

Beecraigs Country Park, Public Toilet Refurbishment

Parks & Woodland secured grant support from the Rural Tourism Infrastructure Fund to refurbish the existing Balvormie toilet block and to create a new public toilet block in the Lochside area.

- **Balvormie toilet block have now reopened.** If using the facilities we would appreciate if you could click on the QR code provided on the poster outside the building and give us your views; thank you in advance.
- The unused building close to the **Lochside car park** will be replaced with a **new public toilet facility**, incorporating 2 gender neutral and 1 disabled toilet, which will greatly assist in alleviating pressures across the Country Park. **This facility will open as soon as possible.**

We hope to cause minimal disruption to visitors during these service improvement works and public access will be maintained around the construction sites.
