20846	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Price increases for leisure facilities would be acceptable	Delivery of Culture and Sports (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	As part of the work on this proposal officers will consider how charging for activities could be developed.
20847	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	shame to lose activities for people who might need a focus	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20848	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Whilst sports activity should be a priority for increased health, I fear that it just doesn't reach enough people to be worthwhile.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20849	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not agree with this proposal. Culture and Sport is important for all.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20850	An individual	4a. Review Approach to Delivery of Culture and Sports	Without details of what will be funded and what will not, I cannot support this strategy.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20851	No Response	4a. Review Approach to Delivery of Culture and Sports	Needs entertainment as normally you've to go to Edinburgh or Glasgow.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20852	An individual	4a. Review Approach to Delivery of Culture and Sports	I would not support this as think the provision is pretty poor, when compared to other authorities such as Edinburgh and Fife.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20853	An individual	4a. Review Approach to Delivery of Culture and Sports	Failure to deliver facilities for exercise and recreation has a knock-on effect on youth culture (crime, fitness levels, health) and is therefore a dangerous route to take in a country where obesity is already at an all-time high. Beware what you wish for here.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

20854	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I am sure the organisations who provide this leisure facility throughout West Lothian may be interested in partnership approaches to mitigate any effects from this proposal.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Officers will consider how this could be developed.
20855	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I agree but would like to see this provision remain with costs being met by users.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Officers will consider how this could be developed.
20856	An individual	4a. Review Approach to Delivery of Culture and Sports	Support this proposal. Although they are great services, they are not necessary and the council cannot continue to deliver on everything	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20857	An individual	4a. Review Approach to Delivery of Culture and Sports	Youth work and art and sports should provided to encourage healthy living encourage children not close groups.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20858	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This would be very sad. More activities are needed not less.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20859	An individual	4a. Review Approach to Delivery of Culture and Sports	Active Schools in funded from Government and should therefore be excluded and the proposed savings looked at as a proportion of budget from the remaining services which will be impacted by a greater percentage.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20860	An individual	4a. Review Approach to Delivery of Culture and Sports	Local halls and services are needed also. Not all people can travel to livingston.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. As part of the work on this proposal officers will consider the type and extent of current sports and leisure facility provision across West Lothian.
20861	An individual	4a. Review Approach to Delivery of Culture and Sports	I think culture and sport outwith the mainstream curriculum is a nice to have, not a necessity, so happy enough for this funding to reduce.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20862	An individual	4a. Review Approach to Delivery of Culture and Sports	Again...it will affect the most vulnerable people in society. Children should get as much as possible.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20863	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	They need to do alot of stuff in armadale for the younger ones and the teenages	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20864	An individual	4a. Review Approach to Delivery of Culture and Sports	That does not seem a good idea as it is limiting facilities for youths etc	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20865	An individual	4a. Review Approach to Delivery of Culture and Sports	This is an area where external partnership and funding from other sources would assist rather than reducing or stopping support altogether.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Officers will consider how this could be developed.
20866	An individual	4a. Review Approach to Delivery of Culture and Sports	There are lots of local groups who provide arts and sports activities that the council should work continue working with but do not necessarily fall in to the categories above.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20867	An individual	4a. Review Approach to Delivery of Culture and Sports	Every part of a child discovering who they are is found out by the activities they do wether it be sports performing arts, languages or maths itâ€™s all about finding what is important to the children so I think by continuing to find sports and performing arts children are given a better chance to discover what makes them happy and calm and what they may want to persue in their future	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

20868	An individual	4a. Review Approach to Delivery of Culture and Sports	The Council should focus on activities that have potential to make Scotland great at a National level, whatever the activity.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The council is proposing to target its resources on the priority areas identified in the Transforming Your Council consultation.
20869	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Do we still have active school co-ordinators, and if so could this be discontinued.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council are reviewing the approach to all sports activities across West Lothian with a focus on Active Schools.
20870	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20871	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this mean job losses?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20872	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Bad idea to reduce this. Physical and mental health are crucial for well being. Well being crucial for a well balanced society.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20873	An individual	4a. Review Approach to Delivery of Culture and Sports	When the Scottish Government is constantly saying how unhealthy Scottish children are with high levels of obesity how can reducing sport activities possibly be justified.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20874	An individual	4a. Review Approach to Delivery of Culture and Sports	With HWB being at the heart of Scottish education it is essential to maintain core HWB services. How would reducing funding to WL Leisure effect our kids? Would this take away free swimming during holidays?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20875	An individual	4a. Review Approach to Delivery of Culture and Sports	Guess we have to save money somewhere and this may encourage more private sports clubs to open in the area and may create employment. These services can easily be sourced outwith the council.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20876	An individual	4a. Review Approach to Delivery of Culture and Sports	Youth need this crime will go Up	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20877	An individual	4a. Review Approach to Delivery of Culture and Sports	Catastrophic for young people in West Lothian. I wish that the people making the decisions about young people's lives and education had actually spent some time teaching them.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20878	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree in part. But some kids may only get involved with these free activities rather than going to xcite for example.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20879	An individual	4a. Review Approach to Delivery of Culture and Sports	We don't have enough of these activities and they should be stopped as the community of all ages needs this services. We don't have enough of it specifically in Winchburgh and other places should have more so both adults and the youth can gain from it.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20880	An individual	4a. Review Approach to Delivery of Culture and Sports	I FEEL MORE INDIVIDUALS COULD CONTRIBUTE FUNDS FOR THIS SERVICE	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.
20881	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Given the wealth of private sector providers, it is not evident that the council needs to provide these services at all.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider the extent to which related services are, or could be, supplied by other organisations.
20882	An individual	4a. Review Approach to Delivery of Culture and Sports	Seek sponsored support from outside agencies.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20883	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is a huge shame, especially in a time within education where schools are supposed to be celebrating talents and wider achievements that are not necessarily academic. This is where many children strive and grow in confidence.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20884	An individual	4a. Review Approach to Delivery of Culture and Sports	Not sure active schools or the music should be supported this could be passed to the schools budget and is for limited clientele. West Lothian Leisure is for everyone from babies to oap	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Youth Music Initiative and Active Schools are almost entirely externally funded.
20885	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Private partners are in it to make money and nothing else. Partners have been used in other industries and as frequently reported prices only go one way and that is up!! The trains being privatised was supposed to drive costs down??? +36% a joke. Gas, Electricity etc all out of control because they are driven by profit and shareholder dividend.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20886	An individual	4a. Review Approach to Delivery of Culture and Sports	Disagree that funding should be reduced where health/fitness and cultural benefits will be lost. It will only prove more costly in other ways as we become lazier, more obese and ever smaller-minded as a society.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20887	An individual	4a. Review Approach to Delivery of Culture and Sports	Compulsory obligations must be met. Citizens and communities have responsibilities, stop doing everything for some.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20888	An individual	4a. Review Approach to Delivery of Culture and Sports	This will stigmatise poorer families and increase inequality. This is totally unfair	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20889	An individual	4a. Review Approach to Delivery of Culture and Sports	Some Will not be provided. Focus should be on providing fitness facilities and service that keeps people healthy.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The council is proposing to target its resources on the priority areas identified in the Transforming Your Council consultation.
20890	An individual	4a. Review Approach to Delivery of Culture and Sports	For some arts and sports are as important as maths and English. Please don't underestimate the positive impact this has on people's lives.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20891	An individual	4a. Review Approach to Delivery of Culture and Sports	Leisure is reduced for arts and music? Who is it that's thinking up this? Shut the leisure facilities and share the community school facilities with the income going back into the schools for development of the kids	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20892	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Schools should still deliver these services, however, outwith schools I think it's fair to reduce funding. Exemptions for the elderly should still be considered, however, not so for unemployed.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. Also that, to reflect the reduced income of the council, funding provided to WLL will be reduced. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20893	An individual	4a. Review Approach to Delivery of Culture and Sports	Support for Leisure activity is a key component for positive outcomes on health and welfare do we really need to cut this again	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20894	No Response	4a. Review Approach to Delivery of Culture and Sports	As part of this, consideration should be given to rationalising where and when groups/clubs are meeting to ensure we are using our resources most efficiently.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20895	No Response	4a. Review Approach to Delivery of Culture and Sports	How is this being developed with, for example, preventative measures under health i.e. the healthier the population the less services and support required?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20896	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree....a resources draining service, which people can access themselves and many using them can afford to. But MUST continue music and sports activities in schools to encourage a lifelong interest in healthy living and activity, whatever people chose to do.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20897	An individual	4a. Review Approach to Delivery of Culture and Sports	It depends on in which area, Fair enough reduce some in areas where there will still be access to these things for people who live there but again places like Fauldhouse, stony burn ect. they cant really afford to lose that as kids and adults for that matter would sometimes do without because they travel alone is not worth it. The swimming in fauldhouse is council Ran, would this be switched to xcite? prices would go way up and would reduce the amount the building is used. what is xcite dont take over it? would they just get rid?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The full range and type of activities which can be supported will be considered when planning any future provision.
20898	An individual	4a. Review Approach to Delivery of Culture and Sports	Focus on those who are talented and enthusiastic. A superficial service provided to all is a waste of time.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20899	An individual	4a. Review Approach to Delivery of Culture and Sports	This again I feel will hit hardest those who are not academically talented this will mean no diverse education. Surely more needs to be looked into to get funding for this. As isn't it the policy to give every child a chance to succeed.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. As part of the work on this proposal officers will explore external funding opportunities.
20900	No Response	4a. Review Approach to Delivery of Culture and Sports	EducTion department should focus on those pupils with genuine talent and enthusiasm. There is no point in offering a superficial service to all comers.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
20901	An individual	4a. Review Approach to Delivery of Culture and Sports	Which arts and sports activities will no longer be provided?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. The full range and type of activities which can be supported will be considered when planning any future provision.
20902	An individual	4a. Review Approach to Delivery of Culture and Sports	I agree that some focus may be necessary, however I still feel that cuts to cultural services is often seen as an easy option, yet may have a larger impact on the community than is appreciated.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20903	An individual	4a. Review Approach to Delivery of Culture and Sports	Sad to see leisure being cut. Scotland already has health problems without making access to fitness centres even harder. Free swimming for 60+ could be cut and a small fee introduced?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20904	An individual	4a. Review Approach to Delivery of Culture and Sports	Surely it would be better to run these in business model, make them more efficient and allow profits to go towards council costs.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20905	An individual	4a. Review Approach to Delivery of Culture and Sports	Could the proposed services to be cut be assessed to become self funding ?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20906	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is the opposite of what we are being encouraged to do.I by the Scottish government. Health and well being promotes being active. Many of the issues affecting young people could be avoided through involvement in music and sports.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20907	An individual	4a. Review Approach to Delivery of Culture and Sports	Reductions in arts, culture and sports services are short sighted and do not recognise the wider benefits of these services to reducing inequality and improving the life chances of all the councils service users. Narrowing the focus has the potential to increase the numbers of people requiring more targeted support through where a more universal opportunity could divert them	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20908	An individual	4a. Review Approach to Delivery of Culture and Sports	Not sure this is a great idea - art, sport and leisure must play a large part in giving our youth an outlet for their energy and free time across the county - this could rebound badly in an increase in petty crime with resulting costs. It could also impact on the health and well-being of considerable numbers, again with a cost to consider	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20909	An individual	4a. Review Approach to Delivery of Culture and Sports	Is there a need for so many swimming pools and gyms when private sector offering similar. Vouchers for these facilities could be provided instead for most deserving residents	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20910	No Response	4a. Review Approach to Delivery of Culture and Sports	Access to the above is key to developing a well rounded individual. It is a real shame to take funding away from these areas.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20911	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	the arts/music and sports are crucial to the young people today ,particularly for the less academic children	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20912	No Response	4a. Review Approach to Delivery of Culture and Sports	We must prioritise the health of the nation from local to national levels. We must maintain options for exercise and healthy living for both young and elderly. This includes maintaining access to facilities-especially since we live in a cold, wet part of the world where external options are frequently limited by the weather.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to ensure residents in West Lothian have access to sports facilities. The relative merits of rationalising facility provision will be explored during work on this proposal.
20913	No Response	4a. Review Approach to Delivery of Culture and Sports	allow small organisations such as sports clubs to adjust their income to allow for smaller annual increases and thereby help improve and maintain the mental and physical health of the local nation; which will ultimately reduce the burden on future council budgets.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20914	An individual	4a. Review Approach to Delivery of Culture and Sports	Education is more important than the extra curricular, often the subsidies for these especially music tuition is uptaken by those who can afford to pay as opposed to those who otherwise would be unable to participate. My children have enjoyed the after school sports clubs , they are disappointed they haven't ran however I have found local football training where I pay 4x per week but arguably I can afford to pay for that.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20915	An individual	4a. Review Approach to Delivery of Culture and Sports	I love music and PE in school.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20917	An individual	4a. Review Approach to Delivery of Culture and Sports	This comes back to comments regarding education - sports, like music and the arts in general should be seen with the same weighting in today's age to those considered as more traditional academic subjects such as Maths, English etc.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20918	An individual	4a. Review Approach to Delivery of Culture and Sports	STRONGLY DISAGREE: Youth Music initiative is a fixed budget from Creative Scotland so cannot be saved. Culture and sports contribute enormously to wellbeing and community cohesion West Lothian already has very low Arts provision at present - it cannot be reduced further	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20919	An individual	4a. Review Approach to Delivery of Culture and Sports	Kids should get access to subjects other than formal academia to give an enriched education. As long as this is still adequately supplied I would support it.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20920	No Response	4a. Review Approach to Delivery of Culture and Sports	Please don't remove access to music and the arts. They are a key part of a students education especially for those less academic.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20921	An individual	4a. Review Approach to Delivery of Culture and Sports	Concerned about the wider impact these changes may have and how these will be assessed.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20922	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not agree with these proposals. The council should consider looking at ways to keep these services available via for example closer working with business or part funded options.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As part of the work on this proposal officers will explore external funding opportunities and consider how charging could be developed.
20923	An individual	4a. Review Approach to Delivery of Culture and Sports	At a time of record obesity levels with the UK the most obese in western Europe, cutting leisure and fitness facilities does not make sense. Spending on encouraging cycling should be increased	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to ensure residents in West Lothian have access to sports facilities.
20924	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Better use of school sports facilities outwith school hours could be considered if West Lothian Leisure facilities are reduced. Most schools are closed every weekend and for about 12/13 weeks every year and perhaps there are opportunities there for greater community use. Also if we are really serious about improving health and promoting healthy activities we need facilities that will assist.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.

Transforming Your Council Consultation 2017

20925	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The arts and sports make a significant contribution to the council's 8 priorities so it doesn't make sense to stop providing these services if the council is committed to delivering and improving positive outcomes on health for example. With the move in primary healthcare toward more use of social prescribing, community sports and arts services are more important than ever before and these services should be protected. The programmes which will be retained are all externally funded through Creative Scotland, Sport Scotland or developer contributions so what the council is actually proposing is cutting all funding for arts and sport.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. The proposal is not to cut all funding for arts and sports but to no longer provide certain arts and sports activities. The specific activities which will no longer be provided are yet to be determined.
20926	An individual	4a. Review Approach to Delivery of Culture and Sports	Again your focus should be on providing the young with great opportunities so they can be the best they can be and therefore in the long run they will not require welfare services.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20927	An individual	4a. Review Approach to Delivery of Culture and Sports	On top of no longer having work in the schools as the schools can't afford to pay for extras?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20928	An individual	4a. Review Approach to Delivery of Culture and Sports	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20929	An individual	4a. Review Approach to Delivery of Culture and Sports	Funding can only be reduced to a level where benefits are still delivered efficiently and still attract the public to use the services, maintaining demand.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20930	An individual	4a. Review Approach to Delivery of Culture and Sports	More detail needed. We should not make it impossible or more financially difficult for low paid families to access sports and leisure facilities. What would the impact be on health and obesity in children.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20931	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	There should be no further arts or sports cuts in our Council of any kind. Your comment has been noted
20932	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Unfortunately due to the financial climate this should be looked at by combing groups from various schools into one location rather than at individual schools so activities can continue.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20933	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Our partnership with all of these services has been very positive. We would not like to see any of the Arts or Sports services reduced, however, we all need to work in partnership to access external funding opportunities.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As part of the work on this proposal officers will explore external funding and partnership opportunities.
20934	An individual	4a. Review Approach to Delivery of Culture and Sports	When you advise 'focus on' do you mean that WLC will concentrate funding in those areas or will WLC focus on reducing funding in those areas? Your descriptive above does not make this clear. You do not clearly advise what arts and sports facilities will no longer be provided and thus this consultation requires to be re-run with clearer detail. You cannot assume that 'no comment' from the reader is an indication of support of your proposals. Arts and sports are 'education'. They should not be seen and treated as any less than the sciences, or other school subjects.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20935	No Response	4a. Review Approach to Delivery of Culture and Sports	Leisure and cultural services should be protected - they are already at a very low level and cannot drop further.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

20936	No Response	4a. Review Approach to Delivery of Culture and Sports	STRONGLY DISAGREE! The culture and sports deliver so many physical and mental wellbeing benefits that are not quantified and if cut they will never return to the great loss to communities in West Lothian.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20937	An individual	4a. Review Approach to Delivery of Culture and Sports	how can we help local people to take up the lead on some of these activities?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20938	An individual	4a. Review Approach to Delivery of Culture and Sports	If a reduction in arts and sports must be implemented could the council make a plea for parents, grandparents or other volunteers to step in to fill the gap? 20939	An individual	4a. Review Approach to Delivery of Culture and Sports	Like music, sport is so important in a young person's life. As music is a place for some, sport is for some. Sport is good for mental and physical health. Extra-curricular sports again like music keeps kids engaged and keeps them from getting involved in anti-social behaviour.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra-curricular arts and sports experiences.
20940	An individual	4a. Review Approach to Delivery of Culture and Sports	I hope the council have a back up plan	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20941	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts is not a priority for a council. Let the Scot Govt fund it.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20942	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I believe this will greatly affect the health of the West Lothian population. Active Schools provides an integral part to physical education, school sport and wider sporting opportunities to school children. I believe by removing this network will have an adverse affect on the health and prospects of the west Lothian population in years to come.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Part of the proposal is for Active Schools to continue to be delivered.
20943	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	In terms of sport, the voluntary organisation rely heavily on the support provided by full time sport staff in the Active Schools and Community Sport teams. By reducing the workforce in these teams will result in voluntary organisation potentially ceasing to exist as they do not have enough support to sustain their sporting commitments. Therefore children and adults will have less access to sport and will have a direct result in fitness, confidence and self-esteem in years to come.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20944	No Response	4a. Review Approach to Delivery of Culture and Sports	Without specific details of where efficiency savings will be made it is not possible to make meaningful comment. Services such as sports, arts and instrumental music tuition make a significant contribution improving the quality of life of the citizens of West Lothian and to the council's priorities particularly improving attainment and positive destinations for school children, improving the quality of life for older people and delivering positive outcomes on health. Cutting these services goes against the movement in primary healthcare toward social prescribing and referring patients with social, emotional or practical needs to non-clinical services such as arts and physical activity. If the council is serious about meeting and improving its 8 priorities it should seek to protect those services which contribute most toward them, rather than the so-called "enabling" services which do not.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20945	An individual	4a. Review Approach to Delivery of Culture and Sports	Music and sport are important to our young people. Participation in sport encourages activity and helps fight obesity which is a growing problem in our young people. Team sports encourage team work, discipline and teaches leadership. All valuable skills later in life. Young people involved in sport have an interest that keeps them occupied and can the friendships formed can support them	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra-curricular arts and sports experiences.

20946	An individual	4a. Review Approach to Delivery of Culture and Sports	Counter to stated Priority 7: delivering positive outcomes on health.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20947	An individual	4a. Review Approach to Delivery of Culture and Sports	How can you regenerate with no funds? Taking away money and people working will end up degeneration not regeneration.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20948	An individual	4a. Review Approach to Delivery of Culture and Sports	As already mentioned music, arts and leisure facilities are very important especially for the young and the elderly. The elderly if they exercise will keep healthy, have social relationships which will keep depression away. the young if involved in sports learn how to function in team situations and it keeps them from hanging about corners and getting into trouble putting more stress on police.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20949	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is reasonable if there are still opportunities for these to happen within the school curriculum	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20950	An individual	4a. Review Approach to Delivery of Culture and Sports	providing centralised services is a viable proposition. I do wonder that the less enthusiastic may miss out however. Those who are gifted will always succeed but those with financial problems may not have the money to travel to these centralised venues.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20951	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Active Schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20952	An individual	4a. Review Approach to Delivery of Culture and Sports	Sports and arts use parts of the brain that classroom teaching cannot reach. They are hugely important to the development of our young people and should be protected. There is evidence that children who are active in sport are less likely to self-harm, form relationships where they are abused and less likely to suffer from mental illness. Therefore sport can be seen as a "spend to save" area.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20953	An individual	4a. Review Approach to Delivery of Culture and Sports	As previously mentioned in my comments on WLC priorities, I find it unfathomable that removing sports 'activities' could be delivered on whilst considering the positive impact health and wellbeing could have on all of the WLC priorities highlighted. This smacks of short termism with no real care or consideration for the long term good of WL residents. The Community Sport team are the key drivers and support service for the hundreds of sports clubs in West Lothian, who facilitate life long participation in sport and physical activity. Without a Community Sport team these valuable clubs will not have access to their statutory training needs, guidance on governance which ensures they are delivering the safest and most sustainable opportunities possible or officers supporting on funding which brings valuable activities and state of the art funding to West Lothian. The multiple new sports facilities, from tennis courts to 3G football pitches would not be in West Lothian without the work carried out by officers in the Community Sport team to secure funding from external sources. Discontinuation of a sport team would no doubt be met with discontent from sportscotland who coincidentally are the majority funders of the Active Schools programme. With this funding also in doubt from sportscotland, Active Schools may well be in jeopardy in the coming months resulting in an embarrassing shortage of sport and physical activity opportunities in West Lothian both in schools and the community. Any thought that Active Schools would be able to substitute the works done by the community sport team, would be under educated and ignorant. Active Schools acts as a vehicle to introduce pupils to regular extra curricula and extra curricular activity which dovetails with the Community Sport team supporting community clubs to ensure those pupils have adequate opportunities to continue to be physically active outwith school and throughout the entirety of their lives. These are two separate areas of work, with different people and skill sets required for each.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20954	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Sports and leisure access is important for health improvement.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20955	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Look at Trust Status Leisure Service and shared services Cross Authorities	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
20956	An individual	4a. Review Approach to Delivery of Culture and Sports	Sport, music and arts is important for the community, don't reduce.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20957	An individual	4a. Review Approach to Delivery of Culture and Sports	Increases in admission charges are inevitable. These have to be balanced by a reduction in numbers using the facilities	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20958	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	We feel these services are not a replacement for current school PE and Music Specialist services. Many schools including our own have benefitted from great outdoor education from the Low Port Centre, now provided by West Lothian Leisure and we are concerned about cuts to these services.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20959	An individual	4a. Review Approach to Delivery of Culture and Sports	Art and sport provided by the council are a lifeline to working parents - and always the best service - it would be really sad to loose these activities in the summer holidays - if you have to reduce them keep the holiday ones open for families.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The full range and type of activities which can be supported will be considered when planning any future provision.
20960	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Equality Impact Assessments will be undertaken as deemed necessary through the Equality Relevance Assessment process.
20961	An individual	4a. Review Approach to Delivery of Culture and Sports	Cutting back on physical activity provision or funding will just result in more care costs? We need to invest in prevention of depression and chronic disease which is why your care costs are so high. Please think about this!	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

20962	An individual	4a. Review Approach to Delivery of Culture and Sports	Narrowing provision to improve emotional, physical and mental lives of young people?	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20963	An individual	4a. Review Approach to Delivery of Culture and Sports	With these sort of savings it is doubtful if provision of more effective, flexible and affordable services can be provided.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20964	An individual	4a. Review Approach to Delivery of Culture and Sports	Has the active schools programme shown itself to be well performing in comparison to other local authorities? What will that mean to the rest of Sports team? With a 20 year commitment to reduce the worst inequality this would be to the detriment of that aim.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Part of the proposal is for Active Schools to continue to be delivered.
20965	An individual	4a. Review Approach to Delivery of Culture and Sports	This could present issues for those families that cannot afford to pay for their children to access arts and sports activities not run by schools. Reducing support to community sports clubs and arts projects could result in them also reducing their offer to children and families.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20966	An individual	4a. Review Approach to Delivery of Culture and Sports	Not exactly encouraging users to be fitter!	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20967	An individual	4a. Review Approach to Delivery of Culture and Sports	All I can say is that cutting exercise and not giving people opportunity is a damning decision	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20968	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Stop supporting sports clubs such as bowling clubs and football clubs and asset transfer their properties. We do not support modern sports clubs.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20969	An individual	4a. Review Approach to Delivery of Culture and Sports	This is not acceptable! Stop making cuts in these areas!	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20970	An individual	4a. Review Approach to Delivery of Culture and Sports	To expand childrens clubs not cut it. Clubs help kids become more happy by learning new things and having fun with friends. Cutting clubs doesn't make it fair on kids. Children should be able to join and stay in their clubs not have them taken away	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The full range and type of activities which can be supported will be considered when planning any future provision.
20971	An individual	4a. Review Approach to Delivery of Culture and Sports	Although regrettable this is a sensible idea to make savings. We have to cut the cloth to suit,	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20972	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't disagree with this as there are other areas where funding is better required.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20973	An individual	4a. Review Approach to Delivery of Culture and Sports	it wouldn't be great because teachers always say we need to stay fit and healthy so reducing the amount of after school clubs wouldn't give people an opportunity to get to do their favorite sport because it might get taking away from school clubs	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20974	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't think it is right to take down activities that people enjoy it might give you more money, though young children and older children will not have the opportunity they need for sports and art and etc.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20975	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This seems contrary to the priority to improve healthy outcomes.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20976	An individual	4a. Review Approach to Delivery of Culture and Sports	I would be very disappointed if this affects the services and running of the Low Port centre in Linlithgow. This has been a fantastic resource for both the community and many surrounding schools, giving many children opportunities for outdoor education and all the health benefits that go with it. Again, most people would rather have options to pay for these services, once cut it will be very hard to ever get them back!!	Delivery of Culture and Sports (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Low Port Centre and Outdoor Education are currently delivered by WLL on behalf of the council.
20977	An individual	4a. Review Approach to Delivery of Culture and Sports	The council have a duty to ensure leisure and sport facilities are accessible to all in West Lothian and not just those who have sufficient financial means to access. Access to leisure facilities has a proven benefit to mental and physical well being of people, those who are unemployed or in low paid jobs need to have the same access as those who have disposable income.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The council will continue to deliver its core responsibilities and statutory duties/obligations.
20978	No Response	4a. Review Approach to Delivery of Culture and Sports	We should be spending more, not less, on encouraging people of all ages to be physically active.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20979	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This would be a terrible mistake. Sports and Arts provide a way out of poverty, loneliness and help people access a different lifestyle. They improve health. The benefits of Arts and Sports to young people and adults is absolutely invaluable. Without funding in these areas many young people would have nothing whatsoever to smile about. Many people have no other way of accessing Arts and Sports due to poverty or mental health and general health issues. The positive impact on health and poverty outweighs the costs. This is a terrible idea.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20980	An individual	4a. Review Approach to Delivery of Culture and Sports	Art and sport is key in a nation that is generally unhealthy and inactive.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20981	An individual	4a. Review Approach to Delivery of Culture and Sports	The reduction in these services will impact negatively on members of the public particular those who find themselves out of work and not being able to access these valued services. Again, culture and leisure services help in providing people with better well being and better mental health.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20982	An individual	4a. Review Approach to Delivery of Culture and Sports	As you have already gathered I am part of the disabled community and for years I have had to go on committees just to help provide groups for disabled adults and children. I have often envied groups that my child could not access as they are so much easier to set up and run. If parents do set up groups and activities for their children it will be for those who can afford it and have the transport to access it. No doubt this is widespread, but those who need it more are often excluded.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

20983	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Before we give more to WLL, should we have a greater understand of the governments plans with the Barclay review? Is there going to be any benefits putting more out to a leisure trust if there is no longer the perceived financial savings? It does create a barrier having a separate organisation. If we only support Active Schools and not community sports development then we face the risk of national agencies such as sportscotland and governing bodies not supporting West Lothian, e.g. facility projects, national projects etc. West Lothian have done very well in the past from national agency funding. Who will support all the community clubs and volunteers going forward?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced. The Scottish Government has yet to confirm how it will respond to the recommendations in the Barclay report which are relevant to this proposal. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20984	An individual	4a. Review Approach to Delivery of Culture and Sports	It is not clear what arts and sports activities will be stopped. Focusing on Howden Park will marginalise communities elsewhere.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. Also, that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced. The full range and type of activities which can be supported will be considered when planning any future provision.
20985	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Are the proposed priorities the 8 priorities listed at the beginning of this document? How are the arts and sports activities currently provided by the council? Which are provided? Which will stop being provided? How has the decision to drop those arts and sports been reached? Reductions such as these goes against 7 of the 8 priorities of the council. How does this support children and young people get the best possible start in life? How does reducing opportunities like this support helping people into employment? How does it improve the quality of learning in our schools and help young people succeed? How does it improve the quality of life for older people? How does it minimise poverty and promote equality? Should only those who can afford arts and sports should have access to them? How does it help the most vulnerable in our society or reduce crime, re-offending and antisocial behaviour to restrict people's opportunities? How does this help to improve the mental and physical health of the people in West Lothian when you take away the opportunities for some arts and sports activities? I think this is incredibly short sighted and can only result in increased problems.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20986	An individual	4a. Review Approach to Delivery of Culture and Sports	This would make it far less accessible to anyone living outwith Livingston. Again petrol/bus fares might not be affordable to many families.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Redirecting services to Livingston is not part of the proposal.
20987	An individual	4a. Review Approach to Delivery of Culture and Sports	Sad but probably necessary. Could private sponsorship not be sought?	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will explore external funding opportunities.
20988	An individual	4a. Review Approach to Delivery of Culture and Sports	if we want well rounded educated children these activities should continue to be provided in schools etc.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20989	An individual	4a. Review Approach to Delivery of Culture and Sports	Make available at a higher cost if not popular then stop them make people pay for services	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.
20990	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Leisure etc is important but keeping services for vulnerable, poor, disabled and children are far more important	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20991	An individual	4a. Review Approach to Delivery of Culture and Sports	Why do you penalise the children when it comes to budget cuts? How can we tackle obesity and getting children active if it's not readily available in the communities	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20992	An individual	4a. Review Approach to Delivery of Culture and Sports	Careful! Health and wellbeing are enhanced by leisure and the arts. Keep cuts to a minimum.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20993	An individual	4a. Review Approach to Delivery of Culture and Sports	All very centralised. What about folk who do live in Livingston.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Centralising services in Livingston is not part of the proposal.
20994	An individual	4a. Review Approach to Delivery of Culture and Sports	I'm finding it very difficult to understand how external organisations can provide service more cheaply than council unless wages are less.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The council is a living wage employer.
20995	An individual	4a. Review Approach to Delivery of Culture and Sports	why will this all be in Howden Park centre I would rather have sports activities for children than arts programmes	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Centralising services in Livingston is not part of the proposal.
20996	An individual	4a. Review Approach to Delivery of Culture and Sports	Take care of those who are not familiar with digital systems or confident in their use	Delivery of Culture and Sports (general)	4. The council is already doing this.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
20997	An individual	4a. Review Approach to Delivery of Culture and Sports	For all the fuss about getting people fit and healthy especially at a young age not sure that you should be reducing funding into sports etc. My daughter is in a swimming club and the fees are high at the moment. You make the lets for the clubs any higher then she will need to stop going and it would put a lot of people off learning to swim which really shouldn't be happening in this day and age. Surely it would be beneficial to ensure that all kids can swim. Sure there are many other organisations/clubs that would be put in danger if funding is cut any more.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20998	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Lottery funding and private funding is needed in these areas, Unfortunately this is a drop in the ocean to brands such as Sky or Football associations, get more funding from them. Lets face it they gain from all the youth effort that goes into this from communities.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20999	An individual	4a. Review Approach to Delivery of Culture and Sports	You need to spell out what will stop, and what the cut in funding for west lothian leisure will mean in terms of charges. Modest increases might be OK, but pricing the poor out of exercise would not.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21000	An individual	4a. Review Approach to Delivery of Culture and Sports	I would agree in principal but I do not want those who are financially in need to miss out on any opportunities.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21001	An individual	4a. Review Approach to Delivery of Culture and Sports	studies prove that Music, arts, and physical education improve attainment and have long lasting positive benefits for the child which are transferred into their adult lives. every week in the local paper, there are list of achievements and awards won by the young people in west Lothian, so why would the council want to stop funding this?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council needs to make substantial savings across services it is not required to deliver by law (i.e. non-statutory services) such as arts and sports.
21002	An individual	4a. Review Approach to Delivery of Culture and Sports	Again, sports & arts are areas promoting positive mental health, and give all ages of people a focus and interest. Drastic cuts may be detrimental to society.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21003	No Response	4a. Review Approach to Delivery of Culture and Sports	Prioritizing with the resources we have is understandable which i am in agreement with. If children wish to partake in art and sport activities the families should be made the fund this.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will consider how charging could be developed.
21004	An individual	4a. Review Approach to Delivery of Culture and Sports	I would strongly suggest that the focus should be on participatory arts and sports, bearing in mind the considerable physical and mental health benefits for individuals from such activity. Non-participatory activities should be expected to cover their own costs.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21005	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts and sports are essential activities and life long skills. For many children this may be their many hobby and perhaps the career path they would like to follow.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

21006	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is such a shame and will impact greatly on schools in many ways. It will particularly impact on schools in more deprived areas who do not have the same opportunities to access such activities outwith school.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Part of the proposal is for Active Schools to continue to be delivered. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21007	An individual	4a. Review Approach to Delivery of Culture and Sports	Everything should be looked at but this aligns to provision of education and health - if you don't do it who does?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Part of the proposal is for Active Schools to continue to be delivered. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21008	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	I strongly hope that this does not change the provision of service at Fauldhouse Partnership Centre in particular the facilities used by Fauldhouse Penguins Swimming Club. The swimming club provides a meaningful, positive, developmental and affordable activity for children and young people in the locality. This club has been in existence for 17 years and has contributed positively to the community throughout this time. Outside of the positive health benefits the sport of competitive swimming offers, the club also encourages children to take accountability for themselves, learn about diet and instills many positive disciplines for leading a successful life. Any changes to this facility that increase the financial burden on a voluntary club or removes access to the pool would have a significant impact on the viability of the club. This would be seen as a significant loss to the community and all those children involved in the club.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21009	An individual	4a. Review Approach to Delivery of Culture and Sports	Not everyone can use these facilities	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21010	An individual	4a. Review Approach to Delivery of Culture and Sports	If you are closing doors of opportunity for young people in areas where they should be nurtured, great sports enthusiasts and great artists and musicians, then you are going to be needing more money to support the alcohol and drug dependency programs you are also trying to cut, because that's where many of them will be headed. For many of those youngsters this is their only escape from that situation, as many of them are experiencing it first hand in their family lives. Don't take it away from them	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21011	An individual	4a. Review Approach to Delivery of Culture and Sports	Why stop there? These activities are all instances where some or all of the cost should be borne by users.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.
21012	An individual	4a. Review Approach to Delivery of Culture and Sports	Can the council introduce 'developer contributions' to fund any of this?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will explore external funding opportunities. Developer contributions currently contribute to Public Art provision.
21013	An individual	4a. Review Approach to Delivery of Culture and Sports	It would be great to try and stimulate local art initiatives. Running a small sparks programme would be amazing and may bring with it cost savings longer term	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21014	No Response	4a. Review Approach to Delivery of Culture and Sports	Surely this reduction in funding will impact on several of the priorities including developing positive health outcomes and reducing poverty as this will mean less people will get the opportunity to participate in leisure activities.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21015	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This makes sense that when there are efficiency saving to be made then savings need to be made to additional services although the arts and sports are ways in which we keep our children and young people emotionally and physically healthy and give them aspirations to achieve their full potential. If these are delivered through other initiatives though this will ensure that children still receive experiences in the arts and sport.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21016	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this not come into conflict with Delivering Positive Outcomes on health and well-being?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21017	An individual	4a. Review Approach to Delivery of Culture and Sports	rather than remove the service, can it be paid for by those who use it?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.

Transforming Your Council Consultation 2017

21018	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is an important part of West Lothian and i think it is a shame to hear that some art and sports activities are being cut. Reducing the funding to west lothian leisure could be a mistake. Health and wellbeing should be a priority and this could be effected if Leisure facilities start to go downhill.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21019	No Response	4a. Review Approach to Delivery of Culture and Sports	Arts and sports activities change when something new comes out. Could you consider brining in specialist tutors to cover arts, music and sports. e.g. yoga. Classes could be combined to make full use of the lessons. Pupils would register their interest either, arts, music or sports, this would ensure pupils are attending classes that really interest them.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21020	An individual	4a. Review Approach to Delivery of Culture and Sports	Sad to lose this but savings need to be made and people can buy these services if they really want them.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will consider how charging for activities could be developed.
21021	An individual	4a. Review Approach to Delivery of Culture and Sports	How does this fit with the cut to music tuition? Cutting funding to leisure / sport services is a huge mistake - these are incredibly important to health and well-being.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21022	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	There should me more of a drive for parents to seek extra curricular activities such as the above.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21023	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I think this will be a real shame and could prevent many young people getting involved in the arts and sports. Those who can afford to will be able to keep these going, but that's going to cause increasing divides between affluent and less affluent people, and the opportunities available to them.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21024	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	As stated previously Instrumental Tuition is vital to a young person's social and educational development. YMI and Active Schools will not last forever in terms of funding so relying on these is not a good move going forward.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Officers will consider the likely extent of future external funding, and any associated risks and opportunities, as part of the work on this proposal.
21025	An individual	4a. Review Approach to Delivery of Culture and Sports	Please remember that creative interventions in childhood and in later years REDUCES peoples need for social and health services. Retain arts budgets for excluded youth, intergenerational and older people projects in their communities. Improving obesity, rehabilitation, loneliness, dementia, mental health issues, social justice can all be achieved with access to activity that encourages people to be creative.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21026	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Absolutely not acceptable. This affects community spirit, health and wellbeing (mentally and physically) and will severely affect our reputation as a council. It is bad enough that our essential services are being cut, but to minimise our culture will be just as damaging in the long term. How exactly will we close the gap in participation, achievement and attainment for our young people if we remove the only ways in which many of our children can access instruments, art, drama, sports..?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21027	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Sports are essential for the well-being of children.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21028	No Response	4a. Review Approach to Delivery of Culture and Sports	This makes me really sad. I worry that this will lead to an increase in youth crime.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..

21029	An individual	4a. Review Approach to Delivery of Culture and Sports	This hints at a potentially very significant disengagement by the council from sports and leisure provision, but, as before, it is caged in woolly language that tells us nothing. People have the right to know what this will mean and Councillors must understand what is involved as they will be held accountable for their actions at the end of the day.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21030	An individual	4a. Review Approach to Delivery of Culture and Sports	it is always good press to show that the council is promoting sport, health and fitness and the arts and then you cut the funding!	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21031	An individual	4a. Review Approach to Delivery of Culture and Sports	Would be ideal to still somehow highlight the public health message of physical activity being important for health and encouraging this by initiatives.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21032	An individual	4a. Review Approach to Delivery of Culture and Sports	Music sport and arts are so important for wellbeing and good mental health	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
21033	An individual	4a. Review Approach to Delivery of Culture and Sports	Short sighted thinking given the national focus on obesity prevention and treatment.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21034	An individual	4a. Review Approach to Delivery of Culture and Sports	Extra activities are essential as they keep my younger individuals safe and create opportunities for them in a further workplace removal of this would severely ruin potential for anyone wishing to Pursue work in these area and hinder there chances of the best job they can get this also lowers jobs available	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21035	An individual	4a. Review Approach to Delivery of Culture and Sports	Could external funding/sponsorship be sought to support those activities which need to stop? Could you start charging for some of the activities if they are currently being provided free of charge?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.
21036	An individual	4a. Review Approach to Delivery of Culture and Sports	These service provide excellent opportunities for children who may not excel academically, it shows them that there are many way you can succeed. To reduce these services would be to the detriment of our young people.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. School pupils will continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21037	An individual	4a. Review Approach to Delivery of Culture and Sports	This is likely to make activities at the leisure centres unaffordable for most people which will have a negative approach on health	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21038	An individual	4a. Review Approach to Delivery of Culture and Sports	I think the arts and sports activities are crucial to giving children and young people experiences that they may not get otherwise. Some of these children only experience success in theses areas and it is a real shame that this is in jeopardy.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. School pupils will continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21039	An individual	4a. Review Approach to Delivery of Culture and Sports	Many other organisations and charities have large potential funding streams. They need to become better at developing themselves as the council is no long in a position to fund them. Especially in areas where the Council has a similar and often superior in house set up.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21040	An individual	4a. Review Approach to Delivery of Culture and Sports	Given the amount of savings to be made, I don't think we can justify the amount of money currently spent on music and the arts.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
21041	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Too many venues, too much duplication between council and West Lothian leisure facilities. Who needs so many pools? Why are we putting another new pool in the new secondary school coming along?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The relative merits of rationalising facility provision will be explored during work on this proposal.
21042	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Is the cost going to be passed to parents? Many children will miss out if parents don't pay.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. School pupils will continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

21043	No Response	4a. Review Approach to Delivery of Culture and Sports	Very sad but necessary probably-if the ones that are kept are advertised widely it may minimise the impact	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
21044	An individual	4a. Review Approach to Delivery of Culture and Sports	OK, I have no problem with that. Parent led options should be encouraged.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
21045	An individual	4a. Review Approach to Delivery of Culture and Sports	Be careful, not everyone is acedemic!	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted.. School pupils will continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21046	An individual	4a. Review Approach to Delivery of Culture and Sports	Why are most things based in Livingston... transport to there is poor!	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
21047	No Response	4a. Review Approach to Delivery of Culture and Sports	There is woefully little in terms of cultural activity within West Lothian compared to other councils in the country. It is almost as if West Lothian is being reduced to a being a commuter town for Edinburgh and Glasgow. With Livingston Outlet increasingly becoming full of lower end shops, the general lack of decent high streets with venues where people would enjoy going out and the reduction in cultural activities means that West Lothian is no longer a destination for professional people to live. Reducing funding to sports activities will impact the goal of delivering healthy outcomes.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21048	An individual	4a. Review Approach to Delivery of Culture and Sports	It would be good if the council could detail what facilities would not be provided. The support of Active Schools or similar projects encouraging activity with children should be prioritised	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The relative merits of rationalising facility provision will be explored during work on this proposal. Part of the proposal is for Active Schools to continue to be delivered.
21049	No Response	4a. Review Approach to Delivery of Culture and Sports	These are vital services to the children and young people in west Lothian. West lothian has some of the most dedicated talented staff and teachers in the schools. Most of the secondary school in the county are award winning across music art and PE. As a parent I fully support these. If funding is cut this will impact many children including my own.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21050	No Response	4a. Review Approach to Delivery of Culture and Sports	Agree with this proposal on the basis that cuts are proportionate to the service usage	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
21051	An individual	4a. Review Approach to Delivery of Culture and Sports	Existing arts and sports activities should be retained, since these work to increase our human capital in West Lothian and will benefit the budget in the long-term.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21052	An individual	4a. Review Approach to Delivery of Culture and Sports	It would be very unfortunate if there was to be any significant reduction in support for cultural services. These already somewhat limited in comparison with provision in many longer established communities such as Falkirk, Stirling, Dunfermline, Kirkcaldy. It is appreciated that this is largely a reflection of the inheritance of facilities and resources in different areas.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21053	An individual	4a. Review Approach to Delivery of Culture and Sports	If you want to attend clubs for your own interest then you enrol for them and pay for it, simple as. My kids attend 4 different clubs over a week and I pay for them all.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted.. As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.
21054	An individual	4a. Review Approach to Delivery of Culture and Sports	I would rather see services available but means tested rather than cut - this is too vague to expect a sensible response - what arts and sports activities exactly & where?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. As part of the work on this proposal officers will consider how approaches to charging could be developed.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21055	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	You list the services which will remain but we are looking for clarification please on those which will no longer be supported. In particular the 'Excellence in Sport' scheme.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The full range and type of activities which can be supported will be considered when planning any future provision.
21056	An individual	4a. Review Approach to Delivery of Culture and Sports	The non statutory functions such as Howden Park and Regal Theatre need to be reviewed so ensure that these facilities are run with minimal subsidy.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted.. It is anticipated that, going forward, the costs of such facilities will increasingly require to be off-set through income generation.
21057	An individual	4a. Review Approach to Delivery of Culture and Sports	I think that YML, Active Schools etc are good, however I don't agree that some arts and sports activities should be stopped.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21058	An individual	4a. Review Approach to Delivery of Culture and Sports	I think that it is incredibly important that as little funding as possible is cut from delivery of culture and sports. It's very important to provide young people creative and sports opportunities. For some children these are activities they are not able to be part of as part of school and it is clear that providing music lessons or sports clubs for children has had an extremely positive effect on the child and their learning. Without this funding, many children and their families may not have the means to provide these brilliant opportunities to their children, which would cause many children to miss out on something that can have such a positive impact on their life.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21059	An individual	4a. Review Approach to Delivery of Culture and Sports	This is always an easy target but, to me, short-sighted and very regrettable. The arts and sports bring so many benefits to the whole community and help to achieve the council's high-level aims. The positive impact on children and young people and particularly older people also improves health and well-being, thus saving money! What about 'quality of life' and attracting new people and employment to West Lothian?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21060	An individual	4a. Review Approach to Delivery of Culture and Sports	Why are all the services being redirected to Livingston? What happens to children / young people and their families who do not have the finances to transport to Livingston. A reduction in community provision will undoubtedly lead to more families being isolated and unable to access social experiences which could have an impact on their social wellbeing.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. Redirecting services to Livingston is not part of the proposal.
21061	An individual	4a. Review Approach to Delivery of Culture and Sports	I feel that private industry should be made to help fund the sports activities where appropriate. For example, given the amount of money spend by football clubs on salaries, why are councils spending money supplying facilities for playing football.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21062	An individual	4a. Review Approach to Delivery of Culture and Sports	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21063	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	How would people from areas outwith Livingston access these services - the cost of bus fares is expensive particularly if you are an adult travelling with children - does this mean that people of tight budgets would miss out on these opportunities.	Delivery of Culture and Sports (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. Redirecting services to Livingston is not part of the proposal.
21064	An individual	4a. Review Approach to Delivery of Culture and Sports	Agreed. Local based companies or developers could be encouraged to sponsor events	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21065	An individual	4a. Review Approach to Delivery of Culture and Sports	All very valuable resources. This could have a negative effect on more vulnerable groups.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This comment will be considered in the development of the proposal.
21066	An individual	4a. Review Approach to Delivery of Culture and Sports	Maybe we should pay more at point of use?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.

21067	An individual	4a. Review Approach to Delivery of Culture and Sports	This could impact on youth who enjoy sports, what ones would not be provided. Also what if there were talented artists. Potentially missing opportunities here. What is the rationale behind this decision	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council needs to make substantial savings across services it is not required to deliver by law (i.e. non-statutory services) such as arts and sports. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21068	An individual	4a. Review Approach to Delivery of Culture and Sports	I'm strongly opposed to reduction in Youth music initiatives and sporting activities. These are most important aspect of learning and should never be reduced. I do not see why cuts should be against children's activities	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council needs to make substantial savings across services it is not required to deliver by law (i.e. non-statutory services) such as arts and sports. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21069	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts and health and well being services could be offered in partnership with NHS services and this partnership should be explored before this aspect of the service is cut entirely.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21070	An individual	4a. Review Approach to Delivery of Culture and Sports	You have to maintain services to children and young people to stop a youth street culture developing.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21071	An individual	4a. Review Approach to Delivery of Culture and Sports	It seems stupid to have facilities such as council owned bowling greens etc which cannot be easily accessed by the public and yet used by small clubs for very little financial input by their members.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21072	An individual	4a. Review Approach to Delivery of Culture and Sports	Completely DISAGREE. The council must find a way of these activities being continued in order to develop a well balanced future of arts, sports and entertainment for our young people.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21073	An individual	4a. Review Approach to Delivery of Culture and Sports	Whilst such activities are important it has to be borne in mind that they are only enjoyed by a small percentage of the county population. Services and finances need to be prioritised to where they will provide the most benefits to larger number of people. There are also numerous grant funding bodies which may be able to fill in the funding gaps.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
21074	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Asking users for a fee may be an option. Charging a small fee to use the facilities would bring in income.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.
21075	No Response	4a. Review Approach to Delivery of Culture and Sports	Have to maintain schemes such as active schools etc, have to provide the best possible chances for all kids.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

21076	An individual	4a. Review Approach to Delivery of Culture and Sports	Unhappy to think that the council is ok with closing off opportunities for young people cutting funding to music and sports. With little else for young people in the area we will be leaving those whose parents who can't afford to pay for their kids to access such opportunities to occupy their time in other ways will create a whole load of other social issues.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21077	An individual	4a. Review Approach to Delivery of Culture and Sports	Leisure centre and sports facilities should not be reduced, but savings made where possible to eliminate waste.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21078	An individual	4a. Review Approach to Delivery of Culture and Sports	Losing creativity and valid beneficial opportunities.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21079	An individual	4a. Review Approach to Delivery of Culture and Sports	Need to make sure arts and sports activities are accessible to all	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21080	An individual	4a. Review Approach to Delivery of Culture and Sports	In order to give our young people a head start it is vital to have good leisure facilities and activities in West Lothian.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
21081	An individual	4a. Review Approach to Delivery of Culture and Sports	This sounds worrying as music and sport are key to development and education of children. We are beginning to sound like a 3rd world country - and even they have better sports and music facilities than we do!	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21082	An individual	4a. Review Approach to Delivery of Culture and Sports	This means centralisation of these in Livingston again. People could perhaps pay more for use of leisure facilities.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Redirecting services to Livingston is not part of the proposal. As part of the work on this proposal officers will consider how charging could be developed.
21083	An individual	4a. Review Approach to Delivery of Culture and Sports	Whilst these are important services, I do recognise that this would be a way to save money without impacting too much on services such as health and education.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21084	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Important to invest in leisure for health and well-being reasons.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21085	An individual	4a. Review Approach to Delivery of Culture and Sports	Could charge for some services	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.
21086	An individual	4a. Review Approach to Delivery of Culture and Sports	Funding for sports/active leisure as well as music/arts should be prioritised. They provide invaluable opportunities and will eventually reduce the cost of unemployment (more valuable skills learnt e.g. discipline, comm skills, team working)/health spending (better mental and physical health)/crime (more children from all backgrounds involved in supportive environments learning the skills mentioned above)	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21087	No Response	4a. Review Approach to Delivery of Culture and Sports	I can not comment on this as there is not enough detail e.g. what sport activities would no longer be required. This will impact on people who enjoy arts and sports, which will limit these people's choices.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..

21088	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It is a pity when you consider the health benefits which align with council priorities, but I do not see how it can be avoided when core services must be maintained.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21089	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	how will that attract people to live in west lothian and also attract visitors to generate income	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21090	No Response	4a. Review Approach to Delivery of Culture and Sports	See comment above re music. For some young people music, arts and sports are their lifelines and provision of these subjects should not be viewed as secondary to more academic subjects such as maths and English. Young people must have access to a well rounded education.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted.. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
21091	An individual	4a. Review Approach to Delivery of Culture and Sports	I think they need to think about this carefully as the growing number of children & adults that are now over weight fitness& nutrition is a huge part of everyone's life and by cutting this resource could have a damaging effect on the NHS	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
21092	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Giving children and young people access to cultural opportunities can equip them for all aspects of life. I am concerned that once again it will be the most marginalised groups that are unable to access opportunities, as they will either no longer be available at a reasonable cost, or be no longer available at all. Not all families have the funds to prioritise this kind of learning/experiences for their children. This would be classed as a luxury. It will only be the children and young people from the poorer families that are going to lose out, again.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

21103	No Response	4a. Review Approach to Delivery of Culture and Sports	This is ridiculous nothing should be reduced.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21104	An individual	4a. Review Approach to Delivery of Culture and Sports	This strategy worries me greatly and I do not support. Creativity and sport are critical development activities, alongside maths, English, STEM etc. A balanced curriculum with diversity and breadth is the only smart education strategy for the future generation. You should seek additional income options rather than cutting costs in this area. It would be a huge mistake to invest less in these areas. To the contrary, I would propose increasing funding in this area. It is an investment in Scottish youth which will absolutely pay dividends.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21105	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This will be very detrimental to the communities.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21106	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't agree with this proposal	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21107	An individual	4a. Review Approach to Delivery of Culture and Sports	Should not be cut at all.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21108	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I do NOT agree with all of this - I think that the arts and sport activities should still be provided.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21109	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not agree with this as parts of West Lothian are named as being in the most deprived area of Scotland, opportunities to excel will be further hampered.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21110	An individual	4a. Review Approach to Delivery of Culture and Sports	I believe culture, sports and the arts are all important for the development of young people who are still in education and should not be reduced.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21111	An individual	4a. Review Approach to Delivery of Culture and Sports	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21112	An individual	4a. Review Approach to Delivery of Culture and Sports	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21113	An individual	4a. Review Approach to Delivery of Culture and Sports	Not agreed	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21114	An individual	4a. Review Approach to Delivery of Culture and Sports	Do not support. Another VAT dodge.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21115	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Sad	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

21116	No Response	4a. Review Approach to Delivery of Culture and Sports	Oh dear not sure this is the way to go here.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21117	An individual	4a. Review Approach to Delivery of Culture and Sports	Obesity is a rising problem so this is not a good idea. All she groups benefit from this, mentally and physically.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21118	An individual	4a. Review Approach to Delivery of Culture and Sports	These are valuable services and will be a huge loss to our young people if cuts are made in these areas.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21119	An individual	4a. Review Approach to Delivery of Culture and Sports	I agree with supporting sports in children however I feel strongly that promoting health and fitness in all ages should be supported.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21120	An individual	4a. Review Approach to Delivery of Culture and Sports	Basically you are cutting culture and sports which will decrease the chances of people experiencing and enhancing their lives. I am sure Fiona Hyslop as Minister for Culture will be delighted with this proposal	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21121	An individual	4a. Review Approach to Delivery of Culture and Sports	I am against any cuts to West Lothian Liesure and to arts and sporting activities in general.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21122	An individual	4a. Review Approach to Delivery of Culture and Sports	Bad decision	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21123	An individual	4a. Review Approach to Delivery of Culture and Sports	I disagree with this proposal. We need sports and music provision.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21124	An individual	4a. Review Approach to Delivery of Culture and Sports	None	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21125	An individual	4a. Review Approach to Delivery of Culture and Sports	No. Don't do it. Short term and short sighted action. Reduce waste in processes instead.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21126	An individual	4a. Review Approach to Delivery of Culture and Sports	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21127	An individual	4a. Review Approach to Delivery of Culture and Sports	If the Council wants to influence health and wellbeing then ending the funding of culture and sport is the last thing they should be doing. These services will come under pressure anyway because of likely changes to the VAT recovery and rates regime.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21128	An individual	4a. Review Approach to Delivery of Culture and Sports	shame	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

21398	An individual	4b. Support for Community Groups & Organisations	I do not support this change	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21399	An individual	4b. Support for Community Groups & Organisations	And again reduce funding to the groups that help people while you slash and burn and more folks need their help. Pathetic	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21400	An individual	4b. Support for Community Groups & Organisations	again this is my pet hate as these people do a wonderful job with youngsters	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21401	An individual	4b. Support for Community Groups & Organisations	Disagree with this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21402	No Response	4b. Support for Community Groups & Organisations	Wooly statement.. what services specifically... disagree!!!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21403	An individual	4b. Support for Community Groups & Organisations	Again if cuts must be made I would prefer this to some other areas.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21404	An individual	4b. Support for Community Groups & Organisations	no cuts. this is the first and last stop for many people in communities. a good community centre like the one in Boghall makes a different to a community. no cuts.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21405	An individual	4b. Support for Community Groups & Organisations	Another bad outcome	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21406	An individual	4b. Support for Community Groups & Organisations	There should be no changes to the existing!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21407	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	These are short sighted and may result in more expensive interventions at a later date.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21408	An individual	4b. Support for Community Groups & Organisations	Again, no cuts please	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21409	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I do not agree with this - if funding is removed or reduced from community groups, the communities will suffer. As more cuts are made in the council and nationally, communities need to be supported not thwarted.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21410	An individual	4b. Support for Community Groups & Organisations	I don't agree with the above. Withdrawal of financial contributions from community groups then affects the communities, and since the council proposes more community activities, this suggestion seems to contradict earlier comments.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21411	An individual	4b. Support for Community Groups & Organisations	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21412	An individual	4b. Support for Community Groups & Organisations	Disagree, local voluntary groups are a mainstay of the community	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21413	An individual	4b. Support for Community Groups & Organisations	none	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

21414	No Response	4b. Support for Community Groups & Organisations	none	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21415	An individual	4b. Support for Community Groups & Organisations	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21416	An individual	4b. Support for Community Groups & Organisations	Not Agreed	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21417	An individual	4b. Support for Community Groups & Organisations	Disagree - voluntary community groups and organisations should be supported wherever possible.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21418	An individual	4b. Support for Community Groups & Organisations	Far too vague. What are the priority areas? Cannot support as cannot make an informed decision given the lack of detail and likely impact	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21419	An individual	4b. Support for Community Groups & Organisations	If community groups are to be effective they need support from WLC.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21420	An individual	4b. Support for Community Groups & Organisations	Support for community groups and organisations. We say, Â£600,000 is a pitifully small saving for what is in many instances a voluntary service supported by a small Council grant. We are absolutely opposed to any cuts to grants to LYPP and other groups in Linlithgow.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21421	An individual	4b. Support for Community Groups & Organisations	I disagree with the above. The above is vague and does not detail how funding will be prioritised.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21422	An individual	4b. Support for Community Groups & Organisations	As a member of a group which is supported I can't agree that this is a good idea. For the oas 20 plus years WLC has trumpeted the success of its supported groups and the highly important work they do for the community. Are we suggesting that was wrong? That the work is n longer important? Again sad day I f thus happens. Who sets what the priorities are? Friends of councillors?	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21423	An individual	4b. Support for Community Groups & Organisations	This should not be affected.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21424	An individual	4b. Support for Community Groups & Organisations	None	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21425	An individual	4b. Support for Community Groups & Organisations	This could work against the council's anti poverty policy.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21426	An individual	4b. Support for Community Groups & Organisations	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21427	An individual	4b. Support for Community Groups & Organisations	Disagree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21428	An individual	4b. Support for Community Groups & Organisations	Although sharing best practice is important - servcies and facilities must not close to avoid duplication. The priority must always be keeping groups in the community!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21522	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21523	An individual	4b. Support for Community Groups & Organisations	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21524	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	not able to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21525	An individual	4b. Support for Community Groups & Organisations	Whilst nice to have, some of these services cannot be provided by WLC in future.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21526	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	CLOSE SCRUTINY OF CRITERIA NEEDED.	Support for Community Groups & Organisations - council contributions	4. The council is already doing this.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. 'Health checks' design to ensure that the funding objectives are being met will continue to be an element of the support arrangements.
21527	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	community groups need financial input or they will stop	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21528	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The council has to think long and hard about the financial support/provision it provides to these organisations. A lot of them provide services to only a very small portion of the population of West Lothian so again "value for money" has to be major factor when considering the money that is provided. "Nice to have " is no longer an option.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21529	An individual	4b. Support for Community Groups & Organisations	Voluntary groups can pay for themselves	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21530	An individual	4b. Support for Community Groups & Organisations	There are too many groups with cross over of service delivery - they should be encouraged to rationalise through controlling funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on those groups and organisations which can demonstrate the greatest impact on overall priorities. The review will consider duplication in community groups and organisations.
21531	An individual	4b. Support for Community Groups & Organisations	there should be no duplication ie the council should not be funding organisations when it already provides that service.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on those groups and organisations which can demonstrate the greatest impact on overall priorities. The review will consider duplication in community groups and organisations.
21532	An individual	4b. Support for Community Groups & Organisations	You spend too much on supporting groups that simply talk and don't deliver.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21533	An individual	4b. Support for Community Groups & Organisations	Support should continue where the work of external groups help achieve Council goals and objectives.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21534	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary groups provide a massive impact for little cost. Reconsider.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21535	An individual	4b. Support for Community Groups & Organisations	Some groups support very vulnerable sections of society. Care needs to be taken to ensure that these groups retain funding.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21536	An individual	4b. Support for Community Groups & Organisations	Should only be supported if they can justify the impact they are having	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21537	An individual	4b. Support for Community Groups & Organisations	It is important that the councils support to community groups and voluntary groups is given a lot of consideration, as many of these groups do fantastic work that would cost the council substantially more to provide itself.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21538	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	More attention is needed to support existing clubs that offer the services the Council is stopping not starting up new ones.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. Support will be focused on those groups and organisations which can demonstrate the greatest impact on overall priorities. The review will consider duplication in community groups and organisations.
21539	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	[REDACTED] has been part funded by West Lothian Council to provide a range of early intervention services for children, young people and families who are experiencing difficulties and challenges as a result of divorce, separation and family break up e.g. family mediation, parenting apart workshops, child contact, for many years. The focus of our work is family relationships and improving the quality of lives for children. We receive match funding from the Scottish Government, Lottery and other trusts. The profile of the families who use our services has changed over the years and we are now providing a service for families experiencing greater challenges e.g. alcohol abuse, mental health issues, low income, child protection and domestic abuse. We are seeing an increasing demand for our services. The contribution from the council is much appreciated and means that families can continue to access services in Livingston and Whitburn. We appreciate that the council has difficult decisions to make and appreciate being consulted and kept in the loop,	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21540	An individual	4b. Support for Community Groups & Organisations	How would this be decided? Who gets to decide and how can favouritism be avoided?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21541	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	voluntary groups should only be funded if it supports the delivery of the councils outcomes.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21542	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	the number of organisations receiving funding should be reduced and the funding should be over a two/three year period to help support development of the voluntary organisations.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21543	An individual	4b. Support for Community Groups & Organisations	As with all consideration of community group support, the additional costs to deal with what happens when you remove it needs to be guesstimated and considered. This can be difficult if the budget holder saving the money initially is not the budget holder that will have to step in and clean up the mess or fill hole in provision.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21544	An individual	4b. Support for Community Groups & Organisations	There is no indication how many of these groups or what they currently provide so difficult to establish the impact of their removal or reduction. What is a priority?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21545	An individual	4b. Support for Community Groups & Organisations	Community groups and organisations whose raison d'A*tre is to increase local prosperity and commercial viability should be supported.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21546	An individual	4b. Support for Community Groups & Organisations	Cultural' community groups should be encouraged to find their own income from user contribution.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21547	An individual	4b. Support for Community Groups & Organisations	What are the priority areas? It is not possible to make comments without some details of the proposed changes.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21548	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Reducing funding will be counter productive and shift the burden rather than remove it	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21549	An individual	4b. Support for Community Groups & Organisations	Again these changes should be made in ALL areas, why should the public be penalised in areas where the community work hard at making it work.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Consideration of proposed changes will cover all areas of service provision.
21550	An individual	4b. Support for Community Groups & Organisations	I worked for a charity that had funding from WLC which was pulled and it doesn't provide that service anymore	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21551	An individual	4b. Support for Community Groups & Organisations	Are twinning links with e.g. Texas sustainable given budget pressures? Before funding community groups can a needs assessment be done to make sure money is needed?	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21552	An individual	4b. Support for Community Groups & Organisations	Unavoidably, I would understand reduced financial support from the council, however I would hope that ways of assisting groups in becoming more self-sufficient would be looked at.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. This is a positive suggestion. Officers will consider how this could be developed.
21553	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	as long as services remain in place that's the most important thing.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21554	An individual	4b. Support for Community Groups & Organisations	the council should look to work more with the voluntary sector and use it to benefit west lothian. the voluntary sector and community groups provide better value for money (albeit sparse and unstable) for getting things done. providing support to these groups sometimes stabilises them and can guide them to deliver improvements in their community. another way the council could potentially leaver in funding which is not accessible to local authorities is create a greenspace charity similar to fife coast and countryside trust and use this organisation to leaver in funds and carry out works which may be too cumbersome for the local authority.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21555	An individual	4b. Support for Community Groups & Organisations	Community groups are important in all area poor area have lots funding from government sadly resources aren't used as efficiently as they could be	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Financial contributions and support will also increasingly require to be better targeted.
21556	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Reducing funding to voluntary community groups and organisations is something that is acceptable in such times, they will likely find funding from elsewhere so possibly will not be a loss to the community.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21557	An individual	4b. Support for Community Groups & Organisations	To woolly the statement on priority areas. Who's priority the community or the council. The voluntary groups and organisations should have to be voted on via a public online consultation using the new digital agenda.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The specific approach to determining future financial contributions and support will be developed as part of the work on this proposal.
21558	An individual	4b. Support for Community Groups & Organisations	funding for groups should be based on results and where they can meet the councils goals i.e community health inisitatives. social groups and learning initiatives.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21559	An individual	4b. Support for Community Groups & Organisations	Would worry who chooses what is best to support and what is best effective. Obviously these groups were chosen for support in the first place, what has changed?	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The specific approach to determining future financial contributions and support will be developed as part of the work on this proposal and will be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21560	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Some of these organisations coordinate collaborative working across key sectors such as tourism which generates significant economic impact and supports hundreds of businesses. Each organisation should be judged on its own merit and council resource should be maintained where an organisation has the capacity to support businesses to generate revenue eg. business tourism.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21561	An individual	4b. Support for Community Groups & Organisations	Communities need to do things for themselves stop wasting money on things such as funds for groups to have a Christmas lunch.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21562	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	WLC should NOT be supporting voluntary groups - if it is a required service, WLC should provide it, otherwise let the organisations sink or swim based on the demand for their services...private industry can show support for these initiatives through sponsorship and partnership working.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21563	No Response	4b. Support for Community Groups & Organisations	Voluntary sector has an important role to play. Please deal with area sensitively and cut backs to a minimum.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21564	An individual	4b. Support for Community Groups & Organisations	The council needs to review the support it gives to 'so called' voluntary organisations and consider what these organisations deliver of benefit to local communities.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21565	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	This is also acceptable - these user groups will have to try to obtain alternative sources of funding which may be available - unfortunately not an option that is available to the council! They can't obtain alternative sources of funding	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21566	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	shame to lose support for community groups who engage with the residents	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21567	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agreed that this is not a priority when times are hard.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21568	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The council increasingly relies on community groups to help add value to community green spaces for example. These groups are capable of attracting substantial sums of external funding into their areas. Focussing on removing the modest contribution that the council gives to supporting such groups may be a false economy and not in the public interest.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.

21569	An individual	4b. Support for Community Groups & Organisations	You need to state your "priority areas" before I can support this strategy.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Priority areas will be confirmed following the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21570	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Make sure the right vol orgs are supported	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21571	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agree that funding is to be reviewed, however Key areas such as development officers etc should remain in order to help grow sport.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21572	An individual	4b. Support for Community Groups & Organisations	There needs to be reviews on these groups due to the fact that there are many who have other support and for others who are in rural communities need more support due to non existing services in their area.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21573	An individual	4b. Support for Community Groups & Organisations	This work could be vital to some groups/communities. It is important to support local initiatives.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21574	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	There is a need to streamline areas and groups which are not providing best value. Many groups provide similar functions to that of the council and this needs to be looked at.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Priority areas will be confirmed following the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21575	An individual	4b. Support for Community Groups & Organisations	As above, support this saving because the council cannot continue to deliver on everything. I'm sure if these groups wish to continue they will find funding from somewhere	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21576	An individual	4b. Support for Community Groups & Organisations	Voluntary groups need funding	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21577	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Disagree - to promote the ethos encapsulated in the Community Empowerment Act - community groups should be better funded.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21578	An individual	4b. Support for Community Groups & Organisations	Voluntary groups need to be encouraged and supported. Your low priority is another's high priority and vice versa. Therefore the council should actively support all groups, perhaps in a lesser way.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Priority areas will be confirmed following the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21579	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	This makes sense, as long as a proper evaluation is done to decide which are most effective.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assessments will be made on a case by case basis.
21580	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	cut back funding to them all	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21581	An individual	4b. Support for Community Groups & Organisations	Who decides what is a non-priority area? By focusing on child/youth services I worry that older people will be denied services that support physical and social activities that have been shown to help in "keeping them well" and therefore reducing their need for council's statutory services. e.g. Put Your West Foot Forward	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support and consideration of negative and consequential impacts from removing support.
21582	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Perhaps voluntary organisations could have access to local amenities such as church halls and kitchens, or even local businesses, so the contributions would not be "financial" as such.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support.
21583	An individual	4b. Support for Community Groups & Organisations	Voluntary groups and organisations often need the partnership financial aid for survival. How is this removal of support to be assessed?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21584	An individual	4b. Support for Community Groups & Organisations	If an alternative program exists that is more effective then yes I can see the argument for cutting funding from a less effective service but ONLY if those funding cuts get passed onto the more effective provider.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21585	An individual	4b. Support for Community Groups & Organisations	Agree, although support to playgroups is a must if the council is to meet its commitment to supporting Early Years.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21586	An individual	4b. Support for Community Groups & Organisations	As part of a community group planning to access this funding, I'm largely against this.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21587	An individual	4b. Support for Community Groups & Organisations	Youth groups should be funded or they will end up on the streets drinking and causing graffiti	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of consequential impacts from any changes to support for community groups and organisations.
21588	An individual	4b. Support for Community Groups & Organisations	There are scores of well meaning and vital support groups which I think is great but realistically, not all can be funded. It is about the selection process and how you deem one service over another.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21589	An individual	4b. Support for Community Groups & Organisations	I am absolutely opposed to any cuts to grants to LYPP and other groups in Linlithgow. £600,000 over the whole of West Lothian over 5 years is a very small saving for what is in many instances a useful/essential voluntary service supported by a small Council grant.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21590	An individual	4b. Support for Community Groups & Organisations	Support to community groups has to be dependant on their contribution to services across WL	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21591	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I feel we have too many groups that are not attended well and needs reviewed and prioritised.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21592	An individual	4b. Support for Community Groups & Organisations	I work for a community group and we never get any financial support from the council it's always the larger companies.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21593	An individual	4b. Support for Community Groups & Organisations	without your support these groups will disappear	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21594	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Broadly supportive. Funding to priority areas could be reviewed or include the professional support requirement within the funding model, permitting removal of the support team from council requirements.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, the scale and type of support offered will be reviewed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21595	An individual	4b. Support for Community Groups & Organisations	The council should seek to offer non-financial support to community groups and organisations where possible, for example free use of facilities/ venues. Facilities/ venues should be consolidated around making the better use of multi-purpose facilities (including schools).	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, the scale and type of support offered will be reviewed and this will include non-financial support.
21596	An individual	4b. Support for Community Groups & Organisations	I am concerned by the move from preventative work to crisis management in all areas of vulnerability. It will eventually backfire and increase crisis incidents.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of preventative measures.
21597	No Response	4b. Support for Community Groups & Organisations	funding to community groups etc is vital to maintain a vibrant and healthy community	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21598	An individual	4b. Support for Community Groups & Organisations	While I think these groups and organisations do help the community if there is not enough money to support them I agree it should be cut.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21599	An individual	4b. Support for Community Groups & Organisations	I believe that the third sector is an integral part in supporting the council to provide the variety of services to meet the requirements of the people of West Lothian.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21600	An individual	4b. Support for Community Groups & Organisations	Why has this not been done before now?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Financial contributions to community groups and organisations are currently reviewed annually at a minimum. Given future budget constraints it is now proposed that the scale and type of support offered (including non-financial support) will be reviewed on a case by case basis.
21601	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	In the past the council has provided funding for these groups based little more on historical payments or because the groups put pressure on elected members. We need to make sure every penny the council spends is on council priorities and I would doubt that these groups do this in the main. I would suspect that most of the funding from the council goes on paying for their officials rather than delivering services to people who need it.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	These matters will be considered in the development of the proposal.
21602	An individual	4b. Support for Community Groups & Organisations	Too many grants are given out to too many organisations. This should be considered as a priority. Some groups overlap yet get individual grants.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The review will consider duplication in community groups and organisations.
21603	An individual	4b. Support for Community Groups & Organisations	Just words without substance. Presumably such voluntary community groups and organisations will know that the Council means them? It is surprising that such groups are under attack as they are surely the ones that the Scottish Government are determined should carry Scotland forward in the coming years	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area and the council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21604	No Response	4b. Support for Community Groups & Organisations	In the financial scheme of things, Â£600K is not a huge amount of saving. Weigh this up with the mental and moral support that many of these groups get from the small financial contribution each one gets across the whole county , I am not sure what benefit WLC will get. Not sure what is meant by 'priority' areas but I am sure each group would be able to justify their priority.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21605	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Priority would depend on interest. What is a priority for me may not be for my neighbour. I think that the community should decide not those who work in an office many of which don't live in the area	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21606	An individual	4b. Support for Community Groups & Organisations	rather than remove the service, can it be paid for by those who use it?	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21607	An individual	4b. Support for Community Groups & Organisations	All priorities must be maintained outwith the proposed savings.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21608	No Response	4b. Support for Community Groups & Organisations	To date WLC contracts have donated >Â£6,000 to the west Lothian food bank. Contracts could be used to continue with support to these organisations. Organisations have submitted their wish list to procurement to allow us to secure the most needy community benefits, we could change the support from definitive financial support to their wish list support.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
21609	An individual	4b. Support for Community Groups & Organisations	As long as this is not a withdrawal with nothing being put in lace. This would leave people more vulnerable	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21610	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agree with the focus on priority areas, there needs to be transparent process for what is delivered with this money and a process for the removal of grants for a lack of performance.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21611	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The Council should complete an exercise to assess the impact these services are making within their communities before ending funding.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21612	An individual	4b. Support for Community Groups & Organisations	Keep money for Youth and Childrens club	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21613	An individual	4b. Support for Community Groups & Organisations	Please keep support of Youth and childrens clubs	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21614	An individual	4b. Support for Community Groups & Organisations	Many other organisations and charities have large potential funding streams. They need to become better at developing themselves as the council is no long in a position to fund them. Especially in areas where the Council has a similar and often superior in house set up.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Assisting community groups and organisations to become self-sufficient is a focus of the council's work. The proposed review would consider duplication in community groups and organisations and council provision.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21615	An individual	4b. Support for Community Groups & Organisations	This will stop many essential community groups from being able to provide their services. These groups are mostly run by volunteers who are already doing all they can to survive.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The proposed review would consider the negative and consequential impacts from removing support.
21616	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Only organisations with viable business plans should be supported. No more councillors pet projects	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21617	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Councillor's disbursement should be monitored/ reviewed, many councillors might all give to the one group, there should be a limit.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The guidelines for operation of the Disbursement Fund require a report of expenditure to be submitted to the Council Executive every six months. For a disbursement to come within the guidelines for the scheme there should be some evidence in the application of a benefit to the community. It is the intention that, going forward, any support to community groups and organisations will be focused on the priority areas identified the Transforming Your Council consultation. This comment will be considered in the development of the proposal.
21618	An individual	4b. Support for Community Groups & Organisations	Support for community groups and organisations. We say, £600,000 is a pitifully small saving for what is in many instances a voluntary service supported by a small Council grant. I am absolutely opposed to any cuts to grants to LYPP and other groups in Linlithgow.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area.
21619	An individual	4b. Support for Community Groups & Organisations	Funding changes should be phased in over a period of time with plenty of time for the organisation to plan for the change - no "Brexit Type cliff edge"!	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21620	An individual	4b. Support for Community Groups & Organisations	With the other cuts that you propose it is vital that community groups are supported by the council.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21621	An individual	4b. Support for Community Groups & Organisations	The council should detail exactly what groups will no longer supported. Otherwise this is waffle.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The proposed review would inform officer recommendations on the extent of financial and other support for any given group/organisation, which, in turn, would require the approval of elected members.
21622	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	What will the method be of deciding what's a priority	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21623	An individual	4b. Support for Community Groups & Organisations	The council needs to rationalise community regeneration activities which fail to have a positive impact on communities.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21624	An individual	4b. Support for Community Groups & Organisations	I agree that the council should reduce funding to voluntary groups who do not support priority areas	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21625	An individual	4b. Support for Community Groups & Organisations	If a local group cannot be sustained through its own membership and covenant then funding should be withdrawn as the council should not be subsidising groups that do not benefit the wider community. Instead funding should be put in to those items being cut under 4a.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21626	An individual	4b. Support for Community Groups & Organisations	Again, like sport, funding to community projects or groups should not be withdraw totally but carefully examined as these volunteer centres rely heavily on council funding and the community benefits from.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The proposed review would consider the negative and consequential impacts from removing support.
21627	An individual	4b. Support for Community Groups & Organisations	I agree, the volunteers oils approach local business for financial support instead	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Supporting organisations and groups to secure external funding will also be a feature of on-going support.
21628	An individual	4b. Support for Community Groups & Organisations	I would expect that the council currently routinely reviews the voluntary community groups they support and do not be spend money where it is either not needed or is ineffective. If they have identified that they are spending Â£120,000 per year needlessly then this is a positive.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Financial contributions to community groups and organisations are currently reviewed annually at a minimum. Given future budget constraints it is now proposed that the scale and type of support offered (including non-financial support) will be reviewed on a case by case basis.
21629	An individual	4b. Support for Community Groups & Organisations	My daughter attends 2 clubs that receive funding in this way. She attends each club for 2 hours every fortnight. These clubs are a lifeline for her and us. She is supported with council staff and any reduction in this area would have a negative impact on her and us.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21630	An individual	4b. Support for Community Groups & Organisations	Voluntary organisations such as the CAB provide an invaluable service to the community in WL & I would not like to see such services disappear.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21631	An individual	4b. Support for Community Groups & Organisations	There should still be funding available for community initiatives.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21632	An individual	4b. Support for Community Groups & Organisations	Carers of West Lothian provide an excellent service as well as Signpost for special needs children.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21633	An individual	4b. Support for Community Groups & Organisations	You should be investing money into encouraging and harnessing the power of community groups rather than making any cuts in this area. So many people with time, talents and ideas. Bring this together, co-ordinate and encourage and reap the benefits.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21634	An individual	4b. Support for Community Groups & Organisations	As a volunteer with Girlguiding I have mixed feelings about this one although we operate in an area that does not receive a huge amount of financial assistance and are still able to provide a quality enjoyable service.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
21635	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Galadary and pensioner grants should be stopped. We should charge all community / not for profit organisations who run events accordingly. For example road closures, advertisements of orders, licenses etc. There should be a blanket charge for all events. If organisers cannot meet these costs license fees/ closures / traffic management etc that are required for the event to be ran safely then the event should not happen. The Safety Advisory group should be consulted for details on safety requirements for all events. These charges will generate income to cover any associated costs of provide events advice and support.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
21636	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Whilst I think that financial support to voluntary community groups and organisations providing some sort of support service is vital I think things like money for gala days is unnecessary.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21637	An individual	4b. Support for Community Groups & Organisations	Third sector/voluntary organisations should be supported to become less dependent on council funding. Encouraged to look for other financial support and become more financially sustainable without council support.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Supporting organisations and groups to secure external funding will be a feature of on-going support.
21638	An individual	4b. Support for Community Groups & Organisations	Many of these services cannot fund themselves and are already carrying out work which should really be the responsibility of the council and may revert back if the groups fold. Again care needs to be taken. Minor cuts may save some money, massive ones may not.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The proposed review would consider the negative and consequential impacts from removing support.
21639	An individual	4b. Support for Community Groups & Organisations	West Lothian provides very little support to vol orgs / wrong people doing it or none at all the council is slowly losing contact with communities cdt's - not representative of communities	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21640	An individual	4b. Support for Community Groups & Organisations	I feel that community organisations have been incredibly important to my life and development and it would be a deep shame to have them be scaled back, we should focus on promoting them rather than silencing them.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21641	An individual	4b. Support for Community Groups & Organisations	Can these groups get funding from elsewhere - private sector? Advertising? Depend on the group but they need to review their on costs.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Many community groups and organisations receive funding from non-council organisations. Supporting organisations and groups to secure external funding will be a feature of on-going support.
21642	An individual	4b. Support for Community Groups & Organisations	Think carefully before doing this. These groups save you money and effort by doing your job for you. The funding you provide is a small but vital part of keeping them going and if you stop they may have to close giving you back the work that you should be doing - but it will cost you more.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The proposed review would consider the negative and consequential impacts from removing support.
21643	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I agree that WLC currently have good partnerships in place with vol orgs, however I think these need better monitoring. Also, when funds are withdrawn the replacement service needs to be in a position to take over quickly. WLDAS had money withdrawn earlier this year and I am unsure if YIP has started to provide this service yet.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The proposed review would consider the negative and consequential impacts from removing support, and the extent/type of monitoring required going forward in any given case.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21644	An individual	4b. Support for Community Groups & Organisations	Target funding to group that only support Councils priorities.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21645	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Does the Council intend reviewing their funding to the voluntary groups on a regular basis to ensure that what is not initially seen as a priority can be reconsidered at a later date.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21646	An individual	4b. Support for Community Groups & Organisations	Monitoring & management of grants/funding is essential to ensure fairness. Funding should be awarded on a needs basis & not merely 'continued' year on year. Groups, many of which are registered as charities, should not be given funding if they have very large reserves in bank accounts.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
21647	An individual	4b. Support for Community Groups & Organisations	The priority should be towards sustainability and resilience in these groups. Any transition period to funding and support being withdrawn must ensure that the provision will not falter.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Assisting community groups and organisations to become self-sufficient is a focus of the council's work.
21648	An individual	4b. Support for Community Groups & Organisations	The council should be concentrating on providing and financing the core services to meet its statutory requirements. If this means that funding to community groups and organisations is reduced or removed then, whilst unfortunate, it is a decision that should be taken.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21649	An individual	4b. Support for Community Groups & Organisations	Ok if you mean no funding for political or non-inclusive groups - i.e. no funding for orange walks etc	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21650	An individual	4b. Support for Community Groups & Organisations	Identify groups who need funding more	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	As a result of the proposed review officers may recommend increasing, decreasing or maintaining the level of funding and support for any given group or organisation.
21651	An individual	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assisting community groups and organisations to become self-sufficient is a focus of the council's work.
21652	An individual	4b. Support for Community Groups & Organisations	These groups need council support	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assisting community groups and organisations to become self-sufficient is a focus of the council's work.

21653	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assisting community groups and organisations to become self-sufficient is a focus of the council's work.
21654	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding or government funded.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assisting community groups and organisations to become self-sufficient is a focus of the council's work.
21655	An individual	4b. Support for Community Groups & Organisations	Some groups need to look for funding elsewhere, but council needs to be seriously prioritised.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Many community groups and organisations receive funding from non-council organisations.
21656	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agree, some groups have been funded for years whilst others get nothing. The ones that keep getting funding have no incentive to fund raise themselves. It's not a fair process	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
21657	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	there will always be groups that should be supported some more than others depending on your own circumstances	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21658	An individual	4b. Support for Community Groups & Organisations	Many of these groups support, educate and are key to the health and well being of the most vulnerable in our society. Schools, the NHS and our social care services also rely on these groups to support in areas where they can no longer provide resources. Again, cuts here will have impacts in other areas already overstretched.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21659	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	you did this before...if you remove from voluntary organisation then the people will rely more on the council	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21660	An individual	4b. Support for Community Groups & Organisations	Lots of retired people have skills which could be utilised to help raise funds for some causes .	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21661	An individual	4b. Support for Community Groups & Organisations	If funding is cut un poorer areas of west lothian there would be nothing at all for the kids to do which already has very little.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

Transforming Your Council Consultation 2017

21662	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Service level agreements should be reviewed. However, the voluntary sector provides the missing links in community. Services that are specialised and are not provided through mainstream funding are often delivered via the voluntary sector. For example, the work done by organisations supporting victims of childhood sexual abuse and promoting awareness cannot be done by other organisations. This is a specialised service and the impact of losing funding for specialist counselling and play therapy for affected children will have a long-term impact on quality of life. Such organisations can be a lifeline to people in the community where local authority do not have the time or resources to assist. I do not believe that this is a good idea. Cut taxis to non-placement schools instead.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
21663	An individual	4b. Support for Community Groups & Organisations	Focus on priority areas is to be supported. However can you transition this process so that other areas are not suddenly cut off and in that transition explore partnership or delivery through community groups and organisations.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21664	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	4b It is sad to stop supporting our community groups but if they are not delivering key priorities, then this should stop.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21665	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Some of these groups have operated for years without any form of outcome based measurement. Too much political involvement at local levels.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21666	An individual	4b. Support for Community Groups & Organisations	It is essential that funding is reviewed on a need basis to organisations / groups.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21667	An individual	4b. Support for Community Groups & Organisations	As someone who has recently started an [REDACTED] receiving funds from WLC's Community Arts Grant was important to help us cover our initial start-up costs. Therefore, I am slightly concerned about what "financial contributions to these groups would be reviewed to focus on priority areas, meaning the removal of support for non-priority areas" really means....would this affect grants to the orchestra and future start-up groups across west Lothian council? The biggest expense has been hiring a rehearsal space, with WLC school's being too expensive due to the demographics of our group being adults rather than children (and ultimately receiving a reduced rate). WLC should review it's costs of hiring space to community groups as other privately run clubs/organisations are getting money for hiring spaces that WLC could have been getting had they been more competitively priced.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21668	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Groups that help people with Autism etc and still very much needed for the children/adults with condition and their carers	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21669	An individual	4b. Support for Community Groups & Organisations	Without voluntary groups, there is no community. Voluntary groups provide many services, or contribute to council outcomes, through support via West Lothian Council. Removal or reduction of support may lead to more intensive and expensive service delivery by West Lothian Council e.g. community litter picks vs increased service delivery by operational services. An assessment should be undertaken of the impact of various funding streams and those grants and staff providing maximum impact against West Lothian Council outcomes should be retained.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Potential impacts, risks and opportunities will be assessed and given further consideration as work on this proposal progresses.
21670	An individual	4b. Support for Community Groups & Organisations	Hopefully a consultation with the groups involved will be undertaken before funding I'd removed completely	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.

Transforming Your Council Consultation 2017

21671	An individual	4b. Support for Community Groups & Organisations	The service the council provides to the local west Lothian swimming clubs is critical, not only does this keep our children active but builds relationships, keeps the children focused and competitive. This also keeps our children off the streets and teaches discipline. Please Please do not close our local swimming clubs. Fauldhouse Penguins	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21672	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	If West Lothian Council were to make a nominal investment in this area to maximise the potential of the increased footfall then this could be harnessed and reinvested towards the council's other priorities. This would also encourage businesses to invest and expand bringing benefit to the economy, jobs and quality of life. Tourism contributes directly to 5 of the council's 8 objectives including the employment position, quality of life, minimising poverty, positive outcomes on health, and the built and natural environment. Visit West Lothian is passionate about continuing to work towards delivering these objectives. Our tourism sector proves an important and diverse part of the economy which has demonstrated positive growth. Having a strong tourism sector adds to the quality of life in West Lothian with assets such as country parks, pathways and a range of attractions, all of which appeal to families and make West Lothian a desirable location to relocate to or remain in.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21673	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Please ensure that groups who are funded are contributing to the council priorities and delivering measured outcomes.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21674	An individual	4b. Support for Community Groups & Organisations	Most of these groups only exist because the government and council are failing to provide what people need so the least the council can do is help them out a bit. Unbelievable.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21675	An individual	4b. Support for Community Groups & Organisations	It will be important to consider the overall viability of such groups in the context of reduced funding.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21676	An individual	4b. Support for Community Groups & Organisations	I would be concerned that given there have already been significant cuts to voluntary community groups, organisations that delivery care and support, even for what appear to be non-priority areas, will close.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21677	An individual	4b. Support for Community Groups & Organisations	Voluntary groups such as scouts etc provide important services for communities and need to be funded through grants	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21678	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Don't know too much about this area but.....I know of a situation where an organisation was given a very large amount of money to assist with a building improvement: that organisation had thousands in the bank and could easily meet the cost. This type of scenario is possibly replicated throughout the county: suggestion being that should such grants be available, real need is to be demonstrated and evidenced. Management Committees of Community Centres: should any remain, explore feasibility of them paying a % of their income to WLC to cover staff costs and eg stationary. Many of them have over £30,000 in their accounts.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21679	An individual	4b. Support for Community Groups & Organisations	All voluntary groups should be encouraged	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21680	No Response	4b. Support for Community Groups & Organisations	Voluntary groups should be responsible for generating their own funding and pressure should be put on central government to support them.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21681	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	So, why were galadays given an extra boost last year?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21682	An individual	4b. Support for Community Groups & Organisations	3rd Sector reduction in funding is easy target but no value is given to the overall service to the community Often if funding is given by the local authority it is match funded by other organisations and if the funding is taken away it is a double blow resulted in the organisation folding altogether Again impact studies should be undertaken so as the true value can then be identified.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21683	An individual	4b. Support for Community Groups & Organisations	contentious area, more and more councils are relying on community volunteering to provide local services, you must be able to support these. It's difficult enough getting volunteers never mind demoralising current volunteers to the extent they give up	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21684	An individual	4b. Support for Community Groups & Organisations	I know voluntary organisations do a lot of good work in the community but there are a lot of them and sometimes wonder how helpful some of them are, so would tend to agree that money provided by the council needs to be prioritised.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21685	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	what criteria will be used to determine which areas are a priority? Some proposals suggest communities taking a greater role in delivering or maintaining services traditionally delivered by the council. who will build the communities capacity to take on these roles?	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21686	An individual	4b. Support for Community Groups & Organisations	Prioritise! Start with drug and alcohol abuse funding	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21692	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	4B) Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21693	An individual	4b. Support for Community Groups & Organisations	make sure that the groups & organisations are using the funding correctly and not just having a big party	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21694	No Response	4b. Support for Community Groups & Organisations	4B) Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21695	An individual	4b. Support for Community Groups & Organisations	I agree. Most groups will be eligible for SCN status and can apply for grants this way.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21696	An individual	4b. Support for Community Groups & Organisations	Volunteers in all manner of areas within West Lothian are currently providing a free service and giving their time. If, through lack of a small amount of financial support, these voluntary groups and organisations were to discontinue, it would be disastrous.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21697	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I fully support this measure - it is vital a fundamental review is carried out of all support provided to the voluntary sector with a focus on how provision contributes to outcomes.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21698	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	The 3rd sector provides valuable support to a variety of people throughout West Lothian and support from the council helps organisations like ours achieve this. Voluntary groups are adept at engaging and working with vulnerable and underserved sections of our communities, and also adapt and reorganise themselves quickly and efficiently to deal with new challenges that communities face. This can often be done far faster than larger council teams. We are always looking for ways to improve our services, meet gaps in services and bring in additional money from other sources to help fund this work. We work in partnership with Council teams and other voluntary organisations to achieve this. Last year we brought in additional funding of £225,000. Many other voluntary organisations also bring in much needed and welcomed extra funding. It would be hard to lever in this additional funding without the ongoing support of the Council. In our case the additional funding allowed to enhance the services we provide in many ways, including running activities such as cooking groups for our clients, support people in recovery back into volunteering, education/ training and paid employment. It also allowed us to provide a dedicated bereavement service for young people between 12 and 18 who had experienced sudden loss. We are and want to effective and efficient partners and would welcome ways to work with council and other voluntary organisations to help reduce overhead costs and share our expertise and resources and may be able to get some savings by joining together to purchase resources or services such as payroll, Information Technology and Human Resource functions.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21699	An individual	4b. Support for Community Groups & Organisations	Community and voluntary groups leverage Council Funding to have a larger impact - this will disappear without Council support.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21700	An individual	4b. Support for Community Groups & Organisations	Voluntary community groups often provide community services which the council used to provide. They are saving the council a lot of money. Their financial provision should not be cut	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21701	An individual	4b. Support for Community Groups & Organisations	Some voluntary groups have already stopped receiving funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Each year, as part of the budget setting process, the Council agrees which organisations will receive funding and which will not.
21702	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	West Lothian's Voluntary Sector plays a strategic role in delivering services that WLC are unable or inadequately placed to provide. WLC and Third Sector partnership, planning and investment enable the voluntary sector to provide quality, affordable and cost-effective services, training, work experience and community development where it is needed. Like many Voluntary Sector organisations, [REDACTED] use core WLC investment to lever in additional Trust/ Foundation and activity-generated income (currently an additional £1.40p for every WLC £1.00p invested). Over a 5-year period this amounts to a total £700,000 of extra funding for West Lothian Communities generated by our organisation alone. Meanwhile our working model is flexible and financially accountable; [REDACTED] provide quality services, training and work-experience and employment, while our youth arts programming is nationally recognised as exemplary and ground-breaking. In the current economic crisis, it is essential for WLC and the Third Sector to work together to: Protect and maximise this vital investment capacity. Audit effectively the added-value, social change and community impact of Voluntary Sector services. Ensure that vulnerable people from all West Lothian areas have the support they need to overcome social and economic barriers to health, education, training and employment.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comments have been noted. The council will continue to support community groups and organisations, in particular those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21703	An individual	4b. Support for Community Groups & Organisations	Don't underestimate the contribution made by voluntary organisations. Need to look carefully and engage to see what they provide, what facilities they have which might help the Council fulfil its obligations, and how relationships can be further developed.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comments have been noted. The council will continue to support community groups and organisations, in particular those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21704	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Some community groups e.g. Guides and Scouts are self funding. Others should look at how they do this and not expect support from councils.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21705	An individual	4b. Support for Community Groups & Organisations	Agree with review. Groups must be able to demonstrate the value they add and the impact they have on the people who use their services. They should not continue to receive funding just because they always have.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21706	An individual	4b. Support for Community Groups & Organisations	I am an athlete who competes for Great Britain at [REDACTED] and without the support of the Active West Lothian Scholarship pass I would struggle to afford to train and compete at the highest level	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comments have been noted. The council will continue to support community groups and organisations, in particular those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21707	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Agreed. Undesirable but necessary. Assistance will still be required to support vulnerable groups.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted. The council will continue to support community groups and organisations, in particular those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21708	An individual	4b. Support for Community Groups & Organisations	I believe this saving could be made elsewhere. Are there really organisations being funded in non-priority areas??	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21709	An individual	4b. Support for Community Groups & Organisations	Reviewing old arrangements with these groups is positive. Removing photocopier provision from them in future would save some money.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

21710	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I can see the logic there but how will these staff members be protected.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.
21711	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	If we focus on priorities it almost seems as if another service, job will be removed.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Consideration would be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21712	An individual	4b. Support for Community Groups & Organisations	Would be difficult to assess which groups and areas are not a priority as members of these groups will obviously consider themselves priority. Take local community groups away could lead to further youth crime within west Lothian.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21713	An individual	4b. Support for Community Groups & Organisations	West Lothian's Third Sector is actually a net generator of income to West Lothian. Investment from West Lothian Council is often used to leverage in other monies, which is unique to the Third Sector and delivers added value to our public pound. This additional income for West Lothian's communities and its people is, however, often dependant on the stability of Council's core investment.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21714	An individual	4b. Support for Community Groups & Organisations	Some support must be available	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21715	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	The Third Sector is a generator of income to West Lothian. Investment from West Lothian Council is often used to leverage in other monies, which is unique to the Third Sector and it delivers significant added value to our public pound. This additional income for West Lothian's communities and its people is, however, often dependant on the stability of Council's core investment. Simply play is a perfect example of this. Initial investment by Council enabled this social enterprise to develop and grow to the point where it is now self-sufficient, employs over 70 staff and enables working families to be economically active, bringing Millions of pounds of earnings into West Lothian every year.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21716	An individual	4b. Support for Community Groups & Organisations	Not acceptable - this is how local communities plug the gaps in provision by the council. This will dis-incentivise community groups and volunteer who are actually upholding many of the priorities the council is claiming. So counter to most of the council stated priorities.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comments have been noted. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation.
21717	An individual	4b. Support for Community Groups & Organisations	How can you regenerate with no funds? Taking away money and people working will end up degeneration not regeneration.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21718	An individual	4b. Support for Community Groups & Organisations	Don't agree, need support for comm group orgs to get funding	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21719	An individual	4b. Support for Community Groups & Organisations	Linlithgow would probably manage without support but many poorer communities might not. Can you encourage businesses, entrepreneurs to contribute more?	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Consideration would be given to partnership opportunities across all sectors as part of the work to develop this proposal.

21720	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Has to be assessed on "need" rather than "want"	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21721	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21722	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Broxburn Family Centre is a net generator of income to West Lothian. Investment from West Lothian Council has been essential to leverage in other monies, which is unique to the Third Sector and it has delivered significant added value to our public pound. This additional income for our communities and its people has, however, been dependant on the stability of Council's core investment. It has also provided a strong foundation for Broxburn Family Centre to be enterprising and the organisation generates significant amounts of additional income for the area through targeted fees, contracts and agreements. Over the last 2 years, Council funding for all of Broxburn Family Centre's work was only 42% of income. Over £219k (20%) was able to be levered into the community/project, through charitable grants and nearly £380k (38%) was generated income. Council's investment was key to facilitating this additional income generation, as it provided a secure base to build upon and was also used as match funding and/or demonstrated a trust & commitment to other potential funders. Simply Play is a perfect example of this. Initial investment by West Lothian Council enabled Broxburn Family Centre to grow and develop this social enterprise to the point where it is now self-sufficient and enabling working families to be economically active, enabling Millions of pounds of earnings to be brought into West Lothian every year. Broxburn Family Centre has established itself as a key Third Sector strategic partner in West Lothian. It has a valued role representing the sector on the CPP Children and Families Strategic Planning Group, Early Intervention and Prevention Working Group, was instrumental in designing and delivering West Lothian's Play Strategy and Action Plan, is Chair of West Lothian's Third Sector Strategy Group, was workstream lead on the CPP's integrated Children's Services Plan, and lead the highly successful Supporting Families Public Social Partnership. All of this adds value to West Lothian and considerably strengthens its partnership working.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21723	An individual	4b. Support for Community Groups & Organisations	Reducing support directly to community groups and organisations at a time when council services are also being reduced does not seem logical. These community groups very often rely on grant funding and arms length support from the relevant council teams to deliver the very services to the public which the council no longer can. For instance the sporting grants scheme awards community sports clubs and organisations funding to carry out a plethora of activities, train valuable volunteers, support talented athletes and improve facilities which all contribute to making West Lothian a stronger more well equipped place for people to take part in sport within clubs.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21724	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary services provide a gap in mainstream services at times this should be acknowledged and could possibly be expanded.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21725	An individual	4b. Support for Community Groups & Organisations	It's vital we maintain the music provision in West Lothian as mentioned and in line with increasing levels of obesity we must look after our sports too.	Support for Community Groups & Organisations - council contributions	4. The council is already doing this.	Thank you for your response. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

21726	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Supportive in principle based on limited detailed information, but important that consultation and engagement is undertaken with the array of groups and internal teams that deliver support, so that there is full appreciation and transparency in decision making and implications.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Consideration would be given to appropriate consultation methods as part of the work to develop this proposal. Officer recommendations on any financial/other support provided to groups and organisations will require the approval of elected members.
21727	An individual	4b. Support for Community Groups & Organisations	This will have a major impact on voluntary youth clubs etc but these are not legally mandatory services and fundraising will have to become the norm if they are to survive	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21728	An individual	4b. Support for Community Groups & Organisations	Don't remove the funding for these groups - they deliver so much to the community and without council funding a lot of them will close with long term effects felt in the communities.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21729	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	SLAs are mutually beneficial arrangements for both WLC and the non-statutory organisation which deliver the services which have been delegated to them, ensuring that organisations with the necessary skills, knowledge and experience are involved in continuing to meet the needs of local communities.	Support for Community Groups & Organisations - council contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21730	An individual	4b. Support for Community Groups & Organisations	I think rather than seeing this area as cost saving you should invest to help support community groups to deliver added value for you. They can probably do so much more to help meet outcomes for people. It seems short sighted to cut costs here when they could add so much more value if you approached this differently and saw it as spending to save.	Support for Community Groups & Organisations - council contributions	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21731	An individual	4b. Support for Community Groups & Organisations	What are the non-priority areas? If you told me I could actually comment on it	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21732	An individual	4b. Support for Community Groups & Organisations	Continue funding as these groups are free from council politics	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21733	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	These should be self-supporting and not funded from the authority. Feel strongly that most have their own agendas and not always the priorities of the Council.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21734	An individual	4b. Support for Community Groups & Organisations	MOST of this funding should be reduced and parents pay, that way they will choose what is best for the child, and the child will get more from the activity as they will be going as they want to go	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21735	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Funding to voluntary groups and organisations has already been severely cut back over recent years. As a result groups have already had to review the way in which they deliver their services. Inevitably more cuts now will result in services having to be abandoned.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21736	An individual	4b. Support for Community Groups & Organisations	Some voluntary groups provide fantastic value for money! Many provide services that WLC might otherwise need to provide. A few pounds in grants, coupled with a lot of voluntary effort, can result in very positive outcomes. Sometimes giving more financial support to the voluntary sector could improve things. For example, in Linlithgow, a small level of financial support for Burgh Beautiful has enabled them to provide services that were once provided by WLC at much higher cost.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21737	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	As above. sportscotland understands the important role that WLCs community grant programme has on the local sporting pathway. It is our understanding that many local sports development initiatives are in place through the Council's grant programme and the match funding it brings in from partner organisations.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21738	An individual	4b. Support for Community Groups & Organisations	If such groups deliver statutory functions all fine and well. However, if they purely deliver optional extras, perhaps the time is here to cut all support?	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21739	An individual	4b. Support for Community Groups & Organisations	3rd sector always get hit Impact studies should be being carried out as the value of the 3rd sector provision is so undervalued by the council many organisation in this sector go on to seek match funding from other sources resulting in a more comprehensive and holistic service being provided to West Lothian residents often when no other service can be accessed as there is none to meet that need they are there filling a gap and if funding is withdrawn then other sources cease as well and the organisation goes to the wall.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21740	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	██████████ would like to express our concern about the proposed reduction in support to Community Groups and Organisations. ██████████ is an informal affiliation of West Lothian's independent accredited museums ██████████ along with the Council's museum service, and other local museum interests. This partnership of equals serves to share information, promote mutual assistance and undertake joint projects. The group represents museum interests in the ongoing consultancy study Identifying options for a museum-based heritage service for West Lothian, supported by the Council and by Museums Galleries Scotland). The accredited museums in the ██████████ currently deliver services on behalf of the Council under a SLA. This arrangement has allowed the independent museums to work in partnership with the council museums service to deliver museum provision across the West Lothian area. Responses submitted by individual members will have made clear the fundamental importance of heritage, local identity and sense of place to many Council agenda. Museums, their collections, and the knowledge and local pride associated with them, provide a unique and tangible link to the past, and a route to engage current and future generations in an appreciation of West Lothian's story and unique identity. The activities of the ██████████ and particularly its role in the current study, are testimony to a shared commitment to grow and develop activities and services, and to extend opportunities for community engagement. The Council's continuing support of West Lothian's museum is essential to such progress. The ██████████ also notes the proposal that the council's financial contributions to voluntary organisation will be reviewed to focus on priority areas. We would like to take this opportunity to stress the contributions made by our collective members in delivering on several of the council's key priorities. In West Lothian museums have traditionally been aligned to Protecting the built and natural environment Building strong, sustainable communities and protecting the local environment, however, the impact of museums is much wider. The members of the ██████████ also deliver against the following priorities: Delivering positive outcomes and early intervention for early years. Supporting children and young people to get the best possible start in life. <input type="checkbox"/> Improving the employment position in West Lothian Supporting business and economic growth in West Lothian and helping people into employment. Improving attainment and positive destinations for school children. Improving the	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21741	An individual	4b. Support for Community Groups & Organisations	Many voluntary community groups and organisations are already struggling. Those in the most deprived areas that do not have strong boards/management committees who have the relevant skills to fundraise, or draw in appropriate support outwith the council will suffer the most. This will impact negatively on communities. Whilst the more established groups will take advantage of the best community asset transfer opportunities and will prosper.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>

21742	An individual	4b. Support for Community Groups & Organisations	Contributions towards third sector organisations should be reduced and they should be working towards other funding streams.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. This will include continuing to work with groups and organisations to explore alternative funding streams.
21743	An individual	4b. Support for Community Groups & Organisations	Spend less on council run "fun" events.	Support for Community Groups & Organisations - council contributions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21744	An individual	4b. Support for Community Groups & Organisations	Should be scrapped altogether. Some groups give the council support directly to charity. Council should be closely monitoring where the money is spent.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21745	An individual	4b. Support for Community Groups & Organisations	Quite a lot of funding to community groups and organisations is unnecessary - they can obtain extra funding from increased membership fees.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21746	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	support for community groups where it states removal of support for non priority areas - how will this be assessed?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21747	An individual	4b. Support for Community Groups & Organisations	Removal of support to voluntary groups/organisations - does this mean community centres? Priority areas are constantly changing.	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21748	An individual	4b. Support for Community Groups & Organisations	What does this really mean for community groups and organisations, affect will be greater because of changes in 1e.	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21749	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	What will be the criteria and process for cutting funding?	Support for Community Groups & Organisations - council contributions	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21750	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	To most effectively deploy available resources the Sector is seeking a full and transparent strategic review of funding to all organisations in receipt of grants, as many of these appear to be historic and may not be aligned to current priorities. We would like to see clearly: The total budget, Where and how it is spent, What are the outcomes to be achieved, The performance from recipients on those outcomes. We also request that there be due process and appropriate timescales for any reduction or removal of funding.	Support for Community Groups & Organisations - council contributions	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21751	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Both the Scottish Government and West Lothian Council has committed at a strategic level to supporting an Enterprising Third Sector. We would urge the Council to continue its investment in supporting, enabling and encouraging Third Sector organisations to work on a social enterprise business model so that they can generate more of their own income and be less reliant on Council grants. The transition from traditional Third Sector charitable or community group to a social enterprise is challenging and requires ongoing support. However, continued investment in growing an Enterprising Third Sector will result in longer term savings and more sustainable service delivery. Value for Money - WLSSEN supports the recent improvements to monitoring and evaluation of Third Sector organisations that receive an element of funding from council. We believe that Third Sector organisations, particularly those working on a social enterprise model, actually add value to budgets by attracting external fundin, re-investing surplus profit in communities and delivering social and environmental benefits along with essential services. We would urge Council to fully consider this added value as additional income to the budget that might help negate some of the savings required. Working Together on Efficiencies - We would like the Third Sector to have honest and transparent dialogue with West Lothian Council to work in partnership and help identify where and how efficiencies could be made over the next 5 years while protecting the most vulnerable people in our community. WLSSEN has a strong and productive relationship with Council and the relationship between the Third Sector and Council has much improved over the last few years. We would like to see continued mutual respect and partnership working as a means to reviewing service delivery and identifying opportunities for financial efficiencies and joint service design/co-production. We would also like a commitment to further improve the value of social benefit in procureent, with increased weighting on social benefit clauses and co-design of such clauses to ensure real added local value to contracts. Long Teerm Savings - While we fully appreciate the challenging financial climate that Council is working in, we are concerned that savings in the short to medium trm may result in more costly services being needed in the longer term. For example: early intervention services being reduced will inevitably result in the need for more costly interventions at crisis stage in the long run. Targeting Local Need - Social enterprises and Third Secto organisations are steeped in local communities and WLSSEN would like to see much better consultation and participation that will result in priorities	Support for Community Groups & Organisations - council contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21752	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Funding should be reviewed however how is "non-priority" defined, this could be an area for consultation.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21753	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	A dedicated funding officer to locate funding and help community groups/council access and apply for this funding including arts, sports, community, parks, active travel and other community based projects - this does not help with revenue but could help secure increased capital funding for set up and continued growth of community projects, groups and initiatives.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Assisting community groups and organisations to become self sufficient is a focus of the council's work. This includes supporting organisations and groups to secure external funding. But it is important to ensure that the revenue consequences of any projects are fully understood and affordable going forward.
21754	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Some of these groups perform a significant service and disbanding them would be detrimental. an example of this would be the food train.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21755	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	I am not convinced this saving would ultimately save us money long term as the secondary effects could bring costs in other ways	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Recognising possible 'secondary' impacts will be a feature of this assessment.

21756	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	SUPPORT TO COMMUNITY GROUPS AT PRESENT IS A DISGRACE Wrong skillset and lack of guidance has meant that the council is slowly losing contact and trust with active community groups. Time to get the right people into doing better and more appropriate community work	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. The review will also consider the team which delivers support to groups to ensure that it is appropriately skilled and focused in terms of delivering support.
21757	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	This would seem a sensible approach, although the value that volunteers can bring to a service or to a community cannot be underestimated.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21758	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	How can one comment until we know what groups are considered less worthy than others.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21759	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agree, but this will be difficult in practice as all of these groups provide much needed services. Have to ensure overlaps are targeted.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The review will consider duplication in community groups and organisations.
21760	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The focus should be based on necessity.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21761	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Any decision to reduce or cut funding to community organisations must consider what impact this will have on jobs in the third sector. Time must be given to organisations to allow them to find and secure alternative sources of funding to continue to deliver their services.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Recognising possible 'secondary' impacts, including job losses will be a feature of this assessment. Supporting organisations and groups to secure external funding will also be a feature of on-going support.
21762	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The team that supports community and third sector organisations works to build capacity in communities, enabling communities to be more self sufficient. It is counter productive to remove that support.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. The review will also consider the team which delivers support to groups to ensure that it is appropriately skilled and focused in terms of delivering support.
21763	An individual	4b. Support for Community Groups & Organisations	what does this mean? this statement is not clear at all. do you mean council assistance with gala days? Christmas lights ? so called 'cultural' marches?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Funding of all community groups and organisations will be reviewed. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21764	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The council needs to be able to say no to councillors and community groups demanding these services.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. The council will be unable to support organisations and groups which cannot demonstrate the highest impact on meeting agreed council priorities.

21798	An individual	4b. Support for Community Groups & Organisations	Given a reliance on partnerships for some services these cuts will require serious consideration given that the proposal may have significant impact which may make organisations unviable resulting in potential greater loss of services should there be closures. A full risk benefit analysis would be required to ensure there were no unintended consequences of these proposed cuts.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support and consideration of negative and consequential impacts from removing support.
21799	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Need to carefully balance what non-priority areas are. Preventative and self management focussed initiatives should still be seen as priorities.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Priority areas will be confirmed following the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21800	An individual	4b. Support for Community Groups & Organisations	This needs modernised and assessed effectively. Partnership working with the voluntary sector is essential. An independent researcher who assesses, reviews and inputs into achieved outcomes would make the system more transparent and effective.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will explore opportunities to work in partnership to deliver the priorities emerging from the consultation. Working with the voluntary sector will be a feature of these considerations.
21801	An individual	4b. Support for Community Groups & Organisations	Consideration needs to be given to the broader impacts of these reductions, especially on the most vulnerable	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support and consideration of negative and consequential impacts from removing support.
21802	An individual	4b. Support for Community Groups & Organisations	Again I cannot see how you will be able to cope with combining areas when often over subscribed already.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Assessments will be made on a case by case basis.
21803	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	This might be counter-productive. With the Council reducing spending it is these groups that you need to pick up the slack. You might find that investing in helping these groups with accommodation and 'enablement funding' would be a better use of your cash.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. This will include consideration of alternative forms of support and consideration of negative and consequential impacts from removing support.
21804	An individual	4b. Support for Community Groups & Organisations	This should be a chance to ensure councillors pet projects are cut.	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21805	An individual	4b. Support for Community Groups & Organisations	Many years ago I read a paper which estimated that the Council would be about Â£300,000 worse off if they dispensed with volunteers and paid staff. You cannot underestimate the role of the voluntary sector.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

21806	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	<p>mission is to preserve and interpret the history and environment of West Lothian and make this heritage accessible, engaging and enjoyed by all. We welcome over 130,000 visitors to our museum each year, and employ over 50 staff at the height of the tourist season. We believe that an appreciation of local heritage the legacy of our journeys through time - contributes much to community well-being, helping to shape local identities and create a sense of place. A respect and understanding of local heritage contributes towards many of the Council's key priorities; it can inspire and intrigue from a very early age, and provide a subject for reflection and celebration later in life. Heritage, in its many forms, contributes significantly to the perception of West Lothian as a great place to live, to work and to visit. Imaginatively interpreted, heritage supports employment and provides considerable economic benefit through tourism. We believe that there is significant opportunity to add value to the Council's support of heritage provision by eliminating internal obstacles to collaboration and overlaps of interest, and through developing new styles of service. We see particular opportunities for sharing knowledge and promoting collaboration through the imaginative use of digital technologies. We envision a new approach to heritage provision in which skills and knowledge are shared within a broad community of interests, and the impact of the core service funded through council support is magnified many times through volunteer participation and through supporting and empowering communities in the exploration and celebration of their heritage. Almond Valley is keen to work with the Council in developing and delivering a modern county-wide heritage service, and has been instrumental in securing grant support towards the ongoing consultancy study "Exploring options for a museum-based heritage service for West Lothian", which is also being supported by the Council. This is due to report back before the end of the year. We have also recently secured major grant investment to extend the scope and reach of our digital services. We look forward to an enhanced partnership with the Council in which Almond Valley's unique experience can be most effectively applied to deliver progressive, enterprising and user-focused heritage services for the people of West Lothian. Our capacity to make such advances, or to maintain current museum activities, is dependent on the continued employment of our small core of professional museum staff, made possible through our service level agreement with the Council.</p>	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation does not propose removing support from any specific organisation or geographical area. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21807	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Better use of volunteers to help provide services to the community.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will explore opportunities to work in partnership to deliver the priorities emerging from the consultation. Working with the voluntary sector will be a feature of these considerations.
21808	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What are the priority areas and who decides what they are? Removal of support - in what way, financial, employees, buildings and/or a combination of each or all of these. What are the alternative programmes and who and what makes them effective? How many employees and / or volunteers will be affected by this saving and in what way?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21809	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	We need these. Social isolation is bad for people's emotional well being and mental health.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21810	An individual	4b. Support for Community Groups & Organisations	Voluntary groups provide vital services and prevent further statutory costs. They should be supported fully, including their core costs.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21811	An individual	4b. Support for Community Groups & Organisations	As a member of a voluntary group that runs Ecclesmachan Village Hall on behalf of the council without council funding I am in full agreement that this is possible. The problem will be getting others to do what we have done. I have to say that the advice from officers within this department has been invaluable so hope there will still be someone that we can call on when needs arise.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21812	No Response	4b. Support for Community Groups & Organisations	These groups and organisations will no longer require your support if you remove the services and facilities they depend upon to exist - win win for the council!	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21813	An individual	4b. Support for Community Groups & Organisations	Bite the hand that feeds you. Clearly not measured the value that voluntary community groups already provide. Why not support them more to work in partnerships to meet problems together. Backward step.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21814	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Having worked with the Vennie I still dont understand why this organisation does not have access or can event manage mosswood cec.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21815	An individual	4b. Support for Community Groups & Organisations	More sponsored funding would help,...	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look at the option to secure funding through sponsorship and other means of increasing income.
21816	An individual	4b. Support for Community Groups & Organisations	Need more information of what you don't support anymore. These can be key things to the community.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21817	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	A must have service for the community. Without it you will destroy any hope of getting the country back respecting society and repairing the damage caused by the Conservative Government.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21818	An individual	4b. Support for Community Groups & Organisations	100% DISAGREE The 3rd sector already receives 'petty cash' support. The return on investment is huge.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21819	An individual	4b. Support for Community Groups & Organisations	moving services around, or asking people to travel to a different place, less convenient for them in order to consolidate groups only means that people will stop going. it's a slow death you are proposing for so many great activities in our communities. Cannot support this.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21820	No Response	4b. Support for Community Groups & Organisations	Perhaps council tax payers can decide which organisations they want to see receiving help	Support for Community Groups & Organisations (general)	4. The council is already doing this.	The Transforming Your Council consultation provides the opportunity for council tax payers to influence the council's spending priorities in the future.
21821	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Yes, less groups should mean less support required. Not all groups would require support so SPOC may be appropriate.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21822	An individual	4b. Support for Community Groups & Organisations	depends what what is "non-priority" who makes that call?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The Transforming Your Council consultation provides the opportunity for residents, community groups and other stakeholders to influence the council's spending priorities in the future.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21823	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	If council staffing is to be reduced in services that currently engage with community groups and organisations, they would be hit doubly as hard with a reduction or cessation of financial support from the council. If anything, I feel that more should be provided to these groups to try and offset the affect of reduced direct council staff support.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21824	An individual	4b. Support for Community Groups & Organisations	So who would determine who receives backing and who doesnt as most of these groups do wonderful work	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The proposed review would inform officer recommendations on the extent of financial and other support for any given group/organisation, which, in turn, would require the approval of elected members.
21825	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Whilst agreeing with proposal, it is important that prioritisation must ensure that those most vulnerable groups are least affected.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21826	An individual	4b. Support for Community Groups & Organisations	Volunteering is the future but does not come at zero cost. Be careful not to eat the seed corn.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21827	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Will the Council support the voluntary sector enough?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21828	An individual	4b. Support for Community Groups & Organisations	Partnerships can be very strong and beneficial, often bringing added value in terms of expertise and income through grants and foundations. My experience in this sector is that the hardest thing to fund from charitable grants is the core running costs (including staffing.) To have these met by the Council allows a strong organisation to attract additional funders for projects etc By 'the team which delivers support to these groups' do you mean 'Voluntary Sector Gateway'? And what do you mean my reviewed? Thank you.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposal is to undertake a review of financial and non-financial support provided by the council. The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The proposed review would inform officer recommendations on the extent of financial and other support for any given group/organisation, which, in turn, would require the approval of elected members.
21829	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agreed to focus on the ones that are priority areas however it should be noted that if the service can be provided elsewhere there is often not sufficient capacity within that service to cope with the demand and particularly in the area of Early intervention additional providers have been required and used and over subscribed.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21830	An individual	4b. Support for Community Groups & Organisations	Please remember that creative interventions in childhood and in later years REDUCES peoples need for social and health services. Retain arts budgets for excluded youth, intergenerational and older people projects in their communities. Improving obesity, rehabilitation, loneliness, dementia, mental health issues, social justice can all be achieved with access to activity that encourages people to be creative.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21831	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	There are some non-priority groups however I feel that funding should remain for children within villages for community groups and organisations. Particularly in areas that are deprived.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Financial contributions and support will increasingly require to be better targeted and aligned to council priorities.

21832	An individual	4b. Support for Community Groups & Organisations	So more cuts to the sector that is already picking up many of the things that the Council previously jettisoned? These groups and organisations are being taken advantage off and their goodwill abused.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21833	An individual	4b. Support for Community Groups & Organisations	I would agree in the priority being given to the most needy areas but by saving from the non priority areas you should surely be investing that or part of that saving into the priority areas.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21834	An individual	4b. Support for Community Groups & Organisations	still need to support groups who are invigerating aspects of local communities	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21835	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Voluntary work by the staff that run the West Lothian schools band schemes give up there time to help the young to achieve their very best and they do this because they love their jobs and want everyone to be valued	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21836	An individual	4b. Support for Community Groups & Organisations	These clubs provide children with a wealth of opportunities and keeps kids off the streets eg on Friday afternoons. What is a non-priority area?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21837	An individual	4b. Support for Community Groups & Organisations	A review is quite reasonable but this statement gives the public no opportunity to comment on the outcome of such an exercise.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21838	An individual	4b. Support for Community Groups & Organisations	Cominity groups should be self financing.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21839	An individual	4b. Support for Community Groups & Organisations	Cutting down any of these groups would be a massive mistake to make. I am currently involved in the West Lothian Wind Ensemble and itâ€™s is a fantastic thing that the council should be proud of and should give more attention to.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21840	An individual	4b. Support for Community Groups & Organisations	This is regrettable. Building community capacity is within the gift of the council and should be increased as an offset to other major cuts to services delivered.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21841	An individual	4b. Support for Community Groups & Organisations	Answered above and don't believe there will be suitable alternatives on offer.	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21842	An individual	4b. Support for Community Groups & Organisations	i want to keep my childrens and youth clubs open. its lots of fun.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21843	An individual	4b. Support for Community Groups & Organisations	Youth community projects should be retained	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21844	An individual	4b. Support for Community Groups & Organisations	Maybe some of these groups could join together to do the same work and use the revised support.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21845	No Response	4b. Support for Community Groups & Organisations	As previously stated if the council improved the use of facilities and staff would save time in the long run	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21846	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Can these groups get funding elsewhere ie grants etc? 'Priority areas' are difficult to define. Again, investing for the future and not just short term results is very important.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Many community groups and organisations receive funding from non-council organisations. Supporting organisations and groups to secure external funding will be a feature of on-going support.
21847	No Response	4b. Support for Community Groups & Organisations	Voluntary groups should volunteer their own cash.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21848	An individual	4b. Support for Community Groups & Organisations	I think Community services are an important part of life and provide all ages groups with opportunities to integrate and share experience. I feel these services should be given priority .	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21849	An individual	4b. Support for Community Groups & Organisations	I believe this being looked at in isolation is very dangerous and misses out on overall opportunities for true process re-design as currently the total money going into this sector is not looked at holistically and is not treated in an equal fashion. This is a real opportunity as detailed earlier to lead the way and break down silos and old ways of working and look at the overall budget going into the 3rd Sector for the benefit of the whole community. The money spent assessing effectiveness of this overall spend should also be looked at. Even the title of this section diminishes the value some of the organisations in this area contribute to overall strategic aims. There are opportunities for council staff to support this sector to bring in this amount of money and more as we are under funded in real terms compared to other councils by external funding providers. We may not need to save this money as we could generate it in other ways and ultimately save the council more than planned.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
21850	An individual	4b. Support for Community Groups & Organisations	It is to be hoped that any adjustments do not undermine the viability of such voluntary groups as these contribute a great deal to the social fabric of the area.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision.
21851	An individual	4b. Support for Community Groups & Organisations	How do you define a priority - who makes that decision?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21852	An individual	4b. Support for Community Groups & Organisations	Justifiable and staff reduction?	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21853	An individual	4b. Support for Community Groups & Organisations	Wrong headed	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21854	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Agreed The general principle should be that support should be laser targeted on groups and areas where there is demonstrable need - particularly to support regeneration and anti poverty work and where the services or projects being delivered can demonstrate impact and best value.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21855	An individual	4b. Support for Community Groups & Organisations	Again, it would be smart to increase collaboration and service provision but seek alternative options for funding this. I do not support this strategy as it stands.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21856	An individual	4b. Support for Community Groups & Organisations	All groups should be developed to achieve self sufficiency. Speculate now to accumulate savings in the future	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Assisting community groups and organisations to become self-sufficient is a focus of the council's work.

21857	An individual	4b. Support for Community Groups & Organisations	Cut councillors / MSP pay to shore up giving back to communities!	Support for Community Groups & Organisations (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Councillor and MSP salaries are set out by legislation.
21858	An individual	4b. Support for Community Groups & Organisations	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21859	An individual	4b. Support for Community Groups & Organisations	Oh dear, more job losses?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The review will also consider the team which delivers support to groups to ensure that it is appropriately skilled and focused in terms of delivering support.
21860	An individual	4b. Support for Community Groups & Organisations	Not exactly sure of the implications of this - but if the Council's actions force the closure of "voluntary community groups" - this may well have significant negative impacts on both attitude towards WLC and on local communities within WLC catchment area	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The proposed review would consider the negative and consequential impacts from removing support.
21861	An individual	4b. Support for Community Groups & Organisations	Don't know enough about this to comment, what groups/organisations are you referring to?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	All community groups and organisations in receipt of funding and support from the council.
21862	An individual	4b. Support for Community Groups & Organisations	If it can be done better at a lower cost, then go for it.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21863	An individual	4b. Support for Community Groups & Organisations	West Lothian's Voluntary sector plays a strategic role in delivering services that the Council are unable or inadequately placed to provide. Council and Third Sector partnership, planning and investment enable the voluntary sector to provide quality, affordable and cost-effective services, training, work experience and community development where it is needed. Like many Voluntary sector organisations, [REDACTED] uses core WLC investment to lever in additional Trust/ Foundation investment and activity-generated income (currently an additional Â£1.40 for every WLC Â£1 invested). Over a 5-year period this amounts to a total Â£700,000 extra funding for West Lothian Communities generated by our organisation alone. meanwhile our working model is flexible and financially accountable. We provide quality services, training and work-experience and employment. Our youth arts programming is nationally recognised as exemplary and ground-breaking. In the current economic crisis, it is essential for WLC and Third Sector to work together to : Protect and maximise this vital investment capacity; Audit effectively the added-value, social change and community impact of Voluntary Sector services. Ensure that vulnerable people from all West Lothian areas have the support they need to overcome social and economic barriers to health, education, training and employment.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21864	An individual	4b. Support for Community Groups & Organisations	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Support for Community Groups & Organisations (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
21865	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary organisations may cease to operate.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed review would consider the negative and consequential impacts from removing support.
21866	No Response	4b. Support for Community Groups & Organisations	Again can't comment as there is not enough information above e.g. what voluntary groups/organisations. There would need to be care here, as you could put off volunteers from being involved. Everyone's time is precious these days. So there would have to be some care and consideration made here with any decision.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21867	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	who decides what is priority?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21868	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Again an area which could be impacted perhaps especially if the demand isn't high but the effect making a difference.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21869	An individual	4b. Support for Community Groups & Organisations	Voluntary sector services are preferable to those where services are provided by business at profit	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21870	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	For such a small sum of money cuts here can be disproportionately damaging	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21871	An individual	4b. Support for Community Groups & Organisations	This is a mistake - such small amount of saving and it will increase crisis and burden on the council - I do not agree with this proposal.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21872	An individual	4b. Support for Community Groups & Organisations	Again, I don't disagree with this although it is sad that community groups will suffer and have to attempt to find funding elsewhere.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21873	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Not sure what non-priority means... but I guess this has to be done.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21874	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	community groups are a vital part of the authority but efficiencies may be there to be made.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21875	An individual	4b. Support for Community Groups & Organisations	Voluntary groups are difficult to organise. Trying to find people to go on committees is difficult and usually the reason why groups fold. I have found that most people who volunteer just want to do something which has no responsibility attached to it. People have enough responsibility in everyday life. Were the Council to use volunteers, perhaps you should bear this in mind.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21876	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	We shouldn't under estimate how much our community clubs and organisations do for our communities and citizens.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21877	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	What are priority areas? What are non-priority areas? Who decides? How decided? What alternative programmes are there? How will their effectiveness be determined? Does the review of the team simply mean staff reduction? Once again, no actual information has been provided to allow any useful comment.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21878	An individual	4b. Support for Community Groups & Organisations	Agree with a review of support for voluntary groups, particularly where there is duplicate provision. However, key organisations such as Citizen's Advice and WELDAS should be protected. As stated before, the council gets a high return on investment from many organisations, and this should be considered when reviewing funding. The Citizen's Advice service is going to be particularly beneficial with the start of Universal Credit.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21879	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Care should be taken with this as many of these groups may provide a good service at very low costs that enhance the life of children and others and the community.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

21880	An individual	4b. Support for Community Groups & Organisations	Beware blunting the enthusiasm of local groups	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21881	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Over the past eight years West Lothian's visitor economy has seen strong growth with an increase in the sector's economic impact from Â£142.82m in 2009 to Â£171.17m in 2016. This growth has been supported by the increasing profile of Visit West Lothian. Figures show that since 2009 West Lothian attractions have worked hard to invest and expand, creating new jobs and employing more staff. The number of visitor attractions in the locality has grown and these new businesses alongside existing venues continue to report increased visitor numbers year on year. Lead attractions including Five Sisters Zoo, Almond Valley Heritage Centre, Hopetoun House and % Linlithgow Palace report a combined increase of 38%. In addition, Almond Valley and Five Sisters Zoo have both reached the prestigious top 20 paid Scottish attractions category in recent years.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21882	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	The development of a higher profile events programme with Party at the Palace, Spectacular Jousting in Linlithgow and the Illuminations at Five Sisters Zoo brings additional spend to West Lothian. This is supported by smaller events hosted all year round and delivered by volunteers which all contribute to raising the profile of West Lothian as a vibrant and creative destination. VisitScotland estimate that Film Tourism brings significant economic impact to Scotland and West Lothian is seeing strong growth in this area. There has been increased demand from production companies wanting to use the breadth of properties and landscapes in the locality. This often leads to a growth in visitor numbers to these sites. In particular 'Outlander' filming locations including Linlithgow Palace and Blackness Castle report visitor number increases between 2017/18 of 47% and 18%. Due to demand this has led to these venues extending opening hours and days which has had a direct positive impact on jobs. Film locations are particularly popular with international visitors which are the highest spenders at an average of Â£79 per overnight stay. The filming of drama's such as 'Outlaw King' at Linlithgow Palace this year and the release of the Mary, Queen of Scots film in 2018 offers West Lothian further opportunities to capitalise on the film tourism market. This is putting West Lothian on a worldwide stage as never before.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
21883	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Not a worthwhile exercise for the costs to be saved.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21884	An individual	4b. Support for Community Groups & Organisations	You should have said what the priority areas were, and given examples of non-priority bodies who would lose out. The general principle is OK, but the language is again too opaque.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21885	An individual	4b. Support for Community Groups & Organisations	I would agree in principal but I do not want those who are financially in need to miss out on any opportunities	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21886	An individual	4b. Support for Community Groups & Organisations	Again please make sure there are alternatives with capacity to cover the new gaps	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21887	An individual	4b. Support for Community Groups & Organisations	a better use of facilities would improve services and save money	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
21888	An individual	4b. Support for Community Groups & Organisations	Some of those council services that are deemed to have the greatest impact, actually rely on the services of the voluntary sector to have that impact. The voluntary sector isn't simply a face value cost - it actually draws on the goodwill, time, effort, skills and passion of members of the public who give freely of their time for the benefit of others - many of whom will be directly affected by funding cuts across the different areas described.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

21889	No Response	4b. Support for Community Groups & Organisations	in agreement, only prioritize essential community groups such as dealing with the environment and other related priority organisations.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21890	An individual	4b. Support for Community Groups & Organisations	leave our youth groups and things that are used and focus on the one's which don't get used even once	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21891	No Response	4b. Support for Community Groups & Organisations	How would these priorities be decided? There are groups whose primary purpose may not fall into these categories but whose work will have a consequential impact and this should be reflected in any assessment.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
21892	No Response	4b. Support for Community Groups & Organisations	Voluntary and community groups often help support elements of the population that would otherwise become a cost to the council. These can be a lifeline to some of the most vulnerable members of society and can become a measure that prevents further service requirements. How are these priority areas being evaluated and is the opportunity cost being fully assessed prior to any funding cuts?	Support for Community Groups & Organisations (general)	4. The council is already doing this.	Consideration would be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21893	An individual	4b. Support for Community Groups & Organisations	I would like to see a published framework for deciding which groups will be supported and which not.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21894	An individual	4b. Support for Community Groups & Organisations	Agree. We are a wealthy enough society to support these groups ourselves, with fundraising etc. But do not touch those groups that help people in need.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21895	No Response	4b. Support for Community Groups & Organisations	This could have a negative impact on these groups who may be unable to find alternative funding and may have to cease valuable work.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Consideration would be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21896	An individual	4b. Support for Community Groups & Organisations	rationalisation and streamlining needed here.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21897	An individual	4b. Support for Community Groups & Organisations	The funding in this area is crucial, and all are priority areas in this regard. Community groups of all types, community wings facilities, they are so important to improving qualities of life for many. You cut back here, the effect will be felt in higher costs elsewhere that you haven't foresaw, I reckon. If the council spend less, the community need supported to take on things themselves.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
21898	No Response	4b. Support for Community Groups & Organisations	Activities undertaken in 'priority areas' needs to be robustly analysed and review to ensure maximum impact for money spent. We all recognise that certain areas are in need of support more than other but often in 'high priority areas' years of projects and groups and initiatives have come and gone and largely made no difference. Whilst I appreciate that there will always be priority areas, I feel that continually supporting these areas to no avail by removing the already limited support that non-priority areas get (and are often more grateful of) will work only to unintentionally widen the divide between 'priority' and 'non-priority' areas. I would suggest that, if money spent on measures in priority areas is making little real and robust difference, that the Council try lessening the divide by concentrating resources on communities as a whole, so perhaps spending in 'non-priority' areas is just as important to support the priority areas as well.	Support for Community Groups & Organisations (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Consideration will be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21899	An individual	4b. Support for Community Groups & Organisations	Need to consult on what ar priority and non priority areas. Art and music are priorities.	Support for Community Groups & Organisations (general)	4. The council is already doing this.	The council consulted with the community, partners and stakeholders on the priorities in 2012 as part of the Delivering Better Outcomes consultation and again in 2017 as part of the Transforming Your Council consultation.
21900	No Response	4b. Support for Community Groups & Organisations	Council should consult as what priority areas are.	Support for Community Groups & Organisations (general)	4. The council is already doing this.	The council consulted with the community, partners and stakeholders on the priorities in 2012 as part of the Delivering Better Outcomes consultation and again in 2017 as part of the Transforming Your Council consultation.
21901	No Response	4b. Support for Community Groups & Organisations	If a review is necessary - so be it	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21902	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	There is increasing reliance on using voluntary services over a range of services yet this is an area where there have already been cuts. I agree however that it is importance to have an up to date overview of how voluntary services are used to ensure best value. West Lothian Museums Forum has already initiated a review of the provision of heritage services.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21903	An individual	4b. Support for Community Groups & Organisations	What are these non priority areas? Support to disabled children and their carers should definitely be a priority!	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21904	An individual	4b. Support for Community Groups & Organisations	Community groups that give positive destinations for young people in evenings should be encouraged.	Support for Community Groups & Organisations (general)	4. The council is already doing this.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21905	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The community empowerment act gives rights to community groups to become more involved in service delivery and take on assets. The council has also said that it wants to transfer assets to community groups. In order for this to work effectively these groups will need to be supported and so I do not agree that officer resource should be reduced. I agree that when giving financial resource to community groups there should be more robust reporting of outcomes and impact	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed review will also consider the team which delivers support to groups to ensure that it is appropriately skilled and focused in terms of delivering support. These comments will be considered in the development of the proposal.
21906	An individual	4b. Support for Community Groups & Organisations	Fund on an as needs basis and not to cash rich groups	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
21907	An individual	4b. Support for Community Groups & Organisations	Our voluntary sector provides much need services I don't think there should be further cuts here	Support for Community Groups & Organisations (general)	2. 21917	No Response	4b. Support for Community Groups & Organisations	Please make sure mental health community groups are protected.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community events and will work with groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those events which can demonstrate the greatest impact on the overall priorities.
21918	An individual	4b. Support for Community Groups & Organisations	Focus on more disadvantaged communities	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21919	An individual	4b. Support for Community Groups & Organisations	This would be a very short sighted decision as the investment in these partnerships pays dividends within the communities the Council services for a fraction of the investment that it might end up costing as the communities are deprived. Social return on investment should be considered before removal!	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21920	An individual	4b. Support for Community Groups & Organisations	Need to keep enough knowledge, skills and expertise to provide support to community organisations. Organisations in most deprived areas to be prioritised.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21921	An individual	4b. Support for Community Groups & Organisations	Each group should be assessed on its merits and the value of the service it delivers and if it assists any other council services at all.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21922	An individual	4b. Support for Community Groups & Organisations	Support should be aligned to Council priorities, with outcomes closely measured and repeat funding dependant upon demonstration of those outcomes.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21923	An individual	4b. Support for Community Groups & Organisations	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled. Particularly my comments above regarding the groups paying for the services/building costs. In particular, I'm sure many of the facilities could be transferred to the groups, who'd then have fiscal responsibility (opposed to the council retaining financial liability).	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21924	An individual	4b. Support for Community Groups & Organisations	Beware the law of unintended consequences, where you make savings on this but increase demand elsewhere - more kids on the street up to mischief, more isolation of older people and other vulnerable groups.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21925	An individual	4b. Support for Community Groups & Organisations	Support the most needy especially children.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21926	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	The public at large are rarely aware of a lot of voluntary community groups and organisations. These services could be better utilised by better publication either in Bulletin, engagement with our schools, emails to council staff or by social media.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21927	An individual	4b. Support for Community Groups & Organisations	Any recipients of council support should be able to demonstrate effectiveness. There should be a single 'pot of money' and a consistent method of evaluation and allocation.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

21928	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Unfortunately this should be considered. If support can be provided to groups to gain funding through other channels can this be provided	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21929	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	As a substantial recipient of the Voluntary sector fund, I understand the need for outcome delivery and value for money. The third sector contribute significantly to our community, very often providing services to the most vulnerable. I would welcome, as other members do, the opportunity to discuss potential cuts to the Voluntary sector budget. We all understand budget constraints, however, we request these reductions are done through open discussion. As stated previously in my response, the [REDACTED] are currently operating a fund raising strategy to build up financial resources through other means than Council grants. Well structured, commissioned pieces of work will produce outcome based results, at times more cost effectively than when provided by Council services but clear plans and agreements need to be in place. I would welcome support to generate external funding through external sources and to deliver services in partnership. We are also working to increase our income generation through Social Enterprise Initiatives. There are many opportunities to secure matched funding. If cuts are to be made to the Voluntary sector can open discussion and negotiation take place over a phased process in order not to lose services but to develop new opportunities. I don't want to find out about a potential cut to our service by reading it in a final budget paper in February/ March if possible, as happened to us a couple of years ago. This does not allow for redundancy processes to be put in place, feedback to clients or alternate funding for essential services to be sourced.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21930	An individual	4b. Support for Community Groups & Organisations	Many agencies within West Lothian are run and managed by volunteers, indeed the workings of the county would grind to a standstill without them. It would be reasonable to review the effectiveness of what they offer prior to offering financial support, but caution is urged.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21931	An individual	4b. Support for Community Groups & Organisations	Review is essential but the budget should be increased to provide more in communities for less and council facilities should be used more efficiently to support voluntary and community groups and form part of the support.	Support for Community Groups & Organisations (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted
21932	An individual	4b. Support for Community Groups & Organisations	Agree, however you do need to be very sure that said services are properly qualified as being non-priority and that the alternatives do indeed deliver. Some of the voluntary groups you will no longer support may close and you require to be sure that no receiver of service falls through a gap.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Consideration would be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
21933	An individual	4b. Support for Community Groups & Organisations	Some of these community groups are supporting essential parts of our community and I would hope that they will continue to be supported.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21934	An individual	4b. Support for Community Groups & Organisations	Let them raise more funds	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Supporting organisations and groups to secure external funding will also be a feature of on-going support.
21935	No Response	4b. Support for Community Groups & Organisations	STRONGLY DISAGREE. Community resilience is vital in this time of austerity.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21936	An individual	4b. Support for Community Groups & Organisations	Voluntary groups should be supported and encouraged. Eg. Groups which are taking over town gardening relieving the council of supplying and staffing this, not vital but, good for population morale.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21937	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	It is regrettable but not unexpected that further budget cuts are to affect West Lothian and whilst more time for real community engagement would have been welcomed, West Lothian Council has to be credited with making a genuine space for consultation, unlike other Local Authority areas where cuts are to be imposed without explanation or opportunity for challenge. The estimated £73 million budget gap follows on from a relentless and challenging ten-year period of streamlining services to balance the public purse. It is clear the scale of further challenge, whilst ensuring the most vulnerable have access to seamless support services at the point of need, will require all sectors to work effectively and efficiently together to maximise resources and attract other funding. Voluntary Sector Gateway West Lothian (VSGWL) has a role to play in facilitating organisations to leverage in additional funding from other sources. We are developing closer ties with funding bodies and will bring awareness of non-standard funding solutions to the sector. The Third Sector is a significant generator of income into West Lothian. Investment from West Lothian Council is often used to leverage other funding, which is unique to the Third Sector and delivers added value to our public pound. This additional income for West Lothian's communities and its people is, however, is often dependant on the stability of Council's core investment (Response from the Sector to the Consultation). Diminution of the investment from West Lothian Council will consequently reduce the ability of the Sector to attract other funding.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21938	An individual	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21939	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Voluntary Community groups should not be receiving financial help from WLC. If these groups are voluntary they should be self funding.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21940	No Response	4b. Support for Community Groups & Organisations	Work together, train together, result together. Keep the ones that work collaboratively, streamlining services and activities. Do not though underestimate the value of the voluntary sector. Many a life has been saved through work carried out by people who help because they actually care. A more collaborative business model would work thus giving the voluntary sector more security which would bring better outcomes. This approach would mean less needless monitoring as results would be being achieved together.	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21941	An individual	4b. Support for Community Groups & Organisations	This is positive but needs to be coupled with effective management of funding criterion and robust monitoring arrangements to ensure that the funding is not only being directed to appropriate outcomes but that those outcomes are being achieved	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21942	An individual	4b. Support for Community Groups & Organisations	This could perhaps be reviewed as a shared service with other authorities and partner organisations?	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Consideration would be given to partnership opportunities across all sectors as part of the work to develop this proposal.
21943	An individual	4b. Support for Community Groups & Organisations	It would have been beneficial if it was clearer which groups currently being supported would no longer receive this support. This comment applies to a lot of areas within this survey where the facts are not being stated but general words are used to disguise what is planned.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □

Transforming Your Council Consultation 2017

21944	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	A focus on early intervention and prevention is essential to avoid peoples' issues escalating and becoming crises. There are key issues around parenting, early childhood development and a widening attainment gap in schools that need the support of local community organisations to effectively address. Health & wellbeing should be a priority, especially mental health and physical health. Through working together we can continue to be an effective partner in addressing these issues. The [REDACTED] would like to maximise the opportunities for partnership working, in family learning, early years and play provision for our most vulnerable families. Across Armadale and Blackridge we have the expertise and relationships with local people and the wider community, to deliver best practice and reduce any opportunities for duplication, thus delivering best value for all. The [REDACTED] is a net generator of income to West Lothian. Investment from West Lothian Council has been essential to leverage in other monies, which is unique to the Third Sector and it has delivered significant added value to our public pound. This additional income for our communities and its people has, however, been dependant on the stability of Council's core investment. Council funding for our work in Mayfield (& Blackridge) last year was only 44% of the total costs. £70, 863 (56%) was able to be levered into the community/project, directly due to Council's investment, which was used as match funding and/or demonstrated a trust & commitment to other potential funders. We would like to see a balance between focussing on regeneration areas, like Mayfield and Armadale and priority thematic groups, as many people in poverty do not live in regeneration areas and in-work poverty is a huge issue. Will the Council work with us to ensure that people in need of support have access where and when they need it?	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21945	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage. This will have an impact on the equality forums that the council supports (through funding and officer support). The [REDACTED] currently benefits from the Equality and Diversity Grant Scheme and has used this funding to arrange multicultural community events which are important for community integration, increasing understanding of race and race equality and celebrating diversity in our communities. The events also support the council's Equality Duty to foster good relations in the community. If this funding was no longer available to apply to, the forum would need to apply for more competitive external funding.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	Equality Impact Assessments will be undertaken as deemed necessary through the Equality Relevance Assessment process.
21946	An individual	4b. Support for Community Groups & Organisations	As above comment. With these sort of savings it is doubtful if provision of more effective, flexible and affordable services can be provided.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
21947	An individual	4b. Support for Community Groups & Organisations	voluntary groups need to be rationalised so they're more cost effective	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21948	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Youth Clubs should be a priority Activities targeted at young woman should be prioritized as this will with assist in prevention of under age pregnancy associated with gangs	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
21949	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Again, there is no detail here - how have these savings been calculated? How does this fit with the intention to focus on community solutions and early intervention and prevention?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21950	An individual	4b. Support for Community Groups & Organisations	With a 20 year commitment to reduce the worst inequality this would be to the detriment of that aim.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21951	An individual	4b. Support for Community Groups & Organisations	More details required before I am able to make any meaningful comment. Hopefully, the above does not mean that the quality of service to those who need this is not reduced.	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
21952	An individual	4b. Support for Community Groups & Organisations	Cuts have already been made here and communities and voluntary organisations again picking up the pieces not fair, open, honest or accountable at all - WLC you can no longer pride yourself on these values.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21953	An individual	4b. Support for Community Groups & Organisations	Working with partners to deliver outcomes ensure that all communities within West Lothian are catered for, particularly the out-lying towns and villages which have suffered a bit from the centralisation of services, shopping etc. to Livingston.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21954	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	£600,000 it a pitifully small saving for what is in many instances a voluntary service supported by a small Council grant. We are absolutely opposed to any cuts to grants to LYPP and other groups in Linlithgow.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21955	An individual	4b. Support for Community Groups & Organisations	There are too many simiral groups receiving grants. Again we must take responsibility here.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21956	An employee of West Lothian Council	4b. Support for Community Groups & Organisations	Stop officers spending excess time engaging with community groups who have failed to understand the community benefit process of service delivery.	Support for Community Groups & Organisations (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21957	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	In 4b, £600k, spread across the 5 years is £120kpa. This is about 8% of the Vol Orgs Budget each year, or if it is taken in year 1 would be about 40% of the Budget (£1.5M in 17/18). a. Is this budget from which the £600k is planned to come? b. What are the timescales for implementation of these cuts, as the figures shown are for the full 5-year period, eg. all in year 1, per annum, by year 5, frontloading, etc?	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21958	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Some organisations have funding outside of the Vol Orgs Budget, largely through commissioning, many through Social Policy and savings in these areas are referenced in 2d and 2f. Can we have further clarification about whether they include our local voluntary community groups and organisations and what the plans are for these?	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21959	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	What is Council's definition of voluntary community groups and organisations?	Support for Community Groups & Organisations (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. 21965	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	Will there be an appropriate notice period given for ceasing the funding for organisations, a.so that they can plan accordingly and adhere to appropriate redundancy processes? b. and so that assistance can be sought to ensure that beneficiaries are not left without appropriate support? Is there any other information or guidance which you can share with us that we can pass onto the sector at this time or which will help us to make the process as positively focussed as possible?	Support for Community Groups & Organisations (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. <input type="checkbox"/>
21966	No Response	4b. Support for Community Groups & Organisations	<p>██████████ is extremely concerned to hear of the reduction of support for Community Groups and organisations proposed by West Lothian Council. ██████████ ██████████ to establish and maintain a museum of local history in the town.</p> <p>Since these early years the museum, at Annet House in the High Street has established itself in the local community. Both townspeople and visitors to the town have commented most favourably about the quality and scholarship of the exhibitions. The museum plays a significant part in contributing to West Lothian Council's key priorities. Delivering positive outcomes and early intervention for early years. Supporting children and young people to get the best possible start in life. Improving attainment and positive destinations for school children. Improving the quality of learning and teaching in our schools and helping young children to succeed. Improving the quality of life for older people. Supporting older people by offering care and support that helps them to live well and have greater control, choice and independence. Next year the museum will move into the Linlithgow Partnership Centre presently being created in the former County Buildings. Also moving to the Centre is Linlithgow Library, the Local History Library, and the West Lothian Family History Society This will create a Heritage Hub which will provide, under one roof the opportunity for local people, visitors and scholars to explore the rich heritage of West Lothian. The project to move the museum from its present home in Annet House and to establish it in the Centre is estimated to cost £750000. The new museum will include an education suite designed to meet the needs, not only of children but also the provision of reminiscence sessions for older people. Application has been made to the Heritage Lottery Fund> If successful that will still leave a significant amount of money that the Trust will be required to raise. West Lothian Council are supporting the project and any loss of funding because of the cuts now proposed by the Council would be disastrous for the project. Preservation and presentation of Linlithgow's rich heritage brings benefits not only to the town but also to West Lothian generally by attracting tourism to the area. Tourism, however, is not the only beneficiary. The opportunity to learn of Linlithgow's role in the history of Scotland is enhanced by the presentation of that history in an accessible way. Schools not only within Linlithgow, but across the whole of West Lothian and beyond visit Linlithgow, its museums and its historic buildings and gain, as a result, a greater understanding of our rich past. Continued support for the new museum is essential, the funding for Linlithgow</p>	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. Support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

21967	On behalf of a Group/Organisation	4b. Support for Community Groups & Organisations	How can WLSEN help? - WLSEN is a member-led organisation comprises of 55 social enterprises working in West Lothian. WLSEN represents social enterprises at the Third Sector Strategy Group and engages fully in the Third Sector Forum. WLSEN works in partnership on a contract basis with the Voluntary Sector Gateway West Lothian to deliver Third Sector Interface outcomes for social enterprise. This contract arrangement is innovative and unique in Scotland, and demonstrates the power and practical application of partnership working. WLSEN also receives investment funding from West Lothian Council to promote and support the development of an Enterprising Third Sector, focussing on the social enterprise model to create thriving and financially strong organisations that generate increasing proportions of their income through trade, and become less reliant on grants. WLSEN member organisations work on a business model and fully appreciate the need to make efficiency and budgetary savings in order to 'balance the books'. Social entrepreneurs are also highly capable of making difficult decisions and coming up with innovative solutions. WLSEN appreciated therefore that current historical grant funding to Third Sector organisations cannot continue without evidence of outcomes and value. The Third Sector is willing to face responsibility and challenges to reduce its own costs. More and better partnership working will help to reduce common costs and shared services are being explored. WLSEN would ask Council to fully consider timescales for any reduction or removal of funding. It takes time to move forward from a funded basis to an income generating enterprise, and not all Third Sector organisations can aim for full financial independence. WLSEN would like the Third Sector to be provided with a reasonable opportunity and the necessary support to help the transition to maximise income generation and become stronger, more resilient organisations that deliver services and social benefit to their communities.	Support for Community Groups & Organisations (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. The council will continue to work with groups and organisations to explore alternative funding streams
21968	An individual	4c. Support to Business Improvement Districts (BIDS)	Good Idea so long as employment generation is high on the list of council priorities	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
21969	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	If this can provide the necessary savings then this should be pursued.	Agrees with proposal	1. 22095	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	These are non-essential services which should be cut.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22096	An individual	4c. Support to Business Improvement Districts (BIDS)	Don't have a problem with that.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22097	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I agree - this needs to be self funding.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22098	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	This seems appropriate.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22099	An individual	4c. Support to Business Improvement Districts (BIDS)	A revision should be carried out as it is not a statutory function.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22100	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I have no knowledge of this service but would imagine that it would reduce the investment in the area which would be unfortunate-however if self-sustaining then ok	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22101	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I believe as big a saving on this as possible should be made.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22102	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Sounds ok.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

22122	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Sounds good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22123	An individual	4c. Support to Business Improvement Districts (BIDS)	Agree with this proposal. Towns can self support such activities within Commerce Groups not requiring council funding.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22124	An individual	4c. Support to Business Improvement Districts (BIDS)	It doesn't cost that much and if they are sustainable after the set up period then I don't see the issue	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22125	An individual	4c. Support to Business Improvement Districts (BIDS)	Seems like an overdue idea	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22126	An individual	4c. Support to Business Improvement Districts (BIDS)	I have not heard great feedback on zthe BIDs scheme in Linlithgow to date.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22127	An individual	4c. Support to Business Improvement Districts (BIDS)	Waste of money. They put up some lights and came up with pub crawl ideas. A total waste of money. Their whole idea seems to be to make Linlithgow the same as every other town with s dozen empty properties on the high street.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22128	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Agree â€ funding gaps could be met by bid members	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
22129	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Agreed BIDS should not receive match-funding. If the BIDs are no longer viable without council support they should be allowed to cease operating.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22130	An individual	4c. Support to Business Improvement Districts (BIDS)	I support. They should self-fund.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22131	An individual	4c. Support to Business Improvement Districts (BIDS)	Agree, I don't find it suitable that the Council subsidises two towns with an improvement district. Residents and businesses in the new housing developments are having to fund the communal areas with a charge over and above their council tax/NDR	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22132	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I would support this since they are not a statutory function.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22133	An individual	4c. Support to Business Improvement Districts (BIDS)	I agree with the above.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

22401	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	As an organisation that the Council works with and supports by jointly-employing a member of our staff for the [REDACTED], we are concerned about how the potential redesign, integration and modernisation of the system will impact on our existing business practices but, more importantly, on our employee themselves, who has been left in a perpetual state of uncertainty for several years, due to the rolling temporary contract they were placed on being renewed on an ongoing basis. The latest proposed budget cuts, which indicate a review of service redesign and partnership working, as well as the review of business improvement district funding, will undoubtedly have an impact on our employee's job stability, which in turn has an impact on [REDACTED] ability to continue operating on a day-to-day basis and to plan for the future if we are unable to guarantee our existing way of working and the manner in which we operate in partnership with West Lothian Council.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22402	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	As discussed in the first section, [REDACTED] employs a member of staff who works for the [REDACTED] as well as performing the role of [REDACTED] meaning the council should not make unilateral decisions on anything that impacts the employee's status without discussing this with the respective business improvement district's Board of Directors' first, to ensure that the interests of all parties are observed, prior to any action being taken.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22403	An individual	4c. Support to Business Improvement Districts (BIDS)	Whilst nice to have, some of these services cannot be provided by WLC in future.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22404	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	END SERVICE ALLOW STAND ALONE.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22405	An individual	4c. Support to Business Improvement Districts (BIDS)	What has this service ever actually delivered? I don't see a lot of thriving businesses in town centres in West Lothian, except Livingston.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22406	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Needs to be assessed against the success of the BIDS in drawing inward investment and jobs	Support to Business Improvement Districts (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
22407	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	BIDS have to learn to stand on their own two feet. Great idea but the business community must take on the responsibility for these. They have as much expertise as council staff do.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22408	An individual	4c. Support to Business Improvement Districts (BIDS)	Funding should be cut to non essential services.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
22409	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	it is not clear which groups would loose funding (ie what are the non priority areas) - without knowing this it is impossible to comment on whether these may be areas which may prevent a higher level of need developing	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. Recognising possible 'secondary' impacts will be a feature of this assessment.
22410	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I am not able to comment on this	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22411	An individual	4c. Support to Business Improvement Districts (BIDS)	I have never heard of this service before and I am sure I would not miss it if it was withdrawn	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22412	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I am unsure what benefit BIDS are providing to the Council over and above what other staff/council areas may be doing already so think funding should be withdrawn by the Council.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22413	An individual	4c. Support to Business Improvement Districts (BIDS)	there should be no funding for BIDS	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22414	An individual	4c. Support to Business Improvement Districts (BIDS)	These are a waste of resources and there is no evidence to support or justify having these. They merely displace economic activity.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22415	No Response	4c. Support to Business Improvement Districts (BIDS)	I support this measure as I don't think the improvements in Bathgate town centre have been necessary. Seems like spending for spending's sake. Also, why should this funding be spent in the BID areas when they are not the ones that need it most?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22416	An individual	4c. Support to Business Improvement Districts (BIDS)	Most people won't have a clue what these are so just get rid of.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22417	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	We still cannot see our town centres fall apart. Look at Whitburn, how can you attract business if it is deserted	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22418	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	[REDACTED] has been part funded by West Lothian Council to provide a range of early intervention services for children, young people and families who are experiencing difficulties and challenges as a result of divorce, separation and family break up e.g. family mediation, parenting apart workshops, child contact, for many years. The focus of our work is family relationships and improving the quality of lives for children. We receive match funding from the Scottish Government, Lottery and other trusts. The profile of the families who use our services has changed over the years and we are now providing a service for families experiencing greater challenges e.g. alcohol abuse, mental health issues, low income, child protection and domestic abuse. We are seeing an increasing demand for our services. The contribution from the council is much appreciated and means that families can continue to access services in Livingston and Whitburn. We appreciate that the council has difficult decisions to make and appreciate being consulted and kept in the loop,	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22419	An individual	4c. Support to Business Improvement Districts (BIDS)	Support proposal and remove funding if the review does not find that any real benefits are found.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22420	An individual	4c. Support to Business Improvement Districts (BIDS)	Kill off all non statutory non contracted funding.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22421	An individual	4c. Support to Business Improvement Districts (BIDS)	They seem to be run by volunteers anyway.	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
22422	An individual	4c. Support to Business Improvement Districts (BIDS)	If this is the case then why has it not already been done. Seems too simple	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	There are existing agreements in place to match fund BID areas, the last of which expires in 2019/20.

Transforming Your Council Consultation 2017

22423	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Look at the state of Whitburn town centre, come on!!	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The BIDS in West Lothian are in Bathgate and Linlithgow so the proposals should have no impact, on Whitburn.
22424	An individual	4c. Support to Business Improvement Districts (BIDS)	Whitburn town centre needs a boost for instance. Once proud it has slipped	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The BIDS in West Lothian are in Bathgate and Linlithgow so the proposals should have no impact, on Whitburn.
22425	An individual	4c. Support to Business Improvement Districts (BIDS)	I am not clear what BIDS currently undertake so I have no view of the potential impact.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term).
22426	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Reducing funding will be counter productive and shift the burden rather than remove it	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22427	An individual	4c. Support to Business Improvement Districts (BIDS)	Do not understand the proposal to make an informed choice - what does a BID actually do for the community? Not a clue!	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding.
22428	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I couldn't comment because I am unsure what the purpose of this service is.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding.
22429	An individual	4c. Support to Business Improvement Districts (BIDS)	Stick to statutory duties.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22430	No Response	4c. Support to Business Improvement Districts (BIDS)	If not statutory funding should end.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22431	An individual	4c. Support to Business Improvement Districts (BIDS)	agree. the move after the initial set up needs to be instant.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22432	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Town centres are critical to the heart of any area and significant work and regeneration has taken place in these towns. This is a nominal saving in the wider scheme but could have a significantly detrimental and very visible impact.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22433	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Can you be more specific please.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
22434	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Reviewed or removed ?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22435	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Please cut this altogether if it is non-statutory	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22436	An individual	4c. Support to Business Improvement Districts (BIDS)	Funding should be stopped. If it's truly business driven then business should fund it.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

22437	An individual	4c. Support to Business Improvement Districts (BIDS)	Stop wasting money on this. No results for the time you have already had town centre managers, this is the same.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22438	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Get rid of BIDS - another load of jargon that costs a fortune and brings nothing in for the council!	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22439	No Response	4c. Support to Business Improvement Districts (BIDS)	We still need thriving Businesses even in these hard times. Please do not substitute "reviewed" for "stopped".	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22440	An individual	4c. Support to Business Improvement Districts (BIDS)	If this saves money then it should be reviewed.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22441	An individual	4c. Support to Business Improvement Districts (BIDS)	Not sure how successful the BIDS are - what benefit can they be shown to give the communities they support? Could that money be used more inventively to deliver better outcomes in terms of economic dynamism?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Funding provided by BIDS is a matter for the BIDS Board and is not something which is controlled by the council. The council will continue through its economic development functions will continue to support economic expansion across all business sectors.
22442	An individual	4c. Support to Business Improvement Districts (BIDS)	they should be self-funding	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22443	An individual	4c. Support to Business Improvement Districts (BIDS)	Should be eliminated.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22444	An individual	4c. Support to Business Improvement Districts (BIDS)	If it's not statutory, don't fund it.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22445	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Public funding already hugely subsidises the private sector and business of all sizes - not a priority - get rid of it.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22446	An individual	4c. Support to Business Improvement Districts (BIDS)	If this is anything like the "improvement" work being done in Bathgate then it needs to go. There is no way it is value-for-money.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22447	An individual	4c. Support to Business Improvement Districts (BIDS)	Remove support	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22448	An individual	4c. Support to Business Improvement Districts (BIDS)	Funding should not be withdrawn too early. Sustainability should be first ensured or funds already committed could be wasted	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22449	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	non statutory functions should be top of the list to reduce costs	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22450	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	If it's not a statutory function, given the amount of savings needed, these should go.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22451	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	if it can't make a profit then it sinks	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22452	An individual	4c. Support to Business Improvement Districts (BIDS)	Could affect investment in the area- what assessments are done to review the benefit if these	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.

22453	An individual	4c. Support to Business Improvement Districts (BIDS)	The Linlithgow BID is beginning to have a real impact on Linlithgow High Street. It is still in its infancy and now is not the time to make cuts of such a small amount. Cutting BID funding will discourage businesses from contributing.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22454	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What is this and what does it relate too?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22455	An individual	4c. Support to Business Improvement Districts (BIDS)	This seems sensible if you can get outside support set up to handle this that will not charge a fortune to those who need the service.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22456	An individual	4c. Support to Business Improvement Districts (BIDS)	Community councils and local business leaders should manage this themselves.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22457	An individual	4c. Support to Business Improvement Districts (BIDS)	Disagree. Return on investment will pay dividends were strict performance criteria are met and exceeded by the BIDS in the future. It is already a stealth tax on businesses and deserves economic support by WLC. Not many participants will even understand what a BID is so it is guaranteed not to be supported when presented this way.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22458	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	The council's BIDS service has in the past given out grants without fully considering the impact each grant would have. There should be enhanced scrutiny of such grants, with an assessment of the benefit to the local community.	Support to Business Improvement Districts (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Funding provided by BIDS is a matter for the BIDS Board and is not something which is controlled by the council.
22459	An individual	4c. Support to Business Improvement Districts (BIDS)	Doubtful their contribution as there seems to be a clash with other organisations. My opinion	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22460	An individual	4c. Support to Business Improvement Districts (BIDS)	My business has to pay this why on earth are the council supporting it. I do not agree with BID as it has shown my business no support I would rather the council just took more from my rates. Jobs for boys pointless waste of time and money. Effectively another council in the BID area but West Lothian council have to collect the money why do we have another set of Wages being paid. I disagree 100% that no support should be provide to BID and the council could ask businesses to pay more to deliver a better service than what BID provides. BID has taken my businesses money that I could have employed someone with and put up flowers on fecking lamp posts. WASTE OF Money.....	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22461	An individual	4c. Support to Business Improvement Districts (BIDS)	End BIDS	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22462	An individual	4c. Support to Business Improvement Districts (BIDS)	I dont agree with Business improvement districts. I think its ridiculous they have been given support up to now. They should be scraped.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22463	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I'm sure it takes longer than the initial set-up period for a business to become sustainable. Why do you think there are so many empty shops/premises (even in the shopping centre). Small entrepreneurs cannot get established/known to the customer due to overheads on premises. Are you going to force all small businesses down the route of virtual shopping as a channel shift objective?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Funding provided by BIDS is a matter for the BIDS Board and is not something which is controlled by the council. The council will continue through its economic development functions will continue to support economic expansion across all business sectors including small and medium sized enterprises (SMEs)
22464	No Response	4c. Support to Business Improvement Districts (BIDS)	BIDS are important ! Total Lack of understanding in general Public as to their impact on towns. They can generate massive economic impact when run correctly and successfully. Don't lose the BIDS!	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to review support for BIDS. The match funding for BIDS provided by the council was never intended to be provided in perpetuity. It was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22465	An individual	4c. Support to Business Improvement Districts (BIDS)	Who says they are sustainable	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	The proposal is to review support for BIDS. The match funding for BIDS provided by the council was never intended to be provided in perpetuity. It was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.

22466	An individual	4c. Support to Business Improvement Districts (BIDS)	£200,000 looks a trivial amount to save on BIDS	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22467	No Response	4c. Support to Business Improvement Districts (BIDS)	Could BIDS be asked to take on a full time paid employee if the council provide any level of support. This would reduce the unemployment list and provide experience to the most needy, young and old.	Support to Business Improvement Districts (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
22468	An individual	4c. Support to Business Improvement Districts (BIDS)	Banks and private investment companies provide this service.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22469	An individual	4c. Support to Business Improvement Districts (BIDS)	Good. I've yet to meet a poor business person. If they were, they wouldn't continue in business.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22470	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	it should be stopped.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22471	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Agree, needs to be business-led and self-funded	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22472	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	not sure if BIDS are helping Bathgate? not enough information	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDS are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding. The BIDS in West Lothian are in Bathgate and Linlithgow.
22473	An individual	4c. Support to Business Improvement Districts (BIDS)	Would be helpful to outline the voluntary community groups and organisations that will receive reduced/no support.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	The consultation does not propose removing support from any specific organisation or geographical area and the council will continue to support community groups and organisations. However, support will be focused on the priority areas identified the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
22474	An individual	4c. Support to Business Improvement Districts (BIDS)	A review is quite reasonable but this statement gives the public no opportunity to comment on the outcome of such an exercise.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22475	An individual	4c. Support to Business Improvement Districts (BIDS)	If this allows the businesses to be independent if any external parties like the council then I have no objection.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22476	An individual	4c. Support to Business Improvement Districts (BIDS)	Drop BIDS completely	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22477	An individual	4c. Support to Business Improvement Districts (BIDS)	Get out of this economic nonsense, it's shuffling deckchairs.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22478	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Or ended, preferably. Benches, banners, flags and flowers no more.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22479	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Continue to provide staff support to BIDS but don't match fund them anymore	Support to Business Improvement Districts (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
22480	An individual	4c. Support to Business Improvement Districts (BIDS)	BIDS support should continue for a few years to finish work already started.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.

22481	An individual	4c. Support to Business Improvement Districts (BIDS)	I don't see BIDs making a positive difference so suggest the funding is redeployed elsewhere.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22482	An individual	4c. Support to Business Improvement Districts (BIDS)	The Linlithgow BID is beginning to demonstrate an impact on Linlithgow High Street. It is still in its infancy and now is not the time to make cuts of such a small amount.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22483	No Response	4c. Support to Business Improvement Districts (BIDS)	Agree this should pass to the organisations to do the work as they will be the ones to benefit directly.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22484	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	This would depend on income for councils once BIDS are established. Is it worth the initial investment?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22485	An individual	4c. Support to Business Improvement Districts (BIDS)	cut back on BIDS support	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22486	An individual	4c. Support to Business Improvement Districts (BIDS)	I am never entirely sure what BIDS are for and what benefits they bring: Linlithgow's High Street is, frankly, dying a death by coffee shop, charity shop, and barbers, despite the BID. I would actually be in favour of scrapping BIDS altogether and using the savings to mitigate those proposed elsewhere.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	BIDS are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding. This comment will be considered in the development of the proposal.
22487	An individual	4c. Support to Business Improvement Districts (BIDS)	I agree should be withdrawn altogether if not a statutory requirement. Nice to have out the window.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22488	No Response	4c. Support to Business Improvement Districts (BIDS)	BIDS should be supported by the council only to the value of the levy due for council owned property in the BID area.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22489	An individual	4c. Support to Business Improvement Districts (BIDS)	Without a knowledge of what exactly BIDS involve and what the Council's role in them is, I feel that economic development should be one of the Council's Top priorities.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	It is proposed that supporting business and economic growth in West Lothian, and helping people into employment, will remain as priorities for the council in the future.
22490	An individual	4c. Support to Business Improvement Districts (BIDS)	BIDS are already hugely contentious. They are, in effect, a stealth tax on small businesses at a time when they are already under huge pressure. The Linlithgow Town Centre BID has been implemented disastrously over the past three years with those running it objecting to any request for clarity over what they are spending levy payer's money on. There has yet to be an open meeting where anyone can raise objections or views. They offered no support to small businesses on things which actually matter to them, ie the recent outrageous NDR rise in West Lothian which will put many at the risk of closure. That any of my council tax money has disappeared into the running of a cowboy operation such as this at all is enraging. In short, get rid of the BID.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22491	An individual	4c. Support to Business Improvement Districts (BIDS)	The precinct in Bathgate seems a waste of money too	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
22492	An individual	4c. Support to Business Improvement Districts (BIDS)	If you have a business in the area you should be looking to support these things yourself.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22493	An individual	4c. Support to Business Improvement Districts (BIDS)	If a business was to lose support then the business may close, meaning a loss of employment and more strain on the economy	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22494	An individual	4c. Support to Business Improvement Districts (BIDS)	Again, what are non priority areas? The council's interpretation of non priority could be different from a resident's - more info is needed here - where are the specifics of this proposal? - a link should be provided as part of this consultation so I can submit an informed response	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Priority areas will be confirmed following the Transforming Your Council consultation.

Transforming Your Council Consultation 2017

22495	An individual	4c. Support to Business Improvement Districts (BIDS)	Is this support for small business start ups, not explained fully	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding.
22496	An individual	4c. Support to Business Improvement Districts (BIDS)	I think BIDS should be self-funding by now and struggle to see what real improvements they have made in West Lothian.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22497	An individual	4c. Support to Business Improvement Districts (BIDS)	If it is not a statutory function then cease funding it until such times as more money is available.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22498	An individual	4c. Support to Business Improvement Districts (BIDS)	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reached is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve. How will residents know when this is achieved?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22499	An individual	4c. Support to Business Improvement Districts (BIDS)	If it's not statutory and you can't afford it don't do it	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22500	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	don't actually know what benefit the companies got from BIDS,,,,, the service to support these could be continued but finance should be adding additional fees or charges for non payment and chasing of debt or scrap it all together as a total waste of effort for no benefit	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22501	An individual	4c. Support to Business Improvement Districts (BIDS)	Can you not get commercial support for this?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding.
22502	An individual	4c. Support to Business Improvement Districts (BIDS)	I have (bad) experience of Linlithgow High St BIDS as a levy payer. I fully support WLC withdrawing funding - and the BIDS Company should be wound up immediately. Unfortunately BIDS was effectively imposed on Linlithgow High St, by the votes of WLC (as there are WLC properties and associated WLC buildings - Burgh Halls, Low Port who had votes). The LHSt BIDS has not achieved anything meaningful for High St Traders in 3 years - and is seen as a supplementary Council Tax by many traders on the High St. If WLC can withdraw funding - then so should the Compulsory Levy Payers. Also if WLC withdraw funding - WLC properties should be excluded from any future votes!	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22503	An individual	4c. Support to Business Improvement Districts (BIDS)	i would like the young people to get job when they leave school or college	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	It is proposed that supporting business and economic growth in West Lothian, and helping people into employment, will remain as priorities for the council in the future.
22504	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I think given the saving this should be cut. The Revenues team have to collect bid levy's affecting their work load and stopping them from collecting other more important monies. Shut down bids saving money and meaning the team can focus on more important monies.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22505	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	BIDS are disliked by many of the ratepayers who are asked to pay them and again time is wasted in their collection. West Lothian Council should not be contributing.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22506	An individual	4c. Support to Business Improvement Districts (BIDS)	Again as a Revenues Employee I would like to see this reviewed. I work in Collections and feel our time would be more cost effectively spent in dealing with Council Tax and Business Rates.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22507	An individual	4c. Support to Business Improvement Districts (BIDS)	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
22508	An individual	4c. Support to Business Improvement Districts (BIDS)	Surely BIDS is important for economic well being of West Lothian.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

22509	An individual	4c. Support to Business Improvement Districts (BIDS)	The council should be concentrating on providing and financing the core services to meet it's statutory requirements.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22510	An individual	4c. Support to Business Improvement Districts (BIDS)	a review is okay - a decision to cut without a proper and meaningful review is not	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
22511	No Response	4c. Support to Business Improvement Districts (BIDS)	I agree as an employee in the Collections team, already down to the bare minimum of staff, our time would be better spent collecting Council Tax, Business Rates and services that are charged upfront providing revenue for Council.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22512	An individual	4c. Support to Business Improvement Districts (BIDS)	BIDS should assist on providing local employment	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
22513	An individual	4c. Support to Business Improvement Districts (BIDS)	Support should be minimal. Each business should be capable of standing on its own performance / revenue.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22514	An individual	4c. Support to Business Improvement Districts (BIDS)	Could result in BIDs being voted out by business owners if council no longer supports it.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22515	An individual	4c. Support to Business Improvement Districts (BIDS)	BIDS appear to be highly unpopular and ineffective, so loosing them would be a good cost saving	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22516	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Totally agree with getting rid of the support to this. It is not core to what the council are trying to deliver to those most in need.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22517	An individual	4c. Support to Business Improvement Districts (BIDS)	Important to continue to support local business as they can in turn generate jobs in the community. Small businesses are struggling due to changes in rates costs etc. They need as much help as they can.,	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22518	No Response	4c. Support to Business Improvement Districts (BIDS)	Care must be taken about making cuts without thinking through the long term implications. BIDS helps local businesses which in turn creates employment in the area. Local businesses are struggling due to rates increases therefore they need as much support as they can get.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22519	An individual	4c. Support to Business Improvement Districts (BIDS)	Why did the council ever support these groups?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding. The BIDS in West Lothian are in Bathgate and Linlithgow.
22520	An individual	4c. Support to Business Improvement Districts (BIDS)	Content this should become self supporting.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22521	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Agree, business led but councils provide most of the money. Needs to change.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22522	An individual	4c. Support to Business Improvement Districts (BIDS)	Agree with importance of sustainability and not being funded beyond that. If BIDS is not the way forward for West Lothian then can something appropriate be found to build capacity within the local area.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.

22523	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	What are BIDS? What have they achieved? What are the problems with them? Do they help stimulate economic growth in West Lothian? What is the ongoing support for BIDS? What will the review involve? If they have not been reviewed, how can an estimate be provided for a cost saving? Has the review already been carried out? If so, what did it say?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding. BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22524	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Good - the BIDS in Bathgate have resurfaced the precinct 3 times in as many years - what a waste of money	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22525	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	Our town centres are in a much better position than they were ten years ago. The fabric has improved and confidence is up. The presence of BIDS and matching funding from the Council in Bathgate and Linlithgow particularly has been instrumental and we hope we don't see a decline here.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BIDs are a geographically defined, business-led initiative where businesses agree to invest collectively to improve their trading environment within a fixed period of time (e.g. 5 year term). The council currently supports the investment of these businesses through match funding. BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council.
22526	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Who will notice if this happens?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22527	An individual	4c. Support to Business Improvement Districts (BIDS)	I feel this will only make it more difficult for small business, and create even more empty units	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
22528	No Response	4c. Support to Business Improvement Districts (BIDS)	agreed, shouldn't be dealt with through West Lothian Council.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22529	An individual	4c. Support to Business Improvement Districts (BIDS)	I feel towns like Linlithgow have not been well supported in terms of business. Shops lie empty as rates and rent are too high	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
22530	An individual	4c. Support to Business Improvement Districts (BIDS)	As not statutory function then agree this should be reviewed so funding can be directed to support statutory functions.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22531	An individual	4c. Support to Business Improvement Districts (BIDS)	And I object strongly to all the money being spent on Bathgate's main shopping street, to no greatly obvious improvement. Was this council funded? If so, ridiculous. Will be a far more successful centre if returned to traffic use and money spent on improved car parking facilities.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Projects were carried out by the BID but use some match funding from the council. The review of BID funding would remove council support for projects such as those in Bathgate.
22532	An individual	4c. Support to Business Improvement Districts (BIDS)	Cull!	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22533	An individual	4c. Support to Business Improvement Districts (BIDS)	Agree BIDS should be self funding. But don't give up on communities.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22534	No Response	4c. Support to Business Improvement Districts (BIDS)	Agreed BIDS should be self funding. Council still need to provide for communities to justify their existence.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22535	An individual	4c. Support to Business Improvement Districts (BIDS)	Small businesses should not be punished with excessive rates, leaving communities with empty shops.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

22536	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	As we are a [REDACTED] focusing on our fourth year of our five year term, we are concerned that the following implications would affect us, should our funding be at risk from these proposed budget reviews: - Potential risk of loss of existing employee, due to temporary contract and lack of job stability for them, as they are employed by the council as well as us. - Inability to plan for the future due to uncertainty in terms of staffing and budgets. - We have financial commitments to maintain that we have budgeted for in line with our support from WLC. These commitments are contractual agreements and are legally binding. - In the event the BID does not continue after this term, the CCTV system will require someone to run its operating costs and to manage the system on a day-to-day basis, which WLC has expressly rejected previously. - An increase of criminal activity in Mill Road Industrial Estate, with no governing body able to coordinate responses after the BID terms ends, should we not renew and lack of community police partners if we did.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22537	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	As we are a Business Improvement District, focusing on our fourth year of our five year term, we are concerned that the following implications would affect us, should our funding be at risk from these proposed budget reviews: - Potential risk of loss of existing employee, due to temporary contract and lack of job stability for them, as they are employed by the council as well as us. - Inability to plan for the future due to uncertainty in terms of staffing and budgets. - We have financial commitments to maintain that we have budgeted for in line with our support from WLC. These commitments are contractual agreements and are legally binding. - In the event the BID does not continue after this term, the CCTV system will require someone to run its operating costs and to manage the system on a day-to-day basis, which WLC has expressly rejected previously. - An increase of criminal activity in Mill Road Industrial Estate, with no governing body able to coordinate responses after the BID terms ends, should we not renew and lack of community police partners if we did.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22538	An individual	4c. Support to Business Improvement Districts (BIDS)	Clear information about the benefits gained from BID and how the Levy is spent should be widely publicised. The system requires to be reviewed and businesses given the opportunity to decide if the scheme is to continue or not. Many small business find the levy very difficult to pay and do not perceive any obvious benefit.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	A ballot on continuation is carried out on each BID every 5 years. That ballot gives local business a say on the continuation of the BID. All BIDs ballots are due within the next two years.
22539	An individual	4c. Support to Business Improvement Districts (BIDS)	Again this goes against the councils priorities to increase business and economic development within this local authority	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22540	An individual	4c. Support to Business Improvement Districts (BIDS)	Good. My experience is that local BIDS have not been successful to any great extent e.g. Linlithgow.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22541	An individual	4c. Support to Business Improvement Districts (BIDS)	Why have you been wasting so much of our money up to this point?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22542	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I strongly support this measure. BID's were always meant to be self sustaining and the council should not continue to support them.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22543	An individual	4c. Support to Business Improvement Districts (BIDS)	Review away ! If BIDS is not a statutory function then why is it still being supported at all !	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22544	An individual	4c. Support to Business Improvement Districts (BIDS)	As 4b. BIDS can have a significant benefit and the council must understand the wider impact if they withdraw support.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22545	An individual	4c. Support to Business Improvement Districts (BIDS)	these should look at ways of being self-sustaining.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

22546	An individual	4c. Support to Business Improvement Districts (BIDS)	Our high streets are dying partly due to high rates! There should be no reduction in BIDS until we have vibrant high streets again,	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22547	An individual	4c. Support to Business Improvement Districts (BIDS)	Subject to the life span and requirement of bid	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22548	An individual	4c. Support to Business Improvement Districts (BIDS)	There needs to be enough support and leadership to drive forward improvements in communities to encourage more people to become involved in working for their community. I was at the Scotland v. Samoa game and pondered, while walking up Murrayfield Road amongst the leaves, that if they were fruit there would be clear ownership demonstrated but leaves are someone else's problem. Sometimes a bit of 'ownership' becomes infectious, with more people becoming involved.	Support to Business Improvement Districts (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
22549	An individual	4c. Support to Business Improvement Districts (BIDS)	Agreed. BIDS should now be self sustaining and self financing.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22550	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	BIDS groups once set up should be self funding	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22551	An individual	4c. Support to Business Improvement Districts (BIDS)	Cut all council support after first three years ... if they do not survive it wasn't meant to be ...	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22552	An individual	4c. Support to Business Improvement Districts (BIDS)	If not statutory, why have you promoted said so heavily in the past, and now look to 'pull the plug'? Has a review of what BIDS teams deliver and how that will be financed in future should WLC withdraw?	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	BID funding was never intended to be provided in perpetuity and was there to support the establishment of the BIDS and to support them in becoming sustainable without on-going financial support from the council. The BID can continue even if council funding is withdrawn. In these circumstances the council will continue to work with the BID companies to maximise external financial support.
22553	An individual	4c. Support to Business Improvement Districts (BIDS)	Have to go in this economic climate	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22554	An individual	4c. Support to Business Improvement Districts (BIDS)	I agree this should be able to stand on its own.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22555	An individual	4c. Support to Business Improvement Districts (BIDS)	Funding for BIDS should be retained.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22556	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	As this is not a statutory requirement for the Council this should be reviewed to make savings.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22557	An individual	4c. Support to Business Improvement Districts (BIDS)	How can you regenerate with no funds? Taking away money and people working will end up degeneration not regeneration.	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22558	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	Supportive in principle based on limited detailed information, but important that consultation and engagement is undertaken with the West Lothian BIDs and internal teams that deliver support them, so that there is full appreciation and transparency in decision making and implications.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22559	An individual	4c. Support to Business Improvement Districts (BIDS)	I think funding should be removed totally	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

22560	An individual	4c. Support to Business Improvement Districts (BIDS)	BIDS should be funded by the local businesses. One or 2 might fold but implications are not huge.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22561	An individual	4c. Support to Business Improvement Districts (BIDS)	Happy for these to go, developers will find money even if they say they gave none.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22562	On behalf of a Group/Organisation	4c. Support to Business Improvement Districts (BIDS)	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	Equality Impact Assessments will be undertaken as deemed necessary through the Equality Relevance Assessment process.
22563	An individual	4c. Support to Business Improvement Districts (BIDS)	Yes. If there's a real need and a sustainable model and decent results, BIDS will survive on own 2 feet. Definitely less important than provision of sports and arts opportunities in schools.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22564	An individual	4c. Support to Business Improvement Districts (BIDS)	Continue funding as bids are free from council politics	Support to Business Improvement Districts (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22565	An individual	4c. Support to Business Improvement Districts (BIDS)	Do initial set-up periods vary ?	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.
22566	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	I agree with this as it will help support the ever increasing workload of Collections in the Revenues department.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22567	An employee of West Lothian Council	4c. Support to Business Improvement Districts (BIDS)	get rid of this,,, costs us money to bill,,, recovery debt,,, write off debts,,, sheriff officer fees,,, staff hours of work... customers do not find a benefit to themselves from our experience. still trying to collect from 2014 now.... costs more than creates.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22568	An individual	4c. Support to Business Improvement Districts (BIDS)	So far I see little benefit to the community from the BIDs in Linlithgow. Withdrawing their funding would probably cause them to fail, but it would not be much of a loss, in my opinion.	Support to Business Improvement Districts (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22569	An individual	4c. Support to Business Improvement Districts (BIDS)	Reviewed to what degree? The lack of substance to proposals not only here but throughout the documentation makes it very difficult to respond with any degree of authority.	Support to Business Improvement Districts (general)	3. The respondent advised that they had no comment to make.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.
22570	An individual	4c. Support to Business Improvement Districts (BIDS)	This service is still needed for new start-ups. That need is always going to be there.	Support to Business Improvement Districts (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
22571	An individual	4c. Support to Business Improvement Districts (BIDS)	Council should be closely monitoring where the money is spent.	Support to Business Improvement Districts (general)	1. 22963	An employee of West Lothian Council	4d. Working in Partnership	This is an untruthful assertion or a corporate delusion. Evidence Christie commission/public sector reforms to convince us. The CPP RAG does not appear to shift resources significantly 'upstream' nor move staff or budgets to the most effective provider or those best placed to address needs. Foodbanks abound, poor people don't use middle class services (howden park, Burgh Halls, active sports, Excite etc.) - yet kids from poor families are humiliated because of the increasing costs of 'participating' in school trips and events (many of which are curricular. We now have projects and initiatives to help poor people 'afford' the school year - 21st century and all that - where's the poor house now?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

22964	An individual	4d. Working in Partnership	However community support to partner operations need to ensure that it works for both .	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22965	An employee of West Lothian Council	4d. Working in Partnership	Using partner organisations leads to a cost anyway as outside companies will not be providing a service for nothing.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22966	On behalf of a Group/Organisation	4d. Working in Partnership	Effective partnerships can be developed, and will need to be , with the impending cuts, support from the Council and Community Planning Partners to the third sector to deliver services will be welcomed. Consortiums and more PSP's could be the way forward, these take time to develop but can attract external funding and in the longer term reduce core costs to the Council services. Time invested in such structures over the next year could lead to reduced Council expenditure in years to come.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22967	On behalf of a Group/Organisation	4d. Working in Partnership	Use of third-party services and suppliers will be required but should not be to the detriment of Council staff or tax payers.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22968	An individual	4d. Working in Partnership	What are the downsides? This isn't much of a consultation if you don't say what you mean by statements such as 'there will also be changes to how the Council works with partner organisations providing services.'	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22969	An individual	4d. Working in Partnership	Integration within the Council and with its partner organisations should be beneficial as it would represent an opportunity to address silos and related ways of thinking that reduce efficiency and effectiveness.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22970	An individual	4d. Working in Partnership	The use of technology is a positive however changes to how West Lothian Council works with partnership organisations draws concerns that some of the same work will be carried out by these organisations resulting in loss of work for WLC employees.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word
22971	An individual	4d. Working in Partnership	The community should be facilitated to engage with services and there is a good history of third sector working in partnership but perhaps West Lothian next needs to be bolder and look to "plug the gaps" with volunteer and indeed people with children should and not in paid work or even if they are there should will contribute to their local community in a real way for so many hours a week. This would help community raise self esteem and work reduce social isolation, improve physical ability, support mental health, etc. My feeling is if the expectation is established as the new norm and is very local to the person the will be a buy in by most of the population. Council cannot provide everything nor should they but strong services are required by society for the most vulnerable. We have a skills gap that we need to be imaginative to resolve.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this word

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
22972	On behalf of a Group/Organisation	4d. Working in Partnership	The sector would like the Council to commit to improving the relationship by improving systems, processes and service delivery through the following: A full service redesign programme; this would be a holistic redesign, without any 'silo-working', and which includes the Third Sector as equal partners. This will include: a review of commissioning/procurement, a commitment to co-production, a commitment to a more complete adherence to National Standards for Community Engagement. Currently there are areas where the Council prioritises in-house Council services, sometimes in competition with the Sector, even where this may not deliver best value. The Sector would like to see the equal, fair and transparent evaluative and review processes, which are applied to Third Sector services, also applied to the Council's in-house services (avoiding what could be perceived as a conflict of interest or protectionism). In addition the Sector would like these areas included in the service redesign requested. This could mean some areas of Council/Sector service delivery: are amalgamated/ becomes a partnership, are closed and transferred to either Council or Sector. This will mean significant change to both Council and Third Sector delivered services.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work
22973	An individual	4d. Working in Partnership	Partnership working should be developed.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council works with many interested partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
22974	An individual	4d. Working in Partnership	Whilst nice to have, some of these services cannot be provided by WLC in future.	Working in Partnership (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Whilst not a service as such, the council will continue to build on its approach to working in partnership.
22975	An employee of West Lothian Council	4d. Working in Partnership	Partnerships only work if you are in charge!!	Working in Partnership (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is involved in many successful partnerships; some where it has a lead role and some where it does not. The specific role of the council in any potential future partnership will be explored as part of this work.
22976	An individual	4d. Working in Partnership	More should be done with other council's to share resources and deliver services. With all councils needing to make savings this seems like the only logical way to go.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
22977	An employee of West Lothian Council	4d. Working in Partnership	Supportive of this proposal although clarity of actual detail would be useful.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
22978	An employee of West Lothian Council	4d. Working in Partnership	Integration of services is essential but in doing do that does not mean the council takes on the burden of any arrangements/administration. The council can be guilty of wanting to take control - we must have confidence and faith in others to run things on our behalf.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is involved in many successful partnerships; some where it has a lead role and some where it does not. The specific role of the council in any potential future partnership will be explored as part of this work.
22979	An individual	4d. Working in Partnership	WLC doesn't have an excellent record in anything.	Working in Partnership (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
22980	An employee of West Lothian Council	4d. Working in Partnership	Again, necessity should be the focus.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	It is a necessity for the council to meet its legal obligations and agreed priorities for the area, and such necessities underpin future work to explore the potential in new partnerships.
22981	An individual	4d. Working in Partnership	You are coming across here as patting yourself on the back. Take care not to unnecessarily alienate those you are ostensibly trying to reach. Give one of two specific examples of what you have done here and say you will increase the number of such successful partnerships.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
22982	An individual	4d. Working in Partnership	There ar pros and cons with this. I have mentioned in a previous answer the risks of shared services. Shared services are attractive but having seen some of this in effect with many other councils, there is a risk to efficiency and prioritising work depending which is the lead authority.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
22983	An individual	4d. Working in Partnership	once again this paragraph is just jargon and it seems unlikely this questionnaire was tested before being released to the public. Which partners? what services? what resources? How can you expect someone to assess and comment on these proposals when it is not remotely clear what is being proposed?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
22984	An employee of West Lothian Council	4d. Working in Partnership	This can work well in certain areas and should be continued.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
22985	An individual	4d. Working in Partnership	Partners aren't interested.	Working in Partnership (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council works with many interested partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
22986	An individual	4d. Working in Partnership	Agreed, there should also be opportunities for working with other local authorities to provide key services. There is too much duplication	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
22987	An individual	4d. Working in Partnership	See no issue with working in partnership with other Councils as long as it represents value for money	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The options for, and benefits of, working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
22988	An individual	4d. Working in Partnership	I'm fully supportive of this so long as the relevant investment is made to systems, processed and staff are fully trained. This initial investment, along with the loss of jobs that'll go along, must provide a real change to the support service provided within and by the council. If it is not then the initial saving might be delivered, but it will not be sustainable.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The sustainability of existing and future partnerships will be explored as part of this work.
22989	An employee of West Lothian Council	4d. Working in Partnership	Joint work with councils all leading on something would save money and boost expertise	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The options for, and benefits of, working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
22990	An employee of West Lothian Council	4d. Working in Partnership	Work with Heath and other councils jointly	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
22991	An employee of West Lothian Council	4d. Working in Partnership	The removal of duplication of services is paramount within the Council in my opinion.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Removing unnecessary duplication will be a key aim for any future partnership working or service change undertaken within the council.
22992	An individual	4d. Working in Partnership	Where the partnership works efficiently this seems to be a good way of saving money.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
22993	An individual	4d. Working in Partnership	meanwhile the council is to reduce funding to three groups -- this will not enhance the supposed excellent track record	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
22994	An individual	4d. Working in Partnership	close attention should be made to services offered by partners / some experience has shown that aims do not meet aspirations and expectations	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. It will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset to ensure aspirations and expectations are appropriately aligned.
22995	An individual	4d. Working in Partnership	It is disappointing that a consultation is needed for you to get permission to save money from something like working in partnership - why is that not the normal way of approaching your business?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
22996	An individual	4d. Working in Partnership	Always sensible, wherever it is possible as long as not detrimental to the service users.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
22997	An employee of West Lothian Council	4d. Working in Partnership	Outsourcing, agency staff, PFI's, partnership working - never been a financially viable business model.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The relative merits of a range of approaches to partnership working will be explored as part of the work on this proposal.
22998	An individual	4d. Working in Partnership	Does this involve private - profit-making - organisations? If so, public services should not be provided in this way. I believe profit-making organisations provide services cheaper but at the detriment to service quality and/or the terms and conditions of staff.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The relative merits of a range of approaches to partnership working will be explored as part of the work on this proposal.
22999	An employee of West Lothian Council	4d. Working in Partnership	Avoid the duplication	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing unnecessary duplication will be a key aim for any future partnership working or service change undertaken within the council.
23000	An employee of West Lothian Council	4d. Working in Partnership	The problem is with reduced staff finding the time to look at integration.	Working in Partnership (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
23001	An employee of West Lothian Council	4d. Working in Partnership	Again this makes sense. Internal WLC partnerships should be explored thoroughly as this would help streamline process and resources and would avoid duplication. For example: Homeless prevention and housing working closer with the Advice Shop in areas of prevention rather than cure.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing unnecessary duplication will be a key aim for any future partnership working or service change undertaken within the council.
23002	An individual	4d. Working in Partnership	Support proposal to centralise and amalgamate services as is seen in all industries to manage costs and savings.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23003	An individual	4d. Working in Partnership	This means nothing or it means 10 people will be made unemployed. Which is it ?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23004	An individual	4d. Working in Partnership	Agree but need to ensure that agencies can provide what is required without crumbling under increased pressure.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23005	An employee of West Lothian Council	4d. Working in Partnership	council should look at sharing hr/payroll/legal resources with other nearby councils and public services.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
23006	An individual	4d. Working in Partnership	More collaboration needs to happen. The council needs to be run more commercially and we should compete with Lothian and East Lothian for commercial collaboration.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The relative merits of a range of approaches to partnership working will be explored as part of the work on this proposal.
23007	An individual	4d. Working in Partnership	No real information to comment on here, this is a common sense statement of aspiration. Working in partnership should not be confused with simply outsourcing a service for what you consider a good price that allows you to make savings at the time, then spending years having to tidy up after a contractor and arguing over the quality of the service.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23008	An employee of West Lothian Council	4d. Working in Partnership	We have no choice but to partner and avoid duplication	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23009	An individual	4d. Working in Partnership	I believe in good partnership working. Avoid duplication	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23010	An individual	4d. Working in Partnership	The principle outlined here seems to make good sense, but again there is little detail.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23011	An employee of West Lothian Council	4d. Working in Partnership	Reducing funding will be counter productive and shift the burden rather than remove it	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23012	An individual	4d. Working in Partnership	These providers should be benchmarked and assessed yearly with limited periods of contract to ensure best service and added value.	Working in Partnership (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
23013	An individual	4d. Working in Partnership	yes need to look at what doing well	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23014	An individual	4d. Working in Partnership	Integrating services and working in partnership with partners will allow more sharing of resources including staff and promote best high quality practice across the board by a motivated and innovative staff team.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23015	An individual	4d. Working in Partnership	Essential for joined up working	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23016	An employee of West Lothian Council	4d. Working in Partnership	the most important thing is quality services for council employees and the people of west Lothian.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Quality of service will be a key aim for any future partnership arrangements.
23017	An individual	4d. Working in Partnership	Which partners? Again, insufficient information to comment on. Is this just a paper exercise?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23018	An employee of West Lothian Council	4d. Working in Partnership	Working in partnership is a worthwhile venture and to be commended	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23019	An individual	4d. Working in Partnership	Again, there should be a community vote on integrated services.	Working in Partnership (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
23020	An individual	4d. Working in Partnership	Yes get rid of red tape, duplication and all the stuff weighing down services and that would save more money than firing folk.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23021	An employee of West Lothian Council	4d. Working in Partnership	Where and with whom ?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23022	An employee of West Lothian Council	4d. Working in Partnership	Integration of services should not come at the expense of peoples jobs.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Efficiencies generated through partnership working may not necessarily equate to direct FTE reductions.
23023	An employee of West Lothian Council	4d. Working in Partnership	Further work on partnership working is required. Increased information re what services are available is required. A directory/information booklet on all services, purposes and resources is required.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23024	An individual	4d. Working in Partnership	What are these "opportunities"? Why don't you give some examples?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23025	An individual	4d. Working in Partnership	Only if partners pay their way and staff have nothing else to do.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23026	An individual	4d. Working in Partnership	Seems fair in principle but depends upon how it is done	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23027	An employee of West Lothian Council	4d. Working in Partnership	This should be further explored with new statutory requirements and sharing specialised functions such as Legal and IT Services	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23028	An employee of West Lothian Council	4d. Working in Partnership	ok providing no issues with unions	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23029	An individual	4d. Working in Partnership	This would appear to be a reasonable proposal	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23030	An individual	4d. Working in Partnership	I support this as long as these are not private sector "partners".	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23031	An individual	4d. Working in Partnership	in the absence of any other place to put this - I m disappointed that the council is not considering in greater depth the value of engaging differently with communities and people who use services. Other councils and community planning (Dundee, East Ayrshire, South Ayrshire, Fife eg..) partnerships are placing enhanced value on increasing the capacity of communities to work alongside statutory partners and find solutions. They are investing in new ways to measure the impact of engaging differently and are able to see real changes in how communities capacity has increased to be able to deliver transformational change. Other CPPs and councils are also investing in teams designed to support communities increase their capacity to be involved. It is disappointing that West Lothian seems to be going in the opposite direction.	Working in Partnership (general)	4. The council is already doing this.	The council continues to review is engagement with partnerships, including through the Community Planning Partnership. The council will continue to support community groups, organisations and partnerships.
23032	An individual	4d. Working in Partnership	West Lothian CPP was highly regarded. It would seem to be important that Community Planning mechanisms are enhanced to enable better partnership working and an increased focus in localised solutions.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23033	An individual	4d. Working in Partnership	What does this mean - sharing gritters? Road improvements? Bins? Social Services? Advice Shop services? All of these and many more could be shared across councils.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23034	An employee of West Lothian Council	4d. Working in Partnership	Seems like a small saving for what could be exploited in a huge way. Would this also include areas where partners / business can perhaps sponsor areas where the Council once funded e.g. Christmas Lights, Gala Days, hanging baskets, gardens in prominent places,etc...	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will look at the option to secure funding through sponsorship and other means of increasing income.
23035	An individual	4d. Working in Partnership	Shared Services for HR/Finance etc...across Scotland	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23036	No Response	4d. Working in Partnership	not agree. not enough resourses to out everyone in the same place	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23037	An individual	4d. Working in Partnership	why is this a cut as should be doing this as par for course	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23038	An individual	4d. Working in Partnership	Yes, get rid of managers. Don't restructure and create more tiers of management.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23039	An individual	4d. Working in Partnership	Agreed but unsure about working with partners who are outside companies which may be expensive.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23040	An individual	4d. Working in Partnership	Given the exploration seems not to have happened is this achievable in the short term?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	All proposals set out in the Transforming Your Council consultation are considered to be deliverable within a five year period.
23041	An employee of West Lothian Council	4d. Working in Partnership	Not enough info - agree in principle but no detail on the Å£600k saving or "opportunities" that exist: What opportunities?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23042	An individual	4d. Working in Partnership	No additional outsourcing to non-public organisations should be considered, as this would only result in longer-term higher costs and decreased services	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23043	An employee of West Lothian Council	4d. Working in Partnership	Partnership working itself needs a long hard look. It is not as good as it is claiming to be.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23044	An employee of West Lothian Council	4d. Working in Partnership	Outsourcing is not cost-effective and will lead to more money spent for a poorer level of service.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23045	An individual	4d. Working in Partnership	Yes but actually work in partnership don't just say it	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23046	An individual	4d. Working in Partnership	If there are workable opportunities - take them. Leave exploring to people who can afford the time to do it.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23047	An individual	4d. Working in Partnership	Partnership working is often lip service with not enough being done across departments or with partner agencies.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23048	An individual	4d. Working in Partnership	No objection to this. Why another £600,000 sounds just a stab in the dark.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23049	On behalf of a Group/Organisation	4d. Working in Partnership	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What services and activities are you integrating and how will they be resourced and what level of service delivery will the communities receive and who will these changes affect?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23050	An individual	4d. Working in Partnership	Fine as long as there are no reductions in the quality of service.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23051	An individual	4d. Working in Partnership	As long as service quality is not reduced	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23052	An individual	4d. Working in Partnership	The voluntary sector should be seen as an equal partners in service delivery and strategic planning in health and social care.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23053	An individual	4d. Working in Partnership	I am a fan of partnership working as I myself work for a company who provides opportunities for school children, job seekers to come train with us for work experience. It is getting better but so much more could be done to make sure people are being directed to the right training and work experience not just "this place will take you" so many do not engage when they feel there is no reward or if they feel forced to do it.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for effective partnership working including those focused on maximising opportunities for young people.
23054	An individual	4d. Working in Partnership	Who are the council partners?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council works with a large number of partners across the public sector, business sector and the voluntary sector.
23055	An individual	4d. Working in Partnership	This does not say what this means and what the cut savings will be.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23056	An individual	4d. Working in Partnership	As long as this has no negative impact on employment	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23057	An individual	4d. Working in Partnership	This proposal sounds like a slashing of vital services this is not a good idea and I would be against this proposal. If this must be done then the Council should ask relevant charities and support groups to advise on what should be cut as they are better placed to make these decisions that the staff within the Council.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23058	An individual	4d. Working in Partnership	How about helping local charities to take on young people not in employment? We need lots of help and can make money go a long way.	Working in Partnership (general)	4. The council is already doing this.	The council will continue to explore opportunities for effective partnership working including those focused on maximising opportunities for young people.
23059	An individual	4d. Working in Partnership	Depends who you think your partners are. There's lots of community groups out there that could do more with a fraction of your budget, but you don't share or involve us in participatory budget setting.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with a large number of partners across the public sector, business sector and the voluntary sector. The council continues to explore options for participatory budgeting in line with Scottish Government guidance
23060	An individual	4d. Working in Partnership	There really needs to be a review of partnership services and voluntary groups. There are a lot of groups receiving funding for nothing.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23061	An individual	4d. Working in Partnership	If the council have no money then I can't see how they can contribute to voluntary groups and organisations	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23062	An employee of West Lothian Council	4d. Working in Partnership	working in partnership with other partners is a great thing as it would help reduce costs for the council. Surely.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23063	An individual	4d. Working in Partnership	use of more community volunteer	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23064	No Response	4d. Working in Partnership	Partnership working with local non-statutory agencies, may provide an opportunity to reduce costs including premises and staffing, however the value of personal support must not be overlooked in these considerations.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for effective partnership working. Any future arrangements will be focused on the priority areas identified in the Transforming Your Council consultation. Support will be focused on those partnerships which contribution most to meeting confirmed priorities.
23065	No Response	4d. Working in Partnership	Funding voluntary groups is cost efficient and provides the Council with a value for money alternative to direct provision of the service, this should be continued, where there is a clear demand and the voluntary organisation can demonstrate the effectiveness of it's service and positive outcomes for the people it supports.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23066	No Response	4d. Working in Partnership	Working in partnership with voluntary organisations is cost efficient and provides the Council with a value for money alternative to direct provision of the service, this should be continued, where there is a clear demand and the voluntary organisation can demonstrate the effectiveness of it's service and positive outcomes for the people it supports.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23067	An individual	4d. Working in Partnership	Look to involve local businesses and charities more in this sector.	Working in Partnership (general)	4. The council is already doing this.	The council will continue to explore opportunities for effective partnership working including those focused on maximising opportunities for young people.
23068	An individual	4d. Working in Partnership	Welcome removing duplication but why not place workers from the coal face so to speak in charge of this? Or at least consult with them. Many will have excellent ideas about how savings can be made.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Staff will continue to be encourage to develop effective partnerships and to be involved with framing the partnerships to ensure that anticipated outcomes are being met.
23069	An individual	4d. Working in Partnership	We rely a lot on voluntary groups and organisations.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23070	An individual	4d. Working in Partnership	I would agree with this with the council staff being retained and other services linking into council services.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23071	An individual	4d. Working in Partnership	It makes sense to share resources with other Authorities, especially where one has more specialist staff, and access to better resources than another.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23072	An individual	4d. Working in Partnership	take some services off the council and work with local organisations like community centres. that should help lower council costs.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23073	An individual	4d. Working in Partnership	This makes sense provided that quality and accessibility are maintained.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23074	An employee of West Lothian Council	4d. Working in Partnership	NO to involving private businesses or partners as you call them.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council works with a large number of partners across the public sector, business sector and the voluntary sector.
23075	An individual	4d. Working in Partnership	The council should work to improve sharing resources more efficiently across partnerships. This hasn't been as successful as it could be.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23076	An employee of West Lothian Council	4d. Working in Partnership	I am sure there are some services that could be delivered in partnership. Particularly in areas where the council has few specialist resources, this would give a larger skills base to draw on	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23077	An employee of West Lothian Council	4d. Working in Partnership	I think it is time that councils work together for the good of all of Scotland and share services. Schools have been collaborating better over the past few years and I have seen improvements made so this seems to be the way forward. We need to be less protective and rigid in our approaches and work better together. This of course may be difficult to do as people are naturally defensive and cling to what they know.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23078	An employee of West Lothian Council	4d. Working in Partnership	Shared services should be explored as fully as possible, and no service should be off limits. Other councils are keen on the idea as well, so each service should be charged with contacting their opposite number in surrounding councils to explore the possibility.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

23079	An employee of West Lothian Council	4d. Working in Partnership	Council services already work together effectively; this should be encouraged as a way of enhancing the services we provide. It should not be seen as a means of making budget savings.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23080	An employee of West Lothian Council	4d. Working in Partnership	Again worth working in partnership when resources are limited.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23081	An individual	4d. Working in Partnership	Shared services where possible please	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23082	An individual	4d. Working in Partnership	Partnerships must be used if benefit for both parties	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23083	No Response	4d. Working in Partnership	As long as a service provides a good service and good value for money	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to 'health check' partnership arrangements to ensure that best value is being achieved.
23084	An employee of West Lothian Council	4d. Working in Partnership	We do work well with key partners however some inter agency discussion should take place where changes will impact on other. Organizational change is happening everywhere and sometimes services are removed without any consultation or prior warning.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to 'health check' partnership arrangements to ensure that best value is being achieved. Any organisational changes will be progressed in accordance with the council's Change Management Policy which sets out the requirements for engagement.
23085	An individual	4d. Working in Partnership	While I think it makes sense to remove duplication and share best practice I also feel there is not enough information about what this actually means. What are you planning to cut? What effect will this have on the area and the different services?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Efficiencies will be delivered in accordance with agreed council priorities. Until these are agreed following consultation it is not possible to identify changes to individual services.
23086	An individual	4d. Working in Partnership	As long as you're looking after the young, elderly and disabled without taking anything away from them	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any partnership working will continue to be aligned to the agreed priorities of the council.
23087	An individual	4d. Working in Partnership	The council has an excellent track record of working successfully with our partners to provide services that are effective; great, but transparency is required for us to know who are the Council's partners. Please provide a list stating what they partner with the Council	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
23088	An individual	4d. Working in Partnership	This must be double counted! These phrases occur in multiple boxes. No specific proposals here to comment on.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	This is a separate proposal from any others in the consultation. The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23089	No Response	4d. Working in Partnership	This would depend on the type of services being shared. Collaboration can/does work, however each service / partner will have their own interest at heart and could put the focus on this rather than another councils.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	It is a necessity for the council to meet its legal obligations and agreed priorities for the area, and such necessities will underpin any future work to explore the potential in new partnerships. The council already works with partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23090	An individual	4d. Working in Partnership	Given the level of support we receive from one of your partners I certainly wouldn't call it successful	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23091	An employee of West Lothian Council	4d. Working in Partnership	As there are a number of areas in the council undertaking similar work e.g. finance, there is scope for removal of duplication through effective planning and redesign	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23092	An employee of West Lothian Council	4d. Working in Partnership	I feel there is a very close relationship between social work and health here.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23094	An individual	4d. Working in Partnership	Yes, I think this could work. If managed strategically, with respect for knowledge within the community, with excellent communication and not driven wholly by cost cutting.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23095	An employee of West Lothian Council	4d. Working in Partnership	Integration of services without loss of service would be pragmatic	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23096	An individual	4d. Working in Partnership	WLC should work more closely with the third sector to deliver services. Third sector groups (and networks) should be exploited to deliver their services in more targeted and strategic ways, thus taking up some slack from diminished services.	Working in Partnership (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
23097	An employee of West Lothian Council	4d. Working in Partnership	I think this is a good idea but it would make sense to have only one corporate team instead of duplicating services overall.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23098	An individual	4d. Working in Partnership	working in partnership has always been painted as a pretty picture but as for the council employees who were forced to move across in to those partnerships I'm not so sure	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23099	An individual	4d. Working in Partnership	Save the money.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23100	An individual	4d. Working in Partnership	I feel some services do this really well and others not so great. We should get better at sharing best practice and run workshops where responsible staff can learn from each other and be supported.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23101	An employee of West Lothian Council	4d. Working in Partnership	Good idea. Stating the obvious. Too vague to comment on otherwise.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23102	No Response	4d. Working in Partnership	Agreed that duplication is not necessary but to be distinguished form additional service which is required. If one area is discontinued then the existing one should have increased capacity if required.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23103	An individual	4d. Working in Partnership	It is impossible to integrate specialist services, i.e engineering and legal. WLC requires to consider its statutory responsibilities before employing such a lean structure.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is a necessity for the council to meet its legal obligations and agreed priorities for the area, and such necessities will underpin any future work to explore the potential in new partnerships or integrated approaches to service provision.
23104	No Response	4d. Working in Partnership	All duplication should be eradicated.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing unnecessary duplication will be a key aim for any future partnership working or service change undertaken within the council.
23105	An employee of West Lothian Council	4d. Working in Partnership	Removing duplication and sharing best practice is very important. Must be forward thinking and always looking for new ideas and innovations. Councils risk being stuck in the past if managers are not open to this kind of outlook.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23106	An employee of West Lothian Council	4d. Working in Partnership	This should be normal practice to provide the best possible service to the residents of West Lothian but the correct systems must be in place to allow this to happen	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23107	No Response	4d. Working in Partnership	So much duplication what is going on at the council?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing unnecessary duplication will be a key aim for any future partnership working or service change undertaken within the council.
23108	An individual	4d. Working in Partnership	The message on this needs to be clear and the perceptions of people need to be managed as there is a growing perception in some areas that the council are day by day competing with 'potential' partners.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23109	An individual	4d. Working in Partnership	All makes eminent sense so long as related services are not seriously adversely affected.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Quality of service will be a key aim for any future partnership arrangements.
23110	An individual	4d. Working in Partnership	Does integration of services result in a less well trained staff Staff you are being asked to do other duties and not fully competent	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Consideration will be given to staff training and development requirements through the development of the proposal.
23111	An individual	4d. Working in Partnership	If more services are outsources there needs to be more spent on the monitoring of these providers.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any partnership working arrangements will require robust financial and performance monitoring.
23112	An individual	4d. Working in Partnership	Should be streamlined where possible where maintaining choices and standards.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23113	An employee of West Lothian Council	4d. Working in Partnership	If the council pay for staff in partner organisations, this could be looked at to focus on those most beneficial to the council.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23114	An employee of West Lothian Council	4d. Working in Partnership	Duplication occurs in certain areas with gathering the same information. For example free school meals/milk and clothing grant this information is already held by the Revenues Department for benefit purposes but the customer is being asked to provide this information to other departments. This may reduce the number of customers applying for help they are entitled to and could contribute towards the council not maximising their funding from Scottish Government. ie the equity fund will not be paid for customers who are entitled to free school meals but they have not claimed it.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23115	An individual	4d. Working in Partnership	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve. How will residents know when this is achieved?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23116	An individual	4d. Working in Partnership	As stated before - If it's not statutory and you can't afford it don't do it	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	It is a necessity for the council to meet its legal obligations and agreed priorities for the area, and such necessities underpin future work to explore the potential in new partnerships.
23117	An employee of West Lothian Council	4d. Working in Partnership	Does the Council ensure an oversight of their partner's employees to ensure that they are being treated in a similar way to the Council's employees.	Working in Partnership (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Any partnership working arrangements will require robust financial and performance monitoring.
23118	An individual	4d. Working in Partnership	Agree if there is duplication, but to ensure no major impact on services provided	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23119	An individual	4d. Working in Partnership	I'm all for best practices but I fail to see how partners can do a more effective, flexible and affordable job than can be done "in house"	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Partnership working need not necessarily mean outsourcing.
23120	An individual	4d. Working in Partnership	Rather than cut some employment roles, perhaps job shares could be explored as potential options, this could be done in partnership with other organisations or other councils perhaps?	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23121	An employee of West Lothian Council	4d. Working in Partnership	Partnership working is key to protecting the natural environment. We need to ensure that council systems and processes make this easy to do.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23122	An individual	4d. Working in Partnership	Would need some detail to enable me to comment on a substantial saving. Nothing provided.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23123	An individual	4d. Working in Partnership	Consider also partnering with other councils and public bodies e.g. can police use council offices, can you charge them?	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The benefits of working more closely with a wide range of other local authorities and public bodies will be explored as part of this work.
23124	An individual	4d. Working in Partnership	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Working in Partnership (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
23125	An individual	4d. Working in Partnership	Continue with partnership and sharing of resources model it is the way forward. Consider how to extend this and the devolving to local communities.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
23126	An individual	4d. Working in Partnership	Agree provided that local accountability is not lost.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Any partnership working arrangements will require robust financial and performance monitoring.
23127	On behalf of a Group/Organisation	4d. Working in Partnership	What are these opportunities? The IJB and recent TUPE transfer of staff do not fill the TUS with confidence.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work. The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.

23128	An employee of West Lothian Council	4d. Working in Partnership	Always support partnership working where there is a benefit to the public and a reduction of barriers to access to services.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23129	An employee of West Lothian Council	4d. Working in Partnership	sounds good in theory but skeptical of the ability to integrate services	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23130	An employee of West Lothian Council	4d. Working in Partnership	This will effective as long as all partners are consulted with and their is not a top down approach, as has happened in the past. This has not been successful in the case of WLDAS or the disintegration of the Health improvement team, it only works if everyone is involved. with the schools receiving so much PEF funding there is going to be a gap in provision after the money is spent - we need as many partners onboard to ensure the sustainability and staff capacity building for the future.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23131	An employee of West Lothian Council	4d. Working in Partnership	Can't do this on the one hand and then cut off funding support as proposed above...	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23132	An individual	4d. Working in Partnership	This would be a good route to take. There must be savings to be made here to support the services which offer best value	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23133	An individual	4d. Working in Partnership	You haven't given any helpful or specific information here, very woolly and unclear where Â£600,000 cuts will come from.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23134	An individual	4d. Working in Partnership	Ensure all partner meet the high standards currently set by West Lothian Council	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Quality of service will be a key aim for any future partnership arrangements.
23135	An individual	4d. Working in Partnership	Providing quality of service is maintained or better still improved .	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Quality of service will be a key aim for any future partnership arrangements. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23136	An individual	4d. Working in Partnership	I agree with the removal of duplication and sharing best practices.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23137	An employee of West Lothian Council	4d. Working in Partnership	Best practice whilst partnership working, excellent idea.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23138	An individual	4d. Working in Partnership	Agree with this and am generally very positive about partnerships, involving local community groups and sharing with other Councils to maintain if not develop service provision.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23139	An individual	4d. Working in Partnership	Anything which is duplicated should be overviewed to reduce costs	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23140	An employee of West Lothian Council	4d. Working in Partnership	integrating services seems a positive way to go and a more joined up approach to spending may be a successful way of saving	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23141	An employee of West Lothian Council	4d. Working in Partnership	4d Not sure which partnerships this involves, which services, activities and resources. Very vague proposal so difficult to comment.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23142	An individual	4d. Working in Partnership	Why haven't you done this before? Moreover, does it really need to be on this very overlong consultation.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23143	An employee of West Lothian Council	4d. Working in Partnership	This is very vague. What examples are there of working with partners? What have been there successes? What has not worked? What services have become more effective as a result of working with partners? How is that effectiveness determined? What services have become more flexible as a result of working with partners? How is that flexibility determined? Is it always seen as a positive outcome? What services have become more affordable as a result of working with partners? If we have not explored the opportunities for further integration how can we estimate a saving? What opportunities are there to explore? What does integration of services look like? Will this involve external partners? How will we share resources? What duplication is currently occurring? What integration will reduce that?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made. These comments will be considered in the development of the proposal.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23144	An individual	4d. Working in Partnership	Why is this questionnaire so vague? Since this is such a comparatively smaller saving can you be specific with the duplication you plan to remove? Can't be that much to list	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made.
23145	An individual	4d. Working in Partnership	Significant savings could be made thro high quality procurement and regular tendering processes	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
23146	An individual	4d. Working in Partnership	I agree with the proposal to explore further opportunities to work in partnership with others thus saving on the total spend in multiple areas.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23147	On behalf of a Group/Organisation	4d. Working in Partnership	Although the council's funding support for Visit West Lothian has been withdrawn, the organisation has responded innovatively by working to secure other avenues of funding and sponsorship to help support company activities. The presence of a dedicated staff member has enabled VWL to successfully bring in funding over the years and levered in significant additional private sector investment. Visit West Lothian would implore West Lothian Council to take advantage of the economic and quality of life growth potential that the visitor economy offers by ring fencing a nominal amount of funding in this area.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made. The type and extent of support provided by the council to any given organisation in the future will be reviewed as part of the work on this and other proposals.
23148	An individual	4d. Working in Partnership	Public should be made aware of such things before they are implemented .	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made. Information about each consultation proposal will be made public at subsequent stages of the budget planning process.
23149	No Response	4d. Working in Partnership	Understandable, keeping services to a maximum will mean we have less services doing the same work.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23150	An individual	4d. Working in Partnership	I agree strongly; this will require considerably commitment from all, and will be a particular challenge for national organisations.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23151	An employee of West Lothian Council	4d. Working in Partnership	I have some concerns that "private partners" are perhaps more profit driven than customer focused.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The relative merits of a range of approaches to partnership working will be explored as part of the work on this proposal. It will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset to ensure aspirations and expectations are appropriately aligned.
23152	An employee of West Lothian Council	4d. Working in Partnership	Removal of duplication and sharing best practice is all good - remembering here though that certain services are performing well and aren't top heavy with staff	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23153	No Response	4d. Working in Partnership	Partnership working is vitally important.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23154	No Response	4d. Working in Partnership	Partnership working with the private and third sectors as well as other local authorities should be encouraged.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23155	An individual	4d. Working in Partnership	Definitely. Avoid expensive duplication at all costs.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing duplication will be a key aim for any future partnership working or service change undertaken within the council.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23156	On behalf of a Group/Organisation	4d. Working in Partnership	Options for consideration in WLC. [REDACTED] proposes two options for the Council's consideration in its review of costs and its stated intention to cut £600,000 from the voluntary sector budget. We believe and can demonstrate that the WLC core grant of £101k for provision of core funding gives unparalleled value for money to the Council and to its residents. It enables a high number of advice needs to be met and a financial gain of almost £6m to be achieved for users of the service. The competent running and reputation of the core service additionally allows the [REDACTED] to bid successfully for other project work which brings major lifestyle and health benefits to West Lothian residents. As an alternative to the present funding arrangement, [REDACTED] West Lothian proposes that we and WLC work in partnership to manage a phased handover of all advice provision within West Lothian to be carried out by [REDACTED]. This would be a very cost effective option in that it would allow the Council to cut entire department costs over the period rather than slim down, while achieving a professional, independent service run at lower cost.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23157	An employee of West Lothian Council	4d. Working in Partnership	Partnership working is essential and there should be appropriate resource in place to facilitate this	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23158	On behalf of a Group/Organisation	4d. Working in Partnership	"The council has an excellent track record of working successfully with our Partners". [REDACTED] [REDACTED] [REDACTED] wish to continue working in partnership with West Lothian Councils Community Sports Team. We would be interested in sending representatives to WLC Policy Development meetings. There are opportunities to further explore the integration of services, resources and activities removing duplication and sharing best practice. Our concern here is the implications for smaller clubs with fewer than 50 members, run by volunteers. Are they going to be able to continue to grow and develop, particularly if there is an integration of services, resource and activities to avoid duplication? Most governing bodies share best practice so we would like to see WLC, WLL and Sports Scotland sharing best practice taken from the sport governing bodies.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23159	An individual	4d. Working in Partnership	Shared back end systems and resources would save money and promote closer working partnerships Too much duplication for businesses in support available creates confusion. Seek opportunities for secondments to promote cross agency working and rationalisation of services	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to look at opportunities for shared services and new partnerships. These suggestions will be given further consideration as part of this work.
23160	An individual	4d. Working in Partnership	Who are these partners. These questions do not provide enough information for informed comments to be made.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23161	An individual	4d. Working in Partnership	Council need to work towards giving their partner organisations confidence and re- assurance that they have an agreement which will be honoured for a least five years. Hopefully, this will encourage more community involvement to replace or enhance services currently being provided by the Council. Much needs to be done to change the public's perception that the Council has endless funds available.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23162	An individual	4d. Working in Partnership	4d This does not equate as you can not cutback funding to partners but expect them to increase service provision and support. in a time when council services are being rationalised their is a greater reliance upon partners. They rely on realistic levels of funding to provide much wanted services. clients and those in need will suffer the most increasing the cycle of deprivation and health issues. Best practice always changes and one model does not fit all Again this question lacks detail on service provision and budgets	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23163	An individual	4d. Working in Partnership	Why have you been wasting so much of our money up to this point?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Existing partnerships and support for community groups and organisations are reviewed on a regular basis. This ensures that these arrangements are effective and continue to represent 'Best Value' for the community.
23164	An employee of West Lothian Council	4d. Working in Partnership	This proposal lacks specification. However, the whole financial arrangements from set up through to implementation need to be examined thoroughly. The advice of support services should not be ignored.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Existing partnerships and support for community groups and organisations are reviewed on a regular basis. This ensures that these arrangements are effective and continue to represent 'Best Value' for the community.

23165	An individual	4d. Working in Partnership	OK, if it provides what we need.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23166	An individual	4d. Working in Partnership	I agree so long as services can be maintained.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23167	An individual	4d. Working in Partnership	My preference is to retain the staff within the council as you then know that West Lothian Council's interests are prioritised and not those of a private business.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23168	An individual	4d. Working in Partnership	Remove any duplication and share best practice where-ever possible to make savings.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Removing duplication will be a key aim for any future partnership working or service change undertaken within the council.
23169	An individual	4d. Working in Partnership	Council should continue to work with community groups who are doing their best to improve their local environments, including making it more attractive to visitors, encouraging them to return and generate income for local businesses.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23170	An employee of West Lothian Council	4d. Working in Partnership	A review of the costs charged by varying agencies should be carried out; many are charging higher levels than are reasonable compared to other agencies. An increase in competition may be a good thing for agencies vying for Council contracts.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	All contracts are subject to the council's procurement process and standards. Inspections of quality of work are carried out on all contracts.
23171	An individual	4d. Working in Partnership	This should only happen where there is proper synergy and real savings to be made.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities. □
23172	An individual	4d. Working in Partnership	As with other answers, must be delivered effectively and efficiently and benefits realised	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23173	On behalf of a Group/Organisation	4d. Working in Partnership	Working with partners is good so long as their business model is closely monitored and they are supporting rather than benefiting from the council.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	As in the past, it will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset. This will continue to ensure that aspirations and expectations are mutually agreed and appropriately aligned to the priorities for West Lothian.
23174	An employee of West Lothian Council	4d. Working in Partnership	WLC has not been "excellent" in all its partnerships.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
23175	On behalf of a Group/Organisation	4d. Working in Partnership	The integration of services, resources and activities to remove duplication and sharing best practice, should be explored but not at the demise of the existing partnership arrangements. Partnership working in West Lothian is held up as a model of "Best Practice" that other local authority (LA) areas strive to replicate. This is evidenced through the number of LA areas who request a visit to view the activities of the Community Safety Unit. The West Lothian Community Safety Unit is held up as a model of best practise on the Community Partnership Development Courses run at the Police Scotland College at Tulliallan.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
23176	An individual	4d. Working in Partnership	Again must have to meet proven targets or goals	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	As in the past, it will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset. This will continue to ensure that aspirations and expectations are mutually agreed and appropriately aligned to the priorities for West Lothian.
23177	An individual	4d. Working in Partnership	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled. The council should ensure Partnership working does not mean assuming total financial liability (i.e. the NHS appear to enjoy occupation of some buildings at no cost).	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	As in the past, it will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset. This will continue to ensure that aspirations and expectations are mutually agreed and appropriately aligned to the priorities for West Lothian.

23178	An individual	4d. Working in Partnership	Cooperating but not dictating!	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	As in the past, it will be necessary to jointly agree the aims of any future partnership with the partners involved at the outset. This will continue to ensure that aspirations and expectations are mutually agreed and appropriately aligned to the priorities for West Lothian.
23179	An employee of West Lothian Council	4d. Working in Partnership	I agree	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23180	An individual	4d. Working in Partnership	Agree that there should be a focus in partnership. But the are still too many 'talking shop'. There should be a comprehensive review of every partnership to ensure that it is fit for purpose. Objectives need to be clearly set and outcomes measured on an annual basis (minimum).	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23181	An employee of West Lothian Council	4d. Working in Partnership	Working in partnership should always be considered as it can provide benefits for everyone. If working with community groups it can be time consuming for Council staff providing support to them.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23182	On behalf of a Group/Organisation	4d. Working in Partnership	I fully support fair partnership working practices as evident in previous comments - savings can be made.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23183	An individual	4d. Working in Partnership	nothing wrong with efficiency ...	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23184	An individual	4d. Working in Partnership	I support this however the 'volunteer' pot is not inexhaustible. This means that services have to be paid for by someone. You provide no detail to allow sensible answers/response to this question.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Consideration would be given to the anticipated impact of any reductions in support to community groups and organisations, including on the organisation itself and wider council provision. This will include consideration of negative and consequential impacts from removing support.
23185	An individual	4d. Working in Partnership	Need to make sure it's all properly done though. Who checks and monitors the contracts.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Any formal partnership arrangements will require to be monitored by the partners involved in accordance with the agreement(s) entered into at the commencement of the partnership.
23186	An individual	4d. Working in Partnership	This should continue, any removable of duplication must be good practice.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23187	On behalf of a Group/Organisation	4d. Working in Partnership	Section (4d) of the consultation looks at savings made through partnership working and exploring opportunities for further integration of services, resources and activities; to remove duplication and share best practice. VSGWL agrees that enhanced partnership working between the Council, VSGWL and the Third Sector will provide the best outcomes for service delivery in West Lothian and look to West Lothian Council to continue to further explore, with the Sector, improvements to commissioning. VSGWL already works in partnership with West Lothian Council and holds a unique position as the Third Sector Interface. This is a single point of contact for not only West Lothian Council departments but also the organisations across West Lothian. We seek to be an equal partner in the co-production of solutions at this transformational time supporting the facilitation of the re-design of service delivery, creation of consortiums, real participatory budgeting and the integration of services. For this to work it is vital that the Third Sector can rely on a strong, influential and empowering body; which harnesses their knowledge and distils the voices of the Sector as a whole. Following significant challenges VSGWL has continued to grow and connect locally with people, organisations and community. The Third Sector Strategy Group (TSSG) continues to grow and make an impact. We already align our resources to the priority areas within West Lothian Council's Improvement Plan. We actively work to link organisations and communities with Community Planning to involve them in policy design, co-production of services and scrutiny.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23188	On behalf of a Group/Organisation	4d. Working in Partnership	In addition, the outcome of a recent Third Sector Strategy Group (TSSG) included a commitment to explore options for the Third Sector to share backroom services such as payroll, joint purchasing, Human Resources, and insurance as well as building capacity and skills in monitoring and evaluation and measuring value e.g. SROI. Our links with national bodies such as SCVO, Social Enterprise intermediary organisations, Volunteer Scotland and the Alliance etc enable us to obtain additional support for West Lothian Third Sector organisations. Furthermore, our involvement as a member of the TSI Network and its intermediary body Voluntary Action Scotland (VAS) provide us with a national overview of best practice which can be disseminated at local level.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
23189	An employee of West Lothian Council	4d. Working in Partnership	Agree in principle but needs to ensure no reduction in quality	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Quality of service will be a key aim for any future partnership arrangements.
23190	An individual	4d. Working in Partnership	This should be reviewed anyway but cuts should not be made at expense of service delivery and again I believe this level of saving could come from elsewhere.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23191	No Response	4d. Working in Partnership	Continue	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23192	An employee of West Lothian Council	4d. Working in Partnership	Yes I can understand this but would like to know the affect on jobs.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
23193	An employee of West Lothian Council	4d. Working in Partnership	CPP is a waste of time. What does it actually achieve? It's simply jargon. The problem with working in partnership with the likes of WL College is that these organisations are not as modern or efficient as WLC. It results in more work for WLC and the college simply carry on in their own little world of inefficiency.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23194	On behalf of a Group/Organisation	4d. Working in Partnership	More information required, however GMB is opposed to any partnership working that may impact on jobs.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The specific partners and services to be explored as part of this work are yet to be agreed and any relevant suggestions made as part of the consultation will be considered prior to any decisions being made. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
23195	On behalf of a Group/Organisation	4d. Working in Partnership	Simply Play would welcome the opportunity for increased partnership working, in childcare and play provision, through co-production of new/expanded services, in order to meet the increasing demands of the sector and to meet Government's targets. A more co-ordinated, strategic approach would reduce potential duplication and/or competition, eg. Wraparound and out of school care. This would maximise the opportunities from Simply Play's best practice model, which has already been recognised for delivering on quality, flexibility, affordability and accessibility across West Lothian.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
23196	On behalf of a Group/Organisation	4d. Working in Partnership	██████████ would like to maximise the opportunities for partnership working, in family learning, early years and play provision for our most vulnerable families. Across Armadale and Blackridge we have the expertise and relationships with local people and the wider community, to continue to deliver best practice and reduce any opportunities for duplication, thus delivering best value for all. ██████████ is a net generator of income to West Lothian. Investment from West Lothian Council has been essential to leverage in other monies, which is unique to the Third Sector and it has delivered significant added value to our public pound. This additional income for our communities and its people has, however, been dependant on the stability of Council's core investment. Council funding for our work in Mayfield (& Blackridge) last year was only 44% of the total costs. £70, 863 (56%) was able to be levered into the community/project, directly due to Council's investment, which was used as match funding and/or demonstrated a trust & commitment to other potential funders.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
23197	An individual	4d. Working in Partnership	How can you regenerate with no funds? Taking away money and people working will end up degeneration not regeneration.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

23198	An employee of West Lothian Council	4d. Working in Partnership	Experience is positive of partnership working, so would anticipate this could/should progress to be integrated in other ways	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23199	An employee of West Lothian Council	4d. Working in Partnership	Yes I fully agree other Council's are looking at this - functional areas like School/PPI management, FM, Finance, HR, Admin and ICT.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23200	An employee of West Lothian Council	4d. Working in Partnership	As long as clear communication between agencies exists then this can be a good thing.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23201	An individual	4d. Working in Partnership	As previously mentioned there are some administrative function which could be shared with another local authority or NHS. The Council has looked at joining with Stirling previously but this was the wrong choice of authority. However joining up with Falkirk would make a lot more sense.. Do not join back up with Edinburgh as previously mentioned as service provision would be prioritised to the city.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
23202	An employee of West Lothian Council	4d. Working in Partnership	Carrying out the recovery function for West Lothian Leisure bringing in funding to Revenues Unit.	Working in Partnership (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
23203	On behalf of a Group/Organisation	4d. Working in Partnership	agree where the needs of the individual continue to be met	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23204	On behalf of a Group/Organisation	4d. Working in Partnership	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Working in Partnership (general)	3. The respondent advised that they had no comment to make. 23205	An individual	4d. Working in Partnership	SLAs with non-statutory services are mutually beneficial, enabling WLC to reduce it's direct provision of services, while ensuring that the required support continues to be delivered, this also prevents unnecessary duplication of provision and that support is delivered by the services best placed to do so in the community	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23206	An individual	4d. Working in Partnership	Agreed but many partners' funds are also being cut so need to be assured that these 'other services' will actually be there.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23207	An individual	4d. Working in Partnership	Good if it happens. Worrying that we are still struggling to achieve this after so many years.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23208	An individual	4d. Working in Partnership	Integration of services may not give rise to quality and effectiveness.	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23209	An employee of West Lothian Council	4d. Working in Partnership	After 10 years of cuts really cant see what else can be integrated and unaware of any "duplication"	Working in Partnership (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.
23210	An employee of West Lothian Council	4d. Working in Partnership	service areas should take payments up front for lets and services - saving on having to do invoices, send to outsourcing for producing invoices, printing costs, postage costs, collection of debts, dealing with correspondence, sheriff officer fees for recovery of bad debts,,,, bad debts being written off.	Working in Partnership (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
23211	An individual	4d. Working in Partnership	Duplication should be removed as this is not helping finances.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23212	An employee of West Lothian Council	4d. Working in Partnership	What is the basis for this estimated saving?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23213	An individual	4d. Working in Partnership	What are these opportunities? If there is a lot of duplication of service why has this not been tackled until now?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council works with many partners which share the same or similar values, priorities and approach to overcoming future challenges. The council wishes to build on this and the benefits of increasing the number and scope of successful partnerships will be explored as part of this work.
23214	An employee of West Lothian Council	4d. Working in Partnership	Working in partnership can be effective and could be considered to reduce cost as long as services are not placed in jeopardy.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23215	An individual	4d. Working in Partnership	Does the NHS pay the occupational costs for its staff being located in Council premises?	Working in Partnership (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council has arrangements with partner organisations that ensure integrated services are delivered to the community, optimising and sharing resources between partners as a key part of the partnership arrangements.
23216	An individual	4d. Working in Partnership	Sounds logical, but surely this has been an ongoing exercise, especially as each new partner is brought on board?	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23217	An individual	4d. Working in Partnership	Does this mean that the partnership with Police Scotland (4e proposal) is not cost effective and the council has been spending £700,000 per annum?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23218	An individual	4d. Working in Partnership	Insufficient information on the groups to comment.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	This is an outline proposal put forward by officers to address the budget gap facing the council. More information on the proposal will be available once the council has the opportunity to consider the consultation feedback and further develop the proposal.
23219	An individual	4d. Working in Partnership	WLC must continue to reflect the changes in the working environment, respond to the changing needs of its local residents and have closer focus on value for money where projects and 3rd sector agencies are proved with funding to establish both financial and social benefits.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23220	No Response	4d. Working in Partnership	Council redesign and integration of services is commended. Any changes to working with partner organisations providing services should focus on best value (not just best price). Social enterprise providers reinvest in communities as well as deliver services. This will provide added value in both monetary and social outcome terms. WLC should carefully consider what Third sector providers bring in terms of additional external funding, social and environmental benefits and re-investment of surplus profits as an income-generator that will help off-set required reduction in service budgets.	Working in Partnership (general)	1. The respondent advised that they agree with the proposal.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23221	An individual	4d. Working in Partnership	What changes will the council make to how it works with partner organisations and what are the organisations? How can anyone comment on something with so little substance to it?	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.
23222	An individual	4d. Working in Partnership	In respect of changes to how the council works with partner organisations providing services, I am assuming that this will be in relation to the financial support. This could result in services becoming reduced or ceased.	Working in Partnership (general)	3. The respondent advised that they had no comment to make.	The council will continue to support community groups and organisations. However, support will be focused on the priority areas identified in the Transforming Your Council consultation. Support will also be focused on those groups and organisations which can demonstrate the greatest impact on the overall priorities.

23465	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree with this - responsibility lies with Police Scotland here	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23466	An employee of West Lothian Council	4e. Review of External Funding for Police	This is a no brainer and should never have been allowed to continue as long as it has.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23467	An individual	4e. Review of External Funding for Police	Yip I agree .. The council should not be paying for the police	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23468	An individual	4e. Review of External Funding for Police	Good idea - immediate action	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23469	An employee of West Lothian Council	4e. Review of External Funding for Police	This should be removed.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23470	An employee of West Lothian Council	4e. Review of External Funding for Police	100% agree with this. SG have protected police budgets	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23471	An individual	4e. Review of External Funding for Police	The Police should be funded elsewhere and not by a local council.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23472	An individual	4e. Review of External Funding for Police	Police budgets are protected. Police should pay for police officers obviously	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23473	An individual	4e. Review of External Funding for Police	Agree. Leave it to central Government. They will protect it anyway	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23474	An employee of West Lothian Council	4e. Review of External Funding for Police	Why should the Council ever pay for this?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23475	An employee of West Lothian Council	4e. Review of External Funding for Police	As the Police Scotland budgets have been given protection by the Scottish Government I agree that any further policing provisions should be funded by Police Scotland's budget and not supported by the council.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23476	An individual	4e. Review of External Funding for Police	I didn't even know that west lothian provided funding for police. With crime figures falling this would be a good saving.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23477	An individual	4e. Review of External Funding for Police	Why is the council funding police if £73 million of savings need to be made? I thought the police employed police officers. If the Police don't need to make savings why should I be paying for police officers through my council tax. Agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23478	An individual	4e. Review of External Funding for Police	Strongly agree with this proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23479	An individual	4e. Review of External Funding for Police	I was not aware that west Lothian provided support funding. I would support removing funding providing adequate services are provided by police Scotland.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23480	An individual	4e. Review of External Funding for Police	We need to have value for money and on this issue I agree we need to come in line with other LA's.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23481	An individual	4e. Review of External Funding for Police	Makes sense. Why is the council funding police in the first place, Isn't that the Scottish government's job?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23482	An individual	4e. Review of External Funding for Police	Absolutely agree. This is Police Scotland issue	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23483	An employee of West Lothian Council	4e. Review of External Funding for Police	I agree with this proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23484	An individual	4e. Review of External Funding for Police	I would agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23485	An individual	4e. Review of External Funding for Police	Fine	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23486	An individual	4e. Review of External Funding for Police	Agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23487	An individual	4e. Review of External Funding for Police	Agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23574	An individual	4e. Review of External Funding for Police	I don't think we can reduce police numbers	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23575	An individual	4e. Review of External Funding for Police	The police force should not be cut at any point and such a promise should be made by the council.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23576	An individual	4e. Review of External Funding for Police	No, keep this in place.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23577	An individual	4e. Review of External Funding for Police	There should be no changes to the existing!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23578	An individual	4e. Review of External Funding for Police	I don't think funding to the police should be cut.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23579	An individual	4e. Review of External Funding for Police	Police Acotland doesn't have enough money and if funding were removed our Police device would be in a worse state than it is now There is no way this is an option	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23580	An employee of West Lothian Council	4e. Review of External Funding for Police	Even with a guaranteed budget for Police Scotland there is clearly still a need for as many officers as we can get so I think its a mistake to remove this support	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23581	An individual	4e. Review of External Funding for Police	I disagree. Policing is important. In Linlithgow we have already lost our parking warden with the result that the abuse of the parking restrictions on the High Street is at dangerous levels. The police are struggling to deal with this already because of low manpower. This cut would make things worse for the community.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23582	An employee of West Lothian Council	4e. Review of External Funding for Police	I do not agree with this - with crime on the increase, we need a visible and active police force.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23583	An individual	4e. Review of External Funding for Police	As crime becomes more and more common, I do NOT agree with this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23584	An individual	4e. Review of External Funding for Police	This is absolutely absurd - policing should be viewed as a valuable service which could provide early intervention and a lifeline for some of the most vulnerable members of society. I strongly believe this should not be a consideration at any level.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23585	An individual	4e. Review of External Funding for Police	This is a poor statement by stating "Few local authorities in Scotland provide funding for additional police officers". West Lothian excels in partnership working with the police. Who else is going to bother with the local priorities in the community? What does it matter what other local authorities are doing, I only care about West Lothian and I'm confident everyone in West Lothian feels the same. Shocking!!!!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23586	An individual	4e. Review of External Funding for Police	I think this is a disgrace	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23587	An individual	4e. Review of External Funding for Police	not happy with the idea of 21 police officers taken off the streets i will feel safer if it does not go ahead	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23588	An individual	4e. Review of External Funding for Police	i think it bad news if you cut the police as crime will go up and up .	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23589	An individual	4e. Review of External Funding for Police	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23590	An individual	4e. Review of External Funding for Police	I object - with the other cuts you are proposing, community policing will be more important than ever	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23591	No Response	4e. Review of External Funding for Police	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23592	An employee of West Lothian Council	4e. Review of External Funding for Police	What on earth does the council fund the police for? Police Scotland has its own budget set by Scottish Government. What is the statutory authority for us to fund officers, vehicles and analyst support? Who are these officers? What are these vehicles? What analyst support is being funded? What benefit does WLC receive from this funding? Why do we do this. On the face of it, this funding should be removed and repayment sought for however long it has been going on for.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23593	An individual	4e. Review of External Funding for Police	Seriously!??? There are not enough police as it is. Please do not reduce this. This should be reduced when your other targets are met as withdrawing this now would not enable them	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23594	An individual	4e. Review of External Funding for Police	Funding for Policing should be protected by WLC in order to keep the community safe and to encourage visitors and new businesses to our towns.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23595	An individual	4e. Review of External Funding for Police	there should be no cuts to police budget	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23596	An employee of West Lothian Council	4e. Review of External Funding for Police	Police and other emergency services should be under National finances and their funding should never be in question	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23597	An individual	4e. Review of External Funding for Police	Disagree - safety and policing is incredibly important to residents	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23598	An individual	4e. Review of External Funding for Police	I think the community policing is invaluable. Without it petty and adolescent crime* would increase which would probably cost the council more in the long run * Graffiti, malicious damage to council property such as play parks, setting fire to bins etc.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23599	An individual	4e. Review of External Funding for Police	The loss of police officers who work in partnership with schools would be a serious loss. Excellent partnership work and early intervention initiatives have assisted in ensuring that youth disorder and crime can be addressed at an early stage, impacting positively on re-offending statistics. This proposal should be resisted.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23600	An individual	4e. Review of External Funding for Police	And what will the impact of this be on our community. See even fewer police? No support.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23601	An individual	4e. Review of External Funding for Police	Totally disagree - this funding should not be cut!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23602	An individual	4e. Review of External Funding for Police	What are the implications of that decision. Highly undesirable to reduce number of police.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23603	An individual	4e. Review of External Funding for Police	Think this would possibly the worst cut you could make. Community policing makes a difference , if it was cut it would cost money in the increase in crime.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

23604	An individual	4e. Review of External Funding for Police	How can you have keeping the community safe as a priority and remove this funding?	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23605	An individual	4e. Review of External Funding for Police	No.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23606	An employee of West Lothian Council	4e. Review of External Funding for Police	oh no!!! I don't think this is right.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23607	An individual	4e. Review of External Funding for Police	This should not be removed without agreement with Police Scotland on how it is going to be replaced.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23608	An individual	4e. Review of External Funding for Police	Community policing provided in Linlithgow by PCs #### and ##### has been a major success. It is tackling the prime priority areas of concern to residents. To compromise community policing would be absolutely opposed. Please do not cut in this area, particularly in light of increased inappropriate parking and speeding.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23609	An individual	4e. Review of External Funding for Police	Expect a rise in crime.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23610	An individual	4e. Review of External Funding for Police	Presumably, the funding of Police Scotland does not include the cost of the 21 police officers mentioned. In that case, it will be important to ensure that these officers are not lost to West Lothian.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23611	An employee of West Lothian Council	4e. Review of External Funding for Police	Cutting police resources is wrong.	Does not agree with proposal	2. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23686	An individual	4e. Review of External Funding for Police	I value Community Policing in Linlithgow and oppose the cuts.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23687	An individual	4e. Review of External Funding for Police	I value Community Policing in Linlithgow and oppose the cuts.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23688	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Moreover, some of the Council's proposals e.g. the withdrawal of funding for additional police officers would have a direct and immediate impact on the West Lothian Community and its environment.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated local
23689	An employee of West Lothian Council	4e. Review of External Funding for Police	What is the level of funding locally? What services does it provide and what are the implication of withdrawing this funding to the region? Crime appears to be on the increase would funding cuts exacerbate this trend?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23690	An individual	4e. Review of External Funding for Police	Whilst nice to have, some of these services cannot be provided by WLC in future. Police budgets are protected. Let the Police pay for these officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised
23691	An employee of West Lothian Council	4e. Review of External Funding for Police	CEASE THIS SERVICE. POLICE SCOTLAND HOULD PROVIDE OWN STAFF.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23692	An individual	4e. Review of External Funding for Police	Don't understand why the council pays for police. They have their own budget.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.

23693	An employee of West Lothian Council	4e. Review of External Funding for Police	I think that this is important for us to police scotland to assist the safety of the local authority residents	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23694	An individual	4e. Review of External Funding for Police	Surely the police can fund themselves.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23695	An employee of West Lothian Council	4e. Review of External Funding for Police	Will this affect the officer on the beat - community police visiting schools etc ?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23696	An employee of West Lothian Council	4e. Review of External Funding for Police	This would clearly have a detrimental impact on safety and security in and around west lothians, if Police Scotland do not pay for the additional funding now being proposed to be removed, then this will have a knock on effect in the communities that they support. What proposals are in place to support this removal?	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23697	An employee of West Lothian Council	4e. Review of External Funding for Police	The Scottish Government should pay for the police, not the local authority	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. 23698	An individual	4e. Review of External Funding for Police	as long as the crime rate does not rise we should not be funding this	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23699	An employee of West Lothian Council	4e. Review of External Funding for Police	Council must cease to provide this funding with immediate effect. The council's job is not to provide police services; that must be left to Police Scotland. The council has enough to be getting on with.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23700	An individual	4e. Review of External Funding for Police	Disagree with this. Police Scotland is already under strain as some essential staff have not been replaced when they retired. This has already had a detrimental effect on partnership working between Police and Social Work which is putting vulnerable adults at risk due to decreased levels of information/sharing.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23701	An individual	4e. Review of External Funding for Police	Police funding is a national issue, not an issue for WLC	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable
23702	An employee of West Lothian Council	4e. Review of External Funding for Police	I am not clear what police posts are funded by the council and therefore cannot comment on the impact on services / the community - I would agree that the council should not be providing funding for police vehicles and analyst support	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. 23704	An employee of West Lothian Council	4e. Review of External Funding for Police	I agree that the council's focus should on necessity services not external based services.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable
23705	An individual	4e. Review of External Funding for Police	We need more visible policing, both on the beat and traffic policing	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23706	An employee of West Lothian Council	4e. Review of External Funding for Police	This must stop. Simple as that. We should not be propping up the Police force if our budget is not protected and theirs is.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23707	An individual	4e. Review of External Funding for Police	The Police service is already inadequate, particularly in rural areas; but the Scottish Government should be providing adequate funding for the combined Police Scotland they created. The merger of the 8 Forces clearly has not worked.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23708	An individual	4e. Review of External Funding for Police	Police forces are being scaled back and councils can no longer fund these areas agree but partnership working still needs to be maintained	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23709	An individual	4e. Review of External Funding for Police	No, this is one area of Council funding that provides a direct relief to citizens blighted by anti-social behaviour. This is a big success story, and to be honest the problems it will cause and cost the Council (e.g. Vandalism) will outweigh the anticipated £700K savings.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.
23710	An individual	4e. Review of External Funding for Police	It is difficult to identify what support is given through funding 21 officers.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type services and number of resources allocated locally.

23730	An individual	4e. Review of External Funding for Police	Agreed why should the Council pay for this. Let the SG do it and maybe they'll think more about introducing screeds of legislation and laws that the police have to enforce!	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23731	No Response	4e. Review of External Funding for Police	I don't believe crime prevention is a job highly regarded as a council issue I feel this is more a police matter or private property issue.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23732	No Response	4e. Review of External Funding for Police	Great idea, if staffing levels remain the same via Police Scotland.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23733	An individual	4e. Review of External Funding for Police	My only concern would be what would happen to the police officers currently based in some local high schools? I believe they play an important role in schools	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23734	An individual	4e. Review of External Funding for Police	This is not an acceptable change. Livingston this week only has just a violent assault near Livingston North and two assaults on woman. This funding is essential in ensuring the safety and security of Livingston residents. Removing the additional funding to Police will mean a loss of officers, an increase in crime and a knock on effect across the community. The council should not cut police funding unless Police Scotland guarantee they will make up the shortfall. Otherwise our safety and security is at risk from this loss!	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23735	An individual	4e. Review of External Funding for Police	How does this fit with the council priority for ensuring safer communities? This should be retained as a priority	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. 23736	An individual	4e. Review of External Funding for Police	With all the cuts to other services unemployment will rise which will then increase crime rates. You will then be needing your extra 21 policemen!	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23737	An individual	4e. Review of External Funding for Police	The Police will not get enough money!! It would be a pity to cut all of the funding as this would result in increased crime in West Lothian.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23738	An individual	4e. Review of External Funding for Police	Would this not leave the police open to charging the council?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23739	An individual	4e. Review of External Funding for Police	The police are already under pressure. Increasing that pressure at this time is not a good idea.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23740	An employee of West Lothian Council	4e. Review of External Funding for Police	with a growing population in West Lothian at least 50% of this commitment should be continued	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

23748	An individual	4e. Review of External Funding for Police	It is essential that the Police budget is protected. Whatever it takes.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23749	An employee of West Lothian Council	4e. Review of External Funding for Police	It is responsibility of National Government to provide appropriate funding to ensure Police service is adequately resourced.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23750	An individual	4e. Review of External Funding for Police	How does this relate to one of the 8 council set priorities of reducing crime and making communities safer?	Review of External Funding for Police (general)	4. The council is already doing this.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23751	An individual	4e. Review of External Funding for Police	Police funding should be a matter for Police Scotland.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23752	An employee of West Lothian Council	4e. Review of External Funding for Police	Will this affect the police service and employment in the area?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23753	An individual	4e. Review of External Funding for Police	The role of community police officers through visibility and interaction with individuals arguably saves more money in the longer term than will be gained from not funding the roles. If Police Scotland, who are also being forced to make tough budgetary considerations opt not to replace the 21 officers, it is West Lothian who will ultimately pay the price for the cost of increased crimes, inability to investigate and foot the bill for repair costs for vandalism that previously would have been prevented/captured by the community officers	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23754	An individual	4e. Review of External Funding for Police	This funding should stop, police Scotland budget should pay for police officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23755	An employee of West Lothian Council	4e. Review of External Funding for Police	No funding for policing should be cut!	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23756	An individual	4e. Review of External Funding for Police	We have too few police already. They ignore many crimes against property. They take over 24 hrs to respond. Confidence in the police is at an all time low. If this reduction is applied it is a licence for crime increase in the area. Protect this funding.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

23757	An individual	4e. Review of External Funding for Police	The council should not be funding centralised government services. Make this saving.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23758	An individual	4e. Review of External Funding for Police	No, we need our police.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23759	An individual	4e. Review of External Funding for Police	Can't comment on this one to any degree except I would not want to lose any of these services - they are already fairly limited in a lot of locations.	Review of External Funding for Police (general)	3. The respondent advised that they had no comment to make.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23760	An individual	4e. Review of External Funding for Police	This is a difficult one to discuss. Why West Lothian part fund Police Scotland is difficult to understand. If every local authority support based on the number of police officer then ok. I would like to support this funding but I would like this money to be invested 100% into West Lothian	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23761	An employee of West Lothian Council	4e. Review of External Funding for Police	Is there data available on the benefits of this investment at present? Has there been a reduction in vandalism for example that would demonstrate the cost effectiveness of this investment?	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23762	An individual	4e. Review of External Funding for Police	Given Scottish Government have created this single Force, they should ensure funding to provide adequate levels of policing are in place. If West Lothian can withdraw this funding, then it should. Suggest also that other Local Authorities are consulted. Impact cannot be that residents have a poorer standard of policing as a result of WLC decision to remove funding.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23763	An individual	4e. Review of External Funding for Police	(already the closure of local police stations, unable to contact police officers without going through Bilston Glen has resulted in a poorer service).	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23764	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree. Police are protected and council is not. Why don't the police pay?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23765	An employee of West Lothian Council	4e. Review of External Funding for Police	I cannot believe that Police are getting cut again.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. 23786	An employee of West Lothian Council	4e. Review of External Funding for Police	I think support for council staff is the priority at this stage so I understand that the above saving should be considered.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23787	No Response	4e. Review of External Funding for Police	Have no objection as it is a central Scotland Government function	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23788	An employee of West Lothian Council	4e. Review of External Funding for Police	From a housing point of view we have an excellent working relationship with community police who are very good at helping with difficult matters on short notice. They are very good at assisting with complex cases concerning vulnerable adults, anti social or criminal behaviour which disrupts our communities. However this is inconsistent across local area offices. The concern would be that those areas where a good working relationship with community police is in place would be lost.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23789	No Response	4e. Review of External Funding for Police	I agree as long as this does not impact on community safety	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23790	No Response	4e. Review of External Funding for Police	I agree, this should be Police Scotland's priority, not the councils.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23791	An individual	4e. Review of External Funding for Police	Scottish Government should fund police not the Council	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23792	An individual	4e. Review of External Funding for Police	Why support the police, this is a disgrace.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23793	An employee of West Lothian Council	4e. Review of External Funding for Police	Get rid - by funding these extra police, it gives less incentive to Police Scotland to fund resources adequately themselves. This funding absolutely should be removed, end of!	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23794	An employee of West Lothian Council	4e. Review of External Funding for Police	I did not know the council paid for this. Agree to cease given Police Scotland should be responsible for adequate police numbers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23795	An individual	4e. Review of External Funding for Police	Could it be reduced rather than removed?	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. Removal and reduction of funding will be considered.
23796	An individual	4e. Review of External Funding for Police	It should not be the role of the council to adequately fund police provision in West Lothian. This should be the responsibility of the Scottish Government	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23817	On behalf of a Group/Organisation	4e. Review of External Funding for Police	If it was funding directly and solely for community policing then I would keep those posts. However, if they are continually being used for other policing, then there is no point in the Council funding this.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23818	An employee of West Lothian Council	4e. Review of External Funding for Police	Scrap it - useless anyway. Domestic abuse up etc. Not convinced many in West Lothian feel they have a good police service or that it has improved since Police Scotland was established. Many people/community groups I know - moan at the 'lost connection' and benefits compared to the (old) community police officer model.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23819	An individual	4e. Review of External Funding for Police	Fewer Police, less visibility/presence = criminals acting with impunity. Already too [REDACTED] litter, fly-tipping, criminal damage, under-age drinking, illegal motorists in this region - because no-one is there to catch them. This would be akin to cutting off your nose to spite your face. Reconsider. increased Police presence = reduction in criminal activity = increase in revenue from fines and savings on clean-up. It ain't rocket science.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23820	An individual	4e. Review of External Funding for Police	Review pay and structure. Focus police in the RIGHT areas and get rid of under performers. Retire fat, old, bitter police and replace with younger, improved versions who can do twice as much work. Funding should go.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23821	No Response	4e. Review of External Funding for Police	keep funding as its important to west lothian people. the police struggle as it is	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23822	An employee of West Lothian Council	4e. Review of External Funding for Police	If the Scottish Government have given commitment to protect the Police Scotland budget but not the council budgets then I would agree that the council should withdraw the funding to save the money aslong as this does not have an effect on the service that Police Officers can provide in West Lothian as minimising crime should be one of the top priorities. If few other Local Authorities provide funding for additional police officers then West Lothian Council should follow this approach.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23823	An individual	4e. Review of External Funding for Police	It is essential that this funding is continued. Both East & Mid Lothian councils removed the funding, and after only 6 months realised that community issues previously dealt with by council funded officers were spiralling out of control, and as a result they reinstated the council funded officers to tackle the issues causing a huge reduction in the problems raised by local residents. Yes, £700,000 is a lot of money, however without these officers tackling community issues, our streets will not be as safe.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
23824	An individual	4e. Review of External Funding for Police	The council funded Community Action Teams, School Link Officers and CBO's provide a key service to West Lothian council by targeting local issues and taking effective action to resolve them before these issues begin to cause a massive detrimental effect on the local area. These teams target local issues and locally have worked in partnership with WLC to remove Â£10,000's of controlled drugs from our streets, reduce violence, target parking issues in areas, and other key issues. Without this funding, the Police would not be able to meet council demand and expectations which would result in the widescale growth of these issues and cause a huge detrimental effect to our area.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23825	An individual	4e. Review of External Funding for Police	This should be provided for by Police Scotland	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23826	An individual	4e. Review of External Funding for Police	Agree with this saving, especially if it is based on benchmarking on other areas. It is Police Scotland's responsibility to ensure there are enough resources to deliver this service	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23827	An individual	4e. Review of External Funding for Police	This is shocking with amount of vandalising in some areas that's costing the council thousands to make repairs we need these police it would only get worse.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23828	An employee of West Lothian Council	4e. Review of External Funding for Police	Anti-social behaviour is likely to increase.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23829	An individual	4e. Review of External Funding for Police	I hope this will not have an affect on the safety of West Lothian residents!	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23830	An employee of West Lothian Council	4e. Review of External Funding for Police	This is terrifying unless police Scotland can fill the gap.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23831	An individual	4e. Review of External Funding for Police	Seems reasonable, although there will presumably be an impact on policing in West Lothian	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

23834	An individual	4e. Review of External Funding for Police	More community police is required	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23835	An employee of West Lothian Council	4e. Review of External Funding for Police	One of the main priorities in West Lothian is reducing crime and safety in the local community. Cutting 21 officers will only have a negative impact. I live in Whitburn and regularly feel unsafe walking around the town I have lived in for many years. The amount of crime that takes place in West Lothian is always on the increase so reducing the number of officers is ludicrous.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23836	An employee of West Lothian Council	4e. Review of External Funding for Police	Remove funding and hopefully police scotland will plug some of this gap with special police officer volunteers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23837	An individual	4e. Review of External Funding for Police	Any proposed budget amendment would require a through risk benefit analysis as this has the potential to cost the Council in the long run. The proactive nature of these Police resources means that they may actually reduce costs - cost which may be incurred by unchecked vandalism, antisocial behaviour and general crime all of which would have a detrimental impact on communities. Any budget changes would need to be considered carefully and, if made, (in light of considering the consequences) may require to be incremental	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23838	An employee of West Lothian Council	4e. Review of External Funding for Police	I agree they done away with the Traffic Wardens and promised they would be covering this duty but this has never happened	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23839	An employee of West Lothian Council	4e. Review of External Funding for Police	Sack this funding, The Police can fund themselves.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23840	An individual	4e. Review of External Funding for Police	This would be a big saving if other local authorities do not do this why would WLC.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23841	No Response	4e. Review of External Funding for Police	The police already fail to respond in a timely manner to reported crime, if they respond at all. For example, they no longer investigate burglaries. The provision of policing cannot be described as adequate!	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23846	An individual	4e. Review of External Funding for Police	I would agree with this - there is no notable improvement on the west Lothian policing.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23847	An individual	4e. Review of External Funding for Police	Don't agree with this. Policing can be preventative. For example, since the traffic wardens were cut, there is parking everywhere causing all sorts of problems. Although the parking warden didn't issue a huge number of tickets, the fact that people knew he could turn up at any time helped prevent irresponsible parking. A safe environment is very important. The council should reconsider this proposal and keep the majority of this service.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23848	An individual	4e. Review of External Funding for Police	As long as our community still retains adequate Policing	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23849	An employee of West Lothian Council	4e. Review of External Funding for Police	Police numbers are not protected enough. Given one of the priorities of the Council is to reduce crime and to improve community safety, I think it would be short-sighted to reduce the funding in this area. Police persons are put under incredible pressure at this time and this is only likely to continue. They are the front line in keeping us safe and we should continue to fund this area, otherwise how else would this priority area be adequately met?	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23850	An employee of West Lothian Council	4e. Review of External Funding for Police	Would this reduction in funding definitely be met by Police Scotland? I feel this cut cannot be justified if it would compromise the service we currently receive, as it already seems very thin on the ground...	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23851	An employee of West Lothian Council	4e. Review of External Funding for Police	Harsh but fair, unless posts are specifically supporting council needs, ie missing young people who could be at risk of external provision being used?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.

23852	An individual	4e. Review of External Funding for Police	I personally feel that the police have an already difficult job without you withdrawing police officers cannot this just be reduced rather than withdrawn.	Review of External Funding for Police (general)	4. The council is already doing this.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. Removal and reduction of funding will be considered.
23853	An individual	4e. Review of External Funding for Police	If this happend, crime rate will increasae	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable.
23854	An employee of West Lothian Council	4e. Review of External Funding for Police	The council needs to stop making police/education/health the bad guy by pointing out that funding is protected.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
23855	An individual	4e. Review of External Funding for Police	You cant remove funding without a commitment from Police Scotland to make up the deficit or else this is counter intuitive to your vision statement	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23856	An individual	4e. Review of External Funding for Police	I would imagine that Police Scotland will be facing their own budget crisis too - would a conciliatory approach with them instead of removal of all funding be worth exploring? Just because it is not a government requirement doesn't mean that there is no need.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised
23857	An individual	4e. Review of External Funding for Police	There are already not enough police officers available to deal with emergencies. Reducing that number further does not seem to be a good idea in preventing and dealing with crime.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23858	An individual	4e. Review of External Funding for Police	What you propose though is to remove "additional" officers beyond what Police Scotland deems an adequate level. The wording is quite mealy mouthed and should be honest that you want to remove the additional focus on policing.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23898	An employee of West Lothian Council	4e. Review of External Funding for Police	We would all agree to this until something happens and we need them, but I think this is something we should do in the circumstances.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23899	An employee of West Lothian Council	4e. Review of External Funding for Police	The council should, if it implements this cut, support the case for making Scotland's police service VAT free. Perhaps the Conservative politicians could become actively involved in this.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
23900	An individual	4e. Review of External Funding for Police	I support this. If the Scottish Government wish to invest in community policing they should fund it via Police Scotland	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23901	An individual	4e. Review of External Funding for Police	CCTV in open/public spaces should be funded by police services not the council	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23902	An individual	4e. Review of External Funding for Police	Cut away. Business has been broken into my car has been broken into my business cars and vans have been trashed my own house has been broken into. Police is already a useless service in West Lothian and has failed to reform under current government. Force the government to fund them correctly	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23903	An individual	4e. Review of External Funding for Police	Has the impact of this on local crime etc been explored?	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23904	An individual	4e. Review of External Funding for Police	I hope the council will monitor and publish any changes in crime figures after this change.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland performance information will continue to be reported publicly within West Lothian. You can find this information on the council website.
23905	No Response	4e. Review of External Funding for Police	I would prefer a reduction rather than complete removal of funding. This is helping keep West Lothian a safer place to live and work.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
23906	No Response	4e. Review of External Funding for Police	Please don't take any Police officers off the streets of West Lothian. Remember the last time Youths held Mid Calder to ransom (TV headline news)	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23907	No Response	4e. Review of External Funding for Police	As per other comments forget about other authorities the public and rate payers of West Lothian don't want a reduction on Police Officers. West Lothian pride themselves with the working relationships with Police Scotland. How can you talk about sharing buildings & resources if funding is cut. If this proposal goes ahead the Police response time will increase and they will simply lay the blame at West Lothian Council when challenged	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23908	An employee of West Lothian Council	4e. Review of External Funding for Police	I do not know where all the officers are based or their role so cannot comment on their proposed loss. I would however argue for the on-going funding of the analyst as they provide much needed information both for strategic planning and local operational intelligence sharing.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23909	An individual	4e. Review of External Funding for Police	and this ties in with your reduction of crime priority how exactly?	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. 23919	An employee of West Lothian Council	4e. Review of External Funding for Police	With Police Scotland receiving funding protection, and the council having its funding cut, there is no way we should be paying for police officers. The council shouldn't be responsible for providing police and most other councils don't do it (I wonder if those who don't have seen an increase in crime - probably not!).	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23920	An employee of West Lothian Council	4e. Review of External Funding for Police	This seems reasonable as long there is no reduction in officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23921	An individual	4e. Review of External Funding for Police	If you reduce this funding it will have serious implications for other areas of council business who are reliant on police involvement and response. They can only be stretched so far	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23922	An individual	4e. Review of External Funding for Police	Funding needed here according to needs and where communities have more needs than others	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23923	An individual	4e. Review of External Funding for Police	I am unclear what do these 21 extra police provide to the Council over and above that normally provide by Police Scotland.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23924	No Response	4e. Review of External Funding for Police	Agreed. Police Scotland should be financed by national government. Only concern would be the cost to police council events including elections, foreign dignitaries visiting etc which are possibly provided free to offset current cost of 21 police officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23925	An individual	4e. Review of External Funding for Police	Pay the police more and support them through reductions in paperwork etc	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23926	An employee of West Lothian Council	4e. Review of External Funding for Police	Reduce but not remove completely may be better i.e. keep 2 or 3 dedicated officers as SNT staff will need this resource for protection/dealing with gypsy travellers (a huge success for the team); getting information quickly; incase of any issues when out on calls. Police currently deal with very trivial matters that council staff can deal with instead - but council SNT staff needed even more if police are removed. Review calls into council about noise nuisance - it can be very high at the weekends. A service is still required or communities will get out of hand! Do not replace staff who leave this service.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. 23928	An employee of West Lothian Council	4e. Review of External Funding for Police	Why reduce police in any way. We need more not less. Anti social behaviour is too high and makes many uncomfortable especially with over dramatized news stories constantly. We need more to help people not less	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23929	An individual	4e. Review of External Funding for Police	This is a childish and should be taken up with Police Scotland.	Review of External Funding for Police (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
23930	An employee of West Lothian Council	4e. Review of External Funding for Police	Removal of Police funding will have a huge effect on dealing with issues such as anti-social behaviour which is on the increase due to the clientele we have. Officers rely heavily on joint working with Police for joint visits/visiting to issue warnings etc. Working with partners - surely this is contradicting what we say we are good at.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23931	An employee of West Lothian Council	4e. Review of External Funding for Police	as long as the police are able to sustain the same numbers of police on the streets then this should not be an issue	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23932	An individual	4e. Review of External Funding for Police	Given that the Scottish Government has committed to protecting Police Scotland's budget, they then have the responsibility to fund all requirements of policing.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23933	An employee of West Lothian Council	4e. Review of External Funding for Police	I am surprised that this exists in the first place.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23934	No Response	4e. Review of External Funding for Police	Agree but we could offer a different type of support i.e. share contracts / services	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23935	An individual	4e. Review of External Funding for Police	I'd like to see more police on the streets	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23936	No Response	4e. Review of External Funding for Police	I agree with this. Is Scottish Government responsibly and should be the same set up across local authorities. In addition to this funding, members of WLC staff also provide the Appropriate Adult Service to the local Police. This service is provided free and relies on workers volunteering over & above their exiting job roles.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23937	No Response	4e. Review of External Funding for Police	I would like to see more police on the streets where I live.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23938	An individual	4e. Review of External Funding for Police	If the council reduce police numbers they risk increasing crime which will ultimately put pressure on communities and health services. The council claim to promote 'up-streaming' activities to reduce future impact. Removal of police is contrary to this claim. The impact may not be felt in year 1 and by the time it is felt, it will have been forgotten that the council removing police officers contributed to it.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23939	An employee of West Lothian Council	4e. Review of External Funding for Police	As Police is a Scottish Government responsibility if they are not prepared to fund, this should be removed. However, care needs to be taken that any removal does not result in an increase in crime and an increase in expenditure for the council e.g. vandalism	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23940	An individual	4e. Review of External Funding for Police	I wasn't aware of this as a resident. The police should fund the police	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23941	An individual	4e. Review of External Funding for Police	What do the 21 police officers currently do? Do they help you fulfil your own priorities?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23942	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree this should be removed. Policing should not be subsidised by the public through council tax etc it should be fully funded centrally. Police Scotland who have their own savings to make, are now starting to charge the council for basic information such as the driver of a car involved in a Road Traffic Accident which assists the council to recover costs. They are also now asking councils to police large events and put Road closures to avoid police having to attend. Given the level of funding we should get this information free of charge.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23943	An employee of West Lothian Council	4e. Review of External Funding for Police	Unfortunately the fact that it is the responsibility of Police Scotland to fund Police officers is not the most important point for us. It is whether the service is essential/extremely useful. In the case of early intervention the police analysts provide much information for our projects that populate our Covalent systems and help us measure out outcomes. Unless this service can be provided elsewhere it is a huge disadvantage. Perhaps some of these roles could be consolidated to ensure that the priority requirements for us are fulfilled?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. 23955	An individual	4e. Review of External Funding for Police	Could you reduce the funding rather than remove it completely and see how this affects the local crime figures?	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
23956	An individual	4e. Review of External Funding for Police	Police is a must in my opinion.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23957	An employee of West Lothian Council	4e. Review of External Funding for Police	Crime levels are high , we need police officers for the safety of the community and local businesses	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23958	An individual	4e. Review of External Funding for Police	The Scottish Government should be paying for the Police NOT the council!	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23959	An individual	4e. Review of External Funding for Police	I'm sure this will be detrimental on crime and society	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23960	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree with this proposal. What benefit does West Lothian get from this arrangement? It is the Scottish Government's responsibility to ensure police have the funding they need. It is noticeable how little presence that Police Scotland have in local towns and villages since the reform of policing a few years ago. Parking is visibly a serious issue in many main streets because of a lack of any enforcement activity. I don't see why West Lothian tax payers should subsidise the funding of officers who are not involved in helping our communities.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23961	An individual	4e. Review of External Funding for Police	I would be concerned if this funding was withdrawn without assurance from a Police Scotland that there would be no reduction in officers, vehicles and analyst support in West Lothian.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23962	An individual	4e. Review of External Funding for Police	Remove the funding.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23963	An individual	4e. Review of External Funding for Police	no longer required.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

23964	An individual	4e. Review of External Funding for Police	You canâ€™t set a priority to reduce crime and make the streets safer and then cut police officers on the beat!	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23965	An individual	4e. Review of External Funding for Police	Nevertheless, this will result in 21 less officers policing West Lothian and that will have a significant impact on their ability to deal with local issues (i.e. antisocial behaviour, parking complaints) which will, no doubt, be passed back to the local authority to deal with or simply be unattended. I'm opposed to any cuts to police funding as it allows us to have 21 additional officers who are visible and accessible in our communities.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23966	An individual	4e. Review of External Funding for Police	Totally agree that the Council should withdraw funding for these officers. Policing should be a Police Scotland matter including how community based policing is implemented. The Council team should be focusing on how to maximise the use of existing anti-social legislation working in conjunction with other connected Council departments.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23967	An employee of West Lothian Council	4e. Review of External Funding for Police	Let the Scottish Government pay for its police force.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23968	An employee of West Lothian Council	4e. Review of External Funding for Police	Providing the SG gives an assurance that the 21 officers will remain with appropriate funding.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23969	An individual	4e. Review of External Funding for Police	We need people in good jobs that in turn will spend money locally. We need the education back to where it once was. We need crime free streets, better health for young and old. We need to move with the times and get the fundamentals right. Our towns and villages are suffering as well. The infrastructure needs looked at. Once we were proud to walk around.	Review of External Funding for Police (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
23970	No Response	4e. Review of External Funding for Police	Given the fact that the funding is the responsibility of Police Scotland is not the point unfortunately. If the service provided is integral -this is more important, and if it would be lost otherwise. The data analyst provides a necessary service to analyse the reoffending figures as we don't have access to the police computers. This was not available before and has been an invaluable tool and serves to populate covalent as well as all our SOA's.This service would require to be supplied elsewhere.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23971	An individual	4e. Review of External Funding for Police	Does that mean 21-officers would lose their jobs?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23972	An individual	4e. Review of External Funding for Police	We need more police. Not less.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23973	An individual	4e. Review of External Funding for Police	Community policing provided in [REDACTED] has been a major success. It is tackling the prime priority areas of concern to residents. To compromise community policing would be absolutely opposed. No cuts in this area.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

23974	An individual	4e. Review of External Funding for Police	If funding is removed then would that impact the community and if so how? If it does then Iâ€™d disagree with removing the funding	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23975	An individual	4e. Review of External Funding for Police	Police funding should be kept. The maintenance of law and order is an essential and basic need in our society.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23976	No Response	4e. Review of External Funding for Police	Agree with this proposal, Police should be fully funded nationally from central gov.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23977	An individual	4e. Review of External Funding for Police	Why do we even provide with this support?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23978	An employee of West Lothian Council	4e. Review of External Funding for Police	Sounds very dangerous to do this immediately. Maybe a scaled rollback required.	Review of External Funding for Police (general)	4. The council is already doing this.	If this is taken forward, the proposal would be phased over a reasonable timeframe.
23979	No Response	4e. Review of External Funding for Police	Agree. Not the council's responsibility to pay for police officers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23980	No Response	4e. Review of External Funding for Police	Agree with this proposal. Seems disproportionately large considering the funding cut to Police UK wide	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23981	An individual	4e. Review of External Funding for Police	I totally agree with the removal of funding I am pretty sure we don't offer the Fire Service any funding for extra resources.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23982	No Response	4e. Review of External Funding for Police	Agree with proposal. Partnership working with the Police should continue to share knowledge and keep communities safe.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23983	An employee of West Lothian Council	4e. Review of External Funding for Police	The provision of police officers in schools is invaluable. They provide teaching to students in the form of assemblies and classroom lessons in topics such as cyber bullying, islamophobia, homophobia, keeping yourself safe. They provide a presence in school and have encouraged more young people to speak to them rather than being afraid to come forward. They provide reassurance to parents, carers and young people and have a handle on what is happening in the community therefore preventing any escalation in issues before they actually present themselves in school. They share information between professionals; schools and the Police and a more rounded approach can therefore be taken. Removing this particular role would be a sad decision for the young people and their parents/carers in West Lothian.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

23984	No Response	4e. Review of External Funding for Police	As long as services don't suffer but I bet they will.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
23985	An individual	4e. Review of External Funding for Police	The national government and Police Scotland should be responsible for this, not Local Authorities. Agree with the proposal.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23986	An individual	4e. Review of External Funding for Police	I totally disagree with this proposal. This funding needs to remain, well at least the majority of the funding. The government can not be trusted on this one.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23987	An individual	4e. Review of External Funding for Police	This should be a central provision.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23988	An individual	4e. Review of External Funding for Police	I would be surprised if many residents appreciate that the Council provides this unique financial support for police manning in the area. From casual observation it does not appear that we are particularly generously provided with police manpower and one must assume that the Council will aim to ensure that the area receives its due manpower allocation when the funding support is withdrawn. I would request that the Council gives a full public account of negotiations with Police Scotland on these matters.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23989	An individual	4e. Review of External Funding for Police	It is not West Lothian council that controls crime but the courts and they need to be pressurised into meaningful sentences not community service which is laughable	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23990	An individual	4e. Review of External Funding for Police	Had not realised that this was done especially since a police presence in Linlithgow was scarcer than hens' teeth. Yes stop and get litter wardens out on bonus to stop the dog filth and litter	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23991	An individual	4e. Review of External Funding for Police	Agree although important that police Scotland continues to deliver the level of police officers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23992	An individual	4e. Review of External Funding for Police	The police should pay for these officers under their own funding. Hardly see any police, so where are the 21?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23993	An individual	4e. Review of External Funding for Police	As long Police Scotland funds an adequate number officers to include community policing and there is no rise in crime rates due to under funding	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23994	An individual	4e. Review of External Funding for Police	We already had the police provision in Linlithgow more or less removed.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23995	An individual	4e. Review of External Funding for Police	Responsibility of Police Scotland. I struggle to understand what the community police to in linlithgow. There are not visible or accessible.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23996	An individual	4e. Review of External Funding for Police	additional special constables can cover the shortfall	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23997	No Response	4e. Review of External Funding for Police	Could replace with special constables	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
23998	No Response	4e. Review of External Funding for Police	Why are West Lothian Council reducing Crime, isn't this a Police Scotland priority and subsequently their financial liability. After all, their the experts.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
23999	An employee of West Lothian Council	4e. Review of External Funding for Police	As long as this is sensitively addressed it makes financial sense. Police Scotland remain a key partner in addressing a range of local issues and its commitment to continuing to support these roles remains vitally important. Given the financial landscape it would be prudent to suggest that the employment of staff should be a role for Police Scotland and financial support for an organisation that has a protected budget would not appear to make much sense.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.
24000	An employee of West Lothian Council	4e. Review of External Funding for Police	Agreed â€ however what impact would this have on policing at local events ?	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24001	An individual	4e. Review of External Funding for Police	Possibly not for all 21 but need to fund some for local events - especially those that bring in tourists.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24002	An individual	4e. Review of External Funding for Police	That depends on whether the money awarded to Police Scotland represents genuine value for money and that West Lothian actually gets EXTRA police resources for the money it contributes over and above local authority areas who do not give money to Police Scotland - I'd like more information on what exactly West Lothian would lose if funding was cut	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24003	An employee of West Lothian Council	4e. Review of External Funding for Police	If West Lothian are one of only a few local authorities in Scotland funding police services, looking at the partnership working with Police in other areas would establish what benefits West Lothian are getting from this. A reduction or the complete removal of funding may be a good cost saving measure.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24004	An individual	4e. Review of External Funding for Police	Who will provide the new funding, will we lose police officers in West Lothian due to this?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24005	An individual	4e. Review of External Funding for Police	As long as the council will ensure that our streets will remain safe.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24006	An individual	4e. Review of External Funding for Police	Supported in principal however any reduction in manning levels should be avoided. Could this funding not come from increased licensing fees for events that will require some Police presence.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24018	An individual	4e. Review of External Funding for Police	Perhaps the removal of funding for the vehicles and analyst support and a maintaining of some of the polic officer roles could be considered instead of entirely removing the additional funding currently in place.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised
24019	An individual	4e. Review of External Funding for Police	This shouldn't be done without being very publicly advertised and explained. The reasons these officers were taken on is because we needed them. If removing these officers results in less safe streets and less productive policing, where community policing is near eradicated completely, these cuts should be opposed.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24020	An individual	4e. Review of External Funding for Police	If this is withdrawn, you should liaise with Police Scotland on how they will maintain and prioritise services	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24021	An individual	4e. Review of External Funding for Police	Council should work with other Councils to have the VAT applied to police services be set aside. This may involve approaches to Westminster and also Holyrood. Agree with proposal but would urge the VAT matter be raised to ease the pressure on police budgets.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24022	An employee of West Lothian Council	4e. Review of External Funding for Police	6.Also as citizen of West Lothian I personally would not like any reduction on Police funding from West Lothian Council. In the briefing you mentioned the council would increase the community safety side however they also depend on a police response. Simply go back a few years to what happened in Mid Calder (TV headline news) due to youths running wild it was the community police that resolved the issue	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24023	No Response	4e. Review of External Funding for Police	As citizen of West Lothian I personally would not like any reduction on Police funding from West Lothian Council. In the briefing you mentioned the council would increase the community safety side however they also depend on a police response.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. 24024	No Response	4e. Review of External Funding for Police	Just look at what happened in Mid Calder a few years back (TV headline news) Youths running wild it was community police funding that resolved this issue	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24025	An individual	4e. Review of External Funding for Police	As Police Scotland is a separate publicly funded body then I see no reason why the council should be providing any funding to them. Would strongly agree that this funding is removed.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24026	An employee of West Lothian Council	4e. Review of External Funding for Police	Further reductions on police funding will have a detrimental effect on crime and incidents within the smaller communities of West Lothian so i would disagree with this proposal.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24027	An individual	4e. Review of External Funding for Police	This is a vital service that is needing more money ploughed in to it so that people actually see Police in the Community - not just whizzing past in a car with blue lights on.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24028	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Police Scotland should be responsible for policing and staffing	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24029	An employee of West Lothian Council	4e. Review of External Funding for Police	This funding should be stopped. Police have their own funding from central government and the council should not have to augment this when their own budget is being squeezed.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24030	An individual	4e. Review of External Funding for Police	We in LINLITHGOW see police rarely.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24031	An individual	4e. Review of External Funding for Police	Scrap the funding for additional police officers, analysts and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24032	An individual	4e. Review of External Funding for Police	This is very worrying!	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24033	An employee of West Lothian Council	4e. Review of External Funding for Police	Scrap the funding for additional police officers and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24034	An employee of West Lothian Council	4e. Review of External Funding for Police	Scrap the funding for additional police officers, analysts and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24035	An individual	4e. Review of External Funding for Police	While this might have been something which was needed a number of years ago to prevent youth crime I understand the there are no longer specific police officers provided with this funding therefore it should end.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24036	An individual	4e. Review of External Funding for Police	I would would want Police Scotland to provide information about how they plan to provide adequate policing levels before this funding is withdrawn. As a resident of West Lothian who has used the service, I know how stretched the service is, to the point that many police officers are leaving the profession due to stress and ill health. I would like to see an increase in community police officers working on crime prevention and supporting our communities and schools.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24037	An individual	4e. Review of External Funding for Police	Surely this will only be detrimental to employment/crime unless an appropriate agreement is not reached with Police Scotland first, this sounds more like an assumption of cooperation	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24038	An employee of West Lothian Council	4e. Review of External Funding for Police	Wholeheartedly support the end of this propping up of a government election promise. I would question if this funding is benefitting anyone in west Lothian at all, most likely neighbouring authorities due to their complete refusal to provide transparent information to the public on where these resources are deployed. If we are paying for a service, I would like to see who benefits in reality. Are the 21 officers in West Lothian all the time? I think not.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24039	An individual	4e. Review of External Funding for Police	This funding should remain as crime prevention is imperative to continue reduced crime statistics	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24040	An employee of West Lothian Council	4e. Review of External Funding for Police	whilst it may not be our responsibility legally, morally if we can help people feel safer in their homes with additional police officers then surely as a place we want to attract people to visit needs to be secure	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24041	An individual	4e. Review of External Funding for Police	As long as it does not involve a reduction in the number of police. There are few enough police and they all manage to keep a low profile.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24042	An individual	4e. Review of External Funding for Police	We do need the police but if they have their own budget then yes this should be cut as it is not the Councils responsibility	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24043	An employee of West Lothian Council	4e. Review of External Funding for Police	Schools benefit greatly from additional support from Police Scotland. if at all possible, some retention of support for schools would be effective in terms of early intervention and prevention of crime.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24044	An individual	4e. Review of External Funding for Police	As long as this is not at the detriment to the safety of West Lothian residents and crime levels are not negatively affected	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24045	An individual	4e. Review of External Funding for Police	Will these 21 officers lose their jobs? A more clear picture needs to be painted of the effects of this change.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24046	An individual	4e. Review of External Funding for Police	The council with its budget constraints should not be subsidising a function that should be the sole responsibility of the Scottish Government.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24047	An individual	4e. Review of External Funding for Police	Quite right. Let Holyrood sort it out!	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24048	An individual	4e. Review of External Funding for Police	Let the police pay for themselves.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24049	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree police Scotland numbers are protected	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24050	An employee of West Lothian Council	4e. Review of External Funding for Police	In the last few years, the reports of crime in Livingston has gone up. To hear that police numbers may be reduced because the Council removes this funding is alarming.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24056	An individual	4e. Review of External Funding for Police	Agree it is the Governments responsibility	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24057	An individual	4e. Review of External Funding for Police	If no where else in Scotland funds the police why do west lothian. Agree to drop funding.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24058	An employee of West Lothian Council	4e. Review of External Funding for Police	Police Funding is crucial. I do not belie this should be cut. I am absolutely opposed to this. We as an authority receive substantial input from police in many areas and without quibble. The impact of this is extremely positive on so many departments and provides with a cohesive approach to problems within the council area. I consider this to be a service we cannot lose.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24059	An individual	4e. Review of External Funding for Police	Agree with this. Council should approach HM Government to set aside the VAT applied to our Police force and thereby ease the pressure on their budget.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24060	An individual	4e. Review of External Funding for Police	due to the way Police Scotland is worked now if you remove funding for these officers and vehicles they will be used in other parts of Scotland, not West Lothian which already doesnt have enough officers and vehicles to carry out their duties effectively.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24061	An employee of West Lothian Council	4e. Review of External Funding for Police	Changes to joint working with Police have seen a serious degradation in the ability of councils officers and police officers to work in partnership Having gone from a model which was held as a model of excellence and which was talked about as being rolled out nationally. This proposal risks sending services back at least 14 years and will result in no joint working being done between police or council officers, which in turn will have a detrimental effect on local communities. With residents being given conflicting advice as to who they should call and why and what will be witnessed in terms of reported incidents of antisocial behaviour. What should be done is a rationalization of the services offered and to streamline these so that both police and council officers share a shift pattern as was previously the case and which can be clearly evidenced as having provided significant results to local communities.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24062	An individual	4e. Review of External Funding for Police	Make sure the Scottish government put in writing that these posts will continue to be funded.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24063	An employee of West Lothian Council	4e. Review of External Funding for Police	4e I do appreciate the pressure on Police Scotland, but agree they have the responsibility to deliver their function, with or without funding from WLC.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24064	An individual	4e. Review of External Funding for Police	This is a very bad idea. An increase in crime and disorder would incur costs elsewhere and impact on other service areas. The funding should be seen as preventative and offset by notional costs that would incur if this was removed.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24065	No Response	4e. Review of External Funding for Police	A reduction in available Police may have the effect of an increase in crime etc. this should be balanced against the potential savings to the Council.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24066	An employee of West Lothian Council	4e. Review of External Funding for Police	There is a danger that by removing this funding, policing standards within West Lothian will drop.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24067	On behalf of a Group/Organisation	4e. Review of External Funding for Police	The police offices working in schools are a valuable asset to the school and local community in terms of building positive relationships between young people and the police. Removal of this may impact on the council priority to reduce crime across West Lothian	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24068	An individual	4e. Review of External Funding for Police	perhaps the council should hand the police budget that it pays almost £700000 back to police Scotland, this would go a long way towards musical services. another aim is to keep children occupied, ie off the streets, off computers and out of trouble, music gives children hope and development in life. I don't know any adult that doesn't wish that they could, or wish that they had been given the chance to play an instrument as a child. please don't take this right away from mine and future generations.	Review of External Funding for Police (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

24069	An individual	4e. Review of External Funding for Police	This is all good and well as long as this does not have a detrimental affect on crime increasing in West Lothian. More assurances from government should be sought. We want West Lothian to be a safe, crime free region.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24070	An individual	4e. Review of External Funding for Police	This is worrying as it could result in increased crime.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24071	No Response	4e. Review of External Funding for Police	Maybe the housing officers should take more control over their tenants and then that would free up the police from having to attend noise complaints and other low level anti social behaviours.	Review of External Funding for Police (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
24072	An individual	4e. Review of External Funding for Police	This is a retrograde step, the benefits of having Community police officers pays a dividend of reducing anti-social behaviour and vandalism. The current set-up with Police Scotland on the streets and in schools working the Council Safer Neighbourhood Teams provides an integration of services than not only reduces crime, it helps to stop low level offending escalating to something more serious that may lead to a youngster staying off the rails and blighting their future. The way that Livingston is structured with a myriad of footpaths requires police officers who know the locality and their 'customer' base. Community policing provides this and it is questionable if the proposed Â£700K saving would be materialised owing to the likely cost of vandalism not to mention the inconvenience to Council Tax payers by the increase in anti-social behaviour.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24073	An individual	4e. Review of External Funding for Police	This depends on what you get for the money!	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24074	An employee of West Lothian Council	4e. Review of External Funding for Police	The police already get their funding as do the council. Whilst it may not be sufficient this is government/ police issue and council funding should never have been put in place.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24075	An individual	4e. Review of External Funding for Police	Keep under review	Review of External Funding for Police (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
24076	An individual	4e. Review of External Funding for Police	It is to be hoped that this will not impact on Police Scotland coverage of their duties.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24078	An individual	4e. Review of External Funding for Police	The community police officers in Linlithgow have been highly successful in tackling priority areas of concern to residents in the town. I would not be supportive of any cuts to the community police budget and their presence and assistance in the town of Linlithgow.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24079	An employee of West Lothian Council	4e. Review of External Funding for Police	Remove all this immediately , Police Scotland have 7 regions of funding to use, new laws that allow the use of confiscated drugs money etc..	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24080	An employee of West Lothian Council	4e. Review of External Funding for Police	I do not think that the council should support shrinking resources which another authority is responsible for. This only masks the impact of cuts to the police.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24081	An individual	4e. Review of External Funding for Police	Don't think the funding should be removed. We have a need for more officers on the streets, walking about, not less.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24082	An employee of West Lothian Council	4e. Review of External Funding for Police	The council should not be funding the police in the current climate.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24083	An individual	4e. Review of External Funding for Police	Police service is already on its knees.	Review of External Funding for Police (general)	3. The respondent advised that they had no comment to make.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24084	An individual	4e. Review of External Funding for Police	how will removing funding help? the police are already stretched to breaking point.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24085	An individual	4e. Review of External Funding for Police	I think the removal of this particular funding will bring a higher level of costs in the long term. West Lothian have already experienced the impact of a reduction when changes were made and community police officers were reduced etc. For a little while there, it looked like things were going to improve. This feels like really bad news with a ripple effect that could be felt for years.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24086	No Response	4e. Review of External Funding for Police	It seems unnecessary to pay for additional police officers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24087	No Response	4e. Review of External Funding for Police	Not completely eradicating the 21 Police officers but certainly reducing the amount we have. Splitting them to East and West possibly 10 officers in total dealing with the whole county.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

24088	No Response	4e. Review of External Funding for Police	OK - if Police Scotland can meet the adequate levels. If not, may have to be reviewed to ensure public safety.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24089	No Response	4e. Review of External Funding for Police	Policing is now a national body which should be funded by the Scottish government	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24090	No Response	4e. Review of External Funding for Police	As this is not within the existing protected Police budget, are there guarantees from Police Scotland that officer numbers will be maintained?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24091	On behalf of a Group/Organisation	4e. Review of External Funding for Police	How much will this save?	Review of External Funding for Police (general)	3. The respondent advised that they had no comment to make.	The proposal is anticipated to realise a saving of £700,000
24092	An individual	4e. Review of External Funding for Police	I think this is a priority in West Lothian due to the increased attacks on the public	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24093	No Response	4e. Review of External Funding for Police	I like the idea that WL council does this but possibly its a luxury we cannot afford? Maybe a reduction would be best.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24094	An individual	4e. Review of External Funding for Police	Totally agree. Should be the responsibility of the Scottish Government.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24095	An employee of West Lothian Council	4e. Review of External Funding for Police	Agreed this is not something that the Council should be subsidising	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24096	An individual	4e. Review of External Funding for Police	Community councils could play a part in funding initiatives for this.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24097	An individual	4e. Review of External Funding for Police	I do not support this approach. The increase in crime will lead to additional unaccounted for costs for the council. Â£700k is not a significant saving	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.

24098	An individual	4e. Review of External Funding for Police	Again with using removed , funding and police int he same sentence. one of the 8 priorities looks at crime. 21 officers doesnt sound like alot compared to the amount of officers with police scotland but for west lothian that could be a big hit. we already have too many police stations on part time as it is right now in west lothian. People already don't feel safe, this will make that worse.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24099	An individual	4e. Review of External Funding for Police	There are already far too few police officers in West Lothian. Totally disagree with this proposal.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24100	An individual	4e. Review of External Funding for Police	I appreciate why this is being done but will it be monitored to make sure the council does not lose any of the policing levels as there is definitely an increase in crime and youth trouble that the police are currently trying deal with and a decrease in the levels means this would become a bigger problem than we currently have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24101	No Response	4e. Review of External Funding for Police	Police Scotland should certainly be providing a budget for the provision of police officers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24102	An individual	4e. Review of External Funding for Police	I am not sure that community police are value for money. they work strange shifts and it is more likely that police from elsewhere will respond.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24103	An individual	4e. Review of External Funding for Police	yes, but this should not be at the expense of loosing Community Police officers, the Council must be robust in dealing with this matter and put pressure on Police Scotland to provide adequate police levels, particularly in Community Policing as this has been successful.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24104	An individual	4e. Review of External Funding for Police	This is concerning. It would be of interest to know where these police officers are currently deployed and the impact this will have on these areas if a police presence is reduced.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. 24106	An individual	4e. Review of External Funding for Police	Does this means 21 police officers will lose their jobs? Significant resources goes into training these officers who carry out essential duties for the public. I am not sure all this training and experience going to waste is a good investment for the future.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24107	An individual	4e. Review of External Funding for Police	A review should be taken across all local authorities to decide on a fair allocation across each local authority. This seems like a large jump from all to nothing without consideration fo how this will impact police Scotland	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24108	An individual	4e. Review of External Funding for Police	Although agree in principal that the government should be providing suitable staffing and services to support the local communities, concerned that this will have impact on local sense of security, causing potential for higher youth orientated crime, e.g. graffiti and smashed glass, bottles etc.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24109	An individual	4e. Review of External Funding for Police	OMG! I'd no idea that WLC funded Police Scotland to that level.21 officers is a sub division. We all know their budget is burst too, this will really set the cat amongst the pigeons. If every council does this police Scotland will be bankrupt. That said I fully get why this is being considered. Cracks starting to show in the Scottish Government funding policy it seems. Go for it I say, it won't stop bobbies on the beat just make the Government see the true cost of policing.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24110	No Response	4e. Review of External Funding for Police	I approve of the proposal to remove external funding for police officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24111	An employee of West Lothian Council	4e. Review of External Funding for Police	Community police are need in schools	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24112	An employee of West Lothian Council	4e. Review of External Funding for Police	Has there been an assessment on what the impact on this will be on the community?	Review of External Funding for Police (general)	4. The council is already doing this.	Aside from considering the public on their views of the impact on them, an equality impact assessment forms part of the planning of this proposal and will take place before a final decision is made.
24113	An individual	4e. Review of External Funding for Police	I am worried about this. Less police may mean extra spending in the long run to â€œclear upâ€™ acts of anti social behaviour. I feel police are vital in helping communities to feel safe & to teach children from a young age desired social responsibility.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. 24122	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Mill Road BID have also had a number of successes working with the local authority supported community police officers for the Linlithgow area, to tackle a number of issues in the area. These include dangerous driving, antisocial use of vehicles, investigation of break-ins, liaising with businesses and the community over arrival of travelers; plus, they have provided a number of local surgeries both at the industrial estate and the town centre for businesses and members of the community to raise their issues or concerns, as well as helping to advise the Board on the installation of our CCTV system. One of the greatest successes from working with the community officers was a coordinated operation between the community officers, myself from the BID and a team of two officers from traffic, placed on detachment for 3 days to address the rising problem of antisocial vehicle use and the consequential dangerous driving that followed. From this operation came no less than 8 ASBO's, 3 people charged under the Road Traffic Act 1988 and one person arrested on warrant. Should the support for the police officers in our community be cut, we will lose a valuable resource and officers who are committed to serving their community, in the same manner the BID and its team are.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24135	An individual	4e. Review of External Funding for Police	I strongly disagree with this proposal. There should be no cuts of funding for police officers. Cuts in this area would be a danger to public safety.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24136	An employee of West Lothian Council	4e. Review of External Funding for Police	Role of community police officers supports the work of schools and communities - this will impact negatively on the communities of WL and relationships with young people and schools , Additional police officers can build positive ,supportive relationships with young people who are vulnerable.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24137	An individual	4e. Review of External Funding for Police	4e This is not as simplistic as has been proposed. What will the cost be to society and all the criminal justice services if levels of crime increase in the community. Short term gains, long term losses. Council elected members should be opposing this and all cuts publicly not stepping back and playing political football with opposing parties. elected members have a duty to put their head above the parapet and challenge the current culture of carrying out distasteful policy.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24138	An employee of West Lothian Council	4e. Review of External Funding for Police	Strongly agree. The Scottish government are responsible for police funding so the council should not be using scarce resources for this purpose.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24139	An individual	4e. Review of External Funding for Police	Will this mean that all the Orange Lodge marches that you allow to happen all over West Lothian every year won't be going ahead? If so, good.	Review of External Funding for Police (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
24140	An individual	4e. Review of External Funding for Police	Does this mean that the current council budget would be provided directly to Police Scotland by the Scottish Government?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24141	An individual	4e. Review of External Funding for Police	Sounds a bit drastic, but as it is Police Scotland's responsibility then they should fund it.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24142	An employee of West Lothian Council	4e. Review of External Funding for Police	This is already having a detrimental effect on council staff as Police Scotland are requiring council staff to complete specific work not normally completed by them. This will only increase further stress and pressure on staff.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24143	An individual	4e. Review of External Funding for Police	Totally agree with Scottish Government paying for Police Scotland. No costs should be passed to the council.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24144	An individual	4e. Review of External Funding for Police	If this funding is removed by Council, is there a guarantee that Police Scotland will fill the vacuum.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24145	An employee of West Lothian Council	4e. Review of External Funding for Police	This is the measure I support most in the consultation. The council is not responsible for funding Police Scotland and this is especially the case when the Scottish government is making significant cash cuts to council funding, whilst providing some budget protection for Police Scotland. The police have never adequately shown where the council funding goes, and have only now started an information campaign when they have seen this funding may be removed. This is in my view a decade too late. It would be hugely disappointing for council staff if more council services had to be cut to protect the funding given to the police. In conclusion, it is time for the police funding to go - the Scottish government are accountable for police funding and performance. If the Scottish government want to free up police time they could repeal the authoritarian Offensive Behaviour at Football act which wastes police time harassing football fans.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24146	An individual	4e. Review of External Funding for Police	Eh...? Have a word with the SG!! They've got enough for baby boxes and allowing everybody to have a free school meal or prescription irrespective of the ability to pay. Sometimes you just have to make yourself (slightly) unpopular and make some grown up decisions and cut these things, release some money and pay for a safer Scotland. Yes - I am annoyed about that. What a waste than you have as a Council have to deal with.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24147	An individual	4e. Review of External Funding for Police	I disagree with this proposal- crime is currently too high	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24148	An individual	4e. Review of External Funding for Police	Agree - this is the responsibility of the Scottish Government who have salami sliced Council funding while freezing Council Tax over many years. This is one of the obvious casualties.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24149	An individual	4e. Review of External Funding for Police	Let the Scottish government fund the Police, I agree the council funding for this should be removed.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24150	An individual	4e. Review of External Funding for Police	Questions why the council provided the funding in the first place and by removing the funding what impact will this have? What services will be removed?	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24151	An individual	4e. Review of External Funding for Police	I do not agree, this is an indirect means of cutting funding to Police Scotland	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. 24152	An individual	4e. Review of External Funding for Police	What are the benefits of Community policing and what would the disadvantages be of losing our community police? We in Linlithgow have got used to our two Community Policemen who do a great job.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24153	An employee of West Lothian Council	4e. Review of External Funding for Police	My understanding is that this service supports Housing and the Safer Neighbourhood Team for anti-social issues within communities - if this was lost then it is unlikely that police Scotland would want to deal with minor issues. Overall this service likely helps all communities and the sharing of information between the relationship of the Council and the Police is vital and has taken time to build up so I think it would be a detriment to the community and Council staff if this was lost	review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24154	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Additional police officers make West Lothian a safer place to live, perhaps before any changes there needs to be a full consultation around this to establish whether there are any benefits to this.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24155	An individual	4e. Review of External Funding for Police	Agree - but someone must pay to have local police stations and community policemen. Closing Linlithgow Police Station was a really bad thing	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24156	No Response	4e. Review of External Funding for Police	I do not believe that the current level of Policing is at all satisfactory for the West Lothian area. I think that they are already stretched beyond acceptable and the funding should not be cut at all in this area.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24157	An individual	4e. Review of External Funding for Police	Bearing in mind the inadequate manning levels in West Lothian currently, ie 8 Officers to cover all of WL on a Saturday night do you really think this helps the safety and security of WL residents?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. 24158	An employee of West Lothian Council	4e. Review of External Funding for Police	Remove funding for the Police by WLC. If other local authorities have done so and the Police have adjusted accordingly, why is WLC any different.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24159	An individual	4e. Review of External Funding for Police	This could have a massive affect on services if the police pull back from on the ground partnership operations and lower priority police matters which the service may then have to try and deal with.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24160	On behalf of a Group/Organisation	4e. Review of External Funding for Police	The removal of this funding could be to the detriment of the success of partnership working on West Lothian. The analyst support analyses information from partners [West Lothian Council, Police Scotland and Scottish Fire and Rescue Service], which then informs the deployment of partnership resources in a evidence based manner. The removal of the analyst to support this evidence based approach and funded Police Officers may bring about a rise in antisocial behaviour and associated costs, which may in turn be would be far greater than the cost of providing the analyst and additional Police Scotland Resource.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24161	An individual	4e. Review of External Funding for Police	Linlithgow needs a police presence otherwise its community will loose confidence	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24162	An individual	4e. Review of External Funding for Police	Agree especially as we don't have a manned police station in Linlithgow	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24163	An individual	4e. Review of External Funding for Police	This council provided funding to Police Scotland should be cut. This is clearly a Police responsibility, and I fail to understand why any local authority would fund Police Scotland resources. If there is a Police Scotland business and resource requirement then clearly this is a Police responsibility, and WLC should not be subsidising this service.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24164	An individual	4e. Review of External Funding for Police	Will this lead to an increase in antisocial behaviour, especially at night when the nearest patrol could be on the Edinburgh bypass?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24165	An individual	4e. Review of External Funding for Police	Sensible proposal as these officers should be supplied and paid for by the government.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24166	An individual	4e. Review of External Funding for Police	I do not want the number of officers to reduce but agree Police Scotland needs to take up the fight.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24167	An employee of West Lothian Council	4e. Review of External Funding for Police	Absolutely agree. I didn't realise that we had any proper policing left in this County anyway! This is the Scottish Government's responsibility and the Council should not be held to account for this either socially or financially.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24168	An individual	4e. Review of External Funding for Police	Police funding should be a matter for Police Scotland.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24169	An employee of West Lothian Council	4e. Review of External Funding for Police	21 police officers seems a significant number to reduce the police work force by, I would be concerned that this would have an impact on the safety of the west lothian community and the response times of police to incidents. If Police Scotland would take on this responsibility then this seems like a logical saving.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24170	An employee of West Lothian Council	4e. Review of External Funding for Police	Hard decision. They do provide a service to the community to deal with antisocial behaviour and make communities safer. though it could be argued that the Police should be funding this if it is needed.	Review of External Funding for Police (general)	3. The respondent advised that they had no comment to make.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24171	On behalf of a Group/Organisation	4e. Review of External Funding for Police	I understand that the Police officers should be funded through Police Scotland, our concerns are that however, they are funded, Community Police Officers remain, they have been invaluable in reducing crime in West Lothian. Our detached streetwork service has worked in partnership with this team effectively on many occasions, without this work we will see an increase in youth crime and ASB in West Lothian communities. There could possibly be room to reduce the number of SNT Officers. The Police Analyst post is absolutely essential and a pivotal role in all Community Safety Partnership communication and shared information systems. As a third sector organisation involved in this partnership work, can we be involved in any budget reduction discussions where appropriate as we have a seconded post as a member of the CSU.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24172	An individual	4e. Review of External Funding for Police	More information is required on what the police officers do. A significant amount of work outlined in the Police's latest report was dealing with vulnerable people in West Lothian. I recall in the region of 80% of their time. If this is the case what will happen to those people now? Where would the help, support and referrals go? How many police officers do we have in West Lothian now and how many will we have after the 21 are removed? What risk analysis has been done on this proposed cut and the impact on residents safety and well being?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24173	No Response	4e. Review of External Funding for Police	you speak with the police and they advise how little cars and officers are on during the week throughout the evenings, are Police Scotland using the councils funding to finances other local authorities?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24174	An individual	4e. Review of External Funding for Police	The budget of Police Scotland appears to be all used up and so I would support continuing the funding of our 21 police officers and their vehicles and analyst support. The number of officers in West Lothian is already low and so we need to protect this funding. We do not want a rise in the crime rate.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue.

Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24176	An individual	4e. Review of External Funding for Police	Should this impact the police service provision in Linlithgow I would object to this proposition. This year I had the unfortunate need to call 999 as I was witnessing a crime taking place (attempted car break-ins) in the vicinity of my home in Linlithgow. After 15 minutes of no sight of police I witnessed the criminals running with items they had stolen from a vehicle. I called 999 again being advised that police were indeed 'on their way'. What I wasn't advised was that the police were being sent from Edinburgh as there was no-one available 'locally'. It took the police some 40-45 minutes to get to the place of the crime. This is a shocking service. After the second 999 call I have heard absolutely nothing from Police Scotland.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. In terms of response times and prioritisation of crimes, this is out with the remit of West Lothian Council and is a Police Scotland decision.
24177	An individual	4e. Review of External Funding for Police	I hope you then put forward to the government the situation you are in and for them to make our communities safe by providing these extra officers and resources.	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24178	An individual	4e. Review of External Funding for Police	This is a scandal. Why are you even allowing this to happen. Stop the funding now.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24179	An employee of West Lothian Council	4e. Review of External Funding for Police	This is a disgrace and should be stopped immediately.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24180	An individual	4e. Review of External Funding for Police	No disagree need more police officer on our street and a traffic warden back.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24181	On behalf of a Group/Organisation	4e. Review of External Funding for Police	There are serious concerns over this proposed reduction of funding. There will be fewer community officers covering a larger area so by this very fact incidents will no longer get the same time and in-depth work done. The loss of CSO, YCO, CAT and CBO officers will have a serious impact on partnership working and engagement with the community. Also the local contact between Police and the community councils/organisations and agencies is in danger of being lost or drastically reduced. Should the funding be removed then at this time it is not known what community policing model would be adopted. The bottom line is that there could be an increase in crime with all its concomitant effects.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24182	An individual	4e. Review of External Funding for Police	what is the history to the funding decision? it is not clear from your statements if the Scottish government will take on the funding that the council will withdraw	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24183	An individual	4e. Review of External Funding for Police	I agree that policing should be provided by Police Scotland and not from the WL's budget.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24184	An individual	4e. Review of External Funding for Police	There should be no cuts to the police budget unless Police Scotland agree that they can provide the same level of policing despite the cuts.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24185	An individual	4e. Review of External Funding for Police	Scrap the funding for additional police officers, analysts and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24186	An employee of West Lothian Council	4e. Review of External Funding for Police	Scrap the funding for additional police officers, analysts and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24187	No Response	4e. Review of External Funding for Police	Feel some panick about whether Police Scotland will be in a position to replace this support. I do feel local community officers funded by the council helps massively to keeping crime in West Lothian down. A careful approach is required here.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24188	An individual	4e. Review of External Funding for Police	There is no obvious justification for the council funding police officers	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24189	An employee of West Lothian Council	4e. Review of External Funding for Police	The police should be able to fund there own officers and provide a level of service to meet their criteria	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24190	An employee of West Lothian Council	4e. Review of External Funding for Police	I agree with this suggestion. This would also bring the Council in line with the other local authorities.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24191	An individual	4e. Review of External Funding for Police	I totally agree with this proposal. This would appear to bring West Lothian in line with other local authorities.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24192	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Agree with this proposal. Let Police Scotland fund the funding to provide statutory requirements.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24193	An individual	4e. Review of External Funding for Police	I would hope that the community Police will be still be visible and accessible within WL high schools.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24194	An individual	4e. Review of External Funding for Police	Hopefully , this would not result in 21 fewer police officers in the council area.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24195	An individual	4e. Review of External Funding for Police	I think the current state of the community requires additional police officers and think this would be a wrong move by the Council	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24196	An individual	4e. Review of External Funding for Police	Agree. However, I hope that the Council will seek confirmation that Police Scotland will maintain currently policing levels in West Lothian.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24197	An employee of West Lothian Council	4e. Review of External Funding for Police	I agree with this proposal. The council needs to protect it's own staff where possible and let eg Police Scotland protect theirs.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24198	An individual	4e. Review of External Funding for Police	This goes against one of the Councils priorities which is to 'Reduce crime and improve community safety'.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24199	An individual	4e. Review of External Funding for Police	Please do not cut within the police, the result could be much higher levels of crime.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24200	An individual	4e. Review of External Funding for Police	The security of the people of West Lothian must be paramount. Will police Scotland then replace these officers?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24201	An individual	4e. Review of External Funding for Police	Counter to stated Priority 6: reducing crime and improving community safety. The Community Team do an amazing job that seems to fly under the radar. WLC are the only council that fund officers in schools, officers to support housing officers in the community, officers to come to Community Council meetings etc., and they are educating as well as enforcing. Therefore, this proposal is unacceptable to me.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24203	An employee of West Lothian Council	4e. Review of External Funding for Police	Would agree, if the work will still be considered to be funded by Police Scotland	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24204	An individual	4e. Review of External Funding for Police	If the council provided money for 21 police officers, this decision was likely made after much discussion, possibly feeling there was a need in the county for extra police. I don't believe that society has improved, more homes robbed, violence in the streets especially at night and weekends. I am against this proposal.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24205	An employee of West Lothian Council	4e. Review of External Funding for Police	Scrap the funding for additional police officers, analysts and their vehicles. They already have the assurance that their funding from Police Scotland is secure which is more than the employees of WLC have.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24206	An individual	4e. Review of External Funding for Police	If you reduce funding for local police crime will increase and the cost to resolve the crime will increase. This is a false saving in my opinion.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised.
24207	An individual	4e. Review of External Funding for Police	Although I agree Police Scotland are the responsible organisation for ensuring adequate levels of policing, withdrawal of this funding would directly contradict one of WLC's key priorities. The huge deficit WLC is trying to address is going to have a negative impact on all areas of WL. To remove funding from an area which strives to keep communities safe within West Lothian, would not be a sensible option to take.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24208	An employee of West Lothian Council	4e. Review of External Funding for Police	Police funding should be from Police Scotland to ensure that they provide sufficient resources to ensure public safety and order. this should not be something that is funded by the local authority, however, I completely understand the reasons for this to improve the safety of the area we all reside in. that responsibility, however, should be shifted to those responsible for it.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24209	An individual	4e. Review of External Funding for Police	Totally agree with this proposal and as the police budget is to be protected then I would expect them to continue to provide the additional officers at their cost - it would not be acceptable to reduce the amount of police but surely just like WLC the police can make other changes to allow this to happen.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24210	An individual	4e. Review of External Funding for Police	A difficult choice. Community Police remove fear of crime which is a bigger issue than crime itself. It also is a useful source of information for Police investigations. Given that other Councils do not support this it is an obvious one to go.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24211	An employee of West Lothian Council	4e. Review of External Funding for Police	Agree if the Police budget is protected.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted. Protecting the police budget is not the responsibility of the council.
24212	An individual	4e. Review of External Funding for Police	Police Scotland should provide an appropriate level of policing in West Lothian, it should not be the council's responsibility	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24213	On behalf of a Group/Organisation	4e. Review of External Funding for Police	The Race Forum do not have a strong issue with this proposal as the Police will still be providing a service despite these cuts. On the other hand, where a council needs to cut a service, this will be completely lost. However; the forum would still like to know if an equality impact assessment been carried out for this budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. The service is committed to ensuring an Equality Impact Assessment will be carried out prior to any final decision. The outcome of this assessment will be used within the formative considerations of this decision making process.
24214	An employee of West Lothian Council	4e. Review of External Funding for Police	I feel there could be a cut here, not taking it away completely possibly limiting it to 10 police officers for the district. More community engagement and the neighbours taking responsibility for the area would be more cost effective.	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This will be passed to those responsible for the planning of this proposal.
24215	An individual	4e. Review of External Funding for Police	Seems that you made a poor decision historically that you now need to change. Are WLs levels of policing funded by Police Scotland lower because you have been covering costs and so will we now suffer lower levels than elsewhere?	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24216	An individual	4e. Review of External Funding for Police	No we need more police not less!! I will happily pay for more police	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

24217	An individual	4e. Review of External Funding for Police	At our peril. But if all councils did this- government intervention? Government help?	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24218	An individual	4e. Review of External Funding for Police	Will Police Scotland provide the appropriate/necessary/adequate cover from their own budget. This should be ascertained.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24219	On behalf of a Group/Organisation	4e. Review of External Funding for Police	Feelings that people in the community would be less safe if there is going to be less police officers working in west lothian.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24220	An employee of West Lothian Council	4e. Review of External Funding for Police	I do not agree with this proposal. Police services are an important part of our community and should be fully funded. There has been cuts to this service already.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24221	An employee of West Lothian Council	4e. Review of External Funding for Police	Agreed. There is no case for the council to fund police officers.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24222	An individual	4e. Review of External Funding for Police	Let's have traffic wardens in Linlithgow. The present situation is impossible and has to change. Fund it by parking meters to ration spaces so we can free up spaces for visitors and shoppers.	Review of External Funding for Police (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally. Traffic Management is part of the remit of the police in West Lothian.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24223	An employee of West Lothian Council	4e. Review of External Funding for Police	Strongly agree. In current circumstances there is no justification for the continuation of Council funding to Police Scotland.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24224	An employee of West Lothian Council	4e. Review of External Funding for Police	The council should not be supporting police jobs at the expense of council employees	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24225	An individual	4e. Review of External Funding for Police	The removal of community officers would surely see an increase in crime and anti-social behavior which would lead to further problems in the long run.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24226	An individual	4e. Review of External Funding for Police	The removal of the community policing and safer neighbourhood model will be very detrimental to West Lothian. There was a marked decrease in sense of community safety when Police Scotland came to fruition and a move away from the safer neighbourhood approach. That appears to have returned recently with better success and to lose this service would likely see an increase in issues in future years. With a 20 year commitment to reduce the worst inequality this would be to the detriment of that aim.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24227	An employee of West Lothian Council	4e. Review of External Funding for Police	If budgets are reduced then it could be beneficial for us to look within council services and not provide money where we cannot afford to, it could be every man for themselves and for Police Scotland to budget accordingly.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24228	An individual	4e. Review of External Funding for Police	Not a statutory function for WLC so remove the funding.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24229	An employee of West Lothian Council	4e. Review of External Funding for Police	although I agree funding should be reduced stopped for the police my concern is that the reduction in funding will reduce policing more & increase crime, I think it is maybe better to reduce rather than stop altogether	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24230	An individual	4e. Review of External Funding for Police	unfortunate but understandable but again impact study should be undertaken	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24231	An individual	4e. Review of External Funding for Police	I think the introduction of the school police officer in our local high school was a great initiative by the council. His ability and local knowledge has proved to be invaluable on many occasions. The pupils too have responded well to the presence of a police officer on campus and behaviour and self esteem have improved. Could this be one area for consideration even on a shared basis with other schools.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24232	An individual	4e. Review of External Funding for Police	The Council should have increased the Council Tax for this year. The Council's support for the local police force who help make the people of West Lothian's lives safe and secure should be kept.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24233	An individual	4e. Review of External Funding for Police	Yes, this funding should be removed.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24240	An individual	4e. Review of External Funding for Police	Don't remove all funding from police perhaps just reduce the number of officers funded	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24241	An individual	4e. Review of External Funding for Police	Policing should be wholly funded by Police Scotland	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24242	An individual	4e. Review of External Funding for Police	The provision of community policing has had a tangible benefit in making the streets and other areas of West Lothian safer. Removal of this funding would be misguided as it would limit crime prevention - thus increasing the risk of offending (with all the stigma attached to that) and render far greater risk to the health and safety of WL residents.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24243	An individual	4e. Review of External Funding for Police	No more policing cuts	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24244	An individual	4e. Review of External Funding for Police	Police Scotland cuts have already had an impact on our community. I would suggest the opposite of your proposal. There would be lower crime rates through re-building trust & respect within Knightsridge, our partnerships & organisations & Police Scotland. We need community officers again.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24245	An individual	4e. Review of External Funding for Police	Reducing crime is a police responsibility and as such should be funded solely by PS. It seems that the poor are getting poorer leading to deprivation in turn - poverty, crime, health concerns.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24246	An individual	4e. Review of External Funding for Police	This should come from Police Scotland's Budget - without reduction to the 21 officers currently being paid by council	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24247	An individual	4e. Review of External Funding for Police	Crime will take care of itself.	Review of External Funding for Police (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24248	An individual	4e. Review of External Funding for Police	Scottish Government should be paying for this.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24249	An individual	4e. Review of External Funding for Police	How does removing funding for additional policing meet the reducing crime and improving community safety priorities? Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24256	On behalf of a Group/Organisation	4e. Review of External Funding for Police	"The council currently provides Police Scotland with funding for 21 police officers, vehicles and analyst support. Few local authorities in Scotland provide funding for additional police officers. The Scottish Government has given a commitment that Police Scotland's budget is to be protected. No such commitment has been given for council budgets. Given that the provision of adequate levels of policing is the responsibility of Police Scotland, it is proposed that this funding is removed." I refer to the 'transforming your council' consultation process and would like to offer the following by way of response to the proposal to remove the funding provided to Police Scotland for additional police officers. I acknowledge and recognise the challenges West Lothian Council face in seeking to deliver the best possible services to the communities of West Lothian whilst managing a significant budget deficit. Clearly the Council, like other public services including Police Scotland, must make difficult choices in the coming years as it will not be possible to do all of the things we would like to do or indeed do currently. This needs to be clearly defined as we go forward to minimise complaints and realign public expectation. I note however that the consultation states that the Police Budget is protected and I think it important to point out that despite the Scottish Government's commitment to providing grant support that is protected in real terms over the- parliamentary term, the underlying financial position for Police Scotland is a recurring operating deficit of £47m. This presents significant challenges for Police Scotland in terms of providing a sustainable operating model for Policing at both local and national levels. It is only right to acknowledge that the impact of Police Scotland's budget constraints has been greatly mitigated in recent years within West Lothian due to the additional funding provided for police resources over that period where communities have continued to benefit from a strong and effective community policing model supported by a pro-active Community Action Team as well as Youth Community Officers embedded across all of our secondary schools. Our Community officers provide an identifiable and named point of point of contact for communities, schools, community councils as well as our locally elected members and our current approach to community policing, community safety and school liaison widely regarded as an example of National Best Practice. These officers are the cornerstone of the preventative and problem solving policing that is undertaken across West Lothian; addressing key Community Safety Priorities including Antisocial Behaviour, Violence Reduction, Road Safety and Drugs	Review of External Funding for Police (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24257	An employee of West Lothian Council	4e. Review of External Funding for Police	. Cut the police funding	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24258	An individual	4e. Review of External Funding for Police	Cannot believe we have been paying for this, the only area of shared resources should be the area of child protection.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24259	An individual	4e. Review of External Funding for Police	No a good read but understand proposal	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24260	An individual	4e. Review of External Funding for Police	Savings are not always as stated eg Police Scotland. All that happens is the service is reduced	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24261	An employee of West Lothian Council	4e. Review of External Funding for Police	Agreed, the Scottish Government should be funding these positions not the Council.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24262	An individual	4e. Review of External Funding for Police	I agree with this proposal. The Government is responsible for Police Scotland and how it is funded.	Review of External Funding for Police (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24263	An employee of West Lothian Council	4e. Review of External Funding for Police	If adequate levels are currently in place then this makes sense.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24264	An employee of West Lothian Council	4e. Review of External Funding for Police	This could be dangerous depending on the governments input	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24265	An employee of West Lothian Council	4e. Review of External Funding for Police	Police work very hard within the system to protect the public. Removing funding from them will likely cause more cracks within the system as they are overworked.	Review of External Funding for Police (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24266	An individual	4e. Review of External Funding for Police	I strongly disagree with this. There are few enough police officers in West Lothian and reducing the number further will severely impact law and order. I would prefer the funding to continue for this.	Review of External Funding for Police (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.
24267	An individual	4e. Review of External Funding for Police	Understand that policing levels is Police Scotland responsibility but worried impact on community safety which will negatively impact on residents and neighbourhoods	Review of External Funding for Police (general)	4. The council is already doing this.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. The need to review this activity and ensure value for money means that the current level of funding provided to Police Scotland is no longer sustainable. However, this offers WLC opportunities to modernise and transform the current ways of working to work more closely with other services to ensure community safety is not compromised. Police Scotland's Local Police Resource Plan for West Lothian determines the type of services and number of resources allocated locally.

24356	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is important to take stock here but maybe you are years slow realising this	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24357	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	In view of the savings proposed, it would not appear to be detrimental for communities or the provision of community centres.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24358	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree this should be looked at. The new depot in Bathgate will remove a few buildings from the councils portfolio.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24359	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Good idea in theory!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24360	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I see no objection to this.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24368	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Good idea.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24369	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with this proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24370	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24371	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Sounds good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24372	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes need to strip back assets set up historically under Victorian regimes.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24373	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes this review should happen. There should never be redundant building stock. It should be sold or let.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24374	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, council needs to step back and if communities value then must come forward	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24375	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed I think this is a sensible idea, why have the expense of buildings when they are not needed. Because they have always been there if the service can be delivered another way, no problem.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24376	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	A sad saving , but unfortunately necessary .	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24377	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I support.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24380	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree. These should be greatly rationalised. Communities are no longer so rural as to need dedicated community centres and halls in all villages. Most areas have church halls that provide similar services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24381	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24382	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24383	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would support this proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24384	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	OK	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24385	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Passing responsibility to communities would be welcome	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24386	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This appears to be a reasonable proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24387	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24428	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would agree these community centres and village halls should be considered.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24429	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Proposal seems fair.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24430	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	has to be done.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24431	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	fine but I am sure that this will be watched by the locals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24432	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with this. Communities need to take more responsibility for community facilities - can't expect the council to do everything for us	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24433	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with the basic principle of this but please remember not everyone has a car. Some groups are run from these halls which provide a life line service to people who otherwise would not get out. They would become isolated. We need at least one community run hall in every village	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24434	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree that communities should be able to take on assets but there needs to be appropriate resource in place to support these groups to ensure the transfer is sustainable	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24435	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Ok with me	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24436	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	No issue with selling properties to communities as long as these are real offers where communities are properly informed!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24437	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This makes sense.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24438	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

24501	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Reduction of support for communities is not acceptable.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24502	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Facilities should be continuously monitored in relation to the demand for their use.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money.
24503	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	So youths will now hang about streets and commit petty crime and fewer police will be around to deal with it. Is there any joined up thinking across your proposals?	Empowering Communities - Community Centre Management Committees (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community Safety remains one of the key council priorities and the services we provide to make our communities a safe place to live and work will continue. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities.

24504	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Is there an opportunity to transfer some of these building to the Management Committees through asset transfer.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24505	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Why are some Community Centres charging for council services in the building when the building belongs to the council?	Empowering Communities - Community Centre Management Committees (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council leases the building to a management committee who are responsible for setting let charges based on the needs within their community.
24506	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Why do council services have to pay to use Community Centres when they are still run and paid for by the council? Surely if services are paying to use council community centre's then the council can charge the management committee's for staff, power and centre up keep? These charges are putting strain on front line community services and making it impossible for people to access some services in areas where charges occur.	Empowering Communities - Community Centre Management Committees (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council leases the building to a management committee who are responsible for setting let charges based on the needs within their community.
24507	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If community centres are being used, then these should still be maintained.	Empowering Communities - Community Centre Management Committees (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24508	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Seems reasonable, although this may well have an impact on community activities and options available for those who use the community centres.	Empowering Communities - Community Centre Management Committees (general)	1. The respondent advised that they agree with the proposal.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24509	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Each town or village needs a community centre / hub. Take that away and there's no community. The way these are managed does need reviewing though.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24510	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Sounds sensible. Property maintenance is important so if costs can be reduced by reducing number of buildings those remaining will serve for longer	Empowering Communities - Community Centre Management Committees (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24511	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	A consistent charging model across the community centres might help at least cover the costs. For example one of the community centres in Livingston charges £7 per hour to rent the venue for children's party....this cannot possibly cover the venue costs including staff and building overheads!	Empowering Communities - Community Centre Management Committees (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council leases the building to a management committee who are responsible for setting let charges based on the needs within their community.

24512	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	cutting community centres and village halls is not a good idea.Its a lot of peoples lifeline.	Empowering Communities - Community Centre Management Committees (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24513	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I HOPE LOCAL COMMUNITIES WILL BE INVOLVED IN ANY CHANGE TO CONSOLIDATE SERVICES. I DO NOT THINK THE PLAN TO CLOSE THE ABILITY CENTRE IS SENSIBLE AS IT HAS HIGH LEVELS OF ACHIEVEMENT. I THINK MORE USE OF THESE BUILDINGS SHOULD BE ON OFFER TO VOLUNTART GROUPS OR COMMUNITY SERVICES.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24514	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres can be vital for groups living in communities, particularly the elderly. I hope you will seriously consider the impact of any changes on those who perhaps cannot share their views on this matter due to age.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
24515	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	People, particularly vulnerable youngsters, need to keep their community hubs, otherwise they will soon fall into drugs and alcohol. Think of people instead of finances, and everything else will fall into place.	Empowering Communities - Community Centre Management Committees (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24516	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	From an employee point of view any council run clubs or lets (sports halls/ community centres etc) should be paid for up front instead of raising invoices that are subsequently ignored/not paid. I cannot fathom why we allow people to use these facilities without paying upfront in turn resulting in wasted manpower hours chasing up customers for payment & in worst scenario actually writing debt off.	Empowering Communities - Community Centre Management Committees (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24517	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again this is regrettable way of saving, but choices have to be made.....	Empowering Communities - Community Centre Management Committees (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24518	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	There are a number of under utilised public facilities such as community centres and village halls. The cost of running these facilities needs to be self sustaining to ensure these are not a drain on the councils funding.	Empowering Communities - Community Centre Management Committees (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24519	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnership model seems to be working in areas that it has been introduced, I think having all services under the one roof is of benefit to everyone. However I don't think that the staff in the specific areas should have to cover staff from other areas.	Empowering Communities - Community Centre Management Committees (general)	1. The respondent advised that they agree with the proposal.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.

24520	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	How can modernisation be achieved with the above savings.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	The Community Empowerment (Scotland) Act 2015 enables community groups to request ownership of properties. As the council is looking at new ways to deliver services based on the successful partnership model, the number of buildings required to do this will naturally reduce. We will seek to work with our partners in the communities where there are opportunities to empower and support them to take ownership of these facilities.
24521	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This will be a huge undertaking as sports clubs will no longer be voluntary groups but will have some sort of company public liability status, as well as potential investment backing to maintain and continue to improve facilities. This is of particular concern to our swimming clubs. The existing facilities are well used but there is concern about the capacity for expansion.	Empowering Communities - Community Centre Management Committees (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
24522	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Ensure computers terminals available in communities to make this work. Where viable pass to community Ownership	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector, and maybe appropriate in this situation. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24523	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Move to Community ownership. If not statutory cease services	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector, and maybe appropriate in this situation. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24524	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I have seen this in other local authorities and in principal it is sound but some communities don't have the expertise to keep these running, council should still have input even if only advisory	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24525	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would be concerned of the impact this would have in low income communities.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24526	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Asset Transfer is a burden on this process and allows poorly managed and represented community groups to prevent the Council from receiving this income.	Empowering Communities - community ownership	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is required by law to transfer assets to community groups where there is a robust business case. The council is reviewing the community asset transfer policy and processes to ensure that they continue to be fit for purpose.
24527	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is a burden on the Council. Leasing or selling the property should be the priority. Asset Transfer should be the last consideration only if there is no commercial interest in the buildings. Community groups often lack the professional experience and capital to run and manage a property.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
24528	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Village halls can be vital but perhaps the community need to realise the costs involved and run and maintain them themselves	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24529	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Publicise that these centres are available to rent for groups!	Empowering Communities - community ownership	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use and promotion of council facilities for community lets.
24530	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Appropriate discount or zero rates would allow for existing priority functions be continued like Community Council meetings or support groups etc.	Empowering Communities - community ownership	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The non domestic rates scheme is determined nationally by the Scottish Government. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24531	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes pass them on all to Community Groups - look how successful the Regal Community Group has been !	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24532	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Could these be let to community groups or members of the public for youth clubs / parties etc	Empowering Communities - community ownership	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use and promotion of council facilities for community lets.
24533	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	support the idea of community empowerment and community asset ownership. areas such as east calder and others should all have development trusts set up to act on behalf of the community. some communities already have them. where appropriate, potential for development trusts could be explored and council support to develop them with the community, this could then lead to asset transfer for buildings and potentially greenspace. it could be taken a step further and these groups (if set up correctly) could bid for providing the council services such as grass cutting, running of buildings ect which could come in cheaper than a outside contractor. with the money being funneled into these groups, it basically recycles the money with it being put to other uses for developing the communities.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24534	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	local community groups should be self funding and not the responsibility of the council	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24535	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This could help inspire community groups to take on properties and there are some great examples of volunteering across West Lothian.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24536	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree worth exploring but needs to be support for groups making this transition.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24537	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	As long as the groups look after the properties and we are not left with derelict buildings. That the council later have to pick up the cost for, when there is even less money and value in the building.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24538	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Well used community facilities should only be closed where a community group has been identified to take over the running of the facility.	Empowering Communities - community ownership	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24539	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	you should tell the community groups	Empowering Communities - community ownership	4. The council is already doing this.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24540	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed. If people really want community facilities, they will step up to run them.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24541	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The Community Empowerment Act is designed to enable people and communities to have more of say in the services they use. It is community understood that this will lead to better services and real savings. A focus on outcomes over service delivery is a key feature of this act. Asset transfer is only 1 part of this act. It is disappointing to see that other elements of the act - participation in public decision making, participation requests, PB - hardly feature in this consultation.	Empowering Communities - community ownership	4. The council is already doing this.	The council is developing its approach to other elements of the Community Empowerment Act through Community Choices. This will be the mechanism used by the council to facilitate participatory budgeting.
24542	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnership Centres are a great idea apart from the noise level. There can be cuts for lighting and heating of these buildings. There should be specific checking on access to and from these buildings as there is a door in the partnership building that causes major problems for staff and service users.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources.
24543	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Sounds like a good idea if local groups are organised and provided with support to gain their autonomy from the Council.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24544	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	As long as adequate support is provided to the groups who will potentially take these over. If this is not planned and coordinated properly it may result in buildings being demolished or falling to ruin.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24545	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Why not look at devolving more responsibilities to the local communities. I hear much from the SNP about building community involvement but I cant see this in action.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council is developing its approach to other elements of the Community Empowerment Act through Community Choices. This will be the mechanism used by the council to facilitate participatory budgeting.
24546	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	By doing this you reduce community involvement and ownership of the local area.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24547	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This has been mooted over the years in various guises but I seriously doubt if mainly aging Community Centre management Committees have the expertise, will or resources to undertake ownership of these buildings and wonder what will happen if the decision is taken to put these buildings into local ownership and that option is not taken up will the buildings be closed.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24548	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What buildings/facilities are being referred to in this saving, will the community be given assistance in terms of working there way through the community empowerment process.	Empowering Communities - community ownership	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
24549	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Remove Council control of all facilities and give them to community operational control	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24550	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Good plan, but not being done in practice. Why not gift Linlithgow the library, Vennel, Annet House, British Linen Bank and Burgh Halls to our community trust?. We could manage these resources much better, but you put barriers up at every opportunity. Not for sale, not available for community right to buy. I see little to empower communities. Instead all I see is layers of beaurocracy and a fear of handing over assets you view as expensive and costly to run.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24551	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think this is a great idea. Shared ownership and community.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24552	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Operational issues that should not require a general consultation. You should already have a mandate to operate as efficiently as you can. Community groups taking over buildings need to clearly understand that the council is not there to bail them out when they realise they can't manage themselves.....	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24553	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Greater use of community volunteers to keep village halls etc open longer? If there is no other facility available to a community, community centres are extremely important.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24554	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Only concern is that the community who take on the properties don't have the skills to maintain them and buildings fall into disrepair.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24555	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	local groups would take pride in managing the facility, and the removal of the Council Red tape when trying to book the facility would only be an improvement to building users	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24556	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnerships do seem to offer an efficient range of services, however, there is still a need for smaller community centres but as you advise these can be run by their own management.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24557	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	2) How will the Council ensure that those community groups who are more privileged in terms of resources, e.g. an individual's knowledge & experience, are not the only ones who benefit from community empowerment?	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24558	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	3) In this similar train of thought, how will the Council promote the powers that the Community Empowerment Act (2015) offers as a means to engage in communities where formal community action/organisation is historically less common?	Empowering Communities - community ownership	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24559	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is fine, so long as community groups will bear their own costs and not expect subsidies.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24560	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree - if community groups want these facilities, which the council can't afford, they need to run them.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24561	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015: true but this is only passing the cost of maintaining and improving to the Communities in the Region. This assumes that Communities have the funds to take over these buildings whilst at the same time paying higher taxes to the Council. Again this favours the more prosperous Communities across the Region	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24562	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree that it is a good thing for local communities to take on ownership of their local community assets.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24563	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If requests come from the community, it is important the council do not take years to put an agreement in place or make a decision.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24564	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed. If locals want them, let locals fund them.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24565	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If this ends up with community halls becoming private housing then it would be a tragedy. 100s of years of service lost. Please ensure that community group ownership offerings are made at token prices, but the conditions for perpetual public use are watertight.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	Any community transfer will include clauses to ensure buildings could only be used for community purposes and could not be sold in this manner.
24566	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Burdening communities with old buildings. Hope not.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24567	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think an important shift is necessary to empower community led decision making and empowerment to enable solutions not only to be identified, but also to become part of that solution. There has been strong evidence of political tactics to impose/inhibit fair and objective decision-making at a political level. It is not good enough to say we can't engage communities; there has to be a strong shift in culture and planning to achieve this. A vibrant communities approach (such as in East Ayrshire) demonstrates how it is being transformed. The principle difference there is one of culture and leadership decisions harmonised to bring effective participation. Councils across Scotland are facing similar decisions, public sector staff are dwindling numbers. How may staff are involved in a real and meaningful way in developing solutions for proposals? How far has the culture developed that enables staff on the ground to lead and deliver local solutions. Some initiatives in West Lothian are not reaching capacity when that is about not engaging with the community well enough to identify and recognise the help. Too many people lose faith in local services because they are not heard or feel disenfranchised. Is that really what the council wants to portray. Inviting people to participate in meetings where agendas are led from the top down is not a solution. Real authentic leadership is needed to take us into the new dawn. Without these savings will feel entirely the council's	Empowering Communities - community ownership	4. The council is already doing this.	The council is developing its approach to other elements of the Community Empowerment Act through Community Choices. This will be the mechanism used by the council to facilitate participatory budgeting.
24568	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with community involvement. Danger though that longer term these community groups dont keep the assets up to the mark, resulting in a greater outlay further down the line if the buildings have to come back to the Council.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24569	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This sounds good on paper, provided community groups can actually afford to take on these buildings and -more importantly- their upkeep. Otherwise its just good quality space that will eventually be lost to developers or fall into disrepair.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24570	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree the council needs to get rid of assets that are not well utilised by the public. There is nothing to stop communities who claim they need these community centres to get together and run them themselves.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24571	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Certainly a concept worth pursuing - guess it depends on how much the local community would need to pay WLC to take ownership?	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24572	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	How will residents access the nearest community centre if they have mobility issues. What will happen to the buildings if ownership by the community group is not viable. Empty derelict buildings can make areas look downtrodden.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24573	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Moving buildings into community ownership is a good move provided the buildings will not become a wasting asset and blight the townscapes. There would have to be some diligence undertaken to ensure that communities know the full costs and responsibilities of what they are taking on.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24574	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	A review is fine as long as it is done in tandem with the local community councils or other interest groups - the Council may have no idea how important a facility is to the local community and a meaningful review is essential. Communities must be kept informed of what buildings are under consideration and be given a realistic chance of using the Community Empowerment (Scotland) Act to make a community buy-out	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24575	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again this is fine if you live in Livingston	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. The focus will continue to be on partnership centre provision therefore there is currently there is no proposal to centralise all council buildings in Livingston.
24576	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Many community groups/centres help reduce social isolation and loneliness in older people and parents, especially new parents. I'm concerned the measures above will increase isolation, loneliness and mental health problems.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24577	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Mixed opportunities - communities when strong can go down this route but most vulnerable often left with poorer facilities.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24578	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, Management Committees and Development Trusts need to step up to the plate if they want to protect community assets. Great opportunity for some	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24579	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Some of the groups delivered rely on being able to use council facilities. Will the Council monitor the impact on being able to provide these groups caused by reducing Council buildings, or of them becoming private/fee charging.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24580	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	will the council be relying on volunteers to take over	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24581	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If a community wants to keep a hall then see no reason why they should not fund it as well .	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24582	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I think this an excellent idea. Community Groups can rent otherwise empty facilities and deliver much needed community services which at core address issues such as poverty, addictions and mental ill health.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24583	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I think this is long overdue. We have a lot of buildings and being let by different council departments and management committees, with no overall thought about efficiency in terms of staffing, energy etc. I do have reservations about the effectiveness of the management committee model. The Council still picks up the bills and the problems at the end of the day.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24584	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community asset transfer may be appropriate in some cases but the council would need to increase promotion of this opportunity and it may not work in all areas.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24585	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Fine. Review away. What happens after the review though? Will there be a further consultation on what to do? Have any communities shown any interest in taking over these centres?	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24586	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Sounds good in theory but no practical evidence is given to support this action.It might cost more!	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24587	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If we are moving the balance of care from the council to communities and individuals, there need to be community resources for citizens to access/utilise to meet their needs. Perhaps social enterprise opportunities could be maximised - there has proved successful in Ayrshire	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will consider opportunities for social enterprise and will look at the approaches used in other authorities to inform our approach.
24588	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Will there be support and training available as some will struggle with this	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24589	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	That will be fine as long as there is someone or a group willing to take on the responsibility.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24590	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is not saving energy, it's simply passing the energy costs onto the public.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
24591	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Not sure if there is a desire from the community for Asset Transfer. If there isn't, and a portion of our centres remain (and I say this knowing we get rates relief due to the existence of mgt committees): * identify the real benefits of having a management committee. Many of them do not have 'fit and proper' people on the committee. * Its a falsehood to say mgt committees are running the centres: many turn up once a month for a meeting and nothing happens in between. We do their accounts, handle bookings, deal with customer enquiries, staff the centre, handle compliance and building issues, pay for utilities and stock, liaise with groups/contractors, handle payments, room set ups, create forms/paperwork etc. However the amount of work generated in keeping committees updated, consulting with them, trying to move things forward, seek permission for changes, explain council processes is so time consuming. * there is too much confusion around who is responsible for what: and the committees do not like following council guidelines or processes so its a constant source of friction. The partnership is set up to fail because of the complexities involved in the structure of relationship and the parameters to which it must work. * there is very little work done on developing centre programmes from a mgt committee perspective. They never ask about performance, usage, footfall, analysing community need: they just don't seem interested. * WLC has to say 'yes' to every let: if we could manage bookings in a more joined up, cost effective way we would save on staff salaries / overtime. * if the council were to take on the running of centres we could explore charging more competitive rates, manage staff rotas, manage bookings, share best practice and resources. We would also get the income! * definitely too many community centres in West Lothian: consider closing some. * Management Committees to pay a % of their income to the council each year to assist with running costs * WLC to develop a method of ensuring management committee members are fit for the role - that way the relationships would be more productive and outcomes realised. * WLC should develop an 'acceptable behaviour' contract with committee members: I have witnessed and been on the receiving end of appalling, bullish behaviour but we reinforce it by not challenging it effectively. * if Mgt Comms do remain, we say...these are the amount of hours assigned to your centre: how do you want to use them? If the hours are used up then rely on self access, mgt comm volunteers to open/close, say 'no' to a let. * increase number of centres with self access technology - staff presence is reduced * I write all the above with the irony that many	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24592	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Transfers of buildings through the Empowerment Act is a good idea where there is capacity within the community to take these on. Careful consideration should be given before transferring these, particularly around the provision of a sustainable business model from the interested parties.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24593	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is supported and local groups should be encourage to take ownership of the current buildings so the history of these buildings is supported.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24594	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	How will this work exactly? Will community groups be given any initial funding to help them get established within these empty buildings? Will any structural problems in these buildings be fixed before ownership is transferred to community groups?	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24595	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	What happens if community groups fold in the future, buildings falling into disrepair etc?	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24596	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres appear under used, should they be better advertised as places to rent, services offered and review opening needs with local communities	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24597	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Disagree. I work in a 'partnership' area / building and it's Not conducive to engagement with the community and availability to book venues.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources. The introduction of partnership centres has generated real cashable savings for the council over the past five years.
24598	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The council should not cut the number of community centres, particularly if they are well used by the community.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24599	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree - the number of buildings operated by the council must be reduced. This will be a great opportunity for communities to take on assets and run them in a way that meets local needs.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24600	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Villagers should be empowered to operate village halls, etc on a development trust basis.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24601	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Can the community centres not be given long term leases instead of going down the asset transfer route? Asset transfer is a huge step and the volunteers running the centres do not have the time, interest or possibly the training/knowledge to be aware of the pitfalls of such a huge step.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Asset transfer includes the possibility of a long lease of the building to a management group or similar and does not mean that outright ownership has to transfer.
24602	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Giving power to volunteers via Management Committees can mean people who often do not reflect the community are managing, they can have their own agendas and don't run them properly.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24603	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	So long as assurances are given and met that statutory requirements are maintained, Health & Safety is paramount in public buildings, cyclical maintenance is adhered to, accountability is clearly laid out to empowered communities, etc. Concern would be again that if the empowerment failed, what business continuity plans would be in place - would WLC incur all the cost to make good?	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24606	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	The opportunity for asset transfer of buildings is viable, if support and open processes are adhered to.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24607	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	As stated previously, these processes may provide opportunities for groups outwith the council, but expertise is required to assist this process. It can take too long such as the Craigsfarm Asset transfer. Opportunities for this development were missed. We need to learn from these transfers as it is possible to be a win win situation.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24608	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Not many community groups would be able to afford to buy and upkeep a building, therefore again this would lead to a huge loss within local communities. People need places to meet and take part in clubs and be involved in their own communities.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24609	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community ownership of buildings is a statutory right. I hope that in reviewing and vacating these properties the Council will give appropriate support to communities who may wish to exercise the rights bestowed by the 2015 Act.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24610	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	To maintain out of school care provision across West Lothian it is essential that Council continues its practice of not charging community-based out of school care groups for lets in schools and community centres. This recognises the essential nature of this provision and its significant economic and community impact in enabling parents to maintain their employment and bring in Millions of pounds to West Lothian's economy. We recognise the potential benefits of asset transfer and community ownership of buildings, as a real opportunity to strengthen local communities, who could run buildings more efficiently and effectively than Council and we are keen to explore this further. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and the sector would like to see this continue, as it will become even more essential in the tough years ahead.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process. Non domestic rates are set and determined by the Scottish Government.
24611	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	We recognise the potential benefits of asset transfer and community ownership of buildings, as a real opportunity for local communities, who could run buildings more efficiently and effectively than Council and we are keen to explore this further. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and we would like to see this continue, as it will become even more essential in the tough years ahead.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. 24614	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again need the work in the community to happen before this can be achieved	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24615	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	We recognise the potential benefits of asset transfer and community ownership of buildings, as a real opportunity to strengthen local communities, who could run buildings more efficiently and effectively than Council and we are keen to explore this further. This strategy will only succeed however if rates relief is maintained. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and we would like to see this continue, as it will become even more essential in the tough years ahead.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process. Non domestic rates are set and determined by the Scottish Government.
24616	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes communities should have the chance to get these buildings	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24617	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Definitely too many facilities and they require to be reduced further. Care must however be taken to ensure if these facilities are taken on by organisations, it must be monitored that they take on all the aspects involved and we do not find ourselves getting back down trod facilities in the future to have to spend money on.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24618	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Risks involved if building fall into disrepair	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24619	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Are community groups in a position to take on this proposed responsibility? Reductions to front line staff and support to these organisations makes it very difficult to support them to a position that they are able and ready to assume the proposed responsibility. More self access to community buildings could reduce costs over time and allow longer to support committees to be in a position to take on responsibility	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24620	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	It would appear that the provision of Bathgate Partnership Centre has been good at bringing council services together. The move to partnership module is modern and helps the general public be signposted to other council services when attending partnership centres for 1 particular service.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24621	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Ownership of Properties - Community empowerment - Feel very strongly about this - Happening - Council close community centre management blamed - Big ask for volunteers!! to run community centre.	Empowering Communities - community ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24622	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	FULL SUPPORT. WHERE THE COMMUNITY WILL NOT ASSUME LIABILITY THE SHOULD BE CLOSED DOWN	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24623	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If properties become surplus to requirement and the community want to take them on they must do so without any further input from the council. The council has been known to transfer an asset to the community and then has to continue assisting and advising those running the facility. That is not cost effective and communities or groups must learn to stand on their own two feet.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24624	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	These should be based on numbers within these groups along with maintenance costs of the village hall etc. and how to shift focus to the partnership centre model.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	This will be considered as part of the development of these proposals.
24625	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I support community asset transfer and the potential ownership of community facilities by community groups.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24626	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I feel however that for this to be successful we must provide officer support to build capacity in these communities if we are serious about this.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24627	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree with this proposal, as long as valuable centres and halls aren't lost if they can't be community supported.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24628	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	there should be a review of all council community centres and village halls and those which do not have a daily footfall should be closed or considered for ownership by community groups.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24629	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If a group takes over a property then they should fund entirely the running and upkeep of the building. Regal Buildings Charity an example where this has failed spectacularly and the council has been left picking up the bills for the failings of the group.	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24630	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Could some communities do a buy out of these resources?	Empowering Communities - community ownership	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24631	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Can community centres and village halls be financed through charity trusts? Their provision in the long term is probably unsustainable.	Empowering Communities - community ownership	6. This is a positive suggestion. Officers will consider how this could be developed.	Community groups are able to access many more sources of external funding than the council can to help support delivery of local facilities.
24632	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	review is required here as we find ourselves in a situation where we cannot get access to council buildings and council equipment without having to pay form budgets already stretched.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use of council facilities for community lets.

24633	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Again possibly removing the focal point of the community affecting the young and the elderly.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24634	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	removal of village halls and community halls in theory is a good idea to save on building operational costs, however in smaller communities these are often the hub/heart of the community. If these facilities were removed there could be long term detrimental impacts to the community, along with the reduction in policing, crime and vandalism would most likely increase, if social cohesion and communities are being eroded to save on costs.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24635	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed, but again this can be a time consuming exercise.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24636	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	given the budget shortfall this seems an acceptable proposal however it may be that local communities / groups would not continue if moved outwith that local area	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of any exercise to consolidate buildings one of the aims will be to maintain local services where there is a demand. This may mean supporting local groups to use other non council facilities or buildings.
24637	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Scale back on building that are not utilised and sell these on or utilise these for housing if possible to assist with homelessness	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
24638	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If communities want to keep buildings then they should take ownership and run them. If not needed for service delivery then they should be closed, sold, redeveloped or transferred.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. he council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
24639	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	There needs to be provision of some sort in each ward, one building providing lots of services. Such as mini-partnership centres - library, community, sport etc	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24640	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is potentially disastrous. Council is using their own cuts agenda and hiding behind community empowerment act to relinquish responsibility for community facilities. The future under this proposal will be disrepair, closure and demolition of facilities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24641	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres are an important part of local communities. Where would group/clubs go if they couldn't access a community centre?	Empowering Communities & Reducing the Number of Community Facilities (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24642	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It is important to ensure that facilities remain in each community but the burden of the cost could cripple a voluntary organisation with just maintenance of the building.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24643	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Concern that this will impact on the ability to deliver a previous savings measure of reducing the building based day service.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Patterns of demand for services show that many people now require services on an outreach basis in their own homes. Partnership centres would continue to be available to support service delivery in communities along with the potential use of non council buildings.
24644	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Considering the saving is low, it seems a shame to lose provision in local communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership.
24645	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Beggars belief. Bloody SNP with the freeze on council tax have made quite a mess have they not?	Empowering Communities & Reducing the Number of Community Facilities (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
24646	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Two thousand years ago, the Roman Empire had a staff in Rome of only about 1,500 administrators operating out of very little real estate. Not a bad role model. If the council has redundant buildings, vacated by compressing staff into other premises then these buildings should be sold for development.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24647	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Current situation with local community centres is terrible. More cuts affect communities. This is a serious step backward.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24648	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree that there should be less buildings in West Lothian.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24649	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Sad that community centres have been identified, as these can be very important in some communities however if you review the usage of each community centre, I am sure that there will be some that are not cost effective to have and the uptake from the community doesn't quantify them.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24650	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	a lot of empty council buildings should not have been left to fall down..Armadale Nursery? Bangour? Winchburgh Old School? I have lived in WLC since 2008 and could not believe how they left the buildings to become derelict and then 'oh they are dangerous and need to be pulled down' - the school in Whitburn...the school in Broxburn...	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council aims to retain buildings, especially those with architectural merit, however it may not be economically viable in some cases. The retention of buildings is considered on a case by case basis.
24651	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Charge commercial organisations full market value for long term lets	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. The commercial property portfolio generates income for the council with the cost of providing the units being substantially less than the income received.
24652	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	the new partnership centres being built should off set closure of community centres and village halls.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Council will continue to utilise the partnership centre model where there are shared services and facilities, including those delivered by partners.
24653	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnership centres DO NOT provide what community centres used to have. Bathgate Partnership Centre's community centre feels like an after thought and is no use for youth clubs. It's feels like it's only really good for adult clubs. The hall is far too small for what it replaced. It feels like the council wanted to get rid of young people from there.	Empowering Communities & Reducing the Number of Community Facilities (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources.
24654	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The school estate is not effectively used - partly because they are not seen as a community resource but as a financial source. Closing other facilities and reducing the cost of using schools would be cost effective.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
24655	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If reviewing involves upgrading to the new partnership centres then this would be a welcome move.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Council will continue to utilise the partnership centre model where there are shared services and facilities, including those delivered by partners.
24656	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres are the heart of the community , fair enough if a building is not being used then close it down but please do not underfund building that are being used by brownies dance groups over 50s etc they rely on local funding to keep their groups together and it's a great way for people to get out and keep fit and socialise	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24657	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	as the name says village halls if moved out of village would people travel	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.

24658	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I feel promoting the use of community centres and village halls for groups who require Lets would be more beneficial than opening our Primary Schools out of hours. The revenue generated by Lets in PS's is often much less than the cost of opening our Primary Schools due to the heating, lighting, Facilities Management costs and cleaning costs.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use and promotion of council facilities for community lets.
24659	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	agree. And they need to be self sufficient. No support from the council.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24660	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Excellent idea. There are far too many community centres.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24661	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	There are no community facilities, these Partnership centres do not count. They are not fit for purpose, glorified offices.	Empowering Communities & Reducing the Number of Community Facilities (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources. The nature of partnership centres is different from the traditional community centres to reflect the changing way that services are delivered and how individuals access these services.
24662	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I see no reason why community centres and village halls cannot be consolidated.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24663	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This should go further and more council services should be moved out of buildings and more working from home/over the internet should take place.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council continues to investigate opportunities for further flexible working and use of technology.
24664	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Close all the communities don't take on all the ruining costs for.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24665	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	All communities need a community centre where crucial services are provided to local people who may otherwise struggle to access these services	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24666	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree with this proposal. Some of the community buildings the council maintain are not well used and if community groups don't want to take on the responsibility of looking after them, these buildings should be closed.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24667	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	As previously stated there should not be staff in public buildings when they are not open to the public, this is a waste of resources, heat, light and staff time	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24668	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree - we can not sustain the number of community centres we have	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24669	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Completely agree with consolidation of Partnership centres and community halls. Agree with office spaces to be consolidated also - potential for things such as shared spaces / improved home working to be introduced?	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council continues to investigate opportunities for further flexible working and use of technology.
24670	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnership centres are good ideas, but the council must ensure that people in more rural and outlying communities are not forgotten about and can retain some sort of "hub" in their area.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24671	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	"EMPOWERING COMMUNITIES!!!" How? By doing what - slashing services? Close facilities ONLY in affluent communities (Linlithgow, east calder, Murieston etc.) retain and invest in these and communities such as Whitburn, Blackburn etc. Provide meaningful and sustained community development/worker support to target communities	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24672	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	never used one, won't miss it. Just don't let the buildings remain empty and become a haven for criminal activity (having already done away with any Police Officers to catch them)	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements.
24673	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree but think costs could be met by users.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24674	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Services provided by community centres can be significant for the general wellbeing of the community. This point must be considered with care.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24675	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This would impact on the people who need these places most. Making them more vulnerable and isolated.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24676	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed no point paying for buildings that are surplus to council requirements	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24677	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The council has too many facilities that the public can use and the opening and closing of these is costly.. The saving on FMA time would be considerable	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24678	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I believe cutting this will be more damage within the community's as we have a good working relationship element from cradle to grave with all groups and centralising these would be more of a cost and detrimental to the community and possibly causing loneliness within the young and elderly	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24679	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	A local community centre is the heart of a small village for young and old. This brings in hall hire money and lets local people meet for activities and social occasions	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24680	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree but will the communities?	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24681	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	. Community centres are a valuable part of our communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24682	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	How will you ensure that the west lothian area will be fully covered or represented in community provision and that this will be easily accessed by all.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24683	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If these areas provide premises for local businesses this could be detrimental to the local economy (Dance schools, sport events, community choirs etc)	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. The sites would be available for purchase by all interested parties. Use of sites for specific purposes is determined by planning restrictions.
24684	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Review the provision of facilities in a constructive manner. Some of these services are vital to maintaining any sense of community that is left in the modern West Lothian.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24685	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Loops again community centres get a kick in the teeth for doin a great job of keeping loads of kids of the street of course I am a bit biased as I am the chairperson of E/W Community centre which has a full program I lat add. So here we are again threatened with closure and outing around 200 kids back on the street along with the adult groups, I really have my doubts that any small community centre would be able to become self sufficient without some help. .	Empowering Communities & Reducing the Number of Community Facilities (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
24686	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Make sure that when these properties are being sold off that the council obtains the best possible price for them instead of selling off at ridiculously low figures only to have developers get money which should reach the public purse.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24687	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres and village halls are essential for communities and should not be removed.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24688	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree. However current assets need to protected, monitored and maintained..	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
24689	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Transport deprivation is a huge problem in the area and you'll cut the more rural off from their support groups.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24690	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	In principal yes, this again sounds sensible but there does need to be set some form of minimum requirement for number of facilities per community to avoid the risk of some Communities losing all their facilities.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24691	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Rationalise the number of community centres and village halls.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24692	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Good idea but must be done sensitively with the full backing of the Community and therefore unlikely to happen during the period of the financial plan.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24693	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Partnership model - what is this?	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
24694	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	These community centres are the heart of villages sometimes, and well utilised, others will not be used as often, and can see why savings would be required.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24695	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some small communities rely on these services. This will cause hardship and social exclusion to these areas	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24696	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This would help the council. and hopefully groups would get support from other organisations or businesses to fund their groups.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24697	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	In Winchburgh we only have 1 community centre which is small and not enough for the growing community we now have with the new developments. The council should invest in either a second community centre or expanding the current one to allow more room for activities for the community. The council need to invest in the community not cut funds.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Options for community provision are being considered as part of the core development plan for Winchburgh.
24698	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Difficult one. How would small, less wealthy communities organise this?	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24699	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Must be considered. Relying on reliable and community minded citizens that have any spare time.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24700	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Properties/ vacant sites should be sold for commercial development that will provide additional financial return through local taxation/ rates.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
24701	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Feel we could reduce the number of community facilities but it has to be the right ones or the savings will not be made. Feel that very few management committees are strong enough and skilled up appropriately to asset transfer and expect many will walk away. Be prepare for a political storm.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24702	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think it makes sense to consolidate and ensure that opportunities reach a wide audience and make good use of resources, consideration would need to be given to smaller communities where access and transport may be an issue.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24703	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think it will be important to think about the accessibility and the general standard of those buildings. Which ones are the best ones to keep in WLC ownership to ensure a good distribution across all communities, large and small? I live in Linlithgow which has a variety of venues in council but also in other organisations' ownership. Therefore I would not object to council 'rationalisation'. Other communities are much smaller and have less assets in their population and therefore should be prioritised for council support. Much of community development required in the transformation needs a good base which the many council work streams can access for a range of activities across all age groups.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24704	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Must have duplication of function and use across all of council area	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24705	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Many small communities may suffer. If reductions are required then it should be where there are similar services inn the same geographical area e.g Livingston, bathgate etc	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24706	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Currently these village halls and community centres offer very little benefit so I would agree. However, if you're talking about reducing crime, alcohol abuse etc then perhaps actually investing in these and offering an alternative to hanging round streets and doing nothing would be more appropriate. Investing to save in the future rather than a short sighted approach of closing them.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24707	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Close all the small village halls that are hardly used	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24708	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	1) How would the Council assess that assets are not solely being transferred as part of a cost-saving exercise & to reduce the number of community facilities but only where there is capacity for genuine community empowerment?	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Where usage is low and there is no demand for community ownership it is likely that the building will still have to close.
24709	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Leave them alone	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24710	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Again this question comes down to different requirements for different areas. In a fairly affluent area, or large urban area like Livingston or Linlithgow there are plenty groups and individuals able to own and run the facilities. In deprived areas like Bridgend, Philipstoun And probably many others there is not enough requirement to keep the hall open all week.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24711	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes reasonable, I'm amazed at the low thresholds for some facilities which seem to date from a pre-car generation but granted WL is suburban / small town in nature. Great that there are loads of public swimming pools here; very few in home counties by comparison but local is nice	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24712	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, this is a fantastic idea and not only does it save costs but it brings communities together, and gives the joint responsibility. Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
24713	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	As services constrict, community resources will be needed more than ever. I think these approaches would be great however, community leaders will still need some support in their role to ensure continuity of groups/local activities. Perhaps the council could re-driect resources to this i.e. community workers, support workers, social workers as part of their roles	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24714	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This may be something the private sector will pick up on.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24715	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Is this not going to prevent more community groups from developing and meeting up? If young people are not going to have activities to go to in the evenings or weekends, is there not more chance of 'anti social behaviour' and poorer wellbeing amongst young people?	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24716	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Suggest that community centres and village halls are crucial - space already limited for many important activities (particularly for the young and the very old.) Can we make them MORE vibrant and purposeful without increasing the budget?	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance.
24717	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Provision should be available for all without travelling long distances.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24718	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	yes, too many old buildings are very expensive.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24719	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The removal of such facilities will only further impoverish communities that probably need them most. This will do nothing for community cohesion and runs counter to the Government's health and fitness agenda.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24720	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Many of these buildings are used because of their close proximity to otherwise isolated villages and towns.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24721	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	this is a disgrace to get rid off or take no responsibility for almost all of the community buildings .	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24722	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	agree to certain extent , volunteering is what might have to happen rather than pay staff to look after poorly used facility's and halls .	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24723	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	What would happen to halls no longer used. Buildings could be transferred to community groups or sold to generate a capital receipt for the council.
24724	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This should be core council business.	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
24725	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It is apparent that the Council is quite willing to abandon communities. Many communities depend upon and benefit considerably from such facilities but do not have available to them individuals who are articulate (and have time available) who can step in to keep services running after the Council ceases to provide them. For centuries we have been used to such facilities being provided by local councils.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24726	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Rent charges for space in council buildings are too high for many community groups reducing the use of council buildings. There are many examples of groups or classes stopping or moving out to other venues.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. In comparison to other local authorities, the charges in West Lothian are considered to be lower than many others.
24727	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree with the proposal as long as it does not impact on smaller outlying towns.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24728	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	There will be a critical mass for council buildings and services. The number of buildings should not be reduced to an extent where staff feel shoehorned into buildings and the working environment adversely affected.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The amount of floor space per staff member is governed by regulation and the council meets this standard.
24729	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centres should be reduced. More shared facilities and use of schools	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
24730	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Some consolidation makes sense-some localities would be left with very little	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24731	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Any properties lying empty should be assessed quickly and property sold promptly before it falls into a state of disrepair	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
24732	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Asset transfer is not a quick process. It is unlikely that the savings proposed can be realised in this financial period unless there is a wholesale disposal of assets. This I would oppose. Linlithgow benefits from a major asset in the context of the Burgh Halls. However, much more needs to be done to promote the venue which means investing more to generate increased income. This is a primary money earning asset that is currently not fulfilling its potential. Community Centres provide a useful venue for various community groups. The statement "an opportunity to consolidate the number of community centres" sounds like closure which I would oppose in Linlithgow.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance.
24733	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Let's think this one through carefully and not treat every area the same	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24734	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree although this will need to be carefully managed and auditing arrangements in place.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24735	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Wholly agree with this proposal- Considering the age and standard of some of the older buildings, my opinion is that it would be more financially viable going down this route	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24736	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, provided there is an adequate spread of quality facilities available for local use.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24737	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, but a tapered approach should be adopted over time to allow the community to adapt.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24738	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Can a profit not be made from these facilities? Aligns with priorities although will be a loss to communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24739	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It is to be hoped that this does not have a deterrent effect on participation levels in community councils which is already disappointingly low in Livingston.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24740	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Will there be enough space in Partnership buildings to accommodate groups	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources.
24741	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	On what criteria will this be decided? Someone is bound to lose out.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24742	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would have thought this would already have been done, but would expect cost saving to be greater.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings. The council has already delivered considerable savings over the last five years through energy efficiency.
24743	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	why not retain the properties but charge for their use - these are important facilities	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
24744	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Access to council run properties at an attractive rate is critical to local communities, many being entirely dependent on these facilities. This cannot be impacted.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24745	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Do not agree with this. Community centres and village halls can promote socialisation in the elderly or mentally ill. These centres can often be a lifeline to those that need it.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24746	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Where this is feasible to do so it would make sense to consolidate these facilities. Transferring ownership to community groups may be appropriate as long as they have the tools to appropriately manage these facilities and that the responsibility is not likely to return to the council should they be mismanaged.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24747	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The default position should be either to transfer all community facilities of this sort to local management groups or trusts or sell the building on the open market.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The council has a disposal process for assets declared surplus to requirements.
24748	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Supported as long as community facilities are handed to the local community rather than withdrawn and put up for sale	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24749	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This is very damaging to communities, community centres provide opportunities for marginalised groups to access groups, social opportunities, exercise and learning opportunities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24750	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Good idea. Also sell any land that is no longer required (ie the site of the former swimming pool in Bathgate).	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
24751	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Would like to see impact assessments on communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24752	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This makes sense as many buildings may be under used or could have reduced hours (e.g closure on Sundays or non-popular weekdays) and therefore represent a good potential source of saving.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
24753	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted. The numbers of children attending Youth clubs needs investigation as some clubs are running with only two people in attendance.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24754	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Corporate partnerships or a renting model should be explored.	Empowering Communities & Reducing the Number of Community Facilities (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
24755	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It appears centralisation of local services generally means moved to Livingston, seems unfair to other outlying communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. The focus will continue to be on partnership centre provision therefore there is currently there is no proposal to centralise all council buildings in Livingston.
24756	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	There needs to be care here, as a number of Community Centres have volunteers on the committees. If more is pushed on these people the people will resign/leave. As it is unpaid/volunteer work, of which no more hours than already given can be increased. Due to the volunteers having families and other commitments. This would potentially affect the local community and residents. Don't know enough about the Community Empowerment act	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24757	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	seems that fewer facilities will be available for people in the communities	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24758	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	For people who have access to their own transport these changes may not present a problem but care must be taken to ensure that the more vulnerable are not adversely affected with these changes. Many people rely on these services.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24759	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	how sad that buildings owned by WLC allowed to fall down...Armadale Nursery???? pigeons living in it for years?? Winchburgh??? 24763	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree generally with buildings rationalisation but would urge that they are not left empty and become a wasting asset and blot on the landscape. Wherever possible Council should offer them to community groups and local partnerships for community use. In this Council should encourage imaginative and create use of resources that are no longer required. Keep it local and empower local community. Local groups should be made aware of cost implications and need to maintain these assets.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24764	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centres can be vital to the old, young and disabled. There is less and less in the community which genuinely caters for everyone. But then as a Council you don't really care about that!	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24765	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Streamlining of under used buildings is common sense and should be looked at	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24766	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The Community Empowerment Act sounds good in theory but I am concerned that whilst community proposals need to be seriously considered by councils, they are not obliged to accept them. If a number of proposals are on the table, money would be considered before any community concern. The council should publicly announce what buildings they are going to "dispose" of - particularly historical ones like Annet House in Linlithgow - with time and support for community groups who want to draft a proposal(s) to take ownership of WLC properties.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24767	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	This is a shame as it adversely affects older people, isolated people and the most vulnerable members of our society.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24768	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The partnership model and having community access to school facilities, including sports facilities should be developed where possible.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
24769	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would support additional Community Benefit leases or Community Asset Transfers for all facilities that would benefit local communities and reduce costs for WLC.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24770	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Joined-up thinking needs to take place with regards to proposed transfer of facilities to community management (e.g. football pavilions) and retained maintenance arrangements (e.g. football pitches). Opportunities exists to reduce costs through wider consideration of responsibilities for leased/transferred facilities in discussion with community clubs and organisations.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24771	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This will probably isolate vulnerable people	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24772	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Disagree. Partnership model does NOT serve all communities, in outlying areas. Some community centres are vital to smaller villages and should be maintained or, asset transfer should be given to existing management committees, on a first refusal basis. WLC should be prepared to provide funding of approx. £100,000 for the first year of transferred ownership.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24773	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Carefull Village halls and community centres provide informal but signicant opportunities for community cohesion, support and identity. Any review in this area must be very sensitive to individual community needs and identities.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24774	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If the costs and management of community centres were well managed then they should provide sufficient income to cover costs. In my experience WLC hiring charges make hiring a WLC facility unattractive.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Current levels of hire charge for community centres compare favourably with other councils.
24775	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The issue with this is whether you have competent people who are willing to give a lot of time and effort to voluntarily running facilities. Often management committees do not reflect the community make-up and may have their own agendas.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24776	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This would cause concern for me in deprived areas	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24777	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with putting together proposals but they should be presented to the public before any decisions are made as members of the public may be able, with the appropriate information and knowledge, to agree or suggest alternative ways of making savings.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24778	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Ok, if absolutely necessary. Community groups are essential - please try not to lose them.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24779	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	My concerns around this are areas in West Lothian were there would then be no or little access to local services or centres, I have heard people say there is nothing much in there area and they don't have the finances to travel to access services. The programmes provided in centres provide a great service to the local people to attend different activities and this can have a very positive impact on their quality of life as well as provide employment to local people. I feel careful consideration needs to be given to the wider impact of closing many centres.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24780	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	While I would consider that, in principle, local resources are important, detailed local needs assessments would be required to establish how this would work. In the sentence above "As the council has moved to the partnership model, there is an opportunity to consolidate the number of community centres and village halls.", it appears that what is actually meant is the council ceasing to operate some facilities. If this means that where there are multiple facilities in a community, these could all be handled in one local facility, that would be an acceptable use of the word "consolidate". However if the plan is to remove facilities altogether from a community, this is not reasonable use of the word. Definition of consolidate in Oxford Dictionaries: "combine (a number of things) into a single more effective or coherent whole."	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24781	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community groups are used to help children, young people and adults limiting this resource will not help with mental health/ support If buildings are closed will people still have an access point?	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24782	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some older people who use these buildings and cannot travel easily will stop going put if a short journey down the street turns into a 30 min journey on a bus. This will impact on one of the 8 key areas and not positively.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24783	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	As staff numbers are going to reduce, there must be opportunities to reduce the number of buildings.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24784	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Rats from a sinking ship	Empowering Communities & Reducing the Number of Community Facilities (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
24785	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Totally agree with this one. Too many private companies using council premises and paying ridiculously low rates, whilst makes enormous profits. So yes to partnership centres and hire rates commesurate with profit-making organisations and lower rates for true community organisations and clubs.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
24786	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	This might include Annet House in Linlithgow.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	The council will consider any requests for asset transfer under the requirements of the Community Empowerment (Scotland) Act 2015 on their own merits.
24787	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Not too many	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24788	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	the likes of Bridgend where I am a youth worker on a Friday should not be closed. LYPP provides a football club on a Wednesday. Bridgend is classed as a deprived area. They have no management committee for the centre there. I can have 20 kids max on a Friday. We have been there since May 2016. Kids are desperate to come to our club. For the centre in Bridgend to close would have a major affect on our young people. we have 20 kids who we do make a difference with, even younger kids know me by name and cannot wait to reach P6 so they csn come to club. I work a Monday and Thursday night in Winchburgh community centre, and am involved with Winchburgh Scout group who meet on a Friday night in winchburgh community centre. our numbers on a Monday and Thursday night are at full capacity, the same with our Scout Group. We have waiting lists. with our Thursday youth club for P1s to P5s we have a waiting list, and that has been without advertising in Winchburgh Primary or Holy Family School. We are also one of the few clubs in West Lothian who have a parent rota, where parents are glad to help out.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24789	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Village halls could be sold for Housing / Homeless accommodation?	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
24790	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	In principal I agree provided safeguards are put in place to ensure that assets are indeed transferred to the community for it's use and not to developers. Also asset transfer is not a quick process. It is unlikely that the savings proposed can be realised in this financial period unless there is a wholesale disposal of assets.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24791	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think this should only be imposed on Community Centres etc. if there is a willingness from local people to take control, if not the facility should be left to operate in that area but perhaps more efficiently.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24792	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres are incredibly important resources for the people of West Lothian. People need places to meet and carry out a range of activities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24793	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	this makes sense where there is demand a community capacity to ensure a sustainable solution is found within the community. If there isn't one the properties cannot be mothballed and allowed to slowly fall to bits. They should be sold or demolished and the land put to better use.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24794	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	this makes sense where there is demand a community capacity to ensure a sustainable solution is found within the community. If there isn't one the properties cannot be mothballed and allowed to slowly fall to bits. They should be sold or demolished and the land put to better use.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24795	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Whilst I can see the benefit of this, what will happen to vacated buildings? will they be rented out to provide revenue, sold or left empty? Again this proposal suggests a reduction in staffing.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24796	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Could some of these buildings be given to nursery or places that cater for children and children with disabilities? There is a lack of facilities for such places	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24797	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Consider the availability of community social meeting places, especially for the elderly as an important lifeline for them, to meet and interact with fellow citizens, possibly being the only people they talk to in their later years. As unfortunate as the financial circumstances are, I would like to think that these meeting places, will still be available, however may be reduced in number.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24798	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Sounds like a job for your partners again. People want local facilities in their town or village so don't have to travel which is difficult as it sounds like you are going to cut the bus services.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24799	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	This will be a huge undertaking as sports clubs will no longer be voluntary groups but will have to have some sort of company public liability status, as well as potential investment backing to maintain and continue to improve facilities. This is of particular concern to our swimming clubs. The existing facilities are well used but there is concern about the capacity for expansion of club.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24800	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	With the proposed reduction in numbers of community facilities and this proposed reduction in opening hours, where are community groups such as cubs/scouts/guides, youth clubs and so on going to go? Surely this could lead to a reduction in diversionary activities, which in turn could lead to an increase in antisocial behaviour.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24801	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some community facilities are already stripped back to the minimum and it is very difficult to organise events as such and to get access. Disagree with this proposal as these are vital lifelines for communities, especially small villages.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24802	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Individual impact will be critical here.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24803	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Why have you been wasting so much of our money up to this point?	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has delivered substantial property management savings over the past ten years and will continue to do so over the next five years.
24804	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	There are a number of buildings in the Council's estate which are in a poor state of repair, including the Civic Centre. The community is empowered by statute, not by the proposal. It is not clear how the saving will be made.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generally the council's property assets are in good condition compared to many others. The saving will be achieved through the reduction in revenue running costs of facilities to the council.
24805	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This will remove in some areas vital contact for social educational and fitness families for communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24806	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Isolated areas (e.g. Stoneyburn, Addiewell, Fauldhouse) should be prioritised when consolidating buildings. These communities often have very few amenities and loss of community centres would have a huge impact on these fairly isolated, and often low-income communities.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24807	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Village halls and local community centres provide a local venue which supports local groups and activities. These are important to the fabric if the local communities	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24808	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Review needs to assess potential impact of any removal if facilities on community and voluntary groups e.g. Scouts, who may not be in a position to find alternative facilities.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24809	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Community services should be centralised instead of 3 or 4 council buildings in one village, have everything in one.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24810	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed. Refer to my previous response in last section regarding potential opportunities in schools with regard to increased community use : [Better use of school sports facilities outwith school hours could be considered if West Lothian Leisure facilities are reduced. Most schools are closed every weekend and for about 12/13 weeks every year and perhaps there are opportunities there for greater community use. Also if we are really serious about improving health and promoting healthy activities we need facilities that will assist.]	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
24811	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Most advantaged areas and organisations will benefit whilst the most disadvantaged will lose out.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24812	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This needs to be managed sensitively. Again, taking away the facilities for youth clubs could lead to more kids on the streets.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24813	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The number of community facilities is already fairly poor and the services and groups offered are poorly publicised. Community ownership of certain facilities may actually enhance public awareness and the use of such buildings.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24814	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Unless enough remain to provide good resources to improve physical and mental health it won't save money as people's health deteriorate. Private organisations will not have an obligation to maintain tgases in the long term and they may be list for good	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24815	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If building numbers are being reduced there will need to be provision at the remaining properties for the use of the community	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

24816	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Good to see the joint use of the new partnership buildings and the investment made on these newer more efficiently run properties.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24817	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Depends on where the savings are proposed. In general it is laudable to do as you propose but depending on that actually intended it is not possible to comment further.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24818	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Keep the Regal in Bathgate open. So many wonderful activities happen there.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	A public consultation is currently being held on options for the Regal.
24819	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed. Undesirable but necessary. Concerned about the viability of standalone facilities in the long run.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24820	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted. The numbers of children attending Youth clubs needs investigation as some clubs are running with only two people in attendance	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24821	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I hope the Burgh Halls in Linlithgow will be retained.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There are no plans to dispose of this building.
24822	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Facilities such as Low Port Centre and Burgh Hall should be retained and better utilised.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There are no plans to dispose of Burgh Halls. Lowport has recently been leased to West Lothian Leisure on a long lease to allow them to run the facility.
24823	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This may well have a very negative impact for a small saving that could be made elsewhere.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24824	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted. The numbers of children attending Youth clubs needs investigation as some clubs are running with only two people in attendance	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24825	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The Community Empowerment (Scotland) Act 2015, does give opportunity although believe that facilities are required for the community.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.

24826	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Only with local consultation	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24827	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Groups and organisations that use these facilities may cease to exist if they have to look for alternative venues which are outwith the local vicinity or cost more. This could mean that some clubs/organisations vital to the health and wellbeing of the community will close.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24828	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again it is unclear what is being proposed within the £600K saving. The Council needs to clarify exactly what is being proposed and which community centres and village halls will be closed in they really wish to receive any meaningful comments on their proposals.	Empowering Communities & Reducing the Number of Community Facilities (general)	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24829	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Communities need their facilities	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24830	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Not a good thing who knows what to do without business know how	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24831	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	We recognise the potential benefits of asset transfer and community ownership of buildings, as a real opportunity to strengthen local communities, who could run buildings more efficiently and effectively than Council and we are keen to explore this further. This strategy will only succeed however if rates relief is maintained. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and we would like to see this continue, as it will become even more essential in the tough years ahead.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process. Non domestic rates are set and determined by the Scottish Government.
24832	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Supportive in principle based on limited detailed information, but important to commit to undertaking local engagement and consultation with those communities that may be impacted..	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24833	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree where communities have access to a shared facility	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24834	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Empowering Communities & Reducing the Number of Community Facilities (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
24835	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Integration of community facilities is a sensible approach	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24836	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I do feel West Lothian Council should minimize the building and integrate more of the departments so they work closer and together. Re-shuffling the community centre and community groups these should be done through grants from private organisations i.e Heritage Lottery funding etc.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24837	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	So rich communities will get richer and poor communities will get poorer. The skills, capacities and resources required to do this in a community are considerable and I fear that in wee villages, such a Blackridge, they will be left isolated, with no community facility and almost no public transport to get them to anywhere else. For non working and older people, depression and poor health becomes more likely.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24838	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This could impact on other services. We are already experiencing charges to use council community facilities that have management committees, consideration needs to be given to this in reviewing the budgets of services that use community facilities for delivery.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24839	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Further rationalisation, more digitisation .	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24840	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	good - as long as well-used facilities are kept and it's those that are neglected which are disposed of	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
24841	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	why don't we look at closing building that are not necessary on certain days eg Easter Saturday,,, we are closed Friday and Monday so why not Saturday as well close St David house over the 2 weeks Xmas holidays and make use of the Bathgate partnership office for skeleton staff on the days in between to keep a full office closed for 2 weeks.. fully use the Space in St David house,,, the office could be redesigned which may make it warmer, more efficient and loads of empty space could be used to house other people / teams departments etc.	Empowering Communities & Reducing the Number of Community Facilities (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although some council facilities need to remain open for service delivery and cover, opportunities to consolidate cover into fewer buildings over the festive period will be considered.
24842	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	For a county that's 20 miles in diameter its got far too many community facilities that duplicate what they offer every 2 miles! It cannot be efficient. For such a small county compared to say Moray or Highlands and Islands it is not efficient to have a community centre, bowling club, football club paid for by the council in every hamlet.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24843	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	There may be areas where things could be done more effectively, but concerned that the most disadvantaged and marginalised in communities may suffer. Community organisations may not have the skills needed to take over responsibility for community centres. Or may not be able to continue to meet the costs for centres to run.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24844	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Good to idea in principal if proposal can be realised without incurring unintended costs - properties left empty can quickly become danger zones, places used for criminal activity/anti-social behaviour.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24845	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Generally agree but cannot comment on these as no info available.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24846	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	WLC want local people to manage services and buildings - why then pay when services are not being provided - makes no sense!	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. In addition the council has already delivered substantial energy savings over the past five years.
24847	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Your say on West Lothian's proposals - community centres play a big part in people's lives and there may be difficulties for people who are unable to go to another community centre.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24848	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Totally against community facilities being reduced or included in asset transfer - too much to expect from volunteers (most of whom are elderly).	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24849	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	As a management committee we feel intimidated by the 2nd last sentence. We are volunteers with families & other commitments and give as much of our time as we can. Any change to the resources we have at Forestbank will have a negative impact; not long ago Ladywell was classed as an area of deprivation, but through the hard work of the community groups, centres, youth services, council employees, etc. this is no longer the case. Do you really want to endanger that status by reducing the current services provided?	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24850	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Our community was not that long ago classed as an area of deprivation, but due to the work hard work of community council, community groups, community centres and partnership working with youth services, council employees and other partners this is no longer the case. Do you want to endanger that status and dismiss all the hard work that achieved this by reducing the current services provided. We are volunteers with families and other commitments and give as much of our time and energy to our community and have always prided ourselves in our excellent working relationship with WLC and our other partners in doing our best to help our community be the best it can be and giving people a sense of pride in where they live and give them a sense of belonging to a community who really cares about each and everyone who lives there. Are there any budgets in reserve that could help to offset these cuts and the impact these proposals will have on the lives and well being of the people of West Lothian.	Empowering Communities & Reducing the Number of Community Facilities (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24851	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Usually when I see the term 'consolidate' I read CUT and I presume that is what you mean here. I don't mind Community Centres/Village Halls but I don't see how they can survive on their own without decent funding/support (maintenance, utilities, staff etc) and this may be the road to closure for many of them.	Empowering Communities & Reducing the Number of Community Facilities (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
24852	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Not convinced that this will make any difference.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24853	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24854	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The Partnership model should be completed.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24855	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	again, not a lot of detail here - i would like to know more about exactly whats involved to make any comments on. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24908	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	unable to comment as not in plain english	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24909	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
24910	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Annet House in Linlithgow is about to be sold and this will be great loss to the community and I am sure there are lots of similar building.	Reducing the Number of Community Facilities - building consolidation	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The disposal of Annet House was part of the funding package for the new Linlithgow Partnership Centre which includes space for Annet House/Linlithgow Heritage Trust.
24911	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree that this should be looked at. Council's building manager should be responsible for enforcing lights and computers being turned off at night.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council is committed to ensuring buildings are as energy efficient as possible. The council has motion sensors in place in number of locations and will introduce on an ongoing basis where there is a business case to do so to. We will continue to encourage employees to minimise their use of energy through a behaviour change programme.
24912	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Ok. Halls that are not used should be closed or transferred to community groups.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector, and maybe appropriate in this situation. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24913	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	selling unused property is a good way of raising funds	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
24914	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	It is important that the council reduces its portfolio of buildings and community facilities. If these are not sustainable then we must sell them. If the community want to run them then they must be left to get on with it - no hand-holding by council officers which takes time and money.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector, and maybe appropriate in this situation. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24915	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree there is a need to reduce number of buildings.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24916	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	As more and more churches are closing, surely there must be a great opportunity to work in partnership with every denomination to consolidate the council buildings into relevant church buildings, whilst sympathetically maintaining an ability for the church to remain at least in part a place of worship. Especially good if this consolidated data and service provision hubs for the elderly.	Reducing the Number of Community Facilities - building consolidation	6. This is a positive suggestion. Officers will consider how this could be developed.	Council will continue to utilise the partnership centre model to provide shared services and facilities, including those services delivered by partners. The council will also work with community organisations to support the use of non council service for community activities and services.
24917	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Is it possible to envision a local hub with school, cr�che, library, doctors surgery, community hall, cafe for the local community, all within the same buildings complex ie what is the visionary future which you are driving towards? Consider all council owned or sponsored services along with adjacent facility owners who have the aligned mission of providing a local service to the wider population eg police, health and fire services, local charities, and the like	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	Council will continue to utilise the partnership centre model where there are shared services and facilities, including those delivered by partners.
24918	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	close them all down..	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24919	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Is there any need for a village hall anywhere in West Lothian?	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24920	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Use the schools instead of expensive purpose built community centres .Heated and staffed already not used after 4pm.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24921	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Empowering communities is not likely to be achieved by reducing the number of community facilities	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24922	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Costs/time involved in creating/adapting to form these partnership centres will in no way shape or form be covered by any sales carried out	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has invested substantially in the last five years in developing partnership centres. The focus on the next five years will be to further consolidate activity into these centres, investigate opportunities to transfer assets to interested community groups and consolidate the overall number of facilities to match demand for services. This may include use of non council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24923	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The outsourcing to contractors has cost the Council huge amounts of money. The newly built/adapted buildings need to be suitably supplied with IT facilities and staff and public need to be protected at all times.	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	The council considers IT requirements as part of the design brief for any new construction project. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
24924	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	In general having some experience of community centers and village halls, they appear inconsequential to the vast majority of a settlements residents and are generally run down and unpleasant, regularly filled with one of initiatives that soon fall out of favor or reach public apathy. I would favor selling these or converting to revenue generating spaces that could be hired by community or small business etc and include franchise catering if it could be attracted.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Opportunities to develop properties to create an income stream could also be investigated.
24925	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Council need to ensure that the buildings they do have are fit for purpose. A number of large buildings with inadequate facilities which can lead to detrimental effects on staff productivity and health.	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	Large council buildings are developed/redeveloped to include appropriate facilities. Open plan layouts are used to maximise the efficient use of floor space to support service delivery.
24926	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Some building could be looked at to see if any of them would be suitable for a Homeless Hostle this could be used to support homeless people instead of using Hotels & B&Bs	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
24927	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	If community centres are not being utilised properly then it needs to be revised whether or not they should be funded any longer. It costs money to run a building that isn't being used.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24928	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Old community buildings no longer fit for purpose should be knocked down, either a replacement build on the land, or the land considered for community use, e.g. play park, small business etc.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24929	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Many of these are unused. Ruthless review. Get rid.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24930	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	More facilities are needed not cut	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership.
24931	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The facilities that do not get used on a regular basis should be reviewed.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24932	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	do not sell them of below market value	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.

24933	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It would be detrimental to many of the small communities in West Lothian if their community centres or village halls were to close. For many these are the only place they go for community events and to see their local councillors and you would be taking away a life.ine for many.	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24934	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree, the number of Council owned buildings could and should be reduced.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24935	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree services sharing facilities, particularly sharing more efficient buildings, would be beneficial. Close Broxburn Business Gateway Office, staff should be able to work out of Strathbrock where other services are. Having more services in one place, i.e. Adult Learning, Advice Shop, Employability, Business Gateway, CIS should be beneficial to the customer also.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24936	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	close facilities that are not being used but review why they are not who is responsible for promoting use	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24937	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Various services utilising one building rather than a number of buildings makes more sense.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24938	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed. Are further partnerships possible with other organisations - eg church halls, guide/scout halls etc.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24939	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Disposing of assets is fine but it has to be towards a purpose and not yet more empty buildings around our communities - dispose with a purpose, please, and ensure maintenance.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24940	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree although as I mentioned before it is vital that any buildings which become surplus to requirements are sold or redeveloped as soon as possible rather than lying empty for sometime.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
24941	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Identify which village halls and community centres are rarely used before considering consolidation	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24942	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I agree - the partnership centres are wonderful modern buildings. We should look to involve things like banks or post offices that are closing.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	Council will continue to utilise the partnership centre model where there are shared services and facilities, including those delivered by partners.

24943	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Buildings are in public ownership for a reason. These cannot always be devolved or divested to others. Buildings should be converted to meet housing need perhaps	Reducing the Number of Community Facilities - building consolidation	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
24944	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is the start of removal of all facilities to residents in West Lothian and something that residents will fight	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24945	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Ok in principle but who will maintain the buildings? And if the community groups decide to close community centres then will they be selling the land/building to developers?	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	If buildings are transferred, it will be the responsibility of the community group to maintain them. Any community transfer will include clauses to ensure buildings could only be used for community purposes and could not be sold in this manner.
24946	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Basically closing down buildings.	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24947	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	In agreement with this, especially council buildings that could be merged to save power costs, security and keep everyone in the same place.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24948	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	yes sell of unwanted buildings would bring in income, instead of the fee of maintaining an unwanted building	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24949	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Makes perfect sense and is normal in all other workplaces. However do not leave communities with empty buildings liable to vandalism etc.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24950	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Close some community facilities that are not viable / well used	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24951	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	5A) Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24952	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Only buildings that are being fully utilised should be kept.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24953	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	5A) Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24954	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Totally agree, please rationalise old out of date facilities that are costly to run and maintain and co-locate services into nearby new buildings where you will realise revenue savings over the lifetime of the building.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24955	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Look at proposals like getting rid of the rbs building in west calder and using the land to make money I sure rbs don't want to be paying council tax for a building they don't uses and apparently can't seam to do anything with	Reducing the Number of Community Facilities - building consolidation	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This building is owned by RBS on a long ground lease from the council. The council continues to collect ground rental from the subjects but has no overall involvement in the disposal of the building.
24956	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Concerned about the wider impact of removing some of these facilities. What consultation will take place and how will any negative impact be understood?	Reducing the Number of Community Facilities - building consolidation	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24957	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The council needs to embrace a greater level of home working and hot desking to allow rationalisation of buildings and increase income where possible through leasing office space to other public sector bodies.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24958	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Since the transfer of leisure facilities in 2017, West Lothian Leisure, which is wholly owned by the council, now manages 5 swimming pools in Livingston - a town which has a population of less than 60,000. There is clearly an over-supply of sport and leisure facilities in West Lothian and this requires immediate rationalisation. Little or under-used community facilities such as community centres, the Regal Theatre in Bathgate and wet and dry sports facilities should be closed.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24959	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Big savings one heating bill etc when together in one building.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24960	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	A rationalisation of community facilities is well overdue. Where there is a demand for facilities, the community should be encouraged to run them on a community basis with no support from the council.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24961	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Need to look at schools for providing spaces for community use rather than providing separate properties.	Reducing the Number of Community Facilities - building consolidation	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
24962	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Consolidation to Livingston? Consider the unintended consequences of short term actions.	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The focus will continue to be on partnership centre provision therefore there is currently no proposal to centralise all council buildings in Livingston.
24963	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Keep the Regal in Bathgate open.	Reducing the Number of Community Facilities - building consolidation	6. This is a positive suggestion. Officers will consider how this could be developed.	A public consultation is currently being held on options for the Regal.
24964	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Rationalise and reduce, leaving smaller number of better equipped centres providing enhanced level of service.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24965	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	we still have to have facilities for our teenagers to go to, maybe make them more accessible & try to encourage more teenage related activities, at a reasonable cost, this would bring in more income & reduce youth crime	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24966	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It makes sense to rationalise buildings	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

24967	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This proposal does not feel right. It sounds like the Council is proposing a reduction in the quantity and quality of services to those in need. How many community groups are going to be able to, not only purchase the properties from the Council, but also maintain them properly? This moving to a 'partnership model' shouts increased costs to me.	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24968	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	See my comment to item 5a. This proposal does not feel right. It sounds like the Council is proposing a reduction in the quantity and quality of services to those in need. How many community groups are going to be able to, not only purchase the properties from the Council, but also maintain them properly? This moving to a 'partnership model' shouts increased costs to me.	Reducing the Number of Community Facilities - building consolidation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24969	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If community facilities are insufficient, known down the old building & replace it with a new energy efficient and purpose built building - in the same place.	Reducing the Number of Community Facilities - building consolidation	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24970	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - building consolidation	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24971	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - building consolidation	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24972	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - building consolidation	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24973	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - building consolidation	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24974	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - building consolidation	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
24975	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Support for village halls and community centres should be maintained. Can the operation of commercial activities in these centres e.g. Cafes be used to offset costs?	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24976	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	there are several community centers which provide a limited service to the community. These centers should either be closed or the appropriate community groups should take over. This should be done with the proviso that the maintenance is not undertaken by WLC	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector, and maybe appropriate in this situation. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

24977	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I would be sorry to see community centres reduced and closed given how they positively affect community cohesion especially re potentially socially isolated groups eg elderly, youth, unemployed etc	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24978	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Maybe looking at alternative ways of fundings these building or actively looking for new occupants rather than leaving the building closed would be a good idea.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24979	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Its a shame that community resources will be lost	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24980	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Multi purpose venues are ideal but the design has to be right and this is a major failing at the moment it is about money at the expense of quality sadly	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources.
24981	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Many voluntary groups rely on these community centres and town halls to carry on as they have no where else to go. You must consider very wisely.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24982	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Village halls provide an important community hub in small villages and provide an outlet for community groups. This should be preserved	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
24983	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	if not in use this should be fine if well used buildings should be left	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
24984	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Any buildings becoming surplus to requirements should have a mandatory first offer to communities. If refused, sweetheart deals selling assets below market value to private buyers / developers should be banned and any sales made should be published in a clear and widespread manner to the public domain to ensure accountability in these proceedings	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
24985	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	sell them and the land to bring money back in community centres and village halls are not used as they should be	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
24986	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	With reduced facilities and police you are lining up a double whammy	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
24987	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This is a sore point in certain communities. The closure of the Low Port centre in Linlithgow to the general public has been resented and the café has been missed. It was felt that for the café to be economical the prices could have been raised and the clientele would have been happy to pay the higher amount. Cannot comment on other areas.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Options for the continued operation of the Low Port Café were considered prior to its closure. The café did not generate sufficient income to cover the cost of delivery with the council having to provide a substantial subsidy. Due to the low levels of footfall at the cafe, the charges required for full cost recovery would have been prohibitive.
24988	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	the reality is that most communities cannot afford what it would cost to operate such facilities	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
24989	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	Family mediation Lothian uses Forestbank Community Centre and Whitburn Resource Centre every weekend for our child contact centres; they are excellent resources and the Forestbank centre in particular is always very popular with our families.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24990	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Difficult one here as usually it is the less capable, less well off that value their local centre. Not a good option.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.

24991	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Assess economic viability of all community centers and village halls and introduce revenue generating activities	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24992	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Charge for the use of all facilities at community centre's increase the fees	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Currently community groups keep all income generated in community centres with the council receiving no income towards the cost of providing these facilities.
24993	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Do not remove the small community centres as they are a valuable asset to the local people	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24994	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again people rely on halls etc however depends on how many people use it	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
24995	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	We need these youth centres to stay open to keep youth of streets.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24996	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Each community needs a hub for local events and activities for young and old.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
24997	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centre's are a valuable community asset, in some communities the only asset and the only place to vote, maybe centre's run by Management Committee's could pay towards council maintenance/staffing costs. More building's could have groups self-accessing, cutting back on staffing.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
24998	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	More are needed	Reducing the Number of Community Facilities - community centres	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership.
24999	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I do not want to lose my community center in Winchburgh	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Options for community provision are being considered as part of the core development plan for Winchburgh.
25000	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	May be so but worry that local smaller communities will be the first to suffer, and there be no travel infrastructure to support travel.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25001	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Taking away community provision will take away the heart of some communities.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25002	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	not a word I would use closing village halls and community centres is not what I call efficiency	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
25003	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree in principal, but need to consider ability of people to travel to centralised facilities.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25004	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Review and rationalise. Do we monitor numbers using these buildings, demonstrate to local communities that buildings are not utilised and need rationalised.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25005	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? If the closure is in a deprived area then what support will be put in place to upskill the people in that community so that they can operate and manage the community facility themselves in a sustainable period.	Reducing the Number of Community Facilities - community centres	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
25006	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community facilities are an important life line for many. Short sighted decision, social isolation will lead to other problems	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25007	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	A lot of buildings are not been used and cost a lot to run i feel this needs to be reviewed and staff need to be reviewed.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25008	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	How easy would access be to the whole community if local services removed.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25009	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Again ridiculous, won't be long until there are no community centers or activities for anyone. What are people meant to do, where are they meant to go for community based activities? Every village / town should have access to one community center / council building and ALL services for that village / town should be available within that building.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25010	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Our community centre is a vital building for our residents including children and the elderly. The bus service in our village of winchburgh is terrible so parents or adults who do not drive would struggle to allow their kids to attend local youth clubs or groups. These are vital services to our area and children.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25011	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed that there is no need for so many community facilities and the costs associated with them need to be provided.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

25012	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Some properties could be sold to private interests. This would help to fill the funding gap.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt. On this basis any receipt would not reduce the gap however it would generate savings in running costs for buildings.
25013	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	As the council has moved to the partnership model, there is an opportunity to consolidate the number of community centres and village halls.' : community halls are by definition locally sited. Therefore it seems that 'consolidate' necessarily mean 'cut'. If that is so, please just say so.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
25014	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centres provide essential contact for many people who would therefore be lonely and alone. I think they are a vital part of each community.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25015	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	the council should get rid of community centres that are not well used.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25016	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I am not informed enough to comment, although I think community centres and village halls are a necessary commodity within our communities and it is a pitiful saving....	Reducing the Number of Community Facilities - community centres	3. The respondent advised that they had no comment to make.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25017	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agreed that savings could be made where some of these buildings are concerned. I would be very concerned for some of our very disadvantaged communities however if a building providing considerable community provision and well used should be lost. Perhaps a selective approach for this one.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25018	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Hugely disappointing as these centres are community hubs they allow people to meet each other, take pride in their community, arrange groups for old and young and activities to benefit their local community that have health benefits etc.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25019	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	As previously stated please do not close these facilities in Blackridge.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25020	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres are important for keeping people connected	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25021	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Partnership model fine. Do not remove local community centres/village halls without consultation - good focal point for elderly in the community.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25022	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres can be the heart of a town particularly in smaller areas. It would be a shame if these had to close perhaps forcing the closure of local clubs which use the facilities	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25023	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Whitburn's community centre has been working very hard and very well for our community, I'd hate to see these services cut	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25024	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	keep local community centres open for the local people. so i can keep going to my clubs.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25025	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Keep local community centres for the use of local people	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25026	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Many community centres are not used well and are often being kept open for the wrong reasons. The partnership centre format works well and encourages partnership working. These should be reviewed and land sold or handed over (most beneficial for budget)	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25027	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres are a vital resource for local people, especially where an individual may not be able to travel to the next community or further to benefit from the service.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25028	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	The current council community centres provide venues to run council groups, such as parenting programmes. If the properties become private, those venues will not longer be free to these groups meaning a reduction in the programmes.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no proposal to transfer community centres to private organisations. Any transfer would be to a community group therefore the facility would continue to be available to the community.
25029	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Consideration will need to be given to the siting of community facilities so that those providing a service to isolated or difficult to reach communities are protected.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25030	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This clearly won't work as community groups are run by volunteers who mostly all have day jobs. The volunteers won't be able to run the community centres. So it sounds like your proposal is to withdraw staff from community centres and let them die. Community centres are well used by the voters of West Lothian.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25031	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The council should detail which community centres it is considering "consolidating"; otherwise this is more waffle - without meaningful detail.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25032	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Lots of centres are really well used surely this would need to be looked at for each centre?	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25033	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Do not reduce the means through which smaller communities can come together, they are an absolutely essential part of small town and village life, people depend on them.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25034	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Local community centres are an asset to everyone in the community. I feel this is the wrong way to go.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25035	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres which are under used and not viable may be at risk but those which are well utilised by various groups and bodies within the community such as Bellsquarry Village Hall and Springfield Community Wing should be supported.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25036	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree- however are community centre fit to be transferred ? is there a need for every locality to have a community centre / town hall ? All facilities that are in a state of disrepair should be closed.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25037	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Consolidating the community centres will reduce the number of community activities available. I run a Guides group and we were forced by the council increasing our let costs to move to the church hall. Luckily they were able to accommodate us but otherwise our group would have had to close. These community groups are important to many people and reducing the number of available spaces will mean they have to close.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25038	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	this should be explored but consideration of other available local resources should be identified. WL is very rural and if some villages only have one community centre this may be the only community resource compared to larger towns which have other available venues/services to use.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25039	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	each town and village should have a community centre or hall	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25040	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This sounds like "buzzword" for shutting community centres and village halls. Why not rationalise community centres into other council infrastructures (sports centres/council offices etc).	Reducing the Number of Community Facilities - community centres	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25041	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The smaller halls and centres would be better utilised if the rental costs were not so high and perhaps if they advertised their services more across the whole county.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25042	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Charges could be introduced to save closures.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

25043	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	A lot of money has been invested in restoring village halls over the last few years. Please do not consolidate them and close some of them. These provide vital services for a wide variety of your residents.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25044	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I'm not for reducing Community Facilities except where the facility is not needed, and I can't think of any Community Centre which is not used adequately.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
25045	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Again , get the payments in for these facilities upfront.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	This would need to be considered within the parameters of providing methods of payment consistent with the council's Anti Poverty Strategy.
25046	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	I live in Whitburn & the community centre is a great asset to the town I use it frequently with my 2 young sons, have attended many toddler groups & held numerous birthday parties. I would be a great loss if it were to close.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25047	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	This is a negative move as it takes away the places where the small communities can build relationships.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25048	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I don't think Community Centres can be cut much further if this is to happen then we will not be delivering a good quality service to the customer .	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25049	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centre has been a huge party of Community life being the hub and brining everyone together children and adult use this service and rely on a place to meet . We need to try and keep the youths of the streets and by taking away Community centres would see an increase in crime if the kids had no where to go.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25050	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community buildings are essential to enriching lives and providing a community with the facilities to come together. A review should take into account how well used the building is used / how well used are alternative buildings in the community used / the redevelopment value of it.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
25051	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	My only concern would be a lack of appropriate buildings to run the services leading to those who have mobility issue or vision issues or any need that is not mainstream being discriminated against.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25052	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	If communities aren't successful in requesting ownership of these properties, then once they close and are sold off they will be lost for ever to the community. For many villages the community centre or village hall is the hub of the community and provision of many supportive and beneficial groups. Some of these buildings have been available to their communities for hundreds of years!! It sounds an awful proposal!	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25053	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think community halls are vital for local groups and should continue to be funded	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25054	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Some community centres are well used what would happen to these ?.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25055	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Consultations from the community should be sought after before shutting community centres down.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25056	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Disagree - community centres are often the heart of small communities and would be a devastating blow if these were to shut.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25057	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	DONT CLOSE COMMUNITY CENTRES, LEADS TO MORE ISOLATION	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25058	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	some villages only have a community centre for youth clubs etc not keen on these being taken away	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25059	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Reducing community facilities eventually leads to higher crime amongst the young, and poorer health for adults. Not a priority for making savings, and few communities/individuals will feel 'empowered' by their removal.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25060	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	There is a view that local communities already lack 'community spirit' and community cohesion. The shifting of responsibility for community resources to local people places greater responsibility on those communities, often on the people who need the service the most. The charging policies being implemented in some centres is already reducing provision.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25061	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	East Whitburn has one community building that is needed to ensure the integrity of the village is not compromised and to enable social cohesion in an area that has been historically shredded by pit closures and loss of industry. We have nowhere to meet and socialise and there's talk of increasing the village with another 250 houses	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25062	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Why don't all evening lets be Put into High Schools, we have an abundance of resources that are underused..	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25063	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Not enough information to provide comment. What is the use of the centres, how are they being used, how are these supporting preventative measures, is there a long term cost implication of their 'removal'?	Reducing the Number of Community Facilities - community centres	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25064	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Looking at the need for community centers in some areas I agree is needed, but again it is hard because for small places that is all they might have there, yes not bringing in alot of money but surely that can be looked at. shouldnt the plane be "how can we make more money here and promote the community centre?" not "do we really need this building here cause it will save us money?"	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.

25065	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The council need to be very careful here, as this could have a huge detrimental impact on many of the priorities of both council and national government. For example, encouraging people to get out to work requires facilities for out of school care clubs to function, and community buildings are necessary for such locally / parent run resources. To own and maintain such community wings would be outwith the budget ability of parents to support, so how do they get out to work?	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25066	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Community Centres provide a useful venue for various community groups. The statement an opportunity to consolidate the number of community centres sounds like closure which I would oppose in Linlithgow.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25067	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I think this should only be imposed on Community Centres etc. if there is a willingness from local people to take control, if not the facility should be left to operate in that area but perhaps more efficiently.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25068	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Community centres provide important support for the local community.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25069	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	community centres are the hub of each town/village.They are the only place where children can go and take part in activities, interact socially and make friends, build confidence and skills additional to their school learning. Reducing services in this area would be harmful to todays generation.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25070	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	5a The question indicates that a number of buildings will taken / sold of their portfolio. Surely a much higher level of £600,000 income can be gained from estate sales. Are buildings / land going to be sold off at market price. The cost saving suggest that only one or two buildings will be sold off in contrast to what is being proposed through out this consultation document can detail be provided of what buildings will be sold and for what price.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	The saving is revenue savings related to the day to day operation of buildings. By law income received from the sale of assets can only be used for capital expenditure or repaying debt and therefore is not included in the total saving in the consultation document.
25071	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The consolidation of community centres and village halls would have a detrimental effect as the closure of any such facilities would make it far more difficult for residents to attend classes etc if they did not have access to a car.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25072	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Review away, however I am not for a reduction to the provision of any of the present facilities at community centres throughout West Lothian.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25073	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	some villages are remote and village halls provide access to groups, services and social groups. The loss of these, no matter how small a saving, will be devastating to some of our smaller communities. I do not agree with this proposal	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25074	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Key that access to community facilities, and the facilities themselves is maintained. This is vitally important for the large number of voluntary community organisations who use facilities within schools in communities where few or no alternative facilities exist.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25075	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	In some areas community centres are the only local facilities that is there so it would be wrong to lose these as they can provide vital local services such as support groups and meeting areas. In larger areas where partnership centres are open and have availability then these may be able to assist local groups and allow the closure of some community centres.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25076	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Make schools community schools instead of having community centres would save on buildings cost.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
25077	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	The provision of the Torphichen Community Centre is vital in this small village, it should be utilised fully and resourced to enable villagers of all ages access to multiple activities.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25078	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Sensible, although depends on location of centres relative to partnership centres.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25079	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	Community facilities, particularly little or under-used community centres, should be closed.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25080	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Don't agree in WL a lot of small villages - these need a space	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25081	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Depends on whether they are used or not. My reasons for not cutting music, arts and leisure facilities hold for this. Can you not put up rental encourage users to help with care and maintenance?	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25082	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Agree with using community centres and village halls as they should be the "hub" of the community and are usually accessible to all ages. Review services to be accessed from/attended by to ensure best use of buildings	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25083	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted. The numbers of children attending Youth clubs needs investigation as some clubs are running with only two people in attendance	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25084	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Continue the activities	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
25085	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Yes review them as there will be savings - but community and village halls make the place and place is a key government policy - reduce the heat maybe as people can put on more jumpers but don't destroy the possibility of creating places for old people and young people particularly in communities where people do not travel far.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.

25086	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	For the community to benefit from the disposal of council assets those assets need to be identified and discussions held with Community Councils/Community Development Trusts over a long period of time. Asset transfer is not a quick process. It is unlikely that the savings proposed can be realised during the financial period unless there is a wholesale disposal of assets without consultation which we would oppose. BURGH HALLS Linlithgow benefits from a major asset in the context of the Burgh Halls. However, much more needs to be done to promote to venue which means investing more to generate increased income. This is a primary money earning asset that is currently not fulfilling its potential. COMMUNITY CENTRES provide a useful venue for various community groups. The statement "an opportunity to consolidate the number of community centres" sounds like closure which we would oppose in Linlithgow.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25087	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	Close community centres that have no potential to reach capacity and where there are available places nearby	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise use where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25088	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Closing centres will cut people off from their area & their community	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25089	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	I don't agree with closing community centres and other council buildings.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25090	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Maybe groups that are getting together could pay little for use of centres.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Officers will consider how this could be developed.
25091	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Which properties are you considering to be surplus to requirements?	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25092	On behalf of a Group/Organisation	5a. Empowering Communities & Reducing the Number of Community Facilities	We as a committee hope that the council will continue to prioritise resources on those in our community who are most in need, such as children and older and vulnerable people. It would be a tragedy if this community centre was closed. It is a community hub, well supported and vital to the heart of the community. Closure would cause distress. The village has greatly increased in size and the centre provides integration for the new residents and original residents. The centre is used as a polling station, councillors hold their surgeries, consultation meetings, the list is endless. We are committed to a programme of refurbishment to the interior of the community centre to maintain a welcoming and well maintained environment for all to enjoy.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25093	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	Contradiction has risen as people and employers want young people to develop certain skills and strep out of their comfort zones to cosialise with people. After school clubs, social groups help and awareness groups along with many others take place in community centres and public buildings. By closing community centres and other buildings there will be less places and opportunities for people to develop and learn new skills as well as have somewhere to go to get help and support	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25094	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	It is understandable to rationalise facilities this would have a huge effect on small villages where the community centre village hall is the hub of the community.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25095	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	previous reorganisation of community centre management has not provided an efficient or cost effective management service - poor / or no training offered and wrong skillset has made associations and user gps distrusting of council	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

25096	No Response	5a. Empowering Communities & Reducing the Number of Community Facilities	The income generated by community centre management committees (which in some cases is significant) should be ring-fenced for provision of targeted community learning and development opportunities (children's clubs, youth work provision etc) within/around the facilities they manage the lets for. I understand that such a move would be in line with their charitable purposes. The council needs to ensure that the income generated by management committees is utilised for the benefit of those that need it, not those who have always got it, or who know how/who to ask for it. I don't think management committees currently even need to commit to use their income to help maintain or improve the community centre facilities! Management committees should also seek to better utilise their charitable status to apply for (and hopefully obtain) external funding which is not available to the council, and which could be used to fund provision or improvements that the council may not be able to in the future.	Reducing the Number of Community Facilities - community centres	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Where relevant, we will forward these comments to the appropriate organisations.
25097	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	How and where are these going to be provided? A number of community centers have had to close or reduce their hours dramatically. Will this happen again when this is no longer a priority	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25098	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	If we look at some Community Centre buildings the usage figures for these building is very low. Do we need the amount of Community Centre Buildings that we currently operate or is there more of an opportunity to share the staffing of these centres with the Management Committees to allow for staffing to be reduced further and for the Management Committees to staff the centres on a part time bases.	Reducing the Number of Community Facilities - community centres	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25099	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	This cutting back of staff is not good. Some areas cuts are needed but in the community centres - appalling. I wandered around (one day) Strathbrock Community Wing trying to find someone to no avail. Even a social worker from upstairs could not find anyone. I could have removed (stolen) quite a bit of valuable goods as I had about 20 minutes to wander freely. C.Ed services are suffering - who cares? Nobody unless they are directly affected.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
25100	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	community centres give people a central safe spot to go, get help, meet friends and get out. this is needed. the Boghall Community Wing is very important to me and my family. it is needed.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25101	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	the community wing is one of my only ways of getting out and meeting my friends and other people. this is a life line for all of us. do not cut any funding to the local community centres. They are a central point for all people to get help	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25102	An employee of West Lothian Council	5a. Empowering Communities & Reducing the Number of Community Facilities	The Craiginn Centre in Blackridge and the Community facility that is run at Blackridge Primary are VITAL resources to the children and young people in Blackridge. In a village setting there is no where else to go and nothing else for the children and young people to do. I believe that these services should remain open as both are well utilised and the Library and Craiginn Centre have already been merged saving the Council money. Many groups are run in these locations including Dancing and a Community Centre which are essential to young peoples health and both physical and mental well being. Cutting these services would have an extremely detrimental effect on the Children and Young People concerned.	Reducing the Number of Community Facilities - community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25103	An individual	5a. Empowering Communities & Reducing the Number of Community Facilities	if you are going to close community centres at least keep community schools open.	Reducing the Number of Community Facilities - community centres	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
25104	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Agree, but where how has this figure been calculated?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

25256	An individual	5b. Revised Property Requirements from Service Proposals	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
