service is already under strain . Doubtful that significant savings is possible.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15237	An individual	2c. Care for Adults	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15238	On behalf of a Group/Organisation	2c. Care for Adults	More detail required. Loneliness is a major issue for the elderly and other isolated and disadvantaged groups. The TUS are concerned that this will impact on some of the most vulnerable in society.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15239	An individual	2c. Care for Adults	Please publish these proposals.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15240	No Response	2c. Care for Adults	Maybe need to make your services ready to read online so people have an idea of services supplied because it doesn't seem very clear what they are unless you are already in the know. And not to many people would go into the council and ask	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15241	An employee of West Lothian Council	2c. Care for Adults	Happy with this proposal but again individuals whom had a higher level of support would perhaps feel vungerable initially at least.....	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15242	An individual	2c. Care for Adults	I think every opportunity should be taken to encourage people to responsibility fir themselves. We do not want to be taking over the running of lives , but rather support families who try to be independent.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15243	An individual	2c. Care for Adults	Happy to rationalise services. However would ask that the remaining service provision doesn't always need to be in Livingston.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15244	An individual	2c. Care for Adults	I believe that adults only need Care if they are mentally or physically disabled or is in need of Care in the ealderly	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15245	An individual	2c. Care for Adults	Again staffing important.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15246	An employee of West Lothian Council	2c. Care for Adults	Families should be encouraged to care for their own families wherever possible. Although this is not always an option due to complex care needs, families need to be actively encouraged to care for their own adult family members.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15247	An individual	2c. Care for Adults	Not sure everyone can self direct and self support even with some intervention and support.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

15248	An employee of West Lothian Council	2c. Care for Adults	I believe there could be lots of small changes made to accumulate on an overall large saving	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15249	An individual	2c. Care for Adults	After the first sentence I don't even understand this, yet I know it is relevant to me. I would think self directed support is maybe less expensive than what came before as it is more tailored to requirements? Maybe does not need expensive buildings and transport and more trained staff to simply watch over the person requiring care, allowing their carer to improve their own health. Perhaps.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15250	An individual	2c. Care for Adults	I agree with supporting "at home care" but have significant concerns this could result in reduction of respite sleepovers to allow carers some time off. Further, once care and/or respite facilities are closed it is unlikely they would be reopened.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15251	On behalf of a Group/Organisation	2c. Care for Adults	Again, concerned about the impact on carers as stated in 2(b).	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

West Lothian Disability Club	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15253	An individual	2c. Care for Adults	Self directed support is not for everyone and sometimes it is simply the safety aspect of a service that people want.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15254	An individual	2c. Care for Adults	I would agree there is a greater need for outreach interventions, but concerned about the impact on those services users and their carers who benefit from the supported provided through Day Care. Any estimated cuts will need to take into account the new Carers Act, and the support offered to carers and other significant people.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. Care for Adults	This may have a huge impact on people living in more remote areas of West Lothian where the public transport services are limited e.g. Bridgend.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15256	An individual	2c. Care for Adults	Community Councils might take a greater role in this.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15257	No Response	2c. Care for Adults	This is an area that should be developed. Providing support in communities is one that "d support.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15258	No Response	2c. Care for Adults	I think that this is going to cause mayhem and unrest, particularly once again to most vulnerable residents in West Lothian. I think individuals making choices on their own care packages is a fabulous idea. On the contrary if demands for outreach services has a greater need it does not make sense to pull all provisions together (no doubt somewhere in Livingston) - where once again vulnerable adults / older people will have longer, more frustrating days with extending travelling time etc. Lets face it the people who use these services deserve to have a local welcoming service, potentially with integration opportunities as opposed to pulling them altogether - this has the potential to incur a number of challenging behaviour as well as disengaging from current services.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15259	An individual	2c. Care for Adults	Statutory services should be provided.	Care for adults (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
15260	An individual	2c. Care for Adults	Local solutions good - but require proper funding. Look what happened when long term residents were released from mental institutions into the community in the 80s without proper provision.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15261	An employee of West Lothian Council	2c. Care for Adults	I agree with the proposal subject to it being undertaken on a risk based approach and families having adequate capacity to cope with full time care of a dependant.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15262	An individual	2c. Care for Adults	As above. A public consultation is needed here specifically to discuss these proposals. Having cameras in place of carers is likely to result in vulnerable persons facing further isolation.	Care for adults (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
15263	On behalf of a Group/Organisation	2c. Care for Adults	Who has the council consulted with in relation to the proposals? Specialist services? Staff from the services affected? Do the council realise the stress that they are putting parents/carers and the clients through. How their disabilities can make them less able to cope with stress and the impact this has on a family trying to cope with day-to-day living. Shutting services down has impact on client and family members. Detrimental on people mental and physical health. What about the council's duty of care are they adhering to legislation in relation to these changes? Concerns around the capacity of Pathways (Quigley House)? Registered with Care Inspectorate for 85 persons per day. Amalgamating the services would take it above this threshold. Has health and safety been considered/looked at in respect to people with disabilities and the equipment used by them in relation to the amalgamating services. In relation to the current proposals what plan is there for staff provision, as this is already stretched? Comment: Quality of care provided by Third Sector Organisations is poor in relation to the service provided by council social care services. They don't have as much training and don't adhere to policies and procedures as fully as the council services do. Making people's choice of support harder knowing that they won't receive such a good service from these other organisations. Feeling that the consultation is a rubber-stamping exercise a plan is in place already to close day care facilities and amalgamate them. Different support services provide a specialist service, along with specialist staff. Putting all the disabled people together this will be lost. Lack of consultation within the disabled community before consultation paper has been distributed clients, carers and professionals. Lack of details in consultation paper to make comments. Would like to speak with local councillors, for them to come and speak with us. Questions around why the consultation is focusing around disabled people who are always targeted, and are vulnerable and need support. What about the current respite provision for Adults is it likely to change? They need to manage their money better to stop refurbishing buildings and amalgamating services and just renovate the current buildings services are in. Who has come up with the proposals? Do they have democratic authority to propose consultation? When will we find out the response to the consultation? How long do we have to wait? When is the next public consultation to discuss this, as there hasn't been any so far?	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15264	An individual	2c. Care for Adults	The focus should be totally on providing support to allow older people to maintain their independence and not having to go into care homes unless unavoidable.	Care for adults (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
15265	An individual	2c. Care for Adults	The need for specialised care is bound to increase and people would be happier to live at home with assistance.	Care for adults (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
15266	An individual	2c. Care for Adults	Pay carers more money for the difficult emotional and physical work they do.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15267	An individual	2c. Care for Adults	Has there been an Equality Impact Assessment carried out on the impact of these proposals as the council has an Equality Duty to undertake EIA's when making an change in policy in relation to people with a disability?	Care for adults (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15268	An individual	2c. Care for Adults	2c Absolutely opposed to self directed support care packages. this has been a disaster for many people and local authorities in England. Clients can not procure services from care companies as it is not financially positive for care companies. Care companies are often taking on care if it is lucrative and self directed support care packages can not pay for expensive care services.	Care for adults (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Self directed support gives people choice in how they wish their eligible assessed needs to be met. Services are commissioned by the local authority to meet the needs of people who elect to choose the option for council arranged services
15269	An individual	2c. Care for Adults	Why have you been wasting so much of our money up to this point?	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15270	An employee of West Lothian Council	2c. Care for Adults	Contracts should be managed effectively to ensure that purchased services are delivered appropriately and meet the needs of service users. When designing contracts the advice of support services should be considered. Due to self directed support, it is difficult to see how the council can guarantee the volume of care services which will be purchased. What support will be given to providers?	Care for adults (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15271	An employee of West Lothian Council	2c. Care for Adults	More needs to be done for adults with ASN/disabilities and elderly adults. If external funding is reduced the level of services available will also be limited as partners who receive external funding will have to reduce services also again putting further pressure on families/carers.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15272	An employee of West Lothian Council	2c. Care for Adults	How many people have actually opted for SDS? Support is crucial for families caring for the elderly and most vulnerable in our society	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self directed support gives people choice in how they wish their eligible assessed needs to be met. Services are commissioned by the local authority to meet the needs of people who elect to choose the option for council arranged services
15273	An individual	2c. Care for Adults	Individuals who make choices regarding their care packages should be guided.	Care for adults (general)	4. The council is already doing this.	Self directed support gives people choice in how they wish their eligible assessed needs to be met
15274	An employee of West Lothian Council	2c. Care for Adults	Also, it may be useful for the Council to review the costs charged by outside agencies, as many are claiming to be specialist and are therefore charging a significantly higher cost per hour, therefore using up SDS budgets in an inefficient way.	Care for adults (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15275	An individual	2c. Care for Adults	There are lots of great staff on the ground but the organisation and management in care needs a complete review/ restructure and bring in some business minds. It would be good to have a full breakdown of how the money is spent in care.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15276	An employee of West Lothian Council	2c. Care for Adults	Council should prioritise better on the needs of people within the community that need support and services more	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15277	An employee of West Lothian Council	2c. Care for Adults	It is the most vulnerable members of our society potentially affected by these proposals and not clear what is meant by 'local solutions'. One size fits all is often not appropriate for all adults with specific care needs and any solution needs to take cognisance of what is in best interest of person with needs and their families	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15278	An individual	2c. Care for Adults	Equality Impact Assessment Cost savings seem to be prioritised over the needs of individuals and families that ARE VULNERABLE AND NEED HELP	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15279	An individual	2c. Care for Adults	As long as self support doesn't mean no support that sounds fine.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15280	An individual	2c. Care for Adults	Home support reduces the cost of care in institutions and should be given greater thought	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15281	An individual	2c. Care for Adults	As above and do the people fully understand the choices they have to make.	Care for adults (general)	4. The council is already doing this.	Self directed support gives people choice in how they wish their eligible assessed needs to be met

A business approach is what is needed to ensure the correct spending on items needed is controlled.	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15283	An individual	2c. Care for Adults	As long as people are safe and adequately cared for it makes sense	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15284	On behalf of a Group/Organisation	2c. Care for Adults	As above, care costs are expensive but streamlining cannot result in poorer care. Care workers are often some of our lowest paid, sometimes resulting in poor care standards. Robust quality standards need to be in place to ensure care quality is high.	Care for adults (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15285	No Response	2c. Care for Adults	The new framework is leaving vulnerable people without support for prior to a provider picking up the package of care. This is an other incident of situations resulting in crisis and costing more money.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
15286	An individual	2c. Care for Adults	Livingston is not the centre of the world of West Lothian! Central government is following a strategy of de-centralisation. Local councils should do likewise in order to spread the working opportunities for its population throughout its area of responsibilities. Linlithgow has been targeted by West Lothian Council for many years with extensive tranches of services 'combined or transferred' to Livingston. This does not make for happy 'inclusive' communities in West Lothian.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The three day care centres are all currently in Livingston

15287	An individual	2c. Care for Adults	Look at what other areas have done	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15288	On behalf of a Group/Organisation	2c. Care for Adults	This is a very contentious issue and by closing down services or locations West Lothian council run the risk of alienating venerable members in the community from interacting with similar like minded people and potentially making them more housebound. There is no guarantee that these vulnerable people will use or have at their use public transport to allow them to attend pathways.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15289	On behalf of a Group/Organisation	2c. Care for Adults	Re: West Lothian "transforming your council" Consultation (as outlined in WLC Bulletin Paper Issue 83). At an ██████████ ██████████ Pathways/Quigley House, 8th November 2017, it was unanimously decided, by those attending, that a statement be made vigorously opposing proposed changes as described in 2c: Care of Adults, particularly the potential amalgamation of three facilities (Pathways, Eliburn and Ability Centre) into Pathways. It is known from the experience of the attendees that these 3 centres are the result of previous optimisation/amalgamation/cost-cutting exercises by WLC, with the likes of Clarendon and Blackburn closed and disposed of. It is to the dismay of the group that the most vulnerable adults be targeted once again, and so soon, with the resultant anxiety and uncertainty for service users, parent-carers and, not least, the hard-working, caring and dedicated council employees, and associates, the Pathways community rely on. The group were staggered to learn that no attempt appears to have been made by WLC, in preparing these proposals, to engage with the expertise of the Pathways community and stakeholders. It is not apparent, from the inadequate detail and form of the consultation, if there has been any expert rationale or input to, what the attendees considered to be, this totally unacceptable and unworkable proposal. Or, indeed, who in the council is responsible for it. So, it is suggested that the whole process be withdrawn or, at least, halted until the council fully explain their reasoning to the whole Pathways community with their support professionals. Finally, this "Pathways" group statement should be considered along with any submissions and petitions from the other centres' service users and communities, who, due to the imposed and limited consultation timescales, have not yet been engaged by the Pathways community.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15290	An individual	2c. Care for Adults	Don't know. So complicated - a maze of people out there. How can you self direct without support. The vulnerable people of today will end up more vulnerable.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self directed support gives people choice in how they wish their eligible assessed needs to be met and does not relate to any one specific service
15291	An individual	2c. Care for Adults	Again Money is continually wasted on the elderly, i fully support that this service should be targeted and savings made	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15292	An individual	2c. Care for Adults	Fine with this, but need to protect the most vulnerable people	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15293	On behalf of a Group/Organisation	2c. Care for Adults	Agree where this meets the needs of the individual	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15294	On behalf of a Group/Organisation	2c. Care for Adults	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Care for adults (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15295	An individual	2c. Care for Adults	SDS correctly focuses on choice and control by the supported individual regarding how, where and by whom the support they require is delivered. However given the reduced resource available to WLC to deliver this support, there must be a more 'adult' conversation between council staff and the supported individual to priorities need within the available resources.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
15296	An employee of West Lothian Council	2c. Care for Adults	The Council has a duty to care for our most vulnerable. These decisions will cause serious consequences	Care for adults (general)	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.

15297	An employee of West Lothian Council	2c. Care for Adults	I think we shouldn't be outsourcing this as I feel this would exceed costs, this needs to be centralized into something West Lothian Council Based.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this.
15298	An individual	2c. Care for Adults	It would be good to see what the 'local solutions' are - they might be worse than current day care?	Care for adults (general)	4. The council is already doing this.	Supported accommodation models where people have their own tenancy
15299	An individual	2c. Care for Adults	This is one of the bones of contention I have heard about and very few people believe it is a good move so would oppose it on the basis of causing hardship for the people involved. Again perhaps better budgeting in the past would have served better.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15300	An individual	2c. Care for Adults	As above comment. Lets hope the Quality of care is still provided.	Care for adults (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
15301	An employee of West Lothian Council	2c. Care for Adults	Whilst the introduction of self-directed support has indeed led to greater choice and requests for a wider range of support, it has not replaced the need for people to have local services and supports to choose from - it is perhaps more appropriate to consider whether or not service re-design rather than closure may be more appropriate with people contributing towards the cost of the service following the introduction of the proposed contributions policy.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15302	An individual	2c. Care for Adults	I know savings are needed but support is still needed in this area.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15303	An employee of West Lothian Council	2c. Care for Adults	It is imperative that consideration is given to ensuring a sensible approach, in terms of recognising the importance of low level/preventative services, which will reduce costs in the long-term.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15304	An individual	2c. Care for Adults	I think this will only work if you have the staff to carry out the outreach interventions. I think more detail on how this will work is needed before a reasoned comment can be made	Care for adults (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15305	An individual	2c. Care for Adults	Outreach' to me sounds like an increased cost to the Council over carrying it out in-house. Is it possible to have an in-house team that can carry out this service?	Care for adults (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15306	An individual	2c. Care for Adults	There is not currently sufficient supported residential accommodation for the young disabled with complex care needs. In these circumstances the council should make use of external residential facilities, rather than leaving residents of west Lothian at home in unsafe/unsupported conditions.	Care for adults (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15307	An individual	2c. Care for Adults	I feel that this very important. I feel that more should be done for older people.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15308	On behalf of a Group/Organisation	2c. Care for Adults	We understand that Self-Directed Support is a term that describes the ways in which individuals and families can have an informed choice about the way support is provided to them. It is understood that this is going to be largely in their own home. However we have major concerns if this will result in a reduction in respite sleepovers to allow carers some time off. Once care/respite facilities are closed it is unlikely they will be reopened.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15314	An individual	2c. Care for Adults	I don't think I should pay for my care & only taking on 'high risk' individual families/individuals will no doubt leave people with a poor quality of life & looking for the support they need. I won't stay in supported accommodation or visit a day care facility! I am not fit or mentally well enough for this.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
15315	An individual	2c. Care for Adults	Respite services should not be cut - in fact, more places are badly needed. Only 5 rooms are available at Limecroft care home, Dedridge, Livingston. Carers & day centre staff are marvelous.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15316	An employee of West Lothian Council	2c. Care for Adults	Likely to increase demand for adaptations through OT budget.	Care for adults (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15317	An individual	2c. Care for Adults	This idea should Be completely scrapped and forgotten about	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15318	An individual	2c. Care for Adults	Where can we save money on an important issue. SNP should be ashamed!!!!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15319	An individual	2c. Care for Adults	Day care facilities may be the only contact these vulnerable people have in their life. Cutting them down to just one service in Livingston may mean they are no longer able to access this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15320	An employee of West Lothian Council	2c. Care for Adults	And if theyâ€™re not critical but need help?? What happens then. My mum has dementia and currently lives with me but this cannot continue forever as the impact on my children has been huge. They are scared and unhappy. My mum has worked all her life paying taxes and national insurance, you tell me why she should not get care?	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15321	No Response	2c. Care for Adults	Not acceptable	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

15322	An individual	2c. Care for Adults	Absolutely not.... They need to have self directed support to access appropriate that the council can find or support.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15323	An individual	2c. Care for Adults	I'm not sure centralising this is a good idea. It may become less personal. All areas have slightly different demographics and I think centralising is a negative in this case	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15324	An individual	2c. Care for Adults	This again is a slashing of frontline services, which I would oppose.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15325	On behalf of a Group/Organisation	2c. Care for Adults	Risky solution which could have unforeseen consequences.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15326	An individual	2c. Care for Adults	I'm against this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15327	An individual	2c. Care for Adults	Generally dreadful proposals that would put vulnerable people at terrible risk and/or isolation.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15328	An individual	2c. Care for Adults	mental health is important and needs support. no cuts	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15329	An individual	2c. Care for Adults	There should be no changes to the existing!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15330	An individual	2c. Care for Adults	It is essential that we continue to provide support to those most in need - not acceptable	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15331	No Response	2c. Care for Adults	All this means is that people who need care will not receive it. Not acceptable.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15332	No Response	2c. Care for Adults	This sounds like a dangerous reduction in provision.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15333	An individual	2c. Care for Adults	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15334	An individual	2c. Care for Adults	I don't agree.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15335	An individual	2c. Care for Adults	Cannot support this. Most vulnerable being made even more vulnerable.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15336	On behalf of a Group/Organisation	2c. Care for Adults	Dearie me	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15337	An individual	2c. Care for Adults	This is unfair on people who access support locally through these facilities.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

15600	An employee of West Lothian Council	2d. Commissioned Services	Strongly agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15601	An employee of West Lothian Council	2d. Commissioned Services	I agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15602	An individual	2d. Commissioned Services	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15603	An individual	2d. Commissioned Services	Look okay as it is possible to evaluate given the vague descriptions given in the 'Transforming Your Council'	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15604	An individual	2d. Commissioned Services	I agree with the proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15605	An individual	2d. Commissioned Services	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15606	An employee of West Lothian Council	2d. Commissioned Services	With a rising drug problem in West Lothian is it really a good idea to reduce funding to this service?	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15607	An individual	2d. Commissioned Services	No support should be provided to Junkies. It was their choice to get in the position they are in.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15608	An individual	2d. Commissioned Services	Some services such as the A&D partnership service should be provided by Health Scotland	Commissioned Services - alcohol & drug service	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15609	No Response	2d. Commissioned Services	Find it hard to comment my views on this area as I feel people perhaps don't help there selfs at times and the council and NHS services spend millions trying to help people who don't need want or ask for it. But I know this is an awful addiction more education from an early age and harsher crime prevention or sentences for drug dealer, people selling alcohol to under age kids etc would tackle 50% of the problem	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15610	An individual	2d. Commissioned Services	this reduction is already hitting vulnerable groups in our community / out sourcing it even further will put more at risk	Commissioned Services - alcohol & drug service	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15611	An individual	2d. Commissioned Services	These external partners provide support to some of the most vulneable and isolated communities within West Lothian, the WLC fail to reach or support. Cutting funding will directly impact them.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15612	An employee of West Lothian Council	2d. Commissioned Services	Sounds sensible as long as the support is still available	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15613	No Response	2d. Commissioned Services	By reducing funding to charities such as drug and alcohol services and other community organisations that support vulnerable families, the Council will be setting West Lothian up for an increase in criminal activity, drug related deaths, anti social behaviour, and public health issues. Community services cannot deliver a high standard of service with minimal or no funding. Our communities will suffer hugely if the voluntary sector can't continue offer a consistently high level of service where the Council is failing.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15614	An employee of West Lothian Council	2d. Commissioned Services	Further reducing investment in Alcohol and Drug services will simply transfer pressure on to other services.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15615	An individual	2d. Commissioned Services	This whole area could easily be squeezed over to the voluntary sector. The hard truth ought to be that belligerent self-inflicted dependency ought not to be a huge drag on council support for those who fall on hardship through no fault of their own.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15616	An individual	2d. Commissioned Services	Reduce the amount of support addicts receive including pharmacists time and tax payers money being spent on individual appointments to administer methodone as well as benefits given to feed alcohol addictions. Money could be better spent on care for the elderly or disabled.	Commissioned Services - alcohol & drug service	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15617	No Response	2d. Commissioned Services	Drug & Alcohol services could return to being staffed by volunteers. Most staff at WLDAS are getting paid for doing very little work.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All services will be reviewed based on the impact they have on council priorities.
15618	An individual	2d. Commissioned Services	Alarming targeting the most needy in our community resulting in more NHS alcohol related admissions.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15619	An employee of West Lothian Council	2d. Commissioned Services	See comments above	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	Response referenced another question - no detail provided
15620	An individual	2d. Commissioned Services	Money could be saved not paying for classes for drug & alcohol dependents. I understand these people have issues but money spent on massages etc is ridiculous	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs
15621	An individual	2d. Commissioned Services	I have seen the Alcohol and Drug Partnership Service in action and think it is fantastic, so would be reluctant to see an impact on them.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15622	An individual	2d. Commissioned Services	Those who choose a life of obesity, alcohol, tobacco or other drug dependency's (despite decades of being bombarded with information about the long term effects to their wellbeing) should be encouraged to help themselves. If they are unwilling to, they should see support withdrawn and spent on those that are prepared to at least try to help themselves. Reap what you sow - don't expect others to pick up the pieces.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs
15623	No Response	2d. Commissioned Services	Alcohol & drug addiction is a lifestyle choice & it is right that funding for people's bad choices be reduced. The savings would be better spent on care of the elderly & disabled.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15624	No Response	2d. Commissioned Services	Drug and Alcohol misuse cause a huge number of issues - if we were to invest in tackling this issue more then money could be saved within the police; the NHS; and within schools.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15625	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15626	No Response	2d. Commissioned Services	Shut down Alcohol & Drug Service and use money for elderly care.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15627	An individual	2d. Commissioned Services	Abuse of drugs and alcohol is self imposed. Pay for prevention say at the school level. But adults should bear the responsibility for their actions. Cut that money in favour of education.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15628	An individual	2d. Commissioned Services	Health care for all should be another priority. Drug and alcohol projects are essential to local communities and I hope that the Council continues to support these much-needed initiatives even at a reduced level.	Commissioned Services - alcohol & drug service	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.
15629	An individual	2d. Commissioned Services	Funding should only be for those initiatives that are crucial. For issues such as alcohol and drug abuse, im not sure we should be spending huge amounts. People need to help themselves	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15630	On behalf of a Group/Organisation	2d. Commissioned Services	specific services should be identified for reduction of funding to be able to make an informed response. What impact will there be on the services the public currently pay for? Has an equality impact assessment been completed for this saving? What does "most vulnerable" mean, what is the criteria, who decides, who meets the criteria. The national average of deaths in Scotland relating to drugs and alcohol has risen significantly so how will this saving help an already rising problem? If you remove funds from an already vulnerable and socially isolated group how will this impact on the wider communities.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The consultation is the first stage in work to develop a five year strategy. EQIA will be undertaken on options as work progresses. Criteria for assessment follows the national eligibility criteria.
15631	An individual	2d. Commissioned Services	I welcome cuts to the support of alcohol and drugs. Whilst I understand that drug and alcohol addiction is extremely difficult to recover from, as a disabled person there is nothing I can do to stop my symptoms. Addicts on the other hand can. As stated above I do appreciate how difficult it is to abstain but one has to recognise there is a small element of choice in taking these substances. Disabled and elderly who are having services cut are not able to abstain from anything that would improve their symptoms.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15632	An individual	2d. Commissioned Services	No addictions need help or you end up with higher numbers	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15633	An individual	2d. Commissioned Services	Drug and alcohol is an increasing and serious problem across Scotland for the NHS and I feel it is very poor judgement to reduce the funding for this.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15634	An individual	2d. Commissioned Services	Appreciate reduction in payments to external providers but need assurance or contingency plans to ensure this sector of the community receives the support they need. Addicts cannot be left on the scrap heap.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15635	An employee of West Lothian Council	2d. Commissioned Services	Evidence of the impact of the effect on other council services that reduction in Alcohol / Drug services would have must be included in detailed investigation of this proposal.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15636	An individual	2d. Commissioned Services	Not sure whether this would be a good idea to reduce the Alcohol - Drug partnership.	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15637	An individual	2d. Commissioned Services	Druggies and alkie made their choice. It's their own fault. They got themselves into it. They can get themselves out of it... no pun intended.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for addictions support to the funding received from the Scottish Government
15638	An individual	2d. Commissioned Services	I imagine that the external funding received for alcohol and drugs is a drop in the ocean to what the council pays in totality dealing with people with addictions. A whole system approach should be deployed.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
15639	An individual	2d. Commissioned Services	I think services like Alcohol and drug services should be something supported by NHS and not the Council. This is money that could be put into care for the likes of Elburn Centre and the ability centre.	Commissioned Services - alcohol & drug service	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15640	An individual	2d. Commissioned Services	As a person who grew up living with an alcoholic father and have seen many of my school friends fall into drug addiction and alcoholism themselves, I can say that alcoholism and drug addiction are self inflicted, so feel free to take any money from junkies and alcoholics and use it to help children, elderly and disabled in the community.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15641	An individual	2d. Commissioned Services	As I said before, take it away from the alcoholics and the junkies. We are constantly told that they can only change when they want to change themselves, so why waste money trying to get them to change if that's the case. Use the money given to them and give it to people who are less selfish in their lives	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15642	An individual	2d. Commissioned Services	This is likely to lead to addicts getting reduced support and, I fear, may lead to more avoidable deaths and a rise in crime.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15643	An individual	2d. Commissioned Services	Yes, if I can look forward to good care when I get older, I won't need to turn to alcohol and drugs to try to shorten my life or escape from reality.	Commissioned Services - alcohol & drug service	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15644	An employee of West Lothian Council	2d. Commissioned Services	The Drug and Alcohol Services are vital to our community to help break the cycle of deprivation that vulnerable people find themselves in.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

Transforming Your Council Consultation 2017

15645	An employee of West Lothian Council	2d. Commissioned Services	Careful consideration needs to be given to this factor as the level of addictions are increasing which has an impact on local environment and crime.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15646	An employee of West Lothian Council	2d. Commissioned Services	Oh dear, if we don't support the people with drug and alcohol additions what will happen is that they will drop back into the community - then what.....	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15647	An individual	2d. Commissioned Services	with drugs and alcohol being major issues in west Lothian , cutting this service will only have a knock on effect and in my view increase all sorts of crime and anti social behaviour.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15648	An employee of West Lothian Council	2d. Commissioned Services	Lots of money gets spent on this , there seems to be no controller over drug issues and it's on the rise as we loose police officers , police stations , drugs are getting out of hand , it's an addition and a fascination for people who can then get their rent paid and gets lots of help like food banks where those who work don't get any help , money helping drug related issues should be cut drastically	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15649	An individual	2d. Commissioned Services	If you do not meet that criteria are you signposted to other third party organisations or left to your own devices? PLEASE make sure good quality support is being costed and allow people to live a full life. Corners seem to continue to be cut and it is the vulnerable who suffer. Support staff need to be given time to do a good job and paid accordingly. Support staff are a huge help to so many people and they are relied on. The support staff must be happy and health to do this valuable job. A simple test would be, if it is you sitting in that chair or laying in that bed what support would you realistically like to have? And equally, what wouldn't you want..... What will the cost be to the West Lothian community with removing the Alcohol and Drug funding with regard to safety to the community with those on the program not getting the support that is needed? Particularly if we have 21 less police officers as well.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15650	An individual	2d. Commissioned Services	I agree with this proposal. The responsibility for Drugs and Alcohol support should lie with NHS Lothian	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15651	An individual	2d. Commissioned Services	Given the issues faced within West Lothian, reductions in funding for areas such as Alcohol and Drug Partnership services and the likes of WLDAS would seem counterproductive.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15652	An individual	2d. Commissioned Services	The drug and alcohol partnership is a huge service and it is so valuable to have them coming into schools.	Commissioned Services - alcohol & drug service	4. The council is already doing this.	Thank you for your response. Your comment has been noted
15653	An individual	2d. Commissioned Services	Don't agree with budget being spent on drug and alcohol re hab. If there were better funded schools and more spent on education people would have jobs and not turn to drunk and drugs. Simplified explanation	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15654	An individual	2d. Commissioned Services	Stop funding drug addicts and alcoholics.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15655	An individual	2d. Commissioned Services	I see drug addicts at the chemist very regularly and they live in council houses and get welfare benefit. Penalties should be in place if they refuse to kick their habit	Commissioned Services - alcohol & drug service	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
15656	An employee of West Lothian Council	2d. Commissioned Services	WLDAS has been a crucial, long standing partner for schools and communities. I would strongly validate its worth and hope that it is appropriately funded - again as an early intervention structure and safety net against substance misuse in our communities.	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15657	No Response	2d. Commissioned Services	Reduction in substance abuse services is a major inequity and must be reversed - current cuts will result in increased deaths and demonstrate a failure of the IJB whose governance arrangements are unsatisfactory	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15658	An individual	2d. Commissioned Services	What other care services does the council buy and why chose Alcohol and Drugs?	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	The council commissions a wide range of care and support services for all care groups. Alcohol and Drugs are funded as additionality from the Scottish Government and the council adds to this funding from our core budgets. The proposal is to reduce funding for alcohol and drugs to the funding received direct from the Scottish Government.

15659	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation. DASAT is plays a vital role in west lothian for families fleeing domestic abuse and without the support and help for these individuals they may be unable to break the cycle they are living in.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15660	An individual	2d. Commissioned Services	I don't think we should fund anything at all for Drug and Alcohol users.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15661	An individual	2d. Commissioned Services	Very disappointed to read proposals to reduce funding for WELDAS. Very likely to lead to increased budget pressure elsewhere e.g health service.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15662	An individual	2d. Commissioned Services	I actually see little benefit in funding alcohol and drug support services.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15663	An individual	2d. Commissioned Services	Addiction plays a large part in many communities throughout West Lothian. Over a short period of time, these cuts will become obvious and crime rates would probably increase. This will then impact unnecessarily on the wider community.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15664	An individual	2d. Commissioned Services	To be honest there is not enough support groups for Alcohol & Drug abuse, and due to the statistics stating there is an increase in abuse. Should this not be looked at, as impact on Family, friends and crime	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15665	An individual	2d. Commissioned Services	As addiction is increasing reducing the support will lead to further unemployment, crime and family issues throughout West Lothian.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15666	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15667	An individual	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15668	An individual	2d. Commissioned Services	Not quite sure what this means. I would be keen for support in alcohol and drug to continue. Prevention and education is important.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15669	No Response	2d. Commissioned Services	This concerns me, as the rise in drug and alcohol abuse has risen over the years not dropped. There is not enough support services in West Lothian to deal with the number of people who have these problems. Which impacts on their families due to the abuse and fall out of their irrational behaviours. There needs to be more support group/meetings to cope with the demand on this support mechanism	Commissioned Services - alcohol & drug service	2. The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15670	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15671	An employee of West Lothian Council	2d. Commissioned Services	WLDAS provides a vital service to families affected by these issues. It would become even more challenging to support them with the absence of specific support teams.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15672	An employee of West Lothian Council	2d. Commissioned Services	When money was taken from WLDAS and given to Youth Inclusion Project to provide alcohol and drug support services for children and young people, this has proved to be a disaster. YIP do not have the expertise in this area, and are unable to provide consultation or 1-1 support in this area.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15673	An employee of West Lothian Council	2d. Commissioned Services	Not sure what this means? Cutting funding to Alcohol and Drugs Partnership? Seems they are important for early intervention work??	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

15674	An individual	2d. Commissioned Services	I think the support for drug and alcohol services must be looked at. We seem to spend a lot of money trying to help people kick the habits , but the success rate may be questionable. I think most funding should be spent on the most vulnerable	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15675	An employee of West Lothian Council	2d. Commissioned Services	This service helps the most vulnerable people in our community. It is important that this service continues.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15676	An individual	2d. Commissioned Services	A reduction in funding to the Alcohol and Drug Partnership Service, is something I would not be happy with. This service provision reduction may result in additional cost to other social services if the users of these services are not provided with the care level required and supplied via this service.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15677	An individual	2d. Commissioned Services	Drugs is a major issue in west lothian so I am struggling to see how reducing funding here enables your 8 targets	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15678	No Response	2d. Commissioned Services	If there is less poverty, unemployment and a decent education and opportunities for young people in the first place then there will be less drug and alcohol problems. When disabled people are constantly told there is no money for them to have the same opportunities as every one else I fail to see why money should be spent on drug and alcohol services.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15679	An individual	2d. Commissioned Services	I feel that in particular drug and alcohol issues need to be addressed by suitable services in order to keep not only the individuals who suffer safe but, also the public.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15680	An individual	2d. Commissioned Services	Stop providing alcohol to those dependent on it. Or provide cigarettes to those who depend on them.	Commissioned Services - alcohol & drug service	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15681	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and drug "assistance" does this work?	Commissioned Services - alcohol & drug service	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15682	No Response	2d. Commissioned Services	If services need to be Commissioned it makes sense for it to be needs led - using your example, currently in West Lothian there are a number of initiatives to tackle and challenge Alcohol and Drugs which reflects the County wide need. We need to make sure that all services council and non council are working together and for the benefit of everyone. Reducing these services would mean that people who were needing early interventions may have to wait longer and it may be too late / people could easily fall through the net - these people lead very chaotic lives and services need to have all barriers removed by being local, welcoming and non judgemental.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15683	An individual	2d. Commissioned Services	Increasing drug use and abuse is significant in the area. This should be a priority area for funding as the consequences of complacency and underfunding will be significant for people concerned.	Commissioned Services - alcohol & drug service	2. Commissioned Services	You are reducing care overall and now you propose to reduce funding to the Alcohol and Drug Partnership Service - the very people who require more funding to help their addiction recovery.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15685	An individual	2d. Commissioned Services	Spend the £££ in those who need it, not wasters like drug addicts and alcoholics	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15686	An individual	2d. Commissioned Services	Far too much money already given to alcohol and drug issues	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15687	An individual	2d. Commissioned Services	Surely Alcohol & Drug abuse comes under NHS.	Commissioned Services - alcohol & drug service	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15688	An employee of West Lothian Council	2d. Commissioned Services	A reduction in the Alcohol and Drug Service will this be a protected service with NHS Lothian because the service is required in West Lothian and therefore this service must still be provided by others. The council needs to ensure that it gets the most for its money in every instance (e.g. purchasing a pen to its contracts).	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

Transforming Your Council Consultation 2017

15689	An individual	2d. Commissioned Services	alcohol and drugs should be the governments bill to pay as they are happy to take revenue if its so bad for people why does the government just ban it and them their would be no alcoholics and put drug users in jail not pay them more money	Commissioned Services - alcohol & drug service	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
15690	An individual	2d. Commissioned Services	waste of money its full of alcoholics and drug users	Commissioned Services - alcohol & drug service	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
15691	An individual	2d. Commissioned Services	The heading here is unclear. It is assumed that this refers to externally procured services. Commissioning is a different process to procurement. The reductions to drug and alcohol services is at best poorly explained. It is not clear what will be reduced and by how much. The scottish government still expets local authorities and health boards to fund drugs and alcohol services alongside the Alcohol and Drug partnership grant. Drug and alcohol services received a 22% reduction in 2016/17.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15692	No Response	2d. Commissioned Services	This service must be retained.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15693	An employee of West Lothian Council	2d. Commissioned Services	Laughable! This should be a priority. Supporting people with substance misuse issues helps to reduce crime, improve health and enables the children of substance misusers to achieve better outcomes. This is a shortsighted proposal which takes no account of the bigger picture or a systems approach to delivering services	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15694	On behalf of a Group/Organisation	2d. Commissioned Services	The Alcohol & Drug Partnership has been an excellent example of this. When funding was reduced from Scottish Government last year, West Lothian Council invested some additional money in services to reduce the effect of this significant funding cut. this allowed services time to review and alter how it provided services and helped our service (West Lothian Drug & Alcohol Service) continue to hit its HEAT targets of 3 weeks for engagement. Scottish Government has now announced that the budget available for Alcohol and Drug Treatment will go back to the level it was prior to last year cut. Commissioning allows charities like ours can bring in additional funding to West Lothian to provide additional services and support. In the financial year 2016-17 WLDAS brought in £225,000 of additional funding. This funding would be hard for us to secure without the funding we receive for delivering commissioned services. The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

Commissioned Services	Prevention is really important in relation to drug and alcohol misuse it can also help reduce crime levels and hospital time incurred.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15699	An employee of West Lothian Council	2d. Commissioned Services	Agree self induced harm should be further down the scale of funding. Remember that this is an illness and as such should sit firmly in the NHS and with central government. Care should also be taken to ensure ultimately that this move doesn't end up costing the taxpayer more in the long run as usually is the case in hindsight. Thank you for your response. Your comment has been noted
15700	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and drug partnership services are vital for most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation. This in turn will help those affected get back into society and perhaps gain employment to avoid them having to claim benefits, get into arrears with Council Tax and also avoid them relying on the Scottish Welfare Fund.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15701	An employee of West Lothian Council	2d. Commissioned Services	The Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

15702	An individual	2d. Commissioned Services	Some people need support. Don't let them down! People who poison themselves with drugs and alcohol are a burden on us all. They deserve very little support unless they make an effort to help themselves. I think a tighter effort to stop the suppliers of drugs would be a better investment.	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15703	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15704	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15705	An employee of West Lothian Council	2d. Commissioned Services	Alcohol and Drug partnership services are vital to our most vulnerable residents, it is important that these functions continue as they play a vital role for those working towards breaking the cycle of deprivation.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15706	An individual	2d. Commissioned Services	Some services bought by the council do not show best value. Monitoring of contracts with care providers in particular is poor as there is little competition for this work. There is little or no evidence to show the impact of initiatives like Alcohol Diversionary Funding.	Commissioned Services - alcohol & drug service	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15707	An individual	2d. Commissioned Services	I am a recovering addict in West Lothian and I have used every place in West Lothian that helps people get off drugs or supports people on drugs. I feel that if the funding is cut for these services you would have a lot bigger problems on your hand and would spend more money on health services and jails, etc. These services helped me get to where I am right now and supported me throughout my addiction. If they weren't available I would surely had been in prison for silly offences and would be a drain to society and I also I would be in and out of hospital with numerous health problems. These services got me on my feet, helped me get housing, got me prescription. Gave someone to speak to when I needed it and generally supported me. I didn't know how to do things for myself and they supported me. I am only one person but there is thousands in West Lothian like me and who rely on these services to give them a chance in life when they have made a mistake the services help them to fix it. No I am off drugs. I socialise in the Hub in Bathgate. This was vital for me in very early recovery and is very important for others in the community. It helped me get to know people when I was isolated and made me realise I could be a productive member of society. Also I have my Aftercare from Leap treatment centre and if this place (the Hub) shuts the people that come out of Leap won't have aftercare to come to and will have less of a chance to succeed and this will surely cost you the Council more as they will commit crime etc. It would be a shame that a hub wouldn't be funded as recover is getting popular in both Edinburgh and Glasgow and you can see the benefits.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15708	An individual	2d. Commissioned Services	I am recently in recovery after many years of drug addiction. My lifestyle included homelessness, criminality and the loss of my family. Without commissioned services within drugs and alcohol I wouldn't have gained the support I have and wouldn't be in the position I am. I wouldn't have my family back, feel part of the community, my life would be like a revolving door.	Commissioned Services - alcohol & drug service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15709	An employee of West Lothian Council	2d. Commissioned Services	Stop methodone and stop giving alcoholics extra money and people coming into our country if we were to go to there country we wouldnt get house, job or no money it isnt fair how working people that getting cut and struggling to live.	Commissioned Services - alcohol & drug service	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted. Policy with regard to refugees and benefits is set by the UK government. Health Services are the responsibility of the NHS.
15710	An employee of West Lothian Council	2d. Commissioned Services	Remove drug and alcohol services, advisory centres and other nonsense like this	Commissioned Services - alcohol & drug service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15711	An individual	2d. Commissioned Services	I would reduce the money the support of people who abuse drugs and alcohol.	Commissioned Services - alcohol & drug service	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15712	An employee of West Lothian Council	2d. Commissioned Services	Social care services have to become much leaner and cost effective	Commissioned Services - council funding	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.

15713	An individual	2d. Commissioned Services	I am all for this the council do not need to fund this at all as this is a self inflicted illness	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15714	An employee of West Lothian Council	2d. Commissioned Services	Any changes that can streamline processes and make savings for the council must and should be pursued.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15715	An individual	2d. Commissioned Services	Clients under 65 should have to pay a contribution towards their care packages. In most local authorities clients have to pay towards services such as housing support.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
15716	An individual	2d. Commissioned Services	Council should focus on providing essential care services to most vulnerable as there is no money to commission additional services.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15717	On behalf of a Group/Organisation	2d. Commissioned Services	██████████ has been part funded by West Lothian Council to provide a range of early intervention services for children, young people and families who are experiencing difficulties and challenges as a result of divorce, separation and family break up e.g. family mediation, parenting apart workshops, child contact, for many years. The focus of our work is family relationships and improving the quality of lives for children. We receive match funding from the Scottish Government, Lottery and other trusts. The profile of the families who use our services has changed over the years and we are now providing a service for families experiencing greater challenges e.g. alcohol abuse, mental health issues, low income, child protection and domestic abuse. We are seeing an increasing demand for our services. The contribution from the council is much appreciated and means that families can continue to access services in Livingston and Whitburn. We appreciate that the council has difficult decisions to make and appreciate being consulted and kept in the loop,	Commissioned Services - council funding	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15718	An individual	2d. Commissioned Services	Information in the public domain about the IJB policies plans and procedures is almost non-existent. It is difficult to envisage that the additional financial burden of such a body can achieve the savings. Much better to retire the IJB.	Commissioned Services - council funding	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
15719	An individual	2d. Commissioned Services	The care agencies are already in crisis. There is a risk the whole system falls apart. Already people at the end of their life needing care are not getting it!	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15720	An employee of West Lothian Council	2d. Commissioned Services	all external funding should be reviewed and stopped where there is duplication.	Commissioned Services - council funding	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need
15721	An individual	2d. Commissioned Services	Ok ish with this. But the amount spent in these areas needs to be capped..	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need
15722	An individual	2d. Commissioned Services	Agree that financial spend needs to be monitored and where there is poor outcomes then a review of what has not gone well needs to be undertaken by WLC. Without detail difficult to establish whether this is disadvantaging an already minority population.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15723	An employee of West Lothian Council	2d. Commissioned Services	Very good proposal they should be out there Fund Raising for there cause	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15724	An individual	2d. Commissioned Services	it is a shame that the council funding needs to reduce to these important initiatives, but again needs must !	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15725	No Response	2d. Commissioned Services	What external service provisions will be reduced? What is the impact of reducing these and is it likely to cause financial hardship in communities that will effectively be under resourced?	Commissioned Services - council funding	3. The respondent advised that they had no comment to make.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
15726	An individual	2d. Commissioned Services	Again this sounds like services that the council should provided were first farmed out to arms length organisations and now funds to those services are being cut.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15727	An individual	2d. Commissioned Services	Funding to care home services should not be included in this due to the cost impact this would have and the negative outcomes for older people	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15728	An employee of West Lothian Council	2d. Commissioned Services	Again cutting service provision here will only leave these client groups vulnerable? Why is there not a need to care for our vulnerable groups? Homelessness drug and alcohol crime depression unwanted pregnancies all put pressure on our communities health services yet we are looking at reducing the amount of support we are offering This can only be a bad thing creating yet more problems for people to live amongst	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15729	An individual	2d. Commissioned Services	External funding has been reduced regularly for a number of years. Reducing it further will remove services and cause the people running these services to become unemployed, making more of a problem as people who use services being unable to source them and the unemployment in west lothian rising further.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All client groups are entitled to receive support to meet assessed eligible needs - the proposal is about limiting the support for additions support to the funding received from the Scottish Government
15730	An individual	2d. Commissioned Services	Put no council funding into the services that external funding is received for.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15731	An individual	2d. Commissioned Services	Reduction in funding to outside agencies will lead to social problems on a huge scale in the coming years, and the costs of picking up the pieces will be massive. False economy.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15732	An individual	2d. Commissioned Services	Care needs to be taken to ensure that external parties have the capacity to deliver sustainable services for the price agreed.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15733	An employee of West Lothian Council	2d. Commissioned Services	Do not use commissioned services. have our own.	Commissioned Services - council funding	5b. 15734	An employee of West Lothian Council	2d. Commissioned Services	As my response to 2a: bought in services are always going to be more expensive than those provided in-house. It is a false economy to cut staff and buy in a service.	Commissioned Services - council funding	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15735	An employee of West Lothian Council	2d. Commissioned Services	Some third party organisations who are funded by the council are not delivering on the outcomes they are intended to and feel the health check really needs reviewed to ensure we fund the organisations who deliver on outcomes and don't fund organisations who don't meet their targets.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15736	An individual	2d. Commissioned Services	The use of external care agencies to deliver care at home services appears to have reduced the quality of the services people are receiving, this has resulted in a need for closer monitoring and reviewing which impacts on staffing costs/use of resources. If the council buys less care services from external agencies it could mean that they in turn have financial difficulties in sustaining their business. Any closure of a care agency with a large portion of business could impact greatly on service users, I expect there would need to be a contingency plan. Perhaps consideration could be given to a more cost effective in house service.	Commissioned Services - council funding	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15737	An employee of West Lothian Council	2d. Commissioned Services	I agree that we should not be providing grant income to groups who do not deliver the council's priorities. Historical funding for the sake of it, or if the group is liked by elected members, can't happen when resources are this tight.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15738	No Response	2d. Commissioned Services	This will have a direct impact on so many. These agencies will need to source this funding elsewhere. This is a tough one.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

15739	An employee of West Lothian Council	2d. Commissioned Services	I don't agree with cutting funding to these services. Cutting these could cause more harm than good with more problems directed to NHS, anti social behaviour and all sorts. These shouldn't be cut but promoted	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15740	An employee of West Lothian Council	2d. Commissioned Services	Consider financial penalties for care agencies that do not meet the standards of care as set out by SSSC. In my experience many (but certainly not all) care agencies are not sanctioned for taking decisions that directly impact on peoples quality of life. I have directly experienced care agencies not giving notice when they can no longer provide the care a person requires. In one instance an agency simply did not turn up leaving the service user with no care.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15741	An individual	2d. Commissioned Services	The council should never have been buying services unless they met people's needs. This is token words.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15742	No Response	2d. Commissioned Services	Supplier reviews, Service Level Agreements, penalty clauses and benchmarking clauses should be bread and butter.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15743	An individual	2d. Commissioned Services	It is very sad that anyone who is vulnerable should lose help. Surely the Scottish Government should be paying more money for this.	Commissioned Services - council funding	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15744	An individual	2d. Commissioned Services	The difficulty we have with care is that there is a huge initial cost to be able to provide all current services through council but due to the ever growing old and young population within West Lothian. Funding third parties it is going to work out most expensive long term. This will become a monopoly for the few companies which could realistically provide care.	Commissioned Services - council funding	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15745	An employee of West Lothian Council	2d. Commissioned Services	I agree the Council's contribution to initiatives such as the Alcohol and Drug Partnership Service should be reduced. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15746	An individual	2d. Commissioned Services	This sounds absolutely disastrous for the many smaller charities who do vital work in their communities. Wha possible good can come from these services having to close - there is obviously no way the Council will step in to replace the void left, so what will then happen to the people who are currently supported?	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15747	No Response	2d. Commissioned Services	Other than reducing funding, there is no other information that you have provided here for me to comment on. I feel that reducing funding for services for vulnerable people can only result in those people becoming more and more vulnerable, and blame being lain directly at the feet of the WLC.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15748	An individual	2d. Commissioned Services	I agree that resources being funded should be looked at. If there is a duplication of service between the voluntary/health sector and the LA that does not make financial sense. Also if the LA is part funding a service and this is not a LA priority, given the financial challenges, it makes sense to withdraw.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15749	An individual	2d. Commissioned Services	Buying in care services can be difficult as quality assurance and varying standards of care can be a waste of money.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15750	An individual	2d. Commissioned Services	Why are the Council paying for external services, surely consideration should be given to ensuring these services can be met from within.	Commissioned Services - council funding	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15751	An individual	2d. Commissioned Services	However, care for all people with disabilities and special needs needs to be protected.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15752	No Response	2d. Commissioned Services	This will have a massive impact on the ability of these providers to give the high quality service they have provided until now. The cuts already implemented, e.g the closure of cafe Mistura and BLES, due to council funding are a huge loss and made an impact to the life choices for the individuals they could have supported as there is little else out there .	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15753	An individual	2d. Commissioned Services	Nervous about this one. Care providers ate already struggling. See Bield.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

15754	An employee of West Lothian Council	2d. Commissioned Services	By reducing the funding to the external partners can this not cause problems which can escalate when there are not sufficient resources to prevent or minimise the impact.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15755	On behalf of a Group/Organisation	2d. Commissioned Services	Reduced funding in areas of prevention and early intervention result in more costly interventions at a later date	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15756	An individual	2d. Commissioned Services	Whilst partner agencies at present are used consideration must be given to the standards and abilities of these groups to meet the needs of some vulnerable and complex client groups. In house services will ensure and maintain standards, this will also increase the local employment for people in their local area providing support to their community. Too many times private agencies claim to be able to look after complex clients and the care package fails putting additional strain on the limited in house services or resulting in unnecessary admission to hospitals. Increased in-house services would be an investment in the skills and capabilities of the staff, improve standards and reduce the amount of times external agencies fail to meet the needs of clients or standards.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15757	An employee of West Lothian Council	2d. Commissioned Services	Introduce tighter tendering processes and a higher level of scrutiny in how funding is being used. This could take place in the same way that grant making trusts to the Third Sector monitor their funding and ensure it is being used effectively. This takes place by ensuring the bid is being reflected by the actual activities being carried out within the context of the budget/fund.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15758	An individual	2d. Commissioned Services	Partnership working is vital as Council moves forward but build in feedback and reviews to ensure that service delivery is not being greatly harmed.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15759	An individual	2d. Commissioned Services	Any reduction in contribution to services which use volunteer workers would be very short sighted, as the return on investment the council gets is high.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15760	An individual	2d. Commissioned Services	Reducing the funding level of funding to service such as the Alcohol and Drug Partnership Service leaves a gap, unless an alternative can be identified that provides the same level of support.	Commissioned Services - council funding	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need. This approach would mean that services for the Alcohol and Drug Partnership would be contained within the funding provided by the Scottish Government.
15761	An employee of West Lothian Council	2d. Commissioned Services	I was shocked to see how much additional support needs cost the council - more than roads. There must be scope for efficiencies there.	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15762	An individual	2d. Commissioned Services	Need to cover external agencies costs in full.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15763	No Response	2d. Commissioned Services	Council needs to ensure they are properly funding bought in services as providers will simply give up if not adequately funded. Last paragraph is unclear.	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15764	No Response	2d. Commissioned Services	I am all for reducing costs from outside agencies but this depends on the level of expertise "In House"	Commissioned Services - council funding	1. The respondent advised that they agree with the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15765	An individual	2d. Commissioned Services	Its a pity that service delivery relies so heavily on outside agencies and not in house Too much reliance on outside agencies and many are closing down as they are not able to meet demands and staff turnover is creating major problems	Commissioned Services - council funding	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15766	An individual	2d. Commissioned Services	Care services should be regularly reviewed to ensure they keep on meeting people's need. Does the council buy these services from companies who use 0 hour contracts or do not pay their staff when they are off sick? These practices should be contractually banned.	Commissioned Services - council funding	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15767	No Response	2d. Commissioned Services	The council can't resource external agencies if we can't afford to do everything we are obliged to do.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15768	An individual	2d. Commissioned Services	Is it cheaper to buy services than to employ staff to do the work?	Commissioned Services - council funding	3. The respondent advised that they had no comment to make.	West Lothian has a proven track record of partnership working and would wish to build on this.
15769	An individual	2d. Commissioned Services	It is important to ensure care packages are available. Many absences across the work place can be due to families having to care for their elderly family members as they struggle to get support in place.	Commissioned Services - council funding	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15770	An individual	2d. Commissioned Services	A focus on the extent to which providers meet the outcomes of service users is welcome provided that services no longer purchased, because of poor value for money, are then provided by the council. The provision of in house services as opposed to purchased services allows the council greater control of budgets and quality. A reduction in the mixed economy of care can only be a good thing	Commissioned Services - council funding	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15771	An individual	2d. Commissioned Services	Reducing funding on preventive services will increase costs as people will be in more extreme need by the time help is available.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15772	An individual	2d. Commissioned Services	Further reductions to third sector services are not sensible. Partly because of the cost that service users put on other parts of the health, social care, criminal justice system. SO reducing funding here will result in higher costs elsewhere. It is unclear that the recent needs assessment Carried out by West Lothian ADP suggests such a reduction is viable. The third sector are actually the services that offer people recovery which is the main thrust of the national strategy to address drug/ alcohol problems - and is likely to remain so even after the refresh of the current strategy over the coming months. It is likely that there will be many opportunities to make the public sector (nursing and social work teams) more efficient. For instance nurses running SMART recovery groups in linlithgow is not an effective use of their time particularly when West Lothian fails to meet its waiting times targets. These public sector services are clearly in need of review, after which it is likely that more investment will be made in the 3rd sector to carry out tasks more efficiently that those currently carried out by the public sector. This would give a different kind of saving. I would suggest carrying out this review rather than making unquantified intentions to reduce investment in the 3rd sector. It is more likely that this is proposal is being made out of convenience (I.e. To manage a no redundancies policy in the public sector rather than the best interests of service users at difficult financial time.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15773	On behalf of a Group/Organisation	2d. Commissioned Services	In the past 3rd sector organisations have been crucial in supporting young people and their families to help them through working together to address problems and improve outcomes. The funding available to these organisations may be under threat or substantially reduced as indicated in other scions of this consultation which covers reductions to commissioned services and the voluntary sector budgets. These organisations are often far leaner, more adaptive, effective and successful with engaging vulnerable groups and families.	Commissioned Services - council funding	2. Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15774	An individual	2d. Commissioned Services	A reduction in the provision of care services is not good. There should be more money, not less, given to projects that support the most vulnerable in our communities. One of these is the Alcohol and Drug Partnership Service, which deserves to be expanded. It is not just the addicts, but the effect on families suffering from the drug or alcohol misuse of someone close to them is devastating and causes immense hurt and sadness.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15775	An individual	2d. Commissioned Services	reduction in some services will lead to a rise in poverty, deprivation & crime all of which are indicated as a priority to reduce. Be very careful about this	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15776	An individual	2d. Commissioned Services	Commissioned services are providing essential services to vulnerable people in West Lothian. Many are already doing so on incredibly tight and under resourced budgets and cuts here will risk service providers leaving the area or cuts to service levels which is detrimental to those requiring services.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15777	An individual	2d. Commissioned Services	Removing funds from front end services only adds to extra costs for long term services for council and for health.	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15778	An employee of West Lothian Council	2d. Commissioned Services	Need to ensure care providers are reliable so clients will not be disadvantaged by carers "not turning up". Could then lead to a crisis if carer doesn't get break/client doesn't get service	Commissioned Services - council funding	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15779	No Response	2d. Commissioned Services	WLC should be careful that local services with expertise and local knowledge are not put under even more threat - weighting of skills, knowledge, local service/knowledge should be high within the process.	Commissioned Services - council funding	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15780	On behalf of a Group/Organisation	2d. Commissioned Services	Do these provide value for money?	Commissioned Services - council funding	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15781	An individual	2d. Commissioned Services	There elderly should be protected with funding for the care provision helping people for any addiction, drug/alcohol, weight issues, mental health. Support for them to go them and their families. More funding to keep hubs, serenity caf��, open door, open food and financial help for people that need help. We need these partnerships as a person who's received & helped other people going to the hub just for chat and a coffee helps my mental health. Amazing	Commissioned Services - council funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15782	An individual	2d. Commissioned Services	Council's own workforce would be cheaper than buying in services.	Commissioned Services - council funding	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15783	An individual	2d. Commissioned Services	As above. A public consultation is needed to discuss this separately from this consultation.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will consult with the public, service users throughout the development of proposals
15784	No Response	2d. Commissioned Services	Commissioned services for instance taxis, service providers and outwith local resources costs the council unknown significantly high finances.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15785	An individual	2d. Commissioned Services	This would seem to reduce prevention measures and organizations, thereby posing the question does it really save money in the long term, ie necessitating more expensive interventions and long term care.	Commissioned Services (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15786	An employee of West Lothian Council	2d. Commissioned Services	THERE IS A DIRE NEED TO IMPOROVE THE QUALITY AND EFFECTIVENESS OF SERVICES BOUGHT BY COUNCIL. MANY ARE OF POOR QUALITY. THE COST OF DEALING WITH COMPLAINTS AND INVESTIGATIONS MUST BE TAKEN INTO CONSIDERATION AS AN ON COST.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15787	No Response	2d. Commissioned Services	I agree that a review of external providers is a good idea, as many charge very high prices that are not good value for what they claim to provide.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15788	An individual	2d. Commissioned Services	you get what you pay for.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15789	An employee of West Lothian Council	2d. Commissioned Services	The council does not need to give out key safes to every client for free. The telecare system is Â£1 per week yet other councils charge in excess of Â£5 per week. There is no charging policy at all for the council which results in families not having the correct documentation about the legislation for payment of care home fees. There is also no charge for under 65's which is not the norm within local authorities.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
15790	An employee of West Lothian Council	2d. Commissioned Services	There is no need to provide free key safes for everyone. There is only a small change for the telecare provision which could be increased as per other councils who charge more than Â£1 per week. Under 65's are not overall entitled to Free Personal and Nursing Care but in WLC they receive it. This is lost revenue for the council.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The introduction of any contributions policy will be subject to the financial assessment of affordability
15791	An employee of West Lothian Council	2d. Commissioned Services	The council does not appear to have a consequence for the care agencies who do not turn up to meet the needs of the clients we support. For some, this can be very vulnerable people left without intervention. I would impose a financial penalty for care companies who do not fulfil the needs of the calls they are required to do.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15792	An employee of West Lothian Council	2d. Commissioned Services	care at home providers unable to supply the level of support required has to be addressed. Questions need to be asked about recruitment.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15793	An employee of West Lothian Council	2d. Commissioned Services	Allocated areas for care companies will only work if the providers have an adequate level of staff to meet the requirements. This is the biggest cause of delayed discharges from St Johns Hospital. Action must be taken against care providers who are deliberately cutting services to provide "walking time" between clients.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15794	An employee of West Lothian Council	2d. Commissioned Services	I am unclear what care services bought by the council would be reduced and how this shortfall would be made good - for example currently (in mental health) needs that are not being met though tenancy support are having to be "picked up" by health and social work	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15795	An employee of West Lothian Council	2d. Commissioned Services	This should be placed better externally within the community so that responsibility is more focused by the provider.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15796	No Response	2d. Commissioned Services	Agreed that this should be cut. There are many care groups and support places therefore this needs to be reduced.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15797	An individual	2d. Commissioned Services	One of the areas that the Council can claw back money from care providers is to ensure that the contracted services are delivered. Too often a care visit is missed, but I am sure that the Council is invoiced for the Service. Time and effort should be used to ensure that services paid for have been delivered.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15798	An individual	2d. Commissioned Services	professional carers turn up here in top of the range cars and sometimes in their second cars.	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15799	An individual	2d. Commissioned Services	If services delivered by external partners don't meet people's needs what on earth are they doing? This is just contradictory nonsense. Again be honest in your intentions.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15800	No Response	2d. Commissioned Services	good to see that vulnerable people will be looked after.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15801	No Response	2d. Commissioned Services	I agree!	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15802	An individual	2d. Commissioned Services	You need to simply shop around for services	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15803	No Response	2d. Commissioned Services	How do you decide who is most vulnerable?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly

15804	An individual	2d. Commissioned Services	Value for money is important in commissioning services but unfortunately again the cuts appear to be focused on the most vulnerable West Lothian residents such as those with addictions issues. Sadly usually the people with the least voice are easiest to target when cuts are being made and this is regardless of the politics persuasion of local councillors.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15805	An individual	2d. Commissioned Services	External care services should be carefully supervised to ensure that they meet Council standards and not just profitability.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15806	An employee of West Lothian Council	2d. Commissioned Services	Optimise performance or cease contract. Costs fortune to deal with complaints and poor services. Adopt UNISON's ethical Care Charter	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15807	An employee of West Lothian Council	2d. Commissioned Services	I believe the care sector needs to be closely monitored and any service found to be lacking should suffer severe consequences.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15808	An individual	2d. Commissioned Services	Services from the council to the most vulnerable in society should ALWAYS be protected. Already the services have been diluted and numbers/pressure has increased, whilst staffing decreases. People are struggling as it is with lack of provision to the most vulnerable. There are many other areas the council should look at first. Human rights, morality and just doing the decent thing is at stake here. These services HAVE to be protected as core.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15809	An employee of West Lothian Council	2d. Commissioned Services	Commissioned services - agency staffing by any other name - has never been a cost effective business model and results in inequality and aggrieved staff members.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15810	An employee of West Lothian Council	2d. Commissioned Services	It makes sense to ensure value for money in this area. To make sure commissioned services are not top heavy with managers and left short on the frontline.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15811	An individual	2d. Commissioned Services	Reduce your spend to the statutory minimum.	Commissioned Services (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15812	An individual	2d. Commissioned Services	Principle is sound but what will the review consist of? If purely financial without factoring the social and economic outcomes then do not support this move.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need
15813	No Response	2d. Commissioned Services	Some of the care companies who provide the care charge high costs but sometimes the care is lacking. Suggest introducing fines or reduction in payment where care package is not fulfilled Constantly fail to turn up to get my 93 yrs old gran to bed.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15814	An individual	2d. Commissioned Services	We seriously need to buy in services that are value for money. We need investment. Spend a pound to gain Â£5	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15815	An individual	2d. Commissioned Services	Service Providers are there to make a profit, therefore they need to be carefully monitored for service delivery and quality standard. They require unannounced spot checks, audits and accountability. It's not a case of just paying a company to deal with this ever increasing problem. It needs to be money well spent, and to verify that it is.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15816	An individual	2d. Commissioned Services	start using the voluntary sector more effectively rather than dismissing their support - sadly too many have lost funding and they did a lot of the support that the council didn't do	Commissioned Services (general)	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15817	An individual	2d. Commissioned Services	Deliver in-house rather than contract with external providers if more cost effective	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.

15818	An employee of West Lothian Council	2d. Commissioned Services	does the council need to buy in so many services surely there is scope and employee to deliver these services in-house would it not be more cost effective.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15819	No Response	2d. Commissioned Services	some times people and close familys have to take a more effective role and responsibility	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15820	An employee of West Lothian Council	2d. Commissioned Services	Bring it in house	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15821	An individual	2d. Commissioned Services	Perhaps the council would be better served by reviewing their statutory duties and confining themselves to those.	Commissioned Services (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
15822	An employee of West Lothian Council	2d. Commissioned Services	I recently found out that Barnardos youth group charge £93 per child for a 3 hour group and it is not 1-1. That to me sounds way too expensive. Review of charges for services should be looked at.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15823	An individual	2d. Commissioned Services	Why not make this an area you partner with other councils to get a better deal.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15824	An individual	2d. Commissioned Services	Individual need to start taking responsibility for their life style choices and addictions. In America you don't get all of the help and support for free. People serious about making changes will happily contribute towards costs.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
15825	An individual	2d. Commissioned Services	Council should provide their own services as in the past or share services with others. Buying in services cannot be the most economical way	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15826	An employee of West Lothian Council	2d. Commissioned Services	You are either planning to do more in-house or reduce the support provided to the vulnerable. Dreadful.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15827	No Response	2d. Commissioned Services	will this initial cost saving cost more in the long run with additional problems in the community if services need to be cut	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15828	An employee of West Lothian Council	2d. Commissioned Services	The provision of services from the third sector could be invaluable if included in the reshaping of services. For example some voluntary organisations could possibly be located alongside social work duty teams to provide some of the preventative services currently provided within social work services.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
15829	An individual	2d. Commissioned Services	Again I have concern about the monitoring of quality of service providers	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15830	An individual	2d. Commissioned Services	Why not procure with other councils to save money.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15831	No Response	2d. Commissioned Services	If we can't afford it then we must cut our cloth	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15832	An employee of West Lothian Council	2d. Commissioned Services	Reduce and remove anything which is not statutory.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15833	An individual	2d. Commissioned Services	The service should be maintained and improved. I do not support this strategy.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

15834	An individual	2d. Commissioned Services	Audit Scotland recent report on self directed support makes some key recommendations on achieving more flexibility in commissioning support services. There must be more involvement for people using services in determining flexible commissioning models for support.	Commissioned Services (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15835	An employee of West Lothian Council	2d. Commissioned Services	Services are marginalised enough. Cutting front line services will only cost us more in the future in money and lives!	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15836	An individual	2d. Commissioned Services	Stop wasting money on hotel chains running nursing homes.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Care home placements in West Lothian are commissioned under the National Care Home Contract which has a standard price for each place
15837	An employee of West Lothian Council	2d. Commissioned Services	Try and ensure that qualitative metrics are applied with at least equal, if not greater weighting than costs metrics.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15838	An employee of West Lothian Council	2d. Commissioned Services	Some of the care provider's are guilty of not providing the cover they are paid to provide. Take more care on which providers are used.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15839	An individual	2d. Commissioned Services	There must be other ways to save money!	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15840	An individual	2d. Commissioned Services	May be achievable but with potential consequences for our communities which has not been effectively assessed in terms of consequential in the longer term. This objective doesn't sit well with 2e.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15841	An employee of West Lothian Council	2d. Commissioned Services	Worrying. Waiting list for external care provision are vulnerable groups are already unacceptably long - weeks and months for essential services. Reintroduce in house care provision alongside the Reablement approach.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15842	An individual	2d. Commissioned Services	Why should I pay for self inflicted vulnerability, such as drug and alcohol abuse?	Commissioned Services (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	All client groups are entitled to receive support to meet assessed eligible needs
15843	An individual	2d. Commissioned Services	need to keep	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15844	An employee of West Lothian Council	2d. Commissioned Services	I have limited personal knowledge in this area however, from what I have heard, the council ought to take time to better monitor these services that it is buying to ensure value for money.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15845	An individual	2d. Commissioned Services	Hitting the most vulnerable will only affect our communities more.	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15846	No Response	2d. Commissioned Services	Having had the use of the care teams I can see where savings can be made, paper work needs to be tightened up and regular checks made to ensure these companies are actually attending for the Times claimed.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15847	An employee of West Lothian Council	2d. Commissioned Services	Is there scope to return these services to In- House provision? Would cutting out the middle man so to speak help save £ and centralise provision	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted

15848	No Response	2d. Commissioned Services	Disagree. High proportion of health inequalities for this population. More needs to be done to look at reducing dependency and more about fostering healthy lifestyle choices in education to all ages.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15849	An individual	2d. Commissioned Services	A review of services provided by care companies at present is urgently needed.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15850	An individual	2d. Commissioned Services	Essential to make sure that outsourcing does not just mean cuts to staff costs (ie wages)	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15851	An individual	2d. Commissioned Services	Agreed - need to look at where required services are most efficiently provided.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15852	An individual	2d. Commissioned Services	What about those who can't fund their own care?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
15853	An individual	2d. Commissioned Services	In effect throwing those with addiction issues on the scrapheap...worrying!	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15854	An individual	2d. Commissioned Services	This service should not be cut while other discretionary activities continue in the Council.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15855	An individual	2d. Commissioned Services	This whole service needs to be looked at. The resources are stretched however there are some people in WL who are continually supported however they do not engage with services. Surely, the resources would be better used for those who are ready and willing to accept help.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15856	An employee of West Lothian Council	2d. Commissioned Services	Think we have too many teams doing the same thing and needs reviewed.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15857	An individual	2d. Commissioned Services	Not something that can comment on but again looing like you are just reinventing the wheel and nothing will change and the savings will not happen	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15858	No Response	2d. Commissioned Services	There is only one question - do these provide "value for money" if yes continue if no then ask why not. A reduction in ADPS is again storing up trouble for later.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15859	An individual	2d. Commissioned Services	This makes sense. However for 3rd parties that do provide services to the council you must hold suppliers to account more to ensure true value for money.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15860	An individual	2d. Commissioned Services	IT IS IMPORTANT THAT THE COUNCIL GETS VALUE FOR MONEY	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15861	No Response	2d. Commissioned Services	Private care is designed to maximise profit to the detriment of service provision, plenty of studies and resource to show this may save money but those requiring access to care get a poorer service from poorly trained / inexperienced staff on minimum wages..	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15862	An individual	2d. Commissioned Services	I was disappointed in this consultation more generally because there was an almost complete absence of mention any plans with NHS Lothian via the the health and social care IJB. How are the locality aspects and preventative ASSET aspects going? I don't think you can successfully, and safely, transform service delivery without them. NHS primary care were not pushed down the contracting out of front line services. Whilst home care (a large portion n of your budget) may not be able to pulled back in in order to strategically develop its future delivery, it does make sense to review providers and contracts but with an eye to shared support across NHS and WLC barrier..	Commissioned Services (general)	4. The council is already doing this.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
15863	An individual	2d. Commissioned Services	Unfortunately the council cannot supply everything. It has a statutory duty for certain elements of care and provision	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15864	No Response	2d. Commissioned Services	Money should not be the only factor in deciding off a facility is suitable. The std of care at a facility should also be taken into sccount	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15865	No Response	2d. Commissioned Services	The council should be providing this service directly not using for profit companies.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15866	An individual	2d. Commissioned Services	Why is care bought externally? Can this nit be rearranged?	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15867	An individual	2d. Commissioned Services	KPI measure and adherence is essential, poor performance cannot be acceptable, and contracts should be pulled if poor service is not forthcoming	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15868	An individual	2d. Commissioned Services	Better council negotiation required rather than summarily reducing this.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15869	No Response	2d. Commissioned Services	Look at the best value for money with the best care available and not just the cheapest as this is peoples dignity and lifes you are dealing with	Commissioned Services (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15870	An employee of West Lothian Council	2d. Commissioned Services	Less available services or long delays in accessing services are likely to produce poor outcome overall and ultimately more critical cases.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15871	An employee of West Lothian Council	2d. Commissioned Services	You are certainly considering withdrawing services for the most vulnerable, unfortunately the most vulnerable are normally not in a position to better themselves without help.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15872	An employee of West Lothian Council	2d. Commissioned Services	Council should stop commissioning to non-statutory services.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15873	No Response	2d. Commissioned Services	Council must ensure that although an external provider offers a cheaper service, it is not necessarily value for money. Too many times in the past it has been proven that the cheapest quote on the table turns out to be the most expensive in the long run.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15874	No Response	2d. Commissioned Services	Total review required as some of your "partners" just don't do what they should be doing - you are spending money on a poor quality service - ridiculous.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15875	An individual	2d. Commissioned Services	There should be more funding directly from the Scottish Governments NHS budget, for these services.	Commissioned Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15876	An employee of West Lothian Council	2d. Commissioned Services	The implementation of full service Universal Credit has the potential to increase the amount of residents hitting the poverty line which has a proven factor of increased substance and alcohol abuse.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15877	An individual	2d. Commissioned Services	I think the Council should have been reviewing the care supplied by the external suppliers long before now if the level of service my wife currently receives at the moment verges on the ridiculous,with either not turning up or not turning up at the allocated time.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15878	An individual	2d. Commissioned Services	Sounds like this will lead to a failing of our most vulnerable people which can't be good.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15879	An employee of West Lothian Council	2d. Commissioned Services	So long as this valuable work is able to be delivered by another provider	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15880	An employee of West Lothian Council	2d. Commissioned Services	Health provision is very important. People must be given opportunity to improve their health and circumstances.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15881	An employee of West Lothian Council	2d. Commissioned Services	I agree that the Council should stop spending so much money buying in services from external organisations. However if they stop spending this money externally they need to realise that there will be more pressure and additional workload for staff if these services are now provided internally.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15882	An individual	2d. Commissioned Services	as long as support is still provided when really required I agree with cuts .	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15883	An individual	2d. Commissioned Services	Why would you purchase services without carrying out proper reviews to quantify value for money? Is that what you are revealing here?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15884	No Response	2d. Commissioned Services	As long as the early intervention is not forgotten about as this is the key to later on and more spending.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15885	No Response	2d. Commissioned Services	Cost Reduction means reduced support, live with it	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15886	An individual	2d. Commissioned Services	How will the council ensure that the externally provided services will be the required quality?	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15887	No Response	2d. Commissioned Services	These services are vital. Again better use of staff and facilities would save money	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15888	No Response	2d. Commissioned Services	Agree this funding should be a national agenda and funded direct from central government.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15889	An employee of West Lothian Council	2d. Commissioned Services	We need a thorough monitoring of external purchased placements in social care.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15890	No Response	2d. Commissioned Services	Can the council not look at providing the services in-house?	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15891	An individual	2d. Commissioned Services	I would want to ensure this aspiration is met and it doesn't become what is cheapest as we know from experience buy cheap buy twice. A true saying in my opinion. It is imperative we have an effective mechanism for agreeing what peoples' needs are and not just what we are willing to pay, as this potentially adds costs elsewhere and those costs could be greater than the saving made by buying cheap so the end to ends supply chain must be clear to all in any decision making process on commissioning.	Commissioned Services (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15892	An individual	2d. Commissioned Services	Will this cost be met by Central Government?	Commissioned Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15893	An individual	2d. Commissioned Services	I agree, these services should actually be provided and paid for by the Scottish government	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15894	An individual	2d. Commissioned Services	Should be streamlined where possible where maintaining standards.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15895	An individual	2d. Commissioned Services	It is essential that we continue to provide support to those most in need - not acceptable	Commissioned Services (general)	2. Work will continue to focus on those who are most vulnerable and have additional needs.
15896	No Response	2d. Commissioned Services	Support levels for the vulnerable must not be reduced	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15897	An individual	2d. Commissioned Services	This makes no sense. If the services can be improved and made more efficient do that. If the services can be provided in new ways and the staff can better communicate and draw on additional third sector resources do that too. The people who you do not offer support to have kids and families who need them well, the whole society needs them well. Whether it is early years, teenagers who are not in education or employment, more vulnerable adults with complex needs or elderly people, the less we provide to keep them safe and well and making a positive contribution the more likely they are to come back as crisis interventions, long term unemployed, drug or alcohol dependent or in health crisis of some type. This is short term and will benefit no one. Who will pay for all those crisis services? Safety nets protect everyone even people who don't think they'll ever need them.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable, We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15898	No Response	2d. Commissioned Services	I think this is an area that should be looked at carefully. We seem to pour a lot of money into helping people who will not help themselves. It is important to provide care for vulnerable people but they must also take responsibility and cooperate with initiatives.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15899	An individual	2d. Commissioned Services	The services must be needed if already implemented and used, what would happen to the people receiving help (sat in house and isolated). The services must be funded for the assistance of everyone in West Lothian.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 15900	An individual	2d. Commissioned Services	West Lothian Council and NHS Lothian failed my mother-in-law during the last weeks of her life. Her discharge from hospital to spend her last weeks in her own home were delayed by the inability of the Council and the NHS to put in place a care package. We received a letter to confirm the care package the day after she died. I have very limited confidence in West Lothian Council to deliver care services.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The respondent's experience is noted with regret. Ensuring that the right provision is available at the right time is a major priority for us. The Council and NHS Lothian have embarked on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services with our care providers.
15901	An individual	2d. Commissioned Services	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Commissioned Services (general)	7. 15906	An individual	2d. Commissioned Services	Again the use of external partners needs to be looked at and council employees should be used wherever possible.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15907	An individual	2d. Commissioned Services	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15908	An individual	2d. Commissioned Services	Council should launch local area discussions on partnerships to see if any community groups and organisations could be available to take on some of the workload. Of course uniformity of standards and quality of service provision will have to be addressed.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15909	An individual	2d. Commissioned Services	Out sourcing care services would have to be looked at very carefully. There are concerns over companies employing untrained/under qualified staff to care and look after our vulnerable. What controls would be in place for this?	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15910	No Response	2d. Commissioned Services	Again, hard work from the council is required when these adults are younger children on the wrong path. But all this shouldn't take resources from those adults and children that try to avoid the wrong way.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15911	An individual	2d. Commissioned Services	Bought services should cost the minimal amount but should provide excellent value for money in 'real' terms.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15912	An individual	2d. Commissioned Services	I believe this is a false economy which ultimately will cost the council more in the longer term.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15913	An individual	2d. Commissioned Services	Providing care services by in-house staff would be better in long run rather than buying in services, as local staff are more invested in providing care to clients.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15914	An employee of West Lothian Council	2d. Commissioned Services	Fear that crime may rise if this provision is reduced.	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15915	An employee of West Lothian Council	2d. Commissioned Services	Whilst this is a problem that will never be resolved, there must be a better way to direct these services through working with other providers.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15916	An employee of West Lothian Council	2d. Commissioned Services	what will be put in place to support those most vulnerable when existing care services will be removed?	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 15922	An individual	2d. Commissioned Services	It seems as I go through each proposal, that many of these services are already stretched to their limit and that further reduction will result in many services no longer being able to cope. Who will deal with the repercussions then?? As stated before, time to stop free hand outs brought in by the government, and to increase taxes.	Commissioned Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15923	An individual	2d. Commissioned Services	Hard to comment when only one service is mentioned, it should be made clear which services will be impacted	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15924	An individual	2d. Commissioned Services	Again, are individuals being valued. It takes resources to help people get back on track. Giving them appropriate support could result in these individuals getting their lives back on track and become contributors to society and to the economy.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15925	An individual	2d. Commissioned Services	So long as the council can provide care services to the standard given by external partners, then I agree. However once you start keeping services in house, standards will fall	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15926	An individual	2d. Commissioned Services	More education will reduce this cost.	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15927	An individual	2d. Commissioned Services	Those providers you contract care out to, those so called charities, are not fit for purpose. The staff are given very little training and their working conditions are disgraceful; so much so that staff turn over is a big problem for clients. The Care Commission is very good at handing out forms to fill in and following them up with a phone call - then nothing happens. The managers of these organisations will tell you they help vulnerable people to access the community. But ask where and what they do and they will not have a clue. You want to save money, but you already have and the standard of care has gone down. It will only get worse with what you propose. I thought that the NHS and social care were going to work together, but I don't see anything to suggest that as a council your are trying to facilitate this. Again, this is ideologies at work - can't you work across parties? The more I read about these proposals the more obvious it becomes that the disabled community, old and young, are looked on as the Council's burden.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15928	No Response	2d. Commissioned Services	Care should be taken to ensure that external partners are delivering an effective and efficient service and one that is worth the cost being spent on it. Poor performing companies should be classed as such and this taken into consideration for future decisions.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15929	An employee of West Lothian Council	2d. Commissioned Services	What care services do we currently buy? Which external partners do we use? What council services will we stop buying? Which will we buy less of? Will we provide those services? If not, who will? How will that be funded? How will we decide which providers we will continue to support? What external funding do we receive? Who from? What do we spend above that external funding on external providers? Why does it go through the council and not direct to the providers? Can we make savings by stopping being the middle man?	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15930	No Response	2d. Commissioned Services	look at the more priority in helping the community and bring back more support and help	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15931	An individual	2d. Commissioned Services	West Lothian is a very unique community. In my opinion service should be delivered where possible, by local organisations who know their client group.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15932	No Response	2d. Commissioned Services	Let the NHS deal with medical issues	Commissioned Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

15933	An individual	2d. Commissioned Services	This statement does not make sense as it is poorly written. Does this mean people will be expected to use self directed support to purchase their own services or will they have no service until they reach a critical threshold?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Eligibility criteria related to establishing the level of risk a person is at and at what level services will be provided. Self-directed support allows people to choose how they wish any assessed eligible need to be delivered.
15934	An individual	2d. Commissioned Services	So doing away with services of those who and not critical and stop care for these people what help are these people going to get ????	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
15935	An individual	2d. Commissioned Services	Giving enough time for carers to visit people in their homes, so that needs are properly met and giving greater access to day care centres and social activities is important for older people and their carers to maintain their independence.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
15936	An individual	2d. Commissioned Services	Care is already a stretched service. Any further changes would need to be carefully carried out.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15937	An individual	2d. Commissioned Services	I take it that the current care provision services would now be "brought in-house". This sounds a good use of funds. All costs would be in providing a service to users, and not in providing profit for private companies. Perhaps it would also allow for carers to be properly paid, including for their time in travelling between patients.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15938	An employee of West Lothian Council	2d. Commissioned Services	Reducing care services is only ignoring what our most vulnerable need. Shame on whoever is suggesting this.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15939	An individual	2d. Commissioned Services	Care Providers must be chosen and monitored correctly.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15940	An individual	2d. Commissioned Services	I have volunteered with capability Scotland who work in partnership with the council, so I know how important commissioned services are. It is important to provide the right service to the right people. Capability Scotland provide a free advice and support service, as well as an essential peer counselling service, which WLC would not be able to provide as efficiently as Capability Scotland staff are fully trained to work with those with disabilities.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15941	An individual	2d. Commissioned Services	Having experience of out sourced care I would be very concerned at the service these clients receive from a profit based company.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15942	An individual	2d. Commissioned Services	Could place people at risk given the less money made available, the more likely a service will be reduced or ended due to lack of resources.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15943	An employee of West Lothian Council	2d. Commissioned Services	do not buy in services but provide our own/.....buying out costs more money	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15944	No Response	2d. Commissioned Services	Cutting back the extra funding and leaving it to the bare minimum is expected.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15945	An individual	2d. Commissioned Services	Regrettably the paragraph above seems to be illiterately written that it is hard to know exactly what is meant. Should the separate and ungrammatical sentence " Although support will continue to be given to those providers who deliver services to the most vulnerable in our communities." be linked to the preceding or the following sentence? Does "This will include reducing the council's contribution over and above the level of external funding received for initiatives such as the Alcohol and Drug Partnership Service." mean that the council is cutting its funding to rely on external funding for the ADP?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need. This approach would mean that services for the Alcohol and Drug Partnership would be contained within the funding provided by the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15946	An individual	2d. Commissioned Services	Service providers must be assessed for meeting people's needs but also for value for money. Ongoing supervision and assessment are essential.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15947	An individual	2d. Commissioned Services	good. revue these services against the needs of the elderly and of children.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15948	An individual	2d. Commissioned Services	Support must be provided to the most vulnerable.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15949	An individual	2d. Commissioned Services	As an employee I am concerned at the very frontline our officers are having to take on more and more support to those in our communities with vulnerabilities and chaotic lifestyles. Internally not enough hours are available from other services and there is no clear and easy way for referrals to commissioned services. I fear that our frontline officers will be put under increasing pressure being left to support our customers. I would hope there are clear mechanisms for ALL services to refer customers who are identified with support needs.	Commissioned Services (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
15950	On behalf of a Group/Organisation	2d. Commissioned Services	What part do the NHS play in saving money?	Commissioned Services (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
15951	On behalf of a Group/Organisation	2d. Commissioned Services	Protection of community based groups with skills, knowledge and experience should be given careful consideration. There is a risk when services go out to tender that it becomes and cost and local knowledge and experience become the lesser which can effect local services.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15952	No Response	2d. Commissioned Services	Parents need consultation	Commissioned Services (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
15953	An individual	2d. Commissioned Services	Links with voluntary sector organisations to seek collaborative opportunities	Commissioned Services (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.
15954	An individual	2d. Commissioned Services	Perhaps some of these services should be taken in house	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
15955	An individual	2d. Commissioned Services	Why have you been wasting so much of our money up to this point?	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
15956	An individual	2d. Commissioned Services	If the services aren't bought then will they be provided at all? What services will be affected? This is vague, so it is difficult to comment, apart from saying that services will be reduced. Not good, if they are currently needed.	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15957	An individual	2d. Commissioned Services	There should be a clear ranking system for budget allocation to commission services. The home care system provided by external partners currently lacks auditability.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15958	On behalf of a Group/Organisation	2d. Commissioned Services	We are particularly concerned about this area and the effects this will have on vulnerable adults. West Lothian Council needs to make decisions on what it supports in this area on a regular basis based on the needs, outcomes and its ability at the time. These decisions cannot and should not be decided now for the next 5 years. Short term additional funding from West Lothian Council can help support services and their beneficiaries at times of increased pressures or reductions in funding from Scottish Government to allow a transition period, service redesign or the raising of additional funding to happen.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15959	An individual	2d. Commissioned Services	You need to ensure robust, auditable and well described key performance markers (that are challenging but achievable) so that we can be sure that we have best value from external parties - we are all somewhat cynical of profit to be made from others' misfortune.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15960	An individual	2d. Commissioned Services	The council should minimise outsourcing to profit making organisations. This should be resourced internally	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15961	An individual	2d. Commissioned Services	The council needs to ensure good contract and supplier management with regard to services delivered by 3rd party organisations.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15962	An individual	2d. Commissioned Services	On a personal note my son I believe deserves help from the community. In the past he was a member of the [REDACTED], and helped to deliver Meals on Wheels when they were delivered daily by car. He also pushed a [REDACTED] selling products to patients. He was not able to handle money, and only gave up this activity when the man he assisted had to give up due to ill health. He has been awarded the [REDACTED]. He has always done whatever he could.	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. The WRVS is run independently from the council as a voluntary organisation
15963	On behalf of a Group/Organisation	2d. Commissioned Services	Again these services should be kept in house and not outsourced. A number of our members have experience of external partners not delivering the best service and this not being effectively monitored.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15964	An individual	2d. Commissioned Services	Where external funding continues to be provided to organisations these organisations need to be able to provide evidence of the positive outcomes they are achieving and the numbers of clients they are reaching from providing services.	Commissioned Services (general)	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15965	An individual	2d. Commissioned Services	Social work currently works with providers that are incapable of delivering quality services. capacity issues and also lack of competition for contracts is a concern.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15966	An individual	2d. Commissioned Services	Provide your own service don't buy it in. Otherwise I agree.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15967	An individual	2d. Commissioned Services	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15968	An individual	2d. Commissioned Services	Yes we need partnership organisations to let us know what this will mean for those in need of the support	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15969	An individual	2d. Commissioned Services	Again not enough detail. What would be the impact of these measures, what has benchmarking shown, what would the impact be on the individual, family and community.	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15970	An employee of West Lothian Council	2d. Commissioned Services	The most vulnerable young people and our future generations would benefit from ensuring a consistently strong education service and community support.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
15971	An individual	2d. Commissioned Services	A range of services should be market tested to ensure that best value is being achieved in current arrangements.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15972	An employee of West Lothian Council	2d. Commissioned Services	In my experience there are not enough resources available to the authority either internally or externally and so I feel a review of these services should be welcomed.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
15973	On behalf of a Group/Organisation	2d. Commissioned Services	Early Intervention investment can in the long term prevent some of our care service costs, that said there will always be a need for services for the most vulnerable. I am aware that Commissioning takes place for some of this provision, which is necessary, however, as I have mentioned before the process needs to be robust and fair, providing value for money. This process has not always run smoothly in West Lothian, as more services will be commissioned can to Commissioning and tendering process be robust. As a recipient organisation of the Alcohol Diversion fund, allowing us to deliver support services to some of our most vulnerable young people, together with initiatives to reduce alcohol use amongst young people can I request that this budget is not removed completely in year one of the cuts. The fund could broaden to include all substance use projects. Can consideration be given to the application process of this fund. All parties involved in this work could utilise some of these funds to match fund or leverage additional external funding streams. This can then reduce the need for the Â£ 100,000 to be available in future years. Partnership work in this area could take place during 2018 to ensure services remain in place but funded from sources other than the Council.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15974	An individual	2d. Commissioned Services	So is this part of a move to withdraw services from those currently receiving service or is it that all new applicant will not be supported ... it all sounds like a disaster waiting to happen ... Improving service is fine withdrawing service is not	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15975	An individual	2d. Commissioned Services	The Council should be training their own workers to take on this increasingly important role rather than buying it in privately. That way monitoring can take place more effectively and it should be cheaper. There is not enough provision in this field.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15976	An individual	2d. Commissioned Services	Will this continue to meet the needs?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
15977	An individual	2d. Commissioned Services	Only fund what we need to	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15978	An individual	2d. Commissioned Services	Commissioned services must be carefully monitored to ensure high standards.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15979	No Response	2d. Commissioned Services	Many people do not engage well with statutory services and reducing funding to the voluntary sector who work in key outcome areas in my opinion is not the right thing to do. Work closer with community groups to achieve your goals. Train together, meet together, work together. This is an investment with great social return and benefit to communities and the people who live in it. I do not support this.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15980	An employee of West Lothian Council	2d. Commissioned Services	I think if there are external they should deal with it. Would it be cheaper to bring them in house instead of paying for outsource.	Commissioned Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
15981	An individual	2d. Commissioned Services	The level of care being provided by existing care services need to be better monitored and evaluated as the quality level of service being delivered is poor. The council should first determine which aspects are working satisfactorily versus those that are failing before making any radical changes. Too many private care companies are focused profiteering rather than improving the quality of their services.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15982	An employee of West Lothian Council	2d. Commissioned Services	Any purchased services need to be closely scrutinised, but I believe we are going down a dangerous road when we reduce services within the greatest areas of need in our local area. Substance misuse, domestic violence, mental health, etc. are having the most significant impact on our communities, families and children and we need to ensure that support and prevention services are resourced appropriately.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
15983	An individual	2d. Commissioned Services	I hope and assume that services delivered by external partners always meet people's needs and that they are delivered in the most effective way possible, including value for money.	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
15984	An employee of West Lothian Council	2d. Commissioned Services	These services are vital to the rehabilitation of our residents who have fallen into a never ending cycle of depravation. Without this support they will rely on sources of funding from the council that are ever depleting. Lets hope the support is not reduced significantly or additional strain could be put on resources elsewhere	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

15985	An individual	2d. Commissioned Services	A focus on early intervention and prevention is essential to avoid peoplesâ€™ issues escalating and becoming crises. To be effective this strategy must be multi-layered and ensure appropriate interventions and supports along a continuum. This ensures that people get the help that they need, when they need it, to prevent escalation and crisis. I am, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets? I am also concerned that some of the changes proposed will adversely affect many of the most vulnerable people in our communities, e.g., the raising of thresholds for support or the amalgamation of facilities and reductions in capacity. How will Council ensure that it protects our most vulnerable people? There are key issues around parenting, early childhood development and a widening attainment gap in schools that need the support of local community organisations to effectively address. Health & wellbeing should be a priority, especially mental health and physical health. Through working together with the local third sector these issues can be more effectively addressed. West Lothian's Third Sector is actually a net generator of additional income to West Lothian. Investment from West Lothian Council is often used to leverage in other monies, which is unique to the Third Sector and delivers added value to our public pound. This additional income for West Lothianâ€™s communities and its people is, however, often dependant on the stability of Councilâ€™s core investment.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15986	An individual	2d. Commissioned Services	Commissioned services/external partners are, in general, of lower quality and subject to less controls than in-house provision.	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
15987	On behalf of a Group/Organisation	2d. Commissioned Services	A focus on early intervention and prevention is essential to avoid peoplesâ€™ issues escalating and becoming crises. There are key issues around parenting, early childhood development and a widening attainment gap in schools that need the support of local community organisations to effectively address. Health & wellbeing should be a priority, especially mental health and physical health. Through working together we can continue to be an effective partner in addressing these issues. We are, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets?	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15988	An individual	2d. Commissioned Services	Got to be changes made, lots of expenditure for older people	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15989	An individual	2d. Commissioned Services	I understand this view but would be concerned that standards may drop as share holders profits are added to the mix. A concern would be the council accepting the cheapest contract rather than the standard of the provision of care. Would the council have a dedicated team of supervisors dealing with customer concerns/complaints in case of customer dispute?	Commissioned Services (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

15990	On behalf of a Group/Organisation	2d. Commissioned Services	A focus on early intervention and prevention is essential to avoid peoples' issues escalating and becoming crises. To be effective this strategy must be multi-layered and ensure appropriate interventions and supports along a continuum. This ensures that people get the help that they need, when they need it, to prevent escalation and crisis. We are, however, concerned that reducing or cutting provision at lower tariffs is contrary to the principles of early intervention and prevention and may result in more costly crisis intervention, at a later stage, being required. How does Council plan to assess the potential impact of this on people and budgets? We would like to see a balance between focussing on regeneration areas and priority thematic groups, as many people in poverty do not live in regeneration areas and in-work poverty is a huge issue. How will the Council ensure that people in need of support have access where and when necessary and that this is not restricted to statistically determined geographical limits? We are also concerned that some of the changes proposed will adversely affect many of the most vulnerable people in our communities, e.g., the raising of thresholds for support or the amalgamation of facilities and reductions in capacity. How will Council ensure that it protects our most vulnerable people and how can we assist with this? There are key issues around parenting, early childhood development and a widening attainment gap in schools that need the support of local community organisations to effectively address. Health & wellbeing should be a priority, especially mental health and physical health. Through working together we can continue to be an effective partner in addressing these issues. Broxburn Family Centre would like to maximise the opportunities for partnership working, in family learning, early years, play provision and childcare for our most vulnerable families. Across the sector we have the expertise and relationships with local people and the wider community, to continue to deliver best practice and reduce any opportunities for duplication, thus delivering best value for all. Broxburn Family Centre is a net generator of income to West Lothian. Investment from West Lothian Council has been essential to leverage in other monies, which is unique to the Third Sector and it has delivered significant added value to our public pound. This additional income for our communities and its people has, however, been dependant on the stability of Council's core investment. It has also provided a strong foundation for Broxburn Family Centre to be enterprising and the organisation generates significant amounts of additional income for the area through targeted fees, contracts and	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15991	An employee of West Lothian Council	2d. Commissioned Services	A reduction in external providers is not necessarily a bad thing as long as we are clear that we can provide what is required with the resources that we have. When externalising work we should be looking at not only cost, but past contract performance, what is being offered and look at long term implications of these rather than the short sighted cost based only analysis. A reduction in funding for services will mean that other services are likely to receive an increase in work which will put additional stress and pressure on staff and resources that are still in place.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
15992	An individual	2d. Commissioned Services	I believe this service is essential in the current climate but I believe that savings must be made	Commissioned Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
15993	On behalf of a Group/Organisation	2d. Commissioned Services	Discussions should be held with organisations which deliver similar service to explore where integration might be possible and beneficial to the individuals they support.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15994	On behalf of a Group/Organisation	2d. Commissioned Services	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Commissioned Services (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
15995	An individual	2d. Commissioned Services	Discussion should be held between organisations supporting the same or similar groups to explore the possibility of the integration of these organisations to reduce costs but continue to meet the needs of the individuals they support.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
15996	An individual	2d. Commissioned Services	Who decides the standards that 'meet peoples needs'. This needs much greater quality assurance.	Commissioned Services (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.
15997	No Response	2d. Commissioned Services	Agree in part however is health then going to pick up slack. The council already experiencing pressures where addiction and mental health having huge impact on homelessness on area. This then has impact on communities safety etc. We need to ensure that focus moving forward on what is provided reflects needs and that health services are available to cope.	Commissioned Services (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.

15998	An individual	2d. Commissioned Services	Appropriate care and of the best quality.	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
15999	An employee of West Lothian Council	2d. Commissioned Services	If shorter care visits are to be instigated then care needs to be targeted appropriately. How can an elderly patient be bathed in such a short time period without distress.	Commissioned Services (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16000	An employee of West Lothian Council	2d. Commissioned Services	It is difficult to respond here as, again, there is no detail on how the estimated savings have been calculated or what is proposed. Which care services will be reduced as stated?	Commissioned Services (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16001	An employee of West Lothian Council	2d. Commissioned Services	I would like to make similar comments to those raised above. Moving care into 1 facility may exacerbate the services on other already stretched council services. It may be hard for vulnerable groups to travel to one location.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16002	An individual	2d. Commissioned Services	Reducing this service to just cover 'the most vulnerable in our communities' is a disgrace. Again, I am sure there will be many people who need your help left in despair. A rise in this year's Council Tax would have helped this situation. Would it be possible to achieve a reduction in the external partner's costs in West Lothian formed a consortium with other Lothian councils, maybe even Scotland wide authorities?	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16003	An individual	2d. Commissioned Services	Stop accessing private companies on larger hourly rates!	Commissioned Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16004	An individual	2d. Commissioned Services	This sounds like cutbacks, reducing services and centralising facilities - or farming them out to other agencies. Not sure that this has been shown to work.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16005	An individual	2d. Commissioned Services	We urgently need this place Pre-sync 27 and Cyrenians to help each individual with addictions and the still suffering and families who are very vulnerable. e.g. little children are included that is why we need these services and they are very much needed.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16006	An individual	2d. Commissioned Services	Recently completed a community Rehab programme through the Cyrenians and I also attend the recovery hub. These places are a lifeline for those in addiction as you can find like minded people and gain support from staff and peers. Without these services I would have no place to go and myself and others may go back to addiction. It has helped me a lot in my recovery and has helped me to gain support to get certificates and allow me to gain extra skills and grow to be able to move back into employment. Without these services I wouldn't be where I am today.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16007	An individual	2d. Commissioned Services	I feel its important to keep these services a priority as they help people get stable on meds and even clean. If people are using drugs then this stretch's other areas i.e.the Police, Prisons, Courts. Crime will be reduced. So this is a must to keep these things open as I have used the facilities myself and I am not at college. I don't think I would have managed to get to where I am without these services.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16008	An individual	2d. Commissioned Services	I feel its important to keep these services they supported me in my journey to recovery.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16009	An individual	2d. Commissioned Services	All recovery places should stay open for the people who are going through recovery has a safe place to go to rather than being outside doing something that they don't want to being doing. Keeping recovery places open will reduce the relapse rate as they know they has somewhere to go to when things cut tough and let the help and support the need to stay clean.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16010	An individual	2d. Commissioned Services	Worry - going to go for the cheapest rather than the quality - they need quality services rather than cheap	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

16011	An individual	2d. Commissioned Services	Without commissioned services like the recovery hub and places like this I wouldn't be clean today. It is a community of like minded people to support each other and to offer support to others who are still in addiction.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16012	An individual	2d. Commissioned Services	Without commissioned services myself and others who gain support from addiction services would suffer. It would allow for a lack of structure and would allow us to go back down a slippery slope. I have been involved with addiction services for 3 years now and they have supported me to gain stability and to be a better person for my children and without these services I don't know where I would be.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16013	An individual	2d. Commissioned Services	I think the council should focus on mental health services. To get an appointment with CAMBHS, it took over 8 months to get my appointment after my initial referral. I believe that appointments should become more frequent and start seeing a mental health worker a lot sooner because not seeing someone soon can make a person seem 100x worse. I think small price cuts should be put on all areas that would be the least impacted by budget cuts and to try and preserve jobs of people who work for WLC. We already don't have enough libraries so try not to make cuts on that. Take money out of your reserve (£120 million).	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16014	An individual	2d. Commissioned Services	Support for self-harm and depression and anxiety. Not enough support due to the cuts. Need more money for these services.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16015	An employee of West Lothian Council	2d. Commissioned Services	Agencies providing care packages still seem to have the upper hand over the council - the recent reorganisation into patch areas by geography. Does not seem to be working & reablement service are jammed up with people awaiting pocare and community OTS should be more involved in Rehab/reablement as part of case work.	Commissioned Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
16016	An individual	2d. Commissioned Services	I believe this is the way forward you should not depend on external companies to provide care for individual s but provide a service that is managed and controlled by west Lothian council unless individual s choose self directed care. More emphasis should be pace don building workforce that is flexible and meets the needs of West Lothian residents and provide care in their own home environment and not in residential or nursing home. More emphasis should be placed on educating children about the dangers of drugs and alcohol.	Commissioned Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16017	An individual	2d. Commissioned Services	yet a another valuable service that is being cut!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16018	An employee of West Lothian Council	2d. Commissioned Services	Once again those who need this care will loose the most	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16019	An individual	2d. Commissioned Services	If addicts of whatever persuasion are driven into a corner,the demands on other services will increase as will crime.This may not turn out to be a money saving scheme	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16020	An employee of West Lothian Council	2d. Commissioned Services	Cuts here now will undoubtedly add to higher costs at a later date.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16021	An individual	2d. Commissioned Services	I do not agree with this proposal.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16022	An individual	2d. Commissioned Services	I don't support this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16023	An individual	2d. Commissioned Services	I do not support this change	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

16132	An individual	2d. Commissioned Services	So not feel knowledgeable enough in this to comment constructively.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16133	An individual	2d. Commissioned Services	Not clear what this means.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16134	An individual	2d. Commissioned Services	Proposal is too unspecific to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16135	An individual	2d. Commissioned Services	Do not feel informed enough to make any comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16136	An individual	2d. Commissioned Services	No idea what this means. Sounds suspiciously like we want to stop helping and leave it up to e.g. Charities? No! The council is there for this too. Again just put up the council tax! How about telling us what a bill would look like if we left things alone?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16137	An individual	2d. Commissioned Services	This will just make for more expensive solutions in the future. Will this really save money?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16138	An individual	2d. Commissioned Services	Do not have enough knowledge in this area to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16139	An individual	2d. Commissioned Services	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16140	An individual	2d. Commissioned Services	This section is very vague, as are most of the proposals. It doesn't give details as to whom the external partners are or what do you mean exactly by 'the most vulnerable in our communities'? More detail is required before anyone can make a comment on what you are saying exactly. There needs to be more plain talk rather than is ambiguous language you use.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16141	An individual	2d. Commissioned Services	Would need to understand what impact this would have on individuals and the council's priorities before I could reasonably comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16142	An individual	2d. Commissioned Services	Eh?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16143	An individual	2d. Commissioned Services	2d This proposal does not make sense. on one hand the council is proposing to reduce funding for external partners yet have a greater reliance upon external agencies to provide care and support services. these two measures do not equate. This question lacks detail as to what external agencies and bodies currently provide and at what cost. What is the detail upon their reliance and what budget allocated.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16144	An individual	2d. Commissioned Services	I don't understand	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16145	An individual	2d. Commissioned Services	This proposal is not clearly set out.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16146	An employee of West Lothian Council	2d. Commissioned Services	The council have not provided enough indepth information for me to make an informed comment on this, as all information about this whole consultation is more secret that area 51.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16147	On behalf of a Group/Organisation	2d. Commissioned Services	Same as above	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16148	On behalf of a Group/Organisation	2d. Commissioned Services	More information required to enable further comments.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16149	An individual	2d. Commissioned Services	Again I don't know enough about this	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16150	An individual	2d. Commissioned Services	unable to comment as not in plain english	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

16312	An individual	2e. Building Based Care	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16313	An employee of West Lothian Council	2e. Building Based Care	quality assurance is needed regarding private companies to ensure the safety and mental health of older people	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16314	An employee of West Lothian Council	2e. Building Based Care	Don't agree with care services being delivered by private companies. Council staff are properly trained and have service level agreements, constant checks; will private companies face the same checks?	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16315	An employee of West Lothian Council	2e. Building Based Care	Again, better emphasis by empowering the local community service providers.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16316	An individual	2e. Building Based Care	Would there not be scope for partnership provision of these (centres for older people) services?	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16317	No Response	2e. Building Based Care	Brining in agencies to supply services is always going to be more expensive that providing the services ourselves. An increase in council staff in certain fields could save money.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16318	An individual	2e. Building Based Care	External partners...you mean private companies...who once council services cease are free to increase and increase their charges with NO OPTION FOR WLC TO SAY NO!!	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16319	An individual	2e. Building Based Care	Again difficult to ascertain what the proposals actually mean. For example closing day centres but the service continuing to be delivered by external partners - is the proposal to erect tents to deliver the service?	Building Based Care - external partners	4. The council is already doing this.	West Lothian already commissions day care services from a range of external partners in their premises
16320	An individual	2e. Building Based Care	So you plan on removing the social aspect of elderly people's lives? This is important for healthy lives and prevention of loneliness in elderly persons lives. Is the closing of these facilities a short term cost saving over a long term increase. Costings should be carried out to assess the long term savings actually being achieved - think PFI and the robbery they are. When we lose the ability to provide these services ourselves, we are at the mercy of external providers and the costs they deem acceptable. This is usually higher than the price point that they can be provided by the council with their own assets.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16321	No Response	2e. Building Based Care	External partner's costs should be driven right down for maximum savings. Lets get out of the habit of being ripped off.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16322	An individual	2e. Building Based Care	As long as the service will be delivered satisfactorily by existing external partners.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16323	An individual	2e. Building Based Care	oh yes the external partners that are declaring tthey might be liquidating as a company. really the author of this idea needs to waken up	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16324	An individual	2e. Building Based Care	the monitoring of these external providers needs to be improved / at present it feels like the council is transferring its responsibility to others for a reduced service just to save money not make lives matter	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16325	An individual	2e. Building Based Care	Are these private providers? This is not clear. Public services should be provided by public sector organisation. Profit-making organisations should not.	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16326	An individual	2e. Building Based Care	As long as the existing partners are not-for-profit organisations.	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16327	An individual	2e. Building Based Care	When I was little (70s) my Granny used to bake for the church teas served to the old folk once a week. Couldn't this be an option again, where churches and charities play a part?	Building Based Care - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16328	An individual	2e. Building Based Care	Pushing services to external partners can be made to look efficient on paper, but the cost of losing close control and addressing poor performance etc need to be considered fully, and service level agreements need to be thorough. Local Authorities can be guilty of agreeing to sloppy SLAs because they're just excited to quickly reduce their workload and predicted spend, subsequently ending up paying more for the overall service as they have to go back and deal with all the holes in the agreement, which of course the contractor as a commercial organisation has taken the time to understand and exploit.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16329	An individual	2e. Building Based Care	External partners have been known to "cherry pick" clients and also private funded clients get priority. WLC must ensure that whatever replacement is provided that it is no less favourable than existing services.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
16330	An individual	2e. Building Based Care	external partners only interested in profit?	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16331	An individual	2e. Building Based Care	How can the council say they will close council owned centres, when partnership and private provisions are struggling to survive and many are closing in the current climate the government has left the country in	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16332	No Response	2e. Building Based Care	concerned about whether private companies are in a position to provide care of the same level given the reports that these companies are struggling to meet the requirements of the business and key partners such as Bield having to close some of these care homes	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. The Council works closely with all providers to monitor all aspects of their business models and in the case of Bield this was a national decision to change their model, not something linked just to West Lothian Council's commissioned services
16333	An employee of West Lothian Council	2e. Building Based Care	The council should look into encouraging development of more charity / local projects to assist people in need.	Building Based Care - external partners	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16334	An individual	2e. Building Based Care	Closing Council owned services is really bad and outside agencies cannot always be trusted.	Building Based Care - external partners	4. The council is already doing this.	West Lothian already commissions day care services from a range of external partners.
16335	An employee of West Lothian Council	2e. Building Based Care	I don't think this would work. Local authorities have cut back on the fees they pay private providers for beds, which the private sector cannot sustain. As a consequence, private providers are turning down LA funded places, and with beds not being filled, the homes are closing down. This will put pressure on local authorities being able to find beds for elderly people, and the only sustainable solution is for local authorities to build their own homes.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal is about day care in council care homes, not residential care
16336	An employee of West Lothian Council	2e. Building Based Care	Agree - work more with specialist providers	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16337	No Response	2e. Building Based Care	closing centres and relying on a 3rd party or external source could remove the much needed help and care provided by these day centres for families who have members of their family in care. This could then lead to further costs elsewhere in response to the removal of this service.	Building Based Care - external partners	4. The council is already doing this.	West Lothian already commissions day care services from a range of external partners.
16338	An employee of West Lothian Council	2e. Building Based Care	I agree with this proposal as long as the service providers are closely monitored to ensure the level of support is appropriate.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	West Lothian already commissions day care services from a range of external partners.
16339	An individual	2e. Building Based Care	I do not agree with closing day centres and using external partners. Unwound expect using external partners to be more expensive in the long run. Care for older people should not be compromised.	Building Based Care - external partners	4. The council is already doing this.	West Lothian already commissions day care services from a range of external partners.
16340	An employee of West Lothian Council	2e. Building Based Care	Very good proposal we should be looking at outside help from the private sector on housing for the elderly	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16341	An individual	2e. Building Based Care	Aah see above - Farm it out, so you can easily cut it later. Again it should be kept inside. "External Partners" want to make money, want to earn a profit. The council should be able to deliver this cheaper than the private sector. If it can't it needs to figure out how to achieve this rather than pay the private sector.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16342	An individual	2e. Building Based Care	Is outsourcing always cheapest? Are good checks made on the external providers?	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16343	An individual	2e. Building Based Care	Would existing partners charge for the service?	Building Based Care - external partners	4. The council is already doing this.	West Lothian already commissions day care services from a range of external partners at a rate that is more cost effective.
16344	An individual	2e. Building Based Care	In principle this sounds okay, but would partner provided services be just as accessible for existing Centre users? This would be a more palatable proposal if Age Concern or similar publicly stated their support for this.	Building Based Care - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16345	No Response	2e. Building Based Care	private vs. public service provision and where the priorities lie in private sector.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16346	An individual	2e. Building Based Care	What would this model actually look like, would there be adequate room for all who need to access to access, or would it be another area that would be over subscribed.	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	Thank you for your comment which will be considered as part of any service redesign
16347	An individual	2e. Building Based Care	It is important that older people can access services such as day care in their local area.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16348	No Response	2e. Building Based Care	How secure would this be and could external partners not withdraw a vital service with minimal notice	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16349	An employee of West Lothian Council	2e. Building Based Care	How can existing external partners deliver a service if they don't have a building - are you planning to hand over existing buildings to these partners to keep a service running?	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16350	An individual	2e. Building Based Care	I do not believe external partners will provide any better or cheaper service and should not ever be used.	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16351	An individual	2e. Building Based Care	If you are proposing closing the council owned centres who is going to fill the void given that Beld are closing three nursing homes in West Lothian.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16352	An individual	2e. Building Based Care	I noted that Bield at Westport are giving us a glimpse of the future of elderly care, and it does not look good	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

16353	An employee of West Lothian Council	2e. Building Based Care	Need to make sure that external partners do not over charge and provide an adequate service.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16354	An employee of West Lothian Council	2e. Building Based Care	Can Acredale day care be accommodated in Rosemount court?	Building Based Care - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16355	An individual	2e. Building Based Care	More questions than answers! Do we know if the "existing external partners" are in a position to continue delivering services? Have they been asked? Do they have the resources?	Building Based Care - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16356	An individual	2e. Building Based Care	with incomes verses inflation at an all time low would these external providers cost the individual more	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16357	An individual	2e. Building Based Care	How are external partners' standards monitored?	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16358	An employee of West Lothian Council	2e. Building Based Care	Is these external partners private like nursery where if you can't afford you do without? With the loss of council run nurses taken over with other partners , lots of kids are losing out due to costs is this now going to happen with the elderly?	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16359	An employee of West Lothian Council	2e. Building Based Care	Will external partners cost more than council based services in the long run? Will prices go up as demand from councils increases??	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. The cost of internal day care is more expensive.
16360	An individual	2e. Building Based Care	If you are going to rely totally on external providers delivering care services then there has to be protection written into the contracts to ensure continuation and no deterioration of service to the those concerned.	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16361	An individual	2e. Building Based Care	Surly it would be cheaper to use your own buildings and staff rather than paying a profit drive organisation to provide care?	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16362	No Response	2e. Building Based Care	Often the external providers don't given the same level of services. This would be a huge loss.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16363	An employee of West Lothian Council	2e. Building Based Care	Who are the existing partners? Do they have the resources to cope with the influx of clients who have had their services withdrawn.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16364	An individual	2e. Building Based Care	Are existing external partners volunteers? If not and either the council - or users have to pay then I most definitely disagree with this proposal.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16365	An individual	2e. Building Based Care	If external partners can make it pay Why can't the WLC	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Our partners can deliver this service at less cost as the infrastructure of our partners agencies is very different
16366	An individual	2e. Building Based Care	External partners would not be charitable enough to provide this service were they not making a profit from doing so. If they are profiting, you are being overcharged, so this service should be kept in public hands to ensure the efficient allocation of public money.	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Our partners can deliver this service at less cost as the infrastructure of our partners agencies is very different

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16367	An individual	2e. Building Based Care	External partners again! At the end of the day you are looking at more external partners and less council employees. In the long term that will cost more money.	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Our partners can deliver this service at less cost as the infrastructure of our partners agencies is very different
16368	An individual	2e. Building Based Care	As long as these external partners are providing great service and excellent value for money.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16369	An employee of West Lothian Council	2e. Building Based Care	how can it be cheaper to pay an external partner rather than provide the service ourselves, surely this is a false economy	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Our partners can deliver this service at less cost as the infrastructure of our partners agencies is very different
16370	An individual	2e. Building Based Care	This sounds a lot like certain buildings will be privatised. A more clear picture would be nice.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16371	An individual	2e. Building Based Care	External partners are in this to make money . This implies that the council (where profit is not a criteria) should in theory be better placed to provide the same service at a lower unit cost .	Building Based Care - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Our partners can deliver this service at less cost as the infrastructure of our partners agencies is very different
16372	An individual	2e. Building Based Care	Concerned about the day care closures. Partnership plus transferring to appropriate community groups may be a way forward.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16373	An individual	2e. Building Based Care	Outsourcing the day care service means the private service providers may at any time find themselves in a difficult financial position and go out of business. The Council is unlikely to pick up the service again in the next five years or more. Loneliness and lack of social interaction is known to have a detrimental effect on the well being of older people which in turn will impact on the health service.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16374	An individual	2e. Building Based Care	I do not understand how external partners can continue to deliver services if the buildings close. While similar physical care might be provided in an individual's home, the social stimulation provided by day centres would be lost. A basic description of Rosemount Gardens would allow more meaningful comment on this proposal.	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16375	An individual	2e. Building Based Care	Are external partners providing a cost effective service? Or are they providing a service, but also providing profit for their owners/shareholders? Should it not be services from external partners that are being cut, not council owned ones?	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The provision of day care with our external partners was modelled and costed and can be delivered in a less expensive way than the council can, mainly due to the difference in overhead costs.
16376	No Response	2e. Building Based Care	What assurances can be give that existing external partners would continue to provide care services for older people. If they decide not to provide this service, and the Council has closed their service, who will support our older residents?	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16377	No Response	2e. Building Based Care	Doesn't really matter who delivers the service, as long as it is there.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16378	No Response	2e. Building Based Care	External partners need to have their operations adequately funded.	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16379	An individual	2e. Building Based Care	Again the most vulnerable members of society are having their services hit. Existing external partners ie charities are being forced to provide essential not supplementary services for this largely ignored group.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16380	An individual	2e. Building Based Care	Fine if it works but external partners are being squeezed too. Look at Bield. What happens when they withdraw?	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
16381	An employee of West Lothian Council	2e. Building Based Care	The council would need to ensure the level of support provided by external partners meets the needs of older people	Building Based Care - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16382	An individual	2e. Building Based Care	see the above comment, purchased providers do not offer value for money for councils.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16383	An individual	2e. Building Based Care	Who are these external partners?	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16384	An individual	2e. Building Based Care	If external partners take on the services, would the quality of care, staffing and hygiene continue? Would they have to meet council standards or run as an independent entity?	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16385	An individual	2e. Building Based Care	Disagree. Lots of providers don't have the skilled staff they require or have longevity.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16386	An individual	2e. Building Based Care	The use of private provision by external partners should be discouraged. Public-private partnership is not in the best interests of the community.	Building Based Care - external partners	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16387	An individual	2e. Building Based Care	I do not think this is a good move. Private Health care is often more expensive than those provided by the Council.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16388	An individual	2e. Building Based Care	How can it be cheaper to use external partners it should be cheaper to provide your own service so seems crazy to close your own day centresunless you plan not to provide the service at all.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16389	An individual	2e. Building Based Care	Are external partners providing a quality same service cheaper?	Building Based Care - external partners	3. The respondent advised that they had no comment to make.	Council purchased day care for older people in the independent sector is more cost effective
16390	An employee of West Lothian Council	2e. Building Based Care	This needs to be handled carefully. Many "private" care facilities (or external partners) are exploiting staff. Some are paying staff well below minimum wage and not providing suitable breaks for staff that care for our most vulnerable people. Tighter control needs to be introduced over the way these "external partners" are run as many are making enormous profits from the most vulnerable people in our society including both our old people and vulnerable staff.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16391	An individual	2e. Building Based Care	Then these external partners can charge whatever they like to vulnerable citizens in desperate need of care.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16392	On behalf of a Group/Organisation	2e. Building Based Care	Not convinced external service provision will match in-house. The SLA needs to be comprehensive and enforced.	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16393	An employee of West Lothian Council	2e. Building Based Care	Will this be impacted by the reduced level of funding given to external providers?	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16394	An individual	2e. Building Based Care	The external partners provision would need to be monitored to ensure the service is high quality. The council should have overall control of these services.	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16395	An individual	2e. Building Based Care	See my response to 2d. - I hope and assume that services delivered by external partners always meet people's needs and that they are delivered in the most effective way possible, including value for money.	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16396	An individual	2e. Building Based Care	Commissioned services/external partners are, in general, of lower quality and subject to less controls than in-house provision. Counter to stated Priority 4: improving the quality of life for older people.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16397	An individual	2e. Building Based Care	Careful consideration should be taken to ensure the cost effectiveness of external partners providing services can be a case of false economy.	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16398	An individual	2e. Building Based Care	Do you have adequate assurance that 'existing external partners' are financially sustainable and will not also be cutting back their service levels. F	Building Based Care - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16399	An employee of West Lothian Council	2e. Building Based Care	Perhaps with negotiation it is possible to try and get external partners to review their costs if budgets are tight, as they may prefer to continue with a care package even if the revenue from this package is reduced.	Building Based Care - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16400	No Response	2e. Building Based Care	Private providers of these services have closed. I assume this is what you mean by external partners causing great distress to 'patients'. In Linlithgow a private sheltered flat costs more than a pleasant 3 bed semi with garden.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
16401	An individual	2e. Building Based Care	External services do not usually become cheaper in the long term and the services usually deteriorate	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16402	An individual	2e. Building Based Care	This sounds like cutbacks, reducing services and centralising facilities - or farming them out to other agencies. Not sure that this has been shown to work.	Building Based Care - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16403	An individual	2e. Building Based Care	Closing council owned day centres and buying in services cannot be cost effective.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16404	An individual	2e. Building Based Care	Council owned day centres closing - day centres now external partners.	Building Based Care - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16405	An individual	2e. Building Based Care	We need more places like Rosemount Gardens	Building Based Care - housing with care	4. The council is already doing this.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16406	An individual	2e. Building Based Care	More facilities like Rosemount Gardens would be good.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16407	An employee of West Lothian Council	2e. Building Based Care	Rose mount is great and I can see how it benefits the older adults that require these settings. More places like this will reduce the mental health issues in older people also.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16408	An individual	2e. Building Based Care	This is just management speak. you are shutting down services and leaving people to make do themselves. The likely consequence is more demand on at home care support. Have you done the maths to see which option is more cost effective?	Building Based Care - housing with care	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16409	An individual	2e. Building Based Care	With the sudden demise of Bield Care Home it would be imprudent to move more services to the private sector, especially with the predicted rise in over 75 population.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. The Council works closely with all providers to monitor all aspects of their business models and in the case of Bield this was a national decision to change their model, not something linked just to West Lothian Council's commissioned services
16410	An individual	2e. Building Based Care	There is a need for the sheltered housing/housing with care type of accommodation for younger adults which could prevent expensive residential care costs being required. This can also prevent social isolation and the need for individual social inclusion funding. Look at the use of peer support for activities. There are lounges in sheltered housing complexes that are under used and could be a meet up resource for people of all ages to get together for social inclusion. cial inclusion.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16411	An individual	2e. Building Based Care	Rather than care in the community should those in need be housed together? There is an example of this in Buttries View, Armadale - a large house where a few people who need care are together, kind of similar to an old folks home. That way they aren't isolated, they have the carers there and can get help immediately while still remaining part of the community.	Building Based Care - housing with care	4. The council is already doing this.	Thank you for your comment which will be considered as part of any service redesign

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16412	An employee of West Lothian Council	2e. Building Based Care	If NHS and Council actually had meaningful partnership in terms of how best to solve bed blocking and lack of care at home packages perhaps could see some progress. d.	Building Based Care - housing with care	4. The council is already doing this.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
16413	An employee of West Lothian Council	2e. Building Based Care	The latest care at home setup whereby external providers were given areas to service and then clients chose not to take that particular service causing an overload on 1 service and another to have minimal input does not seem to be the best way forward.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16414	No Response	2e. Building Based Care	Rosemount gardens is an excellent care facility for the elderly	Building Based Care - housing with care	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16415	An individual	2e. Building Based Care	Not sure I understand the implications. Are you suggesting more facilities like Rosemount which is an excellent example?	Building Based Care - housing with care	3. The respondent advised that they had no comment to make.	The assisted living model at Rosemount Gardens is the model we would like to move towards in our other housing with care establishments
16416	No Response	2e. Building Based Care	the Care at home service and the use of their technology is a great saving to west Lothian council.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16417	An employee of West Lothian Council	2e. Building Based Care	I have to agree that the use of technology and adaptation grants to support adults and older people at home is a positive step.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16418	An individual	2e. Building Based Care	We need more housing with care and we need to engage with the community on what it has to offer. Rosemount Garden is providing an outstanding choice for tenants, residents and community.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16419	An individual	2e. Building Based Care	More Housing with care is needed.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16420	No Response	2e. Building Based Care	It is essential that older people have as much support to live independently as possible to reduce the strain put on hospitals/respite/OPH etc.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
16421	An individual	2e. Building Based Care	Why not have supported living rather than care home type service.	Building Based Care - housing with care	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16422	An employee of West Lothian Council	2e. Building Based Care	Wardens are needed. No debate. Dementia is on the rise.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16423	An individual	2e. Building Based Care	This model should be considered in more rural areas, residents of Stoneyburn who require building based care currently have to leave the village to receive the service. Most people would want to stay within their own locality, this in turn would benefit careers and family especially elderly relatives and family members on low income.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
16424	An employee of West Lothian Council	2e. Building Based Care	I'm not clear what this is saying. Would services move to Rosemount Gardens or is it now generally accepted that traditional day centres are not viable. Perhaps Rosemount offers the flexible model that should be adopted. I don't know enough to be able to compare.	Building Based Care - housing with care	7. The respondent's comment was either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16425	An employee of West Lothian Council	2e. Building Based Care	Does flexible model really mean less? With an aging population this surely is a short sighted approach to adopt.	Building Based Care - housing with care	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
16426	An individual	2e. Building Based Care	Older people need places to go. Many of them live alone. You cannot simply forget about these people.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16427	An individual	2e. Building Based Care	Letting old people within their homes lonely without interaction?	Building Based Care - housing with care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16428	On behalf of a Group/Organisation	2e. Building Based Care	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What day centres are you referring to and how many people will this affect? What is a flexible model of housing? Who are you referring to here? what groups of people does this affect because not everyone has access to Self Directed Support? How would this actually work in practice	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16429	No Response	2e. Building Based Care	I completely agree with the proposal of providing housing with care for older people throughout West Lothian but a roll out of this provision will take years and unlikely to happen at all in Linlithgow. Therefore I would strongly suggest that no existing services are cut prior to this provision being made available which makes savings in this financial period very unlikely	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
16430	An individual	2e. Building Based Care	Waste of money that building built and not used for what it was purposes for housing with care because no funds total waste	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16431	An individual	2e. Building Based Care	More facilities like Rosemount Gardens would be a good idea	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16432	An individual	2e. Building Based Care	In providing assessment for older people, full awareness of local resources, voluntary groups, befriending services is essential to be able to signpost people to free/low costs options rather than automatically considering services commissioned by the council.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16433	An employee of West Lothian Council	2e. Building Based Care	Depends on how well this new flexible model serves people's needs.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16434	An individual	2e. Building Based Care	I do question the value of short care visits and how these are implemented. For example my mother and some of her friends live in sheltered accommodation. My mothers' provider has a unique approach where the provider tries to ensure that they have one worker meet all residents needs (in the main barring holidays/sickness etc.). This seems much more manageable and efficient as opposed to many carers coming and going from the same sheltered housing building	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16435	An individual	2e. Building Based Care	There should be a higher number of housing with care complexes across West Lothian.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16436	An employee of West Lothian Council	2e. Building Based Care	I am aware of other councils who use a 24 hour warden service for people who live close by to one another. They still live in their own property with a POC but have access to a warden which is similar to housing with care. This would mean you do not need to pay for the building just the staff.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16437	An employee of West Lothian Council	2e. Building Based Care	A more flexible model for housing with care for older people would be welcomed	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16438	An individual	2e. Building Based Care	I agree with the proposal of providing housing with care for older people throughout West Lothian but would strongly suggest that no existing services are cut prior to this provision being made which makes savings in this financial period very unlikely.	Building Based Care - housing with care	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16439	An individual	2e. Building Based Care	Assessment of accommodation/individual needs must be carried out by relevantly trained professionals.	Building Based Care - housing with care	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
16440	An individual	2e. Building Based Care	As far as I am aware Rosemount Gardens is sheltered housing/ housing with care so how does that compare to a daycentre? I am sure that elderly clients wouldn't mind paying a little extra for their fees a week, every little helps.	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal is about two aspects of building based care - one for day care and one for residential care
16441	An individual	2e. Building Based Care	Rosemount Gardens looks a fabulous place. The council should be looking to ensure these facilities are available elsewhere in the council boundary. However the costs of this may be supported by council to those in most need.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16442	An individual	2e. Building Based Care	I agree with the proposal of providing housing with care for older people throughout the West Lothian area but would be strongly against any current existing services being cut prior to this provision being made.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16443	An employee of West Lothian Council	2e. Building Based Care	More housing with care provision generally may be a better way of meeting needs in the future that social work service will no longer support.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16444	An individual	2e. Building Based Care	We have just seen announced the closure of Bield's residential care facility in Linlithgow where, as I understand it, the Council contribution does not meet the full average cost of a place. It sounds as though you are willing to risk replicating this. I would be happy for the Council to provide this service directly.	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care

16445	An individual	2e. Building Based Care	many people would prefer to remain in their home. the provision of modern factory made units could release larger houses and make care easier for the house bound.	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16446	An individual	2e. Building Based Care	Housing with care is such a supportive model but could it also be adopted for more younger vulnerable adults in the community who need care. It would reduce the need for care providers to provide care and if run properly could provide social opportunities and reduce the need for day care provision.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16447	An individual	2e. Building Based Care	Housing with care has proven to be ineffective and a financial burden on those who run them so vulnerable people could be left with nothing	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16448	An individual	2e. Building Based Care	More housing with care is required, not less. It is hugely stressful situation to realise that your relative needs care, but it takes months to get an assessment. Whilst I appreciate that allowing people to stay in their communities is ideal, currently there is not enough support for people to do this. Delays in assessments are already critical. Also, for some people residential care is the best model.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16449	An employee of West Lothian Council	2e. Building Based Care	Rosemount Gardens is a great facility - it is modern and well placed in the community with great services. I'm sure more facilities like this either private or via the council would be welcomed and allow people to grow old in much nicer places than some of the run down places currently in use.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16450	An individual	2e. Building Based Care	Concerns about cost saving over the needs of individuals. Agree that people who want to remain in their homes should be given every support to do so if safe and appropriate for them.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16451	No Response	2e. Building Based Care	Housing with care should be available to the under 60's who require additional support outcomes and not been met within own tenancy. Also those who do not wish to reside in their own tenancies due to isolation.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16452	An individual	2e. Building Based Care	We need an expansion in Care Homes where people can be treated more professionally in every community ... whats your investment programme in this regard	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care.
16453	An individual	2e. Building Based Care	You need more Rosemount Gardens have you any plans ? What about existing private carers in West Lothian with excellent Care Commission rating are you approaching them to provide services	Building Based Care - housing with care	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16454	An individual	2e. Building Based Care	This is a good proposal. Housing with Care facilities help support many older people bridging the gap between sheltered accommodation and care homes.	Building Based Care - housing with care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16455	An individual	2e. Building Based Care	Packages of care are still being provided to those in Rosemount Gardens and in other housing with care buildings. Staff in these environments should be able to assist service users with their care needs including personal care and socialisation. Invest monies into retraining these staff to assist residents rather than relying on several different providers providing care to the residents up to 4 times daily and taking them out for social inclusion?	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16456	An individual	2e. Building Based Care	Housing with care is a fantastic concept and way forward but only if the services are provided by WLC within the buildings.	Building Based Care - housing with care	4. The council is already doing this.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16457	An employee of West Lothian Council	2e. Building Based Care	Care at home service framework is simply not working. I appreciate this is a national issue but clearly isn't working at a local level in West Lothian (the Lot system).	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16458	An employee of West Lothian Council	2e. Building Based Care	This should be means tested again, however the rate of care homes costing privately is overly charged. We need to find a happy medium which cuts private costs which will make more people go into private care homes and will counteract the amount going into Council run care homes.	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
16459	An individual	2e. Building Based Care	For me this is one of THE most important service areas. Too many WL older residents are lonely, living in old coal mining accommodation, away from the population centres such as Livingston and Bathgate and without access to shared social spaces and activities or transport to get them to one.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16460	An individual	2e. Building Based Care	yeah care at home is critical however it may be prudent to start building some homes now as the number of older people unable to stay at home will increase year on year and they will need to stay. The fees that are charged for homes is very high so surely this can help pay for some council care homes at not much more?	Building Based Care - housing with care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
16461	An employee of West Lothian Council	2e. Building Based Care	What is the flexible model for housing with care being proposed?	Building Based Care - housing with care	3. The respondent advised that they had no comment to make.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16462	An employee of West Lothian Council	2e. Building Based Care	I think housing with care gradings should be looked at and regraded in terms of tasks undertaken by workers and assistants	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16463	An employee of West Lothian Council	2e. Building Based Care	I don't think self directed support is beneficial as it is open to mismanagement unless closely monitored	Building Based Care - housing with care	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
16464	On behalf of a Group/Organisation	2e. Building Based Care	We agree with the proposal of providing housing with care for older people throughout West Lothian but would strongly suggest that no existing services are cut prior to this provision being made across the whole of West Lothian (including Linlithgow) which makes savings in this financial period very unlikely.	Building Based Care - housing with care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16465	No Response	2e. Building Based Care	I have been attending for some time now. It is a friendly professionally run development which is a very important service provided for the elderly community of Uphall and Broxburn. I am also very concerned about staff losing their jobs. If this day centre was to close there are no other local facilities that meet the criteria that I require as an elderly person in this community and that this invaluable day service offers me.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
