16466	An individual	2e. Building Based Care	I am a user of Holmes Gardens day resource. This is a vital service for myself and my family and to the wider elderly community. It gives me a sense of inclusion and achievement. It gives me a sense of purpose. It gives my family respite when required. I am deeply concerned with the council's proposal to close this service. I feel this is a priority to keep it and an invaluable service.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16467	An employee of West Lothian Council	2e. Building Based Care	I am aware of many people who do not wish to be in residential care homes or supported accommodation and this should be kept for those who are actually unable to live independently, even with support.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16468	An individual	2e. Building Based Care	Social Care especially for the elderly is very important, facilities like Rosemount and Colinshiel are excellent facilities for the elderly, giving them a feeling of independence but help on hand if required.	Building Based Care - housing with care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16469	An individual	2e. Building Based Care	With the increase in mental health issues it is important to keep our older people engaged with the community and be able to get support when needed.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16470	An employee of West Lothian Council	2e. Building Based Care	We are all living longer therefore involving older people and keeping them mentally active and engaged needs to be a priority for West Lothian. C	Building Based Care - older people day care	4. The council is already doing this.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16471	No Response	2e. Building Based Care	It would be a shame to lose day centres that were well used.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16472	An individual	2e. Building Based Care	not sure closing down day centres is the answer taking away social interaction for older people who live at home independently.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16473	An employee of West Lothian Council	2e. Building Based Care	Again the older community pays the price - day centres provide a much needed facility for social interaction in a safe environment.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16474	An individual	2e. Building Based Care	Disagree with this proposal. Council owned day services save money as they reduce the need for residential placements and packages of care.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16475	An employee of West Lothian Council	2e. Building Based Care	I would be interested to know more detail of the flexible model that is being proposed - I am also unclear how council owned day services being delivered by external providers would be a cost saving unless there is a reduction in the quality of service	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16476	An individual	2e. Building Based Care	Closure of Council centres for old people could be counter-productive and make the situation worse, as private providers are also closing their facilities as they are unviable.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16477	An individual	2e. Building Based Care	Reduce the number day centres, this will only see our older people suffer	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16478	An individual	2e. Building Based Care	closure of council run day care centres is NEVER a good thing in todays society where privately run homes can severely compromise the standards of care provided.	Building Based Care - older people day care	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16479	An individual	2e. Building Based Care	I do not agree with the closure of any council centres for older people. Leave them alone, they have worked and contributed all their days.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16480	No Response	2e. Building Based Care	Another case of the most vulnerable with no voice being targeted.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
16481	An individual	2e. Building Based Care	Support proposal. However would expect reviews to be undertaken to ensure care is adequate.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16482	An individual	2e. Building Based Care	Support for the elderly has slipped	Building Based Care - older people day care	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16483	An employee of West Lothian Council	2e. Building Based Care	I feel strongly that older people need to socialise regularly and whilst I feel that there is a sway to keep them supported and in their own homes for as long as possible, I do feel that taking away day centres that are heavily depended upon by this group would be severely detrimental to their mental wellbeing. I would strongly oppose closure of any day centres that are proven to provide this valuable service and give health professionals who are there the opportunity to assess any changes in their needs whilst visiting these day centres.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16484	An individual	2e. Building Based Care	Difficult because often our older community only has contact with these day centres - if they close it will lead to more isolation	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16485	An individual	2e. Building Based Care	Day centres are a much needed respite for elderly carers.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16486	An individual	2e. Building Based Care	Day centres can be an absolute god send for the elderly. This maybe the only time of the week they see another face/have some company.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16487	An individual	2e. Building Based Care	What would happen to the Day Centres...for some old people and their families these are life lines.	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16488	An individual	2e. Building Based Care	Older people need day centres sometimes it's there only contact with other people	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16489	No Response	2e. Building Based Care	It concerns me that day centres would close as it has been shown that external partnerships can then increase their costs due to lack of competition. For some of our elderly this is the only time they can meet with their peers and this could become unaffordable	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16490	An individual	2e. Building Based Care	Again the elderly suffer. If closing day centres where will they go?	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16491	An employee of West Lothian Council	2e. Building Based Care	"Council owned day centres for older people would close" One of the biggest problems faced by our older citizens is loneliness. Their partners die, their friends die and their mobility decreases. This leaves them lonely and isolated with knock on effects on their mental and physical well-being. Closing down their day centres is cruel.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16492	An individual	2e. Building Based Care	again this would be a case that some will be left out or at least longer Waite's to attend a centre	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16493	An individual	2e. Building Based Care	This isn't clear at all. You're closing day centres but your external partners are going to continue to run them? So will they exist or not?	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16494	An individual	2e. Building Based Care	I'm against that and as I said above you shouldn't remove the people from their community and send them elsewhere. You can provide more services in the day care and use the facilities for other activities too in order to increase income if needed but don't close them.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16495	No Response	2e. Building Based Care	I have mixed feelings about this, I think it goes against the core priorities to close facilities for those requiring the most care.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16496	An individual	2e. Building Based Care	Sounds sensible as long as external provision can cope with the needs of the older people who attend.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16497	An individual	2e. Building Based Care	If the services can be provided elsewhere with no major negative impact it would be silly not too	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16498	An individual	2e. Building Based Care	Again, targeting the vulnerable. Such a shame that you are closing the centres that are a lifeline to older people, and leaving struggling charities to cope.	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16499	No Response	2e. Building Based Care	Beford closing day centres, it should be assessed how easy it will be for these service users to get to the other facilities and if the std of service is acceptable	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16500	An individual	2e. Building Based Care	All you'll be doing is isolating them from their friends and taking away their social lives. They brought us into the world, it's our turn to look after them. When it comes to vulnerable people in our communities, don't be mean with the green!!	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16501	An individual	2e. Building Based Care	I don't know of any day care centre near me in Murieston, perhaps one needs to be built on the old medical centre ground. I've seen the residential home in Bankton. It's in a bad way. Let's just say I hope Euthanasia is legal before I need to go there.	Building Based Care - older people day care	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16502	An employee of West Lothian Council	2e. Building Based Care	I wouldn't cut this unless its assured all visting council owned centres would have a place to go and that it then wouldn't cut out those who need more help and maybe cannot afford private care	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16503	An employee of West Lothian Council	2e. Building Based Care	Can only speak for when an older relative attended Acredale House once a week. This was an absolute godsend for them. Was the only time they had company. time to have chat with others & provided with a meal. Also gave carers respite for a few hours.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16504	An employee of West Lothian Council	2e. Building Based Care	If Braid House were to close, this would be a huge loss to the local community, it is a very well used centre. Can client contributions not be increased instead?	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
16505	An employee of West Lothian Council	2e. Building Based Care	As WLC has a population that is increasing in age demand will increase for services. By closing services there may not be the resources to deal with this. This age group also are not as mobile therefore may find it more difficult to get to the centralised locations. There also needs to be a financial assessment for the ability to pay for some services.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
16506	An employee of West Lothian Council	2e. Building Based Care	What are people who need this care going to do during the day? Is this not taking resources away from vulnerable people? I think the people who receive this care would be better placed to give their opinion on this proposed changed, as I am unaware of what the impact would be for them.	Building Based Care - older people day care	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

16507	An employee of West Lothian Council	2e. Building Based Care	Some old people depend on the daycare service, it must be kept.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16508	An individual	2e. Building Based Care	It is sad that day care centres are going to close.	Building Based Care - older people day care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16509	An individual	2e. Building Based Care	Surely much of what older people need is social - without day care centres can they access this?	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16510	An individual	2e. Building Based Care	I don't think changing the structure in day care centres is necessary or beneficial for those that go there.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16511	An individual	2e. Building Based Care	Day centres are a vital lifeline for many older people, if you are reducing the number of day centres then I think you must provide transport for the elderly to attend the remaining centre.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16512	An individual	2e. Building Based Care	keep local day centres for my nana.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16513	An individual	2e. Building Based Care	Keep local daycare centres	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16514	An individual	2e. Building Based Care	Do not close Day care buildings in the local community	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16515	An individual	2e. Building Based Care	Closing the likes of Holmes Gardens day centre will have a huge negative impact on the lives of those who attend. Some of the people who attend would find it very difficult to have to travel to Bathgate, for example and most attend these particular places after trying a few different centres. Once they are settled and in a routine it is almost inhumane to remove their service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16516	An individual	2e. Building Based Care	Not acceptable. Some old people have this as their only interaction with others.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16517	An employee of West Lothian Council	2e. Building Based Care	Don't support the closure of St Michaels Day Centre in Linlithgow closing	Building Based Care - older people day care	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal is about council run day centres, which are not in Linlithgow
16518	No Response	2e. Building Based Care	Again these centres are very valuable to our service to provide effective resident care. They are very important to the persons family and reassuring that the care is being well delivered by the Council. Do not want this cut to be as severe.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16519	An employee of West Lothian Council	2e. Building Based Care	These day centres will be the only social interaction & joy in a lot of these older peoples lives. I have saw first hand how beneficial these day centres can be for older people and how it can vastly improve their quality of life. With a growing elderly population I would think the demand for these centres will increase even further and strongly disagree with the proposal to close these buildings/service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16520	An employee of West Lothian Council	2e. Building Based Care	Do not agree the existing day centres are very important in providing a chance for people to meet up instead of being stuck in their homes	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16521	An employee of West Lothian Council	2e. Building Based Care	I believe the close of the day centres is a wrong move. Where are these people to go? As stated previously, this may be the only chance of stimulation these vulnerable people get. What should they do after the closure of these services?	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16522	An individual	2e. Building Based Care	I would imagine the closing of day centres within communities would have a detrimental effect on the older community. Add to this the possibility of either removing bus passes for the elderly or introducing a bus charge could result in isolation for older residents.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.
16523	An individual	2e. Building Based Care	I feel that the council should continue to run day care centre to ensure a high quality service and long term viability of the service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners.
16524	No Response	2e. Building Based Care	If you are able to provide alternatives to the day centres, and transport to and from, as and when it is needed, then I don't see the issue with closing day centres.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted.
16525	An individual	2e. Building Based Care	Again messing with daycare will not save costs longer term. Once facilities are closed there is no going back.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16526	An employee of West Lothian Council	2e. Building Based Care	Day centres provide a great service to those who require physical, mental and emotional support. As one of the priorities is to improve the quality of life for older people consideration should be given to closing these day centres as there is no guarantee external partners would continue to deliver the service or deliver as good a service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16527	No Response	2e. Building Based Care	Why do day centres need to close, this could be an older persons only interaction with others and you want to remove that facility. This is disappointing.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16528	An individual	2e. Building Based Care	This proposal is very lacking in details. I am sure some of the day care services can be reorganised to utilise other existing council assets (community schools/sport centres etc) without the cutting of the services.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16529	An employee of West Lothian Council	2e. Building Based Care	I think it is shocking that one of the proposals is that day centres would close. These places are lifelines for many of the clients who enjoy the company and activities they offer. They are also invaluable to family members who need respite from their full-time carer role. Can the centres not be used for other activities i.e hired out at night for fitness classes etc (at a reasonable rate because Council schools etc are now so expensive to hire that classes are moving to other venues).	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16530	An individual	2e. Building Based Care	Day care is essential for a great many elderly and must be protected, even if the charges to the individual has to be increased.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16531	An individual	2e. Building Based Care	I don't want the places for older people to close - do not see anyone.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16532	An employee of West Lothian Council	2e. Building Based Care	This will shut people out from the world and they will lose contact with friends they have built up relationships with. This could cause depression and in severe cases death. A lot of older people do not have any family. Again raise the council tax to help provide this service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16533	An individual	2e. Building Based Care	A more flexible model of housing for older people is a good idea as long as the support to them is continued and they are in an inclusive environment. Does this mean that current day care centres for older people will be re-developed with this in mind?	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted.
16534	An individual	2e. Building Based Care	A lot of older people rely on the service of the daycentres and have attended for many years and family rely on this service, this may be some ones only day out of the house and get a cooked meal provided to them or the only day that they can meet with friends.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16535	An individual	2e. Building Based Care	Seems short-sighted, people rely on day centre services allowing carers a breathing space, also means a lot of elderly will be stuck constantly at home.	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16536	An individual	2e. Building Based Care	As someone who has had a father in care due to dementia, I know the importance of day centres and the service they provide.	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16537	An individual	2e. Building Based Care	Could day services be provided in community centres?	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted.

16538	An individual	2e. Building Based Care	Agree if service delivered as explained. Worry that centres will close before a suitable replacement is fully implemented.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your comments which have been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16539	No Response	2e. Building Based Care	Don't know who made this decision to close day centres for old people if they are well supported and utilised. As how are the older generation going to get to Bathgate? If they don't stay there, and if it is transportation that will be put on, then will that not push the costs on to another area? The older population is just going to grow, so the new centre may not cope with numbers. Just a thought	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16540	An employee of West Lothian Council	2e. Building Based Care	Rosemount is a wonderful example of how this can work - I support this proposal and trust that the right decisions will be made. The change to service provision was correct in the rosemount case and was the right call.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16541	An individual	2e. Building Based Care	These day centres should not be closing as they are sometimes the only respite that their careers get	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16542	An employee of West Lothian Council	2e. Building Based Care	Rosemount is a good approach so if this can work elsewhere so much the better	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16543	An individual	2e. Building Based Care	Elderly care should not be compromised.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16544	An employee of West Lothian Council	2e. Building Based Care	As long as elderly people still have access to day care/human contact then this seems sensible.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16545	An employee of West Lothian Council	2e. Building Based Care	2e I understand we need to make difficult choices. It is worrying to have to rely wholly on external partners for day centres for older people.	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16546	No Response	2e. Building Based Care	The more flexible model of care should include access to day centres where that meets the needs of the residents of west lothian. External providers are not always a long term cheaper option.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16547	An employee of West Lothian Council	2e. Building Based Care	Is the council proposing to close all day centres? Would the continued service need to be paid for? Who by? If the council, how will this be a saving? If the adults, how does this promote equality and improve the lives of old people? Does the council plan on providing any services except to those in truly dire need? What will we do with our buildings? Will these be rented to the external provider? Will these be sold off?	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16548	An individual	2e. Building Based Care	I have a particular interest and investment in this area. I think this measure requires more thought as, like my answer to 2b, many clients attending the council's own day service do so avoiding increased support at home services. It should be noted service users and carers highly value this service and I wouldn't be surprised if they would object to paying more for this service I would suggest that a review of the in-house day care service, bearing in mind recent cost efficiencies and seeking other options on how it could be further redesigned, would be advisable. This would allow an informed comparison of cost with the external partners.	Building Based Care - older people day care	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The provision of day care with our external partners was modelled and costed and can be delivered in a less expensive way than the council can, mainly due to the difference in overhead costs.
16549	An employee of West Lothian Council	2e. Building Based Care	Day centres are a good area for residents to get together and bring them out of their own homes were they could become isolated, in there own homes they may not see anyone for days	Building Based Care - older people day care	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16550	An individual	2e. Building Based Care	This sounds wrong to me. Sounds like a short - term gain. Surely a considerably higher proportion of self-directed support on day care would result using an external partner? What are the checks and balances to ensure this would not happen?.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

16551	An individual	2e. Building Based Care	Day centres have dwindled over the years. This is had such an impact on where older people go to socialise, talk about problems etc.. Please make sure older people without transport are not being alienated. Centres should be available within a 5mile radius. I will am a firm believer that early years children should be visiting day care centres as these visits enhance older people's social well being.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16552	An individual	2e. Building Based Care	These play a vital support role for older people and a good network of widespread day centres should be maintained, whether they are council owned or external.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16553	An individual	2e. Building Based Care	Some of these care centres are the only outing these people get so it's not ideal that these are closing.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16554	An individual	2e. Building Based Care	How would poorer older people pay for this provision? For some older people going to the day centre is the only social interaction they get. It would be awful if they couldn't get out just because they can't afford it	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16555	An employee of West Lothian Council	2e. Building Based Care	THE COUNCIL SHOULD CONTINUE TO RUN DAY CENTRES	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16556	An individual	2e. Building Based Care	These facilities are relied upon by the users and closing them will leave a lot of people not leaving there own homes and will affect nhs more with mental health rising	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16557	An individual	2e. Building Based Care	Day care centres should NOT be closed.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16558	An employee of West Lothian Council	2e. Building Based Care	Very concerned at the loss of day services for older people. Many people rely on these services for health needs, combating isolation.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16559	An individual	2e. Building Based Care	I look forward every week to attending Holmes Gardens Day Resource and this good care we get here. I would not get out of the house at all if this service was to close. I feel quite strongly about the proposal to close it.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16560	An individual	2e. Building Based Care	I am from St Andrew's Court, Uphall. I rely on coming down to Holmes Gardens Day Resource. I rely on it for company, friendship and for keeping active with activity and stimulus. The staff are very good, efficient. We all depend on the service.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16561	An individual	2e. Building Based Care	I am very disappointed that the council is proposing to close older peoples' day centre, especially the one I use in Broxburn. I have only attended for a year and a half. I love coming to the centre. It therefore makes me sad.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16562	An individual	2e. Building Based Care	I would be very disappointed (positively so) if Holmes Gardens day resources was to close. I would be willing to pay more money to attend. I feel attending this day service adds to the quality of my life. It is an excellent service and hope the council will consider this proposal to close this service. This would be a big loss socially.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16563	An employee of West Lothian Council	2e. Building Based Care	You are isolating a whole section of society!! Older people with no family or friends will suffer at a time when they are in most need. Shame on whoever is suggesting this.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16564	An individual	2e. Building Based Care	I feel there is not a lot of people who are on self directed support, so what happens to them? Again it seems the council is taking from vulnerable people, I feel these day services should be left as they are. Or is it possible for those in Elliburn support service for learning disabilities to go to Quigley House. Those with learning disabilities have a second option those with physical disabilities do not. Outreaches are at capacity. Smaller units ie: Acredale House (which is specialised for the elderly with dementia) should be moved to Braid house or rosemount.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16565	An individual	2e. Building Based Care	I do not think this has been looked into properly for this proposal to be made. If the elderly do not have the day centre to attend then their health and wellbeing mobility, mental health will deteriorate which in the long run will cost the council more money this would lead to more hospital admissions and more care to be provided, baring in mind that most service users who attend the day care centre attend to give their carers/families a break, If carers/families are not getting a break this will also cause more problems as their health would also deteriorate leading to hospital admission and health problems. I do believe the cost for attending the day centre could be slightly increased if this means the day centre would stay open, I feel the service users who attend would also agree to this.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16566	An individual	2e. Building Based Care	Service like Rosemount Gardens in Bathgate are limited and don't the same level of support provided through Day Care. The closure of Day Care services is likely to impact on carers and increase the need for other services to substitute the gap, particularly for the most vulnerable with dementia and severe physical health problems.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16567	An individual	2e. Building Based Care	It is so important that older people have access to local support. This can help build local support networks. The world we live in is already alien to many older people - please don't bus older people around to cut costs.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16568	No Response	2e. Building Based Care	This will have a huge negative impact on the users of the day centres.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16569	An individual	2e. Building Based Care	Closur of day centre often has a negative impact and results in social isolation for people Where are the results of impact studies for many of these proposals ??	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16570	An individual	2e. Building Based Care	This will be sad if older people centres close. More social isolation for older people which is very sad.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16571	An individual	2e. Building Based Care	I am concerned that closing council owned day centres would be a false economy - could perhaps increase costs in care for the elderly in the long run.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16572	An individual	2e. Building Based Care	Lonliness is a killer of the elderly, I don't think shutting the place they go for companionship will help the elderly in any way.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16573	An employee of West Lothian Council	2e. Building Based Care	It is important that the combining of facilities does not affect older people's access to day care facilities as older people may become very socially isolated without this support.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16574	An individual	2e. Building Based Care	Those caring for older people welcome the relief of day care for their loved ones and I would not like the service to be unobtainable.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16575	An individual	2e. Building Based Care	Further research to determine what models of care are the right ones for now and the future. Rosemount Gardens is a great facility but there are many other good services for older people in West Lothian and in other areas that to focus on one size fits all may not be the best option.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16576	An individual	2e. Building Based Care	Does this mean the council will no longer run day centres for older people? A lot of people without relatives are not able to decide for themselves what they need or want.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16577	An individual	2e. Building Based Care	Day centres play an important part of a elderly persons day	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16578	An individual	2e. Building Based Care	Will this affect Braid House? I hope NOT, this is an excellent day care centre, hands off. They need more funding not less. They have got it right - some haven't!	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16579	An individual	2e. Building Based Care	Days centres are a valuable resource and I have witnessed first hand how places like Acredale etc can make a difference to individuals and their families. If the same or even a greater number of places could be delivered under a more efficient model then agree but disagree in this reduces placement numbers.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16580	No Response	2e. Building Based Care	Council day centres such as braid house need to remain open as these provide a great benefit and support to the patients who use them and also respite for the families whose family members attend these centres. Braid house is very well used and provides various activities for the patients who attend daily. It is a great place for socialising and meeting friends	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16581	An individual	2e. Building Based Care	Leave Braid house be, it's brilliant.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16582	No Response	2e. Building Based Care	Older people are vulnerable, this may be the only opportunity for them to get out and mix with others, if they cannot mix their health will decline. Keeping this open will be cheaper than long term care.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16583	An individual	2e. Building Based Care	If the new Bathgate premises is successful then would be beneficial to see being rolled out elsewhere.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16584	An employee of West Lothian Council	2e. Building Based Care	Day centres offer valuable respite for careers and address loneliness in older people. Shameful that a Labour administration would attack services for the most vulnerable	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16585	An individual	2e. Building Based Care	Agree in the units staff should be providing in house activities to keep remnants active.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16586	An employee of West Lothian Council	2e. Building Based Care	Closing day centres for elderly residents would be a loss for the community; if alternative arrangements were put in place, then hopefully isolation would not increase.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16587	An employee of West Lothian Council	2e. Building Based Care	Schemes where school children/ college students participate with elderly residents in day centre based activities would be a good idea, and would provide benefits to all involved.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16588	An individual	2e. Building Based Care	Concerned about the impact of closing day centres of older people if these are the opportunities they have to leave their houses and meet/socialise with other people. There could be negative issues arising from this change that could cost money in other areas. How will the impact of these changes be monitored?	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16589	An individual	2e. Building Based Care	Day centres are the only opportunity that some older people get to socialise so I do not agree with this proposal.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16590	On behalf of a Group/Organisation	2e. Building Based Care	We should not be closing day centres for older people, again a number of us have experience in parents waiting years for places in day centres which they would have benefitted from and subsequently passing away before they even got a place. We would be bringing all these services in house rather than paying other organisations for this.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16591	An individual	2e. Building Based Care	Does that mean the older people will still be able to socialise with others still.	Building Based Care - older people day care	3. The respondent advised that they had no comment to make.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16592	On behalf of a Group/Organisation	2e. Building Based Care	How can this be identified as a saving as we will need to carry out work in locations to make them fit for purpose, and also what about elderly residents in the community and not within housing with care, again we are potentially shutting off their lifeline for interaction.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16593	An individual	2e. Building Based Care	It would be extremely sad for day care services to be discontinued for older people, as for many elderly they would be alone at home for most of their time, which could lead to an increase in mental health issues and loss of physical abilities, which in turn would drain WLC & health services more in the long run.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16594	An employee of West Lothian Council	2e. Building Based Care	Good for older people to have places to meet to prevent isolation and access information about services they may need	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16595	An employee of West Lothian Council	2e. Building Based Care	If the buildings are purpose built why could we not provide the services in these buildings we have already invested in and take away the external resourcing that will be left to deluiver that service.	Building Based Care - older people day care	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16596	An employee of West Lothian Council	2e. Building Based Care	A high number of elderly people prefer to attend main stream day care settings this is an important part of their social interactions they can like this structure.	Building Based Care - older people day care	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16597	An individual	2e. Building Based Care	Again I find this proposed change unacceptable at the short periods of respite I get and pay the council towards at norvell lodge in bogahill means I have peace of mind that my husband is safe and has built up relationship with staff and residents. Respite provision is very limited already so this uncertainly makes me very concerned for the future. I have lived in Livingston for 32 years and up to now I have praised the council to friends and relatives outside the area. I know finicial constriants are necssecery but vulnerable residnets and carers need support always.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16598	An individual	2e. Building Based Care	Expansion of council day care centres to cater for the expansion of older people	Building Based Care - older people day care	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16599	An individual	2e. Building Based Care	Talking about closing the day centre I attend (older people's) I want to know the reason why. I enjoy coming here. I have been coming here for 21 years. It is my day out. I enjoy the company of everyone at the day centre.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16600	An individual	2e. Building Based Care	I don't think they should close the day centre. I go to Whitdale. I like the day out.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16601	An individual	2e. Building Based Care	No I don't agree with them shutting the day centre. It's the only time I get to see my friends, get a laugh and get my hair done. Not shutting things for old people - as older people a lot of us are on our own. We need the centre. The staff help us and the bus is helpful and handy.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16602	An individual	2e. Building Based Care	I think it's terrible that you are even considering this proposal to shut the day centre. I have been coming to the centre for 9 years and I look forward to my day out of the house. I live alone and only see my friends on the day I attend the centre. I would really miss the centre if it shut.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16603	An individual	2e. Building Based Care	I enjoy the day centre as it gets me out the house. I have attended for many years. I have met a lot of good friends over the years and at the centre is the only time I see them. I feel that my mental mind is helped by staff and friends while attending the centre. It also provides me with eercise. I really enjoy the outings whilst at the centre and the staff are very helpful and always look after us well. I feel that there are so many places shutting, so where would I go?	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16604	An individual	2e. Building Based Care	I think it would be wrong to close the day centre. I look forward to my days as I like to meet people. I enjoy a blether with my friends and would miss this so much. When you live alone it's very lonely and I feel I need the day centre to occupy my mind and stop the loneliness.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16605	An individual	2e. Building Based Care	I feel if the day centre shut it would take away my confidence as I am not so able to get about very much and I love to go to it as it gives me time to mix with others and we have a great time there. Staff are very caring.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16606	An individual	2e. Building Based Care	Closing day centres is wrong. This will affect service users, carers and employees. Why pick on disabled, eadlery & special needs?? Day centres are a lifeline to us. Some people would never be out, sitting day after day looking at 4 walls. Some may never see anyone apart from their carers, if they are lucky to have one.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16607	An individual	2e. Building Based Care	I think it is a ridiculous proposal to close the older people day centre. It would leave a very big hole in my life. I only get out when I go to the day centre. I suffer physical and mental illness and the day centre helps with some symptoms of my illness.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16608	An individual	2e. Building Based Care	Regarding the proposal to close Whitdale older people day centre - I'd be disgusted if they closed it. I've been coming here for years. I've made some amazing friends who I wouldn't get to see anymore. I can't get out without the Whitdale day centre and the staff there.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16609	An individual	2e. Building Based Care	I would have no day centre to go to. I like getting out and to see friends I have made.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16610	An individual	2e. Building Based Care	I would not like the day centre to close. I have attended for a number of years and made very good friends. It gets me out and gives me some contact with others that I wouldn't get if I didn't have it.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16611	An individual	2e. Building Based Care	When numbers of older people needing care/help are rising, council day centres should not be getting shut.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16612	An individual	2e. Building Based Care	The day centre I pay for anyway - if it were to close I would have nothing to go to and I would miss it & my friends	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16613	An individual	2e. Building Based Care	I would be really lost if my day centre closed. It gets me out the house and to see my friends. I have been coming for 11 years and I don't know where I would be or what I would do without it.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16614	An individual	2e. Building Based Care	I come to Whitdale day centre twice a week and I socialise with my friends from the community there. If the day centre closed I would not be able to see my friends and would be stuck in the house.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16615	An individual	2e. Building Based Care	I don't want Whitdale day centre to close because I love it here. The staff are kind. If it closed I would have nowhere to go.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16616	An individual	2e. Building Based Care	I would miss the day centre terribly if it closed. I enjoy the day centre and have made new friends. If it closed I would have nowhere else to go. I enjoy coming here.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16617	An individual	2e. Building Based Care	Think this is ridiculous as the older people have worked hard all their lives and deserve it - somewhere to go and socialise and take part in meaningful activities. It gets them out of the house and meet people, keeps the brain active. I have worked as a nurse all my life and now use the day centre. I love it and would really miss it. I would have nowhere to go, I have already paid my taxes throughout my working life and feel we are entitled to receive meaningful services in our later life.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16618	An individual	2e. Building Based Care	I don't want Whitdale centre to close because I love it here and the staff are kind. If it closed I would have nowhere to go.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16619	No Response	2e. Building Based Care	Many elderly people will not be willing to travel that far, particularly if they are being picked up from their homes and will need to sit on a bus for prolonged periods whilst others are being picked up.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16620	No Response	2e. Building Based Care	I am a working carer. My dad has dementia. I rely on the Holmes gardens day resource to provide rest bite for me and dad. I need it to have time to get deep cleaning and other tasks done or maybe relax if I have time. For dad it's not being isolated alone he can socialise there. The activities and events at day care keep a his mind from deteriorating as quick. Please do not cut the day services for elderly especially the dementia support services! I beg you as a weary carer to 're consider taking this vital service away from us. We appreciate and depend on it. I would pay more to help keep the centre open. Its currently 5 pounds we would pay double as braid house charges 10 pounds.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16621	An individual	2e. Building Based Care	Centralisation may work in some areas, but Livingston is not somewhere that is easy to get to from the other side of the council area. Particularly with respect to older people, this would be a severe loss for them	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16622	An individual	2e. Building Based Care	People shouldn't be taken out of their communities just because they need help and you need to reduce costs. One centre will not be enough for all the elderly in the west lothian and its a solution that is not positive to the community. The elderly needs their community and their well known environment which they're used to and know - this sound like a punishment for the old people.	Building Based Care - older people day care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16623	An individual	2e. Building Based Care	I think a flexible model is good but to ensure that these services aren't reduced in the community as they provide a lifeline of support to adults needing care and their family.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16624	An employee of West Lothian Council	2e. Building Based Care	. Closing or consolidating services is fine as there is no reduction in the number of day places for older people, if anything these places will need to increased over the next few years.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16625	An employee of West Lothian Council	2e. Building Based Care	RECOMMEND CLOSURE OF RESIDENTIAL HOMES OR A MOVE TO ALLOW TO REDUCE UNIT COSTS AND EFFICIENCY WOULD IMPROVE.	Building Based Care (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	There is currently an insufficient supply of residential beds in West Lothian and closure of council run care homes would further add to this pressure. If the supply can be met by the independent sector then this proposal could be considered again.
16626	An employee of West Lothian Council	2e. Building Based Care	Social care services have to become much leaner and cost effective	Building Based Care (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
16627	An individual	2e. Building Based Care	as long as the elderly are not being abandoned then fine.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16628	An employee of West Lothian Council	2e. Building Based Care	Any changes that can streamline processes and make savings for the council must and should be pursued.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
16629	An individual	2e. Building Based Care	I believe the Council need to still have full ownership in this matter to ensure consistency of care. Handing this over to partners will result in reduced quality of service and reduced accountability	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16630	An employee of West Lothian Council	2e. Building Based Care	I work for ██████████. I am a ██████████ a role I have taken on as part of my role within ██████████. I support over 100 people over a week at the Day centre with varying levels of support needs. The Day centre is not only a resource for the service users where they can be supported with mental stimulation, information and support, Physical support and exercise, socialise and be provided with hot food and drink. It is also a vital resource for family's and carers providing a much needed valued respite for them to get a break from carer stress. We often receive praise for our services and have been told on a number of occasions how much we are valued by these families and carers. Closing the Day centre and leaving potentially over 100 elderly. Family. Carers without the resource will have a devastating effect on the communities of West Lothian and put a greater stress on care providers and the family's and carers of the service users. The Day centre has in my opinion a lot more to give and perhaps taking measures such as imposing a greater charge for the service currently 4.50 could be potentially 10-15, revising the potential for savings from transport ie could there be a Day centre bus and staff drive bus to save money on costs paid to transport dept for 3x buses per day. A part time manger may also be a means of money saving. From experience I feel the Day centre does not require a full time manager in place.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any redesign of day care services
16631	An individual	2e. Building Based Care	rubbish for old folk	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16632	An employee of West Lothian Council	2e. Building Based Care	The Linlithgow Partnership Centre has just been refurbished at substantial cost, partly to accommodate the Linlithgow & District Community Day Centre. Do these proposals affect this?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Community Day Centres are not currently included in the proposal
16633	An individual	2e. Building Based Care	I don't like the sound of this - privatising services currently proved by the council and I do not support this proposal.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian already commissions day care services from a range of external partners.
16634	No Response	2e. Building Based Care	I dont agree with closing day centres for older people. These are often a lifeline for these communities.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area

16635	An employee of West Lothian Council	2e. Building Based Care	We need care for our elderly especially those that cannot afford to pay for it themselves.	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16636	No Response	2e. Building Based Care	Provide more day centres for older people , don't put out to private companies who pay high salaries to the managers and directors rather than putting the money into the care that is required	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16637	An individual	2e. Building Based Care	I'm not convinced that there are enough places in West Lothian to meet demand so closing services is counter intuitive.	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. This external model of provision is more cost effective.
16638	An individual	2e. Building Based Care	Again, lack of clarity in this proposal makes it incredibly difficult to evaluate with any accuracy. The elderly must be protected, along with the other most vulnerable people.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16639	An employee of West Lothian Council	2e. Building Based Care	How much money has been wasted previously on these purpose built facilities which are now to be closed and agency staff utilised? The sale of these building will not recoup anywhere near the outlay.	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
16640	An employee of West Lothian Council	2e. Building Based Care	It makes sense to ensure value for money in this area. To make sure commissioned services are not top heavy with managers and left short on the frontline.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16641	An individual	2e. Building Based Care	There needs to be alternative options available before services are withdrawn. There needs to be a more accessible resource directory of all groups/activities to enable people to make choices.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16642	An individual	2e. Building Based Care	Another cost shift to the individual but you have no choice. This assumes adequate standards of care are available and maintained including effective monitoring.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16643	An individual	2e. Building Based Care	Consider the flexible model approach sensible but not clear what impact this may have as individuals in this group may benefit from the consistency of familiarity.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16644	An individual	2e. Building Based Care	"...changes in client choice..." I think that some customer research might help here. Who's making the judgement?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Approximately 40% of clients have selected care to be provided through self-directed support with providers that they have selected themselves. The council must ensure that our facilities are efficient to keep open
16645	An individual	2e. Building Based Care	The core of this service is to help with isolation, will the self-directed support provide this?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Self-directed support is about client choice on how they want any assessed eligible need to be arranged (e.g. by the council or through a direct payment) and is not about services
16646	An individual	2e. Building Based Care	as long as they don't close down as some private ones have done recently	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16647	An individual	2e. Building Based Care	I feel there are not enough facilities and support for older people therefore would oppose this.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16648	An employee of West Lothian Council	2e. Building Based Care	as long as the elderly can still access this service that's the most important thing	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16649	An employee of West Lothian Council	2e. Building Based Care	Close local building will cost more for transport.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment which will be considered as part of any service redesign
16650	An individual	2e. Building Based Care	Again, why is this a separate question. The care of older people cannot and definitely should not be split between functions!	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council already provides different model of care for older people

16651	An individual	2e. Building Based Care	This is an area of activity that demands more, not less expenditure.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16652	An employee of West Lothian Council	2e. Building Based Care	We would need to ensure we do not isolate or alienate individuals. Need to ensure resources are still local and easily accessible.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16653	No Response	2e. Building Based Care	Yes this sounds reasonable but is the SDS option efficient longer term	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16654	An employee of West Lothian Council	2e. Building Based Care	ok if care can still be provided locally to those who need it	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16655	An employee of West Lothian Council	2e. Building Based Care	Reduce and remove anything which is not statutory.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16656	An employee of West Lothian Council	2e. Building Based Care	Again this should be completed with great sensitivity for a client group who can find change to be stressful and confusing. There must be respect and provision for clients who do not wish to be "forced" into new services due to frailty and fatigue to ensure they are not marginalised by any new delivery of service.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16657	An individual	2e. Building Based Care	The loss is not worth the estimated savings the council will gain.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16658	An individual	2e. Building Based Care	The service should be maintained and improved. I do not support this strategy.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16659	An employee of West Lothian Council	2e. Building Based Care	More flexible or just cheaper! Emphasis on quantity rather than quality?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16660	An individual	2e. Building Based Care	This is a great way forward to allow older people to make the choice.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16661	On behalf of a Group/Organisation	2e. Building Based Care	A long term strategy is needed as the population are living longer. Not sure if this proposal goes far enough?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16662	An employee of West Lothian Council	2e. Building Based Care	Presumably Bield wasn't one of the existing partners at the time of writing - WLC still happy to contribute to the dismantling of the welfare state? Wow - even Orwell never predicted such fluency in 'Doublespeak'!	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16663	An employee of West Lothian Council	2e. Building Based Care	Not a big saving to make against the likely negative and upsetting impact this proposal would have on older people.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16664	An individual	2e. Building Based Care	Again, care needs to be taken that people aren't being disadvantaged and isolated due to lack of provision of care services.	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16665	An individual	2e. Building Based Care	That's all well and good IF you get, or can get a social worker to complete the application for, SDS! PERSONALLY BEEN WAITING 15 MONTHS FOR A SOCIAL WORKER TO RETURN CALL TO GET THIS ARRANGED:!!!	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16666	An individual	2e. Building Based Care	Elderly people are sometimes feel isolated in their homes so housing with care would be ideal	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16667	An individual	2e. Building Based Care	Given 2d above this would seem ambitious and contradictory in terms of its sustainability	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

16668	No Response	2e. Building Based Care	Again this sounds like WLC wish to shift the burden elsewhere.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16669	An employee of West Lothian Council	2e. Building Based Care	The Occupational Therapy Service could have a role to play in identifying the needs of older people within the housing with care environment.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16670	An individual	2e. Building Based Care	Yes sounds sensible, People don't like change though, especially older people so this will need to be carried out sympathetically.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16671	An individual	2e. Building Based Care	Most care homes are only there for the money, that's why they employ people from abroad and pay them pittance (no thanks given) Support the elderly in their homes and the same staff can work from one base.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16672	An individual	2e. Building Based Care	need to keep these buildings	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16673	No Response	2e. Building Based Care	Removing services has, in the mainstream, caused isolation. How will this be mitigated in an ever increasing elderly population? Again, without base information on the use of these services and the effect they have on older peoples lives I can't really make much more comment.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16674	An individual	2e. Building Based Care	As long as the facilities are there for people in need, there is no difference who is the service provider.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16675	No Response	2e. Building Based Care	Council must maintain local services for the elderly.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16676	An individual	2e. Building Based Care	I think this needs separate research and is a huge project on its own as it will have a massive impact on the community particularly where people rely on this service.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16677	An individual	2e. Building Based Care	Private sector making profit ? If they can do it why can't the council ? Cheap labour force ?	Building Based Care (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
16678	An individual	2e. Building Based Care	Can the local community be encouraged to help more	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16679	An individual	2e. Building Based Care	Can community centres not run classes for older people.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16680	An individual	2e. Building Based Care	This service should not be cut while other discretionary activities continue in the Council.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16681	An individual	2e. Building Based Care	Be careful this does not exclude people from getting the services they need	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16682	An individual	2e. Building Based Care	Fine as long as it's not a disguise for cutting services and forcing people into living in ways they do not want to. It is crucial that Council management get to review this for themselves as Social work and Occupational Therapists in particular will not report this to decision makers.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16683	An employee of West Lothian Council	2e. Building Based Care	Again feel saddened that our older adults will be furthermore left isolated and lead meaningless lives	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16684	An individual	2e. Building Based Care	Seems like a good idea providing you secure the services from the external source first and monitor quality of service before closing any facilities.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16685	No Response	2e. Building Based Care	Older people who have worked hard contributing to and making our community what it is only to be abandoned by it in their time of need... closing care centres for the elderly is not the answer!	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16686	An individual	2e. Building Based Care	Both my mum and dad live in sheltered housing and the two facilities are totally different in what they offer. One uses everything the other nothing but both feel safe and secure and not alone which I feel is a big priority for the elderly.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16687	An individual	2e. Building Based Care	Targeting the most needy. Very disappointing.... The buildings are purpose built for a reason!! No this is a false economy.yes	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16688	An individual	2e. Building Based Care	Often this is the only link to the community that older people have. Removing or limiting this service will have detrimental affects on those involved.	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16689	An employee of West Lothian Council	2e. Building Based Care	These purpose built buildings should not close. West Lothian should continue to show other districts what can be done to support people. If the council is looking to save 800,000 then close other old buildings and knock them down that are lying empty or are not fit for the purpose and costly to repair. that would save money.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16690	An individual	2e. Building Based Care	More self contributions , insurance schemes!!!!	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
16691	An individual	2e. Building Based Care	I AM NOT CONVINCED THESE CLOSURE WILL PROVIDE A BETTER SERVICE	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16692	An individual	2e. Building Based Care	Terrible idea for all the reasons I have mentioned previously. Council washing their hands of the biggest challenge of the century.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16693	An individual	2e. Building Based Care	Transport for older people to these places would then have to be provided or you are basically cutting people off from them.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16694	An individual	2e. Building Based Care	These buildings can be hired and used for other purposes. Promoting this more would hopefully bring more money in for the running of the buildings. Kids birthday parties/events could bring in a lot of money for example.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16695	An individual	2e. Building Based Care	Again, care needs to be taken in agreeing the terms on which external partners take on additional services. There needs to be a commitment to maintaining quality and accessibility.	Building Based Care (general)	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16696	An individual	2e. Building Based Care	It is not possible to comment properly from the information above. However, the well-being of the elderly and the effect it has on their health is of paramount importance when considering these closures.	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Work will continue to focus on those who are most vulnerable and have additional needs.
16697	An employee of West Lothian Council	2e. Building Based Care	Our whole society needs to change and care more for those vulnerable people but how do we do this so that flexible care can be introduced and the shortfall picked up by others? Education could have a focus on this.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16698	An individual	2e. Building Based Care	A more flexible model for housing with care for older people could prevent the need for admission to residential/nursing home.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
16699	An individual	2e. Building Based Care	I support the focus on service rather than building but this won't happen overnight. I would like to see more detail about how you are planning to do this and how this links with any developments around accessible housing more generally . Have you or could you also take the step to stop providing planning permission for bog standard private care home companies (I think S or N Lanarkshire has taken that step)?. In stead how do you you and the LJB support Bield (a very good services provider) from pulling out of the area? How do you get mainstream services (shops, community groups, pharmacists, health centres) investing to support older people in a preventative way?	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area
16700	An individual	2e. Building Based Care	I would like to see the council providing support for the self directing of services as this is a complicated area for many.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16701	An individual	2e. Building Based Care	If this truly reflects c;lient choice, it may be sensible.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16702	An employee of West Lothian Council	2e. Building Based Care	We need more specialist housing with care in West Lothian for all age groups to save money. Currently there are many individuals sent to specialist provision outside their local area which is very expensive.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16703	An individual	2e. Building Based Care	Dementia is a difficult one to manage and it is on the increase. Centralisation not distribution would be my preferred option unless there is a cure. Unfortunately dementia sufferers are only going to get more dependent and in need of greater care.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16704	An individual	2e. Building Based Care	I think more emphasis should be on flexibly utilising the current workforce as opposed to reducing it or creating 'efficiencies'. Hands on care is already in crisis. Reducing the qualified, trained workforce will have critical consequences.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16705	An individual	2e. Building Based Care	Not Just in Livingston	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16706	An individual	2e. Building Based Care	I agree but disagree that residents pay for the use of facilities which are not always available due to other groups using them free.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16707	An individual	2e. Building Based Care	Is this not a double count with 2c?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	2c - Care For Adults is about care for adults (people who are younger than 65). Proposal 2e - Building Base Care is about older people (people who are 65 and over)
16708	No Response	2e. Building Based Care	Ask yourselves the question - are you doing the right thing - you will probably answer no - but do it anyway.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16709	An individual	2e. Building Based Care	As long as the Care was affordable to the Client and the Council was responsible that these external partners were delivering	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16710	An employee of West Lothian Council	2e. Building Based Care	Again isolation is important and so long as this service provision is changing to be more efficient rather than being lost to those that require it	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16711	An employee of West Lothian Council	2e. Building Based Care	Older people should not be penalised - they need these services Children and families can arrange themselves older people cant	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16712	An individual	2e. Building Based Care	good to be flexible in this area .	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16713	An individual	2e. Building Based Care	Given the imminent closure of Bield provision, this needs to be reconsidered.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16714	An individual	2e. Building Based Care	Eh. A more flexible model.... What does this mean. Say what you mean. Don't use all this waffle. Whoever prepared this questionnaire should be lost. It's complete waffle without substance. There is a saving right there.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16715	An individual	2e. Building Based Care	Can details of this plan be published for interested parties to view electronically and/or hardcopy? I would like to understand more about the statement above. If there is a growing demand why are the day centres being closed? Will external partners take over the running of the building and the services? I had thought there were not enough spaces available in good quality care establishments. Families are very worried about the quality of life for older people. How is SDS actually helping, rather than the theory of what it can do? What are the older people choosing to do in relation to SDS? Can details of this plan be published for interested parties to view electronically and/or hardcopy?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16716	No Response	2e. Building Based Care	I don't know enough about the specific providers and what is offered but the importance of keeping older people out of isolation is important and looking at them holistically	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16717	No Response	2e. Building Based Care	Highly disappointed with this proposal	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16718	No Response	2e. Building Based Care	I don't agree a better use of staff and facilities would save money and improve service delivery	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

16719	An individual	2e. Building Based Care	Should be streamlined where possible where maintaining choices and standards.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16720	An individual	2e. Building Based Care	The people who you do not offer support to have kids and families who need them well, the whole society needs them well. Whether it is early years, teenagers who are not in education or employment, more vulnerable adults with complex needs or elderly people, the less we provide to keep them safe and well and making a positive contribution the more likely they are to come back as crisis interventions, long term unemployed, drug or alcohol dependent or in health crisis of some type. This is short term and will benefit no one. Who will pay for all those crisis services? Safety nets protect everyone even people who don't think they'll ever need them. I know they're are some excellent housing providers but how will that be paid for?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will always be required to prioritise the needs of people who are most vulnerable. We would also aim to provide early intervention and prevention support where evidence based practice shows that a positive impact can be made
16721	An individual	2e. Building Based Care	I hope the council will ensure that older people will still feel valued, respected and be looked after by well trained reliable staff.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16722	An individual	2e. Building Based Care	keep care facilities in each town	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16723	An individual	2e. Building Based Care	I feel sorry for people who would be losing this service	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16724	An individual	2e. Building Based Care	people that use this service depend on the service	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16725	An individual	2e. Building Based Care	We understand need to close properties but hope that this wont reduce opportunities for those affected.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16726	An individual	2e. Building Based Care	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16727	An individual	2e. Building Based Care	What does this mean for the people using the other Centres, which probably were local to their homes. Centralising this in Bathgate would impact on the people with travel, losing friends. What if numbers grow and the new centre cannot cope	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16728	An individual	2e. Building Based Care	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16729	An individual	2e. Building Based Care	Flexibility and partnerships and finding local area solutions seems to be the way forward.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16730	An employee of West Lothian Council	2e. Building Based Care	This may also be the case for family centres. These buildings are under used. Families would benefit more from sessions in their local communities or family homes. Day centres for either the old or families could save council monies.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16731	On behalf of a Group/Organisation	2e. Building Based Care	More detail required. Loneliness is a major issue for the elderly and other isolated and disadvantaged groups. The TUS are concerned that this will impact on some of the most vulnerable in society.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16732	An individual	2e. Building Based Care	Local service centers are very important to older people	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	The approach is to encourage community capacity building and informal networks to ensure people remain connected with their local area

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
16733	An individual	2e. Building Based Care	Hard to comment. What does 'a more flexible model' mean in practice? Does closing council owned facilities mean the SAME 'service continuing to be delivered by existing external partners'? ie do they have to offer more to make up for the council closures or is it just a cut?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16734	An individual	2e. Building Based Care	Further clarity on 'self directed support' would be beneficial.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Self-directed support is the choices people can make about how they wish their assessed eligible care to be provided
16735	An employee of West Lothian Council	2e. Building Based Care	More community-integrated and wider social and care support facilities is to be welcomed.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16736	An employee of West Lothian Council	2e. Building Based Care	you need different levels of care to suit	Building Based Care (general)	4. The council is already doing this.	Criteria is set within an assessment framework to ensure people's needs are assessed consistently and fairly
16737	An employee of West Lothian Council	2e. Building Based Care	Families should be encouraged to care for their own families wherever possible. Although this is not always an option due to complex care needs, families need to be actively encouraged to care for their own elderly family members.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16738	An individual	2e. Building Based Care	Looking at the venues/services most used should be continued with the lower number services being reduced or integrated with another.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16739	An individual	2e. Building Based Care	That'll mean the refurbishment of Pathways when the Eiburn users are wondering how they are going to fit in.	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16740	An employee of West Lothian Council	2e. Building Based Care	What is self-directed support? What changes have there been in "client choice"? What is the "more flexible model for housing with care for older people"? How does it differ to what is in place? Is this just another attempt at pushing a service out to the private sector?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services. Self directed support is where people who have assessed eligible needs can make choices about how they wish their care and support to be provided.
16741	An individual	2e. Building Based Care	I understand this but it is essential that the level of care is maintained.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16742	An individual	2e. Building Based Care	These are a life line for some of the most vulnerable in our community sometimes the only time people can see interact with other people and members of the public	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16743	An individual	2e. Building Based Care	Where is the evidence base for this? Rosemount has just opened. Long term evidence / evaluation of impact before I can consider supporting.	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16744	An individual	2e. Building Based Care	Sad choice for old people and their carers	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16745	An individual	2e. Building Based Care	Buildings are being closed down and new buildings are being built ? not sure where the saving is on this . staff being relocated and then accommodation not having i.e. not enough parking spaces ?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16746	An individual	2e. Building Based Care	If this idea provides better care than the past model then it should be considered.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16747	An individual	2e. Building Based Care	The previous proposal would cut funding for external provision, and this one loads more burdens onto external providers. Day care includes social interaction, which may be unlikely to be able to be purchased with self-directed care, since no one client can compel others to come for a chat. Increased isolation seems likely to be the outcome. So the design of the change may need to be revisited.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16748	An individual	2e. Building Based Care	How is this going to work if there is no accommodation to put day care services into? Could better use be made of the day centres by sharing accommodation with other groups who could use them at different times?	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

Transforming Your Council Consultation 2017

16749	An individual	2e. Building Based Care	I would be concerned that this would result in the quality of the service being reduced.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16750	An individual	2e. Building Based Care	Is there any data as to the effectiveness of the plan you are proposing? Or is this something that is being pioneered here (with associated risk)?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16751	No Response	2e. Building Based Care	Don't agree with this, I feel we should be keeping this within the council and not outsourcing the work and care. This means we have better knowledge of how these are being run and keeping budgets to a limit. Outsourcing this is probably costing twice as much to run.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16752	An employee of West Lothian Council	2e. Building Based Care	Making more volunteer opportunities for people to interact with older people / visit them would be a lovely idea. Pairing up schools and nurseries with care homes would also have a positive effect as they will be gaining social interactions from a young age	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16753	An individual	2e. Building Based Care	This may cost more in the long term	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16754	An individual	2e. Building Based Care	agreed. Use Community Councils to support this.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16755	No Response	2e. Building Based Care	I am concerned that once again the more vulnerable residents in the County would be overseen and the people who shout the loudest would be the ones to get heard. My fear also, is that is West Lothian Council close their buildings, external partners, granted may provide a like for like service, but at what cost?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
16756	An individual	2e. Building Based Care	I agree with the proposal of providing housing with care for older people throughout West Lothian but would strongly suggest that no existing services are cut prior to this provision being made which makes savings in this financial period very unlikely.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16757	An individual	2e. Building Based Care	What is this more flexible model?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16758	An individual	2e. Building Based Care	By all accounts many councils are now moving away from day care as less people are using these facilities and we should be encouraging as many as possible to use community facilities supported by voluntary organisations, church groups etc	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16759	An individual	2e. Building Based Care	How many of these centres are you going to have to build to meet the demand. The estimated saving of Â£800K will hardly cover the cost of paying for external providers.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16760	An individual	2e. Building Based Care	Does this mean that these day services would no longer be free for pensioners? For many, this is the only regular social contact they receive. Many will not be in a position to pay to attend. Well done west Lothian, promoting social isolation! How will these external partners be regulated?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16761	An individual	2e. Building Based Care	This will again cause distress to service users, families and communities. The expectation of reliance on, external partners when it is already stated that this will also be cut doesn't make sense. Again, strain on services and unrealistic workload for existing Council workers in this field.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16762	An individual	2e. Building Based Care	I do believe care at home is best for older people if it is possible. However purpose built building for children education or for disabled children should be kept.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16763	An individual	2e. Building Based Care	Supported communities is a fine thing but care must be taken to ensure the elderly are not taken advantage of.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16764	An individual	2e. Building Based Care	Care should also be taken in reducing access to group activities and support for older people as this increases loneliness and carer stress leading to an increased need for higher cost services	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16765	On behalf of a Group/Organisation	2e. Building Based Care	Section 2E Building Based Care. The Community Council accepts that different models may be needed. Â£800k however is a large saving and we question whether this can be achieved within 5 years if capital expenditure is needed to achieve the revenue savings. Again we are not able to support something we can't see happening, however worthy.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

16766	An employee of West Lothian Council	2e. Building Based Care	It is important the service is still available to this group of clients, and this is a growing area of need therefore this provision needs to take account of the increasing demand.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16767	No Response	2e. Building Based Care	You will need to work very hard to ensure prices stay reasonable or older persons will pull back and only present in extremis.	Building Based Care (general)	4. The council is already doing this.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16768	An individual	2e. Building Based Care	Why have you been wasting so much of our money up to this point?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
16769	An employee of West Lothian Council	2e. Building Based Care	What is the more flexible model?	Building Based Care (general)	3. The respondent advised that they had no comment to make.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16770	An employee of West Lothian Council	2e. Building Based Care	Again this will put further additional pressures on families/carers and those they support and care for. There is very limited options for some people and by reducing buildings even more will be the wrong decision to make.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16771	An individual	2e. Building Based Care	In reality, closing council owned properties does not benefit anyone as the elderly depend on these. The buildings should be retained by the council whether or not they decide to use third parties to provide the services within.	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16772	An employee of West Lothian Council	2e. Building Based Care	I think this is segregation of those most vulnerable	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16773	An individual	2e. Building Based Care	Local provision is important. This is not achieved by one facility for the region.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16774	An individual	2e. Building Based Care	I believe this actually means closing some existing purpose built buildings and I do not agree that is a good thing to do. They were purpose built for a reason and are still needed.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16775	An individual	2e. Building Based Care	"Save the building" campaigns should be resisted in favour of modern thinking and innovative service delivery solutions. Change is often resisted, only to be proven worthwhile over time.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16776	An individual	2e. Building Based Care	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16777	An individual	2e. Building Based Care	I like that this is based on client feedback	Building Based Care (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16778	On behalf of a Group/Organisation	2e. Building Based Care	May lead to isolation and poor mental health	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16779	No Response	2e. Building Based Care	lack of recourse requested by service users and families under SDS currently available, a hub of services and facilities those run by external providers cost more per head than those run by WLC.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16780	An individual	2e. Building Based Care	Due to the increasing age demographics projected forward, there is an urgent need to build and provide more facilities for our ageing population. There can be no reduction here. The provision at the moment is far from adequate and is causing suffering and hardship.	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16781	An individual	2e. Building Based Care	Home visits require to increase to monitor service delivery quality I assume?	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.

16782	An individual	2e. Building Based Care	As a former carer of an elderly parent, my view is that these services are a lifeline for the service users (carers and older people who attend). The saving seems small in comparison to the impact of the loss on users. I believe you should not proceed with this cut.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16783	An individual	2e. Building Based Care	By all means close 'not fit for purpose' buildings but don't throw the baby out with the bathwater. There may be many buildings that can be modified for use and so avoid empty premises which incur extra expense to stop decay and downward spiral into too many empty buildings.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16784	An individual	2e. Building Based Care	If people truly want less building based care then I am happy with this.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16785	No Response	2e. Building Based Care	Again, as long as this does not cause greater isolation to older people, I would support this.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16786	An employee of West Lothian Council	2e. Building Based Care	as long as the same level of care is provided	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16787	An employee of West Lothian Council	2e. Building Based Care	If self directed support is benefitting all why not adopt this throughout.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16788	An employee of West Lothian Council	2e. Building Based Care	It sounds good in theory, but what would the model actually look like? Care services should be based on needs led assessment that emphasise ease of access and inclusion for our elderly population. When things like the community café in Strathbrock partnership centre is just closed after more than 10 years and the community is just left with an impersonal, sterile space and expensive unhealthy vending machines, I don't believe this is moving in the right direction. It was a significant community resource for the elderly population that was just removed with very little thought about the wider impact.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There are 8 Housing With Care Units across West Lothian providing support for older people and a review will consider a more flexible approach like the one at Rosemount Gardens
16789	An employee of West Lothian Council	2e. Building Based Care	Will this isolate older people who may not adapt well to change. How do older people get to these new services given the reduction in some bus routes. This could have a devastating effect on the older generation	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16790	An individual	2e. Building Based Care	As long as the care for the elderly is not compromised.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16791	An individual	2e. Building Based Care	How can this be in line with councils own priorities which is to improve quality of life	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16792	An individual	2e. Building Based Care	Agree lot of private care homes cost a fortune.	Building Based Care (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The proposal does not relate to residential care
16793	An individual	2e. Building Based Care	As I wrote above, under 2b, any budget cuts made in the area of support for older people, would need to ensure that older people still receive the level of care that they require, as they become more vulnerable, and that the quality of care received is not decreased/reduced.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16794	An individual	2e. Building Based Care	Be careful - this might seem like a saving but in the end the council would be better at providing the service as they have a better ethos.	Building Based Care (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
16795	On behalf of a Group/Organisation	2e. Building Based Care	SDS focuses on the choice of the supported individual regarding where, how and by whom support is delivered, I agree where the proposed model is chosen by the individual	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16796	An individual	2e. Building Based Care	This will be a sad removal of what can be a life line for a very vulnerable group.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.

Transforming Your Council Consultation 2017

16797	On behalf of a Group/Organisation	2e. Building Based Care	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
16798	An individual	2e. Building Based Care	Closures should only be considered if nothing else can be done Better cost effective provisions should be considered for older people.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16799	An individual	2e. Building Based Care	As above comment. Appropriate care and of the best quality.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
16800	An employee of West Lothian Council	2e. Building Based Care	As answered before, this needs to be carefully monitored or could create a huge problem further down the road costing more in the long run.	Building Based Care (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
16801	An employee of West Lothian Council	2e. Building Based Care	Agree building based care services across all client groups should be reviewed.	Building Based Care (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
16802	An employee of West Lothian Council	2e. Building Based Care	Would the option of a drop-in sessions be viable in the new centre for those no longer able to access day centres	Building Based Care (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
16803	An individual	2e. Building Based Care	Again closing centre results in isolation for many people so can have a very negative impact on individuals well being SDS has not had time to impact fully yet and lots of assumptions are being made about its effectiveness Not sure this is an answer and the huge negative impact this could have for the amount of savings is not justified.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16804	An individual	2e. Building Based Care	Is this proposal going to cost more than if the Council gradually refurbished the buildings they currently have?	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16805	An individual	2e. Building Based Care	Closing buildings (especially purpose built) is not acceptable	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16806	An individual	2e. Building Based Care	Purpose built premises for disabled and vulnerable should not close. These are desperately needed.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16807	An individual	2e. Building Based Care	I cannot understand why they are picking on older people. The majority of us don't have the strength to support ourselves. We have zimmers and walking sticks but need help. I have had 3 heart attacks. I think the proposal to shut the day centre is scandalous. It's our one day out. We get support, we get a good meal and help from door to door.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16808	An individual	2e. Building Based Care	Unsure of tis one and seems to contradict the proposal in 2d we either need this type of service or we don't if you need it is should be provided by an in-house service and not by private companies who are making money while providing care.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council purchased day care for older people in the independent sector will continue to be provided for people eligible for day services.
16809	An individual	2e. Building Based Care	With the way things are going really concerned for the well being of the elderly within all care homes. Seems again the elderly an easy target.	Building Based Care (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
16810	An individual	2e. Building Based Care	Opposed to this	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

16935	An individual	2e. Building Based Care	2E This proposal does not make sense. on one hand the council is proposing to reduce funding for external partners yet have a greater reliance upon external agencies to provide care and support services. these two measures do not equate. This question lacks detail as to what external agencies and bodies currently provide and at what cost. What is the detail upon their reliance and what budget allocated.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16936	An individual	2e. Building Based Care	More information needed	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16937	An individual	2e. Building Based Care	Sounds like that there would be less support where it is needed.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
16938	An individual	2e. Building Based Care	Would need more detail to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

17162	An individual	2f. Social Policy Management and Support	Look okay as it is possible to evaluate given the vague descriptions given in the 'Transforming Your Council'	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17163	An individual	2f. Social Policy Management and Support	I agree with the proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17164	An individual	2f. Social Policy Management and Support	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17165	An individual	2f. Social Policy Management and Support	Agreed that there should be a reduction in the management and administration requirements	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17166	An employee of West Lothian Council	2f. Social Policy Management and Support	The pressures already on social policy are immense - more will lead to more xxxxx!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17167	An individual	2f. Social Policy Management and Support	Social Care services are already overstretched and underfunded so I do not agree with further reduction in resources for social care.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17168	An individual	2f. Social Policy Management and Support	Would hate to see overstretched social care.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17169	An employee of West Lothian Council	2f. Social Policy Management and Support	I don't agree with cutting funding to these services. Cutting these could cause more harm than good with more problems directed to NHS, anti social behaviour and all sorts.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17170	An employee of West Lothian Council	2f. Social Policy Management and Support	I am against this proposal	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17171	An individual	2f. Social Policy Management and Support	I have no objection to this.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17172	An individual	2f. Social Policy Management and Support	Too many cuts.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17173	An individual	2f. Social Policy Management and Support	More job losses	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17174	An individual	2f. Social Policy Management and Support	There should be no changes to the existing!	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17175	An individual	2f. Social Policy Management and Support	no	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

17177	An individual	2f. Social Policy Management and Support	Again this comes across as decisions already made. No support.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17178	An individual	2f. Social Policy Management and Support	I disagree with this proposal. Reductions have already been made in this area, any further reductions will only impact on the how the social care is delivered to people in the community.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17179	An employee of West Lothian Council	2f. Social Policy Management and Support	Social work is needed within the authority and cuts will make the problems worse rather than better	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17180	An employee of West Lothian Council	2f. Social Policy Management and Support	Social policy services provide vital support for families. These supports should be protected.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17181	An individual	2f. Social Policy Management and Support	None	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17182	An individual	2f. Social Policy Management and Support	Don't agree	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17183	An employee of West Lothian Council	2f. Social Policy Management and Support	Like many of the proposals in this consultation, it is difficult to comment without knowing more of the context. Do you really expect consultees to disagree with a proposal which says the Council will be 'streamlining and consolidating internal processes'?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17184	An employee of West Lothian Council	2f. Social Policy Management and Support	No comment - I do not have enough information regarding this.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17185	An individual	2f. Social Policy Management and Support	No opinion	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

17247	An individual	2f. Social Policy Management and Support	I have a first class honours degree and find this totally woolly - how do you expect your average council tax payer to understand what on earth you are going on about, so how can they possibly make an informed contribution to this "consultation"?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17248	No Response	2f. Social Policy Management and Support	I don't have any experience or knowledge of the care process within West Lothian.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17249	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17250	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17251	An individual	2f. Social Policy Management and Support	No comments	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17252	An individual	2f. Social Policy Management and Support	What partners?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17253	An employee of West Lothian Council	2f. Social Policy Management and Support	No idea what it means in practice.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17254	No Response	2f. Social Policy Management and Support	Don't know enough about this to comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17255	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17256	An employee of West Lothian Council	2f. Social Policy Management and Support	2f I don't know enough about what this would change to be able to comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17257	An individual	2f. Social Policy Management and Support	I cannot comment on this as it is not specific enough?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17258	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17259	An employee of West Lothian Council	2f. Social Policy Management and Support	No comments.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17260	An employee of West Lothian Council	2f. Social Policy Management and Support	NO COMMENT	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17261	No Response	2f. Social Policy Management and Support	What does this even mean?? "streamline and consolidating" - typical business buzz words.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17262	No Response	2f. Social Policy Management and Support	.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17263	On behalf of a Group/Organisation	2f. Social Policy Management and Support	The consultation document does not tell us what the budget is for each of the estimated savings areas. Therefore we have no indication of the significance of the savings against the overall budget. This applies throughout the document. There is no detail around the statement "opportunities to integrate further with partners will be progressed". Unless we know in more detail what this means we cannot make an informed comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17264	An individual	2f. Social Policy Management and Support	Don't know as no information available to help members of public make proper responses.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17265	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17266	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17267	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17268	An employee of West Lothian Council	2f. Social Policy Management and Support	N/a	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17269	An individual	2f. Social Policy Management and Support	Don't know about this would need further information	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17270	An individual	2f. Social Policy Management and Support	Again, this sounds as though jobs will be lost.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17271	An individual	2f. Social Policy Management and Support	What does this mean exactly?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

17300	An employee of West Lothian Council	2f. Social Policy Management and Support	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17301	An individual	2f. Social Policy Management and Support	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17302	An individual	2f. Social Policy Management and Support	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17303	On behalf of a Group/Organisation	2f. Social Policy Management and Support	If your proposals for care are fully implemented you won't need management and admin anyway.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17304	An individual	2f. Social Policy Management and Support	Why are there no contributions for social work transport? All parents of children/adults with disabilities have mobility payment or car. If everyone contributed to transport children/adults/older people services then this would bring in more revenue. Why are we paying so much for private hire taxis and escorts when buses already go to centres.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17305	An individual	2f. Social Policy Management and Support	How much will you be charging for disabled people for community transport to day care or anywhere else? Will this charge be paid upfront or will you need extra debt recovery staff?	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
17306	An individual	2f. Social Policy Management and Support	How much will you be charging for disabled people for community transport to day care or anywhere else? Will this charge be paid upfront or will you need extra debt recovery staff?	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
17307	An individual	2f. Social Policy Management and Support	How much will you be charging for disabled people for community transport to day care or anywhere else? Will this charge be paid upfront or will you need extra debt recovery staff?	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
17308	An individual	2f. Social Policy Management and Support	How much will you be charging for disabled people for community transport to day care or anywhere else? Will this charge be paid upfront or will you need extra debt recovery staff?	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
17309	An individual	2f. Social Policy Management and Support	How much will you be charging for disabled people for community transport to day care or anywhere else? Will this charge be paid upfront or will you need extra debt recovery staff?	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any contributions policy would be subject to the financial assessment of affordability
17310	An individual	2f. Social Policy Management and Support	many older people are very well off financially, and should be paying their way...cut their subsidies on an ability to pay basis	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17311	An individual	2f. Social Policy Management and Support	Provision of care is a really big problem as costs will keep going up. Perhaps those who can afford it can be asked to contribute towards their care.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17312	An individual	2f. Social Policy Management and Support	Older people are best served when they receive the help needed to allow them to remain at home. The relatives of older people should contribute to their care wherever possible. The Council is not a dustbin for old folk that allows the family to evade their responsibilities.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17313	An employee of West Lothian Council	2f. Social Policy Management and Support	Cease Flexible respite, benefits wealthy only. Introduce charging policy. People can pay from PIP or AA. Target priority need. Add cost of monitoring and complaints about private firms to costs	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17314	An employee of West Lothian Council	2f. Social Policy Management and Support	Cease Flexible respite, benefits wealthy only. Introduce charging policy. People can pay from PIP or AA. Target priority need. Add cost of monitoring and complaints about private firms to costs	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17315	An individual	2f. Social Policy Management and Support	changes to the sleepover model will be changed to greater use of technology???????????????? Local Solutions????????????????	Social Policy Charging (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17316	An individual	2f. Social Policy Management and Support	More support needs to be provided by families, if this isn't available then the council can look to support, however there should be contributions for the individual or family to this support care. If an individual us saving then this need to support this. Again I believe this could be a means tested system. If an individual owns there own home there should be way of taking money out of this property to support there care.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17317	No Response	2f. Social Policy Management and Support	Families who claim DLA/PIP high rate mobility etc, have a higher than normal amount of money coming in than the average family, and therefore should use that money for the care.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17318	An individual	2f. Social Policy Management and Support	20.6 million is a lot considering people with disabilities are already getting etc financial payments from pip, disability living , employment support and carers allowance from central government maby we should be charging for some of the help we are offering on a local level	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17319	An individual	2f. Social Policy Management and Support	We need to help the elderly but again where the government is paying for the disabilities and carers maby a charge is appropriate	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17320	An employee of West Lothian Council	2f. Social Policy Management and Support	Means tested charging for services like other Local Authorities do.	Social Policy Charging (general)	4. The council is already doing this.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17321	An individual	2f. Social Policy Management and Support	Why will older people not also be means tested for personal care?	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17322	An individual	2f. Social Policy Management and Support	This only means more cuts	Social Policy Charging (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17323	An employee of West Lothian Council	2f. Social Policy Management and Support	Look at what contribution health will make to this. Provide equality across services to children, adults and older peoples	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17324	No Response	2f. Social Policy Management and Support	Yes, I agree. Currently older and disabled people are receiving services when many could pay more for their care. For example a wealthy disabled person may secure equipment to help them live at home if an Occupational Therapist agrees - I do not support this sort of spending. Provision of equipment and care services must be means tested. Why can the new thresholds not be extended to those already in receipt of provision? I would support such a move.	Social Policy Charging (general)	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17325	An individual	2f. Social Policy Management and Support	Agree....modernise these services to cope with changes in society. My generationin their sixties....are, in relative terms, often better off than our parents' generation and so should be willing to contribute more to our parents' care in old age, taking some of the financial responsibility away from our currently overstretched council in this area. But can you make that happen in our me, me, me society?debatable.	Social Policy Charging (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17326	An individual	2f. Social Policy Management and Support	Seems reasonable, and where people can easily afford their own care privately, is it not reasonable to expect this in a fair world ?	Social Policy Charging (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17327	An employee of West Lothian Council	2f. Social Policy Management and Support	Older People Social Work Team Free key safes and only charging Â£1 per week for Home Safety Service continually appears to surprising for clients and their families. Generally, my experience is that clients expect to pay more for both.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17328	No Response	2f. Social Policy Management and Support	SDS care package or support package could be paid for by client especially if they have more money than others. A lot of people who have DLA/PIP & ESA could be financially assessed for service	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17329	No Response	2f. Social Policy Management and Support	There are a lot of people on PIP, ESA etc which together can amount to quite a lot of money coming in therefore some services should be a paid service to people who have more money than others.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17330	An employee of West Lothian Council	2f. Social Policy Management and Support	Introduce charging policy so adults in receipt of DLA/PIP have to use this for the purpose it is for.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17331	No Response	2f. Social Policy Management and Support	Asses weather they can afford care themselves before spending council money.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17332	An employee of West Lothian Council	2f. Social Policy Management and Support	Perhaps care for older people needs to be more means tested - although I did not have any experience or particular knowledge of this topic to fully comment.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17333	An individual	2f. Social Policy Management and Support	I disagree with people you decide can afford to, needing to contribute (pay) for personal and nursing care.	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17334	An individual	2f. Social Policy Management and Support	A contributions policy for non-residential care services will always simply encourage elderly to give money to their family before they're assessed I'd think.	Social Policy Charging (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17335	An individual	2f. Social Policy Management and Support	Yes but people on DLA and attendance allowance should contribute to the cost of their care	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17336	An individual	2f. Social Policy Management and Support	I do agree however that charging for certain care services, on an assessed affordability basis, is sensible.	Social Policy Charging (general)	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17337	An individual	2f. Social Policy Management and Support	Home safety service/technology charges could be reviewed.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17338	An individual	2f. Social Policy Management and Support	Provision of aids/adaptations for short term use should be followed up after a set period to check if still required and ensure return.	Social Policy Charging (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17339	An employee of West Lothian Council	2f. Social Policy Management and Support	Some elderly people paying for care services and only get a quick 10_15 mins ,	Social Policy Charging (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17340	No Response	2f. Social Policy Management and Support	Some services are impacted negatively by being split and operating with separate management structures instead of being an integrated service focusing on better outcomes. e.g. Children and Families Social Work Service - 2 Senior Managers, 3 Group Managers.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17341	An employee of West Lothian Council	2f. Social Policy Management and Support	IF WE MOVE TO COMMUNITY CARE MODEL, THE LEVELS OF MANAGEMENT COULD BE CULLED TO ALLOW OPTIMISED EFFICIENCY. USE OF JOINT MANAGEMENT WITH HEALTH IN IJB COULD ALSO IMPROVE THIS AREA.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17342	An employee of West Lothian Council	2f. Social Policy Management and Support	reducing management places extra stress on employees	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17343	An employee of West Lothian Council	2f. Social Policy Management and Support	as an employee within the social policy sector I have been the backlash on certain teams which have had their admin removed. I have worked for a few councils who have cut on admin services but decided against removing the admin support from the Mental Health Officer team. I agree with this and feel this particular team requires this level of support. I am not part of that team itself but contact it often so I only view it as an outsider. Productivity is imperative to a workforce and this assists with that for that particular team. Overall removal of admin support does not work for all. Looking more at social policy, I feel the council needs to look at the services they provide for free and look to change this.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17344	An employee of West Lothian Council	2f. Social Policy Management and Support	I came from a council which had stream lined the management structure and this worked well. West Lothian council have a significant amount of managers for what is not large teams. My suggestion to this would be to look at this and see what posts are actually required in the management level.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17345	An employee of West Lothian Council	2f. Social Policy Management and Support	there has already been a review of administration support which has resulted in front line workers now undertaking tasks which were more effectively and efficiently undertaken by admin support - I am unclear given this review was relatively recent what further reductions could be made without further impacting on front line workers / services	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.

17346	An employee of West Lothian Council	2f. Social Policy Management and Support	I feel a definite review for the need for the amount of seniors and managers within the council social policy needs revised.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any management restructure
17347	An individual	2f. Social Policy Management and Support	This service is top heavy. Reducing management and unnecessary bureaucracy is a good thing however, I'm not convinced that this will happen if it is management tasked to do it.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any management restructure
17348	No Response	2f. Social Policy Management and Support	Social Policy Administration is at a dangerously low staffing level already which I believe is having a negative impact on the service and staff. It is very difficult to consolidate processes as staff are so busy that they can't be released to learn new or existing processes. This in turn is a problem when someone is off work as often there is no one trained to complete their roles in their absence. Staff are stressed and morale is very low already.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to structures will require to fully consider the impact on staff
17349	No Response	2f. Social Policy Management and Support	Possible false economy of reducing admin workers with managers at higher unit cost doing admin tasks and having less time to do management tasks - false economy-	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach to administrative support continues to focus on increased use of technology functionality. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.
17350	An individual	2f. Social Policy Management and Support	Systems that talk to each other are vital in this area. Too much money spent on administration to find out what is happening. Have systems which allow input from various services and can be checked as required.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.
17351	An employee of West Lothian Council	2f. Social Policy Management and Support	As far as I'm aware there has been more integration between health and social care however these changes only seem to have a impact of those on the bottom level the management doesn't receive cuts so there is double the management but services have been merged this is where cost cutting should take place	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17352	An individual	2f. Social Policy Management and Support	Historically administrative heavy, performance teams are an industry within itself in the councils various departments.	Social Policy Management and Support - management & admin support	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
17353	An employee of West Lothian Council	2f. Social Policy Management and Support	Stream line management tiers. Organise on area basis. Minimise travel	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17354	An individual	2f. Social Policy Management and Support	Absolutely. WLC is still top-heavy with unnecessary management.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17355	An employee of West Lothian Council	2f. Social Policy Management and Support	The number of levels of management reduction yes.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17356	An employee of West Lothian Council	2f. Social Policy Management and Support	Administrative support is required to ensure those responsible for provision of Statutory duties are able to do so	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.
17357	An individual	2f. Social Policy Management and Support	No matter how streamlined processes are you can not keep reducing administrative support!	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.

17358	An employee of West Lothian Council	2f. Social Policy Management and Support	It makes sense to review structures in this service area especially with the previously mentioned proposals in questions 2a through to 2e	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17359	No Response	2f. Social Policy Management and Support	I agree with reduction an consolidation of management. Huge savings could be made by improving the skills of management.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17360	An employee of West Lothian Council	2f. Social Policy Management and Support	Existing services are pushed to the limit and reductions to management and admin could only be from services that are being reduced or stopped.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.
17361	An individual	2f. Social Policy Management and Support	Why are you not already doing this?	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17362	An individual	2f. Social Policy Management and Support	There needs to be better consultation with front line workers and the opinions taken on board rather than decisions made at management level when they are remote from the coal face.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17363	An individual	2f. Social Policy Management and Support	Again, streamline the management, not the workers.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17364	An individual	2f. Social Policy Management and Support	False economy. reducing people & management does not reduce the amount of work you just end up spreading the load on to the remaining workforce. This caused stress and increases sickness and absence levels. Cut people cut services the short term cost saving is far outweighed by the long term knock on effect of higher unemployment, higher sickness and absence rates and it will be far more expensive to resolve in the long run.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17365	An individual	2f. Social Policy Management and Support	As stated previously, review of staffing to meet changes in social care services is necessary. .	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17366	An individual	2f. Social Policy Management and Support	some of them could go anyways but you have to be careful and not reduce staffing levels so far that those left cannot cope.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17367	An individual	2f. Social Policy Management and Support	far too many middle managers	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17368	An individual	2f. Social Policy Management and Support	I am all for reducing management AND minimising the time spent in meetings.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17369	An employee of West Lothian Council	2f. Social Policy Management and Support	some LA in England have actually employed more admin staff, to make efficiencies and this has been really successful. I am worried about proposing to reduce admin further. SW time is mainly taken up with admin, it is ridiculous. We should be out supporting people, not in the office completing time consuming admin tasks.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.

17370	An individual	2f. Social Policy Management and Support	2 Managers are employed in each unit. They leave every day before 4 - money could be saved if the management were more active in the units and not sitting in offices all day. If 1 manager worked day shift and 1 worked back shift it could reduce the no of staffing required.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17371	An individual	2f. Social Policy Management and Support	Make managers more involved in day to day tasks	Social Policy Management and Support - management & admin support	4. The council is already doing this.	Thank you for your response. Your comment has been noted
17372	An individual	2f. Social Policy Management and Support	Reduction in managers is better than reducing services.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17373	No Response	2f. Social Policy Management and Support	Yes there seems to be a lot of middle ma agent of a lot of smaller teams	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17374	An individual	2f. Social Policy Management and Support	Whether it is possible to safely reduce management in Social Policy would require a full assessment of the capabilities of the current management systems. Over-stressing a management that is currently over committed may lead to catastrophic outcomes.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17375	An employee of West Lothian Council	2f. Social Policy Management and Support	I work in social work and I feel there could be huge savings made by improved joint working between agencies out of hours. I spend a good deal of time [REDACTED] screening police referrals and following them up with ACAST and the police during office hours. These cases take a huge amount of police time out of hours. I would recommend health, social work and the police looking at jointly commissioning a crisis response service from the voluntary sector e.g. from someone like Penumbra who could replace the police and health always responding to mental health and addiction crises out of hours. Such intervention would also greatly reduce the cost of front line services dealing with these the next day.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17376	An individual	2f. Social Policy Management and Support	This is very important as we move forward due to the fact that there can be early intervention with Social Policy Teams to allow the service user/tenant/customer to get assistance in many other ways before it reaches crisis point and many management services can be implemented by input from front line staff.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17377	An individual	2f. Social Policy Management and Support	Admin duties being passed to staff result in less time doing their actual post.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The approach to administrative support continues to focus on increased use of technology. Any further review of administrative support will be aligned with proposals for services being targeted to those most in need.
17378	An individual	2f. Social Policy Management and Support	Management structures is something the council may find useful at reviewing	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17379	No Response	2f. Social Policy Management and Support	Again I believe that a review and possible reduction of management would be beneficial. I would be concerned again that a reduction in administration would result in more delays in placement	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on service users.
17380	An employee of West Lothian Council	2f. Social Policy Management and Support	One form for all needs at different times in a persons life would help. People end up swimming in paperwork that says the same!	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17381	An individual	2f. Social Policy Management and Support	n. More hands on staff is needed and look at the role of managers Do we need as many managerso	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.

17382	An individual	2f. Social Policy Management and Support	Reduction in management seems an easy saving. However it has been shown that it is ultimately difficult to effectively implement changes with insufficient management resources. It has also been shown that organisations with insufficient management resources are not able to effectively manage themselves and are less innovative and less efficient and therefore the result is a diminished and less effective service.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17383	No Response	2f. Social Policy Management and Support	Management should be reduced & the savings used to employ more frontline staff.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17384	An individual	2f. Social Policy Management and Support	I do agree that social policy management is excessive. There are team managers for each area, which I think could be streamlined. Again though I think that administrative support is critical to the smooth running of teams, and to reduce that should be done carefully and with great consultation with teams.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17385	No Response	2f. Social Policy Management and Support	I would stress that it is likely to need a change in organisational culture to change the administrative 'cover your back' attitude that is prevalent in the council. This is however, far too broad and ill defined to comment further.	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17386	An employee of West Lothian Council	2f. Social Policy Management and Support	too many managers doing the same job that can be done by one.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17387	No Response	2f. Social Policy Management and Support	I agree with streamlining administrative procedures sometimes basic is best	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17388	An individual	2f. Social Policy Management and Support	Yes streamline the managers. Don't close places down and sacrifice frontline staff	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17389	No Response	2f. Social Policy Management and Support	Reduce the number of senior level staff to save money.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17390	An individual	2f. Social Policy Management and Support	The likelihood is that management and administrative tasks will be added to the workload of those who should be delivering the service and detract from the time they have to do the work properly.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17391	An individual	2f. Social Policy Management and Support	No problem there, investment should be in front line staff.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17392	An individual	2f. Social Policy Management and Support	Too many managers around on a day to day doing the same job - admin workers as well as cook and cleaners working full time is unnecessary and unnatural	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17393	An individual	2f. Social Policy Management and Support	If management is reduced who will take on the responsibilities they leave behind?	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Any changes to management structures will require to fully consider the impact on staff

17409	An individual	2f. Social Policy Management and Support	Cut management	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17410	An individual	2f. Social Policy Management and Support	reduce the chiefs and maximise the Indians. Sounds like something that should have been done a while ago	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17411	An individual	2f. Social Policy Management and Support	As previously mentioned management should be reduced from the top down. Too many people not fully aware of the crisis in care faced daily by staff and low level management making decisions which will have a huge impact on daily lives. A reality check is required.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17412	No Response	2f. Social Policy Management and Support	Once again - get rid of anyone who doesn't contribute to providing a better service - this is what private sector organisations do - don't have an impact - get rid.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17413	An individual	2f. Social Policy Management and Support	Streamlining and Consolidation is great as long as can be managed	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17414	An individual	2f. Social Policy Management and Support	From my limited experience, there seems to be numerous layers of managers in social work, this should be reduced.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17415	No Response	2f. Social Policy Management and Support	Many parts of the Council have already had a management redesign and integration, and in Social Policy administrative support has been significantly reduced. Tasks that were previously done by Admin Support are now done by other staff which is impacting on their time and work.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17416	An individual	2f. Social Policy Management and Support	I think it is important to ensure there are sufficient administrative support staff in place to do the work required. Instead of reducing the number of staff and expecting the remaining staff to do more work it would make sense to review the work being done and only doing what is essential and is admin work. Even if this means other non admin staff have to do what is currently considered admin work.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17417	An employee of West Lothian Council	2f. Social Policy Management and Support	A reduction in administrative requirements is welcomed and a review of management	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.

17419	An employee of West Lothian Council	2f. Social Policy Management and Support	Social Policy Admin should not be reduced this is a Vital service!!!	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17420	An individual	2f. Social Policy Management and Support	modern technology should help elevate the need for some excess admin staff ,	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17421	An individual	2f. Social Policy Management and Support	I feel this area needs to be streamlined. Too many people are unable or unwilling to change and develop services. Generally we are a forward thinking council but in this area we could improve.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17422	An employee of West Lothian Council	2f. Social Policy Management and Support	Not appropriate if it means spreading workload over fewer employees - must be based on genuine redesign and rationalisation.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17423	An employee of West Lothian Council	2f. Social Policy Management and Support	More staff cuts, increasing workload on staff that remain	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17424	No Response	2f. Social Policy Management and Support	So long as this does not substantially change the service that we are providing then it seems ok. Substantial changes to well proven, successful and good practice examples should not be fundamentally changed unless to enhance.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17425	No Response	2f. Social Policy Management and Support	Management and administration are always targeted make sure you do a robust and detailed analysis to achieve your objectives	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17426	An employee of West Lothian Council	2f. Social Policy Management and Support	Working in social policy, we have only recently received a full-time admin post (previously part-time). We struggled with admin support part-time and really benefit from having a full-time worker.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17427	No Response	2f. Social Policy Management and Support	Steam lining - less opportunities for staff :(Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17428	No Response	2f. Social Policy Management and Support	Agree that savings must come from admin / support services as the feeling is there is too much back office numbers in ratio to front line workers.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17429	An employee of West Lothian Council	2f. Social Policy Management and Support	The success of this will depend entirely on how the above plans are implemented. Reducing admin/paperwork is a good timesaver.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

17430	An employee of West Lothian Council	2f. Social Policy Management and Support	As stated previously, it is unwise to reduce the amount of admin staff unless significantly overstaffed. More and more work is expected of these staff and it is foolish to expect the business to run efficiently without them. Reducing management, as long as those taking up the slack (as someone will need to) will save money but again, the service must not suffer.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17431	An employee of West Lothian Council	2f. Social Policy Management and Support	Can only hope that the change to staffing levels should in no way affect any services when handed over to their part partners.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17432	No Response	2f. Social Policy Management and Support	I believe money can always be saved in management and administration services as red tape and wasteful processes are always in existence.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17433	No Response	2f. Social Policy Management and Support	It would be helpful to reduce management lists , as 'too many cooks spoil the broth'.one person dealing with matters rather than going through several would be an improvement.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17434	An employee of West Lothian Council	2f. Social Policy Management and Support	It does appear that there are perhaps too many layers of management. Administration could also be more effectively delivered by working from the same pool of workers in the same location.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17435	An individual	2f. Social Policy Management and Support	Hopefully this will not mean job losses for care worker's which in turn may well lead to a reduction in the quality of services provided.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
17436	An individual	2f. Social Policy Management and Support	There seems to be a high level of 'management team' / roles created at higher levels; this makes sense to reduce higher paid employees where work is duplicated.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17437	An individual	2f. Social Policy Management and Support	Management and administrative reductions supported	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17438	An individual	2f. Social Policy Management and Support	See previous comments re reduction in Admin support	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Any changes to management structures will require to fully consider the impact on staff
17439	An employee of West Lothian Council	2f. Social Policy Management and Support	The admin review has caused resentment, huge uncertainty (2 years later some roles are still now sorted out!) and staff morale to be at an all-time low. New IT systems have been introduced but they have not made much saving time-wise and everyone is so busy that mistakes are being made. Where once admin worked well in their "own" team they are now amalgamated with other areas and have lost any sense of feeling valued. Again, this is not helped by being short staffed and being moved to buildings away from the colleagues you work most closely with.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17440	An individual	2f. Social Policy Management and Support	As WLC are drastically cutting the Social Care provision - then fully agree the total Management of the Social Care Group within the Council should be made redundant.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17441	An employee of West Lothian Council	2f. Social Policy Management and Support	The amount of management and administrative support functions has already been reduced in previous years. The workload is still the same so it only shifts those responsibilities onto other staff. In my opinion there's not a great scope for savings in this area.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

17442	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Administration services have already been reviewed and reduced in Social Policy. The TUS see no scope for further reductions in this without having higher paid staff spending their time on administrative tasks.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17443	An individual	2f. Social Policy Management and Support	Streamlining management should be ongoing	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17444	An individual	2f. Social Policy Management and Support	Common sense admin savings are much needed - use recycled paper, print on both sides, don't have an extra sheet just for the signature, But a review of practices will probably cost more than the savings it recommends!	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17445	An individual	2f. Social Policy Management and Support	Streamlining services, processes and consolidation makes perfect sense.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17446	An individual	2f. Social Policy Management and Support	Again, the impact of this on job loss? workload?	Social Policy Management and Support - management & admin support	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Any changes to management structures will require to fully consider the impact on staff
17447	An individual	2f. Social Policy Management and Support	Again, need to ensure reduction in Admin staff does not mean paying professional staff more to do admin tasks - Could experienced Social worker and admin support get through more work thereby needing less social workers?	Social Policy Management and Support - management & admin support	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17448	An individual	2f. Social Policy Management and Support	It may be time to overhaul the system whereby there are less management and more actual workers	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17449	An individual	2f. Social Policy Management and Support	My only worry is that administration tasks will then fall on the shoulders of front line practitioners and current managers meaning you end up paying more in the long run for these tasks or other necessary work does not get done leaving people at risk. The systems need to come before the streamlining.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17450	An employee of West Lothian Council	2f. Social Policy Management and Support	administration seems to get more complicated rather than easier	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17451	An employee of West Lothian Council	2f. Social Policy Management and Support	Social Workers are already very thinly spread. Reduction in staff in this area could be very problematic in that we have many statutory duties that are fulfilled by Social Work. I do not believe this is an area that can afford to be subject to reduction in staff, especially in areas such as child protection.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17452	An employee of West Lothian Council	2f. Social Policy Management and Support	Too many managers	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17453	An individual	2f. Social Policy Management and Support	Providing the changes do not see social workers with additional admin workloads and subsequently impact on the ,level of care.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to structures will require to fully consider the impact on staff

17454	No Response	2f. Social Policy Management and Support	this was discreaseful too take resorces away as this has affected us all as wee cant get the support wee needed this had a hug effect on a lot off people needing more suppoer a say bring back more staff asap	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17455	An employee of West Lothian Council	2f. Social Policy Management and Support	Management in social care is vital in the role of looking after resident and staff	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17456	An individual	2f. Social Policy Management and Support	Money should be saved by looking at those positions at the top who cost more to pay and this will have a lessor impact on people using services	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17457	An individual	2f. Social Policy Management and Support	Agreed - enough admin staff should be retained to process tasks. Rationalisation should be in reduction in management	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Any changes to management structures will require to fully consider the impact on the service.
17458	An employee of West Lothian Council	2f. Social Policy Management and Support	For Social Policy to save money: (1) proportion of team managers to frontline staff e.g. in Social Work Older Peoples Team is wrong. Too many team managers - compare to neighbouring councils. (2) Some Housing with Care developments have low numbers e.g. 15 tenants or 20 tenants. Staff do all paperwork managers could manage 2 units. (3) In Care Packages Care providers phone in Duty and get Care Packages increased without question.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17459	An employee of West Lothian Council	2f. Social Policy Management and Support	There has been little successful integration of health and social policy despite the timescales and resource involved. Management in social policy needs a complete overhaul.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17460	An individual	2f. Social Policy Management and Support	Efficiency is good but good management is of top importance	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17461	An employee of West Lothian Council	2f. Social Policy Management and Support	Reducing all the above will reduce the workload on the social work link . This will be likely unnoticed in Adult areas but dangerous for children, this needs more thought	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17462	An employee of West Lothian Council	2f. Social Policy Management and Support	Social Policy still has an additional layer of management which is at odds with the rest of the council which strives to have a flatter structure. Perhaps this could be addressed!!	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17463	An individual	2f. Social Policy Management and Support	Streamling management would be a great saving to ensure those on the front-line are preserved to provide essential services.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17464	An individual	2f. Social Policy Management and Support	Presumably this will include 'managerial roles' as well as 'on the ground workers.'	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17465	An individual	2f. Social Policy Management and Support	Too many managers in social policy. This should be reduced and savings could be made.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

17466	An individual	2f. Social Policy Management and Support	The council has too many managers so agree with this proposal	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17467	An individual	2f. Social Policy Management and Support	If the workforce as a whole is being looked at then this should include management positions.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17468	An individual	2f. Social Policy Management and Support	Again any reduction in support services leads to qualified staff not being able to focus on the tasks they are employed to do, resulting in a less efficient service and a greater reputational risk to the council and risk to service users	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17469	An individual	2f. Social Policy Management and Support	Streamline health and social care Blazers doing the same job and save a fortune! Get rid of multi layers of office based middle management	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17470	An employee of West Lothian Council	2f. Social Policy Management and Support	I think management and administrative tasks need to be looked at	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17471	An individual	2f. Social Policy Management and Support	The management in this area needs a complete overhaul. Huge savings could be made if the right people were given full scope in this area and this would avoid a lot of savings having to be made in other areas that are operating efficiently.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17472	An employee of West Lothian Council	2f. Social Policy Management and Support	As in any council service, I am sure that management and administrative staff are employed over the expense of hard working grassroots workers.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17473	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Social policy has already streamlined administrative requirements and we would be interested to know how we plan to streamline them further. No information required.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17474	An individual	2f. Social Policy Management and Support	Appears to be top heavy in management in social policy. Social workers and field workers not being replaced but service continues with the same amount of managers, managing less staff. managers could be distributed more evenly to assist other services, rather than employ new managers.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17475	An individual	2f. Social Policy Management and Support	Does appear to be currently too many managers within social policy services, their management skills could be used throughout the council and not just within social policy.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17476	An employee of West Lothian Council	2f. Social Policy Management and Support	I would agree that streamlining of internal processes would be very beneficial. A review of the management structure would be good, but we must also recognise that we are already expected to do so much more with so much less. This reduction and slimming down needs to be balanced against increased risk and responsibilities placed on staff with on going limitation in resources that have to be managed as well. I do not believe that admin requirements can be streamlined anymore in our area of social policy, it is already only skin and bones. Staff burnout remains a real risk that has to be considered as even a streamlined workforce will not benefit from consistent and on going sickness absences.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff.
17477	An individual	2f. Social Policy Management and Support	Reducing layers of management and administration is only acceptable if the frontline workers do not have to take on more admin work	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff

17478	An employee of West Lothian Council	2f. Social Policy Management and Support	reduction, streamling and consolodation shopuld be proportionate. Social policy are one of the most heavily relied upon resources of the council and have significant legal obligations they must fulfill. We need to be sure that we ar not reducing staff that will negatively impact upon that delivery.	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17479	No Response	2f. Social Policy Management and Support	There appears to be a lot of managers in post only managing 2 or 3 people which surely could be cut down to be more cost effective In social policy, there are a lot of OT managers, whereby taking staff off frontline and preventing people from being seen	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17480	An employee of West Lothian Council	2f. Social Policy Management and Support	Greater partnership working with NHS to share FM resources.	Social Policy Management and Support - management & admin support	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17481	An employee of West Lothian Council	2f. Social Policy Management and Support	Working within social policy it is clear to see there appears to be too many managers at this time in post this was not the case in the past only over recent years has this happened managers do not have as may staff to manage. (particularly within OT service)	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17482	An individual	2f. Social Policy Management and Support	Partnership is the way to go, but who will be the main partner	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17483	An individual	2f. Social Policy Management and Support	This has already been slimmed down. This will bite into service provision	Social Policy Management and Support - management & admin support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17484	An employee of West Lothian Council	2f. Social Policy Management and Support	This is always one of the most obvious areas to rationalise. The current structures have been circumstantial and without an overarching management plan.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17485	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Social Policy Management and Support - management & admin support	4. The council is already doing this.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17486	An employee of West Lothian Council	2f. Social Policy Management and Support	in agreement with streamlining the departments, merging different departments means works will all be carried out under one roof so to speak.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17487	An individual	2f. Social Policy Management and Support	Is this jobs again? What were the eight priorities?	Social Policy Management and Support - management & admin support	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17488	An employee of West Lothian Council	2f. Social Policy Management and Support	Again admin savings would be acceptable.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17489	An individual	2f. Social Policy Management and Support	I agree with this to a point. Streamlining of staff across the council is essential and making sure that those who work on an outreach basis are working as effectively as they should and not nipping home for visits or grabbing their shopping during working hours, all things I have seen first hand. However reducing the number of day care centres and social hubs for older people shouldn't be included in this.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

17490	An employee of West Lothian Council	2f. Social Policy Management and Support	Inevitably reduced service provision requires reduced management and support.	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17491	An individual	2f. Social Policy Management and Support	Top heavy management	Social Policy Management and Support - management & admin support	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17492	An individual	2f. Social Policy Management and Support	This would appear to be looking at job losses. I would be sorry if this happened.	Social Policy Management and Support - management & admin support	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17493	No Response	2f. Social Policy Management and Support	Further savings could be achieved by more fully integrating, streamlining and rationalising the management of health and social care services, as opposed to continuing with two separate management structures under the direction of one integrated management post. The same principle should be applied to as many back office and business support functions for these services as possible.	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17494	An individual	2f. Social Policy Management and Support	Integrating with other partners is a good idea	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this.
17495	An individual	2f. Social Policy Management and Support	agreed particularly. Healthy eating etc should go to Health Scotland	Social Policy Management and Support - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17496	An individual	2f. Social Policy Management and Support	It is important to keep local services informed when integration with other partners takes place. Otherwise local issues ,which are important, can be ignored.	Social Policy Management and Support - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17497	No Response	2f. Social Policy Management and Support	Integration with partners seems ambiguous. May or may not be possible, depending on what you mean?	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17498	An individual	2f. Social Policy Management and Support	What partners?	Social Policy Management and Support - external partners	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17499	An individual	2f. Social Policy Management and Support	Would prefer to be having the choice of Council provision or partner provision. We are very much being forced into the private / voluntary sector. Not much choice for the customer.	Social Policy Management and Support - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	West Lothian has a proven track record of partnership working and would wish to build on this.
17500	An employee of West Lothian Council	2f. Social Policy Management and Support	Opportunities to integrate further with partners - surely there is a cost associated with this ?	Social Policy Management and Support - external partners	3. The respondent advised that they had no comment to make.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17501	An individual	2f. Social Policy Management and Support	Integrating further with partners alludes to profit oriented external providers yet again.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17502	An individual	2f. Social Policy Management and Support	I would like to know more about the "partners" talked about. Is this hospital, psychiatric services, Macmillan Cancer services, etc.	Social Policy Management and Support - external partners	3. The respondent advised that they had no comment to make.	West Lothian Council works with a range of partner agencies and commissioned providers. It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently

17503	An individual	2f. Social Policy Management and Support	THIS IS AN IMPORTANT AREA AND THE COUNCIL NEED TO MAKE MORE USE OF VOLUNTARY GROUPS TO SUPPORT HEALTH CARE AND CONSIDER GIVING GRANTS TO THEM TO HELP WITH THIS WORK	Social Policy Management and Support - external partners	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
17504	An individual	2f. Social Policy Management and Support	I FEEL STRONGLY THAT THE EXISTING SUCCESSFUL WORK AT THESE CENTRES SHOULD BE LEFT ALONE AND LOOK FOR MORE WAYS THROUGH VOLUNTART GROUPS TO MAXIMISE GREATER USE OF CENTRES FOR MANY COMMUNITY INITIATIVES	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
17505	An individual	2f. Social Policy Management and Support	No because you are not yet working effectively as an IJB. Please don't blame older and disabled people for the local tax burden. In addition many families such as mine are already saving councils across Scotland money by providing informal care to family members. I	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
17506	An individual	2f. Social Policy Management and Support	We are going to have a recruitment problem after Brexit getting the minimum wage staff to work in social care. Costs will go up for front end staff. "integrating with partners" is outsourcing. Outsourcing will be awarded on cost. Low cost comes at a price. Be very careful what you wish for if you end up in one of those facilities that focus on economy and not well being.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17507	An individual	2f. Social Policy Management and Support	Not happy with the use of money making"partners"	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17508	No Response	2f. Social Policy Management and Support	Another step that sounds positive. Care needs to be taken not to give too much power to private sector who could then increase charges without resistance.	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17509	An individual	2f. Social Policy Management and Support	I don't have much confidence on partners you presently use	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17510	An individual	2f. Social Policy Management and Support	Can details of this plan be published for interested parties to view electronically and/or hardcopy? Partnerships can be invaluable, when agreements are measurable and full funded.	Social Policy Management and Support - external partners	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17511	An individual	2f. Social Policy Management and Support	Better partnership working and merged teams would help with this and provide a better overall service reducing costs and making best use out of services.	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17512	An individual	2f. Social Policy Management and Support	I agree, but the contractual arrangements need to be watertight.	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17513	An employee of West Lothian Council	2f. Social Policy Management and Support	Again 'integrate with partners'. Do these partners have sufficient resources to take on those parts of the services that the Council either downgrades or close down. What about their employees - do they have the same safeguards to their jobs as Council employees. Are they being paid at the same level.	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17514	An individual	2f. Social Policy Management and Support	Who are these partners? By streamlining do you mean job losses? If so please start at the top not the bottom.	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17515	An individual	2f. Social Policy Management and Support	Partnering is a good idea, as long as quality is not compromised	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
17516	No Response	2f. Social Policy Management and Support	See above comments in relation to external providers. This can often result in increased expenditure and a failure to have any oversight of how services are being implemented.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17517	An employee of West Lothian Council	2f. Social Policy Management and Support	What changes are being proposed other than closures and pushing the services out to the private sector? If this is done, presumably staff currently employed by the council will have no role and will have to be let go. The second sentence is yet another example of empty management speak.	Social Policy Management and Support - external partners	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
17518	An individual	2f. Social Policy Management and Support	Perhaps cost efficiency but surely not the on-going quality of services? Your partners are in business for profit, if these agencies end up running more and more management and administration the dependency will grow and could be difficult to unwind if things do not go well. I think.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17519	An individual	2f. Social Policy Management and Support	Does this mean giving more money to external companies? Why is it not being kept within council? The only way external organisations can provide a cheaper service is by paying their staff lower wages. For council to accept that is wrong.	Social Policy Management and Support - external partners	4. The council is already doing this.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17520	No Response	2f. Social Policy Management and Support	to minimise the outsourcing to private care homes, if we take these on board we would most likely save money instead of paying private firms to do this.	Social Policy Management and Support - external partners	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted
17521	An employee of West Lothian Council	2f. Social Policy Management and Support	Who are the partners? How will this save money? Look at the PPP schools - they are just interested in making money and not fixing problems when they occur.	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17522	An individual	2f. Social Policy Management and Support	I think this could be a shared service at the policy level but not the operational level	Social Policy Management and Support - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17523	No Response	2f. Social Policy Management and Support	Some areas of the Council are fabulous are working in partnership with 3rd sector / voluntary organisations and other partners but unfortunately a number of Council services are very precious with their work load and 'clients' and if this continues due to the savings it once again will be to the detriment to the individuals and families.	Social Policy Management and Support - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17524	An individual	2f. Social Policy Management and Support	If integrating with 'partners' means private companies I fail to see how savings will be made. No service that switches from public to private shows any savings over the long term. Costs invariably increase and quality suffers. So how can this save money?	Social Policy Management and Support - external partners	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.
17525	No Response	2f. Social Policy Management and Support	Is moving to external agencies in order to provide services really cost effective or is it a matter of money saving verses quality	Social Policy Management and Support - external partners	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
17526	An individual	2f. Social Policy Management and Support	Who are these partners you talk about and how much do their services cost over what it costs the council?	Social Policy Management and Support - external partners	4. The council is already doing this.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17527	No Response	2f. Social Policy Management and Support	Watch people who require the services don't get priced out and are cast aside. External services may be all about their own profits.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17528	An employee of West Lothian Council	2f. Social Policy Management and Support	Again, this refers to staff reductions. What are the opportunities to integrate further with which partners?	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.

Transforming Your Council Consultation 2017

17529	An employee of West Lothian Council	2f. Social Policy Management and Support	This is meaningless, what further integration with partners? There has been no evidence of this so far or that any attempts at restructuring have led to any improvement in service delivery or outcomes.	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17530	An individual	2f. Social Policy Management and Support	There must be quality contractual and supplier management in place for services delivered by partner organisations.	Social Policy Management and Support - external partners	4. The council is already doing this.	The proposal is to ensure that all externally commissioned services are also targeted to people with the highest level of need.
17531	An individual	2f. Social Policy Management and Support	Concerns about the capacity of partners	Social Policy Management and Support - external partners	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17532	An individual	2f. Social Policy Management and Support	as above, are external partners providing a quality same service cheaper?	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17533	An employee of West Lothian Council	2f. Social Policy Management and Support	Integration with partners needs to be handled carefully (for the reasons detailed above).	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17534	An individual	2f. Social Policy Management and Support	Efficiency Yes ... Turn them into a coop or Mutual and let them trade if they are any good ... integrate with partners sounds like privatisation	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17535	An individual	2f. Social Policy Management and Support	Will said reviews be done by WLC employees or will fees be paid to external consultants (to come back with the answers the WLC management want!)?	Social Policy Management and Support - external partners	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17536	An individual	2f. Social Policy Management and Support	See my response to 1a. - In principle I support measures that ensure spend is directed to things happening rather than supporting an administrative machine. Integration within the Council and with its partner organisations should be beneficial as it would represent an opportunity to address silos and related ways of thinking that reduce efficiency and effectiveness.	Social Policy Management and Support - external partners	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17537	On behalf of a Group/Organisation	2f. Social Policy Management and Support	██████████ would like to maximise the opportunities for partnership working, in family learning, early years, play provision and childcare for our most vulnerable families. Across the sector we have the expertise and relationships with local people and the wider community, to continue to deliver best practice and reduce any opportunities for duplication, thus delivering best value for all. ██████████ is a net generator of income to West Lothian. Investment from West Lothian Council has been essential to leverage in other monies, which is unique to the Third Sector and it has delivered significant added value to our public pound. This additional income for our communities and its people has, however, been dependant on the stability of Council's core investment. It has also provided a strong foundation for ██████████ to be enterprising and the organisation generates significant amounts of additional income for the area through targeted fees, contracts and agreements. Over the last 2 years, Council funding for all of ██████████ work was only 42% of income. Over £219k (20%) was able to be levered into the community/project, through charitable grants and nearly £380k (38%) was generated income. Council's investment was key to facilitating this additional income generation, as it provided a secure base to build upon and was also used as match funding and/or demonstrated a trust & commitment to other potential funders. ██████████ has established itself as a key Third Sector strategic partner in West Lothian. It has a valued role representing the sector on the CPP's Children and Families Strategic Planning Group, Early Intervention and Prevention Working Group, was instrumental in designing and delivering West Lothian's Play Strategy and Action Plan, is Chair of West Lothian's Third Sector Strategy Group, was workstream lead on the CPP's integrated Children's Services Plan, and lead the highly successful Supporting Families Public Social Partnership. All of this adds value to West Lothian and considerably strengthens its partnership working.	Social Policy Management and Support - external partners	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

17538	An employee of West Lothian Council	2f. Social Policy Management and Support	I would also like to point out that in social work, we hand delivery assessment and care plans to nursing homes on a daily basis which is time consuming and costly. Staff time, petrol. this is hugely ineffective and this practice is out of date and should as a matter of urgency be looked at. Emailing care homes with the documentation should be allowed and encouraged to enable swift and effective communication.	Social Policy Management and Support - mobile & flexible working	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17539	An individual	2f. Social Policy Management and Support	Consolidating processes and working better with partners to deliver a much improved service can only be a good thing, if done properly and with appropriate governance, review and analysis of outcomes.	Social Policy Management and Support - mobile & flexible working	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this.
17540	An employee of West Lothian Council	2f. Social Policy Management and Support	Again, this seems good and the right way forward but we don't want to lose the personal input.	Social Policy Management and Support - mobile & flexible working	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17541	An employee of West Lothian Council	2f. Social Policy Management and Support	New technology to help SW become more efficient - smart phones with text to type technology, would save a huge amount of time, which could lead to better case management and shorter waiting lists	Social Policy Management and Support - mobile & flexible working	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17542	An employee of West Lothian Council	2f. Social Policy Management and Support	now adults is integrated with health, my visits out of the office have reduced slightly, so more joined up working, reduces costs.	Social Policy Management and Support - mobile & flexible working	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17543	An employee of West Lothian Council	2f. Social Policy Management and Support	Agree, technology should be utilised to reduce admin costs.	Social Policy Management and Support - mobile & flexible working	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17544	An employee of West Lothian Council	2f. Social Policy Management and Support	Older Adults Social Work - We are still hand delivering assessment and care plan paperwork using pool cars when a secure email connection/password protected system could be used. We are still using carbon copy paper financial schedules and posting several copies of the same signed schedule to various parties involved including client, the care home and social policy team.	Social Policy Management and Support - mobile & flexible working	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17545	An individual	2f. Social Policy Management and Support	Can you be more open and clarify what this means , is this making staff redundant.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17546	An individual	2f. Social Policy Management and Support	Looking at the issue of staff receiving free lunches /allowances at Learning Disability Day Centres and Residential Units. Service users are often on minimum benefits but are required to pay for meals whilst staff who are being paid in any case receive free meals, teas and coffee.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17547	An individual	2f. Social Policy Management and Support	I am not sure what "opportunities to integrate further with partners will be progressed" actually means. Again this sadly will adversely affect the most vulnerable people.	Social Policy Management and Support (general)	4. The council is already doing this.	The Health and Social Care joint strategic commissioning plans are about planning and delivering services and support for people. Through strategic needs assessments we can identify the needs of individuals and communities, enabling people to decide what will best address those needs, and through working together with agencies put the right services and support in place
17548	An employee of West Lothian Council	2f. Social Policy Management and Support	Again streamlining services is a good idea as long as staffing numbers are not cut before the admin services and the processes are reviewed and improved.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17549	An employee of West Lothian Council	2f. Social Policy Management and Support	START ON SOCIAL POLICY OUT OF HOURS WHOSE ALLOWANCE IS ANOMOLOUS WITH THE COUNCIL;'S STRUCTIURE FOR EVERY OTHER SERVICE.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	A standard approach to terms and conditions will be considered as part of any organisational change
17550	An employee of West Lothian Council	2f. Social Policy Management and Support	SEE ABOVE, CEASE LOCAL OUT OF HOURS PROVISION AND DEAL WEITH IT ON A JONT COUNCIL BASIS	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	A review of out of hours will consider all options, including the potential for joint working with other partners
17551	An employee of West Lothian Council	2f. Social Policy Management and Support	In other words more work for less people . It may work till you have an increased level of work related stress absences.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Any changes to management structures will require to fully consider the impact on staff

17552	An employee of West Lothian Council	2f. Social Policy Management and Support	Social care services have to become much leaner and cost effective	Social Policy Management and Support (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17553	An employee of West Lothian Council	2f. Social Policy Management and Support	Please refer to previous comment on staff reduction.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17554	An individual	2f. Social Policy Management and Support	as long as no one suffers as a result of this	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17555	An employee of West Lothian Council	2f. Social Policy Management and Support	Any changes that can streamline processes and make savings for the council must and should be pursued.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	West Lothian has a proven track record of partnership working and would wish to build on this. Through integration it is expected that there would be less duplication and more streamlining of services.
17556	An individual	2f. Social Policy Management and Support	WLC already fail in this area and this will make it worse	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17557	No Response	2f. Social Policy Management and Support	Instead of having working kitchens in each development - have a central kitchen to make meals for the service as a whole and deliver daily - negating the need for kitchen staffing and associated costs. Or provide 1 main meal at lunch time over 7 days and a snack meal for tea time delivered in packed lunch fashion - reducing the kitchen staffing hours by half.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17558	An individual	2f. Social Policy Management and Support	A sensible approach to 2a, b and c would be more integration of these services with the NHS. GP services in the Council area are under tremendous stress and this has not been helped by increases in the number of residents in some areas. In East Calder priority has been given to a new building for leisure services whereas it is arguable that the real priority is to expand the existing GP health centre, which cannot cope with the number of residents from new housing development.	Social Policy Management and Support (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
17559	An employee of West Lothian Council	2f. Social Policy Management and Support	employing a handyman for the housing with care and care home buildings I feel would reduce costs as some of the repairs we require in housing with care are minor (light bulb replacement , blocked toilets , minor building repairs , garden maintenance) all of which have to be reported by email to property helpdesk and are then allocated to the various tradesmen , this is time consuming and we sometimes have to wait a few days for the repair and they don't always require a qualified tradesman	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17560	An employee of West Lothian Council	2f. Social Policy Management and Support	As a manager within housing with care we provide 2 meals - 2 courses each meal -per day to tenants - which they pay Â£35 per week , we have to employ cooks and catering assistants to cook and clean , 365 days per year. If a "packed lunch " similar to what we can pick up in a supermarket i.e. sandwich or roll , crisps or cake or fruit, and a drink could be made centrally and distributed around the developments to be given out by staff we could reduce the kitchen staffing hours substantially ,	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17561	No Response	2f. Social Policy Management and Support	Good idea as long as it does not lead to unemployment	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17562	No Response	2f. Social Policy Management and Support	Increase the rate for the locum bureau staff working in social policy particularly for weekend working and pay them (Locum bureau) weekly , as currently they have to wait up to 8-9 weeks to get paid for a shift i.e if they do a shift at beginning of the month they need to wait till end of next month for payment .They also only get a flat rate of pay regardless what hours / days they work (apart from nightshift) Perhaps if a small enhancement was paid we would be able to cover more shifts as opposed to covering the shifts with overtime which is much more expensive	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of a review of the out of hours service
17563	An individual	2f. Social Policy Management and Support	"review and reduce management and administrative requirements. As well as streamlining and consolidating internal processes to make efficiency savings" - Sounds like job losses.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17564	An individual	2f. Social Policy Management and Support	Too many managers who don't make effective decisions	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any management restructure
17565	An individual	2f. Social Policy Management and Support	It seems to me you are concentrating too much on children and youth services. What about the increasing needs of older people	Social Policy Management and Support (general)	4. The council is already doing this.	Work will continue to focus on those who are most vulnerable and have additional needs.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17566	An individual	2f. Social Policy Management and Support	Savings have been made within social policy with deputies not being replaced and the needs of the service and service users still need to be met with fewer staff and less management.	Social Policy Management and Support (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Any changes to structures will require to fully consider the impact on staff
17567	An individual	2f. Social Policy Management and Support	perhaps 1 or 2 managers could oversee all of the departments ie housing with care 1 manager for all development, residential and day care the same taking the old mantle of service provisions manager but no middle man	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17568	An employee of West Lothian Council	2f. Social Policy Management and Support	From the little contact I have had with Social policy, their tenders have a lot of duplication in them and more need for electronic evaluation.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17569	An individual	2f. Social Policy Management and Support	Support proposal to centralise and amalgamate services as is seen in all industries to manage costs and savings.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign
17570	An employee of West Lothian Council	2f. Social Policy Management and Support	if the council had more full time staff and less agency particularly in the care homes surely this would save money in the long run at the moment. permanent staff feel very stressed with this and under valued if a reduction in agency staff could be managed by more permanent workers it would reduce stress amongst staff and their service users and there would be less staff sickness to off set agency use as well	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17571	An individual	2f. Social Policy Management and Support	agreed - savings should be targeted from streamlining business processes and relying on technology to support modernised business processes	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17572	An employee of West Lothian Council	2f. Social Policy Management and Support	review recording system (AIS), as current one too slow, again if this is improved, would help social work and other teams that use this more efficient	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted and will be considered as part of a review of internal processes.
17573	An individual	2f. Social Policy Management and Support	Ask the current staff in social policy roles what would make their part of the service more effective	Social Policy Management and Support (general)	4. The council is already doing this.	All stakeholders are being asked to participate in the consultation
17574	An employee of West Lothian Council	2f. Social Policy Management and Support	ok if unions can reach agreement	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17575	An employee of West Lothian Council	2f. Social Policy Management and Support	It is a very big saving to achieve from a review of management and admin!	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted and will be considered as part of any change to management structures.
17576	An employee of West Lothian Council	2f. Social Policy Management and Support	Thus adding to frontline staff's already heavy work load.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17577	An individual	2f. Social Policy Management and Support	How much are Council officers actively involved in looking at streamlining and improving provision? Or is this a top down consultation. Sometimes those making key decisions do not have sufficient detailed knowledge to make them and certainly no understanding of possible negative side effects.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	All stakeholders are being asked to participate in the consultation
17578	An employee of West Lothian Council	2f. Social Policy Management and Support	Cost every meeting by any/everyone in council. Review this against action outputs and impact and then get rid of managers systems that are not demonstrably contributing to immediate (positive) outputs for citizens. Maybe useful to revisit 'organisation theory' and consider the organic systems that WLC risk destroying. What assessment of service impact has been taken to establish the loss of service arising from 'employees working ONLY to contracted hours/work to rule'?	Social Policy Management and Support (general)	4. The council is already doing this.	All council officers have a responsibility to ensure that they work as efficiently as possible. The example the respondent has provided, about meetings, is a good example of where officers are empowered to manage their time as effectively as possible
17579	An employee of West Lothian Council	2f. Social Policy Management and Support	This would mean more workload and stress for staff and therefore many cases would not be dealt with properly.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17580	An employee of West Lothian Council	2f. Social Policy Management and Support	No one who needs care should be without care or support. No matter their age	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments which has been noted as a general observation although not relevant to the question about management and support.
17581	An individual	2f. Social Policy Management and Support	Makes sense if it would NOT impact on service provision	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17582	No Response	2f. Social Policy Management and Support	Social care is very important.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments which has been noted as a general observation although not relevant to the question about management and support.
17583	An employee of West Lothian Council	2f. Social Policy Management and Support	I agree we need to look at the Social Services because there is a lot of slacking in this service	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17584	No Response	2f. Social Policy Management and Support	Social services are a mess	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17585	An employee of West Lothian Council	2f. Social Policy Management and Support	Makes sense - as long as the reductions are made in-line with the bigger picture and doesn't leave the remaining staff short on the ground.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17586	An individual	2f. Social Policy Management and Support	It's important that you do not overload the Social workers with case work. We have seen negative outcomes as a result of this in other organisation regions.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any changes to management structures will require to fully consider the impact on staff
17587	No Response	2f. Social Policy Management and Support	Agree.. but how are you going to achieve this? Very generalised statement.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17588	An individual	2f. Social Policy Management and Support	Again, sounds like burdens are being placed elsewhere	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17589	On behalf of a Group/Organisation	2f. Social Policy Management and Support	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Who does this affect? how many people and at what level and how will this then impact on service delivery?	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17590	An individual	2f. Social Policy Management and Support	Again, as above. Decision makers have to be able to review things for themselves. Not to be given figures by departmental heads but to actually go and meet face to face with people using services and not with people who are presented to them by departments, rather, randomly chosen by decision makers as to avoid bias. All too often users of services complain about the Council and the people at the top or decision makers while in actual fact the people that are breaking down communication are at the levels in between.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comments. It was not clear what the respondent was saying in relation to the proposal.
17591	An employee of West Lothian Council	2f. Social Policy Management and Support	Family centre staff be on term time contracts and use other agencies such as sure star, health, social work t and children and family teams throughout holiday periods. Do not feel that the need is there throughout holiday and staff have very little to do as families do not engage during school holidays.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17592	An individual	2f. Social Policy Management and Support	If not detrimental to staff. I.e taking on larger workload without external role review.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17593	An individual	2f. Social Policy Management and Support	Some of the charge's and assesments could be passed to revenues or benefit teams	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17594	No Response	2f. Social Policy Management and Support	I agree that a partnership approach may be appropriate to provide a solution to this issue	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17595	An individual	2f. Social Policy Management and Support	I would hope you would look at the qualities required in managers and administrators in this complex service delivery field and not just the numbers. A flatter management structure might support more interaction with frontline staff to support the creativity that will be required but only if the managers in place are skilled and knowledgeable. My impression is that frontline social workers (and this is the only groups I am experienced in) feel development are too top down and focussed on clearing waiting lists: the quantity not the quality of work. This stops the creativity you will need to flourish across WLC if your transformational change is to take place successfully.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your comment which will be considered as part of any service redesign

Transforming Your Council Consultation 2017

17596	An individual	2f. Social Policy Management and Support	One complete omission from this section is to review all procedures and forms related to adult social care which seem to have grown over the years as budgets have tightened and resource panels have made the key decisions. The starting point should be what is the minimum info that management require and how might professional decision-making recording be made easier? Just now e-forms seems to be about collating information for well beyond what is required for the service user and the IT software forces workers to go through each and every item if the service user is to be given a service. This wastes so much time right across Scotland and could locally free up many front line staff to actually engage on a collective basis with communities and their various groups to do the developmental work you are now requiring. If practitioners were better supported to do community based strategic work then there might not need be so many middle tier staff who have planning and procurement remits but yet have no current experience of doing the work on the ground. In some ways this might be described as a cooperative or community based model service delivery.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your comment which will be considered as part of any service redesign
17597	An employee of West Lothian Council	2f. Social Policy Management and Support	Social Policy appears already to be over stretched and there is a definite rise in the need for more social care staff and admin support. For children this responsibility will have no other option but to be scooped up by school staff who will be already facing cuts of their own.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17598	An individual	2f. Social Policy Management and Support	As long as the needs of the vulnerable are always paramount	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17599	An individual	2f. Social Policy Management and Support	As well as streamlining and consolidating internal processes to make efficiency savings, opportunities to integrate further with partners will be progressed; this surely is just good practice which the Council should undertake as a matter of course	Social Policy Management and Support (general)	4. The council is already doing this.	West Lothian has a proven track record of partnership working and would wish to build on this.
17600	An employee of West Lothian Council	2f. Social Policy Management and Support	There are various overlaps of service provision and staffing. This needs to be more transparent and the duplication removed.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17601	An employee of West Lothian Council	2f. Social Policy Management and Support	There needs to be a more open discussion with health on how the council and NHS can work more closely to provide appropriate levels of care while meeting both of their separate budget pressures. I appreciate some of this would require national dialogue, however it seems to make sense in an era of health and social care integration that such proposals are agreed jointly.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
17602	An individual	2f. Social Policy Management and Support	Again putting more pressure on the staff that will remain	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17603	An individual	2f. Social Policy Management and Support	Sounds like staffing cuts again - can't see how this would improve services.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17604	An employee of West Lothian Council	2f. 17605	An employee of West Lothian Council	2f. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17606	An individual	2f. Social Policy Management and Support	Review, reduce, streamline, consolidate, efficiency Call a spade a spade for goodness sake!	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17607	An employee of West Lothian Council	2f. Social Policy Management and Support	electronic systems between health and social work would be helpful	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17608	An individual	2f. Social Policy Management and Support	Should have been happening anyway.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17609	No Response	2f. Social Policy Management and Support	Less people doing more work again	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17610	An individual	2f. Social Policy Management and Support	Should social care be run in partnership with NHS? I think there are big problems in the society which should be faced by HNS and Social Care.	Social Policy Management and Support (general)	4. The council is already doing this.	The Council is working with NHS Lothian on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services
17611	An individual	2f. Social Policy Management and Support	Part and parcel of funding reductions, no brainer really.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17612	No Response	2f. Social Policy Management and Support	Why are there so many inefficiencies that media streamlined if the council was a private company it would hold the managers to account.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17613	An individual	2f. Social Policy Management and Support	If the savings which are taken above are required then there is a logical follow on that back office functions would need reviewed.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17614	An individual	2f. Social Policy Management and Support	This all sounds very streamlined and efficient on paper but in reality?? I dinâ€™t Think this will work as efficiently as anticipated	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17615	No Response	2f. Social Policy Management and Support	Health Improvement Scotland should be engaged with to improve the IJB.	Social Policy Management and Support (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
17616	An individual	2f. Social Policy Management and Support	More information is needed in this area. My regular contact with social services tells me they are already under extreme pressure. You regularly have to redial the telephone number before you get answered, social workers are often off sick and struggling with the workload they already have. They are only human and not machines. I feel too much is asked of them by their employers and they have the added pressure of the families they are trying to help. So I need more information on what "consolidation" means.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17617	An individual	2f. Social Policy Management and Support	Should be streamlined where possible where maintaining choices and standards.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17618	An individual	2f. Social Policy Management and Support	I do not think this is possible if you are not reducing the actual social care	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17619	No Response	2f. Social Policy Management and Support	As before, this may have an impact on workload for front line staff.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Any changes to management structures will require to fully consider the impact on staff
17620	An individual	2f. Social Policy Management and Support	West Lothian Council and NHS Lothian failed my mother-in-law during the last weeks of her life. Her discharge from hospital to spend her last weeks in her own home were delayed by the inability of the Council and the NHS to put in place a care package. We received a letter to confirm the care package the day after she died. I have very limited confidence in West Lothian Council to deliver care services.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The respondent's experience is noted with regret. Ensuring that the right provision is available at the right time is a major priority for us. The Council and NHS Lothian have embarked on a wide reaching Frailty Programme to maximise patient pathways and redesign access to community based services with our care providers.
17621	An individual	2f. Social Policy Management and Support	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17622	An individual	2f. Social Policy Management and Support	Support can't be allowed to suffer.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17623	An individual	2f. Social Policy Management and Support	Those working in social care are among the most underpaid and overstretched of any job type. We already have a recruitment crisis in social care, and shouldn't seek to exacerbate this by putting more pressure on their workload. Cuts to social care also predominantly fall on women, both as they are the most likely to hold these roles, and also as they are most likely to be expected to pick up the slack when elderly relatives require care. This is to the detriment of other roles occupied by women in our society. Fundamentally, social care is one of the few industries we can rely upon to continue to grow in West Lothian in the next decade. Cutting over £20million from it now is short-sighted and dangerous.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17624	An individual	2f. Social Policy Management and Support	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17625	An individual	2f. Social Policy Management and Support	I worry that this may put further pressure on social care staff, resulting in further long-term absence with stress-related illnesses.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17626	An employee of West Lothian Council	2f. Social Policy Management and Support	How will this impact on council staff?	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Any changes to management structures will require to fully consider the impact on staff
17627	An employee of West Lothian Council	2f. Social Policy Management and Support	Having viewed the amount of archiving, paper based working and inefficient processes deployed within SP, there has to be a more modern way of delivering this service. It does not need to be the way it is currently set up. The currently mode of operation makes working with internal services extremely difficult and laborious - and at times unprofessional, so partnership working is almost impossible. This has to change. The dividing line between services and what they deliver does not exist for customers - so we should not create or sustain them. it does not benefit customers.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17628	No Response	2f. Social Policy Management and Support	I feel the council staff who work within social care deserve recognition for their service. Any reviews or changes should be based upon a performance basis.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17629	An employee of West Lothian Council	2f. Social Policy Management and Support	There could be scope for saving through consideration of the development of a "Children's Services" approach to our work with children and young people. This could include combining those elements of social policy services concerned with children and young people with Education Services going forwards. This has been successfully achieved in other local authority areas and facilitates genuine collaboration on strategy, direction and budgeting for services in these areas. At present, we are at risk of savings being made in social policy having an impact on savings in education and vice versa as a result of two separate services with two separate planning structures. A more joined up approach to strategic decision making at this level could have a positive impact on the development of services which would be stronger in their approach through increased collaboration.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17630	An individual	2f. Social Policy Management and Support	I would fully support these proposals	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17631	An individual	2f. Social Policy Management and Support	I'm concerned that there is no scope left within social care services to 'streamline & consolidate'.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17632	An individual	2f. Social Policy Management and Support	Too many external agencies fail to meet the standards imposed in service level agreements and the clients suffers. Then additional services are required, client satisfaction is poor, the clinical / mental health of the client and family suffers. Additional admissions to hospital take place and failed discharges happen. This needs to be avoided otherwise it will become a more expensive , unsustainable and flawed system. Putting vulnerable people at more risk.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners
17633	An individual	2f. Social Policy Management and Support	Yes provide the quality of service to the end user is not compromised or restricted .	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

17634	An individual	2f. Social Policy Management and Support	Done properly may free up resources for service provision.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17635	An individual	2f. Social Policy Management and Support	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17636	An individual	2f. Social Policy Management and Support	I understand this but it is essential that the level of care is maintained.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Work will continue to focus on those who are most vulnerable and have additional needs.
17637	An individual	2f. Social Policy Management and Support	All businesses do this so makes sense. Ensure short v long term is seriously considered. Also think creatively about how to create more income. Those who can afford to pay for specific services should	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	There is a further proposal under Income and Concessions which considers how a contributions policy can be introduced subject to the financial assessment of affordability
17638	An individual	2f. Social Policy Management and Support	Why don't key workers do own typing. More gets charged for lunches. Clients pay for full outings. Clients pay for transport to centre. These are the types of changes that should be getting made	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17639	An individual	2f. Social Policy Management and Support	Will make decisions even slower than they are now	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17640	An individual	2f. Social Policy Management and Support	social policy management have already been streamlining throughout the years using natural waste when people retire or take offers. My concerns is individuals are given too large an are to cover comprising quality of care provided .	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17641	An employee of West Lothian Council	2f. Social Policy Management and Support	A specific finance team could be tasked with collecting any outstanding care home fees which would enable a quicker response in Council reclaiming money owed to them rather than relying on Social Workers who are already under pressure with larger caseloads to also become an "expert" on finances to chase up outstanding fees, while the client has been placed and the case effectively should now be closed to them.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17642	No Response	2f. Social Policy Management and Support	modernizing the approach by making referrals online, minimizing the administration and also keeping things paperless. Possibly merging different departments within Social Policy may keep costs down and taking on extra workloads.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	It is expected that by reducing waste in terms of duplication there will be economies to be made . This will allow more flexible working and opportunities to do things differently.
17643	An individual	2f. Social Policy Management and Support	As long as this can be done totally safely and not endanger vulnerable children in particular, yes.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17644	An individual	2f. Social Policy Management and Support	Social Services should be protected from staff cuts.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17645	An individual	2f. Social Policy Management and Support	Worth lookin at to see where real savings may be made.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17646	No Response	2f. Social Policy Management and Support	Please continue	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17647	An individual	2f. Social Policy Management and Support	Unrealistic Impact on workload	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17648	An individual	2f. Social Policy Management and Support	Money spent on social care services is usually money well spent. In the case of children, disabled and their carers it is always money well spent. A pound spent now on a child with difficulties or disabilities is several pounds saved later.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17649	No Response	2f. Social Policy Management and Support	Have you the quality of staff to operate with reduced supervision? Streamlining is all very well provided the staff can cope on their own. The	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Any changes to management structures will require to fully consider the impact on staff
17650	An individual	2f. Social Policy Management and Support	Social services are already stretched so further streamlining would have to be monitored very closely. It can be very difficult to get hold of key people in social services quickly when faced with a child protection disclosure where time can be of the essence.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Any changes to management structures will require to fully consider the impact on staff
17651	An individual	2f. Social Policy Management and Support	I donâ€™t think there should be any more cuts to social services	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17652	An individual	2f. Social Policy Management and Support	If reducing staff will make the council more efficient and effective go ahead.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17653	An individual	2f. Social Policy Management and Support	While I am a firm believer in community planning and collaboration the council should not pay for services the health services should be paying for as their budgets have not been so aggressively cut.	Social Policy Management and Support (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
17654	No Response	2f. Social Policy Management and Support	A stitch in time saves nine, why cut these services as a knee jerk reaction, the long term costs to the care packages will increase if these services are cut.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17655	An individual	2f. Social Policy Management and Support	Why have you been wasting so much of our money up to this point?	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17656	An individual	2f. Social Policy Management and Support	Sounds as if there are efficiencies to be obtained, which is good except if it is detrimental to the services.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17657	An individual	2f. Social Policy Management and Support	As before please do not do this to the detriment of your staff where they already over committed.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17658	An individual	2f. Social Policy Management and Support	The council must make the best use of the resources remaining.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17659	An individual	2f. Social Policy Management and Support	Further integration of services over time will further reduce the effectiveness of them. The impact on social care and vulnerable residents is massive, therefore I don't agree with this proposal.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17660	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Less people to follow up complaints or help the needy... Never a good idea.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17661	An individual	2f. Social Policy Management and Support	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17662	An individual	2f. Social Policy Management and Support	Again please monitor impact on quality but it makes intuitive sense	Social Policy Management and Support (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
17663	An individual	2f. Social Policy Management and Support	However, the council can't 'do a disappearing act' and join with others to deny involvement. There needs to be clear rules to show who is liable and ensure that integrated care is provided.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	It is expected that by reducing waste in terms of duplication there will be economies to be made. This will allow more flexible working and opportunities to do things differently.
17664	No Response	2f. Social Policy Management and Support	This is an area where the staff on the ground are poorly paid and as such are of poor quality. How do you streamline this service without just imposing cuts.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff
17665	An employee of West Lothian Council	2f. Social Policy Management and Support	In my experience there are not enough social workers within the authority and so I feel a review of these services should be welcomed. I'm not sure it's so much of a management issue rather than the department being understaffed.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17666	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Working in health and seeing social services I cannot see where else the council can cut, service personal already stretched, long wait for a service. It is not integration for the good of the client group it's as you stated cuts, moral already low will drop and people will go off suck leading to poorer services.	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Any changes to management structures will require to fully consider the impact on staff

17667	On behalf of a Group/Organisation	2f. Social Policy Management and Support	There are also many screening groups within Social Policy with the same individuals/ organisations involved and attending meetings, perhaps this process could be reviewed. and streamlined to save money and time. Meetings are important to share information, however, they are costly, if technology allows perhaps more virtual meetings. conference calls could be used?	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17668	On behalf of a Group/Organisation	2f. Social Policy Management and Support	I have previously made comment relating to this matter. I believe that there is room to make savings in this area.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17669	No Response	2f. Social Policy Management and Support	It is known that when new things are introduced the issues do not arise until they are in practice, however the recent introduction of a certain computing system is causing duplication of work, more time consuming for the workers and are not service user friendly so the work has to be re-typed on more appropriate formats, however the computer system still requires that data inputted. No alterations can be made. Workers are spending more time on computers and systems than getting to visit those requiring support and care packages.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17670	An individual	2f. Social Policy Management and Support	As long as there are no reductions in staffing levels, this seems reasonable.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Any changes to management structures will require to fully consider the impact on staff
17671	An individual	2f. Social Policy Management and Support	Urgent review needed here	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17672	On behalf of a Group/Organisation	2f. Social Policy Management and Support	Agreed but must ensure that required standards and legislation is met.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Any changes to management structures will require to fully consider the impact on the service.
17673	An individual	2f. Social Policy Management and Support	This should go further and more savings are possible.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17674	An employee of West Lothian Council	2f. Social Policy Management and Support	again council staff jobs must be protected.	Social Policy Management and Support (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
17675	An individual	2f. Social Policy Management and Support	Again ensuring the provision quality care.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
17676	An employee of West Lothian Council	2f. Social Policy Management and Support	What is the basis for this estimated saving?	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17677	An individual	2f. Social Policy Management and Support	What are the changes proposed to social care? Links to documentation within this document would have been useful for those with a level of interest.	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17678	An employee of West Lothian Council	2f. Social Policy Management and Support	As stated previously in the questionnaire - Systems and processes are incredibly complex and cumbersome. A simplification and streamlining of processes, reducing bureaucracy would undeniably reduce time spent by workers and increase efficiency - For example processes for social workers using AIS could be simplified. Any intervention in this respect should involve close planning, involvement and consultation with front line staff, rather than a top down approach from management/consultants with tokenistic consultation.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted

17679	An individual	2f. Social Policy Management and Support	More detail required on how this will be achieved and to what cost to staffing numbers	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17680	An individual	2f. Social Policy Management and Support	Sounds logical. However, would it not provide a better quality service to the people concerned if the Council had an in-house group that carried out the majority, if not all, of this service?	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery.
17681	An individual	2f. Social Policy Management and Support	Are there the right partners needed out there for this proposal to be realised?	Social Policy Management and Support (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
17682	An individual	2f. Social Policy Management and Support	Social Care is a money pit! If this area was given say 10% it would still not be enough. Be courageous with the users.	Social Policy Management and Support (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Your comment has been noted
17683	An individual	2f. Social Policy Management and Support	Can modernising care in these ways really save over £20m without making it worse for those in need?	Social Policy Management and Support (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
17684	An individual	2f. Social Policy Management and Support	A maximum of 4 people to run a council care home. No agency staff to be employed in council care homes.	Social Policy Management and Support (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. Your comment has been noted
17685	An employee of West Lothian Council	2f. Social Policy Management and Support	AS STATED UNDER IJB JOINT STREAMLINED MANAGEMENT WITH HEALTH WOULD BE BENEFICIAL.	Social Policy Management and Support (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17686	An employee of West Lothian Council	2f. Social Policy Management and Support	No - as I don't think spending more money is necessarily the answer to this. Logical thinking about how social care services are run, and co-ordinated - in a more "joined-up" fashion would go a long way.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17687	An individual	2f. Social Policy Management and Support	I would have liked to have had more information about how the IJBs are developing. It seems a huge issue but one that has been avoided in this consultation.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This consultation is the first stage of the process to enable the council to develop a five year plan. Detailed proposals will be worked up following the outcome of this consultation.
17688	An individual	2f. Social Policy Management and Support	In addition, do not use expensive removal companies to deliver Occupational Health Equipment but council transport.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17689	An employee of West Lothian Council	2f. Social Policy Management and Support	Use internal resources only. Look at the skillset of your staff and how they could be used in different areas. E.g community occupational therapists being used in occupational health.	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17690	No Response	2f. Social Policy Management and Support	Could further efficiencies be made through an integrated approach to the Social Care and Emergency Team with other departments/agencies that work out with normal opening hours?	Social Policy Management and Support (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
17691	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This should be pursued as it is in line with how most organisations deliver and allow access to services.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17692	No Response	3a. Channel Shift and Digital Transformation	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

17873	An individual	3a. Channel Shift and Digital Transformation	Ok	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17874	An individual	3a. Channel Shift and Digital Transformation	This appears sensible and appropriate, as long as the systems are well-designed, easy to use, and provide clear benefit to users as well as the council.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17875	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is a good and fair and focused proposal. Reckon progression of digital solutions are a necessity, efficient "must do" situation.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17876	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I support this. Our customers also do business with the retail/leisure sector and they have moved on digitally e.g. argos, marks and spencer, ryanair we must move on too to be efficemnt	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17877	An individual	3a. Channel Shift and Digital Transformation	Makes sense - like it or not technology is the future and offers substantial savings in time and money. Done well, and it must be, this is a good idea.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17878	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Do whatever you can here to save money	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17879	An individual	3a. Channel Shift and Digital Transformation	Agree. Very good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17880	An individual	3a. Channel Shift and Digital Transformation	no brain required for this - just do it.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17881	An individual	3a. Channel Shift and Digital Transformation	I agree with the proposal to improve the quality and accessibility of customer services in the Council. However, this needs to be considered carefully. People like to talk to people. Too many misunderstandings can be made, particularly if corporate jargon such as 'transformational changes' becomes the norm. Very few government systems are truly transformational. Witness the recent attacks on the NHS where many boards ignored their own IT dept or the Department of Healths instructions.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17882	An individual	3a. Channel Shift and Digital Transformation	This should be a priority and is a good option to save money	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17883	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I agree and would suggest that maintaining the current range of options for customers to engage with the council is outdated and expensive. Other government agencies already limit choice to on line only and manage to provide effective services to the same range of customers as councils have.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17884	An individual	3a. Channel Shift and Digital Transformation	I support the above	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17885	An individual	3a. Channel Shift and Digital Transformation	Anything which improves the councils communication is welcome.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17886	An individual	3a. Channel Shift and Digital Transformation	Sounds a fair proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17887	An individual	3a. Channel Shift and Digital Transformation	This is supported	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17888	An individual	3a. Channel Shift and Digital Transformation	so long as we do not alienate customers who are uncomfortable with technology this would be a way forward.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17889	An individual	3a. Channel Shift and Digital Transformation	Seems fine	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17890	An individual	3a. Channel Shift and Digital Transformation	Moving more to digital is needed	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
17891	An individual	3a. Channel Shift and Digital Transformation	Seems to be a sensible way ahead, as long as it delivers the cost reduction without impacting on the services provided	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

17935	An individual	3a. Channel Shift and Digital Transformation	Take care of those who are not familiar with digital systems or confident in their use	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17936	An individual	3a. Channel Shift and Digital Transformation	However, we must retain other options for those who are digitally excluded both by lack of skills and in poverty so can't afford to be digitally included.	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17937	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Channel shift is a good idea however not all customers are comfortable with a digital revolution. there has to be alternative and they have to be advertised and easy to use.	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17938	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	people from the poorest communities and environments miss out due to technology. Often they cant read or write but we still insist using this type of communication in particular health. Not everyone is able to access libraries	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17939	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	My concern is for those not literate enough or digitally included. For many, face to face is not only preferred but essential.	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17940	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Any changes that can streamline processes and make savings for the council must and should be pursued.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
17941	An individual	3a. Channel Shift and Digital Transformation	Not everyone can or has online access. You must still provide a actual place for people to meet face to face for queries / help/ advice	Channel shift & digital transformation - alternative communication methods	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17942	No Response	3a. Channel Shift and Digital Transformation	Have a digital instant messenger as a way to get touch with the contact centre rather than email and phone	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
17943	An individual	3a. Channel Shift and Digital Transformation	Do you mean automated phone service which means people can't talk to another human?	Channel shift & digital transformation - alternative communication methods	3. The respondent advised that they had no comment to make.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17944	An individual	3a. Channel Shift and Digital Transformation	IT solutions are no use to many elderly people, no use to many ill people, no use to people that require social work support. Fewer people and services that are remote and difficult to get to are no use to many of the people who require them. Wrong solution.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17945	An individual	3a. Channel Shift and Digital Transformation	Having more channels available does not overcome the barrier that many people face to using technology. Putting a 6 page document online doe snot make the process easier but harder for the customer.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17946	An individual	3a. Channel Shift and Digital Transformation	Email, Twitter and Facebook are all relevant for passing information but why don't you share information with Community Councils so they can use their own platforms to inform residents of what is happening? Rather than the council running "local" Facebook pages from Livingston, look to existing Community Council pages - that way one social media manager can feed out information from the council via these paths, rather than a dozen people doing the same job as local volunteers.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is investigating expanding its use of social media to increase its reach.
17947	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	there should always be resource for face to face interaction for those who cannot access via digital	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17948	An individual	3a. Channel Shift and Digital Transformation	Sounds good in theory but this does not work for all residents of West Lothian who do not have access to such services so there needs to be provision for those individuals. Otherwise, hopefully it helps make savings in an effective manner.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17949	An individual	3a. Channel Shift and Digital Transformation	Accept the world is changing to online and self service solutions. Agree that for the most part this is sensible. However, the population makeup of west Lothian must not leave behind those who prefer a "face to face" or human interaction when they have a problem to solve. WLC must offer choice.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17950	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Risk for poorer access to services for elderly citizens who might not be as digitally active	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17951	An individual	3a. Channel Shift and Digital Transformation	Is this supposed to mean something? Care is needed that a potentially growing number of people are going to have difficulty accessing digital resources.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17952	An individual	3a. Channel Shift and Digital Transformation	This seems to be a good idea but it will impact on those people who do not have access to digital services.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17953	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Going digital is vital but for those residents who are confident in using IT they should still have the opportunity to speak to someone over the phone or face to face if needed. This may be on a reduced basis but we don't want to exclude those who don't have access to digital.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17954	An individual	3a. Channel Shift and Digital Transformation	as mentioned before west Lothian bulletin only being sent out a paper copy for people who do not have access to the internet, they would have to let the council know they require a paper copy and if one is not requested it is up to the other people to find it on the council website.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	All options to reduce paper copies of information will be explored
17955	An individual	3a. Channel Shift and Digital Transformation	contacting tenants by email/text messages rather than someone having to phone them as a call can take 4 times as long as sending an email/text	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
17956	An individual	3a. Channel Shift and Digital Transformation	Letting tenants know more about booking their own appointments for repairs thus having less calls to the customer services department	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
17957	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	Any change to moving services online (as this proposal is suggesting) needs to be very well thought through with a strong administrative staffing in public places such as libraries to assist the elderly or computer illiterate to access these systems.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17958	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	As previously mentioned - need to ensure we do not discriminate against customer using this approach and need to ensure we are still accessible for all. Face to face contact for many is still the preferred option and provides for better more efficient service.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17959	No Response	3a. Channel Shift and Digital Transformation	Sometimes customers shouldn't be given a choice when it comes to accessing information online. For those that need information and don't have access to technology for whatever reason, they should be given access to paper documents/forms or be able to phone in to speak to someone. Most people however, it's either down to sheer laziness or they just prefer to have something in front of them. This doesn't help the councils budget though and all council forms where possible, should be available online and the process of printing forms in bulk for customers should be stopped. It's wasting money where it is not required.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
17960	An individual	3a. Channel Shift and Digital Transformation	This would on,y work if all west Lothian people have PCs or are computer literate	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17961	No Response	3a. Channel Shift and Digital Transformation	Technology is fine for those of a certain age. Please bear in mind the vast majority of senior citizens who, surveys tell us, are still risk averse to this method.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17962	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	There still needs to be some face to face contact as some people either cannot or will not use online services. Also it can sometimes be very frustrating dealing with automated services and can take a lot longer for enquiries to be dealt with	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17963	An individual	3a. Channel Shift and Digital Transformation	I do wonder how many things you need to run for digital inclusion	Channel shift & digital transformation - alternative communication methods	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is not clear what the respondent is referring to

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
17964	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The council does not have a great track record in this regard. Look at how efficient organisations like Amazon use technology to deliver goods and services and compare to the council. Public sector IT knowledge and development is very poor. Investment this is absolutely essential and will result in efficiency savings.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
17965	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Care needs to be taken to ensure that those requiring services, which are often the most vulnerable and excluded and less technically able, can still access services.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17966	An individual	3a. Channel Shift and Digital Transformation	It is still important for the West Lothian Council to have in place a contact telephone number for the public's enquiries. Many people DO NOT have a computer or computer knowledge and some are housebound and could not go to a council office with their enquiry.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17967	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	There is no doubt we are in an age of increased digitalisation; however there are many people who are unable to use technology for whatever reason and they must not be left behind. There are areas of West Lothian where there is either little or poor internet connection and the council must ensure that all services can still be accessed on a face-to-face basis otherwise people will be left behind.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17968	An individual	3a. Channel Shift and Digital Transformation	Agree that digital solutions should be used wherever possible; with access available at Council offices for those without access at home or through mobile.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17969	An individual	3a. Channel Shift and Digital Transformation	Will this stop the sending out of 'final demand' letters in the middle of every month to folk that always pay their council tax at the end of the month? Because chasing people that always pay, on the same day every month, without fail, for @ 20 years, because that day isn't the one you'd like to see it paid on, is really not clever.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
17970	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree. But still maintain the option for face to face contact if required for customers with these needs, e.g. older customers not so IT literate.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17971	No Response	3a. Channel Shift and Digital Transformation	Use technology by making the Bulletin an online resource perhaps offering an opt in delivery option for the elderly rather than printing it off in colour and sending to everyone.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	All options to reduce paper copies of information will be explored
17972	An individual	3a. Channel Shift and Digital Transformation	This seems like a reasonable suggestion. However, it is imperative that the council invests in technology to ensure digital options are much more accessible and easier to use, such as an app for mobile devices. Many people in West Lothian use their mobile phones rather than PC's or Tablets, yet the council website is not particularly mobile phone friendly. This consultation is a good example of this as it is not mobile friendly. You will therefore have missed out on people responding as they will have given up after the first couple of questions!	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
17973	An individual	3a. Channel Shift and Digital Transformation	A lot of customers are vulnerable and also have learning disabilities so the need for frontline staff is needed especially when information is being delivered. There are a lot of customers who cannot use computers	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17974	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	You still need to have the face to face value with customers	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17975	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Not everyone is on the Internet. Going all Digital for services is a bad move.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required

Transforming Your Council Consultation 2017

17976	No Response	3a. Channel Shift and Digital Transformation	Many elderly people are not confident with doing things online. As long as support in this area is provided, this could be a viable option.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17977	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	again I would be concerned that many people like to speak to a person to resolve issues and an automated system would not support that.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17978	An individual	3a. Channel Shift and Digital Transformation	Consideration should be given, however, to how elderly and disabled individuals who may not be able to access these systems will be supported	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17979	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I fully support this proposal - as long as the council recognises that there will still be demand for face-to-face and telephone services as well.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17980	An individual	3a. Channel Shift and Digital Transformation	Makes sense to use a more digital forum for communication.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
17981	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	We should NOT assume that everyone is able to use IT (Or even want to learn how to use it) even where some people have access they find it extremely difficult to understand	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17982	An individual	3a. Channel Shift and Digital Transformation	Concern for older residents who are not computer literate as to how they will still access services.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17983	An individual	3a. Channel Shift and Digital Transformation	I have used email services a number of times for council services to my complete satisfaction. My concern is that given we have an increasing aging population, not all will be IT literate and sometimes, people do prefer a face to face service	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17984	An individual	3a. Channel Shift and Digital Transformation	Technology is the way forward but not everyone can use this. Provision must still be there for the older or less able members of our community	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17985	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Currently 48% of the disabled population currently do not have access to digital technology so how is this saving going to make services more accessible? In what way will the service be more efficient, more detail is required. What reasonable adjustments will be put in place for those who for whatever reason cannot access and / or use Information Technology.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17986	An individual	3a. Channel Shift and Digital Transformation	digital solutions are ok. But there are social groups who do not have access to digital sources or are unable to use them. #	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17987	No Response	3a. Channel Shift and Digital Transformation	This is a general comment on Section 3. I agree that an improvement of the quality and accessibility of customer services is a worthy aim. Just do not forget those that do not have Internet. It is difficult to imagine a cut to CIS services in Linlithgow Library.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

17988	No Response	3a. Channel Shift and Digital Transformation	Technology is great, but don't underestimate the value of being able to have a face to face conversation with someone when you need to access a service.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17989	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I agree with more on-line facilities to reduce the number of staff in front line areas, but not all our citizens have access to, or can cope with, progressive technology. We still need to maintain some personally provided services to meet their needs.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
17990	An individual	3a. Channel Shift and Digital Transformation	That sounds fine as long as there is a suitable process in place for enquiries and complaints.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17991	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The council must take appropriate measures to communicate with customers through a variety of mediums to ensure that target audiences are addressed.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17992	An individual	3a. Channel Shift and Digital Transformation	Cancel the newspaper you produce. Perhaps just provide a leaflet over winter with winter contact / keep safe numbers	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
17993	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Again the world is going digital, what about those like the elderly, disabled with learning difficulties, and those on low incomes that maybe can't afford a monthly broadband fee or those who can't understand technology, what do these people do?	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17994	An individual	3a. Channel Shift and Digital Transformation	Online services are great for most people but some elderly and those without access to the Internet can find it increasingly difficult to access information.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17995	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	A large number of people especially older ones do not have skills/knowledge to do this without a lot of staff support. May discourage them from seeking help.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17996	An individual	3a. Channel Shift and Digital Transformation	Digital inclusion does not suit everyone. There are many vulnerable people in our community who depend heavily on frontline services for help and support.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17997	An individual	3a. Channel Shift and Digital Transformation	Many old and/or vulnerable people do not have or want access to digital services. Who helps them?	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
17998	No Response	3a. Channel Shift and Digital Transformation	I can see the reason for the suggestion but it will probably drive people mad as per my experience from insurance companies, mobile phone companies and so on. Computers go down, callers are left hanging on with no updates, lines go dead, no one to complain to, Older people get extremely worried. Lines of people will go to the one service point to sort out their grievances. But maybe I am wrong!	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
17999	An individual	3a. Channel Shift and Digital Transformation	There should still be an opportunity to meet or phone customer service representatives when digital solutions are not possible	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18000	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is a logical decision. There are a number of services that remain too reliant on paper administration and an online based service with opt out measures to ensure that those without access to online services are not negatively impacted by the transformation to services of these types. All departments should be asked to consider where this type of technology could be used to reduce paper, printing and mailing costs and improve efficiencies.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18001	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree â€” new technologies should be utilised in all areas of the council Skype ? Video conferencing is not easily or readily available. Scheduling technology.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18002	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	most customers either have access to a mobile phone, computer or laptop,,,,, social media therefore more use should be made of these services,,,, facebook live for urgent announcements etc..... also the customer portal needs to be finished as a matter of urgency.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is investigating expanding its use of social media to increase its reach.
18003	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	What about the people who don't have access to/don't know how to use online services?	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18004	An individual	3a. Channel Shift and Digital Transformation	Not all 'customers' can be reached, have access to, are capable or wish to use online services. While this is acceptable to help reduce costs it must not be the only way of conducting business with WLC.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18005	An individual	3a. Channel Shift and Digital Transformation	Need to take care here as not everyone or homes have technology, and vulnerable people and people with disabilities may need assistance	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18006	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Consideration has to be given to the elderly & people that do not have internet access	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18007	An individual	3a. Channel Shift and Digital Transformation	Council has to be aware that not all customer have access to an online world.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18008	An individual	3a. Channel Shift and Digital Transformation	The council doesn't have customers. It is not a business. I am a citizen reliant on government services which you provide and I pay for through progressive taxation.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18009	An individual	3a. Channel Shift and Digital Transformation	Sensible - about time things were more digital - email instead of post, etc. Chat bots, online chat, etc all good.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18010	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Technology has a place but at the end of the day council services are about dealing with people so there needs to be a check that some human person deals with situations too.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18011	An individual	3a. Channel Shift and Digital Transformation	I think the use of digital technology would be a good way of reducing costs. Support for people who find difficulty using it can be given in libraries for example.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations

18012	An individual	3a. Channel Shift and Digital Transformation	Agree with this. But can't remove everything in case you are alienating customers who are not digital minded. This provides people in locations to know of vulnerable people in communities.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18013	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Great for people who are comfortable with technology and already conduct business online (bank, shopping, social media etc). Could lead to great inequalities / disadvantages for citizens who are not digitally adept.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18014	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	not everyone has access to this	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18015	An individual	3a. Channel Shift and Digital Transformation	Hopefully this will be beneficial as trying to contact West Lothian Council by telephone is a nightmare.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18016	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	great if they have digital - but remember high illiteracy rates....	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18017	An individual	3a. Channel Shift and Digital Transformation	Whilst I agree that technology is the way forward, the older generation may not feel the same. Many like to pick up the phone and speak to a real person and do not feel confident or proficient in using tech.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18018	An individual	3a. Channel Shift and Digital Transformation	Agree with use of digital technology and creative ways of engagement and support but remember for some the face to face 'dealing with a person' is still so important and a more familiar way of working.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18019	An individual	3a. Channel Shift and Digital Transformation	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18020	An individual	3a. Channel Shift and Digital Transformation	This would go down the same route as banks/branches closing which the pupil have to deal with. If support can be given but also help lines/places in place for perhaps the elderly this would allow savings through technology.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18021	An individual	3a. Channel Shift and Digital Transformation	Digital by choice should be viewed the other way around, in terms of an opt-in for non-digital communications, possibly with a cost for handling printed material. This could support further technical development such as the use of sound and audio communications.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18022	An individual	3a. Channel Shift and Digital Transformation	There should continue to be support for customers who do not have access to internet and have learning difficulties as it is not always helpful to get an automated message with instructions on how to access information especially if one has no means of accessing internet for example.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18023	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Digital is being more and more part of the way people buy services and seek information therefore this seems to be a sensible approach provided alternatives are made available for people who have poor or no digital knowledge or do not have access to technology.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18024	No Response	3a. Channel Shift and Digital Transformation	Introducing messenger, like an instant messaging which allows people to get answers more quickly. Producing more services that deal with online forms and keeping email access through customer services will allow less calls to be made and costs to be cut.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18025	No Response	3a. Channel Shift and Digital Transformation	Electronic communication is easier to manage, providing sufficient resource is in place to deal with it. it will also cut down on the amount of time wasted on dealing with abusive and disruptive customers.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18026	No Response	3a. Channel Shift and Digital Transformation	As more and more of us shift to using online services, it is right that the council shifts this way too. There are, however, a minority for whom face to face services are still a valued (and sometimes essential) part of life. Is the council consulting with specific groups (particularly those involving or representing the elderly or low income populations) to ensure that any channel shift is fair and equitable?	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18027	An individual	3a. Channel Shift and Digital Transformation	Support this, but need to be very careful budget for technology does not escalate ... very tight contracts must be established with technology providers !!!!!	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18028	No Response	3a. Channel Shift and Digital Transformation	Whilst digital access can allow more flexibility and can allow a service to potentially reach more people than traditional telephone/ face to face contact it still requires a degree of effort from staff e.g. to keep digital resources up to date. Many management within with council seem to have the impression that once a digital form, webpage etc. is done, it's done! There is little consideration for the time and resources needed to keep these up to date.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18029	An individual	3a. Channel Shift and Digital Transformation	You must provide adequate services for those who are not on-line pr who lack digital skills.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18030	No Response	3a. Channel Shift and Digital Transformation	Council needs to facilitate contact with staff by members of public. Existing telephone reception system is deplorable. Why not just publish a decent staff telephone and email directory.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18031	No Response	3a. Channel Shift and Digital Transformation	This has to be carefully considered as it might isolate some people	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18032	No Response	3a. Channel Shift and Digital Transformation	We may be living in a technological world but this sounds very much like this is, once again heading towards a faceless council. Once again, our more vulnerable residents are being let down - talking to the person paying their rent / taking a library book / paying council tax etc may be the only person that they have a conversation with that day / that week can we really afford to let these people down by increasing self service solution. An introduction of more digital services will also increase the statistics for poor mental health in the county.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18033	An individual	3a. Channel Shift and Digital Transformation	Please remember that the older generation may not have the computer skills or access to computers. Some telephone provision needs to be kept going in parallel for some time.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18034	An individual	3a. Channel Shift and Digital Transformation	online chat and social media would allow you to deal with customers cheaper than on the phone or in person. You should be investing now to train up people and develop the channels to move people online in the future.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18035	An individual	3a. Channel Shift and Digital Transformation	Services must remain accessible to those without access to internet and pc/mobile equipment due to financial constraints/age/capacity. The council needs to consider the importance of face to face contact with vulnerable citizens when looking to widen access	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18036	An individual	3a. Channel Shift and Digital Transformation	Invest in new technologies for all customer facing staff. Give ICT resources to those front line staff who will create efficiencies rather than prioritise for management/elected representatives	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18037	An individual	3a. Channel Shift and Digital Transformation	Please ensure that you continue to engage and communicate well with customers. Bulletin is a very good magazine and should continue.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All options to reduce paper copies of information will be explored
18038	An individual	3a. Channel Shift and Digital Transformation	I mainly use the Council's Facebook page and website for information but I feel that Bulletin does a great job in promoting the Council and providing timely information. Bulletin content could be made available digitally but could alienate those who don't have Internet access.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	All options to reduce paper copies of information will be explored
18039	An individual	3a. Channel Shift and Digital Transformation	Vitaly important to communicate with customers both internal and externally. Protect this area as Bulletin is a good product to have.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18040	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Yes this can provide a quicker service for the customer but staff must be protected.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Digital transformation will change the focus and type of work that staff undertake.
18041	An individual	3a. Channel Shift and Digital Transformation	This will not benefit the elderly who may not have access to online facilities.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18042	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Appropriate for most service areas, but some support can't be done other than face to face.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18043	An individual	3a. Channel Shift and Digital Transformation	In general I agree but please bear in mind that there are still members of our communities who are not 'digital citizens', either having no internet connection of their own at home or not being fully au fait with the requirements of online and self-service solutions. My mother relies on my assistance to access services that are digital but not everyone has that immediate support. I recognise the opportunity represented by this shift and its alignment to overall changes in society but please make sure that support remains available for those who need it.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18044	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	One suggestion of probably many is to move the application of Community Care Grants for Scottish Welfare Fund to online only, leaving support for those in Crisis as it is at the moment ie supported by CSC. This would reduce costs as it typically takes an officer around 15 minutes to complete an application with a customer. Around 450 CCG applications are received per month.	Channel shift & digital transformation - alternative communication methods	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18045	An individual	3a. Channel Shift and Digital Transformation	This will work for some customers. However a large number of people do not have skills or access to computers to use them. Therefore it is essential that there is still some face to face provision locally for those who need it	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18046	An individual	3a. Channel Shift and Digital Transformation	Don't know what this would be like, not sure if this would be good. I struggle with technology would need back up systems.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18047	An individual	3a. Channel Shift and Digital Transformation	Aye, more computers.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations

Transforming Your Council Consultation 2017

18048	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Not everyone has access to technology or the means to understand what this actually means. Lots of barriers preventing people accessing technologies.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18049	An individual	3a. Channel Shift and Digital Transformation	More investment in digital services and corporate communications to inform both customers and staff that n-line services are available and ensure that all staff follows procedures introduced.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18050	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree, although in areas such as social policy, you are working with hard to engage people and the direct face to face approach is better than an automated system.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18051	No Response	3a. Channel Shift and Digital Transformation	Fine to go digital for some people - but it doesn't work for all.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18052	An individual	3a. Channel Shift and Digital Transformation	The use of technology should continue to be developed but care should be taken to ensure this is not to the detriment of those not able to use it or does not have the means to keep up to date with the technology	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18053	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	Agree where access to the required technology is available to all service users, ie with the support of library staff	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18054	An individual	3a. Channel Shift and Digital Transformation	Digital Transformation is much needed but in order that this provides the actual saving required the council staff will need to be upskilled in the procurement of the most appropriate systems and in how they can be fully implemented and supported. If Council staff are not fully bought into and trained to support this revolution then the maximisation of saving will not occur. The support provided the most marginalised in society to embrace this change must be considered. The majority of the population will now find the transition straightforward but for a significant minority who are likely to need a lot of council services they will struggle and support must be put in place to deal with this	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18055	An individual	3a. Channel Shift and Digital Transformation	Agreed, where some i:1 support is available for those individuals who are unable to use the required technology, ie in libraries.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18056	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Introducing instant messenger would be useful for the customers which allows them to communicate with Customer Services quicker and more effectively. I do believe introducing more online forms which allows the customer to do most of the requests online. There obviously will be times where people need to phone the Council however for simple things that are readily available online this could be minimized.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18057	An individual	3a. Channel Shift and Digital Transformation	It fine to be digital first but as you close day centres, reduce your services for older people, including transport to get them to offices, the isolation for them grows even more. My mum has tried to learn to use digital but was in tears trying to do this, she feels isolated and left behind as there is in general fewer and fewer staff who care that she has no computer. I try to do things for her but she feels this makes her dependent and that makes her sad and depressed that she is loosing her respect and dignity as an adult. Please leave some focussed, quality support for people who are not 'on-line'	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18058	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Any new systems should be very carefully sourced with consultation of services across the council. For example, many internal and external services have regularly raised the issue that wifi in council buildings is not user-friendly and so under-used and not supporting digital exclusion. There have been no steps taken as yet to attempt to resolve this.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18059	An individual	3a. Channel Shift and Digital Transformation	Yes more effort/ money should be put into creating better digital/ online services However there should also be the option to call a human if necessary (or if an older person) and this should be easy with no waiting and no automated recordings and pressing lots of numbers to get to a person	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18060	An individual	3a. Channel Shift and Digital Transformation	There are many people in West Lothian who do not have access to the internet and those who don't have the ability to use it. I hope this doesn't mean redesigning predominantly into automated & online services.	Channel shift & digital transformation - alternative communication methods	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18061	An individual	3a. Channel Shift and Digital Transformation	Offer more digital-based services.	Channel shift & digital transformation - alternative communication methods	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18062	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Not everyone is computer literate, and not everyone has access to digital and on line services. Will the customer services centres address these needs ?	Channel shift & digital transformation - CSC / CIS	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18063	An individual	3a. Channel Shift and Digital Transformation	The online payments service for Council Tax could be made better. I pay more than is required each month but have found that you can not find out your remaining balance online resulting in me having to go to a CIS office to find out this information. A solution to this may result in less people attending CIS offices and could be a saving if CIS closed and everything done online or by phone.	Channel shift & digital transformation - CSC / CIS	6. This is a positive suggestion. Officers will consider how this could be developed.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18064	No Response	3a. Channel Shift and Digital Transformation	The call centre training is not keeping pace with demand and staff changes. In order to provide a good level of service to our customers this front line of contact must be supported and resourced fully.	Channel shift & digital transformation - CSC / CIS	4. The council is already doing this.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18065	An individual	3a. Channel Shift and Digital Transformation	Digital solutions can be a way to avoid contact with rate payers. Direct voice to voice contact with real people is needed in some cases. At present it is rarely possible to contact a Council member directly with the first telephone call. This can be used as a way to avoid talking to people - its easier for them.	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18066	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	the council needs to improve existing services anyone trying to phone into report a fault or pay rent has to wait at least 20 minutes to talk to someone.	Channel shift & digital transformation - CSC / CIS	6. This is a positive suggestion. Officers will consider how this could be developed.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18067	An individual	3a. Channel Shift and Digital Transformation	potential for instant chat to discuss things with advisers ?	Channel shift & digital transformation - CSC / CIS	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18068	An individual	3a. Channel Shift and Digital Transformation	We need to remember that call centres and on-line solutions do not meet the communication needs of all residents - particularly the elderly.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18069	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is a good idea as staffing in CIS is understaffed and the CIS service is an important way for customers to contact WLC	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18070	An individual	3a. Channel Shift and Digital Transformation	I suggest making it easier to contact the council by phone for assistance on how to navigate the website? I couldn't figure out how to order a new bin so I just stole someone else's. It's like musical chairs. Except at the end of the game the one without has to order a skip!	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18071	An individual	3a. Channel Shift and Digital Transformation	The current quality of customer services and accessibility of some staff and some departments is currently highly inefficient and ineffective. Much investment will be required in improving standards of Customer Care, service levels and performance monitoring systems.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18072	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The call centre needs more effective, more regular training (because of the high turnover in staff) if it is to continue to operate as the second point of contact for the council's customers.	Channel shift & digital transformation - CSC / CIS	4. The council is already doing this.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18073	An individual	3a. Channel Shift and Digital Transformation	The contact centre was transitional shift and it delivers the poorest service in the council, waiting times and abandonment rates are ridiculous. It is either completely incompetent or one would think it was a deliberate attempt to prevent people getting through to the council to request a service.	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18074	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Again not everyone are confident when using IT, would the contact centre be expanded for taking more calls if frontline offices close	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18075	An individual	3a. Channel Shift and Digital Transformation	Frontline services are essential as not everyone is computer literate and there are many vulnerable people our community. These people depend on support as they are unable to use phones or IT equipment eg disabled, elderly, visually impaired, people with mental health issues, learning difficulties and the hard of hearing.	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18076	An individual	3a. Channel Shift and Digital Transformation	I agree with the proposal to improve the quality and accessibility of customer services provided to the West Lothian area.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18077	No Response	3a. Channel Shift and Digital Transformation	Modernizing the approach we communicate with the Council and vice versa is definitely needed. Integrating the departments for one communication i.e giving most call handling to the Contact Centre will make efficiency in the process.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18078	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	We set our targets far too high and seem to spend too much time and money trying to encourage customers to complain.	Channel shift & digital transformation - CSC / CIS	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
18079	No Response	3a. Channel Shift and Digital Transformation	Invest in cis and other front line services	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18080	An individual	3a. Channel Shift and Digital Transformation	Streamline access to services. Currently emergency calls are treated similar to non-emergency routing through main exchange. This could be resolved by allowing people to speak to an operator with options rather than a machine.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18081	No Response	3a. Channel Shift and Digital Transformation	This will only work if taking on board the options of those that use the services, their advocates and those that sign post. Some support services are separated due to the nature of the outcomes and the complex needs of the individuals. Structure and routine an important part of human nature.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18082	No Response	3a. Channel Shift and Digital Transformation	It's impossible to call the service centre, i have tried on many occasions with no luck (probably due to the lack of staff)	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18083	An individual	3a. Channel Shift and Digital Transformation	If technology working in CECs then ok but what's the plan when no staff to assist when technology lets us down?	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18084	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	We agree with the proposal to improve the quality and accessibility of customer services in the Council.	Channel shift & digital transformation - CSC / CIS	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18085	An individual	3a. Channel Shift and Digital Transformation	Difficult enough trying to speak to anyone at the council using the call centre. Introducing a new system will not necessarily help. Need more personal contact and not a machine asking you to pick what numbers you want.	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18086	An individual	3a. Channel Shift and Digital Transformation	Fix WLC CC phone system. Make it easier to contact service areas.	Channel shift & digital transformation - CSC / CIS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18087	An individual	3a. Channel Shift and Digital Transformation	. Invest in web and online services and gradually move away from traditional services. In ten years nobody will want to call anyway. It will all be done online.	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18088	An individual	3a. Channel Shift and Digital Transformation	The council should be looking to deliver far more services through effective technology. The council's website is not as transactional as it should be with payments and booking services online difficult and frustrating.	Channel shift & digital transformation - online and self service	4. The council is already doing this.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers

18089	An individual	3a. Channel Shift and Digital Transformation	just remember a lot of people are not computer literate	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18090	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I would agree with this proposal so long as it remains "digital by choice as for more vulnerable people digital may not be an option in that they do not have access to IT / do not have IT skills - this has been a difficulty for clients when DWP have insisted on "on line" applications resulting in staff time having to be used as some clients are not able to manage this	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18091	No Response	3a. Channel Shift and Digital Transformation	More people are managing their affairs through the internet and if this could be used with more services and save money that can be used elsewhere.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18092	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	As many services as possible should be delivered online	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18093	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Public users should be encouraged are even instructed to help Council eg make payments online instead of queuing to pay Council tax, or make enquiries by phone rather than visit Support staff in Partnerships should be well numbered to deal with this.	Channel shift & digital transformation - online and self service	4. The council is already doing this.	The council is developing a number of ways that customers can interact on a digital basis
18094	An individual	3a. Channel Shift and Digital Transformation	Not all customers can or wish to access services on line	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18095	An individual	3a. Channel Shift and Digital Transformation	In my experience the council's online services are functional but poor - substantial improvement and modernisation is required if you expect people to 'self serve' online. Also - being forced to use online services is not 'digital by choice'.	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18096	An individual	3a. Channel Shift and Digital Transformation	it should not be digital only, many customers for different reasons, cannot access digital. There should always be an alternative for those customers.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18097	No Response	3a. Channel Shift and Digital Transformation	I agree although consideration to be given to those with little or no digital access.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18098	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Although this is currently increasing in the amount of online services etc we still see that a lot of the aged population refuse to use these and either do not report their needs or complaints or call, visit or write letters. Therefore I believe that although this emphasis is clearly the right way forward you will need to take into account those that either cannot or will not access the correct technology.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18099	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Recognise that not everyone, particularly older people, are able to interact using digital means. Also realise that the easier it is made to contact the council, the more likely it is that more request for service will be made. It is far easier and quicker to fire off an e-mail or fill in an online comment rather than write a letter or even make a phone call.	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18100	An individual	3a. Channel Shift and Digital Transformation	I support the use here of digital services. I have used your online planning portal and it is excellent.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18101	An individual	3a. Channel Shift and Digital Transformation	There is very little service at the moment anyway, so another opportunity to detach yourselves from customers	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18102	An individual	3a. Channel Shift and Digital Transformation	Self support is the way forward. This would cut the cost of time wasted and the delay in trying to find out what is going on. Most people can access or have someone who can access digital services to support self service.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18103	An individual	3a. Channel Shift and Digital Transformation	A good proposal but need to take into account elderly people who need contact with someone face to face when introducing technology a lot of people cannot do it online and don't own a computer that would be too much of a change for older people	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18104	An individual	3a. Channel Shift and Digital Transformation	Good idea going online for services but again you would need to take into consideration the people who do not have access to computers and the elderly	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18105	No Response	3a. Channel Shift and Digital Transformation	Digital and self service are great ideas, you still need face to face for customers who have communication difficulties	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18106	An individual	3a. Channel Shift and Digital Transformation	introducing digital solutions another waste of money that could be spent elsewhere	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18107	An individual	3a. Channel Shift and Digital Transformation	More online services would be helpful however there should still remain a route to do this face-to-face for the most vulnerable who are unable to make technology	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18108	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	What does this even mean??! Elderly people may not be able to use or access online facilities and also anyone who perhaps has a learning difficulty would not understand how this works.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18109	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Ensure computers terminals available in communities to make this work	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18110	An individual	3a. Channel Shift and Digital Transformation	Clearly a good way to go. Most people are computer literate now, but the vulnerable few must be protected.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18111	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	More work on the website is need to provide upto date information on services	Channel shift & digital transformation - online and self service	4. The council is already doing this.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18112	An individual	3a. Channel Shift and Digital Transformation	Online and digital ways of communicating may be the streamlined way of doing things, but there are still many , mostly older people, who either do not have access or cannot use these ways of communicating. This should always be taken into account.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18113	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Customers don't want to use technology face to face is much better for individuals. Online and self service does not always work. west Lothian council are not providing choices and taking work away for hands to do. Will the individuals the face to face workers be offered to retrain in IT technology and do this instead meaning jobs could be saved?	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital transformation will change the focus and type of work that staff undertake.
18114	An individual	3a. Channel Shift and Digital Transformation	Up till now the result of using technology to increase efficiency has proven to lower the quality of the publics experience. Also this kind of decision is based on the assumption that we are all computer/IT literate.This is most definitely not the case and is a very short sighted approach which leads to citizens being poorly served it does not support workers it gives them more work dealing with it queries	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it

18115	An individual	3a. Channel Shift and Digital Transformation	reducing paperwork and transferring to digital is okay - just don't removing all personal contact	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18116	An individual	3a. Channel Shift and Digital Transformation	Absolutely. There are many areas that have been, and can continue to be moved onto online provision which is fantastic and should be continued wherever possible.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18117	An individual	3a. Channel Shift and Digital Transformation	This is the most sensible suggestion yet. The current web site is frankly terrible. This needs to be tackled on a per transaction basis and a robust process for each put in place.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18118	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Not everybody has or wants to use computerised/digital. The Council needs to put in place a suitably robust IT system capable of delivering the systems required.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18119	An individual	3a. Channel Shift and Digital Transformation	What about people who don't have access to the internet? Most of the younger generation will have or will know how to use technology but a lot of older people won't, I'm thinking about my dad and older relatives who don't have and don't want to have to deal with things via technology.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18120	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Whilst the digital route is great for the younger generation this is trickier for pensioners or those on low incomes as public computer access becomes fewer and further apart.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18121	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Digital solutions will be helpful however it is important to still have a human face of the council for those who either don't have access to technology or who are unable to use it.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18122	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This makes sense however particular care must be taken so that the most vulnerable in society as not left socially and digitally excluded.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18123	An individual	3a. Channel Shift and Digital Transformation	Online and Self Service options are all well and good, but with an ageing population as well as people with limited access to technology it is not necessarily the best option for all residents	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18124	No Response	3a. Channel Shift and Digital Transformation	Where possible, all forms/applications etc should be done online, the amount of money that is wasted on paper application forms/complaints forms etc is a bit ridiculous. Most people have access to a computer these days so are able to get these forms remotely. Anyone who has no access can request a paper one so it should only be printed as and when required. We print so many forms in bulk that it's a waste of money. Forms like licenses, pupil placement applications and housing applications are printed the most and should be available to either print online or fill in online which would save the council money in printing costs also.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18125	An individual	3a. Channel Shift and Digital Transformation	Digital transport is good as there should be facilities to pay over the telephone	Channel shift & digital transformation - online and self service	4. The council is already doing this.	Online and phone payments are already available
18126	No Response	3a. Channel Shift and Digital Transformation	IT does not always offer the best way forward. Not sure closing the cash desks will keep the rent money/council tax coming in. Elderly customers will struggle with the self service method. Will	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18127	No Response	3a. Channel Shift and Digital Transformation	I said 5 years ago that we should have a self service portal where tenants can check their own rent accounts, and this has finally been brought in. It will save on costs if tenants can manage their own accounts, and check the balance.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

18128	An individual	3a. Channel Shift and Digital Transformation	better online facilities. most are migrating online.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18129	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	If more self service options were available to customers in supported environments then this may help on staffing levels.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18130	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	More and more information is available on line and the need to print out reports for committees should not be required.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18131	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Get more data on line and integrate systems.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18132	An individual	3a. Channel Shift and Digital Transformation	Save ing should be more. Put as much as possible online although your website is rubbish, 10 years behind others and boring.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18133	No Response	3a. Channel Shift and Digital Transformation	modernising requests by making all services easily accessible online, providing smart working by centralising needs to one service i.e customer services who can transport all requests through if not easily available online.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18134	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Who will be around to help people access online services.	Channel shift & digital transformation - online and self service	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18135	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Digital transformation is definitely required, self service will allow consolidation of resources - however this may lead to job cuts and therefore a detrimental effect on staff morale.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18136	An individual	3a. Channel Shift and Digital Transformation	Digital solutions are fine for those who can deal with this. It is very difficult to get customers to engage on our new digital solutions. As much as we can provide support we are never going to be able to get customers to fill online applications, look up information and older people may not have the physical or mental capacity to cope.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18137	No Response	3a. Channel Shift and Digital Transformation	Self service bad idea for payments - we are in an age where people do not wish to pay and this gives them more of a reason	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Payment kiosks have been placed in a range of locations and are being used by a wide variety of customers.
18138	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	It would be good if the council would consider making these accessible outwith the council area such as accessing payslips.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18139	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Has this saving been costed accurately? I would have thought an online customer transaction would result in a substantial staff resource saving. Perhaps the Council can learn from organisations like DWP who are much further developed in these type of transformations.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18140	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Channel shift unfortunately means that service users who are already disadvantaged will find it harder to access services. If you don't have internet access or have low IT skills for instance.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18141	An individual	3a. Channel Shift and Digital Transformation	Making everything online may isolate people with no access to internet or the ability skills to use it	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18142	No Response	3a. Channel Shift and Digital Transformation	Personally I prefer booking online or seeking information, far quicker than phoning	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18143	An individual	3a. Channel Shift and Digital Transformation	Again target the poorest who don't have access to "digital" solutions	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18144	An individual	3a. Channel Shift and Digital Transformation	I agree that more services should be available online but you need to ensure that the support is also available face-to-face for those that cannot use or are not confident in using the online services.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18145	No Response	3a. Channel Shift and Digital Transformation	Disagree. Not everyone has access to online services or have support to do so.. as you have reduced hours libraries operate and some folk are not it literate.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18146	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Our online facilities are not up to date, for all services, not managed enough and not efficient.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18147	An individual	3a. Channel Shift and Digital Transformation	Cash facilities are still required in this case and in central locations.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has developed a number of options for customers to pay for council services. This includes online, by direct debit, by phone, or in person.
18148	An individual	3a. Channel Shift and Digital Transformation	Technology is the way of the world now but doesn't suit our ever growing elderly population	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18149	An individual	3a. Channel Shift and Digital Transformation	In principal this would make sense, but realistically how quickly can you introduce these solutions? Other Councils have stated similar proposals and have been beset with a series of IT failures and delays. How can you learn from their mistakes and ensure that your internal IT staff and any chosen partners are capable of delivering such an ambitious proposal. Could you outsource this to a supplier on a fixed price, or no delivery, no pay basis? Can this truly be delivered within the required timeframe?	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18150	An individual	3a. Channel Shift and Digital Transformation	How will you assure digital access for those without internet connections or a lack of experience in digital platforms	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to make computers available to the public in a wide range of locations
18151	An individual	3a. Channel Shift and Digital Transformation	If software is good and customers shown how to use then great. Many people waste app at doctors/ hope etc as they just need advice however any digital service tool needs full user trials in 'real time'	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18152	An individual	3a. Channel Shift and Digital Transformation	not everybody online, maybe more accessible places to get online, not just the library	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18153	An individual	3a. Channel Shift and Digital Transformation	As long as the on-line instruction does not confuse the person trying to complete it, would still require some one on hand for some people to complete	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18154	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I have been registering my favour in this kind of system for years in my previous home county of Fife. In my opinion, where possible of course, all services should be accessed digitally to begin with. This will allow the council to target face-to-face services only at those who really need them, thus saving time and money. I am aware that not all people will have digital access (either through a skills gap or through not owning the technology) so based on my solution, I would still recommend keeping a 'traditional' service in larger communities so that access is still available.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18155	An individual	3a. Channel Shift and Digital Transformation	This I agree with, as more and more people are unable to access council services during working hours an alternative is needed.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

18156	An individual	3a. Channel Shift and Digital Transformation	If technology is going to be used to supplement this then it needs to be well maintained , up-to-date, fit for purpose and secure. Sufficient expertise for the digital era needs to be sought and maintained	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18157	An individual	3a. Channel Shift and Digital Transformation	The tenants self service portal is shockingly bad and unreliable. The council should invest in a purpose built self service site, allowing tenants and other service users to do as much as possible online and reduce the need for contact with staff.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18158	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Great for younger people but for the elderly „this would be difficult as they don't all have or don't want to use digital equipment or online services. Elderly people still need support.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18159	No Response	3a. Channel Shift and Digital Transformation	Basically once again less staff and less opportunity for the public to actually speak to the people they need to speak to.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18160	An individual	3a. Channel Shift and Digital Transformation	More direct online services could be accessed ,, modernization	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18161	No Response	3a. Channel Shift and Digital Transformation	I agree that people are more likely to use technology to access council services, but not everyone has the required technology or the skills to use it, but where that could be provided in libraries for example, I agree that this should be explored	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18162	An individual	3a. Channel Shift and Digital Transformation	I'm all for digital transformation as long as all citizen will be able to get support/workshop which will help them understand how it works.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18163	An individual	3a. Channel Shift and Digital Transformation	Having worked on digital projects within the civil service this is fraught with risks most around spiralling costs and manual contingencies as full digital services timelines can't be met . Council services are accessed mostly by the vulnerable who need human contact. Money will be wasted but won't be publicised as it will come from a budget no one understands. Savings i.e. staff cuts will be made that will not cover the costs of digitisation but will reduce help to the vulnerable.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18164	An individual	3a. Channel Shift and Digital Transformation	More digital, emailing services, online forms will be a benefit. Communicating through social media about events, services etc.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18165	An individual	3a. Channel Shift and Digital Transformation	Completely unachievable until you are prepared to move away from services and service budgets and focus on centralisation of provision around the customer.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18166	An individual	3a. Channel Shift and Digital Transformation	no objections, provided that digital solutions do not introduce a risk of cost over runs.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	All projects will be managed using the councils approved project management methodology
18167	An individual	3a. Channel Shift and Digital Transformation	In theory, fine, as long as vulnerable people who cannot access online services aren't left out.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18168	An individual	3a. Channel Shift and Digital Transformation	The means of accessing services needs to take into account the difficulties that some people, particularly the very elderly, may have in using technology.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18169	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This should have happened a long time ago. All doctors surgeries should have electronic prescription ordering services.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18170	An individual	3a. Channel Shift and Digital Transformation	Can foresee a lot of training required for staff to be fully competent at delivering digital services.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy

18171	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Total waste of money. Forcing people to do the work for you is all that this means. As already see with the new "Cash Machine" replacing the cash offices. Total disaster and will cost even more money in the long run.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Payment kiosks have been placed in a range of locations and are being used by a wide variety of customers.
18172	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Digital can make savings but it is important to remember that not everyone has access to or are able to use digital solutions.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18173	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I agree with this although some people struggle with technology especially older more vulnerable people who would need support to access it.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18174	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The self service solutions need to actually work. The cash kiosks are an on-going problem and the number of man hours spend trying to fix the systems, getting them to work and supporting the customers to use it is large.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Payment kiosks have been placed in a range of locations and are being used by a wide variety of customers.
18175	An individual	3a. Channel Shift and Digital Transformation	Perhaps digital options could be considered to allow people to self-refer for social work assessment or to complete a short self-assessment online for some services eg basic equipment or equally to identify when someone is not eligible or is looking for something which is not provided by the council. Perhaps at point of contact/referral staff are able promote a self-service or signposting solution where possible to meet low level needs or where other options such as voluntary organisations or community resources should be considered first. Change to how we receive referrals and how we provide information to the public at this point could reduce workload, perhaps also allowing contact/referral to provide a more extensive service and support to the practice teams, dealing with short term work or urgent cases at point of referral.	Channel shift & digital transformation - online and self service	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18176	An individual	3a. Channel Shift and Digital Transformation	I support online info and service delivery but do watch out of the gaps. As noted in section 2 you do need to think about how to deliver statutory advice and guidance to those who are not IT literate and may never be; or may have lost access to mobiles phones etc due to physical, cognitive or financial reasons. .	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18177	An individual	3a. Channel Shift and Digital Transformation	Central booking for all user groups voluntary, sports and council for centrally used buildings. They belong to the community after all but maximise use.	Channel shift & digital transformation - online and self service	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18178	No Response	3a. Channel Shift and Digital Transformation	Council website will have to be more user friendly and easier to navigate if this proposal is to work	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18179	An individual	3a. Channel Shift and Digital Transformation	I do believe that online services are the future but they must be implemented properly.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18180	An individual	3a. Channel Shift and Digital Transformation	Sounds reasonable, however not everyone has the capability to access electronic services. Any services offered digitally must be easy to use and understand, so great care needed when setting this up.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18181	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Needs to be accessible to the elderly and vulnerable as we may miss an early intervention opportunity which then escalates.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18182	An individual	3a. Channel Shift and Digital Transformation	Very many people including some young are terrible with technology. In my experience of working with the tax man (who has cut services and its all online) the customers are all struggling with the new online based services and they receive constant complaints. May sound good on paper but will cause nothing but complaints.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18183	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Online services/channel shift are only successful if the forms link to back end software where staff are NOT required to re enter data. A corporate database used by all services could eliminate reproduction or data and ensure accuracy.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised

Transforming Your Council Consultation 2017

18184	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Although this is a logical and modern way of accessing services the council must be careful not to alienate individuals or groups who can't or don't want to access services in this way. The systems in place must also be compatible with the changes to avoid extra costs at the back end in administration	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18185	An individual	3a. Channel Shift and Digital Transformation	This sort of approach has proved a disaster in relation to Universal Credit. People need to deal with people, not inflexible and flaky online systems. And what if you don't have online access?	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18186	An individual	3a. Channel Shift and Digital Transformation	Making everything digital has a devastating effect on those who are not digitally included, excluding those already in disadvantaged circumstances.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18187	No Response	3a. Channel Shift and Digital Transformation	More and more people are becoming technologically aware and more comfortable with accessing services online. This makes sense and should work provided that facilities are available in same number of venues although perhaps not the traditional ones ie libraries, supermarkets, community centres. There does need to be an option available for people who are unable to use digital services.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18188	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Digital solutions don't work for every client. Aware that libraries give access to internet but older people don't feel comfortable working with digital software.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18189	An individual	3a. Channel Shift and Digital Transformation	Not everyone has access to online self services = who helps the vulnerable now with all these closures and no staff	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18190	An individual	3a. Channel Shift and Digital Transformation	Will all elderly customers be able to go online?	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18191	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The council needs to make the public very aware that these services can be accessed online as most people have never been on the council website before.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18192	An individual	3a. Channel Shift and Digital Transformation	This will only work if your website is improved to make information easier to find.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18193	An individual	3a. Channel Shift and Digital Transformation	Digital inclusion is not the answer for many. Although it is often thought to be cost effective - this is not always the case.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18194	An individual	3a. Channel Shift and Digital Transformation	Prefer face to face council employees and not online services	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18195	An individual	3a. Channel Shift and Digital Transformation	More online and self service solutions is a good idea	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18196	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Although many people like to use online and self service solutions WLC must ensure that the IT systems in place support these proposals or this could end up being a cost rather than saving. There is also a chance that customers could feel alienated by these changes	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18197	No Response	3a. Channel Shift and Digital Transformation	Nothing worse than automated services for good customer relations.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

18198	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I understand the saving here but some people do like to interact with humans and find internet very impersonal and threatening. Again when internet goes down - no service.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18199	An individual	3a. Channel Shift and Digital Transformation	People don't want all the self service that is being introduced. Not all people are computer literate and will find it frustrating. They will take out their frustrations on the few Council staff that will be left. I don't think the council are being realistic in this cost cutting exercise	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18200	An individual	3a. Channel Shift and Digital Transformation	I agree, most people prefer to do things online. My mum and gran struggle with technology but I help them and I believe most people have someone that could help them	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18201	An individual	3a. Channel Shift and Digital Transformation	More information is needed. People using your services are usually at the end of their tether, they don't want to go on line and fill in form, they don't want to wait in a queue to be answered and they don't want to have to constantly redial the telephone number, they want to speak to someone at that moment they are reaching out for support, someone who understands and can help. So going digital may solve your problems but it is just another way of fudging figures as people will not constantly try to get in touch, sooner or later enough is enough.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18202	An individual	3a. Channel Shift and Digital Transformation	High scope here to provide a better, more effective comms / self service channels.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18203	An individual	3a. Channel Shift and Digital Transformation	Self service functions may not suit the elder residents although agree it is the most cost effective way to operate.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18204	An individual	3a. Channel Shift and Digital Transformation	Agreed as not all people have a PC or access to online services or able to use a PC and WLC having this service would be beneficial	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18205	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	While using digital means to assist with service provision is a good thing, there are still a large number of people who don't have access to online services, have no desire to have access or don't know how to use it. Not everyone can get to a library to access the internet therefore services still need to be offered by other means.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18206	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Due to the nature of work carried out over all teams in the revenues unit, we naturally have a lot of different application forms. Consideration should be given to pulling applications into one form for all types of financial assistance.	Channel shift & digital transformation - online and self service	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18207	An individual	3a. Channel Shift and Digital Transformation	Integrate applications for different things onto one online form. The Scottish Welfare fund have had success with this with community care grants	Channel shift & digital transformation - online and self service	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18208	An individual	3a. Channel Shift and Digital Transformation	Online and self-service solutions are great options for the more tech savvy members of the public. However, there are large numbers of people who are not comfortable or knowledgeable with these options or do not have access to computers or the internet. The elderly especially would rather speak to someone in person about the issues they have so it is still important that this option is still available.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18209	An individual	3a. Channel Shift and Digital Transformation	Please accept that lots of older people are not able to cope with online and self-service solutions. They still like to do things face to face with a human - not a machine.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18210	No Response	3a. Channel Shift and Digital Transformation	Whilst I appreciate technology is the way forward, the Council has to take into consideration its ageing population. My parents are in their early 80s and would struggle to be reliant on only online services.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18211	An individual	3a. Channel Shift and Digital Transformation	Happy to see user friendly digital solutions, but also need face-face/phone support for those less able to use technology.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18212	An individual	3a. Channel Shift and Digital Transformation	Good idea. More online and self service solutions should be put in place as soon as possible as most people have access to the internet these days.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18213	No Response	3a. Channel Shift and Digital Transformation	Better to supply all information and application forms online to make it easier to apply for things	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18214	An individual	3a. Channel Shift and Digital Transformation	More online services would be welcome. Need to make it more user friendly.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18215	An individual	3a. Channel Shift and Digital Transformation	Requires better eforms regards council tax, paying bills. Every resident should have an easy accessible account which allows them details on their bill collection dates, council tax bills, rent, etc. Previously lived in COE and this facility was excellent and when moved through to West Lothian felt I had gone back to the dark ages.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18216	An individual	3a. Channel Shift and Digital Transformation	So, does that mean there will be more self-service services? As I believe that getting help from an actual person would be far more helpful than getting help from a computer program.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18217	No Response	3a. Channel Shift and Digital Transformation	As much as possible should be available online. More and more people are using this portal as their primary choice for fact-seeking and contact. If bills are easier to pay then more people might actually pay them.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18218	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	A more on-line service, this would not help everyone, especially the elderly as a lot of older residents in West Lothian will have no access to the Internet.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18219	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Introduce online presence for as many areas of the council as possible for residents. This could include provision of advice and payment of bills.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18220	An individual	3a. Channel Shift and Digital Transformation	Are digital services really more efficient or just result in less paper. How are cost reductions calculated?	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18221	No Response	3a. Channel Shift and Digital Transformation	Many companies and services are changing the methods by which people access services. West Lothian Council are no different and should keep up with technological advances to reduce staffing costs where possible and allow staff to do more in their jobs.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18222	No Response	3a. Channel Shift and Digital Transformation	I understand what this is all about but dont know how too word this as my own thoughts a find putting in words is very difficult all a can say as us all as a community we all need too work together. Not everyone is able to use or indeed has a computer or even able to afford one so making things more digital and removing face to face staff is in my opinion a bad idea.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18223	An individual	3a. Channel Shift and Digital Transformation	Online services are more desirable.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18224	An individual	3a. Channel Shift and Digital Transformation	In comparison to other nearby authorities e.g. Edinburgh and East Lothian, West Lothian appear to be behind with regards to having the systems developed to enable an authority wide online booking system for after school clubs, facilities, school dinners etc.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18225	An individual	3a. Channel Shift and Digital Transformation	more online access to service	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18226	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Good - but allow those who have no access online, or who do not have the skills to be supported to do this - how will this be done? Library staff are already under pressure!!	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18227	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Whilst the council are behind in many services in terms of delivering digital channels and solutions, it must be remembered that the most vulnerable will still need support. It is the few in West Lothian who often take up the most council resources over a range of services. However those that can should be encouraged to use online resources but these must be fit for purpose, e.g. how many tenants are actively using the tenant portal/ what did it cost to bring this in.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18228	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	more online interaction and services with call centre just for emergency's	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18229	An individual	3a. Channel Shift and Digital Transformation	If this means online communications rather than phone-call enquiries, what about those who have not got the facilities or faculties for this communication ?	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18230	No Response	3a. Channel Shift and Digital Transformation	What support will there be for people who cannot access online or self-service provision? Libraries and other council facilities have already closed or reduced their hours of operation. Not everyone has access to online facilities in their home. Who will help those individuals who are unable to access these types of provision and who need an actual human being to support them?	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18231	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	My only concern with this is that some people aren't comfortable using computers and they may miss out on services or be able to access these services.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18232	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Please do not forget our elderly, illiterate, the poor and without devices, mentally ill, disabled, unemployed, non-engaging customers: we see them every day and they struggle with life let alone technology and being self sufficient.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18233	An individual	3a. Channel Shift and Digital Transformation	Online services can be great if done properly however some people are not comfortable with computer and some website can be confusing so the option to speak to another human being should always be available. Not an automated phone services but a real human being.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18234	An individual	3a. Channel Shift and Digital Transformation	Invest more in digital communications to support changes to services. Further develop your website and social media to better communicate with residents would be relatively cheap and save money down the line.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18235	An individual	3a. Channel Shift and Digital Transformation	How can all customers access services digitally. Elderly and those with mental health issues may find themselves excluded.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18236	An individual	3a. Channel Shift and Digital Transformation	sounds good just keep some real people to speak to on phones for older people	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18237	An individual	3a. Channel Shift and Digital Transformation	IT solutions can be extremely costly if not managed and designed well. Try to maintain existing infrastructure and enhance with an online service if you can. Don't assume that transformation means greenfield IT development	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18238	An individual	3a. Channel Shift and Digital Transformation	I agree completely with increasing digital, self-service systems. They must be well designed. Much of the current online services are very poor.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18239	An individual	3a. Channel Shift and Digital Transformation	This could be effective as means info and advice can be daughter out of hours when needed as opposed to waiting until open. Sometimes if someone is afraid to query then digital aids this as they can still search	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18240	An individual	3a. Channel Shift and Digital Transformation	3a Great, new technological improvements but this relies upon all your customers having the access to technology at home. Many elderly people can not access this and find it difficult to understand.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18241	An individual	3a. Channel Shift and Digital Transformation	Agree, but there must be provision for those in the elderly category who do not do "online".	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18242	An individual	3a. Channel Shift and Digital Transformation	Are a lot of your customers elderly and have little digital/online experience? This assumes that customers have computer/tablet or have someone who could access for them-not always the case.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18243	An individual	3a. Channel Shift and Digital Transformation	You should not be introducing a digital by choice as this ethos as this would discriminate against persons without access to a computer, such as many of your elderly residents. This appears to already be happening by stealth as I have no recollection of receiving any correspondence from you by post inviting me to take part in this consultation. I only recently learnt about the consultation via the letters page in my local newspaper.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18244	No Response	3a. Channel Shift and Digital Transformation	Increasing efficiency is good, but I suspect scope for efficiency savings is less after previous cuts. Any action to digitise customer services should consider the needs of people who are not able or willing to engage, e.g. some older people.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18245	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Many services could be carried out online; these could even include Skype/Online meetings/interviews to reduce travel costs. If members of the community do not have access to webcam/internet at home, specialist, private areas could be set up in local libraries/community centres.	Channel shift & digital transformation - online and self service	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council use to have such a facility called Teletalk, however customers were reluctant to use it and ultimately it was scrapped.
18246	An individual	3a. Channel Shift and Digital Transformation	Does this imply more of - press 1 to 6 then a number of choices 1 to 5 etc. This may suit the council but not the customer.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18247	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	I recognise the cost efficiency of self service systems, however, we need to ensure those most vulnerable in our communities still require person centred support.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18248	An individual	3a. Channel Shift and Digital Transformation	Apps are the way forward as smartphones take over .. web based services are to cumbersome and require a PC or Laptop ... phones are in everyone pocket and more accessible	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18249	An individual	3a. Channel Shift and Digital Transformation	I fully support greater use of online and digital services as long as such services are available to all (I know of elderly who do not have access to computer technology) and that they are easily accessible and pathways to such services are well documented and advertised.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18250	An individual	3a. Channel Shift and Digital Transformation	Digital services are all very good for those who are IT literate and have immediate access to the technology. This method of communication and accessing services must not be to the detriment of those who prefer to speak to someone or write a letter.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18251	An individual	3a. Channel Shift and Digital Transformation	I believe there is probably even more savings to be made here than already proposed. My experience is both a Board member of local organisations receiving funding to provide essential services, and as a carer for a disabled person who has had very little from the Council despite high level of disability and care needs. In both my experience is of inefficient systems and needless levels of bureaucracy that will be wasting a large amount of resources, and I believe this should be addressed rather than cuts to services that are proposed later in the consultation.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18252	No Response	3a. Channel Shift and Digital Transformation	Also instead of getting machines in - that cost loads and hardly work - which are obviously meant to replace staff in the long run (payment kiosks) why don't you just keep two central cash offices that people can pay money in and put out an advertising campaign about Direct Debits and Standing Orders in buildings that do not have a cash office. There's a great way to save money instead of cutting staff and cutting overtime.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Payment kiosks have been placed in a range of locations and are being used by a wide variety of customers.
18253	An individual	3a. Channel Shift and Digital Transformation	I agree that all opportunities should be considered to try and deliver services in an increasingly online environment.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18254	An individual	3a. Channel Shift and Digital Transformation	Online services would be advantageous to the majority of people within West Lothian, but could also provide difficult for those on low incomes with no internet access or older people who cannot manage technology.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18255	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	On line and self service options are helpful and usually get a quicker response Guidance/training for staff would make these work more efficiently	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18256	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Remember not everyone is IT brilliant so care must be taken to at least provide some basic contact for those.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18257	An individual	3a. Channel Shift and Digital Transformation	Good idea, provided online services are easy to access and user-friendly.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18258	An individual	3a. Channel Shift and Digital Transformation	I agree with this as long as it doesn't remove the public's ability to speak to a staff member either in person or on the phone. There are still many families in West Lothian that do not have regular internet access at home.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18259	An individual	3a. Channel Shift and Digital Transformation	yeah the digital route is better going forward also the use of web chats would save costs as a member of staff can only deal with 1 phone call but they could manage up to 5 chats at 1 time	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18260	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Within collections (revenues) we are front line in that customers can call us to answer queries. I feel a lot of these calls could be minimised by creating a self service portal (similar to online banking) where customers can log in and view their balances, discounts etc. This would therefore reduce a lot of the calls we receive which would free up more time to process other work. We could maybe create an app for West Lothian Council to make it easy for people to contact us to notify us of changes or make the website mobile friendly. I also think where possible we could create more comprehensive forms that can be shared with various departments to save customers contacting various departments and stops information being lost between departments. This would also assist in keeping customer records up to date which would help us at collections collect any balances due by residents.	Channel shift & digital transformation - online and self service	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18261	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Due to the nature of work carried out over all teams within the Revenues unit, we naturally have a lot of different application forms. Linked in with suggestions mentioned in 3c, consideration should be given to pulling applications into one form for all types of financial assistance. Think about what can be claimed on line without the need for manual intervention ie CCG&€™s.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18262	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Due to the nature of the work carried out over all teams with the Revenues Unit, we naturally have a lot of different application forms. Consideration should be given to pulling applications into one form for all types of financial assistance.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18263	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Online self service can provide huge benefits to customers and in turn efficiencies for the council. It is important proper resource continues to be invested in online services to allow progress in this area and going forward as technology and customer expectations evolve.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18264	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Customers and staff should be given input into the structure of any digital form or application as often there are scenarios that have not been considered by the developers	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18265	An individual	3a. Channel Shift and Digital Transformation	I support increasing digitization / rationalisation of CIS and library	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18266	An individual	3a. Channel Shift and Digital Transformation	Good. Make the IT work! Well designed digital services, backed up by good support, can improve services and also produce savings.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis

Transforming Your Council Consultation 2017

18267	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	On-line applications can be successful if the application form and process is fit for purposes - it can make the processes quicker and more successful. Within benefits we already use an on-line application for Housing Benefit and Council Tax Reduction.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18268	An individual	3a. Channel Shift and Digital Transformation	As long as these digital services are easy to access.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18269	An individual	3a. Channel Shift and Digital Transformation	It should be digital by default. Paper only if specifically asked for. Look at how Edinburgh Council uses the internet for its residents/customers to access services. It's street/lights/roads reporting section is particularly accessible and easy to use (unlike the equivalent WLC site)	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18270	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	although an online service is great & convenient we still require face to face facilities for people who either don't have access or are unable to complete online enquiries. also an online application form that covers all aspects of a department would be more cost effective	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18271	An individual	3a. Channel Shift and Digital Transformation	Technology is a wonderful thing but not everyone wishes to use it and I think it is important that services still provide a face to face service where possible as a choice as not being able to speak with someone in person is often frustrating. Sometimes service delivery goes too far in eliminating the human element and not providing choice. Not everyone can use the internet or access it.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18272	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I do agree that workload can be streamlined by the use of online forms however a staff member still needs action the complete form.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	Further development is required for some of the systems that we seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18273	No Response	3a. Channel Shift and Digital Transformation	Digital solutions are not suitable for access by older people who need to speak to a human being. often don't own a computer or do not have the skills to use one.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18274	An individual	3a. Channel Shift and Digital Transformation	Sounds logical, but are the people who will be accessing this new technology IT savvy? I ask this as the computer system that records one's entry to the local health clinic is very seldom used.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18275	An individual	3a. Channel Shift and Digital Transformation	Digital may be the future, but it is not yet accessible to all. Many residents still rely on face to face contact and interactions when accessing support or engaging with the council. This is important, especially considering the growing population of elderly residents. How will these residents access digitised council services?	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18276	An individual	3a. Channel Shift and Digital Transformation	I agree with more online applications etc but some customer still require help and support to complete forms and use IT. Some older customers will also not use computers/internet. Customers still have a choice. The number of computers with access to the internet needs to be increased across WLC.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18277	An individual	3a. Channel Shift and Digital Transformation	B) Increase in and adapting current automated / online services thus reducing manpower.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18278	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	It is fine to be online but what about those in the community who don't have access to a computer. It is already difficult to gain access to some services, these cuts may make it impossible!	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18279	No Response	3a. Channel Shift and Digital Transformation	Although I understand this is necessary I think the council need to hear in mind that not everyone can deal with technology - online is great at times but on other occasions you actually need to speak to someone. I think there needs to be a balance. OK for the younger generations but not necessarily for the elderly or those with disabilities.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18280	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Many of our vulnerable people who need services will be elderly people who may not find a 'whiz' interactive web based help centre very accessible.	Channel shift & digital transformation - online and self service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18281	An individual	3a. Channel Shift and Digital Transformation	Make library service digital only.	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis

Transforming Your Council Consultation 2017

18282	An individual	3a. Channel Shift and Digital Transformation	1. Focus on digital transformation of services	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18283	No Response	3a. Channel Shift and Digital Transformation	The council should seek to remove payment options with higher costs to administer (or pass these costs on to the client).	Channel shift & digital transformation - online and self service	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18284	An individual	3a. Channel Shift and Digital Transformation	The council has been too slow in the adoption of new IT systems and mobile working and needs to review their current deployment and fast track these initiatives ASAP.	Channel shift & digital transformation (general)	4. The council is already doing this.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18285	An individual	3a. Channel Shift and Digital Transformation	WLC should also integrate back office systems with Love Clean Streets software and join the "Smart Cities" agenda.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18286	An individual	3a. Channel Shift and Digital Transformation	I agree with a digital customer interface.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18287	An individual	3a. Channel Shift and Digital Transformation	This is a positive area for all teams and should be explored further. Why do we still offer customers the same level of service to phone the Contact Centre? No other private company does.	Channel shift & digital transformation (general)	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18288	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	despite the notion of reducing helplessness there is a fine line	Channel shift & digital transformation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is not clear what the respondent is referring to
18289	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is a key requirement of the future. Significant digital development is required.	Channel shift & digital transformation (general)	4. The council is already doing this.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18290	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	As a council employee who works very closely with families, there is a push for us to email. At the moment this is not allowed due to the security of the system. (this is what we are getting told). As time moves on more and more people are using email communication and as a council we need to be able to keep up with this demand.	Channel shift & digital transformation (general)	4. The council is already doing this.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18291	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	These systems have to be effective and adaptable to work properly, if not they increase the burden and pressure on staff. In addition they take too long to introduce.	Channel shift & digital transformation (general)	4. The council is already doing this.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18292	An individual	3a. Channel Shift and Digital Transformation	You do realise that not everyone is computer literate don't you?	Channel shift & digital transformation (general)	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18293	An individual	3a. Channel Shift and Digital Transformation	As long as jobs not lost	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Digital transformation will change the focus and type of work that staff undertake.
18294	No Response	3a. Channel Shift and Digital Transformation	Impersonal service & not always the best option. I believe this still leads to phone calls in most cases. Also the security & thought regarding data disposal etc all add to costs. A lot of times, technology leads to uncertainty & phone calls anyway. This can even be down to network uncertainty.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18295	An individual	3a. Channel Shift and Digital Transformation	Agree more investment in IT solutions	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18296	An individual	3a. Channel Shift and Digital Transformation	Not everyone has access to digital devices - how will this group be serviced?	Channel shift & digital transformation (general)	4. The council is already doing this.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18297	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The Council must continue to ensure there are professional, trained and valued members of staff behind the technology. A web form, web page of information, or a few links to other agencies is not a replacement for a competent person.	Channel shift & digital transformation (general)	4. The council is already doing this.	The council will continue to employ professional staff to deliver services to those that need them

18298	An individual	3a. Channel Shift and Digital Transformation	Council workers hours is not always accesable for working tennants the online tools are great and if you do need to speak to someone you can call if needed i do most of my things online now pay my remt request an engineer etc its so brilliant the times have changed and this is part of it	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18299	An individual	3a. Channel Shift and Digital Transformation	Totally agree with this. This is the future and as long as access is still promoted at libraries etc. to those who do not have to computers; this is the way forward for the council.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18300	An individual	3a. Channel Shift and Digital Transformation	The above paragraph is just appalling jargon - was this produced by a machine? - Plain English please.	Channel shift & digital transformation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The text for the consultation document was developed by council officers. The council always try to make any communication as easy to understand as possible
18301	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	makes sense, however it will be difficult for many customers in certain areas where illiteracy is high	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18302	An individual	3a. Channel Shift and Digital Transformation	Digital solutions are not suitable for all- digital solutions in some cases will by their nature exclude the most vulnerable/ disadvantaged in society- who are in fact the section of the council population who most need easy access to services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18303	An individual	3a. Channel Shift and Digital Transformation	It would have been helpful to know what savings previous channel shift initiatives had generated.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Through the Delivering better Outcomes Programme the council achieved over £300k of savings through channel shift
18304	An individual	3a. Channel Shift and Digital Transformation	You have to remember to be inclusive of people with disabilities that have difficulty in using technology for a variety of reasons.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18305	An individual	3a. Channel Shift and Digital Transformation	Definitely important to update digital systems..	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18306	An individual	3a. Channel Shift and Digital Transformation	Great but I'm not sure the council is prepared for this.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18307	An individual	3a. Channel Shift and Digital Transformation	We should not have a start and stop programme to channel shift, it should be an ongoing process whereby all major customer transactions are regularly assessed and information and processes are moved to digital channels if not already there, ensuring these channels are the easiest way for customers to resolve their query and that they are intuitive. As and when new query types arise, again information should be moved digitally.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18308	An individual	3a. Channel Shift and Digital Transformation	Officers should regularly test all digital channels themselves posing as customers and have the IT flexibility to fix problems rapidly. There should be a uniform software and design format across digital transactions and digital solutions should not be designed in isolation by services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18309	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree but this is difficult to achieve without investment. Tough choices are required to make sure that the council provides customers with what they want. Not what we think customers want.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18310	An individual	3a. Channel Shift and Digital Transformation	What happens to residents who do not want or cannot access a "digital by choice ethos"?	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18311	An individual	3a. Channel Shift and Digital Transformation	Agree as long as this work is carried out a pace that brings along those in the community that are not IT or digitally savy. Sometimes it is good to speak to a person face to face and not to a machine. I am only lucky that I have a family which sorts all my IT needs out.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18312	An individual	3a. Channel Shift and Digital Transformation	as long as people who don't have digital access are not left behind	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18313	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	not everyone is able to access computers so online solutions are not always the way forward.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18314	An individual	3a. Channel Shift and Digital Transformation	Just remember that it is important that there are also front line staff to help with those with difficulties accessing electronic data.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18315	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	It more joined up IT system were available to staff and the IT systems more responsive then possible savings could be made in staff time.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18316	An individual	3a. Channel Shift and Digital Transformation	Agreed that digital by choice should be the default rather than trying to design services around those who do not wish to access digital services. Other public organisations have managed to achieve significant changes in service delivery by these means - eg DVLA.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18317	An individual	3a. Channel Shift and Digital Transformation	Most people have mobile laptop or computer a lot of council requests should be moved to digital i.e pupil placement applications , bulky uplift request , hardship request all initial applications can be done 24 hrs day online and although not everyone has access to Internet we should always have people for face to face and calls	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18318	An individual	3a. Channel Shift and Digital Transformation	not everyone on line	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18319	An individual	3a. Channel Shift and Digital Transformation	AS long as this does not disenfranchise our elderly folk any further.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18320	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Brilliant proposal, there is always room for improvement and most customers welcome the option to get things done quicker and more conveniently for them.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18321	An individual	3a. Channel Shift and Digital Transformation	This should have been engaged more than 5 years ago. Good idea but a bit late, we should make more savings on this one but the transformation costs will be very prohibitive now.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18322	An individual	3a. Channel Shift and Digital Transformation	Sounds ok but not everyone able to access the internet or has the skills	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18323	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Sounds like redundancies to me ! Why not say so if this is true !	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18324	An individual	3a. Channel Shift and Digital Transformation	Good idea to have more interactive services and online choices	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18325	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I agree that the council should make every effort to achieve savings through transforming the way in which services are delivered and relying more on technology. I acknowledge that there are people in the community who don't or wont access services digitally but these are likely to be in the minority and will reduce in numbers over the next 5 years. The council shouldn't therefore design services around these people but should of course provide support for the hopefully small numbers of customers who would struggle with a fully digitised service.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

18326	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I support digital solutions to meet demand. I understand not everyone has access to digital methods of interaction, so support must remain for these customers.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18327	An individual	3a. Channel Shift and Digital Transformation	This could work however, for those who are unable to use technology due to illness and or age this could cause an issue. These people therefore do require the face to face contact to enable to assist with this or to gather the information and to complete the form on their behalf. There is also the issue of peoples budget as many people may not have the extra fund to be able to have broadband installed into their house to allow them to have access to services that they were once able to get access to without the extra expense.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18328	No Response	3a. Channel Shift and Digital Transformation	the opening of the tenant self service system online was great, more service like this should be available for service users to access, this would reduce the amount of time people need to call up call centre staff	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18329	An individual	3a. Channel Shift and Digital Transformation	It makes sense that the council should move to a more self-service approach as many other companies have done this- Tesco, ASDA, McDonalds to name a few. The issue with this is the culture of residents who expect a person to deal with them. Part of this project will have to address this issue in educating people to the new way of doing things.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18330	An individual	3a. Channel Shift and Digital Transformation	This should be an ongoing transformation to take full advantage of IT developments.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18331	An individual	3a. Channel Shift and Digital Transformation	Essential to make better use of technology	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18332	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	1 WLC does not have customers - you have citizens/electorate on whose behalf you are employed to deliver a range of public (statutory) services. 2 Channel shift and digital transformation - convince us that this is addressing the socio economic duty and is not further disadvantaging the weak/poor/vulnerable/mentally ill. It does not seem that the public sector has the wit or competence to implement new technologies quickly, efficiently or to apply them effectively.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18333	An individual	3a. Channel Shift and Digital Transformation	People need to gradually come out of this loop. Self-service / AI / Machine learning / chatbots - Council far too slow in adopting new technologies.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18334	An individual	3a. Channel Shift and Digital Transformation	Not every one has access to online services	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18335	An individual	3a. Channel Shift and Digital Transformation	I support the further use of technology and channel shift to deliver services in different ways. I like to do a lot of my business online.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18336	An individual	3a. Channel Shift and Digital Transformation	Support channel shift as I like to do a lot of my business online.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18337	No Response	3a. Channel Shift and Digital Transformation	As mentioned before I would be concerned that systems would not always be available (iPayimpact). I do believe that more and more people use technology and online services. However my concern is for the older population who are not always computer savvy or have access to the internet	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18338	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	There would need to be help for old people and others that are not able to use computers.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18339	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	WLC app is needed.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18340	An individual	3a. Channel Shift and Digital Transformation	In terms of digital options, the council is years behind the private sector. If you wish to pursue digital options, then you need to invest heavily in providing easy to use, accessible systems, apps etc.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18341	An individual	3a. Channel Shift and Digital Transformation	Agreed. Digital transformation should be embraced in all areas.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18342	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	More emphasis and investment is require to move services to digital platforms. A corporate modern vision is required however the Council appear too risk averse to try really modern technologies.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18343	An individual	3a. Channel Shift and Digital Transformation	Everything is digital now and will be even more so with universal credit full service.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18344	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Sounds reasonable. Many of the our most vulnerable service users do not have access to online services however.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18345	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	How long has this been in the planning??	Channel shift & digital transformation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is not clear what the respondent is referring to
18346	An individual	3a. Channel Shift and Digital Transformation	Increasing online access and self-service functions has the potential to improve access as well as provide cost savings.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18347	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Due to the nature of work carried out over all teams within the unit, we naturally have a lot of different application forms. Linked in with suggestions mentioned in 3c, consideration should be given to pulling applications into one form for all types of financial assistance. Think about what can be claimed on line without the need for manual intervention ie CCGâ€™s.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18348	No Response	3a. Channel Shift and Digital Transformation	Embracing new technology will only support a sub-set of our population. We will still need to support this with options for accommodating those affected under the Equalities Act. Technology is not necessarily the answer but may help in streamlining service provision if the proper analysis and, for example, redesign of business processes, is undertaken.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18349	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Using technology to assist in providing services is the way forward	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18350	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I believe an app for WLC services such as council tax payments, pot-hole reporting, etc would be worth investment.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18351	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The last channel shift project was not well implemented. This will need to be better.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18352	An individual	3a. Channel Shift and Digital Transformation	Again what about the elderly who have no access, the areas that connection to internet is diabolical. Seems to be more and more taking away the face-voice to speak to. Will end up as usual with the long delays.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18353	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	It has merits - you can access a website at 10pm but the offices would long be closed if you were planning to phone. The problem is that many of the people most needing access to council services might not have access to the website - the elderly and the poor for example. Many organisation move to the web as their main interface and forget that they are cutting off many of their clientele.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18354	An individual	3a. Channel Shift and Digital Transformation	There must always be a human available to help those with communication and cognitive difficulties navigate the council's systems/services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18355	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The shift to digital services only works if the systems themselves work. HR21, as an example, is not fit for purpose and, while it may save money in terms of printing payslips, costs in the time taken to access, reset passwords etc. The fact that this can only be accessed from a council computer is another barrier to being an efficient system. The move to digital is important and needs to be done correctly.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18356	No Response	3a. Channel Shift and Digital Transformation	Employ someone to assist with delivering The Plain English initiative.	Channel shift & digital transformation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	It is not clear what the respondent is referring to
18357	An individual	3a. Channel Shift and Digital Transformation	An increase in digital technology is always welcome, particularly if it allows people to access information out of office hours. A good example is moving the pre-school applications online - this quickens up the application process considerably for parents and the Council for a great proportion of applications.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18358	An individual	3a. Channel Shift and Digital Transformation	Replacing people with computerised solutions seldom provides a service which adequately addresses customers' needs and incurs the inevitable growth of IT dependency and its associated technical problems with software and hardware as well as the burgeoning security issues.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18359	An individual	3a. Channel Shift and Digital Transformation	Seems sensible, as long as those without digital access are supported too.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18360	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is tge way forward however what happens at times of systems failure and are inaccessible to customers?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18361	An individual	3a. Channel Shift and Digital Transformation	"digital by choice" implies everyone has access to digital services that allow them to make this choice. This is not true	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18362	An individual	3a. Channel Shift and Digital Transformation	Agreed - should consolidate digital services as well - common services across the various channels. This will require investment - how can that be achieved?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18363	An individual	3a. Channel Shift and Digital Transformation	That's OK if you don't build it like your pupil placement system.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18364	An individual	3a. Channel Shift and Digital Transformation	What about an app for smartphones	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18365	An individual	3a. Channel Shift and Digital Transformation	I agree with the proposal to improve the quality and accessibility of customer services in the Council.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18366	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Invest in technology now to benefit our future.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18367	An individual	3a. Channel Shift and Digital Transformation	How will this be more efficient??? what a load of rubbish	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18368	No Response	3a. Channel Shift and Digital Transformation	Even less chance to speak to a person - tick a box, fill in an excessively lengthy and difficult form, send an email that will be responded by an automated service in 48 to 72 hours - none of which are helpful options to anyone at the given time.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18369	An individual	3a. Channel Shift and Digital Transformation	The challenges to be encountered in "channel shift and digital transformation" (3a, 5a and 7b) are vast and will probably take longer than the present council term to implement completely. As an example, Edinburgh City Transformation Plan includes the installation of "Two Gigabit" digital fibre connectivity connections into every school to ensure future proofing and reducing long term costs. Again, in what years is the planned expenditure to be allocated.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised

18370	An individual	3a. Channel Shift and Digital Transformation	It can only be a good thing to embrace technology and update systems to provide quicker and better services	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18371	An individual	3a. Channel Shift and Digital Transformation	The use of technology is always a good thing in my opinion - as long as it does not have a negative impact on employment in the specific area.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to employ professional staff to deliver services to those that need them
18372	An individual	3a. Channel Shift and Digital Transformation	As before remember the generations who are not technology savvy	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18373	An individual	3a. Channel Shift and Digital Transformation	I think A£600,000 is a huge under estimation if a digital transformation is done correctly. Perhaps that's what you spend on paper and ink alone. I'd be interested to see if this includes saving on postage. How much do you spend on stamps/franking/cheque processing? What would you save if you did away with anything that requires a hand written signature? How much space/cost would you save if no paper documents were stored? What resource could be saved if you didn't have to spend time looking for or recovering paper documents? Digital systems for CRM and resource management also need updated. Better use of MS Office 365 amongst staff. Online access to personal records. The NHS sending out a CD at A£10 a time with medical records by registered post is a good example of digital ignorance. The latest devices don't have a CD player.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18374	An individual	3a. Channel Shift and Digital Transformation	A£600,000 looks cheap for such a transformation. Just consider the significant overrun and delay in Universal Credit	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18375	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This assumes that serviced users are IT literate. The most in need are not.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18376	An individual	3a. Channel Shift and Digital Transformation	PC access in libraries etc. will be critical to this including printers	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18377	An individual	3a. Channel Shift and Digital Transformation	Presumably you have allowed for a long introduction period to allow for a very gradual increase in those able (financially or otherwise) to access such channels.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18378	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	There is a lot of duplication between departments when collating information from customers. There should be more availability to access information and use information already provided when assessing customer needs.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18379	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	As long as there are no job cuts and there is not too much of a change that the only way is online I see no problems	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18380	An individual	3a. Channel Shift and Digital Transformation	this is where additional money should be spent (not less), cleverly on the areas which bring the most benefit	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18381	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The technology needs to be invested in for this to be successful. Currently there are various issues with the different software packages that are in use and the experience and staffing within our own I.T Service is not always at a level for resolution which can cause delays and frustration.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18382	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree completely that this is important. The council are at least 5 years behind society in terms of customer service and online activity. However, the customer experience has to be right. Investment in poor quality technology and clunky interface will have a major impact on the councils reputation.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18383	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Better training, delegation, trust and empowerment is required at all levels.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

18384	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This sounds like it could be good if the technology being used is up to date and easy to use. If its not clear and is going to cause more delays/frustration etc for members of society using it, I think this will cause more trouble.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18385	An individual	3a. Channel Shift and Digital Transformation	The best way to communicate is ALWAYS person to person. It can change lives. It can minimise misunderstandings. People matter.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18386	An individual	3a. Channel Shift and Digital Transformation	Not everyone has access to a computer and it's important to ensure that people still have other options to access services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18387	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Any changes that can be made to systems and processes to make the Council more efficient should be the focus of change, particularly reducing administrative processes and duplication of information provision for customers.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18388	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I would imagine that this would be unpopular with most users as it brings me a vision of the mobile phone companies, insurance and others where it is common to hold the line for a long time and to be cut off, uninformed about your status in the queue or sent from one dept to another, and more horrors! This can be very stressful when there is a major concern and especially anxiety provoking for older people. I would imagine that any manned counter would inundated with people waiting to speak to somebody-but I could be wrong!	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18389	An individual	3a. Channel Shift and Digital Transformation	Not all customers have embraced the digital age and do not have access or wish to have access to online services which may make accessing services difficult.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18390	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Not everyone is digitally included this affects the elderly and those living in the most deprived areas the most	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18391	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Depends what service as if it is a service that predominantly used by older people it may not be wise as many of them do not use or have access to a computer.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18392	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The 'digital solution' still may not be accessible for Deaf service users or people with minimal language will struggle to understand how to use technical/ digital system.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18393	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Fine in theory, but for certain groups of customers accessing 'digital' resources ie older customers and those adults with milder degrees learning difficulties without support are being 'excluded' by means of not being able to use or cope with 'digital/computerised' technology.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18394	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Would agreed, however the technology requires to be integrated, a strong and reliable infrastructure and supported 24/07, 365 days per year for this to truly work.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18395	An individual	3a. Channel Shift and Digital Transformation	My experience is that customers already find interacting with the Council a difficult and unsatisfactory experience as things currently stand. So called "channel shift" is not popular and to be contemplating even more is disregarding what customers want. Staff also find it extremely cumbersome and convoluted and time consuming. We really are kidding ourselves if we think this is enhancing customer service.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18396	An individual	3a. Channel Shift and Digital Transformation	as long as the digital service is easy for the older generation to work and not mind bogling	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

18397	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Again in principle this is fine however I am not sure how this will work with our older population who become more sceptical about technology.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18398	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	When I have contacted the council via email in the past I am lucky if I have had a reply. Increased customer service would be vital if this was to go ahead.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18399	An individual	3a. Channel Shift and Digital Transformation	This seems like a good idea but please keep some provision for eg elderly/vulnerable customers to still be able to speak to someone on the phone if necessary. Not everyone is computer literate.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18400	An individual	3a. Channel Shift and Digital Transformation	The difficulties I see with this area is not having suitable systems which talk to each other or that can be custom built to suit multiple services. This means that many services are using many different systems which all have maintenance costs/fees. Could we create a one fits all system? This would not just be a CRM system but you could employ the skills to do this which would reduce duplications, massively create savings and have systems which would be suitable for service to use. I know this is ambitious but I find it scary how much money services pay for systems when most of them are very similar. You could employ some of the best minds in the country to develop and support for half the cost of just now. I also feel that some services are much more willing to changes than others.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18401	An individual	3a. Channel Shift and Digital Transformation	This is a good idea and I believe the council could be much more advanced than they are at the moment. If you look at companies such as sky the communication through apps and other web based tools to so much more advanced. As times move forward even the older generations will be more comfortable with the digital formats and this in turn will reduce isolation and create opportunities for some who would not previously have this.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18402	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The reduced costs would have to be identified. In some instances, the on going management and maintenance of systems is transferred to staff within those service areas, resulting in an impact on the ability of those staff to fulfil their core function. Poor infrastructure or systems issues result in down time where neither staff or the public can access systems, resulting in impacts on core services. New technology as developed by manufactures works well but when programmes are stripped back from tablets for example, the usability of the technology is diminished. The full life cycle of new systems needs considered and potential impacts within services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18403	An individual	3a. Channel Shift and Digital Transformation	Would you still be able to talk to an actual person? Some, especially much older people might not easily access digital services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18404	An individual	3a. Channel Shift and Digital Transformation	Efficiency is important however WLC must be mindful that not all residents are conducive to technology. Plus the technology must work at the moment your digital systems are far from what is desired. They are old and antiquated, items are often lost or misplaced and errors are made. I have first hand experience of this!	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18405	An individual	3a. Channel Shift and Digital Transformation	People want to talk to people. Our older members of society and some younger ones are not digitally savvy.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18406	No Response	3a. Channel Shift and Digital Transformation	This sounds great the citizens who are more technologically able as it's a lot more efficient and preferable to being on hold waiting for staff to answer. However, hopefully this will not further isolate people such as the elderly, those in poverty who do not have access to technology and those who have learning difficulties.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18407	An individual	3a. Channel Shift and Digital Transformation	Good idea but it will be essential to maintain the provision of computers and assistance to use them within the West Lothian Library service. Some elderly people are still not computer literate.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18408	An individual	3a. Channel Shift and Digital Transformation	This must be encouraged but consideration must be given to the elderly population who may not be as capable to deal with new technologies.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18409	No Response	3a. Channel Shift and Digital Transformation	Don't spend a fortune planning this - just do it better	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18410	An individual	3a. Channel Shift and Digital Transformation	To so this you will need to maintain PC access through libraries and community centres as not everyone has a home PC and internet access.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18411	An individual	3a. Channel Shift and Digital Transformation	The move to the digital channel is a good economic move - however provision should be made for those (particularly the elderly) who do not have access to the internet.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18412	An individual	3a. Channel Shift and Digital Transformation	good idea, but people still need to have contact with real people	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18413	No Response	3a. Channel Shift and Digital Transformation	Again a plea to remember our elderly residents are not as IT savi as others.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18414	An individual	3a. Channel Shift and Digital Transformation	The identified saving seem so small - look at what others councils are doing and how much they have achieved in savings! Look what companies like amazon does or sky!	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18415	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Online is definitely the way forward but the support must be there to educate those who are not confident in this media and resources ie pcs readily available and easily accessible. Perhaps a laptop loan scheme for those who can't get to open access areas?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council will continue to make computers available to the public in a wide range of locations
18416	An individual	3a. Channel Shift and Digital Transformation	WLC need to be at the forefront in adopting smart technology as looking at other councils we are dragging our feet here in this area.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18417	No Response	3a. Channel Shift and Digital Transformation	Channel Shift programme should be expedited with focus on more user friendly and inclusive app	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18418	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree as long as the drive for a digital world doesn't leave people left out the loop and without services just because they are not connected!	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18419	An individual	3a. Channel Shift and Digital Transformation	The current council systems are clunky and outdated so I would struggle to see how such a digitally backward authority can achieve savings of the level required on the timescales given.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18420	An individual	3a. Channel Shift and Digital Transformation	please refrain from using Registration Plate technology as it is unnecessary and most annoying.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18421	An individual	3a. Channel Shift and Digital Transformation	Concerned about the possibility of this leading to increased costs rather than savings if the digital solutions are not properly scoped.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18422	An individual	3a. Channel Shift and Digital Transformation	I support this but with the caveat that in all these changes there is some consideration to walking in customers' shoes who cannot work within this environment. This is different to those who refuse to.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18423	An individual	3a. Channel Shift and Digital Transformation	Building on your current good digital solutions is sound but ensure that this is available to all your clients.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18424	An individual	3a. Channel Shift and Digital Transformation	Good luck with this but older people are not so computer literate	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18425	An individual	3a. Channel Shift and Digital Transformation	The technology would have to be easy to access and use by all.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18426	No Response	3a. Channel Shift and Digital Transformation	Digital solutions are fantastic, however you have to be mindful to cater for the population that aren't able to use digital services for one reason or another.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18427	No Response	3a. Channel Shift and Digital Transformation	A good website would be good for customers. I find the present website rather difficult to negotiate. It never seems to answer the question I ask. Deciding which department fits my needs can be challenging	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is continuing to develop its website capability to ensure that it meets the increasing demands from customers
18428	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	OK, so long as individuals and households without access to of capacity to use digital technology are not denied access to services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18429	An individual	3a. Channel Shift and Digital Transformation	This wouldn't work for people like me. People with any autistic traits, are a wee bit scared of technology. This is why I feel a bit behind with society. Books and such like enable me to speak with people, without opening myself up, and attracting the wrong sort of people.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18430	An individual	3a. Channel Shift and Digital Transformation	If this means "no telephone calls" then it is a backward step and services will get worse. Emails and web access are frequently ignored or have an extremely late response. When there is problem a conversation in real time is frequently the most efficient (inn terms of time) way of resolving it. Planning and Building Control services are a good example of this. By creating such delays the problem is compounded not improved.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18431	An individual	3a. Channel Shift and Digital Transformation	Not all households have access to the internet, also older people may struggle with new technologies.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18432	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	most people are not equipped to deal or cope with modern technology and need face to face support and assistance	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18433	An individual	3a. Channel Shift and Digital Transformation	What about those who do not have internet access????	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to make computers available to the public in a wide range of locations
18434	An individual	3a. Channel Shift and Digital Transformation	Automated systems and technology are a cost effective and efficient delivery system to support the community however the option to connect to a real person should always remain. Getting stuck in a system that doesn't answer your question is a most frustrating situation	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18435	An individual	3a. Channel Shift and Digital Transformation	As long as you are still offering traditional methods for those without internet access (such as the elderly and those in poverty) so that there is no discrimination. Fair enough.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18436	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Some IT services have worked well but others are cumbersome and do not save much time-wise.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18437	An individual	3a. Channel Shift and Digital Transformation	This seems a modest estimated saving - why?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The detail of any savings is still to be worked up and potential efficiencies identified.
18438	An individual	3a. Channel Shift and Digital Transformation	What about the people who can't use computers?! And if adult learning is cut, there will be no-one to teach those who need it	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18439	An individual	3a. Channel Shift and Digital Transformation	Attempts at channel shift have failed or been greatly delayed in other councils. Are you learning the lessons of these failures? How quickly can you truly implement these solutions. What penalties will you have for partners and suppliers who fail to deliver what they promise? Money is scarce, so it needs to be spent wisely and protected!	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18440	An individual	3a. Channel Shift and Digital Transformation	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the " efficiency and effectiveness" not been applied to current procedures. No real criteria to be reached is actually stated and the starting point for these " efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve . How will residents know when this is achieved?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The implementation of the Digital Transformation Strategy will be publically reported through the relevant council committees

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18441	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Has the Council put in place a training programme for their employees to give them an insight into the digital forms they are helping their clients to complete.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18442	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The Council like HMRC are pushing through digital technology. There are even many younger people that are not good with technology never mind the older generations. By forcing it all to be digital and losing face to face and phone communication this will cause further issues and complaints.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18443	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is acceptable to those people who have access to the internet, not everyone , and I don't think that it should be assumed that everyone does. Customers should have the option to discuss their problems / etc with a member of staff	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18444	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	It's only a more efficient service if it's set up correctly. Currently we're getting some enquiries that aren't relevant to us, as customers tick the 'wrong' box when submitting their online enquiries.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18445	An individual	3a. Channel Shift and Digital Transformation	Part of the community may be excluded ; those without IT . skills or equipment	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18446	An individual	3a. Channel Shift and Digital Transformation	Most of the savings will come from staff reduction. This can be achieved by stopping doing things, simplifying how they are done, or enabling them e.g. through technology. First two can be achieved by asking "do we need to do all of these processes?"; the last will need a robust business case for any investment, including a plan for realisation of benefits	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18447	An individual	3a. Channel Shift and Digital Transformation	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18448	An individual	3a. Channel Shift and Digital Transformation	Ok, as long as the procurement and implementation of technology are properly planned and managed - potential for cost overruns, delays, disruption here	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18449	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Due to the nature of work carried out over all teams within the unit, we have a lot of different application forms. Linked in with suggestions mentioned in 3c, consideration should be given to pulling applications into one form for all types of financial assistance.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18450	An individual	3a. Channel Shift and Digital Transformation	Access to current services are reduced at the moment. As on previous comments channel shift and digital transformation can be cost effective but not to the detriment of the vulnerable in our society who need extra help in contacting services they need. You cannot visualise body language or see the strain it is causing the vulnerable if they having problems/ or trying to contact services if they either unskilled or have no access to new technology. Personal contact is ALWAYS BETTER.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18451	An individual	3a. Channel Shift and Digital Transformation	Support this proposal as it is a way of life for so many nowadays	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18452	An individual	3a. Channel Shift and Digital Transformation	This appears sensible. Again access must be considered for those not enabled to use technology.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18453	An individual	3a. Channel Shift and Digital Transformation	What about older people who dont have computers?	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18454	An individual	3a. Channel Shift and Digital Transformation	This may be true , but people of the community still need to be able access these services easily , and the council needs to be aware that not everyone has access or familiarity with technology, so there needs to be person to person resources available.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18455	An individual	3a. Channel Shift and Digital Transformation	I feel that services should not just be accessed and available digitally, not everyone has access or technical ability to use these. Also people need to be able to speak to person sometimes.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18456	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Will not work for all sections of society eg those with mental health, or literacy issues or the elderly.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18457	No Response	3a. Channel Shift and Digital Transformation	This needs to be considered with regards to people who do not have a computer or access to one, and especially vulnerable people. So depends on what support function you are referring to that you may be looking at changing	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18458	No Response	3a. Channel Shift and Digital Transformation	Again per previous comments, not everyone has technology/pc's etc to hand, along with you have vulnerable people out the Community who may not be comfortable with technology and using it.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18459	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	I do not see any evidence that senior officers understand channel shift - ipads, laptops and iphones have not reduced papers coming into meetings. Councillors still demand heaps of papers, and staff are not monitored for their use. Why do we have devices that track volumes if we do not pay any attention to the data they provide us with? Walk along any floor in the civic centre or go into any board meeting - you will see waste and the ridiculous scenario of people sitting with both devices and paper. In terms of channel shift, the current culture of presenteeism, throwing things down the CSC route, and 'having an online form' does not indicate channel shift. Moving to mobile working will only be a success if we stop expecting people to show up to 8 meetings a day to talk about things we should be trusting people to work on. So before we demand the customer shifts - surely we should practice what we preach?	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	All options to reduce paper copies of information will be explored
18460	An individual	3a. Channel Shift and Digital Transformation	Would work as long as appointments are kept by both parties.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18461	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	technology is great when it is working, but what happens if these systems fail isn't it the customer who suffers?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18462	An individual	3a. Channel Shift and Digital Transformation	This is ok as far as it goes. However, there should ultimately be someone to speak to face to face.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18463	No Response	3a. Channel Shift and Digital Transformation	Due to my disability (visual impairment/spina bifida/ hydrocephalus) I would need support from staff in order to access and use these services, as I would be unable to use technology without any support.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18464	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Some level of personal contact should be reserved to support elderly people and those with limited access to technology.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18465	An individual	3a. Channel Shift and Digital Transformation	Digital transformation is an effective way of cost cutting and convenient to customers	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18466	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Chanell Shifting is a good idea but not all of our customers can use PCs and phones - this is shown by the number of people using kiosks and needing help - they need help with forms, reporting issues - repairs - some are dyslexic and cannot read or write or deaf/hard of hearing or blind or don't want change - they like coming in and talking to a real person - in CIS the adviser could be the only person that a customer speak to or sees all day. Don't take away face to face.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18467	An individual	3a. Channel Shift and Digital Transformation	A good idea in principle but FAQs, self service solutions etc do not always provide the answer and this type of service can also be prohibitive to the older population who are not digitally able.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18468	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	It is no surprise that the Council is focusing on digitisation of public services as this follows on from the Scottish Governments 2011 report on Digital Strategy and the update made in March 2017, plus the NESTA report on the savings that can be made by digitisation of local government services. For citizens who are comfortable with technology, it will offer huge benefits in accessing Council services, especially as more things can be accomplished when convenient to the citizen rather than relying on council workers being present. However, what is not explained clearly is how the inequality will be reduced for citizens who are not digital able. And there is a concern that further digitisation will lead to greater social exclusion, particularly among the less able, or the elderly. Successful digitisation also relies on a robust and accurate backend / backoffice. I can imagine that many workers will be worried about losing their jobs, particularly if they have up to now relied on paper based, or legacy systems. Will the council consider retraining them? Since the Council is a huge employer in the region, will reducing staff lead to an increase in unemployment? Also, there need to be more usability studies carried out before widespread introduction of systems since recent changes have negatively impacted workers being able to carry out their jobs.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18469	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Revenues/Benefits have a lot of different application forms, consideration should be given to one form, for all types of financial assistance.	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18470	An individual	3a. Channel Shift and Digital Transformation	The increased use of efficient technology is a valuable way to reduce costs. However, there is a presumption that most residents in West Lothian have access to technology and know how to use it.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18471	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	3a I am interested in how much we spend on software licences. Can we team up with other Local Authorities? With so many different systems in the Council, are we making best use of them all, and is there a procedure for checking what we already have before services go about looking for new solutions?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18472	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	How do we ensure equality of access to online service delivery? What exactly is being moved online? How will this result in savings of Â£600k?	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18473	An individual	3a. Channel Shift and Digital Transformation	I understand this but it is essential that the level of service is maintained and that there is always a customer service delivery employee in every partnership centre.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18474	An individual	3a. Channel Shift and Digital Transformation	This option would be harder and perhaps impossible for older people	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18475	An individual	3a. Channel Shift and Digital Transformation	What about older people? West Lothian has one of the highest ageing populations. Many of them are not computer literate. How will they access support digitally.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18476	An individual	3a. Channel Shift and Digital Transformation	Most readers will have no idea what a "transformational change programme" or "digital by choice ethos" means. It sounds as if those unable to use digital technology, eg elderly or those with learning disability, might be indirectly discriminated against.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18477	An individual	3a. Channel Shift and Digital Transformation	I am supportive of services becoming digitalised, however, I would have thought that this would alienate older people who may not use technology and the internet. Therefore, some level of offline support would still be needed.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18478	An individual	3a. Channel Shift and Digital Transformation	Managing customer expectations about access to officers and services is important if direct access is reduced.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

18479	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	nOT EVERYONE HAS ACCESS TO ONLINE FACILITIES SUCH AS THE ELDERLY, VULNERABLE AND HOMELESS	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18480	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Yes. but don't forget the human touch - not all citizens are able to access online services (poverty, disability, age, literacy etc)	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18481	An individual	3a. Channel Shift and Digital Transformation	Please remember that a large number of the most needy people have no direct access to or expertise in using computers.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18482	An individual	3a. Channel Shift and Digital Transformation	my own employer is trying digital and are already well over budget	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis
18483	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Many poorer, older and more vulnerable clients depend on face-to-face contact and find IT off-putting.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18484	An individual	3a. Channel Shift and Digital Transformation	There must ALWAYS be personal contact for the vulnerable and 'computer way' customer	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18485	An individual	3a. Channel Shift and Digital Transformation	Do we really want another faceless service provided. Progress for progress sake is not always an improvement.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18486	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Please bear in mind the venerable people who rely on the Council and who like face to face delivery.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18487	An individual	3a. Channel Shift and Digital Transformation	This is only acceptable if sensitive and accessible help mechanisms are provided. Providers always believe that their systems are great and don't require support mechanisms for users who don't programme computers for a living.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18488	An individual	3a. Channel Shift and Digital Transformation	I feel there is no consideration of those with disabilities. As a visually impaired lady myself I struggle to use technology and would need assistance to undertake any tasks by a member of staff. I would like it clearly set out how those with disabilities would be supported as this is an important issues that needs to be highlighted	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18489	An individual	3a. Channel Shift and Digital Transformation	Again I would like to stress how difficult accessing services digitally/online is difficult for those with disabilities, what would in place for them. Also the elderly would struggle. I feel having human contact/support makes things less stressful.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18490	An individual	3a. Channel Shift and Digital Transformation	No technology can replace a friendly face when you are in need	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18491	An individual	3a. Channel Shift and Digital Transformation	i am assuming that you intend making more use of digital means which can only result in us communicating with machines rather than real people. This does not suit everyone as not everyone has a computer, or if they do, maybe don't have the skills to use it and it is very important not to turn into a faceless society!!	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18492	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	More money needs to be invested in helping mover services and customers over to digital, which could reap savings in the long run.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The detail of any savings is still to be worked up and potential efficiencies identified.
18493	An individual	3a. Channel Shift and Digital Transformation	There are still some people who do not want or trust on line services.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required

18494	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Changes to improve digital support need to be more efficient. The recent Confirm Connect project took too long and is still not being fully completed.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	IT system integration will be a key development within the emerging Digital Transformation Strategy
18495	No Response	3a. Channel Shift and Digital Transformation	I feel there is no consideration of those with disabilities. As a visually impaired lady myself I struggle to use technology and would need assistance to undertake any tasks by a member of staff. I would like it clearly set out how those with disabilities would be supported as this is an important issues that needs to be highlighted.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the Digital Transformation Strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18496	An individual	3a. Channel Shift and Digital Transformation	Good idea but staff would still be required to help people who can not use a computer etc to access these services	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18497	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	1) Provide appropriate IT training for staff: this would reduce amount of calls to IT for support and staff would make better use of technology.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18498	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	So important that we buy technology that actually works and is customer friendly. Needs to be heavily promoted, Appropriate staff training. Appropriate ongoing support from supplier / our IT dept.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18499	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	dont stop bulletin. It is a good newspaper and not everyone goes online.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18500	An individual	3a. Channel Shift and Digital Transformation	Agree but you need to invest ££ in this area or it will not work.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Further development is required for some of the systems that we are seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18501	An individual	3a. Channel Shift and Digital Transformation	Agree there needs to be a shift in how customers access services through on line and self service solutions - digital alternatives need to be robust/flexible to maximise customer take up	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18502	An individual	3a. Channel Shift and Digital Transformation	Over use of technology is becoming a problem as you often don't get to speak with a person. It has it uses but people still like the option of talking to a person	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18503	An individual	3a. Channel Shift and Digital Transformation	this is good but there is a time when the answer will not be satisfactory or be misunderstood. a direct contact in this situation is required.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18504	An individual	3a. Channel Shift and Digital Transformation	We need to ensure that whatever systems we introduce are robust - we have seen recently the impacts of technology failure and the impacts on service delivery, service to customers and frustration to officers. Frontline officers are more than keen to take on channel shift and digital transformation which will help them in thier day to day work.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18505	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The council must ensure an inclusive approach to digital transformation ensuring that access to services does not become dependent on access to technology and digital competency.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18506	An individual	3a. Channel Shift and Digital Transformation	Agree that the technology options should be improved going forward for the IT literate community. Live Chat back messaging using pc/keyboards is good for immediate response without using phones. However, there is still generations that are not familiar with these new technology options and therefore traditional phone service support should be promptly available for these people, for some the phone is there only resource, therefore this service should be maintained to a high availability and user friendly service.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18507	An individual	3a. Channel Shift and Digital Transformation	What about the elderly who don't use online services? Just like this consultation which has a lot in it affecting them they won't be able to access this or future online services. I'm all for digitised services for some things, but if there are no staff sitting behind the interface dealing with requests made online it won't work.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18508	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Agree as long as there is enough support to ensure all are digitally included. This should not place additional barriers on those who already find it difficult to access services	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18509	An individual	3a. Channel Shift and Digital Transformation	Agree with digital support, very quick & efficient. There must be a personal line available for queries that don't fit into the electronic selections given. Also to ensure equity as not all people use technology confidently.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18510	An individual	3a. Channel Shift and Digital Transformation	Digital is fine for a lot of people, but the most vulnerable are likely to be left behind	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18511	An individual	3a. Channel Shift and Digital Transformation	Not everyone has a computer or wants one. How does an 80yr old with dementia access this Digital Transformation!!! Really!!!!!!!!!!!!	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18512	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	How does the Council plan to conquer the digital divide? Younger people can frequently be viewed as digital natives, but the older generation often face access barriers to digital services either through unfamiliarity, over-complexity or physical frailties or incapacities.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18513	An individual	3a. Channel Shift and Digital Transformation	I recall this was in the previous consultation so would be helpful to consider what impact this has had and cash releasing savings have been delivered before a blanket target applied again.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18514	An individual	3a. Channel Shift and Digital Transformation	I can't work a computer & have not intention to start. My daughter is doing this & typing what I say. What would happen if she wasn't here? I wouldn't have any say!!!	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18515	An individual	3a. Channel Shift and Digital Transformation	So does tis mean you are going to give everyone a computer & training?	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18516	An individual	3a. Channel Shift and Digital Transformation	Disagree. Not everyone has it availability and council staff need to be accessible for non it users	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18517	An individual	3a. Channel Shift and Digital Transformation	It should be remembered that there is still a generation older people who do not have access to or are not able to use new technology and their rights to information and help must be recognised and supplied by a method which is user friendly to them	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18518	An individual	3a. Channel Shift and Digital Transformation	The council should provide options for those who do not have digital provision.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18519	An individual	3a. Channel Shift and Digital Transformation	What is really being said here is less need for employees. what is the detail of the proposed measures.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18520	An individual	3a. Channel Shift and Digital Transformation	Why have you been wasting so much of our money up to this point?	Channel shift & digital transformation (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
18521	An individual	3a. Channel Shift and Digital Transformation	With the increasing numbers of elderly people in West Lothian and the likelihood that a high proportion will be unable to cope with digital solutions, surely this would only increase the need for staffing levels to be maintained	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18522	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This is further segregating people who do not want to use digital contact with the council. Many people complain about the call centre and not being able to contact someone directly. However my comments are irrelevant as the council are already looking into this!	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18523	An individual	3a. Channel Shift and Digital Transformation	Anything which would make council more efficient but has to be easily understood by the public.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18524	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	As mentioned in previous sections, when implementing the use of technology careful attention of the ability of vulnerable and equality groups in particular to engage effectively. We would like to see Equality Impact Assessments being integrated to system and service changes which may impact directly with the groups that this covers. We do not believe we have the evidence, knowledge or experience of this area to be able to make a more informed comment on this proposal.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18525	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The expectation of people has been raised with the use of modern technology with people expecting instant answers to non urgent matters. It is great if technology can improve efficiency but there also needs to be a re-education of the public that they may be expecting too much from a finite resource be it in the Council, the NHS or other public services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18526	An individual	3a. Channel Shift and Digital Transformation	Digitisation should be a top priority but there will always be customers who for a variety of reasons, will need person based support.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18527	An individual	3a. Channel Shift and Digital Transformation	Sounds good but as with other answers the council needs to understand the change that is being delivered across the organisation and be very careful as the change is implemented to realise the benefits that need to be achieved. The change needs to be planned and driven through efficiently by staff that understand the need for change and what needs to be done.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18528	An individual	3a. Channel Shift and Digital Transformation	any digital transformation needs to be 100% effective and to be fully tested before implementation. Not all residents have access to, or are able to use, IT/digital resources, how can the council make sure that they are given priority over those who have them/are competent at using them?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Further development is required for some of the systems that we seeking digital solutions for to ensure that we have a complete end to end process for customers who want to use it
18529	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	As the DWP goes online it makes sense that the Council also provides services in this manner. However its also important to maintain support staff to work with vulnerable residents who cannot access services this way as not everyone has the means or money to access online services.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18530	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	Digital technology is the way forward however, not at the expense of the personal touch. Some people prefer and need to talk to a person and not to a machine.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18531	An individual	3a. Channel Shift and Digital Transformation	This needs to be adequately resourced and systems and processes in place to allow for this to happen in a timely fashion, in my experience there are always problems and limitations which the council struggles to sort out and so functionality and the ability to deliver on digital transformation has never moved forward with the times. Out of date systems and processes, inability to develop relevant apps, social media engagement at service level and augmented reality applications etc. WLC is lagging behind the digital revolution which is costing the on the ground services dear!	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18532	An individual	3a. Channel Shift and Digital Transformation	Digital learning needs to be prioritised for all age groups and abilities for this proposal to be of use.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18533	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	At the moment the PC grinds to a halt and suffers due to IT pushing out updates during the business day, this causes staff to not be able to work to their capacity as the PC and software grind to a halt, would introducing digital solutions not compound this even more, what plans are in place to provide the staff with technology that actually meets the necessary requirements for them to do the job effectively. What do you plan to move to digital service, no information provided.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18534	An individual	3a. Channel Shift and Digital Transformation	I would agree that less front-facing staff are now necessary and that members of the public should be encouraged to channel shift to digital interaction.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18535	An individual	3a. Channel Shift and Digital Transformation	That's ok for people who can access and understand technology.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.

Transforming Your Council Consultation 2017

18536	An individual	3a. Channel Shift and Digital Transformation	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18537	An individual	3a. Channel Shift and Digital Transformation	Good but care not to exclude those who have difficulty access online facilities or have no way of accessing them.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18538	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The current communications team are handling these changes and areas admirably given the amount of time and man-hours they are given to do so. Encouraging all aspects of the council to work more closely with our communications teams and to move their own services somewhere closer to working in the 21st century would enhance the public profile and appreciation of all of our council services. Social media is going to be vital to engage residents in a time of changing services and some services (the Instrumental Music Service for example) have been resisting this change for years meanwhile all of our schools are growing in this area and giving pupils some degree of ownership of the content and enabling them to learn skills that are now invaluable in our changing working lives.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18539	An individual	3a. Channel Shift and Digital Transformation	Support moving to digital delivery. But care should be taken to ensure that expected benefits are realised and do not result in hidden inefficiencies.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18540	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	This seems like a good idea however the option to still speak 1-1 should still be available as not everyone has access to computers or electronic devices	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18541	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	This is a good way forward but how will it meet those who are not digitally aware	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18542	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Council needs to move with and in the future keep up with Technology to work efficiently. Response timescales should be considered as the extra work load on staff means they are unable to respond as quickly as previously	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Using digital channels to communicate with customers is a priority for the council and solutions to current challenges will be progressed as part of the Digital Transformation Strategy
18543	No Response	3a. Channel Shift and Digital Transformation	Technology and digital solutions need to support those who require additional support of have an advocate. loosing day services and support staff impacts on the assistance and time staff have got to encourage and prompt independence for those who require to access the systems.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18544	An individual	3a. Channel Shift and Digital Transformation	Council is years behind the retail/ hospitality sector more resources needed here spend to save and key support staff must be in place to make the changes work.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18545	No Response	3a. Channel Shift and Digital Transformation	Should be a priority - the council should work with other local authorities and umbrella bodies to get the best systems for the best price	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18546	An individual	3a. Channel Shift and Digital Transformation	In order to maintain Fairness & Equality, people who do not have easy or any access to digital communication need to still be included. Volunteering role here?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18547	An individual	3a. Channel Shift and Digital Transformation	This is the way forward but remember there will always be those who cannot deal with technology and who must not be ignored.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
18548	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	The council needs to mirror private industry more and increasing the level of digital services is inevitable for modernisation and savings.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18549	An individual	3a. Channel Shift and Digital Transformation	This should go further and I believe there are more savings to be made.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing an number of ways that customers can interact on a digital basis

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18550	An individual	3a. Channel Shift and Digital Transformation	Increased and more sophisticated use of technology is essential if the council is to provide access to services in a way which matches customer needs. Processes will need to be reviewed to support this and it is likely that this in addition to reduced staffing requirements will lead to increased savings. The council must have a co ordinated approach to digitisation and have a robust strategy to ensure and support a move to online communication and access to information and services. This means eg restricting options for customers to communicate to ensure that there is a genuine and consistent approach to the transfer of business. There is little point in investing in technology to achieve efficiencies if there is no corresponding approach to ensure its use	Channel shift & digital transformation (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council is developing a number of ways that customers can interact on a digital basis
18551	An individual	3a. Channel Shift and Digital Transformation	On line reports have to be read and actioned. Sometimes a quick phone call even when no is the answer is more efficient. It has become increasingly difficult to talk to officials over the past 5 years	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18552	An individual	3a. Channel Shift and Digital Transformation	This does not always work - Edinburgh City council have done it and sometimes it takes longer to sort out a query that if they still have support staff - the professional staff spend ages emailing when a quick call would have sorted it out. Learn from other council's mistakes.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The development of the councils Digital Transformation Strategy will ensure that these type of initiatives are prioritised
18553	An individual	3a. Channel Shift and Digital Transformation	I agree with modernising how services are delivered but the council must consider how they support their citizens especially the elderly and those less literate in the move to a more digital world to ensure that these groups who rely on council services the most are not marginalised and left behind. The council should consider provided adult education/ongoing support to these group to enable the digital revolution to be a success	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18554	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Channel shift & digital transformation (general)	4. The council is already doing this.	Equality impact assessments will be carried out as detailed proposals are developed
18555	An individual	3a. Channel Shift and Digital Transformation	Only if it proves a more cost effective plan	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Deploying digital solutions to some service provision is shown to be more cost effective
18556	An individual	3a. Channel Shift and Digital Transformation	Ensure that all Staff are trained appropriately in all aspects of the technology to be used.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Recruitment and training of staff to ensure they have the necessary skills to use digital services will be a key part of the Digital Strategy
18557	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	How will the council meet the needs of vulnerable / hard to reach people and those who lack capacity in relation to this? What are the proposals which are generating the estimated savings? Has an equality impact assessment been completed on any proposals?	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	Through the development of the digital transformation strategy contact methods will be aligned to customer need and aspiration ensuring that the most vulnerable customers are still able to contact the council in ways that best suit them.
18558	An individual	3a. Channel Shift and Digital Transformation	What about older people without families who can't use computers, especially if adult learning is being cut. By making everything online the older people are being left out.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18559	An individual	3a. Channel Shift and Digital Transformation	Changing everything to computers isnt fair if people can't use computers, especially if adult learning is being cut.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18560	An individual	3a. Channel Shift and Digital Transformation	Not always good for older people	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing a number of ways that customers can interact on a digital basis, however there will still be a staff member to speak to if required
18561	An individual	3a. Channel Shift and Digital Transformation	Too reliant on digital solutions which must be expensive to implement.	Channel shift & digital transformation (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is developing an number of ways that customers can interact on a digital basis
18562	An individual	3a. Channel Shift and Digital Transformation	Also may I suggest an improvement in quicker responses to telephone inquiries. Several older folk are not happy having to hold on for a long time to receive their inquiry being dealt with.	Channel shift & digital transformation (general)	1. The respondent advised that they agree with the proposal.	The council is continuing to invest in a range of technologies to support customer contact, this includes upgrading the telephone system
18563	An individual	3a. Channel Shift and Digital Transformation	disagree cutting more corners	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
18564	An individual	3a. Channel Shift and Digital Transformation	This would not be helpful	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18629	An individual	3a. Channel Shift and Digital Transformation	Proposal is too unspecific to comment but if as I suspect you mean computerised interaction on the 'phone then I would not call that customer service...	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18630	An individual	3a. Channel Shift and Digital Transformation	What services are likely to be affected by this?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18631	An individual	3a. Channel Shift and Digital Transformation	Jargon - what a stupid way to make a proposal and expect an informed answer!	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18632	An individual	3a. Channel Shift and Digital Transformation	Unsure what this means in practice, and not everyone is digitally savvy, especially older residents.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18633	An individual	3a. Channel Shift and Digital Transformation	Not an area I can comment on -- little or no experience	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18634	An individual	3a. Channel Shift and Digital Transformation	What does this mean? Sounds like consultant's jargon again. What people want is to contact the council to get an answer to a question or a where to go for help. Not everyone is capable of accessing your digital transformation	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18635	An individual	3a. Channel Shift and Digital Transformation	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18636	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Staff cuts again.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18637	An individual	3a. Channel Shift and Digital Transformation	No comment - all is going online however how do you ensure that those elderly and not particularly 'tec-savvy' are not left behind by the Council when they need you most?	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18638	An individual	3a. Channel Shift and Digital Transformation	Again the phrase transformational change worries me - smacking of management consultancy speak!	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18639	An employee of West Lothian Council	3a. Channel Shift and Digital Transformation	Again there is a lack of detail provided in your "Transforming your Council" document. Could you not detail exactly where and what this would mean for the service areas - how does this £600,000 affect Parks & Woodland. Tell us more and we are able to review and comment more. The language used here really is not understandable and if staff don't understand, how can you expect others to. Be clear, be simple, and explain what you mean please as consultation is only as good as the information you put out there.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18640	An individual	3a. Channel Shift and Digital Transformation	I am sorry, but this is phrased in jargon and I don't understand what is meant.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18641	An individual	3a. Channel Shift and Digital Transformation	Don't know the details, so can't comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18642	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	More information required. Not every household in West Lothian has embraced the digital era.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18643	An individual	3a. Channel Shift and Digital Transformation	Don't understand this at all	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18644	An individual	3a. Channel Shift and Digital Transformation	unable to comment as not in plain english	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18645	An individual	3a. Channel Shift and Digital Transformation	No opinion	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18646	An individual	3a. Channel Shift and Digital Transformation	No comment.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18647	An individual	3a. Channel Shift and Digital Transformation	No comment	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18648	An individual	3a. Channel Shift and Digital Transformation	This section looks like tinkering based on the total of £1.4m over 5 years.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18649	On behalf of a Group/Organisation	3a. Channel Shift and Digital Transformation	No idea how this will affect us, or what this paragraph really means.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
18650	An employee of West Lothian Council	3b. Modernised Library and Information Services	This should be pursued. The services are important but need to be reflective of demand.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18651	No Response	3b. Modernised Library and Information Services	Agree to all suggested proposals	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18652	An employee of West Lothian Council	3b. Modernised Library and Information Services	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

18908	An individual	3b. Modernised Library and Information Services	this system is already in place in partnerships....and in busy days, staff can be inundated with customers. will this proposal mean a reduction in staff where, in my opinion, its already struggling with staff shortages?	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities and reprioritise our resources where the demand is.
18909	An employee of West Lothian Council	3b. Modernised Library and Information Services	I think this is a more modern form of customer service and has moved with the times.	Modernised Library and Information Services - CIS offices	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18910	No Response	3b. Modernised Library and Information Services	If the council had a better search function on their website, it would reduce the amount of calls and visits to the CIS office.	Modernised Library and Information Services - CIS offices	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18911	An individual	3b. Modernised Library and Information Services	Great idea why have more buildings to heat, maintain etc	Modernised Library and Information Services - CIS offices	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18912	No Response	3b. Modernised Library and Information Services	Again this is a euphemism for cuts. We have seen the result of this in Armadale with the proposed loss of parts of our community centre to provide for the closure of the CIS office.	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18913	An individual	3b. Modernised Library and Information Services	library and CIS should never have been integrated. ISome library staff will not do CIS and vice versa, they all need to be trained in each if it is to be a joint service. Some offices have not had CIS cover for days on end due to lack of staff. The reasons for this need to be looked at.	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This will involve that staff have the training to fully deliver the roles they have in a modernised service.
18914	No Response	3b. Modernised Library and Information Services	See above. This is a general comment on Section 3. I agree that an improvement of the quality and accessibility of customer services is a worthy aim. Just do not forget those that do not have Internet. It is difficult to imagine a cut to CIS services in Linlithgow Library.	Modernised Library and Information Services - CIS offices	6. This is a positive suggestion. Officers will consider how this could be developed.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people as well as more self-service and digital options.
18915	An employee of West Lothian Council	3b. Modernised Library and Information Services	Digital transformation should help to automate some of the CIS admin work. Library provision needs to be looked at as part of education and leisure and how education and frontline services can work together. Use of reciprocal lending with emphasis on smaller stock, wider criteria targeting the needs of the local community should be considered - this does not mean reducing staff, in fact staff should be trained to be able to address the needs of the customer, whether this is for educational, leisure, community, partnerships or administrative purposes. More frontline staff - less back office staff.	Modernised Library and Information Services - CIS offices	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18916	An individual	3b. Modernised Library and Information Services	Provision in Library and Customer Information Services (CIS) would be rationalised: how?. Our library is moving to Livingston. Such content less statements are worthless	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18917	An employee of West Lothian Council	3b. Modernised Library and Information Services	Where I am aware that CIS have been short staffed falling back on library staff, clients have been turned away, given incorrect information etc. Poor service.	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of self-service and digital options to increase access to information.
18918	An employee of West Lothian Council	3b. Modernised Library and Information Services	The CIS function currently does not perform at the level it should as the offices are closed at short notice due to staffing levels. A broader knowledge for the staff working in these areas is required to ensure that the public are confident that they will be dealt with efficiently and timeously.	Modernised Library and Information Services - CIS offices	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
18919	An individual	3b. Modernised Library and Information Services	What does this really mean. If the number of CIS locations are to be closed then this needs to be spelled out.	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of self-service and digital options to increase access to information.
18920	An individual	3b. Modernised Library and Information Services	Preserve CIS at local libraries.	Modernised Library and Information Services - CIS offices	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of self-service and digital options to increase access to information.
18921	An employee of West Lothian Council	3b. Modernised Library and Information Services	This is happening all ready CSI is needed but the cutbacks result in poor service	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of self-service and digital options to increase access to information.
18922	An employee of West Lothian Council	3b. Modernised Library and Information Services	Staff in front line CIS and Libraries have been rationalised enough already, some staff in areas are loan working. this is not safe for staff welfare or health.	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
18923	An employee of West Lothian Council	3b. Modernised Library and Information Services	CIS OFFICE IS IMPORTANT TO COMMUNITIES - ESPECIALLY OLDER CITIZENS WHOSE MOBILITY IS POOR	Modernised Library and Information Services - CIS offices	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18924	An employee of West Lothian Council	3b. Modernised Library and Information Services	Please do not under estimate the value of the CIS service: yes, the no of enquiries are reducing but the staff continue to deal with a large number of vulnerable people who are experiencing poverty, housing issues, unemployment, arrears, illiteracy and lack of support. We are their gateway to accessing advice, information and support, solving problems, arranging care, progressing their housing needs or arranging referrals. The majority of staff have been with the service for 20 years and their knowledge of the council is extremely impressive and they are a real asset to the community and council: would be shame to lose it. Could the CIS/CSC staff handle/progress some of the councillor enquiries behalf of member services? Potential then to reduce that team? CIS trained staff to take on the CSC's email traffic: could be handled during quiet periods.	Modernised Library and Information Services - CIS offices	6. This is a positive suggestion. Officers will consider how this could be developed.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.

18925	An individual	3b. Modernised Library and Information Services	Can you provide the detail how CIS would be rationalised. How can one comment on something so important when they are only supplied brief statements.	Modernised Library and Information Services - CIS offices	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
18926	An individual	3b. Modernised Library and Information Services	The needs to be some privacy for CIS- some things shouldn't be discussed in public.	Modernised Library and Information Services - CIS offices	4. The council is already doing this.	Thank you for your response. Your comment has been noted
18927	An individual	3b. Modernised Library and Information Services	The new library council information service works well it is hard to imagine how it could be cut further	Modernised Library and Information Services - CIS offices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
18928	An individual	3b. Modernised Library and Information Services	Specialist knowledge of CIS staff is invaluable so the customer gets the correct information first time. This knowledge must not be lost, it would only result in a poorer service for our customers and create more work if the required information is not provided at the first point of contact.	Modernised Library and Information Services - CIS offices	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
18929	An individual	3b. Modernised Library and Information Services	Any further reduction in library services would be counter- productive, as they provide both educational and social support especially to those most in need, including young people.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18930	An individual	3b. Modernised Library and Information Services	If libraries etc are not used and that can be proven to be the case, the council should look to alter opening hours etc. That is common sense.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18931	No Response	3b. Modernised Library and Information Services	If you close key services such as Libraries you will destroy an environment that caters for all age groups, promotes education, promotes health and well being, is a positive destination for school children and the list goes on.....	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. 18932	No Response	3b. Modernised Library and Information Services	I feel the library service is run very well using the partnership model. Libraries do seem to be underused though.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18933	An employee of West Lothian Council	3b. Modernised Library and Information Services	The council has to think long and hard about the provision of library services. I would hate to see people stop reading but the provision of hard back books is very old fashioned in this day and age and more digitisation of this service must be pursued.	Modernised Library and Information Services - libraries	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18934	An individual	3b. Modernised Library and Information Services	promoting library services, instead of cutting them, will result in better usage	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18935	An employee of West Lothian Council	3b. Modernised Library and Information Services	I do not understand this proposal as my understanding is that library and information services are still provided over a range of locations	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18936	An individual	3b. Modernised Library and Information Services	More online, less paper books especially "me and my angel" sort of rubbish.more STEM books needed to improve young people's interest in proper skills.	Modernised Library and Information Services - libraries	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18937	No Response	3b. Modernised Library and Information Services	More online lending, less paper books which anyway have a very limited range. Too many "me and my angel" rubbish and not enough STEM books in libraries.	Modernised Library and Information Services - libraries	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18938	An individual	3b. Modernised Library and Information Services	Use the library as a local central hub for all Council data and service provision, in place of other standalone offices, which should be sold off. Combine libraries with school buildings for administration and buildings management efficiency.	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18939	An individual	3b. Modernised Library and Information Services	Reduction in libraries but greater investment for online services maybe 2 larger libraries throughout the county.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

18940	An individual	3b. Modernised Library and Information Services	As attractive as the notion of libraries is, they are frequently empty and services should be made available through a more efficient method.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18941	An individual	3b. Modernised Library and Information Services	Does this mean the end of Libraries, if so, just say that.	Modernised Library and Information Services - libraries	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC.
18942	An employee of West Lothian Council	3b. Modernised Library and Information Services	I think this is a positive step as libraries are greatly underused now.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18943	An individual	3b. Modernised Library and Information Services	Centralise libraries and let communities keep them open if they want them	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities
18944	An individual	3b. Modernised Library and Information Services	This could be done using self service. Are libraries really used alot now? Many people are using Kindles, computers and on-line services now. Could this not be centralised and books posted or delivered to those with a requirement. any time I have gone into a local library it is very quiet and underused.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18945	An individual	3b. Modernised Library and Information Services	Kindle and the likes have made paper books obsolete, so reduce the number / size of libraries but provide pc access in order to contact the council by email,	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18946	An individual	3b. Modernised Library and Information Services	Libraries are vital to the community, however, I do think more services could be incorporated into them. Bathgate Partnership Centre is a good example of how it works.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18947	An individual	3b. Modernised Library and Information Services	Does this mean shutting libraries? These are a fantastic resource for encouraging children to read at little cost to parents. Instead of reducing these services, why not promote these more so more people access them, raising abilities of children to read and learn responsibility for caring for items	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18948	No Response	3b. Modernised Library and Information Services	Its 25 years since I was in the library so can't comment here. Is it actually used by anyone these days?	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

18949	An individual	3b. Modernised Library and Information Services	Does rationalisation mean closure of libraries and information services ? Any step away from personal contact is negative.	Modernised Library and Information Services - libraries	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18950	An individual	3b. Modernised Library and Information Services	Good idea provided the one location is accessible to the customers.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18951	An individual	3b. Modernised Library and Information Services	DO NOT TAKE OUR LIBRARY SERVICES AWAY FROM US. this would deprive a lot of people of a means of gaining information, and having the pleasure of choosing books. The people who work in the library are able to help, advise, and are generally an asset not to be undervalued.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18952	An individual	3b. Modernised Library and Information Services	Having more of the services in the library has been a great change. Libraries are very important to local residents, and i hope that they can be protected as much as possible, even if that means reducing opening times etc.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18953	An individual	3b. Modernised Library and Information Services	I do not agree the council has successfully re-developed Library services	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
18954	No Response	3b. Modernised Library and Information Services	Library services have already been greatly reduced.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18955	An individual	3b. Modernised Library and Information Services	Libraries can and do still play a big part within the community, every effort should be taken to safeguard them and perhaps better utilise the services that they offer	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18956	An individual	3b. Modernised Library and Information Services	Wrong solution. We need more people using libraries and arts and sports in order to nourish the whole person. especially the unemployed, elderly,ill, and social work dependants.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.

18957	An individual	3b. Modernised Library and Information Services	There still needs to be access within each community.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC.
18958	An individual	3b. Modernised Library and Information Services	Don't understand but presume this doesn't involve reducing accessibility?	Modernised Library and Information Services - libraries	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18959	An individual	3b. Modernised Library and Information Services	Libraries are obvious location for people without IT literacy or tools to access council information and various services with minimal training and additional costs.	Modernised Library and Information Services - libraries	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18960	An individual	3b. Modernised Library and Information Services	no library closures	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18961	An employee of West Lothian Council	3b. Modernised Library and Information Services	Libraries are not making money. Reintroduce fines.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18962	An employee of West Lothian Council	3b. Modernised Library and Information Services	Close smaller libraries and the ones that are not in partnership centres.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18963	No Response	3b. Modernised Library and Information Services	Libraries are not making money - they don't even take fines anymore. Close the smaller ones and the ones that are not in partnership centres.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18964	An individual	3b. Modernised Library and Information Services	Library now is disgrace. Little to no books on show to just read. No point it even being open. Most people use it for computers only. Move it all online and open a computer lab with pay as you use	Modernised Library and Information Services - libraries	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18965	An individual	3b. Modernised Library and Information Services	What does this mean? No community library facilities? Potentially isolating for residents who depend on these facilities for social interaction, computer access as well as the obvious benefit of access to books and periodicals.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18966	An employee of West Lothian Council	3b. Modernised Library and Information Services	I support this proposal. I would expect the footfall at libraries to reduce over the next 5 years given the ease with which digital and ebooks can be accessed from home.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

Transforming Your Council Consultation 2017

18967	An individual	3b. Modernised Library and Information Services	The reduced hours of library services are not great. The libraries are one of the only free things children can access and to find the hours more and more reduced impacts on their time reading and exploring books.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18968	An individual	3b. Modernised Library and Information Services	With the already growing E library then they could look at reducing the number of libraries per cluster so they are still accessible to people who require them.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18969	An individual	3b. Modernised Library and Information Services	Let's not close all the local libraries is what you are saying not a good idea!	Modernised Library and Information Services - libraries	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18970	An individual	3b. Modernised Library and Information Services	If folk want libraries let them pay a membership to take out books. They should also volunteer to save on staff costs.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18971	An individual	3b. Modernised Library and Information Services	Does this mean library closures? If so that would be bad for children who benefit greatly from access to library's and bookbug sessions in their local area	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18972	An individual	3b. Modernised Library and Information Services	I agree with this proposal. In particular, the council needs to look at rationalising the library provision in Livingston	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18973	An employee of West Lothian Council	3b. Modernised Library and Information Services	Libraries are old hat. They are a very expensive way of providing access to knowledge. Rationalisation is long overdue.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18974	An employee of West Lothian Council	3b. Modernised Library and Information Services	Libraries need no longer be located in each community and can be better provided at a more strategic level, possibly in partnership centres. Data relating to the usage of libraries should be used to support fewer, better facilities.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18975	An individual	3b. Modernised Library and Information Services	I support this in principle as long as this does not reduce library services.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
18976	No Response	3b. Modernised Library and Information Services	everyone likes the idea of librars remaining open but until they are used more there is no point.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18977	An employee of West Lothian Council	3b. Modernised Library and Information Services	Question whether libraries are required in this day and age - would a larger scale saving be made if they were to be rationalised further?	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18978	An individual	3b. Modernised Library and Information Services	The role of libraries has changed over the recent years. Communities still want a "library" facility, but what that is or how it functions is open to discussion.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18979	An employee of West Lothian Council	3b. Modernised Library and Information Services	Library service! Where? No reference library, huge cuts in recent years - no professional librarians.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18980	An employee of West Lothian Council	3b. Modernised Library and Information Services	Public access to computers and the internet needs to be expanded, these are always very busy in the library's.	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18981	An employee of West Lothian Council	3b. Modernised Library and Information Services	Agreed - but I am not sure if we still have a mobile facility to assist customers unable to access the location. If not, do we still provide an option for these customers?	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of digital and self-service options.
18982	An employee of West Lothian Council	3b. Modernised Library and Information Services	Library vans seem to be non existent these days and shortage of the support volunteers to support elderly access library services	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service was unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.

Transforming Your Council Consultation 2017

18983	An employee of West Lothian Council	3b. Modernised Library and Information Services	Why cant the Council build really good library in the shopping centre and close the little local libraries. Almost everyone gets to the shopping centre at some point.	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18984	An employee of West Lothian Council	3b. Modernised Library and Information Services	Providing libraries and Information services is essential for our children and families to be able to access resources to support their development and progress	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18985	An individual	3b. Modernised Library and Information Services	Libraries provide much more than just books to those who maybe otherwise couldn't afford them. They give access to internet for job searches, company for the elderly and other lonely social groups at book clubs etc, support to new parents with baby groups such as book bug, support to schools, children's events in the holidays letting kids who's parents maybe can't afford expensive activities get their kids involved in something fun. And that's just a small bit. You should be supporting libraries in the communities not closing them down and 'centralising'. Many people can't get transport to other villages and the libraries and mobile libraries are essential.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This proposal provides an opportunity to modernise and achieve better value for money. This includes ensuring there is full access to services for vulnerable people and a range of options including more self-service facilities and digital options.
18986	An individual	3b. Modernised Library and Information Services	There are growing numbers of elderly people who have no contact with family and are Lonely so use libraries as a safe place to speak with staff and spend time	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people
18987	An employee of West Lothian Council	3b. Modernised Library and Information Services	Remove all bar one library and encourage community groups to do book share schemes. Who really uses libraries these days anyway. Books can be bought if required or groups can share. Limited users will require access for books for studies / research purposes and this can mostly be done online	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This proposal provides an opportunity to modernise and achieve better value for money. This includes ensuring there is full access to services for vulnerable people and a range of options including more self-service facilities and digital options.
18988	An individual	3b. Modernised Library and Information Services	Most things are on line now and cannot see a future for library books on paper format for much longer.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18989	An individual	3b. Modernised Library and Information Services	Library services are an inevitable casualty of the digital age. Centralising remaining provision with other community services is likely to be the best way to retain what remains	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

18990	An employee of West Lothian Council	3b. Modernised Library and Information Services	I know it's a relatively insignificant part of the budget but I do feel there is a lot of wastage in book procurement in libraries. Lots of books are underused in libraries and go out for charity sale. I think this process can be a bit indiscriminate also.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
18991	An individual	3b. Modernised Library and Information Services	No library access is needed more than available	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18992	An employee of West Lothian Council	3b. Modernised Library and Information Services	I am not a library user however I am aware that demand has decreased in recent years now that books etc are readily available and accessible online (kindle, for example). I support the notion to reduce these services however it would be important to keep library vans so that the service is still available for those who benefit from it.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service was unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18993	An employee of West Lothian Council	3b. Modernised Library and Information Services	Protect school libraries, develop a mobile library service and combine that mobile service with meetings at community centres to allow the elderly and less mobile to meet up with others - two birds/one stone.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service was unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
18994	An individual	3b. Modernised Library and Information Services	Libraries are at the heart of communities. Taking them away will reduce the availability of internet usage for our most needy residents.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services.
18995	An individual	3b. Modernised Library and Information Services	The library service needs to have qualified librarians again and do away with the remote computer terminal that requires no interaction with staff. Glasgow has done away with this system and books have to be returned and taken out at the counter. Interaction can be a great benefit to many, particularly the elderly.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council employs a number of qualified librarians. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities, this includes ensuring access for vulnerable people as well as developing more self-service and digital options. The self-service option is very popular with our customers, with over 70% choosing to use this option.
18996	An individual	3b. Modernised Library and Information Services	What does this mean? Less staffing at desks in libraries?	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services.

18997	An individual	3b. Modernised Library and Information Services	I feel happy with the way this has been done in my town (Bathgate) and that the library continues to function as a central and essential hub in the community-thus model appears to work.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
18998	An employee of West Lothian Council	3b. Modernised Library and Information Services	Other authorities might only offer library services at two sessions a week, we do not need a full time library service.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
18999	An individual	3b. Modernised Library and Information Services	As a regular library user and one who accesses the Council information services regularly I would find any rationalisation detrimental.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services.
19000	An individual	3b. Modernised Library and Information Services	I think this is doubtful as I've already remarked that A2W staff can't access their IT services and this is only one example. I also think librarians seem to be more than that as it is.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities, including a range of self-service and digital options.
19001	An individual	3b. Modernised Library and Information Services	Libraries are buildings that could surely be used by more council employees to work from and could be linked with schools/adult learning provision to increase their effectiveness.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19002	An employee of West Lothian Council	3b. Modernised Library and Information Services	Online libraries are great. However, I do love having a library in my local community and find it valuable. Our local school links with it a lot.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19003	An individual	3b. Modernised Library and Information Services	No people need library for community	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19004	An individual	3b. Modernised Library and Information Services	Yes. Makes sense. Could library books be provided via partners, rather than dedicated library buildings, for example books loaned via Mother and Toddler Groups, churches, schools, etc.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19005	An individual	3b. Modernised Library and Information Services	Why not have only digital library and information services?	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

19006	An individual	3b. Modernised Library and Information Services	Don't need library if you have google	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC.
19007	An individual	3b. Modernised Library and Information Services	Seems to me that we have been asked about libraries time and time again over a number of years.....why are they not already now optimised?	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19008	An individual	3b. Modernised Library and Information Services	people have access to books online and in schools. there is a library in most areas. this is not a needed resource.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19009	An individual	3b. Modernised Library and Information Services	Library and CIS are already integrated in many library buildings, is the next move to close down libraries? Closure of libraries will put those less digitally aware at even more of a disadvantage, especially in more remote areas.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities, this includes ensuring full access to facilities for vulnerable people and a range of options including self-service and digital options.
19010	An individual	3b. Modernised Library and Information Services	Libraries have changed and must change	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19011	An individual	3b. Modernised Library and Information Services	The amount of libraries and staff seems excessive considering how quiet they are (I use them and often the staff outnumber the amount of people in the library). Whilst the future seems to be with ebooks (a great service from the library) those who won't access ebooks should still be catered for. Perhaps library van?	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service was unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of digital options.
19012	An individual	3b. Modernised Library and Information Services	I have grave reservations about cutting library services, but much should depend on how much they are used. If services and facilities are getting only little use, then limiting these may be justified.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19013	An individual	3b. Modernised Library and Information Services	Stop. Keep the libraries open - and the public toilets	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. 19041	An individual	3b. Modernised Library and Information Services	Each major town should have a Library service. Better use of the mobile library service for villages is encouraged.	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of digital options.
19042	An individual	3b. Modernised Library and Information Services	Libraries have been cut enough! Please don't cut anymore.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19043	An individual	3b. Modernised Library and Information Services	This sounds like library closures completely or just a small selection of books in a corner of a building somewhere with no staff available and just a self service machine. Will we just choose our books and walk out with them? We want staff to talk to, to recommend good books to read, to discuss books We want well trained staff and not just a machine in the corner	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. Over 70% of customers choose to use the self-service option where this is available. By continuing to develop this service through a range of options including digital options and partnership library buildings, we will ensure services are accessible to a range of customers including vulnerable people.
19044	An employee of West Lothian Council	3b. Modernised Library and Information Services	Vital!! The library service in WL is superb and must continue to be supported.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19045	An individual	3b. Modernised Library and Information Services	As above, I think it's more people trying to hold on to the past instead of embracing the future. Because you have always done it a certain way doesn't mean it's the best way.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19046	An individual	3b. Modernised Library and Information Services	I believe library numbers continue to fall, so would expect budget for these services to be reduced considerably year on year.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19047	An individual	3b. Modernised Library and Information Services	It's important that Linlithgow maintains a library as it's an important resource that is valued by the community.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19048	An individual	3b. Modernised Library and Information Services	Looks like its been rationalised to death already. Libraries and the staff in them already provide a great service. Don't cut the funding. Not everyone has access to books and computers.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

19049	An individual	3b. Modernised Library and Information Services	Libraries are extremely important, and enjoyed, by children who otherwise may not get access to books and other learnings. It would be terrible to remove that facility. We have a Young child who loves books and going to the library.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19050	An individual	3b. Modernised Library and Information Services	Don't close our libraries	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19051	An individual	3b. Modernised Library and Information Services	Library services should be protected while modernised and diversified.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19052	An individual	3b. Modernised Library and Information Services	Don't cut libraries or services for the most vulnerable. Be more imaginative, not less, as this document suggests. Use the available resources to deliver more.	Modernised Library and Information Services - libraries	4. The council is already doing this.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19053	An employee of West Lothian Council	3b. Modernised Library and Information Services	Difficult to judge what this means - closing libraries - if so where and when?	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19054	An individual	3b. Modernised Library and Information Services	Libraries are still important. Not sure about behind the scenes services	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19055	An individual	3b. Modernised Library and Information Services	Closing libraries, is this what it means?	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. 19056	An individual	3b. Modernised Library and Information Services	Doesn't look there's much left to cut in the library service, or rather the lack of it as my local library has shut. Why bother with more cuts. it's down to the bone as it is.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This will include a range of options such as increased self-serve and digital options
19057	An individual	3b. Modernised Library and Information Services	More efficient and technologically advanced methods of using a library in order to reduce staff numbers should be investigated before rationalising facilities.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This will include a range of options such as increased self-serve and digital options
19058	An individual	3b. Modernised Library and Information Services	Libraries are really important. Don't shoot yourselves in the foot by restricting access to libraries for the poorer in society by relocating to fewer places.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities through changes based on the successful partnership model. This includes ensuring there is full access to services for vulnerable people through a range of options including digital services and self-service.
19059	An individual	3b. Modernised Library and Information Services	Minor point but fines for late return of library books has been abolished! Why not reintroduce these - surely every little helps!	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
19060	An individual	3b. Modernised Library and Information Services	Agree. Centralise and consolidate. Close libraries if necessary and provide more online services such as ebooks and audiobooks. The days of needing a library in as many locations are long gone!	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19061	An individual	3b. Modernised Library and Information Services	Agreed. Also charges for libraries could be introduced.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19062	An individual	3b. Modernised Library and Information Services	Please do not close any libraries they are a vital part of community and I would not want to travel a distance for library services.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19063	An employee of West Lothian Council	3b. Modernised Library and Information Services	Reduce the number of libraries. One larger library where people can travel to.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19064	An individual	3b. Modernised Library and Information Services	"Rationalised" - how many would you close? do you intend to close any?	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.

19065	An individual	3b. Modernised Library and Information Services	Local access to library is a important local requirement	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19066	An individual	3b. Modernised Library and Information Services	Reduce the number of small libraries and have 2 central libraries which provide a better service than lots of small libraries with limited opening hours.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19067	An individual	3b. Modernised Library and Information Services	Please keep our libraries open and with current hours!	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19068	An individual	3b. Modernised Library and Information Services	Do not close any libraries if possible. Service rationalisation should make savings but not eliminate anything completely.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19069	An individual	3b. Modernised Library and Information Services	Library provision based in communities must be retained.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19070	An individual	3b. Modernised Library and Information Services	Keen to keep the library service	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19071	An individual	3b. Modernised Library and Information Services	There are too many Library staff in some location which I do think need to be looked at.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19072	An employee of West Lothian Council	3b. Modernised Library and Information Services	There is a woeful lack of community centres in Livingston and modernisation of libraries is a welcome change. Providing cafes in their buildings encourages people to see them a local hub where they can meet friends and access information.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19073	An individual	3b. Modernised Library and Information Services	I would not want to lose my local library but if needs be I would support other services being brought in to take up some space within. Anything to keep library open and information as near to hand as is possible.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

19074	An individual	3b. Modernised Library and Information Services	This proposal sounds good provided that where rationalisation means people can still access a library easily by public transport. There will be a negative outcome if council subsidised bus services are cut in areas which would impact on residents being able to access the libraries.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19075	An employee of West Lothian Council	3b. Modernised Library and Information Services	3b I am not sure what it means to rationalise this - what would be lost? It is good to have a place for people to go to in our communities to speak to staff face to face, as not everyone can access information online.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19076	An individual	3b. Modernised Library and Information Services	Libraries should not be closed or reduced in scope of service.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19077	No Response	3b. Modernised Library and Information Services	This provides no information on what the proposals actually are and therefore it is not possible to comment on this. If the suggestion is to reduce libraries etc in West Lothian I would imagine this would reduce access to reading, which is on the first ministers agenda to improve access scotland.	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people, and includes a range of considerations around more self-service and digital options.
19078	An individual	3b. Modernised Library and Information Services	Again confused . Are you saying the council services in a library is good and will be retained or is not good and you gave a better solution? You don't say what the successfully developed partnership model is but I have used a council service from the library on more than one occasion and found it highly convenient and efficient.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19079	An individual	3b. Modernised Library and Information Services	Does this mean closure of libraries? If so, I would not support this plan.	Modernised Library and Information Services - libraries	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19080	An individual	3b. Modernised Library and Information Services	I am not entirely sure what is meant by "provision in library and customer information services would be rationalised". With regards to library services, the council should introduce fines for loaned books that are overdue in order to generate a small income to support purchase of new books etc.	Modernised Library and Information Services - libraries	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19081	An individual	3b. Modernised Library and Information Services	Love the new library services in Strathbrock. Staff are friendly and welcoming and integrate into the community. Very good with School visits.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19090	An individual	3b. Modernised Library and Information Services	These services within libraries are a joke as the staff are ill prepared or trained to deal with peoples needs>libraries are going to become obsolete.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council employs a number of qualified librarians. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities, this includes ensuring access for vulnerable people as well as developing more self-service and digital options.
19091	No Response	3b. Modernised Library and Information Services	Does rationalised mean close? My local library already has reduced hours of operation and staffing cuts. Libraries provide an essential link to our local communities - they provide access to information for EVERY member of the community.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19092	An employee of West Lothian Council	3b. Modernised Library and Information Services	Hopefully not too much impact on the customer here. Good proposal if more rationalised or "condensed" library provision.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19093	An individual	3b. Modernised Library and Information Services	I feel libraries are no longer relevant for many people. The local one in Linlithgow is very poor. I'm not sure if it closed it would have any huge impact	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people, and includes a range of considerations around more self-service and digital options.
19094	An individual	3b. Modernised Library and Information Services	Not sure what that means - but closing libraries sends the wrong signal about learning and access to information. They should become information hubs in an access strategy alongside on-line services since they are located in local communities.	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.
19095	An individual	3b. Modernised Library and Information Services	It would be unfortunate if "rationalised provision" actually means "library closures".	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in place in areas such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities.

This includes a range of self-service, digital and accessible options for customers.
19097	An individual	3b. Modernised Library and Information Services	Not sure what "rationalised" means, but need to keep a good library provision in West Lothian.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19098	An individual	3b. Modernised Library and Information Services	I think the library's are needed if anything for the younger generation, for example taking that away from a place like Fauldhouse would be a big mistake as this what kids do, this is where they go when they arent in school. It is close for elderly who can't really leave the area on there own. I understand technology is trying to be used more also but again it doesnt always work so the staff there are needed or else like I have said before frustration builds up and more complaints and phones calls will then be made when that could have been avoided.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19099	An individual	3b. Modernised Library and Information Services	Library purpose should be continually reviewed and adapted in future ... for example, a quality non-profit coffee shop based in a library could very well support a library!	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19100	An individual	3b. Modernised Library and Information Services	On line library service could be usefully expanded in non fiction. Choice is too limited. Why not make a small annual charge.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19101	An individual	3b. Modernised Library and Information Services	This is a good move as there is no reason why the library resources cannot be share across the council.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19102	No Response	3b. Modernised Library and Information Services	Online library service could be developed further as current reading list is lacking in non fiction.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19103	No Response	3b. Modernised Library and Information Services	Not sure how this can be achieved. Hopefully not closing too many libraries. Perhaps reduced opening times.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.

19125	An individual	3b. Modernised Library and Information Services	Local libraries should be high priority	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19126	An individual	3b. Modernised Library and Information Services	Provide access to a loaned ereader and the facility to 'borrow' books for those that want to.	Modernised Library and Information Services - libraries	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services - this includes more e-book provision and online services.
19127	An individual	3b. Modernised Library and Information Services	Libraries seem a bit 'last year'. Investigate different methods of delivery.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19128	An individual	3b. Modernised Library and Information Services	I use the library a lot and would not like to see it downgraded	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19129	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Our library provision appears to work well following recent rationalisation, therefore if this continues positively we support the proposal. Libraries are still needed in our communities.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19130	An individual	3b. Modernised Library and Information Services	The provision of library books in West Lothian is poor, often books in series are missing and as a family we do not use the libraries at all. The service has been run into the ground with the Government policy on book rotation this means nothing will change. Money should be spent in providing learning hubs where people can go and study in peaceful environments with access to the information they need digitally. A book allowance should be given to households to spend on purchasing new books each year.	Modernised Library and Information Services - libraries	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19131	An individual	3b. Modernised Library and Information Services	These have already been reduced to the minimum levels. These should be maintained at current levels	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19132	An individual	3b. Modernised Library and Information Services	Keep libraries but on a smaller scale and use more IT	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

19133	An individual	3b. Modernised Library and Information Services	Libraries are a great place for all ages. I still use my library regularly for myself and my children. Book bug was great for the kids and mothers involved. A place to relax and enjoy everything available.	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19134	An individual	3b. Modernised Library and Information Services	Agree provided that there is no decline in Library provision. At pre-school age the local Library was one of my favourite places and it played a big role in me becoming a life-long reader as well as supporting my educational attainment at post-graduate degree level. If we want to deliver the priority of improved attainment and positive destinations for children, a good Library service is a key service to maintain.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19135	An individual	3b. Modernised Library and Information Services	Please dont close any more libraries, these are a vital resource for all sectors of the community.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19136	An individual	3b. Modernised Library and Information Services	I thought it had already been rationalised with partnership centres opening all over the county. Libraries are an important part of our community with knowledgeable staff able and willing to help customers. Asking them to do other jobs as well will lose this skilled workforce. Libraries provide a wonderful resource for all in West Lothian. My grandchild loved the book bug sessions and still enjoys visiting the library. He loves books as do all my children encouraged by frequent visits. I have been a member since I moved here over 30 years ago and always have books out. The libraries also support our schools and nurseries.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19137	An employee of West Lothian Council	3b. Modernised Library and Information Services	Could High school libraries be used for public, and therefore be able to close some of the public library buildings	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. 19138	An individual	3b. Modernised Library and Information Services	This has had a major cut already and should not be cut further. The staff at the libraris are great but can see that they are spaced thin already.	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19139	An employee of West Lothian Council	3b. Modernised Library and Information Services	There is no informaoitin to be able to respond to this. The first minister has as a priority identified reading for you children and has listed this as a priority. Closure of libraries, if this is on the agenda, should be discouraged as it is an excellent community resource.	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19140	An individual	3b. Modernised Library and Information Services	The library is an important place in our community and I would hope it would continue to be prioritised.	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19141	An individual	3b. Modernised Library and Information Services	As long as "rationalised" as mentioned above, does not mean closing the current library and information service in Linlithgow. Many people in our community depend on the library for their information needs (especially in the digital age, where many people don't own computers, etc., and rely on the library services to provide digital access.)	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19142	An employee of West Lothian Council	3b. Modernised Library and Information Services	Supportive in principle based on limited detailed information, although continued presence in many communities currently serviced is essential.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19143	An employee of West Lothian Council	3b. Modernised Library and Information Services	This makes sense and may encourage people to use library services.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

This includes a range of self-service, digital and accessible options for customers.
19146	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Agreed where a mobile service replaces any physical library buildings which are closed	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service was unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of digital options.
19147	An individual	3b. Modernised Library and Information Services	Agreed, where access to libraries in communities is maintain by buildings and mobile services	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19148	An employee of West Lothian Council	3b. Modernised Library and Information Services	What CIS, many office close due to staff shortages leaving little service for customers. Not everyone wants to communicate via email, An efficient face to face service is still required	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19149	An employee of West Lothian Council	3b. Modernised Library and Information Services	I feel we should be training people on both library and CIS which means we need less staff to manage and multi skills benefits the customer, effectively.	Modernised Library and Information Services - libraries	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.

19150	An employee of West Lothian Council	3b. Modernised Library and Information Services	The sign of a truly great council is its commitment to their Library Service. Too often and down south Libraries are the east target for cutting, yet provide a wide range of services to the young and elderly many of whom don't have access to a computer or civic information. There should be no further closure of any Library premises in West Lothian communities, unless relocated into a Partnership Centre	Modernised Library and Information Services - libraries	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19151	An individual	3b. Modernised Library and Information Services	Libraries should all be incorporated into partnership/multi-use buildings.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19152	An individual	3b. Modernised Library and Information Services	Hard to envisage where any more cuts can be made as it is already a much reduced library service not as accessible as it was and staff have taken on many additional roles and already been subject to major changes . seems unfair to target services again	Modernised Library and Information Services - libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19153	No Response	3b. Modernised Library and Information Services	I assume this is moving Linlithgow library into the Tam Dayell building which appears to be a good idea if the present services continue to be provided.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19154	An individual	3b. Modernised Library and Information Services	You want to help children be literate. Keep and stock libraries and ensure schools use them. Library staff should be just that. Do environmental health staff give advise on nutrition, book keeping and healthy lifestyle.	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19155	An individual	3b. Modernised Library and Information Services	Empty libraries that are closed should be used to keep kids of the street & more support for vulnerable children	Modernised Library and Information Services - libraries	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people in modern, supported locations where resources are available to those that need them.
19156	An individual	3b. Modernised Library and Information Services	Too many libraries in West Lothian especially in Livingston, West Calder, East Calder, Broxburn area.	Modernised Library and Information Services - libraries	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19157	An individual	3b. Modernised Library and Information Services	Which libraries are you planning to close?	Modernised Library and Information Services - libraries	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. The areas where rationalisation will be agreed upon using performance information such as this demand, the consultation with communities and where a different way of delivering the service will bring improvements to the local area.

19165	No Response	3b. Modernised Library and Information Services	I am surprised that there is not better use of volunteers for some of the council services. For example, I would be happy to volunteer at my local library, but have been told its not necessary -- they are all council employees and volunteers aren't needed. Really?	Modernised Library and Information Services - libraries	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
19166	An individual	3b. Modernised Library and Information Services	the change to opening hours have been deemed a success because people were not aware of the complaints procedures.	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money. The council complaints procedures are widely advertised in buildings and online.
19167	An individual	3b. Modernised Library and Information Services	Libraries should stay open but hours reduced to mirror demand	Modernised Library and Information Services - opening hours	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19168	An individual	3b. Modernised Library and Information Services	at least have one late night opening at libraries - 5pm is too early	Modernised Library and Information Services - opening hours	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Housing, Customer and Building Services carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money.
19169	An individual	3b. Modernised Library and Information Services	Shut the libraries at 5pm at night instead of 8pm as they are very quite at night.	Modernised Library and Information Services - opening hours	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19170	An employee of West Lothian Council	3b. Modernised Library and Information Services	I thought this had already been done, how much more rationalisation can there be. The council spending money on new partnership centres but has restricted opening hours in most libraries with staff in them when they aren't open to the public. How is this saving money? This needs to be addressed, either the opening hours need to be increased or staff should be in other buildings where they are needed not sitting in closed libraries waiting for them to open at 10 or 11 o'clock and close again at 3	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model and by continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19171	An individual	3b. Modernised Library and Information Services	West Calder library has stupid hours as it is.	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19172	An employee of West Lothian Council	3b. Modernised Library and Information Services	Why not open libraries, etc a couple of days a week.	Modernised Library and Information Services - opening hours	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19173	An individual	3b. Modernised Library and Information Services	There should be no reduction in library provision or opening hours. This has an impact on improving literacy and reading from an early age. Libraries are also a hub for the community and provide opportunities for book groups, knitting circles etc.	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19174	An individual	3b. Modernised Library and Information Services	I fail to understand why libraries are open six days a week at 9am but offer services for perhaps only 4-6h (Saturday morning, 1-2 h pw in the evening) to those who work typical 9-5pm Mon-Fri working hours. This seems highly discriminatory. How about a 2pm-8pm opening hours each day (M-F) plus Saturday morning to cater for those in work and currently find it nearly impossible to access this important service.	Modernised Library and Information Services - opening hours	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

Transforming Your Council Consultation 2017

19175	An individual	3b. Modernised Library and Information Services	Opening hours have already been reduced any further reduction would impact on the local community	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services.
19176	An individual	3b. Modernised Library and Information Services	Please extend the opening hours for all libraries. Such a waste to have the books there but can't go at the weekend (except very limited hours on a Sat morning). Should open 12 hour day 7 days a week.	Modernised Library and Information Services - opening hours	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This will include consideration of a range of self-service and digital options, whilst ensuring access to a modern library service is maintained.
19177	An individual	3b. Modernised Library and Information Services	Opening times should match demand	Modernised Library and Information Services - opening hours	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19178	An employee of West Lothian Council	3b. Modernised Library and Information Services	Library provision should be available to the public when the public needs it. A library being open from 10 till 3pm - does not allow children to visit the library after school. Libraries need to attract young people to give them opportunities to learn and use the services they offer, and it helps when this is in a modern integrate building.	Modernised Library and Information Services - opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19179	An individual	3b. Modernised Library and Information Services	Integration of Library and CIS is a positive step but perhaps more focus should be on providing more cover at prime times e.g. 12:00 and 14:00.	Modernised Library and Information Services - opening hours	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19180	An individual	3b. Modernised Library and Information Services	Good idea if building is open to make it more accessible - in Blackridge it is not open a lot/limited access	Modernised Library and Information Services - opening hours	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19181	An individual	3b. Modernised Library and Information Services	The partnership buildings work well within the community and this should be expanded on.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19182	An employee of West Lothian Council	3b. Modernised Library and Information Services	Partnership centres appear to be a good model and are good for customers who have a one stop shop that can answer all question however this relies on efficient working IT systems and processes and IT is not always reliable at present	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19183	An individual	3b. Modernised Library and Information Services	More partnerships centres would be welcome	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19184	An individual	3b. Modernised Library and Information Services	Great idea consolidating everything under one roof	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19185	An individual	3b. Modernised Library and Information Services	availability and accessibility is the key here - more community run and supported locations for access to information	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and self-service/digital options.

Modernised Library and Information Services	I think the partnership model is excellent so green light from me	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19207	An individual	3b. Modernised Library and Information Services	This was a great idea. Well done.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19208	No Response	3b. Modernised Library and Information Services	The transformations of the libraries has been a great thing. Providing a hub for people to go in their local community where they can access information and books is useful. It would be wonderful if these were housed in community centres where spaces could be provided for citizens to meet up.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19209	An individual	3b. Modernised Library and Information Services	Access to a range of Coucil services via libraries appears to have worked well and using any scope to extend this arrangement would seem eminently reasonable.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19210	An individual	3b. Modernised Library and Information Services	Agree. Library venues.could be utilised better by offering extended services providing they are open at hours which suit the working population.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19211	An individual	3b. Modernised Library and Information Services	Co-locating services is great. No cuts to libraries are ever a good idea. They are, or could be, the backbone of so many of the priorities you say you are focused on. Early years, supporting young adults. Digital participation for older people as well as a safe place for some vulnerable young people.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19212	An individual	3b. Modernised Library and Information Services	Where possible having services sharing buildings makes sense, like the library moving to Strathbrock in Broxburn, if this can be replicated elsewhere this should be done.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19213	An employee of West Lothian Council	3b. Modernised Library and Information Services	Having services under one roof in a partnership centre has been a positive change meaning there are less buildings being used and it provides a better service to the public.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19214	An individual	3b. Modernised Library and Information Services	Perhaps the buildings need to work harder to make that possible by locating other services or partner services within some parts of libraries.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19215	An individual	3b. Modernised Library and Information Services	Agreed that the partnership centres already provided in some towns in the county have made it much easier for residents to access a wider number of services provided by the council and partners. As a resident of Armadale I am pleased that a partnership centre is planned for the town and am sure it will be widely used by the local community. One key thing though is that if the provision of partnership centres means that other council offices in the town have to close and become surplus to requirements, it is vital that such buildings are redeveloped at the earliest opportunity and not left empty for a prolonged period of time.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19216	An individual	3b. Modernised Library and Information Services	I worry that staff will be put under further pressure, and some of the staff need further training. Also at present, to access some services, you have to explain to staff in front of other customers with a resulting loss of privacy and dignity.	Modernised Library and Information Services - partnership centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and planning our centres around making sure we try to protect the privacy of customers as far as possible. Your comments will be passed on the senior management team for consideration.
19217	An employee of West Lothian Council	3b. Modernised Library and Information Services	Partnership working is a great idea - bringing services together - I think the thing to be careful of is that not only bringing services together but staff also from different services - consultation is important for staff - but for customers it is beneficial - there is definitely a cross over ie CIS customer/library customers/NHS customers.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19218	An employee of West Lothian Council	3b. Modernised Library and Information Services	makes sense to have everything under 1 roof	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19219	An individual	3b. Modernised Library and Information Services	Could libraries, customer information centres, and community centres be combined to provide a local hub to ensure all age groups and abilities can share services.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19220	An individual	3b. Modernised Library and Information Services	I understand this but it is essential that the level of service is maintained and that there is always a customer service delivery employee in every partnership centre.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services and staff to assist.

19221	An individual	3b. Modernised Library and Information Services	Partnership centre model does appear to be a successful one. It is important that centres have good public transport and path links and sufficient parking.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19222	An employee of West Lothian Council	3b. Modernised Library and Information Services	Please ensure the partnership model is staffed properly to ensure its purpose of a "one stop shop"	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services and staff to assist.
19223	An individual	3b. Modernised Library and Information Services	I feel this is a good idea to have them under one roof as long as they are fully accessible.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service based on the successful partnership model, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19224	An individual	3b. Modernised Library and Information Services	This would only serve to make people have to travel more and some people can ill afford the bus fares. Only adding to their struggle to make ends meet. What is the point in building these partnership centres to rationalise local services. The council is totally irresponsible. This would be a total waste of public money if this was to happen.	Modernised Library and Information Services - partnership centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. Customer feedback and demand has shown us that the partnership model has been a successful change and has brought real benefits to local communities across West Lothian. This proposal includes ensuring there is full access to services for vulnerable people and a range of digital options.
19225	An individual	3b. Modernised Library and Information Services	Agreed One Stop is convenient provided it is available in every town.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19226	An employee of West Lothian Council	3b. Modernised Library and Information Services	The libraries are an excellent resource, which are underutilised. The Partnership model is an effective one.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19227	An individual	3b. Modernised Library and Information Services	The partnership model has worked well despite initial emotional resistance to the loss of stand alone public library buildings. That lesson should be applied to service delivery under review now.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19228	An employee of West Lothian Council	3b. Modernised Library and Information Services	this seems like a good idea to have a number of services under one roof, makes it easier for people to know where to go for advice/help	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19229	An employee of West Lothian Council	3b. Modernised Library and Information Services	It makes sense to consolidate services to one building and provide a partnership working. Then less buildings are required, admin and management can be consolidated and the opportunities for partnership working within the authority will be enhanced.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19230	An employee of West Lothian Council	3b. Modernised Library and Information Services	Shared buildings and reduced number of Council properties should bring cost savings as well as providing lots of services for the public in one location. Should also encourage better working between different services if in one location resulting in a better service to the public.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19231	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Community facilities are essential, the Council is consolidating many services into Partnership centres, although this works for many, small facilities particularly in rural communities are vital for some.	Modernised Library and Information Services - partnership centres	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services and access for a range of customer needs.
19232	An individual	3b. Modernised Library and Information Services	Where is the 'one location'? in each town in WL or 'in Livingston'? Centralisation of all services in Livingston is not equitable.	Modernised Library and Information Services - partnership centres	4. The council is already doing this.	This proposal provides an opportunity to further expand the partnership model in place in Bathgate and Broxburn, with more of these buildings already in construction across the locality. This would see partnership buildings in a number of locations.
19233	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Agreed. Co-location of services is beneficial to communities.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19234	An individual	3b. Modernised Library and Information Services	One stop shops are ideal for the community and for staff.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19235	An employee of West Lothian Council	3b. Modernised Library and Information Services	More purpose built services like the Strathbrock Partnership Centre makes more sense and creates a sense of community engagement and could be used to facilitate community development and support projects.	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19236	An individual	3b. Modernised Library and Information Services	Agree worked well - should move council staff to partnership centre in Armadale	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19237	An individual	3b. Modernised Library and Information Services	Libraries are an easy hit. Moving CIS in along with say housing and registrar functions is a very good idea	Modernised Library and Information Services - partnership centres	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19238	An individual	3b. Modernised Library and Information Services	I wish we had that partnership model in Linlithgow.	Modernised Library and Information Services - partnership centres	4. The council is already doing this.	The new County Buildings in Linlithgow is based on the partnership model and offers opportunities for this to increase in future.
19239	An individual	3b. Modernised Library and Information Services	I don't like the partnership centre in Bathgate. I go to the Advice Shop there and, there's no privacy - everyone can hear what you're saying.	Modernised Library and Information Services - partnership centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19240	An individual	3b. Modernised Library and Information Services	how can you possibly cut this anymore than you have already.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19241	An employee of West Lothian Council	3b. Modernised Library and Information Services	More encouragement of the use of ebooks should be promoted.	Modernised Library and Information Services (general)	4. The council is already doing this.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services

19242	An individual	3b. Modernised Library and Information Services	This service has been rationalised to death, with cuts to staff in library services and CIS, so much so that in times of staff shortages the caretaker's have covered these services!	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities and reprioritise our resources where the demand is.
19243	An individual	3b. Modernised Library and Information Services	Totally agree. E-books and other means unfortunately does mean that I cant even remember the last time I was in a library!	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19244	An individual	3b. Modernised Library and Information Services	Has anyone proof read these questions? What does this jargon mean?	Modernised Library and Information Services (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
19245	An individual	3b. Modernised Library and Information Services	agree. The Bathgate Partnership model is a good one.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19246	No Response	3b. Modernised Library and Information Services	I dont agree with closure of libraries.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19247	An employee of West Lothian Council	3b. Modernised Library and Information Services	There would be short term anguish and concern over this proposal but in the longer term it would become an accepted norm.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities
19248	An individual	3b. Modernised Library and Information Services	That should all go digital.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19249	No Response	3b. Modernised Library and Information Services	These are becoming increasingly important due to the closure of DWP offices and other council offices.	Modernised Library and Information Services (general)	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

19250	An employee of West Lothian Council	3b. Modernised Library and Information Services	As long as the services are still provided.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19251	No Response	3b. Modernised Library and Information Services	Do not reduce front line services any more Not all customers are comfortable with the increased use of technology	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19252	No Response	3b. Modernised Library and Information Services	Putting the library and CIS in the one location is a good idea. Need to ensure sufficient staffing as this is a vital service	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities.
19253	An individual	3b. Modernised Library and Information Services	People should be able to multitask	Modernised Library and Information Services (general)	4. The council is already doing this.	Thank you for your response. Your comment has been noted
19254	An individual	3b. Modernised Library and Information Services	These two sentences are virtually meaningless which is not a great way to undertake a consultation. What exactly is being proposed?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model of multiple services in one building, we will deliver library and information services that meet the changing needs of our communities. This includes more self-service and digital options.
19255	An employee of West Lothian Council	3b. Modernised Library and Information Services	Need to explain how it will be rationalised to allow comment	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19256	An employee of West Lothian Council	3b. Modernised Library and Information Services	We have access to colour printing that could be used more to generate income. Due to staffing levels and not having a designated trainer for the service this has delayed the cross training that was to take place across the service so we do not have as many CIS trained staff in the service as is required to run the integrated service. We also have very low demand for the service in some locations and the service could be reduced if demand was looked at in these areas.	Modernised Library and Information Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. Consideration will be given to facilities offered in libraries as part of the development of this proposal.
19257	An individual	3b. Modernised Library and Information Services	Good to use libraries not only for books but for other council services making good use building	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19272	An individual	3b. Modernised Library and Information Services	See above - I agree with the proposal to improve the quality and accessibility of customer services in the Council.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19273	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Does this mean closure of libraries and or facilities or a reduction in opening hours. If the facilities/services are to be centralised is the facility they are being moved too fully accessible? Fully assess the impact of this saving to ensure social isolation, transport links, health impacts, equality impacts and socio-economic impacts (poverty) are considered .i.e. is the bus route accessible, how often is there a service, would it affect one group more disproportionality than an other.	Modernised Library and Information Services (general)	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally, based on the successful partnership model, this proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people. This will include a full consideration of customer needs through an equality impact assessment.
19274	An individual	3b. Modernised Library and Information Services	Would this mean the staff in these areas would be redeployed?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19275	An individual	3b. Modernised Library and Information Services	This is working well so if it's not broken then it does not need fixing, for the small amount of money involved leave it alone.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.

19276	An individual	3b. Modernised Library and Information Services	Is this location accessible especially to young families and older people who are more likely to use the service	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19277	An employee of West Lothian Council	3b. Modernised Library and Information Services	These are vital services not just for WLC to deliver but for the health and well being of all people of all ages. To remove them would be a travesty. We need more of them not less.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19278	An employee of West Lothian Council	3b. Modernised Library and Information Services	Feel this could work. We have about 3 libraries that could close making savings and think we need to consider the opening hours of CIS across the service.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money and make best use of our staff and resources.
19279	An individual	3b. Modernised Library and Information Services	Yes develop libraries as a council info hub but what if there's not one locally? Could health centres be developed as info.access points if there's no local library or other council building? Could NHS and education staff be supported to become better signposters'? In terms of prevention strategies you do need to think about how you find about people who may not be seeking services and not engaged with any community resource but for whom you have a statutory responsibility. Think about the distance you put between yourselves and smaller communities when you close council facilities - how do you ensure the informal local intelligence about individuals and families you pick up by having staff physically based in a locality is not lost? E.G. how do you keep informal contact with other professionals and community services, shops etc/ Also beware the universal credit helpline debacle- there has to be a free phone option.	Modernised Library and Information Services (general)	4. The council is already doing this.	Based on the successful partnership model in place in some areas of West Lothian, this proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people. The Universal Credit helpline and any charges for using it is unfortunately outwith the responsibility of West Lothian Council as this benefit is controlled by the Department of Work and Pensions (DWP). You can seek support from our Advice Shop in Bathgate Partnership Centre, online at https://www.westlothian.gov.uk/advice-shop or by calling the local number - 01506 283000.
19280	An individual	3b. Modernised Library and Information Services	What services remain and where would these cuts effect.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19281	An individual	3b. Modernised Library and Information Services	Most library systems and available training are out of date and staff are unable to support the wide range of devices in a BYOD situation. Most centres are risk averse and only recently has Wifi been available. A lack of understanding of cyber security needs to be addressed.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19282	No Response	3b. Modernised Library and Information Services	More and more people are becoming technologically aware and more comfortable with accessing services online. This makes sense and should work provided that facilities are available in same number of venues although perhaps not the traditional ones ie libraries, supermarkets, community centres. There does need to be an option available for people who are unable to use digital services.. Also helps libraries as less people are reading books or using library services.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19283	An employee of West Lothian Council	3b. Modernised Library and Information Services	This is an inevitable change, however thought should be given to how to support the small minority of people who really rely on such local front line services. Numbers are reducing, but we need to recognise that such closures and changes will leave some sections of the community isolated.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19284	No Response	3b. Modernised Library and Information Services	What about a mobile service for both. This could cover all areas and assist people who find it difficult to visit the one location? Alternatively these services could be provided in any council public building. Staff could be more mobile and spend one day per week at a different location.	Modernised Library and Information Services (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The library van provision was fully reviewed in 2015 - this showed a lack of demand which made the high cost of continuing to provide this service unsustainable, and a decision was taken to remove the service. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people and a range of digital options.
19285	An individual	3b. Modernised Library and Information Services	This is often a vital service to the communities they serve and I think this should be revisited	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19286	An employee of West Lothian Council	3b. Modernised Library and Information Services	Who apart from senior managers this this is a successful model. Can this service be rationalised further? What you mean is the already frazzled staff will be expected to do even more.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Customer satisfaction with the partnership model has shown this way of delivering services to them is their preferred option. The need to make the best use of resources means the library and information service has to change to meet the demands of customers whilst achieving value for money. By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19287	An individual	3b. Modernised Library and Information Services	How will priority and non-priority areas be identified and on what basis?	Modernised Library and Information Services (general)	4. The council is already doing this.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money.
19288	An individual	3b. Modernised Library and Information Services	Not everyone has internet access and provision should be provided locally.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19289	An employee of West Lothian Council	3b. Modernised Library and Information Services	Having worked in Libraries, CIS and Community Centres this has not been successful according to the staff	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19290	An employee of West Lothian Council	3b. Modernised Library and Information Services	Would agree without losing accessibility to the diverse range of customers throughout WLC.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people including a range of self-service and digital options.

19291	An individual	3b. Modernised Library and Information Services	Don't need libraries if you are investing in a channel shift and digital transformation programme!	Modernised Library and Information Services (general)	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services.
19292	An employee of West Lothian Council	3b. Modernised Library and Information Services	There has been a lot of rationalisation already. The staff are having their skills diluted by having to do many different jobs.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Following the redesign of Library and information Services, staff roles and the training for these roles are now generic which enables free movement of across a range of locations in West Lothian. Performance in monitored to ensure staff decisions and individual performance are examined to ensure they have the knowledge and understanding to carry out their job.
19293	No Response	3b. Modernised Library and Information Services	I believe centralization of Local Authority services a mistake. It may provide a short term financial gain when selling of the facilities but would mean people living in the community would need to travel further to reach the affected services. This could impact badly on the elderly, disabled and those with young families. It would also increase the use of cars adding to pollution levels, congestion and issues with parking.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19294	No Response	3b. Modernised Library and Information Services	Continue this proposal - rationalise based on footfall but also on demographics	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money.
19295	An individual	3b. Modernised Library and Information Services	Opportunities for volunteering to maintain service provision?	Modernised Library and Information Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
19296	An individual	3b. Modernised Library and Information Services	I feel that services should be available but not all in the one place, require 1 to 1 support and would be a greater choice for people	Modernised Library and Information Services (general)	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities.
19297	An individual	3b. Modernised Library and Information Services	Does this mean more job losses ?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19298	An individual	3b. Modernised Library and Information Services	More of this type of saving should be explored	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19299	An individual	3b. Modernised Library and Information Services	could make it harder for people from low income households to obtain books.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people including a range of self-service and digital options.

19300	An individual	3b. Modernised Library and Information Services	This seems a modest estimated saving - why?	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money. Savings are based on moving to the successful partnership model of service delivery.
19301	An individual	3b. Modernised Library and Information Services	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reach is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve. How will residents know when this is achieved?	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Following the redesign of Library and information Services staff roles and the way in which we deliver the service was modernised to work in the new partnership buildings. We intend to roll this model of service delivery our further due to it's success and customer satisfaction. By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities.
19302	An employee of West Lothian Council	3b. Modernised Library and Information Services	This can lead to staff who have too many jobs to do and this can lead to them not being fully aware of all the implications of their actions.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Following the redesign of Library and information Services, staff roles and the training for these roles are now generic which enables free movement of across a range of locations in West Lothian. Performance in monitored to ensure staff decisions and individual performance are examined to ensure they have the knowledge and understanding to carry out their job.
19303	An employee of West Lothian Council	3b. Modernised Library and Information Services	I think its fair to say the partnership centre's are a great idea and the local communities seem to think so also. If rationalised means cutting staff and equipment etc I would disagree with this. This will affect the communities paying Council tax for services. Plus the employees being paid off and having a chain reaction to their families.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model, we will deliver library and information services that meet the changing needs of our communities. This will include a range of options such as self-service and digital choices.
19304	An employee of West Lothian Council	3b. Modernised Library and Information Services	The older generation could be impacted by this as people like to speak to an individual to help with issues & understand better.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities. This includes ensuring there is full access to services for vulnerable people.
19305	An individual	3b. Modernised Library and Information Services	It's impossible for this service to be rationalised further it is already cut to the bone	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities based on the successful partnership model. This includes a range of considerations around more self-service and the digital transformation of services
19306	An individual	3b. Modernised Library and Information Services	This is a shame in my opinion however it is tough times.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19307	An individual	3b. Modernised Library and Information Services	As above. Agree with this. But can't remove everything in case you are alienating customers who are not digital minded. This provides people in locations to know of vulnerable people in communities.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places like Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This will include a range of considerations such as self-service and digital options, whilst ensuring access to modern facilities for vulnerable people.

19315	An individual	3b. Modernised Library and Information Services	To some degree, this would be a reasonable move but not if it means there are only a couple of CIS and library service available across West Lothian.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places like Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This will include a range of considerations such as self-service and digital options, whilst ensuring access to modern facilities for vulnerable people.
19316	An individual	3b. Modernised Library and Information Services	what does "rationalised" mean here? usually a word for reducing availability of these services.	Modernised Library and Information Services (general)	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places like Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This will include a range of considerations such as self-service and digital options, whilst ensuring access to modern facilities for vulnerable people.
19317	No Response	3b. Modernised Library and Information Services	Having the Library and CIS trained multi skilled will mean less staff needed to do both jobs.	Modernised Library and Information Services (general)	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19318	An employee of West Lothian Council	3b. Modernised Library and Information Services	Re Libraries: do more of what's working and less of what isn't. Close Blackridge library. Reduce the hours of West Calder Library. Many libraries in England close 2 or 3 days per week. Develop a marketing strategy to ensure the service is promoted and people know where to go, what's on and what to expect. Create a 'brand'. Invest in appropriate staff training - many of the staff have been there for 25 - 30 years and are jaded, lacking creativity and energy.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities based on the successful partnership model in place in places like Bathgate and Strathbrock in Broxburn. This includes a range of considerations around more self-service and the digital transformation of services
19319	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Provision in Library and Customer Information Services (CIS) would be rationalised - why are they not currently?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities.
19320	An individual	3b. Modernised Library and Information Services	If you cut this much more it will not exist	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19321	An employee of West Lothian Council	3b. Modernised Library and Information Services	Building rationalisation makes sense. Replicating provision in all communities in such a small geographical area as West Lothian is no longer affordable particularly when usage levels are low. However effective transport links need to be maintained to allow customers to travel to centralised services.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19322	An individual	3b. Modernised Library and Information Services	Diversity in these two different services can make them difficult to combine. Job roles and contracts only two of the issues.	Modernised Library and Information Services (general)	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required. This proposal provides an opportunity to modernise and achieve better value for money. By continuing to transform the way in which we provide this service, we will deliver services that meet the changing needs of our communities.
19323	An individual	3b. Modernised Library and Information Services	So as per above, if services are more revitalised access and support Will be required for some groups in society - how will that be achieved with less library and cis support?	Modernised Library and Information Services (general)	4. The council is already doing this.	Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19324	An individual	3b. Modernised Library and Information Services	This would only work if other sites are accessible.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19325	An individual	3b. Modernised Library and Information Services	By joining and training workforce to do both roles then during quieter periods there is need for less staff to be on duty.	Modernised Library and Information Services (general)	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19326	An individual	3b. Modernised Library and Information Services	Does "rationalised" mean cut? Please clarify.	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19327	An individual	3b. Modernised Library and Information Services	Why have you been wasting so much of our money up to this point?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19328	An individual	3b. Modernised Library and Information Services	Simple statement, but as for many answers above, needs to be planned effectively, delivered efficiently and benefits realised.	Modernised Library and Information Services (general)	4. The council is already doing this.	Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.

19329	An employee of West Lothian Council	3b. Modernised Library and Information Services	This is fine as long as the staff are supported and the proper training is in place - its also important not to dilute to level of skills the library and CIS staff have as they are a great support to other services within the Council and their role should not be underestimated.	Modernised Library and Information Services (general)	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This has seen the roles combine the skills of both Customer Service and Libraries staff and enabled the sharing of these skills. This flexibility will enable the movement of staff within the service during the modernisation of the service if required
19330	An individual	3b. Modernised Library and Information Services	No more losses please	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19331	An individual	3b. Modernised Library and Information Services	Should be reviewed case by case rather than generically	Modernised Library and Information Services (general)	4. The council is already doing this.	HCBS carefully monitor the performance of all aspects of our service, including customer demand and use of our services and facilities. This helps to guide improvements and offers us opportunities to modernise the way in which we deliver services to customers. This allows us to achieve better value for money.
19332	An individual	3b. Modernised Library and Information Services	This is one area where your proposals might work. Could it be that the staff are better or the environment is right.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19333	An individual	3b. Modernised Library and Information Services	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled. I would ask if the demand justifies the costs for these services in our digital world. I understand that there is a social aspect for a few - but as we now have hard choices does this justify the cost. I think not.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19334	An individual	3b. Modernised Library and Information Services	I thought that this was done last year.	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	By continuing to transform the way in which we provide this service, we will deliver library and information services that meet the changing needs of our communities. This includes a range of considerations around more self-service and the digital transformation of services
19335	An employee of West Lothian Council	3b. Modernised Library and Information Services	More needs to be done in schools to encourage younger people and future council tax payers to use these facilities and realise the benefit of them. The libraries and information services could work more closely with student development thus increasing the footfall within these sadly disappearing services.	Modernised Library and Information Services (general)	4. The council is already doing this.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19336	An individual	3b. Modernised Library and Information Services	Again, as long as staff are not left struggling to cope, then this sounds reasonable.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19337	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Modernised Library and Information Services (general)	4. The council is already doing this.	Aside from considering the public on their views of the impact on them, an equality impact assessment forms part of the planning of this proposal and will take place before a final decision is made.

19338	An individual	3b. Modernised Library and Information Services	Still ensuring Staff are appropriately trained in all aspects of the technology.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19339	An employee of West Lothian Council	3b. Modernised Library and Information Services	Minimal saving but again seems likely this service is already struggling and may be getting vulnerable to not being viable.	Modernised Library and Information Services (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19340	An individual	3b. Modernised Library and Information Services	What do you mean by 'rationalised'?	Modernised Library and Information Services (general)	3. The respondent advised that they had no comment to make.	The delivery of a library service is a statutory duty which means this service will continue to be provided by WLC. The way in which libraries are used is changing and their use is declining both nationally and locally. Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers.
19341	An employee of West Lothian Council	3b. Modernised Library and Information Services	using these offices for things like overtime from St David house staff on evenings or Saturdays would mean use of desks in an office that is still open to the public.... do these offices need to be open on a Saturday afternoon and Sundays or they should be closed earlier in the evenings. only open certain nights or hours	Modernised Library and Information Services (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
19342	An individual	3b. Modernised Library and Information Services	I support increasing digitization / rationalisation of CIS and library	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19343	An individual	3b. Modernised Library and Information Services	I support increasing digitization / rationalisation of CIS and library	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19344	An employee of West Lothian Council	3b. Modernised Library and Information Services	Have transport links / frequency been taken into account when reducing locations accessible to the public?	Modernised Library and Information Services (general)	4. The council is already doing this.	Based on the successful partnership model in places such as Bathgate and Strathbrock in Broxburn, we will deliver library and information services that meet the changing needs of our communities. This includes a range of self-service, digital and accessible options for customers. This includes consideration of transport links.
19345	An individual	3b. Modernised Library and Information Services	Numbers in regard to staffing are already cut to the bone. Further cuts to staff that might be proposed due to co-location would be detrimental to morale and above all to the West Lothian public. Training to allow the staff to be fully integrated must be provided and appropriate resource and time allowed for this to happen. Across admin/CSC/CIS/Libraries and other functions could there not be created super users so that staff could be more easily utilised in a number of different departments as required?	Modernised Library and Information Services (general)	4. The council is already doing this.	Following the redesign of Library and information Services, staff roles are now generic which enables free movement of across a range of locations in West Lothian. This flexibility will enable the movement of staff within the service during the modernisation of the service if required.
19346	On behalf of a Group/Organisation	3b. Modernised Library and Information Services	We agree with the proposal to improve the quality and accessibility of customer services in the Council.	Modernised Library and Information Services (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19347	An individual	3b. Modernised Library and Information Services	.	No preference given	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted

19718	An individual	3c. Integrated Anti Poverty Service	Agree, but good training required.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19719	An individual	3c. Integrated Anti Poverty Service	This sounds like a positive move to provide a one stop shop style service.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19720	No Response	3c. Integrated Anti Poverty Service	The Council should be ashamed of themselves after the last round of 'savings' that there are still services within their control that is showing duplication - fair play to you for admitting it is still happening but I would be mortified!!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19721	An individual	3c. Integrated Anti Poverty Service	Good money saving proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19722	An individual	3c. Integrated Anti Poverty Service	probably overdue	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19723	An individual	3c. Integrated Anti Poverty Service	Joining up both these teams seems a sensible option if it can make savings and improve the service to people.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19724	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	This makes sense if customer access is maintained via effective public transport.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19725	An individual	3c. Integrated Anti Poverty Service	I agree with the above, however the above suggests further staffing cuts	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19726	An individual	3c. Integrated Anti Poverty Service	Vital service that needs to be supported.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19727	An individual	3c. Integrated Anti Poverty Service	Improved services and options are always a plus.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19728	An individual	3c. Integrated Anti Poverty Service	Any removal of duplication in this area is supported	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19729	An individual	3c. Integrated Anti Poverty Service	Agree with this. Clearly worded question for a change!	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19730	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There is a lot of great anti-poverty work on West Lothian. Given the importance of this work and the duties on the council and partners to tackle inequalities through the community empowerment act/child poverty bill this work should continue and in fact be increased. The change in team structure should benefit this and will hopefully not mean fewer staff delivering more services	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19731	An individual	3c. Integrated Anti Poverty Service	The idea of 'one stop' seems logical	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19806	An individual	3c. Integrated Anti Poverty Service	I do not support this as I know the full roll out of Universal Credit will have a huge impact on poor families & centralised services will not be accessible to those in outlying villages with limited income for travel costs. Similarly, UC claimants will rely on accessing IT equipment in both libraries & community centres/halls so cuts to this provision will again impact on the poorest in our authority.	Does not agree with proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19807	An individual	3c. Integrated Anti Poverty Service	I agree that this work needs to be combined to ensure that our residents are getting the best advice.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19808	An individual	3c. Integrated Anti Poverty Service	I don't understand. Isn't the 'Advice Shop' independent? How would this be affected if combined with 'The Benefits Team' - which is what exactly? Employed by DWP? I am all in favour of 'removal of duplication', but don't understand this well enough to comment. However, I would again emphasize that this would affect some of the most vulnerable and disadvantaged people, already pumelled by swingeing ongoing never-ending changes in the welfare system.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Both the Advice Shop and the Benefits Team are council services and are not provided by the DWP.
19809	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Great idea however make sure the team either have someone based at all partnership centre or have a dedicated say/couple of days at each venue to deal with local customer needs. Customers should not be expected to travel across the region for specialist help	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.

19810	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	SUPPORT. ALIGN WITH SCOTTISH WELFARE FUND STUFF	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19811	An individual	3c. Integrated Anti Poverty Service	this needs to be accessible throughout west Lothian. Some people are unable to travel to and from source or basically cannot afford the bus fare.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19812	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Needs to be more efficient and effective	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19813	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I agree this sounds reasonable as long as the resources are available to meet the need of the service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19814	An individual	3c. Integrated Anti Poverty Service	as long as the team know what they are doing fine.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams.
19815	An individual	3c. Integrated Anti Poverty Service	Due to recent welfare benefit changes the need for Advice shop and Benefit workers has increased substantially. Agree that teams should be combined but number of posts should not be reduced.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19816	An individual	3c. Integrated Anti Poverty Service	no issue with consolidation	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19817	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I agree that duplication can cause too much bureaucracy	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

19818	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I am concerned at any cut to provision which works to reduce poverty. I can't see how that won't be counter productive.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19819	An individual	3c. Integrated Anti Poverty Service	ensure all advice staff are paid at the same grade. Too many team leaders and or manager levels.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19820	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I do not agree with combining the Advice Shop and Benefits Team. The Benefits Team provide a statutory requirement, the Advice Shop are largely funded and are not providing a statutory requirement	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19821	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Advice Shop services are not statutory; Benefits team are- how could this be reconciled?? AS are already run off their feet trying to cover everything they have to do; benefits are dealing with Universal Credit and an increasing workload for the Scottish Welfare Team as the public find it difficult to cope with Welfare Reform- attempting to combine services would be a disaster	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19822	An individual	3c. Integrated Anti Poverty Service	I fail to see a duplication in these services. The Advice Shop, helps people claim benefits, amongst other things whilst the benefits team deliver benefits and are decision makers to the public. This is vastly different and the two teams merging, could become a conflict of interest. The residents of West Lothian receive an impartial service from the Advice Shop and always have done, however merging these two services could result in the people of West Lothian, who use the Advice Shop, become increasingly wary and a loss of trust.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. As these teams provide services to common customers, there is an opportunity to work together in delivering services and where possible eliminate some duplication of advice and support.
19823	An individual	3c. Integrated Anti Poverty Service	Advice Shop & Benefits Team need to engage with partners/ provide training to support introduction of PIP which will impact on customers we engage with	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community through bringing together council services. Officers will consider opportunities to work further with other partners and providers to deliver advice and support.
19824	An individual	3c. Integrated Anti Poverty Service	I think you should cut these services altogether. Many people in work take home less money than some benefit claimants. If people are dissatisfied with welfare and 'poverty' send them to the job centre.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19825	An individual	3c. Integrated Anti Poverty Service	consideration should also be given to external funded advice services to bring them into the new anti-poverty service.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community through bringing together council services. Officers will consider opportunities to work further with other partners and providers to deliver advice and support.

19826	An individual	3c. Integrated Anti Poverty Service	Citizens Advice provide the same advice and are not funded by WLC why pay for a service.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19827	An individual	3c. Integrated Anti Poverty Service	Get into places that need it most and spend more time on prevention	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19828	An individual	3c. Integrated Anti Poverty Service	Too many people doing the same job is wasteful.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19829	An individual	3c. Integrated Anti Poverty Service	Perhaps you need to look in to the roots of the problem.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19830	An individual	3c. Integrated Anti Poverty Service	This service has too many teams. More work could be passed to the Citizens Advice Bureau.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. Officers will consider opportunities to work further with other partners and providers to deliver advice and support.
19831	An individual	3c. Integrated Anti Poverty Service	Would assume it would be easier for people who needed to access these services to have them under one roof or umbrella	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19832	An individual	3c. Integrated Anti Poverty Service	Placing all help and support into one place can only be a good thing, provided it is resources properly	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19833	No Response	3c. Integrated Anti Poverty Service	Again, pressures on remaining staff would be a key issue. Can they cope?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19834	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	People in receipt of welfare already suffer disproportionately. If it won't affect level of service, fair enough. If it does, then I could not support this.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19835	An individual	3c. Integrated Anti Poverty Service	Would these services be available to people without them having to pay to access them through travel? These are the people who are least able to afford to travel.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19836	An individual	3c. Integrated Anti Poverty Service	would be good to have a single source of all information / help and support - very disjointed at present / numerous departments whose roles could be integrated	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19837	An individual	3c. Integrated Anti Poverty Service	and removal of duplication makes sense. However, demands on this service are already very high, so i would hope that the changes would not decrease the support any further.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19838	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Why is it the Council's responsibility when people cannot manage their own finances? Citizen's advice already offer this service.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19839	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	As mentioned previously this will only work if frontline resources are not cut at the expense of middle management. In a time of austerity any such proposals will leave service users excluded. This will in-turn increase costs in other service areas such as homeless prevention and housing. At present the Advice Shop has 5 seniors alongside the anti-poverty & welfare advice manager for roughly 50 staff. This seems wasteful and bloated.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19840	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Savings can be met from cutting management in this area and line leaders from the benefits team.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19841	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There is also duplication between the Advice Shop and the Corporate Advice Team in relation to money advice and welfare rights.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19842	An individual	3c. Integrated Anti Poverty Service	Anything that be done to remove duplication both administratively and for residents can only be a good thing	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19843	An individual	3c. Integrated Anti Poverty Service	Support proposal to centralise and amalgamate services as is seen in all industries to manage costs and savings.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19844	An individual	3c. Integrated Anti Poverty Service	Why are you not already doing this? Why is there duplication at present?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
19845	An individual	3c. Integrated Anti Poverty Service	These need to be in local areas, not centralised to Livingston. A few years ago I went through a particularly horrific divorce, without help from the local Advice Shop. Not everyone can get to Livingston yet everything is based there. Even if there is a team who goes to each Partnership Centre once or twice a week for appointments, rather than expect people needing advice so therefore in a distressed state to find their way to Livingston. Public transport is particularly poor from Linlithgow to Livingston and in all the small towns.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19846	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	the funding to citizens advice and other external advice providers should be significantly reduced. the advice shop should be protected.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.

19847	An individual	3c. Integrated Anti Poverty Service	As long as users can be easily guided through the more complicated structures that this will inevitably involve then makes sense.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19848	An individual	3c. Integrated Anti Poverty Service	This approach, coupled with CAB is sensible. Individuals should not have to go to different places to get their advice. However, with the poor transport in many areas of west Lothian, having just one "hub" may not be sufficient. There is a need to continue with CAB because of its diverse range of advice as well as independent benefit advice with no timescale provided when dealing with clients.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19849	An individual	3c. Integrated Anti Poverty Service	Get rid of poverty... too many cuts!!	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19850	An individual	3c. Integrated Anti Poverty Service	It's about jobs.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19851	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Won't work as staff on different pay grades	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams.
19852	An individual	3c. Integrated Anti Poverty Service	Good rationale, however again this should be a layered system, rather than meeting the needs of only the prioritised. This approach is flawed throughout all of your policy changes. You plan to meet the needs of a minority, leaving the majority without support or service.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council delivers a broad range of services - universal provision to all and more targeted interventions to those who require it. The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The council will deliver this priority through helping people to help themselves out of poverty and providing sustainable solutions to the problems faced.
19853	An individual	3c. Integrated Anti Poverty Service	as long as enough staff and offered support as can be dealing with the brunt of anger - I know of a couple of people who left their jobs as not supported with the onslaught they received daily	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. Training will be provided to help facilitate the integration of this service.
19854	No Response	3c. Integrated Anti Poverty Service	I agree. However if west Lothian council were giving better training on Benefits they could support their tenants with advice & management.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Benefits staff currently receive an extensive programme of training before processing claims. Through closer working with the Advice Shop and other areas of the council, such as Housing, this should improve the quality of support and advice provided. Training will be provided to help facilitate the integration of this service.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19855	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	if the right information gets to the people in most need that is the most important thing.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19856	An individual	3c. Integrated Anti Poverty Service	All for joined up services. Outreach a good idea from a central location. NB No point in expecting people to have access to digital resources!	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19857	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Removal of duplication is always welcome and a positive way to move forward.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19858	An individual	3c. Integrated Anti Poverty Service	With introduction universal credits It makes sense to have all welfare teams working together but to save on people being in arrears over rent and housing benefit money should not go direct to customers it should be paid direct to housing like it use to , sadly although the majority of council tenants do pay on time you will always get the people who think nothing of not paying their way in society and every debt you have is another loss in services	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity. The mechanism for paying housing benefit is established by law at a national level.
19859	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Removal of duplication of services makes perfect sense and provides an improved service to our customers.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19860	An individual	3c. Integrated Anti Poverty Service	is training going to be provided for both sets of staff	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.
19861	An individual	3c. Integrated Anti Poverty Service	As long as in doing this people don't have to wait forever for support that's needed	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19862	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	More job losses ? Again, hurting those most in need.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19863	An individual	3c. Integrated Anti Poverty Service	I agree with this as long as the teams know all the information the enquirer might need otherwise it is a waste of time	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.

19864	An individual	3c. Integrated Anti Poverty Service	This non-statutory area of activity should be reduced significantly. There is considerable duplication with the third sector - CAB for example. Advice on central government benefits should be the responsibility of central government.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. Officers will consider opportunities to work further with other partners and providers to deliver advice and support.
19865	No Response	3c. Integrated Anti Poverty Service	I agree the advice shop has too many staff	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required to support this essential service for the most vulnerable in the community will be considered as part of the implementation of the new team.
19866	An individual	3c. Integrated Anti Poverty Service	Where is the role of the CAB and Vol Sector in this?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19867	An individual	3c. Integrated Anti Poverty Service	Close the advice shop and put online or make a call centre. Waste of money.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19868	No Response	3c. Integrated Anti Poverty Service	Crucial that this revised model works. Careful monitoring required.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19869	An individual	3c. Integrated Anti Poverty Service	I agree with this proposal. A more joined up anti poverty service will be critical for dealing with the roll out of Universal Credit.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community
19870	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Could be a conflict of interest with Advice Shop appealing against decisions made by Benefits Section	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19871	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	ok - good if can all be dealt with by one team	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19872	An individual	3c. Integrated Anti Poverty Service	I think you should be giving them more money not less, Universal credit will be with us in Feb 18, we need to get ready	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19873	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The integration of these teams must be handled appropriately, although both teams operate under the umbrella of welfare benefits; the functions performed are fundamentally different. The Advice Shop in essence provides advocacy and assistance to claimants for all welfare benefits including those administered by the councils benefit team, this can involve challenges to benefit decisions made. The benefit team administer Housing Benefit, Council Tax Reduction, Discretionary Housing Payment and the Scottish Welfare Fund which are statutory required functions. These benefits are administered to legislative requirements set by the UK and Scottish Government and as such are subject to external audit. It is imperative in my view that a clear distinction remains between the decision making process and any advocacy/representation provided to claimants.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.

19874	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Remove anything that is non-statutory	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19875	An individual	3c. Integrated Anti Poverty Service	As long as this did not impact on the service delivery. This is a necessary service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19876	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	They can support people to get online!	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council has a number of initiatives, including support provided by the Advice Shop, to improve computer literacy.
19877	No Response	3c. Integrated Anti Poverty Service	good idea as long as help was still there.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19878	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	consolidation of these teams would be an improvement to service delivery. This may however impact staffing levels, which would then impact staff morale.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19879	An individual	3c. Integrated Anti Poverty Service	This is a great idea and allowing West Lothian Council to look at best customer delivery service and alleviate overpayments, sharing information to save arrears, to alleviate poverty for customers who are in crisis.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19880	An individual	3c. Integrated Anti Poverty Service	With increasing numbers of workers earning insufficient wages/salaries to provide for their families, this is a key area of support.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19881	An individual	3c. Integrated Anti Poverty Service	There should be a shift to third sector providers such as the Citizen's Advice Bureau and vol orgs.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19882	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There is a danger here that by joining these two teams, the Advice Shop loses its ability to provide the "independent" advice it is trusted by the West Lothian public to provide. What service improvements have been identified? Both teams carry out intrinsically different roles; Benefits Team are generally involved in the administration of Housing and Council Tax Benefits and Welfare Fund payments whilst Advice Shop provides advice, information and representation on a wide range of issues. There does not appear to be "duplication" and further information is required as to what is regarded as duplication and where savings can be made.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication.
19883	No Response	3c. Integrated Anti Poverty Service	Bad idea benefits and advice shop focus on different outcome's	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19884	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	People would lose jobs to save money? It's not helping the anti-poverty ethos of the council.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19885	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Cynical. This is not a statutory service, never has been. Given that it grew out of a volunteer service (myself included) in the early 1980s it is concerning to think that integration may well be driven by WLCs NEED to maximise income and NOT citizens. Targeted and priority will be to ensure benefits are gained to ensure those who need to pay council bills do so. Good One!	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19886	An individual	3c. Integrated Anti Poverty Service	Obesity levels are on the rise, yet levels of poverty are also at an all time high ? I've been to Africa, South America, Asia, Eastern Europe etc and what we call 'poverty' is insulting to those living in the poor regions of this earth. Not having the latest computer game/trainers/mobile phone/money for fags and booze (or worse) is NOT poverty.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19887	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Benefit specific advice should come from the benefits team, the people dealing with their claims. Energy advice, money & debt advice etc should be the advice shop. Two distinct areas, within one team if these were merged.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19888	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Agreed - I currently work in this area and think the savings could be greater and productivity increased. Needs robustly and effectively managed - perhaps the introduction of targets and outcomes would assist the overall measurement and demand for this service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19889	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Not sure how this would work as they have conflicting jobs. Advice shop often help customers challenge the benefit teams decisions I feel advice shop would benefit from the assistance of the benefit team who have a varied knowledge	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.

19890	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Working in the Benefit department, I feel that combining the Advice Shop and Benefits Team would be a conflict of interest as the Advice shop challenge a lot of the decisions that are made by Benefits so would be working against each other. There is no duplication of work between the benefit department and the advice shop other than that the Advice shop can give some advice with regards to benefits, I do not feel that the service would work either from an employee point of view or from a customer point of view. It would be better to combine all means tested benefits including school meals and clothing grants into the benefit team and then it could all be dealt with as one point of contact and we would be able to check that customers are receiving everything that they are entitled to.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19891	An individual	3c. Integrated Anti Poverty Service	As someone who has had a family member be in touch with the Advice Shop, they are stretched to their limit and although do sterling work are in demand.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19892	An individual	3c. Integrated Anti Poverty Service	Support the development of one team to provide this service and remove duplication	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
19893	No Response	3c. Integrated Anti Poverty Service	I agree that joining up services would be beneficial as often there is more than one need which hopefully could be dealt with in a one stop shop	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19894	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Good idea. Teach people how to live. Not just spend.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19895	An individual	3c. Integrated Anti Poverty Service	Depends on where this service was provided. Anti poverty and advice needs to be within communities	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19896	An individual	3c. Integrated Anti Poverty Service	Again small beer	Integrated Anti Poverty Service (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
19897	An individual	3c. Integrated Anti Poverty Service	This service is a must for all	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.

19898	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Good Idea but what is going to happen with the management that means there will be both groups doing the different roles and more managers to answer to	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19899	An individual	3c. Integrated Anti Poverty Service	Good idea. Saves people having to explain same thing to 2 different organisations	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19900	An individual	3c. Integrated Anti Poverty Service	Early intervention on not relying on benefits for teenagers through to adulthood, repetitive lifestyles need to be looked at.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19901	An individual	3c. Integrated Anti Poverty Service	Joined up services in relation to Benefits, anti-poverty initiatives and care provision is necessary to ensure issues are identified and tackled at an early stage. Too often people in poverty are being left with only voluntary and charity organisations to support them. Local councils and central government need to do more to fix the broken system.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19902	An individual	3c. Integrated Anti Poverty Service	I have had wonderful service from both of these services....mainly the housing benefit team. They have given me more help and advice on my entitlements to benefits than I have received from the Department for Work & Pensions and HMRC. Of all the Council services, any loss or reductions to this service would impact on me the most.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19903	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	It is also recognised that some of the savings mentioned in the proposal document such as additional work coming into the new anti-poverty team, could put these support functions under additional pressure	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
19904	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care (see section 6), school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the benefit Team, will jobs be ring fenced to protect jobs for staff either within those teams and at certain grades	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
19905	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	This section also links back to section 3c, the new Anti-Poverty team and the suggestion of charging for non residential care for the elderly. Should this be agreed, the administration of this would be best placed under the same team, if agreed, that all financial assessments will be assessed	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process.

19906	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	the advice shop help u alot	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19907	An individual	3c. Integrated Anti Poverty Service	Those in need are most imporant	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19908	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	This will improve the service and allow service users to have this information in the one place.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19909	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	It seems as though these two teams would be at odds with each other and so I'm not convinced that this would work well. From what I understand, they regularly challenge each other's decisions and often don't agree and so I can't see this proposal working harmoniously.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19910	An individual	3c. Integrated Anti Poverty Service	Maybe more focused but team will end up overstretched - stressed and then workers absent from work both long and short term.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19911	An individual	3c. Integrated Anti Poverty Service	You need more than one Advice Shop.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19912	An individual	3c. Integrated Anti Poverty Service	dows this mean a reduction on staff putting longer waiting times for people seeking advice	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19913	No Response	3c. Integrated Anti Poverty Service	Use one stop shop.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19914	An individual	3c. Integrated Anti Poverty Service	Sounds feasible. Perhaps the council should avail itself of the Advice Shop services to help manage its budget ?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

19915	An individual	3c. Integrated Anti Poverty Service	So long it does provide an improved service...	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19916	An individual	3c. Integrated Anti Poverty Service	One team must not mean one location - support for poverty reduction in individual communities can only be delivered in that community, which is not the whole of West Lothian	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19917	An individual	3c. Integrated Anti Poverty Service	Agreed as long as it does come together as one cooperating integrated team.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19918	An individual	3c. Integrated Anti Poverty Service	Would this mean longer waiting times for those in need?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19919	An individual	3c. Integrated Anti Poverty Service	As long as the front line focus is on the customer	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19920	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Initially I would have thought that this is a nice to have service, however for elderly and other vulnerable groups, I now realise that this service is essential - especially with changes brought about by Welfare Reform. Review and rationalise, but maintain support.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19921	An individual	3c. Integrated Anti Poverty Service	Sounds sensible providing cost of training will not negate savings.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams.
19922	An individual	3c. Integrated Anti Poverty Service	There is no such thing as poverty in this country. It's people who just want to sit on their fat arses and collect dole money.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19923	An individual	3c. Integrated Anti Poverty Service	See above - I agree with the proposal to improve the quality and accessibility of customer services in the Council.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19924	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	What does this saving mean? Again we have insufficient information relating to the specifics of this saving to make an informed decision on who this will affect and how. Has an equality impact assessment been completed for this saving? Will staff be required to move locations and if so is the building accessible, equally would the building be fully accessible for those (customers) wishing and / or needing to access the advice shop/benefits team? Would the other services currently available within the advice shop be withdrawn? Would the outreach services continue throughout west Lothian or would this be centralised also?	Integrated Anti Poverty Service (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
19925	An individual	3c. Integrated Anti Poverty Service	Would staff from both areas be in the same location? Would temporary staff in these areas have the same rights as permanent staff. If staffing numbers are reduced in this area how do the staff cope with the increase in workload?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice, and where it will be provided from, will be considered as part of the implementation of the new service.
19926	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I do not think there should be anyone living in poverty and would be loathe to remove any support from those in need	Integrated Anti Poverty Service (general)	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19927	An individual	3c. Integrated Anti Poverty Service	Sounds good, more efficient and one place for people to go to.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19928	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	In agreement with this as there can be too many teams doing the same things.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
19929	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Please do not cut benefits of those that need it!	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments.
19930	No Response	3c. Integrated Anti Poverty Service	Successfully developed... I guess that depends on your definition of successfully!	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
19931	An individual	3c. Integrated Anti Poverty Service	Fortunately never had to use it though I would imagine this would create long waiting times	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.

19932	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Some good examples of partnership working	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19933	An individual	3c. Integrated Anti Poverty Service	If this means information is obtainable from one place, instead of being passed back and forth this can only be a good thing	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
19934	An individual	3c. Integrated Anti Poverty Service	It's my view that other services such as CAB already provide these services and are generally better at it than the council.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19935	An individual	3c. Integrated Anti Poverty Service	Unsure how this saving can be achieved. Surely these services are already running with a shortage of staff. Staff who have short term contracts should not be renewed. Benefits are a statutory service and if you join up staff it takes 5 months to train on benefits. Is this really cost effective.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19936	An individual	3c. Integrated Anti Poverty Service	Work based involvement training ,, no more free handouts,, we all have life choices to made,,	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19937	No Response	3c. Integrated Anti Poverty Service	I agree, as long as access to the Team is not limited by the proposed co-location, perhaps team members could be hosted by non-statutory organisations across the council area, in addition to having a central team base	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19938	An individual	3c. Integrated Anti Poverty Service	There should be a team in each area and not only one to allow these communities better access and more support. Poverty is the most important issue to tackle in the west lothian as crime rise and it's obvious where it comes from and families should be supported and even help them more so the whole community will gain better quality of life.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19939	An individual	3c. Integrated Anti Poverty Service	This could be a good thing if organised correctly. Shared expertise and a place for users to have all their questions answered in one place at the same time sounds sensible. Location of course could be an issue. Several micro offices within shared premises would be best.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19940	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Consideration should be given to funding third sector parties (such as CAB) to provide this service.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19941	An individual	3c. Integrated Anti Poverty Service	Hopefully this would be integrated in a way that the local and wider community would have easy access.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19942	An individual	3c. Integrated Anti Poverty Service	Combining these two services would not be in the communities best interest. This would result in more job cuts for advice shop and benefit staff. The advice shop also challenge the decisions made by the benefit team.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19943	An individual	3c. Integrated Anti Poverty Service	Is this the council's role? Where does DWP and \Citizens Advice fit in here?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19944	An individual	3c. Integrated Anti Poverty Service	poverty is a horrible thing and shouldnt be a thing in 2017. support people, families. no cuts but more support.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19945	An individual	3c. Integrated Anti Poverty Service	no one should be living in poverty in scotland. we need to look after each other and this is needed.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19946	An individual	3c. Integrated Anti Poverty Service	with food banks everywhere is this really somewhere you can cut funding?	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19947	An individual	3c. Integrated Anti Poverty Service	This is pointless as itâ€™s the local council that deals with housing benefit and causes all the issues that people have and need to use these services. How about the council just get it right meaning these services would not be needed. Exactly what I was faced with today two employees have had there housing benefits cut as the done 5 hours overtime for me to cover holidays and sickness but West Lothian coucil in there wisdom takes it that they will always earn this overtime and cuts my employees benefits effectively scaring them from ever doing overtime again meaning my business does not grow in West Lothian and I canâ€™t employ more people. West Lothian is bad for business.	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.
19948	An individual	3c. Integrated Anti Poverty Service	Think there should be links with Food banks as place to offer advice	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council currently has links with the food bank.
19949	An individual	3c. Integrated Anti Poverty Service	Anti poverty should not be affected.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19950	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	If it means people won't be getting the help they need its hard to see how it will save money.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19951	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Please include additional computer access for public.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
19952	An individual	3c. Integrated Anti Poverty Service	I think these are two different departments giving a different service. This will cause cuts to staff and cuts to services provided.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19953	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I find it curious that these council services encourage and show individuals how to claim benefits that subsequently then drain the council budget?	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19954	An individual	3c. Integrated Anti Poverty Service	As long as everyone who needs the service can still use it, then go for it	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19955	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Agree with combining team but disagree with cutting staff as there is more demand in this area.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19956	An individual	3c. Integrated Anti Poverty Service	Removal of Duplication is the Holy Grail but sadly rarely achievable in the real world. Certainly not without pain, resistance and objection. Police Scotland and Ambulance Call Centre spring to mind.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council has a proven track record of partnership working and would wish to build on this to continue providing local services. Through integration, and potentially sharing services with partners, it is expected that access and individual experiences will be improved. There would be less duplication and more streamlining of services. In addition to investigating partnership working, the council will continue to remove internal duplication and consolidate teams where appropriate.
19957	No Response	3c. Integrated Anti Poverty Service	This is fine if it means people can access the help they need when they need it Having tried to access advice from these services I've yet to speak to a real human as time in the phone has been spent waiting in a queue and eventually emailing for advice to be told the best way to access advice is to phone and speak to someone!	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19958	An individual	3c. Integrated Anti Poverty Service	Fine but the best professionals should work here but not other partners	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19959	An individual	3c. Integrated Anti Poverty Service	cut benefits for the ones that dont want to contribute . We keep talking about a fair society but then tax the people who are working	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. Benefits are decided by the UK and Scottish governments.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19960	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	All anti-poverty services should be combined and delivered by one team i.e. Personal Care, school clothing grants, school meals, EMA (which I do not agree with - we shouldn't have to pay our children to stay on at school for a better education).The specialist knowledge in Benefits and the Advice shop could meet these needs. Will jobs be ring fenced for staff already working in these units?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures.
19961	No Response	3c. Integrated Anti Poverty Service	More targeted and focused - cutting staff - cutting services	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
19962	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Introduction of universal credit and full roll out will increase admin duties for staff. Less time chasing rent whilst dealing with admin duties. Advice Shop staff should be available in each council office.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19963	An individual	3c. Integrated Anti Poverty Service	as long as tackling poverty, is to get people in to work	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19964	An individual	3c. Integrated Anti Poverty Service	not a user friendly service cuts made to DLA PIP not given and a 6 months waiting time before its heard in a tribunal? No help or support from previous advisors in day centres as theyre all shut to cut costs...why target vunreable people?	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Personal Independence Payments are not administered by the council. Any requiring support in this process can contact the Advice Shop for independent support and advice.
19965	An individual	3c. Integrated Anti Poverty Service	In view of the measures being introduced by the Westminster government on the poorest of our communities, all help to them must be maintained.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19966	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	This is an area that requires expertise and leadership. There is an excessive degree of duplication throughout the council in information that is provided to enable residents to gain the benefits and services that they are entitled to and this needs to be addressed. Benefits is a service that is driven with constant legislation changes and needs focus and motivation to ensure that it is provided at a high level. Housing Benefit brings money into the council through government subsidy therefore requires to have an excellent level of processing accuracy. Although there will be a reduction in benefit claimants due to Universal Credit there will still be a substantial existing caseload who will not transfer to Universal Credit.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19967	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Better training, delegation, trust and empowerment is required at all levels.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Benefits staff currently receive an extensive programme of training before processing claims. Through closer working with the Advice Shop and other areas of the council, such as Housing, this should improve the quality of support and advice provided. Training will be provided to help facilitate the integration of this service.
19968	No Response	3c. Integrated Anti Poverty Service	As above - you could provide a mobile service for both services, which could cover all areas and assist people who find it difficult to visit the one location? Alternatively these services could be provided in any council public building. Staff could be more mobile and spend one day per week at a different location.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19969	An individual	3c. Integrated Anti Poverty Service	Anything must be better than what people have to go through at the moment	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19970	An individual	3c. Integrated Anti Poverty Service	Merge them and get savings through reduced management structures.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19971	An individual	3c. Integrated Anti Poverty Service	Any job losses, probably	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, staffing levels and the way remaining services are delivered. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
19972	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Agree with this approach, anti poverty should be a key focus. The team needs to also focus on prevention and also how to get people out of poverty and break the cycle, those services need to be included in the team otherwise the issue will never really be fixed. This could include other Council services and also grants commissioned and contracted to outside agencies to address anti poverty.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
19973	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I would support this proposal as long as the Advice Shop have enough staff and resources to continue delivering this amazing service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19974	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	As long a service users would not be adversely effected. As I know from my previous employment what a lifeline these service provide to the most vulnerable in our community. My understanding is that CAB in West Lothian is due to close do there workload is likely to increase. People need to now their rights.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
19975	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Agree with removal of duplication. Are we tackling the causes of poverty upstream? Is there evidence to show that benefits reduce poverty? Or do they support/encourage poverty? A better educated population and higher-value employment will reduce poverty over time.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
19976	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Unsure if there is duplication between the advice shop and benefits team as they provide different things. If this is possible though it is a good proposal.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication.
19977	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The new services should provide British Sign Language Interpreter for Deaf people to have the equal access to the service as others.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	he proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19978	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Great in theory - where this falls down is once applications are passed to DWP - I am aware of instances where people are receiving no financial support / assistance of any means where eligibility for benefit decisions take weeks to be processed at DWP level. I am aware of instances where people have no income and are not able to buy food and/or are not eating for days due to not even being eligible for assistance from the Food bank.	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council has no control over the processing times of central government departments however the Advice Shop can help individuals to access support during this period of delay including crisis care grants and other avenues of support.
19979	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	This service would need to be accessible to those in hardship. Keeping shops within communities allows those who need them to access them. Outreach would need to be available to those unable to travel.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19980	An individual	3c. Integrated Anti Poverty Service	While it is pleasing to see that the need for such a service is being recognised, it is depressing to see that the proposals will once again result in a diminished provision to what we currently have.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19981	An individual	3c. Integrated Anti Poverty Service	this service should be funded by the council but not be part of the council	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
19982	An individual	3c. Integrated Anti Poverty Service	Provided the service is not only available in one physical location but is accessible across the council area.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19983	An individual	3c. Integrated Anti Poverty Service	This seems like a good idea, so long as there are sufficient staff employed in the combined service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.
19984	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	In this day and age the advice shop is struggling with the volume of clients and appointment times are getting further apart, this department needs more help	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and removing duplication will be considered as part of the implementation of the new team.

Transforming Your Council Consultation 2017

19985	An individual	3c. Integrated Anti Poverty Service	As long as the services are still easily available to those who need them.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19986	An individual	3c. Integrated Anti Poverty Service	In many ways it makes sense to have these teams working together and customer base can be quite similar. The Advice Shop has many strengths such as engagement with hard to reach, supporting those who need it the most, generating large amounts of income for local community and the council, keeping people in work and their homes, established partnerships and the community ear. The service is also at the fore-front of anti-poverty and supporting customers through welfare reforms. The Advice Shop offer a full West Lothian Service and have the ability to change and adapt to peoples needs. This arrangement would hopefully if managed well, only enhance the support given to customers and have positive outcomes for all those involved.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
19987	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Partnership with CAB?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19988	An individual	3c. Integrated Anti Poverty Service	Absolutely needed part of society	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
19989	An individual	3c. Integrated Anti Poverty Service	The council should ensure that the advice provided is impartial, and that impartiality is a priority.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will also be structured in a way to minimise any potential conflict of interest.
19990	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Agree. Possibly make use of other sources like Citizens Advice Bureau and increase funding here if it saves providing the service in-house?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19991	No Response	3c. Integrated Anti Poverty Service	Again a good proposal to reduce back office red tape and free up resource at the coalface.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19992	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	As long as it doesn't make it hard for people to access the service due to lower staff numbers.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
19993	No Response	3c. Integrated Anti Poverty Service	Joined up and integration of services would also likely increase customer satisfaction and reduce double handling.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.

19994	An individual	3c. Integrated Anti Poverty Service	In terms of the efficiency savings and the knowledge of both services, I feel that the Advice Shop provide a supported service and the Benefits Team challenge the advice provided by them. Maybe as a service user this perception is wrong however, in my eyes the two teams do different jobs, one tries to help and other tries to take it away.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
19995	No Response	3c. Integrated Anti Poverty Service	Once again why is there duplication - who's running the council, they need to start acting like they were spending their own money.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
19996	An individual	3c. Integrated Anti Poverty Service	How do you work with CAB in WL and not compete with them?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
19997	An individual	3c. Integrated Anti Poverty Service	Are the welfare reforms working? I could see there could be duplication in this work but suggest the retention of staff Overworked staff will be off with stress as I would imagine thus would be a difficult job with people expecting money the perhaps do not qualify for	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19998	An individual	3c. Integrated Anti Poverty Service	What a sad state of affairs, putting more pressure on less staff. This service, more than ever is needed, especially with changes to benefits and universal credit. Sounds like these staff are going to be swamped.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
19999	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Integrated Anti-Poverty Service - There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care, school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the benefit Team, will jobs be ringfenced to protect jobs for staff either within those teams and at certain grades Concern on a number of temporary staff and permanent staff also in relation to the terms and conditions of being placed on the redeployment list. Given the number of staff cuts across the council, realistically where are staff on the list going to be redeployed to.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures
20000	An individual	3c. Integrated Anti Poverty Service	bring all statutory and discretionary award applications under the remit of one team- information gained can be shared and used appropriately rather than being repeated. Given the specialist knowledge in both the Advice Shop and the benefit Team, will jobs be ringfenced to protect jobs for staff either within those teams and at certain grades? If staff are displaced what is the point of a redeployment list as there's nowhere to go with it...?c	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures.

20001	An individual	3c. Integrated Anti Poverty Service	Will these services remain local and accessible to all including people who cannot drive.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20002	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	more should be done to reduce the debt owed to WLC by those who can pay as they can be more easily traced and stronger actions taken to recover any debts which would help to fund more services for the less fortunate	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
20003	No Response	3c. Integrated Anti Poverty Service	They would not be able to provide the same level of support as they do now and at a time of increasing poverty and greater need of these services, the loss would be greatly felt.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20004	An individual	3c. Integrated Anti Poverty Service	Agian, why was this common sense measure not taken long before now. Also use more charities such as Citizens Advice. No point the council duplicating a service that is already provided elsewhere.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20005	An individual	3c. Integrated Anti Poverty Service	Sounds a good idea on the face of it but as long you do not lose valuable experience of the benefit team. As a customer which receives Housing Benefit / Council Tax Reduction I find the service very efficient. Any member of staff that I have dealt with in regards to my claim have always been on the ball. My changes etc are now getting dealt with quicker.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20006	An individual	3c. Integrated Anti Poverty Service	As 1A - Excellent if all of the above are carried out. However on current personally experienced performance it will take a huge effort to even provide an improvement. Further why has the "efficiency and effectiveness" not been applied to current procedures. No real criteria to be reached is actually stated and the starting point for these "efficiency and effectiveness" upgrade to services is not evident. Vagueness in targets to achieve. How will residents know when this is achieved?	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The budget report will clearly set out in detail measures to balance the budget including the potential impact on equality and performance. The council has a robust approach to monitoring financial performance during the year with reports provided to Council Executive. All of these reports are available to the public on COINS, the committee system.
20007	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	As the Advice Shop query decisions made by the Benefits Team how can they be seen to be impartial by their clients when they are part of the same team.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will also be structured in a way to minimise any potential conflict of interest.
20008	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The Advice Shop is a free, impartial and confidential service to help the people of West Lothian with a focus to alleviate poverty and to promote inclusion and equality through advice, assistance and advocacy. By combining this service with the Benefits Team, how do you propose to ensure the free, impartial and confidential service remains?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will also be structured in a way to minimise any potential conflict of interest.
20009	An individual	3c. Integrated Anti Poverty Service	Fine, but don't end up with an inhumane service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20010	An individual	3c. Integrated Anti Poverty Service	Essential that these teams consist of well trained & knowledgeable individuals. Losing expertise by employing only generic staff is unsatisfactory for 'customers' and impacts on the efficiency of WLC.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20011	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	On paper this sounds good, but I fear this means more job cuts less staff meaning a worse service. A better service cannot be given with less staff.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20012	An individual	3c. Integrated Anti Poverty Service	Agree if this improves services to the Community and perhaps if there was a general phone number available with staff to handle calls	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20013	An individual	3c. Integrated Anti Poverty Service	Any change would need careful monitoring	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council uses well established project management approaches to ensure that changes to service delivery meet required outcomes and objectives.
20014	An individual	3c. Integrated Anti Poverty Service	combining into one team may help costs, but service provision will suffer if there is a need for geographic spread of the service	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20015	An individual	3c. Integrated Anti Poverty Service	I would like to see the top 3 items/specific deliverables that contribute to this redesign.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
20016	An individual	3c. Integrated Anti Poverty Service	Seems reasonable on paper but will the new team be able to respond to the growing issues around poverty in West Lothian.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20017	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Joining these team and having them based in one area. Basing similar teams in same building would allow joint working.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
20018	An individual	3c. Integrated Anti Poverty Service	makes sense as long as it is accessible for all across West Lothian	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20019	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	Conflict of interest between advice shop staff and benefits staff would be a concern	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.

Transforming Your Council Consultation 2017

20020	No Response	3c. Integrated Anti Poverty Service	Again it is the balance of maintaining current service levels with specialised skills etc	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams.
20021	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care (see section 6), school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. The information collected for Housing Benefit is probably the same information that is required for a number of these other grants - school meals, clothing, EMA for example. A more integrated service would mean that where someone applied for Housing Benefit or Council Tax Reduction they could be assess for these other grants at the same time. Thus avoiding duplication of work and meaning that customers only have to provide information once to the council rather than multiple times. Also because of information provide to benefits from the DWP it may be that the customer does not need to provide information at all meaning that it is easier for the customer to get the grants they are entitled to. Closer working also needs to occur between Benefits and in particular Scottish Welfare Fund and Social Work and Housing. SWF staff can waste large amounts of time trying to get through to the correct person at either SW or Housing to get information required to help a customer. Although we have some access to Open Housing we do not have full access to the homeless notes and have to chase homeless officers who are invariably busy and working with clients. we have no access to Social Work's Swift system and can wait 10-15 minutes to get a call answered to SW reception to find out who the social worker is and then spent time chasing the social worker for information. I understand that sensitive information is held on their systems but SWF staff have access to DWP systems which require us to be confidential. SW might also want to consider speaking to SWF/Benefits about their customers to help them with budgeting and money when they are working with them	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures.
20022	An individual	3c. Integrated Anti Poverty Service	Again sensible as long as staffing levels are sufficient.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. 20023	An individual	3c. Integrated Anti Poverty Service	Due to the nature of work carried out over all teams within therevenues unit, we naturally have a lot of different application forms. Linked in with suggestions mentioned in 3c, consideration should be given to pulling applications into one form for all types of financial assistance. However care must be taken to ensure that this is easy for customers to use and that the forms are clear and concise and that help can be easily obtained if necessary. There is nothing more frustrating than being on-line trying to get information and going round in circles.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20024	An individual	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance grants that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care (see section 6), school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial grants under the remit of this new team. Application for one type of grant could then lead easily to others - so for example if someone applies for Housing Benefit and they have school age children that could trigger automatic contact to see if the customer wants to apply for school meals, clothing grants, EMA all of the information need has probably already been collected and analysed in the Housing benefit assessment thus reducing any duplication of work and providing a more customer focused service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures.

20025	An individual	3c. Integrated Anti Poverty Service	Care does need to be taken to ensure that there is no conflict of interest. At the moment the Advice Shop assist customers in appealing decisions that both Housing Benefits and Scottish Welfare Fund make. There would still need to be the ability for customers to get assistance with the appeal process. This service could provide a better service for the customer by making closer working relationship with Advice Shop and Benefit team. However there is currently a very close working relationship between the benefit team and council tax which should not be lost. There also needs to be closer working relationship with Housing and Social Work. Currently staff in the Scottish Welfare Fund spend long amounts of time phoning both Housing and Social Work to get information about applicants. Access to the Swift and better access to Open Housing could save large amounts either waiting for the phone to be answered or phoning around numerous people trying to find the correct person to get information from. There seems to be a reluctance to allow open access to information. I understand that there are issues of data protection etc but we have all been PGV checked and have been given access to DWP systems which are confidential.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
20026	An individual	3c. Integrated Anti Poverty Service	Would this include home visit?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20027	An individual	3c. Integrated Anti Poverty Service	Staff provide excellent support and service at present, and this may mean it takes longer to seek help with less staff available.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20028	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The functions by both teams are specialist and totally different therefore they can't be combined without being marginalised and a possible conflict of interest. Would also suggest staff cuts	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
20029	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	No mention of how this links with social care or housing who are critical to this - I agree that this could work if the redesign is not completed in a financial vacuum of non-engagement which is how corporate debt happened.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures.
20030	An individual	3c. Integrated Anti Poverty Service	As long as employee's were properly trained to deliver the service they are providing.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.
20031	An individual	3c. Integrated Anti Poverty Service	Important that these changes do not hinder the valuable work of this service.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20032	An individual	3c. Integrated Anti Poverty Service	If you continue with the proposed changes to staffing terms and conditions and continue to pay them well below inflation you will end up needing a lot more of this type of service even those in full time employment will be living in poverty. This service needs to be accessible, available and visible.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council pays all employees the Living Wage Foundation Living Wage.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20033	An individual	3c. Integrated Anti Poverty Service	A combined team would be cheaper to run and more easily accessed by users.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20034	An individual	3c. Integrated Anti Poverty Service	people have a right to have a roof over their heads but if they don't have enough money to pay for a house then the council will have to lend them money so they can live a happy life.	Integrated Anti Poverty Service (general)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20035	No Response	3c. Integrated Anti Poverty Service	Anti-poverty all in the one place would be much more helpful, as long as it is still able to offer everything that the separate organisations offer currently.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20036	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The Benefits team & Advice shop have two different roles one of which is statutory and another advice. Would the combination of this service include all financial assistance awards, ie school meals, school, clothing grants, personal care, etc. Bringing all statutory and discretionary financial awards together under this new team, this would be beneficial to the customer. The staff within the benefit team and the advice shop have specialised knowledge in their job role and have obvious concerns on the integration of a new service, will jobs be ringfenced to protect jobs for staff within those teams and salary grades.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. The restructure of these units would be subject to existing council workforce management policy and procedures.
20037	An individual	3c. Integrated Anti Poverty Service	One stop shop. Need to ensure your client base can access such a service. Some cannot afford the bus fare or even a phone call.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20038	An individual	3c. Integrated Anti Poverty Service	That would be good people wouldn't have to go over the same thing twice.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
20039	An individual	3c. Integrated Anti Poverty Service	Poverty is such a major issue and possibly more hidden or in pockets within West Lothian rather than being obvious and widespread. Will the new team structure really meet and engage with all communities and provide the necessary support? Ending duplication if it really exists would be a good move forward	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.

20040	An individual	3c. Integrated Anti Poverty Service	This sounds positive but the combined service must be well staffed to offer accurate and appropriate advice to the public.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20041	An individual	3c. Integrated Anti Poverty Service	Any services which are duplicated should be overviewed and consolidated into one area to save on admin and running costs	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20042	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	3c Yes, this sounds like a good idea, and a good way of ensuring that the advice shop is always fully up to speed with all the changes and real life situations that the benefits team are dealing with.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20043	An individual	3c. Integrated Anti Poverty Service	That sounds like common sense to me. Why do you need this in the consultation? Why is it not already like this?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20044	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I assume the welfare changes referred to are the roll out of universal credit. What evidence is there of increasing demand for advice and support? What is the increase in demand? How will the combining of all anti-poverty related financial support result in a more targeted and focused advice service? What changes would actually come from this? How would these be an improvement? Will people lose their jobs? What duplication would be removed? More information needed before useful comments can be provided.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20045	An individual	3c. Integrated Anti Poverty Service	This I think is sensible, what is essential is that we maintain the link and support to the CAB West Lothian.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20046	An individual	3c. Integrated Anti Poverty Service	As long as it is easily accessible to people without cars. If not within walkable distance, will put yet more strain on already overstretched household budgets.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20047	An individual	3c. Integrated Anti Poverty Service	Advice Shop and Benefits Team should be more accessible to all in the County as it is the most vulnerable people who use these facilities. Example a customer who needs to travel to Bathgate Advice shop regarding benefits often has no bus fare to go to the Advice Shop for assistance especially if their benefits have been suspended. More assistance in local libraries would be beneficial, even if it is simply to provide booths with direct telephones for customers to get help when they need it.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20048	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	As long as the ppl using these services are not penalised for not being about to get to the buildings that sounds ok. But these ppl don't have extra money to get somewhere central because there usual place closes to save money	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.

20049	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Again as before I worry that streamlining some of these services will impact negatively on those they are meant to support and that less staff will be expected to service more people and families.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20050	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The benefits arm of revenues has the best performance figure ever, why jeopardise this by putting it in with a completely unregulated service? Any area giving money should be kept under the revenues service, where it will be properly regulated and where it has integrated work/ systems with the wider revenues unit. This service could also administer payments for personal care packages, as well as school meals, clothing grants and educational maintenance allowances. As above this should also be part of a regulated service.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest.
20051	An individual	3c. Integrated Anti Poverty Service	again sounds like cutting staff who are at the coalface	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20052	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Ensure the help and support to vulnerable people is still accessible.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20053	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Sounds good in theory but no practical evidence or historical data is given to support this action. They are not exactly over funded in the first place.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20054	An individual	3c. Integrated Anti Poverty Service	Again makes sense as know clients who have been banded about between pillar and post	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. It is anticipated that the proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although these specialist teams focus on different aspects of anti-poverty they will work together to provide essential support and services to a common customer.
20055	An individual	3c. Integrated Anti Poverty Service	don't know enough to make a comment as to what duplication there is - can only assume it is in staffing levels!!	Integrated Anti Poverty Service (general)	3. The respondent advised that they had no comment to make.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.

Transforming Your Council Consultation 2017

20056	An individual	3c. Integrated Anti Poverty Service	...and how are generations of non-working benefit seekers going to be dealt with. How about that being a saving? Targeted and focused advice is essential.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20057	An individual	3c. Integrated Anti Poverty Service	This is one area that CAP, (Christians Against Poverty), for example, should be welcomed as a partner to work in debt counselling ..	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20058	No Response	3c. Integrated Anti Poverty Service	Situations such as Scottish Welfare should be for priority only, people getting access to funds that do not particularly need it should be completely cut out. Benefits Team and Advice Shop, again only for the people that are under extreme pressures. Advice shop provide too much help for people that could technically go and get their own financial support or help filling forms in.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20059	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Seems good proposal. If team joined up then hope would be to be more efficient and not detrimental to delivery of this service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20060	An individual	3c. Integrated Anti Poverty Service	As long as its going to give better help .. but they might be overworked and the service will go totally down hill	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20061	An individual	3c. Integrated Anti Poverty Service	This proposal seems sensible - if you are living in poverty, you don't have the money to go from council office to council office for help and advice.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20062	An individual	3c. Integrated Anti Poverty Service	A streamlined approach to advice and support is positive and where duplication is removed this make sense and should enable the service to focus on those customers in greatest need	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20063	No Response	3c. Integrated Anti Poverty Service	Clearly whoever has come up with this theory has little or no knowledge of what functions the Advice Shop and the Benefits (Team of the Year) Team actually provide. The Benefits Team provide statutory services, whereas the Advice Shop provide services that could easily be absorbed by bolstering the local Citizens Advice Bureau. It would be worth considering the model followed by East Lothian Council. There is very little duplication between what staff in the Advice Shop and what the Benefits Team do.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.

Transforming Your Council Consultation 2017

20064	An individual	3c. Integrated Anti Poverty Service	Agree. More signposting for self help via channel shift.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20065	An individual	3c. Integrated Anti Poverty Service	Again as long as they same amount of help is still out there and the time is given to people who need it then fine.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20066	An individual	3c. Integrated Anti Poverty Service	So long as staff levels are not drastically reduced, and hence huge waiting times created, this is fine.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20067	No Response	3c. Integrated Anti Poverty Service	What would the culture within this service be? These teams, whilst both focused on mitigating poverty, do this in very different ways. Whilst joining these teams could allow for more focused and joined up working towards shared goals and outcomes, my concern is that the benefits team work on a 'decision making' culture compared to the 'advice & advocacy' culture at the Advice Shop. Would these teams remain independent of one another in their day to day activities? Having shared goals and desired outcomes does not necessarily mean that these teams always have direct crossover or duplication of work. To the public, they provide very different functions.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20068	An individual	3c. Integrated Anti Poverty Service	Again a central based team is a good idea as people will then know where to go and what help is available making the process simpler.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20069	No Response	3c. Integrated Anti Poverty Service	Important to provide decent services to those who are not on-line or who lack digital skills.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20070	An individual	3c. Integrated Anti Poverty Service	I suspect that with increasing austerity a more targeted and focused service will be increasingly necessary. I feel that perhaps this service should be at least ring fenced. Where the money comes from I have no idea, other than asking for more from central funding.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Apart from national commitments determined by the Scottish Government and the Housing Revenue Account, the council does not ring fence resources for specific service activities.
20071	An individual	3c. Integrated Anti Poverty Service	Hopefully this will be locally provided in communities and not just in one centralised location?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20072	An individual	3c. Integrated Anti Poverty Service	this would pay for the department if a tougher line was taken on the access to benefits.	Integrated Anti Poverty Service (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are decided by the UK and Scottish governments. This includes the parameters and income levels used to determine benefit entitlement.

Transforming Your Council Consultation 2017

20073	An individual	3c. Integrated Anti Poverty Service	The Advice shop provide invaluable assistance to many customers and this service will only increase as we move forward into further welfare changes	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority.
20074	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	[REDACTED] a number of poverty related projects and has been key delivery partners on the current anti-poverty strategy. Given that one of our main focus is dealing with poverty related problems we are keen to continue to support WLC in this work. Through the West Lothian Advice forum we are in a strong position to continue and grow poverty related work and look at attracting external funds in order to engage with some of our communities most vulnerable clients. In 2016/17 the bureau dealt with 6200 clients covering 16500 different issues; assisted clients to manage over £2.8 million worth of debt and helped clients gain £2.3 million. Our poverty related projects include child poverty, fuel poverty and domestic abuse (a lot of these clients are in poverty). We are deliver specialist debt advice and financial capability project. The success of these projects demonstrates that the Bureau has knowledge and experience in dealing with poverty related issues. We would be willing to join any working, strategic groups when WLC re-fresh their poverty strategy.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20075	An individual	3c. Integrated Anti Poverty Service	This service would benefit from having a preventative focus as well as meeting the needs of those in crisis	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20076	An individual	3c. Integrated Anti Poverty Service	Staffed appropriately I would hope and full training given	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20077	An individual	3c. Integrated Anti Poverty Service	Also link with health care providers to offer whole service support	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20078	An individual	3c. Integrated Anti Poverty Service	As stated above, if there has been an increasing demand from the community for the Advice Shop and Benefits Team I would be presuming that combining the two teams into one would not reduce the amount of staff that are currently employed	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20079	An individual	3c. Integrated Anti Poverty Service	It should be a 'one stop shop'.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20080	An individual	3c. Integrated Anti Poverty Service	Benefits is a highly regulated service and therefore they should be the lead in the new team.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20081	An individual	3c. Integrated Anti Poverty Service	From experience I'm not sure if those in the benefits team would have the same approach/ethos/helpfulness to those in the advice shop so this would need careful consideration on how this change was managed.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20082	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	3C) FSM entitlement. Those who qualify for a Clothing Grant should only be able to purchase this from the school or the school wear provider used by the school as cash payments are open to abuse and are sometimes not used for this purpose.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20083	An individual	3c. Integrated Anti Poverty Service	again people on benefits are better off then people that work the council should not be helping people get more money out of the government	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20084	An individual	3c. Integrated Anti Poverty Service	Amalgamate all the agencies providing the same service & ensure they are accessible to all. CAB, Advice Shop, WRO's etc.....	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20085	An individual	3c. Integrated Anti Poverty Service	A one stop shop can be of benefit, they can advise more fully with a more concrete accurate fuller information be given at one appointment as opposed to multiple appointments which is timely and can be repetitive and frustrating.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20086	An individual	3c. Integrated Anti Poverty Service	Agreed provided it is easily accessible.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20087	An individual	3c. Integrated Anti Poverty Service	I would have thought that during the last consultation there would have been a push to remove duplication. again what is the detail of the proposed efficiency measures	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20088	An individual	3c. Integrated Anti Poverty Service	Why have you been wasting so much of our money up to this point?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.

20089	An individual	3c. Integrated Anti Poverty Service	At face value this would appear to be sensible	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20090	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Surely this would lead to a conflict of interests as Advice shop staff are often involved in helping people appeal benefits decisions	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20091	An individual	3c. Integrated Anti Poverty Service	Provided staff are trained to give the correct advice and sympathy.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.
20092	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	I support this measure which has the potential to enhance anti-poverty work by the council and community planning partners. The team should be responsible for all relevant payments such as clothing grants and EMA, and also for financial assessments for social care.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20093	An individual	3c. Integrated Anti Poverty Service	This area would help support the genuine people who will need help when cuts are put in place. Can we cut this service????	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20094	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Removal of duplication is a fantastic idea to improve efficiency. Meetings/Appointments could be carried out remotely to reduce transport costs.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20095	An individual	3c. Integrated Anti Poverty Service	An integrated service seems sensible. It should be made easy to access for this disadvantaged community	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.

20096	An individual	3c. Integrated Anti Poverty Service	Suggest areas giving benefits or money are kept in the revenues strcture and re-structured there, as this is a highly regulated service.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20097	An individual	3c. Integrated Anti Poverty Service	Sounds good, however as per 3b above [needs to be planned effectively, delivered efficiently and benefits realised.]	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council uses well established project management approaches to ensure that changes to service delivery meet required outcomes and objectives.
20098	An individual	3c. Integrated Anti Poverty Service	Removal of duplication is a good change however I do not agree that this would have an immediate cost saving.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20099	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Some things that could go online include school clothing grants, free school meals etc - or else why don't services integrate and pay these to families without them needing to apply. We know their income levels if they are on HB/CTR so why not make it like the winter fuel payment and pay them automatically if they are entitled to it.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council. The restructure of these units would be subject to existing council workforce management policy and procedures
20100	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	The main issue is to try and maintain the support to the people who need it - there is already a lot of pressure on council services and staff due to Westminster changes and to integrate services could dilute or provide conflict of interests. Its important to maintain links with Benefits and Council Tax which is a major revenue stream for the council - to change this relationship could seriously affect the income of the Council.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20101	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are serious community issues as the Benefits system is changing and many people are being left with no income due to unfair Westminster policies - the fact that we need to use Foodbanks shows how terrible things have become. But the Council cannot solely pick up the slack - more lobbying needs to be done at Westminster and hopefully changes with the Scottish Parliament may see a more humanist approach to helping people most in need.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20102	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Some things that could go online and assist those in poverty include school clothing grants, free school meals etc - or else why don't services integrate and pay these to families without them needing to apply. We know their income levels if they are on HB/CTR so why not make it like the winter fuel payment and pay them automatically if they are entitled to it. There needs to be better clarity of roles within the Benefits and ASHOP teams as there are a lot of senior management roles for few staff - services could be streamlined and new services such as the collection of income for social care or the prospect of new DWP benefits should be actioned by the Benefit services at the Council to preserve jobs and allow a fair and cost effective monitoring of costs.	integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.

Transforming Your Council Consultation 2017

20103	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	As per previous answers make council buildings a one stop shop. This could also include GP surgeries, physios, dietitians etc in Xcite West Lothian Leisure facilities.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20104	An individual	3c. Integrated Anti Poverty Service	Again if efficiencies can be made whilst not impacting delivery, then this is obviously a good thing	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20105	An individual	3c. Integrated Anti Poverty Service	This looks like an effective cost saving to avoid duplication as long as adequate knowledge, skills and expertise is retained to drive this forward.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Although the functions will be combined into a larger service, specialist advice and support will continue to be provided specific teams. Training will be provided to help facilitate the integration of this service.
20106	An individual	3c. Integrated Anti Poverty Service	Have one welfare department they deals with everything.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20107	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	What duplication??? there is no information on the scope of the duplication, if this service is causing duplication what other services are causing duplication, are all other services being reviewed for duplication, what are the other councils doing, what is the political stance on this, as it seems the advice shop is now a political tool.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20108	An individual	3c. Integrated Anti Poverty Service	Good idea, how about a Saturday opening for those either in work or with week time child care issues?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20109	An individual	3c. Integrated Anti Poverty Service	As above - lets have a root and branch review of the service and delivery. It isn't necessary to increase costs when efficiencies can be identified. A business approach is what is needed to ensure the correct spending on items needed is controlled.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to the priorities in the Transforming Your Council consultation document.
20110	An individual	3c. Integrated Anti Poverty Service	Makes sense but would it improve the service.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20111	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	Only work if no cut back to level of staff or to their pay and conditions , again will lose good experienced staff if this is the case causing more in recruitment and training	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20112	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	If high standards are maintained I can understand the proposal. However, with increasing levels of poverty this support is essential.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20113	No Response	3c. Integrated Anti Poverty Service	Would be effective however an outreach service would benefit an number of those residing in the community	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20114	An individual	3c. Integrated Anti Poverty Service	I would be in favour of this as a more targeted, focused and joined up advice service sounds as though it would be more effective in helping those in poverty.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20115	An individual	3c. Integrated Anti Poverty Service	no problem but do you have a modern anti poverty strategy that understands poverty is increasing not decreasing and has some solutions	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20116	An individual	3c. Integrated Anti Poverty Service	If you can stand by the statement '...improved service whilst also generating efficiency savings...' then yes, I agree. However who will review this, with whom, and if failing who takes the responsibility for a failed service?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20117	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Both teams probably do work with the same clientele however the level of duplication will be low due to the specific job roles carried out. What would improve is the sharing of information across teams and in the awareness of what each team is working on and what their priorities are. This would help inform work priorities across the new team going forward. Assistance for the public, whether verbal or financial will be maximised.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20118	An individual	3c. Integrated Anti Poverty Service	FSM entitlement. Those who qualify for a Clothing Grant should only be able to purchase this from the school or the school wear provider used by the school as cash payments are open to abuse and are sometimes not used for this purpose.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20119	An individual	3c. Integrated Anti Poverty Service	As long as overall service for people doesn't decrease then this would be a good thing.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20120	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	FSM entitlement. Those who qualify for a Clothing Grant should only be able to purchase this from the school or the school wear provider used by the school as cash payments are open to abuse and are sometimes not used for this purpose	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.

Transforming Your Council Consultation 2017

20121	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	would this affect peoples jobs. also the benefit team is linked to other departments how would this be affected.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20122	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	With the impending Universal credit looming for West Lothian it is imperative we offer the best services to the public of West Lothian, therefore removal of these service has the potential to disadvantage members society that may require valuable information.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20123	An individual	3c. Integrated Anti Poverty Service	anything that removes duplication is a bonus, both on saving time and finances.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20124	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	In terms of the work carried out within these teams, there is no duplication. To integrate both would suggest that the duplication is in relation to the management structure. Benefits/SWF have only recently gone through a restructure when a specific management team was put in place for very good reasons. What is in place now has brought about significant improvements in service delivery. I can only assume that a merger between these 2 teams would mean that there would be a significant reduction in the management structure which will put that high performance and improvements in service delivery at risk. I would assume that the termination of the staff contracted from our software supplier would form part of these savings. There are other areas of work that can be considered under an integrated anti-poverty service ie free school meals, school clothing grants, EMA payments, section 12 and 22 payments to name a few. The staff within the benefit/swf teams have the expertise to assess financial assessment and most of the information used in these assessment is identical to that obtained for an HB/CTRS or SWF award. In addition, should the new charging policy for personal care be passed, officers and managers within this team are more than equipped to develop the scheme. However, within Revenues there is another merger to consider. All revenues staff within benefits/ and council tax perform statutory functions. All teams work together and there are many crossovers in what the staff do. Technically one can't work without the other. Has a merger between these 2 teams been considered in relation to CTRS processing only. As UC takes the majority of our caseload, there would still be a requirement for a specialist HB team as we would only be left with the complicated cases to assess. There would still be a requirement for a separate Financial Assessment team in relation to SWF/DHP/school assessments and personal care.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20125	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	FSM entitlement. Those who qualify for a Clothing Grant should only be able to purchase this from the school or the school wear provider used by the school as cash payments are open to abuse and are sometimes not used for this purpose.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20126	No Response	3c. Integrated Anti Poverty Service	Does that mean it will only be available in one location - making it hard for many in need to access???	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20127	An individual	3c. Integrated Anti Poverty Service	I can no benefit to combining Advice Shop and Benefits Team. Would like more information on how savings would be achieve by this action.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20128	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	Agreed where access for anyone requiring this support is enabled through outreach sessions across the county	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20129	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	Has an equality impact assessment been carried out for each of the budget proposals? It is essential that this is done at the earliest opportunity in order to assess what the impact will be on those in the protected characteristics groups and those already experiencing disadvantage.	Integrated Anti Poverty Service (general)	4. The council is already doing this.	In line with established budget setting processes, all proposed reduction measures will be subject to an equality impact assessment.
20130	An individual	3c. Integrated Anti Poverty Service	Agreed, where access to services is not impaired	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20131	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Heighten the Scottish Welfare entitlement, this should only be for highly vulnerable people facing exceptional circumstances. Again Advice shop and Benefits Team should be means tested and only for the people that really truly need it and cant afford private advice.	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20132	An individual	3c. Integrated Anti Poverty Service	answer is the same as I put in question 1a.	Integrated Anti Poverty Service (general)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20133	No Response	3c. Integrated Anti Poverty Service	I agree if there is duplication within these services it makes sense to bring them together. Citizens Advice Bureau West Lothian are keen to be involved in the anti-poverty services given a key focus of what we do is poverty related work. We run a number of poverty related project working closely with partners to deliver the anti-poverty strategy. A more joined up approach may also strengthen the position of advice agencies to be able to attract external funding to be able to do more poverty related work (at a time when these services will be critical). We would be willing to continue to participate and contribute to this work. As well as delivering advice on poverty related subjects the Bureau also offers a holistic advice service to the residents of West Lothian - we deliver a wide range of information, advice and advocacy on issues from "the womb to the tomb" and everything in between. When a client engages with our service we can give advice on benefits, debt, financial capability, income maximisation, housing, employment, consumer, utilities, financial products/services, tax - a complete unique service that is a one stop shop for all residents advice needs. We know that poverty related issues will only continue for many of our clients so its important that the front line delivery of advice is still accessible for our clients. If WLC continue to support our service we will endeavour to continue with our poverty related projects such as Child poverty, fuel poverty, domestic abuse advice project (mainly of which are living in poverty). We will also continue to work with WLC to ensure that we identify ways to assist and engage with clients who really need advice but for various reasons they do not engage.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council's Advice Shop currently works closely with partners including Citizens Advice Bureau. Officers will consider opportunities to work further with other partners and providers to deliver anti-poverty advice and support.
20134	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	How will this affect benefits processing times?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20135	An individual	3c. Integrated Anti Poverty Service	This should be reduced as everyone should be working and some people make choices to sit in this bracket, so let them!	Integrated Anti Poverty Service (general)	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20136	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Given the specialist knowledge in both the Advice Shop and the benefit Team, I would be concerned that a more general approach would mean customers not receiving the same level of advice. I do think a joined up approach is useful in terms of sharing information but I feel departments should remain specialised in what they do as it can take years of experience to build the knowledge.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20137	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care (see section 6), school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20138	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti-poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie personal care, school clothing grants, school meals, section 12 and 22 payments, education maintenance allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the Benefit Team, will jobs be ring fenced to protect jobs for staff either within those teams or at certain grades? It has already been determined that the staff on temporary contracts will be entitled to apply for jobs within the new team and if displaced have the same entitlements in relation to redeployment. There is concern however on a number of fronts not only for temporary staff but permanent staff also in relation to the terms and conditions of being placed on a redeployment list. Given the number of staff cuts across the council, realistically where are staff on the list going to be redeployed to?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20139	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	Develop targeted packages that clients can take away/review online so that they might make more informed queries. eg. unemployed, elderly, young families	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Officers will consider how this could be developed.

Welfare advice is currently provided by a number of different services across the council. When the provision of this advice comes from different service areas there is always the potential for some duplication. By consolidating the service into one overall team this will remove any potential duplication.
20141	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti-poverty financial assistance award that can be administered by the benefit team that do sit outwith this team at the moment. Consideration could be given to bringing all statutory and discretionary financial awards under one team. The Advice Shop and Benefits are not dissimilar but they do not duplicate work as there remits are different. Benefits provide a statutory service and are subject to the constraints of legalisation and the DWP rulings.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.

20142	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care (see section 6), school clothing grants, school meals, section 12 and 22 payments, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the benefit Team, will jobs be ringfenced to protect jobs for staff either within those teams and at certain grades. It has already been determined that the staff on temporary contracts will be entitled to apply for jobs within the new team and if displaced, have the same entitlements in relation to redeployment. There is concern however on a number of fronts not only for temporary staff but permanent staff also in relation to the terms and conditions of being placed on the redeployment list. Given the number of staff cuts across the council, realistically where are staff on the list going to be redeployed to.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20143	An individual	3c. Integrated Anti Poverty Service	This is an area that should be expanding .	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20144	An employee of West Lothian Council	3c. Integrated Anti Poverty Service	There are other anti poverty financial assistance awards that can be delivered by the integrated anti-poverty service which currently sit outwith the benefit team ie Personal care, school clothing grants, school meals, Education Maintenance Allowance to name a few. Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the benefit Team, will jobs be ringfenced to protect jobs for staff either within those teams and at certain grades It has already been determined that the staff on temporary contracts will be entitled to apply for jobs within the new team and if displaced, have the same entitlements in relation to redeployment. There is concern however on a number of fronts not only for temporary staff but permanent staff also in relation to the terms and conditions of being placed on the redeployment list. Given the number of staff cuts across the council, realistically where are staff on the list going to be redeployed to.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20145	An individual	3c. Integrated Anti Poverty Service	Again joined up thinking - good idea	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20146	No Response	3c. Integrated Anti Poverty Service	Provided this meets needs and does not mean people don't have to spend limited funds travelling.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20147	An individual	3c. Integrated Anti Poverty Service	Good! Are there other services provided that the Council could use this joined-up thinking approach?	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	Consideration has been given to all areas of duplication throughout the council.
20148	An individual	3c. Integrated Anti Poverty Service	Consideration should be given to bringing all statutory and discretionary financial awards under the remit of this new team. Given the specialist knowledge in both the Advice Shop and the Benefit Team, will jobs be ring fenced to protect jobs for staff either within those teams? In relation to the possibility of being placed on the redeployment list, given the number of staff cuts across the council, realistically where are the staff on the list going to be redeployed to? Always thought any staff on temporary contracts would not have these extended if cuts to staffing was required. This was part of the job they accepted.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. Opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team. This will include the consideration of other financial assistance tasks in other areas of the council.
20149	An individual	3c. Integrated Anti Poverty Service	More savings could be made in this area	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20150	An individual	3c. Integrated Anti Poverty Service	Cuts should not happen here!	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. The level of resources required and opportunities to streamline process and remove duplication will be considered as part of the implementation of the new team.
20151	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	We agree with the proposal to improve the quality and accessibility of customer services in the Council.	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20152	An individual	3c. Integrated Anti Poverty Service	Good idea to bring these two teams together as this could lead to closing a building down	Integrated Anti Poverty Service (general)	1. The respondent advised that they agree with the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20153	An individual	3c. Integrated Anti Poverty Service	Poverty - people are not seeing the financial support that they need. This concerns PIP and SDP support. Many people are extremely anxious over the assessment process. Forms are difficult to complete and do not focus on mental health. As a vulnerable adult I was refused SDS support for a short holiday. This is simply wrong. Many worried people have to go thru the appeals process with no guarantee of success. With new benefits such as PIP and UC people are receiving less money. Having to wait weeks for a decision can lead to people having no money to live on. People should not be penalised for having a disability. Long term awards should increase. People should be encouraged to volunteer. Local advice/support services need to be funded. Employment services also need to be there to get people working again if they are able. An important point is that most people who are ill desperately want to work and do not want to live on benefits. It is also important that people get support to make claims and ensure people get what they are entitled to. The whole application process needs to be easier and quicker. Disabled people want the same opportunities as everyone else. The key is fairness for everyone. West Lothian is on the right track - I believe poverty and health are key issues for West Lothian.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently has a priority to minimise poverty, the cycle of deprivation and promote equality. The new anti-poverty service will allow the council to deliver this priority. When developing the new Anti Poverty Strategy consideration will be given to the causes of poverty and potential interventions to help minimise their impact on vulnerable families.
20154	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	Welfare advice is so important to us. Any reduction, or if it is harder to access will lead to increased poverty for disabled people. It is very important that advice services are not centralised - some people can't travel, cuts in buses will mean greater incidents of poverty and deprivation.	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community. How individuals access this advice will be considered as part of the implementation of the new service.
20155	On behalf of a Group/Organisation	3c. Integrated Anti Poverty Service	The sector would like to see a balance between focussing on regeneration areas and priority thematic groups, many people in poverty do not live in regeneration areas and in work poverty is a huge issue. How will the Council ensure that people in need of support have access where and when necessary and that this is not restricted to statistically determined geographical limits?	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	At a time of significant welfare reform, good quality advice services are needed to support people, particularly those on low incomes. The proposed integrated Anti Poverty service will help provide support and advice to vulnerable people in the community.
20156	An individual	3c. Integrated Anti Poverty Service	Revenues have the best performance figures ever, why would you jeopardise this by merging it with a completely unregulated service?	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.

20160	An individual	3c. Integrated Anti Poverty Service	Revenues have the best performance figures ever, why would you jeopardise this by merging it with a completely unregulated service?	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20161	An individual	3c. Integrated Anti Poverty Service	Revenues have the best performance figures every, why would you jeopardise this by merging it with a completely unregulated service?	Integrated Anti Poverty Service (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Although the functions will be combined into a larger service, specialist advice and support will continue to be provided by specific teams. National Standards for Advice Providers ensures that free, impartial advice will be delivered. This includes the ability to challenge decisions which are potentially wrong. The new team will be structured in a way to minimise any potential conflict of interest. This proposal will help ensure that both services are working together to get the best outcomes for a common customer.
20162	An individual	3c. Integrated Anti Poverty Service	This section also links back to section 3c, the new Anti-Poverty team and the suggestion of charging for non residential care for the elderly. Should this be agreed, the administration of this would be best placed under the same team, if agreed, that all financial assessments will be assessed.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	When introducing new charges the council considers the most cost efficient and effective way of administering and managing the collection process. This will be a West Lothian Council based approach which will build upon examples of good practice in other authorities.
20163	An individual	3c. Integrated Anti Poverty Service	Wider use of computer files to prevent fraud.	Integrated Anti Poverty Service (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council currently works with a number of partners to identify fraud. Officers will consider how this can be further developed.

20288	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20289	No Response	4a. Review Approach to Delivery of Culture and Sports	I agree with this proposal	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20290	An individual	4a. Review Approach to Delivery of Culture and Sports	Agreed	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20291	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	agree with proposal	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20292	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20293	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	These are non-essential services which should be cut.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20294	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't have a problem with that. We will survive.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20295	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Given the pressures in key areas such as social care we cannot continue to fund these nice to have services. If communities care about keeping these groups running, volunteers will do it themselves without council support. I feel that a lot of money is wasted on these areas that deliver little for the council's priorities.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20296	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	With some of the other proposals in this consultation Arts programming should definitely not be considered as an essential of delivery service.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20297	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Although sad to see this in the bigger picture savings have to be made so this is one area with least impact that would be detrimental to young people.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20298	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Unfortunate but necessary.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20299	An individual	4a. Review Approach to Delivery of Culture and Sports	the market is full with leisure competition so why use council money that is not making money	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20300	An individual	4a. Review Approach to Delivery of Culture and Sports	If this has to done, it reflects reduced funding by the Scottish Government.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20301	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agreed-promoting more widely/fully the things that remain would be good	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20302	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree - must be scope for WLL to reduce their own costs and increase prices	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20303	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I believe that this is not one of the more vital services that the council provides therefore i agree.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20304	An individual	4a. Review Approach to Delivery of Culture and Sports	Again, in an ideal world this would be available. However, due to budget restraints I do not believe it should be a priority.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

20310	No Response	4a. Review Approach to Delivery of Culture and Sports	All sounds sensible and appropriate.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20311	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This seems a reasonable proposal, there needs to be consideration of the role that sports and the arts can play in offering quality of life improvements to the most vulnerable in society that may be unable to afford access to these means. However, these are not pertinent to the core services that the council should aim to supply.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20312	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It seems that there are already too many options re arts and sports activities so I don't see this as a bad cost saving measure.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20313	An individual	4a. Review Approach to Delivery of Culture and Sports	unfortunately this appears necessary when up against other priorities.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20314	An individual	4a. Review Approach to Delivery of Culture and Sports	Agreed. Charges could be introduced.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20315	An individual	4a. Review Approach to Delivery of Culture and Sports	it is sad that these will be lost but other services are more important	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20316	An individual	4a. Review Approach to Delivery of Culture and Sports	Ok	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

20387	An individual	4a. Review Approach to Delivery of Culture and Sports	Look okay as it is possible to evaluate given the vague descriptions given in the 'Transforming Your Council'	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20388	An individual	4a. Review Approach to Delivery of Culture and Sports	I agree with the proposal.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20389	An individual	4a. Review Approach to Delivery of Culture and Sports	All proposals are sound.	Agrees with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20390	An individual	4a. Review Approach to Delivery of Culture and Sports	Good, but what are they and what are the timelines....so how can a costing be applied? However Linlithgow benefits from a major asset in the context of the Burgh Halls. Much more needs to be done to promote the venue which means investing more to generate increased income. This is a primary money earning asset that is currently not fulfilling its potential.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	The council will continue to seek way to make the best use of our assets to ensure they provide the bet value for money
20391	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Sounds sensible although arts are useful to the health and wellbeing of people.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. It is proposed that some arts provision would continue.
20392	An individual	4a. Review Approach to Delivery of Culture and Sports	Public Art and Arts Programming on the other hand are areas where only a limited number of people draw any benefit from	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20393	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree. Close HPC. It is a costly luxury that offers little value to the majority of people. I'd also be annoyed to see any money spent on public art in future.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The relative merits of rationalising facility provision will be explored during work on this proposal. Developer contributions pay for public art.
20394	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden Park Centre is difficult to get to if you have no transport especially in the winter. Improved lighting leading up to the centre might encourage more people to use the facilities from both the hospital direction and the paths from Howden's bus stops	Delivery of Culture and Sports - Arts	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20395	No Response	4a. Review Approach to Delivery of Culture and Sports	Music services,do not reduce obesity and lead people to live healthier lives. Music is not something everyone can participate in so I would say it is more elitist and less essential than good accessible leisure facilities throughout the council area	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20396	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Children and young people still need exposed to art, music and culture. It helps fire the imagination and hone those who may be less academic. Please ensure that the approach considered does not disadvantage gifted and or less academic children	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Pupils will continue to receive arts and sports experiences as part of the curriculum.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20397	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	reduction in any funding in the arts will have a long term detrimental effect on our young peoples future. Where possible these areas should be safeguarded.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Pupils will continue to receive arts and sports experiences as part of the curriculum.
20398	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not think that arts projects should be a council priority.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided.
20399	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I am unclear what arts activities would not be provided and whether it would be possible to make a charge for these activities rather than not providing them	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. Officers will consider how charging for activities could be developed.
20400	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts good but anti obesity initiative trumps arts. Don't make Xcite any more expensive.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. Officers will consider how charging for activities could be developed.
20401	An individual	4a. Review Approach to Delivery of Culture and Sports	Experienced (retired or otherwise available) enthusiasts should be sought and supported to provide access to the arts, with instruments and/or art materials being procured over time via local fund raising, starting very simply with whatever materials are to hand.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to explore opportunities to empower communities in terms of the future provision of services/facilities.
20402	An individual	4a. Review Approach to Delivery of Culture and Sports	Feel this is a disappointing change although do feel that the services could have been managed better. Howden Park Centre management is poor. You visit the venue and see people wandering about, the cafe is very poor both in the quality of the food and the service of the staff. Lost opportunity there.	Delivery of Culture and Sports - Arts	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Howden Park Centre is now operated by West Lothian Leisure.
20403	An individual	4a. Review Approach to Delivery of Culture and Sports	This statement is not detailed enough to explain exactly what services will be cut or reduced or if services will continue but with users paying higher fees but in general I do not agree with this proposal. Art, music and leisure activities are important for a sense of community and involvement.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20404	An individual	4a. Review Approach to Delivery of Culture and Sports	There should be no free space for artists to sell their work. Council Tax payers should not be asked to subsidise artists to sell their work. The council would not provide free space for any other business. All artists should be asked to provide a contribution. For more exclusive artists where the council is promoting the exhibition there should be a small entrance fee. Schools (free) and concessions discounts could be put in place.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. As part of the work on this proposal officers will consider how charging could be developed.
20405	An individual	4a. Review Approach to Delivery of Culture and Sports	Subsidies to Howden Park Centre should be minimised. With significant budget cuts being applied to priority services this, and other public arts funding should be reduced.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Officers will consider how this could be developed.
20406	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Public Art????? The council should give this the elbow right from the off. A lot of pointless & wasted money on [REDACTED]	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thanks you for comment. Your feedback has been noted Developer contributions pay for public art.
20407	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I wasn't really aware that council provided any arts programmes so I can't imagine this having much on an impact	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20408	An individual	4a. Review Approach to Delivery of Culture and Sports	Music instructors is a must for West Lothian, we have a tradition.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music, drama, sport and art provision through curriculum for excellence.
20409	An individual	4a. Review Approach to Delivery of Culture and Sports	So music and art becomes for those who can afford it only?	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20410	An individual	4a. Review Approach to Delivery of Culture and Sports	Please say you aren't talking about cutting arts in schools at the same time as getting expensive specialists in to implement this?	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

Transforming Your Council Consultation 2017

20411	An individual	4a. Review Approach to Delivery of Culture and Sports	No performance arts group should be funded and no money wasted on public art or sculptures.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Developer contributions pay for public art.
20412	An individual	4a. Review Approach to Delivery of Culture and Sports	Again I feel its sad if the budget towards cultural activities is cut but I would have assumed that this would be a natural outcome.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20413	An individual	4a. Review Approach to Delivery of Culture and Sports	As the parent of a piper in the schools pipe band I am concerned at the potential loss of this opportunity. The Juvenile band were 4th in the world last year yet currently it sounds like we may be lucky if the band is supported past August 2018. Arts and Music are important to a child's development as a whole person as the schools keep telling us that is what they are trying to produce.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music, drama, sport and art provision through curriculum for excellence.
20414	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts are for the leisure side of life, they are not necessities. When funds are tight we should not be providing these to people who cannot pay for them.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20415	An individual	4a. Review Approach to Delivery of Culture and Sports	Fantastic....notwhy is everything in livingston????? Bathgate has a fantastic venue in the regal yet this is on the brink of closure because everything is at Howden. ... surely with the growing population in wester inch and surrounding areas other places in west lothian should benefit!	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As part of the work on this proposal officers will consider the type and extent of current arts and culture facility provision across West Lothian.
20416	An individual	4a. Review Approach to Delivery of Culture and Sports	SAVE MONEY BY: No money spent on art work.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20417	An individual	4a. Review Approach to Delivery of Culture and Sports	Council funding for all arts, apart from Howden Centre (which generates revenue) should be suspended for the next 5 years. Only arts installations and projects funded directly by 3rd parties should continue. The proposal for sports funding is fine.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20418	An individual	4a. Review Approach to Delivery of Culture and Sports	Integrating a reduced instrumental music provision into the mainstream curriculum. It has been shown that channeling musical talent can lead to reduced crime rates, better self esteem, and better focus for pupils leading to better exam results and more useful positive destinations. To reduce this and rely on parents having to pay for individual tuition would be detrimental to the lower paid families. West Lothian has a fantastic Youth Music Initiative with great results at competition level. You only have to turn up to the Spring Concert Series to hear the quality of dedication and commitment from musical instructors and pupils to realise its worth. The same can be said for sports programmes and the impact this has on young lives. Early intervention is the key	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20419	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden Park should be self funding. West Lothian Leisure should now be self sufficient and arms length getting on with their job leaving the council to focus on their statutory roles. I would hope that local clubs, music groups etc. will all be considered to augment the arts and sports activities and that West Lothian Leisure are not permitted to think everything has to be run by them!!	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation. As part of the work on this proposal officers will consider the extent to which related services are, or could be, supplied by other organisations.
20420	An individual	4a. Review Approach to Delivery of Culture and Sports	Public art and Arts programming should aim to be cost neutral and not be funded by the tax payer. West Lothian Leisure should be run as a for-profit concern, with profits re-invested or returned to the council. Private leisure facilities in West Lothian do not appear to have competing with West Lothian Leisure despite often having poorer standard of facilities.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20421	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden Park Centre must come under one of the worst investments in the history of the council. What was the end bill for the transformation? Millions. I live nearby and walk the dog around this area and most nights the gates are closed at 5pm. Meanwhile we have countless groups rehearsing in Church halls and other venues (Pub function rooms etc) Surely a centre of this scale and cost should be in use every night? The Arts programming has not moved on in 10 years and still offers the same old tired selection of events. It is no surprise the only times the venue seems busy is when the local youth theatre groups are putting on shows although a number of these have moved to other venues as a result of prohibitive costs. Perhaps a drive to attract more users with a sensible pricing structure and a reduced but better quality arts service should be considered to not only save money but increase use	Delivery of Culture and Sports - Arts	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for comment. Your feedback has been noted. Officers will consider how this could be developed.
20422	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Other than two salaries both YMI and public art don't actually cost money to WLC. Is there a plan in place if external funders actually reduce or stop funding these projects?	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Officers will consider the likely extent of future external funding, and any associated risks and opportunities, as part of the work on this proposal.
20423	An individual	4a. Review Approach to Delivery of Culture and Sports	centres such as low port , Howden, regal theatre should not be funded they should be managed and run to be self sufficient	Delivery of Culture and Sports - Arts	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Low Port Centre and Howden Park Centre are operated by WLL and the future operating model for the Regal Theatre is yet to be determined. It is anticipated that, going forward, the costs of such facilities will increasingly require to be off-set through income generation.
20424	An individual	4a. Review Approach to Delivery of Culture and Sports	It is always the arts that get cut. Short sighted, as these provide wellbeing and positive experiences.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20425	No Response	4a. Review Approach to Delivery of Culture and Sports	If these services are required then the service users should be making more of a contribution	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. As part of the work on this proposal officers will consider how charging for activities could be developed.
20426	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	As i've said, I think cutting arts is a mistake. Tapping into arts funding and initiatives should be looked at.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. Officers will consider how this could be developed.
20427	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden Park centre is neither handy nor relevant to a large number of towns and villages in West Lothian this seems an unjust focus and centralisation of funded support to Livingston ... there is much much more to West Lothian than Livingston, but the council seem to have an issue understanding this in many such cases. Funding for music activities and so in should be focussed on early years it is clear lot evidenced worldwide that the earlier in life we try to aid child development and learning, the better the prospects and outcomes for children in later life. Youth is too late !	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
20428	No Response	4a. Review Approach to Delivery of Culture and Sports	In favour of maintaining Youth Music Initiative.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Part of the proposal is to continue provision of the Youth Music Initiative.
20429	An individual	4a. Review Approach to Delivery of Culture and Sports	Developing the The youth music initiative and reducing the instrumental programme seems counter productive . To inspire children to be interested in music then not allow any channel for this to be developed seems a poor decision. Currently this works as the instrumental programme is there for children to follow the learning they receive.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music provision through curriculum for excellence.
20430	An individual	4a. Review Approach to Delivery of Culture and Sports	Sad day to see this. West Lothian has a fantastic reputation for music provision, and support to music groups. Youth music stops at 18 and then what? I'd like to see existing services maintained	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music provision through curriculum for excellence.
20431	An individual	4a. Review Approach to Delivery of Culture and Sports	The Arts. An easy target !!!!	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

20432	An individual	4a. Review Approach to Delivery of Culture and Sports	The arts program at Howden Park Centre is an excellent addition to the authority but as it is not a direct educational resource in a school, I think some savings could be made in this area. YMI is a positive program but could be scaled down as long as Instrumental Music services remain in tact.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. YMI provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement. All pupils will experience Instrumental Music Tuition in Primary School through the YMI. It is proposed that some access to tuition will remain. All children will retain appropriate music provision through curriculum for excellence.
20433	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree. However, the council must wake up and take the difficult decisions required here and elsewhere. The recent example of politicians being too scared to close the Regal Theatre is appalling and shows a complete lack of leadership, not to mention economic reality. How much longer will it be allowed to stagger on bleeding more money from council budgets?	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20434	An individual	4a. Review Approach to Delivery of Culture and Sports	If we don't have the money to provide everything we would like, then we need to prioritise what we must spend money on. I'm afraid some of the arts provision will have to go.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20435	An individual	4a. Review Approach to Delivery of Culture and Sports	You should not be focusing on programming at Howden Park Centre as this will mainly benefit local Livingston residents. You should be concentrating on providing arts and sports activities through all of West Lothian.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This comment will be considered in the development of the proposal.
20436	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Statutory Arts programming has neither the expertise nor operational capacity to achieve sustained participation from marginalised and economically deprived communities. Cuts to Voluntary Sector arts organisations will therefore have a significant and adverse impact on communities who are already disadvantaged and at risk. Quality arts activity is proven to engage effectively with communities deemed as at risk, vulnerable or hard to reach; fostering responsibility, generating community cohesion and reducing anti-social activity. Progressive arts activity underpins school-based learning, positive behavioural change, mental health and physical well-being. It builds personal development, skills and aspiration to equip young people for positive destinations. In the current economic climate affordable and accessible arts activity should be considered a community asset, a driver for social change and an invaluable platform for learning, skills and achievement.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20437	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The Youth Music Initiative is constantly mispending funds in order to provide whatever seems fashionable at any given instead of working with our schools to use their professional staff and facilities more effectively. Howden Park is an abomination and well out of reach for people from other towns in the region. The place has never been run effectively, especially since it's remodelling several years go, and fails to engage with the public at large and in particular our young people. The closure of Bathgate Regal Theatre has only compounded this. The Regal is an excellent facility that could become a hub of activity for all types of arts and even sports but has been mismanaged, over-priced and badly publicised for years. Both of these facilities seem to have no decent way of communicating with the public, by social media in particular, and as a result their footfall is substandard. With correct management and modern thinking facilities such as these could be renewed and properly utilised.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20438	An individual	4a. Review Approach to Delivery of Culture and Sports	I would hope that the Council recognised the importance of the Regal Theatre in Bathgate as a provider for essential activities for all ages in our community. It is about to be 80 years old and is an essential part of the community.	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The proposal does not involve the Regal Theatre.

20439	An individual	4a. Review Approach to Delivery of Culture and Sports	Any child identified as having a particular musical talent should be given the opportunity to attend specialist classes at a centralised location.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20440	An individual	4a. Review Approach to Delivery of Culture and Sports	Would be good to see all facilities at Howden Park Centre being well used. Disgrace to think many people in the community don't even know we have a theatre. Sad the restaurant is not used either.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	Options for improving the utilisation of existing facilities will be considered in the development of the proposal.
20441	An individual	4a. Review Approach to Delivery of Culture and Sports	Regal Theatre in Bathgate should be utilised to it's upmost to help culture, sports groups, and arts to be accessible to the public. Monies can be returned via rents and events. Howden Park is not the most accessible place to reach by public transport. Therefor benefits in the two centres being used to service both sides of West Lothian.	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted. The proposal does not involve the Regal Theatre.
20442	An individual	4a. Review Approach to Delivery of Culture and Sports	In principle, I agree to this as the proposal states that the Youth Music Initiative, Active Schools and the arts programming at Howden Park Centre will continue. It is difficult to say much as I do not have relevant information on what arts and sports activities will not be provided. I agree to this proposal largely on the basis that core activities that support art and activity in daily life, establishing these habits and interests at a key point in life, are being continued.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20443	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agreed that sports should be cut to minimum. Any extra curriculum sports that the children wish to take out should be done through parents funding.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20444	An individual	4a. Review Approach to Delivery of Culture and Sports	Keep funding for sport Reduce funding for arts	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
20445	An individual	4a. Review Approach to Delivery of Culture and Sports	I agree with this in principal however getting rid of some of the more obscure exhibitions at Howden Park would be better than cutting funding in other areas. While I have often benefited from the active schools programme I think it could be more effective. I think that there is an imbalance of provision across WL and making schools more aware of what's available and encouraging the schools in areas where alternative council provision is limited would even things up.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
20446	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts is a luxury that is not viable at this time.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20447	An individual	4a. Review Approach to Delivery of Culture and Sports	Funding for arts also should not be forgotten. I could go on forever. I will not as my views are of little interest as they don't generate money.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. It is anticipated that, going forward, costs in these areas will increasingly require to be off-set through income generation.

20448	An individual	4a. Review Approach to Delivery of Culture and Sports	reduce funding for public arts at Howden centre - other things more importance than public art	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. Developer contributions pay for public art.
20449	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The council should consider the income potential of properties such as the Burgh Halls via the conference and wedding market. It is a beautiful venue, great location and heritage. Packaged up more effectively with an enhanced digital presence and enough staff would ensure it would be busier and making a profit.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20450	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not believe the major asset of the Burgh Halls in Linlithgow is currently being explored and exploited to its full potential. I believe much more use of this facility could be obtained increasing the revenue available from it to West Lothian Council.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20451	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	howden park centre could be run better than at present .it is a good facility to have	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The council will continue to seek to prioritise, deliver and improve local services.
20452	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't agree that Howden park Centre should be council funded. I'm sure it could generate it's own funding through it's own stakeholders.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is anticipated that, going forward, the costs of such facilities will increasingly require to be off-set through income generation.
20453	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't agree that Howden park Centre should be council funded. I'm sure it could generate it's own funding through it's own stakeholders.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is anticipated that, going forward, the costs of such facilities will increasingly require to be off-set through income generation.
20454	No Response	4a. Review Approach to Delivery of Culture and Sports	Children have to be able to learn to swim at no or little cost. It is not just for recreation; it could save their lives.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20455	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I work in education and if the active schools and community sport service was decreased even more it would have a direct negative impact on health and wellbeing- attainment and school sport would no doubt collapse. Schools rely on this service and its already overworked.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Part of the proposal is for Active Schools to continue to be delivered.
20456	An individual	4a. Review Approach to Delivery of Culture and Sports	As mentioned previously not all pupils are community groups are academic as should not miss out on key life skills such as physical activity, art and music. Along with health concerns and mental health issues these activities can have a positive impact on the publics health and wellbeing.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20457	An individual	4a. Review Approach to Delivery of Culture and Sports	My son has attended the Youth Music workshops and although he suffers from anxiety, the encouragement and belief which they gave him resulted in him being able to perform in front as part of a band to a live audience.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Part of the proposal is to continue provision of the Youth Music Initiative.
20458	An individual	4a. Review Approach to Delivery of Culture and Sports	Young musicians need specialised support, and being around like minded creative minds is extremely important. Being a great musician requires a very unusual level of consistent discipline at a very young age, and not all school environments are conducive to maintaining this type of focus. We all need a little bit of magic and beauty in our lives - great musicians, people who have dedicated their lives to doing the seemingly impossible, can provide this. These students, excelling in this field, have the potential to deliver uplift and beauty to their societies. Continued support for the arts in general is an investment in the health of the country. It's always shortsighted to cut support for it, and a mistake we eventually pay for. Music tuition within the curriculum is limited little teaching goes on in practical sessions the onus is on the child to learn for themselves. Specialised individual lessons are the only way forward to ensure the talent is nurtured	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music provision through curriculum for excellence.
20459	An individual	4a. Review Approach to Delivery of Culture and Sports	Does the youth music initiative replace instrumental music provision in schools? Will this be a cheaper alternative?	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	All pupils will experience Instrumental Music Tuition in Primary School through the Youth Music Initiative. It is proposed that some access to tuition will remain. All children will retain appropriate music provision through curriculum for excellence.

20460	An individual	4a. Review Approach to Delivery of Culture and Sports	Again arts being reduced which is not good for keeping active and reducing obesity. Children, young adults rely on these activities for their health and well being especially if they are struggling in life within School and home environment.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20461	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	SHOULD NOT REDUCE FUNDING TO MUSIC . IMPORTANT AND IMPACT POSITIVELY ON MENTAL HEALTH. THAT IS A SHORT TERM POLICY WHICH WILL END UP COSTING THE COUNTRY MORE THAN IT SAVES.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20462	An individual	4a. Review Approach to Delivery of Culture and Sports	Music is so important to our children. I know this as I have watched my grandson grow on confidence .	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20463	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Support of the Arts also very important.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20464	An individual	4a. Review Approach to Delivery of Culture and Sports	The Arts provision has much diminished over the last 4-5 years or so. How will we notice further cuts.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20465	An individual	4a. Review Approach to Delivery of Culture and Sports	How do young people access Howden Park Centre? Answer, not very easily if they don't live in Howden.	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20466	An individual	4a. Review Approach to Delivery of Culture and Sports	leave our music alone but howden place charge so much for courses that would never look for going there with my kids for any of their courses or thing's run over the summer could not afford to	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20467	An individual	4a. Review Approach to Delivery of Culture and Sports	Livingston this Livingston that, too much spent in Livingston	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20468	An individual	4a. Review Approach to Delivery of Culture and Sports	I hope Fiona Hislop is doing her utmost here. Brian Dugoid would be shocked at the moving of the arts unit to the civic centre. Better management, promotion, finances etc might have helped years ago.	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20469	No Response	4a. Review Approach to Delivery of Culture and Sports	Personally I think that a lot of the council funded arts programmes are aimed at a very small minority although I can appreciate that as a council you need to support. However I would prefer that the funds are used to support sport and fitness and encouraging all people across west Lothian to be more healthy.	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20470	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reducing the arts provision can have an impact on attainment, and the attainment gap. How do you propose this is achieved with these cuts?	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20471	An individual	4a. Review Approach to Delivery of Culture and Sports	2) Community Arts is now within Education Services I think, so this is probably an education question?	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20472	An individual	4a. Review Approach to Delivery of Culture and Sports	3) Partnerships probably essential in the Arts and Culture and I think you already have some strong partners (for example Youth Music Initiative is a Creative Scotland funded project, Firefly Arts is delivering and creating added value, YAP Music is reaching some of our more vulnerable young people.)	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20473	An individual	4a. Review Approach to Delivery of Culture and Sports	I think that making any changes to art and culture services would be a terrible mistake as many people aren't exactly academically inclined and what these services offer right now is an extra route through a life of creativity.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. School pupils will continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20474	An individual	4a. Review Approach to Delivery of Culture and Sports	These things are good but should not be too if the lust for funding.	Delivery of Culture and Sports - Arts	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20475	An individual	4a. Review Approach to Delivery of Culture and Sports	Do not cut these services. Being in an performing arts group Howden Park Centre has been really beneficial to be and helped me create a strong portfolio for my future education. These kinds of clubs provide children and teenagers with keys that can unlock their passions and also allow them to develop strong skills for the future.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20476	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	"Regardless of the importance of known evidence to the contrary, the arts are generally regarded as being so much entertaining fluff, a commodity that isn't a priority in the traditional program of learning. This is unacceptable in a so-called 'enlightened' society." [REDACTED] artist	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20477	An individual	4a. Review Approach to Delivery of Culture and Sports	I'm not keen on reducing funding for music	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20478	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts are good and well but does have the positive impact on reducing diabetes or or improving health. I feel greater considerations should be given in this area	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20479	No Response	4a. Review Approach to Delivery of Culture and Sports	I think it is a shame to lose art and culture programmes however I recognise that these are not essential services.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
20480	An individual	4a. Review Approach to Delivery of Culture and Sports	Use the library to provide arts activities in local areas not everyone can or wants to go to Howden,	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20481	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree with Council not funding public art, most of what I have seen in West Lothian I don't think is worth the money spent.	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Developer contributions pay for public art.
20482	An individual	4a. Review Approach to Delivery of Culture and Sports	close howden park centre youth music initiative ? there are more important issues in west lothian	Delivery of Culture and Sports - Arts	1. The respondent advised that they agree with the proposal.	Whilst there are currently no plans to sell or close Howden Park Centre. The relative merits of rationalising facility provision will be explored during work on this proposal.
20483	An individual	4a. Review Approach to Delivery of Culture and Sports	I don't think that it is necessary to stop providing activities, especially in the arts. I would be incredibly upset to see the closure of music associations like wind ensembles and string orchestras as I feel that these have really been a benefit to my development and skills. Careers in these arts would be much harder to get into for young people without these activities being available.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20484	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Are these initiatives actively supported to a high level to actually require a continued service being provided at all,, surely some or all of these arts services should be provided by schools and education establishments	Delivery of Culture and Sports - Arts	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive a variety of arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20485	An individual	4a. Review Approach to Delivery of Culture and Sports	Shouldn't Arts Programming at Howden Park Centre - be priced to be self funded?	Delivery of Culture and Sports - Arts	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20486	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts programming at Howden Park Centre rarely targets or achieves participation from West Lothian's marginalised and economically deprived communities, as it has neither the expertise nor capacity to do so. Cuts to additional arts activity will there for have a significant and adverse impact on communities who are already disadvantaged.	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20487	An individual	4a. Review Approach to Delivery of Culture and Sports	Any child identified as having a particular musical talent should be given the opportunity to attend specialist classes at a centralised location.	Delivery of Culture and Sports - Arts	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted..

20488	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Any child identified as having a particular musical talent should be given the opportunity to attend specialist classes at a centralised location.	Delivery of Culture and Sports - Arts	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Thank you for your response. Your comment has been noted..
20489	An individual	4a. Review Approach to Delivery of Culture and Sports	Absolute disgrace even considering cutting this. I know children who have played in school bands and west lothian wind ensemble (who have received platinum awards at SCBF) these children have changed socially/academically by being part of these groups. It encourages friendships, practicing, studying in a fun way, which encourages children who may lack confidence to shine and be proud of what they can achieve without having to sit in a classroom (of which many do not have correct or full teaching capacity) with children who do not want to be there (and so are disruptive) to be able to be with peers who want to succeed and all have a passion for music. Why not ask parents of children in the bands (2,500 of them) to pay a small charge weekly/monthly to help with costs. Or cut the huge disgraceful pay packets councilors receive	Delivery of Culture and Sports - Arts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. As part of the work on this proposal officers will consider how charging could be developed.
20490	An individual	4a. Review Approach to Delivery of Culture and Sports	Many sports clubs and organisations in West Lothian would not exist without the advice of the Community Sports Team on how to start up and their continuing support to operate in the best way for their communities. Council funding is essential to allow some clubs to purchase expensive equipment and to train coaches for effective operation of clubs.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20491	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Sports Council members wish to continue working in partnership with West Lothian Council's Community Sport Team. We would be interested in sending representatives to WLC Policy Development meetings. Our concern here is the implications for smaller clubs with fewer than 50 members, run by volunteers. Are they going to be able to continue to grow and develop, particularly if there is an integration of services, resource and activities to avoid duplication? Most governing bodies share best practice so we would like to see WLC, WLL, and Sports Scotland sharing best practice taken from the sport governing bodies.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20492	An individual	4a. Review Approach to Delivery of Culture and Sports	Perhaps restrict the free swimming during school holidays to those in receipt of free school meals. Active Schools is an important initiative due to the obesity crisis we are currently facing.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. The proposal is for Active Schools to continue to be delivered.
20493	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The teaching of physical activities is an essential step in improving the health of all and hence less of a burden on NHS. More attention is needed to support existing clubs, some of which are run by volunteers, that offer these services already.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Pupils will continue to receive arts and sports experiences as part of the curriculum.
20494	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Continuing Focus on areas such as Sport and Active Schools, is imperative in keeping younger generations fit and healthy.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20495	An individual	4a. Review Approach to Delivery of Culture and Sports	How convenient. You cut the funding so the Leisure centres have to do the dirty work and put their prices up.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20496	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree. Services should meet demand not fulfil vanity projects or satisfy the odd grumble. If people don't use swimming pools or gyms, then they close. They are not used for a reason and that is because there are alternatives. Fauldhouse pool, for example. We shouldn't be keeping these places open just to keep five people happy.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The relative merits of rationalising facility provision will be explored during work on this proposal.
20497	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reducing investment in sports is a short term saving that could lead to increased pressure on health and social care in the future	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20498	An individual	4a. Review Approach to Delivery of Culture and Sports	This is a sorry state of affairs. Concentrating on one culture ie Music is detrimental to other activities which children/young adults might currently be involved in ie tennis, football, swimming etc.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20499	An individual	4a. Review Approach to Delivery of Culture and Sports	It is unclear what sports activities might be curtailed but with the obesity rates in Scotland less sport is not a good move. .	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20500	An individual	4a. Review Approach to Delivery of Culture and Sports	The confidence and team working and social interaction for the young is primarily provided by sport so there will no doubt be an impact on any reduction of funding.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20501	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This may impact on a higher proportion of young people being obese with the cost that this poses to NHS. Basically we would transfer the cost.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20502	An individual	4a. Review Approach to Delivery of Culture and Sports	We need to encourage our young in sports I think we should not encourage reducing services	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20503	An individual	4a. Review Approach to Delivery of Culture and Sports	With no sports facilities in partnership centres, as opposed to when it was a community centre, council need to get some grass roots sports back.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20504	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Support taken from any physical activity programme will only contribute to the growing obesity rates in Scotland and our local area. These activities must be encouraged at all age groups but without the support or funding to provide these sessions, we may see a greater strain on other council services which deal with mental and physical health.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20505	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reduction on football pitches, 3G or otherwise - huge amounts of money spent on creation, drainage and maintenance of existing. Should look at diversifying sports initiatives to get more children interested in sports (other than just football).	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. Recurring revenue costs relating to capital investments and the full range/type of activities which can be supported will be considered when planning any future provision.
20506	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	reduction in any funding in the sports will have a long term detrimental effect on our young peoples future. Where possible these areas should be safeguarded.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Pupils will continue to receive arts and sports experiences as part of the curriculum.
20507	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I am unclear what sports activities would not be provided and whether it would be possible to make a charge for these activities rather than not providing them	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. As part of the work on this proposal, officers will consider how charging for activities could be developed.
20508	An individual	4a. Review Approach to Delivery of Culture and Sports	Sports good but anti obesity initiative trumps arts. Don't make Xcite any more expensive.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. As part of the work on this proposal, officers will consider how charging for activities could be developed.
20509	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Future community sports facilities should not duplicate what would be available through use of school facilities.	Delivery of Culture and Sports - Sports	4. The council is already doing this.	This is one of many factors already taken into account when planning future facilities.
20510	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Football activities, promoting etc should continue to be prioritised because of its obvious popularity and is our national sport - rather than promoting certain activities that are played by a very few and have excessive costs.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. The full range and type of activities which can be supported will be considered when planning any future provision.
20511	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It should be noted that there are many national schemes run within west Lothian relating to specific sports such as Scottish rugby and Scottish football. If councils were to encourage the use of these schemes it would also promote local clubs etc rather than try and compete or add extras.	Delivery of Culture and Sports - Sports	4. The council is already doing this.	The council currently works with national sporting bodies and other organisations to deliver, support and/or promote sporting opportunities in the area.

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20512	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I think sport should still be focussed on largely	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20513	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Youth sports activities should be prioritised/subsidised to encourage a healthy lifestyle and make this affordable for all.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20514	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Active Schools is a great way for children to exercise but I also feel that there should be sports clubs after school to encourage health and wellbeing.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20515	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	the lack of sports activities will certainly fly in the face of the council's priority to improve the health of its residents.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20516	An individual	4a. Review Approach to Delivery of Culture and Sports	What or where is the active and healthy living policy within this. Children need to be encouraged to do outdoor activities - gym- swimming. Is this now going to be a responsibility of parents to full fill this gap. Many families already living on or below poverty line.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20517	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Any cuts to sport should protect smaller sports. Football is generally over-provided for and should bear the brunt of cuts as it is the most robust of them. Protect funding for running, swimming, and cycling as these are the 'big three' if you want to promote a healthy lifestyle and tackle childhood obesity. The big team sports are big enough to look after themselves.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20518	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian's active schools programme is known as being very strong and the result is a fitter population of young people, who are engaged in sports and working together. To lose this would be detrimental to the health and wellbeing of the young people in the region, and would have a knock-on effect in future.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20519	An individual	4a. Review Approach to Delivery of Culture and Sports	Keep the focus on youth sport	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20520	An individual	4a. Review Approach to Delivery of Culture and Sports	I thought that support of sports activity was important for Childrens development. Obesity etc!	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20521	An individual	4a. Review Approach to Delivery of Culture and Sports	I am sorry but I have a real issue with the cutting back of any sport for youngsters when it is at the moment most needed to get children of the computers for a time plus I think there is the beginning of an upturn to take up a sport at the moment so I think this is a bad time to be implementing a cut to sport activities.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20522	An individual	4a. Review Approach to Delivery of Culture and Sports	I am not sure how this would influence current activities at sports centres. I am aware that classes and gyms there provide an important health improvement facility for older people in particular.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20523	An individual	4a. Review Approach to Delivery of Culture and Sports	West lothian has a large number of public gyms. I believe reducing this would enable better services at the remaining centres.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. The relative merits of rationalising facility provision will be explored during work on this proposal.
20524	An individual	4a. Review Approach to Delivery of Culture and Sports	Far too much is spent on a very small interest area, football. Cut back greatly on maintaining playing fields for young males. Why is sport so important since most people that are interested in it simply watch it on TV. We don't need all these playing fields that cater for a very small proportion of the population.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

20525	An individual	4a. Review Approach to Delivery of Culture and Sports	Encouraging physical activity should be a core part of health related activities - putting it in this category implies that this is not considered to be the case.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20526	An individual	4a. Review Approach to Delivery of Culture and Sports	Do not reduce sports offerings at a time when we have a severe obesity problem. Afraid the harsh choice has to be made that it will cost more to care for those inactive people who end up both physically and mentally unwell as a result.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20527	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Services have to live within their means, if have schools with active PE departments do we need Active Schools?	Delivery of Culture and Sports - Sports	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The proposal is for Active Schools to continue to be delivered. Active schools provision is almost entirely externally funded.
20528	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Yes active schools is the most important sporting programme offered to nurseries primaries and secondaries. Not only is there a vast amount of sporting opportunities offered to young people the volume of young people going through these programmes is phenomenal. Active schools offer a quality services and best value for money.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20529	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	As Chairman of a long and established SPorts CLUB in West Lothian, the [REDACTED], I feel I am in a good position to challenge this process change. WLC have been a valued partner in the community and have been instrumental in the success the club has in providing Health and Sport and Social opportunities for all of West Lothina. FRankly, we would not be able to provide these life changing opportunities to our youth without the decade of support from WLC and the Sports teams within the Councils structure. The affordable court let prices (and Youth discounts), the expertise of the sports teams, the capital grants for infrastructure improvements. Have all been absolutely essential for the clubs success. Thank you again for that. However just a short few months into the West Lothian Lesuire transistion, all this goodwill has evaporated. The WLL do not understand clubs challenges, have no relationship with clubs, and frankly do not appear to care for the community in the way WLC have shown consistently over the decade. I would like further clarity on this transfer of authority and orginistaion and re-assurance that a) Our Let costs will not increase over RPI b) that the service we receive will not be worse than WLC c) that maintenance arrangements will be prompt and reliable.	Delivery of Culture and Sports - Sports	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20530	An individual	4a. Review Approach to Delivery of Culture and Sports	Where would kids whose families cannot afford the extra sport activities that are available at the moment find the money to allow their children to access this. Health children healthy minds.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20531	An individual	4a. Review Approach to Delivery of Culture and Sports	Why is sport not also being looked at closely - in our school there must be far more money spent on sporting events and out of school sporting events and competitions (travel costs!!) than the one event that the school band goes to each year, and even then they can only go if they reach a certain standard at the local event. Seems unfair to be looking at one area of the expressive arts without considering them all. We should also remember the critical link between expressive arts and attainment.....	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20532	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts and sports are often seen as soft targets in education; they should not be, as they contribute so much to a child's education. All of the council's primary schools should practice the Daily Mile, particularly if sports funding is to be affected. The Daily mile is no cost and has proven beneficial effects on children's fitness levels, obesity levels and learning abilities.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20533	An individual	4a. Review Approach to Delivery of Culture and Sports	A small charge for some of extra school activities could be considered, there is an early morning sports session running for one of my children at the moment it is running for approx. 10 weeks and is free of charge, a small reasonable charge could be considered. Perhaps if parents/carers have skills to provide these types of activities then this could be considered.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. Officers will consider how this could be developed.
20534	No Response	4a. Review Approach to Delivery of Culture and Sports	Further savings could be made in this area. Any real desire or need for sports and arts activities can be catered for by voluntary groups.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.

20535	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Sports should remain a priority in schools to avoid obesity and it helps to promote many children's self-esteem and builds their confidence.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20536	An individual	4a. Review Approach to Delivery of Culture and Sports	Big mistake with reduced sporting activities. Too many get little of no exercise which in itself puts additional strain on NHS services	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20537	An individual	4a. Review Approach to Delivery of Culture and Sports	Active schools provide some alternative activities. However, they are more important in some areas than others for example, Linlithgow has a great range of leisure activities for children but other areas might not have anything else on offer apart from Active schools. I would be reluctant to completely remove this service rather review where it makes the most impact.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Part of the proposal is for Active Schools to continue to be delivered.
20538	An individual	4a. Review Approach to Delivery of Culture and Sports	This is short sighted and without access to good sports clubs the impact to youths in anti-social, crime and health costs could out strip any short term savings.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20539	An individual	4a. Review Approach to Delivery of Culture and Sports	This is short sighted and without access to good sports clubs the impact to youths in anti-social, crime and health costs could out strip any short term savings.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20540	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	4A) The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Active Schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20541	No Response	4a. Review Approach to Delivery of Culture and Sports	4A) The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Active Schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20542	An individual	4a. Review Approach to Delivery of Culture and Sports	Active Schools is an excellent program and like, Instrumental Music, it is contributing the the overall attainment of our schools as well as the obvious Health and Wellbeing of the young people. If it is cut or removed, you are robbing Peter to pay Paul as the health of young people will decline thus resulting in an increase in demand for Health care.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Part of the proposal is for Active Schools to continue to be delivered.
20543	An individual	4a. Review Approach to Delivery of Culture and Sports	Disagree. Obesity is a national issue so more needs to be done to reduce it so that in the long term health costs are reduced .	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20544	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Health and well being and access for a community to places for sports and leisure should be encouraged - as negative impact of obesity and other health conditions on society and cost to NHS is unsustainable.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	The council will continue to ensure residents in West Lothian have access to sports and leisure facilities. The relative merits of rationalising facility provision will be explored during work on this proposal. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20545	An individual	4a. Review Approach to Delivery of Culture and Sports	Health based sports need to be retained.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20546	An individual	4a. Review Approach to Delivery of Culture and Sports	The funding to sport and sports facilities should not be cut. The Council should be supporting increased levels of activity and sport-not less. This supports government policy. Sport makes a major contribution to health and wellbeing and should not be underestimated	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20547	An individual	4a. Review Approach to Delivery of Culture and Sports	Reducing sport availability and access is very bad for the health and well being of the population, You may save money doing this but there will be greater costs in health care in the future.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

20548	An individual	4a. Review Approach to Delivery of Culture and Sports	Duplication on sports and swimming facilities over schools should be reviewed and removed.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20549	An individual	4a. Review Approach to Delivery of Culture and Sports	It is important that sport and fitness facilities are maintained, though the higher cost of providing swimming pools could be examined. Community use of school facilities should be facilitated if leisure centres are cut.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to ensure residents in West Lothian have access to sports facilities. These comments will be considered in the development of the proposal.
20550	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Health and wellbeing is a of great importance and should be considered a priority. Obesity is becoming a huge issue in Scotland and there is a need to continue to try to encourage people to become/get fit. Obesity costs the NHS huge amounts.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	The consultation proposes that one of the council's priorities going forward is the delivery of positive outcomes on health. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20551	An individual	4a. Review Approach to Delivery of Culture and Sports	The number of public swimming pools in West Lothian should be reduced, with available capital invested in those that are retained.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20552	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	However, some schools seem to have an overzealous approach to providing Physical Education that is reducing pupil's interest in core subjects or arts subjects. My own stepsons have virtually no interest in anything other than P.E. and I am seeing this developing more and more through the pupils that I teach. The amount of P.E. staff in some schools is frankly ridiculous when compared with the levels of staffing given to social subjects, technology subjects and arts subjects. It is the council's responsibility to provide a balanced education across all subjects and not turn our schools into one big gym club.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20553	An individual	4a. Review Approach to Delivery of Culture and Sports	Sports facilities are severely lacking at my children's secondary school there is no running track other than a lumpy grass pitch which doubles up for rugby and other activities.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20554	An individual	4a. Review Approach to Delivery of Culture and Sports	its a backward step but have you got a plan to assist communities develop their own sporting and leisure activities through local community trusts and sporting organisations like the excellent Broxburn United .. something like that in every community would build a future of healthy young children with a sense of responsibility	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20555	An individual	4a. Review Approach to Delivery of Culture and Sports	Why is there a need for Active schools in secondary education? There is a PE department in every school and pupils are being given the required amount of PE.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Active Schools creates opportunities for children and young people to participate in sport before and after school, during lunch time and at the weekends. Active Schools aim to provide more and higher quality opportunities for children to participate in school sport and to increase capacity through the recruitment of volunteers who deliver the activity sessions. The Active Schools Network works together with organisations and individuals including PE staff and Sport Development Officers (Opens in a new window) to provide a wide range of opportunities connected to physical education, school sport and club sport. Active Schools also assists with the transition from school sport into club sport by working closely with clubs to highlight the opportunities that exist in the local community. This integrated way of working creates and develops pathways into sport and encourages longer term participation.
20556	An individual	4a. Review Approach to Delivery of Culture and Sports	These services should be maintained at current levels, reducing the sporting aspect will result in less fit population thus impacting future health	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20557	An individual	4a. Review Approach to Delivery of Culture and Sports	Taking into consideration the obesity and health crisis affecting society, a reduction in sports funding has the potential to be devastating. There are activities that keep young people off the streets and encourage social interaction and activity (e.g booze you lose). A reduction in this area will have a negative knock on effect to health, and boredom in youngsters which of course can lead to mischievous behaviour.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

20558	An individual	4a. Review Approach to Delivery of Culture and Sports	Disagree we need somewhere for people to go from children to adults and the sports centre is a good send to parents who are working.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20559	An individual	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Active Schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20560	An individual	4a. Review Approach to Delivery of Culture and Sports	Just need to be careful that we do not end up excluding people from access to services. For example, the children I see being active and making use of free swimming sessions on a Friday at Whitburn should not lose this vital resource as I am unsure they would attend if there was a charge. (son attends his swimming lessons which I pay for).	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20561	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Active Schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20562	An individual	4a. Review Approach to Delivery of Culture and Sports	A reduction in funding for sports activities now will surely lead to an increase need for other services in years to come, with all they issues raised by an increasing sedentary population.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20563	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	In this time when sport and exercise is known to be beneficial to children and adults I do not agree with these services being cut.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20564	An individual	4a. Review Approach to Delivery of Culture and Sports	Most if not all of this should be put out to get private sponsorship so activities like this can break even. Also the fees for sports centres should be increased to cover other activities.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will explore external funding opportunities and consider how partnerships could be developed.
20565	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	sportscotland has requested to meet with West Lothian Council. There is an existing Partnership Agreement in place between the Council, sportscotland and West Lothian Leisure. Our expectations are that our investment adds value to a world class sporting system locally which has pathways from school to club and beyond.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20566	An individual	4a. Review Approach to Delivery of Culture and Sports	Why is there duplication of sports halls and swimming pools? Schools and Leisure Centres? Dual use only - close the duplicates.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20567	An individual	4a. Review Approach to Delivery of Culture and Sports	Again no clarity on what impact this will have and what sports activities will not be provided why when it has been already costed	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20568	An individual	4a. Review Approach to Delivery of Culture and Sports	I think this is a step in the wrong direction, especially with regard to sports activities. Again, an increase in this year's Council Tax would have helped.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20569	An individual	4a. Review Approach to Delivery of Culture and Sports	All sports bookings should be paid at the time of use, no invoices should be issued. With reduced staff no-one to chase this money up and the debt would be written off & lost to the council.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20570	An individual	4a. Review Approach to Delivery of Culture and Sports	If the council is really serious about improving peoples health then it requires more investment in sports activities and encouraging people to participate.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20571	An individual	4a. Review Approach to Delivery of Culture and Sports	The members of West Lothian Sports Council are concerned about any reduction in spending on sport. We do not want West Lothian Council to slide down the league table for spending on all sports within the West Lothian area. The benefits of participating in sports are well known so we support all investment in sport in West Lothian. participation in sports has positive effects on health - both physical and mental wellbeing. Sport must be accessible to all so the availability of suitable premises, including the school estate, at reasonable rates is essential. People in areas of deprivation and rural areas should be supported so that they do not feel unable to participate on grounds of cost or accessibility. Facilities should be accessible to all and those with disabilities must have the opportunity and encouragement to participate in sports to maximise their quality of life. Involvement in Sport is frequently cited as providing an alternative to potentially disruptive, violent or law-breaking behaviour and to drug and alcohol abuse. Sports teach self-discipline, respect for others and for rules - valuable life lessons, which make for more law abiding community. Sport clubs give their members a social network, a better lifestyle than living on Facebook 24/7 that can cause social exclusion.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.

20572	An individual	4a. Review Approach to Delivery of Culture and Sports	Would still like suport for clubs such as accreditation scheme for sports clubs and grants.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20573	An individual	4a. Review Approach to Delivery of Culture and Sports	Don't stop free sports clubs. I love going swimming and I encourage a bunch of friends to come with me. I live far from everyone and swimming is at school so it is easy to go after school. Sports are also good life skills they help build us as people and help with the future.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20574	An individual	4a. Review Approach to Delivery of Culture and Sports	I would eliminate the money spent on sports since that is a private hobby and I don't see why I should pay other people's boys to play football. Let the council do the basics and make the private individual pay for their own personal services.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20575	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree, too many pools in west Lothian which was very expensive to run. Comparable councils have much less	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20576	An individual	4a. Review Approach to Delivery of Culture and Sports	Active feet is great for kids and working parents and needs to be advertised more !	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20577	An individual	4a. Review Approach to Delivery of Culture and Sports	Reducing funding for sport will not benefit our young people in the long term	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20578	An individual	4a. Review Approach to Delivery of Culture and Sports	I think we should be encouraging young people into sport as lots of kids are classed as over weight and not healthy.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20579	No Response	4a. Review Approach to Delivery of Culture and Sports	Sport Scotland are having their funding cut and there is a possibility that the Active Schools team will be reduced. Not all schools have a PE specialist (some of which are part time) and primary school teachers don't have time, knowledge or interest in delivering PE. I worry that children and young people will become less active leading to a region where people have a lifetime of health and well being issues, low self esteem and unemployment.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20580	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Although there is a understanding that the budget has to be looked at, it seems that out with the active schools program the council will not support any sports programs in the Authority, with Active Schools working so closely with Local Community Club and Organisations and no support to be provided local clubs will not be able to sustain the support they currently provide, adding to the understanding that facility access charges are set to take a increase to an undisclosed amount. Adding both these issues together mean that most likely sports for children and young people will slowly disappear in some areas. Where will these children/Young People then turn to? Sport has shown to be a tool for social change and well as improve attainment in school, it is disappointing to read that this is no longer going to be supported it seems in anyway by West Lothian Council Without structured well run clubs there will be nothing for the Children and Young people to occupy them, this will lead to greater strain on the Health Services, Police (through Antisocial behaviour). Schools will see a reduction in their attainment all which are being set out as council priorities and all of which are going to be at harm from the lack of investment in Sport and Sport Services.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20581	An individual	4a. Review Approach to Delivery of Culture and Sports	Cutting sports activities in a time where children need to be more active for a healthy, longer more productive life is shocking. Talented young people will be lost without opportunities to do sport. Sport like swimming is an essential life skill, more should be done to make affordable Swimming available to the community and help, for local swimming clubs who struggle to finance their activities with already high costs placed on them by West Lothian Council. As a competitive swimmer I am very aware of these issues.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20582	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Active Schools should be enhanced due to the exceptional work done.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Part of the proposal is for Active Schools to continue to be delivered. Officers will consider the likely extent of future external funding, and any associated risks and opportunities, as part of the work on this proposal.
20583	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree that this is required. Do wonder if all of the existing facilities are required. These are some areas of over provision with several swimming pools in very close proximity - they are very expensive to run. Greater community use of school facilities would be a better idea and some rationalisation of other sports facilities would be sensible.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20584	An individual	4a. Review Approach to Delivery of Culture and Sports	Access to non-formal physical activities such as walking and cycling routes will be more important if formal sports access is reduced. Linking and sign posting paths, including canal tow path would help with this.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.
20585	An individual	4a. Review Approach to Delivery of Culture and Sports	sports being reduced which is not good for keeping active and reducing obesity. Children, young adults rely on these activities for their health and well being especially if they are struggling in life within School and home environment.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20586	An individual	4a. Review Approach to Delivery of Culture and Sports	If support for clubs is further decimated, this will impact even further on local communities. Numerous clubs throughout West Lothian have been supported by sport development officers to source funding to help with new builds; have accessed Sporting Grants to support their training and education which in turn supports and increases their capacity to deliver sessions for children and young people.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20587	An individual	4a. Review Approach to Delivery of Culture and Sports	With regards to the comments provided in 1h, economies could potentially be delivered though integration of council services and ALEOs who deliver services on the council's behalf. With regards to external funding, and similar to the Pupil Equity Funding for schools, the financial contribution provided by sportscotland for Active Schools does not exist to replace funding for services and programmes delivered by local authorities. Removal or absence of partnership funding or strategy for sport services runs the risk of reducing the attractiveness of West Lothian for future external investment, compounding any proposed disinvestment. The contribution of sport and activity to improved physical and mental health, pupil attainment, community and quality of life is well documented. It is important to note that research identifies that not only does the cost of providing sport and physical activities services have a disproportionately positive affect compared to the resources required to deliver them, but that a focus on 'upstream' preventative health initiatives reduce the cost of providing more intensive health interventions at a later point. A holistic approach to efficiencies across cultural, sport and leisure services is required but this is only possible through the consideration of all culture and wider health services (e.g. NHS, IJB) as a single area, and not through identification of various cuts to services without consideration of what the overall purpose of these services exist to provide. A clear culture and/or sport and physical activity strategy for West Lothian is required in the first instance which will inform delivery (and efficiencies) across services whilst delivering key outcomes. There is currently no vision for future services and the proposed reductions do not reflect any wider or considered view of the positive impact of these services for residents of West Lothian .	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	These comments will be considered in the development of the proposal.
20588	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	SHOULD NOT REDUCE FUNDING TO LEISURE. IMPORTANT AND IMPACT POSITIVELY ON MENTAL HEALTH. THAT IS A SHORT TERM POLICY WHICH WILL END UP COSTING THE COUNTRY MORE THAN IT SAVES.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20589	An individual	4a. Review Approach to Delivery of Culture and Sports	The service the council provides to the local west Lothian swimming clubs is critical, not only does this keep our children active but builds relationships, keeps the children focused and competitive. This also keeps our children off the streets and teaches discipline. Please Please do not close our local swimming clubs.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. Also, that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced. The full range and type of activities which can be supported will be considered when planning any future provision.

20590	An individual	4a. Review Approach to Delivery of Culture and Sports	Agreed as long as sports are provided to all children in all schools.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20591	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Active schools are key players for providing sport and physical activities and opportunities to children in primary & secondary level of education. This professional team of staff support curricular tasters, extra curricular clubs, provide cluster clubs opportunities aswell as build school club links for long life participation.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Part of the proposal is for Active Schools to continue to be delivered.
20592	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Still think that sports activities are important for the health and welfare of everyone and this is what was meant to be the legacy of the 2012 London Olympics.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20593	An individual	4a. Review Approach to Delivery of Culture and Sports	Create partnerships with local Sports Clubs	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20594	An individual	4a. Review Approach to Delivery of Culture and Sports	People need to be focused, especially the young with regard to sports activities. Scotland is behind other countries in promoting individual sports and should encourage competition thus bringing Scotland into World Sport	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20595	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts/sports are integral to a well rounded society. By removing some of the Active Schools facilities people will lose out - sport is expensive but if we have a culture of elitism then again the equity gap is not being bridged. All of the services you are looking at provide training, and development for all, not just school pupils.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Part of the proposal is for Active Schools to continue to be delivered.
20596	An individual	4a. Review Approach to Delivery of Culture and Sports	Feel sports funding has to remain a high priority as sport is linked to health and positive outcomes	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20597	An individual	4a. Review Approach to Delivery of Culture and Sports	Disappointed in this- with the public health in the state it is in, the council should be doing all it can to promote sport	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20598	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	I strongly hope that this does not change the provision of service at Fauldhouse Partnership Centre in particular the facilities used by Fauldhouse Penguins Swimming Club - a sports organisation run by volunteers which offers affordable access to a competitive sport in a deprived area. The swimming club provides a meaningful, positive, developmental and affordable activity for children and young people in the locality. This club has been in existence for 17 years and has contributed positively to the community throughout this time. Outside of the positive health benefits the sport of competitive swimming offers, the club also encourages children to take accountability for themselves, learn about diet and instills many positive disciplines for leading a successful life. Despite the resources available to the club it consistently produces young athletes that perform to some of the highest levels in the sport across Scotland and Britain. Any changes to this facility that increase the financial burden on a voluntary club or removes access to the pool would have a significant impact on the viability of the club. This would be seen as a significant loss the the community and all those children involved in the club.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20599	On behalf of a Group/Organisation	4a. 20600	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	I strongly hope that this does not change the provision of service at Fauldhouse Partnership Centre in particular the facilities used by Fauldhouse Penguins Swimming Club. The swimming club provides a meaningful, positive, developmental and affordable activity for children and young people in the locality. This club has been in existence for 17 years and has contributed positively to the community throughout this time. Outside of the positive health benefits the sport of competitive swimming offers, the club also encourages children to take accountability for themselves, learn about diet and instills many positive disciplines for leading a successful life. Any changes to this facility that increase the financial burden on a voluntary club or removes access to the pool would have a significant impact on the viability of the club. This would be seen as a significant loss to the community and all those children involved in the club.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20601	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The Sports team at the council was restructured last year with provision through sports development hit hardest. The health and well being of the people of WL is greatly improved through sporting provisions available and the successes of our clubs and it's members would be severely under threat to any further reduction in an already lesser team.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20602	No Response	4a. Review Approach to Delivery of Culture and Sports	Where is the allowance for Outdoor Education? This is such an important aspect of education and should NOT be ignored. Facilities in West Lothian are used, popular and generate income. Outdoor Ed must remain on this list!	Delivery of Culture and Sports - Sports	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Low Port Centre and Outdoor Education are currently delivered by WLL on behalf of the council.
20603	An individual	4a. Review Approach to Delivery of Culture and Sports	Do you ever wonder where our sports people are? They didn't get opportunities to improve skills as sports provision is cut and cut. Teachers do their best. Did Andy Murray learn to play tennis because of a schoolteacher? Less potted sports in schools and much more sport, fitness, healthy lifestyles. More money is needed to be spent here. We have children who can run, swim, jump, play ball games and racquet games. Give them more opportunities. This is a priority for the sake of the health of West Lothian in the future.	Delivery of Culture and Sports - Sports	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council needs to make substantial savings across services it is not required to deliver by law (i.e. non-statutory services) such as arts and sports.
20604	An individual	4a. Review Approach to Delivery of Culture and Sports	It's already £4 for an adult swim which seems a lot. What's happened to the public climbing facility at Lowport - great for teen girls	Delivery of Culture and Sports - Sports	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20605	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Will this mean a reduction in sports facilities outside of our schools. I would not like to see closure of swimming pools, gyms or sports centres where people are actively involved.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20606	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I don't see why you would take away sports activities then say active schools? With Scotland having such a bad obesity problem I think it's a very bad idea to remove sports	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20607	An individual	4a. Review Approach to Delivery of Culture and Sports	As you know, sports and outdoor activities are vital in improving and maintaining both physical and mental wellbeing. I don't know what you mean by reduced funding, but I hope it doesn't mean closing sports centres, especially swimming pools. I think this would be extremely short sighted.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20608	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reduce the number of sports facilities / pitches managed by the council only maintain the most used pitches - offer others to local groups to manage for themselves at an annual /leased agreements.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20609	An individual	4a. Review Approach to Delivery of Culture and Sports	Think it's wrong to reduce funding re sports. Scotland second most obese country in the world. Need cheaper/subsidised access to public facilities e.g. swimming pools for all ages.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20610	An individual	4a. Review Approach to Delivery of Culture and Sports	Don't cut sport	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20611	An individual	4a. Review Approach to Delivery of Culture and Sports	All Sports clubs should still be able to access the existing facilities at reasonable costs - Small incremental increases in cost / fees can be understood and handled without causing problems.	Delivery of Culture and Sports - Sports	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.

20612	No Response	4a. Review Approach to Delivery of Culture and Sports	Fitness is more important than music. Sport would be my choice over music any day.	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20613	An individual	4a. Review Approach to Delivery of Culture and Sports	How can the council aim to improve the health of its citizens if it removes funding for the one area that helps to put people on a positive path to self help and exercise. Should not be cut.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20614	No Response	4a. Review Approach to Delivery of Culture and Sports	I think kids havent got much throughout West Lothian unless your paying annual fee of almost Â£150. As a single mum of three I budget for my son to play hockey at Livi juniors based at inveralmond high which he loves and is a positive thing for him keeping him exercised fit and not causing major health issues! I struggle with the costs but I make it a priority! I would b devastated if this was to close!	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20615	An individual	4a. Review Approach to Delivery of Culture and Sports	Increased charging. The general ublic will suffer in terms of fitness	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.
20616	An individual	4a. Review Approach to Delivery of Culture and Sports	I'm not keen on reducing funding for anything to do with keeping us active.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20617	An individual	4a. Review Approach to Delivery of Culture and Sports	Cuts to any opportunity for exercise could have an impact on health.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20618	An individual	4a. Review Approach to Delivery of Culture and Sports	It is a priority to maintain / improve services for the young. Childhood obesity is increasing and sports/ activities should be available to encourage children to pursue a more active life. Will also have a long term positive impact on health services.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20619	An individual	4a. Review Approach to Delivery of Culture and Sports	Keeping kids active and health is vital. It's important that an adequate level of opportunities for exercise and healthy lifestyles is maintained. The proposed Cycle Circuit in West Lothian is hugely important in promoting health lifestyles throughout West Lothian and should be supported.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20620	An individual	4a. Review Approach to Delivery of Culture and Sports	If you mean schools then I am NOT supportive of reduced income in this area- kids need to enjoy sport (obese agenda) and need activities and art is a skill as is music!	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20621	An individual	4a. Review Approach to Delivery of Culture and Sports	sport must be maintained in schools - essential to childrens health and wellbeing	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20622	No Response	4a. Review Approach to Delivery of Culture and Sports	Sport is essential for children's well being, it must be maintained	Delivery of Culture and Sports - Sports	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20623	An individual	4a. Review Approach to Delivery of Culture and Sports	bare minimum services help no one. Reducing sport with rising childhood obesity????	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20624	An individual	4a. Review Approach to Delivery of Culture and Sports	This could have a negative effect on the future health of our children and their generation. We're told that there is an obesity crisis; how will this help?	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20625	No Response	4a. Review Approach to Delivery of Culture and Sports	I believe that sports programmes are essential with the decline in health and increase in childhood obesity. These programmes are essential to ensuring that children remain active.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted.. The proposal is for Active Schools to continue to be delivered. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20626	An individual	4a. Review Approach to Delivery of Culture and Sports	again, if sports and leisure facilities become too expensive there is a health impact, possibly leading to lost work hours, increased crime from bored teenagers etc and so you need to be very careful how it is done.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20627	An individual	4a. Review Approach to Delivery of Culture and Sports	Sports Provision is key to getting children in to a healthy lifestyle the benefits of which should be felt across other departments. Health and well being can provide massive savings to health and welfare facilities. Reducing this provision may well increase spending requirements in other areas	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	This comment will be considered in the development of the proposal.
20628	An individual	4a. Review Approach to Delivery of Culture and Sports	When all you hear on the news is reports about obesity, reducing money in sports activities is not helping this situation	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20629	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I think the Council should focus more on the leisure. If parents want to have their kids learn music or art they should pay for this themselves privately. Communities are more likely to use the leisure facilities.	Delivery of Culture and Sports - Sports	3. The respondent advised that they had no comment to make.	This comment will be considered in the development of the proposal.
20630	An individual	4a. Review Approach to Delivery of Culture and Sports	No cuts should be made to the sporting grants and excellence in sport arrangements. My own daughter has been provided with funding from them to enable her to compete for Great Britain at a World level gymnastics event. This funding was invaluable in helping to finance her participation and without it she would not have been able to go. Her team won a gold medal and as a result she has lifelong learning on what it is to work as a team, maintain a healthy lifestyle and plan and organise time effectively. Her gymnastics club has also received facility funding which was invaluable in providing heating. This funding enables classes to be run for all ages at all times of the year meaning children and young people are active and leading a healthy lifestyle	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This comment will be considered in the development of the proposal.
20631	An individual	4a. Review Approach to Delivery of Culture and Sports	No cuts should be made to the sporting grants and excellence in sport arrangements. My own daughter has been provided with funding from them to enable her to compete for Great Britain at a World level gymnastics event. This funding was invaluable in helping to finance her participation and without it she would not have been able to go. Her team won a gold medal and as a result she has lifelong learning on what it is to work as a team, maintain a healthy lifestyle and plan and organise time effectively. Her gymnastics club has also received facility funding which was invaluable in providing heating. This funding enables classes to be run for all ages at all times of the year meaning children and young people are active and leading a healthy lifestyle	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20632	An individual	4a. Review Approach to Delivery of Culture and Sports	Not sure reductions and the proposed priorities will continue to improve health, well being and general activity levels in West Lothian. More needs to be done to encourage 'active citizens' in terms of health and well being. Cut backs in this area could lead to other issues further down the line. A protected area, please.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20633	An individual	4a. Review Approach to Delivery of Culture and Sports	Cuts to culture and sports is a short-sighted, backwards step. How can we improve the health and life chances of our young people if we cut and do not value sports provision and access? We need more sports input for our children and young people and also for adults to combat poor lifestyles and lack of exercise.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..

20634	An individual	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Active schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20635	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Active schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20636	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The money spent on Active Schools Coordinators would be better spent on a full time PE teacher which would benefit every child in the school.	Delivery of Culture and Sports - Sports	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Active schools provision is almost entirely externally funded and such funds must be used in accordance with the related funding agreement.
20637	An individual	4a. Review Approach to Delivery of Culture and Sports	See previous comment. Sport is important. Need to look at the long term implications of these cuts as less sport facilities will result in more health related costs in the future.	Delivery of Culture and Sports - Sports	4. The council is already doing this.	This comment will be considered in the development of the proposal.
20638	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	My children are members of Fauldhouse Penguins Swimming Club and utilise the facilities at Fauldhouse Partnership Centre. I would like to raise concerns in respect of this facility and the impact that any cost cutting would have on the children who attend this club not only from a sporting aspect but in respect of their health. Given that Fauldhouse is a deprived area if WLC decide to alter fee structure for this facility our club would be adversely affected and many families would not be able to afford any increase in cost. The club does not just teach children to swim the programme becomes a way of life for many of our swimmers in respect of the discipline required for training / competing. It has a very positive impact on lifestyle choices made by the children.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. As part of the work on this proposal officers will consider how charging could be developed and the relative merits of rationalising facility provision.
20639	An individual	4a. Review Approach to Delivery of Culture and Sports	. In addition, the opportunities and variety of sports is equally important in a child's development. Many of which my children are benefitting from. Netball, handball, football, rugby, hockey, swimming etc are all aspects of experiencing team support, sportsmanship, encouragement, team building, and not forgetting health and fitness. These opportunities should not be cut.	Delivery of Culture and Sports - Sports	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20640	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this mean West Lothian Leisure will simply charge more and drive people away	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20641	An individual	4a. Review Approach to Delivery of Culture and Sports	WLL provides significant wellbeing benefits for citizens (potentially reducing longer term impacts on services) so funding should not be reduced.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20642	An individual	4a. Review Approach to Delivery of Culture and Sports	So short-sighted to reduce the funding to WL leisure of which me and my family are full-paying members. No doubt it will simply leave us having to pay more while others get free or discounted access. Encouraging sports and leisure pursuits is one the best things a public body can do from health and wellbeing perspective and reducing inequality. Getting to the stage where we should be questioning the fundamental role of LAs in 21st century as appear to becoming more and more residual in the services they provide.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20643	An individual	4a. Review Approach to Delivery of Culture and Sports	It would be a shame to cut back on West Lothian Leisure. This is one of the few proposals I am not too happy about as it's so important to encourage sport.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20644	An individual	4a. Review Approach to Delivery of Culture and Sports	Schemes such as the Excite exercise facilities are an important service to the young, old and those recovering from illness. These help to maintain the general health and wellbeing of citizens of all ages thereby reducing their need for other Council services.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20645	An individual	4a. Review Approach to Delivery of Culture and Sports	It is a great idea having free swimming for the over 60s. I personally use this service. To help West Lothian leisure surely a small charge say 50p would be possible. I'm sure West Lothian are the only council in the Lothians who give this service free.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will consider how charging for activities could be developed.
20646	An individual	4a. Review Approach to Delivery of Culture and Sports	Do not support if this will result in West Lothian Leisure venues facing closure as these provide valuable health and well being facilities to all not just the young and old but the tax payers that do not fall into these categories.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

20647	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	west lothian leisure funding should be reduced.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20648	An individual	4a. Review Approach to Delivery of Culture and Sports	The costs of membership to WLL is really good compared to full leisure services in the private sector so I see no reason not to increase the cost of these, annoying as it would be to local residents. And a lot of users should be able to easily meet these increased subscriptions. Access to those less well off should be considered.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20649	No Response	4a. Review Approach to Delivery of Culture and Sports	I agree Gym membership could rise slightly	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20650	No Response	4a. Review Approach to Delivery of Culture and Sports	Agree that subsidy to WLL should be reduced, and WLL should aim to become self sufficient in the long term.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20651	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reducing funding to WL Leisure is totally acceptable.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20652	An individual	4a. Review Approach to Delivery of Culture and Sports	If West Lothian Leisure receives funding for the youth to attend they will have to revise their programme. There isn't much for teenagers (under 16) in the evening as they can't attend the gym after 5.30pm. Many youngsters would enjoy attending a gym but their activities are aimed at primary school children and mostly involve sports such as football and swimming. More yoga, gymnastics and dance style activities are needed.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20653	No Response	4a. Review Approach to Delivery of Culture and Sports	a small increase in west Lothian leisure Gym membership could help cover costs.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20654	An individual	4a. Review Approach to Delivery of Culture and Sports	Go further and cut support to Xcite as they don't listen to members	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20655	No Response	4a. Review Approach to Delivery of Culture and Sports	Surely Xcite prices should be kept low, not rise due to more arts. Both have merit but obesity killer they most pressing. Keep people at low priced leisure.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Based on the proposed priorities some sports and arts activities will no longer be provided. It is also proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20656	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure needs to work alone as a stand alone business without WLC support	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20657	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure should be looking to the private sector to consider ways in which it can compete in a growing market.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20658	No Response	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure should provide a gym only membership option at a rate which is competitive with that of other providers in the area. A swimming only membership option is also appealing. The current membership packages all seem to come with loads of 'bells and whistles' which I don't think the vast majority of people actually want. I'm sure these extras cost a fair bit to provide as well.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20659	No Response	4a. Review Approach to Delivery of Culture and Sports	Important that West Lothian Leisure does not suffer disproportionately. The importance of promoting and participating in healthy lifestyles would be severely affected if WLL facilities were cut back significantly.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced. The relative merits of rationalising facility provision will be explored during work on this proposal.
20660	An individual	4a. Review Approach to Delivery of Culture and Sports	The council needs to consider stopping the support it gives for arts and sports activities, including West Lothian Leisure. There is a lot of cheaper, more modern and more flexible sports provision from the private sector in West Lothian.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20661	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure can increase charges to meet funding gaps. Public art is not required when times are hard.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will consider how charging for activities could be developed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20662	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	In view of the now extensive provision of inexpensive pirate gyms and fitness centres in West Lothian there may be justification to reduce the provision of some services by West Lothian Leisure.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider the type and extent of current sports and leisure facility provision across West Lothian.
20663	No Response	4a. Review Approach to Delivery of Culture and Sports	good idea.. xcite has benefitted for years with help from the council.. the new focus on health and use of gyms/classes (compared to 10 years ago) should see Xcite being able to exist on their own without funding.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20664	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	If the funding is reduced to West Lothian Leisure, would this impact things such as membership rates etc? West Lothian Xcite gyms are already in fierce competition with a number of gyms across the county that offer lower rates, therefore could potentially buy themselves out of business.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20665	An individual	4a. Review Approach to Delivery of Culture and Sports	I agree with this. West Lothian Leisure should be more income sustainable.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20666	An individual	4a. Review Approach to Delivery of Culture and Sports	West lothia leisure offers an affordable activity for parents to taksther children to. Learning to swim can save lives	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As part of the work on this proposal officers will consider the type and extent of current sports and leisure facility provision across West Lothian
20667	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure should be an independent company.	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	WLL is a company limited by guarantee and a registered charity. It provides and operates services and facilities in accordance with contracts, leases and funding agreements made with the council and other partners. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.
20668	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	These are 'pro-rich' provisions and generally speaking have a relatively affluent user base (e.g. Lowport = holiday care for rich kids/families). WLC should publish the SIMD residency numbers of the users of these services. I'm not convinced many people from Craigshill, Whitburn, Blackburn Knightsridge etc. use or benefit from these services. West Lothian Leisure continues to be a drain on public monies - costs are excessive at a time when private sector providers deliver 'GYM' services at less than half the cost of WLL.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.
20669	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The expenditure by WLC on subsidies, loans, gifts, staff to WLL could be better used by subsidising those most likely to benefit (poorer people/health outcomes) to access existing private sector provision. The complete lack of transparency by WLC and WLL re WLL is shameful. No doubt WLL will rationalise its own services and raise prices (again!) in an effort to fill their gap from WLC reduced funding. Lowport /Burgh Halls/sports centre & pool can be offered to Linlithgow development trust or closed. Sves an affluent and mobile population NOT Blackburn, whitburn, craiggshill etc.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20670	An individual	4a. Review Approach to Delivery of Culture and Sports	Increase prices at leisure centres. Reduce front desk staff.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20671	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I feel that the service provided by West Lothian leisure is essential for children in West Lothian, the UK has such a big problem with obesity that exercise among children should be encouraged. The gym membership prices charged for adults are very reasonable, I feel that all children should be offered free memberships to encourage being active.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20672	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Why does the Council offer gym membership at a cost which is more than many really good private gyms?	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20673	An individual	4a. Review Approach to Delivery of Culture and Sports	We should continue to provide the same level of funding in real terms to West Lothian Leisure as this is a great asset for the County and is well run and well used	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20674	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Cut deficit funding to WLL. With all the new private gyms WLL cannot compete with them so consider getting them to close their facilities and allow private sector to support demand and ultimately reduce deficit funding and if the assets are still WLC's then there can be sold and capital receipts realised	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.

Transforming Your Council Consultation 2017

20675	An individual	4a. Review Approach to Delivery of Culture and Sports	Given the Trust can make charges for services uplifting these charges should be considered before any proposed services cuts are made.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	As part of the work on this proposal officers will consider how charging for activities could be developed.
20676	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	WLL would be far more successful if pricing (for gym memberships, etc) was more competitive. With the likes of Pure Gym and Xercise4Less charging so little for an arguably much better service - it's surprising that it's still operating. I support the reduction in funding from the council, however their business model needs reevaluated.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. Officers will consider how this could be developed.
20677	An individual	4a. Review Approach to Delivery of Culture and Sports	I think that funding for West Lothian leisure should not be reduced as this will only mean increased prices to use leisure and sporting facilities. This will make them even more prohibitively expensive and stop people using them. Also, I think that this might impact on schemes like the Excellence in Sports (elite athletes) scheme, which has already been diminished and which should be supported	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20678	An individual	4a. Review Approach to Delivery of Culture and Sports	Centralisation at Livingston doesn't help kids travelling from afar	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. As part of the work on this proposal officers will consider the type and extent of current sports and leisure facility provision across West Lothian.
20679	An individual	4a. Review Approach to Delivery of Culture and Sports	Which means prices will go up at West Lothian Leisure which will ensure access to these facilities will probably be out of range of the people who really need them.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20680	An individual	4a. Review Approach to Delivery of Culture and Sports	We use Xcite facilities on a regular basis. The memberships are great value at the moment and, accordingly, there is probably a good take-up of these membership packages. It's great to be able to use a number of sites under the membership. It would be sad if any Xcite venue would be forced to close as a result of reduced funding from the Council.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced. The relative merits of rationalising facility provision will be explored during work on this proposal.
20681	An individual	4a. Review Approach to Delivery of Culture and Sports	Scrap the lot of it and put the money into a properly thought out education system.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20682	No Response	4a. Review Approach to Delivery of Culture and Sports	Disagree. Health inequalities and poor lifestyle choices have led to an increase in obesity and diabetes therefore cutting these services will have a further detrimental consequence and increase your spending supporting health and social care!!!!!!	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20683	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree West Lothian Leisure should be able to support itself. Similar with Howden Park.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted.. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.
20684	An individual	4a. Review Approach to Delivery of Culture and Sports	I would oppose any reduction of funding to West Lothian Leisure without understanding the implications.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20685	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not think funding to west lothian leisure should be reduced. This would likely cause an increase in membership costs etc and some people may not be able to continue to use the service	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20686	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Although I am in favour of this as a general rule, there is one major issue I take with the current model. School-based facilities should either be funded from the school's budget, with proceeds going to the school or funded from West Lothian Leisure budgets, with proceeds returning to West Lothian Leisure. In several schools, I know that the school budget funds repairs, with West Lothian Leisure taking all the proceeds. This is wrong, pure and simple.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20687	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	"Headteacher more in control of funding" - this is in direct contradiction to the off-hosting of the School Sports Lets infrastructure to West Lothian Leisure. When schools had control over this process, they built relationships with local clubs, they understood the outcomes of the clubs ... in short they cared and that was repaid in good faith with more bookings and more revenue. That relationship has gone now and the revenue is being sent to West Lothian Leisure.... a group who in my personal experience as Chairman of the West Lothian Wolves Basketball Club, has acted in repeated bad faith, with no real understanding of the challenges local clubs have. Please explain how this process change matches this proposal 1b.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.

20688	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this mean that reduced memberships at West Lothian Leisure will no longer be offered to individuals who meet the criteria? It would be better if those individuals that qualify through means testing could still get reduced membership. Not sure there is really a need for WLC workers to get this benefit if they are earning enough.	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20689	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure is a fantastic resource to support our young people and encourage healthier lifestyles. I hope this cut would not result in increased costs for those who use xcite and their children.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20690	An individual	4a. Review Approach to Delivery of Culture and Sports	Against the possible reduction in funding to West Lothian Leisure, who provide excellent facilities and services.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20691	No Response	4a. Review Approach to Delivery of Culture and Sports	The free swimming could be withdrawn but replaced with a 50p charge per child this would bring some funding in and wouldn't put people off	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.
20692	An individual	4a. Review Approach to Delivery of Culture and Sports	And as a by product this will negatively impact the health services as people will no longer get the health benefits of the currently funded West Lothian Leisure	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20693	An individual	4a. Review Approach to Delivery of Culture and Sports	Prices at West Lothian Leisure are already expensive.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20694	An individual	4a. Review Approach to Delivery of Culture and Sports	why? Falkirk and Grangemouth have provided new tennis courts as have most councils in Fife. the Excite is too expensive for many people. sport and activities should be a priority for the future of our youth.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. Also, funding to WLL would continue, however, to reflect the reduced income of the council, it is proposed that this would be reduced.
20695	An individual	4a. Review Approach to Delivery of Culture and Sports	There is a concern that if this results in Xcite's prices increasing by an over inflated amount that there is a resultant reduction in the number of people attending, which in turn could have a detrimental affect on the community's health and well being - physical and mental.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20696	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure should be able to operate without council funding - other gyms manage to do so.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council.
20697	An individual	4a. Review Approach to Delivery of Culture and Sports	Fine - WLL needs to be self funding	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council.
20698	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian leisure provision costs must be ensure that is still accessible to people to allow them to maintain a healthy lifestyle.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20699	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	To ensure the health of the residents in West Lothian access to sports facilities should be maintained.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The council will continue to ensure residents in West Lothian have access to sports facilities. The relative merits of rationalising facility provision will be explored during work on this proposal.
20700	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure have been given the estates to manage, therefore WLL will now have to look at how they can make these facilities viable which, as let charges are expected to increase from April 2018, will be something that as community groups who let the facilities can have no control over. We would hope that this increase in let charges will be in line with previous council let charges and be made visible to ourselves, the public, for the next 3 years. Ideally any increase should be no more than inflation.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20701	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Should West Lothian Leisure still be independent of the council given the changes in taxation, would there not be greater savings to be made by the council taking over it.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The Scottish Government has yet to confirm how it will respond to the recommendations in the Barclay report which are relevant to this proposal. This comment will be considered in the development of the proposal.
20702	No Response	4a. Review Approach to Delivery of Culture and Sports	You must contract with WL leisure to limit their likely massive increase in rental for pools etc. This must be limited to small regular increases within reason and be linked to guaranteed upkeep of the premises. What may happen is they try to profiteer and ultimately organisations fold and income plummets. The health of the nation is still critical and needs supported.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20703	An individual	4a. Review Approach to Delivery of Culture and Sports	It is very sad that funding for West Lothian Leisure will be cut. This should be avoided.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council.
20704	An individual	4a. Review Approach to Delivery of Culture and Sports	I object to any cutbacks to West Lothian Leisure as it provides important access to all members of the community to sporting facilities. It provides value for money service, operates a high quality and safe service in well maintained facilities. operates a higher standard of customer care. West Lothian council transferred art, sport and outdoor education facilities to West lothian leisure in the last year to safeguard the future of these services and their employees. What is being proposed would threaten these services but also impose back door redundancy for some employees. These facilities were transferred to save this local authority Â£600,000 in annual rates. The council must not impose any cut back in funding for West Lothian Leisure as the health and Well-being go the population will be adversely effected, in disregard that United Kingdom is the most obese nation in Western Europe. Having reduced access to sporting and outdoor education facilities will impose greater social health costs within this local authority as the population with more people becoming obese, unhealthy and having long term health issues.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20705	An individual	4a. Review Approach to Delivery of Culture and Sports	This statement contradicts itself. I strongly believe that leisure facilities are absolutely essential to the wellbeing, health and education of our young people. We are all encouraged to lead active lives for the benefit of health and any erosion of facilities can only be described as a backward step	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The council will continue to ensure residents in West Lothian have access to sports and leisure facilities.
20706	An individual	4a. Review Approach to Delivery of Culture and Sports	Closure of energy hungry swimming pools where there are more than one in a town. e.g. Armadale - close North Street and keep Armadale Academy'	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20707	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Examination of the funding provided to West Lothian Leisure and of the services provided by them is essential.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
20708	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I support reductions in this non statutory area. It is essential that West Lothian Leisure produce a viable business plan which realistically must involve closing facilities, in particular swimming pools.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20709	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure already seems to be struggling to provide suitable services as it is. Suggest retain good level of leisure service provision but increasing charges but giving passes for those under 20 and those given as a medical prescription.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As part of the work on this proposal officers will consider how charging could be developed.
20710	An individual	4a. Review Approach to Delivery of Culture and Sports	Concerned that cuts to funding to West Lothian leisure may impact on other organisations e.g. swimming clubs.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20711	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	The Scottish Government have pledged to reduce obesity in the population yet you are proposing a reduction to the funding that West Lothian Leisure are receiving. You have also offloaded a number of schools and venues to West Lothian Leisure at significant expense to West Lothian Leisure where does the money therefore come from to run these.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council.
20712	An individual	4a. Review Approach to Delivery of Culture and Sports	Duplication on WLL facilities should be reviewed and removed.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.

Transforming Your Council Consultation 2017

20713	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The arrangement for West Lothian Leisure to manage the golf and driving range at Polkemmet has frankly been an embarrassment and failure, with those services only continuing to operate due to Parks & Woodland bearing all the pressures and responsibilities. This should have been handed over to West Lothian Leisure fully by the 1st October and it has not been. It cannot go on indefinitely. If WLL continue to fail to fulfil their obligations, what is the Council's alternative plan (which must have been considered when this decision was originally taken)? What would be the business continuity plan for the Polkemmet golf and driving range?	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20714	An individual	4a. Review Approach to Delivery of Culture and Sports	This is impossible to comment on with out the detail. I don't believe that WLL have the resources to deliver the services that they have to mange and that ultimately this will result in a downward spiral of these important activities	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20715	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure could handle a funding cut if they personally fined all the able bodied young men and middle class mum's that park their BMWs and Range Rovers in their facilities disabled parking spaces on a daily basis. The level that I've seen of this at places like Excite Bathgate and Armadale Academy is socially unacceptable in this day and age.	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20716	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian have opened up lots of opportunities to encourage young people and adults to choose a healthy lifestyle and I think it would be dangerous to reduce funding to west lothian leisure as I feel the danger would be that less people would use the excellent facilities available within west lothian. With less people choosing to have an active/healthy lifestyle, this could place more pressure on the health care system.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20717	No Response	4a. Review Approach to Delivery of Culture and Sports	West Lothian requires to review their leisure contract for Xcite, other facilities offer the same equipment and classes but at a third of the price. Xcite costing them selves out the market.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20718	An individual	4a. Review Approach to Delivery of Culture and Sports	My child uses and pays for West Lothian leisure memberships at Excite, how do others access sports activities which aid health and wellbeing there are not enough opportunities in this area already.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20719	No Response	4a. Review Approach to Delivery of Culture and Sports	West Lothian leisure is a more accessible facility in our communities than the Howden Park Centre. I do not support this, although I do think the go referral scheme should be reviewed as many memberships just do not get used.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20720	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	I would like to know the proposal for this as I feel west Lothian leisure provide good service at a good cost. I would rather see a slight price increase than a reduction in the service	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging could be developed.
20721	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	West Lothian leisure has already taken over some of West Lothian councils services and as of yet don't appear to be getting utilised to the best of it's potential. We would require more detail on these proposals and hope that any TUPE transfer of potential staff is handled in a more professional manner.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	This comment will be considered in the development of the proposal.
20722	An individual	4a. Review Approach to Delivery of Culture and Sports	Increased cost for leisure facilities will reduce the use of such facilities and goes against the Councils drive to ensure people of West Lothian are healthy partly through taking regular exercise.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20723	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Supportive in principle albeit based on limited detailed information. The position with regard to the role and funding to West Lothian Leisure is understandable in cotext but it is unclear from the proposal as to where the provision of any future cultural service at Bathgate Regal Community Theatre and Linlithgow Burgh Hall would sit.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20724	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Are we sure these partners are viable. If not we shouldn't be hiving off facilities and services to them.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	This comment will be considered in the development of the proposal.
20725	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure was once part of WLC. It does a great job and is well used. Don't force them to reduce the services that they provide to the community.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Funding to WLL would continue, however, to reflect the reduced income of the council, it is proposed that this would be reduced.

20726	An individual	4a. Review Approach to Delivery of Culture and Sports	This unfortunate but I suppose necessary. Fees could go up but not too a great extent as people need access to good leisure facilities and these in west Lothian are excellent at the moment.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will consider how charging could be developed.
20727	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Without knowing how much funding is provided to West Lothian Leisure we would be opposed to reducing that funding.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20728	An individual	4a. Review Approach to Delivery of Culture and Sports	Why reduce funding to west Lothian leisure- is the sports centres and swimming pools surly keep people fit -we need to support these.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Under the proposal, funding to WLL would continue, albeit reduced to reflect the reduced income of the council. The council will continue to ensure residents in West Lothian have access to sports facilities.
20729	An individual	4a. Review Approach to Delivery of Culture and Sports	More obesity in children if leisure facilities are closed down	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The council will continue to ensure residents in West Lothian have access to sports facilities.
20730	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure have been given the estates to manage, therefore WLL will now have to look at how they can make these facilities viable which, as let charges are expected to increase in April 2018, will be something that as community groups who let the facilities can have no control over. We would hope that this increase in let charges will be in line with previous council let charges and be made visible to ourselves, the public, for the next 3 years. Ideally any increase should be no more than inflation.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20731	An individual	4a. Review Approach to Delivery of Culture and Sports	If West Lothian Leisure have been granted a greater remit on running facilities in the Council's schools (along with the cost base to match) then surely a reduction in resources to them is a double whammy. Don't think this has been thought through properly.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted. Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20732	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	More, not less, needs to be done to get people active & managing their weight. The role played by WL Leisure is important and they provide great services & facilities which are current & effective. It would be good to maintain council contributions.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20733	An individual	4a. Review Approach to Delivery of Culture and Sports	The number of leisure centres should be reduced or they should become profit making entities.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	The relative merits of rationalising facility provision will be explored during work on this proposal. It is anticipated that, going forward, costs in these areas will increasingly require to be off-set through income generation.
20734	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Stop West Lothian leisure or council providing fitness classes/memberships for new mums.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20735	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	far too many get free WL leisure and yet hardworking people can't afford it	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20736	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Would hate to see the closure of any sports facilities as a result of reduced funding to west Lothian Leisure.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20737	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure has to be enabled to maintain current provision if not also expand - partnerships, community engagement and so forth have to be explored for this.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20738	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	REDUCED FUNDING TO WEST LOTHIAN LEISURE - THEY'LL HAVE TO PUT THEIR PRICES UP - WHICH IN EFFECT WILL HIT THE POOREST CITIZENS OF WEST LOTHIAN!!!!!!	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Potential impacts, risks and opportunities will be given further consideration by officers as work on this proposal progresses.
20739	An individual	4a. Review Approach to Delivery of Culture and Sports	This is a terrible idea. West Lothian Leisure helps promote exercise which is to be encouraged when kids are at risk of becoming more obese than ever. Cuts in this area increase the risk of obesity.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20740	No Response	4a. Review Approach to Delivery of Culture and Sports	Sounds to me like you are trying to get rid of the small carer's discount I get to take my disabled son swimming. Which I had to jump through hoops to get even through if I was unemployed it was simply a ticked box and a stamp from the job centre. If you are going to reduce funding to the Leisure Centres I hope this will be for everyone and not just the disabled.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. Also, that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced. The full range and type of activities which can be supported will be considered when planning any future provision.
20741	An individual	4a. Review Approach to Delivery of Culture and Sports	Be great if Xcite was more accessible and affordable for youngsters and people in general as this would encourage better health	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20742	An individual	4a. Review Approach to Delivery of Culture and Sports	The swimming pools in West Lothian are a joke they are over staffed and no one goes ... Close them down and have one opened ..Theres a saving	Delivery of Culture and Sports - West Lothian Leisure	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20743	An individual	4a. Review Approach to Delivery of Culture and Sports	Please ensure that the free swimming for school age children continues during the holidays. For many children, this is an essential form of exercise and skill and since school swimming lessons have been stopped, this may be the only regular opportunity that some children will get to swim.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The full range and type of activities which can be supported will be considered when planning any future provision.
20744	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure is first class - and a big attraction to living in West Lothian. You should not reduce their funding by as much as is proposed.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20745	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure, having the ability to generate income, should be more accountable for their own sustainability and provision so I fully agree with the proposal to reduce the council's contributions.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.
20746	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	In order to increase money - new local initiatives popping up are gym classes for new mums. West Lothian leisure/howden park centre could provide fitness classes for new mums. West Lothian leisure could also offer a reduced cost membership for new mums on maternity - this would likely be used off peak times and being in more revenue.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20747	An individual	4a. Review Approach to Delivery of Culture and Sports	in partnership with West Lothian Leisure'. As I understand it 'West Lothian Leisure' is a wholly owned subsidiary of West Lothian Council; as such 'the funding provided to West Lothian Leisure will be reduced' is meaningless. Does this mean that everything is being centralised on Howden Part centre; if so the community who wish to use these services will need to cover the cost of transport; again impacting on thos who have difficulty in paying	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20748	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	With the council having to achieve efficiencies, it is only right that West Lothian Leisure do likewise.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
20749	An individual	4a. Review Approach to Delivery of Culture and Sports	The gym prices are too high given the current competition from new gyms	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.
20750	An individual	4a. Review Approach to Delivery of Culture and Sports	1) Do 'West Lothian Leisure' have access to other grants and funding? I know that they are an 'arms-length' charity, set up by the Council to save the Council rates / taxes, and I am not sure if they have the sufficient autonomy to make the strategic decisions that would be necessary to run on a reduced budget.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20751	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree with this. Do we really need a swimming pool and sports centre in every town.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
20752	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure should be able to provide services within a budget that makes financial sense without needing additional funding from the local authority. During times of budget crisis funding for non critical services, the arts and leisure should be cut to prioritise services to families, the elderly and disabled.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20753	An individual	4a. Review Approach to Delivery of Culture and Sports	I do not think that funding for West Lothian leisure should be cut. The services provided by West Lothian leisure benefit everyone in the area, whereas youth music and active schools only benefit those in school.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20754	An individual	4a. Review Approach to Delivery of Culture and Sports	The reduced funding to WLL will impact fees and access for all groups. This will be detrimental to clubs and community groups and impact activity offering across West Lothian. Funding is already at an all time low just to keep provisions going and health and well being as well as performance programs will be severely impacted. This will go against what the authority wishes to achieve on health status of residents.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20755	No Response	4a. Review Approach to Delivery of Culture and Sports	Reducing support to west Lothian leisure could affect the overall health of its inhabitants, support for arts is important for the well being of the community	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20756	No Response	4a. Review Approach to Delivery of Culture and Sports	A review fully on West Lothian Leisure is required. Is this value for money and is it sustainable.	Delivery of Culture and Sports - West Lothian Leisure	4. The council is already doing this.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20757	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Does West Lothian leisure have the revenue to keep afloat without funding? It makes sense doing this provided it doesn't end up with all xcite facilities ultimately closing. This would be a big step back. It is hard to quantify just how important sports and exercise are to health and well being but those who need it the most need to be encouraged to take part in a way that they feel comfortable with.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20758	No Response	4a. Review Approach to Delivery of Culture and Sports	Agree. Stop funding West Lothian Leisure all together.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
20759	An individual	4a. Review Approach to Delivery of Culture and Sports	Agreed however, I also think that is unfair that West Lothian Leisure staff are provided with free memberships for them and members of their family (I know of 3 families).	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted..
20760	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Interesting as the council and West Lothian Leisure only joined forces a year ago. A hastily made decision perhaps?	Delivery of Culture and Sports - West Lothian Leisure	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your response. Your comment has been noted
20761	An individual	4a. Review Approach to Delivery of Culture and Sports	The council should withdraw all financial support to West Lothian Leisure. There is far better alternative gym and leisure facilities run by the private sector in West Lothian	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20762	An individual	4a. Review Approach to Delivery of Culture and Sports	This is an important area that needs further consultation with the public. The above statement is extremely vague. A lot of investment into West Lothian Leisure has occurred over the last decade and the communities have and are benefiting from this access to sport facilities. I would recommend you provide further details on this area. There are many byproducts to encouraging sport such as health and good well being that would be affected a reduction in investment and service.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20763	An individual	4a. Review Approach to Delivery of Culture and Sports	Whilst in practice this sounds sensible and aligns with priorities the impact on leisure facilities is unclear.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	The relative merits of rationalising facility provision will be explored during work on this proposal.
20764	An individual	4a. Review Approach to Delivery of Culture and Sports	I use this as an example of an earlier comment. By reducing money to WL Leisure are you depleting an asset that if used more to reduce health inequalities you may actually overall save money?	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20765	An individual	4a. Review Approach to Delivery of Culture and Sports	We use the gym at Xcite and would happily pay more for this excellent facility.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider how charging for activities could be developed.
20766	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this mean Howden Park Centre will be sold and if so, what guarantees will there be that the building will continue to provide arts programming?	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Whilst there are currently no plans to sell or close Howden Park Centre. The relative merits of rationalising facility provision will be explored during work on this proposal.
20767	No Response	4a. Review Approach to Delivery of Culture and Sports	Stop putting money into West Lothian Leisure. There are plenty of good private providers which is much cheaper!!!	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted. This comment will be considered in the development of the proposal.
20768	An individual	4a. Review Approach to Delivery of Culture and Sports	Does this mean increased costs for those using West Lothian Leisure and in particular OAP's	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted.. As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20769	An individual	4a. Review Approach to Delivery of Culture and Sports	We strongly object to cuts in this area. Cuts to West Lothian Leisure will have an impact on the health of people in West Lothian putting further strain on health services in the future.	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted..
20770	An individual	4a. Review Approach to Delivery of Culture and Sports	I use West Lothian leisure for my son and would continue to do so if costs increased	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.
20771	An individual	4a. Review Approach to Delivery of Culture and Sports	Funding reduced so will West Lothian Leisure increase prices?	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	As part of the work on this proposal officers will explore external funding opportunities and consider how charging for activities could be developed.
20772	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian Leisure - in my experience these facilities are busy - why do they need funding? I would have thought they would be income generators for the council.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted.. It is anticipated that, going forward, the costs of such facilities will increasingly require to be off-set through income generation. As part of the work on this proposal officers will consider how charging could be developed.
20773	An individual	4a. Review Approach to Delivery of Culture and Sports	Free swimming should be protected for chilled.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The full range and type of activities which can be supported will be considered when planning any future provision.
20774	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Disagree â€ funding should be stopped for West Lothian Leisure, as a registered business they should/could be commercially viable?. If West Lothian leisure leases our buildings could this not be a source of income generation to West Lothian Council?	Delivery of Culture and Sports - West Lothian Leisure	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted.. It is proposed that to reflect the reduced income of the council, funding provided to WLL will be reduced.
20775	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The savings here are not ambitious enough. The council should be able to generate income from main stream leisure, fitness and arts and entertainment provision. West Lothian leisure should be able to operate on a purely commercial footing and the council generate income from the rent charged for facilities operated by WLL. Net saving should be greater than Â£2.76m (as per 2016-17 payment) The council should not be subsidising this provision for the general populous. The role of the council should be limited to targeted support - eg ensuring disadvantaged household and children can access sport and leisure opportunities.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20776	An individual	4a. Review Approach to Delivery of Culture and Sports	ditch west Lothian leisure	Delivery of Culture and Sports - West Lothian Leisure	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	It is proposed that to reflect the reduced income of the council, funding provided to West Lothian Leisure will be reduced.
20777	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree that funding to West Lothian Leisure should reduce. It is so much cheaper using the new generation of gyms such as PureGym. Can West Lothian Leisure be taken over by these groups and run in a different way. This would mean a cheaper monthly fee for the user and less subsidy provided by the council.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	This comment will be considered in the development of the proposal.
20778	An individual	4a. Review Approach to Delivery of Culture and Sports	West Lothian leisure should be able to run as a not for profit organisation without funding. It need the right management to do this.	Delivery of Culture and Sports - West Lothian Leisure	6. This is a positive suggestion. Officers will consider how this could be developed.	This comment will be considered in the development of the proposal.
20779	An individual	4a. Review Approach to Delivery of Culture and Sports	some of our newest sports people depend on sports centres for training e t c Its their future	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20780	An individual	4a. Review Approach to Delivery of Culture and Sports	Makes sense. Also increase fees for Gym membership.	Delivery of Culture and Sports - West Lothian Leisure	1. The respondent advised that they agree with the proposal.	As part of the work on this proposal officers will consider how charging could be developed.
20781	On behalf of a Group/Organisation	4a. Review Approach to Delivery of Culture and Sports	Concern that Barclay report will result in less savings than anticipated. How will this be addressed?	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	The Scottish Government has yet to confirm how it will respond to the recommendations in the Barclay report which are relevant to this proposal. Through the development of the proposal, officers will identify and consider potential risks which could lead to further cost pressures in these areas.
20782	An individual	4a. Review Approach to Delivery of Culture and Sports	Unclear on the impact to west lothian leisure as not enough information is provided. I am aware they have been given additional responsibility of low port centre etc. These can now not be placed in jeopardy.	Delivery of Culture and Sports - West Lothian Leisure	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted..
20783	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden Park Centre is an excellent centre for entertainment. It is local, no need for trains to Edinburgh/Glasgow. I am sure the cost of the tickets could be raised by Â£1- Â£2 per person. This is not too much extra to pay.	Delivery of Culture and Sports - West Lothian Leisure	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thanks you for your comment. We will pass your feedback onto the relevant organisations responsible for this.

Transforming Your Council Consultation 2017

20784	An individual	4a. Review Approach to Delivery of Culture and Sports	There was not much of it anyway and probably the change won't be noticed	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20785	An individual	4a. Review Approach to Delivery of Culture and Sports	Obesity is an epidemic these days, removing funding from leisure facilities will only make it worse and cause more money to be spent on the NHS combatting the effects of obesity.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20786	An individual	4a. Review Approach to Delivery of Culture and Sports	By the sound of it you are cutting out more sports than you are arts where some places could be doing with more sports ie swimming,football etc	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20787	No Response	4a. Review Approach to Delivery of Culture and Sports	There will be more demand for arts and sports due to lack of employment, customers need access to these to improve their overall wellbeing.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20788	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Maybe rather than doing away with these it would be better to offer them at a cost then if they are not users stop the service	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will consider how charging for activities could be developed.
20789	An individual	4a. Review Approach to Delivery of Culture and Sports	It is sad that these can not be provided anymore however parents also have a responsibility to ensure their children are active and healthy. GP's should also not be providing free gym memberships at Xcite to people who can't be bothered exercising. You do not need a gym to be healthy. People need to take more responsibility over their own health.	Delivery of Culture and Sports (general)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted
20790	An individual	4a. Review Approach to Delivery of Culture and Sports	Charge more for culture and sport if necessary rather than scrapping things. .	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Officers will consider how charging for activities could be developed.
20791	An individual	4a. Review Approach to Delivery of Culture and Sports	should be discontinued	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20792	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Cease all non statutory services. Charge where demand merits service but cost prohibits	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Officers will consider how charging for activities could be developed.
20793	An individual	4a. Review Approach to Delivery of Culture and Sports	To the greatest possible extent these services should be supplied by the voluntary sector.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider the extent to which related services are, or could be, supplied by other organisations.
20794	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	This is a tough choice, but if necessary, there are lots of free ways to enjoy sport and music.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20795	An individual	4a. Review Approach to Delivery of Culture and Sports	yes, but whilst other groups will be the focus hopefully it won't mean exclusion of the minority	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20796	An individual	4a. Review Approach to Delivery of Culture and Sports	It is not clear what would be stopping so it is difficult to agree - what are we being asked here?	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20797	An individual	4a. Review Approach to Delivery of Culture and Sports	I would hope that the council would still be able to provide subsidies at WLC for older people or people with disabilities to encourage good health and community activities for both groups.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Officers will consider how charging and concessions for activities could be developed.
20798	An individual	4a. Review Approach to Delivery of Culture and Sports	Activities need to be self funding and not subsidised.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation.

Transforming Your Council Consultation 2017

Master Reference No	Respondent Type	Proposal	Comment	Theme	Officer Response Generic	Officer Response Specific
20799	An individual	4a. Review Approach to Delivery of Culture and Sports	Disagree with this. sports and arts are important part of younger people's education. I would look to maintain this area and save from the older support functions.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20800	An individual	4a. Review Approach to Delivery of Culture and Sports	As with all consideration of outdoor recreation, the additional costs to deal with health issues and anti-social behavior if it's removed have to at least be guesstimated and considered.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thank you for your response. Your comment has been noted
20801	An individual	4a. Review Approach to Delivery of Culture and Sports	Education, jobs and health are far more important if cuts have to go ahead, business growth!!	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20802	An individual	4a. Review Approach to Delivery of Culture and Sports	Indeed. The council should drive these activities and facilities towards the community high schools where those inclined to use them can be asked to pay.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Officers will consider community use of school sports, leisure and cultural facilities as part of the work on this proposal.
20803	An individual	4a. Review Approach to Delivery of Culture and Sports	It is not clear what activities are not being supported.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20804	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Reducing funding will be counter productive and shift the burden rather than remove it	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20805	An individual	4a. Review Approach to Delivery of Culture and Sports	Arts and sports are vital to the community. Retaining as much of this as possible is the way forward.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted
20806	An individual	4a. Review Approach to Delivery of Culture and Sports	Agree, less used services need to be cut, but unfortunately they are usually cut in areas regarded as 'better off' when in fact they are the lifeline to a community. Again there should be a tailoring down in ALL areas, not just 'deprived' areas retaining services.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Based on the proposed priorities some sports and arts activities will no longer be provided. Any future provision will increasingly require to be more efficient and better targeted.
20807	An individual	4a. Review Approach to Delivery of Culture and Sports	yes I can't afford the leisure facilities and I work full time yet always busy with a lot who have everything for free	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20808	An individual	4a. Review Approach to Delivery of Culture and Sports	There is surely an income stream in this area too.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation. As part of the work on this proposal officers will consider how charging for activities could be developed.
20809	An individual	4a. Review Approach to Delivery of Culture and Sports	Couldn't voluntary groups provide this service?	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	As part of the work on this proposal officers will consider the extent to which related services are, or could be, supplied by other organisations.
20810	An individual	4a. Review Approach to Delivery of Culture and Sports	While focusing on the above is excellent, these feel like an easy option.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20811	An individual	4a. Review Approach to Delivery of Culture and Sports	Continuing with externally funded areas makes sense. But what about the other aspects of culture, sports and arts? The service provided to the community by these teams is invaluable. Culture, arts and sports are what make life worth living and build good communities. These teams provide opportunities to schools, but also to the community as a whole, bringing young and old together in ways that other services cannot	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation. The full range and type of activities which can be supported will be considered when planning any future provision.

20812	An individual	4a. Review Approach to Delivery of Culture and Sports	I believe serious consideration should be given to how these quality services can continue in some capacity. As a person who doesn't fall into the categories of having children or requiring elderly care, arts and culture are what I feel impact most on me as a citizen.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20813	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	as long as it is not completely stopped a great many children get a lot of pleasure out of the music initiative and active schools.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20814	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It would be useful to know which activities are being reduced. I support the continuation of ActiveSchools given the great work it does involving so many young people.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences. The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20815	An individual	4a. Review Approach to Delivery of Culture and Sports	Stick to statutory roles.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20816	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The reduction of some of the arts and sports activities is disappointing, but understandable where cuts have to be made	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20817	An individual	4a. Review Approach to Delivery of Culture and Sports	would support reduction in arts before any reduction in active schools.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20818	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It is understandable that some arts and sports activities will no longer be able to be provided in times such as these, however disappointing this may feel.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20819	An individual	4a. Review Approach to Delivery of Culture and Sports	Howden park is also not fit for all community. Its not local to most, staff are rude, not the best for disabilities and underused.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20820	An individual	4a. Review Approach to Delivery of Culture and Sports	The regal is now closed and could easily be utilised by council owners	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20821	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Access to arts and sports is vital as it inspires kids, challenges thinking, supports health and well being. Could there be more awareness raised on how our residents can stay fit and access art for free across West Lothian and Scotland.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Officers will consider how this could be developed.
20822	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Sounds as though those using the facilities will have their subscriptions increased.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20823	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Perhaps reviewing the times during which holiday clubs are offered and increasing these to suit working parents would make the clubs more attractive and generate more income. A 9am start and 3pm finish does not suit someone who has a full time job.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Thanks you for comment. Your feedback has been noted. Officers will consider how this could be developed.
20824	No Response	4a. Review Approach to Delivery of Culture and Sports	The council needs to focus on delivering services that are essential - some of these are not essential for the community of West Lothian.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted

20825	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Music education has been proved to improve childrens learning in all spheres of the curriculum.Music education should be available at schools not just in a centralised location.	Delivery of Culture and Sports (general)	4. The council is already doing this.	Pupils will continue to receive music as part of the curriculum.
20826	An individual	4a. Review Approach to Delivery of Culture and Sports	Whilst nice to have, some of these services cannot be provided by WLC in future.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20827	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	BARE MINIMUM OF THIS UNNECESSARY SERVICE SHOULD BE FUNDED	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20828	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Yes. While I believe that people should play sports for health and have access to the arts I do not feel that this is a priority, more a luxury.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.
20829	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Communities that miss these things should invest their time to make them happen and not rely on the council.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	The council will continue to explore opportunities to empower communities in terms of the future provision of services/facilities.
20830	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	My fear is that only children and young people with access to funds at home would have the benefit of sport and art activities that they will be able to access after school. Does this not exacerbate the gap?	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Pupils will continue to have opportunities to participate in extra curricular arts and sports experiences.
20831	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree that these services need to be better targeted and effecient	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. Any future provision will increasingly require to be more efficient and better targeted.
20832	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	It's a shame the 'fun' stuff has to be reduced.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Based on the proposed priorities some sports and arts activities will no longer be provided.
20833	An individual	4a. Review Approach to Delivery of Culture and Sports	as long as vital services are not cut is swimming pools closed etc.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. The relative merits of rationalising facility provision will be explored during work on this proposal.
20834	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	The council does not have a statutory obligation to provide these services. Whilst it would be a shame to see these services disappear if the council does not have the money to provide these services then it has to think long and hard about providing them.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided.
20835	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Such issues should generally be self funding. Whilst providing benefits they have to be considered in the context of other priorities for the basic functioning and wellbeing of our communities.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Significant parts of the provision which it is proposed the council will focus on in the future is externally funded or has costs off-set by income generation.
20836	An individual	4a. Review Approach to Delivery of Culture and Sports	Tell us what arts and sports activities will no longer be provided not just what you plan to provide. This is not giving people choice in what they would prefer was supported.	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20837	An individual	4a. Review Approach to Delivery of Culture and Sports	Rhis is awful sports activities must stay	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20838	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Some of these items could be considered a luxury and the community can access services through the private sector if desired. Statutory sports and arts for young people will continue to be provided through schools.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	The council will continue to meet its legal obligations and agreed priorities for the area. However, based on the proposed priorities, some sports and arts activities will no longer be provided.

20839	An individual	4a. Review Approach to Delivery of Culture and Sports	Stop supporting music and arts when we have other priorities. Close some sports centres, private sector provide them anyway.	Delivery of Culture and Sports (general)	6. This is a positive suggestion. Officers will consider how this could be developed.	Based on the proposed priorities some sports and arts activities will no longer be provided. The relative merits of rationalising facility provision will be explored during work on this proposal.
20840	An individual	4a. Review Approach to Delivery of Culture and Sports	Health and culture not important? Obesity is a huge problem these things need funding!	Delivery of Culture and Sports (general)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. School pupils will also continue to receive arts and sports experiences as part of the curriculum and have opportunities to participate in extra curricular arts and sports experiences.
20841	An individual	4a. Review Approach to Delivery of Culture and Sports	What will no longer be provided? How can we comment when you tell us what you want to focus on but do not indicate what services will no longer be available. Not very open and transparent	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	The proposal is to continue provision of the Youth Music Initiative, Active Schools, developer funded public art and arts programming for Howden Park Centre. The full range and type of activities which can be supported will be considered when planning any future provision.
20842	An individual	4a. Review Approach to Delivery of Culture and Sports	Most people would look for a private club or tutor if they were interested in activities.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
20843	An individual	4a. Review Approach to Delivery of Culture and Sports	Cut all these areas and focus on real services. All are nice to have and things such as fitness, art and events can be done by private sector. Total waste of money keeping these.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted
20844	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Agree this could make a saving. Effective active schools can impact positively.	Delivery of Culture and Sports (general)	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The proposal is for Active Schools to continue to be delivered.
20845	An employee of West Lothian Council	4a. Review Approach to Delivery of Culture and Sports	Arts ought to be funded through West Lothian Leisure as this is a leisure activity for the majority of adults and children. Those who do well in school within the Art subject would be considering going to Art School.	Delivery of Culture and Sports (general)	3. The respondent advised that they had no comment to make.	Thank you for your response. Your comment has been noted
