25391	An individual	5b. Revised Property Requirements from Service Proposals	Look okay as it is possible to evaluate given the vague descriptions given in the 'Transforming Your Council'	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25392	An individual	5b. Revised Property Requirements from Service Proposals	I agree with the proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25393	An individual	5b. Revised Property Requirements from Service Proposals	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25394	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Asset transfer and disposal mean large FOR SALE signs in towns and communities. I understand if they can sold then this is beneficial to the council but no one benefits if they lie empty.	Commercial Property (general)	4. The council is already doing this.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The rationalisation of buildings will generate ongoing substantial revenue savings.
25395	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Could some properties be put up for sale as some might have a commercial value ?	Commercial Property (general)	4. The council is already doing this.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25396	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	These should be based on the financial burdens.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
25397	An individual	5b. Revised Property Requirements from Service Proposals	This is small amount of money compared to the valuable resource lost to the community.	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use and meets the council's requirement to support community ownership.
25398	An individual	5b. Revised Property Requirements from Service Proposals	You should be looking at getting more people into fewer buildings in your estate, hot desking, working from home, etc.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council continues to investigate opportunities for further flexible working and use of technology.
25399	An individual	5b. Revised Property Requirements from Service Proposals	Can they be renovated into housing? This is one way of addressing a hot topic.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25400	An individual	5b. Revised Property Requirements from Service Proposals	Why not if possible change the properties into houses for homeless	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25401	No Response	5b. Revised Property Requirements from Service Proposals	Asset transfer must include also income to the local authority	Commercial Property (general)	4. The council is already doing this.	Currently community groups keep all income generated in community centres with the council receiving no income towards the cost of providing these facilities.
25402	An individual	5b. Revised Property Requirements from Service Proposals	again i have seen this in other local authorities and communities don't understand the vastness of running these locations - advisory support is imperative	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25403	An individual	5b. Revised Property Requirements from Service Proposals	only carefully considered properties should be sold.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25404	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Waste of Council monies previously will not be covered by the sale or transfer of property.	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
25405	An individual	5b. Revised Property Requirements from Service Proposals	Income to the Council is vital therefore - property revenue and business rates are crucial as they generate a useful income for the Council whilst boosting economic development and the employment position in West Lothian.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. The commercial property portfolio generates income for the council with the cost of providing the units being substantially less than the income received.
25406	An individual	5b. Revised Property Requirements from Service Proposals	Commercial interest should be tested first.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25407	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Holding onto property that is not longer required does not make sense.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25408	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Rationalising properties owned and used by the council should help.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25409	An individual	5b. Revised Property Requirements from Service Proposals	As above - As long as the groups look after the properties and we are not left with derelict buildings. That the council later have to pick up the cost for, when there is even less money and value in the building	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.

Transforming Your Council Consultation 2017

25410	An individual	5b. Revised Property Requirements from Service Proposals	Close and sell all properly not needed. Reduce maintenance costs and staff. Win win.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible.
25411	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	How will it be decided what community loses out and what community will be relieved?	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
25412	An individual	5b. Revised Property Requirements from Service Proposals	Surplus properties should be made available for asset transfer or disposal before lying empty for years, losing value. There are many surplus buildings in the Council area that have little value due to poor condition.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25413	An individual	5b. Revised Property Requirements from Service Proposals	turn brownfield sites in to housing. Please.	Commercial Property (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25414	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Could council building be hired to local groups at the weekend or hired for external company meetings during the week - to create revenue.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
25415	An individual	5b. Revised Property Requirements from Service Proposals	Footprint should be reduced to a bare minimum	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25416	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	I agree that the buildings lying empty should be sold off	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25417	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Makes sense to sell surplus properties.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25418	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Transferred to local groups would be better than transferred to property developers. Village halls and community centres are vital to their population centres. Removing them from public access would be a retrograde move.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25419	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Surplus properties should be sold off	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25420	An individual	5b. Revised Property Requirements from Service Proposals	What does this actually mean? Sell off land for unaffordable housing?	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25421	An individual	5b. Revised Property Requirements from Service Proposals	Make sure that when these properties are being sold off that the council obtains the best possible price for them instead of selling off at ridiculously low figures only to have developers get money which should reach the public purse.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council.

25422	An individual	5b. Revised Property Requirements from Service Proposals	Seems a small return for transfer or disposal	Commercial Property (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
25423	An individual	5b. Revised Property Requirements from Service Proposals	Same comment as above. - Good idea but must be done sensitively with the full backing of the Community and therefore unlikely to happen during the period of the financial plan.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25424	On behalf of a Group/Organisation	5b. Revised Property Requirements from Service Proposals	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? What properties are you referring too? What impact will this have in rural areas and those already isolated within the communities in which they live.	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
25425	An individual	5b. Revised Property Requirements from Service Proposals	Addiewell Community house is not being used. Return it to a house to allow a family to use it.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25426	An individual	5b. Revised Property Requirements from Service Proposals	Yes get rid of excess properties	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25427	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	In agreemnet rent out these to other agencies.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25428	An individual	5b. Revised Property Requirements from Service Proposals	Good idea. However, you need to make sure that there is adequate support for those wishing to take up the Asset Transfer option. Having looked at this for our village hall have to say that the support from the council so far is not good therefore leaving us undecided on where we should take this forward	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy is being reviewed to assist community groups further in this process.
25429	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Rental could also be considered to provide additional revenue stream.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
25430	An individual	5b. Revised Property Requirements from Service Proposals	Only Â£700k much more could be saved here	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25431	An individual	5b. Revised Property Requirements from Service Proposals	I agree any properties not being used should be sold to make the council money I dont think we should be making excuses to close services so that they can sell them off. I think if they are empty then yes make use of the asset.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

25432	An individual	5b. Revised Property Requirements from Service Proposals	Many council buildings are sitting empty sell them or make a use for them that will bring in money	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible.
25433	An individual	5b. Revised Property Requirements from Service Proposals	As above these assets can only be realised if there are Communities well off to pay for them. The statement itself indicates a further centralisation on Livingston; this is to be deprecated	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. The focus will continue to be on partnership centre provision therefore there is currently no proposal to centralise all council buildings in Livingston.
25434	No Response	5b. Revised Property Requirements from Service Proposals	If these properties are sold to private enterprise, regulations must be put in place that they are sold for market value. If they are transferred to the local community the same regulations would need to be stipulated to safeguard against future sale if local demand is not sufficient to keep the property within local ownership.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest benefit for the council. Market conditions may mean that properties are not listed for sale for some period. Any community transfer will include clauses to ensure buildings could only be used for community purposes and could not be sold.
25435	An individual	5b. Revised Property Requirements from Service Proposals	Let's hope the council does not lose too many capital assets through community takeover as very costly & can imagine council will be asked later to bail out problems	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25436	No Response	5b. Revised Property Requirements from Service Proposals	What will happen at the end of year 5 when we don't have any more properties to transfer and have further savings. Can we not offer the properties rent free/reduced on the condition that the company/organisation maintains it to an agreed standard. This could bring more businesses into West Lothian, and keep our properties maintained and functional.	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Free transfer of assets to groups who have responsibility to maintain the assets is delivered through the provisions of the Community Empowerment Act.
25437	An individual	5b. Revised Property Requirements from Service Proposals	I think you are talking about selling off properties? (The language is a bit opaque.) If so, I think it would have to be considered case-by-case.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible.
25438	An individual	5b. Revised Property Requirements from Service Proposals	Provided core services are maintained	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
25439	An individual	5b. Revised Property Requirements from Service Proposals	Sell them off for housing projects.	Commercial Property (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25440	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Sell all land which is not required. Sell all property which is not required.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25441	No Response	5b. Revised Property Requirements from Service Proposals	Agree we must make property related savings as a first priority. We have too many buildings not being fully utilised and rationalisation is required.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25442	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Some of these buildings might be needed in the long run. Selling is very final and could be dangerous if assets are significantly depleted. Letting may be better?	Commercial Property (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
25443	An individual	5b. Revised Property Requirements from Service Proposals	Agree, provided there is an adequate spread of quality facilities available for local use.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25444	An individual	5b. Revised Property Requirements from Service Proposals	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
25445	An individual	5b. Revised Property Requirements from Service Proposals	Service provision should be maintained in Linlithgow	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25446	An individual	5b. Revised Property Requirements from Service Proposals	Selling the family silver?	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership.
25447	An individual	5b. Revised Property Requirements from Service Proposals	Asset transfer on surplus properties should be Considered carefully - selling them to the highest bidder (not people connected with the council) should bring more money into the council	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25448	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	if there isn't a requirement for the buildings it would make sense to remove them from WLC's portfolio	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25449	An individual	5b. Revised Property Requirements from Service Proposals	A good proposal if sold on at market value.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25450	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Good idea. Shame about Annet House though...	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25451	An individual	5b. Revised Property Requirements from Service Proposals	Agree but please be creative and think of benefit to community and not more empty buildings. If needed clear the sites and encourage development.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.

25452	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Good - get rid of all the empty office space in West Lothian - like happened in Livingston Village!	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25453	An individual	5b. Revised Property Requirements from Service Proposals	who will buy these they will either be left to rot or houses will be built with no facilities left for the community and where would the money go from the sale of the properties would they be offered to local communities to but at a discounted price	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25454	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	A Good idea, so long as land or titles are kept to prevent developers taking advantage.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period. Any community transfer will include clauses to ensure buildings could only be used for community purposes and could not be sold.
25455	An individual	5b. Revised Property Requirements from Service Proposals	I would agree with this only if the property was completely vacant or in disrepair	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25456	An individual	5b. Revised Property Requirements from Service Proposals	Good idea as see quite a few buildings rotting around the place	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25457	An individual	5b. Revised Property Requirements from Service Proposals	real estate possibilities will provide revenue as some of these places are dis-functional but once they're gone they're gone. Properties like Bangour for example would be useful generation of revenue. However, the fabric of some existing buildings are shabby and a disgrace. For example the Civic Centre, the quality of which falls far short of adequate.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. All council buildings are maintained to appropriate standards. Any issues with condition should be raised with the Building Manager. The Bangour site is owned by the NHS and not the council.
25458	An individual	5b. Revised Property Requirements from Service Proposals	Agree where properties become surplus these are transferred /sold	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25459	An individual	5b. Revised Property Requirements from Service Proposals	Duplicated services should be streamlined, but local communities do need local facilities	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	Opportunities to streamline process and remove duplication will continued be considered. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25460	An individual	5b. Revised Property Requirements from Service Proposals	sell them all	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25461	No Response	5b. Revised Property Requirements from Service Proposals	Small increments in rent may be appropriate but large increases such as the 3% per year will adversely affect the viability of small organisations that already substitute for "Big Brother" provision inadequacy	Commercial Property (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
25462	No Response	5b. Revised Property Requirements from Service Proposals	Watch how much you sell off.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any disposals will be considered against the loss of revenue income produced. The council has a schedule of planned capital receipts which consists almost entirely of land and buildings which have previously been declared surplus to requirements.
25463	An individual	5b. Revised Property Requirements from Service Proposals	5b The question indicates that a number of buildings will taken / sold of their portfolio. Surely a much higher level of £600,000 income can be gained from estate sales. Are buildings / land going to be sold off at market price. The cost saving suggest that only one or two buildings will be sold off in contrast to what is being proposed through out this consultation document can detail be provided of what buildings will be sold and for what price.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The saving is revenue savings related to the day to day operation of buildings. By law income received from the sale of assets can only be used for capital expenditure or repaying debt and therefore is not included in the total saving in the consultation document.
25464	An individual	5b. Revised Property Requirements from Service Proposals	Why have you been wasting so much of our money up to this point?	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has delivered substantial property management savings over the past ten years and will continue to do so over the next five years.
25465	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Although properties may be available for disposal, disposal depends on a willing purchaser. This saving cannot be guaranteed.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25466	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	All surplus properties should be disposed of as quickly as possible.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25467	An individual	5b. Revised Property Requirements from Service Proposals	It is important that surplus properties are sold as quickly as possible to ensure that any equity is released to the maximum.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25468	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	No issues with this as long as the assets are sold for the correct value and if possible for any transfer/purchase to assist the community in another way.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25469	On behalf of a Group/Organisation	5b. Revised Property Requirements from Service Proposals	This is a great idea and there should not be empty council buildings all over the place. We know of community groups who are looking for premises and are having to rent privately because of red tape.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25470	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Property need to no just look at surplus properties but the inefficiencies that exist within "poor management of projects with no clear lines of responsibility during & after the project, lack of financial budget to complete a good project, additional costs then having to be unfairly born by the section's revenue budget itself rather than the project, lack of support in addressing the issues that arise. If inefficiencies and poor practice were addressed, what savings could they alone make.	Commercial Property (general)	4. The council is already doing this.	All capital projects have a dedicated project officer appointed who has responsibility for delivery, communication and budget management. This is reinforced by a plan of work for all construction projects that clearly defines roles and responsibilities. A new customer care procedure has been developed requiring project officers to resolve any emerging issues for up to one year after works are complete. 77.3% of customers rate project delivery as good or excellent.

25471	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Agreed. Also there are lots and lots of small pockets of land dotted around the district, often small areas of unused space within housing estates. A lot of these could be sold off as individual house plots that wouldn't have any significant effect on school capacities. If say 50 small plots at an average cost of £20k could be identified across whole of West Lothian then that would give £1m plus eliminate future need to maintain these spaces	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25472	An individual	5b. Revised Property Requirements from Service Proposals	Surplus properties should not be transferred or sold at less than full market value unless the proposed scheme can demonstrate equivalent or greater savings for the Council elsewhere.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25473	An individual	5b. Revised Property Requirements from Service Proposals	Ok - with community having first call - not developers	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period. Any community transfer will include clauses to ensure buildings could only be used for community purposes and could not be sold.
25474	An individual	5b. Revised Property Requirements from Service Proposals	If the properties are not to be used now or over the next 5 years and will not cause additional cost thereafter it makes sense to sell these.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25475	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Seems reasonable but I'm surprised the saving is estimated at such a small cost.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The saving is revenue savings related to the day to day operation of buildings. By law income received from the sale of assets can only be used for capital expenditure or repaying debt and therefore is not included in the total saving in the consultation document.
25476	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Any surplus properties should be sold off and best use made of remaining properties to maximise the use of these remaining ones day and night.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25477	An individual	5b. Revised Property Requirements from Service Proposals	When selling properties please consider the plans for the properties or site so it adds value to the community and services not purely financial gain to West Lothian Council or the new owner. Ideally with a focus on sustainability good decisions will be made.	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When selling properties which are surplus to council requirements, the likely after use will be determined in accordance with the local development plan.

25478	An individual	5b. Revised Property Requirements from Service Proposals	There is a requirement for a Respite Hotel for people living on their own, for families/carers to have loved ones safe and happy when they take a much needed break. Could tax breaks for business/private investment/ crowd funding be used to regenerate a current site. Good quality properties, rooms and services. A 5 or 10-year lease could be given to the Provider so they are prepared to make the investment of resources to maintain high standards. How about regenerating Gogarburn, to make it a sustainable community for supporting vulnerable people and also developing work skills for others. The contract could include employment support so as many people a reasonably possible could learn new skills who could then apply for paid work, there or someone else. Catering, care, admin, cleaning, laundry. Business skills for others. It could be aligned to the college as well. Can the government allow tax breaks for people/companies to invest in capital projects in Scotland? For those going into residential housing or supported accommodation for vulnerable or older people families/individuals could make a contract to contribute upto a set percentage of the bill by volunteering. The full price is taken by the service and the agreed percentage is returned once the volunteering work has been completed. It is imperative the funds are returned immediately the work is concluded. People may be able to contribute skills, knowledge etc rather than money. If services are being cut, these resources may enable activities and other things happen that otherwise would close. We need to establish different ways of working and providing services. Who is carrying out the think tank work to capture ideas and try new approaches? Where are local authorities sharing best practice? Can individuals/organisations be encouraged to submit ideas and good practice as well? For example, I have some ideas but don't know how, where to share them. I am a member of the West Lothian Learning Disability Forum.	Commercial Property (general)	4. The council is already doing this.	The council are currently considering options for respite provision as part of the ten year capital investment programme.
25479	An individual	5b. Revised Property Requirements from Service Proposals	Council should look at ways of increasing money from its assets.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25480	On behalf of a Group/Organisation	5b. Revised Property Requirements from Service Proposals	We recognise the potential benefits of asset transfer and community ownership of buildings, as a real opportunity to strengthen local communities, who could run buildings more efficiently and effectively than Council and we are keen to explore this further. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and the sector would like to see this continue, as it will become even more essential in the tough years ahead. To maintain out of school care provision across West Lothian it is essential that Council continues its practice of not charging community-based out of school care groups for lets in schools and community centres. This recognises the essential nature of this provision and its significant economic and community impact in enabling parents to maintain their employment and bring in Millions of pounds to West Lothian's economy.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process. Non domestic rates are set and determined by the Scottish Government.
25481	An individual	5b. Revised Property Requirements from Service Proposals	Council assets properties under rental. Enforce homes or commercial properties who are in rent arrears. Take upfront rent/rates for 3-6 months then roll on.	Commercial Property (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
25482	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	is this achievable in the current economic climate	Commercial Property (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25483	An individual	5b. Revised Property Requirements from Service Proposals	Generally agree but cannot comment on these as no info available.	Commercial Property (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25484	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Stop giving properties that can generate a capital receipt to community groups.	Commercial Property (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Under the Community Empowerment Act the council must consider all robust business cases in the transfer of assets to communities.
25485	No Response	5b. Revised Property Requirements from Service Proposals	Disagree..	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

25567	An individual	5b. Revised Property Requirements from Service Proposals	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
25568	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Housing becoming and RSL- pros cons	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
25569	An individual	5b. Revised Property Requirements from Service Proposals	This needs to be sped up	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25570	An individual	5b. Revised Property Requirements from Service Proposals	Don't get too excited - I remember the Civic Centre 'windfall' anticipated after the big council offices in Livingston closed a few years ago - and the court and County Buildings in Linlithgow	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The property modernisation strategy has delivered a range of savings and efficiencies over the past ten years.
25571	An individual	5b. Revised Property Requirements from Service Proposals	All surplus property should be either sold or leased to make money.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. The council also has a commercial rent portfolio which generates income for the council with the cost of providing the units being substantially less than the income received.
25572	An individual	5b. Revised Property Requirements from Service Proposals	why not reduce the number of empty / unfilled spaces in schools rather.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety requirements.
25573	An individual	5b. Revised Property Requirements from Service Proposals	Any buildings becoming surplus to requirements should have a mandatory first offer to communities. If refused, sweetheart deals selling assets below market value to private buyers / developers should be banned and any sales made should be published in a clear and widespread manner to the public domain to ensure accountability in these proceedings	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25574	An individual	5b. Revised Property Requirements from Service Proposals	flatten them and sell on the land	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25575	An individual	5b. Revised Property Requirements from Service Proposals	If the number of owned property is reduced then the Council will not have to pay for maintenance of these buildings.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The rationalisation of buildings will generate ongoing substantial revenue savings.
25576	An individual	5b. Revised Property Requirements from Service Proposals	I suspect this will be hard to implement.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
25577	An individual	5b. Revised Property Requirements from Service Proposals	Sell off all your old difficult to maintain in the wrong location properties.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25578	An individual	5b. Revised Property Requirements from Service Proposals	There should be a systematic analysis of all council assets, including all the small strips of land, and those that are not contributing to the 8 priorities should be appropriately sold to help meet budget savings. Ideally sold to those that have the funds to develop the land to meet the 8 priorities.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets.
25579	An individual	5b. Revised Property Requirements from Service Proposals	See above. Two thousand years ago, the Roman Empire had a staff in Rome of only about 1,500 administrators operating out of very little real estate. Not a bad role model. If the council has redundant buildings, vacated by compressing staff into other premises then these buildings should be sold for development.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25580	An individual	5b. Revised Property Requirements from Service Proposals	Agree - Surely as there will be less staff, as it is obvious from this consultation that there will be, there is a requirement for less buildings. Less buildings means you could sell the land for housing shortages, less maintenance and overheads etc.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25581	An individual	5b. Revised Property Requirements from Service Proposals	Agreed should also consider sale and lease back	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council continue to investigate innovative ways to best value however the nature of the council's asset base means that there is limited opportunities to benefit from a sale and leaseback model.
25582	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	this is a sound idea if the council doesn't need these buildings then they should be disposed off.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25583	An individual	5b. Revised Property Requirements from Service Proposals	Asset transfer or selling? Giving away properties is counterproductive and immoral.	Revised Property Requirements from Service Proposals (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Under certain conditions the Community Empowerment (Scotland) Act 2015 requires the council to transfer assets to community groups. Transferring assets will generate savings in running costs for the council. The council will continue to pursue opportunities to sell assets where possible to ensure best value.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25584	No Response	5b. Revised Property Requirements from Service Proposals	Agree.,but, given the value of property/ land in west Lothian I think the saving would likely be higher	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	If buildings are closed the level of saving that can be achieved relates only to the ongoing running costs. Transfers to community groups would generate no income for the council. Selling buildings and land to third parties would generate a capital receipt which by law the council can only use to reinvest in capital assets or repay debt, therefore no revenue budget saving would be achievable.
25585	An individual	5b. Revised Property Requirements from Service Proposals	Look at them to house the homeless rather than putting them up in hotels	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25586	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Generating income from disposal of property surplus to requirements should be maximised.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25587	An individual	5b. Revised Property Requirements from Service Proposals	If this means as I take it to mean, selling off unused buildings then yes agree totally	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25588	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	This makes sense, i hope any properties which have historic value eg. Annet House, are safeguarded in appearance for future generations to enjoy.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Changes to listed buildings would be subject to planning conditions.
25589	An individual	5b. Revised Property Requirements from Service Proposals	By doing this you reduce community involvement and ownership of the local area.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25590	An individual	5b. Revised Property Requirements from Service Proposals	again this means sell of	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
25591	An individual	5b. Revised Property Requirements from Service Proposals	I'll be interested to see whether you get rid of the centrally located offices or whether you'll subject yourself to similar commutes your service users will need to make to access services.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has previously consolidated office accommodation. This approach will now be used to analyse other operational buildings.
25592	An individual	5b. Revised Property Requirements from Service Proposals	Not a lot to save for buildings. Is thei realistic?	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
25593	An individual	5b. Revised Property Requirements from Service Proposals	Seems a low figure for the number of properties that the Council should be in a position to dispose of? What mechanism will be in place to ensure that best possible deal is attained for the public purse and there is not a fire sale by the Council just to quickly get rid of the property.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council.

25594	An individual	5b. Revised Property Requirements from Service Proposals	It will cost you to sell these properties and put them on the open market. A market that is dead and few want your old scabby buildings. Gift them to the communities, and let them get on with making a real difference.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25595	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	This would seem like an acceptable decision. Pressure should be put on the Scottish Government to fund these officers if they are truly required.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25596	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Great, if it doesn't effect services and the council picks the right buildings that aren't fit for the purpose of services.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
25597	An individual	5b. Revised Property Requirements from Service Proposals	I UNDERSTAND HOW THIS WILL TAKE PLACE BUT IT MUST BE BETTER VALIE OPTION THAN STATUS QUO	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community.
25598	An individual	5b. Revised Property Requirements from Service Proposals	Would hope that council looks at the whole of west lothian and not as can be perceived taking everything into Livingston.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is not looking to centralise all service delivery within Livingston.
25599	An individual	5b. Revised Property Requirements from Service Proposals	I have noticed a large number of WLC properties which are currently vacant and have not been occupied for some time. Vacant properties should be offered for a minimal or neutral rent to boost the local economy and enterprise rather than lying vacant. Town centre locations should be redeveloped into housing projects or developed for commercial interests. Properties with low value or high maintenance cost should be sold for private development rather than held as a liability.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The occupancy rates for commercial properties are consistently above targets. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council.
25600	An individual	5b. Revised Property Requirements from Service Proposals	This makes sense provided transfer or disposal takes place on a true vale basis.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council is required by law to transfer assets to community groups where there is a robust business case. The council is reviewing the community asset transfer policy and processes to ensure that they continue to be fit for purpose. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council.
25601	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Partnership Centre are a total waste of my money. they are not fit for purpose and deliver no savings at all.	Revised Property Requirements from Service Proposals (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources. The introduction of partnership centres has generated real cashable savings for the council over the past five years.
25602	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	We should sell what we don't use - or rent out	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25603	An individual	5b. Revised Property Requirements from Service Proposals	sell off properties not being utilised	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25604	An individual	5b. Revised Property Requirements from Service Proposals	this should be expanded and council be more ruthless. under attended schools should be closed and merged with other in local areas. buildings not used or under utilised should be closed and sold off to the local resident groups or to private organisations	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Currently the council is not considering the closure of any schools.
25605	An individual	5b. Revised Property Requirements from Service Proposals	should be expanded	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25606	An individual	5b. Revised Property Requirements from Service Proposals	Please continue but consider local community aspirations	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector.
25607	An individual	5b. Revised Property Requirements from Service Proposals	It never made sense the unavailability of certain council facilities while others were open. Must be rationalised to maximise opening times.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25608	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Reduced rates to small businesses should be offered for them to take on premises that may not be in a location to sell on quickly.	Revised Property Requirements from Service Proposals (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The non domestic rates scheme is determined nationally by the Scottish Government.
25609	An individual	5b. Revised Property Requirements from Service Proposals	There won't be a reduced need, and there won't be any properties that are surplus to requirements. Maybe to the pen pushers who are deciding these changes, but to the real people who are living in these areas nothing will be surplus to requirements	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services. Current patterns of demand show that there is significant under utilisation of assets.
25610	An individual	5b. Revised Property Requirements from Service Proposals	Save the Ability Centres.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.

25611	An individual	5b. Revised Property Requirements from Service Proposals	if there is no need for them sell them	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible.
25612	An individual	5b. Revised Property Requirements from Service Proposals	Utilise all empty buildings for housing, start up businesses etc	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25613	An individual	5b. Revised Property Requirements from Service Proposals	same as above. Many council builds are costly and we/people/users receive little in return. We are too soft in this area	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25614	An individual	5b. Revised Property Requirements from Service Proposals	This will add to the amount of dilapidated building on the streets of all of West Lothian's towns. Some parts already look absolutely awful.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership.
25615	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	The number of buildings should not be reduced to an extent where staff feel shoehorned into buildings and the working environment adversely affected.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The amount of floor space per staff member is governed by regulation and the council meets this standard.
25616	An individual	5b. Revised Property Requirements from Service Proposals	We need to ensure we can transfer assets effectively and efficiently and not tie up resources in unnecessary red tape, undermining potential savings.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy is being reviewed to assist community groups further in this process.
25617	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Agree. If not required they should be disposed of.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25618	An individual	5b. Revised Property Requirements from Service Proposals	Hopefully the buildings or land will sell Not much movement on the large Council Building at Almondvale Centre	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period. The old West Lothian House site was sold and is no longer under council ownership.
25619	An individual	5b. Revised Property Requirements from Service Proposals	Yeah surplus properties to be sold great, transferred not so sure, will they or just come back to the council in a few years run down and no worth anything, only for the council to sell at a reduced cost.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
25620	An individual	5b. Revised Property Requirements from Service Proposals	If the community doesn't need/use a property on paper it makes sense to sell. However, it should be seen also as an opportunity - why is that building not being used? How could the community make better use of it?	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25621	An individual	5b. Revised Property Requirements from Service Proposals	Should be streamlined where possible where maintaining choices and standards.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	Opportunities to streamline process and remove duplication will continued be considered.

25622	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Agree - ensure that external funding for communities to take over community assets would not be restricted due to this ?	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	Community groups are able to access many more sources of external funding than the council can to help support delivery of local facilities.
25623	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	See above	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The council has a disposal process for assets declared surplus to requirements.
25624	An individual	5b. Revised Property Requirements from Service Proposals	agreed as long as this is not done as a quick fix and you are certain they really are surplus to requirements in the long term	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25625	An individual	5b. Revised Property Requirements from Service Proposals	providing properties sold are done so at market rate and not sold off cheaply	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25626	An individual	5b. Revised Property Requirements from Service Proposals	as long as they really are surplus	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25627	An individual	5b. Revised Property Requirements from Service Proposals	You mean "we'll be making some savings as we close buildings made redundant by the cost cutting already mentioned"	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes changes to service delivery as a result of TYC consultation.
25628	An individual	5b. Revised Property Requirements from Service Proposals	depends if buildings really are surplus to requirement	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25629	An individual	5b. Revised Property Requirements from Service Proposals	Make sure you look at these properties with the thought of whether they can be made into social housing it would be cheaper than building new properties; and flats / houses are needed at the moment. If Bangour hospital had been converted when it was closed you wouldn't have this problem now.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose. The Bangour site is owned by the NHS and not the council.
25630	An individual	5b. Revised Property Requirements from Service Proposals	Seems a small amount of money from this area. The Council must have a vast number of properties that could be sold. Surely greater savings are to be made here?	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The saving associated with this proposal is the revenue costs associated with the running and maintenance of buildings. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25631	An individual	5b. Revised Property Requirements from Service Proposals	And presumably income from disposal?	Revised Property Requirements from Service Proposals (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25632	An individual	5b. Revised Property Requirements from Service Proposals	Again, fully support the disposal of any excess Council owned properties	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

25633	An individual	5b. Revised Property Requirements from Service Proposals	Can't argue against this one. Talking about assets I think there are now more WLC vans on the road than ever before. I would think there could be a savings here with a reduction of vehicles.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has included a targeted saving in the number of council vehicles within proposal 7e.
25634	An individual	5b. Revised Property Requirements from Service Proposals	As above, ensure the buildings do not blight our communities by lying empty and unmaintained. Do something creative and positive when you dispose of assets and maybe consult locally with the immediate area as to how a building should be disposed.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25635	An individual	5b. Revised Property Requirements from Service Proposals	ok subject to community consultation (a proper one, not like this shambles)	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25636	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25637	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Civic Centre already over capacity for staffing levels.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Civic Centre is not over capacity. The accommodation of staff demonstrates an efficient utilisation of space.
25638	An individual	5b. Revised Property Requirements from Service Proposals	See above. Buildings are in public ownership for a reason. These cannot always be devolved or divested to others. Buildings should be converted to meet housing need perhaps	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25639	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	no point keeping buildings if not being used,	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25640	An individual	5b. Revised Property Requirements from Service Proposals	Fully support building rationalisation, surplus properties must be disposed off and not cost the council money!	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25641	An individual	5b. Revised Property Requirements from Service Proposals	What does this mean? Have you not just said this previously?	Revised Property Requirements from Service Proposals (general)	3. The respondent advised that they had no comment to make.	This proposal includes buildings made surplus as a result of changes to service delivery. 5a focuses on transfer of buildings to community organisations.
25642	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Good. Moves should be made to make sure that buildings are properly utilised. More flexible working for staff including working from home could free up desk space. More hot desking should be considered so that desks are not necessarily allocated to one member of staff.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered and investigating opportunities for coordinating availability of facilities. This includes maximising the use of council office space. The council continues to investigate opportunities for further flexible working and use of technology.
25643	An individual	5b. Revised Property Requirements from Service Proposals	The council should publicly announce what buildings they are going to "dispose" of - particularly historical ones like Annet House in Linlithgow - with time and support for community groups who want to draft a proposal(s) to take ownership of WLC properties through the Community Empowerment Act. Annually, the council should publish what properties they have, what properties they aim to dispose of, and what money they have received from each property they have sold (and ideally where that money was then used).	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	Reports on surplus properties and community asset transfer will be considered by the Council Executive in the near future. All disposals, except those with very low values, must be reported to the Council Executive for approval and this is available publicly on COINS.
25644	An individual	5b. Revised Property Requirements from Service Proposals	This depends on property apparently this is what the council feel Eilburn is despite clearly not knowing what goes on there	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	If the Social Policy measure for day care centres is approved, the property would be surplus to requirements.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
25645	An individual	5b. Revised Property Requirements from Service Proposals	I would support additional Community Benefit leases or Community Asset Transfers for all facilities that would benefit local communities and reduce costs for WLC.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy is being reviewed to assist community groups further in this process.
25646	An individual	5b. Revised Property Requirements from Service Proposals	The narrative here lays bare that decisions have already been made and that the 'proposals' are going ahead regardless. This makes a sham of this so-called consultation!	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposals in the consultation document are officer measures. Decisions on whether these proposals are implemented will be made by elected members in February 2018.
25647	An individual	5b. Revised Property Requirements from Service Proposals	Will the disposal values of these properties be sufficient to make it worthwhile? Or is West Lothian losing properties that other organisations and companies will profit from?	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt. Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
25648	An individual	5b. Revised Property Requirements from Service Proposals	Why not do what some of the council's are doing in England and change the format of the building into houses or rooms for the people who are needing housing for short term or emergency housing.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25649	No Response	5b. Revised Property Requirements from Service Proposals	As in 5a. - As staff numbers are going to reduce, there must be opportunities to reduce the number of buildings.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25650	No Response	5b. Revised Property Requirements from Service Proposals	Some of the income received from the sale of these buildings should be used to improve the facilities and efficiency of remaining buildings.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt.
25651	On behalf of a Group/Organisation	5b. Revised Property Requirements from Service Proposals	All about money - stuff the social cost	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
25652	An individual	5b. Revised Property Requirements from Service Proposals	How about Annet House, Linlithgow	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council will consider any requests for asset transfer under the requirements of the Community Empowerment (Scotland) Act 2015 on their own merits.
25653	An individual	5b. Revised Property Requirements from Service Proposals	More flexibility from planning to consider change of use	Revised Property Requirements from Service Proposals (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Although a planning authority, planning decisions are determined within the parameters of planning legislation determined nationally.
25654	An individual	5b. Revised Property Requirements from Service Proposals	Not entirely sure what these means or what the impact would be. If it is closure of schools, day centres or village community centres then disagree.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25655	An individual	5b. Revised Property Requirements from Service Proposals	How will this be addressed?	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

25656	An individual	5b. Revised Property Requirements from Service Proposals	Agree, but there needs to be care taken that any transfers of property assets do not deprive the council of significant capital receipts which would otherwise be obtained.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25657	An individual	5b. Revised Property Requirements from Service Proposals	Agree, but if Council buildings are unwanted please demolish them rather than leaving a building to become rundown and dangerous or a target for vandalism.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25658	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Care needs to be taken when disposing / leasing properties that this does make the management of the remaining asset more difficult and costly.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
25659	An individual	5b. Revised Property Requirements from Service Proposals	Concerned that some older buildings are left abandoned with no plan for re-use.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	All surplus buildings will either be transferred to community groups or identified for sale through the council's established disposal process.
25660	An individual	5b. Revised Property Requirements from Service Proposals	It is vital that revenue generating property assets are retained by the Council in order to support the delivery of Council services going forward. Any proposal to asset transfer or to cash-in on the market sale of these assets would be short-sighted and would result in a wider revenue funding gap going forward. These strategic assets are also key in supporting the Council's priority of improving local employment opportunities and sustaining economic development in across the county.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council generates substantial revenue income from this source which helps to ensure balanced budgets.
25661	An individual	5b. Revised Property Requirements from Service Proposals	Does this include buildings where they have separate buildings along side, are they being put under the one roof to save on two of everything heating maintenance etc.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25662	An individual	5b. Revised Property Requirements from Service Proposals	If buildings not being used, dispose of them. Waste of money to keep them.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25663	An individual	5b. Revised Property Requirements from Service Proposals	Disposal or transfer of properties should be exercised with a view to impact on surrounding communities.	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This policy and process is being reviewed to assist community groups further in this process.
25664	An individual	5b. Revised Property Requirements from Service Proposals	Make sure you get the best price for disposals	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25665	An individual	5b. Revised Property Requirements from Service Proposals	West Lothian is a relatively small authority in Area which can be easily reached from the centre. Cetraining Offices and Depots makes a lot of sense. Sell or rent the rest.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25666	On behalf of a Group/Organisation	5b. Revised Property Requirements from Service Proposals	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
25667	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Selling off properties will create revenue especially if there is not a need to keep maintaining these properties.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

25668	An individual	5b. Revised Property Requirements from Service Proposals	Yes sell buildings not needed for extra cash	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25669	An individual	5b. Revised Property Requirements from Service Proposals	If the proposals are implemented : House Building sites ?	Revised Property Requirements from Service Proposals (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has undertaken projects in the past to use surplus land and buildings for provision of council housing (e.g. Broxburn PS). The council will continue to review opportunities to use surplus assets for this purpose.
25670	An individual	5b. Revised Property Requirements from Service Proposals	Council properties should be the best they can for service delivery purposes - uneconomic obsolete buildings should be made surplus and disposed of	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
25671	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	Good idea as long as sold at fair price!	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. This includes consideration of when to bring properties to the market to ensure the greatest receipt for the council. Market conditions may mean that properties are not listed for sale for some period.
25672	An individual	5b. Revised Property Requirements from Service Proposals	It will be a great shame to allow properties to go into disrepair or be vandalised if no one can take them on. Are there contingency plans to avoid this. I'm thinking of the Centrex building which at present is in a deadful state and very unappealing to buyers.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council's surplus property procedures seek to avoid this eventuality through a range of different measures.
25673	An individual	5b. Revised Property Requirements from Service Proposals	Which properties are you considering to be surplus to requirements?	Revised Property Requirements from Service Proposals (general)	3. The respondent advised that they had no comment to make.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
25674	An employee of West Lothian Council	5b. Revised Property Requirements from Service Proposals	The problem with this action is that lots of building sit empty and deteriorate and therefore make communities appear unloved and uncared for. A	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council's surplus property procedures seek to avoid this eventuality through a range of different measures.
25675	An individual	5b. Revised Property Requirements from Service Proposals	Building places no one can use, i.e. not community based centres now, just offices and meeting rooms.	Revised Property Requirements from Service Proposals (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources. The introduction of partnership centres has generated real cashable savings for the council over the past five years.
25676	An individual	5b. Revised Property Requirements from Service Proposals	Also looking at staffing levels within Council buildings like building services & payment offices where usually met by least 3 or 4 staff doing same jobs where 1 of them can do it.	Revised Property Requirements from Service Proposals (general)	4. The council is already doing this.	The council is considering this within managing our relationship with customers.
25677	An individual	5b. Revised Property Requirements from Service Proposals	Make Council Property rents competitive rather than a cheap option for those unwilling to try to better themselves. crack down on fraudulent claims. the list is endless.	Revised Property Requirements from Service Proposals (general)	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
25678	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	If this can provide the necessary savings then this should be pursued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25679	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

25851	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25852	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Keep up the good work	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25853	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Should be pursued with vigour	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
25854	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	And why not ?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26015	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Why then has the council not invested in more renewables such as wind and solar at the Partnership Centres and the the Building works depot and Whitehill Service Centre.	Council Properties - energy efficiency	4. The council is already doing this.	The council continues to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some buildings. Other Renewables will be looked at for incorporation where economically viable.
26016	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	modernisation of buildings including looking at solar panels and other energy efficiencies is important on buildings that are to be retained.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council continues to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some buildings. Other Renewables will be looked at for incorporation where economically viable.
26017	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Switching to renewables and increasing energy efficiency is a great plan and one that needs more investment to produce larger scale savings.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council continues to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some buildings. Other Renewables will be looked at for incorporation where economically viable.
26018	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	St David House lights are very bright and on all day no matter what the weather. Possibility to reduce electricity costs if we reduce the lighting and can switch it off when it's a bright day.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers within Property Management and Development will investigate these claims further.
26019	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Any savings that can be made from making better efficient use of energy consumption is to be welcomed.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26020	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	In Whitehill house it is constantly 25 degrees as we have a digital thermometer. With the heating being constantly on and with people using fan heaters most of the day, we could reduce costs by removing the heaters and turning down the heating.	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26021	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	"reduce energy consumption and related costs" - are you kidding? I have worked in a few west Lothian council offices and can confirm that the central heating systems run all year long. and offices are fully illuminated even on bright sunny days. My office is currently heated above 25degrees C and is only kept under control by opening windows to let the heat out (Whitehill House).	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26022	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	the LED street lighting is a good example of this. I would like to see more help given to households to reduce their energy needs.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently provides support and advice to households on managing energy costs. The council's website also has a page on saving energy with links to Energy Savings Trust Scotland.
26023	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Put solar panels on council buildings. Use biomas at bigger buildings like civic	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable. The Civic Centre has solar panels, although not on the main roof, and a biomass boiler for the generation of heat.
26024	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	solar panels can be useful	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

Transforming Your Council Consultation 2017

26025	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	School heating could also be turned down from my experience with my children.	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26026	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Holiday shutdowns should be considered where staff have to retain holidays and use where required.	Council Properties - energy efficiency	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Many offices currently have elements of emergency cover delivered from them which means that holiday shutdowns could not be implemented.
26027	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Make sure that the heating level is sufficient to work in as regularly staff sit with hot water bottles due to low temperatures.	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26028	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	We should be in a position whereby all service heads are regularly show data on the energy consumption of at least their fleet and buildings. They should have relevant targets to address poorly performing fleet and buildings.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings. Levels of consumption will continue to be reviewed as part of the energy audit works.
26029	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Does this mean more renewal and enhancement of assets on a regular planned basis rather than a fix on fail approach? If so then this is a worthwhile approach. Energy efficiency should always be pursued.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26030	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Agree - increase use of solar power, more lights on sensors, more LED lights etc.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26031	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Analysis is required on actual cost to implement and actual savings.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26032	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	It is essential that the correct staff are in place. Much of the current staff are in jobs they were not originally employed to fill and, consequently, less effective work is produced.	Council Properties - energy efficiency	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
26033	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	should be doing that now anyway	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26034	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Properties should be energy efficient and green model from the build. They should have a building maintenance plan keeping them fresh and ready for change, rather than reactive. Small and often is more cost effective than major repair. they should also have adaptable spaces .	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets. The Sustainable Construction Policy helps to ensure new builds and refurbishments are as energy efficient as possible.
26035	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Close primary schools after school, no external lets, this will save money for heating and lighting.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use and promotion of council facilities for community lets.
26036	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Although good recycling facilities have been provided at the civic centre, there are some employees who make no effort to use them correctly.	Council Properties - energy efficiency	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Posters and guidance have been provided to staff on use of recycling bins in council properties however more work could be done to education staff on this matter.
26037	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Invest capital in green power generation, to reduce revenue outflows on energy. Maximise use of our south facing roofs for solar PV gain.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council continues to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26038	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Improve energy efficiency is good. .	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26039	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	There is enormous scope to reduce the use of energy across the council's assets and operations.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26040	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Green proposals and reduction in energy use is always a good thing. LED lighting in all buildings. More efficient heating systems.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26041	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	How is this going to be done? In Bathgate Partnership Centre, for example, there is a major problem with the heating not being able to be turned off in the Summer. This has been investigated and no solution has been found. There needs to be some consideration as to how buildings are built so that this does not happen. Having a malfunctioning heating system is a waste of energy and this is not a new problem in that specific building.	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26042	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	solar and wind power in spec, Ground source heat pumps/bore holes (plenty of old mine works across the county and appropriate geology) Consider wind power and establishing a number of mini-hydro pumped storage schemes (beecraigs - Linlithgow lochs anyone?) River almond to elevated areas south?	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26043	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	I work in a primary school and the heating has been on all summer. I can't believe this is the only school where this has happened. I'm sure a big saving could be made there	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.

26044	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Most of these energy efficiency programme cost money to install but if the savings are greater in the long term then this would be beneficial	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26045	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Have you looked into the reduction of your "matetals" For example fuel, energy for buildings usage of paper example research has shown that substainual savings can be made in these areas, could your buildings and vehicles be more energy efficient and could staff be trained on methods to reduce the misuse of energy?	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26046	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Energy efficiency sounds good though.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26047	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Cut heating temperatures down in all council buildings.	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26048	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Where does this fit in with national renewable energy schemes	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26049	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Sounds good but a poor investment in renewable energy.sace	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26050	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Good, but be bolder. Have some council owned wind and solar parks and generate some income. You are far too timid on this front and so anti renewable energy it's hard to believe. Go visit other councils in Europe that have grasped this and learn from them. You are not doing enough oral understanding that wind and solar can now generate large profits.	Council Properties - energy efficiency	4. The council is already doing this.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26051	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	I am always in favour of energy efficiency, however, minimal work has taken place at my school in the 4 years I have worked there. Although we do now have a biomass burner, its capacity is not enough to fuel the school (never mind the local area) and all the burning materials are still delivered on the back of a huge truck, therefore partially negating any environmental benefits. If the council are to get behind energy efficient measures, then get behind them completely	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26052	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Can be more efficient,... solar ... incinerators to power hospitals buildings ect,..	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26053	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Would be an idea to fit solar panels to large energy consumption council buildings, schools etc.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

26054	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	It is important that this efficiency also comes with a green tag. Perhaps solar panels and wind turbines on council buildings to reduce power costs. Introduction of recycled water schemes for industrial use. It stands to reason that you must spend money to save money in the long term.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26055	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I would say that is a conservative estimate if the council were serious about energy savings	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings. The council has already delivered considerable savings over the last five years through energy efficiency.
26056	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Energy efficiency is always good, provided you're not taking anything away from vulnerable people	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26057	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Renewable energy schemes are often pure snake oil, with long, uneconomic amortisation periods. This is especially true in Scotland where the climate hinders as much as it helps. This needs a very wary approach if REAL savings are to be generated.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26058	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Energy efficiencies need to be evident in all facilities	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26059	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I trust that you verify the savings of all energy conservation measures to ensure that predicted savings are actually realised? There are a lot of cowboys out there trying to push dodgy 'magic boxes' at hard pressed facilities managers.	Council Properties - energy efficiency	4. The council is already doing this.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings. The council has had energy consumption and budget savings over the last number of years, both of which have been delivered in each year.
26060	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	There are too many council buildings open in the evenings and weekends. All evening and weekend activity should be based in Secondary Schools wherever possible and primary schools should remain closed (parent council meetings for example needn't take place in the local primary). This would allow for rationalisation of FM staff and energy savings.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
26061	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	I see a lot of monitors are still left switched on overnight. I know it's not a big hit in the scale of things but every little helps.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26062	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Adaptions to improve energy efficiency is a sensible investment. However reduced maintenance regimes are potentially short sighted and will only store up problems for the future when remedial works are likely to be more costly than if carried out more frequently.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26063	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	the council should have been investing in renewable energy years ago	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has invested substantially in renewable energy and will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26064	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Should roll out energy saving initiatives across all council/public buildings. Look at renewable energy provision.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26065	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	This is a good idea as renewable energy is much better for the environment but usually it is more expensive so if it is made more affordable then that's excellent.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26066	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	agreed, improvements over long term	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26067	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	All council buildings, where appropriate, should be fitted with solar pv eg. the Civic Centre, or have solar panels installed on adjacent land. Buildings should also be retrofitted with light switches which allow lights to be turned off when not required. Other micro renewables should also be considered such as ground and air source heat pumps if appropriate.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable. The Civic Centre has solar panels, although not on the main roof, and a biomass boiler for the generation of heat.
26068	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	All council building should use LED bulbs.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council currently has a capital programme for LED lighting within buildings.
26069	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	continue	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26070	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	The Council should always be looking to improve through new energy efficient systems.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26071	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Don't really understand this one. Less buildings equates with less power used?	Council Properties - energy efficiency	3. The respondent advised that they had no comment to make.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26072	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I do not like the "renewable energy projects". Surely not wind turbines or solar panels. Energy bills are already charged over Â£258 for renewables subsidies so do not want my council tax to go up by a similar cost.	Council Properties - energy efficiency	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26073	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Great idea seems sensible, looking forward. As all you hear is property is the way forward one of the best assets to have.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26074	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Energy efficiency measures should have a long term benefit for the budget.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26075	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Renewable energy projects are the way to go.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26076	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I think it is a brilliant idea to put effort into reducing energy costs. Both cost and carbon footprint can be reduced by being more energy efficient as well as using renewable energy.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26077	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Savings can be made in energy efficiency but the requirement for reactive maintenance work will only increase as the council buildings are aging.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26078	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	More attention needs to be paid to what staff are saying about lighting in the building. In St David House we are continually asking for the brightness of the lights to be turned down but only get told that the lights are set to the correct setting. We have suggested that some bulbs are removed/switched off but that has not been considered. The lights are on all day every day even in the middle of the summer. The ability to switch off lights when staff request it would save some money.	Council Properties - energy efficiency	4. The council is already doing this.	Property Management are considering ways to amend the lighting in St David House and will work with employees to make changes within lighting parameters set out by law.
26079	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	One energy saving that could be made is free electric for electric cars. People who can afford to spend Â£30K to buy an electric car are well able to afford the electricity to run it - not get it sponsored by the poor!	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a limited number of charging points for public use. The majority of council charging points are for the council's electric fleet.
26080	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	agree - use more use of web cameras, reduce number of council cars	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26081	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Council buildings are always too hot. Turn heating down. This will save money and be healthier	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26082	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	We are all having to look at energy use and the Council is no different.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26083	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Fair point but speaking of my WLC office, small measures could be taken which would ultimately save money, one such being the installation of thermostatic controls on radiators.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26084	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	schools are far too hot!	Council Properties - energy efficiency	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26085	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Make sure any proposal is cost effective over a sensible timescale .	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	A cost benefit analysis is completed of any energy efficiency project to ensure it represents value for money. Adopting a proactive approach to maintenance should ensure that there is less need for reactive works.
26086	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Absolutely agree - we should be as green as possible and as close to carbon neutral.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26087	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Schools, and possibly other buildings, are overheated. Pupils should be given forewarning so they don't turn up at school in shirtsleeves in the depths of winter, but temperatures should be reduced to about 18 degrees. Thermostats in each room would help.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26088	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Good idea. Why not put thermostats on all radiators in council properties? Invest in solar panels?	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26089	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Look to other areas/councils for examples of best practice	Council Properties - energy efficiency	4. The council is already doing this.	The council currently benchmarks with other private and public organisations to identify areas of best practice.
26090	On behalf of a Group/Organisation	5c. Efficiencies from Improved Use & Management of Council Properties	Having the heating at community centres on during the summer is plain daft	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26091	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Renewable energy projects are to be commended in terms of environmental impact. I would however, question the design of buildings that are essentially not fit for staff working conditions and end up costing more in the long term.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26092	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The council policy of remote controlling heating in schools needs to be looked at as there is many times like this year we have had a mild October but yet the heating has been on in the school which become to hot so Windows are open. So money being spent when it is not needed. Can the schools not have the option to switch off the heating? I appreciate the council will not want to give control on switching on.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26093	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Saving could be made in many areas e.g. electricity cost too many building lit up at night burning electricity e.g. Deans community High School	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26094	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Important to seek external funding for energy efficiency measures.	Council Properties - energy efficiency	4. The council is already doing this.	The council seeks external funding wherever available to introduce new initiatives or support service delivery.
26095	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Things like lower cost / lower carbon heating are key to improved use of your facilities	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26096	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	If further energy efficiency savings can be secured when faced with increasing fuel costs then by all means go ahead.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26097	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	turn of the lights in the civic center its lit up like a christmas tree most nights	Council Properties - energy efficiency	4. The council is already doing this.	Most council buildings have automated lights which are operated through movement. Some buildings, such as the Civic Centre, are operated 24 hours a day due to the nature of the services delivered.
26098	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Good ideal. How about sensor lighting?	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	Most council buildings have automated lights which are operated through movement. Some buildings, such as the Civic Centre, are operated 24 hours a day due to the nature of the services delivered.
26099	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	5c suggest the council invest in solar panels and place them on their buildings to generate own electricity. Geo -thermal for heating schools and swimming pools.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26100	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Agree. There is an urgent need for the implementation of heating guidelines coupled with staff wearing appropriate clothing in winter to avoid the heating being "cranked up" to suit those members of staff who are used to living in a particularly warm environment.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26101	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	More action to insure staff switch off lights and equipment when not in use.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26102	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	perhaps energy in existing council buildings are reviewed as some staff have to open windows in order to "cool down"!!	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26103	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I agree so long as energy savings are not just fashionable issues eg fuel for wood burning boilers provided by other countries.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26104	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Ok, but please allow sufficient funds for maintenance and not maintaining your current building stock is a false economy.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26105	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Lighting should be reviewed across all council buildings and LED lighting or other energy efficiency measure taken. The council is already adept at maximising its use of government funding and this needs to continue.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26106	On behalf of a Group/Organisation	5c. Efficiencies from Improved Use & Management of Council Properties	Great idea. What about solar panels, wind turbines etc. Renewable energy?	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26107	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Wind turbines and solar panels should be installed where possible at all council buildings.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26108	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Yes I agree that this is likely to deliver significant benefits financially as well as environmental	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26109	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Why has the Council not contributed more into rolling out green energy technology by way of green technology (solar/photovoltaics, ground source heat pumps, air source heat pumps etc.), green fleet across the Council, so much more could surely have been done on this? WLC appears to be so far behind other authorities despite sections calling out for this. Years ago properties were put forward by managers for solar panel projects, requests were made to convert/promote green transport and yet WLC appears not to be driving this or rolling-it out. Please commit sufficient staffing to this area to make it happen! When it happens, promote yourselves, be proud of what has been achieved and use key public sites to do so. Share successes with the public (resident & visiting) and use key Council facilities that attract significant visitors to get the message out there e.g. Country Parks.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26110	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Agreed. Energy efficiency measures though often don't have the desired effect - a simple example would be the lighting system in parts of the Civic Centre - why aren't there simple on/off light switches in the meeting rooms!	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26111	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	WLC needs to improve the energy efficiency of its assets. There have been lots of opportunities for the installation of renewable energies that are not taken up which would over time have paid for themselves. This needs to be taken on board and more emphasis on this for future	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26112	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Staff in council buildings must be made aware of energy wastage. Lights being left on unnecessarily for example.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26113	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	You could probably save £2 million by getting all staff and pupils in schools throughout the region to adopt a more environmentally aware approach. The amount of times I've been in a school after hours and seen literally hundreds of computers and monitors left switched on. Electronic keyboards in music departments and sound equipment running overnight is also par for the course. More schools and other council facilities should have their power sources and lighting upgraded to self switching technology (like virtually every building in Germany for example) and the amount of money wasted on heating schools through the warmer months is also frankly ridiculous.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26114	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Close all council building other than 'emergency provision' over Christmas and New Year and maximise efficiency at other times.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	Although some council facilities need to remain open for service delivery and cover, opportunities to consolidate cover into fewer buildings over the festive period will be considered.
26115	On behalf of a Group/Organisation	5c. Efficiencies from Improved Use & Management of Council Properties	Work in building we were told heating off due to cut backs . I was not allowed on, lead to working with coats on not a good way to work , children and babies being cold in council buildings because of lack of heat . This is not a good saving	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26116	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Could new buildings not be more environmentally friendly, Solar/ wind use, green roofs, Storage of rainwater for use in toilets/ road sweepers.	Council Properties - energy efficiency	4. The council is already doing this.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26117	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Energy efficiency is mandatory for all .	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26118	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Agree got to find cheaper source especially for utilities	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council procures energy through the national framework contract which aims to secure the best prices available.
26119	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I have visited many public buildings in a voluntary role. I cannot believe the level of heating especially in schools. Please cut this back.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26120	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	lighting and heating needs to be looked at as totally inadequate in St David house..... lighting could be switched off but sensors make this impossible in most areas.. heating is not heating it does not radiate heat in the office....the windows are just useless letting in draughts..... there has been no insulation put around the window areas,,, if you put something on the windowsill it is absolutely freezing when left there so any heat is going straight back outside	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26121	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Energy consumption will be increased if the recycling facility in Linlithgow is closed. This should not be happening.	Council Properties - energy efficiency	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	This proposal relates to the energy consumption within council buildings.
26122	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Set temperatures in council buildings and schools- FAR TO HIGH. Turn lights off when not required by staff inside and outside. Do not build new council premises when you have other that would do. ie. new whitburn office £5 million no needed spent.	Council Properties - energy efficiency	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26123	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Council services (schools for instance) waste enormous amounts of money . Lights left on in empty rooms etc heating raging in June.	Council Properties - energy efficiency	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26124	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Unfortunately it is down to the lack of investment in the properties which has increased the maintenance spend. An examples of this, is cleaning roofs and associated pipework, road gullies, school kitchens, school toilets, boilers and general external decoration. If these items had been prioritized the maintenance spend would be less.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26125	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Without maintenance spend our properties will deteriorate.	Council Properties - maintenance	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services.
26126	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Their is no crystal ball for reactive maintenance. Investment in the assets does not guarantee a reduction in failures and reactive maintenance as all of the assets still need to be maintained. WLC only carry out annual maintenance for statutory compliance, the majority of other works are reactive or works identified by insurance inspections.	Council Properties - maintenance	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services.
26127	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	There are lots of buildings especially schools which are in a sad state and urgently need investment, this will ultimately save money as the continual need for patch up repairs will reduce	Council Properties - maintenance	4. The council is already doing this.	Currently 100% of the council's school estate is assessed as satisfactory or better. The focus of future capital investment will be on maintaining the condition of the council's existing asset base to minimise the need for costly emergency and reactive repairs and maintenance.
26128	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	If the council fixed problems in the buildings properly on the first instance then repeated visits for maintenance would not be required	Council Properties - maintenance	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26129	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	What is reactive maintenance work ? Example please.	Council Properties - maintenance	4. The council is already doing this.	Reactive maintenance tends to be minor repairs and small emergency works to resolve specific issues. For example this could include a small roof leak, a faulty window or door or a broken fixture such as lights or taps.
26130	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Get the private sector to maintain your property.	Council Properties - maintenance	4. The council is already doing this.	The council is already doing this at its largest building, the Civic Centre, to be joined next year by the new Whitehill Service Centre.
26131	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Does the council own all its buildings? There have been occasions where maintenance of certain areas of a building have been delayed due to "tendering" when that maintenance could easily be undertaken by Council staff, such as plumbers, joiners, etc. This is an opportunity to save, yet is never considered. Why? If the council don't own their buildings, why not? Tendering repairs is a massive waste of council funds when employed tradespeople are doing the same job. Surely this is "duplication" as is mentioned elsewhere in this consultation?	Council Properties - maintenance	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is required to make sure that all expenditure demonstrates best value therefore the council is required to put specific projects out to tender in the competitive market. The council owns most of its buildings but this does not impact on the need for the council to demonstrate value for money in use of public money.
26132	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	There must also be significant scope to reduce the cost of school building maintenance.	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

26133	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Maintenance works should be properly costed to ensure that multiple patch jobs and quick-fixes aren't ending up more costly than a one-off renovation cost.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26134	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	we have already seen the response to this cut where building and communities look dire.	Council Properties - maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
26135	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The council is letting its buildings be compromised by poor quality repair jobs - again, holding people accountable would benefit here.	Council Properties - maintenance	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26136	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Care needs to be taken in reducing maintenance as this may just store up problems for the future. This is a case where little and often may actually cost less in the long run.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26137	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	We must maintain our buildings to the level that they retain their value	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26138	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Watch you don't enter into false economy if you reduce your maintenance on assets. I can't imagine you have the capital budget to replace when things fall into disrepair because you reduced the maintenance	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26139	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	if you do not maintain buildings and properties they are not safe or useable for the population and are worth less if you wish to sell them if you continue to upgrade with newer technologies then every one wins including the environment	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26140	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Council services should be used and not expensive partners, train youngsters to be builders, mplumbers, painters etc and work for the council in the future	Council Properties - maintenance	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is required to make sure that all expenditure demonstrates best value therefore the council is required to put specific projects out to tender in the competitive market. The council has a best value framework which requires the council to consider best value and all possible ways of delivering services, including use of external contractors.
26141	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The council should ensure that the assets are still kept in a good state - otherwise this is a short term saving and a long term cost - to make good delapidated asset.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use.
26142	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Charges should also be applied to customers where inappropriate damage or abuse of out of hours service is undertaken.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
26143	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Very few council properties are being replaced with new buildings or at least refurbished and this means that the required reactive maintenance will only increase rather than reduce. The condition of many properties is already falling below what should be acceptable but the funding is not there to ensure we can keep building wind/water-tight and safe for all building users.	Council Properties - maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26144	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Some premises are not fit for purpose and are overpriced and underused, therefore the staff being paid to work in them are being paid to do nothing more than watch the buildings. These buildings also require lighting and cleaning which is more money wasted.	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. Community resources will not necessarily be lost if local communities support them through community asset transfer and ownership. The council will also work with community organisations to support the use of non council buildings for community activities and services.
26145	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Council buildings needs to be maintained or they go to rack and ruin - this is important.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26146	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	They maintained pretty well	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26147	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Pay for repairs to be done properly not on the cheap then need done again	Council Properties - maintenance	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26148	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	In my school and classroom there is asbestos and it limits the amount of work we can display and we are somewhat at risk, this should be a scheduled appointment rather we are told don't touch the walls. Also at our school it has taken months to build the extension and everyday their is constant drilling even though it should have been completed during the summer holidays it's not scheduled to finish until Feb 2018 with learning being disrupted continually.	Council Properties - maintenance	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	School improvements works are scheduled mainly in non term time however there can be situations where these can't be contained within that window. Each property has an asbestos management plan as it is not always possible to completely remove asbestos from a building.
26149	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Good annual maintenance will always save money in the long run if done properly and not shortcuts are not used.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26150	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Do not reduce maintenances. This is usually the first victim of cuts.	Council Properties - maintenance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26151	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	This looks like being well underway. LED lighting e.g. is saving a fortune but beware as consumption goes down costs go up. Use of System charges are a big proportion of energy costs and will become a bigger % as use goes down. However better buildings with less maintenance makes good long term sense.	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26152	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Hopefully there will be a more proactive approach to maintenance work e.g. removing non-maintained trees causing numerous problems and non uplift of leaves.	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26153	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	It would be beneficial if Property Services focused on creating buildings specifications that do not have flat roofs. This roof type constantly has leaks and causes problems. In fact it would be good if they attempted to approve designs that do not have inherent leaks which seem to be endemic across all council buildings. Come down to any Armadale council build properties and see the leaks there. It must cost the taxpayer a fortune to fix this.	Council Properties - maintenance	4. The council is already doing this.	The council has standard Employers Design Requirements which state the desire to avoid valley gutters, internal drainage and wet verges on new build projects. Where flat roofs are installed (or existing roofs replaced) the council insists on a manufacturers 20 year guarantee. Recently a number of leaks have been rectified by the manufacturer at no cost to the council.
26154	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The council should perhaps concentrate on the repairing its flagship building - the Civic Centre - which requires a multitude of buckets to be rolled out every time there is any rain in the sky. Is it just leaks the council specialise in or do you grow other vegetables.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Arrangements are being made with the original contractor to repair the leaks referred to in late Spring 2018.
26155	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Council properties should be the best they can for service delivery purposes - uneconomic obsolete buildings should be made surplus and disposed of	Council Properties - maintenance	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26156	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Repairs are required to Armadale Primary School.	Council Properties - maintenance	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
26157	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Renewable energy projects I would not be sure about	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26158	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
26159	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	none	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
26160	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	SUPPORT. MAKE MORE USE OF PARTNERSHIP CENTRES FOR STAFF	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Council will continue to utilise the partnership centre model to provide shared services and facilities, including those services delivered by partners.
26161	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Perhaps consideration could be given to how to make award winning partnership buildings actually comfortable and presumably then more economic. BPC for example, is constantly far too hot to work comfortably in and surely there is a saving to be made in terms of how buildings are designed and heated?	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26162	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	opening buildings outwith normal opening times for hourly charges that don't even cover janitor wages, let alone heating and lighting costs?????	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use of council facilities for community lets.
26163	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Agree	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26164	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Reduce offices. Make more use of Partnership Centres. More joint service provision.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities, including sharing facilities with partners. The rationalisation of buildings will generate ongoing substantial revenue savings.
26165	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Shared buildings and locations have become common place in recent years. A continuation of this could well lead to further savings.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
26166	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Stop letting out Primary Schools to outside organisations after school hours. The fees generated for the council usually do not cover the admin time spend setting up permits, reorganising dates, notifying all the relevant people, the heating and lighting costs. Not to mention the potential security risk of having unaccompanied people in our schools when a janitor cannot be there to supervise at all times.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This will include the use and promotion of council facilities for community lets.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26167	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	ok - but still important to maintain properties.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26168	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	How about building new buildings to Passivhaus standards?	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Sustainable Construction Policy helps to ensure new builds and refurbishments are as energy efficient as possible.
26169	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Agreed - this is good asset management but the saving is quite ambitious.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26170	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Estimated saving £1 Million ? Shame on you for being so wasteful with our money in the first place.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management and delivers best value in the use of public resources.
26171	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	The Council needs to make best use of it assets. Property occupation should be maximised rather than giving everyone a desk make them all work smart. In the Civic Centre there are banks of desks largely unoccupied and a costs!	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered and investigating opportunities for coordinating availability of facilities. This includes maximising the use of council office space.
26172	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	What investment is required to save £1M	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The majority of this saving will not require any additional investment and will be deliverable through the council's main capital maintenance programme.
26173	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	stop selling off your land assets to developers.	Efficiencies from Improved Use & Management of Council Properties (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. The sites would be available for purchase by all interested parties. Use of sites for specific purposes is determined by planning restrictions.
26174	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	See above on Addiewell Community House. The council is paying for the utilities here and other buildings similar to this.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26175	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	I feel a lot of council properties are lying empty. Look at what you have got and make the most of it!	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26176	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I would hope that the initiatives chosen are not fads that will need to be replaced within a short time scale that then means they actually cost more.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

26177	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	This proposal also seems to hint that pre-planned maintenance may give way to reactive maintenance - a foolish measure, if that is indeed being envisaged. The cost of neglecting opre-emptive maintenance will far outweigh any savings in the long run.	Efficiencies from Improved Use & Management of Council Properties (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26178	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The Council should be investing in such new methods of service delivery from within its existing budgets rather than meeting these costs from its existing budgets	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26179	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	The council needs to revisit heating control arrangements. Apparently our local community centre heating control is run from a central location. It is always far too hot which must be costing the council a fortune. There is also a large 'security' light which burns all night until about 9:30am. All this s doing is providing light for anyone who wants to break into the centre or local shop.	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26180	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Seems rather a low target.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered.
26181	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Dispose of more properties	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26182	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	This needs much more thought	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26183	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	As long as this proposal does not spawn a rash of managers to deliver it.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Changes to the council's approach to maintenance will be accommodated within the current approach to capital investment. The council's existing Energy and Climate Change Manager will be responsible for implementing energy savings.
26184	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Does West Lothian Council have a comprehensive list of all the properties it owns and manages?	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council maintains records on all its operational and commercial TNRP buildings and land.
26185	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	A more strategic, proactive approach to all areas under WLC remit would be beneficial. Currently very reactive.	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.

26186	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	This has the benefit of not only offering savings in the short term but given the rate of inflation and the associated cost of energy in the future these savings are likely to be amplified.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26187	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Good More ambitious savings and income generation could be achieved if the council invests in renewable on its own buildings and land	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
26188	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I support this but only if it delivers genuine value for money - there appears to be a lot of expenditure on new street lighting for example which must be costing huge amounts - is the council robust in getting value for money?	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
26189	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	St David house - this building is under utilised ,,,, huge space and loads of empty desks.....could be used by other teams allowing other offices or departments to be brought in and save money by consolidating Better use of the space, ie the layout of the desks could improve morale,,, which in turn would have a positive effect on keeping staff at work Lighting in this building needs to be reviewed, being able to switch off lights rather than motion sensors in lesser used areas would be beneficial....	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26190	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Close buildings like St David House between the Christmas and New Year holidays. Is it necessary to provide a Collections service over this period.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This is a good idea. Although some council facilities need to remain open for service delivery and cover, opportunities to consolidate cover into fewer buildings over the festive period will be considered.
26191	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Encouraging research and innovation in environmental learning can be funded externally: https://www.gov.uk/government/publications/space-for-smarter-government-programme-sggp-showcase-2017	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	The council seeks external funding wherever available to introduce new initiatives or support service delivery.
26192	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	If sports pavilions are still owned by the council (not West Lothian Leisure), ensure that they are energy efficient and multifunctional - suitable for community activities other than football changing rooms. Apply the same approach to Open Space Assets - investing in Natural Capital, ensuring these assets are multifunctional and managed efficiently.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The introduction of partnership centres has seen an increase in the number of multi purpose buildings throughout the authority. Building users are consulted throughout the design and construction of these buildings to help ensure that their requirements are met within the constraints of available resources.
26193	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	The new and renovated buildings have looked at energy efficiency e.g. lights that switch off automatically however there are a substantial amount of dated buildings that need to be looked at. Also educating staff in this area is difficult if they are not directly impacted by increasing charges. More transparency on what is being implemented and the savings gained is required with the results being published for staff review.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26194	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
26195	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	With a lovely new civic centre, I am unsure of what more you need. Not when there are other areas within West Lothian that need it more	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Civic Centre delivered considerable savings and facilitated the rationalisation of a number of council buildings that were no longer fit for purpose.
26196	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	some buildings have had a lot of money spent on them and are not used and/ or badly managed. Either sell them, rent them or use them.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

26197	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	some buildings have had a lot of money spent on them and are not used and/ or badly managed. Either sell them, rent them or use them.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26198	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Very impressive area of WLC operation and this should be continued.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26199	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Does this mean a more proactive approach ?	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26200	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Long term this must save much more than1 million.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The consultation relates to the five year period only. As the council budgets on a rolling basis, these savings are built into the council's base budget and will be required for many more years to come.
26201	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Carefull	Efficiencies from Improved Use & Management of Council Properties (general)	3. The respondent advised that they had no comment to make.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26202	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	the performance of the reactive maintenance group and their supervisors is pathetic. it should be run like a business. repair once but properly. there are properties in Linlithgow that have been waiting for refurbishment for more than 12 months.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	87.5% of customers rate maintenance services as good or excellent. All operational properties are maintained in accordance with standards and issues should be raised where appropriate. Housing repairs are undertaken by Housing, Customer and Building Services.
26203	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Will this mean a further reduction in council buildings. Will the council think about where the best place for a building is rather than keep buildings for sentimental reasons. Council buildings should have reliable IT provision and provide services to the community. Ideally a one stop shop for everything and ideally in the heart of the community.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26204	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	The council should look at the buildings that are being used and look at moving lets to one view. Looking at what buildings need to be open and perhaps looking at split shifts for staff because are they required throughout the day. Can groups open buildings or do buildings only open at particularly points of the day.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
26205	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Why have you been wasting so much of our money up to this point?	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of council buildings. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration. These savings would be additional to the savings delivered over the previous ten years.
26206	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Surely this will incur considerable further expenditure to achieve	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Requirements for investment to deliver this saving are being considered as part of the new capital investment programme. Investment will only be undertaken where substantial savings and benefits can be delivered.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26207	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The goal should be that all facilities management (hard and soft) for all council buildings should be tendered in the private sector to obtain efficiencies and savings.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is already doing this for hard FM in the case of its largest single building at the Civic Centre and the new Whitehill Service Centre will follow next year. There is the possibility that other buildings will follow subject to best value being demonstrated.
26208	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Council needs to think long-term. It currently very often seems good at painting the walls (doing the easily organised less technical jobs) but forgets to fix the roof (tackling the larger more difficult tasks) this may be due to the staff resource available. The new schools programme has delivered a huge difference. Energy saving could be rolled out across most Council buildings.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26209	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	Carry out proper repairs instead of doing cheap repairs pay cheap pay twice !	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
26210	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Here's an idea, why doesn't the council stop wasting money on fancy new schools and buildings to make themselves look good to the public and just start fixing up the buildings instead.	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	Generally the council's property assets are in good condition compared to many others. The council has a substantial planned improvement programme which invests in existing council assets.
26211	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	There must be a lot of buildings open after hours or at weekends for overtime (albeit I assume that will reduce across services) however is there a need for all these properties to be open. Consideration should be given to building sharing at these times ie staff who need to work for specific reasons can do so in a central location. Closing buildings that house staff that provide non essential or are not public facing between Christmas and New Year. Again if staff within these services were not keen on keeping annual or flexi leave for this period, let them work from a central location if their role permits, reducing heating and lighting and in general utility costs during the festive period in some buildings	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although some council facilities need to remain open for service delivery and cover, opportunities to consolidate cover into fewer buildings over the festive period will be considered.
26212	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Reducing energy is always going to be good, looking at greener energy would also be a benefit.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26213	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Yes review and make more efficient - a lot of heat is wasted - and we are heating west lothian skies	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
26214	On behalf of a Group/Organisation	5c. Efficiencies from Improved Use & Management of Council Properties	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Efficiencies from Improved Use & Management of Council Properties (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
26215	An employee of West Lothian Council	5c. Efficiencies from Improved Use & Management of Council Properties	regardless of the budget cuts I feel energy efficiency is something we should be prioritizing on a national level. Completely in agreement with this as we do need to adapt renewable energy projects.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
26216	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Generally agree but cannot comment on these as no info available.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

26217	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Decisions should also be made not on political outcomes but on need. There have been instances where facilities have been put into some towns and not in others. When I pass through Linlithgow and see the amount of money invested in sports facilities and compare this with other towns there is no equity. We should not be spending money nearing the end of the financial year just to ensure it is spent but it should be transferred over to other services where need s required.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The phasing of spending on all budgets will be reviewed and if spending is higher towards the year end this will be investigated. All services will be reviewed based on the impact they have on priorities.
26218	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Which properties are you considering to be surplus to requirements?	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
26219	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Which properties are you considering to be surplus to requirements?	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
26220	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Which properties are you considering to be surplus to requirements?	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
26221	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	Close all Council buildings over Christmas and New year	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although some council facilities need to remain open for service delivery and cover, opportunities to consolidate cover into fewer buildings over the festive period will be considered.
26222	No Response	5c. Efficiencies from Improved Use & Management of Council Properties	sharing buildings offices , selling on existing ones and the land they are situated on would save and bring in capital	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
26223	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	The council also needs to consider what office buildings it uses. Can you make use of building stock and sell some off? e.g. could you make better use of school buildings to house certain departments especially considering these buildings sit unused over the summer and other holidays...their locations tend to be well placed for people too.	Efficiencies from Improved Use & Management of Council Properties (general)	1. The respondent advised that they agree with the proposal.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
26224	An individual	5c. Efficiencies from Improved Use & Management of Council Properties	Consolidate/amalgamate council office buildings.	Efficiencies from Improved Use & Management of Council Properties (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.

26697	An employee of West Lothian Council	5d. Treasury and Insurance Savings	REVIEW DEBT SCHEDULES	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has a robust treasury management strategy which considers the continued affordability and sustainability of borrowing to support a prudent capital investment programme. This includes regularly reviewing outstanding debt and pooled interest rate costs.
26698	An employee of West Lothian Council	5d. Treasury and Insurance Savings	I do not have enough knowledge to comment on this proposal	Treasury and Insurance Savings (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
26699	An individual	5d. Treasury and Insurance Savings	How many budget briefings have been undertaken in the last 5 years, this does not suggest effective and efficient financial management. Each time the budget gap gets larger.	Treasury and Insurance Savings (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to providing all employees with information on the council's budget position, including future budget gaps. The most effective way to share this information is through staff budget briefings. Officers endeavour to forecast as accurately as possible the council's future financial position, however as with any medium to long term plan this is subject to risks and uncertainty and can change.
26700	An individual	5d. Treasury and Insurance Savings	Why is a consultation needed for you to be more efficient in these kinds of areas?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26701	An employee of West Lothian Council	5d. Treasury and Insurance Savings	The Council has to strive towards achieving effective and efficient financial management. Reduce the number of levels of management. Councillors pay? They never used to be paid, a phone/travel allowance of a set amount was given. Invest in your employees. Ensure they are suitably trained and adequately resourced to carry out their jobs. Recognise that the Council's biggest asset is their employees.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. The council continually reviews the tiers of management and span of control across all service levels. This ensures that the council continues to operate with an effective and efficient managerial structure. The Local Government (Allowances and Expenses) (Scotland) Regulations 2007 set councillors remuneration and expenses. The council recognises the value provided by employees in delivering services to the community.
26702	An individual	5d. Treasury and Insurance Savings	Why are you not doing this already?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26703	An individual	5d. Treasury and Insurance Savings	I suggest that the Council should consider moving from a ZBB to a Priority Based budget process.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council is using a priority based budget approach to the development of the revenue financial strategy for the five years 2018/19 to 2022/23. This will be supplemented on an annual basis with staffing zero based budgets to ensure staffing establishments reflect revised service requirements.
26704	An individual	5d. Treasury and Insurance Savings	This statement is too general to elicit a comment It is a 'do your job' statement.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26705	An individual	5d. Treasury and Insurance Savings	Good luck if you can achieve this without actually taking on more of the risk yourself.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. This includes the management of risks associated with treasury and insurance decision making. The council is confident that it can manage associated risks within revised budgets.
26706	An individual	5d. Treasury and Insurance Savings	If there is a long history of efficient management are these savings realisable?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council delivers substantial cashable treasury management savings each year which are used to fund investment in council assets.
26707	An individual	5d. Treasury and Insurance Savings	There are many areas where the council is seen to be spending money that they should be spending elsewhere. Recently, spending council money on externally operated and managed services such as the Regal and West Lothian Leisure is felt to be excessive at a time when the council's own existing services are struggling. More effective prioritisation is required. I feel the council's financial management is not as effective as it used to be.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. The council continually reviews and monitors the value for money and performance of organisations which receive financial support. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
26708	An individual	5d. Treasury and Insurance Savings	Management of funds has always overlooked easy ways to save money but several small changes and focussed on a few big cuts	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document. The size of the budget gap will necessitate wide spread changes to how the council delivers services.
26709	An individual	5d. Treasury and Insurance Savings	You may think you do. But you don't. Send the bean-counters out from behind their desks and they'll see an organisation riddled with waste and inefficiency. Something is not working here. Leadership and capability. Get rid of old-guard. Move on, with new ideas.	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. The council continually reviews and monitors the value for money and performance of organisations which receive financial support. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
26710	An individual	5d. Treasury and Insurance Savings	It seems to me the real problem for local government is a lack of proper funding. This is NOT the fault of the Scottish Government now, nor was it the fault of the Labour/Libdem government in the earlier days of the Scottish Government. The problem is entirely the fault of the Westminster government. So could I suggest that West Lothian councillors who are members of the Conservative party start putting pressure on our Scottish Conservative MPs to speak up for the people of West Lothian and all other areas of Scotland instead of meekly doing what their party leaders want! If they do not do so I fear for the welfare of many of our population as the cuts the council is having to make, through no fault of its own, are completely unacceptable.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
26711	An individual	5d. Treasury and Insurance Savings	No comment to make	Treasury and Insurance Savings (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
26712	An individual	5d. Treasury and Insurance Savings	Strange that with 'a long history of effective and efficient financial management' the council is now needing to save millions on expenditure.	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.

Transforming Your Council Consultation 2017

26713	An individual	5d. Treasury and Insurance Savings	Agree although should be standard practice	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26714	An individual	5d. Treasury and Insurance Savings	Would expect you to shop around for insurance policies each year anyway...	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26715	An individual	5d. Treasury and Insurance Savings	Agreed. However, if the Council truly had a long history of effective and efficient financial management, then how can so much be saved by this proposal?	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities.
26716	An individual	5d. Treasury and Insurance Savings	ANOTHER operational issue that should be a matter of course and shouldn't require you to ask permission to be efficient!!!!	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26717	An individual	5d. Treasury and Insurance Savings	Why are you only doing this now	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26718	An individual	5d. Treasury and Insurance Savings	Another throw away figure. Do you have any workings for this saving?	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The figures contained within this consultation are targeted saving values. Officers will develop detailed proposals to meet these targets should the saving be agreed.
26719	An individual	5d. Treasury and Insurance Savings	If the council's history is one of 'effective and efficient financial management', how is there scope to save a further £800,000? The council continues to generate savings in the efficient management of treasury and insurance activities.
26720	An individual	5d. Treasury and Insurance Savings	The council has a long history of effective and efficient financial management: if so I am unclear how it can do better in the future to the tune of £600,00	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities.
26721	An employee of West Lothian Council	5d. Treasury and Insurance Savings	I believe council tax should be raised to try and sustain supports	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding a 3% increase in council tax.
26722	An individual	5d. Treasury and Insurance Savings	If this is an easy way of making savings that has the least possible chance of effecting thousands of people drastically, then I think this would be good	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26723	An employee of West Lothian Council	5d. Treasury and Insurance Savings	What we need is a West Lothian Ponzi Scheme.	Treasury and Insurance Savings (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	A Ponzi scheme is a form of fraud.
26724	No Response	5d. Treasury and Insurance Savings	Waste of money	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26725	An individual	5d. Treasury and Insurance Savings	As well as utilising the DMO, the Council should explore the use of Investment Houses for Managed Funds to achieve greater returns whilst still being risk averse. Please look at the Education Sector for relevant examples.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council works with a treasury management advisor to ensure that treasury management decisions deliver best value whilst minimising exposure to risk. All new opportunities for investment and borrowing are investigated.
26726	An individual	5d. Treasury and Insurance Savings	How do you pass on your experience to benefit other businesses, particularly those you are funding?	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council continues to consider opportunities to work with others, especially the voluntary sector. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26727	An individual	5d. Treasury and Insurance Savings	Again why was this not done years ago?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26728	An individual	5d. Treasury and Insurance Savings	Agree, however is there scope for further savings	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26729	An individual	5d. Treasury and Insurance Savings	I am not sure that the councils reputation here is as positive as indicated. More humility would be a good start. Lots of scope for improvement and better care of tax payers money.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26730	An individual	5d. Treasury and Insurance Savings	If you have been doing this correctly and you intend to do this going forward then why is this a saving! This should be your starting position!	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26731	An individual	5d. Treasury and Insurance Savings	I note that in the Council's Annual Accounts as at 31.3.16 there is a figure of > Â£25M for "council customer" arrears (Note 12.3) in excess of 12 months. While a provision of < Â£22M has been made, what efforts are being made to convert these debtors into income thus reducing some of the budget difficulty? How many of the debtors are Council employees/councillors where attachment of earnings should be relatively easy?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
26732	An individual	5d. Treasury and Insurance Savings	Not convinced that the Council has managed the budget so well when you see all the opportunities to rationalise, standardise and consolidate services, which appear to have previously been missed. Have a truly independent auditor come in to see where continued savings could be made, including outsourcing of finance services if required!	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26733	An individual	5d. Treasury and Insurance Savings	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The budget report will clearly set out in detail measures to balance the budget including the potential impact on equality and performance. The council has a robust approach to monitoring financial performance during the year with reports provided to Council Executive. All of these reports are available to the public on COINS, the committee system.
26734	An individual	5d. Treasury and Insurance Savings	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
26735	An individual	5d. Treasury and Insurance Savings	This is an important area. The council should balance needs and risks sufficiently. Perhaps traditional insurance arrangements may offer best value and known cost? Or move to assume greater financial control of risks. As long as this is adequately supported and staffed.	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council does balance risks with the costs of insurance provision to ensure best value management of risks and claims.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26736	An employee of West Lothian Council	5d. Treasury and Insurance Savings	Stricter and more stringent processes as well as cohesiveness and information sharing.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26737	An individual	5d. Treasury and Insurance Savings	You do a good job of stewardship in challenging times.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26738	An employee of West Lothian Council	5d. Treasury and Insurance Savings	If this is simply a continuation, how will this result in an estimated saving of £800,000? Surely this is more of a waste prevention measure which would be happening anyway?	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26739	An individual	5d. Treasury and Insurance Savings	As the council has a long history of effective and efficient financial management i am sure that savings shall be delivered.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26740	An employee of West Lothian Council	5d. Treasury and Insurance Savings	How will this be achieved? if its that simple why hasn't this been done before??	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council continues to generate savings in the efficient management of treasury and insurance activities. This saving is incorporated into the consultation document to ensure that all proposed savings are known and available for consideration.
26741	An individual	5d. Treasury and Insurance Savings	Is there not a point when it will become difficult, if not impossible, to save any more money? Won't be much left to eke out money from after this.	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Legally the council is required to deliver a wide range of statutory services. If this level of funding constraint continues, there may come a time when it will be incredibly difficult to deliver these statutory services.
26742	On behalf of a Group/Organisation	5d. Treasury and Insurance Savings	It can have if you're able to make all these cuts	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26743	No Response	5d. Treasury and Insurance Savings	Like this idea	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26744	An individual	5d. Treasury and Insurance Savings	So why now? Why not for the past 10 years? Less savings needed now if this had been implemented before. A long history of effective and efficient management sounds hollow if you can make £800k savings in one year! Shame on our council for cutting services to the elderly vulnerable etc on the back of having failed to make these sort of savings previously	Treasury and Insurance Savings (general)	4. The council is already doing this.	For the past nine years the Scottish Government restricted councils' ability to raise council tax through the financial settlement. In 2017/18 councillors froze council tax. Over the past ten years the council has delivered substantial treasury and insurance savings. The savings identified within this document are additional savings to those previously delivered.

26745	An individual	5d. Treasury and Insurance Savings	Seems a relatively small target compared to other areas that are directly affecting service provision.	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	Over the past ten years the council has delivered substantial treasury and insurance savings. The savings identified within this document are additional savings to those previously delivered.
26746	No Response	5d. Treasury and Insurance Savings	Laudable providing layers of managers do not exist or get created to manage this.	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	Treasury and insurance management savings will be delivered as part of the ongoing work of the Financial Management Unit.
26747	An individual	5d. Treasury and Insurance Savings	I don't agree with this statement, otherwise how is the council having to make cuts?	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
26748	An individual	5d. Treasury and Insurance Savings	Why have you been wasting so much of our money up to this point?	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External audit and regulation provides no evidence of reckless spending.
26749	An employee of West Lothian Council	5d. Treasury and Insurance Savings	These are sensible savings that reflect the good work of the council finance team.	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26750	An employee of West Lothian Council	5d. Treasury and Insurance Savings	Do they compare and bargain with other companies for the best deals - shopping around can make a difference.	Treasury and Insurance Savings (general)	4. The council is already doing this.	Insurance cover is put to tender every three years to ensure best value. The council works to obtain the best treasury rates within the parameters of risk. The council is one of the best performers in terms of treasury rates and costs.
26751	An employee of West Lothian Council	5d. Treasury and Insurance Savings	In the service I worked in for 15 years, money was squandered on invaluable in-service training and paying several staff to not teach but remain in a school regardless. Good luck though.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
26752	An individual	5d. Treasury and Insurance Savings	How come we are £73 mill in debt if we are that much in dept.	Treasury and Insurance Savings (general)	3. The respondent advised that they had no comment to make.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26753	An individual	5d. Treasury and Insurance Savings	Beware insurance costs will increase as maintenance particularly roads goes down.	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets. This should reduce the risk of increased insurance costs.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
26754	On behalf of a Group/Organisation	5d. Treasury and Insurance Savings	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Treasury and Insurance Savings (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
26755	An individual	5d. Treasury and Insurance Savings	The first sentence is very worrying considering all these magnificent savings we make or do we year after year. Something is wrong somewhere.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26756	An individual	5d. Treasury and Insurance Savings	A fancy way of saying you are fudging your accounts.	Treasury and Insurance Savings (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continues to generate savings in the efficient management of treasury and insurance activities. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
26757	An individual	5d. Treasury and Insurance Savings	Again, what are these proposals?	Treasury and Insurance Savings (general)	3. The respondent advised that they had no comment to make.	These savings are generated through savings in the treasury and insurance costs of the council.
26758	An individual	5d. Treasury and Insurance Savings	Generally agree but cannot comment on these as no info available.	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26759	An individual	5d. Treasury and Insurance Savings	Don't spend any left over £ at the end of the year just for the sack of it.	Treasury and Insurance Savings (general)	4. The council is already doing this.	The phasing of spending on all budgets will be reviewed and if spending is higher towards the year end this will be investigated.
26760	An individual	5d. Treasury and Insurance Savings	Again, treasury, insurance and other estate and property asset management services should be shared across Councils and other public bodies as enabled by public services reform legislation. Surely much greater savings can be achieved here and all that is stopped this (as under 1a) is management and workforce intransigence and Scottish Government dancing around COSLA handbags.	Treasury and Insurance Savings (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services.
26761	An individual	5d. Treasury and Insurance Savings	Please review contracts you have with cost management consultants - Council should not be paying commission year after year for costs savings made as a result of advice in the past. Care is needed with negotiating any such new contracts	Treasury and Insurance Savings (general)	1. The respondent advised that they agree with the proposal.	The council does not have any contracts with cost management consultants and do not pay commission on previous general services savings.
26762	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I agree that this work should be continued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26763	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Continue LED lighting only if it is proved to be a saving.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26764	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	If this can provide the necessary savings then this should be pursued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26765	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26766	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26767	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26768	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	excellent!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26769	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Good.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

26974	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This also seems like an ideal solution for saving money, my thoughts about this are similar to 5c.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26975	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	a do agree with reduction carbon	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26976	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again, should have been done long ago!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26977	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
26978	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again, go for it !	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

27081	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	A positive proposal at last.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27082	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree it's important we protect the environment so if savings can be made at same time - great!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27083	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This looks like a spend to save initiative and makes sense particularly if funding is available to replace inefficient street lights quickly.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27084	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Very much endorse this.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27085	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I support the above.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27086	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Appears sensible	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27087	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agreed. Use of better, more efficient technology that results in energy savings is always a good investment	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27088	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Yes, agree with this modernising approach.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27089	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Yes now got these at the bottom of our street. We call it the twilight zone! Why would anyone object to these savings? But again the technology has been around for years and so savings could have been made earlier to avoid cuts now.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27090	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Please do!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27091	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Very very important, there are cost and carbon savings to be made within the councils estate that need to be addressed	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27092	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Keep up the good work on this	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27093	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Yes	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

27180	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	You say this will save money but I suspect right now it will cost us alot more money that we dont have to spend.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27181	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Led street light which illuminate the top of the lamppost	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27182	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	disagree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27183	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27184	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Totally agree that this makes sense.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27185	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Disagree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27186	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More efficient heating in newer buildings would also deliver a saving as they are often too hot and don't seem to be thermostatically controlled.	Improving Energy Efficiency - council buildings	4. The council is already doing this.	The Sustainable Construction Policy helps to ensure new builds and refurbishments are as energy efficient as possible. The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27187	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree that this should be looked at. Council's building manager should be responsible for enforcing lights and computers being turned off at night.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is committed to ensuring buildings are as energy efficient as possible. The council has motion sensors in place in number of locations and will introduce on an ongoing basis where there is a business case to do so to. We will continue to encourage employees to minimise their use of energy through a behaviour change programme.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27188	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	council needs to be more rebust of energy use/savings in centres and schools heating full on and windows open doesn't save money	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27189	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Staff should be provided with thermal underwear in the winter and limit the heating level in council building s !!!!	Improving Energy Efficiency - council buildings	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council continues to encourage employees to minimise their use of energy through a behaviour change programme. Updated building management systems have been installed in a number of council properties to regulate heat and generate energy efficiency savings.
27190	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Needing to pay contractors to come into Bathgate Partnership Centre to control the heating is a huge waste of the council's money. A complete overhaul is needed on the energy consumption. The BPC has a design flaw with regards to the heating usage and public and staff have been complaining for years with still no resolve, so I would happily agree with the above proposal.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27191	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	All opportunities for energy efficiency should be looked at in all areas of the Council and area.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27192	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Positive work been done so far with Biomass Heating Systems.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27193	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Further savings could come from the heating systems and insulating council offices appropriately	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27194	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Further biomass projects could be considered.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27195	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Fantastic idea. Why wasn't the Civic Centre fitted with solar panels? Why aren't all council buildings fitted with solar panels and wind turbines. In fact, some communities have set up their own electricity companies to capture the energy generated by the community and sell this back to the national grid meaning the community don't pay for energy any more. What if West Lothian could be self sufficient in energy? It may take a long time to reap the rewards after the initial investment, but what about the local authority our children will inherit?	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable. The Civic Centre has solar panels, although not on the main roof, and a biomass boiler for the generation of heat.
27196	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	see 5c - Invest capital in green power generation, to reduce revenue outflows on energy. Maximise use of our south facing roofs for solar PV gain.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27197	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Why has a brand new depot been built with no solar panels on the roof?	Improving Energy Efficiency - council buildings	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Solar panes were considered for the new depot however the roof structure would not support them. There will be a small PV installation on the gate house building.
27198	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Renewables on all council property could be used to sell power back to the national grid.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27199	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Sounds sensible. Can similar technology be used in buildings? Also can heat be turned down in some schools? The primary school my kids attended used to be so hot that in the middle of winter kids would come out without they jumpers or their coats on. I don't necessarily turn up the heating at home just tell them to put their slippers and jumper on.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council currently has a capital programme for LED lighting within buildings. The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27200	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This only works if people can access resources. Use renewable energy resources at all council sites to bring down costs	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27201	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More efficient use of lighting heating ect,...	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27202	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	An easy, cheap fix would be to provide light switches in the Civic Centre, or passive switches that switch off the overhead lights when a certain level of illumination is reached. As I type this my section is bathed in bright sunlight and our lights are on.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The lighting systems in the Civic Centre are designed to operate in the manner suggested and so it could be that there is a fault in your area. Please report this through the normal channels. The council is also looking at the feasibility of window tinting to help with this issue.
27203	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Look at this on amore basic level - introduce cost savings within buildings. Heating, lighting etc - some buildings seem to be running at full tilt!	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27204	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Schools/council buildings continue to be too hot or too cold with very little thermostat controls being in place. Could these be fitted initially at a cost to see reduced energy costs over time? Is there scope for building being able to manage their own heating rather than this being done centrally?	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27205	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Large savings could also be achieved by changing school / public building lighting to more efficient LED lighting.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council currently has a capital programme for LED lighting within buildings.
27206	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	ok with this. Too many doors still left open, too many PC's left on all day, too many lights left on, not enough recycling, too many short journeys in cars.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27207	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	led lighting is the way forward not just for street lighting	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council currently has a capital programme for LED lighting within buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27208	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	All council buildings, where appropriate, should be fitted with solar pv eg. the Civic Centre, or have solar panels installed on adjacent land. Buildings should also be retrofitted with light switches which allow lights to be turned off when not required. Other micro renewables should also be considered such as ground and air source heat pumps if appropriate.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27209	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again future proofing our buildings seems to be the best way forward.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27210	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	too many schools with lights on windows open and heating full on?	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27211	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is an interesting statement considering the reasonably newly built Bathgate Partnership Centre has to be one of the most inefficient buildings I have ever worked in. The heating system it has ensures some parts of the building are freezing whilst others are unbearably hot. Windows then have to be opened and as they don't have latches on to allow them to be opened slightly, have to be opened in full. This is surely not energy efficiency at his best?	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27212	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I'm surprised the Energy Savings projects in WLC only save £400K. Suspect this is an area where considerable additional savings are possible	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	Due to the continued constraint on both revenue and capital budgets, the council needs to reduce the total number of assets requiring maintenance. The unavoidable cost of keeping all properties would require a larger saving to be delivered. In addition the council has already delivered substantial energy savings over the past five years.
27213	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Within St David house staff are constantly asking for lighting to be reduced but are told that the lights are set at the correct level. However staff would prefer less lighting but suggestions to remove some bulbs or switch off sections of lighting all together have been ignored. The lights are on all day every day even in the middle of summer which is totally unnecessary	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	Property Management are considering ways to amend the lighting in St David House and will work with employees to make changes within lighting parameters set out by law.
27214	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is an obvious and long term way of saving on energy.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27215	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The more clean energy initiatives the better.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27216	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	No brainer - less energy much longer life than conventional lighting so less maintenance . Go for it .	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27217	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As green and as carbon neutral as possible. The new street lighting works well in areas where it has been introduced.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27218	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Money is wasted heating schools to too high a temperature. Pupils should be warned that temperatures are being gradually reduced so they stop coming to school in the winter in their shirt sleeves. The ability to control each room separately would be a help.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.

27219	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Solar panels etc should be fitted to all council buildings. What about a big turbine at the civic centre	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27220	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	What is the cost of implementing the energy efficiency and renewable energy projects? How much will they reduce the council's yearly energy bills by? How much will it reduce carbon footprint and other emissions? How has this estimate been arrived at?	Improving Energy Efficiency - council buildings	4. The council is already doing this.	A cost benefit analysis is completed of any energy efficiency project to ensure it represents value for money. Previous energy efficiency projects have delivered substantial savings for the council.
27221	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The Council is massively off the pace on this. Just look at the renovated rooms in Linlithgow Burgh halls where elegant new chandeliers don't have LED light bulbs because it would cost too much. So the self-congratulatory text here rings very hollow. Nevertheless the Council should invest to improve energy efficiency. All new council houses should have solar panels so that the council collect the feed in tariff and the tenant benefits from reduced electricity bills.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	Your comment has been noted.
27222	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Look at streamlining access to building. Buildings with few employees relocating in quieter periods reducing energy.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
27223	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	installing solar panels in many public buildings would ultimately reduce costs.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27224	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Energy efficiency should not be limited to street lighting. Work should continue to ensure that our remaining buildings (and other assets) are more efficient and sustainable in the long term, helping the council to protect itself against predicted rising energy costs. Where new buildings are proposed, they should be as efficient and low carbon as possible, leading to long term reductions in costs through reduced ongoing energy bills. Lifetime costings of all proposals should be considered to ensure long term value is being achieved. Sustainable procurement also plays a big part and contracts should take consideration of the fundamental principles of this, ensuring that the council's wider footprint is reduced.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27225	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	All council buildings should be fitted with solar panels to both reduce bills and the carbon footprint	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27226	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How about switching off any office lighting after 8pm at night, depending on the building function.	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27227	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	An efficiency saving would be to reduce the temperature in public buildings except perhaps in hospitals. The fact that children in schools wear only a shirt in the middle of winter is crazy. A lower temperature is more healthy and we could all wear warmer clothes.	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27228	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	perhaps energy in existing council buildings are reviewed as some staff have to open windows in order to "cool down"!!	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.

Transforming Your Council Consultation 2017

27229	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agreed but consideration also needs to be given to internal lighting and heating.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27230	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again go for it but give you should apply sanctions across all council facilities from every service if they are unable to improve they're wasteful use of gas and electricity (education in particular). Also, if you the council properly coordinated roadworks with the utility companies you would maybe have a road network that moved more smoothly. The situation around Bathgate (Boghall), the M8 and Whitburn town centre over the last few weeks are a prime example where the Council has, in the public's eyes, failed tremendously. Also, whatever happened to car-sharing or cycle to work schemes? The street lights are fine though. Since they changed ours it looks like the climax of Close Encounters of the Third Kind outside my living-room at night.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27231	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The Council needs to keep up to date with all types of new technology especially where there are long term benefits	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27232	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Could West Lothian Council enter into a volume discount contract with energy providers to help fund the budgetary shortfalls? Premises use the WLC preferred supplier or pay more for their rent, as long as the utility prices are the same or less than they currently pay and it is benchmarked as competitive. Could this be extended to private homes for bulk buying energy?	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council procures energy through the national framework contract which aims to secure the best prices available.
27233	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Turn the heat down in the schools?	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27234	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	the energy efficiency must be maximised for the benefit of all.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27235	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	A 'Ten year' planning period for this issue is good. Other issues also need to be looked at other a more medium- to long-term basis.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
27236	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Solar panels & small wind turbines should be placed on WLC buildings to generate energy for the building - reducing energy costs.	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27237	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Enforce stricter management of energy in schools and other community buildings	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is currently developing corporate heating guidance which will address many of the concerns expressed and help to generate energy efficiency savings.
27238	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Switch off lights at the Civic Centre etc when not needed.	Improving Energy Efficiency - council buildings	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27239	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More savings at the Civic Centre would be good. lights are always on and furniture is constantly replaced.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27240	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I think the council really needs to look at the little things (turning off computers, lights, etc. in offices) which can accumulate to make a big difference.	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27241	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I think these can be looked at more often and with a better procurement method	Improving Energy Efficiency - council buildings	1. The respondent advised that they agree with the proposal.	The council procures energy through the national framework contract which aims to secure the best prices available.
27242	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Although I do feel this is a beneficial way to save money the street lighting is not as effective as it was prior and streets can sometimes be dark as light is not projected	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	The standards of lumination provided by the LED lights meets the requirements the council are obliged to light areas to.
27243	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As long as streets are lit properly, then see no issue	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	The standards of lumination provided by the LED lights meets the requirements the council are obliged to light areas to.
27244	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Sounds reasonable provided that people feel safe in the levels of light they provide.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27245	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	To ensure safety of residents, who equate to a significant number of your employees, adequate street lighting provision and maintenance is a must. However, LED bulbs are more expensive, where does the A£400K saving come from?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	The saving generated from this proposal relates directly to reduced energy costs to power the new LED lights.
27246	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Utilising green technology, making street lights etc solar powered as they are in many European countries, may be a cost at first but soon pay for themselves. This has been proven.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	The saving generated from this proposal relates directly to reduced energy costs to power the new LED lights.
27247	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Introduce solar street lights with longer lasting LED lights	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27248	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	There are areas where LED lighting is not effective ie where there are tall trees surrounding	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The standards of lumination provided by the LED lights meets the requirements the council are obliged to light areas to.
27249	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	will be interested to see the changes in Bathgate and how it affects the savings	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Roll out of the programme will be consistent in all towns
27250	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	There are far too many street lights, the spacing between them should be reduced, therefore reducing the numbers needed	Improving Energy Efficiency - street lighting	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The spacing and height of columns is calculated to ensure optimum lighting is supplied and this cannot be altered.
27251	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	While I agree that the LED lights are good, Can we not look as changing the way that we refit the lights, do we really need to install new lamp posts, in other regions they have just changed the heads, which is quicker and does not need to install new lamp posts and all the work this entails	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response has been noted. There is a spend to save initiative for LED conversion.
27252	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree. though it would be beneficial if when the lights are installed they remove surrounding shrubbery so the lights shine on the paths and roads and not into the middle of trees. We have saved money, but only if they can be used and improve public safety. We should also look at switching off lights during non peak times (e.g 12 midnight to 4am). Bring back the wind turbines at Balbardie.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27253	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	There are too many street lights and the spacing between them could be increased so that not so many are needed	Improving Energy Efficiency - street lighting	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The spacing and height of columns is calculated to ensure optimum lighting is supplied and this cannot be altered.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27254	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	What is the cost of the LED conversion compared with ongoing savings? LED technology is still young and costs may be higher than waiting an extra few years...Can we not move to a model of switching off unnecessary street lighting between midnight and 6am? Why main arterial roads are lit up like Blackpool illuminations all night with one or 2 vehicles (which surprisingly enough are equipped with headlights!) is a huge waste of money. A89 between Bathgate and Newbridge is a prime example!!	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27255	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Switching off street lighting between the hours of 00:00 and 05:00? This has been piloted in some areas in England.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27256	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I support converting existing street lights to LED but as they new lamps have a reduced spread of light, dark spots can occur between lamps. This can make some people feel uncomfortable, even unwilling to walk along some streets and paths at night. Street lighting not only allows you to see where you are going but also to give you some confidence that you are not going to be assaulted. When changing to LED it may in some cases be necessary to increase the number of lights.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27257	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Why do we need so many street lights? Why on duelled roads etc.? LEDS in all publicly funded lighting and remove every 2nd light from service. Help save the planet for our kids.	Improving Energy Efficiency - street lighting	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	We are required to comply with legislation to supply minimum illumination standards.
27258	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Consider turning off streetlights in the middle of the night. Reduce the street lights put in along roads with no footpaths. To generate power, a hydro project on the River Almond. A local community hydro project was effectively set up at Harlaw Reservoir in the Pentland Hills. Consider small wind turbines to generate our own power.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27259	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	New lights are great. Keep going.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27260	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	thought needs to be given about shutting off traffic lights off peak. what about road lights in the communities can these not be dimmed through the night ?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27261	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Reduction of light pollution into the night sky must be a priority that also add to savings. erm.	Improving Energy Efficiency - street lighting	4. The council is already doing this.	The standards of lumination provided by the LED lights meets the requirements the council are obliged to light areas to.
27262	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Fully support this. Also, could solar technology not be utilised further to store power for street lighting. Such as installing solar panels on street lights to reduce power used at start up times?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27263	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Street lighting does not have to be on all night. Maybe turn off between one a.m. and three a.m. except where needed for safety.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27264	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I wonder if it is possible to increase the distance between street lights and still provide sufficient lighting. So when new lights are being installed then every second light is taken away.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	We are required to comply with legislation to supply minimum illumination standards.
27265	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The LED lighting seems a promising route to continue, especially if it's saving money.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27266	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	We often see street lights burning all day for weeks, if the maintenance to be reduced then this will be even worse.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Lighting can be turned on during day time for testing and inspection to be done. The LED lights require less maintenance.
27267	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Fine, so long as we don't eventually go down the Kent route of only being able to afford to turn certain streets on.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27268	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Does this saving take into account removal of the old street lights	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Yes this accounts for removal of old and installation of new lights.
27269	On behalf of a Group/Organisation	5e. Reducing Carbon Emissions & Improving Energy Efficiency	On the balance of information contained within the above proposal, we agree with this proposal, but some concerns would be the coverage of the LED lighting - lights don't cover a wide enough area which could lead to personal safety concerns.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	We are required to comply with legislation to supply minimum illumination standards.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27270	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Oh save a ligh but cut the care unreal	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27271	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	No! We need decent lighting to get home and reduce crime.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27272	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	All street lights should be LED	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27273	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Lousy. How about also halving the number of lights as well as converting them to LED. How about working with SCOT gov to support moving away from summer/winter clock changing. This will save more energy and £.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	We are required to comply with legislation to supply minimum illumination standards.
27274	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED is good if the luminosity equivalent is maintained. The front of my property has LED street lamps and they do not light up the street as well as the old ones. My property backs onto the railway path which still has traditional lighting. I fear for the safety of walkers if this is reduced. This week there was an attack on this path and with even less lighting I fear there will be far more.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We are required to comply with legislation to supply minimum illumination standards.
27275	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I personally find that the new street lighting is nowhere near as bright as old and can be left feeling insecure when waking home late in the evening.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We are required to comply with legislation to supply minimum illumination standards.
27276	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Good, but please stop fatuous and unnecessary projects like putting in ground-level lights along Linlithgow canal. They may be powered by light-sensitive cells, but they were unnecessary in the first place. In addition, a careful eye needs kept on the matter of light pollution, a by-product of LED technology, being increased.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27277	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The saving has to be long term for such a change. £400,000 over what period?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27278	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Switch the street lights off in the early morning hours - say 1am to 6am, or even just every second light?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27279	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED lights are installed in my street they are far too bright and there are far too many of them. Possibly consider wider spacing or less bright lighting options	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	We have a standard to which the council are obliged to provide lighting to. We always aim to meet this and avoid any over or under provision.
27280	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Great, go ahead: but there must be a significant cost in conversion which might be larger than the suggested savings of £400,00	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27281	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Before doing this the council should work out what the cost break even point is between the installation costs and the savings. It is probably a few hundred years. Why not switch off every second light - let the public look after themselves a little.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27282	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Is it possible to convert all street lights to LED to maximise savings?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27283	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Fine in theory, however external lighting not as good for those with visual impairments.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	We have a standard to which the council are obliged to provide lighting to. We always aim to meet this and avoid any over or under provision.
27284	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED street lights do not emit the same lighting as traditional lights	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We have a standard to which the council are obliged to provide lighting to. We always aim to meet this and avoid any over or under provision.
27285	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED lighting is the way forward for all offices and buildings	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27286	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Turn street lights off altogether between midnight and 6 am. Give every household a torch.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27287	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This work is essential to help combat global warming and I agree with more lighting using LEDS	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27288	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Does the energy saving cover the capital outlay when replacing all the lamps. Street lighting is important for the safety of people after dark	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27289	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The new lamps look awful Where has the money come from for their provision	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27290	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	We agree with this however we do not agree that this work is conducted at weekends where overtime is paid.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27291	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The streets that have been done are noticeably darker - just a comment, perhaps may lead to people not feeling so safe?	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27292	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Check "Lightaware" charity website- number of people becoming allergic to new form of light is on the rise. Research is not yet complete to show these are safe and won't be for a number of years yet. A wholesale change at this stage is a bad idea until the technology is proven.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27293	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As above I'd be interested to know how much this project has cost - I not infrequently witness street lighting switched on during the day in some areas - can this be addressed?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27294	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is a good idea as long as the cost of converting the street lights is not more than the predicted savings.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27295	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I (and everyone I know) hate the new street lights as they are not very bright and only give light directly under the actual lamp-post.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27296	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agreed. Is it worth considering turning off street lights in certain areas in middle of the night or perhaps every 2nd/3rd light?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27297	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agreed. Could saving on street lighting be made by only using half the number overnight?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. Officers will investigate the feasibility of this suggestion
27298	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I find that the lights are not bright enough and can cause areas that are darker than I find comfortable.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27299	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED street lighting in residential areas, and in particular small streets in housing estates is FAR TOO BRIGHT! The light through the bedroom window is disruptive to sleep. It is also contributing to an ecological issue - overall light pollution. Need to re consider the type and brightness of the lights.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We have a standard to which the council are obliged to providing lighting to. We always aim to meet this and avoid any over or under provision.
27300	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Energy saving lights are great - but just make sure that people are safe when walking in the dark.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27301	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED has savings and reduces carbon footprint so is a good long term idea for savings.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
27302	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Good. What is the cost of the conversion? How much will it save in energy bills? How much will it reduce energy consumption and carbon footprint?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy
27303	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	yes better street lighting is good and makes for a safer environment in better lighting	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27304	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I agree with this however am very concerned about removal of the historical lampposts in court square Linlithgow - unsure if this is part of the previous lighting project ?!?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27305	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	If only they lit up the streets	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27306	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As long as changes are made sensibly. Here in Linlithgow some lamps covered with a listing building cover have just been removed. Very short term.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27307	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I assume the long term savings will well outdo the cost of replacement.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy consumption.
27308	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More Street Lighting may have be converted to LED technology but the Light Output is poor. Also Switch On/Switch Off Times are erratic. Solar Dial Time Clocks should be employed or all Lighting operated by Photoceell properly maintained.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27309	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Providing this lighting produces same element of safety, it should continue.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27310	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I feel the new LED streetlights do not give off enough light, which makes walking around more difficult for the visually impaired, like myself.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council comply with standard of illumination.
27311	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	encouraging to see the renewals of new street lighting which will, over the years to come, reduce spend after converting to LED lighting.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27312	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Look at the cost benefit analysis. Could the high cost of conversion to LED be delayed? I don't see this as a priority, the money could be better spent on mental health?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	There has been a detailed calculation behind this project and the spend to save initiative will provide long term future savings to the Council in relation to energy
27313	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I hope we will still have our street lights its sounds like we will be going backward not forward	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27314	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	If this is a successful model it should be continued. Street lighting is an essential service and there would have to be enough staff in place to support this in terms of public safety.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27315	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The LED street lighting project should continue until all have been converted. Proven energy and carbon savings and reducing costs of carrying out the work highlight that this has the continued potential to have a valuable contribution to the council's savings targets.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27316	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Consider reducing atreet lighting after midnight.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27317	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Have council considered reduction of street lighting after(say) midnight?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27318	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Led lighting I think has been a great improvement and successful in generating savings.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27319	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Good idea. Could some street lighting be switched off completely?	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27320	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Maybe lights over a shorter period and smaller area would be considered more cost effective.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27321	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	also agree with street and motorway lamp lighting going off during small hours of the night to save money. Also installation of solar electricity on any buildings the council has in their remaining portfolio should become mandatory, where appropriate within planning rules.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council do not control lighting on motorways.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27322	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How can the council afford to spend masses of money on replacing street lighting in the Springfield Estate which has plunged many houses into darkness when they have to save £73n over the next five years. There must be an abundance of money when such projects can be given the go ahead. Perhaps start by saving on the salary of the person who authorised this.	Improving Energy Efficiency - street lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The project is a spend to save initiative, the roll out of Led lighting will generate revenue savings in relation to energy costs.
27323	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Change of Street lights maybe saving money but they are not the best	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council install lighting to meet illumination standards.
27324	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Great. How about sensor lighting ?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27325	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I think the option of switching off some lights over night should be looked at too.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27326	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Is the Council prepared to consider switching off lights in the small hours e.g. 0000 to 0500? Are new installations allowing for flexible use e.g. switching off alternate lights, or dimming lights during periods of lower use.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27327	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Please, please, please include the street lights within the Country Parks in this upgrade. We would appreciate if our key sites could be upgraded asap as we all have a duty to reduce light pollution as well as conserve energy/reduce wastefulness of energy.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27328	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agreed. Consider reducing street light levels in middle of night - perhaps switching some off?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27329	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Why not check the reported non working of street lights during the evenings when they are on rather than turn them on during the day and then repair them. The affected light could be marked on inspection and repaired the following day?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Proactive daytime inspections are and bulk replacements are done to minimise the instances of dark lamps.
27330	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	In our area recently street lights were on for a fortnight..day and night...during the work to renew the lampposts. Disgraceful waste of money.	Improving Energy Efficiency - street lighting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
27331	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I strongly support further roll out of the LED street-lighting. We've been anticipating it for some time on our street, having seen the benefits of this type of lighting on nearby streets.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27332	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I agree. I also know of a council down south that is saving money on street lighting by switching lighting off during the night on all non essential areas such as housing estates, industrial estates, council owned car parks etc	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27333	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Very good - look at the long term good idea. LED more reliable, low power consumption.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27334	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED lighting makes a lot of sense not only in energy (see above) but lifespan will increase with resultant maintenance reduction. Laser lighting is currently being developed and looks like making further savings possible in the future.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27335	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Think this should be something we are proactively doing, by switching to LED we are cutting emissions and energy costs.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27336	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Quite frankly i find the statement above farcical. The Led lighting system has been installed and running in my street for about 3 months now and would say the lighting is poorer and find the technology Reducing Carbon Emissions & Improving Energy Efficiency less than impressive Will be interesting to see if this makes any savings.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council install lighting to meet illumination standards.
27337	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Street Lighting conversion may be on-going but the Light Output from converted lighting is poor. Street Lighting switch on/switch off time is erratic. Solar Dial Time Clock/Photocell operation properly maintained will eliminate this problem.	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council install lighting to meet illumination standards.
27338	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I like the new lights.	Improving Energy Efficiency - street lighting	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27339	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Switch off street lights from 12am - 6am 7 days a week to save millions over the next 20-30 years.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27340	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Turn off all street lighting at 1 am. This has been trialled in England. Leave only high priority areas, hospitals etc., important junctions etc. There are miles and miles of roads being lit for no reason. Also, stop erecting traffic signals on every street corner.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27341	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	maintenance of all other streets lights at council properties should also be maintained by the street lighting team.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27342	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The new street lights are a joke and not fit for purpose. They fail to provide enough light to light up the streets. End this idea	Improving Energy Efficiency - street lighting	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27343	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Turn off all non necessary traffic lights after set times.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. Traffic signals could be switched off at some locations off peak but the actual savings would be very small.
27344	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	ensure street lighting is not on 24 hours a day ,	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27345	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	What about a switch off process (street lighting)?	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27346	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Whats carbon emmission got to do with saving money Consider switching every second light off during quiet times	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27347	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How about increasing these savings by turning traffic lights off in areas such as roundabouts at times when the amount of traffic is low and turn off street lights from midnight until 6 am.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27348	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Get rid of the illuminated traffic island signs and replace them with the reflective version. Half of them are not illuminated anyway and it would save electricity and manpower trying to fix them.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27349	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How about smart switching so that residential street lighting could be dimmed or even switch off on every 2nd light between say midnight and 5am. Energy savings would be considerable.	Improving Energy Efficiency - street lighting	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
27350	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Green initiative carbon foot print, this should be more spoken about reducing the carbon footprint to save money. Not putting things out to tender as this is usually a more expensive option to, think we need to shop around more.	Improving Energy Efficiency (general)	4. The council is already doing this.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council building
27351	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Any new buildings should also have solar panels installed as standard	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The Sustainable Construction Policy helps to ensure new builds and refurbishments are as energy efficient as possible. The council will explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically viable.
27352	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Any savings that can be made from making better efficient use of energy consumption is to be welcomed.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27353	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is another good proposal, with the squeeze on our budgets, those who can afford it should not have access to concessions	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27354	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	more led lamps , and pv panels on council owned buildings	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27355	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	i dont think this should be a top priority now	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27356	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Reduction in maintenance is a false economy. Well maintained buildings will last longer. For community building such as village halls perhaps the community could deal with maintenance with advice from the council.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
27357	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Sensible. Although consideration must be given to residents who find themselves being disrupted due to extension of wind turbine farms! Balance is necessary.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27358	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is an example of where spending a wee bit more money safes lots in the future. Long term projects are needed - especially in social work and education rather than short term expediency.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27359	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The council has done great work in reducing carbon emissions and improving energy. Any changes the council can make to save energy and money in process should be done. Even if the initial cost is high as long as the long term benefits and savings outweigh that cost then it should be done.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27360	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Financial savings are not achievable unless energy supply contracts are amended to avoid suppliers hiking costs to bridge the energy reduction gap.	Improving Energy Efficiency (general)	4. The council is already doing this.	The council buys energy through national contracts which secure provision at the best rates. The supply is often bought substantially in advance to secure the best rates.
27361	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	look at sites where wind turbines could be introduced to power buildings and sell back to the grid	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27362	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Seriously, I know all councils have to follow guidelines regarding carbon emissions etc....But really, this is pointless in the bigger picture. These energy saving bulbs are totally rubbish & expensive.	Improving Energy Efficiency (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27363	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	LED Technology is costly - how much investment will take it take to save £400,000. Do not agree that this is cost effective.	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27364	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Investment in solar power in this area would also save in the long term.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27365	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Energy efficiencies which work in combination with environmental improvements should be a priority	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27366	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Get on with it. Why haven't you made any progress on this in the last decade? You could have	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	This council has delivered substantial savings in this area especially in regard to operational offices and buildings. There are further opportunities to generate savings in this area.
27367	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again sounds like a wise call. I would also like to see council run wind turbines and solar installations.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27368	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	i am afraid that again I don't see that quote as being true as repairs are few and far between as this has already bean cut to the bone as well	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Generally the council's property assets are in good condition compared to many others. The focus of future capital investment will be on maintaining the condition of the council's existing asset base to minimise the need for costly emergency and reactive repairs and maintenance.
27369	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree but what would be the cost to do this...would it outweigh the £400000 saving?	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27370	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How much capital investment or borrowing is needed to achieve this estimated saving ?	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27371	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree- what about sponsorship from energy companies	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The scope for charging or sponsorship opportunities will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
27372	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	sponsorship?	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging or sponsorship opportunities will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
27373	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	And how about a scheme to make electric cars more affordable?	Improving Energy Efficiency (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
27374	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Make your own energy to sell from wind and solar.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27375	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Growth will only come from low carbon renewable, sustainable enterprises. Get behind that thinking in all you do. If any of your finance team think the future is investing in fossil fuels then sack them now.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27376	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Maximise your income, divest from fossil fuels which will ultimately reduce the worth of your pension and other savings funds. I just don't agree that you can't foresee the future. I can see it clearly. Fossil fuels and all industry connected with it will become a massive risk in the next 1-30 years.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27377	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	See answer to 5c	Improving Energy Efficiency (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
27378	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	defenetly and also they give greater lighting and safety for everyone.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27379	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	WLC should seek to support community energy projects and community heating initiatives to tackle carbon emissions from domestic heating. The WLC vehicle fleet should transition to low/zero emission vehicles to achieve carbon emission reductions (See Fife council's use of hydrogen vehicles).	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council is supportive of community energy projects and heating initiatives to reduce carbon emissions from domestic heating and have supported organisations in the development of projects and funding applications. We have investigated the possibilities of biomass district heating systems and are currently taking forward a pilot mini district heating scheme using ground source heat pumps in an off-gas village.
27380	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More pressing issues like people surviving. This is an important issue but this is not the time to address it when we are in a recession.	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27381	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	go ahead with the savings and encorage people to use Electric vehicles by installing more charge points in housing schemes where people have near house chargepoint	Improving Energy Efficiency (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Although not within the scope of current council budgets, the council is developing supplementary planning guidance requiring developers to pay for and install charging points in new developments.
27382	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This is something which requires continuing investment.	Improving Energy Efficiency (general)	4. The council is already doing this.	The council's future capital programme will include investment in LED street lighting to deliver savings.
27383	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	We need more green energy. which does not include wind farms as in the long run they aren't very green at all	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27384	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	New energy initiatives should take lifetime cost & reliability into consideration rather than initial savings.	Improving Energy Efficiency (general)	4. The council is already doing this.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings. The lifetime cost of any initiative is taken into account as part of the cost/benefit of any proposal. This will include both quantitative and qualitative assessments.
27385	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This should continue as these are far more efficient at provided better quality light using less power and saving power budget	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council is proposing further investment in LED street lighting over the next five years to deliver further savings and reduced carbon emissions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
27386	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	This should definitely be continued to reduce carbon emmsions	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27387	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Good facilities management and planed preventive maintenance could well reduce cost of repairs and save money in the long run. Doing things like installing LED lights, solar panels and improving insulation will improve the energy efficiency of buildings. This will help save money in the long run but also help protect the environment and reduce the amount of CO2 the council facilities produce. All positive steps.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric to minimise reactive maintenance going forward and maintain assets essential for the delivery of council services. The new ten year capital investment strategy will aim to maintain assets as much as possible within capital funding constraints to minimise the impact on revenue maintenance budgets.
27388	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Continue with this change - Investing for future savings	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council's future capital programme will include investment in LED street lighting to deliver savings.
27389	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	continue	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council's future capital programme will include investment in LED street lighting to deliver savings.
27390	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Waste of money, cheaper more frequent buses would help	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27391	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Does this stack up. Is the investment really delivering these savings. If so good idea.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27392	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Surely we can save more than that?	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27393	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	So you are spending large sums of money that you do not have to save "carbon emissions". Any savings are infinitesimal and hardly going to "save the planet". Scotland has 0.13 per cent of global emission so West Lothian does not even register. For you consideration other countries promises are not even half of what scientists would make us believe are essential to stop the Four Horsemen riding in. America has withdrawn from the Paris Accord and China stated that it will not reduce emissions until after 2030. America and China are responsible for 44 per cent of global emissions so your lighting projects are a waste of money	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27394	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	A more larger investment in reducing carbon emissions is required. Top priority for long term health of our planet.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27395	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Fantastic initiative in terms of providing savings with the added benefit of working towards the aspirations to reduce carbon emissions across the authority area.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27396	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Solar power? New partnership buildings fitted with panels ?	Improving Energy Efficiency (general)	4. The council is already doing this.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

27397	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I'm surprised the Energy Savings projects in WLC only save £400K. Suspect this is an area where considerable additional savings are possible	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap. This saving relates to street lighting only with energy reduction in buildings covered within 5c.
27398	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I feel the savings will only really affect us in years to come when the economy will most likely have improved. Currently I think money should not be spent on this as it will cost more right now to change them than we shall see benefit of in the handful of years to come.	Improving Energy Efficiency (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap.
27399	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Encouraging research and innovation in environmental learning can be funded externally: https://www.gov.uk/government/publications/space-for-smarter-government-programme-sggp-showcase-2017 Seekign external funding for larger projects would be a good idea to generate additional funding.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council seeks external funding wherever available to introduce new initiatives or support service delivery.
27400	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Not bothered about carbon reductions but cost reductions all help	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27401	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Investment in renewable energy would be an investment for the future	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27402	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Again solar panels, turbines etc. Switch lights off.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27403	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	How much does this cost to put in and when do the savings actually start?	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap. Savings are achieved in the year that the installations are complete.
27404	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Climate change & population growth are the biggest threat to (human) life on earth	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27405	No Response	5e. Reducing Carbon Emissions & Improving Energy Efficiency	agreed, energy efficiency is something we should be doing regardless of budget cuts.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.

27406	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Makes perfect sense and is normal in all other workplaces. Has anyone checked that there are actually any savings though?	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable. Previous projects have delivered substantial savings for the council over the last five years.
27407	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I agree with reducing carbon emissions and the conversion to LED's. But why stop there. Improving the lights to prevent excessive light from obscuring our sky would be desirable to many as well.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27408	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	The following comments also relate to 5C above with regard to "...reduce energy consumption..." as the lack of awareness and management at this school is clearly wasting energy. At St Nicholas RC Primary School in Broxburn there is not only energy wastage in lighting up certain school areas unnecessarily, but this is causing intrusive light pollution into many of the houses on Badger Walk: 1) the 'street' lights within the new vehicle drop off zone (off Blyth Road) are on from c3pm to c6.30 pm daily, therefore during daylight hours and continuing well after the school is closed (this can even be observed today - a Saturday!). 2) the external wall lights on the new gym hall are on until c10pm, for what appears to be purely decorative purposes, since the school has closed hours before this. 3) during both the summer months and the school holidays the external gym hall lights were also on until this time, when again it was daylight and the school was closed. 4) within the school it has been observed that classroom lights can be left on overnight and sometimes over a weekend, when again the school is closed.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27409	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Link with Scot Gov national energy provider initiative Explore community energy initiatives in new build housing	Improving Energy Efficiency (general)	4. The council is already doing this.	The council is supportive of community energy projects and heating initiatives to reduce carbon emissions from domestic heating and have supported organisations in the development of projects and funding applications. We have investigated the possibilities of biomass district heating systems and are currently taking forward a pilot mini district heating scheme using ground source heat pumps in an off-gas village.
27410	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree if cash releasing.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
27411	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	tell council employees to turn of engines when and where possible or fit some form of tracking so the guilty can be brought to account	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this could be developed.
27412	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Why have you been wasting so much of our money up to this point?	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has delivered substantial property management savings over the past ten years and will continue to do so over the next five years.
27413	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Agree. The council should look at its land holdings to see if there are any suitable sites for wind turbines and other sources of renewable energy. e.g. land above Blackridge.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will review the council's land holdings in order to develop this suggestion.
27414	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	similar to other authorities	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27415	On behalf of a Group/Organisation	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Great idea, see previous question.	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

27416	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	As above I feel there are so many opportunities where this is not even considered. WLC need to look at all their assets and make them work more efficiently by modernisation and retrofitting renewables	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27417	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	I see very few schools etc. which have PV panels.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27418	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Savings should be maximised through forward funding of improvements using external support where possible.	Improving Energy Efficiency (general)	4. The council is already doing this.	The council seeks external funding wherever available to introduce new initiatives or support service delivery.
27419	On behalf of a Group/Organisation	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Improving Energy Efficiency (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
27420	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Improved sustainable energy efficiency programmes should be supported	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council has an energy reduction work plan and is committed to exploring opportunities for reducing the energy bill through the use of renewable energy solutions, improved energy efficiency of buildings and equipment and changing the behaviour of users in council buildings.
27421	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	What are the timescales of these savings against costs?	Improving Energy Efficiency (general)	3. The respondent advised that they had no comment to make.	The cost benefit analysis for the introduction of LED street lighting demonstrates that substantial savings can be achieved. The savings cover both the cost of installation and the additional revenue savings to contribute to the council's budget gap. Savings are achieved in the year that the installations are complete.
27422	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Very difficult to quantify without taking all aspect into account. Solar panels require money up front.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27423	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Is the council receiving income from the Scottish Power Services for producing extra wind power electricity since so many have been installed in West Lothian over the last 5 years?	Improving Energy Efficiency (general)	4. The council is already doing this.	The council is receiving income from installing renewable energy generation sources.
27424	An individual	5e. Reducing Carbon Emissions & Improving Energy Efficiency	Also, income from solar panel schemes which have been fitted to council housing - does the council not receive any extra income from the power companies for this too?	Improving Energy Efficiency (general)	4. The council is already doing this.	The council is receiving income from installing renewable energy generation sources.
27425	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	More and wider developments of renewable energy sources used across the council including Xmas lighting and finding away to provide within the community.	Improving Energy Efficiency (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.
27426	An employee of West Lothian Council	5e. Reducing Carbon Emissions & Improving Energy Efficiency	look at solar power / wind turbines to generate power in council buildings	Improving Energy Efficiency (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically and practically viable.

27760	An individual	6. Reviewing Income and Concessions	You're actually proposing that disabled people, the ones who are more likely to be unemployed and on low incomes, get charged £20 for a disabled badge????????? It's not like it's a "nice to have". Blue badges are a lifeline. The idea of implementing an additional charge on people who have already had to apply for disability benefits in order to get the badge in the first place shows how inefficient and wasteful the council policy planning can actually be.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27761	An individual	6. Reviewing Income and Concessions	It is hard enough surviving on the crappy amount you get when disabled and unable to work without being penalised for lack of mobility cause by illness or pain or disability of another kind. £20 looks small but is enormous when you don't have it. Seriously you are considering discriminating against people who struggle daily just to leave then house! That is plain wrong and has obviously been thought of by someone with no experience of the debilitating lives blue badge holders lead.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27762	An individual	6. Reviewing Income and Concessions	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27763	No Response	6. Reviewing Income and Concessions	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27764	An individual	6. Reviewing Income and Concessions	I do not agree with the introduction of charges for all council car parks.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27765	An individual	6. Reviewing Income and Concessions	Disagree with charging for council car park - This could potentially lead to less spending in the area.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

27766	No Response	6. Reviewing Income and Concessions	Disagree with council car park charging - This could stop people coming into the area to spend.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27767	An employee of West Lothian Council	6. Reviewing Income and Concessions	DO NOT AGREE WITH CHARGES FOR CAR PARKS	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27768	An individual	6. Reviewing Income and Concessions	NO Quite simply 1 and 4 are a tax on the elderly and disabled. A charge on car parks will reduce use and will make it more difficult for users to access facilities. It will not raise enough income to offset the disadvantages.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27769	An individual	6. Reviewing Income and Concessions	disagree with all of the above 4 points. Things should be free for everyone.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27770	No Response	6. Reviewing Income and Concessions	Not keen - charging people who are in need of support does not seem right.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27771	An employee of West Lothian Council	6. Reviewing Income and Concessions	I do not agree with this at all.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27772	An individual	6. Reviewing Income and Concessions	No!!! Nice to hear the older people are still eligible for free personal and nursing care but what about the younger disabled people. People with disability tend to earn less. Parent with disabled children already pay more. I don't think charging them extra is acceptable. In fact I think it is outrageous. If the council is closing so many buildings to consolidate social services departments and disabled care center as strongly hinted in the previous questions in this document then the council should not propose to charge money for the transport of the most vulnerable to these central buildings. Anyone of us could be disabled tomorrow because of a freak accident. The reasons I pay taxes is that if this happens to me or my wife or my neighbours tomorrow, I know the government will take care of me, my wife or my neighbours to an extent. I do not agree at all with this proposal.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27773	An individual	6. Reviewing Income and Concessions	Disagree about car park fees	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27774	An individual	6. Reviewing Income and Concessions	i object to all proposals as elected members should stand up and demand that Scottish government review their funding and policies and represent the local population who elected them.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27775	An individual	6. Reviewing Income and Concessions	I completely agree with this apart from charging to use council car parks. I am disabled and have a blue badge, which is a life saver. I use many council facilities but I have to use my car to access them as I have very limited mobility. If I had to pay to park at council facilities I would virtually housebound as I would simply not be able to afford to pay to park each time I went swimming or used the library or my local neighbourhood network facility. I can manage a Â£20 payment for my blue badge every 3 years but to have to pay to park almost every time I left the house would mean I would have to reduce my already reduced shopping bill even further. These council facilities are my life line but my budget is very restricted.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27776	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Feel that the proposal to charge Â£20 for a Blue Badge is focusing on disabled people again.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27777	An individual	6. Reviewing Income and Concessions	one step forward in a road of 10 miles	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

27814	An individual	6. Reviewing Income and Concessions	Income - See the legendary regular Linlithgow gazette correspondent ### ## of Linlithgow about litter/dog wardens' costs and (the poor) income generated and apply the principles.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
27815	An individual	6. Reviewing Income and Concessions	Not enough detail of contributions policy for non residents care services.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
27816	An employee of West Lothian Council	6. Reviewing Income and Concessions	If blue badges are required then a charge for them is punishing the infirm, I would be against this move.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27817	An individual	6. Reviewing Income and Concessions	All other councils charge for blue badges. Why not WLC?	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27818	An employee of West Lothian Council	6. Reviewing Income and Concessions	SUPPORT CHARGES AS MOST PEOPLE WILL HAVE DLA OR PIP.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27819	An employee of West Lothian Council	6. Reviewing Income and Concessions	The most disabled in our society are in receipt of blue badges. They should NOT be asked to pay an admin fee. They often have the lowest income.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27820	An individual	6. Reviewing Income and Concessions	The A£20 charge for Blue Badges seems fair as most other councils are already doing this.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27821	An individual	6. Reviewing Income and Concessions	I disagree with charging blue badge holders you are targeting most vulnerable people in the community .	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27822	An employee of West Lothian Council	6. Reviewing Income and Concessions	Where the council can charge for services such as the blue badge scheme it must. Maximising income is important and residents will soon understand that the council can not keep delivering services free of charge.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

27823	An individual	6. Reviewing Income and Concessions	Agree on admin charge for blue badges. There should also be small admin charge for lost bus passes (if clients require replacement more than once) as some clients are passing bus passes on to other people and then ordering replacements which is currently free.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27824	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would prefer that there be a charge for any replacement blue badges rather than an initial cost	Reviewing Income and Concessions - Blue Badges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
27825	An individual	6. Reviewing Income and Concessions	Don't hit the weakest with charges. No to blue badge charging.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
27826	An individual	6. Reviewing Income and Concessions	I am against introducing charges for blue badges and particularly transport services. as a disabled person, I am reliant on help to get about and survive on minimal financial help.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27827	An individual	6. Reviewing Income and Concessions	The cost of set up, maintenance of collecting a £20 fee for blue badges is unlikely to generate much revenue.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27828	An individual	6. Reviewing Income and Concessions	Blue badge administration should be charged to cover all staff time. Provision of disabled parking bays should be charged for as this must come at great expense to the Council.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27829	An employee of West Lothian Council	6. Reviewing Income and Concessions	Verify that individuals initially qualify for a blue badge.	Reviewing Income and Concessions - Blue Badges	4. The council is already doing this.	The Council is required to conduct an eligibility assessment prior to awarding a blue badge.
27830	An employee of West Lothian Council	6. Reviewing Income and Concessions	most other authorities charge for admin of blue badges so this should have been done years ago.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27831	An individual	6. Reviewing Income and Concessions	This is a great idea these things cannot go on being free were do people expect this money to come from they all need to play their part a blue badge fee is a fantastic idea its a small contribution	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27832	An individual	6. Reviewing Income and Concessions	Blue Badge admin fee- seems fair car park charging - West Lothian is a lot of separate villages, generally low incomes and some areas are poorly served by public transport.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27833	An employee of West Lothian Council	6. Reviewing Income and Concessions	I disagree with the blue badge fee as the individual has to do most of the admin with completing the form and sorting out photographs. Plus the Council need to ensure they provide a very good service when charging such a high amount. I think the charging for council car parks would be acceptable, for example in Livingston you have to pay for most car parks anyway.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27834	An individual	6. Reviewing Income and Concessions	I agree that charges should be brought in for blue badge holders. Given the concessions to these individuals in car parking charges this is not a lot of money in comparison.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27835	An individual	6. Reviewing Income and Concessions	It is almost impossible to get a blue badge anyway so irrelevant	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

27836	An individual	6. Reviewing Income and Concessions	Charges for Blue Badges???? Are you crazy? This is disability discrimination! If someone loses their badge then a charge could be made but to charge in general is to discriminate.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27837	An individual	6. Reviewing Income and Concessions	£20 seems excessive for a blue badge. A fiver would be better if anything.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27838	An individual	6. Reviewing Income and Concessions	Charging those going through a personal crisis and horrible change in life because they require a blue badge is not in the slightest bit empathetic..	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27839	An individual	6. Reviewing Income and Concessions	also for a blue badge I think £100 is a reasonable cost my mother and father both have these and for £100 per annum it is worthwhile	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27840	An individual	6. Reviewing Income and Concessions	charges for blue badges would be welcomed for some as too many people want services for nothing,,,	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27841	No Response	6. Reviewing Income and Concessions	Blue badge holder paying the £20 if in receipt of disability benefits.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27842	An individual	6. Reviewing Income and Concessions	The administrative charge for blue badges is fine as long as more people's circumstances are taken into account.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27843	An individual	6. Reviewing Income and Concessions	Charging for Blue badges is not a good idea people with disabilities should Not Be charged for this service very unfair , pensioners that have blue Badges are living on a limited budget this would be unfair To charge them For This	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27844	An individual	6. Reviewing Income and Concessions	Having to pay for a blue badge is wrong as individuals that require these, need them for a reason so that they don't have far to walk, not everyone will pay this therefore increasing the risk of endangerment and risk to health.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27845	An individual	6. Reviewing Income and Concessions	Don't agree with admin charge for blue badges as people don't choose to be disabled but should cut down on fraudulent applications.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27846	An individual	6. Reviewing Income and Concessions	Charging for Blue Badges could be seen as another stealth tax on the already vulnerable, however tackling the numbers of people who apply for the badges when they have no proper reason for does need to be addressed	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27891	An individual	6. Reviewing Income and Concessions	Administrative charges for blue badge holders should not be implimented. This would negatively impact many disabled people who are reliant on disability benefits	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27892	An individual	6. Reviewing Income and Concessions	no admin fees for blue badges.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27893	An employee of West Lothian Council	6. Reviewing Income and Concessions	I do not think charging for Blue Badges is the right approach. This could be considered to be disability discrimination. I would strongly suggest that this be reconsidered as we may face a disability discrimination claim should this be done. In addition, those individuals may not be able to work thus penalising them further for being disabled.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27894	An individual	6. Reviewing Income and Concessions	Charging Â£20 for blue badge is penalising the vulnerable	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27895	An employee of West Lothian Council	6. Reviewing Income and Concessions	This is difficult, given that charging for a blue badge may be seen as a discriminatory cost. People cannot help their disability, so why should they be charged?	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27896	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for blue badges is despicable - these are already only provided to those who meet strict criteria and don't have an alternative.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27897	An individual	6. Reviewing Income and Concessions	So lets target the most vulnerable? I seriously doubt that it costs Â£20 to admin a blue badge application.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27898	An individual	6. Reviewing Income and Concessions	Charging people an admin charge for a blue badge also won't help. My mother has a blue badge and cannot work because of her condition. Why should she be expected to pay for the badge when she is having to claim benefits to keep up a decent standard of living!	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27899	An individual	6. Reviewing Income and Concessions	1 - no comment as does not affect me	Reviewing Income and Concessions - Blue Badges	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

27900	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Further comments are as follows:- 1. Current administration of Blue Badge Applications requires to be resolved before any charge would be implemented. DWP letter no longer specifies the level of award, it only has a monetary value which means that this letter is not accepted by CIS staff which is not the fault of the disabled person as its a DWP issue - this would require to be resolved to ensure no extra burden is placed on the disabled person. Some people in the group think Â£20 is too high. Would the monies raised after administration costs from the Â£20 charge be used to maintain/upgrade existing and new accessible bays within West Lothian.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27901	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree with charge for blue badges, don't agree with those who can afford to pay have to pay, as they have contributed through out their lives and should be able to have assistance in later life without worry of having to be able to afford care.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27902	An individual	6. Reviewing Income and Concessions	As a disabled person I can see the need for a Â£20 fee fr Blue badges although I don't really agree with it in principle. Too often now I see drivers parking in the Steel Yard outwith regulated times which would incur a Â£80 fine. I see the police telling people off and rarely issuing tickets. I spent a lot of time around this area in the summer and saw between 20 - 30 vehicles a day flouting regulations. That equates to around Â£2400 per day! You are in a position where people flouting laws are being let off and you are about to start charging Â£20 to disabled people to park legally.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27903	An individual	6. Reviewing Income and Concessions	Badges acceptable	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27904	An individual	6. Reviewing Income and Concessions	I feel charging even this small amount for a blue badge is grossly unfair.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27905	An individual	6. Reviewing Income and Concessions	Donâ€™t agree with charging Â£20.00 for blue badge either.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27906	An individual	6. Reviewing Income and Concessions	Those who need a blue badge should never be penalised. This is punishing the less able.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27907	An individual	6. Reviewing Income and Concessions	Charging for disabled badges is pathetic and discriminatory.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27908	An individual	6. Reviewing Income and Concessions	Agree charge for blue badges to be paid at application to avoid collection issues. Increase rent on council houses as they haven't really risen much for years. Change free bus pass to age 65	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
27909	An employee of West Lothian Council	6. Reviewing Income and Concessions	I am a disabled driver and use a blue badge. I wouldn't object to paying for it but what I do mind is when people abuse disabled areas and get away with it. The council could make money from fining people who do this. Having a blue badge is a need not a privilege	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27930	An employee of West Lothian Council	6. Reviewing Income and Concessions	1. Introduction of administrative charge of £20 for blue badges - agree with this	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27931	An employee of West Lothian Council	6. Reviewing Income and Concessions	However, an administration charge of £20:00 is not unreasonable	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27932	An employee of West Lothian Council	6. Reviewing Income and Concessions	1. Agree there should be an admin fee for blue badges. It's not a lot of money and would cover staff time taken to carry out that function.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27933	An employee of West Lothian Council	6. Reviewing Income and Concessions	1. People who need blue badges do not want to need blue badges. Do not penalise them further for this.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27934	An employee of West Lothian Council	6. Reviewing Income and Concessions	A £20 charge for blue badges is unfair to those with a disability. A person with a disability should not be financially burdened by needing to apply for their blue badge. A contribution should be made by those pensioners who have adequate funds to afford their own personal care. West Lothian should be aware of the impact of this on the wider finances of the economy as this then takes away money spent within the community at businesses.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27935	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think more admin charges should be charged to customers when applying blue badges or for lost badges. The same should be applied for payment cards.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

27954	An individual	6. Reviewing Income and Concessions	NO to charging for blue badges.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27955	An individual	6. Reviewing Income and Concessions	No introduction of Blue Badge cost - look at the form - cut that down - do a check with health service providers - would help with health ailments for the person requesting badge (use the technology)	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27956	No Response	6. Reviewing Income and Concessions	Agree with all except charging for blue badges. Do not like charging vulnerable people already and this could mean some just cannot get about as well as they could before.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27957	An employee of West Lothian Council	6. Reviewing Income and Concessions	Blue badge holders should not be penalised by admin charges. This could result in people already struggling not being able to afford this aid.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27958	An individual	6. Reviewing Income and Concessions	1. My daughter is severely disabled and has a blue badge - being able to park in wheelchair bays is invaluable for us. We are lucky that as a family we could afford to pay an admin charge for our Blue Badge. HOWEVER, many disabled people are not as financially well-off as we are and asking for an admin charge of £20 for their blue badge is placing them under a further financial burden as well as under further disadvantage. I would actually be amazed if this was allowed under Disability Discrimination legislation: if I go to Dobbies, say, without my daughter I can park in their car park for free, but to access spaces that enable my daughter to have easy access to Dobbies the Council are proposing to charge me £20??	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27959	No Response	6. Reviewing Income and Concessions	I agree with the above Happy to pay for blue badge, and happy to pay more than £20. £50 would be more appropriate, equating to less than £1 per week for accessible parking	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

27960	An individual	6. Reviewing Income and Concessions	All other councils charge for blue badges so our council needs to as well or further job cuts will be required	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27961	An individual	6. Reviewing Income and Concessions	Need to raise more cash but doubt blue badge holders can typically afford this	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27962	An individual	6. Reviewing Income and Concessions	Edinburgh already charge for Blue Badges	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27963	An individual	6. Reviewing Income and Concessions	I feel this could be effective. My daughter has a blue badge and a fee would be appropriate. Although it may be a struggle for some.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27964	No Response	6. Reviewing Income and Concessions	1. I believe this charge should be means tested with people who can't afford it, still having the service for free.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27965	An employee of West Lothian Council	6. Reviewing Income and Concessions	If administration charges are being considered for blue badges then these should also be considered for blue badge parking bays, giving the same consideration for those that may be unable to afford any charges. Any requested markings pertaining to an individual property could also be charged such as access protection markings (where successful when assessed against the existing policy). Free transport to school could also be altered in line with national policy to reduce the costs of transporting children to schools, or a financial contribution replacement be implemented for those between 2-3 miles.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27966	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think the admin charge for a blue badge is a small value but with potential for savings and I do not think that individuals would complain too much about this proposal.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27967	An individual	6. Reviewing Income and Concessions	Blue badge charge should go ahead	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27968	An individual	6. Reviewing Income and Concessions	Personally don't mind paying £20 for a blue badge however I think this is aimed at some of the most vulnerable in society so seems unfair.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27969	An individual	6. Reviewing Income and Concessions	1. I welcome means testing in all areas of service provision. Many blue badge holders are extremely wealthy and lower income taxpayers should not be supporting concessions for this group therefore while I support the blue badge charge, I don't believe it is high enough	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27970	An employee of West Lothian Council	6. Reviewing Income and Concessions	Although I agree with charging for blue badges, £20 admin charge seems a bit steep.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
27971	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes pay £20.00 for blue badge.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28011	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for blue badges may be construed as disability discrimination unless it is clear that it is only the administrative element of the application for a badge that is chargeable.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28012	An individual	6. Reviewing Income and Concessions	Strongly disagree on blue badge fee.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28013	An employee of West Lothian Council	6. Reviewing Income and Concessions	There are a lot of proposals here but very little detail. I think it really depends how much we are proposing to charge. The £20 fee for a blue badge does not seem particularly excessive.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28014	An individual	6. Reviewing Income and Concessions	My son has a blue badge and if it continued to be changed every three years I have no problem with paying £20. I shall be 60 in two years time and I can then wait five years to get a free one.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28015	An employee of West Lothian Council	6. Reviewing Income and Concessions	1 - How has a £20 figure been arrived at?	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28016	An individual	6. Reviewing Income and Concessions	In your ordered list 1. If £20 is fair then ok but remember this is yet another burden on those whom in section 2 you are trying to squeeze through reducing assisted care. If you need to charge to cover administration of a blue badge then consider reducing administration by extending the duration of validity of the blue badge. If someone is disabled and needs a badge then the disability is long lasting or forever in most cases. Reduce your administration that way too.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28017	An employee of West Lothian Council	6. Reviewing Income and Concessions	Blue badge holders should not be penalised as they are already disadvantaged	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28018	An individual	6. Reviewing Income and Concessions	certainly more scrutiny in providing blue badges is probably important it is important that all old people who need person care should get that provision but not all can pay for it some arrangement has to be made and if some can afford more well so be it	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28019	An individual	6. Reviewing Income and Concessions	Blue badge parking should also be chargeable. Just because someone may have a disability, this doesn't mean they can't afford to pay for parking	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent

28020	An individual	6. Reviewing Income and Concessions	This is a tough one. Broadly in agreement. Agree entirely with charging for blue badges.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28021	An individual	6. Reviewing Income and Concessions	Charging for blue badges no	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28022	An employee of West Lothian Council	6. Reviewing Income and Concessions	Wrong to charge for admin for blue badges UNLESS means tested.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28023	An employee of West Lothian Council	6. Reviewing Income and Concessions	Any charges for services e.g. blue badge must only be delivered when paid in advance otherwise the costs of recovery could negate any additional income, particularly when revenues are being told they need to deliver current services with less staff.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28024	An individual	6. Reviewing Income and Concessions	Imagine charging people for being disabled.. Damn, you guys are really messed up.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28025	An individual	6. Reviewing Income and Concessions	1. Agree with totally (could be more).	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28026	An individual	6. Reviewing Income and Concessions	I would be happy to accept the introduction of an administrative charge of £20 for blue badges.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28027	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	1. This will adversely affect people with disabilities	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28028	An employee of West Lothian Council	6. Reviewing Income and Concessions	If is a small charge for this service thats acceptable, most of the blue badge holders are driving brand new cars at £20k a throw , make it £50.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28029	An individual	6. Reviewing Income and Concessions	I would agree to this, and hopefully combat the misuse of blue badges	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28030	An employee of West Lothian Council	6. Reviewing Income and Concessions	The introduction of admin charge for blue badges may help in dissuading fraudulent applicants from applying and stricter monitoring of who actually uses badges should be introduced.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28031	No Response	6. Reviewing Income and Concessions	Completely in agreement with this, other Council's charge for blue badges.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. 28032	An individual	6. Reviewing Income and Concessions	I don't agree with charging for blue badges. People who have blue badges have these for a reason and not all the people who have them get a higher rate of benefit so no I don't agree with charging for this either.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28033	An individual	6. Reviewing Income and Concessions	This sounds like your taking from the poor and giving to the rich /// A£ 20 for a blue badge ... Charging council car parks .. Who uses these WORKING CLASS	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28034	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes I think blue badges should carry a nominal charge	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28035	An individual	6. Reviewing Income and Concessions	Blue Badge is a significant privilege and a cost covering charge is reasonable.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28036	An individual	6. Reviewing Income and Concessions	I agree with introducing for blue badges. There has been a great increase in disabled parking than perhaps is needed. More of these are being given out due to mobility problems caused by obesity rather than a proper disability.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28037	An individual	6. Reviewing Income and Concessions	Dont agree with charging for car parks	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28038	An individual	6. Reviewing Income and Concessions	Appropriate is difficult to quantify	Reviewing Income and Concessions - Blue Badges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent
28039	No Response	6. Reviewing Income and Concessions	Rather than introducing a blue badge charge, either enforce disabled parking more strictly and use the funds raised from fines to pay the administrative costs or increase the proposed parking charges to cover. Charging for blue badges is more likely to impact on those on already low incomes.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28040	An individual	6. Reviewing Income and Concessions	Charge for blue badges seems high and a tax on disabilities.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28041	An individual	6. Reviewing Income and Concessions	I believe it is not necessary to be charged for a blue badge. People that need a blue badge need it for a reason they are not just handed out to anybody, charging this would just be petty and morally wrong.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28042	No Response	6. Reviewing Income and Concessions	I am in favour of charging for the blue badges.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28043	No Response	6. Reviewing Income and Concessions	1. I agree a £20 charge for badges would be acceptable.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. 28044	An individual	6. Reviewing Income and Concessions	item 1 ok	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28045	An individual	6. Reviewing Income and Concessions	1. I agree, this would bring into line with other councils.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28046	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Do not agree with the proposal to introduce a £20 charge for a blue badge. Feel disabled people are asked to contribute enough to the services they receive at the moment without being asked to pay more.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28047	No Response	6. Reviewing Income and Concessions	In favour of some of these charges but concerned about low income families with disabled children being charged for blue badges.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28048	An individual	6. Reviewing Income and Concessions	Charging for blue badges is a disgrace. The disabled in society have been targeted enough by the cuts to welfare. Asking for money to give a much needed badge is disgusting.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28049	An individual	6. Reviewing Income and Concessions	As a blue card holder myself I am happy to pay £20.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28050	An individual	6. Reviewing Income and Concessions	Oh dear it's come to this has it? Don't support charge for blue badges.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28051	No Response	6. Reviewing Income and Concessions	I disagree with the proposed £20 charge for blue badges; these are for already disadvantaged people, and this would simply be a tax on the disabled.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28052	An individual	6. Reviewing Income and Concessions	It is unclear whether the £20 charge for blue badges is a one-off or annual charge - this should be clarified.	Reviewing Income and Concessions - Blue Badges	3. The respondent advised that they had no comment to make.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28053	An individual	6. Reviewing Income and Concessions	In a climate where benefits are becoming harder to access and those with disabilities are being more harshly treated by the government, charging for blue badges seems particularly unfair and may reduce access for people with disabilities. This is likely to have an increase the need to access higher costs services in the long run	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28054	An individual	6. Reviewing Income and Concessions	1. Disagree - doubt it actually costs £20 to administer a blue badge - £5 (max) is more reasonable.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28055	An individual	6. Reviewing Income and Concessions	2. Agreed - discounted for staff during working hours	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.

The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28085	An individual	6. Reviewing Income and Concessions	1. blue badge, punishing the most vulnerable in society, why not charge actual admin cost in this technological age.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28086	An employee of West Lothian Council	6. Reviewing Income and Concessions	A £20 charge for a Blue Badge is not unrealistic as most people who use a Blue Badge are in receipt of mobility benefits which are awarded in order to pay for services like this.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28087	An employee of West Lothian Council	6. Reviewing Income and Concessions	There are potential issues in charging for blue badges in terms of disability discrimination.	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28088	An individual	6. Reviewing Income and Concessions	Yes, charge for blue badges, Livingston appears to have an inordinate number of blue badges. Why? Why do blue badges also get free rail travel?	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28089	An individual	6. Reviewing Income and Concessions	I support the general principle of making those who can afford to, to pay for services (but also to maintain some free provision of services to older people.)	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28090	An employee of West Lothian Council	6. Reviewing Income and Concessions	The proposal for charging for blue badges should be based on ability to pay through a financial assessment.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28091	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging £20 for blue badges for those who are already on benefits or low incomes would cause issues?? C	Reviewing Income and Concessions - Blue Badges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.

28128	An individual	6. Reviewing Income and Concessions	I think that a £20 charge for blue badges is reasonable.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28129	An individual	6. Reviewing Income and Concessions	There should be a small charge for some of the frontline services we deliver - Charge for Blue Badges and lost Blue Badges.	Reviewing Income and Concessions - Blue Badges	1. The respondent advised that they agree with the proposal.	The £20 charge will be to cover the cost of administering blue badge applications as set out by the Scottish Government. We continually review what other local authorities charge for services to ensure that we remain fair and consistent.
28130	An employee of West Lothian Council	6. Reviewing Income and Concessions	Parking costs are expensive and if you want customers to visits partnership centres then we should not prevent customers using council services. Parking costs never benefit the customer, I would be wholly opposed to this move.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The possible introduction of car parking charges would apply to public car parks in certain locations. It is not envisaged that this would include parking at any partnership centres.
28131	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. That will be charge for the employees? For this pay which already have and struggle to every day expensive I don't think so it is a great idea	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28132	An individual	6. Reviewing Income and Concessions	Charging for car parks is a poor proposal. Raises very little income when you compare the cost for implementation and on going costs. You also push drivers to park indiscriminately which causes complaints and discussion. This is time consuming and sometimes costly. On the face of it, this makes sense but I think this is a poor proposal. All other proposals make sense. All other councils charge for blue badges. Why not WLC?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. All neighbouring council authorities charge for car parking.
28133	An employee of West Lothian Council	6. Reviewing Income and Concessions	SUPPORT CHARGES. CHARGING FOR CAR PARKS HAPPENS EVERYWHERE ELSE	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28134	An employee of West Lothian Council	6. Reviewing Income and Concessions	They often have the lowest income. Charging for car parks should not to apply to council employees who have little enough disposable income when pay rises are so low year on year.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28135	An employee of West Lothian Council	6. Reviewing Income and Concessions	Staff should never be asked to pay for parking.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28136	An employee of West Lothian Council	6. Reviewing Income and Concessions	1. Seems reasonable. 2. Could accept a notional sum of around £5 per month (Implemented at Glasgow City Council) for parking at terrace, Civic Centre. 3. Seems reasonable.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28137	An individual	6. Reviewing Income and Concessions	Council workers should not be charged for parking at work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28138	An individual	6. Reviewing Income and Concessions	Introduction of car parking charges is not a good idea - it forces people onto the nearby housing estates and causes congestion on local roads.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28139	An employee of West Lothian Council	6. Reviewing Income and Concessions	I don't agree that council staff should be charged for parking to come to work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28140	An individual	6. Reviewing Income and Concessions	There is little on street parking to charging for Council Parking for land, we the tax payers have paid for is double charging.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28141	An individual	6. Reviewing Income and Concessions	Who would enforce the payment for parking in council car parks? Would the cost of enforcement outweigh the potential income?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. All neighbouring council authorities charge for car parking.
28142	An employee of West Lothian Council	6. Reviewing Income and Concessions	To charge staff for car parking in a staff car park is ludicrous and should not be considered. This happened to some privately run NHS facilities and it's totally unfair to charge lower paid staff for parking as the cost of living is costly enough without paying to attend work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28143	An employee of West Lothian Council	6. Reviewing Income and Concessions	Council car parks should not be charged.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28144	An employee of West Lothian Council	6. Reviewing Income and Concessions	Don't see how charging for car parks would be effective and this would require staffing and monitoring...	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. All neighbouring council authorities charge for car parking.
28145	An individual	6. Reviewing Income and Concessions	Car use is near essential for some people and it is likely if car parking charges are introduced then on street parking will just increase.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28146	An individual	6. Reviewing Income and Concessions	Agree - charging for car parks, everyone else does it.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28147	An individual	6. Reviewing Income and Concessions	I disagree with charging for council car parks. Car users pay income tax, Vehical Excise Duty, BAT and fuel duty as well as council tax. I believe that car owners and users have made a large enough contribution to public finances without this being added to the list.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28148	An individual	6. Reviewing Income and Concessions	we certainly should not be paying to use a council car park	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28149	An individual	6. Reviewing Income and Concessions	By charging for parking in these areas, you are basically telling people they are not entitled to their health and wellbeing because they cannot afford to park in these areas.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28150	An individual	6. Reviewing Income and Concessions	charging for council car parks will drive away consumers so not a good idea	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28151	An individual	6. Reviewing Income and Concessions	I think the council should charge for car parking int there car parks although a reasonable charge	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28152	An individual	6. Reviewing Income and Concessions	charges for carparking would be welcomed for some as too many people want services for nothing,,,,	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28153	No Response	6. Reviewing Income and Concessions	Nominal fee for council car parks, staff to pay (deducted from their wage) for staff car parking, ie Civic Centre etc , eg. £2 per month. Other council car parks 50p per day token payment while generating an income.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28154	An individual	6. Reviewing Income and Concessions	I don't mind paying for parking as long as it is a reasonable amount.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

28155	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree with all of these points however I don't believe council staff should be paying to park to attend work but car parks should be charged for members of the public	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28156	An individual	6. Reviewing Income and Concessions	Council employees should also pay for parking at council car parks if public have to. This would also support carbon reduction.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28157	An individual	6. Reviewing Income and Concessions	Allowing Council staff use of all Council car parks to reduce staff claiming back parking fees	Reviewing Income and Concessions - car park charges	4. The council is already doing this.	Council staff should be using free council car parks when on council business including the Football Stadium car park at the Civic Centre.
28158	An individual	6. Reviewing Income and Concessions	Ridiculous to charge often the more vulnerable to get a bit of independence. Itâ€™s bad enough to pay for parking never mind council car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28159	An employee of West Lothian Council	6. Reviewing Income and Concessions	if staff could be guaranteed a dedicated space at their work (incl terrace)an annual fee of Â£35 would not appear unreasonable	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28160	An individual	6. Reviewing Income and Concessions	Charging for WLC car parks is bad news. Town centres are all ready on their knees (due to WLC policy of favouring Livingston) and you want to limit further reasons for people to use them?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28161	An employee of West Lothian Council	6. Reviewing Income and Concessions	Paid parking may cause issues with people choosing to park on the street instead where it is free.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28162	An employee of West Lothian Council	6. Reviewing Income and Concessions	While charging for car parks will bring in revenue, I think it is important not to charge too much for this. Maybe a daily fee rather than charging by the hour.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28163	An employee of West Lothian Council	6. Reviewing Income and Concessions	Council car parks should not be charging.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28164	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would find it unfair if WLC employees had to pay parking charges for coming to work !!!	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28165	An individual	6. Reviewing Income and Concessions	Charging for council car parks is most definitely a tax on the residents whose council tax already goes towards the up keep of them, in this respect people will be being for this service twice	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28166	An individual	6. Reviewing Income and Concessions	Dont agree with council car park charge	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28167	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree with paying for parking.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28168	An individual	6. Reviewing Income and Concessions	No car park charges	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28169	An individual	6. Reviewing Income and Concessions	With 2., the charges would have to be enough to meet any subsequent costs associated with problems caused by additional anti-social and illegal parking by those trying to find any free spot they can.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.

28170	An individual	6. Reviewing Income and Concessions	In terms of car parking, I suppose it is a revenue stream worth pursuing and anyway where are these free council car parks!.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28171	An employee of West Lothian Council	6. Reviewing Income and Concessions	Don't agree with car park charges.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28172	An individual	6. Reviewing Income and Concessions	Charging for car parks will reduce footfall in town centres and higher rents will deter tenants - is this worth it?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28173	An employee of West Lothian Council	6. Reviewing Income and Concessions	It is not clear what is meant by point 2. 'Introduction of charging for council car parks.' Does this mean charging for council officers to use the car park? Or charge members of the public to use the car park? Please provide clarification.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28174	An individual	6. Reviewing Income and Concessions	Parking charges seem reasonable as long as they are priced low and the Council is not greedy with what they plan to charge. Also consideration would be required on how this is enforced.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28175	An individual	6. Reviewing Income and Concessions	You could start with charging for the car parks at Livingston South and North stations and the like. A couple of quid a day is not a crippling amount for commuters and it would add up over the year.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations.
28176	An individual	6. Reviewing Income and Concessions	Charging for parking would require resources to either monitor barrier gates or police parking if a "pay and display" model is adopted. Will there actually be a net gain after these resources are deployed? It may also lead to more traffic congestion if more cars are parked on street to avoid the charge.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28177	An individual	6. Reviewing Income and Concessions	2. Agree with charging for council car parks - visiting other areas you are accustomed to paying such as in Edinburgh. As long as they fall in line with the other car parks in the surrounding area and are not more expensive e.g. 50p in Livingston per hour.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28178	No Response	6. Reviewing Income and Concessions	The council should not charge for car parks. some people use these for residential spaces as they cannot get parked at home, this may end in neighbour disputes.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28179	An individual	6. Reviewing Income and Concessions	I don't agree about introduction of charging for parking in council car parks as this will cost more than we get back and force shoppers and others to start parking on the streets near by.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that the business model likely to be used by the council can raise significant revenue.
28180	An individual	6. Reviewing Income and Concessions	agree with all of the above apart from the car park charges.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28181	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parks will move the problem to streets around the shopping areas.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28182	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would agree that WLC could charge for parking in the car parks to the public at the weekend but not when they are used by staff.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28183	An individual	6. Reviewing Income and Concessions	Everyone should pay council car parks and	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28184	An individual	6. Reviewing Income and Concessions	On your points above you do not mention if the charge for council car parks is for the public or for staff who require to park for work.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.

28185	An individual	6. Reviewing Income and Concessions	Can barely find a car park locally so where are these you would charge for? How much to put this into place, how much could you really expect to make back. Not good use of money.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks. Evidence shows that the business model likely to be used by the council can raise significant revenue.
28186	An employee of West Lothian Council	6. Reviewing Income and Concessions	Who would be subject to charges for parking at council car parks ? Staff ? Surely not !	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28187	An individual	6. Reviewing Income and Concessions	I hope these charges for parking are for people visiting the building. If it is for staff I think this will have a massive impact on where council staff park. The civic centre already removed the terrace car park away from the centre parking and people still need to park at the stadium, where will all the staff park if they can't afford to pay for parking? The roads will be filled with lines of cars all over west Lothian from staff cars parked to avoid paying fees thus increasing the likelihood of road traffic accidents	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28188	An individual	6. Reviewing Income and Concessions	I do not agree with charging for parking	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28189	An individual	6. Reviewing Income and Concessions	Charging at council car parks would not affect the community but just employees? This seems unfair to your own staff?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28190	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Charging for council car parks will encourage congestion in areas that are not council property. There is no staff to police these car parks and people who are more likely to use the car parks may not be in a position to pay fines etc, only damaging their financial position	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28191	An employee of West Lothian Council	6. Reviewing Income and Concessions	If there is any proposal to charge staff for parking, I'd suggest this is tiered based on the distance of a staff member's home from their place of work as there are undoubtedly individuals who could walk / cycle and others who have little option other than to drive. Also, could any staff charge for annual parking be done on a 'salary sacrifice' basis to gain tax / NI benefits?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There is no specific proposal to charge employees for parking.
28192	No Response	6. Reviewing Income and Concessions	Council workers should not be charged for parking their cars while attending work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28193	An individual	6. Reviewing Income and Concessions	No charge for Council car parks unless you wish to employ more traffic wardens!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28194	An individual	6. Reviewing Income and Concessions	Charging for car parking is a farce in small townsyou are cutting the place budget and expecting them to ticket cars parked illegally because of carpark charges?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28195	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parks - we are not a high tourist destination like Edinburgh - I question if these charges will bring sufficient funding to cover administration. Is it really worth it? If so, then Blue Badge Holders SHOULD ALSO BE CHARGED. Just because someone has a blue badge, why does this entitle to free parking? Buses are now fully accessible...it's effectively discrimination against non-disabled persons.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue
28196	An individual	6. Reviewing Income and Concessions	I don't agree with 1 but do agree with 2-4	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.

28197	An individual	6. Reviewing Income and Concessions	2) what about the average person that's just going to work	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28198	An individual	6. Reviewing Income and Concessions	I object to the idea of charging for council car parks. Staff already are suffering from minimal wage increases and have seen their standard of living suffer accordingly, to have to pay to park to come to work would be unfair on top of that, as I assume you mean all the car parks around council buildings.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28199	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parking is long overdue but funding can only be used for certain purposes under the Road Traffic Regulation Act 1984. Also, implementation of charging is a fairly onerous task which will require upfront resources. There are a range of other services that the council could significantly increase charges for but these are not mentioned.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. The scope for further charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28200	An individual	6. Reviewing Income and Concessions	Charging for council car parks would be alright if still cheaper than other car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28201	An individual	6. Reviewing Income and Concessions	2. I agree	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28202	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would agree with all points - Charging of council owned car parks at weekends, especially around livingston would be a good idea, however general public may not appreciate this.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28203	An individual	6. Reviewing Income and Concessions	Disagree with costs for parking in council car parks as there are not enough car parks for staff in our area.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28204	An individual	6. Reviewing Income and Concessions	I agree but would not agree with the car parks being effectively privatised. Example, there are no traffic wardens so you can park where you like and for as long as you like on Linlithgow main street as long as it is not on yellow lines. However if you overstay your time at the "privatised" car park at the cross you get a fine! There is also a problem identifying which car parks would be charged.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28205	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parks could lead to a reduction of people going into towns and using services, so less money in the local communities and the loss would greatly outweigh the income received from charges.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28206	An individual	6. Reviewing Income and Concessions	Agree with all of 1 to 4	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28207	An individual	6. Reviewing Income and Concessions	I don't think council staff should pay to park, but possibly pay & display for general public on streets & car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28208	No Response	6. Reviewing Income and Concessions	2. Self destructive	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28209	An individual	6. Reviewing Income and Concessions	Charging for parking would be detrimental to local small businesses. It would encourage drivers to visit out of town shopping centres	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28210	An individual	6. Reviewing Income and Concessions	Point 2 seems reasonable, there are always options to park and walk, park and ride, or public transport if folk don't want to pay this charge. Their choice.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28211	An individual	6. Reviewing Income and Concessions	Council car park charges will drive people out of smaller areas and into retail parks (look at the state Falkirk is in).	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

28212	An employee of West Lothian Council	6. Reviewing Income and Concessions	Don't think its a good idea to charge for council car parks, especially to staff as they have had a low pay rise and this just adds to their outgoings.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28213	An individual	6. Reviewing Income and Concessions	charging for parking is a questionable approach as it will potentially impact local businesses. If people have to pay to park, they are more likely to travel further to somewhere they don't have to pay.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28214	An employee of West Lothian Council	6. Reviewing Income and Concessions	It could cost a lot to collect charges for car parks and to enforce them.	Reviewing Income and Concessions - car park charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28215	An employee of West Lothian Council	6. Reviewing Income and Concessions	As a council employee it concerns me greatly about the idea of charging for council car parks. As ever this would effect those individuals who earn a moderate wage and would be an added stress in their life.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28216	An individual	6. Reviewing Income and Concessions	Items 2 - absolutely not! Charging those on the lowest incomes for items which help them to function in their daily life is not on, particularly when Westminster have already hit them hard. Grab from the poorest in times of need? NO!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28217	An individual	6. Reviewing Income and Concessions	Are the council going to charge staff for parking that would be unfair	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28218	An individual	6. Reviewing Income and Concessions	Rates of charges for parking need to consider those on low income.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28219	An employee of West Lothian Council	6. Reviewing Income and Concessions	Where can you go now without incurring charges for parking this should be done.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28220	An employee of West Lothian Council	6. Reviewing Income and Concessions	All of the above mentioned are good ideas, However, what about charging for residents parking? Some streets in West Lothian are Jam Packed. .	Reviewing Income and Concessions - car park charges	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28221	An individual	6. Reviewing Income and Concessions	2. This would probably empty local towns even more than they currently are, meaning less people using local shops and businesses. Especially older people who can get free bus to Livingstone or Edinburgh.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28222	An employee of West Lothian Council	6. Reviewing Income and Concessions	Why should the council provide the provision of free parking? This is a charge that should be implemented, as well as the admin charge for blue badges.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28223	An individual	6. Reviewing Income and Concessions	Please don't charge for council car parks - this will just result in people leaving their cars in housing estates and road sides.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28224	An individual	6. Reviewing Income and Concessions	Parking charges should be kept to small amounts but could be spread to a wide area (use City of Edinburgh as an example of how NOT to do it)	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28225	An individual	6. Reviewing Income and Concessions	I would be in favour of paying for Council car parks at weekends, but it would be unfair to consider charging staff to park while at their place of work.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.

28226	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for council car parks is fine - it might even encourage alternative transport for council workers.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28227	An individual	6. Reviewing Income and Concessions	Why charge council car parks so council workers get charge for going to work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28228	An employee of West Lothian Council	6. Reviewing Income and Concessions	Point 2 - agree but not for charges to staff	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28229	An individual	6. Reviewing Income and Concessions	there should be no charging in council car parks	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28230	An employee of West Lothian Council	6. Reviewing Income and Concessions	A charge for council car parks for staff would be akin to varying terms and conditions of the employment contract by the back door by having to make this payment back to the Council. The Civic Centre has been built in an area that is poor accessible by public transport. To penalise a person for taking their car is a step too far given the isolated nature of the building.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28231	An employee of West Lothian Council	6. Reviewing Income and Concessions	It's not clear which car parks the charges would affect - does this mean that employees would have to pay for the terrace, for example..? There's also a risk that this will affect local businesses as they see customers travel further if it means they don't have to pay to park.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28232	An individual	6. Reviewing Income and Concessions	Council parking charge is ludicrous!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28233	An individual	6. Reviewing Income and Concessions	People already pay council tax for council services... they should not then need to pay for parking to access council services!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28234	An individual	6. Reviewing Income and Concessions	A small fee for car park use would be better than taking money in fees from the old or disabled. I use my car often and expect to have to pay to park most places.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28235	An individual	6. Reviewing Income and Concessions	Charging for council car parks sounds wonderful, but will just lead to more on-street parking and fewer people using local shops. Perhaps the charges might be structured so that short term parking is free, but longer term parking is charged for (this has been successfully implemented in other local authorities to encourage town centre retention of shops)	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28236	An individual	6. Reviewing Income and Concessions	If you charge for car parks you will then need wardens as people will not use them and cause a nuisance on nearby streets.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28237	An individual	6. Reviewing Income and Concessions	2 - will this cause on street parking issues with people trying to park for free?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28238	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? 2.Introduction of charging for council car parks - feasibility study to gauge whether we could decriminalise parking in WL and employ traffic wardens. Does that include charging employees to park whilst at their work, will the charges be applied to the accessible bays also.	Reviewing Income and Concessions - car park charges	4. The council is already doing this.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking. The feasibility of any income proposal will be considered as part of the project management process to review and implement changes. In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28239	An individual	6. Reviewing Income and Concessions	Charging for car parks could make street congestion worse. Commuters who use them for long stay during the day will park in the street or use other car parking spaces.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28240	An individual	6. Reviewing Income and Concessions	Again I see lots of cars doing this and also in the main shopping areas and parking on pavements and double yellows. The revenues to be had from this would probably be over Â£5000 per day. I don't understand why this is not being done. It is very difficult for disabled people and mother with push chairs to get around and not to mention the safety aspects.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28241	An individual	6. Reviewing Income and Concessions	Have concerns that charging for council car parks will have an impact on the footfall to the High Street of the smaller town centres.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28242	An individual	6. Reviewing Income and Concessions	Car parks acceptable	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28243	An individual	6. Reviewing Income and Concessions	SAVE MONEY BY: Charge for staff parking.	Reviewing Income and Concessions - car park charges	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28244	An individual	6. Reviewing Income and Concessions	I also disagree with paying for parking.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28245	An individual	6. Reviewing Income and Concessions	I totally disagree with council car parking charges. People earn little enough. Unless it is for staff who earn in excess of Â£30,000.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28246	An employee of West Lothian Council	6. Reviewing Income and Concessions	Town centre shopping has taken enough of a hit in recent years without parking being affected. If you make this change, you may find certain areas start to lose even more footfall	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28247	An individual	6. Reviewing Income and Concessions	People who can afford to pay should pay for resources. I don't agree with parking charges, especially if you have to leave your car all day.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28248	An individual	6. Reviewing Income and Concessions	If you charge for workplace parking this is yet another drain on staff morale. How much income will be generated by charging for parking versus staffing the car parks to do this or contracting out to dubious parking companies. This will drive people away from West Lothian as a venue	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28249	An employee of West Lothian Council	6. Reviewing Income and Concessions	I also think making money out of charging for the use of car parks is not a bad idea, if the money is used to repair roads or the up keep of car parks and other council resources.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28250	An individual	6. Reviewing Income and Concessions	Small car parking charges would be acceptable but keep it in house.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that an external business model would generate more income for the council than using an internal model of delivery.
28251	An individual	6. Reviewing Income and Concessions	2. Council parking should be free of charge. Employment of enforcement agents, and the related administrative and managerial costs for this, combined with hidden costs, such as the potential impact of reduced footfall for local business and subsequent closure of marginal businesses with loss of tax revenue are likely to counter any expected profits from this.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28252	An individual	6. Reviewing Income and Concessions	Charging for council car parks will impact on local businesses Don't agree that only those that can afford to pay should be required to pay. Just because people have been careful and saved, why should they be penalised?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate.

28253	An individual	6. Reviewing Income and Concessions	2. All that this will lead to is empty car parks and people parking in the streets even more. Which car parks. Imagine the choice was pay to park at Beecraigs or drive on for another 20 minutes and get it free at helix park falkirk?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28254	An individual	6. Reviewing Income and Concessions	I find the idea of charging for council car parks highly objectionable. I do agree however that charging for certain care services, on an assessed affordability basis, is sensible.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28255	An individual	6. Reviewing Income and Concessions	Charging in council car parks is not the way forward.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28256	An individual	6. Reviewing Income and Concessions	I would not have a problem with paying 50p an hour for Council parking, would not be happy if it was up To £1.50 like some of the car parks at the shopping centre.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28257	An individual	6. Reviewing Income and Concessions	2. 100% disagree - False economy based on effects on town centre footfalls, effect on local businesses and tourism. Motorists already avoid the Vennel car park where possible despite only nominal charges. Big mistake!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28258	An employee of West Lothian Council	6. Reviewing Income and Concessions	Feel a small charge would be accepted by the public.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28259	An individual	6. Reviewing Income and Concessions	Do not agree with paying for using a council carpark.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28260	An employee of West Lothian Council	6. Reviewing Income and Concessions	A introduction of a charging for all council car parks is the way forward	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28261	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would not use a council car park if charges were applied and would find alternative parking.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28262	An individual	6. Reviewing Income and Concessions	All the Council car parks I use I have to pay a parking charge	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28263	An individual	6. Reviewing Income and Concessions	2 - will displace parking to side streets	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28264	An employee of West Lothian Council	6. Reviewing Income and Concessions	Would this include car parks that council staff use? if so its not fair to expect them to pay to come to work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28265	An individual	6. Reviewing Income and Concessions	Which council car parks?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28266	An employee of West Lothian Council	6. Reviewing Income and Concessions	The car park charge should not exceed the lowest private car park charge in that area.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28267	An individual	6. Reviewing Income and Concessions	As to charging for council car parks, this would be very unjust to Council tax payers.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28268	An employee of West Lothian Council	6. Reviewing Income and Concessions	A modest charge for council car parks makes sense.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

28269	An employee of West Lothian Council	6. Reviewing Income and Concessions	However, with the council struggling to attract staff in certain areas, any proposal to charge for council car parks may be counterproductive.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28270	An employee of West Lothian Council	6. Reviewing Income and Concessions	As a person who lives and works in West Lothian I feel it would be unfair to introduce parking charges at offices for staff particularly seeing as public transport is not great within West Lothian. In terms of doing it for town centres I think this is reasonable for commercial access.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28271	An employee of West Lothian Council	6. Reviewing Income and Concessions	I don't think charging people for parking is a good idea. People pay their taxes and can't even park in the council for free? Also would that mean charging staff members for coming to work?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28272	An individual	6. Reviewing Income and Concessions	I don't know what is meant by charging for council car parks means but if it means charging council employees to park their car to come to work I would be totally against this.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28273	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Introduction of charging for council car parks - agree with this but not at to high a rate	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28274	An employee of West Lothian Council	6. Reviewing Income and Concessions	not sure about the charge for council car parking (would this mean workers would have to pay).	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28275	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Agree councils should charge for public car parks. Need to be careful this doesn't discourage people from shopping in town centres or create parking issues in neighbouring streets.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28276	An employee of West Lothian Council	6. Reviewing Income and Concessions	The council car park charge would hit employees hard that cannot access public transport due to geography or other factors. Perhaps a charge over a certain time for car parks to ensure that regular meeting attendees are not compromised with a charge.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28277	An individual	6. Reviewing Income and Concessions	Charging for council car parks could cause issues in towns with users opting to park on roads and in housing estates, which may necessitate the reintroduction of traffic wardens at a cost. This could also have an adverse effect on the use of town centres.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28278	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Who suffers because of this? Council employees being charged to park at their own work? Residents requiring assistance from their council (probably due to services already being cut)?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28279	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for council car parks could be an issue for employees where there are no other alternatives and no employee car parking facility.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28280	An individual	6. Reviewing Income and Concessions	2. Do not object to charges for public council car parks but object to any charges for staff council car parking	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28281	An individual	6. Reviewing Income and Concessions	2 council car parks yes charge	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28282	An individual	6. Reviewing Income and Concessions	Re 1, 2 & 4 : Should not charge for these services.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28283	An individual	6. Reviewing Income and Concessions	Charging for car parks would exacerbate the problems of street parking. Falkirk Council imposed charges at a large car park in Kemper Avenue - it lies virtually empty and the streets are full of parked cars.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28284	An individual	6. Reviewing Income and Concessions	However it is my experience that parking charges discourage people from using shops in the area local to such car parks. Introduce car parking charges, lose customers from the area, shops close, area becomes less attractive, more shops close, fewer people shop in the area, income from commercial properties falls; a guaranteed way to boost footfall in the out-of-town shopping centres.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28285	An individual	6. Reviewing Income and Concessions	2. Make it a fair, low price. Don't milk people	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28286	An individual	6. Reviewing Income and Concessions	Charges for parking, within reason, would be an excellent way to generate income during working hours.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28287	An individual	6. Reviewing Income and Concessions	Car park charging would be ok as long as your own staff were exempted from paying.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28288	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. The terrace could generate a lot of income by charging in the evenings and weekends, however would staff be charged during the day for coming to work? With high chance of no pay rise and increased Council Tax this would seem unfair.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28289	No Response	6. Reviewing Income and Concessions	Fair enough although car park is a difficult one for employees who have to use their car and for those attending regular meetings. Maybe for over a certain amount of time-to exclude most meetings?	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28290	An individual	6. Reviewing Income and Concessions	Charging for council carpark is not a good idea, it will lead to off street parking and congested side roads.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28291	An individual	6. Reviewing Income and Concessions	Does that mean school workers would be charged to park in school car parks?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28292	An individual	6. Reviewing Income and Concessions	2. No disagreement.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28293	An individual	6. Reviewing Income and Concessions	The Council should at least double its aspiration for income during the financial plan period. Things to consider are: â€¢ Charging for all West Lothian owned car parks (Monday to Saturday 8am to 4pm).	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28294	An individual	6. Reviewing Income and Concessions	Paying for parking can be revenue raising. It also creates jobs. WLC should look at decriminalised parking model.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28295	An individual	6. Reviewing Income and Concessions	I would not support idea 2 [car park charges]	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28296	An individual	6. Reviewing Income and Concessions	Charging for council car parks? This effectively amounts to charging local people twice. Not a good idea.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28297	An individual	6. Reviewing Income and Concessions	Don't agree with paying for council car parks	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28298	An individual	6. Reviewing Income and Concessions	increase parking massively, like Edinburgh, to discourage car usage	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28299	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree although do not introduce charging for staff car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28300	An employee of West Lothian Council	6. Reviewing Income and Concessions	Council carparks should only be chargeable where council services are not in place ie. general shopping/business areas would be ok but not ok to charge around hospitals/schools/civic centre etc. as this just makes it less accessible.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.

28301	An employee of West Lothian Council	6. Reviewing Income and Concessions	I disagree if this charge for council car parks included the staff only car parks - I feel this would be unfair to charge staff to park at work.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28302	An individual	6. Reviewing Income and Concessions	2. I am happy to pay to use a car park.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28303	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think it is very poor for the council to even consider charging staff for parking. Some staff are on such low pay that every penny counts and this is a wrong move.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28304	An individual	6. Reviewing Income and Concessions	I agree the council needs to introduce charges for council car parks. Every other council already does it	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28305	An individual	6. Reviewing Income and Concessions	No way!!! Charging people to park to visit council services is another joke surely?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28306	An individual	6. Reviewing Income and Concessions	Charging for council car parks is a big no!! The impact that will have on people's pocket every day just to go to work the public transport is horrendous, some people have no choice. Car are already parked everywhere in Livingston on grass verges etc....cost for repairing back to the council. Terrible idea. .	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28307	An individual	6. Reviewing Income and Concessions	Number 2 - most already are are they not? Means testing old people for services - really?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Charges are not applied to the majority of council car parks currently.
28308	An individual	6. Reviewing Income and Concessions	If charges are applied to council car parks, even a small amount I feel this also would help generate income.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28309	An individual	6. Reviewing Income and Concessions	No charging for hospital car parks must remain	Reviewing Income and Concessions - car park charges	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	NHS Lothian determines parking charges for St John's car park, not West Lothian Council.
28310	An individual	6. Reviewing Income and Concessions	2. You already do	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28311	No Response	6. Reviewing Income and Concessions	2. I don't believe you should charge your own staff to park at their own workplace.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28312	An employee of West Lothian Council	6. Reviewing Income and Concessions	It would be appropriate to charge for parking in line with the stance taken by other local authorities but these facilities would require appropriate management and enforcement and this would need to be a consideration given the costs that may be associated in undertaking these roles. There is a difference between charged car parking and the provision of decriminalised parking that should be made apparent when considering these means.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28313	An individual	6. Reviewing Income and Concessions	You should charge for car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28314	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would be opposed to having to pay to park my car in order to come to work. I also think this would cause more local congestion as people will try to find a place to park nearby where they don't need to pay.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28315	An employee of West Lothian Council	6. Reviewing Income and Concessions	parking charges are a good idea,	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28316	An individual	6. Reviewing Income and Concessions	Charging in council car parks ok at weekends but during week a lot staff use council car parks to park in for work hours, either at their own place of work or when visiting another office.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28317	An individual	6. Reviewing Income and Concessions	2. this depends because in many areas of West Lothian, I don't believe business is particularly thriving and this could deter people further from shopping locally - in wealthy areas such as Linlithgow, I support charges but perhaps not other towns in West Lothian with less affluent populations	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28318	An employee of West Lothian Council	6. Reviewing Income and Concessions	With a number of car parks in West Lothian already charging, I don't see an issue with charges being introduced for those run by the council.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28319	An individual	6. Reviewing Income and Concessions	I don't think we should be charged for council car parks,	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28320	An individual	6. Reviewing Income and Concessions	Do not agree on any of the above, maybe on point 3	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28321	An individual	6. Reviewing Income and Concessions	who would collect there? If staffing reducing how do you foresee dealing with issues where existing staff are under further pressure to do more jobs?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28322	An individual	6. Reviewing Income and Concessions	2 no	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28323	An individual	6. Reviewing Income and Concessions	No charging for Council car parks	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28324	An employee of West Lothian Council	6. Reviewing Income and Concessions	Strongly DISAGREE with the proposal for charges to park in council car parks!! In England many areas charge for parking and this can be as much as £20-30 per week. People would park elsewhere and would be vulnerable to being fined by private parking operators.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28325	An individual	6. Reviewing Income and Concessions	2. I disagree with charging for council car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28326	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charge for council car parks for employees??? absolutely ridiculous	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28327	An employee of West Lothian Council	6. Reviewing Income and Concessions	If it means charging your own employees for the car parks while they are at work this seems like you are imposing a penalty on them for working.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28328	An employee of West Lothian Council	6. Reviewing Income and Concessions	In Bathgate, most of the car parks in the town centre are used by West Lothian Council staff Monday to Friday all day. If charges are to be introduced for using these, this will have a significant impact on the purse strings of those employees, who are already feeling the squeeze of minimal/no pay rises over these last few years. Do you intend to give staff a free pass or significant discount?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28329	An individual	6. Reviewing Income and Concessions	Would not pay car park fee.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28330	An individual	6. Reviewing Income and Concessions	2. Council car park charges - again likely to hit the most vulnerable & would like to see some cost/benefit analysis s.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28331	An individual	6. Reviewing Income and Concessions	2 I'm against further car parking charges	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28332	An employee of West Lothian Council	6. Reviewing Income and Concessions	Council employees should not be expected to pay for parking at their place of work. Charges should apply at weekends only with exception to employees.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28333	An employee of West Lothian Council	6. Reviewing Income and Concessions	I can only really answer from my point of view and the car park charges if this is brought in how would it affect coming to work would I now be expected to pay for parking to come to the Civic Centre to work? A lot of what I have read seems to deal with reduction in staffing which includes me and also pay rises will not be large if at all so my concern would be would I then have to find money which I don't have to pay to come to work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28334	An individual	6. Reviewing Income and Concessions	Parking fees would have a positive effect on car use and increased exercise from walking or cycling	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28335	An individual	6. Reviewing Income and Concessions	Please charge for use of council car parks. This should include staff who travel to work by car in order to encourage use of public transport.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28336	An individual	6. Reviewing Income and Concessions	Parking should be free on council car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28337	An employee of West Lothian Council	6. Reviewing Income and Concessions	Are you having a laugh. The council has a fleet of hundreds of vehicles that park in public car parks resulting in the public having to park wherever are you suggesting payment for parking at work?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28338	An individual	6. Reviewing Income and Concessions	Charging for parking is a good idea - preferably not "gifted" to private parking companies	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28339	An individual	6. Reviewing Income and Concessions	Why charge council employees for parking, we are already under paid by national standards. This would be one step too many.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28340	An individual	6. Reviewing Income and Concessions	Charging for council car parks is just another attack on the motorist that should be avoided if possible.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28341	An individual	6. Reviewing Income and Concessions	Quite sad to see payment for parking being introduced. Does West Lothian really want to become like Edinburgh? Short period 15min parking should be free. Particularly for disabled or elderly as they often need their cars and can't walk long distance and may need to park in multiple locations in the one day.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28342	An individual	6. Reviewing Income and Concessions	Bit mean to charge for car parking.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28343	An individual	6. Reviewing Income and Concessions	I do not agree with charging for council car parks	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28344	An individual	6. Reviewing Income and Concessions	Charging a council car parks may penalise the most vulnerable in society and put more pressure on street parking in residential areas. To cover the costs in collecting and monitoring payments, charges are likely to be high. Please remember that this area is not well served by public transport links when traveling through West Lothian	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28345	An employee of West Lothian Council	6. Reviewing Income and Concessions	Do not wish to pay for parking when at work. I live in Edinburgh and do not have another means of getting to work. Suggest pay at weekends.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28346	An individual	6. Reviewing Income and Concessions	Agree, but not charging for workplace carparks for staff who use cars for work	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28347	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Charging for council car parks - penalising workers or those who use town centres which will just encourage more dangerous parking on the street, causing obstructions to traffic.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28348	An individual	6. Reviewing Income and Concessions	2. Agree as other councils already do this and West Lothian has a lot of visitors so why not get some benefit from this.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28349	An employee of West Lothian Council	6. Reviewing Income and Concessions	For car parks absolutely cover the management costs.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28350	An individual	6. Reviewing Income and Concessions	Council car park charges should be an agreed amount	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28351	An employee of West Lothian Council	6. Reviewing Income and Concessions	what about staff parking is that subject to payment as well?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28352	An individual	6. Reviewing Income and Concessions	Charges for car parking	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28353	An individual	6. Reviewing Income and Concessions	Charges need to be reasonable eg. Council car park charges 50p per hour as opposed to prices in private carparks.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28354	An individual	6. Reviewing Income and Concessions	charges for council parking also acceptable	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28355	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for cap parks - not good - will staff be charged - will it stop customer entering buildings??	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28356	An individual	6. Reviewing Income and Concessions	I agree that there should be a charge for council car parks as it will possibly stop the public from parking in the car parks meant for the council.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28357	An individual	6. Reviewing Income and Concessions	The introduction of charging for council car parks will be unpopular, puts those working at the civic centre at a disadvantage and will create a problem with regards to parking in surrounding residential areas etc. Staff are already suffering with a 1% pay increase against a backdrop of 3% inflation. Those who are on a low wage will suffer disproportionately. The council needs to show that they value their staff and charging to pay to work is not a way to do this. This is the type of penny pinching mentality that back fires on organisations. Ryanair and its treatment of pilots is an example. The council still needs to remain competitive against other organisations including the private sector to attract the right staff. It maybe create a saving but the message it sends out to staff could be detrimental.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28358	An individual	6. Reviewing Income and Concessions	I agree however would like to ask if on top of reduced income, a plan to remove terms and conditions and allowances are you also planning on charging staff to park at work - in the end the result will be that you will have staff that actually can no longer afford to work.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28359	An individual	6. Reviewing Income and Concessions	Charging for car parking is a good way of generating income, if a tad unpopular,	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

28360	An individual	6. Reviewing Income and Concessions	I think it is a good idea to charge car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28361	An employee of West Lothian Council	6. Reviewing Income and Concessions	definitely charge for car parks	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28362	An individual	6. Reviewing Income and Concessions	Council staff should not need to pay for parking in a council car park.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28363	An employee of West Lothian Council	6. Reviewing Income and Concessions	I strongly disagree with parking charges for staff unless a supplementary wage increase is implemented to accommodate what is effectively a cut in wages. This could also be seen as a unilateral material change in terms and conditions.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28364	An individual	6. Reviewing Income and Concessions	Strongly disagree on parking charges for council car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28365	An individual	6. Reviewing Income and Concessions	Car parking charges agreed. There is no right to free parking - that land could have been used for something productive so motorists should pay. Ensure there is the option of cheap short term parking - ie 30 minutes.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28366	An individual	6. Reviewing Income and Concessions	Services should be means tested Charging for council car parks is effectively reducing council employees wages	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28367	An individual	6. Reviewing Income and Concessions	if charging for council car parks comes into place will there be barriers put up at for the flats at the high street in Linlithgow to stop people parking in residents spaces	Reviewing Income and Concessions - car park charges	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
28368	An individual	6. Reviewing Income and Concessions	Keep parking free.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28369	An employee of West Lothian Council	6. Reviewing Income and Concessions	How much are we talking about for car parks?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	This will be subject of a tender exercise.
28370	An employee of West Lothian Council	6. Reviewing Income and Concessions	2 - This will be an effective decrease in salary for lots of staff. This could make the council much less attractive to potential employees. I would personally be in favour as someone who does not use their car and thinks it might encourage a healthier approach to how people get to work. The more people walking and cycling to work the better.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28371	An individual	6. Reviewing Income and Concessions	Regarding 2. above - I trust this does not include staff council car parks?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28372	An individual	6. Reviewing Income and Concessions	2. It seems inevitable but then next you will say your partners can run the service cheaper for you. The way that is done is by increasing the parking charges for those who use the car parks.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28373	An individual	6. Reviewing Income and Concessions	The council should also charge for on-street parking in busy areas (like Linlithgow) to generate income but also to reduce congestion. Fines could also help increase revenue.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28374	An individual	6. Reviewing Income and Concessions	On-street parking charges and fines would generate some income and be a positive thing in towns where there can be problems with congestion and provision of parking.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28375	An individual	6. Reviewing Income and Concessions	I don't agree with council car park charges it's probably mostly staff that will use them and they would have to pay to attend work	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28376	An individual	6. Reviewing Income and Concessions	As long as staff don't need to pay to park in council car parks!	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28377	An individual	6. Reviewing Income and Concessions	Please consider parking violation charges as an option for income. Preferably by legitimate council employed traffic wardens not from a private company.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28378	An individual	6. Reviewing Income and Concessions	1, 3 and 4 agreed 2 - disagree. To charge for car parking will discourage people from using the facilities and cause issues on surrounding roads.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28379	An individual	6. Reviewing Income and Concessions	Cannot support 2 and 4 or ageing population fees and charges. All of this is far too vague to even offer a basic response never mind anything more informed.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28380	An individual	6. Reviewing Income and Concessions	Some limited charging for council parking areas is reasonable with every user being expected to pay something, even those with blue or disabled badges.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28381	An individual	6. Reviewing Income and Concessions	car parking yes if it was minimal .	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28382	An employee of West Lothian Council	6. Reviewing Income and Concessions	Would not want the staff car parks to be charged as that would be like a tax to attend work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28383	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging council employees for parking is a nonsense. Unless you're hoping to lose more staff through this initiative?	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28384	An employee of West Lothian Council	6. Reviewing Income and Concessions	Senior management with access to the civic car park should pay a monthly charge for this convenience. Ordinary members of staff should not need to pay to come to work.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28385	An employee of West Lothian Council	6. Reviewing Income and Concessions	Unclear what is meant by 'Council Car Parks', but should not include those used by employees in the course of their work, or at libraries or swimming centres.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28386	An individual	6. Reviewing Income and Concessions	2. Don't agree with parking charges	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28387	An individual	6. Reviewing Income and Concessions	I would suggest a charge for all West Lothian Council owned car parks, including to staff using them, is brought in eg Monday-Saturday 8am-5pm, free to blue badge holders. Such funds could offset the costs currently incurred from subsidised bus services.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28388	An individual	6. Reviewing Income and Concessions	Oh come on isn't parking bad enough?	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28389	An employee of West Lothian Council	6. Reviewing Income and Concessions	The introduction of charging for Council car parks would only incur people stopping using the car parks and finding other places to leave their cars which might not always be in the best positions.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28390	No Response	6. Reviewing Income and Concessions	Completely in agreement with this, other Council's charge for council car parks. Private car parks are chargeable so why not. This will assist with costs for upkeep, gritting etc.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28391	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would be concerned about having to pay to come to work, I live outwith West Lothian and the extra cost would have a big impact on my finances, given the minimal pay rises this would be like a cut in pay for me.	Reviewing Income and Concessions - car park charges	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations. There is no specific proposal to charge employees for parking.
28392	An employee of West Lothian Council	6. Reviewing Income and Concessions	Don't agree with proposal to introduce charging for council car parks. This impacts considerably on visitors to West Lothian who come for the most part for shopping and leisure - to spent money.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28393	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes probably the car park charge should take effect	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28394	An individual	6. Reviewing Income and Concessions	Disagree with charging for council car parks- people should be able to visit council buildings without being charged.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks.
28395	An individual	6. Reviewing Income and Concessions	I agree with the principle reasonable car park charges but please be aware of the need for drop off/pick up spaces eg for children's activities.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28396	An individual	6. Reviewing Income and Concessions	Council car parks, what does this include? a care park that is essential for people to park there cars for when they get home also? I am sure no one would pay to park at there own property so there could be a big uproar about that and not worth it at all.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks. Evidence shows that the business model likely to be used by the council can raise significant revenue.
28397	An individual	6. Reviewing Income and Concessions	Charge for all car parks and install meters on all high streets.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28398	No Response	6. Reviewing Income and Concessions	Council should chRge for commuter car parks and install meters in all High Streets. This would have side benefit of making short term parking more available.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28399	No Response	6. Reviewing Income and Concessions	I am not in favour of charging in council car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28400	No Response	6. Reviewing Income and Concessions	2. Agree charges to council car parks, similar to Linlithgow Burgh Halls car park. Would need to be monitored.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28401	An individual	6. Reviewing Income and Concessions	Charging for all West Lothian owned car parks (Monday to Saturday 8am to 4pm). This is money that could be directed as a contribution to subsidising bus services.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28402	An individual	6. Reviewing Income and Concessions	item 2 ok but please provide some and don't sub let to NCP.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28403	An individual	6. Reviewing Income and Concessions	2. Disagree, as a person involved in a traders' association, our members find the drop in footfall and business a challenge. The result of this can be seen in the increase in the number of empty shop premises. Charging for council car-parks in towns and villages could only make this trend worse. Different perhaps in country parks and such (as tourist attractions do), where a charge would be more appropriate.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks. Evidence shows that the business model likely to be used by the council can raise significant revenue.
28404	An individual	6. Reviewing Income and Concessions	No to parking fees! These have been proven to have a knock on effect to local businesses. Bad idea	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28405	An individual	6. Reviewing Income and Concessions	A review of the surrounding area particularly residential areas should also be performed so as not to impact parking there as a result of this .	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28406	An individual	6. Reviewing Income and Concessions	Happy to pay for car parking.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28407	No Response	6. Reviewing Income and Concessions	I suspect that the cost of policing and collecting parking charges would outweigh the revenue generated.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28408	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parking will reduce people using the facility and lower income people this would affect greatly.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28409	An individual	6. Reviewing Income and Concessions	Would the income from council car parks outweigh the cost of managing them? Charging for chargings sake makes no sense.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28410	An individual	6. Reviewing Income and Concessions	Council staff should not have to pay for parking if they are at work.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28411	An individual	6. Reviewing Income and Concessions	No problem in paying for council car parks and also introduce charges at other free car parks and street parking eg Linlithgow High Street after giving a free hour's parking.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28412	An individual	6. Reviewing Income and Concessions	Introducing these charges just shifts the problems to other areas. Eg charging for car parks leads to more on street parking and more problems	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28413	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for car parks could cause more financial strain on employees who require to use these when coming to work and could also mean staff having to leave their place of work periodically to feed a meter	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28414	An individual	6. Reviewing Income and Concessions	Charging for parking ridiculous	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28415	An employee of West Lothian Council	6. Reviewing Income and Concessions	Clearer information on what car parks are Council run and proposed charging d be needed before the public can comment in a constructive manner, up as usual with the Council the information is so vague to be pretty much useless.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
28416	An individual	6. Reviewing Income and Concessions	I cannot argue against any of the above proposals but would ask that charges for car parks should be at a reasonable cost as you don't want to stop people coming to a town because the car parking charges are too much.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28417	An individual	6. Reviewing Income and Concessions	Charging for parking would require policing, thereby employing someone to do this, so not much saving there.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party.
28418	An individual	6. Reviewing Income and Concessions	charging for parking in council car parks is difficult as people attending the building should not have to pay however those using as it more convenient for other activities should be charged especially where the car park is small e.g. Bathgate and Armadale partnership centres are difficult to get a space and in Bathgate many fail to obey the recently erecting stating is for customers only.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks. Evidence shows that the business model likely to be used by the council can raise significant revenue.
28419	An individual	6. Reviewing Income and Concessions	Good idea to charge for council car parks as this may prevent commuters from taking up valuable spaces all day and allow town users access.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28420	An individual	6. Reviewing Income and Concessions	With regard to number 2, I would advocate the use of some form of charges for all staff who benefit from having access privileges to controlled and managed council car parks e.g. teachers at all schools; staff at civic centre and terrace car park, Strathbrock etc.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28421	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for council car parks will reduce the numbers of users and move parking to surrounding streets. An inability to park for free will reduce footfall in the town centres leading to an increase in the number of empty units and a reduction in rental income.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28422	An individual	6. Reviewing Income and Concessions	Where are there council car parks???	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	This document is the first stage of public consultation. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
28423	An employee of West Lothian Council	6. Reviewing Income and Concessions	Most Councils charge for car parks but with reductions for those purchasing weekly/ monthly permits etc	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28424	An individual	6. Reviewing Income and Concessions	You can't not pay council workers cost of living then charge them to use car parks.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28425	An employee of West Lothian Council	6. Reviewing Income and Concessions	Against council employees having to pay to attend work by charging for car parks charges to council residents should be in forced if the get a service they should have to pay for it or be evicted	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28426	An individual	6. Reviewing Income and Concessions	The council should encourage visitors and therefore local spending. Car parking charges discouraged this	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28427	An individual	6. Reviewing Income and Concessions	Any charging needs to be paid upfront otherwise you spend time and money trying to recover. Asking staff to pay for parking when there have been no real pay increasesm for years seems unfair. Perhaps those with access to the Civic Centre car park should have this.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28428	An individual	6. Reviewing Income and Concessions	Car park charges need to be minimal as people will seek parking elsewhere and may cause hazards	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28429	An employee of West Lothian Council	6. Reviewing Income and Concessions	However the introduction of charging for Council car parks would be very difficult for staff as I do not know where I would park in Bathgate as there is no 'staff' parking near any of our buildings so I would not be in favour of this unless staff received access privilage that were free of charge.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28430	An individual	6. Reviewing Income and Concessions	Charging for car parks for time in excess of say half an hour would make sense.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28431	An individual	6. Reviewing Income and Concessions	Disagree with car park charging unless this is aimed at discouraging use of private cars.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28432	An employee of West Lothian Council	6. Reviewing Income and Concessions	Is the Council considering introducing car park charges at all of its car parks even within Country Parks (some of which do not have public transport to them)? How will this be managed? Will the income go to the Parks & Woodland budget to help with maintaining the facility? The public could be more acceptable of this if it was guaranteed that this was the case, even it was to go to a central pot but it was explained that this was contributing towards the running cost of the specific Parks it was collected in.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	The possible introduction of car parking charges would apply to public car parks in certain locations and not all council car parks. Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28433	An individual	6. Reviewing Income and Concessions	How are the car parks to be managed? Which car parks?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28434	An individual	6. Reviewing Income and Concessions	Agree with charging for parking at weekends to generate income	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28435	An individual	6. Reviewing Income and Concessions	I would support pay and display public car parks. West Lothian is one of the very few areas where this doesn't already happen and in the circumstances it is justified.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28436	An individual	6. Reviewing Income and Concessions	I think all council car parks should be charged, this includes where council staff utilise any facilities and should be charged at the same rate as other West Lothian citizens.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28437	An individual	6. Reviewing Income and Concessions	Will council employees have to pay parking fees during working hours. If yes, disagree with this if service frequency and costs in public transport are not substantially improved.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28438	An employee of West Lothian Council	6. Reviewing Income and Concessions	I don't see a problem introducing a "reasonable" charge for council car parks but don't follow Edinburgh's lead and force families to spend 45 minutes to an hour on one of those awful trams to get into the city because you have to take out a second mortgage to park in Newington or Corstorphine for half an hour. Again though, you could probably control council car parks better and make a small fortune of the parasites that choose to use disabled spaces as they can't be bothered to walk an additional 10 to 15 metres.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28439	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	I have been forced to move to council building as a place of work, I would be unhappy to pay to come to work, I have to leave and return to the car park many times a day. There is no available car park nearby.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28440	An individual	6. Reviewing Income and Concessions	No real issue here but would beware the consequences ... car parking charges will impact on retail/ commercial trade and needs enforcement and for goodness sake avoid cash systems ... an annual west lothian car park permit available on line especially if incorporating livingston centre charges with online payment for visitors would be good with pledge that surplus will be used to support care services might go down well.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28441	An individual	6. Reviewing Income and Concessions	I agree with point two.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28442	An individual	6. Reviewing Income and Concessions	Car parking charges should not be restricted to visitors, all users including council employees should pay..	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28443	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Staff should not pay for parking.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28444	An individual	6. Reviewing Income and Concessions	There should be no parking charges for staff parking. There are no direct public transport services available for many staff who live out with Livingston and the introduction of parking charges for those who are in low paid roles would or could find staff parking charges prohibitive when their salaries have been restricted for a number of years whilst the cost of living has increased. There is ample space around the civic centre to increase staff parking arrangements	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28445	An individual	6. Reviewing Income and Concessions	I disagree with 2. charging for council car parks - More and more car park charges are being introduced and these will force people to look outwith West Lothian for work and therefore reducing money coming into the West Lothian's economy.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28446	An employee of West Lothian Council	6. Reviewing Income and Concessions	if you bring in parking charges will the costs be better if you have to get people to check these and issue tickets. then there is the cost of collecting these charges.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28447	An individual	6. Reviewing Income and Concessions	Agree with 2	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28448	An individual	6. Reviewing Income and Concessions	Not happy about car parking charges being implemented	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28449	An individual	6. Reviewing Income and Concessions	2. yes	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28450	An employee of West Lothian Council	6. Reviewing Income and Concessions	Additionally staff should not be expected to pay to park their care for their normal business. Staff working at teh council have already had pay freezes and reduced benefits, all of which will reduce further with these proposals, and to then expect staff to pay to park on top of that. it is effectively a pay cut for staff and could be considered to be a change of their contract terms and conditions.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28451	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. Introduction of charging for council car parks - it would be beneficial to undertake a full cost benefit analysis of any investigative proposal for introducing parking charges, in particular whether this forms a realistic viable option in ongoing operational and enforcement cost weighed against dis/benefits, such as the potential economic, social and environmental impacts/consequences.	Reviewing Income and Concessions - car park charges	4. The council is already doing this.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28452	An individual	6. Reviewing Income and Concessions	By introducing parking for council car parks - an exception should be made for staff who use the car parks on a daily basis for work.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28453	An individual	6. Reviewing Income and Concessions	Charges for car parks would make sense. Linlithgow already has this and although unpopular when introduced these are now accepted as the norm. Other charges will have to go up as well.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28454	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for Council car parks should be 24/7 and not just working days so everyone has to pay not just staff.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28455	An individual	6. Reviewing Income and Concessions	Feel strongly that there should NOT be an introduction of charging for council car parks. The motorised is already heavily tax and due to the very poor public transport available to those in West Lothian we are given no choice but to use a car as a means of transport because there is no realist alternative. Should the bus service be improved to the point that it is a feasible means of transport, which it currently isn't, then this could be reviewed then.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28456	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for Council Car Parks - 2 in particular I can see problems with - Opposite St Marys Primary school - Bathgate (Gardeners Lane) - this is jam packed at best of times. If this is made a chargeable car park, drivers will only park up on kerbs around that area (especially school times, making it even more of a hazard to drive past, walk over the Aldi, cross the road!, risk getting your car keyed!!!). Or will park in some other random unsafe place without the consideration of others.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28457	An employee of West Lothian Council	6. Reviewing Income and Concessions	Also charging for council car parks is something i would like to see introduced. Even a small fee for the general upkeep (maintenance, gritting etc.)	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28458	An employee of West Lothian Council	6. Reviewing Income and Concessions	2. This is likely to have an impact on car parks that are predominantly used by council workers, particularly in Livingston and Bathgate. Consideration should be given to what are 'shoppers' car parks.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28459	An individual	6. Reviewing Income and Concessions	Council workers surely would not have to pay to park their car at work?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28460	An individual	6. Reviewing Income and Concessions	Yes well motorists are easy targets. With the council failing to provide adequate parking spaces for residents over a number of years.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28461	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for Council car parks, will this affect staff at all our office buildings etc.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28462	An employee of West Lothian Council	6. Reviewing Income and Concessions	If introducing a charge for council car parks staff would need to be given some sort of concession. How will this revenue be collected given that Revenues staff will be reducing this is adding more work onto the staff left again putting pressure on them.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	There is no specific proposal to charge employees for parking.
28463	An individual	6. Reviewing Income and Concessions	Charging for council car park would drive more cars onto overcrowded streets including double yellow lines as there is no policing or on streets by wardens or police (on odd occasion)	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28464	An employee of West Lothian Council	6. Reviewing Income and Concessions	2 NO to charging for council car parking....	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28465	An employee of West Lothian Council	6. Reviewing Income and Concessions	Will charging for council car parks impact on the VAT partial exemption calculation? Re-introduce traffic wardens.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will consider this as part of the business case for the introduction of charging.
28466	No Response	6. Reviewing Income and Concessions	Charging for council car parks? Is this for staff?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28467	An individual	6. Reviewing Income and Concessions	I agree that charges should be made where it is consistent with conventions throughout the UK. It is a nonsense that people can par in town centre car parks all day at no charge. The retailers need a turn over of visitors if they are to survive.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28468	An individual	6. Reviewing Income and Concessions	Where are the council car parks? Would staff be charged to use them during work time? Would this include the civic centre and terrace car parks? Hopefully not proposing to charge staff as this would be massive dent to morale and again reduce take home pay.	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28469	An employee of West Lothian Council	6. Reviewing Income and Concessions	If all council car parks would incur a charge then some consideration would need to be given to council employees as if parking is at a premium then this would eat into their salary. Perhaps they could have this facility at a reduced rate?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	There is no specific proposal to charge employees for parking.
28470	An individual	6. Reviewing Income and Concessions	2. Agree - the Centre car parks and Linlithgow town centre car parks already charge	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28471	An employee of West Lothian Council	6. Reviewing Income and Concessions	How would this be collected ie one off payment versus instalments. Revenues will be collecting this however with less staff and additional work the remaining staff and will be under significant pressure	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.
28472	An individual	6. Reviewing Income and Concessions	Item 2: As I think that these car parks are used much by the people who need help, I would say, no.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28473	An individual	6. Reviewing Income and Concessions	2. Agree with charges for council car parks at the weekends	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28474	An individual	6. Reviewing Income and Concessions	Only a low parking charge for WLC car parks, e.g. lower than other car parks in the area. Or people will just park on the streets, causing problems in the housing estates & local roads. All older people should make some level of payment, just lower for those on low incomes. Pensioners are now better off than they have ever been. With an ageing population everyone must make a contribution. Not always just the working age people or the people who are employed.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28475	An individual	6. Reviewing Income and Concessions	Do not charge for council car parks!	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28476	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Charging for ALL West Lothian owned car parks (Monday to Saturday 8am to 4pm).	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28477	An individual	6. Reviewing Income and Concessions	Support charging for council car parks. No means testing for concessions.	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28478	An individual	6. Reviewing Income and Concessions	Parking - How much cost would be involved in setting up facilities to collect payment? How much would the charge be? Who would be exempt?	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Evidence shows that the business model likely to be used by the council can raise significant revenue. Moreover responsibility for collection of charges and maintenance of properties is transferred from the council to a third party. There is no specific proposal to charge employees for parking.

28495	An individual	6. Reviewing Income and Concessions	Charge for parking seems more than fair, although please align more with Glasgow pricing structure than edinburgh's extortionate rates.s	Reviewing Income and Concessions - car park charges	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28496	An individual	6. Reviewing Income and Concessions	Give town wardens the power to write parking tickets	Reviewing Income and Concessions - car park charges	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28497	An individual	6. Reviewing Income and Concessions	1, 3 and 4 agreed 2 - disagree. To charge for car parking will discourage people from using the facilities and cause issues on surrounding roads.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28498	An individual	6. Reviewing Income and Concessions	I don't agree with charging for council car parks. For council worker's this would be unfair again wages are tight enough for people without being charge to park at work and carry out our job. Petrol has gone up more than our wages, so why be penalised even more.	Reviewing Income and Concessions - car park charges	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There is no specific proposal to charge employees for parking.
28499	An employee of West Lothian Council	6. Reviewing Income and Concessions	3. Look in to property management as many properties are few months empty before let this gap is money loosing process, with so many people employee with the council that should be happened much earlier, time management have a lot to do need to improve asap. 4. ?	Reviewing Income and Concessions - commercial property rent	4. The council is already doing this.	The occupancy rates for commercial properties are consistently above targets. There are situations where properties require remedial/refurbishment works between tenancies whereby they require to remain vacant for a period of time.
28500	An individual	6. Reviewing Income and Concessions	All other proposals make sense.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28501	An employee of West Lothian Council	6. Reviewing Income and Concessions	Income on commercial properties should be maximised - this is an area where the recipient is more able to pay.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. The commercial property portfolio generates income for the council with the cost of providing the units being substantially less than the income received.
28502	An individual	6. Reviewing Income and Concessions	Agree. You should invest in property to generate more income.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. The commercial property portfolio generates income for the council with the cost of providing the units being substantially less than the income received.
28503	An individual	6. Reviewing Income and Concessions	With the number of empty shops/retail units surely dropping rates and getting lower rates (maybe tiered rates) is better than no rates at all??	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28504	An individual	6. Reviewing Income and Concessions	higher fees for professional services. Property portfolio performs well against market - increase in rents?	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28505	An individual	6. Reviewing Income and Concessions	Maximising rent is a good thing provided rates do not become so unattractive people look to move elsewhere	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28506	An individual	6. Reviewing Income and Concessions	Sell all your commercial property.	Reviewing Income and Concessions - commercial property rent	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council has a disposal process for assets declared surplus to requirements with receipts reinvested in council assets. By law income received from the sale of assets can only be used for capital expenditure or repaying debt. The commercial property portfolio generates income for the council with the cost of providing the units being substantially less than the income received.
28507	An employee of West Lothian Council	6. Reviewing Income and Concessions	Addiewell Community House is not being utilised should be brought back into stock. this would generate income for the council and reduce costs ie utility bills	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
28508	An individual	6. Reviewing Income and Concessions	higher rents will deter tenants - is this worth it?	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28509	An individual	6. Reviewing Income and Concessions	3. Agree as long as not too much as you might end up with loosing tenants of property as you have made it too expensive to remain in property and they may elsewhere.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28510	An individual	6. Reviewing Income and Concessions	We should already be maximising the rental for the commercial property portfolio, but not to a point where people don't want the commercial property. WE want to draw in business and potential employment, not cost it out	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28511	An employee of West Lothian Council	6. Reviewing Income and Concessions	3. I support the rental income proposal.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28512	An individual	6. Reviewing Income and Concessions	Why are we not maximising the rental income of commercial property already??	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. This would be a continuation of the current proactive approach.
28513	An individual	6. Reviewing Income and Concessions	I don't agree with 1 but do agree with 2-4	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28514	An individual	6. Reviewing Income and Concessions	3. I agree	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28515	An employee of West Lothian Council	6. Reviewing Income and Concessions	The council should always be trying to maximise its rental income from commercial property and this should reflect the current market.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. This would be a continuation of the current proactive approach.

28517	An individual	6. Reviewing Income and Concessions	Point 3 surely this should have been a matter of urgency all along. Again shame on you if you have NOT been proactive in ensuring such properties are used to the full.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. This would be a continuation of the current proactive approach.
28518	An individual	6. Reviewing Income and Concessions	Rent sounds sensible too. s	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28519	An individual	6. Reviewing Income and Concessions	Commercial charging needs to consider if charge to high it could impact on ability to run a business or employ staff, better a used building with income, than an empty property.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28520	An individual	6. Reviewing Income and Concessions	Looking at High Street in several towns, there are empty retail/commercial properties and units, increasing rent is not always a solution. Surely it is better to rent out more at a lower price. Then this helps employment and full of a place.	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28521	An employee of West Lothian Council	6. Reviewing Income and Concessions	3. tricky - if you raise too high the business close and you end up with no revenue. Just look at the state of Falkirk town centre.	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28522	An individual	6. Reviewing Income and Concessions	3 - Why is this not already being done?	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. This would be a continuation of the current proactive approach.
28523	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? 3. Is it reasonable to apply higher charges to local small businesses considering the pressures they are already under.	Reviewing Income and Concessions - commercial property rent	4. The council is already doing this.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
28524	An individual	6. Reviewing Income and Concessions	Maximise rental income	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28525	An individual	6. Reviewing Income and Concessions	Rental of commercial properties should be viewed with caution, this could effect the survival of smaller businesses	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28526	An individual	6. Reviewing Income and Concessions	Property rents acceptable	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28527	An individual	6. Reviewing Income and Concessions	I agree with making more money through commercial buildings	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28528	An individual	6. Reviewing Income and Concessions	These are all fair and sensible measures. My only thought is that sweating commercial property lessors is very risky - it all too often drives them elsewhere and results in deserted high streets.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28529	An individual	6. Reviewing Income and Concessions	In my experience the shop keepers in Linlithgow High Street where shops are rented from the Council are dissatisfied by the high rents the Council levies	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28530	An individual	6. Reviewing Income and Concessions	Many small local businesses make use of council owned buildings to operate and so it is important to them and the local community that the rental prices for these are kept as low as possible in order for local small business to continue to survive.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28531	An employee of West Lothian Council	6. Reviewing Income and Concessions	Focusing on maximising commercial property income should be an absolute priority within these options.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28532	An employee of West Lothian Council	6. Reviewing Income and Concessions	3. Maximising the rental income from the council's commercial property portfolio - concerned this would impact on local businesses and have a negative impact	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28533	An employee of West Lothian Council	6. Reviewing Income and Concessions	Definitely look at your commercial portfolio	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28538	An individual	6. Reviewing Income and Concessions	I have no objection to number 3.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28539	An employee of West Lothian Council	6. Reviewing Income and Concessions	There is a balance to be had. There will be many blue badge applicant who can afford Â£20 admin charge. Maximising income from commercial properties could be detrimental to the ability of small business to operate which in the long term will result in vacant shop units and commercial premises. It is better to have a high level of occupancy with a slightly lower income per unit than a large number of vacant units.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28540	An employee of West Lothian Council	6. Reviewing Income and Concessions	3. this may result in a lot of empty units.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28541	An individual	6. Reviewing Income and Concessions	I would support idea 3 [commercial propoerty rent]	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28542	An employee of West Lothian Council	6. Reviewing Income and Concessions	Rental incomes being maximised is good.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28543	An individual	6. Reviewing Income and Concessions	I feel that any increase to commercial rent would impact negatively on high street small businesses.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28544	An individual	6. Reviewing Income and Concessions	I'm not sure if this is covered under maximising rental income from the council's commercial property portfolio, but rental charges for the Burgh Halls, Linlithgow and other similar buildings are already high relative to alternatives, so any increases here are likely to be counter productive.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28545	An individual	6. Reviewing Income and Concessions	3. Agree so long as increases are reasonable and not the detriment of those who occupy them	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28575	An individual	6. Reviewing Income and Concessions	3. Agree	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28576	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Maximising the rental income from the council's commercial property portfolio - The tourism sector is a key part of the economy, as set out in West Lothian's economic strategy, and a great stepping stone to a career for young people. It offers a tremendous opportunity to develop young people's skills. There are almost 2,900 jobs across the county supported by the visitor economy and numerous more that depend on the wide breadth of services involved in tourism. West Lothian Council aims to maximise the rental income from its commercial portfolio. For a nominal investment in staff resource and promotion, venues such as the Linlithgow Burgh Halls could be positioned for the business tourism and wedding market. This would not only bring in revenue but would also bring wider economic benefit to the local economy via accommodation, local eateries, retail and attractions.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
28577	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes increase in rental	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28578	An individual	6. Reviewing Income and Concessions	I get some properties could be put up in rent but based on income, again with this cycle...dont help with jobs? people dont get money. No money? cant pay rent. cant pay rent? either get no help or told to get a job or a better job which leads back the start. Should be looked at on an individual bases and not if someone fits into a category again.	Reviewing Income and Concessions - commercial property rent	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	This proposal is considering commercial rental income for businesses and other organisations. This comment refers to council house rent which is set based on the rent strategy which tenants are consulted on.
28579	No Response	6. Reviewing Income and Concessions	3. would be concerned about this as you could lose business who are struggling at present. you could look at other ways to save from them e.g. discounted services provided to the council, percentage of income if they reach a certain amount.	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28580	An individual	6. Reviewing Income and Concessions	item 3 you might create more demand by reducing hire costs. one of the drawbacks to hiring council properties is the need to provide janitorial services.	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28581	An individual	6. Reviewing Income and Concessions	3. This could have a negative effect as small businesses could well close or move away due to high rental costs. It is my experience that the rent levels for Council Properties have already increased fairly steeply over the last few years meaning they are expensive for what you get.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28582	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	A rent increase for third sector, along with funding cuts could put third sector at major risk of closure. I would ask that third sector who are paying full commercial rent do not get a double hit.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28583	An individual	6. Reviewing Income and Concessions	Happy on charges for commercial property but if rented by a community non profit group whose funding is also being stopped, that would be a double whammy. Please consider concessions for such groups.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28584	An individual	6. Reviewing Income and Concessions	Of course the Council should be charging commercial rents but better a lower rent than numerous empty shops.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28585	An individual	6. Reviewing Income and Concessions	My concern is that trying to maximise income from customers council commercial properties will push business out of the high streets, many retailers struggle to manage rents, and as a small business myself a council let is a less attractive proposal.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28586	An employee of West Lothian Council	6. Reviewing Income and Concessions	With regard to maximising rental income from portfolio, maybe the Council should consider whether it's realistic or sustainable to keep granting planning consent for commercial/retail developments while there is a large number of properties currently lying empty.	Reviewing Income and Concessions - commercial property rent	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The planning system considers the acceptability of proposals in environmental rather than financial terms. As a result the council as a planning authority cannot take existing occupancy rates into account in its planning determinations.
28587	An individual	6. Reviewing Income and Concessions	Other areas are maximising rental income the council should consider increase even if not maximising, the prices are increasing e.g. Bathgate partnership centre cafe charged 70/75p per can, this week the new hideaway cafe there charges £1, there has been no obvious changes to the area yet the new tender have passed a significant increase to the consumer	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28588	An individual	6. Reviewing Income and Concessions	increased Rates for commercial properties are already too high and would impact upon employment and small business creation within West Lothian.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28589	An individual	6. Reviewing Income and Concessions	Charge appropriate rent for Council houses rather than the token gesture that some people pay.	Reviewing Income and Concessions - commercial property rent	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	This proposal is considering commercial rental income for businesses and other organisations. This comment refers to council house rent which is set based on the rent strategy which tenants are consulted on.
28590	An individual	6. Reviewing Income and Concessions	The council's commercial property portfolio is a vital source of much needed revenue income. It should be retained and invested in to ensure the Council can continue to benefit from that revenue stream going forward.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28591	An individual	6. Reviewing Income and Concessions	High rents impact on traders viability You should be thinking on a grander scale of income generating service to public and other organisations	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
28592	An individual	6. Reviewing Income and Concessions	I disagree with point 3.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28593	An individual	6. Reviewing Income and Concessions	If raising the rental price non housing properties then assurances are needed that these properties are properly maintained and can be accessed at all times.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28594	An employee of West Lothian Council	6. Reviewing Income and Concessions	If raising the rental price non housing properties then assurances are needed that these properties are properly maintained and can be accessed at all times.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28595	An individual	6. Reviewing Income and Concessions	Agree with 3.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28596	An individual	6. Reviewing Income and Concessions	3. What businesses would be affected and by how much? One of the Council aims is to encourage business in West Lothian. Increasing charges will likely have the opposite effect.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28597	An individual	6. Reviewing Income and Concessions	3 yes	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28598	An individual	6. Reviewing Income and Concessions	Agree with 3.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28599	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree with point 3 commercial portfolio	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28600	An employee of West Lothian Council	6. Reviewing Income and Concessions	personal experience of trying to rent a unit for a sole trader was just ridiculous because the rent being asked for was astronomical eg £1200 for a sole trader per calendar month.... who in their right mind would be able to pay that before rates, gas elec telephone etc etc and still make a profit and draw a wage.... why not have affordable rent rather than empty buildings going to waste	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The occupancy rates for commercial properties are consistently above targets. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28601	An individual	6. Reviewing Income and Concessions	3. Agree - although is it not already maximised?	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances. This would be a continuation of the current proactive approach.
28602	An individual	6. Reviewing Income and Concessions	Item 3: The level of these rents has got to be such that it encourages small businesses to, not only get set-up in the first instance, but keep going. I would, therefore, say, no.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

28603	An individual	6. Reviewing Income and Concessions	3. Agree	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28604	An employee of West Lothian Council	6. Reviewing Income and Concessions	Stop giving reduced rental to community groups occupying TNRP properties.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28605	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charge NHS where they occupy council property (and any other government organisation, union, third party sector).	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	The council seeks to apply commercial rents to all tenants who occupy council buildings.
28606	An individual	6. Reviewing Income and Concessions	Maximise rental income - we should be trying to encourage businesses by reducing rents.	Reviewing Income and Concessions - commercial property rent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28607	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and the sector would like to see this continue, as it will become even more essential in the tough years ahead.	Reviewing Income and Concessions - commercial property rent	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties, including relief schemes, are set nationally by the Scottish Government.
28608	An individual	6. Reviewing Income and Concessions	council should be charging appropriate rents for all domestic, commercial and industrial properties, including making sure tenants leases include costs for maintenance of the properties. Additionally all lets to councils buildings should be paying more appropriate fees for the use of rooms, playing pitches, 3G football pitches etc.	Reviewing Income and Concessions - commercial property rent	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28609	An individual	6. Reviewing Income and Concessions	Increase cost of hiring council facilities e.g. School halls	Reviewing Income and Concessions - commercial property rent	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28610	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think that rent to buy council properties should be back to use. Many people will buy the property and pay the council tax etc. Please think about the older houses to release them to the market with the option for householders to purchase. Extra income for council and less money to spend for the repair, gas servicing, etc...	Reviewing Income and Concessions - council housing	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Right to Buy' was abolished for all council and housing association tenants in Scotland on 31 July 2016 through a change to the primary housing legislation - the Housing (Scotland) Act 2014. WLC is duty bound to abide by this legislation. The end of Right to Buy enables further investment in existing and new homes by protecting them from being sold at a discount. The transfer of hundreds of thousands of properties out of the social housing sector has decreased social housing stock, and placed increasing pressures on councils and housing associations. It has also had a profound and detrimental effect on some communities, with less desirable areas falling into further disrepair.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28611	An employee of West Lothian Council	6. Reviewing Income and Concessions	Although Housing is not directly affected by these cuts and has some measure of protection as a result of rental income from its stock portfolio we are building a massive risk through the use of large scale loans. The new build programme has several key flaws: Councillor dilution - Councillors insistence to build in each ward is a poor idea. housing should be built in stronger economic areas where demand is higher and sites should be picked where the maximum number of houses under the project can be created. There is no point building small sites in back water locations where people cannot get to work and will therefore become more susceptible to living a life trapped on benefits. Mid-Market Rents - new build properties should have their rental income maximised for a fixed period at the beginning of their life time. By making the rent a Mid-Market value for the first X (say 10) years of the properties life we can use the higher revenue to drive the building of further stock. Avoid peaks and troughs - By raising the income and then by building steady blocks of properties in bulk we should be adding a consistent number of properties each year. Then rather than crowing about a single high figure we could actually be adding value to the area driving the economy by placing workers near business and building bulk to cope with demand. We have had a 'new build' programme running for years but have no progress in terms of stock count to show for it!	Reviewing Income and Concessions - council housing	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Increasing the availability of good quality, affordable accommodation in West Lothian remains a key priority for WLC. With the abolition of right to buy this year, our investment in stock will see the count of council owned housing stock increase. We will continue to deliver the new build programme whilst seeking to improve all communities fairly across the region, including those areas which have lacked investment and are in need of regeneration. We are striving to achieve value for money and housing options for our tenants through continued efforts to drive improved performance of our external partners.
28612	An individual	6. Reviewing Income and Concessions	Rental income - whatever the market will accept.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard. As the cost of goods and services increase, and the demand for new affordable homes increases, we occasionally have to reflect that in the rent that is charged through a modest increase. Our aim is to continue to provide good value for money on rent in comparison to other landlords, whilst improving the standard and availability of affordable accommodation in West Lothian.
28613	An employee of West Lothian Council	6. Reviewing Income and Concessions	Recharging repairs costs to tenants when the repair is deemed their responsibility, only carry out Right To Repair jobs for tenants in rent arrears. providing chargeable repairs for private tenants in council owned blocks	Reviewing Income and Concessions - council housing	4. The council is already doing this.	The service clearly sets out the repairs that are a tenants responsibility and does recharge these to tenants where required. There are a number of reasons why tenants have rent arrears, not all of them within the tenants' control - therefore it is unlawful as a social housing provider to create a two-tier system in terms of access to a repairs service and standards for those experiencing financial difficulty. The costs and liabilities of providing a repairs service to non-tenants in a competitive market does not represent good value for money for tenants - the income generated from their rent payments must be used to benefit tenants only.
28614	An individual	6. Reviewing Income and Concessions	7. Increase to council house rent	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard. We are currently conducting a consultation with tenants on what they think the increase to their rent should be for the next 5 years.
28615	An individual	6. Reviewing Income and Concessions	The huge issue is people of working age not working and not paying rent and the council having to fund all these properties for free as well as repairs etc. There should be a minimum that non working people should pay towards rent.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	If tenants are of working age and unemployed, they are entitled to Housing Benefit, or the new Universal Credit payment to cover their rent liability. Where payment is not made, the council seeks to recover these any monies due.
28616	An employee of West Lothian Council	6. Reviewing Income and Concessions	In addition to this the council could charge customers for missed repairs appointments and are recharged accordingly for any work required that is outwith the guidelines of the tenants handbook.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The current policy is to recharge tenants for repairs they are responsible for. Any future changes to charges would have to be carried out in full consultation with all tenants.
28617	An employee of West Lothian Council	6. Reviewing Income and Concessions	The council needs to be smarter at collecting rents. The council should not be giving new tenancies to those that already in debt to us. This is only going to create more debt.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	In the case of rent arrears, and by law, we may suspend offers of housing only if the rent arrears exceed one month's rent and arrangements to repay are not made and kept to.

28618	An employee of West Lothian Council	6. Reviewing Income and Concessions	Why does the council install and maintain satellite systems in council houses - I should not be paying for this service Customers or tenants should be recharged for no access - a binding agreement should be made to allow work to be carried out in council houses and premises at a time it suits each service The tenants handbook should be reviewed and backed up by a policy that all Councillors agree to. Therefore reducing work getting carried out in properties where it is not necessary, and subsequently line managers getting, their decision not to carry out the work in the first place	Reviewing Income and Concessions - council housing	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28619	No Response	6. Reviewing Income and Concessions	The council should also maximise its rental income from housing, compared with private rent council housing rent is very competitive, a small increase in rent could be used to allow the council to continue its excellent work in increasing its housing stock. This will help the long term income of the council but would also require steps to help keep employment levels high.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard, We are currently conducting a consultation with tenants on what they think the increase to their rent should be for the next 5 years.
28620	An individual	6. Reviewing Income and Concessions	Keep Council rents low.	Reviewing Income and Concessions - council housing	4. The council is already doing this.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard, We are currently conducting a consultation with tenants on what they think the increase to their rent should be for the next 5 years.
28621	An employee of West Lothian Council	6. Reviewing Income and Concessions	The services need more awareness of debts not collected or review the value of invoices and what they are raised for.... raising bills for people who have absconded from a property when they do not know where they have gone is just ludicrous... a deposit should be taken from council tenants like they do for private for general repairs, forced entries,, garden clearing, etc and if not needed then can be refunded but we make use of the funds in the meantime by investing the money	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	Thank you for your comments - these will be passed to the relevant service manager.
28622	An individual	6. Reviewing Income and Concessions	I think that the rent for council properties should increase. I think the council should provide services to private housing at a cost i.e electricians , gas engineers painter & decorator etc this would be away to bring in revenue.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard, We are currently conducting a consultation with tenants on what they think the increase to their rent should be for the next 5 years.
28623	An employee of West Lothian Council	6. Reviewing Income and Concessions	3 as previous advised ,, set realistic affordable rents,,,, maximum rents only lead to failed business	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	The amount of rent that tenants are charged for is based on affordability, tenant views on the rent they pay, and the cost of maintaining existing properties to a high standard. As the cost of goods and services increase, and the demand for new affordable homes increases, we occasionally have to reflect that in the rent that is charged through a modest increase. Our aim is to continue to provide good value for money on rent in comparison to other landlords, whilst improving the standard and availability of affordable accommodation in West Lothian.
28624	An individual	6. Reviewing Income and Concessions	Council houses - tenants should pay more - they have more disposable income than working families 2 parents 2 jobs each 1 child! New council house builds should be for rent-paying individuals generating income!	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28625	An individual	6. Reviewing Income and Concessions	Increase in rent for council tenants.	Reviewing Income and Concessions - council housing	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28626	An employee of West Lothian Council	6. Reviewing Income and Concessions	As previously stated those who are disabled have been given an allowance by the government to pay for their care.	Reviewing Income and Concessions - non - council housing	1. The respondent advised that they agree with the proposal.	The provision of government allowances for care will be considered in the development of a charging scheme for social care.
28627	An employee of West Lothian Council	6. Reviewing Income and Concessions	If raising the rental price for non housing properties then assurances are needed that these properties are properly maintained and can be accessed at all times.	Reviewing Income and Concessions - non - council housing	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.

Reviewing Income and Concessions - non - council housing	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28631	An individual	6. Reviewing Income and Concessions	Concerned about the 3% increase of non-housing rents with council tax increasing as well. Small business are being squeezed. What risk assessment has been done on business and also High Street shops, together with the impact on West Lothian residents for work and quality of life? Will benchmarking be done on the rents for properties so WLC remain competitive?	Reviewing Income and Concessions - non - council housing	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The implications of any proposal to introduce charging will be considered in full by officers.
28632	An employee of West Lothian Council	6. Reviewing Income and Concessions	If raising the rental price non housing properties then assurances are needed that these properties are properly maintained and can be accessed at all times.	Reviewing Income and Concessions - non - council housing	6. This is a positive suggestion. Officers will consider how this could be developed.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28633	An employee of West Lothian Council	6. Reviewing Income and Concessions	Free personal and nursing care is a government strategy so do not make out you are doing the elderly any favours. Again this is another proposal that hits at the more vulnerable in the community.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Criteria will be set within an assessment framework to ensure people's needs are assessed consistently and fairly. Work will continue to focus on those who are most vulnerable and have additional needs.
28634	An individual	6. Reviewing Income and Concessions	Charging for some elements of care for the elderly also makes sense. This age group has been most protected from cuts in recent years.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28635	An individual	6. Reviewing Income and Concessions	I agree with the first 4. I do not think care for the elderly should be contributions based. This penalises those who have worked throughout their life, whilst benefiting those who have not accumulated any wealth	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28636	An individual	6. Reviewing Income and Concessions	yes, i think a contributions policy would be reasonable linked to affordability,	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28637	An employee of West Lothian Council	6. Reviewing Income and Concessions	Very good idea in principle. I would suggest that financial assessments are kept very simple and that fees be determined according to bands rather than completely individualised, otherwise just creating additional work stream that would be inefficient	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28638	An employee of West Lothian Council	6. Reviewing Income and Concessions	Introduce social care charges, to help reduce costs. R	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28639	An individual	6. Reviewing Income and Concessions	As per Scottish government personal care is free anyway so outting that in is redundant.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28640	An employee of West Lothian Council	6. Reviewing Income and Concessions	A contributions policy for non-residential care services is introduced subject to the financial assessment of affordability - so means tested contributions day care for our elderly and infirm ! NO.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28641	An individual	6. Reviewing Income and Concessions	It is not all about the elderly....what about mental health?	Reviewing Income and Concessions - non residential care contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. The Scottish Government's commitment to Free Personal and Nursing Care is for older people which is why this client group has been mentioned specifically.
28642	An individual	6. Reviewing Income and Concessions	I agree that means tested charging needs to be introduced for non residential care services as it is the only way that the council can sustain supporting these services	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28643	An employee of West Lothian Council	6. Reviewing Income and Concessions	Disagree with the requirement for payment of care services for elderly individuals unless the threshold is sufficient to allow individuals to remain in their property and not be required to sell it to pay for care. Consider a reduction in the subsidy on council tax for those on benefits and lone occupancy where additional rooms are left vacant.	Reviewing Income and Concessions - non residential care contributions	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
28644	An individual	6. Reviewing Income and Concessions	I agree that only those who can afford to pay make a contribution as long as this was not excessive	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	The proposal is about the introduction of a contributions policy subject to the financial assessment of affordability
28645	An employee of West Lothian Council	6. Reviewing Income and Concessions	Everyone should contribute for non-residential care, only a lower amount for those with lower incomes. Most pensioners are better off than they have ever been through various government initiatives.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	The proposal is about the introduction of a contributions policy subject to the financial assessment of affordability
28646	An individual	6. Reviewing Income and Concessions	I feel that a separate consultation on this issue is warranted. Introducing charges for personal care is a huge issue and potentially something that should be discussed at national government rather and local government level. Concerned about the cost of admin functions required to support such a system.	Reviewing Income and Concessions - non residential care contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	National guidance for charging already exists but West Lothian has not implemented it do date. The proposal, if, approved would bring West Lothian in line with other local authorities
28647	An individual	6. Reviewing Income and Concessions	I mentioned this earlier - those prudent enough to save for their old age or who bought their house to pass onto family will subsidise those who didn't. Is that fair? To me it's not but I agree everyone needs basic rights. It's just too easy for authorities to say if you have this amount, you will pay this fee?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	National guidance for charging already exists but West Lothian has not implemented it do date. The proposal, if, approved would bring West Lothian in line with other local authorities
28648	An individual	6. Reviewing Income and Concessions	I don't agree with charging older people transfer fees to units or outreach projects when you've decided to consolidate them. Its like being penalised twice! No	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28649	An individual	6. Reviewing Income and Concessions	I find it hard to support this. People are disable through no fault of their own.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	National guidance for charging already exists but West Lothian has not implemented it do date. The proposal, if, approved would bring West Lothian in line with other local authorities
28650	An individual	6. Reviewing Income and Concessions	Non-residential care needs to be people and service driven, not just lead by technology.	Reviewing Income and Concessions - non residential care contributions	4. The council is already doing this.	The council already deploys technology as part of care and support packages where appropriate. Expanding the use of this to more people will help ensure that direct face to face client time is used to best effect.
28651	An employee of West Lothian Council	6. Reviewing Income and Concessions	What is the contribution? What does it mean to be able to afford to pay? Extremely unfair for some to have free and others not if fortunate enough to have saved during their life. Quite despicable.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any non residential care contributions policy would be subject to the financial assessment of affordability
28652	An individual	6. Reviewing Income and Concessions	Have you assessed how much financial assessment will cost? And how much, therefore will be the net gain?	Reviewing Income and Concessions - non residential care contributions	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28653	An employee of West Lothian Council	6. Reviewing Income and Concessions	Also how do you judge who can afford to pay?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
28654	An individual	6. Reviewing Income and Concessions	Where people can afford to pay for certain services within a reasonable limit, all older people must be protected at all costs.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Any contributions policy would be subject to the financial assessment of affordability
28655	An individual	6. Reviewing Income and Concessions	Payments for care services should be progressive.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Any contributions policy would be subject to the financial assessment of affordability

28656	An individual	6. Reviewing Income and Concessions	non-residential care - a token charge could be made on higher income households.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Any contributions policy would be subject to the financial assessment of affordability
28657	An individual	6. Reviewing Income and Concessions	This contributions policy would be very difficult to administer and could be daunting for older people. When older people have paid taxes all of their working life, I believe that they should be granted support services.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
28658	An individual	6. Reviewing Income and Concessions	Affordability is not a good basis for charge. How can you assess that. Just because someone has a higher salary or income does not equate to them having a higher level of available cash. Just because someone owns (or more likely has a mortgage over) a house rather than renting does not mean they are better off. Notwithstanding that the whole principal of charging more to those who work hard or do well seems wrong - and I would not fall into that bracket. Some people who earn more may choose to pay more but it should be a level playing field from the start. The council should not, and cannot, rely on those that they perceive 'can afford to pay' to sort this for them. Further, it is no business of the Council as to what people do or do not have or what they can or cannot afford to pay unless that information is offered up to them.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
28659	An individual	6. Reviewing Income and Concessions	One off charges for outreach may be justified in most cases but would need to be clearly explained and implemented.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28660	An individual	6. Reviewing Income and Concessions	I am happy with the current free personal nursing care	Reviewing Income and Concessions - non residential care contributions	4. The council is already doing this.	Thank you for your response. Your comment has been noted
28661	An individual	6. Reviewing Income and Concessions	5. Contributions policy - agree	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28662	An individual	6. Reviewing Income and Concessions	Means testing for health care should be a last resort but handled sensitively	Reviewing Income and Concessions - non residential care contributions	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
28663	An individual	6. Reviewing Income and Concessions	Unfortunately deciding who can afford to pay is difficult. It is frustrating for the elderly who have worked all their life to have to pay for care and services from their pension. People who have never worked or paid into pensions are better off as they get everything paid for them!	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28664	No Response	6. Reviewing Income and Concessions	Income-assessed contributions are an excellent idea.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28665	An individual	6. Reviewing Income and Concessions	Lots of wealthy older people can afford to make a care contribution. Anything which is free is not appreciated .	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28666	An individual	6. Reviewing Income and Concessions	Does this mean that seriously ill or disabled younger adults would only receive care on a means tested basis? I would strongly resist such a change.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal considers how a contributions policy can be introduced subject to the financial assessment of affordability
28667	An individual	6. Reviewing Income and Concessions	More detail is required here as to what is meant by 'non-residential care services'.	Reviewing Income and Concessions - non residential care contributions	3. The respondent advised that they had no comment to make.	The proposal considers how a contributions policy can be introduced subject to the financial assessment of affordability
28668	An employee of West Lothian Council	6. Reviewing Income and Concessions	Fees appropriate are fair re non residential care	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28669	An individual	6. Reviewing Income and Concessions	Regarding the care you are still segregating people who have saved their money from their earnings and again are penalising them twice.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal considers how a contributions policy could be introduced subject to the financial assessment of affordability

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28670	An employee of West Lothian Council	6. Reviewing Income and Concessions	Depends on the outreach service	Reviewing Income and Concessions - non residential care contributions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal considers how a contributions policy can be introduced subject to the financial assessment of affordability
28671	An employee of West Lothian Council	6. Reviewing Income and Concessions	Not an ideal solution given not everyone can afford to pay for help and people who have worked hard all their life deserve care not just if they can afford it.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal considers how a contributions policy can be introduced subject to the financial assessment of affordability
28672	An individual	6. Reviewing Income and Concessions	No to charging for non residential care full stop.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28673	An individual	6. Reviewing Income and Concessions	Older people are eligible for free personal and free nursing care by law, the council would not be doing them a favour. It is written as if it is!	Reviewing Income and Concessions - non residential care contributions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28674	An individual	6. Reviewing Income and Concessions	It is vital that free nursing and personal care continues to our ageing population. Many live below the poverty line but there are many who have worked all their life who would like to use their savings to leave to families as an inheritance and not see it all disappear to receive basic care in latter years of life.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28675	An individual	6. Reviewing Income and Concessions	Your council tax payers are already paying an increased amount in council tax. There should be no question of any means testing for providing care services. This would mean council tax payers who may well be paying more than average already for their council tax depending on the property they live in having to pay extra once again due to means testing.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28676	An employee of West Lothian Council	6. Reviewing Income and Concessions	A contributions policy is essential to make social care sustainable.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28677	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	We are concerned about the extension of a contribution policy and this being introduced for non-residential care and would hope that any proposed changes in this area would have a robust and far ranging consultation which were open and accessible to all the groups. We would also welcome an Equality Impact Assessment being carried out and published along with details costings and proposed savings. We are concerned that this may increase costs through assessment and administration of such a scheme, as well as additional costs of budgets in other areas through crisis or health problems through people not receiving early interventions and ongoing support. We are concerned that this will have a negative effect on the health and well-being of older people and other vulnerable individuals who require support.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
28678	An individual	6. Reviewing Income and Concessions	My parents worked hard all their life. They both worked, my father a spark, my mother a clerical worker in a social work department. They saved, paid into a pension, put money away when they could - they lived simply, frugally even so that they could enjoy themselves in later life. Will they be penalised for this as they could afford to pay? Would it be better for them to have splurged the lot, put nothing aside and said that when we get older somebody else can pick up the tab?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
28679	An individual	6. Reviewing Income and Concessions	Contributions towards care should be implemented as those who can afford to pay should pay to a certain extent.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28680	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	People already pay for their care for respite and care at home	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28681	An individual	6. Reviewing Income and Concessions	I am unclear as to what exactly is meant by non-residential care services. If nursing and personal care is free, then what is left to charge? By supporting people properly in their own homes, you will avoid the in care costs.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28682	An individual	6. Reviewing Income and Concessions	also disagree with proposals for care services in the above paragraph.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28683	An individual	6. Reviewing Income and Concessions	Care services for the elderly should not be subject to a fee, means tested or otherwise. If the need for the care can be demonstrated then it should be available.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28684	An individual	6. Reviewing Income and Concessions	Contributions to non-residential care services subject to financial assessment â€" will cost more than it saves and again give the vulnerable and ill hassle they do not need.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28685	An individual	6. Reviewing Income and Concessions	I thought it was statutory, a legal requirement that older people had free personal and nursing care.	Reviewing Income and Concessions - non residential care contributions	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
28686	An employee of West Lothian Council	6. Reviewing Income and Concessions	Anyone who can afford to pay should be making some level of financial contribution for their care.	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28687	An individual	6. Reviewing Income and Concessions	Older people are 'saving' for the day they might need to go into a home. Charging them for some in home care service is a terrifying thought and many will simply go without leading to rapid escalation in their need for long term residential care which is infinitely more expensive. PLEASE RAISE our council tax rather than charge old people for these services. Why don't you even do a fundraising campaign appealing to residents to donate money for these services, anything, but please don't ask old vulnerable people to pay for minimal care.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28688	An individual	6. Reviewing Income and Concessions	Yes I elderly care should be means tested So should the free public transport for older people	Reviewing Income and Concessions - non residential care contributions	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28689	An individual	6. Reviewing Income and Concessions	People with some savings should not be penalized.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28690	An individual	6. Reviewing Income and Concessions	Main paragraph: I currently have my mother-in-law in one of your homes. Is this policy not already in place?	Reviewing Income and Concessions - non residential care contributions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
28691	An individual	6. Reviewing Income and Concessions	Protect nursing care as a basic need to be met - please!	Reviewing Income and Concessions - non residential care contributions	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
28692	An individual	6. Reviewing Income and Concessions	Contributions Policy - financial assessment of affordability - back to means testing. Those of us who worked hard, made arrangements for pensions and STILL PAY TAX will be hit again and be worse off than people who did not - why should elderly have to pay for these vital services while FREE PRESCRIPTIONS are available to everyone.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28693	An individual	6. Reviewing Income and Concessions	Older people will continue to be eligible for free personal care â€" does this mean Adults will not? Will the charge be paid upfront or will you need extra debt recovery staff?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Income and Concessions proposal will consider how a contributions policy could be introduced subject to the financial assessment of affordability.
28694	An individual	6. Reviewing Income and Concessions	Contributions to Social Care after a financial assessment? Will this charge be paid upfront or will you need extra debt recovery staff? Will you need to conduct the financial assessments?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Income and Concessions proposal will consider how a contributions policy could be introduced subject to the financial assessment of affordability.
28695	An individual	6. Reviewing Income and Concessions	Older people will continue to be eligible for free personal care â€" does this mean Adults will not? Will you need to conduct the financial assessments?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Income and Concessions proposal will consider how a contributions policy could be introduced subject to the financial assessment of affordability.
28703	An individual	6. Reviewing Income and Concessions	Older people will continue to be eligible for free personal care - does this mean adults will not? Will the charge be paid upfront or will you need extra debt recovery staff? Contributions to social care after a financial assessment? Will this charge be paid upfront or will you need extra debt recovery staff? Will you need extra staff to conduct the financial assessments?	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Income and Concessions proposal will consider how a contributions policy could be introduced subject to the financial assessment of affordability.
28704	An individual	6. Reviewing Income and Concessions	Adding a financial assessment to non-profit residential care services creates a level of administration and beaurocracy that is not currently there and would cost more to administer than would be saved.	Reviewing Income and Concessions - non residential care contributions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Income and Concessions proposal will consider how a contributions policy could be introduced subject to the financial assessment of affordability.
28705	An individual	6. Reviewing Income and Concessions	I think that these charges should be minimal. We need to ensure that those living in poverty and those who are borderline are not restricted in their travels around the county.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28706	An individual	6. Reviewing Income and Concessions	We also shouldn't be impacting on travel from our harder to reach communities who have multiple areas of deprivation, meaning access to other areas is restricted.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28707	An employee of West Lothian Council	6. Reviewing Income and Concessions	1. Â£20 once a year seems great idea.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28708	An individual	6. Reviewing Income and Concessions	All other proposals make sense.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28709	An employee of West Lothian Council	6. Reviewing Income and Concessions	The elderly should be allowed to travel for free - helps to avoid isolation. Elderly people needing care should NOT have to contribute. This would be inequitable - those who have worked hard to save are punished? The elderly should be entirely protected even if they have saved a little for their retirement!	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28710	An individual	6. Reviewing Income and Concessions	There should also be small admin charge for lost bus passes (if clients require replacement more than once) as some clients are passing bus passes on to other people and then ordering replacements which is currently free.	Reviewing Income and Concessions - transport services	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for your comment. Officers will consider how they can take your proposal forward.
28711	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would prefer that there be a charge for any replacementbus passes rather than an initial cost - the charge for transport may result in people not attending services - for example if an older person is not willing to attend a resource due to transport costs would this then result in additional care at home services (at a higher cost) being required and the person having less social contact - when tenancy support providers stopped using their cars to transport clients this has resulted in health and social workers having to accompany clients to appointments / help clients with certain tasks which could be undertaken by tenancy support	Reviewing Income and Concessions - transport services	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for your comment. Officers will consider how they can take your proposal forward.
28712	An employee of West Lothian Council	6. Reviewing Income and Concessions	Transport services should not be charged. using them already contributes in many ways.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28713	An individual	6. Reviewing Income and Concessions	Transport for outreach services - I think users should pay for this service	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28714	An individual	6. Reviewing Income and Concessions	I also support the charging for use of transport services. This does not need to be much but will contribute.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28715	An individual	6. Reviewing Income and Concessions	Yes inevitable I'm afraid. Bus passes wonderful though. Makes over 60s feel valued having paid in all their lives. I get NO other benefits.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28716	An individual	6. Reviewing Income and Concessions	If you consolidate care/day centres, etc then this will force people using them to travel further. Surely charging for transportation is a double hit on a vulnerable part of the community?	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28717	An individual	6. Reviewing Income and Concessions	Charging for transport services again feels like the most vulnerable are being picked on	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28718	An individual	6. Reviewing Income and Concessions	Don't provide transport at all. Let the people make their own arrangements	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28719	An individual	6. Reviewing Income and Concessions	Charge people more for buses.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28720	An employee of West Lothian Council	6. Reviewing Income and Concessions	Maybe flat rate fares for buses and trains - instead of free?	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28721	An individual	6. Reviewing Income and Concessions	Agree that opportunities for additional sources of income are necessary but suggest that free travel for over 60s/65 should not be on offer where individuals have access to a car. Those needing outreach services are less likely to have spare money to pay for transport services.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28722	An individual	6. Reviewing Income and Concessions	5. Agree as long as there is cap on the levels. Why us pensioners are getting totally free travel is beyond me. I am more than happy to pay a small fee on every trip if it helps sustain a transport fleet around West Lothian e.g. town wanderers.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28723	An individual	6. Reviewing Income and Concessions	Many elderly people have higher standard of living than younger generation. Means testing only fair. If still working/sizeable private pensions should over 60s still benefit from concessionary travel etc?	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28724	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for transport services should be means tested.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28725	An individual	6. Reviewing Income and Concessions	every one should pay the same amount. Don't penalise those that have saved for a rainy day or emergency. They may be using this money for other services and keeping employment in the area. You are also saying that you are centralising services so users will need to travel further to get there but they will need to pay for the travel resource.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28726	An individual	6. Reviewing Income and Concessions	Everyone should pay transport services.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28727	An individual	6. Reviewing Income and Concessions	The public transport across west Lothian is not sufficient for people to travel around west Lothian therefore private cars have to be used and an increase in costs will be debilitating for some people	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28728	An individual	6. Reviewing Income and Concessions	Cansay about transport services as unsure what you mean	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28729	An individual	6. Reviewing Income and Concessions	I don't agree with 1 but do agree with 2-4	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28730	An individual	6. Reviewing Income and Concessions	4) yes charge if they have outreach services in the village but let them go free if they don't	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28731	An employee of West Lothian Council	6. Reviewing Income and Concessions	charging for transport is a fair way of enabling all to attend services.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28732	An individual	6. Reviewing Income and Concessions	I think OAPs and disabled should get a discounted bus fare but not a free one	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28733	An individual	6. Reviewing Income and Concessions	Suggest admin charge for taxi card also!	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28734	An individual	6. Reviewing Income and Concessions	Agree with all of 1 to 4	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28735	No Response	6. Reviewing Income and Concessions	4. Destructive	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28736	An individual	6. Reviewing Income and Concessions	Point 4 I would urge better co-ordination of vehicles and routes. Too often I've seen council vehicles with one or two users only at fairly 'peak' times. If the service is offered for free or a reasonable charge, no-one should object to planning their day around a schedule that maybe doesn't suit them 100%, but means a slightly inconvenient wait here or there - if it upsets you so much then feel free to exercise your right to pay your own way. No recompense should ever be given when an individual who refuses to utilise a service that is offered merely because it doesn't fit to the minute with their personal plans.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28737	An individual	6. Reviewing Income and Concessions	This seems reasonable. Will this also include 'Dial a Bus' - a small charge could be levied or perhaps an annual permit at Â£20 or Â£30 per year for those using the service.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28738	An individual	6. Reviewing Income and Concessions	. And charging for transportation to outreach care is a terrible idea especially when you are centralising services as this may put very much needed respite and assistance out of reach for some parents and carers	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28739	An individual	6. Reviewing Income and Concessions	should also look at charges for replacing bus passes and taxi cards	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28740	An employee of West Lothian Council	6. Reviewing Income and Concessions	Which outreach services would the transport charges impact? If it means the people having to travel to Pathways (following the closure of other day care centres) then no, this absolutely should not be the case.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28741	An individual	6. Reviewing Income and Concessions	4- not entirely sure what this relates to as long as it was means tested so as not to disadvantage those unable to afford it.	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28742	An individual	6. Reviewing Income and Concessions	Free travel for over 60 should be changed. The passes should be for people of state pension age and should be subject to a administration charge just the same as blue badges. The free travel should only be within west Lothian. People are using them for away days all over Scotland and to travel into Edinburgh for work. That is not what they were designed for. Subsidised bus routes should only be provided on a reduced level. eg. For remote places maybe two busses a day rather than every hour would surely save money	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Provision of concessionary bus passes is a Scottish Government responsibility.
28743	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? 4. Who does this saving relate to and who will it affect - are we looking to implement charges on already marginalised groups, would we be increasing social isolation because people cant afford to use and / or access the transport services. Does this saving include the removal of the concessionary travel card and taxi car	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28744	An individual	6. Reviewing Income and Concessions	Putting more charges may affect poor families who don't own a car and travel by public transport which is not as good as Edinburgh as it's not as often.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28745	An individual	6. Reviewing Income and Concessions	Would like to think that the wider community who are not able to afford personal travel means are not hit in the pocket for bus services that are essential.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28746	An individual	6. Reviewing Income and Concessions	4. Yes.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28747	An individual	6. Reviewing Income and Concessions	NO to 2 (parking charges)	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28748	An individual	6. Reviewing Income and Concessions	4. Unsure which transport services this refers to	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28749	An individual	6. Reviewing Income and Concessions	Removing day care services from certain areas and then asking elderly public to part fund transport to services based further away sounds like a double hit on this service. Although means testing does sound like a fair idea, it would need to be set at an appropriate level.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28750	An individual	6. Reviewing Income and Concessions	A Â£20 administration cost for your first blue badge is fair, but not for a renewal.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28751	An employee of West Lothian Council	6. Reviewing Income and Concessions	I don't know if elderly residents in Linlithgow still benefit from reduced rail travel. If they do, it should cease immediately.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28752	An individual	6. Reviewing Income and Concessions	I'd rather see the over 60s rail concession, an over-generous duplication of the Scotrail card, done away with.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28753	An individual	6. Reviewing Income and Concessions	In my view I would also look to increasing the age when older people receive the transport subsidy as most people are working beyond 60 and can afford to pay for transport.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28754	An individual	6. Reviewing Income and Concessions	Those who can afford it could buy an annual bus pass as a senior rail card at Â£30. Train fares could rise to Â£5	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28755	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think the council should stop issuing bus passes to residents of age 60 and over. Most people are employed to 65 these days so don't need a bus pass.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28756	An employee of West Lothian Council	6. Reviewing Income and Concessions	back off from transport service charges for outreach services.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28757	An employee of West Lothian Council	6. Reviewing Income and Concessions	Why not introduce charging parents to get their children they chose to have and live in remote places for transporting their children to school or let them take their children this will save a fortune	Reviewing Income and Concessions - transport services	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
28758	An individual	6. Reviewing Income and Concessions	4. Wholly opposed to charges for transport services for elderly an disadvantaged groups Wholly opposed to means testing for non-residential care services. This should be funded nationally or through the NHS budget.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28759	An individual	6. Reviewing Income and Concessions	4 no charge	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28760	An individual	6. Reviewing Income and Concessions	Re 1, 2 & 4 : Should not charge for these services.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28761	An individual	6. Reviewing Income and Concessions	3. Transport charges should not be introduced.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28762	An individual	6. Reviewing Income and Concessions	I would not support idea 4 [transport services]	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28763	An individual	6. Reviewing Income and Concessions	Keep bus concession	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28764	An individual	6. Reviewing Income and Concessions	Older people being able to get out is necessary for their welfare.If they are unable or cannot afford to get out and meet people, then this will lead to depression which in turn, will require more finance to treat.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28765	An individual	6. Reviewing Income and Concessions	Concessionary travel should be kept as we have an older population who do not all live near shops They may have no car and free travel is a boon for them Allows them to get to shops and gives a little social interaction which otherwise they may not get	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28766	An individual	6. Reviewing Income and Concessions	4. Agree but this needs to be means tested.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28767	An individual	6. Reviewing Income and Concessions	I would not like to see the bus pass disappear as this helps many elderly people get out & about & help keep active rather than spend too long at home alone. The contribution towards rail fares into Edinburgh/Glasgow could be stopped as it is possible to get to these destinations by bus.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is currently undertaking a review of its passenger and school transport services and this comment will be incorporated within that review.
28768	No Response	6. Reviewing Income and Concessions	4. Not exactly sure what this means. There is already a charge for public transport. If you are talking about charging for taking elderly/vulnerable to day centres for example, I think this would be penalising people who are already vulnerable.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28769	An individual	6. Reviewing Income and Concessions	Transport is too expensive already.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28770	An individual	6. Reviewing Income and Concessions	4. yes transport services must be means tested as if they are not, the taxpayer on an average wage effectively subsidizes those who can afford to pay	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28771	An employee of West Lothian Council	6. Reviewing Income and Concessions	Personally free bus passes should be means tested rather than given to all pensioners, they could charge a concessionary rate.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28772	An individual	6. Reviewing Income and Concessions	I don't agree with transport charges for outreach services.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28773	An individual	6. Reviewing Income and Concessions	Do not agree on any of the above, maybe on point 3	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28774	An individual	6. Reviewing Income and Concessions	4yes	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28775	An individual	6. Reviewing Income and Concessions	I agree that the elderly population should have reduced travel.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28776	An employee of West Lothian Council	6. Reviewing Income and Concessions	Number 4 should not be charged for.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28777	An individual	6. Reviewing Income and Concessions	. 4. Would like more information on what this involves.	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28778	An individual	6. Reviewing Income and Concessions	4 I'm neither for nor against.	Reviewing Income and Concessions - transport services	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28779	An individual	6. Reviewing Income and Concessions	Introduce an application for people requiring bus passes when 60. Many people are still working and can therefore afford to pay for their own transportation.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28780	An individual	6. Reviewing Income and Concessions	Not sure that charging for transport for outreach services is fair, nor am I clear why it is bundled with car parks etc	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28781	An employee of West Lothian Council	6. Reviewing Income and Concessions	4. Again penalising those who need outreach - madness.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28782	An individual	6. Reviewing Income and Concessions	4. Agree but explanation could be more clear	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28783	An employee of West Lothian Council	6. Reviewing Income and Concessions	Transport charges are unavoidable if localised services are not going to be there - as long as there is some means testing for those on low-incomes that ensures people do not miss out on critical services then I agree.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28784	An individual	6. Reviewing Income and Concessions	I don't agree on the transport charges only people who can afford to pay this is penalising people out working again if you are not in employment you seem to get everything that is going but if you are hard working you are entitled to nothing.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28785	An employee of West Lothian Council	6. Reviewing Income and Concessions	Example number 4 is very vague. What kind of transport services, who will this impact and at what detriment?	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28786	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree with all except transport charges for the vulnerable.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28787	An employee of West Lothian Council	6. Reviewing Income and Concessions	We have a free taxi for our son to get to school (he is ASD) It is very appreciated but we would be willing to contribute towards this service if it meant it was still run.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28788	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree with only the following: o 4. Introduction of a charge for transport services reflecting greater use of outreach services This is on the basis that number 4 would be means tested. Many of the older population have greater assets and disposable income than the generations behind them, many of whom cannot afford to purchase a home.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28789	An individual	6. Reviewing Income and Concessions	Maybe OK with outreach transport charges.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28790	An employee of West Lothian Council	6. Reviewing Income and Concessions	There are a lot of proposals here but very little detail. Transport services for outreach services - I am not sure which these are or who this would affect? Fees for non-residential care services sounds like it could be very expensive for those who do need the services. I would want more information on how this will affect people and how eligibility will be assessed.	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Many thanks for your response. Your comments have been noted.
28791	An individual	6. Reviewing Income and Concessions	I would also be happy to pay for my son to access transport to Pathways even though it may not be popular. We do not use public transport often. When accessing visitor attractions disabled people are often charged but their carer goes free; perhaps this could also apply to bus passes. Again, this won't be a popular move. Charging for car parks would be acceptable, but not if it is the only place for people who work for the Council.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28792	An employee of West Lothian Council	6. Reviewing Income and Concessions	4 - what does this mean? will this be through council tax? will this just be a charge for those in need of outreach services? What will be involved in the financial assessment of affordability? How will we determine a threshold of who is to pay and who is not? What care services will this apply to? How many people will be affected?	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28793	An individual	6. Reviewing Income and Concessions	4. And yet you say earlier you are consolidating services to concentrate from less locations. It seems this is a way to create new revenues!	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28794	An individual	6. Reviewing Income and Concessions	1, 3 and 4 agreed 2 - disagree. To charge for car parking will discourage people from using the facilities and cause issues on surrounding roads.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28795	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think a creative look at provision and services for older people needs to be adopted. Can services like free bus passes/rail travel be means tested? There are a large number of retired people who do not need to have this as they can afford to fund this themselves.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28796	An individual	6. Reviewing Income and Concessions	Cannot support 2 and 4 or ageing population fees and charges. All of this is far too vague to even offer a basic response never mind anything more informed.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28797	An individual	6. Reviewing Income and Concessions	A review of the concession pass for transport outside the area could also be looked at.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28798	An individual	6. Reviewing Income and Concessions	4. Agree totally	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28799	An individual	6. Reviewing Income and Concessions	Scrap the taxi card scheme. The Dial A Bus service is already available to those who cannot travel by other public transport means. One of the purposes of benefits such as Disability Living Allowance/Personal Independence Payment is to offset additional costs from a person's disability and cover costs such as using taxis.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Many thanks for your response. Your comments have been noted.
28800	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	4. This further isolate people with disabilities and their carers, particularly as public transport in West Lothian is already poor. Depending on the threshold set we are concerned about the effect this would have on carers in employment and their families who may already be experiencing financial poverty.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28801	An employee of West Lothian Council	6. Reviewing Income and Concessions	Item 4 above would not be on my list as transport is a key issue in some of our communities and can affect employment opportunities and take up.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28802	An employee of West Lothian Council	6. Reviewing Income and Concessions	Again if shifting the balance of support from council to communities, alternative affordable transport must be in place to allow citizens to access support.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
28803	No Response	6. Reviewing Income and Concessions	An introduction of a charge of transport services seems fair	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28804	No Response	6. Reviewing Income and Concessions	4. You could look at implementing charges based on the number of empty seats.	Reviewing Income and Concessions - transport services	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28805	An individual	6. Reviewing Income and Concessions	item 4 no comment	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28806	An individual	6. Reviewing Income and Concessions	4. Proposal is too unspecific to comment	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28807	An individual	6. Reviewing Income and Concessions	Travel to special needs schools and facilities or adult day centres should not be means tested.	Reviewing Income and Concessions - transport services	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28808	An individual	6. Reviewing Income and Concessions	Yes to charging modest amounts on an income basis for transport services.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28809	An individual	6. Reviewing Income and Concessions	Absolutely. All should contribute for what they use. Community transport could charge	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28810	An individual	6. Reviewing Income and Concessions	More information needed on proposal 4.	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28811	An individual	6. Reviewing Income and Concessions	Increase in transport services again will hit the poorest members in society who can not afford their own car.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

28812	An employee of West Lothian Council	6. Reviewing Income and Concessions	Subsidies for local bus services need to be reduced and greater focus placed on encouraging the commercial sector to close this gap. Developer funding needs to be maximised to contribute to transport requirements.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28813	An individual	6. Reviewing Income and Concessions	Free bus travel should be provided for all elderly community members.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28814	An individual	6. Reviewing Income and Concessions	What are the plans ideas/plans for the transport changes? Outreach services are being put in due to council changes, therefore why are charges being passed onto service users? Do WLC currently provide pay Support Providers for travelling time/mileage and therefore is this cost covered in SDS budgets for individuals?	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response has been noted. The proposal will be fully developed once the consultation outcome is agreed.
28815	An individual	6. Reviewing Income and Concessions	except that concessionary travel should remain in place as this supports the mobility needs of our elderly and prevents isolation and loneliness. I would say, though, that I would support the raising of the age for eligibility for the bus pass from 60 to 65. (and perhaps even 68 as people don't need it before they retire from work).	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28816	An individual	6. Reviewing Income and Concessions	I disagree with point 4.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28817	An individual	6. Reviewing Income and Concessions	Fees for transport services could preclude people from using the services they need due to the additional transport costs.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28818	An individual	6. Reviewing Income and Concessions	I believe that everyone should be paying a small fee for using public transport.	Reviewing Income and Concessions - transport services	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28819	An individual	6. Reviewing Income and Concessions	4 does this suggest removing the over 60 bus pass and charging for travel?	Reviewing Income and Concessions - transport services	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The Scottish Government is responsible for the concessionary travel bus passes.
28820	An individual	6. Reviewing Income and Concessions	Yes I elderly care should be means tested So should the free public transport for older people	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28821	An employee of West Lothian Council	6. Reviewing Income and Concessions	Point 4 remember that these links in rural areas are vital to these communities in feeling inclusive	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28822	An employee of West Lothian Council	6. Reviewing Income and Concessions	4 Transport should be charged at going rates	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28823	An individual	6. Reviewing Income and Concessions	4. Agree	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28824	An individual	6. Reviewing Income and Concessions	Item 4: Again, these services are generally used by people in need, buses to other hospitals. Therefore, again, I would say, no.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28825	An individual	6. Reviewing Income and Concessions	I believe people should pay for transportation. People who are able to could make a contribution.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28826	An individual	6. Reviewing Income and Concessions	I agree older people should pay on public transport - it should not be free!	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28827	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	This is money that could be directed as a contribution to subsidising bus services. Discontinue elderly rail concession where there is an adequate bus service.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28828	An individual	6. Reviewing Income and Concessions	small charge for children who at present have a free bus pass.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

28829	An individual	6. Reviewing Income and Concessions	I am not supportive of the changes proposed to travel concessions.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28830	An individual	6. Reviewing Income and Concessions	Introduction of charge for transport services - should not happen - people could become housebound.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28831	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Those transport services should not be charging - we need help when unwell to see specialist mental health services - when unwell we don't always want to go for help - charging would make it more difficult to get us to the help we need.	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28832	An individual	6. Reviewing Income and Concessions	Discontinue elderly rail concession where there is an adequate bus service.	Reviewing Income and Concessions - transport services	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28833	An individual	6. Reviewing Income and Concessions	NO to 4 (transport)	Reviewing Income and Concessions - transport services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28834	An employee of West Lothian Council	6. Reviewing Income and Concessions	Will this include Country Parks?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28835	An individual	6. Reviewing Income and Concessions	The most vulnerable must be protected. Charges could hit them the most.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28836	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes. The council needs to promote revenue generation streams in order to protect core services.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28837	An employee of West Lothian Council	6. Reviewing Income and Concessions	I feel that these services should be means tested and if people have the ability to pay then they should.	Reviewing Income and Concessions (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Means testing would involve considerable resources and is not legally allowed for many services. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28838	An individual	6. Reviewing Income and Concessions	yes I agree some financial contribution needs to be made in order to keep these services running.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28839	An employee of West Lothian Council	6. Reviewing Income and Concessions	As reflected in my other comments, I agree with a charging policy.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28840	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree that this needs to be looked at, but needs to be considered against the proposals to increase council tax etc. Needs to be fair to both those who are on benefits and those who are not?	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28841	An individual	6. Reviewing Income and Concessions	It would be dependent on what the criteria for those who 'could afford' to pay was. Our aging population, most worked for decades, so I would be against penalising them in old age.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28842	An individual	6. Reviewing Income and Concessions	Understandable as long as it is done sensitively	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28843	An individual	6. Reviewing Income and Concessions	Agree charging is necessary for some services to support these services	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28844	An individual	6. Reviewing Income and Concessions	any introduction of charges in these areas must be fair.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28845	An employee of West Lothian Council	6. Reviewing Income and Concessions	Certain concessions need to be reviewed - age is not reflection of ability to pay. Charges on car parks and commercial property may have detrimental impact on businesses and towns throughout the area. It would need careful consideration. Other income opportunities need to be considered by services throughout the council. This would be essential for effective cost recovery.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. A number of the concessions available to older people are set by the Scottish Government.
28846	No Response	6. Reviewing Income and Concessions	The council should be looking at services that it does not have to provide for free by law. Too many services are provided which could be chargeable - at a modest amount.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate. The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28847	An individual	6. Reviewing Income and Concessions	what you mean is those prudent enough to have saved some money will pay - those who had the same opportunities but chose to spend all their money will get a free ride. Those who work for a living will, as usual, have to pay - those who shirk will get a free ride.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28848	An individual	6. Reviewing Income and Concessions	If car leasing charges were reasonable enough (we're not a major city remember) then absolutely bring them in!	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is fair and reasonable.
28849	An individual	6. Reviewing Income and Concessions	Support alignment with Scottish averages.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council regularly reviews its charging and concessions policy with current council charges being benchmarked against other local and national charges.
28850	An individual	6. Reviewing Income and Concessions	it is important that those who are most in need and have little money are protected against some of these proposals.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28851	An individual	6. Reviewing Income and Concessions	Another attack on the elderly who've all worked and paid taxes and insurance yet will be asked to pay again if they've been financially astute and planned for their retirement.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. The council will continue its fair pricing strategy and concession scheme. This should ensure that charges used to generate income to support council services is done in a way that is consistent with the council's Anti Poverty Strategy.
28852	An employee of West Lothian Council	6. Reviewing Income and Concessions	This pretty much seems like penalising the vulnerable.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. The council will continue its fair pricing strategy and concession scheme. This should ensure that charges used to generate income to support council services is done in a way that is consistent with the council's Anti Poverty Strategy.

28853	An employee of West Lothian Council	6. Reviewing Income and Concessions	Not all old people are poor. Where they can afford it they should be paying, and many are willing but there is no facility for them to do so.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28854	An individual	6. Reviewing Income and Concessions	This area should be a priority to generate income. People expect to pay for certain services and the broader tax payer shouldn't see an increase in council tax for services that they do not require so charging for specific services should be prioritised.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28855	An individual	6. Reviewing Income and Concessions	Yet again the hardworking low paid people will be paying for all of your proposed charges	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28856	An employee of West Lothian Council	6. Reviewing Income and Concessions	Unless withdrawal of service would marginalise a community, support. Charge for any services we provide.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28857	An individual	6. Reviewing Income and Concessions	How to identify those who could afford to pay is the issue here. There are loads of people out there who are capable of disguising their income.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. In some instances this may require financial assessment of individuals to identify who can afford to pay.
28858	An individual	6. Reviewing Income and Concessions	agreed, but assessment of needs is a priority over ability to pay	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28859	An individual	6. Reviewing Income and Concessions	As long as means testing is applied where appropriate then fine	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28860	An individual	6. Reviewing Income and Concessions	It always gets back to those who can afford will be asked to pay - for the individuals who have worked, paid into the system and/or saved hard this is another tax. Same old, same old.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28861	An employee of West Lothian Council	6. Reviewing Income and Concessions	Why haven't the 4 proposed charges been in place previously? Other LA's have these in place.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28862	An individual	6. Reviewing Income and Concessions	Income to the Council is vital therefore - property revenue and business rates are crucial as they generate a useful income for the Council whilst boosting economic development and the employment position in West Lothian.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28863	An employee of West Lothian Council	6. Reviewing Income and Concessions	I would be happy to pay for services if I could afford them to help those less fortunate.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28864	An individual	6. Reviewing Income and Concessions	The council can not be seen to be discriminating against those who are not elderly or have made their own arrangements to have financial stability.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28865	An employee of West Lothian Council	6. Reviewing Income and Concessions	there should always be consideration for those who are on low incomes	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

28866	An individual	6. Reviewing Income and Concessions	I think you have no choice. It may need to go further.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28867	An individual	6. Reviewing Income and Concessions	1. to 4. seem sensible.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28868	An individual	6. Reviewing Income and Concessions	Charge for events held in public open spaces and provide cleanup and toilet facilities at a charge.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28869	An individual	6. Reviewing Income and Concessions	Develop internal consultant service to generate revenue e.g. if a developer is paying a contractor to design their required open space and show impact on existing open space (on a new housing development) we could charge the same or less, and provide a much better consulting service that is fully in line with our open space strategy and planning guidelines. This could also be easily expanded to provide ecological information and advice with minimum setup costs. There would be a saving to developer and we would generate revenue	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28870	An individual	6. Reviewing Income and Concessions	Too many people milking the system	Reviewing Income and Concessions (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28871	An individual	6. Reviewing Income and Concessions	agree with all of the above apart from the car park charges.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28872	An individual	6. Reviewing Income and Concessions	Is this legal?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate.
28873	An individual	6. Reviewing Income and Concessions	so if you work and save all your life you are penalized but if you are a dosser you get every thing going. not fair	Reviewing Income and Concessions (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28874	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charge for Freedom of Information Requests and Subject Access Requests.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28875	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charge for Child Performance Licences.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28876	No Response	6. Reviewing Income and Concessions	I agree that paying for these services should be means tested.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28877	An individual	6. Reviewing Income and Concessions	Charge for anything you can.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28878	An individual	6. Reviewing Income and Concessions	As regards the rest of the proposals, I tend to agree on, if it indeed plugged the gap.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.
28879	An individual	6. Reviewing Income and Concessions	I agree the council needs to look at introducing charges where there is a cost involved in providing a non statutory service to the public. Most other councils charge for blue badges and car parking.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28880	An individual	6. Reviewing Income and Concessions	Core services should not be charged for (e.g. bin collections). Option services/products should normally be subject to a charge, e.g. blue badges, as proposed; all special refuse uplifts; use of council property for non-council activities; provision of specialist equipment/facilities.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28881	An employee of West Lothian Council	6. Reviewing Income and Concessions	fair assessments required so as not to disadvantage residents who are already struggling.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28882	An employee of West Lothian Council	6. Reviewing Income and Concessions	Where the levying of these charges appear to be a reasonable position and will generate revenue, there will inevitably be a cost involved in the administration and collection process. This process will have to be considered carefully as if this proves to be inefficient and costly to administer then the estimated income from these already unpopular charges will be impacted.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28883	An employee of West Lothian Council	6. Reviewing Income and Concessions	The proposal may just be the tip of the iceberg. There is thought to be a number of services for which West Lothian does not charge where others do. There is room for greater benchmarking of such charges to ensure that the council maximises its income in the context of its location and the character of its area. All charges should be included in a book of charges and increased by inflation each year. care should be taken to ensure that administering the charge does not exceed the income generated and that use of new technology and outsourcing are optimised.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28884	No Response	6. Reviewing Income and Concessions	Have concerts at Livingston Stadium would bring money in to help council. Maybe Rod Stewart.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Livingston Football Club lease the land on which the stadium sits from the council and as such the football club are responsible for the stadium management and events. We will pass this suggestion to Livingston Football Club.
28885	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think people would be happy to contribute, if they are able, to keep quality front line services.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28886	An individual	6. Reviewing Income and Concessions	There must be scope for making better use of Council facilities to deliver income streams.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
28887	An individual	6. Reviewing Income and Concessions	Treat it like a charity and have pots at tills in shops, etc. for people to donate money to WLC.	Reviewing Income and Concessions (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council does not have charitable status therefore it could not undertake fundraising in the manner suggested.
28888	An employee of West Lothian Council	6. Reviewing Income and Concessions	Statutory public services are funded from the public fund/taxation - paying again and again for something already paid for. Get rid of ALL non-statutory services (unlike the several statutory services you are proposing to delete/reduce to insignificance).	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	All services, including non statutory services, will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
28889	An individual	6. Reviewing Income and Concessions	All older people should not pay	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28890	An individual	6. Reviewing Income and Concessions	Raise Council Tax - even slightly will help.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28891	An employee of West Lothian Council	6. Reviewing Income and Concessions	This is very sad. If you work hard all your life and save well live well you will get everything taken. If you never work, drink, gamble etc we will pay for you. How is this fair?	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28892	An individual	6. Reviewing Income and Concessions	Sounds sensible as long as it is properly assessed	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28893	An individual	6. Reviewing Income and Concessions	2. Increase fees and charges for payable services i.e planning and building warrant applications and similar voluntary fees which individuals opt to pay for what they want for their own circumstances.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

28894	An individual	6. Reviewing Income and Concessions	3. Increase penalty fees i.e. parking fines, late payment fines	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account the impact of charges on vulnerable people and the availability of concessions. This will include non statutory penalty fees where the council has discretion to make changes.
28895	An individual	6. Reviewing Income and Concessions	4. . Increase penalty fees i.e Late payment of council tax fines	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The fees for late payment of council tax are not set by the council.
28896	An employee of West Lothian Council	6. Reviewing Income and Concessions	This falls in line with many other Local Authorities.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28897	An individual	6. Reviewing Income and Concessions	Either everyone pays or no new charges. The money made would be eaten up by administering the charges.	Reviewing Income and Concessions (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28898	An employee of West Lothian Council	6. Reviewing Income and Concessions	There is concern around the collection of this additional income which will ultimately fall within Revenues.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28899	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think that more services need to be means tested and if you can afford to pay you should.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28900	An individual	6. Reviewing Income and Concessions	Free to all should be the maxim here. Travel Concession is free to all as all services for over 60's should be.	Reviewing Income and Concessions (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised.
28901	An individual	6. Reviewing Income and Concessions	Universal delivery of services is the only way to ensure that services remain free for all. The minute you starting charging some for services is the second you put the first nail in the coffin of those services for the most vulnerable.	Reviewing Income and Concessions (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised.
28902	An employee of West Lothian Council	6. Reviewing Income and Concessions	More support for the over 60s	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28903	An individual	6. Reviewing Income and Concessions	Can see the sense in this, but need to make sure that the introduction of charges does not create an administrative burden that costs more than the charge introduced.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28904	An individual	6. Reviewing Income and Concessions	Restruct free travel for over 60's to those in greatest need	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28905	An individual	6. Reviewing Income and Concessions	Charges for a wider range of services makes sense IF the revenues can be collected efficiently (e.g. digitally) There is no point in charging if all the benefits are lost chasing late payments etc. The assessing of affordability could also create costs. This needs to be carefully analysed.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28906	An employee of West Lothian Council	6. Reviewing Income and Concessions	With regard to concessions, look at models in more remote communities where concessions are offered perhaps once a week or month to vulnerable groups, if concessions are to continue. This could include free swimming, dial a bus service etc etc. Make people who can afford to pay for services pay - remove universality, especially free breakfast clubs!	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council regularly reviews its charging and concessions policy and this can be considered as part of the next review. Most universal service provision is set nationally by the Scottish Government and cannot be changed by the council.
28907	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes I agree. Income generate where and when possible	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28908	An individual	6. Reviewing Income and Concessions	yet again if you have worked all your life you have to pay	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28909	An employee of West Lothian Council	6. Reviewing Income and Concessions	With the exception of charging in car parks, I am in favour of all the suggestions.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28910	An individual	6. Reviewing Income and Concessions	You can't charge council tax then charge again for essential services.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28911	An individual	6. Reviewing Income and Concessions	Change free bus pass to age 65	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.
28912	An individual	6. Reviewing Income and Concessions	open to more multi use,,, charges to use after hours	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
28913	An individual	6. Reviewing Income and Concessions	all for more charges for services or sponsorships ,, paid advertising!!!! Keep services	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28914	An employee of West Lothian Council	6. Reviewing Income and Concessions	Can consideration be given to adding administrative charges to those who choose to pay council tax/rent other than by direct debit	Reviewing Income and Concessions (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council continues to have a variety of ways to pay council tax to help maintain collection levels.
28915	An employee of West Lothian Council	6. Reviewing Income and Concessions	Can administrative charges be levied on service users who choose to pay on invoice rather than in advance.	Reviewing Income and Concessions (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The nature of some services may mean that there is no opportunity to pay in advance.
28916	An individual	6. Reviewing Income and Concessions	The council needs to focus more on increasing the collection of unpaid council tax and debts owed from over paid housing benefit awards. This would result in significant funds getting paid back into the local authority.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
28917	An individual	6. Reviewing Income and Concessions	Perhaps nominal charging for some health services should also be considered.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Health services are provided by NHS Lothian and through the Integrated Joint Board.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28918	An individual	6. Reviewing Income and Concessions	As long as all charges and contributions are means tested then yes, fine	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28919	An individual	6. Reviewing Income and Concessions	3. The council should already be maximising rental returns on desirable properties whilst encouraging occupancy in unoccupied areas.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered. In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28920	An individual	6. Reviewing Income and Concessions	Would agree totally with all charges I don't think they are unreasonable. council workers taking cars to work should not have issues with paying a nominal amount to park	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. There is no specific proposal to charge employees for parking.
28921	An individual	6. Reviewing Income and Concessions	YES to 3 (commercial property)	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	In reviewing the commercial property portfolio the aim is to create a dynamic and proactive portfolio that strives to deliver good opportunities and improving rent returns. The review of rents will be considered in line with various factors including market rates and local circumstances.
28922	An individual	6. Reviewing Income and Concessions	Yes - I support the councils planned changes but not more than 3% no more rises	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28923	An individual	6. Reviewing Income and Concessions	How is the general public expected to find a solution to the funding situation and savings expected to be made when mp's and Councillors who are suppose to understand and be experienced in these matters, when they dont appear to have a clue as to what is needed and receive a good salary for supposedly doing so.	Reviewing Income and Concessions (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
28924	An individual	6. Reviewing Income and Concessions	These little changes are going to hit our most vulnerable people again, can't support this. Again, no matter how nicely it's worded, these are not positive changes that are being proposed.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28925	An individual	6. Reviewing Income and Concessions	I fully support this providing the cost is frozen at set rates for the next five years	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28926	An individual	6. Reviewing Income and Concessions	This appears to be a tax on those who have perhaps worked hard and again those who have always received support despite never having contributed. This offers no incentive to the young who will see that working hard puts you at a disadvantage.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28927	An individual	6. Reviewing Income and Concessions	Agreed but all must pay not just those with some savings, fair all contribute	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28928	An individual	6. Reviewing Income and Concessions	I think its reasonable to charge for these as other councils do and people get used to paying for them after a little while. If it was private they would be paying anyway.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28929	An individual	6. Reviewing Income and Concessions	do not cut these services , old people and disabled should not be mean tested , they have worked all their days not to be penalised due to age related issues.	Reviewing Income and Concessions (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	West Lothian Council currently has one of the lowest levels of charging within Scotland. Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate.

28930	An employee of West Lothian Council	6. Reviewing Income and Concessions	Totally do not agree - who do you deem can afford to pay? The person who pays their community charges fully on time should be given concessions, not the person who chooses not to pay.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
28931	An individual	6. Reviewing Income and Concessions	In order for equitable approach here this would need to be means tested	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. Means testing would need to be considered within the context of legal requirements and the cost compared to the potential income generated. Concessions will be reviewed to ensure they are appropriate and that their use is maximised.
28932	An individual	6. Reviewing Income and Concessions	How about introducing a bedroom tax for the wealthy, that should take care of all the money you need and then some	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Other than council tax, the council has no ability to introduce or apply taxes.
28933	An individual	6. Reviewing Income and Concessions	This leaves an imbalance between working people that have been in the area all their lives and immigrants settling in the area.	Reviewing Income and Concessions (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
28934	An employee of West Lothian Council	6. Reviewing Income and Concessions	It is unfortunate to increase charges but as a council we do not take advantage of income generation activities. We need to look at introducing charges where we don't and others do (e.g. blue badges and bulkies).	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28935	An employee of West Lothian Council	6. Reviewing Income and Concessions	I do think those that can afford to make contributions should do so.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28936	An employee of West Lothian Council	6. Reviewing Income and Concessions	Sounds like it will hit those most in need hardest.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28937	An employee of West Lothian Council	6. Reviewing Income and Concessions	agree unless person in severe financial straits	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28938	An individual	6. Reviewing Income and Concessions	Consider charging journalists and political analysts for the provision of Freedom of Information Requests.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council is allowed to introduce charges for FOI requests.
28939	An employee of West Lothian Council	6. Reviewing Income and Concessions	charges for some things might put off the most vulnerable from applying, even if they know that they will be financially assessed. Some individuals also might not understand finances etc. and even though they had enough money to pay, they could refuse the assistance.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28940	An individual	6. Reviewing Income and Concessions	Again this seems to be targeting the old and vulnerable, plus my generation were encouraged to take out pensions for there later years now if you take an illness in later years the pension will be taken from you to support your illness what happened to all the contribution to we made to National Insurance and Taxes we paid during our working life	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. The state pension is set nationally by the UK government.
28941	An employee of West Lothian Council	6. Reviewing Income and Concessions	I generally agree with the principle that those who can afford to pay should be prepared to make a contribution for certain services.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28942	An employee of West Lothian Council	6. Reviewing Income and Concessions	There are other potential income streams or savings Parking fines / attendants stop council vehicles going home a mechanism for reporting residents who fly tip, dog waste, use drugs within council homes or premises, ensure that all rechargeable works are fully chased up and tenants, customers and residents are aware of their responsibilities and what actions would happen	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28943	An employee of West Lothian Council	6. Reviewing Income and Concessions	Here we go again, make the people who have worked hard pay and the ones who have piddled it down the drain get it for free. I am sick of means tested funding arguments. Really, really sick of it.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28944	An employee of West Lothian Council	6. Reviewing Income and Concessions	Perhaps a means tested one for some of these suggestions	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28945	An employee of West Lothian Council	6. Reviewing Income and Concessions	If your goal is to create further anger and resentment towards the council from residents already facing further reductions to a service they already struggle to access, then this is a wonderful idea.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate.
28946	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree that this has to be Means tested	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28947	An individual	6. Reviewing Income and Concessions	provided the charges are not excessive , good ideas	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28948	An individual	6. Reviewing Income and Concessions	This will disproportionately impact people on low incomes	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28949	An individual	6. Reviewing Income and Concessions	The free travel for over 60s is very generous and could be reviewed given that many of this age group have more disposable income than younger people with families who have to pay travel costs in full.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.
28950	An employee of West Lothian Council	6. Reviewing Income and Concessions	Other ways to increase income Charging for replacing lost rent or council tax cards.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28951	An employee of West Lothian Council	6. Reviewing Income and Concessions	Photocopying charges in libraries could be increased. Re-introduce fines for late library books to ensure they are brought back on time.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28952	An employee of West Lothian Council	6. Reviewing Income and Concessions	Charging for missed appointments eg repairs	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28953	An individual	6. Reviewing Income and Concessions	How much will means testing these services cost?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Means testing will be considered within the context of legal requirements and the cost compared to the potential income generated. Means testing will only be applied where income received is substantially greater than the cost of collection.
28954	An individual	6. Reviewing Income and Concessions	I fully support these proposals.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28955	An employee of West Lothian Council	6. Reviewing Income and Concessions	Yes to all.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
28956	No Response	6. Reviewing Income and Concessions	I agree that if those who can afford to pay for services should pay for them. But these are probably the same people who would have worked hard through their working lives and contributed much more in council tax, national insurance contributions. Caution should be used when setting the threshold for when payment should start.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28957	An individual	6. Reviewing Income and Concessions	Lobby the Scottish Government for an immediate increase in planning fees, particularly for Developers applying for major projects, â€¢ Increasing licensing fees to cover the cost of staff.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government is implementing increases in planning fees for 2017/18.
28958	No Response	6. Reviewing Income and Concessions	How much will it cost to introduce a team to carry out these financial assessments for contributions?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28959	An employee of West Lothian Council	6. Reviewing Income and Concessions	Increase service charges for people who can afford to pay more.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28960	An individual	6. Reviewing Income and Concessions	I think council employees are often in lesser paid positions than private sector this is a cost I don't think they should have to pay.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28961	An employee of West Lothian Council	6. Reviewing Income and Concessions	As long as charges are only made against people who can afford it.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28962	An individual	6. Reviewing Income and Concessions	Should have been done ages ago when the SNP-dominated government froze council tax. If this had not been done your finances would have been in better shape. Blame it on SNP councillors	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28963	An individual	6. Reviewing Income and Concessions	As in my earlier answers, you need to invest time and effort into maximising your income opportunities. So, the halls you have, how can they be better utilised - flexible office space, small business units, increase rents/decrease as appropriate to get more people using them. Schools - rent out the canteen spaces evenings / weekends, really actively promote school meals to get more sales and therefore more profit - why do the students not use the canteen? Run Healthy Eating clubs - Slimming World and Weight Watchers make millions! Tie in with Healthy cooking clubs using the school canteen after hours I could go on	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Property Asset Management Strategy includes plans to ensure effective and efficient use of property assets. We will review our property assets and usage where possible taking into account the review and redesign of services delivered in the community, whilst considering safety and service delivery requirements.
28964	An individual	6. Reviewing Income and Concessions	Absolutely No. The aged have most likely paid their NI and tax and are absolutely entitled to receive these benefits in their old abs vulnerable days. Those who have paid into the welfare system all their lives need to access those services in their old age and have a right to do so. We are losing sight of that.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28965	An individual	6. Reviewing Income and Concessions	I think that any plans for additional charging needs to be careful considered case by case. The majority already pay a huge amount in tax for council services.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28966	An individual	6. Reviewing Income and Concessions	OK - as long as those who can afford pay.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28967	An individual	6. Reviewing Income and Concessions	Could the council generate further revenue from looking after more of the local area for example - increasing council tax slightly to cover the costs of removing the need for private factor fees?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28968	An individual	6. Reviewing Income and Concessions	I would rather pay a bit more than lose a service all together	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28969	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree, However i think there is more scope to charge for services and generate income: â€¢Issue parking permits to staff for an annual fee. Suggest Â£50 p/a this could be deducted from wages ? â€¢Terraces car park open to public after 10am and charge accordingly. â€¢Sell advertising space? on council vehicles â€¢ pool cars ? Socail media ? potential to generate millions over the next 5 years . This would help plug the gap. Would the above mean a corporate arm / team be set up to manage and run this? could in house skills be used for this? ie corporate coms/ business gateway	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. There is no specific proposal to charge employees for parking. Scope for advertising and sponsorship will be considered.
28970	An individual	6. Reviewing Income and Concessions	Very political to be targeting the handicapped and elderly. Free personal and nursing care should remain available to everyone.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Free personal care will continue to be provided for older people.
28971	An individual	6. Reviewing Income and Concessions	The council should move towards removing service that are free or heavily subsidised which are non statutory	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
28972	An employee of West Lothian Council	6. Reviewing Income and Concessions	Parents are used to paying Â£1.50 for snack at nursery continue this and put it towards the contribution for breakfast club.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28973	An individual	6. Reviewing Income and Concessions	How much would they pay and what are the details of means-testing?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The details of a charging scheme will be developed and reported to committee for approval.
28974	An individual	6. Reviewing Income and Concessions	look at revenue generation not just cuts, parking charges/fines/permits, enviro enforcement.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
28975	An employee of West Lothian Council	6. Reviewing Income and Concessions	How much would this save? Does means testing produce requisite savings?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This proposal will generate an income source for the council whilst also having an impact on demand for services.
28976	An individual	6. Reviewing Income and Concessions	Very many elderly could not afford the new charges,and must be protected.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28977	An employee of West Lothian Council	6. Reviewing Income and Concessions	Services provided by schools eg room rent should be paid for up front and not on a service account which costs revenues money in producing bills, postage,, recovery notices for non payment etc etc.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
28978	An individual	6. Reviewing Income and Concessions	I'm OK with this, as long as the means testing is fair and not cost prohibitive.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28979	An individual	6. Reviewing Income and Concessions	Need to ensure that any decision on costs/charges does not heavily impact on people who cannot afford high charges. Especially the elder population	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28980	An individual	6. Reviewing Income and Concessions	Think the above acceptable charges. Small charges for older people using public transport is a good idea and sure this would be preferable to losing the bus services	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28981	An employee of West Lothian Council	6. Reviewing Income and Concessions	Customer's should pay upfront for lease of the council's facilities. We currently have to waste time chasing non payment of hire of sports halls and schools. Thousands of pounds are written off every year.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This would need to be considered within the parameters of providing methods of payment consistent with the council's Anti Poverty Strategy.
28982	An employee of West Lothian Council	6. Reviewing Income and Concessions	Further income generation can be gained for our parks through sponsorship from businesses and Crowdfunding from residents/visitors. (This will only work if the income generated is ringfenced for spend in the park that people have donated towards.) This could either be set up in-house or through existing crowdfunding sites, such as MyParkScotland.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28983	An employee of West Lothian Council	6. Reviewing Income and Concessions	How will the income be collected? This will probably mean investment in software and additional training for existing staff on top of their normal duties. Consideration needs to be given to the recovery processes for non-payers. If the council starts charging for services it must be seen to be effective in the collection and recovery. Would the non-residential care assessments come under the Anti-Poverty team? There is also the risk that those that are entitled do not claim as it can be seen as an onerous task which means that the vulnerable do not receive the services that they need. This needs to be considered and a strategy put in place.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will include the development of the new Anti Poverty team when developing an approach to assessing income for charging.
28984	An individual	6. Reviewing Income and Concessions	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
28985	An individual	6. Reviewing Income and Concessions	Whilst such charges would be unpopular with residents, their introduction is probably inevitable at some stage. Care should be taken though to ensure that some charges do not disadvantage the less well off sections of society and some charges should only be introduced as a last resort. As a council employee there are probably quite a few services (especially to businesses) we provide which we should charge for but don't at present. It could be that legislation does not currently allow us to make these charges but this could perhaps be looked at further by legal and perhaps lobbying local politicians to put forward changes to legislation to allow charges to be made.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28986	An employee of West Lothian Council	6. Reviewing Income and Concessions	There is concern around the collection of this additional income which will ultimately fall within Revenues. Between this section and section 7, there are proposals to charge for brown bin collection, bulky uplifts and blue badges. Questions arose as to how this would be collected ie one off payment versus instalments. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure. Up front charges may be a way to make this and other charges more cost effective. This would avoid the need to chase debt. Since it is only cost effective to chase debt over a certain level up front charges would mean that the customer has to pay before the service is provided. This upfront charge should be extended to cover rental of rooms, buildings and sports facilities.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28987	An employee of West Lothian Council	6. Reviewing Income and Concessions	This section also links back to section 3c, the new Anti-Poverty team and the suggestion of charging for non residential care for the elderly. Should this be agreed, the administration of this would be best placed under the same team, if agreed, that all financial assessments will be assessed	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will include the development of the new Anti Poverty team when developing an approach to assessing income for charging.
28988	An individual	6. Reviewing Income and Concessions	I agree with raising revenue this way. I'm sure most people would agree. Also charging for lost/damaged bus passes,rent /council tax cards would raise revenue but also encourage people to pay their rent and council tax by direct debit. As direct debit is also cost effective. If these measures were taken it would also reduce administrative costs thus reducing the budget. Looking at the small savings that can be made as well as the big savings is very astute.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
28989	An individual	6. Reviewing Income and Concessions	There is concern around the collection of this additional income which will ultimately fall within Revenues. Between this section and section 7, there are proposals to charge for brown bin collection, bulky uplifts and blue badges. Questions arose as to how this would be collected ie one off payment versus installments. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure. Perhaps by making up front charges rather than billing after the fact would be more cost effective. People would pay for the service/rental before they could use the service rental. This would reduce the need to chase debt and I understand that it is only cost effective to chase debt over a certain level so for small fees if the customer does not pay there is no penalty. Up front payment would mean the service/or rental could not be booked until payment was made.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
28990	An individual	6. Reviewing Income and Concessions	This links back to section 6, more money collection work with less staff to do it. If these services are to be charged for it should be up front charges.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	This would need to be considered within the parameters of providing methods of payment consistent with the council's Anti Poverty Strategy.
28991	An individual	6. Reviewing Income and Concessions	Using the word include highlights that there are more than these four proposals on the plate - why were these four chosen, what has been missed out.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposals included are new charges being proposed. A large degree of the saving would be generated from incremental increases in current charges. There was not space to detail all potential increases to charges.
28992	No Response	6. Reviewing Income and Concessions	Need take care on making decisions to implement unfair charges, as it is always the same people who get hit. Those who have been careful throughout their working lives to save money for their old age to live comfortably on a day to day basis. But get hit because they have a bit more money than others... Everyone pays their council tax	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28993	An individual	6. Reviewing Income and Concessions	Better to increase charges for services than further reduce the services themselves	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28994	An employee of West Lothian Council	6. Reviewing Income and Concessions	Assuming this is "means tested" and those who cannot afford to pay are not required to, this would appear to be an effective suggestion.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28995	An employee of West Lothian Council	6. Reviewing Income and Concessions	Could we look at charging for permits to work on our network, fines for not obtaining a permit, fines being applied for failed reinstatements & workmanship within the roads network & charges for approving new development designs. Recovering costs from accident damage to our street furniture i.e signage & lighting columns.....	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
28996	An employee of West Lothian Council	6. Reviewing Income and Concessions	I think some consideration would need to be taken before implementing these, will it reach the correct group, or will we drive our older people further into fuel poverty and debt.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28997	An individual	6. Reviewing Income and Concessions	If you can pay a contribution for these services then I would have no problem with this.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28998	An individual	6. Reviewing Income and Concessions	These seem like small charges for a large gain for the council.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
28999	An employee of West Lothian Council	6. Reviewing Income and Concessions	does not seem fair to those who have saved throughout their lives	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29000	An individual	6. Reviewing Income and Concessions	I am in agreement with the concept of the above charges and think it could be applied to other areas within the proposal. I strongly feel that unilateral removal of public services as proposed with out providing communities the option of paying for them via taxes or at the point of use is very short sighted and detrimental. How tragic if facilities and services be removed that would be unlikely to ever be restored.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
29001	An individual	6. Reviewing Income and Concessions	Ensuring low paid and low income residents are not disadvantaged	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29002	An employee of West Lothian Council	6. Reviewing Income and Concessions	Additional income is a bonus to the council. However who would collect this additional income, would this fall within Revenues, we are facing staff cuts with additional work, this places staff under significant pressure to process & collect in a timely manner.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
29003	An individual	6. Reviewing Income and Concessions	The council can not continue with universal provision, people that can afford to pay must pay. This applies not only to care, but also to breakfast clubs and instrumental music etc. Why must people in lower band council tax properties subsidise services for more wealthy families?	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The officer proposals include measures related to raising additional income. The council regularly reviews its charging and concessions policy and this can be considered as part of the next review.
29004	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agree with all except transport charges for the vulnerable.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29005	An individual	6. Reviewing Income and Concessions	Otherwise, agree that you should pay if you can afford it.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29006	An individual	6. Reviewing Income and Concessions	Good idea if people can afford to pay	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29007	An individual	6. Reviewing Income and Concessions	If required then people would pay in order for these services to continue and also to support funds which could be used to save people from losing their job.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29008	An individual	6. Reviewing Income and Concessions	Asking for a contribution would mean a lot of older people would rather go without and suffer.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29009	An individual	6. Reviewing Income and Concessions	Sounds reasonable as long as it's means tested. Some pensioners can afford to contribute but some definitely unable to.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29010	An individual	6. Reviewing Income and Concessions	Older people may also be in a position where they 'could afford to pay'...	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29011	An employee of West Lothian Council	6. Reviewing Income and Concessions	Review free services to older people who can afford to pay, free travel, swimming etc	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The income and contributions proposals include a review of free services but this can be considered as part of the next review. Some of these services are determined nationally.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29012	An individual	6. Reviewing Income and Concessions	Ensure that those who really need help can get access to services, advice & help	Reviewing Income and Concessions (general)	4. The council is already doing this.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
29013	An individual	6. Reviewing Income and Concessions	People pay taxes, adding higher and more parking and service costs is counter productive	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian Council currently has one of the lowest levels of charging within Scotland. Audit Scotland continue to state that councils should consider charging as part of their overall financial management. Therefore councils should understand the contribution that charges make to their overall financial position, and the extent to which individual charges are subsidised. All local authorities can introduce discretionary charges where assessed as appropriate.
29014	An individual	6. Reviewing Income and Concessions	I don't agree at all with the case that if you can afford to pay you will and if not you will get it for free. It is totally unfair that people who have worked all their days and saved have to pay for services whilst others who have either not worked a day in their life or spent it all should get free care. It is the same care so if it is chargeable it should be chargeable to everyone.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29015	An individual	6. Reviewing Income and Concessions	With £5m in play you need to say much more about who would lose what. The general idea has merit.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29016	An employee of West Lothian Council	6. Reviewing Income and Concessions	charges should be means testednot a blanket charge .	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29017	An employee of West Lothian Council	6. Reviewing Income and Concessions	Introduction of extra charges for cemeteries i.e. charges for family history work	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29018	An employee of West Lothian Council	6. Reviewing Income and Concessions	Agreed in principal although once again the people who have worked, been prudent and saved money will be subsidising those who have not.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29019	An employee of West Lothian Council	6. Reviewing Income and Concessions	Income and concessions should be properly reviewed. Many charges have just been increased on a cost of living basis for years with no insight as to what the fees actually cover.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council regularly reviews its charging and concessions policy and this can be considered as part of the next review. The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29020	An individual	6. Reviewing Income and Concessions	agree only if the older people can afford to pay for and are not struggling to meet ends as it is and with the rest	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29021	An individual	6. Reviewing Income and Concessions	If you have not paid in why do you get out? Long term workers have paid national insurance to cover all costs, why then do those who have not contributed also get the benefits.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	National insurance rates and policy are set nationally by the UK Government.
29022	An employee of West Lothian Council	6. Reviewing Income and Concessions	If its done in other councils, do it here. Charge for replacement rent/council cards.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29023	An individual	6. Reviewing Income and Concessions	The Council can't keep providing free services so opportunities to source income should be investigated. Existing service users have been protected in some instances eg home safety service and charging only applied to new customers - this should be reviewed where all service users are charged - at present there is an unfairness	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29024	No Response	6. Reviewing Income and Concessions	A means tested approach would certainly generate income. This is a function that could be performed the the Council's Benefits Team.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29025	No Response	6. Reviewing Income and Concessions	It looks like we may be charging some of the most vulnerable citizens of West Lothian. How will we ensure that we protect those that are often on low income from being unable to pay for these essential services?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29026	An individual	6. Reviewing Income and Concessions	Totally agree. If we can afford to contribute and, many of us can, we should. But protect those who cannot at all costs.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29027	An individual	6. Reviewing Income and Concessions	Lobby the Scottish Government for an immediate increase in planning fees, particularly for Developers applying for major projects, Increasing licensing fees to cover the cost of staff. More clarity is needed on the contributions policy mentioned in your statement. How would this financial assessment be conducted collected and utilised? in particular what would the administrative costs be to run this programme? Is this introducing a two tier tax system for care at the point of service in the local community?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Scottish Government is implementing increases in planning fees for 2017/18. When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.
29028	An individual	6. Reviewing Income and Concessions	How would means testing be carried out? Would all councils use this system?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29029	An individual	6. Reviewing Income and Concessions	Depends on the detail and the cost involved / other alternatives etc. What about council jollies, sorry," fact finding missions" , conferences etc?	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29030	An individual	6. Reviewing Income and Concessions	If we need to charge then I think we should be asking people to contribute towards services that enhance their quality of life.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29031	An individual	6. Reviewing Income and Concessions	Any charges introduced should reflect the costs within the area by other providers .	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29032	An employee of West Lothian Council	6. Reviewing Income and Concessions	All fees should be reviewed properly to see what things actually cost rather than increasing fees across the board by a small percentage	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29033	An employee of West Lothian Council	6. Reviewing Income and Concessions	Has an equality impact been done on this and the other proposals? These changes must not place additional barriers on those who are already disadvantaged	Reviewing Income and Concessions (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
29034	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	It is strongly felt that increases to fees and charges and any changes in discretionary charges should be introduces gradually to prevent large increases for clubs and individuals which may deter some from sporting activity.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29035	An individual	6. Reviewing Income and Concessions	No bus passes for pensioners still in work and earning above certain levels	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The concessionary bus travel scheme is national scheme determined and set by the Scottish Government.
29036	An employee of West Lothian Council	6. Reviewing Income and Concessions	As long as these are paid for up front by the customer and not raised as invoices to be pursued by another department	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.

29037	An individual	6. Reviewing Income and Concessions	Really? Not happy at cutting costs for kids & us elderly, you want to take it out on disabled too!!!	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29038	An employee of West Lothian Council	6. Reviewing Income and Concessions	The council should consider charging for FOIs, Subject Access Requests, etc..	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29039	No Response	6. Reviewing Income and Concessions	Please ensure hall hire costs increase gradually and at a low level to ensure the renter remains viable and contributing. Don't price us out of existence and cut off your own nose.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29040	An employee of West Lothian Council	6. Reviewing Income and Concessions	similar to other authorities	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29041	An employee of West Lothian Council	6. Reviewing Income and Concessions	More work could be done on bench-marking charges in other councils for opportunities for increases.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29042	An individual	6. Reviewing Income and Concessions	How does the council propose to assess 'only those who could afford to pay'? That can be complex and can cost money to introduce systems to complete the function. It must be fair and fair is hard to achieve.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29043	An individual	6. Reviewing Income and Concessions	Any charges need to be affordable for users and not at the detriment of them	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29044	An employee of West Lothian Council	6. Reviewing Income and Concessions	I believe it would make sense to charge people upfront for services such as careline or community hall rental rather than after the fact - a person does not go into a shop and buy a loaf of bread then say they will pay it at the end of the month. I do not understand why some Council services are billed after the event and therefore there is the incentive for people to pay?!?! All these things can be means tested but people nowadays rarely expect to get anything for free unless they are on low incomes so I have no issues with a set fee for services such as Careline etc and this is for new AND existing customers.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29045	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	People should not be expected to pay for services that they have spent their whole life paying for.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29046	An employee of West Lothian Council	6. Reviewing Income and Concessions	Poorer people already struggling	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29047	An employee of West Lothian Council	6. Reviewing Income and Concessions	Ensure that all franchises and rented properties are paying the correct amounts for their electricity, gas, etc. consumption and WLC are not "paying" towards the business operations. There is much doubt that this is actually being done to a true figure!	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29048	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree, if you can afford it you pay for it or certainly contribute towards it.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29049	An individual	6. Reviewing Income and Concessions	Why not make a modest charge for services to pensioners. I am 90 but would pay for what I use. The war cry will go up - what did we pay all these years for? Certainly not for free bus travel.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

29050	An individual	6. Reviewing Income and Concessions	I believe that many people who could would be willing to pay for some services and so as many concessions as possible should be removed.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29051	An individual	6. Reviewing Income and Concessions	I have no problems with this proposal provided the charges are sensible.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29052	An individual	6. Reviewing Income and Concessions	Remove all council funded concessionary schemes and focus on national entitlement.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Many of the concessionary schemes, such as public transport and free school meals P1 to P3, are national schemes set by the Scottish Government.
29053	An employee of West Lothian Council	6. Reviewing Income and Concessions	Council needs to make charges for all types of services to bring in income but the cost of administration needs to be carefully considered.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29054	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	As stated in a previous section, robust assessments need to take place to ensure charges do not lead to situations of inflicting poverty.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29055	An employee of West Lothian Council	6. Reviewing Income and Concessions	Fees should be properly reviewed to see what the service actually costs instead of across the board increases.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29056	An individual	6. Reviewing Income and Concessions	Acceptable if kept to the minimum and not used as an excuse to increase funds just for the sake of it.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29057	An individual	6. Reviewing Income and Concessions	Means testing equals more office staff. No.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29058	An individual	6. Reviewing Income and Concessions	I believe these savings will push people into poverty and is a very poor proposal. As an unpaid carer who also has paid employment I feel this suggests I will not only provide 35+ hours per week of care but would then have to pay for services if they were required (if indeed my partner was even able to qualify!). This is grossly unfair and most certainly does not fit with the principles behind most recent legislation such as Carers Act, SDS etc.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29059	An individual	6. Reviewing Income and Concessions	All charges should be reviewed at least annually.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29060	An individual	6. Reviewing Income and Concessions	I note that the Council has one of the lowest levels of income through fees and charging and I strongly agree that charges should be at least in line with the national average and I would also agree that as many charges as practical should be subject to inflationary increases each year.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
29061	An individual	6. Reviewing Income and Concessions	Attendance allowance and disability living allowance care components should be taken into account to pay for services. It is well known some people look on these benefits as an 'income bonus'.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29062	An individual	6. Reviewing Income and Concessions	Provided assessment is fair and consistent , reasonable fees and charges are acceptable.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.

Transforming Your Council Consultation 2017

29063	An individual	6. Reviewing Income and Concessions	Support this on the basis of those who could afford to pay making contributions.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29064	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree with this policy and would suggest as mentioned in part 3c that this falls within the Anti-poverty team or financial assessment team. This is not done currently so staff within Revenues have the expertise to do get this underway. Consideration needs to be given however on how some of these charges will be collected. I would guess that it will fall within Service Accounts. Therefore more debts to collect in an area that there will be less staff. How will it be paid ie one off payment or instalments. I would suggest that for smaller amounts it needs to be a one off payment	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29065	An individual	6. Reviewing Income and Concessions	A general comment on this section is that the proposals are a lot clearer than those in other sections. I'm in agreement that an administration charge should be made for the application for a blue badge. It may be appropriate to make some charge in Council car parks but these would need to be considered on an individual basis and the level of charge set appropriately. Insufficient information provided in terms of point	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29066	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	To maintain out of school care provision across West Lothian it is essential that Council continues its practice of not charging community-based out of school care groups for lets in schools and community centres. This recognises the essential nature of this provision and its significant economic and community impact in enabling parents to maintain their employment and bring in Millions of pounds to West Lothian's economy. Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and the sector would like to see this continue, as it will become even more essential in the tough years ahead.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29067	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and we would like to see this continue, as it will become even more essential in the tough years ahead.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties, including relief schemes, are set nationally by the Scottish Government.
29068	An individual	6. Reviewing Income and Concessions	Should look at how to bring more money in within the council	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. The council currently generates income from providing a range of services to partners and organisations. Further opportunities to expand this could be investigated.
29069	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Rates relief for charities is an essential support that Council provides to the sector. Many organisations could not continue to operate without this valuable support and we would like to see this continue, as it will become even more essential in the tough years ahead.	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Non domestic rates for commercial properties, including relief schemes, are set nationally by the Scottish Government.
29070	An individual	6. Reviewing Income and Concessions	I agree with 2,3,4	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29071	An employee of West Lothian Council	6. Reviewing Income and Concessions	I agree with this. In these times, only people who can't pay should be excluded from the contributions policy. But may people can afford this.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29072	No Response	6. Reviewing Income and Concessions	There could be more charges for specific services rather than all being free	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29073	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Agree where those unable to make a financial contribution are subsidised by those who can	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29074	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Reviewing Income and Concessions (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29075	An individual	6. Reviewing Income and Concessions	Agree where those who can not afford to contribute are subsidised by those who can	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29076	An individual	6. Reviewing Income and Concessions	How will less staff be able to collect more money for the council with additional work. If this happens then it will be the customers who suffer. The Council have a duty to make the area and environment better for all customers.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29077	An employee of West Lothian Council	6. Reviewing Income and Concessions	There is concern around the collection of this additional income which will ultimately fall within Revenues. Between this section and section 7, there are proposals to charge for brown bin collection, bulky uplifts and blue badges. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29078	An employee of West Lothian Council	6. Reviewing Income and Concessions	There is concern around the collection of this additional income which will ultimately fall within Revenues. Between this section and section 7, there are proposals to charge for brown bin collection, bulky uplifts and blue badges. Questions arose as to how this would be collected ie one off payment versus instalments. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure. This minimum amount for collection for Service accounts should also be reviewed as there is no point in billing someone for £20.00 when recovery action is not taken due to the low amount. This section also links back to section 3c, the new Anti-Poverty team and the suggestion of charging for non residential care for the elderly. Should this be agreed, the administration of this would be best placed under the same team, if agreed, that all financial assessments will be assessed	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29079	An employee of West Lothian Council	6. Reviewing Income and Concessions	The idea of a Contributions Policy for non-residential care services rather than charges only linked to certain services is long overdue. However, what is the proposed income threshold above which a contribution must be made (and what disregards will there be)? How has the £5.4 million saving been calculated?	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29080	An employee of West Lothian Council	6. Reviewing Income and Concessions	My concern about introducing charges for services is the fact that some individuals/families may refuse services as a result of this, pushing some cases into the realm of Adult Protection. There needs to be some flexibility in terms of how this is implemented, for example, managers being able to make decisions on an individual basis in exceptional circumstances, such as where it is imperative that a service is introduced to protect an adult/prevent risk where there are concerns but not enough evidence to intervene formally.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29081	An employee of West Lothian Council	6. Reviewing Income and Concessions	We cannot pass all the costs on to people of West Lothian, there is already talk of increasing council tax by 3% so charging for blue badges and car parks seems to be just passing on the cost to the population...this will soon get round and West Lothian may no longer be a place people want to move to. Also there is concern around the collection of this additional income which will ultimately fall within Revenues.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29082	An employee of West Lothian Council	6. Reviewing Income and Concessions	The proposals to charge for brown bin collection, bulky uplifts and blue badges. Questions arose as to how this would be collected ie one off payment versus instalments. We already know from the briefings that Revenues need to collect more with less staff so additional work in this area will place remaining staff under significant pressure.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
29083	An individual	6. Reviewing Income and Concessions	Seems to be a statement of intent - more savings could be made here £5.4m not much over 5 years?	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29084	An individual	6. Reviewing Income and Concessions	If departments cannot collect all monies due take action to discipline them for not doing their jobs or get people in that can.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.

29085	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	The Council should at least double its aspiration for income during the financial plan period. Things to consider are: Lobby the Scottish Government for an immediate increase in planning fees, particularly for major projects, such that Development Management becomes self-funding.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29086	On behalf of a Group/Organisation	6. Reviewing Income and Concessions	Increasing licensing fees to cover the cost of staff.	Reviewing Income and Concessions (general)	1. The respondent advised that they agree with the proposal.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29087	An individual	6. Reviewing Income and Concessions	Charge for FOIs	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29088	An individual	6. Reviewing Income and Concessions	collect rent and debt direct from benefits.	Reviewing Income and Concessions (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
29089	An individual	6. Reviewing Income and Concessions	It is strongly felt that increases in fees and charges and any changes in discretionary charges should be introduced gradually to prevent large increases for clubs and individuals which may deter some from sporting activity.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29090	An individual	6. Reviewing Income and Concessions	Charging - See the legendary regular Linlithgow gazette correspondent ### ## of Linlithgow about litter/dog wardens' costs and (the poor) income generated and apply the principles.	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29091	An individual	6. Reviewing Income and Concessions	There should be discretionally charging as this allows the gap between the rich and poor to get bigger	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to have a fair pricing strategy and concession scheme to ensure that charges generate income to support council services, in a way that is consistent with the council's Anti Poverty Strategy.
29092	An employee of West Lothian Council	6. Reviewing Income and Concessions	This is a tragedy. Old and infirm people being charged for care services. Raise the council tax.	Reviewing Income and Concessions (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29093	An employee of West Lothian Council	6. Reviewing Income and Concessions	continue with a library charge for late returns of books , payment for prescriptions	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions. Free prescriptions are determined nationally.
29094	An individual	6. Reviewing Income and Concessions	Nominal charging for health	Reviewing Income and Concessions (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
29095	An individual	6. Reviewing Income and Concessions	Can payments be requested from some of the groups for use of council facilities? Or suggesting possible rationalisation of groups?	Reviewing Income and Concessions (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The scope for charging will be considered, taking account current charges, the position in other local authorities and the impact of charges on vulnerable people and the availability of concessions.
29096	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	If this can provide the necessary savings then this should be pursued.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29097	No Response	7a. Revised Catering and Cleaning Models & Standards	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29098	No Response	7a. Revised Catering and Cleaning Models & Standards	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29099	No Response	7a. Revised Catering and Cleaning Models & Standards	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

29362	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Breakfast Club provision - consider introducing a 50p a day charge or a weekly charge of A£2 per child. To cover the cost of the additional staffing required.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29363	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The current free of charge breakfast club should be chargeable.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29364	An individual	7a. Revised Catering and Cleaning Models & Standards	Using local produce for catering would help both costs and the environment and support the local communities	Revised Catering Standards - schools	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	All council purchases must follow the council Standing Orders, government and European procurement regulations. This is designed to ensure we are legally open and transparent. Competitive tender processes are employed and all appropriate suppliers can bid for council business and contracts are an essential element of procurement practice.
29365	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	another consideration would be to " buy in" a ready prepared meal which could be microwaved perhaps even a couple of days per week therefore reducing the staffing costs even further .	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	There is scope to reduce service costs by purchasing foods externally rather than creating in-house.
29366	An individual	7a. Revised Catering and Cleaning Models & Standards	This is great idea, kids get free meals so making it cheaper but still healthy etc can only be a good thing	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29367	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals - I think school meal quality of service should be maintained but parents who benefit from the service should pay for it. Cleaning - while the cleaners do a decent job, cleaning services are already pretty basic - I can't remember when my desk was last wiped or my keyboard or phone were detoxed.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	School meals - free school meals for P1-3 is a Government requirement and this will continue. School meals not covered by this are paid for by parent or are mean tested. Cleaning - service levels will reduce as a result of this proposal but statutory cleaning standards will be met.
29368	An individual	7a. Revised Catering and Cleaning Models & Standards	it is important that those receiving free school meals still receive a hot meal on a daily basis as this may be the only meal they get. Staff who are not employed to clean should not be spending valuable time cleaning!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29369	An individual	7a. Revised Catering and Cleaning Models & Standards	Preparing and serving meals wherever possible on site and not transporting to every school in West Lothian surely reduces the carbon footprint and is in line with the WLC "green policy". The way it is now appears to work well with maybe one school in each town providing meals for other local schools.	Revised Catering Standards - schools	4. The council is already doing this.	Thank you for your response. Your comment has been noted
29370	An individual	7a. Revised Catering and Cleaning Models & Standards	Why not centralise all your school meal kitchens into 1 or 2 larger facilities. Cleaning in buildings is already poor why not put out to a private company and save costs.	Revised Catering Standards - schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	School kitchens - there would be a considerable cost to centralising our kitchens as well as logistical and food hygiene issues around transporting meals. Delivering services using an external provider would not prove to be cost effective
29371	An individual	7a. Revised Catering and Cleaning Models & Standards	You need to look at school meals for those with specific needs eg gluten free as currently it is terrible	Revised Catering Standards - schools	4. The council is already doing this.	The Council already cater for children with special dietary requirements.
29372	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals are already too small and leaving pupils hungry .	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The school menus are designed and analysed to meet nutritional guidelines.
29373	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals are inedible enough as it is - there needs to be more done to make them look appetizing.	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The school menus are designed and analysed to meet nutritional guidelines.
29374	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I feel all school pupils should pay for a lunch if required people who have kids know they will have to feed them it's not something the council should be paying to provide	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29375	An individual	7a. Revised Catering and Cleaning Models & Standards	Mindful of this will impact on low skilled and paid staff. Is there scope to stop pupils from leaving school at lunchtime therefore generating more income whilst ensuring young people get a nutritional meal.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Each school is responsible for deciding whether or not pupils are allowed to leave school grounds a lunchtime.
29376	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Stop free lunches p1-p3 it is completely unnecessary! Provide free meals to those that need it.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29377	An individual	7a. Revised Catering and Cleaning Models & Standards	Improving the quality of school meals will be necessary to reduce the number of children that visit fish and chip shops and bakeries in the high street at lunch times.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The school menus are designed and analysed to meet nutritional guidelines and we cannot provide children with some of the options they elect to have.
29378	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Charge for meals appropriately. Cook chill can mean meals made in one or two centres,	Revised Catering Standards - schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Meals are prepared daily and some are already transported to schools in the area.
29379	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The quality of the school meals is good, as long as this doesn't impact on the quality.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29380	An individual	7a. Revised Catering and Cleaning Models & Standards	The schools meals service is very worthwhile but could be re-organized to operate more efficiently. I cannot comment on cleaning services.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29381	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	At current in special needs school there is free school meals for everyone regardless of parental or carers income. This is definitely something I think could be looked at as some parents can afford to be paying these meals just as parents in mainstream have to do. The school provides free transport and parents are given benefits to help with payments also.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment. This is a proposal that the council will consider.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29382	An individual	7a. Revised Catering and Cleaning Models & Standards	Spend less money providing sugary unhealthy desserts to school children at lunch time.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	This is something we are considering as part of the proposal.
29383	An individual	7a. Revised Catering and Cleaning Models & Standards	the council could save on ceasing provision of packed lunches to all special schools on a half day friday. Many children dont need them, and they can continue to have a hot meal for the rest of the week It is important that hygiene and cleaning standards are good. Many cuts have already been made in many areas, but staff could be encouraged to clean up after themselves much more to save costs.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	This is a proposal that we will consider.
29384	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free school meals need to stop. A standard charge which will cover the majority of the cost allocated to the provision of school meals should be made.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29385	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	. Food safety must not be compromised as part of a penny pinching exercise. menus need to be assessed in conjunction with what is being recycled. No point wasting money of bucket loads of salad items/ fruit if these are going into food waste. Take the initiative and teach the children about nutrition in home economics. then they will learn that food does not just come from Tesco, Asda etc. and be more open to eating a more nutritionally balanced diet.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29386	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	No point wasting money of bucket loads of salad items/ fruit if these are going into food waste. Take the initiative and teach the children about nutrition in home economics. then they will learn that food does not just come from Tesco, Asda etc. and be more open to eating a more nutritionally balanced diet.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29387	An individual	7a. Revised Catering and Cleaning Models & Standards	Feeding children good, nutritious food does not need to cost the Earth. This has already been proven. Cooked at school rather than being ferried around. Be like the Europeans, two items maximum on the menu, lots of veg can be hidden in pasta which kids love. It's not rocket science, the work has already been done.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29388	An individual	7a. Revised Catering and Cleaning Models & Standards	Given the growing levels of obesity in our kids, can we put in place a plan that reduces Catering cost provision and also assists with better eating?	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Part of the proposal is to review menu choice in line with your suggestion.
29389	An individual	7a. Revised Catering and Cleaning Models & Standards	Only food should be provided for family that canâ€™t afford it. Means testing again.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29390	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Close kitchens in smaller developments with a central kitchen delivering to satellite services; or have kitchen provide 1 main meal each day with packed meal in evenings. Appetito meals.	Revised Catering Standards - schools	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Capital cost to set this up is prohibitive and we already produce in main kitchens and transport to smaller units.
29391	An individual	7a. Revised Catering and Cleaning Models & Standards	Buy local, seasonal and less sugar please	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Part of the review will consider home baking. We buy from Scottish procurement contracts and where possible promote local and seasonal produce.
29392	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Good nutrition is directly linked to academic performance. A reduction in this service will result in lower academic achievements across the region and future employment prospects.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29393	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree with school meal service but do not agree with all pupils getting them for free. We are not a nanny state and crÃ¢che for all children. If families are genuinely in need them of course they need help and free meals. Food feeds the brains and helps with their education and overall health which is extremely important.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29394	An individual	7a. Revised Catering and Cleaning Models & Standards	far too much food is thrown away in schools...don't change the menu every year...and too many cleaners in schools	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29395	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals could be back to being means tested. Not all primary one to three children require free school meals many of whoms parents will be high level tax payers! This would then ensure that schools could be cleaned properly and therefore reduce the amount of illness and disease passed around saving money on supply teaching staff when they are off sick due to poor hygiene	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29396	An individual	7a. Revised Catering and Cleaning Models & Standards	Cut down portion size thus reducing wastage. Buffet style serving to allow children more choice/portion control	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	School meals need to be produced to meet nutritional standards by a balanced menu. Buffet style service would not support this.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29397	An individual	7a. Revised Catering and Cleaning Models & Standards	I am from a household with a good income I never asked or required free school meals for my children yet they recieved them in early years of primary. I was also happy to pay for breakfast club to support me with child care while working, again this was made free, I would suggest the council approaches all households with children and gathering all info before blindly offering things for free that were not required. Infact dispite income I have never heard any parent complain when the had to pay Â£1 per week for snack at nursery etc most middle income families would be happy to pay for services that they require if they are of high standard and in doing so are able to supplement low income families.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29398	An individual	7a. Revised Catering and Cleaning Models & Standards	What do you mean by the latter comment? What about catering in other establishments?	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29399	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	If free food is to be available at an event then could donations not be taken to try to off set some of the costs.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29400	No Response	7a. Revised Catering and Cleaning Models & Standards	Increase charge for school meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29401	An individual	7a. Revised Catering and Cleaning Models & Standards	It no longer is of interest to me but we should reintroduce charging for school meals it's ridiculous that we give free meal when the majority of parents can afford to pay they most likely would rather pay than lose some ther vital education service	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29402	An individual	7a. Revised Catering and Cleaning Models & Standards	Charge for school meals	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29403	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Why are school kids given bottled water - expensive to produce and bottle, and single use bottles are costly to the environment. Why not provide jugs of tap water and cups?	Revised Catering Standards - schools	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The reasons we provide bottled water is to reduce instances for health and safety reasons and also for the child to take their water away with them after lunch and consume during the afternoon.
29404	An individual	7a. Revised Catering and Cleaning Models & Standards	agree with meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29405	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals are a thing of the past. Parents should be held responsible for providing packed lunches	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29406	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Ensuring school meals are healthy is vital and not letting cost cutting impact on the healthiness of children's food.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Nutritional content of meals would not be impacted by the proposals
29407	An individual	7a. Revised Catering and Cleaning Models & Standards	My kids will not eat the school food cause they both say it is horrible.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29408	An individual	7a. Revised Catering and Cleaning Models & Standards	What does a cleaning model and a catering model look like?	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The model and options are currently being evaluated
29409	An individual	7a. Revised Catering and Cleaning Models & Standards	Centralised school meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29410	An individual	7a. Revised Catering and Cleaning Models & Standards	Get the private sector to deliver.	Revised Catering Standards - schools	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
29411	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There is far too much food waste during school lunch times. Make the menu more kid friendly!!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

29412	An individual	7a. Revised Catering and Cleaning Models & Standards	Provide tap water in recyclable cups to children, rather than handing out masses of bottles of water.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Bottled water is provided after giving consideration to health and safety from spillages and to enable children to take water with them for the remainder of the day as hydration aid learning.
29413	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Increase costs of school lunches to cover the total cost of preparing and delivering lunches. Don't lower the already very poor quality of meals delivered, just charge what it actually costs to prepare.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29414	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I know this is not a council issue but free school meals for P1-3 is nonsense in certain areas and should be only applied in areas of need. Same with clothing grant.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29415	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There may be scope to outsource the preparation of some foods (like ready meals) to improve quality and consistency of the offering and reduce costs?	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29416	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There is scope to reduce the choices in school meals, while also making them healthier.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29417	An individual	7a. Revised Catering and Cleaning Models & Standards	These meals can definitely be reviewed money that is spent on juice cartons & bottled water. Also lot of waste with menu choice	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Bottled water / juice is provided after giving consideration to health and safety from spillages and to enable children to take water with them for the remainder of the day as hydration aid learning.
29418	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	I don't think it is a good idea for every child up to primary 3 to receive free school meals. Surely its about you're ability to pay, subject to the financial assessment of affordability.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29419	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I am aware that free schools meals for all pupils until the end of P3 is a national government initiative but in my view this is a complete waste of tax payers money. Free meals should be means tested as it as for decades. I also feel free breakfast clubs provide free child care for working parents and does not address the issue of children coming to school without a breakfast. These are the pupils who are late every day. It should be at the discretion of head teachers to provide breakfast, discretely for those pupils who need it.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29420	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Loose the free school meals , milk and breakfast club only for those in genuine need	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29421	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals and school cleaning services are stretched and unsatisfactory - food is unhealthy at best and inedible at worst!	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29422	An individual	7a. Revised Catering and Cleaning Models & Standards	I don't see why parents can't provide their children with a packed lunch daily so that the council only has to provide meals for those in need. As long as children are being fed a cooked meal at home every night, I don't see an issue with a packed lunch during the day instead of a cooked meal.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29423	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Portion sizes are definitely needing looked at. Way too much waste. Remove free school dinner for P1- P3.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29424	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals are not a necessity for every child in West Lothian. This should be means tested to provide free meals for those in need. I'm sure a large proportion of the school population could afford to pay for their school meal.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29425	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School menus - remove home baking from the choice it's not healthy	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29426	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There is a lot of food wasted at lunch time especially with lower age school kids . Perhaps reducing portion sizes might save money	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

29427	An individual	7a. Revised Catering and Cleaning Models & Standards	The biggest loss of money came from giving all P1-P3 children free school lunch and breakfast. It would be better to charge everyone for school breakfast club and lunch. Child benefit and child tax credit is paid to none working people to support their kids.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29428	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Scrap free meals for P1-3 - waste of money. Scrap free breakfast (except for those eligible for free school meals), again another waste of money. Start charging for breakfast clubs again.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29429	An individual	7a. Revised Catering and Cleaning Models & Standards	Provision of healthy school meals must always be a priority and seen as a long term investment of healthy development and learning.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29430	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I believe that rationalisation of menu options could provide not only healthier meal options but a more cost effective means of preparation and serving school meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29431	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	they should do school meals for parent that not go job and other parents that has job should pay kids meals	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29432	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The school meals are still very unhealthy with limited choices. Whilst the service is being reviewed the health and nutrition of each meal should be looked at. Healthy soups and salads need not be costly but are not always available. And most sandwiches are filled with mayonnaise.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29433	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	It must be the case that children are given nutritious meals and this should not be affected.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29434	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Providing breakfasts for all is ridiculous. Target at those in need.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29435	An individual	7a. Revised Catering and Cleaning Models & Standards	What will happen to the children who rely in school meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	The Council will always ensure children in need receive a meal.
29436	An individual	7a. Revised Catering and Cleaning Models & Standards	Education has already been hammered in the last few years. Menus need to be nutritional as well as cheap. They might be the only hot meal a child receives in a day.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29437	An individual	7a. Revised Catering and Cleaning Models & Standards	The availability of a hot school meal option remains an essential.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29438	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The menu options are already grim in school meals, and not nutritionally good choices. To see the already poor options become filled out with bread and starches and fresh vegetables and high quality meat scrimped on would damage the health of West Lothian's young people. Remember that some children only eat their school meal in a day, there is a duty of care to ensure this is a wholly nutritious option for the pupil. Currently it is not.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29439	An individual	7a. Revised Catering and Cleaning Models & Standards	I think that standards in school meals (which from what my daughter tells me are not particularly high) and in school meals, should be maintained	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29440	An individual	7a. Revised Catering and Cleaning Models & Standards	So this menu reduction. Will it reduce the quality of food on offer? What will be the health impacts?	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	No the proposal means doing things more efficiently and producing better quality meals.
29441	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Primary 1 - 3 pupils should not all receive free school meals. This is unnecessary. I agreed this would reduce stigma for those on receipt of free school meals but now that we use iPay in all schools this is no longer an issue. I would suggest that money be added to children's account where they are entitled to FME. This could be done centrally or added to school budgets. There is too much wasted food in school kitchens already. Portion sizes and choice need looked at.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29442	An individual	7a. Revised Catering and Cleaning Models & Standards	Please, please make the school meals healthier - remove the easy junk food options such as hot-dogs/wedges and burgers and remove all sweet baked desserts (yoghurts and fruit would suffice as replacements). Each menu option should be healthier and not the overall menu choices as kids will usually choose the less-healthy options given a choice (as would many adults!).	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

29443	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals - Children vote with their feet. Chip shops, cafes and sweet shops don't have to meet statutory requirements in terms of healthy eating, a losing battle and unlikely to save or make money.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29444	An individual	7a. Revised Catering and Cleaning Models & Standards	Free breakfast club and free school lunches for p3 and under should be restricted to those in most need. With lpay no one needs to know who is paying for this and should avoid any embarrassment for the child	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29445	An individual	7a. Revised Catering and Cleaning Models & Standards	Menu options should not be restricted such that they stop providing a balanced diet to young people	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29446	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free breakfast and free school meals should be provided only to those who need it. It is not necessary for all P1-3 children to have free school dinners especially when the quality of the food is not of a high standard and much of it has a high sugar content.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29447	An individual	7a. Revised Catering and Cleaning Models & Standards	Feeding kids is important - efficiencies are fine but need to ensure food is of a decent standard and healthy	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29448	An individual	7a. Revised Catering and Cleaning Models & Standards	I'll just start making my boy a packed lunch.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	No the proposal means doing things more efficiently and producing better quality meals.
29449	An individual	7a. Revised Catering and Cleaning Models & Standards	Key to ensure that any changes to school meals provision is done in partnership with experts to ensure nutritional adequacy of meals is maintained.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29450	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Remove free school breakfast clubs for people who can pay, while this was a government initiative it is not a statutory service.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29451	An individual	7a. Revised Catering and Cleaning Models & Standards	Sounds sensible re catering.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29452	An individual	7a. Revised Catering and Cleaning Models & Standards	Do not agree with giving school children a packed lunch on a Friday when they head home early	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29453	An individual	7a. Revised Catering and Cleaning Models & Standards	Stop giving free breakfast and school dinners.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29454	An individual	7a. Revised Catering and Cleaning Models & Standards	Given the lack of parental care in a lot of cases, making sure kids get at least one square meal a day is important	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29455	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals for all ages should be means tested and breakfast clubs should have a charge for all except the very poorest in out society. Feeding our children is important but those who can pay should.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29456	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals cannot be increased in price as families with more than one child are already struggling to pay for this.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29457	An individual	7a. Revised Catering and Cleaning Models & Standards	Why not scrap free meal for p1 -p3?	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29458	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	P1-P3 free school meals is a complete waste of money. There are many parents who can afford to pay their childrenâ€™s lunch. Give free school meals to those that need it, not those who are entitled to it!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29459	An individual	7a. Revised Catering and Cleaning Models & Standards	Why do schools not have a community veg/fruit garden to use in there kitchens? Seems crazy that this is not promoted as benefits would be all round. School meals are still not healthy in comparison to our Scandinavian neighbours... you don't find pizza, burgers, hot dogs on there menus and why cakes and puddings surely fruit, yogurt are better???	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

29460	An individual	7a. Revised Catering and Cleaning Models & Standards	Waste oh money free dinners end in bin	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29461	An individual	7a. Revised Catering and Cleaning Models & Standards	Think about food waste, listen to the consumers, adjust what you make to reduce waste, this is where the real savings are. We need much more support for walking and cycling to schools. Far too many bussed a few miles where in other countries with similar climates the kids would cycle. Invest in save cycle routes and paths. Reduce buses.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29462	An individual	7a. Revised Catering and Cleaning Models & Standards	Meals should not just be statutory. But yes review the wastage. My kids don't always like everything in the 'tray' they choose. Mix in match would be better on veg/pudding/fruit etc Cleaning...teach the kids how to clean their space..life skills..sweeping/ dusting...the sense of entitlement we/our kids have is reaching high levels..its a joke. Yes I would agree to my kids cleaning their space at school but I am aware I am dreaming..	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29463	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals to be passed to benefit section. Remove free school meals to all kids up to P3	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29464	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals in west lothian are good. Im not sure cuts would allow for continuing quality. For some youngsters this is the best meal they receive. Re cleaning our schools are already not overly hygeinic lowering cleaning standards is unthinkable.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29465	An individual	7a. Revised Catering and Cleaning Models & Standards	This is an important service for children within west lothian who receive free school meals would hate to think that this would be affected by reductions.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29466	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Catering for school lunches is deplorable. The quality of food is poor and the size of portions for children is ridiculous in comparison to the cost. I think many parents would be shocked to see the food being presented to their children for lunch and would lead to many more providing quality lunches from home.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29467	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	As long as school meals are healthy and affordable.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29468	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Feel free school meals for P1 - 3s should be means tested so that the people who can afford to pay do.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29469	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals provided to all P1-3 - perhaps this could be reviewed and only provided to people on need it most. Cleaning within schools should be reviewed - at present my experience of this is poor, children in my family often report that there is a lack of toilet roll and hand soap in the toilets, this is in both primary and secondary.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council provides free P1-3 meals as it is required to by the Scottish Government and this is not something we are empowered to change.
29470	An individual	7a. Revised Catering and Cleaning Models & Standards	The school menus are ridiculous and obviously not cost effective. A new look at healthy and cheaply made options would be a vast improvement.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29471	An individual	7a. Revised Catering and Cleaning Models & Standards	Agreed, however please look at the levels of staffing in the schools catering. I know 1st hand the amount of wasted time in canteens by staff who work at a dead stop pace to try and get overtime etc. (Uphall PS)	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29472	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Get the pupils involved in helping make the meals - life skills which could be beneficial for them.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29473	An individual	7a. Revised Catering and Cleaning Models & Standards	Catering support should NOT be available to schools for provision of meals to staff on parents evenings, Staff should prepare by bringing their own provisions. cost of providing this to schools is Â£3,000 per year not including wages of catering staff, energy bills and ingredients. This could be a cost saving of a minimum of Â£33,000 if all secondary schools take the same approach	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29474	An individual	7a. Revised Catering and Cleaning Models & Standards	Agreed- far too much choice for school meals, a lot of wastage. Stop the sale of home baking and cakes etc- healthy options only, no hot rolls etc	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29475	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals should all be vegetarian/vegan so they are suitable for all children.	Revised Catering Standards - schools	4. The council is already doing this.	The Council already provide vegetarian and vegan menu options.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29476	An individual	7a. Revised Catering and Cleaning Models & Standards	School meal quality needs to be kept at a high standard. For some children this is there only chance at a good hot meal each day.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29477	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Appreciate it is a Scottish Government commitment but I don't think there should be universal school meal provision for P1 to P3. I am more than capable of paying for my sons school dinner and I would rather that money was spent on areas where people really need help and support. This would generate substantial savings.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29478	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free school meals for P1-3 - is this necessary? This seems a lot of money to spend on food which most parents would be happy to pay for.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29479	An individual	7a. Revised Catering and Cleaning Models & Standards	Healthy eating is a priority. Maybe fewer puddings.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29480	An individual	7a. Revised Catering and Cleaning Models & Standards	Such proposed savings are deplored. The Council in its list of priorities considers education as 1 and 3. There is an implication that school meals may be prepared centrally to distributed to schools; this achieve the required statutory requirements but will detract for the pleasure of eating leading to those who can afford it choosing to use the cafes outwith the school itself	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29481	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I don't agree with free breakfast clubs	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29482	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I don't agree with free school meals for all children up to Primary 3 when they have parents working who can easily provide both. This should be means tested.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29483	An individual	7a. Revised Catering and Cleaning Models & Standards	Review provision of breakfast clubs and restrict to statutory requirements/means testing.	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29484	An individual	7a. Revised Catering and Cleaning Models & Standards	The provision of school meals is priority in every way. Transportation services must costed at an efficient rate to the tax payer, as well as all statutory cleaning requirements must be upheld.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29485	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals must remain nutritious as these may be the only quality nutrition some children get. If they are too mass produced then served as re-heated poor quality food, children won't eat them, defeating the purpose they were introduced for in the first place.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29486	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	As children who may come from deprived backgrounds may not receive adequate food provision at home, I would not want savings to come from a reduction in the quality of menu provision.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29487	An individual	7a. Revised Catering and Cleaning Models & Standards	Not sure what the answer is, but good nutrition for all - and particularly those in poverty- must be one of our biggest challenges in Scotland, with long term positive impacts on health.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29488	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Food - Could the council outsource all food preparation and delivery? Food - Could move to a packed lunch school meal service. However the unit rate of nearly Â£2 would need to reduce. Think some parents are happy to pay Â£2 for a hot meal but not packed lunches. Cost v Income analysis would be required for this.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29489	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Regarding school meals would it not make more sense to have one production unit servicing all buildings throughout the West Lothian area.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29490	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There are too many choices for school lunches. One hot meal or a packed lunch is adequate.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29491	An individual	7a. Revised Catering and Cleaning Models & Standards	This suggests that financial cuts will in some way impact on the quality of school meals. More detail is required to understand what is being considered. For example, is the Council talking about replacing hot meals with sandwiches? This would be regrettable as it is sometimes the main meal of the day for many children.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29492	An individual	7a. Revised Catering and Cleaning Models & Standards	school meals should be above the statutory requirements	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

29493	An individual	7a. Revised Catering and Cleaning Models & Standards	Could school meals and breakfast clubs just have tap water available as a drink in reusable cups as this is healthier and better for the environment and cheaper for the council.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Bottled water is supplied to minimise spillages and to ensure children are safe. The bottled water is then be consumed outwith lunch time as hydration aids learning.
29494	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals should be healthy and be affordable to school children.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29495	An individual	7a. Revised Catering and Cleaning Models & Standards	I think that school meals are extremely unhealthy and should be changed to a healthier option, I understand that healthier food is more expensive but in the long run it will cost less as there will be less pressure on the health service with people being obese.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29496	An individual	7a. Revised Catering and Cleaning Models & Standards	Also I know some people are entitled to free school meals if they cannot afford it but I know that in our local primary schools all primary 1-3 get their meals free even though most will be able to afford it.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29497	An individual	7a. Revised Catering and Cleaning Models & Standards	There will be parents who would prefer to pay for school meals in early Primary years to prevent budget cuts elsewhere. However free school meals should be available for all children who are entitled to them.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29498	An individual	7a. Revised Catering and Cleaning Models & Standards	Working in education it is appalling on how much waste there is in a school dinner hall. This is definitely an area where savings could be made. I also disagree in offering free Sch meals to all P1-3 children.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29499	No Response	7a. Revised Catering and Cleaning Models & Standards	. I think that all school children should have free school meals and should be help to be funded from the government and WLC. A	Revised Catering Standards - schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
29500	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals should not be automatic for all children in ASN provision.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29501	An individual	7a. Revised Catering and Cleaning Models & Standards	Providing school meals for all P1-P3 students gives an enormous amount of food waste. Suggest to provide means-tested school meals only.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29502	An individual	7a. Revised Catering and Cleaning Models & Standards	I would pay more for better food at schools. My 3 kids aren't at primary yet but I don't get the impression that the food is good (too high carbs, too sugary). Cost shouldn't be the main factor when it comes to feeding young kids. Surely paying more for healthier food should save money in other areas (better health)	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29503	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals for all p1-3 children seems an enormous waste of resources! Absolutely for children on lower incomes but completely unnecessary for most. The health of school meals is an area I feel is very important. When we know about the direct connection between an unhealthy diet and health, this is an opportunity to provide an educate our children on the benefits of healthy eating. In the long run this could provide enormous savings!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29504	An individual	7a. Revised Catering and Cleaning Models & Standards	I do not feel the state should provide food, lets the parents prepare sack lunch (I know the history to this) everything else; There should be no changes to the existing!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The Council has a statutory obligation to provide this.
29505	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals should be means tested. If one can afford to pay one should.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29506	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals must be healthy and affordable. More cooking from scratch would save money on ingredients.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29507	An individual	7a. Revised Catering and Cleaning Models & Standards	Reintroduce charging for meals for children in P1 to P3, and reintroduce free school meals for those on certain benefits / income brackets. That will eliminate a lot of wasted, uneaten and frankly unwanted food that children have 'because it is free'.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29508	An individual	7a. Revised Catering and Cleaning Models & Standards	I understand that the free school meals for P1-3 is not a council initiative, but it is a huge waste of money. The majority of people can afford to provide lunch for their children. The threshold for receiving free meals should be increased, rather than a sweeping policy of giving everyone free meals.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29509	An individual	7a. Revised Catering and Cleaning Models & Standards	With respect to catering, provided the quality and nutritional value do not suffer the saving is a logical one.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29510	An individual	7a. Revised Catering and Cleaning Models & Standards	It is not necessary to provide free school meals for primary 1-3 for all pupils.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29511	An individual	7a. Revised Catering and Cleaning Models & Standards	Please ensure that the meals are tasty and healthy	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29512	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School dinners. Lots of food getting thrown out. Should be finding out what children are actually wanting to eat.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	We are required by law to provide a nutritionally balanced diet and aim to do this in such a way to be attractive to children.
29513	An individual	7a. Revised Catering and Cleaning Models & Standards	Stop providing free school meals to all p1-3 . If parents can pay they should.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29514	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree However we do believe that free school meals should not be given to all P1-P3 children. This should be means tested so that those that can pay should pay. We realise this is a Scottish Government policy, however West Lothian council should raise this as an area of potential saving.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29515	An individual	7a. Revised Catering and Cleaning Models & Standards	OK. So again here I could write loads. Yes, schools should absolutely provide a meal service, but only if it breaks even. I'm sure you have lots of stats about take up of meals etc, but round here most seem to leave school at lunch times (secondary school). I don't know what prices you charge for sandwiches in schools, but if they are paying Â£2.95 in the local shop your prices should be similar. Local businesses are kept afloat with the school lunch trade. If you could get just a fraction of these kids to buy from the school canteen you could add hundred of thousands to council funds each year. For me, this is the biggest potential revenue stream for the council. Not Â£20 blue badges.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	We aim to incentivise children to stay in school for lunch with reasonably priced and nutritionally balanced options.
29516	An individual	7a. Revised Catering and Cleaning Models & Standards	Although it is a Scottish government policy and not WLC, I feel that the School Meals Programme to P1-3 should be means tested.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29517	An individual	7a. Revised Catering and Cleaning Models & Standards	School menus are very important and there should be no deterioration in their standard or quality. Healthier options need not be expensive. This is important not only for the wellbeing of children but also their education and health for the rest of their lives.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29518	An individual	7a. Revised Catering and Cleaning Models & Standards	This is disgusting. School dinners are sometimes the only warn or meal a child gets. This should stay the same.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29519	An individual	7a. Revised Catering and Cleaning Models & Standards	why does the council provide free breakfast to all primary students - not necessary	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29520	An individual	7a. Revised Catering and Cleaning Models & Standards	Totally agree. As a PSW within a West Lothian school the menu choices are not proving to be efficient- too much wastage as children not eating the meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29521	An individual	7a. Revised Catering and Cleaning Models & Standards	Variety in school meals is already poor. Vital to keep access to fruit, bread and yoghurt in addition to main meal. Reduce dependence on home baking items and replace with healthy options.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29522	An individual	7a. Revised Catering and Cleaning Models & Standards	Happy to pay for my P1 - P3 school meals. Those who can't afford them should get them free, but those who can afford to pay, should. (Same goes for prescriptions)	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29523	An individual	7a. Revised Catering and Cleaning Models & Standards	parents should be paying 100% cost of school meals unless they are in poverty	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29524	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	The provision of healthy school meals to the entire school population is fundamental to achieving these goals and any plans to reduce funding in this area would be extremely counterproductive in the long term. In addition, provision of a robust school meals service ensures that our young people remain on school premises at lunch time, thus significantly reducing the potential for antisocial behaviour which will help to meet another Council priority of 'Reducing crime and improving community safety'.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29525	An individual	7a. Revised Catering and Cleaning Models & Standards	Breakfast club provision should be removed as it is non statutory. This is a universal benefit provided to all families. It is the responsibility of parents and guardians to feed their children before attending school.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29526	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Reduce the choice of meals rather than 4 cut to 3.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29527	An individual	7a. Revised Catering and Cleaning Models & Standards	Perhaps re-consider free school meals for all younger children? Not all of our children need this. There could be an option for parents to pay via IPAY if they can afford to ?	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29528	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I think that free catering should be removed from council buildings other than schools.	Revised Catering Standards - schools	4. The council is already doing this.	Thank you for your response. Your comment has been noted
29529	An individual	7a. Revised Catering and Cleaning Models & Standards	Real food d more expensive but better for our health care in the long run. Cuts in the right way are good it cuts to the quality of food is not. This may be the only meal some kids are getting each day!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29530	An individual	7a. Revised Catering and Cleaning Models & Standards	Stop free school meals for p1-3, those that can afford it should pay	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29531	An individual	7a. Revised Catering and Cleaning Models & Standards	Also school pupils are given bottled water. Why not use our perfectly good tap water for a fraction of the price.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Bottled water is supplied to minimise spillages and to ensure children are safe. The bottled water is then be consumed outwith lunch time as hydration aids learning.
29532	An individual	7a. Revised Catering and Cleaning Models & Standards	School meal menu options should be carefully adjusted. Reducing the cost of a meal should not reduce it's nutritional value.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29533	An individual	7a. Revised Catering and Cleaning Models & Standards	I think providing free school meals until primary 3 is a waste of money. they should be provided to those with low income but not those who can afford it.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29534	An individual	7a. Revised Catering and Cleaning Models & Standards	Council needs to be more focussed on obesity levels, healthier meals and PE!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29535	An individual	7a. Revised Catering and Cleaning Models & Standards	There are free school meals for P1-3 children when most of the families can afford to pay and the children who need free meals get them anyway.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29536	An individual	7a. Revised Catering and Cleaning Models & Standards	some parents find it hard to feed their kids so school meals are essential	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29537	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree. Also encourag emore use of children bringing their own packed lunch and povid e better facilities for children to do so. In high schools could microwaves be provided for older children to heat their own meals, either purchased from the canteen or brought in?	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29538	An individual	7a. Revised Catering and Cleaning Models & Standards	Can the Council asses the school meal waste figure . I know it is government policy but the waste is huge. and also some breakfast clubs kids coming to schools for a second breakfast that really helps with childhood obesity.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29539	An individual	7a. Revised Catering and Cleaning Models & Standards	We need to move away from universal provision where appropriate. This includes removal of breakfast clubs.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29540	An individual	7a. Revised Catering and Cleaning Models & Standards	School lunches should be evaluated based on social value, not cost. Do we believe children in our schools should be nourished in order that they be given the best chance to learn? Yes. Cuts to local government shouldn't reach school dinner plates.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.

29541	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The school meals process of ordering does not reconcile to the numbers provided with meals being over ordered resulting in waste.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29542	An individual	7a. Revised Catering and Cleaning Models & Standards	stop free lunches for kids on Fridays	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29543	An individual	7a. Revised Catering and Cleaning Models & Standards	Would it save money to only have a choice of 1 hot meal or a sandwich? Also how much does it cost to print out menus in colour? Menus are on line and teachers could tell pupils the choice for each day without the need for printed menus.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29544	An individual	7a. Revised Catering and Cleaning Models & Standards	The Free School meals system for Primary 1- 3 should be based on need not for everyone. This also included Free Breakfast Club which should also be means tested.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29545	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals are provided for P1-P3 free. In order to save money can it not go back to only low income families receive free meals. Parents who can afford to pay for their children's lunches used the free school meals, why. This is not essential so save monies here.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29546	An individual	7a. Revised Catering and Cleaning Models & Standards	Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29547	An individual	7a. Revised Catering and Cleaning Models & Standards	Makes sense, but quality and standards of school meals should be maintained / improved if possible.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29548	An individual	7a. Revised Catering and Cleaning Models & Standards	Are free breakfasts in schools a statutory requirement. This is an excellent service where there is a need but not for everyone.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	No this is not a statutory service provision
29549	An individual	7a. Revised Catering and Cleaning Models & Standards	Free Breakfast clubs in schools should be revisited and charges put in pace for those able to pay for the use.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29550	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29551	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29552	An individual	7a. Revised Catering and Cleaning Models & Standards	Providing free school meals for all P1-P3 is unnecessary. Many families are entirely able to fund the school lunches for their children and this should be focused on those families who need it the most.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29553	An individual	7a. Revised Catering and Cleaning Models & Standards	I think free school meals for children in P1-3 can be taken from families who are able to contribute towards payment. Funding should be focused on those families in receipt of free school meals. I also feel that parents should contribute to paying for a breakfast club facility. Why not do what some councils do and use private companies to run breakfast clubs? Parents are then required to pay as they would for child care before school.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29554	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree. Charge for school meals for ALL pupils who can afford to pay	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29555	An individual	7a. Revised Catering and Cleaning Models & Standards	1. Schools meals are important - agree	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

29556	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There seems to be a lot of waste in terms of providing breakfast clubs which I see people using as free childcare to be honest.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29557	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	As long as there is reasonable and nutritious food there for children I really don't think it is the job of the council to provide a massive range of food, it is not the job of a school.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29558	An individual	7a. Revised Catering and Cleaning Models & Standards	I think that there should be a payment for all children no free school meals	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29559	An individual	7a. Revised Catering and Cleaning Models & Standards	Meals need to remain nutritional and quality of food only be improvise not negatively affected.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29560	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	This may be the only meal or hot meal that some children get a day, it would hopefully still have choose and quality, as this may be the only place where the child also has the opportunity to taste different foods.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29561	An individual	7a. Revised Catering and Cleaning Models & Standards	I don't know enough about this but if it results in poor quality food being served to my child I would rather you stopped offering hot meals completely and we had to provide packed lunches for our children.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29562	An individual	7a. Revised Catering and Cleaning Models & Standards	Whilst not the responsibility of WLC, the Scottish Government policy of free school meals to all pupils in P1-P3 should be done away with in favour of the existing scheme for P4 upwards pupils of free school meals for those in financial need only.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29563	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	the free breakfast and lunches to p1-3 does not help those who are meant to benefit .it has become a child minding service.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29564	An individual	7a. Revised Catering and Cleaning Models & Standards	Much better to stop free school meals to every P1-3 child in areas where it is not needed!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29565	An individual	7a. Revised Catering and Cleaning Models & Standards	Major cuts could be made in school catering. Free meals for P1-3 pupils is ridiculous! Children who are in receipt of free meal entitlement should be only ones having free meals. This should also be looked into in certain areas where free meals/clothing is being offered to families who live in affluent areas and can clearly afford to pay. Savings should also be made by reviewing breakfast clubs. In most cases these are used for childcare and the children who should benefit are not! These should not be available free to all parents.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29566	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	far too many changes made to menus....a lot of janitors sitting about all day...not doing a lot!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29567	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals should be freshly prepared using high quality ingredients, would be against any cuts that lead to a deterioration in meal quality.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29568	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Good idea. Can parents not pay towards school meals? P1 to 3 are currently free and most folk at our school could afford to pay towards them.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29569	An individual	7a. Revised Catering and Cleaning Models & Standards	Food should be sourced from within West Lothian wherever possible and elsewhere in Scotland if necessary. Better for quality and spending taxpayers money furth of Scotland impoverishes the whole country.	Revised Catering Standards - schools	4. The council is already doing this.	Where possible we use Scottish produce.
29570	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	It is very important that our school meals are of a high quality, as for some young people that is their main meal of the day. If we can achieve the same standard but more efficiently, then fantastic.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29571	An individual	7a. Revised Catering and Cleaning Models & Standards	I have some concerns already about school menu choice and quality. This could lead to a very public backlash.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

29572	No Response	7a. Revised Catering and Cleaning Models & Standards	Agree with school meals.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29573	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	A reduction in catering services could lead to more young people leaving school grounds, eating less healthy food and increase anti social behaviour. Input from young people into proposed menus choices may be effective	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29574	An individual	7a. Revised Catering and Cleaning Models & Standards	could more be charged for meals ?	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29575	An individual	7a. Revised Catering and Cleaning Models & Standards	for some children the school lunch will be the only decent meal they will get in a day they have to continue	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29576	An individual	7a. Revised Catering and Cleaning Models & Standards	All children should be charged for school meals parents have kids knowing they have to feed them. If parents are not able to feed there children it's a matter for social services	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29577	An individual	7a. Revised Catering and Cleaning Models & Standards	menu options could certainly be reviewed; I still cannot believe that a carb based meal like macaroni is served with more carb ie garlic bread! The macaroni is a meal on its own! The food waste at our school is ridiculous - not helped by fact that most of the younger children find the servings too big or dont actually have enough time to eat their main course let alone attempt pudding! My boys love having school dinners with their friends but I do feel embarrassed that I dont pay for their meals when i can afford to which is why when they dont like the meal choices I make a packed lunch rather than ask for a school one. r	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29578	An individual	7a. Revised Catering and Cleaning Models & Standards	Meals - Agree Consider increasing prices slightly for school meals	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29579	An individual	7a. Revised Catering and Cleaning Models & Standards	Any consideration of school meals should balance nutritional requirements with cost. Reduced budgets should not equate to unhealthy food. Fruit for puddings!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29580	An individual	7a. Revised Catering and Cleaning Models & Standards	By abolishing free school meals for all p1-3's would save even more money (I know this is a Scottish Government initiative but maybe pressure should be applied to get rid of it and also free breakfast clubs as many parents, who can well afford it, use them as free childcare in the mornings)	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29581	An individual	7a. Revised Catering and Cleaning Models & Standards	Does this mean poorer diets and dirty building?	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	No standards need to be maintained with service just being delivered in a more efficient and effective way.
29582	An individual	7a. Revised Catering and Cleaning Models & Standards	my child's school has their meals delivered hot plate from another kitchen - they are unpalatable by the time they are served. The options are not all healthy - this is such a poor service already. What a pity for children who rely on their school meal!!! Shame on the council	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29583	An individual	7a. Revised Catering and Cleaning Models & Standards	School meal service should return to being cooked on premises rather than centrally.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Out of the 67 primary schools in the are 45 have production kitchens. The remaining schools have meals transported to them. There is no central production kitchen.
29584	An individual	7a. Revised Catering and Cleaning Models & Standards	Significant savings could be made by providing free school meals and breakfast clubs to those in need and not to every child in primaries one, two and three(FSM) and all children for breakfast club. This is unnecessary!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29585	An individual	7a. Revised Catering and Cleaning Models & Standards	The unnecessary provision of free school meals to all children in primaries one to three and of free breakfast club to all children would appear to be an obvious area for savings to be made!	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29586	An individual	7a. Revised Catering and Cleaning Models & Standards	The provision of free school meals to all primary 1 to 3 children and free breakfast club to all children is totally unnecessary	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29587	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Reviewing menu options in school - I agree that using local- in-season produce is the way to go. Vegetarian only days etc would be good too - just don't make the meals less nutritious	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29588	An individual	7a. Revised Catering and Cleaning Models & Standards	From observation of many local high schools - pupils still ignore school meals and seek 'fast food' areas	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	We try to provide menu options to entice children to eat in school but many elect to go out.
29589	An individual	7a. Revised Catering and Cleaning Models & Standards	Meals must remain nutritious. Cheap junk food is not acceptable.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29590	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals should be means tested, those who can afford it should pay for school meals.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29591	An individual	7a. Revised Catering and Cleaning Models & Standards	Teachers (on parents evenings) and janitors (daily) are still entitled to free meals. My understanding is that this is written into some historic agreement. This is a luxury that wlc cannot afford, anyone who is earning should be paying for their own meals at work. Also bottled water within council staff rooms should be sold on to staff rather than free. Free school meals for children should be means tested at all stages within both mainstream and special education to ensure real equity. The current system benefits pupils in p1-p3 and those in special schools regardless of parental income.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Re teachers meals, your comments are noted and will be explored further. Bottle water is supplied for two reasons, one to reduce spillage and risk of slips and secondly to enable the child to take water to class as it is proven hydration assist learning. The free P1-3 meals is an initiative of the Scottish Government and WLC are obliged to deliver this.
29592	An individual	7a. Revised Catering and Cleaning Models & Standards	free meals are important to low income families	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29593	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School meals are important not only for those who are entitled to free school meals but for all children. This will be in many cases the only hot nutritious food that some children have access to all day!	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29594	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Proposal seems fair. How about a review in the free school lunch provision for primary 1 - 3 ages. This is a large amount of money providing what isn't necessary for many pupils. Pupils who come into the category of requirement for free school meals should continue but those who can afford to pay should do so - as was the previous arrangement.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29595	An individual	7a. Revised Catering and Cleaning Models & Standards	Catering side yes	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29596	An individual	7a. Revised Catering and Cleaning Models & Standards	The poor kids again .. There is nothing wrong with meals they are getting just now ..They are wholesome and within the guide lines ...	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29597	An individual	7a. Revised Catering and Cleaning Models & Standards	Charge realistic price for school meals	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29598	An individual	7a. Revised Catering and Cleaning Models & Standards	I personally would rather pay for my child's meals from primary 1-3 than see cuts in other areas of education.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29599	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	All school children should not be allowed to go out of the school grounds at any part of the day to any nearby shops. They should support the school canteens and spend their money there to boost the school finances.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29600	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Breakfast clubs within schools should be looked at as people use it as a free baby sitter for an extra 20 mins in the morning to allow them to go to work. Most children have already had breakfast by the time they come in and food waste is a huge problem. Free school meals for p1-3 is also not the best way to save money as majority of parents can provide a meal for their child.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Free school meals are provided in line with legislation from the Scottish Government. The Council is not able change this.
29601	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School means are already abysmal - I don't suppose they could get much worse	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29602	No Response	7a. Revised Catering and Cleaning Models & Standards	Focus should be on delivering healthy meal options and providing education and support on the health and other benefits of this. Use of locally sourced produce should be encouraged where possible and it has been proven elsewhere that this can be done on a limited cost basis.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29603	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning has already been reduced, to reduce more would compromise the cleanliness of the buildings, since the reduction we have had outbreaks of Novo Virus and an increase in pupil absence, surely the reduction of pupil absence and other factors due to drop in cleaning standards is more important.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29604	An individual	7a. Revised Catering and Cleaning Models & Standards	Please provide tap water for our children to drink at school meals. It's crazy how much must be spent on water bottles and cartons when the kids waste so much of it and they do not need expensive, sugary strawberry milk! School meals could be a lot healthier.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	We provide bottled water to avoid spillages and reduce risk of skips and also to enable children to take water back to class with them as hydration assist learning.
29605	An individual	7a. Revised Catering and Cleaning Models & Standards	P1-3 don't all need free meals. Thus us a big waste of Council/government money.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29606	An individual	7a. Revised Catering and Cleaning Models & Standards	Remove free school meals (and I am a parent)	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29607	An individual	7a. Revised Catering and Cleaning Models & Standards	I understand reviewing school meals as long as it is still there for children in need. Looking at school meals now though how much further can they really be reviewed? there is a limit.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29608	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Introduce more cooking kitchens in schools and take away breakfast clubs to save money as most parents are just using this as a childminding facility to allow them to get to work. Use the breakfast club funding for better standard of cleaning in schools.	Revised Catering Standards - schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	All high schools have cooking kitchens and 45 of the 67 primary schools do.
29609	An individual	7a. Revised Catering and Cleaning Models & Standards	Mels ahuld focus on fresh materials and good dietary principles.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29610	An individual	7a. Revised Catering and Cleaning Models & Standards	The Director of Education and all elected Council members should be only permitted to eat meals provided by the school meal service. Only then will there be any improvement. You should be ashamed of the phrase, "statutory requirement" when referring to a child's nutrition. Would you eat what is provided in schools?	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29611	An individual	7a. Revised Catering and Cleaning Models & Standards	There is not a need to provide every child in p1-p3 free school meals, this should be means tested as it always was and is the case with p4-7. Most parents can afford to pay for the school lunches and or provide pack lunches if that suits them better.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29612	No Response	7a. Revised Catering and Cleaning Models & Standards	The council currently buy the foods and pay service to make it. Have we considered paying a company to supply food and serve.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29613	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals cannot be made any worse.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29614	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals should use local produce and not bring food in from many miles away if possible. This would give value to local farmers and growers and ensure fresh healthy food for our children.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29615	An individual	7a. Revised Catering and Cleaning Models & Standards	Secondary Schools do not need to offer such an extensive menu if this result in savings. Hot rolls should not be offered to children ant break time anyway. This is developing bad habits for life.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29616	An individual	7a. Revised Catering and Cleaning Models & Standards	If standards of food are to go down - this is not acceptable.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29617	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	more efficient service provision seems reasonable as long as its not at the expense of providing nutritious meals and a reasonable menu choice. are packed lunches on Fridays really needed?	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29618	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals should be healthy and hot food options should be available.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29619	An individual	7a. Revised Catering and Cleaning Models & Standards	A healthy and well balanced school meal service is essential for not only the health of our children, but as an educational tool to teach children the importance of a healthy balanced diet.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29620	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree. More use of fresh local produce and imaginative menus, well cooked to get the kids away from chip shops and other convenience food outlets. Not nearly enough done to tackle childhood obesity and other problems.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29621	An individual	7a. Revised Catering and Cleaning Models & Standards	In deprived area, school meal ensure the children get at least one proper meal a day. By all means review the system but ensure that the end user (the school children) get a good nutritious meal at the end.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29622	An individual	7a. Revised Catering and Cleaning Models & Standards	Another odd question. Some of this seems too much like common sense to really be true, and if it is true why isn't it already happening. My spider senses are tingling on this one. I'm wondering what reduction in menu options means?	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29623	An individual	7a. Revised Catering and Cleaning Models & Standards	I see many school pupils buying at lunch-time from shops in the town. Does this mean that there is much wastage in school meals? Is research carried out as to what pupils actually want?	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Yes the catering service engages with children to find out what they want and we provide what we can within the guidelines we work to. We only produce food based on anticipated meal numbers and on a cook to serve basis which limits and waste.
29624	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	To save money the government should stop providing free school meals for P1-3 pupils unless they are entitled to them. This would save a huge amount of money and continue to ensure that the children how need the meals receive them.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29625	An individual	7a. Revised Catering and Cleaning Models & Standards	Removing flavoured milk from the school meals menu and offering children water from a jug instead of plastic bottles would reduce costs, waste and be far healthier!	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	The council provides bottled water to avoid spillages and reduce the risk of trips.
29626	An individual	7a. Revised Catering and Cleaning Models & Standards	Cut portion sizes, are hit meals necessary every day? Two days per week could be healthy wraps, salads etc.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29627	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	7A) Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29628	An individual	7a. Revised Catering and Cleaning Models & Standards	If school menus are to be reduced every effort should be made to continue to offer healthy options.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29629	An individual	7a. Revised Catering and Cleaning Models & Standards	try to cut waste i no for a fact that food gets thrown out on a daily basis	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29630	No Response	7a. Revised Catering and Cleaning Models & Standards	7A) Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29631	An individual	7a. Revised Catering and Cleaning Models & Standards	Consideration should be given to increasing council tax and putting pressure on the Scottish government to reduce investment in initiatives such as free school meals for all / free prescriptions for those that can afford it.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29632	An individual	7a. Revised Catering and Cleaning Models & Standards	A lot of school catering is pre-packaged and bought in. Surely if everything was cooked on-site in a kitchen it would save money.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29633	An individual	7a. Revised Catering and Cleaning Models & Standards	This is a massive concern as a mother of children with multiple food allergies. I have to meet with catering prior to each menu change to agree a suitable 3 week rotation. This means the food is as closely matched as possible to standard menu however food is removed from main pot at differing stages and finished quickly, without the meals being prepared from scratch locally my children would be discriminated against by the government initiative of free school meals for p1-3, also in our schoo, the children sit in different areas depending on if school or packed lunch which if most kids in class are school meal and they were not able to have a school dinner this may affect social development and inclusion with peers and further reduce self esteem which allerohas done by seeing selves as different.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Meals are already provided to cater for children's allergies and specialist dietary requirements.
29634	An individual	7a. Revised Catering and Cleaning Models & Standards	I think this will be challenging. I would be happier if free school meals could be extended to those who need it, with thought given to holidays etc and the blanket provision of free school meals to everyone in p1-3 discontinued. Also their should be a charge for the breakfast club except for those on free school meals.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29635	An individual	7a. Revised Catering and Cleaning Models & Standards	Have means-tested school meal provision only rather than general P1-3 automatic free meals. Some parents do not need this as they are working but some are in genuine need.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.

29636	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Good quality school meals areas important if not more so than teaching in children's wellbeing and attainment. Get the basics right.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29637	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Schools should change for school meals	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29638	An individual	7a. Revised Catering and Cleaning Models & Standards	Free school meals for p1 to p3 plus free breakfast at school breakfast club is fundamentally wrong. This should be means tested. Most of those who benefit from this do not need 10 meals a week free from the state. Many free school lunches "served" in paper bags on a Friday are wasted. This should be scrapped and the money used to save some of the services mentioned above. Free school meals should also be properly nutritionally balanced and pupils benefitting from these should be strongly encouraged to eat vegetables - these should not be merely "offered" in a half hearted way by the serving staff. Any state sponsored food should demonstrate the ideal portions of fruit and vegetables that we know are required for the health of the nation to ever improve.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29639	An individual	7a. Revised Catering and Cleaning Models & Standards	Healthy meals should be provided	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29640	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	School meals have always been of a high standards in West Calder High School and it would be devastating for these to be jeopardised. Some young people only ever eat a hot meal in school and it would be a shocking tragedy to lose this. Free school meals for younger pupils seems like an unnecessary extravagance which the Scottish government put in place with no consideration as to where the money was going to come from.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29641	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree so long as food standards are maintained or improved	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29642	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Could school meals preparation be consolidated in one central facility and delivered to schools thus reducing or even eliminating need for school kitchens?	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29643	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Please ensure that menu options are healthy. Healthy meals are important for children who come from more deprived areas. We teach children about healthy foods and the need for a mixed balanced diet and sometimes the menus contain high carbohydrates/fats and very little fruit and vegetable options.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29644	An individual	7a. Revised Catering and Cleaning Models & Standards	Must be cheaper to provide this as not for profit by the council even if setting up your own central area to cook the meals and become your own 'supplier' rather than paying a company that makes a profit.	Revised Catering Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council provide the school meals service and do not generate a profit from it.
29645	An individual	7a. Revised Catering and Cleaning Models & Standards	The free meals are needed for those who struggle. Surely people with high wages (e.g lawyers, doctors, teachers) over a specific amount can pay towards their children's meals. That may make a big difference to the budget.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
29646	An individual	7a. Revised Catering and Cleaning Models & Standards	I get some services free which I can afford and would happily pay for (e.g. school lunches). Those than can afford to pay for Council service should pay for them.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29647	An individual	7a. Revised Catering and Cleaning Models & Standards	It would help to review policy of provision of free school meals -!breakfast and lunch - for all p1-p3 pupils. I am aware of much wastage and firmly believe this should be for those with financial constraints only	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29648	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Many schools are poor at promoting use of their school meal facilities to those pupils that can afford it. Many schools are still serving junk food or outdated meal choices. They could promote healthier modern options and actually inform the pupils (and staff) what they are selling. You could make a profit out of this aspect of the Council, not a saving.	Revised Catering Standards - schools	4. The council is already doing this.	Thank you for your response. Your comment has been noted
29649	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The Council needs to make cuts but children need to be offered healthy food and there classrooms	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29650	An individual	7a. Revised Catering and Cleaning Models & Standards	make sure the quality of meals are improved again efficiency is a good thing	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29654	An individual	7a. Revised Catering and Cleaning Models & Standards	The free school lunches for P1 - P3 should be means-tested. I find it quite incredible that I was forced NOT to pay for school lunches when I was both capable and willing to do so. Substantial savings could be made here.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29655	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	reduce choices for school meals which would reduce costs, if children require special meals, parents should supply.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29656	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree as long as healthy food for kids	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29657	An individual	7a. Revised Catering and Cleaning Models & Standards	including breakfast clubs? Provision of food for the young is a priority with the level of unemployment and increased food bank usage. I assume the council would provide a safe and clean work environment in all of its buildings.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29658	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Free School Meals for all P1-3 children is an absolute waste of money. As is the Free Breakfast Club. Of the P1-3 children who receive free school meals some of the parents are more financially secure than some of the children further up the school whose parents work but still need to use food banks. The Breakfast Club is abused by working parents as a free babysitting service. FSM entitlement is also abused by some as some children whose parents have been awarded this send their child to school with a lunch from home. They obviously don't need this if they can afford to do this.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29659	An individual	7a. Revised Catering and Cleaning Models & Standards	Why not save money by removing free school means for all P1-3 - an unnecessary benefit for the majority - making it means tested. Also free breakfast provision should be removed - another example of money spent and being used by many who do not need the breakfast (indeed its often a second one for many) - it is being used by parents as means of extra free childcare provision.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29660	An individual	7a. Revised Catering and Cleaning Models & Standards	School meal costs could be reduced by reversing to means tested free meals and removing the unnecessary free breakfast clubs. This would reduce staffing costs also.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29661	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	Our parent forum feel that savings could be made nationally in provision of school meals. We have a working, discrete means testing system for free school meals for P4-7, yet P1-3 are provided with meals, and whole schools provided with breakfast irrespective of ability to pay. We are concerned that we are having to make huge savings locally whilst nationally being wasteful with these unneeded free services.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29662	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals are important - they could ask all parents to provide a piece of fruit for pudding (or provide it for certain pupils if they forget) and get rid of the sugar laden puddings they offer. That would save money and improve health. My school offered an apple or an orange (tangerine around christmas) every for every pudding it must have save thousands.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29663	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Revised Catering Standards - schools	3. The respondent advised that they had no comment to make.	The council will carry out the appropriate equality impact assessment in relation to all proposals

29664	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I feel free school meals should be means tested, this isn't something that every child should get. Everyone should be in charge of their own cleaning for their areas. This shouldn't be something we are spending costs on if we can deal with this in house.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of P1-3 free meals is a Scottish Government initiative and the Council is obliged to provide these.
29665	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools are dirty due to cuts already made.	Revised Catering Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29666	An individual	7a. Revised Catering and Cleaning Models & Standards	school meals should be healthy and pupils should have access to nutritious meals, no cuts should be made to the standard of food in this respect.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29667	An individual	7a. Revised Catering and Cleaning Models & Standards	surely a central school meal making location should be cheaper. This could be sponsored by one of the big supermarkets in the area? A bit like the meals done for the airplanes??	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29668	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools meals are a necessity to many families however, there is a lot of waste involved as I have experienced . Perhaps some way could be devised that allowed pupils to pre order and pay for their meals in advance so food was only made to order. Only suggestion.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29669	An individual	7a. Revised Catering and Cleaning Models & Standards	I am only supportive of changes to meals if the meals provided are healthy.	Revised Catering Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29670	An individual	7a. Revised Catering and Cleaning Models & Standards	Crazy you have to pay for nursery snack & lunch but you get it free for P1-P3	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of free P1-3 meals is an initiative from the Scottish Government which WLC are obliged to provide.
29671	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals - are free breakfasts in primary schools really necessary as the majority in my village receiving these are not from poor families. I agree with free lunches but not the Friday one.	Revised Catering Standards - schools	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is required to provide free school meals to primary 1 to 3 children through legislation introduced by the Scottish Government.
29672	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Stop giving free school meals - pizzas and only give some people who havent much money free meals.	Revised Catering Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of free P1-3 meals is an initiative from the Scottish Government which WLC are obliged to provide.
29673	An individual	7a. Revised Catering and Cleaning Models & Standards	School meals - lunch should be a light meal. Why can't this consist of soup / sandwiches / fruit. Obesity is a huge problem in Scotland - a big child is an even bigger adult.	Revised Catering Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29674	An individual	7a. Revised Catering and Cleaning Models & Standards	Do all schools (esp with high % of top decile) need free breakfast club? - charge for this!	Revised Catering Standards - schools	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is required to provide free school meals to primary 1 to 3 children through legislation introduced by the Scottish Government.
29675	An individual	7a. Revised Catering and Cleaning Models & Standards	Put the contracts out to tender	Revised Catering and Cleaning Models & Standards (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response has been noted. There are currently no proposals on the widespread outsourcing of council services to external providers.
29676	An individual	7a. Revised Catering and Cleaning Models & Standards	Externalise more services (i.e. cleaning and catering)	Revised Catering and Cleaning Models & Standards (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response has been noted. There are currently no proposals on the widespread outsourcing of council services to external providers.
29677	An individual	7a. Revised Catering and Cleaning Models & Standards	These functions could easily be outsourced.	Revised Catering and Cleaning Models & Standards (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response has been noted. There are currently no proposals on the widespread outsourcing of council services to external providers.
29678	An individual	7a. Revised Catering and Cleaning Models & Standards	SAVE MONEY BY: Remove or privatises council staff canteen.	Revised Catering and Cleaning Models & Standards (general)	5c. Revised Catering and Cleaning Models & Standards	Consider outsourcing cleaning alongside hard FM	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29697	An individual	7a. Revised Catering and Cleaning Models & Standards	I think that this level of saving will be very difficult to realistically achieve unless government policy on charging changes. However a drop in cleaning frequency is achievable.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29698	An individual	7a. Revised Catering and Cleaning Models & Standards	There are lots that schools and other buildings could do to promote general tidiness in their buildings leaving money available for deep cleaning etc.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29699	An individual	7a. Revised Catering and Cleaning Models & Standards	This sounds like the reality will be that unreal pressure is put on the cleaners to keep facilities clean on a smaller budget/number of hours.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29700	An individual	7a. Revised Catering and Cleaning Models & Standards	75% cleanliness does not seem appropriate to me or adequate.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29701	An individual	7a. Revised Catering and Cleaning Models & Standards	The council should review where it can make savings in its delivery - e.g. have 'gold standards' (seen set in the good times that can be compromised)	Revised Catering and Cleaning Models & Standards (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29702	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	What is meant by "educating building users"? Does this mean staff will become responsible for some of the cleaning themselves, and if so, when does this cleaning take place given that all teams will be doing more work with less staff.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29703	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	As I mentioned before, a reduction in cleaning services is causing a problem with the number of staff absences however if this must remain in place who should be carrying out cleaning tasks...staff? When they will already be dealing with additional work and probably less people to carry them out.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29704	An individual	7a. Revised Catering and Cleaning Models & Standards	All no 7 section will result in poorer services for everyone	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29705	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Privitise the Civic Centre cafe and charge a rent.	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29706	An individual	7a. Revised Catering and Cleaning Models & Standards	External contractors are not cost effective - poorer service for cost as they make profit for shareholders.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29707	An individual	7a. Revised Catering and Cleaning Models & Standards	The council keep making changes they made changes a year past they also created a Cleaner coordinator post which they do not need why is the Managers not going around buildings checking on the work.	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29708	An individual	7a. Revised Catering and Cleaning Models & Standards	Cut all unnecessary services. I have attended catered meetings at the Council, which was totally unnecessary. Stop providing catering at meetings, and do not have any subsidised services such as canteens and cafe's. Turn these into revenue streams!	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. The Council provide no subsidised canteens or cafes.
29709	An individual	7a. Revised Catering and Cleaning Models & Standards	Cut Team Managers Cut Cleaner Co ordnators Cut SDO's Cut Locality coordinators for FMA staff CutTeam managers for FMA staff this would be a huge saving to start with each year	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29710	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	large proportion of cleaning issues could be met, by educating people how to use facilities correctly. facilities were demand is increasing however will require cleaning etc. to be increased as these facilities are used more thoroughly.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Education of users is part of the proposal.

29711	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Any savings that can be made through a review of these services it to be welcomed.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29712	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I am not clear what the education and awareness of building users would mean but it would appear to be linked to a reduction in cleaning	Revised Catering and Cleaning Models & Standards (general)	4. The council is already doing this.	Education and awareness of building users can help reduce the need for cleaning.
29713	An individual	7a. Revised Catering and Cleaning Models & Standards	Education meals and cleanliness should be prioritised and protected as has direct link to attainment.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The outcome of the consultation will determine future priorities.
29714	An individual	7a. Revised Catering and Cleaning Models & Standards	Kids lunches and cleaning of schools is a priority so no cost cutting should be done and no jobs should be lost	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Consultation will provide an analysis of community view on council priorities.
29715	An individual	7a. Revised Catering and Cleaning Models & Standards	The cleanliness of buildings and food consumed by children has an impact on learning and should be protected and not cut - high priority area.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The outcome of the consultation will determine future priorities.
29716	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	not sure how this fits into 'environment'	Revised Catering and Cleaning Models & Standards (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
29717	An individual	7a. Revised Catering and Cleaning Models & Standards	If more organisations were asked to clean up after themselves or people took more care of their environment then cost could be cut.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29718	An individual	7a. Revised Catering and Cleaning Models & Standards	use cheaper contractors	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29719	An individual	7a. Revised Catering and Cleaning Models & Standards	Any reduction in cleaning specifications should be avoided. A clean tidy environment encourages positive behaviours in general and presents a positive image of the whole area.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29720	An individual	7a. Revised Catering and Cleaning Models & Standards	don't agree with the cleaning proposal. The schools are already on a cut back with the cleaning regime. we need immaculate schools not just meeting the statutory standard. Too many health issues caused by just meeting the standard.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29721	No Response	7a. Revised Catering and Cleaning Models & Standards	The frequency of cleaning has been reduced already and if there is to be more restrictions on cleaning staff then cleaning equipment/products need to be provided so that staff can effectively clean up after themselves properly in between when the cleaners are due.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29722	An individual	7a. Revised Catering and Cleaning Models & Standards	Would not cut cleaning hours as its not acceptable	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29723	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Basics standards of cleanliness need to be maintained and feel no requirement for free school meals for all p1 to p3 or breakfast clubs or milk , yes for free meal children but others that can afford too should make payment ,	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29724	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning cannot be cut!	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29725	An individual	7a. Revised Catering and Cleaning Models & Standards	So long as you're not putting these services out for tender	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Delivering services using an external provider would not prove to be cost effective
29726	An individual	7a. Revised Catering and Cleaning Models & Standards	What can be cut on health and safety well that will be the councils responsibility .	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29728	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Is there the opportunity for schools to grow there own foods, consider food options to ensure less waste? What is involved in the review and how will this affect service users more information is required.	Revised Catering and Cleaning Models & Standards (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29729	An individual	7a. Revised Catering and Cleaning Models & Standards	This may be difficult to implement and should be approached with caution	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29730	An individual	7a. Revised Catering and Cleaning Models & Standards	good news for the kids,but not for the cleaners.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29731	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Again it seems that more expensive resource may be diverted to carrying out tasks which may be removed from service provision	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29732	An individual	7a. Revised Catering and Cleaning Models & Standards	Sounds unachievable. Probably needs some external advice from a large employer to benchmark to see if you are already as lean as you can be.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29733	An individual	7a. Revised Catering and Cleaning Models & Standards	When was the last time you reviewed the cleaning chemicals and consumables? Some of your facilities doesn't have the correct paper and or dispensers which could lead to up to 40% waste on your spend!	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be investigated.
29734	An individual	7a. Revised Catering and Cleaning Models & Standards	The changes to be honest will be cutting more services paying off staff and this all affects the children and people in the buildings.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29735	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Already think that cleaning has been cut dramatically so am worried about how statutory requirements can be maintained.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29736	An individual	7a. Revised Catering and Cleaning Models & Standards	Cut the cleaners proportionately	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29737	An individual	7a. Revised Catering and Cleaning Models & Standards	How do-able is this? I've heard stories of cleaners having to provide the cleaning materials	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29738	An employee of West Lothian Council	7a. 29743	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	This area has been stripped to the bare essential and doubt if further savings can be made	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29744	An individual	7a. Revised Catering and Cleaning Models & Standards	Provided the cleaning standards are to a level that is hygienic and suitable for the use provided then there is a logic to this saving. The council must ensure that users of the services are responsible for appropriate behaviour in these spaces to minimise the cleaning required outside of fair use.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29745	An individual	7a. Revised Catering and Cleaning Models & Standards	As long as the environmental issues are improving.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29746	An individual	7a. Revised Catering and Cleaning Models & Standards	Should be streamlined where possible where maintaining choices and standards.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29747	An individual	7a. Revised Catering and Cleaning Models & Standards	This is completely without ambition or aspiration to do well. It read as -we will meet the absolute lowest standard we can by law and nothing more.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29748	An individual	7a. Revised Catering and Cleaning Models & Standards	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29749	An individual	7a. Revised Catering and Cleaning Models & Standards	If cleaning is outsourced then the monitoring of contracted work must be a priority.	Revised Catering and Cleaning Models & Standards (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29750	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree as long as there are not dramatic changes which impacts the cleanliness of buildings	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29751	An individual	7a. Revised Catering and Cleaning Models & Standards	OK as long as you meet statutory cleaning requirements.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29752	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The school meals process of ordering does not reconcile to the numbers provided with meals being over ordered resulting in waste. The cleaning regime has already been cut in areas and further cuts could result in building conditions deteriorating and repairs being required. How do you educate building users and monitor effectively?	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29753	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning staff need to be monitored to ensure that they are carrying out the hours that they are contracted for and this may assist with the cleanliness factor.	Revised Catering and Cleaning Models & Standards (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
29754	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	Cleaning standards are already at an all time low. It is debatable whether cleaning standards are currently meeting statutory requirements.	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29755	An individual	7a. Revised Catering and Cleaning Models & Standards	providing changes still ensure cleanliness is maintained	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29756	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning provision is cut too deeply as is. Don't cut further	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29757	An individual	7a. Revised Catering and Cleaning Models & Standards	Feed children in need and provide clean schools so they can be learning in the very best environments.	Revised Catering and Cleaning Models & Standards (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29758	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning has already been reduced, not sure what the meaning of "focusing more on the education and awareness of building users whilst meeting statutory cleaning requirements"	Revised Catering and Cleaning Models & Standards (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Many thanks for your response. Your comments have been noted.
29759	An individual	7a. Revised Catering and Cleaning Models & Standards	Good idea . If users take a pride in their buildings then it should suffer less damage and require less maintenance as a result . If building start to get dirty then people will start to not care and it becomes a mess.	Revised Catering and Cleaning Models & Standards (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

29776	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Staff should be required to carry out cleaning in their immediate work space.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29777	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The cleaning standards in our offices have already been reduced - if it was reduced any further the only thing that would be cleaned is the toilet. Remember inadequate cleaning leads to germs and bugs which leads to sickness - this is a terrible idea to reduce cleaning any further and I know a lot of my colleagues already take on 'cleaning' duties that are not part of their roles or else their workplace would be a disgrace.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29778	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree that trying to get users of buildings to take on more responsibility is reasonable	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29779	An individual	7a. Revised Catering and Cleaning Models & Standards	Bad decision - if a room is dirty - it must be cleaned!!!!	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29780	An individual	7a. Revised Catering and Cleaning Models & Standards	Continue to look at efficiencies. But care needs to be taken not to reduce cleaning to a level where it creates an unhealthy environment. This could be counter productive and could add costs through sickness absence.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29781	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council buildings need to be cleaned properly	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29782	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	Further cuts in this area may lead to poor cleanliness - careful monitoring standards need to be adhered to.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29783	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	The GMB oppose any further reductions on cleaning specifications. We are already reduced by 25% and this is causing conflict within key council buildings for staff and they are going the extra mile. Any attempt to further reduce hours and standards will be seriously challenged by our members.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29784	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The cleanliness of buildings is already causing concern. What is meant by educating the user? Does this mean staff will need to do a bit of the cleaning themselves?	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29785	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	How cleaning specifications can be changed further is a mystery as cleaning has already been reduced to minimal and any further reductions will only result in more germ related illnesses.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29786	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning in Council buildings is already very limited with toilets and kitchens done daily and most other things done monthly. The reduction in cleaning within Council buildings does not equate to a healthy work force as the longer germs are left on furniture/doors/tables/handles etc the more they will spread.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29787	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Care must be taken to ensure a good standard of service is still delivered. Our image is at stake in our facilities as well as the visitor experience	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29788	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I would be concerned over the reduction of any more cleaning within the building as our floors are only hovered once each month which I feel is already inadequate.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29789	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Revised catering and cleaning models "I have concerns over the reduction in cleaning as it has already been reduced to a minimum and is causing issues. What is meant by "educating building users". Does this mean staff will become responsible for some of the cleaning themselves, and if so, when does this cleaning take place given that all teams will be doing more work with less staff.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29790	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning has already been reduced to a minimum. The condition of offices in some areas is disgusting. Will staff then become responsible for the cleaning themselves as this is happening already in some areas but this should not be acceptable.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29791	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Large open plan areas that host large numbers of people both staff and public will spread infections widely if not thoroughly cleaned	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
29792	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council Buildings are already difficult to keep clean and the cleaning has been cut back to a minimum. It may impair council buildings and their long term condition if not maintained.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29793	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	reduction of the already reduced cleaning schedule, is not a good idea, I believe that the reduction that is already in place is causing issues with staff health & morale	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29794	An individual	7a. Revised Catering and Cleaning Models & Standards	Office cleaning has already been reduced. If this is reduced any further hygiene issues become a factor. Most offices are open plan, with less cleaning there is a higher risk of germs in the workplace leading to increased sickness absence.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29795	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Allow the use of bleach in some kitchen areas - effective & cheap	Revised Cleaning Models & Standards - council buildings	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29796	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Many staff fail to save energy by switching off PC monitors at night. Caretakers could check whilst closing up buildings.	Revised Cleaning Models & Standards - council buildings	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
29797	An individual	7a. Revised Catering and Cleaning Models & Standards	You need to supply staff with materials so that they can clean their own areas. Most happy to do so if you supply wipes, hoover etc.	Revised Cleaning Models & Standards - council buildings	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Council staff can play a role in keeping their own areas clean and tidy but there would be some health & safety issues in terms of staff undertaking certain activities.
29798	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	SUPPORT PROVIDE H&S NOT JEOPARDISED	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Proposals will ensure that health & safety is not jeopardised.
29799	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The use of recycling bins in council buildings has already proved effective in reducing cleaning etc. Good idea	Revised Cleaning Models & Standards - council buildings	4. The council is already doing this.	Positive statement in relation to previous changes.
29800	An individual	7a. Revised Catering and Cleaning Models & Standards	do not cut cleaning staff or how u do it you tried this before and it did not work schools need to be cleaned everyday.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Savings need to be made to meet the gap in funding.
29801	No Response	7a. Revised Catering and Cleaning Models & Standards	If building users are going to be more responsible for keeping areas clean then cleaning staff should not be required. The cleaners don't make a good job now since the cleaning specs were revised recently.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Council staff can play a role in keeping their own areas clean and tidy but there would still be a requirement to have a statutory level of cleanliness in our facilities.
29802	An individual	7a. Revised Catering and Cleaning Models & Standards	Good luck with the cleaning part. This is about people having pride in the facilities they are using. It's a real challenge to change behaviour. They will always find a way around.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29803	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	buildings are already beginning to look scruffy	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29804	An individual	7a. Revised Catering and Cleaning Models & Standards	they already do not clean to standard due to lack of staff	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29805	An individual	7a. Revised Catering and Cleaning Models & Standards	Large buildings, including our schools, must be kept clean or they will fall into disrepair (to say nothing of the germs). Quite shortsighted to neglect the fabric and aesthetic look of buildings.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29806	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council buildings need to be maintained in a clean condition. the use of open plan offices, with no ventilation/air circulation causes enough of a spread of germs/flu/colds without adding a lack of basic hygiene standards to the list.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29807	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council buildings need to be maintained in a clean condition. the use of open plan offices, with no ventilation/air circulation causes enough of a spread of germs/flu/colds without adding a lack of basic hygiene standards to the list.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29808	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Sounds reasonable. Currently many in the civic centre buy their own cleaning materials for desks which is already saving the council money	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29809	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Care must be taken in the cleaning of buildings as failure to meet the needs of the workforce will only mean knock-on costs in relation to staff sickness due to poor environmental factors in workplace buildings'.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29810	An individual	7a. Revised Catering and Cleaning Models & Standards	Staff can do their own area cleaning. Provide the materials and tools.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29811	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Staff could take more responsibility for basic housekeeping tasks	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29812	An individual	7a. Revised Catering and Cleaning Models & Standards	Yes let's slash cleaners' hours - the lowest paid grade - and have dirty buildings. Great idea.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29813	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning cannot slip. Lack of cleaning can cause illness in the work place causing more of a burden for the council in the long term.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29814	An individual	7a. Revised Catering and Cleaning Models & Standards	Bit concerned regards cleaning of buildings. Agree that costs could be cut and staff have a role to play in this, but hope that this does not mean that staff are required to clean and Hoover themselves when by the sound of it they are already going to have to work the role of two people! I hope this does not mean we have very tired and unclean buildings going forward. Statutory requirements could be low.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29815	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning standards are of ultimate importance and cannot be reduced	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29816	An individual	7a. Revised Catering and Cleaning Models & Standards	The standard of cleanliness within the council buildings has already dropped therefore to safe further or reduce the service would be detrimental to the health and safety of building users. Recycle bins and food waste bins have been introduced and at the moment only breed germs and flies. The bins are not hygienic, the are no self opening and are not emptied often. toilet facilities are already at a low with the cleanliness and the provision of toilet paper not being sufficient	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29817	An individual	7a. Revised Catering and Cleaning Models & Standards	Privatise cleaning.	Revised Cleaning Models & Standards - council buildings	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
29818	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I agree. Everyone should be responsible for keeping work places clean and tidy.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29819	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning of our building is restricted enough.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29820	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	hopefully council buildings will not be cleaned less than they are at present.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29821	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning is already poor in some buildings. Could the council achieve better standards at a lower cost by other means?	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29822	An individual	7a. Revised Catering and Cleaning Models & Standards	Some buildings are needing more cleaning than others especially building that are used by the public.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29823	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	There is concern was raised over the reduction in cleaning as it has already been reduced to a minimum and is causing issues. What is meant by "educating building users". Does this mean staff will become responsible for some of the cleaning themselves, and if so, when does this cleaning take place given that all teams will be doing more work with less staff.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29824	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I agree that the awareness of building users must be raised to help support efficiencies in operational services provision.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29825	An individual	7a. Revised Catering and Cleaning Models & Standards	Might I suggest that the Civic Centre is only hoovered twice a week like schools and never have their surfaces cleaned? That might save some money.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29826	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	"Education and awareness of building users" means getting non-cleaning staff to do the job a cleaner should be paid for. This would be unenforceable in many cases.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29827	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I assume this is going to involve staff emptying their own bins?	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29828	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning services have already been cut which has been disastrous. Council buildings are filthy especially toilets - unhygienic and disgusting and I can't imagine what the school hygiene standards are like. Remember your staff have to work in these conditions every day.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29829	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning is tricky as this can relate to health and safety depending which areas are being cleaned less often.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29830	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning should be efficient but at a level that makes sure health implications are taken in to account	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29831	An individual	7a. Revised Catering and Cleaning Models & Standards	groups using WLC buildings should be charged if they leave a mess to be cleaned up.	Revised Cleaning Models & Standards - council buildings	4. The council is already doing this.	Thank you for your comment. Your response has been noted. This is already in place.
29832	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning of building is already at a minimum so I don't feel this could be cut back anymore. Staff actually clean their work areas themselves as they don't want to work in a mess.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29833	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning will always need done, no matter how much awareness you give to service users	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29834	An individual	7a. Revised Catering and Cleaning Models & Standards	Are you seriously suggesting you want to stop employing cleaners??	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29835	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning staff are already much reduced and, although they attempt to do a good job, they are demoralised by the restrictions put upon them	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29836	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Previous reduction in cleaning services in schools was not successful and led to many pupil and staff absence.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29837	An individual	7a. Revised Catering and Cleaning Models & Standards	I've been in a lot of council building and the quality of cleaning varies greatly from venue to venue. maybe a more focused effort at the standard of cleaning would be a better use of time/money	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29852	An individual	7a. Revised Catering and Cleaning Models & Standards	I witness on a frequent basis cleaners sitting in classrooms hiding and chatting when they should be working hard like everyone else. I see them bring in supply cleaners to cover runs but then just sit about. I see supervisors with an entourage wandering about schools criticising cleaners who really are working. I see cleaners leave school 20 minutes before their shift ends, taking breaks when they are not legally entitled to one based based on their working hours. I know for a fact cleaners turn up for work late, sign in , leave immediately, get caught and do not get sacked like most people would. I see a lot of lazy cleaners, supervisors not doing their jobs and lots of people turning a blind eye. I see caretakers spending a huge amount of time at their homes "not babysitting empty buildings" as they have been instructed. I see them cover for each other during summer holidays under their "gentlemans agreement". So yes a review of this is area is long overdue. They have simply used the new cleaning rotas to get lazier and have an excuse for the dirt in buildings (being the new schedules for cleaning).	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comments have been noted and will be followed up.
29853	An individual	7a. Revised Catering and Cleaning Models & Standards	The already far pushed cleaning services are already not maintaining high standards of cleanliness in building - there needs to be an evaluation of the types of services provided which provides adequate cleaning time.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29854	An individual	7a. Revised Catering and Cleaning Models & Standards	Some places, especially Bathgate Partnership Centre (ladies toilets) are already unclean so this will just make it worse	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29855	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	This can be a slippery road, reducing cleaning can increase bacteria which in turn leads to higher sickness level.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29856	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	concern was raised over the reduction in cleaning as it has already been reduced to a minimum and is causing issues. What is meant by "educating building users". Does this mean staff will become responsible for some of the cleaning themselves, and if so, when does this cleaning take place given that all teams will be doing more work with less staff. Would it be cost effective to ask staff to carry out their own cleaning as someone with a higher salary than cleaning staff could be doing the cleaning and losing production time.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29857	An individual	7a. Revised Catering and Cleaning Models & Standards	I am concerned over the reduction in cleaning as it has already been reduced to a minimum and is causing issues. What is meant by "educating building users". Does this mean staff will become responsible for some of the cleaning themselves, and if so, when does this cleaning take place given that all teams will be doing more work with less staff. Will this be cost effective as salary of many staff will be higher than that of cleaning staff. Taking staff away from specialised production work to clean the work are would not be cost effective.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29858	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Civic Centre is very dirty.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29859	An individual	7a. Revised Catering and Cleaning Models & Standards	2. Cleaning - agree only due to necessity of cutting costs but feel it is really bad that this sounds like an expectation for staff to do the job of the cleaning department instead of their own job.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29860	An individual	7a. Revised Catering and Cleaning Models & Standards	Education I agree with as staff take on responsibility for their own work space but only to a certain degree	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29861	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I see the impact of the cleaning reductions in the civic centre which through a combination of this and users refusal to behave like adults has led to a vile working environment for some people. Again, only if we insist on managers doing what they are paid to do and enforcing the building standards will this work. Otherwise I anticipate working in a pig pen. It is quite frankly, embarrassing to bring in external people to the civic centre and I avoid it at all costs.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29862	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	don't think the cleaning in buildings are up to scratch at the moment which can only lead to greater opportunities for germs to be transferred more freely.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29863	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning is essential to service users and employees. This should not be affected	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29864	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The offices where I work are rarely cleaned and staff seem to suffer lot more allergies/illnesses.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29865	An individual	7a. Revised Catering and Cleaning Models & Standards	Absolutely agree provided service users do comply and we do not face deterioration in buildings.	Revised Cleaning Models & Standards - council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29866	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The cleaning has already been reduced, it would be interesting to see how we cope if this is further reduced.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29867	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning in council buildings is not good at the present time.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29868	No Response	7a. Revised Catering and Cleaning Models & Standards	Cleaning is another matter - buildings are not clean.Chairn	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29869	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	CLEANING STANDARDS WITHIN COUNCIL BUILDINGS HAVE DROPPED DRAMATICALLY OVER THE LAST DECADE	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29870	An individual	7a. Revised Catering and Cleaning Models & Standards	The current cleaning specifications within the Civic Centre are far from ideal, hopefully, they would not be cut further.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29871	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	The cleaning in schools is already at a minimum and it is hard to see how older buildings can be cleaned any less often. Schools work hard to educate young people about litter and respect for the building but this is easier if they come into a clean building to start with.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29872	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning - disagree. It is important that current cleanliness standards are maintained / improved. If the standards are lowered, there is a danger that buildings will become grubby and unpleasant to use.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29873	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council buildings are already showing signs of a reduction in cleanliness!!	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29874	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning proposal seems fair - building users do lots at the moment regarding recycling bins etc so continuation in other potential processes is fair.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29875	An individual	7a. Revised Catering and Cleaning Models & Standards	standard of cleaning within West Lothian Buildings are poor already.	Revised Cleaning Models & Standards - council buildings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29876	An individual	7a. Revised Catering and Cleaning Models & Standards	There needs to be done one in a school who can provide cleaning in Schools on a timely basis especially when pupils are sick. Please provide hand wash for teachers and pupils in their classrooms (where there are sinks)	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29877	An individual	7a. Revised Catering and Cleaning Models & Standards	School toilets are already dirty and do not have adequate hot water and soap. Surely these services cannot be cut any further.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29878	An individual	7a. Revised Catering and Cleaning Models & Standards	School buildings must have a basic level of cleanliness maintained.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29879	An individual	7a. Revised Catering and Cleaning Models & Standards	Make the pupils pick the litter from around schools or call their parent in to do it.	Revised Cleaning Models & Standards - schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted

29880	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools should retain in house domestic staff.	Revised Cleaning Models & Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29881	An individual	7a. Revised Catering and Cleaning Models & Standards	Educate the children in the need to keep their school clean. In Japan the pupils clean the school which gives them a greater appreciation of the impact of their actions on the cleanliness of the school. Are there some aspects of cleaning which could be delegated to the children and cut the costs of cleaning in schools?	Revised Cleaning Models & Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
29882	An individual	7a. Revised Catering and Cleaning Models & Standards	I agree. However, feel caution is needed before reducing cleaning in schools any further. In a building with over 700 children (majority under the age of 7) it is important to ensure we do not simply increase outbreaks of illness. In the business world, an adult would be able to clean their own work station (as can teachers). However, even with teaching young children hygiene & good house keeping, it is important the teacher does not have to spend more hours cleaning classrooms & open areas on top of their already demanding jobs. An adult working environment & child environment can not always lend themselves to exactly the same policies.	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29883	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	It is paramount that schools are kept clean. Currently, there is already a lack of regular cleaning in schools. This amounts to the carpet being vacuumed and the tables wiped only two days per week. What people seem to forget is that primary teachers are obliged to provide a broad general education. This often involves moving regularly from the outdoors to the indoors (outdoor education), the use of a range of art and design materials, food technologies, science experiments, STEM activities and so on. In short this means that school teachers and pupils need a clean environment to learn in. It should be also noted that with young children there will inevitably be the usual milk spillages, food debris and germ circulation. This cannot be tackled purely by "focusing more on the education and awareness of building users".	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29884	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleanliness (esp schools) is already at ridiculously Spartan levels. How low can u go ?	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29885	An individual	7a. Revised Catering and Cleaning Models & Standards	Current school buildings hygiene is basic and needs improved not reduced.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29886	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	School cleaning schedules are already minimal and many staff believe that there has been an increase in absences of staff and pupils since the reductions in allocations and revised schedules which do not see all classrooms cleaned on a daily basis (tables wiped, floors hoovered) and with corridor areas cleaned termly resulting in build up of dust and stood. Cleaning schedules do not seem to take into account the range of use in schools and number of building users over the course of a day.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29887	An individual	7a. Revised Catering and Cleaning Models & Standards	For cleanliness of schools target the children who drop rubbish where they stand! Schools are a mess at break and lunch due to disrespectful kids who assume someone else will tidy their wrappers and rubbish.	Revised Cleaning Models & Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29888	An individual	7a. Revised Catering and Cleaning Models & Standards	This is nonsense! Pay cleaners to do their job. I was a teacher and as far as I can see 'education and awareness of building users' is not the way to keep buildings clean. Cleaners already are stretched to the maximum so to cut services is a retrograde step.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29889	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	There were changes to the cleaning services in the school a few years back, this resulted in the cleaners not having time to properly clean the school and the standard of cleanliness was greatly reduced. This is unacceptable in a school where there are a lot of people and lots of bugs and illnesses going around.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29890	An individual	7a. Revised Catering and Cleaning Models & Standards	Already cleaners in schools are overstretched with some bins not being emptied as often as before. Surfaces/floors often have to be cleaned by other staff as they would otherwise be unhygienic. This can then impact on the health of the users as germs can spread more readily.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29891	An individual	7a. Revised Catering and Cleaning Models & Standards	Agree no cleaners in school and staff do it.	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29892	An individual	7a. Revised Catering and Cleaning Models & Standards	How cleaning specifications can be changed further is a mystery as cleaning has already been reduced to minimal and any further reductions will only result in more germ related illnesses	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29893	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	How cleaning specifications can be changed further is a mystery as cleaning has already been reduced to minimal and any further reductions will only result in more germ related illnesses.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29894	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Council cleaners are already under pressure. It is true however that building users, especially in schools, need to be much more responsible with littering.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29895	An individual	7a. Revised Catering and Cleaning Models & Standards	Also cleaners summer clean for 2 weeks. This should be scrapped. If cleaners are sticking to the spect them the work should not at all need done.	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29896	An individual	7a. Revised Catering and Cleaning Models & Standards	Stop free lunches for all children give it to the ones who need it working parents don't need this.	Revised Cleaning Models & Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of free school meals is driven by government.
29897	An individual	7a. Revised Catering and Cleaning Models & Standards	School meal service- All meals should be meat and dairy free which is cheaper and healthier and will ensure most children can eat same meal regardless of religious/dietary requirements. Cleaning services should not be reduced as this would lead to poor building maintenance and increase in staff illness.	Revised Cleaning Models & Standards - schools	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	School meals - Government legislation requires councils to provide a nutritional balance diet for school children. Cleaning - the council requires that cleaning be delivered to a minimum standard, maintaining hygiene standards.
29898	An individual	7a. Revised Catering and Cleaning Models & Standards	I believe it has been widely noted nationally that improvements could be made in this area	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29899	An individual	7a. Revised Catering and Cleaning Models & Standards	So we all have to clean up after ourselves. This is a good lesson to teach to children.	Revised Cleaning Models & Standards - schools	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
29900	An individual	7a. Revised Catering and Cleaning Models & Standards	Council buildings especially schools are filthy.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29901	An individual	7a. Revised Catering and Cleaning Models & Standards	In my opinion cleaning services especially in schools cannot be reduced any further	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29902	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning is essential in all buildings but especially educational facilities. More time for training is needed to ensure that senior cleaners have staff that are conscientious and reliable.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29903	An individual	7a. Revised Catering and Cleaning Models & Standards	Keeping schools clean should be priority as most germs are spread in schools and cause illness for The community	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29904	An individual	7a. Revised Catering and Cleaning Models & Standards	Buildings still need to be safe and clean to work in to reduce the spread of infection and illness which then reduces staff absence. You can not expect council staff to also clean their own workspace other than keeping it tidy ect. Use of chemicals ect has to be controlled and used by trained staff I.e cleaners.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29905	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools should always be clean in order to ensure a healthy environment for children to be in. The Council should be mindful that the rise in hospital acquired infections experienced in recent years was exacerbated by the reductions in cleaning staff made in attempts to make budget savings . This should not be allowed to happen in schools.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29906	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	buildings are already looking shabby. not sure that 'education' will support the improvement of cleaning	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29907	An individual	7a. Revised Catering and Cleaning Models & Standards	Reduction in cleaning has already been introduced in some schools, with detrimental effects. The cleaners have less and less time to do more and more and the buildings are dirtier than ever.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29908	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning of schools is already cut to the bone. My tables are wiped/washed twice a week...during winter months sickness and spreading of infections such as Norovirus increased drastically last year after the cleaning was cut...	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29913	An individual	7a. Revised Catering and Cleaning Models & Standards	Classrooms are filthy as services have already been stripped back - this is a small amount of money - find the saving elsewhere and keep our schools healthy. EG how much to cut grass and weed kill when most schools are trying to cultivate green spaces?? This might be the service to cut in a school?	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29914	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Schools are filthy already! Germs everywhere. Quite scary already.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29915	An individual	7a. Revised Catering and Cleaning Models & Standards	It is essential that standards must not suffer as the health of our younger citizens is imperative and ill-considered decisions may have longer term detrimental consequence	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29916	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	With regard to cleaning I believe that better recruitment, training and rigorous monitoring of staff and provision of more efficient equipment for cleaning staff would provide a more cost effective service.	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29917	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools are already filthy because cleaning has been squeezed so much.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29918	An individual	7a. Revised Catering and Cleaning Models & Standards	Please do not reduce cleaning any further in schools. Already cleaners are limited in how many times they are allowed to clean tables, Hoover etc. Do we really value our children so little that we expect them to learn in dirty environments? Children can make a mess and not cleaning only encourages the spread of germs and illness.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29919	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools are already a hive of infection and you want to reduce cleaning services in them?	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29920	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I do not agree with further changes to school cleaning arrangements. Our schools are filthy despite the cleaners working hard, germs are breeding and school attendance is being affected by the reduced cleaning arrangements as it is. I think the teams suggesting these proposed changes need to consult HTs and school staff as there has been no evaluation or discussion about the impact of the changes to date. This is an area of concern.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29921	An individual	7a. Revised Catering and Cleaning Models & Standards	Look at the litter which has to be collected on the streets and realise that anti litter education just doesn't work. It is punishable with fines which are seldom enforced as policing the problem is probably more expensive than cleaning it up. Waste of time to add this to the already overburdened education system.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29922	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Please do not reduce cleaning in schools any further as there has already been a significant decline in the cleanliness of school environments. Children deserve to work in a clean and healthy environment. There are many ways in which the children can be involved in recycling and reducing waste etc. but given the wide and varied curriculum and the nature of the way they work, classrooms need to be cleaned and vacuumed on a daily basis.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29923	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	I believe this will work in all areas bar education. Unless you are going to instill a complete ethos change in the children, schools (both secondary and primary) will suffer from litter issues. Other school systems around the world see pupils at primary school involved in cleanup once a day in order to keep the place tidy, with this attitude carrying over into secondary school. If you want to completely eliminate the problem (and therefore save on costs) that's the step you'll have to take. As it stands, my school already has issues with the regularity (or lack thereof) that bins are emptied/floors are mopped etc.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29924	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	cleaning has already been cut back in schools and this is a front line service with high numbers of pupils, parents and partner agencies accessing these buildings I would be concerned with a further reduced school cleaning service.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29925	An individual	7a. Revised Catering and Cleaning Models & Standards	Given the reports of dirty toilets at James Young High school I am concerned that standards are already too low	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29926	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Get the pupils involved in helping cleaning their classroom - life skills which could be beneficial for them.	Revised Cleaning Models & Standards - schools	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
29927	An individual	7a. Revised Catering and Cleaning Models & Standards	As a retired teacher, I have already seen the level of cleaning in our schools reduce drastically, it surely cannot be reduced further.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29928	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Agreed for some. However cutting down on cleaning in institutions that are breeding grounds for norovirus would be counter-productive in illness costs no to mention the human costs. Toilets in other places to be prioritised too. Education is key but unfortunately not always adhered to by some and not always reinforced in homes for children so the problem continues.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29929	An individual	7a. Revised Catering and Cleaning Models & Standards	What further reductions can be made to the cleaning of buildings? It is already at greatly reduced level and could cause issues especially in schools and care homes where there may be greater need for more thorough cleaning.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29930	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	When pupils come into a building that is dirty and poorly maintained (not to mention understaffed and badly resourced), the message they receive is "This doesn't really matter. It's not important, because if it was we would do it properly." And we wonder why we struggle with pupil apathy.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29931	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The cleaning hours in schools have already been reduced. The cleaning standard has fallen significantly. These hours cannot be reduced more.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29932	An individual	7a. Revised Catering and Cleaning Models & Standards	getting rid of cleaning, domestic staff and trying to educate building users is in my mind the start of a steep slope leading to failure	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29933	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools etc need a thorough clean! Suggesting educating the pupils to be cleaner/tidier just isn't going to cut it.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29934	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	The cleaners have already had cutbacks and I'm sorry but the cleaning has been cut back on too, we don't want our kids health to suffer due to cleaning getting cut back on	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29935	An individual	7a. Revised Catering and Cleaning Models & Standards	The cleanliness in schools has declined in the last year with the introduction of new cleaning routines. It's really not a good idea to decrease cleaning in schools.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29936	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning should only be done to a necessary level. Perhaps pupils should be cleaning up after themselves more?	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29937	An individual	7a. Revised Catering and Cleaning Models & Standards	School cleaning has already been stripped to the bone: as a lunchtime supervisor at my place of work I regularly mop stains from the hall floor NOT caused by children eating, and obviously NOT mopped by school cleaners.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

29938	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools must be clean!	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29939	An individual	7a. Revised Catering and Cleaning Models & Standards	Please ensure that the schools are clean.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29940	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	In schools more often than none are not up to any cleaning standard. This should be looked at before any cutbacks.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29941	An individual	7a. Revised Catering and Cleaning Models & Standards	No cutbacks should be made in the cleaning of education facilities which have already been reduced.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29942	An individual	7a. Revised Catering and Cleaning Models & Standards	Schools are already struggling with reduced cleaning services. They should not take another reduction in cleaning hours.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29943	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaners need to make sure schools are clean.... Look at the top of the council ladder and cut jobs their.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29944	On behalf of a Group/Organisation	7a. Revised Catering and Cleaning Models & Standards	Issues regarding current levels of cleaning in our school are raised regularly at Parent Council. We are concerned that any further reduction may cause a significant problem in terms of Health and Safety. WL Council's declared priorities include 'Delivering positive outcomes on health' and 'Improving attainment for school children'.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29945	An individual	7a. Revised Catering and Cleaning Models & Standards	Cleaning in schools is already causing problems and will soon lead to illness if you reduce it anymore. remember each child coughs sneezes and vomits in school on a regular basis if you don't clean often and well you end up with disease spreading really fast.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29946	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	Cleaning in schools has already been reduced and sometimes the school is very dirty/messy. Amongst young children this can only lead to more sickness etc.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29947	An individual	7a. Revised Catering and Cleaning Models & Standards	How can the actual cleaning in schools be cut when the cleaners still get paid the same amount of hours for doing less work.	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29948	An individual	7a. Revised Catering and Cleaning Models & Standards	ok. But we need to make sure that our schools are clean, in order to reduce infection and colds are not passed on through contact of un-disinfected surfaces	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29949	An individual	7a. Revised Catering and Cleaning Models & Standards	Free School Meals for all P1-3 children is an absolute waste of money. As is the Free How cleaning specifications can be changed further is a mystery as cleaning has already been reduced to minimal and any further reductions will only result in more germ related illnesses	Revised Cleaning Models & Standards - schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
29950	An individual	7a. Revised Catering and Cleaning Models & Standards	HUGE waste currently in schools. Good going in the recycling bin is criminal.	Revised Cleaning Models & Standards - schools	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
29951	An employee of West Lothian Council	7a. Revised Catering and Cleaning Models & Standards	How cleaning specifications can be changed further is a mystery as cleaning has already been reduced to minimal and any further reductions will only result in more germ related illnesses. Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
30213	An individual	7b. Revised Facilities Management in Schools	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30214	An individual	7b. Revised Facilities Management in Schools	No to this proposal. FMA work unsocial hours , shift etc- 6am - 10 pm to maintain school are open and secure including daily maintenance involving anything that is required by the school and HT. Work covering other schools when staff are off sick/AL etc. without any extra payments (under valued). extra duties: Weed out staff who are regularly off sick for long periods of time each (year)- Also staff who think that most jobs are not theirs i.e. its not my job and whom do not work there pests this should be monitored by managers and school HT. Management staff levels are to high thins could be reduced.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
30215	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	Like many of the proposals in this consultation, it is difficult to comment without knowing more of the context. Do you really expect consultees to disagree with a proposal which says the Council will 'seek' to do anything 'better'?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
30216	An employee of West Lothian Council	7b. Revised Facilities Management in Schools	How? How many job losses?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
