LINLITHGOW

WLL REF: - M1920224

Dear Sus

West Lothian Planning Department
Consultation on Main Issues Report

Re- your Preferred Plan Wilcockholm Farm

- Pilgrims Hill E010114 As a resident
of [REDACTED] Development of these fields

would seriously affect the Rural aspect
to the approach to Linlithgow which is one
of the reasons for rejection of the proposed

Housing developments in past years Also
as there is no mains Drains the existing

Houses in Edinburgh Road are all serviced
by septic tanks. The ground is also good

Agricultural land

In addition from the additional Houses
also the modest eastern expansion from
the Clarendon site accessing onto Edinburgh

Road at the Traffic lights at the Canal
Bridge will only lead to congestion.

If the vehicles from the proposed Houses
at Pilgrims Hill E01-0060 join the Edunkeigh
Road at the Marlbank junction together
with traffic from the existing car park
and former Greenpark garage all merge
to struggle first with the Buses the twists
and turns caused by the existing parking
spaces at the side of the road outside
Greenpark Cottages and at the Railway
Bridge it will only cause more chaos.
Yours faithfully,
