33935	An individual	7d. Reprioritised Passenger Transport Strategy	Better public transport needed. Disagree with all that has been proposed.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33936	An individual	7d. Reprioritised Passenger Transport Strategy	It should not be a priority for councils to subsidise public transport.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33937	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Remove anything which is not statutory.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33938	No Response	7d. Reprioritised Passenger Transport Strategy	Also needs buses going to Houstoun estate for people to get to work. Need Horsburgh buses back on and maybe charge less to get customers.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33939	An individual	7d. Reprioritised Passenger Transport Strategy	This needs to be reviewed.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33940	An individual	7d. Reprioritised Passenger Transport Strategy	People need to be encouraged to walk more as the council cannot sustain the spend on local town services who in the vast majority only carry those who travel for free anyway.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33941	An individual	7d. Reprioritised Passenger Transport Strategy	This area should be rationalised - but not at the expense of those who really rely on public transport.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33942	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	ALL public subsidies of private sector should be removed. WLC should enter into consortium with City of Edinburgh/Lothian transport (Trams disaster notwithstanding).	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.

33943	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I agree although this may isolate some elderly people or those without access to a car.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33944	An individual	7d. Reprioritised Passenger Transport Strategy	Transport links are important to the elderly and socially disadvantaged - bus companies want to provide these or they go out of business - encourage them to have appropriate vehicles - promote services by linking journeys to supermarkets and train links/major interchanges - do not isolate people in West Lothian - let them get about	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33945	An individual	7d. Reprioritised Passenger Transport Strategy	Seems sensible and already being looked at by other councils	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33946	An individual	7d. Reprioritised Passenger Transport Strategy	Public Transport always takes a hit despite policies to get people out of their cars. West Lothian has a high percentage of car owners/users however the people to consult about this issue are those actually on the buses etc. Timings/connections that seem right to a planner often make no sense to users who find there is no viable public transport to appointments/activities. The government's proposals for "one ticket" journeys (even if these are multi provider journeys) must be given consideration e.g. a train/bus option for a person travelling from Bathgate to St John's hospital.	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33947	An individual	7d. Reprioritised Passenger Transport Strategy	Instead of increasing fares or reducing bus services, which can be an absolute lifeline for many people, why not charge motorists for using roads.	Passenger Transport Strategy (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
33948	An individual	7d. Reprioritised Passenger Transport Strategy	Public funds should not be used to bolster profit-making businesses.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33949	An individual	7d. Reprioritised Passenger Transport Strategy	Cease funding....not routes	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33950	An individual	7d. Reprioritised Passenger Transport Strategy	Sounds appropriate as I seldom see buses	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33951	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What bus routes will be affected and will this increase social isolation to already marginalised people/groups? The council wants to save 3.9 million over five years, but you state that you want to invest 9.5 million per year, why don't you reduce the per year budget by 0.5 million More information is required in relation to Handicabs and Dial a Ride schemes to gauge how much of a negative effect any changes would have. Handicabs and Dial a Ride are essential services that allow disabled people to live more independently at a reasonable cost and contribute to society. Public transport currently does not meet the needs of a large proportion of the disabled population. What does the review actually mean in practice. How many employees and / or volunteers will be affected by this saving.	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
33952	An individual	7d. Reprioritised Passenger Transport Strategy	I welcome the support of Dial a bus etc. As for buses routes and companies. Could we stop supporting them while they are running busses that overpower people with emissions and noise levels as the pass through the towns.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33953	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	In agreement if they are not being used.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33954	An individual	7d. Reprioritised Passenger Transport Strategy	People would be willing to pay more for these services.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33955	An individual	7d. Reprioritised Passenger Transport Strategy	Fine with this as long as it doesn't effect school children	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33956	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I do not use public transport on a local level, so am not in a position to comment. Our school does not have a bus service as it stands, so will remain unaffected	Passenger Transport Strategy (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
33957	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	could work. Handicabs and Dial-a-ride schemes are great for people who are elderly and disabled people who are not able to drive and need additional support getting out an about to do things like shopping.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33958	An individual	7d. Reprioritised Passenger Transport Strategy	Sponsorship,, advertising	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

33959	An individual	7d. Reprioritised Passenger Transport Strategy	Stop taxiing kids to school - have one bus who takes all taxied children to all the schools around the council.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33960	An individual	7d. Reprioritised Passenger Transport Strategy	Feel in a lot of cases these services support the most vulnerable people in our society. Not sure I agree with this.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33961	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Do feel this effects the hardest to reach in the community.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33962	An individual	7d. Reprioritised Passenger Transport Strategy	Cant have transport for all everybody	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33963	An individual	7d. Reprioritised Passenger Transport Strategy	Will this mean that some areas are left with no transport?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian Council currently only subsidises 20% of the overall local bus network. The remaining 80% is provided by operators on a commercial basis and the council has no authority over its operation.
33964	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	A reduction in the amount of Private Hire taxis that is used by the council is required. It is shocking that some children a receiving private transport to school even though both parents have a car.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33965	An individual	7d. Reprioritised Passenger Transport Strategy	That's all well and good for the four-wheel drive parents who take advantage of local services. What about the poorer families who will struggle to get to Livingston from places like Winchburgh or even further afield?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33966	An individual	7d. Reprioritised Passenger Transport Strategy	Once again, that's fine for the four-wheel drive families who can easily get from A to B, not so fine for the elderly and the disabled. Taking yet another thing away from poorer families. Are the SNP still running Holyrood or was there a Tory coup when I was asleep last night?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33967	An individual	7d. Reprioritised Passenger Transport Strategy	Thereby trapping elderly people in their homes, reducing their ability to be active, and increasing their dependency on the NHS, in all likelihood. Many of your other proposals will affect those on low incomes more than those on higher ones; this one affects people who are no longer actually able to use cars, who have no alternative.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33968	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Whilst the council needs to ensure that it meets its legal requirements, services should only operate where there is sufficient demand.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33969	An individual	7d. Reprioritised Passenger Transport Strategy	Great to see continued use of partnership with Handicabs etc. here. Will the partners be supported to fill the gaps that will be created? And would removal of subsidies for bus services work against some of your key priorities (employment, the elderly etc.)?	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33970	An individual	7d. Reprioritised Passenger Transport Strategy	Suggest that re-prioritising transport to focus on pedestrians, cyclists and public transport would be a good thing.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33971	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Can this review factor in what train services are available in the area so looks at all transport available in some more isolated communities that maybe aren't viable.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33972	An individual	7d. Reprioritised Passenger Transport Strategy	Not everyone has access to a car	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33973	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Agree. Would the strategy seek to join-up bus and train schedules in a more connected way?	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33974	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The bus services in West Lothian are not good as it is (i know this is not really a council issue) therefore i would not miss them. I say this a someone that lives in West Lothian and is in a household that doesn't own a car. This may encourage people to walk more and get more active however i am aware that some people are phically incapable of this so these people will still need a service which may increase use of Handicabs etc.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33975	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	The local bus service is poor in some areas and particularly for the unemployed attempting to obtain employment in companies within some of the industrial estates where there are either no bus services to reach them, or services available do not have the 'run' times available to get workers to/from their place of work for start/finish times.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

33976	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	would agree, however, would not like to see handicabs or dial-a-ride scheme going, this is essential for this group to be out and about. It may make them more isolated.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33977	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Again hitting the most vulnerable. Bus passes should be Means tested.	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Concessionary Travel Scheme is provided by the Scottish Government and is outwith the control of Local Government.
33978	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Transport should be made available to children and young adults with special needs at no charge, and a nominal charge for other transport. Bus routes should be looked at as some areas in West Lothian are quite isolated and only 2 buses running within that area. (27/28)	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33979	An individual	7d. Reprioritised Passenger Transport Strategy	So long as not at expense of vulnerable, who are reliant on public transport. Consult before cutting bus routes etc.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33980	An individual	7d. Reprioritised Passenger Transport Strategy	What evidence if any do you have that such schemes save money?	Passenger Transport Strategy (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
33981	An individual	7d. Reprioritised Passenger Transport Strategy	Some routes are lacking and I'd say too expensive as it is. Why not trial a free service and monitor how popular it is. Then work out a more affordable fare structure that boosts passenger numbers and hopefully more income for the bus companies.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33982	An individual	7d. Reprioritised Passenger Transport Strategy	With inefficient public transport services such as First buses (who's buses regularly Don't turn up on time or at all) cuts should be made here, the bus tickets are expensive and not worth the service it provides. Transport should still be provided for those who are employed and do not drive, and those who have access needs.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33983	An individual	7d. Reprioritised Passenger Transport Strategy	Bus services where we live are not a viable option for getting around West Lothian.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33984	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Public transport is important to many especially older people. Also encouraging people to use public transport rather than cars is important to the environment	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33985	An individual	7d. Reprioritised Passenger Transport Strategy	Care must be taken to ensure that communities are not cut off.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33986	An individual	7d. Reprioritised Passenger Transport Strategy	This is clearly a painful choice, however there are significant savings to be made. This should be fully investigated.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33987	An individual	7d. Reprioritised Passenger Transport Strategy	These services should be means tested	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33988	An individual	7d. Reprioritised Passenger Transport Strategy	There should be no changes to the existing, they should be improved!	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33989	An individual	7d. Reprioritised Passenger Transport Strategy	ensure low emission buses electric are used to cut the transport costs	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	80% of the bus routes are provided by the commercial sector of which the council has no authority over. The council routinely works with private sector service providers to provide the best possible services across West Lothian
33990	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This is context specific. Must be reviewed on a case-by-case basis.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33991	An individual	7d. Reprioritised Passenger Transport Strategy	In an area as small as West Lothian it is a concern that the impact of such savings will reduce mobility within an area which has high levels of deprivation and poverty, particularly within elder generations. If this is not focused it could be the literal death nail in the coffin of many an older person. Care needs to be taken on ensuring those who can travel by other means do so (such as school kids and lazy parents who won't walk more than 1 mile to school), and those who can't (lonely elderly people trapped in a myriad of ex mining villages with no community soul left to keep the dim light of vitality burning in their fading years) still receive the services provided.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.

Transforming Your Council Consultation 2017

33992	An individual	7d. Reprioritised Passenger Transport Strategy	Care must be taken not to isolate people and reduce their ability to access centralised services, shops and hospitals. These decisions have to take into account the other actions that have been suggested in the other proposals contained in this document.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33993	An individual	7d. Reprioritised Passenger Transport Strategy	Yes, these need to be continually reviewed. In my observation the size of the vehicles are not always in line with user numbers. A study here could possibly have enormous cost saving implications.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
33994	An individual	7d. Reprioritised Passenger Transport Strategy	Sounds dangerously like you may be leaving the vulnerable without the ability to get out and about. Surely certain schemes should only be doing necessary mileage anyway.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33995	An individual	7d. Reprioritised Passenger Transport Strategy	Do not cut the services that allow disadvantaged groups.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33996	An individual	7d. Reprioritised Passenger Transport Strategy	This is a valuable service for people with disabilities to attend appointments and have an outdoor activity such as shopping which under normal circumstances they would not be able to do and this service should be funded	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33997	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Agree. Also, people should not get a council paid taxi when they are on a diversion route when a road is closed. They should be advised to access the nearest bus stop which will be serviced, when the road closure is in place.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
33998	An individual	7d. Reprioritised Passenger Transport Strategy	You tried a lot of this before ? bus routes cancelled and then reinstated	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
33999	An individual	7d. Reprioritised Passenger Transport Strategy	Reducing public transport should be balanced against the likely increase in private transport should it be removed and the detrimental effect and cost this will have to roads and the environment. A reduced regular service should be investigated before total removal. Bus services are more economical when full and more likely to be full if their a less options	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
34000	An individual	7d. Reprioritised Passenger Transport Strategy	Try to keep this to a minimum	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34001	An individual	7d. Reprioritised Passenger Transport Strategy	could do with a rethink	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34002	An individual	7d. Reprioritised Passenger Transport Strategy	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Passenger Transport Strategy (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
34003	An individual	7d. Reprioritised Passenger Transport Strategy	The bus 31 (Livingston to Bathgate via Linlithgow) is the only bus service in Linlithgow that can take you to Bathgate or Livingston. This bus is very popular and the only method for me to get to work on a daily basis. Without this bus I will no longer be able to get to work and would therefore be effected with this change as many people in Linlithgow would be. Linlithgow would be an isolated community if this happens as there are very little buses that go through this area.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34004	An individual	7d. Reprioritised Passenger Transport Strategy	Can only imagine the pain this will cause some people in WLC.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34005	An individual	7d. Reprioritised Passenger Transport Strategy	could save money by taking away WiFi on buses - people could talk to each other	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Council only subsidises 20% of the local bus network. The remaining 80% is provided commercially and West Lothian Council has no authority over its operation, including the fleet.
34006	An individual	7d. Reprioritised Passenger Transport Strategy	Other travel services should be frequently reviewed using information from those travelling on the services.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

34007	An individual	7d. Reprioritised Passenger Transport Strategy	The bus services out in West Lothian are bad enough. I hear a lot of folk complaining. Agree a small charge for use of handicabs and dial a ride would be fair. But the buses and routes needs to be reviewed and the fares looked at overall. Compared to Edinburgh the costs are high	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Council only subsidises 20% of the local bus network. The remaining 80% is provided commercially and West Lothian Council has no authority over its operation, including the fares set.
34008	An individual	7d. Reprioritised Passenger Transport Strategy	Remove subsidies to all external contactors, and use capital fund reserves to establish a municipal bus company in line with that currently operating in Edinburgh. This would allow us to run vital services that might not otherwise be "commercially viable", with the funding coming from the routes that currently yield millions in profits for private shareholders, which unbelievably are still subsidised by the council!	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34009	An individual	7d. Reprioritised Passenger Transport Strategy	Understandable that this be assessed but given that a significant part of the county is rural in nature then there is a concern that some people will be left without vital transport links.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34010	An individual	7d. Reprioritised Passenger Transport Strategy	As previously stated this is fine if resident in Livingston	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34011	An individual	7d. Reprioritised Passenger Transport Strategy	I hope this does not mean that all resources will be used to provide transport services in and around Livingston just because it is has the largest population. People in outlying areas need to be able access public transport.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34012	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Not a good idea to reduce public transport for the elderly.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34013	No Response	7d. Reprioritised Passenger Transport Strategy	The whole bus transport in West Lothian is a joke to be honest. All you hear from some people is moans about the buses, costs, services trying to get to one part of West Lothian to another and so on. I think there does need a review of the bus provision and services. But again there needs to be more consultation with public on any decisions made	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response, your comments have been noted. West Lothian Council only subsidises 20% of the local bus network. The remaining 80% is provided commercially and West Lothian Council has no authority over its operation.
34014	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	seems reasonable although its likely to affect those that need it most especially in more rural areas.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34015	An individual	7d. Reprioritised Passenger Transport Strategy	The more vulnerable will be hit worse from these changes.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34016	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport needs to be preserved. Rural areas would be particularly epaffected and links are bad enough as it is	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34017	An individual	7d. Reprioritised Passenger Transport Strategy	A cut in bus services would have to reflect the needs, eg to St John's Hospital.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
34018	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	For some parts of Livingston, there is an inadequate bus service meaning that commuters need to rely on their cars. A service should be introduced to take people to and from the train stations so that workers needing to travel can do so.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34019	An individual	7d. Reprioritised Passenger Transport Strategy	Low paid / income residents must not be isolated due to no bus services available in their community, or feel they cannot afford to use public transport.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34020	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	too many buses empty	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
34021	An individual	7d. Reprioritised Passenger Transport Strategy	This would be a difficult area as people have no other means of transport.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34022	An individual	7d. Reprioritised Passenger Transport Strategy	better bus routes through west lothian especially between linnithgow and up the county would be better and maybe a small charge should be put on the bus passes	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.

34023	An individual	7d. Reprioritised Passenger Transport Strategy	torphichens bus service has already seen reductions and I wouldnt like to see any more as it would make things impossible for youngsters wanting to access services in Linlithgow (where they go to secondary school). I will, however, admit to not having used it myself for a number of years now; this is due to the unreliability of the service; on one occasion I was almost stranded in Linlithgow late at night as the last bus didnt turn up - thankfully found others in same boat and we shared a taxi back (though had to wait 1/2 hour for that). My mother has had similar issues at Bellsquarry; got 2 bus companies on that route now with big price differential and often find that 2 come along very close together which would explain other occasions when she waits almost an hour! Too often buses arrive early and it is just luck that she happens to be at the stop already - she has given up mentioning the early arrival to drivers as they just ignore the time and drive on rather than wait at the stop until the scheduled time. There have also been occasions when the bus has driven at speed straight past the stop (often when late) or stops suddenly on the road a distance after the stop and she is expected to run along the road to get on. My mum has no choice but to put up with this but so many other people, like me, will just give up - and that reduces income for the bus companies!!	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34024	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Old people and other groups need to kept there help with transport esp as you are proposing to close buildings. How you expect ppl to get to new locations and reducing bus services just doesn't add up	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34025	An individual	7d. Reprioritised Passenger Transport Strategy	As before, please do not neglect active transport modes as a low cost option for less affluent residents. I have no problem with First Bus losing council backing for the appalling service they offer but where active transport options are available I would ask that the council promote and support these in a well informed fashion wherever possible.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34026	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I worry that removing some bus services will directly impact on the most disadvantaged and the elderly, for some this is a lifeline.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34027	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	PUBLIC TRANSPORT IN WEST LOTHIAN NEEDS TO IMPROVE NOT GET WORSE. SERVICE IS POOR IN MANY AREAS AND VERY EXPENSIVE.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34028	An individual	7d. Reprioritised Passenger Transport Strategy	This needs to be done with care so people are not cut-off from work or family and friends.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34029	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	So long as you don't isolate groups/areas	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34030	An individual	7d. Reprioritised Passenger Transport Strategy	The bus service unless you are in Livingston/Edinburgh is not up to much anyway. Keep hearing about how you should use public transport etc but the structure isn't there to make it worth leaving the car behind. My mum takes the bus up to Livingston and it takes 1h 10 mins whereas in the car it would take 20minutes and that is when the bus actually turns us. You wouldn't want to use this for work as it is too long and unreliable.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34031	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	This will further isolate people, especially those in rural communities, vulnerable adults and other equality groups. Has an equality impact assessment been carried out on people with disabilities and their carers?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34032	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This needs to be undertaken with care. We do not want to create more disengagement and isolation for the most vulnerable in our communities	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34033	An individual	7d. Reprioritised Passenger Transport Strategy	The review is right, but also needs to factor in carbon consequences of reduced public transport provision. The result should not particularly penalise the least physically able.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34034	An individual	7d. Reprioritised Passenger Transport Strategy	This will not encourage more use of public transport.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.

34035	An individual	7d. Reprioritised Passenger Transport Strategy	More information required before I can comment. Again, put forward detailed proposals to public before decisions are made.	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Many thanks for your response. Your comments have been noted.
34036	An individual	7d. Reprioritised Passenger Transport Strategy	Understand the need for this proposal although I am certain it will disadvantage someone at some point.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
34037	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	bus services are essential...cutting them would penalise people on lower incomes .	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
34038	An individual	7d. Reprioritised Passenger Transport Strategy	The provision of council funded taxis where people choose to live in rural locations is absurd. It's not the councils job to get people to shops, work, their friends etc if they live in a rural environment	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
34039	An individual	7d. Reprioritised Passenger Transport Strategy	Reduce public transport and force people to use cars more and then charge for parking!?!? Double whammy! Who comes up with this rubbish?	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34040	An individual	7d. Reprioritised Passenger Transport Strategy	Better bus company to run 27/28 route first bus do not care about customer, late buses, buses not turning up.	Passenger Transport Strategy (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
34041	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Has an equality impact assessment been done on this? Some equality groups and those who are more disadvantaged will already face significant transport barriers and these changes should ensure these barriers are not increased	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Yes initial EQIA have been carried out on high level proposals
34042	An individual	7d. Reprioritised Passenger Transport Strategy	I do not think that anyone would object to paying a small charge, say 50p, for bus journeys that are currently free of charge.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34043	An individual	7d. Reprioritised Passenger Transport Strategy	The bus service in Livingston is already expensive. Reducing commitment to public transport will be bad for the environment.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34044	An individual	7d. Reprioritised Passenger Transport Strategy	Using shared community taxis may be cheaper for some routes rather than subsidising busses	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34045	An individual	7d. Reprioritised Passenger Transport Strategy	As it is mainly older people and disabled people who use public transport and handicabs and dial-a-bus it is the same group of the population that is being hit again! Its very unfair.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34046	An individual	7d. Reprioritised Passenger Transport Strategy	West Lothian's transport infrastructure is terrible and expensive get it sorted . The trains and the buses don't run in sync	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34047	An individual	7d. Reprioritised Passenger Transport Strategy	7D This will adversely effect many who can least afford their own vehicle. Again I request detail of proposals and the financial outline. A poor reflection of consultation questionnaire.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34048	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Support this, but please try to maintain some service for the most vulnerable.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34049	An individual	7d. Reprioritised Passenger Transport Strategy	Another belter! Public transport is surely a national never mind just a local priority and schemes should be protected that keep people out of their cars and able to access low cost and regular and frequent public transport services of all types but in particular local bus services and train services e.g. via the existing and very popular rail scheme for WL residents.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34050	An individual	7d. Reprioritised Passenger Transport Strategy	Why have you been wasting so much of our money up to this point?	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34051	An individual	7d. Reprioritised Passenger Transport Strategy	Agree. How about the re-introduction of a Post Bus for outlying areas?	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted

34052	An individual	7d. Reprioritised Passenger Transport Strategy	A plea to retain and improve the town services operating in Linlithgow. They are a lifeline to the people that use them.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34053	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	again this will further reduce services for the most vulnerable, elderly and disabled in communities.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34054	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This proposal would lead to further isolate the poorest and most vulnerable in W. Lothian	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34055	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I support these measures, though care should be taken to try to protect the most vulnerable.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34056	An individual	7d. Reprioritised Passenger Transport Strategy	Concerning. Not sure we achieve 'connecting communities' currently so how this will improved whilst considering reducing removing services. It is already hard to get from the Livingston side of West Lothian to the Linlithgow side without the use of a car. Could have a negative impact for older people and those who do not have access to a car so other dis-benefits. How will this be assessed?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34057	An individual	7d. Reprioritised Passenger Transport Strategy	Kids aren't able to walk along roads with no pavements!	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34058	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Older people rely very heavily on some of these bus routes. They would, I'm sure, be willing to pay for the service.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34059	An individual	7d. Reprioritised Passenger Transport Strategy	Keep services for the elderly and disabled	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34060	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	You cannot cut off communities completely, what about working people who don't drive the bus service is the only way they can get out to work, e.g. Linlithgow to Bathgate Service 31.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34061	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	This will lead to social isolation and poor mental health increased cost of healthcare	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34062	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Homeless transport must be looked at and either be funded appropriately to recognise the increase in both numbers of school children requiring transport and the length of time families are in Temporary accommodation or a limit to the exposure the Transport budget has to provide transport in each instance.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34063	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	Not my area of expertise, however transport impacts on a lot of our clients, poor services from small villages already prevents some of our clients working in shift patterns. careful monitoring is required to ensure joined up working.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34064	An individual	7d. Reprioritised Passenger Transport Strategy	As part of the review who will be doing the transport impact study on those who will be affected by the changes? Where will it be published, so everyone can access the report as it will affect working people and vulnerable people. The impact will be mental health and well being for those trying to get to work, also those who could become isolated. What is the likely impact on NHS and GPs with more appointments for depression, anxiety, isolation etc. Could there be an option for local people/organisations to contribute solely to the transport in their area rather than increasing council tax above 3%.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	the review will consider the impact of any proposed changes.
34065	An individual	7d. Reprioritised Passenger Transport Strategy	A good effective transport service in this day and age is vital. It is not a luxury, but a necessity. Cutting the carbon footprint can only be achieved by getting more of us in increasing numbers onto public transport. This will not be achieved if the services are cut or reduced in any way.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34066	An individual	7d. Reprioritised Passenger Transport Strategy	If you are having a review please have a meaningful discussion with the communities affected ... For instance survey passengers, consult community councils or devolve budgets to community councils to decide local town services. Encourage or run community trust bus services or a drivers coop. just avoid giving money to commercial companies.	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34067	An individual	7d. Reprioritised Passenger Transport Strategy	I disagree with this proposal. Equally I object to being asked to comment on a proposal in which the detail of the proposal is not given. In general a review of transport services should be ongoing in any-case. What actions from said reviews require to be explained to the public such that an informed view can be taken.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34068	An individual	7d. Reprioritised Passenger Transport Strategy	I've taken a new job in Livingston I cannot work early on a Sunday morning as there is not an early bus service. The council and bus companies should recognise we work in a seven day a week environment and provide at least one bus an hour from Armadale to Livingston early Sunday morning.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34069	An individual	7d. Reprioritised Passenger Transport Strategy	If the Council is to cease some public transport services this must be accompanied by early delivery of alternative transport models. These alternatives should not be left to individuals as this would inevitably see an increase in private car use or, for individuals without access to a car, increased use of taxis as a substitute public transport service. Alternative transport models should be based on the transport hierarchy set out in Scottish Government and Council policies and strategies, with provision for walking and cycling prioritised where public transport services are to be reduced. This provision should be safe, direct and legible to users.	Passenger Transport Strategy (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34070	An individual	7d. Reprioritised Passenger Transport Strategy	Again reducing the availability of public transport goes against WLC's greener policy of encouraging the use of public transport. Resident within West Lothian will view any reduction or removal of service unfavorably and may be faced with having to use their own private transport adding to congestion on our roads.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34071	An individual	7d. Reprioritised Passenger Transport Strategy	your statement needs more in depth clarification from you. It just reads as abandoning small communities, the elderly and infirm. That would be a disgrace if this is your proposal	Passenger Transport Strategy (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34072	An individual	7d. Reprioritised Passenger Transport Strategy	Government policy has to change here. The availability of buses encourages us to use our cars less but age limit for free bus passes has to rise in line with Pensions. Also a Â£1 charge, although unpopular at first, would be quickly accepted.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34073	An individual	7d. Reprioritised Passenger Transport Strategy	The public transport in West Lothian is in need of a review but ceasing services could make a bad system even worse.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34074	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage. Transport is a particularly important issue in terms of equalities (e.g. people with disabilities, where English is not their first language, young people, older people, people looking for work). The most disadvantaged people in our communities are already facing significant transport barriers and in making any change to the transport strategy it will be essential to ensure these barriers are not increased - but in fact are tackled to ensure equality of access.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The review will consider the impact of any proposed changes.
34075	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	How have the estimated savings been calculated? What are the detailed proposals and have Equality Impact Assessments been completed? How will this impact on people who will be required to access services which have reduced / been located further away?	Passenger Transport Strategy (general)	3. The respondent advised that they had no comment to make.	The council will carry out the appropriate equality impact assessment in relation to all proposals
34076	An individual	7d. Reprioritised Passenger Transport Strategy	Will have some negative impact but quite a saving to be achieved	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34077	An individual	7d. Reprioritised Passenger Transport Strategy	Is this proposal going to hurt the people who need it?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34078	An individual	7d. Reprioritised Passenger Transport Strategy	Public transport across WLC should be improved. Smaller busses should be used rather than half empty large busses. Discount for frequent users, e.g. on an annual bus pass.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34079	An individual	7d. Reprioritised Passenger Transport Strategy	All no 7 section will result in poorer services for everyone	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34080	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Council tax goes up but there is no shops, not a decent bus service, train station closing - how is our young people to get jobs? You cant get any transport at night.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34081	An individual	7d. Reprioritised Passenger Transport Strategy	Consider transportation around WL for residents (including school & elderly) - hugely ineffective and could be improved.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34082	An individual	7d. Reprioritised Passenger Transport Strategy	Should charge congestion fee to fund buses.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34083	An individual	7d. Reprioritised Passenger Transport Strategy	I would like WLC to work with Lothian Buses to provide a low cost integrated transport option for West Lothian. People in West lothian are paying too much for transport currently and are the only Lothian are excluded.	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Council only subsidises 20% of the local bus network, the remaining 80% is provided on a commercial basis. Local Authorities do not have authority to influence the commercial market including which providers operate commercially within the area.
34084	An individual	7d. Reprioritised Passenger Transport Strategy	As a village dweller I should hate the transport options to be less than the current hourly service, or an eqully good dial a bus scheme. Would prefer higher fares than fewer buses. Would like to see expansion of bathgte railway car park as has been suggested.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34085	An individual	7d. Reprioritised Passenger Transport Strategy	Must keep transport for people with disabilities - handicabs and dial a ride; for old people too. Most vulnerable suffer (2b, 2a, 2c)	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34086	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	The level of detail required to make an informed choice on proposals is missing e.g. £3.9m is to be cut from the bus budget but there is no detail on which services are to be affected. This is a serious issue given the remoteness of some communities in West Lothian. This lack of detail is reflected in almost every proposal raised.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34087	An individual	7d. Reprioritised Passenger Transport Strategy	My daughter gets school transport and me and her dad us the public transport so you can't cut these down.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34088	An individual	7d. Reprioritised Passenger Transport Strategy	Transport schedules that work for most, and no reimbursements to those who decide they don't want to sue it.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34089	An individual	7d. Reprioritised Passenger Transport Strategy	Nominal charging for health and taxi services. Spend less on council run "fun" events.	Passenger Transport Strategy (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34090	An individual	7d. Reprioritised Passenger Transport Strategy	What about the dire public transport your service users could be relying on? What will this do for the access deprived?	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34091	An individual	7d. Reprioritised Passenger Transport Strategy	The council should seek out to combine public services such as the public bus service. For example, First buses should team up with Lothian buses to cover trans-county routes	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Council only subsidises 20% of the local bus network, the remaining 80% is provided on a commercial basis. Local Authorities do not have authority to influence the commercial market including which providers operate commercially within the area.
34092	An individual	7d. Reprioritised Passenger Transport Strategy	There should be a small charge for some of the frontline services we deliver - Lost bus passes. This would reduce administration costs by not replacing cards free of charge.	Passenger Transport Strategy (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The concessionary travel scheme is provided by the Scottish Government and is out with the control of West Lothian Council.
34093	No Response	7d. Reprioritised Passenger Transport Strategy	Every penny spent should be value for money - why for example did 2 new bus stops get put on the Mid Calder by-pass near the Oakbank industrial estate when there are no buses that go along that road. Ridiculous - you talk about cuts, when you can't spend the money you have effectively.	Passenger Transport Strategy (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

34094	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	a lot of money is spent on taxi's for young people in care to attend school - this needs to change.	School transport - Additional Support Needs pupils	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34095	An individual	7d. Reprioritised Passenger Transport Strategy	My daughter lives in [REDACTED] and attends Beattie School Campus in Livingston. We rely on a professional safe taxi service, provided by the Council, to get her there and back. My daughter currently shares a taxi with one other child: I have no problem with children sharing taxis if this enables this to continue.	School transport - Additional Support Needs pupils	6. This is a positive suggestion. Officers will consider how this could be developed.	Children receiving school transport can have different additional support needs and therefore transport requirements can vary. The council continually reviews transport arrangements with a view to minimising cost whilst meeting the needs of the children requiring transport..
34096	An individual	7d. Reprioritised Passenger Transport Strategy	Those children with disabilities and long term illness also rely on this to ensure school attendance remains at acceptable level.	School transport - Additional Support Needs pupils	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34097	An individual	7d. Reprioritised Passenger Transport Strategy	Handicabs? School transport? Are you suggesting that transport to school for disabled children will not be provided anymore? After reducing the amount of available schools for such children it would be outrageous to remove the free transport. This will create very difficult situations for working parents and carers who would have to provide the transport themselves of fund it. Again pushing people out of jobs and turning them into unemployed benefit users makes no financial sense. Services to support such people is what is needed	School transport - Additional Support Needs pupils	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34098	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Currently the council is spending significant money on taxis for school kids to attend school for various reasons. The management of this is poor, its runs for too long and it is too costly. Parents must move their children to schools close by and must make arrangements for themselves	School transport (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
34099	An individual	7d. Reprioritised Passenger Transport Strategy	top providing taxis to take kids to and from school one kid in a taxi is ridiculous use minibuses and escorts.	School transport (general)	1. The respondent advised that they agree with the proposal.	Children receiving school transport can have different additional support needs and therefore transport requirements can vary. The council continually reviews transport arrangements with a view to minimising cost whilst meeting the needs of the children requiring transport.
34100	An individual	7d. Reprioritised Passenger Transport Strategy	Clients who use Handicabs and Dial-a-ride schemes should use Mobility money from PIP/DLA to pay for these schemes.	School transport (general)	1. The respondent advised that they agree with the proposal.	There is a charge for the use of these services.
34101	An individual	7d. Reprioritised Passenger Transport Strategy	Yes gone are the days we can afford to pay for taxis to take kids to school.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
34102	An individual	7d. Reprioritised Passenger Transport Strategy	Again, as my children require a bus to get to school, if I was forced to pay for this or arrange alternative transport I would have no option to reduce my council tax payments in order to offset the increased costs being incurred I have already been forced to more than double my costs for commuting to work due to the council's decision to remove funding for my previously used bus route If the council pressed ahead with this option, it would confirm the belief that the needs of those living at the edges of the county outwith the larger towns are not taken into consideration	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
34103	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	There are more and more school aged children being driven to school by taxi now, than ever before. People make a career out of taking children to school. surely there must be scope to look at this provision as it is totally out of control. We are encouraging lazy parents to let others take their kids to school. I also acknowledge that their are genuine cases that need tis service.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34104	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	There are more and more school aged children being driven to school by taxi now, than ever before. People make a career out of taking children to school by taxi and escorting. Some escorts being paid cash in hand. Surely there must be scope to look at this provision as it is totally out of control. We are encouraging lazy parents to let others take their kids to school. I also acknowledge that their are genuine cases that need and rely on this service.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34105	An individual	7d. Reprioritised Passenger Transport Strategy	Ahh here we go again. Lets attack those most in need of a service, but with the smallest voice to defend themselves. The Tory influence is strong in this one.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

34106	An individual	7d. Reprioritised Passenger Transport Strategy	Increasing the minimum milage for school transport will just lead to greater use of private cars for school runs and therefore increase pollution.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34107	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	We need to put the statutory mileage in place. We are one of the few councils who don't do this and I haven't heard about child safety issues in councils who do. People talk about the impact that this would have on attainment because of kids who can't be bothered to walk to school but surely if these kids are not motivated, the provision of buses or not would have no impact on whether they leave school with good qualifications.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34108	An individual	7d. Reprioritised Passenger Transport Strategy	Personally I initially chose an out of catchment areas school and therefore provide all transport for my children too and from. I think with personal choice comes personal responsibility. Parents choosing out of catchment areas schools, particularly those choosing schools on religious grounds, should then be responsible for transporting their children. This is not an option that was open to me as a parent and as such, I felt it was discrimination.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34109	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	OK but so long as the most needy in society are able to access the provision to ensure there is no drop in school attendance	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34110	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	I think that the free school bus service from Blackridge to Armadale Academy should continue as the distance is too far for the children to walk to school and the footpath is narrow and not safe to walk all the way to Armadale.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34111	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Remove taxis to schools - parents should be responsible for their children getting to school	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34112	An individual	7d. Reprioritised Passenger Transport Strategy	I agree with looking at school transport arrangements.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34113	An individual	7d. Reprioritised Passenger Transport Strategy	The provision of private taxis to ferry single pupils back and forth to schools is a nonsense!	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34114	An individual	7d. Reprioritised Passenger Transport Strategy	School transport needs to move to statutory thresholds in order to protect council resources for educating our children	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34115	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Free transport to school could also be altered in line with national policy to reduce the costs of transporting children to schools, or a financial contribution replacement be implemented for those between 2-3 miles.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34116	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	As previously mentioned the minimum mileage limits should be brought in for children being transported to school.	School transport (general)	1. 34117	An individual	7d. Reprioritised Passenger Transport Strategy	Again with school transport - rural homes are cheaper so I don't support taxpayers paying for children from rural areas being ferried around. Parents should pay for this since they save on housing costs.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review.
34118	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	While we understand that changes may be required in this area, LA Parent Council would urge WLC to give careful consideration to the timing and roll out of any changes to school transport to ensure that sufficient time is available for individuals to make alternative arrangements.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34119	An individual	7d. Reprioritised Passenger Transport Strategy	Agree that there should be a reduction in school transport to the statutory minimum. Encouraging school pupils to walk helps tackle health issues such as obesity and pollution.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34120	An individual	7d. Reprioritised Passenger Transport Strategy	It is very important that children have a safe way of getting to school, but of distance is a safe walking distance in relation to the age of the children then a free bus service should not be necessary.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34121	An individual	7d. Reprioritised Passenger Transport Strategy	Taxi services for taking and returning children from educational establishments should either be contributed to by the parents or withdrawn.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34122	An individual	7d. Reprioritised Passenger Transport Strategy	If school transport means taxis to take children to and from school, then as my previous comment, parents should be making a contribution.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34123	An individual	7d. Reprioritised Passenger Transport Strategy	Definitely review third party providers, huge workforce and skill base within the council that could be put to other uses. For example, school pupils on part time timetables being transported to school by taxi is very expensive. Why not use school support workers or Community Transport drivers and escorts and school minibuses instead? Community Transport jobs are being cut, so redeploy them to the schools instead of them losing their jobs, and save on a huge taxi bill.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34124	An individual	7d. Reprioritised Passenger Transport Strategy	Children and working parents rely on the school transport system. If you reduce it you may cause working parents difficulties with getting children to and from school.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34125	An individual	7d. Reprioritised Passenger Transport Strategy	Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34126	An individual	7d. Reprioritised Passenger Transport Strategy	The school bus service is already deteriorating - last school year and this one - with poor quality of service and standard of drivers - often on their phone and even texting while driving! Reducing cost is one thing but standards and safety need to be maintained.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34127	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Subsidising 'school buses' in small communities where the commute to school is under 2 miles should be scrapped. It is a parental responsibility to get their child to and from school and for parents who don't work this should be no problem.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34128	An individual	7d. Reprioritised Passenger Transport Strategy	School transport - although I agree with this proposal I do have concerns that a blank fits all approach is used. On some routes to school children can walk along main well lit roads etc. but for example I worry for those children say in Blackridge, would there be an expectation for them to walk to Armadale Academy! Agree with all other suggestions on this proposal	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34129	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Same for school transport where kids don't walk when they are in easy walking distance of local schools.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review

34130	An individual	7d. Reprioritised Passenger Transport Strategy	I do not think that all of the children that are currently transported via taxi etc need to be - perhaps schemes like walking buses could be considered or alternatively a voluntary driver scheme.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34131	An individual	7d. Reprioritised Passenger Transport Strategy	In saying that all three of my children bus it to school as they live some distance from school if you are proposing that I also have to pay for that on top of everything else and given I work for west Lothian I also have no pay rise and I am already paying for tutors and work books for school due to how poor the school is in west Lothian - this will absolutely make me decide to home school my children if there was no school transport.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34132	No Response	7d. Reprioritised Passenger Transport Strategy	Free transport for school children? Surely for those that can afford this a nominal fee could be in place.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34133	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	This is a must do! Boundaries and school allocation should maybe charge anyway.	School transport (general)	1. The respondent advised that they agree with the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34134	An individual	7d. Reprioritised Passenger Transport Strategy	leave the school buses	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a legal obligation to provide free transport out with certain distances to school. The council is currently undertaking a review of its passenger and mainstream school transport services and this comment will be incorporated within that review
34135	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	school transport is bad enough. and the buses in winchburgh, Bridgend and small villages are bad enough. Free school transport should be a priority.	School transport (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34136	An individual	7d. Reprioritised Passenger Transport Strategy	Rural residents needing school transport should not be penalised for not living in town.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34137	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	Subsidies should be reduced and school transport should be reduced to the statutory minimum . The private sector should be encourage to fill the gap left by this service reduction. This decision has been taken by a number of councils already.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34138	On behalf of a Group/Organisation	7d. Reprioritised Passenger Transport Strategy	West Lothian is a large and rural community. At the moment young people who attend West Calder High School and live in the east of county cannot get to or from school outwith school transport times without a change of bus in Livingston, this impacts on young people attending school if they are late and on attending after school clubs. There are also a shortage of buses from areas of the county to other areas affecting people getting to and from work e.g. East Calder to Broxburn, East Calder to Liniithgow -no direct link.	School transport (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34139	An individual	7d. Reprioritised Passenger Transport Strategy	As well as looking at the statutory limits for school transport need to review ALN transport costs and make sure these are considered when making placements. Consider introducing fees for transportation for those who can afford it.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34140	An individual	7d. Reprioritised Passenger Transport Strategy	School transport should be via a pass that can be used on a local bus route in school hours therefore providing local buses with more passengers and meaning there is no need for school buses. If someone chooses to live outwith a bus route they should arrange for their child to get to a suitable bus stop or take them to school.	School transport (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34141	An individual	7d. Reprioritised Passenger Transport Strategy	Agree in principal focus on statutory min mileage but with care not to endanger the child.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34142	An employee of West Lothian Council	7d. Reprioritised Passenger Transport Strategy	School Transport - Moving to the statutory minimum mileage would certainly deliver savings but this cannot be seen in isolation as there is a strong likelihood that other services, such as Medical provision, would see an increase in demand.	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34143	An individual	7d. Reprioritised Passenger Transport Strategy	Strictly enforce 2 mile free transport limit..	School transport (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

34355	An individual	7e. Green Fleet & Travel	Totally disagree with a proposed reduction in mileage rate paid to staff. Staff already lost their essential car user allowance when the 'fleet' was introduced. The system is very poorly managed with certain services booking cars out all day every day, regardless of being used or not meaning fleet cars are hardly ever available for staff - even essential users.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34356	An individual	7e. Green Fleet & Travel	I do not agree.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

34359	An employee of West Lothian Council	7e. Green Fleet & Travel	MILEAGE CAN BE REDUCED BY CEASSATIUION OF PAN COUNCIL OPERATIONAL SERVICES.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Mileage will be reduced where possible but it has to be recognised that that council operations will need to continue.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34360	An employee of West Lothian Council	7e. Green Fleet & Travel	It must be noted that staff using their own vehicle is a bonus to the council. We suffer wear and tear that is not properly compensated for and also allows us to 'worksmart'.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Reimbursement rate for staff using their own vehicles is inclusive of a wear and tear element.
34361	An employee of West Lothian Council	7e. Green Fleet & Travel	I am sure that given the increased cost of fuel and maintenance of staffs own vehicles that not many would be prepared to use their own vehicle if the rate payable to staff using their own vehicles was reduced. This may lead to a reduction in service, if no pool cars were available or an increased cost to service users having to come to meet with a worker as well as increased stress for more vulnerable service users.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34362	An employee of West Lothian Council	7e. Green Fleet & Travel	I agree, and would think a stepped mileage rate would be fair and would encourage consideration of business mileage by users. For example, the normal rate for the first 2000 miles then reductions beyond that? However there is a danger that staff will not use their own cars for business usage.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34363	An employee of West Lothian Council	7e. Green Fleet & Travel	Business mileage is already too low so any further reduction will cost the member of staff to use their car.	Green Fleet & Travel - business mileage	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Business mileage reimbursement rates is set by HMRC and this is used by the Council.
34364	An individual	7e. Green Fleet & Travel	It seems that most senior management are being allowed to use there own cars at all times. This should be stopped with everyone using the Council pool cars.	Green Fleet & Travel - business mileage	4. The council is already doing this.	All staff are required to use the council's travel hierarchy to determine the most efficient mode of transport.
34365	An employee of West Lothian Council	7e. Green Fleet & Travel	As per previous comment. Reduce the use of Council vehicle use out-with working hours. Ensure all employees use their own transport to get to their work thus reducing fuel and maintenance costs for the Council owned vehicles.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34366	An employee of West Lothian Council	7e. Green Fleet & Travel	No staff should be able to use their own vehicle for business travel unless the Council revert back to the essential user allowance for staff who actually cover a lot of business miles over the yearly period.	Green Fleet & Travel - business mileage	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34367	An individual	7e. Green Fleet & Travel	It is difficult enough for staff to run cars but to subsidise the council with an even lower mileage rate is ridiculous. The current council rate does not cover wear and tear and running costs such as business insurance. Why not just introduce a blanket ban on use of personal cars if you really want to target this area.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Reimbursement rate for staff using their own vehicles is inclusive of a wear and tear element.
34368	An employee of West Lothian Council	7e. Green Fleet & Travel	Own use mileage rates should be reduced but use of own cars should be reintroduced	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Business mileage reimbursement rates is set by HMRC and this is used by the Council. Own vehicle use is allowable with a business case.
34369	An individual	7e. Green Fleet & Travel	When this was first introduced, my mileage claim was cheaper than using public transport, this is still the case today.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34370	An individual	7e. Green Fleet & Travel	If staff are REQUIRED to attend other premises for training or meetings then they should be paid appropriately for doing so! If other options are available then they should be provided st no cost to staff!!!	Green Fleet & Travel - business mileage	4. The council is already doing this.	Business mileage reimbursement rates is set by HMRC and this is used by the Council.
34371	An employee of West Lothian Council	7e. Green Fleet & Travel	I agree that the mileage rate payable to staff should be reduced.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34372	An individual	7e. Green Fleet & Travel	staff will spend more time on public transport. If that is also being reviewed how will you ensure staff can go about council business.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34373	An individual	7e. Green Fleet & Travel	You will reduce the mileage rate but still expect users to do more work so this doesn't show investment in people	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34374	An individual	7e. Green Fleet & Travel	Do the staff really need to use their own vehicles or could they be encouraged to claim their mileage from HMRC directly thus relieving the strain on the Council funds.	Green Fleet & Travel - business mileage	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The use of personal vehicles will be required for certain journeys. HMRC are not responsible for paying personal mileage claims.
34375	An individual	7e. Green Fleet & Travel	a lot of staff don't get payed mileage due to managers not processing this.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Council policy states that authorised journeys in private vehicles can be claimed from the Council.
34376	An individual	7e. Green Fleet & Travel	staff allowed to use own vehicles - instead of paying mileage pay lump sum when x amount of miles are done	Green Fleet & Travel - business mileage	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	This has previously been considered and deemed not to be the most efficient use of resources.
34377	An individual	7e. Green Fleet & Travel	A reduction in business mileage is unlikely to be achieved when the miles are being put on fleet vehicles. Staff will only engage with concepts like this if it affects them personally -	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34378	An individual	7e. Green Fleet & Travel	reinstate the own vehicle allowance but only approve mileage claims if staff have shown they have complied with your green agenda.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34379	An individual	7e. Green Fleet & Travel	i think only in the management or higher paid roles in the council should be considered for a reduction in mileage for using their own vehicles.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34380	An individual	7e. Green Fleet & Travel	Stop the practice of council workers being picked up and dropped off at their homes! I have suggested this with previous consultations but note that is still happens.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34381	An individual	7e. Green Fleet & Travel	Staff mileage should be covered as driving in own individuals vehicle has an insurance premium increase effect for the driver.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Most vehicle insurers do not charge extra for including business use as part of a driver's policy.
34382	An employee of West Lothian Council	7e. Green Fleet & Travel	As long as the mileage rate for staff is fair against fuel and wear and tear costs this would be acceptable	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Reimbursement rate for staff using their own vehicles is inclusive of a wear and tear element.
34383	An employee of West Lothian Council	7e. Green Fleet & Travel	reducing the rate paid for this will mean staff will stop picking up the slack and service users will suffer.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have the option of using alternative modes of transport as detailed in the green transport strategy.
34384	An individual	7e. Green Fleet & Travel	Giving staff lower mileage is an easy one to predict the result. Staff will decline to use their own cars. the council will either have to buy more pool cars or services will simply not be delivered. Of all the proposal this is the stupidest by far.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34385	An individual	7e. Green Fleet & Travel	This is what happens when you centralise everything to Livingston. No council cars, give mileage at usual rate businesses offer.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Business mileage reimbursement rates is set by HMRC and this is used by the Council. Own vehicle use is allowable with a business case.
34386	An individual	7e. Green Fleet & Travel	If you can achieve mileage reductions without affecting service levels then this sounds a good idea.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34387	An employee of West Lothian Council	7e. Green Fleet & Travel	For the vast majority of West Lothian council employees it is not written into their contract they must utilise their personal vehicle for business use. The above statement implies this is the case.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34388	An individual	7e. Green Fleet & Travel	Agree. Staff should be able to use the pull cars available. If they choose to use their own car they should expect to pay for fuel.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response has been noted. Staff will be reimbursed for using their own vehicle.
34389	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff will refuse to use their own cars so not a sensible policy	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34390	An individual	7e. Green Fleet & Travel	Stop council vans being taken home! Provide workers with specific company cars used only for business and a credit card to fuel up when required ensuring only the fuel used is being claimed for	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council policy requires a business case for vehicles to be taken home. Company cars would not be an efficient and cost effective use of council resources.
34391	An individual	7e. Green Fleet & Travel	Just stop giving staff mileage all together, as they should be using council transport or give them bus pass to go between offices or use the telephone..	Green Fleet & Travel - business mileage	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	There will be instances where employees will be required to use their own vehicle to delivery essential council services and will be reimbursed accordingly.
34392	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduce mileage rate and get rid of pool cars before we are due to have our fleet updated.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34393	An employee of West Lothian Council	7e. Green Fleet & Travel	Good although not convinced about reducing the mileage rate to staff,	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34394	An individual	7e. Green Fleet & Travel	I have seen a lot on council staff walking rather than using transport I am not sure if this is a good thing, how long is it taking them to walk over driving?	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council staff must refer to the council's ravel hierarchy before attending meetings and determine the most efficient way of travelling from the many options they have.
34395	An employee of West Lothian Council	7e. Green Fleet & Travel	I thought all mileage rates payable to staff had been completely cut already as my service doesn't allow us to claim mileage.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Business mileage reimbursement rate is the maximum allowable as set by HMRC and this is used by the Council. Own vehicle use is allowable with a business case.
34396	An employee of West Lothian Council	7e. Green Fleet & Travel	Are there any benefits to be gained by substantially reducing the mileage allowance for own vehicle use at the same time as disposing of the majority of the vehicle pool? Remember, the government mileage allowance is only a tax free limit, not a mandatory amount that needs to be paid!	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner. Staff will be able to claim tax relief on any personal mileage reimbursement under the agreed HMRC rate.
34397	An employee of West Lothian Council	7e. Green Fleet & Travel	The Council should keep the current mileage rate to staff.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff will be able to claim tax relief on any personal mileage reimbursement under the agreed HMRC rate.
34398	An employee of West Lothian Council	7e. Green Fleet & Travel	Introduce a total ban on employees using their own vehicle for work. There should be enough fleet vehicles for them to use , if not , then there is an underlying problem that needs to be addressed.	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34399	An employee of West Lothian Council	7e. Green Fleet & Travel	business mileage dependent on where people having to go for meetings - not always possible to hold meetings locally to everyone. Requirement for fully comp insurance on private vehicles means any own vehicle usage had to cover this in the rates. Needs to be a balance as pool cars often not available and guidance states better not to use pool car if you are attending an all day meeting away from office where pool car will just be sat in a car park all day and not available for use by other staff.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Employees are required to consider whether meetings are necessary and if so what the best mode of transport is. Personal vehicle insurance policies should include cover for business use which in most cases does not incur additional cost.
34400	An employee of West Lothian Council	7e. Green Fleet & Travel	The policy of some workers being allowed to bring their council vehicles home should be stopped or at least further measures taken to ensure that they are not used for personal use. I have on a number of occasions seen council vehicles in areas where they had no business being i.e. hospital and shop car parks out of hours, as well as having family members in the vehicles. Until this is rectified and a level playing field is available no change to the rate payable to staff using their own vehicles should be introduced as these individuals would be penalised twice and others are essentially given a free vehicle to use as they wish.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34401	An employee of West Lothian Council	7e. Green Fleet & Travel	I think all staff should have to make their own way to and from work and the arrangement with manual workers taking vans to the Glasgow area or even home locally is unfair. I myself like in North Lanarkshire and need to make my own way to and from work at my own cost. I understand some of the manual workers will use this while on standby but still need to make the journey from their homes to the depot to pick up equipment needed in a call out. This seems unfair to me as the majority of council staff have to make their own way to and from work out of their own pocket. I do not believe it is very good value for money paying for fuel for someone's travel from Glasgow and back as this costs me around £25 a week in fuel with a relatively fuel efficient vehicle (55 - 60mpg) making a journey of 40 miles a day.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.

34402	An employee of West Lothian Council	7e. Green Fleet & Travel	A large of the savings derived from internal vehicle costs relates to there being fewer users over time.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34403	An employee of West Lothian Council	7e. Green Fleet & Travel	Most members of staff have ceased to use their own vehicles for business travel because the rate currently paid is inadequate, particularly in the context of the excess payable in the event of an accident, for example or the cost of a puncture. To reduce the rates such that is was lower than the HMRC rate would encourage more users to rely on pool vehicles and exacerbate the issues associated with availability, damaging productivity.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is used by the council. This rate includes an element for additional vehicle costs and wear and tear.
34404	An individual	7e. Green Fleet & Travel	The mileage rate for staff using their own cars must not be reduced to a level that does not fully compensate the cost to staff. In other words the staff should not be subsidising the Council.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34405	An employee of West Lothian Council	7e. Green Fleet & Travel	I feel lots of money is wasted bringing staff to civic centre etc. for mandatory briefings that could be delivered at staff meetings by managers. I am coming from the West of west Lothian to civic centre which will cost time and money. Yes....I could get the bus but that would take me half my day and keep me away from what I should be doing. I walk to home visits when appropriate (not always the safe option) and find the whole business of claiming it back time consuming. I feel this proposal will make me more inclined to claim my mileage.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34406	An employee of West Lothian Council	7e. Green Fleet & Travel	Can the council roll out more electric vehicles?	Green Fleet & Travel - business mileage	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34407	An employee of West Lothian Council	7e. Green Fleet & Travel	With regards to the reduction in business mileage, there is a danger that this could be defeated by the Public Transport Review above as some routes which are removed or streamlined may impact on staff traveling to other areas of the county.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34408	An employee of West Lothian Council	7e. Green Fleet & Travel	Only pay up to a set mileage on personal use, to encourage pool car use.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34409	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff shouldn't need to use their own vehicles for business.	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34410	An employee of West Lothian Council	7e. Green Fleet & Travel	By reducing the rate payable for the use of private cars this will increase demand on pool cars further.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

If staff had to use public transport for business it would be more expensive and time consuming.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34412	An employee of West Lothian Council	7e. Green Fleet & Travel	Stop operatives from taking vehicles home and make staff use skype / video conferencing or phone call rather than expensive unproductive travel to talk to someone.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Council policy requires a business case for vehicles to be taken home. Video and tele conferencing is available for staff to use.
34413	An individual	7e. Green Fleet & Travel	This may be found to be a flaps saving as staff will no longer use their cars and pool car models are often optimistic and create inefficiency as times is lost due to the available of vehicles. I suspect this proposal is unachievable and will create inefficiency and pressures on an already stretched workforce.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34414	An individual	7e. Green Fleet & Travel	stop paying any mileage costs to staff. they will soon find a pool car or rearrange a visit	Green Fleet & Travel - business mileage	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34415	An employee of West Lothian Council	7e. Green Fleet & Travel	Some essential services need staff to use their own vehicles for business and if there is a reduction on the amount staff are paid then this could cause major issues for certain service areas if staff refuse to use their own transport as there is not enough council vehicles for staff to use and this could have an impact on service users.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34416	An individual	7e. Green Fleet & Travel	You expect staff to use their cars and there is an implication to this, yes, but you forget its not just the fuel cost to staff member but they need to insure car for work use and also the wear and tear on the car and the mileage is reflected when coming to sell their car when needing to replace.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is used by the council. This rate includes an element for additional vehicle costs and wear and tear.
34417	An individual	7e. Green Fleet & Travel	If there are opportunities to save money here, stop pussy footing about and make them. If people are forced to use their own car for council business and it is uneconomical for them to do so, they need to make the choice themselves of whether to use their car or not.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34418	An individual	7e. Green Fleet & Travel	Agree but must pay a competitive rate otherwise staff will not use their own cars	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34419	An individual	7e. Green Fleet & Travel	OK but reducing rate paid to staff for own mileage - for those on the lowest income may make their role un-viable or need a council vehicle.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34420	An individual	7e. Green Fleet & Travel	As long as you still reimburse staff to include wear and tear on their vehicles.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34421	An individual	7e. Green Fleet & Travel	stop staff from taking work vehicles home (unless on call). This is unfair on other staff who use their own vehicles to commute plus the cost of mileage and fuel is unacceptable. These vehicles could be used by other staff members. 34422	An individual	7e. Green Fleet & Travel	That's having your cake and eating it! I see my car being used to transport council literature around West Lothian because you have to arrange a fleet car eons in advance. I should be charging you!	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council employee are reimbursed for using their own vehicle.
34423	An individual	7e. Green Fleet & Travel	Agree that costs should be reduced so long as staff then have access to an adequately resourced internal Green Fleet. Disagree that business miles use or rate pain should be reduced. The perceived savings will be outweighed multiples of times by reducing staff's mobility and resultant reduced performance. Using a reduced public 'Green Travel' transport system instead means 1000's of hours being wasted waiting for transport, extended travel times and time walking to destinations of council business and meetings throughout the county!	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34424	An individual	7e. Green Fleet & Travel	If pool cars are a part of the service then staff should make use of pool cars rather than claiming mileage.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34425	An employee of West Lothian Council	7e. Green Fleet & Travel	Lots of staff probably pay their own mileage costs already, I know I do when travelling for work purposes as a council employee. I get a feeling those who do claim are the ones who need it the least.	Green Fleet & Travel - business mileage	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34426	An individual	7e. Green Fleet & Travel	Reducing the mileage rate could mean staff are subsidising the council, not acceptable. Their rate needs to be fair or why should they use their own cars?	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34427	An employee of West Lothian Council	7e. Green Fleet & Travel	It is not feasible to reduce business mileage anymore and still provide a service. The rate currently payable to staff hardly covers the wear and tear of their vehicles and the high inflated insurance costs.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34428	An employee of West Lothian Council	7e. Green Fleet & Travel	You reduce the Payment to staff you won't cover as many locations good luck with this stupid suggestion	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34429	An employee of West Lothian Council	7e. Green Fleet & Travel	Council workers currently often do not claim for using own cars as process is intentionally complicated. Council should allow staff to use their own cars but limit mileage permitted.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Own vehicle use is currently allowable with a business case. Your suggestion of limiting mileage claims has been noted.

34430	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduce people using their own cars. If managers are not prepared to ensure that staff follow the travel policies by utilising pool cars and continue to accept them using their own and claiming mileage then behaviors wont change. A review should be undertaken of all staff using their own cars for business purposes on a monthly basis. Put a cap on the number of personal miles an employee can claim in their own car to see if that forces a behavior shift for those who make little effort to use the pool car system.	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles. Your comments regarding limiting mileage claims has been noted.
34431	An individual	7e. Green Fleet & Travel	What impact would it have on business if staff did not muse their own vehicle? The council should pay the cost of fuel plus wear to the car. Employees I am sure would already have lost their essential car users	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles. The current mileage reimbursement rate, which is set by HMRC, includes an element for wear and tear and fuel.
34432	An individual	7e. Green Fleet & Travel	Huge scope to save money here - why do Councilâ€™s pay staff twice the mileage rate of those in private sector. Apart from itâ€™s always been that way	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34433	An individual	7e. Green Fleet & Travel	Staff should not be expected to use their own vehicle without being paid.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council employee are reimbursed for using their own vehicle.
34434	An employee of West Lothian Council	7e. Green Fleet & Travel	Many staff are already not claiming for legitimate mileage due to a cumbersome system.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34435	An employee of West Lothian Council	7e. Green Fleet & Travel	staff already had mileage lump sum taken off them	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34436	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff already lost a large lump sum for using their own vehicles. Think it is shocking to reduce mileage costs after removing the lump sum. Staff also have an additional cost of insuring business class.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The mileage reimbursement rate currently includes and element for fuel and wear and tear. In most cases including business use on personal vehicle insurance policies does not incur additional cost.
34437	An employee of West Lothian Council	7e. Green Fleet & Travel	There is a pool car system in place, if staff use their own car that's their choice, why should they receive mileage allowance.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Council employees are reimbursed for using their own vehicle.
34438	An employee of West Lothian Council	7e. Green Fleet & Travel	difficult to reduce mileage when teams are covering the entire area of west Lothian and teams are not always geographically located	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34439	An individual	7e. Green Fleet & Travel	It is commendable that substantial savings have been made and it is also very reasonable to expect staff to be compensated for own vehicle use for council business at a reasonable rate but not exorbitant ones.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34440	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduction in mileage for own vehicle use welcomed to encourage use of pool cars or other means.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34441	An individual	7e. Green Fleet & Travel	If mileage is needed to deliver services, then how can you deliver the service if you don't incur the mileage?	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34442	An employee of West Lothian Council	7e. Green Fleet & Travel	I would not be adverse to having a reduction in excess of 20% applied to business mileage rates.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34443	An employee of West Lothian Council	7e. Green Fleet & Travel	If you aren't going to be reimbursing additional travel for staff who are doing this as part of their job, then there needs to be available alternatives. It's not fair to require people to drive long or frequent journeys and not reimburse them for this.	Green Fleet & Travel - business mileage	4. The council is already doing this.	The council has a fleet of 300 pool vehicles for staff to use for business travel. Services will be required to review service delivery to ensure travel is required and if so it is minimised and done in the most efficient manner.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34444	An employee of West Lothian Council	7e. Green Fleet & Travel	Fair enough if covers the depreciation and wear and tear for the additional work related mileage.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34445	An individual	7e. Green Fleet & Travel	If reducing cost below national agreements then it should not be compulsory to use own vehicle.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The current mileage rate is the maximum tax free rate allowable under HMRC guidelines. There is no current national agreement on mileage reimbursement rates.
34446	An employee of West Lothian Council	7e. Green Fleet & Travel	Mileage paid to staff should stay at the current amount as it reflects the costs needed to run cars. If the council expects people to use their own vehicles they should be given adequate compensation. If not people will choose to move to a local authority that offers better terms and conditions.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34447	An employee of West Lothian Council	7e. Green Fleet & Travel	At the moment I am allowed to use my own car for business as I have limited access to pool cars and often start early to meet service needs. If the business rate is reduced this will I will essentially be subsidising the council and will no longer use my personal transport. I have to sometimes undertake short notice visits to assess & provide advice. Pool cars are often not available for this purpose. I also start early to suit residential staff shift and work patterns. this will no longer be viable as the pool car service does not start until 0800 & I am need to be on site at 0730.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. Arrangements to access pool cars out with normal hours can be made with the administration function at pool car locations.
34448	An individual	7e. Green Fleet & Travel	Once again it is the staff who will be picking up the financial tab for a reduced business mileage rates. This is nothing short of outrageous. The existing rate is recognised as being years out of date and does not reflect anything like the cost on running and maintain a vehicle. The rate should be going up, substantially, and not down. It also needs to be appreciated that staff who make use of their own vehicles for business use probably save a lot of time for the Council and this translates into a financial saving in its own right.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is used by the council. This rate includes an element for additional vehicle costs and wear and tear.
34449	An individual	7e. Green Fleet & Travel	cars don't run themselves , good rates should be paid to staff for using own car , disagree with this saving .	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff are reimbursed for using their own vehicles on council business. The reimbursement rate includes fuel and wear and tear.
34450	An individual	7e. Green Fleet & Travel	Reducing staff mileage rates needs to sit alongside public transport changes - see answer above.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34451	An individual	7e. Green Fleet & Travel	monitor and challenge claims to keep staff honest. In the private sector it is just the same and people will push it to the point of fraud when not watched like children.	Green Fleet & Travel - business mileage	4. The council is already doing this.	The council currently has a mileage authorisation process in place to monitor claims.
34452	An individual	7e. Green Fleet & Travel	Why is there any business mileage. Should be pool vehicle booking system	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	The council will always require employees to incur business mileage to deliver essential services. There is currently a fleet of 300 pool vehicles to assist employees.
34453	An employee of West Lothian Council	7e. Green Fleet & Travel	If their job results in travelling then you are asking them to travel so milage must be paid but company vehicles should be cut back on as there are loads	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34454	An individual	7e. Green Fleet & Travel	If staff have to use their own cars they should get fair mileage payments.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Employees will be reimbursed for use of their own vehicle.
34455	An individual	7e. Green Fleet & Travel	If the staff are prepared to use their own vehicles to save the council from having more pool cars and company cars, they should be paid the going rate for doing so. This would actually amount to a further pay cut for many of the staff.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees will be reimbursed for use of their own vehicle. Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner, and help to ensure vehicle numbers are optimised.
34456	An employee of West Lothian Council	7e. Green Fleet & Travel	The Council should be paying a fair rate for staff using their own vehicle or encourage staff to use their pool vehicles. If staff have appointments within easy walking distance they should be encouraged to walk and not use any transport.	Green Fleet & Travel - business mileage	4. The council is already doing this.	All employees are required to use the travel hierarchy to determine if transport is required and if so which of the numerous options is the most efficient.
34457	An individual	7e. Green Fleet & Travel	Reducing payments to staff using own car is long overdue. Anything above the Inland Revenue limit of 45p a mile is unacceptable Green fleet?	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is used by the council.
34458	An individual	7e. Green Fleet & Travel	Staff should still be paid an appropriate rate to cover petrol when using their own car for business.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34459	An individual	7e. Green Fleet & Travel	Whilst the point on business mileage etc is interesting, the obvious impact of reducing mileage charges is that staff take a cab instead, at greater cost. Not increasing mileage charges, and being stricter on when personal vehicles can be used (ie not if public transport, or walking, is available and cheaper) may be better.	Green Fleet & Travel - business mileage	4. The council is already doing this.	All employees are required to refer to the travel hierarchy to determine if transport is required and if so which of the numerous options is the most efficient. Use of taxis is only considered in exceptional circumstances.

34460	An individual	7e. Green Fleet & Travel	If ou have took employment with the council that requires you to travel then I don't think it's right to claim mileage	Green Fleet & Travel - business mileage	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Employees will be reimbursed for use of their own vehicle.
34461	An employee of West Lothian Council	7e. Green Fleet & Travel	Mileage reductions provide double benefits in terms of financial efficiency savings and reductions in the council's carbon footprint.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34462	An individual	7e. Green Fleet & Travel	Assuming you're proposing a mileage rate under the authorised mileage rate this is a pay cut for the relevant staff - not reasonable or ethical. More efficient scheduling of meetings and use of technology to cut mileage travelled might help.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34463	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34464	An individual	7e. Green Fleet & Travel	don't agree with reduced mileage for workers.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34465	An employee of West Lothian Council	7e. Green Fleet & Travel	I think that ALL travel expenses paid to council employees should be removed.	Green Fleet & Travel - business mileage	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Employees will be reimbursed for use of their own vehicle.
34466	An individual	7e. Green Fleet & Travel	I think that all mileage expenses should be removed/	Green Fleet & Travel - business mileage	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Employees will be reimbursed for use of their own vehicle.
34467	An individual	7e. Green Fleet & Travel	Milage only should be paid for use of provate cars.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Employees are reimbursed for use of their own vehicle.
34468	An employee of West Lothian Council	7e. Green Fleet & Travel	If more staff stop using their cars expect a reduction in efficiency.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34469	An individual	7e. Green Fleet & Travel	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34470	An individual	7e. Green Fleet & Travel	New technologies will aid this .video calls , drone technology etc.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34471	An employee of West Lothian Council	7e. Green Fleet & Travel	By reducing the mileage rate payable to staff you are requesting that they subsidise the Council out of their own pockets. While this may be sustainable at certain pay levels it is not true of all pay levels.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34472	An individual	7e. Green Fleet & Travel	If staff require to use their own vehicles they should be adequately remunerated. Use of WLC vehicles should be encouraged for business but not for transport to and from work. Unless on call WLC vehicles should be garaged/parked at WLC premises overnight & weekends not at home addresses.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34473	An individual	7e. Green Fleet & Travel	Anyone using WLC vehicles to & from work should be advised that this may require to be declared to HMRC as a taxable benefit.	Green Fleet & Travel - business mileage	4. The council is already doing this.	The council currently abides by any taxation laws relating to private use of council vehicles.
34474	An individual	7e. Green Fleet & Travel	This is not good if staff use their car for travelling from building to building as part of their role within the Council. They should get expenses, petrol and wear and tear all cost money to the individuals	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. This rate includes an element for additional vehicle costs and wear and tear.
34475	An individual	7e. Green Fleet & Travel	Go for it. As I noted in one of my earlier remarks - there are too many Council White vans "all over the place" In fact there are some streets you can't get moving for them (especially overnight)	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Council policy requires a business case for vehicles to be taken home.
34476	An individual	7e. Green Fleet & Travel	When required replacing pool cars with electric models,	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.

34477	An individual	7e. Green Fleet & Travel	Council staff seem to take vans and trucks home and leave them parked outside their houses. Sometimes they sit there for days on end and are not used. What a waste of resources.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34478	An individual	7e. Green Fleet & Travel	Provide bonus to council drivers who drive in most green/energy efficient manner each month (can be monitored with driving style apps).	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comments have been noted. While no financial bonus could be offered alternative ways of incentivising drivers could be looked at.
34479	An individual	7e. Green Fleet & Travel	Agree with streamlining the provision - do not agree with reducing the mileage rate payable to council staff unless they receive a higher rate than individual tax provisions allow.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Employees are currently reimbursed the maximum rate allowable under HMRC guidelines.
34480	An individual	7e. Green Fleet & Travel	It is difficult to see how further reduction in business mileage can be achieved. I work in Operational Services and we require to carry out site visits on a daily basis covering a variety of functions which would not be possible to do any other way.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34481	On behalf of a Group/Organisation	7e. Green Fleet & Travel	TUS will encourage all members to refuse to use their own cars for council business if mileage rates are reduced	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response has been noted. Trade Unions will be fully consulted on all proposals
34482	An individual	7e. Green Fleet & Travel	Costs should be reduced as much as possible, but staff using their own vehicles for essential business travel should be paid the correct fair rates for their particular vehicle.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34483	An individual	7e. Green Fleet & Travel	aGREE AS LONG AS STAFF HAVE ACCESS TO POOL CARS	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34484	An employee of West Lothian Council	7e. Green Fleet & Travel	Again punishing workers for working! Why if people are having to use their own vehicles for business should they be paid less milage - that's madness! If they require to use their own vehicle they should be compensated appropriately to cover depreciation costs as miles increase through business use.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34485	An employee of West Lothian Council	7e. Green Fleet & Travel	i suspect staff would stop using their own vehicles for business purposes considering it adds to insurance premiums anyway	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. In most cases including business use on personal vehicle insurance policies does not incur additional cost.
34486	An individual	7e. Green Fleet & Travel	I use my own vehicle but I do not claim mileage between sites If you stop employees bringing home council transport this would be a saving as they are getting free transport with no out lay while other employees have to make there own way to work costing them fuel money or bus money. You should give staff who claim mileage a fuel card and if they spend over what budget you give them they pay the rest	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home. Personal fuel cards is not something which would be considered at this time.
34487	An employee of West Lothian Council	7e. Green Fleet & Travel	seems difficult to cut costs if you mean to centralise services and everyone has to travel further	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34488	An individual	7e. Green Fleet & Travel	Get them to use the bus - but you are cutting down on services so either they use a council vehicle for business travel (very costly) or you compensate them through the mileage rate to use their own cars . If you pay less then staff may refuse to use their own cars for business then what happens ? e .	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34489	An individual	7e. Green Fleet & Travel	If you think you can cut the mileage allowance and not impact business then you are paying too much and probably supporting business meetings and excessive travel costs which could be conducted via teleconferencing - telephone .	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Council policy requires employees to consider whether travel is necessary or if there is any alternative.
34490	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff mileage must be a fair rate and cover costs for staff when no alternative transport is available.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34491	An individual	7e. Green Fleet & Travel	I don't believe that staff should receive company cars	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council employees do not receive company cars. The council has a fleet of 300 pool vehicles for staff to use for business travel.
34492	An individual	7e. Green Fleet & Travel	Mileage always needs to be carefully monitored and be as efficient use of mileage as possible.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34493	An individual	7e. Green Fleet & Travel	West Lothian is well-served by rail. Council staff could be encouraged to use the train too, rather than claiming mileage expenses.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Council policy encourages staff to use public transport where appropriate, especially when travelling out with West Lothian.
34494	An individual	7e. Green Fleet & Travel	See above. West Lothian is well-served by rail. Council staff could be encouraged to use the train too, rather than claiming mileage expenses.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Council policy encourages staff to use public transport where appropriate, especially when travelling out with West Lothian.
34495	An individual	7e. Green Fleet & Travel	See above. West Lothian is well-served by rail. The concession for older people on the train is much appreciated and probably makes a lot of better off people happier about paying substantial council tax.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34496	An individual	7e. Green Fleet & Travel	Reduce the rates then	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34497	An individual	7e. Green Fleet & Travel	Surely council staff only travel where they have to at present. How do you reduce by 20% if all journeys are essential.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34498	An employee of West Lothian Council	7e. Green Fleet & Travel	The vehicle scheme is no good - you can never get a car when you need one but when you look at the car park it is full of pool cars. It would be better to give a sensible car user allowance, and to discourage travel where possible.	Green Fleet & Travel - business mileage	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Car user allowances are not the most cost effective way of paying for business travel. Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34499	An individual	7e. Green Fleet & Travel	Again does this need to be in the consultation: can't you just do it.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34500	An individual	7e. Green Fleet & Travel	Staff should be paid a mileage equivalent for cycling and even walking short distances instead of taking unnecessary car journeys, which would improve health and reduce health-related absenteeism.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34501	An individual	7e. Green Fleet & Travel	I agree in principle, however, it should be noted that many staff don't claim business mileage when using their own cars for council business.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34502	An individual	7e. Green Fleet & Travel	This would have to be balanced very carefully, there is I believe no requirement for staff to use their own vehicles. If the mileage rate paid is reduced too far (it must always cover the fuel cost, insurance contribution and wear of the vehicle) then staff may stop using their own vehicles which would place a greater burden / demand on council vehicles. This on of the many changes which could have an adverse effect on other service provision.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34503	An individual	7e. Green Fleet & Travel	Staff must not be penalised for using their own cars for council business and mileage rates should reflect costs but not allow staff to profit.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees will receive reimbursement for using their own vehicle.
34504	An individual	7e. Green Fleet & Travel	People should be paid if need to use their cars	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees will be reimbursed for use of their own vehicle.
34505	An individual	7e. Green Fleet & Travel	Agree. Mileage rates paid tend to be excessive compared to what the actual cost is. Private businesses have reduced transport costs in recent years through efficient use of technology e.g. video conferences and the council should do the same.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34506	An individual	7e. Green Fleet & Travel	People should not be out of pocket if using their own cars for WLC business.	Green Fleet & Travel - business mileage	4. The council is already doing this.	Employees will be reimbursed for use of their own vehicle.
34507	An employee of West Lothian Council	7e. Green Fleet & Travel	Many staff do not submit claims (including myself), but may do if they are being squeezed in other ways e.g. parking charges 7 this would be counterproductive.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34508	An individual	7e. Green Fleet & Travel	staff should not have to pay to use their own vehicle for work or be out of pocket when cars are supplied to senior management who can well afford to pay for their own car	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees are reimbursed for use of their own vehicle. Vehicles are available for staff at all levels to use.
34509	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduction of mileage rate now would be unreasonable also.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34510	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing the mileage rate for those who use their own transport in these positions may impact on business continuity.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

34511	An individual	7e. Green Fleet & Travel	Reduce private mileage to only necessary journeys. Cab fares only when no other means available.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34512	No Response	7e. Green Fleet & Travel	Further increases could be achieved through increasing the size of the electric vehicle fleet - potentially replacing all (or the vast majority of) pool cars. While infrastructure improvements would need to be made, this would result in lower fuel and maintenance costs over the long term. The majority of journeys currently undertaken in diesel vehicles could easily be accommodated by modern electric cars. Charging points could be combined with solar power and battery storage to create further efficiency. Funding is potentially available to create "charging hubs" such as that currently planned by Falkirk Council.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.
34513	An individual	7e. Green Fleet & Travel	reducing business mileage is in theory fantastic, but this means less face time with customers..	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34514	No Response	7e. Green Fleet & Travel	Staff are already feeling the pinch of low salary increases. Their is likely to be a loss of ability to conduct work if they are not able to support attendance at meetings, etc., by being reimbursed for journeys. Has the impact analysis on this been conducted? How will staff meet with their peers in other councils and continue to support their own learning and growth if they are unable to attend and meet with them?	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff are able and will be required to attend meetings however employees will have to consider if the meeting is necessary or if there is an alternative i.e. using technology. Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34515	An individual	7e. Green Fleet & Travel	Staff can receive tax rebates for the difference between the rate paid and the government approved rate.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34516	An employee of West Lothian Council	7e. Green Fleet & Travel	I stopped using my own car long ago, I can assure you I made no profit from using it to subsidise the Council!	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34517	An individual	7e. Green Fleet & Travel	Increase number of electric vehicle charging points (and fine non electric vchiles parking in these spaces). You could charge for the space and offer free electricity for duration of parking period.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34518	No Response	7e. Green Fleet & Travel	I am happy to use pool cars if I need to travel, or public transport. Better control of pool car bookings/ no shows could help reduce private travel costs.	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34519	An individual	7e. Green Fleet & Travel	Reduction in Business miles can be achieved in more meeting space was available in partnerships libraries etc for clients to meet with staff. Home visits are required due to no space in council buildings or charges in community center for room booking	Green Fleet & Travel - business mileage	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34520	An employee of West Lothian Council	7e. Green Fleet & Travel	mileage should be cut for staff members of the council unless it is necessary.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34521	An individual	7e. Green Fleet & Travel	Mileage rate to staff must be acceptable and not have the employee subsidising Council business mileage applicable to their job.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34522	An individual	7e. Green Fleet & Travel	Company vehicles are a thing of the past. Mileage allowance which also takes into account vehicle depreciation is the way forward	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council employees do not receive company cars. The council has a fleet of 300 pool vehicles for staff to use for business travel. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34523	An individual	7e. Green Fleet & Travel	Don't expect staff to use their personal vehicles for the benefit of the council	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees are reimbursed for use of their own vehicle.
34524	An employee of West Lothian Council	7e. Green Fleet & Travel	If the Council reduces the mileage rate paid to staff below the current HMRC suggested rate will they put processes in place for staff to make it easier to claim the tax relief on any difference that they are entitled to? Will the savings offset the additional administrative cost of provided additional payroll support required to enable staff to claim for what they are entitled?	Green Fleet & Travel - business mileage	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
34525	An employee of West Lothian Council	7e. Green Fleet & Travel	Will the reduction in mileage in really be a saving because staff are already not claiming all their mileage a reduction could be a step to far for some staff.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34526	An individual	7e. Green Fleet & Travel	Immoral to reduce the mileage rate, surely this represents a cut in salary to staff using their own vehicles.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34527	An individual	7e. Green Fleet & Travel	i strongly agree with cutting back with payments for staff using their own vehicles there should be no reason as the council has a fleet of cars sitting at the civic center	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34528	An individual	7e. Green Fleet & Travel	Build mileage into contracts to avoid paying.	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	This suggestion would not be progressed due to the range of mileages incurred by employees, both in the same and different roles.
34529	An employee of West Lothian Council	7e. Green Fleet & Travel	For information -I have never claimed mileage for using own vehicle for business although been entitled. To impede use of this would have a negative impact on service delivery if it would stop school staff from undertaking mileage in own car as part of business. This would then become something that is then expected to be provided for by staff from their own pocket.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34530	An individual	7e. Green Fleet & Travel	7.e More for less from employees and thus reluctance to use their own vehicles. why should they. This will result in less face to face business with clients.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34531	An employee of West Lothian Council	7e. Green Fleet & Travel	A reduction in mileage rate for staff is effectively another pay cut which does not improve employment in West Lothian.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34532	An employee of West Lothian Council	7e. Green Fleet & Travel	again staff being asked to use their own vehicles and not subsidised for this. This is unfair that staff are doing this and it will mean that they will refuse and will result in some not being able to attend meetings etc. until later.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Employees are reimbursed for use of their own vehicle.
34533	An individual	7e. Green Fleet & Travel	Staff should be paid a realistic payment for using their own transport.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34534	An individual	7e. Green Fleet & Travel	Again you can't cut mileage on your workforce	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34535	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff should be paid if use of own car is needed	Green Fleet & Travel - business mileage	4. The council is already doing this.	Employees are reimbursed for use of their own vehicle.
34536	An individual	7e. Green Fleet & Travel	Many staff do not claim mileage for odd journeys but if being charges for parking they will start submitting claims	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34537	An individual	7e. Green Fleet & Travel	While I agree with making business mileage savings I do not agree with reduction in mileage rate for staff using their own vehicles. Insurance costs for using private vehicles for business purposes are higher so reduction in rate will mean staff paying more for this insurance	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34538	An individual	7e. Green Fleet & Travel	Fully agree with reduction in staff mileage.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34539	An individual	7e. Green Fleet & Travel	There are statutory mileage rates. Reviewing and reducing mileage is good but rates should be fair.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Mileage rates are not statutory. The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council.
34540	An employee of West Lothian Council	7e. Green Fleet & Travel	The Impensa system is so awkward to use I'm surprised anyone has time to claim mileage anymore.	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

34541	On behalf of a Group/Organisation	7e. Green Fleet & Travel	Staff don't choose to use own car at times it's part of their job they should not be losing out on payment due to them	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees are reimbursed for use of their own vehicle.
34542	An individual	7e. Green Fleet & Travel	Staff must be paid business mileage at the going rate. They cannot be expected to carry out council business out of their own pocket.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34543	An individual	7e. Green Fleet & Travel	I do not believe that employees should be expected to subsidise council services when making use of their vehicles. By doing so I expect that employees will then choose not to use their vehicle and will then have to use public transport to get to meetings etc which will in turn increase travelling time and so increase costs in non-productive time for employees. Employ teleconferencing initiatives as an alternative.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner. Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34544	An individual	7e. Green Fleet & Travel	If a member of staff needs to make a journey to do their job, it should be paid for by the employer. There are many staff who attend courses, meetings or training as part of their job and do not claim travel expenses. Again lots of good will already exists in this area which should not be.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on what transport options should be used are set out in council policy. Employees are reimbursed for using personal vehicles.
34545	On behalf of a Group/Organisation	7e. Green Fleet & Travel	If any reduction in mileage rate is made then the GMB will advise our members that there is ABSOLUTELY no requirement for them to use their own vehicle for work business.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34546	An individual	7e. Green Fleet & Travel	Staff should always be paid a fair mileage rate. More use of electric vehicles	Green Fleet & Travel - business mileage	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34547	An individual	7e. Green Fleet & Travel	Welcome a reduction in business mileage, particularly if this is associated with no travel, e.g. teleconferencing, or switch to active travel where feasible.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34548	An employee of West Lothian Council	7e. Green Fleet & Travel	People to "come to services/meetings, etc" at a central point to cut down on where staff travel to	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	All council services will need to review business travel in line with changes to service delivery.
34549	An individual	7e. Green Fleet & Travel	The economies of using Pool, lease public or private transport has varied over the years and policy is dictated on which is most cost effective. It is vitally important that relevant staff get out on site to ensure that legal requirements are being met in all areas. We do not want a Greenfell in W Lothian. Further savings here will be difficult unless services are to suffer dramatically.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34550	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in revenues and benefits. The managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34551	An employee of West Lothian Council	7e. Green Fleet & Travel	Council employees should take their own car, where necessary	Green Fleet & Travel - business mileage	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement to travel to deliver council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34552	An individual	7e. Green Fleet & Travel	Don't think reducing the mileage for staff will be acceptable as it is not through choice that staff use their vehicle's it is often when no availability of pool cars are available or staff have to visit /customer/clients at short notice. Their is a lack of availability in buildings for clients to visit staff as buildings are full and meeting rooms fully booked for weeks. If more meeting rooms were made available then clients to visit staff instead of other way around.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34553	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34554	An individual	7e. Green Fleet & Travel	The rate for Council staff using their own cars has got to be fair.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

34555	An individual	7e. Green Fleet & Travel	The maximum business mileage paid for on personal vehicles should be reduce to encourage the use of pool cars. The number of pool cars per service should be reviewed. Pool car booking system must be updated when people do not pick up the cars they have booked. No block booking should be allowed.	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery. Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34556	An individual	7e. Green Fleet & Travel	Support mileage rate for staff to be reduced to COSLA rate	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34557	An individual	7e. Green Fleet & Travel	Thought when all cars were bought - we did not have mileage rate payment.	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council.
34558	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34559	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34560	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34561	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34562	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34563	An individual	7e. Green Fleet & Travel	What mileage rate will you be paying staff using their own car for business?	Green Fleet & Travel - business mileage	3. The respondent advised that they had no comment to make.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council. Any future rate is unknown at this time.
34564	An employee of West Lothian Council	7e. Green Fleet & Travel	As stated in my previous comments: Reduce pool cars/mileage rate	Green Fleet & Travel - business mileage	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34565	No Response	7e. Green Fleet & Travel	The withdrawal of mileage allowance will affect the amount of work undertaken by staff to clients and support clients to get to and from important appointments or attending parenting groups. Hitting the most vulnerable and families living in poverty that can't afford bus fares to get to appointments. Staff are already under paid for the work they do and reducing the little payment they get for the ware and tare on their own car for travelling on council business. A review of the pool cars need to be done and for the employees treatment of these cars i.e. keeping the insides cleaner and taking their own rubbish with them on returning the cars.	Green Fleet & Travel - business mileage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner. The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council.
34566	An employee of West Lothian Council	7e. Green Fleet & Travel	I would imagine that this would also be achieved by updating the pool cars and perhaps a car share scheme would help.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.

They are an inefficient council resource which are not managed properly. An example of a poorly implemented and thought out system.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34568	An employee of West Lothian Council	7e. Green Fleet & Travel	There are certain users of pool cars that are abusing the system. I have seen 1 pool car sit outside a property where i live for several days on end. Transport the users son from school and bring home bags of shopping. Clearly this is not what a pool car is to be used for.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34569	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff will refuse to use their own transport and use fleet cars - obvious knock on effect. WLC have not replaced cars with newer models - what is another few years ? At times cars are difficult to book due to limited availability - maybe management scheduling days and giving a guidance mileage allowance to staff each week would help improve this.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34570	An individual	7e. Green Fleet & Travel	Scrap council pool cars. Council employees spend large amounts of time booking cars/refuelling cars/taking cars to garage for repairs/maintenance during their work time. Most council employees have to use their own cars in emergency situations when pool cars are not available. This is why it appears there is a reduction in car use.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34571	An individual	7e. Green Fleet & Travel	Yes council vehicle reduction is definitely required. You only have to look at the wastage of unused council vehicles sitting in the livingston court grounds.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34572	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff should not be using their own vehicles. Pool cars are the way forward	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34573	An individual	7e. Green Fleet & Travel	What about Council Vehicles being taken home by employees?	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34574	An individual	7e. Green Fleet & Travel	The council should be leasing/buying more electric cars and better maintaining the current pool cars. Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34575	An employee of West Lothian Council	7e. Green Fleet & Travel	not convinced financing a vast car pool is cost effective. Reason for recent savings is less people using these cars.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34576	An individual	7e. Green Fleet & Travel	Get rid of pool cars and pay staff properly for the use of their own vehicles. This will save you more money in the long run. Also better for the environment as no need to purchase new cars for this scheme.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34577	An individual	7e. Green Fleet & Travel	To my knowledge the fleet of cars introduced did not include automatics or adapted cars for disabled workers, hence staff using own cars.	Green Fleet & Travel - pool cars	4. The council is already doing this.	Our fleet vehicles do include automatics and adapted cars.
34578	No Response	7e. Green Fleet & Travel	Take some of the vehicles away from the Civic Centre and send them to the outlying areas and offices. There always seems to be a number of vehicles not in use.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34579	An individual	7e. Green Fleet & Travel	You say the council has 'delivered substantial savings' in fleet costs but I have not seen any evidence to support this. If it is true why is it not more widely publicised? I would be interested to see how travelling in pool car with all the associated running costs can be less than the 40p paid to private car users. 40p per mile won't cover the cost of running a private car - it would be unfair to reduce that rate further Why not introduce bus tokens or passes for staff travelling on council business?	Green Fleet & Travel - pool cars	4. The council is already doing this.	Savings have been made in terms of fleet costs and these have been reported through council committees.
34580	An individual	7e. 34581	An employee of West Lothian Council	7e. Green Fleet & Travel	Make better use of electric vehicles. Two brand new Nissan Leaf vehicles sat unused at Whitehill House for at least 6 months as there were no charging points. When renewing the fleet the number of electric vehicles could be greatly increased (50%?) provided that charging infrastructure is also provided.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Electric charging points and increasing the network of them is a continually evolving field at a national level as well as a local one. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34583	An individual	7e. Green Fleet & Travel	reduce council fleet or shared usage between departments	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council is already reducing the fleet and sharing vehicles between services.
34584	An individual	7e. Green Fleet & Travel	reduce the mileage rate for people using their own vehicle yet again affecting the 3 hard workers whom are low paid	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34585	An individual	7e. Green Fleet & Travel	Use of Move electric company cars and vans	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34586	An employee of West Lothian Council	7e. Green Fleet & Travel	the pool cars were brought in to make a saving 6 years ago, the fleet is old and the council support and maintain it. costing money. As pool cars are available, personal millage should be dropped to a nominal figure 15 pence max	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Replacement of the pool car fleet is currently being investigated.
34587	An individual	7e. Green Fleet & Travel	Pool car fleet specific to Teams	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34588	No Response	7e. Green Fleet & Travel	The amount of money that is spent on pool cars also isn't cost effective. There are instances where it is essential that certain teams have access to pool cars as home visits are required/essential but I don't believe every single service needs to have access to them. It costs million to run and maintain these vehicles when in some cases, appointments could be made with relevant staff members within the building, in turn, reducing the need for as many pool cars.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34589	An employee of West Lothian Council	7e. Green Fleet & Travel	I think the pool car issue is not working, more expense to the council leasing the cars than paying mileage to staff	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 34590	An individual	7e. Green Fleet & Travel	Passing council car parks, i.e. Civic Centre, Strathbrock, various area's in Bathgate and outlying area's over a weekend and seeing all the cars, it is hard to believe that all these cars are needed during a normal working day. Consideration could be given to hiring out these cars to charities when they are not in use, better still reduce the need for most of them.	Green Fleet & Travel - pool cars	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	This has previously been considered and is not possible under the terms of the vehicle leasing contracts.
34591	An individual	7e. Green Fleet & Travel	many services rely on the use of vehicles to carryout their day to day duties, as such if staff are using their own vehicle they should be suitably recompensed, if that doesn't happen staff wont use their cars and therefore are unable to provide the service, get rid of pool cars and their associated cost for hiring servicing pay staff a suitable mileage and let them do their jobs. no mileage allowance and no available pool car then no service provision	Green Fleet & Travel - pool cars	2. 34592	An individual	7e. Green Fleet & Travel	pool cars ?? are they all used ?	Green Fleet & Travel - pool cars	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	All pool cars are used and work will be required to ensure utilisation is as high as possible.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34593	An employee of West Lothian Council	7e. Green Fleet & Travel	Make sure staff are not out of pocket. Get more pool cars	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The number of pool cars will be considered in line with the level of vehicle numbers in other services.
34594	No Response	7e. Green Fleet & Travel	Remove or significantly reduce fleet of pool cars to realise saving in fleet maintenance costs.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34595	An individual	7e. Green Fleet & Travel	If you have surplus vehicles left in car parks most of the day then definitely reduce them	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34596	An individual	7e. Green Fleet & Travel	Get rid of the Provosts official car and its very expensive private number plate. The provost could always avail of one of the many pool cars the council has.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The Provost doesn't have sole use of a dedicated vehicle and can use pool cars where appropriate.
34597	An individual	7e. Green Fleet & Travel	Stop staff using their own vehicles. You have a fleet of pool cars. Monitor the use of them and be more stringent in travel distances in the pool cars. What is an acceptable distance for staff to walk before they take a car. Healthy workforce.	Green Fleet & Travel - pool cars	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34598	An employee of West Lothian Council	7e. Green Fleet & Travel	Pool cars are booked months in advance and are hard to book if you receive a meeting notification of an imminent meeting. Look at meetings in general, are they always required? Get manager approval before taking a car to a meeting.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council's Green Transport Strategy requires staff to refer to a travel hierarchy before travelling to initially determine if the journey is necessary.
34599	No Response	7e. Green Fleet & Travel	Seriously, the amount of pool car vehicles the council as a whole has is frightening. It should be means tested too. The pool cars should be available to those where it is critical they have access to vehicles for emergencies i.e. Social Work, Domestic and Sexual Assault Team, Looked After Children, Social Care Emergency Team to name a few. Some services use pool cars and the visit isn't necessary. The civic centre is the hub for so many council services and we have interview rooms and meetings rooms available to accommodate appointments so why aren't they being taken advantage of? Instead of home visits for housing for example, can't the client attend the civic centre for an appointment instead? Are all these trips that are being made in pool cars actually business critical? if not, they shouldn't be used. The amount of cars each pool has should be reduced to the bare minimum.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner. Pool vehicles are already assigned to various teams throughout the council where travel is deemed to be necessary.
34600	An individual	7e. Green Fleet & Travel	Did you not have staff using their cars before?? Then spent thousands buying company cars. Why would the staff supply a car to support the council when they have a wage freeze.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff are reimbursed for using their own vehicles on council business. The reimbursement rate includes fuel and wear and tear.
34601	An individual	7e. Green Fleet & Travel	Get rid of all the pool cars that sit day in day out in your car park.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34602	An employee of West Lothian Council	7e. Green Fleet & Travel	Could reducing the number of pool cars, but having cars allocated to specific teams instead, help? Finding availability of pool cars is always difficult, even though the car park seems to be full of them!!	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34603	An employee of West Lothian Council	7e. Green Fleet & Travel	The inability to be able to access a vehicle for necessary travel however, makes individuals and teams less productive and care need to be taken to ensure good availability.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34604	An individual	7e. Green Fleet & Travel	There are many cars being booked and not used so they are lying in car parks unused and this is a reason other people use their own cars as when trying to book online the cars are booked but if you go to car parks they are lying there which is infuriating.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34605	On behalf of a Group/Organisation	7e. Green Fleet & Travel	More pool cars required. More Council staff based in communities.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34606	An employee of West Lothian Council	7e. Green Fleet & Travel	Too many pool cars parked outside civic centre and other buildings - fleet ineffective and costly - no need for it given scale of proposed service & staffing cuts.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34607	An employee of West Lothian Council	7e. Green Fleet & Travel	Pool car booking information must be updated more regularly, especially when cars are not picked up when booked out.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The current booking system will cancel most bookings not collected within one hour.
34608	An employee of West Lothian Council	7e. Green Fleet & Travel	Pool cars allocation should be reviewed. Some areas find great difficulty in trying to get a car whilst some cars are not being used to capacity	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

34609	An employee of West Lothian Council	7e. Green Fleet & Travel	It can be really difficult to get a pool car when one is required. If you can't get one it wastes time and prevents people from doing their jobs.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34610	An employee of West Lothian Council	7e. Green Fleet & Travel	More environmentally friendly cars too.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34611	An individual	7e. Green Fleet & Travel	The pool car usage needs to be reviewed. It can be very difficult to book a pool car, but often there are lots of vehicles in the car park, although they are all booked out! An improved system needs to be in place to ensure these are actually being used for the time officers have them booked out.	Green Fleet & Travel - pool cars	4. The council is already doing this.	Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34612	An employee of West Lothian Council	7e. Green Fleet & Travel	Having a huge amount of pull cars for staff to use bring a whole other amount of cost such as the upkeep of the car tax insurance etc. Reducing the amount of fleet can only be a benefit.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34613	An individual	7e. Green Fleet & Travel	There are always a group of cars parked at whitburn Academy which never seem to move - I am told they are council cars. This seems a waste of money	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34614	No Response	7e. Green Fleet & Travel	Significant savings could be made by cutting the unnessecararily large car pool rather than cutting staff.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34615	An employee of West Lothian Council	7e. Green Fleet & Travel	The council has already demolished the essential users allowance for car users and by reducing an essential user mileage allowance even further will, in all probability, result in staff refusing to use their own vehicles - all to the detriment of the service that is supposed to be provided.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff have a number of travel options available to them to assist with undertaking their duties.
34616	An employee of West Lothian Council	7e. Green Fleet & Travel	Maybe if council vehicles were provided at locations where they were required, instead of at a few selected locations, then it might just reduce travel costs.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Vehicles are located in areas where there is highest demand and utilisation rates are likely to be maximised.
34617	An employee of West Lothian Council	7e. Green Fleet & Travel	has the council considered electric cars with charging points at pool car locations?	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34618	An employee of West Lothian Council	7e. Green Fleet & Travel	Too many pool cars sitting about never getting used.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34619	An employee of West Lothian Council	7e. Green Fleet & Travel	Very often pool cars are booked and not used, or are booked for a longer period than is necessary. There should be a more effective way of checking which bookings are surplus. Further to this, when booking a pool car, it would be useful to see where a car is going and how many seats will be available. This will allow staff to optimise journeys and car share when a common route is planned.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34620	An individual	7e. Green Fleet & Travel	Outrageous amount of money wasted introducing a fleet of cars a few years ago. The council should not have company cars.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council and the pool fleet is still more cost effective than paying mileage to all employees.
34621	An individual	7e. Green Fleet & Travel	Stop giving transport vehicles to staff who live outside the county!	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34622	An individual	7e. Green Fleet & Travel	Lose some pool cars. Stop wasting money on trackers and electric vehicles they are not cost effective. Why service vans every 6 months just carry out a safety check instead.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Electric vehicles are funded by the Scottish Government. All council vehicles are services in line with legal requirements.
34623	An individual	7e. Green Fleet & Travel	Reduce company cars for non essential managers would be a start.	Green Fleet & Travel - pool cars	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Council managers do not have company cars.
34624	An individual	7e. Green Fleet & Travel	Some staff have to use their own cars as they do not have pool cars. Surely Pool cars are more expensive than paying petrol costs.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council and the pool fleet is still more cost effective than paying mileage to all employees.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34625	An employee of West Lothian Council	7e. Green Fleet & Travel	It be implimented that you only use pool cars and not claim milage.	Green Fleet & Travel - pool cars	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34626	An employee of West Lothian Council	7e. Green Fleet & Travel	That said, I imagine it would be rare for council vehicles to have to travel large distances, so why not eliminate fuel costs altogether by running a fleet of electric vehicles (or hydrogen-powered for the occasions where long distance travel is required). The initial outlay may be expensive, but they are worth it in the long run. Seeing council vehicles running on green fuel may also encourage local residents to investigate the possibility, therefore improving air quality in the area.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34627	An individual	7e. Green Fleet & Travel	Electric pool cars?	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34628	An individual	7e. Green Fleet & Travel	Look at pool car allocation - ensure full use is made of cars as people book them out all day and stop others from getting use of them	Green Fleet & Travel - pool cars	4. The council is already doing this.	Vehicle utilisation is analysed to assist with determining how vehicles are allocated.
34629	An employee of West Lothian Council	7e. Green Fleet & Travel	The council could look at how it operates it's vehicles by renewing them more often. This could mean selling them or returning them and surely get a better value on them sooner than later. Just a suggestion.	Green Fleet & Travel - pool cars	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council fleet is leased and replaced on a pre-determined cycle following an evaluation exercise which looked at the optimum replacement arrangements for the type of the fleet the council operates.
34630	An individual	7e. Green Fleet & Travel	If required to use car for work/ business use you should be paid for this, you incur costs as well as a reduction in value of your car in reselling due to perhaps higher mileage than would have been.	Green Fleet & Travel - pool cars	4. The council is already doing this.	Staff are reimbursed for using their own vehicles on council business. The reimbursement rate includes fuel and wear and tear.
34631	An individual	7e. Green Fleet & Travel	Reducing available fleet cars and reducing the cost staff would get using their own vehicles here. You can see who is going to be hit hardest here and I don't agree with this. Pay has already been frozen for a number of years.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34632	An individual	7e. Green Fleet & Travel	This makes sense, provided that viable vehicles are not unnecessarily replaced by expensive 'green' alternatives.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Vehicle cost is a key consideration when replacing vehicles as well as the daily environmental impact.
34633	An employee of West Lothian Council	7e. Green Fleet & Travel	More electric vehicles for council pool cars.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34634	An employee of West Lothian Council	7e. Green Fleet & Travel	Can never get a fleet car at the moment anyway.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34635	An employee of West Lothian Council	7e. Green Fleet & Travel	The use of pool cars appears inefficient and costly to the environment. Has any cost analysis been done about the use of electric vehicles? What savings have been made using pool cars?	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year. The introduction of the green travel strategy made significant savings for the council and the pool fleet is still more cost effective than paying mileage to all employees.
34636	An individual	7e. Green Fleet & Travel	Councils do seem to have large numbers of vehicles and have been in the press for the rates paid for mileage. Any economies would be good	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34637	An employee of West Lothian Council	7e. Green Fleet & Travel	This would appear to be one area where savings could be further made. The number of fleet cars that lay unused but booked out on the system is ridiculous. I have no idea how this is monitored but often there are no pool cars available when trying to book weeks in advance.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34638	An individual	7e. Green Fleet & Travel	More carpools and cycling to work, as long as it affects the pen pushers as much as it does the binmen then go for it	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34639	An employee of West Lothian Council	7e. Green Fleet & Travel	Green transport policy is completely unsuccessful. Pool cars sit unused at certain times while at other times council workers are unable to access them. Some workers have allocated cars which are not used regularly. Council workers are expected to refuel cars and take them for maintenance checks during work time which is inefficient use of staff time. Additional parking is required as staff have their own cars and then use pool cars for work.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34640	An employee of West Lothian Council	7e. Green Fleet & Travel	There are not enough pool cars to meet demand.	Green Fleet & Travel - pool cars	1. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34641	An employee of West Lothian Council	7e. Green Fleet & Travel	If staff have to use their cars for work it isn't fair to reduce what they can get	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34642	An employee of West Lothian Council	7e. Green Fleet & Travel	If you plan to reduce this cost then please ensure that all areas have the appropriate number of pool cars needed for them to carry out a service. too often visits cannot be made due to limited number of cars available.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is required and if so it is minimised and done in the most efficient manner. The number of pool cars will be considered in line with the number of vehicles in other services.
34643	An individual	7e. Green Fleet & Travel	The same applied to the council's use of pool cars - that saving never properly materialised but no one is willing to admit it.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The savings have been reported through the council's governance structure.
34644	An individual	7e. Green Fleet & Travel	The introduction of pool cars did not deliver the saving proposed at the outset. It was poorly thought through.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The savings have been reported through the council's governance structure.
34645	An employee of West Lothian Council	7e. Green Fleet & Travel	Also, the car booking system should be monitored as there always appears to available cars although the car booking system advises there is no availability	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34646	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduction available for getting a pool of electric cars?	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34647	An employee of West Lothian Council	7e. Green Fleet & Travel	It might be an idea to stop employees using the pool cars to get to there workplace and having them sitting outside buildings all day. My base was the Civic Centre and I very rarely got access to a pool car - I covered Briech Valley for 3 years and claimed no expenses at all during this time as I was told to use pool cars I couldn't get!. The system certainly needs to be a lot fairer.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34648	An employee of West Lothian Council	7e. Green Fleet & Travel	Could the pool car booking system be tweaked to charge the user's Service at the point of booking? This may stop the small group of users who block book a car.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The current system cannot accommodate internal charging however future system development will be looked at.
34649	An employee of West Lothian Council	7e. Green Fleet & Travel	Already not claiming business mileage for use of own car as not able to use pool cars and due to current online system being so cumbersome and un-user friendly	Green Fleet & Travel - pool cars	2. 34650	An employee of West Lothian Council	7e. Green Fleet & Travel	I personally think that all council vehicles should be going down the route of being electric vehicles as with the current fleet I don't think it is working.	Green Fleet & Travel - pool cars	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.
34651	An employee of West Lothian Council	7e. Green Fleet & Travel	would agree. Pool cars should be used, if someone does not wish to use these them they should not be claiming mileage.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34652	An individual	7e. Green Fleet & Travel	also services need to get better at ensuring we are making best use of staff time. i.e. instead of someone booking a car for a half day session or appointment to arrange to work in building in that area and free up that car for the people needing to make many journeys.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The Green Transport Policy sets out how staff should travel and arrange their working day to make best use of resources.
34653	An employee of West Lothian Council	7e. Green Fleet & Travel	Given the availability of pool cars, there should be little need for personal transport to be used. Statutory functions require to visit sites and individuals at least once and on some occasions multiple times. It would not be possible to reduce these journeys but efficient travel routes would help.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34654	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduction in pool cars. Teach all drivers better driving techniques to save fuel.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34655	An individual	7e. Green Fleet & Travel	Services should be provided with their own pool of vehicles which have to achieve positive levels of utilisation or they lose the vehicle. This would ensure that the service teams control use.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34656	An individual	7e. Green Fleet & Travel	No more electric vehicles the ones you have are hardly used. Why are you providing the electricity from electric car charging points for free? Also I see that the points at the Water Yett are being used as an all day free parking facility for not only all electric cars but hybrids which do not need to use them.	Green Fleet & Travel - pool cars	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will be looking to increase the number of electric vehicles in the future to assist with meeting government targets. Electric vehicle charging is currently free as it was a condition of the grant funding used to install the charging point.
34657	An individual	7e. Green Fleet & Travel	Why would staff use their own cars? Especially if they are having to pay for parking somewhere all day too. They would be getting a harder time than anyone else. Just because your a council worker does mean to say you have to substitute West Lothian council by providing a car, but it's ok they will give you petrol money, would that be up front, I think not.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34658	An employee of West Lothian Council	7e. Green Fleet & Travel	Under used pool cars ? could a car not be allocated to each service? the current system is not fit for purpose.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34659	An employee of West Lothian Council	7e. Green Fleet & Travel	Review need for pool cars and replace with e-bikes.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34660	An individual	7e. Green Fleet & Travel	There always seems to be numerous pool cars in the car park but none available for staff. The system needs to be re-looked i.e. block bookings, future bookings for cars that aren't needed etc.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34661	An employee of West Lothian Council	7e. Green Fleet & Travel	Has the council considered electric cars with charging points at pool car locations?	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34662	An individual	7e. Green Fleet & Travel	Given that pool cars are used and there is no essential mileage payments, own car use is already a cheap resource.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34663	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff have to use their own vehicles at times as no pool cars are available. Are there any figures to actually show how much money has been saved by the introduction of the pool car system? I fail to see how this saved money with the initial cost involved.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. The savings have been reported through the council's governance structure.
34664	An individual	7e. Green Fleet & Travel	When required replacing pool cars with electric models.	Green Fleet & Travel - pool cars	5b. The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.
34665	An individual	7e. Green Fleet & Travel	Limit council vehicles to a more efficient 56mph.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council already does this with certain classes of vehicles.
34666	An employee of West Lothian Council	7e. Green Fleet & Travel	The introduction of the poo vehicles a few years ago has resulted in greater pollution for the streets of West Lothian. Now staff have to travel to pick up a vehicle then back. Everyone known the starting of vehicles produces the worse carbon. How much if anything has this scheme saved when you add everything up along with service delivery. How many appointments have been cancelled or re-arranged due to no pool vehicle being available?	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool vehicles should be used are set out in council policy. The introduction of the green travel strategy made significant savings for the council. The savings have been reported through the council's governance structure.

It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.
34669	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis so perhaps the allocation of pool cars need to be reassessed.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34670	An individual	7e. Green Fleet & Travel	Electric cars should be implemented like other local authorities	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34671	An individual	7e. Green Fleet & Travel	Use of any pool cars should be maximised such that they are hardly ever in the council car park awaiting use.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34672	An individual	7e. Green Fleet & Travel	High number of pool vehicles sit unused on a daily basis.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34673	An employee of West Lothian Council	7e. Green Fleet & Travel	Not practical to reduce number of vehicles as these are very difficult to book. Suggest better controls on reserving and not using vehicles is introduced first to gauge demand.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34674	An employee of West Lothian Council	7e. Green Fleet & Travel	Widespread abuse of fleet is evident to anyone observing this - people booking cars to go and sit in other council buildings all day just to save their own petrol. Target those taking liberties and you will save more.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Employees have numerous travel options available to them and guidelines on when and how pool vehicles should be used are set out in council policy.
34675	An employee of West Lothian Council	7e. Green Fleet & Travel	There are not enough cars available and staff are still needing to use their own cars. people are still block booking a full day, then the car sitting idle for hours in between.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles. Vehicle numbers across all council services will need to be reviewed.
34676	An employee of West Lothian Council	7e. Green Fleet & Travel	I would recommend the following: 1. Better use/management of pool cars	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34677	An individual	7e. Green Fleet & Travel	As long as there is enough fleet cars available to council employees when required.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34678	An employee of West Lothian Council	7e. Green Fleet & Travel	I have had personal experience of using my own car for business purposes due to the unavailability of Pool cars. I also have had experience of looking at all the pool cars in the car park, when they were booked out. Tighter controls are required when people are booking pool cars and then not using them.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34679	An employee of West Lothian Council	7e. Green Fleet & Travel	WITH THE BIG FLEET SITTING IN THE CAR PARK - NO-ONE SHOULD BE GETTING BUSINESS MILEAGE FOR THEIR OWN VEHICLES!!!!!!	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34680	An individual	7e. Green Fleet & Travel	I support the use of more fuel efficient vehicles.	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34681	An employee of West Lothian Council	7e. Green Fleet & Travel	Good about reducing staff using pool cars BUT you'll need to have more vehicles available...	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner, and help to ensure vehicle numbers are optimised.
34682	An employee of West Lothian Council	7e. Green Fleet & Travel	The whole process for booking, using, fuelling and returning Green Fleet cars is very wasteful of employee time which could otherwise be spent getting on with the job more productively and effectively. Many wasted hours a week. The essential user allowance was removed some years ago, but the car is still essential for some services.	Green Fleet & Travel - pool cars	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Car user allowances are not the most cost effective way of paying for business travel. In most cases employees would have to spend time walking to their own vehicle which would be further away than pool car provision.
34683	An employee of West Lothian Council	7e. Green Fleet & Travel	Axe the pool cars!	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	There will always be a requirement to travel to deliver council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34684	An employee of West Lothian Council	7e. Green Fleet & Travel	Sometimes being able to access pool cars is impossible.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34685	An individual	7e. Green Fleet & Travel	does the council really need a new fleet every few years?	Green Fleet & Travel - pool cars	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council fleet is leased and replaced on a pre-determined cycle following an evaluation exercise which looked at the optimum replacement arrangements for the type of the fleet the council operates.

34686	An individual	7e. Green Fleet & Travel	Pool cars are now being used across the council and I would be concerned about yet more cuts to make further savings.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34687	An individual	7e. Green Fleet & Travel	Don't know as anytime I have tried to get a car I can't as there are not enough cars to go around as the services who need them every day to do their jobs still have them booked out for the full week and week to week and I end up having to use my own or public transport	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34688	An employee of West Lothian Council	7e. Green Fleet & Travel	Still lots of pool cars still doing nothing every day. something should be done about this. There should be no one getting paid to use their own vehicles when vehicles are available.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34689	An employee of West Lothian Council	7e. Green Fleet & Travel	As long as there is enough fleet cars available to staff.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner. Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery.
34690	An employee of West Lothian Council	7e. Green Fleet & Travel	How cost effective are the council's pool cars? Look at the cost of running eg town-twinning programme, overseas visits,	Green Fleet & Travel - pool cars	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34691	An employee of West Lothian Council	7e. Green Fleet & Travel	Get all staff using pool vehicles?	Green Fleet & Travel - pool cars	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34692	An employee of West Lothian Council	7e. Green Fleet & Travel	I think there is room for improvement regarding the council vehicles. Some site visits, meetings etc can be targeted to one day per week to minimised use and costs on pool cars. Some staff are booking cars two/three times a day and not consolidating work where possible.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The Green Transport Policy sets out how staff should travel and arrange their working day to make best use of resources.
34693	An individual	7e. Green Fleet & Travel	Do away with pool cars and offer staff mileage to use own cars if preferred. Many would be happy to do this and wouldn't expect additional essential car user allowance This would save on admin, leasing and repair costs, insurance and parking requirements	Green Fleet & Travel - pool cars	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34694	An employee of West Lothian Council	7e. Green Fleet & Travel	Council cars could also be changed to electric resulting in reduced fuel costs and reduced carbon footprint	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.
34695	An employee of West Lothian Council	7e. Green Fleet & Travel	More use of electric cars.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34696	An employee of West Lothian Council	7e. Green Fleet & Travel	Some existing council vehicles are not being maintained as it is!!	Green Fleet & Travel - pool cars	4. The council is already doing this.	All vehicles are serviced and maintained strictly to legal requirements as a minimum.
34697	An employee of West Lothian Council	7e. Green Fleet & Travel	Need much better maintenance of fleet with vehicles being available when required and not spending long periods at garage.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

34698	An employee of West Lothian Council	7e. Green Fleet & Travel	There are a fleet of pool cars which no doubt have helped reduce the costs to the Council for private mileage. However Revenues have 1 pool car and its a van - it has 2 seats in it - this is not practical for the size of our office. None of the seniors use the pool vehicle to travel to meetings and use their own car - if this stopped or there was a reduction in mileage paid then no one would get to meetings or have access to the pool car to do visits etc. The access to pool cars is also not ideal as it can waste a lot of time collecting them from sites. Overall I think pool cars have made a difference but before decisions are made to reduce business mileage etc then investigations should be made into the number of pool cars available and are these fit for purpose. A lot of visits can be made to outlying areas so a good reliable safe vehicle is required or else the service to the public some who are extremely vulnerable would be reduced and suffer.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy. Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34699	An employee of West Lothian Council	7e. Green Fleet & Travel	Will all service areas that have renewable energy, be able to have their old inefficient fleet vehicles replaced with green fleet vehicles? Parks & Woodland have asked for their small vans to change to green fleet vehicles for years, a great opportunity to promote good Council initiatives and better manage WLC assets but to date we have received 1 and that was only this month because the van it replaced wasn't repairable. Is there a role-out plan for this to happen and has the cost of fleet plus required charging units for the various locations been costed? Has the Council estimated the mileage and fuel costs that could be saved if the Driving Policy was fully applied (e.g. ensuring Council fleet taken home was minimised, all staff used fleet as required rather than using own personal vehicles)? Some staff continue to use their own vehicles without claiming business mileage and if they stopped doing this and used the WLC fleet, the demand for the fleet would rise considerably. I do not think this has been taken into account as the Driving Policy (including approvals for staff to use own vehicle and use of Council vehicle from home/to work have not been fully applied or rigorously checked. Green fleet should be rolled out first to those sites that generate electricity via photovoltaics/solar panels. Use what we produce and minimise costs to those service areas!	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit. Council policy requires a business case for vehicles to be taken home. There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34700	An individual	7e. Green Fleet & Travel	Pool cars are sat about too much needs to be more efficient. Can't see how this can be saving money as need twice the car parking spaces for employee and the pool cars. Need to maximise the use or revert to essential car users	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles. The number of pool cars will be considered in line with the number of vehicles in other services.
34701	An individual	7e. Green Fleet & Travel	perhaps look to reduce the seas of white (and other colours !) pool cars that I see parked up ...never movingsurely a high cost of leases . I photograph them every time I am at the Civic Centre ...the ones that are there when I arrive to sit on the Children's Panel are still there when I leave many hours later ...what's the average mileage per car ?	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles. The number of pool cars will be considered in line with the number of vehicles in other services.
34702	An individual	7e. Green Fleet & Travel	get rid of 50% of fleet cars that sit parked up ...check the vehicles that have low mileage	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles. The number of pool cars will be considered in line with the number of vehicles in other services.
34703	No Response	7e. Green Fleet & Travel	perhaps look to reduce the seas of white (and other colours !) pool cars that I see parked up ...never movingsurely a high cost of leases . I photograph them every time I am at the Civic Centre ...the ones that are there when I arrive to sit on the Children's Panel are still there when I leave many hours later ...what's the average mileage per car ?	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles. The number of pool cars will be considered in line with the number of vehicles in other services.
34704	An employee of West Lothian Council	7e. Green Fleet & Travel	There are many fleet vehicles not being used appropriately nearby the Civic Centre.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34705	An individual	7e. Green Fleet & Travel	Reduce the number of pool cars. Whilst it appears the cars are booked solid, the reality is many sit all day without turning a wheel. Look at previous usage, and make efficiencies based on this! After this, then consider other measures like business mileage usage. Staff should not be using their own cars - there are enough vehicles sitting motionless.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles. The number of pool cars will be considered in line with the number of vehicles in other services.
34706	An individual	7e. Green Fleet & Travel	West Lothian work vehicles should be monitored and used appropriately, not for meeting other work vehicles in country lanes for a morning chat.	Green Fleet & Travel - pool cars	4. The council is already doing this.	Telematics and other system management information is used to analyse vehicle utilisation
34707	An individual	7e. Green Fleet & Travel	have you gone electric ? apart from that no problem	Green Fleet & Travel - pool cars	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34708	An individual	7e. Green Fleet & Travel	I pass the council car parks and there are always lots of little white cars parked there. Why is anyone still getting paid to use their own car	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34709	An employee of West Lothian Council	7e. Green Fleet & Travel	Pool cars still regularly sit idle. Please do something about this.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Telematics and other system management information is used to analyse vehicle utilisation.
34710	An individual	7e. Green Fleet & Travel	Again very vague paragraph above!! What is being proposed? More use of electric cars is well overdue. Consideration should be given to closely looking at how pool cars are being used both in terms of usage, numbers etc. The loss of a few pool cars from each service area would probably not be too great a sacrifice to make and save considerable money. Why are staff using their own vehicles if pool cars are available? There should be minimum use in exceptional circumstances only.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year. Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery. There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34711	An employee of West Lothian Council	7e. Green Fleet & Travel	You need to rationalise the pool car system if you are going to do this. That's why a lot of workers use their own cars now.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34712	An employee of West Lothian Council	7e. Green Fleet & Travel	depending on what this means, it should only be for the people who need to travel on day to day use. The restriction of pool cars should again be means tested.	Green Fleet & Travel - pool cars	2. The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34715	An employee of West Lothian Council	7e. Green Fleet & Travel	Green fleet and travel - has the council considered electric cars with charging points at pool car locations? Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit. Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34716	An individual	7e. Green Fleet & Travel	Good. Staff should not use their own vehicles when council vehicles are available. Mileage rates are far too high.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34717	An employee of West Lothian Council	7e. Green Fleet & Travel	Following the removal of the essential car users allowance, staff are already subsidising the council if they use their own cars - reducing the business mileage further may place a greater demand on the council for pool cars and increased pool car mileage as staff decide not to use their own cars even if it is more efficient for the council for them to do so.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff are reimbursed for using their own vehicles on council business. The reimbursement rate includes fuel and wear and tear.
34718	An individual	7e. Green Fleet & Travel	If there are already not enough pool cars and a creation of a culture where it is frowned upon to claim mileage then again this is a hammer blow to staff and a further reduction in pay in reality	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees have numerous travel options available to them and guidelines on when and how pool or personal vehicles should be used are set out in council policy.
34719	An individual	7e. Green Fleet & Travel	If it is not possible for staff to use a fleet car then I think the council should pay a rate which reflects the wear and tear to the vehicle as well as fuel costs. Reducing the mileage will only make staff less willing and more resentful.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34720	An individual	7e. Green Fleet & Travel	No more expensive cars i.e. a 'skoda' does the same work as a 'Bentley'	Green Fleet & Travel - pool cars	4. The council is already doing this.	The procurement process for purchasing new vehicles ensures best value by the weightings given to cost as part of the tender evaluation process.
34721	An individual	7e. Green Fleet & Travel	Cannot see how the leased cars and cost of safeguarding these (fenced compounds) has saved money. Not all staff can get a fleet car so why should they be penalised.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34722	An individual	7e. Green Fleet & Travel	Also it appears to individuals there is too much use of vehicles - maybe less vehicles could be achieved.	Green Fleet & Travel - pool cars	1. 34723	An individual	7e. Green Fleet & Travel	Transport is an example where vehicles at centre or in yards for hours on end. There needs to be a review how resources can be shared and run effectively like a business as the present situation is not cost effective.	Green Fleet & Travel - pool cars	1. The respondent advised that they agree with the proposal.	Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery.
34724	An employee of West Lothian Council	7e. Green Fleet & Travel	Already many staff use their own cars at times and don't claim expenses.	Green Fleet & Travel - pool cars	2. 34725	An individual	7e. Green Fleet & Travel	Go for it. Rent out your car fleet at the weekend, think bigger. The whole framework of this survey and proposal is about slashing costs rather than generating income. Be bold, start thinking smart.	Green Fleet & Travel - pool cars	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34726	An employee of West Lothian Council	7e. Green Fleet & Travel	I was under the impression many functions were already stripped bare. Some of the systems in place already are in my opinion not fit for purpose, e.g. green travel policy - not enough pool cars, they are not in enough locations and they are booked out then not used. Personally I use my car then claim mileage, using my car to get more time efficiency out of my day and to achieve more productivity. I then use the mileage reclaim system which takes about 4 times the time it should because of the complexity of the system.	Green Fleet & Travel - pool cars	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Pool car usage is reviewed and the council is looking at what improvements can be made to the system used for vehicle booking.
34727	An employee of West Lothian Council	7e. Green Fleet & Travel	2. Stop employees taking vehicles home.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council policy requires a business case for vehicles to be taken home.
34728	An individual	7e. Green Fleet & Travel	Council van not to be taken home fuel saving.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council policy requires a business case for vehicles to be taken home.
34729	An individual	7e. Green Fleet & Travel	A lot more could be done by enforcing vehicle emissions rules. There are far too many drivers who sit in their vehicles at schools, sports centres, shopping centres, with engine running - this applies to a lot of time with West Lothian Council vehicles.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	All council vehicles are fitted with vehicle tracking software which allows us to monitor the performance of the vehicle including vehicle emissions.
34730	An employee of West Lothian Council	7e. Green Fleet & Travel	Yes. Inter-site travel could be solved by merging the internal mail deliveries with a bus. A company I worked for had two main sites with mail being moved regularly between them. If you needed to get to the other site you could just get on the mail bus. This would allow us to reduce costs by moving larger numbers of staff?	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The proposal would work in areas where long distances and regular scheduled drops and returns occur but the nature of WL is not conducive to this option.
34731	An individual	7e. Green Fleet & Travel	Perhaps the council should make better use of that expensive vehicle tracking system they put in all of their vehicles. This might help you be more efficient with your fleet rather than having workers driving here, there and everywhere.	Green Fleet & Travel (general)	4. The council is already doing this.	The council are already doing this but utilisation could be improved through altering current agreements in how the system is used to monitor and improve performance.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34732	An employee of West Lothian Council	7e. Green Fleet & Travel	Staff will refuse to use their own transport and use fleet cars - obvious knock on effect. WLC have not replaced cars with newer models - what is another few years ?	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34733	An employee of West Lothian Council	7e. Green Fleet & Travel	Any savings that can be made through a review of these services it to be welcomed.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comments they will be taken forward to help inform the consultation process
34734	An individual	7e. Green Fleet & Travel	Further savings would be made, and vehicle life extended, if council workers were stopped from taking vans home at night	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34735	An employee of West Lothian Council	7e. Green Fleet & Travel	I am aware of the cost savings made by the green transport policy but this has impacted on the quality of service offered with some staff not having access to cars when required - I am therefore concerned that an extension of the scheme would exacerbate this -	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. The council is currently reviewing its internal pool fleet provision, booking system and utilisation to ensure that the provisions is providing best value for the council and staff. These comments will be incorporated into this review for consideration.
34736	An employee of West Lothian Council	7e. Green Fleet & Travel	Changing to more environmental friendly vehicles will reduce fuel costs and help the council achieve carbon footprint reduction targets.	Green Fleet & Travel (general)	4. The council is already doing this.	The council already ensures it procures the most efficient vehicles for the task required.
34737	An employee of West Lothian Council	7e. Green Fleet & Travel	There is a video conferencing system available so no body needs to travel anywhere. But it is not used at all .	Green Fleet & Travel (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
34738	An individual	7e. Green Fleet & Travel	If services elsewhere reduce, then the need for transport to deliver them will correspondingly reduce.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The overall impact of other proposals will be considered when reviewing the Green Travel Strategy.
34739	An individual	7e. Green Fleet & Travel	aye, cut the staff wages but not your own	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34740	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing travel by use of council owned vehicles out-with working hours would save thousands of pounds in fuel and maintenance costs. This would counter the need for staff reductions and probably still save the Council a fortune long term.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34741	An employee of West Lothian Council	7e. Green Fleet & Travel	Like many of the proposals in this consultation, it is difficult to comment without knowing more of the context. This question states 'changes are proposed to council services which will have an impact on the type and number of vehicles'. What are these changes? If staff need to use their own vehicles in order to deliver the Council services, they should be recompensed in line with national rates.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Each service area within the council will be reviewing service delivery methods to reduce business travel. Business own use mileage is currently reimbursed at HMRC national rates.
34742	An employee of West Lothian Council	7e. Green Fleet & Travel	This will have an impact on service delivery if numbers of vehicles are reduced.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be responsible for ensuring that their activities can be maintained following the selection of proposals. This is separate to considerations of pool vehicle usage and the Green Travel Strategy.
34743	An individual	7e. Green Fleet & Travel	Why not provide secure bike lockers at buildings and encourage staff to travel by bike? Why do you not better promote and encourage flexible working to reduce travel to meetings etc. I know Worksmart exists but these flexible working arrangements are very poorly advertised and promoted.	Green Fleet & Travel (general)	4. The council is already doing this.	The council has protocols and systems in place to allow this to happen, the suggestions of further promotion of culture change will be passed on for consideration as a part of the consultation.
34744	An individual	7e. Green Fleet & Travel	I see a number of council vehicles parked in residential streets at night. I do not believe that council vehicles should be used for someone to eat to and from work each day. The vehicle should be parked on council property. How much fuel and ware and tear is caused by staff taking the vehicle home at night.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of the green travel strategy made significant savings for the council. These comments will be incorporated into this review for consideration.
34745	An individual	7e. Green Fleet & Travel	Too many Council vehicles at present for each job. Agree.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34746	An individual	7e. Green Fleet & Travel	Use conference calls for meetings.	Green Fleet & Travel (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted

34747	An individual	7e. Green Fleet & Travel	Get rid of council paid cars for said people at the top of the chain.	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34748	An employee of West Lothian Council	7e. Green Fleet & Travel	Cut down on cross council travel costs	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34749	An employee of West Lothian Council	7e. Green Fleet & Travel	Cut back travel by ensuring services are more locally delivered	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34750	An employee of West Lothian Council	7e. Green Fleet & Travel	As stated deliver on patch basis will minimise "dead " travel!	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34751	An individual	7e. Green Fleet & Travel	If these savings can be achieved, for example, by better use of technology to contact customers, this is worth-while. I don't know what the mileage rate paid to staff is, but I am sure that would be an unpopular move.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment regarding reducing the mileage rate paid to staff has been noted.
34752	An employee of West Lothian Council	7e. Green Fleet & Travel	This is not always possible	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34753	An individual	7e. Green Fleet & Travel	There seem to be an unreasonable number of council vans in use, many of them parked in the Low Port car park. Perhaps some of these could be sold off.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council vehicles are leased and replaced on a pre-determined cycle.
34754	An individual	7e. Green Fleet & Travel	If you reduce the ragainst those who have too.te for using a vehicle then esentially you could be discriminating a	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34755	An employee of West Lothian Council	7e. Green Fleet & Travel	How can the maintenance of a fleet of vehicles have been cost effective? If the fleet numbers are to be cut, the need for maintenance staff will be cut so jobs lost?	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34756	An individual	7e. Green Fleet & Travel	WLC could stop buying new vehicles and extend the lifecycle of what they have.	Green Fleet & Travel (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council policy is to lease vehicles and replace them more regularly on a pre-determined cycle. Extending the lifecycle of certain vehicles is currently being considered.
34757	An employee of West Lothian Council	7e. Green Fleet & Travel	Further reductions in this area will mean poor service delivery. As it stands just now the current green fleet model is too inflexible meaning staff are forced to use their own vehicles for business use.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34758	An individual	7e. Green Fleet & Travel	Efficient council vehicles I agree with.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34759	An individual	7e. Green Fleet & Travel	If you cut things to the core, staff are unable to effectively do their job.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34760	An individual	7e. Green Fleet & Travel	Is it fair to hit staff for doing their job? I don't think so unless the mileage allowance was unreasonable in the first place. Again, you will lose staff loyalty and commitment to what they are expected to do & so service levels drop!	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner. Staff will be able to claim tax relief on any personal mileage reimbursement under the agreed HMRC rate.
34761	An individual	7e. Green Fleet & Travel	Line managers should systematically check and review vehicle tracking information. Sure if everybody new this was being monitored the trips to food stops and taking of liberties with pool cars would see decent fall.	Green Fleet & Travel (general)	4. The council is already doing this.	The council are already doing this but utilisation could be improved through altering current agreements in how the system is used to monitor and improve performance.
34762	An individual	7e. Green Fleet & Travel	The use and information related to electric cars is lacking. Never once say somebody get in one one at Whitehill House.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34763	An individual	7e. Green Fleet & Travel	Also, council vans parked outside employees homes nightly - some not even within the county, showing free travel to work for all these employee's is something that needs addressed - the public purse should not be paying for council employee's to get to work. Further more, these vans are seen around the county picking other employee's up - Employee's should have to fund their own way to work - no excuses, not all these vans are used for out of hours responding to emergencies.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34764	An individual	7e. Green Fleet & Travel	Good - but how much will the re-branding of vehicles cost?	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for you comment. Rebranding of council vehicles is currently being looked at.
34765	An individual	7e. Green Fleet & Travel	Agree. Staff should not be using their own cars anyway and meetings should be organised that there be very little mileage.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34766	No Response	7e. Green Fleet & Travel	Double up the workforce in vans.This would halve the number of vans on the road,save on fuel and halve road tax and maintenance costs	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Due to the nature of service delivery in some services doubling up would not be possible however car sharing will be looked at and encouraged.
34767	An individual	7e. Green Fleet & Travel	Money could be saved on mileage by stopping council workers taking home vans and company cars used specifically for work it travelling to and from work.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34768	An individual	7e. Green Fleet & Travel	go electric?	Green Fleet & Travel (general)	4. The council is already doing this.	The council is increasing the number of vehicles within the fleet however consideration has to be given to whole life costs and the availability of appropriate charging infrastructure.
34769	An individual	7e. Green Fleet & Travel	If services are streamlined then the vehicle use should reduce	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34770	No Response	7e. Green Fleet & Travel	At the present moment only a few have been targeted to leave their vans in the depot. This should be right across the council and not the selected few.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34771	An individual	7e. Green Fleet & Travel	Outreach increase and reduction of business mileage...how does that work?	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Each service will be required to look at reducing business mileage across the service while giving consideration to specific team requirements.
34772	An employee of West Lothian Council	7e. Green Fleet & Travel	Get rid of petrol cars and go all electric. The electric cars are excellent!	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34773	An employee of West Lothian Council	7e. Green Fleet & Travel	Remove the ludicrous dedicated vehicles for certain staff, stop staff from claiming mileage entirely and reduce the number of pool vehicles.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34774	An employee of West Lothian Council	7e. Green Fleet & Travel	The availability of electric and hybrid vehicles should be increased as most journeys are local.	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric vehicles and is looking to increase the electric fleet again this year.
34775	An employee of West Lothian Council	7e. Green Fleet & Travel	There are still a number of manual workers employed by the council who get transported to and from work in mini buses from as far away as Glasgow. This must stop and the terms and conditions enjoyed by this group of workers brought into line with everyone else.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34776	An employee of West Lothian Council	7e. Green Fleet & Travel	There may be alternative forms of delivery for parts of this largely non-statutory service worthy of examination.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34777	An employee of West Lothian Council	7e. Green Fleet & Travel	If the council rely on employees less to use their own vehicles/travel for their posts.	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34778	An employee of West Lothian Council	7e. Green Fleet & Travel	No employee (according to council) should need to use their own vehicle - fleet will reduce along with staff numbers surely? Push bikes?	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34779	An individual	7e. Green Fleet & Travel	Good. There should be a deep-dive on the need to meet up for coffees/meetings - maximise use of teleconferencing and videoconferencing. Running around WL in cars is ridiculous. Also, suit the claims - you can be sure that some are fiddling the expenses.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34780	No Response	7e. Green Fleet & Travel	Work vehicles should only be taken home if staff are on standby .	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34781	An employee of West Lothian Council	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34782	An individual	7e. Green Fleet & Travel	All staff should be using council vehicles rather than their owns!!!	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34783	An individual	7e. Green Fleet & Travel	The council also needs to stop all council vehicles taken home by employees, picking up colleagues and parked on the streets. I have previously written to the council on this with reasons why it is not right, but email was not responded to and I assume ignored.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34784	An employee of West Lothian Council	7e. Green Fleet & Travel	I don't agree these are a true reflection of green travel as a lot of staff use their own cars on council business without claiming expenses as they cannot access pool cars so I'm not commenting any further on this matter.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34785	An individual	7e. Green Fleet & Travel	It seems every DLO employee has a van and the number of shopping trips they make per day needs looking at instantly.	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34786	On behalf of a Group/Organisation	7e. Green Fleet & Travel	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Some employees may require to use their own car due to the nature of their disability, how will this saving affect them and what reasonable adjustments if any will be put in place?	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Services will be required to review service delivery to ensure travel is minimised, done in the most efficient manner and vehicle numbers are appropriate for the service delivery model. Your comment regarding an equality impact assessment have been noted and will be incorporated into this review for consideration.
34787	An individual	7e. Green Fleet & Travel	Good... this is a luxury sometimes and can be open to abuse outside working hours	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Council policy states council vehicles should not be used for personal use.
34788	An individual	7e. Green Fleet & Travel	Use it on buses	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34789	An individual	7e. Green Fleet & Travel	Agreed. Considering the Council are spending public money my question would be why has this not been done before now?	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The introduction of the green travel strategy made significant savings for the council and the pool fleet is still more cost effective than paying mileage to all employees.
34790	An individual	7e. Green Fleet & Travel	Provide staff with e-bikes for local journeys that are suitable to cycle.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34791	An individual	7e. Green Fleet & Travel	optimise trips to reduce mileage of council vehicles.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34792	An individual	7e. Green Fleet & Travel	Ban flying. Stop paying for people to fly to twin towns,	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34793	An individual	7e. Green Fleet & Travel	Interesting. Do they need a car to do the job or just to get to work..if latter review in line with other businesses.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Employees are required to travel to deliver essential council services however vehicles are not provided for the sole use of transporting employees to and from work.
34794	An employee of West Lothian Council	7e. Green Fleet & Travel	I am not in a position to comment on this, as I don't know the details of your fleet.	Green Fleet & Travel (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
34795	An individual	7e. Green Fleet & Travel	Would agree with this and also stop council staff using company vehicles in their own time	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. Council policy states council vehicles should not be used for personal use.
34796	An individual	7e. Green Fleet & Travel	You may need think about how possible this is when local offices are being shut down and public transport links are being cut if you expect staff to do more outreach and community based work from more centralised bases	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34797	An individual	7e. Green Fleet & Travel	Stopping the staff taking vans home would reduce cost	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34798	An individual	7e. Green Fleet & Travel	Agreed. Also staff taking council vehicles home should cease. I pay for my transport to and from work and so should they.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34799	No Response	7e. Green Fleet & Travel	Look at Transport Costa to the Council (every other vehicle on the roads of West Lothian is a Council vehicle)	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34800	An employee of West Lothian Council	7e. Green Fleet & Travel	If the right technology is in place, there should be less travel needs.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The council is implementing new systems which will help to reduce business travel.
34801	An employee of West Lothian Council	7e. Green Fleet & Travel	If staff wish to use their own car over a council car that should be their prerogative and also their own cost.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Staff are reimbursed for using their own vehicles on council business. The reimbursement rate includes fuel and wear and tear.
34802	An individual	7e. Green Fleet & Travel	If council are centralising more services then this could prove difficult for staff to go about their daily business. i.e. attending meetings etc.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is required and if so it is minimised and done in the most efficient manner.
34803	An employee of West Lothian Council	7e. Green Fleet & Travel	Do not expect staff to travel to courses across authority or use own vehicle to transport children within schools. Provide a suitable minibus for school use within ALL additional support needs schools reducing the requirement for staff to use vehicles and claim mileage.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles. Vehicle numbers across all council services will need to be reviewed.
34804	An individual	7e. Green Fleet & Travel	Other savings could be made such as not paying for council logos on vehicles as this makes no difference to the service provided. Why should council vehicles have to let everybody know 'this is a council van' Who cares?	Green Fleet & Travel (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
34805	An employee of West Lothian Council	7e. Green Fleet & Travel	This will cause problems for council staff who are regularly out of the office travelling due to their job. Some managers are constantly travelling from one building to another for meetings. How will they get there?	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is required and if so it is minimised and done in the most efficient manner.
34806	An individual	7e. Green Fleet & Travel	That does not sound fair to your staff.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34807	An individual	7e. Green Fleet & Travel	I think it is only fair that if staff use their own vehicles, they should be paid a fair amount to pay for this. Particularly as some of those with access to fleet vehicles, use these to/from their home addresses. We have a council worker in our street who takes up a parking space for a council vehicle and obviously gets free travel to and from their workplace!	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Employees will be reimbursed for use of their own vehicle. Council policy requires a business case for council vehicles to be taken home.
34808	An employee of West Lothian Council	7e. Green Fleet & Travel	stop council vans going home most customers dont want you at the house at 8.00 am anyway	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34809	An employee of West Lothian Council	7e. Green Fleet & Travel	Any saving that can be achieved by being more efficient by changing plant and vehicles are welcomed	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34810	An employee of West Lothian Council	7e. Green Fleet & Travel	Well since I am not allowed to claim business miles and the wear and tear with my car racking up the miles due to the lack of pool cars yes the council have made substantial savings at my expense.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All council employees are entitled to claim mileage for using their own vehicles with a completed business case. Pool cars area available for all to employees to use at various locations around the county.
34811	An employee of West Lothian Council	7e. Green Fleet & Travel	Use trackyou to get % utilisation of vehicles. Which services rarely use some vehicles.	Green Fleet & Travel (general)	4. The council is already doing this.	Telematics and other system management information is used to analyse vehicle utilisation

Transforming Your Council Consultation 2017

34812	An employee of West Lothian Council	7e. Green Fleet & Travel	With increased use of technology this may reduce the need for people to travel to locations.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34813	An individual	7e. Green Fleet & Travel	I T for business surly in this day and age	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34814	An individual	7e. Green Fleet & Travel	Consider electric vehicles/other more cost-effective transport.	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34815	An employee of West Lothian Council	7e. Green Fleet & Travel	Instead of cutting out job positions why not cut the amount of vehicles i.e. work cars and vans , there must be a huge amount spent on this , paying staff for fuel consumption on their own cars could save lots of money	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Vehicle numbers will be reviewed across all council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34816	An individual	7e. Green Fleet & Travel	The use of vans/ cars to get to and from work would make a good saving as well. Most people have to make their own way to and from work.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34817	An individual	7e. Green Fleet & Travel	continue	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34818	No Response	7e. Green Fleet & Travel	Would like to believe these measures are delivering savings but if so great ideas.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34819	An employee of West Lothian Council	7e. Green Fleet & Travel	As long as staff have an alternative to their own cars.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34820	An employee of West Lothian Council	7e. Green Fleet & Travel	This target seems achievable looking at the proposals in this document as services will be slashed anyway.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34821	An individual	7e. Green Fleet & Travel	Mileage rates should be removed for council staff as they should be using council fleet.	Green Fleet & Travel (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34822	An individual	7e. Green Fleet & Travel	Why do staff use their own vehicles when West Lothian have a fleet of cars	Green Fleet & Travel (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34823	An individual	7e. Green Fleet & Travel	Services should be streamlined where possible while maintaining standards and choice.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34824	An individual	7e. Green Fleet & Travel	Use technology to attend meetings stop travelling unless essential.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34825	An employee of West Lothian Council	7e. Green Fleet & Travel	Not ambitious enough. Less need for travel if Skype or other teleconferencing is used rather than face to face meetings.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34826	An individual	7e. Green Fleet & Travel	Why don't you look at managing staffing by local area where an employee lives in the area don't have them travelling around. More communication	Green Fleet & Travel (general)	4. The council is already doing this.	While this is not always feasible where possible staff in some services work in the area they live in to improve efficiency and reduce travel.
34827	An individual	7e. Green Fleet & Travel	All I see is many council vehicles on the road, there must a huge fleet with associated costs.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Vehicle numbers will be reviewed across all council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34828	An individual	7e. Green Fleet & Travel	Sell the Provost's private number plate for a substantial sum. Stop minibus Transport for councillors to go about their jobs, why can't they use their own or public transport. Best to prune from the top down, if you cut the bottom of the tree it will fall down.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All employees and councillors have a number of travel options when travel is necessary which can be chosen based on efficiency.
34829	An individual	7e. Green Fleet & Travel	Staff should also use public transport as much as possible and the Council should not provide cars, other than for essential work.	Green Fleet & Travel (general)	4. The council is already doing this.	All employees are required to use the travel hierarchy to determine if transport is required and if so which of the numerous options is the most efficient.

34830	An individual	7e. Green Fleet & Travel	A consequence of more use of IT ?	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The council is investing in I.T. systems to improve the efficiency of the workforce and reduce travel.
34831	An individual	7e. Green Fleet & Travel	Invest in mechanics and increase the average age of council fleet of vehicles (provides jobs and reduces need to replace perfectly good cars/vans).	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council fleet is leased and replaced on a pre-determined cycle following an evaluation exercise which looked at the optimum replacement arrangements for the type of the fleet the council operates. Mechanic numbers fall in line with these requirements and all relevant training is provided to staff.
34832	An employee of West Lothian Council	7e. Green Fleet & Travel	While I agreed that the cheapest method of transport should be used if it is cost effective - no point in using public transport if it is going to take twice as long to get to where you need to be.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	All employees are required to use the travel hierarchy to determine if transport is required and if so which of the numerous options is the most efficient.
34833	An individual	7e. Green Fleet & Travel	Reducing business mileage payments will place additional pressure on the existing pool cars, particularly in Revs and Bens as managers will make significant demand on the pool cars attending meetings outwith St David House on a regular basis.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner.
34834	An individual	7e. Green Fleet & Travel	Replacing vehicles less often would be better too, vehicles nowadays are much more efficient and much less prone to breakdown, so it makes sense not to replace them so often.	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council fleet is leased and replaced on a pre-determined cycle following an evaluation exercise which looked at the optimum replacement arrangements for the type of the fleet the council operates.
34835	An individual	7e. Green Fleet & Travel	I propose they also look at council transport- why do waste supervisors bring their vans home rarely do they ever get called out so it is not for that purpose. You see council employees bringing vans home and picking up council staff in the morning I propose that you start deducting say £10 per week from each member of staff that have this privilege other council employees have to pay for their fuel or bus fare to get to work why should others have no outlay on transport this would be another way of revenue to the Council.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home however deducting salaries is not something that would be considered at this time.
34836	An individual	7e. Green Fleet & Travel	I think if you stop staff taking home council vehicles start charging staff for using the vehicles and picking up staff this would be a revenue, take the amount of vehicle s of the road this must be costing a fortune on servicing road tax insurance & repairs.	Green Fleet & Travel (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comments have been noted. Charging staff for use of vehicles for home to work travel is not something currently being considered.
34837	An employee of West Lothian Council	7e. Green Fleet & Travel	Need to ensure enough pool cars if reducing mileage allowance.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The number of pool cars will be considered in line with the number of vehicles in other services.
34838	An individual	7e. Green Fleet & Travel	Cut cut cut to staff - I feel that is all you are doing here with this. The pool cars are not maintained safely and are putting staff lives at risk meaning staff are forced to use their own cars and now you are stating that you wont give them mileage. I believe that again there will be an involvement of unions and a long battle which will cost in the long run.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All vehicles are serviced and maintained strictly to legal requirements as a minimum.
34839	An individual	7e. Green Fleet & Travel	Green vehicles are a good idea since parking and energy seems to be free make full use I say. Might make them cheaper for ordinary members of the public.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34840	An employee of West Lothian Council	7e. Green Fleet & Travel	Consideration should be given to Electric Cars.	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34841	An employee of West Lothian Council	7e. Green Fleet & Travel	How will this be achieved?	Green Fleet & Travel (general)	3. The respondent advised that they had no comment to make.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner. Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery.
34842	An individual	7e. Green Fleet & Travel	Given that staffing will be reduced there is obviously scope for this and also greater use of technology to avoid staff moving around the county on business.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34843	An individual	7e. Green Fleet & Travel	I cant understand how the council are saying money when they have taken away milgae claims then went and spent money on so many fleet pool cars	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of the green travel strategy made significant savings for the council. It is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34844	An individual	7e. Green Fleet & Travel	Definitely in favour of this. Another thing that would be beneficial is if the council vans are not taken home by everyone each night as they park inconsiderately as they have no room on their driveways for these.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34845	An individual	7e. Green Fleet & Travel	In addition, I believe there could be savings achieved in both monetary terms and to the environment by encouraging staff to make better use of public transport when they do need to travel either to/from work and also as part of their employment role.	Green Fleet & Travel (general)	4. The council is already doing this.	Council policy encourages staff to use public transport where appropriate, both while travelling to work and when travelling for business purposes.
34846	An employee of West Lothian Council	7e. Green Fleet & Travel	Is this not the reverse of why there is hundreds of pool cars used currently?	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner, and help to ensure vehicle numbers are optimised.
34847	An individual	7e. Green Fleet & Travel	I suppose members of staff can use a bus or walk with regards council business that requires travel. I know I would as it would take me away from the job for a longer period of time.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council policy encourages staff to use public transport where appropriate and when it would not amount to an inefficient use of staff time.
34848	On behalf of a Group/Organisation	7e. Green Fleet & Travel	Reducing car pool Reduce the amount of employees who are frequently seen sleeping in council vans	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34849	An individual	7e. Green Fleet & Travel	Agree totally...no employees should be allowed to take council vehicles home overnight, unless absolutely required.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council policy requires a business case for vehicles to be taken home.
34850	No Response	7e. Green Fleet & Travel	Perhaps savings could be made by addressing the number of council workers who take West Lothian council vans home at night and use them to pick up council workers to take them to depots in the morning surely this has cost implications in terms of fuel. Most people who work have to make their own travel arrangements to get to work and pay either fuel for their own car/ taxis/ buses trains etc.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34851	An individual	7e. Green Fleet & Travel	paying for the use of own vehicle leaves the scheme open to serious misuse.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There will always be a requirement to travel to deliver council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles. Appropriate controls are currently in place to authorise and personal vehicle mileage claims.
34852	An individual	7e. Green Fleet & Travel	Generally support cutting down on wasted trips but if you mean council enforcement officers won't come out as often then no! Also so you are saying your staff should subsidise the council? I think that is a non starter.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner.
34853	An employee of West Lothian Council	7e. Green Fleet & Travel	Give some thought to your fleet. Only recently I have had to put up with a West Lothian Council van parking in an allocated visitor parking bay at my house which I find frustrating but it has also highlighted the amount of down time these vehicles have. On occasion it can sit there for three days without moving and recently for a period of five days as the owner must have been on holiday! How much of your fleet are sitting idle! Can you not have a rota or working system say 5/7 working days that is common practice in outside industry and you wouldn't need as many vans.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home. Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner, and help to ensure vehicle numbers are optimised.
34854	An individual	7e. Green Fleet & Travel	Council workers taking vehicles home and collecting a squad before getting to work is a waste of resources and unfair on other council workers who have to absorb the cost of traveling to work.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34855	An individual	7e. Green Fleet & Travel	Do not allow worker to take transport home. We all have to pay to get to work.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34856	An individual	7e. Green Fleet & Travel	We see the outcome of this as we see all the white vans and cars that sit at the back of the county buildings in Linlithgow and never seem to move.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is minimised and done in the most efficient manner, and help to ensure vehicle numbers are optimised.
34857	An employee of West Lothian Council	7e. Green Fleet & Travel	Again introduce electric cars	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34858	An individual	7e. Green Fleet & Travel	There has been a lot of mention initially in the consultation for an increase in digital, perhaps meetings could be held digitally to reduce travel costs	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34859	An individual	7e. Green Fleet & Travel	Agree and go to green vehicles and stop staff having breaks in fleet vehicles with the engine running	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year. Vehicle idling is illegal and not allowed under council policy and is monitored using vehicle telematics information.
34860	An individual	7e. Green Fleet & Travel	Why have you been wasting so much of our money up to this point?	Green Fleet & Travel (general)	7. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34861	An individual	7e. Green Fleet & Travel	I assume the general staffing reductions alluded to in previous questions would mean that less staff would be employed and therefore there would be a natural reduction in staff using their own vehicles for business	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery in line with changes to resources and services requirements to ensure travel is minimised and done in the most efficient manner, help to ensure vehicle numbers are optimised and maintain the required level of service delivery.
34862	An individual	7e. Green Fleet & Travel	Agree. It is a nonsense that some staff travel from one end of the county to the other to deliver services when they could be more locally based especially with the use of Worksmart.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34863	An employee of West Lothian Council	7e. Green Fleet & Travel	Discussion of staff terms and conditions with the public rather than recognised trade unions is unacceptable	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The recognised trade unions will be part of any terms and conditions related discussions.
34864	An employee of West Lothian Council	7e. Green Fleet & Travel	The council has done well in this area and this should continue to be a priority.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34865	An employee of West Lothian Council	7e. Green Fleet & Travel	A review of journeys taken in own vehicle should be carried out.	Green Fleet & Travel (general)	4. The council is already doing this.	Mileage claims made for use of personal vehicles are monitored and authorised by line managers.
34866	An individual	7e. Green Fleet & Travel	One cost saving would be no longer allowing staff to use Council vehicles to travel too/from work. calculating the cost of fuel, maintenance and insurance I'm sure would show a reasonable amount of saving. Less miles on the clock means less fixing and longer life span of vehicles.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34867	On behalf of a Group/Organisation	7e. Green Fleet & Travel	Do senior managers have company cars? Maybe this needs to be stopped. Tools for the job are acceptable however, transport for the sake of it is wrong.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council employees do not receive company cars. The council has a fleet of 300 pool vehicles for staff to use for business travel.
34868	An individual	7e. Green Fleet & Travel	With regards all proposed cuts. In an endeavour to save money a chauffeur driven vehicle seems very unnecessary for council use, and only seems to be for prestige	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34869	An employee of West Lothian Council	7e. Green Fleet & Travel	There are staff still taking Council fleet home but not abiding by the terms of the Driving Policy (yet another example of cost to WLC and an unfair and discriminatory "bonus" to staff using the fleet in this way),	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34870	An employee of West Lothian Council	7e. Green Fleet & Travel	Need to look at number of vehicles council provide. The council should be able to provide a car mileage scheme to allow staff to use their own vehicle which is more cost effective than providing additional vehicles.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Vehicle numbers across all council services will need to be reviewed in line with changes to service delivery. There will always be a requirement for staff to use their own vehicle in certain situations to deliver essential council services. The cost of providing a council vehicle for every journey would outweigh the benefit of not reimbursing staff for mileage undertaken in personal vehicles.
34871	An individual	7e. Green Fleet & Travel	How much of this is done by technology changes and how much by reducing interactions with others? Will staff mileage be benchmarked by the AA or similar to ensure it is fair.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Services will be required to review service delivery to ensure travel is necessary and that any required mileage is minimised and done in the most efficient manner. Business mileage is monitored internally in line with corporate monitoring timetables.
34872	An individual	7e. Green Fleet & Travel	Ensure all council vehicles are used only for business purposes, they should not be used as a means to commute to and from work	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34873	An individual	7e. Green Fleet & Travel	If council vans etc were kept at night in council carparks and not driven home by employees and parked at their homes the council would save the additional mileage incurred when the vans are driven home and to the work area the following day.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34874	An individual	7e. Green Fleet & Travel	The council will ensure that no driver leaves their vehicle idling at anytime. No tea breaks taken with an engine running. No chatting or noting work with their engine running. Vehicles fitted with trackers to ensure wastage is eliminated.	Green Fleet & Travel (general)	4. The council is already doing this.	Vehicle idling is illegal and not allowed under council policy and is monitored using vehicle telematics information.
34875	An employee of West Lothian Council	7e. Green Fleet & Travel	One proposal that was put to me is electric cars for pool cars with charging points at the car pick up points. All council vehicles to my knowledge have diesel engines, this could cost going forward if not addressed.	Green Fleet & Travel (general)	4. The council is already doing this.	The council is increasing its electric fleet however at this stage the cost of making the full fleet electric would outweigh the benefit.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34876	An individual	7e. Green Fleet & Travel	Reducing carbon emissions surely also relates to the type of vehicles the Council uses for allowing movement of staff within West Lothian. The introduction of Electric vehicles has not been discussed here and potentially could have been. Are more electric cars being considered in place of diesel vehicles?	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34877	On behalf of a Group/Organisation	7e. Green Fleet & Travel	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Green Fleet & Travel (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment regarding an equality impact assessment has been noted and will be incorporated into this review for consideration.
34878	An individual	7e. Green Fleet & Travel	Yes more efficient cars should be used	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34879	An employee of West Lothian Council	7e. Green Fleet & Travel	Further investment required as this sits well with previous savings targets(carbon)	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34880	An employee of West Lothian Council	7e. Green Fleet & Travel	This seems unfair to staff as the rate hasn't changed for c 20 years anyway and HR21 makes it virtually impossible to claim anyway so sure this aspect has already radically reduced along with the introduction of Pool cars. If there was more working at home / expanded hours - 4 day week for staff there would be less need for as many pool cars and further cars can be removed.	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The maximum tax free business mileage reimbursement rate is set by HMRC and is currently used by the council.
34881	An employee of West Lothian Council	7e. Green Fleet & Travel	disabled buses have only 2-3 people on them, surely this needs to be looked as to be more cost effective ie smaller vehicles , are they more cost effective	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There are a number of factors that influence the number of clients on each Community Transport bus service.
34882	An individual	7e. Green Fleet & Travel	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Green Fleet & Travel (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
34883	An individual	7e. Green Fleet & Travel	Look to reduce the need for staff to travel in the first place. Would smaller vehicles be cheaper if the majority of journeys involve a single person?	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There will always be a requirement to travel to deliver council services however it is currently more cost effective to run a fleet of pool cars than to pay all staff for mileage undertaken in personal vehicles.
34884	An individual	7e. Green Fleet & Travel	All no 7 section will result in poorer services for everyone	Green Fleet & Travel (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
34885	An individual	7e. Green Fleet & Travel	Cut the number of vehicles the council has and park them every night except on call but must be proven.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Council policy requires a business case for vehicles to be taken home.
34886	An individual	7e. Green Fleet & Travel	Use council vehicles for private use (does happen but the council denies it. What do you expect	Green Fleet & Travel (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Council policy does not allow private use of council vehicles.
34887	An individual	7e. Green Fleet & Travel	Stop vehicles being taken home by employees therefore cutting down on mileage and fuel and also the temptation to use vehicles for personal use.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home and does not allow private use of council vehicles.
34888	An individual	7e. Green Fleet & Travel	Stop vans and cars being taken to employees homes	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34889	An individual	7e. Green Fleet & Travel	The number of West Lothian Council vehicles (vans etc) is a significant cost and should be reduced.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
34890	An individual	7e. Green Fleet & Travel	Savings could be made by not allowing so employees to take council vans home e.g. painters etc. Ok for callouts but not for others.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34891	An individual	7e. Green Fleet & Travel	Council cars and mileage claims could be looked at.	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Business mileage is monitored internally in line with corporate monitoring timetables. Mileage claims made for use of personal vehicles are monitored and authorised by line managers.
34892	An employee of West Lothian Council	7e. Green Fleet & Travel	Reduce the number of specialist vehicles e.g. gritters and make more multifunctional - all year round usage.	Green Fleet & Travel (general)	4. The council is already doing this.	The council already has a number of multi-functional specialist vehicles and any future replacements will be considered.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
34893	An employee of West Lothian Council	7e. Green Fleet & Travel	As the council is committed to reduce the West Lothian region's carbon emission footprint and help in generating income for the council, I would propose using the council's residential street lamps as electric charging facilities. This could be run by an external provider that would be on contract provide basis. A London council has implemented with a good degree of success.	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The current street lighting network does not have the capacity for electric vehicle charging so this suggestion will not be progressed at present.
34894	An employee of West Lothian Council	7e. Green Fleet & Travel	As stated within the energy reduction section, using the council's residential street lighting infrastructure for charging electric vehicles as the council's regional carbon footprint reduction commitment. This could be run externally by a council approved contract provider.	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The current street lighting network does not have the capacity for electric vehicle charging so this suggestion will not be progressed at present.
34895	An individual	7e. Green Fleet & Travel	Council vehicles should not be allowed to be taken home by different services as happens daily in all different services. Only vehicle that are on call duties or mobile working should be allowed to do this. The cost for fuel and servicing will be a massive saving if this ceases to happen.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34896	No Response	7e. Green Fleet & Travel	And make them all use their own transport to collect their vans like most other working person!!! How much fuel money would that save over the yr with the amount of council vehicles taken home by employees.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council policy requires a business case for vehicles to be taken home.
34897	An individual	7e. Green Fleet & Travel	Promotion of car share and private hire would be a benefit as is the increased use of electric vehicles so more charging points.	Green Fleet & Travel (general)	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
34898	An individual	7e. Green Fleet & Travel	Reduce size of transport vehicles for delivery of internal mail..why is a minibus required?	Green Fleet & Travel (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Internal mail delivery routes are combined with other service delivery routes to reduce double journeys and increase efficiency.
34899	An individual	7e. Green Fleet & Travel	Working Arrangements - the council should introduce shift patterns to maximise the use of the vehicle assets whilst protecting jobs.	Green Fleet & Travel (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
34900	An individual	7e. Green Fleet & Travel	Stop the council chauffeur driver car	Green Fleet & Travel (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

35140	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The areas looked after by NETs are already looking dreadful a further reduction is unthinkable.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35141	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree. Need to promote community involvement in external spaces through schools, groups etc to develop a sense of responsibility/ownership.	NETs, Land & Countryside - enforcement & management	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35142	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What are NETs?	NETs, Land & Countryside - enforcement & management	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	NETs stand for Neighbourhood Environmental Teams
35143	No Response	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Dog signs needed [REDACTED] Dog walkers also need dealt with, rubbish, cans and bottles need cleaned up. Signs needed outside [REDACTED] people don't pick up poo outside our windows.	NETs, Land & Countryside - enforcement & management	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35144	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I am concerned that the management and maintenance of West Lothian's country parks comes under this heading but no mention has been made of any plans for cost cutting in this area. I do not approve of any further cuts to our country parks.	NETs, Land & Countryside - enforcement & management	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards including country parks and this suggestion will be incorporated into the next review.
35145	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It maybe of interest to have consultation in school re vandalism in the way of essay.	NETs, Land & Countryside - enforcement & management	6. This is a positive suggestion. Officers will consider how this could be developed.	The Education and Engagement officers routinely engage with schools and your comments will be incorporated in the next review.
35146	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Also, increase revenue by actually pursuing the litterers, dog-foulers, fly-tippers etc that are making West Lothian the lavatory of all Scotland. In addition - fine illegal Motorists. walk my dogs every evening and rapidly count handfuls of broken headlights, tail-lights, brake lights, exhausts - If I can do it, why can't the authority's? Increased Policing will very quickly pay for itself by revenue brought in - and making our environment cleaner and healthier - and our roads safer.	NETs, Land & Countryside - enforcement & management	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35147	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Enforce and ticket people who break council regulations in regard to parking; littering; vandalism etc	NETs, Land & Countryside - enforcement & management	4. The council is already doing this.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35148	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Where the council sells houses and has no tenants, the adjacent open spaces should also be sold/ feud at the same time to the adjoining landowner.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35149	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Provides one of the most visible services to the area. Reductions here will negatively impact on the perception of West Lothian as a place to live, work and do business. However where efficiencies can be made that don't necessarily reduce service delivery, they should be looked at.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35150	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Cemetery charges for non residents could be increased.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its cemetery charges on an annual basis and this suggestion will be incorporated into the next review.
35151	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Any savings that can be made through a review of these services it to be welcomed.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35152	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I do not have enough knowledge to comment on this	NETs, Land & Countryside - general	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35153	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Most of the footpaiaere overgrown as it is, so if you are going to reduce the service then what will be left.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35154	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	More resources are required to maintain verges, kerbs and landscaped areas to ensure the district is maintained regularly and kept in good condition which makes West Lothian an attractive area to live and work within.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35155	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	A key reason for me moving to West Lothian was the excellent green space and open spaces. That semi-rural vibe is already being eroded and I would not want to see maintenance/upkeep of these areas reduced.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35156	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Put the country parks out to trust.	NETs, Land & Countryside - general	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council has no plans to outsource the service
35157	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	another review waste of m money	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35158	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	NETs are great	NETs, Land & Countryside - general	7. 35169	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Keep all open space expenditure in line with strategic objectives i.e. do not allow adhoc Cllr and individual complaint related projects, e.g. pitches and pavilions where demand or geographic strategic value is absent	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council expenditure for all open spaces is prioritised and delivered to meet the objectives of the councils open space strategy and service standards.
35170	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I don't understand what this paragraph is supposed to be telling me about Â£2.7million savings. How are they being made?	NETs, Land & Countryside - general	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
35171	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Worry about this area of cuts. This is a large cut to a service. Parks and grounds are very important to me. They encourage me to walk and enjoy the fresh air and are good for everyone health. It is already noticeable that grass is getting cut less often and when it does it makes a mess. I understand why this is happening but is sad to see. Paths are being unusable at times due to shrubs being overrun and can make me not use them as I feel unsafe. Plants are now missing and I wonder if more could be carried to encourage us the citizens of West Lothian to maintain these and take more pride in our community. Could kids be encouraged in this area via schools to educate them on the importance of our environment and make it fun planting flowers etc. 0	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35172	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	get the janitors in the schools to do the work	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35173	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Encourage communities to take ownership of their own space	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35174	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Need to ensure open areas along roadsides are maintained and not a hazard to drivers. Health and safety should be paramount. Again customers expectations need to be managed. Communication between services needs to increase. Greater enforcement when issues arise.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35175	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Close buildings others than toilets in country parks. Put into trust. Let communities manage their own parks if they want them.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35176	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Get the fly-tippers, litterers, graffiti artists and dog-foulers to do these activities as part of their community service. make them wear identification to show WHY they are there - it will soon reduce the need if those who cause the issue are made accountable (Note : first have enough Police etc. available to catch them in the act)	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35177	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Paths are becoming overgrown with bushes due to lack of trimming, creating personal safety issues, needing to walk on roads or dark paths regardless of street lights.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35178	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The issue here is productivity. The work-rate is just not high enough. A job which can be done by one, is often done by two. Laziness and apathy is a factor in operational services, whether you admit it or not.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35179	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Brilliant open spaces and parks - keep this up - unnecessary weed killing and begonia planting - garden for the modern world and keep spaces green but cost effective - seek volunteers in the shape and form of voluntary orgs and schools etc.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35180	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Lots of petrol and diesel leaves the depots in jerry cans for mowers and small plant and is not well accounted for.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment, this information will be passed to the service
35181	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Sadly can see this happening already. Areas that were always colourful are now weed filled.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35182	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The services provided by NETS are of a high standard and should be maintained to help people take pride in their home and community.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

35199	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Many temporary staff taken of for Nets and Land Services, possibly if these staff were kept and trained, the service delivery would be more effective, where long term staff are having to carry new members due to lack of training.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment, this information will be passed to the service
35200	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Currently the garden maintenance is a joke. introducing charges to empty bins would only make this worse. Increase Council tax or take legal action on the repeat offenders. These people think the council are a joke and don't bother. If one were to be evicted for not maintaining their garden the rest might take notice.	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35201	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This department is inefficient and if managed properly there would be no need to cuts in services.	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35202	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agreed. Again, considering the Council are spending public money my question would be why has this not been done before now?	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35203	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Could it get any worse. Not sure we have much left to trim. Have been left with almost no support locally.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35204	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Why not use community service to help reduce these costs. Offenders can do their bit for the community and get valued experience at the same time	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment, this information will be passed to the service
35205	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Again too many vans., more localised squads	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35206	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Not enough done in my area to clear wooded areas of rubbish. Which must have an impact on the owls.badgers deer.foxes bats etc that i have been lucky enough to see. No one seems to care about the amazing wildlife we have	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35207	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Sub contracting out work to the private sector would save millions as for example where the council gardeners rate of pay is close to or above ten pounds per hour the private sector equivalent is on minimum wage. Private companies also do a far higher standard of work through fear of losing the contracts	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment, this information will be passed to the service
35208	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There currently seems to be a very strange approach to this. Areas that are maintained look great but at paths are not accessible due to over growth, forcing people to walk on roads. Paths should be clear otherwise people avoid using them. Increasing use of cars and reducing fitness levels.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35209	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Will generic working be acceptable to staff?	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35210	An employee of West Lothian Council	7f. 35214	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Again this such be part of the Council and should not be considered as additional savings. It is clear throughout this series of questions that the Council has seldom looked outside its box at good operational practice and the value of modern use of technology. The Council has clearly been failing in its duty if it now feels that Â£.7 million may be saved in the application of services are delivered in an effective and efficient way	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35215	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	With the reduction of FMA support for schools and council buildings along with these efficiencies lead to council buildings being less safe for the public to use and for buildings to look less well kept?	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35216	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Aren't they pressed to the bone already. Is Â£2.7m cuts possible?	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal to reduce costs by a further Â£2.7m will be incorporated into the next review of open space standards.
35217	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Could some land be allowed to grow wild or be seeded with wild plants to encourage wild life and reduce need for regular maintenance throughout the year.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35218	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Would agree, however, West Lothian can be very pretty but there are more and more areas that are looking a bit shabby as WLC have gone through different models to make savings.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35219	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The consultation processes within this area need to be reduced drastically, it would be interesting to know the costs involved in the Braehead Trees Liniithgow removal, which has yet to be actioned and will have incurred costs from machine hire, new trees bought etc when the tree cutting was halted. If this provision is to be delivered in an effective and efficient way, the need for tree trimming would be greatly reduced if these trees etc were replaced with easily maintained plants and shrubs, thus saving money in the long term.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35220	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The cut backs to roads and NETS is unnecessary. If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35221	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	We often see community projects to make places look more aesthetically pleasing. This concerns me as this money could be put to better use. Do we need to have Christmas lights in Livingston if this money could be spent on classroom resources to support children's learning? Do we need art on roundabouts- when our roads need fixing?	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All public art and art on roundabouts is fully funded by developers and not the council.
35222	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have no idea how this is going to be done. WLC struggle to provide a comprehensive service just now, corners are cut and it appears that only those who "shout loudest" get service.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35223	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Raise existing standards	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35224	No Response	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Unsure what this statement means. It is already apparent that cuts already within this sector are highly visible. More severe pruning will have an effect of not being able to deliver a decent service to an acceptable standard. We need to take care if we are managing a decline that we dont make West Lothian undesirable to live and work in.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35225	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree but you need to have a model available to demonstrate how priorities are decided	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35226	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There is a very fine line between achieving efficiency and significantly reducing the amenity value and safety of opens spaces. Given that the bulk of the work undertaken by this service is human powered the cuts proposed would significantly reduce the head count to deliver these services. There is no doubt that many of the services offered by West Lothian are above and beyond that of other councils, and this should be considered in a logical manner, but the bread and butter maintenance and cleansing operations should if anything be bolstered to take account of the dip in civic pride that already exists and will further deteriorate, as has happened south of the border, due to austerity cuts there.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35227	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree, but concerned at impact on environment	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35228	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Here I think you need to work with local groups to find out what they want. Work with them to identify the priorities.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35229	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Again, a am a bit concerned about what is wrapped up in here. We need a well serviced and clean town. The touch choices initiative is being used to take all manner of shortcuts. A common sense, long term view is required here.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35230	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The public should be clearly made aware of the expected level of service provided and elected members should also support officers in dealings with the public with this regard.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35231	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	not clear on what exactly is being proposed here but I don't support any proposal that would see a decline in the upkeep of communal green spaces	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35232	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	At times the grass next to roundabouts is so long that you can hardly see over it to view oncoming traffic safely. for a number of years now and has been successful.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35233	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Linlithgows Burgh Beautiful activities shows how successful it can be if local community take on seasonal planting. Such schemes should be encouraged across the district. Also is it worth considering more offenders programmes to take on park maintenance type projects. I understand Addiewell Prison is for low risk offenders and perhaps there are opportunities there to get offenders back out into our communities doing useful work.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35234	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Not as much cuts from here	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35235	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	As 1A. I have recently sent a complaint to your Chief Executive with regards to your standard of service and management and why it is currently not using "effective and efficient" methods.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35236	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Maximise opportunities for efficient land management by ensuring that all open spaces are fulfilling their potential to provide as many benefits as possible for each site (e.g. recreation / learning / health / flood prevention / water and air purification / supporting pollinators / growing food, etc) This may involve naturalising grasslands, creating wildflower meadows, increasing woodland planting, enhancing wetlands, etc. as well as maintaining paths and facilities.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35237	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Would prefer to raise council tax rather than reduce this service.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35238	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35239	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Provided the environment does not become overgrown and begins to detract from the look of an area.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35240	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Encourage local areas to take on green bits of land in the neighbourhood. Explain the green side of this development and communities will probably go with it	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35241	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Select areas that could be designated and set aside for wild life - wildflower areas and such like even as strips around grounds that are used for other purposes.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35249	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Encourage hybrids and electric vehicles to be phased in over next five to ten years; more charging points and generally to 'go green' and carbon neutral.	NETs, Land & Countryside - general	4. The council is already doing this.	The council currently uses electric and low emission vehicles and is looking to increase the electric fleet again this year.
35250	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Cut less grass. Do round the edges and plant wildflowers in the rest. Help the bees and butterflies. Keep footpaths and cycle paths clear though.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35251	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It is not clear what this will mean for the customer/citizen of West Lothian. There have already been significant cuts to this service.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Comment Noted
35252	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	"Service is delivered in an effective and efficient way" - generic working" - that'll be someone losing their job.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Comment Noted
35253	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	How does this service currently work? How much does it cost? What changes to the structure are proposed? Will this be a reduction in staff? How will this be more effective? How will this be more efficient? What is meant by more generic working? Does this mean wider roles for the staff? Will they be paid more to take on more responsibility? Will they receive more training? What would these additional costs be?	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review. Generic Working means the sharing of common tasks across job roles and staff will be provided with the appropriate training to undertake their job.
35254	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Sensible as long as it does not have any impact on any health and safety issues.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Comment Noted
35255	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I hope that as part of the built environment the council will continue to improve and maintain cycle routes and footways, not just road surfaces.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and is committed to active travel and healthy lifestyles. This suggestion will be incorporated into the next review.
35256	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	More candour needed about the standards that will be delivered. Something on these lines is doubtless right.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35257	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	All grounds should be kept tidy, in particular cemeteries and play parks.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35258	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Work more with volunteer groups to care for the space -	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35259	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Standard of maintenance has dropped rapidly, moral of staff carrying out this work is at an all time low and the look of West Lothian is very poor	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35260	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What about checking for dangerous trees? surely this needs to be done regularly.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Tree safety inspections and work will continue to be carried out and prioritised in compliance with the council's Tree Management and Safety Policy.
35261	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	NET's and Land services have borne the brunt of savage cuts to funding and standards for years and can give no more - have you looked at our open space areas lately they look terrible and unloved!	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35262	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	don't lose sight of safety. Remember Grenfell Tower.	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35263	No Response	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Would it be possible to offer plots of land / shared ground to the community to maintain. Conditions would apply.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35264	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	this is an area where significant savings could be made. also look at the competence of the chiefs. familiarity breeds contempt.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35265	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	the council wastes money on open space and should put the money to better use	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35266	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have repeatedly complained about the cemetery wall in Whitburn which is in a state of disrepair and yet you can have council workers out putting up lights on unsocialable hrs on a Sunday.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The wall in Whitburn Cemetery is scheduled for repair. Your comment regarding Christmas Lighting is noted.
35267	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This must not be used as an excuse to cut down trees to save pruning. Community involvement to care for open spaces should be encouraged.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35268	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Why have you been wasting so much of our money up to this point?	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35269	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Greater use of wild flower garden areas should be created which would have an improved environmental impact as well as reducing maintenance costs.	NETs, Land & Countryside - general	4. The council is already doing this.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35270	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Revised standards are required. Reactive work should be triaged - just because someone complains it does not mean that the issue is urgent or important. In an attempt to provide "good customer service" staff are often required to respond to relatively unimportant matters to the detriment of providing good overall, long-term management of the resource. Not sure what "generic" means in this context. If too general it could mean that it is not fit for purpose.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35271	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Why can't one person do more than one job? Sometimes one person does one part of a job, then another another pat. One person who is multi skilled should do all areas.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35272	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have experience of Nets and it is not a good one. If you wish to enter the private market you require folk who know the details of their work and not just push a lawn mower. This is what makes me doubt your proposals.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35273	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	If fly tipping increases will need to spend more on services.	NETs, Land & Countryside - general	4. The council is already doing this.	Thank you for your response. Your comment has been noted
35274	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Care needs to be taken so as not to have a large impact on the area. As soon as you go outside you are in the environment. this environment affect you physical and mental well being. If an area looks unkempt it is more likely to attract antisocial behaviour and people having no pride in it. Areas look untidy, more litter/ fly tipping/ graffiti, dog fouling and making people feel less safe and not wanting to go outside to get exercise. we also need to encourage people to do their bit like people did years ago. example being If there is a weed in the path outside your property pull it out don't phone the Council expecting a team to come out for something you could do in 5 minutes allowing council resources to be put to better use. Encourage communities to carry out additional works, take over areas for maintenance, litter picking.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35275	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Opportunities for partnership contracts with third sector and Social enterprises - The Youth Action project would welcome the opportunity to discussion regarding work on small scale projects as other agencies would.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be considered as part of the review.
35276	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What best practice can be shared by Tiphereth in Colinton, Burgh Beautiful, Oatridge College, West Lothian College and others? It would be ideal to see how courses/employment support can be arranged for local people including vulnerable people to be more active and also involved in local communities?	NETs, Land & Countryside - general	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35277	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	just do not throw the baby out with the bath water	NETs, Land & Countryside - general	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35278	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35279	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	very rarely see any of this in recent years having. This service is almost non existant unless you complain about the condition of council land	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35280	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Proactive Maintenance and Quality are the requirements !	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35281	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35282	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	A community requires to be aesthetically pleasing. If we create a grey environment within West Lothian how can expect more from tenants and home owners etc. People need to have pride in where they live.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35283	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Approach local community groups to help with basic grounds maintenance e.g. path clearing, trimming bushes/hedges overhanging paths (all of which are currently left overgrowing & block paths or greatly reduce the width of the paths). All WLC schools, Scouts, Guides, Air Cadets & Army Cadets take part in The Duke of Edinburgh's Award. Teenagers aged 14-18 are always looking for volunteering opportunities. WLC could organise regular monthly clean up activities, targeting over grown paths etc. The DoFE participants would gain their volunteering hours and WLC would have areas maintained at a fraction of the cost, being overseen by only 1 or 2 staff members and providing basic tools and equipment.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35284	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	All no 7 section will result in poorer services for everyone	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

35285	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Yes times are hard but to refuse even more services or being asked to choose is now a step to far. We are already noticing the effect of the last round of budget cuts , it is very visible in the grass areas, play parks bushes, graffiti	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35286	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Don't believe in spending money on environment when people struggling to feed families.	NETs, Land & Countryside - general	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35287	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have not seen a street cleaner for months. where is the money going that is supposedly being saved?	NETs, Land & Countryside - general	4. The council is already doing this.	Street Cleansing Teams are deployed in every ward on a daily basis. Specific areas and the frequency of cleansing is zoned to comply with Statutory guidance.
35288	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	C) Voluntary groups taking ownership of parks, litter etc.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35289	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I feel that woodlands and green spaces should be given greater priority as they play a major role in the health and wellbeing of our community.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35290	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Some of the walkways down the Lanthorn are in need of attention. The pathway down to the Lanthorn from [REDACTED] to the Lanthorn is either covered in grass or mud at all times. Being on a slope, very dangerous. The pathway through the woods from no [REDACTED] to doctors surgery is a complete mess as tractor etc mucked it up when putting up new bridge. I do understand there is a lot of grass to cut which makes Livingston stand out and look lovely its just some of the walkways are just a bit of a mess. Also the pavement at the bottom of my walkway down side of no [REDACTED] gets icy and as there is no salt boxes here the dip in the pavement makes it very slippy. My husband had a fall here 2 years ago I complained about it then. Salt box here would be an answer. Also there is a forgotten path in Ambrose Rise it is the pathway with lights at [REDACTED] side of the woods, its a mess and a dumping group for some people.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its Winter Service and Grit Bin Policy and Standards and this suggestion will be incorporated into the next review.
35291	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Protect open spaces for good health y living somewhere clean to go with little expense to family..	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35292	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I was shocked to discover that £870,000 is used to run country parks with £890000 capital investment being spent in the last 2 years on Beecraigs, Polkemmet and Almondell. Looking at Beecraigs there seems to be less deer and more and more cows and sheep have been brought in. I was of the opinion that is was an animal attraction not a farm. Why ahev these animals been brought in and are they generating an income.? How much of the £890000 of capital investment is being spent on animals vets bills food machinery and is it really nessecary.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review. Country Parks and the animal attraction will be incorporated within the review.
35293	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	New developments happening but unsustainable in term of expected maintenance required by WLC. open spaces, play, woodland/ tree management, etc needs to be better funded by the developer / WLC depending on who it is developing.	NETs, Land & Countryside - general	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35294	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	More needs to be done to stop the alienation of children with disabilities. Bringing more to west Lothian should be promoted. Even just thinking of Fauldhouse not a single play park comes to mind that allows any sort of variation of play. having seen other countries have swings for children in wheelchairs and all sorts its a huge shame to see our local area really lacking in combining the children.	NETs, Land & Countryside - general	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35295	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Doubtful, always too much red tape and paperwork. Making work for managers	NETs, Land & Countryside - generic working	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35296	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Who sets the priorities ? This year, grass cutting has been a shambles with decomposing cut grass left spread all over footpaths. This is before any review. How poor is it to be allowed to become before it is seen as ineffective and inefficient ?	NETs, Land & Countryside - generic working	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35297	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This is all very well, but it is unfair for the council to put in flower beds and then never maintain them. They become an eyesore. If the council is only to do minimum maintenance,such as grass cutting, then flower beds should be removed and grassed over.	NETs, Land & Countryside - generic working	4. The council is already doing this.	The council no longer provides flower bedding within communities. All flower beds are now provided and maintained by developers and/or community groups.

35298	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic working should be used at all times where possible in ensuring resources are maintained in an effective to support delivery of all service provision required for council priorities.	NETs, Land & Countryside - generic working	1. The respondent advised that they agree with the proposal.	Generic working will be considered across all frontline services and will be incorporated in the review of open space standards.
35299	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic working is a great idea as long as it doesn't end up with all staff moving to higher pay scales because they are competent in a few areas.	NETs, Land & Countryside - generic working	1. The respondent advised that they agree with the proposal.	Generic working will be considered across all frontline services and will be incorporated in the review of open space standards.
35300	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic working - so once again everything gets reduced to the common denominator and specialisms are expertise is lost.	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generic working will be considered across all frontline services and will be incorporated in the review of open space standards.
35301	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What is meant by 'generic working'?	NETs, Land & Countryside - generic working	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Generic working means a sharing of common tasks across job roles.
35302	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I notice more weeds seem to be appearing around all the areas Is this a cutback already	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Weed spraying was reduced from 3 cycles to 2 cycles annually in 2014.
35303	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Leaving grass cuttings makes the areas ugly	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35304	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic working - is this "Jack of all trades and master of none?"	NETs, Land & Countryside - generic working	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Generic working means a sharing of common tasks across job roles.
35305	No Response	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Love the marginal grass cutting of roadways already.	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35306	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The need for specialisms is not recognised and becomes so watered down that the teams aren't able to provide a job which they are proud of. Generic working will further affect staff moral. Job evaluation is already carried out in a too generic form not recognising the individuals roles within the different areas of the service. This is a seasonal area of operation where the demands and requirements are higher through the spring and summer and as previously mentioned it should be a mistake to remove these roles as it is an easy to do operation. Far better to work out what the service is to deliver and then build the staffing to suit. Involve the teams themselves as the above doesn't actually tell you anything. Another example where more specific detail in required as no real idea of what is being proposed.	NETs, Land & Countryside - generic working	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35307	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What is 'generic working'? Did you employ this strategy when felling and replacing trees in Linlithgow in 2017? Such public display of flouting your own strategies does not sit well with your public.	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generic Working is sharing common tasks across different job roles. Your comment regarding Linlithgow Trees is noted.
35308	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	More information required however generic working has various implications for staff daily and has then potential to result in terms and conditions implications which GMB will oppose.	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35309	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The environment is very important. For example, it might save money if more areas of common land were left untrimmed/uncut. This would encourage the growth of wild flowers with the knock on effect of increased numbers of insects and consequently increased numbers of birds etc that need this food.	NETs, Land & Countryside - generic working	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35310	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I am unsure as to what generic working means. Is this a restructure? Will there be staff redundancies and if so will these be voluntary or mandatory. Are the council looking to privatise either partially or a whole Is there a plan to run the service at the lowest possible staff level possible? How can we be expected to comment on a saving structure when we have no breakdown of operational running costs.	NETs, Land & Countryside - generic working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generic working means a sharing of common tasks across job roles. The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review. Resources will be incorporated within the review and managed where appropriate in compliance with council policies.

35311	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic Working - in which roles?	NETs, Land & Countryside - generic working	1. The respondent advised that they agree with the proposal.	Generic working means a sharing of common tasks across job roles. All roles with the opportunity to share common tasks will be considered for generic working.
35312	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Generic working - in which roles?	NETs, Land & Countryside - generic working	1. The respondent advised that they agree with the proposal.	Generic working means a sharing of common tasks across job roles. All roles with the opportunity to share common tasks will be considered for generic working.
35313	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	However, what I will say is that frontline services which directly effect the quality of the life for people, should be maintained e.g. street cleaners removed from our areas without 1. prior consultation; 2. external areas around our houses not being maintained properly.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35314	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The council should spray out and re-seed more open spaces area with a low maintenance grass seed mixtures which have a wild flower/ naturalising bulbs and leave these grass areas longer reducing grass cutting frequencies in low amenity areas.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35315	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	OPT TO GO TO MEADOW STYLE IN PARKS AND REDUCE GRASS CUTTING ELSEWHERE	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35316	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Garden maintenance costs should be more reflective of actual costs.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its garden maintenance charges on an annual basis and this suggestion will be incorporated into the next review.
35317	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Provision of ground maintenance - keeping grasses cut, collecting litter, debris everywhere is totally unacceptable. E.g. cutting grass but not collecting cut grass. This is a fundamental WLC requirement and should be provided	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35318	No Response	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	More overgrown roundabouts are likely by the sounds of it. So removal of trees and shrubs and replaced with grass would reduce likelihood of maintenance. Introduce a charge in tenants rent to include garden maintenance.	NETs, Land & Countryside - grounds maintenance	4. The council is already doing this.	Overgrown roundabouts - the council is already looking at options to reduce maintenance on roundabouts . Charging Tenants for Garden Maintenance - only tenants that are over the age of 70 or registered disabled qualify for the scheme.
35319	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I love all the green space around my home - grass, trees, shrubbery... but the council spends way too many man hours looking after it.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35320	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Maintaining the open spaces contributes to the quality of life for all and should not be reduced.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35321	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	We regually get complaints already about the state of some of the park areas	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35322	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This service is already overstretched. Bushes and trees are overgrowing paths and properties and it takes a long time for these to be addressed.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35323	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	So the grass will get cut less often and the streets cleared of snow only if it doesn't melt away first. What you mean is fewer people and less service.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35324	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	See if you left the verges to the wildflowers and only cut once a year before winter you'd make a huge saving and encourage good wildlife practice.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35325	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Pass over maintenance of local open spaces to residents, but not to Geenbelt, they are a bunch of crooks... 35326	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Introduce a Tree cutting programme with minimum heights and then collect branches stuff that have been removed and produce wood chip, then sell onto surrounding garden centres and householders.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The councils trees and woodlands are maintained in accordance with the councils Tree Management and Safety Policy that includes the resale of timber products.
35327	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Does this mean no more grass cutting and hedge trimming? If this is the case, then would not support any drastic reduction in this service. Consolidation is worth looking at but the Council must ensure that areas are well maintained otherwise the wellbeing of individuals is impacted by the poor environmental management.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35328	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Road verges and approaches to roundabouts need to be maintained - allowing these area's to be overgrown is dangerous	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35329	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There should be more of the priority made to cut the grass on verges near roads and junctions and roundabouts. This summer there were a number of areas where grass was overgrown which was dangerous for road users.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35330	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	One of the pleasures in going round the county is the how the open areas and public spaces are maintained. It presents a very positive impression of the area and as well as making it a pleasant place to live and work. Any reductions which lead to a more unkempt appearance will likely end in a spiral of decline.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35331	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	west lothian prides itself with greenspace and it is noticable the reducing standards of this since the financial crash. continued reduction in this could tip it over and cause damage to the spaces which would cost more in the long run to fix. working with communities more and encouraging them to take ownership of areas, to look out for them and develop them into useable spaces should be undertaken for the benefit of westlothians greenspace	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35332	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	West Lothian is beautiful and if we allow it to look a mess then eventually the place will go down hill and people could leave for pastures new please don't spoil our lovely town by reducing services	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35333	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	mixed opinion. Open spaces encourage economic activity in areas. If the standard is increased rather than maintained then would agree.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35334	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Grounds maintenance should focus on the statutory, most visible and safety critical areas - roads. Overhanging vegetation, grass verges, lack of weedkilling are all having a detrimental effect on safety and the integrity of the roads asset.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35335	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Organisations who have longer term lets, should be encouraged to take on more ground maintenance responsibility	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35336	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Rewild large recreation spaces - Howden park wild flower meadow? Replace grass strips inA899 etc. with stone chips, Sell off or gift small strips to householders - especially in Livingston.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35337	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	sad to hear no festive lighting....Perhaps also cuts made with all the bulbs that get planted then pulled up then replaced with plants. The "art works" at roundabouts for me are an unnecessary expense, as are those at Wester Inch	NETs, Land & Countryside - grounds maintenance	4. The council is already doing this.	The council no longer provides bulbs or summer bedding. These were removed in 2014. All bulbs and bedding is now provided by developers and/or local community groups. Similarly, all art works are fully funded by developer contributions and no art works are funded from council budgets
35338	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I would be reluctant to agree to reductions in weed spraying, grass cutting, litter picking etc.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35339	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This year there has been more area's where the council cut grass where the grass is just left lying it looks very unsightly and untidy either at the side of the road or in housing schemes.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35340	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Plant more wildflowers on grass verges to make them look more attractive. Try to get shopkeepers involved in providing hanging baskets outside their shops to make streets more attractive.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

35341	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Also if you stopped spending so much on services that include spraying the grass verges every few months and strim them as the grass is being cut this would be a saving and more environmentally friendly.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35342	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Ground maintenance of public areas = stop using chemicals to spray every bit of greenery you can find in our countryside and towns, every bit of public paving is sprayed unnecessarily. There is no need to do this. Strim the grass edges with your garden workforce and we can all do our own areas outside our gardens where weeds grow.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35343	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This year has seen a reduction in the times the grass areas in the town have been cut. I not opposed to this, but I am opposed to the state the grass is left in. The grass is very long by the time it is cut. The equipment does not cope with the longer grass, especially when it is wet, which is quite often. The machines don't cut the grass evenly, and leave ridges of grass which have not been cut, so it looks awful. Because the grass is long the cuttings take a long time to break down so it looks terrible, ridges, uneven length of grass and decaying grass altogether. The council needs to get equipment which can give an even cut of the long grass.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35344	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have no objection to the environmentally safe chemical weed control or grass edge control. It just has to be done properly. I do object to people insisting this is done without chemicals and the manual labour involved detracts from the service received in other parts of the council area. The council has already reduced the service in the maintenance of beds, shrubs and grass areas. I can accept that but I strongly object to the poor quality of the work when it is done..	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35345	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Grounds maintenance standards are already poor- especially grass cuttings being left to rot, instead of being gathered up. Streets are appalling since our street sweeper was not replaced	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35346	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	West Lothian is a lovely green place to live. I know there are areas in Uphall and Broxburn which have seasonal planting which whilst lovely is perhaps a luxury. Could such areas be replaced with more hardy long lasting plants?	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35347	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There is not a requirement for planting flowers etc. Priority should be grass cutting where it impedes safe travel due to restricted view.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35348	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	You cannot cut ground maintenance any more. The open space behind my house has become a meadow.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35349	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Lots of red tape here as I live in an area that the local people are happy to maintain ...trees, woodland trimming etc but we are not allowed ... the problem is the area does not get maintained correctly so trees are overgrown shadowing houses gardens etc council hasn't got the resort or money yet we can't do it or if we do face a fine... ridiculous.... we should be able to maintain outside our fence providing we follow guidelines issued.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35350	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Green open spaces are important. Leaving grass to blow away is a waste of good compost material...as observed in most areas. Ask for local contribution/ help. Or does community service not exist anymore for offenders.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35351	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I have witnesses grass cutters at council houses in my village on a sat morning in oct. .1. Who cuts grass in Oct and	NETs, Land & Countryside - grounds maintenance	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35352	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There are two different things in here; one is about the grounds and one is about the staff!! Regarding the grounds - I feel this should be protected as far as possible as if we start to let the appearance of our communities suffer then that leads to all sorts of other behavioural issues which will only accrue costs for other area of the council or your partners. Perhaps make better use of local groups, church groups, uniformed organisations, school projects to see what they can do with regards to town centre areas / litter and get the council to do the 'bigger' jobs like the major grass areas, weed control etc.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35353	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Disagree Based on evidence of existing service cuts which are already showing signs of neglect of these spaces in our communities and streets. More cuts will be interesting. The countryside will be full of fly tipping and rubbish anyway.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35354	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This should be looked at very carefully as maintenance of open spaces should be for the betterment of all users/residents and is highly visible to residents and visitors giving a perception of unkempt spaces is bad for all	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review
35355	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Open spaces are an absolute disgrace at the moment , surely you can't cut back here , what the hell are you spending all this money on .	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35356	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Why are the council paying to mow lawns in private houses? A total waste of money.	NETs, Land & Countryside - grounds maintenance	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Private residents are included in the garden maintenance scheme for the elderly and disabled where a resident meets the criteria. However all private resident pay for the service provided.
35357	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I am very proud of West Lothian's green areas and networks of paths and sincerely hope there will be no reduction in management of these areas.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35358	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Let the grass grow longer. Charge (more) for garden maintenance. Ban dogs. And cats.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35359	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There are instances where grass cutting appears excessive. Some areas could be left as 'meadow' for example with only 1 or 2 cuts a year, ensuring footpaths do not become affected or overgrown.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35360	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	OK agree, flower beds are not a necessity. Use more shrubs rather than completely replacing all content on a very regular basis.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council no longer provides flower bedding within communities. All flower beds are now provided and maintained by developers and/or community groups.
35361	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There is no need to cut grass and apply weed killer in many green spaces. These should be adapted to encourage nature, not fight it ie. wildflower meadows, easily visible woodland areas. Grass cutting should only be done if the activity requires ie football pitch or it is a safety concern ie verges. Serious consideration should be made in to how the council can move away from conventional land management techniques into more sustainable and ecological options.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35362	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It is to be hoped that there will be no major reduction in ground / landscape maintenance as this would almost certainly have a seriously adverse effect on the image and ultimately the prosperity of the area.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35363	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This should not affect the removal of leaves from walkways. Wet leaves in autumn are a health and safety hazard and should be removed. They are already left for too long.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35364	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What does this mean, the person who wrote this should be ashamed, why not use plain English! Please explain Generic working and Open space strategy I gather less work will be carried out on ground maintenance, in other words we will be all the poorer for it.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generic working means a sharing of common tasks across job roles. The Open Space Strategy is the councils 5 to 10 year long term strategy for the management of open spaces.
35365	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I.e. Stop cutting the grass? I don't support this without some proposal as to how you can get some forms of support from commercial organisations to replace the councils responsibility.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35366	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree as long as there is no major impact to the pleasant greenery areas we have at present to enjoy	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35367	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Provide in-house landscape design for new council-housing developments, to ensure a) the quality of landscaping, b) future maintenance is taken into account - right plant, right place and c) all landscaping provides multiple benefits. Focus resources on prevention by ensuring the provision of quality open spaces and facilities close to people's homes, thereby increasing health / wellbeing and reducing health inequalities and reducing carbon emissions by reducing the need to travel to facilities elsewhere.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35368	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree. Do worry however that it will be long before many of the cycle routes and pathways will become overgrown and there unusual or unsafe. Sad day that to maintain services I have to agree with cut.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35369	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Each day I drive past countless kerbside drains with weeds and flowers growing from within - surely some preventative maintenance on this (just one example of previous cost cutting) would save money in the long run?	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35370	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Sounds like may result in a detrimental effect to our surrounds, green spaces and park land. Surely an increase in council tax needed to preserve these areas we take for granted. Linlithgow Burgh Beautiful have already taken on a huge amount. We would all expect to pay for this within our tax.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35371	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	West Lothian green areas are a credit to WLC.	NETs, Land & Countryside - grounds maintenance	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
35372	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Also it may be of benefit to inmates in HMP Addiewell if they were out on duties during the day on clean up squads as in Georgia USA. The litter in many areas is unsightly, as at the centre!!	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35373	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Would not want West Lothian to look untidy. Could you not create strips and corridors for wild life even around playing fields - a bit like agricultural set aside - to encourage wildlife and to reduce maintenance needs. Encouraging/inviting community maintenance of neighbourhood green spaces might be a good partnership approach. Local community green and garden spaces could be created reducing the need for Council resources.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35374	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It seems extraordinary that what councils could fund in Victorian times we cannot fund now. Linlithgow is fortunate in having Burgh Beautiful but what of the other towns in the county? No flower beds?	NETs, Land & Countryside - grounds maintenance	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35375	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	When cuts are made to grounds maintenance it would be good that when grass cutting is carried out efficiently making the cut in service appear less negative to the community.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35376	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Use people who are on community service orders to work the land!	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35377	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	?? Are you talking about cutting the grass? If you don't want to maintain open spaces then sell the land to a property developer What does NETs mean? This is gobbledeygook	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	NETs is an abbreviation for Neighbourhood Environmental Teams.
35378	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Whilst a reduction in grass cutting and landscape maintenance - and use of different seed types such as meadow flower- is appropriate, if this is reduced too much it will be a retrograde step. It not only looks untidy but could encourage fly tipping, vermin etc. It also means there is a loss of ownership and sense of pride in a neighbourhood.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35379	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Services such as gardening services have been badly effected and on roads and paths around West Lothian have become dangerous as so overgrown pulling out of junctions has become hazardous. Prime example is junction outside Torphichen going to Falkirk/Linlithgow. Surprise not been an accident	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35380	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Grass cutting is already poorly executed with the task half done.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35381	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Look at what Fife Council are doing - they are using external funding to run 'Locality Response teams' This team works in the community - on areas of land which are identified by the community as requiring work. The LRT - provide training for young people who are not in employment. They work on paths, fences, painting etc	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35382	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Hopefully the Council will remove non-maintained Trees so that residents are not having to clear up all the Council Property leaves on a regular basis.	NETs, Land & Countryside - grounds maintenance	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
35383	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It is to be hoped that proper proactive maintenance is carried out anyway.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35384	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	stop planting seasonal flowers. Replacing these with hardwearing all round shrubs.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35385	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I would hope the objective will be to ensure the majority of these savings affect the minority of people. Within Ground Maintenance, previous reductions in service standards have resulted in considerable increases in public and Councillor enquiries and complaints. Ground Maintenance and Street Cleansing consistently receive around 90% of recorded enquiries every month. It is clear that while these are not priority services, they affect people on a daily basis.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35386	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Grounds Maintenance has been forced to made vast saving over previous years so leave it alone, it can't be reduced any more!	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35387	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree, but keep out town centres neat and tidy. Give grants to interested groups to provide an acceptable of summer flowers.....same for every town.... I know Linlithgow has a volunteer gardening group, but the town seems to have greater spends on road furniture etc. Towns like Whitburn should be improved too.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35388	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	use community councils to support this	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35389	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	All very well but consider the effect on the Tourist effort if you allow standards to slip.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35390	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What is the open space strategy? Grass cutting has already been severely curtailed and there are now unsightly heaps of rotting grass left in Linlithgow. This is not a good look for a historic town that gets a lot of visitors. Burgh Beautiful do their best to keep the town looking good after WL cut all planting but BB cannot do all the grass cutting as well as all the flower tubs, baskets and beds!	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Open Space strategy is the councils long term strategy for the development and management of general open space assets. The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35391	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	What the heck are you talking about! Why don't you use plain english and say exactly what it is that you're proposing to do. Is it that you'll use other maintenance resources to cut the grass. If so fine, no problem.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35392	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I'm failing spectacularly to understand how £2.7 million of savings can be made in this area. Are you saying you are going to stop cutting grass, trees, hedges, bushes etc in certain areas? If so where? I'm firmly of the view that a clean tidy environment promotes a sense of pride in our community and if the place looks a mess people will have less inclination to look after it. Sure maybe do it less often but don't stop parts altogether.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35393	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Agree as long as appropriate priority given to over grown trees which can make driving on the roads dangerous. I do value the grounds maintenance as it gives good impression to tourists & makes our towns a prettier, happier place to live in.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35394	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Offer private estates communal grass cutting provision at agreed fee. This would enable them to maintain their own community to a standard/cost they are happy with	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35395	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Already I see common areas and pathways suffering from previous budget costs. I do worry that the increase in weeds on paths and kerbside will cost the council more in the long run with road and footpath maintenance/replacement.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35396	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Noted though to be honest I think the provision you provide for grass cutting to public parks (especially the children's playing fields) is poor anyway.	NETs, Land & Countryside - grounds maintenance	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
35397	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I do not agree with this proposal. All grounds should be treated with the same priority for the good of the grounds and the people	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35398	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	There is very little grounds maintenance completed - our local parks only get cut a few times a year and these are used as sporting grounds and are often overgrown. I do not think there can be any reduction to this type of maintenance.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35399	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Already starting to become visible across WL that the capacity to 'maintain grounds' in decreasing. Need to try and educate and encourage resentments to try and take some kind on responsibility for the paths etc right outside their own front doors.	NETs, Land & Countryside - grounds maintenance	4. The council is already doing this.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35400	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Encourage local organisations to take on planted areas etc. Burgh Beautiful is a good example of local community working with local groups with some support from Council	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35401	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Open spaces must be maintained, streets cleaned and kept free of ice, snow and leaves and drains kept clear.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35402	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Are your strategies implemented council wide? For example in Linlithgow there is no flower/tree planting etc - is this council wide? I ask as shortly after implementing this strategy in Linlithgow there were press reports showing a number of large trees being planted in the grounds of the Civic Centre in Livingston!	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35403	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This should be undertaken. Support should be given to voluntary local groups, such as Burgh Beautiful, to help them keep open spaces in good order now that the council have stopped maintaining gardens.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35404	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The council will provide a litter bin for every bus stop in the borough. Planted areas as well as paving will be cleared of litter. Pavements to be cleared of falling leaves on a regular basis as leaves fall not left to accumulate. Wet leaves are dangerous and slippery. Grass cuttings to be swept from pavements and not left to form a mess and become slippery and dangerous. Road cleaning operative rounds to follow the path of the dustcarts as dustcart operatives seem incapable of bending their backs and picking up what is dropped on their rounds.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35405	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Sad that West Lothian is looking scruffy but that is due to residents being happy to drop rubbish etc because it's the council's problem not theirs don't know how that attitude will change.	NETs, Land & Countryside - grounds maintenance	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35406	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I notice that maintaining path edges appears to be less frequent in recent years, leading to overgrowing vegetation and a decreased feeling of safety. Within reason, the already felt reduction in management should be picked up by communities. I am aware of other places where people organise work parties to clear back path edges, I would be happy to do this within my community either as part of a group or by myself but I have so far avoided it as I am not sure where such activity stands legally. The result of this is that I use Fix My Street but feel that I am pressuring already pushed teams when I do this.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35407	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	This is already happening. in Linlithgow (Burgh Beautiful), volunteers have taken over the maintenance and planting of areas in the town. I worry that lack of maintenance will result in more problems. I noticed the leaves have not been swept up in our area and on my way to the shops counted 4 drains clogged with them. I am happy to remove the leaves in my area but cannot cover all obviously. this will lead to flooding and more work in the long run. i fearloss of bins being uplifted could lead to fly tipping and germs being spread and rat infestations.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35408	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	our council taxes would cover open space servicing but we would have to pay for home grass collection?	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35409	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It looks dreadful but we are going to have live with longer grass and overgrown trees and bushes.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35410	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Get your landscape architect to look at ways of reducing maintenance costs without damaging the look of the place. There are grass areas that could be cut to a different pattern to reduce costs. see Living Landscape Project Edinburgh .	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.

35411	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	it would be sad to see a drop in the maintenance as we have a high expectation in West Lothian however it is understandable. Again; either more community engagement or putting this out to Community service for litter picking should be considered.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35412	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	We must take care to protect our natural environment for our future and our future generations. This may always seem a soft target when savings are required but do not underestimate its impact on society and people's well-being. Our open spaces have already been cut to the bone and are already starting to show signs of poor management.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35413	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Far less grass cutting is needed over the whole council estate, including road verges > more wildflower meadow = less overall maintenance and much better for biodiversity.	NETs, Land & Countryside - grounds maintenance	4. The council is already doing this.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35414	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Mats of decaying cut grass have already made many parks and other open spaces unsightly and hard to use.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35415	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	A community requires to be aesthetically pleasing. If we create a grey environment within West Lothian how can we expect more from tenants and home owners etc. People need to have pride in where they live.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35416	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Reduce labour intensive tasks (eg flower beds)	NETs, Land & Countryside - grounds maintenance	4. The council is already doing this.	Thank you for your response. Your comment has been noted
35417	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Reductions in grass-cutting will result in accidents where the grass is near junctions and signposts.	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35418	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	I would like to know how this will work before passing comment. At present the staff work very hard to keep West Lothian looking attractive with grass cutting and shrub trimming etc. The priority areas - will these be identified in the future?	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35419	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	When the grass is cut, could we have it collected, please? Thus leaving a more pleasing sight than when the cuttings are just left to rot.	NETs, Land & Countryside - grounds maintenance	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
35420	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Here I will mention the importance of not using weed killer all over the place. Over the years I have lived here butterfly and insect numbers have dropped very badly not to mention the lack of wild flowers and hedgehogs??	NETs, Land & Countryside - grounds maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35421	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Cut down on grass cutting in rural areas and leave verges to become roadside nature reserves. Prioritise and reduce journeys of small trucks with a brush sticking up in the back. Everyone of these journeys needs to have a purpose.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35422	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	It is lovely to see all the displays of flowers in villages/towns but again I think they are a luxury. The cutting of grass in communal areas in villages yes but nothing more than the absolute minimum should be done.	NETs, Land & Countryside - grounds maintenance	1. The respondent advised that they agree with the proposal.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35423	On behalf of a Group/Organisation	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	The environment is extremely important to them and whilst this is at number 8, they would not like these spaces to be taken away. Would it be possible to have volunteers help to maintain spaces. They do not want to lose these spaces.	NETs, Land & Countryside - grounds maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35424	An individual	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Deployment of low risk prison offenders onto street and highway cleaning duties and park maintenance	NETs, Land & Countryside - grounds maintenance	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council routinely reviews its open space maintenance standards and this suggestion will be incorporated into the next review.
35425	An employee of West Lothian Council	7f. Revised Service Standards & Delivery Models - NETs, Land & Countryside	Like many of the proposals in this consultation, it is difficult to comment without knowing more of the context. How can anyone disagree with a general proposal to make a service effective, efficient and in line with the Council's strategy?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

35785	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I seem to have lost the page 'Have your say.....' So here is my say - After several attempts & losing the will to live, I have had to force myself to read this document. But I still think WTF does this mean. The jargon & wording is appalling, who is it designed for? I am educated to degree level & still found it difficult to understand even after re-reading it. This is disgraceful. Or is it just so that you can tick the box that says you have consulted..... really!!! These cuts effect the 2 most vulnerable groups in society - children & elderly. Shame on you. This could have been a much shorted document if you stopped banging on about how great you are & what you have done.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
35786	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	7g Too big a question for a public consultation. For the less informed, this question lacks detail and financial outline for constructive feedback and comment. You expect the population to read up on strategy" plus comment on every aspect of council services! statutory requirements rather than service, what does this entail. it sounds as community service and community cohesion are being abandoned.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

35802	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree, safety must come before anything else. WL have excellent road safety and this should be take priority	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35803	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	the last proposal to use contractors is fraught with higher costs and overrun and variation costs. you will need contract management to oversee the contractors and you already got rid of the clerk of works years ago. just think of the Edinburgh tram project.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35804	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Can a contract stipulate companies must be based locally/Scotland/UK to get work? Therefore we are supporting as much "local" employment as possible. Money would hopefully be spent locally to, to assist the economy.	Roads & Transportation - external providers	4. The council is already doing this.	Council procurement is carried out in line with procurement legislation
35805	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Please do not use cheap as chips contractors who are cheap for one reason they cut corners skimping on requirements	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35806	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cost effective contractors should be used sparingly.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35807	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads seem to be already almost fully transferred out using private contractors all the time. Does seem to be too much emphasis on winter maintenance which now seems to last almost all year round now. Summer work improvements programmes appear to be non-existent in-house.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35808	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Contractors - a licence for them to print money - already seen with TT testing to name one.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35809	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	External contractors are not cost effective - poorer service for cost as they make profit for shareholders.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35810	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The astronomical costs charged by Roads Operations to undertake works currently needs to be looked into, works could be undertaken through the TRIPS contract, using private companies at a fraction of the cost.	Roads & Transportation - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of any of the proposals we promote value for money will be considered.
35811	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This would cost you more in the long run using contractors instead of using your own workers	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35812	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	using contractors in the past for other aspects of council work has not proved to be best value long term.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35813	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So be it. Sometimes the festive lights are rubbish anyway.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35814	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The issue with using contractors is assessing the true cost rather than just the tender return quote. If additional capital investment works are outsourced then a key part of issuing works should be to revisit contracts where it has ended up costing more than doing it in-house and ensuring learning is applied.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35815	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cost effective and private contractors? You are having a laugh surely.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35816	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree. This creates opportunities for local businesses	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35817	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This links to the idea of using appropriately qualified staff BUT there is a need to ensure that contracts are reviewed to ensure what has been stated will happen does take place.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35818	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Less contractors as they cost more! Disagree with this proposal.	Roads & Transportation - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35819	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree, an increase in external contractors represents a significant potential saving while also freeing up staff to undertake more essential works.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35820	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I think all major capital works should be carried out by external contractor cutting down the time taken to do the works, the guarantee that if there are any defects they are rectified at contractors cost, ability to get works done for the lowest price available. This would free up internal manual labour to focus on emergency works and routine works such as pothole patching, gully emptying, drainage works, etc.	Roads & Transportation - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35821	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The cost of direct delivery exceeds the cost of outsourcing and the quality standards are not necessarily better with rework also having to be paid for in addition. The roll out of this proposal should also be extended to work paid for from the revenue budget and direct delivery reduced.	Roads & Transportation - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35822	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	You need MUCH tighter control and contract negotiation with your suppliers. Example - the work in Bathgate High Street - you know its a running joke with people how long this is taking right? How many other projects like this. Your project budgets are wrong - get a properly qualified project manager for these works.	Roads & Transportation - external providers	4. The council is already doing this.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35823	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More clarity and visibility is needed in the use of contractors by the council.	Roads & Transportation - external providers	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35824	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	WLC's Roads team are invaluable especially winter maintenance. Contractors better brace themselves for the WL public!!	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35825	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Need to ensure our roads don't get any worse. Also using contractors is fine if managed properly but too many poor jobs done then needing further Council funding to remediate some independent guarantee is needed for these works.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35826	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If it requires contractors to be used in any area of council business, it must not be at the detriment of council staff in being made compulsory redundant.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35827	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Contractors tend to deliver cheaper services by cutting back on quality, necessitating the work to be repeated more frequently.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Contractors managed by the council have to meet high standards in terms of specification and workmanship.
35828	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Outsource all roads and transportation services to an operating company in the same way transport Scotland does	Roads & Transportation - external providers	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Although some services may be contracted out based on supporting business cases, it is unlikely that all services will be. The council will wish to hold some expertise and delivery in-house.
35829	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If communities want some festive lights let them do it themselves or pay the council to do it.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35830	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Issuing contracts to external contractors can be competitive however you require to ensure that contracts are up to standard and those monitoring them are competent. There have been examples significant errors in contract management on high profile jobs recently (reported in the press) and this is a direct result of losing skilled Engineers and trying to fill these roles with lower paid technical staff, i.e. rationalisation. There is a significant skills gap across the sector and WL is no different to any other Council.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	West Lothian still has a good level of experienced and skilled staff working on its roads.
35831	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Contractors are ok if they actually provide savings.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35832	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	You cannot be all things to all men so contracting out seems sensible	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35833	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Competitive procurement should be considered through the provision of all works to ensure that best value is achieved.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35834	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As before consultants and contractors can be more cost effective	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35835	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	communication between councils and other services eg gas water electricity companies so that planning is better to stop roads being dug up unnecessarily a few weeks after it was just sorted.... eg in pumpherston the same bit of road has been getting dug up and filled in with temporary lights going on for the last 6-9 months,,,,, the temporary lights disappear for a few days and low and behold a week or fortnight later they are back.... duplication and a waste of money	Roads & Transportation - external providers	4. The council is already doing this.	The council works hard to coordinate road works undertaken by public utility companies but it is often difficult to prevent them undertaking works as they have statutory powers.
35836	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More detail required. TUS oppose outsourcing of work.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35837	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Contractors are very seldom cost effective. Have you not learned from P.F.I.?	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35839	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If using contractors gets the job done quicker then use them	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35840	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I do not see how using contractors would save on this? The public appreciates the nice lights etc over the festive period after paying council tax all year.	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35841	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It does seem sensible to use contractors on occasion rather than purchase and maintain expensive equipment which is rarely used. Any reduction to gritting etc is bound to be very unpopular.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35842	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Use of contractors can be very cost effective providing specifications and communication links are clear and they are managed efficiently.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35843	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	the men normally put up the Christmas lights in a west lothian council (west lothian council logo on the van) cherry picker. why do you need to employ outside companies to do this?	Roads & Transportation - external providers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35844	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Robust management of contractors is required to ensure competitive pricing.	Roads & Transportation - external providers	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35845	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Communities should fund their own festive lighting.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35846	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The move away from providing festive lighting brings the council into line with other local authorities.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35847	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with some areas- festive lighting helps keep up moral when its cold and dark	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35848	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree on festive lighting. Not exciting enough to merit the costs. Stick to just one lovely tree.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35849	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	agree. community councils fund this	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35850	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No need for Councils to provide festive lighting. You should focus on activities such as road gritting to maximise safe travel.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35851	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	How much does festive lighting cost? Would be a shame to see it go.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Festive lighting costs in the region of £100,000 per year.

35852	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I think to remove festive lighting services it is extremely petty and in the scheme of things a small poultry amount of money. Given that it is not legal for any person or group other than the local authority to mount any item on a public street lighting column or sign, this proposed move is unreasonable. It is also something of a paradox that Broxburn has just spend over Â£13,000 from a fund controlled by West Lothian Council to purchase a complete new set of energy efficient Christmas Street Lighting. Again it would effect the well-being of the town centre if there was no Christmas Lighting during the holiday season. I would agree however that some Christmas Tree provision and it's associated lighting could be reviewed as some areas already provide this as a Community Group (again Broxburn is an example), some council provided trees, in my opinion, are not required.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35853	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Happy for no festive lighting to be erected as this is an unnecessary use of resources and energy.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35854	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Christmas lighting? - there hasn't been much here in Linlithgow for the past 3 years!! Don't tell me - those that can afford it will have to pay for it!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35855	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Everyone enjoys festive lighting. Bad idea	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35856	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bah humbug. Why not just ban Christmas altogether.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35857	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So let's all cancel Christmas now! Who then pays for the lights? Community groups. Oh wait they've no money now as no grants from WLC!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Festive lighting costs the Council in the region of £100,000 per year.
35858	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The festive lighting in Linlithgow is pretty pathetic anyway!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35859	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Not against a reduction in provision of festive lighting. It often seems overdone.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35860	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The festive lighting helps to lift morale but I can manage without.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35861	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Back to the dark days!! Are things that bad that you can't erect some Christmas lights?	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

35866	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting can be paid for through fundraising in local communities.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35867	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It will be a shame not to have festive lights but I do feel that this is an area we should be prepared to cut back on.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35868	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Again we need to prioritise as to what is necessary, things like festive lighting, although lovely is not necessary. As long as it applies across the board.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35869	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	During dark winter months, the sight of Christmas lights brings much joy and should be retained.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35870	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Losing festive lighting is a sad reflection of the times we are living in but it is better losing that than someone losing their job in order to have money to provide pretty lights.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35871	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Have you killed Christmas?	Roads & Transportation - festive lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35872	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lights should continue.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35873	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Sad that things like christmas lighting may be removed.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35874	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting, Christmas trees etc. should be withdrawn.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35875	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council has already removed any Christmas trees etc for staff in offices - I have no issues with festive decorations and especially gala decorations being reduced or removed. Local community groups could then pick up the costs/works for these should they desire and if they are carried out by the council on their behalf, please bill them prior to the work rather than after.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35876	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Ba humbug. Festive lighting improves our environment and for some people this is their only indication that it's Christmas. Certainly get local businesses to support this however, do not completely take this away.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35877	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stopping festive lighting is gesture politics and wont save much money at all. I dont agree with that.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Festive lighting costs the Council in the region of £100,000 per year.
35878	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	When you talk of community spirit and children's education not to provide Xmas lights would be a very sad decision.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35879	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If stopping festive lighting should extend this to gala day flags, or make a charge for the service.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35880	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting can be funded by the local communities.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

35881	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Strongly disagree with the proposed removal of festive lighting. Does the council want West Lothian to be a dull, miserable place? What about quality of life?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35882	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agreed re festive lighting. Festive decorations could be sponsored by businesses particularly in Livingston where the national companies could do more	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35883	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Example of festive lighting is emotive and this could be provided through partnership working. Just in to get a reaction!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35884	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting and gala day flags should not be provided free of charge by the council.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35885	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Lights nice but again this is something local communities should be providing or local businesses/ BIDS groups. Summer bedding/ hanging baskets were removed and communities have taken this on.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35886	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Re festive lighting - does this mean that there will be no festive lighting in council buildings in WLC? Bold statements require bold action - do not assume that communities, through volunteer or sponsored monies, will fill any of WLC gaps. If any of the above is implemented it requires to be all inclusive and WLC wide.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35887	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Also the feeling of community spirit reduced with lack of festive lighting.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35888	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Although cutting festive lighting seems petty it is not a priority. Perhaps shop owners could be persuaded to help to share the cost by supplying the hardware (this could be financed by public collections in shops and bars) and the council could still erect the lighting safely.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35889	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with cutting festive lighting in the current climate.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35890	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If festive lighting means the difference between employment and unemployment then this facility must be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35891	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If festive lighting means the difference between employment and unemployment then this facility must be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35892	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Perhaps the council could ask local businesses, especially on Almondvale Boulevard to provide financial support for festive lighting.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35893	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Very sad about Xmas lights.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35894	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More information required however the removal of festive lights is acceptable to protect frontline service delivery and retention of staff.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35895	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Could the street lights be switched off part of the time overnight. Many councils do this.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35896	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I understand that there is already a cost for provision of festive lighting. Could charges not be increased if this was acceptable to the local communities? This could generate additional although limited income.	Roads & Transportation - festive lighting	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Communities are not charged for festive lighting provided directly by the Council. The council spends in the region of £100,000 / year on festive lighting.
35897	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council provided festive lights are pathetic anyway.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35898	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If festive lighting means the difference between employment and unemployment then this facility must be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35899	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Christmas lighting can be cut as can provision of Gala day flags. Individual organisations will have to pay for their own. This will be detrimental to poorer areas and unpopular with elected members but we are living in tough times.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35900	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Some festive lighting even if it is reduce should be kept or the whole of west Lothian will become depressed.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35901	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agreeing with the festive lighting, this should be community run and organised by the individual town.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35902	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree - Christmas lights seem a luxury in the context of the cuts you are making.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35903	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes Christmas lighting should be funded by each community	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35904	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes. Cut festive lighting. Dated and wasteful.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35905	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree festive lighting should be left to town centre Traders / BID or Community Groups	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35906	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is not essential, whilst it is nice to look at and cheer up the winter months it could be done without to channel the money to other more essential things.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35907	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Wot! No Christmas? A bit stingy perhaps?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35908	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree WLC should not be funding Xmas lights or subsidising Gala days. Communities can fund themselves if they want them.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35909	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Whilst festive lighting is not a priority it is nice to see and promotes happiness within the area, even if it could be turned off during the night ie. 10pm - 4pm. Again making West Lothian a less sought after area will make people think about moving to the area. Could street lights be switched off at certain times through the night, or every 2nd lamppost so that some light is still available?	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35910	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Taking away festive lights is a retrograde step. They help raise the spirits of the community.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

35930	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is an unnecessary cost for councils	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35931	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I do not want to see the council cut back on festive lighting - this kind of thing is what gives communities pride and helps them work.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35932	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If communities want Christmas lights let them pay for them.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35933	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting should be provided by the council. This is the country's major holiday and should be supported by the local council. If it is cheaper contractors should be used. They should be held to timetables for work to be completed.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of festive lighting will be reviewed.
35934	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Who will pay for festive lighting? Stop putting it up so early and leaving it up till February that will save money!	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35935	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	"No more festive lighting" ... brilliant idea!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35936	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If people want to decorate their street then that's up to them but to have lighting up in select areas is crazy and costly, especially when you find these light still on mid-January.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35937	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The lights were looking shabby anyway. Doesn't mean Christmas has to be killed though.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35938	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I see no reason for the council to provide festive lighting. And better to provide outside contractors than in-house staff where it is cost effective.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35939	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree that no festive lighting should be paid by council as now in the diversity world we live in there are lots of people who do not believe in this time of year Yes I think it look nice at night with sparkling lights etc but some areas still have them up at Easter wether this is due to cost of taking them down I don't know Also a saving would be not putting street lights on for hours on end in the summer through day	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35940	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Rather than putting up/ taking down festive lighting ever year - why not leave it up all year round and have an official festive switch on/switch off	Roads & Transportation - festive lighting	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Lighting needs to be taken down to be tested annually and being left in the sun for a prolonged will damage the feature.
35941	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Keep xmas lights but ask for support from town/village community groups	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Christmas lighting requires to be tested, erected and removed by qualified electricians. It is unlikely that community groups could help the council with this activity.

35942	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting may be unnecessary however promotes a good feeling of community spirit. This community spirit will be needed to fill in the voluntary groups ect that the council are no longer funding.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35943	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Christmas is cancelled. Not a good idea	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35944	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Of course, the poorer communities would be worse hit than the richer and it is not desirable that things like festive lighting would be unfairly spread.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35945	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	We should be doing this as a matter of course. Also the bunting and road closures for gala days should be paid for as well	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35946	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As long as winter maintenance services are retained there are some services which can be dispensed with and, reluctantly, I think that festive lighting is one of these.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35947	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	would miss christmas lights around centre area	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35948	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It's hard to comment on Â£2.5m when the only specific is Christmas lights! Regarding the lights, communities should be empowered to do this for themselves - gala day committees / community councils / members disbursement funds etc. Lights on almondvale boulevard should be put up by the shopping centre who must already pay for the internal lights to go up?	Roads & Transportation - festive lighting	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	This is not possible due to health and safety aspects of connecting to electricity supplies and ensuring safe erection of features.
35949	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	would be sad to see the christmas lights go, but i can understand why.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35950	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As with village halls could the festive lighting be handed to the community to deal with and pay for?	Roads & Transportation - festive lighting	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	This is not possible due to health and safety aspects of connecting to electricity supplies and ensuring safe erection of features.
35951	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is a waste of money and should not be something the council funds, whereas the proper gritting of all routes within the county should be a top priority rather than main routes around Livingston and Bathgate	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35952	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bring in solar xmas lights or glow in the dark lights thus saving on using external contractors and still delivering the festive cheer. Introduce a Council Firework display for Newyear and a set ticket price for people to buy tickets to see it in a stadium like Livingston Football Club.	Roads & Transportation - festive lighting	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Solar festive lights could be used but there would be a significant capital cost in buying new lighting features. Features would still require to be erected and removed which is the main recurring cost.
35953	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bahh Humbug but appreciate the need to cut costs in this area... Xmas lights nice to have but not essential!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35954	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting not so much. This is something that could be sponsored perhaps?	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35955	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	2. Manage the workforce more effectively, one man digging and five men watching can not be cost effective.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35956	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Don't cancel Christmas. Do you really want to live in an area where there is no festive cheer	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
35957	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	. Agree with no festive lights this could be perhaps sponsored by the community or local companies. Will be a sad loss but understand why this needs to go. I would lose this to save another vital part of this service.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35958	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Christmas lights are on for too long and often left too long afterwards	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The process of erection and removal of festive lighting is protected. This is general because this activity out with busy traffic periods.
35959	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	That's a shame that you'll not be having the festive lighting bah humbug by the council	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35960	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	feel free to do away with festive lighting	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35961	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes if people want lights in their streets then they need to fundraiser to do it I would rather you cut this than vital services	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35962	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Don't agree. People want more than the statutory provision. Festive lighting brings out the community. Its what the council is recognised for. Bringing a bit of colour to the community and bringing in customer to the towns. If you are removing festive lighting you must remove gala flags. Equally as costly.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35963	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Its would be such a disappointment to see the support of such activities like Christmas lighting be removed , this is times of the year when communities actually come together. there is not enough done to bring communities together, perhaps if there was more done communities would take care of there surroundings and help look after what is provided.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35964	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is laughable anyway. Be easier to keep them up and unplug, save man hours.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35965	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes, festive lighting lovely, but not priority.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35966	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I have never agreed with the council supporting festive lighting so I think this is a great idea	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35967	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree stopping festive lighting - another subsidy to private sector businesses which benefit from Council expenditure.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35968	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cut back on unnecessary overtime. A culture of weekend wiring still exists in Operational Services. Christmas lights were going up last weekend.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35969	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stop doing Christmas lights.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35970	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree that festive lighting should not be Council financed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35971	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting, gala and event bunting - never was a fiscal priority. Traders/businesses can meet costs if they need this for 'seasonal marketing'	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35972	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Putting Xmas lights up on a Sunday - what was that double time? You need MUCH tighter control and contract negotiation with your suppliers.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

35973	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Christmas lights - scrooge!!! Make all the people in the council depressed!!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35974	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Makes sense but makes for a dull and boring festive period.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35975	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is not an essential council priority and should be scrapped.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35976	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I appreciate the council needs to make savings, but it seems crazy that the council is paying for relative luxuries such as town Christmas lights and a Linlithgow Christmas tree while we are cutting back on basics such as waste collection/recycling.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35977	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree with the above. Provision of festive lighting should be ceased given the challenges the authority is facing. Local businesses could be involved in supporting the likes of festive decoration.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35978	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It would be sad for children that festive lighting would be taken away but perhaps you could do a collection type thing for houses or areas that would be affected and they could donate towards the costs?	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35979	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If the festive lighting is to be removed should the cultural parades be charged for. A lot of council time is used planning/ plotting the routes for parades.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35980	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting is more for the children of our communities and would not have thought that this should be stopped by the council. You are making savings with the new street lighting which would balance this cost.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35981	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Christmas lights cheer the town up. Perhaps some can be used. Does this include Christmas trees? May be lights or tree?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35982	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Retain Christmas lights	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35983	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Makes sense - the 'festive lighting' was never effective enough to merit whatever it costed. It always looked dated and was put up too early and left up for too long.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35984	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	In other councils festive lighting is provided by groups like the Chamber of Commerce with the assistance of the Council in the form of supplying cherrypickers to put them up. Alternatively replace lights (organically over time) with low-energy, permanently affixed lights that require no installing or storing.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35985	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council has a duty to the community beyond "statutory requirements", but again the Tory influence is strong in this one. No more festive lights. C'mon give us a break.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35986	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It's sad if we're in the position where the Council cannot fund the Christmas lights, but I understand that there are much more pressing funding concerns.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35987	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree with this, eg festive lighting, since cuts need to be made it is important to make savings appropriately. Even gala days, amount of money spent on these must cost the council a fortune.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35988	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The Community needs to have pride in its area and something as low cost as festive lighting goes a long way to providing this which has knock on effect on individuals taking care of their immediate environment and of Council assets overall. This type of service should be considered as a spend to save rather than an avoidable cost.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35990	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No need for festive lights so happy to remove them	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35991	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No festive lighting in Linlithgow. I absolutely oppose this. There is no way the town could get this done the Council have the skill, the equipment and the statutory permissions.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35992	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	A pity about Festive lighting. Still put it up but for shorter period.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35993	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting a joke it a fe wee lights	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
35994	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Local businesses could contribute towards festive lighting as they will benefit from increased customers. It is nice but not essential	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
35995	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council should only use festive lighting in main towns like Livingston, Linlithgow and Bathgate etc.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
35996	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting cut for all towns or will it be that Linlithgow will be exempt!	Roads & Transportation - festive lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35997	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads etc are already terrible and no Xmas lights is just stingy. How much does this cost?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum
35998	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Road maintenance is already at a low, and believe that some shops already pay towards festive lightening. Could perhaps look at street lightening in areas that do not need requirement through out all of the evening. Industrial estates etc.	Roads & Transportation - festive lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
35999	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The festive lighting would be a shame as this means more deprived areas would presumably be affected more.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum
36000	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I don't think cancelling Christmas is an option. Festive lighting is supposed to spread good cheer in dire, miserable times!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum
36001	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	A lot in here yet you only mention festive lights specifically. Lights in towns should be the responsibility of the community councils or paid from elected members grants!!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36002	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The Christmas lights are one of the last bastions of community spirit left. I would be loathed to lose this across the county	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum
36003	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Removal of festive lighting appears to be very mean spirited.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum
36004	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Taking away Xmas lights is just as petty as removing support for the 3rd sector- 2 operatives and a council cherry picker for a few days every year to do the lights!!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Annual costs are around £97,000 per annum

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36005	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Unsure if this is already the case but in the example for festive lighting, could a network of local businesses group together & fund this? For example, I'm aware there are local business groups in Glasgow, such as 'Friends of Partick', so could there be a similar setup for if there was a 'Friends of Bathgate'?	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Community groups taking responsibility for festive lighting could ensure they are continued.
36006	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Keep the Christmas lights! Ask communities to contribute towards the up keep of them.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Community groups contributing to festive lighting could ensure they are continued.
36007	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting !!! you could make a saving if you switched them off when they were supposed to be and not weeks later.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36008	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Council should stop providing xmas lighting and allow the private sector to organise their own if necessary. It's nice to have it but I probably wouldn't miss it.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36009	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Regarding festive lighting-it is an obvious, unnecessary expenditure but it just may be one that should be maintained for a feeling of wellbeing within the community? I don't know-maybe a survey on this one-given the cuts to be made?	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36010	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There will be no community spirit at xmas	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36011	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Why not put Christmas lights on for a shorter amount of time from 1 December instead of October onwards. Living under this level of austerity I think we will need a bit of a cheer up!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The main cost of festive lighting is the cost and maintenance of the features and the erection and dismantling of them. The electricity costs are fairly low.
36012	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree. I am sure there will be some that want the festive lighting so could this be handed to some sort of local group. I agree that the council should stop the lighting though.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36013	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If it is a choice between having Christmas lights in the street and a salt bucket for the pavements in winter - I would be happy to forego the Christmas lights.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36014	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I'm sure the festive lighting could be reduced to a Christmas tree surely.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36015	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The loss of festive lighting is just another small but telling example of how the council is rapidly disengaging from the community it purports to serve. If the Council is genuinely concerned about image then this is one cut it should avoid as the opposition is likely to be wholly disproportionate to the actual amount of money that can be saved. Similarly, winter road maintenance is a very provocative subject and any perceived reduction in service will be poorly received.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36016	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	as for cutting festive lighting that's the only thing that gives a bit of life in to some of the smaller villages and towns over the festive period	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36017	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	agree sad about festive lights though	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36018	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I think festive lighting is a waste of council time and money and could be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36019	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree that festive lighting should be reduced or removed, however if being provided by an outside contractor in future all towns currently using festive lighting should benefit rather than only certain towns. The number of lights in Livingston should be reduced in order to cut costs.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36020	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As our town's festive lighting is already on (in October!) this seems like a really obvious saving!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36021	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It would certainly cost less if the festive lights were not put up and taken down on a Sunday when staff will no doubt be paid time and a half.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36022	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I feel the festive lights along the high street really brighten it up and make it feel more like Christmas. It would be a shame not to have them anymore as its now a tradition.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36023	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Christmas lights??	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36024	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	OK, fair enough. They always seem to be on too long anyways.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36025	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What are thing coming to when our council can no longer put up Christmas lights!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36026	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bah humbug! Maybe ensure the Civic Centre Christmas tree and decorations are not purchased either.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36027	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Definitely don't think that festive lighting should have been funded by the council! Not a priority at all.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36028	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree with this The local chamber of commerce should be responsible for Christmas lights - they are the ones who benefit financially from them	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36029	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I would still have festive lighting if possible.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36030	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	All festive lighting provision should be removed, community councils raise funds for gala days etc and can include this in their manifesto.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36031	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There should only be festive lights in our large towns such as Linlithgow. Bathgate, Livingston, Armadale and Broxburn	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36032	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There is no need for festive lighting. It is a complete waste of money. The money should be put into bringing the roads up to scratch which are in an extremely poor state of repair.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36033	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree. Communities need to work a bit harder to raise there own funding if they want festive lighting etc. It should not be a burden put upon council resources.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36034	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Reasonable that local retail interests should cover costs of festive lighting.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36035	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Ask businesses to sponsor Christmas lights and put an advert up saying who is sponsoring	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36036	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Sponcership for festive light etc... people could do more in the winter rather than waiting on the council like it was years ago, do your own bit.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36037	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Maybe this isn't relevant here, but I always wonder why town's christmas lights on all night. Could you not have them on a separate system to the street lights and they shut off for example at 1am?	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	The festive lighting is powered off the same system as our street lights. This means that they have to remain on overnight.
36038	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Ok - so earlier I mentioned reducing operating hours of christmas lights. But it looks like you are proposing not putting up any lights? No!!! It wouldn't be christmas without street lights!! I guess you are looking for community fundraising, but you've got to keep in mind that I pay Â£10 a day for council services. Yes Â£10 A DAY!! I understand there needs to be a tighter rein on spending, but christmas lights is one step too far.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36039	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I think community groups could join together to raise funds for festive lights. This I feel would bring community spirit. Regards to external contractors I feel that it would be best to use council staff and equipment as it would be more cost effective	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36040	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cuts in festive lighting may have knock on effects such as a reduction in local town centre shopping which needs to be considered.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36041	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Leave the lights up and turn them on for a few weeks each year. Simple and classy should not cost too much. Helps community spirit.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Unfortunately keeping festive lighting up all year round results in the features getting damaged due to the weather and does not look great during the summer months.
36042	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	festive lighting must remain - part of the community	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36043	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting significantly increases local spending and will adversely impact on local businesses if removed	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36044	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Facilities such as festive lighting could be considered as charged services where community groups consider these to be worth pursuing.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36045	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Health and safety issues? No one else can do Without festive lighting will shoppers go elsewhere? Sure some cuts can be made but be sensible about it	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36046	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I would still like to see festive lighting. Since the SNP has been at the helm (making this point as you are SNP led council) I have seen my living standards decrease and I am paying much more in council and income tax than ever before. I do wonder what exactly I am getting for my money - when many of us are being asked to pay more and are paying more, why so many cuts, and where is the money going? I don't support the cuts to festive lighting for this reason. The taxpayer on an average wage does not seem to be getting value for money.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36047	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I don't have an issue with the festive lighting not being provided by the council. While it's nice, it's not essential!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36048	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Festive Lighting!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36049	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Surely you can give us a little festive cheer!!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36050	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What happened to community spirit?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36051	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council, should work with volunteers to provide some of these services, such as Christmas lights.	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36052	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting in some areas has been community funded for a number of years now and has been successful.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36053	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Don't wish to adopt a 'bah humbug' attitude but Christmas lights could be abolished and let local businesses sponsor the lights instead. The Xmas lights in West Lothian are not particularly spectacular!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36054	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Re festive lighting - surely that as benefits local traders perhaps they would be willing to contribute to them .	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36055	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bah humbug, no festive lighting. West Lothian sounds like it is going to be a cheery place to live with all the cuts to services.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36056	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I thought High ST BIDS paid for festive lighting in Linlithgow??? Again large councils would have greater purchasing power	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36057	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	A sad state of affairs when we can't afford to celebrate Christmas with tree and street festive lighting ?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36058	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stop festive lighting, not a required service.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36059	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Will be sorry to see no festive lighting but agree it is not a vital service.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36060	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting should be scrapped, local communities can fundraise to cover this if it is felt to be a priority for them, just as Linlithgow did with Burgh Beautiful.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36061	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If festive lightning means the difference between employment and unemployment then this facility must be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36062	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If festive lightning means the difference between employment and unemployment then this facility must be axed.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36063	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	aGREE - MORE USE OF LOCAL GROUPS/ORGANISATIONS	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36064	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	1. Agree with savings for Xmas Lights - surely if as community residents if we wish lights we can work together with our community councils or do a Crowd Funding exercise.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36065	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The maintenance at present is poor, when you look around at paths/pot holes etc. Not a good proposal will put the Council in a bad light	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian roads are currently ranked as some of the best in Scotland
36066	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agreed. I would rather have street lights than Christmas lights - I can look at my own tree thanks.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36067	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	given that livingston has a major shopping hub removal of festive lighting may see the council to be scrooge and not embracing the christmas spirit! could it be that the lighting is put up but for a shorter period (instead of lighting still be seen in January)	Roads & Transportation - festive lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	The main cost of festive lighting is the cost and maintenance of the features and the erection and dismantling of them. The electricity costs are fairly low.
36068	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Statutory services must be given priority over areas such as festive lifting which are nice but not essential	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36069	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree - it sends the right message to cut aesthetics such as festive lighting first, sad as it will be to see them go!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36070	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As above. Perhaps festive lights might be a step too far. Could you imagine Livingston with no lights, I don't think so. However I don't think you can withdraw this from other villages that's simply unfair. Perhaps have lights provided by commercial sponsors such as planting arrangements throughout the council area.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36071	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I have no objection to the festive lighting proposal	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36072	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Community funding for festive lighting would seem fair enough in the current climate!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36073	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	festive lighting is not needed	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36074	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Can live without Xmas lights . Shame for the kids .Mobilise the pensioners to raise the funds for this and other similar council activities . If the people value these services the pensioners will have no issue with raising the funding and what's more make them feel valued.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36075	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Humbug!	Roads & Transportation - festive lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36076	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Needs must. Shame about Christmas lights though.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36077	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No need for festive lighting or any other form of celebration lights unless affordable maybe sponsored in some way. No need for community Christmas Trees either unless sponsored.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36078	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The Council may look to linking with Communities to provide the lighting at Christmas in local towns and villages.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36079	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting should not be provided by the council in this day and age and also looks somewhat dated.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36080	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	NO FESTIVE LIGHTING - WHAT IS THE WORLD COMING TO!!! THE DEPRIVATION	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36081	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Christmas lights?? Bah humbug!!	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36082	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree the council has far more important priorities than Christmas decorations!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36083	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cutting festive lighting could impact upon businesses in the towns and tourism and therefore would need careful consideration (e.g., the lights are a big part of the advent fayre activities in Linlithgow).	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36084	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Given the choice between Christmas lights and social work provision can I must say I'd much rather have the latter, whether the council fits the lights or pays a contractor they're still a complete waste of money when there is no money.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36085	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive' lighting in the small villages was rather sad and depressing anyway so no great loss!	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36086	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	No Christmas lights :(I understand this is not a priority and given the current economic climate this does seem something that could be cut.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36087	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes, cut down on unnecessary christmas decorations - a complete waste of money.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36088	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Good - festive lighting is NOT green. its a waste of money and staff time.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36089	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	not happy about festive lighting as I still think there is far too much public money spent on expenses and needless trips for employees	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36090	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Xmas lighting especially at the shopping centre should be the provision for the centre owners.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36091	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	It is acceptable to cut Christmas lighting.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36092	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	We live in a diverse area, should we celebrate other religious days?	Roads & Transportation - festive lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36093	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting removal- Good as there's enough energy wasted on houses being individually lit up. Take them down and sell them on.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36094	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	For all the festive lighting you get outside Livingston, it is hardly worth the bother. It is usually still in place at Easter.	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36095	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	this is an absolute disgrace!!!!!!!!!!!!!! no Christmas lights!!!!!!!!!!!!!! the kids love this, when the trees and lights go up. really scraping the bottom of the barrel with this. will the council be ensuring that public money will not be used to celebrate other festivals or is it just christian festivals that the council wont be supporting?	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36096	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	if people want the lights they can raise money	Roads & Transportation - festive lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36097	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council is highly praised for the festive lights and trees by the community.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36098	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	certain elements e.g. festive lighting makes for improved wellbeing and has a value outside of the pure cost.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36099	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lighting helps with local communities and events that may take place within villages. Some of the lights within the council are very dated compared to others e.g. North Lanarkshire and perhaps by investing in energy saving festive lights will help reduce costs and keep the festive lights for small villages.	Roads & Transportation - festive lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36100	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yeah - but and something be done in partnership with say Virgin who could lay cable TV through the same lines as the lampposts use?	Roads & Transportation (general)	4. The council is already doing this.	The council works closely with all utility providers to ensure a joined up approach to service delivery and limited disruption for service users.
36101	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree. In the private company I work for, we employees have a huge responsibility for our work environment. It cannot continue always being "the Council's job!" We need to retrain residents and employees alike. E.g. Clear your own street pavements of snow! You might actually get to know your neighbours better.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36102	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So outlying roads not on a bus service route will not be treated during winter weather!	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas. Bus routes form part of our winter policy hierarchy.
36103	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So does this mean the pavements won't be kept clear of ice and snow- how many broken hips is that going to cause for the NHS.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes for both roads and footways will be treated.
36104	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I have already noticed that in my own street, estate and the wider Linlithgow town, the maintenance of keeping road drains clear and functioning is not being kept up. This is not acceptable as could induce localised flooding to some properties. I have reported our drain outside our house with no effect to getting it cleaned, this is my first observation of the effect West Lothian Council cost cutting is having on the local communities roads. Although cost savings need to be implemented some basic functionality is not being maintained, which should be addressed.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36105	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Again where do the £2.5 million savings come from? Let's see the detail. So basically you are going to reduce services to the minimum requirement in statute? What is that?	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36106	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The roads must be treated during periods of bad weather - including pavements.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes for both roads and footways will be treated.
36107	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Please fully privatise the roads department it will save millions	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36108	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Once again the roads department would be far more efficient if it was privatised	Roads & Transportation (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted
36109	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	If we knew what the statutory requirements were we would know how to comment on these. I am sure the Accident Claims companies will be rubbing their hands at any reduction in services.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36110	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance needed to be improved, especially in areas of Livingston such as Murieston!	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas. Self help, self gritting, is an important aspect of the council's winter policy.
36111	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Will winter maintenance for Roads, etc... be reviewed and look at the provision being delivered in a different way.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	A review of winter service provision will be undertaken to see where efficiencies can be made whilst maintaining statutory provision.

36112	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Everyone relies on roads and ours are pretty good compared to other councils. Investment should be maintained to keep the standard up.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36113	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	tell me why the councils civic centre has to waste money by salting footpaths on warm days back in october i watched a man drive a mini gritter it was 15 degrees c that day and on the 12 of november at 5.15pm i watched a man driving all the way from the front of the civic center to the football stadium the path was covered in salt and did not need any more salted needless to say that no other foot path in or around livingston will get salted until some one complains i think its time the council gets in a private independent time and motion study company and hopefully save more money	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The provision of gritting around the Civic Centre is undertaken as part of the buildings health and safety plan.
36114	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter management is a priority to ensure safety on the roads, not just the main roads we need to be able to get to these key routes	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas. Self help, self gritting, is an important aspect of the council's winter policy.
36115	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Why have you been wasting so much of our money up to this point?	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36116	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As long as this is not a false economy. Failing to repair lights could result in more accidents, break ins, etc. Poorly maintained roads resulting in an increase in claims for vehicle damage through potholes etc. Winter coverage must continue to key routes including schools and hospitals. Staff should not be penalised if unable to get to work due to their employers reducing winter upkeep of roads.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36117	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	You need to ensure that roads/ pavements in West Lothian are safe for residents at all times of year. There should therefore be no reduction in service delivery for winter maintenance.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36118	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Would need to see more detail on this. Concerned about a reduction in roads maintenance or winter maintenance as there are a lot of rural roads in West Lothian.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36119	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Keeping people safe in icy conditions is vital.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas. Self help, self gritting, is an important aspect of the council's winter policy.
36120	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with this along as roads kept up to good standards	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36121	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Road surfacing work should continue. Potholes can be hazardous to cyclists. In the interests of safety, winterisation measures should continue on well used roads in addition to the statutory minimum.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36122	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	We get pretty minimal winter maintenance anyway. Cut down and sell most of the pedestrian guard rail in Livingston as scrap. It is not required by statute, encourages excessive vehicle speeds and discourages cycling. Most local authorities in the IM are getting rid of railings wherever they can. There is an accepted risk assessment methodology for reducing and removing guardrail. Cost of replacing bent bits in Livingston alone will be significant stop replacing white road markings on residential streets. Again these are not statutory and encourage lazy thinking by drivers. Ref research under way in London on major roads with no centre markings.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36123	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Workers productivity needs to be reviewed - actual time on site and work undertaken and how efficient this is.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

36124	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	support more spending on road resurfacing, focusing on doing a proper job rather than patching up small areas	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36125	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This is a massive area that needs urgent review.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36126	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Services could be delivered without paying the ridiculous amounts on standby payments. Employees are employed to provide these services and should do as part of their roles not just because they are earning an excessive amount extra! Again there needs to be more detail on the actual impact.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36127	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	During winter, I often see path gritters out spreading grit unnecessarily. I think this could be tightened so that these vehicles are only used when the weather is really bad.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36128	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The first casualty of a cut is the maintenance programme. Thing ca 'do another year' you are told, but then the backlog gets immense. See the roads.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36129	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Not my area of expertise but safety must be paramount	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36130	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads must be repaired or all your savings will go on compensation to people who's vehicles / tyres have been damaged. Roads must be kept clear of snow and ice.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36131	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The roads are beginning to deteriorate with a lack of investment and numerous shoddy utilities digging up constantly and not reinstating well please stop investing in bumps	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36132	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Very sad that safety on the roads in winter may be reduced. This could affect the safety of staff and users getting to work and lengthen journey times.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised.
36133	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As a resident of West Lothian I would disagree with this proposal. Winter Maintenance is essential to everyone living and working in West Lothian. It is already insufficient in many areas with Grit Bins not being filled and inroads not being cleared for private schemes. Council schemes always appear to be prioritised before private schemes although these areas are generating more income for the council.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas. Self help, self gritting, is an important aspect of the council's winter policy.
36134	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I have seen several roads being repaired and then having to be redone. make sure they are fixed first time. this reduces man hours and costs.	Roads & Transportation (general)	4. The council is already doing this.	We do try to minimise return visits to works.
36135	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads in WL are well looked after and it will be a shame to see standards fall.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36136	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Very much needed. For example , this time of year how often do we see road gritters out spreading on bone-dry roads and pavements , often at times which would clearly involve overtime payments .	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36137	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	See earlier comment regarding unnecessary gritting of roads and pavements which are bone-dry , or doing it just before a forecast of heavy rainfall.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36138	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This section is titled Roads & Transportation but there is not much mention of either apart from the reference to winter maintenance. I would like to know more about what may need to change, particularly as I see activity such as pavement parking that leads to a need for Council spend to repair damage. West Lothian is highly accessible by foot and cycle as many of the settlements are close together but these options, which support budget savings in other ways through improving health, etc. are often difficult to access as roads between settlements feel hostile. I would like to see the Council use some of the remaining roads and transportation budget to match fund with Transport Scotland, Sustrans and others to deliver high quality, direct and safe active travel infrastructure.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The council currently maximises partnership funding for cycling, walking, safer street and active travel projects.
36139	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Under item 1g Workforce Arrangements this needs to be looked into in all areas of the Council. For example Operational Services have full time supervision of winter gritting operations by a number of staff who are required to be stationed within the roads depot. When weather forecasts are showing no chance of freezing conditions staff are still fully manning the roads depot. Staff allocated to this duty should be doing some useful work within the depot during times when gritting is not needed or should not be within the depot at all.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36140	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Again very vague statement above not really focusing on and stating what is really intended and what areas savings are being proposed! Comments on winter maintenance and manning 24 hours the road depot have already been stated previously. This needs to be reviewed and better use made of the staff when conditions are such that gritting is not necessary.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36141	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The cost of funding galas and marches within West Lothian is considerable and this should also be reviewed and appropriate charges made particularly for marches.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36142	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Funding for maintenance of our existing infrastructure should be maintained or increased rather than cut due to the deterioration of these assets. If we have a road network that is in a poor condition this will not encourage business growth which is one of the Council aims. We need to keep these assets in a good condition for the safety of users and the general public.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36143	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Often a road is dug up more than once a year, if this was better co-ordinated costs could be saved.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36144	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with this as long as statutory requirements are met and information is shared and clear	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36145	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Supportive in principle although based on limited information and need for service consultation, and in particular instances such as cessation of erection/dismantle of festive lighting wider dialogue with the relevant communities to be impacted.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36146	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Footpath gritting could be reduced or cut. Road gritting and snow clearing needs to be maintained at current standards.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36147	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Roads & Transportation (general)	4. The council is already doing this.	EIAs will be undertaken for each change as required.
36148	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Happy Christmas to you too. Winter maintenance is IMPORTANT. Pray for a mild winter.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36149	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Having viewed your delivery of road closures recently in my area. Quite frankly the poor management involved is mind boggling. Council need to look at the management of projects Are done on time and to cost.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36150	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Only if it means quality and effectiveness.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36151	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Need to ensure that the quality of the road surface is maintained.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36152	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36153	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Street lights should be turned off in the middle of the night. No street lights on roads with no paths.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36154	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	All no 7 section will result in poorer services for everyone. The area has many heavy safety aspects not just statutory requirements. Hope you have a strong legal team.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Uncertain what this is referring to in the consultation.
36155	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The resurfacing of the Bathgate Precinct has been costly to local businesses and should have finished much quicker and the contractor should have to pay a fine.	Roads & Transportation (general)	4. The council is already doing this.	Resurfacing in town centre locations does take time as accesses to properties require to be maintained and this adds to the duration of works. Ligated damages (or fines) are applied to contractors who do not deliver on programme.
36156	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Recent years have seen a proliferation of unnecessary road traffic measures e.g. installing traffic lights at roundabouts and reconfiguring traffic light procedures at junctions - all of which have increased pollution in the atmosphere contrary to nationwide regulations which require minimisation of cars sitting with engines idling! Wasteful/harmful projects as these should be stopped.	Roads & Transportation (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
36157	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More care need ordering up winter gritting - dry roads were gritted tonight 12/11/17 why? The 30,000 tonnes of salt will soon get used up at this rate.	Roads & Transportation (general)	4. The council is already doing this.	Winter gritting schedules are set using up to date weather information. Roads are only gritted when road temperatures are predicted to fall below set parameters.
36158	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	New developments happening but unsustainable in term of expected maintenance required by WLC. roads , drainage flood prevention, signage , etc needs to be better funded by the developer / WLC depending on who it is developing.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36159	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Bring the maintenance of traffic signals back in house,	Roads & Transportation (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Roads & Transportation do not have adequate resource or expertise to provide a 24/7/365 traffic signal maintenance provision.
36160	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This is a starting point. Why not look at traffic lights that can be turned off after a certain time! Issue officially point to those at the morrison roundabout, Livingston football club and the hospital. Turning these off on a daily basis past say, 7pm would achieve savings. These are only 3 areas I can point too. Across west Lothian there must be dozens of sites where this could be implemented.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Traffic signals could be switched off at some locations off peak but the actual savings would be very small.
36161	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Tolls on all roads	Roads & Transportation (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
36162	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Start charging companies carrying out roadworks within West Lothian. With the amount of roadworks throughout the county any budget gap would be eradicated.	Roads & Transportation (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
36163	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Do not allow road closures and sanctioning of Police costs for gala days, Orange Walks, Pride Marches, and the likes as the money spent on these events could be better used	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36164	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The Council should employ a traffic warden, especially in Linlithgow. The money generated will ensure that the job is funded and there may be a surplus as well.	Roads & Transportation (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted

36165	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	West Lothian council leaves public roads in a poor state of repair that should not be allowed as per your manual for roads and foot paths! An accident can happen on that road and magically the police find no evidence of this danger to the publics health and safety even when a permanent repair had been Made 8 months after I was left disabled!	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36166	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	fine people for digging up roads that have just been put down, Whitburn cross is closed again. get the community service people to do the litter picking and clearing back round the road signs.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36167	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	5. . Increase penalty fees i.e Speed cameras in key areas, especially near schools	Roads & Transportation (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Safety camera enforcement is a matter for Police Scotland and not the Council.
36168	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So long as you don't cut the amount of gritting in the winter	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36169	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Reduce waste, improve the "council worker" attitude 5 watching 1 doing Close road mending and subcontract it all	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36170	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Please consider outsourcing all road mending. Your workers provide very poor quality and have apauling working practices	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36171	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads crews are required to work winter shifts to ensure safe roads during inclement weather. When not required to grit roads can they not be employed to fill in pot holes or other jobs which are difficult to complete in normal traffic conditions. (Understandably difficult to plan for)	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36172	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Do road repairs at night quicker keeps West Lothian moving.	Roads & Transportation (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
36173	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Consideration should also be given with regard to the council paying for cultural walks and gala days involving road closures. These should not be paid for by the council.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36174	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Provide bigger grit bins and remove small grit bins.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	How we provide grit bins in the future will be reviewed as part of our winter service review.
36175	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What about looking at winter working additional pay given only when called out - not for stand by as well.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Winter working arrangements will be reviewed.
36176	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	We can not allow our roads to fall into disrepair	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to maintain our roads within available budget levels.
36177	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Changes to these services will also impact on the delivery of emergency and winter works.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Emergency and Winter working arrangements will be reviewed.
36178	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with this, but the knock on effects will be highly visible, especially at critical times such as winter emergencies.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Emergency and Winter working arrangements will be reviewed.
36179	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Any savings that can be made through a review of these services it to be welcomed.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36180	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I would agree with this proposal assuming that this would be a "straightforward" contract with contractors and not deferred payment or some variation on PFI	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36181	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance is dictated by the weather. Last few years no snow and relatively mild. You cannot predict the weather now never mind years in advance, so future cost are not calculable.	Roads & Transportation (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Weather patterns are variable and this does make expenditure difficult to calculate year on year.
36182	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The roads are a disgrace, especially side streets. This is an ongoing problem so it needs to be attended, not ignored.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian have some of the best maintained roads in Scotland.
36183	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stop gritting footpaths. There is no requirement to do so and by doing so historically WLC has built an expectation (and blame culture if someone slips). Let the public make their own mind up whether to clean their own footpath - nanny state prevails!	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response has been noted. Winter working arrangements will be reviewed.
36184	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	what about the potholes	Roads & Transportation (general)	4. The council is already doing this.	West Lothian have some of the best maintained roads in Scotland.
36185	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads Operations staff who undertake winter maintenance duties should have this written into their contracts to remove the double time with shift allowance that exists currently.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Winter working arrangements will be reviewed.
36186	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The culture of Roads Operations picking and choosing what works they want to undertake based on how difficult the works are also needs to stop.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	This will form part of service review.
36187	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads operations are not cost effective as if the works are not undertaken correctly and remedial measures are required, your budget gets charged again for undertaking the same works. Nobody is ever held accountable for this.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Review of this will form part of review of service delivery.
36188	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Will the estimated savings reduce the need for constant roadworks and the inability to get anywhere on time in West Lothian	Roads & Transportation (general)	4. 36189	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Capital works and contractors - this is already how it works so what changes are proposed?. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36190	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads and infrastructure are key in West Lothian - maintain good roads.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36191	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Lots of inefficiency in road building and back office staff by. Better performance management required which would reduce required staff.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36192	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	winter maintenance? i hope this does not include the gritting of roads. Us hardworking underpaid public sec torn workers have to get to work some how in our own vehicles as we do not have a reliable bus service	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36193	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Job cuts it sounds as like	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36194	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Perhaps looking at the amount of workmen used on road works who appear to start late and clock off early. Then get paid overtime to get the job finished (usually on a Sunday).Timing of council works could also be looked at. The same road that was recently resurfaced is now being dug up again to put in fibre cables in Whitburn. Common sense would say to do both jobs at the same time and perhaps save money on manpower and resource required to complete those two jobs.	Roads & Transportation (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The Council cannot manage the planning of utility companies works and are obliged to process utility companies requests for closures.

36195	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The costs involved in provision of this service are included in what Council Tax payments. Reducing services? Job losses? Contractors/agency staff/out sourcing - not a cost effective business model, never has been in the past, that is not going to change.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36196	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	How much is being wasted on poor road management costs - ie compensation for potholes?	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36197	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The roads in West Lothian are already a disgrace and poorly maintained. Will we have to go back to dirt tracks now?	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36198	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	While it's easier to consider officers don't have time and there's a perception savings can be made by outsourcing, the reality for many cases is we will be paying more to external contractors than it would actually cost to train and employ another officer or buy equipment (including all the associated costs). For example, the council is always going to build and repair paths. Buying the equipment and extra storage etc, training officers, and doing this ourselves would always be more efficient and economical that setting up multiple contracts each year for design and build. Bringing in house would also afford us much more control of quality and also allow us to offer our services externally to bring in revenue.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36199	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance is important.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36200	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Our towns and villages are suffering as well. The infrastructure needs looked at. Once we were proud to walk around. The cut backs to roads and NETS is unnecessary.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36201	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Details on the statutory requirements compared to what is currently provided is needed to be able to make any comments.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	We would always deliver minimum statutory requirements
36202	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Huge cuts again proposed in this area. Worry that you are contemplating making cuts in winter maintenance. Does this mean that we have to become more reliant on our neighbours to spread grit; luckily I have good neighbours who do this already but worry for those who do not.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36203	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	roads are a joke already	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36204	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Reduced winter gritting could lead to an increased skid risk for drivers.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36205	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Reduction in winter maintenance could be counter productive. 36209	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Why did we build two salt barns if there is an intention to cut winter maintenance.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	We need to ensure we have salt capacity to deal with any major weather event
36210	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter service should be reduced to the statutory minimum. Non-statutory services should be removed. Focus should be on efficient maintenance of the roads asset that we have. More use of preventative treatments such as surface dressing. More use of specialist contracting who are more efficient and better geared up for providing a quick service.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36211	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	An 'Intelligent Client' model should be considered with specialist design and contracting services outsourced. But even with this, service standards still need to be reduced and there needs to be a recognition that road condition will deteriorate, claims will increase and satisfaction will drop even further. There also needs to be a recognition that there will be significant job losses as a result.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36212	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What are the statutory requirements for winter maintenance.	Roads & Transportation (general)	4. The council is already doing this.	Roads (Scotland) Act, 1984 (section 34) places a statutory duty for roads authorities to "take such steps as it considers reasonable to prevent snow and ice endangering the safe passage of pedestrians and vehicles over public roads"
36213	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	West Lothian have always had the best roads.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36214	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	DLO have far too much overtime. Much of the time the jobs they do for our team have to be redone as they have not fulfilled them to standard. This does not represent value for money as a council tax payer or as an employee seeking services from other departments, especially if these jobs are completed on overtime.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36215	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads in private areas should still be gritted and looked after by the council!	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36216	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	We should be looking at ways to do things better at a lower cost. It is possible.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36217	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Road safety is much more important than festive lighting so by all means remove this unnecessary expense from the budget. Rather focus on fixing potholes!	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36218	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Any reduction in capital funding for roads will only initiate the start of a longer term issue.	Roads & Transportation (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
36219	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Provide only a minimum winter maintenance service. The cost of all those assets for a couple of days harsh weather is silly. If it happens it happens and the Council cannot afford all that money on the off chance.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36220	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stop wasting money on patching roads and fix them right 1st time	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36221	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cutting back on roadworks staff at weekends would be advantageous.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36222	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Keeping the roads and paths well maintained and open is an essential service to ensure that people can get to their work in order to earn the money required to pay our council taxes.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36223	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Instead of "doing up" Bathgate Steelyard couldn't this money be used better, i.e. roads and pavement repairs.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This project was promoted/funded by the Bathgate Business Improvement Districts

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36224	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There seems to be a lot of disruption to ongoing WLC road works when the men are called in to prep up for winter duties. A lot of time is wasted.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36225	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Far too many residential grit bins e.g. Bathgate has over 300 alone. At least 50% are unnecessary as we have a tractor service to cover the pavements. Grit bins should only be placed at steps, steep hills, schools, nurseries, etc. It would save money if bins were removed, no need to refill them saving money on salt and mens time and transport. You could have a salt bank at amenity centres where residents could collect if needed. All unused plant sold, all hire plant returned promptly after use. Culverts cleaned far too often. Should be checked by Flood Prev. Team. Gritting in the rain is a waste of time and money. Gritting night shift should just be when needed. No night shift need in depot 80% of the time. Patrolling on night shift is a waste of time, money and wear on vehicles.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36226	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Investigate properly all stolen plant. No need to service vehicles as often as they do, a MOT on trucks should not take 7 days. Disturbance calls for management too excessive, one payment per night max.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36227	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Sand boxes need to be filled up regularly if the council is reducing the road winter delivery.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36228	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Assuming that winter maintenance refers to the gritting of roads and footpaths, I do not believe this should be cut or compromised.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36229	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads are already in a diabolical state.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36230	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So long as you don't cut the amount of gritting in the winter	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36231	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Maintain local street cleaning services	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36232	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The year on year poor repairs carried out after underground cabling or piping is atrocious. Where such patching is carried out, those responsible should be forced to reinstate roads and footpaths properly or be fined to cover such repairs. If paths or roads are to be resurfaced, any underground services should be laid prior to this work. too often, within weeks, well done resurfacing works are destroyed by service ducts, piping or cabling works. Charges should be levelled for such vandalism of public property.	Roads & Transportation (general)	4. The council is already doing this.	Statutory works undertaken by the public utility companies can be difficult to coordinate and manage. The statutory framework around such works means that the council often has limited power to prevent the works being undertaken. The council does try to ensure that reinstatements are carried out to a good standard. The council has recently responded to a government consultation that seeks to make improvements to these types of issues.
36233	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Your roads and pavements are a mess with pot holes and poor repairs.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36234	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The transport infrastructure is terrible in West Lothian.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36235	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Not so fussed about festive lighting but what about road and paving maintenance?	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36236	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What is an updated approach to asset management?	Roads & Transportation (general)	3. The respondent advised that they had no comment to make.	Road asset management plans under pin the way we set priorities.

36237	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Improved monitoring of employees to ensure they are working effectively - i.e. grass cutting Ensure countryside paths are accessible and maintained to a certain standard. Better use of Criminal Justice to make use of those skills to improve open spaces. Working in partnership with other groups to deliver services.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36238	On behalf of a Group/Organisation	7g. Revised Service Standards & Delivery Models - Roads & Transportation	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving?	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36239	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Yes remove all these added extras such as Christmas lights.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36240	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Probably the most inefficient department within the council and need a good shake up. With proper management the savings would come without cuts in services.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36241	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	time to move with the time s in particular road and pavement work as alot of wasted hours and money on too many workers watching another do a job or tea breaks etc ... digging into unsocial hours... people choose the jobs they want to do and if that means night shifts why should the pay be different?	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36242	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Remove cobbles on Linlithgow high st. They are falling again and are a clear indication that cobbles are not compatible with heavy traffic routes. Very costly to repair, create too much noise and poor economic impacts of closing the road every time they get fixed. Admit this was a mistake.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36243	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As a general rule, I am against getting private companies involved in any aspect of running a public service. However, if it is cost-effective to do so, then it makes sense.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36244	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Reduce vans ,, too many vans lorries on roads,, far too many,,	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36245	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	if anyone in the council can do the work needed, they should be doing it or be made redundant.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36246	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	WLC should consider energy savings through projects such as switching off selected street lamps in low traffic areas between the hours of midnight and 5 am, also reducing light pollution in built up areas. Traffic light controlled junctions could become part-time, not operating over night to ease traffic flows and further reduce vehicle emissions.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36247	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	By winter maintenance, I'm assuming this means road and pavement gritting. Perhaps better attention could be paid to the weather forecasts and don't send gritters out when there is no ice or snow then when it is needed, there is no-one to be seen.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36248	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance should ensure ongoing safety, but could be revised in some respects. Over the last couple of winters footpaths seems to be cleared/gritted excessively - after the tiniest amount of frost or snow. This could be restricted to heavy snow falls and genuinely icy conditions.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36249	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Disagree - theory sounds good though. Agree to efficiency savings, not loss of service. Basic services like gritting of pavements in town centres and road gritting have already been significantly reduced, both much missed. Council's insurance claims fund will need to grow in this claims culture when injuries spike. A Scottish Government Minister lost his job a few years ago when the M8 became blocked with ice and snow. Presumably this will equate to the putting his head on the same block once these measures are implemented!	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36250	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Support but the new lights are showing up the pot hole issue	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36251	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This seems council speak for doing the bare minimum, which in our area is already in place. We no longer get streets cleaned, cleared of snow and ice, or weeds cleared in drains and gutters.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36252	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Remove the 7% shift allowance from the Roads Operations staff and revert back to normal working hours. Carry out a review into the Standby Duty Officers (Winter/Summer) overtime pay arrangements received by staff in Road Services. There is a big discrepancy on the rate of pay paid between Senior Engineers and Road officers on winter standby that do the same job. Restrict the amount of overtime and pay enhancements that Senior Engineers/ Engineers in Roads Operations are currently being paid. The overtime payments received by a Senior Engineer carrying out standby duties is £15 - £20k a year.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36253	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Fine. Look at the strange piece of road Blackburn to bathgate at the new lights. Big mistake!	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36254	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More potholes I guess	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36255	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance is already depleted. Let's hope we don't get a bad winter...ever!!	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In recent years the council has maintained the level of winter service provision.
36256	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance of all roads is a HIGH PRIORITY for people to get to their place of employment. Also for all supporting heavy good vehicles supplying supermarkets, shops and other buildings where required. It is also imperative for buses carrying pupils to school and also the school staff being able to travel there in safety.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36257	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Stop clearing roads other than the essential main routes. Do not clear pavements - let communities do it.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Self help for winter service is something that will be considered.
36258	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Strange priorities..... could the money spent on relaying Bathgate's pedestrian area not have been better spent elsewhere??	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The improvements in the Steelyard, Bathgate was funded via the Bathgate Business Improvement District.
36259	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Smooth, clean cycle ways as a priority please if we are going to make improvements in transport and health in a sustainable way.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36260	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree with this measure along as the excellent winter maintenance and ensuring we can move around safely in the bad weather isn't effected.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36261	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter Service - We should move to a statutory delivery service here rather than delivering and above and beyond service that is provided at the moment.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
36262	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Will need to check the legislation-hope this doesn't mean driving on untreated roads more often!	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36263	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	where specialist equipment is needed I agree	Roads & Transportation (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
36264	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Focus on maintaing road/footpath gritting/snow-clearing & safety for all major roads and side roads.	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36265	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More efficiency in road works!	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36266	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Festive lights in Linlithgow have been switched on since before Halloween, is this necessary?	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36267	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This canâ€™t impact road maintenance (they are bad enough already) or winter maintenance which is a danger to all. Surely savings are being made by the fact that the last few winters have not been as bad as previous.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the last few winters have been less severe the council still has significant costs to bear in terms of winter lease costs and overheads whether equipment and resources are fully utilised.
36268	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Gritting the roads in the Winter has to be a priority, for safety reasons and so that people can get to work.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36269	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance is important for public safety and should be a priority	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36270	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Maybe a good time to go and buy a cherry picker! Winter maintenance is already at a very low level. Iâ€™d be interested to know what the statute is for keeping traffic moving on the countyâ€™s roads when we get 1cm of snow. Usually grinds to a halt even at current spending rates.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36271	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There should be a wholesale removal of speed bumps and road repairs, while more expensive, should be done properly to a lasting standard rather than the temporary tar/stone mix used. This should be reserved for urgent holes where there would be a danger to cyclists and motorcycles. Removing speed bumps will also improve air quality and the environment.	Roads & Transportation (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Traffic calming measures help reduce traffic speeds. The council will not be undertaking a programme of removal.
36272	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The cut backs to roads and NETS is unnecessary. If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36273	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads and transportation, paths and cycle ways are the lifeblood of the council. People cannot get to hospital, school, shops if these fail. The recent Audit Scotland report has highlighted the issues with the standard of roads across Scotland. Further cutting the service is counter productive, protect the asset you have. People use it everyday, people need it and failing to invest will be detrimental to the standard of life in WL and to the safety of citizens.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36274	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	WLC has so of the best maintained roads in Scotland - the rolling program of maintenance should be kept	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36275	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Currently West Lothian has an excellent record of road maintenance - it would be very disappointing if these cuts would result in poor roads. The Council should recognise that if the road quality deteriorates then it may be liable for increased compensation claims.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36276	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Again a section which has been hit hard in the past and probably will struggle to deliver a decent standard if cut much further.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36277	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	I agree with this proposal however money should be put into bringing the roads up to scratch which are in an extremely poor state of repair.	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36278	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Ensuring that the services provided are targeted and delivered in an efficiency manner are logical steps but as with the previous saving in Street Cleansing, there is a fine line between frivolous items (such as Christmas Lights and Gala Day support, which should be removed without fail) and areas such as carriageway maintenance, inspections, repairs, path network improvements, street lighting etc which are all vital and would risk harming many of the council priority areas if significantly cut beyond safe levels. A saving in the magnitude suggested would concern many residents as to the state of the network in the future.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36279	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Agree, but concern at what this might mean in a bad winter, should the public be expected to do more	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36280	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Keeping main roads safe and passable in Winter is a priority	Roads & Transportation (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
36281	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Consideration should also be given to ways to recuperate costs associated with various events that are run by communities and organisations throughout West Lothian.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Charging for costs associated with events will be considered moving forward.
36282	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Cutting winter maintenance will lead to accidents, with road accidents or slips and falls, which in turn will lead to a decreased workforce and productivity, and an increase in medical care. More grit bins, filled regularly, would encourage people to grit their own area, and main roads should continue to be treated.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36283	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The road system and its maintenance are key to attracting visitors to the area which bring added benefits to the local economy	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36284	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As 1A. I have recently sent a complaint to [REDACTED] with regards to your standard of service and management and why it is currently not using "effective and efficient" methods. Does "statutory requirements" included health and safety? My complaint described unsafe conditions.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36285	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	So - doing the absolute minimum - it isn't a sustainable proposal, it will cost more in the long term.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36286	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	For many years now WLC have operated a 24 hour winter maintenance regime at Guildiehaugh Depot whereby we have Golf Base, manned by skilled members of staff who are lost to the workforce for over 5 months of the year. This is ludicrous given we have a very efficient weather forecasting system that provides up to date accurate information on the weather at different locations in West Lothian. These men could be better put to use providing the council with the skills for which they are employed. Why are the council paying staff to be on standby and on nightshift for weather emergency during winter months when we know, by checking the weather forecast from the Vaisala system, that the weather forecast is favourable? These crews are then lost to the council service the following day. The existence of the winter shift pattern has been detrimental to the service and it must cost a fortune to implement. This cannot be good value for money. The staff are split into 2 shift patterns which means only half the workforce are available during the day for 5 months of the year. The shorter working hours from November to April means that the working output, even on a good day is somewhere in the region of 4 hours per day. This is not effective and is not value for money. Decisions need to be taken as to what services the council are going to provide. The Roads staff at Guildiehaugh cannot provide input to the Capital Programme, provide the daily routine, cyclic maintenance requirements and then provide a winter maintenance service during the winter months both during the working day and out of hours in the evening. A strategy is required in order to implement the Capital Programme that is both cost effective for the council and to provide a workstream for the council staff at the depot. Reducing staff numbers in recent years is making this more difficult to deliver an acceptable level of service.	Roads & Transportation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	These types of comments / suggestions will be considered as part of our winter service review moving forward.
36287	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The roads and pavements around the area are not in a very good state at present. Cutting out festive lighting is a bit of a ba humbug to be honest	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian roads are currently ranked as some of the best in Scotland
36288	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	There seems to be constant work being done, however work seems to be done on parts that aren't needed leaving the parts that do need done.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Works undertaken are based on asset management information.
36289	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	More focus on providing winter salting of pavements than roads.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36290	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This proposal must maintain local services.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36291	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance however, is very important and I'd be concerned that reducing it to 'statutory' requirements only will result in longer term deterioration/safety issues.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will ensure that it maintains statutory requirements.
36292	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	As long as all these services are delivered effectively and efficiently. The current winter roadworks model is a real pain as a driver who lives and works in West Lothian, especially when 2 week roadworks are then extended to 5 of 6 weeks, not good! More use of night working where possible to minimise disruption maybe. Don't forget your road work delays cost local businesses too, in lost work time and staff delayed by traffic queues!	Roads & Transportation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36293	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	2. Proposal is very vague at what is proposed to be a change in focus and statutory requirements - this seems a proposal which is hiding what it means from the public, which is disappointing given the importance of road safety and winter maintenance, as well as the repair of the roads.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36294	No Response	7g. Revised Service Standards & Delivery Models - Roads & Transportation	The maintenance at present is poor, when you look around at paths/pot holes etc. Not a good proposal will put the Council in a bad light	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian roads are currently ranked as some of the best in Scotland
36295	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Again my as a west Lothian resident I want to be safe- therefore any cuts to roads and transportation that will see less of a service in winter, less gritting, less patrolling places my life at risk which is not what I want.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36296	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	but the winter maintenance is already minimal - in previous winters we have almost reached a thaw before a road gritter appeared in our housing area and often the main roads have not been treated. I appreciate this service can be at the mercy of the weather itself but it has been often lacking in previous years - a case sometimes of hoping for the best and not planning for the worst.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas.
36297	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	In house contracts will ensure standards are maintained, improve local employment and benefit the West Lothian region	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36298	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Not sure about cut back to winter maintenance on non statutory areas.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36299	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Get rid of speed bumps and make proper repairs to roads. This will also improve air quality at schools where a lot of these things are placed anyway.	Roads & Transportation (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Traffic calming measures help reduce traffic speeds. The council will not be undertaking a programme of removal.
36300	An employee of West Lothian Council	7g. Revised Service Standards & Delivery Models - Roads & Transportation	This just sounds like we plan to strip back to the minimum we are required to do by statute.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36301	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Looks like winter will become more hazardous and depressing.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
36302	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Seriously, I am genuinely trying to review the various individual services and what you write to solicit comment is extremely vague. I think I am of average intelligence and try to be constructive or show disappointment with my comments but you have a responsibility to put commentary for areas of savings into plain english. Honestly this is a joke or somebody should get fired for this.	Roads & Transportation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
36303	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Winter maintenance cannot be reduced to just main roads. Smaller roads / estates also need to be dealt with albeit on a lower priority basis.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently provides a high level of winter service provision and it will maintain statutory provision moving forward. Within our winter policy snow routes, primary and secondary routes are prioritised ahead of housing areas.
36304	An individual	7g. Revised Service Standards & Delivery Models - Roads & Transportation	Roads maintenance / treatment and paths maintenance / treatment is bad enough already; particularly winter time. Most definitely do not support.	Roads & Transportation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

36348	An individual	CTI. Planned changes to Council Tax	Inevitable but 10 years of no rise Freeze by central government was great.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36349	An individual	CTI. Planned changes to Council Tax	in light of size of budget deficit in future years i would support the planned changes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36350	An individual	CTI. Planned changes to Council Tax	Needs must	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36351	An individual	CTI. Planned changes to Council Tax	yes if it is necessary - however I think that it should be reviewed to ensure that it is making a difference.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36352	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I agree that council tax should be raised to cover some of the budget gap	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36353	An individual	CTI. Planned changes to Council Tax	Yes, however, residents may expect a better service with an increase not necessarily cutbacks	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36354	An employee of West Lothian Council	CTI. Planned changes to Council Tax	As long as we can see where the money is going I agree that something has to be done.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36355	An individual	CTI. Planned changes to Council Tax	It's ridiculous to suddenly increase the council tax. The government should have been gradually increasing the council tax instead of freezing it year after year.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36356	An individual	CTI. Planned changes to Council Tax	No option but to increase it. Should have been done previously if I'm honest.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36357	An individual	CTI. Planned changes to Council Tax	Everything else is going up so only expected c/t will too	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36588	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36589	An individual	CTi. Planned changes to Council Tax	Yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36590	An individual	CTi. Planned changes to Council Tax	Needs must.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36591	An individual	CTi. Planned changes to Council Tax	Totally agree. There should never have been a cap in the first place!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36592	An individual	CTi. Planned changes to Council Tax	Yes we support an annual rise of 3%. 3% should cover the rate of inflation if the current financial situation holds.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36593	An individual	CTi. Planned changes to Council Tax	I can see the benefit of council tax increase.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36594	An individual	CTi. Planned changes to Council Tax	In order to maintain or improve services, I would support an increase in Council Tax	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36595	An individual	CTi. Planned changes to Council Tax	OK but why only 3%	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36596	An individual	CTi. Planned changes to Council Tax	I'd rather pay 3% more than lose services and I pay top band council tax!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36597	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, I appreciate that the council must make savings to close the budget shortfall and I would rather pay a higher council tax and protect services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36598	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes. Other authorities are considering and implementing council tax rises and a fair approach needs to be taken and consideration given to the increases that other local authorities are imposing.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36599	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes - I think all bands should be increased.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36600	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes totally agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36601	An employee of West Lothian Council	CTI. Planned changes to Council Tax	While I personally do not welcome any increase in my monthly outgoings, as my wages do not increase to cover any additional outgoings, I do appreciate the need for this increase at this particular time. Therefore I would support a 3% increase as outlined.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36602	An individual	CTI. Planned changes to Council Tax	Yes I agree with increasing council tax. Don't think it should have been frozen in the first place.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36603	An individual	CTI. Planned changes to Council Tax	I would agree to the Council Tax increase if this so long as this was reflected in the budget cuts.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36604	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, but this is a charge that the people who already pay their Council tax will have to bear.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36605	An individual	CTI. Planned changes to Council Tax	Not Really, but as the WLC is totally broke I would have to support a 3% rise.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36606	An individual	CTI. Planned changes to Council Tax	Yes, I think that the council tax needs to be raised in order to avoid further budget cuts and to allow a wide variety of services and activities to still be available	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36607	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes - though I actually think they should be higher since there has been NO increase for years.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36608	An individual	CTI. Planned changes to Council Tax	Yes, and actually think it should be increased by more - even up to 10%	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36609	An individual	CTI. Planned changes to Council Tax	Yes - if we want the services to continue.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36610	An individual	CTI. Planned changes to Council Tax	i suppose we have to raise money somehow	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36611	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes I support this and the council tax should have continued to rise year by year instead of remaining the same for years. This might have generated more money for the council to spend on what is needed and may have stopped such a huge cut in funding.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36612	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, although it should be clearer on correspondence with residents that the 73 million includes this 3% increase.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36613	An individual	CTI. Planned changes to Council Tax	Yes - it has been irresponsible of the Scottish Government to freeze council tax levels for the past 10 years and that price must now be paid.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36614	An individual	CTI. Planned changes to Council Tax	Yes if it will protect some of our services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36615	An individual	CTI. Planned changes to Council Tax	Yes I do, if this essential funding had continued to increase by 3% every year for the past 9 years then some services might not have had to be cut or reduced now.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36616	An individual	CTI. Planned changes to Council Tax	YES....LONG OVERDUE!!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36617	An individual	CTI. Planned changes to Council Tax	In theory	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36618	An individual	CTI. Planned changes to Council Tax	Yes .if the money is spent wisely	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36619	An individual	CTI. Planned changes to Council Tax	Agree - this is essential.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36620	An individual	CTI. Planned changes to Council Tax	Yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36621	An individual	CTI. Planned changes to Council Tax	I support this	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36804	An individual	CTi. Planned changes to Council Tax	yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36805	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I am prepared to pay an increase in council tax in order to protect services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36806	An individual	CTi. Planned changes to Council Tax	Yes, council tax was frozen for years so a small increase like this to protect schools and social care is needed in my view.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36807	An individual	CTi. Planned changes to Council Tax	Council Tax should be increased as much as is necessary to help fund necessary services. Has only been frozen for so long so that the government can remain popular.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36808	An individual	CTi. Planned changes to Council Tax	Yes I would be happy to pay more council tax to ensure services can continue	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36809	An individual	CTi. Planned changes to Council Tax	YES!! We are in this mess because of 10 years of increase free Council Tax charges and are now reaping the consequences! Nothing is free - or increase free - and eventually, the only answer as outlined in this proposal is to cut services to the elderly, vulnerable, educational and leisure facilities. A shocking state of affairs to have been guided into!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36810	An individual	CTi. Planned changes to Council Tax	I think the Council has to increase Council Tax rates. Better than cut services by even more.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36811	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. What would have been the effect to budgets if the council had taken the decision to raise council tax earlier this year.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36812	An individual	CTi. Planned changes to Council Tax	OK with it provided the money is used effectively in conjunction with improved efficiency and value for money	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36813	An individual	CTi. Planned changes to Council Tax	Yes we need to pay for what we use and support those who need services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36814	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	I would support an increase in council tax if it means sustainably of essential services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
36815	An individual	CTi. Planned changes to Council Tax	I would support the 3% rise in council tax provided that the this prevents some of the cuts mentioned in this consultation ie the reduction in instrumental music programme.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36816	An individual	CTi. Planned changes to Council Tax	Hallelujah! Yes I do! It is the only thing which makes sense. Some of the previous questions give rise to the thoughts of why aren't they already doing that, whilst others appal me. A CT rise is long overdue but hasn't been done due to a desire to win votes!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36817	An individual	CTi. Planned changes to Council Tax	Reluctantly.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36818	An individual	CTi. Planned changes to Council Tax	If it can be shown that the increases will keep key services available (clearly) then I would support the rise	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36819	An individual	CTi. Planned changes to Council Tax	I support the planned changes.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36820	An individual	CTi. Planned changes to Council Tax	I think the proposed increase is necessary but worry about the impact it will have on low income households. unfortunately the Council Tax Freeze for so many years has put the Council in this unenviable position. There is unfortunately no way to avoid this and it is only prudent to ensure tax raised increases in line with costs year on year.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36821	An individual	CTi. Planned changes to Council Tax	Council tax SHOULD HAVE been raised. This was a mistake by West Lothian Council. People understand that to have decent services they need to pay. I would increase it by 5%	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36822	An employee of West Lothian Council	CTi. Planned changes to Council Tax	It is regrettable but council tax must increase by the maximum amount to save our services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36823	An individual	CTi. Planned changes to Council Tax	Yes we would support this as, because of the Council Tax freeze , we're already suffered reduced services over the last 10 years.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36824	An individual	CTi. Planned changes to Council Tax	Yes, I realise that to maintain our core services, these changes to the Council Tax are necessary I have no problem with this, as long as we don't get the double whammy - the 3% year on year increase and all the cuts previously mentioned as well	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36825	An individual	CTi. Planned changes to Council Tax	yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36970	An individual	CTi. Planned changes to Council Tax	I am okay with it going up	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36971	An individual	CTi. Planned changes to Council Tax	3% is ok.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36972	An individual	CTi. Planned changes to Council Tax	Yes. 3% is fair.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36973	An individual	CTi. Planned changes to Council Tax	Increase council tax if required	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36974	An individual	CTi. Planned changes to Council Tax	I support the planned changes to council tax, great debate and analysis to be had to identify specific priorities if funding was raised above 3% but in the main I again am supportive of this proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36975	An individual	CTi. Planned changes to Council Tax	Council tax rising is much preferable to people losing their services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36976	An individual	CTi. Planned changes to Council Tax	Yes but council staff have only received 1% pay increase.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

36977	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes - so that we can have the services we need for both young people and the ageing population.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36978	An individual	CTI. Planned changes to Council Tax	I agree with this if my comments overleaf about these charges are not implemented.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36979	An individual	CTI. Planned changes to Council Tax	I support the annual increase	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36980	An individual	CTI. Planned changes to Council Tax	A 3% increase to ALL tax bands is acceptable. Assurances that those who don't pay will be made to - that no amnesty will be given to them as was done with the Poll Tax. The council tax should have been increased before - not frozen - to help pay for services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36981	An individual	CTI. Planned changes to Council Tax	We need good services- its our civic duty to pay what we can for them- but it must be those of use who can afford to pay. The burden must not fall on the poorer members of the community.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36982	An individual	CTI. Planned changes to Council Tax	I am ok with increasing tax to pay for beter services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36983	On behalf of a Group/Organisation	CTI. Planned changes to Council Tax	We agree with the council tax increase proposed to help local public services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36984	An individual	CTI. Planned changes to Council Tax	I wouldn't mind the Council tax being increased.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36985	An individual	CTI. Planned changes to Council Tax	Yes Council tax needs to be increased for all who can pay. Adjust for those less affluent.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36986	An individual	CTI. Planned changes to Council Tax	Yes agree with the 3% rise	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36987	An individual	CTI. Planned changes to Council Tax	I would support an increase in council tax if extra money went to where it is needed most.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36988	An individual	CTI. Planned changes to Council Tax	I support within reason an increase on council tax.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36989	An individual	CTI. Planned changes to Council Tax	I would support an increase in CT of 3% per year or less but more if the extra money is used to improve the care of the elderly.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36990	An individual	CTI. Planned changes to Council Tax	I completely support raising Council Tax by 3% each year.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36991	An individual	CTI. Planned changes to Council Tax	The proposed increase in CT is obviously necessary but rather excessive	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36992	An individual	CTI. Planned changes to Council Tax	I support council plans to increase council tax. I believe an increase of 3% per year over the next 5 years would help the situation.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36993	An individual	CTI. Planned changes to Council Tax	Yes needs to be increased - 3% seems reasonable. Someone has to pay for services etc.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36994	An individual	CTI. Planned changes to Council Tax	Yes, 3% increase may be needed! It must me spent wisely.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36995	An individual	CTI. Planned changes to Council Tax	Yes - 3%rise to minimise disruption - but money should not be frittered away on constant roadworks.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36996	An individual	CTI. Planned changes to Council Tax	I think it should not have been so long without a raise in council tax. So I do agree it should go up for everyone. I hope it will not be more than 3%	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36997	An individual	CTI. Planned changes to Council Tax	Yes - not in agreement with Scottish Parliament telling councils to keep making cuts year on year!! Yes do support rise in council tax - we have an excellent Council and how can you keep being excellent with less money to do all you do!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36998	An individual	CTI. Planned changes to Council Tax	Yes I would support the councils planned changes to council tax	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
36999	An employee of West Lothian Council	CTI. Planned changes to Council Tax	if we have to	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37000	An individual	CTI. Planned changes to Council Tax	Yes, council tax must be increased - this should have been done long before now. This is necessary and should have been implemented before council accrued all this deficit.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37001	An individual	CTI. Planned changes to Council Tax	We have no choice. We should never have frozen the tax and we wouldnt be in a mess now,	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37002	An individual	CTI. Planned changes to Council Tax	A 3% council tax rise is a big increase year on year. However would prefer this than a cut to any other services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37003	An individual	CTI. Planned changes to Council Tax	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

37004	An individual	CTi. Planned changes to Council Tax	I agree that council tax should rise by 3%.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37005	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	We reluctantly agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37006	An individual	CTi. Planned changes to Council Tax	I agree that the council tax should be increased. It should have been increased years ago.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37007	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Don't mind an increase in tax to help towards less cuts to our community. It will help reduce drastic measures towards all the 8 priority areas.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37008	An individual	CTi. Planned changes to Council Tax	I support an increase in Council Tax by 3%.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37009	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Streamlining Council Resources Increasing Council Tax - A principle of any business needing to balance its accounts is to cut back on costs and increase income. WLSN thinks it is prudent to consider increasing Council Tax to negate the effect of negative impact to services so long as the most financially excluded people are protected.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37010	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Everyone appreciates the need for a rise in council tax but felt that to have this prior to our local elections would have been more honest and transparent and maybe proposed cuts required would not have been as severe or high as they are now.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37011	An individual	CTi. Planned changes to Council Tax	I would support a 3% rise	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37012	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Despite being on a very low income I would rather pay more council than see vital day centres close.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37013	An individual	CTi. Planned changes to Council Tax	Please raise the Council Tax as it sounds like you are proposing a bare minimum service with this.	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37014	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes, Because I live in a large house my council tax went up by 7% last year	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37015	An individual	CTi. Planned changes to Council Tax	Yes but not at 3% per annum	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37016	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% every year is far too high when wages are not rising and the cost of living is rising and services are being cut. this is unjustifiable.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37017	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I fully support increasing Council Tax to retain important services and resources	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37018	An individual	CTi. Planned changes to Council Tax	It has to happen. You can't have services if you don't pay for them. The council needs to make sure that customers recognise and value services better though. Customers need to understand what they are paying for and value services. Engagement and trust is key. Communicating with them is key in this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37019	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes and we should probably raise it higher than 3%	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37020	An employee of West Lothian Council	CTi. Planned changes to Council Tax	don't mind paying for services provided they are of good standard are they?	CT1	1. The respondent advised that they agree with the proposal.	As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities.
37021	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I think the council tax should be increased however I think it should be tapered to the size of the properties. Band A maybe 0.5% on a scale to band H which could be 5%.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37022	An individual	CTi. Planned changes to Council Tax	I think it needs to be increased to help with funding.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37023	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% is too much. Many families are struggling as it is.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37024	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do not support the council tax increase by 3%. I would support a 1% 1.5% increase.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37025	An individual	CTi. Planned changes to Council Tax	Yes, as long as everyone has to pay it. Please do not just target the better off who have worked hard to afford a nice house but get continually punished for it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37026	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Much as it hurts - yes I acknowledge that the council tax should increase - but 3% is painful as other aspects of cost of living have increased - but wages have not.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37027	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't live in the area so cannot comment on West Lothians policy. In my own area, I would not support this without first being convinced that local authorities had a fair settlement from the Scottish Government and that services were as efficient as they could be.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37028	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, it's been too long in coming. If the tax had been increased earlier it could've been increased by a lesser amount rather than the proposed 3% each year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37029	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. A 3% increase must be pursued.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37030	An individual	CTi. Planned changes to Council Tax	Yes increase council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37031	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I would support a council tax rise of 3% per year	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37032	An individual	CTi. Planned changes to Council Tax	Increase for all, that's fairest. Increase E to H a little more but no us and them, all citizens have a part in our community.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37033	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I agree without these changes that the council services provided is not sustainable if no increase is introduced.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37034	An individual	CTi. Planned changes to Council Tax	No. Council tax is already a huge drain on family budgets after years of high inflation and low pay increases, and with services being reduced, the tax payer are not getting value for money.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37035	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes, with the planned changes, council tax needs to be increased and is a much easier of finding some of this money without people losing their jobs.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37036	An employee of West Lothian Council	CTi. Planned changes to Council Tax	NO	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37037	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Council tax must go up, it is only fair and is a sensible option.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37038	An individual	CTi. Planned changes to Council Tax	Yes as long as it is targeted at the very young and the very old	CT1	1. The respondent advised that they agree with the proposal.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37039	An individual	CTi. Planned changes to Council Tax	Council Tax is a contentious subject as the current process is very unfair. The distribution of bands relating to house values is outdated and the Tax does not reflect the number of people who reside in each property who all use the Council's services. The Scottish Government made a commitment to revise the system but has not done so and has simply increased some of the bands, making the process even more unfair. A blanket 3% rise year on year is a very broad brush and unfair approach. It will simply make things more difficult for many residents, particularly many pensioners. An increase based in inflation would have a similar impact but would be a little fairer.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37040	An individual	CTi. Planned changes to Council Tax	Although unlikely, some thought could perhaps be given to dispensation for areas within West Lothian which do not receive the same range of services as others. For example, rural villages such as Kirknewton do not receive the same service for street and drain cleaning, and winter road and pavement salting. The bus service is poor and unreliable. Gas is not available in all the housing estates. Access to the village by road for emergency services is also badly affected by the inordinate times the barriers are down at the Kirknewton station level crossing.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37041	An individual	CTi. Planned changes to Council Tax	Yes but public sector wages and cost of living is not increasing for workers and working families and this could impact on financial resources	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37042	An individual	CTi. Planned changes to Council Tax	This is not sustainable, unless wages rise, if people don't have the money then they cannot take this hit.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37043	An individual	CTi. Planned changes to Council Tax	Increasing the tax each year will be a burden on tax payers. Council employees have had below average salary increases each year therefore the council tax should go up in line with staff salaries.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37044	An individual	CTi. Planned changes to Council Tax	this you can increase. if everybody paid their way you would have plenty cash.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37045	An individual	CTi. Planned changes to Council Tax	I would support a 5% rise in council tax as we have had a council tax freeze for many years.	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37046	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes if wages are also increased in line with this proposed increase.	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37047	An individual	CTi. Planned changes to Council Tax	for bands E to H, Yes	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37048	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Payers of any tax rise should include householders in all bands. Houses that have increased in value in last 10 years are still on a low tax band. This is fundamentally unfair.	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The council tax scheme including banding and rateable values are set nationally by the Scottish Government.
37049	An individual	CTi. Planned changes to Council Tax	Be clear. Why have you made this assumption if you don't intend to carry out this increase? I agree with an increase by 3% for all properties each year between 2018/19 and 2022/23.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Any percentage increase in council tax is agreed annually by elected members when setting the council's revenue budget.
37050	An employee of West Lothian Council	CTi. Planned changes to Council Tax	staff haven't had a proper pay rise in a decade! why now go for 3%- should have been started at a lower rate years ago. Put wages up by the same amount to avoid disadvantaging those of us who work for the council and actually PAY the council tax	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37051	An individual	CTi. Planned changes to Council Tax	Yes. A more robust approach needs to be done to collect council tax arrears.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37052	An individual	CTi. Planned changes to Council Tax	NO. Punishing the people who do pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37053	An individual	CTi. Planned changes to Council Tax	Yes - I already pay an additional 3% due to our lovely Scottish Government! I am okay with paying more if only it is not ring fenced again for Education. Not paying just means less services within West Lothian.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37054	An individual	CTi. Planned changes to Council Tax	I don't mind council tax going up but at the moment every regular bill increase is outstripping my salary increases and financially I can't keep up. If the council tax is to rise it should not be by an amount greater than the current public sector pay cap level. I can barely afford to get by and I am sure I am not alone. Any increase should apply across the board to all bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37055	An individual	CTi. Planned changes to Council Tax	ONLY to maintain services...you can't increase CT and cut services like brown bins!!!!	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
37056	An individual	CTi. Planned changes to Council Tax	Yes - council tax is still far cheaper than equivalent taxes in rest of UK.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37057	An individual	CTi. Planned changes to Council Tax	I agree to a council tax increase of 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37058	An individual	CTi. Planned changes to Council Tax	Yes, 3% is critical to support services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37059	An individual	CTi. Planned changes to Council Tax	Council tax should rise in line with average earnings increases. Increasing this beyond this around is simply taking more money from people who do not have it.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37060	An individual	CTi. Planned changes to Council Tax	will this actually work or will it put greater pressure on Council Tax Benefit?	CT1	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity to minimise any impact of increases in council tax. The council tax reduction scheme is set nationally and determines the level of council tax benefits available to individuals. It is a means tested benefit available to those with income below the prescribed threshold.
37061	An individual	CTi. Planned changes to Council Tax	If CT increases equally for ALL council tax bands then it is fairer that only for E-H bands. Period. My CT increased this year by Â£40 per month, from approx Â£255 to Â£295, meaning I have to earn about Â£350 per month (before tax) just to give it to council (!), and what do I get in return? What will I get in return when you increase it again? What message are you sending by increasing CT only on E-H bands? - Those who studied (and continue studying) and worked (and continue working) hard to afford properties in bands E-H and paying higher taxes anyway will be penalized even more, but you do not increase CT to those who don't bother studying and working hard (e.g those who work on 16h/week and don't want more hours because they will lose benefits). It has to be increased either for all or for noone. That's fair, that's equal!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37062	An individual	CTi. Planned changes to Council Tax	No. I am disgusted enough that these bands E-H were raised by so much by the Scottish Govt. Its extremely unfair and just because you have a house in these bands does not mean you are wealthy or can afford these massive rises. To say you will increase by 3% every year is very concerning and I do not believe putting such a burden on council tax payers is fair. If it only makes up 19% of your funding why should we be made to suffer?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37063	An individual	CTi. Planned changes to Council Tax	This is unfair on the people who do work and pay full council tax, people who are on benefits don't pay council tax majority of the time or get reduction which should not be allowed	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37064	An individual	CTi. Planned changes to Council Tax	No I don't support the increase as I am only seeing a decline in my service. I have already been impacted by the first 3% rise which I was not aware of and I pay attention to these bulletins so could not have been that well sign posted. Priority should be raising funds through chargeable services and not impacting on the majority for services that are not statutory. He council needs to work harder to be more efficient. As the biggest employer in West Lothian it should be able to drive down external contracts and deliver benefit this way for its residents.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years. The increase in 2017/18 was a result of rebranding by the Scottish Government and was well publicised in council publications but also in national press. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
37065	An individual	CTi. Planned changes to Council Tax	No. First time buyers and graduates looking to rent will be shunned by this and have to live with their parents even when they have a professional because the council tax will be riding above the rent.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37067	An individual	CTi. Planned changes to Council Tax	I do not support the council tax increase 1 We are down to one collection per fortnight with exception of food waste which is a good idea 2 There are no provisions for glass/ jars etc and the council want us to take them to recycling/ bottle banks ourselves If I am doing council job why would I want to pay more ? There are 2 pensioners near me neither with family or cars and I take thereâ€™s when taking mine 3 Plus thereâ€™s the mixing of it all washing out bottles / jars again doing council work and you want me to pay more for this Why ???	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37068	An individual	CTi. Planned changes to Council Tax	People will never support and increase in anything if it's going to cost them money but 3% is fair most people wouldn't notice but if it went up 3% each year then that's a problem	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37069	An individual	CTi. Planned changes to Council Tax	it should be made clear what the 3% increase will pay for which should be ring fenced. Customers should be able to choose what this increase p[ays for every year The spending carried out due to the increase should be evidenced to ensure this is not wasted	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council therefore it is not proposed that this element would be ring fenced for specific services. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
37070	An individual	CTi. Planned changes to Council Tax	No. Band E and above have already been penalised for the size of the house. All homes should have the same Council Tax. the 3% could be introduced in the first two years, then 2% year 3 and 4; and year 5 1.5%.This would give the council to introduce further savings. Hard working Council Tax payers are already getting hit.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37071	An individual	CTi. Planned changes to Council Tax	No an absolute joke a 3% increase per annum. A regressive instrument through which to pay for public services.This would be 15% over 5yrs. 1.5% per annum would be more reasonable and for elected members to get off their backsides and lobby Scottish Government for additional funding which they can use less regressive tax powers for.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37072	An individual	CTi. Planned changes to Council Tax	No - once Council has streamlined its costs then, and only then, should householders be asked charged more. Salaries are not going up and householders are streamlining budgets so councils should too.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37073	An individual	CTi. Planned changes to Council Tax	services need to be paid for,,, increase the council tax i would welcome to maintain the sevicees in these communities	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37074	An individual	CTi. Planned changes to Council Tax	Only if services improve in terms of value for money and that each employee is employed to deliver services and not the continuation of a bureaucratic establishment.	CT1	1. The respondent advised that they agree with the proposal.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37075	No Response	CTi. Planned changes to Council Tax	Stop saing and start spending. Why can't you increase council tax. I am fed up with all the cuts.	CT1	1. The respondent advised that they agree with the proposal.	The forecast budget gap of £73 million includes an assumed increase in council tax of 3%. To reduce the level of proposed reductions, council tax would have to be increased by greater than 3%. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3%.
37076	An employee of West Lothian Council	CTi. Planned changes to Council Tax	accurate figures need to be published to show what savings could be made for various increases I.E 3% increase will save ? I.E 5% increase will save ?	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	Each 1% increase in council tax generates income of just over £750,000.
37077	An individual	CTi. Planned changes to Council Tax	only if the money I ringfenced and some of the jobs at head of service level and executive level are pruned	CT1	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The proposed 3% increase in council tax would contribute to the overall resources of the council therefore it is not proposed that this element would be ring fenced for specific services. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. West Lothian Council has an efficient senior management structure when compared with a number of other local authorities of a similar size.
37078	An individual	CTi. Planned changes to Council Tax	Definitely not. 9% over three years is far too high when people are finding it hard to make ends meet as it is, especially since some of the cuts you are proposing are causing an increase in household bills as well.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37079	An individual	CTi. Planned changes to Council Tax	Yes. It is overdue. It is foolish to believe that a budget gap of £73M in public/local services can be compensated for by 'more joined up and cost effective services', especially in the face of the impending demographic changes with more elderly people and an increase in numbers of schoolchildren. An increase of 10 000 on the current population will require more health and social care facilities, not just an emphasis on providing school facilities.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37080	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't mind the planned changes as this hasn't raised in a number of years. However, it needs to take into account if this will have a negative impact on any families that are already only just making it by and using food banks daily.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37081	An individual	CTi. Planned changes to Council Tax	No, paying over £2200 per year in a home with only 1 wage earner and not being entitled to any benefits with 2 children to support is too much.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37082	An individual	CTi. Planned changes to Council Tax	yes, but i think that 3% is quite high	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37084	An individual	CTi. Planned changes to Council Tax	No, Sick of it actually. For example, 2 people living under the same roof use the same street lighting, use less water and less rubbish for landfill. What about the old Roof Tax you pay for what you use.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37086	An individual	CTi. Planned changes to Council Tax	Yes, very much so. It should probably be more than 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37087	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Not providing your employees with a cost of living pay rise then imposing a 3% increase in Council Tax? The vast majority of your employees are resident in West Lothian. Double hit. Had the Council managed its budgets efficiently and effectively over the past years where no increase has been applied, there would be no funding shortfall. Previous mismanagement is resulting in threats of having to cut services further, costing jobs locally, affecting employee morale. Had a small increase been applied, each year the Council was able to do so, the levels of services would not have had to be cut to the bone as they have. They would have been able to be maintained, meaning jobs stability and more affluent local economy.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. The council has delivered balanced budgets each year since 1996. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of previous mismanagement of resources.
37088	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, should never have been frozen and we might not have been in this mess	CT1	1. 37089	An individual	CTi. Planned changes to Council Tax	No, penalising people in larger houses	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37090	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes it is ridiculous that the council tax has not changed in years but the council has faced increased costs for the services it provides. Those who are in poverty get help anyway as I understand it, so for those of us who can afford it this is an extremely sensible move.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

37092	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I think an increase of 3% pa should only be carried out as a last resort as I believe there are other ways to reduce the deficit. I currently work in a service area that is already seeing the effects of austerity measures and this proposal will only plunge more people in West Lothian in to poverty & will see a larger corporate debt owed to the local authority. This would therefore create additional costs in recovery of these debts.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income resulting in a larger reduction to services. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37093	An individual	CTi. Planned changes to Council Tax	As long as the money is used correctly	CT1	1. The respondent advised that they agree with the proposal.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Planned changes to Council Tax	No, it is grossly unfair to propose to drastically reduce the service being provided whilst at the same time increasing the council tax year on year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37095	An individual	CTi. Planned changes to Council Tax	Make sure you stop wastage before you think about increasing Council Tax.	CT1	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37096	An individual	CTi. Planned changes to Council Tax	Do not support 3% increase this year but would support a 1.5% across ALL bands as the E-H bands is penalising the working person.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37097	An individual	CTi. Planned changes to Council Tax	The council does not represent value for money currently and worry that paying more would not provide any better services.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
37098	An individual	CTi. Planned changes to Council Tax	Only if it is spread equally across all the bands. It must not be unfairly weighted to higher value properties. The calculation should not include an allowance for those who don't pay to be transferred to those who do. The full basis and assumptions in the calculations should be made visible.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37099	An individual	CTi. Planned changes to Council Tax	The cost increase needs to be in line with wage increases which is less than 3% otherwise people will struggle to pay up.Reduce the cost	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37100	An individual	CTi. Planned changes to Council Tax	Increase the higher bands only. Lower bands, with people on lower wages living in them, are usually the ones who have to pay and feel the pinch first. Let them be for once.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37101	An individual	CTi. Planned changes to Council Tax	No. You have indicated that Brown Bin collection may become chargeable. I assume that this would be in addition to Council Tax, which would take the increase to over 3%.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37102	An individual	CTi. Planned changes to Council Tax	Yes, we all need to contribute more as your funding is cut. Taxation by the back door it is but central government has given you no choice.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37103	An individual	CTi. Planned changes to Council Tax	This just need to increase... i k ow many people will be upset, but a 3% raise is acceptable in the current state.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37104	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No. I already pay an enhanced rate of council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37105	An individual	CTi. Planned changes to Council Tax	No, I can't agree with further rises in Council Tax, that 3% increase each year on top of the 9.5% increase from April 2017 means that my council tax will have had a 27% increase between April 2017 and April 2022. I understand that retail price index is showing inflation at 2.8%, but my expected salary increase in the same period will be 6.15%	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37106	An individual	CTi. Planned changes to Council Tax	"If Council Tax is not increased by 3% each year, the council's £73 million budget gap will increase further and additional cuts to services will be required." This is disingenuous and patronising i.e. if the council make significant efficiency savings and generates additional revenue, there would be no need for a 3% each year. The 3% is simply the option that requires lowest amount of initiative, change to internal processes, and innovation by us as a council.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The projected budget gap of £73 million includes an assumption that the council will receive additional income through a 3% council tax increase. As the council is required by law to balance its budget, if this additional income was not forthcoming, additional savings would be required over and above the stated £73 million.
37107	An individual	CTi. Planned changes to Council Tax	Yes this would be sufficient as anyone staying in a House Band E- H is obviously earning a lot more than those in the lower band scales and therefore would see less of an impact if they could pay a bit more for a change as they could afford to meet the changes without making a huge dent to their monthly income.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37108	An individual	CTi. Planned changes to Council Tax	No I don't, the centre gets shut I won't pay council tax anymore! Simple as that	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debitor arrears.
37109	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I support this but ask why 3% and not in line with inflation?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding an increase in council tax. The proposed increase is 3% in line with the maximum increase permitted by the Scottish Government.
37110	An individual	CTi. Planned changes to Council Tax	I understand the need to increase revenue however 3% year on year when we have already been hit by the Scottish government increase is a step too far. There are many properties which are clearly not in the correct tax band. Houses in Linlithgow selling in excess of 400k due to extensions etc yet in band e and f (Oatlands Park, Laverock to name just two) figures readily available via Zoopla and Rightmove. I have 2 friends who bought very similar houses in the summer one bought in North Lanarkshire cost 183k council tax band f, the other in Linlithgow 415k council tax band f!! Should the council not also comprehensively reassess the banding of such properties. I am sure there is a huge amount of revenue to be gained from reassessment which would reduce the percentage of a blanket increase for everyone	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax in West Lothian has been frozen for ten years. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37111	An individual	CTi. Planned changes to Council Tax	Provided that any local increase is not on top of any Scottish Government increase (as has happened this year), I agree. I do not agree to a 6% increase which would have happened if WLC had increased Council Tax this year.	CT1	1. The respondent advised that they agree with the proposal.	The council tax scheme is reviewed and set at a national level therefore the council cannot guarantee that the Scottish Government will make additional changes.
37112	An individual	CTi. Planned changes to Council Tax	Yes but you should definitely be looking at chief executives salaries first.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37113	An individual	CTi. Planned changes to Council Tax	Yes and no - Increase the bigger bands by 5% and the lower bands by 2%. Or the biggest band by 10%. Staff have been receiving no more than 1% increase in wages for years and most are low paid in lower band properties	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37114	An individual	CTi. Planned changes to Council Tax	Yes - personally I would be fine with a 3% increase on my Council Tax. However, I am aware this may affect people on low incomes with higher tax band may be negatively affected.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37115	An individual	CTi. Planned changes to Council Tax	The council tax has been held back for years - its about time there was increase to match other councils	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37116	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes however must take into account that even a small increase can have massive repercussions for the least well off in society.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

37117	An employee of West Lothian Council	CTi. Planned changes to Council Tax	We have to invest now in our futures as the past 10 years have been shambolic due to an SNP administration that froze council tax to buy their way into power. They should have concentrated on the day job. We have gone from being UK Council of the year in 2006 to this. Cut backs. We need investment in encouraging businesses to have confidence in West Lothian. We need people in good jobs that in turn will spend money locally. We need the education back to where it once was. We need crime free streets, better health for young and old. We need to move with the times and get the fundamentals right. Our towns and villages are suffering as well. The infrastructure needs looked at. Once we were proud to walk around. The cut backs to roads and NETS is unnecessary. If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37118	An employee of West Lothian Council	CTi. Planned changes to Council Tax	We have to invest now in our futures as the past 10 years have been shambolic due to an SNP administration that froze council tax to buy their way into power. They should have concentrated on the day job. We have gone from being UK Council of the year in 2006 to this. Cut backs. We need investment in encouraging businesses to have confidence in West Lothian. We need people in good jobs that in turn will spend money locally. We need to move with the times and get the fundamentals right.	CT1	1. The respondent advised that they agree with the proposal.	Council tax in West Lothian has been frozen for ten years - nine by the Scottish Government and 2017/18 by a local council decision. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities with performance being greater in nearly all areas since 2006. The council works closely with current and prospective businesses to encourage investment in West Lothian.
37119	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37120	An employee of West Lothian Council	CTi. Planned changes to Council Tax	We have to invest now in our futures as the past 10 years have been shambolic due to an SNP administration that froze council tax to buy their way into power. They should have concentrated on the day job. We have gone from being UK Council of the year in 2006 to this. Cut backs. We need investment in encouraging businesses to have confidence in West Lothian. We need people in good jobs that in turn will spend money locally. We need the education back to where it once was. We need crime free streets, better health for young and old. We need to move with the times and get the fundamentals right. Our towns and villages are suffering as well. The infrastructure needs looked at. Once we were proud to walk around. The cut backs to roads and NETS is unnecessary. If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37121	An individual	CTi. Planned changes to Council Tax	I support a 3% increase in council tax, and in fact, would support 5%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37122	An individual	CTi. Planned changes to Council Tax	Absolutely and it should never have come to this. We are paying the price now after the SNP mess	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37123	An individual	CTi. Planned changes to Council Tax	No, I cannot support the 3% per year increase in Council Tax, this is above inflation and certainly above my likely pay award which is set to remain at a maximum of 1% per year for the same period.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37124	An individual	CTi. Planned changes to Council Tax	No but there is no obvious alternative.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37125	An individual	CTi. Planned changes to Council Tax	Yes. Should have done this all along and gradually instead of this jump though.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37126	An individual	CTi. Planned changes to Council Tax	Agree if spread around all services within the council and not simply the usual suspects of education and social work. These services although very important have not received the same cuts as the rest of the council and it is important that they now take a fair share of cuts. I would pay extra to protect the environment, roads and libraries.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council therefore it is not proposed that this element would be ring fenced for specific services. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37127	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Agree to increase Council Tax but Council should ensure customers get what they are paying for ie street cleaning is poor	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
37128	An individual	CTi. Planned changes to Council Tax	To a degree, but not yearly	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37129	An individual	CTi. Planned changes to Council Tax	Yes I support the increase it should have been increased before now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37130	An individual	CTi. Planned changes to Council Tax	yes should have been raised each year	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37131	An individual	CTi. Planned changes to Council Tax	Cut back on the amount of benefits given to certain groups towards their council tax bill only to those who really need it.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council tax reduction scheme is set nationally and determines the level of council tax benefits available to individuals. It is a means tested benefit available to those with income below the prescribed threshold.
37132	An individual	CTi. Planned changes to Council Tax	Happy to pay more to protect/enhance key services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37133	An individual	CTi. Planned changes to Council Tax	More tax no thanks	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37134	An individual	CTi. Planned changes to Council Tax	Yes I agree however can't help but feel that we are now being penalised for the councils poor judgment of spending previously and as a result we are now expected to pay more and have are essential services cut. I would expect and assume that most residents in West Lothian would expect to see a very different council in 5 years who are able to deliver the service that puts tax payers views first and reckless spending very much in the past	CT1	1. The respondent advised that they agree with the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
37135	An individual	CTi. Planned changes to Council Tax	some of them	CT1	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Question relates to whether council tax levels should be increased by 3%.
37136	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes I do if the extra income will help with the buget short fall.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37137	An individual	CTi. Planned changes to Council Tax	i do support the council tax increase so long as it is over all bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37138	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I think it is reasonable to increase council tax by 3% but this would only be "popular" if the council says what services is able to be kept with this extra money.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37139	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Absolutely not. 3% every year for 5 years is an exceptional amount of money given the squeeze on families. I have not had a real terms pay rise in 8 years and I work for the council. 3% each year would result in me being unable to afford to continue to pay my mortgage. To put it into perspective, the last time I had a pay rise it was 1%. This was deemed a significant pay rise and therefore 1% should be considered a significant rise in council tax. Certainly not 3% every year for 5 years!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37140	An individual	CTi. Planned changes to Council Tax	It is unfair to not implement a percentage increase across ALL bands. With an aging population who are unable to sell their large properties, the current criteria disadvantages this group.	CT1	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37141	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes think that customers have to appreciate the times we are in and that Ctax need to be increased	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37142	No Response	CTi. Planned changes to Council Tax	Yes - it is imperative that the 3% increase in Council Tax is agreed.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37143	An individual	CTi. Planned changes to Council Tax	Everyone should be taxed the same ...,I don't earn a lot but through working all my life I have a nice house in a band e home if I pay an extra 3 % then I feel it's only fair other people do .people earning more than me in a smaller house pay less council tax I think that's unfair	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37144	An individual	CTi. Planned changes to Council Tax	3% to much	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37145	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes if everyone pays it, unlike the "poll tax" where people still have never paid it!!!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Tax reform can only be reviewed at a national level with corresponding changes in tax legislation.
37146	An individual	CTi. Planned changes to Council Tax	yes, and increase the collection of council tax. Would increase it by 5% of possible.	CT1	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37147	An individual	CTi. Planned changes to Council Tax	council tax should only be increased as a last resort. and not by the full 3 percent as this does not take into account thoes who are "property rich"but "cash poor"neither does it take into account thoes in lower band housing who are "cash rich"and access more council services such as two parent working families. if council tax is to be increased it should be between 1 and 2 %	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37148	An individual	CTi. Planned changes to Council Tax	It looks like this is the way forward but at the same time people are paying more for less	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37149	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes and more should be done to target the non payers.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37150	An individual	CTi. Planned changes to Council Tax	Higher bands only I agree. But you talk of making people redundant or laying them off, cutting services and making people pay for things they now get for free and at same time saying oay more for this. People will not be amused.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37151	An individual	CTi. Planned changes to Council Tax	I can't see any alternative. However I think it is extremely unfair that residents in Band E-H have already had a Council Tax rise and face further increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37152	An individual	CTi. Planned changes to Council Tax	Sadly there are many whose council tax payments are met by the state. Rents are rising 3-4% and council tax 3% while WLC wages rose only 1%. Employees of the council will struggle to meet every day living costs as it stands	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37153	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, I support it, it has been frozen for too long.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37154	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. I would be happy to pay an increased council tax to protect council services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37155	An individual	CTi. Planned changes to Council Tax	Yes I am more than happy to pay a little more to ensure services are kept.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37156	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I would support an increase in council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37157	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase by the maximum!!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37158	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No, it should be kept the same and more cuts to services should take place.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37159	No Response	CTi. Planned changes to Council Tax	Yes if it means services can continue	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37160	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	yes increase it!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37161	No Response	CTi. Planned changes to Council Tax	No I don't support the councils plan to change the council tax. It is high enough.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37162	An individual	CTi. Planned changes to Council Tax	What exactly is the average household going to get from paying the council tax?	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37163	An individual	CTi. Planned changes to Council Tax	I am in full support as long as some of the proposals are reviewed due to the consultation process	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37164	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. The public need to understand that they get what they pay for.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37165	An individual	CTi. Planned changes to Council Tax	Yes increase by 5% at least.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37166	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. I believe it's time for us all to pay a bit more council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37167	An individual	CTi. Planned changes to Council Tax	Yes - and the council should request permission from the Scottish Government to also implement the 3% from last year which the council chose not to implement.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37168	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. Also my home has not had council tax reviewed for many years and I know I should be in a higher band. Reviewing bands could generate further income. I suspect I am two bands lower than I should be at least.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37169	An individual	CTi. Planned changes to Council Tax	To recoup money this is a fine idea however the services that council tax pay for are. Going down. This does not make sense and is unfair on residents.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37170	An individual	CTi. Planned changes to Council Tax	If this would fill the gap in the budget I would support this suggestion.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37171	An individual	CTi. Planned changes to Council Tax	Yes. If the council does not increase council tax, then the only outcome will be more job cuts and a reduction in vital services to the public	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

37172	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I agree with an increase but 3% is too much, people are already stretched to the limit with none or very little pay increases over the passed 10 years	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37173	An individual	CTI. Planned changes to Council Tax	Support planned changes. Lengthy council tax freeze has had serious negative effects on all areas now classed as priorities for a better West Lothian.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37174	An employee of West Lothian Council	CTI. Planned changes to Council Tax	sad reality that money needs to be found from somewhere	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37175	An individual	CTI. Planned changes to Council Tax	No I don't, I'm one of the unlucky households who have found my house to be in the higher bands and consequently have had my monthly council tax bill already increased this year by approx. Â£50/month - not because I use any more services than anyone else, but simply because over the course of my working life I have made a personal decision to plough my hard earned money into providing a nice home for my family. I find this extremely unfair. I know this sounds like I am bitter about it and I guess I am, it seems like if you work all your life, use your money for your family and are self-sufficient, someone will decide you are well enough off to pay more one way or another.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37176	An employee of West Lothian Council	CTI. Planned changes to Council Tax	No, as this would hit people on the lowest incomes.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37177	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, it is essential that as many essential council services are maintained.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37178	An employee of West Lothian Council	CTI. Planned changes to Council Tax	As I am not a resident of West Lothian I will not comment.	CT1	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
37179	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, but in some areas they lack ambition. There is more scope to look at the way things are done and what they cost and examining alternative models. Similarly, the attitudes and values of colleagues in some areas are detrimental to the council and will frustrate transformation unless addressed. There needs to be a root and branch review to ensure that the council only delivers the services it is required to do.	CT1	1. The respondent advised that they agree with the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
37180	An individual	CTI. Planned changes to Council Tax	I support the WLC 3% increase. I do not support the Scottish Governments increase in council tax for the upper three bands as this is a distortion of the system. A revaluation of all properties should take place so that all the properties that have increased in size but have not been revalued will pay the "correct " tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37181	No Response	CTI. Planned changes to Council Tax	Agree with 3% rise in council tax. I think reasonable enough.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37182	An individual	CTI. Planned changes to Council Tax	Why do people in band E-H have to pay more than others as I do not receive any extra services than others. Discrimination. You are not taking into account peoples circumstances within a household. I only have one monthly salary in my household and work to a tight budget as it is.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37183	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Increase the council tax to save front line services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

37184	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I have never agreed with the council tax freeze. This was a political stance that has brought the country to its knees. I fully support a rise in council tax to save the great services West Lothian provides.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37185	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Support that council tax is to be raised - I would imagine that the 3% would come in the form of a 1% rise each year.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37186	An individual	CTI. Planned changes to Council Tax	I do	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37187	An individual	CTI. Planned changes to Council Tax	Yes. You simply can't get more for the same amount of money. It's common sense to put it up!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37188	An individual	CTI. Planned changes to Council Tax	In general, yes but not if the rise is much greater than the rise in inflation.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37189	An individual	CTI. Planned changes to Council Tax	Yes Council Tax should rise by 3% but subsequent rises should be small and gradual.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37190	An individual	CTI. Planned changes to Council Tax	I agree. It is most important the West Lothian Council services that we currently are privileged to have are maintained and provided for.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37191	An individual	CTI. Planned changes to Council Tax	Reasonable idea although increasing this too much could cause a lot of anger towards WLC. Shouldn't rely on council tax.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37192	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes. The Council has to use all tools available to increase income and not increasing council tax would be folly.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37193	An individual	CTI. Planned changes to Council Tax	Agree that all properties should face a 3% increase. Do not agree with specific bands being targeted for increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37194	An individual	CTI. Planned changes to Council Tax	Yes but only if service in schools etc not effected.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37195	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I support this as it's the easiest way to reduce deficit. if households knew waste collection for example wasn't to change, I'm sure people wouldn't object to paying a little more over the course of the year	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

37196	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I am confused to why the cuts are so harsh if there's an increase of £150 million to local authority budgets, more than last year, whilst councils can increase council tax up to 3% (which this one is doing) which can help to generate a further £70 million. Meanwhile, the cost of living is going up and wages are stagnating. You are asking the people who live and work in your community to pay more, when they have less, to receive a reduced service. I appreciate that the austerity measures are being somewhat mitigated by the Scottish Government but you are asking people to legitimise a reduced service.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. Although additional funding was provided in 2017/18 it was not enough to cover the real terms cost increase in delivering services. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37197	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Again, like my first comment, I'm not sure where the budget gap is coming from. The council embarked on efficiency savings a few years ago and at that time, one of the main things to blame was the council tax freeze. This is no longer going on and while I appreciate the rise of costs to the Council, people who live in the council and council employees have had either frozen wages or a 1% rise. With living costs being further squeezed by the council, more people will have to rely on council services than previously.	CT1	4. The council is already doing this.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. Due to the real terms protection of other areas, such as the NHS and Police, local government has received a cut in funding at a time when costs are increasing. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered.
37198	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The very people who pay their council tax use least services. The people who don't pay council tax use and abuse more services. I agree in principle to tax rise if it improves essential services. Is the £73m funding cuts based on existing council tax payment? Is it based on 3% increase? What if the majority of people vote against a council tax increase? What if the people who don't pay council tax vote for an increase? Is this fair?	CT1	1. The respondent advised that they agree with the proposal.	The £73 million gap is based on an assumed increase in council tax income of 3% per annum. Elected members decide on the level of council tax as part of the annual budget setting process.
37199	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Should be local income tax NOT council tax. If houses value related etc - many of the electorate are likely to be seriously aggrieved. Proposed council tax rises are too much (too little to late) late in the day. Increased Council tax - t pay for reduced services ha-ha!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37200	An individual	CTi. Planned changes to Council Tax	I have no issue with an increase if the money is spent in the right way. I would prefer to be able to opt-out of an increase if the money continues to be used on schemes and plans which I object to.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37201	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Absolutely - should never have been frozen as we would then have had smaller increases which may have been more manageable for residents. Also need to increase efforts on collection of Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37202	An individual	CTi. Planned changes to Council Tax	Council Tax bands are wrong. Look at houses in higher bands £400-£500k, £1m+ - pay more	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37203	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, but I think there should not have been a freeze on this from central govt to influence the voting public at election time in recent years. If this was the case the council may not be in the position the currently find themselves. .	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37204	An individual	CTi. Planned changes to Council Tax	Don't think that above inflation increases should be agreed , especially when employees haven't had pay increases to subsidise this , could lead to increase cost in recovering this extra money plus the potential extra burden on household finances , poverty etc.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37205	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No, it was unfair to only increase band e and above. all bands should have been increased. I am happy to pay extra tax but only if done fairly.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37206	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I agree with the proposed changes to council tax however this will only have an impact on the people that actually choose to pay their council tax. The people that don't pay should be targeted for recovery and have more serious consequences for people who do not pay.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37207	An individual	CTi. Planned changes to Council Tax	No, as a public service worker I have only received a 1% wage rise annually over the last 4 years. With inflation I am over 13% worse off than I was then, and with a 3% rise in my council tax (which is already £250 each month) I will be further worse off which means I do not have the funds available to do things with my young family.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37208	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No having pay freeze for years and proposed 1% rise not appropriate to increase by 3%	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37209	An individual	CTi. Planned changes to Council Tax	Yes. More needs to be done to prosecute those with Council Tax arrears those.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37210	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% each year is quite steep when people are getting no pay increase or a measly 1%, if pay was increased as well then this would help.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37211	An individual	CTi. Planned changes to Council Tax	Council is expensive and should not be raised for lower bands	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37212	An individual	CTi. Planned changes to Council Tax	Not good to expensive more people unable to pay.costing council more to claim money.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37213	An individual	CTi. Planned changes to Council Tax	I definitely do not support this! I don't know anyone who gets even close to a 3% pay rise annually!!!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37214	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Any increase should be across the board. We all drive in roads, walk on pavements, run a tap and put out a bin. Everyone should pay.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37215	An individual	CTi. Planned changes to Council Tax	I think 3% is a bit high, but understand the need for the increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37216	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Concerned for the most vulnerable in the council	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37217	An individual	CTi. Planned changes to Council Tax	We've been lucky it's been frozen so long. Noone likes a rise but services need paying for. As long as it's seen to be being utilised in the local communities then I support it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37218	An individual	CTi. Planned changes to Council Tax	Certainly for the highest bands. The difference between bands should be greater. Those in lower banded properties are more likely to be on benefits and have less disposable income, therefore they would feel an increase in council tax payments more sharply	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37219	An individual	CTi. Planned changes to Council Tax	This kind of goes against all the savings and rationalisation in previous sections - don't object to modest rises as long as the council also take a serious look at those who don't pay but should.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37220	An individual	CTi. Planned changes to Council Tax	Yes , are staff salaries being increased by 3% to meet the costs of council tax increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement.
37221	An individual	CTi. Planned changes to Council Tax	No, strongly appose.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37222	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I feel that increasing council tax will have an adverse affect. Families are already finding paying bills and making ends meet week to week difficult. I would not mind paying an increase of 3% once but afterwards I would end up struggling to find the extra each month. This would have an effect on my family and this will contribute to other problems.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37223	No Response	CTi. Planned changes to Council Tax	If my council tax is increased by 3% in each of the next 3 years, as a single working mother of 3 I will not be able to afford to keep the Home we live in. I will have to sell my home and likely require council housing which will put more pressure on housing!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37224	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% or more per year and protect key services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

37225	An individual	CTi. Planned changes to Council Tax	Yes- however a step change over a few years would be kinder to the community given existing household pressures from wage stagnation and rising interest rates	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37226	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes but should be at the same rate as wage increase	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37227	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes...Fully. This should have been raised at 1% year on year ages ago, then this current situation would not be happening. Sod all the moaners, do it & make west lothian a great place again. Highest payers should be the highest earners, with properties valued at A£180,000 upwards. These people can afford it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37228	An individual	CTi. Planned changes to Council Tax	I feel everyone should pay something towards council tax not just working people who pay for everything. None working people must start to pay for provision they receive	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37229	An individual	CTi. Planned changes to Council Tax	For the services the council supply to me I strongly disagree. The council services appear to be designed for unemployed, drug addicts and foreigners who are always first to receive free housing and other benefits despite contributing nothing to our community. They are also first on all the lists for housing and to receive medical services from council	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Medical services are provided through the NHS.
37230	An individual	CTi. Planned changes to Council Tax	The council tax would have been better being increased by 1% over the years. This rise may well go ahead the council will need to ensure that all council tax is collected from all households, will there be a plan put in place for this as this will mean a significant rise for some people on lower incomes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears.
37231	An individual	CTi. Planned changes to Council Tax	Yes in general	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37232	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, support increase up to 10%.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37233	An individual	CTi. Planned changes to Council Tax	I support the council's planned changes to council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37234	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, but staff wages need to increase by a similar amount!	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37235	An individual	CTi. Planned changes to Council Tax	Yes - needs doing	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37236	An individual	CTi. Planned changes to Council Tax	Yes but only if it is applied across all bands - not just the higher bands. Why should people who have worked all their lives to be able to buy a nice home have to pay more than others ? That is unfair and simply wrong.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37237	An individual	CTi. Planned changes to Council Tax	Yes this seems fair and necessary	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37238	An individual	CTi. Planned changes to Council Tax	No. My main income is an ex serviceman's pension of £8,000, and for me every penny counts. I do not ask for your assistance so please do not force me into a position where I have to beg for help	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37239	An individual	CTi. Planned changes to Council Tax	I support this change	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37240	An individual	CTi. Planned changes to Council Tax	Rises should be approximately in line with inflation. Historical abuses by certain councils due to the ability to raise council tax by unlimited amounts should not be returned to, but the policy of having no increases is not sustainable, so a middle ground must be found.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37241	No Response	CTi. Planned changes to Council Tax	NO as average wage increases are around 1% if any. would struggle financially with increase and then may stop paying altogether which would further increase the deficit .	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37242	An individual	CTi. Planned changes to Council Tax	Raising council tax will not improve services because all you will do is give yourselves a pay rise. Try collecting all of the council tax owed. You forgot to mention those that do not pay council tax. This council is not better than Glasgow as they too write off millions each due to people not paying council tax. Stop trying to pull the wool over people's eyes. This council waste money. You have no qualified experts in any of your departments, therefore always having to outsource costing more. Wake up and smell the coffee.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of wasting resources.
37243	An individual	CTi. Planned changes to Council Tax	I agree with a Council Tax of 3% for now. Thank you.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37244	An employee of West Lothian Council	CTi. Planned changes to Council Tax	The increase is fair.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37245	An individual	CTi. Planned changes to Council Tax	Personally I would support an increased council tax if it would help fund necessary services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37246	An individual	CTi. Planned changes to Council Tax	No. Council tax is at the moment very high in West Lothian.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37247	An individual	CTi. Planned changes to Council Tax	Agree on 3% of Council Tax as long as everyone contributes. If this is not done the debt would increase probably leading to further cuts in our services. How much effort made by Council to recover rent and council tax debt? How much is owed for the last five years?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37248	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I support 3% increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37249	An individual	CTi. Planned changes to Council Tax	I suppose if they have a house that big they could afford a little bit more council tax?	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37250	An individual	CTi. Planned changes to Council Tax	do you support wage increase by 3% every year?	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council pay awards are agreed nationally as part of the collective pay agreement.
37251	An individual	CTi. Planned changes to Council Tax	Not all planned changes	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37252	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do agree that the council tax should be increased.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37253	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't agree that the tax should be raised but wages have had low increases for years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37254	An individual	CTi. Planned changes to Council Tax	I would support a 3% council tax increase to fund local services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37255	An employee of West Lothian Council	CTi. Planned changes to Council Tax	As a council employee our wages have basically been frozen for the last dozen years. But if council tax has to increase, fair enough as long as wages increase pro rata.	CT1	1. The respondent advised that they agree with the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37256	An individual	CTi. Planned changes to Council Tax	If a 3% rise is the only way to provide essential services then do it now! Steps would need to be taken to shield those with very low incomes BUT many people could cope with a 3% rise.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37257	An individual	CTi. Planned changes to Council Tax	No. You are suggesting cuts which are currently covered in our council tax. but now wish to make these cuts and increase the council tax. We pay a lot in Linlithgow for council tax, it is like another mortgage I have seen my council tax increased by quadruple and to say it has not been increased in 9 years I don't agree with. I have noted by tax rising each year and with the added water charge which was previously included. IF YOU ARE GOING TO INCREASE COUNCIL TAX LEAVE OUR FUNDAMENTAL SERVICES ALONE,	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Although the council collects water charges through council tax billing it is on behalf of Scottish Water. The council does not retain this income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37258	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes - Increase Council Tax as soon as possible.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37259	An individual	CTi. Planned changes to Council Tax	I think it's reasonable to expect a general increase but should be tied to inflation and perhaps a step change 1-2% for first couple of years would help people manage their own budgets	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37260	An individual	CTi. Planned changes to Council Tax	No. I would support removal of single person allowance - after all it takes the same amount of time to empty all bins whether full or not.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council tax reduction scheme is set nationally and determines the level of council tax benefits available to individuals. It is a means tested benefit available to those with income below the prescribed threshold.
37261	An individual	CTi. Planned changes to Council Tax	Yes - agree that there has to be an increase in the council tax to bring more money into the pot to support the council services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37262	An individual	CTi. Planned changes to Council Tax	No. Inflation is below 3%. A lot of people in West Lothian have had little pay increase over the past 7 years so this is unacceptable. An increase of 1% below inflation for that time is more acceptable.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers
37263	An individual	CTi. Planned changes to Council Tax	I support an increase in council tax to protect and improve our services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37264	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Council Tax shouldn't have been frozen for as long... That way, this increase wouldn't come as such a shock. But yes, given the numbers, I suppose I would support an increase as long as I felt I was getting value for money.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37265	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, should be more.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37266	An individual	CTi. Planned changes to Council Tax	Understand the reasoning, but what about families already struggling within the low income area, often on or below the poverty line.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37267	An individual	CTi. Planned changes to Council Tax	As long as a pay increase is awarded too	CT1	1. The respondent advised that they agree with the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37268	An employee of West Lothian Council	CTi. Planned changes to Council Tax	broadly. The Council should get to a place where as costs rise with inflation the council tax also rises. perhaps make it 5% for a couple of years and the peg it to inflation.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37269	An individual	CTi. Planned changes to Council Tax	If the council think that residents will be happy paying more for reduced services then they are very short sighted.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37270	An employee of West Lothian Council	CTi. Planned changes to Council Tax	NO 3% is fare	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37271	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. Taxes need to rise in order to mitigate any cuts that will be made.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37272	An individual	CTi. Planned changes to Council Tax	I agree to an increase to all property banding and not just the higher bands as per what we saw last year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37273	An individual	CTi. Planned changes to Council Tax	I would support a rise of up to 10% for all bands if it helped to maintain services.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37274	An individual	CTi. Planned changes to Council Tax	Yes as long as the money created is spent in a transparent way that impacts people living in West Lothian. The council needs to show clearly where the extra money is being spent and why and it should benefit the majority as much as possible.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. I be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37275	An individual	CTi. Planned changes to Council Tax	Why is the increase greater than inflation?	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. On this basis it is proposed to increase council tax by the maximum allowed by the Scottish Government.
37276	An individual	CTi. Planned changes to Council Tax	Would never support and increase it is the most unfair tax ever, As mentioned in a previous question, as a single person with a 25% reduction in council tax. The village has very little facilities and I am paying slightly less than neighbours with 4 full time salaries.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37277	An individual	CTi. Planned changes to Council Tax	Retired people cannot afford Council Tax. The tax is more than many mortgages today.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37278	An individual	CTi. Planned changes to Council Tax	This is rise to much I think considering there has been no such increase in wages of that caliber I think maybe a start of 1 to 2% would be more than enough	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37279	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No I feel that asking for 3% each year would be crippling for a lot of people. The council tax freeze shouldn't have happened for so long but a more rational approach is needed. You cannot give staff a 1% rise, cut terms / conditions / enhancements and hike the cost of tax it is just cruel. 1 - 1.5% per year seems reasonable.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37280	An individual	CTi. Planned changes to Council Tax	No. Salaries are not increasing enough for families to afford a rise like this. Families are being squeezed more and more for money particularly those within the civil service.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37281	An individual	CTi. Planned changes to Council Tax	Only in conjunction with a decrease in the number of councillors. Coucillors should be taking the lead in staff reductions and restructuring not exempt from it whatever spurious argument they may put forward. Why should they as a group of public service workers not be subject to similar reviews as are being imposed on all other groups ? 11 Senior councillors ? 22 Councillors ? When councils are being forced to make savings should lead by example. I would suggest a cut of say 20 % ? Surely achievable by combining councils and working together ? The remaining councillors working as a more streamlined group to deliver the reduced services. What savings would this produce over the period in question ? Scope for reduction of 20% of MSPs too ? Or more ? Releasing more money for services !	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The overall structure of local government, including the total number of councils and councillors, is determined by the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37282	An individual	CTi. Planned changes to Council Tax	I support an increase in council tax but not if you are then going to charge for council services. You can't expect people to pay more council tax and then have to pay more to access council services, whether it is an access charge or charge for parking. I don't however feel that all tax bands should be increased. Those with lower incomes cannot be expected to pay more when people are already struggling to make ends meet. Food banks are on the increase and taking more money away from people would just make the need for them greater and it is disgusting that in this day and age and in this country that these are even needed!!	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37283	An individual	CTi. Planned changes to Council Tax	I can see the sense in it being raised, but I'm not sure that a 3% increase every year will achieve the desired outcomes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37284	An individual	CTi. Planned changes to Council Tax	Emphatically No. Council tax is unfair as it is. The council should provide services on a "use" basis over and above a basic per adult head payment. Why should a person pay more for their sewage, road maintenance, rubbish collection because of the size of their house? One person in a larger house should pay less than three adults in a cheaper house for certain things.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37285	An individual	CTi. Planned changes to Council Tax	An increase to the council tax should be implemented as the cuts implemented so far are having a real impact on the services the council can provide. There comes a point when you need more funds to provide the minimum service	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37286	An individual	CTi. Planned changes to Council Tax	I fully support the 3% increase to ALL tax bands-fairer than continually putting burden on properties at top bands with no knowledge of household incomes in those properties.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37287	An individual	CTi. Planned changes to Council Tax	Yes, but this needs to be combined with a revaluation of properties	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37288	An individual	CTi. Planned changes to Council Tax	Yes as long as the money is ring fenced for local Council services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery and would therefore not be ring fenced for specific services.
37289	An individual	CTi. Planned changes to Council Tax	yes - no-one wants to pay more but we have to.....	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37290	An individual	CTi. Planned changes to Council Tax	As someone who actually pays council tax, no. My wages go up by 0.5% a year. A 3% increase in one of our biggest bills is crippling.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37291	An individual	CTi. Planned changes to Council Tax	Yes, provided the council is completely transparent about where the increase on our money will go. Also think the council needs to be transparent with the increase in income generated by the thousands more households moving into the area that will increase tax revenue.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The council tax assumptions include an estimated level of new build housing.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37292	An individual	CTi. Planned changes to Council Tax	yes but wages need to be reviewed to reflect inflation - remove public sector wage freeze	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37293	An individual	CTi. Planned changes to Council Tax	No I don't support the council tax increase of 3% as the cost of living is so high but the wages of most people don't increase so people will be worse off .	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37294	An employee of West Lothian Council	CTi. Planned changes to Council Tax	While I agree with the Council Tax increase of 3% this will again stretch most council workers household incomes, further seeking arrangements that will in course slim down the workforces earnings even further could or will be seen as a further stealth base pay cut.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37295	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, I support this measure.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37296	An individual	CTi. Planned changes to Council Tax	Although I think that West Lothian Council and the Scottish Government has done well in "freezing" Council Tax over the years I believe that they must be sensitive to the plight of the many families who as the Conservative Government has said are "just about managing" especially with the roll-out of this new Universal Credit and the Governments "austerity" programme. So any increase should take cognisance of the fact that it may push some people over the edge.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37297	An individual	CTi. Planned changes to Council Tax	I was disgusted that the council did not raise it the last time they had the opportunity. That vote was for councillors to keep their seats not for the good of the community. Those who struggle to pay are able to get help as I understand it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37298	An individual	CTi. Planned changes to Council Tax	yes if it helps to reduce the cuts	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37299	An individual	CTi. Planned changes to Council Tax	Make everybody pay the same rates regardless of the size of house or being single person. Everybody receives the same services the same with water and sewage rates.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37300	An individual	CTi. Planned changes to Council Tax	Yes, we need to pay for the services some how. 3% seems fair.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37301	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I would support the 3% rise but as an employee of West Lothian Council the cost of living increase would need to be in line with this to prevent the rise of poverty within the county.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37302	An individual	CTi. Planned changes to Council Tax	I accept 3% increase for each year of the financial plan. I could accept more if there were cuts to the administration.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37303	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The group agrees in principle with the increase of 3%. Council needs to review the rateable values of properties and this in turn could result in a reduced increase of 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37304	An individual	CTi. Planned changes to Council Tax	Council tax should be raised and arrears pursued more. If this was done the council would not need to cut other money	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37305	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If council tax is important why on earth has West Lothian council froze it for the last ten years? It's disgusting now that we have to pay 3% increase every year to fill the gap especially since you are cutting our services.... and why?? Because the council wanted to be voted the best council every year? It's partly because council tax didn't rise every year by 1% we are in this mess yet now our vulnerable communities are going to suffer I have lost all support and faith in our council and hope for our future	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37306	An individual	CTi. Planned changes to Council Tax	No... if you are reducing services provided why do we have to pay more money... if you are consolidating practises to mainly the Livingston area... why again do bathgate residents have to pay for a service they have to travel to and even pay for? Crazy I pay enough already	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37307	An individual	CTi. Planned changes to Council Tax	Council tax goes up folk will Just think better of claiming benefits my neighbour does better than me not working than me working	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37308	An individual	CTi. Planned changes to Council Tax	No. As a nurse i have not had an adequate pay rise in years. I don't feel i should have to pay out more when I am essentially being paid less.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37309	An individual	CTi. Planned changes to Council Tax	Yes, I support this Council Tax increase, but why only 3%?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The Scottish Government allows councils to increase council tax by a maximum of 3% annually
37310	An individual	CTi. Planned changes to Council Tax	We should pay a local income tax across Scotland that is controlled by central government Local authorities are not experienced in managing finances.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
37311	An individual	CTi. Planned changes to Council Tax	No. I canâ€™t see how you can justify such an increase with the level of cuts you are proposing at the same time. I feel it is becoming outrageous as very soon we will be paying a fortune for nothing at all.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37312	An individual	CTi. Planned changes to Council Tax	No. Not an increase across the board. Top bands must pay more.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37313	An individual	CTi. Planned changes to Council Tax	Yes but it's a hard sell to most when all proposals are cut backs. I have never taken part in anything like this before and I am losing the will a bit as it's taken me 2 hrs.. I have tried to put myself the decision makers shoes and don't envy the job! Most businesses review and increase costs or improve savings but people services are crucial and sadly mismanaged at all levels I think. Good luck!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37314	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes.. I would have been happier with a small increase the last 10years rather than 3% hikes per year. Needs must if it saves jobs	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37315	An individual	CTi. Planned changes to Council Tax	Only if wages increase in line with this. Public sector wages have been rising at the rate of 1% per year so this would adversely affect public sector workers x	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37316	An individual	CTi. Planned changes to Council Tax	I imagined Council Tax would pay for more than 19% of funding. I just wish council tax had not been frozen for the past however many years, along with other things like free prescriptions etc, Councils may not be in this financial state. I agree with Council Tax going up.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37317	An individual	CTi. Planned changes to Council Tax	council tax will have to go up..but it wont reduce the amount of cuts	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37318	An individual	CTi. Planned changes to Council Tax	Would an increase in Council tax help offset this?	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has assumed an increase of 3% in calculating the budget gap of £73 million. If the Scottish Government allowed councils to increase council tax above 3% this would help cover some of the identified gap.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37319	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't want to sound too negative about this, as I know the council needs to raise money from somewhere. However, 3% year on year is too much. In the last five years, my pay has increased by a maximum of 1.5% each year and is forecast to continue to do so over the coming years. If you need to increase taxes, so be it, but make sure that your employees are not falling behind in their earnings whilst you do so.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37320	An individual	CTi. Planned changes to Council Tax	Please consider raising the council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37321	An individual	CTi. Planned changes to Council Tax	Increase Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37322	An individual	CTi. Planned changes to Council Tax	Absolutely. Council Tax needs to be increased in order for the council to provide services. I do think that the housing bands need to be reviewed.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37323	An individual	CTi. Planned changes to Council Tax	So what you are saying is that we will not get any better services for this increase. We will be paying more and receiving less. In my opinion the council tax needs to be increased even more to ensure that we can get a better service, I think then people would at least feel they are getting something for the increase. The council tax freeze has been what has gotten us into this mess in the first place. We do need to see an improvement for our money I would suggest a 10% increase rather than just the 3%	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37324	An individual	CTi. Planned changes to Council Tax	No, it's already too high.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37325	An individual	CTi. Planned changes to Council Tax	Agree to 3% if across all bands as I was very unhappy with the previous rise which only effects band E and above	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37326	An employee of West Lothian Council	CTi. Planned changes to Council Tax	only the people with more money should be hit the hardest. This should be a means test. considering how well off you are.	CT1	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
37327	An individual	CTi. Planned changes to Council Tax	raise council tax to cover	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37328	An individual	CTi. Planned changes to Council Tax	Raise council tax to cover already there services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37329	An individual	CTi. Planned changes to Council Tax	I THINK THE LACK OF PROPER GOVERNMENT FUNDING AND NEVER ENDING INTERFERENCE HAS MADE THIS A DIFFICULT BUDGET TO MANAGE AND I THINK THE COUNCIL SHOULD HAVE INCREASED COUNCIL TAX FOR THIS AREA	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37330	An individual	CTi. Planned changes to Council Tax	THIS IS A DIFFICULT JOB TO BALANCE THE COUNCIL EXPENDITURE AND I STILL THINK A SMALL INCREASE IN COUNCIL TAX SHOULD HAVE BEEN INTRODUCED	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37331	An individual	CTi. Planned changes to Council Tax	IT IS ESSENTIAL TO MAKE AN INCREASE TO OUR FUNDING OF LOCAL SERVICES AND THE INCREASE IN COUNCIL TAX IS REQUIRED ASAP	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37332	An individual	CTi. Planned changes to Council Tax	Only agree if some of the proposed cuts are dropped. Council can't have its cake and eat it.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37333	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The Council Tax should increase to support services. Moderate rises of 3% would significantly help local service retention.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37334	An individual	CTi. Planned changes to Council Tax	Most money is wasted on contractors,private contracts and outside service providers not on hardworking council staff. I'm not sure now but did the council tax rise? If it didn't it should. Generally we have a council to be proud of but some of us need to pay more.	ct1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37335	An individual	CTi. Planned changes to Council Tax	Personally though I would prefer increased council tax	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37336	An individual	CTi. Planned changes to Council Tax	Yes never supported the freeze. We need to pay for a fair society.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37337	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, in the absence of an alternative system of local taxation.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37338	An individual	CTi. Planned changes to Council Tax	Would like to think that this could be reduced slightly as many families already struggle just above living wage line, and this would be a devastating for them if the increase happens every year and they themselves do not receive salary increase to same level.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37339	An individual	CTi. Planned changes to Council Tax	I don't know, can we introduce means testing for social care and see how much is generated from this first.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	This is being considered under the reviewing income and concessions section of the TYC consultation.
37340	An individual	CTi. Planned changes to Council Tax	No, because it is already extremely high already and takes a significant part of tax-paying working income each month (often around or even exceeding 1/4 of people's mortgages and which is paid on top of a mortgage which can often account to around 30-40% of a person's ENTIRE monthly income). A lot of services are not availed of or targeted for the people who are working throughout the day.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37341	An individual	CTi. Planned changes to Council Tax	No, The council should seek to cut benefits, and non-essential services prior to raising council Tax, noting that wage inflation is well below 3% and therefore tax increases will increase poverty in the area. Council tax bands continuing to be based on early 1990s valuations means that many bandings are mis-matched with property valuations across the county.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37342	An individual	CTi. Planned changes to Council Tax	If council tax increases then the public need to see substantial cuts internally with pay, pension, overtime, sick pay - the cost of sick pay should be looked at and reduced to only paying full pay to 2 weeks per year unless exceptional circumstances i.e. Terminally ill	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37343	An individual	CTi. Planned changes to Council Tax	Yes, it's time there was an increase, and I don't think many should oppose this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37344	An individual	CTi. Planned changes to Council Tax	Depends what the increase will be spent on	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37345	An individual	CTi. Planned changes to Council Tax	Yes i support the councils planned changes but not more than 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37346	An individual	CTi. Planned changes to Council Tax	3% per annum is fine. I didnt understand the governments freeze in the first place. If council tax had been increased by Â£10 per year since the freeze came in it would have made a huge difference to budgets while having a very small change to the monthly cost	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37347	An individual	CTi. Planned changes to Council Tax	hard to make poor families pay more tax and rent when they struggle and use local food banks. maybe increase depending on household income rather than a blanket amount per adult.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37348	An individual	CTi. Planned changes to Council Tax	I agree that Council Tax should be increased by the 3% pa that is permitted in order to reduce the impact on services. The government's Council Tax freeze was a somewhat disastrous political gimmick. Care should be taken to present a good case to the public to justify increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37349	An individual	CTi. Planned changes to Council Tax	Tax the higher incomes and don't make poverty harder making poor people pay increases in tax	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37350	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37351	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37352	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37353	An employee of West Lothian Council	CTi. Planned changes to Council Tax	This is an investment in the future and is essential. Increase Council tax to pay for it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37354	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax and you will remove this so called General Balance to be identified. I would rather pay extra and have the services that matter that have a freeze and loose everything. it would take an enormous amount of time,effort and money to reinstate these services if they are lost. how on earth is that saving money.	CT1	1. The respondent advised that they agree with the proposal.	The council has assumed an increase of 3% in calculating the budget gap of £73 million. If the Scottish Government allowed councils to increase council tax above 3% this would help cover some of the identified gap.
37355	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37356	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37357	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37358	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Forget partners. Increase Council Tax and manage the service correctly.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37359	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37360	An employee of West Lothian Council	CTi. Planned changes to Council Tax	A must. Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37361	An employee of West Lothian Council	CTi. Planned changes to Council Tax	A must have. Increase Council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37362	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Already have good schemes in place just keep them going. Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37363	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37364	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37365	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37366	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37367	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37368	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37369	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I strongly believe that the Tax should be increased to maintain and protect our services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37370	An individual	CTi. Planned changes to Council Tax	Increase council tax - it's understandable.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37371	An individual	CTi. Planned changes to Council Tax	Conditional support for 3% raise. Council Tax should not just top up the Council pot of cash - allocate and spend it where it is meant to be spent. It is wholly unfair to penalise those in the E-H band (I'm not in those bands). Everyone enjoys the same services and should pay their proportion.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37372	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No - Feel we should have an increase but not 3% each year. Maybe 1.5% each year.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37373	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I think that after such a long period of stagnation and punishing cuts there should be a planned approach to rises in Council Tax starting with a 4% increase	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37374	An individual	CTi. Planned changes to Council Tax	People in bands E-H will be more affected by a further increase given they have already experienced an increase, I think this should be taken into consideration when considering the % increase for these bands.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37375	An individual	CTi. Planned changes to Council Tax	Possibly but I do need to think about how this sits with proposed increases of paying for mainstream services such as brown bins. People will think they are paying twice for the same thing. Also it's tied to the national debates about increased taxation and taking funds from areas that a more well off to give to those that are least well off. Also I would be reluctant to support any increase without fuller information in particular about how you have factored in saving that be made through the health and social IJBs and the eventual hoped for move of resources from NHS secondary settings in primary care.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37376	An individual	CTi. Planned changes to Council Tax	Unfortunately yes but if you don't increase annually then you are left with a massive deficit	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37377	No Response	CTi. Planned changes to Council Tax	If you raise the Council Tax by 3% that would mean than any rises in benefits and pensions will be eaten up by that raise in council tax. The money that pensioners get and those on benefits is not enough at the moment if you raise this tax they will have to do without to pay it.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37378	An individual	CTi. Planned changes to Council Tax	No. The council tax is too high as it is considering the cuts in service but rise in council staff wages. For example the half size general waste bins, the council pays half the landfill cost but the taxpayers pay the same as before for less. Cuts in seasonal staff have saved the council money but again the tax payers pay the same for a lesser service.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37379	An individual	CTi. Planned changes to Council Tax	Council tax has already risen this year for not much of a difference to the services for public.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37380	An individual	CTi. Planned changes to Council Tax	As long as every band is increased by three per cent so that all residents are still paying fairly.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37381	An individual	CTi. Planned changes to Council Tax	No...we should however ensure that all arrears are pursued. I would probably support an increase of 1 to 2 %	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears
37382	An individual	CTi. Planned changes to Council Tax	No , it's very poor value for money	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37383	An individual	CTi. Planned changes to Council Tax	I fully support a rise in this manner but and itâ€™s a big but. The coucil MUST use this to fund better and improved services and not chuck if away to support the current poor service provided. Change is not liked and there will be winners and losers but if change is not made you will be asking for more in five years but shown little for it. Stop wasting the publics money on rubbish and overpaying staff. It should embrace communityâ€™s wanting to provide services like festivities like lighting and seek support from businesses. It should focus on getting youngsters working and not sitting on benifits being trapped in the system. You have a program called steps into work and I think the idea is amazing but the young are not daft itâ€™s better on benefits than to work. Why not support my business in providing real life job skills to young workers and not let them get trapped in the system.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
37384	An individual	CTi. Planned changes to Council Tax	I agree that some rise is required but it must be done to all bands and not just targeting the higher bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37385	An individual	CTi. Planned changes to Council Tax	Yes, it could be higher for higher banded properties	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37386	An individual	CTi. Planned changes to Council Tax	No, not at all. Poor management over the last decade has put you in this position and it should not be joe public who dig you out	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
37387	An individual	CTi. Planned changes to Council Tax	No I am entirely opposed to this change. I'm lucky if my salary increases 1%pa so I do not want to be 2% worse off every year to pay for a shoddy council service which I feel I get very little benefit from!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37388	An individual	CTi. Planned changes to Council Tax	Definetely NO. Why is always the same people paying for the inefficiency of others? NO.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37389	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I agree with the 3%. Maybe some of it could fund the use of brown buckets?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. With the proposed increase the council still faces budget cuts of £73 million.
37390	An individual	CTi. Planned changes to Council Tax	I support it in principal, however i firmly believe that those with the means to pay more (more expensive houses) should pay more. I do not want to pay more council tax for less services, basic economics!!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37391	An employee of West Lothian Council	CTi. Planned changes to Council Tax	increase it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37392	An individual	CTi. Planned changes to Council Tax	No not in any form. No to 3% per year as I already pay more due to the Scottish government increase on my council tax band which I deem discrimination to myself	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37393	An individual	CTi. Planned changes to Council Tax	Only if wages of council employees are raised by at least the same amount	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37394	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I am happy for my council tax to raise if it protects jobs and services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37395	An individual	CTi. Planned changes to Council Tax	3% each year so 9% overall is incredibly steep!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37396	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Would need to know how this would impact on low income families as rebate increases may be likely.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37397	An individual	CTi. Planned changes to Council Tax	absolutely not - there are far better ways of raising revenue	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37398	An individual	CTi. Planned changes to Council Tax	it would seem that we would end up paying more for a reduced service, what would we see improved? Or even better what would the funding "really" have to be to ensure that cuts in services would not happen? The fact that we have a budget gap at all is the worrying concern	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37399	An individual	CTi. Planned changes to Council Tax	I do worry this suggests cuts to staff. I'm sure all staff would rather pay more council tax to help the budget rather than lose jobs!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37400	An individual	CTi. Planned changes to Council Tax	Again I disagree with cuts. The council tax should be increased to stop any further cuts. There has been too many cuts already to staffing levels.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37401	An individual	CTi. Planned changes to Council Tax	Again increase the council tax!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37402	An individual	CTi. Planned changes to Council Tax	I agree a rise in council tax is a given. I would rather pay more for Council Tax and still have the services available rather than losing the services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37403	No Response	CTi. Planned changes to Council Tax	I do not think that people in bands E-H should have another increase having just had one - perhaps the lower bandings could also have a % increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37404	An individual	CTi. Planned changes to Council Tax	I don't really like the idea of having to pay more council tax, however would rather protect something like social care funding or education and if that is the trade off then I would accept it as necessary	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37405	An individual	CTi. Planned changes to Council Tax	take into account that not everyone gets a pay rise so why make it more difficult to that part of your community .	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37406	An individual	CTi. Planned changes to Council Tax	No! main reason being i do not get any pay rises , not had one in over 6 years and you expect my family to fund your 3% increase and look happy ?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37407	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No the cost of living hasn't gone down it's hard enough to live as it is	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37408	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% for the customer who actually pays it! If everyone paid what they were supposed to pay how much more would the 19% be? Maybe should be encouraging non payers rather than targeting those who pay faithfully each month.	CT1	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37409	An individual	CTi. Planned changes to Council Tax	Yes in fact I think it should be more for houses in areas of least deprivation SIMD 9 and 10. I think 5% in those areas. About time council tax was increased	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37410	An individual	CTi. Planned changes to Council Tax	No. Like a number of folk I have not had an increase to my salary since 2008. We're already struggling and having to pay an extra 3% each year would mean we could no longer afford it. This in turn would put added strain on the council when we turn to you for support.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37411	An individual	CTi. Planned changes to Council Tax	If the council tax is only increased from Tax Bands E-H, yes. I don't believe council tax should be increased for lower bands.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37412	An individual	CTi. Planned changes to Council Tax	No, increase it for the Higher Band areas, and double it if they own a holiday home or any other property that's lying empty from one month to the next	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37413	An individual	CTi. Planned changes to Council Tax	Yes I believe if the government hadn't put a freeze on council tax for the last nine years WLC would not have been in such dire need to reduce spending now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37414	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes - we need to increase council tax of more jobs will have to go.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37415	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Not at all. Pushing people further into poverty gap with increased tax for services which are clearly being reduced. How will this be more beneficial to the people? Why is council tax increase required when you plan on making the savings and also planning to be charging elderly for care. Wasted money is clear throughout the council. -changing council logo with everything being rebranded - why? Waste of money. I do not pay council tax for that nor did I have a say in it. -logos on bins so unnecessary - again massive waste of money. The magazine!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
37416	An individual	CTi. Planned changes to Council Tax	If it means less cuts to the care and education sector yes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37417	An individual	CTi. Planned changes to Council Tax	I would struggle to pay it	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37418	An individual	CTi. Planned changes to Council Tax	Not until 32 Councilâ€™s are reduced to about 8	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The structure of local government is determined at a national level.
37419	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No - we already pay a factor fee in our estate where this covers quite a few things which the council tax covers. I feel that the council tax is only really covering us for water and waste. I would be happy to pay the increase if teacher wages increased in real terms - as a pay rise of 1.5% does not do anything when council tax is raised by 3%.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax pays for many more services across West Lothian than factor fees for specific estates.
37420	An individual	CTi. Planned changes to Council Tax	Services means manpower. If the work is needed to keep West Lothian a good place to live in then the workforce must be kept. Council tax needs raised to help here.	CT1	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37421	An individual	CTi. Planned changes to Council Tax	It needed to rise years ago. Forget party politics and votes for the party which supplies free! We must pay for what we use and need. Get real West Lothian councillors.	CT1	1. The respondent advised that they agree with the proposal.	This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
37422	An individual	CTi. Planned changes to Council Tax	I support the 3% rise year on year. I only decry the Council's introduction of the 3% in their Transforming your Council in the small print on the last page as a characteristic of all that is wrong with commercial underhand practice	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37423	An individual	CTi. Planned changes to Council Tax	Would not mind increase as long as we receive good services. Can't even get a grit bin for the winter just now.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37424	An employee of West Lothian Council	CTi. Planned changes to Council Tax	The Council Tax freeze has effectively led to people being more able to manage already stretched budgets however, there is a growing need for these increases to ensure service delivery across the local authority.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37425	An individual	CTi. Planned changes to Council Tax	No . Why should hard working people have to pay for the people who do not contribute . This is not a fair society . My council tax has already increased this year just because i live in a 4 bed house . How can that be that we make the people who try their best pay for the ones who do try . i know people who get paid to stand outside and inside the pub every day and dont work . is that fair that they do this while i work and cant afford to do such things dont increase the council tax its a large enough burden on the working class	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37426	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes absolutely - why should people not pay more? we can't expect better or even the same services if we don't. raise by 4%. its ridiculous it hasn't been before now. nothing for nothing...	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37427	An employee of West Lothian Council	CTI. Planned changes to Council Tax	No, 15% over all is a big jump with people already struggling living alone I get reduced amount of Â£91 a month which for one person is a lot. increasing that I know I would struggle on a comfortable wage, I manage now but many don't and many more wouldn't	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37428	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes I support this and feel it should've been done last year. I do, however, believe that if Council Tax is being increased then the staff pay increase should not be scrapped.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37429	An individual	CTI. Planned changes to Council Tax	I do not believe it is unreasonable to introduce a 3% council tax rise year on year, as the council tax freeze imposed by this Scottish Government over the last ten years has been detrimental to the working of not only our council but that of all other councils within Scotland.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37430	An individual	CTI. Planned changes to Council Tax	Council tax is unfair. A fully occupied small house will put more demands on the council than a single occupied large house. Consider alternatives to bolster the tax by charging for individual services such as installation of water meters or charges for additional waste collection.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. All water charges and income are the responsibility of Scottish Water.
37431	An individual	CTI. Planned changes to Council Tax	Yes, but concerned at the financial impact on people who have no or minimal pay increases, when all costs rise every year. All alternatives need to be explored and if possible increases kept below 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37432	An individual	CTI. Planned changes to Council Tax	Whilst I appreciate council services, passing on funding gaps to residents who are struggling would not be viewed as a caring council.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37433	An individual	CTI. Planned changes to Council Tax	The council should learn to accept the decisions of the Scottish Government and increase Council Tax by the permitted amount as soon as it is announced. I support an increase of 3% only.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37434	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Feel a council tax increase is required.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37435	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Not really. It sounds like more provisions are being taken away from people but there isn't an increase in job security or services etc available for this extra money. So we are paying more but for what?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37436	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I'm in total agreement that council tax must be raised to try and protect very necessary public services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37437	An individual	CTI. Planned changes to Council Tax	I would rather pay more tax than see more cuts to services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37438	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I personally don't see much of an issue with rising council tax however there would be many people put at risk if they could not afford their tax. They might eviction/unemployment etc so there must be measures put in place to help people within SIMD 1-4	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37439	An individual	CTI. Planned changes to Council Tax	Of course you need to be able to put up Council Tax. And perhaps to consider higher taxes for the upper bands is not a bad thing.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37440	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Increase it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37441	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Happy to pay more Council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37442	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes and I don't think the decision to freeze it last year was an intelligent decision. It should be increased by the maximum it can be each year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37443	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes-it is an unfortunate necessity I believe	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37444	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't have an issue paying if this saves services. The council tax has not risen for year and everything else has.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37445	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Agree with 3% rise in council tax but every second year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37446	An individual	CTi. Planned changes to Council Tax	Yes, however those entitled to assistance with council tax, such as council tax reduction, will need to be safeguarded against increases as it is likely they will suffer debt issues from the increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37447	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. If this does not happen i think the council will have a big issue with balancing the budget i do not know where and equivalent saving can be made..	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37448	An individual	CTi. Planned changes to Council Tax	Yes , why not just increase it by 10 Percent initially, make sure everyone pays what they owe . Invest more to find fraudulent claims for services to make financial gains . Too many people ripping the system to bits .	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37449	An individual	CTi. Planned changes to Council Tax	Yes, raise it. Ludicrous to continue to cap and reduce services instead.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37450	An individual	CTi. Planned changes to Council Tax	I would agree to a 3% increase ONLY if meant that the Ability Centre, which is a lifeline to me were to stay open.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37451	An employee of West Lothian Council	CTi. Planned changes to Council Tax	What choice do we have when rents are also going to rise by 3-4 % I have always felt it was a mistake to not have at least a 1% increase in council tax over the last several years. A vote 'puller' does not always have the best outcome in the longer term.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37452	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I support an increase in the Council Tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37453	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, as long it is across all bandings, not just E and up.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37454	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I agree that Council Tax should be reviewed. 3% is fine for the higher bands E-H, however I think that a lesser amount should apply to the lower bands maybe 1% or 2%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37455	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. I feel it should have been increased long before now to keep up with inflation but understand that the Council Tax freeze was a requirement of the Scottish Government and not the Council.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37456	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes But to all bands not just higher bands	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37457	No Response	CTi. Planned changes to Council Tax	I really don't know how residents of WL who also work for WL council are expected to meet an up to 30% increase in council tax bill over the next 5 years when there are real terms cuts to wages. This will have a big impact on quality of life in the area. People who are working hard can only feel themselves being squeezed and squeezed which actually removes the motivation to work.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37458	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes- also major effort should be undertaken to reassess the current banding to reflect the true value of properties as this has not been undertaken for some time.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37459	An individual	CTi. Planned changes to Council Tax	Yes. however this should be aimed at those who can afford the increase as some may find this unsustainable	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37460	An individual	CTi. Planned changes to Council Tax	Taking the view that the Council Tax is a necessary evil, there is no reason why it should not rise annually, although this should be pegged to no more than the prevailing rate of inflation. Ideally, the Council tax itself should be revised to ensure that it related more closely with the number of people resident in a property and the level of services which they used.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37461	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, however the council should be pressuring the Scottish Government to reform Council Tax for the whole country as the system is outdated and could potentially provide increased income to the council through a fairer assessment of a households contribution.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37462	An individual	CTi. Planned changes to Council Tax	the more you increase the council tax and the more you raise the less the Scottish government will be allowed by the british government to give you	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	There is no relationship between the funding provided from the UK government to the Scottish government and council tax. The UK government has no direct influence over the level of funding provided to Scottish local authorities.
37463	An individual	CTi. Planned changes to Council Tax	Yes if it means keeping services like waste collection and instrumental tuition	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37464	An individual	CTi. Planned changes to Council Tax	It is not far that the higher bands which have already had a government increase should pay more again! Middle earners getting squeezed again and picking up the slack. Perhaps a sliding scale increase for the other bands.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37465	An individual	CTi. Planned changes to Council Tax	No. Surely you can see that the population will comprehend any logic behind 3% increases a year for 5 years. As you know that is 15.9% over the 5 years. How does that relate to increases in the majority of the population of West Lothian's average change in salary levels? Or change in benefit levels? If the cost of running the council has or will increase by this amount then are you assuming this has been and will be reflected in the wider economy and salary levels of the population?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation.
37466	An individual	CTi. Planned changes to Council Tax	to an extent.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37467	An individual	CTi. Planned changes to Council Tax	The cuts that are being proposed in this paper may have been less if the Council Tax had been increased effectively over the past 10 years or more.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37468	An individual	CTi. Planned changes to Council Tax	Yes, I think it needs to be increased	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37469	An individual	CTi. Planned changes to Council Tax	No, I don't think it should be increased but if it must it should only be by a tiny percentage.	CT1	2. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37470	An individual	CTi. Planned changes to Council Tax	I appreciate it is a difficult decision. No one wants to pay more. I support what the council decides.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37471	An individual	CTi. Planned changes to Council Tax	I'd rather not pay more of course however recognise that increases are required. Having already had an increase this year, this reads that you propose a 3% increase each year for the next 5 years? This is excessive.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37472	An individual	CTi. Planned changes to Council Tax	A 3% rise would be fair enough if wages also increased by that amount but the reality for many residents in West Lothian who work for public services ie the NHS is that there has been a pay cap freeze for many years in real terms our Council Tax is increasing.	CT1	1. The respondent advised that they agree with the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37473	An individual	CTi. Planned changes to Council Tax	Council tax should rise for ALL bands to ensure we keep our council employees and facilities. It is grossly unfair that the SNP is making higher rate bands pay more for schools!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37474	An individual	CTi. Planned changes to Council Tax	Not against it. But only a complete fool wouldn't want to wring meaning improvements in the cost of and delivery of statutory services. It's not really about money. It's about your effectiveness. Are you able to propose a steeper increase in council taxes.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37475	An individual	CTi. Planned changes to Council Tax	Across the board increase and not just the higher bands, this is a charge for central services for all!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37477	An individual	CTi. Planned changes to Council Tax	Reduce C Tax for under £12,000 income even if increasing by 3%	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37478	An individual	CTi. Planned changes to Council Tax	Yes to annual increase of at least 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37479	An individual	CTi. Planned changes to Council Tax	Everyone in employment should pay a share of council tax. It is totally unfair that a house occupied by one person or a couple - especially old people - should pay for households with 4 or more adults living in it. Pensioners would move to small houses - but where are they!!	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37480	An individual	CTi. Planned changes to Council Tax	I feel that all council tax bands should be increased not just the higher bands. It is already proportionate so why does it need to be done more. The affect would be minimal for those most in need due to the benefit system and safeguards currently in place. We should be charging for certain services. Other areas have done this for years so would not come as a shock and a good way to generate income.	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
37481	An individual	CTi. Planned changes to Council Tax	yes although I think it would be across all bands. Already proportionate.	CT1	1. The respondent advised that they agree with the proposal. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37482	An individual	CTi. Planned changes to Council Tax	Working people are feeling the pinch too. The council should increase by 3% a year but no more. It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

37484	An individual	CTi. Planned changes to Council Tax	Any increases should be linked to inflation.	CT1	2. The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37486	An individual	CTi. Planned changes to Council Tax	It is a hard but necessary pill to swallow.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37487	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes. Go beyond 3% pa - a bit of progressive property-based taxation never hurt anyone other than those who can afford more.	CT1	1. The respondent advised that they agree with the proposal. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37488	An employee of West Lothian Council	CTi. Planned changes to Council Tax	The Scottish Government was wrong to impose a restriction on council tax increases. A modest 1% year on year would have been much more preferable rather than 15% over 5 years. Those least able to pay should continue to be protected but this will squeeze some on the cusp of financial difficulties. If the 3% is used, it should be reviewed year on year taking into account other savings.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

37489	An individual	CTi. Planned changes to Council Tax	The infrastructure needs looked at. Once we were proud to walk around. The cut backs to roads and NETS is unnecessary. If it means increasing the council tax then so be it. Lack of investment now means we will all suffer later in life.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37490	An individual	CTi. Planned changes to Council Tax	My council tax increased this last year! My salary has not increased to pay for the increase in my council tax. Just because you live in a band E-H house doesn't mean you have spare money to pay for a 3% increase. A smaller percentage across all bands would have been fairer. As it is I am now paying the equivalent of an extra month of tax.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37491	An individual	CTi. Planned changes to Council Tax	Ok. It wouldn't worry me if public sector workers got a pay increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37492	An individual	CTi. Planned changes to Council Tax	If it is spent wisely	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37493	An individual	CTi. Planned changes to Council Tax	I agree with increasing the council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37494	An individual	CTi. Planned changes to Council Tax	Yes, I would be willing to pay more Council tax in order to protect services. I have not commented on many of the proposals as they all have merit. However, I strongly believe that caring for our young people, the vulnerable and elderly must be prioritised. As a family our budget is already very tight but we would pay more Council tax. Perhaps even 4 or 5%? What impact would that have on cuts?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37495	An individual	CTi. Planned changes to Council Tax	I agree with an increase in council tax as long as it is kept at 3% for year 2018/19 and 2022/23	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37496	An individual	CTi. Planned changes to Council Tax	Nobody wants to pay more council tax- however due to not having a minimal charge for many years we are now in a position where we are not used to increases. A small increase would go a long way in helping this situation we are in.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37497	An individual	CTi. Planned changes to Council Tax	Not body wants to pay more but if it will be used to support our children and elderly then it's a good idea.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37498	An individual	CTi. Planned changes to Council Tax	Yes. The Council Tax freeze has gone on for too long and has deprived local government of much-needed funding for too long, ultimately leading to situations such as the one WLC finds itself in.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37499	An individual	CTi. Planned changes to Council Tax	I accept a 3% increase in Council Tax in each of the 5 years 2018/19 to 2022/23. For an average band D property this works out at an increase of £3.38 per month less than the cost of 2 Lattes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37500	An individual	CTi. Planned changes to Council Tax	I was surprised how expensive Council Tax is in WL when I moved here but I nonetheless support slight increases. I do think the whole Council Tax system is overdue a change and also think that soaking the rich to raise funds is not very sensible either (I don't love in the higher band property zone)	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37501	An individual	CTi. Planned changes to Council Tax	I agree there has to be an increase. I did not agree with the freeze we have had in the first place. Now we are going to have to pay heavily rather than increasing it gradually. Another unsustainable government policy!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37502	An individual	CTi. Planned changes to Council Tax	Some, but I don't think education should be cut back	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37503	An individual	CTi. Planned changes to Council Tax	Would suggest you collect your outstanding arrears first	CT1	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37504	An individual	CTi. Planned changes to Council Tax	If council tax remains means tested then that would be fair enough but while things are so tight those who warn more could pay more	CT1	1. The respondent advised that they agree with the proposal.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37505	An individual	CTi. Planned changes to Council Tax	I think the council should increase council tax to the maximum allowed, and make representation to the Scottish Government to allow for further increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37506	An individual	CTi. Planned changes to Council Tax	No. I will not be able to afford these increases, especially with the lack of salary increase and potential increase in income tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37507	An individual	CTi. Planned changes to Council Tax	You should not raise council tax on poorer people or if people have not had a wage rise above the 3%.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37508	An individual	CTi. Planned changes to Council Tax	Council tax, which is really property tax, is wrong. There should be a form of income tax. As a pensioner my income will not increase by 3% every year.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37509	An individual	CTi. Planned changes to Council Tax	It doesn't apply to me	CT1	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
37510	An individual	CTi. Planned changes to Council Tax	Don't support the 3% my wages have not risen in 8 years!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37511	An individual	CTi. Planned changes to Council Tax	Do not oppose an increase in council tax if council guarantee no cuts in uplifts for garden waste, domestic, etc	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37512	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Increase council tax by 3%. 9 years with no increase was a bonus.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37513	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes the council tax can not be frozen any longer. We have to pay for public services and 3% is a fair amount to ask the public to pay. All my family and friends agree.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37514	An individual	CTi. Planned changes to Council Tax	I support an increase in the Council Tax, I would prefer to pay more rather than lose services. I support any savings that do not reduce the service. Reducing service does not reduce demand.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37515	An individual	CTi. Planned changes to Council Tax	In my opinion tax is a fraud and NO man of this earth should have to pay tax!! But that's just one's opinion.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37516	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I totally agree with council tax increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37517	An individual	CTi. Planned changes to Council Tax	Yes to tax 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37518	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes this is question I can answer - yes in agreement to an increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37519	An individual	CTi. Planned changes to Council Tax	Sounds like a good idea BUT can you please collect all the money which is owned by council tenants?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37520	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% PA is a huge amount. Ok as a one off but not every year. It is impossible to predict job security etc. in 5/10 years time so not right to commit everyone to such expenditure.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37521	An individual	CTi. Planned changes to Council Tax	please please please INCREASE the Council Tax. We are HAPPY to pay more to retain / maintain / increase services provided by the Council. The Scottish Government's continued refusal to is nothing short of a disgrace which whilst it may win them votes in the short term is going to have long term negative effects on communities	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37522	An individual	CTi. Planned changes to Council Tax	If everyone put up their prices to cover costs then the vicious circle of increased wage demands kick in give with one hand and take away with the other, politics at its best.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37523	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, should be doing this yearly rather than waiting until its far too costly for people	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37524	An individual	CTi. Planned changes to Council Tax	I agree as I don't pay a penny as I am on benefits but feel slightly guilty for those that have to pay this. The banding seems very unfair as those of the normal working class are paying a lot compared to those who can afford much larger houses and probably don't pay for many council services as they pay contactors to maintain their local areas.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37525	An individual	CTi. Planned changes to Council Tax	I fully support changes to Council Tax in light of the severity of Scottish Government cuts to local government funding. A 3% increase to council tax is only a 65 pence a week increase to an average Band D household each year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37526	No Response	CTi. Planned changes to Council Tax	None of this would be necessary if council tax had been increased instead of allowing the SCOTTISH Nationalists to freeze it for years. So I say increase the tax and cut nothing.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37527	An individual	CTi. Planned changes to Council Tax	Any increase to council tax should be for all bands	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37528	An individual	CTi. Planned changes to Council Tax	No all of them, some are very short sighted.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37529	An individual	CTi. Planned changes to Council Tax	I accept this increase if it means services like music tuition are not affected.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37530	An individual	CTi. Planned changes to Council Tax	Yes. Council tax has to rise.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37531	An individual	CTi. Planned changes to Council Tax	As long as people can afford to pay it. My wages hadn't risen for 5 years and now only by 1%. I pay the same amount as my neighbour who has a bigger house, there are 6 of them and only 2 of us. Often feels really unfair!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37532	An individual	CTi. Planned changes to Council Tax	I believe that people who are able should pay more. For many people, they are already paying as much as they possibly can and any increase will push them into poverty. The whole system should be reviewed and should be means tested, rather than based on outdated property values.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37533	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes definitely. The Council tax should never have been frozen in the first place.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37534	An individual	CTi. Planned changes to Council Tax	Not at all. You need to review the bands for older houses. What are we paying more for? Nothing.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37535	An individual	CTi. Planned changes to Council Tax	No Salaries aren't going up by 3% Can the council make more effort to collect arrears of Council Tax which I am sure there must be People are hard pressed for finances and with all the cutbacks and extra charges proposed it is going to amount to more than a 3% difference economically Chase up rent arrears and back Council tax to help balance the books	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. House rent income can only be used to provide council houses and cannot be used for non housing services.
37536	An individual	CTi. Planned changes to Council Tax	I am in band E and already paid an increase. I never supported the council tax freeze and there wouldn't be as much of an issue now if it had never been frozen. Fully agree that all bands should pay more	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37537	An individual	CTi. Planned changes to Council Tax	Yes BUT the council needs to evidence that the additional monies is going to the funded local services that would have been cut otherwise.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37538	An individual	CTi. Planned changes to Council Tax	Yes this is a must and will not affect those who do not pay anything Only the water and sewerage charge	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37539	An individual	CTi. Planned changes to Council Tax	We expect prices to go up, but predefining that at 3% pa doesn't work for me. As stated earlier, my council tax bill is £10 per day (including water, so £2763 pa - £7.57 per day). Still, it is a lot of money.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37540	An individual	CTi. Planned changes to Council Tax	No, I feel this would impact our income considerably. With recent interest rate rises, cost of living and fuel cost this could put families into debt.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37541	An individual	CTi. Planned changes to Council Tax	The council tax should be increased each year across all bands. Those on really low incomes receive help by way of Council Tax Reduction & the majority of residents must realise that the services they require & expect have to be paid for.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37542	An individual	CTi. Planned changes to Council Tax	Yes and I would support a larger increase in council tax. I believe that those of us who earn the most should pay the most so those on the top bands should pay more. In line with this banding data should be updated to reflect the true value of people's homes. For instance, my banding is much lower than it should be as my house has been extended since it was last classified. (7, Redhouse Cottages, Threemiletown)	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37543	No Response	CTi. Planned changes to Council Tax	I would rather see a slight increase in our taxes / rates !	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37544	An individual	CTi. Planned changes to Council Tax	Put up the council tax and provide the necessary services required. Politicians have played politics too long. This is a country wide problem, other authorities have the same issues, how will cutting staff solve this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37545	An individual	CTi. Planned changes to Council Tax	Absolutely not. Our council tax went up by around £400 this year alone. That is not affordable or sustainable to have those levels of rises. paying the Council £300 per month is ridiculous - and now the suggestion seems to be we get charged even more for even less. We simply cannot afford to pay more.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37546	An individual	CTi. Planned changes to Council Tax	No. I can't afford increases my salary has dropped after being made redundant. . This worries me so much. I am in the higher group - why just review the higher band ? That is discriminatory? . I can't sell cause I can't afford the move/lawyers fees/stamp duty. I am stuck here in the middle. Please don't increase the high end but the percentages suggested.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37547	An individual	CTi. Planned changes to Council Tax	I can't contribute any more in tax or NI than I am- I have worked my entire life- as an individual I can't take on board any more demands from my money . I disagreed strongly with national government policies- free childcare for under fives and so many fit young people who don't work and don't want to work.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Income tax and national insurance are contributions collected and distributed by the UK and Scottish governments. The council must implement national priorities and initiatives as part of its funding settlement from the Scottish Government.
37548	An individual	CTi. Planned changes to Council Tax	Salaries are stagnant and so large increases that our out of sync should be avoided. Better use and management of the existing tax pot would be a better approach.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37549	An individual	CTi. Planned changes to Council Tax	No I am a single parent that has to do 2 jobs to get buy the cost of living is going up and my wages are not. I'm struggle to survive.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37550	An individual	CTi. Planned changes to Council Tax	Partially - for an increase in cost, there also has to be an increase in service levels, even after taking into account, cost reductions.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37551	An individual	CTi. Planned changes to Council Tax	Yes, happy to pay a bit more council tax if it means retaining our services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37552	An individual	CTi. Planned changes to Council Tax	I support an annual increase but not as much as that in first year.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

Transforming Your Council Consultation 2017

37553	An individual	CTi. Planned changes to Council Tax	I agree if this means the services required for disabled & older people remain open	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37554	An individual	CTi. Planned changes to Council Tax	I'd like to understand creative options and consequences of 1. Much higher council tax targets 2. Current proposal 3. £0 council tax target (as per Aylesbury Vale)	CT1	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
37555	An employee of West Lothian Council	CTi. Planned changes to Council Tax	The council tax is paid to fund other parts of the services. I would hope that the increase of council tax not only increases revenue but does not impact on the services delivered through the accumulation of the council tax funding.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37556	An individual	CTi. Planned changes to Council Tax	Yes, as long as reductions are possible for people in need.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37557	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If raising the council tax will provide some protection to services then I would support this decision as long as it is applied to all properties as I have already had an increase based on the council tax band I am in.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37558	An individual	CTi. Planned changes to Council Tax	3% is too much, especially when there is so much waste in manpower clearly evident. I would accept 1%, perhaps 2%. But the latter would be conditional on me not continuing to observe such wastage such as waste in manpower that I frequently am observing. See 1.a	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37559	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I do but staffing may need to be look at in Revenues as collection may be more difficult under current climate.	CT1	1. The respondent advised that they agree with the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37560	An individual	CTi. Planned changes to Council Tax	I would agree to a 3% increase but not every year! This is way too much for families.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37561	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Reducing services to the public but increasing the Council Tax by 3% i dont think people will be happy with this, the council tax should have been increased by 1% over a number of years. When Council salary is only increased by 1% each year, but council tax is increased at 3% working staff will be in poverty.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Previously the council was not allowed to increase council tax as instructed by the Scottish Government.
37562	An individual	CTi. Planned changes to Council Tax	should have been increased by a smaller figure years ago	CT1	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Councils were prohibited from increasing council tax until 2017/18 due to the conditions attached to local government funding. The Scottish Government would have reduced any individual council's overall grant funding if they increased council tax.

Transforming Your Council Consultation 2017

37563	An individual	CTi. Planned changes to Council Tax	If changes are made will it be done on the basis that some people can afford to pay more whilst lower income people. elderly and families, will be given consideration.	CT1	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands however individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37564	An individual	CTi. Planned changes to Council Tax	I think it is very important to raise taxes. Especially for people in the upper tier. We cannot expect everything to be perfect if we do not accept that tax needs to increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37565	An individual	CTi. Planned changes to Council Tax	I don't agree with this as there are low income earners who cannot afford c.f. as it is so it's unfair to increase and cause financial difficulties for them. Fell on at thus	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37566	An individual	CTi. Planned changes to Council Tax	NO - salaries are not increasing and a 15% increase over 5 years would put many families in extreme financial hardship.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37567	An individual	CTi. Planned changes to Council Tax	The SNP government have done all councils and individuals a grave disservice by not increasing the council tax for 9 years. A modest increase of 1% over these years would have meant this rapid increase of the coming years could have been avoided. Short term thinking for short term gains. The council should guard against basing its spending on attaining the maximum increase each year and concentrate on building a surplus for future	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37568	An individual	CTi. Planned changes to Council Tax	I disagree with the principle of Council Tax and would prefer to see charges linked to usage e.g. a family of 4 will attract a higher tax than a single occupy regardless of size of property.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37569	An individual	CTi. Planned changes to Council Tax	Try to keep to inflation. Hopefully Government Grant will increase if the rate of Scottish income tax increases.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37570	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, I agree to an increase to ALL bands - it is very unfair if only the higher bands are effected. This tax should have risen years ago and then WLC might not be in this state now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37571	An individual	CTi. Planned changes to Council Tax	yes and no since we heading for brixit but if it had to be done so be it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37572	No Response	CTi. Planned changes to Council Tax	I refer to West Lothian Council's budget consultation regarding budget proposals for services in the future. Firstly I would be happy to increase the amount of council tax I pay. I know that there are families who would find this difficult but would hope that there would be reductions in place for the less well off. I believe that those people who can afford an increase should support the less well off. I have lived in the same house for 47 years and the tax band has never changed although many houses have had extensions etc. added and other improvements made. Many ratings could be raised to reflect this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37573	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% is the maximum you should be allowed to increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37574	An individual	CTi. Planned changes to Council Tax	Yes the council tax needs to be increased all the other local authorities have done this to maximise income.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37575	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes but 3% is a significant increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37576	An individual	CTi. Planned changes to Council Tax	Agree to tax rise but only if all efficiencies are implemented and reported to residents.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37577	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes support a rise as long as the councillors then don't throw out the idea	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37578	An individual	CTi. Planned changes to Council Tax	If this does go ahead I think residents may struggle to pay the increases each year. Council tax eats into a large chunk of people's salaries as it is and with services being consolidated or removed people may wonder what they are paying for.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37579	An individual	CTi. Planned changes to Council Tax	No it should not be raised.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37580	An individual	CTi. Planned changes to Council Tax	yes. to make sure there are no more additional cuts to services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37581	An individual	CTi. Planned changes to Council Tax	For Domestic Homes agree to increased Council Tax. However our Commercial property had an effective 70% increase in Council Tax in April 2017 - which is ludicrous. Increase is being appealed, but I can only see more VAP shops being able to afford these eye watering tax increases!	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties are set nationally by the Scottish Government.
37582	An individual	CTi. Planned changes to Council Tax	yes - could increase it by 5%	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37583	An individual	CTi. Planned changes to Council Tax	I support the 3% rise	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37584	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I would rather the Council Tax was increased rather than people losing jobs and also allowing the services to be continued to the standard people are used to. I'm sure lots of people will complain about an increase but they would also complain if services were lost or reduced.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37585	An individual	CTi. Planned changes to Council Tax	No I don't I had an increase in my Council Tax this year and why should I pay more than other householders who get the same service as me. Plus I pay factoring fees for my street with regards to common ground areas a long with the fact the woods surrounding the street have been dumped back on us residents. As the Woodland Trust have denied that they were responsible for this area, when clearly they had in the past	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. Council tax pays for many more services across West Lothian than factor fees for specific estates.
37586	An individual	CTi. Planned changes to Council Tax	3% is to high an increase in one go	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37587	An individual	CTi. Planned changes to Council Tax	No ! % each year would be a better option in my mind	CT1	2. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37588	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	I disagree with the changes planned for this as I feel that it hasn't been considered that some people won't be able to afford and manage the increased tax and that many may struggle to support their selves and their family.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37589	An employee of West Lothian Council	CTi. Planned changes to Council Tax	100% There should never have been a freeze !!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37590	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I agree there should be an increase in council tax and 3% seems ok. Saying that with low or no pay rises it is another cost that will eat into my finances.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37591	An individual	CTi. Planned changes to Council Tax	As a resident I would be extremely unhappy at being hit with a 3% increase in Council Tax given that I have already had to absorb an increase this year. My husband also works away from home for substantial periods but as this is his sole or main residence we don't qualify for any discount. My parents are both in their 80s, still paying full Council Tax, having worked and paid their way all their lives, they aren't well off but I think they'd certainly start to feel the pinch with the increase. Pretty disgusting! As an employee I think that the Council needs to strongly remind people that Council Tax is in fact a tax and not a choice and target the can pay won't pay. Perhaps they need to consider the same practises as in England & Wales and seize goods etc for non-payment.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37592	An individual	CTi. Planned changes to Council Tax	Yes, providing councillors demonstrate political leadership by campaigning to secure the funding our local services need.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37593	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I agree that the council tax should be increased by the proposed 3%. A strategy needs to be in place to ensure that all residents who are entitled to Council Tax Reduction claim or there will be an increase in arrears with the rise.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37594	An individual	CTi. Planned changes to Council Tax	I would agree the rise if additional charges were not put in place for refuse, otherwise it's a double increase.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37595	An individual	CTi. Planned changes to Council Tax	No. Council tax is ridiculously high already, especially compared to england.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37596	An individual	CTi. Planned changes to Council Tax	I agree that services need to be paid for, and council tax should rise by 3% but only if council employees pay rises by 3% as well. There is an enormous amount of house building in West Lothian so is the extra council tax generated from these new houses taken into account when the figure of £3% was calculated?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement.
37597	An individual	CTi. Planned changes to Council Tax	Fully support the proposed increase of 3% in CT per year. Would rather see increases of 5% pa than many of the proposed council spending cuts proposed in this document. Please lobby Scottish Government for local power to impose greater increases on properties in bands F-H.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37598	An individual	CTi. Planned changes to Council Tax	Only makes up 19%? Wow. No, I don't support. The focus here needs to change from cuts to income generation.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37600	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No Really need to thing about the proposed Council Tax and rent increases as the Council currently run with over 1 million pound in unpaid rents. If the 3% increase goes ahead along with the introduction of universal credit the deficit will surely just spiral out of control?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37601	An employee of West Lothian Council	CTi. Planned changes to Council Tax	So by 2022-23 council tax will have increased by 15% from what people currently pay. The % amount should differ on the area the property is in. The lower bands should stay as they are. Or increase a very small % amount and the higher current bands should therefore be increased more.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Changes cannot be made to council tax liability based on the area in which a house is located.
37602	An individual	CTi. Planned changes to Council Tax	Yes - The labour Council should have put it up this spring	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37603	An individual	CTi. Planned changes to Council Tax	It is unfair to target households in the E-H council tax brackets on the assumption since the house is worth more they can afford it. Householders in these households do not use council services any more than those in lower brackets in fact more likely less!	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings which the council was legally obliged to implement.
37604	An individual	CTi. Planned changes to Council Tax	Yes, I'd rather keep our services and pay more for them, but realise many people may not be able to.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37605	An individual	CTi. Planned changes to Council Tax	If the council will be able to reduce the amount of cuts being suggested then yes I would support the changes to Council Tax.	CT1	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37606	An individual	CTi. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37607	An individual	CTi. Planned changes to Council Tax	Yes, I fully support the Council's planned changes to increase the Council Tax by 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37608	An individual	CTi. Planned changes to Council Tax	Council services must be sustainable and offer residents good value for money. Every penny must be checked and balanced. I support an increase in council tax only if our services and value for money offered by council run services will not be reduced and council efficiency is increased.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37609	An individual	CTi. Planned changes to Council Tax	Paying more for less - no I don't support this increase	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37610	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37611	An individual	CTi. Planned changes to Council Tax	Yes. However increased council tax may impact on the amount that is collected and this needs to be considered.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37612	An individual	CTi. Planned changes to Council Tax	No I do not support this	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37613	An individual	CTi. Planned changes to Council Tax	Yes. It means important services can be kept	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37614	An individual	CTi. Planned changes to Council Tax	No. The entire council tax system is based on house values from many years ago. This information is outdated and inaccurate. To justify such an increase the system needs to be overhauled to ensure that households are paying the correct council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37615	An individual	CTi. Planned changes to Council Tax	No I do NOT support this! This is a typical approach of a council which does not understand how people pay for their properties! Just because they live in a more expensive or bigger house, does not mean they have more disposable income or require more use of public services! They are usually home owners who have worked they ass off to earn a decent standard of living, saved hard, work hard, and are already barely making ends meet in terms of bills, and are under huge pressure at work just to keep their job. Taxing them further will increase the strain and the reality is that those who are working hard are paying for all the services enjoyed by the unemployed who contribute absolutely nothing. This attitude cannot continue - those who generate income will eventually vote with their feet and take their earnings somewhere where they are not penalised for contributing to their community.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37616	An individual	CTi. Planned changes to Council Tax	I agree that this should be shared across all bands, not just those in higher band levels.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37617	An individual	CTi. Planned changes to Council Tax	Yes if it is invested to provide better education experience for children and maintain instrumental tuition.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37618	An individual	CTi. Planned changes to Council Tax	Leave it alone - it's bad enough	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37619	An individual	CTi. Planned changes to Council Tax	I understand the need for it therefore support it as long as important opportunities for young people such as instrumental music provision are not cut.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37620	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do not agree with this. The assumption is that people in bands E-H will be able to afford 3% - this is truly not the case - ESPECIALLY NOT EVERY YEAR!. Some have scrimped and saved to get the best possible home for their families and they will now be punished for this! Why not increase every band by 1% every year rather than those who have worked hard to achieve and continue to work hard to keep their homes. Terrible proposal from yourselves WLC, you should be ashamed.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37621	An individual	CTi. Planned changes to Council Tax	Yes but only if introduced equally across all Bands. People which are on lower bands can usually seeks assistance with payment	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37622	An individual	CTI. Planned changes to Council Tax	Yes and perhaps it should be increased for higher value homes and businesses	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37623	An individual	CTI. Planned changes to Council Tax	As long as the needs of tenants, etc were still being met.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37624	An employee of West Lothian Council	CTI. Planned changes to Council Tax	yes however if it is only a small percentage of funding why are you looking to penalise those in lower incomes who can least afford the increases	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37625	An individual	CTI. Planned changes to Council Tax	I support this if it can be shown that the extra revenue will be used effectively	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37626	An individual	CTI. Planned changes to Council Tax	Why not put all bands up by Â£1 a week. Percentage increase is unfair. Every citizen has access to council facilities therefor every one should pay the same increase. Â£1 is not excessive it is only the cost of a bag of sweets. The ones who don't pay anyway won't be affected.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Any increase has to be a percentage rather than a flat rate.
37627	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Don't mind the increase as long as services do not reduce. Why pay more for less...	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37628	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I think council tax needs to rise - to meet the needs and expenditure of WLC.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37629	An individual	CTI. Planned changes to Council Tax	Yes, provided the money is used to improve Council services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37630	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes - I would prefer to pay more to keep valuable services such as CRCs and country parks.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37631	An individual	CTI. Planned changes to Council Tax	No, not at all. I think that this is "The cherry on top of the cake" of these awful changes to our way of life.	CT1	2. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37632	An employee of West Lothian Council	CTI. Planned changes to Council Tax	yes, this will hopefully ensure that less services would need to be cut.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37633	An individual	CTI. Planned changes to Council Tax	Stop worrying about votes and put up the council tax so that an adequate service can be provided across the board.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37634	An individual	CTI. Planned changes to Council Tax	Increase it to pay for what is needed	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37635	An individual	CTi. Planned changes to Council Tax	Yes, it is common in other other local authorities	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37636	An individual	CTi. Planned changes to Council Tax	Council Tax needs to be changed such that it is based on one's ability to pay, not on the value of your house.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37637	An individual	CTi. Planned changes to Council Tax	I support addition council tax payments if front line services are maintained.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37638	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes...if it does make the impact you predict	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37639	An individual	CTi. Planned changes to Council Tax	Yes, I would happily pay an extra 3%/year in my council tax to help keep vital services going.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37640	An individual	CTi. Planned changes to Council Tax	I do support the need for an increase, unpalatable as it may be. We have no choice!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37641	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I have no problem with my council tax going up however if my pay is cut and allowances go then it leaves me in a very poor financial situation, along with increased cost of living, I would be in work poverty	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37642	An individual	CTi. Planned changes to Council Tax	Such an emotive area. I think this will be the most difficult area. It's not fair to penalise the higher banded properties alone. But suspect those living in lower band house may have real financial hardships. Perhaps any increase should be stepped over the years as a way to make this easier on taxpayers. Accepting we have a higher council tax than that of neighbouring authorities.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37643	An individual	CTi. Planned changes to Council Tax	Whilst no one likes their household bills to increase I can see the logic in this increase. If perhaps we had not gone 9 years without even the most minimal rise, then the current deficit would not be so great and the ordinary householder would not be feeling this increase, and proposed annual increase, so deeply.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37644	An individual	CTi. Planned changes to Council Tax	No you could make small changes to other places and make a 2% increase	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37645	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do support an increase in Council tax but do not agree with 3% every year. As a person on a FTC contract with the Council and absolutely no security in future employment, I absolutely do not support an eventual increase of 15% to my council tax bill. Nothing in the Councils proposals has addressed employment in the area which would lead to more people being able to afford the Council Tax (and perhaps having less reliance on Council services).	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37646	An employee of West Lothian Council	CTi. Planned changes to Council Tax	as have been hit by the increase in council tax due to higher band already seems like double hit	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37647	An individual	CTi. Planned changes to Council Tax	Yes - provided low income residents continue to be supported with payments. Can a means tested / income related system be implemented?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37648	An individual	CTi. Planned changes to Council Tax	If services are being cut Council Tax should not be increased!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37649	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes should have been done years ago...	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37650	An individual	CTi. Planned changes to Council Tax	Council tax increase is good idea as long as its spent on areas that its meant for.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37651	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, I support the planned changes to Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37652	An individual	CTi. Planned changes to Council Tax	Yes . Do people in council housing pay council tax?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All households in West Lothian are liable for council tax.
37653	An individual	CTi. Planned changes to Council Tax	I support 3% increase for the lower bands. I feel this unfair for the higher bands as they have already had theirs increased. So maybe a lower percentage. You may have a larger property but this does not always indicate a large disposable income.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37654	An individual	CTi. Planned changes to Council Tax	If increase in council tax protect services and guarantees that increase is more than 3% PA I would be prepared to support this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37655	An individual	CTi. Planned changes to Council Tax	Further my wages have not risen since 2013 but insurance has by 25%. Electric, gas substantially, food by 10%. So more cuts to help (poor bankers) (poor lawyers) etc. hurts!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37656	An individual	CTi. Planned changes to Council Tax	Yes. What a mess the Scottish Government has made in capping it in the first place - just a vote winner, but how did they ever think it would be sustainable whilst maintaining services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37657	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No, there has been a recent increase	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37658	An individual	CTi. Planned changes to Council Tax	Yes, anything from 3% to 5% Could you agree to a minimum increase per annum of, say, 1% or 1.5% to help keep budget on track. Otherwise we might be back with a funding gap sometime soon. This increase to apply for at least each year for the next five after the increase and then be reviewed.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37659	An individual	CTi. Planned changes to Council Tax	3% increase each year agreed.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37660	An individual	CTi. Planned changes to Council Tax	The Scottish Government has made cuts necessary by not allowing Councils to raise more council tax. As 3% will not be sufficient to meet the needs I would be happy to pay more. The demands made by the Scottish Government on Councils but not taking the responsibility for the need for these cuts is very unhelpful and causes suffering for many whose services are to be cut.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37661	An individual	CTi. Planned changes to Council Tax	To a point. I blame the Scottish government for the need for a 3% year on year. It should have been 1% year on year and ring fenced. I would not want to see more than the current proposal but suggest it is reviewed each year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37662	An individual	CTi. Planned changes to Council Tax	No. Against a background of no pay increases for some and, a pay freeze on public sector pay settlements over many years it is difficult to support his measure. Also, there remains too many unknowns for people with regards current and future pay settlements, to support this measure. Given other daily living increases for people, rents etc., along with the potential of an additional taxation via Scottish Governments consultation, the public need to be better informed before making this commitment for the next 5 yrs.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37663	An individual	CTi. Planned changes to Council Tax	I have mixed feelings on this, Yes with reservations increasing council tax has a greater financial impact on the lower paid. Property values require to be re-assessed and councils should be properly funded by Scottish Government if necessarily by an increases and changes to income tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37664	An individual	CTi. Planned changes to Council Tax	I do not condone more money for less services. I do think that central government should be raising taxes in accordance with need for services for all. It has been a ridiculous state of affairs freezing th council tax for so long. Most would gladly have paid more for better services but to catch up now will take more than the 3% per year suggested. This will break many households but is necessary. I think we need to raise taxes further and ensure facilities are there foe all	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37665	An individual	CTi. Planned changes to Council Tax	No, I believe 3% is too much. As a council employee who has endured wage freeze and 1% per annum for a long period, which in effect is a reduction in salary, I do not agree with 3% council tax rise. A gradual rise in phases might be more acceptable when salaries are also being increased to reflect cost of living. How can the council justify the use of substantial funding for re-branding/logo for all council services at a time when staff are concerned about their jobs. Surely this funding could have been better used.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37666	An individual	CTi. Planned changes to Council Tax	Yes, but perhaps a phased approach over 18/19 and 19/20 to reach the 3% might be beneficial to those who already have pressures on their household budgets. As well as considering the council is the largest employer in WL this additional charge will be coming from employees it might be useful to consider the impact this will have on staff. Is there options for staff to pay council, tax straight from their wage so it is one less thing to budget/think about when the pay packet is received?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37667	An individual	CTi. Planned changes to Council Tax	I support a 3% council tax increase but for all bands, not just E to H. Everyone needs to contribute to meet the cost of services and feel the pain equally.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37668	An individual	CTi. Planned changes to Council Tax	Yes but maybe need to review bands to ensure still accurate and fair. Make it payable over 12 months. Same monthly amount but you'd get two extra months per household which is way more than 3 per cent	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. No change can be made to the overall tax liability except from percentage increases. The council provides the opportunity to pay over ten and twelve months currently. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37669	No Response	CTi. Planned changes to Council Tax	I also think that consideration should be given to raising council tax? No one wants to pay higher taxes but we do need well run public services. This is the way to help West Lothian with the 8 priority statements.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37670	An individual	CTi. Planned changes to Council Tax	Council tax should increase for band E-H properties.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37671	An individual	CTi. Planned changes to Council Tax	Yes for properties in the higher bands but not for all bands - there are people in WL who are using foodbanks etc. If council tax is to be raised it should be on a scale with an annual increase of 1% for lower banded properties and 3% for higher banded properties.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37672	An individual	CTi. Planned changes to Council Tax	Yes if it would mean saving music tuition for the children of West Lothian.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37673	An individual	CTi. Planned changes to Council Tax	Yes, but a staged increase might be better.	CT1	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37674	An individual	CTi. Planned changes to Council Tax	I believe that council tax should go up but 3% is a bit steep especially for families on lower incomes. It should never have been frozen for so many years as now you are having to make savings. If it had gone up by 1% each year at least it would have given council more money to use. Families are not getting wage rises to be able to afford this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37675	An employee of West Lothian Council	CTi. Planned changes to Council Tax	This is why there are so many problems due to the Scottish Government not allowing Councils to increase rates over many years and is now why we are finding finances in dire need of input	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37676	No Response	CTi. Planned changes to Council Tax	Why don't we have a nominal fee on prescription say £4. Council tax rise £60 for every household per year. People who are self employed claiming benefits! Better balanced benefits for part-time parents against parents that work full time and are worse. Mobility benefit overhaul so we actually give to the ones that need it.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Free prescriptions and benefits, including personal independence payment and universal credit, are determined nationally.
37677	An individual	CTi. Planned changes to Council Tax	No Why would we pay more council tax when your reducing what the council supply. Charging for brown bin uplifts and closing down recycling centres seems a bit backwards	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37678	An individual	CTi. Planned changes to Council Tax	Yes, but would add a 2% surcharge to bands D to H and ring fence it to Social Care.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37679	An individual	CTi. Planned changes to Council Tax	Yes. But by no more than 3%. And as a council tax paying citizen, I want the opportunity to decide each year what the income from any increase is spent on.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax is a tax not a charge for specific services. It generates resources for the overall provision of council services.
37680	An individual	CTi. Planned changes to Council Tax	Yes, go ahead. But please ensure that the council takes effective enforcement action against those who refuse/ decline to pay their dues.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37681	An individual	CTi. Planned changes to Council Tax	Terrible that service users have to pay extra	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37682	An individual	CTi. Planned changes to Council Tax	Yes, I think council tax should be raised in line with your proposal. However I would want to know that the money is being well spent, especially on front-line services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37683	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do not mind paying a small percentage each year however, would like value for money therefore not extra charges for brown bin collections	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37684	An individual	CTi. Planned changes to Council Tax	This makes me wonder why the previous administration didn't decided to raise council tax slightly. That way some of these cuts would not be necessary. It would also have given a higher starting rate for future years' council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37685	An individual	CTi. Planned changes to Council Tax	And if the 3% had been added this year even more money could have been raised. I wonder why the previous administration decided not to raise this just before council elections? Far be it for me to suggest that they hoped or expected that they would not have to deal with the fallout of reduced levels in council service or thought that they'd lose votes if they raised Council Tax and did not want to leave a new administration in the position of having a slightly better budget.	CT1	1. The respondent advised that they agree with the proposal.	Elected members agree council tax levels each year. A council tax freeze was agreed in February 2017 for 2017/18.
37686	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes - I think the Council Tax should have been increased well before now. It has meant that there is insufficient money to pay for the services that the public need and want. So as this has not happened for 9 years means that it has come to a cliff edge situation. So it needs to be increased adequately and for moderate increases thereafter.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37687	An individual	CTi. Planned changes to Council Tax	It should be a proportionate increase across all bands, not just bands E-H if this proceeds.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37688	An employee of West Lothian Council	CTi. Planned changes to Council Tax	yes - put it up, BUT also review how council tax is calculated - a very outdated system. Support in place for disadvantaged?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37689	An individual	CTi. Planned changes to Council Tax	Felt it was short sighted not to impose the 3% increase this year, so agree with future increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37690	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, we need increases just to meet increased costs. Unfortunately the working poor will be hardest hit by this (not those with decent income or those on benefits, who generally qualify the council tax reduction scheme).	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37691	An individual	CTi. Planned changes to Council Tax	yes in the hope that the extra money is used wisely to improve services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37692	An individual	CTi. Planned changes to Council Tax	Support council tax rise of up to 4% per year as long as money is spent wisely	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37693	An individual	CTi. Planned changes to Council Tax	To have paid no increase in council tax over previous years was just crazy and now we are going to get an increase of 3% and then what the following year? If the council tax had been gradually increased these past years we may not have been in this awful mess now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37694	An individual	CTi. Planned changes to Council Tax	Nope , not at all.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37695	An individual	CTi. Planned changes to Council Tax	No I do not. My council tax has already went up due to the restructuring. Maybe you should focus on getting in the council tax from people who do not pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears.
37696	An individual	CTi. Planned changes to Council Tax	Wealthier people within West Lothian should have more than a 3% council tax increase.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37697	An individual	CTi. Planned changes to Council Tax	I believe a 3% increase on council tax charges in each of the 5 years 2018/19 to 2022/23 is financially viable for the majority of households within the West Lothian area. However, satisfactory levels of service delivery need to be achieved as a result of this increase. For example I suggest the Council need to make the £20million saving as detailed in your proposal 1a before making cuts to provision of subsidised public transport and social care and asking for further income from the Council Tax charge	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37698	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Put it up! History has already proved austerity measures do not work. The present financial model does not work and is not fit for purpose. Central and local government needs to re-assess this, as we are on a downward spiral. It should not be left to jack of all trade councillors /MPs to run a council, but economists, accountants and philosophers to determine a long term strategy for a people.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37699	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	We feel this requires and individual response. From the organisation's experience of supporting unpaid carers many experience financial hardship and may struggle with an 15% increase over 5 years.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37700	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Not at 3% a year, unless they want to increase my salary by that amount. It should be index linked to the cost of living.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37701	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I know funding local service is important but we are also hitting citizens for further cuts to their disposable income which in turn will impact on economic growth and stability. So I addressing need, may impact negatively on others.	CT1	6. This is a positive suggestion. Officers will consider how this could be developed.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

37702	An individual	CTi. Planned changes to Council Tax	Yes if means services such as the ability centre remain in place	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37703	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No - I only support this if council tax is based on how many occupants in house not by house value. How is it fair if 8 people live in a property in band C and 2 people live in a property in band E. More people means more water, waste etc. The value of house should not com into this. It is like you are being penalised for saving money to buy a nicer property	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37704	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, unnecessary and long overdue.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37705	An individual	CTi. Planned changes to Council Tax	Yes I do support this proposal if it results in services not being cut.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37706	An individual	CTi. Planned changes to Council Tax	I think a 3% rise in the council tax EVERY YEAR is a ridiculous proposal, people are struggling with this already. rise in council tax rise in mortgages rise in food rise in electricity and gas however no wage rises? People would not mind a 1%rise in council tax I think 3% is a bit much.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37707	An individual	CTi. Planned changes to Council Tax	I support some of the cuts but I do not support the cuts to the youth music, arts physical education, nor do i support the cut to Christmas lights or festivities	CT1	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Your comment has been noted.
37708	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I support the Council tax changes but only if those who are in arrears are pursued effectively in order that all arrears are paid, as they are still benefiting from all the Council services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37709	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, as a teacher education is sadly being demised	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37710	An individual	CTi. Planned changes to Council Tax	No. I don't see a justification in increasing council tax, while reducing the services provided which it covers. From bins being emptied less frequently, recycling plants being closed down, charges being introduced for emptying brown bins etc - where is the benefit to the tax paying resident in the increase?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37711	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes absolutely has to happen.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37712	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I don't live in West Lothian but in my local area I stay our council tax rose between 10-14% and I feel if the increase saves jobs and services then I am happy to accept a council tax increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

37713	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes I do, without this increase we will not be able to or improve on services which are suffering	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37714	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, but as always only those who pay will be effected.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37715	An individual	CTi. Planned changes to Council Tax	Yes, I would support an increase in the Council plan to change council taxes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37716	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Council tax MUST be increased. Yes very much in agreement with this! Should have been increased before now in my opinion	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37717	An individual	CTi. Planned changes to Council Tax	No I don't support this I live and work here. My wages do not increase by 3 % every year, the service provided isn't increased and I use the same road, lighting etc that the lower bands use, so why should I be penalised.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37718	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Are we even collecting all the council tax? The people in work are having to pay more all the time	CT1	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37719	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I support a small increase but 3% each year is a too high an amount for many households	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37720	An individual	CTi. Planned changes to Council Tax	Increase of 3% compound per year will soon be un-affordable for lots of households. A 3% rise is needed, but for all households.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37721	An individual	CTi. Planned changes to Council Tax	No. That is simply avoiding all the decisions you need to make. 3% is more than inflation and wage growth and annual increases are an easy way to protect the council from making the changes needed to modernise.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37722	An individual	CTi. Planned changes to Council Tax	I am happy to have increased in council tax in order to prevent cuts in other areas. My children's future is very important to me and I can only see future reduction in the schools services which are already severely stretched and not for for purpose.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37723	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I think the changes to Council Tax are very overdue. Save people's jobs. More people working = more people who can pay more Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37724	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Absolutely no increases in council tax considering public sector pay has been falling since 2010. Unfair to tax hard working people more.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37725	An individual	CTi. Planned changes to Council Tax	Yes - as long as you protect schools, health and West Lothian Leisure.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37726	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes if it means the necessary services are not being cut	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37727	An individual	CTi. Planned changes to Council Tax	I support a rise in Council Tax to prevent cuts.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37728	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No! Considering my profession is good fighting for a 1.5% rise then a 3% rise in council tax leaves me and most other people worse off. Your services aren't good enough to merit this!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37729	An individual	CTi. Planned changes to Council Tax	I feel as being an employed person & having been a student during a change in careers that council tax should be increased for all bands. This has not increased for some for several years and to keep some services this is a requirement across all bands. Keep the single person discounts and any others with correct evidence.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37730	An individual	CTi. Planned changes to Council Tax	Only if it actually gets spent on services and not rubbish like twinning visits and nonsense services like walking groups and such	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37731	An individual	CTi. Planned changes to Council Tax	Absolutely, yes. If we want services, they have to be paid for.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37732	An individual	CTi. Planned changes to Council Tax	Updated banding should be implemented. All housing should be revalued	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37733	No Response	CTi. Planned changes to Council Tax	The decision not to increase the Council Tax for 2017/18 was absolutely ridiculous given the council's financial position. I would suggest an increase in excess of 3% for the next 2 years.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37734	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	yip	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37735	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do support the increase of council tax, I believe it should be a bigger increase as long as you can guarantee keeping a good level of our services. I feel the people who cannot afford this are already getting this covered by other means of help	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37736	No Response	CTi. Planned changes to Council Tax	3% but not any higher than this is ok.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37737	No Response	CTi. Planned changes to Council Tax	Yes. Though I would stress that their is no real assessment here on the likely impact, particularly to vulnerable people and those on low income.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37738	No Response	CTi. Planned changes to Council Tax	Yes 3% increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37739	An individual	CTi. Planned changes to Council Tax	No. This money should come from income tax for top band earners.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37740	An individual	CTi. Planned changes to Council Tax	no. unfair.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37741	An individual	CTi. Planned changes to Council Tax	Nope.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37742	An individual	CTi. Planned changes to Council Tax	I don't think it should be increased each year purely due to how it works. If I get a home at the end of the year the amount of council tax I would have to pay each month is sometimes not affordable which leaves people in a mess if passed onto some other company. which again is something else the council just doesn't have to or want to deal with but the people paying the council tax do and can effect their lives majorly. coming from experience.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax is a property based tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions to help with affordability.
37743	An individual	CTi. Planned changes to Council Tax	Council should look to increasing Council tax, but needs to ensure that single people and low oncome groups are not unfairly penalised.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37744	An individual	CTi. Planned changes to Council Tax	Yes as the council tax has remained the same for years. It would of been better to have a lower % increase over those years though but 3% increase is still not a huge price to pay.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37745	An individual	CTi. Planned changes to Council Tax	Yes, I support a rise in Council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37746	No Response	CTi. Planned changes to Council Tax	Yes I agree to the 3% rise in council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37747	No Response	CTi. Planned changes to Council Tax	Agree, my council tax has increased and I welcomed this to ensure our services continue, where possible.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37748	An individual	CTi. Planned changes to Council Tax	My pay is in line with inflation. If I do better than expected I get a little more. So Council Tax changes should match inflation.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37749	An individual	CTi. Planned changes to Council Tax	In reality this will be a 6% increase in my Council Tax. While I don't support such a large increase, I agree there has to be some increase in Council Tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37750	An individual	CTi. Planned changes to Council Tax	I do agree that a flexible model is necessary for the the council to increase it's revenue. I also believe that it is important that it is fair and equitable. A property ratings review is now necessary in order to ensure that fairness.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37751	An individual	CTi. Planned changes to Council Tax	I have no objection to an increase so long as the money is'nt used for salaries, bonuses etc. and not for a vague item as educational improvements.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery.
37752	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No a 1% increase each year is sufficient.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37753	An individual	CTi. Planned changes to Council Tax	Yes if capped at 3% ,but would like to see increases lower if inflation comes back down to the levels expected.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37754	An individual	CTi. Planned changes to Council Tax	If money was not wasted on other unnecessary things then it would not be needed.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
37755	An individual	CTi. Planned changes to Council Tax	The Scottish Government have already increased my council tax, whilst my wage rise is capped at the 1% public sector cap. An additional 3% would not exactly be welcome to be honest.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37756	An individual	CTi. Planned changes to Council Tax	3% is substantial. With rising interest rates, a freeze on salaries on top of proposed tax reforms this is another unwelcome burden. However, it is recognised that there is a budget gap and there are important services that risk being compromised due to a lack of funding.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37757	An individual	CTi. Planned changes to Council Tax	Yes see previous comment but I do not agree that it should be people in expensive houses who should take the greatest hit - some of these properties have very poor elderly people in them - asset rich but cash poor.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37758	An individual	CTi. Planned changes to Council Tax	I would support and increase in council tax if services are maintained. It would appear from this consultation document that the current running of the council is largely inefficient and needs to be addressed. Why has this not been recognised before now? In addition how much money has been spent devising this document which is largely vague, does not provide any real information is full of "buzz" statements. Again this just demonstrates council inefficiency it is certainly not devised to be completed by joe public.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The consultation document was devised internally and produced at minimal cost.
37759	An individual	CTi. Planned changes to Council Tax	Fully support inflation increases going forward, however also note statement in your literature that West Lothian Council Tax is one of the cheapest in Scotland. I therefore see no reason to increase council tax further to in line with National average, to address the financial situation to uphold the goals of maintaining and where possible improving the life experience of West Lothian residences. As expressed previously, future increased costs/charges for home waste disposal / recycling could be included in the council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
37760	An individual	CTi. Planned changes to Council Tax	not for low income family and people on wages 7.75 per hour or less	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37761	An individual	CTi. Planned changes to Council Tax	Council funding needs to increase but this does not address the problem fairly as not all the people using local services pay for them so a fairer method to do so needs to be devised and that certain categories of ownership don't have to bear the burden higher costs unfairly	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37762	An individual	CTi. Planned changes to Council Tax	Yes, and large buildings with a lot of land around them should pay more tax.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties, including relief schemes, are set nationally by the Scottish Government.
37763	An individual	CTi. Planned changes to Council Tax	Yes and this should have happened in earlier years rather than freezing the rate for many consecutive years. Pensioners should be exempt from the increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37764	An individual	CTi. Planned changes to Council Tax	I feel 3% every year is too high but agree an increase may be necessary due to financial pressures. I do feel it should affect all as it is often the same households that are being hit with reduced access to services (perhaps as not greatest need) but then also higher contribution costs. This is not equitable. In a time of pay freezes (teachers are struggling to fight for even 1%), increased living costs, this could add to the stress that families are living under forcing them out of their current homes due to mortgage cost increases.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37765	An individual	CTi. Planned changes to Council Tax	I see the argument for increased council tax, and am not against as such, but there really should be a lot more information on how the money is spent. This document is has a lot of numbers in it, but very hard to weigh up consequences against the money when so few details are available	CT1	1. The respondent advised that they agree with the proposal.	Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
37766	An individual	CTi. Planned changes to Council Tax	We need to ensure that those most able to contribute to the cost of living in West Lothian do so. Whilst the best option would be a more progressive local taxation system, until this is achieved an increase in council tax is necessary. The council could give consideration to applying the increase to the higher bands to reduce the burden on lower income households	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37767	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I support an increase in council tax but 3% per year is a high increase for fewer services. This should be gradually increased as it should have been done over previous years	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37768	An individual	CTi. Planned changes to Council Tax	Happy to pay more	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37769	An individual	CTi. Planned changes to Council Tax	No - 3 percent is too high. It should be lower than this and any increase should be across all bands	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. 37770	An individual	CTi. Planned changes to Council Tax	Increase the council tax and protect our services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37771	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes but feel that this should have been a 1% per year for last few years instead of being held back for voting purposes!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37772	An individual	CTi. Planned changes to Council Tax	Yes is it the only way for the council to bring in much needed funding.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37773	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Council Tax. The Community Council understands full well that there are diverse views in the local community regarding any proposed Council Tax increases. Accordingly we are not in a position to state a clear community view on this aspect of the proposals.	CT1	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
37774	An individual	CTi. Planned changes to Council Tax	A 3 percent increase is acceptable provided it is used sensibly to provide important services	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37775	An individual	CTi. Planned changes to Council Tax	one could argue the council tax freeze has been one of the root causes of council budget pressures for years. Why this country wishes to limit council tax but out up social rents is baffling - shouldn't a basic premise by those who can pay more should. Wholeheartedly agree with council tax increases.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

37776	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay. The amount spent on local councillors is excessive especially when there are three councillors covering one ward.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The number of councillors for each council area is determined by statute by the Scottish Parliament.
37777	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes - this should have been done years ago. This is partly the cause of this situation.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37778	An individual	CTi. Planned changes to Council Tax	no i think rather poor if the council puts up the tax by 3% you could try to keep it to around 1.5% if you plan to put it up every year for the next 5 years does no one in the council notice that the cost of living going up all the time since our government announced that we are leaving europe food prices are getting ridiculous and energy and fuel are just as bad please listen to the people after all we the people pay your wages or maybe it's time for a revolution	CT1	2. The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37779	An individual	CTi. Planned changes to Council Tax	Yes. Increase it more to save the Instrumental Music Service.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37780	An individual	CTi. Planned changes to Council Tax	Yes. I would support an increase across all bands, with a higher percentage increase for the higher bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37781	An individual	CTi. Planned changes to Council Tax	I do. I do not think all charges should be placed on the heads of people who own high banded properties. These people are already likely paying high banded income tax. They shouldn't be constantly punished. I may add I am not one of them.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37782	An individual	CTi. Planned changes to Council Tax	With the past years tax being frozen yet inflation increasing it is expected that tax needs to rise and I am agreed this needs to happen but needs to be kept to the minimum as not all people will be able to afford increases	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37783	An individual	CTi. Planned changes to Council Tax	No, I'm in a higher banding than I believe I should be, added to our mortgage a month is close to crippling and coming close to unaffected some points in the year since our family has increased with salaries being reduced, yet inflation continuing. A blanket increase is fair but it cannot be assumed that those in higher brackets have more income and can afford, this does not mean we have the highest salaries, just we live in a more expensive house which is a one off cost and we alter mortgage payments accordingly at renewal depending on affordability. Some individuals in council housing will have greater disposable incomes than everyone in these brackets. My husband was redundant for few months and I was on zero maternity pay for 3 months so had just job seekers coming in and we paid our council tax on time, living in one of these higher bracket houses. I completely disagree with this planned changes, especially as we feel we are in too high a bracket as it is despite challenging such when we moved in	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37784	An individual	CTi. Planned changes to Council Tax	Disagree. I pay enough as it is for a poor service .	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37785	An individual	CTi. Planned changes to Council Tax	Yes and No. I understand the need to increase Council Tax to support funding. 15% increase over 5 years is not an ideal solution. What would be the increase after 5 years? I smaller increase of Council Tax would be more sustainable for all people living in West Lothian for the first 5 years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37786	An individual	CTi. Planned changes to Council Tax	As long as 3% is across the board then this seems fair - it has been static for a few years so I think we should all help to contribute - or rather not make the budget gap any greater.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37787	An individual	CTi. Planned changes to Council Tax	I would only support if we get equivalent services - we should NOT have to pay if services are being reduced.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37788	An individual	CTi. Planned changes to Council Tax	i will reluctantly pay 3% increase in council tax. i do object to a cut back in council service. Pay more for less. it will come to a point people will refuse to pay for services they do not receive or have to pay additional fees to be provided. The council have to charge at all levels of household and stop playing politics with s.n.p over popularity stakes like last year	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37789	An individual	CTi. Planned changes to Council Tax	All services in West Lothian are to be reduced and an annual increase of 3% in Council Tax is proposed. I would support this if I had a strong belief that the levels of service were truly fair to every resident in West Lothian. I do not believe this is currently the case and would suggest that further work to explore this be undertaken	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37790	An individual	CTi. Planned changes to Council Tax	Agree in principle with increases in council tax. However, these should be based on inflation rather than a flat rate 3%.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37791	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Would an increase in Council tax lead to a reduction in the numbers of people who choose to or can afford to pay? On paper, this would lead to an increase in income but would that play out in fact? If people can't afford to pay their bills, will they ultimately end up in a poverty trap? Will they become homeless? What is the cost of pursuing Council tax debt? As the biggest employer in the area whose own employees have been subject to an effective pay cut for years and who, even with the removal of the 1% pay rise cap, will be likely to continue to receive effective pay cuts, it is difficult to see how this proposal will improve employment or tackle poverty.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Assumptions are made regarding the level of collection, which is currently at its highest level ever for the council. Individuals on low incomes are able to apply for a number of council tax discounts and reductions to help ensure affordability. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37792	An individual	CTi. Planned changes to Council Tax	Not really. I think you should be looking at the items which must be provided and seeing if the frill could be trimmed.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37793	An employee of West Lothian Council	CTi. Planned changes to Council Tax	similar to other authorities however this will only add to the councils already HUGE CT debt which is not being collected effectively!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37794	An individual	CTi. Planned changes to Council Tax	Yes, it is ridiculous that more money is not provided by the Scottish Government.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37795	An individual	CTi. Planned changes to Council Tax	Concentrate mostly on services that affect all council tax payers, eg street lighting, road/pavement winter maintenance, waste re-cycling etc and also ensure all council tax payers have access to public transport to St John's hospital and local GP surgeries. Also reduce salaries of senior council staff. One example of this is ensuring no council employee is paid more than the Prime Minister or First Minister.	CT1	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37796	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Not that I don't support raising Council Tax, I think that in the paper consultation you should have made it abundantly clear that actually its nearer £90million in cuts you would have to make. Your current consultation is completely based around the assumption that residents of West Lothian are aware of a 3% rise in Council Tax. That should have been made abundantly clear from the outset, not sneaked through.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Your feedback will be considered when developing future consultation exercises.
37797	An individual	CTi. Planned changes to Council Tax	Everyone should be taxed accordingly and not just bands E-H.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37798	An individual	CTi. Planned changes to Council Tax	West Lothian Council MUST raise the Council Tax as the only method they have to generate extra funds to assist with paying a fair wage and also to mitigate against the cuts suggested.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37799	An individual	CTi. Planned changes to Council Tax	As noted above you need to raise the Council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37800	An individual	CTi. Planned changes to Council Tax	Yes please increase the Council Tax to fund the required services and reduce cuts to staff and services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37801	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, it is essential that council tax is increased. The nine year Scottish Government council tax freeze was a serious mistake and right wing policy that deprived local government of funding. It was also a mistake for the council to freeze council tax in 2017/18 - a right wing Thatcherite, reactionary, cynical and dishonest measure in the run up to the local election which has only made the budget position worse in 2018/19. It is essential that we have an honest discussion about the need for taxation to support public services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37802	An individual	CTi. Planned changes to Council Tax	Yes. Perhaps the increase should be more.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37803	An individual	CTi. Planned changes to Council Tax	If it's only 3% Not 6% next year then 9% etc	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37804	An individual	CTi. Planned changes to Council Tax	Yes - but the problem is you have to make the service better not to go backwards but not just as much!	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37805	An individual	CTi. Planned changes to Council Tax	Yes- provided that the cost savings are focussed on Council efficiency	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37806	An individual	CTi. Planned changes to Council Tax	If it has to be increased then it should be increased. We've ducked it for years and now have to pay the penalty Successive Government "freezes" have left us to do catch up.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37807	An individual	CTi. Planned changes to Council Tax	Willing to pay a bit more to support local services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37808	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I feel this rise is necessary. I live alone, so I hope the 25% discount for single occupancy would still be applied, or I may struggle to afford private rent rates as well as council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Current discounts would remain.
37809	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes - I would support an increase across all Council Tax bands if necessary to help save and preserve council services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37810	An individual	CTi. Planned changes to Council Tax	I support the maximum allowed increase of 3% per year. Clearly it is essential in view of the cuts proposed. To increase by anything less is irresponsible and probably politically motivated! Sadly we can't have things both ways - we have to pay for the services we require	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Current discounts would remain.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37811	An individual	CTi. Planned changes to Council Tax	Do not have an issue paying more council tax IF the council delivers the changes effectively and efficiently and realises the benefits. That staff are utilised effectively and good staff are not driven away leaving some staff that are not able to deliver the changes required. Concerned that the above will not be achieved and then will be frustrated about paying higher council tax for less service and more services that I have to pay for.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37812	An individual	CTi. Planned changes to Council Tax	I would be happy to increase the amount of council tax I pay. I know that there are families who would find this difficult, but would hope that there would be reductions in place for the less well off. I believe that those people who can afford an increase should support the less well off. I have lived in the same house for 47 years and the tax band has never changed, although many houses hereabouts have had extensions etc. added and other improvements made. Many ratings could be raised to reflect this.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37813	An individual	CTi. Planned changes to Council Tax	Yes as long as all bands pay the increase....not just the chosen few	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37814	An individual	CTi. Planned changes to Council Tax	I support this change for one year only. The council should think carefully about making any further rises.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37815	An individual	CTi. Planned changes to Council Tax	Yes, as long as you don't completely cut services to me based on my postcode/ perceived financial status.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37816	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I wish the change had happened last year - 1.5% over 2 years would be better than a 3% jump. I do not want to pay more - my cost of living has increased but my salary has not - however I understand in the climate that things cannot continue as they have been. However I do feel there should be greater support from Westminster for local Government and the increased responsibilities and burdens that have been passed to the Council. I would hope that any increase would also see support from staff to be able to try and collect this income as Council tax is a vital financial resource for the council - this means supporting residents with benefit checks etc to ensure they are claiming Council Tax Reduction and also supporting staff in the Revenues and Council Tax teams including Corporate Debt to take action against those not paying.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37817	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Yes. There should never have been a freeze in council tax and the council would not have been in the position it is in now. The Scottish government, when introducing the freeze, quite obviously did not look properly into the impact that this would have long term. Now we are all having to pay for their unsuitable decisions.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

37818	An individual	CTi. Planned changes to Council Tax	The Scottish Government was morally wrong to freeze Council tax and it has been an unmitigated disaster for local services - especially education. Opposition parties have totally failed to hold them to account for this. The Scottish government are hypocritical and morally wrong to set a limit of 3% on Council Tax increases going forward (imagine the cries if they had been constrained by Westminster in same way). We live in a democracy and local democracy is a key part of that. West Lothian Council and all other councils should be leading a political fight to have that 3% limit removed to allow local democracy to set the level of local services we want and are prepared to pay for. Within the artificial constraint of 3% I agree with increasing to the maximum allowed each year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37819	An individual	CTi. Planned changes to Council Tax	Yes. It is obvious that Council Tax needs to be increased and 3% rise should have been applied for 2017/18.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37820	An individual	CTi. Planned changes to Council Tax	Council tax increase for all, not just for higher bands	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37821	An individual	CTi. Planned changes to Council Tax	I for one have complained many times about the inefficient billing of council tax for landlords when properties are empty, when several bills get issued as you won't wait to get your money, leading to multiple bills with postage and man hours wasted. Sort your systems out instead of cutting necessary services, stop wasting our taxes!	CT1	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council tax system does not have the functionality to combine bills for different addresses for the same liable individual.
37822	An individual	CTi. Planned changes to Council Tax	I would prefer efficiency in your services, but as outlined earlier I strongly disagree with some of your proposals. I agree with a rise in council tax as long as it is limited to the inflation rate.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37823	An individual	CTi. Planned changes to Council Tax	Ironic that WLC wants to put the Council tax up by 3% but wages won't rise equivalently! The communities are getting poorer as the cost of living is rising and wages are falling relatively. The council does need to increase council tax but should think about wages too.	CT1	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions to help ensure affordability. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. The council implements nationally agreed pay awards.
37824	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I wish our council tax had been going up over the past few years, instead of it being frozen. Perhaps we might not have needed such drastic cutbacks!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37825	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Wish my council tax had never been frozen!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37826	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, we should have been raising it each year anyway, its an SNP and Labour disgrace and as long as the increase is not ringfenced for care, school etc.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37827	An individual	CTi. Planned changes to Council Tax	It is difficult to support a rise in council tax alongside a reduction in council services.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
37828	An individual	CTi. Planned changes to Council Tax	Yes, I agreed this proposed increase is necessary.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37829	An individual	CTi. Planned changes to Council Tax	No - not agree. Some people are not getting any pay rises.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37830	An individual	CTi. Planned changes to Council Tax	I think that after umpteen years of very small increases staff will have left and you are down to the bone. The answer is for more money, higher income tax etc., but the politicians are scared stiff	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37831	An individual	CTi. Planned changes to Council Tax	No, just because you own a property in the higher tax bracket doesn't mean that you have liquid assets. Some people have owned the property for years and the rise in house prices have escalated the value, this doesn't mean they can afford to pay more. A general increase is feasible as all people use the council facilities that this increase provides. But I do support an across the board increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37832	An individual	CTi. Planned changes to Council Tax	Don't understand why increasing was stopped. Didn't need to be a big increase, now everyone is suffering.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37833	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, but only for those who can afford it. And make it clear exactly where the money is going.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37834	An individual	CTi. Planned changes to Council Tax	It is disappointing that a council tax rise is being proposed "before" efficiencies are identified. Surely, this should only be proposed once the service and true costs of them are identified, albeit this is always a consideration. When the plumber goes to a house several times that is an inefficiency, which should be addressed. What we should absolutely not do is suggest taxing the community to fund and continue such inefficiencies! This is but one example, but I would suggest is systematic in the organisation. Lets have correctly resourced services (perhaps even increasing on occasion), and inefficiencies addressed. Lets cut the right things, increase where necessary and lets not see arbitrary savings without proper analysis.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council will continue to investigate ways to review, consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and efficient way. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37835	An individual	CTi. Planned changes to Council Tax	Not without a root and branch review first. 3% each year over 5 years is 15% - a significant rise at a time when many, including council employees, have seen their salaries reduced in real terms. I would suggest that a rise should always be considered, and is acceptable where warranted, but to do so without addressing inefficiencies is purely passing the resultant inefficiency liability/cost to the community - and this is socially unacceptable and not what Leadership should consider. Sort out the inefficiencies first, then see where the council is before arbitrarily increasing tax!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council will continue to investigate ways to review, consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and efficient way. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
37836	An individual	CTi. Planned changes to Council Tax	I agree that Council Tax should be increased across all bands to maximum 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37837	An individual	CTi. Planned changes to Council Tax	Not if services are cut. I think if services are going to be cut it is unfair to doubly hit people by also increasing tax	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37838	An individual	CTi. Planned changes to Council Tax	Council tax can be increased by 3% per annum.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37839	An individual	CTi. Planned changes to Council Tax	No if crc sites are to close.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.

37840	An employee of West Lothian Council	CTI. Planned changes to Council Tax	In principal yes but I haven't had a pay rise in god knows how many years, I've had additional hours cut and my wife was forced out of a decent job working for education due to disgraceful management. We are earning less than we ever have and are asked to pump more into the council's mismanagement of their reverse pyramid management structure and wasteful use of energy and other resources.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
37841	An employee of West Lothian Council	CTI. Planned changes to Council Tax	yes, provided we are still being delivered a high level of services within the area	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37842	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I believe it is essential to maximise the income over the proposed cut period. Increasing the Council Tax will at least spread the burden over the whole community and may bring in as much as £15 - £20 million in extra revenue.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37843	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Agree that this should be done. It should never have been stopped as everyone was use to a yearly increase. Now all that will happen is we have to have a higher yearly increase to get back what we have lost over the years.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37844	On behalf of a Group/Organisation	CTI. Planned changes to Council Tax	A difficult issue, my personal response is to increase Council Tax but we have mixed views within our organisation. We all agree that income raised should be used wisely and the most vulnerable not impoverished through any increases made.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37845	An individual	CTI. Planned changes to Council Tax	I appreciate there must be an increase in Council Tax, however I do not feel this document provides the detail required for a consultation. It seems to be a series of high level statements. For example it states the estimates savings for each statement but is does not detail what percentage of each budget that estimated saving is. Nor does it outline the exact plans for the statements made. I seem to have more questions than answers having read this consultation document.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37846	An individual	CTI. Planned changes to Council Tax	I absolutely support the proposed rise in council tax and would go so far as to support a 5% rise. The freeze on increasing the council tax which has lasted for 10 years is ridiculous and should never have happened.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37847	An individual	CTI. Planned changes to Council Tax	If my salary increased by 3% then yes but as this is not likely so no.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37848	An individual	CTI. Planned changes to Council Tax	I would support increasing the council tax to maintain vital local services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37849	An individual	CTI. Planned changes to Council Tax	increase council tax by 3 percent or more why not calculate how much you would need to increase council tax to avoid cuts and publish it to demonstrate to voters the impact of scottish government cuts	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37850	An individual	CTI. Planned changes to Council Tax	No. The increase should not be in excess of standard measurement indices such as RPI or other alternatives.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

37852	An individual	CTi. Planned changes to Council Tax	No I don't have kids and pay enough already	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37853	An individual	CTi. Planned changes to Council Tax	Certainly not. The Council must instead achieve very substantial year-on year productivity improvements to reduce cost. Simply putting up Council tax is not the way forward!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37854	An individual	CTi. Planned changes to Council Tax	An incremental increase would be a better approach to help people budget for this increase, but overall would support an increase particularly if it saved some of the services you are proposing to reduce.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37855	An individual	CTi. Planned changes to Council Tax	3% is fine each year,	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37856	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	No. Increases should match annual RPI inflation rate. It is unlikely that the employed will get wage rises of 3% pa over the next 5 years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37857	An individual	CTi. Planned changes to Council Tax	NO! Certainly not such a large increase especially since had a double figure increase last year. Average pay rises have been about 1%. therefore rises should be in this region	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37858	An individual	CTi. Planned changes to Council Tax	I would if it means a reduction on cuts	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37859	An individual	CTi. Planned changes to Council Tax	Basically the council are asking that clients pay increased council tax for a lesser service.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37860	An individual	CTi. Planned changes to Council Tax	Yes. It has been the same for years. It should have gradually been increased year after year anyway. It may have helped this money crisis.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37861	An individual	CTi. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37862	An individual	CTi. Planned changes to Council Tax	I only believe in the increase if people like unpaid Carers and disabled people do not have services cut or have to pay more for services etc otherwise we will be pushed into poverty.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37863	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37864	An individual	CTI. Planned changes to Council Tax	agree. it will save jobs	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37865	An employee of West Lothian Council	CTI. Planned changes to Council Tax	If they had put 1% on each year instead of a 10 year freeze we would be in a better position now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37866	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, although not convinced that this will solve the problem. Raising Council Tax, puts an additional burden on people that are in employment. If benefits are received there is a reduction, with some not paying there costing the Council further expense to collect the debt from them.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37867	An employee of West Lothian Council	CTI. Planned changes to Council Tax	The Scottish Government do not fund councils properly.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
37868	An individual	CTI. Planned changes to Council Tax	I support the proposed rises in council tax you should have increased tax 17/18 council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37869	An individual	CTI. Planned changes to Council Tax	A 3% increase is high enough across all bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37870	An individual	CTI. Planned changes to Council Tax	I fully support a Council tax increase of 3% across all bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37871	An individual	CTI. Planned changes to Council Tax	Unfair this year Band E and above increased. There could be 5 adults living in a Band D and no increase. The Poll Tax was the fairest tax on all concerned. Why tax on your house it is income on every person that should be taxed. The more adults in a house require more services so why should they live tax free	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37872	On behalf of a Group/Organisation	CTI. Planned changes to Council Tax	Yes, if councils had not been made to put a freeze on council tax over the past 7 years, we could have protected services and not had a such significant challenges with our impending budgets. I would also be looking for staff wages to go up at the same rate or we are in essence giving our staff a pay cut in real terms.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement.
37873	An individual	CTI. Planned changes to Council Tax	Yes it was always a bad idea not to increase it annually. Realize this was not your idea.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37874	An individual	CTI. Planned changes to Council Tax	No. WLC employees only receive 1% pay rise, again more increases for those who work and not eligible for council tax benefits. Whilst those that don't work will have it paid for them via benefits. Very unfair.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council implements nationally agreed pay awards.
37875	An individual	CTI. Planned changes to Council Tax	Yes , this is inevitable.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37876	An individual	CTI. Planned changes to Council Tax	I support the Council's planned changes to Council Tax. I recognise the value of the services delivered by the Council and I am happy to contribute more towards delivering them.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37877	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes. It is clear that without this necessary increase, further cuts to vital services will be forced upon us.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37878	An individual	CTI. Planned changes to Council Tax	I think the current council tax rate should remain the same as an increase will be taking more of the hard working citizens money, making them work harder for nothing.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37879	An individual	CTI. Planned changes to Council Tax	A council tax rise of 3% per year for the next 5 years would be difficult to accept if wage increases did not keep pace.	CT1	1. The respondent advised that they agree with the proposal.	The council implements nationally agreed pay awards.
37880	An individual	CTI. Planned changes to Council Tax	Reduce the council tax for unemployed and older folk	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37881	An individual	CTI. Planned changes to Council Tax	Yes, absolutely - it has been kept artificially low for too long.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37882	An individual	CTI. Planned changes to Council Tax	Seems that Council do is anything for money. Don't think council do enough to put council tax up.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37883	An individual	CTI. Planned changes to Council Tax	Do you really think you do enough to raise council tax. I have complained about my living room windows leaking and still nothing has been done.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax.
37884	An individual	CTI. Planned changes to Council Tax	Council tax should be increased for all bands to help reduce cuts	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37885	An individual	CTI. Planned changes to Council Tax	Depends on individual circumstances and how much it would improve specific services. If you earn a specific amount you should pay more. Means tested.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax is a property based tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37886	An individual	CTI. Planned changes to Council Tax	No - this council has no democratic mandate to propose or set any council tax changes. The Labour Party did not appear on the WLC Local Election ballot papers.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax and the council's budget are agreed at full council at which all 33 elected members attend.
37887	An individual	CTI. Planned changes to Council Tax	Don't know what to say about this. Already in debt so can't pay more.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37888	An individual	CTI. Planned changes to Council Tax	Should raise council tax I would go for 4%	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
37889	An individual	CTI. Planned changes to Council Tax	Not a good idea - don't agree with an increase in council tax	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37890	An individual	CTI. Planned changes to Council Tax	Good idea increasing council tax but worried about those who are already living in poverty.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37891	An individual	CTI. Planned changes to Council Tax	Don't think council tax should be raised.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37892	An individual	CTI. Planned changes to Council Tax	I support an increase in the council tax but don't want it wasted on things that will not help local issues. Crime, social care and our health care.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37893	An individual	CTI. Planned changes to Council Tax	If you increase tax by 3% you are penalising the elderly and most vulnerable on fixed income/pensions which do not rise at anything near 3%. At a time of public sector pay caps of 1% you will create more misery for families and most vulnerable.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37894	An individual	CTI. Planned changes to Council Tax	I would be happy to pay more council tax so long as this was used wisely. However I strongly object to paying council tax on an empty property I am trying to sell as I do not live in it and do not use any services at that address.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37895	An employee of West Lothian Council	CTI. Planned changes to Council Tax	No I do not support the increase as I find it unacceptable that you plan to reduce the services provided but increase the amount you want us to pay.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37896	An individual	CTI. Planned changes to Council Tax	Yes. I don't understand how you can continue to provide better services with the same amount of income, especially when inflation is taken into account. However, there needs to be a way to protect the most vulnerable in West Lothian who will not be able to afford a Council Tax rise.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37897	On behalf of a Group/Organisation	CTI. Planned changes to Council Tax	We do. Council Tax has been artificially frozen for too long and can help to balance the budget.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37898	An individual	CTI. Planned changes to Council Tax	Yes. However the timing of this comes at a time where it is very hard to say this. Councils have not been proactive enough in generating income for many years, had they have done so the budget gaps over the past 10 years would not have been so glaring. Paying more for vastly reduced council services seems very much to be a case of shutting the gate once the horse has bolted and this suggestions could not have come at a worse time, given the scale of the current cuts.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37899	An individual	CTi. Planned changes to Council Tax	Whacking up council tax by 12% over 4 years will cause chaos" I agree tax rises on occasion. Doing it like this though is not the way!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37900	An individual	CTi. Planned changes to Council Tax	I do not support the planned changes. I feel that a 3% rise for 4 successive years could potentially cause real problems for hundreds, possibly thousands of families. I can understand why it is being raised but this is too much, too soon. I would need to see more in depth expenditure figures before commenting on where money should be saved.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37901	An employee of West Lothian Council	CTi. Planned changes to Council Tax	No. My council tax already went up last year and it will again if these proposals are implemented. I have received no such salary increase to take into account the ever increasing living expenses.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37902	An individual	CTi. Planned changes to Council Tax	I don't agree with Council Tax. I think people pay too much and don't get much out of it.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37903	An individual	CTi. Planned changes to Council Tax	Yes I support the planned changes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37904	An individual	CTi. Planned changes to Council Tax	I agree with the 3% increase in all bands! To be spent equally.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37905	An individual	CTi. Planned changes to Council Tax	If used efficiently then I understand the need for this unpopular move.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37906	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I am supportive of the need for increased Council Tax charges by 3% to ensure service delivery.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37907	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Support a 3% rise, long overdue.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37908	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. No alternative and long overdue.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37909	An individual	CTi. Planned changes to Council Tax	Yes, the services the council provide are key to a healthy , happy life - I am sure those who can would pay more.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37910	No Response	CTi. Planned changes to Council Tax	Not at all, being a new home owner I now pay council tax which I currently pay £92 a month for, while this may not be a lot of money for some its currently manageable for myself along with every other bill I have to pay, increasing this would only burden hard working home owners further.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37911	An individual	CTi. Planned changes to Council Tax	15% increase is a huge amount to those who are already struggling to pay the current rate. Why was council tax not increased in 17/18?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax.
37912	An individual	CTi. Planned changes to Council Tax	yes I do support this rise. In fact council tax should have risen over the past number of years.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37913	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The West Lothian Community Race Forum supports the 3% increase in Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37914	An employee of West Lothian Council	CTi. Planned changes to Council Tax	will this be applicable across all bands? As bands d+ have only just had a large increase in 2017	CT1	3. The respondent advised that they had no comment to make.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37915	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Yes - the West Lothian Faith Group would support a 3% increase in Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37916	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If council tax does not increase we will continue to be in a position where the council is actually creating more poverty and REDUCING opportunities. An annual 1% or even 0.5% rise over the last 10 years would have largely averted the problems we are facing now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37917	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I feel 3% increase should be for every Band not just specific types. It means it is fair and we aren't solely discriminating on the higher bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37918	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes but they should have done it years ago.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37919	An individual	CTI. Planned changes to Council Tax	Yes - as long as you listen to my views on the need not to leave little WL villages socially isolated with services or transportation.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37920	An individual	CTI. Planned changes to Council Tax	Yes. Provided used efficiently and effectively.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37921	An individual	CTI. Planned changes to Council Tax	No, as we have had a Council Tax freeze for several years. The council should have increased the Council Tax by at least 1% over these years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37922	An individual	CTI. Planned changes to Council Tax	Should be the same as inflation.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37923	An individual	CTI. Planned changes to Council Tax	No i would object to the increase completely. I would look for a vote of no confidence in the council and look for their removal or resignation.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37924	An individual	CTI. Planned changes to Council Tax	Shouldn't have been frozen for so long.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37925	An individual	CTI. Planned changes to Council Tax	Yes the scottish government should never have placed a CAP on these so you should have been able to increase the bands fees each year	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37926	An individual	CTI. Planned changes to Council Tax	Raising council tax will help provide extra income I feel a 3% rise is not too much as long as it is spent on the 8 priorities.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37927	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes, overall everybody in Scotland needs to pay more tax for local services. 3% is only c 25 per month = worthwhile	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37928	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I think the council tax should increase steadily however I did feel it was unfair to increase solely band E-H last year. If the council tax rises it should increase for everyone.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37929	An individual	CTI. Planned changes to Council Tax	Wife it has to be then it has to be but it must be spread. The Scottish Government is planning to increase taxes on what they call " the better off" you have to be careful not just to do the same.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37930	An employee of West Lothian Council	CTI. Planned changes to Council Tax	people are struggling the now we don't get a 3% raise each year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

37931	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes however a smaller increase per year over the past few years would have been better and would have had less of an affect on homeowners/residences.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37932	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If this reduces the need for job cuts then so be it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37933	An individual	CTi. Planned changes to Council Tax	3% per year is fine but must be across all bands with no exceptions	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
37934	An individual	CTi. Planned changes to Council Tax	Make sure all the spongers pay their fair share as well. Not just the hard working.	CT1	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37935	An individual	CTi. Planned changes to Council Tax	I support an increase in council tax and that it continues to increase or decrease in line with CPI	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37936	An individual	CTi. Planned changes to Council Tax	If it preserves such things as keeping the community tip open in Linlithgow, keeping the number of Police that are needed on the streets and keeping the current bus routes open we would be happy to follow this increase of 3%, however if these were to be scrapped or reduced we certainly would not be happy to support this increase.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37937	An individual	CTi. Planned changes to Council Tax	Yes. We all need to pay taxes to get the services that we and others require. The freeze was a big mistake. We need to catch up now with increases in council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37938	An individual	CTi. Planned changes to Council Tax	I support the increase in council tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37939	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes, as long as the increase is ring fenced for specific priorities, particularly social care.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery.
37940	An employee of West Lothian Council	CTi. Planned changes to Council Tax	no you are increasing tax for less services	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37941	An individual	CTi. Planned changes to Council Tax	No, I don't!! If the services provided were more efficient and effective it might be easier to accept. From reading the above we will pay more for less services, you can not have it both ways!! If you are looking to make increases you have to ensure that the services. Why should people be penalised for putting money into property and have to pay even more for the same services that people in slightly smaller houses do!! It does not mean that their surplus income is higher just because they have a bigger house. Council tax needs to be re-looked at altogether, poll tax was not popular but council tax is becoming a joke, there must be half way between both of these. The money that must be wasted paying for the public to attend jury service must be horrendous! You sit for 3 days waiting to be told if you will be part of the jury or not and all this time the employers are short staffed and money being thrown away, this is a shinning example of a current process that should be reviewed to be more efficient and reduce costs.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council will continue to investigate ways to review, consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and efficient way. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37942	An individual	CTi. Planned changes to Council Tax	Don't see much choice, though won't be a popular move as many peoples salaries have not gone up much in recent years.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37943	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I do support the increase if it means saving peoples jobs. however, I think it should have be raised by 1% every year from when we were able too & not frozen because of an election year, the raising it 3% at once will cause upset.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37944	An employee of West Lothian Council	CTi. Planned changes to Council Tax	As an employee I do support the planned increase to Council Tax as it will secure jobs and services however staff also need a wage rise to help cover this cost otherwise it will be equivalent to another pay cut.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37945	An individual	CTi. Planned changes to Council Tax	I agree but would like to know if pensioners could get a slightly reduced rate increase if possible. They are not in a position of getting an increase in their income in the future as some workers are.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37946	An individual	CTi. Planned changes to Council Tax	I agree with the Council Tax increase. That makes it fair across the board.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37947	An individual	CTi. Planned changes to Council Tax	Yes! It should have been raised for this year.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37948	An individual	CTi. Planned changes to Council Tax	Yes 3% - no higher.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37949	An individual	CTi. Planned changes to Council Tax	Yes for the right services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37950	An individual	CTi. Planned changes to Council Tax	Disagree with the 3% rise. However, I would agree if it was on my priorities above.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37951	An individual	CTi. Planned changes to Council Tax	With the cut-backs that are occurring at present the Council don't have much of an option. The Council tax will have to be maintained. 3% each year seems reasonable.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37952	An individual	CTi. Planned changes to Council Tax	I think that council tax shouldnt go up as it is far too much money the now.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37953	An individual	CTi. Planned changes to Council Tax	I would agree to a council tax increase provided this was not greater than the government include given to the state pension annually. You cannot have 1.5% for some and 3% for others - fixed income people have a budget too!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37954	An individual	CTi. Planned changes to Council Tax	3% increase for all bands	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37955	An individual	CTi. Planned changes to Council Tax	I understand the money and cut backs have to come from somewhere and although wages don't increase to help with this i'm happy or understanding this increase must go ahead.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37956	An individual	CTi. Planned changes to Council Tax	What planet do these people live on. The government is saying it could put up income tax and you say you can put it up by 3%. Not everybody gets council wages and have a zero attitude if not paid take action to pay all monies due not let them refuse if most people pay why do they let other not pay when what's in it for the council if you cannot live within your means get people paid less in council as above.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
37957	An individual	CTi. Planned changes to Council Tax	I think the council tax should be increased in fact this should have happened before now and this is why we are struggling now. There are far too many foreigners allowed into this country, many of whom are criminals. It is about time we adopted the same procedures as Australia.	CT1	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37958	An individual	CTi. Planned changes to Council Tax	No one will opt to pay more (3%) council tax as WLC want local people to manage services and buildings - why then pay when services are not being provided - makes no sense!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

37959	An individual	CTi. Planned changes to Council Tax	I am not adverse to a 3% council tax increase if we protect human staff lives (employment). If West Lothian citizens agree to a 3% increase - which services will be protected? Hope the 3% council tax will not just protect staff employment in housing! But all council staff. Our nursery nurses are underpaid and do an important sad if they don't see some of the £16.9m! This situation is born from extreme bad money management! Shocking!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37960	An individual	CTi. Planned changes to Council Tax	I believe that if cuts are required then I would rather pay a little more on Council tax than the closure/loss of vital services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37961	An individual	CTi. Planned changes to Council Tax	I would support council tax increase but not 3% for each year. This is 3 times more than council workers pay increases have been for many years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37962	An individual	CTi. Planned changes to Council Tax	I don't agree with council tax full stop. The money is put to waste by local government. Money should be put into keeping community groups and clubs running.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
37963	An individual	CTi. Planned changes to Council Tax	I would rise of council tax by 3% as good value for the service well depend on and value.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37964	An individual	CTi. Planned changes to Council Tax	No I am not supporting 3% increase of Council tax!! You getting enough of this money!	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37965	An individual	CTi. Planned changes to Council Tax	I suport a 3% increase to all bands but all properties should be re-valued now in order to put them in appropriate bands.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37966	An individual	CTi. Planned changes to Council Tax	I am in favour of a rise in council tax to maintain these services and more. My vote will be carefully placed next elections. End these savage cuts now. For a council tax payer with a vote	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37967	An individual	CTi. Planned changes to Council Tax	Happy for the council to increase council tax if it helps other services within WLC stay open.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37968	An individual	CTi. Planned changes to Council Tax	I'm not convinced that a 3% increase would help to reduce the cuts. In the past it has not been used properly and goes to 'prop up' other things - wages, pensions, etc. I would love to see specific priorities such as social & health care benefit from this but we know this won't happen. The Council lives on benefits from the Westminster Government and the only way to bridge the gap is to ask them for more money.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37969	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The general mood of the meeting reflected an acceptance of an increase in council tax of 3% per annum for each of the 5 years of the financial plan period. We note that the deficit of £73 million assumes a 3% increase for each year between 2018/19 and 2022/23.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37970	An individual	CTi. Planned changes to Council Tax	no greater increase	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37971	An individual	CTi. Planned changes to Council Tax	People in band e-h are often on a fixed income (pensioners) so although they live in a high value house they do not always have a high income - and can not afford extra increase .	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37972	An individual	CTi. Planned changes to Council Tax	Yes I support the councils planned changes in council tax of 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37973	An individual	CTi. Planned changes to Council Tax	No I do not agree to a 3% rise over 5 years, This is not fair on people on low incomes or on pensioners. Most people are pushed as it is. Maybe you should charge more to them that bought their council houses. Now termed private. Just a thought. Another of Thatcher's disasters.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37974	An individual	CTi. Planned changes to Council Tax	as a tax payer I think the council is wrong not to adopt the council tax rise of 3% each year. Thank would give you a little more cash to help as required for more essential priorities and not reduce everything.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37975	An individual	CTi. Planned changes to Council Tax	Raise council tax - but 1% sounds better for year by year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37976	An individual	CTi. Planned changes to Council Tax	I think it is hard for people who are on low pay or benefits to pay more council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
37977	An individual	CTi. Planned changes to Council Tax	No, council tax should not be increased.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37978	An individual	CTi. Planned changes to Council Tax	I am happy to support an increase of 3% providing it was spent on social care which is so important to support independent living for older people	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37979	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	I do not object to Council Tax being raised as long as services are maintained and not cut.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37980	An individual	CTi. Planned changes to Council Tax	Whilst I live in a band E property I would accept that a 3% increase may be necessary. I request the Scottish Gov has not met its promise to review local tax. Further more Bands should have been reviewed every 5 years. As in the Rates system, I have no problem with at least band a and B being left out of the increase. I think a sliding scale from C-H would have been more equitable	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
37981	An individual	CTi. Planned changes to Council Tax	Yes - although it is a small percentage of funding it is important that all house owners contribute	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37982	An employee of West Lothian Council	CTi. Planned changes to Council Tax	I think the 3% rise in Council Tax is excessive, and employee wage rises should match the tax rise	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council implements nationally agreed pay awards.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37983	An individual	CTi. Planned changes to Council Tax	Council Tax to be raised 1% per year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
37984	An individual	CTi. Planned changes to Council Tax	I would be willing to pay more if it meant the older people's day centre was kept open.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37985	An individual	CTi. Planned changes to Council Tax	It needed to be raised two years ago. Stop thinking votes and start thinking responsibilities. "Freedom" needs to change. We want our services. Libraries, clean streets, our recycling centres, art exhibitions, gritting etc etc Have fewer councillors and reduce the £800,000 bill for them. Raise council tax. Work together and not for parties.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The number of councillors for each council area is determined by statute by the Scottish Parliament.
37986	An individual	CTi. Planned changes to Council Tax	No i find it shocking.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
37987	An individual	CTi. Planned changes to Council Tax	No to the increase in Bands E-H. Lots of householders in this bracket are asset rich but cash poor due to the increase in house prices. Any increase should be across all Bands as all people use council funded amenities.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
37988	An individual	CTi. Planned changes to Council Tax	3% ok not sure about higher	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37989	An individual	CTi. Planned changes to Council Tax	Yes I support the plan to increase the council tax by 3%.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37990	An individual	CTi. Planned changes to Council Tax	Only if the quality of services improves which I doubt	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37991	An individual	CTi. Planned changes to Council Tax	I support the council's planned changes to council tax and also an increase of more than 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37992	An individual	CTi. Planned changes to Council Tax	I don't mind pay extra council tax as long as it's spent on schools, education and other priority areas	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
37993	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If it kept more council jobs in all areas	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37994	An individual	CTi. Planned changes to Council Tax	I support annual rise of 3% for ALL bands	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37995	An individual	CTi. Planned changes to Council Tax	Yes I support the council's planned changes to council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37996	An employee of West Lothian Council	CTi. Planned changes to Council Tax	There appears to be no choice but to agree, central government is not providing the required amount of funding, therefore it falls to tax payers to cover the shortfall.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
37997	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Happy for Council Tax to increase as long as children and youth services continue to run	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
37998	An individual	CTi. Planned changes to Council Tax	Support an increase to support the budget	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
37999	An individual	CTi. Planned changes to Council Tax	If council tax is increased it should be to fund the services that are necessary and ensure things like blue badge charges are not introduced. Nor should charges for brown bins. This council along with others should approach and discuss with the Scottish Government urgently the requirement to end council tax in its present form and introduce a fairer system based on ability to pay rather than housing prices. An increase in council tax should maintain services, not produce reduced services...	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38000	An individual	CTi. Planned changes to Council Tax	It is a very long time since council tax has been frozen. I feel it is vitally important to raise council tax to maintain essential council services which benefits all the citizens of West Lothian.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38001	An individual	CTi. Planned changes to Council Tax	I would support a regular rise in Council Tax, if that meant that council services and jobs would be protected.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38002	An individual	CTi. Planned changes to Council Tax	I do feel that I have little idea where the huge amount of money we pay in council tax is spent... So I do not support a 3% p/a rise.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38003	An individual	CTi. Planned changes to Council Tax	The council should have increased this years ago. Services have suffered as a result. I would rather pay for a good quality service than have no services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38004	An individual	CTi. Planned changes to Council Tax	Yes. No more than 3% poorer families will struggle.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38005	An individual	CTi. Planned changes to Council Tax	I don't believe in the Council tax as it is unfair to people unemployed and in employment	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38006	An individual	CTi. Planned changes to Council Tax	Some increase is expected would not like it to be more than 3%	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38007	An individual	CTi. Planned changes to Council Tax	I support the council's planned changes for 2018/19 and 2022/23	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38008	An individual	CTi. Planned changes to Council Tax	Support increase if funded mental health supports which would reduce need of emergency support.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38009	An individual	CTi. Planned changes to Council Tax	A yearly increase of 3% is not acceptable - many people in work have not received an increase in wages for a number of years.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38010	An individual	CTi. Planned changes to Council Tax	3% should be the absolute maximum increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38011	An individual	CTi. Planned changes to Council Tax	Yes & no... If it's going to help keep services then yes - but the questions asked already are asking us to pay for stuff like parking.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38012	An individual	CTi. Planned changes to Council Tax	I don't mind the rise as long as the money goes to the right places.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38013	An individual	CTi. Planned changes to Council Tax	Council tax is high enough all ready without the need for an increase	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38014	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Exempt from paying but I think most people would agree that paying more is required.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38015	An individual	CTi. Planned changes to Council Tax	I would rather the increase is lower with maybe a 1% increase proposed.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38016	An individual	CTi. Planned changes to Council Tax	Council tax doesn't affect me, I am exempt so happy if it goes up to help for decent services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38017	An individual	CTi. Planned changes to Council Tax	Agree that council tax should go up but only for people can afford it.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38018	An individual	CTi. Planned changes to Council Tax	Yes, if the money was going towards the community.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38019	An individual	CTi. Planned changes to Council Tax	No. We do not support the council's planned changes to council tax. Council tax charges in West Lothian are already on a par with or more expensive than inner London boroughs! Rates have been increased recently by 2.1%	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38020	An individual	CTi. Planned changes to Council Tax	If an increase is used for social care and health, an increase is acceptable.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38021	An individual	CTi. Planned changes to Council Tax	Raising council tax by 3% each year until 2023 is too much.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38022	An individual	CTi. Planned changes to Council Tax	Increase good = better care of special groups.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38023	An individual	CTi. Planned changes to Council Tax	Business is good in West Lothian, tax the corpatory more that can afford it - not the working men more than this.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties are set nationally by the Scottish Government.
38024	An individual	CTi. Planned changes to Council Tax	I agree to the 3% rise. WLC services will become impersonal, detached & unfavourable. Not much chance of winning Council of the Year again. Community groups, T&R associations & community councils are diminishing due to lack of support & funding. Helping these areas grow could have provided volunteers to step in where some cuts are issued. I feel you have taken too much already and we are going to lose more. I don't know what the right choices are, I understand the money needs to be saved but I'm not sure you are getting it right.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38025	An individual	CTi. Planned changes to Council Tax	We already live on breadline, where do we get more money for another increase in tax? Take care of people. If more people move to West Lothian you have more community tax to collect.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38026	An individual	CTi. Planned changes to Council Tax	Cut down on everything! We will have nothing left. We don't have a lot at the moment. How many people take time to read all the reports?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38027	An individual	CTi. Planned changes to Council Tax	I agree with the rise - obviously necessary. But i wish you would collect this tax ruthlessly from those who do not!	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38028	An individual	CTi. Planned changes to Council Tax	Support 3% increase (for all bands) - no support for greater increase.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38029	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If i lose my youth work job I'll struggle to pay my rent - for less pay any increase on council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38030	An individual	CTi. Planned changes to Council Tax	A) council tax requires to be increased to help fund those essential required expected services.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38031	An individual	CTi. Planned changes to Council Tax	Broadly in agreement with increasing council tax and providing its done fairly and reasonably asking the householders in higher band properties to pay more. Also agree to proposal to increase council tax by more than 3% provided that it is targeted on specific projects.	CT1	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38032	An employee of West Lothian Council	CTi. Planned changes to Council Tax	If it is affordable for everyone then an increase is essential however big business should contribute to this as we need the services and a happy workforce are happier.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Non domestic rates for commercial properties are set nationally by the Scottish Government.
38033	An individual	CTi. Planned changes to Council Tax	I think it should go up but I don't think that 2 people living in a house should pay the same as 6 people living in a house. Logic tells you that 6 people will be using more facilities than 2. Also should be a reduction for OAP's as they are paid it all their working lives. It shouldn't go with your post code or if you are in a private house or Council house. We are all using th same ammenities, street lights, rubbish etc.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38034	An individual	CTi. Planned changes to Council Tax	I don't feel you need to play on the heart strings in terms of using social care as a bargaining tool. Realistically this Council Tax rise should have been in place previously to build up a buffer, people cannot expect to continue to maintain no increase. However, Councils should also be looking at their rents/Council Tax no-one else only pays 10 months of the year and why are they the cheapest around no wonder everyone wants to stay in Council tenancies.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals can choose to pay over ten or twelve instalments but the total charge remains the same.
38035	An individual	CTi. Planned changes to Council Tax	I agree to 3% increase in council tax next year. I am not happy about ongoing 3% increase year on year for the next 5 years as proposed.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

38036	An individual	CTi. Planned changes to Council Tax	I am aware council tax bands have not been reviewed for many years & do not reflect current house prices. I would support an increase but wonder if you have considered increasing all CT on an incremental scale with lower bands being increased by a lower percentage & higher bands by a higher percentage? This would appeal as it's being universally applied & not targeted on one group (who may be struggling young families).	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
38037	An individual	CTi. Planned changes to Council Tax	I would support an increase of 0.5% per annum on the present rate of council tax.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38038	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	We appreciate the need for an increase in council tax but wonder why this was not increased prior to the local election; if it had been it is likely the required cuts would not be as high as they are now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38039	An individual	CTi. Planned changes to Council Tax	If the council's proposal at 7c waste services become effective then surely these would contribute to a certain % reduction in council tax eg. is it not the case that householders are already paying for brown bin collections within existing council tax? By proposing a charge for brown bin collections are WLC "double dipping" the householder?	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38040	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Paying more less! Should be income based. People on low income and benefits should be excluded.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38041	An individual	CTi. Planned changes to Council Tax	But whatever you do get it right council tax scrap it. It is not working.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38042	An individual	CTi. Planned changes to Council Tax	The SNP Scottish Government were going to scrap this - another lie. We all know its not working. So scrap it and go back to something like to old rates systems what is a fairer system.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38043	An individual	CTi. Planned changes to Council Tax	I don't agree. If it was 3% for 1 year that would be ok.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38044	An individual	CTi. Planned changes to Council Tax	I think all homes should pay dependant on their income. Owners of large estates should pay most based on the current value of their property and the land they own privately. I do think that everyone who has a bus pass should pay 50p each journey. I don't think they would find this a hardship. I would introduce parking meters in town centres to raise money. Charge 20p for taking a book from the library.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38045	An individual	CTi. Planned changes to Council Tax	The council is already planning to increase rent by at least 3%/year over the next 5 years. It would be preferable to increase council tax in order to provide services. To increase both - effectively over 15% at least on rent alone - would place a huge burden on many "cash strapped" tenants. If the cost of living is set to rise even further. More and more tenants will be faced with the dilemma of either paying bills, rent, etc or paying for food, heating. By increasing rent & council tax this would place increased pressure on the welfare system as more tenants are forced into poverty.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38046	An individual	CTi. Planned changes to Council Tax	council tax incomes should rise significantly.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38047	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	council tax should not increase by more than 2% per year	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38048	An individual	CTi. Planned changes to Council Tax	Not happy about this at all - I pay enough as it is and I can't even get my grass cut for less than £40. I would be even poorer than I am now.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38049	An individual	CTi. Planned changes to Council Tax	Why will West Lothian Council not raise our Council Tax. It is so imbalanced with those on lower incomes in modest properties paying a higher percentage of their income on Council Tax while those more affluent with larger homes pay little.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38050	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	Poll tax was a fairer tax. Council tax for people in the higher band is totally unfair. 3% is higher than expected. Salaries haven't increase and council tax should stay the same.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38051	An individual	CTi. Planned changes to Council Tax	I feel that people over 65 should have a reduced rate as they don't have a wage coming in.	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38052	An individual	CTi. Planned changes to Council Tax	When the Scottish Government introduced the increase for bands E-H. For equality payments it should have been for all bands.	CT1	1. The respondent advised that they agree with the proposal.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38053	An individual	CTi. Planned changes to Council Tax	I don't think its fair to raise 3% in council tax. I think an increase on income should increase the shortfall. The E-H band has already had huge increases.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38054	An individual	CTi. Planned changes to Council Tax	I understand cut backs will need to be made as the cost of living has risen so much over the last 7 years the choice for many now is eat or heat and luxuries can be ill afforded. If there was a 3% increase there ought to be measures in place for low income & pensioners to be exempt from payment of increase. I cannot make a comment as not enough information has been supplied. No to paying an increase for those on a low income.	CT1	3. The respondent advised that they had no comment to make.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
38055	An individual	CTi. Planned changes to Council Tax	Council tax is a system which has passed its sell by date. Now that increases seem to inevitable, this will mean further cuts to peoples disposable income, which in some cases can ill afford.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38056	An individual	CTi. Planned changes to Council Tax	I believe that a 3% rise in council tax should only go to households that can afford it. I also believe that people on benefits should get a decrease in their council tax because it will be money that can be spent on better things like food even it means an increase of 3% for everyone else	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38057	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The proposed increases should be over all rate bands	CT1	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38058	On behalf of a Group/Organisation	CTi. Planned changes to Council Tax	The poor, homeless and down-and-outs seem to be treated much better than the working, honest people by both the scottish government and local councils. I agree with a 3% increase but would apply it over all bands not just the well-off and big houses. I agree with the steps and direction the council is taking for future development of West Lothian.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38059	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Whilst I am in agreement for Council Tax to be increased, I feel that due to unemployment and poverty issues this increase will put people in a situation that they may not be able to afford. Many people rely on food banks etc and raising the Council Tax may only put some people further into priority bracket no.6. Which services will be improved if this raise takes place considering that in section 7c (waste services) there is a proposal to introduce charges that are in place just now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38060	An individual	CTi. Planned changes to Council Tax	Whilst I am in agreement for council tax to be raised I feel that due to unemployment and poverty issues this increase will put people in a situation that they may not be able to afford. Many people rely on food banks etc and raising the council tax may only put some people further into priority bracket no.6. Which services will be improved if this raise takes place? Considering that in proposal 7c there is a proposal to introduce charges that are in place just now.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38061	An employee of West Lothian Council	CTi. Planned changes to Council Tax	not sure how WLC resident can be asked to contribute more in council tax when wages haven't increased by the equivalent over the years. Agree they need to be increased but council wages increases need to be more generous to ensure communities standards of living don't continue to fall.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
38062	An employee of West Lothian Council	CTi. Planned changes to Council Tax	3% of a rise is a lot for most families to be paying, most families struggle to pay just now. Will we see any improvements with paying more council tax??	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38063	An individual	CTi. Planned changes to Council Tax	As long as the quality of service is maintained I couldn't complain about an increase	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38064	An individual	CTi. Planned changes to Council Tax	agree if we are to provide better services in an age when there is a dramatic increase in the older population then money has to be found from somewhere and a 3% increase in council tax for those who can afford it seems reasonable. It is time however to look at the age where older people qualify for the Christmas fuel and bus pass entitlement particular where people are still working.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38065	An individual	CTi. Planned changes to Council Tax	You don't need to consult on raising council tax you already have the authority to do this.	CT1	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
38066	An individual	CTi. Planned changes to Council Tax	I fully support the increase and believe that it should never have been frozen. I also think that SNP bribed people by freexing it in the first place to gain power. We have gone from UK council of the YEar 2006 to a skelton of once which we were.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38067	An individual	CTi. Planned changes to Council Tax	I agree on the 3% If funding raised on what social care?	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38068	An individual	CTI. Planned changes to Council Tax	I think 3% is steep. I think councils need to impress upon the Scottish Government that a revaluation of properties is necessary. It cannot be fair that e.g. someone in a house worth £500,000 pays the same council as as that of a property worth £212,000. I think council tax arrears need to be pursued more actively. I think an increase of more than 3% across the board would have a serious impact on many households.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38069	An individual	CTI. Planned changes to Council Tax	Increase would be fine.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38070	On behalf of a Group/Organisation	CTI. Planned changes to Council Tax	We support the council's planned changes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38071	An individual	CTI. Planned changes to Council Tax	It needs to rise! Our services are disappearing faster than snow off a dyke in June. Nobody wants bills to rise but this government is bringing council services to its knees.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38072	An individual	CTI. Planned changes to Council Tax	Why will West Lothian Council not raise our Council Tax. It is so imbalanced with those on lower incomes in modest properties paying a higher percentage of their income on Council Tax while those more affluent with larger homes pay little.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38073	An individual	CTI. Planned changes to Council Tax	I don't think the council tax should be put up I think there shouldn't be so much money been put into jails. I would be happy to pay it as long as it wasn't getting spent on criminals that keep reoffending.	CT1	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Funding for prisons is determined nationally by the UK Government. Funding for criminal justice activity in councils is ring fenced funding from the Scottish Government and must be used for these purposes.
38074	An individual	CTI. Planned changes to Council Tax	I do support the planned changes.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38075	An individual	CTI. Planned changes to Council Tax	Consider the increase to be good only if spent only if spent on local priorities- groups etc improves mental health Good for children to socialise.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38076	An employee of West Lothian Council	CTI. Planned changes to Council Tax	I would pay the increase in council tax so we could provide better services for the community in which I live in	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38077	An individual	CTI. Planned changes to Council Tax	I would agree to pay the increase in council tax	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38078	An individual	CTI. Planned changes to Council Tax	Council tax is expensive enough for most people so it should not be raised unless it got put to a good cause such as care fr the elderly, groups for children and school supplies.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38079	An individual	CTI. Planned changes to Council Tax	Agree with rise of 3% in bands E-H but not a general increase across the whole spectrum.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38080	An employee of West Lothian Council	CTI. Planned changes to Council Tax	Yes this is acceptable	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38081	An individual	CTI. Planned changes to Council Tax	Yes I agree with increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38082	An individual	CTI. Planned changes to Council Tax	Happy to have a 3% increase as long as the council services remain the same with no less bin collections etc.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38083	An individual	CTI. Planned changes to Council Tax	I support council tax increase	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

38084	An individual	CTi. Planned changes to Council Tax	Will getting more money really improve our services - especially housing. All the extra money what are they going to do with it?	CT1	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Provision of council houses, including maintenance costs, is paid for from council house rents not council tax.
38085	An individual	CTi. Planned changes to Council Tax	Council tax is to high for people that don't have it	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38086	An individual	CTi. Planned changes to Council Tax	The council should increase council tax for a mimimum of the next 5 years. The increase should be set at 3% per year .	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38087	An individual	CTi. Planned changes to Council Tax	The proposed increase of 3% is a substantial increase for some families and may cause hardship . I agree that there should be an increase but it should be phased in over the next few years allowing ways to increase at the same rate. To increase at this rate would contradict your priority of minimising poverty.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38088	An individual	CTi. Planned changes to Council Tax	Yes to avoid any further cuts	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38089	An individual	CTi. Planned changes to Council Tax	3% is too much for me. 1%- 2% at most	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38090	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Agree it seems 3% p.a increase is unavoidable and essential but many will be averse and may struggle to pay	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38091	An individual	CTi. Planned changes to Council Tax	I do not agree with council tax being increased.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38092	An individual	CTi. Planned changes to Council Tax	I would happily pay more council tax as long as the extra money went on appropriate priorities = education / special needs / social care.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38093	An individual	CTi. Planned changes to Council Tax	Yes I would support rise of 3% annually because it has not been raised cutbacks have began to show. So many to mention. Personally I would be so disappointed if one of the cutbacks happened to my lip reading class. The benefits I get from attending are enormous. Because of this I hear so many things. Outings this helps my health this can only be good.	CT1	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

38094	An individual	CTi. Planned changes to Council Tax	That would be the most sensible course of action instead of depriving the most vulnerable whose parents and family would rather pay extra on the council tax than close their centre.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38095	An individual	CTi. Planned changes to Council Tax	Thank you for giving me the opportunity to give my thoughts on the proposals. A lot of people who live in West Lothian work as council or Health employees. Reducing their income at the same time as increasing council tax will have a detrimental effect on the ability to maintain a decent standard of living. We need to ensure people have enough money to spend and therefore we need to ensure people have enough money to spend and therefore keep our economy running. I believe this to be a bad proposal.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38096	An individual	CTi. Planned changes to Council Tax	Increase council tax if deemed necessary to help avoid closures of centres in the area.	CT1	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38097	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Raise the Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38098	An employee of West Lothian Council	CTi. Planned changes to Council Tax	Yes. Although it has to be said that council workers are experiencing a real terms wage cut year on year over the past ten years. By raising council tax 3% then giving staff a 1% wage rise, council workers are paying to implement cuts on themselves.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council pay awards are agreed nationally as part of the collective pay agreement. Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
38099	An individual	CTi. Planned changes to Council Tax	Increase the Council Tax rather than making people redundant and putting strain on the rest of the workforce.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38100	An individual	CTi. Planned changes to Council Tax	An increase in Council Tax.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38101	An individual	CTi. Planned changes to Council Tax	Efficiency savings, Integrated partners, sounds like were turning to charity to do the job of the public sector. Raise the council tax and fund the services properly. It's people's life's were talking about here.	CT1	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38102	An individual	CTi. Planned changes to Council Tax	No	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38103	An individual	CTi. Planned changes to Council Tax	No	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

38108	An individual	CTi. Planned changes to Council Tax	No. Council tax is already a large factor in monthly expenses. Increasing this at a time when most wages are being restricted is a further reduction in the income people have towards their households at a time when prices for necessities is increasing. A modest rise could be accommodated, but an effective 18% (more in real terms) raise over 5 years is not manageable, nor acceptable	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38109	An individual	CTi. Planned changes to Council Tax	If all the cuts go ahead and many services are removed I don't find it fair to pay more for this	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38110	An individual	CTi. Planned changes to Council Tax	No, many public sector workers have had a pay freeze for the last five years. Teachers are currently negotiating a new pay increase deal for just over 1% but council tax will rise by 3%? Does not equate and does not reflect the promises made by the Scottish Government.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38111	An individual	CTi. Planned changes to Council Tax	No - a 15% increase over 5 years is nothing short of extortion when wages have not and are not increasing at the same rate.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38112	An individual	CTi. Planned changes to Council Tax	put council tax up to the max and we will see what happens next .there will be more homeless in west Lothian than anywhere else in the uk	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38113	An individual	CTi. Planned changes to Council Tax	There must be a limit to how much people can pay. Increases cannot go on forever. For most people the Council Tax is already the biggest monthly bill they have. Annual increases will turn the country into a state run society in which the residents will serve the state and not the other way round. This means that Council staff will consider themselves more powerful than the people they serve.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38114	An individual	CTi. Planned changes to Council Tax	I definitely do not agree in a council tax rise. I have had a recent increase and I believe this is sufficient.	Does not agree with proposal	2. 38161	An individual	CTi. Planned changes to Council Tax	No, because there isn't enough money nyway	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38162	An individual	CTi. Planned changes to Council Tax	No, I do not support this. Please see my previous comment. I am paying Â£205 a month in council tax. We are 2 adults no children in a house worth Â£220,000. I believe this is excessive and to ask 2 people on an average wage who don't qualify for any benefits to pay yet more council tax is appalling. If you must make cuts, let's see them made to universal hand outs which benefit the wealthy and are not means tested. A person living in a Â£500,000 or Â£1,000,000 home pays a few hundred pounds a year more than I do. I do not think you should be asking me to pay any more while this regressive situation stands.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38163	An individual	CTi. Planned changes to Council Tax	I don't agree with the council putting council tax up by 3% each year - if it wasn't frozen we wouldn't be in this mess.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38164	An individual	CTi. Planned changes to Council Tax	No I do not agree with increasing council tax.	Does not agree with proposal	2. 38208	An individual	CTi. Planned changes to Council Tax	Your 3% rise in council tax until 2022/23 budget doesn't seem a lot to you but as a pensioner on Band D we find it difficult as it is to pay this tax as we don't qualify for any help as my husband has a small private pension so this bars us from any government help. Please think carefully about increasing council tax and certainly do not agree with any increase and especially not above 3%	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38209	An individual	CTi. Planned changes to Council Tax	My husband is the only person in our house that works, we pay full everything, no benefits at all. I'm in recovery and not fit for employment. We have 2 children, I think it is absolutely terrible this would be happening and a disgrace to people who struggle with finance constantly.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38210	An individual	CTi. Planned changes to Council Tax	The Council made great play of having a zero Council Tax increase in 2017/18 as a policy priority in difficult times for ordinary households. Nothing has changed in 5 months since the Council and general elections. It would be bizarre if the Council's thinking has, when economic circumstances have worsened. The Chief Executive asks about the three main priorities for the community he claims to want to work with. The community faces a triple whammy of rising inflation (3%+), higher income taxes from the devolved government and increased interest rates; all of which lower disposable incomes. In such circumstances, the Council should NOT be treating an annual 3% increase in Council Tax as a "given". That amounts to a compound increase of 16% over the planning period. The combined effect of these economic factors on households would be catastrophic. The Council should therefore be presenting a scenario with ZERO Council Tax increase in order to save a total of £100m over the planning period. This would be an annual budget saving of 5% against the 3.7% currently contemplated and would be no worse than the savings the NHS (a greater priority service) will have to find next year. I do not support a tax increase at the maximum level or beyond. It's an unimaginative and uninspiring pre-set suggestion in the so-called consultation document.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38211	An individual	CTi. Planned changes to Council Tax	Don't agree with council tax at all. Should be only £50 not £300 each year - unfair. Unless it goes to good services.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38212	An individual	CTi. Planned changes to Council Tax	No I don't agree with proposals. I think they should make it cheaper for older people.	Does not agree with proposal	2. Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38262	An individual	CTii. Bridging the increased budget gap	I support	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38263	An individual	CTii. Bridging the increased budget gap	Happy to pay more council tax to protect services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38264	An individual	CTii. Bridging the increased budget gap	I support the annualmincrease	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38265	An individual	CTii. Bridging the increased budget gap	Support the increase	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38266	An individual	CTii. Bridging the increased budget gap	I support the increase	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38267	An employee of West Lothian Council	CTii. Bridging the increased budget gap	no comments- in agreement.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38268	An employee of West Lothian Council	CTii. Bridging the increased budget gap	yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38269	An individual	CTii. Bridging the increased budget gap	Support	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38270	An individual	CTii. Bridging the increased budget gap	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38271	An individual	CTii. Bridging the increased budget gap	I think that bands A-D should have a staggered increase e.g. 1% in 2018/19 then 2% in 2019/20 then 3% with higher bands having a slightly higher increase to subsidise this. Or, for bands A-D to remain at a lower increase e.g. 2% with higher bands having a higher increase to provide the same funding. With the increasing number of housing in West Lothian, more CT revenue will be raised - it isn't clear if this has been projected.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Officer budget model assumptions include an assumed annual increase as a result of additional housing being built across the county.
38272	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Streamlining of services should be able to fund the savings as will streamlining of internal WLC processes.	CT2	4. The council is already doing this.	The council will continue to investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
38273	An individual	CTii. Bridging the increased budget gap	I support an increase only in the higher bands.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38274	An individual	CTii. Bridging the increased budget gap	I support it.- see above	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38275	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I think that higher fee's and charges and direct deducitons for those who do not pay their council tax would help The people who pay their council tax religiously are being punished for those who fail to pay their council tax. I think if there are council tax arrears on accounts then tenant's should not be eligible for further assistance such as SWF and for moves to a new property or an exchange the same way rent arrears do this	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity. Legally, the council is not able to apply a charge to council tax liabilities for this purpose.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38276	An employee of West Lothian Council	CTii. Bridging the increased budget gap	business rates	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The non domestic rates scheme and charges are set nationally by the Scottish Government.
38277	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I feel charging for other services which the council give away need to be looked at. All services can tighten their budget but this needs to start with the small stuff place more emphasis on families and individuals taking control of their life.	CT2	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. The council regularly reviews its charging and concessions policy and this can be considered as part of the next review.
38278	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Nice one :-)	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
38279	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Pressure the Scottish Government for a fairer settlement to local authorities. They have seen a real terms increase in their budgets but have not passed this on to local authorities, preferring to spend more on their priorities as at the expense of local authorities.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point. The Scottish Government determines what funding it allocates to the individual areas of the public sector based on their national priorities.
38280	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I agree with the increase but it's a little late hence increased by a significant amount.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38281	An employee of West Lothian Council	CTii. Bridging the increased budget gap	The council tax must be increased - it will make a very important contribution to the council's budget gap.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38282	An individual	CTii. Bridging the increased budget gap	money tight everywhere so Council should stop giving thousands to Galadad committees they will have to do their own fundraising also hold back the discretionary payments from councillors to unnecessary projects like galadays put that money towards care of elderly and disabled. cut back on fancy flower beds and benches, expensive structures on roundabouts etc and generally practice right first time, way too much wasted on cowboy contractors and works being redone	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38283	An individual	CTii. Bridging the increased budget gap	I would remove subsidies for services that are economically unviable without having tax payer's money thrown at them.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38284	An employee of West Lothian Council	CTii. Bridging the increased budget gap	As the average Council Tax is £1000 a 3% rise every year for five years, cumulatively works out at a Payment over the piece of £193.50. Why do you not put it up 10% and then freeze it for 5 years which would net you £610.51 in the five years and people would be glad you froze it.	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
38285	An individual	CTii. Bridging the increased budget gap	Sell off or rent council buildings and consolidate facilities as per my previous comments	CT2	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. The council also has a commercial rent portfolio which generates income for the council with the cost of providing the units being substantially less than the income received.
38286	An individual	CTii. Bridging the increased budget gap	Increased productivity in general would provide more employment and more Council income. Could some of those on long-term benefits who are capable of work not be required to assist in delivering some of the Council's services? Scotland is a caring country but a balance needs to be struck somewhere.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and productive way. The council has a volunteering scheme in place to facilitate volunteering in areas such as Social Policy and anti-poverty.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38287	An individual	CTii. Bridging the increased budget gap	The Council, and all Councils should hand the mess back to the Scottish Government, why have a system that only generates 19% of income. It would be better to fund Council services from an increased income tax	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38288	An individual	CTii. Bridging the increased budget gap	Re-focus on the proposed savings in the earlier part of the consultation.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38289	An individual	CTii. Bridging the increased budget gap	Introduce a local sales tax similar to the US state sales tax in conjunction. this would ensure all persons in West Lothian (local and visitors) pay for the services provided by the council.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current local tax system (council tax and non domestic rates) is determined and set by the Scottish Government
38290	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Would support it if all people pay it.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38291	An individual	CTii. Bridging the increased budget gap	By all the other suggestions you have made on this survey	CT2	4. The council is already doing this.	Thank you for your response. Your comment has been noted
38292	An individual	CTii. Bridging the increased budget gap	I don't mind council tax going up but at the moment every regular bill increase is outstripping my salary increases and financially I can't keep up. If the council tax is to rise it should not be by an amount greater than the current public sector pay cap level. I can barely afford to get by and I am sure I am not alone. Any increase should apply across the board to all bands.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Individuals on low incomes are able to apply for a number of council tax discounts and reductions. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38293	An individual	CTii. Bridging the increased budget gap	Reduce senior management within the council	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38294	An individual	CTii. Bridging the increased budget gap	You can't unless the Scottish Government stop spending it on vanity projects and support local services.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government have a number of national commitments and priorities which local authorities are required to deliver as part of their overall funding settlement.
38295	An individual	CTii. Bridging the increased budget gap	I believe there should be fewer concessions on council tax. All residents use the services so all should pay. There should be no one who resides in a Home wishing westlothian who does not make a contribution. As has been mentioned throughout this consultation those who have a lower income use the services more so benefit from their proper funding. I would also look at the rents paid by council residents. These need to more accurately reflect market rent. This will not only provide more funding for the council, a better return on the councils investment in this property but will allow the council to build more housing. Perhaps looking at a market rent for a council house and then reducing this based on an individuals income. Again there should always be some form of contribution. In terms of early learning and child care supplied by the council for additional hours the council could charge an additional £10 per day and still be significantly cheaper than private providers. I would be happy to pay this.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. At a time of significant welfare reform, there is an increasing need to support those on low incomes.
38296	An individual	CTii. Bridging the increased budget gap	Start supporting and looking after your work force, invest money properly in schools on quality building works not temporary fixes	CT2	4. The council is already doing this.	Currently 100% of the council's school estate is assessed as satisfactory or better. The focus of future capital investment will be on maintaining the condition of the council's existing asset base to minimise the need for costly emergency and reactive repairs and maintenance.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38297	An individual	CTii. Bridging the increased budget gap	Increase for all or for noone. It's not my job to find you an additional income. Your options are: (1) Cut non-value-add services, (2) Reduce administrative cost and, oh ... great idea! - (3) build more houses! - Kill two birds with one stone. There are good transport links to Edinburgh and a shortage of homes both in West Lothian and Edinburgh. Expanding construction creates jobs, creates homes and creates additional council tax collections (29k homes with annual CT bill of £2,5 will cover your £73M gap)	CT2	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38298	An individual	CTii. Bridging the increased budget gap	Ask the government for more money.	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38299	An individual	CTii. Bridging the increased budget gap	Ensure everyone pays their council tax	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38300	An individual	CTii. Bridging the increased budget gap	I would reduce the amount spent on non statutory services and start charging for certain services. If the minority require a service they should pay for it and not impact the majority by tax rises. You are payed as our council to provide services at a good cost and I expect the council who have access to the finer details to provide this.	CT2	4. The council is already doing this.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
38301	An individual	CTii. Bridging the increased budget gap	Get the community on your side, cut costs on galadays, stop paying for the fairground when they make further money on top of what you have paid, work more within the community, holding events such as firework displays, not asking for a lot of money but still making a small profit. Make West Lothian somewhere you want to go because something is always happening.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38302	An individual	CTii. Bridging the increased budget gap	give exact information on how this 16.9 m is spent to allow comment on whether it is being spent effectively	CT2	4. The council is already doing this.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
38303	An individual	CTii. Bridging the increased budget gap	graduated increases to provide time to identify more savings - walking groups, book bugs could be done by volunteers, endless teams in the Advice Shop, too much duplication of policies and procedures etc.,	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38304	An individual	CTii. Bridging the increased budget gap	Stupid question unless you are going to supply the full accounts of the Council for me to comment on. As suggested above 1.5% plus more money from SG might be a better strategy	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38305	An individual	CTii. Bridging the increased budget gap	Streamline, cut wastage, LOOK at what you spend money on. Reduce! Look at how many managers etc are paid to do what?? We all have to cut outgoings when wages are not going up.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38306	An individual	CTii. Bridging the increased budget gap	as above,, people and government to to realise , councils need increased funding	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38307	An individual	CTii. Bridging the increased budget gap	why don't you go after the non payers of the council tax and still the pole tax	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38308	An individual	CTii. Bridging the increased budget gap	I do not get paid enough to solve that problem. Perhaps less pay increases for members of parliament and less expense claims. Less money spent on local councillors. Not printing off huge booklets in colour for the top execs in the council (schools gave up colour printing years ago!)	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Independent Parliamentary Standards Authority regulates and pays members of parliament remuneration and expenses. The reduction in mono and colour printing across all Council services has already been implemented. The council is committed to further reducing printing costs.
38309	An individual	CTii. Bridging the increased budget gap	Reduce by amalgamation of the number of "community used buildings"	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
38310	An individual	CTii. Bridging the increased budget gap	Parking charges for blue badge holders.	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Any proposal to introduce parking charges would be applied to all car park users. Private car parks are able to set their own parking charges and can choose to provide free parking for blue badge holders.
38311	An individual	CTii. Bridging the increased budget gap	Reduction of free school meals to Primary 1 only. Make library service digital only.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The introduction of free school meals for all primary 1 to 3 children is a national policy commitment established by the Scottish Government.
38312	An individual	CTii. Bridging the increased budget gap	don't sound proof council buildings	CT2	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The level of sound proofing in council buildings is set out by building regulations and included as part of any construction project which is funded by capital. The council has been adding insulation to some properties for energy efficiency purposes however the cost is outweighed by energy consumption savings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38313	An individual	CTii. Bridging the increased budget gap	pay off whoever is reviewing the cost efficient budget.	CT2	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
38314	No Response	CTii. Bridging the increased budget gap	Please lobby the Government to increase council tax and therefore reduce the funding gap. It is ridiculous that the Council tax hardly rises year on year.	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38315	No Response	CTii. Bridging the increased budget gap	The negative side of this is the reduction in cover and the remaining staff being stretched to exhaustion. Again - why can't the council tax be raised significantly to counteract the need for savings.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
38316	An individual	CTii. Bridging the increased budget gap	Ask the national government to provide more financial support. If they can't provide it then services will have to be reduced	CT2	4. The council is already doing this. 38317	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Should go up by at least 3% per annum	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38318	An individual	CTii. Bridging the increased budget gap	Start with 1-2% council tax rise for all properties.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38319	An individual	CTii. Bridging the increased budget gap	Spend less on non essential staff. Paying people to run walking groups, adult learning courses and toddler classes for example. Money should be focused on essentials such as better quality care for elderly in their own homes.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38320	An individual	CTii. Bridging the increased budget gap	Cutting the salaries and expenses that councillors at WLC are paid Cutting the number of managers in WLC WLC should not be offering to match fund initiatives such as cycle parks in linlithgow at a cost of a quarter of a million pounds	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38321	An individual	CTii. Bridging the increased budget gap	I'm not paid to work this out, I thought that was for the Council senior executives. You could increase the lower band council tax !	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work. Councillors pay - never used to be paid, phone/travel allowance was paid. No second homes etc. paid for by public purse so they have somewhere to sleep overnight in wherever the meeting is being held.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses. Local councillors are not provided with second homes paid for by public money.
38323	An individual	CTii. Bridging the increased budget gap	Reduce management costs Stop all discretionary spend	CT2	4. The council is already doing this.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38324	An individual	CTii. Bridging the increased budget gap	Close some small schools i.e Woodmuir PS, Dechmont PS, St Thomas Addiewell. End 'clothing store'. End 'holiday lunch clubs'. End all 'advice shop' activity. Reduce amount of school clothing grant	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Currently the council is not considering the closure of any schools. The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. It is believed that initiatives such as clothing stores, holiday clubs, advice shop activity and clothing grants all help to support the most vulnerable in the community.
38325	An individual	CTii. Bridging the increased budget gap	Apply a 1.5% to ALL bands not just E-H as all are using the facilities.	CT2	2. The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38326	An individual	CTii. Bridging the increased budget gap	Deliver the services, incur the cost and throw yourself on the mercy of the Scottish Government. That's what other councils have done in the past. What if every council joined forces and did that? A thinking out of the box solution would be ; Cut the service to a non effective level that would result in the greatest social impact and biggest social and media outrage and in response make it clear the sole cause is due to Scottish Government funding.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	It is a legal requirement for councils to balance their budget each year. Where other councils have not balanced their budgets, they have been forced to take corrective action which has resulted in substantially worse cuts to services.
38327	An individual	CTii. Bridging the increased budget gap	Reduce the cost of services by charges to those that use them. Promote activities that bring people to the area and generate income.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate. The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

38328	An individual	CTii. Bridging the increased budget gap	The Council should consider that for people of fixed income, or, like me, relying on savings, that the returns have been very poor for the past 10 years (currently BoF€ 0.25%). Inflation has also had an effect on savings (currently around 3%). For this current year, my Council Tax increased by 12% over 2016/2017; my income has not kept up with this increase. I don't mind paying my share, but surely there is a case for ability to pay, and to not use asset value as a measure of that ability. A local income tax seems, to me, to be the fairest system.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38329	An employee of West Lothian Council	CTii. Bridging the increased budget gap	People on benefits should still have to pay a more substantial portion of this tax - as they still benefit from the services. Many of the benefits automatically reduce or negate completely council tax liability - whilst working people still have to find the cost to meet.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. No change can be made to an individual's council tax liability based on whether they receive benefits.
38330	An individual	CTii. Bridging the increased budget gap	Efficiency savings and revenue generation. I appreciate some of the following may turn out to be naive or impractical in reality, they're just ad hoc ideas. All parks and play area have public funding/crowd funding that can be monitored and spending influenced by public. Systematically identify areas to cut back on outdoor maintenance. Systematically identify assets to sell. Audit use of external design and project support functions by all services and audit quality of service e.g. are we paying over the odds for poor project support functions simply because it's easy and routine practice.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38331	An individual	CTii. Bridging the increased budget gap	I understand the need to increase revenue however 3% year on year when we have already been hit by the Scottish government increase is a step too far. There are many properties which are clearly not in the correct tax band. Houses in Linlithgow selling in excess of 400k due to extensions etc yet in band e and f (Oatlands park, Laverock to name just two) figures readily available via Zoopla and Rightmove. I have 2 friends who bought very similar houses in the summer one bought in North Lanarkshire cost 183k council tax band f, the other in Linlithgow 415k council tax band f!! Should the council not also comprehensively reassess the banding of such properties. I am sure there is a huge amount of revenue to be gained from reassessment which would reduce the percentage of a blanket increase for everyone	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax in West Lothian has been frozen for ten years. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
38332	An individual	CTii. Bridging the increased budget gap	I do not support the increase for all households. I do support an increase for households that have 2 or more occupants and believe all adults should pay into the pot not just the tenant or owner. Therefore the council should lobby for all adults to pay a local tax relating to earnings.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The current council tax legislation means that any proposed percentage increase needs to be applied to all households across all bands. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38333	An individual	CTii. Bridging the increased budget gap	Increase the bigger bands by 5% and the lower bands by 2%. Or the biggest band by 10%. Staff have been receiving no more than 1% increase in wages for years and most are low paid in lower band properties.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38334	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I would make cost savings by allowing staff to work from home, i.e. reduce building portfolio and running costs.	CT2	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council continues to investigate opportunities for further flexible working and use of technology.
38335	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Should never have come to this!!! SNP a disgrace	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
38336	An individual	CTii. Bridging the increased budget gap	When put like this why wouldn't you pay extra money - good God there would be not much of a council left! Scottish Government needs to give you guys more money now!!	CT2	1. The respondent advised that they agree with the proposal.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38337	An individual	CTii. Bridging the increased budget gap	You are asking the working public to pay more for less. You cannot continue to squeeze those who work hard to make a living, contribute to their community, act responsibly, do not drain resources, to continually supply support to those who do not contribute in any way aforementioned. A balance needs to be found.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38338	An individual	CTii. Bridging the increased budget gap	As above I believe that most people would agree to pay more now and invest in the future however asking residents to pay more while cutting services should only be a short term measure.	CT2	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38339	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I don't think this money can be found without this increase.	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38340	An employee of West Lothian Council	CTii. Bridging the increased budget gap	As explained above, council bosses are in cuckoo land if they genuinely believe a 3% rise for 5 years in a row is acceptable or achievable by the vast majority of residents. 1% for the next 5 years is significant enough to make a difference and even then I don't think it would be particularly well received.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38341	An individual	CTii. Bridging the increased budget gap	I would implement a small percentage increase over a wider population.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38342	An individual	CTii. Bridging the increased budget gap	perhaps if we were already operating in the way it is now being suggested we would not be in this position where staff are struggling to make ends meet - it may be that some staff can no longer afford to work and then they too will be in receipt of benefits. All of which just adds to overall shortfall of funds both centrally and locally	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. Benefits are available to individuals with low income therefore they are available to people in employment.
38343	An individual	CTii. Bridging the increased budget gap	Yes I support 3%, it is not a massive rise	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38344	An individual	CTii. Bridging the increased budget gap	Stop virtue signalling measures like 'period poverty' and 'holiday lunch clubs'.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38345	An individual	CTii. 38347	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Close more buildings	CT2	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
38348	An employee of West Lothian Council	CTii. Bridging the increased budget gap	cut councillors,	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors for each council area is determined by statute by the Scottish Parliament.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38349	An employee of West Lothian Council	CTii. Bridging the increased budget gap	internal charging scheme for services to use other services in the council.	CT2	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The budget gap of £73 million is the total gap covering all council services. Recharging internal services would not generate any additional saving but would result in equal income and expenditure across services.
38350	No Response	CTii. Bridging the increased budget gap	I understand that this is the only way to secure services	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38351	No Response	CTii. Bridging the increased budget gap	I support the increase	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38352	An individual	CTii. Bridging the increased budget gap	Monitor employees better, rather than them hiding in vans etc	CT2	4. The council is already doing this.	Thank you for your response. Your comment has been noted
38353	An individual	CTii. Bridging the increased budget gap	I support increasing the council tax by more than 3%.	CT2	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
38354	An individual	CTii. Bridging the increased budget gap	Better budget management. Resources bought at affordable prices rather than at an inflated price through a partnership company	CT2	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
38355	An individual	CTii. Bridging the increased budget gap	The alternative will need to be stopping non statutory services, as opposed to reducing them	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services, including non statutory services, will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38356	An individual	CTii. Bridging the increased budget gap	I would change it to Poll Tax on individual people rather than households - that would be fairer overall.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38357	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Increasing the Council Tax would only be acceptable if wages were to increase commensurately. The standard of living enjoyed by the majority of local people is falling and this would exacerbate that effect.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council pay awards are agreed nationally as part of the collective pay agreement.
38358	An individual	CTii. Bridging the increased budget gap	Remove the higher hierarchy !	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38359	An individual	CTii. Bridging the increased budget gap	This is beginning to look like a leading question when taking the one above into consideration. Scottish Government, which froze the community charge should increase investment in the Councils if they are seen to be working as efficiently as possible.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38360	An individual	CTii. Bridging the increased budget gap	Council Tax could be increased by 3% for two years to give the council time to plan and set up partnerships with other councils and vol orgs. Then it should be reduced to 2% and then 1.5%. the cumulative total for householders of 3% per year for 5 years is too much in the face of other rising costs, especially for people on fixed incomes.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. Savings of £600,000 have been targeted for partnership opportunities therefore further additional savings would be needed to cover the reduction in council tax income.
38361	An individual	CTii. Bridging the increased budget gap	Stop wasting on money on useless projects (like this - based on questionnaire)	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council believes that all stakeholders should be consulted on the priorities for the council and options to address the anticipated budget gap.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38362	On behalf of a Group/Organisation	CTii. Bridging the increased budget gap	Income generation through Council Services	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.

Economic development, performance team, advice shop etc. etc.	CT2	4. The council is already doing this.	All services, including non statutory services, will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38364	An individual	CTii. Bridging the increased budget gap	Possible below inflation increase if 1.5/2 % , bigger grey bin with 4 week collection could be looked at ?	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38365	An individual	CTii. Bridging the increased budget gap	A review of the local benefits system should be carried out and reviewed as a large sum of money could be saved here.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council tax reduction scheme is set nationally and determines the level of council tax benefits available to individuals. It is a means tested benefit available to those with income below the prescribed threshold.
38366	An individual	CTii. Bridging the increased budget gap	Cut down on the money wasted within council.	CT2	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
38367	An employee of West Lothian Council	CTii. Bridging the increased budget gap	How do we find the increased cost if our wages are not increasing?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38368	An individual	CTii. Bridging the increased budget gap	I believe a better plan would be to revise the bands of ALL properties & change the historic banding to reflect the current economic climate. It is not at all fair that older properties that are now worth the same as a new build property are still in a lower band because of the original value of the property! People paying hardly any mortgage for their property (now worth a fortune) can get away with paying so little in council tax whereas people who are paying ridiculously high mortgages on newer properties are living close to the poverty line because their council tax bill is so high!! The house size should also dictate the band, not just the value. A lot of new build owners used the government Help to Buy scheme to help them afford to buy a house so how is it you expect them to afford a higher council tax charge? They still owe the government a massive loan that will be impossible to pay off if they can't save every month!! It also isn't fair that those paying the most have already had an increase, the lower bands should now increase to fall in line.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
38369	An individual	CTii. Bridging the increased budget gap	I also think that introducing water metres to charge people for their actual usage instead of fixed rates could potentially draw in extra funds from those who use excessive amounts of water.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Although the council collects water charges through council tax billing it is on behalf of Scottish Water. The council does not retain this income.
38370	An individual	CTii. Bridging the increased budget gap	Increase the higher bands only.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38371	An individual	CTii. Bridging the increased budget gap	This rise could be achieved incrementally to reduce household burden in the short term - given wage stagnation and rising interest rates. Increase in Council fees would make up the shortfall in the short term until the 3% is achieved over a period on an incremental and stepped basis	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposals include an element of increased income to address the £73 million gap however further opportunities could be investigated to increase levels beyond those proposed.
38372	An employee of West Lothian Council	CTii. Bridging the increased budget gap	It has not been raised for a few years	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38373	An individual	CTii. Bridging the increased budget gap	Increase for all. Make non paying households pay something and this would raise even more money.	CT2	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38374	An individual	CTii. Bridging the increased budget gap	Cut your cloth accordingly. Stop giving inflated wages (minimum wage rather than living wage), make staff work 40 hours per week, cut out non-essentials (increased nursery school time), etc. etc. In other words do the job you were elected to do. Take the tough decisions and stop asking us for more money.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. Many of the services in this comment are set nationally by the Scottish Government.
38375	An individual	CTii. Bridging the increased budget gap	While I am in favour of modest increases in council tax, I also believe that central government should not be meddling in council funding - if they want to ring-fence or put statutory minimums on money for specific services, they should be the ones with the burden of managing and balancing the books on those services.	CT2	1. The respondent advised that they agree with the proposal.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38376	An individual	CTii. Bridging the increased budget gap	no I do not support this as I feel council tax is already expensive enough especially considering there will now be the introduction of paying for brown bin collection as well as an increase in council tax?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38377	An individual	CTii. Bridging the increased budget gap	Cut the wages of politicians.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses.
38378	An individual	CTii. Bridging the increased budget gap	If the funding increased to more than 3% may lead to more debt with some families struggling to make ends meet.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
38379	An individual	CTii. Bridging the increased budget gap	im not paid that much to make such decisions...	CT2	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
38380	An employee of West Lothian Council	CTii. Bridging the increased budget gap	it would help alot of ppl	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
38381	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Charge for annual cultural parades.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38382	An individual	CTii. Bridging the increased budget gap	I would expect you to do that. Reduce administration, unnecessary paperwork. There is always a proliferation of unnecessary paperwork. Heating should be reduced to 20 degrees at the highest.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings. The council will continue to reduce paperwork within the context of governance requirements.
38383	An individual	CTii. Bridging the increased budget gap	Fairer means- perhaps it need to be income related.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38384	An individual	CTii. Bridging the increased budget gap	thruout this paper every service has been looked at and even at that I don't think the saving you need will happen raising the tax is OK but at a slitley lower rate where increase on futer rise does not seam so bad	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38385	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Being stricter on tenants. Fines for missed appointments with staff, example being electrical inspection which is a full days work but once per week I get a no access. A change to the tenants agreement on smoking in the property, if private landlords can state they don't want smokers the council should do likewise, this would save refurbishment costs when the tenant leaves. The house doesn't need repainted / doors changes / electrical accessories renewed. 1 - 1.5% per year in council tax increases.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38386	An individual	CTii. Bridging the increased budget gap	Only in conjunction with a decrease in the number of councillors. Councillors should be taking the lead in staff reductions and restructuring not exempt from it whatever spurious argument they may put forward. Why should they as a group of public service workers not be subject to similar reviews as are being imposed on all other groups ? 11 Senior councillors ? 22 Councillors ? When councils are being forced to make savings should lead by example. I would suggest a cut of say 20 % ? Surely achievable by combining councils and working together ? The remaining councillors working as a more streamlined group to deliver the reduced services. What savings would this produce over the period in question ? Scope for reduction of 20% of MSPs too ? Or more ? Releasing more money for services !	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors for each council area is determined by statute by the Scottish Parliament.
38387	An individual	CTii. Bridging the increased budget gap	Recoup the money due from people who don't pay it. Recoup the money from unpaid social housing rent. Cut your middle management, council staff benefits package is lovely but out of line with the private sector.	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38388	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Council Tax must be increased to protect services.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38389	An individual	CTii. Bridging the increased budget gap	difficult as I do not support cuts in staffing levels or services.	CT2	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
38390	An individual	CTii. Bridging the increased budget gap	Increase it!	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38391	An individual	CTii. Bridging the increased budget gap	3% increase in each year of the financial plan gives Â£35.14million according to your figures. How does not having an increase only add Â£16.9million to the budget gap?	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the council's band D equivalent base an incremental increase in council tax is just under £17 million. By law the council must use the band D equivalent to calculate council tax income.
38392	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Reviewing services.	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38393	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I don't support it it's ridiculous we pay more for less ? What kind of business is that especially since our communities are about to be a more miserable place to live	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38394	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Cut free school meals to P1-3,	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The introduction of free school meals for all primary 1 to 3 children is a national policy commitment established by the Scottish Government.
38395	An individual	CTii. Bridging the increased budget gap	Perhaps look into larger commercial businesses.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
38396	An individual	CTii. Bridging the increased budget gap	Local income tax	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38397	An individual	CTii. Bridging the increased budget gap	Increase yes, but not by a flat 3%. Invest in council owned wind turbines and start generating your own income.	CT2	1. The respondent advised that they agree with the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38398	An individual	CTii. Bridging the increased budget gap	Come on...who is going to answer this unbiased. Pensioners, the unemployed, benefit receivers, student's, current tax payers (me) a mix of any of them in fact. Why ask us. Is it to fulfill a authorising criteria or is it genuine interest cause you have run out if ideas..is it to rally support?	CT2	3. The respondent advised that they had no comment to make.	This consultation exercise provides an opportunity for all stakeholders, including staff, to provide ideas on how the council can address the budget gap.
38399	An individual	CTii. Bridging the increased budget gap	I agree with Council Tax going up.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38400	An employee of West Lothian Council	CTii. Bridging the increased budget gap	As mentioned before, I am not against raising the tax, but considering the pay position of your employees, it does not seem fair. I have made several efficiency suggestions through this survey that may not equate to that amount, but should make some headway and may give you ideas to make savings elsewhere	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38401	An individual	CTii. Bridging the increased budget gap	Make charges or reduce remove non essential services like libraries and extra curricular school facilities and subsidised meals.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services, including non statutory services, will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38402	An employee of West Lothian Council	CTii. Bridging the increased budget gap	by considering the ideas I have given	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38403	An individual	CTii. Bridging the increased budget gap	Services need to be paid for,, yes	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38404	An individual	CTii. Bridging the increased budget gap	I SUPPORT AN INCREASE IN COUNCIL TAX AND MORE WORK TO COLLECT THOSE THAT DO NOT PAY	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38405	An individual	CTii. Bridging the increased budget gap	Looking at the tax that larger companies pay.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The non domestic rates scheme is determined nationally by the Scottish Government.
38406	An individual	CTii. Bridging the increased budget gap	I would integrate services more but with the council receiving the funding for services and maintaining council staff.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services. In addition to investigating partnership working, the council will continue to remove internal duplication and consolidate teams where appropriate.
38407	An individual	CTii. Bridging the increased budget gap	It appears from the questions in your consultation that there are a number of proposals regarding efficiencies that should already be getting done as a matter of course by your managers. If they have been able to come up with this amount of suggestions for things they should already be doing to be efficient then I'm sure they can find another load as well. There is nothing in your consultation about integration with health, nothing specific about working with other local authorities on shared models, nothing about working with the private sector on sharing resources, nothing about centralisation of tasks (like the model used by English authorities where processing is undertaken in a processing centre in the Highlands at the other end of the country at a fraction of the cost), nothing about savings from consumables, nothing about reviewing the total cost of national contracts compared against local arrangements - lots missing from how to be as efficient as you can be.	CT2	4. The council is already doing this.	Integration with health is included within a number of the modernising social care proposals. Shared service provision is referenced in proposal 1h.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38408	An individual	CTii. Bridging the increased budget gap	cuts to benefits and social care.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
38409	An individual	CTii. Bridging the increased budget gap	Yes i support the councils planned changes but not more than 3%	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38410	An individual	CTii. Bridging the increased budget gap	If this is only resort however would think some of the current tax should be better spent and a raise is not needed as we already pay a high cost per month	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
38411	An individual	CTii. Bridging the increased budget gap	I don't see any reasonable alternative.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38412	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Negotiate with the government to stop reducing budgets. Austerity has gone too far.	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38413	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Reduce corporate team.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. West Lothian Council has an efficient senior management structure when compared with a number of other local authorities of a similar size.
38414	An individual	CTii. Bridging the increased budget gap	Perhaps a more important question is how this is decided at the national not local level. You might also consider money generation schemes beyond rental and charging for the usual things. Are you allowed to produce your own energy? Can you develop self catering and more activity schemes that generate income to fund the less profitable ones? If not why not campaign through COSLA do so? For too long councils have been limited and constrained	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38415	An individual	CTii. Bridging the increased budget gap	Fundraising. Or cuts that don't directly affect people's ability to care for themselves or their children. ... like all the ridiculous flowers everywhere... lovely, but when it comes down to it, unnecessary.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging or sponsorship opportunities will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38416	An individual	CTii. Bridging the increased budget gap	Cut out needless expenses Council paid for dinners etc	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38417	An individual	CTii. Bridging the increased budget gap	Sub contract services to the private sector. Or transfer these services completely same as the Scottish government did with the motorways, that way the staff are also transferred to the private sector and off the council budget. Third way to bridge the gap would be no 3% annual pay rise for a council workforce already being payed well above the private sector equivalent	CT2	4. The council is already doing this.	The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors. Since 2007/08 the average annual pay award has been 1.29%.
38418	An individual	CTii. Bridging the increased budget gap	Cut the benefits and cap the amount you can claim	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. 38419	An individual	CTii. Bridging the increased budget gap	Chase up arrears	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38420	An individual	CTii. Bridging the increased budget gap	Make people work for benefits buy helping you provide council services such as cutting grass train youngsters and invest in there future. Stop letting people get trapped in the benifits system. This will in return provide the council with savings	CT2	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
38421	An individual	CTii. Bridging the increased budget gap	Cut Council bureaucracy, back handers, Councillors wages and expenses claims, inefficiencies such as tendering processes and generally run the place like a business, not a club.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses. The council is required to tender for contracts through EU legislation and through the requirement to ensure best value in the use of public resources.
38422	An individual	CTii. Bridging the increased budget gap	Whilst I agree it could be raised you could also reduce spend on wasteful areas. Small changes will help like all council buildings having lights turned off at night (often seen on overnight).	CT2	1. The respondent advised that they agree with the proposal.	Most council buildings have automated lights which are operated through movement. Some buildings, such as the Civic Centre, are operated 24 hours a day due to the nature of the services delivered.
38423	An individual	CTii. Bridging the increased budget gap	Rip a tier of senior management out of the council - that would fund the gap and would anyone notice a difference - doubt it !	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. West Lothian Council has an efficient senior management structure when compared with a number of other local authorities of a similar size.
38424	An individual	CTii. Bridging the increased budget gap	Stop wasting money on things tax payers don't need or didn't ask for. Ask for the publics opinion BEFORE you start running out of money and get desperate. Actually take into consideration whether people can afford a 3% rise because I certainly can't.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38425	An individual	CTii. Bridging the increased budget gap	Sort out your own staff first. Plenty of savings to be made given the poor value for money you get from them.	CT2	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources. All services will be reviewed based on the impact they have on priorities.
38426	An individual	CTii. Bridging the increased budget gap	Savings could be made by addressing administration and management overload and efficiency savings. Councils could join forces to negotiate better terms for supplies and services.	CT2	4. The council is already doing this.	The council currently uses national contracts for a number of items. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
38427	An individual	CTii. Bridging the increased budget gap	More efficient management. Revised strategies on 'hot spots'.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services and strategies will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38428	An individual	CTii. Bridging the increased budget gap	Reduce your staff levels and work better on your working efficiency	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed reductions will result in the reduction of staffing levels. If council tax is not increased in line with officer assumptions, further reductions to staffing would be required based on this comment.
38429	An individual	CTii. Bridging the increased budget gap	Perhaps less money spent on management consultants to propose these measures. Does the government still fine councils for increasing council tax?	CT2	4. The council is already doing this.	The council did not use management consultants to develop these proposals. The Scottish Government allows councils to increase council tax by a maximum of 3% annually.
38430	An individual	CTii. Bridging the increased budget gap	reduction in staff	CT2	4. The council is already doing this.	The proposed reductions will result in the reduction of staffing levels. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38431	An individual	CTii. Bridging the increased budget gap	cutting unnecessary waste and salaries of those who should not be taking huge salaries For example why do small town need 3 or 4 councillors 1 per ward is more than ample	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors for each council area is determined by statute by the Scottish Parliament.
38432	An individual	CTii. Bridging the increased budget gap	depends on how it is currently being met, there's insufficient information in this survey to provide a sensible answer	CT2	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
38433	An individual	CTii. Bridging the increased budget gap	I agree with the increase, but I think the housing should focus on giving working people council houses who can actually pay their rent and council tax and not those who never pay a penny and move from council house to council house using up important services and not paying for those services. I would not spend as much on housing. I keep seeing adverts bragging about spending over 100 million on housing. Cut this. We do not need more houses to spend more services on. No point building houses we cannot afford to give services too in the first place.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38434	An individual	CTii. Bridging the increased budget gap	speak to Ms Sturgeon , she seems to have all the answers for Scotland shut holyrood and get rid of that devolved parliament , we might save enough for your shortfall	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38435	An individual	CTii. Bridging the increased budget gap	Check up on the so called single parent families who actually have partners living with them	CT2	4. The council is already doing this.	The council robustly investigates and pursues all cases of fraud.
38436	An individual	CTii. Bridging the increased budget gap	Save money by not sending out two same letters to my house when I'm a couple of days late with council tax when there are others who don't pay a penny!	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38437	An individual	CTii. Bridging the increased budget gap	Cut the lesser important services	CT2	4. The council is already doing this. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38438	An individual	CTii. Bridging the increased budget gap	No, increase it for the Higher Band areas, and double it if they own a holiday home or any other property that's lying empty from one month to the next, and take a pay cut from the pen pushers who are making up these changes, maybe when their feet are a little closer to the ground they'll appreciate they're talking about people not pound signs	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38439	An individual	CTii. Bridging the increased budget gap	This will hit the poorest families hard. Higher earning households need to start paying more. Businesses need to start paying more. Do something with the councils empty lands and buildings. There are plenty that have been sitting empty for years.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Non domestic rates are set by the Scottish Government. By law the council can only reinvest receipts from the sale of land and property into assets.
38440	An individual	CTii. Bridging the increased budget gap	Community capacity building? Change teacher sterma and conditions and make them 52 week worker at their current annual pay redirect this staff group to support our. Il warble young people during the school holiday s providing intensive outreach or peer experiences.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Teacher terms and conditions are agreed nationally.
38441	An individual	CTii. Bridging the increased budget gap	Reduce the spend, not increase the income	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38442	An individual	CTii. Bridging the increased budget gap	I totally support tax increase	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38443	An individual	CTii. Bridging the increased budget gap	Ask RBS & HBOS for some on going contributions; call it a tax write off	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Your comment has been noted.
38444	An individual	CTii. Bridging the increased budget gap	stop the benefits on those that are obviously not interested in contributing	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38445	An employee of West Lothian Council	CTii. Bridging the increased budget gap	No more pay rises within the council, no more silly promotions such as two managers within planning, those are just two examples there's many more things that could be done before causing people to struggle	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Council pay awards are agreed nationally as part of the collective pay agreement. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38446	An individual	CTii. Bridging the increased budget gap	If the council tax is not increased by 3%, then the shortfall must be made up from the Scottish Government. It is not inconceivable that with the new powers of taxation and continuing funding from Westminster, these monies must be used to their full extent to the benefit of the people of Scotland. It is about time this Scottish Government got on with the business in hand each and every day of the year, and stop blaming Westminster for the things that they are held responsible for. They behave like the old saying -- "IT'S NO MA FAULT MISTER, A BAD BOY DUN IT AND RAN AWAY". They never answer any question posed to them, but continually ramble on about Westminster cutting their funding from the Barnett formula for devolved Governments.	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38447	An individual	CTii. Bridging the increased budget gap	Certainly I don't think it should have been frozen in the first place	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38448	An individual	CTii. Bridging the increased budget gap	Small increase only would be acceptable. Consider alternatives to bolster the tax by charging for individual services such as installation of water meters or charges for additional waste collection. Or local community charge for higher levels of road sweeping in a town centre etc.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. All water charges and income are the responsibility of Scottish Water.
38449	An individual	CTii. Bridging the increased budget gap	As per the suggestions I have made. Perhaps look at the salaries of those employed at the top layer of the council would address some of this alongside more streamlined management layers!	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38450	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I don't know. I'm not saying it's an easy decision to make but without doing research into this I don't know what alternative possibilities are. Speaking from someone who is probably earning one of the lower wages in the council, an additional increase to the tax I am already paying would have a big impact on me. I'm in my twenties and I'm trying to save so that I can buy my own flat and have money saved for the future. By the time my rent, travel to work (I live in Glasgow), food, pension and tax all comes off my monthly pay, I don't have very much for extra activities or savings. For those earning a much higher wage, would the 3% have as much an impact on their monthly income? Could the tax increase not just be on those who are earning a much higher wage?	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38451	An individual	CTii. Bridging the increased budget gap	Demand more money from the Scottish Government. In effect what this is all about is that the Scottish Government are not providing sufficient funding to the council.	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38452	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Raise the lower council tax banding	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38453	An individual	CTii. Bridging the increased budget gap	Reduce Management at Civic Centre	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38454	An employee of West Lothian Council	CTii. Bridging the increased budget gap	People are already having difficulty balancing their own books in terms of ever increasing costs and erosion of income /wages through lack of similar increases in wages. Unfortunately couldn't begin to think about any other way to raise additional income without increasing expenditure to the public.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38455	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I am one of many people I know who would be happy to pay more than the 3% increase if it means saving services	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38456	An employee of West Lothian Council	CTii. Bridging the increased budget gap	charge larger families more a single person gets a 25% discount yet a family of 4 or more pay only 25% more than that single person yet use 4 times more services	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38457	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Trim the top jobs.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38458	An individual	CTii. Bridging the increased budget gap	cut out completely foreign aid donations, keep all monies raised in west Lothian for west Lothian, get your own house in order before donating to others	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Foreign aid contributions are determined nationally.
38459	An individual	CTii. Bridging the increased budget gap	Sliding scale increase for lower bands	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38460	An individual	CTii. Bridging the increased budget gap	increase higher bands but not bottom 2	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38461	An individual	CTii. Bridging the increased budget gap	What is that Â£16.9M as a percentage of overall council budget? Surely the savings can be made in some of the areas mentioned in the previous sections to cover this. Get tough with suppliers, get firm with employees, benchmark against other councils, look for best practice. And... I work in IT, so get very tough on the IT suppliers who, without many exceptions, are incompetent and overpaid.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
38462	An individual	CTii. Bridging the increased budget gap	Cut benefits if unemployed over 18months. No additional benefits for more than 3 children. No one should be able to claim benefits higher than 40hours per week at minimum wage.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.
38463	An individual	CTii. Bridging the increased budget gap	Propose to the west minister government that Large corporations who operate within the county should pay a small amount of tax to the council as this would bridge the gap.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Changes to corporation tax can only be implemented by the UK Government.
38464	An individual	CTii. Bridging the increased budget gap	Private sector outsourcing	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors. There are currently no proposals on the widespread outsourcing of council services to external providers.
38465	An individual	CTii. Bridging the increased budget gap	Make more use of the private sector to deliver services eg roads and transportation	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors.
38466	An individual	CTii. Bridging the increased budget gap	Difficult to answer that without understanding the complexities of governmental and council funding. As with any business, suggest you look at staff costs and also cutting all unnecessary expenditure incurred by staff. Small changes by a large number of people add up. Also more on simplification of your processes and reducing bureaucracy, in turn reducing costs.	CT2	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38467	An individual	CTii. Bridging the increased budget gap	No easy answer. Perhaps look at services that are provided free of charge for those who could afford to pay ie free travel for over 60s, free school meals for P1 to 3, free breakfast clubs for all primary children. Keep these services but charge those who can pay.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Nearly all of the services mentioned are set by the Scottish Government. The council has no power or ability to change these national commitments.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38468	An individual	CTii. Bridging the increased budget gap	I would support a rate increase instead of cuts.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. With the proposed increase the council still faces budget cuts of £73 million.
38469	An individual	CTii. Bridging the increased budget gap	Be getting more people into work and cracking down on people who "work the system"	CT2	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
38470	An individual	CTii. Bridging the increased budget gap	There needs to be more marketing locally assigning/attribution costs and savings on where money is spent to support planned increases. A breakdown for local communities so they can help to become part of the solution to savings. A more positive gain can be achieved with the right kind of leadership to generate ownership of solutions. For instance, a blanket saving applied to social care may not resonate with some areas who have greater levels of youth unemployment. Christie led solutions can't flourish without it.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
38471	An individual	CTii. Bridging the increased budget gap	Look at the top of the tree before taking the axe to the trunk.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38472	An individual	CTii. Bridging the increased budget gap	I think there should be an introduction of charges (or an increase in charges) for certain services.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38473	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I do not support it but other than ceasing all non statutory functions, is there an option?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38474	An individual	CTii. Bridging the increased budget gap	As my tax has already increased by 3% am I to expect a further 3% rise? Savings have to made in every single area that the council operates in.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings. Through the prioritisation process the council has looked to deliver savings in every council activity.
38475	An individual	CTii. Bridging the increased budget gap	The Council should make the £20million saving in 1a before making cuts to Social Care and indeed asking for more money.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The savings in section one of the consultation are part of the £73 million funding gap, as are the Social Policy proposed savings. Further additional savings would have to be identified if the social care proposals were to be removed.
38476	An individual	CTii. Bridging the increased budget gap	I am comfortable with Council Tax increases as long as it is shared fairly across all constituents.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38477	An individual	CTii. Bridging the increased budget gap	Cut back in other sectors	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government determines how it allocates its overall resources to specific areas of the public sector. Currently protection has largely been provided to the NHS and Police.
38478	An individual	CTii. Bridging the increased budget gap	Collect your rents in full. Too many not paying and milking the system. Too many ongoing repairs to council tenants i.e. Windows, doors etc	CT2	4. The council is already doing this.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38479	An individual	CTii. Bridging the increased budget gap	Council saves money but the public has to pay for them.....again!!!	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38480	An individual	CTii. Bridging the increased budget gap	Reduce senior executive pay. Increase commercial property rents.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The TYC consultation includes a proposal to increase the income generated from the commercial property portfolio under reviewing income and concessions.
38481	An individual	CTii. Bridging the increased budget gap	Raise council tax more on the top band properties, less on the lower band properties.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38482	An individual	CTii. Bridging the increased budget gap	As above, some form of income tax, especially on the wealthy.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Other than council tax, the council has no ability to introduce or apply taxes.
38483	An individual	CTii. Bridging the increased budget gap	A good question for yourself to answer as you have already managed to identify more than Â£65M. Without having enough knowledge to know how the council is run etc it is difficult to suggest how to find the money BUT you are not the only council in Scotland or elsewhere in the world who is faced with financial gaps etc.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council acknowledges that all local authorities in Scotland faces budget gaps due to Scottish Government funding being insufficient to cover the cost of service delivery. The council believes that all stakeholders should be consulted on the priorities for the council and options to address the anticipated budget gap.
38484	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Some council tax increase is ok but not so much every year. The remaining income should come from streamlining services, increasing communication between services and looking for innovative solutions from international programmes. The council needs to be very forward thinking and adopt technology/sustainable techniques wherever possible.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38485	An employee of West Lothian Council	CTii. Bridging the increased budget gap	A further Â£16.9 million gap will require another 700 council jobs to be cut, and council services will be affected severely	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38486	An individual	CTii. Bridging the increased budget gap	PLEASE INCREASE COUNCIL TAX	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38487	An individual	CTii. Bridging the increased budget gap	Cut a head of service from education Limit the apparatus in schools so that children have to share equipment Cut free travel completely Introduce traffic wardens to generate more income Apply for more funding for lottery for schemes that they may support. Maybe even ask us folks of benefits to contribute something as the amount of benefits being claimed is astronomical.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. Benefits are decided by the UK and Scottish governments. The concessionary bus travel scheme is national scheme determined and set by the Scottish Government. The council investigates opportunities to obtain external grant funding but the majority of the funding is only available to community groups.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38488	An individual	CTii. Bridging the increased budget gap	If the council doesn't increase council tax up to 3%, the only options I can see are voluntary redundancies across the full council	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Currently the council has a no compulsory redundancy approach to delivering budget savings.
38489	An individual	CTii. Bridging the increased budget gap	I would suggest that not doing so would result in a state of affairs within Local Government that would allow the Scottish Government to call in many services into national control (as is their desire anyway) so you pay your money, or not, you take your choice.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. It is the council's view that services should be provided locally to communities in partnership with community planning partners in a way that demonstrates value for money.
38490	An individual	CTii. Bridging the increased budget gap	More private partnerships for providing services.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors.
38491	An individual	CTii. Bridging the increased budget gap	No I would really struggle I am just making ends meet as it is. Sorry. My wages had been frozen for 5 years and now only risen by 1%. The cost of food is going up, as is fuel, and if my wages don't increase I will continue to struggle. I work for the council which makes it even harder as I know cuts have to be made as I see it in my job but I am finding it difficult in my own personal life.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38492	An individual	CTii. Bridging the increased budget gap	I support an increase for those able to pay, their contribution should cover the gap.	CT2	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands and this is assumed in the 3% increase. Additional charges could not be applied for some households and not others.
38493	An individual	CTii. Bridging the increased budget gap	Income based council tax? Stop funding drug addicts and alcoholics. Stop providing free school meals to all p1-3. If parents can pay they should.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Free school meal provision is a national priority determined by the Scottish Government.
38494	An individual	CTii. Bridging the increased budget gap	Don't support Chase up rent arrears and people who actually owe money on Council Tax Any person in receipt of benefits should have rent and Council Tax deducted before the benefits are paid	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38495	An individual	CTii. Bridging the increased budget gap	I support it but we never hear of those over £70,000 a year showing an example and taking a 10 per cent reduction. This would provide millions and the chief executive on over £120,000 a year should lead by example	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
38496	An individual	CTii. Bridging the increased budget gap	I feel saving could be made in several areas - reduce the number of councillors we have - when sub contractors are being used and Workmanship is poor, what guarantees do The council have from the sub- contractors? Do they fix problem at a Cost to themselves? - use council workmen whenever possible Check the hours worked and finishing Times, not paid till 4 and finish at 2 - sometimes too many workers standing Smoking watching one man working - bin men start at 6 till 2 but often job and Finish early then asked to do overtime? - charge fees to outside contractors such As utility companies and given them a Time to complete, charge them if they Go over. As often traffic lights go up On a Friday for work starting on a Monday - introduce a West Lothian lottery specifically for West Lothian funds stay I. West Lothian	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The number of councillors for each council area is determined by statute by the Scottish Parliament. Council contracts incorporate service standards to monitor sub contractor performance.
38497	An individual	CTii. Bridging the increased budget gap	Is this a serious question? How can the public answer that without full information as to how services are carried out now. What an insulting question	CT2	3. The respondent advised that they had no comment to make.	Your response has been noted.
38498	An individual	CTii. Bridging the increased budget gap	Better management of the existing pot. He low hanging fruits are plentiful. Less council workers sitting about with their engines on while reading the sun and drinking iron bru. Less council workers all standing around the same hole...one smoking...one pointing...one leaning on his spade...one cracking lewd jokes and NONE striking a blow. You do not see this in Germany. Increased efficiency and effectiveness would be a good starting point.	CT2	4. The council is already doing this.	Over the last ten years the council has delivered efficiency savings of over £92 million. The vast majority of the easier to deliver savings were achieved during the last ten years which means the savings required for the next five years are more difficult. The council benchmarks performance and costs with the private sector, including roads.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38499	An individual	CTii. Bridging the increased budget gap	Providing more 'paid for services' - grounds maintenance mentioned previously for example, reducing other non-essential services, charging a small fee for previously free services	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
38500	An employee of West Lothian Council	CTii. Bridging the increased budget gap	see previous suggestions of income generation.	CT2	4. The council is already doing this.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38501	An individual	CTii. Bridging the increased budget gap	Really? Your strategy team should be prompting a bit more creativity than this question does. How about sponsorship? Development funds? Overseas investment? Grants and lottery funding? Etc.	CT2	4. The council is already doing this.	Scope for advertising and sponsorship will be considered. The council continually looks for opportunities to secure external funding however many of the sources of external grants are not available to the council.
38502	An individual	CTii. Bridging the increased budget gap	See above. This should be met by means testing of all services provided and that includes free boiler schemes for elderly/disabled, free personal care, free tuition fees, free meals, free English lessons, free prescriptions, winter fuel payments, the list goes on...etc. I appreciate this may not all be within council control - and if not, please could you as an SNP led council feed back residents' views to your leaders so that this may be addressed at national level. Lots of these budget issues could be resolved if national policy was reviewed.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian Council is a Labour minority administration. Some of these areas are within the control of the council and others are not. Any changes to charges and concessions needs to be considered within the context of the council's commitment to anti-poverty.
38503	An individual	CTii. Bridging the increased budget gap	Either increase charging for non statutory services or further reduce expenditure on non statutory services.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38504	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I feel taxes should be raised for those who can pay more.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38505	An individual	CTii. Bridging the increased budget gap	By cutting wastage associated with manpower.	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38506	An individual	CTii. Bridging the increased budget gap	As in previous suggestions.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38507	An individual	CTii. Bridging the increased budget gap	Wlc staff reductions	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38508	An individual	CTii. Bridging the increased budget gap	If there was sufficient transparent information within this consultative document then maybe this question could be answered.	CT2	3. The respondent advised that they had no comment to make.	Your response has been noted.
38509	An individual	CTii. Bridging the increased budget gap	Cut all spending on football facilities. Sell the former football facilities for housing developments.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise use where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38510	An individual	CTii. Bridging the increased budget gap	A full review of all areas of all services looking for duplication of effort and resources. Increased charges to house builders for habitation certificates, taxi firms for licensing, event licensing etc	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38511	An individual	CTii. Bridging the increased budget gap	I believe that cuts can be avoided by working more efficiently. While it is perhaps a limited example, I regularly see teams of council workers sitting in their vehicles rather than working outdoors. Yes, everyone needs a break but these seem to be a odd hours and prolonged as they are often still sitting doing nothing when I see them on my return journey. How effective is the management of work allocation etc? Do we really need 4 councillors for most of the 9 wards? Reduction to 2 per ward (a loss of 15 headcount) would achieve a saving on "salary" alone of circa Â£253K using a standard councillor for the calculation - Â£6.265M over 5 years. Add in expenses, pension, support staff etc, etc... Do we really need to remunerate the various "heads of whatever department" at around Â£100K per annum? Compared to the PM this looks extremely generous.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The number of councillors for each council area is determined by statute by the Scottish Parliament. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The council continues to review work allocation to help ensure efficient use of limited council resources to deliver best value.
38512	An individual	CTii. Bridging the increased budget gap	Further cuts in non statutory services. Further centralisation	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38513	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Cut the budget for schools instead.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The largest proportion of the schools budget is for staffing. The pupil teacher ratio means that the staffing budget for teachers needs to be maintained.
38514	An individual	CTii. Bridging the increased budget gap	Why only 3%? Make 3% the minimum increase and make it a larger increase for higher value properties, say 4 or 5% for properties over Â£500,000.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38515	An individual	CTii. Bridging the increased budget gap	I think you should increase it.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38516	An individual	CTii. Bridging the increased budget gap	Currently services and management are not efficient and effective so a council wide review of management is required and deadwood and duplication removed.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38517	An individual	CTii. Bridging the increased budget gap	Put a hold on the increased nursery hours at least for the time being.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Increased nursery hours is a priority of the Scottish Government. The council will be required to implement this as a condition of the council's finance settlement.
38518	An individual	CTii. Bridging the increased budget gap	I have already made several suggestions - specifically about Council consolidation.	CT2	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
38519	An individual	CTii. Bridging the increased budget gap	selling more property	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
38520	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I do agree with increasing the council tax, however I would like to make a suggestion. Currently the revenues team collect Service Accounts. The service area's provide the service and then revenues have to collect payments. There are many people and businesses that do not pay right away and have to be chased causing more work and also some monies never paid. I would suggest the service area's collect the money up front for the service meaning the customer has no choice but to pay before receiving the service. This would increase the money collected as well as meaning they could focus on Council Tax and Business Rates collection bringing in more money from these.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	This would need to be considered within the parameters of providing methods of payment consistent with the council's Anti Poverty Strategy.
38521	An individual	CTii. Bridging the increased budget gap	In my opinion the Council Tax has gone past its sell by date, it is like a second mortgage. So why should some householders pay more than others when we all get the same service (or some of the services per above I pay factoring fees for my street). There should be a generic charged to all householders, so the threshold is set across the board. Rather than by value of a house dictating the price you pay. Not a really fair system.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.

Transforming Your Council Consultation 2017

38522	An individual	CTii. Bridging the increased budget gap	Since Income Tax has been devolved to Scottish Government - get it from this source	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government determines how it allocates its overall resources to specific areas of the public sector. Currently protection has largely been provided to the NHS and Police.
38523	An individual	CTii. Bridging the increased budget gap	Her Majesty the Queen's off shore tax protection accounts could be turned into a local authority grant application system!!!	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Your response has been noted.
38524	An individual	CTii. Bridging the increased budget gap	Target those who have the means to pay but never do so. Bring in the seizure of goods etc as in England & Wales and make people understand that this is in fact a tax not a choice!!!!!!	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38525	An individual	CTii. Bridging the increased budget gap	I think that all Council employees earning over £80,000 per year should have their salaries cut to help fund the budget and stop such drastic cuts.	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council's pay structure was agreed as part of the introduction of single status. The council implements nationally agreed pay awards.
38526	An individual	CTii. Bridging the increased budget gap	Only makes up 19%? Wow. No, I don't support. The focus here needs to change from cuts to income generation.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38527	An employee of West Lothian Council	CTii. Bridging the increased budget gap	No Really need to thing about the proposed Council Tax and rent increases as the Council currently run with over 1 million pound in unpaid rents. If the 3% increase goes ahead along with the introduction of universal credit the deficit will surely just spiral out of control?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38528	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Can monies be saved within the prison sector. This area costs thousands and I'm just wondering if any monies are being cut there. Or is that no council? Looking at rent that people are given from housing. Reduce the benefit and make the tenant pay more of the rent.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Where relevant, we will forward these comments to the appropriate organisations.
38529	An individual	CTii. Bridging the increased budget gap	ensure council tax payment is made by all	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38530	An individual	CTii. Bridging the increased budget gap	Unfair to target specific few should be an increase to all or not at all!	CT2	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38531	An individual	CTii. Bridging the increased budget gap	The amount spent on local councillors is excessive especially when there are three councillors covering one ward.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors for each council area is determined by statute by the Scottish Parliament.
38532	An individual	CTii. Bridging the increased budget gap	More efficiency in collecting council tax and rents	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38533	An employee of West Lothian Council	CTii. Bridging the increased budget gap	The amount spent on local councillors is excessive especially when there are three councillors covering one ward.	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 38534	An individual	CTii. Bridging the increased budget gap	Stop the redecoration and new furniture going into homeless homes every six months would save a fortune, broken windows, doors broken down with police should be replaced by tennant not council tax payer after all why should I pay this, for my council tax all I get is a bin emptied once a week, truth that's what the majority of people say when you mention council tax	CT2	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	In addition, by law council tax can only be used to pay for general services and cannot be used to provide council houses. Any saving generated through changes to housing provision could not be used to address the council's £73 million gap.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38535	An individual	CTii. Bridging the increased budget gap	Start charging £5 for every visit to the GP or dentist. This will cut down time wasting, improve efficiency of the service and raise funds. Start charging for prescriptions - same idea. Charge for leisure (Xcite) facilities which are currently free. Spend council tax that you do get more wisely. It is not my job to work out how you should do yours.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Where relevant, we will forward these comments to the appropriate organisations.
38536	An employee of West Lothian Council	CTii. Bridging the increased budget gap	First of all, that is not my job as a citizen to find a way to bridge the gap. But as I've stated previously, 1% per year for everyone would be better, and fairer, than 3% every year for those in higher-band homes.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38537	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Hard to see how this could be achieved without gutting the council. Those who have continually voted on this measure for political gain should be hanging their heads - they have led us here, it is on their conscience.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38538	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I would be more inclined to increase those in higher tax bands who can afford it	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
38539	An individual	CTii. Bridging the increased budget gap	Through cuts already mentioned	CT2	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
38540	An individual	CTii. Bridging the increased budget gap	I agree we should increase council tax as long as the money was used to protect social services, and protect staff from cuts.	CT2	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
38541	An individual	CTii. Bridging the increased budget gap	I do support the increase.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38542	An individual	CTii. Bridging the increased budget gap	Perhaps any shortfall would be supported by better focuses services. Are we still employing staff to record statistics?	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Performance is recorded in an electronic system which is an efficient and effective way of collecting data.
38543	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I would not. I would accept that this is going to lead to even greater need for reductions. My family and I moved to this area as it was where work was available. As this reduces, and services available for children reduce we are likely to move out of the area,	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38544	No Response	CTii. Bridging the increased budget gap	Should you not be trying to recoup money from people that don't pay their council tax/claim benefits & get away with it.	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38545	No Response	CTii. Bridging the increased budget gap	. U should be trying to recoup monies from people that can pay but don't pay their council tax & that claim benefits that they shouldn't be.	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. 38546	An individual	CTii. Bridging the increased budget gap	Another saving is to reduce printing costs! West Lothian News etc delivered free to households and WLC buildings. Printing free Winter Ready and Summer Safe leaflets and stickers waste of money!	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Julie Whitelaw

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38547	An employee of West Lothian Council	CTii. Bridging the increased budget gap	put it up	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38548	An individual	CTii. Bridging the increased budget gap	Charge parents of anti social offspring causing damage to council property. If they cannot/won't pay:- eviction. As they are not interested in living in their communities!! One has to pay for damage done by animals they own. Also if they cause damage by bad driving. But not if their offspring cause damage!! (WHY)?? Putting council tax back into rent would cut bureaucracy.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	By law council tax has to be collected separately. The council's community safety team works with community planning partners to manage instances of anti social behaviour in communities.
38549	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Reduce workforce and improve efficiency overall by more stringent processes and more effective use of resources.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The proposed reductions will result in the reduction of staffing levels.
38550	An individual	CTii. Bridging the increased budget gap	I think you'd be better taking off at source a minimum payment from every resident in West Lothian who is on benefits or taking off council tax payments months from peoples pays so that everyone in West Lothian contributes to their council, seems that people who pay their council tax are having to supplement those who dont	CT2	4. The council is already doing this.	Where people do not pay their council tax, the council utilises all available means of recovering the income including deductions from benefits where appropriate. The council's council tax collection rates have been increasing each year.
38551	An individual	CTii. Bridging the increased budget gap	I think that increase in council tax would be a route to go down. Also a small increase in other services such as public cafes, libraries and sport and leisure fees could be put be put in place.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38552	An individual	CTii. Bridging the increased budget gap	Stop all non-statutory functions but I can live with 3%	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38553	An individual	CTii. Bridging the increased budget gap	The council should lobby the Scottish Government to be granted the legal ability to run a deficit with an agreed threshold, given the fact the UK government runs a deficit and that these are unprecedented times of austerity. The council should also look at raising revenue from long-term bonds, probably at the city-region level in partnership with other authorities.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Legally the council must balance its budget on an annual basis. Borrowing can only be for cash flow or capital investment purposes therefore cannot be used to cover the £73 million gap. The council borrows from the PWLB which is substantially cheaper than any potential bond scheme.
38554	An individual	CTii. Bridging the increased budget gap	In part, perhaps through financial 'means test' contribution of services.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38555	An individual	CTii. Bridging the increased budget gap	I have mixed feelings on this. Yes with reservations increasing council tax has a greater financial impact on the lower paid. Property values require to be re-assessed and councils should be properly funded by Scottish Government if necessarily by an increases and changes to income tax.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38556	An individual	CTii. Bridging the increased budget gap	Fire all the incompetent people working for the council.	CT2	4. The council is already doing this.	The council has a robust performance management approach which deals with areas of poor performance.
38557	An individual	CTii. Bridging the increased budget gap	Further reductions to transport subsidies, putting Xmas lights up in December rather than earlier and paying for nursery places for 2 year olds where families are able to (unless fully Government funded)	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The officer proposals include measures related to subsidised bus routes. The Scottish Government currently pays for all two year old provision.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38558	An individual	CTii. Bridging the increased budget gap	Further reduction in waste, reduce layers of management within the council, eliminate final pension and excessive pensions which are many times greater than private sector pensions.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. This will include eliminating waste and streamlining approaches where appropriate. The council continually reviews the tiers of management and span of control across all service levels. Council employees no longer have access to a final salary pension.
38559	An individual	CTii. Bridging the increased budget gap	Loaded question. It is not necessarily a question of finding additional income but in balancing budgets. Â£16.9 could also be found within service areas. Funding settlements with the Scottish Government may also change within this time.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council's budget model is regularly reviewed to take into account the latest information, including estimates of government funding.
38560	An individual	CTii. Bridging the increased budget gap	Try reducing the salaries of the big wigs in the council	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council's pay structure was agreed as part of the introduction of single status. The council implements nationally agreed pay awards.
38561	An individual	CTii. Bridging the increased budget gap	sale of land for development can bring in substantial amounts of money.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
38562	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Put it up more!	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38563	An individual	CTii. Bridging the increased budget gap	I'd stop wasting money on rusty old "art" that tries to make this crappy beaten run down town look a little better by trying to put a full face of make up on a chimp	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Most of the larger art installations in West Lothian are not funded by the council but by developers.
38564	An individual	CTii. Bridging the increased budget gap	You should review the council tax bands. It is unfair that I have a small 4 bedroom house which is in band E. You cannot buy a new build property that is under a band D whereas an ex council property much larger than mine is in a band A. At the time this might have seemed fair due to house values etc but not anymore. Also new build estates need to pay a factor to maintain the grass etc. Instead of me paying to get my grass cut and all the "council estates" grass cut then it is time that factor charges were introduced by yourselves also.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. Council tax pays for many more services across West Lothian than factor fees for specific estates.
38565	An individual	CTii. Bridging the increased budget gap	Perhaps be stricter on people who don't pay ANY council tax	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38566	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Reduce the amount of aid they send to supposed third world countries.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Foreign aid contributions are determined nationally.
38567	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I am hoping that senior managers have true transformation in mind that may continue to unfold/develop and contribute further savings	CT2	4. It is recognised that this is an ongoing process and further work will be required to deliver change.
38568	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Higher management pay cuts.	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council's pay structure was agreed as part of the introduction of single status. The council implements nationally agreed pay awards.
38569	An individual	CTii. Bridging the increased budget gap	Offer retirement packages to over 55's to leave the way for young blood in services.	CT2	4. The council is already doing this.	The council currently has an early retirement and voluntary severance scheme.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38570	An individual	CTii. Bridging the increased budget gap	perhaps by cutting most of the middle management, nepotism and by providing more accountability. also raising standards and services for the children and young people in west lothian would have a far reaching and positive effect on the budget than cuts to services people enjoy and utilise	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38571	An individual	CTii. Bridging the increased budget gap	No I don't see why I should pay for the people who do not pay and the council tax debt gets written off. Or people get away with claiming benefits in regards to this and then still don't pay, why should working people keep having to pay the deficit.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38572	An employee of West Lothian Council	CTii. Bridging the increased budget gap	reviews of all council services including how many staff earn over A£60K	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38573	An individual	CTii. Bridging the increased budget gap	Them in a higher pay band don't get a rise over the next 5 years // Theres your money back	CT2	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Any proposal to restructure pay for higher bands would generate only minimal savings.
38574	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Start cutting from the top down - high salary earners that may or may not be in duplicate roles.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38575	An individual	CTii. Bridging the increased budget gap	Through other savings as mentioned earlier. In a house with only one salary an increase in unmanageable	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38576	An individual	CTii. Bridging the increased budget gap	Take the council tax direct from benefit or other income, if the recipient will not pay.	CT2	4. The council is already doing this.	Where people do not pay their council tax, the council utilises all available means of recovering the income including deductions from benefits where appropriate. The council's council tax collection rates have been increasing each year.
38577	An individual	CTii. Bridging the increased budget gap	Deliver on the various ideas you have - the more you do it the better you will get at it. I assume you run a surplus so each year can be managed flexibly. If you're just going to raise tax why bother with a consultation?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council believes that all stakeholders should be consulted on the priorities for the council and options to address the anticipated budget gap. Council tax levels are based on an officer assumption at this stage and will not be agreed by elected members until February 2018.
38578	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Cut head office management roles. Sell off assets such as buildings. Seek further cuts in non essential services (no cuts to early years/education and only minimal cuts to elderly)	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38579	An individual	CTii. Bridging the increased budget gap	I do support a Council Tax Rise, but I seem to remember that Labour campaigned on a platform of no Council Tax rises. Therefore it is part of the council's administration that doesn't support this. How are THEY going to find the additional income to bridge the increased budget gap? Caught in a trap of their own making. I await their U-turn with interest.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38580	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Cut the number of mangers in the council, close Dechmont Primary and stop spending money on unnecessary things - just stick to the absolute basics.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Currently the council is not considering the closure of any schools.
38581	An individual	CTii. Bridging the increased budget gap	should be a flat fee for all households	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation. Council tax charges for each band are based on a nationally set weighting that cannot be changed.
38582	An individual	CTii. Bridging the increased budget gap	Cap council tax rises to tie in with the majority of people's salary rises, with it increasing as the band increases ... if you have more, pay more ... and also cap pay rises of highest earners in council to reflect those of the majority of council workers and people in general.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38583	An individual	CTii. Bridging the increased budget gap	3% is acceptable as long as council are seen to controlling costs (particularly central admin)	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38584	No Response	CTii. Bridging the increased budget gap	I support the increase but you could look at charging subsidy costs for additional bin collections. Or collect waste from private companies to bring in income. Also, we have skips that could be put out to hire when not in use. Or rent out pool cars out with office hours, conditions would apply.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
38585	An individual	CTii. Bridging the increased budget gap	The long term unemployed can help fill gaps and receive training, possibly even a job at the end of it. The temporary fix for potholes in the road, take someone unemployed and work with them to fill the hole. Internal post/mail, same thing again. Put it into your MCMC plan. How many meetings are just a waste of time? Do you have pre-meeting meetings? Post meeting meetings? Meetings that go on for hours and achieve nothing? Have people at meetings that don't contribute or don't need to be there? Are there jobs that people do that are pointless and take away from their actual job? How many people did it take to write and publish this survey? (too many?) Start at the top, senior management and work you way down to where the wasted time and effort is	CT2	4. The council is already doing this.	The council is supportive of volunteering. The council is currently considering how to facilitate the greater involvement of volunteers. The efficiency of meetings are regularly kept under review. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38586	An individual	CTii. Bridging the increased budget gap	A change to a local income tax.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
38587	An individual	CTii. Bridging the increased budget gap	I do accept a 3% increase in Council Tax in each of the 5 years 2018/19 to 2022/23. For an average band D property this works out at an increase of £3.38 per month less than the cost of 2 Lattes. The Council should make the £20million saving in 1a before making cuts to Social Care and indeed asking for more money.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38588	An individual	CTii. Bridging the increased budget gap	keep increasing in line with efficiency improvements.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38589	An individual	CTii. Bridging the increased budget gap	Reduce Councilors wages, pay them for hours worked.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councilors remuneration and expenses.
38590	An individual	CTii. Bridging the increased budget gap	Make the house builders pay. They are just here to make a profit. They do not care about the quality of life for resident (eg almost constant road works)	CT2	4. The council is already doing this.	The council has a successful developer contributions model where developers pay for improvements and additions to the infrastructure in West Lothian.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38591	An individual	CTii. Bridging the increased budget gap	If money was not wasted on other unnecessary things then it would not be needed.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
38592	An individual	CTii. Bridging the increased budget gap	Try not wasting money in your building services department by contracting out work to external providers which then needed to be repaired by council staff. Get your own staff to do the jobs or only employ those qualified to do it. Try to stop theft of council property which must estimate ££££££.	CT2	4. The council is already doing this.	The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors.
38593	An individual	CTii. Bridging the increased budget gap	I wouldn't I'd raise the CT	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38594	An individual	CTii. Bridging the increased budget gap	better management of money. sales of building not being used. stop building fancy building	CT2	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
38595	An individual	CTii. Bridging the increased budget gap	I would increase it (not just impacting on selected house bands) but not as much as 3%	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
38596	An individual	CTii. Bridging the increased budget gap	Better energy efficiency would be a big part of this	CT2	4. The council is already doing this.	The council has delivered substantial savings through energy efficiency initiatives and is committed to generating further savings as outlined in section five of the consultation.
38597	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I would remove unnecessary management tiers within the councils structure. I would ensure that works carried out on properties are charged back to tenants and monies recovered from rent payments where the damage has been inflicted by the tenant on purpose	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated.
38598	An individual	CTii. Bridging the increased budget gap	That's not my job to think of this. Maybe a few less councillors and less entertaining for these and staff could help. Also the private, public partnerships for local facilities aren't value for money.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The number of councillors for each council area is determined by statute by the Scottish Parliament. The council's hospitality budget was removed a number of years ago. Celebrating Success is fully funded through sponsorship.
38599	An individual	CTii. Bridging the increased budget gap	Streamline cost of consultants and temporary staff	CT2	4. The council is already doing this.	The council makes limited use of consultants.
38600	An individual	CTii. Bridging the increased budget gap	Increase now	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38601	An individual	CTii. Bridging the increased budget gap	Cut benefits - stricter checks on disability and level of disability allowances and benefits; stricter checks on the long term unemployed e.g. not worked for 5 years; charge a minimum bus fare even to those with a 'free' bus pass e.g. 20 pence a journey.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38602	An individual	CTii. Bridging the increased budget gap	Increase income tax	CT2	8. This suggestion is out with the responsibility of West Lothian Council. 38603	An individual	CTii. Bridging the increased budget gap	make more cut backs or get in a independent time and motion company as im sure they would find lots of thing to save on	CT2	4. The council is already doing this.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
38604	An individual	CTii. Bridging the increased budget gap	I think you need reduce staffing costs, increase automation of services and share services with other local authorities. As mentioned above many individuals cannot afford increased council tax costs such as these which is unsustainable over a prolonged period and wil result in families like mine considering moving to cheaper bracket housing or giving up/reducing number of hours at work which would then entitle me to some benefits.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38605	An individual	CTii. Bridging the increased budget gap	Cut the school/ staff working out of hours / ot!	CT2	4. The council is already doing this.	The workforce arrangements proposal (1g) will consider changes to allowances and overtime arrangements.
38606	An individual	CTii. Bridging the increased budget gap	I find this question rather blunt and closed to the idea of change. The tone that could be perceived is that the 3% increase has been concluded unless we as a community find a better alternative. The question should be what ideas could be proposed to help bridge the gap rather than "how would you find the additional income..." I hope that the council is open to the idea of suggestions as this question feels like this is not the case.	CT2	4. The council is already doing this.	The proposals in the consultation document are officer measures. Decisions on whether these proposals are implemented will be made by elected members in February 2018. The council will consider every comment received as part of this consultation exercise.
38607	An individual	CTii. Bridging the increased budget gap	As noted above, I wouldn't mind paying more if services are maintained.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38608	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I totally support the proposed increase in council tax. Any increase below 3% would make the cuts worse.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38609	An individual	CTii. Bridging the increased budget gap	I support the raise in Council Tax.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38610	An individual	CTii. Bridging the increased budget gap	A small increase in income tax would be a partial solution	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government is responsible for any changes to income tax.
38611	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Effective contract management. Real focus on proposals instead of steaming ahead even when it becomes clear that a project is not cost effective. Less time spent on formulaic performance assessment freeing officers to focus on service delivery. Fewer meetings. Listen to the advice of professional advisers.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this could be developed. All projects are subject to cost benefit analysis to ensure they deliver against council priorities whilst being cost efficient and effective. The use of electronic performance management has helped to reduce time spent on performance management, which is essential to make sure the council is delivering appropriate services. The efficiency of meetings are regularly kept under review.
38612	An individual	CTii. Bridging the increased budget gap	Well I would like to see details of exactly how the money you receive from Central funding and council tax is spent- each pound, so it can be demonstrated that it is being spent wisely.	CT2	4. The council is already doing this.	Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38613	An individual	CTii. Bridging the increased budget gap	Everyone should be taxed accordingly and not just bands E-H.	CT2	1. The respondent advised that they agree with the proposal.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax levels for houses in bands E to H were increased in 2017/18 due to the implementation of the Scottish Government's changes to council tax bandings.
38614	An individual	CTii. Bridging the increased budget gap	I support the increase, it should have happened this year!	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38615	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I fully support the proposed 3% increase and would be against a lower increase as it would mean greater cuts.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38616	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I agree with the increase however I feel that additional funds could be saved by reviewing the current Social Housing allocation. Many people are not living in the homes they have been assigned by the Council, meaning that free accommodation and Council Tax are provided for individuals who are not eligible for it. This is a huge issue, and people getting away with it promotes a culture of dishonesty and refusal to contribute to the local community.	CT2	1. The respondent advised that they agree with the proposal.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated.
38617	An individual	CTii. Bridging the increased budget gap	We should also look at modernise housing (and building services).	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Most of housing and building services are funded from council house rents which is treated separately from council tax as required by law.
38618	An individual	CTii. Bridging the increased budget gap	Not saying above that I do not support the proposed rise.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
38619	An employee of West Lothian Council	CTii. Bridging the increased budget gap	With limited knowledge on all the departments within the council and the way they manage budgets and are funded, my broad option would be to look at senior management staff. The staff on the ground do a vital role and are mostly appreciated by the public; they have been carrying the weight of the changes to the council's budget for years now and still trying to deliver the same level of service. However senior management staff and the number of team leaders in some departments could be looked at. I am also at a loss as to why a team of highly paid council employees have been pulled from their day jobs to look at these options but no regular staff have been asked to contribute other than this public consultation. Also these high paid roles have all been back-filled as they are so vital - this hardly seems a cost saving measure.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38620	An individual	CTii. Bridging the increased budget gap	Increase Council tax by 3% in each successive year over the 5 year period.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38621	An individual	CTii. Bridging the increased budget gap	Look at your departmental inefficiencies as previously mentioned.	CT2	4. The council is already doing this.	The council has established a priority based approach to budgeting which was approved by councillors. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Consideration is given to whether services should continue and what efficiency savings could be generated whilst meeting statutory requirements.
38622	An individual	CTii. Bridging the increased budget gap	WLC could diversify to have a more commercial area which would have more flexibility to operate in a competitive market. Changing of established IT systems costs a fortune to implement in time an resources. Procurement rules and regulations end up costing rather than saving money	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
38623	An individual	CTii. Bridging the increased budget gap	Reduce final salary pensions and pay off bonuses and cut executive pay	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The pension fund available to staff is determined and administered by the Lothian Pension Fund. The council does not pay bonuses to staff. Where an employee applies for voluntary severance or early retirement, there must be a robust business case demonstrating cashable savings for the council.
38624	An individual	CTii. Bridging the increased budget gap	As above - address the inefficiencies first, and don't ask the community to fund these by increasing the tax.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to investigate ways to review, consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and efficient way.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38625	An individual	CTii. Bridging the increased budget gap	Must be increased.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38626	An individual	CTii. Bridging the increased budget gap	Means test provision of heating, meals, caterers allowance etc	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38627	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Decrease the number of managers managing other managers. Get all council buildings and facilities to cut down the amount of energy they consume. Adopt more use of green energy such as turbines, solar power or even Scottish Water's revolutionary sewage to heating programme. Charge those in the Civic Centre tax on their vanilla lattes and mochamachiattos and you might even be able to give teachers decent drinking water.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The council is committed to further energy efficiency savings. Many of these savings will be considered and included in the identified officer proposals.
38628	An individual	CTii. Bridging the increased budget gap	Share best practice with other local authorities. Set up a repository asking for ideas and suggestions from individuals and organisations. Align Council Business Development Officers to commercial business that are recognised as successful to see how processes and policies can be improved. See which Trustees are working with Third Sector organisations that could provide advice and guidance to WLC and see if they can share best practice as part of their Third Sector work.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council does benchmark with other public and private sector organisations to identify best practice and efficiencies in service delivery. This could be progressed further.
38629	An individual	CTii. Bridging the increased budget gap	By reducing services, reducing workforce and reducing bureaucracy.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38630	An individual	CTii. Bridging the increased budget gap	Happy to pay extra Scottish income tax for direct payment to councils	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
38631	An individual	CTii. Bridging the increased budget gap	How - that is what the highly paid management within WLC is paid for! Suggestion - campaign for corporate bodies to pay their fair share of monies to the common good. Do not accept 'it is legal', and campaign for a change in the laws regarding monies that corporates pay towards the communities they use (people, roads, services etc).	CT2	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
38632	An individual	CTii. Bridging the increased budget gap	Staff reductions and pay caps on senior staff positions	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38633	An individual	CTii. Bridging the increased budget gap	Stop doing all the optional things that win votes and concentrate on what has to be done	CT2	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38634	On behalf of a Group/Organisation	CTii. Bridging the increased budget gap	The main reason for the serious budget shortfall in the past 10 years has been reducing grant allocation by Scottish and UK Governments. They need to increase the central funding level. We also note there appears to be from the information provided an unexplained balance of £79.523M which must be either additional Expenditure or Surplus. Any Expenditure in this figure of £79.523M is presumably not included in the 17 areas identified, totalling £318.6M, and as such could reasonably be assumed to be less important to be retained. Given that, we suggest the 5 year deficit of £73M is recovered from the unidentified balance of Expenditure / Surplus above.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The expenditure budget is £398.123 million as detailed in the circle in the top right of the page with the income detailed on the left. The areas of expenditure are examples only and do not present themselves as the total expenditure of the council. This is clear in the heading which states "Here are some examples of where we will spend the 2017/18 budget". Many areas not included are statutory expenditure items, such as borrowing repayments, and therefore this balance cannot be used to cover the forecast budget gap as suggested.

38635	An individual	CTii. Bridging the increased budget gap	Work smarter. Remember - the cheapest way to do a job is to do it right first time. This should be every council workers mantra. Continue to look at cut backs and efficiency which do not impact directly on front line customer services.	CT2	4. The council is already doing this.	The council has established a priority based approach to budgeting which was approved by councillors. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Consideration is given to whether services should continue and what efficiency savings could be generated whilst meeting statutory requirements.
38636	An individual	CTii. Bridging the increased budget gap	The amount spent on local councillors is excessive especially when there are three councillors covering one ward.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses.
38637	An individual	CTii. Bridging the increased budget gap	Increase council tax	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38638	An individual	CTii. Bridging the increased budget gap	More efficient ways to provide and run the Council.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has established a priority based approach to budgeting which was approved by councillors. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Consideration is given to whether services should continue and what efficiency savings could be generated whilst meeting statutory requirements.
38639	An employee of West Lothian Council	CTii. Bridging the increased budget gap	The amount spent on local councillors is excessive especially when there are three councillors covering one ward.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses.
38640	An individual	CTii. Bridging the increased budget gap	While I support an increase in council tax, 3% annually over the next five years is a lot for people to find. Perhaps medium / large businesses could pay towards the maintenance of surrounding roads.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38641	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Outsourcing work is more expensive.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	There are no plans for wide scale outsourcing of council activities. The council will continue to use contractors where best value is demonstrated.
38642	An individual	CTii. Bridging the increased budget gap	Council tax MUST be increased in current climate.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38643	An individual	CTii. Bridging the increased budget gap	Review benefits and find benefit cheats.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.
38644	An employee of West Lothian Council	CTii. Bridging the increased budget gap	Build more social council housing and generate sustained income instead of selling land off to private developers for one off financial gain.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated.
38645	An employee of West Lothian Council	CTii. Bridging the increased budget gap	I do support it	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38646	An individual	CTii. Bridging the increased budget gap	Constitute a properly proportionate council who would decide the priorities, budget and put that to the people.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax and the council's budget are agreed at full council at which all 33 elected members attend.
38647	An individual	CTii. Bridging the increased budget gap	Council loans for cars should be stopped for staff	CT2	4. The council is already doing this.	The council does not provide loans for individual employees cars.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38648	An individual	CTii. Bridging the increased budget gap	increase council house rents. charge more for "one off" services..eg wasp nest removal...you were 50% cheaper than commercial enterprises. cut back on funding foreign exchanges join with other local councils to centralise services for admin. sell off buildings, downsize.	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Provision of council houses, including maintenance costs, is paid for from council house rents not council tax. Opportunities to ensure that rental income is used in the most efficient and effective manner to provide council houses will continue to be investigated. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38649	An employee of West Lothian Council	CTii. Bridging the increased budget gap	An increase may be inevitable, but 3% is a fairly big jump, particularly given many properties have already been effected by this level of increase already. What this does not take account of is the fact that many people in west lothian do not pay their council tax and if the levels are increased then it is likely more people will be in this position. it then costs the council more money to pursue actions for this and very few of which produce the money and costs the council have incurred. The anticipated income should be adjusted to reflect that and then consider if it is going to be cost effective in the longer term.	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38650	An employee of West Lothian Council	CTii. Bridging the increased budget gap	See above - I am supportive of the need for increased Council Tax charges by 3% to ensure service delivery.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38651	An individual	CTii. Bridging the increased budget gap	Increase NI contributions. They need to go up anyway to fund NHS. Not a decision Councils can make	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	National insurance rates and policy are set nationally by the UK Government.
38652	An individual	CTii. Bridging the increased budget gap	Obviously I don't have the facts or the skill to answer this question. I do however question the council's policy in supplying services on an invoice basis which means additional costs are incurred by the council in recovering charges which should be paid at the time of use. A change to this policy could go some way to bridging the £16.9 m gap	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	This would need to be considered within the parameters of providing methods of payment consistent with the council's Anti Poverty Strategy.
38653	An individual	CTii. Bridging the increased budget gap	Reduce management as some departments have too many managers for the amount of staff they have. High earners to take a pay cut. Performance related pay. Have specialised staff on front line to deal with customers. enabling more online services.	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The council's pay structure was agreed as part of the introduction of single status. The council implements nationally agreed pay awards.
38654	An individual	CTii. Bridging the increased budget gap	I see your problem but I don't understand it. Somehow we have come to the stage where we spend more than we have. Household budgets could not get away with this. In fact we would be homeless. So there is mismanagement and there has been for years. Divide and rule. And I love the word " increased." Why is the gap not the same as inflation?	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
38655	An individual	CTii. Bridging the increased budget gap	Cut council staffing and service to meet these costs quite frankly council tax is does not match the level of services we receive	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38656	An individual	CTii. Bridging the increased budget gap	Cut councilor's expenses - cap salaries of council officials to less than 6 figures sack all chief executives - they are a waste of space! scrap unnecessary school trips and council fact funding trips	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses. The council's pay structure was agreed as part of the introduction of single status. The council implements nationally agreed pay awards.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38657	An individual	CTii. Bridging the increased budget gap	People expect a minimum provision when they pay their council tax. Clamp down on the non-payers and single discount applicants who are cohabiting. Council tax is not means tested, most working people can't afford an increase regardless of which council tax band they manage to find themselves residing in.	CT2	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
38658	An individual	CTii. Bridging the increased budget gap	I believe there is more scope for sponsorship and larger companies in west lothian to play a bigger part in helping, schools and other council properties should be paid for or sponsored by them. so what if the local library is now called tesco's local library. The soccer grounds are going that way	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Scope for advertising and sponsorship will be considered.
38659	An employee of West Lothian Council	CTii. Bridging the increased budget gap	n/a - cos of above- Yes, overall everybody in Scotland needs to pay more tax for local services. 3% is only c 25 per month = worthwhile	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38660	An employee of West Lothian Council	CTii. Bridging the increased budget gap	tolls / congestion charges	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38661	An individual	CTii. Bridging the increased budget gap	Look at increasing income through services provided. Rationalise further buildings. Sell of land not in use.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38662	An individual	CTii. Bridging the increased budget gap	as per above suggestions - No, I don't!! If the services provided were more efficient and effective it might be easier to accept. From reading the above we will pay more for less services, you can not have it both ways!! If you are looking to make increases you have to ensure that the services. Why should people be penalised for putting money into property and have to pay even more for the same services that people in slightly smaller houses do!! It does not mean that their surplus income is higher just because they have a bigger house. Council tax needs to be re-looked at altogether, poll tax was not popular but council tax is becoming a joke, there must be half way between both of these. The money that must be wasted paying for the public to attend jury service must be horrendous! You sit for 3 days waiting to be told if you will be part of the jury or not and all this time the employers are short staffed and money being thrown away, this is a shinning example of a current process that should be reviewed to be more efficient and reduce costs.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council will continue to investigate ways to review, consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective and efficient way. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
38663	An individual	CTii. Bridging the increased budget gap	If the Council had increased the Council Tax for this year, the reductions proposed would not have needed to be so severe.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38664	An individual	CTii. Bridging the increased budget gap	See comment to 1a above.- If the Council had increased the Council Tax for this year, the reductions proposed would not have needed to be so severe.	CT2	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
38665	An individual	CTii. Bridging the increased budget gap	Get a black pen and slash some of the existing cost e.g. I receive a concessionary travel pass - if the fare was 50% it would still be a good concession. I'm sure some of the other council spending could be cut by half this considerable could be made. Additional spending is not an option.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.
38666	An individual	CTii. Bridging the increased budget gap	What about charging policy for service for people who receive benefits which are paid for care e.g. DLA/PIP	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
38667	On behalf of a Group/Organisation	CTii. Bridging the increased budget gap	In conclusion we would observe that the focus of Transforming Your Council is on cuts to services rather than making the Administration more efficient and effective. We would wish to see an undertaking that a root and branch review of the Administration is undertaken to maximise the functional benefit to the West Lothian community before any cuts are made to services. £4 million over 5 years can be achieved by natural wastage. A more realistic target would be £20 million over 5 years. If this is achieved then many of the high value services can be retained.	CT2	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has established a priority based approach to budgeting which was approved by councillors. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Consideration is given to whether services should continue and what efficiency savings could be generated whilst meeting statutory requirements. Due to the level of savings to be achieved changes to service delivery will be required as efficiency alone will not be enough given the level of savings delivered in previous years.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
38668	An individual	CTii. Bridging the increased budget gap	Cuts could be made by not giving grants to some societies which do not need it- or they could increase there membership fees so only those involved are paying - not everyone.	CT2	4. The council is already doing this.	All payments to external providers will be reviewed to ensure they continue to contribute to the council's priorities and demonstrate value for money.
38669	An individual	CTii. Bridging the increased budget gap	Council could sell off more buildings or re-open closed buildings and make money by renting them etc	CT2	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
38670	An individual	CTii. Bridging the increased budget gap	Money saved from not sending out daft questionnaires	CT2	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council believes that all stakeholders should be consulted on the priorities for the council and options to address the anticipated budget gap.
38671	An individual	CTii. Bridging the increased budget gap	By improved budgeting by WLC - concentrating on its core functions.	CT2	4. The council is already doing this.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
38672	An individual	CTii. Bridging the increased budget gap	Stop the fat cats at the top getting big bonuses.	CT2	4. The council is already doing this.	The council's pay structure does not provide any employee with a bonus.
38673	An individual	CTii. Bridging the increased budget gap	Cheaper paper for bulletin. Why not introduce a local sales tax instead, some parts of Canada already do this. I can see savings have to be made and most of the proposals seem sensible.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Tax reform can only be reviewed at a national level with corresponding changes in tax legislation.
38674	An employee of West Lothian Council	CTii. Bridging the increased budget gap	All council's and government should come together and for once unite to save our health service and council facilities. Labour proposed increasing income tax to help the problem, big businesses could try and help financially. There are empty buildings throughout the lothians. These could be used to take the homeless off the streets. Bring more offenders out in the winter to help pensioners keep roads and paths clear. If care homes are closed and old people are moved out, many will die some of shock. Our libraries help to educate the poor and gives a place to go to for the lonely in society. Why not bring members of the councils into sit and talk face to face with residents and staff at care homes. A lottery based on health promotion with decent prize money might help more than the existing two bit one. All around us charity shops are thriving, a real sign of poverty. We are going back to the poor days of our forefathers because of mismanagement by a Tory Government who continue to inflict there proposals on the least fortunate in society and who needs weapons of mass distruction?	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this could be developed.
38675	An individual	CTii. Bridging the increased budget gap	More control with HT spend in schools there is a big spend at the end of year in schools	CT2	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The devolved school management scheme provides funding to Head Teachers. It is likely that the proposed national changes to school governance will see an increase in the budgetary responsibilities of Head Teachers.
38676	An individual	CTii. Bridging the increased budget gap	Savings could be made by reduction in salaries of some of those at the top. 7/7 contracts - no overtime. Councillors getting a wage not a wage and money for chairing committees. Volunteer chairs doe not get paid and the council depend on these organisations. Get rid of Pegasus - costs far more than buying in the High Street. Centralise all ordering - too much waste. Encourage employees to report faults wile out and about (incentive scheme). Too much emphasis on technology - cannot be cost effective (workers using Ipad to show work has been done). Should be a limit on the length of time council services should be supporting refugees (1.5 years + on average twice a week).	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this could be developed. Some of these areas are out with the control of the council and cannot be considered - councillor salaries and expenses and refugee policy.
38677	An individual	CTii. Bridging the increased budget gap	The rest of the shortfall should come from the Scottish Government they are to blame for the freezing of the council tax thus starving the council of funds. I questioned the freeze of this tax and was told it was working, so why a 3% increase now? The Scottish Government now have the power to increase income tax use this power to fund the shortfall to councils, many users of council facilities don't pay council tax but pay income tax. The freeze was a total failure that led to cuts now more cuts are being considered.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.

Transforming Your Council Consultation 2017

38678	An individual	CTii. Bridging the increased budget gap	Cut politicians wages and top earners' salaries (incl bankers and CEOs of large companies)	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Politicians salaries are determined by statute. The council has no jurisdiction over the salaries paid by other organisations.
38679	An individual	CTii. Bridging the increased budget gap	Cut politicians and high earners' wages - also cut bankers and CEOs of large companies	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Politicians salaries are determined by statute. The council has no jurisdiction over the salaries paid by other organisations.
38680	An individual	CTii. Bridging the increased budget gap	Politicians should take a pay cut and CEOs and bankers from large companies	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Politicians salaries are determined by statute. The council has no jurisdiction over the salaries paid by other organisations.
38681	An individual	CTii. Bridging the increased budget gap	Politicians, bankers, CEOs of large companies should take pay cuts	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Politicians salaries are determined by statute. The council has no jurisdiction over the salaries paid by other organisations.
38682	On behalf of a Group/Organisation	CTii. Bridging the increased budget gap	reduce middle management	CT2	4. The council is already doing this.	The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure.
38683	On behalf of a Group/Organisation	CTii. Bridging the increased budget gap	I write to you to submit my response to the Council's Budget proposals. You have stated that a shortfall will arise because the funding the Council receives is not enough to meet rising costs. You have indicated that the Council's budget for 2017/18 is £398.123 million. You did not mention that the Council received an increase in its funding from the Scottish Government for the current financial year amounting to an additional £5.269 million for local services. I feel it would have been helpful if you could have clarified existing increases across the budget sources listed and a projection of anticipated increases from those sources. Nor indeed was it mentioned that West Lothian Council opted not to use its flexibility over Council Tax. In addition, the Scottish Government investment in affordable housing included £38.048 million for West Lothian, providing both the Council and house-builders the opportunity to plan ahead with grant subsidies guaranteed, for the first time, for the next three years until 2021. My first concern with the consultation is the truncated timescale for submission of responses. The Consultation was introduced in the latest Council Bulletin and the deadline was notified as the 12th November. Not all residents receive the Bulletin at the same time. Constituents have notified me that they first heard about the consultation when they were warned that the service they were using would be transferred elsewhere.	CT2	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Although the council did receive some additional funding this was for ring fenced purposes and could not be used to pay for the general cost increases to deliver services. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. Decisions on council tax increases are made by elected members. This consultation is on the council's general services not council house building which is funded separately. All households should have received a copy of Bulletin in the first week on the consultation. The proposals in the consultation document are officer measures. Decisions on whether these proposals are implemented will be made by elected members in February 2018.
38684	An individual	CTii. Bridging the increased budget gap	You state you think your priorities are still relevant and you are not planning to change them so I'm not grading them. Of the £73 million you are going to save over 5 years how much is targeted to be saved in each of the years. You employ environmental health officers who openly admit they have no budget to 'enforce' particularly when it comes to 'noise pollution', perhaps you should have a look at this ineffective team.	CT2	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. Officers will consider how this proposal could be developed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39132	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	yes.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39133	An individual	CTiii. Specific priorities for Council Tax	Would agree to more if it was clear where the money would be spent. Additional money should be spent on children and older people.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39134	An individual	CTiii. Specific priorities for Council Tax	as long as it was put to proper use and not spent on anymore bridges etc. We need many things as you have listed. Hope the increase goes solely to them.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39135	An individual	CTiii. Specific priorities for Council Tax	I would happily pay a lot more than 3% especially in view of recent freeze which I wasn't in favour of. I would like some of it spent on the special things that make people very happy - christmas lights, flower beds, West Lothian schol bands.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39136	An individual	CTiii. Specific priorities for Council Tax	I would support an increase of more than 3% as I believe the more affluent of us (of which I am one) should support the poorer people and should provide adequate services for all of us.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39137	An individual	CTiii. Specific priorities for Council Tax	No. I think a 3% increase across all bands is a high rate with pay rises not equalling this so more families will be pushed over the poverty line.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39138	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think 3% is too high, it needs to be related to wage rises, council wages are not rising by 3%.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
39139	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	It would depend on the specific priority	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39140	An individual	CTiii. Specific priorities for Council Tax	If I could choose where the money was being spent, then yes. If I could not choose, then no.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39141	An individual	CTiii. Specific priorities for Council Tax	I would only support this if it went to protect critical services like old age care and education for our children.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39142	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support a higher increase regardless	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39143	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	yes but 3% is too much for many to afford whether that was how it was spent or not.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39144	An individual	CTiii. Specific priorities for Council Tax	Yes, as long as everyone has to pay it. Please do not just target the better off who have work hard to afford a nice house but get continually punished for it.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

39145	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly as it is an area that concerns me	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39146	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	0.05	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39147	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. 3% is a significant amount.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39148	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Not on an annual basis till 2022/23	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39149	An individual	CTiii. Specific priorities for Council Tax	Hmm. I'm thinking about low income families, how would they be affected? I would agree if there was a guarantee that it would not cause more poverty.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
39150	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support a further increase over and above 3% but not necessarily ring-fenced for specific services.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39151	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39152	An individual	CTiii. Specific priorities for Council Tax	Definitely social care for the elderly and illness must be priority	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39153	An individual	CTiii. Specific priorities for Council Tax	No. I cannot afford a 3%+ increase in council tax, year after year.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39154	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	no particularly as stated above you should use a bigger rise anyway regardless.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39155	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, but I would support it if we invested in our staff	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

39156	An individual	CTiii. Specific priorities for Council Tax	I think this is a difficult ask for the general population with poor financial stability, though the principle is welcomed	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
39157	An individual	CTiii. Specific priorities for Council Tax	It would be very unfair if Council Tax was increased for all properties to provide more funding for social care. More needs to be done to get people off long-term benefits rather than rely solely on social services and do little for themselves by seeking employment etc.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39158	An individual	CTiii. Specific priorities for Council Tax	With the best intentions, specifically allocating such income can be the thin edge of the wedge and it becomes a grey area, subject to abuse. It is better to make a general increase that could be used for a variety of general benefits.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39159	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	yes , I would support it	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39160	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	To an extent, however, any additional increase must be less than the baseline 3%	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39161	An individual	CTiii. Specific priorities for Council Tax	I would support an increase of more than 3% now	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39162	An individual	CTiii. Specific priorities for Council Tax	If they were spent on repairing local streets and roads - Yes	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39163	An individual	CTiii. Specific priorities for Council Tax	Yes, but I think the question is slightly misleading as surely the money raised would just be used to minimise the cuts in certain areas as opposed to being actually spent on anything.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39164	An individual	CTiii. Specific priorities for Council Tax	No due to affordability for the residents of West Lothian	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39165	An individual	CTiii. Specific priorities for Council Tax	Would agree if for any services not previously protected e.g. Social Policy and Education. I am all for protecting them but other services have been cut to their expense and the Scottish Government seems to protect these areas more already.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39166	An individual	CTiii. Specific priorities for Council Tax	not social care if the money was going back into communities for improving the environment, continuing to provide for gala days and Christmas lights etc I would consider it worthwhile	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39167	An individual	CTiii. Specific priorities for Council Tax	no, affordable rentable housing is a major concern.....this needs to be addressed too	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39168	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes but only to 5% maximum.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39169	An individual	CTiii. Specific priorities for Council Tax	I would support a further increase to council tax if it was decided that this is the best way to close a budget gap but disagree with ring fenced funding in general.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39170	An individual	CTiii. Specific priorities for Council Tax	I think 3% increase is enough of a rise.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39171	An individual	CTiii. Specific priorities for Council Tax	it should also be spent on priorities which reduce poverty	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39172	An individual	CTiii. Specific priorities for Council Tax	An increase of more than 3% would be supported but not for Social Policy, if it was Education then yes.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39173	An individual	CTiii. Specific priorities for Council Tax	Definitely not. I use the council to collect my bins and the roads I use. I pay more than enough for this already. Being a public servant who is never going to receive more than a 3% pay rise during the period in question I do not even support a 3% rise in my bill for this basic service. I particularly disagree with the plan to provide all 2 year olds with 30 hours of free childcare by 2020 when I have to pay for my own. This should only go to parents who are working and need the support after all they are the ones paying taxes and council tax that funds the councils services. They can manage with the 16 hours already offered.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income.
39174	An individual	CTiii. Specific priorities for Council Tax	No. People are also having financial problems just now. They can't rob Peter to pay Paul. This will cause problems with people being fed and warm - areas already causing problems in day-to-day life.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39175	An individual	CTiii. Specific priorities for Council Tax	No, if this will only concern selected council tax bands. Either do it for all or for noone.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39176	An individual	CTiii. Specific priorities for Council Tax	Yes as long as it was something beneficial for the West Lothian Community- Something for young family's who are just starting out, trying to get their own home	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. In addition, by law council tax can only be used to pay for general services and cannot be used to provide council houses.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39177	An individual	CTiii. Specific priorities for Council Tax	Yes if the increase in revenues were ringfenced for specific priorities	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39178	An individual	CTiii. Specific priorities for Council Tax	No definitely not I think too much money is being spent on social care at the min Kids being rewarded just for attending school etc When the hard working ones who do go are thinking what is point of me going to school and struggling when joe blogs is getting designer clothes phones etc just for going to school and behaving	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39179	An individual	CTiii. Specific priorities for Council Tax	NO- any increase would have to be consulted on and clear on its purpose. Residents should be given choice as to what services any additional revenue raised would be spent on	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39180	An individual	CTiii. Specific priorities for Council Tax	No. Social care is potentially a bottomless pit! Spending some more on opportunities for children and young people would be better.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39181	An individual	CTiii. Specific priorities for Council Tax	If you have your house in order, this would possibly prevent rises. If not, proof of better services would be required. I wouldn't pay more for same services.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
39182	An individual	CTiii. Specific priorities for Council Tax	As long as it went on Social Care to help keep fundamental services such as day centres that are essential to individuals day. I wouldn't mind giving more money in Council Tax as long as services that are proposed to be closed get kept open and to continue with the amazing services that they provide. Especially when money has been raised for these day services by fellow parents and carers in order to provide remembrance trees and gardens etc so that parents who have lost their children, have somewhere familiar to go, where there are happy memories and great relationships between council staff, individuals that use these services and parents/carers.	CT3	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council therefore it is not proposed that this element would be ring fenced for specific services. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
39183	An individual	CTiii. Specific priorities for Council Tax	If it were yes, but only if it went directly to the provision of social care and not to back office/support functions on the admin side within the council.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39184	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	accurate figures need to be published to show what savings could be made for various increases I.E 3% increase will save ? I.E 5% increase will save ?	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Each 1% increase in council tax generates income of just over £750,000.
39185	An individual	CTiii. Specific priorities for Council Tax	Yes, perhaps. It rather depends how much more than 3% is suggested and whether any of this additional money would be offset/distorted by reducing the amount allocated to that service in the standard budget	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39186	An individual	CTiii. Specific priorities for Council Tax	no.it would be unaffordable for most people	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39187	An individual	CTiii. Specific priorities for Council Tax	If it was spent on education then perhaps but again this must be across all bands.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39188	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, why should any of us be financially disadvantaged due to previous mismanagement of Council budgets.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
39189	An individual	CTiii. Specific priorities for Council Tax	No, a lot of people struggle as it is and while I support the 3% increase I know that if it was any higher I would struggle as would many others.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39190	An individual	CTiii. Specific priorities for Council Tax	No - Cap increase at 3%.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39191	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	We may all benefit from care one day	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39192	An individual	CTiii. Specific priorities for Council Tax	YES!! But onl if it was taken away from WLC and give to non-profit organisations to improve social care.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39193	An individual	CTiii. Specific priorities for Council Tax	No. The Council has sufficient discretionary spend that could stop in order to fund priorities such as social care	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39194	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly. It would depend on how accurately this could be monitored and how efficient the Service was.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39195	An individual	CTiii. Specific priorities for Council Tax	I think it's is fair that an increase is spent across all services	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39196	An individual	CTiii. Specific priorities for Council Tax	No - the cuts in other areas would still be too large compared to the increased charges	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39197	An individual	CTiii. Specific priorities for Council Tax	Would depend on what social care was involved, would need more detail.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39198	An individual	CTiii. Specific priorities for Council Tax	No as the priority should be to use the money for providing facilities to all with any residual funds being used for social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39199	An individual	CTiii. Specific priorities for Council Tax	Definitely no, real changes in how the Council is working would need to be seen before an increase should even be considered. There is a lot of wasted money with reduction in services leading to not being value for money anyway. Also wages have not increased more than 3% (actually even less than this) and so increasing financial strain on the household that doesn't receive any financial help.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39200	An individual	CTiii. Specific priorities for Council Tax	No. The more money councils have the more they find ways to spend. Plus you are ignoring the fact that Scottish Taxpayers already pay in more than English and that tax level may further increase as is being considered by the First Minister.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39201	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	specific priorities should include those which support those who are experiencing poverty	CT3	4. The council is already doing this.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39202	An individual	CTiii. Specific priorities for Council Tax	No, there are many priorities other than Social Care so I don't think it is fair to focus just on this.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39203	An individual	CTiii. Specific priorities for Council Tax	Keep this money as an additional investment pot. Each individual service can apply for additional funding, but they must commit to what this will deliver and then get measured on this. Think a little like National lottery funding...	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39204	An individual	CTiii. Specific priorities for Council Tax	yes I would be happy to support a total 5% increase if the addition 2% were to be used for specific priorities such as Social Care	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39205	An individual	CTiii. Specific priorities for Council Tax	No. I would want to be confident council officers have made a genuine effort to make efficiencies and generate new revenue prior to sacrificing my personal quality of life.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39206	An individual	CTiii. Specific priorities for Council Tax	I would not support any more than 3% as I am a recent pensioner and bought my home 23 years ago and ongoing increases may result in me having to leave my property because my income does not keep pace with such ongoing community charge increases. I do however understand that social care is very very important. The quality of the social care is also very important. I would need a very detailed analysis of what would be achieved if more than a 3% increase was brought to bear.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
39207	An individual	CTiii. Specific priorities for Council Tax	I think 3% is a sufficient rise.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39208	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support upto 5% increase if anything above the initial 3% was used for social care or went towards young peoples facilities	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39209	An individual	CTiii. Specific priorities for Council Tax	I'd support say 5% in general	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

39210	An individual	CTiii. Specific priorities for Council Tax	Yes but when I get my council tax bill I'd like to see an itemised list of where the money goes and I'd like to be able to score that spending. Then you'd get a real view of where the public's heart lies.	CT3	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
39211	An individual	CTiii. Specific priorities for Council Tax	No. Not at once. It's too much when salaries have not increased at anywhere close to same level.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39212	An individual	CTiii. Specific priorities for Council Tax	depends	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39213	An individual	CTiii. Specific priorities for Council Tax	I would not pay more than 3% council tax however	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39214	An individual	CTiii. Specific priorities for Council Tax	no, i wouldnt support an increase of more than 3%, expecially if it was spend on social. i also think it would be hard as wages are not increasing at the same rate so this could have a severe impact on medium income people such as myself who is just getting by	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
39215	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think 3% increase is reasonable. The council should find ways to reduce the gap by itself. In a way the council need to be more like a private company.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39216	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Based on the salary's not increasing by 3% this makes it difficult for other bills to be increased by more that 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39217	No Response	CTiii. Specific priorities for Council Tax	Yes - for anti poverty and school provision priorities.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39218	An individual	CTiii. Specific priorities for Council Tax	No I feel working families struggle as it is 3% is high ,, social care is funded enough and savings in social care need to be met	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39219	An individual	CTiii. Specific priorities for Council Tax	no, should be shared by the whole council. We do not pay council tax for one specific service	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39220	An individual	CTiii. Specific priorities for Council Tax	absolutly not. there is no way that the council can guarantee that this would be the case as other priorities may arise.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39221	An individual	CTiii. Specific priorities for Council Tax	How families can afford more than 3% is unthinkable, some families are just managing to get by as it	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39222	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think we should go to 3.5%, is that not the inflation rate.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39223	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	If the council could demonstrate that this money had been spent effectively and not lost in bureaucracy or propping up an ineffective service then yes.	CT3	1. The respondent advised that they agree with the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
39224	An individual	CTiii. Specific priorities for Council Tax	Yes I would	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39225	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Social Care has been protected over many years whereas other services have experienced reductions. I support a 3% increase to support the delivery of services which are considered to be priorities.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39226	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support more than a 3% increase.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39227	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes - in higher band properties	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39228	No Response	CTiii. Specific priorities for Council Tax	No More funding needs to be spent on Housing, building more homes & supporting Homelessness	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In addition, by law council tax can only be used to pay for general services and cannot be used to provide council houses. Council tax can therefore not be used to pay for the services outlined in the response.
39229	No Response	CTiii. Specific priorities for Council Tax	I think 3% increase is enough for now, especially since there has been a council tax freeze which I know is down to the government but more than that would could have a detrimental affect on lower income households. If it needs to be increased, then start of with the 3% initially. Maybe in a few years time if this is still necessary then another increase can be implemented.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39230	An individual	CTiii. Specific priorities for Council Tax	Yes increase tax for specific areas	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39231	An individual	CTiii. Specific priorities for Council Tax	Some social care just makes it easy for people to be lazy! Why should I pay more for that.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39232	An individual	CTiii. Specific priorities for Council Tax	No should be general increase.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39233	An individual	CTiii. Specific priorities for Council Tax	I support retaining efficiency in delivery of services - i.e. not introducing means testing or closing local recycling or community facilities and retaining local public transport, and delivery of excellent education - i.e. not cutting music tuition in schools.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39234	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Social care and education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39235	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Social Care and Staff Pay Awards	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39236	An individual	CTiii. Specific priorities for Council Tax	Yes and help with fuel poverty as I fear this becoming a hidden issue.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39237	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Only if it was spent on Roads, Public Transport and Education.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39238	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. This would singularly fail to acknowledge the contribution of other essential and statutory services make to the wellbeing of local people.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39239	An individual	CTiii. Specific priorities for Council Tax	No, 3% is enough.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39240	An individual	CTiii. Specific priorities for Council Tax	Yes but I don't think this would happen.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39241	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes. Protect front line services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39242	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think that by raising the council tax, all statutory services should benefit. The real question that faces WLC is whether or not providing non-statutory services are an option in the long term	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39243	An individual	CTiii. Specific priorities for Council Tax	No as the people who pay council tax every month are paying as required and people who are not paying isn't going to make any difference to them.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39244	An individual	CTiii. Specific priorities for Council Tax	Only if it was demonstrated that service delivery would be improved.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39245	An individual	CTiii. Specific priorities for Council Tax	No, would not support.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39246	An individual	CTiii. Specific priorities for Council Tax	Schools are important, youth groups community centres.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39247	An individual	CTiii. Specific priorities for Council Tax	Yes but only if it was guaranteed that money was spent on specific targeted areas and that the budget was transparent and not transferable	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39248	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	If its used on essential services it would be a consideration. I think 3% rise is adequate	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39249	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. Brexit and collapse of pound is going to impoverish many. Better to reduce grossly inflated salaries (of senior managers) across all public services. No CEO or chief officers are worth 5x more than the lowest paid employee.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39250	An individual	CTiii. Specific priorities for Council Tax	No. Not ever. My Family of Four have all worked pretty much all our adult lives (my partner taking some time off to raise the kids - 'subsidised' by myself not hand-outs). It is time to stop being such a Nanny state and make folk take responsibility for themselves. If they don't wish to achieve anything with their lives, then their lifestyle needs to reflect that.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39251	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Surely social care should be paid by the Scottish government who implemented free social care for elderly	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
39252	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Not unless a pay increase for people was made each year.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39253	An individual	CTiii. Specific priorities for Council Tax	Ring-fenced for Education - yes	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39254	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Definitely. Make West Lothian a community again.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39255	An individual	CTiii. Specific priorities for Council Tax	I think 3% is enough of an increase.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39256	An individual	CTiii. Specific priorities for Council Tax	3% is already very high for a raise in a single year. We would struggle to afford continued rises of more than this every year. Even as a one off it will be tough but we understand the need. I don't think higher would be fair.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39257	An individual	CTiii. Specific priorities for Council Tax	Possibly	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39258	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No I would seriously struggle with any further increases. This would have a serious effect on my families life and money situation. As my husband and I work we were never entitled to free school meals or reduced school trips or anything. We have worked hard for what we have and paid more than our share. Families on benefits and I have friends in this position are better off than my family unit. This is not right and doesn't make sense. I would be better off not working and getting everything handed to me.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39259	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	NO definitely not	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39260	An individual	CTiii. Specific priorities for Council Tax	No not unless every household was paying. It gets a bit tedious when only working households pay	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39261	An individual	CTiii. Specific priorities for Council Tax	I would support the increase if the money went to the right services for people who have paid into the system not those who have never worked a day in their life. EG a person who has never worked receives the same care for free as elderly people who have worked all their days and have to pay	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
39262	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Agree to more if increase spent in any area of the community out with Education / Social care	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39263	An individual	CTiii. Specific priorities for Council Tax	Yes but NOT for the lowest bands A & B, keep those at 3%	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39264	An individual	CTiii. Specific priorities for Council Tax	I support an increase of more than 3% if it was spent on Social Care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39265	An individual	CTiii. Specific priorities for Council Tax	Difficult to comment as priorities will differ for each. Main issue is the middle band (the average Joe) covers and subsidises others	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39266	An individual	CTiii. Specific priorities for Council Tax	No. Unless wages were going up by a minimum of 3% too	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39267	An individual	CTiii. Specific priorities for Council Tax	No. I do not support any increases under any circumstances.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39268	An individual	CTiii. Specific priorities for Council Tax	No - annual increase of Council Tax charges should not excessively exceed the annual Retail Price Index	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39269	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	no. for many more than 3% is unaffordable and would have knock on affects.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39270	An individual	CTiii. Specific priorities for Council Tax	I think it may become essential to raise Council Tax more than 3% to enable the Council to continue to provide essentials, such as Social Funding.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39271	An individual	CTiii. Specific priorities for Council Tax	Priorities would be social and health care, also improving employment opportunities. The demand on social care increases due to people living longer and those with long-term health conditions.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39272	An individual	CTiii. Specific priorities for Council Tax	no i dont think so	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39273	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	they always put it up	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council tax in West Lothian has been frozen for ten years.
39274	An individual	CTiii. Specific priorities for Council Tax	No I do not support higher levels of tax.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39275	An individual	CTiii. Specific priorities for Council Tax	No - I think the 3% increase is about right - anymore and it will have a significant effect for a lot families and residents who already struggle to survive day to day.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39276	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No... 3% each year will be difficult enough for residents to find.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39277	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, and care for children. How high can the council go.?	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39278	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Don't make promises that you can't keep.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39279	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. The rise in council tax is necessary, but most people's wages have not increased in line with this, so I would not support a rise over and above this.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39280	An individual	CTiii. Specific priorities for Council Tax	Not without a coherent well communicated strategy	CT3	4. The council is already doing this.	The Corporate Plan and five year financial strategy will be based on the results of the TYC consultation and the priorities identified for West Lothian.
39281	An individual	CTiii. Specific priorities for Council Tax	Yes but I don't necessarily think social care should be the only priority. There are a lot of people who could pay more towards their, and their families', care	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39282	An individual	CTiii. Specific priorities for Council Tax	This is difficult because people are cheating the system. There are people who earn more than me who receive additional financial help from the government because they are not truthful. It would really sicken me to give more of my money to subsidise their way of life. No I wouldn't support this without a very clear, budgeted plan being provided BEFORE the Council Tax increases. Detailed planning is required to spend this money.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39283	An individual	CTiii. Specific priorities for Council Tax	Not a fair question as that is piling on peoples heart strings of course I would but I am sure all services mentioned would want a share	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39284	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes more money spent on addressing homelessness	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39285	An individual	CTiii. Specific priorities for Council Tax	Only in conjunction with a decrease in the number of councillors. Councillors should be taking the lead in staff reductions and restructuring not exempt from it whatever spurious argument they may put forward. Why should they as a group of public service workers not be subject to similar reviews as are being imposed on all other groups ? 11 Senior councillors ? 22 Councillors ? When councils are being forced to make savings should lead by example. I would suggest a cut of say 20 % ? Surely achievable by combining councils and working together ? The remaining councillors working as a more streamlined group to deliver the reduced services. What savings would this produce over the period in question ? Scope for reduction of 20% of MSPs too ? Or more ? Releasing more money for services !	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors for each council area is determined by statute by the Scottish Parliament.
39286	An individual	CTiii. Specific priorities for Council Tax	No - everybody would have different priorities and think 3% is enough of an increase at the moment.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39287	An individual	CTiii. Specific priorities for Council Tax	Yes but needs to be used properly.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39288	An individual	CTiii. Specific priorities for Council Tax	Yes,make it an 5% increase.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39289	An individual	CTiii. Specific priorities for Council Tax	Possibly subject to progress on other initiatives	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39290	An individual	CTiii. Specific priorities for Council Tax	No. Not at present. Not until such services are considered cost efficient.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39291	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think that a higher increase would result in more council tax not being paid. My family would find larger increases difficult especially since council sector pay has more or less been frozen for a number of years and our effective income has been steadily reducing.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As the council's forecast budget position assumes an annual increase of 3% based on officer assumptions, additional savings would need to be identified to cover reduced income. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears.
39292	An individual	CTiii. Specific priorities for Council Tax	No we couldn't afford to pay it and aren't eligible for benefits.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39293	An individual	CTiii. Specific priorities for Council Tax	Perhaps-again, something for wider and specific debate.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39294	An individual	CTiii. Specific priorities for Council Tax	yes but it will not happen - it will be spent elsewhere	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39295	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes however Council workers have faced minimal pay increases over recent years with overtime and contractual arrangements under review to identify further savings which will reduce incomes even further it will be very difficult for the council's workforce to support this	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39296	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. There is a danger even MORE money could be spent on childcare for middle class families if this remains as the council's main priority. I would potentially have said yes if it would have gone on care for the elderly!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39297	An individual	CTiii. Specific priorities for Council Tax	I should think that 3% should be a maximum rise any more will punish middle-income earners.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39298	An individual	CTiii. Specific priorities for Council Tax	Probably	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39299	An individual	CTiii. Specific priorities for Council Tax	I personally would like it spent on keeping those of ill health in their own homes or providing care in care homes if needed. Carers need help and are getting it to a certain level but it would be disastrous for some it this was cut. Other people would have different priorities I suppose depending on their circumstances	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39300	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	The 3% raise should be spent across all current services	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery.
39301	An individual	CTiii. Specific priorities for Council Tax	Yes. But only after the review of the administration.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39302	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	Only if the council could guarantee that the additional revenue would be spent on social care and specifics within this service area would require to be identified.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39303	An individual	CTiii. Specific priorities for Council Tax	Yes Definitely.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

39304	An individual	CTiii. Specific priorities for Council Tax	If more went in to education then yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39305	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Indeed	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39306	An individual	CTiii. Specific priorities for Council Tax	I think it is very difficult to start apportioning tax increases to specific priorities. Inevitably this just skews the original resource allocation anyway rather than genuinely resulting in additional funds for a particularly area.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39307	An individual	CTiii. Specific priorities for Council Tax	I would happily pay some increase if I felt environmental issues were being introduced, better recycling initiatives and healthier meals in schools and facilities for teenagers.	CT3	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted
39308	An individual	CTiii. Specific priorities for Council Tax	Take money for prescription s and fund that to much waste charge a pound a prescription	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The free prescriptions policy is set by the Scottish Government and paid for from NHS budgets.
39309	An individual	CTiii. Specific priorities for Council Tax	Yes. Without question, but the additional revenue would need to be spent in a transparent and targetted way.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39310	An individual	CTiii. Specific priorities for Council Tax	Local income tax	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
39311	An individual	CTiii. Specific priorities for Council Tax	No, that is unaffordable for many on lower incomes	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39312	An individual	CTiii. Specific priorities for Council Tax	Yes, but only to top 2 bands, who can afford to go up by 5-10% easily.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39313	An individual	CTiii. Specific priorities for Council Tax	Yes. I would rather pay more locally than on income tax...dreaming again.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39314	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. That's not to say I wouldn't be in favour of it, but ringfencing the funding would not change my previously stated opinion	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39315	An individual	CTiii. Specific priorities for Council Tax	Yes, an increase of more than 3% would still not be anywhere near as expensive as it would be if we had increased the tax each year for the last 10 years!	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39316	An individual	CTiii. Specific priorities for Council Tax	Again we need to feel that we are getting value for money and that it is going to the correct areas	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39317	An individual	CTiii. Specific priorities for Council Tax	I support the increase if it reduces the loss of staff	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39318	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes. but I think the more well off you are that should be taken into account for more than 3%. I would consider paying a slight increase but only if service were not being affected.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Council tax reform can only be reviewed at a national level with corresponding changes in council tax legislation.
39319	An individual	CTiii. Specific priorities for Council Tax	Yes and all the services provided,, Too many people want and give nothing in return,,	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39320	An individual	CTiii. Specific priorities for Council Tax	Maybe	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39321	An individual	CTiii. Specific priorities for Council Tax	I THINK ONE STEP AT A TIME. THE FIRST INCREASE TO SEE WE GET VALUE FOR MONEY AND SAVE OR IMPROVE OUR SEVICES. WE CAN LOOK FOR SPECIFIC TARGET ASPECTS AT STAGE 2	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39322	An individual	CTiii. Specific priorities for Council Tax	Yes. If the spending was transparent and ring fenced.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39323	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	Absolutely a 5% increase would roughly hit monthly incomes by Å£10 a month !!!!! Å£10 a month its a bottle of wine / a six pack of beer a month	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39324	An individual	CTiii. Specific priorities for Council Tax	Yes but first would like to see a review of banding.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
39325	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	This would be complex as different citizens will have different priorities any increase above 3% should be for the general use across the council and it should be for council to prioritise spending	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39326	An individual	CTiii. Specific priorities for Council Tax	The worry is that it would be spent else where.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39327	An individual	CTiii. Specific priorities for Council Tax	I would introduce a means testing on social care.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	This is being considered under the reviewing income and concessions section of the TYC consultation.
39328	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly... only if the public were allowed to vote on the specific priorities it was to be spent on. E.g. I would more likely pay more for social care but wouldn't for protecting green spaces.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39329	An individual	CTiii. Specific priorities for Council Tax	Yes, education (school and Life-Long learning) and environment	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39330	An individual	CTiii. Specific priorities for Council Tax	Absolutely not. Social care is a plague on society.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39331	An individual	CTiii. Specific priorities for Council Tax	Yes i support the councils planned changes but not more than 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39332	An individual	CTiii. Specific priorities for Council Tax	I would be happy with up to 5% if it ment we didnt suffer a reduction in the service I actually use like waste collection and schools	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39333	An individual	CTiii. Specific priorities for Council Tax	I would support an additional increase provided the excess was earmarked for elderly care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39334	An individual	CTiii. Specific priorities for Council Tax	yes if it helped my local community centre and the other causes that matter to me	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39335	An individual	CTiii. Specific priorities for Council Tax	Possibly. Depends what level of increase.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39336	An individual	CTiii. Specific priorities for Council Tax	No, I believe 3% is reasonable, but most employed people do not receive pay increase or if they do it is 1%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39337	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly - it would be difficult to red-line such additional revenue in a way which will show council tax payers that the money is being spent as advertised.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39338	An individual	CTiii. Specific priorities for Council Tax	3% is steep as it is.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39339	An individual	CTiii. Specific priorities for Council Tax	Yes, up to 10%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39340	An individual	CTiii. Specific priorities for Council Tax	No...too high an increase	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39341	An individual	CTiii. Specific priorities for Council Tax	I would support a rise to certain elements of social care but not above 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39342	An individual	CTiii. Specific priorities for Council Tax	No. I think even after all this the coucil will continue to waste the money. The council tax freeze has been a good thing as it has forced change and opened your eyes to the wastefulness. Change 1st then ask for more money and show that change has been good	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of wasteful spending.
39343	An individual	CTiii. Specific priorities for Council Tax	Any higher than 3% when some of those employed have had only a 1% pay rise seems inappropriate.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39344	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes. I think 6% would be reasonable. There has been no increase for several years. Vital services need to be properly funded.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39345	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	yes at the top levels. Although the whole system needs overhauling.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39346	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes increase the it by 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39347	An individual	CTiii. Specific priorities for Council Tax	I would support only if used to support care of the elderly and or local schools	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39348	An individual	CTiii. Specific priorities for Council Tax	I would support in an increase of more than 3% if it meant that essential services were not being cut. This would include those services that reduce or prevent more costlier issues arising later on e.g. good education services lead better employment and less crime good health and leisure facilities leads to less impact on emergency care	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39349	An individual	CTiii. Specific priorities for Council Tax	I would agree with increasing this as much as needed to save jobs and services especially for social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39350	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, I would support a 3% increase if the additional amount was spread evenly across services.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery.
39351	An individual	CTiii. Specific priorities for Council Tax	I would support an increase as long as it's not at the expense of the lower tax bands.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39352	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, I think a 3% rise is enough. Perhaps like Edinburgh Council, some additional services could be charged to those that want them, rather than placing that charge to all residents of WL.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
39353	An individual	CTiii. Specific priorities for Council Tax	Take as much as you want from those who can easily afford it, and stop hammering the poor, needy and vulnerable. I see you haven't mentioned food banks yet, are they going to be closed as well?	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Foodbanks are not provided by the council but by the third sector.
39354	An individual	CTiii. Specific priorities for Council Tax	Yes I would.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39355	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support an increase above 3% but it should not be ringfenced.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39356	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Absolutely not especially when this proposal clearly outlines that on top of this increase I could be charged for services I would need to access e.g. brown bin disposal.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39357	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would like to see a proposal of what the funding would specifically go to prior to agreement.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39358	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes social care is in crisis.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39359	An individual	CTiii. Specific priorities for Council Tax	No that's ridiculous. If you need more money for that then tax must be higher. Time money and effort have been wasted leading to this situation, describe social care. Responsibility must again come into play here. We cannot continue to be a "nanny" county. Support can be given but individuals need to contribute to the effort. We all need to be realistic and responsible. Why have we children with behavioural and social issues, why have we social housing with gardens that are a disgrace, why have we litter filled verges, why have we food banks or clothing grants at around Â£90 per child, how are social workers going to solve all the problems that there are, why have we homeless blocks etc etc? Social issues cost a lot of money but throwing more money will not help. Tackling the issues with health professionals, competent social cares. I will pay more tax if I see the services I need maintained and improved while supporting social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39360	An individual	CTiii. Specific priorities for Council Tax	Yes, I would support an increase of more than 3% so long as it was spent of specific priorities such as social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39361	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, 3% is enough.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39362	An individual	CTiii. Specific priorities for Council Tax	That's too narrow a way of viewing things and how would you decide what the specific priority was?	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39363	An individual	CTiii. Specific priorities for Council Tax	It would need a very strong case to support any increase above the 3% proposed. It has to be remembered that working people have not had a salary increase for a number of years now and in some cases a reduction of salary compared to at least 2008 when the Banking crises reared its ugly head. It was not the ordinary person in the communities that caused the Banking crisis but by all the fat cats at the top who were lying off the backs of the ordinary people working for and on behalf of them.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Council tax in West Lothian has been frozen for ten years providing a significant benefit to council tax payers.
39364	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, if made absolutely clear where all funding is going.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39365	An individual	CTiii. Specific priorities for Council Tax	Certainly	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39366	An individual	CTiii. Specific priorities for Council Tax	It should be a priority in the first place.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39367	An individual	CTiii. Specific priorities for Council Tax	No, I think that residents are already struggling. It is the austerity agenda that needs to go, after all our national debt continues to grow so the current approach is not working. It is time for a different approach to be taken and for local councils to advocate this on behalf of its residents.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39368	An individual	CTiii. Specific priorities for Council Tax	NO. Do as your told by the Scottish Government.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39369	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think more shoUld be used towards social care to reflect the ageing population.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39370	An individual	CTiii. Specific priorities for Council Tax	3 per cent will hit us hard enough .	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39371	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think 3% is big enough in the short term. Surely with the slowly rising economy the budget gaps would get smaller especially if all these saving are being made.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap would only reduce if more funding was provided by the Scottish Government to cover the cost of delivering services.
39372	An individual	CTiii. Specific priorities for Council Tax	Yes. I resent high taxes to UK government as I am in contradiction with many of their policies. However, probably happy to spend what I can afford on specific, local expenditure if I can be confident that it is well managed and part of sound policy on education / social services / art / culture / health etc.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39373	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Happy to see some of it focusing on Social care but need more detail on what the spending on Social Care was and what this covered? I would like to see and increases in Council Tax it being spent on projects that are deemed preventative spend, so those that result in the Council having to spend less in the future. Possible examples could include anti poverty measures aimed at getting people out of poverty, creating employment opportunities particularly for young people or those who have been out of work for a long time, the whole family support model and measures aimed at keep them at home for longer.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39374	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly but rather than throwing money at the problem there are things to be improved there and then raising the additional money required after these improvements have been made	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39375	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes I am a lone parent with 2 children but I would be prepared to pay more to protect Social Care as these services are so worthwhile and as said its right that we should be looking after the most vulnerable in our society	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39376	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Agree with 3% rise in council tax but every second year	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Scottish Government allows councils to increase council tax by a maximum of 3% annually. Officers have included a 3% annual increase in the council's budget model for the five years 2018/19 to 2022/23. As the council's forecast budget position assumes an annual increase of 3%, additional savings would need to be identified to cover reduced income for any increase less than 3%.
39377	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. The TYC programme should challenge spend, per se. It should be about robust evidence-based impact and outcomes. Tax and spend could be considered regressive and anti-competitive.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39378	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would not as many would not be able to afford it.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39379	An individual	CTiii. Specific priorities for Council Tax	I would agree to a 3% increase ONLY if meant that the Ability Centre, which is a lifeline to me were to stay open.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
39380	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes but not necessarily on Social Care I would ensure essential services overall where supported	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39381	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, 3% would be a fair amount but it needs to be across all bandings.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39382	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support more than 3% on the higher bands (but not the lower) if this money was definitely spent on Social Care. For example being spent of recruiting more Foster Carers to avoid paying for external services.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39383	An individual	CTiii. Specific priorities for Council Tax	No. This is wholly discriminatory. Neither the elderly or children should be treated any differently from the rest of the population.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39384	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No - if Council Tax is raised above 3% then anything above the initial 3% should just be treated the same. The council will never be able to allocate the extra income to a specific service area that would appease everyone so don't give residents the opportunity to complain as long as the income is spent on service delivery.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39385	An individual	CTiii. Specific priorities for Council Tax	I would support the increase if children continued to receive music lessons at school the the recycling centre in Linlithgow remained.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39386	An individual	CTiii. Specific priorities for Council Tax	Social care - agree. Would want to review the other priorities.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39387	An individual	CTiii. Specific priorities for Council Tax	Having said all of above, if the increases were very clearly linked to specific changes in the provision of services then come up with the budget and present it to the population. Sell it well and it might be acceptable.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39388	An individual	CTiii. Specific priorities for Council Tax	If the council tax was spent on education, then yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39389	An individual	CTiii. Specific priorities for Council Tax	Yes Social care, addressing homelessness, youth employability initiatives	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39390	An individual	CTiii. Specific priorities for Council Tax	If it was used to fund the instrumental services in a perfect world that would be ideal.	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39391	An individual	CTiii. Specific priorities for Council Tax	Within reason. Small increases every year are easier for people to budget for than large increases sporadically	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

39392	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	It wouldn't be though would it ?	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39393	An individual	CTiii. Specific priorities for Council Tax	If it was spent on childcare and schools yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39394	An individual	CTiii. Specific priorities for Council Tax	Broadly yes, but not to plug gaps but to move to meaningfully better services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39395	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Only if it was reserved for care for older and vulnerable people and not daft schemes to give schools more money to spend on short term ideas that do nothing to improve children's education.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39396	An individual	CTiii. Specific priorities for Council Tax	Yes, tackling poverty and deprivation	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39397	An individual	CTiii. Specific priorities for Council Tax	I think if all bands were increased that would meet your shortfall	CT3	4. The council is already doing this.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. The officer proposal assumes a 3% across all properties.
39398	An individual	CTiii. Specific priorities for Council Tax	I would like money spent on older people.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39399	An individual	CTiii. Specific priorities for Council Tax	No. If council tax is such a small part of your funding, surely any increase above 3% would be miniscule and would not make any difference to the chosen specific priority.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39400	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Not interested in ring-fencing anything over 3%. Too complex, too hard to administer, too inflexible in terms of allowing those elected in a representative democratic system to make choices.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39401	An individual	CTiii. Specific priorities for Council Tax	Potentially	CT3	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
39402	An individual	CTiii. Specific priorities for Council Tax	Yes. I would support a 5% increase.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39403	An individual	CTiii. Specific priorities for Council Tax	No. 3% is high enough when most people are not getting more than 1% increase in wages.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39404	An individual	CTiii. Specific priorities for Council Tax	I would support it if you consider more than Social Care. Social care and Education are ring fenced to some extent by external requirements, consider operational services for funding increase, these are services that we ALL value as citizens of WL. Roads and waste are critical to a developed society.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39405	An individual	CTiii. Specific priorities for Council Tax	For certain things yes	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39406	An individual	CTiii. Specific priorities for Council Tax	No..couldn't afford.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39407	An individual	CTiii. Specific priorities for Council Tax	These questions are like the executioner asking how you want to die. This will continue every year until the state (Council services) no longer exists and neo-leberalism wins!	CT3	3. The respondent advised that they had no comment to make.	Your comment has been noted.
39408	An individual	CTiii. Specific priorities for Council Tax	Social Care - absolutely not!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39409	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Again, only as a one off, not an annual increase.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39410	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes I would support increases of more than 3% to support Attainment	CT3	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
39411	An individual	CTiii. Specific priorities for Council Tax	YES YES YES YES YES	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39412	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Would depend on the increase and the priorities	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39413	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes 5%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39414	No Response	CTiii. Specific priorities for Council Tax	No. Those willing to pay above 3% may have differing priorities - who would decide?	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39415	An individual	CTiii. Specific priorities for Council Tax	No, because I don't believe that extra income would always go to the areas agreed upon.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39416	An individual	CTiii. Specific priorities for Council Tax	I would support an increase of more than 3% for council tax if it protects priority areas for the council. I don't agree that this necessarily should be on social care, which is continually protected from the worst of council budget cuts.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39417	An individual	CTiii. Specific priorities for Council Tax	No, because as with this consultation there is no clarity of what the priorities would be. Social Care is a huge an varied area. Any increase of more than 3% should be used to deliver on the priorities that the citizens feel is most appropriate, one could do so through manifestos at a fresh Local Election for example.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39418	An individual	CTiii. Specific priorities for Council Tax	I would like to see total transparencies' in the spending of the revenue gained by the council tax.	CT3	4. The council is already doing this.	Full details of how the council allocates its resources to individual services is provided in the annual activity budget which is available on the council's website. A summary of key areas of spend are included in the council tax leaflet which is provided along with bills.
39419	An individual	CTiii. Specific priorities for Council Tax	Yes especially for Care of the Elderly	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39420	An individual	CTiii. Specific priorities for Council Tax	I would accept a greater increase to maintain services such as music tuition .	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39421	An individual	CTiii. Specific priorities for Council Tax	Personally, I would support this but it could have adverse effect on many families and a more than 3% rise on all bands should be carefully considered. It must be evident where the money is spent.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39422	An individual	CTiii. Specific priorities for Council Tax	Yes but only if I could see real changes in approach and culture of silo working mentality.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39423	An individual	CTiii. Specific priorities for Council Tax	A rise higher than 3% would cause financial hardship for many people, especially those on a low income.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39424	An individual	CTiii. Specific priorities for Council Tax	Only if such an increase was being adopted more widely by other local authorities.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39425	An individual	CTiii. Specific priorities for Council Tax	I would like to say yes but as I said above I am finding things very tight to budget and afford everyday things.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39426	An individual	CTiii. Specific priorities for Council Tax	Not at this time, living costs are already spiralling for most people and wages are not keeping pace.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39427	An individual	CTiii. Specific priorities for Council Tax	Yes as before need evidence as to where the money was to be spent	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39428	An individual	CTiii. Specific priorities for Council Tax	I would pay more but not towards those who already milk the system	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39429	An individual	CTiii. Specific priorities for Council Tax	Agree, priority should be on areas which are not being properly funded by scottish government	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39430	An individual	CTiii. Specific priorities for Council Tax	Not just social care, there are a lot of us who don't use social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39431	An individual	CTiii. Specific priorities for Council Tax	Yes as long as increases were not excessive & wages in general were rising.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39432	An individual	CTiii. Specific priorities for Council Tax	I would support an increase full stop and Social Care should be a number one priority.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39433	An individual	CTiii. Specific priorities for Council Tax	No. I can't afford to pay more irrespective of what it is spent on. People do not work to pass all their money to the government or the council, then live off beans on toast.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39434	An individual	CTiii. Specific priorities for Council Tax	No - better manage what you have and harness the power of community volunteers for a better, more rounded society.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39435	An individual	CTiii. Specific priorities for Council Tax	Not unless there was further information provided first	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39436	An individual	CTiii. Specific priorities for Council Tax	No. Families would suffer if a higher increase is introduced.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39437	An individual	CTiii. Specific priorities for Council Tax	I think you are making schools etc look for many ways to save money and WLC must do same. I think some areas can be charged at point of use rather than everything coming from band E-H council tax payers. However for specific needs in health and social care I would pay more than 3% more.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39438	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Perhaps, but I think it would be better spent in education to help close the attainment gap.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39439	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Again any changes should be reflective of the changes imposed by other local authority areas. There should be a fair approach on not only a local level but also on a regional basis to ensure consistency.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39440	An individual	CTiii. Specific priorities for Council Tax	Not without current budget owners showing significantly more commercial sense than currently.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
39441	An individual	CTiii. Specific priorities for Council Tax	I would support an increase as long as money is not wasted. This consultation includes a lot of "review" proposals. If outside "experts" are being engaged at large costs this is not sensible and I would not support an increase above 3percent	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39442	An individual	CTiii. Specific priorities for Council Tax	Not just social care - how would you evidence this....	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39443	An individual	CTiii. Specific priorities for Council Tax	That is a very unfair question to put on a form such as this. The person who dreamed this one up should be ashamed. Social care should be fully funded within the 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39444	An individual	CTiii. Specific priorities for Council Tax	I think I would be inclined to support a larger increase if it was absolutely necessary to avoid the abolition of certain services and priorities like council orchestras and ensembles	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39445	An individual	CTiii. Specific priorities for Council Tax	And Education, Yes	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39446	An individual	CTiii. Specific priorities for Council Tax	Yes. But as a council you need to run efficiently. No one wants to pay for excess that should be cut. However, the more we are charged the less we will spend in the community if belts need to be tightened. You may also put people off moving to the area. There are a lot of things to consider.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39447	An individual	CTiii. Specific priorities for Council Tax	only if the services were already fully efficient and the additional income was on front line service	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39448	An individual	CTiii. Specific priorities for Council Tax	Only if all council run football facilities were closed and sold for housing development.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
39449	An individual	CTiii. Specific priorities for Council Tax	If on Education yes!	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39450	An individual	CTiii. Specific priorities for Council Tax	no 3% is enough	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39451	An individual	CTiii. Specific priorities for Council Tax	No I think 3% would suffice due to the inflation levels and limited pay rises.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39452	An individual	CTiii. Specific priorities for Council Tax	Yes as long as the money coming in was being put back into services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39453	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes but this should be means tested.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39454	An individual	CTiii. Specific priorities for Council Tax	No and certainly not on social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39455	An individual	CTiii. Specific priorities for Council Tax	Not at the moment. One step at a time	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39456	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	only if was implemented on a rising scale over each year increase	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39457	An individual	CTiii. Specific priorities for Council Tax	Yes, but it's difficult to see how this would be ring-fenced?	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39458	An individual	CTiii. Specific priorities for Council Tax	No - again better for WLC to pass across Social Care to Health Service.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39459	An individual	CTiii. Specific priorities for Council Tax	child care and school	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Increased nursery hours is a priority of the Scottish Government. The council will be required to implement this as a condition of the council's finance settlement.

39460	An individual	CTiii. Specific priorities for Council Tax	I would wish to know exactly how any increase would be spent before supporting this.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39461	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support as much of an increase as needed to keep services and keep jobs.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39462	An individual	CTiii. Specific priorities for Council Tax	Definitely no !	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39463	An individual	CTiii. Specific priorities for Council Tax	I would not support an increase of more than 3% at the same time as all the other cuts are happening, perhaps in future.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39464	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	NO. I am a single earner and most of my wage goes on paying my bills and I cannot afford to give money for other areas and also I could not trust the money would be spent wisely. As with the change in the logo. Why? Was it required and how much of a cost to the council is this going to be with all badges, uniforms and signage on vans and sign posts need changing. Was it a good idea for this to be done at this time when we are trying to save money. Is a circle really going to make that much different to the council.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39465	An individual	CTiii. Specific priorities for Council Tax	No, I think there's only so far you can push with a deeply flawed council tax system, and it's hard from this consultation to see that social care is a priority for the council.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39466	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	There would need to be a guarantee that the additional funding raised was ring fenced to West Lothian and not absorbed by the Scottish Government. There is also a proposal to increase income tax being made therefore residents may be reluctant to agree a higher increase as they will feel like they are paying twice for services.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Council tax can only be utilised in the local authority area in which it was raised. The Scottish Government could not access any money generated as a result of an increase in council tax.
39467	An individual	CTiii. Specific priorities for Council Tax	only up to an extra 1%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39468	An individual	CTiii. Specific priorities for Council Tax	No, 3% is a significant amount for people on low wages.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39469	An individual	CTiii. Specific priorities for Council Tax	Would support increases above 3% pa. It doesn't need to be hypothecated for specific purposes - that's why we have a council, to decide where money needs to be spent at that particular time.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39470	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No Really need to think about the proposed Council Tax and rent increases as the Council currently run with over 1 million pound in unpaid rents. If the 3% increase goes ahead along with the introduction of universal credit the deficit will surely just spiral out of control?	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
39471	An individual	CTiii. Specific priorities for Council Tax	No, greater than a 3% increase will too much pressure on household budgets, when wages are rising as much.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39472	An individual	CTiii. Specific priorities for Council Tax	yes if used for public transport as i dont drive and buses are a life line for me to help me live an independent life	CT3	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39473	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I think increasing more than 3% each year will have a bigger negative impact on many families who are already finding it hard to make ends meet. The areas where income is higher and council tax bands are higher then increasing those to a higher rate may give the lower income families a bitter chance of surviving the increase.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39474	An individual	CTiii. Specific priorities for Council Tax	Yes, for higher rate bands only	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39475	An individual	CTiii. Specific priorities for Council Tax	As a pensioner living on State Pension I would hope we would get a discount on the increased funding. I do believe however, that the "no increase" in Council Tax was not a good idea and if it had gone up a minimal amount each year, people would have accepted that.	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.
39476	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	Yes, if wages were also increasing	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39477	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No 3% will already be more than people will be getting in pay increases therefore will be a squeeze on household budgets.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39478	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	care or intervention - yes	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39479	An individual	CTiii. Specific priorities for Council Tax	Yes, would support up to 5%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39480	An individual	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39481	An individual	CTiii. Specific priorities for Council Tax	No, not until things are running much more efficiently than they do now.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39482	An individual	CTiii. Specific priorities for Council Tax	Yes if this was directed to securing child care and schooling	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39483	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39484	An individual	CTiii. Specific priorities for Council Tax	No The issue with Ctax is that it has remained stagnant for 9 years. 3% is above the level that most people will expect as pay rises so this level of increase will already cut into household budgets.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39485	An individual	CTiii. Specific priorities for Council Tax	NO - I do not support any increase and especially not one which suggests those who earn support those who do not.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39486	An individual	CTiii. Specific priorities for Council Tax	No, definitely not	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39487	An individual	CTiii. Specific priorities for Council Tax	Yes - free nursing care for everyone !	CT3	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
39488	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, I wouldn't. You can't price people out of their homes.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39489	An individual	CTiii. Specific priorities for Council Tax	No - not meaning to sound bad but I already have been paying an extra 3% council tax, as on higher band this year, and this introduction by the Scottish Government assumes that if you can afford a house above this bracket (which you can fall into with a flat in Bathgate) that you are well off - I am not!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39490	An individual	CTiii. Specific priorities for Council Tax	No. I do not approve of percentage increases.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39491	An individual	CTiii. Specific priorities for Council Tax	I think up to 10% would be ok in the circumstances	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39492	An individual	CTiii. Specific priorities for Council Tax	no more than 3%	CT3	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
39493	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, i would wish to see early intervention support for families included as well as social care in its broadest sense	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39494	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	As long as done proportionate to ability to pay.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39495	An individual	CTiii. Specific priorities for Council Tax	I would give an extra 2% to support the instrumental programme.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39496	An individual	CTiii. Specific priorities for Council Tax	as above - I agree we should increase council tax as long as the money was used to protect social services, and protect staff from cuts.	CT3	1. The respondent advised that they agree with the proposal.	The proposed 3% increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the £73 million assumes a council tax increase of 3%, a greater increase would be required to replace some of proposed reductions.
39497	An individual	CTiii. Specific priorities for Council Tax	Yes - up to 5%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39498	An individual	CTiii. Specific priorities for Council Tax	I think 3% is enough for one year and another 3% next year	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39499	An individual	CTiii. Specific priorities for Council Tax	I would not support this.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39500	An individual	CTiii. Specific priorities for Council Tax	No I wouldn't support an increase of more than 3%. After each of these successive increases my bill will have increased more than £200 a year - will my income have done the same?	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39501	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes for social care and addressing homelessness	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39502	An individual	CTiii. Specific priorities for Council Tax	Yes I definitely would support a bigger increase. I think you need to be more radical than 3% given all I have just read and responded to. However I think the specific priorities and details should be consulted on and agreed on, in order to have the community onside and feeling they have a say and receive value for money. More services should also be charged a nominal fee. We need to address all that is currently free at Government level	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39503	An individual	CTiii. Specific priorities for Council Tax	Provided it went to support Social Care and ensures West Lothian is a region where it cares for all residents not just those who have a large income. For the many not the few.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39504	An individual	CTiii. Specific priorities for Council Tax	No!! There is unnecessary expenditure by WLC which would reduce costs. Many initiatives are for votes and holding gun to community asking if we wish to pay 3% additional council tax so it can be spent on priorities is disgraceful. WLC are responsible for wasting money therefore their responsibility.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
39505	An individual	CTiii. Specific priorities for Council Tax	Not sure, would not want it used on political priorities that subsidise services for well off individuals and families e.g. free school music	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	The intention is to utilise any additional council tax money for high priority areas which will be determined through the views expressed in this consultation exercise.
39506	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, depending on what councils priorities were.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39507	An individual	CTiii. Specific priorities for Council Tax	Unsure - depends how the money is spent and whether wages go up as this could become difficult to afford	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39508	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Not unless council wages were increased to accommodate the further increase. Wages have not been increased in line with increased costs.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39509	An individual	CTiii. Specific priorities for Council Tax	Yes - we have had low Council tax for a long time now and need to catch up no matter how hard that is for us. Council should lobby Holyrood to 'get on with' promised overall Rates Revaluation - much talk and discussion but nothing is happening. Rates system needs overhaul and a new method put in place. Council should lobby for this.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
39510	An individual	CTiii. Specific priorities for Council Tax	Depends on inflation. It would be better to discuss what percentage above inflation as well as the actual figure. I higher rate on more expensive properties would be worth considering.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39511	An individual	CTiii. Specific priorities for Council Tax	We would need to know what our esteemed leaders would really want to spend the extra on before agreeing to that.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39512	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes. I am very concerned about the cuts to social care, although the detail of the proposal is vague, I do not see how any cuts to care for the elderly for example can possibly be a good thing.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39513	An individual	CTiii. Specific priorities for Council Tax	Pathways is already partly funded by the NHS and as social care and the NHS are so closely linked is it not possible that the Scottish government should contribute more. This should not be political and there are undercurrents all the way through this consultation that there is more going on here than just saving money. It would be refreshing for both the council and the government to put the people first by working together.	CT3	4. The council is already doing this.	The council works with the NHS to integrate health and social care services to provide a best quality service to users.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39514	An individual	CTiii. Specific priorities for Council Tax	I have mixed feelings on this. Yes with reservations increasing council tax has a greater financial impact on the lower paid. Property values require to be re-assessed and councils should be properly funded by Scottish Government if necessarily by an increases and changes to income tax.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. he council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
39515	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Taxand education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39516	An individual	CTiii. Specific priorities for Council Tax	Depends on how this would be rolled out. How can you say the extra council tax > 3% is spent on key priorities? this is too difficult to ring fence and prove these revenues go exactly to the priority focus point. In the end everything provided by the council needs to be paid for and extra revenue would naturally be diverted to meet the cost of all services.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The council would develop an approach to ensure that this additional funding was directed to priorities as agreed by elected members through the committee process.
39517	An individual	CTiii. Specific priorities for Council Tax	I would like to be able to direct my poll tax to a dpecific area and have some choice in how its spent	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax is a tax not a charge for specific services. It generates resources for the overall provision of council services.
39518	An individual	CTiii. Specific priorities for Council Tax	Would happily pay more to save social care services	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39519	An individual	CTiii. Specific priorities for Council Tax	but would it all be spent on social care and the people who need it	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39520	An individual	CTiii. Specific priorities for Council Tax	There would need to be a very clear approach for the additional funding and I would rather see some go to education services or youth community projects.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The council would develop an approach to ensure that this additional funding was directed to priorities as agreed by elected members through the committee process.
39521	An individual	CTiii. Specific priorities for Council Tax	Yes support social care services !!!	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39522	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Social care, services for vulnerable, elderly etc. Education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39523	An individual	CTiii. Specific priorities for Council Tax	Yes bit I'm not sure that my priorities are in line with everyone else.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

39524	An individual	CTiii. Specific priorities for Council Tax	I would support it if extra funding went on education staff	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39525	An individual	CTiii. Specific priorities for Council Tax	No funding should be split equally and especially when your reducing activities for children	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39526	An individual	CTiii. Specific priorities for Council Tax	I wouldn't mind paying an increase if spent on social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39527	An individual	CTiii. Specific priorities for Council Tax	Possibly but let's start with 3% to see what difference that makes.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39528	An individual	CTiii. Specific priorities for Council Tax	NO, this is too vague and given only as a possible example!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39529	An individual	CTiii. Specific priorities for Council Tax	Within limits	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39530	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, despite rising demand, social care should be overhauled to become more efficient and effective. Managers need to be brought in who want to modernise and become more efficient.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39531	An individual	CTiii. Specific priorities for Council Tax	Up to 4%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39532	An individual	CTiii. Specific priorities for Council Tax	I would support this if Social Care is applicable to both Young and Elderly (If this is what is meant).	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39533	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes - I would support an increase of more than 3%	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39534	An individual	CTiii. Specific priorities for Council Tax	Would consider	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39535	An individual	CTiii. Specific priorities for Council Tax	Council tax must be spent on the priorities as the plan would be back to square one if they spent the council tax increase on something else.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39536	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Possibly - but only if transformational change is addressed and it is not just further resourcing to fix current approaches	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39537	An individual	CTiii. Specific priorities for Council Tax	Yes, but hypothecation is a minefield I would stay out of.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39538	An individual	CTiii. Specific priorities for Council Tax	Would means tested increase be an option?	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands. Individuals on low incomes are able to apply for a number of council tax discounts and reductions.
39539	An individual	CTiii. Specific priorities for Council Tax	Yes, I would as social care is imperative for a vast number of West Lothian residents.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39540	An individual	CTiii. Specific priorities for Council Tax	No , I have already agreed to a 15% (in total over 5years) rise for what looks like a lesser service and ringfencing may happen for the first year but the rise would not come back down the way and the extra would eventually get swallowed up into general income and not be additional at all.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39541	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	yes...but I am not a resident in west lothian	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39542	An individual	CTiii. Specific priorities for Council Tax	NO I also don't think this is a fair question.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39543	An individual	CTiii. Specific priorities for Council Tax	if it were spent on education then yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39544	An individual	CTiii. Specific priorities for Council Tax	Subject to clear public information about the accounting involved, and to a modest increase, yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The council would develop an approach to ensure that this additional funding was directed to priorities as agreed by elected members through the committee process.
39545	An individual	CTiii. Specific priorities for Council Tax	I support an increase of only 3%	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39546	An individual	CTiii. Specific priorities for Council Tax	No I would not - I think it shocking that money be passed about like this.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39547	An individual	CTiii. Specific priorities for Council Tax	No ... this wont happen ...They will tell us it is but it wont .. The money would be better spent helping the homeless and old people ... In some countries old people of a certain age even get there phones paid for	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39548	An individual	CTiii. Specific priorities for Council Tax	yes, raise it higher as there have been no rises for a huge number of years.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39549	An individual	CTiii. Specific priorities for Council Tax	Increase to commercial level the council rent.	CT3	4. The council is already doing this.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39550	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support Council Tax increases if it protected jobs and kept vital services at a high standard.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39551	An individual	CTiii. Specific priorities for Council Tax	I feel as though this is where it is most needed	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39552	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Absolutely no increases in council tax. If there was an increase in council tax, there would be to be a pay rise well above 3% to counteract it.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39553	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No as it is the people who can afford the 3% increase that would not need to access certain services	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39554	An individual	CTiii. Specific priorities for Council Tax	Totally hypothetical as the maximum increase is up to 3%.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39555	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Spent on education and outside agencies (social work is a necessity for more people) rather currently just ice berg effect (only dealing with physical ...seeing of the iceberg rather than dealing with the under water/ underlying issues)	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39556	No Response	CTiii. Specific priorities for Council Tax	I would suggest an increase in excess of 3% for the next 2 years.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39557	No Response	CTiii. Specific priorities for Council Tax	Yes, but council tax payers should have input into what those priorities should be (online vote?).	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39558	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I don't agree with this, I feel it should be shared equally.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39559	No Response	CTiii. Specific priorities for Council Tax	Not enough information to provide comment.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39560	An individual	CTiii. Specific priorities for Council Tax	No this kind of funding should come from increased income tax for top band earners.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39561	An individual	CTiii. Specific priorities for Council Tax	flat fee spent on social care	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39562	An individual	CTiii. Specific priorities for Council Tax	If the money was spent right then yes, again not every year, but again there is no guarantee as to where this money will go, seems to be like a lot of it goes to paying higher up employee members of the council and it would take a lot for the council to prove and reassure the public that this is not going to be the case.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39563	An individual	CTiii. Specific priorities for Council Tax	Possibly, why not offer opportunity to allocate, say, +2% to areas of their choice	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39564	An individual	CTiii. Specific priorities for Council Tax	Yes, I would support it, if the money was used wisely and was used to benefit the growing population, and the education system, as well as the arts, which helps make a person.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39565	An individual	CTiii. Specific priorities for Council Tax	it would depend on the specific priorities. I would broadly support a greater increase to remove the need for some of the more short sighted cuts suggested above.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39566	An individual	CTiii. Specific priorities for Council Tax	No I would not as it should of been a gradual increase not a huge leap and would leave a lot of people struggling to pay.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39567	An individual	CTiii. Specific priorities for Council Tax	Yes, if this money was spent on education and the elderly and vulnerable.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39568	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes.. as long as funds raised were plied into mental health services in West Lothian	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39569	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, on protecting essential services	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39570	An individual	CTiii. Specific priorities for Council Tax	Yes, provided it was clearly costed and ring fenced and not just placed in the overall budget.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39571	An individual	CTiii. Specific priorities for Council Tax	Social care and education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39572	An individual	CTiii. Specific priorities for Council Tax	Yes but would need to be ring fenced	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39573	An individual	CTiii. Specific priorities for Council Tax	not social care or benefits. keep the dump and the busses	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39574	An individual	CTiii. Specific priorities for Council Tax	Yes, if the priority was education, not social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39575	An individual	CTiii. Specific priorities for Council Tax	Yes, I would support increases up to 5% if the money was ringfenced only for primary school education and care for older people	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39576	An individual	CTiii. Specific priorities for Council Tax	I do not think this is feasible. I might agree to fund one activity, whilst my neighbour agreed to another. I would be happy to pay for a service local to my village - eg litter picking, or gardening in the local park	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39577	An individual	CTiii. Specific priorities for Council Tax	Yes - Although I would also like to see further investment in education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39578	An individual	CTiii. Specific priorities for Council Tax	Yes we need to look after our most vulnerable.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39579	An individual	CTiii. Specific priorities for Council Tax	Yes I would support an increase in taxes to support specific priorities. Social services particularly relating to children, disabled children and disabled people and their carers in general would be an excellent choice as I absolutely believe that these spending create savings in the long term. I would not support a rise in taxes to increase the amount of council managers and managers' personal assistants or to support the use of more consultant companies. I have seen extra budget used just for that instead of front line staff and services in the past.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39580	An individual	CTiii. Specific priorities for Council Tax	I would support a rise of up to 5% if money were ring fenced for specific priorities ie positive destinations for young people .	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39581	An individual	CTiii. Specific priorities for Council Tax	Agree, but any additional charges being specific to personal house hold services only, as described previously, e.g. house waste uplift, brown bins etc.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39582	An individual	CTiii. Specific priorities for Council Tax	Yes within reason. If the money continues to be spent on companies e.g. for drafting services for surveys like this with frankly daft questions then no. Social care is the headline grabber, and i support that fully but if the money is given to companies like Mears who exploit staff with zero hours contracts in jobs falsely advertised as full time hours, and who care even less about the elderly. We can't use my CT money to find companies who care only about profit. Mears is just one of them. Let's pay full time council staff to care for a fixed living wage. I'd also not be happy to pay more if it means VLC will sit back and wait until the money runs out before they consider savings e.g. using LED lights! Get your act together first please!	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government. The consultation document was devised internally and produced at minimal cost. All Social Care staff are paid the Living Wage. The council has delivered substantial savings in the last five years through the introduction of LED lights and will continue to do so in the next five years.
39583	An individual	CTiii. Specific priorities for Council Tax	No, I think that 3% is enough - it is above the rate of inflation.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39584	An individual	CTiii. Specific priorities for Council Tax	Yes, would like more details on where money would go.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39585	An individual	CTiii. Specific priorities for Council Tax	Only if this additional increase was on higher band properties	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39586	An individual	CTiii. Specific priorities for Council Tax	I would support a higher rate only on the higher tax bands. Not on the lower bands. Yes, I'd like to know exactly where the additional funding would be going prior to agreeing to it.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39587	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I believe this would only be valid where services are means tested and not universal to all.	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Many of the areas of universal provision are national schemes determined and set by the Scottish Government. The council could not add means testing for these areas.
39588	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Only if there was a democratic mandate.	CT3	4. The council is already doing this.	Council tax and the council's budget are agreed at full council at which all 33 elected members attend.
39589	An individual	CTiii. Specific priorities for Council Tax	No, social care and health should work in partnership, we are treated like second class citizens with our local hospital unable to accommodate all medical cases.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39590	An individual	CTiii. Specific priorities for Council Tax	Yes as long as it is properly targeted.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39591	An individual	CTiii. Specific priorities for Council Tax	The 'Have your say on WL's proposals on page 12 of the paper is not below this section. The comments do NOT relate to Social Care. On page 4 the Council Funding is £398.123M and is detailed. Expenditure on the same page totals £318.6M. There is a surplus of £79.523M with NO explanation of any other Expenditure. The Reduction Proposals on pages 5 to 9 are not readily identified to the areas of Expenditure on page 4. The saving of £73M should be made at the rate of £15M per annum on the areas of Expenditure not identified on page 4.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The expenditure budget is £398.123 million as detailed in the circle in the top right of the page with the income detailed on the left. The areas of expenditure are examples only and do not present themselves as the total expenditure of the council. This is clear in the heading which states "Here are some examples of where we will spend the 2017/18 budget".
39592	An individual	CTiii. Specific priorities for Council Tax	This would depend greatly on how much more of an increase was proposed and what the extra money would be spent on	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39593	An individual	CTiii. Specific priorities for Council Tax	Maybe	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39594	An individual	CTiii. Specific priorities for Council Tax	Possibly	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39595	An individual	CTiii. Specific priorities for Council Tax	No. In areas such as Murieston which has a high council tax rate, very little seems to be given back from the council in this area!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39596	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Not unless wages were increased in line with this as new starts on living wage will soon be starting at same rate as experienced staff	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39597	An individual	CTiii. Specific priorities for Council Tax	No. Instead cut services and lose staff. Non-statutory services must justify their existence by either income/savings/outcomes delivered.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39598	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39599	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes - if you could see the services being delivered benefited the community. Council staff need to realise that standing outside buildings in their uniform having a cigarette is not acceptable and give the impression that council staff have nothing better to do or are lazy or they are getting paid for doing nothing. Or seeing all the council vehicles parked up in a row at lunchtime does not look good .. it is the public view that we do not work hard and this sort of behaviour reinforces this.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39600	An individual	CTiii. Specific priorities for Council Tax	No. 3% is a manageable increase for most families. I for example come from a two income home. We do not have much disposable income and any over whelming increases would make our life very grim.we do not have to access social care and therefore it is not my priority to fund social care	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39601	An individual	CTiii. Specific priorities for Council Tax	Yes if additional spending was fully explained and justified.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39602	An individual	CTiii. Specific priorities for Council Tax	No, as both wage earners in this house are paid by the Government we have already seen the real value of our salaries decrease year on year for the last 10 years,	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

39603	An individual	CTiii. Specific priorities for Council Tax	no way the government should give you more money for social care not the people of west lothian after all the government pays all the small business rates why cant they pay our council tax our is it just for rich small business	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39604	An individual	CTiii. Specific priorities for Council Tax	Yes - towards the Instrumental Music Service in schools.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39605	An individual	CTiii. Specific priorities for Council Tax	Yes! Money towards the Instrumental Music Service.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39606	An individual	CTiii. Specific priorities for Council Tax	I think 3% will be a lot for most people.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39607	An individual	CTiii. Specific priorities for Council Tax	Yes. I would support an increase of up to 6% per year- but would want the additional 3% to support education and care for the elderly specifically	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39608	An individual	CTiii. Specific priorities for Council Tax	I would have to understand how the increase was going to be used and why it was necessary to increase to fund the initiative.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39609	An individual	CTiii. Specific priorities for Council Tax	If there is an increase then there should be visible results which the council provide. If there were an increase of more than 3%, then as a musical household, putting that money to music outreaches would be the benefit. Increasing council tax AND the removal of all instrumental teachers I feel is a dark cloud with no silver lining.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39610	An individual	CTiii. Specific priorities for Council Tax	I would support a slight increase to the 3% if it was spent on no further reduction to bin collection, recycling sites were not to close and bulky uplifts remained free of charge.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39611	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support an increase above 3% to go towards high priority services for the most vulnerable.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39612	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. There is a limit to how much people can afford to spend.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39613	An individual	CTiii. Specific priorities for Council Tax	Maximum 5% increase	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39614	An individual	CTiii. Specific priorities for Council Tax	We would support this if the money was spent on key priorities in West Lothian.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39615	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, if wages were also rising	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

39616	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	It should be spent on Education if you are to raise the Council Tax.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39617	An individual	CTiii. Specific priorities for Council Tax	yes, save local social care centres. Ability centre should not have to shut.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39618	An individual	CTiii. Specific priorities for Council Tax	I would need to see the detail but I would certainly consider it.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39619	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would support a council tax increase of up to 5% per annum to protect essential services. It is wrong for the Scottish government to try to restrict council tax increases to 3% - all over Europe this would be a decision for local councillors. If the 3% limit is retained, the council could consider approaching the Scottish government to ask if the 3% that was not used in 2017/18 when the council froze council tax, could be used in 2018/19 i.e. increase tax by 6% in 2018/19.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39620	An individual	CTiii. Specific priorities for Council Tax	Higher council tax to protect jobs.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39621	An individual	CTiii. Specific priorities for Council Tax	No - though would change my mind if West Lothian Council could support me to have a pay rise of 5%!	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39622	An individual	CTiii. Specific priorities for Council Tax	Yes- only if spent on Sport, Culture and education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39623	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes pay more to protect day centres	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39624	An individual	CTiii. Specific priorities for Council Tax	Depends on the priority.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39625	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	It would be difficult to prove to residents where the money is going.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39626	An individual	CTiii. Specific priorities for Council Tax	No, as a govt employee my salary has hardly increased over the last 10 years, nor has my partners.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39627	An individual	CTiii. Specific priorities for Council Tax	Not social care.. they need to get more efficient and effective, need complete overhaul and could make loads of savings here.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39628	An individual	CTiii. Specific priorities for Council Tax	No, would want the money spread across priorities.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39629	An individual	CTiii. Specific priorities for Council Tax	No	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39630	An individual	CTiii. Specific priorities for Council Tax	No. As a public sector worker subject to a pay freeze this would be unaffordable	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39631	An individual	CTiii. Specific priorities for Council Tax	Education has to come first, then health, then social care.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39632	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No the income should be shared across all departments - this includes welfare issues - there is no point increasing one sector without looking at them all. This would not provide a good service to the people of West Lothian and families are affected by many things - welfare reforms, schooling, bin collection, public safety etc - it needs to be an across the board approach to help the many and not the few.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39633	An individual	CTiii. Specific priorities for Council Tax	No need if increase Council Tax by 3% in each successive year over the 5 year period.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39634	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	There should be an increase across all bands, perhaps 1 or 2% for lower bands and increasing to 3%. This should be ongoing each year even if only by 1% each time.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39635	An individual	CTiii. Specific priorities for Council Tax	Yes - very much so - especially for spending on education and the environment.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39636	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	There is a need to challenge central government on budget allocation. Suggest that council increase council tax beyond 3% to meet needs.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39637	An individual	CTiii. Specific priorities for Council Tax	Yes. Better than SG income tax plans where there is no guarantee the money will go towards funding local government. Will make up for rises that haven't happened over last 10 years.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39638	An individual	CTiii. Specific priorities for Council Tax	As a low income household but not on benefits, I would only agree if the personal allowance rate was increased to cope with such rises as inflation is increasing and therefore it would hit people on low incomes.	CT3	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government is responsible for any changes to income tax.
39639	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes but not on social care. People have different priorities and views on where it should be spent and repeatedly this is weighted towards statutory services, it is not all education education, social care social care. People want a fully rounded life with good experiences, quality environment and enjoyment from facilities on their doorstep. This is what gives value to where people live, people work and people play. Invest in the environment, in the services people can enjoy and make West Lothian an attractive investment.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39640	An individual	CTiii. Specific priorities for Council Tax	No I believe that too much resources goes to cures rather than sorting out the entire environment as a preventative system. Do something groundbreaking that reduces the need for the amount that has to be ploughed into the social care and health services.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39641	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	If it would help really deprived families, yes.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39642	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	The spending priorities would have to be made specific and explicit before that question can be answered.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39643	An individual	CTiii. Specific priorities for Council Tax	noyou just need to manage the limited budget better	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

39644	An individual	CTiii. Specific priorities for Council Tax	Yes Would like to see 4 - 5% increase to keep services for young people and disabled and elderly	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39645	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No, any money raised above the 3% should not be ringfenced.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39646	An individual	CTiii. Specific priorities for Council Tax	Not at this time. Perhaps in future years.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39647	An individual	CTiii. Specific priorities for Council Tax	If it was then yes but it is not always given the priority.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39648	An individual	CTiii. Specific priorities for Council Tax	No. As above - lets have a root and branch review of the council service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled. As above - address the inefficiencies first, and don't ask the community to fund these by increasing the tax.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39649	An individual	CTiii. Specific priorities for Council Tax	I'd be more likely to, but would want more information on the specific priorities	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39650	An individual	CTiii. Specific priorities for Council Tax	Only if it was being managed efficiently.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39651	An individual	CTiii. Specific priorities for Council Tax	Maybe, I would need to see the proposal.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39652	An individual	CTiii. Specific priorities for Council Tax	No if crc sites are to close.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39653	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I feel an increase of more than 3% at one time could be very challenging for some West Lothian residents, particularly at a time when salaries are not increasing and the cost of living is continuing to increase.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39654	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes, within the realms of the overall cost of living being reduced by increased wage to inflation.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39655	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	In principle yes, but I would require more information prior to committing to this.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39656	An individual	CTiii. Specific priorities for Council Tax	Not without far more information on the details plans.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39657	An individual	CTiii. Specific priorities for Council Tax	Yes, as long as it was spent on social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39658	An individual	CTiii. Specific priorities for Council Tax	No - why? Danger of financial allocation being divisive in the community.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39659	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	No. Social Care requires a nationally-driven solution. This requirement for additional funding is universal and not a local issue, per se.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39660	An individual	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39661	An individual	CTiii. Specific priorities for Council Tax	Not sure since you say people are going to have to pay for this, so families like mine would be hit very badly.	CT3	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
39662	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39663	An individual	CTiii. Specific priorities for Council Tax	I would support increase but not on specific areas should be to better provide all services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39664	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	If wages were going up by the same amount.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39665	An individual	CTiii. Specific priorities for Council Tax	I'd support a further increase in council tax if it was used to clean up the borough.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39666	An individual	CTiii. Specific priorities for Council Tax	Yes - the additional raised should be used to support frontline services such as the Instrumental Music Service to which I have referred earlier, for example.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39667	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	Yes, but with Scottish government in recent times stipulating what services we prioritise for example Education, Social care, I would be keen to see other services such as Environmental services and building services being supported, especially with the proposal to build 3000 new council house within the current administration and the additional pressures put on these services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39668	An individual	CTiii. Specific priorities for Council Tax	Unlikely that agreement on what these specific priorities were could ever be achieved.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39669	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Only if there was a clear agreement that it would be spent on Social Policy and Social Care!	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39670	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No I would not support an additional increase. The majority of the finances raised with the increase will come from those working residents therefore I think with the cost of living rising year on year, enough is enough. Charging for personal care should raise income to the council.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39671	An individual	CTiii. Specific priorities for Council Tax	This would largely depend on where it was spent.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39672	An individual	CTiii. Specific priorities for Council Tax	Not at this time as everyone's budgets are tight and with uncertainty over future	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

39673	An individual	CTiii. Specific priorities for Council Tax	Not unless a properly proportionate council is constituted.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39674	An individual	CTiii. Specific priorities for Council Tax	Yes, but not specifically social care. Prevention is the way to go keeping people involved and active makes them more likely to keep healthy and fit and supportive of the council's work.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39675	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	No. Because people like me who work are continually expected to contribute and we already pay tax, national insurance and a pension and I object to subsidising certain individuals who have never worked and will never work but will not have to worry about their retirement pension nor will they contribute to it nor worry about social care.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39676	An individual	CTiii. Specific priorities for Council Tax	No, I think that 3% this year is enough and should be broadly palatable. More than that and you will get more pushback.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39677	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	I would not agree to anything being spent on a specific priority until I was informed of what that would entail. Social care is a huge area and I would want to know that my money was being diverted to those most in need.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39678	An individual	CTiii. Specific priorities for Council Tax	Probably, depending on the priorities.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39679	An individual	CTiii. Specific priorities for Council Tax	No - given that public sector pay and other pays have not increased this would seem unreasonable.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39680	An individual	CTiii. Specific priorities for Council Tax	I would support an increase of more than 3% in council tax, to be paid only by those above a certain level of income. I don't think an across-the-board increase of more than 3% would be fair.	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39681	An individual	CTiii. Specific priorities for Council Tax	Agree - but only for use in support of services for the elderly. Think 5% per year is ok.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39682	An individual	CTiii. Specific priorities for Council Tax	Yes, definitely - we need to live in a society that cares for people who need support.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39683	An individual	CTiii. Specific priorities for Council Tax	I would support a rise to support properly managed social care provision	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39684	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	The West Lothian Community Race Forum feels that the increase should be capped at 3%. A further increase may adversely impact upon those already experiencing poverty and hardship.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39685	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	The West Lothian Faith Group would not support an increase of more than 3% as this may make housing costs too unaffordable for those households that are already disadvantaged.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39686	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	If it was for a specific and prioritized spend I feel this may be considered however for the 3% increase I feel this is a good starting point.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39687	An individual	CTiii. Specific priorities for Council Tax	Yes - but exclusively to be spent on older people without private transport or computers living in isolated communities (small villages).	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39688	An individual	CTiii. Specific priorities for Council Tax	Yes but to a limit. It's better to raise its little by little each year instead of raising is a lot at once	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39689	An individual	CTiii. Specific priorities for Council Tax	I don't see a problem with this if it could be made only on the higher bands. How would the council be accountable to what that extra fund raising was spent on?	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
39690	An individual	CTiii. Specific priorities for Council Tax	I fear no as that is not equal and would solve nothing. It would however salve our consciences.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39691	An individual	CTiii. Specific priorities for Council Tax	No as the council mismanagement here is to much over the years to justify a increase	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
39692	An individual	CTiii. Specific priorities for Council Tax	If by Social Care it includes the Youth and Elderly.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39693	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes if it was open and transparent where the money was being spent.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39694	An individual	CTiii. Specific priorities for Council Tax	Depends on what the increased income would be spent on.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39695	An individual	CTiii. Specific priorities for Council Tax	Only if it was solely spent on education, including early years.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39696	An individual	CTiii. Specific priorities for Council Tax	In theory, yes. In practice I would need to know how it would affect me financially and which priorities would benefit.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39697	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Any increase should be spread across the council services and not ring fenced for certain services	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39698	An individual	CTiii. Specific priorities for Council Tax	yes - but not every year or the bill would soon spiral	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39699	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Depends on the priorities	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39700	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	not at this time until the effect of rising interest rates and scottish income tax is established	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39701	An individual	CTiii. Specific priorities for Council Tax	We would have to give further consideration to this. The environment, crime and transport would be our priorities.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39702	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	It would depend on the proposed expenditure of the initial 3% raised.	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39703	An individual	CTiii. Specific priorities for Council Tax	unfortunately there is no way of evidencing if these funds would be spent as requested. People are beginning to loose trust in the council and where funds are being allocated and the efficiency of the council processes and planning	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
39704	An individual	CTiii. Specific priorities for Council Tax	Possibly would give it consideration depending on percentage increase	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39705	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	The people of West Lothian should not be liable to pay for the cuts and mistakes coming from government, we are also not a bottomless pot of money to pay for all these increases caused by the cuts.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39706	An individual	CTiii. Specific priorities for Council Tax	No 3% is a lot for some poeple in one go. Perhaps in future when the economic climate improves this might be considered.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39707	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Yes - Education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39708	An individual	CTiii. Specific priorities for Council Tax	Yes. Specific priorities like youth work, also day centres and residential care for those who need it.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39709	An individual	CTiii. Specific priorities for Council Tax	However, I would agree if it was on my priorities above.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39710	An individual	CTiii. Specific priorities for Council Tax	more than 3% would increase hardship and be counter productive with regards minimising poverty and deprivation.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39711	An individual	CTiii. Specific priorities for Council Tax	I would not support an increase of more than 3%. It is unlikely any major income of state retirement pension (plus a small work pension) will increase by this percentage. I will also incur an increase in rent (as per usual). I am likely, therefore to be in a negative position after any pension increase.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39712	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	Transport links for workers and disabled & elderly should be a priority and not cut. Social care services are a must especially with so many living alone. Health care too.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39713	An individual	CTiii. Specific priorities for Council Tax	Yes but for the highest bands only	CT3	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
39714	An individual	CTiii. Specific priorities for Council Tax	Yes I would pay extra if it meant older people were less affected by the cuts	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39715	An individual	CTiii. Specific priorities for Council Tax	I would not object to an increase of more than 3% but only if you use the extra money on the specific priorities you mention.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39716	An individual	CTiii. Specific priorities for Council Tax	If all funding raised above 3% were spent of specific priorities, such as social care. I certainly do not want to see additional cuts to services already stretched.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39717	An individual	CTiii. Specific priorities for Council Tax	Only if money helps improve services and no job cuts. If no improvements no council tax rise. It will be hard for families to afford 3% each year as by 2022/23 this will be a lot of money.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39718	An individual	CTiii. Specific priorities for Council Tax	People who can afford it should pay more and it should go to fund social housing. Waited 18 months for home and have 2 children.	CT3	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax. Provision of council houses, including maintenance costs, is paid for from council house rents not council tax, therefore council tax income cannot be used for this purpose.
39719	An individual	CTiii. Specific priorities for Council Tax	I think extra council tax should be used for schools.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39720	An individual	CTiii. Specific priorities for Council Tax	No. It is incumbent upon local authorities to use the already generous budget effectively.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation.
39721	An individual	CTiii. Specific priorities for Council Tax	I would agree to more if our priorities had adequate funding to provide the best possible services for our communities.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39722	An individual	CTiii. Specific priorities for Council Tax	I would be happy to pay more if it was used for social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39723	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	The council should visit care homes to talk to residents and gauge their feelings on council tax. Will there be another increase in years 2018 onwards?	CT3	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
39724	An individual	CTiii. Specific priorities for Council Tax	I would support an increase of more than 3% if all funding raised above 3% was spent on specific priorities such as health and social care. If council tax was not increased to bridge the gap increased budget gap.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39725	An individual	CTiii. Specific priorities for Council Tax	I would like to see this money being used in social care.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.

39726	An individual	CTiii. Specific priorities for Council Tax	Maybe. Depends on what Council decides are priorities - Care in the community is essential but a careful wathc needs to be kept on care companies.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39727	An individual	CTiii. Specific priorities for Council Tax	Yes - as for Social Care	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39728	An individual	CTiii. Specific priorities for Council Tax	as long as essential services are continued and not cut. I would support a year on year increase again only if services were not cut but maintained.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39729	An individual	CTiii. Specific priorities for Council Tax	I am happy to pay more but would like to make that choice myself	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39730	An individual	CTiii. Specific priorities for Council Tax	All proposals are sound. I would gladly pay higher council tax to improve services.	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39731	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	I dont consider social care a SPECIAL priority	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39732	An individual	CTiii. Specific priorities for Council Tax	Put council tax up by 4% to save services	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39733	An individual	CTiii. Specific priorities for Council Tax	children, young and older people	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39734	An individual	CTiii. Specific priorities for Council Tax	Support increase of more than 3% to improve the quality of life for older people- Reducing crime - Health	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39735	An employee of West Lothian Council	CTiii. Specific priorities for Council Tax	Don't agree with specific spend on additional income. All areas are important . Feel WLC nees to find saving through further efficiencies and noe general taxation.	CT3	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
39736	An individual	CTiii. Specific priorities for Council Tax	Increase to fund continued children & youth work	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39737	An individual	CTiii. Specific priorities for Council Tax	yes social care, younk folk and education	CT3	1. The respondent advised that they agree with the proposal.	Currently the Scottish Government only allows councils to increase council tax by a maximum of 3% annually. The council will consider your suggestion however it would have to be raised with the Scottish Government.
39738	On behalf of a Group/Organisation	CTiii. Specific priorities for Council Tax	We would not support an increase of more than 3%.	CT3	2.
