5	OPERATIONAL SERVICES	The greenspaces in the town are not well maintained. When the grass is cut it is left in piles like hay fields and the edges are not neat. It is left so long when it is cut it is still a mess. I travel around Scotland to other council areas and I am always impressed how neat they keep their green spaces and verges. An instance - at Whitbun galaday where the show park was - people were having to wade through long grass to get to the show park. Another instance at Reveston Lane where a temp council site was set up. It has now gone but it has taken them about a month to start to tidy up the mess that was left. If you can call strimming all the grass and leaving it lying tidying up. It would be pure cheek to fine anyone who has an untidy garden when they have left this mess.;	4. 5	FINANCE & PROPERTY	West Lothian Council spends far too much of their budget centrally on the Civic Centre and Civic Centre bureaucracy rather than on frontline services. As I work in West Lothian but live in another local authority, this is very apparent. There is too much wastage, 'hand shaking' and money spent on schemes that have no demonstrable impact on citizens (but the data will be manipulated so that it looks like it does). I am glad that I moved out of the authority and am frankly worried about how these new cuts will be applied in the education sector (as it is already stretched to bear breaking point).	4. 5	HOUSING, CUSTOMER & BUILDING SERVICES	Police keeping control of people setting fire to the woods every summer along the Murieston walks. Plus drunken youths causing damage. Social care for the elderly.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	HCBS - police, fire and other partners	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	FINANCE & PROPERTY	Poor school facilities with no access to the full curriculum for those with wheelchair disabilities. Schools need to be full DDA compliant to ensure ALL children can access their local school without the school needing to be upgraded.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.	F&PS - properties and facilities	The council provides accessible schools, however the nature of some of the older schools means that costs are prohibitive. All new schools meet this requirement. There are accessible schools in every council ward.
5	HOUSING, CUSTOMER & BUILDING SERVICES	Anti social behaviour. Council needs to address all of the above and a whole lots more. That's just the top of the iceberg.	4. The council is already doing this.	HCBS - crime and ASB	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	OPERATIONAL SERVICES	Many issues with refuse not being uplifted in the specified day. So many bins on the pavements that people with pushchairs, wheelchairs and walking aids have an assault course to dodge on an almost daily basis.	4. The council is already doing this.	Operational services - bins, recycling and bulky uplifts	Routes constantly monitored to reduce the impact on communities of bins remaining on the street

5	OPERATIONAL SERVICES	Little or no maintenance to pavements and roads. Little litter picking only done on the Main Street at shops area and no where else. Council are reliant on volunteers looking after green spaces and litter picking. Councils should be creating more jobs for local people for these tasks to be carried out which in turn will help the local economy.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - litter and street cleansing	The council provide a street cleansing service to all communities covering all areas. However, the service is delivered on a priority basis with focus being on areas of high pedestrian footfall such as town centres and areas around secondary schools. The council don't rely on volunteers, however the efforts of volunteers do support the council service and the council are working in close partnership with voluntary groups to improve the environment.
5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Lack of basic infrastructure, health care, pharmaceutical shops, transportation, dental care. Houses being built with out the necessary infrastructure being in place first.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	PEDR - infrastructure, community building and services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

5	OPERATIONAL SERVICES	On first moving to Livingston I was very happy to live here. Not anymore as the place has gone down hill due to the significant reduction in services. I constantly refer to the place as a complete tip. That and the fact that I am charged a fortune for council tax that to me Although I pay it I do not believe that it provides any thing like value for money. I am often asking myself what do I pay council tax for..; So fed up of ;ooling at wast grounds that this council refers to as 'wild meadow land'. The amount of weeds , nettles dockl leaves etc have truned most of those uncut areas into wastgrounds simler to those I sued to play in in Edinburgh a a child in the 60's... All that is missing are the derilict buildings. Most paths and areas where I walk my dog or cyle are unkempt and extremely overgrown with trees, bushes, fields of nettles and weeds crowing into the paths.. Some are unusable for more than one person at a time. If I raise this the council I am constanly fobbed of with it's the cuts you know...? 5	OPERATIONAL SERVICES	In order that we might tackle many of the issues during tight fiscal times, we should be cutting back on the expansion of unnecessary projects such as cycle paths which in turn would save countless expenditure on hiring temporary traffic lights etcetera. Projects such as these should be pursued at times when councils are running with a huge surplus and not now. Furthermore The Council should be looking to ensure that whoever proposed the 20mph speed limit in the area should be removed from their position due the exorbitant cost of firstly erecting these signs then removing them and lastly putting back up the 30mph signs. Has this cost been examined ?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - roads,street lighting, footpaths and parking	Government legislation will be changing to introduce 20mph in urban areas

5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	My family and I are becoming more and more concerned about the amount of Housing and other development taking place in and around Livingston. One of the main reasons that I, my friends and neighbours moved to Livingston was that it is a very green town. Slowly but surely however, housing and other development is encroaching on and reducing our green spaces. People need access to green space for their mental and physical wellbeing and in the interests of the environment we don't want to be forced to drive to access it. This type of development has an impact on wild life too which I think we too often disregard; we are as a community constantly eating into their habitat. Lastly, I think we should leave road verges to grow wild to encourage insects; this in turn will encourage and increase the number of birds and other creatures that live off them and enrich our town and it's wildlife. If we were to spend money on wild flowers for example and plant them on road verges instead of diesel for the grass mowers the place would be far prettier and environmentally friendly.	6. 5	EDUCATION	Having access to affordable childcare. There is a crisis in Winchburgh just now, as despite the council approving thousands of new homes and encouraging families to move to the area, there is absolutely no access to after school care. The current after school club is at capacity, and despite 3 new schools and a leisure facility being built, has no space to expand. There are 104 P1 pupils - 4 P1 classes at Winchburgh Primary School alone this year. With Holy Family PS moving to the other end of town, childminders now have to choose which school to cater for as pick up at both is now impossible, and therefore reducing the number available to parents. Current Holy Family pupils already with a space at the after school club may be asked to use a taxi to get to the after school club - at a time where we are all being asked to cut emissions and with the impacts climate change is already having, this is ludicrous. Surely this crisis could have been foreseen? Why is it left until the summer before the new term that these issues are raised? Appalling planning.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Education - wrap around care	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	EDUCATION	For me the provision of quality, pre and post school childcare is vital to me being able to retain meaningful employment. It's not a luxury - it's entirely necessary. The situation in Winchburgh, where there is no childcare after school (except for a small number of children already attending Little Flyers) is unsustainable in a growing village/town. The solution needs expedited.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations. 5	FINANCE & PROPERTY	To have equal opportunities as other surrounding villages/towns. At present WLC base funding on the size of a community I feel this is wrong. This is actually unfair and possibly discriminating smaller villages. This says if you live in a bigger town/ village then you have scope to achieve more exciting projects and have an actual chance to make a difference. You also have more facilities to benefit from to add to the ones they already benefit from, attend and access a multitude of different services as the funding for larger communities is way higher and has the scope/potential to make a difference in the community. Where smaller communities have to think small and even if funded will still have to fundraise in order to make any difference. Our community has one of the lowest crime rates and is a nice place to live but is does lack in ammenities. Our kids deserve the same recreation/opportunities as other areas but they won't get it as funding will NEVER meet the costs involved for them to stay at their doorstep, no our community has to go elsewhere for everything even education! Currently funding also based on out of date population figures for our community.	4. The council is already doing this. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	A lot of new houses built but they seem to be aimed at the top of the market - often too expensive for local people, to be able to afford. People born and brought up in WL are unable to stay in the area. What affordable housing is built is usually of a much smaller size and in the least desirable parts of the estate, immediately making the new owners feel like they are inadequate. Developers know how to fulfill the Council/Scottish Government's requirements to provide more affordable housing to the minimum extent, in order to get planning permission for more expensive (bigger profit) houses.	8. 5	EDUCATION	I have already. West Lothian adult education opportunities are poorly served unless you want to go to Livingston to the college - when people get in from work the last thing they want to do is get on a bus or drive for 30 mins then find there are no parking spaces available. It also add to climate challenge having everyone travel using carbon.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - schools, curriculum, attainment and positive destinations	Officers to review opportunities for access to adult learning
5	OPERATIONAL SERVICES	I would like to see an improvement on Public transport. Not everyone drives but still have to get to work and feel safe when walking in in isolated areas where there is poor walkways and no public transport. I have to walk from the bus stop I get off in rain, snow and dark mornings and nights and don't feel safe.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

5	CORPORATE SERVICES	Stricter rules on pubs from serving alcohol late into the evening would help, I have witnessed a number of serious assaults on the High St including a bar man getting glassed & his arms broken in an attack, on the evening of the Marches 2022.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Corporate - licensing and events	The Councils role is to administer the licensing schemes subject to the legislative requirements relevant to it. It cannot regulate the circumstances at an event. All licences are subject to conditions but enforcement is a matter for Police Scotland and concerns about the manner in which an event is operated should be directed to them
5	EDUCATION	More provision must be given for Teens+ in the town. There are so many playparks but from ages 8+ the provision falls off a cliff, which is leading to youth crime & anti social behaviour.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - youth and community activities	Thank you for your response. 5	OPERATIONAL SERVICES	2) Safe Travel & Provision. Widening of the High St for Pedestrians and dedicated Cycle path running through would help. The entire town is only 2.5 miles from extreme-extreme. There is no need for anyone in the town to drive a car to the centre or rail station, if safe provision is given. It's miserable that my child can't cycle to school for fear of cars & traffic.	4. 5	OPERATIONAL SERVICES	A focus on safer routes around the town (not in a car) would also help. In Linlithgow currently, you need a car to get safely to the Cricket Club or Leisure centre for example. But if you don't have a car (which all youths under 17 don't have and only those with some cash 17+ do have) you are stuck in the same location, leading to boredom/anti social behaviour. Or worst social isolation, turning into phones, social media and no exercise leading to health problems such as obesity. Safe travel provision would help alleviate this and providing public facilities for the lost & forgotten ages of 8-17.	4. The council is already doing this.	Operational services - active travel (cycling and walking, etc.)	Working with partners on active travel projects
5	OPERATIONAL SERVICES	Linlithgow needs a skatepark, pump track or the cycle track to be created to give other activities.	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council is supporting the Linlithgow Development trust is providing a cycle track and other amenities at Kettilstoun Mains, Linlithgow.
5	OPERATIONAL SERVICES	1) Pollution & Car/HGV Traffic. High Street in Linlithgow is being held back by the sheer volume of traffic and it's use by huge HGV Traffic from companies based at the West of the Town in the retail business parks. HGV's travel through the town centre to access the motorway. This damages buildings, roads and makes the High St unpleasant for pedestrians who are there to spend money. A safer, more pleasant High St would increase rent values = more income for the council.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities. 5	OPERATIONAL SERVICES	There are many positive things. Suggestions for improvements on topics most important to me. Public transport or good active travel links to access existing West Lothian services and facilities. For example, to get to Beecraigs Country Park from Livingston you have to walk/cycle on a road uphill with blind bends/summits with 60mph road traffic, or, bus/train travel via Edinburgh and Linlithgow. 5	CORPORATE SERVICES	8. Working life. For the first time in many tyears I had to go to dentist for treatment during the working day. I had an early morning appointment at 9.30 am. This meant I missed first period at work, I was back in work for 10am. This was put in my work record as a medical absence. I fidn this unfair, as a worker I cannot get the same treatment as others who do not work and are in fact prioritised higher than me for medical care. An example of this is that i was working through lockdown as a teacher, I was meeting people who had mobility issues who did not work, yet were given the Covid Vaccination months before I did , a teacher wirking with classes of pupils everyday.	7. 5	HOUSING, CUSTOMER & BUILDING SERVICES	The social housing demand in West Lothian is at an all time high, the council currently have new build site throughout to accommodate this. There is a massive failing in the councils current housing stock as there is very little maintenance carried out on their properties. Housing Repairs are eventually carried out when tenants report them but as a social landlord with a duty of care to all tenants the council should be keeping up to date with the condition on all the housing stock which they don't. This is something that seriously needs looked at and improved as some of the housing fall well short of the SQHS standards , the failure to maintain and upkeep properties to building regulations and standards shows this is not priority for the council when it comes to housing. If this is the case why are tenants not allowed to buy council stock and off load the burden from the council providing more money for new builds.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	HCBS - availability / affordability of social housing (inc. rent)	<p>The council completes around 100,000 repairs to council homes each year and has a continuous capital programme focused on upgrades. As well as this the council supports the government delivery energy efficiency programmes.</p> <p>Right to buy is not controlled by the council it is set by the government. However allowing tenants to buy homes creates shortfalls and impacts on homelessness so is not preferred</p>

5	OPERATIONAL SERVICES	The lack of any Lothian bus is outrageous. Yes a bus from Lanark passes once an hour but it starts after 8 and finishes at 5pm. Absolutely no good if you are working or if teenagers need to travel. Even if a Lothian bus came once an hour after the Lanark bus stopped then that would be helpful. The lack of a shop is a huge issue, especially since the only premises for a shop currently sits over the main A71. The cars do not travel at 20 or 30 mph through the village so this is dangerous for children or oap's to get to but is currently unoccupied anyway. A shop on the main side of Breich or a crossing installed would also be helpful. I understand that Breich is a small village but new builds are being put up quickly and there are currently no services to support this. Breich, the forgotten village of West Lothian.	4. 5	OPERATIONAL SERVICES	Transport is very important to our small village, as we seem to be forgotten about regularly pensioners and young mothers with small children need a regular and reliable bus service, we now find we are often left stranded by the time the bus gets to breich we can't get on as the village of fauldhouse have already taken all the seats, this means another hours wait before the next bus appears, surely fauldhouse has an adequate service as has addiwell loganlea etc, people in breich could be going to their doctor dentist etc, even young ones depend on this service to get to work if you are unable to drive, I really think the council should take this on board and realise the hardship it causes our small village, I await to see the report and see if this is taken on board, seems a small matter but believe me this is a very important matter to our village.	4. 5	OPERATIONAL SERVICES	Road traffic needs to be tackled, high volumes of noisy and polluting traffic is affecting the well-being of the community.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - roads and parking	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	OPERATIONAL SERVICES	Public transport is not sufficiently adequate to upkeep the fast growing housing developments which are being planned and constructed without the adequate infrastructure in place.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
5	FINANCE & PROPERTY	In addition, these housing developments are also destroying green spaces and the countryside. With climate change and well-being high on the agenda the countryside should be protected and preserved.	6. The respondent suggested an improvement. 5	HOUSING, CUSTOMER & BUILDING SERVICES	Seafield is a relatively quiet wee village with just a few village idiots, so that is accepted in most villages across the UK. Every village has its idiots. The village is rife with Cannabis smokers. Stench can be quite powerful! I would like to see more done about the ***** who drive through the village at 60 miles per hour (no exaggeration). Police apparently stated that there was not enough deaths or injuries to support their input to give more pro-active support. (our local Counsellor will probably confirm this attitude from the police). It would be good of police were more pro-active with the idiots who use motorbikes and quad-bikes on Seafield Law and assume they own the whole Nature Reserve, and us dog-owners should move out the way for them. I never do and never will. The Nature reserve is enjoyed by lots of people who do not need these idiots Arrogant *****.	8. This suggestion is out with the responsibility of West Lothian Council. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	East Whitburn is a small community that has existed for hundreds of years, people identify with the history and there is a strong community spirit. Recently the Scottish Government overruled West Lothian council with a planning application to build 104 homes in a green field site. This will severely diminish the community relationships and destroy the small village feeling. There have been several meetings in the community hall to discuss the impact of the development and the general feeling that one person with no relationship with the village made a decision on behalf of the government without taking into the feelings of the community or Council. It's outrageous that this can happen and is an affront to democracy	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work. 5	FINANCE & PROPERTY	Climate change is probably the most important thing affecting all of us - but we don't know how it's going to change things. Sustainable transport links are essential but almost never built in. Even the new town of Winchburgh is being built entirely around car use - they say a railway stations will be built but the E-G line is already at capacity so any Winchburgh station (if/when eventually built) will only reduce the service from Linlithgow. 5	HOUSING, CUSTOMER & BUILDING SERVICES	Public safety is a big concern to me. I live in an area with a pub and main throughway path that is busy all day. There are drunks fighting on the street, dirt bikes driven up and doesn't the footpath and unsafe structures in the street. Many, many houses here have young children who play on this path and we have the worry of bikes and drunks. They are subjected to witnessing brawls and arguments on a regular basis, something no child should witness. We are all terrified one or more of them will be hurt or run down. There is a cluster of shops and the pub with high activity and antisocial behaviour. We would benefit from some form of cctv in the area (Deans) (as, I believe, there used to be). Police get called and come out but no real, long term prevention is put in place by the council.	8. This suggestion is out with the responsibility of West Lothian Council. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	I feel right now there's a huge concern about the amount of house building going on with what looks like no end in sight.; Our young people need affordable homes, what we don,t need is more five bedroom villas which are generally only afforded by those moving up from down south or those moving out of Edinburgh. These massive building developments slung on the side of villages like East Calder don't bring anything positive to the local (east calder) community, I know a half dozen Calderwood householders and most of them have never set fot in the local scotmid , been to the partnership center , heaven forbid there kids go to the primary school!; People don't fear change, they don't speak up because they fear the name calling that follows.	8. 5	FINANCE & PROPERTY	The most important parts of the community are all the points being raised on a daily basis by media - cost of living, etc - I understand this is largely enforced by weak / terrible politics / politicians. However when it comes to the community politicians should work together to improve the community and not their individual view point - therefore for the community I would like to see councillors work better together to improve all aspects of delivery for people	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - cost of living and support for lower income families	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	EDUCATION	Investment in education establishments in village needs to be equitable across the schools and not weighted to one or the other (based on performance). Education is the key to addressing many of the issues in my community and this is simply not supported enough across the educational sites.	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
5	HOUSING, CUSTOMER & BUILDING SERVICES	Essential to tackle the antisocial behaviour plaguing the village. This is linked to poverty, deprivation and lack of opportunities. Resulting poverty and deprivation leads to social issues of petty theft, drugs and alcohol. In turn leads to educational issues (lack of engagement etc) which leads to social issues as cohorts age.	4. The council is already doing this. But council want their full pay from council tax but your local councils are not doing job correctly or any pride in doing the job with correct equipment. I have photo/video evidence on this. Clearly my kids could do better job - local areas falling apart - outside kerbs and paths grass growing, cutting grass but leaving dead grass on top - what's the point in cutting it if not picking it up. Fences need fixing/repairing. Security doors need fixed. 5	OPERATIONAL SERVICES	Reliable public transport with adequate quality bus stops If we want to achieve a greener and more sustainable community in Pumpherston and all over West Lothian, then reliable public transport infrastructure is vital in achieving sustainability and de-centralising car dependency. Currently, Pumpherston's bus stop is in shambles—graffiti, scratch marks, hole punching, and tampering with paper copies of the bus timetable make the overall user experience unpleasant. For those in my community who travel to Edinburgh to work in the early hours of the morning (most of whom are social care workers, domestic assistants, or shop managers), it is difficult to arrive at work on time as buses are either cancelled, delayed, or just unavailable.	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. 5	OPERATIONAL SERVICES	Another important issue which was brought to my attention is the speed limit along the only road which cuts through Pumpherston. For some time, West Lothian Council implemented a 20mph speed limit, which was recently removed. Cars, lorries, vans, and motorcycles speeding through Pumpherston can be quite a problem for children, teenagers, or the elderly to cross the street safely. Let alone that a growing population in West Lothian means more automobiles out on the streets, I can only imagine the noise and pollution those living by the major roads may experience. The period when the 20 mph speed limit was implemented definitely helped with boosting confidence in crossing the road and reducing noise pollution. If the council aims to transform into a sustainable and green town, this aspect ought to be explored in more depth.	4. The council is already doing this. 5	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The most important thing to me is having a proactive Council who try and make things happen. Not everything is about money. It is about prioritising and working proactively to solve a problem. Being engaged with communities. Not just through poorly attended community councils filled with old people but actually getting out and chatting to people - have street stands, go door knocking, have creative engagement activities, ask people to come up with ideas that can be put in place. So that's what is most important to me, having people within the Council thinking creatively about solving the problems. It's why you are employed. Get better cross-department working going, and most of all get better engagement going. Get to know the communities you serve. Sitting at a desk sending out a survey is not engagement.	6. 5	OPERATIONAL SERVICES	The council should restore commercial waste collections to remove the scourge of large wheeled containers outside of shops. Some these containers may well be able to be stored behind properties but some areas do not have facilities for hidden storage so bins are outside shops. Bathgate the neighbouring town is a prime example of the shoddiness of large numbers of bins on display. I'd like West Lothian Council to be the 'Leader in Local Community Pride' but sadly they fall short of this and all the properties listed in this survey don't give me more that anything will improve in the future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. 5	HOUSING, CUSTOMER & BUILDING SERVICES	Living in Whitburn I have noticed there is a massive increase in anti social behaviour. I fully understand that there is a large increase in the local population due to the continuing growth in the Heartlands project, this is putting a massive strain on the available facilities in and around the Whitburn area including leisure facilities, Whitburn has very little to offer the young people within the town and therefore the consequence of this is the young people are gathering in and around the streets, the local parks and becoming bored with the lack of community support other than football. At King George V park we are seeing young people gather for drinking sessions and lighting fires within the tree areas very close to the local petrol station.	6. This is a positive suggestion. Officers will consider how this could be developed.	HCBS - crime and ASB	Thank you for your suggestion, we shall pass this on.
5	OPERATIONAL SERVICES	The park itself has a skate park and when monitored can only be described as a serious accident waiting to happen, this skate park can only be described as a skatepark for no more than 4 young people at any given time therefore making it a worthless waste of council money. 5	EDUCATION	Sports clubs and opportunities for participation across all age groups are most important for me. They provide spaces to support mine and my child’s mental and physical health. They bring together people from all areas of the communities and provide spaces to be to help mitigate potential anti social behaviour. They also provide opportunities for training and learning of transferable skills that benefit people seeking employment. You can volunteer and gain huge experience through a sports club. During the summer they have also provided holidays programmes with funded places and food for those who require it. Sports clubs allow for intergenerational learning and engagement with real and honest transfer of knowledge. 5	OPERATIONAL SERVICES	West Lothian particularly Livingston, continues to be a shamefully dirty and litter strewn. There are places where it is obvious litter has lain for years. Individuals (like me) and groups attempt to clean up but feels like a losing battle. I am embarrassed and ashamed when people visit from abroad. We are constantly told, "mental wellbeing, mental wellbeing" so you go out for a walk, and wish you hadn't because of the litter blight everywhere. The place is a real S**hole in may places. Never in the environs of the civic centre; interestingly!	4. The council is already doing this.	Operational services - litter and street cleansing	Thank you for your response. 5	OPERATIONAL SERVICES	One thing that is an issue is car parking space. It is terrible at Granby Avenue, Howden. Car's parked at corners, or grass verges etc. especially at the entrance to Granby Avenue. Obviously, a lot of household have a car or two and current space is restricted. There is several grass area's that could be used to accommodate the need for more parking space. ; It's also a safety issue as in a car you can struggle weaving in and out the street avoiding parked cars and cars leaving, the chance of a Fire Engine getting through would be difficult and heaven forbid if it couldn't make it in time and lives are lost. Same applies to an ambulance. Definite need for more parking spaces to be created.	4. The council is already doing this. 5	SOCIAL POLICY	Employ better care companies. Ones that don't employ school leavers and those with no life/medical experience. In the last year an ambulance has been called on 3 occasions and none were necessary. Its an abuse of the NHS and its just to cover their own backs, they are not interested in previous medical history, this is what 1st class care tell their 18-20 year olds to do when patients vomit once! and maybe have non-urgent urine infection. In fact there was no urine infection which was as I told the carers. I am my Dad's primary carer I have cared for him for 8 years and have a very good medical knowledge after working in the NHS for 40 years. 5	SOCIAL POLICY	<p>Social care services are very important to me, my husband and our son who is severely mentally and physically disabled and who also has autism. He accesses Eliburn day services, an excellent service provided by the council, five days a week. This is an essential service for vulnerable adults like our son who also has underlying health conditions. At Eliburn he has regular physiotherapy sessions and there is a nurse on the site. All the staff are well qualified and highly trained and provide an excellent service on a daily basis for all service users. Pre-pandemic the staff provided a variety of in-house activities and carefully researched outdoor activities that could be safely accessed and enjoyed by the service users. During the pandemic the staff were able to open up the service with all the necessary cleaning protocols, staff wearing all the appropriate PPE and with social distancing in place. Although service users were restricted to a couple days each week this was a most welcome development and it is a testament to the staff's implementation of all safety protocols that the service never had to shut down. ; Our son's mental health was seriously affected by all the changes to his usual routines caused by the pandemic. Fortunately he benefited through the help of the specialist doctor and staff at Eliburn. Now that restrictions are being eased and Eliburn day services are getting back to a more normal delivery of service this is great news for all service users and their families who see Eliburn day services as a service essential to their continued health and wellbeing.</p>	4. 6	CORPORATE SERVICES	These are the right commitments but funding restrictions cannot allow them to be upheld.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Consultation is important, but there needs to be a balance between personal points of view of the residents and the broader understanding of the situation from the Council. The Council and the Public should work together and respect each others part of the process to ensure that funding is spent democratically (i.e. there has to be compromise that everyone signs up to) and with the greater good and sustainability in mind.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	we need proper youth and children's work along with community activities and ownership	6. The respondent suggested an improvement. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	The council needs to address it's non redundancy policy.; Giving older members of staff the ability to retire early with compensation for there years of service. Making savings on many salaries paid.	4. The council is already doing this.	Corporate - council staff / terms and conditions	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	The council's three commitments should not replace staff with volunteers. Volunteers will become overburdened and you will risk services falling into disrepair. WLC is already slated on occasion for the services it provides; this should not simply be passed on to unpaid volunteers to look after.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	PEDR - community empowerment and the third sector	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

6	FINANCE & PROPERTY	How can we provide a service when our staff are under threat from these cuts. Service manpower have been cut to the bone how can we provide a service with less manpower. The council expect the same service with less manpower in the end something has to give either mentally or physically. With these cuts more pressure and stress is being put on the employee.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	F&PS - council priorities and budgeting	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	FINANCE & PROPERTY	As you outsource all the jobs to companies outwith West Lothian, you cannot seriously commit to any of these.	4. The council is already doing this.	F&PS - reduce funding and grants	The council's best value framework determines whether services should be delivered internally or outsourced. The majority of council services are delivered in-house.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	true community empowerment would involve building capacity of community organisations to run stuff themselves with support from council staff but committees/ community councils and other committees can barely get members to join- this needs explored.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. 6	CORPORATE SERVICES	very difficult to connect with people unless they are complaining - not always willing to come forward with what really matters until it goes wrong - then left with the views of a minority ; ; it is very restrictive working within the current environment therefore empowering staff is not going to happen unless its to empower them to take the blame when that 1st councillor comes along because they want what they want and it gets overruled by senior management. Empowering communities to make decisions and take action sounds a bit like off loading services that we can't fund or staff properly	2. 6	FINANCE & PROPERTY	Cost of Living needs to be kept in line with wages due to everything going up and through the roof, if everything comes to a stand still due to the cost of fuel prices, then everything will get worse for everybody, what we need is the Marginal Propensity to Consume Basic Economics, someone with not very much money needs to be able to afford to spend the money that they get, in order to create a need for other jobs and services that are required, through the spending of this money and therefore keep the economy moving, if this breaks down, we break down and then the Country comes to a halt, therefore the UK Gov needs to pass on the proper Barnett Consequentials to the Scottish Gov in order for Councils to give pay rises above inflation and pass on proper funding to services in order to run a proper service, as trying to run them with one arm tied behind your back will only lead to Health and Safety Breaches and higher Staff Sickness through ongoing monetary pressures. Cuts have been across the board for an already massively underpaid workforce in comparison to all other council's across Scotland, with workers plying their trade in the exact same roles. For the council to continue making cuts and to deliver on promises to the community, the workforce will be fully expected to raise and meet standards in even more trying conditions. The workers in return must feel valued and have an incentive to continually meet these standards, at the same time still being able to manage to pay their bills and have a life outside of their work, to create a more physically and mentally balanced home/work life.	6. 6	CORPORATE SERVICES	Great commitments. What a pity you won't meet them. You didn't listen to the electorate who voted more SNP councillors than any other. The elections were NOT Independence v UK. People were voting for party policies. Labour supporters did not vote for Conservative policies, just as Conservatives didn't vote for Labour's policies. West Lothian voters wanted roughly 45% committee representation by SNP councillors, 36% by Labour and 12% by Conservatives. The current and previous West Lothian Council committees are not representative of the electorate. The STV voting system is a design for proportional representation. All decisions should be made proportionate to the votes of the electorate. Local democracy has nothing to do with the constitution. What a pity the elected representatives from Labour and Conservative have denied the electorate the council we voted for yet again. West Lothian Council do not fairly represent their citizens. That is not democracy!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Sound fine in principal - but don't actually give any detail to what this actually means. 6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	You say these things, and then ignore the reply.; We as a community Objected to the new housing, and you put in anyway. Its not affordable housing, its private housing with a few token affordable homes squashed in. I am in a private house, I don't need affordable housing, but many many many people do, and you let them down. Now there is no green space. You are building on our space for the gala day, the football Park, and have destroyed the Country Park surroundings. There is nowhere to walk in nature with my dog. I have a displaced badger living under my garden shed!!!!!! You should be ashamed of yourselves. You have trampled roughshod over the residents, and wildlife of East calder.	5d. 6	OPERATIONAL SERVICES	On a personal level my street has had problems with bin collections. I have complained several times. I have asked a few times for response on the report it app and not had any. Within the last few months I spoke to someone in the call centre about it and asked for a call back which should have happened within 5 working days. It didn't, just as I expected. I was told that if I didn't get a reply I should call back and if then get a result within 22 working days. (seriously!). I didn't bother to call back as it seems a complete waste of time. The question is, though, who is checking if these requests are followed up? Are those who should be following them up falsely ticking the data base box to say that have done it and no one is following up or are there no checks at all? It gives a really poor impression of your organisation.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. Politicians and community tend to focus on wanting more - the reality is that less will be provided in the future and the council needs to put in place a mechanism for making more difficult decisions as nobody seems to be making them. Engaging, empowering, and prioritising are not measurable, and do not relate to direct action and physical changes to community infrastructure and facilities etc. Proclaiming vague 'vision' 'commitment' 'principles' etc. has no real value to the public, Particularly if these terms are frequently changed and updated to no actual effect on what's being delivered. It's more council public relations statement. The general public recognise this, and such vague aspirational statements do not help the public perception of the council. 6	OPERATIONAL SERVICES	Shouldn't need to have commitments on basic care for the community, just do it. Shouldn't need a survey to identify areas that are problematic, take a drive through the towns, pretty much all neglected, putting up signs and planting shrubs doesn't work if no one maintains them.	4. 6	CORPORATE SERVICES	How to you intend to facilitate these 'commitments'? How will you engage with communities? How will you empower people and communities? etc. As a WLC employee I would like to see funding for professional development and professional memberships. I'd like to see funding for CPD outwith the Council's intranet-based modules. As a member of a professional body, I am required to keep up to date with my CPD, and WLC currently has declined to support me with this - in my previous employment, the organisation very much encouraged staff to develop their knowledge and skills, and this was reflected in the high quality of work produced by staff.	2. 6	FINANCE & PROPERTY	We need a fairer distribution of funding between the towns in West Lothian. Linlithgow and Livingston seem to get the biggest share which is rather unfair, as all residents deserve to have modern amenities. We all pay council tax. The above statements are fine but are there equal funding opportunities available to all the towns such as Armadale?; Even in libraries, certain towns have bigger shares of budgets for books than others, so residents of these towns have a greater choice than if you live in Armadale.; Armadale's population increases every year but there are not many, if any, new amenities for the community to use. 6	CORPORATE SERVICES	The above commitments need to be seen in practice asking already underpaid and demoralised staff to go the extra mile after repeated kicks in the teeth is really quite cheeky. A lot worked throughout the pandemic at risk to themselves (me included) and we were treated like fools afterwards I can currently see the fall out of all this with the high level of staff vacancies causing a heavy load on the public purse as council services are being farmed out to private contractor instead of sorting the core issues of pay and conditions.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Corporate - council commitments	The Council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.

6	EDUCATION	Empower? The executive committees in the civic centre have no care, no empathy and no understanding of the challenges that frontline staff are facing. In 5 years of being employed within the education executive, I have never once seen anybody from the executive committee visit the school. Even during COVID when I volunteered to support the provision of childcare for key workers (potentially putting myself at risk) the visiting education executive staff spoke to the head teacher present for no more than 10 minutes before leaving. That attitude sums up the council for me. Too much ego, too much self importance, too little humility. The 'buzzwords' above are hollow and meaningless in actuality.	7. 6	OPERATIONAL SERVICES	The Council has just added a new bin to the local park which talks to you! It seemingly cost £4000 which is a total waste of money. The speed restrictions to 20 miles an hour caused confusion and frustration to motorists and probably increased the air pollution due to cars driving slower in lower gears. The traffic management added (e.g in Linlithgow) to allow social distancing was unnecessary and is an eye sore.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Operational services - roads,street lighting, footpaths and parking	The 20mph speed limits have been removed and the footway widening outcome will be decided shortly. 6	OPERATIONAL SERVICES	WLC is lacking in delivering of services with the recent changes of recycling. Having recycling (plastic) picked up once a month is forcing our family to put recyclable materials in the grey bin as our green bin is full. The thought that went behind this was very poor, several people had multiple blue bins as they would recycle often, with paper not being the major material. Now people have multiple bins that they dont need, causing more waste to pick the extra blue bins up and have them disposed, and add an extra strain to provide additional green bins as 1 per month pickup is far too little. This was a cost saving exercise that ended up wasting tax payers money, the blue bin should have been kept for plastics and the new one for paper. As most interventions are "impact" based our most vulnerable children in mainstream are being ignored, have little support and teachers are getting stressed trying to meet all the needs and it is hifding the real needs of the council. The council brags about the new Schools built but there is no provision within these for our ASN pupils who require individualised curriculums or services. 6	CORPORATE SERVICES	WLC do not connect, empower or deliver at present so anything would be greatly received by the residents.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
6	OPERATIONAL SERVICES	I sometimes feel that connect doesn't work. It is difficult to have a meaningful conversation with some departments such as traffic and planning. There is a script that defines and answer and the individuals seem unable or unwilling to discuss things beyond what is written in some script or process book. As an example I raised a request to clear a pathway on the main Pumpherstons road. I was told the council hadn't adopted the path. This made no sense to me as it has been cleared by you before, is the main thoroughfare and has been there for decades rather than some new build estate. I queried again and got the same answer with no willingness to discuss or offer ways to move forward. Very very frustrating.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Operational services - roads, street lighting, footpaths and parking	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Connect & empower only work where you are genuinely open to listening & changing priorities based on what you hear; to commit to this priority you must be genuinely open & committed to this, even where it does not align with initial plans. WOC must do more to actively engage & connect with communities, using modern digital & traditional in person methods.	1. The respondent advised that they agree with the proposal. 6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Straight up. Exactly how it should be. People need to become more self reliant and community focused and take ownership. This promotes respect of one's community and if there are opportunities for children to start in too then it grows with them. We need to know we can rely on being able to ask for things when needed ie maintain public spaces but many things are only a bus trip away if the service is there. If there is a contact to discuss and make requests it doesn't have to boil down to slander and arguments. We can work it out if we work together and overcome the recession looming which will allow the economy to recover and rebuild a stronger future for Scotland.	1. The respondent advised that they agree with the proposal.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. 6	CORPORATE SERVICES	WLC staff need to be aware that their responsibility to the community doesn't just end with the specifics of their job, and there needs to be a quick mechanism for them to pass any observed concerns on appropriately. eg a council employee engaged in grass cutting sees the result of fly tipping as they travel to their grass cutting job (for grass cutter, insert social worker, teacher, admin assistant, driver, any council worker) - how easy is it for them to report this? In other words, an employ who works with one WLC service who sees something wrong that should be sorted by a different WLC service should feel the responsibility that their organisations needs to act.	4. 6	FINANCE & PROPERTY	The council needs to balance the budgets of today whilst considering the needs of tomorrow. I get it. There are also population issues currently with a large number of elderly people and not enough of us to pay what needs to be paid. I get that as well. But what will happen to those who are economically active now and trying to raise children to be decent citizens in the future? We deserve and should ask for proper education and care for our children - to enable them to be economically active citizens who also engage in their communities. How do we create this virtuous circle? I do not think we create it by underfunding this generation who will have to battle increasing difficulties - economic and environmental - whilst at the same time thinking about fairness and equality for all.	4. 6	CORPORATE SERVICES	They are meaningless words, the proof will be in actions taken/implemented and the evaluated impact that they have on communities. I'd like to see public consultation events take place in communities to hear the publics views on where they live day in day out and what works and equally what doesn't, what's required or not-followed by an action plan, published for each town, and then an evaluation regularly to see what progress is taking shape. Fine as a cost-cutting measure and for speeding up decision-making. I just hope it doesn't dilute the quality of those decisions or lead to inconsistencies, which could make the whole process actually more protracted and costly.; Deliver - if 'prioritising' means those issues with a greater frequency of request get the bulk of the attention and funding, then others with just a greater need but less in number may feel that are being ignored. 6	CORPORATE SERVICES	All good but costs need to be controlled	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	Agree with them all	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	I think these are commendable and look forward to seeing them being delivered.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	FINANCE & PROPERTY	How can you 'deliver' by suggesting that services will be further stripped on top of WLC having already stripped out valuable community services over recent years? The suggestion of 'delivery' and service strip out are clearly mutually incompatible.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	F&PS - council priorities and budgeting	Thank you for your response. 6	HOUSING, CUSTOMER & BUILDING SERVICES	You don't empoweranti social behaviour is constant3 warnings and then evict let them private rent .It should be in black and white if they are evicted due to THEIR anti social behaviour they will not get re housed or emergency accommodation as its self inflicted. The gardens and properties are not even dealt with again the contract or tenancy agreement can state if you damage YOUR property we will repair it but you will pay it back by increasung your Rent if it happens more than 3 times we will prosecute for criminal damage unlessYOU can prove otherwise.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	HCBS - crime and ASB	The council does and should follow the law in all circumstances and the laws around eviction are very clear. This can be frustrating where another household has impacted on yours. There can also be elements which you may not be aware of like mental health problems or other vulnerabilities which the council is required to support
6	CORPORATE SERVICES	Please listen to what the locals in THAT town are saying, not just broad brush across West Lothian	4. The council is already doing this.	Corporate - council commitments	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
6	CORPORATE SERVICES	I will love the council to carry out all of the above commitments to the best of their ability.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	OPERATIONAL SERVICES	If that was actually the case then one particular disabled resident wouldn't still be trying to get a barrier widened that prevents access to a mobility scooter almost 8 months later. The usual council PR speak.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 6	OPERATIONAL SERVICES	Transport links are important for people trying to work or trying to get into work. It's also important to pensioners as it's the gateway to getting out and mixing with other people.;	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
6	CORPORATE SERVICES	This sounds like a good idea.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

6	CORPORATE SERVICES	Yes i agree with these. However when you say promise it needs to mean just that. Too often promises are not stuck to and excuses are made for that. You need to now work hard to win back trust in the council. There is now no time for a lackadaisical approach, which we have had in the past. People's wellbeing and health is at stake and council members need to show they have empathy and can walk in the shoes of those who are living very close to the poverty line. Please adhere to the promises you are making.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. 6	CORPORATE SERVICES	At the moment you have a reputation of consultations such as this one doing little to empower and connect as the responses are largely ignored. This consultation needs to not be the tick box exercise it has always been in the past. Please make sure that this time round you do connect, empower and deliver and please listen to your community when they have suggestions and don't just push them aside.	4. 6	FINANCE & PROPERTY	Yes these are correct HOWEVER, when you say promise, you need to stick to that. All to often the council has promised things in the past and these promises have not been kept and lame excuses have been made as to why this is. I think as a result trust in the council has gone down. You need to now make sure you adhere to the promises that you make and not break them. A growing number of people in West Lothian are facing lives close to or are in poverty and at times I don't think think this is fully realised or bothered about. Now is the time to make sure that budgets are used wisely and sensibly on things that make an actual difference as opposed to things which are easy but make minimal difference. When people who live and work in West Lothian have suggestions for improvements, please listen to them.	6. The respondent suggested an improvement. Officers will consider how this could be developed. 6	CORPORATE SERVICES	Can you commit to all three when Scottish government dictates how much you spend on these each year? Is there scope for change if you require additional support within the council let alone the Scottish government as a whole or are you tied to a bench mark spend according to how much spending you get, even if additional staff/resources are required?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Corporate - council commitments	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
6	CORPORATE SERVICES	They are good commitments but will be easier addressed if the staff are working in their offices than from their homes. Not all residents have electronic gadgets or know or want to learn how to use them or trust them. Are paper copies available for these people. The more responses the better fir your survey.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	Feedback, too often consultations are one way conversations, there is no feedback.	4. The council is already doing this. 6	OPERATIONAL SERVICES	Follow through on what you promise! Public transport is still terrible	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
6	CORPORATE SERVICES	Does the council really have enough staff to empower or deliver West Lothians services .. Im not sure they do.	4. The council is already doing this.	Corporate - council commitments	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Not sure the planning dept really want to connect or listen to communities they only want to listen to developers.	4. The council is already doing this.	PEDR - infrastructure, community building and services	Thank you for your response. 6	CORPORATE SERVICES	In theory this is all admirable but will be hard to put into effective practice. Staff are being asked to take on more and more tasks as numbers are decreasing and not being replaced, we are constantly fire-fighting, becoming exhausted and demoralised, fighting hard to keep enthusiastic. In the end this, regrettably, means that quality of service deteriorates. In my own department I see so many people suffering from work-related stress whilst trying hard to provide a good service - it's a high cost to pay - and we are all people who care, work hard and willingly 'go the extra mile' but this can only be sustained for so long.	6. 6	FINANCE & PROPERTY	As said previously. However, I do feel frustrated that some areas have budgets that may be over egged from previous years budgets and I see them 'using it up' so that next years does not get cut. Then there are areas that are stretched and cutting services when the sensible thing would be for these funds to be held and looked at carefully when required by someone other than the people who have always managed to fully spend them in order to ensure they are not cut in the following year. An example may be items of furniture being replaced when not all the items are actually broken but maybe old. Would we replace it if we had to pay it out of our own pocket.	4. 6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	communities not always the best to decide what is right : may be selfish	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	PEDR - community empowerment and the third sector	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	OPERATIONAL SERVICES	I am not sure that services are really accessible by public transport for people in Linlithgow. During COVID, fir example, many elderly people were expected to travel to other parts of WLC for vaccines etc. It was easier to attend other council areas and health boards for vaccines eg to Falkirk. Something that might help folks would even be a taxi rank so that they can get to other parts of the town from the station or High St without having to prearrange this	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

The info below outlines the Third Sector's approach and calls on the Council to support this. Vision - A Council-wide strategic vision for engaging with and investing in, West Lothian's Third Sector that is developed by March 2023, with the sector and delivers on the principles of the Christie Commission: People; Partnership; Prevention; and Performance. Partnership - Build true partnerships, based on equality, trust and mutual respect (not a contractor/supplier relationship) and engage with the local Third Sector at the earliest planning stages to maximise the unique input of partners who are closest to our communities and understand their needs. Investment - Increase investment in West Lothian's Third Sector and our communities, through multi-year funding, in recognition of the extensive added value that the Third Sector uniquely delivers. Prevention - Increase expenditure on early intervention, to increase positive outcomes, by prioritising preventative approaches to improve health and wellbeing and relieve pressure on statutory services. Empowerment - Invest further in local initiatives that empower people, communities and organisations, by building their capacity to design, deliver and sustain their own solutions that encourage ownership and innovation.</p>	6. This is a positive suggestion. Officers will consider how this could be developed.	PEDR - community empowerment	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

6	CORPORATE SERVICES	I agree with the statements on connect and deliver, however we elect councillors and empower them to deliver the best outcomes for our communities.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	Look good but the necessary resources must be made available for communities to play a major part in ensuring that each community has a meaningful voice. Consultations must be relevant to each community and NOT one size fits all.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	I think these are good proposals. Community engagement is important to understanding what services are required.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Yes but informing the public is pretty poor find out about stuff after its decided lack of consultation social services that is carers have a thankless task paid poorly and the service is not good lack of communication seems to be a major problem you cant deliver a good service without sufficient staff to do the job training also important to deliver good services	6. This is a positive suggestion. Officers will consider how this could be developed.	PEDR - employability and jobs	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	CORPORATE SERVICES	They might be right - but it's the wrong people making the decisions. Your only going to engage with us if you feel it's really important - not correct. It's our money you are spending we should have more of a say in how it's spent. People who don't live in the area deciding for people who do.;	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 6	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Your staff should be consulting with local groups - we decide what should be spent.; I wouldn't trust you spend any of our money or make decisions as you have proved so many times that you can't make them - you don't make decisions for the people you make them for what suits the council and it's not right and generally wrong.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	PEDR - community engagement / community spirit / community wealth building	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	DIGITAL TRANSFORMATION	How about checking the council is run efficiently and your not wasting money - are your people working the way they should? Are you getting a good deal from your suppliers? Using technology to save money - like emails to save postage - don't squander the money you have on people that don't work or waste money being over charged. Is what you are paying for worth it? Re-surfaced roads shouldn't have a new bump in it.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information. 6	CORPORATE SERVICES	I agree with you commitments. However, the results of every other consultation see to be no change, rather a continuation of existing practices. This may be a wrong perception on my part.	1. The respondent advised that they agree with the proposal.	Corporate - council commitments	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
6	OPERATIONAL SERVICES	I would like to see the environment and nature being given more consideration and the promotion of habitat. Councils have been too influenced by the Victorian notions of public spaces and need to develop a new perspective. The creation of roadside verge natural plantings to support wildlife would be a small step in the right direction.;	4. The council is already doing this.	Operational services - open spaces, play areas and parks	The council delivers its grounds maintenance service to approved service standards. The council is currently reviewing its services standards to improve maintenance activities and to improve biodiversity, greenspaces and habitats throughout West Lothian.
6	OPERATIONAL SERVICES	Public transport is essential and supporting initiatives that are reliable would be welcome. Many West Lothian College students from this area often experience difficulty in getting in on time as buses don't turn up.;	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.

8	EDUCATION	The Pandemic has changed what should be WLC's priorities. Poverty is the biggest issue for most people with the rise in the cost of living. This must be tackled first. Poor, cold and hungry children will not learn in school. That must be tackled first, and before they reach primary 1. Everyone's health is suffering. The attainment gap will not be improved within the next few years. It is impossible. Secondary schools must expect their new first year's to have learned less than Curriculum for Excellence levels suggest. That's not a problem, they can catch up before they leave school. Colleges and Universities have to expect the same. The students will not have covered as much as previous cohorts, but the able children will still learn and reach the necessary standard by graduation. Trying to "catch up" within a year will only result in more mental health issues for children.	2. Your comment will be forwarded to the relevant council officer for consideration.
8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	Followed by protecting the natural environment. It seems that houses are springing up all over West Lothian on green belt land to accommodate people wanting to move out from Edinburgh. West Lothian is turning into the Scottish equivalent of Kent whereby Londoners were selling their house , at massively inflated prices , and moving to cheaper new build houses in Kent and banking the profits.	6. 8	EDUCATION	Positive destinations for children sounds great but is actually schools trying to improve their statistics and their position on the league tables. Schools force young people in to a "positive" destination, they do not think through what the young person actually needs, wants and can achieve. I know many children that have been coerced by a school to take up a college place - that is not always a positive outcome for the child but it is a positive destination for the school. Educators need to be realistic. It is ok for young people to fail exams - it really is - it teaches them life lessons, however this does not look good on a league table and the young people are pulled from the course without being given positive encouragement to "try their best". failure is a part of life and should be taught at school too.	5c. 8	CORPORATE SERVICES	The priorities pretty much cover anything the council could/should do. As such, I'm not sure how they function well as telling public what the council's priorities are. There more a slightly more detailed level of commitment statements. They would have to be prioritised numerically themselves and published as such to function as identifiable priorities. The priorities do function well to group underlying projects and objectives etc.	1. The respondent advised that they agree with the proposal. 8	OPERATIONAL SERVICES	A great deal needs to be done to address the litter/ fly tipping situation in Livingston. Schools have started to take a bit of responsibility but they need to be more involved as the mess around them is ridiculous. Also, I would have thought it was part of the janitors job to clear litter around their own premises, this is not being done in most establishments. Riverside Primary and Beatlie in Craigshill being 2 examples.	4. The council is already doing this. The phrase is a cop out as it really means they don't immediately become unemployed on leaving school. Education in Scotland is below standard compared to the rest of the UK. There is a reason the exam grades need to be a grade higher for entry to uni if using a Scottish exam - you can only learn so much in one year, so you've not really learned much at all	5c. 8	PLANNING, ECONOMIC DEVELOPMENT & REGENERATION	FINANCIAL CURCUMSTANCE HAVE CHANGED AND PRIORITIES CHANGE WITH THIS. IF THERE IS NO EMPLOYMENT ON OFFER THERE IS NO FUTURE PROSPECTS FOR THE SCHOOL CHILDREN WE ARE EDUCATING. THE MONEY THEN SPEND ON SCHOOLING WILL MOVE ELSEWHERE AS SCHOOL LEAVERS MIGRATE TO OTHER AREAS FOR EMPLOYMENT OPPORTUNITIES.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	PEDR - employability and jobs	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	CORPORATE SERVICES	Too difficult to prioritise.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Corporate - council priorities	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	CORPORATE SERVICES	It is difficult putting these in order as some will directly affect others for example if there are better paid jobs in WL then this will improve the poverty cycle.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	EDUCATION	Education are the keys to helping communities to deal with poverty in the longer term but in the short term it is vital to assist people with poverty measures, particularly at the current time. All other things will hopefully flow from tackling education and employment.	1. The respondent advised that they agree with the proposal.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	SOCIAL POLICY	Social services help for older people is terrible with the council often asking the client for a contribution towards any rehab. This is terrible and gives the signal that older people aren't worth spending money on. There are no other facilities other than the Ability Centre for people with brain injuries and this is age limited. People are only offered facilities that cater for dementia sufferers which is detrimental for someone recovering from a stroke . People need to be offered free rehabilitation to give them chance to live their best life.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Social Policy - mental health services	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	OPERATIONAL SERVICES	Please, improve transport!	4. The council is already doing this.	Operational services - public transport	The council is currently reviewing its Passenger Transport Strategy. The council currently subsidises 20% of the local bus network. The remaining 80% is provided by the commercial market and therefore the council has no authority over its operation, however the council has formed a partnership with local bus operators and transport partners with a view to improving public transport links in West Lothian.
8	EDUCATION	STOP giving school children lunches you would even eat yourself and forcing the to eat vegetarian meals when they are NOT vegetarian. Who even eats fishless fingers!	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.

8	CORPORATE SERVICES	I was not able to change the priorities! I selected for the first one and it prefilled the rest....which indont agree with.	9. The respondent made a comment on the survey question	Corporate - comment on the survey	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	These are all important areas and it's difficult to rank them in any order, however there's clear links over time to alleviating poverty, education and improving outcomes and crime. However many of the root issues are cultural/societal and not purely down to areas the council can tackle. That said, we must be there for those with the least in terms of hope, finance and wellbeing. These must be crucial areas of focus.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	I think many of the above options are equally inportant and it's impossible to prioritise.	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	EDUCATION	If, by "improving attainment", you mean continuing to insist on schools being forced to work harder to rise up 'league tables' then you clearly do not understand what is happening in schools nor do you care very much about the reality, as opposed to the appearances, of school education. What is the absence rate for teachers? How much is this costing WLC?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. Your comment will be forwarded to the relevant council officer for consideration.
8	CORPORATE SERVICES	In a perfect world all of the above would receive equal priority and in some ways it is pointless to improve attainment for young people if there is no environment for them to inherit	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	CORPORATE SERVICES	It wouldn't let me change these but actually doesn't matter what iml fill in here as data is fudged to make the council look good.	9. 8	CORPORATE SERVICES	All these priorities are very important, it's extremely difficult to label them 1 to 8	1. The respondent advised that they agree with the proposal.	Corporate - council priorities	Thank you for your statement, the council proposes to use all responses to the consultation to support the review of priorities and commitments
8	SOCIAL POLICY	From my position I do not see any improvements in any of the above..To be fair I am no longer involved in using many services but I dread the day that I might need health and social services as I get older. My 8year contact with the NHS and local GP has been woefully inadequate but that is for me to take up with Primary Care Board and the NHS and has dramatically affected my mental health and ability to endure eight years of chronic pain then to be told that "oh you will need a full hip operation". On that basis I see absolutely no benefits for me in relation to 'Improving the quality of life for older people' / 'Delivering positive outcomes on health'..In what way does this council actually fulfil those particuar committments and deliver positive outcomes on health' / or 'improve the quality of life for me as an older person'..? I would be extremely interested in a response to that question..	8. This suggestion is out with the responsibility of West Lothian Council. 8	EDUCATION	Unless the schools get the support staff they need to actually make a difference to a childs education, attainment is just a number. I know kids that spend hours on their phones in class because of learning barriers and the schools just can't cope. They have not been coping for years and 'attainment' is reduced to just the number of kids attending school.	4. The council is already doing this.	Education - schools, curriculum, attainment and positive destinations	All schools receive an allocation for pupil support workers and other support staff.

8	EDUCATION	Too much focus on attainment in schools and not enough on skills development. Too competitive in schools with regards grades/measuring attainment and not in enough on the quality of learning; not enough focus on wellbeing in schools. I work in a school where the Home Economics kitchens are ancient and crawling with bugs but not replaced	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Education - schools, curriculum, attainment and positive destinations	Thank you for your response. 8	HOUSING, CUSTOMER & BUILDING SERVICES	We need more Police & a better Neighbour Hood Watch Scheme so Family don't live in fear or have Property damaged because Drug Dealers think they rule the Area & can Bully anyone they want. Normal Adults don't allow their Kids to take Drugs with them or Smoke Cannabis. Carers should be Drug tested weekly when they are Caring for Vulnerable Elderly & Disabled folk in the Community it's absolutely disgusting & completely wrong!	8. 8	CORPORATE SERVICES	These are some suggestions which have taken me approximately five minutes to consider but I am certain they are only the tip of the iceberg and savings such as these could be redirected towards Health and Social Care which is massively underfunded (cuts to groups-Moderate to Intermediate need), including rehabilitation af addicts. I have started and finished from the same point as the parent of a child who died from the scourge of addiction and who cannot believe that as a community we see more benefit in erecting cycle tracks to tackling this issue. Finally can I ask if there are any West Lothian residents whose lives have not been affected by this problem whether through family issues or disruption to their daily lives ?	6.
