<p>ONLINE FEEDBACK PROVIDED</p>	<p>Date received: 16th May 2023</p> <p>Total cost of work: £128</p> <p>Description of work: Woke up to find the power was off in three rooms only in our house. Although not an immediate emergency, we quickly searched online for, preferably, a local electrician (and having no recommendations to rely on), we found One Design Electrical Ltd. A local and a registered company. Took a punt, and Michael from One Design was with us the next day, even earlier than anticipated. Good stuff.</p> <p>Comments: Michael was courteous and worked efficiently to find the fault. He soon had a temporary solution in place to get the power back on in the three rooms. He quickly followed up with 3 options to permanently fix the issue, all in writing with pricing. Michael answered our questions promptly and he was soon back to the house to resolve the fault as arranged a day later. A fast, no fuss, efficient service from Michael and One Design Electrical Ltd. Just what was needed. Recommended.</p>

ONLINE FEEDBACK PROVIDED	Date received: 9 th September 2022			
	Total cost of work: £170			
	Description of work: To identify the fault with two main lights (upstairs landing light and downstairs side room light) which were not working. Wiring replacement of both lights and two-way switches. After contacting Michael he attended promptly to assess the issue and identified that it was faulty wiring following work carried out to the property by the previous owner. Michael provided a quote, and came back a few days later to carry out the work and fix the issue satisfactorily.			
	Comments: Michael was professional, knowledgeable, hard working and kept us informed along the way of what he needed to do. Very happy with the service he provided and would recommend and would use again.
