

Building Standards Section
ANNEX 12: Sustainability

In the table below, please indicate with an "X" which aspects of the building have been designed to achieve a higher level of sustainability as defined in Section 7 of the Technical Handbooks.

	Bronze Active	Silver	Silver Active	Gold	Platinum
Carbon dioxide emissions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Energy for space heating (domestic only)	Not applicable	<input type="checkbox"/>	Not applicable	<input type="checkbox"/>	Not applicable
Energy for water heating (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	
Water use efficiency (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	
Optimising performance (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	
Adaptability and flexibility (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	
Well-being and security (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	
Material use and waste (domestic only)		<input type="checkbox"/>		<input type="checkbox"/>	

Where this application related to municipal buildings, please state which buildings the higher aspects relate to:

Address of building(s)

Important Note

Where this application is for municipal buildings which have been designed to achieve different levels of sustainability in Section 7 then a separate table will be needed for each building or group of buildings to which each level relates.
