1	OPERATIONAL SERVICES	Although Livingston is a big town, it still has plenty of open green spaces. Any future developments should continue this trend, and be made to follow it.	4. The council is already doing this.	Operational services - public transport	The council ensure any developers provide sufficient open spaces and green spaces as part of any development when considering and approving planning applications for future developments.
1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	We have a great community spirit but there absolutely nothing to do in Blackburn for any age.	1. The respondent feels that this is important to them/their community	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
1	OPERATIONAL SERVICES	Maintained public areas and cleanliness	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Operational services - litter and street cleansing	The council will be introducing 3 new cleansing teams that will be focused on improving the cleanliness of public areas.
1	OPERATIONAL SERVICES	I think West Lothian Council should prioritise cleanliness. The communities are dirty and very untidy. Rubbish is being dumped everywhere! Only West Lothian litter pickers are helping to alleviate the mess. More bin uplifts; free bulkey uplifts and street cleaners needed.	4. The council is already doing this.	Operational services - litter and street cleansing	The council will be introducing 3 new cleansing teams that will be focused on improving the cleanliness of public areas. The council will also be replacing it's existing fleet of compact sweepers with sweepers of a higher specification to improve cleanliness. The council is also reviewing litter bins and using SMART technology and litter bins to improve the litter bin service.
1	EDUCATION	Education. High quality education at all levels - pre school to College	1. The respondent feels that this is important to them/their community	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Traffic congestion through poorly planned housing development	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	PEDR - infrastructure, community building and services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
1	HOUSING, CUSTOMER & BUILDING SERVICES	The amount of community facilities are important, it's great that West Lothian have not shut any community buildings like other local authorities.	1. The respondent feels that this is important to them/their community	HCBS - community facilities and customer services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
1	OPERATIONAL SERVICES	To get all trees cut down or cut back. Trees are to near the roads over taking peoples garden look a mess for the council to clear the grass they cut to be taken away not left on ground.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - open spaces, play areas and parks	The council currently maintains all council owned trees on a priority basis based on risk. Any trees that are causing a safety issue to roads users and pedestrians are immediately cut back. Any trees that overhang gardens are cut back based on risk and the health of the tree,. The public has the right to cut back any branches overhanging gardens themselves. It would be impracticable and cost prohibitive to remove grass cuttings are cutting the grass.
1	FINANCE & PROPERTY	As comment before- Climate Change and biodiversity issues must be a focus for the council in the next 5 years	4. The council is already doing this.	F&PS - climate change and energy efficiency	The council's Climate Change Strategy outlines actions in the council's journey to net zero.

Question Number	AREA	Comment	OUTCOME	Secondary Classification	RESPONSE
1	OPERATIONAL SERVICES	lack of litter wardens.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - litter and street cleansing	The council currently has a small team of 4 Education and Engagement Officers who have powers to issue fixed penalty notices for dog fouling and littering. Previous experience of using officers in parks and open spaces has had limited results as members of the public only change their behaviour when officers are present and it is impossible to provide officers in every park for extended periods of time. The focus for staff has to be on the education process aimed at changing offenders behaviour.
1	CORPORATE SERVICES	Good local services	4. The council is already doing this.	Corporate - council priorities	The positive statement made by the respondent is acknowledged and welcomed.
1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	sense of community	1. The respondent feels that this is important to them/their community	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
1	OPERATIONAL SERVICES	I moved to Whitburn from Glasgow and I love living here. I love the fact that my son is growing up in an area that has a lot of accessible green space, everything is very close by and everyone is very friendly. I like the fact that I am still close to my family in Glasgow and my partners family in Livingston and that it is easy to go see them.	1. The respondent feels that this is important to them/their community	Operational services - open spaces, play areas and parks	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

1	OPERATIONAL SERVICES	Roads in good repair	4. The council is already doing this.	Operational services - roads,street lighting, footpaths and parking	Road Maintenance is carried out annually within the available resources
1	OPERATIONAL SERVICES	Trees and bushes really need to be checked more; those that obscure your view coming from a road junction. Mega high trees that obscure the sun, should be trimmed down Garden fences are going green as no sun is getting to them. Check along the Livingston North Railway line. Trees are breaking in high winds and are so close to railway line.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	All trees are inspected and managed based on risk. Trees are inspected annually and those that pose a risk are cut back and/or removed. The council don't cut back or remove trees due to light. Trees along the railway line are the responsibility of Network Rail.

1	OPERATIONAL SERVICES	Although I have said transport links are very important I do not feel transport links in West Lothian are great and can do with improvement.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Livingston started off with and Ice Rink, The Forum which had the likes of David Bowie and Aerosmith on stage!!! No proper nightclubs left just pretentious pubs and restaurants. I feel that once they lured people into this town they trapped us and took it all away!! Ladywell can't even afford a wee gala day anymore!! No more howden shows etc... the wildlife are being moved along for more and more housing. We are no longer a community, we are the typical city that ignores eachother and the heart is gone. No training courses at the local high-school that used to help older people, everything that makes us a community is slowly fading. Its either 16-24 year old groups or over 50s groups, nothing in between! I don't like livingston anymore I miss my home town and the way it started off.	8. 1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I love the VILLAGE my family live in and been raised in. I chose to live in Dechmont because it is a small village. Please leave the small villages alone and if you have to build these new build properties build in Livingston which is a new town. Leave the integrity of the villages alone. You as a council are destroying the fabric and history of the surrounding villages by eventually joining them all up, destroying the green space and losing all that history.; ; I understand that Livingston is growing as a place that families want to live. Build there!!	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	PEDR - green space	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

1	FINANCE & PROPERTY	Access for disabled people like myself to buildings is very important. I understand adapting old buildings might not be possible. a handrail or grab handle and ramp should be made possible for older buildings. this should be law.; I also think reliable and disabled user friendly transport in West Lothian should be made available.	4. The council is already doing this.	F&PS - council buildings and opening hours	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

1	OPERATIONAL SERVICES	I think Linlithgow has old busses going about apart from one company. If Edinburgh and Glasgow are trying to cut down on car usage and relying on public greener transport. linlithgow needs newer vehicles. the rest of West Lothian has a good network of busses. Something I have noticed is some busses have West Lothian advertised on the side, if so then why do they not come into Linlithgow. I also think bus companies need to be more understanding of disabled and elderly getting on and off busses. Train journeys are improving with good help from train staff for disabled people but I cant help think this might not always be the case.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
1	OPERATIONAL SERVICES	Standards of council services have reduced especially visible on road repairs and pavement maintenance. I see council workers making temporary pot hole repairs as a full time job, this is a waste as the temporary repair then requires digging a second time for a permanent repair.Poor maintenance surrounding weeds left after grass cutting . Street lighting replaced while not cutting back surrounding trees making new lighting useless.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council has a requirement to fill potholes within a prescribed period of time for the safety of road users. Therefore, it is necessary to undertake temporary repairs to ensure the road is safe before undertaking permanent repairs. Grounds Maintenance services are being delivered in accordance with council service standards. Service standards are currently being reviewed to try and identify areas for improvement.
1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	organising more community events to allow areas to mix with their community, particularly after Covid restrictions for the last 2 years this has had a severe impact on community spirit	6. 1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I'm sure that when Heartlands was being built that there was going to be a park and ride site there ,this would be great not only for the people but for the enviroment too. even if there was just a bus stop so maybe even every 2 hours the bus could stop off at Heartlands to go to Edinburgh or Glasgow, trying to get to Harthill and back is not easy.	4. 1	HOUSING, CUSTOMER & BUILDING SERVICES	Must also mention the fantastic library staff and resources available for kids and adults - the Bookmyne app is great and the variety on offer is good, though could do with more recently published literary fiction (suggestions can be found from recent prize long and short lists) and the welcome that the children receive makes reading and books a fun and engaging activity.	6. 1	OPERATIONAL SERVICES	West Lothian Council are doing a great job of serving the community and lead the way in many initiatives. The green spaces are great and managed well, also the development of more parks, pump tracks etc which make it feel safer for mums on their own with kids, or just women being able to walk and run around the area. I love the fact that more areas are left for the wildlife - it looks natural, not scruffy, and it feels, again, like West Lothian Council are leading the way.	1. 1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	My son, my dad and myself, moved to Livingston from Coventry, England sometime in July 2012. At first, I was disappointed a lot. The town itself, as a new town build, looked ugly to me, I am sorry, that I used this word, but I am honest person. The houses looked the same. There was no high street, plus, it was raining 3 days and 3 nights on the row. I was already depressed after separation from my sons mum, I did feel lost and lonely,,, I think Livi is town with best location in Scotland, I even would call it a "heart of Scotland"...I love living here and not even had a feeling to move somewhere else. We are settled after 10 years here. Of course, some improvements can be done to the town, house affordability and roads as well could be fixed a bit. But overall for our family would be 8 out of 10. Thanks a lot and all the best!!!	1. The respondent feels that this is important to them/their community	PEDR - infrastructure, community building and services	Thank you for your response. 1	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	My biggest worry is the amount of housing being built and the amount of green space being ruined. I know we have to build houses, however a lot of people are moving from Edinburgh to West Lothian and this would suggest the amount of housing isn't necessary. It's causing younger people from our area to have to move to another area while people moving from Edinburgh and pushing the housing prices up in our area. Other Council's put a lot of effort and money into tourism for example the Falkirk Wheel and The Kelpies. The list goes on. Our Council has a handful of areas for tourism, however they are not up to scratch with other Councils. Beecraigs is nice, however it has an old run down play park and a small visitor centre. Most other places to visit are the same. We really do need better tourism attractions. I note the Dechmont UFO Trail has nothing, but a big stone marking the spot. This could be invested in with a larger car park and a visitor centre along with a large play area which could be charged for entry. This could all bring money into the area. Please consider upgrading tourism attractions to not only attract tourism, but give our young people exciting places to visit nearby without having to travel to other Council Areas.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - green space	Thank you for your response. 1	OPERATIONAL SERVICES	Transport links are important however, they are quite poor. Thinking buses available within and around Linlithgow to Livingston - lack of buses and not regular enough for using to get to and from work. 1	OPERATIONAL SERVICES	Proper support by the council & bus companies is vital to keeping open decent & affordable travel to other areas of Scotland, Car owners don't have to worry about getting around. Those of us who can't afford a car or are unable to drive for other reasons are treated with disdain regarding joined up & accessible transport links. 1	EDUCATION	<p>Childcare facilities including nursery and wrap around care for schools. This is particularly true in Winchburgh. We (husband and I and one child) have moved here due to the marketing saying it was a good place to raise families and the promised train station and jobs in Edinburgh - we thought we would easily be able to manage including commuting time and wraparound childcare - there are no family members we can easily call upon for help with day to day childcare. We both need to work full time to pay the mortgage and council tax. Without a train station and speedy commute the wraparound care becomes even more essential to enable us to continue to work our full daily hours - including school breakfast club and the After School Club. The ASC is the only substantive after school provider from 3.15 until we finish work at 5.30 (and a private one - they could decide to stop operating tomorrow.) They do not operate Fridays from 12 noon and I have had to ask my employer to take the afternoon off to cover this weekly, but they would prefer it if I could have worked full time. If the ASC shut down - which as a private company they could do - one of us would have to quit full time work and take a lower paid part time job to do childcare - to be blunt it is unlikely we would be able to continue to afford the mortgage and we would likely be forced to sell up and leave Winchburgh. Next time we would choose somewhere with better childcare as our number one priority over all other considerations. There is definitely a push in the marketing material to get families to come to the Winchburgh redevelopment- working parents like us are generating council tax facilitating growth in West Lothian including paying for services for all. I think it</p>	6. The respondent suggested an improvement. Officers will consider how this could be developed. 1	OPERATIONAL SERVICES	The only problem within Livingston area is: Road edging is covered by grass, which can make it very dangerous for Veichles under normal weather conditions, and even worse in the winter, I have taken this up with my local councillor ***** **, two years ago, and still nothing has been done, to improve the road edging. It is very disappointing that WLC are doing nothing about this, it makes it look like Livingston is a tip. I believe this problem has been caused by staff shortages, due to seasonal workers not being taken back On, or existing staff being made redundant, or used elsewhere with the WLC district. Other problems being very long grass area's within Livingston, and I understand the reason for this, however the way it looks, again makes Livingston look like a dump. A holiday site that I stay at back and forth also has these area's for the same reason, however they have made a design out of these area's and it actually looks very nice, and not looking like a dump, hopefully this is something that WLC can look at, to make Livingston look neat and tidy, instead of looking like a dump.	4. 1	OPERATIONAL SERVICES	Economic development is driven by connectivity. Livingston needs to move beyond having just reasonable access to Edinburgh and Glasgow by train. Now that rail services have been taken over by the SNP Administration at Holyrood, the services are poorer than had been the case a few years ago. There is a significant practical and ecological case for inter city trains operating on the West Coast Main Line to stop at a newly created Station in the South of Livingston, before suitable locations have been used for other purposes. First of all, the lack of reliability of trains through to Edinburgh extends journey times given the necessity to take a train earlier than strictly necessary to take account of possible cancellations. Secondly, it is not environmentally friendly to have to travel in to Edinburgh by car to catch a train that goes back out through the County in which you live. Thirdly, if major companies do not have easy transport access to West Lothian, they are unlikely to be minded to establish a business location here with the detrimental affect on job creation.	8. 1	HOUSING, CUSTOMER & BUILDING SERVICES	Reduce anti social behavior / local crime	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	HCBS - crime and ASB	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	It would be great if West Lothian could be more self-sustaining. Currently lots of people commute out to Edinburgh or Glasgow for work, leisure and services, and far too many people feel they need their car to get everywhere. I really support the idea of 20 minute neighbourhoods, where people could earn and spend their money locally, and travel by bike or foot - this would improve ownership and care of nature, open spaces, local economy and community ties.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - infrastructure, community building and services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	HOUSING, CUSTOMER & BUILDING SERVICES	Important to continue to provide as much social housing created both through WLC or RSL's across the whole of West Lothian. Investment in community facilities to keep them attractive and welcoming to communities. Cannot be expected that third sector will be the main delivery mechanism for community alone.	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

2	CORPORATE SERVICES	I currently work for west lothian council. The current situation in housing and building services with employees is a joke. West lothian council right now if it is not the worst it is one of the worst paying councils out of the rest. That is not even down to the current standard of living crisis. People are leaving for employment elsewhere and the council cannot recruit anyone because of the money. The council is currently looking for 13 joiners an all time high probably. Not only this but most importantly apprentices are paying the price. They lack training and skills to be able to complete jobs to a high standard, the work that we have is mostly maintenance which is not good enough to be able to complete all the modules you have to accomplish your city and guilds.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Corporate - council staff / terms and conditions	The Council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
2	SOCIAL POLICY	Care	4. The council is already doing this.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

2	OPERATIONAL SERVICES	Need better bus links to Edinburgh and even Glasgow from Lothian buses. X27 is not that regular too	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Operational services - public transport	The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation. The noted services are not subsidised by the council.
2	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	We have good green spaces however they need to be left untouched now. Far too many houses placed on very small spaces. The houses that are built are always very large expensive properties, there has been no thought put in to two bed properties - there is a demand but of course the pay back to the council will not be the same. I feel Linlithgow is being sold out.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	PEDR - affordable housing	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	OPERATIONAL SERVICES	We have lots of great parks in West Lothian.	1. The respondent feels that this is important to them/their community	Operational services - open spaces, play areas and parks	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	OPERATIONAL SERVICES	Pedestrian crossing at Peel Primary School, Garden Place. There have been too many near misses and my daughter was actually run over this year.	4. The council is already doing this.	Operational services - roads, street lighting, footpaths and parking	Pedestrian crossing requests are developed by the service
2	CORPORATE SERVICES	There are plenty of services for supporting the residents, however, these services are not necessarily culturally appropriate, there is a very limited scope for migrant people to enhance the skills that may help them to improve their wellbeing. Such lack of opportunity minimises the pathways to creating equal representation within the West Lothian.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Corporate - equalities and inclusion	Thank you for your response. 2	HOUSING, CUSTOMER & BUILDING SERVICES	I think community facilities are important but do not feel that is the responsibility of the council to provide. For example, most community centres do not have a programme that is relevant to the majority of residents and tend to be closed when those that work could access them. Boghall Community Wing is an example of a great facility that offers virtually nothing to the majority of the community.	1. The respondent feels that this is important to them/their community	HCBS - community facilities and customer services	We would be keen to understand what additional programmes you can suggest. If you can contact us to provide more information we would be happy to investigate this.
2	OPERATIONAL SERVICES	West Lothian will always attract some job opportunities but the reality is that we are a commuter area and need to provide the transport infrastructure and training/education to allow residents to get jobs in the major cities nearby. For example, getting to Glasgow from most areas of West Lothian by anything other than train is virtually impossible - that significantly reduces the scope of job opportunities.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Operational services - public transport	The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation. The noted services are not subsidised by the council.
2	HOUSING, CUSTOMER & BUILDING SERVICES	New housing is a joke! WLC point blank Refuses to take care of the older properties! Alleged 'renovations' from 2013 STILL not finished, because then I'm due decoration allowance since the council, not the subcontractors Destroyed my house and left it that way! ; No matter if I call or go in person NOBODY WILL HELP ME! ; Maybe concentrate on what you already have.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	HCBS - housing stock condition and repairs	Housing continually repairs homes as issues are reported and invests heavily in capital programme works which replace end of life components and improve older stock to meet ever increasing legal requirements for safety and energy efficiency standards
2	OPERATIONAL SERVICES	Maintenance of pavements also needs looked at.	4. The council is already doing this.	Operational services - roads, street lighting, footpaths and parking	Road Maintenance is carried out annually within the available resources

2	OPERATIONAL SERVICES	Some thought should go into how to improve the safety of roads through towns and villages. I was keen for the 20 mph limit to remain in force, however that has not happened. Particularly the road through Philpstoun is treacherous, and it would be good for something to be done about that (safety bumps / 20 mph limit enforced) before a horrible accident happens (there are children who play in the village and like to cycle and walk through it...at the moment it's a "take your life in your hands" situation, especially in the areas where there are no pavements).	4. The council is already doing this.	Operational services - roads,street lighting, footpaths and parking	The council carries out new traffic calming through the annual AIP programme when justified

2	CORPORATE SERVICES	The most important thing that needs to be improved isn't on this list - it's governance. WLC has failed repeatedly across planning, education and other areas in their role as stewards for Linlithgow. Remote decisions made by people who don't care, in breach of their own policies and procedures, over the clearly expressed wishes of the people of the town.	2. 2	OPERATIONAL SERVICES	The public transport here is shocking. You never know if a bus is going to turn up so you can be standing for almost two hours before one comes, by then you are late for work or an appointment.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
2	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The lack of affordable housing is a joke. These's massive new estates being build in winchburgh, east Calder, deans and other locations but all are private built starting at £250,000. Apart from the influx of people from Edinburgh and glasgow West Lothian isn't what I'd call an affluent area. More needs to be done to allow affordable housing to be build that isn't a cheap knock up.	4. The council is already doing this.	PEDR - affordable housing	Thank you for your response. 2	OPERATIONAL SERVICES	<p>I discovered this site thanks to our Kirknewton Minister Alistair Cowper’s email. My feedback is regarding Kirknewton has one main road Linburn Road coming in and out of the original village from Wilkieston the A-71 —one and a half miles from Wilkeston into the Village of Kirknewton. It has one Bus the Lothian Country X28. The X28 has no intermediate stop for that entire one and a half mile route. The greater problem is there is NO; meaning not even a dirt foot path, on that continuous serpentine of blind curving road side. Everyone coming from the six bus routes on the A-71 has to walk in the street-Linburn Road the entire one and a half miles . The overgrown vegetation and scrub growth is so thick it is impossible for even a wee rabbit to do anything but walk into the roadway. This road serves a population village of over 2200 people. There are scores of near misses each year people trying to walk to the A-71 to ride one of the many other Buses x22, x23 x24 x25 x27, Hospital x40 and 40, All these buses West Lothian, Lothian Country, and E&M Horsburgh bypass our village and require a one and a half mile walk from Kirknewton to Wilkieston A-71 to ride. I will save this notification for a public hearing, police notification, and coroners inquest when the next person killed or injured on Linburn Road.</p>	5c. 2	DIGITAL TRANSFORMATION	<p>For the digital connectivity issue this is very important. However, I don't think it can be tackled properly at Council government level. To do it properly it would need at least the following to be dealt with: ; 1) All households to be supplied with a computer system capable of connecting the internet. Would also need supplied with a printer.; 2) Free broadband connection for all households.; 3) (If necessary) free good quality tuition on computer use and maintenance skills (I would think this could be partially managed with the help of a network of volunteers willing to teach others basic computer skills).; ; Without the above being done digital connectivity of itself is a can of worms — too many people just do not have the financial means nor the necessary skills to actually use digital connectivity. I do have a broadband connection, have had this for years, but I would never sign up to 'digital only' for essential services. For example, I am not in favour of the Council or for, say, the NHS to go down the so-called 'paper-free' route. The reason for having this stance is simple: If I agree to that it is fine while I have a computer system and internet connectivity, however, if for any reason, say I am no longer being able to afford a broadband connection or a computer system, then I am faced with a severe problem in how I interact with Council or NHS services. For these reasons alone I would never agree to digital-only services from the Council or the NHS.</p>	<p>2. 2	HOUSING, CUSTOMER & BUILDING SERVICES	More work needs to be done to stop anti-social behaviour at these facilities, I often hear users complain that these facilities can attract the wrong crowds which often purposely damage or sabotage local skateparks by smashing glass all over them or setting fires which can permanently damage concrete surfaces. At a time when Scotland has the highest drug deaths in Europe and now is slated to be the cocaine capital of the world as covered by a new documentary by Vice, local councils would do well to try and tackle anti-social behaviour and its causes. Most of this behaviour stems from poverty, lack of social inclusion and poor home life. This often leads to youths venting their frustration towards others in the community. More free facilities are needed such as bike trails, football pitches, basketball courts etc. This would ensure people from all walks of life have something to do regardless of their financial situation or background.	6. Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	OPERATIONAL SERVICES	Road surfaces - far too many pot holes and temporary patches done creating a road matrix that means all road users are having to swerve to miss holes and irregular surfaces to avoid costly repairs to their mode of transport. Spending on roads is inadequate for the levels of public and private road use in the county. With increased housing and commercial road use from increased development of the county the road surfaces are falling behind and without increased investment will become a large negative aspect of the county	4. The council is already doing this.	Operational services - roads and parking	Road maintenance is carried out on an annual basis
2	OPERATIONAL SERVICES	Fly-tipping - a constant blight on the countryside and enforcement of fines, prosecution doesn't seem to be visible to the community if it happens. More needs to be done on reducing fly-tipping, and a higher public profile of the enforcement of fines, prosecution of culprits.	4. The council is already doing this. 2	OPERATIONAL SERVICES	Recycling - great to have a pro-active council behind recycling. The issue here is that kerbside collection items (paper, plastics) are lightweight and the recycling bins are not designed to withstand strong winds. So when we have a strong wind the bins are blown over / lids blown open and the contents are then blown everywhere creating more refuse blighting the green spaces and countryside.	6. This is a positive suggestion. Officers will consider how this could be developed.	Operational services - bins, recycling and bulky uplifts	Thank you for your response. 2	HOUSING, CUSTOMER & BUILDING SERVICES	Access to Community Facilities are very important but do not need to be provided/ maintained and funded by the Local Authority and do not need stand alone buildings.; Better use needs to be made of facilities in local schools, partnership centres. Duplication of activity within communities needs to be removed and mixture of tenure made better use of in partnership with communities e.g Church Halls/ scout halls etc.Simplified resourcing and clear strategy on what core facilities are required could then allow for rationalization of public owned buildings, diversion of activities to other community facilities would allow communities to understand what can and cannot continue to be provided and raise valued income from sale of existing buildings.	6. This is a positive suggestion. Officers will consider how this could be developed.	HCBS - community facilities and customer services	Thank you for your response. 2	SOCIAL POLICY	Need more services that meet the needs of people with profound physical and learning disabilities.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	OPERATIONAL SERVICES	The bus service needs to be improved urgently. *NB, there is only one bus going through Dechmont. It goes to Edinburgh. No bus to St.Johns Hospital or Livingston from Dechmont.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
2	HOUSING, CUSTOMER & BUILDING SERVICES	1 glazer covering the whole of West Lothian.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	HCBS - housing stock condition and repairs	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
2	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Need investment into new learning and job opportunities	6. This is a positive suggestion. Officers will consider how this could be developed. 3	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The Council has a complete cheek asking about all this after the significant over building in the East Calder area. We have a small Health Centre which is entirely inadequately equipped to cope with the ludicrous over building in our area. A new partnership centre and schools are built/ being built but not a thing for our Health Centre. We have a building which leaks rain through the roof when there is inclement weather and is too small for purpose. Not enough consulting rooms for Doctors or nurses so limited appointments. It's an absolute disgrace. The House Builders should have been made to contribute to the cost of providing adequate Healthcare facilities. The surgery is on its knees trying to provide for the huge area it now has to cover.	8. This suggestion is out with the responsibility of West Lothian Council. 3	EDUCATION	Schools need improving, I leave my son (P2) in an unsupervised playground at 8:15am for breakfast club & there are children younger there unattended with open gates, it's a case of the older babysit the younger, this may be to do with staff availability however there are plenty people out there without jobs - we need to employ more people & pay them enough to live a sustainable life. Give to your community & they will give back to you.	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
3	HOUSING, CUSTOMER & BUILDING SERVICES	Housing is important, but building more houses is not the answer, properly allocate housing based on needs	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	Housing allocation is based on legal requirements set by the government. The Allocation policy is agreed by the council and determines that customers are housed based on their need.
3	HOUSING, CUSTOMER & BUILDING SERVICES	invest in property renovations rather than having houses & buildings falling apart everywhere.	4. The council is already doing this.	HCBS - housing stock condition and repairs	The council is developing a future housing investment programme
3	HOUSING, CUSTOMER & BUILDING SERVICES	Crime is ridiculous, police funds have been cut due to lack of funding - really? PC Sheridan would walk the streets daily when I was a child/teen & people respected him, so they wouldn't disrespect the town (as much as the town is neglected now). You can find all sorts in parks, playgrounds etc that should be nowhere near child friendly areas, the likes of bottles, broken glass, needles even.	8. Each of these is investigated and improvement actions will be put in place as needed
3	OPERATIONAL SERVICES	I feel the council has wasted a lot of funding on the bins issue, firstly we were issued 2 small bins for food waste, which didn't last long and cost a massive amount off money I'm sure. We all want to do our bit, on hearing that in the schools all the separate recycling bins are dumped in one and collect together, was shocking and false advertising that it's all separate and West Lothian council are doing their bit!!! Now we have been told yet another new bin would be introduced..... another splurge of money and for how long this time	7. 3	EDUCATION	Young people are our future and education/schools should be an important consideration in how funds are distributed, Broxburn Academy could benefit greatly from refurbishment, the staff are struggling to cope with the increased demands with so many of the students suffering from anxiety/school attendance which has been impacted by Covid-19. Whilst the school does its best to support students with issues, it would benefit from increased support from outside agencies such as counsellors, mental health practitioners, etc. I also highlighted that due to the cost of living which is not reflected in pay and wages and has a direct impact on poverty and equality. My family rely on Universal Credit to survive monthly and we often struggle due to increased energy bills, food which does not allow extra spending for any leisure activities.	4. 3	CORPORATE SERVICES	The wages paid by West Lothian council are unbelievably bad. I'm employed by fleet and at present class 2 and class 1 drivers are paid more per hour than mechanics are. Whoever came up with that pay scale needs a shake to wake them up.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Corporate - council staff / terms and conditions	The Council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.

3	HOUSING, CUSTOMER & BUILDING SERVICES	It would be nice to see police officers actually walking the beat, instead of sitting in cars and appearing to be invisible. Police also need to prioritise real crimes over petty issues of people partly parked on a pavement for literally 2 minutes, whilst someone went into a shop. Easy money when I get a ticket for this. Considering I have had absolutely NO speeding tickets, police cautions, police arrests, police convictions no Court cases, etc in 60 years - they decide to give me a ticket. 3	FINANCE & PROPERTY	<p>Climate change is a naturally occurring event on our planet, there are indeed issues with carbons emitted from vehicles and factories however we do not have the climate to sustain remnants of the last ice age. The last ice age was only 18,000 years ago, in that time sea water levels have risen 120 meters. This information is widely available in any knowledge encyclopedia or similar. With our ever expanding universe it would be entirely naive to think that we have reached our final destination as a species. Our planet and atmosphere will continue to change and will most likely wipe out most of our civilisation as it has done in the past. "Green Energy" is not as green as you might think. Batteries and solar power generate monumental amounts of carbon to create and have relatively short life spans along with the fact that the materials can be rare and difficult to mine and/or recover. You can watch TEDx talks on Youtube that support this idea. Videos like "Why renewables can't save the planet" by Michael Shellenberger or "The Contradictions of Battery Operated Vehicles" by Graham Conway. Covid-19 was created in a lab in Wuhan and the first leak was detected in 2019. Livingston looks like a dump, outside of Livingston there is fly tipping everywhere. There will always be people looking for handouts but before they receive anything the council needs to provide basic services that affect all our quality of life, I don't pay £170 a month to live in a dump, if you can't run other services and provide a decent physical environment, close the other services. 3	EDUCATION	Segregated schools. Denominational schools are an archaic concept and are discriminatory both to teaching staff (who cannot hold senior posts in a denominational school without a letter of approval from a catholic priest, and since fewer and fewer people practice their religion, the pool of eligible promoted staff who meet that requirement is now so small it should ultimately lead to question the calibre of promoted staff within catholic schools) and potential pupils and additionally fuels sectarianism - especially in the central belt where football allegiances exacerbate the problem. Does not help the community when catchment areas within a town are split and pupils are being bused to different towns - providing both denominational and non-denominational schools within catchment areas fractures the link between the community living together and being educated together.	5c. 4	OPERATIONAL SERVICES	Public transport really is shocking. I'm lucky enough that I passed my test this year, but in my 29 years on this earth I have constantly been let down by buses, whether that be them not turning up in all seasons, them not having enough space for people with small children & prams or not having the initiative to ask people with toddlers to fold down their buggy (buggy was empty) so that I could get on with my sleeping 4 month old but instead asked me to take him out to fold my pram! Then denied me entry into the bus so I had to walk in the snow to a different bus stop to go an alternative route. They buses break down all the time... The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - public transport	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
4	FINANCE & PROPERTY	If people have too much help and are not developed as adults in their minds, they can't take responsibility later in their life. That's why, not only at school, but at home as well, this should be taken to the highest level and make sure that people live less of benefits, but more on their own. You will have less depression while doing so as a side effect.	4. The council is already doing this.	F&PS - benefits	The Anti-Poverty Strategy sets out how the Community Planning Partnership aims to address poverty.
4	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Stop building on the green belt	6. The respondent suggested an improvement. Officers will consider how this could be developed. 4	CORPORATE SERVICES	the rising cost of living but lack of meaningful pay increases	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Corporate - council staff / terms and conditions	The Council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.

4	FINANCE & PROPERTY	It is impossible to mend the it's WLC are looking to make, the services are already underfunded as it is!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - council priorities and budgeting	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
4	EDUCATION	Recent experience with placing my daughter for funded hours. Application for nearest school was rejected and now I have to either spend 50-60min to walk my daughter to/from nursery (which affects my work) OR I have to buy a car a drive which means unnecessary trips and ecology problems. Closest school is less than 10 min walk but our house is not in the catchment area so instead we got a school that is 25+ min walk one way... I honestly don't understand the logic. Plus I've got the PM session which means my outbound/inbound trip would interfere with my working hours. And the same frustration with all my neighbors on the street.	5c. 4	SOCIAL POLICY	<p>Most important issue for clients is being able to access services, they often don't know where to go or what's available. Services aren't always advertised and when they are, they aren't always advertised in places/ways that the people who might access them will see it. ; ; This can be extremely distressing to people living in a situation where they don't feel safe.; ; Accessing health/mental health services can be difficult, people struggle to get referrals then are often placed on long waiting lists (can be up to 2 years) and when they get to the top they may then be limited to a small number of 1-2-1 sessions. When these finish there isn't always further support people can access so issues present again and the cycle starts again. The process can be quite disjointed, with people having to wait until a service/sessions have finished before being referred somewhere else however this means they are then placed back on a waiting list rather than have support following through. There also could be more/ a bigger crisis service that individuals could access when they are needing it. ; ; Benefits and financial difficulties are common and individuals struggle to get support or for services to understand the support they need. Particularly if they have complex needs as they sometimes require additional support.</p>	<p>8. This suggestion is out with the responsibility of West Lothian Council. The council's decision to not collect traders waste has led to a disgraceful rise in tatty bins outside of shops & businesses. 4	OPERATIONAL SERVICES	I was forced to cancel my appointment at St John's after waiting 80 minutes for transport that never came. My appointment was for 12:20 last Thursday 7th. Had to make a new appointment from this bus stop as I was embarrassed to make this call. I have been told this is quite a common occurrence and should not at all happen this problem must be resolved. The 600 and 38 buses are the main transport between the public's two hospitals Forth Valley and St John's Hospitals.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
4	EDUCATION	West Lothian is a great place to live!!! I had the best of education in Uphall Primary School, the original Bathgate Academy built on the hill and followed by wonderful opportunities to work, travel the world and raise three wonderful daughters who benefited from great teachers.	1. The respondent feels that this is important to them/their community	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
4	HOUSING, CUSTOMER & BUILDING SERVICES	Public libraries to cherish and enjoy.	6. This is a positive suggestion. Officers will consider how this could be developed. 5	FINANCE & PROPERTY	Cost of Living needs to be kept in line with wages due to everything going up and through the roof, if everything comes to a stand still due to the cost of fuel prices, then everything will get worse for everybody, what we need is the Marginal Propensity to Consume Basic Economics, someone with not very much money needs to be able to afford to spend the money that they get, in order to create a need for other jobs and services that are required, through the spending of this money and therefore keep the economy moving, if this breaks down, we break down and then the Country comes to a halt, therefore the UK Gov needs to pass on the proper Barnett Consequentials to the Scottish Gov in order for Councils to give pay rises above inflation and pass on proper funding to services in order to run a proper service, as trying to run them with one arm tied behind your back will only lead to Health and Safety Breaches and higher Staff Sickness through ongoing monetary pressures. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	East Calder has so many new builds that it is requiring urgent improvements to health centre and education facilities within the village	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	PEDR - infrastructure, community building and services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	EDUCATION	Facilities for young people are very lacking - local community centres no longer allowing young people under 16 to have a membership as they cannot staff the facility, then residents moaning when kids are hanging about the streets	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - youth and community activities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	OPERATIONAL SERVICES	The aesthetics of West Lothian need addressed, they have looked terrible over the past few years and making West Lothian look very tired - cutting grass, weeds, walkways, roads	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council is currently reviewing grounds maintenance standards and are looking at options to improve biodiversity by planting wildflowers etc on roadside verges and within parks. This is intended to improve the appearance of communities in addition to improving biodiversity across West Lothian.
5	EDUCATION	School system needs complete overhaul and a return to academical learning and less social learning.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

5	HOUSING, CUSTOMER & BUILDING SERVICES	Anti social behaviour clamped down on especially drug/drink abuse. More visible policing of areas.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	HCBS - crime and ASB	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	OPERATIONAL SERVICES	Bins emptied more often. Glass recycling bins provided for every household.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Operational services - bins, recycling and bulky uplifts	Council is a signatory of the Code of Practice for Households Recycling which provides a national framework around service provision
5	OPERATIONAL SERVICES	Tidy open spaces especially on major entrance points for west lothian ie. The heartlands and Broxburn areas to encourage a better first impression as people enter our area.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	Biodiversity and Ecology officers are currently developing a strategy to improve the service in these areas including looking at options for planting wildflowers and bailing materials for sale. This includes making improvements to the major entrance points.
5	OPERATIONAL SERVICES	More money/resources put into cemeteries through out west lothian.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	Operational services - open spaces, play areas and parks	The cemeteries are currently maintained to a very high standard and it is not practicable to increase resources as the improvements would be minimal.
5	OPERATIONAL SERVICES	Road conditions improved. Less waste of resources in many west lothian council departments.	4. The council is already doing this.	Operational services - roads,street lighting, footpaths and parking	Road Maintenance is carried out annually within the available resources

5	FINANCE & PROPERTY	Cost of living - wages. Affordability (Bills);	4. The council is already doing this.	F&PS - cost of living and support for lower income families	The Anti-Poverty Strategy sets out how the Community Planning Partnership aims to address poverty.
5	HOUSING, CUSTOMER & BUILDING SERVICES	Safety	4. The council is already doing this.	HCBS - crime and ASB	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	HOUSING, CUSTOMER & BUILDING SERVICES	Housing	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	The Council work with Housing providers in West Lothian to support their building programmes and between the Council and the Housing providers, thousands of social rented houses have been built in West Lothian over the last decade. West Lothian is a highly desirable area to live and this increases demand for social housing.
5	SOCIAL POLICY	Social Care	4. The council is already doing this.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	FINANCE & PROPERTY	old community centre, are a disgrace with the surrounding area just falling into disrepair.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - properties and facilities	The council will explore ways of delivering services and community activities in local areas.
5	HOUSING, CUSTOMER & BUILDING SERVICES	Same applies to social housing - if repairs aren't carried out to a decent standard and only patch-up jobs, then affects mental health of tenants. A lot of focus on new housing but what about the housing stock from pre-70s?	4. The council is already doing this.	HCBS - housing stock condition and repairs	The council is developing a future housing investment programme

5	OPERATIONAL SERVICES	Open green spaces for mental wellbeing - not just open parks with football pitches and a few seats around, there is no safe, pleasant area to walk to in the community. Trees, plants, flowers etc will address some issues of climate change, and provide a more pleasant park for people to walk in or meet others. Run down and unkempt areas give a feeling of not being cared about leading to crime etc	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council's Biodiversity and Ecology Officers are currently looking at developing areas within parks and greenspaces to improve biodiversity. This includes allow areas to grow naturally as well as planting trees and wildflowers etc.
5	OPERATIONAL SERVICES	Residential parking needs to be addressed. On street parking is terrible and very unsafe for children. There is limited parking for residential houses at some points and the street becomes clogged by cars with people working for the council and visiting the school and shop (Rowan Street).	4. The council is already doing this.	Operational services - roads,street lighting, footpaths and parking	Currently carrying out parking strategy for West Lothian
5	SOCIAL POLICY	Old doctors surgery are a disgrace	8. This suggestion is out with the responsibility of West Lothian Council. 5	OPERATIONAL SERVICES	access to green spaces.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council is reviewing access to all green spaces as part of our capital parks improvement programme.
5	OPERATIONAL SERVICES	transport links.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
5	SOCIAL POLICY	social care support,	4. The council is already doing this.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The lack of shops and the promise of this matter being rectified, the council promised to step in but to date nothing has happened, so disappointing	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	PEDR - infrastructure, community building and services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

5	EDUCATION	Schools, I feel the schools need improvement. There are new ones being built but in some areas where new houses are going the schools are at capacity but nothing seems to be done about improvements to those existing schools.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - schools, curriculum, attainment and positive destinations	Ongoing capital investment based on a needs analysis will be ongoing
5	EDUCATION	Its important that my children are being well educated and being provided lots of opportunities.	1. The respondent feels that this is important to them/their community	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	SOCIAL POLICY	My sons are physically disabled so its really important that we continue to be supported with local services to ensure that they have opportunities when the time comes for them to leave school. Its a huge concern that cuts might effect services that my sons might find useful in the future such as day centres and respite care.	4. The council is already doing this.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	HOUSING, CUSTOMER & BUILDING SERVICES	More things done in the village against unsociable behaviour	4. The council is already doing this.	HCBS - crime and ASB	The Council's Safer Neighbourhood Team investigate reports of anti social behaviour and incidents and offer advice or support. Our team works in partnership with Police Scotland

5	OPERATIONAL SERVICES	<p>Making sure that the less important paths higher up the town are safe to walk on in the winter instead of the council giving priority to main roads and drivers all the time. Breaking your leg on ice before you get to the end of your street shouldn't be an option. I wouldn't say all the shops in Bathgate are inspiring. Luckily there are some useful shops that mean not having to travel to Livingston every week.</p> <p>The main things that are important to me in my community are transport facilities, keeping people safe when out and about but not just in relation to road safety and social distancing and activities for the community to be involved in. I would like better transport links instead of having to walk 15 minutes down to the main road to catch a bus in the winter and having to walk back up when it's late.</p>	4. The council is already doing this.	Operational services - roads, street lighting, footpaths and parking	We have a Winter Maintenance Policy which prioritises roads and footpaths
5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The choice of food shops has improved but there are still too many hairdressers and nail bars, just like years ago Bathgate was full of charity shops and not much else. As someone who has not reached retirement age it would be nice to have somewhere to go in the evenings and make new friends. There doesn't appear to be much for kids to do especially older kids 12+ either, but there seems to be activities for younger ones. I don't understand why hardly anything is organised during holidays for kids (all ages). It's no wonder they get bored and into mischief.	8. Along with ordering books on line and have pick up points in different locations in West Lothian where books could be delivered for pick up with a text or email message alert? I think the diversity of the libraries is to be applauded but it's all just a little bit chaotic and having one central location with the same days and opening hours might be a better use of finances and also cut down confusion on opening days and hours for customers and staff alike ? 5	OPERATIONAL SERVICES	I feel very strongly that there has been a too much of a reduction on Nets and Land Services as the cuts to this area has been far too severe and has resulted in a massive decline in how Livingston and the County now looks with the reductions in standards, county as a whole now looks a mess and this is not due to the efforts of grounds maintenance but to budget cuts which have gone too far. I also feel more needs to be done to reduce the level of fly tipping and littering across the whole country perhaps a national campaign like the Keep Britain Tidy one on TV in the 70s to educate people about implications and costs of fly Tipping/Littering.	4. The council is already doing this.	Operational services - litter and street cleansing	The council are currently developing a Litter Prevention Action Plan and it is intended that this is implemented in late 2022. The purpose of the plan will be to focus on litter prevention by educating the public. This will include focused littering and fly-tipping campaigns; including participating in national campaigns.

5	OPERATIONAL SERVICES	The roads in Murieston and other parts of Livingston (e.g.A71 and slip roads on to it) are similar to a ploughed field. In Murieston much of the issue on the main Murieston Road seems to be companies allowed to dig up the road to add resources(Cable etc) and not returning the road to a reasonable standard. Other roads are due to lack of appropriate maintenance.; New surfacing has been laid on the stretch of Murieston Road in front of the new houses only - hopefully paid for by the builders building the new houses?; With the exception of the re surfacing outside the new houses the Murieston Road, from the railway bridge (near Bankton Centre) to Brucefield, is dangerously dilapidated with numerous holes in the road.; There is also a drainage problem just before the Murieston Green junction which has over the last 10 years caused serious erosion to the road and that street. Repairing the roads in Livingston is a priority.	4. The council is already doing this.	Operational services - roads,street lighting, footpaths and parking	Road Maintenance is carried out annually within the available resources. All road works are co-ordinated by the service.

5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	We want a local authority with whom we can work as a community. Often we are not listened to and often there is no consultation on matters that are very important to a small community.; ; A good example is the Changing Pavilion. Considerable effort was made by this community to secure a genuinely sustainable structure that had multiple use other than showering and changing. All of our input was totally ignored resulting in a building that has limited function and is expensive to run. It pays no attention at all to the energy overhead that it will carry forever unless it is totally re-engineered.	1. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The community is growing so much faster than the amenities in Winchburgh. We keep being promised things then losing them. A new healthcare partnership centre was promised, as the strain on the current practice grows, then that was dropped. A new railway station has been promised several times only to fall by the wayside. The schools and nursery's are reaching over subscription before the new ones are built. House prices are rising with the luxury new builds and new amenities, I worry that my children will not be able to afford to live in the village that my family have for generations. I worry that the average wage is going to rise and subsidies for the poorest families are going to be effected and their experiences and access to opportunities are going to be impacted as pay your way to the top will become the norm.	8. 5	HOUSING, CUSTOMER & BUILDING SERVICES	The safety for members of the public especially our children. I think council should really look into Who's being housed in certain places. I live in flats within Uphall and I as many others of my neighbours have mental health but we are in control/have been treated of/for it, the council have housed a disruptive person within them and it affects us all as well as the kids in this stair. these flats could also do with a facelift and the many problems resolved.	4. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	<p>I live next to a woodland area that never fails to impress, and I find it encouraging when I see residents from other neighbourhoods, taking the time out of their day to pick up litter and keep all areas looking tidy. However I feel more action is required with neighbours keeping their gardens tidy. I currently live beside a lady who has mice in her garden with All the rubbish she just throws from her door into her garden. I've emailed the environmental dept, and heard no reply, and I've been In touch with my housing officer twice to ask for assistance with this. They've advised that they have no pest control authority;; So it's the councils responability. I've then tried to contact the enviornmental dept by telephone, and I'm met with the phone ringing out. I've also heard this is a frequent situation with all departments when you try to call. This isn't good enough. I understand that email is easier for most, which is why I tried to contact via that way first, but with no reply, there's very little options after that. Deadwood (staff) have to be removed within the council. The people who steal a wage and can't even be bothered to answer a telephone is disgraceful. If they had this issue, there would be many eye rolling complaints made, but because it doesn't effect them, nothing is done. There are so many areas that are great and effective within the council, namely the clean up on the streets, but again, more praise recently to the local people who do this for nothing to maintain all areas.;; Things have to change staffing wise.</p>	6. 5	HOUSING, CUSTOMER & BUILDING SERVICES	Affordable Social Housing is important for my community adapted for disabled. Also more single people dwellings.	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	The Council work with Housing providers in West Lothian to support their building programmes and between the Council and the Housing providers, thousands of social rented houses have been built in West Lothian over the last decade. West Lothian is a highly desirable area to live and this increases demand for social housing.
5	OPERATIONAL SERVICES	Keep public transport a priority... including trains and good bus links	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

5	CORPORATE SERVICES	As mentioned before - governance. I'm aware of so many decisions made by the council that are in the council's interests, but not in the interests of people and organisations in Linlithgow. Everything we want to improve on planning, housing, education, social care or leisure is made very considerably harder by having to beg people who aren't invested in it and don't really care. Common with many local authorities there is a secretive, aloof, arrogant and toxic culture in WLC as an institution that is the reason why we can't get the improvements we want, done in the way we want. We need real local government, not regional administration.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council governance and decision making	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments

Where relevant, we will forward these comments to our partner organisations.	Operational services - public transport	This service was operated commercially and therefore the council has no authority over its operation
5	OPERATIONAL SERVICES	The poor condition of roads and pavements is a big issue around West Lothian, Winchburgh too. I would like to see speed bumps installed on Niddry road between Craigton Place and the road bridge across the canal as cars and lorries hurtle down the road where children and pets are crossing at all times of day. ☹️	4. The council is already doing this.	Operational services - roads, street lighting, footpaths and parking	The council carries out new traffic calming through the annual AIP programme when justified
5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Winchburgh NEEDS a train station! 5	HOUSING, CUSTOMER & BUILDING SERVICES	Houses available for people who are born and bred in Livingston not for foreign people coming in and getting a house. More needs to be done on people who have council houses and do not keep it in good order including their gardens	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	HCBS - availability / affordability of social housing (inc. rent)	Housing will only allow applicants to become tenants when they have the legal right to do so. Regardless of nationality or ethnicity. Over 95% of all housing applicants are Scottish. Housing staff complete annual checks of gardens on a schedule during the spring/summer months. They will also respond to reports made by other tenants or members of the public of any issues. What can happen is that many council estates have properties that have been bought by Tenants under the now ended Right To Buy and the council is more limited in what it can do with these customers.
