8	EDUCATION	Improving attainment and EQUAL positive destinations for ALL school children!! Needs better advice, prospects, things in place on positive destinations how to achieve for kids with ASN who are expected to cope in secondary education. They are not looked on as high achievers and don't get the extra time needed to make decisions, but expected to adapt as if they don't have difficulties. The current system doesn't meet their basic needs re Change and lots struggle and experience more anxiety with so much changes at once. More smaller classes are needed, they should have access to all the subjects they want to achieve in. They shouldn't have to accept what's on offer limiting their life possibilities in further education and employment. You also need more job opportunities/apprenticeships with people with disabilities so they can show you they can shine. In an ideal world they should be able to fit in without having to advertise their disabilities. Their strengths should be as important in achieving as the next person. Much more training is needed for teachers to get this right for their futures, If this is right all of the above will be a more positive journey. Will definitely help on delivering that positive outcome on health. You say delivering positive outcomes and early interventions for early years, yes you've increased this in nurseries but at the same time you have successfully cut help to these services that volunteers in the local community also helped with these services for families in early years which helped with services and minimising poverty, the cycle of deprivation and promoting equality. The prioritisation of cars has killed our High Streets and is causing long term damage to communities. In terms of money, there is not one study in existence that has proven if you increase car usage/provision then High Street improve. There is countless studies that prove pedestrianizing zones and reducing traffic, increases time spent in the areas & ultimately the money spent. It all has a knock on, if we reduce cars, children feel safer out playing, they can travel to clubs, school & societies on their own... in the process teaching them freedom and confidence. 8	CORPORATE SERVICES	all important and all showed be a priority to council	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	EDUCATION	Your mental health care for children and adults it's shocking and this can definitely be improved, waiting lists for children are huge. As a parent of a child with autism who was self harming and was advised that my kid came from a good background so he wasn't a priority for counseling and got offer 15mins once a week at school. If this is what we do for our children no wonder they are struggling. ☹️	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Education - ASN	Schools have counselling services and work with Educational Psychology team and NHS to support mental health
8	EDUCATION	Gym access and outdoor spaces are key, the kids need to get involved. My child is great on the pc but when it becomes there world it reduces there ability to deal with the real world and makes them unsocial and sometimes aggressive.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - culture and leisure	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	EDUCATION	More talks in school around drugs is key, they are still too socially acceptable. They need to be able to see really life people and what happens.	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	EDUCATION	The school has now got a lot more available for studies and opened up a lot more the kids. It's wonderful to see them finding subjects that fit them.	1. The respondent advised that they agree with the proposal.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I think there are lots of position available in West Lothian for work, however if people are depressed or stuck then they won't work. It's more about breaking cycles than providing more opportunities. ;	1. The respondent advised that they agree with the proposal.	PEDR - employability and jobs	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	CORPORATE SERVICES	This was difficult because everything is very important	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	OPERATIONAL SERVICES	Where's improving bus services within West Lothian? For example, travelling between Bridgend and Bathgate, 8 miles by car when I go opposite direction, takes over an hour by bus, or just under with a change in Linlithgow which my daughter has given up trying because the connecting bus usually fails to appear so it takes her two hours, and on one occasion the driver ignored her waving and drove past. So many services cancelled at last minute that she couldn't hold down job in Linlithgow, The local service company is abysmal.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Operational services - public transport	List of priorities could be reviewed
8	HOUSING, CUSTOMER & BUILDING SERVICES	Affordable housing for families on single incomes. Please work towards building more council housing.	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	EDUCATION	I believe that good education and early years intervention (along with viable employment) will, in turn, reduce poverty and inequality, which will benefit general health and reduce crime.	1. The respondent advised that they agree with the proposal.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	FINANCE & PROPERTY	Add stop wasting taxpayers cash	4. The council is already doing this.	F&PS - council priorities and budgeting	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure.

8	CORPORATE SERVICES	1: cost of living ; 2: Housing affordability; 3: Poverty and unemployment; 4: Social care and care for the elderly ; 5: Crime prevention; 6: Public transport; 7: Transparency on spending ; 8: Community involvement	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	If we can deliver on these 8 we will be doing extremely well but i think employment is the key issue.; If we have good, well paid jobs so many of the other issues start to take care of themselves.	1. The respondent advised that they agree with the proposal.	PEDR - employability and jobs	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	These are lip service tbh. There is little point wasting time on your 'priorities' which you choose to disregard in favour of alleged fiscal priorities. Take for example your asset strip of Low Port on Outdoor Education. This service could and did demonstrate impact in every single one your priority areas....	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	EDUCATION	Many more places need to be made at special schools to meet the needs of children with ASN . Placing them in mainstream schools with no , or very little funding for support will not help to ensure they have their needs met and the best education tailored to them.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Education - ASN	There is a wide range of ASN provision supported by special and mainstream schools. There is also presumption of mainstream.
8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	While there's a job available in the job centre then people need to help themselves to a better life. The minimum wage is sufficient for a family to live on, just doesn't stretch perhaps to the lifestyle they expect such as takeaways, foreign holidays etc. I saw it as a housing officer many years ago and don't suspect anything has changed. More important to pay for Sky than worry about being evicted and not having a wall to hang the dish on.....	1. The respondent advised that they agree with the proposal. 8	CORPORATE SERVICES	At the moment you have a reputation of consultations such as this one doing little to empower and connect as the responses are largely ignored. This consultation needs to not be the tick box exercise it has always been in the past. Please make sure that this time round you do connect, empower and deliver and please listen to your community when they have suggestions and don't just push them aside.	4. The council is already doing this.	Corporate - comment on the survey	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	EDUCATION	School children are our future and must continue to have top priority.	1. The respondent advised that they agree with the proposal.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	FINANCE & PROPERTY	money management (important for mental health)	4. The council is already doing this.	F&PS - council priorities and budgeting	The Anti-Poverty Service provides advice and support to help people alleviate poverty. It is available to all residents to help them get additional support to help with the cost of living.
8	SOCIAL POLICY	Good health is important for everyone to enable any of the other priorities - we need to teach children healthy living, and provide older people with adequate facilities to have regular health checks along with encouragement and help to maintain good health in later life.	8. 8	CORPORATE SERVICES	I would perhaps change the priorities 1 and 2 to have early years interventions as priority 1 closely followed by school children as 2. If you get things right at the earliest stages in children's lives positive destinations and attainment for school age children should improve. As someone with experience working with young children when they join the school system I really believe it is important to prioritise interventions at an early age as well as at school age. Children learn from birth and the attainment gap starts well before children enter the school system.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	HOUSING, CUSTOMER & BUILDING SERVICES	There should be a priority around housing. Prioritising the need for housing of all tenures across West Lothian. Full scale shift in education to provide knowledge about housing options and life skills. Fairer and better pay to help people out of poverty and to improve peoples health outcomes. Better housing and life opportunities reduces crime and improves health outcomes.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	HCBS - crime and ASB	The Council work with Housing providers in West Lothian to support their building programmes and between the Council and the Housing providers, thousands of social rented houses have been built in West Lothian over the last decade. West Lothian is a highly desirable area to live and this increases demand for social housing.
8	FINANCE & PROPERTY	Absolutely 0 of this will be achieved with continual budget cuts. It has been the unsuccessful goal of every council for years, why should we expect the council to succeed now? With less funds.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - council priorities and budgeting	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.

8	HOUSING, CUSTOMER & BUILDING SERVICES	Social housing should be one of the councils main priority	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	The Council work with Housing providers in West Lothian to support their building programmes and between the Council and the Housing providers, thousands of social rented houses have been built in West Lothian over the last decade. West Lothian is a highly desirable area to live and this increases demand for social housing.

8	EDUCATION	Once again we hear about delivering positive outcomes for nursery and early years children. But to do this staff need to actually care about the role in this field. ; Children need boundaries and need to know when they have stepped over them this doesn't happen. ; Long termed staff who have delivered child care are now demoralised. ; As for the attainment for school age children again boundaries are needed. Children can and do verbally abuse staff and nothing is done. Parents need to be held accountable for there children's behaviour. Then maybe we can take forward positive destinations for all children.;	7. 8	EDUCATION	One of the key issues highlighted above is " Delivering positive outcomes and early interventions for early years" This alone would see a knock on effect on most other issues listed above. If a child from a poor background is left to fall to the bottom of the class and society in general, this will create a feedback loop where these issues become continuous. The child will grow up with poor social and academic skills which will transfer down to their children, so on and so forth. If this country is to tackle the drug deaths, suicide rates and poverty issues then early intervention is vital to our society. If the immediate family cannot provide adequate care, education and social skills to a child then the council or state should try to intervene in the least invasive but most productive way possible.	1. 8	CORPORATE SERVICES	<p>I feel that 1, 2 and 3 above will directly impact in a positive way on the quality of life for all children in our nurseries and schools if their parents are in employment/more educated, have money to improve their living conditions and the crime/drug problems in the poorest areas is addressed as a priority. We need to break the cycle of deprivation for our children going forward and give them hope for their future. The mental health issues of the parents of these children is often a huge factor in how the children deal with life issues and they often have behavioural issues due to their upbringing. Hence I feel helping the families, without just throwing money at them, should be a high priority. Too many grants are just given to families. Whereas attending things like parenting classes or free educational resources to engage them in positive activities, which then makes them eligible to receive a grant, may be much more beneficial for all concerned.</p>	<p>1. 8	CORPORATE SERVICES	There is a clear focus missing from this list. The improving quality of life for the elderly, should be extended to include all of those who are vulnerable and need social care packages, ie the young and adult disabled. It is also been clearly demonstrated that when a council takes and shows interest being taken in improving the built and natural environments in a community, that there is a directly correlated connection to a reduction in crime and antisocial behaviours. Surely when you get two objectives correlating like that, it is worth while improving the environment and getting those added secondary benefits in with the cost of the primary actions.	6. 8	CORPORATE SERVICES	I think the only thing missing is around social mobility. By placing value on social mobility, you look at how you empower people, not what you do for them. This means you can improve employment, housing, transport and access to information and services - and people themselves have what they need to improve their own situation at the level they need, rather than a blanket approach to support and services. Not everyone needs the same level.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	FINANCE & PROPERTY	Make people work, like we had to do. Stop wiping peoples back sides for them. To many people claiming to be disabled, living on benefits whilst others have to work to pay for them.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	F&PS - benefits	Benefits are determined by Scottish and UK Governments.
8	FINANCE & PROPERTY	Equality and fairness for all. No child should be hungry. Families need help to pay basic bills.	4. The council is already doing this.	F&PS - cost of living and support for lower income families	The Anti-Poverty Strategy sets out how the Community Planning Partnership aims to address poverty.
8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The Council need to encouraged more diverse shops (not just charity & coffee shops) but because of high rates the shops owners are pushed away so making the town a ghost town.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	PEDR - support for business	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	SOCIAL POLICY	The priorities need to be reviewed in light of the last three disasterous years we have lived under. These priorities do not include: Health Centre inability to see a patient; Lack of dentists that will see an NHS patient;	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Social Policy - GPs, dentists and other health services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	EDUCATION	Whether it is in terms of attainment and positive destinations for school children with ASN or improving quality of life and services for young adults / adults with disability, or provision of sufficient supported accommodation within all communities, this remains invisible and not mentioned as if people in this category do not matter and do not form a meaningful place in our communities. I know that there is mention in various strategies but the reality is that as a parent with a young adult with a disability who has gone through the school system i still do not know the rate of positive outcomes for ASN pupils and is now facing an uncertain future in regards to support, access to facilities and suitable supported housing	4. The council is already doing this.	Education - ASN	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	Priorities in the main continue to be the correct priorities and although i am aware you cannot prioritize everything i believe there is a clear omission in regards to people living with a disability in West Lothian either visible or hidden	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	These are laudable intentions. These appear to based on the opinions of councillors though. I would prefer there was some scientific basis for your decisions.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	CORPORATE SERVICES	Top priorities for me are tackling antisocial behaviour and improved built and natural environment; the rest are all equally important to me so for example No 8 does not mean least, thank you.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	CORPORATE SERVICES	I think a healthier community (both physical and mental health) should be the number one priority as that could significantly improve all other priorities. The importance of creating equality in the local authority is also key into impacting on them as we know those who come from the most disadvantaged backgrounds are most likely to be impacted by poor physical and mental health, disabilities, unemployment etc	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	OPERATIONAL SERVICES	As I got a composting bin about 12 years or so ago from the council for £5, it would be nice if this came about again (certain someone on your f/b page that this was a Scottish government initiative)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Operational services - bins, recycling and bulky uplifts	The council provides a free garden waste composting service and encourages householders to compost at home where appropriate
8	OPERATIONAL SERVICES	Many in West Lothian work in Edinburgh or glasgow so maintaining transport links more important than jobs here	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

8	CORPORATE SERVICES	Why 8? This covers everything a council does surely? So the priorities are just council activities (positive outcomes on health surely that includes older people, where does housing fit?) so does that mean something at the top gets no reductions in funding or more funding/promotion/focus and crime gets less? What impact does the priorities have if covers everything a council has to deliver?	9. The respondent made a comment on the survey question	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	HOUSING, CUSTOMER & BUILDING SERVICES	I do not believe there is enough focus here on West Lothian's serious housing crisis.; As a commuter town between Edinburgh and Glasgow, there has been an extreme increase in demand for housing in West Lothian which has driven up the cost of housing and the cost of renting.	4. The council is already doing this.	HCBS - availability / affordability of social housing (inc. rent)	The council is developing a future housing investment programme. You can also take a look at the Local Housing Strategy that outlines our plans for housing and housing related services across West Lothian. This document can be found on our website.

I'm afraid that we have increasingly lost the ability to meaningfully interact with customers. Everything is done at distance and a fortress mentality persists. We no longer have or can reasonably expect the support of the people we are supposed to be working for. The council is becoming ever more distant, remote and inaccessible. 10	DIGITAL TRANSFORMATION	I think we also have to be mindful however that there is a large proportion of elderly people in West Lothian that have no access to the internet and no awareness of how to become digital.	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Some of these measures will increase inequality, particularly for the older generation who have, perhaps, not gone digital.	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	A move to purely digital would work well for younger generations, i suppose we need to be mindful that older generations are not always as computer literate and may struggle with a greater shift towards digital services, sake for other vulnerable sections of the community.	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Many elderly do not have adequate knowledge for using online services so to speak to a human is very important as this may be their only contact with anyone	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	It can at times be difficult to use the services digitally. recently i logged an email for waste services. it took them more than 4 days to respond by which time i had already called the call centre. if moving to a more digital way of working the staff need to be available to respond to queries or questions via email	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Not every customer uses online so I disagree with online services	2. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	You wont save any more money by going digital. The staff reductions, because lets face it that's were the saving is, will be minimal. For every call handler of CIS person you can make redundant you will need at least one more IT person. I don't think that the council has a proper handle on the real cost of maintaining the technology it is signing up for. You can't keep laptops for 7 years and expect them to still operate new versions of software. you can't use versions of software that are 10, 20 and in one case 35 years old. You can't move over from Internet Explorer on the day its retired and hope for the best. Technology is expensive and require expensive ongoing investment. In addition the customers, and many of the staff - including many senior managers - cant operate the tech.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	I think some services could be digital and through website, however, I think it is important for us still to meet with people on a one to one basis.	1. The respondent advised that they agree with the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Reducing I person only works if there is a robust procedure in place which has been shown to work.	7. 10	DIGITAL TRANSFORMATION	I think being digital by default is the way forward, it is more effective for staff and effective for resident. It saves time accessing information or updating information online via the website or an app. Recently I was able to update my council tax payment method, without visiting a council office or phoning and the ease to do this with all services is welcomed. Life is busy and there is not always time to manage these tasks during 8.30 - 5pm when these are your working hours too. I think digital progress has been the biggest advantage from the pandemic and how organisation use this.; ; I appreciate there will be situations where this is not possible and this should not make it difficult for people who are not able to access services digitally.	1. The respondent advised that they agree with the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	You have to remember, with an ageing population, not everyone has access to, or wants access to the internet	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Many members of the public prefer to speak to someone in the end of the phone as many people cannot use on line services	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Not everyone has easy access to online platforms, eg elderly, visually impaired/blind people so there must be a central easy to contact point that people can go to for help, information, requesting services etc.	6. 10	DIGITAL TRANSFORMATION	there are many many people who rely on face to face - don't reduce staff in people facing roles as 1. older people find it difficult to navigate options on the phones / internet, 2. partially sighted / deaf tenants find this difficult and mistakes are easily made 3. many people have basic bank accounts and cant make payments over the phone / online. 4. it gives many people a reason to go out to pay bills - possibly even stopping other mental illnesses	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	I agree that many services should be available online but this should not be at the expense of customer service, but you are a risk of excluding many people who have literacy issues, mental health problems, are elderly or can't afford a smart phone. I strongly believe that you should still be offering a face to face appointment and being able to speak to someone on the telephone	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Some people find it difficult to navigate online and sometimes it's easier to just talk to someone. There needs to be the option of both. A service which is easily accessible for the need is the most important.	4. The council is already doing this.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Reduce the Council Bill for family with Autism kids, its very tough leading life without taking any benefits from council from 2017 till date. Discuss and do the needful if the Child benefit and Disability allowance on a special case perspective can be paid from 2017 till date for 2 kids	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 10	DIGITAL TRANSFORMATION	Many companies now offer digital solutions where you can access services without physical or verbal contact which makes accessing their services easier and less frustrating.	1. The respondent advised that they agree with the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	Not every generation within the area is digitally able or IT Competent. On occasion Council forms are pretty confusing - perhaps designed by a very IT competent designer with no consideration for generational abilities?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	sometimes its not overly easy to find the forms online - i.e report a missed bin collection or street lighting issue.. so if things were easier to find more people would use it. and that comes from some one who is a computer user	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Digital Transformation - accessibility and digital services	Thank you for your response. 10	DIGITAL TRANSFORMATION	I think we should be 'digital first' but not 'digital only'. We have highly trained and experienced front line customer officers: some of what they do could go online, however might it be time to review how other council services interact with their customers and transfer appropriate processes to CIS/CSC or online? And I don't think we can under estimate the importance of people having a reason to leave their house each day, be it to go shopping, attend activities or events at their community spaces, visit a library or CIS, attend appointments. 10	DIGITAL TRANSFORMATION	Digital is the way forward but unfortunately it doesn't not fit with every service user so they have to be considered. All payments in cash should cease completely and move digital. COVID has shown a large volume of places switched to cashless and everything worked fine. Cashless would streamline council services without having to count, check and bank money. Also safer for staff. Digital online when working properly saves time waiting on a phone being answered and if digital there is no room for wrong advice being given out and less complaints about staff interactions if digital so less time looking into allegations made against staff	1. 10	DIGITAL TRANSFORMATION	The move towards digital services is great - provided that they are user friendly and easy to navigate, unfortunately that is not always the case, the parent portal and young scot application process for example. These are examples of difficulties I have experienced as a digitally proficient adult. I can not imagine how frustrating it must be for older WL residents who could be forced down this channel. they are unlikely to have internet access or a suitable device. Demographics indicate that this sector of our community is growing and the council needs to acknowledge that a human at the end of the phone is still important.	1. 10	DIGITAL TRANSFORMATION	This is potentially a false economy. While your costs may decrease as a council, the cost the resident rises as they increase the amount of time trying to make sense of an impersonal service that is not as good as a human being in absorbing the variety of demand. Services need to be constructed 'manually' and based upon a resident communicating with a council member of staff, and digital technology should then be used to help that staff member make, for examples decisions or access information for a resident more efficiently - replacing people with computers will generate more costs in the long term as it risks increase failure demand	6. 10	DIGITAL TRANSFORMATION	Many people don't Have, computers, laptop's, or tablets, or even internet access on thier telephones or are able to attend the library within west lothian to access their computers, or even have the ability to use technology. So I personally think it's very important to be able to access WLC by the old fashioned way, by telephone, but even that can be difficult, as you tend to get, press this button for this service or that service, and usually get the wrong department, then you either have to do it all over again, or in most cases give up. 10	DIGITAL TRANSFORMATION	It is very important that there is always human contact available as a last resort, as many older and less advantaged people find online services impossible to interact with. There are also many services where the current online facility is sub-standard.; Council employees should be reminded that hiding behind automated systems does not give an excuse for delivering poor service, in my experience refuse collection is an example of this.	6. 10	DIGITAL TRANSFORMATION	Providing *access* to services via an online platform is an objectively good idea, but using that as an excuse to remove in-person or phone contacts isn't. Not every situation fits into the rigid framework of a web platform and sometimes it's just plain easier and quicker to speak to someone.	6. The respondent suggested an improvement. 10	DIGITAL TRANSFORMATION	Your statement, "This is often cheaper and more convenient for customers." No it is not! What is happening in this scenario is that costs are being transferred over too customers! The cost of a computer system, the cost of a broadband connection etc., etc. Unless people are given free of charge a computer system, with a printer, and a free of charge broadband connection these kinds of 'Digital Services' policy of the Council is unworkable and unethical — too many people would be adversely affected by this kind of policy. 10	DIGITAL TRANSFORMATION	This policy is going against the grain of developing 'community spirit' in communities. With everything gone 'Digital Services' there is no opportunity for people to meet others in similar circumstances to themselves — in Council building/offices for example. 10	DIGITAL TRANSFORMATION	I strongly oppose replacing humans for machines, this new profit over people narrative will only serve to throw us into some Orwellian style digital dystopia. Our species works best when interacting with one another, there are many positive aspects of computing however it should not be used as a replacement for people. Computers are programmed by people who inherently have a certain bias or agenda towards particular topics, this in turn would be programmed into the algorithm or AI by default. A machine cannot make moral choices, it can only use the logic which we have made available to it. When your sons or daughters are going to a virtual school and then have an appointment with a digital therapist or doctor afterwards im sure you would become quite alarmed. Further reading on this topic can be found in books such as " The Loop " by Jacob Ward, " Weapons of Math Destruction " by Cathy O'Neil and " The Tyranny of Algorithm's " by Miguel Benasayag.	2. 10	DIGITAL TRANSFORMATION	Agree with all above as customers are looking to access services at all times during the day and night as peoples requirements change and service requirement fits in with their work and life. Customers are receiving this type of service from other service providers and are therefore looking for a similar service from the Council and as younger people get older and start to engage with the Council, this is how they have proceeded through their learning stages and social life. Also, over the last couple of years with the pandemic, some people are looking for less in-person contact as could feel in a vulnerable position and staff have moved from in-office to hybrid (although only a pilot at this time).	1. 10	DIGITAL TRANSFORMATION	The personal service to the public in these scenarios just means that we are then becoming more of a faceless council. In person and telephone contacts are a necessity for a lot of customers in their daily lives , whether it be just a nice wee walk to the local office and break up boredom of living within own space in their house, and is good for their mental health wellbeing and seeing other people to have a chat and also go to shops etc good for the economy. If stuck in house then affects all round. Services have to contact customers about their claims for benefits etc by in person or on phone or email or by letter, so just making it online only would mean that you can just automate everything and then there would be no need for employees to deliver the service and therefore no personal service. 10	DIGITAL TRANSFORMATION	You need to have a good balance of options for customers, providing free training on IT skills might help as a lot of people are not confident in this area and if you go digital by default then a large group of people will be excluded. Given the cost of living crisis some people will be forced to give up internet services, so they need an alternative. People with disabilities often need a face to face service and must not be excluded by digital roll out.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Digital Transformation - accessibility and digital services	Thank you for your response. 10	DIGITAL TRANSFORMATION	I support the council moving to an online first model using the website and smartphone apps, but some issues are sensitive or complex where a people approach is better. Rather than reducing people contacts those people should be refocused and retrained to more complex issues and simple things should be directed to the online services. Things like homelessness, or social care should not be online first other than for 'administration' things like updating contact details.	1. The respondent advised that they agree with the proposal. 10	DIGITAL TRANSFORMATION	I prefer to talk to someone face to face than through a phone or online where they don't completely understand and I don't either.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
10	DIGITAL TRANSFORMATION	A huge section of our communities need to be connected through face to face and not capable of digital.. they need a human being to help them. Should have drop in days in communities when they know they can speak to someone face to face. Digital and online is distressing, stressful, makes them feel stupid and not able- this is not how we want our older people to feel! Dementia is on the increase and having significant impact on whole community - we all should be kind and care. Go for Dementia Friendly Villages and Services	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Digital Transformation - accessibility and digital services	Thank you for your response. 11	OPERATIONAL SERVICES	Efficiency savings can be made by reducing the number of janitorial staff in each cluster. When a janitor spends more time playing rounders and football with the kids during their breaks time than actually doing his own work this begs the question of the need for a full time janitor! Additionally when he can take time out of his working day to go for a shower again this begs the question of why he is there!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Operational services - open spaces, play areas and parks	The service will explore the opening times of primary schools and utilisation of other buildings within the Councils property estate to accommodate lets, this could minimise requirement for janitors to cover shifts from 6am to 10pm. 11	CORPORATE SERVICES	Too many over paid workers in promoted positions. It is very obvious that many jobs are already allocated even before interviews take place especially in education. School staff in many places can't even park on site and there is also zero consultation with staff on school extensions / new builds.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Corporate - council staff / terms and conditions	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
11	EDUCATION	School staff in many places can't even park on site and there is also zero consultation with staff on school extensions / new builds.	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	New builds are subject to public consultation and staff engagement in encouraged through Head Teachers.
11	HOUSING, CUSTOMER & BUILDING SERVICES	Easier to remove bad tenants who clear breach of tenancy causing more money to put right damage they caused better to have good paying tenants than bad ones causing money to repair there damage they cause.	4. The council is already doing this.	HCBS - housing stock condition and repairs	Evictions for tenants have to meet specific and demanding conditions. Housing will always begin with tenancy support and exhaust all avenues to sustain tenancies. Housing supports many customers with vulnerabilities, disabilities or even negative behavioural conditions who can be disruptive for other tenants. The council cannot choose to exclude people who apply for housing if they meet the legal requirements for applying
11	CORPORATE SERVICES	management should be looked at better as some are just figure heads and it is lower down staff that are the main contributors ; increase hybrid working i is a great idea that itself is a big saving older buildings need to go	1. 11	OPERATIONAL SERVICES	Everyone is aware of the cutbacks already made so huge savings can't be made to an already paired back service. Adaptability is all we can ask in the hope of maintaining some level of service.; As previously mentioned I now feel like I am living in a slum area where no one cares about the state of the scheme. I can't see the roadside kerb for weeds and can only walk on part of the footpath as more than half of it is covered in weeds. I can't make people care about their properties and gardens but I should be able to use public spaces which are clear of weeds and debris. Having lived in Livingston for 35 years the decline is palpable. I am not asking for new costly services but perhaps a blitz on things that were not important during the pandemic but should be given attention now	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Operational services - open spaces, play areas and parks	Grounds Maintenance services are being delivered in accordance with council service standards. 11	CORPORATE SERVICES	Posts should be advertised externally as well as internally to ensure the best candidate is found for the job rather than just handing a role to someone because they're the only option. It is detrimental to the council if they put someone in place that isn't best suited to the job. Top management tiers definitely need reviewing, too many senior staff compared to frontline officers and this is where most of the wages go to/are wasted (seniors/managers).	4. The council is already doing this.	Corporate - council structure	In order to support effective employee development, succession planning and to support reduction in costs of recruitment, adverts are often placed internally in the first instance. Where internal recruitment is not possible, then external appointments will be made. 11	OPERATIONAL SERVICES	Bins - a failed green bin rollout - who is accountable what is being done - the public are confused as half of Livingston us them and half doesn't ; Prioritising wealthy areas is clear for the public - snow can guarantee Muireston to be gritted and ploughed yet Knightsridge is left to suffer ! Green Bins same, none in Knightsridge but all delivered in Muireston; ; I have lived in both areas and the divide is clear - the council prioritise wealthy areas, which is such a backwards way of thinking	7. 11	CORPORATE SERVICES	Please review the hybrid and flexible working policy. Don't have people travelling to a building unnecessarily if they can work from home: not only is it an attractive employment arrangement, but it gets cars off the road, it's good for the environment, reduces people's spending on fuel and gives people a work/life balance. Empower managers to make these kinds of decisions.	4. The council is already doing this.	Corporate - council staff / terms and conditions	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
11	CORPORATE SERVICES	Review the recruitment process: it's so time consuming, you rarely know where your VAC Form has gone, who's signed it, has it been approved. Could this go on a CRM process flow?	4. The council is already doing this.	Corporate - staff training and performance	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
11	OPERATIONAL SERVICES	Bin collections - often if rubbish falls on the road while bins are being collected the people emptying the bins will not pick it up and just leave it on the ground, not very good for the environment considering people have put their rubbish in the bin. I also don't get why it takes 3 people to empty the community bins along the cycle path near me (one driving the truck and two to empty the bins). I do however think these workers do a great job, they will be complying by rules set by the council,	4. The council is already doing this. 11	CORPORATE SERVICES	I believe that WLC have not done enough. Throughout the pandemic, WLC had no option but to allow staff (who could) to work from home full time. More flexibility and trust was given to staff. ; Since returning from the pandemic, Majority of staff are now forced to work 40% in the office therefore reducing hybrid working and reducing flexible working arrangements. A better approach would be for those staff that can, be allowed to once again work full time at home. Buildings that NEED to stay open therefore should be prioritised to staff that are office based and any room available should be made as a hot desk system for staff who NEED to attend the office on an ad hoc basis.	6. 11	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I often feel the council needs to listen to citizens and improve mechanisms for citizens to effect decisions. For example most of East Calder will tell you something needs done about the health centre given the huge number of houses being built but the official council response is "it's fine"; ; Citizens raise concerns about lots of new houses and they are ignored even though the number of houses fundamentally changes the culture of where they live, causes more traffic issues and reduces capacity of key services. 11	CORPORATE SERVICES	<p>I also feel that we should increase flexible hybrid working hours for staff to not only support a positive work, health and well-being balance but to encourage autonomy and trust. As a community worker we pay registration fees to carry out our job role and we are well equipped and have demonstrated over the pandemic our ability to change the way we work to home working and home visits to meet the needs of the clients. Productivity has increased however the staff moral has decreased as when we have returned to the office environment it is hard for the staff to feel respected professionally and trusted when council policies and procedures such as office working negatively impact on the services we can offer to clients for financial reasoning this is not in the best interest of the staff and clients who need to wait longer to be seen. I feel that the council is a positive employer and yet when it comes to autonomy and trust staff are let down which in turn negatively impacts on the worker as they are required to commit to deadlines for cases and home visits yet have political work barriers which restrict community services from being seamless and effective.</p>	<p>1. Operational services - fleet including electric vehicles	Fleet requirements are constantly reviewed
11	CORPORATE SERVICES	An investment in electric vehicles is a misuse of Council funds. At this point in time it is not feasible considering the lack of charging points. Will Council employees then be able to access reduced electricity bills while other members of the community can't heat their homes? Is the Civic Centre going to be maintained and staff be allowed to work from home? Another waste of funds. As previously stated contacting the Council is already less than stress free.	5c. 11	CORPORATE SERVICES	2. If you use a central list of suppliers, like other councils, then I would ditch that and allow more flexibility in departments seeking best value supplies and services. I've seen first hand the public money squandered on large scale contracts with suppliers (such as print, IT, stationery, vehicles, etc). The premise of large scale contracts creating cost efficiencies ironically allows the suppliers themselves to treat council contracts as cash cows when other, perhaps more local or smaller businesses could provide the same service at a more competitive price and/or better service. Centralising costs is a false economy in many cases and wastes public money rather than saving it.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Corporate - procurement	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
11	CORPORATE SERVICES	1. Have robust job and performance reviews. It's far too easy for employees in councils to not be held accountable for their daily performance in the job, and thus they can perform well below average but remain employed and costing large amounts of money year on year through salary and on-costs. Governance should be reviewed more in line with businesses so that poor performance is addressed properly to help employees perform better or for management to take action if there is no other course. ; ;	4. 11	OPERATIONAL SERVICES	Stop allowing employees to run their engines for ages when they are idle, I have walked past many vans (especially) which are running on precious fuel and polluting my air while staff are running the A/C or heaters on breaks or waiting to go to a clients house, as a user of a council vehicle, I ensure I only have the engine on whilst driving, I put a fleece on between clients in winter. We all have a duty of care to protect the environment and our carbon footprint is pretty shocking.	4. The council is already doing this.	Operational services - fleet including electric vehicles	It is an offence to idle a vehicle and council employees are subject to the same laws in relation to this as the public. Where it is witnessed it should be reported.
11	CORPORATE SERVICES	dump flexible working arrangements, nothing more annoying than asking for someone who "finishes at two" or "only works Tuesdays and Wednesdays"; In my experience working with staff who come and go as they please, it puts added pressure on those who work are at work	5c. 11	OPERATIONAL SERVICES	The scale of the council car fleet needs to be made more efficient too. Where vehicles are for only a single driver or driver plus one passenger, to use, they should be using 1/2 seater city e cars, these require less parking space alongside being extremely efficient. Larger e cars and vans should only be used for events that either require the carriage of equipment/supplies ie community stores, or for multiple councillor use, or for visiting dignitaries, and as such should be limited to the size actually needed, not for showing how fancy a vehicle they can buy for the fleet.	4. 11	CORPORATE SERVICES	The Council absolutely needs to review the Flexible Working Scheme. The bandwidth of hours i.e. 0700 - 1800 does not suit a lot of customers. During lockdown staff were working far more flexible hours and affording customers support and services when they needed and wanted it the most i.e. evening work. At the moment anyone on the Flexible Working Scheme needs to get TOIL or overtime to work past 1800 and this is a very expensive way for the Council to do more and more of it's routine business. More and more parents are working and if they need support it has to be in the evening or at weekends when it suits them. Our hours of business suit the employees more than the customer. This needs to change - the days of 9 - 5 are numbered, we should make some services available 0700 - 2100 and out of hours should be out with these times. Adapt the workforce to meet the changing needs of the customer and put them at the heart of services.	6. The respondent suggested an improvement. Officers will consider how this could be developed. 11	CORPORATE SERVICES	Review the hybrid approach to working at the end of the 12 month pilot and allow services that can operate entirely from home to give staff the option to do so reducing requirement for office visits to a minimum agreed with each member of staff individually. Bringing staff into the office can in some circumstances have the same detrimental impact on mental health as it does to those that working from home on a permanent basis has. ; This approach would allow the council to reduce buildings which is a cost saving; ; Make best use of Teams and reduce the need for travel to meetings. This is time saving as well as cost saving interms of time away from desk to travel and cost of petrol to travel to meetings.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Corporate - council staff / terms and conditions	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

11	DIGITAL TRANSFORMATION	All good ideas but money needs to be invested in developing technology and resources that are efficient and produce the correct results. It is evident that many organisations are still struggling to cope adequately with the provision of suitable automated programmes for example HMRC online which has been around for years. ; The introduction of additional technology does reduce the work that staff need to do but when/if there are any anomalies then it creates more work and problems, particularly for the consumer/person using it and more often than not, there is no help. Phone contact is virtually none existant and even when it's in place its impossible to access. These problems are the same for most automated and digital services, so the council will have it's work cut out trying to provide effcient services which will replace capable staff. ; What will happen to all the (potentially) empty buildings that will be left? Many businesses have already closed in West Lothian leaving shuttered and derelict buildings which are an eyesore to town centres and suburbs.	1. The respondent advised that they agree with the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
11	OPERATIONAL SERVICES	Yes they should revisit the thought of investing in electric vehicles as you know as well as I know that electric vehicles will never become the norm in our society as the grid would never be able to cope with it. I also believe that Police Scotland have already panned this idea as laughable	4. The council is already doing this. 9a	FINANCE & PROPERTY	Death by a thousand cuts! We cannot go on like this.; ; Local authorities have been emasculated over the last 15 years. They cannot do what they should and need to be doing. People working for the Council are tired beyond belief of the constant litany of trying to do the same with less. Why do you think so many are taking the opportunity to jump ship whenever the opportunity presents? We are tired. We have little enthusiasm to keep on struggling on. Morale is at rock bottom and pointless exercises like this just plays into the hands of the UK Government who appear quite content to preside over a terminally in decline public sector. They seem determined to offload everything to the 3rd Sector or just let people struggle on their own. The council should not be complicit in this enterprise.	7. 9a	FINANCE & PROPERTY	You cannot make more cuts. Services are already beyond breaking point. Perhaps spending money more wisely would be the answer. For example, rather than trialling random traffic measures and changing speed limits, erecting useless bollards and adding on bits of path that increase flooding, that money could have been spent on ensuring access to road safety education or restoring some of the services that are broken.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - council priorities and budgeting	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs. 9a	EDUCATION	<p>The amount of waste is phenomenal with regards to free school meals for all children in both schools and nurseries. It certainly appears that we are becoming an entitled society and families are now expecting everything for free gratis. Nursery parents in the past were in the habit of paying £1 per week, and a high percentage of them willingly paid this plus often added extra for a toy fund. Some families however, could not afford to pay this therefore, the fee was waived. At this moment in time, children are using the nursery for up to 10 hours a day (2 and half days per week) or 1,140 hours per year with no set fees. These children are fed at five different times throughout the day plus have access to fruit and milk continuously. Please believe me when I say I do not grudge these children snacks but surely a small fee to cover the food costs would help. I would like to question how much is this costing the council???? Many nurseries are open 50 weeks of the year for the children whose parents that wish to use it but this service is not used by all thus causing an influx of staff for very few children. These staff members however still have to be paid. Surely it would make sense to introduce hubs rather than open all 50 week establishments over the summer holidays or work in partnership with private nurseries more.</p>	<p>6. 9a	HOUSING, CUSTOMER & BUILDING SERVICES	New council houses built and given to people who don't look after them, why is this allowed? who pays when they smash the windows and doors etc? Why should the people of west lothian pay for this?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	HCBS - housing stock condition and repairs	Homes are always allocated as per the allocation policy. There are occasions where there are tenancy management issues with tenants but Housing works with communities to resolve these. The Council recharges tenants for the cost of repairs which are required as a result of vandalism or negligence.
9a	CORPORATE SERVICES	you can't keep cutting staff or there will be noone left to run what you have	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council structure	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment.
9a	FINANCE & PROPERTY	As the pandemic created a great deal more remote working, it makes sense that services could possibly be delivered from less buildings.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - properties and facilities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	OPERATIONAL SERVICES	Working from home has also meant using the outdoor open / green areas extremely important. Keeping paths safe from ice or hazards is extremely important, as this would reduce health care need.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council currently provides a winter maintenance service for footpaths. This is a priority service based on risk. Footpaths with higher footfall are prioritised before those with a lesser footfall.
9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Local communities should be encouraged to use schools or council buildings not being used during holidays or weekends to support community services.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	i agree if you can empower local groups and communities to help deliver services this would help, but you must help them start this up with a little cash injection and lots of support especially at the beginning	1. The respondent advised that they agree with the proposal.	PEDR - community empowerment and the third sector	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	DIGITAL TRANSFORMATION	The help people to help themselves: this doesn't work for a lot of people. ie older generations. They rely on services and aren't confident doing online things.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Digital Transformation - accessibility and digital services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	FINANCE & PROPERTY	The review what we charge for services: I instantly think of bulky up lifts and recycling. Since this has changed there is alot more household waste getting dumped at the side of the roads.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	F&PS - council tax and charges	Reducing all charges would result in additional cuts to services as the council has to have a balanced budget by law.
9a	FINANCE & PROPERTY	there should be a review of the restrictions on spending eg over the past year (?) there was a significant budget allocated to adding art work to underpasses and bus stops. Whist this was lovely to see I couldn't help but question why this resource couldn't be redirected to areas of greater need - the need for food banks and school clothing bank is under greater, and increasing, pressure - a beautifully decorated underpass is not putting food on the table of clothes on the back of school children.	4. The council is already doing this.	F&PS - council priorities and budgeting	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The consultation is focused on recurring revenue budgets. Works on underpasses is funded by one off capital.

9a	FINANCE & PROPERTY	selling assets can only happen once then they are gone unless they are losing the council money.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	F&PS - properties and facilities	Disposal of assets that are no longer required generate a one off receipt but they also create recurring revenue savings in running costs.
9a	FINANCE & PROPERTY	These are simple options - the council should not be using limited resources to support services which there is limited demand for. If opening times, and costs of services can be reviewed it would help reduce burden on council. There is still too much reliance on the council to do things for people they can do for themselves or their neighbours.	6. The respondent suggested an improvement. 9a	FINANCE & PROPERTY	It's fine to close buildings and sell properties as long as you are still able to engage face to face with the public. With covid and working at home being suitable for many people the need for office space should be reduced. A blended approach to office based working will reduced occupancy capacity as well having less people travelling to work every day. As many people who work in West Lothian often live here too this will help traffic and air quality as well as save people money which will help with cost of living.; ; It depends on the organisations you wish to reduce funding to, if these are working in the community supporting council services then there is likely a need.	6. 9a	OPERATIONAL SERVICES	Calderwood especially Badgerwalk in EastCalder is nearly 7yrs old now, its high time for WestLothian council to take over putting proper Black Thar Gravel Road and should tell that 'Scottish Woodlands' private landscape company to stop charging Factor fees evey year its really annoying. One end pay a high council fee evey year plus Factor fee to that Private landscape company. Remember house owners are working hard cannot be sacrificing for ever the Factor fee.	8. 9a	SOCIAL POLICY	These cost reduction questions are insufficiently nuanced. A good government balances proper heath and social care for its population with taxation that supports these outcomes. We have had successive governments of several flavours who have imposed austerity and taxed the poor. Other developed economies in Europe seem to manage to serve there populace in a better way. This is perhaps why Scotland has such poor statistics for; Healthcare; Poverty; Obesity; Education; Productivity; Climate Change; Public Transport; Public Sector Housing; River Purity etc.	8. 9a	FINANCE & PROPERTY	I don't have enough information to have an informed view. What services? What buildings? What assets? When it's generic people say yes low usage buildings close them. But then you close a library in a deprived area and people get upset. ; Selling assets sounds like an immediate win for less income in future. But maybe it's a warehouse you no longer need for storing paper archives because we've gone paperless. Then that needs no longer there.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - council buildings and opening hours	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	FINANCE & PROPERTY	People pay enough in tax and should not be seeing a reduction in the services being offered by local government. As mentioned these cuts are a total disgrace	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - council priorities and budgeting	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
9a	FINANCE & PROPERTY	I would disagree with the above statement as some people cannot do things or understand how to do things if they are alone and have no family or friends to help them. I have recently had to help an elderly neighbour deal with a lot of personal issues who would have struggled to get the help he needed from social services.	4. The council is already doing this. 9a	OPERATIONAL SERVICES	Review use of council vehicles. One of our neighbour's has use of council van. Historic excuse given so he can start work early but even in schools the janitor has to go to a central place to pick up pool car. We all have to arrive at work on time to start. This seems to be a historic arrangement and I wonder how many more of them are there?	4. The council is already doing this.	Operational services - fleet including electric vehicles	The ability to take vehicles home links to standby duties or duties that may require an employee to deploy from home. 9a	OPERATIONAL SERVICES	It would be nice to see the Council spending less money every summer on seemingly unnecessary roadworks...in my mind, this looks like a last ditch attempt on their part to make sure they spend all their budget to ensure they get the same, or more, the next year. Every single year it's a melee of roadworks around West Lothian.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - roads,street lighting, footpaths and parking	All road works are co-ordinated by the service.
9a	OPERATIONAL SERVICES	One of the many things you could do is empower local areas to do parking enforcement. There is literally no enforcement in Linlithgow at all, and it could definitely be done in a revenue-neutral or even positive way. This would help tackle the epidemic of dangerous and anti-social parking here.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - open spaces, play areas and parks	The council cannot delegate powers to members of the public.
9a	OPERATIONAL SERVICES	These are very vague and therefore difficult to comment on. We did not need a 4th wheelie bin, for example.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Operational services - bins, recycling and bulky uplifts	Council is a signatory of the Code of Practice for Households Recycling which provides a national framework around service provision
9a	OPERATIONAL SERVICES	Reduce Service & The Number Of Buses Running Empty Through Livingston	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Operational services - public transport	The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation. The noted services are not subsidised by the council.

9a	FINANCE & PROPERTY	The council should have a much more robust process when initiating and signing off the build of a new asset in an individual community. Committing millions to new 3G pitches and pavilions etc. seems a complete contradiction to providing public value when the council cannot maintain existing assets in a reasonable condition across most communities. Why build one new asset and watch five fall apart, when you can spend the money repairing the five? Why build a new outdoor gym in a park, when the play area in the same park is falling apart to the point of being unsafe?	6. The respondent suggested an improvement. 9a	CORPORATE SERVICES	It has been proven throughout the pandemic that a lot of staff working for WLC are able to work from home. Productivity increased throughout WLC and has been proven also. As WLC are to make savings across all services, first priority should be to migrate all staff who were able to work from home to work from home full time. There should be a hot desk set up should staff really need to attend the office. Buildings should be closed to save money (with staff working from home full time) or rented out in order to generate income for WLC. Not only would this save money or produce funds for WLC, this would also help staff with a better work life balance as well as the cost of living crisis... but this would also help with the impact of climate change and therefore helping Scotland reach its 2045 Net Zero target. There is many positives here that far outweigh the cons. PEDR - community empowerment and the third sector	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
9a	EDUCATION	The last question, help people to help themselves...; You provide free nursery places, all day places until 6pm at night, the majority of these mothers dont work and use it as a babysitting facility!!! Providing free meals that dont get eaten? A complete waste of money on the councils part. Go back to the old system and prove theyre on benefits to qualify for free meals and make the rest pay then there might not be as much damn waste!!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	CORPORATE SERVICES	I think rather than switching off services the council should look internally at levels of bureaucracy, efficiency of processes and spans/control layers of staff. Also overtime. On any given day I have 4 council vans parked outside my house/ the graveyard doing nothing. Then they get overtime for working weekends. Council I known as an eay hig, Infuriating for tax payers!	4. The council is already doing this.	Corporate - staff training and performance	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	CORPORATE SERVICES	Remove bureaucracies eg our school parent council would happily fund the playground upkeep eg painting, installation of outdoor shelters, however due to council processes it does not support or encourage this ele yog self serve.; ; Example would be the parent council would happily fund for the repaint painting of Hope scotch, counting caterpillars etc however once touched the council would refuse to do any future upkeep , which is wrong	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Corporate - council governance and decision making	Thank you for your response. 9a	CORPORATE SERVICES	During COVID it is very evident that your staff delivered more services whilst working from home, in my street along we have half of the population working from WLC, most seem very unhappy now that they are forced to return hybrid. Why change this from homeworking when they all work more hours and are much happier with the work/life balance that you continually are supposed to support.	4. The council is already doing this.	Corporate - council staff / terms and conditions	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
9a	CORPORATE SERVICES	Cut the Council Management Structure	4. The council is already doing this.	Corporate - council structure	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment.
9a	FINANCE & PROPERTY	Council tax goes up but services are reduced as a high band council tax payer I have no street lights and no more waste collection than neighbours with older properties in lower tax bands due to house age this is extremely unfair on people who have worked and built houses in the local community.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	F&PS - council tax and charges	Council tax bands are determined nationally by the Scottish Government.
9a	FINANCE & PROPERTY	If services are too expensive people won't use them. Consider looking to see why some buildings have low usage. There are some buildings/rooms that could be used more by existing local community services/groups, which would keep services local and accessible, and provide support across the whole of West Lothian.	6. 9a	SOCIAL POLICY	I worked in social work for 35 Years and in that entire time As a basic grade worker and then as a senior manager myself and my colleagues in social work health and education always worked in ways that were always, where possible and attainable, about moving towards helping people to become more independent and able ultimately to become less dependent on public services. This question should never be part of this survey as your health , social work and social care as well as your employees should all be working to this model. As far as I can see this question is now as part of this survey to be used to cite this as a low priority cost analysis as most people don't even think about the elderly, disabled, unwell or the poor so it drops down the list of priorities and is used in my mind to justify cuts to various services. Shame on you....!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 9a	FINANCE & PROPERTY	It's hard to say when you don't know what building or services you cut or close, if the building is only half used and the people can easily move to another building to work from in the same area then closing that building could work, but not if these people now have to drive further to get there. Changing opening times again depending on what jobs or buildings it will affect there's no point in closing some early as some places need to be open late and you have to think of the people's jobs in these places they won't want there hours cut.	3. 9a	EDUCATION	Why/ I've raised this in every consultation and it has NEVER been addressed!! The cost of this each and every year must be astronomical! The old saying of look after the pennies and the pounds will look after themselves comes to mind. Look at costs such as these, rather than cut vital services. The money saved here could allow for more cleaning staff, of which there is a severe shortage. Too many chiefs and not enough Indians - there appears to be as many cleaning supervisors as there are cleaners. and yet I've had to clean and Hoover my own office for years and years!	2. Corporate - council structure	The Council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.

9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I think it is a slippery slope to ask people to run their own community services if trained and professional people would be better doing this and getting paid a decent wage which can then be taxed and generate more revenue for the economy (even if not for the council). We should not be progressively eroding our public services in this way- they are services we need to call upon ourselves. We should support them and the people who run them. I think it would very much depend what we are talking about - a pensioner's lunch club or perhaps a few libraries (at a push) might be OK, but not ALL libraries for example - we still need this skill/support in the community. And if a library were to go over to being run by the community on a voluntary basis presumably it could be shut later and permanently if there were suddenly no volunteers on hand. I think once services go or go voluntary it is hard to get them back so this should be avoided if possible.	2. 9a	OPERATIONAL SERVICES	Costs for bulky uplifts could be reduced - this would encourage people to use this service rather than fly tipping. 9a	OPERATIONAL SERVICES	Fly- tipping in the countryside is often due to tip charges for anyone that has a van. Large businesses pay to have their waste removed but small businesses (that are struggling) have no choice but to pay at a re-cycling centre or dump remotely - there is no CCTV in the countryside so then the Council receive a call and come to remove - how is that cost effective. 9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	You can't really look at the above in an overall way. You have to look at each community individually and pull together the strengths to address the weakness and for each community this will be different. For example instead of closing council properties due to low usage would there be a way to keep the building open but have groups and communities deliver the services instead of the council? Is there a way to link two services together? Are there particular hours a service is not used so reducing hours is a legitimate suggestion? I don't know, I think you need to look very closely at what is underperforming and why and how it can be made creatively successful. Think outside the box a little, look at other countries and how they deliver successful services, don't be afraid to try new approaches.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. 9a	FINANCE & PROPERTY	Our council should fight for our services. They should not agree to cut them. During Covid council services shone and now we are meekly back to accepting cuts without challenging them! Charging for services becomes inefficient and often penalises the most vulnerable. Many service charges won't get collected.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - council tax and charges	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
9a	OPERATIONAL SERVICES	In Edinburgh they charged for waste collection leading to loads of fly tipping.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - bins, recycling and bulky uplifts	Fly tipping is illegal. Charging for bulky uplifts does not provide an excuse.
9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Local should mean just that eg Linlithgow specific and not county wide	1. The respondent advised that they agree with the proposal.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	EDUCATION	From a Children's Service perspective I would very concerned about any further cuts to how we deliver services. I do believe there needs to be a review of the money we provide to other organisations to delivery services and this review should be outcomes based.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - reduce funding and grants	Thank you for your response. 9a	FINANCE & PROPERTY	Without examples of funding cuts proposed, it is difficult to analyse what you want to do. For example we all need water, sewerage and bin collection. We need roads to drive on. What kind of community cuts would be targeted? Would it be the elderly, youth or societies. A lot of people already look after services as volunteers which saves the council money, e.g. Burgh Beautiful who keep Linlithgow looking tidy and colourful. 9a	HOUSING, CUSTOMER & BUILDING SERVICES	If you provide a service but don't invest then you may as well close these. I went back to library after covid and there were virtually no new titles, stock was tired, therefore there is little point in going ergo in a few months time library will close due to lack of use. I disagree with this you should invest in what you have or close it. Don't close services by stealth.	2. 9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I have put 'Agree' to all of the above with the very large caveat of 'IT DEPENDS'. In principle looking at all these options sounds sensible but with a proper understanding of where and what the biggest impacts are and for what groups and communities. For example ceasing the delivery of services is fine if they're barely used or have a minimal positive impact. Empowering local groups and communities to deliver services is also great as long as they can deliver them properly and without bias. And so on...	1. 9a	CORPORATE SERVICES	Full implementation of working from home practices would allow assets to be sold off and the closure of some buildings that have low usage and high cost to be kept running where there are some partnership centres that can accommodate extra bodies. If more people were told that they were now working from home as opposed to that being their choice, they could apply for a TAX rebate from HMRC, thus increasing their earnings. But as employees are having the choice of whether or not they wish to work from home they can't apply for this TAX rebate. Although WFH incurs additional fuel bills, this could be offset with the TAX rebate and reduction in travel expenses and a reduction in buildings being kept open with minimal staff. Could be a win-win financially for both staff and the council and therefore the wider community if further services do not need to be cut.	5b. 9a	CORPORATE SERVICES	Council services are very important but they do not need to be centrally run in a building that could be put to valuable community use. COVID proved that it is possible to work very effectively from our homes and in many cases this greatly assisted work/life balance. However, this was not the case for everyone so there needs to be an element of choice where people do not have the space or a suitable environment for working from home. If WLC workers (if appropriate) were given options to work from home or on their own (or in groups) from a council building they may prefer this. Some people need the motivation of regularity - getting dressed for work, travelling to and from work at set times and a designated work space. Perhaps regular meet-ups with colleagues in council meeting rooms could be a requirement. These arrangements need to be reviewed regularly.	5b. 9a	OPERATIONAL SERVICES	As the services in question are not specified, it is difficult to comment. However, as we want to encourage people to use public transport as opposed to the car for all the reasons we already know about, I don't think it would be advisable to stop subsidising the local bus services you already support as these are essential to people living in the semi-rural areas, especially to the elderly and workers.	4. 9a	FINANCE & PROPERTY	Change ok but not reduce.; If help is required then help is required.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	F&PS - cost of living and support for lower income families	The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
9a	SOCIAL POLICY	Services for the disabled should be maintained, where possible.	4. The council is already doing this.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	SOCIAL POLICY	Service charges should be reduced, unfair on disabled people.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Social Policy - services for older and vulnerable people	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9a	FINANCE & PROPERTY	Broad statements they make sense but what are the key underpinnings to delivering such changes? If one building isn't well used but it provides a service to some marginalised sections of community how will they continue to be supported.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - council buildings and opening hours	The council will explore ways of delivering services and community activates in local areas.
9a	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Is there training plans in place to deliver and allow communities to take on responsibilities. How will people be helped to help themselves? Strong sustainable support for change must be visible and explained.	6. This is a positive suggestion. Officers will consider how this could be developed. 9b	HOUSING, CUSTOMER & BUILDING SERVICES	The amount of illegal parking on double yellow lines in and around the centre at Livingston is ridiculous. I know that alot of the area is not adopted and managed by the centre management but there are also significant parking issues on council grounds. Police do not have the time or resources to patrol for parking violations. This could very quickly begin to generate revenue for the council while also encouraging active travel within the area	8. 9b	OPERATIONAL SERVICES	Employ more environmental wardens who will actually give polluters fines. I have never seen a warden in all my 10 years living in livingston. They could walk around the local parks and make up their days wages relatively quickly giving fines for dog fouling alone.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - litter and street cleansing	The council currently has a small team of 4 Education and Engagement Officers who have powers to issue fixed penalty notices for dog fouling and littering. Previous experience of using officers in parks and open spaces has had limited results as members of the public only change their behaviour when officers are present and it is impossible to provide officers in every park for extended periods of time. The focus for staff has to be on the education process aimed at changing offenders behaviour.
9b	FINANCE & PROPERTY	That's a difficult question, people have less money to spend so increasing charges may bring further detriment to their overall finances	3. 9b	FINANCE & PROPERTY	Um... No!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	FINANCE & PROPERTY	Council tax could have an extra 1% added.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	HOUSING, CUSTOMER & BUILDING SERVICES	Rent could be brought in line with Housing Associations.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	HCBS - availability / affordability of social housing (inc. rent)	Housing rents for tenants on average are currently lower than Housing Associations in West Lothian. They also offer non-social rents called mid market rents which would be even higher. Bringing our rents in line with Housing Associations would cost tenants more and we seek to minimise costs for tenants and provide best value for money
9b	HOUSING, CUSTOMER & BUILDING SERVICES	Tenants should be charged when they make an appointment for a repair then are not home.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	HCBS - housing stock condition and repairs	Missed appointments will be a risk for any organisation meeting customers in their home. People can make mistakes and it is important to strike the right balance to ensure that the relationship with customers and satisfaction remains high

9b	FINANCE & PROPERTY	Continue to increase council tax gradually	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	FINANCE & PROPERTY	No none	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	EDUCATION	I have no idea what you charge for. Music tuition went from free to expensive, my child's school band was decimated! Its unfair to only have wealthy families be able to nurture their child's talents. It is apparently free again, but it ruined a very talented group of children's hopes	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	FINANCE & PROPERTY	Cost of living makes this difficult but believe there is a lot of wastage which would not be allowed in a private company	4. The council is already doing this.	F&PS - cost of living and support for lower income families	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure.

9b	FINANCE & PROPERTY	No - the public can't take much more. Increasing any charges is adding to the problem	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	CORPORATE SERVICES	They should be reduced not increased. Reduce councillors pay!!!!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Corporate - council staff / terms and conditions	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment.
9b	FINANCE & PROPERTY	No as it results in more people not using service due to cost	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	FINANCE & PROPERTY	No. Stop wasting £ on unwanted referendums and stupid gaelic road signs. Why should the people of Scotland have to pay for this when we only voted back in 2014. Stop wasting £, and put it into the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 9b	HOUSING, CUSTOMER & BUILDING SERVICES	I think the council could provide their services (eg plumbing, electrical, gardening etc)to homeowners at a discounted rate , personally it's a service I would definitely use and know of many others who would do the same. Makes sense to generate income from the services / tradespeople you already have whilst also providing apprenticeship posts, it's a no brainier and I'm not sure why this hasn't been thought of before.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	HCBS - availability / affordability of social housing (inc. rent)	This is something that could be considered if there was significant resource spare in the future. Currently Building Services is working below full staff levels due to strong competition from the private sector. Because of the laws around the Housing Revenue account any money must be spent for the betterment of tenants.

9b	OPERATIONAL SERVICES	Maintenance of the Environment, Open spaces - increase weed control, decide which areas of grass need cut and which don't, increase grass cutting frequency to those areas that get cut to reduce amount of grass left lying. Sweeping of road channels to remove detritus/ weeds, use of technology for emptying litter bins and evaluate the need/ location for them. Increase litter picking and community involvement. Issue with public seeing litter lying about their community but a lot will be on private ground and not the Councils responsibly currently but makes areas look unkept. Should the Council litter pick all areas that are of public concern within the community to help enhance the look of areas. The same with flytipping. Doing this would have additional financial implications for the Council but would improve the publics perception of the area. Public not aware of whether area is public or privately owned and tend to just believe it is all the Councils responsibility. Additional powers to deal with flytipping/ littering etc which requires government backing/ changes.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Operational services - litter and street cleansing	The council is currently reviewing grass cutting and weed management and are developing strategic plans aimed at improving biodiversity and reducing the use of weed spraying chemicals. The council is also in the process of replacing its fleet of compact road sweepers with sweepers of a higher specification. The new sweepers will be able to remove detritus and weeds growing in roadside channels. Th council cannot remove litter or fly-tipping from private land as the council doesn't have the resources, staffing and budget, to provide this service. It is a landowners responsibility to remove and/or prevent littering on private land. The council is currently working wit other local authorities and other partner organisations to encourage the Scottish Government to increase fines for fly-tipping and to increase local authorities powers.

9b	OPERATIONAL SERVICES	Not sure but I feel that employing people to fine offenders of dog fouling and fly tipping could make you an absolute fortune!!!	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - litter and street cleansing	The council currently has a small team of 4 Education and Engagement Officers who have powers to issue fixed penalty notices for dog fouling and littering. Previous experience of using officers in parks and open spaces has had limited results as members of the public only change their behaviour when officers are present and it is impossible to provide officers in every park for extended periods of time. The focus for staff has to be on the education process aimed at changing offenders behaviour.
9b	FINANCE & PROPERTY	It's a difficult ask. The cost of living crisis is affecting everyone at the moment and to increase charges to residents is not always the answer. Better use of council funds should be looked at first.	6. The respondent suggested an improvement. Officers will consider how this could be developed. 9b	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	No. I think the Council should invest in more tourism areas in which they can charge for which would bring in more income to the Council in the long run. There are many areas which would be perfect for this. We continue to allow housing companies to build lots of houses and we could be asking them to invest by creating or funding these areas reducing cost to the Council for building and then the Council would be able to charge visitors.	1. 9b	HOUSING, CUSTOMER & BUILDING SERVICES	A lot of houses have really unhealthy gardens. Broken down fencing. Old bags lying about which they don't bother to clean up. Maybe this happens already but send a couple letters giving the charge for cleaning if they don't then charge for it.	4. The council is already doing this.	HCBS - housing stock condition and repairs	Housing staff complete annual checks of gardens on a schedule during the spring/summer months. They will also respond to reports made by other tenants or members of the public of any issues. What can happen is that many council estates have properties that have been bought by Tenants under the now ended Right To Buy and the council is more limited in what it can do with these customers.
9b	FINANCE & PROPERTY	With fuel prices and bills at an all time high we can't ask for more money	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	F&PS - council tax and charges	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
9b	HOUSING, CUSTOMER & BUILDING SERVICES	housing benefits should be paid direct to council not customers this will reduce rent arrears - customers abusing council property should be made to pay for repairs	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	HCBS - housing stock condition and repairs	Housing Benefit is managed directly by the council and is not paid to tenants and is paid to directly to their rent account. Universal Credit rules are set by the UK government and allow customers to receive housing costs direct to them.

Operational services - bins, recycling and bulky uplifts	Fly tipping is illegal. Charging for bulky uplifts does not provide an excuse.
9b	OPERATIONAL SERVICES	Debatable. There seems to be a large uptick in fly tipping since WLC closed the Deans Recycling Centre. Doesn't really bode well with the "Green Revolution" or "Climate Emergency". The costs to fund workers to deal with this fly tipping surely outweighs the cost of operating a recycling centre? I briefly worked in this field and we sold the scrap wood, cardboard, metal etc. The only real burden was plastic. Surely this potential income could help offset the cost of running the centre? I already know some poorer families who cannot afford a rubbish uplift from the council and don't have means of transport to go to the Oakbank recycling centre.	7. 9b	OPERATIONAL SERVICES	Local recycling depots - The one at Oakbank is fantastic, the staff there are incredibly helpful. Perhaps introducing a low costing annual fee for access, maybe giving everyone a pass to keep in their vehicles? For example £12? Something small enough to not cause a huge dent in someone's pocket but enough to generate some income to be put to good use?	6. This is a positive suggestion. Officers will consider how this could be developed.	Operational services - bins, recycling and bulky uplifts	Thank you for your response. 9b	SOCIAL POLICY	<p>I'm not sure if the NHS comes under this remit or not, however I think it's ridiculous that people who can afford things such as painkillers can get it free through the chemist if painkillers have been subscribed. From my very limited understanding, I believe due to contracts etc, if through prescription, it costs the NHS substantially more than it would cost an individual to purchase themselves.; With that in mind and the fact that administrating my suggestion comes with cost too, I propose a "shift" in how people get their medication. For example, any medication under the cost to the public of £10 (providing it isn't a regular/repeat prescription), be asked if they would like to pay for it or have it under minor ailments, rather than automatically giving it for free. I think if there was a cheap enough way to communicate and demonstrate the potential cost savings of this (perhaps in your council newspaper you do or an email campaign) that people will now be asked if they would like to pay for their prescription for these reasons, you will hopefully see a shift in the awful entitled mindset us Brits have. The reason I say ask is because I assume administrating who is and isn't entitled to free medication I understand can be costly and serve to be a nuisance to pharmacy staff. I currently pay if it's under £10 and not a regular medication because I believe the NHS funding is strained as it is. I hope that highlighting this as an option and the reasons for it will help shift the mindset for those who can afford it.</p>	<p>8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.</p>	<p>Social Policy - GPs, dentists and other health services</p>	<p>Thank you for your response. 9b	OPERATIONAL SERVICES	Sanitation/Rubbish collection/recycling.; Whole streets in Craigshill cannot get access to the blue recycling bins. green recycling bins and brown garden waste bins due to the streets not being included in the route of the bin-trucks. This is a disgrace that in 2022, I cannot recycle anything that comes through my home, particularly since the recycling center is on the outskirts of livingston and is not in a walkable location. If you don't have access to a car, you have no option but to use the grey landfill bin.	1. The respondent advised that they agree with the proposal.	Operational services - bins, recycling and bulky uplifts	The council has a programme to improve recycling provision and better facilities will be provided in Craigshill.
