

Note on publication of first and subsequent preferences at polling station level

Rule 61 of the Scottish Local Election Rules (as amended) requires that the returning officer must give public notice of the first and subsequent preferences for each candidate within one week following the declaration of the result of the poll. Where less than 200 votes were cast at a polling station the returning officer is to give public notice of the information for that polling station aggregated with that information from one or more other polling stations in the same ward.

This is to ensure that an individual's voter preferences cannot be identified . The criteria followed in aggregating data where the number of votes cast in a polling station was less than 200 was:

- Where possible they were combined with another polling station in the same polling place;
- Where this was not possible they were combined with polling stations that were close geographically, particularly in rural areas.
- Where geography allowed, stations of less than 200 votes were combined together , rather than combining a station with less than 200 votes with one that had substantially more than 200 votes.

All postal vote boxes for a ward were combined. The tables below show which polling station boxes were combined to ensure that any individual's voter preferences cannot be identified.

In releasing the data, the Returning Officer is making it freely available for public use. They are not subject to copyright and material may be re-used provided that it is acknowledged, not used in a misleading way and is reproduced accurately. The Returning Officer does not accept responsibility for any alteration or manipulation of the data once released.

If you have any queries on the data provided, please contact Caroline Burton at caroline.burton@westlothian.gov.uk
