

# West Lothian Local Development Plan Main Issues Questionnaire

FOR OFFICIAL USE ONLY

Unique Ref No: MIRQ0118

Date: 16 October 2014

Submit by Email

Print Form

West Lothian  
Council

The council has commenced preparation of its first *Local Development Plan* (LDP). The LDP will replace the *West Lothian Local Plan* and will set out a local interpretation of the requirements of the *Strategic Development Plan* (SESplan) and national guidance. The LDP is a land use plan that identifies site specific development opportunities, sets out the council's key development priorities and provides the policy context for the consideration of applications for planning permission.

The current *West Lothian Local Plan* was adopted by the council in January 2009 is available to view on the council's website at <http://www.westlothian.gov.uk/WLLP>

The *Main Issues Report* (MIR) for the West Lothian LDP is the first key stage in the preparation of the LDP and we are seeking your views on this. All documentation for the MIR can be viewed at <http://www.westlothian.gov.uk/MIR>

Full details on the timetable and stages for preparing the LDP are set out in the Development Plan Scheme 6 which is also available online: <http://www.westlothian.gov.uk/article/2725/Development-Plan-Scheme>

A questionnaire to accompany the MIR is set out below and we would be happy if you would complete and return to us.

There are 98 questions that accompany the *Main Issues Report*. You do not have to respond to all of the questions set out only those which you feel are of particular relevance to you. Completed questionnaires should be returned to us by e-mail to [wlldp@westlothian.gov.uk](mailto:wlldp@westlothian.gov.uk) by no later than **5pm on Friday, 17 October 2014**.

Alternatively, please download a copy of the form and send it to us at: Development Planning, West Lothian Council, County Buildings, High Street, Linlithgow, EH49 7EZ (postal address only).

You can keep up to date on the LDP by subscribing to our LDP e-newsletter. If you have not already subscribed, you can do so by going to the following link and following the relevant instructions:

<https://newsletters.westlothian.gov.uk/eNewsletterPro/optin/optinealert.htm>

Name		<input type="radio"/> Mr <input type="radio"/> Mrs <input type="radio"/> Miss <input type="radio"/> Ms <i>(please tick as appropriate)</i>
Organisation <i>(where applicable)</i>	Clarendon Planning and Development Ltd	
Postal address	Exchange Place 2 5 Semple Street Edinburgh	
Postcode	EH3 8BL	
E-mail	info@clarendonpd.co.uk	
Telephone	0131-306-0115	

Please note that any comments you make will be open to public scrutiny, but we will keep your contact details private and confidential and will only use your name or business name.

## By filling in this questionnaire you are helping to shape the future of West Lothian

It would also be helpful if you would complete the *Equal Opportunities Questionnaire*, set out at the end of this document.

### Local Development Plan Vision Statement

*By 2024 West Lothian's population will have grown and an improved employment position within a more diversified local economy will have been established. It will be better connected by road and public transport and will have a greater choice of housing and an appropriate range of education, community, health, retail, recreation and leisure facilities and a network of green spaces to meet the needs of its growing population. Development will take place in a sustainable way that protects and improves the area's built and natural heritage assets, meets the challenges of climate change and renewable energy and helps regenerate deprived areas and improves the quality of life for people living in West Lothian.*

#### Question 1

Do you agree with the *vision for the LDP*, or, are there other aspects that should be considered?

YES     NO     Don't know

Do you have any additional comments?

*The West Lothian Local Development Plan 'Vision Statement' is supported and in particular, the importance of West Lothian in relation to the Edinburgh City Region.*

*As such, allocation of sufficient housing land is crucial, both in terms of deliverable sites which can contribute to the effective land supply and facilitating well considered urban growth for the medium to longer term growth of West Lothian's towns.*

#### Question 2

Do you have an alternative vision, and if so, what is it?

The aims of the *Main Issues Report* and Associated Main Issues are set out in pages 13 of the MIR.

#### Question 3

Do you agree with the proposed 'Aims' of the LDP? If not, why not?

*With specific regard to 'Main Issue 3', LDP aims are supported in terms of the need for the Council to, "provide a generous supply of housing land and provide for an effective five year housing land supply at all times".*

*The provision of land for housing and the timely release of that land to enable building of homes is, arguably, one of the key elements of the West Lothian LDP.*

*In providing a generous housing land supply the Council need to meet obligations set out within the approved SESplan and associated Supplementary Guidance in terms of addressing both periods 2009-19 and 2019-24.*

#### Question 4

Do you have an alternatives, and if so, what are they?

## Main Issue 1: Economic Development and Growth (paragraphs 3.1 - 3.31)

Which areas of West Lothian would be best to direct new economic development towards?

How can the LDP support the council's *Economic Strategy* and facilitate the creation of jobs?

### Preferred approach

The council's *preferred approach* to employment land is to review the range of uses which could be accommodated on employment land with a view to accommodating a more flexible approach. This flexible approach will involve removing the single user status of two large sites (Linhouse and Eliburn in Livingston), and allowing a wider range of uses on currently allocated employment sites at locations to be identified in the LDP. Such an approach, for example, would apply to certain traditional employment allocations and industrial estates such as East Mains Industrial Estate, Broxburn and Deans & Houstoun Industrial Estates, Livingston and at Whitehill and Whiteside Industrial Estates, Bathgate and Murraysgate, Whitburn reflecting the broad range of uses which already exist at these locations and to allow for other employment/commercial orientated uses to be accommodated e.g. car showrooms, trade centre outlets and certain leisure uses.

The LDP will continue to support development of existing employment allocations, including sites within the core development areas, and support the servicing of employment allocations to assist in attracting inward investment. New employment land allocations will also be identified to supplement and in some cases complement the existing supply, including a new strategic employment site at Balgornie adjacent to the recently opened Junction 4a on the M8 at Whitburn.

In addition, the LDP will seek to encourage small business development by promoting small workshop developments within communities and home working in appropriate locations. In a limited number of cases, existing employment land is identified as being suitable for potential residential development.

The council's preferred use of the former Vion plant in Broxburn is to allocate the site for housing.

The preferred approach would also include meeting the requirements of the SDP in full.

### Alternative approach

The council's *Alternative* approach to employment land is to restrict the range of uses which can be accommodated on employment sites, and to seek to augment the existing portfolio (including Linhouse) by identifying new strategic or local employment sites beyond existing allocations and SESplan requirements to maximise land availability and choice for potential employers. This would, however, result in an oversupply of employment land and could see large employment estates located in non-sustainable, greenfield locations that could have associated local traffic, infrastructure and environmental impacts.

In relation to the former Vion plant at Broxburn the council's alternative approach is to continue to allocate the site for employment use.

### Question 5

Do you agree with the 'Preferred' approach to employment land which would introduce an opportunity for a broader range of land use to be supported within existing employment land allocations and industrial estates?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 6

Do you agree with the 'Alternative' approach to employment land?

YES     NO     Don't know

Do you have any additional comments?

### Question 7

Do you have any other alternative approaches? What are they and how would you make them work?

### Question 8

Has the council identified enough employment land in West Lothian to meet requirements and are the larger employment sites in the right locations?

YES     NO     Don't know

Do you have any additional comments?

### Question 9

Do you agree that the single user employment site at Linhouse, Livingston (ELv54) should be sub-divided for employment and mixed uses, including residential use of up to 250 houses?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 10

Do you agree that the former strategic employment allocation at Eliburn, Livingston (ELv25) should continue to be promoted for employment uses but not as a single user site?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 11

Do you agree that a site at Balgornie Farm, north of Whitburn, should be allocated for strategic employment land purposes?

If not, why not?

What other locations would you suggest?

YES     NO     Don't know

Do you have any additional comments?

## Main Issue 2: **Community Regeneration** (paragraphs 3.31 - 3.34)

Where should the focus for community regeneration in West Lothian be and what should this seek to deliver?  
How can the LDP incentivise development to take place within regeneration areas?  
How can the LDP support the council's Regeneration Plan?

### **Preferred approach**

The council's preferred approach to community regeneration is to focus regeneration initiatives on areas identified in the Scottish Index of Multiple Deprivation 2012. This principally includes the smaller settlements in the west of West Lothian identified as Armadale, Blackburn, Blackridge, Fauldhouse, Stoneyburn and Whitburn. Other areas include Bathgate and Boghall and settlements within the Breich Valley where headline levels of disadvantage including unemployment, financial exclusion, poor health and lower education attainment have been identified.

These communities are often characterised by a range of factors which can include high levels of unemployment, low income, lower levels of education attainment, and access to services. To create more balanced communities, address issues of multiple deprivation and to attract private sector investment it is proposed to seek to identify initiatives to generate more investment in these communities.

### **Alternative approach**

The council's alternative to community regeneration is to not pursue regeneration objectives through the development plan and to rely solely on other council led regeneration initiatives.

### **Question 12**

Do you agree with the 'Preferred' approach to community regeneration in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### **Question 13**

Do you agree with the 'Alternative' approach to community regeneration in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### **Question 14**

Do you have any other alternative approaches?

What are they and how would you make them work?

### Main Issue 3: Housing Growth, Delivery and Sustainable Housing Locations (paragraphs 3.35 - 3.63)

How much new housing is required in West Lothian?

Where should new housing development take place, and where should it not be encouraged?

How can the risks associated with the existing development strategy as set out in the *West Lothian Local Plan* be reduced?

How can the rate of house building in West Lothian be increased to ensure that the required five year effective housing land supply is achieved and that the assessed housing need and demand is met in full over the plan period?

#### Preferred Strategy

The council's preferred strategy is scenario 3 to provide for more housing than the minimum required by the supplementary guidance required to support the SDP and the LDP should allocate housing land for an additional 3,500 houses above existing committed development. This would result in a level of development beyond requirements set out in the housing supplementary guidance to support the SDP. However, this scenario is only preferred if the council can be satisfied that the infrastructure required to support this scale of development can be delivered in full and also in recognition that it is not anticipated that this increased allowance will be delivered by 2024 but is there to allow for the delivery of development into the period 2024-2032.

This recognises that the strategy in the existing adopted local plan is reliant to some extent on a limited number of large, complex sites with high infrastructure costs being brought forward. It is now considered that a range of smaller housing sites, in various locations across West Lothian, is needed in order to provide for greater choice and effectiveness of sites, introduce local flexibility for the LDP and to ensure that a generous housing land supply is available, providing as a minimum, an effective five year housing land supply at all times, as required by SPP.

There is also a need to sustain the momentum built up in some of the existing large housing growth areas and make sure that these developments are viable going forward. Modest additional allocations in some of these areas will provide a degree of future proofing of the plan and help meet part of the need and demand for housing beyond the end of the plan period. Much of the existing housing land supply in core development areas and elsewhere will not be built out within the plan period and allocating additional housing sites in these areas through the LDP will help to maintain investor confidence and inform investment planning.

The allocation required by the draft supplementary guidance prepared by SESplan of 2,130 new houses beyond existing allocations of 22,847 units provides for a total of 24,977 units over the period 2012-2024.

By contrast, the preferred strategy proposes 26,347 houses which provides 3,500 houses above the base supply houses which is an increase of around 15% above the base supply.

This scale of housing allocation will reduce the risk of the LDP development strategy not being successful and is justified on the basis of:

- the need to maintain a five year supply of effective housing land at all times as required by Scottish Government planning policy;
- the need to ensure that there is a generous supply of housing land to accommodate the needs and demands of those seeking a house in West Lothian;
- the need to maintain West Lothian's attractiveness as an area which provides a range and choice of housing sites for those wishing to invest;
- linking the council's Economic Strategy to that of the housing market by providing a range and choice of house types suitable to indigenous and inward investors and the construction industry;
- providing for future affordable housing build programmes;
- continuing to redevelop appropriate brownfield sites;
- allowing the WLLP core development allocations and the strategic allocation at Heartlands, Whitburn to deliver over the long term whilst achieving the five year effective supply through the allocation of predominantly small to medium sized sites where requirements for infrastructure to assist delivery are less onerous on developers;
- allocating above 3,500 will generate the need for a 4th new secondary school which will be expensive to deliver in addition to existing infrastructure commitments;
- replacing allocations in the adopted *West Lothian Local Plan* which may no longer be supported by the site owners or due to reasons of development viability; and
- recognising that as the LDP progresses some housing sites may be delayed or may no longer come forward for a variety of reasons including unexpected development viability.

The preferred strategy is based around an aspiration for growth aimed at delivering sustainable economic prosperity and quality of life for communities in West Lothian and in particular building on the existing significant core development area allocations and strategic sites and will provide a broader range of housing sites.

### Alternative Strategy 1

Alternative Strategy 1 reflects scenario 2 set out above and proposes that the LDP should allocate housing land for an additional 2,600 houses, above existing committed development. This would result in a level of development beyond SDP requirements set out in the draft supplementary guidance.

This proposes allocating land for 25,447 houses i.e. 2,600 houses above existing commitments to provide a housing land supply which is around 1.4% more than SDP requirements. This alternative strategy 1 is a variation on the preferred strategy but with a smaller increase in housing allocations above the minimum requirement in the SDP. Whilst Alternative Strategy 1 will provide more choice than Alternative Strategy 2 (see below) there is a risk that the housing supply will not be regarded as sufficiently generous and that an effective five year housing land supply will not be available at all times because existing large sites are taking longer to get underway and build out. This could mean that other sites not allocated for development could be promoted for development and receive planning permission contrary to the development plan. Where the five year land supply is not maintained this could leave the council open to planning by appeal.

### Alternative Strategy 2

Alternative Strategy 2 reflects scenario 1 set out above and proposes that the LDP allocates housing land for an additional 2,130 houses above existing committed development. This would result in the requirement set out in the draft supplementary guidance being met but would not allow for any flexibility. A total of 24,977 houses, i.e. 2,130 houses above existing commitments, as required by the supplementary guidance for the SDP but with no flexibility allowance for additional development. This strategy represents a view that West Lothian should grow more slowly.

Whilst this alternative strategy may have certain attractions in terms of minimising impact on the environment and the need for additional infrastructure, it may mean that an effective five year housing land supply is not maintained at all times and could lead to relative economic decline whereby neighbouring authorities supporting higher growth scenarios, are better placed to take advantage of a potential economic upturn and recovery. Where the five year land supply is not maintained this could leave the council open to planning by appeal.

All of these reasons require to be balanced against the need to secure sustainable well located development, protect important environmental assets and landscapes of West Lothian and to have regard to impacts on existing communities and existing and future infrastructure requirements which are likely to arise. This will allow the LDP to focus on improving the quality of our existing established communities, facilities and environment as opposed to being negative in terms of other authorities benefitting from an upturn and the issue of planning by appeal and review a potential increase in housing numbers in the next LDP if economic recovery has indeed taken place in the first plan period.

### Question 15

Do you agree with the 'Preferred' strategy for housing growth in West Lothian?

If not, why not?

YES  NO  Don't know

Do you have any additional comments?

*Whilst the positive MIR strategy is noted, the actual housing land requirements and associated calculations are not supported. WLC must meet the needs of both SESplan periods as well as maintaining a 5 year effective land supply. A one-page assessment of WLC's housing land requirement is contained within the supporting document (A3 pdf file). In summary however, SESplan Supplementary Guidance (as modified) requires both 2009-19 and 2019-24 requirements to be met in full by WLC, i.e. 11,420 and 6,590 units respectively. SPP requires an additional minimum flexibility allowance (10%). This equates to targets of 12,562 & 7,250 for each period. Deducting 09-13 completions (1825), provides net pre-19 requirement of 10,737 (& 5 yr ELS of 8,950). Based on the agreed 2013 HLA and rolled forward programming, existing supply is 4,336 (2013-19) + 3,381 (2019-24). WLC must, via the LDP, meet the shortfall of 6,401 units pre-2019 (10737-4336) & 3,869 2019-24 (7250-3381).*

### Question 16

Do you agree with 'Alternative Strategy 1' for housing growth in West Lothian?

If so, why?

YES  NO  Don't know

Do you have any additional comments?

### Question 17

Do you agree with 'Alternative Strategy 2' for housing growth in West Lothian? If so, why?

No

### Question 18

Do you have another alternative strategy?

What is it and how would you make it work?

*Yes - based upon revised housing land calculations contained within response to Q15, i.e. the LDP must provide additional land for 6,400 units pre-2019 and further additional land for 3,900 units 2019-24. Assuming LDP adoption in 2016, this requires an interim planning strategy if obligations are to be met. It is suggested that both preferred and alternative supported sites within the MIR should be used as a basis to support early planning applications (once MIR consultation has ended). This would provide an opportunity for site starts in 2015 to provide meaningful contributions to the pre-2019 target. Sites with education infrastructure options to deliver early completions should be prioritised.*

### Question 19

How can the council maintain an effective five year housing land supply given the current economic climate?

*As noted above, the 5 year effective land supply requirement (based upon agreed 2013 HLA) is 8,950 units (5 x 1790), based upon the pre-2019 net requirement of 10,737. This is clearly a highly challenging target and does not even take into account backlog shortfall. As per Q18, an interim planning policy to support applications on MIR-supported preferred and alternative sites is required. Site capacity for all these sites should primarily be based upon best use of land/resources to ensure densities and capacities are maximised. These sites have all been through an assessment process so the principle of development has been considered against transport, environment, infrastructure and sustainability factors.*

### Preferred Option

The council's preferred option is that some housing sites allocated in the adopted *West Lothian Local Plan* and identified in Housing Land Audit 2012 are not included in the LDP. Details of sites are set out in the Settlement Statements accompanying the MIR.

### Alternative Option

The council's alternative option is that all housing sites allocated in the adopted *West Lothian Local Plan* and identified in Housing Land Audit 2012 be included in the LDP.

#### Question 20

Do you agree with the 'Preferred' option for the removal of existing housing allocations from the development plan?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 21

Do you agree with the 'Alternative' option for the removal of existing housing allocations from the development plan?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 22

Do you have any other alternative options?  
What are they and how would you make them work?

YES     NO     Don't know

Do you have any additional comments?

### Preferred Approach to the Core Development Areas

The council's 'Preferred' approach to the core development areas is to continue to support their delivery and allow for further longer term allocations at Winchburgh.

### Alternative Approach to the Core Development Areas

The council's 'Alternative' approach is not to allow for any further development beyond that set out in approved master plans and the *West Lothian Local Plan*.

#### Question 23

Do you agree with the 'Preferred' approach to the core development areas?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 24

Do you agree with the 'Alternative' approach to the core development areas?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 25

Do you have any other alternative options?

What are they and how would you make them work?

YES     NO     Don't know

Do you have any additional comments?

**Preferred Approach to Heartlands, Whitburn**

The council's 'Preferred' approach to Heartlands, Whitburn is to look favourably on proposals for additional housing within the existing housing allocation, subject to infrastructure constraints being resolved.

**Alternative Approach**

The council's 'Alternative' approach is that the number of houses at "Heartlands" be restricted to 2,000.

**Question 26**

Do you agree with the 'Preferred' approach to Heartlands, Whitburn?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 27**

Do you agree with the 'Alternative' approach to Heartlands?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 28**

Do you have any other alternative options?

What are they and how would you make them work?

YES     NO     Don't know

Do you have any additional comments?

**Preferred approach**

The council's 'Preferred' approach to Linlithgow is that the "area of restraint" be re-considered to allow for greenfield release of housing, employment and potential tourist related development. Should the area of restraint be removed, any development would be dependent upon the delivery of a new secondary school at Winchburgh and therefore would be focussed principally in latter plan period. Any land release would follow a sequential approach as set out in paragraph 3.93

**Alternative approach**

The council's 'Alternative' approach to Linlithgow is that the "area of restraint" approach be maintained and that development be directed to brownfield opportunities within the existing settlement boundary in the first instance and thereafter greenfield release within the town.

**Question 29**

Should the definition of Linlithgow as an 'area of restraint' be removed, and if so, how should the town be developed in the future?

YES     NO     Don't know

Do you have any additional comments?

Should a sequential approach be applied to the release of land in and around Linlithgow to accommodate any new development?

YES     NO     Don't know

Do you have any additional comments?

**Question 30**

What alternatives are available in order to meet demand for housing (including affordable housing) and employment land opportunities in Linlithgow?

**Question 31**

Should land continue to be safeguarded for west facing slip roads on the M9 at Junction 3, Linlithgow? If so, should new development be promoted in Linlithgow to ensure that funding for these can be secured?

YES     NO     Don't know

Do you have any additional comments?

**Preferred approach**

The council's 'Preferred' approach to the Deans South estate, Livingston, is that the area be identified for comprehensive redevelopment for approximately 300 new houses.

**Alternative approach**

The council's 'Alternative' approach to the Deans South estate, Livingston, is that the LDP should not identify the area for comprehensive redevelopment for approximately 300 new houses.

**Question 32**

Do you agree with the 'Preferred' approach for addressing the Deans South estate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 33**

Do you agree with the 'Alternative' approach for addressing the Deans South estate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 34**

Do you have any other alternative approaches?

What are these and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

**Preferred approach**

The council's 'Preferred' approach to affordable housing is to review the terms of the current affordable housing policy and set this out in supplementary guidance.

**Alternative approach**

The council's 'Alternative' approach to affordable housing is to continue to implement existing policy.

**Question 35**

Do you agree with the 'Preferred' approach to affordable housing? If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 36**

Do you agree with the 'Alternative' approach to affordable housing? If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 37**

Do you have any other alternative approaches? What are they and how would you make them work?

YES     NO     Don't know

Do you have any additional comments?

## Main Issue 4: Infrastructure Requirements and Delivery

How can we ensure that new development in West Lothian makes best use of existing infrastructure?

How can we make sure that the cost of providing new infrastructure needed to support new development does not fall unduly on the tax payer?

How can we ensure that developer contribution costs are affordable and do not make the development of sites unviable?

### Infrastructure requirements and delivery – providing for community needs: education, healthcare and sports facilities

#### Preferred approach

The council's 'Preferred' approach to infrastructure provision, in particular education provision, is to promote additional growth which can for the most part utilise existing infrastructure capacity, and minimise additional significant new infrastructure requirements over and above existing planned upgrades and requirements. Developer contributions will continue to be sought, the basis for which will be set out in a combination of generic and specific supplementary guidance. The council's preferred approach to infrastructure delivery is supported by Policy 9 of the SDP. The preferred approach is also to further develop funding mechanisms and supplementary guidance to assist in delivery.

#### Alternative approach

The council's 'Alternative' approach to infrastructure provision is not to promote growth particularly that which would require substantial investment in new infrastructure given the current limited ability of the development industry to deliver up-front funding for infrastructure projects. Such an approach, however, is unrealistic and contrary to national planning policy.

#### Question 38

Do you agree with the 'Preferred' approach to infrastructure provision? If not, why not?

YES     NO     Don't know

Do you have any additional comments?

*It is considered that land at Main Street, Dechmont accords with this policy and a two stage approach to education infrastructure can be applied whereby short term needs are accommodated within existing schools and medium to longer term needs through a new primary school once developer contributions or other funding mechanisms are secured.*

#### Question 39

Do you agree with the 'Alternative' approach to infrastructure provision?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 40

Do you have any other alternative approaches?

What are they and how would you make them work?

YES  NO  Don't know

Do you have any additional comments?

#### Question 41

How can the level of infrastructure required to support the scale of development proposed be delivered?

Do you have any additional comments?

*Urgent need to investigate alternative, long-term capital funding models to deliver early infrastructure.*

#### Infrastructure – transport and access in and around West Lothian (paragraphs 3.132 – 3.159)

##### **Preferred approach**

The council's 'Preferred' approach to promoting access to/from/within West Lothian is to address outstanding constraints in the strategic and local road network which are essential to accommodate community growth and in particular economic and housing growth and tackle existing traffic issues whilst promoting sustainable transport measures on an incremental basis in conjunction with new development, and as resources allow. Within this, the preferred approach is to promote development on or very near to existing public transport facilities or where there is potential for new facilities. This approach will help to sustain and improve services which in turn will become more attractive alternatives to the private car.

##### **Alternative approach**

The council's 'Alternative' approach to promoting access to/from/within West Lothian is to shift emphasis away from addressing road network issues to focus exclusively on sustainable transport measures, however, this is not considered a reasonable alternative given the commitment to strategic road improvements through NPF2, the SDP and the need to accommodate existing committed development across West Lothian.

Given physical, policy and resource constraints, it is not considered that there are any other reasonable alternatives to the preferred approach.

#### Question 42

Do you agree with the 'Preferred' approach to promoting access to/from/within West Lothian?

If not, why not?

YES  NO  Don't know

Do you have any additional comments?

#### Question 43

Do you agree that the council should continue to work towards the provision of a new rail station at Winchburgh?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 44

Do you have any other alternative approaches?  
What are they and how would you make them work?

YES     NO     Don't know

Do you have any additional comments?

#### Main Issue 5: **Town Centres and Retailing** (paragraphs 3.160 – 3.171)

What do we need to do to promote and sustain our traditional town centres in West Lothian and consolidate the sub-regional centre at Almondvale, Livingston?

#### **Preferred approach**

The council's 'Preferred' approach to town centre retail provision in West Lothian is to:

- sustain and improve town centres by applying the sequential approach to proposals for retail and leisure development;
- reduce leakage from some areas in accordance with the council's Retail Capacity Study;
- facilitate the creation of a new town centre in Winchburgh;
- safeguard existing and promote new local neighbourhood centres: and
- bring about village and town centre improvements by highlighting development opportunities, supporting the development of brownfield sites, implementing improvements through the capital plan and, where appropriate, securing developer contributions.

The preferred approach includes removing retail policy restrictions currently in place in Bathgate and Linlithgow town centres to allow for a broader range of uses which will support the take up of empty units. In addition, initiatives to support and promote development above shops will be encouraged, subject to availability of infrastructure and to the operation of existing business premises not being unduly prejudiced.

### Alternative approach

The 'Alternative' approach is to:

- sustain and improve town centres by applying the sequential approach to proposals for retail and leisure development;
- reduce leakage from some areas in accordance with the council's Retail Capacity Study;
- facilitate the creation of a new town centre in Winchburgh;
- safeguard existing and promote new local neighbourhood centres: and
- bring about village and town centre improvements by highlighting development opportunities, supporting the development of brownfield sites, implementing improvements through the capital plan and, where appropriate, securing developer contributions.

This approach excludes removing current retail policy restrictions in place in Bathgate and Linlithgow town centres.

### Question 45

Do you agree that the 'Preferred' approach to town centres and retail provision in West Lothian is appropriate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 46

Do you agree with the 'Alternative' approach to town centres and retail provision in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 47

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

## Main Issue 6: The Natural and Historic Environment (paragraphs 3.172 – 3.213)

How can planning policy promote sustainable patterns of development to protect our valued landscapes, built and cultural heritage and create a green network across West Lothian?

### Preferred approach

The council's 'Preferred' approach to the West Lothian natural environment is to direct development to appropriate brownfield sites within settlements in the first instance but also to bring forward the release of greenfield sites in sustainable locations where there are no alternatives in order to meet strategic requirements. When considering greenfield release the council will have regard to the LLDR and other relevant factors, particularly sustainability but also issues of townscape and settlement coalescence. This may allow for some release of new development sites on the edge of settlements, thereby maximising use of existing infrastructure, whilst protecting visual amenity and the biodiversity value of the countryside and preventing coalescence of settlements.

In some instances it may be necessary to extend countryside and landscape designations to protect the purposes for which the land was designated be it landscape value, landscape character and landscape enhancement, buffers to coalescence of settlements, protection of prime quality agricultural land and historic gardens and designed landscapes in West Lothian.

### Alternative approach

The 'Alternative' approach to the West Lothian natural environment and landscapes is to focus less on brownfield land and allow parts of designated areas to be released for housing or employment development.

#### Question 48

Do you agree with the 'Preferred' approach to the natural environment in West Lothian?

If not, why not?

YES  NO  Don't know

Do you have any additional comments?

*Priority should be given to sites outwith Special Landscape Areas which can demonstrate appropriate design and landscaping measures to mitigate impact.*

#### Question 49

Do you agree with the 'Alternative' approach to the natural environment in West Lothian?

If not, why not?

YES  NO  Don't know

Do you have any additional comments?

### Question 50

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

Landscape approach and designation (*paragraphs 3.172 - 3.170*)

### Preferred approach

The council's 'Preferred' approach to landscape designations is to reduce the number of landscape designations in order to reflect the findings of the Local Landscape Designation Review and identify candidate Special Landscape Areas (cSLA). Special Landscape Areas will replace AGLVs and Areas of Special Landscape Control. This approach is in accord with best practice and guidance prepared by Scottish Natural Heritage and Scottish Government.

### Alternative approach

The council's 'Alternative' approach to landscape designations is to continue with the current approach, relying on existing policies and designations. This would not achieve the goal of updating and simplifying landscape designations in accordance with current best practice and national guidance.

### Question 51

Do you agree with the 'Preferred' approach to landscape designations in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

*Given the SLA assessment process is up to date, this should be utilised as a basis for development site selection, i.e. priority to sites outwith SLA's.*

### Question 52

Do you agree with the 'Alternative' approach to landscape designations in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 53

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

Development in the countryside (*paragraphs 3.180 – 3.181*)

#### **Preferred approach**

The council's 'Preferred' approach to housing development in the countryside is to continue to support development in appropriate circumstances for example, sensitive redevelopment of steadings; limited enabling development to secure restoration of historic buildings or structures; and replacement of houses in a habitable condition. Existing Supplementary Guidance will be updated to clarify the circumstances in which development will be permitted, and the design standards expected. The current flexibility in policies on business and tourism development in the countryside will be maintained and it is proposed to carry forward the existing policy on 'very low density rural housing in the countryside' otherwise known as 'lowland crofting' but only in the west of West Lothian.

#### **Alternative approach 1**

The council's first 'Alternative' approach to housing development in the countryside is to allow relaxations to current policies, potentially by permitting more redevelopment of rural brownfield land for housing. However, this approach is inherently non-sustainable as it would result in development which is remote from services and could lead to a proliferation of undesirable, sporadic development in the countryside.

#### **Alternative approach 2**

The council's second 'Alternative' approach to housing development in the countryside is not to maintain the current policy approach. This would include a review of the current 'lowland crofting' policy.

### Question 54

Is the 'Preferred' approach to housing development in the countryside appropriate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 55

Do you agree with any of the 'Alternative' approaches to housing development in the countryside?

YES     NO     Don't know

Do you have any additional comments?

### Question 56

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

[Business, tourism and recreational uses in the countryside \(paragraph 3.182\)](#)

### **Preferred approach**

The council's 'Preferred' approach to business, tourism and recreational uses in the countryside is to generally continue with the current policy approach set out in existing supplementary guidance.

### **Alternative approach**

The council's 'Alternative' approach to business, tourism and recreational uses in the countryside is to allow relaxations to current policies. However, this approach could lead to a proliferation of undesirable development in the countryside.

### Question 57

Do you agree with the 'Preferred' approach to business, tourism and recreational uses in the countryside?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 58

Do you agree with the 'Alternative' approach to business, tourism and recreational uses in the countryside?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 59

Do you have an alternative approach?  
What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

[Green Networks, and extension to Pentland Hills Regional Park \(paragraphs 3.183 – 3.189\)](#)

### **Preferred approach**

The council's 'Preferred' approach to the green network is to define the part of CSGN in West Lothian as a network of multi-functional green corridors focussing on the existing network. This would build on the existing initiatives extending the network into the rural hinterland to connect with adjacent local authorities existing and emerging networks, and penetrating into urban areas, linking with the council's Open Space Strategy and Core Paths Plan.

### **Alternative approach**

The council's 'Alternative' approach to the green network is to maintain the existing green spaces in their present form, with a clear urban fringe focus. This would continue to prioritise resources closest to the places people live and work, but would fail to capture the wider focus of the CSGN to link existing and new green spaces into wider multi-functional green networks.

### Question 60

Do you agree with the 'Preferred' approach to the green network in West Lothian?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 61**

Does the proposed West Lothian wide green network capture the best strategic opportunities or are there any missing links?

YES     NO     Don't know

Do you have any additional comments?

**Question 62**

Do you have any suggestions for a green network across West Lothian?

YES     NO     Don't know

Do you have any additional comments?

**Question 63**

Do you have any suggestions for a green network across West Lothian?

YES     NO     Don't know

Do you have any additional comments?

**Question 64**

Do you have an alternative approach? What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

### Question 65

What are your views on the proposed extension to the Pentland Hills Regional Park in West Lothian?

YES     NO     Don't know

Do you have any additional comments?

Biodiversity and Geodiversity (*paragraphs 3.190 – 3.197*)

### Preferred approach

The council's 'Preferred' approach to biodiversity and geodiversity sites is to review and update the existing list of locally designated sites (Wildlife Sites and Regionally Important Geological/Geomorphological Sites RIGS) and to protect and promote improvements to them through Supplementary Guidance where appropriate. Policy protection for carbon-rich soils will be reinforced.

### Alternative approach

The council's 'Alternative' approach to biodiversity and geodiversity sites would be not to promote Supplementary Guidance, but simply to map local sites within the LDP as at present. Whilst this might give the sites more prominence within the LDP, the process would be less functional.

### Question 66

Do you have any general or specific issues with the proposed list of Local Biodiversity Sites and Local Geodiversity Sites?

YES     NO     Don't know

Do you have any additional comments?

### Question 67

Do you agree with the 'Preferred' approach to Biodiversity and Geodiversity in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 68**

Do you agree with the 'Alternative' approach to Biodiversity and Geodiversity in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 69**

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

*West Lothian Open Space Strategy 2005-2015 (paragraph 3.198)*

**Question 70**

Do you have any views on what should be considered for the second Open Space Strategy for 2015/16?

Why should these be considered?

YES     NO     Don't know

Do you have any additional comments?

### Preferred approach

The council's 'Preferred' approach to the historic environment is to review the current range of policies related to the historic environment, updating where necessary to reflect changes in legislation, and to prepare supplementary guidance to protect and promote built heritage assets and to consider designating conservation areas at Abercorn village and Hopetoun Estate. In addition, conservation area appraisals of all conservation areas will be progressed where resources allow.

### Alternative approach

The council's 'Alternative' approach to the historic environment is to maintain the current approach to the historic environment and not to promote a conservation area at Abercorn village and Hopetoun Estate.

#### Question 71

Is the 'Preferred' approach to the historic environment in West Lothian appropriate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 72

Do you agree with the 'Alternative' approach to the Historic Environment in West Lothian?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 73

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

### Preferred approach

The council's 'Preferred' approach to Bangour Village Hospital site is to support at least 550 houses at the site, with the precise number of houses being agreed through detailed assessment of a master plan and other supporting information. Delivery of the site will be allied to the delivery of the infrastructure required to support the development whilst having regard to the built and natural environmental sensitivities of the site.

### Alternative approach

The council's 'Alternative' approach is that housing development at the Bangour Village Hospital site should be restricted to 500 units.

#### Question 74

Is the 'Preferred' approach to Bangour Village Hospital appropriate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

*Whilst it is noted that increasing capacity at Bangour will assist with overall infrastructure requirements, the need for supported sites to deliver early completions is urgent, as evidenced by the housing land requirement assessment. Main Street is a deliverable site that is the subject of a live application and can provide a site start in 2015. Timescales for Bangour are still not known, having been an allocated site for many years. Education capacity reserved for Bangour should be re-allocated to Main Street in the short term to deliver early housing completions.*

#### Question 75

Do you agree with the 'Alternative' approach to Bangour Village Hospital?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 76

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

### Preferred approach

The council's 'Preferred' approach to the former Bangour General Hospital site is to assess development proposals against development in the countryside policies in the LDP.

### Alternative approach

The council's 'Alternative' approach to the Bangour General Hospital site is to maintain the policy presumption in favour of development as set out in the *West Lothian Local Plan*.

#### Question 77

Is the 'Preferred' approach to Bangour General Hospital appropriate?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 78

Do you agree with the 'Alternative' approach to Bangour General Hospital?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

#### Question 79

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

### Preferred approach

The council's 'Preferred' approach to the Union Canal is to promote its tourism and recreational potential and to allow for sympathetic ancillary development at the most appropriate locations along its length, having regard as to how this best fits with the wider strategy being developed by Scottish Canals for the whole waterway and in consultation with other neighbouring local authorities.

The canal also has potential to be used as a means of sustainable transport, both for leisure and commercial purposes, and it is important that opportunities to enhance local use, access and bio-diversity are maximised.

Securing the long term maintenance of this important historic structure is also paramount and it is concluded that this is best achieved by ensuring that it is well used and has as diverse a range of functions as practicable.

The rural setting of the section of the Union Canal between Winchburgh and Broxburn should continue to be protected as countryside belt or as a candidate special Landscape Designation Area as identified in the draft Local Landscape Designation Review.

### Alternative approach

The council's 'Alternative' approach to the Union Canal is that no development, on or directly abutting it, and particularly in the countryside between Broxburn and Winchburgh, should be permitted. This is considered necessary in order to maintain the established setting of the Union Canal and to conserve its historic fabric. The only concession would be for necessary maintenance or for works to improve the canal and public access to it.

### Question 80

Is the 'Preferred' approach to the Union Canal appropriate?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 81

Do you agree with the 'Alternative' approach to the Union Canal?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 82

Do you have an alternative approach?  
What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

Public Art (*paragraph 3.213*)

### Preferred approach

The council's 'Preferred' approach to public art is to continue to seek developer contributions appropriate to the scale and type of development and to review supplementary guidance.

### Alternative approach

The council's 'Alternative' approach to public art is to cease requiring developer contributions for public art or to limit the circumstances under which contributions are required.

### Question 83

Do you agree with the 'Preferred' approach to public art?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 84

Do you agree with the 'Alternative' approach to public art?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 85

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

### Main Issue 7: **Climate Change and Renewable Energy** (paragraphs 3.214 - 3.225)

How can future patterns of development in West Lothian increase climate resilience and contribute towards meeting Scottish Government targets for reducing greenhouse gas emissions and increasing renewable energy?

#### **Preferred approach**

The council's 'Preferred' approach for renewable energy is to retain the supportive policy framework for renewable energy developments, extending it to all low carbon energy technologies and implement the terms of supplementary guidance for wind energy developments.

#### **Alternative approach**

The council's 'Alternative' approach for renewable energy is to retain the current criteria-based wind energy policy, without the support of a spatial framework. This is not considered to provide the necessary guidance for landowners or the industry, as required by Scottish Government and would not be in accordance with current best practice, Scottish Planning Policy and guidance.

### Question 86

Do you agree with the 'Preferred' approach to renewable energy?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 87

Do you agree with the 'Alternative' approach to renewable energy?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 88

Do you have an alternative approach?  
What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

Flood risk and management (*paragraphs 3.226 – 3.229*)

### Preferred approach

The council's 'Preferred' approach to flood risk is to maintain and update existing policies and supplementary guidance on flood risk, taking account of legislative requirements and emerging Scottish Government guidance, including the RBMP as appropriate.

### Alternative approach

The council's 'Alternative' approach to flood risk is to go beyond requirements and identify and protect areas of land for natural flood management as this will be a consideration in the new management plans.

### Question 89

Do you agree with the 'Preferred' approach to flood risk appropriate?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 90

Do you agree with the 'Alternative' approach to flood risk?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 91

Do you have an alternative approach?  
What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

Air quality and noise (*paragraphs 3.230 – 3.232*)

### Preferred approach

The council's 'Preferred' approach to air quality is to maintain and update existing policies on air quality, taking account of legislative requirements and any emerging Scottish Government guidance.

### Alternative approach

There are no reasonable alternatives to the preferred approach.

### Question 92

Do you agree with the 'Preferred' approach to air quality appropriate?  
If not, why not?

YES     NO     Don't know

Do you have any additional comments?

### Question 93

Do you have an alternative approach?  
What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

**Main Issue 8: Minerals and Waste** (paragraphs 3.233 – 3.246)

How can planning policy promote and ensure sustainable approaches to waste management and mineral resources in West Lothian?

**Minerals** (paragraphs 3.233 - 3.242)

**Preferred approach**

The council's 'Preferred' approach towards mineral extraction is to continue to implement the policy approach set out in the SDP and the adopted WLLP. The policy approach set out in these will however, be reviewed to take account of the guidance contained within SPP. This may be pursued through supplementary planning guidance.

**Alternative approach**

The council's alternative approach towards mineral extraction is to take a more liberal approach to opencast coal and hard rock extraction by widening the opencast coal "broad areas of search" and identifying the whole of West Lothian as an area of search for other minerals to be extracted, subject to environmental and residential amenity considerations and constraints, by identifying these areas and appropriate buffers beyond which the search for minerals could take place.

**Question 94**

Do you agree with the 'Preferred' approach to mineral extraction?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 95**

Do you agree with the 'Alternative' approach to mineral extraction?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 96**

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

**Preferred approach**

The council's 'Preferred' approach towards waste management is to support the objectives of the Zero Waste Plan, to accommodate new provision through extensions to existing recycling facilities, or in other suitable areas and to provide a policy framework which supports the development of these facilities.

**Alternative approach**

The council has not identified a reasonable alternative approach to the preferred approach.

**Question 97**

Do you agree with the 'Preferred' approach to waste management?

If not, why not?

YES     NO     Don't know

Do you have any additional comments?

**Question 98**

Do you have an alternative approach?

What is it and how would you make it work?

YES     NO     Don't know

Do you have any additional comments?

## Additional information

Extra page for additional information you want to give on question(s). Please state the question number text refers to.

*Q15 - Housing Strategy: Dechmont Settlement Statement*

*Spatial Strategy - the need to maintain the school roll within Dechmont Primary School is noted and supported. As stated within the Strategy assessment for Dechmont, "the availability of infrastructure, strategic location, and existing facilities makes the village an attractive option for future development".*

*Preferred and Alternative Housing Sites - The inclusion of Site Ref.EOI-0166 - Main Street - as a preferred site for housing is supported. However, the proposed site capacity is not supported, as indicated within the development proposals schedule. The site is currently the subject of a planning application (including the preferred site and an area currently within settlement boundary). This application outlines how an approximate capacity of 120 No. units can be comfortably accommodated within the site and this representation seeks to reiterate the justification for this scale. The committed housing site at Bangour Hospital (Ref.EOI-0034) is noted as a long-standing development aspiration. It is considered that housing can be accommodated within both Bangour and Main Street sites but the on-going delays to development at Bangour due to complex site issues, including significant listed buildings, require a short term housing outlet to address housing need. The inclusion of a preferred housing site at Burnhouse Road (Ref.PJ-0006) is objected to. As noted hereafter, this site (allocated for 120 units) compares poorly with Main Street and should be deleted from the LDP.*

*Main Street Current Proposal - The current planning application in principle (August 2014, Ref.0586/P/14) is for residential development for approximately 120 units including landscaped open space, new woodland planting, SUDS and new path links (layout included within supporting report - the eastern woodland boundary was increased significantly following pre-application discussions).*

*MIR Strategic Environmental Assessment - The MIR refers to a capacity of 30 units for Main Street. This notional capacity is questioned in terms of its validity with particular regard to the MIR's supporting SEA which states that, "land between the edge of Dechmont settlement envelope and the A899 represents a logical area for the village to extend into, with the A899 providing a clear defensible boundary...". The assessment goes on to say that, "this general area, close to Dechmont roundabout on the A89, is already quite urbanised, more so with the recent opening of Dobbies and the justification for sustaining the Livingston Countryside designation here is just that little bit less convincing than it perhaps once was."*

*Implications of existing Site Capacity - A development of 30 units would either be extremely low density based on the preferred site boundary or requiring a new, artificial defensible eastern boundary and retention of a large area as undefined open space with no functional use or management.*

*Proposed Site Capacity - 120 units, as supported by full TA, LVIA, FRA and education capacity studies. No. of units also mirrors the allocation at Burnhouse Road referred to hereafter. Therefore, in general capacity terms, the proposed scale can be accommodated.*

*Proposed Site Density - The 120 units are contained within a net developable area of 3.4 hectares (8.4 acres) with the gross site area being 6.2 hectares (15.36 acres). This equates to a density of 19-35 dwellings per hectare (8-14 dwellings per acre) depending on whether gross or net site area is utilised. This is based upon a mix of cottage flats, terraced, semi-detached and detached units and the site layout allowing for approximately 2.8 hectares of amenity open space and landscaping of varying forms, comprising formal parks (c.2950m<sup>2</sup>), an extensive area on the south-eastern edge including playing field/play area, semi-natural greenspace, SUDS and woodland (c.11,100m<sup>2</sup>), woodland/landscaped buffers on northern/western edges (c.4,200m<sup>2</sup>) and a significant woodland buffer on the eastern site edge (c.10,050m<sup>2</sup>). Open space provision is in excess of standard requirements.*

*The indicative density generally accords with 'medium' density levels of 30 dwellings per hectare, as outlined within the adopted LP. As comparison, nearby Dechmont housing developments provide the following densities: Craiglaw (2 storey terraced/semi) 35-52 dwellings per hectare (83 units on 1.6 hectares or 2.4 hectares including adjoining roads and verge landscaping); Badger Wood (1&2 storey bungalows/detached) 17 dwellings per hectare (23 units/plots on 1.37 hectares); Burnhouse Drive (1 storey bungalows) 15 dwellings per hectare (16 units on 1.05 hectares); Deerhill (2 storey terraced/semi including open space) 30 dwellings per hectare (34 units on 1.12 hectares); Burnside (2 storey terraced/semi) 35 dwellings per hectare (48 units on 1.37 hectares).*

*Overall, it is considered that the proposals provide for a highly suitable density in terms of both policy guidance on medium density development, optimising the use of greenfield land and within the context of surrounding housing densities.*

*The eastern boundary (A899) is referred to within the Council's own LDP environmental assessment as the most appropriate long term boundary and the proposals provide for extensive woodland to create a strong visual barrier and edge to Dechmont.*

*In this respect, it is requested that the site capacity for Main Street is amended to 120 units.*

## **WEST Lothian Local Development Plan Main Issues Report – Equalities opportunities questionnaire**

We ask that you complete the following Equal Opportunities Questionnaire in order that we can build an accurate picture of the make-up and diversity of the people and groups that our policies impact on, and to ensure that the way in which we carry out our consultation is inclusive and not unwittingly discriminatory. If you are responding to this consultation, it would be helpful if you could complete the following questions.

*Thank you for taking time to complete this questionnaire*
