Subject: MIR - HLv73

Bellsquarry and Murieston Community Councils have jointly prepared a detailed response to the West Lothian Development Plan Main Issues Report, which you will either have already received or will receive very soon. However, subsequent to the preparation of this response, Bellsquarry Community Council became aware of some errors in the Report relating to the established housing site HLv73, Calder Road, Bellsquarry, to which we should like to draw your attention.

1. This site was included in the West Lothian Local Plan (2009) as a site for 5 houses. In the MIR settlement statement for Livingston the site is correctly described as a site for 5 houses (p.155), but in Appendix 1 (p.194) and Appendix 2 (p.210) 10 houses are allocated to it. Appendix 3 (p.223) again correctly describes the site as for 5 houses.

2. In the settlement statement (p.155) the site is also incorrectly described as having been granted planning permission. No planning application has yet been made for this site.

We would like these errors corrected at this stage before they find their way into the finalized Development Plan.

On behalf of Bellsquarry Community Council,

Yours,

[REDACTED] (Planning Secretary)
