

Scrap Paper Angel Tree Hanger

Ever wondered what to do with all those wrapping paper cut offs or old magazines/newspapers? Why not recycle that paper into this beautiful Christmas tree Angel?

1. Cut out two strips of paper, one wider than the other.

2. Concertina the paper back and forth.

3. Fold the length of concertina paper in half.

4. Complete steps 1 to 3 for the smaller piece of paper.

5. Thread some ribbon/string through a bead.

6. Tie the ribbon around the two folded pieces of paper – the smaller piece should be on the top.

7. Glue the two long edges of the skirt together and glue the wings on both sides to the skirt.

8. Your angel is now ready for your tree!
