Introduction

Ward Profiles have been created for all nine wards in West Lothian, collating relevant data from national and local sources. The purpose of these profiles is to provide up to date data and key information consistently across West Lothian to assist groups/decision-makers when setting priorities for an area or to inform and evidence need.

Elected Representatives

The Livingston North ward has four councillors, all of whom are elected on a proportional voting system to represent the whole ward. The four councillors meet regularly as a Local Area Committee. The Chair is Angela Moohan. Those elected in May 2012 for five years are:-

			
Robert De Bold (Scottish National Party)	Anne McMillan (Scottish Labour Party)	Andrew Miller (Scottish National Party)	Angela Moohan (Scottish Labour Party)

The ward is located within the Almond Valley constituency for the Scottish Parliament which is represented by Angela Constance MSP. There are also seven list MSPs for the Lothians whose details are on the Scottish Parliament website.

The Livingston North ward is located within the Livingston constituency for the Westminster Parliament and is represented by Graeme Morrice MP.

There are six Members of the European Parliament who represent the whole of Scotland. Information on these is available on the European Parliament website

Main Settlements

Livingston North has the second largest population of West Lothian's nine wards, with a population of 21,092 (based on Mid-2013 GRO Population Estimates). The ward is made up of settlements including Knightsridge, Deans, Eliburn, Carmondean and part of Livingston Village.

Eliburn is the largest settlement in Livingston North with a population of 6,229 (Mid-2013 GRO Population Estimates). Eliburn is largely a residential area. Livingston Village is largely based within Livingston North and has a population of 1,587. Livingston Village is also home to Kirkton Business Campus, a key area for employment within Livingston as a number of national and international companies have a base there.

The population of Carmondean is 3,618. Carmondean has a local hub with a supermarket, library and local shops near Livingston North Station. The Deans and Knightsridge areas of Livingston North are located next to each other and have similar sized populations with 5,374 and 5,884 respectively. Deans is also home to Deans Community High School which provides leisure facilities for the local area.

The demographics of the ward are as follows:

Age group	% in ward	% in WL
Under 16	21.72	19.88
Working age	64.84	63.34
Older people	13.43	16.78

West Lothian Information

West Lothian information has been provided in each profile to provide a wider context of the profile for that ward.

West Lothian Single Outcome Agreement

List of Outcomes agreed by the Community Planning Partnership in February 2013 which form the Single Outcome Agreement:

- Our children have the best start in life and are ready to succeed
- We are better educated and have access to increased and better quality learning and employment opportunities
- Our economy is diverse and dynamic, and West Lothian is an attractive place for doing business
- We live in resilient, cohesive and safe communities
- People most at risk are protected and supported to achieve improved life chances
- Older people are able to live independently in the community with an improved quality of life
- We live longer, healthier lives and have reduced health inequalities.
- We make the most efficient and effective use of resources by minimising our impact on the built and natural environment.

More information is available on the following link: <http://www.westlothian.gov.uk/communityplanning>

West Lothian Council Priorities

Following the Delivering Better Outcomes consultation in 2012, West Lothian Council have set priorities as detailed in the following table.

 Analysis summary: The responses were analysed to evaluate if the council had the right priorities for West Lothian and then to rank the importance of priorities. The top rankings were for priorities concerned with early years, school children, older people and those affected by joblessness and poverty. This confirms the community's support for the council's approach to target services and resources to those most in need.	Priority	Consultation: Average Ranking
	Ensuring children have the best possible start in life	1
	Improving job opportunities, especially for young people	2
	Improving qualifications and ensuring as many school leavers as possible get a job or go into further/higher education or training	3
	Improving the quality of life for older people	4
	Minimising the effects of poverty and deprivation and promoting equality	5
	Reducing crime and making our communities safer	6
	Improving people's health	7
	Looking after the environment	8

Figure 1: Priority Analysis from Delivering Better Outcomes Consultation 2012

More information is available on the following link: <http://www.westlothian.gov.uk/article/1952/Corporate-Plan>

West Lothian Regeneration Framework

Within the Regeneration Framework are the following five themes:

- Employability and Employment;
- Early Years and Family Learning;
- Health and Wellbeing;
- Economic Development; and
- Community Capacity and Cohesion

More information is available on the following link: <http://www.westlothian.gov.uk/communityregeneration>

Scottish Index of Multiple Deprivation - West Lothian

The Scottish Index of Multiple Deprivation (SIMD) identifies small area concentrations of multiple deprivation across all of Scotland in a consistent way.

The SIMD provides a *relative* measure of deprivation which means that the SIMD 'ranks' can be used to compare data zones by providing a relative ranking. The SIMD has been used to identify Scotland's most deprived small areas on the overall index and each individual 'domain' (i.e. crime, income etc).

The above map shows what areas in West Lothian are ranked the lowest in comparison to Scotland—the darker the purple, the higher the levels of deprivation. Although West Lothian has very few datazones in the most deprived decile, most of this local authority's datazones are found in the second, third, and fourth deciles (towards the more deprived end of the distribution) in SIMD 2012. This is similar to the pattern observed for SIMD 2009.

Change in Distribution and Number of Datazones in Most Deprived 20% Category in Scotland

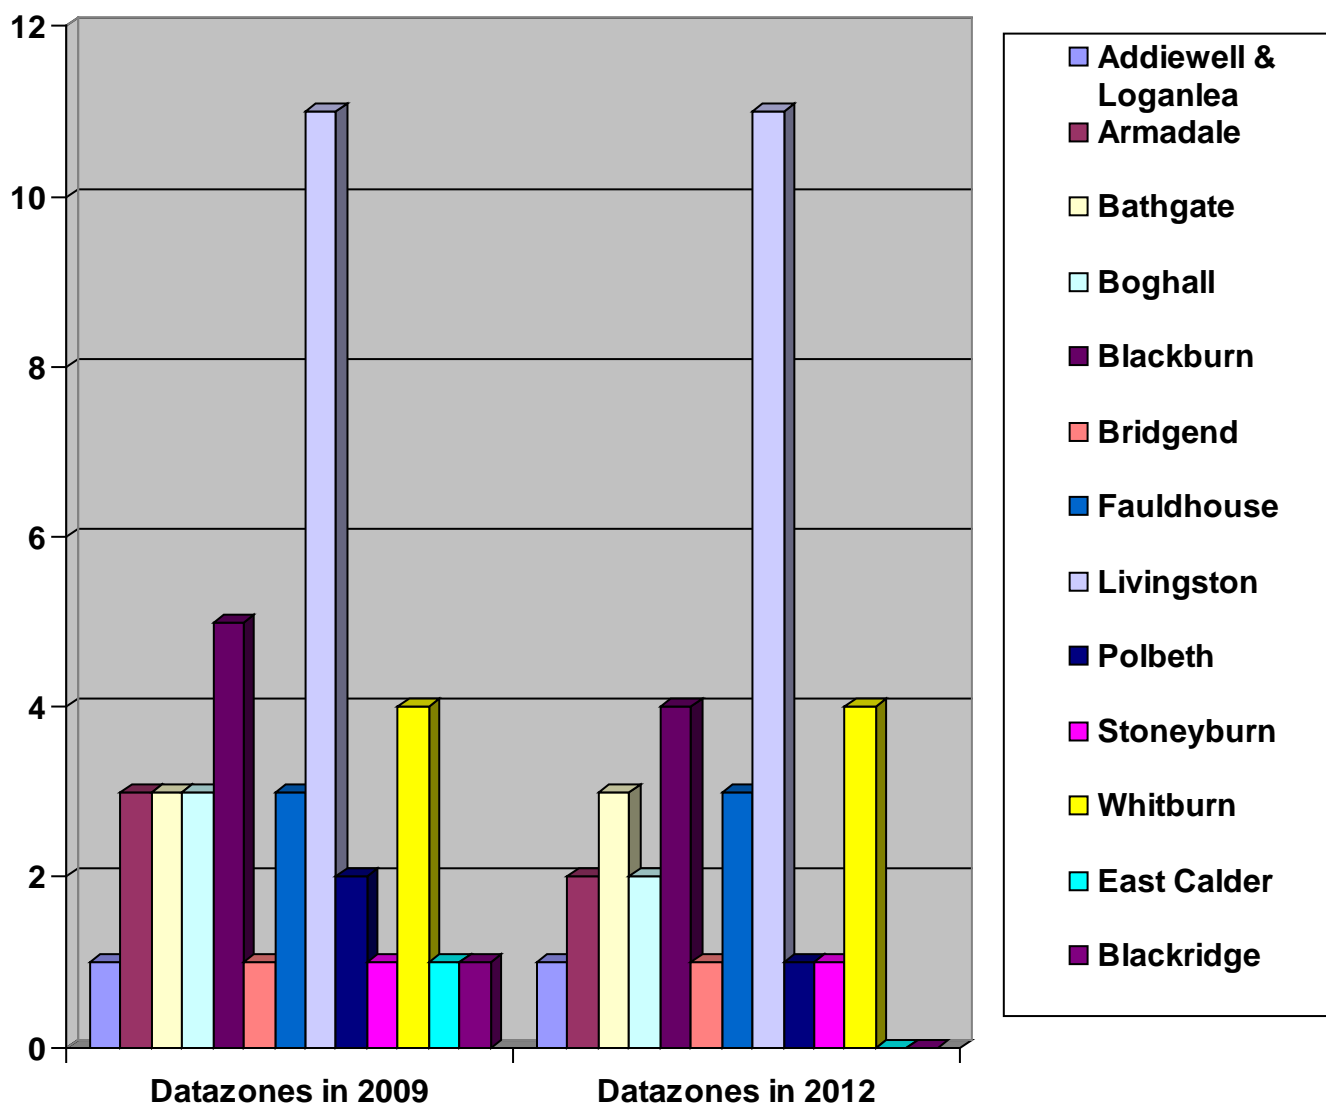

The table below shows a comparison of datazones that are in the lowest 20% in Scotland within the West Lothian multi-member wards.

Ward Name	Number of Datazones	Number in Worst 20%	% in Worst 20%
Armadaled and Blackridge	18	3	17%
Bathgate	22	7	32%
Broxburn, Uphall and Winchburgh	21	0	0
East Livingston and East Calder	25	6	24%
Fauldhouse and Breich Valley	20	6	30%
Linlithgow	21	1	5%
Livingston North	28	3	11%
Livingston South	31	6	19%
Whitburn and Blackburn	25	9	36%

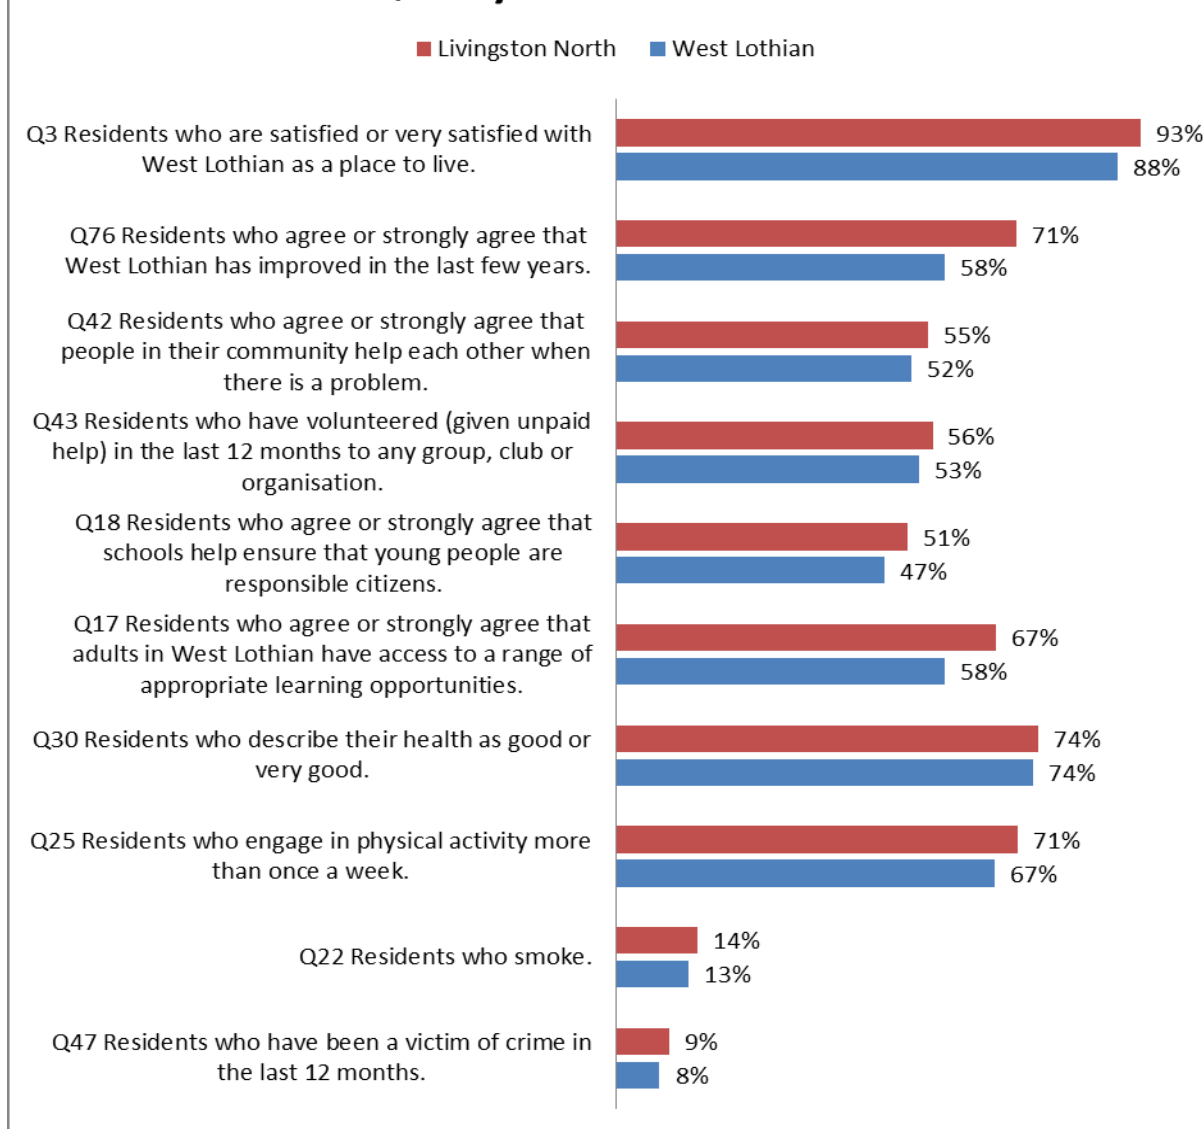

The table below shows a comparison of data zones in West Lothian in the lowest ranking 20% of all data zones in Scotland and shows how settlements in the Livingston North ward compares with settlements of other wards.

Town/Village	Datazones in 2009	Datazones in 2012
Addiewell & Loganlea	1	1
Armadale	3	2
Bathgate	3	3
Boghall	3	2
Blackburn	5	4
Bridgend	1	1
Fauldhouse	3	3
Livingston	11	11
Polbeth	2	1
Stoneyburn	1	1
Whitburn	4	4
East Calder	1	0
Blackridge	1	0
TOTAL WEST LOTHIAN	39	33

Quality of Life Indicators

The sixth West Lothian Quality of Life Survey for the Community Planning Partnership (CPP) was carried out in 2013 through the Citizens Panel. The Panel is structured to be completely representative of the West Lothian population, and representative at a multi member ward level. Panel members completed the survey in 2013 which was published in 2014.

A range of questions across a variety of subjects gave the CPP useful information about people's perceptions and experience of living in West Lothian. The CPP will use this information to plan, direct and prioritise services over the coming years. A sample of questions and results for West Lothian and the Livingston North ward are shown in the table above.

The levels of satisfaction with West Lothian as a place to live are very strong, increasing by 1% between surveys completed in 2010 (87%) and 2013 (88%). In the Livingston North ward however the satisfaction level increased by 6% over the same period from 89% to 93%.

In general the Livingston North levels are higher than the West Lothian figures. There are three very positive results. The numbers of people that report that West Lothian has improved in the last few years, that adult have access to appropriate learning opportunities and, who engage in physical activity more than once per week are considerably higher than the West Lothian averages. The numbers of persons that smoke and, those that have been a victim of crime in the last year are broadly similar to the West Lothian averages.

The Summary of Key Findings and Commentary on the West Lothian Citizens' Panel Quality of Life Survey 2010 Research Report is at [http :- http://www.westlothian.gov.uk/media/3698/Quality-of-life-2013---MMW-Results/pdf/Quality_of_Life_Survey_-_MMW_Summaries_v1_210214.pdf](http://www.westlothian.gov.uk/media/3698/Quality-of-life-2013---MMW-Results/pdf/Quality_of_Life_Survey_-_MMW_Summaries_v1_210214.pdf)

[Back to Top](#)

Key Statistics

The table above are taken from the Scottish Neighbourhood Statistics Area Profile site at:-

<http://www.sns.gov.uk/Reports/Report.aspx?ReportId=2&AreaTypeId=MW:Multi%20Member%20Wards&AreaId=S13002825>

Livingston North is one of the larger wards in West Lothian with 21,092 residents, 12.6% of the total West Lothian population. There are 28 “datazones” in the ward – these are small areas with around 750 residents used to identify concentrations of multiple deprivation using indicators such as unemployment, income and health. Of the 28 datazones in the Livingston North ward 3 (11%) are in the worst 20% in West Lothian, significantly lower than the average.

The proportion of the population who are of “working age” is 65% and slightly more than the averages for both West Lothian and Scotland. Livingston North ward has a 9% rate of employment deprivation, significantly lower than the averages for both West Lothian and Scotland. The ward has a lower number of residents who are income deprived (10%) than is the case across wider West Lothian (16%) and Scotland (16%).

There is a lower proportion of homes in the highest and lowest council tax bands than is the case -in both wider West Lothian and Scotland. There is a very high density of housing reflecting the urban nature of the ward compared to wider West Lothian and Scotland.

[Back to Top](#)

Health Indicators

The above indicators allow a comparison between key health indicators in the ward against West Lothian and Scotland. They show that Livingston North has a significantly lower proportion of people claiming Disability Living Allowance than is the case for West Lothian but is similar to the level for Scotland. There are a significantly higher proportion of babies being breast fed at the 6-8 week review than is the case for West Lothian and Scotland.

Hospital Admissions are generally lower than the West Lothian and Scotland average. There is one exception to this observation.

The health indicators in the table above are taken from the Scottish Neighbourhood Statistics site at: - <http://www.sns.gov.uk>

[Back to Top](#)

Population and Benefit Indicators

The above indicators allow for a comparison between key populations and benefit claimants in the ward against West Lothian and Scotland. They show that Livingston North has a younger population profile than West Lothian with a slightly higher proportion of both children and working age adults and a lower proportion of those of pensionable age.

The ward has a similar proportion of working age benefit claimants to West Lothian and Scotland all scoring 18%. Similarly the proportion of residents aged 60+ claiming Guaranteed Credits, which is a passport benefit for those on low incomes, is the same as recorded for both West Lothian and Scotland. The proportions of people who are income deprived and employment deprived are lower than the scores for West Lothian and Scotland.

The population and benefit indicators in the table above are taken from the Scottish Neighbourhood Statistics site at: - <http://www.sns.gov.uk>

[Back to Top](#)

Livingston North Ward – Datazones in the Worst 20% in West Lothian

There are 28 “datazones” in the Livingston North ward and 3 of these (11%) are in the worst 20% in West Lothian, lower than the average. More information on the ward itself is available on the following

link: <http://www.sns.gov.uk/Reports/Report.aspx?ReportId=2&AreaTypeId=MW:Multi%20Member%20Wards&Areald=S13002825> (Please note that links may not work correctly the first time due to issues with the SNS website but will work on repeat click).

The table below shows the breakdown of how each datazone ranks for each domains of the Scottish Index of Multiple Deprivation. The figure gives the ranking for each domain/ datazone from the 6505 datazones there are in Scotland. The higher the number, the better the ranking and vice-versa. Those in the worst 10% and 20% are identified in the legend at the foot of the table.

In a West Lothian context, although SIMD measures multiple deprivations most areas do not have high scores across all deprivation domains – usually only experiencing high scores in 2 or 3 at most. As described above in respect of individual datazones, Income, Employment, Health and Education seem to be the main drivers of deprivation in West Lothian. Crime is a factor insofar as the higher scoring datazones tend to have town centres where there is presumably more reported crime. Neither of the Housing or Access Domains seem to have a bearing or influence the overall deprivation scores.

SIMD Domain							
Data Zone	INCOME	EMPLOYMENT	HEALTH	EDUCATION	GEOGRAPHIC ACCESS	HOUSING	CRIME
Livingston Knightsridge Moncrieff Way	498	1066	1101	514	1725	3481	773
Livingston Deans Staffa & Jura	991	569	445	1909	2582	3030	1388
Livingston Knightsridge Ferguson Way	558	1314	1262	682	3372	2714	1782

Unsurprisingly, these datazones tend to score low across most of the indicators as can be seen from the table above. In addition to the table, maps for each of these datazones have been provided on the following pages with links to the Scottish Neighbourhood Statistics site providing more detailed information.

[Back to Top](#)

Child Poverty

In the figures presented below, from End Child Poverty's '*Child Poverty Map of the UK*', released in October 2014, children are classified as being in poverty if they live in families in receipt of out of work benefits or in receipt of in-work tax credits where their reported income is less than 60 per cent of median income. The measure is of income before housing costs, and therefore replicates the more modest, official estimate of how many children are in poverty, not taking account of the impact of high rent or mortgage payments.

Percentage of children in poverty, Oct-Dec 2013	BEFORE HOUSING COSTS	AFTER HOUSING COSTS
Local Authority and wards		
West Lothian	13.27%	21.24%
Linlithgow	6.80%	11.03%
Broxburn, Uphall and Winchburgh	11.89%	19.12%
Livingston North	14.97%	23.60%
Livingston South	13.23%	21.26%
East Livingston and East Calder	12.13%	19.62%
Fauldhouse and the Breich Valley	16.68%	26.32%
Whitburn and Blackburn	16.47%	26.24%
Bathgate	12.19%	19.60%
Armadale and Blackridge	14.42%	23.00%

More information is available in the report on the following link: http://www.endchildpoverty.org.uk/images/ecp/Report_on_child_poverty_map_2014.pdf

Ward Action Plan:

This plans shows what and how partners across the Livingston North ward will be working together to achieve over the coming year, what outcomes they are working towards and how they will measure progress against these.[the local ward plans will be available electronically soon at this web address [http://www.westlothian.gov.uk/media/3564/Livingston-North-Ward-Action-Plan/pdf/LIVINGSTON North WAP 2013 - 2015.pdf](http://www.westlothian.gov.uk/media/3564/Livingston-North-Ward-Action-Plan/pdf/LIVINGSTON_North_WAP_2013_-_2015.pdf)

Scottish Fire and Rescue

The Local Fire and Rescue Plan for West Lothian: http://www.firescotland.gov.uk/media/610232/sfrs_local_plan_west_lothian_v1.pdf

This plan is the mechanism through which the aims of the SFRS's Strategic Plan 2013 – 2016 are delivered to meet the agreed needs of the West Lothian communities. <http://www.firescotland.gov.uk/>

Police Scotland

Ward profiles have been produced outlining the service priorities for each ward. Information on Livingston North is as follows: <http://www.scotland.police.uk/your-community/the-lothians-and-scottish-borders/west-lothian/livingston-north/>

Local Development Plan

The Local Development Plan provides a planning framework for delivering the planning vision for West Lothian, against which planning applications are assessed. The following web site contains information within each of the sections which is relevant to the ward: <http://www.westlothian.gov.uk/LDP>

Annual Ward Employability Report

The multi-agency West Lothian Working Together Group produced a report for 2013/4 regarding the employability support provided by various agencies and the impact it is having on employability in the ward. <http://coins.westlothian.gov.uk/coins/submissiondocuments.asp?submissionid=23085>

COINS

COINS is the site where West Lothian Council keeps its committee reports and papers. These are public documents and can be viewed here: <http://coins.westlothian.gov.uk/coins/>

Community News

The council web site hosts a page dedicated to local news. You can find out what is happening in Livingston North here: - <http://www.westlothian.gov.uk/livingstonnorthnews>

Funding Newsletter

Community Regeneration produces a regular funding newsletter which outlines the funds accessible to voluntary organisations and groups in West Lothian. The latest version is available on the following link <http://www.westlothian.gov.uk/article/1980/Community-Grants>

Community Councils

Community Councils are directly elected bodies which find out and express the views of the community to local authorities and other public bodies, and take action which they feel is in the interests of its community. There are two community councils in the ward – Eliburn and Livingston Village. More information and contact details at: - <http://www.westlothian.gov.uk/communitycouncils> . For further information you can contact the council's Community Council Liaison Officer at the following address lorraine.mcgrorty@westlothian.gov.uk
